BSB114	Government, Business and Society
BSB126	Marketing
	Language 5, or
IBB205	Cross-Cultural Communication and Negotiation
KCB295	Virtual Cultures

KCB349 Media Audiences

**Year 3, Semester 2**

BSB110 Accounting

IBB213 International Marketing

Language 6, or

International Business Elective Unit (IBB2xx or IBB3xx)

KCB335 Managing Communication Resources

Creative Industries Elective

**Year 4, Semester 1**

BSB115 Management, People and Organisations

IBB210 Export Management

International Business Area Study 1

KCB311 Political Communication

Creative Industries Elective\*

**Year 4, Semester 2**

BSB111 Business Law and Ethics

IBB300 International Business Strategy

International Business Area Study 2

KCB204 Globalisation and New Media

Creative Industries Elective\*

**International Business Area Study Units**

Students must complete one of the following pairs of area study units:

IBB208 European Business Development

IBB308 Contemporary Business in Europe, or

IBB217 Asian Business Development

IBB317 Contemporary Business in Asia

\* With approval of the Creative Industries Course Coordinator, students can enrol in industry placement units in Year 4 of their degree as electives.

**International Business (With Language - 9 Semester Concurrent Model)**

**Year 1, Semester 1**

BSB119 International and Electronic Business

Language 1

KCB140 Media and Society: From Printing Press to Internet

Creative Industries Core Unit - See List A

**Year 1, Semester 2**

BSB113 Economics

Language 2

KCB336 New Media Technologies

KCB101 Communication in the New Economy

**Year 2, Semester 1**

BSB122 Quantitative Analysis and Finance

Language 3

KCB213 Strategic Speech Communication

Creative Industries Core Unit - See List A

**Year 2, Semester 2**

IBB202 International Business Development and Finance

Language 4

KCB150 Media and Communications Industries

**Year 3, Semester 1**

BSB126 Marketing

Language 5, or

IBB205 Cross-Cultural Communication and Negotiation

KCB295 Virtual Cultures

KCB349 Media Audiences

**Year 3, Semester 2**

IBB213 International Marketing

Language 6, or

International Business Elective Unit (IBB2xx, IBB3xx)

KCB335 Managing Communication Resources

Creative Industries Elective

**Year 4, Semester 1**

BSB115 Management, People and Organisations

International Business Area Study 1

KCB311 Political Communication

Creative Industries Elective\*

**Year 4, Semester 2**

BSB114 Government, Business and Society

IBB300 International Business Strategy

International Business Area Study 2

KCB204 Globalisation and New Media

**Year 5, Semester 1**

BSB110 Accounting

BSB111 Business Law and Ethics

IBB210 Export Management

Creative Industries Elective\*

**International Business Area Study Units:**

Students must complete one of the following pairs of area study units:

IBB208 European Business Development

IBB308 Contemporary Business in Europe, or

IBB217 Asian Business Development

IBB317 Contemporary Business in Asia

\* With approval of the Creative Industries Course Coordinator, students can enrol in industry placement units in Year 4 of their degree as electives.

**Public Relations (8 Semester Concurrent Model)**

**Year 1, Semester 1**

BSB122 Quantitative Analysis and Finance

BSB126 Marketing

KCB140 Media and Society: From Printing Press to Internet

Creative Industries Core Unit

**Year 1, Semester 2**

AMB260 Public Relations Theory and Practice

BSB119 International and Electronic Business

KCB101 Communication in the New Economy

KCB150 Media and Communications Industries

**Year 2, Semester 1**

AMB201 Marketing and Audience Research

AMB261 Media Relations and Publicity

KCB213 Strategic Speech Communication

Creative Industries Core Unit - See List A

**Year 2, Semester 2**

AMB262 Public Relations Writing

Business Double Major / Extended Major / Specialisation Unit

KCB336 New Media Technologies

Creative Industries Elective

**Year 3, Semester 1**

BSB113 Economics

BSB115 Management, People and Organisations

KCB295 Virtual Cultures

KCB349 Media Audiences

Business Double Major / Extended Major / Specialisation Unit

**Year 3, Semester 2**

BSB110 Accounting

BSB114 Government, Business and Society

Business Double Major / Extended Major / Specialisation Unit

KCB335 Managing Communication Resources

Creative Industries Elective

**Year 4, Semester 1**

AMB360 Corporate Communication Management

BSB111 Business Law and Ethics

Business Double Major / Extended Major / Specialisation Unit

KCB311 Political Communication

Creative Industries Elective\*

**Year 4, Semester 2**

AMB361 Public Relations Campaigns

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

KCB204 Globalisation and New Media

Creative Industries Elective

\* With approval of the Creative Industries Course Coordinator, students can enrol in industry placement units in Year 4 of their degree as electives.

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both AMB201 and MGB220 will be required to undertake an approved substitute unit to satisfy course requirements.

**Public Relations (9 Semester Concurrent Model)**

**Year 1, Semester 1**

BSB122 Quantitative Analysis and Finance

BSB126 Marketing

KCB140 Media and Society: From Printing Press to Internet

Creative Industries Core Unit - List A

BSB114	Government, Business and Society
	Business Double Major / Extended Major / Specialisation Unit
	Creative Industries Elective*

\* With approval of the Creative Industries Course Coordinator, students can enrol in industry placement units in Year 4 of their degree as electives.

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking a double major in HRM or Management should consult with the school of their major for enrolment advice. From Semester 2, 2003 students who complete both AMB201 and MGB220 will be required to undertake an approved substitute unit to satisfy course requirements.

**List A: Creative Industries Core Units**

KKB008	Narrative in the Creative Industries
KKB018	Creative Industries
KKB418	Cultures and Creativity
KKB618	Writing For Creative Industries
KKB818	Introduction To Multimedia Technology

**Creative Industries Open Electives**

Please refer to the Creative Industries Open Electives listed under the **Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology (IF90)**.

**List of Languages**

The same language must be studied for at least four levels and unit codes are sequential (eg. French HHB061, HHB062, HHB063, HHB064). With the permission of the Major Coordinator, and where available, languages other than those listed may be taken, including languages studied at another university. International students must take a language that is not their native tongue. The language units are as follows:

**FRENCH**

1. Students without Year 12 Language qualifications in French should undertake the following unit sequence:

HHB061	French 1
--------	----------

HHB062	French 2
HHB063	French 3
HHB064	French 4
HHB065	French 5
HHB066	French 6

2. Students with Year 12 Language qualifications or equivalent in French should undertake the following unit sequence:

HHB063	French 3
HHB064	French 4
HHB065	French 5
HHB066	French 6
HHB067	French 7
HHB068	French 8

**INDONESIAN**

1. Students without Year 12 Language qualifications in Indonesian should undertake the following unit sequence:

HHB071	Indonesian 1
HHB072	Indonesian 2
HHB073	Indonesian 3
HHB074	Indonesian 4
HHB075	Indonesian 5
HHB076	Indonesian 6

2. Students with Year 12 Language qualifications or equivalent in Indonesian should undertake the following unit sequence:

HHB073	Indonesian 3
HHB074	Indonesian 4
HHB075	Indonesian 5
HHB076	Indonesian 6
HHB077	Indonesian 7
HHB078	Indonesian 8

**JAPANESE**

1. Students without Year 12 Language qualifications in Japanese should undertake the following unit sequence:

HHB081	Japanese 1
HHB082	Japanese 2
HHB083	Japanese 3
HHB084	Japanese 4
HHB085	Japanese 5
HHB086	Japanese 6

2. Students with Year 12 Language qualifications or equivalent in Japanese should undertake the following unit sequence:

HHB083	Japanese 3
HHB084	Japanese 4
HHB085	Japanese 5
HHB086	Japanese 6
HHB087	Japanese 7
HHB088	Japanese 8

**GERMAN**

1. Students without Year 12 Language qualifications in German should undertake the following unit sequence:

HHB091	German 1
HHB092	German 2
HHB093	German 3
HHB094	German 4
HHB095	German 5
HHB096	German 6

2. Students with Year 12 Language qualifications or equivalent in German should undertake the following unit sequence:

HHB093	German 3
HHB094	German 4
HHB095	German 5
HHB096	German 6
HHB097	German 7
HHB098	German 8

**■ Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws (IF10)**

**Award title:** Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws

**CRICOS code:** 040288C

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 5 years

**Total credit points:** 528

**Standard credit points per semester (full-time):** 48 (Semesters 3,4,5,6,9+10), 60 (Semesters 1,2,7+8)

**Course coordinator:** Creative Industries: Ms Jillian Clare; Law: Director, Undergraduate Programs  
**Discipline coordinator:** Dr Terry Flew (Creative Industries)

### Professional Recognition

The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Solicitors' and Barristers' Admission Rules.

### Course Structure

#### Year 1, Semester 1

- KCB101 Communication in the New Economy  
 KCB140 Media and Society: From Printing Press to Internet  
 Introduction to Legal Research  
 LWB141 Legal Institutions and Method  
 LWB142 Law, Society and Justice

#### Year 1, Semester 2

- KCB150 Media and Communications Industries  
 KCB334 Media and Communication Research Methods  
 Creative Industries Core Unit - See List A  
 LWB143 Legal Research and Writing  
 LWB144 Laws and Global Perspectives

#### Year 2, Semester 1

- Creative Industries Core Unit - See List A  
 Creative Industries Core Unit - See List A  
 KCB213 Strategic Speech Communication  
 KCB295 Virtual Cultures  
 LWB136 Contracts A

#### Year 2, Semester 2

- Creative Industries Core Unit - See List A  
 KKB275 Creative Industries Legal Issues  
 LWB137 Contracts B  
 KCB336 New Media Technologies

#### Year 3, Semester 1

- KCB349 Media Audiences  
 KCB311 Political Communication  
 LWB138 Fundamentals of Torts  
 LWB238 Fundamentals of Criminal Law

#### Year 3, Semester 2

- LWB139 Select Issues in Torts  
 LWB239 Criminal Responsibility  
 KCB204 Globalisation and New Media  
 KCB335 Managing Communication Resources

#### Year 4, Semester 1

- LWB231 Introduction to Public Law  
 LWB236 Real Property A  
 LWB240 Principles of Equity  
 LWB332 Commercial and Personal Property Law  
 LWB333 Theories of Law

#### Year 4, Semester 2

- LWB235 Australian Federal Constitutional Law  
 LWB237 Real Property B  
 LWB241 Trusts  
 LWB331 Administrative Law  
 LWB334 Corporate Law

#### Year 5, Semester 1

- LWB431 Civil Procedure  
 LWB432 Evidence  
 LWB434 Advanced Research and Legal Reasoning  
 Elective Unit

#### Year 5, Semester 2

- LWB433 Professional Responsibility  
 Elective Units

### List A: Creative Industries Core Units

- KKB008 Narrative in the Creative Industries  
 KKB018 Creative Industries  
 KKB418 Cultures and Creativity  
 KKB618 Writing For Creative Industries  
 KKB818 Introduction To Multimedia Technology

### Creative Industries Open Electives

Please refer to the Creative Industries Open Electives listed under the **Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology (IF90)**.

## ■ Bachelor of Creative Industries (Visual Arts)/Bachelor of Education (Secondary) (IX08)

**Award title:** Bachelor of Creative Industries (Visual Arts)/Bachelor of Education (Secondary)

**CRICOS code:** 040316D

**Location:** Kelvin Grove

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Standard credit points per semester (full-time):** 54 (Average)

**Course coordinator:** Ms Jill Barker (Creative Industries); Dr Peter Bond (Education)

**Discipline coordinator:** Aspro David Hawke (Creative Industries)

### Professional Recognition

Graduates are eligible for registration with the Board of Teacher Registration, Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

### Field Experience Requirement

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

### Second Teaching Area in English, Film and Media, Geography or History

#### Year 1, Semester 1

- KVB740 Studio Art Practice 1  
 KVB702 Australian and Indigenous Art  
 Visual Arts Elective - List B  
 Second Teaching Area Unit - List C

#### Year 1, Semester 2

- KVB741 Studio Art Practice 2  
 Creative Industries Core Unit - List A  
 Visual Arts Elective - List B  
 Second Teaching Area Unit - List C

#### Year 2, Semester 1

- KVB742 Studio Art Practice 3  
 KVB444 Contemporary Asian Visual Culture  
 Visual Arts Elective - List B  
 Second Teaching Area Unit - List C

#### Year 2, Semester 2

- KVB701 Modernism  
 Creative Industries Core Unit - List A  
 Visual Arts Elective - List B  
 Visual Arts Elective - List B  
 Second Teaching Area Unit - List C

### Second Teaching Area in Dance

#### Year 1, Semester 1

- KVB740 Studio Art Practice 1  
 KVB702 Australian and Indigenous Art  
 KDX104 Architecture of the Body  
 Visual Arts Elective - List B

#### Year 1, Semester 2

- KVB741 Studio Art Practice 2  
 KDB114 Australian Dance  
 Visual Arts Elective - List B  
 Creative Industries Core Unit - List A

#### Year 2, Semester 1

- KVB742 Studio Art Practice 3  
 KDB182 Dance Technique Studies 3  
 KVB444 Contemporary Asian Visual Culture  
 KDB117 Dance in Education

#### Year 2, Semester 2

- KVB701 Modernism  
 Creative Industries Core Unit - List A  
 Visual Arts Elective - List B  
 KDX143 Choreographic Studies 1  
 KDB106 Dance Analysis

### Second Teaching Area in Drama

#### Year 1, Semester 1

- KVB740 Studio Art Practice 1  
 Creative Industries Core Unit - List A

KVB702 Australian and Indigenous Art  
 KTB257 Studies in Acting 1

#### Year 1, Semester 2

KVB741 Studio Art Practice 2  
 KTB251 20th Century Performance  
 KSB278 Technical Theatre  
 Visual Arts Elective - List B

#### Year 2, Semester 1

KVB742 Studio Art Practice 3  
 Creative Industries Core Unit - List A

KTB214 Process Drama  
 KVB444 Contemporary Asian Visual Culture

#### Year 2, Semester 2

KVB701 Modernism  
 Visual Arts Elective - List B  
 Visual Arts Elective - List B

KTB280 Drama as Social Action

KTB304 Forming Knowledge

### Second Teaching Area in LOTE

#### Year 1, Semester 1

KVB740 Studio Art Practice 1  
 KVB702 Australian and Indigenous Art  
 Visual Arts Elective - List B  
 LOTE Unit - List C

#### Year 1, Semester 2

KVB741 Studio Art Practice 2  
 Creative Industries Core Unit - List A  
 Visual Arts Elective - List B  
 LOTE Unit - List C

#### Year 2, Semester 1

KVB742 Studio Art Practice 3  
 KVB444 Contemporary Asian Visual Culture  
 Visual Arts Elective - List B  
 LOTE Unit - List C

#### Year 2, Semester 2

KVB701 Modernism  
 Creative Industries Core Unit - List A  
 Visual Arts Elective - List B  
 Visual Arts Elective - List B  
 LOTE Unit - List C

### Second Teaching Area in Music

#### Year 1, Semester 1

KVB740 Studio Art Practice 1  
 Visual Arts Elective (List B)  
 KVB702 Australian and Indigenous Art  
 Select one unit from:

KMB621 Sound Recording And Acoustics  
 KMB631 World Music  
 KMB640 Sex Drugs Rock N Roll

#### Year 1, Semester 2

KVB741 Studio Art Practice 2  
 KMB619 Music And Sound Technology  
 Visual Arts Elective - List B  
 Creative Industries Core Unit - List A

#### Year 2, Semester 1

KVB742 Studio Art Practice 3  
 KMB632 Core Musicianship 1  
 KVB444 Contemporary Asian Visual Culture  
 Select one unit from:

KMB621 Sound Recording And Acoustics  
 KMB631 World Music  
 KMB640 Sex Drugs Rock N Roll

#### Year 2, Semester 2

KVB701 Modernism  
 KMB633 Core Musicianship 2  
 Creative Industries Core Unit - List A  
 Visual Arts Elective - List B  
 Select one unit from:

KMB638 Sound And Image  
 KMB648 The Music Scene

### EDUCATION COMPONENT

#### Year 3, Semester 2

EDB002 Teaching and Learning Studies 2: Development and Learning  
 EDB031 Secondary Field Studies 1: Development and Learning in the Field  
 KVB301 Visual Arts Curriculum Studies 1

Curriculum Studies 1Y

#### Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB032 Secondary Field Studies II: Practising Education in the Field  
 KVB302 Visual Arts Curriculum Studies 2  
 Curriculum Studies 2Y

#### Year 4, Semester 1

EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices

KVB303 Visual Arts Curriculum Studies 3  
 Curriculum Studies 3Y

#### Year 4, Semester 2

EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB034 Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice  
 EDB035 Internship (Secondary) Education Elective

### List A: Creative Industries Core Units

KKB008 Narrative in the Creative Industries  
 KKB018 Creative Industries  
 KKB418 Cultures and Creativity  
 KKB618 Writing For Creative Industries  
 KKB818 Introduction To Multimedia Technology

### Visual Arts Electives

#### Visual Arts Electives

KVB447 Drawing  
 KVB457 Sculpture  
 KVB503 Clay Materials  
 KVB507 Painting  
 KVB509 Photomedia and Artistic Practice  
 KVB511 Printmaking

### Curriculum Studies - Second Teaching Area

#### Curriculum Studies 1

KDB201 Dance Curriculum Studies 1  
 KTB201 Drama Curriculum Studies 1  
 CLB018 English Curriculum Studies 1  
 CLB024 Film and Media Curriculum Studies 1  
 CLB027 Geography Curriculum Studies 1  
 CLB030 History Curriculum Studies 1  
 CLB036 LOTE Curriculum Studies 1  
 KMB201 Music (Secondary) Curriculum Studies 1

#### Curriculum Studies 2

KDB202 Dance Curriculum Studies 2  
 KTB202 Drama Curriculum Studies 2  
 CLB019 English Curriculum Studies 2  
 CLB025 Film and Media Curriculum Studies 2  
 CLB028 Geography Curriculum Studies 2  
 CLB031 History Curriculum Studies 2  
 CLB037 LOTE Curriculum Studies 2  
 KMB202 Music (Secondary) Curriculum Studies 2

#### Curriculum Studies 3

KDB203 Dance Curriculum Studies 3  
 KTB203 Drama Curriculum Studies 3  
 CLB020 English Curriculum Studies 3  
 CLB026 Film and Media Curriculum Studies 3  
 CLB029 Geography Curriculum Studies 3  
 CLB032 History Curriculum Studies 3  
 CLB038 LOTE Curriculum Studies 3  
 KMB203 Music (Secondary) Curriculum Studies 3

### Second Teaching Area Units

Please refer to the Second Teaching Area Units listed under the **Bachelor of Creative Industries (Dance)/Bachelor of Education (Secondary) (IX05)**.

## ■ Bachelor of Engineering (Electrical and Computer Engineering)/ Bachelor of Mathematics (IF21)

**Award title:** Bachelor of Engineering (Electrical and Computer Engineering)/ Bachelor of Mathematics

**CRICOS code:** 020329J

**Location:** Gardens Point

**Course duration (full-time):** 5 years

**Total credit points:** 480

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Ed Palmer(Electrical); Professor Helen MacGillivray (Mathematics)

### Special Course Requirements

A candidate for this course must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia, and the coursework requirements for accredited graduate membership of the Australian Mathematical Society. Students may also become a member of the Statistical Society of Australia.

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Course Structure

**For students with four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent) with an exit assessment of at least Sound Achievement in both subjects.**

#### Year 1, Semester 1

EEB112 Electrical and Computer Engineering 1  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
PCB136 Engineering Physics 1C

#### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB212 Electrical and Computer Engineering 2  
MAB210 Statistical Modelling 1  
MAB220 Computational Mathematics 1

#### Year 2, Semester 1

EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
MAB101 Statistical Data Analysis 1  
MAB312 Linear Algebra

#### Year 2, Semester 2

EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
MAB413 Differential Equations  
MAB420 Computational Mathematics 2

#### Year 3, Semester 1

EEB311 Electrical Measurement and Machines  
EEB560 Digital Communications  
MAB311 Advanced Calculus  
MAB314 Statistical Modelling 2

#### Year 3, Semester 2

EEB411 Classical Control and Power Systems  
EEB640 Digital Signal Processing  
MAB422 Mathematical Modelling  
MAB480 Introduction to Scientific Computation  
Or Computing elective

#### Year 4, Semester 1

EEB511 Modern Control and Power Electronics  
EEB584 Introduction to Design  
Electrical Engineering elective  
Mathematics elective (Level 3)

#### Year 4, Semester 2

EEB684 Advanced Design  
Electrical Engineering elective  
MAB414 Applied Statistics 2  
Mathematics elective (Level 3)

#### Year 5, Semester 1

EEB889-1 Project

Electrical Engineering elective  
Electrical Engineering elective  
Mathematics elective (Level 3)

#### Year 5, Semester 2

EEB889-2 Project  
Electrical Engineering elective  
Electrical Engineering elective  
Mathematics elective (Level 3)

**For students with four semesters of Senior Mathematics B (or equivalent) only, with an exit assessment of at least Sound Achievement.**

#### Year 1, Semester 1

EEB112 Electrical and Computer Engineering 1  
MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1  
PCB136 Engineering Physics 1C

#### Year 1, Semester 2

BNB007 Professional Studies 1  
EEB212 Electrical and Computer Engineering 2  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C

#### Year 2, Semester 1

EEB312 Analog and Digital Electronics  
EEB340 Introduction to Telecommunications  
MAB220 Computational Mathematics 1  
MAB312 Linear Algebra

#### Year 2, Semester 2

EEB412 Advanced Electronics and Embedded Systems  
EEB440 Classical Signal Processing  
MAB210 Statistical Modelling 1  
MAB413 Differential Equations

#### Year 3, Semester 1

EEB311 Electrical Measurement and Machines  
EEB560 Digital Communications  
MAB311 Advanced Calculus  
MAB314 Statistical Modelling 2

#### Year 3, Semester 2

EEB411 Classical Control and Power Systems  
EEB640 Digital Signal Processing  
MAB420 Computational Mathematics 2  
Either  
Computing elective, or  
MAB480 Introduction to Scientific Computation

#### Year 4, Semester 1

EEB511 Modern Control and Power Electronics  
EEB584 Introduction to Design  
Electrical Engineering elective  
Mathematics elective (Level 3)

#### Year 4, Semester 2

EEB684 Advanced Design  
Electrical Engineering elective  
MAB414 Applied Statistics 2  
Mathematics elective (Level 3)

#### Year 5, Semester 1

EEB889-1 Project  
Electrical Engineering elective  
Electrical Engineering elective  
Mathematics elective (Level 3)

#### Year 5, Semester 2

EEB889-2 Project  
Electrical Engineering elective  
Electrical Engineering elective  
Mathematics elective (Level 3)

### Electrical Engineering Elective Units

EEB512 Industrial Electronics and Digital Design  
EEB612 Software Systems Design  
EEB641 Fields Transmission and Propagation  
EEB650 Power Systems Analysis  
EEB904 Advanced Topics in Electrical Engineering A  
EEB905 Advanced Topics in Electrical Engineering B  
EEB911 Electrical Energy Systems  
EEB941 Modern Signal Processing  
EEB960 Wireless Communications  
EEB961 RF and Applied Electromagnetics  
EEB976 Advanced Industrial Electronics  
EEB992 VLSI Circuits and Systems

Not all electives may be offered. At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University. Also potential honours students may, with the approval of the course coordinator, select an elective from the postgraduate degree courses offered by the School of Electrical and Electronic Systems Engineering.

### Mathematics Electives (Level 3)

#### Four units required:

MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB524	Statistical Inference
MAB526	Statistical Science 3
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB624	Applied Statistics 3
MAB672	Advanced Mathematical Modelling

**Notes:** For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units. This does not apply to students who commenced prior to 2004.

Some deviations from the above course structure may be possible with the permission of the course coordinator. This is more likely to apply in the later years than the earlier years of the course.

## ■ Bachelor of Engineering (Electrical and Computer Engineering)/Bachelor of Business (IF28)

**Award title:** Electrical and Computer Engineering)/Bachelor of Business (Study Area A)

**CRICOS code:** 027278C

**Location:** Gardens Point

**Course duration (full-time):** 5 years

**Total credit points:** 480

**Standard credit points per semester (full-time):** 48 (average)

**Course coordinator:** Dr Ed Palmer (Engineering); Mr Andrew Paltridge (Business)

**Discipline coordinator:** Dr John Sweeting (Accountancy); Dr Gayle Kerr (Advertising); Ms Sherrena Buckby (Electronic Business); Dr Amanda Gudmundsson (Human Resource Management); Dr Beverley Kitching (International Business); Dr Glenda Maconachie (Management); Dr Yunus Ali (Marketing); Ms Robina Xavier (Public Relations); Dr Adam Clements (Banking and Finance) and Dr Radhika Lahiri (Economics)

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership of: CPA Australia; Institute of Chartered Accountants in Australia; Chartered Secretaries Australia; Advertising Federation of Australia; Australian Association of National Advertisers; Australian Direct Marketing Association; Queensland Commercial Radio Association; Australasian Institute of Banking and Finance; Economics Society of Australia; Australian Human Resources Institute; Australian Institute of Management; Australian Institute of Training and Development; Australian Institute of Export; Australian Institute of Management; Australian Marketing Institute; Marketing Research Society of Australia; Australian Institute of Management; American Marketing Association and Public Relations Institute of Australia.

### Built Environment & Engineering Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area that totals 48 credit points.

This will not affect the total number of credit points required for

course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial employment/practice in an engineering environment approved by the course coordinator, before graduating.

### Course Design

Students are required to complete 480 credit points comprised of 252 credit points from the Bachelor of Engineering (Electrical & Computer Engineering) program and 228 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 84\* credit point Faculty Core units in the Bachelor of Business program together with a 72 credit point Major in one of the following:

Accountancy, Advertising, Banking & Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing or Public Relations, as well as a further 72 credit points in which the student must complete one of the following: Double Major, Extended Major or Specialisation.

### Course Structure

#### Accountancy

##### Year 1, Semester 1

BSB110	Accounting
BSB113	Economics
EEB112	Electrical and Computer Engineering 1
MAB180	Engineering Mathematics 1, or
MAB131	Engineering Mathematics 1A
MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C	

##### Year 1, Semester 2

BSB111	Business Law and Ethics
BSB122	Quantitative Analysis and Finance
EEB212	Electrical and Computer Engineering 2
MAB132	Engineering Mathematics 1B

##### Year 2, Semester 1

EEB340	Introduction to Telecommunications
EFB101	Data Analysis for Business
MAB134	Electrical Engineering Mathematics 3
PCB136	Engineering Physics 1C

##### Year 2, Semester 2

BSB115	Management, People and Organisations
BSB119	International and Electronic Business
EEB440	Classical Signal Processing
MAB135	Electrical Engineering Mathematics 4

##### Year 3, Semester 1

BSB126	Marketing
Business Double Major / Extended Major / Specialisation Unit	
EEB311	Electrical Measurement and Machines
EEB312	Analog and Digital Electronics

##### Year 3, Semester 2

AYB121	Financial Accounting
AYB221	Computerised Accounting Systems
EEB411	Classical Control and Power Systems
EEB412	Advanced Electronics and Embedded Systems

##### Year 4, Semester 1

AYB220	Company Accounting
Business Double Major / Extended Major / Specialisation Unit	
EEB584	Introduction to Design
Electrical and Computer Engineering elective unit	

##### Year 4, Semester 2

AYB225	Management Accounting
Business Double Major / Extended Major / Specialisation Unit	
EEB684	Advanced Design
Electrical and Computer Engineering elective unit	

##### Year 5, Semester 1

AYB301	Auditing
--------	----------

- Business Double Major / Extended Major / Specialisation Unit  
 EEB889/1 Project  
 Electrical and Computer Engineering elective unit  
**Year 5, Semester 2**  
 Business Double Major / Extended Major / Specialisation Unit  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB889/2 Project  
 Electrical and Computer Engineering elective unit

## Advertising

### Year 1, Semester 1

- BSB119 International and Electronic Business  
 BSB126 Marketing  
 EEB112 Electrical and Computer Engineering 1  
 MAB180 Engineering Mathematics 1, or  
 MAB131 Engineering Mathematics 1A  
 MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

### Year 1, Semester 2

- AMB200 Consumer Behaviour  
 AMB220 Advertising Theory and Practice  
 EEB212 Electrical and Computer Engineering 2  
 MAB132 Engineering Mathematics 1B

### Year 2, Semester 1

- AMB222 Media Planning  
 EEB340 Introduction to Telecommunications  
 MAB134 Electrical Engineering Mathematics 3  
 PCB136 Engineering Physics 1C

### Year 2, Semester 2

- AMB221 Advertising Copywriting  
 BSB115 Management, People and Organisations  
 EEB440 Classical Signal Processing  
 MAB135 Electrical Engineering Mathematics 4

### Year 3, Semester 1

- BSB113 Economics  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB311 Electrical Measurement and Machines  
 EEB312 Analog and Digital Electronics

### Year 3, Semester 2

- BSB114 Government, Business and Society  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB411 Classical Control and Power Systems  
 EEB412 Advanced Electronics and Embedded Systems

### Year 4, Semester 1

- AMB320 Advertising Management  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB584 Introduction to Design  
 Electrical and Computer Engineering elective unit

### Year 4, Semester 2

- AMB321 Advertising Campaigns  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB684 Advanced Design  
 Electrical and Computer Engineering elective unit

### Year 5, Semester 1

- BSB111 Business Law and Ethics  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB889/1 Project  
 Electrical and Computer Engineering elective unit

### Year 5, Semester 2

- BSB110 Accounting  
 Business Double Major / Extended Major / Specialisation Unit  
 EEB889/2 Project  
 Electrical and Computer Engineering elective unit

## Banking & Finance

### Year 1, Semester 1

- BSB113 Economics  
 BSB115 Management, People and Organisations  
 EEB112 Electrical and Computer Engineering 1  
 MAB180 Engineering Mathematics 1, or

- MAB131 Engineering Mathematics 1A  
 MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

### Year 1, Semester 2

- BSB122 Quantitative Analysis and Finance  
 EEB212 Electrical and Computer Engineering 2  
 EFB102 Economics 2  
 MAB132 Engineering Mathematics 1B

### Year 2, Semester 1

- BSB119 International and Electronic Business  
 EEB340 Introduction to Telecommunications  
 MAB134 Electrical Engineering Mathematics 3  
 PCB136 Engineering Physics 1C

### Year 2, Semester 2

- BSB110 Accounting  
 EEB440 Classical Signal Processing  
 EFB101 Data Analysis for Business  
 MAB135 Electrical Engineering Mathematics 4

### Year 3, Semester 1

- BSB126 Marketing  
 EEB311 Electrical Measurement and Machines  
 EEB312 Analog and Digital Electronics  
 EFB210 Finance 1

### Year 3, Semester 2

- BSB111 Business Law and Ethics  
 EEB411 Classical Control and Power Systems  
 EEB412 Advanced Electronics and Embedded Systems  
 EFB307 Finance 2

### Year 4, Semester 1

- EEB584 Introduction to Design  
 Electrical and Computer Engineering elective unit  
 EFB201 Financial Markets  
 Business Double Major / Extended Major / Specialisation Unit

### Year 4, Semester 2

- EEB684 Advanced Design  
 Electrical and Computer Engineering elective unit  
 EFB312 International Finance  
 Business Double Major / Extended Major / Specialisation Unit

### Year 5, Semester 1

- EEB889/1 Project  
 Electrical and Computer Engineering elective unit  
 Business Double Major / Extended Major / Specialisation Unit  
 Business Double Major / Extended Major / Specialisation Unit

### Year 5, Semester 2

- EEB889/2 Project  
 Electrical and Computer Engineering elective unit  
 Business Double Major / Extended Major / Specialisation Unit  
 Business Double Major / Extended Major / Specialisation Unit

## Economics

### Year 1, Semester 1

- BSB113 Economics  
 BSB115 Management, People and Organisations  
 EEB112 Electrical and Computer Engineering 1, or  
 MAB131 Engineering Mathematics 1A  
 MAB180 Engineering Mathematics 1  
 MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

### Year 1, Semester 2

- BSB119 International and Electronic Business  
 EEB212 Electrical and Computer Engineering 2  
 EFB102 Economics 2  
 MAB132 Engineering Mathematics 1B

### Year 2, Semester 1

- EEB340 Introduction to Telecommunications  
 EFB202 Business Cycles and Economic Growth  
 MAB134 Electrical Engineering Mathematics 3  
 PCB136 Engineering Physics 1C

### Year 2, Semester 2

- BSB110 Accounting  
 EEB440 Classical Signal Processing  
 EFB101 Data Analysis for Business  
 MAB135 Electrical Engineering Mathematics 4

**Year 3, Semester 1**

BSB126	Marketing
EEB311	Electrical Measurement and Machines
EEB312	Analog and Digital Electronics
EFB211	Firms, Markets and Resources

**Year 3, Semester 2**

BSB114	Government, Business and Society
EEB411	Classical Control and Power Systems
EEB412	Advanced Electronics and Embedded Systems
EFB314	International Trade and Economic Competitiveness

**Year 4, Semester 1**

BSB111	Business Law and Ethics Business Double Major / Extended Major / Specialisation Unit
EEB584	Introduction to Design Electrical and Computer Engineering elective unit

**Year 4, Semester 2**

EEB684	Advanced Design Electrical and Computer Engineering elective unit
EFB323	Financial and Monetary Economics Business Double Major / Extended Major / Specialisation Unit

**Year 5, Semester 1**

EEB889/1	Project Electrical and Computer Engineering elective unit Business Double Major / Extended Major / Specialisation Unit Business Double Major / Extended Major / Specialisation Unit

**Year 5, Semester 2**

- EEB889/2 Project  
Electrical and Computer Engineering elective unit
- MGB309 Strategic Management  
Business Double Major / Extended Major / Specialisation Unit

The units AMB201 Market and Audience Research and MGB220 Management Research methods are incompatible units. Students undertaking Marketing or Public Relations as a double major should contact the school for enrolment advice. From semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

**International Business - No Language****Year 1, Semester 1**

- BSB113 Economics
- BSB119 International and Electronic Business
- EEB112 Electrical and Computer Engineering 1
- MAB131 Engineering Mathematics 1A, or
- MAB180 Engineering Mathematics 1
- MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

**Year 1, Semester 2**

- BSB115 Management, People and Organisations
- BSB126 Marketing
- EEB212 Electrical and Computer Engineering 2
- MAB132 Engineering Mathematics 1B

**Year 2, Semester 1**

- BSB114 Government, Business and Society
- EEB340 Introduction to Telecommunications
- MAB134 Electrical Engineering Mathematics 3
- PCB136 Engineering Physics 1C

**Year 2, Semester 2**

- EEB440 Classical Signal Processing
- IBB202 International Business Development and Finance
- IBB213 International Marketing
- MAB135 Electrical Engineering Mathematics 4

**Year 3, Semester 1**

- BSB110 Accounting
- EEB311 Electrical Measurement and Machines
- EEB312 Analog and Digital Electronics
- IBB210 Export Management

**Year 3, Semester 2**

- BSB111 Business Law and Ethics  
Business Double Major / Extended Major / Specialisation Unit
- EEB411 Classical Control and Power Systems
- EEB412 Advanced Electronics and Embedded Systems

**Year 4, Semester 1**

- EEB584 Introduction to Design  
Electrical and Computer Engineering elective unit  
International Business Area Study 1  
Business Double Major / Extended Major / Specialisation Unit

**Year 4, Semester 2**

- EEB684 Advanced Design  
Electrical and Computer Engineering elective unit  
International Business Area Study 2  
Business Double Major / Extended Major / Specialisation Unit

**Year 5, Semester 1**

- EEB889/1 Project  
Electrical and Computer Engineering elective unit  
Business Double Major / Extended Major / Specialisation Unit  
Business Double Major / Extended Major / Specialisation Unit

**Year 5, Semester 2**

- EEB889/2 Project
- IBB300 International Business Strategy  
Electrical and Computer Engineering elective unit  
Business Double Major / Extended Major / Specialisation Unit

**International Business Area Study Units:**

Students Must Complete one of the following pairs of area study units:

- IBB208 European Business Development
- IBB308 Contemporary Business in Europe, or
- IBB217 Asian Business Development

- IBB317 Contemporary Business in Asia

**International Business - with a Language Specialisation****Year 1, Semester 1**

- BSB119 International and Electronic Business
- EEB112 Electrical and Computer Engineering 1
- MAB131 Engineering Mathematics 1A, or
- MAB180 Engineering Mathematics 1  
Language 1

MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

**Year 1, Semester 2**

- BSB115 Management, People and Organisations
- EEB212 Electrical and Computer Engineering 2
- MAB132 Engineering Mathematics 1B  
Language 2

