## HISTORY

The Queensland University of Technology (QUT) was created in January 1989 by redesignation of the Queensland Institute of Technology (QIT). However, QUT's origins go back to the beginning of technical and teacher education in Queensland when the Brisbane School of Arts was established in 1849. QIT had its origins in the Central Technical College, which was established in 1914 on what is now the University's Gardens Point campus. On its formation in 1965, QIT absorbed the professional courses offered by the Central Technical College and in its first year enrolled some 2000 part-time students.

In May 1990, QUT amalgamated with the Brisbane College of Advanced Education (BCAE), a large multi-campus institution specialising in the arts, business, education and the social sciences. BCAE was formed by an amalgamation that took place in January 1982, its precursors being the Kelvin Grove, Mount Gravatt and North Brisbane Colleges of Advanced Education and the Brisbane Kindergarten Teachers' College. These institutions were established, under other designations, in 1914, 1969, 1961 and 1907 respectively. The Mount Gravatt campus of BCAE was transferred to Griffith University in January 1990 prior to BCAE commencing amalgamation negotiations with QUT.

The institution resulting from the amalgamation of BCAE with QUT has retained the title Queensland University of Technology. It is a major university in the Australian context with a broad academic profile and an increasing involvement in research and postgraduate education. QUT has an enrolment of over 39,000 students and expectations of sustained growth. It currently has campuses at Carseldine, Kelvin Grove and Gardens Point, all in metropolitan Brisbane.

## MISSION

Within its mission statement QUT has identified three main goals:

### **Teaching**

To ensure that QUT graduates possess knowledge, professional competence, a sense of community responsibility, and a capacity to continue their professional and personal development throughout their lives.

### **Research**

To advance and apply knowledge germane to the professions and to the communities with which QUT interacts, and relevant to the enhancement of economic, cultural and social conditions.

### **Service**

To contribute to the development of Australia's international responsibility and competitiveness, to enhance QUT's relationship with the professions, and to increase community awareness of issues through professional service and social commentary.

QUT's planning framework comprises three levels of planning:

- Institutional plan (QUT Blueprint)
- Top level plans
  - Research and Innovation
  - Learning and Teaching
  - People and Culture
  - Finance and Infrastructure
- Faculty and Divisional plans.

## INFORMATION

In addition to the Handbook, the University produces a range of publications which the public can access. These include the Research and Consultancy Report, the Annual Report and the University's Manual of Policy and Procedures (MOPP). These publications are available in the University's libraries or may be obtained, on request, from the Registrar. The Annual Report and the MOPP are also accessible via QUT's website at [www.qut.edu.au](http://www.qut.edu.au).

All correspondence should be addressed to:  
 The Registrar  
 Queensland University of Technology  
 GPO Box 2434  
 Brisbane Qld 4001  
 Australia

QUT is subject to the *Queensland Freedom of Information Act 1992* which commenced on 19 November 1992.

## ORGANISATIONAL STRUCTURE

The QUT organisational structure consists of the Chancellery, eight faculties, QUT Carseldine, and five divisions. Some courses are taught at Caboolture.

The faculties are:

- Built Environment and Engineering
- Business
- Creative Industries
- Education
- Health
- Information Technology
- Law
- Science.

The divisions are:

- Administrative Services
- Finance and Resource Planning
- Information and Academic Services
- International and Development
- Research and Advancement.

## PRINCIPAL DATES

---

### PUBLIC HOLIDAYS 2005

3 January	New Year's Day
26 January	Australia Day
25 March	Good Friday
26 March	Easter Saturday
28 March	Easter Monday
25 April	ANZAC Day
2 May	Labour Day
13 June	Queen's Birthday
17 August	Royal National Show
28 December	Christmas Day
27 December	Boxing Day

### SEMESTER 1, 2005

28 February-4 March	Week 1
7-11 March	Week 2
14-18 March	Week 3
21-25 March	Week 4
28 March-1 April	Vacation
4-8 April	Week 5
11-15 April	Week 6
18-22 April	Week 7
25-29 April	Week 8
2-6 May	Week 9
9-13 May	Week 10
16-20 May	Week 11
23-27 May	Week 12
30 May-3 June	Week 13
6 June	Classes in lieu of Good Friday Holiday
7 June	Classes in lieu of Anzac Day Holiday
8 June	Classes in lieu of Labour Day Holiday
6-10 June	Exam Preparation
11-18 June	Exams
20-25 June	Exams
27-28 June	Exams
4-8 July	Vacation
11-15 July	Vacation

### SEMESTER 2, 2005

18-22 July	Week 1
25-29 July	Week 2
1-5 August	Week 3
8-12 August	Week 4
15-19 August	Week 5
22-26 August	Week 6
29 August-2 September	Week 7
5-9 September	Week 8
12-16 September	Week 9
19-23 September	Week 10
26-30 September	Vacation
3-7 October	Week 11
10-14 October	Week 12
17-21 October	Week 13
24 October	Classes in lieu of Royal National Show Holiday
24-28 October	Exam Preparation
31 October-5 November	Exams
7-12 November	Exams
14-19 November	Exams

### SUMMER PROGRAM 2005/2006

21-25 November	Week 1
28 November-2 December	Week 2
5-9 December	Week 3
12-16 December	Week 4
19-23 December	Week 5
26-30 December	Vacation
2-6 January 2006	Week 6
9-13 January	Week 7
16-20 January	Week 8
23-27 January	Week 9
30 January-3 February	Week 10
6-10 February	Week 11
13-18 February	Week 12/Examinations
20-25 February	Examinations/Orientation Week
27 February	First semester 2006 commences

## COUNCIL

Composition, membership, powers and responsibilities of QUT Council are governed by the QUT Act 1998 (see MOPP Appendix 1). Procedures for regulating the University's committee system, including conduct of business by Council, are detailed in Council Procedure 1 — Committees (see MOPP Appendix 2).

QUT Council comprises senior members of the professions for which QUT prepares graduates; appointees from higher education, government, commerce and industry; elected staff, students and members of Alumni, and the University's chief executive officer. Council is responsible for the good governance of the University.

Council is empowered to establish committees and to delegate power to committees or officers of the University. While Council is ultimately responsible for the management and operation of QUT, it has delegated authority to the chief executive officer, the Vice-Chancellor, and to various senior administrators of QUT for much of the day-to-day management of the University (see MOPP Appendix 3). Council has also established a number of committees, some of which have been authorised to make decisions in respect of prescribed policy and procedural matters.

### COUNCIL MEMBERSHIP (AS AT 21 NOVEMBER 2004)

#### Chancellor (Chair)

Major General P. (Peter) Arnison, AC, CVO (Retd), BEc DLaws *Qld*, DUniv *QUT*, DUniv *Griff*, DLetters *S Qld*, FAICD, ASIA

#### Vice-Chancellor

Prof P. (Peter) Coaldrake, BA(Hons) *James Cook*, PhD *Griff*, FAIM, FRIPAA

#### Nominees of the Minister for Education

Dr T. (Terry) Cutler, BA(Hons) *Melb*, PhD *NSW*, DUniv *QUT*. Principal, Cutler & Company Pty Ltd

Mr K. (Keith) Hilless, BE(Elec) *Qld*. Chairman, Ergon Energy

Mr S. (Stephen) Keim, BA LLB(Hons) *Qld*. Barrister

Ms C. (Carolyn) Male MP, DipT. State Member for Glasshouse

Dr E. (Elizabeth) Mellish, EdD (Leadership) *QUT*. Director, Mellish and Associates

Mr C. (Chris) Sarra, DipTeach BEd MED *QUT*. Principal, Cherbourg State School

Ms U. (Ushci) Schreiber, BA, GCM. Deputy Director-General, Policy Division, Department of the Premier and Cabinet

Ms R. (Rosemary) Vilgan, BBus *QUT*. Chief Executive Officer, Government Superannuation Office

#### Nominee of the Director-General of Education

Mr N. (Neil) Whittaker, BComm *James Cook*, CertCivEng *QIT*. Assistant Director-General, Office of Resource Services, Education Queensland

#### Nominees of Council

Vacant

Vacant

#### Elected Professional Staff Members

Mr M. (Martin) Waterworth, BSci *Lond*. Division of Technology, Information and Learning Support

Ms D. (Denise) Redfern, BA *W Aust*, Hons *UCQ*, DipEd *Syd*, GradCert(Services Comm) *C Qld*. Faculty of Built Environment and Engineering

#### Elected Academic Staff Members

Dr R. (Bob) Cope, CertT *Sydney TC*, BEd(Hons) *James Cook*, MEdSt *Qld*, PhD *QUT*. Faculty of Education

Mr R. (Ross) Daniels, BA(SocWk) BA(Econs) MSPD *Qld*. School of Humanities and Human Services, QUT Carseldine

Prof J. (John) Gough, MSc PhD *Well*. Faculty of Information Technology

#### Elected Student Members

Vacant

Vacant

#### Elected Alumni Members

Mrs M. (Marie-Claire) Grady, AssocDipBus(Mgt) AssocDip-Bus(Marketing) *Tafe Qld*, BBus(HRM) MBus *QUT*. Consultant, SMS Management & Technology

Dr G. (Graham) Drummond, Dip(C Eng) GradDip(BusAdmin) DUniv *QUT*. Professional Director

#### Secretary

Dr C. (Carol) Dickenson, BBus *QIT*, PhD *Qld*. Registrar

#### Deputy Vice-Chancellor, Academic (attends by invitation)

Prof D. (David) Gardiner, BA LLB LLM(Hons) *Syd*. Deputy Vice-Chancellor

#### Tenure

Council serves a three-year term from 21 November 2004.

## COMMITTEES

QUT committees form the major decision-making structure of the University and student representation is provided for on both University and faculty committees. The major University committees that have student representation as part of their membership are:

- Academic Policy and Procedures Committee
- Appeals Committee
- Community Service Advisory Committee
- Cultural Diversity Committee
- Disability Services Committee
- Equity Awards Committee
- Equity Board
- Outstanding Contribution Award (Academic Staff) Committee
- Outstanding Contribution Award for Professional Staff Committee
- QUT Council
- Teaching and Learning Committee
- University Academic Board
- University Health and Safety Committee

QUT encourages student representation on the above committees. If you are interested in finding out more information about University committees contact the Secretariat on 07 3864 2380. If you wish to find out how to become a student representative member of any of the above committees contact the Student Guild on 07 3864 1666.

## CHANCELLERY

*Vice-Chancellor:* Professor O.P. Coaldrake, BA(Hons) *James Cook*, PhD *Griff*, FAIM, FRIPAA

*Deputy Vice-Chancellor (Academic):* Professor D.G. Gardiner, BA LLM(Hons) *Syd*

*Director, Academic Policy and Programs:* Dr D.W. Field, BSc(Hons) PhD *Adel*, DipT *Adel CAE*, FAIP

*Director, Efficiency and Audit:* S. Patel, BA(Acctg) *S Pacific*, CPA

*Director, Marketing and Communication:* P.H. Hinton, BA *Qld*  
*Manager, Oodgeroo Unit:* V. Hart

## DIVISION OF ADMINISTRATIVE SERVICES

*University Registrar and Head, Administrative Services:* Dr C. Dickenson, BBus *QIT*, PhD *Qld*

*Director, Student Support Services:* R.P. Morley, BBus *QIT*, MAdmin *Griff*

*Director, Student Business Services:* K. Grgic, BA GradDipEd *Adel*, GradDipLib *S Aust* *Institute of Technology*, MAppSci *C Sturt*, AFAIM, MAHRI

*Director, Human Resources:* G. MacAulay, BBus GradCert (Mgmt) GradDipBusAdmin(Distinction) *QUT*

*Associate Director, Human Resources Client Services:* W. Ryan, BSc(Hons) *Qld*, MBus(Mgt) *QUT*

*Associate Director, Human Resources Health and Safety Advisory Services:* S. Lusan, DipAppSci(ComNursing) BBus(Comm)(Distinction) *QIT*, MPhil (Qual) *Griff*, RN, RM

*Director, Facilities Management:* M. Frowd, BEng(Hons) *QIT*, MEngSc *Mon*, MEngSc *QUT*, GradDipMgtStud *RAAFC*, GradDipMgt *Deakin*, FIEAust, CPEng

*Associate Director, Campus Services (Gardens Point/Kelvin Grove/Carseldine):* D.W. Spann, BA *Qld*

*Associate Director, Major Projects:* A. Madan, BArch *New Delhi*, GradDipProjMgt *QUT*, MAIPM

*Associate Director, Operations:* A. Perrau, BEng(Hons) *Newcastle(NSW)*

*Associate Director, Capital Works:* B. Fenn, BSc *Birm*, MBA *Qld*

*Manager, Publications:* I.A. Wynne

*Manager, Secretariat:* S. Johnstone, BA *ANU*, DipConEd *NE*

*Coordinator, Equity:* M.A. Kelly, BA DipEd *Qld*

*Student Ombudsman:* Dr N. Bofinger, BSc *UNE*, PhD *Qld*, GradDipCompSci *QUT*

## DIVISION OF FINANCE

### AND RESOURCE PLANNING

*Executive Director, Finance and Resource Planning:* P.G. Sullivan, BBus *Brisbane CAE*, FCPA

*Director, Financial Services:* T.A. Leighton, BBus(Acctg) *Brisbane CAE*, FCPA

*Associate Director (Acting), Corporate Performance:* P. Alner, BInfoTech *Griff*, GradDipComm MBus(CommSt) *QUT*

*Associate Director (Acting), Financial Management:* L. Sharman, MBA *QUT*, BComm *Qld*, CPA

*Project Director, Kelvin Grove Urban Village:* S.W. Pincus, BSc *Griff*, GradDipAppEcon *Canberra*

*Associate Director, Strategic Information and Analysis:* P. Watson, BAdmin(Mktg) *Griff*

## DIVISION OF TECHNOLOGY, INFORMATION AND LEARNING SUPPORT

*Deputy Vice-Chancellor — Technology, Information and Learning Support:* T. Cochrane, BA *Qld*, MPhil *Griff*, AALIA

*Director, Information Technology Services:* N. Thelander, CMACS, PCP

*Director, Library Services:* G.M. Austen, BA(Hons) *Melb*, DipLib *Canb*, MBA *Qld*, AALIA

*Director, Teaching and Learning Support Services (TALSS):* N. Carrington, DipTeach *Griff*, GradDipResTeach *QUT*, MEd (SpecEd) MEd (Guid & Couns) *James Cook*, PhD *NE*

*Associate Director, Learning and Teaching Capabilities, TALSS:* H. Goss, DipTeach(Maths/Sci) *Mt Gravatt CAE*, BAppSci (CompSci) *QCU*, MACS, PCP

*Associate Director, Learning and Teaching Resources, TALSS:* A.M. Brown, BA *Melb*, DipEd *Rusden*, MEd *S Aust*

*Associate Director, Learning and Teaching Environments, TALSS:* G. Mitchell, BInfoTech(Hons) GradCertHigherEd *Griff*, PhD *Well*

*Associate Director (Acting), Learning and Teaching Development, TALSS:* A. Grenfell, BSc(Hons) DipEd PhD *Qld*

*Associate Director, Corporate Information Services:* J. Dascoli, BA *CU*

*Associate Director and Manager, Network Services:* R.A. Gorham, BE(Hons), DipCompSci *Qld*, MBA *Deakin*, MACS, AIMM

*Associate Director, Library Services, Development:* J. McCarthy, BA *Qld*, DipLib *NSW*

*Associate Director, Library Services, Information Resources:* C. Young, BA *Qld*, AALIA

## DIVISION OF RESEARCH AND COMMERCIALISATION

*Deputy Vice-Chancellor, Research and Commercialisation:* Professor A. Sharma, MSc *BITS*, PhD *SUNY Buffalo*

*Director, Research and Research Training:* Professor R.C. Wissler, BA(Hons) PhD *Qld*

*Manager, Office of Commercial Services:* C. Melvin, BBus(Mgmt) *QIT*, MBA *Qld*

*Manager, Office of Research:* Vacant

## DIVISION OF INTERNATIONAL AND DEVELOPMENT

*Deputy Vice-Chancellor, International and Development:* Professor S. Harding, BSc(Hons) *ANU*, MPubAdmin *Qld*, PhD *North Carolina*, FAICD, FAIM

*Director, International College:* E. McDade, TDipCom *Strath*, TCert *Jordanhill*, BEdSt *Qld*, MAcc *C Sturt*

*Director of Studies, University Entry Programs:* Vacant

*Director of Studies, English Language Programs:* I. McGregor, BA *Griff*, GradDipEd PGDipSocSc *Qld*, MEd (TESOL) *NE*

*Executive Director, QUT International:* S. Sheppard, BA *Griff*

*Director, International Policy and Communication:* H. Cook, BA DipEd MEd *Qld*, GDip BA *BCAE*

*Director, Program Development:* G. Edmondson, BA *Griff*

*Director, International Relations:* K. O'Brien, MA *Trinity*

*Director, University Advancement and Alumni:* S. Garske, BBus(Com) MBA *QUT*

*Director, Precincts:* Professor P. Lavery, BA DipEd *Qld*, DipD *Brist*, MLitt *NE*

The University may award medals known as Queensland University of Technology Medals to graduands of certain courses who have achieved an exceptionally high level of performance in their studies.

Eligibility to be considered for the award of a University Medal will be limited to:

- graduands of honours degrees where performance in the related bachelor degree is also taken into account
- graduands of degrees with honours, including components of double degree programs where awards with honours are made
- graduands of bachelor degrees of at least three years normal duration where no honours award is available, including relevant components of double degree programs where no honours award is available.

In completing one of the above degrees, graduands must have been enrolled at QUT for at least two years of full-time study or equivalent.

For graduands of double degrees, University medals are awarded as appropriate for each of the component degrees.

For the award of a medal, a graduand should have reached a distinguished academic standard based on a grade point average in all units and in a thesis where such is required. The standard should be at a higher level than would normally be expected from an excellent graduand. The medal should be testimony that the recipient not only shows exceptional academic promise at the time of the award, but also exhibits a distinguished record of achievement throughout the whole of the degree.

Because the University Medal is awarded only for outstanding achievement, University Academic Board has indicated as a guide to faculties that the proportion of graduands who may receive medals in any year should normally be not more than one per 200 bachelor-level graduands (or part thereof) per faculty. It is possible that in some years faculties would choose not to recommend a medallist.

The award is a silver medallion, suitably embossed and inscribed, together with a certificate attesting the award. The medallion is 5.5 centimetres square with rounded corners. The QUT logo is embossed one side and the reverse carries an inscription citing the year of the award and the name of the awardee. Further details may be placed on the certificate.

---

## ACADEMIC AND STUDENT SUPPORT SERVICES

---

### Careers and Employment

Careers and Employment (C&E) assists enrolled students and recent graduates to make informed course and career decisions in order to reach their employment goals.

The C&E Website (<http://careers.qut.edu.au>) is accessible to all QUT students and staff and provides:

- immediate, international, graduate and vacation job listings
- graduate destinations
- employment preparation information
- career planning website
- links to useful websites
- international discussion forum
- employer listings
- on-line resume builder
- workshops schedule
- career mentor scheme information
- online employer services

Other services to assist with employment preparation include:

- 24-hour resume checking service
- career counselling
- international career counselling
- employment preparation workshops
- career mentor scheme
- careers fairs
- career resource centres

### Chaplaincy

The University caters for the emotional and spiritual needs of students through the provision of chaplaincy services. The chaplaincy centres are ecumenical and, although the chaplains represent the major Christian denominations, they are also available to people of other religions. The chaplains are available at any time and are happy to discuss matters of a spiritual, religious, ethical or personal nature.

A chapel is available at the Gardens Point and Kelvin Grove campuses for quiet prayer, worship services and prayer meetings. The centre has a room with tea and coffee making facilities and is a good place in which to meet friends and make new ones. At Gardens Point, there is also a Muslim Mosque in rooms adjacent to the main chaplaincy rooms.

At Carseldine campus, the chaplain conducts weekly visits and ecumenical services as well as periodic Catholic Mass.

Chaplaincy Service locations:

Carseldine      Room C310

Gardens Point      Old Government House

(near entrance to the Library and U Block)

Kelvin Grove      Room A131 (ground floor near the Library)

You can also contact the chaplain on 07 3864 2086, mobile 041 464 2700 or email: [bj.clarke@qut.edu.au](mailto:bj.clarke@qut.edu.au)

### Computing and Technology Services

The **Student Computing Guide** covers essential computing information for QUT students. The guide is available on the web at [www.scg.qut.edu.au](http://www.scg.qut.edu.au). Details on finding student computer labs, using email, setting up your computer passwords etc can be found in this guide.

**QUT Virtual** is a large, integrated database that contains information relating to QUT students and their courses. Each student has a personal profile within QUT Virtual which displays information personalised to them. QUT Virtual is accessed using your QUT Access username and password. More information is located on the Student Computing Guide web site.

Features found within QUT Virtual include:

- online continuing and change to enrolment forms
- class timetables
- class allocations
- unit outlines
- booklists
- library borrowing information
- Internet access quota balances and usage history
- exam timetables
- exam results and academic history

QUT Virtual is located at: <https://qutvirtual.qut.edu.au>

**Internet access:** Each semester QUT provides students with a free Internet Access Service allocation to cover educational needs. Details about accessing and using the Internet through QUT can be found at <https://ias.qut.edu.au/>.

**Email:** All students are given access to the QUT student email service.

The student email service is accessed and used through the World Wide Web. Webmail is located at <http://email.qut.edu.au>. More information about using email at QUT is available at [www.scg.qut.edu.au](http://www.scg.qut.edu.au)

**Student Computing Helpdesk:** This service provides phone support for students using QUT's computing systems, needing to change passwords etc. Phone 07 3864 2898.

**Student Computing Labs:** Students can access the Internet, email, databases, lecture notes, tutorials and much more in the central student computing labs on each campus. Lab advisors are on hand in some central labs to provide assistance.

**Audiovisual Equipment:** Students have access to video camcorders, still cameras, mini-disk recorders, video projectors and a range of other equipment through the Audiovisual Services outlets at each campus. Studio and video duplication, video conversion, video editing and audio recording are also available. (In most cases prior approval from your lecturer is required. Hire fees apply without this approval).

## Counselling Service

Through offices on each of the campuses, the Counselling Service provides professional, confidential and free counselling to students. Students are welcome to contact the Counselling Service to make use of the services listed here.

**Personal counselling:** The Counselling Service provides opportunities for students to discuss, in confidence, issues and concerns including personal development/growth, relationship/family difficulties, stressful situations, grief, personal concerns, study and course difficulties.

**Welfare and advocacy:** The Counselling Service offers information, advisory, advocacy and referral services on a range of matters including finance, AUSTUDY, loan schemes, QUT rules, procedures and policies.

**Probation or withdrawal:** Students placed on probation or considering withdrawal from their course are strongly advised to discuss issues related to this situation with a counsellor.

**Workshops:** A range of personal development workshops is offered through the service. Details of these may be obtained from the Counselling Service on each campus.

**Appointments:** Students wishing to make an appointment should telephone or visit the Counselling Service at the campus most convenient to them. Appointments are available in two forms. A walk-in service of short appointments is available daily at each campus (note that Carseldine counselling service is only open Monday to Wednesday during semester). Longer appointments of 50 minutes are available for students who require more time.

Counselling Service locations:

Carseldine      Level 2, C Block

Phone: 07 3864 4539

Gardens Point    Level 1, Community Building

Phone: 07 3864 2383

Kelvin Grove    Level 4, C Block

Phone: 07 3864 3488

Web:              <http://www.counselling.qut.edu.au/web/>

## Equity Programs and Services

QUT strives to support cultural and social diversity in our student body by providing a learning environment which:

- promotes the principles of equity and social justice
- is inclusive and supportive of people from all backgrounds
- is free from discrimination and harassment.

QUT provides a range of support programs to help remove barriers to success faced by some students, including:

- students from low income backgrounds: admission, orientation and support services through the Q-Step Program. Phone 07 3864 3731;
- Aboriginal students and Torres Strait Islander students: admission, orientation and support services coordinated by the Oodgeroo Unit. See page 15 of this guide for information on services and look out for details on Aboriginal and Torres Strait Islander pre-orientation activities in the Orientation Program;
- people from non-English speaking backgrounds: language and learning skills support provided by International Student Services. See page 28 of this guide for more information;
- women studying in built environment or engineering: services and support provided through the Women in Built Environment and Engineering (WIBEE) Program. Phone 07 3864 2849;
- people with disabilities: assistance and support coordinated, or negotiated, by the Disability Officer. Refer to the Enrolment Guide and contact the Equity Section or visit [www.qut.edu.au/admin/equity/disability](http://www.qut.edu.au/admin/equity/disability) for a copy of the Guide for Students with Disabilities; and
- students who have experienced educational disadvantage: a support program for Human Services students who have experienced disadvantage from a disability, for example, or who are from a non-English speaking background. Phone 07 3864 4537.

## Health Service

Health and medical services are provided for all QUT students by nurse practitioners and doctors located on all campuses. Nurse practitioners are available to provide first aid treatment of injuries and acute illnesses occurring on campus. As well as routine medical services, the Health Service provides minor surgery including the removal of warts, moles and sunspots. Pathology services and vaccinations are also available. "Well women" care includes smear tests, contraceptive advice and pregnancy testing, together with offering general health information and lifestyle advice.

Please contact the Health Service on your campus to arrange consultations with nurses and/or doctors. Opening hours vary on each campus.

Gardens Point Y Block

Phone: 07 3864 2321

Kelvin Grove C Block

Phone: 07 3864 3161

## Library

The QUT Library has a branch on each campus, plus the Law Library at Gardens Point. Each branch has specialised collections to support the subject disciplines taught at that campus.

For assistance in using the Library, searching for information or using electronic resources, consult staff at the information desk. Information sheets and subject pathfinders are also available.

**The QUT Library Website:** This is a great place to start your search for information, [www.library.qut.edu.au](http://www.library.qut.edu.au), or follow the Library link from the QUT home page. It provides 24-hour access, from on and off campus, to the Library catalogue, databases, ejournals, eReserve (electronic copies of lecture notes and handouts) and Internet resources.

**Borrowing from QUT Library:** The QUT Library collection includes a wide range of materials in a variety of formats, from books and periodicals to videos, computer software, audiovisual materials, CDs and CD-ROMs. Most items, except for periodicals, are available for loan. Loan periods range from one day to four weeks.

You can borrow in person from other branch libraries, or request an intercampus loan, where the item is sent to your branch library to be picked up. For books use the "hold" option in the Library catalogue. For journal articles and videos, use the forms available from the Document Delivery desk at each branch.

If an item you require is on loan, you can use the Library catalogue to request a hold on the item. You will be emailed when it is returned and ready to be collected from your branch library.

QUT Library operates a penalty points system to encourage the prompt return of material. All library notices are emailed to your QUT email account, so check it regularly.

**Self Service Options:** You can stay informed about your loans by using the catalogue self service options. Select the View Borrower Information option to check:

- what you have on loan and when it is due back
- any penalty points you have accrued
- items you have on hold and if they are ready to be collected
- items that have been recalled and their new due date
- renew current loans.

**Borrowing from other Libraries:** You can borrow from other university libraries in person or, in the case of Griffith University, the QUT Library will bring the materials to your branch library to be collected. Fill in a Special Reciprocal Loan form to borrow from Griffith. To borrow from other libraries you need to register as a Reciprocal Borrower, which costs \$40 per year (GST included). Ask staff at the Loans Desk for more information.

**Skills in Finding and Using Information:** Classes in using the catalogue, searching electronic databases and searching the Internet effectively are held during the first weeks of semester and throughout the semester. Students may also obtain assistance and instruction from the information desk. To assist you in mastering the necessary skills for your research and study, Pilot: Your Information Navigator is a web based on-line tutorial available from the library website.

**Other Services:** Study spaces and group discussion rooms are available. Assistance is given to students with disabilities to ensure they have access to Library resources. Special rooms, and wheelchair and lift access are provided at each branch.

**Library Hours** vary throughout the year and between each branch library. Check signs or the Library website.

You can contact the Library on the following telephone numbers:

Carseldine: 07 3864 4555

Gardens Point: 07 3864 2083

Kelvin Grove: 07 3864 3079

Law Library: 07 3864 2842

## Oodgeroo Unit

The Oodgeroo Unit is the centre of QUT's activities in Aboriginal and Torres Strait Islander education, studies and research.

The Unit is committed to improving rates of access to, participation in and quality of, university education for Aboriginal and Torres Strait Islander people. Providing cultural, personal and academic support to Indigenous students, the Oodgeroo Unit actively promotes cultural awareness amongst all students.

All Aboriginal and Torres Strait Islander students enrolled at QUT are welcome to use the Unit's facilities at Carseldine (C Block), Gardens Point (O Block Podium) and Kelvin Grove (B Block).

Further information can be obtained from:

Phone: 07 3864 3610

Fax: 07 3864 3982

Web: [www.qut.edu.au/daa/oodgeroo/](http://www.qut.edu.au/daa/oodgeroo/)

## Student Centre

Student Centres are the first point of contact for students seeking information on administrative, course or other student matters. A Student Centre is located on each QUT campus:

Carseldine Level 2, C Block

Hours: 9.00am-5.00pm

Gardens Point Level 1, A Block

Hours: 9.00am-5.30pm

Kelvin Grove Level 4, K Block

Hours: 9.00am-5.00pm

Student Centre staff assist students with enquiries regarding admission, academic credit, enrolment, fees, student ID cards, transport concessions and other student administration or general enquiries. Student Centres are also the place to obtain and lodge Student Services application forms and other general forms.

Hours will be extended in peak periods. Please refer to the Orientation Program for details.

## Marketing lounges

Marketing lounges have been conveniently placed in Student Centres at Gardens Point and Carseldine campuses. Electronic, self-help facilities allow prospective and current students to find course information and browse the QUT website. A wide range of course information brochures and booklets are also provided.

## Student InfoLine

The Student InfoLine, a part of the Student Centre, is a phone service that assists students with student administration and other general student matters.

Phone 07 3864 2000

Monday to Friday, 8.00am-5.30pm

### Student Ombudsman

Dr Neville Bofinger is your QUT Student Ombudsman, an independent officer of the University, fully supported by the Vice-Chancellor for the purpose of assisting you to resolve grievances, who has access to all levels of the University. The Student Ombudsman is available to discuss your concerns or grievances, particularly those associated with administrative or academic decisions that affect you, and to provide you with relevant advice or assistance. The Student Ombudsman can become involved in resolution processes through mediation, negotiation, conciliation or representation, as appropriate, and may also assist you by referring you to other sources of assistance, either internal to the QUT or external agencies. This is a free and confidential service.

If you have any issues concerning fair treatment by staff or other students, proper application of procedures or resolution of complaints, then you should not hesitate to contact the Student Ombudsman. The Student Ombudsman occupies Room A118 on Gardens Point campus, behind the Student Centre, but consultations can be arranged to be held on all campuses. Consultation is by prior appointment, which can be made by telephone or email.

Phone: 07 3864 2457

Fax: 07 3864 4472

Email: [ombudsman@qut.edu.au](mailto:ombudsman@qut.edu.au)

Web: [www.qut.edu.au/ombudsman/](http://www.qut.edu.au/ombudsman/)

## QUT ALUMNI

---

When you graduate from QUT, you will become a member of the University's Alumni. QUT Alumni promotes friendly communication and cooperation among the University's graduates, students, faculty staff and close associates. Membership of QUT Alumni is free.

The Alumni Office at QUT provides services and programs for graduates to enhance professional development, promote lifelong learning and create opportunities for keeping in touch with other graduates and continuing involvement with the University. As a current student of QUT, you can benefit from the news, programs and services organised by QUT Alumni for the University community.

The Alumni website provides useful information about QUT Alumni and its sponsored activities. Visit the site to:

- discover how to participate in the Mentor Scheme, which is an opportunity for current students to link with graduates for encouragement and support and to get a practical start to understanding the workplace;
- explore QUT Links magazine online. QUT publishes this magazine for its Alumni, close associates and interested members of the University community including business and industry professionals. The magazine profiles successful graduates and provides information on what's happening in the lives of QUT Alumni members as well as what is happening at QUT;

- discover the latest news on Alumni events and other activities for graduates by checking out the events listing at QUT Events;
- learn about the Outstanding Alumni Awards which recognise graduates who have performed exceptionally in their chosen career and who have made outstanding contributions to the community;
- learn about the existing Alumni Chapters at QUT;
- find out about the benefits and services that the University has to offer its Alumni, and
- find out about the Alumni Annual Appeal that supports University projects, in particular scholarships for disadvantaged students.

### Giving to QUT

QUT is proud of the strong support it receives from the community.

Alumni, individuals, corporations, foundations and government give generously to the University's teaching, research and community outreach activities.

This ensures support for students through scholarships and prizes, an improved learning environment and world-leading research that solves real world problems.

Donations to QUT are fully tax deductible. Requests for general or specific purposes may also be made to the University.

For further information visit the giving website or contact QUT Development on 07 3864 1838.

QUT Gardens Cultural Precinct, located at the University's Gardens Point campus, is situated on one of Queensland's most central and historically important sites. The Precinct encompasses QUT Art Museum, one of Australia's most sophisticated contemporary art museums, Gardens Theatre, with a 400 seat state-of-the-art theatre, and Old Government House.

This world class facility for performing and visual arts was launched in July 2000 providing the community with accessible venues to enjoy and nurture the talents of our artists, craftsworkers, musicians and performers. It also hosts a broad-based education program through which participants gain valuable insights into their arts and cultural heritage.

Gardens Cultural Precinct is at the centre of a circuit of culture and recreation incorporating the South Bank precinct with its parklands and cultural centre, the city heart with its galleries and shopping and Gardens Point itself with its Botanic Gardens, Riverstage, historic campus buildings and Parliament House.

In addition to the core activity of exhibitions and performances, Gardens Cultural Precinct offers unique arts-based educational programs that provide practical ways for Queensland University of Technology to extend the benefits of its knowledge, research and services to the wider Queensland community. These programs have a practical emphasis and include hands-on sessions with curators, artists talks, activity booklets, guided tours and demonstrations.

Gardens Cultural Precinct also offers a choice of stunning spaces for hire. QUT Art Museum provides an elegant and sophisticated space for cocktail parties; Gardens Theatre provides a picturesque and spacious function area, within the glass walled foyer overlooking the City Botanic Gardens; Old Government House adds heritage glamour to any event.

#### **Location**

Main Drive

QUT Gardens Point

2 George Street, Brisbane (next to City Botanic Gardens)

#### **Information**

#### **GARDENS THEATRE**

Gardens Theatre is a premium and versatile venue offering an annual program of student and professional productions.

Featuring a spacious foyer overlooking the City Botanic Gardens and an auditorium that seats 400, Gardens Theatre provides an intimate performance space for both QUT Creative Industries' presentations as well as local and visiting drama, music and dance productions.

During 2005 it will offer a regular program of comedy, from open-mic nights to stand up.

This state-of-the-art venue is located on QUT's Gardens Point campus at the heritage end of George Street in Brisbane's CBD. Acknowledged as one of the city's premier performing arts venues, Gardens Theatre also features exceptional facilities for audiences including a licenced bar, palm tree atrium, disabled access and a Bar Merlo cafe.

Gardens Theatre facilities and foyer area are available for hire (subject to availability).

#### **Location**

X Block, Main Drive

QUT Gardens Point

2 George Street, Brisbane (next to City Botanic Gardens)

#### **Box Office**

Open Monday - Friday (10am - 4pm) and one hour prior to all scheduled performances.

#### **Bookings & Show Information**

For advance bookings and information on current shows phone GardensTix on 07 3864 4455.

#### **QUT ART MUSEUM**

QUT Art Museum is an important cultural facility for the city of Brisbane. The Museum plays a vital role in the educational and intellectual life of the University. It houses a significant art collection that has become a valuable cultural resource for the students and staff of the University, and for the wider community.

The collection is one of the largest in Queensland and contains holdings of great quality and diversity, mostly by Australian artists. It includes fine early paintings, choice ceramics and prints, important examples of indigenous art and challenging contemporary works in a range of artforms.

As part of its exciting and dynamic program the Art Museum offers changing exhibitions drawn from the collection, touring exhibitions from other galleries and collections, and works from several creative academic disciplines within the University. The Museum's educational services are designed to complement and enhance the exhibitions program for the benefit and enjoyment of the public.

#### **Location**

Level 1, U Block, Main Drive

QUT Gardens Point

2 George Street, Brisbane (next to City Botanic Gardens)

#### **Museum Hours**

## OLD GOVERNMENT HOUSE

Old Government House was the official residence of the Governors of Queensland from 1862-1909. Since that time the house has been occupied by the University of Queensland, the National Trust of Queensland and Queensland University of Technology's predecessor institutions, Central Technical College and Queensland Institute of Technology.

Old Government House is owned by the Queensland Government. In October 2002, a Heads of Agreement was signed between the Queensland Government, National Trust of Queensland and Queensland University of Technology for the future conservation, management and use of Old Government House.

QUT has accepted responsibility for the continued enhancement of Old Government House and the accompanying grounds in accordance with the Government's Conservation Plan.

To celebrate its history and advance knowledge of Queensland's architectural, political and educational heritage, QUT has opened the doors of Old Government House to provide a welcoming environment for all Queenslanders and visitors to enjoy and learn

about the building and its site. Guided tours are available on request.

### Location

Main Drive

QUT Gardens Point

## QUT STUDENT GUILD

---

The QUT Student Guild fosters the welfare of all QUT students and protects their rights. It advocates for students who experience difficulties during their time at QUT and represents all students on various University committees. Being a member of the Student Guild is like having an insurance policy; the Guild exists to help students deal with issues that may negatively impact on their performance at QUT.

The QUT Student Guild is owned and operated by and for students.

The Student Guild is governed by Guild Council which consists of the Executive (President, General Secretary, Education Director, International Student Services Director, Women's Services Director, Welfare Services Director, Recreation Director, Indigenous Services Director, Queer Services Director, and three Campus Directors), campus representatives, and specialist representatives (for part-time and external students, Aboriginal and Torres Strait Islander students, and postgraduate students).

Members of the Guild Council are elected at the annual general election and all students are eligible to stand for positions at the election. Students are also able to nominate and vote for campus coordinator positions to help organise activities and services on campuses.

The Student Guild sends representatives to express students' views to many University committees, including the University Academic Board.

All QUT students are members of the Student Guild and their respective national union, NUS. Quite often, access and equity to education can be affected by government policy. The Student Guild will often call on its members to attend rallies to stop regressive changes to the education system. The Student Guild fully supports a free public education system where everyone has equal access.

The QUT Student Guild also operates several commercial services across all campuses. These consist of the Guild Fitness Centres, Guild Bars, Guild Aquatic and Squash Centre, Guild News and Post Office, the Guild Child Care Centres and Creche, Academic Gown Hire and the Guild Second Hand Textbook Shop.

The Guild has a presence on the Web which can be accessed at [www.guildonline.net](http://www.guildonline.net). All of the Guild's services are listed there along with an events page where students can find out what is happening on their campus as well as up to date accommodation and part-time employment listings.

## INTRODUCTION

Please refer to the online Manual of Policies and Procedures for the latest version of the Student Rules  
www.qut.edu.au/admin/mopp.

The QUT Student Rules published here were approved by QUT Council on 23 October 2002, following a major review. Detailed information about procedural aspects of these rules can be obtained by accessing relevant topics at Student Services website or by contacting the Student Business Services Department.

For information on the University's admission policy and procedures, please refer to the various booklets available from QUT's Student Business Services.

**STUDENTS ARE WARNED THAT PENALTIES (INCLUDING FINES, SANCTIONS, WITHHOLDING RESULTS, EXCLUSION OR EXPULSION) MAY BE IMPOSED ON STUDENTS WHO CONTRAVENE THESE OR ANY OTHER QUT RULE OR POLICY, OR WHO FAIL TO MEET THEIR OBLIGATIONS (INCLUDING FAILING TO PAY PRESCRIBED FEES, LATE FEES OR FINES, OR FOR FAILING TO RETURN LIBRARY/FACULTY MATERIALS OR EQUIPMENT).**

These Student Rules are made pursuant to:

- QUT Statute No. 1 (Course of Study) 1999
- QUT Statute No. 2 (Student Discipline) 1999
- QUT Statute No. 3 (Fees) 1999

They should also be read in conjunction with:

- Schedule 1 to the QUT Act 1998, Conduct on University Land. This Schedule authorises certain University officers to direct disorderly persons or those creating disturbances to leave the University. A person failing to comply with such a direction may be fined
- Information Facilities Rules (pursuant to QUT Statutes 2 and 3, and to the relevant staff conditions and awards)

## THE RULES

### PART 1 - PRELIMINARY

#### Division 1 - Interpretation

##### 1. Definitions

In these rules:

'assessment' means work (for example, an examination, assignment, practical, performance) which a student is required to complete for any one or more of the following purposes:

- (a) the fulfilment of an educational purpose (for example, to motivate learning, to provide feedback);
- (b) to provide a basis for a record of achievement or certification of competency;
- (c) to permit grading.

'award course' means a program of study leading to the award of a degree, diploma or certificate accredited by QUT.

'cancellation of enrolment' means that a student has discontinued an award course or a program of non-award studies.

'course coordinator' includes a staff member performing the functions of course coordinator specified by the director, QUT international college.

'course requirements' means the specific requirements for completing an award course approved by university academic board and includes the following:

- (a) the course structure;
- (b) any conditions for enrolment in or for completion of particular units required for the course;

- (c) any conditions for academic progression through the course;
- (d) any requirements for attendance type or mode of study.

'dean' means the dean of the faculty having responsibility for a unit or an award course and includes:

- (a) the director, QUT Carseldine, in the case of a unit or an award course for which the director is responsible; and
- (b) the director, QUT international college, in the case of a program of non-award studies for which the director is responsible.

'faculty academic board' means the body established by university academic board to manage academic policy and practices within the faculty or QUT Carseldine.

'non-award studies' means a unit or group of units which a student undertakes at the university other than as part of an award course of QUT.

'QUT' means the Queensland University of Technology.

'registrar' means the university's chief administrative officer.

'teaching period' means a designated period of weeks in which the program of study and instruction for a unit or award course is undertaken and includes:

- (a) two standard semesters of around 13 weeks duration; and
- (b) other periods during the year which are designated by the registrar as a teaching period.

'unit coordinator' includes a staff member performing the functions of unit coordinator specified by the director, QUT international college.

'university academic board' means the body established by council to provide leadership on academic policy and practices of QUT.

#### 2. Attendance type and mode

(1) A student's attendance type is normally designated as full-time if the enrolment program for the teaching period is:

- (a) in the case of a student enrolled in an award course, at least 75 per cent of the number of credit points for a standard enrolment program load for full-time enrolment in that course in a teaching period; or
- (b) in the case of a student undertaking non-award studies, at least 75 per cent of the number of credit points for a standard enrolment program load designated by the registrar for that purpose.

(2) If a student's enrolment program load is less than the amount specified in rule 2(1), the student's attendance type is normally designated as part-time.

(3) Addition or withdrawal of units in accordance with division 2 of part 3 of these rules may be deemed by the registrar to change a student's attendance type.

(4) For the purposes of these rules and for course requirements, a student's attendance mode is designated as:

- (a) internal, where instruction or supervision in all units in which the student is enrolled in a teaching period is delivered by attendance at a place designated by the registrar as a campus of the university; or
- (b) external, where instruction or supervision in all units in which the student is enrolled in a teaching period is delivered other than by attendance at a campus of the university (for example, by posting instructional materials to the student); or
- (c) multi-modal, where instruction in some, but not all units, is in internal mode.

**Division 2 - Students' responsibilities under these rules****3. Student responsibility for compliance with these rules and other requirements**

(1) It is the student's responsibility to do all acts associated with admission, enrolment and academic progression in compliance with these rules, including, but not limited to:

- (a) providing information to the university under rule 7(2), including statistical information and a mailing address; and
- (b) re-enrolling at the university each year; and
- (c) submitting an appropriate enrolment program and rectifying any known discrepancies with the enrolment program.

(2) In the case of international students, the student must also comply with any requirements for enrolment or study at the university specified in the Educational Services for Overseas Students Act 2000 (Cwth), including, but not limited to:

- (a) any requirements relating to attendance type or mode; and
- (b) any conditions for enrolment programs and progress through an award course; and
- (c) any conditions relating to leave of absence.

**PART 2 - ADMISSION****4. Application for admission**

(1) A person must apply for admission to the university before first enrolling in an award course or non-award studies.

(2) Except where specified by the registrar, a person must apply for admission before each teaching period in which they propose to enrol in non-award studies.

(3) A person who seeks to re-enrol in an award course must apply for re-admission following:

- (a) cancellation of enrolment in an award course or program of non-award studies; or
- (b) an unapproved period of absence; or
- (c) a period of exclusion from an award course imposed under part 6 of these rules.

(4) The registrar must prescribe the dates for and the manner of applying for admission to the university.

**5. Criteria for admission**

(1) University academic board may specify general requirements to be met by a person applying for admission to the university.

(2) The faculty academic board having responsibility for an award course must specify minimum course entry requirements and may specify different requirements for different major areas of study within an award course.

(3) The registrar determines the maximum number of persons to be offered admission to the university.

**6. Offer of admission**

(1) The registrar makes offers of admission.

(2) An offer of admission may be conditional upon the person providing documents or fulfilling other requirements specified in the offer.

(3) The registrar may withdraw an offer of admission and reject enrolment where:

- (a) the person fails to provide documents or to fulfil other requirements specified in the offer of admission; or
- (b) the offer of admission has been made as a result of the provision of incomplete or inaccurate information by the person or a certifying authority; or
- (c) the person fails to submit an enrolment program in accordance with the offer of admission by the specified date.

**PART 3 - ENROLMENT****Division 1 - General requirements for enrolment****7. Enrolment procedures**

(1) The registrar:

- (a) must prescribe closing dates for submission of an enrolment program for each teaching period; and
- (b) may prescribe different closing dates for different categories of students.

(2) The registrar must prescribe the manner of submitting the enrolment program, and the information to be included with the enrolment program.

(3) For each teaching period, the registrar must:

- (a) publish the closing dates for addition or withdrawal of units in accordance with schedule 1; and
- (b) specify the manner of submitting changes to the enrolment program.

**8. Valid enrolment**

(1) Subject to rule 8(2), enrolment in any teaching period means that the student has submitted an enrolment program for study, instruction or research at the university in that teaching period.

(2) A student is validly enrolled upon:

- (a) submission of an enrolment program for the teaching period by the specified date or such later time as permitted by the registrar; and
- (b) acceptance of the enrolment program by the registrar<sup>1</sup>; and
- (c) payment of fees and charges required under these rules by the specified date or such later time as permitted by the registrar; and
- (d) fulfilment of any other requirements specified in these rules.

(3) The registrar may reject a student's enrolment where the student has not met all of the requirements of rule 8(2).

**Division 2 - Enrolment programs****9. Requirements for enrolment programs**

(1) A student's enrolment program must comply with the general requirements specified in this division.

(2) In the case of a student enrolled in an award course, the student's enrolment program must also comply with the course requirements.

**10. Addition of a unit to enrolment program**

Subject to the requirements of this division, a student may add a unit to their enrolment program in a teaching period if:

- (a) the unit is added by the addition date published in accordance with schedule 1; or
- (b) where the student proposes to add the unit after the addition date published in accordance with schedule 1:
  - (i) the student pays the administrative charge specified in schedule 2; and
  - (ii) the unit coordinator agrees to the addition of the unit; and
  - (iii) the registrar is satisfied that the student has demonstrated that exceptional circumstances for addition of the unit exist.

**11. Withdrawal from a unit**

(1) Subject to the requirements of this division, a student may withdraw from enrolment in a unit:

- (a) by the withdrawal date published by the registrar in accordance with schedule 1 - without academic penalty; or
- (b) after the withdrawal date published by the registrar in accordance with schedule 1 - with academic penalty.

(2) Despite rule 11(1)(b), the registrar may permit withdrawal without academic penalty if, following advice from the dean, the

registrar is satisfied that the student has demonstrated that exceptional circumstances for withdrawal from the unit exist.

(3) In this section, 'academic penalty' means that the unit in question is awarded a failing grade.

### **12. Relationship between units of study**

(1) Course requirements may specify any of the following conditions for enrolment in a specified unit:

- (a) a student must have achieved a passing grade in a prerequisite unit before enrolment in the specified unit;
- (b) a student may enrol in the specified unit only if:
  - (i) the student also enrolls in a corequisite unit at the same time; or
  - (ii) the student has previously achieved a passing grade in the corequisite unit;
- (c) a student must not enrol in the specified unit if the student has achieved a passing grade in an incompatible unit.

(2) A unit coordinator may permit a student to enrol in a specified unit without having satisfied the condition listed in rules 12(1)(a) or 12(1)(b) if the unit coordinator is satisfied that the student has demonstrated sufficient knowledge to undertake the unit.

(3) In this section, an 'incompatible unit' means a unit in which the subject matter or the body of learning is substantially similar to that included in the specified unit.

### **13. Maximum and minimum enrolment program load**

Course requirements may specify either or both of the following:

- (a) the maximum number of credit points for full-time enrolment;
- (b) the minimum number of credit points for part-time enrolment.

### **14. Time limits for completion of an award course**

University academic board must specify time limits for completion of an award course, and may impose different time limits for different categories of courses.

### **15. Acceptance of enrolment program**

The registrar may not accept a student's enrolment program in any of the following circumstances:

- (a) the student has not enrolled in accordance with their offer of admission, including, where specified, major area of study, attendance type, attendance mode and location of study;
- (b) if the student is enrolled in an award course, the student has not submitted an enrolment program which is consistent with course requirements;
- (c) except where permitted by the course or unit coordinator, as the case may be, the student has not complied with the requirements of division 2 of part 3 of these rules;
- (d) if the student is enrolled in an award course, the student has not met the requirements of part 6 of these rules;
- (e) the student is subject to a penalty imposed under rule 29 or Statute No 2 (Student Discipline) 1999 which prohibits their enrolment in the current teaching period;
- (f) the student is in breach of any other statute or rule of the university which specifies rejection or suspension of enrolment as a penalty.

### **16. Amendment of enrolment program**

The registrar may amend an enrolment program, after consultation with the course coordinator, if any of the following conditions exist:

- (a) the student has not complied with the requirements of rule 13;
- (b) the student has not complied with other course requirements;
- (c) the student cannot attend classes or meet other unit requirements due to timetable incompatibility;
- (d) the student has not complied with any conditions of probationary enrolment imposed under part 6 of these rules.

## **Division 3 - Credit**

### **17. Credit for previous studies**

(1) University academic board may specify the amount and type of credit for previous studies which may be granted in award courses, and may specify different amounts of credit for different categories of award courses or students.

(2) The registrar must specify the procedures to be followed, and the documentation to be supplied, by students applying for credit.

(3) The course coordinator must determine the amount and type of credit to be granted in accordance with university academic board determinations.

## **Division 4 - Discontinuation or interruption of enrolment**

### **18. Approval of leave of absence**

(1) A student may apply to the registrar for leave of absence from an award course.

(2) The registrar may approve leave of absence if:

- (a) the student is enrolled in an undergraduate award course; and
- (b) the student is applying for leave of absence for a period of no more than one year; and
- (c) the student has completed at least one teaching period of enrolment in the award course; and
- (d) the student has not previously applied for leave of absence from the award course.

(3) If the student has not completed at least one teaching period of enrolment in the award course, but has otherwise satisfied the requirements of rule 18(2), leave of absence may be approved if the registrar is satisfied that the student has demonstrated exceptional circumstances for taking the leave.

(4) The dean must determine the application for leave of absence in any of the following circumstances:

- (a) the student seeks leave for a period in excess of one year;
- (b) the student is undertaking a postgraduate award course;
- (c) the student has had a prior approved leave of absence from the same award course.

(5) The dean may approve the application for leave of absence only if the dean is satisfied that the student has demonstrated exceptional circumstances for taking the leave.

(6) A student who is granted leave of absence:

- (a) is deemed to have withdrawn from enrolment in all units in accordance with rule 11; and
- (b) is not an enrolled student of the university for the approved period of absence.

(7) A student must apply for re-admission to the award course if:

- (a) the student does not apply for leave of absence before withdrawing from enrolment in all units in a teaching period; or
- (b) the student fails to re-enrol at the conclusion of an approved leave of absence.

(8) For international students, this rule is subject to any requirements or conditions for leave of absence specified in the Educational Services for Overseas Students Act 2000 (Cwth) .

### **19. Cancellation of enrolment**

(1) A student must notify the registrar if they wish to cancel their enrolment in an award course or non-award studies.

(2) A student who cancels their enrolment is deemed to have withdrawn from enrolment in all units in their enrolment program in accordance with rule 11.

<sup>1</sup> See rule 15

## PART 4 - FEES AND CHARGES

**20. Definitions for this part**

In this part:

‘HES Act’ means the Higher Education Support Act (Cwth) as amended from time to time.

‘student contribution amount’ means an amount being the contribution for the teaching period in question determined by the university in accordance with the HES Act.

‘Commonwealth supported place’ means a place in a unit of study for which a student contribution amount is paid and for which the Commonwealth makes a contribution under the Commonwealth Grant Scheme.

‘Commonwealth supported student’ means a student who has been advised by the university that they are Commonwealth supported for a unit or course of study.

**21. Imposition of fees and charges**

(1) Except as specified under the HES Act, the university may impose student contribution amounts, fees and charges for enrolment and study at the university, or for services and facilities associated with enrolment and study, and may impose different student contribution amounts, fees and charges for different categories of students.

(2) The officer or body listed in schedule 2 sets the student contribution amounts, fees and charges.

(3) For each teaching period, the registrar must prescribe the dates for payment of fees.

(4) A student must pay the fees specified in these rules by the prescribed dates.

(5) A student is not validly enrolled<sup>2</sup> unless all student contribution amounts, fees and charges specified in these rules have been paid, including any additional student contribution amount or tuition fee required to be paid as a result of addition of a unit to a student's enrolment program in accordance with rule 10.

**22. Student guild fee**

(1) Subject to rule 22(4), a student must pay the student guild fee specified in schedule 2.

(2) In the case of a student who is not enrolled in a full-time program over the academic year, the registrar will determine the pro-rata amount of the student guild fee to be paid.

(3) Upon payment of the student guild fee and acceptance of the enrolment program in each teaching period, a student is a member of the student guild.

(4) A student who has a conscientious objection to being a member of the student guild is exempt from membership if the student:

- (a) advises the registrar in writing of the objection; and
- (b) pays to the university an amount equivalent to the student guild fee.

**23. Liability for a Commonwealth supported place**

(1) Except as specified in the HES Act, a student who enrolls in any teaching period in a unit or units for an award course is liable for a student contribution amount.

(2) A student who is liable for a student contribution amount must submit a Commonwealth assistance form specifying the method for payment of the contribution in any of the following circumstances:

- (a) when the student first enrolls at the university;
- (b) when the student changes to another award course;
- (c) if the student elects to pay the contribution by another method.

(3) For each teaching period, the registrar must prescribe the date for submission of the Commonwealth assistance form.

(4) Except as specified in the HES Act, a student may discharge a liability for a student contribution amount by:

- (a) paying the required amount directly to the university by the date specified by the registrar; or
- (b) supplying a tax file number to the university; or
- (c) a combination of (a) and (b).

**24. Tuition fee**

(1) This rule applies to students who are not liable to pay a student contribution amount for a teaching period or a unit.

(2) A student (other than an international student or a student deemed by the registrar to be liable to pay a student contribution amount) who enrolls in a unit or units for a postgraduate award course must pay the postgraduate tuition fee specified in schedule 2.

(3) A visiting student (other than a visiting international student) who enrolls in a unit or units must pay the tuition fee specified in schedule 2, except that the dean may specify a different fee for students undertaking a designated enrolment program.

(4) An international student must pay to the university, for each teaching period, the international student tuition fee specified in the offer of admission.

(5) Where the HES Act specifies, a student who is normally liable to pay a student contribution amount may be required to pay the tuition fee specified in schedule 2 for enrolment in a particular teaching period or unit.

(6) For this rule, a ‘visiting student’ means a student who enrolls in non-award studies, but does not include a cross-institutional Commonwealth supported student who enrolls in a unit or units at QUT to obtain credit towards an award course at another Australian university.

**25. Administrative charges**

(1) A student or a person applying for admission must pay the relevant administrative charge prior to taking the action or requesting the service listed in schedule 2.

(2) If the administrative charge has not been paid, the student's action or request for the service has no effect.

**26. Cancellation charges and refunds**

(1) The university may retain a proportion of fees paid by a student as a charge for cancellation of enrolment, and may impose different cancellation charges for different categories of students.

(2) Schedule 2 specifies the amount which will be retained by the university where a student cancels their enrolment in a unit or units.

(3) A student who withdraws from enrolment in a unit or units must apply by the date specified by the registrar for a refund of fees paid to the university.

**27. Consequences of non-payment of fees and charges**

If a student does not pay the full amount of fees and charges required by the university by the required date, the registrar may do either or both of the following:

- (a) reject the student's enrolment in accordance with rule 8;
- (b) require the student to pay an administrative charge specified in schedule 2.

<sup>2</sup> See rule 8.

**PART 5 - ASSESSMENT****Division 1 - General requirements for assessment****28. Notice of assessment requirements**

A student who is enrolled in a unit must receive notification of assessment requirements in the manner and by the time prescribed by university academic board.

**29. Academic dishonesty**

- (1) A student must not act in a manner which constitutes academic dishonesty.
- (2) Academic dishonesty means an action or practice which may compromise or defeat the purposes of assessment, and includes, but is not limited to:
  - (a) cheating, or attempting to cheat;
  - (b) plagiarism;
  - (c) misrepresenting or fabricating data or results or other assessable work;
  - (d) breaching requirements specified by university academic board under rule 32 for conduct during examinations, in a way that may compromise or defeat the purposes of the assessment.
- (3) University academic board may prescribe procedures for investigating allegations of academic dishonesty.
- (4) The penalties for academic dishonesty are:
  - (a) mark reduction or zero mark for an assessment item; or
  - (b) awarding of a failing grade in the unit in which academic dishonesty is detected; or
  - (c) awarding of a failing grade in the unit in which academic dishonesty is detected and in another unit or all other units undertaken in that teaching period; or
  - (d) suspension from the university for a specified period of time, together with the allocation of failing grades specified in rule 29(4)(c); or
  - (e) permanent expulsion from the University, together with the allocation of failing grades specified in rule 29(4)(c).
- (5) The dean may impose the penalties listed in rule 29(4)(a) and 29(4)(b).
- (6) The registrar may impose any of the penalties listed in rule 29(4).

**Division 2 - Examinations****30. Availability for examinations**

- (1) A student must be available to undertake an examination:
  - (a) at the time and place specified for the examination in the central examination period; and
  - (b) at any other time specified for an examination in the notification of assessment requirements.
- (2) The registrar publishes an examination timetable for each central examination period.
- (3) In this rule, 'central examination period' means a period of at least 2 weeks at the end of each semester or other teaching period designated for conducting examinations.

**31. Alternative examination sittings**

A student who holds religious convictions which preclude attendance at an examination at the time specified in the published examination timetable, may apply in the manner prescribed by the registrar for an alternative examination sitting.

**32. Conduct during examinations**

University academic board must specify procedures for examinations, including:

- (a) requirements for a student entering or leaving the examination room; and
- (b) requirements for a student's conduct during the examination.

**33. Deferred examinations**

- (1) A student who, due to exceptional circumstances beyond the student's control, is unable to attend an examination at the prescribed time may apply in the manner prescribed by the registrar for a deferred examination.
- (2) The dean determines the outcome of an application for a deferred examination.

**Division 3 - Final grades****34. Grading scale**

University academic board must specify the grading scale to be used in allocating a record of achievement for studies at the university.

**35. Allocation and notification of grades**

- (1) The dean approves a student's final grade for a unit.
- (2) A student will be notified of their grades in the manner determined by the registrar.

**36. Special consideration**

- (1) A student who believes that their performance in completing an assessment item has been adversely affected by exceptional circumstances may apply for special consideration in the manner prescribed by the registrar.
- (2) The head of school determines whether the application for special consideration should be granted.
- (3) The faculty academic board may specify the manner in which special consideration is to be applied to an assessment item.
- (4) The unit coordinator determines whether additional marks for the assessment item should be granted, and must do so in accordance with any faculty academic board determinations made in accordance with rule 36(3).
- (5) In this rule:

'head of school' means the head of the school in which instruction in a unit is given, or in the case of QUT international college, the director of studies.

'faculty academic board' includes the QUT international college advisory board with respect to a program of non-award studies offered by the college.

**37. Supplementary assessment**

Supplementary assessment may be granted to a student only in the circumstances prescribed by university academic board.

**PART 6 - UNSATISFACTORY ACADEMIC PERFORMANCE****38. Requirement to perform satisfactorily in course**

A student undertaking an award course must maintain a satisfactory level of academic performance in accordance with this part.

**39. Probationary enrolment**

- (1) The registrar must place a student undertaking an award course on probationary enrolment if the student:
  - (a) achieves a grade point average of less than 3.0 for units which the student has undertaken towards the award course; or
  - (b) is awarded a failing grade in a unit which the student has previously failed.

(2) The registrar determines the students to be placed on probationary enrolment at the end of each academic year.

(3) The registrar must notify a student in writing of the decision to place the student on probationary enrolment.

#### **40. Conditions of probationary enrolment**

(1) A student is placed on probationary enrolment for 12 months.

(2) While on probationary enrolment, a student must:

- (a) consult the course coordinator about their enrolment program; and
- (b) if the course coordinator specifies an enrolment program, submit the enrolment program as specified.

(3) If a student on probationary enrolment cancels their enrolment in the course but is subsequently re-admitted by the registrar to the same award course in accordance with part 2 of these rules, the registrar, upon re-admission:

- (a) must place the student on probationary enrolment for the remainder of the academic year; and
- (b) may require the student to submit an enrolment program specified by the course coordinator.

#### **41. Exclusion from enrolment in an award course**

(1) A student is an 'eligible student' for the purposes of exclusion if:

- (a) the student has previously been placed or is currently on probationary enrolment and qualifies for a further period of probationary enrolment on the basis of rule 39; or
- (b) the student is awarded a failing grade in a designated unit; or
- (c) having been readmitted to the award course following a period of exclusion, the student achieves a grade point average of less than 3.5 for units in which the student has enrolled in the academic year following readmission; or
- (d) the student has exceeded the maximum time limit for the award course imposed in accordance with rule 14.

(2) At the end of each year, the faculty academic board responsible for the award course may exclude an eligible student from enrolment in that course.

(3) If the faculty academic board does not exclude an eligible student, the registrar may place the eligible student on probationary enrolment in accordance with this part.

(4) The registrar must notify a student in writing of the decision to exclude the student from enrolment in the award course.

(5) University academic board must specify the circumstances in which the registrar may exclude an eligible student from enrolment in other award courses at the university.

(6) In this rule, 'designated unit' means a unit which a faculty academic board requires a student to complete with a passing grade in order to continue in the award course.

#### **42. Consequences of exclusion**

(1) If exclusion is imposed on a student under rule 41, the student is excluded from an award course indefinitely, unless permitted to re-enrol in accordance with rule 43.

(2) A student who is excluded from an award course is not permitted to enrol in any units forming part of that award course.

#### **43. Enrolment following exclusion**

(1) An excluded student may re-enrol in a unit or units as part of the award course if:

- (a) the student successfully appeals against exclusion; or
- (b) the student, following exclusion for at least 12 months, is re-admitted to an award course by the registrar.

(2) Where a student re-enrols in the award course in accordance with rule 43(1), the registrar must place the student on probationary enrolment for the balance of the academic year.

### **PART 7 - ELIGIBILITY TO GRADUATE**

#### **44. Minimum passing grades for graduation**

For the purpose of determining a student's eligibility to graduate from an award course, a faculty academic board may designate the maximum number of units for which the student can be awarded a minimum passing grade.

#### **45. Eligibility to graduate from an award course**

(1) Subject to rule 44, a student is eligible to graduate from an award course upon completion of all course requirements.

(2) Faculty academic board determines whether a student has completed all course requirements.

(3) University academic board confers the award on a student who is eligible to graduate.

### **PART 8 - REVIEW AND APPEALS**

#### **46. Review of grades and academic rulings**

(1) University academic board must prescribe procedures for dealing with applications for review of grades and academic rulings.

(2) A student may apply for a review of:

- (a) their grade for a unit; or
- (b) other academic rulings made under these rules.

#### **47. Appeal to university academic board**

(1) A person who has been refused admission to the university may appeal to university academic board.

(2) A student may appeal to university academic board if:

- (a) the student has been excluded from an award course under rule 41; or
- (b) the student has been penalised by the dean or the registrar under rule 29.

#### **48. Status pending outcome of review or appeal**

Pending the outcome of a review or appeal, the registrar may permit a student to attend classes or undertake examinations.

### **PART 9 - MISCELLANEOUS**

#### **49. Research higher degree students**

(1) For students undertaking the doctor of philosophy degree, university academic board must specify general requirements for:

- (a) admission as a candidate for the degree; and
- (b) enrolment and progression as a candidate; and
- (c) submission and examination of the thesis.

(2) For students undertaking another research higher degree, faculty academic board must specify course requirements.

#### **50. Delegation of powers and functions<sup>3</sup>**

(1) Where these rules specify that a particular person or body exercises a power or function, that person or body may delegate the power or function to another person or body.

(2) Despite rule 50(1), a course coordinator or a unit coordinator may not delegate a function or power to another person.

<sup>3</sup> See section 27A of the Acts Interpretation Act 1954.

# SCHEDULE 1 - UNIT ADDITION AND WITHDRAWAL DATES

Teaching Period	Last day to add units	Last day to withdraw from units without academic penalty
Semester 1 (SEM-1) Semester 2 (SEM-2) Summer Program (SUM)	Close of business, Friday, 2nd week of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 9th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 9th week of teaching period.
13 Week Teaching Period (13TP1-3)	Close of business, Friday, 2nd week of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 9th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 9th week of teaching period.
12 Week Teaching Period (12TP1-3)	Close of business, Friday, 2nd week of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 8th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 8th week of teaching period.
6 Week Teaching Period (6TP1-6) Summer Program 1 (SUM-1) Summer Program 2 (SUM-2)	1st day of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 4th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 4th week of teaching period.
5 Week Teaching Period (5TP1-9)	1st day of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 3rd week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 3rd week of teaching period.
Non-standard intensive teaching periods (< or = 2 weeks in length) where unit enrolment is either in Semester 1 or Semester 2 teaching periods	1st day of teaching period	No academic penalty if withdrawal prior to commencement of teaching. 'Withdrawn-Failure' recorded if cancellation after commencement of teaching.
Non-standard intensive teaching periods (> 2 weeks but < 6 weeks in length) where unit enrolment is either in Semester 1 or Semester 2 teaching periods	1st day of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 2nd week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 2nd week of teaching period.

## SCHEDULE 2 - FEES AND CHARGES

TABLE A – STUDENT CONTRIBUTION BANDS

Student contribution bands for 2005	Non-differential (pre-1997)	Pre-2005 HECS students	Post-2005 students
Band 3: law, dentistry, medicine, veterinary science	\$2,889	\$6,414	\$8,018
Band 2: accounting, administration, economics, commerce, mathematics, statistics, computing, built environment, health, engineering, science, surveying, agriculture	\$2,889	\$5,479	\$6,849
Band 1: humanities, behavioural science, social studies, foreign languages, visual and performing arts	\$2,889	\$3,847	\$4,808
National priorities: education, nursing	\$2,889	\$3,847	\$3,847

TABLE B - DOMESTIC POSTGRADUATE TUITION FEES

Course Code	Course Title	Fee paid by student first enrolling in 2005 per credit point
-	Bachelor of Engineering - Dean's Scholars Program	Commonwealth Supported Place
AR61	Graduate Diploma in Industrial Design	Commonwealth Supported Place
AR62	Graduate Diploma in Interior Design	Commonwealth Supported Place
AR65	Graduate Certificate in Building Fire Safety	\$100
BN71	Master of Applied Science (Research)	RTS/RTA
BN72	Master of Engineering	RTS/RTA
BS19	Master of Business (Professional Accounting) - Advanced	\$100
BS30	Graduate Certificate in Management	\$130
BS32	Graduate Certificate in Human Resource Management and Development	\$100
BS33	Master of Business (Professional Accounting) - Advanced	\$100
BS39	Graduate Certificate in Business	\$100
BS63	Bachelor of Business (Honours)	Commonwealth Supported Place
BS64	Graduate Diploma in International Business	\$100
BS65	Master of International Business Studies	\$100
BS66	Master of International Business	\$100
BS70	Graduate Diploma in Advanced Accounting	\$100
BS72	Graduate Diploma in Public Relations	\$100
BS89	Master of Business (Professional Accounting)	\$100
BS92	Master of Business (Research)	RTS/RTA
BS93	Master of Business (Human Resource Management)	\$100
BS93	Master of Business (Marketing)	\$100
BS93	Master of Business (Public Management)	\$100
BS93	Master of Business (Public Relations)	\$100
BS93	Master of Business (Philanthropy & Nonprofit Studies)	\$100
BS93	Master of Business (Applied Finance)	\$100
BS93	Master of Business (Financial Management)	\$100
BS93	Master of Business (Forensic Accounting)	\$100
BS93	Master of Business (Professional Accounting)	\$100
BS93	Master of Business (Integrated Marketing Communication)	\$100
BS93	Master of Business (International Business)	\$100
BS94	Master of Commerce	\$100
BS95	Graduate Diploma in Philanthropy & Nonprofit Studies	\$90
BS96	Graduate Diploma in Applied Finance	\$100
BS97	Master of Business/Applied Finance	\$200
BS98	Master of Applied Finance	\$100
BS99	Master of Business Administration/Master of Applied Finance	\$200
CE62	Graduate Certificate in Civil Engineering	\$110
CE64	Graduate Diploma in Civil Engineering	\$110
CE74	Master of Engineering Science (Civil Engineering)	\$110
CE75	Master of Engineering Science (Civil Engineering Studies)	\$110
CN64	Graduate Diploma in Project Management	\$110
CN77	Master of Project Management	\$110
CN81	Graduate Certificate in Project Management	\$110
CN90	Graduate Certificate in Property Economics	\$110
CN91	Graduate Diploma in Property Economics	\$110
CN92	Master of Property Economics	\$110
DB69	Graduate Diploma in Urban Design	\$100
DB73	Master of Built Environment (Urban Design)	\$100
ED09	Master of Learning Innovation [previously Master of Education]	\$80
ED11	Doctor of Education	RTS/RTA
ED12	Master of Education (Research)	RTS/RTA

## SCHEDULE 2 - FEES AND CHARGES

ED13	Master of Education	\$80
ED14	Master of Education (Teaching English to Speakers of Other Languages - TESOL)	\$80
ED16	Master of Education	\$80
ED20	Graduate Diploma in Education (Early Childhood) - Refer to Master of Learning Innovation (Early Childhood Teaching)	\$70
ED21	Graduate Diploma in Education (Computer Education)	\$70
ED23	Graduate Diploma in Education (Educational Management)	Commonwealth supported (subject to quota) or tuition fees \$70
ED25	Graduate Diploma in Education (Teacher-Librarianship) - Refer to Master of Learning Innovation (Teacher-Librarianship)	\$70
ED28	Graduate Diploma in Education (Learning Support) - Refer to Master of Learning Innovation	\$70
ED61	Graduate Certificate in Education	\$80
ED77	Graduate Certificate in Education (Teaching English to Speakers of Other Languages - TESOL)	\$80
EE60	Graduate Diploma in Electricity Supply Engineering	\$940 per unit
EE61	Graduate Certificate in Computer and Communications Engineering	\$110
EE67	Graduate Diploma in Computer and Communications Engineering	\$110
EE74	Master of Engineering Science (Computer and Communications Engineering)	\$110
EE77	Master of Engineering Science (Electrical Engineering Studies)	\$110
EE78	Master of Engineering Science (Electricity Supply Engineering)	\$940 per unit
EE82	Graduate Certificate in Electricity Supply Engineering	\$940 per unit.
GS13	Graduate Certificate in Management	\$160
GS20	Master of Business Administration	\$180
GS21	Graduate Diploma in Business Administration	\$180
GS22	Graduate Certificate in Business Administration	\$180
GS23	Graduate Certificate in Management	\$180
GS24	International MBA	\$180
GS25	Master of Entrepreneurship and Innovation	\$200
GS29	Master of Entrepreneurship and Innovation/Master of Business Administration	\$200
GS30	Master of Business Administration	\$200

IT92	Graduate Certificate in Information Technology (Information Security)	\$100
IT93	Graduate Certificate in Information Technology (Enterprise Wide Software)	\$100
IT94	Graduate Certificate in Information Technology (Electronic Commerce)	\$100
IT95	Graduate Certificate in Information Technology (Project)	\$100
IT96	Graduate Certificate in Information Technology (Information Technology Management)	\$100
IT98	Graduate Certificate in Information Technology (Multimedia)	\$100
IT99	Graduate Certificate in Information Technology (Component Software and Web Services)	\$100
IX20	Master of Psychology (Educational and Developmental)	\$100
JS25	Graduate Certificate in Justice	\$90
JS26	Graduate Certificate in Critical Criminology	\$90
JS27	Graduate Certificate in Organised Crime and Corruption Investigation	\$90
JS28	Graduate Certificate in Justice Policy	\$90
JS29	Graduate Certificate in Strategic Intelligence	\$90
JS40	Bachelor of Justice (Honours)	Commonwealth Supported Place
JS51	Master of Justice by Coursework	\$90
JS52	Master of Justice (Research)	RTS/RTA
KC35	Graduate Certificate in Digital Media	\$90
KC36	Graduate Diploma in Digital Media	\$90
KC42	Master of Digital Media	\$90
KD35	Graduate Certificate in Creative Industries (Dance Teaching)	\$90
KD36	Graduate Diploma in Creative Industries (Dance Teaching)	\$90
KD42	Master of Creative Industries (Dance Teaching)	\$90
KI35	Graduate Certificate in Creative Industries (Communication Design)	\$90
KI36	Graduate Diploma in Creative Industries (Communication Design)	\$90

## SCHEDULE 2 - FEES AND CHARGES

KI43	Master of Creative Industries (Communication Design)	\$90
KJ35	Graduate Certificate in Journalism	\$90
KJ36	Graduate Diploma in Journalism	\$90
KK42	Master of Fine Arts	Commonwealth Supported Place
KK48	Master of Creative Industries	\$90
KK49	Doctor of Creative Industries	\$90
KK51	Master of Arts (Research) (Creative Industries)	RTS/RTA
KK52	Bachelor of Creative Industries (Honours) (Creative Writing/Media and Communication/Communication Design/Dance/Drama/Interdisciplinary/Visual Arts)	Commonwealth Supported Place
KK53	Bachelor of Fine Arts (Honours) (Dance/Creative Writing/Film & Television Production/Visual Arts/Communication Design)	Commonwealth Supported Place
KK54	Bachelor of Journalism (Honours)	Commonwealth Supported Place
KK55	Bachelor of Music (Honours)	Commonwealth Supported Place
KM35	Graduate Certificate in Music	\$90
KM36	Graduate Diploma in Music	\$90
KM42	Master of Music	\$90
KP35	Graduate Certificate in Creative Industries (Film and Television)	\$90
KP36	Graduate Diploma in Creative Industries (Film and Television)	\$90
KT35	Graduate Certificate in Creative Industries (Drama Teaching)	\$90
KT36	Graduate Diploma in Creative Industries (Drama Teaching)	\$90
KT42	Master of Creative Industries (Drama Teaching)	\$90
KW35	Graduate Certificate in Creative Industries (Creative Writing)	\$90
KW36	Graduate Diploma in Creative Industries (Creative Writing)	\$90
KW37	Graduate Certificate in Creative Industries (Publishing and Editing)	\$90
LP41	Graduate Diploma in Legal Practice	\$100
LS50	Bachelor of Biotechnology Innovation (Extended/Non-Accelerated)	Commonwealth Supported Place
LS50	Bachelor of Biotechnology Innovation (Standard/Accelerated)	Commonwealth Supported Place
LS70	Graduate Diploma in Biotechnology	\$90; (limited CSP places available) Tuition Fees apply after CSP places have been filled
LS80	Master of Biotechnology	\$90
LS90	Graduate Diploma in Medical Science (Anatomical Pathology)	\$95
LW50	Doctor of Juridical Science	Commonwealth Supported Place
LW51	Master of Laws	\$120
LW52	Master of Laws (Research)	RTS/RTA
LW60	Graduate Certificate in Law	\$120
LW65	Graduate Certificate in Legal Studies	\$100
LW70	Graduate Diploma in Legal Studies	\$100
MA65	Graduate Certificate in Mathematical Science	\$90
MA75	Graduate Diploma in Mathematical Science	\$90
MA85	Master of Mathematical Science	\$90
ME75	Graduate Certificate in Engineering Management	\$110
ME76	Master of Engineering Management	\$110
ME80	Master of Engineering Science (Mechanical Engineering Studies)	\$110
NS30	Graduate Certificate in Intensive Care Nursing	\$80
NS31	Graduate Certificate in Cancer Nursing	\$80
NS33	Graduate Certificate in Medical/Surgical Nursing	\$80
NS34	Graduate Certificate in Community Practice	\$80
NS35	Graduate Certificate in Paediatric, Child and Youth Health Nursing	\$80
NS36	Graduate Certificate in Women's Health	\$80
NS39	Graduate Certificate in Aged Care	\$80
NS41	Graduate Certificate in Emergency Nursing	\$80
NS64	Graduate Diploma in Nursing	\$80
NS68	Graduate Diploma in Midwifery	\$80
NS85	Master of Nursing	\$80
OP43	Graduate Certificate in Ocular Therapeutics	\$120
PH60	Graduate Certificate in Applied Science (Breast Ultrasound)	\$90
PH62	Graduate Certificate in Lighting	\$95
PH71	Graduate Diploma in Applied Science (Medical Physics)	\$90; (limited CSP places available) Tuition Fee applies after CSP have been filled
PH71	Graduate Diploma in Applied Science (Medical Ultrasound)	\$90; (limited CSP places available) Tuition Fee applies after CSP places have been filled
PH72	Graduate Diploma in Lighting	\$95
PH75	Graduate Diploma in Cardiac Ultrasound	\$90

## SCHEDULE 2 - FEES AND CHARGES

PH80	Master of Applied Science (Medical Physics)	\$90; (limited CSP places available) Tuition Fees apply after CSP places have been filled
PH80	Master of Applied Science (Medical Ultrasound)	\$90; (limited HECS places available)
PH82	Master of Lighting	\$95
PH85	Master of Cardiac Ultrasound	\$90
PS66	Graduate Diploma in Landscape Architecture	Commonwealth Supported Place
PS70	Master of Urban and Regional Planning	Commonwealth Supported Place
PS71	Master of Landscape Architecture	Commonwealth Supported Place
PS72	Graduate Diploma in Urban and Regional Planning	Commonwealth Supported Place
PS73	Graduate Certificate in Geomatics	\$100
PS74	Graduate Diploma in Geomatics	\$100
PS75	Graduate Certificate in Landscape Techniques	\$100
PS76	Graduate Certificate in Landscape Design	\$100
PS77	Graduate Certificate in Advanced Landscape Techniques	\$100
PS78	Graduate Diploma in Geographic Information Systems	\$100
PS79	Graduate Certificate in Geographic Information Systems	\$100
PS82	Graduate Certificate in Planning Studies	\$100
PU30	Graduate Certificate in Public Health	\$100
PU32	Graduate Certificate in Environmental Health	\$80
PU38	Graduate Certificate in Health Services Management	\$80
PU39	Graduate Certificate in Health Promotion	\$80
PU60	Graduate Diploma in Public Health	\$100
PU65	Graduate Diploma in Health, Safety and Environment	\$80
PU67	Graduate Diploma in Environmental Health	\$80
PU85	Master of Public Health	\$100
PY08	Graduate Diploma in Psychology	\$70
PY09	Bachelor of Psychology (Honours)	Commonwealth Supported Place
PY12	Master of Counselling	\$80
PY18	Master of Clinical Psychology	\$100
PY20	Postgraduate Diploma in Psychology	\$70
PY40	Graduate Certificate in Road Safety	\$70
PY41	Graduate Diploma in Road Safety	\$70
SC01 + SC60	Bachelor of Applied Science and Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program	Commonwealth Supported Place
SC60	Bachelor of Applied Science (Honours)	Commonwealth Supported Place
SC71	Graduate Diploma in Applied Science	Commonwealth Supported Place
SC80	Master of Applied Science (Research)	Commonwealth Supported Place

Table C - International Student Tuition Fees

These fees are set in accordance with rule 24(4), QUT Student Rules by the authority of the Vice-Chancellor.

Application fee for award courses: \$55 (incl GST)

Note: The quoted fee is based on a standard credit point load. The actual cost of the program will depend on the number of credit points enrolled. Pro-rata increase in fees will be charged when more than a normal course load is taken in any semester.

CRICOS Code	Course Code	Course Title	Fee per course per teaching period
As per course of study	-	Bachelor of Engineering - Dean's Scholars Program	A\$10,000
052308E	AR48	Bachelor of Architecture	A\$10,000
003479C	AR61	Graduate Diploma in Industrial Design	A\$10,500
006361D	AR62	Graduate Diploma in Interior Design	A\$10,500
003507D	BN31	Bachelor of Built Environment (Industrial Design)	A\$10,000
003507D	BN31	Bachelor of Built Environment (Landscape Architecture)	A\$10,000
003507D	BN31	Bachelor of Built Environment (Urban and Regional Planning)	A\$10,000
003507D	BN31	Bachelor of Built Environment (Interior Design)	A\$10,000
003462A	BN71	Master of Applied Science (Research)	A\$10,500
003465J	BN72	Master of Engineering	A\$10,500
051817C	BS19	Master of Business (Professional Accounting) - Advanced	A\$8500
031769E	BS39	Graduate Certificate in Business	A\$8500
025282A	BS40	University Diploma in Business	A\$7000
025282A	BS40	University Diploma in Business	A\$7000
003491G	BS56	Bachelor of Business (Accountancy)	A\$8000

## SCHEDULE 2 - FEES AND CHARGES

003491G	BS56	Bachelor of Business (Banking and Finance)	A\$8000
003491G	BS56	Bachelor of Business (Human Resource Management)	A\$8000
003491G	BS56	Bachelor of Business (International Business)	A\$8000
003491G	BS56	Bachelor of Business (Economics)	A\$8000
003491G	BS56	Bachelor of Business (Electronic Business)	A\$8000
003491G	BS56	Bachelor of Business (Public Relations)	A\$8000
003491G	BS56	Bachelor of Business (Advertising)	A\$8000
003491G	BS56	Bachelor of Business (Management)	A\$8000
003491G	BS56	Bachelor of Business (Marketing)	A\$8000
009038B	BS63	Bachelor of Business (Honours)	A\$8500
046053G	BS64	Graduate Diploma in International Business	A\$8500
046048D	BS65	Master of International Business Studies	A\$8500
046045G	BS66	Master of International Business	A\$8500
003481J	BS70	Graduate Diploma in Advanced Accounting	A\$8500
009035E	BS72	Graduate Diploma in Public Relations	A\$8500
002329C	BS89	Master of Business (Professional Accounting)	A\$8500
037552G	BS91	Master of Business Administration/Master of Applied Finance	A\$11,500
002329C	BS92	Master of Business (Research)	A\$8500
002329C	BS93	Master of Business (Human Resource Management)	A\$8500
002329C	BS93	Master of Business (Marketing)	A\$8500
002329C	BS93	Master of Business (Public Management)	A\$8500
002329C	BS93	Master of Business (Public Relations)	A\$8500
002329C	BS93	Master of Business (Professional Accounting)	A\$8500
002329C	BS93	Master of Business (Forensic Accounting)	A\$8500
002329C	BS93	Master of Business (Financial Management)	A\$8500
002329C	BS93	Master of Business (Applied Finance)	A\$8500
002329C	BS93	Master of Business (Integrated Marketing Communication)	A\$8500
002329C	BS93	Master of Business (Philanthropy & Nonprofit Studies)	A\$8500
002329C	BS93	Master of Business (International Business)	A\$8500
020304G	BS94	Master of Commerce	A\$8500
027283F	BS98	Master of Applied Finance	A\$8500
049435B	CE35	Bachelor of Technology (Civil) Conversion Program	A\$10,000
037544G	CE44	Bachelor of Engineering (Civil)	A\$10,000
040310K	CE46	Bachelor of Engineering (Civil and Environmental Management)	A\$10,000
040341C	CE62	Graduate Certificate in Civil Engineering	A\$10,500
036430C	CE64	Graduate Diploma in Civil Engineering	A\$10,500
020300M	CE74	Master of Engineering Science (Civil Engineering)	A\$10,500
042259C	CE75	Master of Engineering Science (Civil Engineering Studies)	A\$10,500
006363B	CN51	Bachelor of Applied Science (Construction Management)	A\$10,000
003500M	CN53	Bachelor of Applied Science (Quantity Surveying)	A\$10,000
040319A	CN54	Bachelor of Property Economics	A\$10,000
006362C	CN64	Graduate Diploma in Project Management	A\$10,500
016350B	CN77	Master of Project Management	A\$10,500
012705A	CN81	Graduate Certificate in Project Management	A\$10,500
036428G	CN90	Graduate Certificate in Property Economics	A\$10,500
036429G	CN91	Graduate Diploma in Property Economics	A\$10,500
036432A	CN92	Master of Property Economics	A\$10,500
014018G	DB69	Graduate Diploma in Urban Design	A\$10,500
003475G	DB73	Master of Built Environment (Urban Design)	A\$10,500
053490E	ED09	Master of Learning Innovation [previously Master of Education]	A\$8000
015023C	ED11	Doctor of Education	A\$8000
002501G	ED12	Master of Education (Research)	A\$8000
002330K	ED14	Master of Education (Teaching English to Speakers of Other Languages - TESOL)	A\$8000
000374C	ED26	Bachelor of Education (Inservice)	A\$7000
000374C	ED26	Bachelor of Education (Inservice)	A\$7000
Not required	ED61	Graduate Certificate in Education	A\$1875 per unit
014019G	ED77	Graduate Certificate in Education (Teaching English to Speakers of Other Languages - TESOL)	A\$7500
020305F	ED82	Bachelor of Early Childhood Studies	A\$7000
Not required	ED83	Bachelor of Early Childhood	A\$1750 per unit
To be advised	ED84	Bachelor of Adult and Community Learning	A\$7000
000783G	ED90	Bachelor of Education (Secondary)	A\$7000
000783G	ED91	Bachelor of Education (Primary)	A\$7000
000783G	ED92	Bachelor of Education (Early Childhood)	A\$7000
Not required	ED93	Bachelor of Education (Preservice Early Childhood)	A\$1750 per unit

## SCHEDULE 2 - FEES AND CHARGES

031572G	ED95	Bachelor of Education (Secondary) Graduate Course	A\$7000
031572G	ED96	Bachelor of Education (Primary) Graduate Course	A\$7000
031572G	ED97	Bachelor of Education (Early Childhood) Graduate Course	A\$7000
003490G	EE41	Bachelor of Engineering (Electrical and Computer Engineering)	A\$10,000
040309C	EE46	Bachelor of Engineering (Computer Systems)	A\$10,000
040308D	EE47	Bachelor of Engineering (Telecommunications)	A\$10,000
037543G	EE48	Bachelor of Engineering (Aerospace Avionics)	A\$10,500
043119G	EE61	Graduate Certificate in Computer and Communications Engineering	A\$10,500
015184G	EE67	Graduate Diploma in Computer and Communications Engineering	A\$10,500
040343A	EE74	Master of Engineering Science (Computer and Communications Engineering)	A\$10,500
042260K	EE77	Master of Engineering Science (Electrical Engineering Studies)	A\$10,500
043122A	GS37	Master of Entrepreneurship and Innovation	A\$11,500
046861G	GS74	Graduate Diploma of Business Administration	A\$11,500
045502F	GS75	Master of Business Administration (MBA)	A\$11,500
045503E	GS76	Master of Business Administration (Major)	A\$11,500
046863F	GS77	Master of Entrepreneurship and Innovation	A\$11,500
046862G	GS78	Graduate Diploma in Entrepreneurship and Innovation	A\$11,500
046864E	GS79	Master of Entrepreneurship and Innovation/Master of Business Administration	A\$11,500
046051J	GS83	Graduate Certificate in Entrepreneurship and Innovation	A\$11,500
046047E	GS84	Graduate Diploma in Entrepreneurship and Innovation	A\$11,500
003468F	GS85	Master of Business Administration (MBA)	A\$11,500
002621K	GS86	Graduate Diploma in Business Administration	A\$11,500
031575D	GS87	Graduate Certificate in Business Administration	A\$11,500
046046F	GS88	Master of Entrepreneurship and Innovation/Master of Business Administration	A\$11,500
012664E	GS93	Graduate Certificate in Management	A\$11,500
043117J	GS97	Master of Business Administration (Major)	A\$11,500
037577J	HH01	Bachelor of Arts	A\$7000
001819D	HH02	Bachelor of Social Science (Human Services)	A\$7000
001819D	HH02	Bachelor of Social Science (Human Services)	A\$7000
001819D	HH04	Bachelor of Social Science	A\$7000
020294D	HH21	Bachelor of Arts (Honours)	A\$7500
027279B	HH22	Bachelor of Social Science (Honours) (Human Services)	A\$7500
027279B	HH23	Bachelor of Social Science (Honours)	A\$7500
040287D	HH30	Graduate Certificate in Social Science (Human Services)	A\$7500
027280J	HH31	Graduate Diploma in Social Science (Human Services)	A\$7500
027281G	HH32	Master of Social Science (Human Services)	A\$7500
012707K	HH40	Master of Arts (Research) (Humanities and Human Services)	A\$7500
048293G	HH50	Doctor of Social Science	A\$10,000
027285D	HL38	Graduate Certificate in Health Science	A\$8500
031578A	HL40	Bachelor of Nursing/Bachelor of Applied Science (in Human Movement Studies)	A\$8000
031579M	HL42	Bachelor of Health Science (Nutrition and Dietetics)/Bachelor of Applied Science (Human Movement Studies)	A\$8000
047455C	HL43	Bachelor of Health Science (Podiatry)/Bachelor of Applied Science (Human Movement Studies)	A\$8000
031576C	HL46	Bachelor of Nursing/Bachelor of Health Science (Public Health)	A\$8000
016355G	HL50	Bachelor of Nursing (Honours)	A\$8500
043118G	HL52	Bachelor of Applied Science (Honours)	A\$8500
027284E	HL55	Bachelor of Health Science (Honours)	A\$8500
020308C	HL68	Graduate Diploma in Health Science	A\$8500
007897G	HL84	Master of Applied Science (Research)	A\$8500
009030K	HL88	Master of Health Science	A\$8500
037680K	HL90	Doctor of Health Science	A\$10,000
012659B	HM42	Bachelor of Applied Science (Human Movement Studies)	A\$8000
047456B	HM45	Bachelor of Applied Science (Exercise and Sports Nutrition)	A\$8000
040291G	IF02	Graduate Diploma in Creative Industries (Arts and Cultural Management)	A\$8500
040292G	IF03	Graduate Diploma in Creative Industries (Creative & Media Enterprises)	A\$8500
040290J	IF04	Master of Creative Industries (Arts Management & Creative Enterprise)	A\$8500
040312G	IF05	Bachelor of Journalism/Bachelor of Business (Advertising, International Business, Public Relations)	A\$8000
039083D	IF06	University Diploma in Professional Communication	A\$6750
040313G	IF07	Bachelor of Journalism/Bachelor of Laws	A\$8500
040286E	IF09	Bachelor of Creative Industries (Media and Communication)/Bachelor of Business (Advertising, International Business, Public Relations)	A\$8000
040288C	IF10	Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws	A\$8500
020329J	IF21	Bachelor of Engineering (Electrical and Computer Engineering)/ Bachelor of Mathematics	A\$10,000
037542J	IF27	Bachelor of Mass Communication	A\$8000
027278C	IF28	Bachelor of Engineering (Electrical and Computer Engineering)/Bachelor of Business	A\$10,000

## SCHEDULE 2 - FEES AND CHARGES

020327M	IF29	Bachelor of Applied Science/Bachelor of Information Technology	A\$9000
027275F	IF30	Bachelor of Arts/Bachelor of Business (Accountancy, Banking and Finance, Economics or Marketing)	A\$8000
037539D	IF30	Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management or Public Relations)	A\$8000
006386F	IF37	Bachelor of Business (Accountancy)/Bachelor of Laws	A\$8500

012704B	UO10	Study Abroad Scheme	A\$7500

**TABLE D - DOMESTIC UNDERGRADUATE NON-AWARD TUITION FEES**

These fees are set in accordance with rule 24(3), QUT Student Rules by the authority of the Vice-Chancellor.

Course Code	Course Type	Fee per credit point	
		2004	2005
BS20	Management Certificate (Undergraduate)	\$80	\$90
KD05	Certificate in Dance Teaching	\$70	\$80
KD06	Advanced in Certificate in Dance Teaching	\$70	\$80

**TABLE E - SUMMER PROGRAM TUITION FEES (INCLUDING HECS COURSES WITH SUMMER AS NORMAL PROGRESSION)**

These fees are set in accordance with rule 24(5), QUT Student Rules by the authority of the Vice-Chancellor. Does not include International Student Tuition Fees.

SUMMER PROGRAM TUITION FEES	Units with a census date in 2004	Units with a census date in 2005
Students enrolled in existing fee-paying courses	Standard Tuition fee applies	Standard Tuition fee applies
Commonwealth supported students enrolled in a course in standard semesters, who elect to undertake Summer Program studies (eg accelerated or remedial studies). <b>Except Faculty of Law</b>	\$70 per credit point	\$90 per credit point
Commonwealth supported students enrolled in a course in standard semesters, who elect to undertake Summer Program studies (eg accelerated or remedial studies). <b>Faculty of Law</b>	\$80 per credit point	\$100 per credit point
Commonwealth supported students enrolled in a Summer Program unit that is part of the normal course progression. Faculty recommendation only.	Student contribution	Student contribution
Visiting students	Refer to Table F	Refer to Table F

COURSES WITH SUMMER AS NORMAL PROGRESSION		
Faculty of Built Environment and Engineering		
CE45	Bachelor of Engineering (Civil) - Mid-year entry	Student contribution
	Dean's Scholars	Student contribution
	Mid-year entry students into other Engineering courses	
Faculty of Education		
ED20	Graduate Diploma in Education (Early Childhood)	Student contribution
Faculty of Science		
SC01	Dean's Scholars - (accelerated)	Student contribution
LS50	Bachelor of Biotechnology Innovation	Student contribution
PH80	Masters in Applied Science	Student contribution

**TABLE F - VISITING STUDENT TUITION FEES**

These fees are set in accordance with rule 24(3), QUT Student Rules by the authority of the Vice-Chancellor.

STUDENT TYPE	2004 FEE PER CREDIT POINT	2005 FEE PER CREDIT POINT
Students enrolled in <b>any undergraduate</b> unit (except Faculty of Law)	\$80	\$90
Students enrolled in <b>any undergraduate</b> unit (Faculty of Law)	\$80	\$100
Students enrolled in a <b>postgraduate</b> unit offered by <b>QUT Carseldine, Creative Industries, Faculties of Education or Health</b>	\$80	\$90
Students enrolled in a <b>postgraduate</b> unit offered by the <b>Faculty of Science</b>	\$90	\$100

## SCHEDULE 2 - FEES AND CHARGES

Students enrolled in a <b>postgraduate</b> unit offered by the <b>Faculty of Law</b>	\$100	\$120
Students enrolled in a <b>postgraduate</b> unit offered by the <b>Faculty Built Environment and Engineering</b>	\$100	\$110
Students enrolled in a <b>postgraduate</b> unit offered by the <b>Faculty of Business</b>	\$110	\$110
Students enrolled in a <b>postgraduate</b> unit offered by the <b>Faculty of Information Technology</b>	\$90	\$100

**TABLE G - STUDENT GUILD FEE**

These fees are set in accordance with rule 22, QUT Student Rules by the authority of QUT Council.

<b>Attendance Mode</b>	<b>2005</b>
Full-time	\$242.00
Part-time	\$121.00
External	\$48.40

**TABLE H - QUT ADMINISTRATIVE CHARGES**

These charges are set in accordance with rule 24, QUT Student Rules by the authority of the Registrar.

<b>TYPE OF ADMINISTRATIVE CHARGE</b>	<b>2005 CHARGE (INC GST)</b>
Late lodgement of application for admission	\$50.00
Late lodgement of enrolment form	\$50.00
Late addition to enrolment program	\$50.00
Addition to enrolment program not made on prescribed form	\$50.00
Reinstatement of enrolment following administrative cancellation	\$100.00
Review of Pass Grades (refundable):	
Step 2: school level review	\$20.00
Step 3: faculty level review	\$30.00
Copy of examination script	\$10.00
Statement of Academic Record	\$10.00
Re-issue of student ID card	\$10.00
Re-issue of Award Certificate	\$50.00
Re-issue of receipt for fees paid/statement of fees paid	\$10.00
Late fee for non-payment of fees	\$50.00

**TABLE I - DOMESTIC TUITION CANCELLATION CHARGES**

These fees are set in accordance with rule 26, QUT Student Rules by the authority of the Vice-Chancellor.

Students should note that academic penalties may also apply to withdrawal of units. Refer to Schedule 1: Unit Addition and Withdrawal for more information.

<b>UNIT TEACHING PERIOD</b>	<b>WITHDRAWAL RULE</b>	<b>CANCELLATION CHARGE</b>
<b>Unit Teaching Period</b> <b>Semester 1 (SEM-1)</b> <b>Semester 2 (SEM-2)</b>	Commonwealth supported place: on or before census date	NIL
	Commonwealth supported place: after census date	100% student contribution
	Tuition fee place: on or before end of week 2	NIL
	Tuition fee place: after end of week 2 to on or before census date	25% of tuition fee*
	Tuition fee place: after census date	100% of tuition fee
<b>6 Week Teaching Period (6TP1-6)</b> <b>Summer Program (SUM)</b> <b>Summer Program 1 (SUM-1)</b> <b>Summer Program 2 (SUM-2)</b>	Commonwealth supported place: on or before census date	NIL
	Domestic tuition/PELS: before 1st day of teaching period	NIL
	Commonwealth supported place: after census date	100% of student contribution
	Tuition fee place: before 1st day of teaching period	NIL
	Tuition fee place: on or after 1st day of teaching period but before end of week 2	25% of tuition fee*
<b>21 Week Teaching Period (21TP1-2)</b>	Tuition fee place: after end of week 2	100% of tuition fee
	Tuition fee place: on or before end of week 2	NIL
	Tuition fee place: after end of week 2 but before the end of week 6	25% of tuition fee*
	Tuition fee place: after end of week 6	100% of tuition fee
	Tuition fee place: before 1st day of teaching period	NIL
<b>5 Week Teaching Period (5TP1-9)</b>	Tuition fee place: on or after 1st day of teaching period but before end of week 2	25% of unit tuition fee*
	Tuition fee place: after end of week 2	100% of unit tuition fee

\* 25% cancellation charge cannot be deferred to the ATO via FEE-HELP. Students in this situation will receive an invoice from QUT.

## SCHEDULE 2 - FEES AND CHARGES

**TABLE J - INTERNATIONAL TUITION CANCELLATION CHARGES**

These fees are set in accordance with rule 26, QUT Student Rules by the authority of the Vice-Chancellor.

Students should note that academic penalties may also apply to withdrawal of units. Refer to Schedule 1.

UNIT TEACHING PERIOD	WITHDRAWAL RULE	CANCELLATION CHARGE
<b>Semester 1 (SEM-1)</b>	From entire course, due to inability to obtain a visa or meet all the conditions stated in offer letter (commencing students only)	100% of tuition fee refunded
<b>Semester 2 (SEM-2)</b>		
<b>13 Week Teaching Period (13TP1-3)</b>	From entire course, prior to commencement date of teaching period (commencing students only)	10% of first semester's tuition fee retained
<b>12 Week Teaching Period (12TP1-3)</b>	From entire course or leave of absence, within first four weeks of teaching period	50% of first semester's tuition fee retained
	From entire course or leave of absence, after first four weeks of teaching period	100% of first semester's tuition fee retained
	From a unit(s) within first four weeks of teaching period	100% of unit tuition fee refunded
	From a unit(s) after first four weeks of teaching period	100% of unit tuition fee retained
<b>6 Week Teaching Period (6TP1-6)</b>	From entire course, due to inability to obtain a visa or meet all the conditions stated in offer letter (commencing students only)	100% of tuition fee refunded
	From entire course, prior to commencement date of teaching period (commencing students only)	10% of first semester's tuition fee retained
	From entire course or leave of absence, within first two weeks of teaching period	50% of first semester's tuition fee retained
	From entire course or leave of absence, after first two weeks of teaching period	100% of first semester's tuition fee retained
	From a unit(s) within first two weeks of teaching period	100% of unit tuition fee refunded
	From a unit(s) after first two weeks of teaching period	100% of unit tuition fee retained
<b>Summer Program (SUM)</b>	From a unit(s) within first two weeks of teaching period	100% of unit tuition fee refunded
	From a unit(s) after first two weeks of teaching period	100% of unit tuition fee retained
<b>5 Week Teaching Periods (5TP1-9)</b>	Withdrawal from course more than 28 days before commencement	100% of fees refunded
<b>QUTIC English Language Programs</b>	Withdrawal from course less than 28 days before course commencement	80% of fees refunded
<b>Non package offers</b>	Withdrawal from course after commencement General English (QC20, QC21)	100% of current teaching period fees are retained, 80% of remaining balance is refunded
<b>12TP1-3 (EAP)</b>	Withdrawal from course more than 28 days before commencement	100% of fees refunded
<b>Non package offers</b>	Withdrawal from course less than 28 days before course commencement	80% of fees refunded
	Withdrawal from EAP (QC10) course after commencement	100% of fees retained
<b>English Language (ELP) package programs</b>	Withdrawal from course before commencement of ELP classes	10% of fees retained
	From entire course, due to inability to obtain a visa or meet all the conditions stated in offer	100% of tuition fee refunded

## ACCESS TO ASSESSMENT RESULTS

The University is committed to a policy of openness with respect to the release of assessment results. QUT policy on access to assessment results and/or marks is as follows:

- For units where percentage marks are calculated, such marks will be placed on the confidential individual student records located in the QUT Virtual web pages (<https://qutvirtual.qut.edu.au/>).
- Faculty academic boards must make appropriate arrangements for students who request to peruse their own examination scripts or written answers to examination questions or other forms of assessment, provided that the request is made within three months of the release of the examination results. Should students request a photocopy of their script, a fee will be levied.
- Where examination question papers or other forms of assessment will be re-used in successive examinations, faculty academic boards must arrange for students to receive advice on their performance with reference to their own examination scripts in a way which does not prejudice the examination mode.

## ASSESSMENT FOR STUDENTS WITH DISABILITIES

Students with permanent or temporary disability have the right to alternative arrangements for assessment which provide equality of opportunity to enable students to fulfil course requirements.

Students should contact the relevant campus Disability Officer early in the teaching period and preferably prior to the published date for withdrawal without financial penalty for the relevant teaching period.

Alternative arrangements for assessment are negotiated between the student, Disability Officer and the course coordinator.

Students are required to present evidence to the Disability Officer, usually in the form of documentation from a medical or other relevant specialist practitioner which substantiates the nature of the special need. The University adheres to principles of confidentiality and privacy and documentation together with records of interviews, are maintained by the Disability Officer.

The Disability Officer will develop a service plan which includes recommendations for alternative arrangements for assessment for approval by the relevant course coordinator. Service plans are reviewed and re-negotiated each semester. The student will be advised in writing of any alternative arrangements for their assessment.

Further information on support provided by the University for students with disabilities is contained in the Guide for Students with Disabilities. Refer also to University policy on disability services (see section A/8.3).

### a) Centrally organised assessment

For centrally organised examinations, responsibility for the conduct and administration of alternative assessment provisions for students with disabilities, including the costs of employing invigilators, personal assistants and providing examination materials, rests with the Student Business Services Department.

### b) School-based assessment

For assessment other than central examinations, administrative and financial responsibility, including organisation of appropriate equipment and support personnel, rests with faculties and schools.

## QUT POLICY ON CHILDREN OF STUDENTS ON CAMPUS

QUT recognises the diversity of needs and demands placed on staff and students when balancing work, study and family responsibilities, and that occasionally it may be necessary to bring a child or children onto campus.

This policy should be read in conjunction with the University's policy on childcare and family responsibilities (see section A/8.6).

### Application

The children on campus policy applies to all students and staff members. This policy does not apply to situations where a child is brought on campus for the purpose of attending a registered child care facility, the Early Childhood Development Unit, clinics and approved programs such as vacation care.

### Principles

Under the Queensland Workplace Health and Safety Act 1995 QUT has obligations to ensure the health and safety of all, including children, at or near the workplace. The legislation requires that students and staff meet the following obligations:

- to follow instructions related to their study or employment at QUT
- to not interfere with or misuse anything provided for health and safety
- to not place others or themselves at risk..

Consistent with these obligations, a student or staff member must consider the following issues prior to bringing a child on campus.

- It is anticipated that students will make all reasonable attempts to arrange alternative childcare before bringing a child to the workplace.
- It is anticipated that staff will make all reasonable attempts to arrange alternative child care before bringing a child to the workplace or avail themselves of flexible work practices (eg flexitime) or leave options (eg Personal leave) where available and appropriate.
- Approval to bring a child on campus should be obtained from the relevant staff member or supervisor as soon as practical, ie in advance if possible or on arrival.
- Children must not enter areas where potentially dangerous equipment or hazardous substances are present or areas that are subject to particular statutory or local regulations.
- A common sense approach is necessary when bringing children on campus. For example, children recently exposed to an infectious illness (eg chicken pox, rubella, mumps etc), or who are known to be ill, must not be brought on campus.
- It is important that the child's presence on campus does not result in disruption to the workplace, including classes and non-teaching areas such as the Library.

Further information and detailed procedures relating to this policy are available from HR Health and Safety Advisory Services.

## INFORMATION ACCESS AND PRIVACY

QUT's functions necessitate the collection and use of personal information about its students, staff and other clients. QUT recognises that, in collecting, storing, and using this information, it has obligations for the protection of personal privacy.

QUT's commitment to protecting privacy is part of a broader framework of privacy compliance requirements applying to Queensland government departments and agencies, including statutory authorities such as QUT. The privacy regime is found in Information Standard No 42 - Information Privacy (IS42) and supporting guidelines. Implementation of this standard by QUT is mandatory, as the standard has been issued under the *Financial Administration and Audit Act 1977*.

### General principles and responsibilities for privacy

QUT must comply with 11 information privacy principles, which govern how personal information is collected, stored, used and disclosed. QUT recognises that staff and students, both past and present, and other clients and individuals having links to QUT, have a legitimate expectation that the University will protect and appropriately manage the personal information it collects and holds about them.

It is the responsibility of all staff to respect personal privacy in so far as they collect, access or use personal information in the course of their duties, and to comply with the specific requirements of this policy. Privacy must also be appropriately respected in the human research context, and all researchers must comply with the University's specific policy settings and procedures for research involving personal information.

The functions of many organisational units within the University require the collection or management of personal information, and responsibility for implementing business processes which are consistent with privacy principles rests with the head of each organisational unit. The Registrar, as chief administrative officer, has general responsibility for privacy management, and has designated a Privacy Contact Officer in the University Secretariat to facilitate the implementation of IS42 at QUT.

### Definition of personal information

This policy applies to 'personal information'. This is defined as any information or opinion, whether true or not, and whether recorded in a material form or not, about an individual whose identity is apparent, or can reasonably be ascertained, from the information or opinion. For the purposes of this definition, information includes unique identifiers such as student/staff numbers, tax file numbers, photographs and images, and extends to information in any format. Where data is recorded in a way which does not link it to a known individual, then the privacy principles do not apply.

### Collection of personal information

In accordance with Information Privacy Principles 1-3, personal information should be collected by the University for inclusion in its records or publications only where:

- it is collected for a lawful purpose relating to a function or activity of the University;
- the information is relevant to the purpose of collection; and
- the information is as up-to-date and complete as can reasonably be expected.

Moreover, the University must not collect personal information by unlawful, unfair or intrusive means, and must take reasonable steps to ensure that an individual from whom information is collected is generally aware of:

- the purpose for which the personal information is being collected;
- the authority for collecting the information; and
- the University's usual practices for disclosure.

These general principles have a number of implications for an organisational unit engaged in activities requiring the collection of personal information:

- the need to regularly review data collection activities to exclude collection of personal information irrelevant to the business process or where there is no specific and immediate use for the information collected (privacy principles are infringed if personal information is collected just because it might be useful in the future);
- the need to develop appropriate privacy notices when collecting information directly from the person concerned, whether the collection occurs orally (in interviews or telephone calls), in writing or via hard copy or electronic forms;

- the need to determine whether recording names or other identifying details is necessary (for instance, whether data can be recorded in a de-identified way when undertaking surveys or other statistical analysis).

Special considerations apply to data collection practices in the context of human research. Staff or students undertaking research where identified or re-identifiable personal information data is involved must comply with the guidelines issued by the University's Human Research Ethics Committee governing appropriate data collection methodologies and practices.

Guidelines have been developed to assist in the preparation of privacy notices [pending].

### Access to personal information records

A significant means of protecting personal privacy within the University is by ensuring that individual staff access personal information records (whether in physical files or computerised formats) only where there is a legitimate need to do so, and only to the extent required to perform the staff member's duties. This is consistent with Information Privacy Principle 4.

Management of access is a responsibility of the head of each organisational unit for personal information records held by that unit. The head of the unit is also responsible for granting, for staff within the unit, appropriate permissions for access to QUT's information systems. Access to personal information in information systems should be granted on the 'least privilege principle' in accordance with the Information Systems Security policy (MOPP F/1.2), so that rights to modify personal information are granted with particular care. Systems and processes should be in place to revoke access that is no longer required, for example, in the case of a change in position or formal responsibilities or termination of employment.

For personal data in information systems, the system custodian has formal responsibility for access permissions and management. Access rights should be formally documented and reviewed periodically.

### Security of personal information

Consistent with Information Privacy Principle 4, the University has a responsibility to implement procedures to protect the security of personal information, to prevent loss and unauthorised access, use, modification, disclosure or any other misuse of such information.

#### Computerised records

All staff must take responsibility for IT security, as this is an integral means of protecting personal privacy. Detailed arrangements for management of information security are found in the Information Systems Security Policy (MOPP F/1.2). Individual user responsibilities relating to security are outlined in QUT's Information Facilities Rules (MOPP Appendix 1(c)).

#### Security of physical (hard copy) files and records

Personal information records held in physical files must also be secured - care should be taken by all staff handling physical files to ensure that storage facilities such as filing cabinets, safes and compactuses are locked when not in use and that offices and work areas where these are housed are also adequately secured.

In addition, good records management practices for physical files, for instance, recording file movements, undertaking file audits, placing appropriate security classifications on files, and managing records retention, are designed to safeguard against loss or unauthorised access. Care must be taken to ensure secure and confidential destruction of records containing personal information (which may only be undertaken in accordance with the University's disposal schedule). Refer to QUT's records management policies (MOPP F/8.1 and F/8.2).

## Use of personal information records

Use of personal information by the University is governed by several principles:

- the requirement to take reasonable steps to ensure that information is accurate, up-to-date and complete before it is used, since it is important that decisions or actions by the University are based on accurate and complete facts (Information Privacy Principle 8);
- the requirement to use information only in circumstances where it is relevant, and provided that it is used only for the purpose for which it has been collected or a directly related purpose (Information Privacy Principles 9 and 10).

However, there are several recognised but limited exceptions to the restrictions on use of personal information (which mirror the exceptions relating to non-disclosure of personal information described below, and include consent, legal compulsion, law enforcement enquiries, threats to life or safety). Protocols for managing these limited situations are under development [pending].

## Prohibition on disclosure of personal information

Disclosure refers to release of personal information out of the effective control of the University (that is, to a body, agency or person separate from the University). Information Privacy Principle 11 prohibits the disclosure of personal information held by the University. Staff must not disclose personal information outside the University except as specified in this policy and in accordance with supporting guidelines and protocols.

## Exceptions relating to disclosure of personal information

The general principle is that personal information must not be disclosed outside the University. There are, however, several limited exceptions to this principle.

### Consent

Personal information may be disclosed where the individual concerned has consented to that disclosure. A common example is the consent given by staff or students for the release of their photographs via QUT Virtual. Consent must be expressly given and it is expected that the consent will be given in writing. In limited circumstances, verbal consent may be acceptable if it is verifiable and the disclosure is clearly in the best interests of the individual. Staff proposing to release information without a written consent must discuss the circumstances with the Privacy Contact Officer before disclosure occurs (or the Registrar's Executive Officer if the Privacy Contact Officer is unavailable).

Implied consent must not generally be relied upon as a basis for disclosure. Where a person seeks personal information as a representative or agent of another, then documentation confirming the scope of the agent's authority should be obtained before release of any personal information held by the University.

### Previous provision of a privacy notice

In addition, personal information may be disclosed where individuals have been informed of the usual practices for disclosure. For instance, the University may routinely disclose information to the Student Guild about students who are members, as this practice has been incorporated into a student privacy notice.

### Other situations

In rare circumstances, disclosure of personal information may also be permitted where:

- disclosure is necessary to prevent or lessen an imminent and serious threat to a person's life or health;
- disclosure is required by law (for example, if the University's records are subpoenaed, or if there are statutory requirements to provide information to a government department such as the Australian Taxation Office, Centrelink, or DEST);

- disclosure is necessary for enforcement of criminal or other laws imposing penalties such as fines.

With the exception of routine disclosures under statutory authority (eg to ATO, Centrelink or DEST), disclosure of personal information in these three situations should be discussed with the Privacy Contact Officer (or the Registrar's Executive Officer if the Privacy Contact Officer is unavailable), pending development of protocols for assisting staff in managing these situations.

## Register of graduates

Privacy principles do not apply to material which is maintained on a public register. Given that one of QUT's primary functions is to confer higher education degrees and awards, QUT maintains a register of its graduates (via the student information system). Information concerning a person's status as a graduate of the University is available to any member of the public upon formal request in writing. The request must be made to the Student Business Services Department, who will confirm a graduate's name, the degree conferred and the date of conferral only.

No other personal information is regarded as being on a public register.

## Access to and amendment of an individual's own record

Information Privacy Principles 6 and 7 generally entitle an individual to have access to the personal information which the University holds about them, and to amend it where it is inaccurate, incomplete, out-of-date or misleading. Information Standard 42 recognises that, in Queensland, these rights are dealt with in the Freedom of Information Act 1992.

However, QUT is committed to providing, as far as practicable, an open environment which enables members of the QUT community to obtain access to their personal information without recourse to formal procedures contained in the FOI Act (see FOI policy - MOPP F/10.1). To achieve this, QUT has in place administrative procedures for information access by staff and students.

## QUT Privacy Plan

As required by Information Standard 42, QUT publishes a privacy plan which is updated regularly. The objective of the plan is to describe the nature of the personal information records held by QUT, conditions within the University for access and use and how long such records are retained. The plan includes a complaint mechanism. The Privacy Contact Officer is responsible for publishing the plan.

## Contracts involving personal information

The University has a small number of contractual and other arrangements in place which may involve access to or use of personal information held by QUT. Typically these arrangements may outsource routine support functions, though some contractual arrangements may also relate to commercial research and consultancies.

Any contracts which are entered into by the University must place appropriate safeguards on protection of personal privacy. It is the responsibility of senior officers who are involved in negotiating these agreements on the University's behalf or who have delegated authority to enter contracts and commercial arrangements, to ensure that privacy is adequately addressed and incorporated into the formal terms of the contract where necessary. Contractual arrangements must ensure compliance with the requirements of IS42.

Queries concerning appropriate contractual provisions covering QUT's privacy obligations may be directed to the Privacy Contact Officer or the Office of Commercial Services.

## DISABILITY SERVICES POLICY

In accordance with QUT's equal opportunity policy (see MOPP section A/8.4), the University recognises its social and legal obligation to provide an accessible and inclusive environment for people with disabilities. QUT is bound by the *Commonwealth Disability Discrimination Act 1992* and the *Queensland Anti-Discrimination Act 1991*, under which the University can be vicariously liable for discrimination or harassment against a person with a disability by a member of staff or any of its agents.

This policy seeks to ensure equal opportunities for people with disabilities to participate in all aspects of University life, including education and employment. It is based on the philosophy of inclusion, which promotes strategies to develop a flexible work and study environment which is able to meet the needs of a diverse range of users.

The policy is accompanied by detailed operational guidelines available from the Equity Section, or from the Equity Section webpage (<http://www.qut.edu.au/admin/equity/>).

### Principles

QUT is committed to the creation of an environment which promotes dignity, acknowledges the right to privacy and confidentiality, and cultivates an awareness of the needs and rights of people with disabilities.

In creating this environment, the University is guided by the following principles.

- Reasonable accommodations are to be provided for people with disabilities. It is the responsibility of the student or staff member to substantiate their eligibility for disability services.
- The needs of people with disabilities are to be assessed in consultation with them by the University's Disability Officer/s on an individual basis.
- Accommodations for people with disabilities will neither advantage nor disadvantage them in comparison to other people not receiving disability support services, but will be designed to ensure that people with a disability have equal access to employment or education.
- Any information in relation to a person's disability remains confidential, is not part of the person's open record of employment or academic progress, and will not be disclosed without prior written consent, except for statistical reports designed for monitoring and evaluation. (See MOPP section F/9.2 for policy on confidentiality of staff and student records).
- The University may seek information about a person's disability only insofar as it relates to the request for reasonable accommodation and/or the need for general accountability to funding agencies, policy development or monitoring and evaluation of policies and programs, including affirmative action programs for staff with disabilities.
- By law, access to work and study may not be limited on the basis of the cost of services and accommodations required, unless the adjustments would impose 'unjustifiable hardship' on the University.
- People with disabilities should be able to access and negotiate each campus in safety and with ease.
- People with disabilities should have access to existing information networks (eg advertisements, publications, promotional material) in appropriate formats.

### Definitions

#### • **Disability**

As outlined in the relevant legislation, a disability may be either temporary or permanent, total or partial, physical, psychological or psychiatric, life-long or acquired. Also included are people who require devices or aids for assistance, or are accompanied by guide dogs.

#### • **Reasonable Accommodation**

Reasonable accommodation refers to administrative, physical or procedural alterations required to ensure equal opportunity for a person with a disability.

#### • **Unjustifiable Hardship**

In some cases it may be unreasonable for the University to make certain adjustments. Relevant circumstances in determining unjustifiable hardship include:

- the nature of the benefit or detriment likely to accrue or be suffered by any persons concerned; and
- the financial circumstances of the institution and the cost of making the required adjustments.

A thorough understanding of the effect of the disability on the individual and the impact of any adjustment or alteration is required in order to determine whether such adjustments are reasonable and necessary. The relevant State and Commonwealth administrative bodies require detailed evidence to support a claim of unjustifiable hardship.

### Provisions

QUT's disability services policy makes the following provisions

#### • **Entry to Work and Study**

QUT does not discriminate on grounds other than academic and merit based criteria when considering applications for admission as a student or staff member.

#### • **Access to Academic Programs and Employment**

The University will endeavour to make all its academic programs, employment and development opportunities available to prospective students and staff members with a disability, consistent with the entry provisions above.

#### • **Support Services**

QUT has a wide range of support services available to all staff and students. The University recognises that students and staff with disabilities may require specialised assistance. Support services include note-takers, alternative formatting of learning material, participation assistants etc.

#### • **Adapting the Learning and Working Environment**

The University supports the practice of job re-design, workplace modifications and alternative teaching and assessment practices to enable a staff member or a student with a disability to fulfil the requirements of a particular position or academic course.

#### • **Creation of Employment/Study Opportunities**

The University aims to provide equal employment and educational opportunities and to implement affirmative action programs for equity groups (see MOPP section A/8.4). The University develops strategies to take full advantage of funding initiatives by Government agencies aimed at providing employment opportunities for people with disabilities, including its own graduates.

#### • **The Physical Environment**

The built environment should be accessible to people with disabilities. All new buildings are designed in accordance with the appropriate standards and codes. The University endeavours to improve access to older buildings which do not meet these standards.

#### • **Promotion of Disability Awareness**

All staff and students will be given the opportunity to acquire the understanding and skills necessary to meet the employment, educational and social support needs of people with disabilities.

#### • **Non-Discriminatory Presentation and Practice**

In accordance with QUT's policy and guidelines on inclusive language and presentation (see MOPP section A/8.7), the University will endeavour to ensure that all essential educational, admin-

istrative and promotional material is available in alternative formats for access by people with disabilities.

- **Community Service and Outreach**

The University has a responsibility to make its human and physical resources available in a manner which is responsive to the needs and aspirations of people with disabilities, unless to do so would cause unjustifiable hardship for the University.

- **Quality Assurance Measures**

The University is committed to the continued review of policy and procedures, and to the involvement of people with disabilities in matters that affect them. The University will actively seek to involve consumers in decision making, and develop quality assurance mechanisms to support this policy.

## AWARDS WITH HONOURS

This policy does not deal with honours programs which are end-on to a bachelor degree course (see MOPP section C/3.3.5).

In degree courses of four or more years, a degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program. Degrees with honours are also awarded to students who have recorded outstanding achievement in a component of a double degree program where that component is a degree for which awards with honours are made (see MOPP section C/3.3.6).

First class honours, second class honours division A and second class honours division B may be awarded. Candidates for a degree with honours must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the relevant faculty academic board and approved by University Academic Board.

Honours are awarded

- to indicate that students may appropriately proceed to higher degrees
- to encourage students to work consistently throughout a course
- to ensure that QUT students can apply equally for employment in competition with honours graduates from other institutions
- to ensure that QUT graduates are eligible for the same level of salary on commencement as graduates from other institutions
- to enable QUT graduates to compete equally for scholarships.

## EQUAL OPPORTUNITY POLICY

QUT Council is committed to a policy of equal opportunity and freedom from all forms of discrimination as determined by legislation or by Council. The policy is issued on the basis that it is fair and just and contributes to the fulfilment of QUT's mission and goals.

In fulfilling this policy, the University aims to:

- promote the development of a University culture supportive of equity principles;
- ensure all of its management and educational policies and practices reflect and respect the social and cultural diversity contained within the University and the community it serves;
- ensure that the appointment and advancement of staff and admission and progression of students within QUT are determined on the basis of merit;
- provide equal employment and educational opportunities within QUT and identify and remove barriers to participation and progression in employment and education, and implement an affirmative action program for equity groups;
- eliminate unlawful discrimination against staff and students on the grounds of sex, marital status, pregnancy, breastfeeding, race, age, parenthood, physical, intellectual and mental im-

pairment, religious belief, lawful sexual activity, trade union activity, criminal record, social origin, medical record, nationality, political belief or activity; and

- comply with state and federal legislation on discrimination, equal opportunity and affirmative action and binding international human rights instruments.

The Vice-Chancellor, through the Registrar and the management of the University, is responsible for implementation of this policy. The Registrar is assisted by the Equity Coordinator.

QUT expects all staff, students and members of the University community to act in accordance with this policy.

## POLICY ON INCLUSIVE LANGUAGE AND PRESENTATION

Under its equal opportunity policy (1993), QUT aims to 'provide equal employment and educational opportunities within QUT and identify and remove barriers to participation and progression in employment and education.'

To this end, QUT supports a policy of inclusive language and presentation in all administrative and academic activities of the University. This means that QUT will:

- actively promote the use of inclusive language and presentation by staff and students in all QUT documents and materials, both written and otherwise;
- actively promote the use of inclusive texts and materials in all QUT teaching and presentations;
- works towards the elimination of demeaning or discriminatory language and visual representations at QUT;
- take active steps to ensure that all staff and students are aware of their responsibilities under the policy, and take appropriate action to assist staff to comply; and
- develop and maintain a procedure for resolving complaints of demeaning or discriminatory language and presentation.

For the purpose of this policy:

- **inclusive language and presentation** positively reflects the richness of the social and cultural diversity of Australian society and the QUT community by embracing the lifestyles, experiences and values of all groups of people; and
- **discriminatory language and presentation** devalues or demeans people or groups of people by harassing them, highlighting individual characteristics in an offensive or prejudicial manner, or by excluding them.

QUT recognises that use of inclusive language and presentation in all activities will assist in the University's mission to bring the benefits of teaching, research and learning to the community.

### Responsibilities

QUT expects all staff, students and other members of the University community to act in accordance with this policy.

Deans, heads of division and Chancellery are responsible for ensuring that their staff and, where applicable, students comply with this policy.

## SUPPLEMENTARY ASSESSMENT

Supplementary assessment is provided to facilitate the course completion of students and will therefore only be granted to students whose current enrolment would satisfy the requirements for graduation.

Students may be granted:

- up to two supplementary assessments in the final year of study, at the faculty's discretion, for coursework programs of three or more years full-time duration or equivalent; and
- one supplementary assessment in the final semester of study, at the faculty's discretion, for coursework programs of less than three years full-time duration or equivalent (this includes students enrolled in a QUTIC diploma).

Supplementary assessment is not a reassessment of the student's overall grade or the mark for an individual assessment item. It is a new item of assessment designed to assist students to complete requirements for their qualification, and is thus available for units undertaken in the final semester or year of study (as applicable).

Faculty academic boards are responsible for determining eligibility for supplementary assessment at the time that examination results are considered. Faculty academic boards will be guided by advice from the relevant school(s) as to whether, given the student's grades for the unit(s) and the nature of the unit(s), it is possible for the student to achieve a passing standard through supplementary assessment.

The form and type of supplementary assessment is at the discretion of the faculty, which will ensure that academic standards are maintained.

Supplementary assessment should only be provided when a student receives:

- a grade of 3 in a unit where a 4 is required for course completion;
- a grade of 2 in a unit where a 3 is required for course completion.

Supplementary assessment will not be granted:

- to students enrolled in designated units listed in the QUT Handbook;
- to students who have been graded 1 low fail or K withdrawn failure.

Students who are not granted supplementary assessment but believe they are entitled to supplementary assessment may request a review of the decision under the University's procedures for reviews of academic rulings (see MOPP Chapter E/9.1 for details of these procedures).

The only grades that will be recorded following supplementary assessment are S3 (pass supplementary) and S2 (fail supplementary).

## POLICY ON SMOKING

Given the proven health risks of smoking, QUT is moving towards making the University a smoke-free environment. To this end, smoking is prohibited on all campuses other than in designated smoking areas.

Smoking is also prohibited in QUT vehicles.

Smokers are required to observe all no-smoking signs and follow directions given by authorised QUT staff and Security personnel in regard to the implementation and enforcement of the University's policy on smoking.

### Areas where smoking is permitted on QUT campuses

#### *All campuses*

Open uncovered spaces more than 10 metres away from any building alignment or building entrance.

The following areas may be within 10 metres of a building alignment on the individual campus sites. Smokers are required to use the ash trays provided in these locations.

#### *Carseldine*

- C Block, Level 2 - open area from Beams Road entry to building line
- C Block, Level 3 - open area in front of Student Guild adjacent to stair well
- Walkway between C and R Blocks - ground level and level 3
- Walkway between R and E Blocks
- Walkway between E and L Blocks - all levels, outside building lines

#### *Gardens Point*

- Main Drive Walkway on the City Gardens side from A Block to X Block (excluding areas outside all building entrances)
- Open space within D Block Yard (beyond the catering area assigned to Artisans)
- Undercover areas at Lower Drive Level (Carpark 2 level) outside S, Z and C Blocks

#### *Kidney Lawn*

- Courtyard between Kindler Theatre and L Block (excluding areas outside all building entrances)
- External areas behind H Block (excluding areas outside all building entrances)
- Covered lounge area at rear of V Block Podium (Western Side)
- Y Block Courtyard (excluding areas outside all building entrances)

#### *Kelvin Grove*

- Covered walkway between W Block lecture theatre and western end of B Block
- Covered walkway between D and E Blocks, (only where ash trays are located)
- Under the link between A Block and D Block (closest to Victoria Park Road)
- Ground level walkway between Wings A and B of O Block
- Courtyard - eastern side of Level 2, K Block
- Verandah, KG Bar (C Block)

---

## OVERVIEW

The Faculty of Built Environment and Engineering's teaching initiatives and courses are designed and maintained through strong linkages with industry and the professions in order to prepare graduates who are open to change and equipped with the capacity and ability for lifelong learning.

The Faculty promotes problem-based learning and teaching and leadership in applied research that directly benefits industry, the professions, and the community. Our academic staff combine their experience in professional practice with their qualifications in advanced postgraduate research.

The Faculty is undergoing an exciting period of change that will further enhance the unique opportunity for cross disciplinary teaching, research and applications. In 2005 the Faculty will combine five schools to three. The three new Schools will offer a variety of courses in Design, Urban Development and Engineering Systems.

The **School of Design** offers undergraduate and postgraduate courses across a number of the Design disciplines: Architecture, Industrial Design, Interior Design, Landscape Architecture, and Urban Design. This unique combination of disciplines offers students and staff an outstanding opportunity for collaborative and inter-disciplinary programs. The School is building an international reputation for innovative interdisciplinary design and research. Courses are built around a project-oriented studio-centred learning environment. Projects are based in the real world, and through our part-time staff and collaborative projects, we maintain a strong link with practice, the community, government and industry. The School has a vigorous program to attract international and national practitioners and academics, to run studios and lecture programs.

The **School of Urban Development** offers professional undergraduate and postgraduate programs in Civil Engineering, Construction Management, Property Economics, Quantity Surveying, Surveying, and Urban and Regional Planning. We strive to make the learning process productive and imaginative and to equip our graduates with the skills needed for the challenges of modern society. The School maintains a consistently high standard of teaching, fosters industry involvement, and stays at the forefront of the professions through an active research program.

The **School of Engineering Systems** offers a range of innovative programs that are tailored in response to the challenging demands of industry and the professions. The School offers courses in Mechanical, Medical, Infomechatronics, Aerospace Avionics, Computer, Telecommunications, Electrical and Computer and Software Engineering. The School's courses offer a balance of theory and 'hands on experience' which ensures graduates are immediately employable in a very diverse range of organisations and industries.

The Faculty also offers three undergraduate double degrees in Electrical and Computer Engineering/Mathematics; Electrical and Computer Engineering/ Business; and Electronic Engineering/Information Technology.

### Research Areas

- Asset Management and Maintenance
- Building and Infrastructure Systems
- Construction Management and Property
- Design
- Energy and Resource Management
- Medical Engineering
- Product Design and Manufacturing
- Speech, Audio, Image and Video Technologies
- Transport Systems

### Cooperative Research Centres

- Australian Housing and Urban Research Institute (AHURI)

- Construction Innovation
- Interaction Design
- Integrated Engineering Asset Management
- Railway Engineering and Technologies
- Satellite Systems
- Subtropical Design
- Integrated Engineering Asset Management
- Railway Engineering and Technologies
- Satellite Systems

## SENIOR STAFF

*Dean:* Professor M. Betts, BSc(Hons) *Reading*, PhD CNA, FCIOB, FRSA, FIEAust, CPEng

*Assistant Dean, Teaching and Learning:* Associate Professor S. Savage, BArch(Hons) MArch *Qld*, DipAdultVocEd *Griff*

*Assistant Dean, Research:* Vacant

*Assistant Dean, Applications:* Professor A. C. Sidwell, BSc (Hons) *Heriot-Watt*, PhD *Aston*

### School of Design

*Head:* Professor J. Hockings, BArch(Hons), PhD *Qld*, FRAIA

*Professor:* Dr S. Lehmann, DiplDes *Mainz*, PhD *Berlin*, Architekt BDA

*Associate Professors:*

J.M. Franz, BAppSc(BltEnv) *QIT*, DipTeach *TAFE*, MEducSt *Qld*, PhD *QUT*, MDIA RegTeach (Qld)

V. Popovic, DipEngArch *Belgrade*, MFA(IndDes) *Ill*, PhD *Syd*, FDIA, MHFS, MAES, MDRS

### School of Urban Development

*Head:* Associate Professor S. Kajewski, BEng(Civil) GradDipProjMgt MProjMgt PhD *QUT*, MIEAust, CPEng, MAIB, RPEQ

*Professors:*

L. Ferreira, BSc *Lond*, MSc *Westminster*, PhD *Leeds*, FIEAust, FCIT

T.P. Boyd, MSc(BldgMan) PhD *QUT*, AAPI(CPV), ANZIV, SNZPI, MIV(SA)

M. Mahendran, BScEng(Hons) *Moratuwa*, PhD *Monash*, MIEAust, CPEng

D.P. Thambiratnam, BScEng(Hons) *Ceyl*, MSc PhD *Manit*, FICE, FIEAust, FASCE, CPEng

R.J. Troutbeck, BE(Hons) MEngSc *Melb*, PhD *Qld*, FIEAust, MITE

R.M. Skitmore, MSc PhD *Salford*, FRICS, MCIQB, FAIB, AAIQS

*Associate Professors:*

A. Goonetilleke, BSc(Eng) *S Lanka*, MSc *Griff*, PhD *QUT*, CPEng, FIEAust

P. Heywood, BA(Hons) *Oxf*, DipTP *Manc*, MRTPI, FRAPI, LGP (Qld)

### School of Engineering Systems

*Head:* Associate Professor D.J. Hargreaves, BEng *QIT*, MSc PhD *Leeds*, CPEng, FIEAust, MSTLE, MASSCT, Fuchs Chair in Tribology

*Professors:*

B. Boashash, BE *Lyon*, MSc PhD *InstNatPoly Grenoble*, FIEEE, FIEAust

M.P. Moody, BE(Hons) BA MEngSc PhD *Qld*, FIEAust, SMIEEE, RPEQ, CPEng

*Professor of Biomedical Engineering:* M.J. Percy, BSc *Brist*, PhD *Strath*, CEng, CPEng(Biomed)

*Chair in Power Engineering:* Professor G. Ledwich, BE(Hons) *Qld*, PhD *Newcastle*, FIEAust, SMIEEE

*Chair in Telecommunications:* Professor S. Sridharan, BSc(Eng) Ceyl, MSc Manc, PhD UNSW, FIEAust, CEng, MIEEE, SMIEEE, CPEng

*Associate Professors:*

D. Birtwhistle, BEng(Hons) MSc Brad, PhD Syd, FIEAust, MIEEE, CEng, CPEng  
 J.M. Bell, BSc(Hons) Syd, PhD UNSW  
 W. Boles, BSc Assiut, MSc PhD Pitt, GradCertEd QUT  
 V. Chandran, BTech IIT Madras, MSEE TexasTech, MSCS PhD Wash State, GradCertEd QUT, SMIEEE  
 W. Enderle, Dip-Ing, Dr-Ing, Berlin, MIEAust  
 V.O.A. Oloyede, BSc(Hons) Lagos, MSc Cranfield, PhD DIC Lond, MNSE, MNYAS  
 C.C.Tan, BSc(Hons) PhD Lond, CEng, MIMechE, FIEAust, MIEM  
 P. K.D. Yarlagadda, BTech Nagarjuna, ME Bharathiar, PhD (Ind Inst Tech), CEng, CPEng, MIMechE, MIEAust, MIE (India), SrMemSME, MemASME

## RESEARCH CENTRES

### **Australian Housing and Urban Research Institute (AHURI)**

The Institute is a consortium of CSIRO Division of Building, Construction and Engineering; Queensland University of Technology; University of Queensland; Monash University, and Royal Melbourne Institute of Technology (RMIT). At QUT, AHURI is a designated collaborative research centre with interests across a number of faculties and schools. Its broad objective is to conduct research into issues in housing and urban fields in Australia and the Asia-Pacific region.

### **Asset Management and Maintenance**

The Asset Management and Maintenance program focuses on innovative industry directed research and development, education and commercialisation in an integrated approach to lifecycle physical asset management to meet present and future needs to ensure international competitiveness and sustainability of Australian industry. The overall research program will be focused on five main industry sectors: Defence, Water and Waste, Power Generation and Distribution, Extraction and Process and Transport Infrastructure.

### **Building and Infrastructure Systems**

The Building and Infrastructure Systems program undertakes world-class research in collaboration with industry, government and profession to strengthen the nation's building and infrastructure systems. It builds on the existing track record in the proposed field of research. Research concentrates on investigating the performance of existing and new building and infrastructure systems under realistic structural and environmental loadings including those due to natural, accidental and man-made hazards. It uses smart materials, systems and technologies, and advanced computer analysis and test methods to assess and improve the performance of existing and new building and infrastructure systems.

### **Construction Management and Property**

This research program makes contributions to improved practice in the specific areas of international project management, construction and property performance, construction information and procurement technologies, and property market choice, investments, constraints opportunities, internationalisation, taxation, lifecycles, risk and culture.

### **Design**

The design program conducts research in the design disciplines located in the Faculty of Built Environment and Engineering but linked as well to related design fields in the Faculty (eg mechanical/manufacturing/medical engineering; transport; engineering; structures and designs; electronic systems and the digital design; informatics environment) and across the wider University community (eg Creative Industries; Human Services).

### **Energy and Resource Management**

The Energy and Resource Management program addresses two resource issues of critical importance to the future of Australia - provision of energy and water supplies - and focuses principally on issues of sustainability in the provision of these resources.

### **Medical Engineering**

This program aims to engender sustainable improvements in quality of life for everybody through the innovative application of new and emerging technologies which will not only help reduce the economic burden of healthcare provision, but also generate wealth for the nation through the stimulation of local industry. The areas of expertise are Biodynamics; Image Acquisition and Analysis; Monitoring and Signal Processing; Tissue Engineering; and Tissue Mechanics.

### **Product Design and Manufacturing**

The Product Design and Manufacturing program comprises leading researchers conducting world-class research on product design, micro-machining, rapid prototype manufacturing, product development, modelling of manufacturing processes leading to a new concept of Rapid Product Development. This program is designed in such a way that it meets the requirements of Queensland manufacturing requirements.

### **Speech, Audio, Image and Video Technologies**

This program conducts internationally competitive research in order to solve practical problems, which enable Speech, Audio, Image and Video Technology to be applied in products and processes. Research focuses on state-of-the-art speech audio and video technologies including speech/speaker recognition and personal identification technologies for forensic and security applications; speech coding for storage and communication; speech synthesis for voice response systems; audio compression for broadcasting, television and Internet applications, video compression and image recognition and restoration.

### **Transport Systems**

The aim of this program is to focus research effort in the freight and logistics area with an emphasis on multi-modal transportation systems. The program builds on the established track record in applied research in the areas of road and rail based transportation systems. The main research areas include freight vehicle impacts, freight and logistics e-business systems, freight corridor evaluation analysis, ITS applications in freight and logistics, emissions modelling, transit evaluation methodologies, rail track modelling and analysis, and intermodal terminal planning and operations.

## Cooperative Research Centres (CRC)

### **CRC for Construction Innovation**

The Centre aims to create and commercially exploit tools, technologies and management systems to deliver innovative constructed assets of financial, environmental and social benefit to the community. The centre combines basic research with strategic research and development in five related programs: virtual environments for lifecycle design and construction; construction project delivery strategies; environmental sustainability; integrated design and construction support systems; and management, adaptability and the future of built assets.

### **CRC for Integrated Engineering Asset Management**

The CRC for Integrated Engineering Asset Management (CIEAM) delivers capabilities and technologies for integrated and sustainable asset management to a wide range of Australian industries in both the private and the public sectors. CIEAM consists of leading edge researchers and practitioners focused on industry directed R&D and education in the management of Australia's major engineering assets in the Defence, Utilities (power, water and gas), process and extraction, and transportation industries. CIEAM is a vertically integrated concept, involving five research program areas. These are: Models and decision systems, advanced sensors, intelligent diagnostics and life

prediction, Systems integration and IT, and Strategic human dimensions.

***CRC for Railway Engineering and Technologies***

The Centre aims through research to develop an internationally competitive, efficient and sustainable rail industry and to facilitate the development of an Australian export industry in railway technologies. Benefits will flow in terms of improved rail efficiency and infrastructure capacity, energy savings, reduced maintenance cost and better asset use. The main research areas include: 'Smart train' intelligent systems; innovative/automated maintenance and upgrading technologies; optimal traffic control and scheduling; IT systems and standards for rail management; new materials, systems and components for railways; and, industry skills development (education and training).

***CRC for Satellite Systems***

The CRCSS is a joint government/industry/university venture to develop space expertise within Australia. The Queensland Node is part of the CRC for Satellite Systems and contains two major groups, namely the Navigation group and the High-Performance Computing Group. The Centre is responsible for the provision of global positioning system receivers and reconfigurable computer systems.

***Centre for Subtropical Design***

The Centre for Subtropical Design is one of the Faculty's first funded units in one of our major targeted areas: sustainable development. The Centre was established in 2003 through an agreement with the Brisbane City Council. This Centre will promote high quality planning, design and development that responds to the City of Brisbane's and South East Queensland Region's cultural, landscape and climatic characteristics in ways that are sustainable and enhance the enjoyment of the Brisbane city-region's subtropical lifestyle.

## □ Course Requirements and Notes Relating to Postgraduate Courses

### Course progression

It is important that students follow as normal a progression through their courses as possible. Units should be taken in an orderly sequence as set out in published course structures. Units failed should be picked up in the next semester they are offered. Prerequisite units must normally be passed before a student may proceed to a further unit which has the prerequisite so specified. The course coordinator should be consulted regarding variations from the course structure. This is considered to be a major concession. Students who have failed units or have doubts about having the necessary background to proceed should seek the advice of the course coordinator.

### Supplementary assessment

Students may be granted up to two supplementary assessments in the final 96 credit points of study, for coursework programs of three or more years full-time duration or equivalent; and one supplementary assessment in the final 48 credit points for coursework programs of less than three years full-time duration or equivalent

Eligibility for supplementary assessment will be determined by the Dean and will normally only be considered when a student receives a grade of 2 in a unit where a 3 is required for course completion. The only grade that will be recorded following satisfactory supplementary assessment is S3 (pass supplementary).

### Awards with distinction

Awards 'with distinction' may be awarded to graduands of graduate diploma courses undertaken in the Faculty of Built Environment and Engineering. Candidates for a graduate diploma 'with distinction' must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the Faculty Academic Board and approved by the University Academic Board.

### Eligibility for 'With Distinction'

Eligibility for awards 'with distinction' is not affected by the time taken to complete a course. However, to be eligible for such an award, a graduand must have completed the course within the maximum number of calendar years specified in the policy on time limits for completion of courses (see student rules).

### Personal Protection Equipment (PPE) Policy

Protective equipment refers to safety glasses/goggles, hearing protection, safety boots, gloves and similar items. While all care is taken to reduce the risks to which students are exposed, protective equipment will be required to be worn in some practical sessions and field excursions. Students are required to wear PPE where and when it has been made clear that it is needed. Students are required to provide certain PPE as indicated by each school within the faculty.

Students enrolled in units specified by the School of Civil Engineering will be required to wear safety shoes for most laboratory practicals and/or field trips. Students not wearing appropriate safety shoes on these occasions will be barred from (i) participating in activities in these units, and (ii) submitting any assessment associated with these activities. Hard hats will be supplied by the School of Civil Engineering, as required. Students **must** provide their own safety shoes, safety glasses/goggles and hearing protection equipment.

## ■ Master of Applied Science (Research) (BN71)

**Award title:** Master of Applied Science (Research)  
**CRICOS code:** 003462A

**Location:** Gardens Point

**Course duration (full-time):** 1 year (minimum), 2 years (maximum)

**Course duration (part-time):** 2 years (minimum), 4 years (maximum)

### Entry Requirements

A four-year degree in an appropriate discipline with Honours or equivalent qualification or a graduate diploma or masters degree in an appropriate discipline with a minimum grade point average of 5 with relevant experience or professional experience and/or other qualifications.

### Overview

From this research degree you acquire advanced knowledge of applied science research methods, applied to research problems in the built environment. As well as mastering relevant techniques, you can expect to develop high-level skills in investigation and critical thinking and extensive knowledge in a specialist area. Specialisations are available in Architecture, Interior Design, Industrial Design, Construction Management, Quantity Surveying, Property Economics, Project Management, Planning, Landscape Architecture and Surveying. Our Faculty staff are available to discuss your application with you. You are encouraged to approach them early in the development of the research proposal that forms part of your application. Master by Research studies normally include:

- assessed coursework
- participation in university scholarly activities such as research seminars, teaching and publication
- regular meetings with supervisors
- a program of supervised research and investigation
- preparation of a thesis.

### Fees

Australian students enrolling after August 31 2000 in a higher degree by research are subject to the conditions of the Commonwealth Government's Research Training Scheme (RTS). Research Students who enrol at QUT will be awarded an RTS place, which is funded by the Commonwealth, or a QUT Research Training Award Scheme (RTA) place, which is a fee remission scholarship.

Research Masters students are entitled to two years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for an extension, however the University may charge fees for the period of the program which exceeds the student's entitlement. The University determines the fee level.

### 1 - General Conditions

1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act 1988.

1.2 The Councils power to approve recommendations from Faculty Academic Boards regarding the registration, supervision and examination of research degree candidates and to develop policy and procedures relating to research degrees is exercised through a University Research Committee which is a subcommittee of University Academic Board.

1.3 University Research Committee has delegated responsibility for day-to-day administration of research masters degree courses to faculty academic boards. Academic boards shall report biannually to University Research Committee on progress made by Research Masters degree candidates.

1.4 This program is administered by the Academic Board of the Faculty of Built Environment and Engineering through its Faculty Research Committee. The program is offered in Architecture, Civil Engineering, Construction Management, Electrical and Electronic Systems Engineering, Industrial Design, Interior Design, Landscape Architecture, Mechanical, Manufacturing

Engineering and Medical Engineering, Property Economics, Planning and Surveying.

1.5 In order to qualify for the award of the degree of Master of Applied Science (Research) or Master of Engineering a candidate must:

- have completed the approved program involving advanced work under the supervision of a Thesis Panel prescribed by the Faculty Research Committee of the Built Environment and Engineering Academic Board
- have submitted, and the Faculty Research Committee accepted a thesis, together with reports and/or documents where applicable, prepared under the supervision of the Thesis Panel
- have completed such other work as may be prescribed by the Faculty Research Committee, and
- submit to the Faculty Research Committee a declaration signed by the candidate that they have not been a candidate for another tertiary award without permission of the Faculty Research Committee.

## 2 - Registration

2.1 Applications shall be accepted subject to the availability of facilities and supervision.

2.2 Applications may be lodged with the Registrar at any time.

2.3 There is a six-month maximum period for domestic students and nine months for international students, between acceptance by the Faculty Research Committee and enrolment by the candidate in the Master of Applied Science (Research) or Master of Engineering before the offer of admission to the program lapses. Candidates are required to complete an enrolment form each semester.

### *A Note Regarding Enrolment*

The Faculty and Student Services are to be advised of any changes to name, address or other personal details. Application to vary any aspect of the candidacy must be made in writing directly to the Faculty Research Committee for Built Environment and Engineering and be endorsed by the principal supervisor.

2.4 The minimum academic qualifications for admission to the Master of Applied Science (Research) or Master of Engineering are:

- a four-year degree in an appropriate discipline in which the candidate has received at least second class Honours from the Queensland University of Technology, or
- a qualification judged equivalent by the Faculty Research Committee, or
- a grade point average of 5.0 or better in a graduate diploma program, in a relevant discipline, together with demonstrated potential for further study and/or evidence of professional standing, or
- a grade point average of 5.0 or better in a coursework masters degree program in a relevant discipline, together with demonstrated potential for further study and/or evidence of professional standing.

An applicant for the Master of Applied Science (Research) or Master of Engineering program without the minimum entry requirement may present a case for admission based on the submission of evidence of qualifications which demonstrate the applicant's capacity to pursue the course of study.

The case may be based on the following:

- (a) three years professional experience in the general field in which the proposed work lies, or
- (b) satisfactory completion of an appropriate Masters qualifying program including formal coursework and/or reading program in related fields stipulated by the Faculty Research Committee, or
- (c) the submission of technical publications or other appropriate evidence which satisfies the Faculty Research Committee that advanced knowledge has been acquired in a branch of applied science relevant to the built environment or a division of

engineering in which the applicant has worked as a professional practitioner in a position of responsibility. This knowledge should be relevant to the field of study proposed.

2.5 A candidate will be eligible to be registered as a graduate student if they are considered by Faculty Research Committee to meet the requirements for entry.

2.6 A candidate shall receive confirmed registration as a graduate student when they:

- have satisfied the requirements for admission and achieved by work and study a standard recognised by Faculty Research Committee, or
- have satisfied Faculty Research Committee that they are a suitable person to undertake the program, and
- have satisfied Faculty Research Committee that they can devote sufficient time to the research and study.

2.7 In considering an applicant for registration, the Faculty Research Committee shall, in addition to assessing the applicants suitability, be satisfied that:

- the proposed program is relevant to the aims and objectives of the University
- the proposed program has relevance to the needs of society or industry, and
- adequate resources are available to support the proposed program.

2.8 An application for registration should set out systematically and fully the candidates intended course of study including the following:

- a description of the area of study within which the candidates course lies
- a summary of the work to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program, its background, the significance and possible application of the research program, and the research plan
- the location at which the work will be undertaken, the amount of time which will be devoted to it and the resources required
- details of academic qualifications and supporting evidence, including copies of results for each year of courses undertaken
- a brief account of industrial experience
- a list of publications
- sponsorship details
- statement of approval by Head of School and/or Postgraduate Research Coordinator, and
- any other relevant material.

2.9 The program is offered on a full-time or a part-time basis and may be undertaken externally. Part-time students normally will be employed in some professional capacity during the day and carry out their research projects on a part-time basis at QUT, in their place of employment or in a sponsoring organisation.

2.10 Full-time students may be on a scholarship from industry or QUT, and may carry out their research at QUT or in a sponsoring organisation. Normally full-time students would be expected to work on their research projects at QUT for not less than three-quarters of a normal working week, averaged over each year of candidacy. Such a candidate may not devote more than 300 hours annually to teaching activities, including preparation and marking.

2.11 A candidate may be based at QUT or at a place of employment or sponsoring institution. Normally, support of the sponsoring institution for the candidate's application is required for registration. A candidate may also be external where their residence is outside of Brisbane.

2.12 The Faculty Research Committee may cancel a candidate's registration if, after consulting a candidate's supervisor and having taken account of all relevant circumstances, the committee is of the opinion that the candidate either has effectively discontinued their studies or has no reasonable expectation of

completing the course of study within the maximum time allowed (see Section 4).

2.13 A candidate whose registration has lapsed or has been cancelled, and who wishes subsequently to re-enter the course of study to pursue a research program which is substantially the same as the previous investigation may be re-admitted under such conditions as the Faculty Research Committee shall prescribe.

### 3 - Course of Study

3.1 A candidate for the degree of Master of Applied Science (Research) or Master of Engineering will undertake a program of research and investigation on a topic approved by the Faculty Research Committee.

3.2 All projects should be supported by outside agencies such as industry, government authorities and professional organisations, or by QUT itself. This provision is to ensure that programs are relevant to the aims of the University and the community. It is important that projects be primarily directed towards society or industry need.

3.3 The program must be such as to enable the candidate to develop and demonstrate a level of scientific competence significantly higher than that expected of a first degree graduate. The required competence normally would include mastery of relevant techniques, investigatory skills, critical thinking, and a high level of knowledge in the specialist area.

3.4 Where advised, a candidate may be required to complete satisfactorily a program of formal coursework in subjects relevant to the field of study up to a total class contact of 32 credit points.

3.5 The course of study normally will include:

- participation in University scholarly activities such as research seminars, teaching and publication
- regular face-to-face interactions with supervisors, and
- a program of supervised research, design, investigation, development, construction, or any combination thereof.

The course of study may also include a program of assessed coursework.

3.6 Coursework at masters level demands a capacity for critical analysis and a specialisation of research interests not normally appropriate for an undergraduate program. Such coursework may be conducted in a number of ways:

- as advanced lecture courses
- as seminars in which faculty and candidates present critical studies of selected problems within the subject field
- as independent study or reading courses, or
- as research projects conducted under faculty supervision.

Candidates will be encouraged to attend conferences where these are related to the field of the research.

In all cases, coursework will be based upon a formal syllabus setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed reading material and the method of assessment of progress through and at the end of the course.

3.7 Maximum and Minimum Coursework Requirements:

Thesis - 96 credit points minimum (at least two-thirds of the degree content)

- Maximum coursework requirement - 32 credit points
- Minimum coursework requirement - 4 credit points - IFN001 Advanced Information Retrieval Skills
- Maximum of 16 credit points per semester for each semester of the program
- Additional Requirements:
  - Attendance and participation in School of Research Centre seminars/workshops (compulsory).
  - Students must contact the Postgraduate Research Coordinator in their School to finalise any other coursework component of their program.

### 4 - Period of Time for Completion of Course of Study

4.1 The duration of study will normally be a minimum of one year and a maximum of two years or the part-time equivalent.

4.2 In order to encourage completion of research degrees within a reasonable timeframe, QUT has set a limit of two years on the length of time for which it will fund a faculty for full-time research masters degree candidates.

4.3 A registered full-time graduate student shall present the thesis for examination after a period of at least one year but not more than two years has elapsed from the time of confirmed registration. A registered part-time graduate student shall present the thesis for examination after a period of at least two years. The maximum time is four years from the time of confirmed registration. In special cases the Faculty Research Committee may approve a shorter period.

4.4 Time limits are measured in years from the time of first registration as a graduate student. Periods of exclusion or absence without approval are included.

4.5 Candidates who exceed these limits may be asked to show cause why they should not have their registration in the program terminated. Such candidates must make formal application to the Faculty Research Committee to have their registration extended beyond the normal time. Details of the candidate's progress shall be presented to the committee together with the reasons for the delay in completing the course and the expected date of completion. Where the committee agrees to an extension, a time limit will be set for the maximum period of registration in the program.

4.6 Candidates are notified of termination by registered mail. They have right of appeal to the Academic Appeals Committee.

### 5 - Supervision

5.1 The Faculty Research Committee shall appoint at least one supervisor the principal supervisor and also at least one associate supervisor. Each member of the supervisory panel shall bring appropriate experience in the research area of the student.

5.2 The Principal Supervisor shall normally be from the academic staff of the QUT school in which the candidate is enrolled.

5.3 The Supervisory Panel shall supervise all aspects of the candidate's work program, shall receive reports from the candidate on progress and shall recommend to the Faculty Research Committee both on successful and unsuccessful completion of components of the coursework incorporated in the candidate's program, on progress on the thesis research project and on continued enrolment.

5.4 The Supervisory Panel shall receive a formal oral and written report from the candidate at least once every semester on progress on the research project.

5.5 Summary of Faculty Supervisory registration process: To ensure that students receive appropriate supervision from experienced supervisors and active researchers the Faculty has introduced a Supervisors Register which requires registered supervisors to demonstrate performance in three areas.

1. Practice - previous supervisory experience of at least five years.
2. Research - evidence of active research through grants and publications
3. Continuous development

### 6 - Place and Conditions of Work

6.1 The research program will normally be carried out under supervision in a suitable environment within Brisbane. However, external study is possible. External candidates will be required to spend a minimum of four weeks at QUT annually.

6.2 The Faculty Research Committee shall not admit a candidate to a program of research based at the University unless it has received:

- a supporting statement from the Head of the QUT School and/or Postgraduate Research Coordinator in the School in which the study is proposed indicating that, in their opinion, the applicant is a suitable person to undertake a research program leading to the masters degree, that the program is supported, that the school is willing to undertake the responsibility of supervising the work of the applicant and that resources are available to support the proposed research.

6.3 The Faculty Research Committee shall not admit a candidate to a program of research based at a sponsoring establishment unless it has received:

- a supporting statement from the employer or director of the sponsoring institution that they are aware of the course rules and are prepared to sponsor and support the applicant, that the applicant will be provided with facilities and time to undertake the research project and that they are willing to accept responsibility for supervising the applicant's work, and
- a supporting statement from the head of the QUT school or Postgraduate Research coordinator in which the study is proposed indicating that, in their opinion, the applicant is a suitable person to undertake a research program leading to the Masters degree, that the program is supported, and that after examination of the proposed external facilities and supervision, the school is willing to accept the responsibility of supervising the work.

## 7 - Thesis

7.1 In the form of presentation, availability and copyright, the thesis shall comply with all the requirements of the document Requirements for Presenting Theses (Appendix 51 in the Manual of Policies and Procedures).

7.2 A candidate shall submit the title of their thesis for approval by the Faculty Research Committee with their application, and after approval has been granted, no change will be made except with the permission of the committee.

7.3 The candidate shall give two months' written notice of intention to submit their thesis through the Principal Supervisor.

7.4 The thesis shall comply with the following requirements:

- a significant proportion of the work described (as determined by the Faculty Research Committee) must have been carried out subsequent to initial registration for the Masters degree.
- it must describe a program of work carried out by the candidate and must involve either an advanced contribution to the knowledge of the subject or an advanced application of existing knowledge.
- it must reach a satisfactory standard of literary presentation.
- it shall be the candidate's own account of the work. Where work is carried out conjointly with other persons, the Faculty Research Committee shall be advised of the extent of the candidate's contribution to the joint work.
- the thesis shall not contain as its main content any work or material which the candidate has previously submitted for another degree or similar award.
- the thesis may consist primarily of reports, plans and/or documents or may be supported by these if they have a bearing on the subject of the thesis. Other supporting documents such as published papers may also be submitted with the thesis.
- the thesis shall contain an abstract of not more than 300 words.

7.5 Except with the specific permission of the Faculty Research Committee, the thesis must be presented in the English language. Such permission must be sought at the time of application for registration, and will not be granted solely on the grounds that the candidate's ability to satisfy the examiners will be affected adversely by the requirement to present the thesis in English.

7.6 Subject to QUT's Intellectual Property policy, the copyright of the thesis is vested in the candidate.

7.7 Where a candidate, supervisor or the sponsoring establishment wishes the thesis to remain confidential for a

period of time after completion of the work, application for approval must be made to the Faculty Research Committee when the thesis is submitted. The period normally shall not exceed two years from the date on which the examiners recommend acceptance of the thesis, during which time the thesis will be held on restricted access in the QUT Library.

7.8 Except where confidentiality of the thesis is necessary, students shall submit their thesis electronically after completion of the examination process and any corrections required to the QUT Library for inclusion in the Australian Digital Thesis Project.

## 8 - Examination of Thesis

8.1 The Faculty Research Committee shall appoint three examiners, at least one of whom shall be from outside of the University. No supervisor of the candidate shall be appointed as one of the examiners.

8.2 Normally, examiners must agree to read and report upon the thesis within two months of its receipt.

8.3 A candidate may be required to make an oral defence of the thesis.

8.4 On receipt of the reports from the examiners, the Faculty Research Committee shall:

- (a) recommend that the thesis be accepted without modification, and to Academic Board that the candidate be awarded the degree, or
- (b) recommend to Academic Board that the candidate be awarded the degree, after any minor amendments requested by the examiners have been made, or
- (c) recommend that the thesis not be accepted until major revisions have been made. Such revisions might be rewriting one of the sections, with or without additional work, or
- (d) not accept the thesis and terminate the candidate's registration.

8.5 If the examiners' reports are conflicting, the Faculty Research Committee may, after appropriate consultation with the Thesis Panel, resubmit the thesis to the examiners with copies of the examiners' reports and/or seek the advice of a further external examiner. After due consideration of further reports from the examiners, a majority decision will be accepted by the Faculty Research Committee.

## ■ Master of Built Environment (Urban Design) (DB73)

**Award title:** Master of Built Environment

**CRICOS code:** 003475G

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters including Summer semester

**Course duration (part-time):** 5 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Danny O'Hare

### Entry Requirements

Applicants are considered initially for acceptance in the Graduate Diploma in Urban Design. At the completion of 48 credit points students will be considered for articulation to the Master of Built Environment (Urban Design) subject to a grade point average of 5.0 or better in the course.

Applicants may be granted provisional entry to the Graduate Diploma courses with a modified enrolment program on the basis of alternative academic or professional attainments. Some applicants may be required to undertake a qualifying program to develop design literacy and graphic skills. A three-module full-

fee paying Summer unit is normally available for this purpose. Computer Literacy is also required.

### Focus in the Masters Program

The masters program includes skills and knowledge development through set coursework in common with the Graduate Diploma in Urban Design, but also requires individual research and the writing of a dissertation. An Urban Design Master Studio is conducted over the Summer semester.

### Master of Built Environment (Urban Design)

The normal progression will extend the graduate diploma program by a flexibly delivered summer semester (see Course Structure) for part-time and full-time students. Articulation from the graduate diploma to the masters level program will be available after one semester full-time or two semesters part-time provided that applicants have completed the preceding course work with a grade point average of 5.0 or better.

### Course Structure

#### Summer Semester - Introductory Unit

PSP275 Introductory Design and Graphics

This unit is a full-fee paying unit and is available in three modules to suit individual needs.

### Full-time Course Structure

#### Year 1, Semester 1

ARB081 History, Theory and Criticism of Urban Design

ARB082 Urban Design Studio B

PSP453 Urban Systems and the Physical Environment

#### Year 1, Semester 2

PSN211 Research Project 1

PSP451 Production and Use of the Built Environment

PSP452 Urban Design Studio A

#### Summer Program

ARB083 Urban Design Masters Studio

PSN212 Research Project 2

PSP510 Specialisation

### Part-time Course Structure

#### Year 1, Semester 1

ARB081 History, Theory and Criticism of Urban Design

PSP453 Urban Systems and the Physical Environment

#### Year 1, Semester 2

PSP451 Production and Use of the Built Environment

PSP452 Urban Design Studio A

#### Year 2, Semester 1

ARB082 Urban Design Studio B

PSN211 Research Project 1

#### Year 2, Semester 2

PSN212 Research Project 2

PSP510 Specialisation

#### Summer Program

ARB083 Urban Design Masters Studio

## ■ Master of Engineering (BN72)

**Award title:** Master of Engineering

**CRICOS code:** 003465J

**Location:** Gardens Point

**Course duration (full-time):** 1 year (minimum), 2 years (maximum)

**Course duration (part-time):** 2 years (minimum), 4 years (maximum)

**Discipline coordinator:** Civil Engineering - Assoc Prof Mahen Mahedran, Electrical and Electronic Systems Engineering - Professor Sridha Sridharan, Mechanical Manufacturing and Medical Engineering - Professor Mark Percy.

### Entry Requirements

A four-year degree in an appropriate discipline with Honours or equivalent qualification or a graduate diploma or masters degree in an appropriate discipline with a minimum grade point average of 5 with relevant experience or professional experience and/or other qualifications.

### Fees

Australian students enrolling after August 31 2000 in a higher degree by research are subject to the conditions of the Commonwealth Government's Research Training Scheme (RTS). Research Students who enrol at QUT will be awarded an RTS place, which is funded by the Commonwealth, or a QUT Research Training Award Scheme (RTA) place, which is a fee remission scholarship.

Research Masters students are entitled to two years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for an extension, however the University may charge fees for the period of the program which exceeds the student's entitlement. The University determines the fee level.

### Course Information and Notes

Please consult notes for BN71 Master of Applied Science for course information and requirements.

## ■ Master of Engineering Management (ME76)

**Award title:** Master of Engineering Management

**CRICOS code:** 006368G

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Jun Wang

### Entry Requirements

A bachelor degree in engineering (or its equivalent).

### Course Structure

Masters students take eight units or 96 credit points. Units MEN172, MEN177, and MEN280 are normally compulsory, but may be substituted with the approval of the courses coordinator if the student has adequate prior knowledge in the relevant field. With approval of the Course Coordinator students can take up to two graduate level electives from other disciplines.

### Course structure

#### Block Mode#

MEN177 Total Quality Management

MEN171 Advanced Manufacturing Technologies

MEN241 Reliability and Maintenance Management

MEN280 Engineering Project Management

MEN273 Engineering Knowledge Management

MEN172 Cost Analysis and Asset Management

MEN175 Energy and Environmental Management

MEN170 Systems Modelling and Simulation

MEN272 Enterprise Resource Planning

Up to two graduate level units from any School within the University

#### Semester 1 or 2

MEN190-1 Project

MEN190-2 Project

Project may be taken over one or two semesters. Students taking Project over one semester must enrol in both components of the unit concurrently. Course coordinator approval is required to take Project.

#### # Block Mode

Block mode classes are held in teaching periods, which run consecutively for 5 weeks at a time, instead of semesters. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks of a teaching period. Please check QUT Virtual or contact the School Administration Officer for details of teaching periods for the above block mode units.

**Note:** Students complete 8 units. Units MEN172, MEN177 and MEN280 are normally compulsory, but may be substituted with the approval of the course coordinator if the student has adequate prior knowledge in the relevant field.

Permission of the course coordinator required.

## ■ Master of Engineering Science (Civil Engineering Studies) (CE75)

**Award title:** Master of Engineering Science (Civil Engineering Studies)

**CRICOS code:** 042259C

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Mr Yin Foong

### Entry Requirements

A Bachelor of Engineering degree with honours in Civil Engineering OR equivalent, with a grade point average of at least 5 on a 7-point scale.

### Course Structure

The flexible Master of Engineering Science (Civil Engineering Studies) program allows students to choose three units from a common pool of units offered by all the Engineering Schools (Band 1). A band of Civil Engineering units is then offered from which students choose three units (Band 2). Any units from Band 1 could also be chosen for Band 2 provided that they come from the School of Civil Engineering. The final component requires enrolment in a Civil Engineering Project (equivalent to 24 credit points) (Band 3).

### Full-time Course Structure

#### Band 1 Units

Choose 3 units from the following Band 1 units. Most of these units are offered once a year (either in Semester 1 or Semester 2). Students are advised to check carefully the unit availability prior to enrolling.

#### Band 1, Semester 1

CEP142	Water Pollution Control
CEP201	Process Modelling
CEP291	Environmental Law and Assessment
EEP101	Algorithms for Control and Engineering
EEP102	Unix and C for Engineers
EEP103	Computer Hardware and Interfacing
MEN101	Research Methodology
MEN280	Engineering Project Management

#### Band 1, Semester 2

CEP141	Studies in Environmental Engineering
CEP295	Civil Engineering Management in a Project Environment
EEP129	Image Processing and Computer Vision
MEN170	Systems Modelling and Simulation
MEN172	Cost Analysis and Asset Management

#### Band 2 Units

Choose 3 units from the range of Band 2 units. The following Civil Engineering units are offered as electives within CE74 and may be cancelled due to insufficient enrolment numbers.

#### Band 2, Semester 1

CEP127	Road and Traffic Engineering
CEP142	Water Pollution Control
CEP218	Transportation Engineering
CEP291	Environmental Law and Assessment
CEP293	Pavement Design

#### Band 2, Semester 2

CEP151	Road Safety Audit - Principles and Practice
CEP216	Advanced Traffic Engineering

#### Band 3 Project

Students must complete their 24 cp project over one or two semesters (summer semester is an option) by enrolling in the following two 12 cp units.

CEP997-1	Project
CEP997-2	Project

**Note:** The School reserves the right to offer these units according to enrolment quotas and staff availability.

Students must consult with course coordinator before enrolling in CEP176.

## ■ Master of Engineering Science (Civil Engineering) (CE74)

**Award title:** Master of Engineering Science (Civil)

**CRICOS code:** 020300M

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Mr Yin Foong

### Entry Requirements

A Bachelor of Engineering degree with Honours in Civil Engineering or a Graduate Diploma in Civil Engineering with a grade point average of at least 5 on a 7-point scale. If applicants have completed 50 per cent of the Graduate Diploma in Civil Engineering with a minimum grade point average of 5 they may transfer to the Masters program. If applicants have not taken units equivalent to QUT undergraduate units in their chosen area of specialist study, they may need to complete additional undergraduate units as a masters qualifying program.

### Course Structure

The course consists of a minimum of 96 credit points. 24 credit points are allocated to a project and the remainder to non-project units. The majority of the units are common with the Graduate Diploma in Civil Engineering (CE64) and the Graduate Certificate in Civil Engineering (CE62). Students who do not wish to undertake a major must complete the core units plus any other combination of units, to make up the minimum of 96 credit points.

### Full-time Course Structure

#### Generic

##### Semester 1

CEP201	Process Modelling
CEP997-1	Project
	2 Electives

##### Semester 2

CEP295	Civil Engineering Management in a Project Environment
CEP997-2	Project
	2 Electives

### Environmental Engineering

##### Semester 1

CEP291	Environmental Law and Assessment
CEP997-1	Project
	2 Electives

##### Semester 2

CEP141	Studies in Environmental Engineering
CEP997-2	Project
	2 Electives

### Transportation Engineering

##### Semester 1

CEP218	Transportation Engineering
CEP997-1	Project
	2 Electives

##### Semester 2

CEP216	Advanced Traffic Engineering
	2 Electives
CEP997-2	Project

#### Electives, Semester 1

CEP127	Road and Traffic Engineering
CEP142	Water Pollution Control
CEP161	Professional Development Studies 1
CEP201	Process Modelling
CEP218	Transportation Engineering
CEP291	Environmental Law and Assessment
CEP293	Pavement Design

#### Electives, Semester 2

CEP141	Studies in Environmental Engineering
CEP151	Road Safety Audit - Principles and Practice
CEP216	Advanced Traffic Engineering
CEP262	Professional Development Studies 2

With permission of the Course Coordinator students maybe permitted to take electives from other engineering areas.

Advice must be sought from the course coordinator before enrolling in this unit.

**Note:** The School reserves the right to offer the units according to enrolment quotas and staff availability.

## ■ Master of Engineering Science (Computer and Communications Engineering) (EE74)

**Award title:** Master of Engineering Science (Computer Engineering) or Master of Engineering Science (Communication Engineering)

**CRICOS code:** 040343A

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mr John Edwards

### Entry Requirements

Applicants for the Masters program must hold a bachelor degree in Electrical Engineering, Information Technology or Science with at least second class honours or equivalent; or have partially completed the Graduate Diploma in Computer and Communications Engineering with a grade point average of 5 or better over the first 4 units; or successfully completed the Graduate Diploma in Computer and Communications Engineering with a grade point average of 5 or better; or successfully completed the Graduate Certificate in Computer and Communications Engineering (EE61) with a grade point average of 5 or better.

### Masters Upgrade Program

Those who have completed the Graduate Diploma in Computer and Communications Engineering (EE67) may upgrade by undertaking further study in the Master of Engineering Science (Computer & Communications Engineering) and be given credit for the units which they have completed at Graduate Diploma level. The structure of the course dictates that this upgrade program be undertaken on a part-time basis. Students undertaking the Masters Upgrade Program will enrol in the following units:

EEP301/1 Project

EEP301/2 Project.

### Course Structure

Masters students select a total of six units from Semester 1 and Semester 2 lists and complete a 24 credit point project (EEP301) or seven units plus EEP304 Project Component.

#### Semester 1

EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing  
EEP124 Data Communications  
EEP126 Communications Digital Signal Processing  
EEP301-1 Project  
Elective unit 1

#### Semester 2

EEP104 Real-Time Operating Systems  
EEP120 Networks and Distributed Computing  
EEP135 Digital Signal Processing and Applications  
EEP123 Process Control and Robotics  
EEP128 Detection and Estimation  
EEP129 Image Processing and Computer Vision  
EEP301-2 Project, or  
EEP304 Project Component  
Elective unit 2

#### Elective Units

EEB911 Electrical Energy Systems  
EEB941 Modern Signal Processing  
EEB961 RF and Applied Electromagnetics  
EEB960 Wireless Communications  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems

**Note:** At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University.

## ■ Master of Engineering Science (Electrical Engineering Studies) (EE77)

**Award title:** Master of Engineering Science (Electrical Engineering Studies)

**CRICOS code:** 042260K

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Mr John Edwards

### Entry Requirements

A Bachelor of Engineering degree with honours in Electrical Engineering OR equivalent, with a grade point average of at least 5 on a 7-point scale.

### Full-time Course Structure

#### Band 1 Units

Choose 3 units from the following Band 1 units. Most of these units are offered once a year (either in Semester 1 or Semester 2). Students are advised to check the unit availability prior to enrolling.

#### Semester 1

CEP291 Environmental Law and Assessment  
CEP201 Process Modelling  
EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing  
MEN101 Research Methodology  
MEN280 Engineering Project Management

#### Semester 2

CEP141 Studies in Environmental Engineering  
CEP295 Civil Engineering Management in a Project Environment  
EEP129 Image Processing and Computer Vision  
MEN170 Systems Modelling and Simulation  
MEN172 Cost Analysis and Asset Management

#### Band 2 Units

Choose 3 units from the range of Band 2 units. The following units are offered in EE61/66/76, and may be cancelled due to insufficient enrolment numbers.

Students are advised to check the unit availability prior to enrolling.

#### Semester 1

EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing  
EEP124 Data Communications  
EEP126 Communications Digital Signal Processing  
Elective Unit 1

#### Semester 2

EEP104 Real-Time Operating Systems  
EEP120 Networks and Distributed Computing  
EEP123 Process Control and Robotics  
EEP128 Detection and Estimation  
EEP129 Image Processing and Computer Vision  
EEP135 Digital Signal Processing and Applications  
Elective Unit 2

#### Band 3 Units

Students must complete their 24 cp project over one or two semesters by enrolling in the following two 12 cp project units

EEP301-1 Project

EEP301-2 Project

#### Elective Units

EEB911 Electrical Energy Systems  
EEB941 Modern Signal Processing  
EEB960 Wireless Communications  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems

**Note:** At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University.

The School reserves the right to offer the units according to enrolment quotas and staff availability.

## ■ Master of Engineering Science (Electricity Supply Engineering) (EE78)

**Award title:** Master of Engineering Science (Electricity Supply Engineering)

**Location:** Gardens Point and External

**Course duration (part-time):** 4 Semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor David Birtwhistle

### Entry Requirements

A bachelor degree in Electrical Engineering and at least second class honours, with a study of power subjects to third-year level; OR students with the degree qualification, but who do not have second class honours, may transfer from the Graduate Diploma (Electricity Supply) (EE60) after completing 48 credit points with a grade point average of 5 or better. You must also have a firm offer of a supervised industry placement.

### Course Structure

In the Masters program students choose 18 units and complete 100 days of supervised industry practice and submit a thesis on part of the practical work that they have undertaken.

Units are offered in block mode or by distance education. Block mode units are held twice yearly and distance education units are year round. Ad hoc Block modes units are also offered in Brisbane and throughout Australia and New Zealand in demand. Please contact the Course Coordinator for further information.

### Full-time Course Structure

18 Units (selected from List) plus

EEP230 Thesis A

EEP231 Thesis B

\*Students must complete 100 days of supervised professional practice. The thesis is related to this industry experience.

### Unit List

EEP201	Fundamentals of Power System Earthing
EEP202	Thermal Ratings and Heat Transfer
EEP203	Testing and Condition Monitoring
EEP204	Power System Load Flow Analysis
EEP205	Power System Fault Calculations
EEP206	Project Management
EEP207	Overhead Line Route Selection - Environmental Factors
EEP208	Economic Analysis for Power System Engineers
EEP209	Power System Harmonics
EEP210	Abnormal System Voltages
EEP211	Basic Power System Protection
EEP212	Advanced Power System Protection
EEP213	Statistics
EEP214	Risk Assessment in the Electricity Supply Industry
EEP215	Reliability
EEP216	Overhead Line Design - Electrical
EEP217	Overhead Line Design - Mechanical
EEP218	Introduction to Automated System Control and Supervisory Systems
EEP219	High Voltage Substation Equipment: Power Transformers and Reactive Power Plant
EEP220	Distribution Planning
EEP221	Limits to Power System Stability
EEP222	Maintenance of Electricity Supply Systems
EEP224	Power System Operation
EEP223	Load Forecasting
EEP243	Contract Administration
EEP240	Organisation and Financial Management in the Electricity Supply Industry
EEP241	Distance Protection
EEP244	Circuit Breakers - Switchgear
EEP245	Introduction to Substation Design
EEP246	Customer Metering
EEP248	Introduction to Electricity Markets
<b>Units available by distance education with flexible enrolment year round</b>	
EEP202	Thermal Ratings and Heat Transfer
EEP204	Power System Load Flow Analysis
EEP209	Power System Harmonics

EEP210	Abnormal System Voltages
EEP211	Basic Power System Protection
EEP208	Economic Analysis for Power System Engineers
EEP213	Statistics
EEP212	Advanced Power System Protection
EEP214	Risk Assessment in the Electricity Supply Industry
EEP215	Reliability
EEP220	Distribution Planning
EEP241	Distance Protection

## ■ Master of Engineering Science (Mechanical Engineering Studies) (ME80)

**Award title:** Master of Engineering Science (Mechanical Engineering Studies)

**CRICOS code:** 042261J

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Dr R Mahalinga-Iyer

### Entry Requirements

A Bachelor of Engineering degree with honours in Mechanical Engineering OR equivalent, with a grade point average of at least 5 on a 7-point scale.

### Course Structure

The flexible Master of Engineering Science (Mechanical Engineering Studies) program allows students to choose 3 units from a common pool of units offered by all the Engineering Schools (Band 1). A band of Mechanical Engineering units is then offered from which students choose 3 (Band 2). Any units from Band 1 could also be chosen for Band 2 provided that they come from the School of Mechanical, Manufacturing and Medical Engineering. Mechanical Engineering Specialised units allow students to undertake study in the areas of Medical Engineering, Infomechatronics, Engineering Management and general mechanical engineering, such as tribology, maintenance, manufacturing etc. Band 3 requires enrolment in a Mechanical Engineering Project (equivalent to 24 credit points).

### Full-time Course Structure

#### Band 1 Units

Choose 3 units from the following Band 1 units.

#### Band 1, Semester 1

CEP291	Environmental Law and Assessment
CEP294	Engineering Contract Development and Administration
EEP101	Algorithms for Control and Engineering
EEP102	Unix and C for Engineers
EEP103	Computer Hardware and Interfacing
MEN101	Research Methodology

#### Band 1, Semester 2

CEP141	Studies in Environmental Engineering
CEP201	Process Modelling
CEP295	Civil Engineering Management in a Project Environment
EEP129	Image Processing and Computer Vision
MEN102	Advanced Mechanical Engineering Studies

#### Band 1, Block Mode#

MEN170	Systems Modelling and Simulation
MEN172	Cost Analysis and Asset Management
MEN280	Engineering Project Management

#Block mode classes are held in teaching periods, which run consecutively for 5 weeks at a time, instead of semesters. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks of a teaching period. Please check QUT Virtual or the School Administration Officer for details of teaching periods for the above block mode units.

#### Band 2 Units

3 units are to be chosen from the range of Band 2 units.

#### Band 2, Block Mode#

MEN171	Advanced Manufacturing Technologies
MEN175	Energy and Environmental Management
MEN177	Total Quality Management
MEN241	Reliability and Maintenance Management
MEN272	Enterprise Resource Planning

MEN273 Engineering Knowledge Management

#For block mode classes see above.

**Band 2, Semester 1, 2 or 3**

MEN103 Mechanical Engineering Specialised Unit 1

MEN104 Mechanical Engineering Specialised Unit 2

MEN105 Mechanical Engineering Specialised Unit 3

Students must consult with the course coordinator before enrolling in MEN103, 104 or 105.

**Band 3 Project**

Project must normally be taken but may be substituted with the approval of the course coordinator for two additional Band 2 units

**Band 3, Semester 1 or 2**

MEN190-1 Project

MEN190-2 Project

**Note:** Unit MEN177 Total Quality Management, MEN101 Research Methodology and MEN102 Advanced Mechanical Engineering Studies must normally be taken, but may be substituted with the approval of the course coordinator if the student has adequate prior knowledge in the relevant field.

## ■ Master of Landscape Architecture (PS71)

**Award title:** Master of Landscape Architecture

**CRICOS code:** 020301K

**Location:** Gardens Point

**Course duration (full-time):** 1 year plus 1 year part-time Built Environment (Landscape Architecture) graduates or equivalent; 2 years plus 1 year part-time (Other graduates)

**Course duration (part-time):** 3 years Built Environment (Landscape Architecture); 5 years (Other graduates)

**Total credit points:** 228 (excluding any Masters qualifying units)

**Course coordinator:** Associate Professor Glenn Thomas

### Entry Requirements

A bachelor degree, or equivalent professional qualification, with a minimum grade point average of 5.

Applicants entering this course from non-design qualifications require basic skills in design/perception theory, freehand and technical graphics. A three-module full-fee paying Summer unit is available for this purpose. Computer literacy is also required.

In order to be considered for entry to either the Graduate Diploma or Masters courses, applicants must complete:

Application for Admission form as well as the following which should be forwarded direct to the course coordinator.

Position Statement - a personal statement (1 x A4 typed page) in which the applicant demonstrates an understanding of the profession and the guiding belief systems of landscape architecture and shows the applicant's potential to 'fit' within this profession.

Illustrated Autobiography - a concise self-expose which shows, in a combination of words and graphics, the applicant's life and interests. The objective is to give an insight into the person making the application and to demonstrate an aptitude for design as the core activity of the profession. This document is not a resume or curriculum vitae, nor is it a folio of previous work experience. It will be in A3 format and is not to exceed five pages.

### Professional Recognition

Professional accreditation for the course has been granted by the Australian Institute of Landscape Architects.

### Course Structure

#### Summer Semester - Introductory Unit

PSP275 Introductory Design and Graphics

For applicants entering the course from non Landscape Architecture or related qualification.

#### Foundation Level Studies

##### Year 1, Semester 1

(Entry for graduates of 3-year degree other than the Bachelor of Built Environment - Landscape Architecture)

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB414 Professional Skills 1, or

PSB415 Contemporary Landscape Design, or

PSB610 Government and Law

PSP263 Landscape Ecology

PSP264 Spatial Design Theory

##### Year 1, Semester 2

PSB444 Landscape Construction B (L'scape Only)

PSB417 Manual/Digital Graphics, or

PSB432 History of Built Environment, or

Other elective approved by course coordinator

PSB442 Plant Studies (L'scape Only)

PSP268 Site Planning

**Note:** Selection of Foundation level units depends on individual student background - please consult course coordinator before finalising your enrolment.

#### Professional Level Studies

##### Year 2, Semester 1

(Entry for Bachelor of Built Environment - Landscape Architecture graduates.)

PSP269 Advanced Construction and Practice 1

PSP270 Elective

PSP271 Advanced Landscape Design 1

##### Year 2, Semester 2

PSP272 Advanced Construction and Practice 2

PSP273 Landscape Planning

PSP274 Advanced Landscape Design 2

#### Masters Level Studies

##### Year 3, Semester 1

PSN211 Research Project 1

PSN213 Specialisation

PSN214 Elective

##### Year 3, Semester 2

PSN212 Research Project 2

PSN214 Elective

**Note:** PSN214 may be taken in either semester 1 or 2.

### Part-time Course Structure

#### Summer Semester - Introductory Unit

PSP275 Introductory Design and Graphics

For applicants entering the course from non Landscape Architecture or related qualification.

#### Foundation Level Studies

##### Year 1, Semester 1

(Entry for graduates of 3-year degree or diploma other than the Bachelor of Built Environment - Landscape Architecture.)

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB414 Professional Skills 1, or

PSB415 Contemporary Landscape Design, or

PSB610 Government and Law

##### Year 1, Semester 2

PSB444 Landscape Construction B (L'scape Only)

PSB417 Manual/Digital Graphics, or

PSB432 History of Built Environment, or

Other elective approved by the course coordinator.

**Note:** Selection of Foundation level units depends on individual student background - please consult course coordinator before finalising your enrolment.

##### Year 2, Semester 1

PSP263 Landscape Ecology

PSP264 Spatial Design Theory

##### Year 2, Semester 2

PSB442 Plant Studies (L'scape Only)

PSP270 Elective

#### Professional Level Studies

##### Year 3, Semester 1

(Entry for Bachelor of Built Environment - Landscape Architecture graduates)

PSP269 Advanced Construction and Practice 1

PSP270 Elective

##### Year 3, Semester 2

PSP272 Advanced Construction and Practice 2

PSP273 Landscape Planning

##### Year 4, Semester 1

PSP271 Advanced Landscape Design 1

##### Year 4, Semester 2

PSP274 Advanced Landscape Design 2

### **Masters Level Studies**

#### **Year 5, Semester 1**

PSN211 Research Project 1

PSN213 Specialisation

PSN214 Elective

#### **Year 5, Semester 2**

PSN212 Research Project 2

PSN214 Elective

**Note:** PSN214 may be taken in either semester one or two.

## ■ Master of Project Management (CN77)

**Award title:** Master of Project Management

**CRICOS code:** 016350B

**Location:** Gardens Point

**Course duration (full-time):** 1.5 years

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Jay Yang

### **Entry Requirements**

A relevant bachelor degree from an approved tertiary institution and demonstrated potential in professional activity to undertake masters degree course, OR successful completion of CN64 Graduate Diploma in Project Management with a grade point average of 5.0 or better, OR qualifications deemed equivalent to the above by the Dean of the Faculty on the recommendation of the course coordinator, AND at least three years appropriate industry experience after graduation.

### **Course Structure**

The first two semesters full-time or four semesters part-time are identical to the Graduate Diploma in Project Management (CN64). Persons admitted to the Masters program who are graduates of the Graduate Diploma in Project Management (CN64) will need to submit an Application for Academic Credit form for the units they have already completed. At the completion of the coursework component of the Masters Degree program but before the completion of the Dissertation, students may elect to exit with the Graduate Diploma in Project Management.

### **Full-time Course Structure**

#### **Year 1, Semester 1**

CNP520 Project Management

CNP521 Project Cost and Risk Management

CNP532 Innovation and Technology Management

CNP551 Project Human Resource Management

#### **Year 1, Semester 2**

CNP534 International Project Management

CNP533 Project Management Law

Two Electives

#### **Year 2, Semester 1**

CNN442-1 Dissertation

CNN442-2 Dissertation

Includes Research Methodology lectures and incorporates Advanced Information Retrieval Skills

### **Part-time Course Structure**

#### **Year 1, Semester 1**

CNP520 Project Management

CNP521 Project Cost and Risk Management

#### **Year 1, Semester 2**

CNP533 Project Management Law

CNP534 International Project Management

#### **Year 2, Semester 1**

CNP532 Innovation and Technology Management

CNP551 Project Human Resource Management

#### **Year 2, Semester 2**

Two Electives

#### **Year 3, Semester 1**

CNN442-1 Dissertation

#### **Year 3, Semester 2**

CNN442-2 Dissertation

## ■ Master of Property Economics (CN92)

**Award title:** Master of Property Economics

**CRICOS code:** 036432A

**Location:** Gardens Point

**Course duration (full-time):** 1.5 years

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Professor Terry Boyd

### **Entry Requirements**

A relevant three-year bachelor degree; OR

successful completion of CN91 Graduate Diploma in Property Economics with a grade point average of 5.0 or above; OR

qualifications deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND

at least three years appropriate industry experience after graduation.

### **Additional Information**

The first two semesters full-time or four semesters part-time are identical to the Graduate Diploma in Property Economics (CN91). Persons admitted to the Masters program who are graduates of the Graduate Diploma in Property Economics (CN91) will need to submit an Application for Academic Credit form for the units they have already completed.

At the completion of the coursework component of the Masters Degree program but before the completion of the Dissertation, students may elect to exit with the Graduate Diploma in Property Economics.

### **Majors**

While the course provides an overview of property as an asset, there are majors in Property Investment and Property Development. There are several common units across the majors however applicants are required to select one major.

### **Course Structure**

Variations to the recommended study program require prior approval from the course coordinator.

Students who commence mid-year should enrol in Semester 2 units.

### **Full-time Course Structure**

#### **Property Development**

##### **Year 1, Semester 1**

CNP520 Project Management

CNP521 Project Cost and Risk Management

CNP547 Property Investment

CNP555 Property Market Analysis

##### **Year 1, Semester 2**

CNP545 Project Development

CNP554 Advanced Land Development

Two Electives

##### **Year 2, Semester 1**

CNN442-1 Dissertation

CNN442-2 Dissertation

#### **Property Investment and Management**

##### **Year 1, Semester 1**

CNP547 Property Investment

CNP555 Property Market Analysis

CNP556 Property Management and Contracts

EFN406 Managerial Finance

##### **Year 1, Semester 2**

CNP554 Advanced Land Development

CNP557 Property Finance and Capital Markets

Two Electives

##### **Year 2, Semester 1**

CNN442-1 Dissertation

CNN442-2 Dissertation

## Part-time Course Structure

### Property Development

#### Year 1, Semester 1

CNP547 Property Investment  
CNP555 Property Market Analysis

#### Year 1, Semester 2

## ■ Master of Urban and Regional Planning (PS70)

**Award title:** Master of Urban and Regional Planning

**CRICOS code:** 020299K

**Location:** Gardens Point

**Course duration (full-time):** 1.5 for Bachelor of Built Environment graduates; 2. for other graduates

**Course duration (part-time):** 2.5 years for Bachelor of Built Environment graduates; 3.4 years for other graduates

**Total credit points:** 240

**Course coordinator:** Assoc Prof Phil Heywood

### Entry Requirements

A bachelor degree or equivalent is required. Applicants entering this course from non-design qualifications require basic skills in design/perception theory, freehand and technical graphics. A two-module full-fee paying Summer unit is available for this purpose. Computer literacy is also required.

Applicants without planning or related qualifications undertake a Foundation Course of six units within the course of 2 years or part time equivalent, including a Summer Semester. These requirements may be reduced by academic credit based on previous studies. A limited number of special entry places are available in the Foundation Course for suitably experienced non-graduates. Special entry includes written and oral examinations and references.

### Professional Recognition

This course is professionally accredited by the Planning Institute of Australia.

### Full-time Course Structure

#### Structure for non BBE graduates\*

\***Note:** This structure is under review and subject to University approval.

#### Summer Semester

DBP403 Design Communication  
DBP406 Computer Applications in Planning

**Note:** DBP403 is a full-fee paying foundation unit for student from a non-design background

### Year 1, Semester 1

DBP401 Urban Design and Site Analysis  
DBP402 Planning Processes  
DBP409 Urban Planning Practice  
DBP410 Research Methods in Planning

### Year 1, Semester 2

DBP404 Economic and Social Foundations of Planning  
DBP413 Regional Planning Practice  
DBP408 Planning Implementation and Law  
DBP414 Regional and Metropolitan Policy  
DBP417 Comparative Planning

**Note:** DBP417 can be taken any time during the course.

### Year 2, Semester 1

DBP407 Environmental Planning and Management  
DBP412 Planning Theory and Ethics  
DBP411 Community Planning  
DBP415 Professional Practice or Research Project

### Year 2, Semester 2

DBP501 Specialisation  
DBP502 Professional Practice or Research Dissertation  
DBP503 Masters Seminar

### Structure for BBE graduates

#### Year 1, Semester 1

DBP409 Urban Planning Practice  
DBP410 Research Methods in Planning  
DBP411 Community Planning  
DBP412 Planning Theory and Ethics

#### Year 1, Semester 2

DBP413 Regional Planning Practice  
DBP414 Regional and Metropolitan Policy  
DBP415 Professional Practice or Research Project  
DBP416 Elective  
DBP417 Comparative Planning

### Year 2, Semester 1

DBP501 Specialisation  
DBP502 Professional Practice or Research Dissertation  
DBP503 Masters Seminar

## Part-time Course Structure - 50% Progression Rate

### Structure for non BBE graduates\*

**Note:** This structure is under review and subject to University approval.

#### Summer Semester

DBP403 Design Communication  
DBP406 Computer Applications in Planning

**Note:** DBP403 is a full-fee paying unit for students from a non-design background.

### Year 1, Semester 1

DBP401 Urban Design and Site Analysis  
DBP402 Planning Processes

### Year 1, Semester 2

DBP404 Economic and Social Foundations of Planning  
DBP408 Planning Implementation and Law

### Year 2, Semester 1

DBP410 Research Methods in Planning  
DBP409 Urban Planning Practice

### Year 2, Semester 2

DBP413 Regional Planning Practice  
DBP414 Regional and Metropolitan Policy

### Year 3, Semester 1

DBP411 Community Planning  
DBP412 Planning Theory and Ethics  
DBP407 Environmental Planning and Management

### Year 3, Semester 2

DBP415 Professional Practice or Research Project  
DBP417 Comparative Planning

**Note:** DBP417 can be undertaken any time during the course.

### Year 4- Semester 1

DBP502 Professional Practice or Research Dissertation  
DBP501 Specialisation

### Year 4, Semester 2

DBP503 Masters Seminar

### Structure for BBE graduates

#### Year 1, Semester 1

DBP409 Urban Planning Practice  
DBP410 Research Methods in Planning

#### Year 1, Semester 2

DBP413 Regional Planning Practice  
DBP414 Regional and Metropolitan Policy

### Year 2, Semester 1

DBP411 Community Planning  
DBP412 Planning Theory and Ethics

### Year 2, Semester 2

DBP415 Professional Practice or Research Project  
DBP416 Elective  
DBP417 Comparative Planning

### Year 3, Semester 1

DBP501 Specialisation  
DBP502 Professional Practice or Research Dissertation

### Year 3, Semester 2

DBP503 Masters Seminar

**Note:** The Masters unit may be taken in Semester 4 by those students wishing to undertake 36 credit points in that semester in order to complete the Master Course in 5 semesters.

## Course Structure - 75% Progression Rate

### Structure for non BBE graduates\*

\***Note:** This structure is under review and subject to University approval.

### Summer Semester

DBP403 Design Communication  
DBP406 Computer Applications in Planning

## ■ Graduate Diploma in Civil Engineering (CE64)

**Award title:** Graduate Diploma in Civil Engineering

**CRICOS code:** 036430C

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Mr Yin Foong

### Entry Requirements

You must hold an acceptable degree or diploma in engineering from a recognised institution. If you do not meet the requirements for normal entry but hold a degree or diploma in a scientific or

technological field or other equivalent qualifications or hold professional engineering recognition you may be required to complete such prerequisite engineering units as may be determined by the course coordinator prior to enrolment in the course.

### Course structure

## Environmental Engineering

### Semester 1

CEP291 Environmental Law and Assessment  
3 Electives from the list below

### Semester 2

CEP141 Studies in Environmental Engineering  
3 Electives from the list below

## Transportation Engineering

### Semester 1

CEP218 Transportation Engineering  
3 Electives from the list below

### Semester 2

CEP216 Advanced Traffic Engineering  
3 Electives from the list below

### Electives, Semester 1

CEP127 Road and Traffic Engineering  
CEP142 Water Pollution Control  
CEP161 Professional Development Studies 1  
CEP201 Process Modelling  
CEP218 Transportation Engineering  
CEP291 Environmental Law and Assessment  
CEP293 Pavement Design

### Electives, Semester 2

CEP141 Studies in Environmental Engineering  
CEP143 Biological Treatment Processes  
CEP151 Road Safety Audit - Principles and Practice  
CEP216 Advanced Traffic Engineering  
CEP292 Engineering Practice 2  
CEP262 Professional Development Studies 2

With the approval of the Course Coordinator students may be permitted to take units from other engineering areas.

The School reserves the right to offer the units according to enrolment quotas and staff availability.

Advice must be sought from the course coordinator before enrolling in this unit.

## ■ Graduate Diploma in Computer and Communications Engineering (EE67)

**Award title:** Graduate Diploma in Computer and Communications Engineering

**CRICOS code:** 015184G

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mr John Edwards

### Entry Requirements

Applicants for the Graduate Diploma must hold a bachelor degree in Electrical Engineering, Information Technology or equivalent; or have successfully completed the Graduate Certificate in Computer and Communications Engineering.

### Course Structure

Graduate Diploma students select a total of eight units from Semester 1 and Semester 2 lists.

### Semester 1 - Units

EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing  
EEP124 Data Communications  
EEP126 Communications Digital Signal Processing  
EEP137 Advanced Topic A  
Elective unit 1

### Semester 2 - Units

EEP104 Real-Time Operating Systems

EEP120	Networks and Distributed Computing
EEP123	Process Control and Robotics
EEP127	Advanced Topic B
EEP128	Detection and Estimation
EEP129	Image Processing and Computer Vision
EEP135	Digital Signal Processing and Applications
	Elective unit 2

#### Elective Units

EEB911	Electrical Energy Systems
EEB941	Modern Signal Processing
EEB960	Wireless Communications
EEB961	RF and Applied Electromagnetics
EEB976	Advanced Industrial Electronics
EEB992	VLSI Circuits and Systems

**Note:** Graduate Diploma students complete 8 units from semester 1 and 2 lists.

At the discretion of the course coordinator, students maybe allowed to select an elective from any advanced topics offered by the University.

## ■ Graduate Diploma in Electricity Supply Engineering (EE60)

**Award title:** Graduate Diploma in Electricity Supply Engineering

**Location:** Gardens Point and External

**Course duration (part-time):** 4 Semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor David Birtwhistle

### Entry Requirements

A bachelor degree in Electrical Engineering with a study of power subjects to third-year level.

There is provision also for entry by Associate Diploma or Advanced Diploma holders with industry experience.

### Course Structure

In the Graduate Diploma students must complete 24 units from List. Units are offered in block mode or by distance education. Block mode units are held twice yearly and distance education units are year round. Ad hoc Block modes units are also offered in Brisbane and throughout Australia and New Zealand in demand. Please contact the Course Coordinator for further information.

### Course Structure

**Choose 24 Units from list below**

EEP201	Fundamentals of Power System Earthing
EEP202	Thermal Ratings and Heat Transfer
EEP203	Testing and Condition Monitoring
EEP204	Power System Load Flow Analysis
EEP205	Power System Fault Calculations
EEP206	Project Management
EEP207	Overhead Line Route Selection - Environmental Factors
EEP208	Economic Analysis for Power System Engineers
EEP209	Power System Harmonics
EEP210	Abnormal System Voltages
EEP211	Basic Power System Protection
EEP212	Advanced Power System Protection
EEP213	Statistics
EEP214	Risk Assessment in the Electricity Supply Industry
EEP215	Reliability
EEP216	Overhead Line Design - Electrical
EEP218	Introduction to Automated System Control and Supervisory Systems
EEP217	Overhead Line Design - Mechanical
EEP220	Distribution Planning
EEP219	High Voltage Substation Equipment: Power Transformers and Reactive Power Plant
EEP221	Limits to Power System Stability
EEP222	Maintenance of Electricity Supply Systems
EEP223	Load Forecasting
EEP244	Circuit Breakers - Switchgear
EEP240	Organisation and Financial Management in the Electricity Supply Industry
EEP241	Distance Protection

EEP243	Contract Administration
EEP245	Introduction to Substation Design
EEP246	Customer Metering
EEP248	Introduction to Electricity Markets
<b>Units available by distance education with flexible enrolment year round</b>	
EEP202	Thermal Ratings and Heat Transfer
EEP204	Power System Load Flow Analysis
EEP208	Economic Analysis for Power System Engineers
EEP209	Power System Harmonics
EEP210	Abnormal System Voltages
EEP211	Basic Power System Protection
EEP212	Advanced Power System Protection
EEP213	Statistics
EEP214	Risk Assessment in the Electricity Supply Industry
EEP215	Reliability
EEP220	Distribution Planning
EEP241	Distance Protection

## ■ Graduate Diploma in Geographic Information Systems (PS78)

**Award title:** Graduate Diploma in Geographic Information Systems

**CRICOS code:** 040337K

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Dr John Hayes

### Entry Requirements

Applicants must hold a relevant bachelor degree or diploma from an approved tertiary institution; or have qualifications deemed equivalent to the above by the Head of School of Design and Built Environment; or other academic qualifications supported by a minimum of two years work experience of relevant depth and breadth on application to the Head of School, Design and Built Environment.

### Full-time Course Structure

#### Year 1, Semester 1

PSB631	Geographic Information Systems 1
PSB655	Remote Sensing
	Two Electives*

#### Year 1, Semester 2

PSB654	Topics on Spatial Information Science
PSN213	Specialisation
	Two Electives*

Please refer to the electives list.

### Part-time Course Structure

#### Year 1, Semester 1

PSB631	Geographic Information Systems 1
	1 Elective*

#### Year 1, Semester 2

PSB654	Topics in Spatial Information Science
	1 Elective*

#### Year 2, Semester 1

PSB655	Remote Sensing
	1 Elective*

#### Year 2, Semester 2

PSN213	Specialisation
	1 Elective*

Please refer to the electives list.

### Mid Year Entry

### Full-time Course Structure

#### Year 1, Semester 2

PSB631	Geographic Information Systems 1
PSB655	Remote Sensing
	2 Electives*

#### Year 2, Semester 1

PSB654	Topics in Spatial Information Science
PSN213	Specialisation
	2 Electives*

Please refer to the electives list.

## Mid Year Entry

### Part-time Course Structure

#### Year 1, Semester 2

PSB631 Geographic Information Systems 1  
1 Elective\*

#### Year 2, Semester 1

PSB654 Topics in Spatial Information Science  
1 Elective\*

#### Year 2, Semester 2

PSB655 Remote Sensing  
1 Elective\*

#### Year 3, Semester 1

PSP510 Specialisation  
1 Elective\*

\*Please refer to the electives list.

### Electives (Subject to availability)

#### Semester 1

BNB011 Fundamentals of Synthetic Environments  
DBP401 Urban Design and Site Analysis  
DBP402 Planning Processes  
PSB432 History of Built Environment  
PSB612 Spatial and Land Information Management  
PSB630 Cartography and Digital Mapping  
PSB643 Geodesy  
PSP311 Professional Practice Management

#### Semester 2

BNB011 Fundamentals of Synthetic Environments  
DBP407 Environmental Planning and Management  
PSB632 Photogrammetry  
PSB633 Map Production: Principles and Practice  
PSB644 Advanced Geodesy  
PSP268 Site Planning  
PSP273 Landscape Planning

**Notes:** Please consult with the course coordinator before finalising your enrolment.

Full-time students are required to enrol in 48 credit points per semester. This includes two core units and two electives per semester (from the list above or from other undergraduate and postgraduate units).

Part-time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the electives listed, of from other undergraduate and postgraduate units.

Please note: Electives are subject to availability.

Semester 1: PSB643 Geodesy

Semester 2: PSB633 Map Production: Principles & Practice; PSB644 Advanced Geodesy; PSB654 Topics in Spatial Information Science

## ■ Graduate Diploma in Geomatics (PS74)

**Award title:** Graduate Diploma in Geomatics

**CRICOS code:** 036437G

**Location:** Gardens Point

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Course coordinator:** Dr John Hayes

### Entry Requirements

A recognised tertiary degree requiring at least four years full time study or its equivalent;

OR a qualification from another tertiary institution considered by the Head of School of Design and Built Environment to be at least equivalent to the degree of Bachelor of Surveying of this University. In addition, graduates should have at least one year's field experience (or its equivalent) following graduation in the practice of surveying. Entry will also be available on the basis of other academic qualifications supported by a minimum of 2 years work experience of relevant depth and breadth on application to the Head of School.

### Professional Recognition

The Diploma is recognised professionally by the Mapping Sciences Institute, Australia (now the Spatial Sciences Institute).

## February Entry

### Full-time Course Structure

#### Year 1, Semester 1

PSP326 GIS and GPS  
PSP316 Survey Computing and Processing  
2 Electives

#### Year 1, Semester 2

PSP323 Project Site Surveys  
PSB654 Topics in Spatial Information Science  
2 Electives

**Notes:** Full-time students are required to enrol in 48 credit points per semester. This includes two core units per semester and two electives from the Electives list.

## February Entry

### Part-time Course Structure

#### Year 1, Semester 1

PSP316 Survey Computing and Processing  
Elective

#### Year 1, Semester 2

PSP323 Project Site Surveys  
Elective

#### Year 2, Semester 1

PSP326 GIS and GPS  
Elective

#### Year 2, Semester 2

PSB654 Topics in Spatial Information Science  
Elective

**Notes:** Part-time students are required to enrol in 24 credit points per semester. Select one core unit any other unit from the Electives listed.

## July Entry

### Full-time Course Structure

#### Year 1, Semester 2

PSP323 Project Site Surveys  
PSB654 Topics in Spatial Information Science  
2 Electives

#### Year 2, Semester 1

PSP326 GIS and GPS  
PSP316 Survey Computing and Processing  
2 Electives

**Notes:** Full-time students are required to enrol in 48 credit points per semester. This includes two core units per semester and two electives from the Electives listed.

## July Entry

### Part-time Course Structure

#### Year 1, Semester 2

PSB654 Topics in Spatial Information Science  
Elective

#### Year 2, Semester 1

PSP316 Survey Computing and Processing  
Elective

#### Year 2, Semester 2

PSP323 Project Site Surveys  
Elective

#### Year 3, Semester 1

PSP326 GIS and GPS  
Elective

**Notes:** Part-time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the Electives listed, or from other undergraduate and postgraduate units.

### PS74 – Electives (subject to availability)

#### Semester 1

BNB011 Fundamentals of Synthetic Environments  
DBP401 Urban Design and Site Analysis  
DBP402 Planning Processes  
PSB432 History of Built Environment  
PSB612 Spatial and Land Information Management  
PSB630 Cartography and Digital Mapping  
PSB643 Geodesy  
PSP314 Boundary Definition Surveys 1  
PSP317 Property Development Surveys

#### Semester 2

BNB011 Fundamentals of Synthetic Environments

DBP407	Environmental Planning and Management
PSB631	Geographic Information Systems 1
PSB632	Photogrammetry
PSB633	Map Production: Principles and Practice
PSB644	Advanced Geodesy
PSB655	Remote Sensing
PSP268	Site Planning
PSP273	Landscape Planning

**Notes:** Full-time students are required to enrol in 48 credit points per semester. This includes two core units per semester and two Electives from the list above, or from other undergraduate and postgraduate units. Electives are subject to availability

Part-time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the Electives listed, or from other undergraduate and postgraduate units.

The following units and semesters of offer are only available to postgraduate students subject to discussion with the course coordinator:

Semester 1: PSB643 Geodesy

Semester 2: PSB633 Map Production: Principles & Practice

PSB644 Advanced Geodesy

## ■ Graduate Diploma in Industrial Design (AR61)

**Award title:** Graduate Diploma in Industrial Design

**CRICOS code:** 003479C

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Vesna Popovic

### Entry Requirements

A relevant degree or diploma from a recognised tertiary institution, or professional recognition through an equivalent course of study or examination.

### Professional Recognition

The Graduate Diploma in Industrial Design has been recognised by the Design Institute of Australia (DIA). Graduates are eligible for associate membership. The QUT program is an educational member of the International Council of the Society of Industrial Design (ICSID).

### Full-time Course Structure

#### Semester 1

ADP207	Industrial Design 5
ADP267	Industrial Design Research 1
ADP217	Professional Practice and Management
ADP247	Advanced Computer Aided Industrial Design

#### Semester 2

ADP218	Advanced Ergonomics
ADP268	Industrial Design Research 2A
ADP269	Industrial Design Research 2B
ADP943	Elective 3

### Part-time Course Structure

#### Year 1, Semester 1

ADP207	Industrial Design 5
ADP247	Advanced Computer Aided Industrial Design

#### Year 1, Semester 2

ADP218	Advanced Ergonomics
ADP943	Elective 3

#### Year 2, Semester 1

ADP267	Industrial Design Research 1
ADP217	Professional Practice and Management

#### Year 2, Semester 2

ADP268	Industrial Design Research 2A
ADP269	Industrial Design Research 2B

## ■ Graduate Diploma in Interior Design (AR62)

**Award title:** Graduate Diploma in Interior Design

**CRICOS code:** 006361D

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Dianne Smith

### Entry Requirements

A degree or diploma in interior design or in a relevant discipline from a recognised tertiary institution; or professional recognition through an equivalent course of study or examination.

### Professional Recognition

The Graduate Diploma in Interior Design is recognised by the Design Institute of Australia (DIA).

### Full-time Course Structure

#### Semester 1

ADP107	Interior Design 7
ADP114	Professional Studies 1
ADP161	Interior Research 1
ADP155	Interior as a Construct 1

#### Semester 2

ADP108	Interior Design 8
ADP156	Interior as a Construct 2
ADP162	Interior Research 2
ADP932	Professional Studies 2

### Part-time Course Structure

#### Year 1, Semester 1

ADP114	Professional Studies 1
ADP155	Interior as a Construct 1

#### Year 1, Semester 2

ADP932	Professional Studies 2
ADP156	Interior as a Construct 2

#### Year 2, Semester 1

ADP107	Interior Design 7
ADP161	Interior Research 1

#### Year 2, Semester 2

ADP108	Interior Design 8
ADP162	Interior Research 2

## ■ Graduate Diploma in Landscape Architecture (PS66)

**Award title:** Graduate Diploma in Landscape Architecture

**CRICOS code:** 003478D

**Location:** Gardens Point

**Course duration (full-time):** 1 year BBLt Env (L'scape Arch) graduates; 2 years other graduates

**Course duration (part-time):** 2 years BBLt Env (L'scape Arch) graduates; 4 years (other graduates)

**Total credit points:** 192

**Course coordinator:** Associate Professor Glenn Thomas

### Entry Requirements

A bachelor degree or three-year diploma, or equivalent professional qualification with a minimum Grade Point Average of 5. Applicants entering this course from non-design qualifications require basic skills in design/perception theory, freehand and technical graphics. A three-module full fee paying Summer unit is available for this purpose. Computer literacy is also required.

In order to be considered for entry to either the Graduate Diploma or Masters courses, applicants must complete:

1. Application for Admission form
2. A personal statement in which the applicant demonstrates an understanding of the profession and the guiding belief systems of landscape architecture and shows the applicant's potential to 'fit' within this profession.
3. An Illustrated Autobiography - a concise self-expose which shows, in a combination of words and graphics, the applicant's life and interests. The objective is to give an insight into the applicant and demonstrate an aptitude for design as the core

activity of the profession. This document is not a resume or curriculum vitae. It will be in A3 format and is not to exceed five pages. These documents are to be forwarded to the course coordinator.

## Full-time Course Structure

### Summer Semester - Introductory Unit

PSP275 Introductory Design and Graphics

For applicants entering the course from non design disciplines.

### Foundation Level Studies

#### Year 1, Semester 1

(Entry for graduates of 3-year degree or diploma other than the Bachelor of Built Environment - Landscape Architecture)

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB414 Professional Skills 1, or

PSB415 Contemporary Landscape Design, or

PSB610 Government and Law

PSP263 Landscape Ecology

PSP264 Spatial Design Theory

#### Year 1, Semester 2

PSB444 Landscape Construction B (L'scape Only)

PSB417 Manual/Digital Graphics, or

PSB432 History of Built Environment, or

Other elective approved by course coordinator

PSB442 Plant Studies (L'scape Only)

PSP268 Site Planning

**Note:** Selection of Foundation level units depends on individual student background - please consult course coordinator before finalising your enrolment.

### Professional Level Studies

#### Year 2, Semester 1

(Entry for Bachelor of Built Environment - Landscape Architecture graduates.)

PSP269 Advanced Construction and Practice 1

PSP270 Elective

PSP271 Advanced Landscape Design 1

#### Year 2, Semester 2

PSP272 Advanced Construction and Practice 2

PSP273 Landscape Planning

PSP274 Advanced Landscape Design 2

## Part-time Course Structure

### Summer Semester - Introductory Unit

PSP275 Introductory Design and Graphics

For applicants entering the course from non design disciplines.

### Foundation Level Studies

#### Year 1, Semester 1

(Entry for graduates of 3-year degree or diploma other than the Bachelor of Built Environment - Landscape Architecture)

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB414 Professional Skills 1, or

PSB415 Contemporary Landscape Design, or

PSB610 Government and Law

#### Year 1, Semester 2

PSB444 Landscape Construction B (L'scape Only)

PSB417 Manual/Digital Graphics, or

PSB432 History of Built Environment, or

Other elective approved by course coordinator.

**Note:** Selection of Foundation level units depends on individual student background - please consult course coordinator before finalising your enrolment.

#### Year 2, Semester 1

PSP263 Landscape Ecology

PSP264 Spatial Design Theory

#### Year 2, Semester 2

PSB442 Plant Studies (L'scape Only)

PSP268 Site Planning

### Professional Level Studies

#### Year 3, Semester 1

(Entry for Bachelor of Built Environment - Landscape Architecture graduates.)

PSP269 Advanced Construction and Practice 1

PSP270 Elective

#### Year 3, Semester 2

PSP272 Advanced Construction and Practice 2

PSP273 Landscape Planning

## Year 4, Semester 1

PSP271 Advanced Landscape Design 1

## Year 4, Semester 2

PSP274 Advanced Landscape Design 2

## ■ Graduate Diploma in Project Management (CN64)

**Award title:** Graduate Diploma in Project Management

**CRICOS code:** 006362C

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Jay Yang

### Entry Requirements

A relevant bachelor degree from an approved tertiary institution; OR successful completion in CN81 Graduate Certificate in Project Management with a grade point average of 5.0 or better, OR qualifications deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND at least three years of appropriate industry experience after graduation. Students who commence mid-year should enrol in semester 2 units.

### Course Structure

In the Graduate Diploma students complete coursework units from the Masters degree with a range of elective options available. Variations to the recommended study program require prior approval from the course coordinator. School electives are offered subject to an appropriate enrolment each semester.

Persons admitted to the Graduate Diploma who are graduates of the Graduate Certificate in Project Management (CN81) will need to submit an application for Academic Credit form for the units they have already completed.

## Full-time Course Structure

### Year 1, Semester 1

CNP520 Project Management

CNP521 Project Cost and Risk Management

CNP532 Innovation and Technology Management

CNP551 Project Human Resource Management

### Year 1, Semester 2

CNP534 International Project Management

CNP533 Project Management Law

Two Electives

## Part-time Course Structure

### Year 1, Semester 1

## ■ Graduate Diploma in Property Economics (CN91)

**Award title:** Graduate Diploma in Property Economics

**CRICOS code:** 036429G

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Professor Terry Boyd

### Entry Requirements

A relevant bachelor degree from an approved tertiary institution; OR

successful completion of CN90 Graduate Certificate in Property Economics with a grade point average of 5.0 or better; OR qualifications deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND at least three years of appropriate industry experience after graduation.

### Course Structure

In the Graduate Certificate and Graduate Diploma courses, students complete coursework units from the Masters degree with a range of elective options available.

Students who commence mid-year should enrol in Semester 2 units.

### Full-time Course Structure

## ■ Graduate Diploma in Urban and Regional Planning (PS72)

**Award title:** Graduate Diploma in Urban and Regional Planning

**CRICOS code:** 003477E

**Location:** Gardens Point

**Course duration (full-time):** 1 for Bachelor of Built Environment graduates; 1.5 years for other graduates

**Course duration (part-time):** 1.5 - 2 years for Bachelor of Built Environment graduates; 2-3 years for other graduates

**Total credit points:** 192

**Course coordinator:** Assoc Prof Phil Heywood

### Entry Requirements

A bachelor degree or equivalent is required. Applicants entering this course from non-design qualifications require basic skills in design/perception theory, planning graphics. A two-module full-fee paying Summer unit is available for this purpose. Computer literacy is also required.

Applicants without planning or related qualifications undertake a Foundation Course of up to six units within the Course of 1.5 years or part-time equivalent including an introductory Summer Semester. These requirements may be reduced by academic credit based on previous studies. A limited number of special entry places are available in the Foundation Course for suitably experienced non-graduates. Special entry includes written and oral examinations and references.

### Professional Recognition

This course is professionally accredited by the Planning Institute of Australia.

### Full-time Course Structure

#### Structure for non BBE graduates\*

**Note:** This Structure is under review and subject to University approval.

##### Year 1, Summer Program

DBP403 Design Communication  
DBP406 Computer Applications in Planning

**Note:** DBP403 is a full-fee paying foundation unit for student from a non-design background

##### Year 1, Semester 1

DBP401 Urban Design and Site Analysis  
DBP402 Planning Processes  
DBP409 Urban Planning Practice  
DBP410 Research Methods in Planning

**■ Graduate Diploma in Urban Design (DB69)**

**Award title:** Graduate Diploma in Urban Design

**CRICOS code:** 014018G

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 1.5 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Danny O'Hare

**Entry Requirements**

A Bachelor of Built Environment in a related discipline with a grade point average of 5 or better and demonstrated potential in a relevant professional activity or a degree or postgraduate qualification, relevant to Urban Design, with the grade point average of 5 or better and demonstrated potential in a relevant professional activity.

Applicants may be granted provisional entry to this course with a modified enrolment program on the basis of alternative academic or professional attainments.

You may be required to undertake a qualifying program to develop design literacy and graphic skills. A three-module full fee paying Summer unit is available for this purpose. Computer literacy is also required.

**Course Requirements**

Students must complete a minimum of 48 credit points per semester in the full-time course and a minimum of 24 credit points per semester in the part-time course. Students with a grade point average of 5 or better may articulate into the Masters program after one semester full-time or two semesters part-time study.

**Course structure**

**Summer Semester - Introductory Unit**

PSP275 Introductory Design and Graphics

**\*This unit is a full fee paying unit and is available in three modules to suit individual needs.**

**Full-time Course Structure**

**Year 1, Semester 1**

ARB081 History, Theory and Criticism of Urban Design  
ARB082 Urban Design Studio B  
PSP453 Urban Systems and the Physical Environment

**Year 1, Semester 2**

PSN214 Elective, or  
PSN211 Research Project 1  
PSP452 Urban Design Studio A  
PSP451 Production and Use of the Built Environment

**Part-time Structure**

**Year 1, Semester 1**

ARB081 History, Theory and Criticism of Urban Design  
PSP453 Urban Systems and the Physical Environment

**Year 1, Semester 2**

PSP452 Urban Design Studio A  
PSP451 Production and Use of the Built Environment

**Year 2, Semester 1**

ARB082 Urban Design Studio B  
PSN214 Elective, or  
PSN211 Research Project 1

**■ Graduate Certificate in Advanced Landscape Techniques (PS77)**

**Award title:** Graduate Certificate in Advanced Landscape Techniques

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Associate Professor Glenn Thomas

**Entry Requirements**

Applicant must have completed PS75 Graduate Certificate in Landscape Techniques and PS76 Graduate Certificate in Landscape Design or approved equivalent.

**Part-time Course Structure**

**Semester 1**

PSP269 Advanced Construction and Practice 1  
PSP270 Elective

**Semester 2**

PSP272 Advanced Construction and Practice 2

PSP273 Landscape Planning

## ■ Graduate Certificate in Building Fire Safety (AR65)

**Award title:** Graduate Certificate in Building Fire Safety

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Mr Jack Williamson

### Entry Requirements

A bachelor degree in either engineering, architecture, applied science (construction management), building or allied areas or degree-equivalent professional qualifications. Applicants may be admitted without a degree in some circumstances, subject to approval of the course coordinator.

### Professional Recognition

Support has been received from the Australian Institute of Building Surveyors, the Institution of Fire Engineers, The Institution of Engineers Australia; Society of Fire Safety, Queensland Fire Protection Industry Association Inc., Queensland Department of Local Government and Planning, Queensland Department of Public Works and Housing, The Royal Australian Institute of Architects, Queensland Fire and Rescue Authority.

### Course Structure

#### Semester 1

ARB801 Fire Technology and Science

ARB803 Fire and Building Legislation

#### Semester 2

ARB802 Human Behaviour and Fire

ARB804 Fire Safety System Design

ARB801 and ARB803 are prerequisites to ARB804, ARB802 is a corequisite with ARB804.

**Note:** The units are offered in block mode. It is anticipated that the two week intensive workshops will be in early July and late November for further details please contact the School.

## ■ Graduate Certificate in Civil Engineering (CE62)

**Award title:** Graduate Certificate in Civil Engineering

**CRICOS code:** 040341C

**Location:** Gardens Point

**Course duration (full-time):** Full-time may be available in consultation with course coordinator.

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Mr Yin Foong

### Entry Requirements

A Bachelor of Engineering (Civil) or equivalent qualification from a recognised tertiary institution. You may also seek entry if you have an Associate Diploma or Bachelor of Technology degree in Civil Engineering and documentary evidence of approximately five years full-time employment at an advanced technical level in a relevant engineering activity.

### Articulation

Students who achieve a grade point average of 5.0 or above in the Graduate Certificate will be able to apply for entry to the Master of Engineering Science (Civil) (CE74) on the condition that they possess an undergraduate degree in engineering.

### Course structure

#### Environmental Engineering

##### Semester 1

CEP291 Environmental Law and Assessment  
Elective

#### Semester 2

CEP141 Studies in Environmental Engineering  
Elective

#### Transport Engineering

##### Semester 1

CEP218 Transportation Engineering  
Elective

##### Semester 2

CEP216 Advanced Traffic Engineering  
Elective

#### Electives, Semester 1

CEP127 Road and Traffic Engineering  
CEP142 Water Pollution Control  
CEP161 Professional Development Studies 1  
CEP201 Process Modelling  
CEP218 Transportation Engineering  
CEP291 Environmental Law and Assessment  
CEP293 Pavement Design

#### Electives, Semester 2

CEP141 Studies in Environmental Engineering  
CEP151 Road Safety Audit - Principles and Practice  
CEP175 Pavement Maintenance Rehabilitation and Recycling  
CEP216 Advanced Traffic Engineering  
CEP262 Professional Development Studies 2  
CEP292 Engineering Practice 2

Advice must be sought from Course Coordinator before enrolling in this unit.

The School reserves the right to offer the units according to enrolment quotas and staff availability.

With permission of the Course Coordinator students may be permitted to take an elective from other engineering areas.

## ■ Graduate Certificate in Computer and Communications Engineering (EE61)

**Award title:** Graduate Certificate in Computer and Communications Engineering

**CRICOS code:** 043119G

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Mr John Edwards

### Entry Requirements

A bachelor degree in Electrical Engineering, Information Technology or equivalent; or an Associate Diploma /Advanced Diploma in electrical engineering or information technology, or equivalent, together with significant relevant industrial experience, education and training as approved by the course coordinator.

### Course Structure

In the Graduate Certificate students select a total of four units from semester 1 or semester 2 lists.

#### Semester 1

EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing  
EEP124 Data Communications  
EEP126 Communications Digital Signal Processing  
Elective Unit 1

#### Semester 2

EEP104 Real-Time Operating Systems  
EEP120 Networks and Distributed Computing  
EEP123 Process Control and Robotics  
EEP128 Detection and Estimation  
EEP129 Image Processing and Computer Vision  
EEP135 Digital Signal Processing and Applications  
Elective Unit 2

#### Elective Units

EEB911 Electrical Energy Systems  
EEB941 Modern Signal Processing  
EEB960 Wireless Communications  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics

EEB992 VLSI Circuits and Systems

**Note:** At the discretion of the course coordinator, students maybe allowed to select an elective from any advanced topics offered by the University.

## ■ Graduate Certificate in Electricity Supply Engineering (EE82)

**Award title:** Graduate Certificate in Electricity Supply Engineering

**Location:** Gardens Point and External

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Associate Professor David Birtwhistle

### Entry Requirements

A bachelor degree in electrical engineering with a study of power subjects to third-year level. Provision also for Associate Diploma or Advanced Diploma holders to enter the Graduate Certificate and Graduate Diploma.

### Course Structure

In the Graduate Certificate students choose 12 units from the unit list. Units are offered in block mode or by distance education. Block mode units are held twice yearly and distance education units are year round. Ad hoc Block modes units are also offered in Brisbane and throughout Australia and New Zealand in demand. Please contact the Course Coordinator for further information.

#### Choose 12 units from list

EEP201	Fundamentals of Power System Earthing
EEP202	Thermal Ratings and Heat Transfer
EEP203	Testing and Condition Monitoring
EEP204	Power System Load Flow Analysis
EEP205	Power System Fault Calculations
EEP206	Project Management
EEP207	Overhead Line Route Selection - Environmental Factors
EEP208	Economic Analysis for Power System Engineers
EEP209	Power System Harmonics
EEP210	Abnormal System Voltages
EEP211	Basic Power System Protection
EEP212	Advanced Power System Protection
EEP213	Statistics
EEP214	Risk Assessment in the Electricity Supply Industry
EEP215	Reliability
EEP216	Overhead Line Design - Electrical
EEP243	Contract Administration
EEP248	Introduction to Electricity Markets
EEP217	Overhead Line Design - Mechanical
EEP218	Introduction to Automated System Control and Supervisory Systems
EEP219	High Voltage Substation Equipment: Power Transformers and Reactive Power Plant
EEP220	Distribution Planning
EEP221	Limits to Power System Stability
EEP222	Maintenance of Electricity Supply Systems
EEP223	Load Forecasting
EEP240	Organisation and Financial Management in the Electricity Supply Industry
EEP241	Distance Protection
EEP244	Circuit Breakers - Switchgear
EEP246	Customer Metering
EEP245	Introduction to Substation Design

**Units available by distance education with flexible enrolment year round.**

EEP202	Thermal Ratings and Heat Transfer
EEP204	Power System Load Flow Analysis
EEP208	Economic Analysis for Power System Engineers
EEP209	Power System Harmonics
EEP210	Abnormal System Voltages
EEP211	Basic Power System Protection
EEP212	Advanced Power System Protection
EEP213	Statistics
EEP214	Risk Assessment in the Electricity Supply Industry
EEP215	Reliability
EEP220	Distribution Planning
EEP241	Distance Protection

## ■ Graduate Certificate in Engineering Management (ME75)

**Award title:** Graduate Certificate in Engineering Management

**CRICOS code:** 018208C

**Location:** Gardens Point

**Course duration (full-time):** 6 months

**Course duration (part-time):** 1 year

**Total credit points:** 48

**Course coordinator:** Dr Jun Wang

### Entry Requirements

A bachelor degree in engineering or relevant training and experience, as assessed by the course coordinator. Part-time students are expected to be employed in some professional engineering capacity.

### Course Structure

Graduate Certificate students will take four units all of which are offered as part of the Master of Engineering Management.

#### Block Mode #

MEN177	Total Quality Management
MEN171	Advanced Manufacturing Technologies
MEN241	Reliability and Maintenance Management
MEN280	Engineering Project Management
MEN273	Engineering Knowledge Management
MEN172	Cost Analysis and Asset Management
MEN175	Energy and Environmental Management
MEN170	Systems Modelling and Simulation
MEN272	Enterprise Resource Planning

#### # Block mode

Students take 4 units.

Block mode classes are held in teaching periods which run consecutively for 5 weeks at a time, instead of semesters. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks of a teaching period.

Please check QUT Virtual or contact the School Administration Officer for details of teaching periods for the above block mode units.

## ■ Graduate Certificate in Geographic Information Systems (PS79)

**Award title:** Graduate Certificate in Geographic Information Systems

**CRICOS code:** 040339G

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Dr John Hayes

### Entry Requirements

Applicants must hold a relevant bachelor degree or diploma from an approved tertiary institution; or have qualifications deemed equivalent to the above by the Head of School of Design and Built Environment; or other academic qualifications supported by a minimum of two years work experience of relevant depth and breadth on application to the Head of School, Design and Built Environment.

### Full-time Course Structure

#### Semester 1

PSB631	Geographic Information Systems 1
PSB655	Remote Sensing
Choose 2 Electives*	

#### Semester 1 Electives

DBP401	Urban Design and Site Analysis
DBP402	Planning Processes
PSB432	History of Built Environment
PSB612	Spatial and Land Information Management
PSB630	Cartography and Digital Mapping
PSB643	Geodesy
PSN213	Specialisation
PSN214	Elective
PSP311	Professional Practice Management
PSP314	Boundary Definition Surveys 1

PSP316	Survey Computing and Processing
PSP317	Property Development Surveys
<b>Semester 2 Electives</b>	
BNB011	Fundamentals of Synthetic Environments
DBP407	Environmental Planning and Management
DBP501	Specialisation
PSB631	Geographic Information Systems 1
PSB632	Photogrammetry
PSB633	Map Production: Principles and Practice
PSB644	Advanced Geodesy
PSB655	Remote Sensing
PSN213	Specialisation
PSP268	Site Planning
PSP273	Landscape Planning
PSP326	GIS and GPS
PSP330	Professional Practice Management 2
PSP510	Specialisation

**Notes:** Full-time students are required to enrol in 48 credit points per semester. This includes two core units per semester and two Electives from the list above, or from other undergraduate and postgraduate units with approval of your course coordinators.

The following units and semesters of offer are only available to postgraduate students subject to discussion with the course coordinator:

#### **Semester 1**

PSB643	Geodesy
--------	---------

#### **Semester 2**

PSB633	Map Production: Principles & Practice
PSB644	Advanced Geodesy
PSB654	Topics in Spatial Information Science
PSN213	Specialisation is available in semester 2 for PS79 students only.

### **Part-time Course Structure**

#### **Year 1, Semester 1**

PSB631	Geographic Information Systems 1
	Choose 1 Elective*

#### **Year 1, Semester 2**

PSB654	Topics in Spatial Information Science
	Choose 1 Elective*

Please refer to Full-time Course Structure for list of Electives.

**Notes:** Part-time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the Electives listed, or from other undergraduate and postgraduate units.

### **July Entry**

#### **Full-time Course Structure**

##### **Semester 2**

PSB631	Geographic Information Systems 1
PSB654	Topics in Spatial Information Science
	Choose 2 Electives*

\*Please refer to Full-time Course Structure for list of Electives.

**Notes:** Full-time students are required to enrol in 48 credit points per semester. This includes two core units per semester and two electives from the above-mentioned list, or from other undergraduate and postgraduate units.

### **July Entry**

#### **Part-time Course Structure**

##### **Year 1, Semester 2**

PSB631	Geographic Information Systems 1
	Choose 1 Elective*

##### **Year 2, Semester 1**

PSB654	Topics in Spatial Information Science
	Choose 1 Elective*

Please refer to Full-time Course Structure for list of Electives.

**Notes:** Part-time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the electives listed, or from other undergraduate and postgraduate units.

## **■ Graduate Certificate in Geomatics (PS73)**

**Award title:** Graduate Certificate in Geomatics

**CRICOS code:** 036436G

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Dr John Hayes

### **Entry Requirements**

A recognised tertiary degree requiring at least four years full time study or its equivalent;

OR a degree from another tertiary institution considered by the Head of School of Design and Built Environment to be at least equivalent to the degree of Bachelor of Surveying of this University.

In addition, graduates should have at least one year's field experience (or its equivalent) following graduation in the practice of surveying. Entry will also be available on the basis of other academic qualifications supported by a minimum of 2 years work experience of relevant depth and breadth on application to the Head of School.

### **Professional Recognition**

The Graduate Certificate is recognised professionally by the Mapping Sciences Institute, Australia.

### **February Entry**

#### **Full-time Course Structure**

##### **Semester 1**

PSP311	Professional Practice Management
PSP316	Survey Computing and Processing
	Choose 2 Electives*

\*Note: Students are required to select any two units from the Electives list.

### **February Entry**

#### **Part-time Course Structure**

##### **Semester 1**

PSP311	Professional Practice Management
PSP316	Survey Computing and Processing

##### **Semester 2**

Choose 2 Electives\*

\*Note: Students are required to select any two units from the Electives listed below.

### **July Entry**

#### **Full-time Course Structure**

##### **Year 1, Semester 2**

PSP323	Project Site Surveys
PSB654	Topics in Spatial Information Science
	Choose 2 Electives

\*Note: Students are required to select any two units from the Electives list.

### **July Entry**

#### **Part-time Course Structure**

##### **Year 1, Semester 2**

Choose two electives from the electives list

##### **Year 1 -Semester 1**

PSP326	GIS and GPS
PSP316	Survey Computing and Processing

### **PS73 – Electives (subject to availability)**

##### **Semester 1**

BNB011	Fundamentals of Synthetic Environments
DBP401	Urban Design and Site Analysis
DBP402	Planning Processes
PSB432	History of Built Environment
PSB612	Spatial and Land Information Management
PSB630	Cartography and Digital Mapping
PSB643	Geodesy
PSP314	Boundary Definition Surveys 1
PSP317	Property Development Surveys

##### **Semester 2**

BNB011	Fundamentals of Synthetic Environments
DBP407	Environmental Planning and Management
PSB631	Geographic Information Systems 1
PSB632	Photogrammetry
PSB633	Map Production: Principles and Practice
PSB644	Advanced Geodesy
PSB655	Remote Sensing

PSP268 Site Planning  
PSP273 Landscape Planning

**Notes:** Students are required to select any two units from the electives listed above.

## ■ Graduate Certificate in Landscape Design (PS76)

**Award title:** Graduate Certificate in Landscape Design

**CRICOS code:** 037546E

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48 credit points

**Course coordinator:** Associate Professor Glenn Thomas

### Entry Requirements

To be eligible for admission, an applicant must have completed PS75 Graduate Certificate in Landscape Techniques or an approved equivalent.

### Full-time Course Structure

#### Year 1, Semester 2

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB415 Contemporary Landscape Design, or

PSB414 Professional Skills 1, or

PSB610 Government and Law

PSP263 Landscape Ecology

PSP264

**Note:** Selection of units depends on individual student background - please consult course coordinator before finalising your enrolment.

### Part-time Course Structure

#### Year 1, Semester 1

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics

#### Year 1, Semester 2

PSB444 Landscape Construction B (L'scape Only)

PSB417 Manual/Digital Graphics, or

PSB432 History of Built Environment, or

PSB442 Plant Studies (L'scape Only), or

PSP268 Site Planning, or

Other electives approved by Course Coordinator. Selection of units depends on individual student background - please consult course coordinator before finalising your enrolment

## ■ Graduate Certificate in Landscape Techniques (PS75)

**Award title:** Graduate Certificate in Landscape Techniques

**CRICOS code:** 037545F

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Associate Professor Glenn Thomas

### Entry Requirements

A relevant two year diploma and industry experience or approved equivalent; or a three year diploma or bachelors degree.

Applicants from non-design qualifications require basic skills in design/perception theory, freehand and technical graphics.

Computer literacy is also required.

### Full-time Course Structure

#### Summer Semester - Foundation Level Studies

PSP275 Introductory Design and Graphics

This unit is a required prerequisite for non Bachelor of Built Environment - Landscape Architecture applicants for entry into PSP264.

#### Year 1, Semester 1

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB414 Professional Skills 1, or

PSB415 Contemporary Landscape Design, or

PSB610 Government and Law

PSP263 Landscape Ecology  
PSP264 Spatial Design Theory

**Note:** Selection of units depends on individual student background - please consult course coordinator before finalising your enrolment.

### Part-time Course Structure

#### Summer Semester - Foundation Level Studies

PSP275 Introductory Design and Graphics

This unit is a required pre-requisite for non Bachelor of Built

Environment - Landscape Architecture applicants for entry into PSP264.

#### Year 1, Semester 1

PSB434 Landscape Construction A (L'scape Only)

PSB413 Graphics, or

PSB414 Professional Skills 1, or

PSB415 Contemporary Landscape Design, or

PSB610 Government and Law

#### Year 1, Semester 2

PSB444 Landscape Construction B (L'scape Only)

PSB417 Manual/Digital Graphics, or

PSB432 History of Built Environment, or

Other elective approved by course coordinator.

**Note:** Selection of units depends on individual student background - please consult course coordinator before finalising your enrolment.

## ■ Graduate Certificate in Planning Studies (PS82)

**Award title:** Graduate Certificate in Planning Studies

**CRICOS code:** 040336M

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Assoc Prof Phil Heywood

### Entry Requirements

To be eligible for admission, an applicant must have:

- a recognised tertiary degree in any discipline requiring at least three years' full time study or its equivalent, or

- other documented qualifications and experience considered to be equivalent by the Head of School of Design and Built Environment. Applicants may be required to attend an interview, or sit an examination, as part of the selection process.

### Course Structure

An overview of current planning methods is offered in Planning Processes and applied in Community Planning and Urban Site Analysis or Urban Design. These method and practice units are accompanied by opportunities for focused study within Specialisation and Elective units chosen in discussion with the course coordinator.

### Full-time Course Structure

**Note:** Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning.

#### Semester 1

DBP401 Urban Design and Site Analysis

DBP402 Planning Processes

DBP411 Community Planning

DBP501 Specialisation

### Part-time Course structure

**Note:** Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning.

#### Semester 1

DBP402 Planning Processes

DBP411 Community Planning

#### Semester 2

DBP405 Urban Design

DBP416 Elective

DBP416 Elective offers Specialisations in Urban Housing, Urban Design and Environmental and Social Planning. Other topics may be offered depending on staff availability.

## Mid-Year Entry

### Full-time Course Structure

**Note:** Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning.

#### Semester 2

DBP405 Urban Design

DBP408 Planning Implementation and Law

DBP407 Environmental Planning and Management

DBP416 Elective

DBP416 Elective offers Specialisations in Urban Housing, Urban Design and Environmental and Social Planning. Other topics may be offered depending on staff availability.

## Mid-Year Entry

### Part-time Course Structure

**Note:** Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning

#### Semester 2

DBP405 Urban Design

DBP416 Elective

DBP416 Elective offers Specialisations in Urban Housing, Urban Design and Environmental and Social Planning. Other topics may be offered depending on staff availability.

#### Semester 1

DBP402 Planning Processes, or

DBP401 Urban Design and Site Analysis

DBP411 Community Planning

## ■ Graduate Certificate in Project Management (CN81)

**Award title:** Graduate Certificate in Project Management

**CRICOS code:** 012705A

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 1 year

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Jay Yang

### Entry Requirements

A relevant bachelor degree from an approved tertiary institution; OR

qualifications and/or extensive, relevant professional experience deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND

at least three years of appropriate industry experience after graduation.

### Course Structure

The first semester full-time or two semesters part-time are identical to the Graduate Diploma in Project Management (CN64). Students who complete the Graduate Certificate in Project Management (CN81) and are successful in gaining entry into the Graduate Diploma in Project Management (CN64) or Master of Project Management (CN77) will be eligible to receive credit for all units studied in the Graduate Certificate.

The full-time Graduate Certificate can only be completed in Semester 1 of any year.

Students who commence mid-year should enrol in Semester 2 units.

### Full-time Course Structure

#### Year 1, Semester 1

CNP520 Project Management

CNP521 Project Cost and Risk Management

CNP532 Innovation and Technology Management

CNP551 Project Human Resource Management

### Part-time Course Structure

#### Year 1, Semester 1

CNP520 Project Management

CNP521 Project Cost and Risk Management

#### Year 1, Semester 2

CNP533 Project Management Law

CNP534 International Project Management

## ■ Graduate Certificate in Property Economics (CN90)

**Award title:** Graduate Certificate in Property Economics

**CRICOS code:** 036428G

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 1 year

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Professor Terry Boyd

### Entry Requirements

A relevant bachelor degree from an approved tertiary institution; OR

qualifications and/or relevant training considered to be deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND

at least three years of appropriate industry experience after graduation.

### Course Structure

In the Graduate Certificate and Graduate Diploma courses, students complete coursework units from the Masters degree with a range of elective options available.

The full-time Graduate Certificate can only be completed in Semester 1 of any year.

Students who commence mid-year should enrol in Semester 2 units.

### Full-time Course Structure

#### Property Development

##### Semester 1

CNP547 Property Investment

CNP555 Property Market Analysis

CNP520 Project Management

CNP521 Project Cost and Risk Management

#### Property Investment and Management

##### Semester 1

CNP547 Property Investment

CNP555 Property Market Analysis

##### Year 1, Semester 2

CNP557 Property Finance and Capital Markets

CNP554 Advanced Land Development

## □ Course Requirements and Notes Relating to Undergraduate Courses

### Course progression

It is important that students follow as normal a progression through their courses as possible. Units should be taken in an orderly sequence as set out in published course structures. Units failed should be picked up in the next semester that they are offered. Prerequisite units must normally be passed before a student may proceed to a further unit which has the prerequisite so specified. The course coordinator should be consulted regarding variations from the course structure. This is considered to be a major concession. Students who have failed units, or have doubts about having the necessary background to proceed, should seek the advice of the course coordinator.

### Supplementary assessment

Students may be granted up to two supplementary assessments in the final 96 credit points of study, for coursework programs of three or more years full-time duration or equivalent; and one supplementary assessment in the final 48 credit points for coursework programs of less than three years full-time duration or equivalent.

Eligibility for supplementary assessment will be determined by the Dean and will normally only be considered when a student receives a grade of 2 in a unit where a 3 is required for course completion. The only grade that will be recorded following satisfactory supplementary assessment is S3 (pass supplementary).

### Awards with honours

Honours may be awarded to graduands of the Bachelor of Architecture, the four-year single degree and five-year double degree Bachelor of Engineering and Surveying courses, the four-year Bachelor of Applied Science courses in Construction Management and Quantity Surveying, and the Bachelor of Property Economics. First class honours, second class honours division A and second class honours division B may be awarded. Candidates for a degree with honours must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the Faculty academic board and approved by University Academic Board.

### Eligibility for honours

Eligibility for awards with honours is not affected by the time taken to complete a course. However, to be eligible for such an award, a graduand must have completed the course within the maximum number of calendar years specified in the Student Rules (see the student rules section). Three- and four-year (full-time) courses must be completed in ten years. Combined degree courses must be completed in eleven years. Time limits are measured in calendar years from the first day of the first semester in which the student was enrolled and include periods of interruption such as leave of absence. In addition, to be eligible for an award with honours, a graduand must have been enrolled in the course at QUT for at least two years of full-time study or its equivalent.

### Honours based on grade point average

The Built Environment and Engineering Academic Board has resolved that awards with honours for students graduating post-1992 will be based on grades achieved by students throughout the whole of their course as determined by the Grade Point Average (GPA) calculation.

The GPA calculation includes all attempts at units which are awarded a numeric grade, or the result 'Withdrawn — Failure' (which is converted to a grade of 1).

Students obtaining a GPA of 6.0 or greater will normally qualify for the award of first class honours. Students obtaining a GPA of 5.5 to 5.99 will normally qualify for the award of second class

honours division A. Students obtaining a GPA of 5.0 to 5.49 will normally qualify for the award of second class honours division B.

Students enrolled in double degrees must obtain the required GPA in the Engineering degree component to be eligible for Honours.

### Awards with distinction

Awards 'with distinction' may be awarded to graduands of the three-year single degree courses and the graduate diploma courses undertaken in the Faculty of Built Environment and Engineering. Candidates for a degree 'with distinction' must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the Faculty Academic Board and approved by the University Academic Board.

### Eligibility for 'With Distinction'

See Eligibility for Honours.

### With Distinction based on grade point average

The Built Environment and Engineering Academic Board has resolved that awards 'with distinction' will be based on grades achieved by students throughout the whole of their course as determined by the grade point average calculation.

The GPA calculation includes all attempts at units which are awarded a numeric grade, or the result 'Withdrawn — Failure' (which is converted to a grade of 1).

Students obtaining a GPA of 5.5 or greater will normally qualify for the award of with distinction.

### Dean's list

Each semester, the Faculty of Built Environment and Engineering will publish a Dean's List comprising names of students achieving a GPA of 6.50 or better. The list will be posted on school notice boards. Students will receive a certificate in recognition of their achievement.

### Use of calculators in examinations

Restrictions apply on the use of calculators in examinations. Students should consult their unit coordinator for details.

### Field trips

Attendance at field trips or field projects in engineering and surveying/mapping courses is compulsory.

### Personal Protection Equipment (PPE) Policy

Protective equipment refers to safety glasses/goggles, hearing protection, safety boots, gloves and similar items. While all care is taken to reduce the risks to which students are exposed, protective equipment will be required to be worn in some practical sessions and field excursions. Students are required to wear PPE where and when it has been made clear that it is needed. Students are required to provide certain PPE as indicated by each school within the faculty.

Students enrolled in units specified by the School of Civil Engineering will be required to wear safety shoes for most laboratory practicals and/or field trips. Students not wearing appropriate safety shoes on these occasions will be barred from (i) participating in activities in these units, and (ii) submitting any assessment associated with these activities. Hard hats will be supplied by the School of Civil Engineering, as required. Students **must** provide their own safety shoes, safety glasses/goggles and hearing protection equipment.

All students are bound by the *Queensland Workplace Health and Safety Act*. In this respect, students carrying out their final year projects will be required to do a risk assessment of such projects and also suggest risk management steps that will be taken in case of an accident.

### Industrial experience for Engineering and Surveying/Mapping courses

Industrial Experience forms part of the requirements of engineering and surveying degree courses, in order to provide a realistic background for formal academic studies and to ensure that students become effectively balanced in their professional development. For engineering students, it is a requirement of the Institution of Engineers, Australia, for graduate membership. Industrial Experience is usually undertaken during the long vacation or the mid-semester recess as an employee of a private firm, government agency or local authority, but can also be accumulated during part-time/full-time employment.

Candidates must submit a report no later than the fourth week of the semester, following each period of Industrial Experience. The report is to be written in the required format describing work carried out during the period of Industrial Experience. An Industrial Experience Record Form signed by the employer is also to be submitted. Industrial Experience Record Forms are available from outside the Faculty Office, Level 10, S Block, Gardens Point campus and the School of Design and Built Environment, Level 5, D Block, Gardens Point campus, or the Faculty web site.

A candidate for the degree of Bachelor of Technology (Civil) must obtain at least 45 days of industrial experience in an engineering environment approved by the course coordinator.

A candidate for the degree of Bachelor of Technology (Mechanical) must obtain at least 50 days of industrial experience approved by the course coordinator.

Engineering students must obtain at least 60 days of Industrial Experience in an engineering environment approved by the course coordinator.

Bachelor of Surveying students must obtain at least 90 days of industrial experience in a surveying environment approved by the course coordinator.

Bachelor of Engineering (Aerospace Avionics) students are required to obtain 10 days specialist experience in the avionics industry. This is in addition to the 60 days industrial experience requirement.

Industrial Experience information can be obtained from the Student Services Officer in the Faculty Office, Level 10, S Block, Gardens Point campus or on the web [www.bee.qut.edu.au/bee/industrial](http://www.bee.qut.edu.au/bee/industrial).

#### Enrolment in industrial experience

Surveying/mapping and Engineering students should not formally enrol in industrial experience.

### Industrial experience requirements for Bachelor of Architecture course

A Bachelor of Architecture student must be engaged in approved employment for at least 72 recognised weeks within the last 2-3 years of the course (ADB796 Practice Experience B). Prior to entering Year 4 Semester 1 students enrolled in the Full-time Course Structure, must have completed 20 recognised weeks of approved employment which will be credited to the requirements of Practice Experience B. Students enrolled in the flexible Full-time Course Structure must be engaged in approved employment for at least 48 recognised weeks within the first 3 years of the course (ADB795 Practice Experience A). Flexible full-time students enrol in ADB795 Practice Experience A in second semester of third year. All students enrol in ADB796 Practice Experience B in the second semester of the final year of the course.

**Approved employment** means working under the direction of an architect who is registered at the place of practice where the experience is obtained.

A **recognised week** is 5 days actually worked (7.6 hrs per day with a maximum of 42 hours per week). The minimum period with one employer is 8 weeks.

**Allied experience** can be obtained in approved areas allied to architecture (eg, Civil Engineering, Interior Design, Industrial Design, Quantity Surveying, Construction Management, Town Planning, Landscape Architecture, Building, etc). The maximum period of allied experience is 12 recognised weeks in ADB795 and 18 recognised weeks in ADB796.

**Prior work experience** under the direction of a registered architect before enrolment in the course is accepted up to a maximum of 24 weeks in ADB795 and a maximum of 36 weeks in ADB796.

**Approved employment during leave of absence** is accepted (a) in ADB795 up to a maximum of 24 recognised weeks and (b) in ADB796 after completion of at least one semester of fourth year and prior approval of the course coordinator up to a maximum of 36 recognised weeks.

**Reporting each month** is required on the electronic logbook. Students without access to the electronic logbook system, are to contact the course coordinator who will establish the reporting arrangements for their work experience. The electronic logbook automatically produces the AACA log-sheets required in ADB796.

**Credited employment period** only counts once (eg, period required for ADB795 cannot also be used for the 20 week period for entry in the last 2 years full-time mode). The employment period of ADB795 for students admitted directly into the third year of the flexible full-time course is 24 recognised weeks and the employment period of ADB796 for students admitted directly into the last year of the course is one year (52 recognised weeks).

#### Types of experience required:

- **ADB795 Practice Experience A**
  - At least 50% of time in undertaking design and/or documentation duties.
- **ADB796 Practice Experience B**
  - (a) At least 50% of time in undertaking design and documentation duties.
  - (b) Provide the following experiences on the electronic AACA log sheets:
    - contract documentation experience (AACA element 2.2.2); and
    - preliminary site investigation and evaluation of at least one project during the last 2-3 years of the course (AACA element 3.1.2); and
    - some aspect of the administration of the project contract of at least one project during the last 2-3 years of the course which can be 'observer' status where direct experience is unavailable (AACA element 3.3.1).

### ■ Bachelor of Applied Science (Construction Management) (CN51)

**Award title:** Bachelor of Applied Science (Construction Management)

**CRICOS code:** 006363B

**Location:** Gardens Point

**Course duration (full-time):** 4 years or 5.5 years flexible full-time

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mr Matthew Humphreys

#### Special Course Requirements

All students are required to obtain a minimum of 100 days of employment in the final year of the course as a part of CNB409 Professional Practice 1 and CNB423 Professional Practice 2.

## Professional Recognition

Graduates with relevant experience are eligible for membership of the Australian Institute of Building.

## Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points.

This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

## Full-time Course Structure

### Year 1, Semester 1

CNB101 Construction 1  
CNB102 Building Technology 1

## ■ Bachelor of Applied Science (Quantity Surveying) (CN53)

**Award title:** Bachelor of Applied Science (Quantity Surveying)

**CRICOS code:** 003500M

**Location:** Gardens Point

**Course duration (full-time):** 4 years or 5.5 years flexible full-time

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mr Jason Gray

### Special Course Requirements

All students are required to obtain a minimum of 100 days of employment in the final year of the course as a part of the units Professional Practice 1 and Professional Practice 2. Only international students are eligible to complete a portion of their work experience offshore, and in this case students will receive no assistance in gaining work experience.

### Professional Accreditation and Recognition

The course is offered with or without honours. Both the honours and without honours versions of the course are fully accredited by the Australian Institute of Quantity Surveyors and the Singapore Institute of Surveyors and Valuers. The course with honours is fully accredited by the Royal Institution of Chartered Surveyors and the Board of Quantity Surveyors Malaysia (BQSM) (subject to 2004 Accreditation). For students completing the entire course without any advanced standing, the course with honours is also fully accredited by the Hong Kong Institute of Surveyors.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion, but this will affect professional accreditation and recognition in relation to RICS and SISV. The course coordinator will therefore need to be satisfied that the student fully understands the implications that the minor will have on professional accreditation and recognition before approval to the minor is granted. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Advanced Standing

Up to 4 semesters of advanced standing may be granted, subject to prior learning and qualifications.

Students seeking accreditation from the Hong Kong Institute of Surveyors are not able to accept any advanced standing, and must complete the entire course. In the special case of students who complete the QUT BAppSc Construction Management course and are therefore eligible to enter the final year of the BAppSc Quantity Surveying course, these students will find that their BAppSc Quantity Surveying course is only accredited by the Australian Institute of Quantity Surveyors.

### Electives

Note A: Electives as listed or an approved elective from other QUT courses. Students seeking RICS and SISV accreditation should not enrol in Note A electives but follow the course structure as specified.

### February Entry

#### Full-time Course Structure

##### Year 1, Semester 1

CNB101 Construction 1  
CNB102 Building Technology 1  
CNB105 Legal and Land Studies  
OR Elective  
CNB106 Technical Communications

##### Year 1, Semester 2

CNB107 Construction 2

CNB109 Professional Studies 1  
CNB110 Measurement 1  
CNB120 Economics in the Construction Industry

##### Year 2, Semester 1

CNB201 Construction 3  
CNB203 Building Services  
CNB204 Measurement 2  
CNB209 The Environment and the Quantity Surveyor

##### Year 2, Semester 2

CNB206 Law 1  
CNB207 Professional Studies 2  
CNB208 Construction Business Management  
CNB227 Applied Computing

##### Year 3, Semester 1

CNB302 Contract Administration  
CNB303 Construction Business Accounting  
CNB305 Construction Estimating  
CNB335 Time Management

##### Year 3, Semester 2

CNB307 Building Economics and Cost Management  
CNB308 Professional Studies 3  
CNB309 Law 2  
CNB310 Measurement 3

##### Year 4, Semester 1

CNB409 Professional Practice 1  
CNB433 Dissertation A  
CNB482 Measurement 4  
CNB402 Investment Theory  
OR Elective

##### Year 4, Semester 2

CNB410 Property Development  
OR Elective  
CNB423 Professional Practice 2  
CNB434 Dissertation B  
Elective

### Electives, Semester 1

CNB408 Advanced Building and Civil Construction  
CNB481 Construction Dispute Management  
CNB483 Smart and Sustainable Construction  
OR an approved elective from other QUT courses

### Electives, Semester 2

CNB420 Current Construction Issues  
CNB424 Specialist Measurement  
CNB425 International Construction  
OR an approved elective from other QUT courses

**Note:** CNB424 and CNB408 are core units for Malaysian students seeking BQSM accreditation

### July Entry

#### Full-time Course Structure

## ■ Bachelor of Architecture (AR48)

**Award title:** Bachelor of Architecture

**CRICOS code:** 052308E

**Location:** Gardens Point

**Course duration (full-time):** 5 years full-time or 6 years flexible full-time

**Total credit points:** 480

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Nur Demirbilek

#### International Students Course Structure - 6 years

International students enrol in the Full-time Course Structure for years 1 - 3 and the flexible full time structure for years 4 - 6. Prior to entering year 4, students may seek approval from the course coordinator to enrol in the Full-time Course Structure allowing them to complete in 5 years. To be eligible for the Full-time Course Structure (years 4-5), students must have completed 20 recognised weeks of approved employment which will be credited to the requirements of the unit Practical Experience B."

#### Early Exit Option

Students may elect to complete their studies after three years full-time (288 credit points). Students who select this option will graduate with The Bachelor of Built Environment (Architectural Studies), which is a pre-professional degree in architecture.

#### Professional Recognition

Graduates of the Bachelor of Architecture degree meet the academic requirements for membership of the Royal Australian Institute of Architects and, following one year of post-graduate architectural experience, are eligible to undertake the registration examinations of the Board of Architects of Queensland.

#### Special course requirements

A Bachelor of Architecture student must be engaged in approved employment for at least 72 recognised weeks within the last 2-3 years of the course (ADB796 Practice Experience B). Prior to entering Year 4 Semester 1 students enrolled in the Full-time Course Structure, must have completed 20 recognised weeks of approved employment which will be credited to the requirements of Practice Experience B. Students enrolled in the flexible Full-time Course Structure must be engaged in approved employment for at least 48 recognised weeks within the first 3 years of the course (ADB795 Practice Experience A).

#### Full-time Course Structure

##### Year 1, Semester 1

ADB001	Architectural Design 1
ADB911	Human Environment 1
ADB921	Technology and Science Foundation
ADB061	Architectural Applications 1

##### Year 1, Semester 2

ADB002	Architectural Design 2
ADB931	Introduction to History, Theory and Criticism
ADB021	Technology and Science 1
ADB062	Architectural Applications 2

##### Year 2, Semester 1

ADB003	Architectural Design 3
ADB011	Contextual Studies 1
ADB022	Technology and Science 2
ADB063	Architectural Applications 3

##### Year 2, Semester 2

ADB004	Architectural Design 4
ADB023	Technology and Science 3
ADB941	Elective 1
ADB064	Architectural Applications 4

##### Year 3, Semester 1

ADB005	Architectural Design 5
ADB913	Human Environment 3
ADB024	Technology and Science 4
ADB065	Architectural Applications 5

##### Year 3, Semester 2

ADB006	Architectural Design 6
ADB012	Contextual Studies 2
ADB066	Architectural Applications 6
ADB942	Elective 2

**Note:** Prior to entering Year 4 Semester 1 in the Full-time Course Structure, students must have completed 20 recognised weeks of approved employment which will be credited to the requirements of Practice Experience B.