**Year 2, Semester 1**

- EEB340 Introduction to Telecommunications
- MAB134 Electrical Engineering Mathematics 3
- PCB136 Engineering Physics 1C  
Language 3

**Year 2, Semester 2**

- BSB126 Marketing  
Language 4
- EEB440 Classical Signal Processing
- MAB135 Electrical Engineering Mathematics 4

**Year 3, Semester 1**

- BSB110 Accounting  
Language 5, or
- IBB205 Cross-Cultural Communication and Negotiation
- EEB311 Electrical Measurement and Machines
- EEB312 Analog and Digital Electronics

**Year 3, Semester 2**

- BSB113 Economics  
Language 6, or  
International Business Elective Unit (IBB2xx, IBB3xx)
- EEB411 Classical Control and Power Systems
- EEB412 Advanced Electronics and Embedded Systems

**Year 4, Semester 1**

- BSB114 Government, Business and Society  
International Business Area Study 1
- EEB584 Introduction to Design  
Electrical and Computer Engineering elective unit

**Year 4, Semester 2**

- EEB684 Advanced Design  
Electrical and Computer Engineering elective unit
- IBB213 International Marketing  
International Business Area Study 2

**Year 5, Semester 1**

- BSB111 Business Law and Ethics
- EEB889/1 Project
- IBB210 Export Management  
Electrical and Computer Engineering elective unit

**Year 5, Semester 2**

- EEB889/2 Project  
Electrical and Computer Engineering elective unit
- IBB202 International Business Development and Finance
- IBB300 International Business Strategy

**International Business Area Study Units:**

Students must complete one of the following pairs of area study units:

- IBB208 European Business Development
- IBB308 Contemporary Business in Europe, or
- IBB217 Asian Business Development
- IBB317 Contemporary Business in Asia

**List Of Languages:**

FRENCH  
INDONESIAN  
JAPANESE  
GERMAN

**Management****Year 1, Semester 1**

- BSB115 Management, People and Organisations
- BSB122 Quantitative Analysis and Finance
- EEB112 Electrical and Computer Engineering 1
- MAB180 Engineering Mathematics 1, or
- MAB131 Engineering Mathematics 1A

MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

AMB340 Services Marketing  
Business Double Major / Extended Major / Specialisation Unit  
EEB584 Introduction to Design  
Electrical and Computer Engineering elective unit

#### **Year 4, Semester 2**

AMB341 Strategic Marketing  
Business Double Major / Extended Major / Specialisation Unit  
EEB684 Advanced Design  
Electrical and Computer Engineering elective unit

#### **Year 5, Semester 1**

BSB111 Business Law and Ethics  
Business Double Major / Extended Major / Specialisation Unit  
EEB889/1 Project  
Electrical and Computer Engineering elective unit

#### **Year 5, Semester 2**

BSB110 Accounting  
Business Double Major / Extended Major / Specialisation Unit  
EEB889/2 Project  
Electrical and Computer Engineering elective unit

The units AMB201 Market and Audience Research and MGB220 Management Research methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

### **Public Relations**

#### **Year 1, Semester 1**

BSB119 International and Electronic Business  
BSB126 Marketing  
EEB112 Electrical and Computer Engineering 1  
MAB180 Engineering Mathematics 1, or  
MAB131 Engineering Mathematics 1A  
MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Mathematics C

#### **Year 1, Semester 2**

AMB260 Public Relations Theory and Practice  
BSB115 Management, People and Organisations  
EEB212 Electrical and Computer Engineering 2  
MAB132 Engineering Mathematics 1B

#### **Year 2, Semester 1**

AMB261 Media Relations and Publicity  
EEB340 Introduction to Telecommunications  
MAB134 Electrical Engineering Mathematics 3  
PCB136 Engineering Physics 1C

#### **Year 2, Semester 2**

AMB262 Public Relations Writing  
BSB113 Economics  
EEB440 Classical Signal Processing  
MAB135 Electrical Engineering Mathematics 4

#### **Year 3, Semester 1**

AMB201 Marketing and Audience Research  
Business Double Major / Extended Major / Specialisation Unit  
EEB311 Electrical Measurement and Machines  
EEB312 Analog and Digital Electronics

**Year 3, Semester 2**

BSB114	Government, Business and Society Business Double Major / Extended Major / Specialisation Unit
EEB411	Classical Control and Power Systems
EEB412	Advanced Electronics and Embedded Systems

**Year 4, Semester 1**

AMB360	Corporate Communication Management Business Double Major / Extended Major / Specialisation Unit
EEB584	Introduction to Design Electrical and Computer Engineering elective unit

**Year 4, Semester 2**

AMB361	Public Relations Campaigns Business Double Major / Extended Major / Specialisation Unit
EEB684	Advanced Design Electrical and Computer Engineering elective unit

**Year 5, Semester 1**

BSB111	Business Law and Ethics Business Double Major / Extended Major / Specialisation Unit
EEB889/1	Project Electrical and Computer Engineering elective unit

**Year 5, Semester 2**

BSB110	Accounting Business Double Major / Extended Major / Specialisation Unit
EEB889/2	Project Electrical and Computer Engineering elective unit

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

## ■ Bachelor of Engineering (Electronics)/Bachelor of Information Technology (IF59)

**Award title:** Bachelor of Engineering (Electronics)/Bachelor of Information Technology

**CRICOS code:** 006384G

**Location:** Gardens Point

**Course duration (full-time):** 5 years

**Total credit points:** 480

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Associate Professor Vinod Chandran (Engineering), Dr Alan Tickle (Information Technology)

### Cooperative Education Program

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty's Cooperative Education program home page at [www.fit.qut.edu.au/courses/undergrad/coop/](http://www.fit.qut.edu.au/courses/undergrad/coop/)

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

### Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of

four units from the one study area that totals 48 credit points.

This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

### Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

### Full-time Course Structure

#### Year 1, Semester 1

ITB111	Software Development 1
ITB114	Networking Systems
PCB136	Engineering Physics 1C
MAB180	Engineering Mathematics 1, or
MAB131	Engineering Mathematics 1A

\*MAB180 Engineering Mathematics is to be taken by those students not obtaining a SA or better in Queensland Mathematics C (or equivalent).

#### Year 1, Semester 2

BNB007	Professional Studies 1
EEB213	Electrical Circuits and Measurements
ITB112	Software Development 2
MAB132	Engineering Mathematics 1B

#### Year 2, Semester 1

EEB312	Analog and Digital Electronics
ITB610	Software Development 3
ITB616	Computer Architecture
MAB134	Electrical Engineering Mathematics 3

#### Year 2, Semester 2

EEB412	Advanced Electronics and Embedded Systems
ITB612	Software Engineering Principles
MAB135	Electrical Engineering Mathematics 4
ITB614	Programming Languages

#### Year 3, Semester 1

EEB311	Electrical Measurement and Machines
EEB340	Introduction to Telecommunications
EEB512	Industrial Electronics and Digital Design
ITB611	Object Technology

#### Year 3, Semester 2

EEB411	Classical Control and Power Systems
EEB440	Classical Signal Processing
ITB617	Concurrent and Distributed Systems
ITB624	Internetworking

#### Year 4, Semester 1

EEB560	Digital Communications
EEB584	Introduction to Design
ITB613	Advanced Programming Laboratory
	IT Elective Unit

#### Year 4, Semester 2

EEB640	Digital Signal Processing
EEB684	Advanced Design
	IT Elective Unit
	IT Elective Unit

#### Year 5, Semester 1

EEB781	Professional Studies 2
EEB889/1	Project, or
ITB844/1	Computing Project
	Electrical Engineering Elective
	Electrical Engineering Elective

#### Year 5, Semester 2

EEB889/2	Project, or
ITB844/2	Computing Project
	Electrical Engineering Elective
	Electrical Engineering Elective
	Electrical Engineering or IT Elective Unit

#### Electrical Engineering Elective Units

EEB904	Advanced Topics in Electrical Engineering A
EEB905	Advanced Topics in Electrical Engineering B
EEB941	Modern Signal Processing
EEB960	Wireless Communications
EEB976	Advanced Industrial Electronics

**Note:** EEB781 Professional Studies 2 can be taken earlier if desired subject to completion of BNB007 Professional Studies 1.

EEB992 VLSI Circuits and Systems

At the discretion of the Course Coordinator, students may be allowed to select an elective from any advanced topics offered by the University. Also potential honours students may, with the approval of the Course Coordinator, select an elective from the from the postgraduate degree courses offered by the School of Electrical and Electronic Systems Engineering. IT and Electrical Engineering Electives may be interchanged provided at least one elective is chosen from each discipline.

#### **Industrial Experience**

Students must obtain at least 60 days industrial experience in an engineering environment as approved by the Course Coordinator.

#### **IT Elective Units**

Please refer to the IT Elective Units listed under the **Bachelor of Applied Science/Bachelor of Information Technology (IF29)**.

### ■ Bachelor of Engineering (Software Engineering) (IX25)

**Award title:** Bachelor of Engineering (Software Engineering)\*

**Location:** Gardens Point

**Course duration (full-time):** 4 years

**Total credit points:** 384

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Peter O'Shea

#### **Special course requirements**

Students are required to complete 60 days approved industrial experience.

#### **Course Structure**

##### **Year 1 - Semester 1**

ITB111	Software Development 1
ITB114	Networking Systems
MAB180	Engineering Mathematics 1, or
MAB131	Engineering Mathematics 1A
PCB136	Engineering Physics 1C

##### **Year 1 - Semester 2**

BNB007	Professional Studies 1
EEB213	Electrical Circuits and Measurements
ITB112	Software Development 2
MAB132	Engineering Mathematics 1B

##### **Year 2 - Semester 1**

EEB312	Analog and Digital Electronics
EEB340	Introduction to Telecommunications
ITB115	Introduction to Databases
ITB610	Software Development 3

##### **Year 2 - Semester 2**

EEB412	Advanced Electronics and Embedded Systems
ITB611	Object Technology
ITB612	Software Engineering Principles
ITB161	Information Security for IT Professionals

##### **Year 3 - Semester 1**

EEB512	Industrial Electronics and Digital Design
EEB566	Real-Time Computer-Based Systems
EEB585	Systems Engineering Design
ITB624	Internetworking

##### **Year 3 - Semester 2**

EEB666	Communication Environments for Embedded Systems
EEB685	Advanced Systems Design
ITB613	Advanced Programming Laboratory
ITB676	Software Quality Management

##### **Year 4 - Semester 1**

EEB781	Professional Studies 2
ITB655/1	Project, or
EEB782-1	Systems Project
	Elective
	Elective

##### **Year 4 - Semester 2**

ITB655/2	Project, or
EEB782-2	Systems Project
	Elective
	Elective
	Elective

Students are required to undertake five electives as follows: One General Elective, two from Electrical Engineering and two from Information Technology.

Students who opt to complete the Cooperative Education Program will substitute ITS010 for ITB613

#### **Elective List**

##### **General Elective**

A QUT degree level unit in the areas of Commercialisation or internationalisation (foreign language) selected in consultation with the Course Coordinator.

##### **Electrical Engineering electives (Two to be selected)**

EEB905	Advanced Topics in Electrical Engineering B
EEB992	VLSI Circuits and Systems
EEP104	Real-Time Operating Systems
EEP120	Networks and Distributed Computing
EEP123	Process Control and Robotics
EEP129	Image Processing and Computer Vision

##### **Information Technology electives**

ITB617	Concurrent and Distributed Systems
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB647	Advanced Programming Technology
ITB648	Graphics
ITB649	Object Modelling for Games Design

### ■ Bachelor of Information Technology/Bachelor of Education (Secondary) (IX09)

**Award title:** Bachelor of Information Technology/Bachelor of Education (Secondary)

**CRICOS code:** 022136B

**Location:** Gardens Point, Kelvin Grove and Carseldine

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Course coordinator:** Dr Peter Bond (Education), Dr Alan Tickle (InfTech)

#### **Professional Recognition**

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society as members.

#### **Field Experience Requirement**

As required by Queensland's Child Protection Act, students must undergo national criminal history checks (which must be renewed every two years) prior to undertaking field experience.

#### **Course Structure**

##### **Year 1, Semester 1**

ITB111	Software Development 1
ITB115	Introduction to Databases
ITB116	IT Professional Studies 1
EDB001	Teaching and Learning Studies 1: Teaching in New Times

##### **Year 1, Semester 2**

ITB112	Software Development 2
ITB114	Networking Systems
ITB117	IT Professional Studies 2
	Second Teaching Area Unit

##### **Year 2, Semester 1**

EDB002	Teaching and Learning Studies 2: Development and Learning
EDB031	Secondary Field Studies 1: Development and Learning in the Field
MDB015	Computing Curriculum Studies 1
	Curriculum Studies 1Y

##### **Year 2, Semester 2**

ITB118	ICT Systems Life Cycle, or
	IT Elective Unit*
	IT Elective Unit*
	IT Elective Unit*
	IT Elective Unit*
	Second Teaching Area Unit

##### **Year 3, Semester 1**

	Second Teaching Area Unit
--	---------------------------

ITB272	Information Technology Project Management
MGB218	Venture Skills, or
MGB223	Creating New Enterprises, or
	IT Elective Unit*
	IT Elective Unit*
	IT Elective Unit*

\* IT Electives should be chosen from IT Elective Unit List, subject to fulfilling prerequisite requirements. Students should check with IT Course Coordinator.

#### **Year 3, Semester 2**

EDB003	Teaching and Learning Studies 3: Practising Education
EDB032	Secondary Field Studies II: Practising Education in the Field
MDB016	Computing Curriculum Studies 2
	Curriculum Studies 2Y
	IT Project Unit - Select one from the following
ITB240	Project (Information Systems)
ITB447	Project
ITB576	Data Communications Project 1

#### **Year 4, Semester 1**

EDB004	Teaching and Learning Studies IV: Inclusive Education
EDB033	Secondary Field Studies III: Immersion in Inclusive Educational Practices
MDB017	Computing Curriculum Studies 3
	Curriculum Studies 3Y

#### **Year 4, Semester 2**

EDB005	Teaching and Learning Studies V: Professional Work of Teachers
EDB034	Secondary Field Studies IV: Professional Work of Teachers: Induction into Practice
EDB035	Internship (Secondary) Education Elective

### **Curriculum Studies 1, 2 and 3**

#### **Curriculum Studies 1**

CLB009	Accounting and Business Management Curriculum Studies 1
CLB012	Business Communication Technology Curriculum Studies 1
CLB015	Economics Curriculum Studies 1
CLB018	English Curriculum Studies 1
CLB027	Geography Curriculum Studies 1
CLB030	History Curriculum Studies 1
CLB033	Legal Studies Curriculum Studies 1
MDB021	Mathematics Curriculum Studies 1
MDB027	Science Curriculum Studies 1
CLB039	Social Science Curriculum Studies 1

#### **Curriculum Studies 2**

CLB010	Accounting/Business Management Curriculum Studies 2
CLB013	Business Communication Technology Curriculum Studies 2
CLB016	Economics Curriculum Studies 2
CLB019	English Curriculum Studies 2
CLB028	Geography Curriculum Studies 2
CLB031	History Curriculum Studies 2
CLB034	Legal Studies Curriculum Studies 2
MDB022	Mathematics Curriculum Studies 2
MDB028	Science Curriculum Studies 2
CLB040	Social Science Curriculum Studies 2

#### **Curriculum Studies 3**

CLB011	Accounting/Business Management Curriculum Studies 3
CLB014	Business Communication Technology Curriculum Studies 3
CLB017	Economics Curriculum Studies 3
CLB020	English Curriculum Studies 3
CLB029	Geography Curriculum Studies 3
CLB032	History Curriculum Studies 3
CLB035	Legal Studies Curriculum Studies 3
MDB023	Mathematics Curriculum Studies 3
MDB029	Science Curriculum Studies 3
CLB041	Social Science Curriculum Studies 3

### **IX09 - Faculty of Information Technology Elective Units**

#### **Information Systems**

ITB233	Enterprise Systems Applications
ITB234	Information Analysis
ITB235	Distributed Object Information Systems
ITB236	Object-Oriented Analysis And Design
ITB241	Information Technology Management
ITB243	Knowledge-Based Systems
ITB245	R/3 Systems Administration
ITB254	Interactivity Design
ITB257	Multimedia Systems
ITB258	ABAP Programming

ITB259	Advanced Multimedia Technologies
ITB260	E-Commerce Site Development
ITB262	E-Commerce Technologies
ITB263	Web Intelligence For E-Commerce
ITB264	Information Systems Consulting
ITB267	Data Warehousing For Decision Support

#### **Software Engineering**

ITB441	Graphics
ITB442	Foundations Of Artificial Intelligence
ITB454	Software Quality Assurance
ITB456	Graphic User Interfaces
ITB457	Windows Programming
ITB458	Java And Extensible Programming
ITB466	Component Technology
ITB469	Unix Systems Programming And Administration
ITB470	Windows 2000 System Programming And Administration
ITB471	Software Development For The Web

#### **Data Communications**

ITB533	Comparative Network Systems
ITB551	Network Planning
ITB564	Application Services
ITB565	Network Management
ITB566	Introduction To Cryptology
ITB568	Wireless Networks
ITB569	Network Security For E-Commerce

### **IT Elective Units**

#### **Information Systems**

ITB233	Enterprise Systems Applications
ITB236	Object-Oriented Analysis And Design
ITB241	Information Technology Management
ITB243	Knowledge-Based Systems
ITB245	R/3 Systems Administration
ITB254	Interactivity Design
ITB257	Multimedia Systems
ITB258	ABAP Programming
ITB260	E-Commerce Site Development
ITB262	E-Commerce Technologies
ITB263	Web Intelligence For E-Commerce
ITB264	Information Systems Consulting
ITB267	Data Warehousing For Decision Support

#### **Software Engineering and Data Communications**

ITB626	Management of Network Systems
ITB628	Network Planning
ITB640	Artificial Intelligence
ITB641	Component and Network Applications
ITB642	Web Application Development
ITB643	Unix Systems Programming
ITB644	Windows Administration
ITB645	Network Security
ITB646	Cryptographic Fundamentals
ITB648	Graphics

### **■ Bachelor of Information**

#### **Technology/Bachelor of Laws (IF38)**

**Award title:** Bachelor of Information Technology/Bachelor of Laws

**CRICOS code:** 006385G

**Location:** Gardens Point

**Course duration (full-time):** 5 Years

**Total credit points:** 528

**Course coordinator:** IT: Dr Alan Tickle; Law, Director, Undergraduate Programs

#### **Cooperative Education Program**

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

**Professional Recognition**

The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

**Course Structure****Year 1, Semester 1**

ITB111	Software Development 1
ITB113	Systems Architecture
ITB115	Introduction to Databases
ITB116	IT Professional Studies 1

**Year 1, Semester 2**

ITB112	Software Development 2
ITB114	Networking Systems
ITB117	IT Professional Studies 2
ITB118	ICT Systems Life Cycle

**Year 2, Semester 1**

ITB218	Applications Programming
ITB222	Business Systems Analysis
ITB229	Information Systems Modelling
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice

**Year 2, Semester 2**

ITB227	Web Applications
ITB228	Enterprise Systems
LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives

**Year 3, Semester 1**

ITB232	Database Systems
	IT Elective Unit
LWB136	Contracts A
LWB138	Fundamentals of Torts
LWB238	Fundamentals of Criminal Law

**Year 3, Semester 2**

ITB240	Project (Information Systems)
LWB137	Contracts B
LWB139	Select Issues in Torts
LWB239	Criminal Responsibility

**Year 4, Semester 1**

LWB231	Introduction to Public Law
LWB236	Real Property A
LWB240	Principles of Equity
LWB333	Theories of Law

**Year 4, Semester 2**

LWB235	Australian Federal Constitutional Law
LWB237	Real Property B
LWB241	Trusts
LWB334	Corporate Law

**Year 5, Semester 1**

LWB332	Commercial and Personal Property Law
LWB431	Civil Procedure
LWB432	Evidence
LWB434	Advanced Research and Legal Reasoning
	Electives

**Year 5, Semester 2**

LWB331	Administrative Law
LWB433	Professional Responsibility
	Electives

**IT Elective Units**

Please refer to the IT Elective Units listed under the **Bachelor of Applied Science/Bachelor of Information Technology (IF29)**.

## ■ Bachelor of Journalism/Bachelor of Business (Advertising, International Business, Public Relations) (IF05)

**Award title:** Bachelor of Journalism/Bachelor of Business (Study Area A)

**CRICOS code:** 040312G

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 4/4.5 Years (8 or 9 Semesters - students may choose)

**Total credit points:** 432

**Standard credit points per semester (full-time):** 48 (Years 1 & 2); 60 (Years 3 & 4)

**Course coordinator:** Dr Lee Duffield (Creative Industries); Mr Andrew Paltridge (Business)

**Discipline coordinator:** TBA (Journalism); Dr Gayle Kerr (Advertising); Dr Beverley Kitching (International Business); Ms Robina Xavier (Public Relations)

**Professional Recognition**

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

- All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
- Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
- International Business - Australian Institute of Export;
- Public Relations - Public Relations Institute of Australia.

The Journalism degree is recognised by the Australian Journalists Association section of the Media Entertainment and Arts Alliance.

**Course Design**

Students are required to complete 432 credit points, comprised of 240 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Journalism program.

For the Business component, students must complete the 96 credit point Faculty Core Units together with a 72 credit point Major and a further 72 credit points in which the student must complete one of the following: Double Major, Extended Major or Specialisation.

**Course Structure****Advertising (8 Semester concurrent model)****Year 1, Semester 1**

BSB122	Quantitative Analysis and Finance
BSB126	Marketing
KJB101	Journalism Information Systems
KJB120	News writing

**Year 1, Semester 2**

AMB200	Consumer Behaviour
AMB220	Advertising Theory and Practice
KJB121	Journalistic Inquiry
KCB213	Strategic Speech Communication

**Year 2, Semester 1**

AMB221	Advertising Copywriting
BSB119	International and Electronic Business
KPB155	Media Production
KJB239	Journalism Ethics And Issues

**Year 2, Semester 2**

AMB222	Media Planning
	Business Double Major / Extended Major / Specialisation Unit
KJB232	Radio And Television Journalism 1
KJB224	Feature Writing

**Year 3, Semester 1**

BSB113	Economics
BSB115	Management, People and Organisations
	Business Double Major / Extended Major / Specialisation Unit

KJB322	Desktop Publishing And Editing
KJB338	Radio And Television Journalism 2

**Year 3, Semester 2**

BSB110	Accounting
BSB114	Government, Business and Society
	Business Double Major / Extended Major / Specialisation Unit

KJB303	News Production
KJB337	Public Affairs Reporting

**Year 4, Semester 1**

AMB320	Advertising Management
BSB111	Business Law and Ethics

Business Double Major / Extended Major / Specialisation Unit  
 KWB250 Introduction to Creative Writing  
 Creative Industries Faculty Core Unit - List A

**Year 4, Semester 2**

 KKB818 Introduction To Multimedia Technology

#### Creative Industries Open Electives

Please refer to the Creative Industries Open Electives listed under the **Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology (IF90)**.

### ■ Bachelor of Mass Communication (IF27)

**Award title:** Bachelor of Mass Communication

**CRICOS code:** 037542J

**Location:** Gardens Point and Kelvin Grove

**Course duration (full-time):** 3 Years

**Total credit points:** 288

**Standard credit points per semester (full-time):** 48

**Course coordinator:** Dr Christina Spurgeon

**Discipline coordinator:** Dr Jillian Clare (Media & Communication); Ms Helen Yeates (Television); Dr Lee Duffield (Journalism); Ms Robina Xavier (Advertising and Public Relations)

#### Degree Structure

Students commencing the Bachelor of Mass Communication must complete 24 units of equal weighting totalling 288 credit points comprised of

- Faculty Core (eight faculty core units)
- Major Core (two majors of six units each) and
- Electives (four units).

Although studies can be tailored to meet a specific career goal or create a wide variety of career choices, there is a set of recommended combinations of majors. Students are not required to take these combinations, however they do represent the more common and logical choices within a mass communication qualification.

The recommended combinations are:

- Public Relations and International Journalism
- Public Relations and Media and Communication
- Advertising and Television
- International Journalism and Media and Communication.

#### Professional Recognition

Graduates of the Bachelor of Mass Communication (depending on their choice of majors) may satisfy the academic requirements for membership of the Advertising Institute of Australia and the Society of Business Communicators.

#### General Course Structure

**FACULTY CORE UNITS** - 8 units required

KCB101 Communication in the New Economy

Please refer to the Creative Industries Open Electives listed under the **Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology (IF90)**.

**■ Bachelor of Mathematics/Bachelor of Business (Accountancy, Banking and Finance or Economics) (IF60)**

**Award title:** Bachelor of Mathematics/Bachelor of Business (Study Area A)

**CRICOS code:** 027274G

**Location:** Gardens Point

**Course duration (full-time):** 4 Years

**Total credit points:** 432

**Standard credit points per semester (full-time):** 54 (Average)

**Course coordinator:** Dr Jack Wrigley (Mathematics); Mr Andrew Paltridge (Business)

**Discipline coordinator:** Dr John Sweeting (Accountancy); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics)

**Professional Recognition**

The Bachelor of Mathematics degree may allow graduates to satisfy the academic requirements for membership of the Mathematical Society of Australia, the Statistical Society of

Australia and, depending on unit selection, the Australian Society of Operations Research.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership of: Economic Society of Australia, Australian Institute of Management, Australasian Institute of Banking and Finance (AIBF), Chartered Secretaries Australia, CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

**Course Design**

Students are required to complete 432 credit points comprised of 204 credit points from the Bachelor of Mathematics program, or the Bachelor of Applied Science (Mathematics) program, and 228 credit points from the Bachelor of Business program.

**Course Structure**

**Accountancy Major (For students with SA in Senior Maths B & C)**

**Year 1, Semester 1**

BSB110 Accounting  
BSB113 Economics  
MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B

**Year 1, Semester 2**

AYB121 Financial Accounting  
BSB119 International and Electronic Business  
BSB122 Quantitative Analysis and Finance  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

**Year 2, Semester 1**

AYB220 Company Accounting  
BSB111 Business Law and Ethics  
MAB311 Advanced Calculus  
MAB313 Mathematics of Finance

**Year 2, Semester 2**

AYB221 Computerised Accounting Systems  
BSB126 Marketing  
MAB220 Computational Mathematics 1  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 3, Semester 1**

AYB225 Management Accounting  
BSB115 Management, People and Organisations  
MAB312 Linear Algebra  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 3, Semester 2**

BSB114 Government, Business and Society  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 4, Semester 1**

AYB301 Auditing  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 4, Semester 2**

Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit  
Business Double Major / Extended Major / Specialisation Unit

**Accountancy Major (For students with SA in Senior Maths B only)**

**Year 1, Semester 1**

BSB110 Accounting  
BSB113 Economics  
MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

**Year 1, Semester 2**

AYB121 Financial Accounting  
BSB122 Quantitative Analysis and Finance  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

**Year 2, Semester 1**

AYB220 Company Accounting  
BSB111 Business Law and Ethics  
MAB311 Advanced Calculus  
MAB313 Mathematics of Finance

**Year 2, Semester 2**

AYB221 Computerised Accounting Systems  
BSB126 Marketing  
MAB220 Computational Mathematics 1  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 3, Semester 1**

AYB225 Management Accounting  
BSB115 Management, People and Organisations  
MAB312 Linear Algebra  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 3, Semester 2**

BSB114 Government, Business and Society  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 4, Semester 1**

AYB301 Auditing  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit

**Year 4, Semester 2**

Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major / Extended Major / Specialisation Unit  
Business Double Major / Extended Major / Specialisation Unit

**Note:** Students must select BSB119 International & Electronic Business to replace one of the Mathematics Electives.

**Banking and Finance Major (for students with SA in Senior Maths B & C)**

**Year 1, Semester 1**

BSB110 Accounting  
BSB113 Economics  
MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B

**Year 1, Semester 2**

BSB119 International and Electronic Business  
BSB122 Quantitative Analysis and Finance  
EFB102 Economics 2  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

**Year 2, Semester 1**

BSB126 Marketing  
EFB210 Finance 1  
MAB311 Advanced Calculus  
MAB313 Mathematics of Finance

**Year 2, Semester 2**

BSB111 Business Law and Ethics  
BSB114 Government, Business and Society  
EFB307 Finance 2  
MAB220 Computational Mathematics 1  
Mathematics Elective (Level 2 or 3)

**Year 3, Semester 1**

BSB115 Management, People and Organisations  
EFB201 Financial Markets  
MAB312 Linear Algebra  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation

**Year 3, Semester 2**

EFB312 International Finance  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation  
Business Double Major/Extended Major/Specialisation

**Year 4, Semester 1**

Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation  
Business Double Major/Extended Major/Specialisation

**Year 4, Semester 2**

Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation

**Banking and Finance Major (for students with SA in Senior Maths B only)**

**Year 1, Semester 1**

BSB110 Accounting  
BSB113 Economics  
MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1

**Year 1, Semester 2**

BSB122 Quantitative Analysis and Finance  
EFB102 Economics 2  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

**Year 2, Semester 1**

BSB126 Marketing  
EFB210 Finance 1  
MAB311 Advanced Calculus  
MAB313 Mathematics of Finance

**Year 2, Semester 2**

BSB111 Business Law and Ethics  
BSB114 Government, Business and Society  
EFB307 Finance 2  
MAB220 Computational Mathematics 1  
Mathematics Elective (Level 2 or 3)

**Year 3, Semester 1**

BSB115 Management, People and Organisations  
EFB201 Financial Markets  
MAB312 Linear Algebra  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation

**Year 3, Semester 2**

EFB312 International Finance  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation  
Business Double Major/Extended Major/Specialisation

**Year 4, Semester 1**

Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation  
Business Double Major/Extended Major/Specialisation

**Year 4, Semester 2**

Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Mathematics Elective (Level 2 or 3)  
Business Double Major/Extended Major/Specialisation

**Note:** Students must select BSB119 International & Electronic Business to replace one of the Mathematics Electives

**Economics Major (for students with SA in Senior Maths B & C)**

**Year 1, Semester 1**

BSB110 Accounting  
BSB113 Economics  
MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B

**Year 1, Semester 2**

BSB119 International and Electronic Business  
BSB122 Quantitative Analysis and Finance  
EFB102 Economics 2  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1

**Year 2, Semester 1**

EFB202	Business Cycles and Economic Growth
EFB211	Firms, Markets and Resources
MAB311	Advanced Calculus
MAB313	Mathematics of Finance

**Year 2, Semester 2**

BSB114	Government, Business and Society
BSB126	Marketing
EFB323	Financial and Monetary Economics
MAB220	Computational Mathematics 1
	Mathematics Elective (Level 2 or 3)

**Year 3, Semester 1**

BSB115	Management, People and Organisations
MAB312	Linear Algebra
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation
	Business Double Major/Extended Major/Specialisation

**Year 3, Semester 2**

EFB314	International Trade and Economic Competitiveness
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation
	Business Double Major/Extended Major/Specialisation

**Year 4, Semester 1**

BSB111	Business Law and Ethics
	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation

**Year 4, Semester 2**

	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation

**Economics Major (for students with SA in Senior Maths B only)****Year 1, Semester 1**

BSB110	Accounting
BSB113	Economics
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1

**Year 1, Semester 2**

BSB122	Quantitative Analysis and Finance
EFB102	Economics 2
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1

**Year 2, Semester 1**

EFB202	Business Cycles and Economic Growth
EFB211	Firms, Markets and Resources
MAB311	Advanced Calculus
MAB313	Mathematics of Finance

**Year 2, Semester 2**

BSB114	Government, Business and Society
BSB126	Marketing
EFB323	Financial and Monetary Economics
MAB220	Computational Mathematics 1
	Mathematics Elective (Level 2 or 3)

**Year 3, Semester 1**

BSB115	Management, People and Organisations
MAB312	Linear Algebra
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation
	Business Double Major/Extended Major/Specialisation

**Year 3, Semester 2**

EFB314	International Trade and Economic Competitiveness
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation
	Business Double Major/Extended Major/Specialisation

**Year 4, Semester 1**

BSB111	Business Law and Ethics
	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Business Double Major/Extended Major/Specialisation

**Year 4, Semester 2**

	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)
	Mathematics Elective (Level 2 or 3)

**Business Double Major/Extended Major/Specialisation**

**Note:** Students must select BSB119 International & Electronic Business to replace one of the Mathematics Electives.

**Extended Major in Banking**

AYB225	Management Accounting
AYB312	Financial Institutions Law
EFB310	Financial Institutions - Control
EFB311	Financial Institutions - Lending
	Plus two units from the Banking Extended Major Options listed below:
EFB200	Applied Regression Analysis
EFB308	Finance 3
EFB309	Financial Derivatives
EFB318	Portfolio and Security Analysis
EFB326	Applied Portfolio Management

**Extended Major in Financial Economics (for Banking & Finance Major)**

EFB202	Business Cycles and Economic Growth
EFB211	Firms, Markets and Resources
EFB324	Macroeconomics and Global Financial Markets
EFB325	Financial Microeconomics
EFB326	Applied Portfolio Management
	Plus one unit from the Financial Economics Extended Major Options list below
EFB200	Applied Regression Analysis
EFB308	Finance 3
EFB309	Financial Derivatives
EFB318	Portfolio and Security Analysis

**Extended Major in Financial Economics (for Economics Major)**

EFB210	Finance 1
EFB324	Macroeconomics and Global Financial Markets
EFB325	Financial Microeconomics
EFB326	Applied Portfolio Management
	Plus two units from the Financial Economics Extended Major Options list below:
EFB200	Applied Regression Analysis
EFB201	Financial Markets
EFB327	Econometrics of Financial Markets
EFB328	Public Economics and Finance

**Extended Major in Funds Management**

AYB225	Management Accounting
EFB308	Finance 3
EFB309	Financial Derivatives
EFB318	Portfolio and Security Analysis
	Plus two units from the Funds Management Extended Major Options list below:
AYB312	Financial Institutions Law
EFB200	Applied Regression Analysis
EFB310	Financial Institutions - Control
EFB311	Financial Institutions - Lending
EFB326	Applied Portfolio Management

**Extended Major in Professional Accounting**

AYB223	Law of Business Associations
AYB325	Taxation Law
EFB102	Economics 2
EFB210	Finance 1
AYB311	Financial Accounting Issues
AYB321	Strategic Management Accounting

**Mathematics Electives****Level 2 units**

MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation
MAB481	Visualisation and Data Analysis

**Level 3 units**

MAB521	Applied Mathematics 3
--------	-----------------------

MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB524	Statistical Inference
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB580	Scientific Computation
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B
MAB640	Industry Project
MAB672	Advanced Mathematical Modelling
MAB681	Advanced Visualisation and Data Analysis

**Notes:** MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory for students who commenced in 2004 onwards. They can be taken in a different semester 1 to that suggested in the programs above. For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units. This does not apply for students who commenced prior to 2004.

## ■ Bachelor of Mathematics/Bachelor of Information Technology (IF58)

**Award title:** Bachelor of Mathematics/Bachelor of Information Technology

**CRICOS code:** 020327M

**Location:** Gardens Point

**Course duration (full-time):** 4 Years

**Total credit points:** 420 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Course coordinator:** Professor Helen MacGillivray (Science)

**Discipline coordinator:** Dr Gary Carter (Mathematics), Dr Alan Tickle (Information Technology)

### Professional Recognition

On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

### Course Design

The double degree offers a foundation in mathematics and information technology in the first year. Students will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in data communications/software engineering.