##### Year 4, Semester 1

ADB007	Architectural Design 7
ADB013	Contextual Studies 3
ADB025	Technology and Science 5

ADB943 Elective 3

**Year 4, Semester 2**

ADB008 Architectural Design 8  
ADB026 Technology and Science 6  
ADB031 Professional Studies 1  
ADB051 Architectural Research 1

**Year 5, Semester 1**

ADB009 Architectural Design 9  
ADB932 Professional Studies 2  
ARB052 Architectural Research 1  
ADB067 Elective Architectural Applications

**Year 5, Semester 2**

ADB014 Contextual Studies 4  
ADB033 Professional Studies 3  
ADB053 Architectural Project  
ADB944 Elective 4  
ADB796 Practice Experience B

**Special Course Notes**

- 1 Students must complete all units in the Years 1, 2 & 3 prior to enrolling in any unit in the Year 4 schedule of AR48. The course coordinator may consider cases of special hardship.
- 2 Students must meet pre-requisites in all subjects.
- 3 Students who have not completed 20 recognised weeks of approved employment at the end of year 3 should consult with the course coordinator regarding their 4th year enrolment program.
- 4 Late penalties for late assignments apply.
- 5 Course will involve compulsory field work within some units.

**Flexible Full-time Course Structure**

**Year 1, Semester 1**

ADB001 Architectural Design 1  
ADB911 Human Environment 1  
ADB921 Technology and Science Foundation

**Year 2, Semester 1**

ADB002 Architectural Design 2  
ADB931 Introduction to History, Theory and Criticism  
ADB021 Technology and Science 1

**Year 2, Semester 2**

ADB003 Architectural Design 3  
ADB011 Contextual Studies 1  
ADB022 Technology and Science 2

**Year 2, Semester 2**

ADB004 Architectural Design 4  
ADB023 Technology and Science 3

**Year 3, Semester 1**

ADB005 Architectural Design 5  
ADB913 Human Environment 3  
ADB024 Technology and Science 4

**Year 3, Semester 2**

ADB006 Architectural Design 6  
ADB012 Contextual Studies 2  
ADB795 Practice Experience A

**New and continuing students**

**Year 4, Semester 1**

ADB007 Architectural Design 7  
ADB013 Contextual Studies 3  
ADB025 Technology and Science 5

**Year 4, Semester 2**

ADB008 Architectural Design 8  
ADB026 Technology and Science 6  
ADB031 Professional Studies 1

**Year 5, Semester 1**

ADB009 Architectural Design 9  
ADB932 Professional Studies 2

**Year 5, Semester 2**

ADB014 Contextual Studies 4  
ADB051 Architectural Research 1  
ADB943 Elective 3

**Year 6, Semester 1**

ADB067 Elective Architectural Applications  
ADB052 Architectural Research 2  
ADB944 Elective 4

**Year 6, Semester 2**

ADB053 Architectural Project  
ADB033 Professional Studies 3  
ADB796 Practice Experience B

**Special Course Notes**

- 1 Students must complete all units in the Years 1, 2 and 3 prior to enrolling in any unit in the Year 4 schedule of AR48. The course coordinator may consider cases of special hardship.
- 2 Students must meet pre-requisites in all subjects.
- 3 Penalties for late assignments apply.
- 4 Course will involve compulsory field work within some units.
- 5 Students currently enrolled in BN31 cannot transfer to AR48 in years 2 & 3.
- 6 Acceptance into the flexible full-time mode requires approval of the course coordinator and by providing evidence of employment in an Architects office.

**■ Bachelor of Built Environment (Industrial Design) (BN31)**

**Award title:** Bachelor of Built Environment (Industrial Design)

**CRICOS code:** 003507D

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Vesna Popovic

**Other Majors**

See also entries for the following majors in this course: Interior Design, Landscape Architecture, and Urban and Regional Planning.

**Professional Recognition**

Graduates of the Bachelor of Built Environment (Industrial Design) who go on to complete the Graduate Diploma in Industrial Design are eligible for associate membership of the Design Institute of Australia. QUT is an Educational Member of the International Council of Societies of Industrial Design (ICSID).

**Minors**

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

**Course Structure**

**Year 1, Semester 1**

ADB911 Human Environment 1  
ADB201 Introductory Industrial Design 1  
ADB921 Technology and Science Foundation  
ADB241 Industrial Design Applications

**Year 1, Semester 2**

ADB212 Ergonomics for Industrial Designers  
ADB931 Introduction to History, Theory and Criticism  
ADB202 Introductory Industrial Design 2  
ADB232 Design Technology and Society

**Year 2, Semester 1**

ADB912 Human Environment 2  
ADB203 Industrial Design 1  
ADB233 Manufacturing Technology 1  
ADB941 Elective 1

**Year 2, Semester 2**

ADB224 Industrial Design History Theory and Criticism 1  
ADB204 Industrial Design 2  
ADB234 Manufacturing Technology 2  
ADB244 Computer Aided Industrial Design 1

**Year 3, Semester 1**

ADB913 Human Environment 3  
ADB205 Industrial Design 3  
ADB235 Manufacturing Technology 3  
ADB245 Computer Aided Industrial Design 2

**Year 3, Semester 2**

ADB226 Industrial Design History Theory and Criticism 2  
ADB206 Industrial Design 4  
ADB236 Manufacturing Technology 4

ADB942 Elective 2

## ■ Bachelor of Built Environment (Interior Design) (BN31)

**Award title:** Bachelor of Built Environment (Interior Design)

**CRICOS code:** 003507D

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Diane Smith

### Other Majors

See also entries for the following majors in this course: Industrial Design, Landscape Architecture, and Urban and Regional Planning.

### Professional Recognition

Successful completion of the Bachelor of Built Environment (Interior Design) satisfies the requirements for entry into the Graduate Diploma in Interior Design. Together the courses are recognised by the Design Institute of Australia as meeting the basic requirements for professional practice.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Course Structure

#### Year 1, Semester 1

ADB101 Interior Design 1  
ADB911 Human Environment 1  
ADB921 Technology and Science Foundation  
ADB151 Drawing as Communication

#### Year 1, Semester 2

ADB102 Interior Design 2  
ADB122 Interior Technology 1  
ADB931 Introduction to History, Theory and Criticism  
ADB152 Light and Colour Studies

#### Year 2, Semester 1

ADB103 Interior Design 3  
ADB912 Human Environment 2  
ADB123 Interior Technology 2  
ADB941 Elective 1

#### Year 2, Semester 2

ADB104 Interior Design 4  
ADB124 Interior Technology 3  
ADB132 Design in Society 1  
ADB153 Material Studies

#### Year 3, Semester 1

ADB105 Interior Design 5  
ADB913 Human Environment 3  
ADB125 Interior Technology 4  
ADB133 Design in Society 2

#### Year 3, Semester 2

ADB106 Interior Design 6  
ADB126 Interior Technology 5  
ADB154 Furniture Studies  
ADB942 Elective 2

## ■ Bachelor of Built Environment (Landscape Architecture) (BN31)

**Award title:** Bachelor of Built Environment (Landscape Architecture)

**CRICOS code:** 003507D

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Ms Delwynn Poulton

### Other Majors

See also entries for the following majors in this course: Interior Design, Industrial Design, and Urban and Regional Planning.

### Professional Recognition

Successful performance in the Bachelor of Built Environment (Landscape Architecture) enables students to gain entry to the Graduate Diploma/Master courses. The Graduate Diploma in Landscape Architecture is the only course of its kind in Queensland, and is accredited by the Australian Institute of Landscape Architects (AILA). Graduates from the Graduate Diploma or Master of Landscape Architecture are recognised in New Zealand and Hong Kong and overseas generally through their AILA membership.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Course Structure

#### Year 1, Semester 1

PSB411 Planning/Landscape Design 1  
PSB413 Graphics  
PSB414 Professional Skills 1  
PSB415 Contemporary Landscape Design

#### Year 1, Semester 2

PSB417 Manual/Digital Graphics  
PSB421 Planning/Landscape Design 2  
PSB423 Group Dynamics  
PSB432 History of Built Environment

#### Year 2, Semester 1

PSP263 Landscape Ecology  
PSP264 Spatial Design Theory  
PSB431 Planning/Landscape Design 3  
PSB610 Government and Law

#### Year 2, Semester 2

PSB441 Planning/Landscape Design 4  
PSB442 Plant Studies (L'scape Only)  
PSB443 Population and Urban Studies  
PSB613 Land Development Principles and Policies

#### Year 3, Semester 1

PSB416 Research and Criticism  
PSB434 Landscape Construction A (L'scape Only)  
PSB451 Planning/Landscape Design 5  
PSB453 Elective 1

#### Year 3, Semester 2

PSB444 Landscape Construction B (L'scape Only)  
PSB461 Planning/Landscape Design 6  
PSB462 Conservation and Management  
PSB463 Elective 2

## ■ Bachelor of Built Environment (Urban and Regional Planning) (BN31)

**Award title:** Bachelor of Built Environment (Urban and Regional Planning)

**CRICOS code:** 003507D

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Bhishna Bajracharya

### Other Majors

See also entries for the following majors in this course: Interior Design, Industrial Design, and Landscape Architecture.

## Professional Recognition

Successful completion of the Bachelor of Built Environment (Urban and Regional Planning) enables students to gain entry to the Graduate Diploma/Masters in Urban and Regional Planning, which are both fully accredited by the Planning Institute of Australia (PIA).

## Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the another study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

## Course Structure

### Year 1, Semester 1

PSB411	Planning/Landscape Design 1
PSB412	Computer Skills
PSB413	Graphics
PSB414	Professional Skills 1

### Year 1, Semester 2

PSB421	Planning/Landscape Design 2
PSB422	Environmental Science
PSB423	Group Dynamics
PSB424	Land Science

### Year 2, Semester 1

PSB431	Planning/Landscape Design 3
PSB432	History of Built Environment
PSB433	Planning Processes (URP Only)
PSB435	Social and Cultural Relations

### Year 2, Semester 2

PSB441	Planning/Landscape Design 4
PSB443	Population and Urban Studies
PSB445	Infrastructure Planning (URP Only)
PSB611	Introduction to Urban and Regional Economics

### Year 3, Semester 1

PSB451	Planning/Landscape Design 5
PSB452	Professional Skills 2
PSB453	Elective 1
PSB610	Government and Law

### Year 3, Semester 2

PSB461	Planning/Landscape Design 6
PSB462	Conservation and Management
PSB463	Elective 2
PSB613	Land Development Principles and Policies

## ■ Bachelor of Engineering - Dean's Scholars Program

**Location:** Gardens Point

**Course duration (full-time):** BEng 3.5 years, BEng/MEngSc 4-4.5 years

**Total credit points:** BE 384, BE/MEngSc 456

**Course coordinator:** CE44 & CE46 - Dr Martin Murray, EE41- Dr Duncan Campbell, ME41- Dr Peter Ridley, EE46&EE47 Dr Vinod Chandran, ME40 Dr Yarlagaadda, ME48 TBA.

## Special Course Requirements

Students enrolled in the Dean's Scholars program must maintain a GPA of 5.5 throughout their course. For a copy of the program rules and regulations please contact the Faculty Office or [www.bee.qut.edu.au/bee/scholarships](http://www.bee.qut.edu.au/bee/scholarships)

Students must complete at least 60 days of industrial experience in order to graduate.

## Civil

### Year 1, Semester 1

CEB109	Engineering Mechanics 1
MMB131	Engineering Materials
CEB213	Environmental Science
MAB131	Engineering Mathematics 1A, or
MAB180	Engineering Mathematics 1

MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Year 12 Mathematics C (or equivalent).

### Year 1, Semester 2

BNB007	Professional Studies 1
CEB110	Engineering Mechanics 2
EEB112	Electrical and Computer Engineering 1
PCB136	Engineering Physics 1C

### Year 1 - Summer Program

CEB217	Hydraulic Engineering 1
MAB132	Engineering Mathematics 1B

### Year 2, Semester 1

CEB207	Professional Studies 2 (Timber Structures & Earthworks)
CEB208	Materials Science
CEB209	Geotechnical Engineering 1
CEB317	Professional Studies 4 (Project Documentation & Roads)
CEB319	Water Engineering

### Year 2, Semester 2

CEB214	Professional Studies 3 (Environmental & Transport)
CEB215	Structural Engineering 1
CEB216	Project Engineering 1
CEB321	Water and Wastewater Treatment
CEB322	Geotechnical Engineering 2

### Year 3, Semester 1

CEB318	Structural Engineering 2
CEB412	Project Engineering 2
CEB424	Professional Studies 6 (Concrete Structures & Geotechnical Engineering)

MAB138 Engineering Statistics and Numerical Methods

### Year 3, Semester 2

CEB323	Transport Engineering 1
CEB329	Professional Studies 5 (Steel Design & Construction)
CEB413	Structural Engineering 3
CEB425	Professional Studies 7 (Civil Design Project)

### Year 3 - Summer Program

CEB411	Thesis Project A
	Master of Engineering Science unit

### Year 4, Semester 1

CEB415	Thesis Project B
	Master of Engineering Science unit
	Master of Engineering Science unit
	Master of Engineering Science unit

### Year 4, Semester 2

CEP997-1	Project
CEP997-2	Project
	Master of Engineering Science unit
	Master of Engineering Science unit

Students must complete 60 days industrial experience before graduating. There may be minor variations in the program as CEB209 and CEB217 are offered in alternate Summer program.

**Electives:** See Master of Engineering Science units under CE74 course structure.

## Environmental Management

### Year 1, Semester 1

CEB109	Engineering Mechanics 1
MAB131	Engineering Mathematics 1A, or
MAB180	Engineering Mathematics 1
MMB131	Engineering Materials
CEB213	Environmental Science

MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Year 12 Mathematics C (or equivalent).

### Year 1, Semester 2

BNB007	Professional Studies 1
CEB110	Engineering Mechanics 2
EEB112	Electrical and Computer Engineering 1
PCB136	Engineering Physics 1C

### Year 1, Summer

CEB217	Hydraulic Engineering 1
MAB132	Engineering Mathematics 1B

### Year 2, Semester 1

CEB207	Professional Studies 2 (Timber Structures & Earthworks)
CEB230	Engineering Materials and the Environment
CEB232	Geotechnical Engineering 1 and the Environment
CEB317	Professional Studies 4 (Project Documentation & Roads)
CEB319	Water Engineering

**Year 2, Semester 2**

CEB233	Environmental Professional Studies 3 (Impacts of Projects and Sustainable Development)
CEB215	Structural Engineering 1
CEB321	Water and Wastewater Treatment
CEB322	Geotechnical Engineering 2
PSB435	Social and Cultural Relations

**Year 3, Semester 1**

CEB416	Environmental Law and Assessment
CEB419	Environmental Transport & Infrastructure Management
CEB523	Environmental Geotechnology
MAB138	Engineering Statistics and Numerical Methods

**Year 3, Semester 2**

CEB330	Environmental Management for Engineers
CEB418	Waste Resource Management
CEB426	Environmental Professional Studies (Civil Project)
PSB443	Population and Urban Studies

**Year 3 - Summer**

CEB420	Environmental Thesis A Master of Engineering Science unit
--------	--

**Year 4, Semester 1**

CEB415	Thesis Project B
PSP453	Urban Systems and the Physical Environment
PSP501	Environmental Planning and Assessment Master of Engineering Science unit

**Year 4, Semester 2**

CEP997-1	Project B
CEP997-2	Project B Master of Engineering Science unit Master of Engineering Science unit

**Electives:** See Master of Engineering Science units under CE74 Course Structure

**Electrical and Computer Engineering**

**Year 1, Semester 1**

CEB109	Engineering Mechanics 1
EEB112	Electrical and Computer Engineering 1
PCB136	Engineering Physics 1C
MAB180	Engineering Mathematics 1, or
MAB131	Engineering Mathematics 1A

MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Year 12 Mathematics C (or equivalent).

ITB111	Software Development 1
ITB114	Networking Systems
PCB136	Engineering Physics 1C
MAB180	Engineering Mathematics 1, or
MAB131	Engineering Mathematics 1A

MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Year 12 Mathematics C (or equivalent).

**Year 1, Semester 2**

BNB007	Professional Studies 1
EEB213	Electrical Circuits and Measurements
ITB112	Software Development 2
MAB132	Engineering Mathematics 1B

**Year 2, Semester 1**

EEB312	Analog and Digital Electronics
EEB340	Introduction to Telecommunications
MAB139	Computer Engineering Mathematics 3
ITB610	Software Development 3

**Year 2, Semester 2**

EEB412	Advanced Electronics and Embedded Systems
EEB440	Classical Signal Processing
ITB611	Object Technology
ITB616	Computer Architecture

**Year 2 - Summer Program**

EEB584	Introduction to Design
--------	------------------------

**Year 3, Semester 1**

EEB512	Industrial Electronics and Digital Design
EEB560	Digital Communications
EEB566	Real-Time Computer-Based Systems
EEB781	Professional Studies 2

**Year 3, Semester 2**

EEB612	Software Systems Design
EEB640	Digital Signal Processing
EEB666	Communication Environments for Embedded Systems
EEB684	Advanced Design Master of Engineering Science Unit 1

**Year 3 - Summer**

EEB889-1	Project
EEB889-2	Project

**Year 4, Semester 1**

Elective Unit 1  
Elective Unit 2  
Master of Engineering Science Unit 2

Units contributing to the undergraduate program are completed at this point. The remaining units complete the Masters component of the program.

Master of Engineering Science Unit 3

EEP301-1	Project
----------	---------

**Year 4, Semester 2**

Master of Engineering Science Unit 4  
Master of Engineering Science Unit 5  
Master of Engineering Science Unit 6

EEP301-2	Project
----------	---------

**Electives:** See list under EE46 course structure

**Master of Engineering Science Units**

**Semester 1**

EEP101	Algorithms for Control and Engineering
EEP102	Unix and C for Engineers
EEP103	Computer Hardware and Interfacing
EEP124	Data Communications
EEP137	Advanced Topic A

**Semester 2**

EEP104	Real-Time Operating Systems
EEP120	Networks and Distributed Computing
EEP123	Process Control and Robotics
EEP127	Advanced Topic B
EEP128	Detection and Estimation

EEP129 Image Processing and Computer Vision

## Telecommunications

### Year 1, Semester 1

ITB111 Software Development 1  
ITB114 Networking Systems  
PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A  
MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Year 12 Mathematics C (or equivalent).

### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB213 Electrical Circuits and Measurements  
ITB112 Software Development 2  
MAB132 Engineering Mathematics 1B

### Year 2, Semester 1

EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
MAB134 Electrical Engineering Mathematics 3  
ITB610 Software Development 3  
General Elective

### Year 2, Semester 2

EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
ITB611 Object Technology  
MAB135 Electrical Engineering Mathematics 4

### Year 2 - Summer Program

EEB584 Introduction to Design

### Year 3, Semester 1

EEB560 Digital Communications  
EEB781 Professional Studies 2  
ITB624 Internetworking  
Elective Unit 1

### Year 3, Semester 2

EEB640 Digital Signal Processing  
EEB641 Fields Transmission and Propagation  
EEB684 Advanced Design  
EEB960 Wireless Communications  
ITB627 Network Technologies

### Year 3 - Summer

EEB889-1 Project  
EEB889-2 Project

### Year 4, Semester 1

EEB766 Communication Technologies  
Master of Engineering Science Unit 1  
Master of Engineering Science Unit 2

Units contributing to the undergraduate program are completed at this point. The remaining units complete the Masters component of the program.

Master of Engineering Science Unit 3  
EEP301-1 Project

### Year 4, Semester 2

Master of Engineering Science Unit 4  
Master of Engineering Science Unit 5  
Master of Engineering Science Unit 6  
EEP301-2 Project

### Master of Engineering Science Units

#### Semester 1

EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing  
EEP124 Data Communications  
EEP137 Advanced Topic A

#### Semester 2

EEP104 Real-Time Operating Systems  
EEP120 Networks and Distributed Computing  
EEP123 Process Control and Robotics  
EEP127 Advanced Topic B  
EEP128 Detection and Estimation  
EEP129 Image Processing and Computer Vision

## Infomechatronics

### Year 1, Semester 1

CEB109 Engineering Mechanics 1  
ITB849 Introduction To Technical Computing  
MAB131 Engineering Mathematics 1A  
PCB136 Engineering Physics 1C

### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB213 Electrical Circuits and Measurements  
MAB132 Engineering Mathematics 1B  
MMB112 Dynamics

### Year 2, Semester 1

EEB311 Electrical Measurement and Machines  
EEB312 Analog and Digital Electronics  
ITB851 Advanced Technical Computing  
MAB134 Electrical Engineering Mathematics 3  
MMB131 Engineering Materials

### Year 2, Semester 2

EEB411 Classical Control and Power Systems  
EEB412 Advanced Electronics and Embedded Systems  
MAB135 Electrical Engineering Mathematics 4  
MMB252 Thermofluids

### Year 3, Semester 1

MMB211 Mechanics 1  
MMB371 Manufacturing Processes  
MMB478 Mechatronics Systems Design  
MEN101 Research Methodology

### Year 3, Semester 2

ITB427 Concurrent And Distributed Systems  
ITB650 Computational Intelligence  
MMB212 Mechanics 2  
MMB374 Design for Manufacturing 1  
MMB476 Operations Management

### Year 3 - Summer Program

BSB115 Management, People and Organisations  
MEN103 Mechanical Engineering Specialised Unit 1  
1 Masters unit from Band 1 or 2

### Year 4, Semester 1

EEB521 Digital Systems and Control  
MMB004 Infomechatronics Project

### Year 4, Semester 2

MEN190 Project 1/2  
MEN102 Advanced Mechanical Engineering Studies  
2 Masters units from Band 1 or 2

### Band 1 Masters units

1 unit is to be chosen from the range of Band 1 units

### Band 1 units, Semester 1

CEP291 Environmental Law and Assessment  
CEP294 Engineering Contract Development and Administration  
EEP101 Algorithms for Control and Engineering  
EEP102 Unix and C for Engineers  
EEP103 Computer Hardware and Interfacing

### Band 1 units, Semester 2

CEP141 Studies in Environmental Engineering  
CEP201 Process Modelling  
CEP295 Civil Engineering Management in a Project Environment  
EEP129 Image Processing and Computer Vision

### Band 1 units, Block mode#

MEN280 Engineering Project Management  
MEN172 Cost Analysis and Asset Management  
MEN170 Systems Modelling and Simulation

### Band 2 Masters units

3 units are to be chosen from the range of Band 2 units

### Band 2 units, Block mode#

MEN177 Total Quality Management  
MEN171 Advanced Manufacturing Technologies  
MEN241 Reliability and Maintenance Management  
MEN273 Engineering Knowledge Management  
MEN175 Energy and Environmental Management  
MEN272 Enterprise Resource Planning

### Band 2 units, Semester 1, 2 or 3

MEN103 Mechanical Engineering Specialised Unit 1  
MEN104 Mechanical Engineering Specialised Unit 2  
MEN105 Mechanical Engineering Specialised Unit 3

Students must consult with the course coordinator before enrolling in MEN103, 104 or 105.

### #Block mode

Block mode classes are held in teaching periods (eg. 5TP1), instead of semesters, which run consecutively for 5 weeks at a time. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks of a teaching period.

Teaching periods for above block mode units are as follows: 5TP1 commencing January - MEN177; 5TP2 commencing February - MEN171; 5TP3 commencing March - MEN241; 5TP4 commencing April - MEN280; 5TP5 commencing June - MEN273; 5TP6 commencing July -

MEN172; 5TP7 commencing September - MEN175; 5TP8 commencing October - MEN170; 5TP9 commencing November - MEN272

## Mechanical

### Year 1, Semester 1

CEB109 Engineering Mechanics 1  
MAB131 Engineering Mathematics 1A  
MMB131 Engineering Materials  
PCB136 Engineering Physics 1C

### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB112 Electrical and Computer Engineering 1  
MAB132 Engineering Mathematics 1B  
MMB112 Dynamics

### Year 2, Semester 1

EEB220 Electrical Engineering 2M  
MAB133 Engineering Mathematics 2  
MMB211 Mechanics 1  
MMB281 Fundamentals of Mechanical Design  
MMB371 Manufacturing Processes

### Year 2, Semester 2

MAB136 Engineering Statistics  
MMB212 Mechanics 2  
MMB232 Materials Technology  
MMB252 Thermofluids

### Year 3, Semester 1

MMB311 Mechanics 3  
MMB352 Fluid Mechanics  
MMB381 Design of Mechanical Components and Machines  
MEN101 Research Methodology  
Group B or C elective

### Year 3, Semester 2

MMB351 Thermodynamics  
MMB382 Design and Maintenance of Machinery  
Group A elective  
Group B or C elective

### Year 3 - Summer Program

BSB115 Management, People and Organisations  
MMB401-1 Project  
1 Masters unit from Band 1 or 2

### Year 4, Semester 1

MMB401-2 Project  
2 Masters units from Band 1 or 2

### Year 4, Semester 2

MEN190 Project 1/2  
MEN102 Advanced Mechanical Engineering Studies  
1 Masters units from Band 1 or 2

### Masters units

See list under ME40 Infomechatronics Dean's Scholars Course Structure

## Medical

### Year 1, Semester 1

LSB142 Human Anatomy and Physiology  
MAB131 Engineering Mathematics 1A  
MMB191 Introduction to Engineering in the Medical Environment  
PCB136 Engineering Physics 1C

### Year 1, Semester 2

CEB109 Engineering Mechanics 1  
MAB132 Engineering Mathematics 1B  
MMB112 Dynamics  
MMB131 Engineering Materials

### Year 2, Semester 1

HMB274 Functional Anatomy  
MAB133 Engineering Mathematics 2  
MMB211 Mechanics 1  
MMB281 Fundamentals of Mechanical Design  
MMB371 Manufacturing Processes

### Year 2, Semester 2

EEB112 Electrical and Computer Engineering 1  
MAB136 Engineering Statistics  
MMB252 Thermofluids  
MMB292 Biomaterials  
even years only, or  
MMB362 Biofluids  
odd years only

### Year 3, Semester 1

EEB220 Electrical Engineering 2M  
MMB311 Mechanics 3  
MMB391 Biomechanical Engineering Systems

MMB470 Engineering Asset Management and Maintenance  
MEN101 Research Methodology

### Year 3, Semester 2

MMB292 Biomaterials  
even years only, or  
MMB362 Biofluids  
odd years only  
MMB492 Health Legislation and the Medical Environment  
MMB492 Health Legislation and the Medical Environment  
PCB605 Biomedical Instrumentation

### Year 3 - Summer Program

BSB115 Management, People and Organisations  
MMB409-1 Project  
1 Masters unit from Band 1 or 2

### Year 4, Semester 1

MMB409-2 Project  
2 Masters units from Band 1 or 2

### Year 4, Semester 2

MEN190 Project  
MEN102 Advanced Mechanical Engineering Studies  
1 Masters units from Band 1 or 2

### Masters units

See list under ME40 Infomechatronics Dean's Scholars Course Structure.

## ■ Bachelor of Engineering (Aerospace Avionics) (EE48)

**Award title:** Bachelor of Engineering (Aerospace Avionics)

**CRICOS code:** 037543G

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Werner Enderle

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. It is also professionally recognised by many international professional institutions.

### Minors

Subject to the approval of the course coordinator, students in this course may gain a minor in Systems Engineering by choosing the same group project through the Aerospace Design units and the final year project providing they comply with Systems Engineering principles.

### Optional Pathway

Subject to normal course entry rules students may transfer internally from the QUT Bachelor of Engineering (Electrical and Computer Engineering) course to this degree after the completion of the first year full-time if they have obtained a sufficiently high grade point average that will meet the course cut-off for that year.

### Articulation to Masters

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

### Full-time Course Structure

#### Year 1, Semester 1

EEB112 Electrical and Computer Engineering 1  
EEB130 Introduction to Avionics  
PCB136 Engineering Physics 1C  
MAB131 Engineering Mathematics 1A, or  
MAB180 Engineering Mathematics 1

#### Year 1, Semester 2

BNB007 Professional Studies 1  
CEB109 Engineering Mechanics 1  
EEB212 Electrical and Computer Engineering 2

MAB132 Engineering Mathematics 1B

**Year 2, Semester 1**

EEB312 Analog and Digital Electronics

EEB340 Introduction to Telecommunications

MAB134 Electrical Engineering Mathematics 3

MMB251 Aerodynamic Principles

**Year 2, Semester 2**

EEB412 Advanced Electronics and Embedded Systems

EEB431 Aircraft Systems and Flight Control

EEB440 Classical Signal Processing

MAB135 Electrical Engineering Mathematics 4

**Year 3, Semester 1**

EEB512 Industrial Electronics and Digital Design

EEB535 Modern Flight Control Systems

EEB560 Digital Communications

EEB585 Systems Engineering Design

**Year 3, Semester 2**

EEB612 Software Systems Design

EEB640 Digital Signal Processing

EEB641 Fields Transmission and Propagation

EEB685 Advanced Systems Design

**Year 4, Semester 1**

EEB732 Space Technology

EEB781 Professional Studies 2

EEB782-1 Systems Project

Elective Unit 1

**Year 4, Semester 2**

EEB782-2 Systems Project

EEB833 Spacecraft Guidance and Navigation

EEB835 Navigation Systems for Aircraft

Elective Unit 2

Students in this course must complete 60 days industrial experience before graduating. An additional 10 days specialist industrial experience must be obtained in the aerospace avionics industry.

**Electives**

EEB760 Aerospace Radio and Radar Systems

EEB831 Military Combat Electronics

EEB904 Advanced Topics in Electrical Engineering A

EEB905 Advanced Topics in Electrical Engineering B

EEB941 Modern Signal Processing

EEB960 Wireless Communications

EEB961 RF and Applied Electromagnetics

EEB976 Advanced Industrial Electronics

EEB992 VLSI Circuits and Systems

PCB469 Astrophysics 1

General Elective or a language

At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University.

## ■ Bachelor of Engineering (Civil and Environmental Management) (CE46)

**Award title:** Bachelor of Engineering (Civil and Environmental Management)

**CRICOS code:** 040310K

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 6-8 years

**Total credit points:** 384

**Course coordinator:** Dr Martin Murray

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points.

This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Environmental Management) must obtain at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

### Course Structure

### Year 1, Semester 1

CEB109 Engineering Mechanics 1

CEB213 Environmental Science

MMB131 Engineering Materials

MAB180 Engineering Mathematics 1, or

MAB131 Engineering Mathematics 1A

**Note:** MAB180 students must have Maths B. MAB131 - students must have Maths C.

Students who do not have SA in Maths B please consult School Admin Officer.

### Year 1, Semester 2

BNB007 Professional Studies 1

CEB110 Engineering Mechanics 2

EEB112 Electrical and Computer Engineering 1

MAB132 Engineering Mathematics 1B

### Year 2, Semester 1

CEB207 Professional Studies 2 (Timber Structures & Earthworks)

CEB230 Engineering Materials and the Environment

CEB232 Geotechnical Engineering 1 and the Environment

MAB138 Engineering Statistics and Numerical Methods

### Year 2, Semester 2

CEB215 Structural Engineering 1

CEB217 Hydraulic Engineering 1

CEB233 Environmental Professional Studies 3 (Impacts of Projects and Sustainable Development)

PCB136 Engineering Physics 1C

### Year 3, Semester 1

CEB317 Professional Studies 4 (Project Documentation & Roads)

CEB319 Water Engineering

CEB330 Environmental Management for Engineers

PSB435 Social and Cultural Relations

### Year 3, Semester 2

CEB321 Water and Wastewater Treatment

CEB322 Geotechnical Engineering 2

CEB418 Waste Resource Management

CEB419 Environmental Transport & Infrastructure Management

### Year 4, Semester 1

CEB416 Environmental Law and Assessment

CEB420 Environmental Thesis Project A

CEB523 Environmental Geotechnology

Environmental Elective

### Year 4, Semester 2

CEB426 Environmental Professional Studies (Civil Project)

PSB443 Population and Urban Studies

2 Environmental electives

### Electives, Semester 1 (subject to availability)

CEB523 Environmental Geotechnology

PSP501 Environmental Planning and Assessment, or other units approved by the course coordinator

### Electives, Semester 2 (subject to availability)

CEB415 Thesis Project B

CEB417 Environmental Professional Studies

PSP453 Urban Systems and the Physical Environment, or other units approved by the course coordinator.

## ■ Bachelor of Engineering (Civil) (CE44)

**Award title:** Bachelor of Engineering (Civil)

**CRICOS code:** 037544G

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 6-8 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Martin Murray

### Professional Recognition

This degree is recognised for the purpose of membership of Engineers Australia. It is professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, The Institution of Engineers, Ireland and the various professional engineering registry bodies in the USA.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of

four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Articulation to Master of Engineering Science

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

### Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil) must obtain at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

### Part-time Study

Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment. Students wishing to enrol part-time must consult with the course coordinator regarding their enrolment.

### Course structure - February entry (CE44)

#### Year 1, Semester 1

CEB109 Engineering Mechanics 1  
MMB131 Engineering Materials  
PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A  
MAB180-must have Maths B, MAB131-must have Maths C  
Students who do not have Maths B please consult with the course coordinator.

#### Year 1, Semester 2

BNB007 Professional Studies 1  
CEB110 Engineering Mechanics 2  
EEB112 Electrical and Computer Engineering 1  
MAB132 Engineering Mathematics 1B

#### Year 2, Semester 1

CEB207 Professional Studies 2 (Timber Structures & Earthworks)  
CEB208 Materials Science  
CEB209 Geotechnical Engineering 1  
CEB213 Environmental Science

#### Year 2, Semester 2

CEB214 Professional Studies 3 (Environmental & Transport)  
CEB215 Structural Engineering 1  
CEB216 Project Engineering 1  
CEB217 Hydraulic Engineering 1

#### Year 3, Semester 1

CEB317 Professional Studies 4 (Project Documentation & Roads)  
CEB318 Structural Engineering 2  
CEB319 Water Engineering  
MAB138 Engineering Statistics and Numerical Methods

#### Year 3, Semester 2

CEB321 Water and Wastewater Treatment  
CEB322 Geotechnical Engineering 2  
CEB323 Transport Engineering 1  
CEB329 Professional Studies 5 (Steel Design & Construction)

#### Year 4, Semester 1

CEB411 Thesis Project A  
CEB412 Project Engineering 2  
CEB424 Professional Studies 6 (Concrete Structures & Geotechnical Engineering)  
Choose one Elective

#### Year 4, Semester 2

CEB413 Structural Engineering 3  
CEB425 Professional Studies 7 (Civil Design Project)  
Choose two Electives

### Course structure - Mid year entry (CE45)

#### Year 1, Semester 2 Mid-year entry

CEB109 Engineering Mechanics 1  
MMB131 Engineering Materials

PCB136 Engineering Physics 1C  
BNB007 Professional Studies 1  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A

**Note:** MAB180-must have Maths B, MAB131-must have Maths C. Students not having Maths B, please consult the course coordinator.

#### Year 1 - Summer Program

CEB110 Engineering Mechanics 2  
CEB209 Geotechnical Engineering 1, or (which ever is timetabled for summer)  
CEB217 Hydraulic Engineering 1

#### Year 2, Semester 1

CEB207 Professional Studies 2 (Timber Structures & Earthworks)  
CEB208 Materials Science  
CEB213 Environmental Science  
EEB112 Electrical and Computer Engineering 1  
MAB132 Engineering Mathematics 1B

#### Year 2, Semester 2

Program is the same as CE44 entry hereafter

**Note:** Mid-Year Entry International Students please consult the course coordinator regarding your course structure.

### Electives

#### Semester 1

CEB416 Environmental Law and Assessment  
CEB507 Finite Element Methods  
CEB508 Transport Engineering 1  
CEB509 Project Management and Administration  
CEB523 Environmental Geotechnology

#### Semester 2

CEB418 Waste Resource Management  
CEB513 Advanced Construction Practice  
CEB514 Project Control  
CEB516 Masonry Design  
CEB518 River and Coastal Engineering  
CEB522 Geotechnical Engineering Practice

With approval from the course coordinator students may be permitted to enrol in one elective unit from other QUT faculties. Not all electives will run every year.

### Course structure - Environmental Major

#### Years 1, 2 and 3

See Year 1, 2 and 3 of full-time CE44 course structure

#### Year 4, Semester 1

CEB411 Thesis Project A  
or  
CEB416 Environmental Law and Assessment  
CEB424 Professional Studies 6 (Concrete Structures & Geotechnical Engineering)  
CEB523 Environmental Geotechnology

#### Year 4, Semester 2

CEB418 Waste Resource Management  
CEB426 Environmental Professional Studies (Civil Project)  
CEB415 Thesis Project B  
or  
CEB411 or elective for those who have completed CEB411

## ■ Bachelor of Engineering (Computer Systems) (EE46)

**Award title:** Bachelor of Engineering (Computer Systems)

**CRICOS code:** 040309C

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 6-8 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Vinod Chandran

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Optional Pathways

Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Telecommunications) course can change to the Bachelor of Engineering (Computer Systems) at the end of the first year without loss of credit, subject to approval from the course coordinator and meeting minimum course requirements.

### Articulation to Masters

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

### Special Course Requirements

Students must complete at least 60 days industrial experience in order to graduate.

### Part-time Study

Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment. Students wishing to enrol part-time must consult with the course coordinator regarding their enrolment.

### Course Structure

#### Year 1, Semester 1

ITB111 Software Development 1  
ITB114 Networking Systems  
PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A  
MAB180 Engineering Mathematics is to be taken by those students not obtaining a SA or better in Queensland Mathematics C (or equivalent).

#### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB213 Electrical Circuits and Measurements  
ITB112 Software Development 2  
MAB132 Engineering Mathematics 1B

#### Year 2, Semester 1

EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
ITB610 Software Development 3  
MAB139 Computer Engineering Mathematics 3

#### Year 2, Semester 2

EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
ITB616 Computer Architecture  
ITB611 Object Technology

#### Year 3, Semester 1

EEB512 Industrial Electronics and Digital Design  
EEB560 Digital Communications  
EEB584 Introduction to Design  
EEB566 Real-Time Computer-Based Systems

#### Year 3, Semester 2

EEB612 Software Systems Design  
EEB640 Digital Signal Processing  
EEB666 Communication Environments for Embedded Systems  
EEB684 Advanced Design

#### Year 4, Semester 1

EEB781 Professional Studies 2  
EEB889/1 Project  
Elective Unit 1  
Elective Unit 2

#### Year 4, Semester 2

EEB889/2 Project  
General Elective  
Elective Unit 3  
Elective Unit 4

Students must complete 60 days industrial experience before graduating.

#### Elective Units

EEB641 Fields Transmission and Propagation  
EEB904 Advanced Topics in Electrical Engineering A

EEB905 Advanced Topics in Electrical Engineering B  
EEB941 Modern Signal Processing  
EEB960 Wireless Communications  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems  
EEP129 Image Processing and Computer Vision  
ITB623 Information Security  
ITB640 Artificial Intelligence  
ITB641 Component and Network Applications  
ITB647 Advanced Programming Technology  
ITB648 Graphics

**Note:** At the discretion of the course coordinator students maybe allowed to select an elective from any advanced topics offered by the University.

## ■ Bachelor of Engineering (Electrical and Computer Engineering) (EE41)

**Award title:** Bachelor of Engineering (Electrical and Computer Engineering)

**CRICOS code:** 003490G

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 8 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Duncan Campbell

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. It is professionally recognised by many international professional institutions including the Professional Engineers Board Singapore.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Industry Cooperative Education Program

High achieving domestic students in third year may also be eligible to participate in the Industry Cooperative Education Program, based on a three-way partnership between the student, University and industry, and involving a full-time, one semester, paid and supervised workplace position with the industry partner.

### Articulation to Masters

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

### Special Course Requirements

To graduate, students must complete at least 60 days industrial experience in an engineering environment which is approved by the course coordinator.

### Part-time Study

Part-time students for this degree may need 9 to 12 hours release from their employment. Students wishing to enrol part-time must consult with the course coordinator regarding their enrolment.

### Full-time Course Structure

#### Year 1, Semester 1

CEB109 Engineering Mechanics 1  
EEB112 Electrical and Computer Engineering 1

PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A

**Year 1, Semester 2**

BNB007 Professional Studies 1  
EEB212 Electrical and Computer Engineering 2  
MMB131 Engineering Materials  
MAB132 Engineering Mathematics 1B

**Year 2, Semester 1**

EEB311 Electrical Measurement and Machines  
EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
MAB134 Electrical Engineering Mathematics 3

**Year 2, Semester 2**

EEB411 Classical Control and Power Systems  
EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
MAB135 Electrical Engineering Mathematics 4

**Year 3, Semester 1**

EEB511 Modern Control and Power Electronics  
EEB512 Industrial Electronics and Digital Design  
EEB560 Digital Communications  
EEB584 Introduction to Design

**Year 3, Semester 2**

EEB612 Software Systems Design  
EEB641 Fields Transmission and Propagation  
EEB684 Advanced Design  
Select one of:  
EEB640 Digital Signal Processing, or  
EEB650 Power Systems Analysis

**Year 4, Semester 1**

EEB781 Professional Studies 2  
EEB889-1 Project  
Students normally enrol in EEB889-1 in semester one.  
Elective Unit 1(Technical)  
Elective Unit 2 (Technical)

**Year 4, Semester 2**

EEB889-1 Project  
Students normally enrol in EEB889-2 in semester two.  
General Elective  
Elective Unit 3 (Technical)  
Elective Unit 4 (Technical)

Students in this course must complete 60 days industrial experience before graduating.

**Industry Cooperative Education Program**

At the commencement of Year 3, Semester 1, eligible students may be invited to apply for a place in the Industry Cooperative Education Program. (See Course Structure)

**Electives**

EEB766 Communication Technologies  
EEB904 Advanced Topics in Electrical Engineering A  
EEB905 Advanced Topics in Electrical Engineering B  
EEB911 Electrical Energy Systems  
EEB941 Modern Signal Processing  
EEB960 Wireless Communications  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems

**Note:** At the discretion of the course coordinator students maybe allowed to select an elective from any advanced topics offered by the University.

**Mid-year entry**

**Year 1, Semester 2**

BNB007 Professional Studies 1  
EEB112 Electrical and Computer Engineering 1  
CEB109 Engineering Mechanics 1  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A  
PCB136 Engineering Physics 1C

**Year 1 - Summer Program**

EEB212 Electrical and Computer Engineering 2  
MAB132 Engineering Mathematics 1B

**Year 2, Semester 1**

EEB311 Electrical Measurement and Machines  
EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
MAB134 Electrical Engineering Mathematics 3  
MMB131 Engineering Materials

**Year 2, Semester 2**

EEB411 Classical Control and Power Systems  
EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
MAB135 Electrical Engineering Mathematics 4

**Year 3, Semester 1**

EEB511 Modern Control and Power Electronics  
EEB512 Industrial Electronics and Digital Design  
EEB560 Digital Communications  
EEB584 Introduction to Design

**Year 3, Semester 2**

EEB612 Software Systems Design  
EEB641 Fields Transmission and Propagation  
EEB684 Advanced Design  
Select one of:

EEB640 Digital Signal Processing  
EEB650 Power Systems Analysis

**Year 4, Semester 1**

EEB781 Professional Studies 2  
EEB889-1 Project  
Students normally enrol in EEB889-1 in semester one  
Elective 1(Technical)  
Elective 2 (Technical)

**Year 4, Semester 2**

EEB889-1 Project  
Students normally enrol in EEB889-2 in semester two  
Elective 3 (Technical)  
Elective 4 (Technical)  
General Elective

Students must complete 60 days Industrial Experience before Graduation

**Electives**

EEB904 Advanced Topics in Electrical Engineering A  
EEB905 Advanced Topics in Electrical Engineering B  
EEB911 Electrical Energy Systems  
EEB941 Modern Signal Processing  
EEB960 Wireless Communications  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems

**Note:** At the discretion of the course coordinator students maybe allowed to select an elective from any advanced topics offered by the University

**Industry Cooperative Education Program**

**Year 3, Semester 1**

EEB511 Modern Control and Power Electronics  
EEB512 Industrial Electronics and Digital Design  
EEB560 Digital Communications  
EEB584 Introduction to Design  
EEB641 Fields Transmission and Propagation

**Year 3, Semester 2**

EEB686 Industry Practice  
EEB640 Digital Signal Processing, or  
EEB650 Power Systems Analysis

**Year 4, Semester 1**

EEB781 Professional Studies 2  
EEB889 Project  
Students normally enrol in EEB889-1 in semester one  
Elective Unit 1(Technical)  
Elective Unit 2 (Technical)

**Year 4, Semester 2**

EEB612 Software Systems Design  
EEB889 Project  
Students normally enrol in EEB889-2 in semester two  
Elective Unit 3 (Technical)  
Elective Unit 4 (Technical)

**Part-time Course Structure**

**Year 1, Semester 1**

EEB112 Electrical and Computer Engineering 1  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A

**Year 1, Semester 2**

BNB007 Professional Studies 1  
MMB131 Engineering Materials

**Year 2, Semester 1**

CEB109 Engineering Mechanics 1  
PCB136 Engineering Physics 1C

**Year 2, Semester 2**

EEB212 Electrical and Computer Engineering 2  
MAB132 Engineering Mathematics 1B

### Year 3, Semester 1

EEB311 Electrical Measurement and Machines  
EEB312 Analog and Digital Electronics

### Year 3, Semester 2

EEB411 Classical Control and Power Systems  
EEB412 Advanced Electronics and Embedded Systems

### Year 4, Semester 1

EEB340 Introduction to Telecommunications  
MAB134 Electrical Engineering Mathematics 3

### Year 4, Semester 2

EEB440 Classical Signal Processing  
MAB135 Electrical Engineering Mathematics 4

### Year 5, Semester 1

EEB511 Modern Control and Power Electronics  
EEB512 Industrial Electronics and Digital Design

### Year 5, Semester 2

EEB612 Software Systems Design  
EEB641 Fields Transmission and Propagation

### Year 6, Semester 1

EEB560 Digital Communications  
EEB584 Introduction to Design

### Year 6, Semester 2

EEB684 Advanced Design  
Select one of:  
EEB640 Digital Signal Processing  
EEB650 Power Systems Analysis

### Year 7 - Semester 1

Elective Unit 1 (Technical)  
Elective Unit 2 (Technical)

### Year 7 - Semester 2

Elective Unit 3 (Technical)  
Elective Unit 4 (Technical)

### Year 8 - Semester 1

EEB781 Professional Studies 2  
EEB889-1 Project  
Students normally enrol in EEB889-1 in semester one

### Year 8 - Semester 2

EEB889-1 Project  
Students normally enrol in EEB889-2 in semester two  
General Elective

Students must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

**Electives:** Refer to elective list under Full-time Course Structure.

## ■ Bachelor of Engineering (Infomechatronics) (ME40)

**Award title:** Bachelor of Engineering (Infomechatronics)

**CRICOS code:** 037550J

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 6-8 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Prasad Yarlalagadda

### Special Course Requirements

Students must obtain at least 60 days of industrial work experience in an engineering environment approved by the course coordinator.

### Articulation to Masters

Subject to University approval, students achieving minimum performance criteria at the end of year 3 of the Bachelor of Engineering course may be eligible to study two Master of Engineering Science or Master of Engineering Management units as electives. After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science or Master of Engineering Management courses can then have these two units credited towards the Masters Program.

### Part-time Study

Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment.

Students wishing to enrol part-time must consult with the course coordinator regarding their enrolment.

### Course Structure

#### Year 1, Semester 1

CEB109 Engineering Mechanics 1  
ITB849 Introduction to Technical Computing  
PCB136 Engineering Physics 1C  
MAB131 Engineering Mathematics 1A, or  
MAB180 Engineering Mathematics 1

#### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB213 Electrical Circuits and Measurements  
MAB132 Engineering Mathematics 1B  
MMB112 Dynamics

#### Year 2, Semester 1

EEB312 Analog and Digital Electronics  
ITB851 Advanced Technical Computing  
MAB134 Electrical Engineering Mathematics 3  
MMB131 Engineering Materials

#### Year 2, Semester 2

EEB412 Advanced Electronics and Embedded Systems  
MAB135 Electrical Engineering Mathematics 4  
MMB252 Thermofluids  
MMB476 Operations Management

#### Year 3, Semester 1

EEB311 Electrical Measurement and Machines  
MMB211 Mechanics 1  
MMB371 Manufacturing Processes  
Elective

#### Year 3, Semester 2

EEB411 Classical Control and Power Systems  
ITB617 Concurrent and Distributed Systems  
MMB212 Mechanics 2  
MMB374 Design for Manufacturing 1

#### Year 4, Semester 1

EEB521 Digital Systems and Control  
ITB650 Computational Intelligence  
MMB478 Mechatronics Systems Design  
Elective

#### Year 4, Semester 2

MMB376 Professional Practice (Engineering Management)  
MMB004 Infomechatronics Project

#### Electives

EEB340 Introduction to Telecommunications  
EEB512 Industrial Electronics and Digital Design  
EEB566 Real-Time Computer-Based Systems  
ITB114 Networking Systems  
ITB612 Software Engineering Principles  
ITB640 Artificial Intelligence  
ITB648 Graphics  
MMB311 Mechanics 3  
MMB472 Design for Manufacturing 2

## ■ Bachelor of Engineering (Mechanical) (ME41)

**Award title:** Bachelor of Engineering (Mechanical)

**CRICOS code:** 003490G

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 6 to 8 years (February entry only)

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Peter Ridley

### Engineering Management Major

Students enrolled in the Bachelor of Engineering (Mechanical) have the opportunity to undertake a major in Engineering Management during the final two years of their degree. Students wishing to undertake the major should consult the course coordinator.

### Professional Recognition

Graduates meet the requirements for membership of Engineers Australia, the Singapore Professional Engineers Board and the Lembaga Jurutera (Board of Engineers) Malaysia. The course is

also professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, and the Institution of Engineers, Ireland. The Indonesian Directorate of Higher Education accredits the course as equivalent to the appropriate Indonesian degree.

### Minors

Subject to the approval of the Course Coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Articulation to Masters

Subject to University approval, students achieving minimum performance criteria at the end of year 3 of the Bachelor of Engineering course may be eligible to study two Master of Engineering Science or Master of Engineering Management units as electives. After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science or Master of Engineering Management courses can then have these two units credited towards the Masters Program.

### Part-time Study

Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment. Students wishing to enrol part-time must consult with the course coordinator regarding their enrolment.

### Special course requirements

A candidate for the degree of Bachelor of Engineering (Mechanical) must complete at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

### Course Structure

#### Year 1, Semester 1

CEB109 Engineering Mechanics 1  
MMB131 Engineering Materials  
PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A

#### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB112 Electrical and Computer Engineering 1  
MAB132 Engineering Mathematics 1B  
MMB112 Dynamics

#### Year 2, Semester 1

EEB220 Electrical Engineering 2M  
MAB133 Engineering Mathematics 2  
MMB211 Mechanics 1  
MMB281 Fundamentals of Mechanical Design

#### Year 2, Semester 2

MAB136 Engineering Statistics  
MMB212 Mechanics 2  
MMB232 Materials Technology  
MMB252 Thermofluids

#### Year 3, Semester 1

MMB311 Mechanics 3  
MMB352 Fluid Mechanics  
MMB371 Manufacturing Processes  
MMB381 Design of Mechanical Components and Machines

#### Year 3, Semester 2

MMB376 Professional Practice (Engineering Management)  
MMB351 Thermodynamics  
MMB382 Design and Maintenance of Machinery  
Elective from Group A

#### Year 4 - Semesters 1 and 2

Option 1  
MMB400 Industry Project  
3 electives from Group A and 1 elective from Group B  
Option 2

MMB401/1 and 2 Project

3 electives from Group A and 1 elective from Group B

**Note:** Students in this course must complete 60 days industrial experience before graduating.

### Engineering Management Major

Students wishing to undertake the Engineering Management major should consult their course coordinator.

#### Year 3, Semester 2

MGB007 Engineering Management  
MMB351 Thermodynamics  
MMB382 Design and Maintenance of Machinery  
MMB476 Operations Management

#### Year 4, Semester 1

MMB470 Engineering Asset Management and Maintenance  
MMB375 Industrial Engineering

#### Year 4, Semester 2

MMB402 Engineering Management Project 1/2

#### Electives - Group A

MMB412 Finite Element Analysis  
MMB430 Advanced Materials  
MMB450 Air Conditioning  
MMB353 Tribology  
MMB411 Advanced Automatic Control  
MMB413 Industrial Noise and Vibrations  
MMB451 Energy Management  
MMB461 Process Systems Design  
MMB471 Computer Integrated Manufacturing  
MMB472 Design for Manufacturing 2  
MMB375 Industrial Engineering

#### Electives - Group B

MMB470 Engineering Asset Management and Maintenance  
MMB476 Operations Management, or  
Any Management unit approved by the Course Coordinator.

#### Electives Note

Not all electives are available every semester.  
MMB430 is available in odd years only, MMB450 is available in even years only.  
MMB451, MMB461, MMB472 and MMB470 are available in semester 1 only.  
MMB411 (odd years), MMB413 (even years), MMB471 and MMB476 are available in semester 2 only.

### Mid-year entry

#### Year 1, Semester 2

BNB007 Professional Studies 1  
CEB109 Engineering Mechanics 1  
PCB136 Engineering Physics 1C  
MAB131 Engineering Mathematics 1A, or  
MAB180 Engineering Mathematics 1

#### Year 1 - Summer Program

MAB132 Engineering Mathematics 1B  
MMB112 Dynamics  
BSB115 Management, People and Organisations

**Note:** BSB115 is to be taken by international students requiring a full-time load in lieu of MGB007.

#### Year 2, Semester 1

MAB133 Engineering Mathematics 2  
MMB131 Engineering Materials  
MMB211 Mechanics 1  
MMB281 Fundamentals of Mechanical Design

#### Year 2, Semester 2

EEB112 Electrical and Computer Engineering 1  
MAB136 Engineering Statistics  
MMB212 Mechanics 2  
MMB232 Materials Technology  
MMB252 Thermofluids

#### Year 3, Semester 1

EEB220 Electrical Engineering 2M  
MMB311 Mechanics 3  
MMB352 Fluid Mechanics  
MMB371 Manufacturing Processes  
MMB381 Design of Mechanical Components and Machines

#### Year 3, Semester 2

MMB376 Professional Practice (Engineering Management)  
MMB351 Thermodynamics  
MMB382 Design and Maintenance of Machinery  
Group A - Elective

**Year 4, Semester 1 or 2 Option 1**

MMB400 Industry Project  
3 Group A Electives  
1 Group B Elective

**Year 4, Semester 1 or 2 Option 2**

MMB401/1 Project  
MMB401/2 Project  
3 Group A Electives  
1 Group B Elective

**Engineering Management**

See above, ME41 B Engineering (Mechanical)

**Group A Electives**

MMB375 Industrial Engineering  
MMB411 Advanced Automatic Control  
MMB413 Industrial Noise and Vibrations  
MMB451 Energy Management  
MMB461 Process Systems Design  
MMB471 Computer Integrated Manufacturing  
MMB472 Design for Manufacturing 2  
MMB412 Finite Element Analysis  
MMB430 Advanced Materials  
MMB450 Air Conditioning  
MMB353 Tribology  
Any unit approved by the Course Coordinator.

**Group B Electives**

MMB470 Engineering Asset Management and Maintenance  
MMB476 Operations Management  
Any management unit approved by the Course Coordinator.

**Electives Note**

See above, ME41 B Engineering (Mechanical), for semesters of offer.

**■ Bachelor of Engineering (Mechanical)  
Conversion Program from Bachelor of  
Technology ME36/ME37 (ME41)**

**Award title:** Bachelor of Engineering (Mechanical)

**CRICOS code:** 003490G

**Location:** Gardens Point

**Course duration (full-time):** 1.5 years

**Total credit points:** 144

**Course coordinator:** Dr Peter Ridley

**Professional Recognition**

This degree is recognised for the purpose of membership of Engineers Australia. It is professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, and the Institution of Engineers, Ireland. Graduates meet the requirements for membership of the Singapore Professional Engineers Board, and the Lembaga Jurutera (Board of Engineers) Malaysia. The course is also accredited by the Indonesian Directorate of Higher Education as equivalent to the appropriate Indonesian degree.

**Course Structure**

**Year 1, Semester 1**

MAB133 Engineering Mathematics 2  
MMB311 Mechanics 3  
MMB352 Fluid Mechanics  
MMB381 Design of Mechanical Components and Machines

**Year 1, Semester 2**

MAB136 Engineering Statistics  
MMB351 Thermodynamics  
MMB382 Design and Maintenance of Machinery  
Group A Elective

**Year 2, Semester 1**

MMB400 Industry Project, or  
MMB401/1 Internal Project  
MMB401/2 Internal Project

**■ Bachelor of Engineering (Medical) (ME48)**

**Award title:** Bachelor of Engineering (Medical)

**CRICOS code:** 003490G

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Professional Recognition**

This course is accredited by Engineers, Australia (EA).

**Special Course Requirements**

Students must obtain at least 60 days of industrial employment in an engineering environment approved by the course coordinator. Half of this experience must be in an industry related to Biomedical Engineering.

**Articulation to Masters**

Subject to University approval, students achieving a minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science or Master of Engineering Management units as electives. After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science or Master of Engineering Management courses can then have these two units credited towards the Masters Program.

**Course Structure**

**Year 1, Semester 1**

LSB142 Human Anatomy and Physiology  
MMB191 Introduction to Engineering in the Medical Environment  
PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A

**Year 1, Semester 2**

CEB109 Engineering Mechanics 1  
MAB132 Engineering Mathematics 1B  
MMB112 Dynamics  
MMB131 Engineering Materials

**Year 2, Semester 1**

HMB274 Functional Anatomy  
MAB133 Engineering Mathematics 2  
MMB211 Mechanics 1  
MMB281 Fundamentals of Mechanical Design

**Year 2, Semester 2**

EEB112 Electrical and Computer Engineering 1  
MAB136 Engineering Statistics  
MMB252 Thermofluids  
MMB292 Biomaterials

**Year 3, Semester 1**

EEB220 Electrical Engineering 2M  
MMB311 Mechanics 3  
MMB371 Manufacturing Processes  
MMB391 Biomechanical Engineering Systems

**Year 3, Semester 2**

MMB376 Professional Practice (Engineering Management)  
MMB362 Biofluids  
MMB392 Bioengineering Design 2  
PCB605 Biomedical Instrumentation

**Year 4, Semester 1**

MMB409/1 Project  
MMB470 Engineering Asset Management and Maintenance  
Elective from list A

**Year 4, Semester 2**

MMB409/2 Project  
MMB492 Health Legislation and the Medical Environment  
Elective from list B

**Elective List A**

MMB494 Rehabilitation Equipment Design and Evaluation  
PUB112 Workplace Health and Safety  
MMB353 Tribology  
Any other elective approved by the Course Coordinator.

**Elective List B**

MMB411 Advanced Automatic Control  
MMB412 Finite Element Analysis  
MMB496 Modelling and Simulation for Medical Engineers  
PCB805 Medical Imaging and Image Processing  
Any other elective approved by the Course Coordinator.  
MMB411 is offered in even years only

## ■ Bachelor of Engineering (Telecommunications) (EE47)

**Award title:** Bachelor of Engineering (Telecommunications)

**CRICOS code:** 040308D

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 6-8 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Vinod Chandran

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Optional Pathway

Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Computer Systems) course can internally transfer to the Bachelor of Engineering (Telecommunications) at the end of the first year without loss of credit, subject to approval from the course coordinator, and meeting minimum course requirements.

### Articulation to Masters

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

### Special Course Requirements

Students must complete at least 60 days of industrial experience in order graduate.

### Part-time Study

Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment. Students wishing to enrol part-time must consult with the course coordinator regarding their enrolment.

### Course Structure

#### Year 1, Semester 1

ITB111 Software Development 1  
ITB114 Networking Systems  
PCB136 Engineering Physics 1C  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A

MAB180 Engineering Mathematics is to be taken by those students not obtaining a SA or better in Queensland Mathematics C (or equivalent).

#### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB213 Electrical Circuits and Measurements  
ITB112 Software Development 2  
MAB132 Engineering Mathematics 1B

#### Year 2, Semester 1

EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
MAB134 Electrical Engineering Mathematics 3  
ITB610 Software Development 3

#### Year 2, Semester 2

EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
MAB135 Electrical Engineering Mathematics 4  
ITB611 Object Technology

#### Year 3, Semester 1

EEB560 Digital Communications  
EEB584 Introduction to Design  
ITB624 Internetworking  
General Elective

#### Year 3, Semester 2

EEB640 Digital Signal Processing  
EEB641 Fields Transmission and Propagation  
EEB684 Advanced Design  
ITB627 Network Technologies

#### Year 4, Semester 1

EEB766 Communication Technologies  
EEB781 Professional Studies 2  
EEB889-1 Project  
Elective Unit 1

#### Year 4, Semester 2

EEB889-2 Project  
EEB960 Wireless Communications  
Elective Unit 2  
Elective Unit 3

Students must complete 60 days work experience before graduating.

### Elective Units

EEB904 Advanced Topics in Electrical Engineering A  
EEB905 Advanced Topics in Electrical Engineering B  
EEB941 Modern Signal Processing  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems  
EEP129 Image Processing and Computer Vision  
ITB623 Information Security  
ITB625 Network Administration  
ITB629 Network Services  
ITB640 Artificial Intelligence  
ITB641 Component and Network Applications  
ITB646 Cryptographic Fundamentals  
ITB647 Advanced Programming Technology  
ITB648 Graphics

**Note:** At the discretion of the course coordinator students maybe allowed to select an elective from any advanced topics offered by the University.

## ■ Bachelor of Property Economics (CN54)

**Award title:** Bachelor of Property Economics

**CRICOS code:** 040319A

**Location:** Gardens Point

**Course duration (full-time):** 4 years or 3 years for the early exit option

**Course duration (part-time):** 8 years or 6 years for the early exit option

**Total credit points:** 384, or 288 for 3 years early exit option

**Course coordinator:** Professor Terry Boyd

### Special Course Requirements

All students must undertake 60 days' professional work experience during the course as part of CNB390 Professional Practice. All work experience must approved by the course coordinator to verify that it is appropriate. A work experience diary is to be maintained and available for inspection by the unit coordinator as a formal assessment component.

A student registered in the flexible or part-time study program must be employed full-time in an approved organisation for three of the final four years of the course. Part-time study generally involves around 8 formal contact hours per week and some release from employment is required.

### Professional Recognition

Graduates with relevant professional experience are eligible for membership of the Australian Property Institute and registration by the Valuers' Registration Board of Queensland. The course is accredited by the Royal Institution of Chartered Surveyors. Accreditation by the Singapore Institute of Surveyors and Valuers will be sought in 2004.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points.

This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Special Note

Students may elect to complete their studies on the completion of 3 years (or flexible part-time equivalent). Students who select this option will graduate with a Bachelor of Applied Science (Property Economics) degree. This degree provides full domestic accreditation with the Australian Property Institute and Valuers' Registration Board of Queensland. Students graduating on the four year program have the potential to graduate with honours according to their overall grade point average.

### Flexible Mode

Students may take up to 3 units per semester from the full-time timetable.

### Course structure

#### Year 1, Semester 1

CNB190	Introductory Studies
CNB191	Property Law 1
BSB113	Economics
CNB192	Building Studies 1

#### Year 1, Semester 2

EFB102	Economics 2
CNB193	Property Law 2
CNB194	Principles of Property Valuation
MAB107	Introductory Mathematics and Statistics

#### Year 2, Semester 1

CNB290	Building Studies 2
CNB291	Urban Land Economics
CNB292	Property Investment Valuation
CNB293	Real Estate Accounting and Taxation

#### Year 2, Semester 2

CNB294	Agency Practice and Marketing
CNB295	Planning Theory and Processes
CNB296	Contemporary Issues
CNB297	Property Finance, or
EFB210	Finance 1

**Note:** Students who wish to undertake a Finance major should enrol in EFB210

#### Year 3, Semester 1

CNB390	Professional Practice
CNB391	Statutory and Applied Valuation
EFB307	Finance 2
OR	Elective if Finance Major is not taken

#### Year 3, Semester 2

CNB392	Property Investment Analysis
CNB393	Property and Asset Management
CNB394	Property Development
CNB395	Research Methods

#### Year 4

CNB490-1/2	Research Dissertation 1
CNB490-1/2	Research Dissertation 2
EFB202	Business Cycles and Economic Growth

Students must complete the 3 core units above plus

ALL FIVE units from any one of the elective options below

All electives must be approved by the course coordinator prior to year 4 enrolment.

#### Option 1, Valuation and Analysis

EFB318	Portfolio and Security Analysis
CNB494	Advanced Market Research Analysis
CNB491	Rural Valuation
CNB492	Business and Specialist Valuation
CNB493	Advanced Property Valuation and Analysis

#### Option 2, Property and Asset Management

CNB494	Advanced Market Research Analysis
EFB318	Portfolio and Security Analysis
CNB495	Strategic Property and Facilities Management
EFB326	Applied Portfolio Management
MGB207	Human Resource Issues and Strategy

#### Option 3, Development Management

CNB496	Project Management
CNB497	Project Cost and Risk Management
CNB498	Project Human Resource Management
CNB499	International Project Development Management

EFB312 International Finance

#### Option 4, Faculty specified minor

4 Faculty minor electives  
Free choice elective

## ■ Bachelor of Surveying (PS47)

**Award title:** Bachelor of Surveying

**CRICOS code:** 016354J

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Course coordinator:** Mr Kevin Jones

### Professional Recognition

Australia: The Bachelor of Surveying degree meets the requirements for membership of The Spatial Science Institute (Incorporating the Institution of Surveyors, Australia, the Institution of Engineering and Mining Surveyors, Australia and the Mapping Sciences Institute, Australia).

Overseas: Surveying graduates are readily accepted internationally.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Special Course Requirements

Students are required to attend compulsory field practicals off-campus in the Moreton Region and have access to an advanced scientific calculator for use during the course. Students must obtain at least 90 days of industrial experience/practice in a surveying/mapping environment, approved by the course coordinator.

### Course Structure

#### Year 1, Semester 1

MAB100	Mathematical Sciences 1A
PSB412	Computer Skills
PSB414	Professional Skills 1
PSB424	Land Science

#### Year 1, Semester 2

DBB646	Surveying Computations
PCB172	Physics for Surveyors
PSB422	Environmental Science
PSB640	Surveying

#### Year 2, Semester 1

MAB137	Surveying Mathematics 1
PSB610	Government and Law
PSB620	Cadastral Surveying and Mapping
PSB630	Cartography and Digital Mapping

#### Year 2, Semester 2

MAB730	Surveying Mathematics 2
PSB611	Introduction to Urban and Regional Economics
PSB631	Geographic Information Systems 1
PSB641	Engineering Surveying

#### Year 3, Semester 1

CEB259	Engineering Design for Land Development
PSB612	Spatial and Land Information Management
PSB642	Control Surveying and Analysis
	Elective

#### Year 3, Semester 2

PSB613	Land Development Principles and Policies
PSB632	Photogrammetry
PSB643	Geodesy
	Elective

#### Year 4, Semester 1

PSB614	Urban and Rural Design Principles
PSB633	Map Production: Principles and Practice
PSB644	Advanced Geodesy
	Elective/Project

#### Year 4, Semester 2

PSB615	Urban and Rural Design Practice
--------	---------------------------------

PSB621 Advanced Cadastral Surveying  
PSB645 Surveying and Mapping Practice  
Elective/Project

Students in this course must complete 90 days industrial experience before graduating.

#### **Recommended Surveying Electives**

##### **Year 3, Semester 1**

PSB655 Remote Sensing

##### **Year 3, Semester 2**

PSB652 Topics in Land Administration

##### **Year 4, Semester 1**

PSB655 Remote Sensing

PSB654 Topics in Spatial Information Science

PSB650 Project 1

##### **Year 4, Semester 2**

PSB652 Topics in Land Administration

PSB653 Topics in Surveying Engineering

PSB651 Project 2

## ■ Bachelor of Technology (Civil) Conversion Program (CE35)

**Award title:** Bachelor of Technology (Civil)

**CRICOS code:** 049435B

**Location:** Gardens Point

**Course duration (full-time):** 1.5 - 2 years flexible full-time

**Course duration (part-time):** 3 years

**Course coordinator:** Mr Cliff Button

### **Special Entry Requirements**

Applicants must have completed an Advanced Diploma in Civil Engineering (or equivalent qualification).

### **Professional Recognition**

The course is recognised by Engineers Australia.

### **Special course requirements**

A candidate for the degree of Bachelor of Technology (Civil) must obtain at least 45 days of industrial experience in an engineering environment approved by the course coordinator.

### **Advanced Standing**

One year (96 credit points unspecified exemption) given for completion of an approved TAFE Advanced Diploma of Civil Engineering which includes EA859 Statics, EA804 Introductory Strength of Materials, EA805 Load Analysis, EB004 Uni Maths 1, and EB005 Uni Maths 2. Further exemptions may be granted upon consultation with course coordinator.

### **Course Structure**

#### **Year 1, Semester 1**

CEB208 Materials Science

CEB213 Environmental Science

CEB207 Professional Studies 2 (Timber Structures & Earthworks)

CEB209 Geotechnical Engineering 1, or

CEB218 Geotechnical Engineering 1A

#### **Year 1, Semester 2**

CEB215 Structural Engineering 1, or

CEB219 Structural Engineering 1A

CEB217 Hydraulic Engineering 1, or

CEB222 Hydraulic Engineering 1A

CEB214 Professional Studies 3 (Environmental & Transport)

One Elective

#### **Year 2, Semester 1**

CEB328 Investigation Project

Two Electives

#### **Year 2, Semester 2**

EB865 Municipal Design (at Southbank TAFE)

Elective 2 (if not taken Year 2, Semester 1)

#### **Electives, Semester 1**

CEB318 Structural Engineering 2

CEB319 Water Engineering

MAB138 Engineering Statistics and Numerical Methods

#### **Electives, Semester 2**

CEB321 Water and Wastewater Treatment

CEB322 Geotechnical Engineering 2

CEB323 Transport Engineering 1

CEB413 Structural Engineering 3

## ■ Bachelor of Technology (Mechanical) Conversion Program (ME36)

**Award title:** Bachelor of Technology (Mechanical)

**CRICOS code:** 020303G

**Location:** Gardens Point

**Course duration (part-time):** 3 years

**Total credit points:** 288 (including 144 credit points advanced standing)

**Course coordinator:** Dr Vladis Kosse

### **Special Entry Requirements**

Applicants must have completed an Advanced Diploma in Mechanical Engineering (or equivalent qualification) or a Bachelor of Science in an appropriate discipline.

### **Professional Recognition**

This course has been accredited by Engineers Australia.

Graduates are eligible for affiliate membership, providing them with official recognition as an engineering technologist. The three-year degree is recognised by the Singapore Institute of Engineering Technologists.

### **Additional Information**

Candidates with an Advanced Diploma in Mechanical Engineering (or equivalent) or a relevant tertiary qualification (eg Bachelor of Science or CAE Diploma in Mechanical Engineering) will automatically receive credit of 144 credit points.

### **Part-time Study**

Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment.

### **Special Course Requirements**

Students must obtain at least 50 days of industrial experience with a minimum of 25 days in a engineering environment approved by the course coordinator.

### **Full-time Course Structure**

#### **Year 1, Semester 1**

BSB115 Management, People and Organisations

EEB220 Electrical Engineering 2M

MAB132 Engineering Mathematics 1B

MMB211 Mechanics 1

#### **Year 1, Semester 2**

MMB212 Mechanics 2

MMB232 Materials Technology

MMB252 Thermofluids

MMB312 Mechanical Measurement

#### **Year 2, Semester 1**

MGB207 Human Resource Issues and Strategy

MMB302 Project 2T

MMB371 Manufacturing Processes

MMB381 Design of Mechanical Components and Machines

### **Part-time Course Structure**

#### **Year 1, Semester 1**

MAB132 Engineering Mathematics 1B

MMB211 Mechanics 1

#### **Year 1, Semester 2**

BSB115 Management, People and Organisations

MMB232 Materials Technology

#### **Year 2, Semester 1**

EEB220 Electrical Engineering 2M

MMB371 Manufacturing Processes

#### **Year 2, Semester 2**

MMB252 Thermofluids

MMB312 Mechanical Measurement

#### **Year 3, Semester 1**

MGB207 Human Resource Issues and Strategy

MMB381 Design of Mechanical Components and Machines

#### **Year 3, Semester 2**

MMB212 Mechanics 2

MMB302 Project 2T

## ■ Advanced Diploma in Engineering (Civil) with Honours/Bachelor of Technology (Civil) (CE35)

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Course coordinator:** Mr Cliff Button

### Special Course Requirements

A candidate for the degree of Bachelor of Technology (Civil) must obtain at least 45 days of industrial experience/practice in an engineering environment approved by the course coordinator.

### Course Structure

#### Please Note:

SBIT: 1st Trimester - February-May

2nd Trimester - June-July

3rd trimester - August-December

QUT: 1st Semester - February-July

2nd Semester - July-October

#### Year 1, Trimester 1 - SBIT

NBB012 Engineering Drawing Interpretation 1

EA061 Engineering Graphics

EA050 Engineering Computing

EA859 Statics

EB004 University Mathematics 1

EA860 Surveying Computations

EA861 Surveying Principles

NBB002 Occupational Health and Safety

#### Year 1, Trimester 2 - SBIT

NNM006 Computer Aided Drafting A

EA804 Introductory Strength of Materials

EB005 University Mathematics 2

EA815 Drafting Steelwork 1

#### Year 1, Trimester 3 - SBIT

EA065 Computer Aided Drafting B

EA820 Engineering Surveying 1

EA812 Drafting Reinforced Concrete 1

NBB005 Quality Concepts

EA071 Planning, Estimating and Costing

EA027 Presenting Reports

EA033 Writing Workplace Documents

EA850 Civil Construction Techniques A

EA851 Civil Construction Techniques B

EB851 Environment Engineering

EA805 Load Analysis

EB006 University Mathematics 3, or

EB870 Engineering Surveying

#### Year 2, Trimester 1 - SBIT

EA813 Drafting Roads 1 (Rural)

EB860 Geometric Road Design

EA810 Drafting Pipelines

#### Year 2, Semester 1 - QUT

CEB208 Materials Science

CEB213 Environmental Science

#### Year 2, Trimester 3 - SBIT

EB854 Stormwater Drainage

EB071 Project Management

EA068 Three Dimensional Drawing - CAD

EA066 Computer Aided Drafting C - CAD C

EB850 Civil Estimating

EB878 Civil Engineering Computer Applications

#### Year 2, Semester 2 - QUT

CEB215 Structural Engineering 1, or

CEB219 Structural Engineering 1A

Completion point for Advanced Diploma (Civil)/Hons

#### Year 3, Semester 1 - QUT

CEB207 Professional Studies 2 (Timber Structures & Earthworks)

CEB209 Geotechnical Engineering 1, or

CEB218 Geotechnical Engineering 1A

CEB328 Investigation Project

One Elective from list below

#### Year 3, Trimester 3 - SBIT

EB865 Municipal Design

#### Year 3, Semester 2 - QUT

CEB214 Professional Studies 3 (Environmental & Transport)

CEB217 Hydraulic Engineering 1, or

CEB222 Hydraulic Engineering 1A

CEB328 Investigation Project

or One Elective for those who have completed CEB328

#### Electives, Semester 1

CEB318 Structural Engineering 2

CEB319 Water Engineering

MAB138 Engineering Statistics and Numerical Methods

#### Electives, Semester 2

CEB321 Water and Wastewater Treatment

CEB322 Geotechnical Engineering 2

CEB323 Transport Engineering 1

CEB413 Structural Engineering 3

**Note:** CEB328 Investigation Project may be taken in year 3 in either semester 1 or 2.

## ■ Advanced Diploma in Engineering (Mechanical)/Bachelor of Technology (Mechanical) (ME37)

**Award title:** Bachelor of Technology (Mechanical)

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Total credit points:** 288 (including 120 credit points advanced standing)

**Course coordinator:** Dr Vladis Kosse

### Special Course Requirements

Students must obtain at least 50 days of industrial experience with a minimum of 25 days in an engineering environment approved by the course coordinator.

### Course Structure

#### Year 1, Trimester 1 - TAFE

NBB02 Occupational Health and Safety

EA061 Engineering Graphics

EA050 Engineering Computing

EA011 Science

EA002 Math A

EA001 Calculus

EA064 Computer-Aided Design A

#### Year 1, Trimester 2 - TAFE

NNB06 Machining

NBB07 Hand and Power Tools

EA010 Materials Science

EA701 Engineering Drawing - Detail

EA859 Statics

EB004 Uni Math 1

EA065 Computer-Aided Design B

#### Year 1, Trimester 3 - TAFE

EA804 Introduction to Strength of Materials

EB650 Materials for Engineering

EA704 Mechanical Systems

EA772 Introduction to Dynamics

EB005 Uni Math 2

NNM09 CNC Machining

#### Year 2, Trimester 1/Semester 1 - TAFE/QUT

EA790 Manufacturing Processes

NE160 Electrical Principles

MAB132 Engineering Mathematics 1B

MMB211 Mechanics 1

Elective

#### Year 2, Trimester 2/Semester 2 - TAFE/QUT

EB771 Advanced Dynamics

EA060 Engineering Design Concepts +

EB704 Mechanical Design

MMB232 Materials Technology

MAB136 Engineering Statistics

EEB112 Electrical and Computer Engineering 1

#### Year 2, Trimester 3 - TAFE

EB714 Thermodynamics

EB070 Engineering Management

#### Year 3, Semester 1 - QUT

EEB220 Electrical Engineering 2M

MMB300 Project 2T

MMB371 Manufacturing Processes

MMB381 Design of Mechanical Components and Machines

***Year 3, Semester 2 - QUT***

MMB252 Thermofluids

MMB212 Mechanics 2

MMB312 Mechanical Measurement

MMB376 Professional Practice (Engineering Management)

**Note:** MMB, EEB and MAB units = QUT units.

## OVERVIEW

Business is QUT's largest faculty, attracting over a quarter of the University's enrolments, and is also one of the largest business faculties in Australia.

Through various collaborations with industry and professional bodies, we are a key player in the business community with extensive local and international links.

We know what employers want in today's business graduates because we ask them. We regularly involve representatives from the business community in the development and review of our courses. And we employ part-time lecturers and tutors currently working in business.

As a student, you will be encouraged to undertake real-world projects to help you develop your own strong links. And you can take advantage of our extensive exchange program and our international study tours options.

This strong practical component of our courses is complemented by our academic excellence. The diversity of interests, experiences, and expertise of our locally and internationally drawn academic staff creates a rich learning and research environment.

You will graduate with the business acumen and entrepreneurial skills needed to turn any good idea into a successful enterprise within today's competitive international environment. And you will be able to anticipate the business challenges and opportunities of the future.

### Undergraduate

We recognise that in the ever-changing world of business you need a solid foundation in business principles along with the flexibility to pursue studies in multiple areas. Our Bachelor of Business includes eight core units which will equip you with generic skills and competencies for today's business environment. You also have the opportunity to tailor your studies to suit your own needs and career aspirations. Choose from majors in:

- Accountancy
- Advertising
- Banking & Finance
- Economics
- Electronic Business
- Human Resource Management
- International Business
- Management
- Marketing
- Public Relations

Having nominated a major, you can then pursue your chosen discipline in more depth with an extended major or specialisation. Alternatively, you can add a particular flavour or emphasis to your degree by choosing a double major or complementary specialisation. You can also choose elective units from Business or other faculties within QUT. We also offer a number of double degree options.

You can start studying before choosing your major by commencing your degree at our Carseldine campus. After completing your first year of core subjects, you then transfer to the major of your choice at Gardens Point. From 2005, the Bachelor of Business is also available at the Caboolture campus.

### Postgraduate

There are many reasons for considering postgraduate study. Whether you're looking for career advancement, a change in career direction, personal development, or research opportunities we can help you with postgraduate studies to suit your needs. Choose from:

- Honours
- Graduate Certificate

- Masters (Coursework & Research)
- MBA
- PhD

### Coursework Programs

Our postgraduate programs allow you to enhance your career options by building on existing qualifications, or change careers through study in a different field. For non-degree holders, we offer alternative pathways that build on your work experience.

You can choose from a focused, four-subject Graduate Certificate to a 12-subject coursework Masters qualification in:

- Accountancy
- Advertising
- Applied Finance
- Arts & Cultural Management
- Banking & Finance
- Business Administration (MBA)
- Human Resource Management
- Integrated Marketing Communication
- International Business
- Management
- Marketing
- Philanthropy & Nonprofit studies
- Public Management
- Public Relations

### Innovative MBA Programs

We also offer one of Australia's most innovative MBAs, which was recently one of only three Australian MBAs ranked in the top 100 worldwide by the Financial Times in its annual rankings of full-time MBA programs. We were also equal first in Australia to receive Association of MBAs (AMBA) accreditation.

The MBA is available in a variety of delivery options including our International MBA, which allows students to complete one semester of study overseas. Our Executive MBA is a tailored program for more experienced managers offered in an intensive, flexibly delivered format.

### Extensive Research Opportunities

As well as being highly respected for the quality of our postgraduate coursework teaching, the Faculty also provides extensive research opportunities.

Our researchers engage in collaborative, cross disciplinary research that impacts on the domestic and international business communities. The Australian Centre for Business Research, housed within the Business Faculty, links QUT's business research strengths to solving industry, government and community problems.

We also offer professional development programs, and contract research and consultancy services. And because we believe in giving something back to the community, our staff individually and in groups engage in a wide range of community service activities.

We are a business faculty for the real world.

## SENIOR STAFF

### Faculty office

*Dean:* Professor P. Little, LLB LLM *Qld*, Phd *Bond*

*Assistant Dean/Director of Accreditations:* Associate Professor L. Simpson, DipT *Mt Gravatt CAE*, BEd *Brisbane CAE*, MEd *James Cook*

*Director of Research & Development:* Professor B. Kabanoff, BA(Hons) *Qld*, PhD *Flinders*

*Director of Internationalisation:* Dr C. Dalglish, BA *Natal*, DipSduc Admin *Lond*, MSc PhD *Cran*

*Director of Undergraduate Studies:* A. Paltridge, BA BEc(Hons) MEcSt *Qld*, GradCert(HigherEd) *Griff*

*Director of Graduate Studies:* Associate Professor J.L. Everett, BA *UM*, MA PhD *UC*

*Director of QUT Collaborative Centre of Philanthropy & Nonprofit Studies:* Professor M. McGregor-Lowndes, BA LLB *Qld*, MAdmin PhD *Griff*, Solicitor of Supreme Court of Queensland and High Court of Australia

*Academic Services Manager:* M. Cole, BEc *Tas*, GAICD

*Business Services Manager:* C. Kane, MBA *Griff*

### **Brisbane Graduate School of Business**

*Head of School:* Professor E. Douglas, BCom(Hons) MCom *Newcastle*, PhD *Simon Fraser*

*Director of MBA Program:* Dr C. Hatcher, BA *Qld*, BEd *Brisbane CAE*, MA(Hons) *CSU*, PhD *QUT*

*Professor:* P. Davidsson, MSc Licentiate of Economics PhD *Stockholm School of Economics*

*Associate Professor:* S. Dann, BA MPubAdmin PhD *Qld*

### **School of Accountancy**

*Acting Head:* Associate Professor C. Ryan, BCom DipEd MFinMgt *Qld*, PhD *Griff*, FCPA

*Professor:* R. Willett, BA(Hons) *UEA*, PhD *Aberdeen*, FCA (ICAEW)

*Associate Professors:*

P. Best, BCom(Hons) *Qld*, MEngSc *N'cle(NSW)*, PhD *QUT*, FCPA, ICA, MACS

J. Goodwin, BBus *Massey*, MEc *Adel*, PhD *Lincoln*, IIA, CPA, ICANZ

### **School of Advertising, Marketing and Public Relations**

*Head:* Professor C. Patti, BA MS PhD *Illinois*

*Associate Professor:* J.L. Everett, BA *Michigan*, MA PhD *Colorado*

### **School of Economics and Finance**

supports four Major Programs which undertake large scale, high profile research in:

- Applied Modelling in Economics and Finance Research Program;
- Service Leadership and Innovation Research Program;
- Work Effectiveness Research Program; and
- Work and Industry Futures Research Program.

The Faculty fosters a vibrant research community that achieves excellence in targeted areas of business research and supports collaborative, cross-disciplinary and new research to inform and serve business, industry, government and the community. The Centre supports all postgraduate research study undertaken within the Faculty.

*Director:* Professor Boris Kabanoff, BA(Hons) PhD *Flinders*, FANZAM, MAPS

### **Centre for Philanthropy and Nonprofit Studies**

The Centre for Philanthropy and Nonprofit Studies was established in 2001 as a QUT Collaborative Centre, and aims to bring to the community the benefits of teaching, research, technology and service relevant to philanthropic and nonprofit communities.

The Centre builds on the work of the Program on Nonprofit Corporations (PONC) established in the School of Accountancy within the Faculty of Business in 1991. Between 1991 and 2001, the Program involved various QUT staff in research, consultancy and community service in the areas of law, tax, management, marketing, fundraising and ethics of nonprofit and philanthropic organisations.

*Director:* Professor Myles McGregor-Lowndes, BA, LLB *Qld*, MAdmin, PhD *Griff*, JP, Solicitor of Supreme Court of Queensland and High Court of Australia

## **RESEARCH CENTRES**

### **Australian Centre for Business Research**

The Australian Centre for Business Research, established in 2003, is a Centre of excellence in business research in Australia and conducts leading research that impacts on both the domestic and international research and business communities. The Centre

## ■ Master of Applied Finance (BS98)

**Award title:** Master of Applied Finance

**CRICOS code:** 027283F

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett,  
Director of Graduate Studies

**Discipline coordinator:** Mr Mark Christensen

### Course Discontinuation

Students should note that the University has approved a renaming and recoding of this course from semester 1, 2005 to BS93

Master of Business (Applied Finance). However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration. For course structure information please refer to the BS93 Master of Business (Applied Finance) course entry.

## ■ Master of Business (Advertising) (BS93)

**Award title:** Master of Business (Advertising)

**CRICOS code:** 002329C

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett

**Discipline coordinator:** Mr Bill Proud

### Other Majors

See also separate entries for the following majors in this course: Human Resource Management, Integrated Marketing Communication, Marketing, Philanthropy and Nonprofit Studies, Public Management, and Public Relations.

### Entry Requirements

An undergraduate degree or equivalent with an overall minimum GPA of 4 (on a 7 point scale) in Business, Humanities, or Social Sciences. Degrees from other disciplines will be considered on a case by case basis.

International students undertaking the Master of Business must meet English language proficiency requirements.

### Course Design

All students will undertake eight major core units (96 credit points), a project (24 credit points) and two elective units (24 credit points), or four elective units (48 credit points).

This major may be taken over three semesters full-time (including a summer semester) or six semesters part-time (including two summer semesters). In principle a student would be able to complete this course in three consecutive semesters, depending on the availability of units.

Students who are enrolled in the BS93 Master of Business who wish to exit early from the course and graduate with a Graduate Diploma in Business, may do so after they have successfully completed eight (8), 12 credit point units, where a minimum of six (6) units are within the same discipline area, approved by the Course Coordinator.

ITN252 Process Engineering  
ITN255 Knowledge Management  
ITN266 Principles Of Information Management  
ITN272 Information Technology Project Management  
ITN330 Information Issues and Policy

### Research Studies

Required Units:  
BSN501 Dissertation  
BSN502 Research Methodology  
Plus either  
AMN403 Marketing and Survey Research, or  
BSN412 Qualitative Research and Analytical Techniques  
Elective Units:  
Students choose 24 credit points of elective units in chosen area of research (selected from required and elective units in the GS40 MBA concentration and minor list, or other units offered within the Faculty of Business and other Faculties at QUT, with the permission from the MBA Director)

## ■ Master of Business Administration (MBA) (GS40)

**Award title:** Master of Business Administration

**CRICOS code:** 003468F

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters. The course must be completed within a maximum time period of five years.

**Course duration (part-time):** 6 semesters. The course must be completed within a maximum time period of five years.

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Design

Students must complete 15 core units and 2 integrative core units of 6 credit points each and a further 42 credit points of elective units, which may be either 6 or 12 credit point units.

In line with other leading business schools, BGSB offers six credit point units, delivered in seven-week modules giving students the flexibility to commence study at the beginning or mid-point of any semester, offering six different entry points each year.

### Course Structure

Students must complete the following 15 core units:  
GSN401 Managing in the Global Business Environment  
GSN403 Understanding Data  
GSN404 Financial Statements Analysis 1  
GSN405 Strategic Management  
GSN406 Human Resource Management Issues  
GSN407 Business Communication  
GSN408 Fundamentals of Marketing Management  
GSN409 Organisational Behaviour 1  
GSN410 Entrepreneurship  
GSN412 Business Law 1  
GSN413 Financial Management 1

GSN415	Understanding Leadership
GSN460	Creative Problem Solving
GSN490	Managing Technological Innovation
GSN491	Economics in Business 1
	Plus the following 2 Integrative core units:
GSN416	Business Plans 1
GSN473	Corporate Accountability and Governance
	Plus 42 credit points of elective units which may be undertaken as a concentration/minor

## MBA Concentrations and Minors

### Accounting

	Minor
	Core Unit:
GSN404	Financial Statements Analysis 1
	Required Unit:
GSN427	Financial Statement Analysis 2
	Elective Units:
	Choose 12 credit points from list of electives below
	Concentration
	Core Unit:
GSN404	Financial Statements Analysis 1
	Required Units:
GSN427	Financial Statement Analysis 2
	Elective Units:
	Choose 24 credit points from list of electives below
	Elective List:
AYN414	Cost Accounting
AYN417	Financial Accounting 2
AYN418	Financial Accounting 3
AYN424	International Accounting
AYN439	Management Accounting
AYN443	Electronic Commerce Cycles

### Arts & Cultural Management

	Minor
	Elective Units:
	Choose 24 credit points from list of electives below
	Concentration
	Elective Units:
	Choose 36 credit points from list of electives below
	Elective List:
GSN225	Business Development in Creative Industries
GSN226	Arts Policy and Strategy
GSN227	Arts and Cultural Management
GSN228	Marketing Arts and Culture
GSN488	Fundraising Development Principles*
GSN489	Fundraising Development Techniques*

\*These units replace GSN232 Fundraising Principles, but are subject to approval.

### Business Communication

	Minor
	Core Unit:
GSN407	Business Communication
	Required Unit:
GSN417	Effective Advocacy for Managers
	Elective Units:
	Choose 12 credit points from list of electives below
	Concentration
	Core Unit:
GSN407	Business Communication
	Required Unit:
GSN417	Effective Advocacy for Managers
	Elective Units:
	Choose 24 credit points from list of electives below
	Elective List:
GSN457	Organisational Communication and Influence
GSN462	Negotiation Strategies
AMN465	Public Relations Management
QCD110	Communication for Business 1
QCD210	Communication for Business 2

### Corporate Governance

	Minor
	Core Units:
GSN404	Financial Statements Analysis 1
GSN412	Business Law 1
	Required Units:

GSN472	Legal Principles of Corporate Governance
GSN473	Corporate Accountability and Governance
	Concentration
	Core Units:
GSN404	Financial Statements Analysis 1
GSN412	Business Law 1
	Required Units:
GSN472	Legal Principles of Corporate Governance
GSN473	Corporate Accountability and Governance
	Elective Units:
	Choose 12 credit points from list of electives below
	Elective List:
AYN412	Company Law
GSN224	Corporate Philanthropy
GSN233	Special Topic in Philanthropy and Nonprofit Studies
GSN405	Strategic Management
GSN415	Understanding Leadership
GSN422	Business Law 2
GSN427	Financial Statement Analysis 2
GSN456	Personal Development and Ethics for Managers
GSN480	Sustainable Development and Competitive Advantage
GSN483	Ethics for Philanthropic and Nonprofit Organisations
GSN484	Management for Philanthropic and Nonprofit Organisations
GSN485	Legal Issues for Philanthropic and Nonprofit Organisations
GSN486	Accounting Issues for Philanthropic & Nonprofit Organisations

### Economics

	Minor
	Core Unit:
GSN491	Economics in Business 1
	Required Unit:
GSN492	Economics in Business 2*
	Elective Units:
	Choose 12 credit points from list of electives below
	Concentration:
	Core Units:
GSN491	Economics in Business 1
	Required Units:
GSN492	Economics in Business 2*
	Elective Units:
	Choose 24 credit points from list of electives below
	Elective List:
GSN454	Economics of Information and E-Commerce
BSN506	Econometric Methods
EFN410	Economic and Financial Modelling
EFN500	Contemporary Macroeconomic Theories
EFN502	Developments in Microeconomic Theories
	Students undertaking EFN500 and EFN502 would need to have completed the equivalent of a second year undergraduate Economics degree at a recognised university. This would involve completing intermediate undergraduate macro and micro economics at the very least.
	*this unit offering is subject to final approval

### Electronic Business

	Minor
	Core Unit:
GSN490	Managing Technological Innovation
	Required Units:
GSN435	Electronic Commerce
GSN470	E-Business
	Elective Units:
	Choose 6 credit points from list of electives below
	Concentration
	Core Unit:
GSN490	Managing Technological Innovation
	Required Units:
GSN435	Electronic Commerce
GSN470	E-Business
	Elective Units:
	Choose 18 credit points from list of electives below
	Elective List:
AYN446	The Law of E-Commerce
AYN448	Management of Electronic Business Processes
GSN447	Strategic Internet Marketing 1
GSN448	Strategic Internet Marketing 2
GSN454	Economics of Information and E-Commerce
GSN466	Technology Infrastructure Management

GSN467	Knowledge Management
GSN469	Internet Applications
ITN260	E-Commerce Site Development
ITN266	Principles Of Information Management
ITN272	Information Technology Project Management

### Entrepreneurship

	Minor
	Core Unit:
GSN410	Entrepreneurship
	Required Units:
GSN416	Business Plans 1
GSN420	New Venture Strategy
	Elective Units:
	Choose 6 credit points from list of electives below
	Concentration
	Core Units:
GSN410	Entrepreneurship
	Required Units:
GSN416	Business Plans 1
GSN420	New Venture Strategy
	Elective Units:
	Choose 18 credit points from list of electives below
	Elective List:
GSN426	Business Plans 2
GSN429	New Venture Marketing
GSN430	New Venture Resourcing
GSN431	New Venture Growth and Transitions
GSN432	New Venture Leadership and HRM
GSN434	Venture Capital
GSN479	Spreadsheet Modelling for Managers

### Finance

	Minor
	Core Units:
GSN413	Financial Management 1
GSN491	Economics in Business 1
	Required Units:
GSN423	Financial Management 2
	Elective Units:
	Choose 6 credit points from list of electives below
	Concentration
	Core Units:
GSN413	Financial Management 1
GSN491	Economics in Business 1
	Required Units:
GSN423	Financial Management 2
	Elective Units:
	Choose 18 credit points from list of electives below
	Elective List:
GSN430	New Venture Resourcing
GSN434	Venture Capital
GSN479	Spreadsheet Modelling for Managers
GSN492	Economics in Business 2*
EFN401	Advanced Financial Institutions Management
EFN412	Advanced Managerial Finance
EFN414	International Finance
EFN415	Security Analysis
EFN416	Treasury and Portfolio Management
EFN417	An Introduction to International Finance
EFN501	Corporate and Commercial Lending
EFN506	Advanced International Finance
	*this unit offering is subject to final approval

### Health Services Management

	Minor
	Core Units:
GSN491	Economics in Business 1
	Required Units:
PUN692	Health Care Delivery Systems
	Elective Units:
	Choose 6 credit points from list of electives below
	Concentration
	Core Units:
GSN491	Economics in Business 1
	Required Units:
PUN692	Health Care Delivery Systems
	Elective Units:
	Choose 18 credit points from list of electives below

	Elective List:

  - EFN505 Financial Risk Management
  - EFN507 Advanced Capital Budgeting
  - BSN404 Project 1
- Plus 24 credit points of EFN-coded elective units

### ■ Master of Commerce (BS94)

**Award title:** Master of Commerce

**CRICOS code:** 020304G

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett, Director of Graduate Studies

**Discipline coordinators:** Accounting: Associate Professor Peter Best. Banking and Finance: Mr Peter Whelan

### Course Discontinuation

Students should note that the University has approved a renaming and recoding of this course from semester 1, 2005. The Accounting major of this course has been renamed and restructured to BS93 Master of Business (Forensic Accounting) and the Banking and Finance major of this course has been renamed and recoded to BS93 Master of Business (Financial Management). However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration. For course structure information please refer to the relevant course entries for BS93 Master of Business in Forensic Accounting and Financial Management.

### ■ Master of Entrepreneurship and Innovation (GS45)

**Award title:** Master of Entrepreneurship and Innovation

**CRICOS code:** 043122A

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters. The course must be completed within a maximum time period of five years.

**Course duration (part-time):** 6 semesters. The course must be completed within a maximum time period of five years.

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete 11 core and 7 required units from the MBA (Entrepreneurship) program, plus 36 credit points of masters level coursework units in a subject area pertaining to their proposed technology innovation.

Students must obtain approval from the MBA Director before undertaking particular elective units. In all cases students will need to convince the MBA Director that the electives chosen are related to the proposed new venture.

The MBA units require the development of strategic, marketing, and financial plans for a new venture prior to the completion of a formal business plan.

The program is inherently flexible in that units may be taken in a variety of possible sequences, depending on student interest, and availability of the technology units in any given semester. Note that core or elective units may be taken in earlier or later teaching periods (if pre-requisites are respected) to accommodate the schedule of offering for a particular unit/s.

### Advanced Standing

Applicants who have already completed a Masters or Doctoral Degree in their technology area may be awarded up to 36 credit points of prior study upon admission to the Master of Entrepreneurship and Innovation program for relevant postgraduate technology units taken within the past five years.

### Course Structure

*The following eleven (11) MBA core units must be completed:*

- GSN401 Managing in the Global Business Environment
- GSN402 Strategic Use of Information Technology
- GSN404 Financial Statements Analysis 1
- GSN405 Strategic Management

GSN408	Fundamentals of Marketing Management
GSN410	Entrepreneurship
GSN411	Economics of Strategy 1
GSN412	Business Law 1
GSN413	Financial Management 1
GSN415	Understanding Leadership
GSN416	Business Plans 1

**Plus the following seven (7) required units:**

GSN418	Marketing Strategy Development
GSN420	New Venture Strategy
GSN426	Business Plans 2
GSN427	Financial Statement Analysis 2
GSN429	New Venture Marketing
GSN430	New Venture Resourcing
GSN460	Creative Problem Solving

**Technology Innovation Elective Units**

Plus an additional 36cp Masters level coursework units in a subject area pertaining to a proposed technology innovation.

The postgraduate coursework in a technology field may be at the Masters level or higher, depending on the prior degrees already held by the individual.

## ■ Master of Entrepreneurship and Innovation/Master of Business Administration (GS49)

**Award title:** Master of Entrepreneurship and Innovation/Master of Business Administration

**CRICOS code:** 046046F

**Location:** Gardens Point

**Course duration (full-time):** 5 semesters. The course must be completed within a maximum time period of seven years.

**Course duration (part-time):** 10 semesters. The course must be completed within a maximum time period of seven years.

**Total credit points:** 240

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Discontinuation

Students should note that this course will be discontinued.

However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete 16 core and 7 required units, of 6 credit points each from the MBA (Entrepreneurship) program, 36 credit points of masters level coursework units in a subject area pertaining to a proposed technology innovation plus a further 66 credit points of postgraduate business elective units.

Students must obtain approval from the MBA Director before undertaking particular elective units. In all cases students will need to convince the MBA Director that the electives chosen are related to the proposed new venture.

Students may enrol simultaneously or sequentially in the Master of Entrepreneurship and Innovation and the MBA program and complete both awards in a minimum of five semesters full time.

The postgraduate coursework in a technology field may be at the Masters level or higher, depending on the prior degrees already held by the individual.

### Advanced Standing

Applicants who have already completed a Masters or Doctoral Degree in their technology area may be awarded up to 36 credit points of prior study upon admission to the Master of Entrepreneurship and Innovation program for relevant postgraduate technology units taken within the past five years.

### Course Structure

The following sixteen (16) MBA core units must be completed:

GSN401	Managing in the Global Business Environment
--------	---

GSN402	Strategic Use of Information Technology
GSN403	Understanding Data
GSN404	Financial Statements Analysis 1
GSN405	Strategic Management

Plus students must undertake 66 credit points of postgraduate business elective units

Plus students must undertake 36 credit points of masters level coursework units in a subject area pertaining to a proposed technology innovation. Depending on the subject area of the proposed technology innovation, these electives may be taken from any Faculty, including Business.

The postgraduate coursework in a technology field may be at the Masters level or higher, depending on the prior degrees already held by the individual.

## ■ Master of International Business (BS66)

**Award title:** Master of International Business

**CRICOS code:** 046045G

**Location:** Gardens Point

**Course duration (full-time):** 4 semesters

**Course duration (part-time):** 7 semesters (6 semesters part-time and 1 semester full-time)

**Total credit points:** 192

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett, Director of Graduate Studies

**Discipline coordinator:** Mr Gary Chittick

### Course Discontinuation

Students should note that the University has approved a renaming and recoding of this course from semester 1, 2005 to BS33 Master of Business (International Business) Advanced. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration. For course structure information please refer to the BS33 Master of Business (International Business) Advanced course entry.

## ■ Master of International Business Studies (BS65)

**Award title:** Master of International Business Studies

**CRICOS code:** 046048D

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett, Director of Graduate Studies

**Discipline coordinator:** Mr Gary Chittick

### Course Discontinuation

Students should note that the University has approved a renaming and recoding of this course from semester 1, 2005 to BS93 Master of Business (International Business). However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration. For course structure information please refer to the BS93 Master of Business (International Business) course entry.

## ■ Executive Master of Business

### Administration (GS50)

**Award title:** Executive Master of Business Administration

**Location:** Gardens Point

**Course duration (full-time):** 20 months (intensive mode) commencing November

**Course coordinator:** Dr Caroline Hatcher

### Course Design

Students are required to undertake 15 core units and 2 integrative core units of 6 credit points each and a further 42 credit points of elective units.

The intake for the EMBA is in November and the program runs for 20 months. Classes are scheduled once a month over a Friday to Sunday weekend session, with 20 hours of classes per weekend session each month of the program plus two residential sessions of 10-14 days in January of each year. The intensive block sessions allow the students to schedule some dedicated time to study with minimal interference to their business commitments.

Two intensive sessions of 13-15 days are scheduled each January. The final intensive session includes an International Study Tour to one China.

### Course Structure

Students must complete the following 15 core units:

- GSN401 Managing in the Global Business Environment
  - GSN403 Understanding Data
  - GSN404 Financial Statements Analysis 1
  - GSN405 Strategic Management
  - GSN406 Human Resource Management Issues
  - GSN407 Business Communication
  - GSN408 Fundamentals of Marketing Management
  - GSN409 Organisational Behaviour 1
  - GSN410 Entrepreneurship
  - GSN412 Business Law 1
  - GSN413 Financial Management 1
  - GSN415 Understanding Leadership
  - GSN460 Creative Problem Solving
  - GSN490 Managing Technological Innovation
  - GSN491 Economics in Business 1
- Plus two Integrative core units:
- GSN416 Business Plans 1
  - GSN473 Corporate Accountability and Governance
- Plus the following 42 credit points of Elective Units:
- GSN425 Leadership Development
  - GSN428 International Study Tour
  - GSN445 Special Topic 2
  - GSN455 Special Topic 3
  - GSN462 Negotiation Strategies
  - GSN474 Strategy Planning & Development
  - GSN480 Sustainable Development and Competitive Advantage

Students may choose other electives available in the weekday delivery schedule.

Concentration and minors may be attainable through the choice of elective units other than those listed above. Concentrations and minors are listed within the GS40 Master of Business Administration course structure.

## ■ International Master of Business

### Administration (GS44)

**Award title:** Master of Business Administration

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters. Normally, the course can be completed in 14-16 months.

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Caroline Hatcher

### Course Design

Students must complete 144 credit points. The IMBA course structure is equivalent to that of the existing MBA structure, where the equivalent of one semester full-time study is undertaken at three institutions.

Students undertake studies at QUT and select two of the following partner institutions: ESC-Grenoble, (France); Shanghai Jiao Tong, (China); Copenhagen Business School, (Denmark); Jönköping International Business School, (Sweden); and the Indian Institute of Management-Bangalore, (India).

Each student will be required to write a major paper (12cp) of Master's level standard relating to doing business with each of the overseas countries in which they study, under the supervision of a QUT academic, and submit it for evaluation by that QUT academic for credit to their MBA program.

### Course Structure

**Units to be completed at QUT:**

Core Units:

- GSN401 Managing in the Global Business Environment
- GSN403 Understanding Data
- GSN404 Financial Statements Analysis 1
- GSN412 Business Law 1
- GSN460 Creative Problem Solving
- GSN490 Managing Technological Innovation

Plus 2 Integrative Core units:

- GSN416 Business Plans 1
  - GSN473 Corporate Accountability and Governance
- Plus 2 Required units:

- GSN221 Special Topic 1
- GSN222 Special Topic 2, or
- IBN403 Business in Asia
- IBN404 Business in Europe

**Units to be completed at other universities:**

Core Units:

- GSN405 Strategic Management
- GSN406 Human Resource Management Issues
- GSN407 Business Communication
- GSN409 Organisational Behaviour 1
- GSN408 Fundamentals of Marketing Management
- GSN410 Entrepreneurship
- GSN413 Financial Management 1
- GSN415 Understanding Leadership
- GSN491 Economics in Business 1

Plus Elective units:

18 credit points of elective units

#units are subject to availability at partner institution.

Students may need to complete some of these units at QUT and/or may take the following units at the respective partner institution, in order to meet the program requirements:

- GSN401 Managing in the Global Business Environment
- GSN403 Understanding Data
- GSN404 Financial Statements Analysis 1

## ■ Graduate Diploma in Advanced

### Accounting (BS70)

**Award title:** Graduate Diploma in Advanced Accounting

**CRICOS code:** 003481J

**Location:** Gardens Point

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett

**Discipline coordinator:** Associate Professor Peter Best (Accountancy); Mr Peter Whelan (Banking & Finance)

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete eight units (96 credit points total) in one of the following Study Areas:

#### Accounting Study Area:

Students must complete a minimum of six units from Lists 1, 2, and 3. \* All students are required to complete the four Accounting core units (48 credit points) as shown in List 1. Up to four units are to be selected from List 2. Up to two general electives may be taken from postgraduate units offered by other schools or faculties with the approval of the Subject Area Coordinator.

\*In special cases where students need 'top-up' units to meet Institute of Chartered Accountants in Australia or CPA Australia requirements, the Subject Area Coordinator may approve up to four units from List 3. In such cases, students must provide evidence of a qualifications assessment from the relevant professional body. Students without knowledge of Australian professional standards and legislation should contact the Subject Area Coordinator for enrolment advice.

#### Banking and Finance Study Area:

Students must complete a minimum of six units from List 4. Up to two postgraduate units (24 credit points) may be selected as general electives subject to the approval of the Subject Area Coordinator.

### Unit Lists

#### List 1 Accounting Core Units

- AYN455 Electronic Business Foundations
- AYN505 Dissecting Financial Statements
- AYN506 Strategic Management Accounting
- AYN507 Governance Issues in Accounting

#### List 2 Accounting Elective Units

- AYN405 Advanced Tax Planning
- AYN413 Information Systems Governance and Audit
- AYN419 Financial Modelling and Business Valuations
- AYN424 International Accounting
- AYN432 Public Sector Accounting and Governance
- AYN454 Forensic Accounting and Investigation
- AYN449 Enterprise Systems
- AYN453 Financial Forensics and Business Intelligence

#### List 3 Professional Accounting Units

- Enrolment in these units requires the prior approval of the Subject Area Coordinator
- AYN412 Company Law
- AYN418 Financial Accounting 3
- AYN438 Taxation Law and Practice
- AYN443 Electronic Commerce Cycles, or
- Another unit approved by the Subject Area Coordinator

#### List 4 Banking and Finance Units

- EFN401 Advanced Financial Institutions Management
- EFN410 Economic and Financial Modelling
- EFN416 Treasury and Portfolio Management
- EFN500 Contemporary Macroeconomic Theories
- EFN501 Corporate and Commercial Lending
- EFN502 Developments in Microeconomic Theories
- EFN504 Finance Honours
- EFN505 Financial Risk Management
- EFN506 Advanced International Finance
- EFN507 Advanced Capital Budgeting

**Note:** All units may not be offered every year.

## ■ Graduate Diploma in Applied Finance (BS96)

**Award title:** Graduate Diploma in Applied Finance

**CRICOS code:** 027282G

**Location:** Gardens Point

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett

**Discipline coordinator:** Mr Mark Christensen

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete eight units (96 credit points).

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution will be undertaken in conjunction with and on approval of the Director of Graduate Studies.

### Professional Recognition

Provided the student has an undergraduate degree, and a marketing unit is taken as the elective, or has been undertaken in another course, this course meets the educational requirements for Senior Associate status of the Australasian Institute of Banking and Finance AIBF (Snr). If the student does not have an undergraduate degree, and a marketing unit is taken as the elective, or has been undertaken in another course, this course meets the educational requirements for Associate status of the Australasian Institute of Banking and Finance (AIBF).

### Part-time Course Structure

#### Semester 1

- EFN405 Managerial Economics
- EFN406 Managerial Finance

#### Semester 2

- EFN414 International Finance
- EFN415 Security Analysis

#### Semester 3

- EFN412 Advanced Managerial Finance
- MGN409 Introduction to Management

#### Semester 4

- EFN413 Securities Law
- Elective unit
- The elective may be selected from available postgraduate units offered by the Faculty, subject to approval

## ■ Graduate Diploma in Entrepreneurship and Innovation (GS46)

**Award title:** Graduate Diploma in Entrepreneurship and Innovation

**CRICOS code:** 046047E

**Location:** Gardens Point

**Course duration (full-time):** 2 semesters. The course must be completed within a maximum time period of three years.

**Course duration (part-time):** 4 semesters. The course must be completed within a maximum time period of three years.

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete 8 core and 6 required units, of 6 credit points each from the MBA (Entrepreneurship) program plus 12 credit points of masters level coursework units in a subject area pertaining to a proposed technology innovation.

Students who complete the Graduate Diploma may be eligible to articulate into the Master of Entrepreneurship and Innovation. Alternatively, students may exit the Master of Entrepreneurship and Innovation program with the Graduate Diploma award providing they have satisfied the credit requirements with no more than 12 credit points with grade of 3 within their 96 credit points.

### Course Structure

*The following eight (8) core units must be completed:*

GSN401	Managing in the Global Business Environment
GSN402	Strategic Use of Information Technology
GSN404	Financial Statements Analysis 1
GSN405	Strategic Management
GSN408	Fundamentals of Marketing Management
GSN410	Entrepreneurship
GSN413	Financial Management 1
GSN416	Business Plans 1

*Plus the following 36 credit points of required units:*

GSN418	Marketing Strategy Development
GSN420	New Venture Strategy
GSN426	Business Plans 2
GSN429	New Venture Marketing
GSN430	New Venture Resourcing
GSN460	Creative Problem Solving

### Technology Innovation Units

Plus an additional 12cp Masters level coursework units in a subject area pertaining to a proposed technology innovation. The postgraduate coursework in a technology field may be at the Masters level or higher, depending on the prior degrees already held by the individual.

## ■ Graduate Diploma in International Business (BS64)

**Award title:** Graduate Diploma in International Business

**CRICOS code:** 046053G

**Location:** Gardens Point

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett

**Discipline coordinator:** Mr Gary Chittick

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Structure

#### Core Units

Choose any five of the following units:

EFN417	An Introduction to International Finance
IBN408	Global Business Operations
IBN409	Negotiating Across Borders
IBN410	International Logistics Management

 \* Any approved School of Advertising, Marketing and Public Relations postgraduate unit.

## ■ Graduate Diploma of Business Administration (GS41)

**Award title:** Graduate Diploma of Business Administration  
**CRICOS code:** 002621K  
**Location:** Gardens Point

**Course duration (full-time):** 2 semesters. The course must be completed within a maximum time period of four years.  
**Course duration (part-time):** 4 semesters. The course must be completed within a maximum time period of four years.

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Ann Hatcher

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration. This course will become an exit award only, from semester 1, 2006.

### Course Design

Students must complete a minimum of 12 units (72cp) from the MBA core and no more than 4 units (24cp) of electives.

In line with other leading business schools, BGSB offers six credit point units, delivered in seven-week modules giving students the flexibility to commence study at the beginning or mid-point of any semester, offering six different entry points each year.

### Course Structure

Students must complete a minimum 12 of the following 16 units, with the remaining being electives or core units not yet completed:

GSN401 Managing in the Global Business Environment  
 GSN403 Understanding Data  
 GSN404 Financial Statements Analysis 1  
 GSN405 Strategic Management  
 GSN406 Human Resource Management Issues  
 GSN407 Business Communication  
 GSN408 Fundamentals of Marketing Management  
 GSN409 Organisational Behaviour 1  
 GSN410 Entrepreneurship  
 GSN412 Business Law 1  
 GSN413 Financial Management 1  
 GSN415 Understanding Leadership  
 GSN460 Creative Problem Solving  
 GSN490 Managing Technological Innovation  
 Concentrations and Minors  
 GSN491 Economics in Business 1

Students may complete one or more concentration and/or minor through careful choice of their 24 credit points of electives. Students with a prior degree in a business major may be allowed to bypass some introductory core units and take additional electives instead, and thus complete additional minors or concentrations. Students must seek advice from BGSB Student Services before applying for credit or substitutions. For a list of units to be undertaken for Concentrations and Minors refer to the GS40 Master of Business Administration course structure.

## ■ Graduate Certificate in Business (BS39)

**Award title:** Graduate Certificate in Business (Study Area A)

**CRICOS code:** 031769E

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett

**Discipline coordinator:** Associate Professor Peter Best

## ■ Graduate Certificate in Business Administration (GS42)

**Award title:** Graduate Certificate in Business Administration

**CRICOS code:** 031575D

**Location:** Gardens Point

**Course duration (full-time):** 1 semester. The course must be completed within a maximum time period of two years.

**Course duration (part-time):** 2 semesters. The course must be completed within a maximum time period of two years.

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Design

Students must complete a minimum of 6 units (36 credit points) from the MBA core and no more than 12 credit points of elective units.

In line with other leading business schools, BGSB offers six credit point units, delivered in seven-week modules giving students the flexibility to commence study at the beginning or mid-point of any semester, offering six different entry points each year.

Students who successfully complete the Graduate Certificate in Business Administration program with a GPA of 4.5 or above (on a 7 point scale) may enrol in the Master of Business Administration (MBA).

### Course Structure

*Students have three options within this program:*

#### Option 1:

GSN401	Select a minimum of 6 units from the following MBA core units plus no more than 12 credit points of any postgraduate business unit approved by the MBA Director:
GSN403	Managing in the Global Business Environment
GSN404	Understanding Data
GSN405	Financial Statements Analysis 1
GSN406	Strategic Management
GSN407	Human Resource Management Issues
GSN408	Business Communication
GSN409	Fundamentals of Marketing Management
GSN410	Organisational Behaviour 1
GSN411	Entrepreneurship
GSN412	Business Law 1
GSN413	Financial Management 1
GSN415	Understanding Leadership
GSN460	Creative Problem Solving
GSN491	Economics in Business 1

#### Option 2:

International students entering GS87 GradCertBusAdmin via Pathway Program 2 must select four MBA core units plus complete two (24 credit point) Business English units (QCD110 Communication for Business 1 and QCD210 Communication for Business 2) at Queensland University of Technology International College (QUTIC).

#### Option 3:

	Select a major (48 credit points) from one of the following study areas:
	Corporate Governance:
	Required Units:
GSN401	Managing in the Global Business Environment
GSN404	Financial Statements Analysis 1
GSN405	Strategic Management
GSN412	Business Law 1
GSN422	Business Law 2
GSN427	Financial Statement Analysis 2
GSN456	Personal Development and Ethics for Managers
GSN472	Legal Principles of Corporate Governance
	Elective Units:
	Choose up to 12 credit points from this list below only if substitution has been granted for equivalent required units:
GSN224	Corporate Philanthropy
GSN233	Special Topic in Philanthropy and Nonprofit Studies
GSN480	Sustainable Development and Competitive Advantage
GSN483	Ethics for Philanthropic and Nonprofit Organisations
GSN484	Management for Philanthropic and Nonprofit Organisations
GSN485	Legal Issues for Philanthropic and Nonprofit Organisations
GSN486	Accounting Issues for Philanthropic & Nonprofit Organisations
	Entrepreneurship and Innovation:
	Required Units:
GSN401	Managing in the Global Business Environment
GSN403	Understanding Data
GSN404	Financial Statements Analysis 1
GSN405	Strategic Management
GSN408	Fundamentals of Marketing Management
GSN420	New Venture Strategy
GSN410	Entrepreneurship
GSN460	Creative Problem Solving
	Leadership:
	Required Units:
GSN401	Managing in the Global Business Environment

GSN407	Business Communication
GSN409	Organisational Behaviour 1
GSN415	Understanding Leadership
GSN417	Effective Advocacy for Managers
GSN425	Leadership Development
	Elective Units:
	Choose 12 credit points from this list below:
GSN221	Special Topic 1
GSN419	Organisational Behaviour 2
GSN456	Personal Development and Ethics for Managers
GSN461	Making Change Work
GSN462	Negotiation Strategies
	Strategy
	Required Units:
GSN401	Managing in the Global Business Environment
GSN405	Strategic Management
GSN408	Fundamentals of Marketing Management
GSN474	Strategy Planning & Development
	Elective Units:
	Choose 24 credit points from this list below:
GSN226	Arts Policy and Strategy
GSN410	Entrepreneurship
GSN418	Marketing Strategy Development
GSN420	New Venture Strategy
GSN475	Strategic Analysis
MGN505	Consulting and Change Management

## ■ Graduate Certificate in Entrepreneurship and Innovation (GS47)

**Award title:** Graduate Certificate in Entrepreneurship and Innovation

**CRICOS code:** 046051J

**Location:** Gardens Point

**Course duration (full-time):** 1 semester. The course must be completed within a maximum time period of two years.

**Course duration (part-time):** 2 semesters. The course must be completed within a maximum time period of two years.

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete 6 core and 2 required units, of 6 credit points each, from the MBA (Entrepreneurship) program totalling 48 credit points.

Students might enter and complete this program only, and/or may use the successful completion of this program as a basis for entry into the Graduate Diploma in Entrepreneurship and Innovation or the Master of Entrepreneurship and Innovation program.

Alternatively, students who have registered in either the Graduate Diploma in Entrepreneurship and Innovation or the Master of Entrepreneurship and Innovation programs may exit from those programs with the of Graduate Certificate in Entrepreneurship and Innovation qualification if they have fulfilled the conditions outlined below for the award of this graduate certificate.

### Course Structure

**The following six (6) MBA core units must be completed:**

GSN401	Managing in the Global Business Environment
GSN402	Strategic Use of Information Technology
GSN405	Strategic Management
GSN408	Fundamentals of Marketing Management
GSN410	Entrepreneurship
GSN416	Business Plans 1
	Plus the following 12cp of required units:

### Required Units

GSN420	New Venture Strategy
--------	----------------------

GSN460	Creative Problem Solving
--------	--------------------------

## ■ Graduate Certificate in Human Resource Management and Development (BS32)

**Award title:** Graduate Certificate in Human Resource Management and Development

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters. The course must be completed within a maximum time period of two years.

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor James Everett

**Discipline coordinator:** Ms Claire Gardiner

### Course Information

Students should note that the University has approved a renaming and recoding of this course from semester 1, 2005 to BS39 Graduate Certificate in Business (Human Resource Development). However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration. For course structure information please refer to the BS39 Graduate Certificate in Business (Human Resource Development) course entry.

## ■ Graduate Certificate in Management (GS43)

**Award title:** Graduate Certificate in Management

**CRICOS code:** 012664E

**Location:** Gardens Point

**Course duration (full-time):** 1 semester. The course must be completed within a maximum time period of two years.

**Course duration (part-time):** 2 semesters. The course must be completed within a maximum time period of two years.

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher

### Course Discontinuation

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

### Course Design

Students must complete any 48 credit points from the Master of Business Administration (GS40) core or GSN coded elective units.

Alternatively, to attain a specialised study area within the Graduate Certificate in Management students must complete 48 credit points from a selected major area.

Students may undertake other postgraduate Business elective units, subject to the approval of the MBA Director.

In line with leading international business schools, BGSB offers six credit point units, delivered in seven-week modules giving students the flexibility to commence study at the beginning or mid-point of any semester, offering six different entry points each year.

### Articulation

Students who successfully complete the Graduate Certificate in Management program with a GPA of 4.5 above (on a 7 point scale) may enrol in the Master of Business Administration and other Master level awards offered by the Faculty of Business.

### Course Structure

**Students have two options within this program:**

	1) Select 8 units from the following MBA core or any postgraduate business unit approved by the MBA Director:
GSN401	Managing in the Global Business Environment

GSN403	Understanding Data
GSN404	Financial Statements Analysis 1

EFN504 Finance Honours

EFN505 Financial Risk Management

Plus choose one Elective unit:

The elective unit may be taken from any postgraduate unit offered by the School of Accountancy or School of Economics and Finance subject to the approval of the Course Coordinator or Head of School

Plus

BSN501 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

### Economics

Students must complete three prescribed units (36 credit points), one elective (12 credit points), and a dissertation (48 credit points).

One Compulsory Core Unit:

BSN506 Econometric Methods

Plus two Economics Units:

EFN500 Contemporary Macroeconomic Theories

EFN502 Developments in Microeconomic Theories

Plus one Elective unit:

The elective unit may be taken from any postgraduate unit offered by the School of Accountancy or School of

Economics and Finance, subject to the approval of the Subject Area Coordinator or Head of School

Plus

BSN501 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

### Human Resource Management

Students must complete four prescribed units (48 credit points) and a dissertation (48 credit points)

Two Compulsory Core Units:

BSN502 Research Methodology

BSN503 Research Seminar

Plus two Human Resource Management Units:

MGN506 Contemporary Issues in HRM

MGN508 HRM Cases

Plus

BSN501 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

### International Business

Students must complete two prescribed units (24 credit points), two electives (24 credit points), and a dissertation (48 credit points).

Two Compulsory Core Units:

BSN502 Research Methodology

BSN503 Research Seminar

Plus two Elective units:

The elective units may be taken from any 12 credit point postgraduate unit offered by the School of International Business, in the specialisation area (International Business), subject to the approval of the Subject Area Coordinator

Plus

BSN501 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

### Management

Students must complete four prescribed units (48 credit points) and a dissertation (48 credit points)

Two Compulsory Core Units:

BSN502 Research Methodology

BSN503 Research Seminar

Plus two Management Units:

MGN501 Readings in Management

MGN507 Contemporary Issues in Management

Plus

BSN501 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

### Marketing

Students must complete two prescribed units (24 credit points), two electives (24 credit points), and a dissertation (48 credit points).

Select two of the following Compulsory Core units:

AMN403 Marketing and Survey Research

BSN502 Research Methodology

BSN503 Research Seminar

BSN412 Qualitative Research and Analytical Techniques

Plus two Elective units:

The elective units for this Honours program may be taken from any 12 credit point postgraduate unit offered by the School of Advertising, Marketing and Public Relations, in the specialisation area (Marketing), subject to the approval of the Subject Area Coordinator

Plus

BSN501 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

## Public Relations

Students must complete two prescribed units (24 credit points), two electives (24 credit points), and a dissertation (48 credit points).

Select two of the following Compulsory Core Units:

- AMN403 Marketing and Survey Research  
BSN502 Research Methodology  
BSN503 Research Seminar

## (C) SPECIALISATIONS

Students should note that not all specialisations will be timetabled in every year or semester. Hence, it is important that you confirm that the specialisation in which you are interested is offered. Students are also able to undertake an Interfaculty Specialisations (IFS) with the approval of the Director of Undergraduate Studies. Full details are available from the Faculty of Business Student Enquiries Counter, level 4, Z Block, Gardens Point or on 07 3864 2050 or via bus@qut.edu.au

Business Law and Tax (BLS) for Business students without an Accountancy Major.

Financial Economics (FES) for Business students without an Economics or Banking & Finance Major.

Integrated Marketing Communication (IMS) for Business students with any major.

Language (LGS) for Business students without an International Business major.

Students may study French, German, Indonesian or Japanese, or also seek approval to undertake a different language at another tertiary institution. Students undertaking a language specialisation must complete a minimum of four language units, plus either; two additional language units; or IBB205 Cross Cultural Communication & Negotiation, and one other International Business unit selected from the International Business major or extended major, provided pre-requisite requirements are met.

## Definitions

**Double Major:** a second major core (six units) chosen from (B) above. Six units must be completed for a double major. When a unit is common to both majors, or a unit that is incompatible has already been completed an alternative double major option unit must be substituted. Approval for the substitute unit should be sought from the Major Coordinator.

**Extended Major:** an additional group of six specified units in the same discipline area as the primary major core. A list of possible extended majors are provided with the respective primary major structures.

**Specialisation:** a coherent group of six specified units in a discipline area. Specialisations for business students may be chosen from a number of areas (refer to C above). Six units must be completed for a specialisation. When a unit is common to the major and specialisation, or when a unit that is incompatible has already been completed an alternative specialisation option unit must be substituted. Approval for the substitute unit should be sought from the Major Coordinator.

**Elective:** a unit of 12 credit points chosen from any degree course at QUT including approved degree level study tours. Electives may also be taken at other recognised universities if the student obtains written approval from the Course Coordinator and the Head of School.

## ■ Bachelor of Business Carseldine First Year Program (BS56)

**Location:** Carseldine

**Course duration (full-time):** 3 years (After the completion of first year, students must transfer to Gardens Point campus for the remainder of the course.)

**Course duration (part-time):** 6 years (After completion of second year, students must transfer to Gardens Point campus for the remainder of the course.)

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Mr Andrew Paltridge

## Course Design

Students commencing the Bachelor of Business at Carseldine will be required to undertake the first year of the course on this campus, and will then be required to transfer to Gardens Point Campus for the remainder of the degree.

Please refer to the BS56 Course Notes for more specific information regarding this course.

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Mr Andrew Paltridge

**Discipline coordinator:** Dr John Sweeting

### BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

### Other Majors

See also separate entries for the following majors in this course: Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing, and Public Relations.

### Professional Recognition

Students completing the Bachelor of Business (Accountancy) degree with an extended major in Professional Accounting meet the academic requirements for Associate membership of CPA Australia and enrolment in the CPA program and the academic requirements for enrolment in the CA program of the Institute of Chartered Accountants in Australia (ICAA).

Students completing the Bachelor of Business (Accountancy) degree with an extended major in Business Law and Tax will need to select the following elective units to meet the academic requirements for Associate membership of CPA Australia and enrolment in the CPA program and the academic requirements for enrolment in the CA program of the Institute of Chartered Accountants in Australia:

EFB210 Finance 1, and

AYB311 Financial Accounting Issues or AYB321 Strategic Management Accounting

The School of Accountancy strongly recommends students undertake both AYB311 Financial Accounting Issues and AYB321 Strategic Management Accounting.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirements for professional membership of the Chartered Secretaries Australia (CSA). These programs are also accredited with the Tax Agents' Board of Queensland.

Students completing the Accountancy major in combination with another business major may meet professional body (CPA

Australia/ICAA) requirements by undertaking specified QUT units (normally four) as electives in the course. For further information on professional recognition for double majors and the required units that must be studied as electives, please contact the School of Accountancy on (07) 3864 5292 or email accenq@qut.edu.au

Please note that students with advanced standing (i.e. academic credit) may be required to undertake additional studies in order to meet professional body requirements. Students must also comply with CPA Australia policy on conceded and terminal passes.

### BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

### Other Majors

See also separate entries for the following majors in this course: Accountancy, Advertising, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing, and Public Relations.

### Professional Recognition

Students completing the Bachelor of Business majoring in Banking and Finance meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirement for Professional Membership of the Chartered Secretaries Australia (CSA).

Students completing the Bachelor of Business with a major in Banking and Finance meet the academic requirements for Senior Associate Membership of the Australasian Institute of Banking and Finance AIBF (Snr).

Students completing the Bachelor of Business (Banking and Finance) with a double major in Accountancy, with appropriate elective choices and unit substitution, may meet the academic requirements of one or more of the following professional bodies: CPA Australia (Associate Membership and enrolment in the CPA program); The Institute of Chartered Accountants in Australia (ICAA) (enrolment in the CA Program); Australasian Institute of Banking and Finance -AIBF (Snr).

Students completing the Bachelor of Business (Banking and Finance) with a double major in Economics meet the academic

requirements for Senior Associate Membership of the Australasian Institute of Banking and Finance AIBF (Snr). Ordinary Membership of the Economics Society of Australia only requires that students have an interest in the area of Economics. For students to meet the academic requirements for Professional Membership of the Economics Society of Australia (QLD), requires that students have held an Ordinary Membership of the Economics Society of Australia for one year and have completed a Bachelor of Business majoring in Economics.

These courses have been designed to maximise student's ability to meet professional requirements, however students may be required to undertake further units with professional bodies. Please note that students with advanced standing (ie. academic credit) may be required to undertake additional studies in order to meet professional body requirements.

**BS56 Course Notes**

See BS56 Course Notes entry for information about the course design and definitions.

**Other Majors**

See also separate entries for the following majors in this course: Accountancy, Advertising, Banking and Finance, Electronic Business, Human Resource Management, International Business, Management, Marketing, and Public Relations.

**Professional Recognition**

Students completing the Bachelor of Business majoring in Economics meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirement for Professional Membership of the Chartered Secretaries Australia (CSA).

Ordinary Membership of the Economics Society of Australia only requires that students have an interest in the area of Economics. For students to meet the academic requirements for Professional Membership of the Economics Society of Australia (QLD), requires that students have held an Ordinary Membership of the Economics Society of Australia for one year and have completed a Bachelor of Business majoring in Economics.

Students completing the Bachelor of Business (Economics) with a double major in Banking and Finance with appropriate elective choices and unit substitution meet the academic requirements for Senior Associate Membership of the Australasian Institute of Banking and Finance AIBF (Snr).

Students completing the Bachelor of Business (Economics) with a double major in Accountancy, with appropriate elective choices and unit substitutions, may meet the academic requirements for Associate Membership of CPA Australia and enrolment in the CPA program. Students may also be eligible for enrolment in the CA program of The Institute of Chartered Accountants in Australia (ICAA).

### BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

### Other Majors

See also separate entries for the following majors in this course: Accountancy, Advertising, Banking and Finance, Economics, Human Resource Management, International Business, Management, Marketing, and Public Relations.

### Professional Recognition

Students completing the Bachelor of Business (Electronic Business) with a double major in Accountancy may meet the academic requirements of CPA Australia and the Institute of Chartered Accountants in Australia by undertaking specified QUT units (normally four) as general electives in the course program.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirements for professional membership of the Chartered Secretaries of Australia.

For further information and specific course structures for professional recognition, please contact the School of Accountancy on 07 3864 5292 or email accenq@qut.edu.au (Note that students with advanced standing (ie academic credit) may be required to undertake additional studies in order to meet professional body requirements. Students must also comply with CPA Australia policy on conceded and terminal passes).

### BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

### Campus of Offer

Please note that for the offering on Carseldine Campus, students must transfer to Gardens Point campus after the completion of

their first year (ie 96 credit points of study), for the remainder of the course.

For international students, this course is only offered on Gardens Point campus.

### Other Majors

See also separate entries for the following majors in this course: Accountancy, Advertising, Banking and Finance, Economics, Electronic Business, International Business, Management, Marketing, and Public Relations.

### Professional Recognition

Students completing the Bachelor of Business majoring in Human Resource Management meet the academic requirements for membership of the Australian Human Resources Institute, the Australian Institute of Management and the Australian Institute of Training and Development. In addition, students undertaking both units MGB331 Training and Development and MGB325 Advanced Practice in Training and Development may be eligible for the Certificate IV in Assessment and Workplace Training.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirements for professional membership of the Chartered Secretaries of Australia.

## ■ Bachelor of Business (International Business) (BS56)

**Award title:** Bachelor of Business (International Business)

**CRICOS code:** 003491G

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Mr Andrew Paltridge

**Discipline coordinator:** Dr Beverley Kitching

### BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

### Other Majors

See also separate entries for the following majors in this course: Accountancy, Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, Management, Marketing, and Public Relations.

### Professional Recognition

Students completing the Bachelor of Business majoring in International Business may meet the requirements of the Australian Institute of Export.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirements for professional membership of the Chartered Secretaries of Australia.

### Languages Option

The course structure for both full-time and part-time International Business students varies depending on whether languages are selected as an option. Alternative course structures are included: one outlines the course structure if no languages are taken, the other outlines the structure for those who wish to undertake a language specialisation. If languages are taken as a specialisation, language units should commence in the first semester of the first year to maintain continuity from earlier pre-QUT language studies. All language units must normally be taken in the same

language. International students must take a language that is not their native tongue.

### Full-time Course Structure

■ Certificate in Dance Teaching (KD05).....	167

## OVERVIEW

QUT Creative Industries has a distinctive reputation, nationally and throughout the Asia-Pacific region, for its strong vocational focus, links with industry, and breadth of course offerings throughout a growing and changing industry sector.

Exciting creative industries study areas include:

- Acting and Technical Production
- Communication Design
- Creative Writing and Cultural Studies
- Dance
- Fashion
- Film and Television
- Journalism
- Media and Communication
- Music and Sound
- Performance Studies
- Visual Arts.

With common core creative industries units covering critical knowledge and skills, four types of degree programs are offered:

- studio/practice-based Bachelor of Fine Arts in the performing, creative and media production areas
- professional Bachelor degrees with a strong applied industry focus
- accelerated double degree courses with the faculties of Education, Business, Law and Information Technology
- the interdisciplinary Bachelor of Creative Industries.

In 2004, the Faculty moved to the new Creative Industries Precinct, the first stage of the multi-million dollar Kelvin Grove Urban Village. Purpose-built world class facilities include specialist design studios, production workshops, digital edit suites, newsrooms, multimedia production labs, interactive exhibition spaces, and post-production facilities. La Boite, one of Australia's most innovative theatre companies, also relocated to the Precinct with a new 400-seat venue.

Strong international links with Asia, the United States and Europe broaden students' cultural experiences through touring productions, study exchange programs and reporting trips, and further increase employment opportunities. Industry connections are fostered through mentor schemes, internships, professional practice placements, joint projects and advisory boards.

## SENIOR STAFF

### Faculty Office

*Acting Dean:* Professor S. Cunningham, BA(Hons) *Qld*, MA(Film & Communications) *McG*, PhD *Griff*, FAHA

*Faculty Administration Manager:* C. L. Russell, BCom *Griff*, MBA *C.Qld*

*Director, Academic Programs:* Associate Professor S. Towers, BEd *WACAE*, MEd *UWA*, PhD *QUT*

Professor J. Hartley, BA(Hons) *Wales*, PhD *Murdoch*, DLitt *Wales*, FRSA

### Creative Industries Research and Applications Centre

*Acting Director:* Professor G. Hearn, BSc (Hons) PhD *Qld*

### Acting and Technical Production

*Head:* D. Eden, BA *Qld*

### Communication Design

*Head:* Dr A. Russo, BDes(HumEnvDes) PhD *S Aust*

### Creative Writing and Cultural Studies

*Head:* Associate Professor P. M. Neilsen, BA(Hons) MA PhD *Qld*, ASA

### Dance

*Head:* Associate Professor C.F. Stock, BA(Hons) *Flinders*, PhD *QUT*

### Fashion

*Head:* Associate Professor S. Vaughan

### Film and Television

*Head:* Associate Professor G. Portmann

### Journalism

*Acting Head:* Associate Professor P. M. Neilsen, BA(Hons) MA PhD *Qld*, ASA

### Media and Communication

*Head:* Dr T. Flew, BEc (Hons) MEc *Syd*, PhD *Griff*, GradCertHigherEd *QUT*

### Music and Sound

*Head:* Professor A. Arthurs, BMus - Tonmeister (Hons) *Surrey*

### Performance Studies

*Head:* Associate Professor J. McLean, DipT *Kelvin Grove*, BA *Qld*, LSDA MED *Melb*

### Visual Arts

*Head:* Associate Professor D. Hawke, DipArt(Ed) *Syd*, BEd MA *Calg*, PhD *Alta*

## RESEARCH CENTRES

### Creative Industries Research and Applications Centre

QUT's Creative Industries Research and Applications Centre (CIRAC) provides a focus for the ongoing development of the creative industries as an industry sector through applied real-world research.

CIRAC provides a strategic and inspiring environment for postgraduate research training. At a local, national and international level, CIRAC actively progresses the following aims:

- map the growth and dynamics of the sector to show the extent and value of the creative industries in Australia and overseas
- assist the growth and diversification of creative applications in the new information economy, providing know-how and facilities to partners from government to micro-business
- produce both creative IP for commercialisation, and cutting-edge industry-oriented research
- contribute to the development of the Creative Industries Precinct in Brisbane, working with co-locating partners
- work closely with the Australasian CRC for Interaction Design (ACID), a Co-operative Research Centre spun off from CIRAC.

## ■ Doctor of Creative Industries (KK49)

**Award title:** Doctor of Creative Industries

**CRICOS code:** 046050K

**Location:** Kelvin Grove

**Course duration (full-time):** Normal enrolment is 6 semesters - this can vary depending on entry requirements.

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Brad Haseman

### Entry Requirements

A four year degree or its equivalent with First Class Honours or Honours IIA or a masters degree in a field relevant to the professional doctorate in creative industries AND two years practice at an advanced level in a position of influence in the creative industries.

OR

Five years practice at an advanced level in a position of responsibility in the creative industries with an accompanying portfolio of achievement which demonstrates the applicant's capacity to work at a doctoral level.

Outstanding leaders in the creative industries who have not had the opportunity to pursue postgraduate study may seek advanced standing into the course and receive credit for up to two semesters of the course.

### Course Structure

The course comprises two components - coursework and professional projects.

Coursework is taken at the beginning of candidature and provides candidates with the essential conceptual tools they need for doctoral level analysis and reflection on their professional practice and related contextual factors. Candidates will design, implement and evaluate a number of professional projects during the period of their candidature. The scale, scope and focus of these projects will be determined in consultation with supervisors.

### Project Track

#### Year 1, Semester 1

KKN020 Approaches to Enquiry in the Creative Industries

KKN061 The Reflective Practitioner  
Elective 1

#### Year 1, Semester 2

KKN071 Creative Industries Conference 1

KKN065 Project Development in the Creative Industries  
Elective 2

GSN442 Project Management 1

GSN443 Project Management 2

#### Year 2, Semester 1

KKN300-1 DCI Professional Project 1

KKN300-2 DCI Professional Project 1

KKN300-3 DCI Professional Project 1

KKN300-4 DCI Professional Project 1

#### Year 2, Semester 2

KKN062 The Reflective Practitioner 2  
Elective 3  
Elective 4

KKN400-1 DCI Professional Project II

#### Year 3, Semester 1

KKN400-2 DCI Professional Project II

KKN400-3 DCI Professional Project II

KKN400-4 DCI Professional Project II

KKN500-1 DCI Final Professional Project

#### Year 3, Semester 2

KKN500-2 DCI Final Professional Project

KKN500-3 DCI Final Professional Project

KKN500-4 DCI Final Professional Project

KKN072 Creative Industries Conference 2

## ■ Master of Arts (Research) (Creative Industries) (KK51)

**Award title:** Master of Arts (Research)

**CRICOS code:** 046055E

**Location:** Kelvin Grove

**Course duration (full-time):** Entry with 3 year qualification 1.5 years full-time; Entry with 4 year qualification (Honours) 1 year full-time

**Course duration (part-time):** Entry with 3 year qualification 3 years part-time; Entry with 4 year qualification (Honours) 2 years part-time

**Total credit points:** 3-year qualified entry: 144; 4 year qualified entry: 96

**Standard credit points per semester (full-time):** 48 Credit Points Full-time

**Standard credit points per semester (part-time):** 24 Credit Points Part-time

**Course coordinator:** Dr Brad Haseman

### Entry Requirements

For entry into the coursework plus research program, applicants must have a 3 year bachelor degree or equivalent.

For entry into the research-only program, applicants must have a 3 year bachelor degree plus honours, or a 3 year bachelor degree plus graduate diploma or equivalent.

### Course Structure

Entry with 3 year qualification: (Bachelors degree or equivalent)

Students normally will undertake 48 credit points of coursework and a 96 credit point research project.

Entry with approved 4 year qualification: (Bachelors degree plus Honours/Graduate Diploma or equivalent)

Students will not normally undertake coursework units, unless otherwise recommended by the Discipline Coordinator. They will be required to undertake a 96 credit point research project or thesis.

With approval from the relevant Discipline Coordinator, instead of undertaking 96 credit points of research, students may enrol in 12 or 24 credit points of course work, and reduce the weighting of their research project to 84 or 72 credit points.

### Research Component

Depending on the discipline, the research component may be undertaken either as a research thesis of 30,000 words, or as a creative practice-based project with an exegesis or written component (7,500-10,000 words).

Students can undertake:

- significant creative work such as a theatrical or a musical production
- a work of fiction or non-fiction
- a screen-based script or production
- a multimedia script or production.

Any project likely to involve University resources must have the support of the appropriate Head of Discipline.

### All Disciplines - with 4-year qualified entry

#### Semester 1

KKN007-1 Research Project 1

KKN007-2 Research Project 2

KKN007-3 Research Project 3

KKN007-4 Research Project 4

#### Semester 2

KKN007-5 Research Project 5

KKN007-6 Research Project 6

KKN007-7 Research Project 7

KKN007-8 Research Project 8

## Dance, Drama, Music, Visual Arts, Communication Design - with 3-year qualified entry

### Semester 1

- KVB004 Contemporary Aesthetic Debates  
 KKN020 Approaches to Enquiry in the Creative Industries  
 KKN007-1 Research Project 1  
 KKN007-2 Research Project 2

### Semester 2

- KKN007-3 Research Project 3  
 KKN007-4 Research Project 4  
 KKN007-5 Research Project 5  
 Elective

**Note:** An elective of 12 credit points is chosen by students, in consultation with their Principal Supervisor from university wide offerings.

### Semester 3

- KKN200 Graduate Seminar  
 KKN007-6 Research Project 6  
 KKN007-7 Research Project 7  
 KKN007-8 Research Project 8

**Note:** KKN200 Graduate Seminar has a pre-requisite of KKN020.

## Dance, Drama, Music, Visual Arts, Communication Design - with 3 year qualified entry

### Semester 1

- KVB004 Contemporary Aesthetic Debates  
 KKN020 Approaches to Enquiry in the Creative Industries

### Semester 2

- KKN007-1 Research Project  
 Elective

**Note:** An elective of 12 credit points is chosen by students, in consultation with their Principal Supervisor from University wide offerings.

### Semester 3

- KKN007-2 Research Project  
 KKN007-3 Research Project

### Semester 4

- KKN007-4 Research Project  
 KKN007-5 Research Project

### Semester 5

- KKN007-6 Research Project  
 KKN007-7 Research Project

### Semester 6

- KKN200 Graduate Seminar  
 KKN007-8 Research Project

**Note:** KKN200 has the prerequisite of KKN020.

## Creative Writing, Cultural Studies, Film & TV, Journalism, Media & Com - with 3-year qualified entry

### Semester 1

- KKN020 Approaches to Enquiry in the Creative Industries  
 Plus select THREE of the following units:  
 KJP105 Theories of Journalism  
 KCP110 Global Media and Communications Policy  
 KWP103 Creative Writing: Novel & Genre  
 KPP104 Film and Television Production Theory

### Semester 2

- KKN007-1 Research Project  
 KKN007-2 Research Project  
 KKN007-3 Research Project  
 KKN007-4 Research Project

### Semester 3

- KKN007-5 Research Project  
 KKN007-6 Research Project  
 KKN007-7 Research Project  
 KKN007-8 Research Project

## Creative Writing, Cultural Studies, Film & TV, Journalism, Media & Com - with 3 year qualified entry

### Semester 1

- KKN020 Approaches to Enquiry in the Creative Industries  
 Plus select ONE of the following units:  
 KWP103 Creative Writing: Novel & Genre  
 KPP104 Film and Television Production Theory  
 KJP105 Theories of Journalism  
 KCP110 Global Media and Communications Policy

### Semester 2

- KKN007-1 Research Project  
 Plus select ONE of the following units:

- KWP103 Creative Writing: Novel & Genre  
 KPP104 Film And Television Production Theory  
 KJP105 Theories Of Journalism  
 KCP110 Global Media and Communications Policy

### Semester 3

- KKN007-2 Research Project  
 Plus select ONE of the following units:

- KWP103 Creative Writing: Novel & Genre  
 KPP104 Film And Television Production Theory  
 KJP105 Theories Of Journalism  
 KCP110 Global Media and Communications Policy

### Semester 4

- KKN007-3 Research Project  
 KKN007-4 Research Project

### Semester 5

- KKN007-5 Research Project  
 KKN007-6 Research Project

### Semester 6

- KKN007-7 Research Project  
 KKN007-8 Research Project

## ■ Master of Creative Industries (KK48)

**Award title:** Master of Creative Industries

**CRICOS code:** 050166G

**Location:** Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters (depending on prior study and availability of supervising staff)

**Total credit points:** 144

**Course coordinator:** Dr Brad Haseman

### Course Structure

#### Year 1, Semester 1

- KKN020 Approaches to Enquiry in the Creative Industries  
 KKN061 The Reflective Practitioner 1 (24 credit points)  
 Elective 1

#### Year 1, Semester 2

- KKN071 Creative Industries Conference 1  
 KKN065 Project Development in the Creative Industries  
 Elective 2  
 GSN442 Project Management 1  
 GSN443 Project Management 2

#### Year 2, Semester 1

- KKN300-1 DCI Professional Project 1  
 KKN300-2 DCI Professional Project 1  
 KKN300-3 DCI Professional Project 1  
 KKN300-4 DCI Professional Project 1

## ■ Master of Creative Industries (Communication Design) (KI43)

**Award title:** Master of Creative Industries (Communication Design)

**CRICOS code:** 031870G

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Semesters

**Course duration (part-time):** 6 Semesters

**Total credit points:** 144

**Course coordinator:** Dr Angelina Russo

### Entry Requirements

An approved degree in a related study area from a recognised tertiary institution with a GPA of 5.0 or greater; OR

an approved degree in an unrelated study area from a recognised tertiary institution with a GPA of 5.0 or greater combined with either:

- professional recognition through an equivalent course of study or examination; and/or
- evidence of qualifications (eg recognised prior learning); and/or
- at least two years appropriate full-time work experience.

Related areas of study include the fields of media communication, visual arts, design, the arts or information technology. It should be noted that this course is not suitable for

technology. It should be noted that this course is not suitable for applicants from directly cognate fields of study eg multimedia design, computer graphics and animation.

### MCI (Communication Design) - full-time structure

#### Year 1, Semester 1

KIN811	Visual Interactions
KCP295	Virtual Cultures
KIN818	Digital Media
KIN817	Project Management

#### Year 1, Semester 2

KCP336	New Media Technologies
KIN812	Interdisciplinarity for the Creative Industries
KIN809	Interaction Design
KIN810	Information Architecture

#### Year 2, Semester 1

KIN851-1	Design Project (1/2)
KIN851-2	Design Project (2/2)
	Elective
	Elective

### MCI (Communication Design) - part-time structure

KCP361	Advertising Creative: Electronic and Print Media

## ■ Master of Creative Industries (Dance Teaching) (KD42)

**Award title:** Master of Creative Industries (Dance Teaching)

**CRICOS code:** Not required

**Location:** External

**Course duration (full-time):** 3 semesters and summer (by correspondence and residencies)

**Course duration (part-time):** 6 semesters (by correspondence and residencies)

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Ms Jude Smith

**Discipline coordinator:** Aspro Cheryl Stock

### Course Structure

In the Masters program, students are required to complete ten units, made up of nine core units and one elective unit. It is recommended that students complete the units The Reflective Practitioner 1 and Professional Practice Project in the final two semesters of the course.

Students are required to complete 10 units. There are nine core units and one elective unit. It is recommended that students

complete the units The Reflective Practitioner 1 and Professional Practice Project in the final two semesters of the course. The Reflective Practitioner should be undertaken prior to the Professional Practice Project.

### Full-time students

In the first year of the course students should select three to four units from both First and Second Semester, and both units in the Summer Program.

### Part-time students

Select two units from both First and Second Semester, and either one or both units in the Summer Program.

#### Semester 1

KDP104	Safe Dance Practice
KDP190	Professional Practice and Business Administration For Dance Teachers
KDP191	Dance Teaching Methodologies
KDP192	Stagecraft And Costume Design For Dance
KKN061	The Reflective Practitioner 1 (includes residential component)
KDN002	Professional Practice Project

#### Semester 2

KDP104	Safe Dance Practice
KDP105	Dance Analysis And Dance Histories
KDP189	Dance Assessment And Reporting Procedures
KDP190	Professional Practice and Business Administration For Dance Teachers
KDP191	Dance Teaching Methodologies
KDP192	Stagecraft And Costume Design For Dance
KKN061	The Reflective Practitioner 1 (includes residential component)
KDN002	Professional Practice Project

#### Summer Program

KDP180	Dance Teaching Studies 1 (intensive residency in Brisbane)
KDP181	Dance Teaching Studies 2 (intensive residency in Brisbane)

## ■ Master of Creative Industries (Drama Teaching) (KT42)

**Award title:** Master of Creative Industries (Drama Teaching)

**CRICOS code:** 046674M

**Location:** Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters (part-time mode may not be available by evening study)

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Judith McLean; Administrator: Sandra Gattenhof

**Discipline coordinator:** Judith McLean

### Entry Requirements

An appropriate Bachelor degree or a Diploma and at least one year's professional experience working as a drama teacher approved by the course coordinator.

A maximum of 48cp advanced standing will be granted to applicants with an honours degree in Drama or a four year undergraduate degree in drama education.

### Full-time Course Structure

#### Year 1, Semester 1

KTN002	Contemporary Performance
KTN004	Teaching Drama from 1-10
	Select two electives from List A or List B

#### Year 1, Semester 2

	Select two of the following CORE units
KTN001	Performing Narratives
KTN003	Applying Information Technology in the Drama Classroom
KTN005	Implementing Drama From 1-10
	PLUS
	Select two electives from List A OR List B

#### Year 2, Semester 1

KTN006	Drama Project
	PLUS select one of the following combinations:
	Two units taken from List A
	OR one unit from List A and one unit from List B

## Part-time Course Structure

### Year 1, Semester 1

KTN002 Contemporary Performance  
KTN004 Teaching Drama from 1-10

### Year 1, Semester 2

Select two from the following CORE units  
KTN001 Performing Narratives  
KTN003 Applying Information Technology in the Drama Classroom  
KTN005 Implementing Drama From 1-10, or  
Select one CORE unit  
Plus one unit taken from List A or List B

### Year 2, Semester 1

Select ONE of the following combinations:  
Two units from List A, or  
One unit from List A and one unit from List B

### Year 2, Semester 2

Select ONE of the following combinations:  
Two units from List A, or  
One unit from List A and one unit from List B

### Year 3, Semester 1

Select ONE of the following combinations:  
Two units from List A, or  
One unit from List A and one unit from List B

### Year 3, Semester 2

KTN006 Drama Project

## List A - Electives

KT056 Professional Studies: Performing Self  
KKB057 Independent Study  
KT061 Creative Industries Management

KVB704 Theories Of Spatial Culture

## ■ Master of Digital Media (KC42)

**Award title:** Master of Digital Media

**Location:** Gardens Point

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Terry Flew

### Course discontinued

There is no intake into this course in 2005.

## ■ Master of Fine Arts (KK42)

**Award title:** Master of Fine Arts

**CRICOS code:** 016349F

**Location:** Kelvin Grove

**Course duration (full-time):** 1.5 years full-time

**Course duration (part-time):** 3 years part-time

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Brad Haseman

**Discipline coordinator:** Dance: Assoc Prof Cheryl Stock;

Drama: Assoc Prof Judith McLean; Music: Prof Andy Arthurs;

Vis Arts: Assoc Prof David Hawke; Acting Studio: Dianne Eden;

Painting Studio: Dan Mafe

### Entry Requirements

A Bachelor degree, or equivalent, which may include substantial relevant professional experience.

### Suggested Full-time Course Structure

#### Semester 1

KKN011 Advanced Professional Practice 1  
KKN012 Advanced Professional Practice 2  
Elective\*  
Elective

## ■ Master of Music (KM42)

**Award title:** Master of Music

**CRICOS code:** 034710M

**Location:** Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Steve Dillon

**Discipline coordinator:** Prof Andy Arthurs

### Entry Requirements

Either a three-year degree or approved diploma in music from a university OR documentary evidence of a successful career as a professional musician, considered at least equivalent to a three-year degree. Prior to admission, you must submit, and have approved, your Project Proposal.

### By coursework and project

Eight 12 credit point units of which KMN609 Independent Project and at least two other KMN units must be undertaken, prior to two 24 cp Music Project units (KMN601, KMN602 Music Project 1, 2 inclusive). Alternatively, four or six 12 credit point units and four or three 24 credit point units respectively.

### By project

This is of particular interest to professional musicians wishing to develop their practice significantly.

Two 12 credit point units undertaken prior to five 24 credit point Music Project units (KMN601- KMN605 Music Project 1-5 inclusive).

### Course Structure

#### Pathways: Music Composition for the Creative Industries

KMB619	Music And Sound Technology
KMN626	Music & Sound for Digital Media
KMN630	Materials of Music

KMB638	Sound And Image

KWB399 The Writing And Publishing Industry

## ■ Graduate Diploma in Creative Industries (Dance Teaching) (KD36)

**Award title:** Graduate Diploma in Creative Industries (Dance Teaching)

**CRICOS code:** Not required

**Location:** External

**Course duration (full-time):** 2 semesters plus Summer

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Course coordinator:** Ms Lesley Graham

**Discipline coordinator:** Aspro Cheryl Stock

### Course Structure

Full-time students should select 3 units from the first and second semester structure, and both units in the Summer Program. Part-time students should select 2 units from the first and second semester structure, and either one or both units in the Summer Program.

### Full-time Course Structure

#### Full-time Students

Select three units from the first and second Semester structure, and both units in the Summer Program

#### Part-time Students

Select two units from the first and second Semester structure, and either one or both units in the Summer Program

#### First Semester

KDP104 Safe Dance Practice  
KDP190 Professional Practice and Business Administration For Dance Teachers  
KDP191 Dance Teaching Methodologies

#### Second Semester

KDP104 Safe Dance Practice  
KDP105 Dance Analysis And Dance Histories  
KDP189 Dance Assessment And Reporting Procedures  
KDP190 Professional Practice and Business Administration For Dance Teachers  
KDP191 Dance Teaching Methodologies  
KDP192 Stagecraft And Costume Design For Dance

#### Summer Semester

KDP180 Dance Teaching Studies 1 (intensive residency in Brisbane)  
KDP181 Dance Teaching Studies 2 (intensive residency in Brisbane)

## ■ Graduate Diploma in Creative Industries (Drama Teaching) (KT36)

**Award title:** Graduate Diploma in Creative Industries (Drama Teaching)

**CRICOS code:** 046672B

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Course coordinator:** Aspro Judith McLean; Administrator: Dr Sandra Gattenhof

**Discipline coordinator:** Aspro Judith McLean

### Entry Requirements

A bachelor degree or a diploma and at least one year's professional experience working as a teacher in a school or studio setting.

### Full-time Course Structure

#### Year 1, Semester 1

KTN002 Contemporary Performance  
KTN004 Teaching Drama from 1-10  
Select two units from List A

#### Year 1, Semester 2

Select two from the following core units  
KTN001 Performing Narratives  
KTN003 Applying Information Technology in the Drama Classroom  
KTN005 Implementing Drama From 1-10  
Plus select one of the following combinations:  
Two units from either List A or List B, or  
One unit from List A and one unit from List B

### Part-time Course Structure

#### Year 1, Semester 1

KTN002 Contemporary Performance  
KTN004 Teaching Drama from 1-10

#### Year 1, Semester 2

Select two from the following core units:  
KTN001 Performing Narratives  
KTN003 Applying Information Technology in the Drama Classroom  
KTN005 Implementing Drama From 1-10

#### Year 2, Semester 1

Select one of the following combinations:  
Two units from List A, or  
One unit from List A and one unit from List B

#### Year 2, Semester 2

Select one of the following combinations:  
Two units from List A, or  
One unit from List A and one unit from List B

### List A – Electives

Please refer to the List A Electives for KT42 Master of Creative Industries (Drama Teaching).

### List B – Electives

Please refer to the List B Electives for KT42 Master of Creative Industries (Drama Teaching).

## ■ Graduate Diploma in Creative Industries (Film and Television) (KP36)

**Award title:** Graduate Diploma in Creative Industries (Film and Television)

**CRICOS code:** 040324D

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters (The part-time mode may not be available by evening study)

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Aspro Geoff Portmann

**Discipline coordinator:** Aspro Geoff Portmann

### Entry Requirements

A degree or diploma in any field from a recognised tertiary institution (Diploma graduates may be required to undertake additional work at the discretion of the course or discipline coordinator). Limited special entry places are available if the applicant is a senior member of the relevant profession without a formal degree, provided they can demonstrate and document their grasp of the profession. These candidates will be senior members of their profession. An applicant who does not meet the requirements for normal entry may present documentary evidence of qualifications, experience and other relevant information for special consideration. QUT film and television, journalism and media studies graduates enrolling in this course must select a major different from their undergraduate major.

#### Pathway: Instrumental Music Teaching/Music Coaching\*

KMN622	Multi-Instrumental Studies 1, or
KMN648	Australian Music Culture
KMN628	Multi-Instrumental Studies 2, or

KMB640	Sex Drugs Rock N Roll
KMB101	Music Curriculum Studies 1
KMB623	Conducting

KMB617 Arranging

**Pathway: Contemporary Music Studies (choose any four)**

KMB640	Sex Drugs Rock N Roll
KMB631	World Music
KMN648	Australian Music Culture
KMB638	Sound And Image
KMB667	Music and Spirituality

## ■ Bachelor of Creative Industries (Honours) (Creative Writing/Media and Communication/Communication Design/Dance/Drama/Interdisciplinary/Visual Arts) (KK52)

**Award title:** Bachelor of Creative Industries (Honours) (Study Area A)

**CRICOS code:** 040321G

**Location:** Kelvin Grove

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 Semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Glen Thomas

**Discipline coordinators:** Dance: Aspro Cheryl Stock ; Drama: Ms Christine Comans; Interdisciplinary: Dr Paul Makeham; Visual Arts: Mr Daniel Mafe; Media and Communication: Dr Christina Spurgeon; Communication Design: Dr Angelina Russo; Creative Writing: Dr Glen Thomas

### Entry Requirements

Normally students will apply within the final year of their pass degree. Except where otherwise specified, applicants **MUST** have: completed a Bachelor degree in the relevant discipline area from QUT, or a similar degree from QUT or another university **AND** achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a course GPA of 5 on a seven-point scale).

Alternatively, candidates may be accepted for admission by the Faculty Academic Board, after advice from the Course Coordinator regarding evidence of other relevant qualifications and/or experience.

### Course Structure

#### Year 1, Semester 1

KKN004-1	Honours Project (1/5)
KKN004-2	Honours Project (2/5)
KKN020	Approaches to Enquiry in the Creative Industries
	One unit from List A*

#### Year 1, Semester 2

KKN004-3	Honours Project (3/5)
KKN004-4	Honours Project (4/5)
KKN004-5	Honours Project (5/5)
KKN002	Honours Graduate Seminar

#### \*List A

KTN200	Dramaturgy
KVB004	Contemporary Aesthetic Debates
KWP103	Creative Writing: Novel & Genre
KPP104	Film And Television Production Theory
KJP105	Theories Of Journalism
KCP110	Global Media and Communications Policy

**Note:** Students may choose from units offered elsewhere in the University, which are deemed by the Discipline Coordinator to be relevant to the research project.

## ■ Bachelor of Fine Arts (Honours) (Dance/Creative Writing/Film & Television Production/Visual Arts/Communication Design) (KK53)

**Award title:** Bachelor of Fine Arts (Honours) (Study Area A)

**CRICOS code:** 040320G

**Location:** Kelvin Grove

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 Semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Glen Thomas

**Discipline coordinator:** Dance: Aspro Cheryl Stock ; Visual Arts: Mr Daniel Mafe; Communication Design: Dr Angelina Russo; Creative Writing: Dr Glen Thomas; Film and Television: Ms Helen Yeates

### Entry Requirements

Normally students will apply within the final year of their pass degree. Except where otherwise specified, applicants **MUST** have: completed a Bachelor degree in the relevant discipline area from QUT, or a similar degree from QUT or another university; achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a course GPA of 5 on a seven-point scale). Alternatively, candidates may be accepted for admission by the Faculty Academic Board, after advice from the Course Coordinator regarding evidence of other relevant qualifications and/or experience.

### Course Structure

#### Year 1, Semester 1

KKN004-1 Honours Project (1/5)

KKN004-2 Honours Project (2/5)

KKN020 Approaches to Enquiry in the Creative Industries  
One unit from List A

#### Year 1, Semester 2

KKN004-3 Honours Project (3/5)

KKN004-4 Honours Project (4/5)

KKN004-5 Honours Project (5/5)

KKN002 Honours Graduate Seminar

### List A - Creative Industries Honours Electives

KTN200 Dramaturgy

KVB004 Contemporary Aesthetic Debates

KWP103 Creative Writing: Novel & Genre

KPP104 Film And Television Production Theory

KJP105 Theories Of Journalism

KCP110 Global Media and Communications Policy

\*Students may choose from units offered elsewhere in the University, which are deemed by the Discipline Coordinator to be relevant to the research project.

## ■ Bachelor of Journalism (Honours) (KK54)

**Award title:** Bachelor of Journalism (Honours)

**CRICOS code:** 040326B

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Glen Thomas

**Discipline coordinator:** Dr Lee Duffield

### Entry Requirements

Applicants must have completed a Bachelor degree in the relevant discipline area from QUT or a similar degree from QUT or another university, and must have achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a GPA of 5 on a seven-point scale). Alternatively,

candidates may be accepted for admission by the Faculty Academic Board, after advice from the Course Coordinator regarding evidence of other relevant qualifications and/or experience.

### Course Structure

#### Year 1, Semester 1

KKN004-1 Honours Project (1/5)

KKN004-2 Honours Project (2/5)

KKN020 Approaches to Enquiry in the Creative Industries

KJP105 Theories Of Journalism

#### Year 1, Semester 2

KKN004-3 Honours Project (3/5)

KKN004-4 Honours Project (4/5)

KKN004-5 Honours Project (5/5)

KKN002 Honours Graduate Seminar

## ■ Bachelor of Music (Honours) (KK55)

**Award title:** Bachelor of Music (Honours)

**CRICOS code:** 031574E

**Location:** Kelvin Grove

**Course duration (full-time):** 1 Year Full-time

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Glen Thomas

**Discipline coordinator:** Dr Andrew Brown

### Entry Requirements

Normally students will apply within the final year of their pass degree. Except where otherwise specified, applicants **MUST** have: completed a Bachelor degree in the relevant discipline area from QUT, or a similar degree from QUT or another university **AND** achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a course GPA of 5 on a seven-point scale).

Alternatively, candidates may be accepted for admission by the Faculty Academic Board, after advice from the Course Coordinator regarding evidence of other relevant qualifications and/or experience.

### Course Structure

#### Year 1, Semester 1

KKN004-1 Honours Project (1/5)

KKN004-2 Honours Project (2/5)

KKN020 Approaches to Enquiry in the Creative Industries  
Elective

#### Year 1, Semester 2

KKN004-3 Honours Project (3/5)

KKN004-4 Honours Project (4/5)

KKN004-5 Honours Project (5/5)

KKN002 Honours Graduate Seminar

### List A - Creative Industries Honours Electives

KTN200 Dramaturgy

KVB004 Contemporary Aesthetic Debates

KWP103 Creative Writing: Novel & Genre

KPP104 Film And Television Production Theory

KJP105 Theories Of Journalism

KCP110 Global Media and Communications Policy

Students may choose from units offered elsewhere in the University, which are deemed by the Discipline Coordinator to be relevant to the research project

## ■ Bachelor of Creative Industries (Communication Design) (KI32)

**Award title:** Bachelor of Creative Industries (Communication Design)

**CRICOS code:** 040304G

**Location:** Kelvin Grove

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Greg Hooper

## BCI Communication Design

### Year 1, Semester 1

- KIB801 Foundations Of Communication Design 1  
KIB807 Media Technology 1  
Creative Industries Core Unit - List A  
Creative Industries Core Unit - List A

### Year 1, Semester 2

- KIB802 Foundations Of Communication Design 2  
KIB808 Media Technology 2  
Creative Industries Core Unit - List A  
Elective

### Year 2, Semester 1

- KIB803 Temporal Media

Elective

### Year 3, Semester 2

- KIB056 Professional Practice  
KIB817 Project Management  
Elective  
Elective

**Note:** Students must enrol in either a Submajor plus 2 open electives (OUTSIDE the Communication Design offering) OR a Minor plus 4 open electives (OUTSIDE the Communication Design offering).

## Creative Industries Core Units - Communication Design

- KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries

## Interaction Design Choices

### Interaction Design

For students interested in a deeper knowledge of Interaction Design, the following List B electives are recommended:

- KIB815 Inter-facing Media  
KIB821 Mixed Realities  
KIB822 Informational Arts

## Communication Design Choices

### Communication Design

For students interested in a deeper knowledge of Communication Design, the following List B electives are recommended

- KIB811 Visual Interactions  
KIB813 Contemporary Issues In Design and Technology  
KIB814 Enabling Immersion  
KIB825 Animation Practices

## List B: Communication Design Electives

### Semester 1 electives

- KIB811 Visual Interactions  
KIB813 Contemporary Issues In Design and Technology  
KIB814 Enabling Immersion  
KIB819 Electronic Publishing  
KIB820 3-D Animation 2  
KIB822 Informational Arts  
KMB626 Music And Sound For Multimedia

### Semester 2 electives

- KIB815 Inter-facing Media  
KIB819 Electronic Publishing  
KIB821 Mixed Realities  
KIB825 Animation Practices  
KMB626 Music And Sound For Multimedia

## Sub-Majors

### Art and Visual Culture (KAV)

- Introductory Units - compulsory  
KVB702 Australian and Indigenous Art

- KVB447 Drawing  
Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor  
KVB712 Contemporary Art Issues (required)  
KVB701 Modernism (required)  
KVB444 Contemporary Asian Visual Culture  
KVB703 Video Art And Culture  
KVB457 Sculpture  
KVB704 Theories Of Spatial Culture

### Communication (KCN)

- Introductory Units - compulsory  
KCB101 Communication in the New Economy  
KCB213 Strategic Speech Communication  
Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor  
KWB314 Corporate Writing And Editing  
KWB111 Media Writing  
KCB150 Media And Communications Industries  
KCB311 Political Communication  
KCB334 Media and Communication Research Methods

### Communication Design (KCD)

- Introductory Units - compulsory  
KIB814 Enabling Immersion  
KIB825 Animation Practices  
Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor  
KIB811 Visual Interactions  
KIB808 Media Technology 2  
KIB813 Contemporary Issues In Design and Technology  
KIB804 3-D Animation 1

### Creative and Professional Writing (KCW)

- Introductory Units - compulsory  
KWB250 Introduction To Creative Writing  
KWB380 Creative Nonfiction: Life Writing  
Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor  
KWB315 Persuasive Writing (required)  
KWB314 Corporate Writing and Editing (required)  
KWB381 Creative Nonfiction: Arts, Humour, Travel  
KWB111 Media Writing  
KWB712 Youth and Children's Writing

### Dance (KDN)

- Introductory Units  
KDB125 Deconstructing Dance in History \*  
\*Deconstructing Dance in History can be substituted with either World Dance or Architecture of the Body in Year 1, Semester 1.  
KDB176 Popular Dance Styles  
Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor  
KDX104 Architecture Of The Body  
KDB106 Dance Analysis  
KDB172 World Dance  
KDB114 Australian Dance

### Digital Media (KDM)

- Introductory Units - compulsory  
KCB140 Media And Society: From Printing Press To Internet  
KCB150 Media And Communications Industries  
Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor  
KCB295 Virtual Cultures  
KCB336 New Media Technologies  
KPB209 Australian Television  
KCB204 Globalisation And New Media

### Indigenous Studies (KIS)

- Introductory Units - compulsory  
HHB123 Indigenous Australian Culture Studies  
KWB701 Indigenous Writing  
Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor  
HHB210 Indigenous Australia: Country, Kin And Culture  
HHB255 Indigenous Politics And Political Culture  
JSB352 Indigenous Justice  
EDB007 Culture Studies: Indigenous Education  
KKB704 Indigenous Creative Industries  
HHB276 Indigenous Knowledge: Research Ethics and Protocols \*to be confirmed

### **Interaction Design (KIN)**

	Introductory Units - compulsory
KIB801	Foundations Of Communication Design 1
KIB808	Media Technology 2
	Advanced Units - choose all three required units plus one other to complete submajor; or KIB809 plus any other advanced unit to complete minor
KIB809	Interaction Design (required)
KIB815	Interfacing Media (required)
KIB822	Informational Arts (required)
KIB810	Information Architecture
KIB821	Mixed Realities

### **Journalism (KJO)**

	Introductory Units - compulsory
KJB101	Journalism Information Systems
KJB120	Newsriting
	Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor
KJB121	Journalistic Inquiry (required)
KJB224	Feature Writing (required)
KJB239	Journalism Ethics And Issues
KJB280	International Journalism
KJB339	Fashion and Style Journalism
KJB337	Public Affairs Reporting

### **Literary and Cultural Studies (KLC)**

	Introductory Units - compulsory
KWB716	Introduction To Literary Theory And Cultural Studies
KWB710	Ozlit
	Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
KWB321	Modern Times: Literature and Culture in the 20th Century
KWB729	Shakespeare, Then And Now
KWB625	American Stories
KWB712	Youth and Children's Writing
KWB724	Wonderlands: Literature And Culture In The 19th Century
KWB725	Popular Fictions, Popular Culture

### **Music and Sound Studies (KMS)**

	Introductory Units - compulsory
KMB640	Sex Drugs Rock N Roll
KMB638	Sound And Image
	Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor
KMB631	World Music (required)
KMB667	Music and Spirituality (required)
KMB621	Sound Recording And Acoustics
KMB619	Music And Sound Technology
KMB649	Introductory Musicianship
KMB650	Introductory Ensemble

### **Screen Studies (KSC)**

	Introductory Units - compulsory
KPB130	Media Text Analysis
KPB305	American Film: Genres and Directors, or
KPB141	Film And Television Languages
	Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
KPB359	Film History
KPB358	Documentary Theory And Practice
KPB343	Australian Film
KPB344	International Cinema

### **Television (KTV)**

	Introductory Units - compulsory
KPB370	Principles of Television
KPB141	Film And Television Languages
	Advanced Units - choose all 4 to complete submajor; or both required units to complete minor
KPB314	Media Business (required)
KPB155	Media Production (required)
KPB260	Community And Educational Video, or
KPB185	Informational Production
KPB371	Advanced Principles of Television

### **Performance Studies (KTP)**

	Introductory Units - compulsory
KTB208	Elements Of Drama
KTB251	20th Century Performance
	Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
KSB259	The Performance Instrument: Body And Voice
KTB271	Studies In Directing
KTB061	Creative Industries Management

KTB062	Creative Industries Events & Festivals
--------	--

KTB257	Studies In Acting 1
--------	---------------------

KTB258	Studies In Acting 2
--------	---------------------

### **IMPORTANT**

Where it allows, students can take a maximum of 8 units outside the Creative Industries Faculty (depending on the course the student is currently enrolled in). The following submajors/minors are offered through the Faculty of Business. Students may take only ONE of these as a complete submajor. For information about availability of non-Creative Industries Units, contact the Course Coordinator.

### **Advertising (KAD)**

	Introductory Units - compulsory
BSB126	Marketing
AMB200	Consumer Behaviour
	Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
AMB220	Advertising Theory and Practice
AMB222	Media Planning
AMB221	Advertising Copywriting
AMB320	Advertising Management
AMB321	Advertising Campaigns

### **Entrepreneurship (KEN)**

	Introductory Units - compulsory
BSB126	Marketing
BSB115	Management, People and Organisations
	Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
MGB223	Creating New Enterprises
MGB218	Venture Skills
BSB212	Electronic Business Applications
AMB241	E-Marketing Strategies
AMB202	Integrated Marketing Communication
AMB251	Innovation and Market Development

### **Public Relations (KPR)**

	Introductory Units - compulsory
BSB126	Marketing
AMB201	Marketing and Audience Research
	Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
AMB260	Public Relations Theory and Practice
AMB261	Media Relations and Publicity
AMB262	Public Relations Writing
AMB361	Public Relations Campaigns

## **Creative Industries Open Electives**

### **Creative Industries Faculty Elective List**

These unit offerings are current at the time of publication but are subject to change.

Creative Industries students may choose elective units from the following list OR from outside the Faculty area subject to the following guidelines:

- students cannot select a unit that forms part of the compulsory units of their course or the compulsory units of their chosen submajor area.
- students must obey any elective rules as set out in their course summary sheet
- students must have successfully completed any pre/co-requisite units applicable
- the offering of elective units is subject to sufficient student enrolment numbers and staff availability
- some units are subject to quota restrictions

### **Semester 1**

	<b>Media &amp; Communication Discipline</b>
KCB101	Communication in the New Economy
KCB140	Media And Society: From Printing Press To Internet
KCB295	Virtual Cultures
KCB311	Political Communication
	<b>Dance Discipline</b>

KTB273 Performance 1

#### Year 2, Semester 1

Creative Industries Core Unit  
KTB252 The Sound Of Theatre  
KSB278 Technical Theatre  
Elective

#### Year 2, Semester 2

Creative Industries Core Unit  
KTB304 Forming Knowledge  
Elective  
Elective

#### Year 3, Semester 1

KTB253 Staging Australia  
KTB275 Understanding Performance  
Elective  
Elective

#### Year 3, Semester 2

KTB272 Drama And Community Cultural Development  
Elective  
Elective  
Elective

### BCI (Drama) Electives Semester 1

KKB320 Workplace Learning  
KKB057 Independent Study  
KTB061 Creative Industries Management  
KTB308 Performance 2  
KTB277 Physical Theatre  
KTB306 Directing for Theatre\*  
KTB310 Studies in Acting 3\*

\*3rd year students only

**Note:** KKB057 Independent Study is available only to third year students. Conditions apply - see course coordinator.

### BCI (Drama) Electives Semester 2

KKB320 Workplace Learning  
KKB057 Independent Study  
KTB056 Professional Studies: Performing Self  
KTB061 Creative Industries Management  
KTB258 Studies In Acting 2  
KTB280 Drama As Social Action  
KTB307 Writing For Performance  
KTB062 Creative Industries Events & Festivals  
KTB309 Performance 3\*

\*3rd year students only

**Note:** KKB057 Independent Study is available only to third year students. Conditions apply - see course coordinator.

### List A: Creative Industries Core Units

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

### Sub-Majors

Please refer to the Sub-Majors list under KI32 Bachelor of Creative Industries (Communication Design).

### Creative Industries Open Electives

Please refer to the Creative Industries Open Electives list under KI32 Bachelor of Creative Industries (Communication Design).

## ■ Bachelor of Creative Industries (Interdisciplinary) (KK32)

**Award title:** Bachelor of Creative Industries

**CRICOS code:** 040297B

**Location:** Kelvin Grove and Caboolture

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Paul Makeham

## Course Design

In addition to selecting core studies in creative industries from units covering Narrative in the Creative Industries, Creative Industries, Cultures and Creativity, Writing for Creative Industries and Introduction to Multimedia, students can choose from the following structures:

### Structure One:

4 Creative Industries Core Units  
3 Submajors (6 units each)  
2 Electives  
or

### Structure Two:

4 Creative Industries Core Units  
2 Submajors (6 units each)  
1 Minor (4 units)  
4 Electives  
or

### Structure Three:

4 Creative Industries Core Units  
2 Submajors (6 units each)  
2 Minors (4 units each)  
No elective units

### Study Areas:

Art and Visual Culture  
Communication  
Communication Design  
Creative and Professional Writing  
Dance  
Digital Media  
Indigenous Studies  
Interaction Design  
Journalism  
Literary and Cultural Studies  
Music and Sound Studies  
Screen Studies  
Television  
Performance Studies

Students may complement their studies with units from another QUT Faculty including Business, Information Technology, Science, Law, Health, Built Environment and Engineering, Education and Social Science. Please note that submajors in Entrepreneurship, Advertising and Public Relations are available through the Faculty of Business.

In their final year Bachelor of Creative Industries students will have the opportunity to engage in internships, industry placements and practical projects in order to prepare themselves for entry-level positions in their chosen career.

## Course Structure - Overview

Students are required to conform to one of the following three course structures:

### STRUCTURE ONE

Four Creative Industries Core Units  
Three submajors ( 6 units each)  
Two elective units

#### Year 1, Semester 1

Creative Industries Core Unit - List A  
Sub-Major One  
Sub-Major Two  
Sub-Major Three

#### Year 1, Semester 2

Creative Industries Core Unit - List A  
Sub-Major One  
Sub-Major Two  
Sub-Major Three

#### Year 2, Semester 1

Creative Industries Core Unit - List A  
Sub-Major One  
Sub-Major Two  
Sub-Major Three

#### Year 2, Semester 2

Creative Industries Core Unit - List A  
Sub-Major One  
Sub-Major Two  
Sub-Major Three

#### Year 3, Semester 1

Sub-Major One  
Sub-Major Two  
Sub-Major Three  
Elective

#### Year 3, Semester 2

Sub-Major One  
Sub-Major Two  
Sub-Major Three  
Elective

### STRUCTURE TWO

Four Creative Industries Core Units  
Two submajors (6 units each)  
One minor (4 units each)  
Four elective units

#### Year 1, Semester 1

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Minor

#### Year 1, Semester 2

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Minor

#### Year 2, Semester 1

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Elective

#### Year 2, Semester 2

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Elective

#### Year 3, Semester 1

Sub Major One  
Sub Major Two  
Minor  
Elective

#### Year 3, Semester 2

Sub Major One  
Sub Major Two  
Minor  
Elective

### STRUCTURE THREE

Four Creative Industries Core Units  
2 Submajors  
2 Minors  
No Electives

#### Year 1, Semester 1

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Minor One

#### Year 1, Semester 2

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Minor Two

#### Year 2, Semester 1

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Minor One

#### Year 2, Semester 2

Creative Industries Core Unit - List A  
Sub Major One  
Sub Major Two  
Minor Two

#### Year 3, Semester 1

Sub Major One  
Sub Major Two  
Minor One  
Minor Two

**Year 3, Semester 2**

Sub Major One  
Sub Major Two  
Minor One  
Minor Two

**List A: Creative Industries Core Units**

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

**Sub-Majors**

Please refer to the Sub-Majors list under KI32 Bachelor of Creative Industries (Communication Design).

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under KI32 Bachelor of Creative Industries (Communication Design).

**Caboolture Course Structure - Overview**

*Students are required to follow one of the following three course structures as detailed below:*

**COURSE STRUCTURE ONE**

If you are completing pathways A or B, you can choose to follow this structure:

4 Creative Industries Faculty Core Units  
1 Pathway (A or B)  
2 Creative Industries Submajors  
2 Electives

**Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology  
Pathway A or B (3 units - each 12cp)

**Year 1, Semester 2**

KKB018 Creative Industries  
Continue with the first semester pathway (3 units - each 12cp)

**Year 2, Semester 1**

Creative Industries Faculty Core Unit  
Submajor One  
Submajor One  
Submajor Two

**Year 2, Semester 2**

Creative Industries Faculty Core Unit  
Submajor One  
Submajor One  
Submajor Two

**Year 3, Semester 1**

Submajor One  
Submajor Two  
Submajor Two  
Elective

**Year 3, Semester 2**

Submajor One  
Submajor Two  
Submajor Two  
Elective

**COURSE STRUCTURE TWO**

If you are completing pathways A or B you can choose to follow this structure:

4 Creative Industries Faculty Core Units  
1 Pathway (A or B)  
1 Creative Industries Submajor  
1 Minor  
4 Electives, or

If you are completing pathways C, D or E, you can choose to follow this structure:

4 Creative Industries Faculty Core Units  
1 Pathway (C, D or E)  
2 Creative Industries Submajors  
2 Electives

**Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology  
Any Pathway - A, B, C, D, E

**Year 1, Semester 2**

KKB018 Creative Industries  
Continue with the first semester pathway

**Year 2, Semester 1**

Creative Industries Faculty Core Unit  
Submajor One

Submajor One

Submajor Two (if you completed pathway C, D or E), or  
Minor (if you completed pathway A or B)

**Year 2, Semester 2**

Creative Industries Faculty Core Unit

Submajor One

Submajor One

Submajor Two (if you completed pathway C, D or E), or  
Minor (if you completed pathway A or B)

**Year 3, Semester 1**

Submajor One

Minor (if you completed pathway A or B)

Elective (if you completed pathway A or B), or

Submajor Two (if you completed pathway C, D or E)

Submajor Two (if you completed pathway C, D or E)

Elective (all pathways)

**Year 3, Semester 2**

Submajor One

Minor (if you completed pathway A or B)

Elective (if you completed pathway A or B), or

Submajor Two (If you completed pathway C, D or E)

Submajor Two (if you completed pathway C, D or E)

Elective (all pathways)

**COURSE STRUCTURE THREE**

If you are completing pathways A or B you can choose to follow this structure:

4 Creative Industries Faculty Core Units  
1 Pathway (A or B)  
1 Creative Industries Submajor  
2 Minors  
No Elective Units

**Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology  
Pathway A or B (3 units - each 12cp)

**Year 1, Semester 2**

KKB018 Creative Industries  
Continue with the first semester pathway (3 units - each 12cp)

**Year 2, Semester 1**

Creative Industries Faculty Core Unit

Submajor One

Submajor One

Minor One

**Year 2, Semester 2**

Creative Industries Faculty Core Unit

Submajor One

Submajor One

Minor One

**Year 3, Semester 1**

Minor Two

**Caboolture Pathways**

**PATHWAY A**

**Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology  
EDB001 Teaching and Learning Studies 1: Teaching in New Times  
EDB006 Learning Networks  
CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies

**Year 1, Semester 2**

KKB018 Creative Industries  
EDB007 Culture Studies: Indigenous Education

Choose two units from:

CLB006 Primary Curriculum and Pedagogies: Language and Literacies  
1

MDB002 Primary Curriculum and Pedagogies: Mathematics 1

CLB002 Computer Applications in BCT

**Years 2 & 3 at Kelvin Grove to complete course:**

2 Creative Industries Faculty Core Units; 2 Creative Industries Submajors  
and 2 electives

OR

2 Creative Industries Faculty Core Units; 1 Creative Industries Submajor;  
1 Creative Industries Minor and 4 electives

OR

2 Creative Industries Faculty Core Units; 1 Creative Industries submajor;

2 Creative Industries Minors and no electives

#### **PATHWAY B**

##### **Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology

BSB126 Marketing

Choose two units from:

BSB110 Accounting

BSB113 Economics

BSB114 Government, Business and Society

BSB119 International and Electronic Business

BSB122 Quantitative Analysis and Finance

##### **Year 1, Semester 2**

KKB018 Creative Industries

BSB115 Management, People and Organisations

Choose two units from:

BSB110 Accounting

BSB113 Economics

BSB114 Government, Business and Society

BSB119 International and Electronic Business

BSB122 Quantitative Analysis and Finance

##### **Years 2 & 3 at Kelvin Grove to complete course:**

2 Creative Industries Faculty Core Units; 2 Creative Industries Submajors  
and 2 electives

OR

2 Creative Industries Faculty Core Units; 1 Creative Industries Submajor;

1 Creative Industries Minor and 4 electives

OR

2 Creative Industries Faculty Core Units; 1 Creative Industries Submajor;

2 Creative Industries Minors and no electives

#### **PATHWAY C**

##### **Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology

EDB006 Learning Networks

CLB004 Integrated Foundation Studies 1: Visual and Verbal Language  
and Literacies  
Elective

##### **Year 1, Semester 2**

KKB018 Creative Industries

EDB001 Teaching and Learning Studies 1: Teaching in New Times

EDB007 Culture Studies: Indigenous Education  
Elective

##### **Years 2 & 3 at Kelvin Grove to complete course:**

2 Creative Industries Faculty Core Units; 2 Creative  
Industries Submajors and 2 electives

#### **PATHWAY D**

##### **Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology

BSB126 Marketing

Elective

Choose one unit from:

BSB110 Accounting

BSB113 Economics

BSB114 Government, Business and Society

BSB119 International and Electronic Business

BSB122 Quantitative Analysis and Finance

##### **Year 1, Semester 2**

KKB018 Creative Industries

BSB115 Management, People and Organisations  
Elective

Choose one unit from:

BSB110 Accounting

BSB113 Economics

BSB114 Government, Business and Society

BSB119 International and Electronic Business

BSB122 Quantitative Analysis and Finance

##### **Years 2 & 3 at Kelvin Grove to complete course:**

2 Creative Industries Faculty Core Units; 2 Creative  
Industries Submajors and 2 electives

#### **PATHWAY E**

##### **Year 1, Semester 1**

KKB818 Introduction To Multimedia Technology

HHB116 Applied Skills And Scholarship

KKB618 Writing For Creative Industries

KKB818 Introduction To Multimedia Technology

### **Sub-Majors**

Please refer to the Sub-Majors list under KI32 Bachelor of Creative Industries (Communication Design).

### **Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under KI32 Bachelor of Creative Industries (Communication Design).

## ■ Bachelor of Creative Industries (Television) (KP32)

**Award title:** Bachelor of Creative Industries (Television)

**CRICOS code:** 048294G

**Location:** Kelvin Grove

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Alan McKee

**Discipline coordinator:** Aspro Geoff Portmann

### Course Structure

#### Year 1, Semester 1

- KPB370 Principles of Television
- KPB155 Media Production  
OR options below:  
If a student has advanced standing in skills and approaches taught in KPB155 Media Production, they may opt to take one of the following as a required unit:
- KPB118 Photomedia: Traditions and Techniques, or  
KWB111 Media Writing, or  
KIB801 Foundations Of Communication Design 1, or  
KMB621 Sound Recording And Acoustics  
Creative Industries Core Unit  
Elective

#### Year 1, Semester 2

- KPB141 Film And Television Languages
- KPB185 Informational Production  
Creative Industries Core Unit  
Elective

#### Year 2, Semester 1

- KPB372-1 Televisual Formats
- KCB349 Media Audiences  
Creative Industries Core Unit  
Elective

#### Year 2, Semester 2

- KPB372-2 Televisual Formats
- KPB371 Advanced Principles of Television  
OPTIONS - students who have not taken options from Year 1, Semester 1 may do so:
- KVB509 Photomedia and Artistic Practice , or  
KMB638 Sound And Image, or  
KWB229 Film And Television Scriptwriting  
Creative Industries Core Unit

#### Year 3, Semester 1

- KPB275 Television Online
- KPB314 Media Business, or  
KPB209 Australian Television  
Elective, or  
KKB340-1 Workplace Learning

#### Year 3, Semester 2

- KKB320 Workplace Learning , or  
KKB330 Workplace Learning , or  
KKB340-2 Workplace Learning  
KJB130 Factual Television  
Elective  
Elective (if student chooses either KKB320 or KKB340-2 Workplace Learning unit)

### List A: Creative Industries Core Units

- KKB008 Narrative in the Creative Industries
- KKB018 Creative Industries
- KKB418 Cultures and Creativity
- KKB618 Writing For Creative Industries
- KKB818 Introduction To Multimedia Technology

### Sub-Majors

Please refer to the Sub-Majors list under KI32 Bachelor of Creative Industries (Communication Design).

## ■ Bachelor of Creative Industries (Visual Arts) (KV32)

**Award title:** Bachelor of Creative Industries (Visual Arts)

**CRICOS code:** 040295D

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Aspro David Hawke

**Discipline coordinator:** Aspro David Hawke

### Course Structure

#### Year 1, Semester 1

- KVB740 Studio Art Practice 1
- KVB702 Australian and Indigenous Art  
Creative Industries Core Unit

Elective

#### Year 3, Semester 2

- Elective  
Elective  
Elective  
Elective

### List A: Creative Industries Core Units

- KKB008 Narrative in the Creative Industries
- KKB018 Creative Industries
- KKB418 Cultures and Creativity
- KKB618 Writing For Creative Industries
- KKB818 Introduction To Multimedia Technology

### Sub-Majors

Please refer to the Sub-Majors list under KI32 Bachelor of Creative Industries (Communication Design).

### Visual Arts Electives

- KVB447 Drawing
- KVB457 Sculpture
- KVB503 Clay Materials
- KVB507 Painting
- KVB509 Photomedia and Artistic Practice
- KVB511 Printmaking
- KVB751 Extended Studio Practice 1
- KVB752 Extended Studio Practice 2
- KVB755 Foundations of Drawing for Animation
- KVB756 Foundations of Drawing For Animation 2
- KVB759 Visual Promotion
- KVB703 Video Art And Culture
- KVB702 Australian and Indigenous Art

### Creative Industries Open Electives

Please refer to the Creative Industries Open Electives list under KI32 Bachelor of Creative Industries (Communication Design).

## ■ Bachelor of Fine Arts (Acting) (KS25)

**Award title:** Bachelor of Fine Arts (Acting)

**CRICOS code:** 040300A

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dianne Eden

**Discipline coordinator:** Dianne Eden

### Course Structure

#### Year 1, Semester 1

- KSB202 Acting 1
- KSB204 Voice And Movement 1

Creative Industries Core Unit  
Elective (see note 1)

**Year 1, Semester 2**

KSB203 Acting 2  
KSB205 Voice And Movement 2  
KTB251 20th Century Performance  
Creative Industries Core Unit

**Year 2, Semester 1**

KSB011 Music Theatre Skills  
KSB247 Acting 3  
KSB233 Voice And Movement 3  
Elective (see note 1)

**Year 2, Semester 2**

KSB012 Music Theatre Project  
KSB248 Acting 4  
KSB234 Voice And Movement 4  
KTB271 Studies In Directing

**Year 3, Semester 1**

KTB253 Staging Australia  
KSB255 Theatre Project 1

**Year 3, Semester 2**

KSB056 Professional Studies  
KSB256 Theatre Project 2

**Note:**

1. Students must choose two electives from outside the Acting discipline.  
2. KSB202 and KSB203 are Designated units. These units are compulsory units which result in the development of particular skills and abilities. A satisfactory level of performance in a designated unit is a grade of 3 or higher, or S-Satisfactory. This level of achievement is required for successful completion of this course. See Student Rules for more details.

**List A: Creative Industries Core Units**

KIB056-2 Professional Practice (2/2)  
Elective

**List A: Creative Industries Core Units**

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

**Sound Design**

**For continuing students who commenced the program prior to 2005.**

**Year 2, Semester 1**

KIB809 Interaction Design  
KMB626 Music And Sound For Multimedia  
KMB659 Music Production 3  
Choose one of the following:  
KMB640 Sex Drugs Rock N Roll

KMB631 World Music

**Year 2, Semester 2**

Creative Industries Core Unit

KIB815 Inter-facing Media

KMB635 Sound Media Musicianship

KMB660 Music Production 4

**Year 3, Semester 1**

KMB618 Soundtracks For Film And Television

KMB661-1 Music Production 5

Elective

**Year 3, Semester 2**

KIB056 Professional Practice

KMB661-2 Music Production 5

Elective

**Animation**

**For continuing students who commenced the program prior to 2005.**

**Year 2, Semester 1**

KIB803 Temporal Media

KIB804 3-D Animation 1

KIB809 Interaction Design

KDX104 Architecture Of The Body

**Year 2, Semester 2**

KIB820 3-D Animation 2

KIB821 Mixed Realities

KSB200 Acting for Animators

Students who have not completed KIB816 should enrol in KKB008

**Year 3, Semester 1**

KIB805 Design Project A

KIB813 Contemporary Issues In Design and Technology

KIB826 3-D Animation 3

Elective

**Year 3, Semester 2**

KIB806 Design Project B

KIB056 Professional Practice

Elective

**Interaction Design**

**For continuing students who commenced the program prior to 2005.**

**Year 2, Semester 1**

KIB803 Temporal Media

KIB809 Interaction Design

KIB804 3-D Animation 1

Students who have not completed KIB816 should enrol in KKB008

**Year 2, Semester 2**

KIB810 Information Architecture

KIB815 Inter-facing Media

KIB821 Mixed Realities

PYB057 Applied Cognitive Psychology

**Year 3, Semester 1**

KIB805 Design Project A

KIB813 Contemporary Issues In Design and Technology

KIB822 Informational Arts

Elective

**Year 3, Semester 2**

KIB056 Professional Practice

KIB806 Design Project B

Elective

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under K132 Bachelor of Creative Industries (Communication Design).

**■ Bachelor of Fine Arts (Creative Writing Production) (KW25)**

**Award title:** Bachelor of Fine Arts (Creative Writing Production)

**CRICOS code:** 040306F

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Sharyn Pearce

**Discipline coordinator:** Aspro Philip Neilsen

**Course Structure**

**Year 1, Semester 1**

KWB250 Introduction To Creative Writing

KWB111 Media Writing

Creative Industries Core Unit

Elective

**Year 1, Semester 2**

KWB350 Creative Writing: The Short Story

Elective

Elective

**Year 3, Semester 2**

KWB396 Creative Writing Project 2

KWB399 The Writing And Publishing Industry

**List A: Creative Industries Core Units**

KKB008 Narrative in the Creative Industries

KKB018 Creative Industries

KKB418 Cultures and Creativity

KKB618 Writing For Creative Industries

KKB818 Introduction To Multimedia Technology

**Sub-Majors**

Please refer to the Sub-Majors list under K132 Bachelor of Creative Industries (Communication Design).

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under K132 Bachelor of Creative Industries (Communication Design).

**■ Bachelor of Fine Arts (Dance) (KD25)**

**Award title:** Bachelor of Fine Arts (Dance)

**CRICOS code:** 032393B

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mr Evan Jones

**Discipline coordinator:** Aspro Cheryl Stock

**Course Structure**

**Year 1, Semester 1**

KDX111 Performance 1

KDB180 Dance Technique Studies 1

KDX104 Architecture Of The Body

KDB125 Deconstructing Dance In History

**Year 1, Semester 2**

KDX112 Performance 2

KDB181 Dance Technique Studies 2

KDX143 Choreographic Studies 1

KDB106 Dance Analysis

**Year 2, Semester 1**

Creative Industries Core Unit - List A

KDX141 Performance 3

KDB182 Dance Technique Studies 3

KDX144-1 Choreographic Studies 2

**Year 2, Semester 2**

KDX142 Performance 4

KDB183 Dance Technique Studies 4

KDX144-2 Choreographic Studies 2

KDB114 Australian Dance  
KDB221 Integrated Professional Skills  
**Year 3, Semester 1**  
Creative Industries Core Unit - List A  
Choose one of the following:

KDB193 Dance Project 1A  
KKB320 Workplace Learning  
Choose two of the following units:  
KDB158 Dance And Technology 1  
KDB172 World Dance  
KSB011 Music Theatre Skills  
Elective

**Year 3, Semester 2**  
Choose one of the following units:  
KDB199 Dance Project 1B  
KKB320 Workplace Learning  
Choose three from the following:

KDB159 Dance And Technology 2  
KSB012 Music Theatre Project  
KDB171 Theatre Dance Styles  
Elective  
Elective

**Note:** Students wishing to graduate with the Bachelor of Fine Arts (Dance) must have completed two units outside the Dance area.

### List A: Creative Industries Core Units

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

### Creative Industries Open Electives

Please refer to the Creative Industries Open Electives list under K132 Bachelor of Creative Industries (Communication Design).

## ■ Bachelor of Fine Arts (Fashion Design) (KF25)

**Award title:** Bachelor of Fine Arts (Fashion Design)

**CRICOS code:** 046860J

**Location:** Kelvin Grove

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Aspro Suzi Vaughan

**Discipline coordinator:** Aspro Suzi Vaughan

### Course Structure

**Year 1, Semester 1**  
KFB401 Design Studio 1  
KVB757-1 Drawing For Fashion 1 (1/2)  
KFB407-1 Textiles (1/2)  
Creative Industries Core Unit - List A

**Year 1, Semester 2**  
KFB402 Design Studio 2  
KVB757-2 Drawing for Fashion 1 (2/2)  
KFB407-2 Textiles (2/2)  
KFB408 Fashion In Context

**Year 2, Semester 1**  
KVB758-1 Drawing for Fashion 2 (1/2)  
KFB410-1 Research Seminar (1/2)  
KFB403 Design Studio 3  
Creative Industries Core Unit - See List A

**Year 2, Semester 2**  
KFB404 Design Studio 4  
KVB758-2 Drawing for Fashion 2 (2/2)  
KFB410-2 Research Seminar (2/2)  
Elective  
Fashion Elective - choose one from:

KFB411 Advanced Textiles  
KVB759 Visual Promotion  
KJB339 Fashion and Style Journalism

**Year 3, Semester 1**  
KFB405 Design Studio 5  
KKB320 Workplace Learning  
KFB412 Applied Planning

Elective

### Year 3, Semester 2

KFB406 Design Studio 6  
KFB056 Professional Studies (Fashion)  
Fashion Elective - choose one from:  
KFB411 Advanced Textiles  
KVB759 Visual Promotion  
KJB339 Fashion and Style Journalism  
KFB414 Cross Media Design Applications  
KFB415 Design Project

### SOME SUGGESTED BUSINESS PATHWAYS AND ELECTIVES

Enterprise Development  
MIB227 Product Innovation And Market Development  
MGB223 Creating New Enterprises  
Marketing and Retailing  
MIB217 Marketing Management  
MIB229 Retail Marketing

### List A: Creative Industries Core Units

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

### Creative Industries Open Electives

Please refer to the Creative Industries Open Electives list under K132 Bachelor of Creative Industries (Communication Design).

## ■ Bachelor of Fine Arts (Film and Television) (KP25)

**Award title:** Bachelor of Fine Arts (Film and Television)

**CRICOS code:** 040299M

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Ms Helen Yeates

**Discipline coordinator:** Aspro Geoff Portmann

### Course Structure

#### Production Pathway

**Year 1, Semester 1**  
KWB111 Media Writing  
KPB155 Media Production  
KPB359 Film History  
Creative Industries Core Unit  
**Year 1, Semester 2**  
KPB141 Film And Television Languages  
KPB185 Informational Production  
KPB305 American Film: Genres and Directors, or  
KPB344 International Cinema  
Creative Industries Core Unit

**Year 2, Semester 1**  
KPB190 Creative Production  
KPB314 Media Business  
KPB118 Photomedia: Traditions and Techniques

**Year 2, Semester 2**  
KPB265 Multi-Camera Television Studio Production  
KWB229 Film And Television Scriptwriting  
KPB358 Documentary Theory And Practice

**Year 3, Semester 1**  
KPB360 Documentary Production  
KPB268 Film And Television Drama Practice  
Elective

**Year 3, Semester 2**  
KPB270 Film Drama Production  
Elective

### Writing for Screen Pathway

**Year 1, Semester 1**  
KWB111 Media Writing  
KWB250 Introduction To Creative Writing  
KPB155 Media Production  
Creative Industries Core Unit

**Year 1, Semester 2**  
KPB185 Informational Production

KWB350 Creative Writing: The Short Story  
Creative Industries Core Unit  
Elective

**Year 2, Semester 1**

KPB190 Creative Production  
KWB229 Film And Television Scriptwriting  
Elective

**Year 2, Semester 2**

KPB265 Multi-Camera Television Studio Production  
KWB380 Creative Nonfiction: Life Writing  
KWB399 The Writing And Publishing Industry

**Year 3, Semester 1**

KPB268 Film And Television Drama Practice  
KWB370 Electronic Writing

KTB307 Writing For Performance

**Year 3, Semester 2**

KPB270 Film Drama Production  
KWB395 Creative Writing Project 1, or  
KWB712 Youth and Children's Writing

**Multimedia Pathway**

**Year 1, Semester 1**

KWB111 Media Writing  
KPB155 Media Production  
KIB801 Foundations Of Communication Design 1  
Creative Industries Core Unit

**Year 1, Semester 2**

KPB185 Informational Production  
KIB802 Foundations Of Communication Design 2  
KIB807 Media Technology 1  
Creative Industries Core Unit

**Year 2, Semester 1**

KPB190 Creative Production  
KPB314 Media Business  
KIB803 Temporal Media

**Year 2, Semester 2**

KPB358 Documentary Theory And Practice  
KIB804 3-D Animation 1  
KMB626 Music And Sound For Multimedia  
Elective

**Year 3, Semester 1**

KPB360 Documentary Production  
KIB809 Interaction Design  
KIB810 Information Architecture

**Year 3, Semester 2**

KWB229 Film And Television Scriptwriting  
KIB815 Inter-facing Media  
KIB821 Mixed Realities  
Elective

**List A: Creative Industries Core Units**

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under K132 Bachelor of Creative Industries (Communication Design).

**■ Bachelor of Fine Arts (Technical Production) (KS26)**

**Award title:** Bachelor of Fine Arts (Technical Production)

**CRICOS code:** 040301M

**Location:** Kelvin Grove

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Ms Sue Benfer

**Discipline coordinator:** Ms Dianne Eden

**Course Structure**

**Year 1, Semester 1**

KSB274 Theatrecraft  
KSB289 Technical Production 1

KSB292 Stage Management 1  
Creative Industries Core Unit

**Year 1, Semester 2**

KMB621 Sound Recording And Acoustics  
KTB251 20th Century Performance  
KSB018 Event Technology Practice  
Creative Industries Core Unit

**Year 2, Semester 1**

KSB290 Technical Production 2  
KSB293 Stage Management 2  
KSB276 Visual Theatre - Design  
Elective (see note 1)

**Year 2, Semester 2**

KSB291 Technical Production 3  
KTB271 Studies In Directing  
KTB061 Creative Industries Management  
Elective (see note 1)

**Year 3, Semester 1**

KSB294 Stage Management 3  
KSB255 Theatre Project 1

**Year 3, Semester 2**

KSB056 Professional Studies  
KSB256 Theatre Project 2

**Note:** Students must choose two electives outside the Technical Production Discipline.

**List A: Creative Industries Core Units**

KKB008 Narrative in the Creative Industries  
KKB018 Creative Industries  
KKB418 Cultures and Creativity  
KKB618 Writing For Creative Industries  
KKB818 Introduction To Multimedia Technology

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under K132 Bachelor of Creative Industries (Communication Design).

**■ Bachelor of Fine Arts (Visual Arts) (KV25)**

**Award title:** Bachelor of Fine Arts (Visual Arts)

**CRICOS code:** 040302K

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Aspro David Hawke

**Discipline coordinator:** Aspro David Hawke

**Course Structure**

**Studio Pathway**

**Year 1, Semester 1**

KVB702 Australian and Indigenous Art  
KVB740 Studio Art Practice 1 \*  
Creative Industries Core Unit

**Year 1, Semester 2**

 KDX144-2 Choreographic Studies 2  
 Choose one of the following:

KSB012 Music Theatre Project  
 KDB171 Theatre Dance Styles  
 Elective

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives list under KI32 Bachelor of Creative Industries (Communication Design).

## ■ Advanced Certificate in Dance Teaching (KD06)

**Award title:** Advanced Certificate in Dance Teaching

**Location:** External

**Course duration (external):** 1 year full-time (3 semesters); 2 years part-time

**Total credit points:** 96

**Course coordinator:** Ms Lesley Graham

**Discipline coordinator:** Aspro Cheryl Stock

### Course Structure

Students are required to complete eight units. Students should contact the Course Coordinator to discuss their enrolment program

### Full-time Students

Select three units from both First and Second semesters and both units in the Summer Program.

### Part-time Students

Select two units from both First and Second semesters and one or both units in the Summer Program.

#### First Semester

- KDB190 Professional Practice And Business Administration For Dance Teachers
- KDB191 Dance Teaching Methodologies
- KDB198 Safe Dance Practice

#### Second Semester

- KDB189 Dance Assessment And Reporting
- KDB190 Professional Practice And Business Administration For Dance Teachers
- KDB191 Dance Teaching Methodologies
- KDB192 Stagecraft And Costume Design For Dance
- KDB197 Dance Analysis And Dance Histories
- KDB198 Safe Dance Practice

#### Summer Program

(Full-time students select both units, part-time students select one or both units)

- KDB195 Dance Teaching Studies 1 (on-campus intensive in Brisbane)
- KDB196 Dance Teaching Studies 2 (on-campus intensive in Brisbane)

KDB190 Professional Practice And Business Administration For Dance Teachers

KDB191 Dance Teaching Methodologies

KDB197 Dance Analysis And Dance Histories

#### Summer Program

KDB195 Dance Teaching Studies 1 (intensive residency in Brisbane) (elective)

## ■ Certificate in Dance Teaching (KD05)

**Award title:** Certificate in Dance Teaching

**Location:** External

**Course duration (full-time):** 1 semester (by external study)

**Course duration (part-time):** 1 year (by external study)

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Ms Lesley Graham

**Discipline coordinator:** Aspro Cheryl Stock

### Course Structure

Students are required to complete four units - the core unit (KDB198) and 3 electives. Students should contact the Course Coordinator to discuss their enrolment program.

### Full-time Students

Select four units (one core (KDB198) and three electives) from either First or Second Semester.

### Part-time Students

Select four units (one core (KDB198) and three electives) across First or Second Semester. Students may choose to replace one elective with the summer residency.

#### First Semester

- KDB198 Safe Dance Practice
- KDB190 Professional Practice And Business Administration For Dance Teachers
- KDB191 Dance Teaching Methodologies

#### Second Semester

- KDB198 Safe Dance Practice
- KDB189 Dance Assessment And Reporting

---

## OVERVIEW

QUT's Faculty of Education is the largest provider of teacher education in Australia with over 5000 students; over 2000 of which are in postgraduate courses.

The strong, practical theme in the faculty's courses provides a balance of theory and practical skills that ensures graduates are not limited by the employment opportunities provided by classroom teaching alone.

Based at the Kelvin Grove campus of QUT, the faculty comprises four schools. All courses meet national and international standards. Our continuing commitment to preservice teacher education is backed by a growing commitment to inservice teacher education and postgraduate programs, and an extension into allied professional and academic areas.

## SENIOR STAFF

### Faculty office

*Dean:* Professor Vi McLean, DipT *BKTC*, BEdSt *Qld*, MEd PhD *Arizona*

*Director, Academic Programs:* Dr I Macpherson, BA DipEd BEd MEdSt *Qld*, PhD *Penn St*, MACE

*Faculty Administration Manager:* B. Zebergs

### School of Cultural and Language Studies in Education

*Head:* Associate Professor J Brannock

*Professor:* N. Kyle, BA(Hons) PhD *N'cle*

*Associate Professors:*

P.A. McKay, BEd *SACAE*, MA *ASU*, PhD *Qld*

P. Singh, DipT *TCAE*, BEdSt(Hons) PhD *Qld*

S.C. Taylor, BSc(Hons) DipEd *Leic*, BEd(Hons) PhD *James Cook*

### School of Early Childhood

*Head:* C. Tayler, DipTeach BEd *MLCAE*, PhD *UWA*, FACE

*Associate Professors:*

S.K. Wright, BEd MEd *Alta*, PhD *Newcastle(NSW)*

### School of Learning & Professional Studies

*Head:* Professor: W. Patton, BEd *James Cook*, BA(Hons) PhD *Qld*

*Professor:* G.M. Boulton-Lewis, CertT *NSW*, MEd *Canberra CAE*, BA PhD *Qld*, FACE

*Associate Professors:*

R.R. Ballantyne, BA(Hons) UED MA *Natal*, PhD *CapeT*

B. Delahaye, BBus *QIT*, MBA *Qld*, PhD *Griff*, CMAHRI, AIMM

R.G. Elliott, BSc, BEd(Hons) PhD *Qld*

### School of Mathematics, Science and Technology Education

*Head:* Professor T.J. Cooper, BSc(Hons) DipEd PhD *Adel*

*Professors:*

L.D. English, DipT BEd MEd *KGCAE*, PhD *Qld*

C.J. McRobbie, BSc BEd *Qld*, MSc *Pacific*, PhD *Monash*, MACE, MRACI

education, support researchers with specialist skills and experiences, students, research assistants, and collaborators across fields of knowledge with potential to inform research in mathematics, science and technology education.

The goals of the Centre are:

- to promote a numerate, scientifically and technology literate society;
- to bring to the community the benefits of learning and research in mathematical, scientific, technological and related domains;
- to provide a focus for teaching, research, development, consultation and postgraduate courses in the areas relating to these domains.

### Centre for Innovation in Education

The Centre for Innovation in Education aims to conduct research in the following three focus areas of education:

- Pedagogy and Lifespan Learning
- Policy Development and Service Delivery
- Learning Organisations in Social Contexts.

These focus areas reflect both the research expertise and recent research achievements of members of the Centre and the broader focus of Faculty research, which has knowledge work as its unifying component.

The CIE aims to contribute to the overall goal of the Faculty to be in the top 10 Australian contributors to internationally recognised educational research, a leader in collaborative research with the education professions, and a nationally recognised innovator in research education.

## RESEARCH CENTRES

### Centre for Mathematics, Science and Technology Education

The Centre for Mathematics, Science and Technology Education is dedicated to developing excellence in mathematics and science education through research and the application of this research to graduate teaching and research training, consultancy, curriculum development and the production of educational resources.

The Centre draws upon staff who are experienced in pre-service, in-service, higher degree and continuing education courses, and in supervising theses in mathematics, science and technology

## ■ Doctor of Education (ED11)

**Award title:** Doctor of Education

**CRICOS code:** 015023C

**Location:** Kelvin Grove

**Course duration (part-time):** 3.5 years for holders of a relevant Masters degree part-time; 4.5 years without a relevant Masters part-time.

**Total credit points:** 288

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Susan Danby

### Entry Requirements

Applicants must possess a four-year education degree or its equivalent with first-class or second-class Honours division A or a masters degree in education or in a field relevant to the professional doctorate in education, AND two years practice in a position of professional responsibility in education or a closely related field.

### Course Structure

The degree consists of 288 credit points of which 72 credit points are coursework, followed by a thesis of 216 credit points. All coursework must be completed before work can commence on the thesis. For the unit Interdisciplinary Education Studies (a 24 credit point unit), students undertake a four-day, on-campus study school in January of their commencing year. Subsequently, in the second and third semesters of their enrolment, students attend two four-day study schools on campus (July and the following January) in which they work on the methodology and design of their thesis (each unit worth 24 credit points).

The thesis is undertaken in the Faculty's research centre. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice.

### Standard Course Structure

#### *Year 1, Semester 1*

EDR703 Interdisciplinary Education Studies (Advanced Seminars)

#### *Year 1, Semester 2*

EDR702/1 Thesis (Preparation)

#### *Year 2, Semester 1*

EDR702/2 Thesis (Preparation)

#### *Year 2, Semester 2*

EDR702/3 Thesis (Confirmation)

Confirmation must occur in the semester of enrolment in EDR702/3.

Students cannot progress to the next stage until they have successfully completed the Thesis Confirmation.

#### *Year 2, Summer Program*

EDR702/4 Thesis (Implementation)

#### *Year 3, Semester 1*

EDR702/5 Thesis (Implementation)

#### *Year 3, Semester 2*

EDR702/6 Thesis (Implementation)

#### *Year 3, Summer Program*

EDR702/7 Thesis (Implementation)

#### *Year 4, Semester 1*

EDR702/8 Thesis (Implementation)

#### *Year 4, Semester 2*

EDR702/9 Thesis (Submission)

## ■ Master of Education (ED13)

**Award title:** Master of Education

### Course discontinued

There is no intake into this course in 2005.

## ■ Master of Education (ED16)

**Award title:** Master of Education

**Location:** Kelvin Grove and External

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Donna Berthelsen

### Course discontinued

There is no intake into this course in 2005.

## ■ Master of Education (Research) (ED12)

**Award title:** Master of Education (Research)

**CRICOS code:** 002501G

**Location:** Kelvin Grove

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Professor Lyn English

### Entry Requirements

Applicants must possess a four-year education-related degree with a grade point average of at least 5 (on a 7-point scale) or equivalent, with demonstrated potential for further study and evidence of professional standing; OR a graduate diploma in an education-related field with a grade point average of at least 5 (on a 7-point scale) or equivalent, with a demonstrated potential for further study and evidence of professional standing; OR an honours degree in an education-related field with a minimum second class Honours division A or B.

Applicants who do not have professional experience in an education-related field would normally be expected to demonstrate their potential for further study with a grade point average of 6 or better.

Admission depends on matching student interests and background to an appropriate supervisor or a supervisory team with relevant expertise as ascertained through interview. A proposal is developed in this initial phase. Candidates who are required to undertake research methodology units as part of their study program should submit their application well before the next formal semester commences to ensure approval processes are finalised in time.

### Course Structure

The course consists of four stages: preparation, confirmation of candidature, implementation and submission of a thesis.

The preparation stage involves the acquisition of knowledge of a range of appropriate research methods, in-depth knowledge of the research method to be used in the study, and commencement of a literature search. During the preparation stage, students will complete the units Professional Applications of Research and Conducting Innovative Research in Educational Contexts. Students who have undertaken prior study of an equivalent nature may apply for an exemption from one or both of these units.

The confirmation of candidature stage includes the adoption of an appropriate research design for the proposed research, preparation of a research proposal including a draft review of the literature and research methods, and presentation and justification of the proposal to other students and academic staff at a confirmation of candidature seminar. The implementation involves execution of the research for the thesis. The submission stage is the completion and presentation of a thesis at a Final Oral seminar for approval by the final oral review panel, followed by production of the thesis in a suitable form for examination.

### Standard Full-time Course Structure

#### *First Semester of Study*

EDN611 Professional Applications of Research

IFN300 Masters Research

**Note:** Students must either undertake EDN611 before EDN612 or undertake them concurrently.

#### *Second Semester of Study*

EDN612 Conducting Innovative Research in Educational Contexts

IFN300 Masters Research

In instances where a candidate has exceeded the normal course duration and an extension of time has been approved students may enrol in:  
IFN101 Full-Time Masters Research (Extension)

### Standard Part-time Course Structure

#### First Semester of Study

EDN611 Professional Applications of Research

IFN302 Masters Research

**Note:** Students must either undertake EDN611 before EDN612 or undertake them concurrently.

#### Second Semester of Study

EDN612 Conducting Innovative Research in Educational Contexts

IFN302 Masters Research

#### Third Semester of Study

IFN200 Masters Research

#### Fourth Semester of Study

IFN200 Masters Research

In instances where a candidate has exceeded the normal course duration and an extension of time has been approved students may enrol in:

IFN201 Part-time Masters Research (extension)

## ■ Master of Education (Teaching English to Speakers of Other Languages - TESOL) (ED14)

**Award title:** Master of Education (TESOL)

**CRICOS code:** 002330K

**Location:** Kelvin Grove

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Jane Crawford

### Entry Requirements

Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Dean of the Faculty OR other qualifications acceptable to the Dean, which may include substantial work experience in TESOL or involvement in other relevant professional research activities AND at least one year's practical experience in some branch of education acceptable to the Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

### Course Structure

Students in the Masters program are required to complete 96 credit points of study including the two compulsory units, Second Language Acquisition and Principles of Second Language Methodology, of 12 credit points each. Students then have the choice of pursuing one of two options:

Option 1: requires the completion of six elective units of 12 credit points each from the list of elective units below:

Second Language Curriculum Design Options

Directed Reading in Second Language Education

Language Assessment and Program Evaluation in TESOL

Personalised Language Development

Technology and Second Language Learning

Adult Literacy and Second Language Learners

Sociolinguistics

From Theory to Practice: Practical Applications in the TESOL Classroom

Grammar for Teachers

English Language Teaching Management

Functional Grammar and Discourse

Language and Culture

Research Methods in Second Language Education

Option 2: requires the completion of elective units and a 24 or 36 credit point research project to total 96 credit points.

Students must consult with the course coordinator to discuss their research topic and complete the appropriate forms before enrolling in research units.

### Graduate Certificate in Education (TESOL) - Exit Point

Following the successful completion of four Master of Education (TESOL) units comprising two core units and two electives, students may elect either to discontinue enrolment and graduate with a Graduate Certificate in Education (TESOL), or to pursue a further four units in order to complete the Master of Education (TESOL).

### Provisional Enrolment

Students who do not meet the entry requirements may be admitted on a provisional basis and be required to undertake preliminary coursework and reading as determined by the course coordinator. After satisfactory completion of the preliminary studies students may be admitted to full candidature.

### Full-time Course Structure

#### First semester of study

CLN608 Second Language Acquisition

CLN612 Principles Of Second Language Methodology

### Elective units

#### Elective list

**Note:** a selection of these units will be offered each semester.

Some electives may be offered in Summer Program.

CLN613 Second Language Curriculum Design Options

CLN614 Research Methods And Second Language Education

CLN615 Directed Reading In Second Language Education

CLN616 Language Assessment And Program Evaluation In Tesol

CLN617 Personalised Language Development

CLN618 Technology And Second Language Learning

CLN619 Functional Grammar And Discourse

CLN620 Language And Culture

CLN640 Sociolinguistics

CLN641 From Theory To Practice -Practical Applications In The Tesol Classroom

CLN642 Grammar For Teachers

CLN643 English Language Teaching Management

CLB339 Adult Literacy And Second Language Learners

**Note:** Assessment for CLB339 is completed at Masters level.

Students must consult with the Course Coordinator to discuss their research topic and to complete the appropriate forms before enrolling in the following:

EDN603 Facilitated Study Unit

EDN608 Project

EDN620 Facilitated Study Unit

EDN611 Professional Applications of Research

EDN612 Conducting Innovative Research in Educational Contexts

## ■ Master of Learning Innovation [previously Master of Education] (ED09)

**Award title:** Master of Learning Innovation

**Location:** Kelvin Grove and External

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Course duration (external):** 1 year full-time or 2 years part-time

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** A/Prof John Lidstone

### Entry Requirements

An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Dean of Faculty, or an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Dean plus at least one year's appropriate professional or industrial experience. Students undertaking the MLI (Teacher-Librarianship) and the MLI (Early Childhood Teaching) study areas must be qualified teachers.

### Professional Recognition

The Teacher-Librarianship study area is undergoing accreditation by the Australian Library and Information Association (ALIA) and will appear on the parchment.

The Early Childhood Teaching Study Area is recognised as a specialist early childhood qualification and will appear on the parchment.

### Course Structure

Students will complete a program of study comprising the two core units and six electives as specified by the course rules and chosen to meet their personal and professional learning needs. In addition, there will be opportunities to complete specialised study in Teacher-Librarianship or Early Childhood Teaching as Study Area A options or a range of Study Area B options.

Graduate Certificate in Education

Students have the option of entering the MLI via the Graduate Certificate in Education or exiting with the award of a Graduate Certificate in Education once they have completed four units.

#### Research Options

To complement the core unit, Professional Applications of Research, the MLI offers a suite of research options which includes:

- a second research methodology unit Conducting Innovative Research in Educational Contexts
- three Facilitated Study Units (FSUs), worth 12, 24 and 36 credit points, equal to one, two or three units respectively
- two Thesis Units, worth 36 and 48 credit points, equal to three and four units respectively.

The Facilitated Study Units are designed to accommodate a breadth of interests and will permit students to make use of existing research to explore a topic of their choice. It is anticipated that a cohort of students undertaking an FSU may meet regularly with a mentor who will guide them in their work. This will culminate in the presentation of a piece of scholarly writing on the chosen topic varying in length from 5000 words for the 12 credit point FSU to 15000 for the 36 credit point FSU.

The 36 and 48 credit point Thesis Units are available to those students who wish to conduct research with an individual supervisor. Conducting Innovative Research in Educational Context is a prerequisite for the thesis units.

The Research Units will be of particular interest to students intending to undertake further research in the Doctor of Education or Doctor of Philosophy programs.

## MLI Full Course Structures

### Course Core Units

EDN610 The Learning Innovator

EDN611 Professional Applications of Research

### Research Units

**■ Graduate Diploma in Education (Early Childhood) - Refer to Master of Learning Innovation (Early Childhood Teaching) (ED20)**

**Award title:** Graduate Diploma in Education (Early Childhood)

**CRICOS code:** Not required

**Location:** Kelvin Grove and External

**Course duration (external):** 2 years

**Total credit points:** 96

**Course coordinator:** Dr Ann Farrell

**Course discontinued**

There is no intake into this course in 2005.

**■ Graduate Diploma in Education (Educational Management) (ED23)**

**Award title:** Graduate Diploma in Education (Educational Management)

**Location:** Kelvin Grove and External

**Total credit points:** 96

**Course coordinator:** Dr Neil Cranston

**Course discontinued**

There is no intake into this course in 2005.

**■ Graduate Diploma in Education (Learning Support) (ED28)- Refer to Master of Learning Innovation**

**Award title:** Graduate Diploma in Education (Learning Support)

**CRICOS code:** Not required

**Location:** Kelvin Grove and External

**Course duration (external):** 1 year full-time or 2 years part-time

**Total credit points:** 96

**Course coordinator:** Dr Ruth Fielding-Barnsley

**Course discontinued**

There is no intake into this course in 2005.

**Course Structure**

**Year 1, Semester 1**

SPP500	Learners With Special Needs
SPP504	Curriculum: Learners With Special Needs
SPP502	Programming For Students With Learning Difficulties/disabilities
AND EITHER	
SPB009	Research Methods in Education
OR	
SPN612	Psychoeducational Assessment

**Year 1, Semester 2**

CLP501	Socio-Cultural Issues In Education
SPP501	Consultation And Communication
SPP503	Literacy And Learning
MDP529	Assessment and Intervention in Mathematics

## ■ Graduate Diploma in Education (Teacher-Librarianship) (ED25)- Refer to Master of Learning Innovation (Teacher-Librarianship)

**Award title:** Graduate Diploma in Education (Teacher Librarianship)

**CRICOS code:** Not required

**Location:** Kelvin Grove and External

**Course duration (external):** 1 year full-time or 2 years part-time

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Kerry Mallan

### Course discontinued

There is no intake into this course in 2005.

## ■ Graduate Certificate in Education (ED61)

**Award title:** Graduate Certificate in Education (Study Area A)

**CRICOS code:** Not required

**Location:** Kelvin Grove and External

**Course duration (full-time):** 1 semester (subject to unit availability)

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Mr Alan Roberts

### Entry Requirements

An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Dean of Faculty, OR an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Dean plus at least one year's appropriate professional or industrial experience.

### Course Structure

The Graduate Certificate in Education course consists of 48 credit points of study from a postgraduate course within the Faculty of Education deemed by the Dean of the Faculty to form a coherent program of study. Units can be presented in internal, external or block mode (where students are required to attend campus for up to five days normally during the January or July school holiday period). In some instances units can be completed in a modularised form which allows students to complete the assessment on a credit point basis.

The areas of interest include adult learning and knowledge management, autistic spectrum disorder, behaviour management, career guidance, early childhood teaching, educational counselling, executive leadership, higher education, information and communication technology, leadership and management, learning futures, learning support and inclusive education, marine studies (advanced), mathematics education (advanced), middle years of schooling, mathematics education, science education.

### Adult Learning and Knowledge Management

SPN623	Strategic Workplace Education and the Learning Organisation
SPN624	Adult and Professional Learning
EDN603	Facilitated Study Unit
SPN637	Managing Knowledge in Learning Organisations
SPN628	Leadership For Change
SPN629	Current Issues In Leadership
SPN622	Preventive Legal Risk Management in Learning contexts
SPN618	Innovative Career Development Program

### Autistic Spectrum Disorder

Module 1: Introduction to Autistic Spectrum Disorder  
Module 2: Behaviour Management for Autistic Spectrum Disorder

EDN603	Facilitated Study Unit
--------	------------------------

SPN615	Managing Learners with Disabilities and Challenging Behaviours
--------	--

### Behaviour Management

SPN615	Managing Learners with Disabilities and Challenging Behaviour
SPN616	Innovations in Programs and Planning for Behaviour Management
SPN617	Foundations of Behaviour and Classroom Management
EDN603	Facilitated Study Unit

### Career Guidance

SPB006	Educational Counselling
SPN610	Advanced Educational Counselling
SPN618	Innovative Career Development Program
SPN619	Constructing Career Theory
SPN620	Career Counselling

### Early Childhood

EAN601	Investigating Curriculum and Pedagogy in Early Childhood
EAN603	Child Development in Context
EAN616	Language, Literacies and Communication in Early Childhood and one of:
EAN615	Mathematics in Early Childhood
EAN614	Arts and Sciences in Early Childhood
	or:-
EDN635	Practicum in Early Childhood

### Educational Counselling

SPB006	Educational Counselling
SPN610	Advanced Educational Counselling
SPN611	Educational Counselling Professional Practice
SPN618	Innovative Career Development Program

### Education Law

SPN638	Education Law
SPN622	Preventive Legal Risk Management in Learning contexts
SPN625	Changing Agendas in Leadership
SPN626	Leading and Managing People
SPN627	Policy Development and Analysis
SPN628	Leadership For Change
SPN629	Current Issues In Leadership
LWN119	Employment Law
LWN030	Dispute Resolution/mediation
EDN603	Facilitated Study Unit

### Executive Leadership

SPN625	Changing Agendas in Leadership
EDN602	Advanced Seminars
	Unit 3 may be selected from the Master of Learning Innovation or from any other Masters level unit at QUT, subject to course coordinator approval.
	Unit 4 may be selected from an appropriate Masters level unit from any QUT faculty, subject to course coordinator approval OR a Facilitated Study Unit - to be discussed with the Area of Interest Coordinator
	Entry available in November 2004

### Higher Education

EDN626	Learning And Teaching In Higher Education
EDN627	Contexts And Issues In Higher Education
EDN629	Presentation And Delivery Modes In Higher Education
EDN630	Higher Education: Curriculum Design, Assessment And Evaluation

### Information and Communication Technology

MDN642	Digital Pedagogies
MDN643	Advanced Learning Networks
CLN601	Cyberlearning: Information & Knowledge in the Digital Age
CLN603	Designing Spaces for Learning
EDN603	Facilitated Study Unit

### Leadership and Management

SPN625	Changing Agendas in Leadership
SPN626	Leading and Managing People
SPN627	Policy Development and Analysis
SPN629	Current Issues In Leadership
SPN628	Leadership For Change
EDN603	Facilitated Study Unit
	Students will undertake the core unit SPN625 and a further 36 cps from the remaining units on offer.

## Learning Futures

- CLN646 The Knowledge Hub: Information Services for Dynamic Learning  
CLN647 Youth, Popular Culture, and Texts  
CLN601 Cyberlearning: Information & Knowledge in the Digital Age  
CLN603 Designing Spaces for Learning

## Learning Support and Inclusive Education

- SPN613 Learners with Special Needs: Programming for Inclusive Education  
SPN615 Managing Learners with Disabilities and Challenging Behaviours  
SPN612 Psychoeducational Assessment  
SPN614 Teaching Students with Learning Difficulties/Disabilities  
EDN603 Facilitated Study Unit

## Marine Studies (Advanced)

- MDB395 Marine Studies Curriculum  
MDN640 Managing Innovations in Teaching of the Sciences  
EDN603 Facilitated Study Unit  
An additional 12 credit points are awarded for specified assessment and vocational qualifications.

## Mathematics Education

- MDB021 Mathematics Curriculum Studies 1  
MDB411 Early Childhood Mathematics Teaching, Learning And Assessment  
MDP529 Assessment and Intervention in Mathematics  
EDN603 Facilitated Study Unit  
EDB442 Integrated Professional Studies  
MDB453 Middle School Mathematics Education

## Mathematics Education (Advanced)

- MDN638 Trends in Learning of the Sciences  
MDN639 Pedagogies in Learning of the Sciences  
MDN640 Managing Innovations in Teaching of the Sciences  
MDN641 Understanding Mathematics and Science in Educational Contexts  
EDN603 Facilitated Study Unit

## Middle Years of Schooling

- Entry available in November 2004  
SPN633 Critical Frameworks For Analysing The Middle Years of Schooling  
SPN634 Rethinking Programs And Pedagogies: The Middle Years Of Schooling  
SPN635 Assessment And Reporting In The Middle Years Of Schooling  
EDN603 Facilitated Study Unit  
MDN642 Digital Pedagogies

## Science Education

- MDN638 Trends in Learning of the Sciences  
MDN639 Pedagogies in Learning of the Sciences  
MDN640 Managing Innovations in Teaching of the Sciences  
MDN641 Understanding Mathematics and Science in Educational Contexts  
EDN603 Facilitated Study Unit

## ■ Graduate Certificate in Education (Teaching English to Speakers of Other Languages - TESOL) (ED77)

**Award title:** Graduate Certificate in Education (TESOL)

**CRICOS code:** 014019G

**Location:** Kelvin Grove

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Jane Crawford

## Entry Requirements

Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Dean of the Faculty OR other qualifications acceptable to the Dean, which may include substantial work experience in TESOL or involvement in other

relevant professional research activities AND at least one year's practical experience in some branch of education acceptable to the Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

## Course Structure

The Graduate Certificate in Education (TESOL) consists of four units taken from the Master of Education (TESOL) course. Students are required to complete the two core units Second Language Acquisition and Principles of Second Language Methodology and two electives.

## Full-time Course Structure

### First semester of study

Students enrol in two core units:

- CLN608 Second Language Acquisition  
CLN612 Principles Of Second Language Methodology  
and choose two electives from the list of elective units.  
Elective unit  
Elective unit

## Part-time Course Structure

### First semester of study

Students enrol in the two core units:

- CLN608 Second Language Acquisition  
CLN612 Principles Of Second Language Methodology

### Second semester of study

and choose two electives from the list of elective units.

Elective unit  
Elective unit

## Elective Units

### Elective List

Note, a selection of these units will be offered each semester. Some electives may be offered in Summer Program.

- CLN613 Second Language Curriculum Design Options  
CLN615 Directed Reading In Second Language Education  
CLN616 Language Assessment And Program Evaluation In Tesol  
CLN617 Personalised Language Development  
CLN618 Technology And Second Language Learning  
CLB339 Adult Literacy And Second Language Learners  
NOTE Assessment for CLB339 is completed at Masters level.  
CLN640 Sociolinguistics  
CLN641 From Theory To Practice -Practical Applications In The Tesol Classroom  
CLN642 Grammar For Teachers  
CLN643 English Language Teaching Management  
CLN619 Functional Grammar And Discourse  
CLN620 Language And Culture  
CLN614 Research Methods And Second Language Education

## ■ Bachelor of Adult and Community Learning (ED84)

**Award title:** Bachelor of Adult and Community Learning

**CRICOS code:** To be advised

**Location:** Kelvin Grove and External

**Course duration (full-time):** 2 years

**Course duration (part-time):** 4 years

**Course duration (external):** 2 to 4 years

## Professional Recognition

Graduates of the Bachelor of Adult and Community Learning will be eligible for membership with the Australian Institute of Management (AIM).

## Professional Projects and Experience Requirement

Students will be required to undertake professional projects and experience in a negotiated workplace or community placement site. Potential foci for professional projects may include teaching and training; leadership and management; curriculum development and instructional design (including e-learning); policy work; consultancy; Indigenous education; research and community partnership development.

### Course Structure

The Bachelor of Adult and Community Learning is a four-year undergraduate degree program. On entry students are granted 192 credit points or two years credit as recognition of prior knowledge, experience and skills. The remaining two years full-time or four years part-time focuses on adult and community learning.

The development of a professional portfolio throughout the degree enables students to individualise their own program to suit their professional development needs.

#### Year 1, Semester 1

EDB101	Professional Foundations for Learning Facilitation 1
SPB100	Introduction to Adult Learning and Development
SPB101	Getting to Know Great Thinkers in Adult Education
SPB102	Professional Communication in Adult Learning Contexts

#### Year 1, Semester 2

EDB102	Professional Foundations for Learning Facilitation 2
SPB103	Program Design, Assessment, Reporting and Evaluation
SPB104	Practitioner Research and Inquiry
	Elective

#### Year 2, Semester 1

EDB103	Adult and Community Learning: Professional Project 1
SPB105	Politics of Diversity and Identity
SPB106	Managing Learning Outcomes
	Elective

#### Year 2, Semester 2

EDB104	Adult and Community Learning: Professional Project 2
SPB107	Knowledge Management and Learning Partnerships
SPB108	Career Development and Professional Futures
	Elective

### ■ Bachelor of Early Childhood (ED83)

**Award title:** Bachelor of Early Childhood

**CRICOS code:** Not required

**Location:** External

**Course duration (external):** 3 years

**Total credit points:** 288

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Julie Davis

#### Professional Recognition

The Bachelor of Early Childhood is accredited by the Department of Families, Youth and Community Care for employment in the area of child care. Graduates of the Bachelor of Early Childhood are not eligible for registration with the Queensland Board of Teacher Registration.

#### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

#### Part-time Course Structure

##### Year 1, Semester 1

MDB440	Computers And Education
EAB364	Academic And Professional Communication

##### Year 1, Semester 2

EAB011	Early Childhood Curriculum: Arts 1
EAB013	Early Childhood Society, Environment and Health Education

##### Year 2, Semester 1

EAB014	Early Childhood Mathematics Education
EAB008	Early Childhood Language and Literacies and Communication 1

##### Year 2, Semester 2

EAB005	Inclusion in Early Childhood Education
EAB006	Leadership and Management in Early Childhood Services

##### Year 3, Semester 1

EAB004	Development and Learning Early Childhood 2
EDB011	Early Childhood Field Studies 1: Development and Learning in the Field

##### Year 3, Semester 2

EAB017	Integrated Early Childhood Curriculum
EAB020	Action Research in Early Childhood Education

### ■ Bachelor of Early Childhood Studies (ED82)

**Award title:** Bachelor of Early Childhood Studies

**CRICOS code:** 020305F

**Location:** Kelvin Grove

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Julie Davis

#### Professional Recognition

The Bachelor of Early Childhood Studies is accredited by the Department of Families, Youth and Community Care for employment in the area of child care. Graduates are not eligible for teacher registration in Queensland.

#### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

#### Course Structure

##### Year 1, Semester 1

EDB006	Learning Networks
EAB364	Academic And Professional Communication
EAB008	Early Childhood Language and Literacies and Communication 1
EAB001	Early Childhood Foundations 1: Historical and Comparative Perspectives of Early Childhood Education

##### Year 1, Semester 2

EAB003	Development and Learning in Early Childhood 1
EAB011	Early Childhood Curriculum: Arts 1
EDB016	Early Childhood Practicum (Child Care)
EAB002	Early Childhood Foundations 2: Childhood and Family Studies

##### Year 2, Semester 1

EAB004	Development and Learning Early Childhood 2
EDB011	Early Childhood Field Studies 1: Development and Learning in the Field
EAB014	Early Childhood Mathematics Education
EAB013	Early Childhood Society, Environment and Health Education

##### Year 2, Semester 2

EAB021	Early Childhood Health and Nutrition
EAB009	Early Childhood Language and Literacies and Communication 2
EAB006	Leadership and Management in Early Childhood Services Pathway Unit

##### Year 3, Semester 1

EAB005	Inclusion in early childhood settings
EDB013	Early Childhood Field Studies 3: Immersion in Inclusive Educational Practices
EAB012	Early Childhood Curriculum: Arts 2
EAB019	Programs for Infants and Toddlers (0-3 Years)

##### Year 3, Semester 2

EAB017	Integrated Early Childhood Curriculum
EAB007	Working with Parents and Other Adults in Early Childhood Education and Care Services
EAB020	Action Research in Early Childhood Education Pathway Unit

#### List 1 : Pathway Studies Electives

Students will take 2 pathway units, one in year 2, semester 2 and one in year 3, semester 2.

The two pathway units should be taken from the same area.

##### Early Childhood Mathematics, Science and ICT Education

EAB022	Early Childhood Science Education
EAB023	Early Childhood Mathematics Education
EAB024	Sociology of Early Childhood Mathematics Education
EAB422	Information and Communication Technologies and the Young Child

##### Integrating Arts Curriculum

EAB416	Early Childhood Art Education
EAB361	Storytelling In Early Childhood
EAB363	Creating Curriculum With Young Children
EAB423	Museums: Places Of Learning

### **Studies in Inclusive Education**

CLB049	The Global Teacher
CLB045	Becoming a Second Language User
CLB347	Teaching English as an Additional Language
CLB401	Cultural Diversity And Education
CLB403	Gender And Sexuality Issues For Teachers
MDB030	Understanding and Education Gifted Learners
SPB003	Teaching Children with Low Incidence Disabilities and Health Problems
SPB004	Teaching Students with Learning Difficulties
SPB007	Human Sexuality and Learning

### **Studies in Indigenous Education**

CLB402	Issues In Indigenous Education
HHB255	Indigenous Politics And Political Culture
HHB276	Indigenous Research, Ethics and Protocol
KKB701	Indigenous Australian Writing (offering to be confirmed)

### **Managing Learners and Learning**

SPB004	Teaching Students with Learning Difficulties
SPB006	Educational Counselling
SPB010	Education, Law and the Beginning Teacher
SPB012	Classroom and Behaviour Management
SPB017	Classroom Management: Models And Practice
SPB018	Teaching Strategies

### **Literature and Media Studies**

CLB441	Children's Literature
CLB452	Media Literacy And The School
CLB050	Popular Culture and Future Literacies
EAB361	Storytelling In Early Childhood

### **Investigating Mathematics**

MDB347	Excursions In Number
MDB388	Numeracy in Games of Skill and Chance
MDB396	Excursions In Geometry
MDB021	Mathematics Curriculum Studies 1
MDB529	Diagnostic Assessment & Remedial Intervention in Mathematics
EAB023	Early Childhood Mathematics Education

### **Exploring Science**

MDB389	Life And Living Processes
MDB390	Natural And Processed Materials
MDB391	Earth And Space
MDB454	Science, Technology and Society
EAB022	Early Childhood Science Education

### **Information and Communication Technologies**

MDB392	Educational Computing Environments
MDB393	Networked Communities
MDB397	Digital Media in Education
EAB422	Information and Communication Technologies and the Young Child

### **Studies of Society and Environment**

CLB049	The Global Teacher
CLB371	Knowing Your Environment: From Global Issues to Local Action
CLB372	Sustainable Consumption: From Coca-Cola to the Community Co-op
CLB373	Environmental Futures Australia and the Asia Pacific
CLB375	Exploring Outdoors; Education in the Environment
EAB423	Museums: Places Of Learning

### **Health and Physical Education**

HMB376	Motor Development in Children
HMB333	Child and Adolescent Health
HMB171	Fitness Health and Wellness
HMB315	Performance Skills 2
SPB007	Human Sexuality and Learning

### **THE ARTS**

Two units from the Creative Industries discipline areas of: Music, Visual Arts, Drama and Dance or from the Integrated Arts Curriculum area listed above.

Students must satisfy any specific entry requirements for Arts units.

#### **DANCE**

KDB117	Dance in Education
KDB125	Deconstructing Dance In History
KDB106	Dance Analysis
KDB176	Popular Dance Styles
KDB114	Australian Dance

#### **DRAMA**

KTB208	Elements of Drama
KTB214	Process Drama
KTB251	20th Century Performance
KTB253	Staging Australia

KSB259	The Performance Instrument: Body and Voice
KTB252	The Sound of Theatre

### **MUSIC**

KMB649	Introductory Musicianship
KMB619	Music And Sound Technology
KMB650	Introductory Ensemble
KMB631	World Music
KMB621	Sound Recording And Acoustics
KMB640	Sex Drugs Rock N Roll
KMB638	Sound And Image

### **VISUAL ARTS**

KVB447	Drawing
KVB507	Painting
KVB457	Sculpture
KVB503	Clay Materials
KVB509	Photomedia and Artistic Practice
KVB702	Australian and Indigenous Art

## **■ Bachelor of Education (Adult and Workplace Education) (ED54)**

**Award title:** Bachelor of Education

**CRICOS code:** 046302F

**Location:** Kelvin Grove and External

**Course duration (full-time):** 2 Years

**Course duration (part-time):** 4 Years

**Course duration (external):** 2 Years Full-time, 4 Years Part-time

**Total credit points:** 384 (192 granted on entry)

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Ms Patricia Ward

### **Entry Requirements**

Applicants must have:

- a diploma/associate diploma and two years work experience in an area appropriate to that qualification; or

- a trade certificate, Registered General or Enrolled Nurse certificate (or equivalent), and 10 years related industry experience; or

- completed the equivalent of two years of full-time bachelor-degree study in a discipline area relevant to the career path being pursued.

### **Course Structure**

The course consists of nine core units in areas such as effective adult teaching and learning strategies, knowledge capital management and sociology and psychology of adult education. Students may also choose three elective units in areas such as business communication, learning support, adult literacy and vocational education and training. Students will complete four field experience units in an adult or workplace setting of their choice.

### **Full-time Course Structure**

#### **Semester 1**

SPB026	Adult Education In The Workplace And Community
EDB400-1	Field Experience 1 (Stage 1)
EDB401-1	Field Experience 2 (Stage 1)
SPB027	Orientation to Adult and Workplace Programs
SPB029	Instructional Strategies for Adult and Workplace Education

#### **Semester 2**

CLB304	Context Of Adult And Workplace Education
SPB028	The Group in Adult and Workplace Education
SPB023	Adult Learning and Development
EDB400-2	Field Experience 1 (Stage 2)
EDB401-2	Field Experience 2 (Stage 2)

#### **Semester 3**

EDB402	Field Experience 3
SPB030	Programming in Adult and Workplace Education
SPB034	Organisation and Administration of Adult and Workplace Education
	Education Studies Elective

#### **Semester 4**

	Education Studies Elective
--	----------------------------

	Curriculum Studies Elective
SPB025	The Individual in Adult and Workplace Education
EDB403	Field Experience 4

### Part-time Course Structure

#### Year 1, Semester 1

SPB027	Orientation to Adult and Workplace Programs
SPB026	Adult Education In The Workplace And Community

#### Year 1, Semester 2

SPB029	Instructional Strategies for Adult and Workplace Education
CLB304	Context Of Adult And Workplace Education

#### Year 2, Semester 1

SPB028	The Group in Adult and Workplace Education
EDB400-1	Field Experience 1 (Stage 1)
EDB401-1	Field Experience 2 (Stage 1)

#### Year 2, Semester 2

EDB400-2	Field Experience 1 (Stage 2)
EDB401-2	Field Experience 2 (Stage 2)
SPB023	Adult Learning and Development

#### Year 3, Semester 1

SPB030	Programming in Adult and Workplace Education
SPB034	Organisation and Administration of Adult and Workplace Education

#### Year 3, Semester 2

SPB025	The Individual in Adult and Workplace Education
EDB402	Field Experience 3

#### Year 4, Semester 1

	Education Studies Elective Unit
	Curriculum Studies Elective Unit

#### Year 4, Semester 2

EDB403	Field Experience 4
	Education Studies Elective Unit

## ■ Bachelor of Education (Early Childhood) (ED92)

**Award title:** Bachelor of Education (Early Childhood)

**CRICOS code:** 000783G

**Location:** Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Kerryann Walsh

### Professional Recognition

The Bachelor of Education (Early Childhood) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Early Childhood specialisations are also accredited by the Department of Families, Youth and Community Care for employment in child care.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience. Applicants for registration as a teacher in Queensland are also subject to national criminal history checks.

### Research Pathway

Students may be invited to undertake the Research Pathway Option which is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career.

### Course Structure

#### Year 1, Semester 1

EDB006	Learning Networks
EDB001	Teaching and Learning Studies 1: Teaching in New Times
EAB008	Early Childhood Language and Literacies and Communication 1
EAB001	Early Childhood Foundations 1: Historical and Comparative Perspectives of Early Childhood Education

#### Year 1, Semester 2

EDB007	Culture Studies: Indigenous Education
EAB003	Development and Learning in Early Childhood 1
EAB011	Early Childhood Curriculum: Arts 1

EAB002	Early Childhood Foundations 2: Families and Childhoods in Early Childhood Education and Care
--------	--

#### Year 2, Semester 1

EAB004	Development and Learning Early Childhood 2
EDB011	Early Childhood Field Studies 1: Development and Learning in the Field
EAB013	Early Childhood Society, Environment and Health Education
EAB014	Early Childhood Mathematics Education

#### Year 2, Semester 2

EDB003	Teaching and Learning Studies 3: Practising Education
EDB012	Early Childhood Field Studies 2: Practising Education in the Field
EAB015	Early Childhood Mathematics, Science & Technology Education 2
EAB009	Early Childhood Language and Literacies and Communication 2

#### Year 3, Semester 1

EAB005	Inclusion in Early Childhood Settings
EDB013	Early Childhood Field Studies 3: Immersion in Inclusive Educational Practices
EAB012	Early Childhood Curriculum: Arts 2
EAB016	Research in Early Childhood Education

#### Year 3, Semester 2

EAB017	Integrated Early Childhood Curriculum
EAB010	Early Childhood Language and Literacies and Communication 3
	Pathway Studies 1
	Pathway Studies 2

#### Year 4, Semester 1

EAB018/1	Applied Early Childhood Curriculum Project
EAB006	Leadership and Management in Early Childhood Services
	Pathway Studies 3
	Pathway Studies 4

#### Year 4, Semester 2

EAB007	Working with Parents and Other Adults in Early Childhood Education and Care Services
EDB014	Early Childhood Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB015	Internship (Early Childhood)
EAB018/2	Applied Early Childhood Curriculum Project

### ED92 - Research Pathway Option

Students with a GPA of 5.5 or above will be invited to undertake the research pathway option.

The research pathway option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research oriented, reflective approach to teaching. The amended structure for Research Pathway students will be:

#### Year 3, Semester 1

EAB005	Inclusion in Early Childhood Settings
EDB013	Early Childhood Field Studies 3: Immersion in Inclusive Educational Practices
EAB012	Early Childhood Curriculum: Arts 2
EDB410	Introduction To Research Methods In Education

#### Year 3, Semester 2

EAB017	Integrated Early Childhood Curriculum
EAB010	Early Childhood Language and Literacies and Communication 3
	Elective
EDB411	Dissertation

#### Year 4, Semester 1

EAB018/1	Applied Early Childhood Curriculum Project
EAB006	Leadership and Management in Early Childhood Services
EDB411	Dissertation
EDB411	Dissertation

#### Year 4, Semester 2

EAB007	Working with Parents and Other Adults in Early Childhood Education and Care Services
EDB014	Early Childhood Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB015	Internship (Early Childhood)
EAB018/2	Applied Early Childhood Curriculum Project

### List 1 : Pathway Studies Electives

All students (except those following the LOTE pathway) take a total of four units from this list during Years 3 - 4 (refer to course structure on previous pages for exact semesters).

The 4 units should be drawn from one of the specified groups below.

Students electing to undertake EDB440 Independent Study, will undertake this unit as the fourth unit in their chosen pathway area and study will be specific to the area.

#### **RESEARCH PATHWAY**

(see above for complete research pathway)

EDB410 Introduction To Research Methods In Education

EDB411/1 Dissertation (Part 1)

EDB411/2 Dissertation (Part 2)

EDB411/3 Dissertation (Part 3)

#### **MIDDLE YEARS OF SCHOOLING PATHWAY**

CLB323 Teaching Adolescent Literature

MDB021 Mathematics Curriculum Studies 1

SPB022 The Middle Years Curriculum

SPB008 The Middle Years of Schooling

SPB020 Classroom Assessment Practices

SPB018 Teaching Strategies

EDB440 Independent Study

## ■ Bachelor of Education (Early Childhood) - Graduate Course (ED57)

**Award title:** Bachelor of Education

**CRICOS code:** 031572G

**Location:** Kelvin Grove

**Course duration (full-time):** 2 years; 1.5 years Summer Program Option

**Course duration (part-time):** 4 years; 3 years Summer Program Option

**Course duration (external):** 4 years part-time or 2 years full-time; 1.5 years full-time or 3 years part-time Summer Program Option

**Total credit points:** 192

**Course coordinator:** Dr Felicity McArdle

This course is open to continuing students only.

### Full-time Internal/External Course Structure

#### *Semester 1 (Full-time Course Structure)*

EDB001 Teaching and Learning Studies 1: Teaching in New Times  
EDB011 Early Childhood Field Studies 1: Development and Learning in the Field

EAB442 Motor And Social Development In Early Childhood  
EAB014 Early Childhood Mathematics Education

#### *Semester 2 (Full-time Course Structure)*

SPB001 Human Development and Education  
EDB012 Early Childhood Field Studies 2: Practising Education in the Field

EAB345 Early Childhood Curriculum: Language Education  
EAB443 Cognition And Language In Early Childhood

#### *Semester 3 (Full-time Course Structure)*

SPB002 Psychology of Learning and Teaching  
EDB420 Early Childhood Professional Practice: Child Care  
EAB413 Management Of Early Childhood Services  
EAB011 Early Childhood Curriculum: Arts 1

#### *Semester 4 (Full-time Course Structure)*

CLB306 Understanding Educational Practices  
EDB423 Early Childhood Professional Practice: Choice  
EAB346 Early Childhood Curriculum: Science, Society And The Environment  
EAB444 Inclusive Practices In Early Childhood

### Accelerated Progression: Full-time Internal/External Course Structure

#### *Year 1, Semester 1*

EDB001 Teaching and Learning Studies 1: Teaching in New Times  
EDB011 Early Childhood Field Studies 1: Development and Learning in the Field

EAB442 Motor And Social Development In Early Childhood  
EAB014 Early Childhood Mathematics Education

#### *Year 1, Semester 2*

SPB001 Human Development and Education  
EDB012 Early Childhood Field Studies 2: Practising Education in the Field

EAB345 Early Childhood Curriculum: Language Education  
EAB443 Cognition And Language In Early Childhood

#### *Year 1, Semester 3 (Summer Program)*

CLB306 Understanding Educational Practices  
EDB420 Early Childhood Professional Practice: Child Care  
EAB346 Early Childhood Curriculum: Science, Society And The Environment  
EAB444 Inclusive Practices In Early Childhood

#### *Year 2, Semester 1*

SPB002 Psychology of Learning and Teaching  
EDB423 Early Childhood Professional Practice: Choice  
EAB413 Management Of Early Childhood Services  
EAB011 Early Childhood Curriculum: Arts 1

### Part-time Internal/External Course Structure

#### *Year 1, Semester 1*

EAB442 Motor And Social Development In Early Childhood  
EDB001 Teaching and Learning Studies 1: Teaching in New Times

#### *Year 1, Semester 2*

SPB001 Human Development and Education  
EAB443 Cognition And Language In Early Childhood

#### *Year 2, Semester 1*

EAB014 Early Childhood Mathematics Education

EDB011 Early Childhood Field Studies 1: Development and Learning in the Field

## ■ Bachelor of Education (Early Childhood) Graduate Course (ED97)

**Award title:** Bachelor of Education (Early Childhood)

**CRICOS code:** 031572G

**Location:** Kelvin Grove and External

**Course duration (full-time):** 2 years

**Course duration (part-time):** 4 years

**Course duration (external):** 2-4 years

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Felicity McArdle

### Course Structure

#### *Year 1, Semester 1*

EAB03 Development and Learning in Early Childhood  
EDB211 Early Childhood Field Studies A: Development and Learning in Early Childhood

EAB363 Creating Curriculum with Young Children

EAB008 Early Childhood Language, Literacies and Communication 1

#### *Year 1, Semester 2*

Teaching in the Knowledge Society  
EDB212 Early Childhood Field Studies B: Teaching in the Knowledge Society

EAB348 Early Childhood Curriculum: Arts

EAB009 Early Childhood Language, Literacies and Communication 2

#### *Year 2, Semester 1*

EDB203 Inclusivity in Educational Practice

EDB013	Early Childhood Field Studies C: Immersion in Inclusive Education Practices
EAB314	Early Childhood Curriculum: SOSE and Health Early Childhood Curriculum: Mathematics
<b>Year 2, Semester 2</b>	
EDB204	The Professional Work of Educators
EDB214	Early Childhood Field Studies D: The Professional Work of Educators
EDB215	Early Childhood Professional Internship
EAB136	Early Childhood Curriculum: Science and Technology

## ■ Bachelor of Education (Inservice) (ED26)

**Award title:** Bachelor of Education

**CRICOS code:** 000374C

**Location:** Kelvin Grove and External

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Course duration (external):** 1 year full-time or 2 years part-time

**Total credit points:** 96

**Course coordinator:** Assoc Prof John Lidstone

### Course Structure

Students are required to complete eight, 12 credit point units of study. The course provides flexibility for students to complete their studies across a range of areas. Two core units, Teachers and the Curriculum and Understanding Educational Practices, must be completed together with an additional two units from any of the four schools located in the Faculty of Education. The remaining four units may be taken from a wide range of Faculty of Education units or from faculties other than the Faculty of Education. Please see Studyfinder at qut.com for more information. Students undertaking the course to meet specific Queensland Board of Teacher Registration requirements may not be able to undertake non-education units.

Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas. Alternatively students may choose a suite of units related to a specific area of interest such as adult and workplace education, culture and language studies, human relationship education studies or mathematics, science and technology education studies.