### Cooperative Education Program

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

### For students with four semesters of Senior Mathematics B and Senior Mathematics C (or equivalent) with an exit assessment of at least Sound Achievement in both

#### Year 1, Semester 1

ITB111	Software Development 1
ITB115	Introduction to Databases
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C

#### Year 1, Semester 2

ITB112	Software Development 2
ITB113	Systems Architecture
ITB116	IT Professional Studies 1
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1

#### Year 2, Semester 1

ITB113	Systems Architecture
ITB610	Software Development 3
ITB624	Internetworking
MAB101	Statistical Data Analysis 1
MAB312	Linear Algebra

#### Year 2, Semester 2

ITB627	Network Technologies
ITB629	Network Services
	Level 2 or 3 Maths unit
	Level 2 or 3 Maths unit

#### Year 3, Semester 1

ITB611	Object Technology
	IT Elective Unit
MAB311	Advanced Calculus
	Level 2 or 3 Maths unit

#### Year 3, Semester 2

ITB612	Software Engineering Principles
	IT Elective Unit
	Level 2 or 3 Maths unit
	Level 2 or 3 Maths unit
	Elective (This elective unit may be taken from any faculty in QUT, subject to the approval of the Head of School)

#### Year 4, Semester 1

ITB613	Advanced Programming Laboratory
	IT Elective Unit
	Level 2 or 3 Maths unit
	Level 2 or 3 Maths unit

#### Year 4, Semester 2

	IT Elective Unit
	IT Elective Unit
	Level 2 or 3 Maths unit
	Level 2 or 3 Maths unit

### For students with four semesters of Senior Mathematics B (or equivalent) only, with an exit assessment of at least Sound Achievement

#### Year 1, Semester 1

ITB111	Software Development 1
ITB115	Introduction to Databases
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1

#### Year 1, Semester 2

ITB112	Software Development 2
ITB114	Networking Systems
ITB118	ICT Systems Life Cycle
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C

#### Year 2, Semester 1

ITB113	Systems Architecture
ITB610	Software Development 3
ITB624	Internetworking
MAB220	Computational Mathematics 1
MAB312	Linear Algebra

#### Year 2, Semester 2

ITB627	Network Technologies
ITB629	Network Services
MAB210	Statistical Modelling 1
	Level 2 or 3 Maths unit

#### Year 3, Semester 1

ITB611	Object Technology
	IT Elective unit

	IT Elective unit

Level 2 or 3 Maths unit

Level 2 or 3 Maths unit

#### **Year 4, Semester 2**

IT Elective unit

IT Elective unit

Level 2 or 3 Maths unit

Level 2 or 3 Maths unit

### **Mathematics Units**

Students must complete at least 48 credit points from Level 3 mathematics units

#### **Level 2 Units**

MAB311 Advanced Calculus

MAB312 Linear Algebra

MAB313 Mathematics of Finance

MAB314 Statistical Modelling 2

MAB315 Operations Research 2

MAB413 Differential Equations

MAB414 Applied Statistics 2

MAB420 Computational Mathematics 2

MAB422 Mathematical Modelling

MAB480 Introduction to Scientific Computation

MAB481 Visualisation and Data Analysis

#### **Level 3 Units**

MAB521 Applied Mathematics 3

MAB522 Computational Mathematics 3

MAB523 Introduction to Quality Management

MAB524 Statistical Inference

MAB525 Operations Research 3A

MAB526 Statistical Science 3

MAB580 Scientific Computation

MAB613 Partial Differential Equations

MAB621 Discrete Mathematics

MAB623 Financial Mathematics

MAB624 Applied Statistics 3

MAB625 Operations Research 3B

MAB640 Industry Project

MAB672 Advanced Mathematical Modelling

MAB681 Advanced Visualisation and Data Analysis

**Notes:** For students commencing in 2004 onwards, the units MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory. The suggested locations can be swapped.

For students commencing in 2004 onwards, the units MAB523

Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.

All Mathematics units have 4 contact hours per week.

### **IT Elective Units**

Please refer to the IT Elective Units listed under the **Bachelor of Applied Science/Bachelor of Information Technology (IF29)**.

## **■ Bachelor of Music/Bachelor of Education (Secondary) (IX07)**

**Award title:** Bachelor of Music/Bachelor of Education (Secondary)

**CRICOS code:** 020319M

**Location:** Kelvin Grove and Carseldine

**Course duration (full-time):** 4 years

**Total credit points:** 432

**Standard credit points per semester (full-time):** 54 (average).

(Note that the minimum enrolment for full-time status varies each year).

**Course coordinator:** Creative Industries: Dr Steve Dillon;

Education Coordinator: Dr Peter Bond

**Discipline coordinator:** Creative Industries: Prof Andy Arthurs

### **Professional Recognition**

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland.

Applicants for teacher registration in Queensland are subject to national criminal history checks.

### **Field Experience Requirement**

The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

## **Second Teaching Area - Instrumental Music**

### **Year 1, Semester 1**

Creative Industries Core Unit - List A

KMB651 Music Performance 1

KMB632 Core Musicianship 1

KMB619 Music And Sound Technology

Choose one unit from:

KMB616-1 Group Music

KMB618 Soundtracks For Film And Television

KMB623 Conducting

KMB631 World Music

KMB640 Sex Drugs Rock N Roll

### **Year 1, Semester 2**

Creative Industries Core Unit - List A

KMB652 Music Performance 2

KMB633 Core Musicianship 2

KMB621 Sound Recording And Acoustics

KMB622 Multi-Instrumental Music A

### **Year 2, Semester 1**

KMB630 Music Textures

KMB653 Music Performance 3

KMB637 Jazz And Popular Musicianship

KMB636 Cross Cultural Musicianship

KMB623 Conducting

### **Year 2, Semester 2**

KMB654 Music Performance 4

KMB635 Sound Media Musicianship

KMB634 Contemporary Art Music Musicianship

KMB628 Multi-Instrumental Music B

KMB617 Arranging

**Notes:** KMB619 Advanced Conducting (Summer fee paying unit) may count as a music elective whose prerequisite is KMB623 Conducting. See the Course Coordinator for details.

KMB619 is delivered in Intensive Mode in the week prior to the start of first semester.

## **Second Teaching Area - Primary Music**

### **Year 1, Semester 1**

Creative Industries Core Unit - List A

KMB651 Music Performance 1, or

KMB657 Music Production 1

KMB632 Core Musicianship 1

KMB619 Music And Sound Technology

Select one unit from:

KMB616-1 Group Music

KMB618 Soundtracks For Film And Television

KMB623 Conducting

KMB631 World Music

KMB640 Sex Drugs Rock N Roll

### **Year 1, Semester 2**

Creative Industries Core Unit - List A

KMB633 Core Musicianship 2

KMB652 Music Performance 2

AND

KMB621 Sound Recording And Acoustics, or

KMB658 Music Production 2

AND

KMB626 Music And Sound For Multimedia

Select one unit from:

KMB622 Multi-Instrumental Music A

KMB638 Sound And Image

KMB648 The Music Scene

KMB667 Music and Spirituality

KMB616-2 Group Music

KMB617 Arranging

KMB626 Music And Sound For Multimedia

KMB628 Multi-Instrumental Music B

### **Year 2, Semester 1**

KMB630 Music Textures

KMB653 Music Performance 3, or

KMB659 Music Production 3

KMB637 Jazz And Popular Musicianship

KMB636 Cross Cultural Musicianship

Select one unit from:  
KMB623 Conducting  
KMB640 Sex Drugs Rock N Roll  
KMB631 World Music  
KMB618 Soundtracks For Film And Television  
KMB616-1 Group Music

#### **Year 2, Semester 2**

KMB654 Music Performance 4, or  
KMB660 Music Production 4  
KMB635 Sound Media Musicianship  
KMB634 Contemporary Art Music Musicianship

Select two units from:

KMB616-2 Group Music  
KMB617 Arranging  
KMB638 Sound And Image  
KMB648 The Music Scene  
KMB626 Music And Sound For Multimedia  
KMB667 Music and Spirituality  
KMB622 Multi-Instrumental Music A  
KMB628 Multi-Instrumental Music B

### **Second Teaching Area - Dance**

#### **Year 1, Semester 1**

KMB651 Music Performance 1, or  
KMB657 Music Production 1  
KMB632 Core Musicianship 1  
KMB619 Music And Sound Technology  
KDX104 Architecture of the Body  
Creative Industries Core Unit - List A

#### **Year 1, Semester 2**

KMB652 Music Performance 2  
AND  
KMB621 Sound Recording And Acoustics, or  
KMB658 Music Production 2  
AND  
KMB626 Music And Sound For Multimedia  
KMB633 Core Musicianship 2  
KDB114 Australian Dance  
Creative Industries Core Unit - List A

#### **Year 2, Semester 1**

KMB653 Music Performance 3, or  
KMB659 Music Production 3  
KMB637 Jazz And Popular Musicianship, or  
KMB636 Cross Cultural Musicianship  
KMB630 Music Textures  
KDB182 Dance Technique Studies 3  
KDB117 Dance in Education

#### **Year 2, Semester 2**

KMB654 Music Performance 4, or  
KMB660 Music Production 4  
KMB635 Sound Media Musicianship, or  
KMB634 Contemporary Art Music Musicianship  
KDB106 Dance Analysis  
KDB183 Dance Technique Studies 4

Select one unit from:

KMB616-2 Group Music  
KMB617 Arranging  
KMB622 Multi-Instrumental Music A  
KMB626 Music And Sound For Multimedia  
KMB628 Multi-Instrumental Music B  
KMB638 Sound And Image  
KMB648 The Music Scene  
KMB667 Music and Spirituality

### **Second Teaching Area - Drama**

#### **Year 1, Semester 1**

KMB651 Music Performance 1, or  
KMB657 Music Production 1  
KMB632 Core Musicianship 1  
KMB619 Music And Sound Technology  
KTB257 Studies in Acting 1  
Creative Industries Core Unit - List A

#### **Year 1, Semester 2**

KMB652 Music Performance 2  
AND  
KMB621 Sound Recording And Acoustics, or  
KMB658 Music Production 2  
AND  
KMB626 Music And Sound For Multimedia

KMB633 Core Musicianship 2  
KTB251 20th Century Performance  
Creative Industries Core Unit - List A

#### **Year 2, Semester 1**

KMB653 Music Performance 3, or  
KMB659 Music Production 3  
KMB637 Jazz And Popular Musicianship, or  
KMB636 Cross Cultural Musicianship  
KMB630 Music Textures  
KTB214 Process Drama  
KSB278 Technical Theatre

#### **Year 2, Semester 2**

KMB654 Music Performance 4, or  
KMB660 Music Production 4  
KMB635 Sound Media Musicianship, or  
KMB634 Contemporary Art Music Musicianship  
KTB280 Drama as Social Action  
KTB304 Forming Knowledge

Select one unit from:

KMB616-2 Group Music  
KMB617 Arranging  
KMB622 Multi-Instrumental Music A  
KMB626 Music And Sound For Multimedia  
KMB628 Multi-Instrumental Music B  
KMB638 Sound And Image  
KMB648 The Music Scene  
KMB667 Music and Spirituality

### **Second Teaching Area - Visual Arts**

#### **Year 1, Semester 1**

KMB651 Music Performance 1, or  
KMB657 Music Production 1  
KMB632 Core Musicianship 1  
KMB619 Music And Sound Technology  
Creative Industries Core Unit - List A  
KVB702 Australian and Indigenous Art

#### **Year 1, Semester 2**

KMB652 Music Performance 2  
AND  
KMB621 Sound Recording And Acoustics, or  
KMB658 Music Production 2  
AND  
KMB626 Music And Sound For Multimedia  
KMB633 Core Musicianship 2  
KVB701 Modernism  
Creative Industries Core Unit

#### **Year 2, Semester 1**

KMB653 Music Performance 3, or  
KMB659 Music Production 3  
KMB637 Jazz And Popular Musicianship, or  
KMB636 Cross Cultural Musicianship  
KMB630 Music Textures

Select two units from:

KVB447 Drawing  
KVB457 Sculpture  
KVB503 Clay Materials  
KVB509 Photomedia and Artistic Practice

#### **Year 2, Semester 2**

KMB654 Music Performance 4, or  
KMB660 Music Production 4  
KMB635 Sound Media Musicianship, or  
KMB634 Contemporary Art Music Musicianship

Select one unit from:

KMB616-2 Group Music  
KMB617 Arranging  
KMB622 Multi-Instrumental Music A  
KMB626 Music And Sound For Multimedia  
KMB628 Multi-Instrumental Music B  
KMB638 Sound And Image  
KMB648 The Music Scene  
KMB667 Music and Spirituality

Select two units from:

KVB447 Drawing  
KVB457 Sculpture  
KVB503 Clay Materials  
KVB507 Painting  
KVB509 Photomedia and Artistic Practice

**Second Teaching Area - other than Drama, Dance or Visual Arts****Year 1, Semester 1**

- KMB651 Music Performance 1, or  
 KMB657 Music Production 1  
 KMB632 Core Musicianship 1  
 KMB619 Music And Sound Technology  
 Creative Industries Core Unit - List A  
 Second Teaching Area Unit

**Year 1, Semester 2**

- Creative Industries Core Unit  
 KMB633 Core Musicianship 2  
 KMB652 Music Performance 2, and  
 KMB621 Sound Recording And Acoustics, or  
 KMB658 Music Production 2, and  
 KMB626 Music And Sound For Multimedia  
 Second Teaching Area Unit

**Year 2, Semester 1**

- KMB653 Music Performance 3, or  
 KMB659 Music Production 3  
 KMB637 Jazz And Popular Musicianship  
 KMB636 Cross Cultural Musicianship  
 KMB630 Music Textures  
 Second Teaching Area Unit

**Year 2, Semester 2**

- KMB654 Music Performance 4, or  
 KMB660 Music Production 4  
 KMB635 Sound Media Musicianship  
 KMB634 Contemporary Art Music Musicianship  
 Second Teaching Area Unit  
 Select one unit from:

- KMB616-2 Group Music  
 KMB617 Arranging  
 KMB622 Multi-Instrumental Music A  
 KMB626 Music And Sound For Multimedia  
 KMB628 Multi-Instrumental Music B  
 KMB638 Sound And Image  
 KMB648 The Music Scene  
 KMB667 Music and Spirituality

**List A: Creative Industries Core Units**

- KKB008 Narrative in the Creative Industries  
 KKB018 Creative Industries  
 KKB418 Cultures and Creativity  
 KKB618 Writing For Creative Industries  
 KKB818 Introduction To Multimedia Technology

**EDUCATION COMPONENT****Year 3, Semester 2**

- EDB002 Teaching and Learning Studies 2: Development and Learning  
 EDB031 Secondary Field Studies 1: Development and Learning in the Field  
 KMB201 Music (Secondary) Curriculum Studies 1  
 Curriculum Studies 1Y

**Year 3, Semester 2**

- EDB003 Teaching and Learning Studies 3: Practising Education  
 EDB032 Secondary Field Studies II: Practising Education in the Field  
 KMB202 Music (Secondary) Curriculum Studies 2  
 Curriculum Studies 2Y

**Year 4, Semester 1**

- EDB004 Teaching and Learning Studies IV: Inclusive Education  
 EDB033 Secondary Field Studies III: Immersion in Inclusive Educational Practices  
 KMB203 Music (Secondary) Curriculum Studies 3  
 Curriculum Studies 3Y

**Year 4, Semester 2**

- EDB005 Teaching and Learning Studies V: Professional Work of Teachers  
 EDB034 Secondary Field Studies VI: Professional Work of Teachers: Induction into Practice  
 EDB035 Internship (Secondary)  
 Education Elective

**Curriculum Studies - Second Teaching Area****Curriculum Studies 1**

- KVB301 Visual Art Curriculum Studies 1  
 KTB201 Drama Curriculum Studies 1  
 CLB018 English Curriculum Studies 1  
 CLB024 Film and Media Curriculum Studies 1

- CLB027 Geography Curriculum Studies 1  
 CLB030 History Curriculum Studies 1  
 CLB036 LOTE Curriculum Studies 1  
 KMB101 Music (Primary/Instrumental) Curriculum Studies 1

**Curriculum Studies 2**

- KVB302 Visual Art Curriculum Studies 2  
 KTB202 Drama Curriculum Studies 2  
 CLB019 English Curriculum Studies 2  
 CLB025 Film and Media Curriculum Studies 2  
 CLB028 Geography Curriculum Studies 2  
 CLB031 History Curriculum Studies 2  
 CLB037 LOTE Curriculum Studies 2  
 KMB102 Music (Primary/Instrumental) Curriculum Studies 2

**Curriculum Studies 3**

- KVB303 Visual Art Curriculum Studies 3  
 KTB203 Drama Curriculum Studies 3  
 CLB020 English Curriculum Studies 3  
 CLB026 Film and Media Curriculum Studies 3  
 CLB029 Geography Curriculum Studies 3  
 CLB032 History Curriculum Studies 3  
 CLB038 LOTE Curriculum Studies 3  
 KMB103 Music (Primary/Instrumental) Curriculum Studies 3

**Second Teaching Area Units**

Please refer to the Second Teaching Area Units listed under the **Bachelor of Creative Industries (Dance)/Bachelor of Education (Secondary) (IX05)**.

## Section Four

# Unit Synopses

Unit Coding and Numbering.....	424
Unit Synopses .....	425

This section provides synopses of the units offered in the academic programs section.

The synopses are presented in alpha-numeric order according to their codes.

### UNIT CODING AND NUMBERING

The unit code is of the format XXX999. The first two characters indicate the faculty or school administering the unit. The third character indicates the level of the course in which the unit is normally taught.

#### UNIT CODING

- AD Design and Built Environment
- AM Advertising, Marketing and Public Relations
- AR Design and Built Environment
- AY Accountancy
- BN Built Environment and Engineering
- BS Business
- CE Civil Engineering
- CL Cultural and Language Studies in Education
- CN Construction Management
- DB Design and Built Environment
- EA Early Childhood
- ED Education
- EE Electrical and Electronic Systems Engineering
- EF Economics and Finance
- GS Brisbane Graduate School of Business
- HH Humanities and Human Services
- HL Health
- HM Human Movement Studies
- IB International Business
- IF Interfaculty Courses
- IT Information Technology
- JS Justice Studies
- KC Media Communication
- KD Dance
- KF Fashion
- KI Communication Design
- KJ Journalism
- KK Creative Industries Faculty
- KM Music
- KP Film and Television
- KS Acting and Technical Production
- KT Theatre Studies
- KV Visual Arts
- KW Creative Writing and Cultural Studies
- LP Legal Practice
- LS Life Science
- LW Law
- MA Mathematical Sciences
- MD Mathematics, Science and Technology Education
- ME Mechanical, Manufacturing and Medical Engineering
- MG Management and Human Resource Management
- MM Mechanical, Manufacturing and Medical Engineering
- NR Natural Resource Sciences
- NS Nursing
- OP Optometry
- PC Physical Sciences
- PS Planning, Landscape Architecture and Surveying

- PU Public Health
- PY Psychology and Counselling
- QC QUT International College
- SC Science
- SP Learning and Professional Studies

#### LEVEL INDICATORS

- X = Certificate, Associate Diploma, Associate Degrees, Diploma
- B = Degree
- D = University Diploma
- F = Foundation Program
- P = Graduate Diploma
- N = Masters Degree
- R = Doctoral
- S = Special Units
- Z = Offshore Offering

#### PREREQUISITE AND COREQUISITE UNITS

For definitions of the terms prerequisite and corequisite unit(s), refer to Rule 12 of the Student Rules section.

#### Disclaimer

Some schools have indicated the availability of their units for semester 1 (1), semester 2 (2), or Summer Program (3). These indications are preliminary only and are subject to change.

**► ADB001 ARCHITECTURAL DESIGN 1**

Introduction to design theory. This unit uses developmental exercises to enhance fundamental aesthetic perception and developmental exercises in graphic/presentation skills with an emphasis on orthographic and paraline drawing systems. The major design project introduces students to a range of issues and provokes exploration. It develops students' comprehension of fundamental spatial and formal values and enhances sensibilities concerning architectural qualities.

**Courses:** BN31, AR48

**Contact hours:** 8 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB002 ARCHITECTURAL DESIGN 2**

Introduction to critical design theory. This unit uses developmental exercises in graphic and/or presentation skills with emphasis on model making and perspective drawing. With a focus on the contextual, the major project in this unit encourages ideas that are developed out of the analysis of understanding of a particular place.

**Courses:** BN31, AR48 **Prerequisites:** ADB001

**Contact hours:** 8 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB003 ARCHITECTURAL DESIGN 3**

Design theory: physical context, landscape, social context, ethics and values. This unit integrates contextual studies and technology, specifically building construction and design for climate. Projects are generally of domestic scale.

**Courses:** BN31, AR48 **Prerequisites:** ADB002

**Corequisites:** ADB011, ADB013

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB004 ARCHITECTURAL DESIGN 4**

Design theory: physical context, landscape, social context, ethics and values. This unit involves the integration of contextual studies and technology, specifically building construction and design for climate. Projects are of domestic scale.

**Courses:** BN31, AR48 **Prerequisites:** ADB003

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB005 ARCHITECTURAL DESIGN 5**

Design theory: sustainability, sociological and contextual concerns related to particular design problems. The unit often includes a 'community service' project, generally a collaborative, participatory design with selected community groups as 'client'.

**Courses:** BN31, AR48

**Prerequisites:** ADB004 **Corequisites:** ADB913

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB006 ARCHITECTURAL DESIGN 6**

This unit includes design theory, urban sustainability, sociological and contextual concerns related to particular design problems.

**Courses:** BN31, AR48 **Prerequisites:** ADB005

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP

**► ADB007 ARCHITECTURAL DESIGN 7**

The content of the unit is project-dependent.

**Courses:** AR48 **Prerequisites:** ADB006

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB008 ARCHITECTURAL DESIGN 8**

The content of the unit is project-dependent.

**Courses:** AR48

**Prerequisites:** ADB007 **Corequisites:** ADB026

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB009 ARCHITECTURAL DESIGN 9**

Design projects and associated lectures and presentations are relevant to developing the unit objectives. A high degree of resolution is expected in design projects in intellectual conceptualisation and strategy, spatial organisation, form, detail and technical understanding. Building economics, services, construction technology, theory and critical analysis are integrated into the unit.

**Courses:** AR48

**Prerequisites:** ADB008

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

**► ADB011 CONTEXTUAL STUDIES 1**

The course considers the emergence of modern architecture in Europe and America in the late nineteenth and early twentieth century, and the development of the ideas and proposals arrived at through the heroic phase of the 1920s and 30s. The dominance of modern architecture following the war and the early critiques are examined. An analysis of the emergence of postmodern thought and the various architectural directions being pursued throughout the world in the late twentieth century to find viable and meaningful designs are included.

**Courses:** BN31, AR48 **Prerequisites:** ADB931

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB012 CONTEXTUAL STUDIES 2**

Australian and Oceanic architecture is examined from pre-European settlement times to the present. The work is looked at in the context of European and American influences and the Asian-Oceanic context. The examples are studied in relation to broad social, historical and aesthetic backgrounds. Course work includes an introduction to research of local architectural history, and visits to key buildings.

**Courses:** BN31, AR48 **Prerequisites:** ADB931

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB013 CONTEXTUAL STUDIES 3**

This unit looks at the architectural traditions of the diverse cultures of Asia and urban history. The course examines how traditional architecture is shaped by culture and society. It focuses on the geographic regions of the orient including China, Japan and Korea and of South Asia including India, Nepal and Sri Lanka. Design of cities across geographic regions, including Europe, America, Australia and Asia are studied from an historical and contemporary perspective to understand city form, culture, politics, economics and function, ecology and sustainability.

**Courses:** AR48

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB014 CONTEXTUAL STUDIES 4**

Contemporary Thinking and Architectural Culture. This unit aims to consolidate for students a theoretical contemporary framework in which to locate key moments in contemporary architectural and cultural production from diverse contexts. It introduces students to contemporary debates and endeavours to de-mystify the language of contemporary architectural ideas and aesthetics in order to promote self-directed interest in contemporary theory and criticism.

**Courses:** AR48

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB021 TECHNOLOGY AND SCIENCE 1**

This is a study of the properties and behaviour of common building materials and the historical development of building technologies including basic structural systems, behaviour of structures and members under load, and application of knowledge in design exercises and models.

**Courses:** BN31, AR48 **Prerequisites:** ADB921

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB022 TECHNOLOGY AND SCIENCE 2**

This unit considers in detail domestic scale building, basic design for climate, and energy conservation. The implications of the principles of the subject on the form and fabric of buildings are illustrated.

**Courses:** BN31, AR48 **Prerequisites:** ADB021

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB023 TECHNOLOGY AND SCIENCE 3**

This unit considers in detail domestic scale building and design for natural ventilation, lighting, acoustics and solar controls. Implications of the principles of the subject on the form and fabric of buildings are illustrated.

**Courses:** BN31, AR48 **Prerequisites:** ADB022

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB024 TECHNOLOGY AND SCIENCE 4**

This unit addresses building construction. It includes an overview of construction systems used in low to medium rise industrial and commercial buildings and an overview of structural considerations in steel and reinforced concrete structural systems.

**Courses:** BN31, AR48 **Prerequisites:** ADB023

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB025 TECHNOLOGY AND SCIENCE 5**

This unit addresses building construction. It includes an overview of construction systems used in medium to high-rise commercial buildings, including analysis of principles, advantages, disadvantages and details of such systems. It also includes an integrated overview of medium to high-rise building services including hydraulics, lighting, electrical services, mechanical equipment and vertical transportation.

**Courses:** AR48

**Prerequisites:** ADB024  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB026 TECHNOLOGY AND SCIENCE 6**

The topics in this unit include a case study of the building type being studied in ADB007 working with engineering consultants, and the programming of work.

**Courses:** AR48

**Prerequisites:** ADB025  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB031 PROFESSIONAL STUDIES 1**

This unit includes theory and some estimating and specifications techniques. The theory includes an analysis of various concepts of professionalism, characteristics of professions, and a discussion of various contemporary critiques of architectural practice. Estimating involves choice of technique, accuracy, square and cube rates, cost control, feasibility, and quantity surveying. The role of specification is included.

**Courses:** AR48

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB033 PROFESSIONAL STUDIES 3**

This is a self-paced national course (BPA 2) prepared by the Royal Australian Institute of Architects as a Continuing Education program which will attract certification from the RAIA. The course covers ethical, administrative and management issues in relation to architectural practice.

**Courses:** AR48

**Prerequisites:** ADB932

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB051 ARCHITECTURAL RESEARCH 1**

This unit provides students with an overview of research methodology. Students examine the differences between various research methods and product. A number of issues are addressed in the elected area of research including definition of study area, research aims and objectives, initial proposition, structuring research approach, analysis, and preliminary conclusions based on the literature review.

**Courses:** AR48

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB052 ARCHITECTURAL RESEARCH 2**

Students continue their studies on an approved topic commenced in Architectural Research 1. By means of a thesis presentation, students demonstrate their ability to define and logically argue propositions, and to conduct research to prove its validity by means of a well-constructed research project that includes critical analysis.

**Courses:** AR48

**Prerequisites:** ADB051  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB053 ARCHITECTURAL PROJECT**

The major project, selected by students and approved by the unit coordinator, will have a focus work study that demonstrates the particular skills and interests of the individual. This work should be completed to a highly developed and resolved standard.

**Courses:** AR48

**Prerequisites:** ADB009, ADB067

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB061 ARCHITECTURAL APPLICATIONS 1**

The unit is used to increase the students' experience in applying theory to architectural problems. It includes a study of materials, anthropometrics and ergonomics, and a presentation of architectural ideas through drawings and models.

**Courses:** BN31

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB062 ARCHITECTURAL APPLICATIONS 2**

The unit is used to increase the student's experience in applying theory to architectural problems. It includes a study of materials, structures, and architectural ideas through drawings and models.

**Courses:** BN31

**Prerequisites:** ADB061  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB063 ARCHITECTURAL APPLICATIONS 3**

The unit is used to increase the student's experience in applying theory to problems, and includes the following: site analysis, levels and contours; practical experiments in Design Science; construction detailing and documentation through drawings, models and computer simulation.

**Courses:** BN31

**Prerequisites:** ADB062  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB064 ARCHITECTURAL APPLICATIONS 4**

This unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.

**Courses:** BN31

**Prerequisites:** ADB063  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB065 ARCHITECTURAL APPLICATIONS 5**

The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.

**Courses:** BN31

**Prerequisites:** ADB064  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB066 ARCHITECTURAL APPLICATIONS 6**

The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.

**Courses:** BN31

**Prerequisites:** ADB065  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB067 ELECTIVE ARCHITECTURAL APPLICATIONS**

This unit provides an opportunity for students to develop and strengthen areas of interest in a program of their choice, to be approved by the Course Coordinator. For example, it may be used to develop the Architectural Research 2 program to the presentation of a dissertation or enhance knowledge and skills in other subject areas.

**Courses:** AR48

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB101 INTERIOR DESIGN 1**

Through exercises involving physical, historical, social and cultural constraints, person-environment analysis, and personal reflection, there is the opportunity, in this unit, to integrate material from associated units and to begin to develop a basic awareness of a designer's role and responsibilities.

**Courses:** BN31

**Contact hours:** 7 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB102 INTERIOR DESIGN 2**

This unit includes the following areas of study: the visual and physical attributes of form; perceptual principles of organisation; person-environment interaction with a focus on the physical, social and temporal aspects of environment; aesthetics and its relevance to person-environment interaction.

**Courses:** BN31

**Prerequisites:** ADB101  
**Contact hours:** 7 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB103 INTERIOR DESIGN 3**

This unit includes an introduction to the theoretical constructs of person-environment interaction and modes of interaction incorporating theories from disciplines including philosophy, psychology, social science and cultural and communication studies. Other conceptual frameworks are introduced and explored including modernism, post-modernism, feminism and pluralism, and issues of designing incorporating site, values, activities and technology.

**Courses:** BN31

**Prerequisites:** ADB102 **Corequisites:** ADB123  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB104 INTERIOR DESIGN 4**

This unit includes the following areas of study: ethics and topical social issues; the responsibilities of a designer in a contemporary context; application and development of an integrated design approach explicitly informed by theory, philosophy, ethics, and current demands and considerations.

**Courses:** BN31

**Prerequisites:** ADB103 **Corequisites:** ADB124  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB105 INTERIOR DESIGN 5**

This unit includes the following areas of study: designing as practice; law as it relates philosophically and conceptually to the built environment and people's relationship with the built environment; the work of national and international designers: a critical approach; tools for fostering alternative ways of thinking and imagining person-environment interaction; futuristic material.

**Courses:** BN31

**Prerequisites:** ADB104 **Corequisites:** ADB125  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB106 INTERIOR DESIGN 6**

The content covered in this unit includes major aspects covered in the course to date and content identified by the student as significant in their response to the project.

**Prerequisites:** ADB105 **Corequisites:** ADB126  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB122 INTERIOR TECHNOLOGY 1**

This unit includes the following topics: domestic building construction processes and materials; manufacturing processes and performance; introductory technical drawing; measurement and recording of building environments; application of recorded material; CAD as a construct and its role in practice.

**Courses:** BN31

**Prerequisites:** ADB921  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB123 INTERIOR TECHNOLOGY 2**

This unit includes the following topics: documentation; analysis and recording of small-scale commercial interiors; building regulations and their relationship to public responsibility; building materials; sustainability.

**Courses:** BN31

**Prerequisites:** ADB122  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB124 INTERIOR TECHNOLOGY 3**

This unit includes the following: documentation techniques; sustainable design and construction; services; consultants, codes and standards.

**Courses:** BN31

**Prerequisites:** ADB123

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB125 INTERIOR TECHNOLOGY 4**

This unit includes the following topics: theoretical analysis of interior construction and materials; analysis of partition and furniture systems; comparative analysis of building types; CAD documentation; basic estimating and quoting; introductory specification writing.

**Courses:** BN31

**Prerequisites:** ADB124  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB126 INTERIOR TECHNOLOGY 5**

This unit includes the following topics: documentation; critical investigation of interior construction processes; environmental system analysis; the interface with consultants, builders and contractors; leasing and other tenancy occupation issues.

**Courses:** BN31

**Prerequisites:** ADB125  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB132 DESIGN IN SOCIETY 1**

Issues of the international design community are explored in this unit. The historical framework is reassessed in relation to changing technology, communication, transport systems and the advent of shifts in space and time such as virtual reality. The merging of cultures and understandings of design are critiqued in the light of their potential to influence the contemporary and future designer. Specific attention is given to interior design. Other aspects involved include belief systems and their influence on design and design practice (eg economic rationalism, capitalism, modernism, etc).

**Courses:** BN31

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB133 DESIGN IN SOCIETY 2**

Issues covered in this unit include the following: the current context of the contemporary Australian interior designer; theoretical perspectives and exploration of their limitations and potential; relevant legal issues, ethics and professionalism.

**Courses:** BN31

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB151 DRAWING AS COMMUNICATION**

This unit addresses the theoretical aspects of communication generally and in relation to drawing. It focuses on the relationship between drawing and the design processes of imagining, representing and testing and it introduces students to various drawing techniques and media.

**Courses:** BN31

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► ADB152 LIGHT AND COLOUR STUDIES**

This unit includes studies of the interdependence of light and colour, the physical properties of colour, the psychological and cultural dimensions of colour, and colour and its relationship with expression and aesthetics.

**Courses:** BN31

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► ADB153 MATERIAL STUDIES**

This unit addresses the following topics: textile manufacture and application; interior decorative finishes; building codes and standards relevant to material quality and performance; documentation and specification of finishes and fittings; the relationship between design technology and material selection; the role of contextual frameworks on designers' decisions in regard to materials.

**Courses:** BN31

**Credit points:** 3 per week **Sem:** 2

**► ADB154 FURNITURE STUDIES**

This unit addresses the following topics: a focus on visual cues, psychological responses and other interaction factors through an historical analysis of the role of furniture design; furniture and contemporary and future trends; furniture design and documentation approaches.

**Courses:** BN31

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB201 INTRODUCTORY INDUSTRIAL DESIGN 1**

This unit addresses the following topics: basic design elements and principles; three-dimensional visualisation of objects; design concept development; drawing as a design and communication tool, with an emphasis on marker rendering techniques and sketching techniques; design presentation; engineering drawing basics.

**Courses:** BN31 **Prerequisites:** ADB241  
**Contact hours:** 7 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB202 INTRODUCTORY INDUSTRIAL DESIGN 2**

Introduction to basic industrial design elements and principles includes a study of three-dimensional visualisation and industrial design, concept development of simple products, product aesthetics, and drawing as a design tool and communication tool. It emphasises perspective sketching techniques and engineering drawing basics.

**Courses:** BN31 **Prerequisites:** ADB201  
**Contact hours:** 7 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB203 INDUSTRIAL DESIGN 1**

The studio exercises to which most of the time is devoted in this unit are aimed at a range of different product designs. The following theoretical topics are associated with them: scope of problem solving theory; special characteristics of design problems; design and application transfer; design heuristic; creativity and innovation and general psychological theories of creativity; visual thinking and the design process; design ethics and culture, and designer's responsibilities toward the environment.

**Courses:** BN31 **Prerequisites:** ADB202  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB204 INDUSTRIAL DESIGN 2**

The studio exercises to which most of the time is devoted in this unit aim at a range of different product designs. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; design ethics and culture; designer's responsibilities toward the environment. The complexity and depth of the design project will increase according to the semester level.

**Courses:** BN31 **Prerequisites:** ADB203 **Corequisites:** ADB224  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB205 INDUSTRIAL DESIGN 3**

The studio exercises to which most of the time is devoted in this unit aim toward design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; working with an industry client; interdisciplinary teamwork; design ethics and culture; the designer's responsibilities toward the environment.

**Courses:** BN31 **Prerequisites:** ADB204  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB206 INDUSTRIAL DESIGN 4**

The studio exercises aim toward design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; work with an industry client; interdisciplinary teamwork; design ethics and culture; designer's responsibilities toward the environment.

**Courses:** BN31 **Prerequisites:** ADB205  
**Corequisites:** ADB226, ADB236  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB212 ERGONOMICS FOR INDUSTRIAL DESIGNERS**

The principles of ergonomics and human factors as applied to industrial design, hand tool design, environmental factors, human-information processing, ergonomic methods, display and control design, interface design, and designing for safety and product usability are presented in this unit.

**Courses:** BN31 **Prerequisites:** ADB911  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB224 INDUSTRIAL DESIGN HISTORY THEORY AND CRITICISM 1**

This unit addresses the following topics: pre-historical artefacts and their evolutions; innovations in Asia; arts and crafts movements; development of mass-production and its impact on society; social and cultural changes influenced by design; design and politics; ideology of industrialisation.

**Courses:** BN31 **Corequisites:** ADB204  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB226 INDUSTRIAL DESIGN HISTORY THEORY AND CRITICISM 2**

This unit addresses the following topics: product evolution; Australian inventions; contemporary design; social and cultural changes influenced by design; design and politics; ideology of industrialisation; the meaning of products; designers' responsibilities toward the users and environment; design activity and design knowledge.

**Courses:** BN31 **Prerequisites:** ADB224 **Corequisites:** ADB206  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB232 DESIGN TECHNOLOGY AND SOCIETY**

This unit addresses the following topics: introduction to applied technologies and how they relate to industrial design and society in general; renewable and non-renewable resources; social change and life styles; use of resources and ecosystems; sustainability and its relation to industrial design; alternative technologies as related to industrial design; the relationship between social and technological change and industrial design.