#### Core Units

CLB306	Understanding Educational Practices
SPB016	Teachers and the Curriculum

#### Cultural and Language Studies in Education

CLB304	Context Of Adult And Workplace Education
CLB376	Studies Of Society And Environment Curriculum
CLB401	Cultural Diversity And Education
CLB402	Issues In Indigenous Education
CLB403	Gender And Sexuality Issues For Teachers
CLB441	Children's Literature
CLB443	Trends In The Teaching Of Reading
CLB451	Storytelling: Cultural Perspectives
CLB454	Language And Literacy Curriculum

#### Early Childhood

EAB346	Early Childhood Curriculum: Science, Society And The Environment
EAB014	Early Childhood Mathematics Education
EAB410	Early Education: Deciding The Curriculum
EAB411	Early Education: Literacy
EAB440	Working With Parents And Community
EAB443	Cognition And Language In Early Childhood

#### Learning and Professional Studies

SPB002	Psychology of Learning and Teaching
SPB006	Educational Counselling
SPB007	Human Sexuality and Learning
SPB008	The Middle Years of Schooling
SPB009	Research Methods in Education
SPB013	Progressive Strategies For General And Vocational Education
SPB017	Classroom Management: Models And Practice

SPB018	Teaching Strategies
SPB019	Introduction to Educational Administration
SPB020	Classroom Assessment Practices
SPB021	Educators And The Law
SPB022	The Middle Years Curriculum
SPB023	Adult Learning and Development
SPB025	The Individual in Adult and Workplace Education
SPB026	Adult Education In The Workplace And Community
SPB027	Orientation to Adult and Workplace Programs
SPB028	The Group in Adult and Workplace Education
SPB029	Instructional Strategies for Adult and Workplace Education
SPB030	Programming in Adult and Workplace Education
SPB034	Organisation and Administration of Adult and Workplace Education

#### Mathematics, Science and Technology Education

MDB333	Mathematics Curriculum Studies 1
MDB384	Science Education
MDB411	Early Childhood Mathematics Teaching, Learning And Assessment
MDB414	Learning Environments Using Information Technology
MDB429	Initiatives In Science Education
MDB440	Computers And Education
MDP529	Assessment and Intervention in Mathematics
MDB453	Middle School Mathematics Education

#### Faculty of Education Elective Units

EDB440	Independent Study
EDB442	Integrated Professional Studies

#### Faculty of Health Elective Units

HMB307	Health and Physical Education Curriculum (Primary)
HMB337	Organisation and Management In Physical Education And Sport
HMB441	Sociology of Sport

## ■ Bachelor of Education (Preservice Early Childhood) (ED93)

**Award title:** Bachelor of Education (Preservice Early Childhood)

**CRICOS code:** Not required

**Location:** External

**Course duration (external):** 5 years

**Total credit points:** 384 CP

**Standard credit points per semester (part-time):** 24 CP

**Course coordinator:** Dr Julie Davis

### Professional Recognition

This course is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland and the Department of Families, Youth and Community Care for employment in the area of child care.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Part-time Course Structure - students are required to complete 20 units over 5 years part-time.

#### Year 1, Semester 1

MDB440	Computers And Education
EAB364	Academic And Professional Communication

#### Year 1, Semester 2

EAB011	Early Childhood Curriculum: Arts 1
EAB013	Early Childhood Society, Environment and Health Education

#### Year 2, Semester 1

EAB014	Early Childhood Mathematics Education
EAB008	Early Childhood Language and Literacies and Communication 1

#### Year 2, Semester 2

EAB005	Inclusion in Early Childhood Education
EAB006	Leadership and Management in Early Childhood Services

#### Year 3, Semester 1

EDB004	Development and Learning in Early Childhood
EDB011	Early Childhood Field Studies 1: Development and Learning in the Field

#### Year 3, Semester 2

EDB003	Teaching and Learning Studies 3: Practising Education
--------	---

EDB012 Early Childhood Field Studies 2: Practising Education in the Field

**Year 4, Semester 1**

EAB015 Early Childhood Science and Information and Communication Technologies Education

EAB009 Early Childhood Language and Literacies and Communication 2

**Year 4, Semester 2**

EDB007 Culture Studies: Indigenous Education

EAB010 Early Childhood Language, Literacies & Communication 3

**Year 5, Semester 1**

EAB017 Integrated Early Childhood Curriculum

EAB363 Creating Curriculum With Young Children

**Year 5, Semester 2**

EDB014 EC Field Studies 4: Professional Work of Teachers: Induction in the Field  
OR

EDB015 Internship  
AND

EAB020 Action Research in Early Childhood

## ■ Bachelor of Education (Primary) (ED91)

**Award title:** Bachelor of Education (Primary)

**CRICOS code:** 000783G

**Location:** Kelvin Grove and Caboolture

**Course duration (full-time):** 4 years; QUT Caboolture: After the completion of first year (ie 96 credit points of study), students must transfer to Kelvin Grove campus for the remainder of the course.

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Annah Healy

### Professional recognition

The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Languages Other Than English (LOTE) Pathway

Students undertaking a LOTE pathway may be required to attend other campuses.

Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

### Research pathway

Certain students will be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

### Course Structure

#### Year 1, Semester 1

CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies

EDB001 Teaching and Learning Studies 1: Teaching in New Times

EDB006 Learning Networks

MDB001 Integrated Foundations Studies 2: Scientific and Quantitative Literacy

#### Year 1, Semester 2

CLB005 Integrated Foundation Studies 3: Wellness and Active Citizenship

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

EDB007 Culture Studies: Indigenous Education

MDB002 Primary Curriculum and Pedagogies: Mathematics 1

#### Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning

EDB021 Primary Field Studies 1: Development and Learning in the Field

MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

MDB006 Primary Curriculum & Pedagogies: Science

#### Year 2, Semester 2

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment  
Pathway studies 1

HMB300 Primary Curriculum & Pedagogies: Health & Physical Education

KKB201 Primary Curriculum & Pedagogies: Arts 1  
OR

KKB202 Primary Curriculum & Pedagogies: Arts 2

#### Year 3, Semester 1

CLB007 Primary Curriculum and Pedagogies: Language and Literacies 2

Pathway Studies 2

Pathway studies 3

KKB202 Primary Curriculum & Pedagogies: Arts 2  
OR

KKB201 Primary Curriculum & Pedagogies: Arts 1

#### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education

EDB022 Primary Field Studies 2: Practising Education in the Field

MDB003 Primary Curriculum & Pedagogies: Mathematics 2

MDB005 Primary Curriculum & Pedagogies: Design and Technology Education

#### Year 4, Semester 1

EDB004 Teaching and Learning Studies 4: Focus on Inclusive Education

EDB023 Primary Field Studies 3: Immersion in Inclusive Education

SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

SPB036 Primary Curriculum and Pedagogies: Assessment and Reporting

#### Year 4, Semester 2

EDB005 Teaching and Learning Studies 5: Professional Work of Teachers

EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field

EDB025 Internship (Primary)  
Pathway studies 4 (Project)

### ED91 - LOTE Pathway

#### Year 1, Semester 1

EDB006 Learning Networks  
Arts Discipline Elective

CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies  
LOTE 1 or 3

#### Year 1, Semester 2

EDB001 Teaching and Learning Studies 1: Teaching in New Times

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

MDB002 Primary Curriculum and Pedagogies: Mathematics 1  
LOTE 2 or 4

#### Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning

EDB021 Primary Field Studies 1: Development and Learning in the Field

MDB006 Primary Curriculum & Pedagogies: Science  
LOTE 3 or 5

#### Year 2, Semester 2

EDB007 Culture Studies: Indigenous Education

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment

HMB300 Primary Curriculum & Pedagogies: Health & Physical Education  
LOTE 4 or 6

#### Year 3, Semester 1

CLB007 Primary Curriculum and Pedagogies: Language and Literacies 2

CLB042 Primary LOTE Curriculum Studies 1

MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

LOTE 5 or 7

**Year 3, Semester 2**

EDB003	Teaching and Learning Studies 3: Practising Education
EDB022	Primary Field Studies 2: Practising Education in the Field
MDB003	Primary Curriculum & Pedagogies: Mathematics 2
	LOTE 6 or 8

**Year 4, Semester 1**

EDB004	Teaching and Learning Studies 4: Focus on Inclusive Education
EDB023	Primary Field Studies 3: Immersion in Inclusive Education
KKB202	Primary Curriculum & Pedagogies: Arts 2
OR	
KKB201	Primary Curriculum & Pedagogies: Music, Visual Arts & Media
SPB036	Primary Curriculum and Pedagogies: Assessment and Reporting

**Year 4, Semester 2**

EDB005	Teaching and Learning Studies 5: Professional Work of Teachers
EDB024	Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB025	Internship (Primary)
CLB043	Primary Curriculum 2 LOTE

**ED91 - Research Pathway Option**

*Years 1 & 2 as per normal course structure*

**Year 3, Semester 1**

KKB201	Primary Curriculum & Pedagogies: Music, Visual Arts & Media
OR	
KKB202	Primary Curriculum & Pedagogies: Dance & Drama
EDB411/1	Dissertation (Stage 1)
CLB007	Primary Curriculum and Pedagogies: Language and Literacies 2
EDB410	Introduction To Research Methods In Education

**Year 3, Semester 2**

EDB003	Teaching and Learning Studies 3: Practising Education
MDB003	Primary Curriculum & Pedagogies: Mathematics 2
EDB022	Primary Field Studies 2: Practising Education in the Field
MDB005	Primary Curriculum & Pedagogies: Design & Technology Education

**Year 4, Semester 1**

EDB004	Teaching and Learning Studies 4: Focus on Inclusive Education
EDB023	Primary Field Studies 3: Immersion in Inclusive Education
SPB036	Primary Curriculum and Pedagogies: Assessment and Reporting
EDB411/2	Dissertation (Stage 2)

**Year 4, Semester 2**

EDB005	Teaching and Learning Studies 5: Professional Work of Teachers
EDB024	Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB025	Internship (Primary)
EDB411/3	Dissertation (Stage 3)

**List 1 : Pathway Studies Electives**

All students (except those following the LOTE pathway) take a total of four units from this list during Years 3 - 4 (refer to course structure on previous pages for exact semesters).

The 4 units should be drawn from one of the specified groups below. Students electing to undertake EDB440 Independent Study, will undertake this unit as the fourth unit in their chosen pathway area and study will be specific to the area.

**RESEARCH PATHWAY**

(see above for complete research pathway)

EDB410	Introduction To Research Methods In Education
EDB411/1	Dissertation (Part 1)
EDB411/2	Dissertation (Part 2)
EDB411/3	Dissertation (Part 3)

**MIDDLE YEARS OF SCHOOLING PATHWAY**

CLB323	Teaching Adolescent Literature
MDB021	Mathematics Curriculum Studies 1
SPB022	The Middle Years Curriculum
SPB008	The Middle Years of Schooling
SPB020	Classroom Assessment Practices
SPB018	Teaching Strategies
EDB440	Independent Study

**STUDIES IN INCLUSIVE EDUCATION**

CLB045	Becoming a Second Language User
CLB049	The Global Teacher
CLB347	Teaching English as an Additional Language
CLB401	Cultural Diversity And Education
CLB403	Gender And Sexuality Issues For Teachers
MDB030	Understanding and Education Gifted Learners
SPB003	Teaching Children with Low Incidence Disabilities and Health Problems
SPB004	Teaching Students with Learning Difficulties
SPB007	Human Sexuality and Learning
EDB440	Independent Study

**STUDIES IN INDIGENOUS EDUCATION**

CLB402	Issues In Indigenous Education
HHB255	Indigenous Politics And Political Culture
HHB276	Indigenous Research, Ethics and Protocol
KKB701	Indigenous Australian Writing (to be confirmed)
EDB440	Independent Study

**MANAGING LEARNERS AND LEARNING**

SPB004	Teaching Students with Learning Difficulties
SPB006	Educational Counselling
SPB010	Education, Law and the Beginning Teacher
SPB012	Classroom and Behaviour Management
SPB017	Classroom Management: Models And Practice
SPB018	Teaching Strategies
EDB440	Independent Study

**DISCIPLINE BASED PATHWAYS**

**LITERATURE AND MEDIA STUDIES**

CLB441	Children's Literature
CLB452	Media Literacy And The School
CLB323	Teaching Adolescent Literature
CLB050	Popular Culture and Future Literacies (not available in 2004)
EAB361	Storytelling In Early Childhood
EDB440	Independent Study

**INVESTIGATING MATHEMATICS**

MDB347	Excursions In Number
MDB396	Excursions In Geometry
MDB021	Mathematics Curriculum Studies 1
MDP529	Assessment and Intervention in Mathematics
EAB023	Early Childhood Mathematics Education (not offered in 2004)
EDB440	Independent Study

**EXPLORING SCIENCE**

MDB389	Life And Living Processes
MDB390	Natural And Processed Materials
MDB391	Earth And Space
MDB454	Science, Technology and Society
EAB022	Early Childhood Science Education

HMB333	Child and Adolescent Health
HMB171	Fitness Health and Wellness
HMB315	Performance Skills 2
EAB021	Early Childhood Health and Nutrition
SPB007	Human Sexuality and Learning
EDB440	Independent Study

#### **THE ARTS**

Three units from the Creative Industries discipline areas of: Music, Visual Arts, Drama and Dance or the Early Childhood Arts units listed below.

Students must satisfy any specific entry requirements for Arts units.

The fourth unit will be EDB440 Independent Study

#### **INTEGRATED ARTS CURRICULUM**

EAB416	Early Childhood Art Education
EAB361	Storytelling In Early Childhood
EAB363	Creating Curriculum With Young Children
EAB423	Museums: Places Of Learning
EDB440	Independent Study

#### **DRAMA**

KTB208	Elements of Drama
KTB214	Process Drama
KTB251	20th Century Performance
KTB253	Staging Australia
KSB259	The Performance Instrument: Body and Voice
KTB252	The Sound of Theatre
KTB003	Applying Information Technology in the Drama Classroom
KSB278	Technical Theatre

#### **MUSIC**

KMB638	Sound And Image
KMB667	Music and Spirituality
KMB640	Sex Drugs Rock N Roll
KMB649	Introductory Musicianship
KMB631	World Music
KMB621	Sound Recording And Acoustics
KMB650	Introductory Ensemble
KMB619	Music And Sound Technology

#### **DANCE**

KDB125	Deconstructing Dance In History
KDB106	Dance Analysis
KDB176	Popular Dance Styles
KDB117	Dance in Education
KDB114	Australian Dance

#### **VISUAL ARTS**

KVB444	Contemporary Asian Visual Culture
KVB447	Drawing
KVB457	Sculpture
KVB503	Clay Materials
KVB507	Painting
KVB509	Photomedia and Artistic Practice
KVB702	Australian and Indigenous Art
KVB701	Modernism

### **List 2 : Languages Other Than English (LOTE) Units**

#### **LOTE UNITS**

General primary/LOTE students are required to complete 72 credit points of discipline/content studies plus 12 credit points of curriculum studies in one of the four languages available.

Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

The language units in the discipline/content strand are as follows:

#### **FRENCH**

HHB060	French for the Tourism Industry
HHB061	French 1
HHB062	French 2
HHB063	French 3
HHB064	French 4
HHB065	French 5
HHB066	French 6
HHB067	French 7
HHB068	French 8
HHB069	French 9
HHB070	French 10

#### **GERMAN**

HHB091	German 1
HHB092	German 2
HHB093	German 3
HHB094	German 4
HHB095	German 5
HHB096	German 6
HHB097	German 7

HHB098	German 8
--------	----------

#### **INDONESIAN**

HHB071	Indonesian 1
HHB072	Indonesian 2
HHB073	Indonesian 3
HHB074	Indonesian 4
HHB075	Indonesian 5
HHB076	Indonesian 6
HHB077	Indonesian 7
HHB078	Indonesian 8

#### **JAPANESE**

HHB081	Japanese 1
HHB082	Japanese 2
HHB083	Japanese 3
HHB084	Japanese 4
HHB085	Japanese 5
HHB086	Japanese 6
HHB087	Japanese 7
HHB088	Japanese 8

### **■ Bachelor of Education (Primary) - Graduate Course (ED56)**

**Award title:** Bachelor of Education

**CRICOS code:** 031572G

**Location:** Kelvin Grove

**Course duration (full-time):** 2 years; 1.5 years Summer Program Option

**Course duration (part-time):** 4 years; 3 years Summer Program Option

**Course duration (external):** 2 years full-time or 4 years part-time; 1.5 years full-time or 3 years part-time Summer Program Option

**Total credit points:** 192

**Course coordinator:** Ms Jenny Masters

This course is open to continuing students only.

#### **Overview**

The Bachelor of Education (Primary) Graduate Course prepares students for employment as a primary teacher in Queensland. During the course students undertake theoretical studies relevant to primary education and complete four practicum blocks in a primary school setting. Students also learn the important role of educators in serving the community, and the effect of outside influences on the role of both educators and educational institutions.

#### **Full-time: Internal/External Course Structure**

##### **Semester 1 (Full-Time Course Structure)**

EDB001	Teaching and Learning Studies 1: Teaching in New Times
MDB450	Primary Mathematics Curriculum
EDB430	Primary Professional Practice 1: Classroom Management
CLB376	Studies of Society and Environment Curriculum

##### **Semester 2 (Full-Time Course Structure)**

SPB001	Human Development and Education
CLB454	Language and Literacy Curriculum
MDB004	Primary Curriculum & Pedagogies: Information and Communication Technologies
EDB431	Primary Professional Practice 2: Curriculum Decision Making

##### **Semester 3 (Full-Time Course Structure)**

Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 Programming and Assessment in Language and Mathematics should contact the Student Affairs office on 3864 3947. Primary LOTE Curriculum Studies is only offered internally in semester two.

SPB002	Psychology of Learning and Teaching
EDB432	Primary Professional Practice 3: Inclusive Curriculum
HMB307	Health and Physical Education Curriculum (Primary)
CLB413	Programming and Assessment in Language and Mathematics

##### **Semester 4 (Full-Time Course Structure)**

CLB306	Understanding Educational Practices
MDB384	Science Education
EDB433	Primary Professional Practice 4: Beginning Teaching External Students:

KKB914	Visual and Performing Arts Curriculum 1 Internal Students:
KKB201	Primary Curriculum & Pedagogies: Music, Visual Arts & Media OR
KKB202	Primary Curriculum & Pedagogies: Dance & Drama

## ■ Bachelor of Education (Primary) Graduate Course (ED96 )

**Award title:** Bachelor of Education (Primary)

**CRICOS code:** 031572G

**Location:** Kelvin Grove and External

**Course duration (full-time):** 2 years

**Course duration (part-time):** 4 years

**Course duration (external):** 2-4 years

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Ms Jenny Masters

### Course Structure

#### Year 1, Semester 1

Engaging in Learning  
Primary Field Studies A: Engaging in Learning  
Mathematics: Designs for Learning  
SOSE Curriculum and Pedagogies

#### Year 1, Semester 2

Teaching in the Knowledge Society  
Primary Field Studies B: Teaching in the Knowledge Society  
Science and Technology Curriculum and Pedagogies  
Multiliteracies: Designs for Learning

#### Year 2, Semester 1

Inclusivity in Teaching and Learning  
Primary Field Studies C: Immersion in Inclusive Education Practices  
The Arts Curriculum and Pedagogies  
HPE Curriculum and Pedagogies

#### Year 2, Semester 2

The Professional Work of Teachers  
Primary Field Studies D: The Professional Work of Teachers  
Primary Professional Internship  
Primary Curriculum Project

## ■ Bachelor of Education (Secondary) (ED90)

**Award title:** Bachelor of Education (Secondary)

**CRICOS code:** 000783G

**Location:** Gardens Point, Kelvin Grove and Carseldine

**Course duration (full-time):** Four years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Peter Bond

### Professional Recognition

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Course Structure

#### Possible Combinations of Subject Areas

##### \*\*\*\*GROUP X \*\*\*\*

Accounting/Business Management  
Business Communication & Technologies  
Computing  
English  
Home Economics (available only to students entering through the Home Economics entry point)  
Mathematics  
Physical Education (available only to students entering through the Physical Education entry point)  
Science Studies  
Social Science  
English as a Second Language (ESL)  
\*\*\*\*GROUP Y \*\*\*\*  
Accounting/Business Management  
Biology  
Business Communications & Technologies  
Chemistry  
Earth Science  
Economics  
English  
Film & Media Studies (subject to quota)  
French  
Geography  
German  
Health Education  
History  
Indonesian  
Japanese  
Legal Studies  
Mathematics  
Physics

**Note:** Where the same subject is listed in both Groups X and Y (eg. English), it may only be selected once. There may be limited places in some disciplines as a second teaching area. Students selecting Home Economics or Physical Education are to complete 96 credit points in these areas.

Some subjects are taught at Gardens Point and Carseldine campuses and timetable incompatibilities may exist with subjects taught at Kelvin Grove.

Students wishing to take biology, chemistry, earth science, or physics with subject areas other than mathematics or science studies should check for possible timetable difficulties.

Mathematics has an Assumed Knowledge of Maths B (4 SA)

## OVERVIEW

The Faculty of Health is an industry leader that educates professionals for a range of health related areas, conducts research and is actively engaged in continuing education and community service.

The Faculty has more than 3500 students enrolled in undergraduate and postgraduate programs. Undergraduate degree programs are delivered through five discipline-based schools of Human Movement Studies, Nursing, Optometry, Psychology and Counselling, and Public Health.

The **School of Human Movement Studies** offers programs that respond to the increasing community awareness of health, exercise, well-being, and fitness. A degree in Human Movement Studies equips graduates with the knowledge and skills for an active career in physical education, health education, rehabilitation, weight management, or exercise and sports science. The School has close links with the Queensland Reds and has formed a Centre for Rugby Studies to further develop and promote the sport of rugby.

The **School of Nursing** is Queensland's oldest provider of nursing education. Always at the cutting-edge of its field, the School offers the latest in clinical facilities and equipment, and a wide range of local, rural, and overseas opportunities for practical placements. Nursing graduates go on to work in a range of areas, including and beyond the traditional hospital ward. The School offers an undergraduate program in nursing, as well as specialised postgraduate programs.

The **School of Optometry** is the only optometry training facility in Queensland and one of three in Australia. As such, Optometry graduates are always in demand. The optometry degree prepares graduates for entry into the professional workforce and for Australia-wide registration. Students apply their knowledge through supervised clinical practice both in the School's purpose-built public optometry clinic and in the community. Postgraduate research programs are offered by the School at Masters and PhD level.

The **School of Psychology and Counselling** is located on QUT's spacious bushland campus at Carseldine. The School offers excellent teaching, technology and research facilities for its undergraduate and postgraduate courses. Programs provide graduates with the opportunity to gain practical qualifications that are well regarded in the community. The Bachelor of Behavioural Science (Psychology) is a three-year degree program that prepares graduates for further studies in psychology and for employment in a number of fields. Graduates aiming for professional registration may seek admission to a fourth year of study in either the Bachelor of Psychology (Honours) or the Postgraduate Diploma in Psychology. The School's postgraduate offerings include Masters in Counselling, Clinical Psychology and Psychology (Educational and Developmental), and Graduate Diplomas or Certificates in Psychology and Road Safety. Studies can also be undertaken at doctorate level.

The School has a Family and Counselling Clinic, which is open to the public, and a research centre in Road Safety and Accident Prevention.

The **School of Public Health** is the most diverse of the Faculty's schools, offering undergraduate majors in areas such as podiatry, nutrition and dietetics, health information management, health services management, paramedic practice, and public health. A range of articulated postgraduate programs is also offered in a number of these areas plus other special fields such as environmental health, health promotion, occupational health and safety, risk management, and health science.

Faculty staff maintain excellent ties with the health industry and work closely with national and international health and welfare organisations. These industry ties ensure that the Faculty's programs deliver relevant skills and respond rapidly to new and

emerging needs in health education in an era of advancing health technology.

The **Faculty of Health** is primarily based at QUT's Kelvin Grove campus, with the School of Psychology and Counselling located at Carseldine campus in the northern suburbs of Brisbane. At Kelvin Grove campus, two purpose-built complexes house state-of-the-art facilities including:

- teaching clinics for Podiatry, Optometry and Human Movement Studies (children's activity and weight management programs, balance and gait assessment, health and fitness appraisals, and exercise prescriptions)
- a Nursing clinical practice laboratory
- Human Movement laboratories for biomechanics, exercise physiology, motor control, and functional anatomy
- student computer laboratories with the latest in general and health-related software
- multimedia lecture theatres and tutorial rooms
- fully equipped research laboratories
- and an ergonomics laboratory.

At Carseldine, a Family Therapy and Counselling Clinic provides supervised clinical experience for Counselling students.

## SENIOR STAFF

### Faculty Office

*Dean:* Professor K. J. Bowman AM, MScOptom *Melb*, LOsc, FAAO

*Assistant Dean (Research):* J.E. Lovie-Kitchin, MSc(Optom) *Melb*, GradDipRehab *La Trobe*, PhD *QUT*, LOsc, FAAO

*Assistant Dean (Teaching and Learning):* R.E. Nash, DipAppAc *QIT*, BA *Qld*, MHlthSc *C. Sturt*, FRANA

*Faculty Administration Manager:* M. Rimland, BA *Qld*

*Health Project Manager:* C.J. Cliff, BSc *ANU*, PhD *Keele*, CChem DipEnvStud *Macq*, GradDipOutdoorEd *Brisbane CAE*, GradDipBusAdmin *QUT*

### School of Human Movement Studies

*Head:* Professor A.W. Parker, MSc PhD *Oregon*, FASMF

*Professor:* A.P. Hills, BEd *Tas*, MSc *Oregon*, PhD *Qld*

### School of Nursing

*Head:* Professor H.E. Edwards, DipAppSc *QIT*, BA (Hons) PhD *Qld*, RN, FRCNA

*Professors:*

J.A. Abbey, PhD *Deakin*

M.D. Courtney, BAdmin(Acctg) *Griff*, MHP *UNSW*, PhD *UNE*, RN, FRCNA

A.M. Chang, DipNEd, BEdSt(Hons), MEdSt, PLD, RN, FRCNA

G. Gardner, BAppSc(AdvNursing) *La Trobe*, MEdSt *Monash*, PhD *Qld*

P. Yates, DipAppSc *QIT*, MSocSc PhD *Qld*, FRCNA

### School of Optometry

*Head:* Professor L.G. Carney, BAppSc MSc(Optom) PhD *Melb*, DSc *QUT*, LOsc, FAAO

*Professor:* D.A. Atchison, MSc(Optom) PhD *Melb*, Grad Cert Ed, FAAO

*Associate Professors:*

M. J. Collins, DipAppSc *QIT*, MAppSc PhD *QUT*, FAAO

K.L. Schmid, BAppSc(Optom)(Hons) Grad Cert Ed(HigherEd) PhD *QUT*

P. G. Swann, BSc(Hons) *Aston*, MAppSc *QUT*, FCOptom, FAAO

J. M. Wood, BSc(Hons) PhD *Aston*, MCOptom, FAAO

**School of Psychology and Counselling**

*Head:* Professor R.M. Young, BSc(Hons) MSc DipClinPsych  
Otago, PhD Qld, MAPS

*Professor:* M.C. Sheehan, BA(Hons) GradDip(Clinical Psych)  
Syd, PhD Qld

*Associate Professors:*

J.D. Davey, DipTeach BEd MEd PhD Qld

R. Schweitzer, BSocSc(Hons) UCT, MA (ClinPsy), PhD Rhodes

I.M. Shochet, BA(Hons) MA(ClinPsych) PhD Johannesburg

**School of Public Health**

*Acting Head:* M.Fleming, DipTeach BEd QUT, MA OhioS, PhD Qld

*Professors:*

B.M. Newman, BA UC Santa Cruz, MS UC Davis, PhD Berkeley

B.F. Oldenburg, BSc(Hons) MPsy PhD NSW

*Associate Professors:*

M.P. Dunne, BA(Hons) PhD Murdoch

C.M. Patterson, MSc PhD Qld, GradDipBusAdmin QUT

D.E. Stewart, BA(Hons) Durh, MA(Ed) Leic, PGCertEd Oxf,

MPH NSW, PhD Otago

**RESEARCH CENTRES****Centre for Health Research**

The Centre for Health Research is a multidisciplinary research centre, fostering collaboration and ground-breaking research across a number of health-related areas. The key strengths of the Centre for Health Research are:

**Ageing**

The effect of an ageing population has been identified as a global health and social issue. The proportion of the Australian population aged over 65 years is increasing significantly. This population shift will result in more people with age-related diseases, but many older Australians remain healthy and contribute substantially to the economy and to their community. Research questions related to both the impact of age-related disease and successful ageing underpin current research projects in the Centre for Health Research.

Research activities in this area relate to community and residential care, pain and symptom management, palliative care, ocular disease and the effects of vision impairment, foot health, gait, mobility and posture analysis, disorders of movement, injury in older people, social identity, families, mental health, nutrition, cognition and cognitive/memory deficits, the older driver, the older worker and active ageing.

**Physical Activity**

The role of physical activity in the maintenance and restoration of health is a significant emerging area. There is increasing evidence of the role of physical activity in the prevention, treatment and management of a range of chronic disorders of increasing prevalence, such as obesity, diabetes, and osteoarthritis, cardiovascular and pulmonary disease. This program of research is aimed at the promotion of physical activity during childhood and adolescence, the prescription of exercise in the context of chronic disease and at community-based health behaviour interventions.

Research into prevention and rehabilitation of occupational and sporting injuries requires assessment of biomechanical, physiological, metabolic, neurological, sensory and psychological factors, concentrating on high-risk groups. Prevention of older peoples' injuries, particularly related to falls, mobility, cognition and driving are also key research areas. Other research into a range of disorders including neurological injury, vision loss, emotional or behavioural disorders in children, peripheral arterial disease and sleep apnea is also being conducted.

**Health and Wellbeing**

Research activities in this area relate to health services, policy and management and population health. Areas of strength include: the management of chronic diseases such as cancer, diabetes, obesity, coronary heart disease and other emerging health conditions including quality of life and resilience; improving the care of hospitalised patients and managing early discharge; health outcomes for disadvantaged populations; health promoting schools and early childhood environments; and prevention and management of mental health problems. Other research areas include environmental health, child maltreatment awareness and prevention, development and implementation of nutrition assessment and screening tools, and evaluation of nutritional status.

Researchers from across the Faculty, within a range of health disciplines, bring to this program knowledge and expertise in health promotion, health care systems and economics, disease management and prevention, epidemiology and biostatistics, and policy and health services management.

**Human Behaviour**

The understanding of psychological processes has advanced considerably over recent decades with advances in methodology and technology. Research in human behaviour embraces fundamental, social, cognitive and developmental processes in psychology. This includes research in attitude theory, group behaviour and decision-making, child and adolescent development, memory, psycholinguistics and the development of reading. Building upon these core research strengths, the opportunities include research in addictive behaviour, eating, exercise, organic mental disorder and health promotion. The research methods range from the use of psychological models to predict health behavioural change to neurobiological approaches.

This research has also informed the development of psychological therapies and counselling, including rehabilitation, treatment of psychological trauma, anxiety disorders and depression, narrative therapy, family therapy and counselling supervision.

**Vision**

Vision research provides an important resource for the community, industry, government and eye-care professions. There are a number of areas of collaboration with research activities in the other programs and across faculties deriving from the main research activities in this program which are: visual optics, including aberrations of the eye and their correction, lens design and performance, myopia and optics of the eye; visual performance studies, including vision rehabilitation, vision and driving and vision and falls; and clinical research into the ocular surface, effects of refractive surgery, colour vision and electroretinography.

**Centre for Accident Research and Road Safety (CARRS-Q)****Accident and Injury Prevention Research**

Road safety and workplace accident prevention are key areas of research that have already led to the successful implementation of behaviour intervention and education programs. The Centre for Accident Research and Road Safety – Queensland (CARRS-Q) is a major collaborative research centre established as a joint venture initiative of the Motor Accident Insurance Commission (MAIC) and QUT. The Centre was created to address the enormous human, economic and social costs resulting from road crashes. It has expanded its research scope to include the broader area of injury prevention with a particular interest in youth and risk-taking behaviours.

The Centre's charter is to identify, assess and initiate innovative priority-driven research and teaching programs leading to the development and implementation of strategies to improve safety on our roads, in our workplaces and in our communities. The Centre aims to strengthen and broaden research and intervention

development in the areas of vulnerable road users, illegal and high-risk behaviours, the human behaviour and technology interface, school and community-based road safety education, and workplace safety.

**Institute of Health and Biomedical Innovation**

The Institute of Health and Biomedical Innovation (IHBI) is Australia's premier interdisciplinary research organisation. IHBI has created a dynamic and entrepreneurial environment by combining the strengths of QUT's Health, Science and Built Environment and Engineering Faculties in a progressive \$55 million building under construction in the Kelvin Grove Urban Village.

IHBI's vision is to create a dynamic collaborative environment by fostering innovation and excellence. IHBI's goal is to translate its unique research outcomes into both globally-competitive commercial assets and strategic advances in public policy for the benefit of the Australian community. This means that IHBI postgraduate researchers will be able to help advance global health care as well as training to be outstanding scientists.

IHBI offers postgraduate students an unparalleled training and career opportunity working with top researchers in a unique state-of-the-art facility. Exciting projects are available in health development, vision improvement and injury prevention as well as in projects associated with other faculties including advanced diagnostics and devices, molecular farming and tissue bio-regeneration. IHBI also provides unique opportunities to work directly with young biotech start-up companies and multinational commercial programs. This unique portfolio of opportunities helps make IHBI a highly progressive postgraduate training environment for the real world.

## ■ Doctor of Health Science (HL90)

**Award title:** Doctor of Health Science

**CRICOS code:** 037680K

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Total credit points:** 288 (96 coursework credit points and 192 research portfolio credit points)

**Standard credit points per semester (full-time):** 48 (average)

**Course coordinator:** Assoc Prof Carla Patterson

### Major Study Areas

- Health Services Management and Policy Sciences
- Nursing
- Occupational and Environmental Health Sciences
- Public Health

### Entry Requirements

Applicants should hold a four-year degree or its equivalent with Honours I or Honours IIA or its equivalent from QUT or another recognised institution, and two years practice in a position of professional responsibility appropriate to the proposed course of study.

If, in the Dean's opinion the candidate has not completed substantial professional practice, then the candidate will be required to gain substantial professional experience during the course of the doctorate.

### Application for Admission

Before submitting an application, potential candidates should contact the Course Coordinator who will assist in the preparation of the application.

Candidates should apply on the appropriate form, supplying any specified documentation. The application should be accompanied by a brief proposal for the course of study and the research field.

### Advanced Standing and Articulation

Advanced standing of up to a maximum of 96 credit points may be granted to candidates who have completed an appropriate Masters qualification or its equivalent.

The Doctor of Health Science articulates with the Master of Health Science. Students in the MHLthSc who select their program of study to be consistent with the coursework requirements for the Doctor of Health Science will be eligible for the full credit of 96 credit points.

### Course Structure

Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students:

- choose one of the major study areas list above
- complete four (4) units from this major study area (at least two units must be from List B)
- complete two (2) units in research methods
- complete two (2) approved elective units from either List A or B.

### Full-time Course Structure

#### Year 1, Semester 1

Research Methods Core Unit 1  
Research Methods Core Unit 2  
Major Study Unit 1  
Major Study Unit 2

#### Year 1, Semester 2

Major Study Unit 3  
Major Study Unit 4

PUR202 Advanced Doctoral Studies  
Elective Unit

#### Year 2, Semester 1

HLR710-1 Research Project  
HLR710-2 Research Project

#### Year 2, Semester 2

HLR710-3 Research Project  
HLR710-4 Research Project

#### Year 3, Semester 1

HLR710-5 Research Project  
HLR710-6 Research Project

#### Year 3, Semester 2

HLR710-7 Research Project  
HLR710-8 Research Project

### Part-time Course Structure

#### Year 1, Semester 1

Research Methods Core Unit 1  
Major Study Unit 1

#### Year 1, Semester 2

Major Study Unit 2  
PUR202 Advanced Doctoral Studies

#### Year 2, Semester 1

Research Methods Core Unit 2  
Major Study Unit 3

#### Year 2, Semester 2

Major Study Unit 4  
Elective Unit

#### Year 3, Semester 1

HLR710-1 Research Project

#### Year 3, Semester 2

HLR710-2 Research Project

#### Year 4, Semester 1

HLR710-3 Research Project

#### Year 4, Semester 2

HLR710-4 Research Project

#### Year 5, Semester 1

HLR710-5 Research Project

#### Year 5, Semester 2

HLR710-6 Research Project

#### Year 6, Semester 1

HLR710-7 Research Project

#### Year 6, Semester 2

HLR710-8 Research Project

### Research Methods Core Units and Major Study Area Units

#### Research Methods Core Units

Two units must be completed from the following:

HLN405 Qualitative Research  
HLN705 Introduction to Quantitative Research Methods  
PUN105 Health Statistics  
HLN706 Advanced Quantitative Research Methods

**Note:** students who have completed PUB316 (or equivalent) are ineligible to undertake HLN705.

#### Major Study Area Units

Students must complete four units from their major study area (at least two of which are selected from List B). Two additional elective units can be chosen from either List A or B.

#### Health Services Management and Policy Sciences

##### List A

PUN601 Contemporary Health Policies  
PUN602 Health Planning, Management and Evaluation  
PUN608 Health Economics  
PUN610 Health Services Management

##### List B

HLN701 Independent Study  
PUN615 Advanced Health Service Management  
PUR200 Emerging Issues in Public Health  
PUR201 Advanced Professional Studies

#### Public Health

##### List A

PUN103 Advanced Epidemiology  
PUP035 Health Promotion Strategies and Evaluation

##### List B

HLN701 Independent Study  
PUP034 Advanced Studies and Practice in Health Promotion  
PUR200 Emerging Issues in Public Health  
PUR201 Advanced Professional Studies

**Occupational and Environmental Health Sciences**

## List A

PUN008	Risk Assessment
PUN617	Environmental Health Management
PUP415	Occupational and Environmental Health
PUN302	Determinants of Workplace Injury and Disease

## List B

PUN010	Implementing Risk Management
PUR200	Emerging Issues in Public Health
PUR201	Advanced Professional Studies
HLN701	Independent Study
PUP250	Occupational and Environmental Monitoring

**Nursing**

(Only available to candidates eligible for registration as a nurse in Australia.)

## List A

NSN502	Critical Inquiry in Health Care
NSN507	Contemporary Practice Issues
NSN515	Clinical Leadership and Management

## List B

HLN701	Independent Study
NSR001	Advanced Nursing Studies
NSN508	Advanced Readings in Nursing

**Electives**

Selected from List A or List B. Units from other discipline fields may be considered after consultation.

## ■ Master of Applied Science (Research) (HL84)

**Award title:** Master of Applied Science (Research)

**CRICOS code:** 007897G

**Location:** Kelvin Grove and Carseldine

**Course duration (full-time):** 1-2 years

**Course duration (part-time):** 2-4 years

**Course coordinator:** Assoc Prof Jan Lovie-Kitchin

**Entry Requirements**

A Bachelor degree in health science, applied science or other approved degree from Queensland University of Technology, or an equivalent qualification, or submission of such other evidence of qualifications as will satisfy the academic board that the applicant possesses the capacity to pursue the course of study. If students are admitted as a provisional candidate, they will be required to submit a detailed research proposal at the end of the first year of candidacy.

**Application for Admission**

The Master of Applied Science (Research) program is administered by the Health Academic Board through its Faculty Research Committee.

Applications for admission should set out fully the candidate's intended course of study. The proposed course of study should include the area of study, the coursework to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

Approval of applications is subject to the receipt of a statement of support from the Head of School and Director of Centre in which the proposed research program is to be undertaken.

**Course Structure**

Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Students may be required to undertake an appropriate course of study concurrently with the research program. The course of study normally includes: a program of assessed coursework; participation in University scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation.

**Course Coordination**

Students undertake their program of research through one of the Faculty's Schools. Research expertise within the Faculty covers activities in ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Potential students are encouraged to contact the relevant School or Research Centre prior to submitting an application to discuss the proposed research project, supervision and facilities.

## ■ Master of Clinical Psychology (PY18)

**Award title:** Master of Clinical Psychology

**CRICOS code:** 052769J

**Location:** Carseldine

**Course duration (full-time):** 4 semesters

**Course duration (part-time):** 8 semesters

**Total credit points:** 192

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Robert Schweitzer

**Career opportunities**

Graduates are eligible to register as Psychologists. The course prepares graduates to work in a wide range of hospital, community and private practice settings, in areas that require clinical and psychotherapy skills, case management, management of health services, needs assessment and program evaluation, health promotion and education, and supervision.

**Entry Requirements**

Applicants should hold APS approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a GPA of 5 or above in their fourth year and two referee reports. Referees will be required to comment on: the academic and personal suitability of the candidate and their overall level of support for the candidate's application. International students will require an IELTS score of 6.5 and will need certification by the Australian Psychological Society that their degree is equivalent to an APS approved four years training in psychology or its equivalent from QUT or another recognised institution. All applicants will be required to attend an interview to assess their interpersonal skills in a clinical context. In the case of international applicants, this will be conducted via telephone.

The requirement to obtain a suitability notice for working with youth under the Child Protection Act (2001) does not apply to candidates who are registered with the Psychologists Board of Queensland.

**Professional recognition**

The course is designed to meet the accreditation requirements of the Australian Psychological Society (APS), the College of Clinical Psychologists and the Psychologists Board of Queensland and provides a graduate with eligibility to apply to register as a Psychologist in Queensland or any other state or territory in Australia.

**Registration requirements**

All students who will be seeking registration with the Queensland Psychologists Board as a Registered Psychologist will be required to register with the Queensland Psychologists Board for the duration of the program as a Psychologist with Probationary Conditions.

**Full-time Course Structure****Year 1, Semester 1**

PYN026	Clinical Psychological Interventions 1
PYN027	Clinical Psychological Assessment

**■ Master of Counselling (PY12)**

**Award title:** Master of Counselling

**Location:** Carseldine

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Course coordinator:** Mr David Axten

**Overview**

The Master of Counselling offers preparation for a specialised position in counselling to practitioners in the counselling field and social-science graduates, and meets training requirements for PACFA registration. It also provides knowledge, understanding and skills that will contribute to the development and practice of counselling in the professional environment.

**Entry Requirements**

An approved degree in a human-service or related area; at least two years work experience; access to ongoing counselling work with clients; and personal suitability.

**Course structure**

**Year 1, Semester 1**

PYN000 Counselling Studies 1  
 PYN001 Professional Studies 1

**Year 1, Semester 2**

PYN002 Counselling Studies 2  
 PYN003 Group Studies

**Year 2, Semester 1**

PYN004 Counselling Studies 3  
 PYN006 Professional Studies 2

**Year 2, Semester 2**

PYN014 Research for Counselling Practice, plus ONE unit from:  
 PYN013 Advanced Counselling Studies  
 Elective

**Year 3, Semester 1**

PYN007 Professional Studies 3  
 PYN008-1 Project (Part 1)

**Year 3, Semester 2**

PYN008-2 Project (Part 2)  
 PYN008-3 Project (Part 3)

**■ Master of Counselling Psychology (PY17)**

**Award title:** Master of Counselling Psychology

**CRICOS code:** 043120C

**Location:** Carseldine

**Course duration (full-time):** 4 semesters

**Course duration (part-time):** 8 semesters

**Total credit points:** 192

**Course coordinator:** Associate Professor Robert Schweitzer

**Entry Requirements**

A recognised, APS-accredited fourth year of training.

All applicants are required to attend an interview to assess their interpersonal skills in a counselling context (in the case of international applicants this will be conducted by telephone).

FOR CONTINUING STUDENTS ONLY

**Full-time Course Structure**

**Semester 1**

**■ Master of Health Science (HL88)**

**Award title:** Master of Health Science (Study Area A)

**CRICOS code:** 009030K

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Course duration (external):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Course Structure

The course consists of at least eight (8) units offered by the Schools of the Faculty of Health (List A). The remaining four units can be taken as four elective units either from List A or List B. An array of elective units allow students to either specialise in their professional discipline or to choose a coherent group of units from more than one specialist area.

To complete a major in any of the major areas of study students must complete at least four units (48 credit points) in that discipline area.

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course and subject-area coordinators.

Students with a four-year degree or three-year degree with additional one-year honours may be able to obtain advanced standing up to a maximum of 48 credit points for previous study.

### Special Notes

Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students cannot normally enrol directly in the Masters Degree in the area of Health, Safety and Environment unless they have completed relevant undergraduate qualifications in this area to the satisfaction of the course coordinator. Special consideration may be given on an individual basis.

### Course Articulation

Student who complete the Master of Health Science may be eligible for up to one year of advanced standing in HL90 Doctor of Health Science.

After successfully completing the equivalent of two semesters full-time study, students may exit the program with a Graduate Diploma in Health Science.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

HL38 Graduate Certificate in Health Science, HL68 Graduate Diploma in Health Science and PU65 Graduate Diploma in Health, Safety and Environment, fully articulate into HL88 Master of Health Science.

NS64 Graduate Diploma in Nursing and NS85 Master of Nursing students may apply for a maximum of 48 credit points of advanced standing (equivalent to List B) towards HL88 Master of Health Science. No advanced standing will be granted towards HL38 Graduate Certificate in Health Science or HL68 Graduate Diploma in Health Science. This is in addition to any List A units completed.

The following courses also articulate with the Master of Health Science:

- Graduate Certificate in Aged Care
- Graduate Certificate in Ambulance Management (QAS)
- Graduate Certificate in Community Practice
- Graduate Certificate in Environmental Health
- Graduate Certificate in Health Management (QH)
- Graduate Certificate in Health Promotion
- Graduate Certificate in Health Services Management
- Graduate Certificate in Risk Management
- Graduate Certificate in Women's Health

**■ Master of Nursing (NS85)**

**Award title:** Master of Nursing (Study Area A)

**CRICOS code:** 012644J

**Location:** Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Course duration (external):** 3 semesters (full-time) or 6 semesters (part-time) except mental health major

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

**Majors**

The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing ~
- Medical/Surgical Nursing
- Mental Health
- Midwifery \*^
- Paediatric, Child and Youth Health ~
- Professional Studies
- Women's Health

\* Midwifery is not offered in the Graduate Diploma in Nursing but is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

^ Only offered in the February intake

~ For the July intake this major is only offered a part-time basis

**Course Structure**

The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of ten different majors.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points. Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units, a 24 credit point clinical project or a 24 credit point thesis relevant to the major.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time modes. Students may complete their program by internal or external mode.

**Course Pathways/ Articulation**

The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Students who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

### Full-time Course Structure

#### Semester 1 and Semester 2

Students are required to complete the two semesters of the Graduate Diploma in Nursing content in their major area of study or the Graduate Diploma in Midwifery before continuing onto the third semester of the Master of Nursing

#### Semester 3

- |        |   |
|--------|---|
|        | Four (4) electives (List A) each of 12 credit points, or                      |
| NSN506 | Clinical Project, and two (2) electives (List A) each of 12 credit points, or |
| NSN850 | Thesis (Full-time)  |

### Part-time Course Structure

#### Semesters 1 to 4

Students are required to complete the four semesters of the Graduate Diploma in Nursing content in their major area of study before continuing onto the Master of Nursing.

#### Semesters 5 and 6

- Two (2) electives from List A, and  
Two (2) electives from List B, or

#### Semesters 5 and 6

- Two (2) electives from List A, and  
NSN506 Clinical Project, or

#### Semesters 5 and 6

- NSN506 Clinical Project, and  
Two (2) electives from List B, or

#### Semester 5 and 6

- NSN825 Thesis (Part-Time), and  
NSN825 Thesis (Part-Time)

### Elective Lists

#### List A (Semester 1)

- |        |  |
|--------|--|
| HLN705 | Introduction to Quantitative Research Methods      |
| HLN706 | Advanced Quantitative Research Methods             |
| HLN405 | Qualitative Research                               |
| NSN721 | Key Issues in Emergency and Intensive Care Nursing |
| NSN002 | Key Issues in Child and Youth Health Nursing       |
| NSN821 | Key Issues in Aged Care                            |
| NSN801 | Health Assessment in Aged Care                     |
| NSN701 | Advanced Health Assessment                         |
| NSN517 | Women's Health Issues                              |
| NSN508 | Advanced Readings in Nursing                       |

#### List B (Semester 2)

- |        |   |
|--------|---|
| HLN405 | Qualitative Research                                  |
| NSN508 | Advanced Readings in Nursing                          |
| NSN509 | Special Topic   |
| NSN723 | Specialisation in Critical Care Nursing               |
| NSN725 | Specialisation in Medical/Surgical and Cancer Nursing |
| NSN626 | Dementia and Family Care                              |
| NSN516 | Sexual Reproductive Health                            |
| NSN929 | Psychosocial Rehabilitation                           |
| NSN502 | Critical Inquiry in Health Care                       |
| NSN523 | Clinical Studies                                      |
| NSN722 | Principles of Intensive Care Nursing                  |

\* In selected modules, students studying NSN723 and NSN725 must be working in a practice setting relevant to the areas of study, or be willing to undertake additional clinical experiences. Contact the course coordinator for further information.

## ■ Master of Public Health (PU85)

**Award title:** Master of Public Health (Study Area A)

**CRICOS code:** 009029C

**Location:** Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Course duration (external):** 3 semesters (full-time) or 6 semesters (part-time)

**Total credit points:** 144

**Course coordinator:** Dr Elizabeth Parker

### Specialised Streams Units

Offered in the areas of:

- Health Services Management and Policy Sciences

- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods

There is also the option of not completing a major and choosing units from more than one stream.

### Course Structure

Students elect between three options:

Option 1. Full Coursework (no project or thesis component)

Consists of four core units, one research methods unit (HLN405, HLN705 or HLN706), and seven advanced elective units. Elective units will normally be selected according to choice of a major or stream of study, or more than one stream where the no major option is chosen.

Option 2. Coursework with a project component

Consists of four core units, one research methods unit (HLN405, HLN705 or HLN706), five advanced elective units and one project unit (HLN703). Elective units will normally be selected according to choice of a major or stream of study, or more than one stream where the 'no major' option is chosen.

Option 3. Coursework with a thesis component

Full-time students in the program undertake a course work component in their first two semesters (full-time) or four semesters (part-time), followed by a dissertation component of one semester (or two semesters part-time). The course work component comprises of four core units and four advanced elective units. Elective units will normally be selected according to choice of a major or stream of study, or more than one stream where the 'no major' option is chosen.

### Full-time Course Structure

#### PART A - Semester 1 - Core Units (Option 1, 2, 3)

- |        |   |
|--------|---|
| PUN105 | Health Statistics                             |
| PUN692 | Health Care Delivery Systems                  |
| PUN702 | Social and Behavioural Determinants of Health |
| PUN743 | Introduction to Epidemiology                  |

#### PART B - Semester 2 - Advanced Elective Units offered by QUT (Option 1, 2, 3)

- 4 electives from same major, or  
4 electives across majors

#### PART C - Semester 3 - Coursework (Option 1 only)

- Students select further electives from advanced elective list,  
or

#### PART C - Semester 3 - Project (Option 2 only)

- HLN703 Project A, plus electives from advanced elective list, or

#### PART C - Semester 3 - Dissertation (Option 3 only)

- HLN700 Thesis

### Part-time Course Structure

#### PART A - Semester 1 - Core Units

- |        |                              |
|--------|------------------------------|
| PUN692 | Health Care Delivery Systems |
| PUN105 | Health Statistics            |

#### PART B - Semester 2 - Advanced Elective Units Offered By QUT (Option 1, 2, 3)

- 2 electives from same major, or  
2 electives across majors

#### PART A - Semester 3 - Core Units

- |        |   |
|--------|---|
| PUN702 | Social and Behavioural Determinants of Health |
| PUN743 | Introduction to Epidemiology                  |

#### PART B - Semester 4 - Advanced Elective Units Offered By QUT (Option 1, 2, 3)

- 2 electives from same major, or  
2 electives from across majors

#### PART C - Semester 5 & 6 - Coursework (Option 1 only)

- Students select further electives from advanced elective list,  
or

#### PART C - Semester 5 & 6 - Project (Option 2 only)

- HLN703 Project A, or

#### PART C - Semester 5 & 6 - Dissertation (Option 3 only)

- HLN750 Thesis

### Course Structure - Advanced Elective Unit List

## ■ Postgraduate Diploma in Psychology (PY20)

**Award title:** Post Graduate Diploma in Psychology

**CRICOS code:** 034714G

**Location:** Carseldine

**Course duration (full-time):** 2 semesters (February only)

**Course duration (part-time):** 4 semesters (may not be available by evening study)

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Herbert Biggs

**Entry Requirements**

An undergraduate degree accredited by the Australian Psychological Society (APS) as an entry point into an Honours Psychology program, (for example QUT's PY45 Bachelor of Behavioural Science (Psychology)) with a minimum grade point average (GPA) of 5 achieved in the second and third-year APS accredited Psychology units.

**QUT Applicants**

For applicants with a QUT Bachelor's award, the base level requirements for consideration for inclusion in the Postgraduate Diploma in Psychology program will be:

\* a minimum overall Grade Point Average of 5 in prescribed second and third year Psychology units or their equivalent, specifically:

PYB201	Perception
PYB203	Developmental Psychology
PYB205	Social Psychology
PYB206	Personality
PYB208	Counselling Theory and Practice 1
PYB210	Research Design and Data Analysis
PYB302	Industrial and Organisational Psychology
PYB303	Cognitive Psychology
PYB304	Physiological Psychology
PYB306	Psychopathology
PYB311	Psychological Assessment

**Non-QUT Applicants**

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

Certified copies of complete academic transcripts must be provided with applications.

**Course Structure**

The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from advanced cognitive, organisational/counselling theory. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have 3 contact hours per week. The contact for research thesis units is as required by the supervisor.

**Full-time Course Structure****Year 1, Semester 1**

PYB450-1 Research Thesis (Part 1), plus ONE research methods unit selected from the following options:

PYB401	Advanced Research Methods
HHB232	Survey Methods, plus TWO advanced psychology units selected from the following options:
PYB402	Counselling Psychology
PYB403	Cognitive Neuropsychology
PYB404	Issues in Social Developmental Psychology
PYB405	Advanced Organisational Psychology
PYB408	Advanced Social Cognition

**Year 1, Semester 2**

PYB407	Research and Professional Development Seminar
PYB450-2	Research Thesis (Part 2)
PYB450-3	Research Thesis (Part 3), plus ONE cognate elective, at 3rd year level or above, selected from a list approved by the Course Coordinator.

**Part-time Course Structure****Year 1, Semester 1**

Option A	
Two units from the following options:	
PYB402	Counselling Psychology
PYB403	Cognitive Neuropsychology
PYB404	Issues in Social Developmental Psychology
PYB405	Advanced Organisational Psychology
PYB408	Advanced Social Cognition, or

**Option B**

One unit from the following options:	
PYB402	Counselling Psychology
PYB403	Cognitive Neuropsychology
PYB404	Issues in Social Developmental Psychology
PYB405	Advanced Organisational Psychology
PYB408	Advanced Social Cognition, and
One unit from the following options:	
PYB401	Advanced Research Methods
HHB232	Survey Methods

**Year 1, Semester 2**

PYB407	Research and Professional Development Seminar, and One cognate elective, at 3rd year level or above, selected from a list approved by the course coordinator
--------	--

**Year 2, Semester 1**

Option B Continued	
One further unit from the following options:	
PYB402	Counselling Psychology
PYB403	Cognitive Neuropsychology
PYB404	Issues in Social Developmental Psychology
PYB405	Advanced Organisational Psychology
PYB408	Advanced Social Cognition

**Year 2, Semester 2**

PYB450-2 Research Thesis (Part 2)

PYB450-3 Research Thesis (Part 3)

**■ Graduate Diploma in Environmental Health (PU67)****Award title:** Graduate Diploma in Environmental Health**Location:** Kelvin Grove**Course duration (full-time):** 2 semesters**Course duration (part-time):** 4 semesters**Course coordinator:** Dr Elizabeth Parker**Overview**

The Graduate Diploma in Environmental Health provides the knowledge and skills required for graduates to be employed as environmental health practitioners and in particular they will be eligible to practise as environmental health officers. This award provides students with undergraduate degrees in science, environmental science, nursing, health science or public health an entry pathway into environmental health professional practice.

**Entry Requirements**

Applicants for admission require an undergraduate degree in a relevant area such as science, environmental science, nursing, health science, or public health. Applicants also require to have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology or life science.

**Course Articulation**

This program articulates into the Master of Health Science (HL88).

**Course Structure**

Students follow a prescribed enrolment program and are required to complete seven units in environmental health and one elective unit.

**Year 1, Semester 1**

PUN620 Concepts of Environmental Health

PUN363 Environmental Health Law

PUN364 Food Safety  
Elective**Year 1, Semester 2**

PUN617 Environmental Health Management

PUN466 Communicable diseases

PUN465 Environmental Protection

PUN467 Public Health Risk Assessment

**Elective list**

PUN634 International Health Management and Planning

PUN635 Evidence Based Health Policy

PUP038 New Developments in Health Promotion

**■ Graduate Diploma in Health Science (HL68)****Award title:** Graduate Diploma in Health Science (Study Area A)**CRICOS code:** 020308C**Location:** Kelvin Grove**Course duration (full-time):** 2 semesters**Course duration (part-time):** 4 semesters**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)**Total credit points:** 96**Standard credit points per semester (full-time):** 48**Standard credit points per semester (part-time):** 24**Course coordinator:** Dr Elizabeth Parker**Majors**

Majors are offered in the following areas: environmental health, health services management, health promotion, risk management,

physical and health education, women's health, aged care and cross specialisation. To complete a major, students must complete at least four units from the same discipline area from within the Faculty of Health.

Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

**Course Structure**

The Graduate Diploma in Health Science consists of eight units totally 96 credit points selected from units offered by Schools within the Faculty of Health (List A units). No more than two (24 credit points) advanced undergraduate health units can be included in the total.

Completion of four units (48 credit points) in an area of specialisation entitles the graduate to a Graduate Diploma in Health Science within a specific discipline, eg. Graduate Diploma in Health Science (Health Promotion).

**Course Articulation**

This course articulates fully into HL88 Master of Health Science.

HL38 Graduate Certificate in Health Science fully articulates into this course.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

**Full-time Course Structure****Year 1, Semester 1**

## ■ Graduate Diploma in Health, Safety and Environment (PU65)

**Award title:** Graduate Diploma in Health, Safety and Environment

**CRICOS code:** 020307D

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Elizabeth Parker

### **Course Articulation**

This course fully articulates into HL88 Master of Health Science.

### **Full-time Course Structure**

#### **Year 1, Semester 1**

PUN001	Contemporary Risk Management
PUN008	Risk Assessment
PUN301	Health, Safety and Environmental Law and Management
PUN302	Determinants of Workplace Injury and Disease Year 1, Semester 2
PUN500	Systems Safety for Health, Safety and Environment
PUP116	Ergonomics
PUP250	Occupational and Environmental Monitoring
PUP415	Occupational and Environmental Health

### **Part-time Course Structure**

#### **Year 1, Semester 1**

PUN001	Contemporary Risk Management
PUN301	Health, Safety and Environmental Law and Management

#### **Year 1, Semester 2**

MEP201	Safety Technology and Practice
PUP415	Occupational and Environmental Health

#### **Year 2, Semester 1**

PUN008	Risk Assessment
PUN302	Determinants of Workplace Injury and Disease

#### **Year 2, Semester 2**

PUP250	Occupational and Environmental Monitoring
PUP116	Ergonomics

## ■ Graduate Diploma in Midwifery (NS68)

**Award title:** Graduate Diploma in Midwifery

**CRICOS code:** 040342B

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

**Full-time Course Structure****Year 1, Semester 1**

NSN311	Clinical Studies in Midwifery A
NSN507	Contemporary Practice Issues
NSN321	Foundations of Midwifery Practice, and select ONE of the following:
HLN405	Qualitative Research
HLN705	Introduction to Quantitative Research Methods
HLN706	Advanced Quantitative Research Methods

**Year 1, Semester 2**

NSN322	Complex Issues for Childbearing Families
NSN323	Clinical Studies in Midwifery B
NSN516	Sexual Reproductive Health, and select ONE of either:
NSN509	Special Topic, or Elective (see elective list)

**Part-time Course Structure****Year 1, Semester 1**

NSN311	Clinical Studies in Midwifery A
NSN321	Foundations of Midwifery Practice

**Year 1, Semester 2**

NSN322	Complex Issues for Childbearing Families
NSN516	Sexual Reproductive Health

**Year 2, Semester 1**

NSN507	Contemporary Practice Issues, and select ONE of the following units:
--------	--

HLN405	Qualitative Research
HLN705	Introduction to Quantitative Research Methods
HLN706	Advanced Quantitative Research Methods

**Year 2, Semester 2**

NSN323	Clinical Studies in Midwifery B, and Select ONE of either:
NSN509	Special Topic, or Elective

**Elective list**

HLN405	Qualitative Research
NSN006	Specialisation in Paediatric, Child and Youth Health Nursing
NSN502	Critical Inquiry in Health Care
NSN508	Advanced Readings in Nursing
NSN515	Clinical Leadership and Management
NSN624	Collaborative Practice in the Community

Students studying NSN509 must be working in a practice setting relevant to the areas of study, or be willing to undertake additional clinical, experience to be able to undertake this unit.

**■ Graduate Diploma in Nursing (NS64)**

**Award title:** Graduate Diploma in Nursing (Study Area A)

**CRICOS code:** 015086K

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Course coordinator:** Dr Debra Anderson

**Majors**

The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing ~
- Medical/Surgical Nursing
- Mental Health
- Paediatric, Child and Youth Health ~
- Professional Studies
- Women's Health

~ For the July intake this major is only offered a part-time basis

**Aged Care****Full-time Course Structure****Semester 1**

**■ Graduate Diploma in Public Health (PU60)**

**Award title:** Graduate Diploma in Public Health (Study Area A)

**CRICOS code:** 020306E

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Elizabeth Parker

**Specialised Stream Units**

Offered in the areas of:

- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods

**Course Pathways/Articulation**

This course fully articulates into PU85 Master of Public Health

**Course Structure**

Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units and four advanced elective units. Elective units will normally be selected according to choice of a stream of study.

**Part A - Core Units**

PUN105	Health Statistics
PUN692	Health Care Delivery Systems
PUN702	Social and Behavioural Determinants of Health
PUN743	Introduction to Epidemiology

**Part B - Advanced elective units offered by QUT****Health Services Management and Policy Sciences**

PUN608	Health Economics
PUN609	Health Care Finance
PUN610	Health Services Management
PUN615	Advanced Health Service Management
PUN634	International Health Management and Planning
PUN635	Evidence Based Health Policy

**Occupational and Environmental Health Science**

EFN418	Introduction to Financial Risk Management
PUN001	Contemporary Risk Management
PUN008	Risk Assessment
PUN010	Implementing Risk Management
PUN301	Health, Safety and Environmental Law and Management

PUN302	Determinants of Workplace Injury and Disease
PUN500	Systems Safety for Health, Safety and Environment
PUN617	Environmental Health Management
PUN620	Concepts of Environmental Health
PUP116	Ergonomics
PUP250	Occupational and Environmental Monitoring
PUP415	Occupational and Environmental Health

**Health Promotion**

To qualify for the Health Promotion major, students must complete:

PUP032	Intervention Design and Theories of Change
PUP034	Advanced Studies and Practice in Health Promotion
PUP036	Concepts and Settings for Health Promotion, and at least one unit from:

PUB644	Health Promoting Schools
PUP035	Health Promotion Strategies and Evaluation

**Epidemiology and Research Methods**

HLN405	Qualitative Research
HLN705	Introduction to Quantitative Research Methods
HLN706	Advanced Quantitative Research Methods
PUN103	Advanced Epidemiology
PUN814	Principles of Epidemiology (UQ)
PUN850	Epidemiology and Disease Control (UQ)

**■ Graduate Diploma in Road Safety (PY41)**

**Award title:** Graduate Diploma in Road Safety

**CRICOS code:** 040335A

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Barry Watson

**Course Structure**

The Graduate Diploma in Road Safety course consists of two core units plus six electives. The program structure is designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two are available in intensive week-long blocks. The program has recently been enhanced with the introduction of distance education delivery for select units.

**Part-time Course Structure****Year 1, Semester 1**

PYP401	Introduction to Road Safety, and one of the following units:
PYP402	Traffic Psychology and Behaviour
CEP127	Road and Traffic Engineering

**Year 1, Semester 2**

PYP404	Applying Traffic Psychology Any approved elective or a unit offered in Summer Program listed below:
--------	--

**Year 1, Summer Program**

PYP405	Road Safety Evaluation Models
CEP151	Road Safety Audit - Principles and Practice Consideration will be given to offering core or elective units in block mode, as demand warrants

**Year 2, Semester 1**

	Any two of the following units, not completed in Year 1:
PYP402	Traffic Psychology and Behaviour
PYP407	Independent Study
CEP127	Road and Safety Engineering

**Year 2, Semester 2**

PYP406	Road Safety Theory to Practice, and one of the following units or a unit offered in Summer Program:
PYP404	Applying Traffic Psychology
PYP407	Independent Study

**Year 2, Summer Program**

PYP405	Road Safety Evaluation Models
CEP151	Road Safety Audit - Principles and Practice Consideration will be given to offering core or elective units in block mode, as demand warrants

**Notes:** CEP151 Road Safety Audit - Principles and Practice is conducted jointly by QUT and Main Roads and may be offered at other times of the year, subject to demand.

PYP501, PYP502, PYP504 and PYP506 are all flexible delivery versions of the campus-based units and can be undertaken in distance education mode.

## ■ Graduate Certificate in Aged Care (NS39)

**Award title:** Graduate Certificate in Aged Care

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

### Course Requirements

The course can be undertaken by internal or external mode.

This course can also be commenced Mid-Year.

### Part-time Course Structure

#### Year 1, Semester 1

NSN801 Health Assessment in Aged Care

NSN821 Key Issues in Aged Care

#### Year 1, Semester 2

NSN822 Principles of Aged Care Practice

Elective OR

Any other 12 credit point postgraduate unit offered by the Faculty of Health for which the student has the necessary pre-requisites.

#### Elective List

HLN405 Qualitative Research

NSN509 Special Topic

NSN516 Sexual Reproductive Health

NSN626 Dementia and Family Care

In NSN509 Special Topic students have the option of studying one of the two special topics - Prevention of Violence Against Women or Compromised Neonate

## ■ Graduate Certificate in Cancer Nursing (NS31)

**Award title:** Graduate Certificate in Cancer Nursing

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Debra Anderson

**Discipline coordinator:** Patsy Yates

### Course Pathways/Articulation

The Graduate Certificate in Cancer Nursing has full articulation with NS64 Graduate Diploma of Nursing or NS85 Master of Nursing.

### Part-time Course Structure

#### Year 1, Semester 1

NSN701 Advanced Health Assessment

NSN724 Advanced Nursing Practice

#### Year 1, Semester 2

NSN726 Advanced Clinical Practice

NSN723 Specialisation in Critical Care Nursing, or

NSN725 Specialisation in Medical/Surgical And Cancer Nursing

## ■ Graduate Certificate in Community Practice (NS34)

**Award title:** Graduate Certificate in Community Practice

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

### Course Pathways/Articulation

The Graduate Certificate in Community Practice has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing programs.

### Part-time Course Structure

#### Year 1, Semester 1

NSN701 Advanced Health Assessment, or

NSN801 Health Assessment in Aged Care

Select one of:

PUN106 Population Health

PUN634 International Health Management and Planning

PUP038 New Developments in Health Promotion

#### Year 1, Semester 2

Elective (List B)

NSN726 Advanced Clinical Practice

PUP034 Advanced Studies and Practice in Health Promotion

PUP037 Health Program Evaluation

#### Electives (List B)

HLN405 Qualitative Research

NSN508 Advanced Readings in Nursing

NSN509 Special Topic

NSN626 Dementia and Family Care

NSN516 Sexual Reproductive Health

## ■ Graduate Certificate in Emergency Nursing (NS41)

**Award title:** Graduate Certificate in Emergency Nursing

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 12

**Course coordinator:** Dr Debra Anderson

### Articulation

All units successfully completed may be credited towards NS64 Graduate Diploma of Nursing or NS85 Master of Nursing.

### Entry Requirements

Students must:

- be eligible for registration as a nurse with the Queensland Nursing Council
- have gained a degree in nursing (or equivalent) from a recognised institution
- have completed the Queensland Health Transition to Emergency Nursing Program (or its equivalent) within the past three years, and
- normally have at least one year of appropriate post-registration clinical experience.

Candidates who are not employed in a clinical setting relevant to their program may be required to undertake additional supernumerary clinical experiences to meet the requirements of the course.

### Course Design

The Graduate Certificate comprises 48 credit points made up of 24 credit points advanced standing from accredited programs, plus 24 credit points from units offered by the School of Nursing.

### Part-time Course Structure

#### Year 1, Semester 1

NSN721 Key Issues in Emergency and Intensive Care Nursing

#### Year 1, Semester 2

NSN723 Specialisation in Critical Care Nursing

## ■ Graduate Certificate in Environmental Health (PU32)

**Award title:** Graduate Certificate in Environmental Health

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Entry Requirements

An appropriate Bachelor degree, or other qualifications (or an acceptable professional qualification) or appropriate work experience acceptable to the Dean.

### Part-time Course Structure

#### Semester 1

PUN001 Contemporary Risk Management

PUN620 Concepts of Environmental Health

#### Semester 2

PUN617 Environmental Health Management

PUP415 Occupational and Environmental Health

## ■ Graduate Certificate in Health Promotion (PU39)

**Award title:** Graduate Certificate in Health Promotion

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Entry Requirements

An appropriate Bachelor degree, or other qualifications (or an acceptable professional qualification) or appropriate work experience acceptable to the Dean.

### Part-time Course Structure

#### Year 1, Semester 1

PUP032 Intervention Design and Theories of Change

PUP036 Concepts and Settings for Health Promotion

#### Year 1, Semester 2

PUP034 Advanced Studies and Practice in Health Promotion, and

PUP035 Health Promotion Strategies and Evaluation, or

PUB644 Health Promoting Schools

## ■ Graduate Certificate in Health Science (HL38)

**Award title:** Graduate Certificate in Health Science

**CRICOS code:** 027285D

**Location:** Kelvin Grove

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters part-time

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Entry Requirements

Students must hold an appropriate bachelor degree or other qualifications/work experience acceptable to the Dean.

### Course Structure

Students are required to complete any four units (totalling 48 credit points) from List A. No more than two (24 credit points) senior undergraduate units can be included in the total.

### Course Articulation

This course articulates fully into HL68 Graduate Diploma in Health Science and HL88 Master of Health Science

### Special Note

Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduands to practice in these areas.

### Part-time Course Structure

#### Year 1, Semester 1

Select two units from List A

### Year 1, Semester 2

Select two units from List A

### Unit List

#### List A - Major Areas of Study

##### AGED CARE

NSN626 Dementia and Family Care

NSN801 Health Assessment in Aged Care

NSN821 Key Issues in Aged Care

NSN822 Principles of Aged Care Practice

##### ENVIRONMENTAL HEALTH

PUN363 Environmental Health Law

PUN465 Environmental Protection

PUN467 Public Health Risk Assessment

PUN620 Concepts of Environmental Health

##### HEALTH SERVICES MANAGEMENT

PUN601 Contemporary Health Policies

PUN602 Health Planning, Management and Evaluation

PUN608 Health Economics

PUN609 Health Care Finance

PUN610 Health Services Management

PUN615 Advanced Health Service Management

PUN692 Health Care Delivery Systems

##### HEALTH PROMOTION

PUP032 Intervention Design and Theories of Change

PUP034 Advanced Studies and Practice in Health Promotion

PUP035 Health Promotion Strategies and Evaluation

PUP036 Concepts and Settings for Health Promotion

##### HEALTH, SAFETY AND ENVIRONMENT(not available as a major)

PUN500 Systems Safety for Health, Safety and Environment

PUN001 Contemporary Risk Management

PUN008 Risk Assessment

PUN301 Health, Safety and Environmental Law and Management

PUN302 Determinants of Workplace Injury and Disease

PUP116 Ergonomics

PUP250 Occupational and Environmental Monitoring

PUP415 Occupational and Environmental Health

##### RISK MANAGEMENT

EFN418 Introduction to Financial Risk Management

PUN001 Contemporary Risk Management

PUN008 Risk Assessment

PUN010 Implementing Risk Management

##### WOMEN'S HEALTH

NSN509 Special Topic

NSN516 Sexual Reproductive Health

NSN517 Women's Health Issues

##### Elective

#### Additional List A Units

##### RESEARCH METHODS ELECTIVES

HLN405 Qualitative Research

HLN705 Introduction to Quantitative Research Methods

HLN706 Advanced Quantitative Research Methods

PUN105 Health Statistics

##### RESEARCH UNITS

HLN701 Independent Study

HLN703 Project A

HLN704 Project B

HLN708 Project

HLN700 Thesis, or

HLN750 Thesis

##### GENERAL HEALTH ELECTIVES

PUN103 Advanced Epidemiology

PUN106 Population Health

PYN026 Clinical Psychological Interventions 1

PYN029 Clinical Psychological Interventions 2

PYN460 Advanced Interventions For Addictive Behaviours

PYP401 Introduction to Road Safety

PYP402 Traffic Psychology and Behaviour

PYP404 Applying Traffic Psychology

##### UNDERGRADUATE HEALTH ELECTIVES

(maximum two permitted)

HMB361 Functional Anatomy 2

HMB362 Biomechanics 2

HMB371 Motor Control And Learning 2

HMB374 Psychology of Rehabilitation

HMB381 Exercise Physiology 2

HMB384 Injury Prevention and Rehabilitation

HMB480	Advanced Exercise Prescription
PUB509	Nutrition
PUB514	Contract/Project Management

## ■ Graduate Certificate in Health Services Management (PU38)

**Award title:** Graduate Certificate in Health Services Management

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Entry Requirements

An appropriate Bachelor degree, or other qualifications (or an acceptable professional qualification) or appropriate work experience acceptable to the Dean.

### Part-time Course Structure

#### Year 1, Semester 1

PUN692	Health Care Delivery Systems, and
PUB511	Health Policy, Planning and Evaluation, or
PUB514	Contract/Project Management

#### Year 1, Semester 2

PUN610	Health Services Management, and
--------	---------------------------------

PUN601	Contemporary Health Policies, or
PUN608	Health Economics, or
PUB609	Health Resource Allocation

## ■ Graduate Certificate in Intensive Care Nursing (NS30)

**Award title:** Graduate Certificate in Intensive Care Nursing

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

### Articulation

The Graduate Certificate in Intensive Care Nursing has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing programs.

### Part-time Course Structure

#### Year 1, Semester 1

NSN701	Advanced Health Assessment
NSN721	Key Issues in Emergency and Intensive Care Nursing

#### Year 1, Semester 2

NSN722	Principles of Intensive Care Nursing
NSN723	Specialisation in Critical Care Nursing, or
NSN725	Specialisation in Medical/Surgical and Cancer Nursing

## ■ Graduate Certificate in Medical/Surgical Nursing (NS33)

**Award title:** Graduate Certificate in Medical/Surgical Nursing

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

### Course Pathways/Articulation

The Graduate Certificate in Medical/Surgical Nursing has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing programs.

The course can be undertaken by internal or external mode. Mid-year entry is available.

### Part-time Course Structure

#### Year 1, Semester 1

NSN701	Advanced Health Assessment
NSN724	Advanced Nursing Practice

#### Year 1, Semester 2

NSN726	Advanced Clinical Practice
NSN723	Specialisation in Critical Care Nursing, or
NSN725	Specialisation in Medical/Surgical And Cancer Nursing

## ■ Graduate Certificate in Ocular Therapeutics (OP43)

**Award title:** Graduate Certificate in Ocular Therapeutics

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

### Entry Requirements

Applicants for the course must hold a four year degree in optometry from a recognised School of Optometry, or have equivalent standing and have current registration as optometrists in any State or Territory of Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular

therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

### Course Structure

#### Year 1, Semester 1

OPP001 Ocular Therapeutics 1

#### Year 1, Semester 2

OPP002 Ocular Therapeutics 2

## ■ Graduate Certificate in Paediatric, Child and Youth Health Nursing (NS35)

**Award title:** Graduate Certificate in Paediatric, Child and Youth Health Nursing

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

### Course Requirements

The course can be undertaken by internal or external mode.

### Part-time Course Structure

#### Year 1, Semester 1

NSN002 Key Issues in Child and Youth Health Nursing

NSN003 Principles of Paediatric, Child and Youth Health Nursing

#### Year 1, Semester 2

NSN006 Specialisation in Paediatric, Child and Youth Health Nursing

NSN004 Acute Paediatric Nursing, or

NSN005 Community Child and Youth Health Nursing

## ■ Graduate Certificate in Public Health (PU30)

**Award title:** Graduate Certificate in Public Health

**CRICOS code:** 048295F

**Location:** Kelvin Grove

**Course duration (full-time):** 1 semester

**Course duration (external):** 1 semester

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Entry Requirements

Applicants must have an approved bachelor degree from a recognised institution or a basic professional qualification plus not less than two years of relevant post-qualification experience and/or training.

### Course Structure

The course consists of 4 core units (48 credit points) from the Master of Public Health (PU85)/Graduate Diploma in Public Health (PU60). The program is taught by a consortium of universities with each of QUT, Griffith University and University of Queensland offering one of the core units. The fourth unit is a statistics unit offered by QUT.

### Course Pathways/Articulation

This course fully articulates into PU60 Graduate Diploma in Public Health and PU85 Master of Public Health.

### Course Structure

#### Semester 1

PUN692 Health Care Delivery Systems

PUN702 Social and Behavioural Determinants of Health

PUN743 Introduction to Epidemiology

PUN105 Health Statistics

## ■ Graduate Certificate in Road Safety (PY40)

**Award title:** Graduate Certificate in Road Safety

**CRICOS code:** 040334B

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Barry Watson

### Course Structure

The Graduate Certificate in Road Safety consists of one core unit plus three electives. The majority of the units are delivered on a semester basis, although two are available in intensive week-long blocks. The program has recently been enhanced with the introduction of distance education delivery for select units.

### Distance Education Units

Four units have been approved for delivery in distance education mode:

PYP501 Introduction to Road Safety is

PYP502 Traffic Psychology and Behaviour

PYP504 Applying Traffic Psychology

PYP506 Road Safety Theory to Practice

### Course Structure

#### Year 1, Semester 1

PYP401 Introduction to Road Safety, and one of the following units:

PYP402 Traffic Psychology and Behaviour

CEP127 Road and Traffic Engineering

#### Year 1, Semester 2

PYP406 Road Safety Theory to Practice

PYP404 Applying Traffic Psychology

The above units can be replaced with one or two units offered in Summer Program

#### Year 1, Summer Program

PYP405 Road Safety Evaluation Models

CEP151 Road Safety Audit - Principles and Practice\*

Consideration will be given to offering core or elective units in block mode, as demand warrants

\* CEP151 is conducted jointly by QUT and Main Roads and may be offered at other times of the year, subject to demand.

**Notes:** PYP501, PYP502, PYP504 and PYP506 are all flexible delivery versions of the campus-based units and can be undertaken in distance education mode.

## ■ Graduate Certificate in Rugby Studies (HM34)

**Award title:** Graduate Certificate in Rugby Studies

**CRICOS code:** Not required

**Location:** Kelvin Grove

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Graham Costin

### Entry Requirements

Applicants must hold an appropriate Bachelor degree in Human Movement Studies, Exercise and Sports Science, Physical Education or equivalent.

Other qualifications and/or at least 5 years of full-time work experience acceptable to the Dean will also be considered, as will requests for credit transfer and advanced standing.

### Course Structure

The Graduate Certificate in Rugby Studies consists of 48 credit points from the School of Human Movement Studies. The course is offered in part-time external mode only.

The offering of this course is under review. Contact the Faculty of Health for details.

## Part-time Course Structure

### Semester 1

HMP390 Rugby Coaching - Principles and Skills  
HMP385 Sport Practicum (Rugby)

### Semester 2

HMP389 Assessment In Sport (Rugby)  
HMP383 Sport Studies Project (Rugby)

## ■ Graduate Certificate in Women's Health (NS36)

**Award title:** Graduate Certificate in Women's Health

**Location:** Kelvin Grove

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Debra Anderson

### Course Pathways/Articulation

The Graduate Certificate in Women's Health has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing, and HL68 Graduate Diploma in Health Science and HL88 Master of Health Science.

The Graduate Certificate in Women's Health can be undertaken by internal or external mode. Mid-year entry is available.

## Part-time Course Structure

### Year 1, Semester 1

NSN517 Women's Health Issues  
Elective Unit or any other 12 credit point postgraduate unit offered by the Faculty of Health for which the student has the necessary pre-requisites

### Year 1, Semester 2

NSN509 Special Topic  
NSN516 Sexual Reproductive Health

### Elective List

HLN405 Qualitative Research  
HLN705 Introduction to Quantitative Research Methods  
NSN002 Key Issues in Child and Youth Health Nursing  
NSN508 Advanced Readings in Nursing  
NSN626 Dementia and Family Care  
NSN701 Advanced Health Assessment  
NSN801 Health Assessment in Aged Care  
NSN821 Key Issues in Aged Care

Students studying NSN002 must be working at 0.6 FTE in an appropriate setting or be required to undertake additional clinical experiences to meet the requirements of the unit.

## ■ Bachelor of Applied Science (Honours) (HL52)

**Award title:** Bachelor of Applied Science (Honours)

**CRICOS code:** 043118G

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Assoc Prof Jan Lovie-Kitchin

### Entry Requirements

Applicants should have completed QUT's Bachelor of Applied Science/Bachelor of Health Science in a relevant area, or equivalent and have attained a grade point average (GPA) of at least 5.0 over the pass degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Dean.

## Full-time Course Structure

### Year 1, Semester 1

HLP101 Advanced Discipline Readings  
HLP103 Dissertation  
Select one of the following units:  
HLN405 Qualitative Research  
HLN706 Advanced Quantitative Research Methods  
PUN105 Health Statistics, and one elective unit

### Year 1, Semester 2

HLP102 Research Seminars  
HLP103  
HLP103 Dissertation  
HLP103 Dissertation

### Electives

Students undertake a 12 credit point elective. This may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the students supervisor and the course coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is germane to the students study program. For further information on available units contact the relevant school honours coordinator. Students may also select either HLN405 Qualitative Research or HLN706 Advanced Quantitative Research Methods or MAN009 Experimental Design and Statistical Analysis for Research as an elective.

### Dissertation

The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

## Part-time Course Structure

### Year 1, Semester 1

Select one of the following units:  
HLN706 Advanced Quantitative Research Methods  
HLN405 Qualitative Research  
PUN105 Health Statistics, and One elective unit

## ■ Bachelor of Nursing (Honours) (HL50)

**Award title:** Bachelor of Nursing (Honours)

**CRICOS code:** 016355G

**Location:** Kelvin Grove

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Assoc Prof Jan Lovie-Kitchin

### Entry Requirements

Applicants should have completed QUT's Bachelor of Nursing (NS40, NS48) or equivalent and have attained a grade point average (GPA) of at least 5.0 over the pass degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Dean.

## Full-time Course Structure

### Year 1, Semester 1

HLP101	Advanced Discipline Readings
--------	------------------------------

HLP103	Dissertation
	Select one of the following units:
HLN405	Qualitative Research
HLN706	Advanced Quantitative Research Methods
PUN105	Health Statistics, and one elective unit

### Year 1, Semester 2

HLP102	Research Seminars
HLP103	Dissertation
HLP103	Dissertation

### Electives

Students undertake a 12 credit point elective. This may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the students supervisor and the course coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is germane to the students study program. For further information on available units contact the relevant school honours coordinator. Students may also select either HLN405 Qualitative Research or HLN706 Advanced Quantitative Research Methods or MAN009 Experimental Design and Statistical Analysis for Research as an elective.

### Dissertation

The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

## Part-time Course Structure

### Year 1, Semester 1

	Select one of the following units:
HLN706	Advanced Quantitative Research Methods
HLN405	Qualitative Research
PUN105	Health Statistics, and One elective unit

### Year 1, Semester 2

HLP101	Advanced Discipline Readings
HLP103	Dissertation

### Year 2, Semester 1

HLP103	Dissertation
HLP103	Dissertation

### Year 2, Semester 2

HLP102	Research Seminars
HLP103	Dissertation

## ■ Bachelor of Psychology (Honours) (PY09)

**Award title:** Bachelor of Psychology (Honours)

**CRICOS code:** 034711K

**Location:** Carseldine

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 Semesters (may not be available by evening study)

**Total credit points:** 96

**Course coordinator:** Dr Herbert Biggs

### Entry Requirements

An undergraduate degree accredited by the Australian Psychological Society (APS) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology)), with an overall grade point average (GPA) of at least 5, a GPA of at least 5 across APS accredited second and third year psychology units and successful completion of an APS accredited third year statistics unit (PYB350 or equivalent).

### QUT Applicants

For applicants with a QUT Bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:

- a minimum GPA of 5 in the overall undergraduate degree program
- completion of and at least a pass in PYB350 Advanced Statistical Analysis (or its equivalent)
- a minimum overall GPA of 5 in prescribed second and third year Psychology units or their equivalent, specifically:

PYB201	Perception
PYB203	Developmental Psychology
PYB205	Social Psychology
PYB206	Personality
PYB208	Counselling Theory and Practice 1
PYB210	Research Design and Data Analysis
PYB302	Industrial and Organisational Psychology
PYB303	Cognitive Psychology
PYB304	Physiological Psychology
PYB306	Psychopathology
PYB311	Psychological Assessment

### Non-QUT Applicants

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

They will also be required to provide certified copies of complete academic transcripts and evidence of their eligibility to undertake an Honours program at their home institution.

Both internal and external applicants who reach the minimum criteria as outlined above may be required to undertake a further selection process.

### Course Structure

The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from advanced cognitive, organisational/counselling theory. The research component of the program entails one Research Methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

### Full-time Course Structure

#### Year 1, Semester 1

PYB400-1	Thesis (Part 1)
PYB401	Advanced Research Methods Two Elective Units

#### Year 1, Semester 2

PYB400-2	Thesis (Part 2)
PYB400-3	Thesis (Part 3)
PYB400-4	Thesis (Part 4)
PYB407	Research and Professional Development Seminar

### Part-time Course Structure

#### Year 1, Semester 1

PYB401	Advanced Research Methods One Elective Unit
--------	--

#### Year 1, Semester 2

PYB400-1	Thesis (Part 1)
PYB407	Research and Professional Development Seminar

#### Year 2, Semester 1

PYB400-2	Thesis (Part 2) One Elective Unit
----------	--------------------------------------

#### Year 2, Semester 2

PYB400-3	Thesis (Part 3)
PYB400-4	Thesis (Part 4)

### Elective Units

PYB402	Counselling Psychology
PYB403	Cognitive Neuropsychology
PYB404	Issues in Social Developmental Psychology
PYB405	Advanced Organisational Psychology
PYB408	Advanced Social Cognition

## ■ Bachelor of Applied Science (Exercise and Sports Nutrition) (HM45)

**Award title:** Bachelor of Applied Science (Exercise and Sports Nutrition)

**CRICOS code:** 047456B

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Graham Costin

### Course Structure

#### Year 1, Semester 1

HMB171	Fitness Health and Wellness
HMB313	Socio-Cultural Foundations of Physical Activity
LSB131	Anatomy
PUB474	Food Studies

#### Year 1, Semester 2

LSB231	Physiology
PCB142	Chemistry 1
PUB201	Food and Nutrition
PYB012	Psychology

#### Year 2, Semester 1

HMB271	Foundations Of Motor Control, Learning And Development
HMB277	Exercise and Sport Nutrition
HMB274	Functional Anatomy
PUB341	Nutrition Education

#### Year 2, Semester 2

HMB272	Biomechanics
HMB275	Exercise and Sport Psychology
HMB273	Exercise Physiology 1
PCB242	Chemistry 2

#### Year 3, Semester 1

HMB382	Principles of Exercise Prescription
HMB471	Project 1
LSB308	Biochemistry
PUB509	Nutrition

#### Year 3, Semester 2

HMB470	Practicum 1
PUB405	Nutrition Science
PUB501	Applied Counselling for Health Professionals
PUB875	Professional Practice

## ■ Bachelor of Applied Science (Human Movement Studies) (HM42)

**Award title:** Bachelor of Applied Science (Human Movement Studies)

**CRICOS code:** 012659B

**Location:** Kelvin Grove

**Course duration (full-time):** 4 Years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Graham Costin

### Professional Membership

Graduates are eligible for membership of the Australian Association for Exercise and Sports Science.

### Special Course Requirements

Students must complete units totalling 384 credit points including foundation units, a major and a minor study, elective units, practicum experiences and fourth-year studies.

A major (10 units-120 credit points) must be completed in the specified discipline area of Exercise and Sport Science. This includes six compulsory second-level units (72 credit points), two compulsory third-level units (HMB379 and HMB382) (24 credit points), a Practicum unit (HMB470) (12 credit points) and one additional third-level unit (12 credit points).

As a professional degree, the program has a number of compulsory practicum experiences throughout the first two years in preparation for the third year practicum and substantive practicum period in Year 4.

Two minors must be completed. One minor (48 credit points) consisting of four units from level three Human Movement Electives. The second minor (48 credit points) may be undertaken from any approved discipline within QUT. It should consist of at least two units from level two and three.

The degree may be awarded with Honours: First Class Honours; Second Class Honours Division A; and Second Class Honours Division B. Candidates for the degree with Honours must fulfil the requirements for the pass degree and achieve such a standard

of proficiency in all the units of the course as may from time to time be determined by the Health Academic Board and approved by the University Academic Board.

### Full-time Course Structure

#### Year 1, Semester 1

HMB171	Fitness Health and Wellness
HMB313	Socio-Cultural Foundations of Physical Activity
LSB131	Anatomy
PYB012	Psychology

#### Year 1, Semester 2

LSB231	Physiology
HMB272	Biomechanics
HMB275	Exercise and Sport Psychology
HMB172	Nutrition and Physical Activity

#### Year 2, Semester 1

HMB271	Foundations Of Motor Control, Learning And Development
HMB274	Functional Anatomy
	Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)

#### Year 2, Semester 2

HMB276	Research in Human Movement
PYB007	Interpersonal Processes and Skills
HMB273	Exercise Physiology 1
HMB282	Resistance Training

#### Year 3, Semester 1

HMB379	Disorders of Human Movement
HMB382	Principles Of Exercise Prescription
	Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)

#### Year 3, Semester 2

HMB470	Practicum 1, or Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)

#### Year 4, Semester 1

HMB471	Project 1
HMB470	Practicum 1, or Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)
	Elective (HM minor, discipline minor or general)

#### Year 4, Semester 2

HMB472	Project 2
HMB475	Practicum 2

### Third Level Units

All third level units are not available in every semester. Students should consult School noticeboards for availability.

HMB277	Exercise and Sport Nutrition
HMB361	Functional Anatomy 2
HMB362	Biomechanics 2
HMB363	Independent Study
HMB364	Seminars in Human Movement
HMB371	Motor Control And Learning 2
HMB379	Disorders of Human Movement
HMB374	Psychology of Rehabilitation
HMB375	Adapted Physical Activity
HMB376	Motor Development in Children
HMB377	Children in Sport
HMB381	Exercise Physiology 2
HMB383	Workplace Health
HMB384	Injury Prevention and Rehabilitation
HMB480	Advanced Exercise Prescription

#### Note:

1. HMB379 is compulsory for students who first enrolled in HM42 in 1998 or later.
2. Students who have successfully completed 288 credit points and have met the general requirements for a three year degree, may graduate with a Bachelor of Applied Science after seeking approval through the School of Human Movement Studies Student Affairs Officer on (07) 3864 5846.

## ■ Bachelor of Applied Science (Optometry) (OP42)

**Award title:** Bachelor of Applied Science (Optometry)

**CRICOS code:** 009031J

**Location:** Kelvin Grove

**Course duration (full-time):** 4 Years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Assoc Prof Peter Swann

### Professional Membership

In each State and Territory of Australia, the practice of optometry is regulated by Boards of Optometrical Registration which are statutory bodies set up under the Acts of the respective State Parliaments. Under these Acts, the practice of optometry is restricted to persons whose names appear on the Register. On completion of the degree at QUT, the graduate will have satisfied the requirements of the Optometrists' Board of Queensland and may apply for registration to practise as an optometrist in Queensland and all States and Territories of Australia.

### Special Course Requirements

The degree may be awarded with Honours, First Class Honours, Second Class Honours Division A and Second Class Honours Division B. Candidates for the degree with Honours must fulfil the requirements for the pass degree and achieve such standard of proficiency in all the units of the course as may from time to time be determined by the Health Academic Board.

Ophthalmic instruments are required by students for the clinical program from the beginning of the second and third years of the course. Academic staff provide advice regarding the purchase of these instruments. Costs are estimated to be \$5000. Students are also required to undertake first aid certification before entering the clinical program.

### Course Structure

#### Year 1, Semester 1

LSB119	Life Science for Optometrists
LSB152	Anatomy
MAB140	Quantitative Methods for Optometry and Health Science
PCB141	Chemistry for Clinical Health Professionals

#### Year 1, Semester 2

LSB275	Biomolecular Science
LSB250	Human Physiology
OPB250	Optometry 2
PCB240	Optics 1

#### Year 2, Semester 1

OPB350	Optometry 3
PCB340	Optics 3
OPB351	Visual Science 3
OPB352	Ocular Anatomy and Physiology 3

#### Year 2, Semester 2

OPB450	Optometry 4
LSB492	Microbiology
OPB451	Visual Science 4
OPB452	Ocular Anatomy and Physiology 4

#### Year 3, Semester 1

OPB550	Diseases of the Eye 5
OPB551	Optometry 5
OPB552	Advanced Optometry 5
OPB553	Clinical Practice 5

#### Year 3, Semester 2

OPB650	Diseases of the Eye 6
OPB651	Contact Lens Studies
OPB652	Pharmacology
OPB653	Clinical Practice 6

#### Year 4, Semester 1

OPB750	Topics in Optometry 7
OPB751	Advanced Optometry 7
OPB752	Clinical Practice 7
OPB753	Specialist Clinical Practice 7

#### Year 4, Semester 2

OPB850	Topics in Optometry 8
OPB851	Advanced Optometry 8
OPB852	Clinical Practice 8
OPB853	Specialist Clinical Practice 8

## ■ Bachelor of Behavioural Science (Psychology) (PY45)

**Award title:** Bachelor of Behavioural Science (Psychology)

**CRICOS code:** 034136C

**Location:** Carseldine

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

### Professional Membership

The Bachelor of Behavioural Science (Psychology) provides students with a degree accredited by the Australian Psychological Society.

### Full-time Course Structure

#### Year 1, Semester 1

PYB000	Scholarship and Skills (Psychology)
PYB101	Introduction to Psychology 1A
PYB007	Interpersonal Processes and Skills Social Science Foundation Unit (see List A)

#### Year 1, Semester 2

PYB110	Psychological Research Methods
PYB102	Introduction to Psychology 1B
PYB208	Counselling Theory and Practice 1
PYB158	Introduction to Substance Abuse in Australia, or Elective

#### Year 2, Semester 1

PYB205	Social Psychology
PYB206	Personality
PYB210	Research Design and Data Analysis Elective

#### Year 2, Semester 2

PYB201	Perception
PYB203	Developmental Psychology Elective Elective

#### Year 3, Semester 1

PYB302	Industrial and Organisational Psychology
PYB303	Cognitive Psychology
PYB304	Physiological Psychology Elective

#### Year 3, Semester 2

PYB306	Psychopathology
PYB311	Psychological Assessment Elective Elective*

**Notes:** \*PYB350 is compulsory if you wish to continue into the Bachelor of Psychology (Honours) program, otherwise another elective can be taken.

### Part-time Course Structure

#### Semester 1

PYB101	Introduction to Psychology 1A
PYB000	Scholarship and Skills (Psychology)

#### Semester 2

PYB102	Introduction to Psychology 1B

PYB306	Psychopathology
PYB311	Psychological Assessment

#### Semester 11

PYB304	Physiological Psychology Elective
--------	--------------------------------------

#### Semester 12

	Elective
	Elective*

**Notes:** \*PYB350 is compulsory if you wish to continue into the Bachelor of Psychology (Honours) program. Otherwise another elective can be taken.

### List A: Social Science Foundation Units

In your first year of study (or first two years of study for part-time students), you are required to study one compulsory Social Science Foundation Unit from the list below, and one other elective unit. The Social Science Foundation unit can be completed in either 1st or 2nd semester, depending on your choice of unit and its availability. You should enrol in an elective unit in the other semester.

HHB103	Contemporary Social And Community Issues
HHB104	Understanding Society: Intro. To Sociology
HHB105	Exploring Change
HHB110	Introduction To International And Global Studies
HHB114	Introduction To Human Rights And Ethics
HHB115	Human Identity And Change
HHB210	Indigenous Australia: Country, Kin And Culture

### Psychology Electives

The following electives are offered in the Psychology program to enable diversity of choice at undergraduate and early postgraduate level and to allow innovative approaches to current and perceived community needs. However, such electives will be offered subject to staff availability and sufficient student enrolment to justify running the unit.

PYB054	Psychology and Gender
PYB067	Human Sexuality
PYB158	Introduction to Substance Abuse in Australia
PYB159	Alcohol and Other Drug Studies
PYB215	Forensic Psychology and the Law
PYB257	Group Work
PYB258	Introduction to Theory and Research in Hypnosis
PYB260	Psychopharmacology of Addictive Behaviour
PYB305	Applied Social Psychology
PYB307	Health Psychology
PYB353	Occupational and Vocational Psychology
PYB356	Counselling Theory and Practice 2
PYB358	Advanced Developmental Psychology
PYB359	Introduction to Family Therapy
PYB360	Interventions for Addictive Behaviours
PYB371	Introduction to Road Safety
PYB372	Traffic Psychology and Behaviour
PYB374	Applying Traffic Psychology
PYB350	Advanced Statistical Analysis

(essential for intending Honours students)

Elective units are subject to prerequisite requirements and the Course Coordinator may approve other electives. Minor sequences are available in public health and human services. Alternatively, students may wish to develop a major or minor sequence in any other School of the University, particularly within courses that have relevance to Psychology.

## ■ Bachelor of Health Science (Environmental Health) (PU40)

**Award title:** Bachelor of Health Science (Environmental Health)

**CRICOS code:** 022142D

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mrs Melinda Service

### Other Majors

See also the separate entries for the following majors in this course: Health Information Management or Health Services Management; Nutrition; or Public Health.

**Professional Membership**

Graduates of Bachelor of Health Science (Environmental Health) are eligible for membership of the Australian Institute of Environmental Health, Environment Institute of Australia, Public Health Association of Australia and the Australian Health Promotion Association.

## HSM Minor Elective Lists

### Minor Elective Information for the Health Services Management Major

The course structure consists of:

- a major in Health Services Management PLUS the opportunity to select from one of the following:
- a major in Public Health (Major 2) comprised of 84cp including the following core units: PUB201, PUB329, PUB416, PUB461, PUB561, PUB565, PUB406, and one 12cp unit selected from the minor elective lists below., or
- two minors (Minor 1 and Minor 2) each of which are comprised of 48cp selected from the minor electives lists below. , or
- one minor and four electives (Minor 1 and Electives) selected from the minor elective lists below. You must ensure that you satisfy all prerequisites and that only one of the four electives is at an introductory level.

#### Note:

\* To select a minor or elective from outside the recommended list below, you must seek approval from the Academic Affairs Officer.

\* You may only select up to four minor elective units (48 credit points) from outside of the School of Public Health.

#### Accounting and Finance

AYB121	Financial Accounting
AYB220	Company Accounting
AYB225	Management Accounting
BSB110	Accounting

#### Health, Safety and Environment

PUB112	Workplace Health and Safety
PUB354	Occupational Health
PUB611	Risk Management
PUB632	Independent Study

#### Human Resource Management

BSB122	Quantitative Analysis and Finance
MGB211	Organisational Behaviour
MGB220	Management Research Methods
MGB222	Managing Organisations
MGB309	Strategic Management
MGB314	Organisational Consulting and Change

#### Indigenous Health

HHB254	Indigenous Australian Culture Studies
PUB406	Health Promotion Strategies
PUB557	Health Needs of Indigenous Australians and Other Populations
PUB644	Health Promoting Schools

### Women's Health

PUB336	Women's Health
PUB406	Health Promotion Strategies
PUB632	Independent Study
PYB054	Psychology and Gender

### General Electives

The complete list of General Electives is available on the current PU40 Course Summary Sheet.

## ■ Bachelor of Health Science (Nutrition and Dietetics) (PU43)

**Award title:** Bachelor of Health Science (Nutrition and Dietetics)

**CRICOS code:** 022143C

**Location:** Kelvin Grove

**Course duration (full-time):** 4 Years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Mrs Melinda Service

### Other Majors

See also the separate entry for the following major in this course: Podiatry.

### Professional Membership

Graduates are eligible for membership of the Dietitians Association of Australia, and may enrol in the APD (Accredited Practising Dietitian Program). They are also eligible for membership of the Public Health Association of Australia, the Australian Health Promotion Association, Sports Dietitian Association, and Sports Medicine Australia.

### Full-time Course Structure

#### Year 1, Semester 1

PCB142	Chemistry 1
PUB104	Introduction to Health Services Management
PUB251	Contemporary Public Health
PUB474	Food Studies

#### Year 1, Semester 2

LSB255	Human Anatomy
PCB242	Chemistry 2
PUB201	Food and Nutrition
PYB012	Psychology

#### Year 2, Semester 1

LSB308	Biochemistry
LSB358	Physiology 1
PUB326	Epidemiology
PUB341	Nutrition Education

#### Year 2, Semester 2

LSB408	Metabolism
LSB458	Physiology 2

HMB273	Exercise Physiology 1, or
LSB658	Clinical Physiology

#### Year 3, Semester 1

PUB506	Foodservice Management
PUB509	Nutrition
PUB541	Medical Nutrition Therapy 1
PUB561	Quantitative Analysis for Health

#### Year 3, Semester 2

PUB501	Applied Counselling for Health Professionals
PUB628	Advanced Food Studies
PUB641	Medical Nutrition Therapy 2
PUB875	Professional Practice

#### Year 4, Semester 1

PUB723	Clinical Dietetic Practice
PUB821-1	Practice in Community Nutrition
PUB822-1	Practice in Food Service Management
	Minor Elective

#### Year 4, Semester 2

PUB606	Dietetic Management
--------	---------------------

- PUB821-2 Practice in Community Nutrition  
 PUB822-2 Practice in Food Service Management  
 Minor Elective  
 Minor Elective

**Note:** \*Credentialing requirements are for four semesters of study in anatomy/physiology. Students must choose either HMB273 Exercise Physiology 1 or LSB658 Clinical Physiology as their fourth unit.

#### **Elective Units for the Nutrition and Dietetics Major**

Students are required to select four electives which constitute a minor (see topics below) OR four electives from the approved list below.

If selecting a mix of elective units (as opposed to a pre-approved minor), students must ensure that no more than one elective is at an introductory level.

Elective units are subject to prerequisite requirements, credit points, and availability of the unit and approval of the Course Coordinator.

#### **Alcohol and Drug Studies**

- PYB158 Introduction to Substance Abuse in Australia  
 PYB159 Alcohol and Other Drug Studies  
 PYB260 Psychopharmacology of Addictive Behaviour  
 PYB360 Interventions for Addictive Behaviours

#### **Clinical Science**

- LSB658 Clinical Physiology, plus  
 48 credit points selected from the following:  
 LSB365 Pathology  
 LSB438 Immunology 1  
 LSB415 Microbiology  
 LSB508 Advanced Metabolism  
 PUB632 Independent Study

#### **Counselling**

- PYB007 Interpersonal Processes and Skills  
 PYB208 Counselling Theory and Practice 1  
 Choose two of the following:  
 PYB159 Alcohol and Other Drug Studies  
 PYB257 Group Work  
 PYB356 Counselling Theory and Practice 2  
 PYB359 Introduction to Family Therapy  
 PYB360 Interventions for Addictive Behaviours

#### **Dietetic Management**

- 48 credit points selected from the following:  
 LWS001 Medicine And The Law  
 PUB354 Occupational Health  
 PUB380 Casemix Management  
 PUB480 Health Administration Finance  
 PUB490 Quality Management in Health  
 PUB511 Health Policy, Planning and Evaluation

#### **Exercise**

- HMB273 Exercise Physiology 1, plus  
 48 credit points selected from the following:  
 HMB272 Biomechanics  
 HMB274 Functional Anatomy  
 HMB277 Exercise and Sport Nutrition  
 HMB332 Health Related Fitness  
 HMB333 Child and Adolescent Health  
 HMB379 Disorders of Human Movement  
 HMB381 Exercise Physiology 2  
 HMB382 Principles Of Exercise Prescription  
 HMB383 Workplace Health  
 PUB632 Independent Study

#### **General Electives in Food Safety**

- LSB415 Microbiology  
 PUB517 Food Hygiene Studies

#### **Health Management**

- PUB480 Health Administration Finance  
 PUB511 Health Policy, Planning and Evaluation  
 PUB514 Contract/Project Management  
 PUB609 Health Resource Allocation  
 PUB611 Risk Management  
 PUB632 Independent Study

#### **Health Promotion**

- PUB107 Sustainable Environments for Health  
 PUB336 Women's Health  
 PUB406 Health Promotion Strategies  
 PUB511 Health Policy, Planning and Evaluation  
 PUB514 Contract/Project Management  
 PUB557 Health Needs of Indigenous Australians and Other Populations  
 PUB565 International Health  
 PUB644 Health Promoting Schools

#### **Private Practice**

- BSB110 Accounting  
 LWS001 Medicine And The Law  
 PUB826 Project and Professional Management  
 BSB113 Economics, or  
 BSB114 Government, Business and Society, or  
 BSB126 Marketing

#### **Research**

- HLN405 Qualitative Research  
 HLN706 Advanced Quantitative Research Methods  
 PUB416 Research Methods  
 PUB461 Qualitative Inquiry in Public Health  
 PUB632 Independent Study

## ■ Bachelor of Health Science (Nutrition and Dietetics)/Bachelor of Applied Science (Human Movement Studies) (HL42)

**Award title:** Bachelor of Applied Science (Human Movement Studies)/Bachelor of Health Science (Nutrition and Dietetics)

**CRICOS code:** 031579M

**Location:** Kelvin Grove

**Course duration (full-time):** 5 Years

**Total credit points:** 528

**Standard credit points per semester (full-time):** 48 (6 semesters) 60 (4 semesters)

**Course coordinator:** Dr Graham Costin

### **Professional Membership**

Graduates are eligible for membership of the Dietitians Association of Australia and may enrol in the APD (Accredited Practising Dietitian) program. Graduates are also eligible for membership in the Australian Association for Exercise and Sports Science.

### **Full-time Course Structure**

#### **Year 1, Semester 1**

- LSB131 Anatomy  
 PCB142 Chemistry 1  
 PUB251 Contemporary Public Health  
 PUB474 Food Studies

#### **Year 1, Semester 2**

- HMB171 Fitness Health and Wellness  
 HMB276 Research in Human Movement  
 PCB242 Chemistry 2  
 PUB201 Food and Nutrition  
 PYB007 Interpersonal Processes and Skills

#### **Year 2, Semester 1**

- HMB271 Foundations Of Motor Control, Learning And Development  
 HMB274 Functional Anatomy  
 HMB313 Socio-Cultural Foundations of Physical Activity  
 LSB308 Biochemistry  
 LSB358 Physiology 1

#### **Year 2, Semester 2**

- HMB272 Biomechanics  
 HMB273 Exercise Physiology 1  
 LSB408 Metabolism  
 LSB458 Physiology 2  
 PUB405 Nutrition Science

#### **Year 3, Semester 1**

- HMB379 Disorders of Human Movement  
 PUB326 Epidemiology  
 PUB506 Foodservice Management  
 PUB541 Medical Nutrition Therapy 1  
 PYB012 Psychology

#### **Year 3, Semester 2**

- HMB275 Exercise and Sport Psychology  
 PUB628 Advanced Food Studies  
 PUB641 Medical Nutrition Therapy 2  
 HMB282 Resistance Training

#### **Year 4, Semester 1**

- HMB277 Exercise and Sport Nutrition  
 HMB382 Principles Of Exercise Prescription  
 PUB509 Nutrition  
 HMB313 Socio-Cultural Foundations of Physical Activity

#### **Year 4, Semester 2**

- HMB470 Practicum 1

HMB471	Project 1
PUB501	Applied Counselling for Health Professionals
PUB875	Professional Practice
<b>Year 5, Semester 1</b>	
HMB472	Project 2
PUB723	Clinical Dietetic Practice
PUB821-1	Practice in Community Nutrition
PUB822-1	Practice in Food Service Management
<b>Year 5, Semester 2</b>	
HMB475	Practicum 2
PUB606	Dietetic Management
PUB821-2	Practice in Community Nutrition
PUB822-2	Practice in Food Service Management

## ■ Bachelor of Health Science (Nutrition) (PU40)

**Award title:** Bachelor of Health Science (Nutrition)

**CRICOS code:** 022142D

**Location:** Kelvin Grove

**Course duration (full-time):** 3 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Ms Melinda Service

**Discipline coordinator:** Dr Philippa Lyons-Wall

### Other Majors

See also the separate entries for the following majors in this course: Health Information Management or Health Services Management; or Public Health.

### Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

### Full-time Course Structure

#### Year 1, Semester 1

PCB142	Chemistry 1

## ■ Bachelor of Health Science (Podiatry) (PU43)

**Award title:** Bachelor of Health Science (Podiatry)

**CRICOS code:** 022143C

**Location:** Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Ms Melinda Service

**Discipline coordinator:** Mr Alan Crawford

### Other Majors

See also the separate entry for the following major in this course:  
Nutrition and Dietetics.

### Professional Membership

Graduates are eligible for State Registration throughout Australia. This qualification is also acceptable for registration in the United Kingdom, New Zealand and some European countries. Graduates may also become Members of the Australian Podiatry Association and are eligible to apply for membership of Sports Medicine Australia.

### Full-time Course Structure

	Major 2 OR Minor 1 OR Elective

### PUH Minor Elective Lists

#### Minor Elective Information for the Public Health Major

The course structure consists of:

- a major in Public Health PLUS the opportunity to select from one of the following:
- a major in Health Services Management (Major 2) comprised of 96cp including the following core units: LWS001, MGB207, PUB380, PUB480, PUB490, PUB511, PUB514, and PUB609., or
- two minors (Minor 1 and Minor 2) each of which are comprised of 48cp selected from the minor electives lists below., or
- one minor and four electives (Minor 1 and Electives) selected from the minor elective lists below. You must ensure that you satisfy all prerequisites and that only one of the four electives is at an introductory level.

#### Note:

\* To select a minor or elective from outside the recommended list below, you must seek approval from the Academic Affairs Officer.

\* You may only select up to four minor elective units (48 credit points) from outside of the School of Public Health.

#### Alcohol and Drug Studies

PYB158	Introduction to Substance Abuse in Australia
PYB159	Alcohol and Other Drug Studies
PYB260	Psychopharmacology of Addictive Behaviour
PYB360	Interventions for Addictive Behaviours

#### Community Nutrition

PUB341	Nutrition Education
PUB474	Food Studies
PUB509	Nutrition
PUB632	Independent Study

#### Environmental Health

LSB415	Microbiology
PUB517	Food Hygiene Studies
PUB400	Environmental Protection
PUB409	Communicable Disease: Prevention and Control

#### General Studies in Psychology

PYB159	Alcohol and Other Drug Studies
PYB203	Developmental Psychology
PYB205	Social Psychology
PYB307	Health Psychology

#### Health Education

HMB171	Fitness Health and Wellness
PUB632	Independent Study
PUB644	Health Promoting Schools
SPB023	Adult Learning and Development

#### Indigenous Health

EDB007	Culture Studies: Indigenous Education
HHB123	Indigenous Australian Culture Studies
PUB557	Health Needs of Indigenous Australians and Other Populations
PUB632	Independent Study

#### Women's Health

PUB336	Women's Health
PUB632	Independent Study
PYB054	Psychology and Gender
SPB007	Human Sexuality and Learning

#### General Electives

PUB112	Workplace Health and Safety
PUB308	Environmental Health Fundamentals
PUB349	Families and Households
PUB354	Occupational Health
PUB407	Environmental Pollution
PUB480	Health Administration Finance
PUB490	Quality Management in Health

PUB511	Health Policy, Planning and Evaluation
PUB514	Contract/Project Management
PUB611	Risk Management

## ■ Bachelor of Nursing (NS40)

**Award title:** Bachelor of Nursing

**CRICOS code:** 003501K

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years (February entry only)

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Alan Barnard

### Professional Membership

This course is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member.

Domestic or international students who complete the preregistration stream of studies (288 credit points) are eligible for registration within Australia, and have been successful in obtaining registration in Britain, New Zealand and North America. Eligible international registered nurses who complete a specified course of study (96 credit points) are also eligible for registration within Australia.

### Course Requirements

The clinical practice units require students to undertake block practicums of two or more weeks duration during semester. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

### Full-time Course Structure

#### Year 1, Semester 1

LSB182	Bioscience 1
NSB117	Nursing and the Health Care System
NSB225	Promoting Health Across the Lifespan
PYB073	Introduction to Behavioural Science and Health Care

#### Year 1, Semester 2

LSB282	Bioscience 2
NSB113	Values, Culture and Diversity
NSB118	Health Assessment and Nursing Practice
NSB122	Clinical Practice 1

#### Year 2, Semester 1

LSB382	Bioscience 3
NSB212	Clinical Practice 2
NSB223	Mental Health Nursing
NSB324	Medical-Surgical Nursing 1

#### Year 2, Semester 2

HHB120	Ethics, Law And Health Care
NSB222	Clinical Practice 3
NSB224	Research Approaches in Nursing
NSB423	Medical-Surgical Nursing 2

#### Year 3, Semester 1

NSB322	Clinical Practice 4
NSB424	Nursing Therapeutics
NSB500	Medical-Surgical Nursing 3
NSB501	Politics, Technology and Nursing

#### Year 3, Semester 2

NSB321	Professional Nursing Development
NSB333	Clinical Practice 5
	Elective

### Full-time Course Structure - Mid-year intake

#### Year 1, Semester 1 (July)

LSB182	Bioscience 1
NSB118	Health Assessment and Nursing Practice
PUB209	Health, Culture and Society
PYB012	Psychology

#### Year 1, Semester 2 (Feb)

LSB382	Bioscience 3

NSB424	Nursing Therapeutics
NSB501	Politics, Technology and Nursing

#### Year 5, Semester 2

NSB321	Professional Nursing Development
	Elective (see list below)

#### Year 6, Semester 1

NSB322	Clinical Practice 4
NSB500	Medical-Surgical Nursing 3

#### Year 6, Semester 2

NSB333	Clinical Practice 5
--------	---------------------

### Elective list

#### Elective List (subject to availability)

NSB600	Introduction to Nursing Children and Childbearing Families
NSB602	Pain Management and Contemporary Nursing Practice
NSB603	Introduction to Cardiothoracic Nursing
NSB604	Introduction to Dementia and Family Care
NSB605	Nursing in a Technological World
NSB421	Independent Study
PYB257	Group Work
PYB360	Interventions for Addictive Behaviours
NSB312	Family and Community Nursing, or any other unit approved by the School of Nursing

## ■ Bachelor of Nursing - Graduate Entry (NS40)

**Award title:** Bachelor of Nursing

**CRICOS code:** 046054F

**Location:** Kelvin Grove

**Course duration (full-time):** 2 Years

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Alan Barnard

### Professional Membership

This course is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. Domestic or international students who complete the pre-registration stream of studies (288 credit points) are eligible for registration within Australia, and have been successful in obtaining registration in Britain, New Zealand and North America. Eligible international registered nurses who complete a specified course of study (96 credit points) are also eligible for registration within Australia.

### Course Requirements

The clinical practice units require students to undertake block practicums of two or more weeks duration during semester. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

### Full-time Course Structure

*For Preregistration students who have completed an undergraduate degree*

#### Year 1, Semester 1

LSB111	Understanding Disease Concepts
NSB324	Medical-Surgical Nursing 1
NSB223	Mental Health Nursing
NSB122	Clinical Practice 1
NSB212	Clinical Practice 2

#### Year 1, Semester 2

NSB423	Medical-Surgical Nursing 2
HHB120	Ethics, Law And Health Care
NSB222	Clinical Practice 3

#### Year 2, Semester 1

NSB500	Medical-Surgical Nursing 3
NSB501	Politics, Technology and Nursing
NSB322	Clinical Practice 4
NSB424	Nursing Therapeutics

#### Year 2, Semester 2

NSB321	Professional Nursing Development
	Elective
NSB333	Clinical Practice 5

## ■ Bachelor of Nursing - Postregistration (NS40)

**Award title:** Bachelor of Nursing

**CRICOS code:** 000451F

**Location:** Kelvin Grove

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years (February entry only)

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Alan Barnard

### FOR CONTINUING STUDENTS ONLY

## Streams in NS40 Bachelor of Nursing

The Bachelor of Nursing (NS40) course provides streams of study for both preregistration and postregistration students (ie those who have already completed a qualification leading to registration as a nurse).

Registered nurses who enrol in the NS40 Bachelor of Nursing course can choose between two different study pathways. Pathway 1 is designed as a Bachelor degree upgrade for domestic registered nurses with a Diploma or hospital certificate and overseas registered nurses not seeking registration within Australia. Eight units, including 2 core units, must be completed. Please note that this stream is not a Nursing "re-entry" course and completion does not lead to registration as a nurse within Australia. The course structure for Pathway 1 is shown below.

Pathway 2 is available to International students only and is also designed as a Bachelor degree upgrade. In addition, students who complete the prescribed eight unit program will be eligible for registration with the Queensland Nursing Council.

### Professional Membership

The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia, as satisfying the academic requirements for admission as a professional member.

### Full-time Course Structure

#### Year 1, Semester 1

Select 4 units:

NSB223	Mental Health Nursing

## OVERVIEW

The School of Humanities and Human Services within QUT Carseldine is focused on multidisciplinary teaching and research and offers a range of subjects which focus on contemporary international, local and community issues.

- The **Bachelor of Arts** offers students the opportunity for interdisciplinary majors in International and Global Studies, Ethics and Human Rights, Society and Change, and Community Studies. Discipline majors in History, Geography, and Languages, Social Sciences (Sociology and Political Studies) are also available together with a broad range of co-majors from other areas of the University.
- The **Bachelor of Social Science** offers majors in Applied Ethics, Geography and Environmental Studies, Human Services and Social Policy, International and Global Studies, Political Studies, and Sociology.
- The **Bachelor of Social Science (Human Services)** focuses on contemporary issues and offers a suite of skills units that will prepare students for work in aged services, disability services, corrections, working with children and family and with young people.
- associated **postgraduate research and coursework programs and honours programs** are also available in the School.

Staff of QUT Carseldine are committed to maintaining strong links with industry and the professions served by the courses on offer. QUT Carseldine is also responsible for the coordination of academic and support activities at the Carseldine campus, and for the continued development of the campus and its relationships with community partners. Research and community service activities are regarded as key strategies for ensuring the on-going relevance of the academic programs at all levels and for maintaining the strong success record of graduates.

## SENIOR STAFF

### QUT Carseldine

*Director:* Professor R.L. Matchett, BSocWk(Hons) *Qld*, MAASW

*Assistant Director (Academic Coordination):* Dr A.J. Williamson, BEcon BA PhD *Qld*, MA *Griff*

*Executive Officer:* J.Dyke, BA *Qld*, MEd *QUT*

### School of Humanities and Human Services

*Head:* Professor C. Bean, BA MA(Hons) *Canterbury*, PhD *ANU*

*Professor:* C.A. Trocki, BA *Cleveland*, MA PhD *C'nell*

*Associate Professors:*

H. Guille, BSc(Hons) R'dg, PhD *Griff*

G.J. Ianziti, BA *San Fran*, MA PhD *Nth Car*

G. Kendall, MA *Camb*, MSc *Manc*, PhD *Lond*

## RESEARCH CENTRES

### Centre for Social Change Research

The Centre's purpose is to develop a research environment that promotes understanding of the drivers of social change and the implications of change for individuals, families, communities and nations.

The Centre facilitates research with a strong applied social research orientation, which allows the human, ethical and societal dimensions of technological, environmental, economic and political change to be assessed, and responses to these changes to be identified. This is achieved through careful, critical, independent and ethical research, which contributes to better outcomes for individuals and communities, and addresses issues of national and global significance.

Staff and students are offered

- a centre of excellence in the 'craft of research', with a recognised reputation
- a distinctive, applied research culture, underpinned by a solid research base
- a focus on international and local issues related to the humanities, social sciences and human services
- an ethical engagement with a wide range of public policy and practices related to government, business and the community, including human services, health care, biotechnology and the professions
- strong collaborative partnerships with community, government, academic, and private organisations
- cutting edge critical public debate
- an open, people-centered and change-oriented approach
- a nurturing environment for the development of excellence in the next generation of researchers through expert mentoring and guidance by experienced researchers.

Some of the strengths which researchers have developed since 1996 include:

- experience in the use of diverse research approaches, including: political, sociological, applied ethics, historical, and social science research approaches
- solid links with the community, industry, business and government organizations that enable the development of collaborative research alliances
- cross-disciplinary linkages at the local, national and international level
- a high publication rate.

The Centre aims to foster:

- a positive research culture that supports postgraduate candidates and staff researchers of an international standard
- solid links with the community, business, government and professional organisations that enable the development of collaborative research alliances and consultancies, working with people to deal with real issues in real time
- cross-disciplinary teams able to work together to offer alternative approaches to solve complex problems
- linkages with other faculties and departments throughout Australia and overseas, as well as within the Queensland University of Technology.

*Director:* Dr Laurie Buys BA *West Virginia* MS *SIU*

## ■ Doctor of Social Science (HH50)

**Award title:** Doctor of Social Science

**CRICOS code:** 048293G

**Location:** Carseldine

**Course duration (full-time):** 6 semesters (3 years)

**Course duration (part-time):** 12 semesters (6 years)

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Gavin Kendall

### Entry Requirements

a four year degree or its equivalent with First Class Honours or Honours IIA; or

a masters degree in a field relevant to the professional doctorate; AND

two years of practice at an advanced level in a position of responsibility in a relevant professional setting.

Entry with Advanced Standing: Candidates with a masters degree will be eligible for credit of up to 96 credit points. Other previous study or uncredentialed learning may also gain credit.

### Course Structure

The course is divided into coursework and three theses. All three theses have conference presentation/communication of research finding units attached to them. Students will first complete their coursework and their first project, as well as HHR510 before they will be permitted to work on their second project. Similarly students must complete the second project as well as HHR520 before they are permitted to begin work on their third project. The course therefore has a three-part format and students are required to pass three stages in turn to guarantee progression.

### Full-time Course Structure

#### Year 1, Semester 1

## ■ Master of Arts (Research) (Humanities and Human Services) (HH40)

**Award title:** Master of Arts (Research)

**CRICOS code:** 012707K

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 3 semesters (3-year qualified entry); 2 semesters (4-year qualified entry)

**Course duration (part-time):** 6 semesters (3-year qualified entry); 4 semesters (4-year qualified entry)

**Total credit points:** 144 (3-year qualified entry); 96 (4-year qualified entry)

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Gavin Kendall

### Overview

The Master of Arts by Research is offered in various disciplines by the academic units that make up the School of Humanities and Human Services. Study areas available include:

- Aged Services
- Applied Ethics
- Asia-Pacific Studies
- Child and Family Services
- Disability Services
- European Studies
- Geography and Environmental Studies
- History
- Human Services
- International and Global Studies
- Languages (French, German, Indonesian, Japanese, Mandarin)
- Political Studies
- Services to Young People
- Sociology.

### Entry Requirements

Applicants must have a three-year bachelor degree or equivalent to enter the coursework plus research program.

To enter the research only program, applicants must have completed a three-year bachelor degree plus honours, or a three-year bachelor degree plus Graduate Diploma, or equivalent.

### Course Structure

For those with a three-year degree, the Master of Arts (Research) normally comprises 48 credit points of coursework and a 96 credit point research project. For those with a four-year degree it normally comprises a 96 credit point research project. However, with the approval of the postgraduate studies coordinator it is possible to enrol in a 12 credit point coursework plus 84 credit point research project; or a 24 credit point coursework plus 72 credit point research project.

### Research Component

Dependent on the discipline, the research component may be undertaken as a research thesis (30 000-50 000 words).

### Entry with three-year qualification

### Full-time Course Structure

## Entry with four-year qualification

### Full-time Course Structure (48 credit point of exemption)

#### Year 1, Semester 1

HHN001-1 Research Project 1  
HHN001-2 Research Project 2  
HHN001-3 Research Project 3  
HHN001-4 Research Project 4

#### Year 1, Semester 2

HHN001-5 Research Project 5  
HHN001-6 Research Project 6  
HHN001-7 Research Project 7  
HHN001-8 Research Project 8

### Part-time Course Structure (48 cp of exemptions)

#### Year 1, Semester 1

HHN001-1 Research Project 1  
HHN001-2 Research Project 2

#### Year 1, Semester 2

HHN001-3 Research Project 3  
HHN001-4 Research Project 4

#### Year 2, Semester 1

HHN001-5 Research Project 5  
HHN001-6 Research Project 6

#### Year 2, Semester 2

HHN001-7 Research Project 7  
HHN001-8 Research Project 8

## ■ Master of Social Science (Human Services) (HH32)

**Award title:** Master of Social Science (Human Services)

**CRICOS code:** 027281G

**Location:** Carseldine

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Judith Burton

### Full-time Course Structure

#### Year 1, Semester 1

HHP011 Critical Issues In The Human Services  
HHB410 Logic Of Social Inquiry  
Two elective units selected from the following, or any postgraduate unit as approved by the postgraduate coordinator:  
HHP012 Leadership In The Human Services  
MGN516 Policy Analysis  
MGN517 Program Management and Evaluation  
HHB201 Initial Professional Practice  
HHB210 Indigenous Australia: Country, Kin And Culture  
HHB212 Community Work  
HHB232 Survey Methods  
HHB303 Aged Services: Advanced  
HHB304 Child And Family Services: Advanced  
HHB306 Disability Services: Advanced

HHB305 Corrective Services: Advanced  
HHB307 Services To Young People: Advanced  
PYB159 Alcohol and Other Drug Studies  
GSN230 Ethics and Management for Philanthropic and Nonprofit Organisations

### Year 1, Semester 2

HHP013 Managing Human Service Organisations  
HHP015 Contracting in the Human Services  
Two units selected from the following, or any postgraduate unit as approved by the postgraduate coordinator:  
HHP003 Aged Services - Graduate Studies  
HHP004 Child And Family Services - Graduate Studies  
HHP006 Disability Services - Graduate Studies  
HHP007 Youth Services - Graduate Studies  
HHB210 Indigenous Australia: Country, Kin And Culture  
HHB211 Casework And Case Management  
HHB213 Social Policy Processes  
HHB214 Team Practice and Group Processes  
HHB216 The Human Dimensions Of Space  
HHB224 Qualitative Research Methods  
HHB232 Survey Methods  
HHB300 Current Developments In Human Services  
HHB328 Researching Applied Ethics  
GSN231 Legal and Accounting Issues for PandNp Organisations  
GSN224 Corporate Philanthropy  
AMN403 Marketing and Survey Research  
PYB208 Counselling Theory and Practice 1  
**Note:** Students will be encouraged to select only one undergraduate unit per semester  
**Year 2, Semester 1**  
HHP020 Human Services Practice Related Research 1-2  
HHP020 Human Services Practice Related Research 1-2

## ■ Graduate Diploma in Social Science (Human Services) (HH31)

**Award title:** Graduate Diploma in Social Science (Human Services)

**CRICOS code:** 027280J

**Location:** Carseldine

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Judith Burton

### Full-time Course structure

#### Year 1, Semester 1

HHP011 Critical Issues In The Human Services  
HHP012 Leadership In The Human Services  
Two elective units selected from the following, or any other postgraduate unit as approved by the course coordinator:  
MGN516 Policy Analysis  
MGN517 Program Management and Evaluation  
HHB201 Initial Professional Practice  
HHB210 Indigenous Australia: Country, Kin And Culture  
HHB212 Community Work  
HHB303 Aged Services: Advanced  
HHB304 Child And Family Services: Advanced  
HHB305 Corrective Services: Advanced  
HHB306 Disability Services: Advanced  
HHB307 Services To Young People: Advanced  
HHB410 Logic Of Social Inquiry  
PYB159 Alcohol and Other Drug Studies  
DBP411 Community Planning  
GSN230 Ethics and Management for Philanthropic and Nonprofit Organisations

#### Year 1, Semester 2

HHP013 Managing Human Service Organisations  
HHP015 Contracting in the Human Services  
Two elective units selected from the following, or any postgraduate unit as approved by the course coordinator:  
HHP003 Aged Services - Graduate Studies

HHP004	Child And Family Services - Graduate Studies
HHP006	Disability Services - Graduate Studies
HHP007	Youth Services - Graduate Studies
HHB210	Indigenous Australia: Country, Kin And Culture
HHB211	Casework And Case Management
HHB213	Social Policy Processes
HHB328	Researching Applied Ethics
HHB214	Team Practice and Group Processes
HHB224	Qualitative Research Methods
HHB215	Crisis And Conflict Resolution
PYB208	Counselling Theory and Practice 1
HHB300	Current Developments In Human Services
AMN403	Marketing and Survey Research
GSN231	Legal and Accounting Issues for PandNp Organisations
GSN224	Corporate Philanthropy

**Note:** Students will be encouraged to select only one undergraduate unit per semester.

## ■ Graduate Certificate in Social Science (Human Services) (HH30)

**Award title:** Graduate Certificate in Social Science (Human Services)

**CRICOS code:** 040287D

**Location:** Carseldine

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Judith Burton

### Course Structure

Students may discuss alternative unit selections with the course coordinator. Graduate Certificate students may choose to do:

- one unit from Group A, one advanced service context unit from Group B and two service context units at graduate studies level from Group B; or
- one unit from Group A and three graduate studies level units from Group B; or
- three units from Group A and one unit at graduate studies level from Group B.