**Courses:** BN31 **Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB233 MANUFACTURING TECHNOLOGY 1**

This unit addresses the following topics: application of engineering mechanisms to products or systems; analysis of the performances of mechanical, electrical, hydraulic and pneumatic mechanisms in relation to particular functions; modelling methods and techniques for determining the behaviour of a system or product; introduction to electronics; plastics manufacturing techniques; the relationships between the properties of material and the industrial processes available for their fabrication. The unit also includes an introduction to technical documentation and communication.

**Courses:** BN31 **Prerequisites:** ADB921  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB234 MANUFACTURING TECHNOLOGY 2**

This unit addresses the following topics: electronics, plastic, production techniques in relation to different materials; various methods for different finishing operations; various methods for forming; automatic and semi-automatic assembly quality control methods; production cost. Field studies consist of site visits to selected manufacturing industries, technical documentation and communication.

**Courses:** BN31 **Prerequisites:** ADB233  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB235 MANUFACTURING TECHNOLOGY 3**

This unit addresses the following topics: product analysis; product development strategies; industrial production economics; organisation, planning and technologies required for advanced

manufacturing and its impact to product design solutions.

**Courses:** BN31 **Prerequisites:** ADB234  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB236 MANUFACTURING TECHNOLOGY 4**

This unit addresses value analysis, technical documentation and communication. Field studies complement the lecture series.

**Courses:** BN31 **Prerequisites:** ADB235 **Corequisites:** ADB206  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB241 INDUSTRIAL DESIGN APPLICATIONS**

This unit introduces the students to the application of basic industrial design skills and knowledge, industrial design case studies, and field studies.

**Courses:** BN31 **Corequisites:** ADB201  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB244 COMPUTER AIDED INDUSTRIAL DESIGN 1**

This unit includes the following topics: an overview of the development of the use of Computer Aided Industrial Design by industrial designers in the design process; an application of CAID to 3D solid modelling concepts; 3D spatial relationships; design documentation; 3D model to 2D engineering drawings; development of skills in the use of Computer Aided Industrial Design (CAID) for evaluating; documenting and presenting design proposals through computer rendered and animated images.

**Courses:** BN31 **Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB245 COMPUTER AIDED INDUSTRIAL DESIGN 2**

This unit addresses the following topics: introduction to 3D surface modelling concepts for complex form development and documentation; introduction to NURBS based surface modelling; case studies on CAID as applied to industrial design; application of complex 3D Surface modelling techniques, as applied to design form evaluations and form refinement using rapid prototyping; further development of shading techniques; advanced animation; design documentation.

**Courses:** BN31 **Prerequisites:** ADB244  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB795 PRACTICE EXPERIENCE A**

This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects.

**Courses:** AR48 **Credit points:** 36 **Sem:** 2

► **ADB796 PRACTICE EXPERIENCE B**

Under the practice experience partnership with the architectural profession, the advanced student will progressively become an understudy of the architect and be exposed to all aspects of the profession.

**Courses:** AR48 **Credit points:** 60 **Sem:** 1, 2

► **ADB911 HUMAN ENVIRONMENT 1**

This unit addresses contemporary environmental issues: global warming; population explosion; pollution; energy conservation; sustainability; anthropometrics and statistics; basic ergonomic principles; requirements of special needs groups.

**Courses:** BN31, AR48 **Corequisites:** ADB101, ADB921  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB912 HUMAN ENVIRONMENT 2**

The unit focuses on the following: psychosocial issues and privacy, perception, personal space, territoriality, cognition, way finding, and cultural diversity.

**Courses:** BN31 **Prerequisites:** ADB911  
**Corequisites:** ADB013 (Arch), ADB123 (Int-Des)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB913 HUMAN ENVIRONMENT 3**

This unit addresses the following topics: theories of cultural development and social change; consideration of the role of designed artefacts in those processes; political and social theories pertaining to design and development of the built environment; contemporary theories of post-industrialism, post-colonialism and multiculturalism; implications for design for the built environment; the roles and responsibilities of design professionals, historically and in contemporary society.

**Courses:** BN31, AR48 **Prerequisites:** ADB912  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB921 TECHNOLOGY AND SCIENCE FOUNDATION**

This unit addresses the following topics: introduction to physical principles relevant to the built environment design disciplines, including mechanics, statics, electricity, fluids, light and colour, heat and sound; basic chemical properties of materials; mathematics as related to the design disciplines; discipline applications.

**Courses:** BN31, AR48  
**Corequisites:** ADB911, ADB101  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB931 INTRODUCTION TO HISTORY, THEORY AND CRITICISM**

This unit is a survey course of principal developments in the history and theory of design and the built environment from the earliest civilisation to the closing of the 19th century. Lectures will examine key buildings, ideas and artefacts and the aesthetic, technological, environmental, socio-cultural and political factors that related to their production. Examples are drawn from European and non-European (notably Asian) contexts.

**Courses:** BN31, AR48  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADB932 PROFESSIONAL STUDIES 2**

This unit offers a self-paced national course (BPA 1) prepared by the RAIA as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIA certification.

**Courses:** AR48  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADB941 ELECTIVE 1**

The student will choose elective units to extend and expand an area of knowledge or experience to develop in depth a particular professional expertise. These units may be drawn from an existing range of units available within the School. The electives are to be approved by the Course Coordinator.

**Courses:** BN31  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADB942 ELECTIVE 2**

The student will choose elective units to extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. These units may be drawn from an existing range of units available within the School, Faculty or University. The electives are to be approved by the Course Coordinator.

**Courses:** BN31  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADB943 ELECTIVE 3**

Elective units chosen will extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. Units may be drawn from an existing range of units available within the University and must be approved by the Course Coordinator.

**Courses:** BN31, AR48  
**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

► **ADB944 ELECTIVE 4**

Elective units chosen will extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. Units may be drawn from an existing range of units available within the University and must be approved by the Course Coordinator.

**Courses:** BN31, AR48  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP107 INTERIOR DESIGN 7**

This unit provides students with the opportunity to pursue a topic of personal and professional relevance. The topic will form the focus of a major design/research project incorporating this unit and ADB108. The unit covers topic identification, qualification and substantiation, context exploration, and consolidation.

**Courses:** AR62  
**Prerequisites:** ADB106 **Corequisites:** ADP161  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADP108 INTERIOR DESIGN 8**

This unit provides students with the opportunity to develop an in-depth understanding of an area of interior design of personal and professional relevance in consultation with staff. The unit covers project development and the exploration of associated issues.

**Courses:** AR62  
**Prerequisites:** ADB107 **Corequisites:** ADP162  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP114 PROFESSIONAL STUDIES 1**

This unit addresses the following topics: the interior design profession, its organisation and theoretical and practical relationship with other professions and disciplines; professionalism incorporating ethics, industry product safety standards and continuing education; specific responsibilities involving brief development; post-occupancy evaluation.

**Courses:** AR62  
**Prerequisites:** ADB913, ADP106  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP155 INTERIOR AS A CONSTRUCT 1**

Designers require a deep conceptual understanding of the relationship between artefact and culture and they need a vehicle for supporting this development. The focus in this unit is on the conservation of historic interiors and includes historic interior exemplars, social and cultural identity, conservation, preservation and restoration, and relevant charters and policies.

**Courses:** AR62  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADP156 INTERIOR AS A CONSTRUCT 2**

In this unit, stage design will be used as a frame-of-reference for exploring various aspects of person-environment interaction such as play and imagining. In addition, the unit provides a basis for exploring notions of temporary, transitory space and virtual reality.

**Courses:** AR62 **Prerequisites:** ADP155  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADP161 INTERIOR RESEARCH 1**

This unit provides methodological support for the major project in ADP107. It includes the following: empirical research with an emphasis on qualitative research relevant to person-environment interaction; research rigour incorporating attention to validity, reliability and generalisation; advanced information retrieval; literature search and review.

**Courses:** AR62 **Prerequisites:** ADB106 or equivalent  
**Corequisites:** ADP107  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADP162 INTERIOR RESEARCH 2**

This unit provides methodological support for the major project in ADP108. The ability to undertake empirical research is considered an integral

aspect of responsible designing. The unit content covers data collection, analysis and reporting.

**Courses:** AR62

**Prerequisites:** ADB107 or equivalent

**Corequisites:** ADP108

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP207 INDUSTRIAL DESIGN 5**

The studio exercises to which most of the time is devoted in this unit aim to the design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: design process and creative thinking; applied research, creativity and product innovation; work with a client; multidisciplinary teamwork; product integration and development; design ethics and culture; the designer's responsibilities toward the environment.

**Courses:** AR61  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADP217 PROFESSIONAL PRACTICE AND MANAGEMENT**

This unit addresses the following topics: the role of professional practice management; management of design projects; types of contracts; design documentation; the role of design administration; liability; design law; intellectual property; designer-client relationships.

**Courses:** AR61  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADP218 ADVANCED ERGONOMICS**

This unit addresses the basics of cognitive ergonomics, product useability evaluation methods and their applications, and case studies.

**Courses:** AR61  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **ADP247 ADVANCED COMPUTER AIDED INDUSTRIAL DESIGN**

This unit introduces parametric based modelling, hybrid based modelling, application of rapid prototyping and rapid tooling to the design process, and the application of concurrent engineering to the design process.

**Courses:** AR61  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **ADP267 INDUSTRIAL DESIGN RESEARCH 1**

The unit allows applied research to be selected by a student, approved and supervised by the industrial design staff. External specialists may be involved as required.

**Courses:** AR61  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP268 INDUSTRIAL DESIGN RESEARCH 2A**

This unit depends on the topic selected by a student in the previous semester. Students are responsible for the program as a part of their project work, which will be approved and supervised by the industrial design staff.

**Courses:** AR61  
**Prerequisites:** ADP207, ADP267  
**Corequisites:** ADP269  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP269 INDUSTRIAL DESIGN RESEARCH 2B**

This unit depends on the topic selected by a student in the previous semester. Students are responsible for the program as a part of their project work, which will be approved and supervised by the industrial design staff.

**Courses:** AR61  
**Prerequisites:** ADP207, ADP267  
**Corequisites:** ADP268  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **ADP932 PROFESSIONAL STUDIES 2**

This unit offers a self-paced national course (BPA 1) prepared by the RAIA as a basis for the formal examination for registration as an Architect. It covers the context of profession, profes-

sional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIAC certification.

**Courses:** AR62 **Prerequisites:** ADP114  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ADP943 ELECTIVE 3

The student chooses elective units to extend and expand an area of knowledge or experience to develop in depth a particular professional expertise. These units may be drawn from an existing range of units available within the Faculty and University. The electives are to be approved by the Course Coordinator.

**Courses:** AR61  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► AMB200 CONSUMER BEHAVIOUR

This unit provides students with the fundamental theories and models to develop a sound understanding of consumers, their needs and behaviours. It provides a detailed examination of the consumer decision process and the internal and external influences on this core decision process. The unit also assists students in applying this knowledge to the development, implementation and evaluation of marketing activities within an organisation.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB126 or BSB116 or BSB117  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB204  
**Campus:** GP **Sem:** 1, 2

#### ► AMB201 MARKETING AND AUDIENCE RESEARCH

This unit provides an introduction to the conduct and evaluation of marketing and audience research across the disciplines of advertising, marketing and public relations. Class members explore how field studies, survey, and experimental research are employed to support advertising, marketing and public relations information needs. The unit provides an overview of the research process, research design, methods of data collection and analysis, and the development of research proposals to support decision-making. Class members also explore issues related to research on media audiences, research ethics, and the management of client briefings.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB126 or BSB116 or BSB117  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB305, MGB220 or COB334  
**Campus:** GP **Sem:** 1, 2

#### ► AMB202 INTEGRATED MARKETING COMMUNICATION

In past decades many organisations separated the different forms of marketing communication that convey their corporate and marketing messages. They developed separate plans for their advertising, public relations, direct marketing, personal selling and sales promotion with separate goals, objectives, strategies and budgets. Today, many companies recognise the concept of integrated marketing communication which integrates these different functions along with other aspects of the marketing mix that communicate with stakeholders and customers. Integrated marketing communication requires a 'total' approach to planning marketing communication programs and coordinating communication strategies in support of overall brand and product/service marketing objectives.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB126 or BSB116 or BSB117  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB207, MIB309  
**Campus:** GP **Sem:** 1, 2

#### ► AMB203 INDEPENDENT STUDY

This provides an opportunity for advanced level undergraduate students to undertake individual research in an area which is complementary to their course work.

**Courses:** BS56

**Prerequisites:** Prior approval from the Head of School

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB206  
**Campus:** GP **Sem:** 2

#### ► AMB220 ADVERTISING THEORY AND PRACTICE

This unit serves as an introduction to later units in the advertising major and gives learners an overview of the advertising industry and the management of the advertising function. The unit traverses the interrelationship of the institutions of advertising, the advertisers, the advertising agencies and the media. It introduces research and details methods of determining advertising objectives and budgets, establishing target audiences and interpreting audience ratings and circulation figures. It enables learners to gain a preliminary understanding of the creative functions of the advertising industry. It also shows the ethical and legal side of advertising and its important role in society and the economy.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB126 or BSB116 or BSB117 or 48 credit points of approved prior study for non-Bachelor of Business students only  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB308  
**Campus:** GP **Sem:** 1, 2

#### ► AMB221 ADVERTISING COPYWRITING

There are two parts to any copywriting process: the thinking and the writing. In the first part, students learn to solve advertising problems through an understanding of the prospect and the product and the formulation of incisive creative strategy. In the second part, creative thinking techniques are applied and advertising concepts emerge from the creative strategy. Students' thinking and writing skills are refined in weekly workshops that culminate in a group project.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** AMB220 or COB308  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB304  
**Campus:** GP **Sem:** 1, 2

#### ► AMB222 MEDIA PLANNING

This unit introduces the qualitative and quantitative factors affecting media selection and use by advertisers. It covers the costing and scheduling of media, market targeting, measuring media exposure, media comparisons and trends. In-depth analysis of advertising media will allow learners to develop an understanding of the characteristics of each. The application of the concepts of media decision making, media strategy and research to the development of a media plan are emphasised.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** AMB220  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB317  
**Campus:** GP **Sem:** 1, 2

#### ► AMB230 INTERNET PROMOTION

This subject addresses an important area of business activity and explores the way in which the Internet is changing marketing practice. The foundations of promotion are examined and applied online. The nature, history, and social implications of the Internet are explored. The promotional mix is analysed with a strong focus on developing successfully integrated web sites for organisations. Learners will develop skills in strategic planning, creative strategy, design, web development as it relates to advertising and promotion, research, and campaign evaluation. Learners will gain important skills in the planning, developing and marketing of websites.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB112 and BSB117; or BSB126; or 48 credit points of approved prior study for non-Business students only  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB218  
**Campus:** GP **Sem:** 1, 2

#### ► AMB231 MARKETING COMMUNICATIONS REGULATIONS AND ETHICS

This unit uses a case study approach and starts from the fundamentals of legal compliance through trade practices and fair trading legislation, then moves to the adoption and adherence of the variety of industry based and professional codes. It examines regulatory models in sunrise industries such as broadcasting and telecommunications as well as the problems of cross-jurisdictional regulation posed by Internet based commerce. It offers students the opportunity to develop generic attributes in critical thinking, problem solving, and ethical sensitivity.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB202 or AMB220 or AMB240 or AMB260  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB307  
**Campus:** GP **Sem:** 2

#### ► AMB240 MARKETING PLANNING AND MANAGEMENT

This unit extends the student's knowledge of the fundamental marketing concepts and theories introduced in the Faculty Core unit in Marketing, by adding further breadth and depth of knowledge of marketing and developing skills in the application of this knowledge to marketing planning and management within the business environment. Emphasis is on the role of the marketing manager at the product management level in undertaking analysis, planning, implementation and control of marketing activities.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB126  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB217  
**Campus:** GP **Sem:** 1, 2

#### ► AMB241 E-MARKETING STRATEGIES

E-Business and mobile commerce technologies have emerged as defining technologies for companies in the 21st century. This unit focuses on e-marketing applications and strategies and the marketer's role in developing solutions that integrate new and old economies. Drawing on their knowledge of marketing principles, students will examine the diverse applications of technology in product and service design, product distribution/service delivery and logistics, promotional strategies, and other marketing components. The unit also explores the role of emerging electronic models and the use of e-marketing strategies to achieve global competitive advantage.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB116 or BSB126; and AMB240  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB224  
**Campus:** GP **Sem:** 1, 2

#### ► AMB250 BUSINESS TO BUSINESS MARKETING

This unit addresses the special characteristics of Business markets and Business-to-Business (B2B) marketing programs. It involves the study of organisational buyer behaviour and the special customer/client relationships that form an important part of the Business-to-Business marketing process. Business markets constitute a powerful and essential part of the world economy, being a preliminary source for retailing and manufacturing operations and the force behind major services sectors in supplying government and non-government services including health and education both domestically and internationally.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB202 or AMB240  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB220 or MIB319  
**Campus:** GP **Sem:** 1

#### ► AMB251 INNOVATION AND MARKET DEVELOPMENT

This unit covers the dynamics of product and service innovation within the marketing function of an organisation. Products are defined in the

broadest sense as both tangible and intangible and include the various categories of consumer and industrial products and services. The course covers product market analysis, the product/service development process, design, innovation, research and testing, new product financial analysis, branding and packaging, and new product commercialisation.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62

**Prerequisites:** BSB126 or BSB116

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIB227

**Campus:** GP

**Sem:** 1, 2

#### ► AMB260 PUBLIC RELATIONS THEORY AND PRACTICE

This unit introduces the student to the theory and research that serves as the foundation of the practice of public relations. The unit surveys the history of the discipline, the theories on which the discipline is based, and current models of practice. The unit focuses on understanding how to research and analyse the opinions of organisational publics in order to develop mutually beneficial relationships with those publics.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** BSB126 or BSB116 or BSB117 or 48 credit points of previous study for non-Business students only

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB325

**Campus:** GP

**Sem:** 1, 2

#### ► AMB261 MEDIA RELATIONS AND PUBLICITY

This unit reflects the strong emphasis within public relations practice of media relations. It introduces students to the theory of media effects and the role of mass media in public opinion formation and how these concepts contribute to campaign planning. It also provides students with practical instruction in the development of media tools including media releases, media kits and media plans, and the use of publicity events in campaigns. New/interactive media are also addressed.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB260

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB329

**Campus:** GP

**Sem:** 1, 2

#### ► AMB262 PUBLIC RELATIONS WRITING

This unit introduces students to a range of public relations writing needs. The students create a substantial portfolio of writing with practical emphasis across controlled and uncontrolled media. Writing for print and electronic forms is covered as well as new/interactive media. The writing process is examined from the perspective of audience needs, and emphasis is placed on the research components of the writing exercise as well as the writing/rewriting cycle.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB260

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB326

**Campus:** GP

**Sem:** 1, 2

#### ► AMB310 INTERNSHIP

This unit provides students with experience of professional practice in a suitable company where they actively work on a part-time basis. Students undertake a preferred study program within the Advertising, Marketing or Public Relations framework. Students are required to submit a number of reports reflecting the theoretical concepts acquired during the degree program, and how they might be applied in practice. Students must obtain the approval of the Major Coordinator prior to enrolling in this unit.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62

**Prerequisites:** AMB221, AMB222 or AMB241 or AMB261, AMB262

**Corequisites:** AMB320 or AMB340 or AMB360

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB320 or COB321 or MIB308

**Campus:** GP

**Sem:** 1, 2

#### ► AMB320 ADVERTISING MANAGEMENT

This unit takes the perspective of the Advertising Manager and addresses the use of research in developing, implementing, managing, and assessing a successful advertising campaign. In Advertising Management, learners use the case method of learning to examine the advertising process from its place in the marketing mix to the formulation of objectives, strategy and budget, and to the development of creative and media tactics and their ongoing evaluation. In addition, issues that impinge upon the advertising campaign management process such as legal and ethical issues, globalisation and the client-agency relationship are discussed.

**Courses:** BS56, IF05, IF09, IF27, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB221 and AMB222

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB306

**Campus:** GP

**Sem:** 1, 2

#### ► AMB321 ADVERTISING CAMPAIGNS

This capstone advertising unit draws from all the theoretical, analytical, and applied material developed throughout the advertising major, and applies it to a client brief. Learners develop advertising solutions that incorporate all aspects of an advertising campaign, including objectives, budgeting, message development, message delivery, and measurement. The key emphasis is on the use of research to develop sound advertising strategy, which is then executed as creative and media ideas and evaluated through ongoing benchmarks.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB221 and AMB222

**Corequisites:** AMB320

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB303

**Campus:** GP

**Sem:** 1, 2

#### ► AMB330 ADVERTISING STRATEGY AND PLANNING

This advanced unit builds on the theoretical perspectives and applied skills introduced to students in copywriting, media and advertising management. It explores some important issues: the contribution of research to the creation of advertising; the hierarchical development of strategy from marketing and IMC strategy through to advertising, media and creative strategy; the role of the strategic planner in advertising; the use of planning to deliver more effective advertising solutions. Using problem-based learning, students establish benchmarks to evaluate advertising, develop advertising briefs, and devise strategies for on-time and on-budget process management.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62

**Prerequisites:** AMB221 and AMB222

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB300

**Campus:** GP

#### ► AMB331 DIRECT MARKETING

The discipline of Direct Marketing has grown in importance because of its precise targeting, easy accountability, its foundations role in Integrated Marketing Communication (IMC), and its increasing share of the marketing communication budget. This unit focuses on the principles of direct marketing and the role of the database in locating prospects, tracking customers, and building relationships. It examines the components of direct marketing telemarketing, personal selling, and direct response advertising. As the main communication discipline of direct marketing, the emphasis is on direct response advertising. Students consider an analysis of the offer, planning, strategy, creative, media, testing, and evaluation of direct marketing campaigns.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB220 or AMB202 or COB308 or COB207

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** COB315

**Campus:** GP

**Sem:** 1

#### ► AMB340 SERVICES MARKETING

This unit explores the special characteristics that distinguish the marketing of services from the marketing of goods. Topics include the following: the distinctive aspects of consumer decision-making relative to services and the implications for marketing strategy formation; the management of demand and supply; customer services and its influence on service satisfaction; service quality management and measurement; internationalisation of the service sector; distribution modes for services that reflect the significant impacts of new technologies on service delivery.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB240 or MIB217

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIB311

**Campus:** GP

**Sem:** 1, 2

#### ► AMB341 STRATEGIC MARKETING

Emphasis of the capstone Marketing unit is on the role of the marketing manager at the corporate and strategic business unit/division levels. Students are exposed to a variety of strategic marketing techniques and issues, and learn how to apply these in corporate planning and management. These topics are included: developing and critiquing strategic marketing planning models; recognising the importance of market focus; determining what marketing strategy can realistically be accomplished for a business; identifying underlying factors that are considered in developing marketing strategy for a market-oriented organisation; discussing problems in successful implementation of marketing strategy; organising for successful strategy implementation.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB240 or MIB217

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIB315

**Campus:** GP

**Sem:** 1, 2

#### ► AMB350 RELATIONSHIP AND SALES MANAGEMENT

Theories related to marketing exchange and the concepts of consumer transactions and relationships and their relative importance in different marketing contexts are examined in this unit. The growth of customer relationship management including the transition of consumers along the transaction-relationship continuum and the development of accompanying marketing strategies are highlighted. A discussion of the relative emphasis on transactions and/or relationships in interfacing with the market provides a platform for examining sales management including personal selling principles and ethics, the setting of sales objectives, selling logistics, account and territory management, sales force planning, recruitment and motivation and evaluation of sales performance.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** AMB240 or AMB202 or MIB217 or COB207

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIB230

**Campus:** GP

**Sem:** 1

#### ► AMB351 TOURISM MARKETING

This unit examines the tourism system and the unique characteristics of tourists, segmentation bases for tourist markets, the nature of the tourist destination mix, and how marketing is applied within elements of that mix. Services marketing concepts and theories of tourist behaviour are utilised in the analysis of the tourism experience, the processes of destination and product development to meet market needs, and strategy development to accommodate domestic and international tourism marketing environments. Macro-environmental issues impacting on tourism, such as sustainability of the industry and environment, the socio-political context in which marketing occurs, and global trends in travel are also explored for their marketing implications.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB240  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB321  
**Campus:** GP **Sem:** 2

### ► AMB352 MARKETING DECISION MAKING

The nature of decisions and decision models in specific strategic and tactical areas of marketing management are examined in this unit. Decisions related to sales forecasting, market analysis, product planning, pricing, promotion and distribution are viewed from quantitative and qualitative perspectives. Students are exposed to computer software and analysis skills that aid the marketing decision process and build their analytical skills of direct relevance in marketing practice. The unit also embraces the analysis and application of marketing information systems including database marketing and the Internet as a marketing information resource.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB240 or MIB217  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB320, MIB216  
**Campus:** GP **Sem:** 2

### ► AMB353 RETAIL MARKETING

This unit focuses on the dynamics of the retailing industry. It provides students with detailed knowledge of the various approaches to how retail marketing is conducted nationally and internationally from both an operational and a strategic perspective. The unit provides a balance of theory and application in topics such as retail institutions and the retail life cycle, store location analysis, store layout, planning and design, merchandising, promotion and stock planning, franchising and industry trends.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB240 or MIB217  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB229, MIB310  
**Campus:** GP **Sem:** 2

### ► AMB354 EVENTS MARKETING

Events have become significant strategic marketing tools for positioning products/services, industries, destinations and community interests at the local, national and global levels. The unit initially explores various types, roles and objectives of events, and the profile and motives of event markets and stakeholders. These key topics are included: processes of attracting or developing the event experience including bidding processes; partnership creation with sponsors, media and community; venue selection and design relative to market/stakeholder needs; ticketing/pricing or access management; imaging the event from an integrated marketing communication perspective. Local and international cases are used.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** AMB202 or AMB240 or COB207 or MIB217  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB319  
**Campus:** GP **Sem:** 1

### ► AMB360 CORPORATE COMMUNICATION MANAGEMENT

The unit explores the corporate communication management function within an organisation and identifies how decisions about the use of various corporate communication solutions are made. Emphasis is placed in this unit on the role of corporate communication in management systems, the nature and processes of information management in corporate communication, and environmental analysis. The unit also draws on contemporary issues in corporate communication management including issues management, ethical and legal considerations in practice and the role of corporate communication in organisational change.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** AMB261 and AMB262  
**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► AMB361 PUBLIC RELATIONS CAMPAIGNS

This unit focuses on the public relations campaign planning process from problem identification and research through to strategy development, campaign development and evaluation. It is designed to meet the students' interests in understanding how various campaign elements come together and to test their ability to integrate their prior learning in the introductory theory and practice units. To service the practice elements of public relations implementation, the unit incorporates a number of client service aspects. Students are expected to research, develop and present their plans. This unit incorporates real world clients to enhance the students' portfolios.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** AMB201, AMB261, AMB262  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** COB323, AMB381  
**Campus:** GP **Sem:** 1, 2

### ► AMB370 PUBLIC RELATIONS CASES

This unit provides students with an understanding of a wide range of public relations challenges in order to build a better range of experience with management level organisational issues. Australian and international cases are used to explore different components of public relations practice.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB261 or AMB262  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► AMB371 CORPORATE COMMUNICATION STRATEGIES

This unit provides students with an understanding of the development and analysis of communication strategy in public relations and corporate communication. Students learn theory and practice for systematic analysis of the 'fit' between environmental factors and organisational resources, the resulting communication problems, and the development of communication strategies. Students integrate theory and research in such areas as media effects, organisational change, diffusion, and persuasion for analysis and development of communication strategy.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** AMB360 or AMB361  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► AMB201 MARKET AND AUDIENCE RESEARCH

This unit provides an introduction to the conduct and evaluation of marketing and audience research. Students explore how field studies, survey, and experimental research are employed in strategic planning and evaluation to support advertising, marketing and public relation information needs. The unit provides a thorough grounding in research process, research design, and the development and presentation of research proposals. The unit explores, in detail, methods of gathering and analysing data. Students also explore issues related to research ethics and the management of client briefings.

**Courses:** IF06  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** AMB201 **Campus:** KG

### ► AMN400 CONSUMER BEHAVIOUR

This unit provides an introduction to the area of consumer behaviour and a forum for discussion of theory and research in the field. The current state of consumer behaviour research is reviewed and some of the emerging trends in the area are explored through several avenues of assessment. The unit provides the environment for students to conduct their own research in areas that are relevant and of interest to them, and that reflect the interdisciplinary nature of consumer behaviour.

**Courses:** BS39, BS63, BS93, GS40, GS75, GS85, IF94, IF96  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN419  
**Campus:** GP **Sem:** 1, 2

### ► AMN401 INTEGRATED MARKETING COMMUNICATION

Integrated marketing communication (IMC) is a new discipline that seeks synergistic effect from integrating traditional marketing communication disciplines. This unit explores the development of IMC, looking at reasons for growth, barriers to implementation, and organisation issues. Students are introduced to the strategic foundations of IMC, from consumer behaviour, to marketing strategy, and IMC campaign evaluation. The disciplines of advertising, public relations, direct response and sales promotion are then explored to highlight how each contributes to IMC planning.

**Courses:** BS39, BS63, BS93, GS40, GS75, GS85, IF96  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CON421  
**Campus:** GP **Sem:** 1, 2

### ► AMN403 MARKETING AND SURVEY RESEARCH

This unit provides a detailed overview of marketing research to support decision making in the areas of advertising, integrated marketing communication, marketing, and public relations. The unit builds an advanced understanding of the use of survey research to support the descriptive and predictive information needs of management in such areas as consumer opinions and behaviour, and stakeholder analyses. Students will explore issues related to survey research design, questionnaire development and administration, sampling, measurement, data analysis including descriptive and multivariate statistics, and presentation of research results.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97, IF96  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN413  
**Campus:** GP **Sem:** 1, 2

### ► AMN404 READINGS IN INTEGRATED MARKETING COMMUNICATION

The unit provides participants with the opportunity to make a detailed exploration of the literature on a particular topic or problem in the area of Integrated Marketing Communication under the direction of a supervisor. The readings integrate and consolidate theory and research related to IMC and from other studies undertaken in the course. Students undertake a formal and systematic review of literature in a particular problem area of IMC related to their interests, project or thesis. Students may also explore work covered in other specialisations.

**Courses:** BS39, BS93, IF94, IF96  
**Credit points:** 12 **Incompatible with:** CON416  
**Campus:** GP **Sem:** 1, 2

### ► AMN405 CASES IN INTEGRATED MARKETING COMMUNICATION

This unit provides students with the opportunity to explore a range of topics related to the integration of the elements of the promotional mix: advertising, personal selling, reseller support, publicity, direct marketing, and sales promotion. Through the use of intensive case study analysis and discussion, students refine conceptual understanding and analytical skills to explore such IMC topics as brand equity and IMC, IMC approaches to promotions management, organisational issues related to structuring corporate IMC functions, environmental analysis and database marketing to inform IMC planning, and IMC strategies and the development of corporate advantage.

**Courses:** BS39, BS63, BS93  
**Prerequisites:** AMN401  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► AMN406 PROJECT

In this unit, students examine in detail a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based in the published journal literature of the discipline and can involve primary research and analysis. Students can develop a communication audit of an organisation or a case study related to an organisation product or issue. Project supervi-

sion will be arranged by the Unit Coordinator through consultation with the student and available staff members.

**Courses:** BS93, IF96

**Prerequisites:** 96 credit points of approved prior studies

**Contact hours:** 2-6 per week **Credit points:** 24

**Incompatible with:** CON405

**Campus:** GP

**Sem:** 1, 2

#### ► AMN411 INDEPENDENT STUDY

This provides an opportunity for advanced level postgraduate students to undertake short-term, individual studies focusing on a problem area of advertising, marketing, public relations or integrated marketing communication.

**Courses:** BS39, BS93, IF96 **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► AMN420 ADVERTISING MANAGEMENT

This unit empowers students to make effective management decisions within the advertising process. It examines the setting of advertising objectives, and the need for coordination of these with marketing, communication and organisational objectives. It develops a sound understanding of advertising regulations and ethics, budgeting, research, and campaign coordination. It further examines management's participation in the creative, media and production processes, and the contribution of advertising management to the cohesion and creativity of the agency.

**Courses:** BS39, BS93, GS40, GS75, GS85, IF94, IF96

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON417

**Campus:** GP

**Sem:** 1, 2

#### ► AMN421 CONTEMPORARY ISSUES IN ADVERTISING

This unit surveys the intellectual foundations of a number of contemporary issues emerging within the advertising discipline and provides sophisticated, systematic explanations of their societal implications and consequences. It also explores how these issues are addressed by business, government and organisation.

**Courses:** BS93, GS40, GS75, GS85, IF94, IF96

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON412

**Campus:** GP

**Sem:** 1, 2

#### ► AMN422 MEDIA STRATEGY

One of the ultimate determinants of the effectiveness of any advertising campaign is the media strategy. This unit examines ways to improve efficiency in media planning, buying, coordination and research. It examines concepts of media decision making, market targeting through the creative use of media, and strategic planning. It explores current media campaigns and encourages the development of a more creative and integrated approach to media.

**Courses:** BS39, BS93, IF96

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON418

**Campus:** GP

**Sem:** 1

#### ► AMN423 STRATEGIES FOR CREATIVE ADVERTISING

This unit explores the substantive body of academic research on creative advertising. It follows the creative process, beginning with the development of creative strategy and concluding with campaign evaluation. Through cases and presentations, students examine how copywriters think and the illumination of the 'big idea' and its execution across the very diverse advertising media.

**Courses:** BS39, BS93, GS40, GS75, GS85, IF96

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON419

**Campus:** GP

**Sem:** 2

#### ► AMN442 MARKETING MANAGEMENT

This includes the study of marketing, marketing systems and marketing management, and marketing planning within the contemporary structure of the social, cultural, political, economic, business and organisational environment. Concepts are applied through the study and construction of a marketing plan, which involves market and sales analysis, target market strategies, tactical deci-

sion planning, and implementation and control. Marketing management concepts are applied to virtual and physical markets and attention is given to a range of skills in finance, human resources, and information and other skills needed by marketing managers in these markets.

**Courses:** BS39, BS63, BS93, IF96

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIN422

**Campus:** GP

**Sem:** 1, 2

#### ► AMN443 PRODUCT AND SERVICE INNOVATION

This unit examines the dynamics of innovation and development within the mix of core marketing activities of organisations. Once the integral role innovation plays in organisations is established, the unit also reviews the key stages in the process of creating, developing and implementing new product and service concepts including product, service and market analysis, design, innovation, evaluation and testing of ideas, branding and packaging, market testing and investment analysis.

**Courses:** BS39, BS63, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIN423

**Campus:** GP

**Sem:** 1

#### ► AMN444 SERVICES MARKETING

This unit introduces a framework for studying services and explores both strategic and operational issues: the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused marketing programs in service industries; the establishment and maintenance of relationships with customers.

**Courses:** BS39, BS63, BS93, GS40, GS75, GS85

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIN424

**Campus:** GP

**Sem:** 1

#### ► AMN445 STRATEGIC MARKETING MANAGEMENT

This is a capstone unit which aims to ensure students can manage the complete marketing function at a senior level within a corporation. It includes assessing the marketing function's performance with appropriate tools to diagnose, assess, track and evaluate performance and to modify processes to improve the function. Links between the marketing function and other functions of a business such as accounting, operations and human resources are drawn, so that the student would be in a position to move into top management if the opportunity arose.

**Courses:** BS39, BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIN425

**Campus:** GP

**Sem:** 1, 2

#### ► AMN447 CONTEMPORARY ISSUES IN MARKETING

This unit offers advanced study of topical issues and emerging trends in marketing practice as a result of new technologies, current events and their impact on local, national and international enterprises. In depth interaction with business and public policy leaders expands students' research, reflection and strategic thinking abilities.

**Courses:** BS39, BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIN407

**Campus:** GP

**Sem:** 2

#### ► AMN448 MARKETING FOR ONLINE SERVICES

Online technologies open up a new marketplace and communication medium for ideas, information, entertainment and commerce. With a changing marketplace, organisations and the people they employ need to acquire skills to develop and work with new types of interactive products and services. This change requires the understanding of the opportunities to approach markets locally, regionally and globally and to develop new markets previously unreachable. It entails a re-think of the existing paradigm for the marketing of goods and services and a development of a process for analysing the changing marketplace.

**Courses:** BS39, BS93

**Incompatible with:** MIN438, GSN447, GSN448

**Campus:** GP

#### ► AMN460 CORPORATE AND INVESTOR RELATIONS

This unit reviews all aspects of the public relations function in communicating with corporate audiences. Specific focus is placed on how corporate entities meet both regulatory and promotional requirements in communicating with special interest groups including shareholders and employees. Suitable communication tools are examined for use in ongoing communication programs.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON409

**Campus:** GP

**Sem:** 2

#### ► AMN461 CORPORATE MEDIA STRATEGY AND TACTICS

This unit examines theories underpinning mass media and links these with the practice of public relations media tactics. Students analyse techniques and skills used in liaison with electronic media, print media, trade media and news media. Producing and evaluating communication materials such as news releases, features and media kits form an important part of this unit. Students develop strategic thinking through analysis of contemporary media case studies.

**Courses:** BS39, BS93, GS40, GS75, GS85

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON424

**Campus:** GP

**Sem:** 1, 2

#### ► AMN463 PUBLIC OPINION AND PUBLIC RELATIONS

This unit provides a detailed overview of the theoretical foundations and empirical research on public opinion and the implications of that theory and research to public relations management. The unit includes detailed examination of the role of mass media in the development and change of public opinion and problems related to the measurement and interpretation of public opinion. It builds an advanced understanding of the use of survey research to support the descriptive, diagnostic, and predictive information needs of management related to public opinion. The unit considers the role of public relations in efforts to shape and manage public opinion.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► AMN465 PUBLIC RELATIONS MANAGEMENT

This unit provides learners with an overview of the theory and research that constitute the foundations of public relation practice. The unit provides a detailed inspection of communication processes necessary for the management of organisational relationships with publics. The unit focuses on such topics as issues management, organisational change, public opinion, and mass media effects, in order to explore the foundations of contemporary public relations management.

**Courses:** BS39, BS93, GS40, GS75, GS85

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON415

**Campus:** GP

**Sem:** 1, 2

#### ► AMN467 PUBLIC RELATIONS CAMPAIGNS

This unit provides a systematic exploration of the planning, management and evaluation of public relations campaigns and programs. The primary goal of the unit is to build a detailed understanding of existing theory and research that informs the development and evaluation of public relations campaigns. The unit focuses on key problem areas of campaign management including strategy, design and evaluation.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► AMN468 ISSUES AND CRISIS MANAGEMENT

This unit examines the strategic management of crisis communication including that for organisations. A strategic planning approach is covered including organisation analysis, issues identifica-

tion, audience prioritisation, strategy formulation, tactical planning, and implementation and evaluation. Pre-crisis issues in management are addressed as well as proactive and defensive communication strategies during crisis. The unit demonstrates the application of general communication tools to a specialised area.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CON408

**Campus:** GP

**Sem:** 1

#### ► ARB081 HISTORY, THEORY AND CRITICISM OF URBAN DESIGN

This unit presents an analysis of urban forms and systems in the pre-industrial, industrial and post-industrial periods. Specific history topics include urban activities, urban culture and diversity, urban services and urban form. This unit addresses concepts of 'good theory' of urban design in relation to the work of a number of theoretical writers and schools. Specific theoretical topics include the 'kunstlerischen Grundsätzen' of Camillo Sitte, the Garden City movement, Le Corbusier and modernism, the counter-modern influences of the townscape movement, Jane Jacobs, Kevin Lynch and the Responsive Environments approaches, Christopher Alexander, Rapoport, phenomenological approaches, and recent movements such as 'the new urbanism'.

**Courses:** BN73, DB73

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ARB082 URBAN DESIGN STUDIO B

This studio covers identification and classification of approaches to urban design, the setting of objectives, urban design rationales, the adoption of a method and the testing of implications for a particular urban design problem type. This unit typically involves a theory based preparation of an urban design proposal for an urban/suburban/town area, and/or an urban design issue. Where applicable, work in other units of study is incorporated into this unit. The 24 credit points allow focus, depth and, where appropriate, joint/complementary project work with senior students in other Faculty courses. Field work is incorporated.

**Courses:** BN73, DB73

**Credit points:** 24

**Campus:** GP

**Sem:** 1

#### ► ARB083 URBAN DESIGN MASTERS STUDIO

This unit is an advanced level urban design project, supported by seminars presented by staff, students and visiting lecturers and distinguished practitioners. This studio focuses on changes in the production and consumption of the city, including the effects of globalisation, space-time compression, economic rationalism, and the privatisation of space, services and professional activities.

**Courses:** BN73, DB73

**Credit points:** 24

**Campus:** GP

#### ► ARB801 FIRE TECHNOLOGY AND SCIENCE

Topics covered in this unit include the chemistry and physics of fire: heat transfer mechanisms; combustion processes; fire behaviour of materials; fire initiation and development; fire growth and spread; flashover; management of fire; theory of fire extinguishment; detection and extinguishment systems; fire brigade involvement.

**Courses:** AR65

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ARB802 HUMAN BEHAVIOUR AND FIRE

This unit considers fire: its effects on life and property and community costs; human studies and response models; hazardous fire environments; egress calculations and models; human behaviour including occupant characteristics, behaviour during emergencies, and response times; risk management and probabilistic fire models.

**Courses:** AR65

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► ARB803 FIRE AND BUILDING LEGISLATION

This unit addresses the following topics: society's expectations for life safety and asset protec-

tion; the traditional prescriptive approach; performance principles and methodology; state legislation (administrative framework); PBCA 96 and Australian Standards (technical framework); legal issues related to PBCA process and procedural matters; integrated approval (dangerous goods, health care, etc)

**Courses:** AR65

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ARB804 FIRE SAFETY SYSTEM DESIGN

This unit addresses the following topics: mechanics of smoke and fire spread in buildings; smoke and fire management; external fire spread and heat radiation; fire load and severity; building structural fire performance (materials and structure); fire modelling; application of fire growth models to fire protection problems; fire protection; methodology for fire safety risk assessment; estimation of fire safety performance parameters; case studies.

**Courses:** AR65

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► AYB121 FINANCIAL ACCOUNTING

Financial Accounting provides an examination of the accounting concepts and procedures relevant to both partnership and corporate structures within the context of the accounting profession's conceptual framework: the relevant accounting standards and Corporations Law requirements. These topics are included: the formation, operation, financial reporting and disclosure for both Partnerships and Companies; accounting for leases; the professional role of accountants. The emphasis is on the effect of the different forms of ownership on the financial statements.

**Courses:** BS56, ED50, IF28, IF30, IF37, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** BSB110

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** AYB111

**Campus:** GP

**Sem:** 1, 2, 3

#### ► AYB220 COMPANY ACCOUNTING

This unit includes the following: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including entities); accounting for investments in associates; accounting for foreign currency transactions arising from international trading and financing; the translation of the results of foreign operations.

**Courses:** BS56, ED50, IF28, IF30, IF37, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** AYB121

**Contact hours:** 3.5 per week

**Credit points:** 12

**Incompatible with:** AYB112

**Campus:** GP

**Sem:** 1, 2, 3

#### ► AYB221 COMPUTERISED ACCOUNTING SYSTEMS

This unit provides an examination of the concepts, processes and issues relevant to computerised accounting systems and includes the following: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

**Courses:** BS56, ED50, IF28, IF30, IF37, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** BSB110, BSB122

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** AYB222, AYB101

**Campus:** GP

**Sem:** 1, 2

#### ► AYB223 LAW OF BUSINESS ASSOCIATIONS

The unit is intended to equip students with a basic understanding and knowledge relevant to the environment of legal entities, particularly corporations. It also seeks to provide students with sufficient basic understanding of the legal structure of business associations to enable them to recognise the appropriate structure for particular commercial situations.

**Courses:** BS56, ED50, IF30, IF48, IF60, IF61, IF62

**Prerequisites:** BSB111

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ALB122

**Campus:** GP

**Sem:** 1, 2

#### ► AYB225 MANAGEMENT ACCOUNTING

This unit introduces students to accounting systems and techniques that provide management at all levels with information for use in planning, controlling and decision making. This can be contrasted with financial accounting, which provides summary financial information principally for external users (ie shareholders, creditors, banks, etc). Emphasis is placed on developing a range of accounting systems (in particular product costing) which may be used in manufacturing firms, although the principles and concepts used to develop such systems can be adapted to service organisations.

**Courses:** BS56, ED50, IF28, IF30, IF37, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** BSB110

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** AYB224, FNB123

**Campus:** GP

**Sem:** 1, 2

#### ► AYB227 INTERNATIONAL ACCOUNTING

International Accounting is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. Issues examined include the following: comparative international accounting systems and practices; cultural influences on accounting; international financial reporting issues such as international business combinations, intangibles, foreign currency transactions and translation, comparative international analysis of financial statements; global accounting issues in the twenty-first century. The unit also examines the impact of international harmonization of accounting standards on multinational corporations and the investment communities worldwide.

**Courses:** BS56

**Prerequisites:** BSB110

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► AYB301 AUDITING

This unit enables students to comprehend the key concepts of auditing as a discipline, to demonstrate the relationship between auditing and the systems of accountability and to demonstrate the differences between manual and EDP audit processes. The unit builds on the knowledge of accounting and accounting standards acquired in prior units by enabling students to understand in detail the audit process (including professional auditing standards and techniques) which leads to the auditor providing an opinion on the financial reports of various types of entities.

**Courses:** BS56, ED50, IF28, IF30, IF37, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** AYB220

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** AYB210

**Campus:** GP

**Sem:** 1, 2, 3

#### ► AYB305 COMPANY LAW AND PRACTICE

This unit presents advanced topics in company law including protection of minority interests, prospectuses and fundraising, company charges, insider trading, takeovers and buy-backs, and law relating to financially troubled companies.

**Courses:** BS56, IF60, IF61

**Prerequisites:** AYB223

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ALB120

**Campus:** GP

**Sem:** 2

### ► AYB309 COMPUTER SECURITY AND AUDIT

The impact of Computer Information Systems (CIS) on controls and auditing, general controls, application controls, generalised audit software, static and concurrent computer-assisted audit techniques, and special CIS environments are addressed in this unit. A focus on the audit of the SAP R/3 system will be provided.

**Courses:** BS56 **Prerequisites:** AYB301  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYB212  
**Campus:** GP

### ► AYB310 COMPUTERISED ACCOUNTING APPLICATIONS

This unit introduces software to build various accounting applications and discusses issues related to the use of such applications. Database software is used to build parts of an accounting information system (for example, general ledger, accounts receivable ledger or accounts payable ledger). Macros are utilised in spreadsheet software to build automated accounting-related models. Issues and recent developments in accounting information systems are examined.

**Courses:** BS56 **Prerequisites:** AYB221  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYB218  
**Campus:** GP **Sem:**

### ► AYB311 FINANCIAL ACCOUNTING ISSUES

This unit introduces students to the nature of accounting theory and integrates theory with practice to assist in the understanding of major Australian and International accounting issues. The following topics are addressed: positive and normative theories of accounting; the external reporting framework including international harmonisation and the conceptual framework; definition, recognition and measurement of assets, liabilities, equity, revenues and expenses; asset revaluations; intangibles; leases and employee entitlements. Accounting in specific industries such as general insurers, construction, extractive industries and superannuation funds is also examined. This unit complies with the new international accounting standards. Contracting theory is used.

**Courses:** BS56, ED50, IF30, IF37, IF48, IF60, IF62  
**Prerequisites:** AYB220  
**Contact hours:** 3.5 per week **Credit points:** 12  
**Incompatible with:** AYB113  
**Campus:** GP **Sem:** 1, 2

### ► AYB312 FINANCIAL INSTITUTIONS LAW

This unit deals with the regulation of banks and non-bank financial institutions, the financial institutions' scheme, the banker-customer relationship, laws relating to cheques and other negotiable instruments, negligent advice by financial institutions, and other possible grounds of liability in the dealings of financial institutions with customers.

**Courses:** BS56, ED50, IF60, IF61, IF62  
**Prerequisites:** BSB111  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ALB103  
**Campus:** GP **Sem:** 1

### ► AYB313 GOVERNMENT ACCOUNTING

This unit is designed to expose students to the context and operation of accounting in the public sector. Government accounting and budgeting practice is reviewed, and a comparison is made with private sector practice. This unit examines practical aspects of public sector accounting.

**Courses:** BS56 **Prerequisites:** BSB110  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► AYB321 STRATEGIC MANAGEMENT ACCOUNTING

Strategic management accounting develops a theory of organisations that provides an understanding of the information requirements of management to facilitate the strategic planning, decision-making and control necessary for the achievement of their objectives. Topics include the following: developing effective performance-evaluation systems and compensation plans;

examining how managers can design organisations to motivate individuals to make choices that increase firm value; managing transfer-pricing disputes among divisions; developing an understanding of new management accounting practices, including activity-based costing (ABC), the balanced scorecard (BSC), and economic value added (EVA); and appreciating the research on benefits and problems with ABC, BSC and EVA.

**Courses:** BS56, ED50, IF30, IF37, IF48, IF60, IF62  
**Prerequisites:** AYB225  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** FNB124  
**Campus:** GP **Sem:** 1, 2

### ► AYB323 TAX PLANNING

The aim of this unit is to develop students' taxation planning abilities within the context of the Australian Income Tax legislation by applying their knowledge and understanding of taxation law obtained in previous taxation law subjects. The subject covers the various forms of business entities as well as individual taxpayers giving students a broad understanding of the application of the income tax legislation and other revenue laws to typical tax planning situations including employment, business structures, and restructuring. The unit also provides students with an understanding of other considerations that affect tax planning in professional practice.

**Courses:** BS56, IF60, IF61  
**Prerequisites:** AYB328 **Corequisites:** AYB328  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ALB131  
**Campus:** GP **Sem:** 2

### ► AYB325 TAXATION LAW

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levy of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Courses:** BS56, IF30, IF48, IF60, IF61, IF62  
**Prerequisites:** AYB223  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ALB132  
**Campus:** GP **Sem:** 1, 2

### ► AYB328 TAXATION OF BUSINESS ENTITIES

The aim of this unit is to develop students' knowledge and understanding of the Australian Income Tax legislation applicable to various forms of business entities as at 1 July 2004. This unit examines the principles governing the taxation treatment of various business entities from a domestic and international perspective. The taxation processes for partnerships, companies, trusts and superannuation funds will be analysed so that students are able to advise clients on the tax effectiveness of various business structures from a commercial and professional aspect. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Courses:** BS56, IF61, IF60  
**Prerequisites:** AYB325  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYB326, ALB133  
**Campus:** GP **Sem:** 1, 2

### ► AYB336 ADVANCED AUDITING

This unit addresses the following topics: the audit approach; risk-based auditing; planning an audit; verification of statements of financial performance and position; other assurance services; legal liability; ethics; independence; internal auditing. The unit also considers the impact of Computer Information Systems (CIS) on controls and auditing, general controls, application controls, generalised audit software, static and concurrent computer-assisted audit techniques, and special CIS

environments. A focus on the audit software ACL and on the SAP R/3 system is provided.

**Courses:** BS56 **Prerequisites:** AYB301  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYB309 and AYB331  
**Campus:** GP

### ► AYB337 GOODS AND SERVICES TAX

The aim of this unit is to help students understand the GST law, how it applies to business transactions and how to identify and solve GST problems. The unit introduces the general principles of the GST system applicable to business entities. It makes a comparative analysis of the different types of supplies permissible under the legislation and includes tax planning advice. Some of the more simple aspects of international taxation between Australia and its major trading partners are considered. Recent Tax Reforms applicable to business entities are included.

**Courses:** BS56, IF60, IF61  
**Prerequisites:** AYB223  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► AYN405 ADVANCED TAX PLANNING

The unit assumes that students have a reasonable grasp of Australian income tax law and practice and the various other revenue imposts that are levied on the business community. The objective of the unit is to provide the students with the necessary skills and expertise in relation to the application of the income tax legislation and other revenue laws to typical tax planning situations including employment, business structures and restructuring. Professional, ethical and legal responsibilities attaching to tax advisors are also addressed throughout the semester when addressing the implications of tax avoidance, tax evasion and tax fraud.

**Courses:** BS93  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ALN101 **Campus:** GP

### ► AYN410 BUSINESS LAW AND ETHICS

This unit provides an introduction to business law and to morality in the business context. It includes the following: the legal framework for business interpretation of statutes; law of torts; contract law and agency; morality and how it works as an aspect of the business community; the origins of moral belief, and the motives which lead people to abide by what they believe to be morally right and to persuade others to do likewise with special emphasis on business aspects of morality.

**Courses:** BS93  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ALN103  
**Campus:** GP **Sem:** 1, 2

### ► AYN411 COMPANY AUDITING

Audit topics include the following: the audit environment; the legal liability of auditors; professional ethics; the study and evaluation of audit planning and programming, evidence, internal control theory and review techniques; audit program applications; revenue, receivables, cash; inventory; audit in CIS environment and evaluation of CIS controls; computer-assisted audit techniques; computer fraud; audit sampling techniques; audit reporting.

**Courses:** BS93  
**Prerequisites:** AYN417  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYN120  
**Campus:** GP **Sem:** 1, 2

### ► AYN412 COMPANY LAW

This unit introduces the law relating to the establishment, operation and dissolution of business associations, the forms of business associations, partnerships, trusts, companies and voluntary associations. It focuses on companies: incorporation requirements, classification, corporate governance, share capital and management issues.

**Courses:** BS93 **Prerequisites:** AYN410  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► AYN413 INFORMATION SYSTEMS GOVERNANCE AND AUDIT

The impact of Computer Information Systems (CIS) on controls and auditing: general controls,

application controls, generalised audit software, static and concurrent computer-assisted audit techniques, and special CIS environments are addressed in this unit. A focus on the audit of the SAP R/3 system is provided.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN109

**Campus:** GP

#### ► AYN414 COST ACCOUNTING

This unit provides an introduction to management accounting and covers cost concepts, job and process costing systems budgeting, direct and absorption costing, and cost volume profit analysis.

**Courses:** BS93, GS40, GS48, GS50, GS75,

GS76, GS85, GS86

**Prerequisites:** AYN416

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

#### ► AYN416 FINANCIAL ACCOUNTING 1

This unit provides an introduction to accounting: recording business transactions; adjusting the accounts and preparing financial statements; completing the accounting cycle, accounting systems and specialised journals; accounting for receivables and payables; accounting for merchandising operations and inventories; non-current assets; liabilities; partnerships; companies; and statement of cash flows. All include the application of the GST where applicable.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN112

**Campus:** GP

#### ► AYN417 FINANCIAL ACCOUNTING 2

This unit addresses the following topics: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including business entities); accounting for investments in associates; the termination of a company's life and the accounting procedures necessitated by winding up/liquidation; accounting for foreign currency transactions arising from international trading and financing; and the translation of the results of foreign operations.

**Courses:** BS93, GS40, GS41, GS48, GS50,

GS75, GS76, GS85, GS86

**Prerequisites:** AYN416

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN113

**Campus:** GP

#### ► AYN418 FINANCIAL ACCOUNTING 3

This unit introduces students to the nature and development of accounting theory and to the application of theory to practice. The following topics are addressed: positive and normative theories of accounting; the external reporting framework including international harmonisation and the conceptual framework; definition, recognition and measurement of assets, liabilities, equity, revenues and expenses; asset revaluations; intangibles; financial instruments; leases; and employee entitlements. Accounting in specific industries such as general insurers, construction, extractive industries and superannuation funds is also examined. Contracting theory is used throughout to help explain accounting policy choices.

**Courses:** BS93, GS40, GS48, GS50, GS75,

GS76, GS85, GS86

**Prerequisites:** AYN417

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN114

**Campus:** GP

#### ► AYN419 FINANCIAL MODELLING AND BUSINESS VALUATIONS

This unit introduces students to frameworks and tools for modelling financial data to assist in planning and controlling an organisation's financial future. Financial modelling is a powerful strategy for dealing with an uncertain future affected by a range of controllable and uncontrollable factors. This unit explores how these factors

are explicitly taken into account and presents business strategies to deal with them. There is a focus on firm value, strategic performance management and activity based costing.

**Courses:** BS93

**Incompatible with:** EFN410, FNN103

**Campus:** GP

#### ► AYN424 INTERNATIONAL ACCOUNTING

This unit is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. The unit examines the following issues: accounting systems in the global environment; international patterns of accounting development including cultural influences on accounting; comparative international accounting systems and practices; the pressures for international accounting harmonisation and disclosure; international disclosure trends and financial analysis; global accounting issues into the twenty-first century.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN119

**Campus:** GP

#### ► AYN432 PUBLIC SECTOR ACCOUNTING AND GOVERNANCE

This unit is designed to expose students to the theoretical and conceptual issues of corporate governance in the public sector. The context and operation of public sector corporate governance, budgeting, auditing and reporting practices are reviewed, and a comparison is made to private sector practice. Readings from both the research and professional literature is used as a basis for discussion.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** FNN111

**Campus:** GP

#### ► AYN433 RESEARCH TOPICS IN ACCOUNTING

In this unit, students research accounting topics that they have chosen in consultation with the lecturer. Initially, each student investigates an area of potential research in conjunction with the lecturer and gives a class presentation on an aspect of this. Subsequently, under the supervision of the lecturer, the student develops the topic into an extended essay. Subjects may be chosen from a broad variety of topics.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

#### ► AYN438 TAXATION LAW AND PRACTICE

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levying of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

#### ► AYN439 MANAGEMENT ACCOUNTING

This unit builds on AYN414 covers the following: planning and control; decision-making and relevant costs; responsible accounting; cost allocation; pricing techniques; transfer pricing; performance evaluation; operations research techniques; contemporary management accounting issues such as activity based costing, value-added management, just-in-time systems, total quality management and strategic management accounting.

**Courses:** BS93, GS40, GS48, GS50, GS75,

GS76, GS85, GS86

**Prerequisites:** AYN414

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► AYN443 ELECTRONIC COMMERCE CYCLES

This unit examines the concepts, processes and issues relevant to computerised accounting systems including the following: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

**Courses:** BS93, GS40, GS48, GS50, GS75,

GS76, GS85, GS86

**Prerequisites:** AYN416 or GSN404

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYB221, AYN303,

AYN402

**Campus:** GP

**Sem:** 1, 2

#### ► AYN449 ENTERPRISE SYSTEMS

This unit addresses the following topics: the nature of enterprise resource planning systems (ERP); advanced study of accounting information system cycles linking concepts to the SAP R/3 FI-Financial Accounting Module functionality; general ledger accounting, sub ledger accounts, accounts receivable and accounts payable; authorisations for the FI Module; integration with co-controlling module.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► AYN453 FINANCIAL FORENSICS AND BUSINESS INTELLIGENCE

This unit focuses on features, uses and design strategies for IT-enabled managerial decision support and business intelligence systems and their application to fraud prevention and detection. Model-based, data-based and knowledge-based applications for financial forensics are examined. SAS data analysis, interrogation and mining software is examined.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► AYN454 FORENSIC ACCOUNTING AND INVESTIGATION

This unit provides students with a knowledge of critical factors that contribute to fraud and corporate failure and the forensic examinations thereof. Students develop an understanding of the risks of fraud and corporate failure occurring and an appreciation for the subsequent forensic review and litigation processes that may follow.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN441, AYN404,

AYN426

**Campus:** GP

**Sem:** 1

#### ► AYN455 ELECTRONIC BUSINESS FOUNDATIONS

The impact of the Internet is not just the creation of web-based corporations; it is the development of a new range of organisational methods based on electronic communication technologies. These new methods transcend the barriers of time and distance and take advantage of global markets and opportunities, while opening organisations up to new threats and competition. This unit examines the range of e-business applications being used by organisations and assesses their strengths and limitations.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN446, AYN447

**Campus:** GP

**Sem:** 1

#### ► AYN505 DISSECTING FINANCIAL STATEMENTS

This unit is designed to provide students with an in-depth understanding of financial statement analysis. This unit addresses many of the accounting problems and issues faced in an interna-

tional business environment. Issues examined include the following: reviewing, detecting and investigating possible financial statement misrepresentations; revenue recognition; asset valuation; deferment and capitalisation; off-balance sheet activity and liabilities; financial performance indicators; inter-corporate entities and unreported intangibles; earnings management; earnings quality; disclosure; cases of Worldcom, Enron and HIH.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

#### ► AYN506 STRATEGIC MANAGEMENT ACCOUNTING

Strategic Management Accounting develops a theory of organisations that provides an understanding of the information requirements of management to facilitate strategic planning, decision-making and control. This unit prepares students for a world of unstructured problem-solving and develops skills in managerial decision-making by the use of current research articles to ascertain how managers can design organisations to motivate individuals to make choices that increase firm value. Topics include the following: the management of control systems; performance evaluation and compensation incentives; transfer pricing. New management accounting practices, activity-based costing, the balanced scorecard, and economic value added, are evaluated, using the latest research.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

#### ► AYN507 GOVERNANCE ISSUES IN ACCOUNTING

This unit adopts an accounting perspective to examine issues relating to sound corporate governance, accountability and transparency. Topics covered include the following: the role of the board of directors and board committees; internal control and risk management; audit committees, internal and external audit; duties of directors and management; codes of conduct and ethics; compensation issues; conflict of interest and insider trading.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

#### ► AYZ220 COMPANY ACCOUNTING

This unit includes the following: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including entities); accounting for investments in associates; accounting for foreign currency transactions arising from international trading and financing; and the translation of the results of foreign operations.

**Courses:** BS57

**Prerequisites:** AYB121

**Contact hours:** 3 per week **Credit points:** 12

#### ► AYZ221 COMPUTERISED ACCOUNTING SYSTEMS

This unit examines the concepts, processes and issues relevant to computerised accounting systems including the following: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

**Courses:** BS57

**Prerequisites:** BSB110, BSB122

**Contact hours:** 3 per week **Credit points:** 12

#### ► AYZ223 LAW OF BUSINESS ASSOCIATIONS

This unit is intended to equip students with a basic understanding and knowledge relevant to the environment of legal entities, particularly corporations. It also seeks to provide students with sufficient basic understanding of the legal structure of business associations to enable them to recognise the appropriate structure for particular commercial situations.

**Courses:** BS57

**Prerequisites:** BSB111

**Contact hours:** 3 per week **Credit points:** 12

#### ► AYZ301 AUDITING

This unit enables students to comprehend the key concepts of auditing as a discipline, to demonstrate the relationship between auditing and the systems of accountability and to demonstrate the differences between manual and EDP audit processes. The unit builds on the knowledge of accounting and accounting standards acquired in prior units by enabling students to understand in detail the audit process (including professional auditing standards and techniques) which leads to the auditor providing an opinion on the financial reports of various types of entities.

**Courses:** BS57

**Prerequisites:** AYZ220

**Contact hours:** 3 per week **Credit points:** 12

#### ► AYZ311 FINANCIAL ACCOUNTING ISSUES

This unit introduces students to the nature of accounting theory and integrates theory with practice to assist in the understanding of major accounting issues. The following topics are addressed: positive and normative theories of accounting; the external reporting framework including international harmonisation and the conceptual framework; definition, recognition and measurement of assets, liabilities, equity, revenues and expenses; asset revaluations; intangibles; financial instruments; leases; employee entitlements. Accounting in specific industries such as general insurers, construction, extractive industries and superannuation funds is also examined. Contracting theory is used throughout to help explain accounting policy choices.

**Courses:** BS57

**Prerequisites:** AYZ220

**Contact hours:** 3 per week **Credit points:** 12

#### ► AYZ321 STRATEGIC MANAGEMENT ACCOUNTING

Strategic management accounting develops a theory of organisations that provides an understanding of the information requirements of management to facilitate the strategic planning, decision-making and control necessary for the achievement of their objectives. Topics include the following: developing effective performance-evaluation systems and compensation plans; examining how managers can design organisations to motivate individuals to make choices that increase firm value; managing transfer-pricing disputes among divisions; developing an understanding of new management accounting practices, including activity-based costing (ABC), the balanced scorecard (BSC), and economic value added (EVA); and appreciating the research on the benefits and problems with ABC, BSC and EVA.

**Courses:** BS57

**Prerequisites:** AYB225

**Contact hours:** 3 per week **Credit points:** 12

#### ► AYZ325 TAXATION LAW

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levy of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Courses:** BS57

**Prerequisites:** AYZ223

**Contact hours:** 3 per week **Credit points:** 12

#### ► BNB007 PROFESSIONAL STUDIES 1

The unit seeks to introduce students to the concept of professionalism and the core components

of professional practice: social responsibility; personal (interpersonal and cross cultural) responsibility; environmental responsibility; engineering writing; technical presentation; graphics and generic computing skills. The unit provides opportunities to apply understanding to case study scenarios and develop problem based learning skills. It focuses on the roles and responsibilities of engineers and specifically, the engineer as communicator, collaborator and negotiator, in changing national and international contexts.

**Courses:** CE33, CE44, CE45, EE41, EE42, EE48, ME40, ME41, ME42, IF21, IF50, IF59, EE46, EE47

**Contact hours:** 7 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► BNB011 FUNDAMENTALS OF SYNTHETIC ENVIRONMENTS

This unit provides an overview of synthetic environments focusing on their application to design and engineering disciplines as a tool for enhanced communication within a design process. The theory (lecture) component provides an overview of historical and contemporary issues related to Synthetic Environments, whereas the tutorials provide the necessary computer laboratory skills for the creation of a virtual world. Prior knowledge of 3-D CAD is assumed.

**Courses:** BN31, PS73, PS74, PS78, PS79

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► BNB301 FIELD STUDIES IN SUSTAINABLE DEVELOPMENT

This elective is offered across the Faculty of Built Environment and Engineering to provide opportunities for students to deepen their knowledge and experience of the importance of multi-disciplinary collaborations contributing to sustainable development within the design and built environment and engineering fields. Students will travel and engage people with very different cultural beliefs and practices. They will participate in the trans-disciplinary exploration of alternative technologies and development ideologies appropriate to the cultural context. Participation will be at students' own expense Expected costs will be given at the time enrolments are invited. A minimum of 10 enrolments are required for the Field Studies to proceed with a maximum of 20 enrolments.

**Courses:** Elective in BEE courses

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► BNB302-1 SUSTAINABLE DEVELOPMENT PROJECT

This is the first part of the project unit. This unit will give final year students the opportunity to complete a small scale research project. The thesis will enable students to conduct and individually tailor a research project that will enhance their skills. The thesis work will consist of the following: a problem definition; a brief summary literature review; the organisation and execution of a program of investigation; the presentation of a seminar; the presentation of a comprehensive written report (thesis).

**Courses:** IX15

**Prerequisites:** 192 credit points of IX15

**Credit points:** 12

#### ► BNB302-2 SUSTAINABLE DEVELOPMENT PROJECT

This is the second part of the project unit. Please refer to BNB302-1 for full details of the requirements.

**Courses:** IX15

**Prerequisites:** 192 credit points of IX15

**Credit points:** 12

#### ► BSB110 ACCOUNTING

Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with a basic level of knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, analysis and interpretation of financial statements, and planning, control and business decision making.

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSD110, CTB110  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB111 BUSINESS LAW AND ETHICS

This unit integrates the concepts and principles of business law with the theories and applications of business ethics. The unit makes extensive use of cases in law and ethics to develop knowledge and skills that enable students to analyse, apply and evaluate the legal principles and ethical decision-making processes relevant to modern business practice.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYB120  
**Campus:** GP **Sem:** 1, 2, 3

#### ► BSB113 ECONOMICS

This unit introduces students to the key economic concepts and their practical applications. It comprises twelve topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory, and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** EPB116 and EPB172, EPB140 and EPB150  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB114 GOVERNMENT, BUSINESS AND SOCIETY

This unit provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HUB694, HUB682, SSB028, BSD114, EPB124, MNB181, AD3049  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB115 MANAGEMENT, PEOPLE AND ORGANISATIONS

The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that are needed in all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03, LS50, ME36  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSB102, BSD115, CTB115, MNB351, MNB412, AD3048, CTB115  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB119 INTERNATIONAL AND ELECTRONIC BUSINESS

This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business, and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks

of conducting business across politically, economically and culturally diverse environments.

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03, LS50

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSB116, BSB112  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB122 QUANTITATIVE ANALYSIS AND FINANCE

To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide students with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; the application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; the three main ideas underpinning financial decisions (time value of money, diversification, and arbitrage).

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03, ME41  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSB117  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB126 MARKETING

This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is placed on understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems, and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion, including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.

**Courses:** BS56, ED50, IF05, IF09, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03, LS50  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB116, CTB126  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► BSB212 ELECTRONIC BUSINESS APPLICATIONS

This unit looks at the ways in which organisations adopt and use various Electronic Business applications in areas of e-commerce, business-to-consumer, business-to-business and intra-business relations. Business models and their impact in various industries are analysed, enabling students to assess the underlying business case, and determine the model's viability in a competitive environment. The issues associated with front-end and back-end applications associated with e-Business are considered.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB112 or BSB119 or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AYB333, CTB212  
**Campus:** GP **Sem:** 1

#### ► BSB213 LEGAL ISSUES IN ELECTRONIC BUSINESS

This unit introduces students with no formal studies in law to legal issues associated with electronic business (e-business). The main principles of legal issues and how they might be identified and managed by the use of compliance programs are analysed, as are the ways in which e-business professionals identify the key legal, governance and ethical issues associated with their e-business operations. Legal, jurisdictional and enforcement issues that arise with international e-business transactions are also considered.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB111, BSB119 or 96 credit points of approved study

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYB120, AYB332, CTB213

**Campus:** GP

**Sem:** 2

#### ► BSB310 BUSINESS AND BIOTECHNOLOGY

This unit develops business skills that will enhance the ability of those operating within biotechnology firms to capitalise on their research and development efforts. In essence, this unit provides the skills-based mechanisms to develop graduates who are effective catalysts in recognising, developing and commercialising opportunities in Biotechnology.

**Courses:** LS50 **Prerequisites:** MGB218  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► BSB311 RESEARCH, DEVELOPMENT AND COMMERCIALISATION STRATEGIES

Students study strategies and approaches used in industry and government organisations for the research, development and commercialisation of biotechnology innovations. The unit offers the opportunity to read widely as well as in depth about the commercialisation of molecular biology and biotechnology research. Theoretical concepts are integrated with prepared case studies prior to guest speaker seminars.

**Courses:** LS50 **Prerequisites:** BSB310  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► BSB314 E-BUSINESS INTELLIGENCE

This unit looks at corporate strategic decisions and the information technology decision support systems and e-business intelligence needed to support management in this process. Group and enterprise IT decisions systems, data warehousing and corporate portals will be examined together with e-business intelligence applications. SAS software skills for decision support and data mining and visualisation will be covered. An introduction to advanced intelligent systems, artificial intelligence and knowledge based support systems will also form part of the unit.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB212  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► BSD110 ACCOUNTING

Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with some basic knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, and the analysis and interpretation of financial statements for planning, control and business decision making purposes.

**Courses:** BS40, IF06  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB110  
**Campus:** KG **Sem:** 1, 2, 3

#### ► BSD113 ECONOMICS

This unit introduces students to the key economic concepts and their practical applications. It comprises 12 topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

**Courses:** BS40, IF06  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB113  
**Campus:** KG **Sem:** 1, 2, 3

#### ► BSD114 GOVERNMENT, BUSINESS AND SOCIETY

This unit provides a basic grounding in the principles, institutions and functions of government, and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and governmental framework including the judicial and administrative processes, especially as they affect

business. Students also develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

**Courses:** BS40, IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB114 **Campus:** KG

#### ► BSD115 MANAGEMENT, PEOPLE AND ORGANISATIONS

The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that will be needed at all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Courses:** BS40, IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB115 **Campus:** KG **Sem:** 1, 2, 3

#### ► BSD119 INTERNATIONAL AND ELECTRONIC BUSINESS

This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse country environments.

**Courses:** BS40, IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB119 **Campus:** KG **Sem:** 1, 2, 3

#### ► BSD122 QUANTITATIVE ANALYSIS AND FINANCE

To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide you with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; the three main ideas underpinning financial decisions (time value of money, diversification and arbitrage).

**Courses:** BS40, IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

#### ► BSD126 MARKETING

This introductory unit examines the role and importance of marketing to the contemporary organisation. Emphasis is given to understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems, and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, promotion including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.

**Courses:** BS40, IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** BSB126 **Campus:** KG **Sem:** 1, 2, 3

#### ► BSN404 PROJECT 1

This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

**Courses:** BS93

**Credit points:** 12

**Incompatible with:** MKN101, MKN102, MKN103

**Campus:** GP

#### ► BSN405 PROJECT 2

This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

**Courses:** BS93

**Credit points:** 12

**Incompatible with:** MKN101, MKN102, MKN104

**Campus:** GP

#### ► BSN406 PROJECT 3

For this project, students undertake a detailed examination of a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based on the published journal literature of the discipline and can involve primary research and analysis. Students develop a short empirical research study, refine a theoretical problem, develop a communication audit of an organisation or develop a case study related to an organisation or product. Project supervision is arranged by the unit coordinator through consultation with the student and available staff members.