All Graduate Studies units are offered subject to availability.

Part-time students can complete the equivalent of the full-time program in any order in either two, three or four semesters.

### Full-time Course Structure

GROUP A	
Any two units chosen from:	
HHP011	Critical Issues In The Human Services
HHP012	Leadership In The Human Services
HHP013	Managing Human Service Organisations
HHP015	Contracting and Policy in the Human Services
GROUP B	
Any two units chosen from:	
HHB303	Aged Services: Advanced
HHP003	Aged Services - Graduate Studies
HHB304	Child And Family Services: Advanced
HHP004	Child And Family Services - Graduate Studies
HHB305	Corrective Services: Advanced
HHB306	Disability Services: Advanced
HHP006	Disability Services - Graduate Studies
HHB307	Services To Young People: Advanced
HHP007	Youth Services - Graduate Studies
HHB201	Initial Professional Practice

**Note:** The choice of electives can only include one Service Context Advanced unit

## ■ Bachelor of Arts (Honours) (HH21)

**Award title:** Bachelor of Arts (Honours)

**CRICOS code:** 020294D

**Location:** Carseldine

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 Semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Judith Burton

### Course Structure

The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

### Language Students

Language students will, where appropriate, do extensive work in the Literature Review and Honours Thesis units in the target language. Where feasible the Honours thesis will be written in the target language.

### Full-time Course Structure

#### Year 1, Semester 1

HHB410	Logic Of Social Inquiry
HHB403	Literature Review
HHB404	Honours Thesis 1
	Advanced Elective
(One 12 credit point elective selected from advanced units offered in the undergraduate program, chosen in consultation with the thesis supervisor and approved by the Honours Coordinator)	

#### Year 1, Semester 2

HHB405	Honours Thesis 2
HHB406	Honours Thesis 3
HHB407	Honours Seminar

## ■ Bachelor of Social Science (Honours) (HH23)

**Award title:** Bachelor of Social Science (Honours)

**CRICOS code:** 027279B

**Location:** Carseldine

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 Semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Judith Burton

### Course Structure

Coursework provides for both disciplinary specialisation, and an interdisciplinary elective option selected in consultation with your supervisor and the course coordinator. The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

### Full-time Course Structure

#### Year 1, Semester 1

HHB410	Logic Of Social Inquiry
HHB403	Literature Review
HHB404	Honours Thesis 1

Advanced Elective: An advanced unit selected in consultation with supervisor and approved by the Honours coordinator.

#### Year 1, Semester 2

HHB405	Honours Thesis 2
HHB406	Honours Thesis 3
HHB407	Honours Seminar

### ■ Bachelor of Social Science (Honours) (Human Services) (HH22)

**Award title:** Bachelor of Social Science (Honours) (Human Services)

**CRICOS code:** 027279B

**Location:** Carseldine

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Judith Burton

#### Course Structure

The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

#### Full-time Course Structure

##### Semester 1

HHB410	Logic Of Social Inquiry
HHB403	Literature Review
HHB404	Honours Thesis 1
	Advanced Elective (An advanced Unit selected in consultation with supervisor and approved by the honours coordinator. The recommended elective is HHP011 Critical Issues in the Human Services)

##### Semester 2

HHB405	Honours Thesis 2
HHB406	Honours Thesis 3
HHB407	Honours Seminar

#### Part-time Course Structure

##### Year 1, Semester 1

HHB410	Logic Of Social Inquiry, or Elective Unit (An advanced unit selected in consultation with supervisor and approved by the Honours coordinator (recommended elective is HHP011 Critical Issues in the Human Services)
HHB403	Literature Review

##### Year 1, Semester 2

HHB404	Honours Thesis 1
HHB403	Literature Review, or Elective Unit (Advanced unit selected in consultation with supervisor and approved by the Honours coordinator)

##### Year 2, Semester 1

HHB405	Honours Thesis 2
--------	------------------

##### Year 2, Semester 2

HHB406	Honours Thesis 3
HHB407	Honours Seminar

### ■ Bachelor of Arts (HH01)

**Award title:** Bachelor of Arts

**CRICOS code:** 037577J

**Location:** Gardens Point, Carseldine and Caboolture

**Course duration (full-time):** 3 years; (QUT Caboolture students should note that after the completion of first year (ie 96 credit points of study) they must transfer to Carseldine campus for the remainder of the course.

**Course duration (part-time):** 6 years; (QUT Caboolture students should note that: after the completion of first year (ie 96 credit points of study), students must transfer to Carseldine campus for the remainder of the course.

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr John Synott

#### Course Requirements

Students are REQUIRED to complete:

- One Interdisciplinary Professional Major (1 core introductory unit + 6 more units which expand and develop the theme of the major)

Students are ADVISED to complete:

- Four core units in first semester (from a selection of core introductory units and core skills units)

(**Note:** one of the core introductory units will sit within the chosen Interdisciplinary Professional Major as outlined above)

- Two core units in second year (2 research methods units)
- A Workplace Internship in Third Year (24 credit points)

Students MAY also complete:

- An additional Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)
- A Discipline Studies Sequence (6 units in one of the disciplines: Geography, History, Languages (French, German, Indonesian, Japanese, Mandarin), Sociology, Politics.
- A Co-major in another QUT course (6 units)

**Note:** Students must maintain 50% enrolment in units from the BA programme until they have completed 8 of those units.

16 of the 24 units in the BA must be chosen from units in the BA programme.

A unit may not be counted in more than one professional major, discipline sequence, co-major or minor study sequence.

#### Key Terms

**Professional Major** - one of four interdisciplinary study sequences in the BA degree (International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.

**Discipline Sequence** - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.

**Co-major** - a set of six units (72 credit points) from another QUT course or faculty.

**Minor Study Sequence** - a study sequence of any four units (48 credit points) in a given subject area.

**Elective units** - units selected by students to fit into their study programs. They can be selected from units offered by any faculty in the university.

#### Discipline Sequences

Discipline sequences of six units are available in the following areas:

- Geography
- History
- French
- German
- Indonesian
- Japanese
- Mandarin
- Sociology

- Politics

### Minors

All of the interdisciplinary professional majors and discipline sequences are also available to be taken as minors. To complete a minor in one of these areas, students will need to pass any four units from the relevant list.

### Example of Full-time Course Structure

#### Year 1, Semester 1

- Core unit (major)
- Core unit (major)
- Core unit (major or skills)
- Core unit (major or skills)

#### Year 1, Semester 2

- Major unit
- Major unit
- Co-major unit\*/Professional major/Discipline sequence
- Elective unit

#### Year 2, Semester 1

- Major unit
- Co-major unit\*/Professional major/Discipline sequence
- Co-major unit\*/Professional major/Discipline sequence
- Core unit (research methods)

#### Year 2, Semester 2

- Major unit
- Co-major unit\*/Professional major/Discipline sequence
- Elective unit
- Core unit (research methods)

#### Year 3, Semester 1

- Major unit
- Co-major unit\*/Professional major/Discipline sequence
- Core unit (internship)
- Core unit (internship)

#### Year 3, Semester 2

- Major unit
- Co-major unit\*/Professional major/Discipline sequence
- Elective unit
- Elective unit

*Note:* \*or second professional major or discipline sequence

### Core Program

#### First Year Core: International and Global Studies

- HHB110 Introduction To International And Global Studies
- HHB111 Issues In International And Global Studies

#### First Year Core: Society and Change

- HHB105 Exploring Change
- HHB104 Understanding Society: Intro To Sociology

#### First Year Core: Ethics and Human Rights

- HHB114 Introduction To Human Rights And Ethics
- HHB115 Human Identity And Change

#### First Year Core: Community Studies

- HHB106 Australian Society And Culture
- HHB103 Contemporary Social And Community Issues

#### First Year Core: Skills Units

- HHB116 Applied Skills And Scholarship
- HHB117 Introduction To Social Research Methods

#### Second Year Core: Research Methods

- HHB224 Qualitative Research Methods
- HHB232 Survey Methods
- HHB121 Interpreting The Past
- HHB312 Geographical Research Design

#### Third Year Core: Internship

- HHB330 Internship Program

### Electives - International and Global Studies Professional Major

#### Strand A - Global Perspectives

- HHB107 World Regions
- HHB226 Consuming Cultures
- HHB241 Gender and Globalisation
- HHB263 Politics Of Globalisation
- HHB269 Ethics, Technology And The Environment
- HHB310 Globalisation And Social Theory
- HHB311 Colonial Fantasies And Postcolonial Identities
- HHB331 Advanced Seminar
- HHB315 Sex And Drugs In South-East Asia
- HHB248 The USA and The Asia Pacific Region
- HHB223 Islam and Islamic Societies

#### Strand B - International Studies

- HHB245 Australia And The South Pacific
- HHB238 Asian Cultures And Societies
- HHB260 Nations And Nationalism In Modern Europe
- HHB229 Windows On Japan
- HHB239 Korean Culture And Societies
- HHB256 Europe Since 1945
- HHB243 The Pacific Since 1945
- HHB244 Southeast Asia In Focus
- HHB246 Modern China

#### Language Studies/International and Global Studies

Upon consultation with the Languages coordinator, students may select one language unit as an elective in the International & Global Studies Strand.

Students may also undertake a Combined Major in Languages/International and Global Studies, comprising:

- 1 Introductory Unit
- 2 Elective units, preferably one from each strand
- 4 units in a chosen language

### Electives - Society and Change Professional Major

#### Strand A - The Individual and Society

- HHB102 The Human Condition
- HHB113 Interpersonal Communication
- HHB268 Vulnerable Identities
- HHB234 Sociological Theory
- HHB233 Sex, Gender And Society
- HHB236 Virgins, Saints And Sinners: Sociology Of Religion
- HHB335 Bodies, Cyborgs and Cyberspace
- HHB225 Political Sociology
- HHB230 Political Behaviour
- HHB240 Sociology Of Crime And Deviance

#### Strand B - Environment, Society and Change

- HHB226 Consuming Cultures
- HHB127 Environment and Society
- HHB228 Environmental Hazards
- HHB251 Australian Resource Management
- HHB231 Health, Society And Environment
- HHB210 Indigenous Australia: Country, Kin And Culture

#### Strand C - Societies in Transition

- HHB257 The Classical World
- HHB261 Medieval Europe
- HHB258 Foundations of Modern Europe
- HHB315 Sex And Drugs In South-East Asia
- HHB253 Conspiracy And Dissent In Australian History
- HHB242 Pacific Culture Contact
- HHB259 War And Revolution In Europe 1914-1945
- HHB249 Social Movements In Australia
- HHB262 Political Ideologies
- HHB315 Sex And Drugs In South-East Asia
- HHB253 Conspiracy And Dissent In Australian History

#### Change Management and Project Units

- HHB212 Community Work
- HHB213 Social Policy Processes
- HHB214 Team Practice and Group Processes
- HHB329 Advanced Project

### Electives - Ethics and Human Rights Professional Major

#### Strand A - Ethical Understanding and Theory

- HHB265 The Just Society
- HHB267 Feminism And Ethics
- HHB271 Ethical Theory

#### Strand B - Human Rights

- HHB274 Human Rights: International And Regional Activism
- HHB275 Human Rights: Australian Activism

#### Strand C - Identity Studies

- HHB268 Vulnerable Identities
- HHB272 Composing Identities: The Artistry Of Living

#### Strand D - Ethics and Technology

- HHB269 Ethics, Technology And The Environment
- HHB270 Gene Technology And Ethics
- HHB273 Reshaping Life And Death

#### Strand E - Ethical Practice

- HHB264 Public And Professional Ethics
- HHB266 Ethical Decision Making
- HHB328 Researching Applied Ethics

## Electives - Community Studies Professional Major

### Strand A - Community Practice

HHB100	Introduction To Human Services
HHB113	Interpersonal Communication
HHB203	Aged Services: Introduction
HHB204	Child And Family Services: Introduction
HHB205	Corrective Services: Introduction
HHB206	Disability Services: Introduction
HHB207	Services To Young People: Introduction
HHB212	Community Work
HHB214	Team Practice And Group Processes
HHB215	Crisis And Conflict Resolution
HHB216	The Human Dimensions Of Space

### Strand B - Australian Studies

HHB109	Australian Historical Studies
HHB112	Australian Politics
HHB210	Indigenous Australia: Country, Kin And Culture
HHB237	Brisbane in the Twentieth Century
HHB245	Australia And The South Pacific
HHB249	Social Movements In Australia
HHB250	Australian Geographical Studies
HHB251	Australian Resource Management
HHB253	Conspiracy And Dissent In Australian History
HHB123	Indigenous Australian Cultural Studies
HHB255	Indigenous Politics And Political Culture
HHB275	Human Rights: Australian Activism

## Discipline Major - Geography

### Elective Units - Environment and Resources

HHB227	Environment And Society
HHB228	Environmental Hazards
HHB251	Australian Resource Management
HHB269	Ethics, Technology And The Environment
HHB241	Gender and Globalisation

### Elective Units - Regional Studies

HHB250	Australian Geographical Studies
HHB229	Windows On Japan
HHB244	Southeast Asia In Focus

### Other Geography Electives

HHB312	Geographical Research Design
HHB232	Survey Methods
PSB631	Geographic Information Systems 1
PSB655	Remote Sensing
PSB443	Population and Urban Studies
NRB100	Environmental Science
DBP414	Regional and Metropolitan Policy

## Discipline Major - History

### Elective Units - Modern Histories

HHB238	Asian Cultures And Societies
HHB260	Nations And Nationalism In Modern Europe
HHB245	Australia And The South Pacific
HHB122	Colonialism And Independence In Asia Pacific
HHB239	Korean Culture And Societies
HHB248	The USA and The Asia Pacific Region
HHB256	Europe Since 1945
HHB259	War And Revolution In Europe 1914-1945
HHB315	Sex And Drugs In South-East Asia
HHB237	Brisbane in the Twentieth Century
HHB242	Pacific Culture Contact
HHB243	The Pacific Since 1945
HHB246	Modern China
HHB253	Conspiracy And Dissent In Australian History
HHB311	Colonial Fantasies And Postcolonial Identities

### Elective Units - Pre-modern Histories

HHB257	The Classical World
HHB258	Foundations of Modern Europe
HHB261	Medieval Europe

## Discipline Major - Languages

### French

HHB061	French 1
HHB062	French 2
HHB063	French 3
HHB064	French 4
HHB065	French 5
HHB066	French 6
HHB067	French 7
HHB068	French 8

HHB069	French 9
HHB070	French 10
HHB060	French For The Tourism Industry

### German

HHB091	German 1
HHB092	German 2
HHB093	German 3
HHB094	German 4
HHB095	German 5
HHB096	German 6
HHB097	German 7
HHB098	German 8

### Indonesian

HHB071	Indonesian 1
HHB072	Indonesian 2
HHB073	Indonesian 3
HHB074	Indonesian 4
HHB075	Indonesian 5
HHB076	Indonesian 6
HHB077	Indonesian 7
HHB078	Indonesian 8

### Japanese

HHB081	Japanese 1
HHB082	Japanese 2
HHB083	Japanese 3
HHB084	Japanese 4
HHB085	Japanese 5
HHB086	Japanese 6
HHB087	Japanese 7
HHB088	Japanese 8

### Mandarin

HHB050	Mandarin For Chinese
HHB051	Introductory Mandarin 1
HHB052	Introductory Mandarin 2

### Overseas Units - All Languages

HHB056	International Intensive Program
HHB057	International Summer School Or Equivalent
HHB058	In-Country Study - A
HHB059	In-Country Study - B

## Discipline Major - Sociology

### Elective Units - Sociology

HHB234	Sociological Theory
HHB233	Sex, Gender And Society
HHB232	Survey Methods
HHB236	Virgins, Saints And Sinners: Sociology Of Religion
HHB226	Consuming Cultures
HHB231	Health, Society And Environment
HHB224	Qualitative Research Methods
HHB225	Political Sociology

HHB310	Globalisation And Social Theory
HHB216	The Human Dimensions Of Space
HHB223	Islam and Islamic Societies
HHB335	Bodies, Cyborgs and Cyberspace

## Discipline Major - Political Studies

### Electives - Political Studies

HHB249	Social Movements In Australia
HHB263	Politics Of Globalisation
HHB232	Survey Methods
HHB225	Political Sociology
HHB230	Political Behaviour
HHB255	Indigenous Politics And Political Culture
HHB265	The Just Society
HHB262	Political Ideologies
HHB213	Social Policy Processes
HHB224	Qualitative Research Methods

## First Year Caboolture Students

### Year 1, Semester 1

HHB116	Applied Skills And Scholarship
HHB110	Introduction To International And Global Studies
	Elective
	Elective
HHB104	Understanding Society: Intro. To Sociology
HHB114	Introduction To Human Rights And Ethics
	Elective
	Elective

Caboolture students should note that after completion of 96 credit points of study they will need to transfer to the QUT Carseldine campus to continue their course

## ■ Bachelor of Social Science (HH04)

**Award title:** Bachelor of Social Science

**CRICOS code:** 001819D

**Location:** Carseldine and Caboolture

**Course duration (full-time):** 3 years; QUT Caboolture: After the completion of first year (ie 96 credit points of study), students must transfer to Carseldine campus for the remainder of the course.

**Course duration (part-time):** 6 years; QUT Caboolture: After the completion of first year (ie 96 credit points of study), students must transfer to Carseldine campus for the remainder of the course.

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Hossein Adibi

### Course Requirements

- Students are required to complete 24 units in total.
- Students are required to complete six social science skills units.
- Students are required to complete one major from the following:
  - Geography and Environment
  - Human Services and Social Policy
  - Indigenous Perspectives and Issues
  - Politics and History
  - Sociology.
- Students may complete up to eight units from outside of the School of Humanities and Human Services.
- Students are required to maintain a minimum 50% enrolment in HHB units until eight of these units are successfully completed.
- Students may complete an optional workplace internship (24 credit points) and/or social science project (24 credit points) in final year.

Social science project unit  
Social science project unit

### Social Science Skills Units

Students choose a minimum of six units from the following options (with advice that they do a maximum of three at first year level).

#### First Year Units

HHB113 Interpersonal Communication  
HHB116 Applied Skills And Scholarship  
HHB117 Introduction To Social Research Methods  
HHB121 Interpreting The Past  
BSB113 Economics  
PYB110 Psychological Research Methods  
HHB217 Conflict Management Skills for Professionals  
HHB213 Social Policy Processes  
HHB214 Team Practice and Group Processes  
HHB215 Crisis And Conflict Resolution  
HHB220 Intervention Theories And Methods  
HHB221 Intervention Processes And Ethics  
HHB224 Qualitative Research Methods  
HHB232 Survey Methods  
HHB264 Public And Professional Ethics  
HHB276 Indigenous Knowledge : Research Ethics and Protocols

#### Third Year Units

HHB312 Geographical Research Design  
HHB316 Social Science Project (24cp)

### Major Electives

#### Sociology Major

##### Introductory Unit:

HHB104 Understanding Society: Intro. To Sociology  
Students must complete the Introductory Unit plus six Sociology units from the following:

HHB216 The Human Dimensions Of Space  
HHB224 Qualitative Research Methods  
HHB223 Islam and Islamic Societies  
HHB225 Political Sociology  
HHB226 Consuming Cultures  
HHB231 Health, Society And Environment  
HHB232 Survey Methods  
HHB233 Sex, Gender And Society  
HHB234 Sociological Theory  
HHB236 Virgins, Saints And Sinners: Sociology Of Religion  
HHB240 Sociology Of Crime And Deviance  
HHB335 Bodies, Cyborgs and Cyberspace  
HHB310 Globalisation And Social Theory

#### Politics and History Major

##### Introductory Unit (Politics)

HHB112 Australian Politics  
Introductory Unit (History)

HHB109 Australian Historical Studies  
Students must complete the Introductory Unit plus six Politics/History units from the following:  
Politics Units

HHB213 Social Policy Processes  
HHB224 Qualitative Research Methods  
HHB225 Political Sociology  
HHB230 Political Behaviour  
HHB232 Survey Methods  
HHB249 Social Movements In Australia  
HHB255 Indigenous Politics And Political Culture  
HHB262 Political Ideologies  
HHB263 Politics Of Globalisation  
HHB265 The Just Society  
History Units  
HHB122 Colonialism And Independence In Asia Pacific  
HHB237 Brisbane in the Twentieth Century  
HHB238 Asian Cultures And Societies  
HHB239 Korean Culture And Societies  
HHB242 Pacific Culture Contact  
HHB243 The Pacific Since 1945  
HHB245 Australia And The South Pacific  
HHB246 Modern China  
HHB248 The USA and The Asia Pacific Region  
HHB253 Conspiracy And Dissent In Australian History  
HHB256 Europe Since 1945  
HHB257 The Classical World  
HHB258 Foundations of Modern Europe  
HHB259 War And Revolution In Europe 1914-1945  
HHB261 Medieval Europe  
HHB260 Nations And Nationalism In Modern Europe  
HHB311 Colonial Fantasies And Postcolonial Identities

HHB315 Sex And Drugs In South-East Asia

### **Geography and Environment Major**

Introductory Unit

HHB107 World Regions

Students must complete the Introductory Unit plus six Geography and Environment units from the following:

HHB127 Environment And Society

HHB228 Environmental Hazards

HHB229 Windows On Japan

HHB241 Gender and Globalisation

HHB244 Southeast Asia In Focus

HHB251 Australian Resource Management

HHB250 Australian Geographical Studies

HHB269 Ethics, Technology And The Environment

HHB312 Geographical Research Design

DBP414 Regional and Metropolitan Policy

NRB100 Environmental Science

PSB443 Population and Urban Studies

PSB631 Geographic Information Systems 1

PSB655 Remote Sensing

### **Indigenous Perspectives and Issues Major**

Introductory Unit

HHB123 Indigenous Australian Culture Studies

Students must complete the Introductory Unit plus six

Indigenous Perspectives and Issues units from the following:

HHB210 Indigenous Australia: Country, Kin And Culture

HHB255 Indigenous Politics And Political Culture

HHB276 Indigenous Knowledge: Research Ethics and Protocols

EDB007 Culture Studies: Indigenous Education

JSB135 Unlocking Criminal Justice

JSB137 Politics of Law

JSB352 Indigenous Justice

### **Human Services and Social Policy**

Introductory Unit

HHB100 Introduction To Human Services

Students must complete the Introductory Unit plus six Human Services and Social Policy units from the following list

HHB103 Contemporary Social And Community Issues

HHB200 Working In Human Service Organisations

HHB203 Aged Services: Introduction

HHB204 Child And Family Services: Introduction

HHB205 Corrective Services: Introduction

HHB206 Disability Services: Introduction

HHB207 Services To Young People: Introduction

HHB210 Indigenous Australia: Country, Kin And Culture

HHB211 Casework And Case Management

HHB212 Community Work

HHB213 Social Policy Processes

HHB214 Team Practice and Group Processes

HHB215 Crisis And Conflict Resolution

HHB217 Conflict Management Skills for Professionals

HHB220 Intervention Theories And Methods

PUB251 Contemporary Public Health

PUB326 Epidemiology

PUB406 Health Promotion Strategies

PUB557 Health Needs of Indigenous Australians and Other Populations

### **Minor Electives**

#### **Peace and Conflict Resolution Minor**

Students choose four electives from the following units:

HHB111 Issues In International And Global Studies

HHB114 Introduction To Human Rights And Ethics

HHB215 Crisis And Conflict Resolution

HHB217 Conflict Management Skills for Professionals

HHB268 Vulnerable Identities

HHB274 Human Rights: International And Regional Activism

HHB275 Human Rights: Australian Activism

JSB932 Alternative Justice Processes

#### **Gender and Sexuality Minor**

Students choose four electives from the following units:

HHB233 Sex, Gender And Society

HHB241 Gender and Globalisation

HHB267 Feminism And Ethics

HHB270 Gene Technology And Ethics

HHB315 Sex And Drugs In South-East Asia

HHB335 Bodies, Cyborgs and Cyberspace

JSN015 Women and the Australian Legal System

KPB321 Body Matters

KPB343 Australian Film

PUB336 Women's Health

PYB054 Psychology and Gender

PYB067 Human Sexuality

### **First Year Caboolture**

#### **Year 1, Semester 1**

HHB116 Applied Skills And Scholarship

HHB110

Elective

Elective

HHB104 Understanding Society: Intro To Sociology

HHB114 Introduction To Human Rights And Ethics

Elective

Elective

Caboolture students should note that after completion of 96 credit points of study they will need to transfer to the QUT Carseldine campus to continue their course.

## **■ Bachelor of Social Science (Human Services) (HH02)**

**Award title:** Bachelor of Social Science (Human Services)

**CRICOS code:** 001819D

**Location:** Carseldine

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Marie Knox

### **Professional Membership**

Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers.

### **Full-time Course Structure**

#### **Year 1, Semester 1**

HHB116 Applied Skills And Scholarship

HHB100 Introduction To Human Services

HHB104 Understanding Society: Intro To Sociology

HHB114 Introduction To Human Rights And Ethics

OR Elective Unit (preferably from List A)

#### **Year 1, Semester 2**

HHB113 Interpersonal Communication

HHB102 The Human Condition

HHB103 Contemporary Social And Community Issues

HHB114 Introduction To Human Rights And Ethics

OR Elective Unit (preferably from List A)

**Note:** HHB114 must be selected in either Semester 1 or 2.

#### **Year 2, Semester 1**

HHB220 Intervention Theories And Methods

HHB201 Initial Professional Practice

One unit from List B (Introductory Service Units)

#### **Year 2, Semester 2**

HHB222 Human Service Practice: Legal Dimension

HHB200 Working In Human Service Organisations

HHB221 Intervention Processes And Ethics

One unit from List C (Professional Skills Units)

#### **Year 3, Semester 1**

One unit from List C (Professional Skills Units)

One unit from List D (Advanced Service Units)

One unit from Lists B or C

Any other elective unit

#### **Year 3, Semester 2**

HHB300 Current Developments In Human Services

HHB301 Advanced Professional Practice

### **Electives (Lists A-D)**

#### **List A - Elective Units**

HHB106 Australian Society And Culture

HHB110 Introduction To International And Global Studies

HHB111 Issues In International And Global Studies

HHB105 Exploring Change

HHB115 Human Identity And Change

HHB275 Human Rights: Australian Activism

HHB210 Indigenous Australia: Country, Kin And Culture

HHB112 Australian Politics

**List B - Introductory Service Contexts Units (Available Semester 1 only)**

- HHB203 Aged Services: Introduction
- HHB204 Child And Family Services: Introduction
- HHB205 Corrective Services: Introduction
- HHB206 Disability Services: Introduction
- HHB207 Services To Young People: Introduction

**List C - Professional Skills Units**

- HHB117 Introduction To Social Research Methods
- HHB215 Crisis And Conflict Resolution
- HHB212 Community Work
- HHB211 Casework And Case Management
- HHB213 Social Policy Processes
- HHB214 Team Practice and Group Processes
- HHB210 Indigenous Australia: Country, Kin And Culture

**List D - Advanced Service Contexts Units (Available Semester 1 only)**

- HHB303 Aged Services: Advanced
- HHB304 Child And Family Services: Advanced
- HHB305 Corrective Services: Advanced
- HHB306 Disability Services: Advanced
- HHB307 Services To Young People: Advanced

**Part-time Course Structure**

Students wishing to study on a part-time basis should consult the timetable and the course coordinator before selecting an enrolment program.

**Note:** It may not be possible to undertake all units in the evening.

---

## OVERVIEW

QUT's Faculty of Information Technology is one of the leading providers of information technology courses in Australia and is fast becoming internationally renowned for excellence in information technology and research. The Faculty is located at Gardens Point campus and also offers courses at Carseldine campus.

The Faculty comprises two schools:

- School of Information Systems
- School of Software Engineering and Data Communications.

As well as the knowledge gained from many years of running successful courses, Information Technology (IT) at QUT benefits from its close links with business and industry. Representatives of the IT industry are active contributors to the development and continual refinement of courses at QUT. The Faculty also coordinates a very successful Cooperative Education Program with the IT industry. The program offers high achieving IT students the option of completing 10-12 months paid professional experience in an IT organisation.

The Faculty has almost 4000 students, with a third being international students coming from some 54 countries to get the QUT real-world advantage. We continue to expand with the demand for graduates who can face not just today's challenges, but who can also tackle an unimagined future with confidence and innovation.

The Faculty promotes practical teaching and leadership in applied research that directly benefits industry and the professions. The lecturers are real-world professionals with years of relevant experience.

The Faculty draws on the talents of more than 110 academics, from diverse backgrounds allowing a dynamic exchange of culture, knowledge and expertise.

## SENIOR STAFF

### Faculty office

*Dean:* Professor S.M. Kaplan, BSc PhD *Cape Town*, FACS, HonFIEAust, MACM, MIEEE

*Director of Research:* Professor B. Pham, BSc(Hons) PhD *Tas*, DipEd *Monash*, ACM, IEEE, ACSA, APRS

*Director of Teaching and Learning:* Associate Professor C. Bruce, BA *Qld*, GradDipLibSc MEd(Res) *QUT*, PhD *UNE*

*Assistant Dean (External Relations):* M.G. Roggenkamp, BED *James Cook*, DipCompSc MScSt *Qld*, MACS, MACM, AIEEE

*Assistant Dean (Postgraduate Studies):* Dr A Anderson, BSc MInfSys *Qld*, PhD *QUT*, LMusA

*Assistant Dean (Undergraduate Studies):* Dr A.B. Tickle, BSc DipCompSc MSc *Qld*, GradDipMgt *CQU*, PhD *QUT*

*Assistant Dean (Strategy and Innovation):* Professor W. Caelli, BSc (Hons) *Newcastle (NSW)*, PhD *ANU*, FACS, FTICA, MIEEE

*Administration Manager:* P. Smith, BBus (Com) GradCertEd (HigherEd) *QUT*

### School of Information Systems

*Head:* Associate Professor B.A. Underwood, BBus *QIT*, MS (MIS) *Texas Tech*, MBA *Qld*, PhD, FACS, PCP

*Deputy Head:* H.H.Bentley, CertED *Eve*, BSc (Hons) *Manc*, MSc*Qld*, MACS, MACM

*Professors:*

G.G. Gable, DipCompSys *NAIT*, BCom *Alta*, MBA *W Ontario*, PhD *Brad*, ACS, AIR, IRMA

M.Rosemann, MBA, PhD *Univ of Münster Germany*

*Associate Professors:*

G.Stewart, BA DipEd MLitSt (CompSci) *Qld*, PhD *QUT*, FACS, PCP, AIMM, MIEEE, MACM

A.ter Hofstede, MSc PhD *KUN*

### School of Software Engineering and Data Communications

*Head:* Associate Professor M. Looi, BEng (Hons), BAppSc, PhD, MIEEE, MACS, CDec

*Professors:* E. Dawson, BSc DipEd *Wash*, MA *Syd*, MLitStu, MSc *Qld*, PhD *QUT*, FTICA, MIEEE, MCMSA, MIACR, MACS

*Adjunct Professors:*

D. Longley, BSc (Physics) (Hons) *Manc*, MSc (Tech) *UMIST*, PhD *Leic*, CEng, FIEE, FAIM

G. Mohay, BSc (Hons) *WAust*, PhD *Monash*

*Associate Professors:*

C. Boyd, BSc, PhD *Warwick*, CMATH

P. Roe, MEng (Hons) *York*, PhD *Glas*, MACM

J. Sitte, PhD *Uppsala*, SIEEE

## RESEARCH CENTRES

### Centre for Information Technology Innovation (CITI)

CITI was established in 2002, bringing together four established research areas to provide a centre capable of undertaking high-quality integrated and multidisciplinary projects in IT. The main research areas are: Cooperative Information Systems, Information Systems Management, Programming Languages and Systems, Smart Devices, Media Research and Development and Teaching and Learning Innovation.

*Director:* Professor P. R. Croll, BSc (Hons) PhD *Sheffield*, FACS, FBSC, CITP, CEng

Phone: +61 7 3864 9486

### Information Security Institute (ISI)

The Information Security Institute (ISI) is a collaborative research undertaking of the Faculty of Built Environment and Engineering (BEE), the Faculty of Business (BUS), the Faculty of Information Technology (IT), and the Faculty of Law (LAW). The ISI has been established to pursue multi-disciplinary research in technology, legal, policy and governance issues related to information security. The ISI undertakes research in eight broad research domains: Cryptology, E-Business and E-Government, Governance and Information Protection, Trusted Systems and Network Security, Computer Intrusion, Forensics and Evidence, Technology, Law and Policy, Biometric Person Authentication and Social and Behavioural Issues.

*Acting Director:* Professor E. Dawson, BSc DipEd *Wash*, MA *Syd*, MLitStu MSc *Qld*, PhD *QUT*, FTICA, MIEEE, MCMSA, MIACR, MACS

Phone: +61 7 3864 9551

## ■ Master of Information Management (IT70)

**Award title:** Master of Information Management

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Course coordinator:** Dr Gillian Hallam

### Entry Requirements

Applicants must have demonstrated competence in the basic skills and concepts of personal or office computer usage (eg. Desktop applications, email, internet access); and a bachelor's degree in a discipline other than library or information studies with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Dean of the Faculty that the applicant possesses the capacity to pursue the course of study and at least five years relevant full-time IT work experience.

### Course Structure

To graduate from the Master of Information Management (IT70) students are required to complete the 12 specified units.

To exit the Masters course with a Graduate Diploma in Information Management (IT72) students are required to complete the eight specified units.

In addition, there are four Graduate Certificate in Information Management programs available. Students are required to complete four specified units to graduate.

### Professional Recognition

Course recognition will be sought from the Australian Library and Information Association (ALIA) for the Master of Information Management. Recognition will also be sought from the Records Management Association Australia for both the Graduate Diploma and the Master of Information Management.

### Full-time Course Structure

#### Year 1, Semester 1

ITN200	Database Systems
ITN201	Enterprise Architecture
ITN273	Information Retrieval
ITN274	Management Issues for Info Professionals

#### Year 1, Semester 2

ITN275	Information Organisation
ITN276	Information Services
ITN266	Principles Of Information Management
	Specialisation Unit 1

#### Year 2, Semester 1

ITN278	
ITN279	Information Literacy Instruction
ITN280	Professional Practice
	Specialisation Unit 2
	Students who choose to undertake ITS010 Cooperative Education Program substitutes for ITN280.

*Specialisations (select two (2) units from a specialisation)*

### Part-time Course Structure

#### Year 1, Semester 1

ITN200	Database Systems
ITN273	Information Retrieval

#### Year 1, Semester 2

ITN201	Enterprise Architecture
ITN266	Principles Of Information Management

#### Year 2, Semester 1

ITN274	Management Issues for Info Professionals
ITN279	Information Literacy Instruction

#### Year 2, Semester 2

ITN275	Information Organisation
ITN276	Information Services

#### Year 3, Semester 1

ITN278	Web Content Management
	Specialisation Unit 1

#### Year 3, Semester 2

ITN280	Professional Practice
	Specialisation Unit 2

Students who choose to undertake ITS010 Cooperative Education Program substitutes for ITN280.

*Specialisations (select two (2) units from a specialisation)*

#### Library Studies

ITN315	Information Management Project
ITN316	Digital Library Systems
ITN317	Advanced Information Services
ITN318	Information Organisation 2
ITN330	Information Issues and Policy
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice
LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives
CLN601	Cyberlearning: Information & Knowledge in the Digital Age
CLN603	Designing Spaces for Learning
CLN647	Youth, Popular Culture, and Texts
HHB123	Indigenous Australian Culture Studies
EDB007	Culture Studies: Indigenous Education
SPN624	Adult and Professional Learning

#### Information and Knowledge Management

ITN255	Knowledge Management
ITN315	Information Management Project
SPN621	Adult And Workplace Education: Principles And Practices

#### Records Management

ITN315	Information Management Project
ITN319	Records Systems

#### Web Management

ITN227	Web Applications
ITN315	Information Management Project

### Specialisation Lists

*Specialisations (select two (2) units from a specialisation)*

#### Library Studies

ITN315	Information Management Project
ITN316	Digital Library Systems
ITN317	Advanced Information Services
ITN318	Information Organisation 2
ITN330	Information Issues and Policy
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice
LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives

#### Information and Knowledge Management

ITN255	Knowledge Management
ITN315	Information Management Project
SPN621	Adult And Workplace Education: Principles And Practices

#### Records Management

ITN315	Information Management Project
ITN319	Records Systems

#### Web Management

ITN227	Web Applications
ITN315	Information Management Project

## ■ Master of Information Technology (Advanced) (IT48)

**Award title:** Master of Information Technology (Advanced)

**CRICOS code:** 053123F

**Location:** Gardens Point

**Course duration (full-time):** 2 years (4 semesters)

**Course duration (part-time):** 4 years (8 semesters)

**Total credit points:** 192

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

Applicants must have a Bachelor degree in information technology with a grade point average of at least 4.5 (on a 7 point scale) or provide other evidence of such qualifications and significant full-time IT work experience which will satisfy the

Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

### Course Structure

To graduate from the Master of Information Technology (Advanced) students are required to complete 16 units, consisting of:

- a maximum of 4 Intermediate units
- a minimum of 7 Advanced Level 1 Units
- a minimum of 1 Advanced Level 2 Units; and
- a maximum of 4 Business units.

#### Advanced Level 1 Units

ITN220	Issues In IT Management
ITN244	Special Topic 1A (Record Systems)
ITN245	R/3 Systems Administration
ITN252	Process Engineering
ITN255	Knowledge Management
ITN257	Multimedia Systems
ITN260	E-Commerce Site Development
ITN262	E-Commerce Technologies
ITN272	Information Technology Project Management
ITN670	Security Technologies
ITN671	Wireless Networks
ITN673	Computer Forensics
ITN676	Software Quality Management
ITN677	Internationalisation of Software

Students are permitted to select up to three (3) units from the following list of undergraduate units, to be included towards their Advanced Level 1 Unit requirements.

ITB232	Database Systems
ITB239	Enterprise Data Mining
ITB254	Interactivity Design
ITB256	Special Topic 2A (Strategic Telework)
ITB258	ABAP Programming
ITB264	Information Systems Consulting
ITB263	Web Intelligence For E-Commerce
ITB267	Data Warehousing For Decision Support
ITB626	Management of Network Systems
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB645	Network Security
ITB646	Cryptographic Fundamentals
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design
ITB650	Computational Intelligence

#### Advanced Level 2 Units

ITN100	Research Methodology
ITN235	Distributed Object Information Systems
ITN253	Case Studies In Enterprise Systems
ITN259	Advanced Multimedia Systems
ITN261	Methods and Techniques in Business Process Management
ITN269	Special Topic 2B
ITN680	Web Services
ITN681	Trusted Systems and Networks
ITN682	Advanced Cryptology
ITN683	Compiler Construction
ITN684	Pattern Recognition and Data Mining
Project - 24 credit points (See Project Units for codes)	
Project - 48 credit points (See Project Units for codes)	

#### Project Units

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 project units are 48 credit points.

ITN246	Minor Project 1 (IS)
ITN248	Minor Project 2 (IS)
ITN674	Minor Project 1 (SEDC)
ITN675	Minor Project 2 (SEDC)
ITN162	Project (IS)
ITN678	Project (SEDC) - Full-time
ITN172	Project (IS) (Part-time)
ITN679	Project (SEDC) - Part-time
ITN142	Major Project (IS) Full-Time

ITN685	Major Project (SEDC) Full-Time
ITN152	Major Project (IS) Part-Time
ITN686	Major Project (SEDC) Part-Time

#### Intermediate Level Units

Students seeking skills in a new IT specialisation can select units from the following list if they do not possess the requisite skills for study in a new IT specialisation. All Intermediate Level Units assume adequate foundation IT study, ie IT48 course entry prerequisite knowledge and skills.

ITN161	Information Security for IT Professionals
ITN218	Applications Programming
ITN222	Business Systems Analysis
ITN223	4GL Systems
ITN225	Java for E-Commerce
ITN227	Web Applications
ITN228	Enterprise Systems
ITN233	Enterprise Systems Applications
ITN241	Information Technology Management
ITN266	Principles Of Information Management
ITN660	Data Structures and Algorithms
ITN661	Object Oriented Programming
ITN662	Software Engineering
ITN663	Information Security Management
ITN664	Operating Systems
ITN665	Computer Network Management
ITN667	Internet Protocols and Services

## ■ Master of Information Technology (IT Graduates) (IT40)

**Award title:** Master of Information Technology (Study Area A)

**CRICOS code:** 003776E

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

Applicants for the Advanced Master of IT must have:

- a) a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale) OR
- b) provide other evidence of such qualifications and significant full-time IT work experience, as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

### Course Structure

To graduate from the Master of Information Technology, students are required to complete 12 units, including:

- a minimum of 6 x Advanced Level 1 Units
- a minimum of 1 x Advanced Level 2 Units.

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to have completed 8 units, including:

- a minimum of 5 x Advanced Level 1 Units
- a minimum of 1 x Advanced Level 2 Units.

In addition, students may also gain credit for one or more graduate certificate awards while completing the Masters program. Graduate Certificates in IT consist of 4 designated units which highlight career specialisations in Computer Networks, Information Security, Enterprise Wide Software, Electronic Commerce, Management of Information Technology, Multimedia and Component Software and Web Services.

#### Advanced Level 1 Units

ITN220	Issues In IT Management
ITN233	Enterprise Systems Applications
ITN244	Special Topic 1A (Record Systems)
ITN245	R/3 Systems Administration
ITN252	Process Engineering
ITN255	Knowledge Management
ITN257	Multimedia Systems
ITN260	E-Commerce Site Development

ITN262	E-Commerce Technologies
ITN272	Information Technology Project Management
ITN670	Security Technologies
ITN671	Wireless Networks
ITN673	Computer Forensics
ITN676	Software Quality Management
ITN677	Internationalisation of Software

Students are permitted to select up to three (3) units from the following list of undergraduate units, to be included towards their Advanced Level 1 Unit requirements.

ITB232	Database Systems
ITB239	Enterprise Data Mining
ITB254	Interactivity Design
ITB256	Special Topic 2A (Strategic Telework)
ITB258	ABAP Programming
ITB264	Information Systems Consulting
ITB263	Web Intelligence For E-Commerce
ITB267	Data Warehousing For Decision Support
ITB626	Management of Network Systems
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB645	Network Security
ITB646	Cryptographic Fundamentals
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design
ITB650	Computational Intelligence

#### **Advanced Level 2 Units**

ITN100	Research Methodology
ITN235	Distributed Object Information Systems
ITN253	Case Studies In Enterprise Systems
ITN259	Advanced Multimedia Systems
ITN261	Methods and Techniques in Business Process Management
ITN269	Special Topic 2B
ITN680	Web Services
ITN681	Trusted Systems and Networks
ITN682	Advanced Cryptology
ITN683	Compiler Construction
ITN684	Pattern Recognition and Data Mining
	Project - 24 credit points (See Project Units for codes)
	Project - 48 credit points (See Project Units for codes)

#### **Project Units**

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 project units are 48 credit points.

ITN246	Minor Project 1 (IS)
ITN248	Minor Project 2 (IS)
ITN674	Minor Project 1 (SEDC)
ITN675	Minor Project 2 (SEDC)
ITN162	Project (IS)
ITN678	Project (SEDC) - Full-time
ITN172	Project (IS) (Part-time)
ITN679	Project (SEDC) - Part-time
ITN142	Major Project (IS) Full-Time
ITN685	Major Project (SEDC) Full-Time
ITN152	Major Project (IS) Part-Time
ITN686	Major Project (SEDC) Part-Time

#### **Intermediate Level Units**

ITN161 Information Security for IT Professionals

Students seeking skills in a new IT specialisation can select units from the following list if they do not possess the requisite skills for study in a new IT specialisation. All Intermediate Level Units assume adequate foundation IT study, ie IT48 course entry prerequisite knowledge and skills.

ITN222	Business Systems Analysis
ITN218	Applications Programming
ITN223	4GL Systems
ITN225	Java for E-Commerce
ITN227	Web Applications
ITN228	Enterprise Systems
ITN233	Enterprise Systems Applications
ITN241	Information Technology Management
ITN266	Principles Of Information Management
ITN660	Data Structures and Algorithms

ITN661	Object Oriented Programming
ITN662	Software Engineering
ITN663	Information Security Management
ITN664	Operating Systems
ITN665	Computer Network Management
ITN667	Internet Protocols and Services

## ■ Master of Information Technology (Non-IT Graduates) (IT45)

**Award title:** Master of Information Technology

**CRICOS code:** 003776E

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Course coordinator:** Dr Alison Anderson

### **Entry Requirements**

Applicants for the Master of IT (Non-IT Graduates) must have:

a Bachelors degree in a discipline other than Information Technology with a grade point average of at least 4.5 (7 point scale); and have demonstrated competence with the basic skills and concepts of personal or office usage.

Applicants are assumed to possess the following prerequisite skills:

- can use and manage email facilities
- can create and manage a personal file system (eg. home or office computer)
- understand how to locate and use resources on the internet
- familiar with the typical desktop environment: word processors, spreadsheets, etc.
- aware of personal computing security issues with regard to backups, viruses, password protection.

These basic skills will not be taught in class. QUT-wide resources are made available for individuals to improve their computer literacy levels.

### **Course Structure**

To graduate from the Master of Information Technology (IT45) students are required to complete 12 units, including:

- 4 x Compulsory Basic Level Units
- A minimum of 3 x Advanced Level 1 Units.

To exit the Masters course with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:

- 4 x Compulsory Basic Level Units
- 4 x Chosen from Intermediate or Advanced Level 1 Units.

To exit the Masters course with a Graduate Certificate in Information Technology (IT97), students are required to have completed 4 of the Compulsory Basic Level Units.

#### **Basic Units**

ITN200	Database Systems
ITN201	Enterprise Architecture
ITN600	Programming Principles
ITN601	Systems and Networks

#### **Intermediate Level Units**

ITN218	Applications Programming
ITN222	Business Systems Analysis
ITN223	4GL Systems
ITN225	Java for E-Commerce
ITN227	Web Applications
ITN228	Enterprise Systems
ITN241	Information Technology Management
ITN266	Principles Of Information Management
ITN660	Data Structures and Algorithms
ITN661	Object Oriented Programming
ITN662	Software Engineering
ITN161	Information Security for IT Professionals
ITN664	Operating Systems
ITN665	Computer Network Management
ITN667	Internet Protocols and Services

### Advanced Level 1 Units

ITN220	Issues In IT Management
ITN233	Enterprise Systems Applications
ITN244	Special Topic 1A (Record Systems)
ITN245	R/3 Systems Administration
ITN252	Process Engineering
ITN255	Knowledge Management
ITN257	Multimedia Systems
ITN260	E-Commerce Site Development
ITN262	E-Commerce Technologies
ITN272	Information Technology Project Management
ITN670	Security Technologies
ITN671	Wireless Networks
ITN673	Computer Forensics
ITN676	Software Quality Management
ITN677	Internationalisation of Software

Students are permitted to select up to three (3) units from the following list of undergraduate units, to be included towards their Advanced Level 1 Unit requirements.

ITB232	Database Systems
ITB239	Enterprise Data Mining
ITB254	Interactivity Design
ITB256	Special Topic 2A (Strategic Telework)
ITB258	ABAP Programming
ITB263	Web Intelligence For E-Commerce
ITB264	Information Systems Consulting
ITB267	Data Warehousing For Decision Support
ITB626	Management of Network Systems
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB645	Network Security
ITB646	Cryptographic Fundamentals
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design
ITB650	Computational Intelligence

### Advanced Level 2 Units

ITN100	Research Methodology
ITN235	Distributed Object Information Systems
ITN253	Case Studies In Enterprise Systems
ITN259	Advanced Multimedia Systems
ITN268	Special Topic (Inf Sys)
ITN269	Special Topic (Inf Sys)
ITN680	Web Services
ITN681	Trusted Systems and Networks
ITN682	Advanced Cryptology
ITN683	Compiler Construction
ITN684	Pattern Recognition and Data Mining
Project - 24 credit points (See Project Units for codes)	
Project - 48 credit points (See Project Units for codes)	

### Project Units

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 project units are 48 credit points.

ITN246	Minor Project 1 (IS)
ITN248	Minor Project 2 (IS)
ITN674	Minor Project 1 (SEDC) - 12cps
ITN675	Minor Project 2 (SEDC) - 12cps
ITN162	Project (IS)
ITN678	Project (SEDC) - 24cps
ITN172	Project (IS) (Part-time)
ITN679	Project (SEDC) - PT - 24cps
ITN142	Major Project (IS) Full-Time
ITN685	Major Project (SEDC) - FT - 48cps
ITN152	Major Project (IS) Part-Time
ITN686	Major Project (SEDC) - PT - 48cps

## ■ Master of Information Technology (Research) (IT60)

**Award title:** Master of Information Technology (Research)

**CRICOS code:** 020309B

**Location:** Gardens Point

**Course duration (full-time):** 1.5 years or 3 semesters

**Course duration (part-time):** 3 years or 6 semesters

**Total credit points:** 144

**Course coordinator:** Associate Professor Colin Boyd

### Entry Requirements

An approved degree in information technology from a recognised tertiary institution or an equivalent qualification, with a grade point average equal to, or greater than 5 (7 point scale), OR

an approved degree from a recognised tertiary institution plus evidence of professional experience and skills to satisfy the academic board that the applicant possesses the capacity to pursue the course of study. The evidence should include details of any project or research activities undertaken.

An essential step in gaining admission to the degree is the choice of a research topic and the formulation of a research plan which meets with the Faculty's approval. Students should discuss their research proposal with Faculty staff at an early stage.

### Course Structure

The length of the program is generally expected to be one-and-a-half years if the candidate enrolls as a full-time student (including six months of provisional registration) and three years for part time (including one year of provisional registration).

Students with second class Honours division A (or better) in an information technology-related course will normally be enrolled in the Master of Information Technology (Research) and complete the degree in one year full-time.

Assessment for the award of Masters by Research is based on a program of supervised research and investigation, culminating in a thesis. Programs may include some coursework in support of the conduct of research and preparation of the thesis. Candidates are required to have regular interaction with supervisors and to participate in scholarly activities such as research seminars and publication.

### Course Structure

#### Full-time Course Structure

A program of research and investigation developed in conjunction with the Principal Supervisor and approved by the Faculty Research Committee. (Workload equivalent to 48 credit points per semester.)

#### Part-time Course Structure

A program of research and investigation developed in conjunction with the Principal Supervisor and approved by the Faculty Research Committee. (Workload equivalent to 24 credit points per semester.)

## ■ Graduate Diploma in Information Technology (IT Graduates) (IT35)

**Award title:** Graduate Diploma in Information Technology (Study Area A)

**CRICOS code:** 018771J

**Location:** Gardens Point

**Course duration (full-time):** 1 years

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

Applicants for either IT35 or IT40 must have:

- a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale) , or
- provide other evidence of such qualifications and significant full-time IT work experience, as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study

### Course Structure

To graduate from the Graduate Diploma in IT, students are required to have completed 8 units, including:

- a minimum of 5 x Advanced Level 1 Units

- a minimum of 1 x Advanced Level 2 Units.

Students may also gain credit for one or more graduate certificate awards while completing the Grad Dip or Masters program.

Graduate Certificates in Information Technology consist of 4 designated units which highlight career specialisations. Graduate certificate awards are available in Computer Networks, Information Security, Enterprise Wide Software, Electronic Commerce, Management of Information Technology, Multimedia and Component Software and Web Services.

### Articulation

Students who successfully complete the Graduate Diploma (96 credit points) are eligible for admission to the Masters and are only required to undertake an additional four units to meet the requirements for the Masters degree.

#### Advanced Level 1 Units

ITN161	Information Security for IT Professionals
ITN220	Issues In IT Management
ITN233	Enterprise Systems Applications
ITN244	Special Topic 1A (Record Systems)
ITN245	R/3 Systems Administration
ITN252	Process Engineering
ITN255	Knowledge Management
ITN257	Multimedia Systems
ITN260	E-Commerce Site Development
ITN262	E-Commerce Technologies
ITN272	Information Technology Project Management
ITN670	Security Technologies
ITN671	Wireless Networks
ITN673	Computer Forensics
ITN676	Software Quality Management
ITN677	Internationalisation of Software

Students are permitted to select up to three (3) units from the following list of undergraduate units, to be included towards their Advanced Level 1 Unit requirements.

ITB232	Database Systems
ITB239	Enterprise Data Mining
ITB254	Interactivity Design
ITB256	Special Topic 2A (Strategic Telework)
ITB258	ABAP Programming
ITB264	Information Systems Consulting
ITB263	Web Intelligence For E-Commerce
ITB267	Data Warehousing For Decision Support
ITB626	Management of Network Systems
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB645	Network Security
ITB646	Cryptographic Fundamentals
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design
ITB650	Computational Intelligence

#### Advanced Level 2 Units

ITN100	Research Methodology
ITN235	Distributed Object Information Systems
ITN253	Case Studies In Enterprise Systems
ITN259	Advanced Multimedia Systems
ITN261	Methods and Techniques in Business Process Management
ITN269	Special Topic 2B
ITN680	Web Services
ITN681	Trusted Systems and Networks
ITN682	Advanced Cryptology
ITN683	Compiler Construction
ITN684	Pattern Recognition and Data Mining
	Project - 24 credit points (See Project Units for codes)
	Project - 48 credit points (See Project Units for codes)

#### Project Units

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 project units are 48 credit points.

ITN246	Minor Project 1 (IS)
ITN248	Minor Project 2 (IS)

ITN674	Minor Project 1 (SEDC)
ITN675	Minor Project 2 (SEDC)
ITN162	Project (IS)
ITN678	Project (SEDC) - Full-time
ITN172	Project (IS) (Part-time)
ITN679	Project (SEDC) - Part-time
ITN142	Major Project (IS) Full-Time
ITN685	Major Project (SEDC) Full-Time
ITN152	Major Project (IS) Part-Time
ITN686	Major Project (SEDC) Part-Time

#### Intermediate Level Units

With the approval of the Course Coordinator students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

ITN218	Applications Programming
ITN222	Business Systems Analysis
ITN223	4GL Systems
ITN225	Java for E-Commerce
ITN227	Web Applications
ITN228	Enterprise Systems
ITN241	Information Technology Management
ITN266	Principles Of Information Management
ITN660	Data Structures and Algorithms
ITN661	Object Oriented Programming
ITN662	Software Engineering
ITN664	Operating Systems
ITN665	Computer Network Management
ITN667	Internet Protocols and Services
ITN161	Information Security for IT Professionals

## ■ Graduate Diploma in Information Technology (Non-IT Graduates) (IT38)

**Award title:** Graduate Diploma in Information Technology

**CRICOS code:** 018771J

**Location:** Gardens Point

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Total credit points:** 96

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

Students can elect to be admitted to either the Graduate Diploma in Information Technology (IT38) or the Master of Information Technology (IT45).

Applicants for either IT38 or IT45 must have: a Bachelors degree in a discipline other than Information Technology with a grade point average of at least 4.5 (7 point scale); and have demonstrated competence with the basic skills and concepts of personal or office usage such as desktop applications, email, Internet.

Applicants are assumed to possess the following prerequisite skills:

- can use and manage email facilities;
- can create and manage a personal file system (eg. home or office computer);
- understand how to locate and use resources on the internet;
- familiar with the typical desktop environment: word processors, spreadsheets, etc.;
- aware of personal computing security issues with regard to backups, viruses, password protection.

These basic skills will not be taught in class. QUT-wide resources are made available for individuals to improve their computer literacy levels.

### Course Structure

To graduate with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:

- 4 x Compulsory Basic Level Units
- 4 x Chosen from Intermediate or Advanced Level 1 Units.

To exit with a Graduate Certificate in Information Technology (IT97), students are required to have completed 4 units, consisting of the four Compulsory Basic Level Units.

**Basic Units**

ITN200	Database Systems
ITN201	Enterprise Architecture
ITN600	Programming Principles
ITN601	Systems and Networks

**Intermediate Level Units**

ITN218	Applications Programming
ITN222	Business Systems Analysis
ITN223	4GL Systems
ITN225	Java for E-Commerce
ITN227	Web Applications
ITN228	Enterprise Systems
ITN241	Information Technology Management
ITN266	Principles Of Information Management
ITN660	Data Structures and Algorithms
ITN661	Object Oriented Programming
ITN662	Software Engineering
ITN161	Information Security for IT Professionals
ITN664	Operating Systems
ITN665	Computer Network Management
ITN667	Internet Protocols and Services

**Advanced Level 1 Units**

ITN220	Issues In IT Management
ITN233	Enterprise Systems Applications
ITN244	Special Topic 1A (Record Systems)
ITN245	R/3 Systems Administration
ITN252	Process Engineering
ITN255	Knowledge Management
ITN257	Multimedia Systems
ITN260	E-Commerce Site Development
ITN262	E-Commerce Technologies
ITN263	Web Intelligence For E-Commerce
ITN272	Information Technology Project Management
ITN670	Security Technologies
ITN671	Wireless Networks
ITN673	Computer Forensics
ITN676	Software Quality Management
ITN677	Internationalisation of Software

Students are permitted to select up to two (2) units from the following list of undergraduate units, to be included towards their Advanced Level 1 Unit requirements.

ITB232	Database Systems
ITB239	Enterprise Data Mining
ITB254	Interactivity Design
ITB256	Special Topic 2A (Strategic Telework)
ITB263	Web Intelligence For E-Commerce
ITB258	ABAP Programming
ITB264	Information Systems Consulting
ITB267	Data Warehousing For Decision Support
ITB626	Management of Network Systems
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB645	Network Security
ITB646	Cryptographic Fundamentals
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design
ITB650	Computational Intelligence

**Project Units**

ITN246	Minor Project 1 (IS)
ITN248	Minor Project 2 (IS)
ITN674	Minor Project 1 (SEDC)
ITN675	Minor Project 2 (SEDC)

*All ITN6XX units are subject to final approval*

## ■ Graduate Certificate in Information Management (Information and Knowledge Management) (IT74)

**Award title:** Graduate Certificate in Information Management (Information and Knowledge Management)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Dr Gillian Hallam

### Entry Requirements

Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg Desktop applications, email, internet access); and a bachelor's degree in any discipline with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possesses the capacity to pursue the course of study, and at least five years relevant full-time work experience (or equivalent part-time experience).

**Core Units**

ITN255	Knowledge Management
SPN621	Adult And Workplace Education: Principles And Practices
ITN315	Information Management Project
	OR
ITN280	Professional Practice
<b>Choose one unit from the following</b>	
ITN201	Enterprise Architecture
ITN266	Principles Of Information Management

## ■ Graduate Certificate in Information Management (Library Studies) (IT73)

**Award title:** Graduate Certificate in Information Management (Library Studies)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Dr Gillian Hallam

### Entry Requirements

Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg Desktop applications, email, internet access); and a graduate diploma in library or information studies with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possesses the capacity to pursue the course of study, and at least five years relevant full-time work experience (or equivalent part-time experience).

International students cannot gain direct entry to Graduate Certificates in Information Management as the programs are offered on a part-time basis only.

**Core Units**

ITN279	Information Literacy Instruction
ITN315	Information Management Project
	OR
ITN280	Professional Practice

**Choose two (2) units from the following:**

ITN276	Information Services
ITN316	Digital Library Systems
ITN317	Advanced Information Services
ITN318	Information Organisation 2
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice
LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives
CLN601	Cyberlearning: Information & Knowledge in the Digital Age
CLN603	Designing Spaces for Learning
HHB123	Indigenous Australian Culture Studies
EDB007	Culture Studies: Indigenous Education
SPN624	Adult and Professional Learning

## ■ Graduate Certificate in Information Management (Records Management) (IT75)

**Award title:** Graduate Certificate in Information Management (Records Management)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Dr Gillian Hallam

### Entry Requirements

Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg Desktop applications, email, internet); and a bachelor's degree in any discipline with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possesses the capacity to pursue the course of study, and at least five years relevant full-time work experience (or equivalent part-time experience).

### Course Structure

#### Core Units

ITN315	Information Management Project
ITN319	Records Systems
ITN266	Principles Of Information Management
ITN280	Professional Practice

#### Choose one unit from the following

ITN255	Knowledge Management
ITN200	Database Systems
ITN278	Web Content Management

## ■ Graduate Certificate in Information Management (Web Management) (IT76)

**Award title:** Graduate Certificate in Information Management (Web Management)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Course coordinator:** Dr Gillian Hallam

### Entry Requirements

Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg Desktop applications, email, internet access); and a bachelor's degree in any discipline with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possesses the capacity to pursue the course of study, and at least five years relevant full-time work experience (or equivalent part-time experience).

### Course Structure

#### Core Units

ITN278	Web Content Management
ITN315	Information Management Project
	OR
ITN280	Professional Practice

#### Choose two (2) units from the following

ITN227	Web Applications
ITN201	Enterprise Architecture
ITN200	Database Systems

## ■ Graduate Certificate in Information Technology (Component Software and Web Services) (IT99)

**Award title:** Graduate Certificate in Information Technology (Component Software and Web Services)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

#### Four (4) units to be selected from the following

ITN661	Object Oriented Programming
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB647	Advanced Programming Technology
ITN680	Web Services

## ■ Graduate Certificate in Information Technology (Computer Networks) (IT90)

**Award title:** Graduate Certificate in Information Technology (Computer Networks)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

Applicants must have a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale) OR provide other evidence of such qualifications and significant full-time Information Technology work experience as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Foundation level study of the principles of modern networking.

### Course Structure

#### Four units to be completed

ITN665	Computer Network Management
ITN667	Internet Protocols and Services
ITN671	Wireless Networks
ITB626	Management of Network Systems

## ■ Graduate Certificate in Information Technology (Electronic Commerce) (IT94)

**Award title:** Graduate Certificate in Information Technology (Electronic Commerce)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with object oriented concepts, some programming in modern languages and relational databases.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### Course Structure

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

#### Four (4) units to be selected from the following

ITN227	Web Applications
ITN225	Java for E-Commerce
ITN260	E-Commerce Site Development
ITN262	E-Commerce Technologies

ITN263 Web Intelligence For E-Commerce  
ITN680 Web Services

## ■ Graduate Certificate in Information Technology (Enterprise Wide Software) (IT93)

**Award title:** Graduate Certificate in Information Technology (Enterprise Wide Software)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with concepts of enterprise architecture or enterprise modelling.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### Course Structure

Students can use a graduate certificate in IT to articulate or gain credit towards a Graduate Diploma and/or Masters in IT award.

Alternatively, applicants may directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

**Four (4) units to be selected from the following**

ITN228 Enterprise Systems  
ITN233 Enterprise Systems Applications  
ITN245 R/3 Systems Administration  
ITN252 Process Engineering  
ITN253 Case Studies In Enterprise Systems

## ■ Graduate Certificate in Information Technology (Information Security) (IT92)

**Award title:** Graduate Certificate in Information Technology (Information Security)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with principles of modern networking and for ITB646, assumed Maths as specified in ITB646 (see Course Structure).

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

**Four (4) units to be selected from the following:**

ITN161 Information Security for IT Professionals  
ITN670 Security Technologies  
ITN682 Advanced Cryptology  
ITN681 Trusted Systems and Networks  
ITB646 Cryptographic Fundamentals

## ■ Graduate Certificate in Information Technology (Information Technology Management) (IT96)

**Award title:** Graduate Certificate in Information Technology (Information Technology Management)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed Skills: systems analysis & design, relational database design and implementation.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### Course Structure

**Four (4) units to be selected from the following**

ITN241 Information Technology Management  
ITN266 Principles Of Information Management  
ITN220 Issues In IT Management  
ITN255 Knowledge Management  
ITN264 Information Systems Consulting  
ITN272 Information Technology Project Management

## ■ Graduate Certificate in Information Technology (Multimedia) (IT98)

**Award title:** Graduate Certificate in Information Technology (Multimedia)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with programming and database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### Course Structure

**Four (4) units to be completed**

ITN227 Web Applications  
ITB254 Interactivity Design  
ITN257 Multimedia Systems  
ITN259 Advanced Multimedia Systems

## ■ Graduate Certificate in Information Technology (Project) (IT95)

**Award title:** Graduate Certificate in Information Technology (Project)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

**One (1) unit to be selected from the following**

ITN142	Major Project (IS) Full-Time
ITN685	Major Project (SEDC) Full-Time
ITN152	Major Project (IS) Part-Time
ITN686	Major Project (SEDC) Part-Time

## ■ Graduate Certificate in Information Technology (Wireless Games Technology) (IT89)

**Award title:** Graduate Certificate in Information Technology (Wireless Games Technology)

**Location:** Gardens Point

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Total credit points:** 48

**Course coordinator:** Dr Alison Anderson

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

### Course Structure

**Four (4) units to be selected from the following Core Units:**

ITN664	Operating Systems
ITN671	Wireless Networks
ITB649	Object Modelling for Games Design

**Select one unit from the following:**

ITB650	Computational Intelligence
ITB254	Interactivity Design

## ■ Graduate Diploma in Library and Information Studies (IT25)

**Award title:** Graduate Diploma in Library and Information Studies

**CRICOS code:** 006379E

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Dr Gillian Hallam

### Course Discontinued

There will be no intake into this course for 2005.

## ■ Bachelor of Information Technology (Honours) (IT28)

**Award title:** Bachelor of Information Technology (Honours)

**CRICOS code:** 017323G

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Course coordinator:** Dr Frederic Maire

### Entry Requirements

A Bachelor of Information Technology from QUT or its equivalent, completed within 18 months prior to enrolment with a minimum grade point average of 5 on a 7-point scale or its equivalent OR demonstrated outstanding performance in the final year of the degree OR work experience or research considered appropriate by the Course Coordinator.

### The "Accelerated" Honours Program

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology (IT21) students to continue into the Faculty's Honours Program. See IT29 for further information.

### Full-time Course Structure

#### Year 1, Semester 1

ITN150-4	Honours Dissertation
	Elective

Elective Units - Students should choose from the list of advanced level postgraduate units. Normally units are undertaken in the area of the student's undergraduate major. Students wishing to enrol in a unit other than those listed should contact the Course Coordinator. Full-time students should be aware many electives may be offered evenings only.

### IT Honours Advanced Level PG Units

ITN235	Distributed Object Information Systems
ITN253	Case Studies In Enterprise Systems
ITN259	Advanced Multimedia Systems
ITN268	Special Topic (Inf Sys)
ITN269	Special Topic (Inf Sys)
ITN680	Web Services
ITN681	Trusted Systems and Networks
ITN682	Advanced Cryptology
ITN683	Compiler Construction
ITN684	Pattern Recognition and Data Mining

## ■ Bachelor of Information Technology (Honours) - Accelerated Program (IT29)

**Award title:** Bachelor of Information Technology (Honours)

**CRICOS code:** 017323G

**Location:** Gardens Point

**Course duration (full-time):** 2 semesters

**Total credit points:** 96

**Course coordinator:** Dr Frederic Maire

## ■ Bachelor of Information Technology (IT21)

**Award title:** Bachelor of Information Technology (Study Area A)

**CRICOS code:** 012656E

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 3 years (International students must study at Gardens Point)

**Course duration (part-time):** 6 years (not available at Carseldine)

**Total credit points:** 288

**Course coordinator:** Dr Alan Tickle

### Professional Recognition

Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

### Cooperative Education Program

The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Entry to the program is based on academic performance in the first two years of the Bachelor of Information Technology. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking

and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

Please note this program is only offered to Australian residents and permanent residents.

### Full-time Course Structure

#### Common First Year, Semester 1

ITB111 Software Development 1  
ITB113 Systems Architecture  
ITB115 Introduction to Databases  
ITB116 IT Professional Studies 1

#### Common First Year, Semester 2

ITB112 Software Development 2  
ITB114 Networking Systems  
ITB117 IT Professional Studies 2  
ITB118 ICT Systems Life Cycle

### Course Outline

#### Block 1: Common First Year (8 Units)

#### Block 2: Major (12 Units)

Data Communications  
Electronic Commerce  
Information Systems  
Software Engineering

#### Block 2: Major (14 Units)

Emerging Technologies  
Data Communications and Information Systems  
Data Communications and Software Engineering

#### Block 3: General Electives

4 Units for the following majors  
Data Communications  
Electronic Commerce  
Information Systems  
Software Engineering  
2 Units for the following majors  
Emerging Technologies  
Data Communications and Information Systems  
Data Communications and Software Engineering

### Carseldine

#### Common First Year, Semester 1

ITB111 Software Development 1  
ITB113 Systems Architecture  
ITB115 Introduction to Databases  
ITB116 IT Professional Studies 1

#### Common First Year, Semester 2

ITB114 Networking Systems  
ITB117 IT Professional Studies 2  
Block 3 OR ITB112  
Block 3 OR ITB118

### Part-time Course Structure

#### Year 1, Semester 1

ITB111 Software Development 1  
ITB114 Networking Systems

#### Year 1, Semester 2

ITB115 Introduction to Databases  
ITB116 IT Professional Studies 1

#### Year 2, Semester 1

ITB112 Software Development 2  
ITB117 IT Professional Studies 2

#### Year 2, Semester 2

ITB113 Systems Architecture

Software Engineering Elective Unit  
Software Engineering Elective Unit  
Block 3 Elective Unit  
Block 3 Elective Unit

#### Software Engineering (SOF) Elective Units (three (3) units to be selected)

Students should plan their elective selection as far ahead as possible, taking into account the fact that some of the following units are oscillating offerings (alternate Day/Evening in alternate years).

ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design
ITB650	Computational Intelligence
ITB651	Project 1
ITB272	Information Technology Project Management

Students who complete the Cooperative Education Program will substitute ITS010 for ITB613.

### Part-time Course Structure

#### Year 3, Semester 1

ITB624	Internetworking
MAB209	Mathematics for Software Communication

#### Year 3, Semester 2

ITB610	Software Development 3
ITB616	Computer Architecture

#### Year 4, Semester 1

ITB611	Object Technology
ITB612	Software Engineering Principles

#### Year 4, Semester 2

ITB613	Advanced Programming Laboratory
ITB614	Programming Languages

■ Bachelor of Laws (LW33) .....	276

## OVERVIEW

The QUT Faculty of Law is Australia's largest tertiary educator in Law and Justice Studies. The Faculty is an acknowledged leader in its field and provides a sound balance of practical and theoretical training, which enables graduates to progress into the real world with ease. The Faculty consists of the School of Law, the School of Justice Studies and the Legal Practice Unit.

The Faculty's teaching and learning programs develop legal research and analysis skills within contextual and conceptual frameworks. Additionally a global approach to education is adopted which includes international visiting scholars, exchange programs for staff and students, and offshore programs.

The Faculty is continually striving for excellence in teaching and learning in response to the demands of its graduates, their employers, professional bodies and the practising professions. The Bachelor of Laws keeps abreast of the changing and challenging demands of a modern and relevant legal education while the Bachelor of Justice provides students with more flexibility and a greater degree of specialisation.

Other initiatives to enhance the quality of students' tertiary legal and justice education are online teaching delivery and curriculum design for graduate capability development. The Faculty's online teaching sites offer students flexibility in the delivery of course content by providing electronic access to course materials and other Internet resources, together with greater opportunities for communication between academic staff and students. The Faculty is also an acknowledged leader in curriculum design for graduate capability attainment. In both law and justice programs, teaching and learning environments have been developed which integrate opportunities for students to develop both generic and discipline specific skills. The Law Faculty has also established the first specially designed electronic moot court in the southern hemisphere.

A feature that sets QUT apart as the university for the real world is its liaison and collaboration with the legal profession and justice industries. Emphasis on real world experience, projects and case studies is an essential part of QUT education.

The Faculty offers undergraduate study through the Bachelor of Laws and Bachelor of Justice courses. A range of double degree programs are also available, offering the Bachelor of Laws in conjunction with the Bachelor of Justice or with a bachelor degree in Applied Science, Arts, Business, Creative Industries, Journalism or Information Technology.

A three-year accelerated Bachelor of Laws program is available for students who already hold a bachelor degree in another discipline. These students may also have the opportunity to select their elective units from the Law School's postgraduate program and graduate concurrently with a Graduate Certificate in Law.

The Faculty offers a range of postgraduate study options, including graduate certificate and graduate diploma courses, masters degrees by coursework or research, and doctoral programs. Many of these courses provide students with the opportunity to build on relevant undergraduate study or professional experience, and develop their expertise in a specialist area.

The Faculty offers a Legal Practice Course (the Graduate Diploma in Legal practice) that prepares law graduates for admission as legal practitioners. The course satisfies the practical training requirements of Queensland's legal practitioner admission rules\* (\*subject to Legal Practitioners Admissions Board approval). We offer the course twice a year in full-time, part-time (in-practice) and part-time (general) modes. Our part-time in-practice mode is specially designed for persons who are already working in private or government law offices. Our part-time courses are delivered online for the convenience of persons who are working full-time or who otherwise do not wish to study on campus. We are Queensland's longest established practical

legal training course and we have successfully prepared over 1000 law graduates for admission as legal practitioners.

The Faculty of Law achieves consistently high graduate employment rates which support its position as one of Australia's leading law faculties. The Law School prepares students for careers in law firms, government and other industries. The School of Justice Studies produces graduates with qualifications for employment in policing, justice, defence, security and other social justice areas.

Some of Australia's foremost legal researchers are located within the QUT Faculty of Law. Key research areas include:

- Technology Law and Policy
- Commercial and Property Law
- Health and Medicolegal Issues
- Constitutionalism and Human Rights
- Information Protection and Security
- Criminal Law and Criminal Justice
- Organised Crime and Corruption Investigation
- Environmental and Natural Resources Law
- Legal and Justice Education
- Competition and Intellectual Property
- Women, Children and the Law
- Courts and Dispute Resolution
- Legal Theory, Applications and Practice.

## SENIOR STAFF

### Faculty office

*Dean:* Professor the Honourable M. Lavarch, LLB *QUT*

*Administration Manager:* Mr W.A. Smith, BA(Hons) *Syd*, GradDipCourt & Parliamentary Reporting *Canb*

*Assistant Dean (Acting), Research:* Professor S.G. Corones, BCom LLB *Qld*, LLM *Lond*, PhD *Qld*

*Assistant Dean, Teaching and Learning:* Associate Professor S. Kift, LLB *Qld*, LLM *QUT*

*Assistant Dean, External Relations and Commercial Activities:* Professor W.D. Duncan, LLB *Qld*, LLM *Lond*, Solicitor

### Law School

*Head:* Professor B. Fitzgerald, BA PhD *Griff*, LLB(Hons) *QUT*, BCL *Oxon*, LLM *Harv*

#### Professors:

S.G. Corones, BCom LLB *Qld*, LLM *Lond*, PhD *Qld*

S.A. Christensen, LLB (Hons) LLM *QUT*, Solicitor (Qld),

Gadens Professor in Property Law

W.D. Duncan, LLB *Qld*, LLM *Lond*, Solicitor

D.E. Fisher, LLB MA PhD *Edin*

W.B. Lane, LLB *Syd*, LLM *Melb*, Clayton Utz Professor of Public Law

D.A. Butler, LLB (Hons) PhD *QUT*

#### Associate Professors:

S. Kift, LLB *Qld*, LLM *QUT*

L. Willmott, BCom LLB (Hons) *Qld*, LLM *Camb*

G. Mackenzie, LLB LLM *QUT*, PhD *NSW*

### Legal Practice

*Director:* Mr A.J. Chay, LLB LLM *Qld*

### Justice Studies

*Head of School (Acting):* Dr B. Carpenter, BHMS(Hons) *Qld*, PhD *Griff*

## ■ Doctor of Juridical Science (LW50)

**Award title:** Doctor of Juridical Science

**CRICOS code:** 012652J

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 1 1/2 Years (minimum)

**Course duration (part-time):** 3 Years (minimum)

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Assistant Dean, Research

### Award

The SJD will be awarded subject to the Faculty of Law Academic Board receiving:

- (i) a certificate of satisfactory completion of the candidate's approved course of study signed by the Principal Supervisor and the Assistant Dean, Research;
- (ii) a declaration signed by the candidate that he/she has not been a candidate for another tertiary award during the tenure of his/her SJD candidature;
- (iii) a declaration signed by the candidate stating original authorship of a thesis;
- (iv) a certificate signed by the Principal Supervisor, and Assistant Dean, Research stating that the candidate has satisfactorily completed the examination process, including completing any revisions or re-examination required by the external examiners; and
- (v) two final copies of the thesis in the prescribed format.

For the purposes of these Rules the Assistant Dean, Research acts as the delegate of the Dean, Faculty of Law and Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

### 1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

- (i) holds or has completed the requirements for the degree of (a) Bachelor of Laws or (b) Bachelor of Justice with at least Second Class Honours Division A at the Queensland University of Technology or its equivalent from another institution; or
  - (ii) holds or has completed the requirements for the degree of (a) Master of Laws by Coursework or (b) Master of Arts (Justice Studies) with a grade point average of at least 5.0 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean (Research) maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Arts (Justice Studies) respectively at the Queensland University of Technology;
- and, in the case of (i) or (ii) an applicant must also satisfy the following:
- (iii) has a minimum of two years professional experience appropriate to the proposed course of study; and
  - (iv) that the applicant can demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean (Research) for example, by the publication of articles in refereed research journals; and
  - (v) can demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

### 1.2 Alternative Entry

In exceptional circumstances, applicants with lesser academic qualifications but with exemplary professional experience may be given provisional enrolment on the approval of the Assistant Dean, Research. Applicants seeking entry under this rule would normally have completed a three-year bachelor level degree from

the Queensland University of Technology or another recognised institution. In addition, in order to assess the adequacy of the professional experience of the applicant, they will be required to address the following criteria as it relates to the proposed area of research:

- (i) evidence of professional leadership
- (ii) quality of academic achievement
- (iii) evidence of professional involvement in research and/or consultancy
- (iv) referees reports

### 2. Application Procedure

2.1 An application for admission shall be made on the prescribed form (PR/FR Form) which shall involve a two-stage process.

2.2 Stage 1 of the application process must include:

- the completion of the PR Form for admission (if the applicant holds citizenship or permanent residency in Australia or New Zealand);
- the completion of the FR Form for admission (if the applicant is an international candidate);
- a certified copy of the results of the degree relied upon for admission;
- personal data;
- details of relevant research experience. (In the case of a candidate relying upon a Master of Laws by Coursework for admission, this criterion may be satisfied if the student demonstrates that they have completed the unit Advanced Legal Research at a grade of 5 or above at the Queensland University of Technology or some equivalent unit from a comparable institution during the course of their masters studies or can demonstrate other relevant research experience, eg by publication. In the case of a candidate relying upon a Master of Arts (Justice Studies) for admission, the candidate shall demonstrate that she or he has undertaken either a unit in that course or as part of the requirements for the completion of a Bachelor of Justice Studies (Honours) a unit in the area of research methodology at a grade of 5 or above or some equivalent unit from a comparable institution during the course of Masters studies or can demonstrate relevant research experience, eg by publication). Where an applicant cannot satisfy this criteria by way of completion of an advanced research unit or publications as set out above, the applicant will be required to undertake the unit Advanced Legal Research or Advanced Information Retrieval Skills or an equivalent unit from a comparable institution during their candidature; and
- a brief outline (200-300 words) of the project to be undertaken;
- the proposed coursework program to be undertaken;
- details of any relevant professional experience (applicants entering under alternative entry provisions must address the criteria in 1.2 above); and
- any other information the candidate considers relevant in support of the application.

2.3 Where a candidate's qualification for admission is other than a Bachelor or Master of Laws from the Queensland University of Technology, or an equivalent degree, the candidate must undertake research in a field of criminology or other area of Justice Studies approved by the Assistant Dean (Research).

2.4 The application is to be approved by the Faculty Research Committee which will determine whether the applicant meets the criteria for admission or, if deficiencies exist, identify them and how they might be remedied.

2.5 Candidature shall be deemed to have commenced on the date of admission being the date of the approval of the application by the Faculty Research Committee except in the case of international students. International students shall be deemed to have commenced candidature on the date of enrolment.

2.6 Within two months of commencement of the thesis component for full-time students (up to four months for part-time and international candidates) and after consultation with appointed supervisors, the candidate must complete and submit the Stage 2 application form (SJD2) setting out:

- the proposed title of the thesis;
- the objectives of the program of research and investigation;
- an outline of the proposed research;
- the research methods and plan;
- the relationship of the study to previous work in the same field by the candidate and others;
- the coursework to be completed;
- a preliminary literature review;
- a substantial bibliography;
- a timeline for the completion of the research;
- a research ethics review checklist;
- the names of proposed supervisors, their qualifications and experience with relevant publications; and
- an Intellectual Property Agreement (if required).

2.7 The second stage application must be submitted to the Assistant Dean, Research for approval by the Faculty Research Committee.

2.8 If the Stage 2 application is not submitted within the time specified, the Assistant Dean, Research may, on the advice of the Faculty Research Committee and the Principal Supervisor, terminate the candidature. In exceptional cases, upon a written request stating reasons for delay, an extension of up to a further one month for full-time candidates or two months for part-time candidates may be granted to meet the requirements of Stage 2.

2.9 The Faculty Research Committee shall, as part of the approval of the Stage 2 process, confirm:

- the proposed topic of research is consistent with the aims of the School; and
- the Head of School is willing and able to provide appropriate accommodation, facilities and financial resources necessary for the proposed study for the duration of candidature.

2.10 Upon approval by the Faculty Research Committee of the Stage 2 Application the applicant will be admitted to candidature unconditionally (except for those being admitted under alternative entry provisions) and the appointment of the supervisors shall be confirmed. Those candidates admitted under alternative provisions will continue on provisional enrolment until such time as the requirements of this enrolment have been fulfilled (refer to 4).

### 3. Studies during the Candidature

A candidate for the degree of SJD is required to successfully complete a planned research program that should result in a notable contribution to professional knowledge and practice in the field of study. This contribution may be in the form of new knowledge in practice, or of significant and original adaptation, application and interpretation of existing knowledge and practice.

3.1 The degree comprises both a coursework (33%) and a thesis component (66%). Candidates will pursue an approved course of advanced study and research, comprising 96 credit points of coursework selected from within the unit offerings for the LLM by Coursework or the MA(Justice Studies) by Coursework (as appropriate) at the Queensland University of Technology or an equivalent institution at a grade point average of at least 5. The candidate will also pursue a thesis in accordance with Rule 9. One of the units studied for the coursework requirements must be Advanced Legal Research, or Advanced Information Retrieval Skills, or an equivalent unit from a comparable institution, together with any other unit or units deemed necessary by the Law Faculty Research Committee. For the purposes of this rule, completion of a unit in the area of research methodology as part of the MA (Justice Studies) or Bachelor of Justice (Honours) at a

grade point average of 5 will be deemed equivalent to completion of Advanced Legal Research.

3.2 Candidates must successfully complete all coursework requirements at the appropriate standard prior to commencing the thesis. As far as possible, the topic of the thesis should extend the coursework component. Whilst enrolled in the coursework component of the degree all policies and procedures relevant to the Master of Laws by Coursework or the Master of Arts (Justice Studies), as the case may be, form part of these rules.

3.3 The planned research program will normally include

- participation in university scholarly activity such as research seminars, teaching and publication;
- regular interaction with supervisors; and
- a program of supervised research and investigation.

3.4 The course of study must be such to enable a candidate to acquire competence in relevant methods of research and scholarship relating to the subject of the proposed investigation and to demonstrate sustained independent research effort.

3.5 The Faculty of Law Research Committee may on the recommendation of the Assistant Dean (Research) approve a variation in the candidate's course of study and research, an application for variation must be supported in writing by the Principal Supervisor.

### 4. Provisional Enrolment

Applicants with lesser academic qualifications but with exemplary professional experience may be given provisional enrolment on the approval of the Assistant Dean, Research (refer to rule 1.2).

4.1 A candidate so admitted shall be required to complete designated qualifying units at a grade point average of at least 5 on a 7 point scale. The designated qualifying units will include the unit LWN048 or equivalent as stipulated by the Assistant Dean, Research on the advice of the Faculty Research Committee.

4.2 A candidate who completes coursework units at a satisfactory level during the period of provisional enrolment will be permitted to count that coursework towards the degree.

4.3 Unless exceptional circumstances justify extension of provisional status, the stipulated enrolment program must be completed within one calendar year from enrolment in the course.

4.4 If an extension to the provisional enrolment period is required application should be made in writing to the Assistant Dean, Research setting out the exceptional circumstances. In any event, the period of extension of provisional enrolment shall be no more than six months.

### 5. Advanced Standing and Articulation

5.1 Advanced standing up to a maximum of 96 credit points may be granted to candidates who have completed the Master of Laws by Coursework or Master of Arts (Justice Studies) at the Queensland University of Technology, or its equivalent at another institution, at a grade point average of at least 5 on a 7 point scale.

5.2 Where a candidate has undertaken part of a postgraduate degree deemed to be equivalent to the Master of Laws by Coursework or Master of Arts (Justice Studies), that candidate may be granted advanced standing provided that the work for which a candidate seeks credit has been completed at a grade point average of at least 5 on a 7 point scale.

5.3 The Doctor of Juridical Science will fully articulate with the Master of Laws (Research) and Master of Arts (Justice Studies) by Research.

5.4 In exceptional circumstances, a student exiting prior to completion of the program may be eligible to receive the award of Master of Laws by Coursework or Master of Arts (Justice Studies) if this has not previously been awarded. In such cases, as

these courses normally attract up-front tuition fees, students exiting in this way will be liable for any fees which would otherwise have been payable. Payment of any such fees is required to be made before conferral of the degree.

## 6. Period of Time for Completion of Program

6.1 The minimum period of candidature is:

- full-time candidates—eighteen months from date of commencement;
- part-time candidates—thirty-six months from date of commencement.

In exceptional cases the Law Faculty Research Committee may approve submission of the thesis within a shorter period.

6.2 The maximum period of candidature is:

- full-time candidates—forty-eight months from date of commencement;
- part-time candidates—ninety-six months from date of commencement.

6.3 The candidate may change from full-time to part-time candidature or vice versa by making application on a prescribed form to the Faculty Research Committee through the office of the Assistant Dean, Research. International students studying on student visas are unable to alter their mode of study from full-time to part-time unless they are in their final semester of study.

6.4 A candidate who does not expect to submit his/her thesis by the maximum candidature date must apply for an extension of time on the prescribed form (SJD3) through the Assistant Dean, Research for consideration by the Faculty Research Committee. The application must include the reasons for the delay, written endorsement of the request for extension by the Principal Supervisor and a revised timeline for completion. Applications for extensions will not normally be considered by the Faculty Research Committee unless the reasons for the delays have been documented in previous supervisor's reports. Extensions will only be given in exceptional circumstances. Minor breakdown of computer equipment or absence of a Principal Supervisor is not usually considered exceptional.

## 7. Candidate May Take Leave of Absence for a Specified Period from the Program

7.1 Application must be made on the prescribed form (SJD4) through the Assistant Dean, Research and approved by the Faculty Research Committee. The application must include reasons for the leave of absence, the written endorsement of the Principal Supervisor and the exact start and finish dates of the period of leave. If the leave is approved, the duration of the specified time will be added to the maximum and minimum submission dates of the candidature. International students studying on student visas are not normally permitted to take leave of absence unless there are exceptional circumstances, eg bereavement. International students should consult the Assistant Dean, Research and Office of International Students if a period of leave is required.

7.2 The maximum period of leave of absence for which a candidate may be given approval (for any reasons) is twelve months for a full-time candidate and twenty-four months for a part-time candidate

## 8. Supervision

8.1 Supervision shall be conducted according to the QUT Code of Good Practice for Postgraduate Research Studies and Supervision (MOPP Appendix 66).

8.2 A Principal Supervisor from QUT and one Associate Supervisor shall be appointed.

8.3 The Principal Supervisor has responsibility for supervising a candidate on a frequent basis and must be a current member of the QUT staff or an emeritus professor of QUT still active in research. The Principal Supervisor shall normally have undertaken successful supervision of research degree candidates,

and shall have an established research record in the area of the proposed project.

8.4 The Associate Supervisor may be a member of the QUT staff but must possess appropriate expertise in the research field and would normally be a person who has undertaken successful supervision of research degree candidates.

8.5 Where the Principal Supervisor is absent from QUT for a period of three consecutive months or longer during the period of candidature, the Associate Supervisor (if that person is a QUT staff member) will normally become the Acting Principal Supervisor for this period.

8.6 If the Principal Supervisor leaves the staff of QUT, the QUT Associate Supervisor will normally fill the role of Acting Principal Supervisor immediately until a new Principal Supervisor is appointed by the Faculty Research Committee in consultation with the candidate. A formal appointment of a new Principal Supervisor must be made within three months of the original Principal Supervisor's departure.

## 9. Confirmation of Candidature

9.1 Within six months of commencement of the thesis component for full-time candidates and twelve months for part-time candidates, the candidate shall present (in consultation with his/her supervisors) a plan of the research program for the remainder of the candidature and report of the work done to that tie. The confirmation report form (SJD5) shall incorporate a substantial literature review and shall provide evidence of the research capacity of the candidate including the rate of progress to date. The plan shall include details of:

- the area of study in which the candidate's course is located;
- the nature of participation in scholarly activities in the Centre in which the degree is being undertaken;
- the objectives of the program of research and its relationship to published research in the same field;
- research methods followed and to be followed;
- the title of the thesis; and
- a timeline for completion of the research program.

9.2 The candidate shall present the confirmation report and details of the research program at a Confirmation Seminar open to the public.

9.3 A candidate who is not able to complete a Confirmation of Candidature within the timeframe required must apply for an extension at least one month in advance of that deadline through the Assistant Dean, Research to the Faculty Research Committee. A maximum of three months extension may be granted.

9.4 A Review Panel shall review the candidate's progress and planned research program and shall make recommendations on Form SJD5 to the Faculty Research Committee. These recommendations shall include:

- an appraisal of the candidate's progress and suitability for continuation of the program;
- documents prepared by the candidate;
- a statement that the research program is of a standard required for an SJD;
- a statement of whether the studies continue to be within the aims and objectives and physical and human resources of the Centre; and
- a report on the candidate's seminar.

9.5 The Faculty Research Committee will, if satisfied:

- confirm the candidature and notify the candidate; or
- may require changes to the planned research program; or
- if the recommendation is not to confirm the candidature immediately, place the candidate under review for three months. At the end of the review period the Assistant Dean, Research must advise the Faculty Research Committee whether the conditions of review have been met.

9.6 Where a candidate is placed under review following the Confirmation Seminar, the Principal Supervisor must advise the candidate in writing within seven days of the conditions to be met, in the form of clear written guidelines of the work required and due dates for submission and whether a further Confirmation Seminar is required. The conditions must be endorsed by the candidate, the supervisor (supervisors), Director of the Centre and Assistant Dean, Research.

9.7 Where a candidate's progress remains unsatisfactory after the review period, the Faculty Research Committee, on advice from the Assistant Dean, Research shall either grant a further extension of the period of up to three months or may ask the candidate to show cause in writing why action should not be taken to terminate the candidature.

## 10. Reporting Procedures

10.1 The Principal Supervisor and candidate are required to report annually by 30 September on the prescribed form on the candidate's progress and future plans. Reports shall be signed both by the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee. at its discretion, the Faculty Research Committee may request an additional six monthly report if it has concerns for the candidate's progress or feels that the candidate would benefit from such process.

10.2 Where a candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve the continuation of the candidature.

10.3 Where the progress is deemed unsatisfactory, in the Confirmation of Candidature, six monthly report or other interim faculty report, the Research Degrees Committee, on advice from the Faculty Research Committee will normally place a candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The candidate will be advised of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty Research Committee.

10.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

10.5 If progress is still unsatisfactory after the review period, the Research Degrees Committee, on the advice of the Faculty Research Committee shall ask the candidate to show cause in writing why the enrolment shall not be terminated.

10.6 When a candidate's progress has been reported as unsatisfactory in any two consecutive reports during candidature, the Research Degrees Committee shall ask the candidate to show cause in writing why the enrolment of the candidate shall not be terminated.

10.7 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

10.8 If the candidate does not show cause why the enrolment shall not be terminated, the Research Degrees Committee may terminate the candidate's enrolment

## 11. Thesis Guidelines

11.1 The thesis must be presented in accordance with the requirements of the University, including any accompanying declarations and in accordance with Appendix 51 of the Manual of Policies and Procedures \_ Requirements for Presenting Theses

(MOPP 51). The main body of the text should be between 50,000 and 60,000 words.

11.2 The thesis must be presented in the English language.

11.3 A candidate may submit with the thesis other kinds of relevant material (such as films, audio tape recordings, video tape recordings, CD-ROMS, software programs etc) which shall be accompanied by evidence of the extent to which the candidate has been responsible for their preparation.

11.4 An SJD degree may not be awarded on the basis of the submission of published papers.

11.5 A candidate's name will not be placed on the graduation list until the final copies of the thesis (one bound and one electronic) are received in the Research Students' Centre, Office of Research. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

11.6 When these final copies of the thesis have been lodged with the Research Students' Centre, Office of Research, the names of examiners will be released to the candidate upon request, providing that the examiner has not indicated otherwise.

## 12. Examination of Thesis

12.1 At least three months prior to the maximum candidature date or anticipated completion date, the Principal Supervisor having obtained the agreement of the Faculty Committee, shall recommend to the Faculty Research Committee the composition of the proposed Examination Committee and the title of the candidate's thesis.

12.2 The Examination Committee shall comprise two external examiners who will examine the thesis plus an external examiner to be called upon only if the first two examiners are in disagreement.

12.3 In exceptional circumstances, the University Research Degrees Committee may act directly to facilitate the examination process of a thesis including the appointment of examiners.

12.4 A candidate's Principal or Associate Supervisor may not be nominated by the Faculty as an examiner.

12.5 Examiners must have demonstrable and substantial publications and research experience in the area under investigation and one examiner would normally have a research degree. At least one of the nominated examiners should be an academic from a recognised university or equivalent research institution. At least one examiner would normally be a specialist practitioner recognised as an expert in the particular field of the research constituting the thesis. Preferably, at least one examiner should also have substantial experience of examining research degree candidates at doctoral level.

12.6 Agreement will be sought from examiners to examine the thesis within eight weeks of receipt.

12.7 If more than six months has elapsed between the nomination of examiners and the submission of the thesis, the faculty must notify the Research Degrees Committee that the nominated examiners are still willing and able to examine the thesis within two months of its receipt. If any previously nominated examiner is unable to examine the thesis, a replacement examiner must be nominated by the Principal Supervisor (with the agreement of the Faculty) for approval by the Research Degrees Committee.

12.8 In order to determine whether the thesis is acceptable for examination by the Examination Committee, the candidate shall be required to present a Final Seminar based on the work described in the thesis to the Faculty to which he/she is attached.

- The final seminar shall normally take place no more than six months prior to the anticipated submission date.

- The Faculty shall constitute a panel of three including the Principal Supervisor to attend the seminar and to report on the readiness of the thesis for external examination. The panel shall be chaired by the Principal Supervisor, and shall question the candidate on the content of the thesis at the conclusion of the seminar. Each member of the panel must receive a copy of the draft thesis 14 days prior to the final seminar.
- The panel may require changes to the thesis or ask that further work be done prior to submission of the thesis. The thesis is accepted by the University for external examination only when the panel signifies its belief that the degree requirements have been met. The Faculty panel shall use the prescribed form when advising Research Degrees Committee that the thesis is ready for external examination.
- The final seminar shall be open to the public and shall be widely advertised by the Faculty so as to ensure attendance by researchers and research students within the Faculty.
- In all other matters the form and timing of the final seminar is determined by the Faculty.

12.9 The thesis must be accompanied by a certificate form (SJD7) endorsed by the Principal Supervisor, Assistant Dean, Research and the Faculty panel, stating that all reasonable efforts have been made by the Faculty to ensure that:

- the thesis makes notable contribution to professional knowledge and practice;
- the methodology applied in the candidate's research is effective and appropriate for the thesis topic;
- the thesis reflects competence in the survey of literature and documentation of statements;
- the thesis is of the required standard for external examination;
- the thesis is within the prescribed word limit;
- the candidate has presented a Final Seminar;
- that acknowledgment is given regarding the inclusion of all published and other sources of information together with any substantial financial assistance received for the project.

12.10 In exceptional circumstances the Research Degrees Committee may allow a candidate to submit his or her thesis for external examination without the requirement for certification. The candidate must apply in writing to the Research Degrees Committee for such permission, outlining reasons why the certification is not included.

12.11 Three copies of the thesis in the prescribed format must be submitted to the Research Students' Centre, Office of Research, no later than the maximum candidature date.

12.12 The Office of Research, on the advice of the Research Degrees Committee, shall provide the examiners with a copy of the thesis and of the Regulations for the Award of the Degree of the Doctor of Juridical Science and any other relevant information.

12.13 Each examiner will be asked to provide a written report to the Office of Research on the candidate's thesis and to recommend on the following courses of action:

Recommendation 1: The candidate should be awarded the degree without the requirement for revision, further examination or modification (minor corrections and typographical errors only); or

Recommendation 2: The candidate should be awarded the degree subject to minor nominated revisions being completed to the satisfaction of the Assistant Dean, Research and Principal Supervisor; or

Recommendation 3: The candidate should be awarded the degree following the completion of major nominated revisions to the satisfaction of the Assistant Dean, Research and Principal Supervisor; or

Recommendation 4: The candidate should be permitted to substantially revise and submit the thesis for re-examination within twelve months after a specified amount of further work,

which may alter the substantive conclusions of the thesis, has been completed under approved supervision and the thesis appropriately amended to reflect the additional research; or

Recommendation 5: The thesis should be rejected, the degree should not be awarded and the candidate should not be permitted to submit the thesis for re-examination for the degree.

12.14 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

### 13. Examiners in Agreement

13.1 Where both examiners recommend that the candidate should be awarded the degree (recommendation 1, 2 or 3), the Assistant Dean, Research will consult with the Principal Supervisor and Centre Director to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

13.2 Where corrections or revisions are to be made to the satisfaction of the Assistant Dean, Research or nominee, the Head of School or nominee must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the SJD degree.

13.3 Where both examiners recommend that the thesis be revised and resubmitted for examination (Examiners Report Recommendation 4), after consultation with the Principal Supervisor and the Centre Director, the Assistant Dean, Research will make written recommendation to the Research Degrees Committee within seven days of the receipt of the Examiners Reports listing any revisions required. Once these are approved by the Research Degrees Committee, the Research Degrees Committee will inform the candidate of the revisions and/or any action required.

### 14. Examiners Not in Agreement

14.1 Where the recommendations of the external examiners are not in agreement as to whether the thesis should be accepted for the award of SJD or as to whether the thesis may be revised and resubmitted, the thesis will be sent to the third nominated examiner.

14.2 Upon receipt of the third examiner's report, a majority decision shall be adopted.

14.3 Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decisions of the examiners as the case may be.

14.4 Where the majority decision is that the candidate be required to submit for re-examination or the thesis fail, the procedures in Section 11.3 shall apply.

14.5 Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

### 15. Re-Examination

15.1 A candidate who is required to submit for re-examination may be re-examined only once except in the case of an upheld appeal.

15.2 Re-examination shall take place within twelve months from the date on which the candidate is advised in writing by the Assistant Dean, Research or nominee of such re-examination. The Research Degrees Committee may, on written application by the candidate and supported by the Principal Supervisor and Centre Director with suitable justification, approve an extension to this period which, under normal circumstances, may be a maximum of a further twelve months.

15.3 A candidate who is required to submit his/her thesis for re-examination must re-enrol in the SJD program.

15.4 The thesis shall be re-examined by the same two examiners unless:

- any of the examiners is unable to re-examine the thesis in which case the Assistant Dean, Research or nominee with the agreement of the Principal Supervisor and the Faculty shall nominate a replacement examiner(s) who must be approved by the Research Degrees Committee; or
- the Research Degrees Committee replaces one or more of the examiners on advice from the RDC Chair and with suitable justification.

15.5 Examiners re-examining a thesis will be asked to provide a written report on the candidate's thesis and to recommend one of the following courses of action:

- (a) the candidate should be awarded the degree with or without minor nominated revisions; or
- (b) the candidate should be awarded the degree a masters level with or without minor nominated revisions; or
- (c) the thesis should be rejected and the degree should not be awarded.

15.6 Regulations applicable to SJD examination shall apply to the re-examination.

## 16. Appeals

16.1 A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process.

16.2 The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

16.3 An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based.

16.4 Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal.

16.5 In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision, to consider the appeal.

16.6 The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty, school or centre/research concentration as appropriate.

16.7 The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that that thesis be re-examined. This re-examination shall be carried out in accordance with the Section 6.143 taking account of the issues raised in the successful appeal.

16.8 The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

## Full-time Course Structure

### Year 1, Semesters 1 & 2

Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 48 credit points per semester.

### Year 2, Semesters 1 & 2

LWR003-1 Thesis  
LWR003-2 Thesis  
LWR003-3 Thesis  
LWR003-4 Thesis

### Year 3, Semesters 1 & 2

LWR003-5 Thesis  
LWR003-6 Thesis  
LWR003-7 Thesis  
LWR003-8 Thesis

## Part-time Course Structure

### Year 1, Semesters 1 & 2

Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 24 credit points per semester.

### Year 2, Semesters 1 & 2

Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 24 credit points per semester

### Year 3, Semesters 1 & 2

## ■ Master of Justice (Research) (JS52)

**Award title:** Master of Justice (Research)

**CRICOS code:** 020310J

**Location:** Kelvin Grove

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Total credit points:** 96

**Course coordinator:** Dr Belinda Carpenter

## 1. Award

1.1 The following rules apply to the degree of Master Justice to be obtained by research and thesis awarded by the Queensland University of Technology, and are made with the authority of the Academic Board of this University.

1.2 For the purposes of these Rules the Course Coordinator acts as the delegate of the Dean, Faculty of Law, and the Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

## 2. Entry Requirements

The following persons shall be eligible to apply for admission as a student for the degree:

2.1 A person who has completed the requirements for the degree of Bachelor of Justice (Honours) of QUT, or

2.2 A person who has completed the requirements for the Graduate Certificate from the School of Justice Studies of QUT, or

2.3 A qualification that is deemed equivalent and possesses appropriate research skills or substantial professional experience in the proposed field of research as deemed appropriate by the Course Coordinator, or

2.4 Professional publications, etc that the Course Coordinator and the Faculty Research Committee accept as proof of a students advanced knowledge and research ability in the proposed field of research.

## 3. Admissions and Enrolment

3.1 An application for admission shall be made on the prescribed form:

- (i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
- (ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Course Coordinator on the recommendation of the Law Faculty Research Committee.

3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

#### 4. Progress Reports

4.1 The Principal Supervisor and candidate are required to report on a six monthly basis (by 30 April and 30 September) on the prescribed form on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidature under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

#### 5. Thesis Requirements

5.1 Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis submitted for the degree shall be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminal justice (eg criminology, law enforcement, strategic intelligence). It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Course Coordinator within two months of admission to candidature. The research outline should include the following:

- the proposed title of the thesis;
- the objectives of the program of research and investigation;
- an outline of the proposed research;
- the Research methods and plan;
- the relation of the study to previous work in the same field by the candidate and others;
- a preliminary literature review;

- a substantial bibliography;
- a timeline for the completion of the research
- a copy of the Research Ethics Review Checklist
- the proposed supervisor(s) and their credentials
- an intellectual property agreement if required
- memo of Understanding for any external supervisor.

5.3 The Law Faculty Research Committee may, upon the recommendation of the Course Coordinator vary the title of the thesis topic.

5.4 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Course Coordinator.

5.5 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Course Coordinator not later than the end of November or May, as the case may be, in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.6 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.7 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:

- (i) be accepted
- (ii) not be accepted, or
- (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Course Coordinator, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

#### Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Course Coordinator will consult with the Principal Supervisor to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the MJust (Research) degree.

#### Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of MJust (Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the

Course Coordinator or nominee shall liaise with the Principal Supervisor to determine the further course of action.

### Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The University Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the University Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The University Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the University Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The University Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

### 6. Credit for Research Work Done Elsewhere

6.1 The Course Coordinator may grant credit toward the Master of Justice degree by Research for work done at another institution of similar standing. Such credit shall not be granted unless the candidate provides to the Course Coordinator:

- (i) evidence that the candidate has cancelled or terminated enrolment at the other institution, and
- (ii) a written undertaking that the candidate will not seek credit in any form or manner for work done at the other institution or any other institutions except to complete the degree at QUT.

### 7. Time for Completion Requirements

7.1 Except in special circumstances and with the approval of the Course Coordinator:

- (i) a full-time candidate shall complete all the requirements for the degree not earlier than the end of the second semester and not later than the end of the sixth semester of candidature;
- (ii) a part-time candidate shall complete all the requirements for the degree not earlier than the end of the fourth semester and not later than the end of the eighth semester of the candidature.

International students studying on student visas must be enrolled on a full-time basis.

7.2 The Course Coordinator may, upon the application of the candidate, extend any time limited by the rules by such further period as may be consistent with general University rules.

Extensions of time for international students will only be made in exceptional circumstances. International students should consult the Course Coordinator and the Office of International Students if an extension of time is required.

### 8. Award of Degree

8.1 A candidate who has fulfilled the requirements of these rules and who has otherwise complied with the provisions of all statutes and other rules applicable may be admitted to the degree of Master of Justice (Research) by the University Academic Board on the recommendation of the Law Academic Board and the University Research Degrees Committee.

## ■ Master of Justice by Coursework (JS51)

**Award title:** Master of Justice (Study Area A)

**CRICOS code:** 020311G

**Location:** Kelvin Grove

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Course duration (external):** 2 Years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Belinda Carpenter - Master of Justice, Dr Ian Wells - (Strategic Intelligence Study Area)

### Entry Requirements

A Bachelor of Justice degree (or an equivalent qualification) plus at least 2 years relevant professional experience, OR an appropriate Graduate Diploma or Graduate Certificate with a GPA of 5.00 or better, OR approved equivalent professional experience or an approved four-year undergraduate degree in an appropriate field.

Students who have successfully completed a Graduate Certificate program in Justice Studies, and who have a GPA of 5.0 or better may articulate into the Master of Justice and receive 48 credit points of credit.

### Course Requirements

The basic course structure appears in the table. Students must complete eight units of equal weighting totalling 96 credit points. The eight units can comprise:

- (a) four units from one major study area, AND
- (b) four units chosen from across the Masters program including either Theories of Justice 1 or Intelligence, Justice and Accountability (for Strategic Intelligence students), OR
- (c) eight units chosen from across the Masters program including either Theories of Justice 1 or Intelligence, Justice and Accountability, OR
- (d) six units chosen from across the Graduate Certificate and Masters program including either Theories of Justice 1 or Intelligence, Justice and Accountability and no more than four units taken from the Graduate Certificate program and the two Independent Studies units collapsed into one Research Project of 24 CP.

### Full-time Course Structure

#### Year 1, Semester 1

JSN001 Theories of Justice OR

JSN016 Intelligence, Justice and Accountability

Plus Select one elective unit from list below and

2 units from major study area (listed further below)

#### **Electives, Semester 1**

- JSN006 Independent Study 1  
JSN018 Advanced Crime Research Methods

#### **Year 1, Semester 2**

Choose 2 units from elective list below  
and 2 units from major study area (listed further below)

#### **Electives, Semester 1**

- JSN019 Contemporary Issues in Sentencing Law

#### **Electives, Semester 2**

- JSN023 Justice, Law and Democracy  
JSN007 Independent Study 2  
JSN017 Intelligence and Decision Making

#### **Electives, Summer Program**

- JSN014 Law, Justice and New Genetic Technologies

### **Part-time/External Course Structure**

#### **Year 1, Semester 1**

- JSN001 Theories of Justice OR  
JSN016 Intelligence, Justice and Accountability  
Plus Select one elective

#### **Year 1, Semester 2**

Select 2 electives

#### **Year 2, Semester 1**

Select 2 units from major study area

#### **Year 2, Semester 2**

Select 2 units from major study area

#### **Major Study Areas**

##### **Strategic Intelligence**

- JSN161 Fundamentals of Intelligence  
JSN162 Managing Intelligence  
JSN163 Intelligence Research Issues & Methodology  
JSN164 Intelligence and National Security

##### **Critical Criminology**

- JSN131 Juvenile Justice  
JSN132 Foundations in Criminology  
JSN133 Crime Prevention  
JSN134 Crime Control and Governance

##### **Justice Policy**

- JSN151 Policy, Governance and Justice  
JSN152 Administrative Justice  
JSN153 Watchdogs: Warriors, Wimps and Witch-hunts  
JSN154 Human Rights and Global Justice

##### **Organised Crime and Corruption Investigation**

- JSN141 Organised Crime and Corruption  
JSN142 Forensic Investigation Methods and Strategies  
JSN143 Proceeds of Crime and Money Laundering  
JSN144 Evidence in Organised Crime Investigations

## **■ Master of Laws (LW51)**

**Award title:** Master of Laws (Study Area A)

**CRICOS code:** 006380A

**Location:** Gardens Point

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Director, Graduate Programs

### **Entry Requirements**

Prospective students must have:

- (i) completed the requirements for the degree of Bachelor of Laws of QUT OR
- (ii) have completed the requirements for the award of a degree in law at another tertiary institution which, in the opinion of the Director, Graduate Studies, maintains standards comparable with those required for the award of the degree of Bachelor of Laws at QUT OR
- (iii) hold a professional qualification in law and have at least three years of professional legal experience subsequent to first admission to practice and also satisfy the Director, Graduate Studies, that they have the requisite ability to complete the LL.M by Coursework degree.

In exceptional circumstances, an applicant who does not otherwise satisfy the normal entry requirements will be eligible for entry into the Master of Laws by Coursework degree in a specialist stream if they:

- (i) have completed a Graduate Certificate in Law AND
- (ii) have significant professional experience in the field of the Graduate Certificate in Law already completed; AND
- (iii) have achieved a grade point average of 5.5 in the units already completed for the Graduate Certificate in Law and whose course is approved by the Director, Graduate Studies.

### **Course Structure**

The course structure comprises 96 credit points of coursework units for a Pass degree.

The units from which 96 credit points shall be chosen are subject to availability.

Students may nominate a major by choosing units within a specialist stream. To be eligible to graduate with a major, students must choose units to the value of 96 credit points from a specialist stream. Alternatively, students may complete a generic degree by choosing units from any specialist stream.

Majors:

Commercial Law, Environmental Resources Law, Public Law, Technology Law, General Selection

### **Articulation**

This course articulates with the Doctor of Juridical Science (SJD).

### **Advanced Standing**

Graduates of QUT's Graduate Diploma in Legal Practice (LP41), who graduated from the first course in 2000 or from subsequent courses, may be deemed to have passed the equivalent of 48 credit points of units in LW51 and may be granted unspecified credit for such units.

Graduates from QUT's Graduate Diploma in Legal Practice prior to 2000 or from another Australian university or the Leo Cussens Institute or the College of Law are eligible for up to 24 credit points of unspecified credit.

**■ Master of Laws (Research) (LW52)**

**Award title:** Master of Laws (Research and Thesis)

**CRICOS code:** 012654G

**Location:** Gardens Point

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Assistant Dean (Research)

**1. Award**

1.1 The following rules apply to the degree of Master of Laws to be obtained by research awarded by the Queensland University of Technology, and are made with the authority of the Academic Board of this University.

1.2 For the purposes of these Rules the Assistant Dean, Research acts as the delegate of the Dean, Faculty of Law and the Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

**2. Entry Requirements**

The following persons shall be eligible to apply for admission as a student for the degree:

2.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

2.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

2.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

2.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:

2.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or

2.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or

2.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and

2.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

**3. Admission and Enrolment**

3.1 An application for admission shall be made on the prescribed form:

(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or

(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee.

3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

#### 4. Progress Reports

4.1 The Principal Supervisor and candidate are required to report on a six monthly basis (by 30 April and 30 September) on the prescribed form on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 a report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

#### 5. Thesis Requirements

5.1 The thesis submitted for the degree shall be not less than 50,000 words and not more than 60,000 words in length and shall constitute a substantial contribution to knowledge and understanding in the area of the law and subject of the research. It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Assistant Dean, Research within two months of admission to candidature. The research outline should address the following:

- the proposed title of the thesis;
- the objectives of the program of research and investigation;
- an outline of the proposed research;

- the Research methods and plan;
- the relation of the study to previous work in the same field by the candidate and others;
- a preliminary literature review;
- a substantial bibliography;
- a timeline for the completion of the research
- a copy of the Research Ethics Review Checklist
- the proposed supervisor(s) and their credentials
- an intellectual property agreement if required
- memo of understanding for any external supervisor

5.2 The Law Faculty Research Committee may, upon the recommendation of the Assistant Dean, Research vary the title of the thesis topic.

5.3 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Assistant Dean, Research.

5.4 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Assistant Dean, Research not later than the end of November or May, as the case may be, in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.5 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.6 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:

- (i) be accepted
- (ii) not be accepted, or
- (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

#### Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Assistant Dean, Research will consult with the Principal Supervisor to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the LLM (Research) degree.

#### Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of LLM(Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

### Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis, one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

### 6. Credit for Research Work Done Elsewhere

6.1 The Assistant Dean, Research may grant credit toward the Master of Laws degree by Research for work done at another institution of similar standing. Such credit shall not be granted unless the candidate provides to the Assistant Dean, Research:

- (i) evidence that the candidate has cancelled or terminated enrolment at the other institution, and
- (ii) a written undertaking that the candidate will not seek credit in any form or manner for work done at the other institution or any other institutions except to complete the degree at QUT.

### 7. Time for Completion Requirements

7.1 Except in special circumstances and with the approval of the Assistant Dean, Research:

- (i) a full-time candidate shall complete all the requirements for the degree not earlier than the end of the second semester and not later than the end of the sixth semester of candidature;
  - (ii) a part-time candidate shall complete all the requirements for the degree not earlier than the end of the fourth semester and not later than the end of the eighth semester of the candidature.
- International students studying on student visas must be enrolled on a full-time basis.

7.2 The Assistant Dean, Research may, upon the application of the candidate, extend any time limited by the rules by such further period as may be consistent with general University rules. Extensions of time for international students will only be made in exceptional circumstances. International students should consult the Assistant Dean, Research and the Office of International Students if an extension of time is required.

### 8. Award of Degree

8.1 A candidate who has fulfilled the requirements of these rules and who has otherwise complied with the provisions of all statutes and other rules applicable may be admitted to the degree of Master of Laws by the University Academic Board on the recommendation of the Law Academic Board and the University Research Degrees Committee

**■ Graduate Certificate in Critical Criminology (JS26)****Award title:** Graduate Certificate in Critical Criminology**CRICOS code:** Not required**Location:** Kelvin Grove and External**Course duration (part-time):** 1 year multimodal or external**Course duration (external):** 1 year**Total credit points:** 48**Course coordinator:** Dr Belinda Carpenter**Entry Requirements**

An appropriate undergraduate degree from a recognised tertiary institution or professional experience that the Course Coordinator deems to be appropriate.

**Course Requirements**

The Graduate Certificate in Critical Criminology consists of four units of twelve credit points each. The four units focus on foundations in criminology, juvenile justice, crime prevention and crime control.

**Articulation to Master of Justice**

A student, who has successfully completed the Graduate Certificate in Critical Criminology with a GPA of 5.0 or better,

may articulate to the Master of Justice (Critical Criminology) and receive credit for their specialist area study of 48 credit points.

### Part time/External Course Structure

#### Semester 1

JSP131	Juvenile Justice
JSP132	Foundations in Criminology

#### Semester 2

JSP133	Crime Prevention
JSP134	Crime Control and Governance

## ■ Graduate Certificate in Justice (JS25)

**Award title:** Graduate Certificate in Justice

**CRICOS code:** 036433M

**Location:** Kelvin Grove and External

**Course duration (full-time):** 6 months multimodal or external

**Course duration (part-time):** 1 year

**Course duration (external):** 1 year part-time multimodal or external

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Belinda Carpenter

### Entry Requirements

An appropriate undergraduate degree from a recognised tertiary institution OR professional experience that the Course Coordinator deems to be appropriate.

### Course Requirements

The Graduate Certificate in Justice consists of four units of 12 credit points each. The four units will be chosen from across any of the Graduate Certificate Programs (Strategic Intelligence JS29; Critical Criminology JS26; Organised Crime and Corruption Investigation JS27; and Justice Policy JS28).

### Articulation to Master of Justice

A student, who has successfully completed the Graduate Certificate in Justice with a GPA of 5.0 or better, may articulate to the Master of Justice and receive credit of 48 credit points.

### Full-time Course Structure

#### Semester 1

**Select any four units from:**

JSP131	Juvenile Justice
JSP132	Foundations in Criminology
JSP141	Organised Crime and Corruption
JSP142	Forensic Investigation Methods and Strategies
JSP151	Policy, Governance and Justice
JSP152	Administrative Justice
JSP161	Fundamentals of Intelligence
JSP162	Managing Intelligence

#### Semester 2 (MID YEAR ENTRY)

**Select any four units (48 cps) from the following:**

JSP133	Crime Prevention
JSP134	Crime Control and Governance
JSP143	Proceeds of Crime and Money Laundering
JSP144	Evidence in Organised Crime Investigations
JSP153	Watchdogs: Warriors, Wimps and Witch-hunts
JSP154	Human Rights and Global Justice
JSP163	Intelligence Research Issues & Methodology
JSP164	Intelligence and National Security

### Part Time/External Course Structure

**Select any 2 units from both Semester 1 & 2 Full-time Programs above (total of 48cps)**

## ■ Graduate Certificate in Justice Policy (JS28)

**Award title:** Graduate Certificate in Justice Policy

**CRICOS code:** Not required

**Location:** Kelvin Grove and External

**Course duration (part-time):** 1 year multimodal or external

**Course duration (external):** 1 year

**Total credit points:** 48

**Course coordinator:** Dr Belinda Carpenter

**Discipline coordinator:** Dr Sharon Hayes

### Entry Requirements

An appropriate undergraduate degree from a recognised tertiary institution or professional experience that the Course Coordinator deems to be appropriate.

### Articulation to Master of Justice

A student, who has successfully completed the Graduate Certificate in Justice Policy with a GPA of 5.0 or better, may articulate to the Master of Justice (Justice Policy) and receive credit for their specialist area study of 48 credit points.

### Part time/External Course Structure

#### Semester 1

JSP151	Policy, Governance and Justice
JSP152	Administrative Justice

#### Semester 2

JSP153	Watchdogs: Warriors, Wimps and Witch-hunts
JSP154	Human Rights and Global Justice

## ■ Graduate Certificate in Law (LW60)

**Award title:** Graduate Certificate in Law (Study Area A)

**CRICOS code:** 027286C

**Location:** Gardens Point

**Course duration (full-time):** 1 semester (Generic course and select majors only)

**Course duration (part-time):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course duration (full-time):** 4 Years

**Course duration (part-time):** 6 Years

**Course duration (external):** 6 Years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Director, Undergraduate Programs

### Distance Education (External) Special Entry Requirements

Entry to the distance education (external) mode of the course is restricted to applicants who reside in Australia outside a 30km radius of the Gardens Point Campus. Preference for entry to the distance education course may be given to applicants who have been offered five year articles of clerkship by a solicitor or who are employed by a Magistrates Court or the Justice Department and undertake legal functions in their work.

### Other Course Requirements

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the student's responsibility to ensure they have access to a suitable law library.

### Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Solicitors Admission Rules and Barristers

Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

### Full-time Course Structure

#### Year 1, Semester 1

## OVERVIEW

The Faculty of Science seeks to provide graduates with interesting and rewarding careers.

Fully equipped scientific and computing laboratories and state-of-the-art lecture theatres assist in the practical delivery of innovative teaching programs.

The Deans Scholars Accelerated Honours Program for high achieving students fast tracks science studies while workplace learning links with industry provide students with the opportunity to earn a salary while progressing through their degree.

Double degree options are available as part of a flexible program of academic studies.

The Faculty offers a range of courses within its four multi-disciplinary schools: School of Life Sciences, School of Mathematical Sciences, School of Natural Resource Sciences and School of Physical and Chemical Sciences.

Science education in the Faculty is further enriched by a number of research programs which come under the control of the Science Research Centre.

The School of Life Sciences offers studies in courses focused on biomedical and medical sciences, biotechnology, microbiology, and biochemistry. The School enjoys close working relationships with industry which, in turn, help to provide students with a "hands-on" approach to all of its courses.

The School of Mathematical Sciences offers studies in applied mathematics, mathematical finance, applied statistics, scientific computation and visualisation, and operations research. There is an emphasis on the applications of mathematics and many of the units are enriched by examples from business and industry.

The School of Natural Resource Sciences offers major studies in environmental science, ecology and geoscience, complemented with the co-majors in biodiversity, and applied geology.

The first year of the Applied Science course is offered at the Carseldine campus as well as at Gardens Point.

The School of Physical and Chemical Sciences offers majors in both Physics and Chemistry with co-majors in astrophysics, applied physics, forensic science and industrial chemistry. Forensic science can also be taken as a double major with chemistry or biotechnology. The School also offers courses in medical imaging technology and radiotherapy technology, leading to careers in diagnostic and therapeutic radiography.

## SENIOR STAFF

### Faculty office

**Dean:** Professor G. George, BSc (Hons) PhD *Qld*, CChem, FRACI

**Director of Research:** Professor J.L. Dale, BScAgr PhD *Syd*

**Director of Postgraduate Studies:** Associate Professor P.M. Fredericks, BSc (Hons) DPhil *Sus*, CChem, FRACI

**Director of Academic Programs:** Associate Professor B.H. Cornish, DipT BAppSc MAppSc (MedPhys) GradDipBusAdmin PhD *QUT*, MACPSEM, MAIP

**Faculty Administration Manager:** S.Bee, BSc GradDipAdmin Griff, JP (Qual)

### School of Life Sciences

**Head:** Professor A.C. Herington, BSc (Hons) PhD *Monash*

**Professors:**

J.A. Clements, BAppSc MAppSc *RMIT*, PhD *Monash*  
P. Timms, MSc PhD *Qld*, FASM

**Associate Professors:**

C.C. Collet, BSc (Hons), PhD *Latrobe*

R.M. Harding, BSc (Hons), PhD *Qld*

C.P. Morris, BSc (Hons) PhD *Adel*

Z. Upton, BSc (Hons), PhD *Adel*

### School of Mathematical Sciences

**Head:** Professor A.N. Pettitt, BSc (Hons) MSc PhD *Nott*, FSS, MSSAI

**Professors:**

V.V. Anh, BSc (Hons) PhD *Tas*, MEc *NE*, FAustMS, MSSAI, MIEEE

H. MacGillivray, BSc (Hons) PhD *Qld*, MSSAI

D.L.S. McElwain, BSc (Hons) *Qld*, PhD *York (Canada)*

K. Mengersen, BA (Hons) PhD *NE*, FRSS, MSSAI, MIMS, MIBS

**Associate Professor:** E.Kozan, BSc, MSc *Middle East*, PhD *Hacettepe*, MASOR

### School of Natural Resource Sciences

**Head:** Associate Professor D.A. Gust, BA *Lawrence*, MA *Rice*, PhD *ANU*

**Associate Professor:** P.B. Mather, BSc (Hons) PhD *Lot*

### School of Physical and Chemical Sciences

**Head:** Professor J.M. Pope, BSc (Hons) MSc *Brist*, DPhil *Sus*, FAIP

**Professor:** L. Morawska, MSc (Physics) PhD (Physics) *Jagiellonian*

**Associate Professors:**

B.H. Cornish, DipT BAppSc MAppSc (MedPhys)

GradDipBusAdmin PhD *QUT*, MACPSEM, MAIP

P.M. Fredericks, BSc (Hons) DPhil *Sus*, CChem, FRACI

R.L.W. Frost, BEd MSc PhD *Qld*

B.J. Thomas, BSc (Hons) PhD *WAust*, MAIP, FACPSEM

## RESEARCH CENTRES

### Science Research Centre

The Science Research Centre (SRC) provides an environment within which a variety of programs interact, developing new and innovative collaborations at the interface between disciplines. Our knowledge of nature is expanding at virtually an exponential rate and with this comes opportunities in complex areas requiring multi-disciplinary research teams. The SRC has been structured so as to capture opportunities in these multi-disciplinary projects, bringing together the expertise from different research programs to focus on a complex research problem.

The SRC has a broad range of programs which are grouped within four clusters: molecular biotechnology, physical and chemical sciences, natural resources and mathematical sciences. These clusters provide and maintain state of the art technology equipment and facilities; importantly, these facilities are shared across the SRC and are available to all programs giving researchers and research students access to the extensive range of equipment and technologies with the SRC.

### Research programs

Program Leader: Professor Judith Clements  
Phone: +61 7 3864 1899

**Synthesis and Molecular Recognition**

Program Leader: Dr Steven Bottle  
Phone: +61 7 3864 1356

**Cooperative Research Centre for Diagnostics**

Phone: +61 7 3864 1296

The CRC for Diagnostics (<http://diagnosticscrc.org>) based at QUT is a cooperative venture between research organisations (QUT, LaTrobe University, CSIRO and Child Health Research Institute) and Queensland Medical Laboratory. Centre participants are located in Queensland, Victoria and South Australia. Through effective technology transfer, outcomes will be: reduced health care costs through the better targeting of therapeutics, earlier diagnosis, and exploitation of genomics and proteomics information to allow greater specificity in diagnosis and treatment of an individual. Achievements to date include the multi-million dollar sale of a DNA detection method to Affymetrix (a large US biotechnology company) and the formation in 2002 of a new company, Evogenix, based in Melbourne. Other achievements include numerous patented DNA detection methods and diagnostic kits. Originally formed as the CRC for Diagnostic Technologies in 1995, this \$80 million centre was re-funded as a new centre in 2001 and is jointly funded by the participants and the Commonwealth and State Governments.

**Research programs**

- Protein profiling: expression profiles for the diagnosis and monitoring of autoimmune diseases.
- High Affinity Reagents: identification of novel reagents and platforms for library construction.
- Genome Diagnostics: discovery of SNPs for human physical characteristics and disease.
- Infectious Disease Diagnostics: novel methods and reagents for improved detection.
- Homogenous Reporter Systems for one-step diagnostic assays.

## ■ Master of Applied Science (Medical Physics) (PH80)

**Award title:** Master of Applied Science (Medical Physics)

**CRICOS code:** 043548G

**Location:** Gardens Point

**Course duration (full-time):** 1.5 Years

**Course duration (part-time):** 3 Years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Brian J Thomas

**Discipline coordinator:** Dr Greg Michael

### Other Majors

See also the separate entry for the following major in this course:  
Master of Applied Science (Medical Ultrasound).

### Course Design

This degree consists of two stages. Stage 1 (which is equivalent to the Graduate Diploma - PH71) comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

In Stage 2 (Master of Applied Science - PH80) students undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution. Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

### Course Structure

**STAGE 1:** To complete Stage 1, students must complete units from the list below, totalling 96 credit points:

#### First Semester (February to June)

LSB142	Human Anatomy and Physiology
PCN113	Radiation Physics
PCN114	Microprocessors and Instrumentation
PCN211	Physics of Medical Imaging

#### Second Semester (July to October)

PCN112	Medical Imaging Science
PCN212	Radiotherapy Physics
PCN214	Health and Occupational Physics
PCN218	Research Methodology and Professional Studies

**STAGE 2:** (Project units in Stage 2 are offered in all semesters)

#### Project Over One Semester or Summer Program

PCN520	Project (Full-time)
--------	---------------------

#### Project Over Two Semesters

PCN540-1	Project (Part-time)
PCN540-2	Project (Part-time)

**Note:** A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, shall be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

### Mid-Year Entry Course Structure

#### First Semester (July to October)

PCN112	Medical Imaging Science
PCN212	Radiotherapy Physics
PCN214	Health and Occupational Physics
PCN218	Research Methodology and Professional Studies

#### Second Semester (February to June)

LSB142	Human Anatomy and Physiology
PCN113	Radiation Physics
PCN114	Microprocessors and Instrumentation
PCN211	Physics of Medical Imaging

## ■ Master of Applied Science (Medical Ultrasound) (PH80)

**Award title:** Master of Applied Science (Medical Ultrasound)

**Location:** Gardens Point

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Brian Thomas

**Discipline coordinator:** Lynette Hassall

### Other Majors

See also the separate entry for the following major in this course:  
Master of Applied Science (Medical Physics).

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive four to five week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

### Course Structure

**STAGE 1:** Students must complete the units listed below (total 96 credit points)

#### Semester 1

PCN159	Ultrasonic Examination 1
PCN162	Principles of Medical Ultrasound
PCN197-1	Clinical Attachment 1

#### Semester 2

PCN197-2	Clinical Attachment 1
PCN356	Ultrasonic Examinations 2

#### Semester 3

PCN297-1	Clinical Attachment 2
PCN355	Vascular Ultrasound
PCN357	Advanced Ultrasound Topics

#### Semester 4

PCN218	Research Methodology and Professional Studies
PCN297-1	Clinical Attachment 2

**Notes:** The PCN197 and PCN297 clinical attachment units are 2 semester units.

Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

### STAGE 2:

#### Project Over One Semester or Summer Program

PCN520	Project (Full-time)
--------	---------------------

#### Project Over Two Semesters

PCN540-1	Project (Part-time)
PCN540-2	Project (Part-time)

**Note:** A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, shall be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

## ■ Master of Applied Science (Research) (SC80)

**Award title:** Master of Applied Science

**CRICOS code:** 014020C

**Location:** Gardens Point

**Course duration (full-time):** 2 years

**Course duration (part-time):** 4 years

**Total credit points:** 192

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Peter Fredericks

**Discipline coordinator:** Dr Godwin Ayoko (Chemistry); Dr Terry Walsh (Life Sciences); Professor Vo Anh (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Associate Professor Brian J Thomas (Physics)

### Entry Requirement

Applicants must possess a bachelor of applied science or equivalent qualification or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

### Course Design

This degree consists of coursework that can comprise up to one-third of the course and research, which must be at least two-thirds of the course. The assessed coursework may be in the form of advanced lectures, seminars, reading courses, or independent study designed to focus on information retrieval skills. The research component is a program of supervised research and investigation at a level of scientific competence significantly higher than that expected from an undergraduate degree and, typically, a masters thesis does not need to be as substantial as a Doctor of Philosophy thesis.

Students undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

Students entering the course with an honours degree or its equivalent to candidates with substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

Students entering the course with a graduate diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

A full-time candidate who does not hold an honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

A holder of an honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

### 1. General Conditions

1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act 1988.

1.2 The Council's power to approve recommendations from faculty academic boards regarding the registration, supervision and examination of research degree candidates and to develop policy and procedure relating to research degrees is exercised

through a Research Management Committee which shall be a subcommittee of University Academic Board.

1.3 Research Management Committee has delegated responsibility for day-to-day administration of research masters degree courses to faculty academic boards. Academic boards shall report semi-annually to the Research

Management Committee on progress made by research masters degree candidates.

1.4 Unless the context otherwise indicates or requires, the words academic board and faculty shall refer to the faculty in which the candidate registers.

1.5 In order to qualify for the award of the degree of Master of Applied Science, a candidate must:

- have completed the approved course of study under the supervision prescribed by the Academic Board
- have submitted, and the Academic Board have accepted, a thesis prepared under the supervision of the supervisor
- have completed any other work prescribed by the Academic Board, and submit to the Academic Board a declaration signed by the candidate that he/she has not been a candidate for another tertiary award without permission of the Academic Board during the term of enrolment.

### 2. Registration

2.1 Applications shall be accepted subject to the availability of facilities and supervision.

2.2 Applications may be lodged with the Registrar at any time.

2.3 The minimum academic qualifications for admission to a program leading to a Master of Applied Science shall be:

- possession of a bachelor degree in applied science from the Queensland University of Technology, or
- possession of an equivalent qualification, or
- submission of such other evidence of qualifications as will satisfy the Academic Board that the applicant possesses the capacity to pursue the course of study.

2.4 Additional requirements for admission to a particular program may be laid down by the Academic Board.

2.5 In considering an applicant for registration the Academic Board shall, in addition to assessing the applicants suitability, assess the proposed program and its relevance to the aims and objectives of the University.

2.6 A candidate may register either as a full-time or as a part-time student.

2.6.1 To be registered as a full-time student, a candidate must be able to commit to the course not less than three-quarters of a normal working week, averaged over each year of candidacy. Such a student may not devote more than 300 hours annually to teaching activities, including preparation and marking.

2.6.2 A candidate who is unable to devote to the course the proportion of time specified in section 2.6.1 may register as a part-time student.

2.7 A candidate may be internal or external. An external candidate is one whose program of research and investigation is based at a place of employment or sponsoring institution. Normally, support of the sponsoring institution for the candidates application is required for a registration.

2.8 The Academic Board may cancel a candidates registration if, after consulting a candidates supervisors and having taken account of all relevant circumstances, the Academic Board is of the opinion that the candidate either has effectively discontinued his/her studies or has no reasonable expectation of completing the course of study within the maximum time allowed (see section 4).

2.9 A candidate whose registration has lapsed or has been cancelled and who wishes subsequently to re-enter the course to undertake a program which is the same or essentially the same as

the previous program may be re-admitted under such conditions as the Academic Board may prescribe.

### 3. Course of Study

3.1 A candidate for the degree of Master of Applied Science shall undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

3.2 The program must be such as to enable the candidate to develop and demonstrate a level of scientific competence significantly higher than that expected of a first degree graduate. The required competence normally would include mastery of relevant techniques, investigatory skills, critical thinking, and a high level of knowledge in the specialist area.

3.3 The program includes both coursework and research.

The coursework is a program of up to 64 credit points as defined in sections 3.5 and 3.6 as appropriate for each candidate.

The research component is a program of supervised research and investigation of at least 128 credit points as described in 3.1 and 3.2.

3.4 The students progress will be monitored continually throughout the first 96 credit points of the course. Where the School Research Committee, on the advice of the supervisors, is of the opinion that progress is not satisfactory, the student will be advised to consider transferring his/her enrolment to the SC71 Graduate Diploma in Applied Science course.

3.5 Coursework at masters level may be conducted in a number of ways such as:

- advanced lecture courses
- seminars in which faculty and students present critical studies of selected problems within the subject field
- independent study or reading courses

In all cases, coursework is based upon a formal syllabus setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed reading material and the method of assessment of progress through and at the end of the course.

3.6 A candidate shall be required to participate in and present seminars as considered appropriate by the Principal Supervisor. The candidate shall be notified of minimum attendance requirements at the time of acceptance of enrolments.

3.7 Students entering the course with an Honours degree or its equivalent or candidates with substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

3.8 Students entering the course with a Graduate Diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

3.9 An application for registration should set out the candidates intended course of study in broad outline but with specific objectives for the first year. The description should include the area of study within which the candidates course lies, the coursework to be undertaken and the proposed title of the thesis to be written.

At an appropriate time during the first year of full-time study or its equivalent the candidate must document and have approved by Academic Board on the recommendation of the Head of School a detailed course of study for the entire program. This description must include in addition to the proposed thesis title, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

### 4. Period of Time for Completion of Course of Study

4.1 A full-time candidate who does not hold an Honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

4.2 A holder of an Honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

4.3 Where application is made for permission to extend the period within which the candidate may submit a thesis for examination, details of the candidates progress shall be presented to the Academic Board together with the reasons for the delay in completing the work and the expected date of completion. Where the Academic Board agrees to an extension, it may set a limit to the maximum period of registration in the program.

### 5. Transfer of Registration

5.1 Where a candidate has undertaken part of a proposed course of study as a registered student in another institution, this period of registration may, on application in writing to the Academic Board at the time of application for registration, be counted towards the candidates period of registration in the QUT course. The application must include details of the work already undertaken, the reasons for the transfer and the expected date of completion.

5.2 Applications for transfer normally should be submitted at least 12 months in advance of the probable date of submission of the thesis.

### 6. Supervision

6.1 For each candidate the Academic Board shall appoint one or more supervisors with appropriate experience provided that, where more than one supervisor is appointed, one shall be nominated as the Principal Supervisor and the others as Associate Supervisors.

6.2 In the case of an internal student, the Principal Supervisor normally shall be from the academic staff of the school where the student carries out the work.

6.3 In the case of an external student, the Principal Supervisor normally shall be from the academic staff of the school supporting the work and at least one Associate Supervisor shall be from the sponsoring organisation.

6.4 At the end of each six-month period a student shall submit a report on the work undertaken to the Principal Supervisor and the Principal Supervisor shall submit a report to the Academic Board on the students work. This report shall be seen by the candidate before submission to the Academic Board.

### 7. Place and Conditions of Work

7.1 The research program is carried out under supervision in a suitable environment normally in Australia.

7.2 The Academic Board shall not admit a candidate to undertake a program of research based at the University unless it has received a statement from the Head of School in which the study is proposed that, in their opinion, the applicant is a fit person to undertake a research program leading to the masters degree, that the program is supported, and that the school/centre is willing to undertake the responsibility of supervising the applicants work.

7.3 The Academic Board shall not admit a candidate to undertake a research program based at a sponsoring establishment unless it has received:

- a statement from the employer or director of the sponsoring institution that the applicant will be provided with facilities to

undertake the research project and that they are willing to accept responsibility for supervising the applicants work, and

- a statement from the Head of School or the Director of the Centre in which the study is proposed that, in their opinion, the applicant is a fit person to undertake a research program leading to the masters degree, that the program is supported, and that after examination of the proposed external facilities and supervision, the school is willing to accept the responsibility of supervising the work.

## 8. Thesis

8.1 In the form of presentation, availability and copyright, the thesis shall comply with the provisions of the document Requirements for Presenting Theses.

8.2 The candidates application for registration should set out the intended course of study in broad outline but with specific objectives for the first year. The description should include the area of study within which the candidates course lies, the coursework to be undertaken and the proposed title of the thesis to be written.

At an appropriate time during the first year of full-time study or its equivalent the candidate must document and have approved by Academic Board on the recommendation of the relevant Head of School a detailed course of study for the entire program. This description must include in addition to the proposed thesis title, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

The candidate shall give two months notice of intention to submit the thesis. Such notice shall be accompanied by the appropriate fee, if any.

8.3 The thesis shall comply with the following requirements:

- a significant portion of the work described must have been carried out subsequent to initial registration for the degree.
- it must describe a program of work carried out by the candidate, and must involve either an original contribution to knowledge or an original application of existing knowledge.
- it must reach a satisfactory standard of literary presentation.
- it shall be the candidates own account of the work. Where work is carried out jointly with other persons, the Academic Board shall be advised of the extent of the candidates contribution to the joint work.
- the thesis shall not contain as its main content any work or material which the student has previously submitted for another degree or similar award.
- supporting documents, such as published papers, may be submitted with the thesis if they have a bearing on the subject of the thesis.
- the thesis shall contain an abstract of not more than 300 words.

8.4 Except with the specific permission of the Academic Board, the thesis must be presented in the English language. Such permission must be sought at the time of application for registration, and will not be granted solely on the grounds that the candidates ability to satisfy the examiners will be affected adversely by the requirement to present the thesis in English.

8.5 Subject to QUT's Intellectual Property policy, the copyright of the thesis is vested in the candidate.

8.6 Where a candidate or the sponsoring establishment wishes the thesis to remain confidential for a period of time after completion of the work, application for approval must be made to the Academic Board when the thesis is submitted. The period of confidentiality normally shall not exceed two years from the date on which the examiners recommend acceptance of the thesis, during which time the thesis will be held on restricted access in the QUT Library.

## 9. Examination of Thesis

9.1 The Academic Board shall appoint at least two examiners, of whom at least one shall be from outside the University. Normally examiners will be required to agree to read and report upon the thesis within two months of its receipt.

9.2 A candidate may be required to make an oral defence of the thesis.

9.3 On receipt of satisfactory reports from the examiners, and when the provisions of 7.1 have been fulfilled, the Academic Board shall recommend to University Academic Board that the candidate be awarded the degree.

9.4 If the examiners reports are conflicting, the Academic Board may, after appropriate consultation with the Principal Supervisor, seek advice from a further external examiner.

9.5 If, on the basis of the examiners reports, the Academic Board does not recommend that the degree be awarded, then it shall:

- permit the student to resubmit the thesis within one year for re-examination, or
- cancel the students registration.

If a candidate is required to revise and resubmit a thesis, the examiners reports will be made available to the candidate, the anonymity of the examiners being maintained.

9.6 After the examination process is complete, examiners reports are to be made available to the candidate on request. The names of examiners will be released on request providing the examiner has indicated willingness to have his/her identity revealed to the candidate.

## Coursework

The unit IFN001 Advanced Information Retrieval Skills (4 credit points) should normally be included.

The coursework units for individual strands are as follows. All the units shown are units designed for this course. Selections from other courses may be approved.

## Course Structure

### Chemistry Strand

PCN701	Topics in Advanced Chemistry 1
PCN705-1	Research Methodology
PCN801	Topics in Advanced Chemistry 2
Select two of the following Electives Units:	
PCN710	Chemical Instrumentation
PCN720	Chemometrics
PCN730	Advanced Physical Methods in Chemistry
PCN740	Laboratory Techniques for Preparative Chemistry

### Ecology, Environmental Science & Geoscience Strands

Essential units:	
NRN100	Readings in Natural Resource Sciences 1
NRN102	Seminars in Natural Resource Sciences 1
NRN103	Seminars in Natural Resource Sciences 2
Select up to two of the following units if required:	
NRN101	Readings in Natural Resource Sciences 2
NRN104	Advanced Topics in Natural Resource Sciences 1
NRN105	Advanced Topics in Natural Resource Sciences 2

### Life Science Strand

LSN011	Research Seminars in Life Science 1
LSN013	Readings in Life Science 3
LSN023	Research Seminars in Life Science 3

### Mathematics Strand

Selections from other School programs, such as MA75 Graduate Diploma in Mathematical Science and MA85 Master of Mathematical Science, to a maximum of 60 credit points

### Physics Strand

PCN715	Advanced Topics in Physics 1
PCN716	Advanced Topics In Physics 2
and/or alternative unit(s) approved by the Physics coordinator	

## Research Work

The Research Work component of the degree must constitute at least 128 credit points. The units below have been devised to represent the EFTSU (Effective Full-time Student Unit) and attendance type of graduate research students.

## Full-time Students

The minimum number of credit points per semester for full-time status is 36. The standard number is 48. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to the degree rules.

## Full-time Course Structure

Full-time students undertaking research but no coursework units enrol in IFN100 Full-Time Masters Research

Full-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 48 credit points per semester.

IFN300	Masters Research (36 credit points)
IFN301	Masters Research (24 credit points)
IFN302	Masters Research (12 credit points)
IFN303	Masters Research (8 credit points)
IFN304	Masters Research (6 credit points)

## Part-time Students

The maximum number of credit points per semester for part-time status is 36. The standard number is 24. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to degree rules.

## Part-time Course Structure

Part-time students undertaking research but no coursework units enrol in: IFN200 Part-Time Masters Research

Part-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 24 credit points:

IFN302	Masters Research (12 credit points)
IFN303	Masters Research (8 credit points)
IFN304	Masters Research (6 credit points)

## ■ Master of Biotechnology (LS80)

**Award title:** Master of Applied Science (Life Science)

**CRICOS code:** 018479B

**Location:** Gardens Point

**Course duration (full-time):** 1.5 years

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Mark O'Brien

## Special Entry Requirements

### *Master of Biotechnology Research Project Component*

Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available.

If students do not undertake a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. Please contact the course coordinator for further information and assistance in this regard.

## Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

## Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest in biotechnology.

The course consists of two stages: Stage 1 (Graduate Diploma in Biotechnology - LS70) and Stage 2 (Master of Biotechnology - LS80).

The Graduate Diploma in Biotechnology comprises 96 credit points of assessed coursework in medical, plant and/or general biotechnology. Students can graduate with a Graduate Diploma in Biotechnology after successfully completing Stage 1. Students commencing in July enrol in semester two units first. Credit will not be given for any units already taken within an undergraduate degree, as students are expected to undertake a program of study that extends the coursework studied within an undergraduate degree.

In Stage 2, the Master of Biotechnology - LS80, students may undertake a supervised research project either at QUT or in the workplace. Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available.

If students do not undertake a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. Please contact the course coordinator for further information and assistance in this regard.

## Full-time Course Structure

### *Year 1, Semester 1*

LSP127	Business Aspects of Biotechnology
	Either
LSB509	Medical Biotechnology
	Or
LSB577	Plant Biotechnology 1
	In consultation with the course coordinator, choose 24 credit points from the following units:
LSB537	Genetic Engineering
LSB509	Medical Biotechnology
LSB577	Plant Biotechnology 1
LSB850-1	Research Strategies
JSN014	Law, Justice and New Genetic Technologies
HHB270	Gene Technology And Ethics
IBN408	Global Business Operations
MAB523	Introduction to Quality Management
GSN408	Fundamentals of Marketing Management
GSN418	Marketing Strategy Development
	Students who qualify for an exemption from LSB509 or LSB577 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

### *Year 1, Semester 2*

BSB311	Research, Development and Commercialisation Strategies, either
	LSB609 Medical Biotechnology 2, or
LSB677	Plant Biotechnology 2
	In consultation with the course coordinator, choose 24 credit points from the following units:
LSB619	Genomics & Bioinformatics
LSB609	Medical Biotechnology 2
LSB677	Plant Biotechnology 2
LSB850-1	Research Strategies
LSB607	Protein Purification

MGN409	Introduction to Management
GSN408	Fundamentals of Marketing Management
GSN418	Marketing Strategy Development
MGN428	Managing New Businesses
Students who qualify for an exemption from LSB609 or LSB677 on the basis of undergraduate studies are required to undertake an additional unit from the list above.	

**Year 2, Semester 1**

LSN710 Project  
Please note: Students who will NOT be undertaking a research project choose 48 credit points from the following units in consultation with the course coordinator. No credit will be given for any units already taken within an undergraduate degree. You are expected to undertake a program of study that extends the coursework within your undergraduate degree.

LSB509	Medical Biotechnology
LSB577	Plant Biotechnology 1
LSB537	Genetic Engineering
LSB850-1	Research Strategies
JSN014	Law, Justice and New Genetic Technologies
LSN160	Epidemiology for Life Scientists
HHB270	Gene Technology And Ethics
IBN408	Global Business Operations
MAB523	Introduction to Quality Management
GSN408	Fundamentals of Marketing Management
GSN418	Marketing Strategy Development
Students who qualify for an exemption from LSB509 or LSB577 on the basis of undergraduate studies are required to undertake an additional unit from the list above.	

**Part-time Course Structure****Year 1, Semester 1**

LSP127	Business Aspects of Biotechnology
Either	
LSB509	Medical Biotechnology
Or	
LSB577	Plant Biotechnology 1

**Year 1, Semester 2**

BSB311	Research, Development and Commercialisation Strategies
Either	
LSB609	Medical Biotechnology 2
Or	
LSB677	Plant Biotechnology 2

**Year 2, Semester 1**

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 1 in the above full-time course

**Year 2, Semester 2**

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 2 in the above full-time course

**Year 3, Semester 1**

LSN711 Project 1  
For those students who will not be undertaking a research project, in consultation with the course coordinator, select 24 credit points under Year 1 Semester 1 in the above full-time course

**Year 3, Semester 2**

LSN712 Project 2  
For those students who will not be undertaking a research project, in consultation with the course coordinator, select 24 credit points under Year 1 Semester 2 in the above full-time course

**■ Master of Cardiac Ultrasound (PH85)**

**Award title:** Master of Cardiac Ultrasound

**Location:** Gardens Point

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Bonita Anderson

**Professional Recognition**

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

**Course Design**

This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound

experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

**Course Structure**

**STAGE 1:** To complete Stage 1, students must complete the units listed below (total 96 credit points):

**First Semester**

LSN259	Cardiac Anatomy, Embryology and Pathology
PCN162	Principles of Medical Ultrasound
PCN497-1	Clinical Attachment 4

**Second Semester**

PCN259	Cardiac Ultrasound 1
PCN497-2	Clinical Attachment 4

**Third Semester**

PCN218	Research Methodology and Professional Studies
PCN359	Cardiac Ultrasound 2
PCN597-1	Clinical Attachment 5

**Fourth Semester**

PCN459	Advanced Cardiac Ultrasound
PCN597-2	Clinical Attachment 5

**Note:** The PCN497 and PCN597 clinical attachment units are 2 semester units.

**STAGE 2:** \*To complete Stage 2, students must complete the units listed below (48 credit points):

**First Semester \*\* (Project Over Two Semesters)**

PCN640-1	Project
PCN640-2	Project

**Notes:** A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months should be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, shall be made to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit.

A student who has received a 'Fail' result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

\*Masters project units are offered in both semesters.

\*\*Second Semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.

2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester#

# Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

**■ Master of Lighting (PH82)**

**Award title:** Master of Lighting

**Location:** Gardens Point

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Ian Cowling

**Entry Requirements**

Bachelor of Applied Science degree (or equivalent) in an appropriate field of science, engineering, architecture and demonstrated advanced experience (minimum 2 years) in the lighting industry, or successful completion of PH72 Graduate Diploma of Lighting or equivalent.

### Course Design

Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

### Course Structure

#### First Semester (July to October)

PCN121 Vision Colour and Photometry

PCN124 Lamps and Luminaires

#### Second Semester (February to June)

PCN122 Lighting Design

PCN123 Sustainability and Human Factors

#### Third Semester (July to October)

PCN223 Lighting Applications

Elective - One unit from:

MEN272 Enterprise Resource Planning

PCN222 Advanced Lighting Design

PCN224 Lighting Project 1

#### Fourth Semester (February to June)

PCN221 Best Practices in Lighting

Elective - One unit from:

CNP520 Project Management

CNP521 Project Cost and Risk Management

MEN177 Total Quality Management

PCN224 Lighting Project 1

#### Fifth Semester (July to October)

PCN321 Reading Topic 1

Or approved elective

PCN322 Reading Topic 2

Or approved elective

#### Six Semester (February to June)

PCN320 Lighting Project

**Note:** Year 3 of the Master of Lighting may also be taken full-time.

Electives in the Master of Lighting can be taken from any relevant units within the University, and must be approved by the Course Coordinator.

## ■ Master of Mathematical Science (MA85)

**Award title:** Master of Mathematical Science

**CRICOS code:** 046042K

**Location:** Gardens Point

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 3 years

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Professor Vo Anh

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

For the Masters program, at least 36 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 48 credit points from project units.

### Course Structure

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200 Mathematical Foundations

MAN201 Mathematics

MAN700 Project

MAN717 Minor Project

MAN787-1 Project

MAN787-2 Project

MAN787-3 Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

### Strand Information

The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The prerequisite units are given as a guide. Depending on a student's background, they may have already covered some of the units listed (or equivalent units) in their undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

#### Mathematical Modelling/Applied Mathematics

Postgraduate Mathematics Units:

MAN761 Analysis

MAN762 Field Theory

MAN764 Applied Mathematical Modelling

MAN774 Perturbation Methods

Prerequisite Units:

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB311 Advanced Calculus

MAB312 Linear Algebra

MAB413 Differential Equations

MAB422 Mathematical Modelling

MAB521 Applied Mathematics 3

MAB613 Partial Differential Equations

MAB672 Advanced Mathematical Modelling

#### Computational Mathematics

Postgraduate Mathematics Unit:

MAN771 Computational Mathematics 4

Prerequisite Units:

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB220 Computational Mathematics 1

MAB311 Advanced Calculus

MAB312 Linear Algebra

MAB420 Computational Mathematics 2

MAB522 Computational Mathematics 3

**Note:** MAB480 Introduction to Scientific Computation or ITN600 Programming Principles or ITB111 Software Development 1 or knowledge of programming is required.

#### Discrete Mathematics

Postgraduate Mathematics Unit:

MAN778 Applications of Discrete Mathematics

Prerequisite Units:

MAB112 Mathematical Sciences 1C

MAB621 Discrete Mathematics

#### Statistics/Statistical Modelling

Postgraduate Mathematics Units:

MAN526 Time Series Analysis

MAN624 Applied Statistics

MAN765 Bayesian Data Analysis

MAN766 Applied Time Series Analysis

MAN775 Statistical Modelling of Financial Processes

Prerequisite Units:

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB210 Statistical Modelling 1

MAB314 Statistical Modelling 2

MAB414 Applied Statistics 2

MAB524 Statistical Inference

#### Quantitative Analysis/Financial Mathematics

Postgraduate Mathematics Units:

MAN526 Time Series Analysis

MAN624 Applied Statistics

MAN765 Bayesian Data Analysis

MAN766 Applied Time Series Analysis

MAN769 Mathematics of Finance

MAN775	Statistical Modelling of Financial Processes
Prerequisite Units:	
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB524	Statistical Inference
MAB623	Financial Mathematics

**Operations Research**

Postgraduate Mathematics Units:	
MAN768	Advanced Techniques in Operations Research
Prerequisite Units:	
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB315	Operations Research 2
MAB525	Operations Research 3A
MAB625	Operations Research 3B

**Scientific Computation and Visualisation**

MAN681	Advanced Visualisation and Data Analysis
Prerequisite Mathematics Units:	
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB480	Introduction to Scientific Computation
MAB481	Visualisation and Data Analysis
MAB580	Scientific Computation

**Mathematics for Secondary Teaching**

Postgraduate mathematics units:	
MAN700	Project
Plus at least one other postgraduate mathematics unit (or other combination to give at least 36 credit points from appropriate postgraduate mathematics units)	
Other mathematics units:	
Students would usually select across a range of areas of mathematics and statistics	
Non-mathematics units:	
Students can select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics	

## ■ Graduate Diploma in Applied Science (SC71)

**Award title:** Graduate Diploma in Applied Science

**CRICOS code:** 020314E

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Peter Fredericks

**Discipline coordinator:** Dr Godwin Ayoko (Chemistry); Dr Mark O'Brien (Life Science); Professor Vo Anh (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Associate Professor Brian Thomas (Physics)

**Entry Requirements**

Applicants must possess a bachelor degree in applied science or equivalent qualification, or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

**Course Design**

This coursework program allows students to complete a minor project in some disciplines. The assessed coursework may include advanced lecture courses, seminars, reading courses or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of

Applied Science course, and may contain units from other postgraduate courses, the Bachelor of Applied Science (Honours) program or advanced undergraduate programs.

Candidates of the Graduate Diploma in Applied Science undertake a program of coursework, or coursework and a minor research project, as approved by the Academic Board on the advice of the Head of School.

Students must complete a total of 96 credit points which may consist of between 60 and 96 credit points of coursework, and up to 36 credit points as a minor research project.

Coursework units will be selected from the specific units available within the Master of Applied Science (PH80) course and may contain units selected from other postgraduate courses or advanced undergraduate courses where the background of the student requires this.

**Course Structure****Chemistry Strand**

PCN701	Topics in Advanced Chemistry 1
PCN705-1	Research Methodology
PCN710	Chemical Instrumentation
PCN720	Chemometrics
PCN730	Advanced Physical Methods in Chemistry
PCN740	Laboratory Techniques for Preparative Chemistry
PCN801	Topics in Advanced Chemistry 2

**Ecology, Environmental Science & Geoscience Strands**

NRN100	Readings in Natural Resource Sciences 1
NRN101	Readings in Natural Resource Sciences 2
NRN102	Seminars in Natural Resource Sciences 1
NRN104	Advanced Topics in Natural Resource Sciences 1
NRN105	Advanced Topics in Natural Resource Sciences 2
And units approved by the Strand Coordinator	

**Life Science Strand**

LSN011	Research Seminars in Life Science 1
LSN013	Readings in Life Science 3
LSN023	Research Seminars in Life Science 3

**Mathematics Strand**

Units selected from other programs, such as MA75 Graduate Diploma in Mathematical Science and MA85 Master of Mathematical Science, offered by the School of Mathematical Sciences and approved by the Mathematics coordinator.

**Physics Strand**

PCN715	Advanced Topics in Physics 1
PCN716	Advanced Topics In Physics 2
And/or alternative unit(s) approved by the Physics Coordinator	

## ■ Graduate Diploma in Applied Science (Medical Physics) (PH71)

**Award title:** Graduate Diploma in Applied Science (Medical Physics)

**CRICOS code:** 020315D

**Location:** Gardens Point

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Brian J Thomas

**Discipline coordinator:** Dr Greg Michael

**Course Design**

This degree comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

Students who have completed the Graduate Diploma may enter Stage 2 of the Master of Applied Science - PH80 where they

undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution.

### Course Structure

#### First Semester (February to June)

LSB142	Human Anatomy and Physiology
PCN113	Radiation Physics
PCN114	Microprocessors and Instrumentation
PCN211	Physics of Medical Imaging

#### Second Semester (July to October)

PCN112	Medical Imaging Science
PCN212	Radiotherapy Physics
PCN214	Health and Occupational Physics
PCN218	Research Methodology and Professional Studies

#### Mid-Year Entry Course Structure

##### First Semester (July to October)

PCN112	Medical Imaging Science
PCN212	Radiotherapy Physics
PCN214	Health and Occupational Physics
PCN218	Research Methodology and Professional Studies

##### Second Semester (February to June)

LSB142	Human Anatomy and Physiology
PCN113	Radiation Physics
PCN114	Microprocessors and Instrumentation
PCN211	Physics of Medical Imaging

## ■ Graduate Diploma in Applied Science (Medical Ultrasound) (PH71)

**Award title:** Graduate Diploma in Applied Science (Medical Ultrasound)

**Location:** Gardens Point

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Brian J Thomas

**Discipline coordinator:** Lynette Hassall

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive 4-5 week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

### Part-time Course Structure

**STAGE 1:** Students must complete the units listed below (total 96 credit points)

#### Semester 1

PCN159	Ultrasonic Examination 1
PCN162	Principles of Medical Ultrasound
PCN197-1	Clinical Attachment 1

#### Semester 2

PCN197-2	Clinical Attachment 1
PCN356	Ultrasonic Examinations 2

#### Semester 3

PCN297-1	Clinical Attachment 2
PCN355	Vascular Ultrasound
PCN357	Advanced Ultrasound Topics

#### Semester 4

PCN218	Research Methodology and Professional Studies
PCN297-1	Clinical Attachment 2

**Notes:** The PCN197 and PCN297 clinical attachment units are 2 semester units

Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

## ■ Graduate Diploma in Biotechnology (LS70)

**Award title:** Graduate Diploma in Biotechnology

**CRICOS code:** 016957B

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Mark O'Brien

### Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest in biotechnology.

The course consists of two stages: Stage 1 (Graduate Diploma in Biotechnology - LS70) and Stage 2 (Master of Biotechnology - LS80).

The Graduate Diploma in Biotechnology comprises 96 credit points of assessed coursework in medical, plant and/or general biotechnology. Students can graduate with a Graduate Diploma in Biotechnology after successfully completing Stage 1. Students commencing in July enrol in semester two units first. Credit will not be given for any units already taken within an undergraduate degree, as students are expected to undertake a program of study that extends the coursework studied within an undergraduate degree.

In Stage 2, the Master of Biotechnology - LS80), students may undertake a supervised research project either at QUT or in the workplace. Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available.

If students do not undertake a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. Please contact the course coordinator for further information and assistance in this regard.

### Full-time Course Structure

#### Year 1, Semester 1

LSP127	Business Aspects of Biotechnology
	Either
LSB509	Medical Biotechnology
	Or
LSB577	Plant Biotechnology 1
	In consultation with the course coordinator, choose 24 credit points from the following units:
LSB537	Genetic Engineering
LSB509	Medical Biotechnology
LSB577	Plant Biotechnology 1
LSB850-1	Research Strategies
JSN014	Law, Justice and New Genetic Technologies
HHB270	Gene Technology And Ethics
IBN408	Global Business Operations
MAB523	Introduction to Quality Management
GSN408	Fundamentals of Marketing Management
GSN418	Marketing Strategy Development

Students who qualify for an exemption from LSB509 or LSB577 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

#### **Year 1, Semester 2**

- BSB311 Research, Development and Commercialisation Strategies  
Either
- LSB609 Medical Biotechnology 2  
Or
- LSB677 Plant Biotechnology 2  
In consultation with the course coordinator, choose 24 credit points from the following units:
- LSB619 Genomics & Bioinformatics  
LSB609 Medical Biotechnology 2  
LSB677 Plant Biotechnology 2  
LSB850-1 Research Strategies  
LSB607 Protein Purification  
MGN409 Introduction to Management  
GSN408 Fundamentals of Marketing Management  
GSN418 Marketing Strategy Development  
MGN428 Managing New Businesses

Students who qualify for an exemption from LSB609 or LSB677 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

#### **Part-time Course Structure**

##### **Year 1, Semester 1**

- LSP127 Business Aspects of Biotechnology  
Either
- LSB509 Medical Biotechnology  
Or

- LSB577 Plant Biotechnology 1

##### **Year 1, Semester 2**

- BSB311 Research, Development and Commercialisation Strategies  
Either
- LSB609 Medical Biotechnology 2  
Or
- LSB677 Plant Biotechnology 2

##### **Year 2, Semester 1**

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 1 in the above full-time course

##### **Year 2, Semester 2**

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 2 in the above full-time course

## **■ Graduate Diploma in Cardiac Ultrasound (PH75)**

**Award title:** Graduate Diploma in Cardiac Ultrasound

**Location:** Gardens Point

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Bonita Anderson

#### **Professional Recognition**

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

#### **Course Design**

This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

#### **Course Structure**

##### **First Semester**

- LSN259 Cardiac Anatomy, Embryology and Pathology  
PCN162 Principles of Medical Ultrasound  
PCN497-1 Clinical Attachment 4

##### **Second Semester**

- PCN259 Cardiac Ultrasound 1  
PCN497-2 Clinical Attachment 4

##### **Third Semester**

- PCN218 Research Methodology and Professional Studies  
PCN359 Cardiac Ultrasound 2  
PCN597-1 Clinical Attachment 5

##### **Fourth Semester**

- PCN459 Advanced Cardiac Ultrasound  
PCN597-2 Clinical Attachment 5

**Note:** The PCN497 and PCN597 clinical attachment units are 2 semester units.

## **■ Graduate Diploma in Lighting (PH72)**

**Award title:** Graduate Diploma in Lighting

**Location:** Gardens Point

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Ian Cowling

#### **Entry Requirements**

Bachelor of Applied Science degree (or equivalent) in an appropriate field of science, engineering, architecture and demonstrated advanced experience (minimum 2 years) in the lighting industry, or successful completion of PH62 Graduate Certificate of Lighting or equivalent.

#### **Course Design**

Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality Management.

#### **Course Structure**

##### **First Semester (July to October)**

- PCN121 Vision Colour and Photometry  
PCN124 Lamps and Luminaires

##### **Second Semester (February to June)**

- PCN122 Lighting Design  
PCN123 Sustainability and Human Factors

##### **Third Semester (July to October)**

- PCN223 Lighting Applications  
Elective - One unit from:  
MEN272 Enterprise Resource Planning  
PCN222 Advanced Lighting Design  
PCN224 Lighting Project 1

##### **Fourth Semester (February to June)**

- PCN221 Best Practices in Lighting  
Elective - One unit from:  
CNP520 Project Management  
CNP521 Project Cost and Risk Management  
MEN177 Total Quality Management  
PCN224 Lighting Project 1

**Note:** PCN224 is not available in Semester 2 if taken in Semester 1

## **■ Graduate Diploma in Mathematical Science (MA75)**

**Award title:** Graduate Diploma in Mathematical Science

**CRICOS code:** 046041M

**Location:** Gardens Point

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Professor Vo Anh

## Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Diploma, at least 24 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 36 credit points from project units.

## Course Structure

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only. The unit MAN700 Project can be used to satisfy the rule requiring at least 24 credit points from postgraduate mathematics units other than MAN200 and/or MAN201.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200	Mathematical Foundations
MAN201	Mathematics
MAN700	Project
MAN717	Minor Project
MAN787-1	Project
MAN787-2	Project
MAN787-3	Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

## Strand Information

The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The prerequisite units are given as a guide. Depending on a student's background, they may have already covered some of the units listed (or equivalent units) in their undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

### Mathematical Modelling/Applied Mathematics

	Postgraduate Mathematics Units:
MAN761	Analysis
MAN762	Field Theory
MAN764	Applied Mathematical Modelling
MAN774	Perturbation Methods

Prerequisite Units:

MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB413	Differential Equations
MAB422	Mathematical Modelling
MAB521	Applied Mathematics 3
MAB613	Partial Differential Equations
MAB672	Advanced Mathematical Modelling

### Computational Mathematics

	Postgraduate Mathematics Unit:
MAN771	Computational Mathematics 4

Prerequisite Units:

MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB220	Computational Mathematics 1
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB420	Computational Mathematics 2
MAB522	Computational Mathematics 3

Note: MAB480 Introduction to Scientific Computation or ITN600 Programming Principles or ITB111 Software Development 1 or knowledge of programming is required.

### Discrete Mathematics

	Postgraduate Mathematics Unit:
MAN778	Applications of Discrete Mathematics

Prerequisite Units:

MAB112	Mathematical Sciences 1C
MAB621	Discrete Mathematics

### Statistics/Statistical Modelling

	Postgraduate Mathematics Units:
MAN526	Time Series Analysis
MAN624	Applied Statistics
MAN765	Bayesian Data Analysis
MAN766	Applied Time Series Analysis
MAN775	Statistical Modelling of Financial Processes

Prerequisite Units:

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB314	Statistical Modelling 2
MAB414	Applied Statistics 2
MAB524	Statistical Inference

### Quantitative Analysis/Financial Mathematics

	Postgraduate Mathematics Units:
MAN526	Time Series Analysis
MAN624	Applied Statistics
MAN765	Bayesian Data Analysis
MAN766	Applied Time Series Analysis
MAN769	Mathematics of Finance
MAN775	Statistical Modelling of Financial Processes

Prerequisite Units:

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB524	Statistical Inference
MAB623	Financial Mathematics

### Operations Research

	Postgraduate Mathematics Units:
MAN768	Advanced Techniques in Operations Research

Prerequisite Units:

MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB315	Operations Research 2
MAB525	Operations Research 3A
MAB625	Operations Research 3B

### Scientific Computation and Visualisation

MAN681	Advanced Visualisation and Data Analysis
--------	--

Prerequisite Mathematics Units:

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB480	Introduction to Scientific Computation
MAB481	Visualisation and Data Analysis
MAB580	Scientific Computation

## Mathematics for Secondary Teaching

Postgraduate mathematics units:

MAN700	Project
--------	---------

Or other postgraduate mathematics units provided you are able to satisfy the prerequisites.

Other mathematics units:

Students would usually select across a range of areas of mathematics and statistics.

Non-mathematics units:

Students could select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics.

## ■ Graduate Diploma in Medical Science (Anatomical Pathology) (LS90)

**Award title:** Graduate Diploma in Medical Science (Study Area A)

**Location:** Gardens Point

**Course duration (part-time):** 2 years

**Total credit points:** 96

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Trevor Forster

### Course Structure

#### First Semester (January to February)

LSN220 Surgical Anatomy

LSN223-1 Surgical Grossing

#### Second Semester (March to June)

LSN221-1 Pathology

LSN223-2 Surgical Grossing

#### Third Semester (July to November)

LSN221-2 Pathology

LSN223-3 Surgical Grossing

#### Fourth Semester (January to February following year)

JSN014 Law, Justice and New Genetic Technologies

LSN223-4 Surgical Grossing

## ■ Graduate Certificate in Applied Science (Breast Ultrasound) (PH60)

**Award title:** Graduate Certificate in Applied Science (Breast Ultrasound)

**Location:** Gardens Point

**Course duration (part-time):** 1 year

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Brian J Thomas

**Discipline coordinator:** Lynette Hassall

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Structure

To complete the Graduate Certificate in Applied Science (Breast Ultrasound) students must complete the units listed below (total 48 credit points)

#### Semester 1

PCN162 Principles of Medical Ultrasound

PCN187 Specialist Studies

PCN397-1 Clinical Attachment 3

#### Semester 2

PCN184 Breast Imaging

PCN397-2 Clinical Attachment 3

Note: The PCN397 clinical attachment unit is a 2 semester unit.

## ■ Graduate Certificate in Lighting (PH62)

**Award title:** Graduate Certificate in Lighting

**Location:** Gardens Point

**Course duration (part-time):** 1 year

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Ian Cowling

### Entry Requirements

The graduate certificate program assumes some basic knowledge of both the art and science of lighting. To be eligible to enrol in the graduate certificate program an applicant will normally be expected to have completed a relevant undergraduate degree in architecture, engineering or science. Applicants without these qualifications, but working in some recognised area of lighting, may also be eligible to enrol in the graduate certificate program, but may be required to undertake appropriate bridging units prior to enrolment.

### Course Design

Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design and particularly lighting applications.

### Course Structure

#### First Semester (July to October)

PCN121 Vision Colour and Photometry

PCN124 Lamps and Luminaires

#### Second Semester (February to June)

PCN122 Lighting Design

PCN123 Sustainability and Human Factors

**Notes:** Semesters 1 and 2 as designated here refer to semesters through the course, where Semester 1 units are offered in Semester 2 of a calendar year

It is anticipated that PH62 will be offered in two formats in 2005.

Students may elect to undertake the course internally (as offered in 2004), comprising a lecture/tutorial/practical format. Each unit will be offered in block form on evenings and weekends over about a six week period.

Alternatively students may undertake the course on-line, where the majority of material, including assessment, is presented on the web. Study in each unit will still be contained within the same time frame as the internal students in that unit. There will also be a requirement for on-line students to attend QUT for up to 5 continuous days a semester for intensive practical and tutorial work.

## ■ Graduate Certificate in Mathematical Science (MA65)

**Award title:** Graduate Certificate in Mathematical Science

**CRICOS code:** 046044G

**Location:** Gardens Point

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 1 year

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Professor Vo Anh

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Certificate, at least 36 credit points must be taken from mathematics units and up to 12 credit points can be taken from units other than mathematics units.

### Course Structure

**The units selected may include:**

MAN200 Mathematical Foundations

MAN201 Mathematics

## ■ Bachelor of Applied Science (Honours) (SC60)

**Award title:** Bachelor of Applied Science (Honours) (Study Area A)

**CRICOS code:** 009041G

**Location:** Gardens Point

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Peter Fredericks

**Discipline coordinator:** Dr John Bartley (Chemistry); Dr Tony Clarke (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geology); Dr Terry Walsh (Life Science); Dr Troy Farrell (Mathematics); Associate Professor Brian Thomas (Physics)

## Entry Requirements

To be eligible for admission, students should have completed one of the Faculty's Bachelor of Applied Science degrees (CH32, LS36, LS37, MA34, SC01 or SC30) or equivalent and should have attained a grade point average (GPA) of at least 5 on a 7-point scale over that degree, including grades of at least 5 in all units directly relevant to the proposed honours program.

Application for admission should normally be made at the end of the pass degree, or within 18 months of completing that degree.

Applicants who do not satisfy the above conditions but who have demonstrated outstanding performance in only the final year of a degree, or whose application is based on other factors including work experience or involvement in research, may be admitted at the discretion of the Dean of Faculty.

Please note that for the Mathematics major, other degrees with major studies in Mathematics (including Engineering and Statistics) may provide suitable entry to the program.

## Professional Recognition

Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd; Australian Institute of Geoscientists; Australian Institute of Physics; Australian Mathematical Society; Australian Society for Biochemistry and Molecular Biology; Australian Society for Medical Research; Australian Society for Microbiology; Australian Society for Operations Research; Ecological Society of Australia; Geological Society of Australia; Royal Australian Chemical Institute; Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

## Course Structure

The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry. Majors are offered in Chemistry, Ecology, Environmental Science, Geology, Life Science, Mathematics and Physics.

## Chemistry

### Year 1, Semester 1

PCB700-1 Research Project  
PCB700-2 Research Project  
PCB742 Elective Unit  
PCB780-1 Advanced Topics in Chemistry 1

### Year 1, Semester 2

PCB700-3 Research Project  
PCB700-4 Research Project  
PCB700-5 Research Project  
PCB780-2 Advanced Topics in Chemistry 1

**Note:** Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

## Ecology, Environmental Science, Geology

### Year 1, Semester 1

NRB720-1 Project  
NRB730-1 Research Methods and Strategies  
NRB730-2 Research Methods and Strategies  
NRB735 Advanced Studies in Resource Sciences

### Year 1, Semester 2

NRB720-2 Project  
NRB720-3 Project  
NRB720-4 Project  
NRB720-5 Project

**Note:** Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

## Life Science

### Year 1, Semester 1

LSB850-1 Research Strategies  
LSB851-1 Readings in Life Science 1  
LSB852-1 Project

## Year 1, Semester 2

LSB850-2 Research Strategies  
LSB851-2 Readings in Life Science 1  
LSB852-2 Project

**Note:** Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

## Mathematics

### Year 1, Semester 1

MAN787-1 Project

36 credit points of elective units selected from the list below\*

### Year 1, Semester 2

MAN787-2 Project

MAN787-3 Project

24 credit points of elective units selected from the list below\*

### Elective List (Mathematics) - 60 credit points to be selected

MAN717 Minor Project  
MAN761 Analysis  
MAN762 Field Theory  
MAN764 Applied Mathematical Modelling  
MAN765 Bayesian Data Analysis  
MAN766 Applied Time Series Analysis  
MAN768 Advanced Techniques in Operations Research  
MAN769 Mathematics of Finance  
MAN771 Computational Mathematics 4  
MAN774 Perturbation Methods  
MAN775 Statistical Modelling of Financial Processes  
MAN778 Applications of Discrete Mathematics

Up to 12 credit points from the following lists can be included in the 60 credit points of electives:

MAB522 Computational Mathematics 3  
MAB524 Statistical Inference  
MAB526 Statistical Science 3  
MAB613 Partial Differential Equations  
MAB672 Advanced Mathematical Modelling  
Up to two units of a quantitative nature from another Faculty or School may be included with the permission of the Mathematics Coordinator.  
The unit(s) must be of honours level and relevant to the proposed program. Examples of suitable units are:  
EFN505 Financial Risk Management  
ITN682 Advanced Cryptology  
PCB706 Quantum Mechanics

\* The Course Coordinator may approve a student taking 24 credit points of elective units (together with MAN787-1 and MAN787-2) in Semester 1 and 36 credit points of elective units (together with MAN787-3) in Semester 2.

**Note:** Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

## Physics

### Year 1, Semester 1

PCB700-1 Research Project  
PCB700-2 Research Project  
PCB706 Quantum Mechanics  
Elective

**Note:** An alternative to PCB706 Quantum Mechanics may be permitted

### Year 1, Semester 2

PCB700-3 Research Project  
PCB700-4 Research Project  
PCB700-5 Research Project  
Elective

**Note:** Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Elective List (Physics)

PCB664 Lasers and Photonics  
PCB669 Astrophysics 2  
PCB708 Advanced Topics in Physics  
PCN716 Advanced Topics In Physics 2

**Note:** PCB708 and PCN716 typically comprise two components chosen from atmospheric aerosol physics, classical mechanics, non-linear optics, quantum electrodynamics, advanced general relativity or aspects of units from the Masters in Medical Physics course.

## ■ Bachelor of Applied Science and Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program (SC01 + SC60)

**CRICOS code:** 003502J

**Location:** Gardens Point

**Course duration (full-time):** 3 Years (plus initial summer term)

**Total credit points:** 384 [BAppSc 288 cp and BAppSc(Hons) 96 cp]

**Course coordinator:** Dr Neville Bofinger

**Discipline coordinator:** Associate Professor Rob Harding (Life Sciences - SCB501 only); Dr John Aaskov (Life Sciences - other units); Dr Graeme Pettet (Mathematics); Associate Professor David Gust (Natural Resource Sciences); Dr Dennis Arnold (Physical and Chemical Sciences - Chemistry); Dr Dmitri Gramotnev (Physical and Chemical Sciences - Physics)

### Professional Recognition

For graduates with approved study: Australian Society for Biochemistry and Molecular Biology, Australasian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Royal Australian Chemical Institute, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, Geological Society of Australia, Australian Mathematical Society, Australian Society for Operations Research, Statistical Society of Australia, Australian Society for Microbiology, Australian Institute of Physics.

### Course Design

This course is designed to allow Dean's Scholars to complete both the Bachelor of Applied Science and Bachelor of Applied Science (Honours) courses in an enriched and accelerated manner.

All of the majors and co-majors offered in the SC01 course are available within the Bachelor of Applied Science component of the Dean's Scholars Accelerated Honours Program. The majors available are: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Geoscience, Mathematics, Microbiology and Physics. Co-majors include: Applied Geology, Applied Physics, Astrophysics, Biodiversity, Biomolecular Sciences, Environmental Studies, Forensic Science, Scientific Computation and Visualisation, Statistics. In addition all of the majors offered in the Bachelor of Applied Science (Honours) course are available to Dean's Scholars. (Full details of the SC01 BAppSc and SC60 (Hons) courses are available under the separate entries for these programs.)

Dedicated Dean's Scholars units that facilitate the acceleration and provide enrichment are indicated below:

SCB301 Science for Dean's Scholars

SCB303 Tutorial Program for Dean's Scholars

(substituted by a mathematics unit for mathematics majors)

SCB401 Research Methods for Dean's Scholars (substituted by a mathematics unit for mathematics majors)

SCB501 Research Project for Dean's Scholars (optionally substituted by MAB640 Industry Project for Mathematics majors)

### Course Structure

#### Chemistry and Physics

##### Year 1, Summer Term (24 cp)

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

##### Year 1, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

##### Year 1, Semester 2 (60 cp)

Dean's Scholars Program enrichment unit: Elective (12 cp)  
Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

##### Year 2, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB401 Research Methods for Dean's Scholars  
(SCB401 Research Methods for Dean's Scholars may be replaced by an approved elective unit in the case of the Physics major)  
Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

##### Year 2, Semester 2 (60 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars  
Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (36 cp)

##### Year 3, Semester 1 (60 cp) and Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (24 cp + 36 cp respectively)  
Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

### Biochemistry, Biotechnology and Microbiology

##### Year 1, Summer Term (24 cp)

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

##### Year 1, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars  
Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

##### Year 1, Semester 2 (60 cp)

Dean's Scholars Program enrichment unit:

SCB401 Research Methods for Dean's Scholars  
Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

##### Year 2, Semester 1 (72 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars  
Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

##### Year 2, Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Normal BAppSc and BAppSc(Hons) unit:

LSB657 Perspectives in Life Science

##### Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (12cp + 36 cp respectively)  
Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

### Mathematics

##### Year 1, Summer Term (24 cp)

EITHER

Dean's Scholars Program enrichment unit (MS module + MA module + one of the PH, CH, and LS modules):

SCB301 Science for Dean's Scholars

OR

MAB101 Statistical Data Analysis 1

AND

MAB111 Mathematical Sciences 1B

##### Year 1, Semester 1 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

##### Year 1, Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

##### Year 2, Semester 1 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

##### Year 2, Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (36 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars

OR

MAB640 Industry Project

**Year 3, Semester 1 (60 cp) and Semester 2 (60 cp)**

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (24 cp + 60 cp respectively)  
Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (36 cp)

**■ Bachelor of Applied Science (SC01)**

**Award title:** Bachelor of Applied Science (Study Area A)

**CRICOS code:** 003502J

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 3 Years; Carseldine campus: After the completion of first year (ie 96 credit points of study), students must transfer to Gardens Point campus for the remainder of the course.

**Course duration (part-time):** 6 Years; Carseldine campus: After the completion of first year (ie 96 credit points of study), students must transfer to Gardens Point campus for the remainder of the course.

**Total credit points:** 288 (minimum)

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Megan Hargreaves

**Discipline coordinator:** Dr Peter Cooke (Biochemistry); Dr Ron Epping (Biotechnology); Dr Dennis Arnold (Chemistry); Dr Ian Williamson (Ecology); Graham Kimber (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gregg Webb (Geoscience); Dr Glenn Fulford (Mathematics); Dr Megan Hargreaves (Microbiology); Dr Esa Jaatinen (Physics)

**Professional Recognition**

For graduates with approved study: Australian Society for Biochemistry and Molecular Biology, Australasian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Royal Australian Chemical Institute, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, Geological Society of Australia, Australian Mathematical Society, Australian Society for Operations Research, Statistical Society of Australia, Australian Society for Microbiology, Australian Institute of Physics.

**Course Design**

The Bachelor of Applied Science course comprises a major and a co-major study area in second and third year, built on the secure foundation of core units studied in the first year. The major and co-major study areas (listed below) show the broad range of the Science program and the flexibility that students have in choosing their degree program. Students can also propose their own co-major studies, and the choice of major and co-major can be delayed until the completion of at least the students first semester of study.

In first semester, the core units are designed to broaden the students' experience of Science and the four unit studies will generally include at least three of the following:

- Life Science: an introduction to the study of life processes with cells and organisms as the central point of reference.
- Statistical Data Analysis: how to extract valid results from data collected.
- Environmental Science: incorporating the chemical, physical and biological processes that influence the development of the air, the earth and the atmosphere.
- Physical Science: involving the basic concepts of physics and chemistry.

**Science Majors:** Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Geoscience, Mathematics, Microbiology, Physics.

**Science Co-majors:** Applied Geology, Applied Physics, Astrophysics, Biodiversity, Biomolecular Sciences, Forensic

Science, Industrial Chemistry, Scientific Computation and Visualisation, Statistics.

**Examples of Non-Science Co-majors:** Accountancy, Aviation, Banking and Finance, Communication, Economics, Environmental Management, Environmental Studies, Human Resource Management, Marketing, Psychology.

**Course Rules**

1. To fulfil the requirements for the award of the Bachelor of Applied Science degree, a student must complete a total of at least 288 credit points, comprising at least 192 credit points in units offered by the Faculty of Science. The units completed for the award of the degree must include:

- (a) at least six faculty core units, including at least three foundation units, and three other first year science units
- (b) a major study
- (c) a co-major study (or group of units constituting 72 credit points at advanced level in any approved area of study in the University).

Major and co-major studies are defined in terms of the discipline area and the academic level at which the units are offered.

A *major* must be completed in one of the following discipline areas: biochemistry; biotechnology; chemistry; ecology; environmental science; geoscience; mathematics; microbiology; physics. A major comprises 96 credit points of units at advanced level, including at least 48 credit points at the third level.

A *co-major* may be completed by selecting appropriate units from another major, or from the following discipline areas: applied geology, applied physics, astrophysics, biodiversity, biomolecular science, environmental management, environmental science, forensic science, industrial chemistry, scientific computation and visualisation, statistics. A co-major comprises 72 credit points at advanced level. Alternatively, the co-major may be constituted by an approved group of units comprising 72 credit points at advanced level in any approved area of study in the university. Major and co-major studies may be taken in closely related discipline areas.

2. The maximum number of credit points that may be counted from units other than those at advanced level is 120 credit points.

3. Elective units may be chosen from (a) SCO1 majors/co-majors other than those undertaken by a student, (b) other appropriate units offered by the Faculty of Science, and (c) units offered by other faculties.

4. Students are normally expected to complete the course in minimum time. A full-time student normally enrolls in an average of 48 credit points per semester for six semesters and a part-time student normally enrolls in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)

5. All commencing and certain continuing students may attend scheduled academic advising sessions to plan their progression through the course, and should obtain the approval of an academic adviser prior to effecting any change of enrolment.

**Notes on the Rules**

1. For offerings in the Faculty of Science, the term advanced level refers to units in Schedules 2 and 3. For units offered outside the Faculty of Science, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or co-major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/co-major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BAppSc and will appear in the award title in

parentheses. The general form of the award will therefore be: BAppSc(Major).

### Industrial Internship Program

A registered student who has successfully completed the equivalent of the first and second year of the standard full-time course, normally with a grade point average (GPA) of not less than 4.5 overall, may, at the discretion of the Industrial Internship Coordinator, apply to undertake the Industrial Internship Program.

This program involves 10-12 months of paid full-time employment in an approved industrial/commercial environment during which time the student is enrolled in the unit SCB100 Cooperative Education. On completion of the approved industrial internship placement the student resumes formal studies.

### General Requirements for Majors

The units referred to in the general requirements for majors are listed in Schedules 1, 2 and 3.

### Course Structure

#### Biochemistry

##### First Level Units - Semester 1

MANDATORY UNIT:

- LSB118 Life Science
- MAB101 Statistical Data Analysis 1
- PLUS EITHER:
- NRB100 Environmental Science
- OR
- PCB101 Physical Science
- PLUS EITHER:
- PCB140 Introductory Chemistry
- OR
- PCB142 Chemistry 1

##### First Level Units - Semester 2

MANDATORY UNITS:

- LSB238 Cell and Molecular Biology 1
- NRB270 Animal and Plant Structure and Function
- PCB242 Chemistry 2
- PLUS ONE OTHER UNIT, FOR EXAMPLE:
- LSB258 Principles of Human Physiology
- OR
- NRB240 History of Life on Earth
- OR
- PYB012 Psychology

##### Second Level Units - Semester 1

MANDATORY UNITS:

- LSB308 Biochemistry
- LSB338 Cell and Molecular Biology 2
- PLUS TWO OTHER UNITS, FOR EXAMPLE:
- LSB328 Microbiology 1
- LSB397 Plant Physiology

##### Second Level Units - Semester 2

MANDATORY UNIT:

- LSB408 Metabolism
- PLUS:
- LSB449 Human Cell Biology
- LSB468 Molecular Biology
- LSB605 Protein Engineering and Bioprocessing

##### Third Level Units - Semester 1

MANDATORY UNIT:

- LSB508 Advanced Metabolism
- PLUS:
- LSB527 Biomedical Research Technologies
- OR CHOOSE A UNIT FROM:
- LSB509 Medical Biotechnology
- LSB537 Genetic Engineering

##### Third Level Units - Semester 2

MANDATORY UNIT:

- LSB608 Protein Science
- PLUS
- LSB607 Protein Purification
- OR CHOOSE A UNIT FROM:
- LSB609 Medical Biotechnology 2
- LSB619 Genomics & Bioinformatics
- LSB698 Molecular Pathogenesis 2

#### Biotechnology

##### First Level Units - Semester 1

MANDATORY UNITS:

- LSB118 Life Science
- MAB101 Statistical Data Analysis 1
- PLUS EITHER:
- PCB101 Physical Science
- Or
- NRB100 Environmental Science
- PLUS EITHER:
- PCB142 Chemistry 1
- Or
- PCB140 Introductory Chemistry

##### First Level Units - Semester 2

MANDATORY UNITS:

- LSB238 Cell and Molecular Biology 1
- NRB270 Animal and Plant Structure and Function
- PCB242 Chemistry 2
- PLUS ONE OTHER UNIT - FOR EXAMPLE:
- LSB258 Principles of Human Physiology
- Or
- NRB240 History of Life on Earth
- Or
- PYB102 Introduction to Psychology 1B

##### Second Level Units - Semester 1

MANDATORY UNITS:

- LSB308 Biochemistry
- LSB338 Cell and Molecular Biology 2
- PLUS TWO OTHER UNITS - FOR EXAMPLE:
- LSB328 Microbiology 1
- LSB397 Plant Physiology

##### Second Level Units - Semester 2

MANDATORY UNIT:

- LSB468 Molecular Biology
- PLUS EITHER:
- LSB408 Metabolism
- Or
- LSB497 Plant Molecular Biology
- PLUS ONE OTHER UNIT - FOR EXAMPLE:
- LSB449 Human Cell Biology
- LSB605 Protein Engineering and Bioprocessing

##### Third Level Units - Semester 1

MANDATORY UNITS:

- LSB537 Genetic Engineering
- PLUS EITHER:
- LSB509 Medical Biotechnology
- Or
- LSB577 Plant Biotechnology 1

##### Third Level Units - Semester 2

Choose two units from:

- LSB609 Medical Biotechnology 2
- LSB619 Genomics & Bioinformatics
- LSB677 Plant Biotechnology 2

#### Chemistry

##### First Level Units - Semester 1

MANDATORY UNITS:

- PCB101 Physical Science
- PCB142 Chemistry 1
- MAB101 Statistical Data Analysis 1
- PLUS EITHER:
- LSB118 Life Science
- Or
- NRB100 Environmental Science

##### First Level Units - Semester 2

MANDATORY UNITS:

- PCB242 Chemistry 2
- PLUS
- MAB100 Mathematical Sciences 1A
- OR
- MAB111 Mathematical Sciences 1B
- PLUS TWO OTHER UNITS:
- LSB238 Cell and Molecular Biology 1
- LSB258 Principles of Human Physiology
- NRB270 Animal and Plant Structure and Function
- PCB150 Physics 1H
- PCB200 Chemical Technology 1
- PYB012 Psychology

##### Second Level Units - Semester 1

MANDATORY UNITS:  
PCB305 Principles of Physical Chemistry  
PCB354 Structure and Mechanism in Organic Chemistry

**Second Level Units - Semester 2**

MANDATORY UNITS:  
PCB434 Inorganic Chemistry  
PCB444 Spectroscopy

**Third Level Units - Semester 1**

MANDATORY UNITS:  
PCB505 Advanced Physical Chemistry  
PCB554 Synthesis and Reactivity in Organic Chemistry

**Third Level Units - Semester 2**

MANDATORY UNITS:  
PCB634 Organometallic and Coordination Chemistry  
AND  
PCB604 Project  
OR  
PCB644 Frontiers in Chemistry

**Ecology****First Level Units - Semester 1**

MANDATORY UNITS:  
LSB118 Life Science  
NRB100 Environmental Science  
PCB101 Physical Science

PLUS EITHER:  
MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics  
Or

NRB230 Planet Earth

**First Level Units - Semester 2**

MANDATORY UNIT:  
NRB270 Animal and Plant Structure and Function  
OPTIONAL UNITS:

LSB238 Cell and Molecular Biology 1  
MAB101 Statistical Data Analysis 1  
NRB240 History of Life on Earth

Note: MAB101 if not done in Semester 1

**Second Level Units - Semester 1**

MANDATORY UNITS:  
NRB301 Earth Surface Systems  
NRB311 Population Ecology

**Second Level Units - Semester 2**

MANDATORY UNITS:  
NRB410 Genetics and Evolution  
NRB412 Experimental Design

**Third Level Units - Semester 1**

MANDATORY UNITS:  
NRB510 Population Genetics  
NRB511 Population Management

**Third Level Units - Semester 2**

MANDATORY UNITS:  
NRB610 Ecological Applications  
NRB611 Conservation Biology

**Environmental Science****First Level Units - Semester 1**

MANDATORY UNITS:  
LSB118 Life Science  
NRB100 Environmental Science

PLUS EITHER:  
MAB101 Statistical Data Analysis 1  
OR

MAB105 Preparatory Mathematics  
PLUS EITHER:

PCB140 Introductory Chemistry  
OR  
PCB142 Chemistry 1

**First Level Units - Semester 2**

MANDATORY UNIT:  
NRB240 History of Life on Earth  
SELECT THREE OTHER UNITS FROM:

MAB101 Statistical Data Analysis 1  
NRB270 Animal and Plant Structure and Function  
PCB101 Physical Science

Note: MAB101 if not done in Semester 1

**Second Level Units - Semester 1**

MANDATORY UNITS:

NRB301 Earth Surface Systems  
With Ecology Co-major:  
NRB370 Invertebrate Biology  
Or

NRB371 Plant Biology  
With all other co-majors:  
NRB311 Population Ecology

**Second Level Units - Semester 2**

MANDATORY UNITS:  
NRB412 Experimental Design  
NRB440 Environmental Chemistry

**Third Level Units - Semester 1**

MANDATORY UNITS:  
NRB500 Environmental Modelling  
NRB501 Spatial Analysis of Environmental Systems

**Third Level Units - Semester 2**

MANDATORY UNITS:  
NRB600 Sustainable Environmental Management  
NRB601 Field Mapping and Monitoring of Natural Resources  
Note: NRB601 from 2006

**Forensic Science with Biotechnology Major****First Level Units - Semester 1**

LSB118 Life Science  
MAB101 Statistical Data Analysis 1  
PCB101 Physical Science  
PCB142 Chemistry 1

**First Level Units - Semester 2**

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2  
First Level Unit

**Second Level Units - Semester 1**

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
PCB414 Industrial and Environmental Analytical Chemistry  
SCB384 Crime Scene and Forensic Science

**Second Level Units - Semester 2**

JSB937 Forensic Scientific Evidence  
LSB408 Metabolism  
LSB449 Human Cell Biology  
LSB468 Molecular Biology

**Third Level Units - Semester 1**

LSB509 Medical Biotechnology  
PCB514 Instrumental Analysis  
LSB537 Genetic Engineering  
PCB584 Forensic Examination of Physical Evidence

**Third Level Units - Semester 2**

LSB609 Medical Biotechnology 2  
LSB619 Genomics & Bioinformatics  
LSB684 Forensic DNA Profiling  
PCB684 Forensic Analysis and Toxicology

**Forensic Science with Chemistry Major****First Level Units - Semester 1**

LSB118 Life Science  
MAB100 Mathematical Sciences 1A  
PCB101 Physical Science  
PCB142 Chemistry 1

**Year 1, Semester 2**

LSB238 Cell and Molecular Biology 1  
MAB101 Statistical Data Analysis 1  
PCB242 Chemistry 2  
(First level unit)

**Year 2, Semester 1**

LSB468 Molecular Biology  
PCB305 Principles of Physical Chemistry  
PCB354 Structure and Mechanism in Organic Chemistry  
SCB384 Crime Scene and Forensic Science

**Year 2, Semester 2**

JSB937 Forensic Scientific Evidence  
PCB414 Industrial and Environmental Analytical Chemistry  
PCB434 Inorganic Chemistry  
PCB444 Spectroscopy

**Year 3, Semester 1**

PCB505 Advanced Physical Chemistry  
PCB514 Instrumental Analysis  
PCB554 Synthesis and Reactivity in Organic Chemistry  
PCB584 Forensic Examination of Physical Evidence

**Year 3, Semester 2**

LSB684	Forensic DNA Profiling
PCB634	Organometallic and Coordination Chemistry
PCB644	Frontiers in Chemistry
PCB684	Forensic Analysis and Toxicology

**Geoscience**

**First Level Units - Semester 1**

	MANDATORY UNITS:
MAB101	Statistical Data Analysis 1
NRB100	Environmental Science
PCB101	Physical Science
	PLUS EITHER:
NRB230	Planet Earth
	Or
PCB140	Introductory Chemistry
	Or
PCB142	Chemistry 1

**First Level Units - Semester 2**

	MANDATORY UNITS:
NRB240	History of Life on Earth
	PLUS EITHER:
PCB140	Introductory Chemistry
	Or
PCB142	Chemistry 1
	OPTIONAL UNIT:
MAB100	Mathematical Sciences 1A

**Second Level Units - Semester 1**

	MANDATORY UNITS:
NRB333	Mineralogy
	OPTIONAL UNITS:
NRB301	Earth Surface Systems
NRB331	Sedimentary Geology

**Second Level Units - Semester 2**

	MANDATORY UNITS:
NRB434	Structural Geology and Field Methods
NRB436	Introduction to Igneous and Metamorphic Petrology
	OPTIONAL UNIT:
NRB437	Stratigraphy and Depositional Environments

**Third Level Units - Semester 1**

	MANDATORY UNITS:
NRB533	Advanced Geological Mapping
NRB534	Geophysics
NRB536	Petrology and Geochemistry
	OPTIONAL UNIT:
NRB535	Geology of Fossil Fuels

**Third Level Units - Semester 2**

	ONE OF:
NRB633	Hydrogeology
NRB635	Plate Tectonics and Advanced Structural Geology
NRB636	Stratigraphy and Basin Analysis
PSB655	Remote Sensing

**Mathematics**

**First Level Units - Semester 1**

	MANDATORY UNITS:
MAB100	Mathematical Sciences 1A (For students without a grade of SA or better in Senior Mathematics C)
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
	PLUS ONE OR TWO OF FOUNDATION UNITS:

LSB118	Life Science
NRB100	Environmental Science
PCB101	Physical Science

**First Level Units - Semester 2**

	MANDATORY UNITS:
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1
	PLUS ONE OR TWO OF FOUNDATION UNITS:

LSB118	Life Science
PCB101	Physical Science

**Second Level Units - Semester 1**

	OPTIONAL UNITS:
MAB311	Advanced Calculus
MAB312	Linear Algebra

MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB481	Visualisation and Data Analysis

**Second Level Units - Semester 2**

	OPTIONAL UNITS:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation

**Third Level Units - Semester 1**

	OPTIONAL UNITS:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB580	Scientific Computation
MAB672	Advanced Mathematical Modelling

**Third Level Units - Semester 2**

	OPTIONAL UNITS:
MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B
MAB640	Industry Project
MAB681	Advanced Visualisation and Data Analysis

**Microbiology**

**First Level Units - Semester 1**

	MANDATORY UNIT:
LSB118	Life Science
MAB101	Statistical Data Analysis 1
	PLUS EITHER:
NRB100	Environmental Science
	Or
PCB101	Physical Science
	PLUS EITHER:
PCB140	Introductory Chemistry
	Or
PCB142	Chemistry 1

**First Level Units - Semester 2**

	MANDATORY UNITS:
LSB238	Cell and Molecular Biology 1
PCB242	Chemistry 2
	PLUS TWO OTHER UNITS, FOR EXAMPLE:
LSB258	Principles of Human Physiology
MAB101	Statistical Data Analysis 1
NRB240	History of Life on Earth
NRB270	Animal and Plant Structure and Function
PYB102	Introduction to Psychology 1B

**Second Level Units - Semester 1**

	MANDATORY UNITS:
LSB308	Biochemistry
LSB328	Microbiology 1
	PLUS TWO OTHER UNITS, FOR EXAMPLE:
LSB338	Cell and Molecular Biology 2
LSB358	Physiology 1

**Second Level Units - Semester 2**

	MANDATORY UNIT:
LSB428	Microbiology 2
	PLUS THREE OTHER UNITS, FOR EXAMPLE:
LSB408	Metabolism
LSB449	Human Cell Biology
LSB458	Physiology 2
LSB468	Molecular Biology

**Third Level Units - Semester 1**

	SELECT TWO UNITS FROM:
LSB528	Environmental Microbiology
LSB547	Bacterial Pathogenesis and Disease Diagnosis
LSB568	Electron Microscopy
LSB578	Virology

**Third Level Units - Semester 2**

	SELECT TWO UNITS FROM:
LSB628	Food Microbiology
LSB647	Clinical Mycology and Parasitology

LSB648 Molecular Microbiology

## Physics

### First Level Units - Semester 1

MANDATORY UNITS:

PCB101 Physical Science

MAB131 Engineering Mathematics 1A

OR

MAB180 Engineering Mathematics 1

OPTIONAL UNITS:

PCB107 Physics and Quantitative Techniques

PLUS EITHER:

LSB118 Life Science

Or

NRB100 Environmental Science

### First Level Units - Semester 2

MANDATORY UNITS:

MAB132 Engineering Mathematics 1B

PCB250 Physics 1

PCB260 Physics 1A

SELECT ONE OTHER UNIT - FOR EXAMPLE:

ITB111 Software Development 1

### Second Level Units - Semester 1

MANDATORY UNITS:

MAB134 Electrical Engineering Mathematics 3

PCB361 AC Theory and Electronics

PCB362 Physics 2

### Second Level Units - Semester 2

MANDATORY UNITS:

PCB460 Instrumentation and Computational Methods

PCB462 Thermodynamics and Solid State Physics

### Third Level Units - Semester 1

MANDATORY UNITS:

PCB561 Quantum and Condensed Matter Physics

PCB562 Physical Methods of Analysis

### Third Level Units - Semester 2

MANDATORY UNITS:

PCB661 Experimental Physics

PCB665 Physics 3

SCB601	Perspectives In Science

## ■ Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) (PH38)

**Award title:** Bachelor of Applied Science (Medical Radiation Technology)

**CRICOS code:** 037588F

**Location:** Gardens Point

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Pam Rowntree

### Other Majors

See also the separate entry for the following major in this course:  
Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology).

### Special Requirements

Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their clinical placement, and may be exposed to blood and body fluids of

patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

### Other Course Requirements

Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

### Professional Recognition

On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

### Course Structure

#### Medical Imaging Technology

##### Year 1, Semester 1

LSB145	Anatomy 1
PCB007	Patient Care in Professional Practice
PCB107	Physics and Quantitative Techniques
PCB178	Principles of Medical Radiations

##### Year 1, Semester 2

LSB245	Anatomy 2 and Introductory Pathology
PCB272	Radiation Physics 1
PCB276	General Radiography 1
PCB277	Radiographic Practice 1

##### Year 2, Semester 1

LSB321	Systematic Pathology
LSB345	Regional & Imaging Anatomy 1
PCB375-1	Radiographic Equipment
PCB377	General Radiography 2
PCB379	Clinical Radiography 1

##### Year 2, Semester 2

LSB445	Regional & Imaging Anatomy 2
PCB375-2	Radiographic Equipment
PCB476	Special Procedures
PCB477	Complementary Imaging Techniques
PCB479	Clinical Radiography 2

##### Year 3, Semester 1

PCB567	Advanced Radiographic Technique 1
PCB580-1	Clinical Radiography 3
PCB593	Digital Image Processing
PCB672-1	Project
PCB681	Computed Tomography Imaging

##### Year 3, Semester 2

PCB580-2	Clinical Radiography 3
PCB667	Advanced Radiographic Technique 2
PCB672-2	Project
PCB675	Radiation Safety and Quality Assurance
PCB682	Magnetic Resonance Imaging

## ■ Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology) (PH38)

**Award title:** Bachelor of Applied Science (Medical Radiation Technology)

**CRICOS code:** 037588F

**Location:** Gardens Point

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Pam Rowntree

**Discipline coordinator:** Michelle Oppelaar

### Other Majors

See also the separate entry for the following major in this course:  
Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology).

### Special Course Requirements

Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their placement, and may be exposed to blood and body fluids of patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

### Other Course Requirements

Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

### Professional Recognition

On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

### Course Structure

#### Radiotherapy Technology

##### Year 1, Semester 1

LSB145	Anatomy 1
PCB007	Patient Care in Professional Practice
PCB107	Physics and Quantitative Techniques
PCB178	Principles of Medical Radiations

##### Year 1, Semester 2

LSB245	Anatomy 2 and Introductory Pathology
PCB272	Radiation Physics 1
PCB286	Treatment Planning 1
PCB287	Megavoltage Therapy 1

##### Year 2, Semester 1

LSB321	Systematic Pathology
LSB345	Regional & Imaging Anatomy 1
PCB389	Clinical Radiotherapy 1
PCB396-1	Radiotherapy Planning and Physics
PCB397	Megavoltage Therapy 2

##### Year 2, Semester 2

LSB445	Regional & Imaging Anatomy 2
PCB396-2	Radiotherapy Planning and Physics
PCB489	Clinical Radiotherapy 2
PCB495	Computer Assisted Treatment Planning 1
PCB497	Megavoltage Therapy 3

##### Year 3, Semester 1

PCB587	Specialised Radiotherapy Technique 1
PCB590-1	Clinical Radiotherapy 3
PCB593	Digital Image Processing
PCB595	Computer Assisted Treatment Planning 2
PCB672-1	Project

##### Year 3, Semester 2

PCB590-2	Clinical Radiotherapy 3
PCB672-2	Project
PCB675	Radiation Safety and Quality Assurance
PCB687	Specialised Radiotherapy Technique 2
PCB695	Advanced Treatment Planning Topics

### ■ Bachelor of Applied Science (First-year Program) (Carseldine only) (SC01)

**Award title:** Bachelor of Applied Science (Study Area A)

**CRICOS code:** 003502J

**Location:** Carseldine

**Course duration (full-time):** 1 year at Carseldine and then 2 years at Gardens Point

**Course duration (part-time):** 2 Years at Carseldine and then 4 years at Gardens Point

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Megan Hargreaves

**Discipline coordinator:** Dr Habib Yezdani (Science Carseldine Coordinator); Dr Peter Cooke (Biochemistry); Dr Ron Epping (Biotechnology); Dr Dennis Arnold (Chemistry); Dr Ian Williamson (Ecology); Graham Kimber (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gregg Webb (Geoscience); Dr Megan Hargreaves (Microbiology)

### Professional Recognition

For graduates with approved study: Australian Society for Biochemistry and Molecular Biology, Australasian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Royal Australian Chemical Institute, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, Geological Society of Australia, Australian Society for Microbiology.

### Course Design

The Bachelor of Applied Science course allows students to major in one of 10 scientific fields. The first year program at Carseldine will allow students to transfer to all Science majors at Gardens Point campus to complete the Bachelor of Applied Science degree, except for Physics and Mathematics majors which must be done wholly at Gardens Point.

Students should undertake THREE of the four foundation units (LSB118 Life Science, MAB101 Statistical Data Analysis 1, NRB100 Environmental Science, PCB101 Physical Science), according to the requirements of their intended major. Most majors require MAB101, and if students have not done Maths B at year 12 level, they will need to take MAB105 in semester 1, before progressing to MAB101 in second semester.

Upon completion of the first year program students must meet the minimum requirements for entry in order to transfer to the Bachelor of Applied Science (SC01) at Gardens Point Campus. For further details of the major areas of study offered, see the Bachelor of Applied Science (SC01) course offered at Gardens Point Campus

#### Semester 1

LSB118	Life Science
	Three units from:
MAB105	Preparatory Mathematics
NRB100	Environmental Science
PCB101	Physical Science
PCB140	Introductory Chemistry

#### Semester 2

	Four units from:
LSB238	Cell and Molecular Biology 1
MAB101	Statistical Data Analysis 1
NRB230	Planet Earth
NRB270	Animal and Plant Structure and Function
PCB242	Chemistry 2

### ■ Bachelor of Applied Science (Medical Science) (LS37)

**Award title:** Bachelor of Applied Science (Medical Science)

**CRICOS code:** 020331D

**Location:** Gardens Point

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Trevor Forster

### Special Course Requirements

Students are required to undertake a minimum four-week work experience program in a practising pathology laboratory. This takes place at the end of the second year in the full-time program and in a suitable vacation period during the part-time program.

Proof of successful vaccination against Hepatitis B must be provided by students at the end of first semester of year two of the program.

### Professional Recognition

Graduates are immediately eligible for graduate membership of the Australian Institute of Medical Scientists and will have completed the academic requirements for admission as Members.

### Full-time Course Structure

#### Year 1, Semester 1

LSB118	Life Science
MAB141	Mathematics and Statistics for Medical Science
PCB142	Chemistry 1
PCB150	Physics 1H

#### Year 1, Semester 2

LSB238	Cell and Molecular Biology 1
LSB250	Human Physiology
LSB255	Human Anatomy
PCB242	Chemistry 2

#### Year 2, Semester 1

LSB325	Biochemistry
LSB328	Microbiology 1
LSB338	Cell and Molecular Biology 2
LSB365	Pathology

#### Year 2, Semester 2

LSB425	Quantitative Medical Science
LSB435	Diagnostic Microbiology 1
LSB438	Immunology 1
LSB465	Histopathology 1
LSB480	Professional Practice

#### Year 3, Semester 1

LSB525	Clinical Biochemistry 1
LSB535	Microbial Immunology
LSB555	Haematology 1
LSB565	Histopathology 2

#### Year 3, Semester 2

LSB625	Clinical Biochemistry 2
LSB635	Diagnostic Microbiology 2
LSB655	Haematology 2
LSB665	Immunohaematology

### Part-time Course Structure

#### Year 1, Semester 1

LSB118	Life Science
MAB141	Mathematics and Statistics for Medical Science

#### Year 1, Semester 2

LSB238	Cell and Molecular Biology 1
LSB250	Human Physiology

#### Year 2, Semester 1

PCB142	Chemistry 1
PCB150	Physics 1H

#### Year 2, Semester 2

LSB255	Human Anatomy
PCB242	Chemistry 2

#### Year 3, Semester 1

LSB325	Biochemistry
LSB328	Microbiology 1

#### Year 3, Semester 2

LSB425	Quantitative Medical Science
LSB435	Diagnostic Microbiology 1

#### Year 4, Semester 1

LSB338	Cell and Molecular Biology 2
LSB365	Pathology

#### Year 4, Semester 2

LSB438	Immunology 1
LSB465	Histopathology 1
LSB480	Professional Practice

#### Year 5, Semester 1

LSB525	Clinical Biochemistry 1
LSB535	Microbial Immunology

#### Year 5, Semester 2

LSB625	Clinical Biochemistry 2
LSB635	Diagnostic Microbiology 2

#### Year 6, Semester 1

LSB555	Haematology 1
LSB565	Histopathology 2

#### Year 6, Semester 2

LSB655	Haematology 2
--------	---------------

LSB665 Immunohaematology

## ■ Bachelor of Applied Science Innovation (For Continuing Students Only) (SC51)

**Award title:** Bachelor of Applied Science Innovation (Study Area A)

**CRICOS code:** 042262G

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Course duration (part-time):** For the part-time Course Structure, please consult the Course Coordinator

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Neville Bofinger

**Discipline coordinator:** To be advised (Bioinformatics); To be advised (Chemical Technology); Dr Ian Turner (Scientific Computation & Visualisation)

This course has been discontinued and students who still remain in the course should discuss their enrolment with the course coordinator.

### Course Structure

#### Bioinformatics

##### Year 1, Semester 1

LSB118	Life Science
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
	Either
PCB140	Introductory Chemistry
	Or
PCB142	Chemistry 1

##### Year 1, Semester 2

ITB111	Software Development 1
LSB238	Cell and Molecular Biology 1
MAB111	Mathematical Sciences 1B
PCB242	Chemistry 2

##### Year 2, Semester 1

ITB112	Software Development 2
LSB308	Biochemistry
LSB338	Cell and Molecular Biology 2
MAB481	Visualisation and Data Analysis

##### Year 2, Semester 2

LSB468	Molecular Biology
MAB380	Introduction to Supercomputing
	Core Business / IT unit
	Core Business / IT unit

##### Year 3, Semester 1

LSB537	Genetic Engineering
MAB580	Scientific Computation
	Core Business / IT unit
	Core Business / IT unit

##### Year 3, Semester 2

LSB608	Protein Science
LSB619	Genomics & Bioinformatics
MAB681	Advanced Visualisation and Data Analysis
	Core Business / IT unit

##### Year 3, Semester 2

	Core Business / IT unit
--	-------------------------

**Note:** Applicable Computing (3 information technology/supercomputing units) is incorporated as the elective stream in the Bioinformatics major

### Chemical Technology

##### Year 1, Semester 1

MAB101	Statistical Data Analysis 1
PCB142	Chemistry 1
PCB150	Physics 1H
	Core Business / IT unit

##### Year 1, Semester 2

MAB100	Mathematical Sciences 1A
PCB200	Chemical Technology 1
PCB242	Chemistry 2
	Core Business / IT unit

##### Year 2, Semester 1

PCB305	Principles of Physical Chemistry
PCB354	Structure and Mechanism in Organic Chemistry
	Core Business / IT unit
	Elective stream unit

**Year 2, Semester 2**

PCB414	Industrial and Environmental Analytical Chemistry
PCB434	Inorganic Chemistry
PCB444	Spectroscopy
	Core Business / IT unit

**Year 3, Semester 1**

PCB514	Instrumental Analysis
PCB524	Unit Operations
	Core Business / IT unit
	Elective stream unit

**Year 3, Semester 2**

PCB624	Chemistry in Industry and Technology
PCB644	Frontiers in Chemistry
	Core Business / IT unit
	Elective stream unit

**Scientific Computation and Visualisation****Year 1, Semester 1**

ITB111	Software Development 1
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
	Core Business / IT unit

**Year 1, Semester 2**

ITB112	Software Development 2
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB220	Computational Mathematics 1

**Year 2, Semester 1**

MAB481	Visualisation and Data Analysis
	Mathematics unit *
	Core Business / IT unit
	Core Business / IT unit

**Year 2, Semester 2**

MAB210	Statistical Modelling 1
MAB380	Introduction to Supercomputing
	Mathematics unit *
	Elective stream unit

**Year 3, Semester 1**

MAB580	Scientific Computation
	Mathematics unit *
	Core Business / IT unit
	Elective stream unit

**Year 3, Semester 2**

MAB681	Advanced Visualisation and Data Analysis
	Mathematics unit *
	Core Business / IT unit
	Elective stream unit

**\* Mathematics Units - Choose from one of the following emphases (others may be negotiated with the Course Coordinator)**

GENERAL/APPLIED EMPHASIS:

MAB311	Advanced Calculus
MAB521	Applied Mathematics 3
	Either
MAB523	Introduction to Quality Management
	Or
MAB621	Discrete Mathematics
	OR

FINANCIAL MATHEMATICS EMPHASIS:

MAB313	Mathematics of Finance
MAB623	Financial Mathematics
	Either
MAB523	Introduction to Quality Management
	Or
MAB621	Discrete Mathematics

COMPUTATIONAL MATHEMATICS EMPHASIS:

MAB312	Linear Algebra
MAB420	Computational Mathematics 2
MAB522	Computational Mathematics 3
MAB621	Discrete Mathematics

**Core Business / IT Units and Elective Stream Units**

**Business and Information Technology core units (72 credit points)**

Six specific units introducing business, innovation, communication, and information technology:

AMB251	Innovation and Market Development
BSB126	Marketing
ITB111	Software Development 1
ITB115	Introduction to Databases
ITB116	IT Professional Studies 1

Either

MGB218	Venture Skills
	Or

MGB223	Creating New Enterprises
--------	--------------------------

\*ITB650 Computational Intelligence is offered as a substitute unit for ITB111 Software Development 1 for BAppScInnov students in the Chemical Technology major who do not wish to undertake the applicable Computing stream.

**Elective Streams (one to be chosen) (36 credit points)**

(a) Applicable Computing: Three approved units chosen from the Bachelor of Information Technology course and/or the supercomputing program

(b) Commercialisation: LSB309 Introduction to Intellectual Property Law; AND two approved units from the Bachelor of Business course

(c) Scientific Project: Scientific project unit (eg PCB604 Project {12 cp}; MAB640 Industry Project {24 cp, prereq MAB523}) and supporting units chosen from:

An advanced level science unit relevant to the project

BSB311 Research, Development and Commercialisation Strategies

LSB309 Introduction to Intellectual Property Law

MAB523 Introduction to Quality Management

## ■ Bachelor of Applied Science/Bachelor of Mathematics (SC20)

**Award title:** Bachelor of Applied Science (Study Area A)/Bachelor of Mathematics

**CRICOS code:** 049434C

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Megan Hargreaves (Science); Dr Graeme Pettet (Mathematics)

**Professional Recognition**

Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available. For professional recognition relating to the science majors refer to SC01 Bachelor of Applied Science.

**Course Design**

This four year double degree course integrates studies in one of the science majors with studies in Mathematics. The Science majors available are Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

**Course Structure**

Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points of Science units, according to the requirements as follows:

**Level 1 Units:**

Students must complete the following Level 1 Mathematics units:

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1

**Note:** MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C.

Students must complete at least two of the following Level 1 Science Foundation units:

LSB118	Life Science
NRB100	Environmental Science
PCB101	Physical Science

In addition, students are required to complete any mandatory units and should complete all recommended units specified for the science major they select from those available in the SC01 Bachelor of Applied Science course.

**Level 2 and 3 Mathematics Units:**

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:

Students must complete:  
MAB311 Advanced Calculus  
MAB312 Linear Algebra  
And at least one of:  
MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB422 Mathematical Modelling

**Level 2 and 3 Science Units:**

At least 96 credit points (8 twelve-credit point units) must be taken from Level 2 and Level 3 Science units with at least 48 credit points (4 twelve credit point units) from Level 3 Science units. The science units must meet the advanced level requirements of one of the following majors of the SC01 Bachelor of Applied Science course: Biochemistry; Biotechnology; Chemistry; Ecology; Environmental Science; Geoscience; Microbiology; Physics.

**Elective Units:**

Elective units (number depends upon major selected) can be taken from Faculty of Science units. Because up to two MAB units may normally be specified in a Science degree depending on the major selected, an equivalent number of units may be substituted with units from another Faculty if such units are required as prerequisites.

**Science Units: Level 1 Science Foundation Units**

Students must select at least two of these units:

LSB118 Life Science  
NRB100 Environmental Science  
PCB101 Physical Science

**Science Units: Biochemistry Major**

**Level 1**

LSB118 Life Science  
LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2

Either  
PCB140 Introductory Chemistry  
Or

PCB142 Chemistry 1  
Recommended Unit:  
LSB258 Principles of Human Physiology

**Level 2**

LSB308 Biochemistry  
LSB408 Metabolism  
Two other Level 2 units selected from:  
LSB338 Cell and Molecular Biology 2  
LSB449 Human Cell Biology  
LSB468 Molecular Biology  
LSB605 Protein Engineering and Bioprocessing

**Level 3**

LSB508 Advanced Metabolism  
LSB608 Protein Science  
Two other Level 3 units selected from:  
LSB509 Medical Biotechnology  
LSB527 Biomedical Research Technologies  
LSB537 Genetic Engineering  
LSB607 Protein Purification  
LSB609 Medical Biotechnology 2  
LSB619 Genomics & Bioinformatics  
LSB698 Molecular Pathogenesis 2

**Science Units: Biotechnology Major**

**Level 1**

LSB118 Life Science  
LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2

Either  
PCB140 Introductory Chemistry  
Or

PCB142 Chemistry 1  
Recommended Unit:  
LSB258 Principles of Human Physiology

**Level 2**

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
LSB468 Molecular Biology  
Two other Level 2 units selected from:  
LSB328 Microbiology 1

LSB397 Plant Physiology  
LSB408 Metabolism  
LSB449 Human Cell Biology  
LSB497 Plant Molecular Biology  
LSB605 Protein Engineering and Bioprocessing

**Level 3**

LSB537 Genetic Engineering  
Three other Level 3 units selected from:  
LSB509 Medical Biotechnology  
LSB577 Plant Biotechnology 1  
LSB609 Medical Biotechnology 2  
LSB619 Genomics & Bioinformatics  
LSB677 Plant Biotechnology 2

**Science Units: Chemistry Major**

**Level 1**

PCB101 Physical Science  
PCB142 Chemistry 1  
PCB242 Chemistry 2  
Recommended Units:  
PCB200 Chemical Technology 1  
PCB260 Physics 1A

**Level 2**

PCB305 Principles of Physical Chemistry  
PCB354 Structure and Mechanism in Organic Chemistry  
PCB434 Inorganic Chemistry  
PCB444 Spectroscopy

**Level 3**

PCB505 Advanced Physical Chemistry  
PCB554 Synthesis and Reactivity in Organic Chemistry  
PCB634 Organometallic and Coordination Chemistry  
PCB644 Frontiers in Chemistry

**Science Units: Ecology Major**

**Level 1**

LSB118 Life Science  
NRB100 Environmental Science  
NRB270 Animal and Plant Structure and Function  
PCB101 Physical Science

Recommended Units:  
NRB230 Planet Earth  
NRB240 History of Life on Earth

**Level 2**

NRB301 Earth Surface Systems  
NRB311 Population Ecology  
NRB410 Genetics and Evolution  
NRB412 Experimental Design

**Level 3**

NRB510 Population Genetics  
NRB511 Population Management  
NRB610 Ecological Applications  
NRB611 Conservation Biology

**Science Units: Environmental Science Major**

**Level 1**

LSB118 Life Science  
NRB100 Environmental Science  
NRB240 History of Life on Earth  
Either

PCB140 Introductory Chemistry  
Or  
PCB142 Chemistry 1  
Recommended Units:

Planet Earth  
NRB230 Animal and Plant Structure and Function

**Level 2**

NRB301 Earth Surface Systems  
NRB311 Population Ecology  
NRB412 Experimental Design  
NRB440 Environmental Chemistry

**Level 3**

NRB500 Environmental Modelling  
NRB572 Terrestrial Ecosystems  
NRB600 Sustainable Environmental Management  
NRB672 Marine and Freshwater Ecosystems

**Science Units: Forensic Science Major**

**Level 1**

LSB118 Life Science  
PCB101 Physical Science

LSB238 Cell and Molecular Biology 1  
 NRB270 Animal and Plant Structure and Function  
 PCB242 Chemistry 2

Either  
 PCB142 Chemistry 1

Or  
 PCB140 Introductory Chemistry

Recommended:  
 LSB258 Principles of Human Physiology

**Note:** LSB118 and PCB101 are Foundation Units

#### Level 2

JSB937 Forensic Scientific Evidence  
 LSB468 Molecular Biology  
 PCB414 Industrial and Environmental Analytical Chemistry  
 SCB384 Crime Scene and Forensic Science

#### Level 3

PCB514 Instrumental Analysis  
 PCB584 Forensic Examination of Physical Evidence  
 PCB684 Forensic Analysis and Toxicology  
 LSB684 Forensic DNA Profiling

### Science Units: Geoscience Major

#### Level 1

NRB100 Environmental Science  
 NRB230 Planet Earth  
 NRB240 History of Life on Earth  
 PCB101 Physical Science

Either  
 PCB140 Introductory Chemistry

Or  
 PCB142 Chemistry 1

#### Level 2

NRB331 Sedimentary Geology  
 NRB333 Mineralogy  
 NRB434 Structural Geology and Field Methods  
 NRB436 Introduction to Igneous and Metamorphic Petrology

#### Level 3

NRB533 Advanced Geological Mapping  
 NRB534 Geophysics  
 NRB536 Petrology and Geochemistry  
 One of other Level 3 units:  
 NRB535 Geology of Fossil Fuels  
 NRB633 Hydrogeology  
 NRB635 Plate Tectonics and Advanced Structural Geology  
 NRB636 Stratigraphy and Basin Analysis  
 PSB655 Remote Sensing

### Science Units: Microbiology Major

#### Level 1

LSB118 Life Science  
 LSB238 Cell and Molecular Biology 1  
 NRB270 Animal and Plant Structure and Function  
 PCB242 Chemistry 2

Either  
 PCB140 Introductory Chemistry

Or  
 PCB142 Chemistry 1

Recommended Unit:  
 LSB258 Principles of Human Physiology

#### Level 2

LSB308 Biochemistry  
 LSB328 Microbiology 1  
 LSB428 Microbiology 2  
 Other Level 2 units:  
 LSB338 Cell and Molecular Biology 2  
 LSB358 Physiology 1  
 LSB408 Metabolism  
 LSB458 Physiology 2  
 LSB468 Molecular Biology

#### Level 3

Select at least four units from:  
 LSB528 Environmental Microbiology  
 LSB547 Bacterial Pathogenesis and Disease Diagnosis  
 LSB568 Electron Microscopy  
 LSB578 Virology  
 LSB628 Food Microbiology  
 LSB647 Clinical Mycology and Parasitology  
 LSB648 Molecular Microbiology

### Science Units: Physics Major

#### Level 1

PCB101 Physical Science  
 PCB250 Physics 1  
 PCB260 Physics 1A

Recommended:  
 PCB107 Physics and Quantitative Techniques

Mathematics units equivalent to: #

MAB131 Engineering Mathematics 1A

MAB132 Engineering Mathematics 1B

#### Level 2

PCB361 AC Theory and Electronics  
 PCB362 Physics 2  
 PCB460 Instrumentation and Computational Methods  
 PCB462 Thermodynamics and Solid State Physics  
 Mathematics unit equivalent to: #  
 MAB134 Electrical Engineering Mathematics 3

**#Note:** Engineering Mathematics units have been listed under this major as these are the requirements for the Physics major in SC01 Bachelor of Applied Science. \*You should not enrol in these units.\* The equivalent Mathematics units are MAB100, MAB111, MAB112 and MAB311. Students who may have already completed some or all of the Engineering Mathematics units should consult the Mathematics Course Coordinator for SC20.

#### Level 3

PCB561 Quantum and Condensed Matter Physics  
 PCB562 Physical Methods of Analysis  
 PCB661 Experimental Physics  
 PCB665 Physics 3

### Mathematics Units

#### Level 1

MAB100 Mathematical Sciences 1A  
 MAB101 Statistical Data Analysis 1  
 MAB111 Mathematical Sciences 1B  
 MAB112 Mathematical Sciences 1C  
 MAB210 Statistical Modelling 1  
 MAB220 Computational Mathematics 1

**Note:** MAB100 for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

#### Level 2

MAB311 Advanced Calculus  
 MAB312 Linear Algebra  
 At least one of:  
 MAB315 Operations Research 2  
 MAB413 Differential Equations  
 MAB414 Applied Statistics 2  
 MAB422 Mathematical Modelling  
 Other Level 2 units:  
 MAB313 Mathematics of Finance  
 MAB314 Statistical Modelling 2  
 MAB420 Computational Mathematics 2  
 MAB480 Introduction to Scientific Computation  
 MAB481 Visualisation and Data Analysis

#### Level 3

Select at least four units from:  
 MAB521 Applied Mathematics 3  
 MAB522 Computational Mathematics 3  
 MAB524 Statistical Inference  
 MAB525 Operations Research 3A  
 MAB526 Statistical Science 3  
 MAB580 Scientific Computation  
 MAB613 Partial Differential Equations  
 MAB623 Financial Mathematics  
 MAB624 Applied Statistics 3  
 MAB625 Operations Research 3B  
 MAB640 Industry Project  
 MAB672 Advanced Mathematical Modelling  
 MAB681 Advanced Visualisation and Data Analysis  
 Other Level 3 units:  
 MAB523 Introduction to Quality Management  
 MAB621 Discrete Mathematics  
 Students should check semester of offer, prerequisites and corequisites

**Note:** MAB420 Computational Mathematics 2 and MAB481 Visualisation and Data Analysis require ITB111 Software Development 1 to be taken as an elective and MAB380 Introduction to Supercomputing

requires ITB111 Software Development 1 and ITB112 Software Development 2 to be taken as electives.

## ■ Bachelor of Biomedical Science (SC40)

**Award title:** Bachelor of Biomedical Science

**CRICOS code:** 052768K

**Location:** Gardens Point

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Catherine Dallemagne

### Professional Recognition

Depending on the subjects selected in the final year of the course, graduates will be eligible for membership of one or more of the following organisations: Australian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Microbiology.

### Course Structure

#### Year 1, Semester 1

LSB118 Life Science  
MAB141 Mathematics and Statistics for Medical Science  
PCB142 Chemistry 1  
PYB007 Interpersonal Processes and Skills

#### Year 1, Semester 2

LSB238 Cell and Molecular Biology 1  
LSB255 Human Anatomy  
PCB150 Physics 1H  
PCB242 Chemistry 2

#### Year 2, Semester 1

LSB308 Biochemistry  
LSB328 Microbiology 1  
LSB338 Cell and Molecular Biology 2  
LSB358 Physiology 1

#### Year 2, Semester 2

HHB114 Introduction To Human Rights And Ethics  
LSB425 Quantitative Medical Science  
LSB449 Human Cell Biology  
LSB458 Physiology 2

#### Year 3, Semester 1

LSB468 Molecular Biology  
LSB509 Medical Biotechnology  
LSB525 Clinical Biochemistry 1  
LSB547 Bacterial Pathogenesis and Disease Diagnosis

#### Year 3, Semester 2

LSB609 Medical Biotechnology 2  
LSB625 Clinical Biochemistry 2  
LSB647 Clinical Mycology and Parasitology  
LSB658 Clinical Physiology

**Note for Year 3:** In Year 3, you may substitute one pair of units (LSB509 and LSB609, or LSB525 and LSB625, or LSB547 and LSB647) with any pair of units from the following list: (Please consult the course coordinator if you wish to do this)

HEALTH COUNSELLING  
Semester 1:  
PYB012 Psychology  
Semester 2:  
PYB208 Counselling Theory and Practice 1  
PUBLIC HEALTH  
Semester 1:  
PUB104 Introduction to Health Services Management  
Semester 2:  
PUB251 Contemporary Public Health  
EXERCISE SCIENCE FOR PREVENTIVE MEDICINE  
Semester 1:  
HMB271 Foundations Of Motor Control, Learning And Development  
Semester 2:  
HMB273 Exercise Physiology 1  
INDIGENOUS PERSPECTIVES  
Semester 1:  
HHB123 Indigenous Australian Culture Studies  
Semester 2:  
HHB276 Indigenous Knowledge: Research Ethics and Protocols  
CONTEMPORARY ETHICS

Semester 1:  
HHB270 Gene Technology And Ethics  
Semester 2:  
HHB269 Ethics, Technology And The Environment

## ■ Bachelor of Biotechnology Innovation (Extended/Non-Accelerated) (LS50)

**Award title:** Bachelor of Biotechnology Innovation

**CRICOS code:** 037681J

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Course duration (part-time):** 8 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Chris Collet

### Professional Recognition

On graduation, students are immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society of Biochemistry and Molecular Biology.

### Course Structure

#### Year 1, Semester 1

LSB118 Life Science  
LSB309 Introduction to Intellectual Property Law  
MAB101 Statistical Data Analysis 1  
PCB142 Chemistry 1

#### Year 1, Semester 2

BSB115 Management, People and Organisations  
LSB238 Cell and Molecular Biology 1  
LSB258 Principles of Human Physiology  
PCB242 Chemistry 2

#### Year 2, Semester 1

BSB110 Accounting  
LSB325 Biochemistry  
LSB338 Cell and Molecular Biology 2  
LSB397 Plant Physiology

#### Year 2, Semester 2

BSB119 International and Electronic Business  
LSB468 Molecular Biology  
LSB497 Plant Molecular Biology  
LSB605 Protein Engineering and Bioprocessing

#### Year 3, Semester 1

BSB126 Marketing  
LSB328 Microbiology 1  
LSB509 Medical Biotechnology  
LSB577 Plant Biotechnology 1

#### Year 3, Semester 2

AMB251 Innovation and Market Development  
LSB609 Medical Biotechnology 2  
LSB677 Plant Biotechnology 2  
MGB218 Venture Skills

#### Year 4, Semester 1

BSB310 Business and Biotechnology  
LSB409 Readings in Biotechnology  
LSB537 Genetic Engineering  
LSB709-1 Biotechnology Research Project

#### Year 4, Semester 2

BSB311 Research, Development and Commercialisation Strategies  
LSB619 Genomics & Bioinformatics  
LSB709-2 Biotechnology Research Project  
LSB709-3 Biotechnology Research Project

## ■ Bachelor of Biotechnology Innovation (Standard/Accelerated) (LS50)

**Award title:** Bachelor of Biotechnology Innovation

**CRICOS code:** 037681J

**Location:** Gardens Point

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Chris Collet

### Special Course Requirements

The accelerated mode of the course requires students to study in three semesters per year.

### Professional Recognition

On graduation, students are immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society of Biochemistry and Molecular Biology.

### Course Structure

#### Year 1, Semester 1

LSB118 Life Science  
LSB309 Introduction to Intellectual Property Law  
MAB101 Statistical Data Analysis 1  
PCB142 Chemistry 1

#### Year 1, Semester 2

BSB115 Management, People and Organisations  
LSB238 Cell and Molecular Biology 1  
LSB258 Principles of Human Physiology  
PCB242 Chemistry 2

#### Year 1, Summer Program

BSB110 Accounting  
BSB119 International and Electronic Business  
BSB126 Marketing

#### Year 2, Semester 1

LSB325 Biochemistry  
LSB328 Microbiology 1  
LSB338 Cell and Molecular Biology 2  
LSB397 Plant Physiology

#### Year 2, Semester 2

AMB251 Innovation and Market Development  
LSB468 Molecular Biology  
LSB497 Plant Molecular Biology  
LSB605 Protein Engineering and Bioprocessing  
MGB218 Venture Skills

#### Year 3, Semester 1

BSB310 Business and Biotechnology  
LSB509 Medical Biotechnology  
LSB537 Genetic Engineering  
LSB577 Plant Biotechnology 1

#### Year 3, Semester 2

BSB311 Research, Development and Commercialisation Strategies  
LSB409 Readings in Biotechnology  
LSB609 Medical Biotechnology 2  
LSB619 Genomics & Bioinformatics  
LSB677 Plant Biotechnology 2

#### Year 3, Summer Program

LSB709-1 Biotechnology Research Project  
LSB709-2 Biotechnology Research Project  
LSB709-3 Biotechnology Research Project

MAB210 Statistical Modelling 1  
MAB220 Computational Mathematics 1

**Note:** MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

At least 120 credit points (10 units) must be taken from Level 2 and Level 3 mathematics units with at least 48 credit points from Level 3 mathematics units

#### Level 2 Units

MAB311 Advanced Calculus  
MAB312 Linear Algebra  
At least one of  
MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB422 Mathematical Modelling  
Other Level 2 units

MAB313 Mathematics of Finance  
MAB314 Statistical Modelling 2  
MAB420 Computational Mathematics 2  
MAB480 Introduction to Scientific Computation  
MAB481 Visualisation and Data Analysis

#### Level 3 Units

At least four units from  
MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB524 Statistical Inference  
MAB525 Operations Research 3A  
MAB526 Statistical Science 3  
MAB580 Scientific Computation  
MAB613 Partial Differential Equations  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB625 Operations Research 3B  
MAB640 Industry Project  
MAB672 Advanced Mathematical Modelling  
MAB681 Advanced Visualisation and Data Analysis  
Other Level 3 Units:  
MAB523 Introduction to Quality Management  
MAB621 Discrete Mathematics

#### Other Units

Up to a maximum of 96 credit points may be taken, normally from Information Technology and Business units with not more than 48 credit points from first level units. You can take units from a different area with permission from the Course Coordinator.

## ■ Bachelor of Mathematics (MA54)

**Award title:** Bachelor of Mathematics

**CRICOS code:** 049433D

**Location:** Gardens Point

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Associate Professor Ian Turner

### Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available.

### Course Structure - Bachelor of Mathematics

Students must complete at least 192 credit points (16 twelve credit point units) of mathematics units

#### Level 1 Units

MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C

---

## Section Three – Course Information

# International College

<b>Overview .....</b>	<b>310</b>

---------------------------	------------

### Courses

■ Bridging Program (QC03).....	311
■ English for Academic Purposes for degree programs (QC10).....	311
■ English for Academic Purposes for Foundation and University Diploma Programs (QC10).....	311
■ Foundation Program (1 Semester) (QC01).....	311
■ Foundation Program (2 Semesters) (QC02) .....	312
■ Extended Foundation Program (3 Semesters) (QC04) .....	312
■ General English (QC20).....	313
■ University Diploma in Business (BS40) .....	313
■ University Diploma in Information Technology (IT10).....	313
■ University Diploma in Professional Communication (IF06).....	313

## OVERVIEW

QUT International College (QUTIC), an integral part of QUT, offers a range of programs to assist international students to meet university entry requirements at QUT and other Australian universities. In addition, the College offers English Language Programs for students who wish to upgrade their English Language skills for work or other purposes.

The programs, designed to meet the different needs of international students, include English for Academic Purposes, General English, Foundation, University Diplomas, Bridging and Postgraduate Pathway Programs.

Students receive high quality tuition and support in small classes and excellent College facilities while at the same time enjoying the full use of all University facilities including libraries, student services, recreational and computer facilities.

## SENIOR STAFF

*Director, QUT International College:* Ms Elizabeth McDade, TDipCom Strathclyde, TCert Jordanhill, BEdSt Qld, MAcc C.Sturt

*Director of Studies, University Entry Programs:* Vacant

*Director of Studies, English Language Programs:* Mr Ian McGregor, MEd(TESOL) NE, PGDipSocSci Qld, GradDipEd BA Griff

*Senior Administration Coordinator, QUTIC Administration:* Mrs B. Hosegood, BA (ACS) Griff, ATEM

## ■ Bridging Program (QC03)

**CRICOS code:** 003518A

**Location:** Kelvin Grove

**Course duration (full-time):** 1 semester

**Total credit points:** 48

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Acting - Josephine Healy

### Entry Requirements- English Language

IELTS 6.0 with no sub-score less than 5.0 or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

### Progression

In order to progress to an award course, students must:

- i) fulfil the Bridging course requirements
- ii) gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
- iii) meet any other conditions detailed in the 'letter of offer' from International Student Business Services.

### Full-time Course Structure

#### Stream A # (for those with IELTS 6.0)

QCD111	Communication 1
QCD211	Communication 2
QCS230	Computing
	DEGREE UNIT

#### Stream B (for those with IELTS 6.5)

QCD111	Communication 1
QCD211	Communication 2
	DEGREE One
	DEGREE Two

**Note:** #If you have advanced standing, you may be able to undertake two degree units during your Bridging Program

## ■ English for Academic Purposes for degree programs (QC10)

**CRICOS code:** 011424G

**Location:** Kelvin Grove

**Course duration (full-time):** 12 weeks

**Total credit points:** 48

**Course coordinator:** Judith Douse

### Entry Requirements - Academic

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or
2. Produce original documentary evidence of an IELTS score of a minimum 5.5 with no sub-score less than 5.0 (or approved equivalent).

### Entry Requirements - English Language

For EAP followed by direct degree entry, students require successful completion of an EAP entry test OR IELTS 5.5 (with no sub-score less than 5.0). For EAP followed by Foundation or Diploma, students require successful completion of an EAP entry test OR IELTS 5.0 (with Reading & Writing sub-scores of at least 5.0) N.B. Students should also check visa requirements.

### Progression

Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

### Course Structure

#### Modules

QCE003 English for Academic Purposes for Direct Entry to QUT  
The EAP course consists of the following integrated modules:  
Seminars and Presentations  
Academic Reading and Note-making

Academic Writing  
Listening and Note-taking from Lectures  
Speaking in Academic Settings  
Academic Study Skills  
Computer Word-processing and Internet  
Library Research

## ■ English for Academic Purposes for Foundation and University Diploma Programs (QC10)

**CRICOS code:** 011424G

**Location:** Kelvin Grove

**Course duration (full-time):** 12 weeks

**Total credit points:** 48

**Course coordinator:** Judith Douse

### Progression

Successful completion of this EAP course is a pathway into QUT International College Foundation and Diploma programs and the Associate Degree in Dance.

#### Modules

QCE004 English for Academic Purposes for QUTIC Courses  
The EAP course consists of the following integrated modules:  
Seminars and Presentations  
Academic Reading and Note-making  
Academic Writing  
Listening and Note-taking from Lectures  
Speaking in Academic Settings  
Academic Study Skills  
Computer Word-processing and Internet  
Library Research

## ■ Foundation Program (1 Semester) (QC01)

**CRICOS code:** 003287M

**Location:** Kelvin Grove

**Course duration (full-time):** 1 semester

**Total credit points:** 60

**Course coordinator:** Acting - Lesley Chiu

### Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree:

- i) fulfil the Foundation course requirements,
- ii) obtain a grade of 5 (Credit) in Communication 2 or an IELTS 6.5 or equivalent,
- iii) obtain a Grade Point Average (GPA) in the final semester as indicated in the table of Faculty requirements below:

### Required Foundation Grade Point Average by Faculty

Law - Justice Studies - Required GPA 4.2  
Humanities & Human Services - Required GPA 4.2  
Creative Industries - Required GPA 4.4  
Built Environment - Required GPA 4.6  
Engineering (except Aerospace Avionics) - Required GPA 4.6  
Education - Required GPA 4.6  
Health (except Optometry & Psychology) - Required GPA 4.6  
Science - Required GPA 4.6  
Business - Required GPA 4.8  
Law (except Justice Studies) - Required GPA 4.8  
Information Technology - Required GPA 4.8  
Health - Psychology - Required GPA 5.0  
Engineering - Aerospace Avionics - Required GPA 5.8  
Health - Optometry - Required GPA 5.8  
N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

### Full-time Course Structure

#### Semester 1

QCF212	Communication 2
QCF211	Tertiary Preparation Studies 2
QCF256	Mathematics A2

	OR
QCF257	Mathematics B2
	OR
QCF260	Professional Studies
	+ TWO ELECTIVES from the following list
QCF122	Organisations And Management
QCF160	Introduction to Creativity
QCF121	Economics 1
QCF220	Accounting 2
QCF221	Economics 2
QCF254	Physics
QCF255	Chemistry
QCF210	Applied Psychology
QCF230	Information Processing
QCF252	Life Science
QCF240	Legal Studies

**Note:** QCF121 can only be taken under special circumstances and with the approval of the Course Coordinator.

QCF252 and QCF240 are only offered in ALTERNATE semesters.

## ■ Foundation Program (2 Semesters) (QC02)

**CRICOS code:** 003287M

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Total credit points:** 120

**Standard credit points per semester (full-time):** 60

**Course coordinator:** Acting - Lesley Chiu

### Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree :

- fulfil the Foundation course requirements,
- obtain a grade of 5 in Communication 2 or an IELTS 6.5 or equivalent,
- obtain a Grade Point Average (GPA) in the final semester as indicated in the table of Faculty Requirements below:

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

### Required Foundation Grade Point Average by Faculty

Law - Justice Studies - Required GPA 4.2
Humanities & Human Services - Required GPA 4.2
Creative Industries - Required GPA 4.4
Built Environment - Required GPA 4.6
Engineering (except Aerospace Avionics) - Required GPA 4.6
Education - Required GPA 4.6
Health (except Optometry & Psychology) - Required GPA 4.6
Science - Required GPA 4.6
Business - Required GPA 4.8
Law (except Justice Studies) - Required GPA 4.8
Information Technology - Required GPA 4.8
Health - Psychology - Required GPA 5.0
Engineering - Aerospace Avionics - Required GPA 5.8
Health - Optometry - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

### Semester 1

QCF112	Communication 1
QCF111	Tertiary Preparation Studies 1
QCF156	Mathematics A1
	OR
QCF157	Mathematics B1
	+ TWO ELECTIVES from the following list
QCF120	Accounting 1
QCF121	Economics 1
QCF122	Organisations And Management
QCF153	Physical Sciences 1
QCF160	Introduction to Creativity
QCF252	Life Science
QCF240	Legal Studies

**Note:** QCF252 and QCF240 are only offered in ALTERNATE semesters.

### Semester 2

QCF212	Communication 2
QCF211	Tertiary Preparation Studies 2
QCF256	Mathematics A2
	OR
QCF257	Mathematics B2
	OR
QCF260	Professional Studies
	+TWO ELECTIVES from the following list
QCF122	Organisations And Management
QCF160	Introduction to Creativity
QCF121	Economics 1
QCF220	Accounting 2
QCF221	Economics 2
QCF254	Physics
QCF255	Chemistry
QCF210	Applied Psychology
QCF230	Information Processing
QCF252	Life Science
QCF240	Legal Studies
	Approved diploma units (Business, IT or Professional Communication students only)

**Note:** QCF252 and QCF240 are only offered in ALTERNATE semesters.

QCF121 can only be taken under special circumstances and with the approval of the Course Coordinator.

## ■ Extended Foundation Program (3 Semesters) (QC04)

**CRICOS code:** 050167G

**Location:** Kelvin Grove

**Course duration (full-time):** 3 Semesters

**Total credit points:** 132

**Standard credit points per semester (full-time):** 13TP1 - 48CP, 13TP2 - 60CP, 13TP3 - 24CP

**Course coordinator:** Acting - Lesley Chiu

### Entry Requirements - English Language

IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Progression

Conditions of progressing to a guaranteed place in the first year of a QUT degree:

- fulfil the Foundation course requirements,
- obtain a grade of 5 in Communication 2 or an IELTS 6.5 or equivalent,
- obtain a Grade Point Average (GPA) as indicated in the table of Faculty Requirements below - calculated on five (5) Level 2 units:

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

### Required Foundation Grade Point Average by Faculty

Law - Justice Studies - Required GPA 4.2
Humanities & Human Services - Required GPA 4.2
Creative Industries - Required GPA 4.4
Built Environment - Required GPA 4.6
Engineering (except Aerospace Avionics) - Required GPA 4.6
Education - required GPA 4.6
Health (except Optometry & Psychology) - Required GPA 4.6
Science - Required GPA 4.6
Business - Required GPA 4.8
Law (except Justice Studies) - Required GPA 4.8
Information Technology - Required GPA 4.8
Health - Psychology - Required GPA 5.0
Engineering - Aerospace Avionics - Required GPA 5.8
Health - Optometry - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

### Semester 1

QCF115	Foundation English
QCF156	Mathematics A1 OR
QCF157	Mathematics B1 + TWO ELECTIVES from the following list
QCF120	Accounting 1
QCF121	Economics 1
QCF153	Physical Sciences 1
QCF160	Introduction to Creativity
QCF122	Organisations And Management
QCF252	Life Science
QCF240	Legal Studies

**Note:** QCF252 and QCF240 are only offered in ALTERNATE semesters.

### Semester 2

QCF111	Tertiary Preparation Studies 1
QCF112	Communication 1
QCF256	Mathematics A2 OR
QCF257	Mathematics B2 OR
QCF260	Professional Studies + TWO ELECTIVES from the following list
QCF122	Organisations And Management
QCF160	Introduction to Creativity
QCF121	Economics 1
QCF220	Accounting 2
QCF221	Economics 2
QCF254	Physics
QCF255	Chemistry
QCF210	Applied Psychology
QCF230	Information Processing
QCF252	Life Science
QCF240	Legal Studies
	Approved diploma units (Business, IT or Professional Communication students only)

**Note:** QCF252 and QCF240 are only offered in ALTERNATE semesters.

QCF121 can only be taken under special circumstances and with the approval of the Course Coordinator.

### Semester 3 (7 Week Teaching Period)

QCF211	Tertiary Preparation Studies 2
QCF212	Communication 2

**Note:** In this semester students focus on the higher level tertiary preparation and communication skills and attend 18 hours of study per week in their classes over a 7 week period.

## ■ General English (QC20)

**CRICOS code:** 011426E

**Location:** Kelvin Grove

**Course duration (full-time):** 5 weeks

**Total credit points:** 20

**Course coordinator:** Ian Davies

QCE001	General English (Full-time)
	English Language Structures & Systems
	Grammar
	Vocabulary
	Integrated Skills Development
	Cultural Studies
	Electives Activities Program

## ■ University Diploma in Business (BS40)

**Award title:** University Diploma in Business

**CRICOS code:** 025282A

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Elizabeth McDade

### Progression

Requirements for progression to the second year of QUT Bachelor of Business:

- i) fulfil the Diploma course requirements,
- ii) a minimum Grade Point Average (GPA) of 4, and

iii) an IELTS score of 6.5 or its equivalent.

## Full-time Course Structure

### Semester One

BSD110	Accounting
BSD113	Economics
BSD126	Marketing
QCD110	Communication for Business 1

### Semester Two

BSD122	Quantitative Analysis and Finance
BSD115	Management, People and Organisations
BSD119	International and Electronic Business
QCD210	Communication for Business 2

## ■ University Diploma in Information Technology (IT10)

**Award title:** University Diploma in Information Technology

**CRICOS code:** 025283M

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Elizabeth McDade

### Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Progression

Requirements for progression to the second year of QUT Bachelor of Information Technology:

- i) fulfil the Diploma course requirements,
- ii) a minimum Grade Point Average (GPA) of 4, and
- iii) an IELTS score of 6.5 or its equivalent.

## Full-time course structure

### Semester 1

ITD111	Software Development 1
ITD113	Systems Architecture
ITD115	Introduction to Databases
QCD120	Communication for Information Technology 1

### Semester 2

ITD112	Software Development 2
ITD114	Networking Systems
ITD116	IT Professional Studies 1
QCD220	Communication for Information Technology 2

## ■ University Diploma in Professional Communication (IF06)

**Award title:** University Diploma in Professional Communication

**CRICOS code:** 039083D

**Location:** Kelvin Grove

**Course duration (full-time):** 2 semesters

**Total credit points:** 96

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Elizabeth McDade

### Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Progression

Requirements for a guaranteed place in the second year of the following QUT Bachelors degrees:

- i) fulfil the University Diploma course requirements,
- ii) an IELTS score of 6.5 or its equivalent,

iii) achieve a minimum Grade Point Average (GPA) as detailed below for the following course:

**Grade Point average of at least 4 for:**

Bachelor of Mass Communication  
Bachelor of Creative Industries (Interdisciplinary Studies)

**Grade Point Average of at least 4.5 for:**

Bachelor of Creative Industries (Media and Communication)  
Bachelor of Creative Industries (Creative Writing)  
Bachelor of Journalism

**Grade Point Average of at least 5.0 for:**

Bachelor of Creative Industries (Communication Design)  
Bachelor of Fine Arts (Film and Television)\*

\*Please note that students articulating to Bachelor of Fine Arts (Film and Television) will only receive 1 semester of credit.

**Full-time Course Structure**

**Semester 1**

KKD018 Creative Industries  
KKD818 Introduction to Multimedia Technology  
BSD126 Marketing  
QCD110 Communication for Business 1

**Note:** KKD018 and KKD818 are offered in ALTERNATE semesters.

**Semester 2**

KKD418 Cultures and Creativity  
KKD618 Writing For Creative Industries  
QCD210 Communication for Business 2  
Elective

**Note:** KKD418 and KKD618 are offered in ALTERNATE semesters.

**Business Electives**

BSD110 Accounting  
BSD113 Economics  
BSD114 Government, Business and Society  
BSD115 Management, People and Organisations  
BSD119 International and Electronic Business  
ITD111 Software Development 1  
ITD113 Systems Architecture  
ITD115 Introduction to Databases  
ITD114 Networking Systems  
ITD116 IT Professional Studies 1

■ Bachelor of Music/Bachelor of Education (Secondary) (IX07).....	420

## ■ Doctor of Philosophy Regulations (IF49)

These regulations are found in the QUT Manual of Policies and Procedures (MOPP). Please refer to the MOPP for the latest updates.

Please contact individual faculties for details on individual PhD programs.

### Introduction

The main purpose of research graduate study is to encourage independence and originality of thought in the quest for knowledge. The Doctor of Philosophy degree is awarded in recognition of a student's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge. The candidate's research must reveal high critical ability and powers of imagination and synthesis, and may be in the form of new knowledge, or of significant and original adaptation, application and interpretation of existing knowledge.

### 1. General Conditions

1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act.

1.2 This document sets out the Regulations governing the award of the degree of Doctor of Philosophy (PhD) at the Queensland University of Technology (QUT).

1.3 The Council's power to approve arrangements for the registration and examination of candidates for the degree of PhD at QUT is exercised through a Research Degrees Committee, which shall be a subcommittee of the University Research and Development Committee. In exercising this power, the Research Degrees Committee shall be advised by faculty academic boards, deans of faculties and heads of schools as appropriate.

1.4 The PhD will be awarded subject to the Research Degrees Committee receiving:

- a certificate of satisfactory completion of the candidate's approved course of study signed by the Principal Supervisor, Head of School and endorsed by the faculty;
- a declaration signed by the candidate that she/he has not been a candidate for another tertiary award during the tenure of their PhD candidature without the permission of the Research Degrees Committee;
- a declaration signed by the candidate stating original authorship of the thesis;
- an application for the conferral of the degree, signed by the Principal Supervisor, Director of Centre, Head of School as appropriate stating that the candidate has satisfactorily completed the examination process including completing any revisions or re-examination required by the external examiners; and
- at least one final copy of the thesis in the prescribed format.

### 2. Definitions

2.1 Candidate means any person admitted to the planned program of research leading to the degree of PhD.

2.2 Candidature means the period of study towards the degree of PhD being the period from the date of commencement as advised by the Research Students Centre until the thesis is submitted for examination, after which time the candidate holds the status of 'Under Examination' or until the candidature is terminated or the candidate withdraws.

2.3 Confirmed candidature means the period of study towards the degree of PhD from the date of successful completion of Confirmation of Candidature as approved by Research Degrees Committee to the approval of the award of the degree of PhD by the University Academic Board.

2.4 Collaborative research group means the group of researchers directly involved with the candidate's research project or a larger research project of which the candidate's study forms a part. This

does not include other researchers from any collaborating organisation who do not have input into the specific research project.

2.5 The degree of Doctor of Philosophy (PhD) at QUT signifies that the holder has undertaken a substantial piece of original research which has been conducted and reported under proper academic supervision and in a research environment for a prescribed period. The PhD's contribution to knowledge rests on the originality of the approach and/or interpretation of findings and, in some cases, the discovery of new knowledge. The award of a PhD demonstrates that the candidate has the ability to communicate research findings effectively in the professional arena and in an international context.

2.6 Examination means the formal testing of the candidate's thesis to critically evaluate whether the conditions for the award of the degree of PhD have been met.

2.7 Examination Committee means the committee of external examiners appointed to undertake examination of the candidate's thesis.

2.8 External candidate means a candidate who will undertake their study away from QUT campuses, that is, overseas, interstate, remote from Brisbane or at a place of professional employment or another research institution in Brisbane (for example Queensland Institute of Medical Research).

2.9 Faculty means the relevant faculty of QUT.

2.10 Faculty Committee means the duly constituted committee responsible for the management and oversight of postgraduate candidates within the faculty.

2.11 A Final Seminar means the public seminar called by the faculty to determine whether the thesis is acceptable for examination by the Examination Committee.

2.12 Internal candidate means a candidate who will complete their study whilst physically attending a campus of QUT and therefore there is no requirement for a Memorandum of Understanding from an external institution or an External Addendum from the student.

2.13 Masters by coursework means a master's degree, which has a research component comprising less than 67% of the total course of study.

2.14 Masters by research means a master's degree, which has a research component comprising 67% or more of the total course of study.

2.15 Prescribed Form means the required form found on the Research Students Centre website.

2.16 Professional Doctorate (Research) means a doctoral degree at QUT, which has a formal coursework component, comprising no more than 33% of the total course of study.

2.17 Professional Doctorate (Coursework) means a doctoral degree at QUT, which has a significant formal coursework component comprising more than 33% of the total course of study.

2.18 Recognised institution means any tertiary education institution accepted by the Research Degrees Committee for the purposes of these Regulations.

2.19 Research centre or centre means the relevant research centre of QUT.

2.20 Review Period means a period of up to three months after completion of a progress report, eg the Confirmation of Candidature, Annual report or interim faculty report during which the candidate is required to do more work until the faculty advises the Research Degrees Committee that the candidature should be continued or terminated.

2.21 School means the relevant school of QUT.

2.22 Thesis means the collection of materials submitted by the candidate to the Examination Committee for examination.

### 3. Admission to Candidature

3.1 To gain admission into a planned research program leading to the award of PhD a candidate normally shall hold a relevant first class or second class division A honours degree or equivalent, or an appropriate masters degree, or a professional doctorate, from a recognised institution (see Regulations 3.2 and 3.3)

3.2 Masters degrees by coursework and coursework professional doctorates must contain a significant research component, which would normally be no less than 33% of the total degree in order to qualify an applicant for admission to the PhD program.

Normally, applicants holding a masters by coursework or a coursework professional doctorate must have a GPA of at least 5.0 on a 7 point scale or equivalent standing as certified by the faculty in which the candidate wishes to enrol before they may be admitted to PhD candidature.