**Courses:** BS93

**Prerequisites:** 96 credit points of approved prior study

**Credit points:** 24

**Incompatible with:** CON405, AMN411

**Campus:** GP

#### ► BSN409 RESEARCH PROJECT

This is to produce a major piece of applied research. The research project provides the opportunity to apply and reinforce the education and knowledge gained from the course by research report, case study or application of technology. The final project must demonstrate an ability to identify and research a complex business problem in accountancy or banking and finance or a related discipline.

**Courses:** BS93

**Prerequisites:** BSN506 or BSN507

**Credit points:** 24

**Campus:** GP

**Sem:** 2

#### ► BSN412 QUALITATIVE RESEARCH AND ANALYTICAL TECHNIQUES

This unit provides a detailed overview of qualitative research to support decision-making in business disciplines. The primary purpose of this unit is to develop a detailed understanding of the theoretical contexts in which field studies and qualitative research methods have developed, and the techniques that define the approach. Students develop the ability to analyse, conduct, and evaluate qualitative research in discipline areas related to business. The unit provides a basic preparation for the development of a project, thesis or dissertation proposal based on the use of qualitative research.

**Courses:** BS63, BS92, BS93, GS48, GS76, GS97, IF94, IF96

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CON500

**Campus:** GP

#### ► BSN501 DISSERTATION

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Courses:** BS63, BS93, GS48, GS76, GS97

**Credit points:** 48

**Campus:** GP

**Sem:** 1, 2

#### ► BSN502 RESEARCH METHODOLOGY

The purpose of this study is to provide students with a range of ideas and methods that enables them to analyse, evaluate and conduct research in discipline areas related to business. It provides an essential and basic preparation for the development of a thesis or dissertation proposal. Areas of study include research paradigms, analysis and criticism, research design, data collection, and data manipulation, interpretation and presentation.

**Courses:** BS63, BS92, GS48, GS76, GS97

**Contact hours:** Flexible Mode

**Credit points:** 12

**Incompatible with:** BSB400

**Campus:** GP

**Sem:** 1

#### ► BSN503 RESEARCH SEMINAR

In this unit, the students prepare detailed literature reviews relevant to their thesis or dissertation proposal. Students are required to prepare and present a detailed seminar paper describing and explaining the results of their review and its relevance to the thesis or dissertation proposal. The unit is in two parts: the first provides a series of lectures from staff advising as to the requirements of a thorough, well-directed literature search and review; the second consists of a series of seminars from students presenting their findings.

**Courses:** BS63, BS92

**Contact hours:** Flexible Mode

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► BSN506 ECONOMETRIC METHODS

This unit provides a comprehensive grounding in the econometric methods necessary for conducting research using such methods. Recent contributions to the econometric literature are studied.

**Courses:** BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSN500

**Campus:** GP

**Sem:** 1

#### ► BSN507 RESEARCH METHODS

The subject provides an introduction to the methodology of social research. The unit begins with a consideration of some different views from the philosophy of science about what constitutes the appropriate way to do social research. This part of the unit includes some common sense issues about how to conduct practical research projects. The unit then focuses on quantitative research methods. Questions of design, measurement, techniques and analysis are covered. Qualitative as well as quantitative research issues are considered. The unit also includes coverage of some ethical and political issues in social research.

**Courses:** BS63, BS92, BS93, IF49

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN102, BSN500

**Campus:** GP

**Sem:** 1

#### ► BSN600 THESIS

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be of approximately 50 000 words.

**Courses:** BS92

**Credit points:** 96

**Campus:** GP

**Sem:** 1, 2

#### ► BSZ114 GOVERNMENT, BUSINESS AND SOCIETY

This unit provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

**Courses:** BS57

**Contact hours:** 3 per week **Credit points:** 12

#### ► BSZ119 INTERNATIONAL & ELECTRONIC BUSINESS

This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of inter-

national business and e-business, and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

**Courses:** BS57

**Contact hours:** 3 per week **Credit points:** 12

#### ► BSZ126 MARKETING

This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is on understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion, including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.

**Courses:** BS57

**Contact hours:** 3 per week **Credit points:** 12

#### ► CEB109 ENGINEERING MECHANICS 1

This unit includes the following: introduction to statics, forces, moments and couples; resolution and resultant of forces acting on a particle or rigid body; equilibrium of particle or rigid body under forces and/or moments; analytical methods for plane truss analysis; shear force and bending moment in beams; the properties of sections. Dynamics is included for electrical engineering students.

**Courses:** CE44, CE45, CE46, EE41, EE42, EE44, EE45, EE48, ME36, ME40, ME41, ME42, ME43, ME45, ME48

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► CEB110 ENGINEERING MECHANICS 2

This unit includes the following: principles of structural mechanics, stress, strain and elasticity; second movement of area; indeterminate structures and compatibility; simple beam theory including the flexure formula and the shear stress formula; shear force and bending moment diagrams; hydrostatics, stress and strain transformation; mohr circlebeam deflections (virtual work); geomechanics applications of 2D stresses; buckling.

**Courses:** CE44, CE45, CE46

**Prerequisites:** CEB109

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2, 3

#### ► CEB207 PROFESSIONAL STUDIES 2 (TIMBER STRUCTURES & EARTHWORKS)

In this unit, students develop and define a problem statement and are encouraged to develop their own creative solutions through the semester. This introduces students to aspects of project work and prepares them for their professional lives. Architectural and project issues include aesthetics, fitness for purpose, and constructability. Geotechnical issues include site investigation, earthworks and compaction, and site investigation. Structural issues include design, loads, load paths, load factors, strength factors, time dependent loads, structural capacity and stability, rules of thumb, structural timber, material selection, and basic surveying principles.

**Courses:** CE44, CE45, CE46

**Prerequisites:** CEB110, BNB007

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEB208 MATERIALS SCIENCE

The unit provides students with a sound and practical approach to material properties and selection so that they may adapt to scientific and technological changes in the variety of products entering the market. They understand where the engineer fits in a quality assurance program and become aware of the numerous components of quality assurance and the costs generated by quality control and assurance. Students become aware of the effect of the working environment on different engineering materials. Among other things, they study the behaviour of concrete from

the time it is manufactured to the end of its life, and develop knowledge of the parameters involved in manufacturing good concrete and the consequences of delivering poor concrete.

**Courses:** CE44, CE45, CE35

**Prerequisites:** MMB131

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEB209 GEOTECHNICAL ENGINEERING 1

Soil mechanics is a part of geotechnical engineering, soil types, their description, classification and engineering properties. The unit includes the following: granular and cohesive soil classification systems; volume and mass components; density and air voids; determination of soil geostatic vertical pressures; pore water pressures and effective stress; permeability theory and fluid seepage in soil, with erosion and piping analysis; soil shear strength assessment and application to retaining wall lateral pressures; retaining wall design, slope stability analysis and stabilisation. Computer simulation and analysis programs are used where appropriate.

**Courses:** CE44, CE45, CE35

**Prerequisites:** CEB110

**Corequisites:** CEB207

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEB213 ENVIRONMENTAL SCIENCE

This unit is designed to provide students with the fundamental understanding of how the earth's physical and environmental systems normally function and the challenges imposed on the environment as a result of human activity. This understanding is developed through the study of relevant principles of physical geology, ecology, chemistry, microbiology, energy, resources, pollution, and the interaction among population, resources and the environment. The unit also prepares students to undertake further studies in civil and environmental engineering.

**Courses:** CE44, CE45, CE46, CE35

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEB214 PROFESSIONAL STUDIES 3 (ENVIRONMENTAL & TRANSPORT)

The knowledge and skills associated with assessing, investigating, and managing the economic, social and environmental impacts of developmental projects are essential for today's civil and environmental engineers. So too is an appreciation of the skills needed to work with and communicate with interdisciplinary teams to develop balanced solutions to environmental problems associated with development. This unit of the Professional Studies strand develops students' abilities to practise in a civil engineering project environment.

**Courses:** CE44, CE45, CE35

**Prerequisites:** CEB207, CEB213

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB215 STRUCTURAL ENGINEERING 1

This unit includes the following: development of the method of moment distribution and its application in analysis of continuous beams and frames; theory of influence lines and its application to determine the effects of moving loads on beams and trusses; 'pattern loading' on frames and continuous beams; the behaviour of reinforced concrete members; applications in the design of beams and columns.

**Courses:** CE44, CE45, CE46, CE35

**Prerequisites:** CEB207, CEB208, CEB110

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB216 PROJECT ENGINEERING 1

The unit commences with the development of the construction techniques common to site investigation, earthworks, pile driving, deep foundations, reinforced and prestressed concrete and steel erection. This operational understanding is extended into a study of the practices used to estimate cost and to administer contracts, including planning and the legal implications of operating in a commercial environment. The unit concludes with the issues surrounding the uncer-

tainty of weather and of operating in remote environs.

**Courses:** CE44, CE45

**Prerequisites:** CEB208, CEB207

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB217 HYDRAULIC ENGINEERING 1

This unit includes the following: units and properties of fluids; pressure and pressure measurement; forces in static fluids, buoyancy and accelerating fluids; kinematics, continuity and flow nets; the energy equation; the momentum equation; experimental fluid mechanics; lift and drag; fluid flow in pipes and the application of pipe resistance formulae; fitting losses; pipes in series and parallel; pipe network analysis; hydraulic analysis of pump and pipe systems; pump types, characteristics and selection.

**Courses:** CE44, CE45, CE46, CE35

**Prerequisites:** CEB109, MAB131

**Contact hours:** 4 per week **Credit points:** 12

**Sem:** 2

#### ► CEB218 GEOTECHNICAL ENGINEERING 1A

Soil mechanics is a part of geotechnical engineering and includes a study of the following: soil types, their description, classification and engineering properties; granular and cohesive soil classification systems; volume and mass components; density and air voids; determination of soil geostatic vertical pressures; pore water pressures and effective stress; permeability theory and fluid seepage in soil, with erosion and piping analysis; soil shear strength assessment and application to retaining wall lateral pressures; retaining wall design, slope stability analysis and stabilisation. Computer simulation and analysis programs are used where appropriate.

**Courses:** CE35

**Prerequisites:** CEB110

**Corequisites:** CEB207

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEB219 STRUCTURAL ENGINEERING 1A

This unit includes the following: moment distribution; statically indeterminate structures; continuous beams and simple frames; moving loads on structures such as bridges and crane girders; influence line diagrams; 'pattern loads' in statically indeterminate structures fundamentals of reinforced concrete analysis and design and its behaviour in bending, shear and carrying axial loads; analysis and design of beams, slabs and columns.

**Courses:** CE35, CE44, CE45, CE46

**Prerequisites:** CEB207, CEB208, CEB110

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB222 HYDRAULIC ENGINEERING 1A

This unit includes the following: units and properties of fluids; pressure and pressure measurement; forces in static fluids, buoyancy and accelerating fluids; kinematics, continuity and flow nets; the energy equation; the momentum equation; experimental fluid mechanics; lift and drag; fluid flow in pipes and the application of pipe resistance formulae; fitting losses; pipes in series and parallel; pipe network analysis; hydraulic analysis of pump and pipe systems; pump types, characteristics and selection.

**Courses:** CE35

**Prerequisites:** CEB109, MAB131

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB230 ENGINEERING MATERIALS AND THE ENVIRONMENT

This unit provides information about engineering materials required before they are applied in the design context. The course begins with an in-depth presentation of the material properties and their application of civil engineering projects. An engineer requires in-depth knowledge of the concepts and principles involved but also the ability to apply them in real life. An emphasis on environmental implication is discussed as part of the requirements.

**Courses:** CE46

**Prerequisites:** MMB131

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB232 GEOTECHNICAL ENGINEERING 1 AND THE ENVIRONMENT

Geomechanics (soil mechanics and rock mechanics) and its application to geotechnical engineering is one of the most important areas of study for civil engineers. It is concerned with the use of soil and/or rock as an engineering material and includes a wide range of activities: site investigation and design for building, bridge and other foundations; materials selection, design and construction control for dams, road pavements and embankments; landslide stabilisation and tunnel excavation and support. The course emphasises environmental issues such as acid sulfate soils and their effects on geotechnical designs, landfill leachate control and how they impact on the design of landfills.

**Courses:** CE46

**Prerequisites:** CEB110

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB233 ENVIRONMENTAL PROFESSIONAL STUDIES 3 (IMPACTS OF PROJECTS AND SUSTAINABLE DEVELOPMENT)

The knowledge and skills associated with assessing, investigating, and managing the social and environmental impacts of developmental projects are essential for today's civil and environmental engineers. Environmental engineers need to be trained to conduct and manage investigative studies related to assessing air, water, soil, and noise pollution, and to understand and address the social implications. They also need the breadth of studies required to work and communicate with interdisciplinary teams designing balanced solutions to environmental problems associated with development. This unit addresses these needs.

**Courses:** CE46

**Prerequisites:** CEB213

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB259 ENGINEERING DESIGN FOR LAND DEVELOPMENT

This unit introduces the student to the basic civil engineering design processes and procedures associated with the development of subdivided urban/rural land for residential, industrial or commercial purposes. The unit covers the following: subdivisional road design types; hierarchy, longitudinal and cross sections, earthworks; stormwater design, basic urban hydrology, catchment properties, rational formula, pipe/gully parameters, pipe and open channel flows; water reticulation system features; sewer reticulation system features and basic design procedures. Modern trends in the above (including sustainability considerations) together with the general construction procedures and basic costings are introduced.

**Courses:** PS47, PS48

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB317 PROFESSIONAL STUDIES 4 (PROJECT DOCUMENTATION & ROADS)

Civil engineers as professionals are responsible for the delivery of major transport infrastructure items through the stages of inception, planning, design, development, maintenance and management. The purpose of such projects is to improve the quality of life of the community by offering safe and efficient access to activity locations and mobility between locations. In delivering such infrastructure, social, economic, and environmental impacts and benefits are considered and addressed. This unit offers students an opportunity to explore the role of the civil engineer in the preparation of a feasibility design study for a road as a major transport infrastructure item.

**Courses:** CE44, CE45, CE46

**Prerequisites:** CEB207, CEB214, BNB007

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB318 STRUCTURAL ENGINEERING 2

This unit considers the following: limit states design of steel structures; buckling and ultimate strength behaviour of steel structures; tension members; compression members; local and global buckling (flexural and flexural torsional buckling modes) concepts as applied to compression members and beams; effective lengths of compression members and beams; design of beams; effect of lateral restraints on buckling; web stresses including web crippling and buckling; beam-columns; bolted and welded connections; unsymmetric bending of beams including principal second moments of area; shear stresses in beams of thin-walled open cross-sections and their shear centres. Most cold-formed steel sections are unsymmetric and hence the latter topics are useful in steel design.

**Courses:** CE44, CE45

**Prerequisites:** CEB207, CEB110

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB319 WATER ENGINEERING

The main topics to be covered in this unit follow: the hydrologic cycle and its application to the estimation of runoff from small catchments; probability and risk and the selection of design floods; hydrologic data; estimation of peak runoff using the Rational Formula estimation of runoff hydrographs using rainfall-runoff routing models; the hydraulic characteristics of open channels; uniform flow, gradually varied flow and rapidly varied flow; the hydraulic characteristics of culverts and retention basins; the operation of urban drainage systems.

**Courses:** CE44, CE45, CE46

**Prerequisites:** CEB217

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB321 WATER AND WASTEWATER TREATMENT

The provision of a safe, wholesome and adequate supply of water and the proper treatment, disposal, and reuse of wastewater are essential for protecting human health and well-being. Water and wastewater treatment are required for the control of water-borne diseases and the provision of proper sanitation for urban, rural, and recreational areas. Water and wastewater treatment engineering is a major field of civil and environmental engineering and is manifested by sound principles and practice in terms of solving sanitation problems.

**Courses:** CE44, CE45, CE46

**Prerequisites:** CEB213, CEB217

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► CEB322 GEOTECHNICAL ENGINEERING 2

This unit includes further study on the behaviour of soil and rocks: determination of subsurface pressures from surface loadings; soil settlement including time related clay consolidation settlement and immediate settlements on sand and clay as related to shallow foundations; assessment of bearing capacity and allowable bearing pressures under shallow foundations; pile foundation systems and analysis for capacity and settlement; rock mass behaviour, classification and joint shear strength applied to slope stability assessment and stabilisation measures.

**Courses:** CE44, CE45, CE46

**Prerequisites:** CEB209

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► CEB323 TRANSPORT ENGINEERING 1

The transport system is an essential part of our physical infrastructure. It is imperative that civil engineers are able to undertake typical road and traffic engineering investigations, analyses and designs. These require an understanding of the intent of individual road system elements, how they operate, and how they are delivered and managed; this understanding are developed in this unit. Further, it is important that civil engineers are able to undertake multi-modal transport surveys to gain an understanding of the operation of a particular transport system.

**Courses:** CE44, CE45

**Prerequisites:** CEB317

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► CEB328 INVESTIGATION PROJECT

This unit gives the student the opportunity to gather a body of information relating to a selected topic from the available literature, and to reach conclusions by critical analysis of this material. The investigation may include analysis and experimental work. The results will be presented as a written report supported by a seminar presentation.

**Courses:** CE35

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► CEB329 PROFESSIONAL STUDIES 5 (STEEL DESIGN & CONSTRUCTION)

This unit includes the study of steelwork: design and construction; structural systems; load paths; rules of thumb; building layout, function and form; cladding; element and wind loading evaluation; idealisation, analysis, design action effects; space gas; columns and rafters; trusses and bracing; connections; knee ridges; base plate design; procurement and fabrication; scheduling and erection.

**Courses:** CE44

**Prerequisites:** CEB207, CEB208, CEB215, CEB318

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► CEB330 ENVIRONMENTAL MANAGEMENT FOR ENGINEERS

This unit is designed to help students identify and develop the skills required in the role of the environmental engineer and specifically, the engineer as a project manager. This may involve making decisions to direct and manage the environmental aspects of a major project. This unit aims to help develop and encourage life long learning throughout a career as an environmental engineer.

**Courses:** CE46

**Prerequisites:** CEB233

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB411 THESIS PROJECT A

Thesis A is a written report of the literature on an area of civil engineering practice where research and development has been undertaken and reported. Students demonstrate skills in problem definition, work planning, critical analysis of the study material, information retrieval, and appropriate citation procedures. Report writing and seminar presentation is a major feature. Guided instruction and exercises are given on information retrieval and bibliographic listing and citation.

**Courses:** CE44, CE45

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► CEB412 PROJECT ENGINEERING 2

The unit builds on the understanding of the physical aspect of construction gained in Project Engineering 1 to develop the skills needed to manage a project. Further studies in estimating, contracts administration and cost control provide support for a major computer simulation exercise based on the construction management of a complex industrial project. This experiential component provides a framework for the exploration of issues in the legal, managerial and technical areas which form the basis for the professional presentations that conclude the unit.

**Courses:** CE44, CE45

**Prerequisites:** CEB216, CEB317

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► CEB413 STRUCTURAL ENGINEERING 3

This unit includes the following advanced structural engineering topics: 'Space Gas', 'Microstan', the stiffness method. This method is developed and illustrated by application to some structures. Plastic analysis and the concept of plastic hinge are introduced and applied. Basic structural dynamics is introduced and some simple illustra-

tive examples are provided. Principles of earthquake engineering, aesthetics in bridge design, load paths in structures, and approximate methods in the analysis of complex structures are treated.

**Courses:** CE44, CE45

**Prerequisites:** CEB215, CEB318

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CEB415 THESIS PROJECT B

Thesis B is an optional elective and extension of Thesis A CEB411. Various avenues of investigation will have been identified from Thesis A and students undertake a program of investigation which may have experimental, design and analysis aspects. A written report with critical analysis of results and conclusions is prepared, and a seminar presented.

**Courses:** CE44, CE43, IF50

**Credit points:** 12 **Sem:** 2  
**Campus:** GP

#### ► CEB416 ENVIRONMENTAL LAW AND ASSESSMENT

The adverse consequences of human activity have resulted in the adoption of various international treaties, enactment of stringent legislative requirements, and a growing demand for improved management practices. Engineers need to be aware of the way in which the law works, to be able to communicate with lawyers, and to recognise the legal and political implications of their projects. An understanding of the local, state, and federal governments' power to regulate development and the legal and planning requirements and assessment procedures is essential for professional engineering practice.

**Courses:** CE44, CE43, IF50

**Credit points:** 12 **Sem:** 1  
**Campus:** GP

#### ► CEB418 WASTE RESOURCE MANAGEMENT

This unit addresses management of solids and hazardous wastes generated from domestic, commercial, and industrial sources. It includes the following: waste minimisation; promotion of efficient use of resources; promotion of the use of waste through recycling and energy production; viewing waste as a resource; reducing the mass, volume and toxicity of the waste; disposing of waste in a socially and environmentally acceptable manner; waste avoidance; recycling; energy production; treatment; disposal. Waste management is an important aspect of civil and environmental engineering education.

**Courses:** CE44, CE43, IF42

**Credit points:** 12 **Sem:** 2  
**Campus:** GP

#### ► CEB419 ENVIRONMENTAL TRANSPORT & INFRASTRUCTURE MANAGEMENT

The environmental engineer must be familiar with the role of each transport mode in the overall transport task, along with current issues associated with each mode. This must be overarched by an understanding of the system for planning and management of transport projects and systems, particularly in context with economic, environmental and social attributes. This final year core unit provides students who wish to pursue a career in environmental engineering with an understanding of these areas. The unit also includes case studies covering the environmental impacts for some of the urban and rural transport and infrastructure projects especially in the area of community consultation.

**Courses:** CE46

**Prerequisites:** CEB214, CEB323

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CEB420 ENVIRONMENTAL THESIS PROJECT A

Professional engineers must be able to define and solve problems in areas which are not covered in textbooks and manuals of good practice. Research and development work is required to assess critically the available information and to plan and carry out a program of investigation. This subject helps students develop the skills required for this type of work.

**Courses:** CE46

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CEB424 PROFESSIONAL STUDIES 6 (CONCRETE STRUCTURES & GEOTECHNICAL ENGINEERING)

This unit includes studies of concrete: design and construction; roles of building professionals; design; current structures; structural systems, load paths, rules of thumb; building layout, function and form; design effects; seismic and element loads; structural element loading; formwork and placement constraints; reinforced and prestressed concrete slabs, beams, and columns; architectural changes; connections and detailing; footings and foundations; bar scheduling.

**Courses:** CE44

**Credit points:** 12 **Sem:** 1  
**Campus:** GP

#### ► CEB425 PROFESSIONAL STUDIES 7 (CIVIL DESIGN PROJECT)

In their design project, students should consider a selection of the following: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment; network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.

**Courses:** CE44

**Credit points:** 12 **Sem:** 2  
**Campus:** GP

#### ► CEB426 ENVIRONMENTAL PROFESSIONAL STUDIES (CIVIL PROJECT)

Students should consider the following in their civil project: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment; network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.

**Courses:** CE44, CE46

**Credit points:** 12 **Sem:** 2  
**Campus:** GP

#### ► CEB507 FINITE ELEMENT METHODS

The Finite Element Method is the 20th century's solution for treating complex problems, which had hitherto remained impossible to solve, in several areas of engineering such as structural, geotechnical, hydraulic, electrical, heat conduction, etc. For example the displacements and stresses in dams, deep beams with openings, shell structures, soil-anchors, etc, can be obtained only by finite element analysis. Basic theory and some of the important features of the method, engineering actions, modelling, choice of elements, boundary conditions, input data and interpretation of results are included in this unit.

**Courses:** CE44, CE45

**Prerequisites:** CEB413

**Credit points:** 12 **Sem:** 1  
**Campus:** GP

#### ► CEB508 TRANSPORT ENGINEERING 1

This is a final year elective unit to prepare students for a career in transportation engineering, and to provide them with an understanding of the analytical processes involved in urban transport planning. It covers all transport modes and places emphasis on the planning and evaluation of transport systems. The unit is designed to highlight the economic, environmental and social impacts of transportation projects. The unit complements CEB323 Transport Engineering 1, by dealing in-depth with urban transportation planning and evaluation.

**Courses:** CE44, CE45

**Prerequisites:** CEB323

**Credit points:** 12 **Sem:** 1  
**Campus:** GP

#### ► CEB509 PROJECT MANAGEMENT AND ADMINISTRATION

This unit introduces some of the issues relating to the management of construction projects from both practical and theoretical points of view. Topics covered include the following: leadership and management of organisations and people; planning a project; engaging consultants, subcontractors and suppliers; co-ordination of project activities; cost control and claims; legal and insurance issues; Information Technology issues; written and oral communication skills; problem solving, and managing and preventing disputes. Assessment is practical and progressive during the semester, and includes a final examination.

**Courses:** CE44, CE43

**Prerequisites:** CEB216, CEB412

**Credit points:** 12 **Sem:** 1  
**Campus:** GP

#### ► CEB513 ADVANCED CONSTRUCTION PRACTICE

Professional engineers generally work in a highly stressed commercial environment with competing pressures. A student in final year should be exposed to realistic experiences. This subject integrates what has already been taught in the specific civil engineering disciplines and requires the student to prepare and submit a commercial tender for a construction project. Teams of students competitively bid for the project. In addition, relevant legal and commercial issues associated with the tender and subsequent administration of the particular construction contract are covered so that the student appreciates the realities associated with a construction project.

**Courses:** CE44, CE45

**Prerequisites:** CEB216

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CEB514 PROJECT CONTROL

Contemporary engineering demands that the practising engineer needs to master not only basic design and construction concepts but also current management practices. Engineers, whether they are in construction, design or maintenance need to understand the effect that economic decisions made at federal and state level have on their organisations. They must also realise that everyone has a different leadership style that all must be fitted into the organisation's management structure. The subject is designed to provide an insight into the requirements, precepts and problems of project management of interdisciplinary projects.

**Courses:** CE44, CE45,

**Credit points:** 12 **Sem:** 2  
**Campus:** GP

#### ► CEB516 MASONRY DESIGN

A structural engineer must have the ability to analyse and design engineering components and systems which use masonry as load bearing and in-fill non-structural panels. This course develops a basic understanding of Masonry Technology and Design using the Australian Standard 3700. It provides an understanding of the differences in the material properties of clay, concrete, calcium silicate bricks and blocks. This unit also provides an understanding of workmanship, site practices and construction details of masonry. Students develop the design skills needed for the design of masonry walls, reinforced or un-reinforced and discuss the difference in design procedures for the different masonry materials.

**Courses:** CE42, CE43, IF42

**Credit points:** 12 **Sem:** 2  
**Campus:** GP

#### ► CEB517 ADVANCED ENGINEERING STUDIES

This unit provides an opportunity for students to learn how practicing engineers design cold-formed steel and composite structures. The course has the following aims: to develop an understanding of the design process and how it interacts with the fundamental knowledge of materials and structural analysis; to utilise advanced computer tools for analysis and design; to work as part of a design team; to present written reports. Students in groups of two will participate

in projects to analyse and design cold-formed steel and composite structures.

**Courses:** CE44 CE45

**Credit points:** 12

**Sem:** 1

#### ► CEB518 RIVER AND COASTAL ENGINEERING

Many civil engineers are involved in the analysis and design of engineering works in the river and coastal environment. An understanding of the physical processes taking place is a fundamental requirement if engineers are to take an active role in the management of this dynamic environment. This unit builds on the fundamental principles of fluid behaviour covered in Hydraulic Engineering CEB217 and Water Engineering CEB319 and extends these principles to the river and coastal environment. It relies on a prior understanding of physics, mathematics and solid mechanics, and basic hydraulic engineering principles.

**Courses:** CE44, CE45

**Prerequisites:** CEB319

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB522 GEOTECHNICAL ENGINEERING PRACTICE

This unit considers the use of soil and/or rock as an engineering material. The unit includes a wide range of activities: site investigation and design for building, bridge and other foundations; materials selection, design and construction control for dams, road pavements and embankments; landslide stabilisation and tunnel excavation and support. Following on from the work done in Geotechnical Engineering 1 and Geotechnical Engineering 2, this elective strengthens the understanding of geomechanics, and develops geotechnical investigation, design and construction skills. Three case studies are undertaken, selected from the following: soil reinforcements; lateral loading on piles; embankments on soft soil rock-slope stabilisation; house foundations on expansive soils.

**Courses:** CE44, CE45

**Prerequisites:** CEB322

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEB523 ENVIRONMENTAL GEOTECHNOLOGY

Graduates may work as part of a team investigating, designing and constructing solutions to waste containment and soil and groundwater pollution problems. This subject prepares them for this work by developing an understanding of the engineering concepts and processes and also by introducing them to specialist techniques, such as contaminant transport modelling, which will be used by more specialist members of these teams. It also prepares students for further post-graduate study in these specialist areas.

**Courses:** CE44, CE43, IF42

**Prerequisites:** CEB209, CEB213

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEP011 RAILWAY BUSINESS AND ENGINEERING

The unit is offered entirely in distance education mode via the continuing professional development unit NRE001. It includes the following areas of study: railway business (types, clients and needs, revenue, owner requirements, legislation, competition, organisational structures, planning and supply of labour, material and technology); railway access (owner and manager, selling access, maintenance and upgrading); project management (principles, tasks, evaluation, estimation, planning charts, managing interfaces, monitoring and controlling, reporting and audits); infrastructure (task and layout, wheel/rail, maintenance and renewal, incidental infrastructure, contribution of railway business, track and related infrastructure); rolling stock (vehicle, suspension, wheel/train, locomotive, sub-systems)

**Courses:** CE62

**Credit points:** 12

**Sem:** 2

#### ► CEP012 RAILWAY MANAGEMENT OPERATION AND SAFETY

The unit is offered entirely in distance education mode via the continuing professional develop-

ment unit NRE002. It includes the following four modules: railway management (elements of railway business management, vision, strategy, policy and procedures, needs of stakeholders); railway operation (planning for service specification and delivery, coordination by operator, optimising service); railway safety management (broader aspects of rail safety, safety awareness, guidance for the inter-disciplinary manager); railway signalling and telecommunications (signalling and telecommunications systems as important safety elements, selection and use of systems, level of safety, operational flexibility and asset utilisation required by railway owners operators and regulators).

**Courses:** CE62

**Credit points:** 12

**Sem:** 2

#### ► CEP127 ROAD AND TRAFFIC ENGINEERING

The municipal engineers' task involves the provision of a safe and effective road system. This unit is included in the course to ensure that students have an effective and comprehensive understanding of the principles of road construction and road traffic management. The aim of this unit is to provide the student with not only the techniques to be used but also the principles behind these techniques. A secondary aim is to provide students with an understanding of when a technique is more appropriate. The objectives of the unit are to develop skills in the analysis and design of intersections, urban networks, and freeways.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEP141 STUDIES IN ENVIRONMENTAL ENGINEERING

Various studies relate to waste and resource management and risk analysis. Waste management topics include the following: waste avoidance and minimisation, recycling and reuse; waste exchange; energy production; treatment; disposal. Risk analysis studies include risk posed by waste material to human health and the environment and optimisation of resource management.

**Courses:** CE74, CE75, CE62, CE64

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEP142 WATER POLLUTION CONTROL

This unit includes various studies related to waste and resource management and risk analysis. Waste management topics are included: waste avoidance and minimisation, recycling and reuse; waste exchange; energy production; treatment; disposal. Risk analysis includes studies of risk posed by waste material to human health and the environment, and optimisation of resource management.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEP143 BIOLOGICAL TREATMENT PROCESSES

This unit considers the design and operation of water and waste water treatment systems, focusing on conventional and advanced biological treatment processes, current practice and development.

**Courses:** CE62, CE64, CE74

**Credit points:** 12

#### ► CEP151 ROAD SAFETY AUDIT - PRINCIPLES AND PRACTICE

Road safety auditing is a specialised skill that is developed from an understanding of the principles involved and practical examples. This course provides this understanding and practice and enables graduates to become accredited auditors. The unit can be studied by people with a large range of backgrounds and education levels. This unit is offered in block mode.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

**Sem:** 3

#### ► CEP161 PROFESSIONAL DEVELOPMENT STUDIES 1

This unit is presented to provide students with an advanced understanding of both the qualitative and quantitative processes involved in industrial and professional activities. Emphasis is placed on the planning, operation, management and evaluation of projects and systems, particularly in context with economic, environmental and social attributes.

**Courses:** CE62, CE64, CE74

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► CEP175 PAVEMENT MAINTENANCE REHABILITATION AND RECYCLING

The unit describes the different ways a pavement exhibits both structural and non-structural distress. The modes of distress, including disintegration, distortion, cracking and fracture are described together with problems relating to safety and damage caused by operational factors. A range of evaluation techniques used to assess the condition of a pavement with respect to serviceability, structural capacity and safety are presented. Restoration techniques using granular materials, full depth asphalt and concrete and structural overlays are described along with the role and use of absorbing layers. The unit concludes with the economic evaluation of alternative maintenance strategies using whole-of-life costing techniques.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

#### ► CEP201 PROCESS MODELLING

This unit considers the role of models in engineering design and investigation, and the principles of modelling techniques, their uses, limitations and relevant applications.

**Courses:** CE62, CE64, CE74, CE75

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► CEP216 ADVANCED TRAFFIC ENGINEERING

This unit considers traffic flow theory and traffic management, and presents analytical and computer analysis routines for urban intersection design, their background and applications.

**Courses:** CE62, CE64, CE74, CE75

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEP218 TRANSPORTATION ENGINEERING

This unit is presented to provide students with an advanced understanding of the transport engineering discipline, with emphasis on both the qualitative and quantitative processes involved in urban and regional transport engineering and planning. Emphasis is placed on the planning, operation, management and evaluation of transport projects and systems, particularly in context with economic, environmental and social attributes.

**Courses:** CE74, CE75, CE62, CE64

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► CEP262 PROFESSIONAL DEVELOPMENT STUDIES 2

This unit provides students with an advanced understanding of the civil/environmental engineering profession with an emphasis on enabling the students to gain an understanding of their contribution in their workplace.

**Courses:** CE62, CE64, CE74

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► CEP291 ENVIRONMENTAL LAW AND ASSESSMENT

This unit introduces environmental law. It considers Commonwealth and state legislation, development controls, trends in environmental control, the framework for environmental assessment, description of the environmental setting, and impact assessment and analysis.

**Courses:** CE62, CE64, CE74, CE75

**Contact hours:** 4 per week

**Credit points:** 12

**Sem:** 1

**► CEP292 ENGINEERING PRACTICE 2**

This subject is designed to teach the basic precepts in site management and to provide to the student an insight into the requirements, precepts and problems of construction management. Good engineering requires much more than a demonstrated ability in project management or design specialisation. It requires engineers that possess vision and organisation but, more importantly, the skill to be able to deal with the personnel problems that arise on any project.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

**► CEP293 PAVEMENT DESIGN**

The unit includes investigatory and design procedures as outlined in the AUSTROADS Pavement Design Manual. A section on materials discusses specification requirements and the testing procedures used by authorities to assess the quality of pavement materials and to predict their performance. Other topics, sourced from conference proceedings and industry, deal with the collection and analysis of traffic data, empirical and mechanistic design procedures, maintenance and rehabilitation, and an introduction to pavement management systems. The background information on the history of pavement design and the origin of pavement design theories are also discussed.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Sem:** 1

**► CEP294 ENGINEERING CONTRACT DEVELOPMENT AND ADMINISTRATION**

Good engineering requires much more than a demonstrated ability in project management or design specialisation. It requires engineers that possess vision, strategy, communication skills and the ability to enable others to work together as an effective organisation. To achieve this, financial and legal knowledge is necessary. Contemporary engineering demands that the practising engineer masters not only basic concepts in either design or construction but also current engineering approaches to contract management methods.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► CEP295 CIVIL ENGINEERING MANAGEMENT IN A PROJECT ENVIRONMENT**

Contemporary engineering demands that the practising engineer has not only mastered basic concepts in either design or construction but also has a strong background in current engineering approaches and management methods. This course provides an insight into the requirements, precepts and problems of engineering management of interdisciplinary projects.

**Courses:** CE62, CE64, CE74, CE75

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► CEP997 PROJECT B**

Professional engineers must be able to define and solve problems in areas that are not covered in textbooks and manuals of good practice. Critical assessment of research and development work develops this ability. To obtain appropriate information and to carry out its study need a plan of action. Students enrol in this unit over two semesters, completing 12 credit points in each semester. The aim of this unit is to help the student to develop skills in reviewing literature and reporting on their area of investigation.

**Courses:** CE44, CE46, CE74, CE75

**Credit points:** 24

**Campus:** GP

**Sem:** 1, 2

**CLB001 Records Management**

This unit introduces the paper-based and electronic records and information systems operating within and between organisations and the impact that changes in communication technology have had on these systems.

**Courses:** ED50, ED90

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** COB121

**Campus:** KG

**Sem:** 1

**► CLB002 COMPUTER APPLICATIONS IN BCT**

This unit includes a study of the use of technology for document preparation, analysis of underlying principles of skills acquisition, and traditional and technological perspectives on the following: document design; document formatting; business correspondence; tabulation; financial statements; business forms; document formatting for specialised businesses.

**Courses:** ED50, ED90

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** COB119

**Campus:** KG

**Sem:** 2

**► CLB003 ADMINISTRATIVE PROCEDURES**

This unit includes an analysis of business environments in a variety of industries: communication practices; communication flows; functions and operational procedures; the influence and impact of communication technology.

**Courses:** ED50, ED90

**Corequisites:** COB173

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** COB122

**Campus:** KG

**Sem:** 2

**► CLB004 INTEGRATED FOUNDATION STUDIES 1: VISUAL AND VERBAL LANGUAGE AND LITERACIES**

This unit examines literacy from contemporary perspectives. Literacy education has tended to make an artificial divide between the printed word and visual information. Increasingly, contemporary literate practices combine multiple text forms employing a range of media and technologies to communicate. Texts are spoken, written, visual imagery and other symbolic forms, and are presented in multimedia combinations and digital interactive contexts. This unit examines the complex simultaneity of texts, delivery modes and media that have specific, and more general, social and cultural meaning.

**Courses:** ED91, ED51

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, CB

**Sem:** 1

**► CLB005 INTEGRATED FOUNDATION STUDIES 3: WELLNESS AND ACTIVE CITIZENSHIP**

This unit explores the links between a holistic notion of health and wellness and the practice of active citizenship. It investigates the connections between human wellness, behaviour, and particular social, cultural, civic, economic and environmental relationships that characterise communities at particular times and places. Students are encouraged to analyse critically such connections and utilise their knowledge and understanding to develop a sense of purpose about wellness and active citizenship in an increasingly globalised world.

**Courses:** ED91, IF82, IX12, IX51

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** CLB369

**Campus:** KG, CB

**Sem:** 2

**► CLB006 PRIMARY CURRICULUM AND PEDAGOGIES: LANGUAGE AND LITERACIES 1**

New basics emerge in literacy education. The privileged status of print as the almost exclusive basis to literacy has diminished. Postmodern media culture is powerful and pervasive, and knowledge communication today is as much through multimedia as it is through the single medium of print. This unit acknowledges that children now form their early concepts about literacy from textual environments that are considerably more complex than for those of their predecessors. Contemporary language and literacy education must base its practices on texts from a range of technologies, involving different media, and in recognition of diverse contexts and social purposes for communicating.

**Courses:** ED91, ED51

**Incompatible with:** CLB348

**Campus:** KG, CB

**Sem:** 2

**► CLB007 PRIMARY CURRICULUM AND PEDAGOGIES: LANGUAGE AND LITERACIES 2**

In this unit, students are required to engage with socio-critical and inclusive principles and practices relating to language and literacy education. They will plan for literacy development in a range of contexts, and examine how strategic practice is linked to particular theories of language and literacy development.

**Courses:** ED91

**Credit points:** 12

**Incompatible with:** CLB349

**Campus:** KG

**Sem:** 1

**► CLB008 PRIMARY CURRICULUM AND PEDAGOGIES: STUDIES OF SOCIETY AND ENVIRONMENT**

This unit focuses on recent developments within the social education curriculum area with particular reference to Studies of Society and Environment (SOSE), a national key learning area; it explores teaching and learning approaches in SOSE. Understanding the processes of curriculum development and being able to interpret curriculum documents and their implications for classroom practice are essential professional skills. Students investigate SOSE as a curriculum area and consider ways of translating syllabus requirements into worthwhile teaching and learning activities. Students will critically reflect upon both the theory and the practical suggestions throughout the unit and to consider how effective teaching can be achieved.

**Courses:** ED91

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** CLB376

**Campus:** CB, KG

**Sem:** 2

**► CLB009 ACCOUNTING AND BUSINESS MANAGEMENT CURRICULUM STUDIES 1**

This is the first of three complementary units in Accounting/Business Management Curriculum Studies. The three units have been designed to help prepare students for a professional role as a teacher of secondary school Accounting/Business Management, and also as a teacher of junior secondary school business subjects. In this first unit, the focus will be on curriculum development and teaching approaches in Accounting/Business Management. Teaching is a complex activity, and it has been theorised extensively. In these units, the emphasis will be on situating classroom practice within a defensible theoretical context. Collectively, these units propose that effective teaching results from the integration of theory and practice.

**Courses:** ED55, ED90, ED95, IX03, IX09

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

**► CLB010 ACCOUNTING AND BUSINESS MANAGEMENT CURRICULUM STUDIES 2**

This unit provides opportunities to develop further an understanding of teaching and learning through a greater understanding of the syllabus and the use of advanced teaching strategies.

**Courses:** ED90, ED95, IX03, IX09, ED55

**Prerequisites:** CLB009

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

**► CLB011 ACCOUNTING AND BUSINESS MANAGEMENT CURRICULUM STUDIES 3**

This unit develops an understanding of advanced teaching methods including inquiry-based, cooperative based and problem based learning strategies, and the application of higher order thinking skills.

**Courses:** ED90, ED95, IX03, IX09, ED55

**Prerequisites:** CLB010

**Credit points:** 12

**Campus:** KG, EXT

**► CLB013 BUSINESS AND COMMUNICATION TECHNOLOGIES CURRICULUM STUDIES 2**

This unit provides opportunities to develop further an understanding of teaching and learning in Business Communication and Technologies through a greater understanding of the syllabus

and the use of advanced teaching strategies. The principles of assessment are explored and unit development is undertaken.

**Courses:** ED90, ED95, IX09, ED55

**Prerequisites:** CLB012

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► CLB014 BUSINESS AND COMMUNICATION TECHNOLOGIES CURRICULUM STUDIES 3

This unit will prepare the pre-service teacher, for a role in the near future as a teaching professional. Students will continue to develop an understanding of advanced teaching methods including inquiry based, cooperative based and problem based learning strategies, and the application of higher order thinking skills in the Business Communication and Technologies classroom.

**Courses:** ED90, ED95, IX09, ED55

**Credit points:** 12

**Campus:** KG, EXT

#### ► CLB015 ECONOMICS CURRICULUM STUDIES 1

This unit includes the following: the nature of Economics education and its role, contribution and significance for education; an introduction to the Queensland Economics and SOSE syllabuses and curriculum documents; an introduction to the principles of lesson and curriculum unit planning activities; an introduction to the methodology of inquiry based teaching and learning activities in Economics education. This is the first of three complementary units in Economics Curriculum. The three units have been designed to help prepare students for a professional role as a teacher of Economics. In this first unit, the focus will be on introducing the spirit and purpose of the Economics curriculum and on effecting planning and implementation of innovative teaching approaches in Economics.

**Courses:** ED55, ED90, ED95, IX03, IX09

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► CLB016 ECONOMICS CURRICULUM STUDIES 2

This unit is to provide the pre-service teacher, with opportunities to develop an understanding of teaching and learning in Economics and Studies of Society and Environment (SOSE). The significance of critical approaches and outcomes based approaches are explored in the context of the principles of SOSE/Social Education, pedagogical approaches, syllabus and assessment requirements.

**Courses:** ED90, ED95, IX03, IX09, ED55

**Prerequisites:** CLB015

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► CLB017 ECONOMICS CURRICULUM STUDIES 3

This unit is to develop an understanding of advanced teaching methods including inquiry based, cooperative based and problem based learning strategies, and the application of higher order thinking skills in the Economics classroom. As pre-service teachers, students become more competent in the planning and implementation of a program of assessment, and in the application of criteria to make defensible judgements of learner performances necessary for school based assessment.

**Courses:** ED90, ED95, IX03, IX09, ED55

**Prerequisites:** CLB016

**Credit points:** 12

**Campus:** KG, EXT

#### ► CLB018 ENGLISH CURRICULUM STUDIES 1

This introduction to English teaching in secondary schools, provides an indispensable foundation on which English Curriculum Studies II and III are built. Students develop an understanding of the theories of language and texts which underpin secondary English curriculum and pedagogy and which condition students' learning within English classrooms. This unit will provide opportunities to apply learning to field observa-

tions and to plan to put theory of language, texts and learners into practice for English teaching.

**Courses:** ED55, ED90, ED95, IX01, IX04, IX05, IX08, IX09

**Prerequisites:** 24 credit points in appropriate discipline studies

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► CLB019 ENGLISH CURRICULUM STUDIES 2

This unit provides an opportunity to develop a theorized understanding of the Queensland English Syllabus for Years 1-10 and to implement this understanding by developing lessons and curriculum units which are appropriate for the needs and interests of diverse learners in a range of sociocultural contexts.

**Courses:** ED90, ED95, IX01, IX04, IX05-IX08, IX09, ED55

**Prerequisites:** CLB018

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► CLB020 ENGLISH CURRICULUM STUDIES 3

This unit provides opportunities to develop a theorized understanding of the Queensland English Syllabus for Years 11 and 12, Senior English Communication (SAS) and the Senior English Extension (Literature) Syllabus, and to implement this understanding by analysing and developing senior English programs, teaching and assessment strategies that are appropriate for the needs and interests of diverse learners in particular sociocultural contexts.

**Courses:** ED90, ED95, IX01, IX04, IX05-08, IX09, ED55

**Prerequisites:** CLB019

**Credit points:** 12

**Campus:** KG, EXT

#### ► CLB021 ESL CURRICULUM STUDIES 1

Effective ESL practitioners require a knowledge and understanding of the many factors that impact on the effective learning of a second (or an additional) language and on learning curriculum content through an additional language. They also need to know how these factors influence planning for learning and how they can be managed to maximise learning outcomes. In this first curriculum unit, students will engage with some of the theory that influences approaches to teaching English as an additional language across the curriculum. They will engage with the documents that impact on planning for ESL teaching and learning eg ESL Framework of Stages and NLLIA ESL Bandscales. This unit will provide opportunities for exploring ways of putting this theory into practice.

**Courses:** ED55, ED90, ED95

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► CLB022 ESL CURRICULUM STUDIES 2

This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

**Courses:** ED90, 95, ED55

**Prerequisites:** CLB021

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► CLB023 ESL CURRICULUM STUDIES 3

This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

**Courses:** ED90, ED95, ED55

**Prerequisites:** CLB022

**Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► CLB024 FILM AND MEDIA CURRICULUM STUDIES 1

This unit is designed to develop competencies needed for planning and teaching in junior secondary Media (Years 8-10). Students are introduced to the current curricular directions and frameworks for junior media (1-10) and their applications across the curriculum. The unit will

build on the understandings and skills developed in the unit Teaching and Learning Studies I and II and relate also to Field Studies I. This should assist in preparing students for the further Field Studies components of the course, and lead to the development of knowledge of classroom management skills, lesson design and implementation, social justice and equity issues, and the use of post-lesson reflection and evaluation.

**Courses:** ED55, ED90, ED95, IX01, IX05, IX08

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► CLB025 FILM AND MEDIA CURRICULUM STUDIES 2

This unit allows students to apply theoretical knowledge of the curriculum and Film and Media discipline units to senior secondary contexts. The course offers the opportunity to develop research and presentation skills by formally researching and discussing the teaching implications of a number of current topics in film and media education.

**Courses:** ED90, ED95, IX01, IX05-08, ED55

**Prerequisites:** CLB024

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► CLB026 FILM AND MEDIA CURRICULUM STUDIES 3

This unit allows students to apply technological concepts and skills in senior and junior media studies across other curriculum areas. It allows students to understand and design pre-production texts investigating the role of technologies in the senior curriculum.

**Courses:** ED90, ED95, IX01, IX05-IX08, ED55

**Prerequisites:** CLB025

**Credit points:** 12

**Campus:** KG, EXT

#### ► CLB027 GEOGRAPHY CURRICULUM STUDIES 1

This is the first of three complementary units in Geography Curriculum. The three units have been designed to help prepare students for an international professional role as a teacher of geography or in the Studies of Society and Environment (SOSE) Key Learning Area (KLA) as currently defined in Queensland. The unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom. In this first unit, the focus will be on the spirit and purpose of the geography curriculum and on innovative teaching approaches in geography.

**Courses:** ED55, ED90, ED95, IX01, IX05, IX08

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► CLB028 GEOGRAPHY CURRICULUM STUDIES 2

This unit provides opportunities to develop an understanding of teaching and learning in Geography and Studies of Society and Environment.

**Courses:** ED90, ED95, IX01, IX05-IX08, IX09, ED55

**Prerequisites:** CLB027

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► CLB029 GEOGRAPHY CURRICULUM STUDIES 3

This unit provides opportunities to develop an understanding of recent developments that have influenced teaching and learning in geography.

**Courses:** ED90, ED95, IX01, IX05-08, IX09, ED55

**Prerequisites:** CLB028

**Credit points:** 12

**Campus:** KG, EXT

#### ► CLB030 HISTORY CURRICULUM STUDIES 1

This is the first of three complementary units in History Curriculum. The three units have been designed to help prepare students for a professional role as a teacher of secondary school history, or in the broader field of Studies of Society and Environment (SOSE), a national Key Learn-

ing Area (KLA) that has been adopted by Education Queensland and by many non-state schools. In this first unit, the focus will be on curriculum development and teaching approaches in history. In these units, the emphasis is on situating classroom practice within a defensible theoretical context.

**Courses:** ED55, ED90, ED95, IX01, IX05, IX08  
**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB031 HISTORY CURRICULUM STUDIES 2

This unit provides opportunities to develop an understanding of teaching and learning in History and Studies of Society and Environment (SOSE).  
**Courses:** ED90, ED95, IX01, IX05-IX08, IX09, ED55

**Prerequisites:** CLB030

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

### ► CLB032 HISTORY CURRICULUM STUDIES 3

This unit provides opportunities to develop an understanding of recent developments that have influenced teaching and learning in History.

**Courses:** ED90, ED95, IX01, IX05-IX08, IX09, ED55

**Prerequisites:** CLB031

**Credit points:** 12

**Campus:** KG, EXT

### ► CLB033 LEGAL STUDIES CURRICULUM STUDIES 1

This is the first of three complementary units in Legal Studies Curriculum. The three units have been designed to help prepare students for a professional role as a teacher of secondary school Senior Legal Studies, a teacher of lower secondary subjects which are law-related, particularly the Civics Syllabus of Studies of Society and Environment (SOSE), a national Key Learning Area (KLA) that has been adopted by Education Queensland and by many non-state schools. In this first unit, the focus will be on curriculum development and teaching approaches in legal studies.

**Courses:** ED55, ED90, ED95, IX09

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB034 LEGAL STUDIES CURRICULUM STUDIES 2

This is the second of three complementary units in Legal Studies Curriculum. Units are designed to help prepare for a professional role as a teacher of secondary school Senior Legal Studies, or as a teacher of lower secondary subjects which are law-related, particularly the Civics syllabus of SOSE.

**Courses:** ED90, ED95, IX09, ED55

**Prerequisites:** CLB033

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

### ► CLB035 LEGAL STUDIES CURRICULUM STUDIES 3

This is the third of three complementary units in Legal Studies Curriculum. The unit draws on your knowledge and understanding of the previous units and applies it to law-related education in both the senior and junior secondary school.

**Courses:** ED90, ED95, IX09, ED55

**Prerequisites:** CLB034

**Credit points:** 12

**Campus:** KG

### ► CLB036 LOTE CURRICULUM STUDIES 1

This unit allows students to develop an understanding of the language learning process and an awareness of the place of languages in the school curriculum. Students are encouraged to become reflective learners/teachers who can analyse the contexts in which they work, who are familiar with policy and curriculum issues and who are able to make soundly-based professional judgments designed to maximize learning for all students.

**Courses:** ED90, ED95, IX01, IX05-IX08, ED55

**Prerequisites:** 24cp in appropriate discipline studies

**Credit points:** 12

**Campus:** KG

**Sem:** 1

### ► CLB037 LOTE CURRICULUM STUDIES 2

Practising teachers need to be aware that syllabuses, policy documents, and the classroom practices and teaching strategies to which they give rise reflect underlying views of language and learning.

**Courses:** ED90, ED95, IX01, IX05-08, ED55

**Prerequisites:** CLB036

**Credit points:** 12

**Campus:** KG

**Sem:** 2

### ► CLB038 LOTE CURRICULUM STUDIES 3

This unit builds on the two previous units and explores in greater depth a range of practical and theoretical issues in the area of LOTE curriculum development and implementation.

**Courses:** ED90, ED95, IX01, IX05-08, ED55

**Prerequisites:** CLB037

**Credit points:** 12

**Campus:** KG

### ► CLB039 SOCIAL SCIENCE CURRICULUM STUDIES 1

This is the first of three complementary units in Social Science curriculum aimed at preparing the student to teach Social Sciences in secondary school. This unit focuses on recent developments within the curriculum area of social studies, with particular reference to the field of Studies of Society and Environment a national Key Learning Area. It explores the theoretical context for these curriculum areas, and places emphasis on the links between theory and practice. This unit provides opportunities to investigate Social Science as a curriculum area and to consider ways of translating the syllabus requirements for the lower secondary school into worthwhile teaching activities.

**Courses:** ED55, ED90, ED95, IX01, IX09

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB040 SOCIAL SCIENCE CURRICULUM STUDIES 2

This unit involves translating the syllabuses into modules or units of work, as well as placing an emphasis on assessment principles in Social Science. Students are involved in the development of advanced teaching strategies.

**Courses:** ED90, ED95, IX01, IX09, ED55

**Prerequisites:** CLB039

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

### ► CLB041 SOCIAL SCIENCE CURRICULUM STUDIES 3

This is the third of the complementary units in Social Science Curriculum. It draws on knowledge and understanding of the previous units and applies them to citizenship education, social science teaching in the senior secondary school and future trends in social science education.

**Courses:** ED90, ED95, IX01, IX09, ED55

**Prerequisites:** CLB040

**Credit points:** 12

**Campus:** KG, EXT

### ► CLB043 PRIMARY LOTE CURRICULUM STUDIES 2

Practising teachers need to be aware that syllabi, policy documents and the classroom practices and teaching strategies to which they give rise reflect underlying views of language and learning. This unit will build on Primary LOTE Curriculum Studies 1.

**Courses:** ED91, ED95, ED55

**Prerequisites:** CLB042

**Credit points:** 12

**Campus:** KG

**Sem:** 2

### ► CLB044 PRIMARY LOTE CURRICULUM STUDIES 3

This unit builds on the previous 2 units and explores in greater depth a range of practical and

theoretical issues in the area of LOTE curriculum development and implementation.

**Courses:** ED95, ED55

**Prerequisites:** CLB043

**Credit points:** 12

**Campus:** KG, EXT

### ► CLB049 THE GLOBAL TEACHER

This unit is designed to enhance the skills of educators to design curriculum and pedagogy in ways that address global citizenship and educational and human rights.

**Courses:** ED90, ED91, ED92, ED82

**Credit points:** 12

**Campus:** KG

**Sem:** 1

### ► CLB122 SOSE CURRICULUM AND PEDAGOGIES

This unit is designed to enhance understanding of the nature of SOSE as a curriculum area, and of the SOSE Syllabus and related curriculum documents.

**Courses:** ED96, IX12, IX14

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

### ► CLB123 MULTILITERACIES: DESIGNS FOR LEARNING

Through engagement with critical and socio-cultural principles of language and literacy education, and within a new literacies' organisation, student teachers have opportunities to develop concepts of themselves as life-long learners in the area of language and literacy-related pedagogy and to demonstrate their capacity as effective communicators.

**Courses:** ED96, IX12, IX14

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

### ► CLB304 CONTEXT OF ADULT AND WORKPLACE EDUCATION

This unit investigates and analyses the contemporary contexts of workplace and community education. Specific attention is given to the changing nature of such contexts and to the implications of this for the workplace and communities. For example, changes in the global and national economy, the labour market and work, technology, the family and community, demographics, and policy are explored through an historical and critical approach. Issues raised by such changes (access, equity and participation, credentialing, competency recognition, and the unintended consequences of policy) are key points of investigation.

**Courses:** ED54, ED26

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

### ► CLB306 UNDERSTANDING EDUCATIONAL PRACTICES

This unit considers educational practice: the social, cultural, historical and political contexts of schooling; technologies, practices and strategies employed by schools; the curriculum as a contested site; the place of schooling in the modern state. Critical reflection by students is encouraged, allowing them to engage with others as co-theorists in pedagogical work.

**Courses:** ED50, ED51, ED52, ED53, ED55, ED56, ED57, ED26, IF70-79, IF81-84

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CPB420

**Campus:** KG, EXT

**Sem:** 1, 2

### ► CLB320 STUDIES IN LANGUAGE

This unit addresses the following topics: the language basis in current approaches to the teaching of English; the nature and function of language; the dynamics involved in interactive situations; the appropriateness of language forms used in various social contexts; the educational implications of linguistic diversity within the community; the recognition of the developmental features of adolescent language.

**Courses:** ED50, ED47, ED90, IX01, IX03, IX05

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1, 2

### ► CLB321 WRITING WORKSHOP

The student, as writer, uses all the language modes in social contexts (either genuine or simulated) to lead to writing in a range of situations. Engagement in these writing situations is de-

signed to bring about personal understanding of the following: the nature of the writing process; the influence of audience and purpose on the final written product; the range of genres (or forms) falling within the writing activity.

**Courses:** ED50, ED51, ED52, ED43, ED90  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLB322 LITERATURE IN SECONDARY TEACHING

This unit addresses the following topics: literature teaching in historical perspective; recent developments in theory; poetry in the senior school; teaching drama in the senior school; teaching the novel in the senior school; shorter works (novellas, short stories) and their use in the English curriculum.

**Courses:** ED50, ED90  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► CLB323 TEACHING ADOLESCENT LITERATURE

This unit addresses the following topics: the scope and nature of young adult literature; strategies for evaluation and selection; recent research into adolescents' reading needs, interests and responses; using young adult books in the curriculum.

**Courses:** ED50, ED90, ED91, ED92, ED82, IX01-09  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► CLB326 ENGLISH CURRICULUM STUDIES 2

This unit addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF70, IF75-79  
**Prerequisites:** CLB325  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB328 FILM AND MEDIA CURRICULUM STUDIES 2

This unit addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF70, IF75-78  
**Prerequisites:** CLB327  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB330 LOTE CURRICULUM STUDIES 2

This unit introduces concepts and skills in LOTE curriculum and methodology and prepares appropriately qualified students to teach French, German, Indonesian or Japanese in the upper primary school.

**Courses:** ED50, ED51, ED56, IF82, IF84  
**Prerequisites:** Six language units or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CLB449, CLB450  
**Campus:** KG **Sem:** 1

### ► CLB334 PRIMARY LOTE CURRICULUM STUDIES

This unit introduces concepts and skills in LOTE curriculum and methodology and prepares appropriately qualified students to teach French, German, Indonesian or Japanese in the upper primary school.

**Courses:** ED50, ED51, ED56, IF82, IF84  
**Prerequisites:** Six language units or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CLB449, CLB450  
**Campus:** KG **Sem:** 2

### ► CLB339 ADULT LITERACY AND SECOND LANGUAGE LEARNERS

This unit explores the special literacy needs of second language learners and investigates teaching approaches that recognise these needs, and develop cross-cultural awareness and communication strategies. Topics include the following: a comparison of first and second language literacy;

the relationship between second language oracy and literacy; issues in cross-cultural communication; the literacy impact for non-English speaking background learners of current policy initiatives and workplace practices in second language literacy course design.

**Courses:** ED54  
**Corequisites:** 12  
**Credit points:** 3 per week  
**Campus:** KG **Sem:** 1

### ► CLB347 TEACHING ENGLISH AS AN ADDITIONAL LANGUAGE

This elective unit for students in all teaching specialisations will develop understanding of specific language and learning needs of students for whom English is a second language. It deals with differences in first and second language development, professional implications of significant policy initiatives related to second language learners, and issues in analysis, assessment and cross-cultural communication. Participants will also investigate language demands of their own area of specialisation and develop appropriate teaching techniques and resources.

**Courses:** ED43, ED50, ED51, ED52, ED54, ED55, IF70-79, ED90, ED91, ED92, ED82  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► CLB356 ACCOUNTING/BUSINESS MANAGEMENT CURRICULUM STUDIES 2

This unit addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF79, IF72  
**Prerequisites:** CLB355  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB358 BUSINESS COMMUNICATIONS AND TECHNOLOGIES CURRICULUM STUDIES 2

This unit addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF79  
**Prerequisites:** CLB357  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB360 ECONOMICS CURRICULUM STUDIES 2

This unit is a continuation of CLB359. It includes the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF79, IF72  
**Prerequisites:** CLB359  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB362 GEOGRAPHY CURRICULUM STUDIES 2

This unit addresses the following topics; curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF70, IF75-79  
**Prerequisites:** CLB361  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB364 HISTORY CURRICULUM STUDIES 2

This unit addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF70, IF75-79

**Prerequisites:** CLB363

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB366 LEGAL STUDIES CURRICULUM STUDIES 2

This unit is a continuation of PRB365. It addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; advanced teaching strategies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF79  
**Prerequisites:** CLB365  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB368 SOCIAL SCIENCE CURRICULUM STUDIES 2

This unit addresses the following topics: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF70, IF79  
**Prerequisites:** CLB367  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLB371 KNOWING YOUR ENVIRONMENT: FROM GLOBAL ISSUES TO LOCAL ACTION

This unit is an interdisciplinary social science approach to explore the origins, nature and impact of various environmental issues that threaten the continuing viability of our planet. Its aim is to develop a sound skills and knowledge base enabling students to analyse, synthesise and respond positively to many of the controversial and vital environmental problems at a local, national and global level.

**Courses:** ED52, ED51, ED43, ED90, ED91, ED92, ED82  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► CLB372 SUSTAINABLE CONSUMPTION: FROM COCA-COLA TO THE COMMUNITY CO-OP

This unit is designed to enhance the knowledge and skills of the individual in one of the most important roles in a market oriented economy. Content includes the following: the role and functions of consumers in the Australian economy; the interrelationship between consumers, business and government; consumer protection laws and the need for them; ways of developing pro-active consumerism; consuming for the environment - the green consumer.

**Courses:** ED52, ED51, ED43, ED90, ED91, ED92, ED82  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► CLB373 ENVIRONMENTAL FUTURES AUSTRALIA AND THE ASIA PACIFIC

This unit provides a futures approach in the study of the rapidly changing Asia-Pacific region. An introduction to the study of the future is made through an analysis of principal methods and contemporary contributors such as Toffler and Jones. Methods and models that are applied are relevant to Australia, Asia and the Pacific, involving such themes as population and migration, international relations, political institutions and systems, resource allocation and utilisation, sustainable development, environment issues, and structural change.

**Courses:** ED52, ED51, ED43, ED90, ED91, ED92, ED82  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► CLB374 STUDIES OF SOCIETY AND ENVIRONMENT

This unit includes the following: an investigation of the key learning area of Studies of Society and Environment disciplinary versus interdisciplinary approaches; analysis of key strands; values; curriculum perspectives including gender perspectives; Aboriginal and Torres Strait Islander per-

spectives; multicultural perspectives; global perspectives; futures perspectives; technology and VET perspectives.

**Courses:** ED50, ED55, IF70-79

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **CLB375 EXPLORING OUTDOORS; EDUCATION IN THE ENVIRONMENT**

This unit is designed to identify and value a wide range of field study resources and venues. Extensive involvement with field study experiences will assist students in developing appropriate skills for investigating environmental issues and concerns as well as helping students reflect and refine the usefulness and value of field experience in developing effective environmental education programs.

**Courses:** ED43, ED51, ED52, ED90, ED91, ED92, ED82

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **CLB376 STUDIES OF SOCIETY AND ENVIRONMENT CURRICULUM**

This unit provides an opportunity for students to investigate the philosophical and pedagogical characteristics of this teaching area. Ways of translating syllabus requirements into worthwhile curriculum units, and teaching sequences, are considered. The unit will enable students to gain an understanding of significant societal and environmental problems.

**Courses:** ED26, ED51, ED56, IF82, IF84

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 3

► **CLB377 BUSINESS EDUCATION STUDIES**

This unit enables students to develop those competencies needed for planning and teaching Business Education subject areas, which are additional to their two major curriculum areas. A selection of three areas will be made from Accounting, Business Communication and Technology Education, Business Organisation and Management, Economics, and Legal Studies. Competencies covered will include a basic knowledge of curriculum planning, appropriate teaching strategies and resources, and assessment planning and implementation.

**Courses:** ED50, ED55

**Prerequisites:** 24 credit points in Business Education Curriculum units.

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **CLB401 CULTURAL DIVERSITY AND EDUCATION**

This unit explores the multicultural nature of Australian society and its educational approaches to addressing the needs of cultural diversity. Participants will analyse the role of the school and the teacher with respect to schooling and pluralism. Students will learn how to identify and challenge various forms of discrimination, and recognise the kinds of social, curriculum, and classroom management policies which are sensitive to the needs of students from diverse socio-cultural backgrounds.

**Courses:** ED90, ED91, ED92, ED82, ED26, ED43, ED50, ED51, ED52, ED53, ED54, ED55, IF70-79

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2, 3

► **CLB402 ISSUES IN INDIGENOUS EDUCATION**

This unit addresses the following topics: factors influencing the position of Aborigines and Torres Strait Islanders in Australian society; government policies; indigenous cultures and education; current initiatives; participation of indigenous communities in policies and programs.

**Courses:** ED90, ED91, ED92, ED82, ED26, ED50, ED51, ED52, ED53, ED54, ED55, IF70-IF79

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

► **CLB403 GENDER AND SEXUALITY ISSUES FOR TEACHERS**

This unit addresses the following topics: gender and sexualities in cultural and school contexts;

historical overview of gender relations; theoretical frameworks for gender and current debates in Australia about gender and equity; femininity and masculinity as social constructs; sexuality and the body; violence and gender; debates about boys' behaviour and performance in Australian schools.

**Courses:** ED26, ED43, ED50, ED51, ED52, ED54, ED55, IF70-79

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **CLB411 INTRODUCTION TO PRODUCTION PRACTICE IN FILM AND MEDIA CURRICULUM**

The relevance of media studies across the curriculum is reflected in the recently developed range of state and national curriculum documents that draw attention to the study of the media. The Queensland Studies Authority approved subject Film and TV requires that teachers are technologically literate and competent users of audio visual technologies in the production practice and production design aspects and dimensions of the curriculum. This unit aims to equip teachers with the skills they require to teach this complex aspect of their subject area (75% of senior Film and Television is practically based) and builds on previous discipline units, which are more industry based. The unit also relates directly to the competencies required of the pre-service teacher on practicum.

**Courses:** ED50, ED55, IF70-79

**Prerequisites:** CLB327, CLB328

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **CLB413 PROGRAMMING AND ASSESSMENT IN LANGUAGE AND MATHEMATICS**

The unit has two main components: a lecture sequence which provides generic information on State and National initiatives and practices in assessment and intervention in both language and mathematics; two practical strands in which students will plan for unit development, assessment and intervention in both language and mathematics.

**Courses:** ED51, ED56, IF82, IF84

**Prerequisites:** Language and Mathematics Curriculum Sequences

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **CLB441 CHILDREN'S LITERATURE**

This unit provides students with the opportunity to extend their knowledge of children's literature written by both Australian and overseas writers. It examines traditional and emerging genres, develops critical approaches to texts, and considers ways of using children's literature in the classroom.

**Courses:** ED90, ED91, ED92, ED82, ED26, ED51, ED52, ED53, ED43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **CLB443 TRENDS IN THE TEACHING OF READING**

This unit provides students with the opportunity to extend their understanding of the reading process and it examines current views about reading in order to identify key concepts of the theory. By identifying factors which influence readers and texts and the roles these play in understanding meanings, implications for classroom practice are drawn and learning situations based on these understandings are developed.

**Courses:** ED26, ED50, ED55, IF70-79

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 3

► **CLB446 UNDERSTANDING TEXTS AND WRITING**

Over the past twenty years, linguistic studies have increasingly informed the development of language curriculum, the assessment of language, and the processes of language and literacy learning in schools. Over the same time, the need for teachers to have systematic knowledge of language and how it works has been recognised. In much of Australia this systematic approach to describing language comes principally from the systemic functional school of linguistics. This unit provides an organised, contextualised intro-

duction to that linguistic model through workshop sessions involving the writing and reading of a range of genre. In this unit, students will learn to critically evaluate texts, their purposes and the language resources employed by writers.

**Courses:** ED90, ED50, ED51, ED52, ED43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **CLB448 ENGLISH AS A SECOND LANGUAGE CURRICULUM STUDIES 2**

Continuation of LAB447 shows students how curriculum materials and resources are implemented through appropriate approaches, methodologies and techniques for individuals, groups or whole classes of learners who are non-native speakers of English.

**Courses:** ED50, ED55 **Prerequisites:** CLB447

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **CLB450 PRIMARY LOTE CURRICULUM STUDIES 2**

This is a continuation of CLB449. It presents content, processes and materials appropriate to the planning and implementation of LOTE programs in the primary school that integrate culture and language, articulate with the rest of the primary curriculum and in which learners become more interested in, and aware of, languages and cultures other than their own.

**Courses:** ED55 **Prerequisites:** CLB449

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CLB334

**Campus:** KG **Sem:** 1

► **CLB452 MEDIA LITERACY AND THE SCHOOL**

The unit aims to equip future teachers with an understanding of media literacy which they can apply to their own professional growth and incorporate into an educational environment. Aspects of media techniques and practices, relationships between culture and meaning, nature of an audience, and concepts of agents and industry will be explored.

**Courses:** ED90, ED91, ED92, ED82, ED47, ED51, ED52

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** LAP513

**Campus:** KG **Sem:** 1

► **CLB453 NEW LITERACIES AND TECHNOLOGIES ACROSS THE CURRICULUM**

This unit provides students who have successfully completed CLB341 Language, Technology and Education the opportunity of further developing cross-the-curriculum approaches to new technologies and literacies in education. Students will undertake negotiated school-based projects to develop learning resources by applying new technologies and literacies in actual classroom contexts.

**Courses:** ED50, ED55, IF70-79

**Prerequisites:** CLB341 **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **CLB454 LANGUAGE AND LITERACY CURRICULUM**

Following an introduction that points out how particular language and literacy theories underpin curriculum in Years 1-7 classrooms, the unit is constructed in three modules. The first explores planning for teaching reading, spelling and writing. The second module engages with a genre approach to reading and writing. The third module plans a critical approach to literacy education.

**Courses:** ED26, ED56, IF82, IF84

**Contact hours:** 3 per week **Credit points:** 12  
**Sem:** 2

► **CLN601 CYBERLEARNING: INFORMATION & KNOWLEDGE IN THE DIGITAL AGE**

The aim of this unit is to provide a forum for student to critique cyberlearning as it occurs in a variety of synchronous and asynchronous digital environments.

**Courses:** ED09, ED13

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► CLN602 DIVERSITY AND MULTILITERACIES

The unit aims to provide students with opportunities to take investigative and critical approaches to multiliteracies education. It is designed for students to identify, justify, and highlight a schooling or work place 'work order' that addresses changing contexts of communication and social justice agendas.

**Courses:** ED09, ED13

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► CLN603 DESIGNING SPACES FOR LEARNING

This unit provides a foundation for understanding the complex relations among space, place and learning pedagogies appropriate to the design of innovative, adaptable supportive spaces for learning in future-oriented educational contexts.

**Courses:** ED09, ED13

**Campus:** KG, EXT **Sem:** 2

### ► CLN604 GLOBALISATION AND EDUCATIONAL CHANGE

This unit explores how different paradigms interpret globalisation, global change and the implications for education. It undertakes a comparative analysis of the impact of globalisation on schooling, higher education and the work of multilateral agencies in education across different national and local contexts.

**Courses:** ED09, ED13

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► CLN608 SECOND LANGUAGE ACQUISITION

Research into second language acquisition is providing new insights into the complex processes involved in natural and instructed language development. This unit extends participants' knowledge of research into, and theories of, second language acquisition, and explores pedagogical implications and the relevance of research and theories to the enhancement of second language acquisition and learning.

**Courses:** ED14, ED11, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN612 PRINCIPLES OF SECOND LANGUAGE METHODOLOGY

This unit considers the range of approaches to second language learning and the theories of language and learning which underpin them: theories of language and learning and their implications for TESOL; the social context of learning and its impact on methodological decision-making; current approaches and methods in TESOL; the roles of teachers and learners in the TESOL classroom.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN613 SECOND LANGUAGE CURRICULUM DESIGN OPTIONS

This unit introduces the factors that influence teachers in the development of language programs. It includes analysis of the following areas: learner profiles and needs; aims and objectives; processes and criteria for selecting methodology; content selection and sequencing; choice and evaluation of materials and resources.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN615 DIRECTED READING IN SECOND LANGUAGE EDUCATION

This unit provides an opportunity for teachers and others involved in TESOL to review current research articles to gain an overview of developments in TESOL/Applied Linguistics and to explore one or two personal interest areas in greater depth.