3.3 Coursework masters and professional doctorates which do not contain the research component defined in Regulation 3.2 are not considered adequate to allow admission to the PhD program unless (a) the applicant can demonstrate a grade point average of at least 5.0 on a 7 point scale in such a course; and (b) an additional level of research experience and potential which is deemed acceptable to the faculty and approved by the Research Degrees Committee. For example, by the publication of articles in refereed research journals.

3.4 Applicants must demonstrate sufficient command of English to complete the proposed course of study in English, that is, the Confirmation Seminar, the Final Seminar, and the written thesis. (Exceptions may apply, see Regulation 13.2).

3.5 Applicants will require approval from Research Degrees Committee to be admitted where they expect to be concurrently enrolled in another course of study particularly another research degree program.

### 4. Application Procedure and Commencement

4.1 Candidature shall have commenced on the date of admission or at some later date as determined by the Research Degrees Committee.

4.2 An application for admission shall be made on the prescribed form and shall involve a two-stage process.

4.3 Stage 1 of the application process must include Doctor of Philosophy Stage 1 Application Form as detailed in:

- the Postgraduate Research Form (PR) (if the applicant holds citizenship or permanent residency in Australia or New Zealand) or International Research Candidature Form FR (if the applicant is an international candidate);
- personal data;
- details of relevant professional and research experience;
- the proposed field of study;
- brief (200-300 words) outline of the research project to be undertaken;
- the centre in which the research is to be undertaken; and
- a certified copy of the candidate's academic record.

The application must be approved by the duly constituted faculty committee which will determine whether the applicant meets the criteria for admission (Section 3) or, if deficiencies exist, what they are and how they can be remedied.

4.4 The Stage 2 application must be completed and submitted to the Research Degrees Committee within three months of conditional admission (up to six months for part-time candidates and international candidates) and must include:

- a completed Doctor of Philosophy Stage 2 Application form;
- the proposed title of the thesis;
- the objectives of the program of research and investigation;
- an outline of the proposed research;
- the research methods and plan;
- the relation of the study to previous work in the same field by the candidate and others

- a preliminary literature review;
- a substantial bibliography;
- a timeline for completion of the proposed research;
- proposed mode of thesis presentation (i.e., Monograph, by Publication, by Creative Work)
- a statement of individual contribution if the proposed plan of study is part of a group project;
- the coursework to be completed;
- a Research Ethics Review Checklist;
- health and safety requirements
- the proposed supervisors and their credentials; and
- an Intellectual Property Agreement as required (ref. Regulation 6.7).

Stage 2 of the application must be approved by the faculty committee and then recommended to the Research Degrees Committee for final approval.

4.5 If the Stage 2 application is not submitted to the Research Degrees Committee within the time specified, the Research Degrees Committee may, on advice from the faculty committee and Principal Supervisor, terminate the candidature. In exceptional cases an extension of approximately three months may be granted in order to meet the conditions of the Stage 2 application.

4.6 To complete Stage 2 of the application process, the faculty committee shall confirm to the Research Degrees Committee:

- that the applicant's proposed topic of research is consistent with the aims and objectives of the school/centre; and
- that the school/centre is willing and able to provide appropriate accommodation, facilities and physical, human and financial resources for the proposed study for the duration of the candidature.

4.7 Following receipt of the faculty committee's advice on the Stage 2 application, the Research Degrees Committee shall determine that:

- the applicant be admitted to PhD candidature in which case it shall confirm the appointment of supervisors; or
- the applicant be required to submit further information which shall be considered at a subsequent meeting of Research Degrees Committee; or
- the applicant be admitted to masters by research candidature with the option of later applying to upgrade to PhD candidature (ref. Section 7), or
- the applicant not be admitted;

and may set conditions regarding the offer of admission. An applicant who is not admitted to candidature may re-apply for admission at a later date after addressing issues raised.

### 5. Enrolment

5.1 Once admitted to PhD candidature, a candidate may enrol either as a full-time or a part-time internal candidate or a full-time or part-time external candidate though restrictions apply to some Scholarship holders.

5.2 To be enrolled as a full-time candidate, a candidate must be able to commit to the course 30 hours per week averaged over each year of candidature. Paid work, including preparation, teaching, marking and research assistant duties, may be undertaken but must not interfere with a candidate's study program. A candidate in receipt of a scholarship is subject to additional restrictions on the amount of paid work allowable as described in the relevant scholarship guidelines.

5.3 A candidate who is unable to devote to the course the proportion of time specified in Regulation 5.2 may enrol as a part-time candidate. A part-time candidate will be expected to progress at half the rate of a full-time candidate: an average of 15 hours per week.

5.4 It is the candidate's responsibility to remain enrolled from the date of commencement until the thesis is submitted for external examination to the Research Students Centre (ref. Section 9).

5.5 The Research Degrees Committee may terminate a candidate's enrolment, having taken account of all relevant documented circumstances and having given the candidate opportunity to show cause why enrolment should not be cancelled if:

- it is of the opinion that the candidate either has effectively discontinued their studies or has no reasonable expectation of completing the course of study within the maximum time allowed (ref. Section 9); or
- the quality and progress of research gives no reasonable expectation of successful completion of the degree based on written/formal communications between the candidate and relevant staff members including the principal supervisor, Head of School and/or Centre Director as recorded in progress reports; or
- the candidate's grade point average in coursework undertaken is below 5.00 on a scale of seven or other measure agreed to between candidate and supervisors or principal supervisor.

5.6 A candidate whose enrolment has lapsed or has been cancelled and who wishes subsequently to re-enter the course of study to pursue an investigation, which is substantially the same as their previous investigation, must apply in writing to the faculty. If the faculty supports the readmission of the candidate, the application will be forwarded to the Research Students Centre for consideration by the Research Degrees Committee, which may set conditions for readmission to the course.

5.7 At any point through their candidature a candidate may submitted a request for transfer to a Professional Doctorate by Research or Masters by Research on the prescribed Transfer Form available from the Research Students Centre or its website.

5.8 Normally, PhD candidates must be affiliated with a centre, which is appropriate to the planned research program. Sole supervisors may be approved by Research Degrees Committee.

5.9 It is the faculty's responsibility to ensure that candidates are affiliated with the appropriate centre. Once the candidate is enrolled, he/she cannot transfer to another centre without faculty endorsement, which must incorporate advice from the relevant Centre Directors, and Research Degrees Committee approval. Reasons for transfer include:

- the centre ceases to exist;
- the centre cannot continue to provide the necessary supervision and/or support;
- the Principal Supervisor transfers to another centre, faculty or institution; and/or
- the candidate asks to be transferred with supportable justification.

Any request for transfer must be made on the Transfer form.

## 6. Planned Research Program

6.1 A candidate for the degree of PhD is required to complete successfully a planned research program that will result in the candidate making a significant individual contribution to the body of knowledge. This contribution may be in the form of new knowledge or of significant and original adaptation, application and interpretation of existing knowledge.

6.2 The planned research program will normally include:

- a program of assessed coursework including the Advanced Information Retrieval Skills unit;
- participation in university scholarly activities such as research seminars, teaching or publication;
- regular interaction with supervisors;
- a program of supervised research and investigation; and
- evidence that the program will enable the candidate to acquire competence in relevant methods of research and scholarship

related to the subject of the proposed investigation and to demonstrate sustained independent research effort.

6.3 Coursework in the PhD program demands a capacity for critical analysis and a specialisation of research interests not normally appropriate for an undergraduate program. Such coursework may be conducted in a number of ways:

- as advanced lecture courses;
- as seminars in which faculty and candidates present critical studies of selected problems within the subject field;
- as independent study or reading courses under faculty supervision;
- as research projects conducted under faculty supervision.

In all cases, coursework will be based upon a written plan briefly setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed reading material and the method of assessment of progress through and at the end of the course. This coursework will be planned by the candidate and the Principal Supervisor to contribute to, and or, provide structure to the overall program of research.

6.4 Assessed coursework as described in Regulation 6.3 will comprise not more than 33% of candidature and will normally be completed within the first half of the candidature.

6.5 A candidate is normally expected to pursue the approved program of research and investigation throughout the period of candidature. Where circumstances make significant modification of the program desirable, approval for the proposed change must be sought in writing from the Research Degrees Committee through the faculty committee. Permission to continue the candidature may be given by the Research Degrees Committee in such circumstances provided that the planned research program remains in the same field.

6.6 Where an approved program of research and investigation forms part of the work of a research team or a larger research project, the application must indicate clearly the individual contribution expected to be made by the candidate, their individual research activities and responsibilities and the extent to which the work is to be carried out in collaboration with others.

6.7 Where an approved program of research and investigation is carried out jointly in QUT and in an industrial, commercial, professional or research establishment, an outline of the interrelationship of the work to be undertaken at each of the sites in relation to the whole project must be provided as part of the Stage 2 application. An intellectual property agreement must also be completed on the prescribed form.

6.8 There is provision for PhD candidates, in consultation with their Faculty, to apply to undertake a Joint PhD with another University. Before such an application is given final approval by the Research Degrees Committee, a Joint PhD Agreement must be drawn up between the two participating institutions giving particular details of the arrangements pertaining to candidature including but not limited to: terms of candidature, examination, annual reporting requirements including definitions of satisfactory progress, research proposal submission, intellectual property, animal and human ethics approvals.

6.8.1 Unless otherwise set out below or in a specific Joint PhD Agreement

- (a) the relevant provisions of University policies governing research higher degrees will apply to a PhD candidate with a Joint Agreement;
- (b) the regulations for the degree of Doctor of Philosophy and regulations and conditions governing scholarships and awards will apply to a candidate with a Joint PhD Agreement;
- (c) a candidate with a Joint Agreement enrolled in a PhD programme will be required to work within the appropriate QUT Faculty for at least 30% of the total maximum time limit for the PhD programme as set out in the Joint PhD Agreement.

6.8.2 Unless otherwise approved by the Research Degrees Committee a person for whom a Joint PhD Agreement is being negotiated may not commence work towards the proposed programme until the agreement has been approved by the Research Degrees Committee.

6.8.3 With the permission of the Research Degrees Committee, a candidate enrolled in a PhD course or a masters by research course at QUT may transfer into a PhD programme with a Joint PhD Agreement with full credit for work completed during the PhD or masters by research.

6.8.4 Normally a candidate will not be permitted to enter into a Joint PhD Agreement if they have been enrolled in their current course for more than half of the maximum period of candidature.

6.8.5 A candidate enrolled in a Joint PhD may transfer into a PhD or a masters by research course at QUT with full credit for work completed during the Joint PhD.

6.8.6 When submitting a thesis for examination for a Joint PhD a student will provide to each institution an abstract in the language in which a thesis is normally written at that institution.

6.8.7 There will be one examination process which will be set out in the Joint PhD Agreement and both institutions will be bound by the outcome.

6.8.8 Each candidate involved in a Joint PhD Agreement will be provided with a copy of the Joint PhD Agreement.

## 7. Transfer of Candidature from other Research Degrees

### 7.1 Internal Applicants From Within QUT

7.1.1 Normally a person who has completed 12 months full-time equivalent of candidature in a QUT masters by research program or a QUT professional doctorate (research) may apply to the Research Degrees Committee for articulation to the PhD if the following conditions have been met:

- (a) meets the requirements outlined in Section 3;
- (b) has demonstrated the capacity to undertake research at the PhD level;
- (c) has a research project that is clearly capable of being extended and converted to PhD level; and
- (d) has completed the Confirmation of Candidature process including the Confirmation Seminar.

A request for articulation must be made on the prescribed form (the Confirmation of Candidature form) and returned to the Research Students Centre, through the faculty committee, for consideration by the Research Degrees Committee.

7.1.2 A candidate enrolled in a masters by research will only be approved for articulation to PhD candidature when the candidate is able to satisfy all the requirements outlined in Regulation 7.1.1. Where course work has been undertaken as part of the masters by research degree or professional doctorate (research), an articulation will normally be approved only if the candidate has attained a grade point average of at least five on a seven point scale or equivalent standing as certified by the faculty in which the candidate wishes to enrol. Normally a maximum of twelve months' credit from the masters by research program or professional doctorate (research) may be carried forward to the PhD program.

7.1.3 Applications to articulate into the PhD shall be made on the Confirmation of candidature form and submitted via the faculty committee, to the Research Degrees Committee for consideration. Such application shall consist of:

- required administrative details;
- reasons for articulation
- Evidence of the candidate's capacity to undertake research at the PhD level; and evidence of research project meeting PhD level requirements
- substantial details of progress to date;

- full course of study;
- a time-line for completion of the project;
- a certified copy of the candidate's academic record (if transferring from another recognised institution);
- a formal request for the amount of credit to be granted for previous candidature;
- a Research Ethics Checklist or a copy of QUT Ethics Committee Clearance;
- proposed supervisors and their credentials; and
- an Intellectual Property Agreement if required (ref. Regulation 6.7).

### 7.2 External Applicants From Another Institution

7.2.1 PhD, masters by research or professional doctorate (research) candidates transferring enrolment to a QUT PhD program from another institution will normally be required to undergo the full QUT Confirmation of Candidature process including presentation of a seminar if transferring after twelve months or more of full-time candidature or part-time equivalent at their former institution unless they have successfully completed an equivalent procedure at their previous institution. Candidates seeking transfer to QUT in under twelve months/full-time or twenty-four months/part time will normally be required to submit a Stage 2 application.

7.2.2 External Transfer application to the PhD shall be made on the prescribed form.

7.2.3 The faculty committee shall first review the candidate's progress and planned research program and append to the Stage 1 Application form, a statement which sets out:

- the nature, duration and quality of the work already done, its relevance to the proposed PhD thesis and the recommended amount of credit;
- an appraisal of the candidate's progress and suitability for transfer of candidature and confirmation of PhD candidature;
- an agreement that the proposed research is within the aims and objectives and physical and human resources of the centre and/or school; and
- an agreement that the centre and/or school is willing and able to provide supervision, accommodation, facilities and physical and human resources for the duration of the study.

7.2.4 In considering the Stage 1 application the Research Degrees Committee shall:

- approve the transfer of candidature, normally confirming PhD candidature, and determine the amount of credit to be allowed, the date of admission and minimum and maximum candidature dates; or
- request changes to the planned research program which must be addressed by the candidate and resubmitted to the Research Degrees Committee; or
- not approve the transfer.

## 8. Place and Conditions of Work

8.1 Internal candidates (part-time and full-time) are expected to carry out their research program in a suitable environment at a QUT Campus.

8.2 The Research Degrees Committee must be satisfied that appropriate arrangements as set out in these Regulations regarding coursework, participation in scholarly activities, supervision, facilities in training and research methods can be made for each candidate including part-time candidates. The Head of School must ensure that supervision, accommodation, equipment and access to library, computing and experimental facilities meet the needs of the approved planned research program for the duration of the candidature.

8.3 The Research Degrees Committee may permit a PhD candidate to conduct their research as an external candidate either elsewhere in Australia or overseas or to approve a change of enrolment from internal to external status or vice versa.

8.4 The candidate and the Principal Supervisor, at Stage 1 as part of the application process or prior to the requested change to external status, must provide written evidence on the prescribed form to the Research Degrees Committee that:

- the arrangement for the research at the external location (normally a recognised research establishment or place of professional employment) meets the normal requirements of the PhD program;
- the candidate has opportunity to participate in scholarly activities;
- academic standards in the conduct of the PhD research can be assured;
- a suitable program of contacts between the candidate and the Principal Supervisor can be maintained and the methods by which this will be achieved are explained;
- a suitable Associate Supervisor will be responsible for regular supervision and is available at the external establishment or an explanation given as to why this is unnecessary;
- a letter of support from the external establishment stating that the resources required for the study are available and accessible to the candidate and will continue to be available for the duration of the candidature.

In exceptional circumstances the candidate, Principal Supervisor and Centre Director, Head of School or nominee may present a case for exemption from the above requirements.

8.5 External candidates must normally spend a minimum of three months at QUT during the course of their candidature and must normally be present for the Confirmation of Candidature and for the Final Seminar presentation (ref. Regulation 16.9) of the thesis.

8.6 In exceptional circumstances, the candidate may be permitted to complete the Final Seminar by video-conference. At least three months notice must be given of this intention to allow the school, Centre and/or Faculty to make adequate arrangements.

## 9. Period of Time for Completion of Planned Research Program

9.1 The expected/Standard period of candidature is:

- full-time candidates: thirty-six months from the date of commencement
- part-time candidates: seventy-two months from the date of commencement.

9.2 The minimum period of candidature is:

- full-time candidates: twenty-four months from the date of commencement
- part-time candidates: forty-eight months from the date of commencement.

In special cases, the Research Degrees Committee may approve a shorter period.

9.3 The maximum period of candidature is:

- full-time candidates: forty-eight months from the date of commencement
- part-time candidates: ninety-six months from the date of commencement.

9.4 Where a candidate wishes to change from full-time to part-time candidature or vice versa, application must be made on the prescribed form and returned to the Research Students Centre, through the faculty committee, for consideration by the Research Degrees Committee.

9.5 A candidate must submit their thesis to the Research Students Centre, for external examination no later than the maximum candidature date.

9.6 A candidate who does not expect to submit their thesis by the maximum candidature date must apply for an extension on the prescribed form and returned to the Research Students Centre, through the faculty committee, for consideration by the Research Degrees Committee prior to the expiry of their maximum

candidature date. The application must include the reasons for the delay, the written endorsement of relevant school and Faculty nominees and a revised time-line for completion. Applications for extensions will not normally be considered by the Research Degrees Committee unless the reasons for the delays have been documented in previous annual reports (ref. Section 11).

9.7 The maximum period of extension for which a candidate may be given approval is 12 months past the original maximum candidature date for full-time candidates and 24 months for part-time candidates. In exceptional circumstances, which must be documented, the Research Degrees Committee may approve a further extension. Minor breakdown of computer equipment or absence of the Principal Supervisor are not usually considered exceptional.

9.8 A candidate who wishes to take leave of absence for a specified period from their PhD program must apply in advance on the prescribed form and return it to the Research Students Centre, through the faculty committee, for consideration by the Research Degrees Committee. The application must include the reasons for the leave of absence, the written endorsement of the Principal Supervisor and the start and end dates of the period of leave. If the Research Degrees Committee approves the period of leave of absence, the duration of the specified period will be added to the minimum and maximum submission dates of the candidature.

9.9 Normally, the maximum period of leave of absence for which a candidate may be given approval is 12 months for a full-time candidate and 24 months for a part-time candidate during the term of their candidature. A candidate who wishes to take leave of absence for a longer period must withdraw from candidature and apply for re-entry at a later date, on the prescribed form.

9.10 Normally, leave of absence will not be granted prior to successful submission of the Stage 2 application.

9.11 A candidate who remains not currently enrolled for a period greater than twelve months will be deemed to have ceased their program of study and their candidature will be terminated. If a candidate is unable to complete the approved course of study the candidate may apply for transfer to an appropriate masters or professional doctorate by research.

9.12 Candidates are entitled to receive up to twelve months parental (maternity/paternity/ adoption) leave. The Research Degrees Committee must be notified on the prescribed form and supplied with a medical certificate (and in the case of paternity leave a marriage certificate or statutory declaration showing the candidate's relationship to the mother), and the written endorsement of relevant Faculty nominees. Periods of parental leave shall not be included as part of the 12 or 24 month leave of absence maximum.

## 10. Supervision

10.1 Supervision of PhD candidates shall be conducted according to the QUT Code of Good Practice (**D/2.7**) for Postgraduate Research Studies and Supervision (see also **QUT Code of Conduct for Research**).

10.2 A Principal Supervisor and at least one Associate Supervisor from QUT shall be appointed.

10.3 The Principal Supervisor has responsibility for supervising the candidate on a frequent basis and must be a current member of QUT staff or an Emeritus Professor of QUT still active in research. The Principal Supervisor shall have undertaken successful supervision of research degree candidates, shall normally have a PhD and shall have an established research record in the area of the proposed project.

10.4 One Associate Supervisor must be a member of QUT staff for all internal and external candidates. Where appropriate, more than one Associate Supervisor may be appointed and additional Associate Supervisors may be from either QUT or another appropriate industrial, professional, commercial or research

establishment. Associate Supervisors should possess appropriate expertise in the research field and normally have undertaken successful supervision of research degree candidates and must indicate their agreement to supervise on the prescribed form. An Associate Supervisor may be appointed from an establishment formally collaborating on a research project. Employers of the External Associate Supervisors must approve a completed Memorandum of Understanding to confirm the appointment of the supervisor and commitment of resources for the candidate.

10.5 For a candidate studying externally, an Associate Supervisor from the external institution linked to the project will normally be appointed. Employers of the External Associate Supervisors must approve a completed Memorandum of Understanding to confirm the appointment of the supervisor and commitment of resources for the candidate.

10.6 A person who is currently a candidate for a PhD (at QUT or elsewhere) may not act as a Principal Supervisor for a PhD candidate at QUT, and should not normally act as an Associate Supervisor unless approved by Research Degrees Committee.

10.7 Where the Principal Supervisor will be absent from QUT for a period of three consecutive months or longer during the period of candidature, the QUT Associate Supervisor will become acting Principal Supervisor for this period.

10.8 If the Principal Supervisor leaves the staff of QUT, the QUT Associate Supervisor will normally fill the role of acting Principal Supervisor immediately and until a new Principal Supervisor is appointed by the faculty, with the agreement of the candidate. A formal appointment of a new Principal Supervisor must be made within three months of the original Principal Supervisor's departure.

## 11. Reporting Procedures

11.1 The Principal Supervisor and candidate are required to report annually on the prescribed form to the Research Degrees Committee on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the faculty committee, Head of School /Director of the Centre or nominee to the Research or Students Centre for consideration by the Research Degrees Committee.

11.2 Faculties should develop additional internal policies and procedures for review of candidates' progress between annual reports that ensure unsatisfactory progress is dealt with expeditiously.

11.3 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

11.4 Where progress is deemed unsatisfactory, in the Confirmation of Candidature, Annual Report or other interim faculty report, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the faculty. At any stage through this review process the candidate may submit a Transfer Form to change their course from the PhD to a Masters by Research or Professional Doctorate. The Research Degrees Committee shall consider the transfer application and if approved, it will lead to the end of the PhD candidature and the discontinuation of the Review Period. A Faculty, School or Centre may require a Review Period in the new course of study as a condition of transfer.

11.5 For continuing PhD candidature, after the Review Period the Faculty Committee must forward to the Research Degrees Committee a report on the Candidate's progress which will include written documentation of the steps that have been taken

to resolve the specified deficiencies in the candidate's program and an assessment of progress during the Review Period. The Research Degrees Committee will then approve continuation of candidature if the progress is deemed satisfactory.

11.6 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated (ref. Regulation 12.8).

11.7 A candidate who has been placed under review after an unsatisfactory annual report or interim report established by the faculty may not take leave of absence until the continuation of the candidature has been approved by the Research Degrees Committee.

11.8 When a candidate's progress has been reported to the Research Degrees Committee as unsatisfactory in any two consecutive reports during the candidature, the Research Degrees Committee shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

11.9 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

11.10 Applications for extensions of candidature or scholarships or leave of absence due to delays or problems with the planned research program will not normally be considered by the Research Degrees Committee unless the delays or problems have been documented in previous reports.

11.11 If the candidate does not show cause (refer Regulations 11.6, 11.8) why the enrolment should not be terminated, the Research Degrees Committee may terminate the candidate's enrolment or with the agreement of the faculty offer admission to candidature for the degree of masters by research.

## 12. Confirmation of Candidature

12.1 Within twelve months of admission for full-time candidates and twenty-four months for part-time candidates and fifteen months for International Candidates, the candidate shall present (in consultation with their supervisors) a plan of the research program for the remainder of the candidature and a report on the work done to this point. This confirmation report shall incorporate a substantial literature review and shall provide evidence of the research capacity of the candidate including the rate of progress to this point. The plan shall include:

- the area of study in which the candidate's course is located;
- any remaining coursework to be completed including an assessment plan;
- the nature of participation in scholarly activities of the centre, school, or faculty in which the study is being undertaken;
- the objectives of the program of research and investigation and its relationship to published research in the same field;
- the research methods to be followed;
- the mode of thesis presentation e.g. by publication, monograph or creative works.
- the title of the thesis; and
- a time-line for completion of the research program.

12.2 The candidate shall present this confirmation report and planned research program at a Confirmation Seminar open to faculty members and the public. Normally, a Review Panel shall be appointed by the Faculty including the principal supervisor, Head of School or nominee and a senior member of faculty staff from outside the school or centre in which the candidate is located.

12.3 A candidate who is not able to complete Confirmation of Candidature within the timeframe listed in Regulation 12.1 must

apply for an extension at least one month in advance of that deadline through the faculty committee to the Research Degrees Committee. Normally, a maximum of three months extension may be granted.

12.4 The faculty committee shall review the candidate's progress and planned research program and shall submit their recommendations on the prescribed form to the Research Degrees Committee. This shall include:

- an appraisal of the research capacity of the candidate
- an appraisal of the candidate's progress and suitability for continuation in the PhD program;
- the documents prepared by the candidate pursuant to Regulation 12.1;
- a statement that the research program is of the standard required for a PhD program;
- statements of whether the studies continue to be within the aims and objectives and physical and human resources of the centre and/or the school; and
- a report on the candidate's seminar.

12.5 Candidates who are undertaking confirmation in order to articulate from a masters by research or a professional doctorate (research) at QUT must complete the confirmation process and should address the additional requirements in Regulation 7.1.

12.6 In considering the application for Confirmation of Candidature, the Research Degrees Committee:

- will, if the conditions are met, confirm the candidature and notify the candidate; or
- may require changes to the planned research program; or
- may, if the recommendation of the faculty committee is not to confirm the candidature immediately, place the candidate under review for up to three months. At the end of the Review Period, the faculty committee must advise the Research Degrees Committee whether the conditions of the review have been met.

12.7 Where a candidate is placed under review following the Confirmation process, the Principal Supervisor must advise the candidate within seven days of the seminar of the conditions to be met in the form of clear, written guidelines on the work to be completed and due dates for the submission of materials and whether a further Confirmation Seminar is required. The conditions must be endorsed by the candidate, supervisor(s), director of centre, the Head of School or nominee, chair of the appropriate faculty committee or dean as appropriate and be forwarded within fourteen days to the Research Students Centre for noting by the Director, Research and Research Training.

12.8 Where a candidate's progress remains unsatisfactory after the Review Period the Research Degrees Committee, on advice from the faculty committee, shall either grant a further extension of the Review Period of up to three months or, after giving the candidate the opportunity to show cause why one of the following courses of action should not be taken:

- terminate the candidature with an offer of admission to the degree of masters by research, or
- terminate the candidature with no such offer.

### 13. Thesis Guidelines

13.1 The thesis must be presented in accordance with the requirements of the QUT Council, including any accompanying declarations and in accordance with - **Requirements for Presenting Theses** and the main body of the text must not exceed 100,000 words.

13.2 Except with the specific permission of the Research Degrees Committee the thesis must be presented in the English language. Such permission must be sought at Stage 1 of the application for admission to the PhD program and will not be granted solely on the grounds that the candidate's ability to satisfy the External Examination Committee will be affected adversely by the requirement to present the thesis in English.

13.3 Where a candidate's research program forms part of the work of a research team or larger research project, the thesis must indicate clearly the candidate's individual contribution and the extent to which co-workers contributed to the candidate's program.

13.4 Subject to QUT's intellectual property policy the copyright of the thesis is vested in the candidate.

13.5 Where a candidate or the sponsoring establishment wishes the thesis to remain confidential for a period of time after the completion of the work, written application for approval stating the reasons must be made to the Research Degrees Committee when the thesis is submitted for external examination. The period normally shall not exceed two years from the date on which the Head of School or nominee recommends acceptance of the thesis to the Research Degrees Committee.

13.6 A candidate may not present in the thesis any work for which another degree or diploma has been awarded by QUT or any other academic institution, but such a candidate shall not be precluded from incorporating extracts from such work in the thesis provided that the sum of any such extracts does not constitute more than 10% of the thesis and provided also that the source of each such extract is stated explicitly.

13.7 Prior approval must be obtained from the Research Degrees Committee for any course of PhD study leading to the presentation of a thesis other than in writing. Full details of the alternative course of study should be provided formally at Stage 2 together with a proposal regarding the form the final thesis and its examination is expected to take.

13.8 A candidate may submit with the thesis other kinds of relevant material (such as films, audio tape recordings, video tape recordings, CD-ROMS, models, software programs, evidence of exhibitions, or other materials for the purposes of illustration) which shall be accompanied by evidence of the extent to which the candidate has been responsible for their preparation.

13.9 A PhD may be awarded on the basis of the submission of published papers as per Section 14, normally indicated in the Stage 2 submission.

13.10 A PhD may be awarded on the basis of the submission of a creative work as per the Regulations set out in Section 15, normally indicated in the Stage 2 submission.

13.11 A candidate's name will not be placed on the list for graduation until final bound and electronic copies of the thesis are received in the Research Students Centre.

13.12 A candidate who passes but is required to make revisions to the thesis after external examination must lodge the final bound and electronic copies of the thesis with the Research Students Centre, no later than 12 months after the date of receipt of examiners' reports or the candidate shall be deemed to have failed unless an extension has been approved by the Research Degrees Committee.

13.13 When a final copy of the thesis has been lodged with the Research Students Centre in electronic and final bound form, the names of the examiners will be released to the candidate on request, providing that the examiner has not indicated otherwise.

### 14. Presentation of PhD Theses by Published Papers

#### 14.1 Preamble

14.1.1 The Queensland University of Technology permits the presentation of theses for the degree of Doctor of Philosophy in the format of published and/or submitted papers, where such papers have been published, accepted or submitted during the period of candidature.

14.1.2 Papers submitted as a PhD thesis must be closely related in terms of subject matter and form a cohesive research narrative.

## 14.2 Format

14.2.1 The thesis may be comprised of published papers, manuscripts accepted for publication, manuscripts submitted for publication or under review.

14.2.2 The minimum number of papers and/or manuscripts is normally three. At least one paper must have been published, accepted, or be undergoing revision following refereeing.

14.2.3 Where the papers have multiple authorship, the candidate must be principal author on at least two of the three papers and have written permission of the co-authors.

14.2.4 Normally, the thesis shall include the following:

- title page;
- abstract and key words;
- list of publications and/or manuscripts;
- contents;
- statement of original authorship;
- acknowledgments;
- introduction;
- literature review; published papers and submitted manuscripts; and
- general discussion.

14.2.5 The abstract summarises the main findings presented in each published paper or submitted manuscript and should indicate how the included works, when considered together, demonstrate a significant contribution to knowledge in the discipline.

14.2.6 The introduction should contain succinct statements under the following headings:

- description of research problem investigated;
- overall objectives of the study;
- specific aims of the study; and
- account of research progress linking the research papers.

The account of research progress must link together the various papers submitted as part of the thesis. The intention of this Section is to provide continuity for the entire thesis so that the reader can move from one chapter to the next understanding the logic behind the progression of the research program.

14.2.7 The literature review will, of necessity, replicate literature cited in subsequent chapters but must contain a clear statement on the significance of the project aims, a critical review of relevant literature, identification of knowledge gaps, and the relationship of the literature to the experimental program.

14.2.8 Published papers/papers submitted in the following categories may be included but each must be presented as an individual chapter in the thesis:

- published papers;
- manuscripts accepted for publication;
- manuscripts submitted and under review by referees; and
- manuscripts under revision following referees' reports.

14.2.9 Only papers which have been published by or submitted to journals and approved by the faculty committee are allowable under these Regulations. Whilst Short Communications and Letters are acceptable, their number should be less than that of full length papers.

14.2.10 Manuscripts which have been rejected by a journal must not be included unless they have been substantially rewritten to address referees' comments as certified in the Final Seminar documentation.

14.2.11 Each chapter comprised of a published paper or submitted manuscript must begin with a clear statement of the contribution made by each author of any jointly authored paper. The description must be sufficiently detailed to describe accurately the contribution of each author.

14.2.12 The thesis must contain an overarching discussion of the main features linking the publications and include a statement of

the significance of the findings, problems encountered and the future directions of the work.

## 14.3 Presentation

14.3.1 The thesis must be presented in accordance with the requirements of the QUT Council, including any accompanying declarations and in accordance with the **Requirements for Presenting Theses**. This document requires that a final bound copy and an electronic copy of the thesis will normally be provided to the Research Students Centre when all corrections have been finalised and approved by the relevant Faculty nominees. Normally, nominees would be the principal supervisor and Head of School but may also at the Faculty's discretion include others.

## 15. Presentation of PhD Theses by Creative Works

### 15.1 Preamble

15.1.1 In the case of a thesis submitted in the area of artistic practice, presentation may be in one of two forms: a theoretical thesis or artwork and exegesis. The artwork may be in the form of exhibition, performance, literary work, film, CD Rom or other approved format. The artwork and exegesis will be examined as an integrated whole. The artwork should provide a coherent demonstration that the candidate has reached an appropriate standard in the research and has made a significant and original contribution to knowledge in the area. The exegesis should describe the research process and elaborate, elucidate and place in context the artistic practice undertaken. In the case of visual or performing arts, the examiners will attend the exhibition/performance, at which time they will be given a copy of the exegesis in temporary binding. A final copy of the exegesis will be provided to the examiners within three months of their viewing the artwork.

### 15.2 Examination of a Creative Work Other Than a Printed Thesis

15.2.1 Where other materials are to be examined, such as in the areas of visual, performing, literary or media arts, the candidate must seek approval from Research Degrees Committee for the form and presentation of the thesis at the time of the Stage 2 application for entry to the PhD program.

15.2.2 Artistic practice may be examined by a theoretical thesis or by artwork and exegesis. The artwork and the exegesis will not be examined separately but as an integrated whole constituting the original and substantial contribution to knowledge required from doctoral candidates.

15.2.3 A theoretical thesis is a written document which would conform in all respects to the remainder of this policy.

15.2.4 Studio-based inquiry may result in a thesis presented by artwork and exegesis. The artwork should be the research outcome, while the exegesis should describe the research process and elaborate, elucidate and place in context the artistic practice undertaken.

15.2.5 The exegesis would normally not exceed 50,000 words and would conform in all respects to the remainder of this policy. It should also contain a description of the form and presentation of the artistic practice which constitutes the remainder of the thesis.

### 15.3 Presentation

15.3.1 The thesis must be presented in accordance with the requirements of the QUT Council, including any accompanying declarations and in accordance with the **Requirements for Presenting Theses**. This document requires that a final bound copy and an electronic copy of the thesis will normally be provided to the Research Students Centre when all corrections have been finalised and approved by the relevant Faculty nominees. Normally, nominees would be Principal Supervisor and Head of School.

**16. Examinations**

16.1 Any fees payable in relation to the examination of a candidate shall be determined by the Council.

16.2 At least three months prior to the maximum candidature date (or anticipated completion date) the Principal Supervisor having obtained the agreement of the faculty committee, shall recommend to the Research Degrees Committee, on the prescribed form, the composition of a proposed Examination Committee and the title of the candidate's thesis.

16.3 The Examination Committee shall comprise two external examiners who will examine the thesis plus a reserve external examiner to be called upon only if the first two examiners are in disagreement. (ref. Section 18)

16.4 In exceptional circumstances, the Research Degrees Committee may act directly to facilitate the examination process of a thesis including the appointment of examiners.

16.5 Any person who has acted as the candidate's Principal or Associate Supervisor; or participated in the candidate's research group or in any capacity where a conflict of interest is seen to exist shall not be nominated by the faculty committee as an examiner (refer to **QUT Code of Conduct - Integrity**).

16.6 Examiners must have demonstrable and substantial publications and research experience in the area under investigation, preferably have a PhD and be widely recognised in the relevant field. At least one of the nominated examiners should be from an internationally recognised university or equivalent research institution. However all of the examiners may be from Australian institutions provided that they are widely recognised as experts with demonstrable and substantial publications and research experience in the relevant field of research. At least one examiner must also have had substantial experience of examining research degree candidates at the doctoral level. Agreement will be sought from examiners to examine the thesis within 8 weeks of receipt of the thesis.

16.7 If more than four months has elapsed between the nomination of examiners and the submission of the thesis, the faculty committee must notify the Research Degrees Committee that the nominated examiners are still willing and able to examine the thesis within 8 weeks of its receipt. If any previously nominated examiner is unable to examine the thesis, a replacement examiner must be nominated by the Principal Supervisor with the agreement of the faculty committee for approval by the Research Degrees Committee.

16.8 In order to determine whether the thesis is acceptable for examination by the Examination Committee, the candidate shall be required to present a Final Seminar based on the work described in the thesis to the faculty to which he/she is attached.

- This final seminar shall normally take place no more than six months prior to the anticipated submission date.
- The faculty shall constitute a panel of at least 3 members including the Principal Supervisor to attend the seminar and to report on the readiness of the thesis for external examination. Normally, the final seminar panel shall be appointed by the faculty including the principal supervisor, Head of School or nominee and a senior member of faculty staff from outside the school or centre in which the candidate is located. The panel shall normally be chaired by the Principal Supervisor, and shall question the candidate on the content of the thesis at the conclusion of the seminar. Each member of the panel must receive a copy of the draft thesis 14 days prior to the final seminar.
- The panel may require changes to the thesis or ask that further work be done prior to submission of the thesis. The thesis is accepted by the University for external examination only when the panel chair signifies its belief that the degree requirements have been met. The faculty panel chair shall use the prescribed form when advising Research Degrees Committee that the thesis is ready for external examination.

- The final seminar shall be open to the public and shall be widely advertised by the faculty so as to ensure attendance by researchers and research students within the faculty.
- In all other matters the form and timing of the final seminar is determined by the faculty.

16.9 The thesis must be accompanied by a certificate endorsed by the Final seminar Panel Chair (normally the Principal Supervisor), Head of School or nominee, and the faculty committee stating that all reasonable efforts have been made by the faculty to ensure that:

- the thesis makes an original and significant contribution to the field of research;
- the methodology applied in the candidate's research is effective and appropriate for the thesis topic and the PhD;
- the thesis reflects competence in the survey of literature and documentation of statements;
- the thesis is of the required standard for external examination;
- the thesis is well written having due consideration to relevant writing conventions and style guidelines.
- the thesis is within the prescribed word limit;
- the candidate has presented a Final Seminar;
- an external candidate has spent at least three months minimum at QUT during the course of their enrolment;
- original correspondence from editors has been sighted and that editorial advice has been followed in the manuscripts submitted for examination (if applicable); and
- acknowledgment is given regarding the inclusion of all published and other sources of information, together with any substantial financial assistance received for the project.

The examiners will be advised of the faculty's endorsement and the successful completion of this process.

16.10 In exceptional circumstances, following the Final Seminar, the Research Degrees Committee may allow a candidate to submit their thesis for external examination without the requirement for certification (ref. Regulation 16.9). The candidate must apply in writing to the Research Degrees Committee for such permission, outlining the reasons why the required certification is not included. The examiners will be advised that: " PhD Regulation (16.10) allows in exceptional circumstances for submission of the thesis without faculty endorsement. On submission of your examiner's report you may ask if the thesis was granted faculty endorsement. "

16.11 Three copies of the thesis, in the prescribed format must be submitted to the Research Students Centre, no later than the maximum candidature date (see Regulation 9.2).

16.12 The Research Students Centre, on the advice of the Research Degrees Committee, shall provide the examiners with a copy of the thesis and of the Council's Regulations for the Award of the Degree of Doctor of Philosophy, and any other relevant information.

16.13 Each examiner will be asked to provide a written report to the Research Students Centre on the candidate's thesis and to recommend one of the following courses of action:

*Recommendation 1* : The candidate should be awarded the degree without the requirement for revision, further examination or modification (minor corrections and typographical errors only); or

*Recommendation 2* : The candidate should be awarded the degree subject to minor nominated revisions being completed to the satisfaction of the Head of School and Principal Supervisor; or

*Recommendation 3* : The candidate should be awarded the degree following the completion of major nominated revisions to the satisfaction of the Head of School and Principal Supervisor; or

*Recommendation 4* : The candidate should be permitted to substantially revise and submit the thesis for re-examination within twelve months after a specified amount of further work

(which may alter the substantive conclusions of the thesis) has been completed under approved supervision and the thesis appropriately amended to reflect the additional research; or

*Recommendation 5* : The candidate should be awarded the degree at Master's level: without the requirement for further revision or further examination; subject to nominated revisions being completed to the satisfaction of the Head of School and Principal Supervisor; subject to revision and submission for re-examination after completion of further work; or

*Recommendation 6* : The thesis should be rejected, the degree should not be awarded and the candidate should not be permitted to submit the thesis for re-examination for the degree.

16.14 After both examiners' reports are received the Research Students Centre will forward them to the Head of School or nominee, the Principal Supervisor, and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

### 17. Examiners in Agreement

17.1 Where both examiners recommend that the candidate should be awarded the degree (recommendation 1, 2 or 3) the Head of School, or nominee will consult with the Principal Supervisor, Centre Director and/or Postgraduate Studies Coordinator as required to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

17.2 When all corrections or revisions have been made to the satisfaction of the Head of School or nominee and the Principal Supervisor, the Head of School or nominee and the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the PhD degree.

17.3 Where both examiners recommend that the thesis be revised and resubmitted for examination (Examiners Report Recommendation 4), after consultation with the Principal Supervisor and the Centre Director, the Head of School or nominee will make written recommendation to the Research Degrees Committee within seven days of the receipt of the Examiners Reports listing any revisions required. Once these are approved by the Research Degrees Committee, the Research Degrees Committee will inform the candidate of the revisions and/or any action required

17.4 Where both examiners recommend that the candidate should be awarded the degree at master's level (Recommendation 5), the Head of School or nominee will consult with the Principal Supervisor to discuss any revisions that the candidate may be required to make and forward a recommendation to the Research Degrees Committee. Once approved, the Head of School will meet with the Centre Director and Principal Supervisor to discuss outcomes with the Principal Supervisor responsible for informing the candidate of the decision.

### 18. Examiners Not In Agreement

18.1 Where the recommendations of the external examiners are not in agreement as to whether the thesis should be accepted for the award of PhD or as to whether the thesis may be revised and resubmitted the thesis will be sent to the third nominated examiner except when the examiners' recommendations are similar, for example, recommendations 3 and 4, in which case the Research Degrees Committee chair shall determine the course of action.

18.2 Upon receipt of the third examiner's report, a majority decision shall be adopted taking into account the comments of all three examiners.

18.3 Where the majority decision is that the thesis be accepted for the award or the thesis be accepted for the award of a masters degree or the thesis be rejected and the candidate not be permitted to resubmit, the procedures in Section 17 shall apply.

18.4 Where the majority decision is that the candidate be required to submit for re-examination or the thesis fails, the procedures in Section 17 shall apply.

18.5 Where the recommendations of the three examiners clearly differ and no clear majority exists, the Head of School or nominee shall liaise with the Director, Research and Research Training, and the Principal Supervisor to determine the further course of action which may involve any of the outcomes listed in Regulation 16.13.

### 19. Re-examination

19.1 A candidate who is required to submit for re-examination may be re-examined only once except in the case of an upheld appeal.

19.2 Re-examination shall take place within twelve months from the date on which the candidate is advised in writing by the Head of School or nominee of such re-examination. The Research Degrees Committee may, on written application by the candidate and supported by the Principal Supervisor and Head of School or nominee with suitable justification, approve an extension to this period which, under normal circumstances, may be a maximum of a further twelve months.

19.3 A candidate who is required to submit their thesis for re-examination must re-enrol in the PhD program.

19.4 The thesis shall be re-examined by the same two examiners unless:

- any of the examiners is unable to re-examine the thesis in which case the Head of School or nominee with the agreement of the Principal Supervisor and the faculty shall nominate a replacement examiner(s) who must be approved by the Research Degrees Committee; or
- the Research Degrees Committee replaces one or more of the examiners on advice from the Research Degrees Committee chair and with suitable justification.

19.5 Examiners re-examining a thesis will be asked to provide a written report on the candidate's thesis and to recommend one of the following courses of action:

- (a) the candidate should be awarded the degree with or without minor nominated revisions; or
- (b) the candidate should be awarded the degree at masters level with or without minor nominated revisions; or
- (c) the thesis should be rejected and the degree should not be awarded.

19.6 Regulations applicable to PhD examination shall apply to the re-examination.

### 20. Appeals

20.1 A candidate whose thesis has been failed or whose thesis has been recommended for the award of the degree of master may lodge an appeal against the outcome of the examination process.

20.2 The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

20.3 An appeal must be lodged within sixty (60) days of the date of written advice from the Research Students Centre on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based.

20.4 Appeals as described in Section 20 must be submitted, in writing, to the Office of the Deputy-Vice-Chancellor (Research and Commercialisation). The Director, Research and Research Training, will determine whether a potential conflict of interest exists in relation to their consideration of the appeal.

20.5 In cases where a conflict of interest exists, the Director, Research and Research Training, will appoint a member of academic staff, with expertise in research candidate supervision, to consider the appeal.

20.6 The Director, Research and Research Training, or appointee will decide whether a case exists and may seek the advice of the faculty, school or centre as appropriate.

20.7 The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Research and Research Training, or appointee cannot recommend that the degree be awarded but shall recommend that: the thesis be re-examined. This re-examination shall be carried out in accordance with Section 19 taking account of the issues raised in the successful appeal.

20.8 The Director, Research and Research Training, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

## ■ Master of Advertising (Creative Advertising) (IX96)

**Award title:** Master of Advertising (Creative Advertising)

**CRICOS code:** 048322G

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Total credit points:** 144

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Ms Sandra Contreras

**Discipline coordinator:** Dr Terry Flew

### Entry Requirements

An undergraduate degree with a minimum overall course grade point average of at least 5 (on a 7-point scale). Applicants with an undergraduate degree with a grade point average below 5, or applicants without an undergraduate degree but with extensive relevant employment experience may be considered for entry to the Graduate Certificate only. Applicants are required to nominate an area of study.

### Full-time Course Structure

#### Year 1, Semester 1

KCP360 Advertising Creative: Introduction  
AMN420 Advertising Management

Elective unit

**Year 3, Semester 2**

AMN406 Project, or  
2 Elective units (24 credit points)

**Strategic Advertising Electives**

Elective units may be selected from postgraduate units offered by the Faculty of Business. Postgraduate units from other Faculties of the University may be selected, but require approval from the course coordinator.

## ■ Master of Business Administration/Master of Information Technology (IF98/IF13)

**Award title:** Master of Business Administration/Master of Information Technology

**CRICOS code:** 037551G

**Location:** Gardens Point

**Course duration (full-time):** 5 semesters. The course must be completed within a maximum time period of seven years.

**Course duration (part-time):** 10 semesters. The course must be completed within a maximum time period of seven years.

**Total credit points:** 240

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher (Business); Dr Alison Anderson (Faculty of Information Technology)

**Course Discontinuation**

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

**Course Design**

This double degree combines the core course structure of the Master of Business Administration (MBA) (GS40) with the standard course structure of the Master of Information Technology for IT graduates (IT40) comprising 240 credit points in total.

Note that BGSB units are 6 credit points and 7 weeks in duration, some being held during the first half of semester, and others being held during the second half of semester. The Faculty of Information Technology units are 12 credit points and 13 weeks in duration, being held for the entire duration of semester.

Students may exit with a Master of Business Administration (MBA)/Graduate Diploma in Information Technology if 192 credit points have been completed and the requirements for that course have been satisfied.

**Course Structure****First Semester, First Half**

GSN401 Managing in the Global Business Environment  
GSN405 Strategic Management  
GSN407 Business Communication  
GSN408 Fundamentals of Marketing Management

**First Semester, Second Half**

GSN402 Strategic Use of Information Technology  
GSN403 Understanding Data  
GSN404 Financial Statements Analysis 1  
GSN409 Organisational Behaviour 1

**Second Semester, First Half**

GSN410 Entrepreneurship  
GSN411 Economics of Strategy 1  
GSN413 Financial Management 1  
GSN415 Understanding Leadership

**Second Semester, Second Half**

GSN406 Human Resource Management Issues  
GSN412 Business Law 1

GSN414 Business Conditions Analysis 1

GSN416 Business Plans 1

**Third Semester**

ITN272 Information Technology Project Management

## ■ Master of Business Administration/Master of Information Technology (IT Graduates) (IF99/IF15)

**Award title:** Master of Business Administration/Master of Information Technology

**CRICOS code:** 037551G

**Location:** Gardens Point

**Course duration (full-time):** Full Time students may complete the course in a minimum of 5 semesters. The course must be completed within a maximum time period of seven years.

**Course duration (part-time):** 10 semesters

**Total credit points:** 240

**Standard credit points per semester (full-time):** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Caroline Hatcher (Business); Dr Alison Anderson (Information Technology)

**Course Discontinuation**

Students should note that this course will be discontinued. However, students who are currently enrolled, or have been made an offer into this current course for 2005, are able to remain enrolled in it for the duration.

**Course Design**

Students are required to complete 16 core units (96cps) for the Business component, and 12 units (144cps) for the Information Technology component.

Note that the Business units are 6 credit points in value and 7 weeks in duration, some being held during the first half of

semester, and others being held during the second half of semester. The Faculty of Information Technology units are 12 credit points and 13 weeks in duration, being held for the entire duration of semester.

## ■ Graduate Certificate in Risk Management (IF88)

**Award title:** Graduate Certificate in Risk Management

**Location:** Kelvin Grove

**Course duration (external):** 2 semesters

**Total credit points:** 48

**Standard credit points per semester (part-time):** 24

**Course coordinator:** Dr Elizabeth Parker

### Part-time Course Structure

#### Year 1, Semester 1

PUN001 Contemporary Risk Management

PUN008 Risk Assessment

#### Year 1, Semester 2

EFN418 Introduction to Financial Risk Management

PUN010 Implementing Risk Management

## ■ Bachelor of Applied Science (Environmental Science)/Bachelor of Health Science (Environmental Health) (IF87)

**Award title:** Bachelor of Applied Science (Environmental Science)/Bachelor of Health Science (Environmental Health)

**CRICOS code:** 003505F

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 4 Years

**Total credit points:** 384 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Megan Hargreaves (Science); Melinda Service (Environmental Health)

### FOR CONTINUING STUDENTS ONLY

### Course Design

The course will combine studies in Environmental Science (Chemistry or Ecology strands) within the Bachelor of Applied Science (SC01) course and the Environmental Health strand (Environmental Protection minor) of the Bachelor of Health Science course. The four-year course is designed so that the first three years of study are primarily in the science areas, while the fourth year is essentially a professional, environmental health program. However, students may exit at the end of the third year having completed the Bachelor of Applied Science (SC01) course.

### Professional Recognition

Graduates will be eligible to join the Australian Institute of Environmental Health (AIEH), Environmental Institute of Australia and New Zealand, Public Health Association of Australia and the Australian Health Promotion Association. Depending on the environmental science strand undertaken graduates may also be eligible for membership of the Ecological Society of Australia or the Royal Australian Chemical Institute.

### Full-time Course Structure

#### Year 3, Semester 1

NRB500 Environmental Modelling

NRB501 Spatial Analysis of Environmental Systems

PUB308 Environmental Health Fundamentals

PUB314 Epidemiology And Statistics

#### Year 3, Semester 2

LSB415 Microbiology

NRB600 Sustainable Environmental Management

NRB633 Hydrogeology

PUB409 Communicable Disease: Prevention and Control

#### Year 4, Semester 1

PUB510 Legal Frameworks for Environmental Health Practice

PUB515 Environmental Toxicology

PUB517 Food Hygiene Studies

PUB474 Food Studies

OR

PUB511 Health Policy, Planning and Evaluation

#### Year 4, Semester 2

PUB316 Research Methods

PUB604 Policy and Management Principles for Environmental Health

PUB611 Risk Management

PUB630 Environmental Health Practice

## ■ Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary) (IX04)

**Award title:** Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary)

**CRICOS code:** 020323D

**Location:** Gardens Point, Kelvin Grove and Carseldine

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Course coordinator:** Education Coordinator: Dr Peter Bond, Human Movement Studies Coordinator: Dr Tom Cuddihy

### Professional Recognition

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Graduates are eligible for associate membership of the Australian Association for Sports Science. Applicants for registration as teachers in Queensland are subject to national criminal history checks.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Full-time Course Structure

#### Year 1, Semester 1

LSB131 Anatomy

HMB313 Socio-Cultural Foundations of Physical Activity

HMB171 Fitness Health and Wellness

Second Teaching Area Unit

#### Year 1, Semester 2

LSB231 Physiology

HMB172 Nutrition and Physical Activity

HMB272 Biomechanics

AMB200 Consumer Behaviour  
AMB220 Advertising Theory and Practice  
AMB221 Advertising Copywriting  
AMB222 Media Planning

### Banking (Students with a Banking & Finance Major)

AYB312 Financial Institutions Law  
EFB310 Financial Institutions - Control  
EFB311 Financial Institutions - Lending  
Contact School of Economics & Finance for final unit

### Banking & Finance (Students Without a Banking & Finance Major)

Students must complete four of the following:

EFB101 Data Analysis for Business  
EFB102 Economics 2  
EFB201 Financial Markets  
EFB210 Finance 1  
EFB307 Finance 2  
EFB312 International Finance

### Economics (Students without an Economics Major)

Students must complete four of the following:

EFB101 Data Analysis for Business  
EFB102 Economics 2  
EFB202 Business Cycles and Economic Growth  
EFB211 Firms, Markets and Resources  
EFB314 International Trade and Economic Competitiveness  
EFB323 Financial and Monetary Economics

### Electronic Commerce

Students must complete four of the following:

BSB212 Electronic Business Applications  
BSB213 Legal Issues in Electronic Business  
BSB314 E-Business Intelligence  
ITB825 Electronic Business Information Systems  
MGB334 Managing in a Changing Environment

### Financial Economics (Students with a Banking and Finance Major)

Students must complete four of the following:

EFB200 Applied Regression Analysis  
EFB202 Business Cycles and Economic Growth

EFB211 Firms, Markets and Resources  
EFB308 Finance 3  
EFB309 Financial Derivatives  
EFB318 Portfolio and Security Analysis  
EFB324 Macroeconomics and Global Financial Markets  
EFB325 Financial Microeconomics  
EFB326 Applied Portfolio Management

### Financial Economics (Students with an Economics Major)

Students must complete four of the following:

EFB200 Applied Regression Analysis  
EFB201 Financial Markets  
EFB210 Finance 1  
EFB324 Macroeconomics and Global Financial Markets  
EFB325 Financial Microeconomics  
EFB326 Applied Portfolio Management  
EFB328 Public Economics and Finance

### Funds Management (Students with a Banking and Finance Major)

EFB308 Finance 3  
EFB309 Financial Derivatives  
EFB318 Portfolio and Security Analysis  
plus one level 2 or 3 Finance unit approved by the Banking & Finance Major Coordinator

### Human Resource Management (Students without a Human Resource Management or Management Major)

MGB207 Human Resource Issues and Strategy  
MGB222 Managing Organisations  
Plus two units from the List of Human Resource Management units below.

### Human Resource Management (Students with a Human Resource Management Major)

Any four units from the List of Human Resource Management units below, other than those that are part of the HRM major.

### Human Resource Management (Students with a Management Major)

MGB207 Human Resource Issues and Strategy  
MGB221 Performance and Reward  
Plus two units from the List of Human Resource Management units below.

### List of Human Resource Management units:

MGB201 The Legal Context of Employment Relations  
MGB202 Equity and Diversity Management  
MGB209 Occupational Health and Safety Management  
MGB221 Performance and Reward  
MGB224 Australian Industrial Relations  
MGB304 Human Resource Information Management  
MGB307 International Human Resource Management  
MGB312 Negotiation Skills  
MGB314 Organisational Consulting and Change  
MGB315 Personal and Professional Development  
MGB320 Recruitment and Selection  
MGB331 Training and Development  
MGB325 Advanced Practice in Training and Development

### Integrated Marketing Communication (Students without an Advertising or Public Relations Major)

Students must complete four units as follows:

AMB202 Integrated Marketing Communication  
Plus three units from:  
AMB220 Advertising Theory and Practice  
AMB260 Public Relations Theory and Practice  
AMB331 Direct Marketing  
AMB350 Relationship and Sales Management, or  
AMB202 Integrated Marketing Communication  
Plus two units from:  
AMB220 Advertising Theory and Practice  
AMB260 Public Relations Theory and Practice  
AMB331 Direct Marketing  
AMB350 Relationship and Sales Management  
And, one unit from:  
AMB230 Internet Promotion  
AMB261 Media Relations and Publicity  
AMB354 Events Marketing

### Integrated Marketing Communication (Students with an Advertising Major)

Students must complete four units as follows:

AMB202 Integrated Marketing Communication  
AMB260 Public Relations Theory and Practice  
AMB331 Direct Marketing  
AMB350 Relationship and Sales Management, or  
AMB202 Integrated Marketing Communication

Plus two units from:  
 AMB260 Public Relations Theory and Practice  
 AMB331 Direct Marketing  
 AMB350 Relationship and Sales Management  
 And, one unit from:  
 AMB230 Internet Promotion  
 AMB261 Media Relations and Publicity  
 AMB354 Events Marketing

**Integrated Marketing Communication (Students with a Public Relations Major)**

Students must complete four units as follows:

AMB202 Integrated Marketing Communication  
 AMB220 Advertising Theory and Practice

**Course Structure - Business Minors**

Please refer to the Business Minors listed under the **Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Business (Advertising, Human Resource Management, International Business, Management or Public Relations)** (IF62).

## ■ Bachelor of Applied Science/Bachelor of Business (IF61)

**Award title:** Bachelor of Applied Science (Study Area A)/Bachelor of Business (Study Area A)

**CRICOS code:** 042263G

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Standard credit points per semester (full-time):** 54 (average)

**Course coordinator:** Dr Megan Hargreaves (Science); Mr Andrew Paltridge (Business)

**Discipline coordinator:** Dr John Sweeting (Accountancy); Dr Gayle Kerr (Advertising); Ms Sherrena Buckby (Electronic Business); Dr Amanda Gudmundsson (Human Resource Management); Dr Beverley Kitching (International Business); Dr Glenda Maconachie (Management); Dr Yunus Ali (Marketing); Ms Robina Xavier (Public Relations); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics); Science Discipline Coordinator details are listed under Contact Details below

**Professional Recognition**

The Bachelor of Applied Science degree will allow graduates to satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership of: CPA Australia; Institute of Chartered Accountants in Australia; Chartered Secretaries Australia; Advertising Federation of Australia; Australian Association of National Advertisers; Australian Direct Marketing Association; Queensland Commercial Radio Association; Australasian Institute of Banking and Finance; Economics Society of Australia; Australian Human Resources Institute; Australian Institute of Management; Australian Institute of Training and Development; Australian Institute of Export; Australian Marketing Institute; Marketing Research Society of Australia; American Marketing Association and Public Relations Institute of Australia.

**Course Design**

Students are required to complete 432 credit points comprised of 192 credit points from the Bachelor of Applied Science program and 240 credit points from the Bachelor of Business program.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position students within the broad range of science disciplines and qualify them as competent professionals within their chosen fields. Students can major in Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology or Physics. See the Bachelor of Applied Science (SC01) course for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the business program.

Students can specialise in one or more of the following business majors: Accountancy, Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing or Public Relations.

AMB360 Corporate Communication Management  
Business Double Major / Extended Major / Specialisation  
Business Double Major / Extended Major / Specialisation

**Year 4, Semester 2**

AMB361 Public Relations Campaigns  
Business Double Major / Extended Major / Specialisation

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

## Science Component

### Faculty Core Units

6 faculty core units, including three Foundation units

### Foundation Units

LSB118 Life Science  
MAB101 Statistical Data Analysis 1  
NRB100 Environmental Science  
PCB101 Physical Science

### Other Science Units

LSB238 Cell and Molecular Biology 1  
LSB258 Principles of Human Physiology  
MAB100 Mathematical Sciences 1A  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
NRB240 History of Life on Earth  
NRB230 Planet Earth  
NRB270 Animal and Plant Structure and Function  
PCB142 Chemistry 1  
PCB242 Chemistry 2  
PCB250 Physics 1  
PCB260 Physics 1A

**Note:** Students in a physics major must replace MAB101 with MAB131 or MAB180; and MAB112 with MAB132.

## Biochemistry

### Year 1, Semester 1

LSB118 Life Science  
PCB101 Physical Science

### Year 1, Semester 2

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function

### Year 2, Semester 1

MAB101 Statistical Data Analysis 1  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

### Year 2, Semester 2

LSB258 Principles of Human Physiology  
PCB242 Chemistry 2

### Year 3, Semester 1

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2

### Year 3, Semester 2

LSB408 Metabolism  
LSB468 Molecular Biology

### Year 4, Semester 1

LSB508 Advanced Metabolism  
LSB527 Biomedical Research Technologies

### Year 4, Semester 2

LSB607 Protein Purification  
LSB608 Protein Science

## Biotechnology

### Year 1, Semester 1

LSB118 Life Science  
PCB101 Physical Science

### Year 1, Semester 2

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function

### Year 2, Semester 1

MAB101 Statistical Data Analysis 1  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

### Year 2, Semester 2

LSB258 Principles of Human Physiology  
PCB242 Chemistry 2

### Year 3, Semester 1

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2

### Year 3, Semester 2

LSB408 Metabolism  
LSB468 Molecular Biology

### Year 4, Semester 1

LSB509 Medical Biotechnology  
LSB537 Genetic Engineering

### Year 4, Semester 2

LSB609 Medical Biotechnology 2  
LSB619 Genomics & Bioinformatics

## Chemistry

### Year 1, Semester 1

MAB100 Mathematical Sciences 1A  
PCB101 Physical Science

### Year 1, Semester 2

LSB118 Life Science  
MAB101 Statistical Data Analysis 1

### Year 2, Semester 1

NRB100 Environmental Science  
PCB142 Chemistry 1

### Year 2, Semester 2

PCB242 Chemistry 2  
PCB260 Physics 1A

### Year 3, Semester 1

PCB305 Principles of Physical Chemistry  
PCB354 Structure and Mechanism in Organic Chemistry

### Year 3, Semester 2

PCB434 Inorganic Chemistry  
PCB444 Spectroscopy

### Year 4, Semester 1

PCB505 Advanced Physical Chemistry  
PCB554 Synthesis and Reactivity in Organic Chemistry

### Year 4, Semester 2

PCB634 Organometallic and Coordination Chemistry  
PCB644 Frontiers in Chemistry

## Ecology

### Year 1, Semester 1

NRB100 Environmental Science  
PCB101 Physical Science

### Year 1, Semester 2

LSB118 Life Science  
NRB240 History of Life on Earth

### Year 2, Semester 1

MAB101 Statistical Data Analysis 1  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

### Year 2, Semester 2

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function

### Year 3, Semester 1

NRB301 Earth Surface Systems  
NRB311 Population Ecology

### Year 3, Semester 2

NRB410 Genetics and Evolution  
NRB412 Experimental Design

### Year 4, Semester 1

NRB510 Population Genetics  
NRB511 Population Management

### Year 4, Semester 2

NRB610 Ecological Applications  
NRB611 Conservation Biology

**Environmental Science****Year 1, Semester 1**

NRB100 Environmental Science  
PCB101 Physical Science

**Year 1, Semester 2**

LSB118 Life Science  
NRB240 History of Life on Earth

**Year 2, Semester 1**

MAB101 Statistical Data Analysis 1  
Either

NRB230 Planet Earth, or  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

**Year 2, Semester 2**

NRB270 Animal and Plant Structure and Function  
PCB414 Industrial and Environmental Analytical Chemistry

**Year 3, Semester 1**

NRB301 Earth Surface Systems  
NRB311 Population Ecology

**Year 3, Semester 2**

NRB440 Environmental Chemistry  
NRB412 Experimental Design

**Year 4, Semester 1**

NRB500 Environmental Modelling  
NRB572 Terrestrial Ecosystems

**Year 4, Semester 2**

NRB600 Sustainable Environmental Management  
NRB672 Marine and Freshwater Ecosystems

**Forensic Science****Year 1, Semester 1**

LSB118 Life Science  
PCB101 Physical Science

**Year 1, Semester 2**

MAB101 Statistical Data Analysis 1  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

**Year 2, Semester 1**

MAB100 Mathematical Sciences 1A  
PCB242 Chemistry 2

**Year 2, Semester 2**

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function

**Year 3, Semester 1**

LSB468 Molecular Biology  
SCB384 Crime Scene and Forensic Science

**Year 3, Semester 2**

JSB937 Forensic Scientific Evidence  
PCB414 Industrial and Environmental Analytical Chemistry

**Year 4, Semester 1**

PCB514 Instrumental Analysis  
PCB584 Forensic Examination of Physical Evidence

**Year 4, Semester 2**

LSB684 Forensic DNA Profiling  
PCB684 Forensic Analysis and Toxicology

**Geoscience****Year 1, Semester 1**

MAB100 Mathematical Sciences 1A  
NRB230 Planet Earth  
PCB101 Physical Science

**Year 1, Semester 2**

MAB101 Statistical Data Analysis 1

**Year 2, Semester 1**

NRB100 Environmental Science  
Either  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

**Year 2, Semester 2**

NRB240 History of Life on Earth  
NRB440 Environmental Chemistry

**Year 3, Semester 1**

NRB331 Sedimentary Geology  
NRB333 Mineralogy

**Year 3, Semester 2**

NRB434 Structural Geology and Field Methods  
NRB436 Introduction to Igneous and Metamorphic Petrology

**Year 4, Semester 1**

Two units from:

NRB533 Advanced Geological Mapping

NRB534 Geophysics

NRB536 Petrology and Geochemistry

**Note:** The major component in assessment and teaching of MAB533 is conducted as a field program during July

**Year 4, Semester 2**

Two units from:

NRB630 Exploration Geology

NRB633 Hydrogeology

NRB635 Plate Tectonics and Advanced Structural Geology

**Microbiology****Year 1, Semester 1**

LSB118 Life Science  
PCB101 Physical Science

**Year 1, Semester 2**

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function

**Year 2, Semester 1**

MAB100 Mathematical Sciences 1A  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

**Year 2, Semester 2**

MAB101 Statistical Data Analysis 1  
PCB242 Chemistry 2

**Year 3, Semester 1**

LSB308 Biochemistry  
LSB328 Microbiology 1

**Year 3, Semester 2**

LSB408 Metabolism  
LSB428 Microbiology 2

**Year 4, Semester 1**

Two units from:

LSB528 Environmental Microbiology  
LSB547 Bacterial Pathogenesis and Disease Diagnosis

LSB568 Electron Microscopy

LSB578 Virology

**Year 4, Semester 2**

Two units from:

LSB628 Food Microbiology  
LSB647 Clinical Mycology and Parasitology

LSB648 Molecular Microbiology

**Physics****Year 1, Semester 1**

MAB131 Engineering Mathematics 1A  
MAB180 Engineering Mathematics 1

PCB101 Physical Science

**Year 1, Semester 2**

MAB132 Engineering Mathematics 1B

**Year 2, Semester 1**

MAB134 Electrical Engineering Mathematics 3  
PCB107 Physics and Quantitative Techniques

**Year 2, Semester 2**

MAB101 Statistical Data Analysis 1  
PCB250 Physics 1

PCB260 Physics 1A

**Year 3, Semester 1**

PCB361 AC Theory and Electronics  
PCB362 Physics 2

**Year 3, Semester 2**

PCB460 Instrumentation and Computational Methods  
PCB462 Thermodynamics and Solid State Physics

**Year 4, Semester 1**

PCB561 Quantum and Condensed Matter Physics  
PCB562 Physical Methods of Analysis

**Year 4, Semester 2**

PCB661 Experimental Physics  
PCB665 Physics 3

## ■ Bachelor of Applied Science/Bachelor of Education (Primary) (IX14)

**Award title:** Bachelor of Applied Science (Study Area A)/Bachelor of Education (Primary)

**CRICOS code:** 037540M

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Megan Hargreaves (Science): Ms Jenny Masters (Education)

### Professional Recognition

The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Graduates will satisfy the requirements for membership of the relevant professional body of their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

### Field Experience Requirements

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Course Design

Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component.

In each of the first five semesters, students will take three (and in one semester, four) science units and one from education. The science units will be chosen from the core and advanced level units in the Bachelor of Applied Science program. In the first semester, the core units are designed to broaden students' experience of Science and the four units studied will generally include at least three of the following:

- Life Science, an introduction to the study of life processes, with cells and organisms as the central point of reference.
- Statistical Data Analysis, or how to extract valid results from data collected.
- Environmental Science, incorporating the chemical, physical and biological processes that influence the development of the air, the earth and the atmosphere.
- Physical Science, involving the basic concepts of physics and chemistry.

### SCIENCE COMPONENT:

The requirements of the IX14 course include the completion of 192 credit points of units offered by the Faculty of Science meeting all the requirements for the core and a major as specified for the SC01 program.

As indicated in the SC01 course rules, a major must be completed in one of the following subject areas: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Geoscience, Mathematics, Microbiology, or Physics. The majors that are most relevant to students intending to follow a career in primary education are Chemistry, Ecology, Geoscience, Mathematics or Physics.

Completion of a major consists of passing units totalling at least 96 credit points from the second and third schedules including a minimum of 48 credit points from the third schedule of the SC01 program.

### Course Structure

#### Biochemistry

##### Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning

LSB118 Life Science  
PCB101 Physical Science  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

##### Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2

##### Year 2, Semester 1

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
MDB450 Primary Mathematics Curriculum  
Either

NRB100 Environmental Science, or  
MAB101 Statistical Data Analysis 1

##### Year 2, Semester 2

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

LSB408 Metabolism  
LSB468 Molecular Biology  
LSB608 Protein Science

##### Year 3, Semester 1

LSB508 Advanced Metabolism  
LSB527 Biomedical Research Technologies  
Either

LSB537 Genetic Engineering, or  
LSB568 Electron Microscopy  
One Science Elective

##### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB022 Primary Field Studies II: Practising Education in the Field  
EDB008 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies I

##### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB009 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies II

EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

##### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers

EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice

EDB025 Internship (Primary)  
SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

### Biotechnology

##### Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
LSB118 Life Science  
PCB101 Physical Science  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

##### Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field

LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2

##### Year 2, Semester 1

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
MDB450 Primary Mathematics Curriculum  
Either

MAB101 Statistical Data Analysis 1, or  
NRB100 Environmental Science

##### Year 2, Semester 2

LSB408 Metabolism  
Either

LSB497 Plant Molecular Biology, or  
LSB468 Molecular Biology  
LSB657 Perspectives in Life Science

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

**Year 3, Semester 1**

LSB537 Genetic Engineering  
One Science Elective  
Two of

NRB412 Experimental Design  
NRB470 Vertebrate Biology  
NRB611 Conservation Biology

**Year 3, Semester 1**

NRB510 Population Genetics  
NRB511 Population Management  
NRB572 Terrestrial Ecosystems  
One Science Elective

**Year 3, Semester 2**

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB008 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies I  
EDB022 Primary Field Studies II: Practising Education in the Field

**Year 4, Semester 1**

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB009 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies II  
EDB023 Primary Field Studies III: Immersion in Inclusive Educational  
Practices

**Year 4, Semester 2**

EDB005 Teaching and Learning Studies V: Professional Work of  
Teachers  
EDB024 Primary Field Studies IV: Professional Work of Teachers:  
Induction into Practice  
EDB025 Internship (Primary)  
SPB035 Primary Curriculum and Pedagogies: Integrated Primary and  
Middle Years Curriculum Project

**Environmental Science**

**Year 1, Semester 1**

EDB002 Teaching and Learning Studies 2: Development and Learning  
NRB100 Environmental Science  
NRB230 Planet Earth  
PCB101 Physical Science

**Year 1, Semester 2**

EDB021 Primary Field Studies 1: Development and Learning in the  
Field  
LSB118 Life Science  
MAB101 Statistical Data Analysis 1  
Either

PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

**Year 2, Semester 1**

MDB450 Primary Mathematics Curriculum  
NRB301 Earth Surface Systems  
NRB311 Population Ecology  
One of

NRB331 Sedimentary Geology  
NRB370 Invertebrate Biology  
NRB371 Plant Biology  
ITB843 Computing Applications

**Year 2, Semester 2**

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1  
NRB412 Experimental Design  
NRB440 Environmental Chemistry  
NRB600 Sustainable Environmental Management

**Year 3, Semester 1**

NRB500 Environmental Modelling

NRB501 Spatial Analysis of Environmental Systems  
NRB572 Terrestrial Ecosystems  
One Science Elective

### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB008 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies I  
EDB022 Primary Field Studies II: Practising Education in the Field

### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB009 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies II  
EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB025 Internship (Primary)  
SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

## Geoscience

### Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
NRB100 Environmental Science  
NRB230 Planet Earth  
PCB101 Physical Science

### Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field  
MAB100 Mathematical Sciences 1A  
PCB142 Chemistry 1  
NRB240 History of Life on Earth

### Year 2, Semester 1

MDB450 Primary Mathematics Curriculum  
NRB301 Earth Surface Systems  
NRB331 Sedimentary Geology  
NRB333 Mineralogy

### Year 2, Semester 2

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1  
NRB434 Structural Geology and Field Methods  
NRB436 Introduction to Igneous and Metamorphic Petrology  
NRB633 Hydrogeology  
SCB222 Exploration of the Universe

### Year 3, Semester 1

MAB101 Statistical Data Analysis 1  
NRB533 Advanced Geological Mapping  
NRB534 Geophysics  
NRB536 Petrology and Geochemistry  
One Science Elective

**Note:** The major component in assessment and teaching of NRB533 is conducted as a field program during July.

### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB008 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies I  
EDB022 Primary Field Studies II: Practising Education in the Field

### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB009 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies II  
EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB025 Internship (Primary)  
SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

## Mathematics (WITH Maths C)

### Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C

### Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field  
MAB210 Statistical Modelling 1  
MAB220 Computational Mathematics 1  
PCB101 Physical Science

### Year 2, Semester 1

MDB450 Primary Mathematics Curriculum  
One Science unit - selected from:  
LSB118 Life Science  
NRB100 Environmental Science  
Two Level 2 Mathematics units - available units are:  
Advanced Calculus  
MAB311 Linear Algebra  
MAB312 Mathematics of Finance  
MAB313 Statistical Modelling 2  
**Note:** Students must complete at least one of MAB311, MAB312, MAB413

### Year 2, Semester 2

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1  
Two Level 2 Mathematics units - available units are:  
MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB480 Introduction to Scientific Computation  
One Level 3 Mathematics units - available units are:  
MAB621 Discrete Mathematics  
MAB623 Financial Mathematics  
**Note:** Students must complete at least one of MAB311, MAB312, MAB413

### Year 3, Semester 1

One Science Elective  
Three Level 3 Mathematics units - available units are:  
MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB523 Introduction to Quality Management  
MAB525 Operations Research 3A  
MAB526 Statistical Science 3  
MAB672 Advanced Mathematical Modelling

### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB008 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies I  
EDB022 Primary Field Studies II: Practising Education in the Field

### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB009 Primary Curriculum and Pedagogies: Interdisciplinary  
Primary Curriculum Studies II  
EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB025 Internship (Primary)  
SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

## Mathematics (WITHOUT Maths C)

### Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1  
PCB101 Physical Science

### Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

### Year 2, Semester 1

MDB450 Primary Mathematics Curriculum  
MAB220 Computational Mathematics 1

Two Level 2 Mathematics units - available units are:  
 MAB311 Advanced Calculus  
 MAB312 Linear Algebra  
 MAB313 Mathematics of Finance  
 MAB314 Statistical Modelling 2  
**Note:** Students must complete at least one of MAB311, MAB312, MAB413

#### **Year 2, Semester 2**

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

Two Level 2 Mathematics units - available units are:  
 MAB315 Operations Research 2  
 MAB413 Differential Equations  
 MAB414 Applied Statistics 2  
 MAB420 Computational Mathematics 2  
 MAB422 Mathematical Modelling  
 MAB480 Introduction to Scientific Computation

One Level 3 Mathematics units - available units are:  
 MAB621 Discrete Mathematics  
 MAB623 Financial Mathematics  
**Note:** Students must complete at least one of MAB311, MAB312, MAB413

#### **Year 3, Semester 1**

One Science unit - selected from:

LSB118 Life Science  
 NRB100 Environmental Science

Three Level 3 Mathematics units - available units are:  
 MAB521 Applied Mathematics 3  
 MAB522 Computational Mathematics 3  
 MAB523 Introduction to Quality Management  
 MAB525 Operations Research 3A  
 MAB526 Statistical Science 3  
 MAB672 Advanced Mathematical Modelling

#### **Year 3, Semester 2**

EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB008 Primary Curriculum and Pedagogies: Interdisciplinary Primary Curriculum Studies I  
 EDB022 Primary Field Studies II: Practising Education in the Field

#### **Year 4, Semester 1**

EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB009 Primary Curriculum and Pedagogies: Interdisciplinary Primary Curriculum Studies II  
 EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

#### **Year 4, Semester 2**

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB025 Internship (Primary)  
 SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

### **Microbiology**

#### **Year 1, Semester 1**

EDB002 Teaching and Learning Studies 2: Development and Learning  
 LSB118 Life Science  
 PCB101 Physical Science  
 Either  
 PCB140 Introductory Chemistry, or  
 PCB142 Chemistry 1

#### **Year 1, Semester 2**

EDB021 Primary Field Studies 1: Development and Learning in the Field  
 LSB238 Cell and Molecular Biology 1  
 NRB270 Animal and Plant Structure and Function  
 PCB242 Chemistry 2

#### **Year 2, Semester 1**

LSB308 Biochemistry  
 LSB328 Microbiology 1  
 MAB101 Statistical Data Analysis 1  
 MDB450 Primary Mathematics Curriculum

#### **Year 2, Semester 2**

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1  
 LSB408 Metabolism  
 LSB428 Microbiology 2  
 Either  
 LSB647 Clinical Mycology and Parasitology, or

LSB648 Molecular Microbiology

#### **Year 3, Semester 1**

LSB528 Environmental Microbiology  
 LSB547 Bacterial Pathogenesis and Disease Diagnosis  
 LSB568 Electron Microscopy  
 One Science Elective (eg LSB338)

#### **Year 3, Semester 2**

EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB008 Primary Curriculum and Pedagogies: Interdisciplinary Primary Curriculum Studies I  
 EDB022 Primary Field Studies II: Practising Education in the Field

#### **Year 4, Semester 1**

EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB009 Primary Curriculum and Pedagogies: Interdisciplinary Primary Curriculum Studies II  
 EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB025 Internship (Primary)  
 SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

### **Physics**

#### **Year 1, Semester 1**

EDB002 Teaching and Learning Studies 2: Development and Learning  
 PCB101 Physical Science  
 PCB107 Physics and Quantitative Techniques  
 Either  
 MAB180 Engineering Mathematics 1, or  
 MAB131 Engineering Mathematics 1A

#### **Year 1, Semester 2**

EDB021 Primary Field Studies 1: Development and Learning in the Field  
 MAB132 Engineering Mathematics 1B  
 PCB250 Physics 1  
 PCB260 Physics 1A

#### **Year 2, Semester 1**

MAB134 Electrical Engineering Mathematics 3  
 MDB450 Primary Mathematics Curriculum  
 PCB361 AC Theory and Electronics  
 PCB362 Physics 2

#### **Year 2, Semester 2**

CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1  
 PCB445 Nanotechnology and Nanoscience  
 PCB460 Instrumentation and Computational Methods  
 PCB462 Thermodynamics and Solid State Physics

#### **Year 3, Semester 1**

PCB561 Quantum and Condensed Matter Physics  
 PCB562 Physical Methods of Analysis  
 PCB661 Experimental Physics  
 Either

LSB118 Life Science, or  
 NRB100 Environmental Science

#### **Year 3, Semester 2**

EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB008 Primary Curriculum and Pedagogies: Interdisciplinary Primary Curriculum Studies I  
 EDB022 Primary Field Studies II: Practising Education in the Field

#### **Year 4, Semester 1**

EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB009 Primary Curriculum and Pedagogies: Interdisciplinary Primary Curriculum Studies II  
 EDB023 Primary Field Studies III: Immersion in Inclusive Educational Practices

#### **Year 4, Semester 2**

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB024 Primary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB025 Internship (Primary)  
 SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project

## ■ Bachelor of Applied Science/Bachelor of Education (Secondary) (IX02)

**Award title:** Bachelor of Applied Science (Study Area A)/Bachelor of Education (Secondary)

**CRICOS code:** 020322E

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Standard credit points per semester (full-time):** 48 (semesters 1, 6-8), 60 (semesters 2-5)

**Course coordinator:** Dr Megan Hargreaves (Science); Dr Peter Bond (Secondary)

### Professional Recognition

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen major. See the Bachelor of Applied Science (SC01) course for details.

### Course Design

See the Bachelor of Applied Science (SC01) course information for details of majors areas of study. To allow students to complete the double degree in a shorter period time, co-majors are to be taken from the education technology program.

In the first five semesters students will study a total of 20 science units. The science units will include selected science and mathematics units appropriate for general science teaching.

Teaching areas will depend on the major and teaching combinations chosen, but combinations should be appropriate for either Science Studies (General Science) with Biology, Chemistry, Geology, Physics for Mathematics; or Mathematics with Physics, Chemistry, Geoscience or Biology.

In the final semester, students may undertake the Middle Years of Schooling Pathway developing the knowledge, skills and understanding required to participate fully in the middle schooling reform movement.

### Field Experience Requirements

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Course Structure

#### Biochemistry

##### Year 1, Semester 1

LSB118 Life Science  
NRB100 Environmental Science  
PCB101 Physical Science

Either  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

##### Year 1, Semester 2

LSB238 Cell and Molecular Biology 1  
MAB101 Statistical Data Analysis 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2  
SCB222 Exploration of the Universe

##### Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
EDB031 Secondary Field Studies 1: Development and Learning in the Field

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
Curriculum Studies 1X

##### Year 2, Semester 2

MDB454 Science, Technology and Society  
LSB408 Metabolism  
LSB468 Molecular Biology

LSB608 Protein Science  
Either  
LSB497 Plant Molecular Biology, or  
LSB605 Protein Engineering and Bioprocessing

##### Year 3, Semester 1

LSB508 Advanced Metabolism  
LSB527 Biomedical Research Technologies  
Either

LSB568 Electron Microscopy, or  
LSB537 Genetic Engineering  
NRB230 Planet Earth

Curriculum Studies 1Y

##### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB032 Secondary Field Studies II: Practising Education in the Field  
Curriculum Studies 2X  
Curriculum Studies 2Y

##### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices  
Curriculum Studies 3X  
Curriculum Studies 3Y

##### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB035 Internship (Secondary)  
Education Elective

### Biotechnology

#### Year 1, Semester 1

LSB118 Life Science  
PCB101 Physical Science  
NRB100 Environmental Science

Either  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

#### Year 1, Semester 2

LSB238 Cell and Molecular Biology 1  
MAB101 Statistical Data Analysis 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2  
SCB222 Exploration of the Universe

#### Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
EDB031 Secondary Field Studies 1: Development and Learning in the Field

LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
Curriculum Studies 1X

#### Year 2, Semester 2

LSB408 Metabolism  
LSB468 Molecular Biology  
LSB605 Protein Engineering and Bioprocessing  
MDB454 Science, Technology and Society  
NRB240 History of Life on Earth

#### Year 3, Semester 1

LSB527 Biomedical Research Technologies  
LSB537 Genetic Engineering  
LSB568 Electron Microscopy

Either  
LSB509 Medical Biotechnology, or  
LSB577 Plant Biotechnology 1  
Curriculum Studies 1Y

#### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB032 Secondary Field Studies II: Practising Education in the Field  
Curriculum Studies 2X  
Curriculum Studies 2Y

#### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices  
Curriculum Studies 3X  
Curriculum Studies 3Y

**Year 4, Semester 2**

- EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB035 Internship (Secondary) Education Elective

**Chemistry****Year 1, Semester 1**

- MAB101 Statistical Data Analysis 1  
 NRB100 Environmental Science  
 PCB101 Physical Science  
 PCB142 Chemistry 1

**Year 1, Semester 2**

- LSB118 Life Science  
 MAB100 Mathematical Sciences 1A  
 PCB150 Physics 1H  
 PCB242 Chemistry 2  
 PCB434 Inorganic Chemistry

**Year 2, Semester 1**

- EDB002 Teaching and Learning Studies 2: Development and Learning  
 EDB031 Secondary Field Studies 1: Development and Learning in the Field  
 PCB305 Principles of Physical Chemistry  
 PCB354 Structure and Mechanism in Organic Chemistry Curriculum Studies 1X

**Year 2, Semester 2**

- MDB454 Science, Technology and Society  
 PCB414 Industrial and Environmental Analytical Chemistry  
 PCB444 Spectroscopy  
 PCB634 Organometallic and Coordination Chemistry  
 SCB222 Exploration of the Universe

**Year 3, Semester 1**

- NRB230 Planet Earth  
 PCB505 Advanced Physical Chemistry  
 PCB554 Synthesis and Reactivity in Organic Chemistry One of  
 PCB514 Instrumental Analysis  
 PCB584 Forensic Examination of Physical Evidence  
 PCB604 Project Curriculum Studies 1Y

**Year 3, Semester 2**

- EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB032 Secondary Field Studies II: Practising Education in the Field Curriculum Studies 2X Curriculum Studies 2Y

**Year 4, Semester 1**

- EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices Curriculum Studies 3X Curriculum Studies 3Y

**Year 4, Semester 2**

- EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB035 Internship (Secondary) Education Elective

**Ecology****Year 1, Semester 1**

- LSB118 Life Science  
 NRB100 Environmental Science  
 NRB230 Planet Earth  
 PCB101 Physical Science

**Year 1, Semester 2**

- MAB101 Statistical Data Analysis 1  
 NRB240 History of Life on Earth  
 NRB270 Animal and Plant Structure and Function  
 NRB410 Genetics and Evolution  
 SCB222 Exploration of the Universe

**Year 2, Semester 1**

- EDB002 Teaching and Learning Studies 2: Development and Learning  
 EDB031 Secondary Field Studies 1: Development and Learning in the Field  
 NRB301 Earth Surface Systems  
 NRB311 Population Ecology

## Curriculum Studies 1X

**Year 2, Semester 2**

- MDB454 Science, Technology and Society  
 NRB412 Experimental Design  
 NRB470 Vertebrate Biology  
 NRB611 Conservation Biology  
 NRB672 Marine and Freshwater Ecosystems

**Year 3, Semester 1**

- NRB510 Population Genetics  
 NRB511 Population Management  
 NRB572 Terrestrial Ecosystems  
 Science elective  
 Curriculum Studies 1Y

**Year 3, Semester 2**

- EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB032 Secondary Field Studies II: Practising Education in the Field Curriculum Studies 2X Curriculum Studies 2Y

**Year 4, Semester 1**

- EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices Curriculum Studies 3X Curriculum Studies 3Y

**Year 4, Semester 2**

- EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB035 Internship (Secondary) Education Elective

**Environmental Science****Year 1, Semester 1**

- LSB118 Life Science  
 NRB100 Environmental Science  
 NRB230 Planet Earth  
 PCB101 Physical Science

**Year 1, Semester 2**

- MAB101 Statistical Data Analysis 1  
 NRB240 History of Life on Earth  
 NRB270 Animal and Plant Structure and Function  
 SCB222 Exploration of the Universe  
 Either  
 PCB140 Introductory Chemistry, or  
 PCB142 Chemistry 1

**Year 2, Semester 1**

- EDB002 Teaching and Learning Studies 2: Development and Learning  
 EDB031 Secondary Field Studies 1: Development and Learning in the Field  
 NRB301 Earth Surface Systems  
 NRB311 Population Ecology Curriculum Studies 1X

**Year 2, Semester 2**

- MDB454 Science, Technology and Society  
 NRB412 Experimental Design  
 NRB440 Environmental Chemistry  
 NRB600 Sustainable Environmental Management  
 NRB672 Marine and Freshwater Ecosystems

**Year 3, Semester 1**

- NRB500 Environmental Modelling  
 NRB501 Spatial Analysis of Environmental Systems  
 NRB572 Terrestrial Ecosystems  
 One Science elective  
 Curriculum Studies 1Y

**Year 3, Semester 2**

- EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB032 Secondary Field Studies II: Practising Education in the Field Curriculum Studies 2X Curriculum Studies 2Y

**Year 4, Semester 1**

- EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices Curriculum Studies 3X Curriculum Studies 3Y

**Year 4, Semester 2**

- EDB005 Teaching and Learning Studies V: Professional Work of Teachers

EDB034	Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice
EDB035	Internship (Secondary) Education Elective

**Geoscience****Year 1, Semester 1**

MAB100	Mathematical Sciences 1A
NRB100	Environmental Science
NRB230	Planet Earth
PCB101	Physical Science

**Year 1, Semester 2**

LSB118	Life Science
MAB101	Statistical Data Analysis 1
NRB240	History of Life on Earth
SCB222	Exploration of the Universe Either
PCB140	Introductory Chemistry, or
PCB142	Chemistry 1

**Year 2, Semester 1**

EDB002	Teaching and Learning Studies 2: Development and Learning
EDB031	Secondary Field Studies 1: Development and Learning in the Field
NRB331	Sedimentary Geology
NRB333	Mineralogy Curriculum Studies 1X

**Year 2, Semester 2**

MDB454	Science, Technology and Society
NRB434	Structural Geology and Field Methods
NRB436	Introduction to Igneous and Metamorphic Petrology
NRB633	Hydrogeology One unit from:
NRB437	Stratigraphy and Depositional Environments
NRB440	Environmental Chemistry

**Year 3, Semester 1**

NRB301	Earth Surface Systems
NRB533	Advanced Geological Mapping
NRB534	Geophysics
NRB536	Petrology and Geochemistry Curriculum Studies 1Y

**Note:** The major component in assessment and teaching of NRB533 is conducted as a field program during July.

**Year 3, Semester 2**

EDB003	Teaching and Learning Studies 3: Practising Education
EDB032	Secondary Field Studies II: Practising Education in the Field Curriculum Studies 2X Curriculum Studies 2Y

**Year 4, Semester 1**

EDB004	Teaching and Learning Studies IV: Inclusive Education
EDB033	Secondary Field Studies III: Immersion in Inclusive Educational Practices Curriculum Studies 3X Curriculum Studies 3Y

**Year 4, Semester 2**

EDB005	Teaching and Learning Studies V: Professional Work of Teachers
EDB034	Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice
EDB035	Internship (Secondary) Education Elective

**Mathematics (WITH Maths C)****Year 1, Semester 1**

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
PCB101	Physical Science

**Year 1, Semester 2**

LSB118	Life Science
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1
PCB142	Chemistry 1
SCB222	Exploration of the Universe

**Year 2, Semester 1**

EDB002	Teaching and Learning Studies 2: Development and Learning
EDB031	Secondary Field Studies 1: Development and Learning in the Field Two Level 2 Mathematics units * - available units are:
MAB311	Advanced Calculus

MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2 Curriculum Studies 1X

**Note:** Students must complete at least one of MAB311, MAB312, MAB413

**Year 2, Semester 2**

MDB454	Science, Technology and Society Two Level 2 Mathematics units * - available units are:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation Two Level 3 Mathematics units - available units are:
MAB621	Discrete Mathematics
MAB623	Financial Mathematics

**Note:** Students must complete at least one of MAB311, MAB312, MAB413

**Year 3, Semester 1**

PCB107	Physics and Quantitative Techniques Three Level 3 Mathematics units - available units are:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling Curriculum Studies 1Y

**Year 3, Semester 2**

EDB003	Teaching and Learning Studies 3: Practising Education
EDB032	Secondary Field Studies II: Practising Education in the Field Curriculum Studies 2X Curriculum Studies 2Y

**Year 4, Semester 1**

**Year 2, Semester 1**

EDB002	Teaching and Learning Studies 2: Development and Learning
EDB031	Secondary Field Studies 1: Development and Learning in the Field Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2 Curriculum Studies 1X

**Year 2, Semester 2**

MDB454	Science, Technology and Society Two Level 2 Mathematics Units* - available units are:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2

MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB480 Introduction to Scientific Computation  
Two Level 3 Mathematics units - available units are:  
MAB621 Discrete Mathematics  
MAB623 Financial Mathematics  
**Note:** Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 1

PCB107 Physics and Quantitative Techniques  
Three Level 3 Mathematics units - available units are:  
MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB523 Introduction to Quality Management  
MAB525 Operations Research 3A  
MAB526 Statistical Science 3  
MAB672 Advanced Mathematical Modelling  
Curriculum Studies 1Y

#### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB032 Secondary Field Studies II: Practising Education in the Field  
Curriculum Studies 2X  
Curriculum Studies 2Y

#### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices  
Curriculum Studies 3X  
Curriculum Studies 3Y

#### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB035 Internship (Secondary)  
Education Elective

### Microbiology

#### Year 1, Semester 1

LSB118 Life Science  
NRB100 Environmental Science  
PCB101 Physical Science  
Either  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

#### Year 1, Semester 2

LSB238 Cell and Molecular Biology 1  
MAB101 Statistical Data Analysis 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2  
SCB222 Exploration of the Universe

#### Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
EDB031 Secondary Field Studies 1: Development and Learning in the Field  
LSB308 Biochemistry  
LSB338 Cell and Molecular Biology 2  
Curriculum Studies 1X

#### Year 2, Semester 2

LSB408 Metabolism  
LSB428 Microbiology 2  
MDB454 Science, Technology and Society  
NRB240 History of Life on Earth  
Science elective

#### Year 3, Semester 1

LSB528 Environmental Microbiology  
LSB547 Bacterial Pathogenesis and Disease Diagnosis  
LSB568 Electron Microscopy  
LSB578 Virology  
Curriculum Studies 1Y

#### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB032 Secondary Field Studies II: Practising Education in the Field  
Curriculum Studies 2X  
Curriculum Studies 2Y

#### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices

Curriculum Studies 3X  
Curriculum Studies 3Y

#### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB035 Internship (Secondary)  
Education Elective

### Physics

#### Year 1, Semester 1

PCB101 Physical Science  
PCB107 Physics and Quantitative Techniques  
Either  
MAB180 Engineering Mathematics 1  
MAB131 Engineering Mathematics 1A, or  
Either  
NRB100 Environmental Science, or  
ITB111 Software Development 1

#### Year 1, Semester 2

MAB132 Engineering Mathematics 1B  
MDB454 Science, Technology and Society  
PCB250 Physics 1  
PCB260 Physics 1A  
SCB222 Exploration of the Universe

#### Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning  
EDB031 Secondary Field Studies 1: Development and Learning in the Field  
MAB134 Electrical Engineering Mathematics 3  
PCB361 AC Theory and Electronics  
Curriculum Studies 1X

#### Year 2, Semester 2

LSB118 Life Science  
PCB445 Nanotechnology and Nanoscience  
PCB460 Instrumentation and Computational Methods  
PCB462 Thermodynamics and Solid State Physics  
PCB469 Astrophysics 1

#### Year 3, Semester 1

PCB561 Quantum and Condensed Matter Physics  
PCB562 Physical Methods of Analysis  
PCB563 Global Energy and Climate Change  
PCB661 Experimental Physics  
Curriculum Studies 1Y

#### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
EDB032 Secondary Field Studies II: Practising Education in the Field  
Curriculum Studies 2X  
Curriculum Studies 2Y

#### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices  
Curriculum Studies 3X  
Curriculum Studies 3Y

#### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
EDB035 Internship (Secondary)  
Education Elective

### Science Component

#### Major in Physics (with Mathematics Studies)

Replace one science unit (not Physics units) with MAB101 Statistical Data Analysis 1.

Optional - replace up to two other science units (not Physics units) with mathematics units from MAB210, MAB220 or Level 2 or Level 3 units.

#### Mathematics Studies for Majors other than Mathematics or Physics

The following four mathematics units should be included:

MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C

Up to two other mathematical units may also be selected.

**List 1: Curriculum Studies 1X & 1Y**

Prerequisite: Normally minimum of 24 credit points of relevant discipline

MDB009	Biology Curriculum Studies 1
MDB012	Chemistry Curriculum Studies 1
MDB018	Earth Science Curriculum Studies 1
MDB021	Mathematics Curriculum Studies 1
MDB024	Physics Curriculum Studies 1
MDB027	Science Curriculum Studies 1

**List 2: Curriculum Studies 2X & 2Y**

Prerequisites: Curriculum Studies 1X & 1Y

MDB010	Biology Curriculum Studies 2
MDB013	Chemistry Curriculum Studies 2
MDB019	Earth Science Curriculum Studies 2
MDB022	Mathematics Curriculum Studies 2
MDB025	Physics Curriculum Studies 2
MDB028	Science Curriculum Studies 2

**List 3: Curriculum Studies 3X & 3Y**

Prerequisites: Curriculum Studies 2X & 2Y

MDB011	Biology Curriculum Studies 3
MDB014	Chemistry Curriculum Studies 3
MDB020	Earth Science Curriculum Studies 3
MDB023	Mathematics Curriculum Studies 3
MDB026	Physics Curriculum Studies 3
MDB029	Science Curriculum Studies 3

## ■ Bachelor of Applied Science/Bachelor of Information Technology (IF29)

**Award title:** Bachelor of Applied Science (Study Area

A)/Bachelor of Information Technology

**CRICOS code:** 020327M

**Location:** Gardens Point

**Course duration (full-time):** 4 Years

**Total credit points:** 408 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Megan Hargreaves (Science); Dr Alan Tickle (InfTech)

**Professional Recognition**

Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

**Course Design**

The science component of the course offers students a choice of one of eight majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the information technology program.

The information technology component gives students the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the science and information technology degrees.

**Cooperative Education Program**

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

**Course Structure****Biochemistry****Year 1, Semester 1**

ITB111	Software Development 1
ITB115	Introduction to Databases
LSB118	Life Science
PCB101	Physical Science

**Year 1, Semester 2**

ITB112	Software Development 2

## **■ Bachelor of Applied Science/Bachelor of Laws (IF39)**

**Award title:** Bachelor of Applied Science (Study Area A)/Bachelor of Laws

**CRICOS code:** 012661G

**Location:** Gardens Point

**Course duration (full-time):** 5 Years

**Total credit points:** 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Standard credit points per semester (full-time):** 60 (years 1 and 4), 48 (years 2, 3 and 5)

**Course coordinator:** Dr Megan Hargreaves (Science); Director, Undergraduate Programs (Law)

### **Course Structure**

The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To allow students to complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

The science units are taken in conjunction with law units in the first three years, with the fourth and fifth years of the course normally consisting entirely of law units.

### **Professional Recognition**

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a solicitor and/or barrister in all Australian states and territories.

LWB136 Contracts A  
NRB301 Earth Surface Systems  
NRB331 Sedimentary Geology  
NRB333 Mineralogy

**Year 2, Semester 2**

LWB137 Contracts B  
NRB434 Structural Geology and Field Methods  
NRB436 Introduction to Igneous and Metamorphic Petrology  
One unit from:  
NRB437 Stratigraphy and Depositional Environments  
NRB440 Environmental Chemistry

**Year 3, Semester 1**

LWB138 Fundamentals of Torts  
LWB238 Fundamentals of Criminal Law  
Two units from:

NRB533 Advanced Geological Mapping  
NRB534 Geophysics  
NRB536 Petrology and Geochemistry

**Note:** The major component in assessment and teaching of NRB533 is conducted as a field program during July.

### Year 3, Semester 2

LWB139	Select Issues in Torts
LWB239	Criminal Responsibility
	Two units from:
NRB633	Hydrogeology
NRB635	Plate Tectonics and Advanced Structural Geology
NRB636	Stratigraphy and Basin Analysis

### Year 4, Semester 1

LWB231	Introduction to Public Law
LWB236	Real Property A
LWB240	Principles of Equity
LWB332	Commercial and Personal Property Law
LWB333	Theories of Law

### Year 4, Semester 2

LWB235	Australian Federal Constitutional Law
LWB237	Real Property B
LWB241	Trusts
LWB331	Administrative Law
LWB334	Corporate Law

### Year 5, Semester 1

LWB431	Civil Procedure
LWB432	Evidence
LWB434	Advanced Research and Legal Reasoning
	Elective Units *

### Year 5, Semester 2

LWB433	Professional Responsibility
	Elective Units *

## Mathematics [WITH Mathematics C from Senior]

### Year 1, Semester 1

	Introduction to Legal Research #
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C

### Year 1, Semester 2

LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1
	One Science unit - selected from:
LSB118	Life Science
PCB101	Physical Science

### Year 2, Semester 1

LWB136	Contracts A
	One Science unit - selected from:
LSB118	Life Science
NRB100	Environmental Science
PCB101	Physical Science
	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2

\*Students must complete at least one of MAB311, MAB312, MAB413

### Year 2, Semester 2

LWB137	Contracts B
	Three Level 2 Mathematics units* - available units are:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation

\*Students must complete at least one of MAB311, MAB312, MAB413

### Year 3, Semester 1

LWB138	Fundamentals of Torts
LWB238	Fundamentals of Criminal Law
	Two Level 3 Mathematics units - available units are:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

### Year 3, Semester 2

LWB139	Select Issues in Torts
LWB239	Criminal Responsibility

Two Level 3 Mathematics units - available units are:

MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

### Year 4, Semester 1

LWB231	Introduction to Public Law
LWB236	Real Property A
LWB240	Principles of Equity
LWB332	Commercial and Personal Property Law
LWB333	Theories of Law

### Year 4, Semester 2

LWB235	Australian Federal Constitutional Law
LWB237	Real Property B
LWB241	Trusts
LWB331	Administrative Law
LWB334	Corporate Law

### Year 5, Semester 1

LWB431	Civil Procedure
LWB432	Evidence
LWB434	Advanced Research and Legal Reasoning
	Elective Units *

### Year 5, Semester 2

LWB433	Professional Responsibility
	Elective Units *

## Mathematics [WITHOUT Mathematics C from Senior]

### Year 1, Semester 1

	Introduction to Legal Research #
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1

### Year 1, Semester 2

LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1

### Year 2, Semester 1

LWB136	Contracts A
MAB220	Computational Mathematics 1
	One Science unit - selected from:
LSB118	Life Science
NRB100	Environmental Science
PCB101	Physical Science
	Three Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2

\*Students must complete at least one of MAB311, MAB312, MAB413.

### Year 2, Semester 2

LWB137	Contracts B
	One Science unit - selected from:
LSB118	Life Science
PCB101	Physical Science
	Two Level 2 Mathematics units* - available units are:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation

\*Students must complete at least one of MAB311, MAB312, MAB413

### Year 3, Semester 1

LWB138	Fundamentals of Torts
LWB238	Fundamentals of Criminal Law
	Two Level 3 Mathematics units - available units are:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

### Year 3, Semester 2

LWB139	Select Issues in Torts
--------	------------------------

- LWB239 Criminal Responsibility  
Two Level 3 Mathematics units - available units are:  
MAB524 Statistical Inference  
MAB613 Partial Differential Equations  
MAB621 Discrete Mathematics  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB625 Operations Research 3B

**Year 4, Semester 1**

- LWB231 Introduction to Public Law  
LWB236 Real Property A  
LWB240 Principles of Equity  
LWB332 Commercial and Personal Property Law  
LWB333 Theories of Law

**Year 4, Semester 2**

- LWB235 Australian Federal Constitutional Law  
LWB237 Real Property B  
LWB241 Trusts  
LWB331 Administrative Law  
LWB334 Corporate Law

**Footnotes for Law Units**

# Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2004. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.

\* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.

## ■ Bachelor of Arts/Bachelor of Applied Science (IF86)

**Award title:** Bachelor of Arts/Bachelor of Applied Science (Study Area A)

**CRICOS code:** 031581F

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 4 Years

**Total credit points:** 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr John Synott (Humanities); Dr Megan Hargreaves (Science)

### Course Design

A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The majors available in the science degree are Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Mathematics, Microbiology or Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the arts program. The program is integrated so that students will study both science and humanities units in each semester.

### Professional Recognition

As this double degree meets requirements for the award of the component degrees, the award is recognised by professional bodies in both Arts and Science. Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

### BA Course Requirements - Commencing Students

Students are required to complete:

- One Interdisciplinary Professional Major (1 core unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:

- Two core units in first semester (from a selection of core introductory and core skills units)

(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)

- Year Two: research methods unit. Students are advised to take at least two of these units.

In making these decisions, students should consider the structure of the Discipline Studies Sequences and/or Minors they may be planning to undertake.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may wish to

- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- take a series of elective units.

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units ie HHB coded units.

### Course requirements - Continuing Students

Course Requirements for Bachelor of Arts

YEARS 1 and 2

Students are required to complete 8 units including:

- HHB116 Applied Skills and Scholarship
- Two Foundation Units (if students have not already completed two Faculty Foundation Units as part of the BA component of the student course)
- Two to three Course Foundation Units
- Two to three Elective Units

NB A minimum of 4 of these 8 units must be chosen from units in the BA component of the double degree i.e. HHB coded units).

YEARS 3 and 4

Students are required to do a further 8 units to complete:

- One Major Study Sequence from those offered in the BA component, and
- One Minor Study Sequence chosen from those offered in the BA component (i.e. HHB coded units) or from other Minor Study Sequences offered elsewhere within QUT.

**Note:** A minimum of 12 of the 16 units must be chosen from units in the BA.

### Interdisciplinary Professional Majors

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

### Discipline Sequences

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

### Minor Study Sequences

For details, refer to the Co-Majors list in the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as these co-majors are able to be taken as Minors.

### Bachelor of Applied Science Course Requirements

Students are required to complete:

- At least six Faculty of Science Core Units, including at least three Foundation units in schedule 1 of the Bachelor of Applied Science course SC01.
- A major (Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Mathematics, Microbiology, Physics).

Students are required to attend an academic advising session to discuss and enrol in their Bachelor of Applied Science program of study.

### Example of Full-time Course Structure for Commencing Students

#### Year 1, Semester 1

- Core Arts unit (major)
- Core Arts unit (major)
- Two Science units (SC01 Level 1): Foundation units

#### Year 1, Semester 2

- Arts Major unit
- Arts Major unit
- Two Science units (SC01 Level 1): at least one Foundation unit

#### Year 2, Semester 1

- Core Arts unit (major or skills)
- Core Arts unit (major or skills)

Two Science units (SC01 Levels 1 and 2: Level 2 from Major)

**Year 2, Semester 2**

Arts Major unit

Arts Minor unit

Two Science Units (SC01 Levels 1 and 2: Level 2 from Major)

**Year 3, Semester 1**

Arts Major unit

Core Arts unit (research methods)

Two Science Major units (SC01 Level 2)

**Year 3, Semester 2**

Arts Minor unit

Core Arts unit (research methods)

Two Science Major units (SC01 Level 3)

**Year 4, Semester 1**

Arts Major unit

Arts Minor unit

Two Science Major units (SC01 Level 3)

**Year 4, Semester 2**

Arts Major unit

Arts Minor unit

Two Science Major units (SC01 Level 3)

**CORE PROGRAM - BA Students**

*This core program for the degree consists of the following selection of units:*

**First Year Core: Core Units for Professional Majors**

INTERNATIONAL AND GLOBAL STUDIES

HHB110 Introduction To International And Global Studies

HHB107 World Regions

SOCIETY AND CHANGE

HHB105 Exploring Change

HHB104 Understanding Society: Introduction to Sociology

ETHICS AND HUMAN RIGHTS

HHB114 Introduction To Human Rights And Ethics

HHB115 Human Identity And Change

COMMUNITY STUDIES

HHB106 Australian Society And Culture

HHB103 Contemporary Social And Community Issues

**First Year Core: Skills Units**

HHB116 Applied Skills And Scholarship

HHB117 Introduction To Social Research Methods

**Second Year Core: Research Methods**

HHB224 Qualitative Research Methods

HHB232 Survey Methods

HHB121 Interpreting The Past

HHB312 Geographical Research Design

**Biochemistry****Year 1, Semester 1**

Either  
PCB140 Introductory Chemistry, or  
PCB142 Chemistry 1

**Year 2, Semester 2**

NRB240 History of Life on Earth  
NRB440 Environmental Chemistry

**Year 3, Semester 1**

NRB331 Sedimentary Geology  
NRB333 Mineralogy

**Year 3, Semester 2**

NRB434 Structural Geology and Field Methods  
NRB436 Introduction to Igneous and Metamorphic Petrology

**Year 4, Semester 1**

NRB534 Geophysics  
NRB536 Petrology and Geochemistry

**Year 4, Semester 2**

NRB601 Field Assessment and Monitoring of Natural Resources  
One unit from:  
NRB633 Hydrogeology  
NRB635 Plate Tectonics and Advanced Structural Geology  
NRB636 Stratigraphy and Basin Analysis

**Mathematics (WITH Mathematics C from Senior)****Year 1, Semester 1**

MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B

**Year 1, Semester 2**

MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

**Year 2, Semester 1**

MAB220 Computational Mathematics 1  
One Science unit - selected from:

LSB118 Life Science  
NRB100 Environmental Science  
PCB101 Physical Science

**Year 2, Semester 2**

Science elective unit  
One Science unit - selected from:

LSB118 Life Science  
PCB101 Physical Science

**Year 3, Semester 1**

Two Level 2 Mathematics units\* - available units are:

MAB311 Advanced Calculus  
MAB312 Linear Algebra  
MAB313 Mathematics of Finance  
MAB314 Statistical Modelling 2

\*Students must complete at least one of MAB311, MAB312, MAB413

**Year 3, Semester 2**

Two Level 2 Mathematics units\* - available units are:

MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB480 Introduction to Scientific Computation

\*Students must complete at least one of MAB311, MAB312, MAB413

**Year 4, Semester 1**

Two Level 3 Mathematics units - available units are:

MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB523 Introduction to Quality Management  
MAB525 Operations Research 3A  
MAB526 Statistical Science 3  
MAB672 Advanced Mathematical Modelling

**Year 4, Semester 2**

Two Level 3 Mathematics units - available units are:

MAB524 Statistical Inference  
MAB613 Partial Differential Equations  
MAB621 Discrete Mathematics  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB625 Operations Research 3B

**Mathematics (WITHOUT Mathematics C from Senior)****Year 1, Semester 1**

MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1

**Year 1, Semester 2**

MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C

**Year 2, Semester 1**

MAB220 Computational Mathematics 1  
One Science unit - selected from:

LSB118 Life Science  
NRB100 Environmental Science  
PCB101 Physical Science

**Year 2, Semester 2**

MAB210 Statistical Modelling 1  
One Science unit - selected from:

LSB118 Life Science  
PCB101 Physical Science

**Year 3, Semester 1**

Two Level 2 Mathematics units\* - available units are:

MAB311 Advanced Calculus  
MAB312 Linear Algebra  
MAB313 Mathematics of Finance  
MAB314 Statistical Modelling 2  
\*Students must complete at least one of MAB311, MAB312, MAB413

**Year 3, Semester 2**

Two Level 2 Mathematics units\* - available units are:

MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB480 Introduction to Scientific Computation  
\*Students must complete at least one of MAB311, MAB312, MAB413

**Year 4, Semester 1**

Two Level 3 Mathematics units - available units are:

MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB523 Introduction to Quality Management  
MAB525 Operations Research 3A  
MAB526 Statistical Science 3  
MAB672 Advanced Mathematical Modelling

**Year 4, Semester 2**

Two Level 3 Mathematics units - available units are:

MAB524 Statistical Inference  
MAB613 Partial Differential Equations  
MAB621 Discrete Mathematics  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB625 Operations Research 3B

**Microbiology****Year 1, Semester 1**

BA Minor Unit or Elective

**Year 4, Semester 2**

PYB311 Psychological Assessment  
Psychology Elective\*  
BA Major Unit  
BA Minor Unit or elective

**Notes:** \* PYB350 is compulsory if you wish to continue into the Bachelor of Psychology (Honours) program, otherwise another elective can be taken.

## BA Core Units (For Majors and Research Methods) and Skills Units

**BA CORE UNITS FOR MAJORS**

HHB103 Contemporary Social And Community Issues  
HHB104 Understanding Society: Intro To Sociology  
HHB105 Exploring Change  
HHB106 Australian Society And Culture  
HHB110 Introduction To International And Global Studies

HHB111 Issues In International And Global Studies  
 HHB114 Introduction To Human Rights And Ethics  
 HHB115 Human Identity And Change

**BA SKILLS UNITS**

HHB116 Applied Skills And Scholarship  
 HHB117 Introduction To Social Research Methods

**BA CORE UNIT (RESEARCH METHODS)**

HHB121 Interpreting The Past  
 HHB224 Qualitative Research Methods  
 HHB232 Survey Methods  
 HHB312 Geographical Research Design

**MAJORS IN THE BACHELOR OF ARTS****International and Global Studies****INTRODUCTORY UNITS**

HHB110 Introduction To International And Global Studies  
 HHB107 World Regions

**STRAND A - GLOBAL PERSPECTIVES**

HHB111 Issues In International And Global Studies  
 HHB122 Colonialism And Independence In Asia Pacific  
 HHB226 Consuming Cultures  
 HHB223 Islam and Islamic Societies  
 HHB241 Gender and Globalisation  
 HHB248 The USA and The Asia Pacific Region  
 HHB263 Politics Of Globalisation  
 HHB269 Ethics, Technology And The Environment  
 HHB310 Globalisation And Social Theory  
 HHB311 Colonial Fantasies And Postcolonial Identities  
 HHB315 Sex And Drugs In South-East Asia  
 HHB331 Advanced Seminar

**STRAND B - INTERNATIONAL STUDIES**

HHB229 Windows On Japan  
 HHB238 Asian Cultures And Societies  
 HHB239 Korean Culture And Societies  
 HHB243 The Pacific Since 1945  
 HHB244 Southeast Asia In Focus  
 HHB245 Australia And The South Pacific  
 HHB246 Modern China  
 HHB256 Europe Since 1945  
 HHB260 Nations And Nationalism In Modern Europe

**Society and Change**

HHB104 Understanding Society: Intro To Sociology  
 HHB105 Exploring Change  
**STRAND A - THE INDIVIDUAL AND SOCIETY**  
 HHB102 The Human Condition  
 HHB113 Interpersonal Communication  
 HHB215 Crisis And Conflict Resolution  
 HHB225 Political Sociology  
 HHB230 Political Behaviour  
 HHB233 Sex, Gender And Society  
 HHB234 Sociological Theory  
 HHB236 Virgins, Saints And Sinners: Sociology Of Religion  
 HHB240 Sociology Of Crime And Deviance  
 HHB268 Vulnerable Identities  
 HHB335 Bodies, Cyborgs and Cyberspace  
**STRAND B - ENVIRONMENT, SOCIETY AND CHANGE**

HHB127 Environment And Society  
 HHB210 Indigenous Australia: Country, Kin And Culture  
 HHB226 Consuming Cultures  
 HHB228 Environmental Hazards  
 HHB231 Health, Society And Environment  
 HHB251 Australian Resource Management  
**STRAND C - SOCIETIES IN TRANSITION**  
 HHB242 Pacific Culture Contact  
 HHB249 Social Movements In Australia  
 HHB253 Conspiracy And Dissent In Australian History  
 HHB257 The Classical World  
 HHB258 Foundations of Modern Europe  
 HHB259 War And Revolution In Europe 1914-1945  
 HHB261 Medieval Europe  
 HHB262 Political Ideologies  
 HHB315 Sex And Drugs In South-East Asia  
**CHANGE MANAGEMENT AND PROJECT UNITS**

HHB212 Community Work  
 HHB213 Social Policy Processes  
 HHB214 Team Practice and Group Processes  
 HHB329 Advanced Project

**Ethics and Human Rights****INTRODUCTORY UNITS**

HHB114 Introduction To Human Rights And Ethics  
 HHB115 Human Identity And Change

**STRAND A - ETHICAL UNDERSTANDING AND THEORY**

HHB265 The Just Society  
 HHB267 Feminism And Ethics  
 HHB271 Ethical Theory

**STRAND B - HUMAN RIGHTS**

HHB274 Human Rights: International And Regional Activism  
 HHB275 Human Rights: Australian Activism

**STRAND C - IDENTITY STUDIES**

HHB268 Vulnerable Identities  
 HHB272 Composing Identities: The Artistry Of Living

**STRAND D - ETHICS AND TECHNOLOGY**

HHB260 Nations And Nationalism In Modern Europe  
 HHB270 Gene Technology And Ethics  
 HHB273 Reshaping Life And Death

**STRAND E - ETHICAL PRACTICE**

HHB264 Public And Professional Ethics  
 HHB266 Ethical Decision Making  
 HHB328 Researching Applied Ethics

**Community Studies****INTRODUCTORY UNITS**

HHB106 Australian Society And Culture  
 HHB103 Contemporary Social And Community Issues

**STRAND A - COMMUNITY PRACTICE**

HHB100 Introduction To Human Services  
 HHB113 Interpersonal Communication  
 HHB203 Aged Services: Introduction  
 HHB204 Child And Family Services: Introduction  
 HHB205 Corrective Services: Introduction  
 HHB206 Disability Services: Introduction  
 HHB207 Services To Young People: Introduction  
 HHB212 Community Work  
 HHB214 Team Practice and Group Processes  
 HHB215 Crisis And Conflict Resolution  
 HHB216 The Human Dimensions Of Space

**STRAND B - AUSTRALIAN STUDIES**

HHB109 Australian Historical Studies  
 HHB112 Australian Politics  
 HHB123 Indigenous Australian Culture Studies  
 HHB210 Indigenous Australia: Country, Kin And Culture  
 HHB237 Brisbane in the Twentieth Century  
 HHB245 Australia And The South Pacific  
 HHB249 Social Movements In Australia  
 HHB250 Australian Geographical Studies  
 HHB251 Australian Resource Management  
 HHB253 Conspiracy And Dissent In Australian History  
 HHB255 Indigenous Politics And Political Culture  
 HHB275 Human Rights: Australian Activism

**DISCIPLINE MAJORS****Geography and Environmental Studies****INTRODUCTORY UNITS**

## ■ Bachelor of Arts/Bachelor of Business (Accountancy, Banking and Finance, Economics or Marketing) (IF30)

**Award title:** Bachelor of Arts/Bachelor of Business (Study Area A)

**CRICOS code:** 027275F

**Location:** Gardens Point and Carseldine

**Course duration (full-time):** 4.5 years (9 semesters) full-time

**Total credit points:** 432 (192 cp in Arts and 240 cp in Business)

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr John Synott (Humanities and Human Services); Mr Andrew Paltridge (Business)

**Discipline coordinator:** Dr John Sweeting (Accountancy); Dr Yunus Ali (Marketing); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics)

**Other Majors**

See also the separate entry for the following majors in this course: Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management, or Public Relations).

**Professional Recognition**

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

- All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
- Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
- Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
- Economics: Economic Society of Australia (Queensland Division).

- Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association.

### Course Design

Students are required to complete 432 credit points comprised of 192 credit points from the Bachelor of Arts program and 240 credit points from the Bachelor of Business program.

### BA Course Requirements - Commencing Students

BA Course Requirements (Years 1-4)

Students are required to complete:

- One Interdisciplinary Professional Major (1 core unit + 6 units in the major)

It is suggested that they complete the Core Units Program consisting of the following:

- Two core units in first semester (from a selection of core introductory and core skills units)

(**Note:** one of the core introductory units will sit within the chosen Interdisciplinary Professional Major.

- Year 2: research methods unit. Students are advised to take at least two of these units.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may wish to:

- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- take a series of elective units.

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units ie HHB coded units.

### Interdisciplinary Professional Majors

For details, refer to the Bachelor of Arts (HH01).

### Discipline Sequences

For details, refer to the Bachelor of Arts (HH01).

### Minor Sequences

For details, refer to the Co-Majors entry in the Bachelor of Arts (HH01) entry as any of these are available to be taken as Minors.

Business Double Major / Extended Major / Specialisation Unit

#### Year 4, Semester 2

Business Double Major / Extended Major / Specialisation Unit  
Business Double Major / Extended Major / Specialisation Unit

#### Year 5, Semester 1

BSB111 Business Law and Ethics  
MGB309 Strategic Management  
Business Double Major / Extended Major / Specialisation Unit  
Business Double Major / Extended Major / Specialisation Unit

\*The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students

undertaking Marketing or Public Relations as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

### International Business (with a language specialisation)

Students undertake one language area only and may study French, German, Indonesian or Japanese, or seek approval to undertake a different language at another tertiary institution. Mandarin is offered only as intensive 24 credit point unit in Summer school mode, followed by in-country experience.

Students undertaking a language specialisation must complete a minimum of four language units, plus IBB205 Cross-Cultural Communication and Negotiation and an International Business Unit or two additional language units. The School of Humanities and Human Services offers language units at QUT.

#### Year 1, Semester 1

BSB119 International and Electronic Business  
Language 1

#### Year 1, Semester 2

BSB115 Management, People and Organisations  
Language 2

#### Year 2, Semester 1

BSB113 Economics  
Language 3

#### Year 2, Semester 2

IBB213 International Marketing  
Language 4

#### Year 3, Semester 1

BSB122 Quantitative Analysis and Finance  
Language 5, or

IBB205 Cross-Cultural Communication and Negotiation

#### Year 3, Semester 2

IBB202 International Business Development and Finance  
Language 6, or  
International Business Elective Unit (IBB2xx, IBB3xx)

#### Year 4, Semester 1

BSB114 Government, Business and Society  
International Business Area Study 1

#### Year 4, Semester 2

BSB126 Marketing  
International Business Area Study 2

#### Year 5, Semester 1

BSB110 Accounting  
BSB111 Business Law and Ethics  
IBB210 Export Management  
IBB300 International Business Strategy

#### International Business Area Study Units:

Students must complete one of the following pairs of area study units:

IBB208 European Business Development  
IBB308 Contemporary Business in Europe, or  
IBB217 Asian Business Development  
IBB317 Contemporary Business in Asia

### International Business (without a language specialisation)

- HHB116 Applied Skills and Scholarship
- Two Foundation Units (if you have not already completed 2 Faculty Foundation Units in Year 1)
- Two to three Course Foundation Units
- Two to three Elective Units.

NB A minimum of 4 of these 8 units must be chosen from the BA component of your course.

In second year, a further 8 units are to be completed:

- One Major Study Sequence chosen from those offered in the BA component, and
- One Minor Study Sequence chosen from those offered in the component of your course or from other minor Study Sequences offered elsewhere within QUT.

Students must ensure that a minimum of 12 of the 16 units must be chosen from units in the BA.

### Course Structure BA component - Commencing Students

BA Course Requirements (Years 1 and 2)(Commencing Students)

Students are required to complete:

- One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:

- Four core units in first semester (from a selection of core introductory units and core skills units)

(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)

- Two core units in second year (2 research methods units)

Students must maintain a 50% enrolment in units from the BA program until they have completed 8 of these units (96 credit points).

Students may wish to

- develop a Minor (48 credit points) in one of the Interdisciplinary Professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- take a series of elective units.

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full language sequence (6 units) will need to discuss their program with the relevant Course Coordinator to ensure that their language studies begin in semester one and continue into their third year.

NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units ie HHB coded units.

### Key Terms in the BA

**Professional Major** - one of four interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies), consisting of one core unit plus six from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.

NB: a unit may not be counted in more than one professional major, discipline sequence, or Minor.

**Discipline Sequence** - a set of six units (72 credit points) in a given discipline (Geography, History, Languages and Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines it must include one introductory unit to the discipline.

**Minor Study Sequence** - a study sequence of any four units (48 credit points) in a given subject area.

### Interdisciplinary Professional Majors - Commencing Students

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

### Discipline Sequences

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

### Minor Sequences

For details, refer to the Co-majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

### CORE PROGRAM - BA Students

Please refer to the Core Program listed under the **Bachelor of Arts/Bachelor of Applied Science (IF86)**.

**Course Structure - Example of Full-time Course Structure****Year 1, Semester 1**

Introductory Core unit (Major)  
 1st Year Core Skills unit (HHB116)

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking Management as a double major should contact the school for enrolment advice. From semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

**Business Specialisations**

Students should note that not all specialisations will be timetabled in every year or semester. Hence it is important that you confirm that the specialisation in which you are interested is offered. Any deviation from the list of specialisations requires approval from the Faculty of Business, Director of Undergraduate Studies. Students are required to undertake an alternative specialisation unit where the same unit constitutes part of their Business major.

**Accounting**

**Award title:** Bachelor of Business (Study Area A)/Bachelor of Education (Secondary)

**CRICOS code:** 020321F

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Standard credit points per semester (full-time):** 54 (average)

**Course coordinator:** Mr Andrew Paltridge (Business), Dr Peter Bond (Education)

**Discipline coordinator:** Dr John Sweeting (Accountancy); Dr Radhika Lahiri (Economics)

**Professional Recognition**

The Bachelor of Business degree may, subject to unit selection, allow graduates to satisfy the academic requirements for membership of CPA Australia, Institute of Chartered Accountants in Australia and Economic Society of Australia. Students may also meet the academic requirements for the Chartered Secretaries Australia (CSA) for enrolment in the Graduate Diploma in Applied Corporate Governance.

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland.

Applicants for teacher registration in Queensland are subject to national criminal history checks.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Course Design

Students are required to complete 240 credit points from the Faculty of Business plus 192 credit points in units offered by the Faculty of Education. Teaching areas for students completing this award are Accounting and Economics.

### Course Structure

#### Year 1, Semester 1

BSB110	Accounting
BSB113	Economics
BSB119	International and Electronic Business
BSB122	Quantitative Analysis and Finance
BSB126	Marketing

#### Year 1, Semester 2

AYB121	Financial Accounting
BSB111	Business Law and Ethics
BSB115	Management, People and Organisations
EFB101	Data Analysis for Business
EFB102	Economics 2

#### Year 2, Semester 1

AYB220	Company Accounting
BSB114	Government, Business and Society
EFB202	Business Cycles and Economic Growth
EFB210	Finance 1
EFB211	Firms, Markets and Resources

#### Year 2, Semester 2

AYB221	Computerised Accounting Systems
AYB225	Management Accounting
AYB301	Auditing
EFB314	International Trade and Economic Competitiveness
EFB323	Financial and Monetary Economics

#### Year 3, Semester 1

CLB009	Accounting and Business Management Curriculum Studies 1
CLB015	Economics Curriculum Studies 1
EDB002	Teaching and Learning Studies 2: Development and Learning
EDB031	Secondary Field Studies 1: Development and Learning in the Field

#### Year 3, Semester 2

EDB003	Teaching and Learning Studies 3: Practising Education
EDB032	Secondary Field Studies II: Practising Education in the Field
CLB010	Accounting/Business Management Curriculum Studies 2
CLB016	Economics Curriculum Studies 2

#### Year 4, Semester 1

EDB004	Teaching & Learning Studies IV: Inclusive Education
EDB033	Secondary Field Studies III: Immersion in Inclusive Educational Practices
CLB011	Accounting/Business Management Curriculum Studies 3
CLB017	Economics Curriculum Studies 3

#### Year 4, Semester 2

EDB005	Teaching and Learning Studies V: Professional Work of Teachers
EDB007	Culture Studies: Indigenous Education
EDB034	Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice
EDB035	Internship (Secondary)

## ■ Bachelor of Business/Bachelor of Information Technology (IF48)

**Award title:** Bachelor of Business (Study Area A)/Bachelor of Information Technology

**CRICOS code:** 022137A

**Location:** Gardens Point

**Course duration (full-time):** 8 or 9 Semesters

**Total credit points:** 432

**Standard credit points per semester (full-time):** 54 (average) for 8 semesters; 48 for 9 semesters

## IT Elective Units

Please refer to the IT Elective Units listed under the **Bachelor of Applied Science/Bachelor of Information Technology (IF29)**.

## ■ Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology (IF90)

**Award title:** Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology

**CRICOS code:** 040317C

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Greg Hooper (Creative Industries) ; Dr Alan Tickle (Info Tech)

## Cooperative Education Program

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's

Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty's Cooperative Education program home page at [www.fit.qut.edu.au/courses/undergrad/coop/](http://www.fit.qut.edu.au/courses/undergrad/coop/)

### Professional Recognition

Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).