**Courses:** ED14, ED77 **Prerequisites:** CLN618

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2, 3

### ► CLN616 LANGUAGE ASSESSMENT AND PROGRAM EVALUATION IN TESOL

This unit introduces the theories and practices in program evaluation, language testing and proficiency assessment. It examines and evaluates standardised tests and instruments that are used to assess the English language proficiency of speakers for whom English is a second language.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN617 PERSONALISED LANGUAGE DEVELOPMENT

Language learning is a lifelong task. This unit allows teachers to take a program of language development aimed at improving their level of proficiency and enhancing their cultural awareness. Students wishing to take this unit should discuss options with the coordinator.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN618 TECHNOLOGY AND SECOND LANGUAGE LEARNING

The twentieth century saw a rapid change in the technology available to language teachers. This unit explores the creative teaching potential of this technology in areas such as computer enhanced language learning (CELL), interactive multimedia (including CD-ROM and video disc) and the use of linear video, word processing and audio materials. The unit will also explore access to and pedagogical uses of electronic communication such as email, list servers and bulletin boards.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN620 LANGUAGE AND CULTURE

This unit explores the relationship between language and culture, drawing on insights from linguistics, sociolinguistics and cultural theory. It analyses the co-constitutive nature of language and culture, and examines how this relationship can be explored in the TESOL context.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► CLN640 SOCIOLINGUISTICS

This unit is an introduction to sociolinguistics, the study of language as social process and practice. Topics covered include the following: language functions and varieties; regional and social dialects, styles and registers; pidgin and Creole languages; language as social practice; discourse; speech communities; language and power; sociolinguistics and language teaching.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► CLN641 FROM THEORY TO PRACTICE -PRACTICAL APPLICATIONS IN THE TESOL CLASSROOM

This unit focuses on Communicative Language Teaching (CLT). It extends students' knowledge of the general trends in methodology learned in CLN612, by providing a theoretical basis for CLT and various opportunities to apply the theoretical framework to classroom practice.

**Courses:** ED14, ED77

**Prerequisites:** CLN612 **Corequisites:** CLN612  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

### ► CLN642 GRAMMAR FOR TEACHERS

This unit assists language teachers to develop a better understanding of grammar and its place in the teaching and learning of a second language. Participants will develop their own language awareness and explore a range of strategies and techniques for the effective integration of grammar instruction into language programs.

**Courses:** ED14, ED77

**Prerequisites:** CLN608, CLN612

**Corequisites:** CLN608, CLN612

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 3

### ► CLN643 ENGLISH LANGUAGE TEACHING MANAGEMENT

This unit examines a range of issues of relevance for ESL program directors and managers: organisational cultures, educational leadership and human resource management in TESOL; the role of teachers in the TESOL service industry; legal and industrial contexts of TESOL in Australia; TESOL marketing, promotion and funding; the implications of globalised English language teaching.

**Courses:** ED14, ED77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► CLN644 LITERACY DEVELOPMENT: THE EARLY AND MIDDLE YEARS

Professional practitioners are encouraged to continue developing as literacy educators through engagement with critical and socio-cultural perspectives.

**Courses:** ED09, ED13

**Campus:** KG **Credit points:** 12 **Sem:** 1

### ► CLN645 STUDIES OF ASIA: NEW PEDAGOGIES

This unit employs several theoretical frameworks to investigate significant aspects of Asian societies, their relationships with Australia and debates about the role of education in empowering Australians for regional engagement.

**Courses:** ED09, ED13

**Campus:** KG **Credit points:** 12 **Sem:** 1

### ► CLN646 THE KNOWLEDGE HUB: INFORMATION SERVICES FOR DYNAMIC LEARNING

The unit provides a research based, theoretical and practical context for exploring organisational, pedagogical, technological and professional dimensions of school libraries and other information services for prospective teacher-librarians, information professionals, and other educators.

**Courses:** ED09, ED13

**Campus:** EXT **Credit points:** 12 **Sem:** 1, 2

### ► CLN647 YOUTH, POPULAR CULTURE, AND TEXTS

In the diverse terrain of popular culture, youth find the resources and means for identity formation, social relations, and pleasure, and develop a range of knowledge, skills, values and attitudes. Educators need to understand the ways popular cultural texts (literary, mass media, computer-based and digital) form the cultural capital of youth and give meaning to their experiences.

**Courses:** ED09, ED13

**Campus:** EXT **Credit points:** 12 **Sem:** 1

### ► CLN648 INDIGENOUS KNOWLEDGE: ISSUES IN EDUCATION

This unit builds upon students' knowledge and/or experience within Australian educational contexts and aims to assist students in their understandings of their own cultural subjectivities, developing their skills in critically analysing the education system in Australia.

**Courses:** ED09, ED13

**Credit points:** 12 **Campus:** KG

### ► CLN649 GENDER AND POWER: AN INTERNATIONAL ANALYSIS

This unit explores the historical and cultural dimensions of gender and its intersection with power from a range of international and Australian perspectives. Drawing upon various international human rights debates, and through a series of case studies, the unit examines constructions of sexuality, moral and technological discourses of the body, and significant relationships between sex, power and resistance in the New World Order.

**Courses:** ED09, ED13

**Credit points:** 12 **Campus:** KG

### ► CLP501 SOCIO-CULTURAL ISSUES IN EDUCATION

This unit examines socio-cultural contexts of schooling, the pastoral care and special needs industries, resistance and disruption in schools, and disability and integration.

**Courses:** ED28, ED61

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► CLP527 LEARNING IN THE INFORMATION AGE**

This unit offers educators a theoretical and practical context for exploring how technology is used in learning. This entails understanding how current societal and institutional changes are redefining the relationship between learning and technology in what has been called 'the information age'. Opportunities for reflective practice on learning about, through, and with technology will be provided.

**Courses:** ED25, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► CLP528 LITERARY AND POPULAR RESOURCES FOR LEARNING**

This unit addresses issues related to resourcing the curriculum to prepare educators to cater for the recreational needs and interests of young people. Students are required to read widely and critically contemporary literature written for young people, to become familiar with and critique educational resources in a variety of print and electronic formats, to be alert to the learning resource implications of changing curricula, and to consider the resource needs of students that extend beyond the classroom, yet influence their learning.

**Courses:** ED25, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► CLP529 COMMUNICATION WITHIN AN INFORMATION ENVIRONMENT**

This unit considers the theory and practice of interpersonal communications and management and leadership issues that professionals can apply and evaluate in managing information within their own work environments.

**Courses:** ED25, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► CLP530 ACCESSING INFORMATION SOURCES**

This unit addresses the following topics; the search process and search strategies; effective utilisation of library catalogues and other services for the retrieval of information; basic reference and information sources; effective searching the World Wide Web; evaluation of information and of methods of finding it.

**Courses:** ED25, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► CLP531 FIELD PROGRAM**

This unit addresses the principles and practice of school library resource centre administration and management, including the study of library environment, administrative systems and staff management and the study of the literature of the field, and of work practices through experience in at least two sites.

**Courses:** ED25 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► CLP532 BIBLIOGRAPHIC ORGANISATION**

This unit addresses the following topics: library systems for the organisation of information; development of effective, user-friendly catalogues, with automation where appropriate; study of SCIS (School Catalogue Information Service)/AACR (Anglo-American Cataloguing Rules) cataloguing guidelines, SCIS subject headings, and Dewey Decimal Classification; study of indexing and other bibliographic helps to accessing information in books and other library holdings.

**Courses:** ED25 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

**► CNB101 CONSTRUCTION 1**

This unit covers the following: the role of construction in society; application of relevant legislation to building work including the Building Code of Australia and relevant Australian Standards; methods of construction and performance principles in timber and masonry construction including foundation and footings; high and low set timber, brick veneer, cavity brick and masonry block; external and internal linings and claddings; window, doors and associated joinery; staircases in timber and concrete; roof coverings of clay and concrete tiles; corrugated and tray sheeting; cut and fill; surface and subsurface

drainage systems; landscape retaining walls; acoustic and fire safety requirements; drafting construction details.

**Courses:** CN51, CN53 **Corequisites:** CNB102  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► CNB102 BUILDING TECHNOLOGY 1**

Structural and non-structural materials used in the construction process are examined focusing on the basic properties, construction applications, behaviour, strength, durability, suitability, and limitations: material manufacture; acoustic and thermal properties; fire tests and fire hazard properties; issues such as cleaning and maintenance; corrosion protection; deterioration and ageing; sustainable development; material recycling; storage on site; installation processes; identification and causes of building defects; recommendations for potential remedies.

**Courses:** CN51, CN53 **Corequisites:** CNB101  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► CNB105 LEGAL AND LAND STUDIES**

This unit addresses the following topics: structure of the Australian legal system; land law; environmental law; permits; Building Code of Australia, housing provisions; Standard Building Regulation 1993; land Surveying, levelling and data analysis; trigonometry; geometry; unit conversions; manipulation of equations; estimation of accuracy/errors; vectors and their applications; levels and levelling; reading and recording observations; 2-peg test; linear measurement; correction to measurements; the theodolite; angles and bearings; traverses and traverse calculations; setting out; contours (AHD v assumed datum) and volumes; cadastre, balanced cut and fill.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► CNB106 TECHNICAL COMMUNICATIONS**

This unit addresses the following topics: research, writing and learning processes; information literacy and retrieval skills; written communication skills; presentation strategies and skills; The QUT library as a resource; writing processes including types, formats, styles; referencing; job application and interview skills. Computing at QUT; electronic information retrieval; QUT electronic databases, software packages including Word, Excel, CAD, Adobe Acrobat and image manipulation software; Computer hardware including digitisers, printers and plotters.

**Courses:** CN51, CN53  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► CNB107 CONSTRUCTION 2**

The aim of this unit is to provide students with extensive theoretical knowledge to manage and supervise the construction of (1) low rise residential apartment buildings, (2) commercial buildings ie shops, offices, and (3) industrial buildings. The unit focuses on the following: legislative requirements; on-site inspections; site management techniques; temporary works & construction plant requirements; labour; in-ground construction; external treatments (cladding); formwork; bracing and stability; services coordination; landscaping; environmental considerations, building defects; disabled access; universal design; load-bearing masonry; services coordination; internal fitout; tilt panel construction; portal/steel frames.

**Courses:** CN51, CN53  
**Prerequisites:** CNB101 **Corequisites:** CNB108  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► CNB108 BUILDING TECHNOLOGY 2**

Structural engineering analysis examines structural principles, structural action, load paths and equilibrium. Structural characteristics are examined through first principles including tension, compression, bending and shear forces. Quantitative, qualitative techniques and approximate methods are used as well as computer software in structural analysis.

**Courses:** CN51, CN53  
**Prerequisites:** CNB102 **Corequisites:** CNB107

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► CNB109 PROFESSIONAL STUDIES 1**

This is assignment-based project orientated group work where students design and document a new dwelling preparing a full design of a single level brick-veneer type dwelling to a standard appropriate for building approval including architectural and structural design, construction materials, building services, statutory obligations and the building approval, measuring and cost planning, contract administration, construction planning, and site layout.

**Courses:** CN51, CN53 **Prerequisites:** CNB101  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► CNB110 MEASUREMENT 1**

This is an introduction to the scope of the role of the Quantity Surveyor working independently and for contractors; the tendering process and the bill of quantities; the Australian Standard method of measurement (rules, taking off methodology, mensuration and formulae); measurement of various work sections (finishes, roofing, partitions, woodwork, metalwork, painting, doors, windows, glazing, hardware, suspended ceilings and masonry).

**Courses:** CN51, CN53  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► CNB120 ECONOMICS IN THE CONSTRUCTION INDUSTRY**

This unit covers the following: introduction to economics; operations of the whole economy; the price mechanism; markets and market structures; land use economics; the construction industry; structure, operation and segments; housing and commercial buildings; the firm in theory and revenue analysis; cost analysis, investment, risk and profitability; business cycles and fluctuations in the construction industry; stabilisation policies; structural change.

**Courses:** CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► CNB190 INTRODUCTORY STUDIES**

This subject is divided into four distinct but inter-related areas. (a)It examines tertiary learning and the processes necessary for effective and successful study. (b)It satisfies the need of professionals to complement their technical expertise with excellent writing and oral presentation skills. (c)It introduces the student to the versatility of the modern desktop computer and software packages and how they may be used to assist in the provision of professional services. (d)It introduces students to information retrieval techniques in accord with current Information Literacy program development.

**Courses:** CN54  
**Credit points:** 12 **Incompatible with:** CNB181  
**Campus:** GP **Sem:** 1

**► CNB191 PROPERTY LAW 1**

The following topics are covered in this unit: legal principles and process; the legal system and process; sources and divisions of the law; rules of precedence; interpretation of statutes and regulations; legal practice and procedure; elements of law of property, including ownership and possession, estates and interests in land; easements, rights and restrictive covenants; party walls, boundary walls, fences and encroachments.

**Courses:** CN54 **Credit points:** 12  
**Incompatible with:** CNB183  
**Campus:** GP **Sem:** 1

**► CNB192 BUILDING STUDIES 1**

The unit introduces students to the principles and methods of domestic construction. For each of the building types covered, common construction faults and defects are also addressed. Tutorials are used to reinforce the lecture material to teach the students to read and understand building documents, to measure building areas and to examine documents prepared by the various building consultants. Students are required to visit relevant building sites.

**Courses:** CN54 **Credit points:** 12  
**Incompatible with:** CNB182

**Campus:** GP**Sem:** 1**► CNB193 PROPERTY LAW 2**

This subject covers legal aspects of the auctioneer and agents act, residential tenancies act, land sales act, building unit and group titles act, laws of principal and agents, body corporate management, law of partnership, company law and bankruptcy and liquidation, the law of torts, fair trading and misrepresentation.

**Courses:** CN54**Prerequisites:** CNB191**Credit points:** 12**Incompatible with:** CNB283**Campus:** GP**Sem:** 2**► CNB194 PRINCIPLES OF PROPERTY VALUATION**

This subject is structured to assist student learning across the three component areas of market, profession, and methods. This will be achieved through coverage of the following topics: character of the property market; market value; nature and role of stakeholders; legal interests in property and property types; valuation process and methods for freehold property interests; data collection; factors influencing market value; report writing and oral presentation; codes of professional practice.

**Courses:** CN54**Prerequisites:** BSB113 **Corequisites:** EFB102**Credit points:** 12 **Incompatible with:** CNB180**Campus:** GP**Sem:** 2**► CNB201 CONSTRUCTION 3**

Students learn how to construct a high rise structure from the basement to the roof: focus on protection to the public during construction, temporary support; demolition; temporary services; deep excavation and foundations; retention and shoring systems; structural components; multilevel formwork; interaction of building components, systems and services; common building faults, failures and rectification; alternative forms of external cladding; waterproofing problems.

**Courses:** CN51, CN53**Prerequisites:** CNB107 **Corequisites:** CNB202**Contact hours:** 5 per week **Credit points:** 12**Campus:** GP**Sem:** 1**► CNB202 BUILDING TECHNOLOGY 3**

This unit includes the study and analysis of engineering components and systems to develop a sound understanding of how a building achieves structural stability and equilibrium through its load paths. This includes basic structural member design for tension and compression, and bending and shear loads through detailed examination and the use of relevant Australian Standards as the basis for examination. Emphasis is on approximate or first order of magnitude techniques suitable for estimating of checking purposes. Structural systems analysis includes trusses and retaining walls with an emphasis on qualitative and quantitative techniques. Construction stability is examined in detail including cranes, shoring, scaffolding, and slings.

**Courses:** CN51**Prerequisites:** CNB108**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP**Sem:** 1**► CNB203 BUILDING SERVICES**

The following building services are introduced in this unit: Fire Services: fire detection, suppression and extinguishment; statutory requirements for maintenance of essential active fire services; Hydraulics Services: building hydraulic services including water supply, fire protection and sanitary waste disposal systems; Mechanical Services: air movement; types of ventilation; air-conditioning systems and heating; installation procedures and the issue of confined spaces; basis of design and effect of architectural style; Electrical Services: transformers, sub-stations, switchboards, protection devices, lighting systems, stand-by generators, security systems; systems monitoring and energy management; vertical transportation systems; Energy Efficient Services: examination of energy efficient design.

**Courses:** CN51, CN53**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP**Sem:** 1**► CNB204 MEASUREMENT 2**

Measurement is a core skill among building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers the following: measurement of various work sections (concrete, formwork, reinforcement, groundworks, underpinning, tanking, structural steelwork, exterior elements, and bored piers); development and application of builders' quantities.

**Courses:** CN51, CN53 **Prerequisites:** CNB110**Contact hours:** 5 per week **Credit points:** 12**Campus:** GP**Sem:** 1**► CNB206 LAW 1**

Tort Law is introduced under the following headings: negligence; professional negligence; duty of care; liability; occupier liabilities; nuisance; fraud and conversion; contract law parties; formation of contracts (agreement, intention, consideration, estoppel); enforcement of contracts (privity, formalities); contents of contracts (oral statements, express and implied terms); tendering issues; variations; time; payment and liquidated damages; environmental law - constraints; water noise and dust; vibration from blasting; heritage; erosion and sediment control; contaminated land; safety; sustainable development; waste management and control.

**Courses:** CN51, CN53**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP**Sem:** 2**► CNB207 PROFESSIONAL STUDIES 2**

This unit adds to information about Tort Law: negligence; professional negligence; duty of care; liability; occupier liabilities; nuisance; fraud and conversion; contract law parties; formation of contracts (agreement, intention, consideration, estoppel); enforcement of contracts (privity, formalities); contents of contracts (oral statements, express and implied terms); tendering issues; variations; time; payment and liquidated damages. It also addresses Environmental law under the following headings: constraints; water noise and dust; vibration from blasting; heritage; erosion and sediment control; contaminated land; safety; sustainable development; waste management and control.

**Courses:** CN51, CN53**Prerequisites:** CNB109, CNB107**Contact hours:** 4 per week **Credit points:** 12**Campus:** GP**Sem:** 2**► CNB209 THE ENVIRONMENT AND THE QUANTITY SURVEYOR**

This unit will involve professional Quantity Surveying including image and status, fees, codes of ethics, professional competence and continuing professional development. In terms of employment, professional engagement in the workplace will be covered including terms of engagement, professional indemnity insurance, quality assurance and financial asset management. The work of quantity surveying takes place within a social and environmental context and this relates to the interactions between business and environmental interests including the natural environment, environment economics and ecologically sustainable development.

**Courses:** CN53**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP**Sem:** 1**► CNB227 APPLIED COMPUTING**

This unit assists the construction manager to select and use the relevant construction software to measure, estimate, manage, plan, schedule and organise on and off site activities on a construction site. This unit comprises three major components: (a) the advanced application of spreadsheet and databases, (b) the application of construction management packages; (c) the integration of computer software. A range of computer products are introduced to cover construction management topics such as project scheduling, project control, estimation, and cost monitoring.

**Courses:** CN52, CN53**Contact hours:** 4 per week**Incompatible with:** CNB304**Campus:** GP**Sem:** 2**► CNB228 CONSTRUCTION BUSINESS ADMINISTRATION**

This unit addresses the following Construction Administration topics: structuring the budget documents to provide control mechanisms or cost monitoring and purchasing; dealings with sub-contractors during initial negotiations and subsequent execution of the contract on a conceptual and operational level; dealing with the client on variations in the physical work and the consequences on time in both commercial and contractual terms, with the implications traced through to the sub-contract level; techniques for the prediction of profitability and the procedures for claiming final payment and finalising the contract. The unit also examines the Workers Compensation Act, the Workplace Health and Safety Act, and Regulations and Codes of Practice.

**Courses:** CN51**Credit points:** 12**Campus:** GP**Sem:** 2**► CNB290 BUILDING STUDIES 2**

Building Studies 2 continues to develop the students' construction knowledge with reference to larger commercial and high-rise buildings. Lectures provide a general overview of advanced construction methods while developing students' appreciation of such issues as material finishes, interior fit-outs, typical problems and solutions, interior and exterior component finishes, and fault identification and remedy. The unit also examines the history and need for cost control, comparisons between cost planning and approximate estimating. It also addresses NPWC cost control systems, the effect of height, shape and building efficiency upon cost and value, the functional requirements and cost implications of construction methods and the influence of site and market conditions.

**Courses:** CN54**Credit points:** 12 **Incompatible with:** CNB282**Campus:** GP**Sem:** 1**► CNB291 URBAN LAND ECONOMICS**

The unit builds on the student's previous exposure to economic theory and applies that knowledge to assist the student's appreciation of the economic imperatives which drive and shape urban development. Topics covered will include the following: economic processes in spatial and land use development; urban growth theory; competing land use; supply and demand in the pricing of urban property; the concept of the 'rent bid curve'; business location theory; the impact of land based communications corridors on price; technology and footloose location theory; planning and government control on free market pricing; environmental and heritage issues; and local government regulation and by-laws.

**Prerequisites:** BSB113, EFB102**Credit points:** 12**Campus:** GP**Sem:** 1**► CNB292 PROPERTY INVESTMENT VALUATION**

This unit develops further the basic property valuation principles introduced in CNB194, Principles in Property Valuation. The emphasis now moves to the valuation of income producing property assets which are more commonly termed 'investment properties'. Topics covered include the mathematics of freehold and leasehold property valuation, utilising the time value of money formula as exhibited in the capitalisation of net income and discounted cash flow approaches.

**Courses:** CN54**Prerequisites:** CNB194**Credit points:** 12**Campus:** GP**Sem:** 1**► CNB293 REAL ESTATE ACCOUNTING AND TAXATION**

This unit addresses the following: introduction to the business environment surrounding the property industry; introduction to accounting; financial accounting (recording accounting information and basic financial statements, company accounts and other business structures, cash flow statements, interpretation of accounts); cost and management accounting (accounting for inventory and manufacturing, basic cost accounting procedures and direct and indirect costs); financial management (accounting systems, cash con-

trol and payroll); accounting for Real Estate trust accounts; taxation (interpretation of income and capital gains tax and the GST deductions and allowance, gearing, negative gearing, depreciation and building amortisation).

**Courses:** CN54 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNB294 AGENCY PRACTICE AND MARKETING

The focus of this module is to provide the students with a good grounding in Real Estate Agency practice and marketing as it applies to the diverse real estate property types of commercial, industrial, retail, and residential. At the completion of the unit, students will have a good understanding of Real Estate agency management and practice methodologies and contemporary Real Estate marketing theory and practice. Reference will also be made to the Legislative impacts: Property Agents and Motor Dealers Act, Trade Practices Legislation, Retail Shop Leases Act and Common law.

**Courses:** CN54 **Credit points:** 12  
**Prerequisites:** CNB191 **Sem:** 2  
**Campus:** GP

#### ► CNB295 PLANNING THEORY AND PROCESSES

Development of land use in most western democracies is a controlled and regulated activity. This unit examines the history and morphology of planning control in the Queensland context and its impact on property markets. Topics covered will include the following: introduction to the emergence of fundamental principles of urban planning control and regulation in Queensland; statutory planning process and current Queensland legislation; urban and regional planning on matters of equity and social responsibility; types of planning controls; current development planning approval and appeals processes; conservation and heritage protection and impact on development, land use rights and economic value; concepts and impact of regional planning.

**Courses:** CN54 **Credit points:** 12  
**Prerequisites:** CNB291 **Sem:** 2  
**Campus:** GP

#### ► CNB296 CONTEMPORARY ISSUES

This unit is deliberately open ended and flexible with regard to content. Issues facing the property industry can be varied, wide-ranging and arrive as an issue as rapidly as it can fade. Content therefore is likely to vary from year to year as issues gain prominence and then recede. Current topics which may be covered might include the following: native title; heritage; contamination; environmental and sustainability; professional issues; internationalisation of property markets; water rights; demographics; regional and rural issues; common property rights.

**Courses:** CN54 **Credit points:** 12  
**Prerequisites:** Year 1 and 2 of CN54  
**Campus:** GP **Sem:** 2

#### ► CNB297 PROPERTY FINANCE

This unit covers the role of property and its financing for development or investment. It considers property in relation to institutional asset allocation, risk diversification and general decision making principles. It develops students' understanding of the nature and impact of loan finance on investment property and the place of property assets within the capital markets, relevant to subsequent employment in property as a graduate of property economics.

**Courses:** CN54 **Credit points:** 12  
**Prerequisites:** CNB292 **Sem:** 2  
**Campus:** GP

#### ► CNB302 CONTRACT ADMINISTRATION

This unit addresses the following: administration of standard form contracts used by the building industry; special conditions of contract; contract addenda; financial management of contracts from formation to discharge; construction procurement and evaluation systems; tender code; construction insurances; sub-contractors and nominated sub-contractors; adjustment of provisional sums; variations; correction of bill errors; interim claims and certificates of payment; forms of

security; bank guarantees and retention; counting of days; delays; extensions of time; liquidated and ascertained damages; prolongation costs; dispute clauses; practical completion; completion; defects liability; warranties; collateral warranties.

**Courses:** CN51, CN53 **Credit points:** 12  
**Contact hours:** 3 per week **Sem:** 1  
**Campus:** GP

#### ► CNB303 CONSTRUCTION BUSINESS ACCOUNTING

This unit includes the following contents: introduction to accounting; financial accounting (recording accounting information and basic financial statements, company accounts, interpretation of accounts); cost and management accounting (basic cost accounting procedures, direct and indirect costs, fixed and variable cost analysis and budgetary control); financial management (taxation, payroll, cost of capital, managing working capital, and financing); use of accounting / financial management software.

**Courses:** CN51, CN53 **Credit points:** 12  
**Contact hours:** 3 per week **Sem:** 1  
**Campus:** GP

#### ► CNB305 CONSTRUCTION ESTIMATING

This unit addresses the following: estimating techniques to quantify cost; fundamental elements of cost and methods of evaluating labour, materials and equipment to realistic levels of accuracy; unit rate approach to assessing the base estimate for major trades; assessment of offers from sub-contractors and implications for tendering with respect to risk, quality and ethical responsibilities; functional estimating and the significance of method, time and assembly of information to estimating; review of an estimate, determination of profit; letters of offer; subsequent negotiations prior to award of a contract; application of estimating to variations and profit monitoring; linking best value procurement assessment to outcome performance indicators (including tender evaluation criteria).

**Courses:** CN51, CN53 **Credit points:** 12  
**Contact hours:** 4 per week **Sem:** 1  
**Campus:** GP

#### ► CNB306 CONSTRUCTION BUSINESS MANAGEMENT 3

This unit addresses the following: estimating techniques to quantify cost; fundamental elements of cost and methods of evaluating labour, materials and equipment to realistic levels of accuracy; unit rate approach to assessing the base estimate for major trades; assessment of offers from sub-contractors and implications for tendering with respect to risk, quality and ethical responsibilities; functional estimating and the significance of method, time and assembly of information to estimating; review of an estimate, determination of profit; letters of offer; subsequent negotiations prior to award of a contract; application of estimating to variations and profit monitoring; linking best value procurement assessment to outcome performance indicators (including tender evaluation criteria).

**Courses:** CN51 **Credit points:** 12  
**Contact hours:** 3 per week **Sem:** 2  
**Campus:** GP

#### ► CNB307 BUILDING ECONOMICS AND COST MANAGEMENT

This unit addresses the following: interrelationship between construction industry and economy; fundamental principles of cost management (design and construction cost planning and cost control); nature and purpose of cost planning and cost control systems; contract costing (historical accounting) and anticipatory (forecast final cost / value); design economics, cost and value concepts, cost information systems, cost modelling, cost analyses, cost indices, cost data, cost implications of design variables; life cycle costing and modelling including design knowledge in virtual environments; value management, including energy efficiency in buildings, and value alignment process for project delivery; asset management and building maintenance; risk management in cost planning and cost control.

**Courses:** CN51, CN53 **Credit points:** 12  
**Contact hours:** 3 per week

**Campus:** GP

**Sem:** 2

#### ► CNB308 PROFESSIONAL STUDIES 3

The aim of this unit is to help students understand the character of the decisions required of a Construction Manager in a project environment. Students advance to decisions related to the overall management of a building company: staffing, tendering and tactical positioning using the computer simulation Arousal; character of managing construction; significance of bidding strategies; management of projects - broad goals/specific goals; project status (progress / profit); corporate entity analysis; comparison of firm bidding with other procurement methods; estimating fee bidding, overheads, tendering, profit and risk, project concept, proposals, commercial awareness.

**Courses:** CN51, CN53 **Credit points:** 12  
**Contact hours:** 4 per week **Sem:** 2  
**Campus:** GP

#### ► CNB309 LAW 2

This unit addresses the following Commercial Law topics: sale of goods; hire purchase; trade practices; negotiable instruments; insurance law; partnership law and company law; bankruptcy and liquidation; arbitration (the agreement, appointment of an arbitrator; conduct of an arbitrator; powers and duties; enforcement of an award, costs); alternative dispute resolution. It also addresses Building Law: study of the Building Code of Australia and building regulations, which control the design, construction of building works; a study of the Acts Interpretation Act, Town Planning Acts; etc.

**Courses:** CN51, CN53 **Credit points:** 12  
**Prerequisites:** CNB206, CNB101, CNB105, CNB107, CNB201

**Contact hours:** 3 per week **Sem:** 2  
**Campus:** GP

#### ► CNB310 MEASUREMENT 3

Measurement is a core skill amongst building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers measurement of building services (hydraulics, drainage, electrical and mechanical works).

**Courses:** CN53 **Credit points:** 12  
**Prerequisites:** CNB204  
**Contact hours:** 5 per week **Sem:** 2  
**Campus:** GP

#### ► CNB335 TIME MANAGEMENT

Controlling time and resources is an essential task in construction project management. Students in construction courses must develop an understanding of and skills in time management. This unit covers the following: project time and resource planning techniques such as bar charts, critical path networks (precedence, time scales, and activity on arrows); line of balance; resource allocation and levelling; schedule updates and progress control; delays and claims analysis. Applications of computer-based project planning software also form an important part of the study in this unit.

**Courses:** CN51, CN53 **Credit points:** 12  
**Contact hours:** 4 per week **Sem:** 1  
**Campus:** GP

#### ► CNB336 CONSTRUCTION BUSINESS MANAGEMENT

This unit involves an examination of a range of general business management practices and issues as they relate to the construction industry. Specific topics to be examined include the following: understanding individuals and organisations; personality and attitudes; personal and professional business ethics; motivation and employee performance; stress; managing stress, conflict, change, power and politics; communication; group functions; decision making processes. Further, this unit examines industrial relations including the impact of industrial relations in the construction industry: the role of unions; labour management; workplace reform and workplace agreements.

**Courses:** CN51 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CNB390 PROFESSIONAL PRACTICE

Professional experience forms an integral part of the property course. This unit seeks to provide

students with a fully supervised University approved work experience placement of 60 days, complementary to their academic program. The unit is fully supported by the Australian Property Institute, which plays a key role in monitoring student/host interaction to ensure students receive the best quality experience possible.

**Courses:** CN54 **Credit points:** 24  
**Campus:** GP **Sem:** 1

► **CNB391 STATUTORY AND APPLIED VALUATION**

Valuers are often called upon to perform valuations of special use properties sometimes for statutory purposes, and sometimes to represent those valuations as an expert witness. Contents of this unit include the following: valuations for tax and taxation of capital gains; statutory rating purposes under relevant legislation including computer assisted mass appraisal; appeals procedure; compulsory acquisition; assessment of compensation resulting from acquisition, resumption and damage; evidence: the expert witness and professional liability; moot court and an introduction to the valuation of special purpose properties and businesses as going concerns.

**Courses:** CN54  
**Prerequisites:** CNB194, CNB292  
**Credit points:** 12  
**Campus:** GP **Sem:** 1

► **CNB392 PROPERTY INVESTMENT ANALYSIS**

Topics covered in this unit include the following: the principles and strategies of investment; alternative forms of investment; real estate as an investment medium; the real estate investment process; property ownership structures; initial feasibility analysis; detailed cash flow analysis involving NPV and IRR analysis; the modified internal rate of return (MIRR) approach; sensitivity and probability analysis; market analysis and real estate cycles; institutional property investment; risk analysis and risk management.

**Courses:** CN54  
**Prerequisites:** CNB194, CNB292  
**Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB393 PROPERTY AND ASSET MANAGEMENT**

Property Management provides a detailed insight into all aspects of property management, from residential management to specialised industrial, commercial and retail centres. It also addresses life cycle analysis and incorporates units of competency standards ASF 16, 17, 18, 19.

**Courses:** CN54  
**Prerequisites:** CNB191, CNB191, CNB192, CNB194, CNB290, CNB292, CNB293  
**Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB394 PROPERTY DEVELOPMENT**

Data are provided on the Australian urban economic environment to enable students to gain knowledge of the various development sectors. Students are exposed to various planning, building, legal, financial and environmental acts and conditions. Knowledge gained is applied to a range of case studies across various development sectors.

**Courses:** CN54 **Prerequisites:** CNB292  
**Corequisites:** CNB392 **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB395 RESEARCH METHODS**

This unit provides students with the opportunity to develop an understanding of research skills, techniques and methodologies appropriate for the completion of a full research proposal or for the development of advanced database skills. To facilitate this, topics covered include research and retrieval skills, research methodologies and strategies, data collection and analysis, and presentation and dissertation writing.

**Courses:** CN54 **Credit points:** 12  
**Incompatible with:** CNB383  
**Campus:** GP **Sem:** 2

► **CNB402 INVESTMENT THEORY**

Construction Managers need to understand how property is valued and the different aspects of land that affect the value. This unit includes

content on concepts of valuation, types of landed property, income, and ownership costs and capitalisation rates. Students are also provided with concepts of investment theory including NPV, IRR and MIRR.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **CNB408 ADVANCED BUILDING AND CIVIL CONSTRUCTION**

This unit focuses on non-standard buildings and structures in terms of constructability, construction methodology, planning, estimating, scheduling and site organisation. Significance of temporary works and the inherent need for planning and safety are included. Students study in detail the methods and equipment employed in the construction of earthworks, heavy foundations, steel fabrication and erection, marine and water retaining structures, roadworks and bridges, mechanical erection and electrical structures. The unit concludes with the broader issues of environmental management, construction weather forecasting and the management and social issues of work in remote locations.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **CNB409 PROFESSIONAL PRACTICE 1**

Professional experience forms an integral part of the academic programme, allowing the students the opportunity to put into practice accumulated theory and simulated practical work. The aim of this unit is to facilitate students gaining relevant professional experience and varied management knowledge and skills in approved employment for a minimum of 100 days. Diary and logbook are to be completed and signed by employer. A key learning feature of this unit is the identification of a problem at your employment and the preparation of a case study report on an actual development project, providing direct insight into the task of problem solving and delivering real projects.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **CNB410 PROPERTY DEVELOPMENT**

A study of the property development process gives students a sound knowledge of how property developers identify, measure, structure and manage a property development undertaken in both residential and non-residential sectors of the market, including planning, building, legal, financial and environmental issues. This unit introduces the following: development process; planning process; identifying and screening development opportunities; market drivers; market demand analysis; income projections; options studies; design management; procurement methods; cost projections; feasibility analysis; authority approvals; development finance; financial structuring; risk management; communicating with stakeholders.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB420 CURRENT CONSTRUCTION ISSUES**

This unit addresses new developments in construction and construction management focussing on recent and topical developments in the area of construction management. Areas covered by current construction issues will vary from year to year as advances are made in construction and construction management, but may include the following: quality management; buildability; value analysis; case studies; computer applications and selection; information systems, IT and AL; international construction management; recent developments in law; cultural influences in construction; new construction technologies and methodologies.

**Courses:** CN51  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB423 PROFESSIONAL PRACTICE 2**

Professional experience forms an integral part of the academic programme, allowing the students

the opportunity to put into practice accumulated theory and simulated practical work. The aim of this unit is to facilitate students gaining relevant professional experience and varied management knowledge and skills in approved employment for a minimum of 100 days. Diary and logbook are to be completed and signed by the employer. A key learning feature of this unit is the identification of a problem at the student's place of employment and the preparation of a case study report on an actual development project, to provide direct insight into the task of problem solving and delivering real projects.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB424 SPECIALIST MEASUREMENT**

Measurement is a core skill amongst building professionals. This skill is particularly important to students in relation to the production of quantified documents for the purposes of tendering and estimating. This unit occurs in the final year of the course given the unusual and advanced nature of the construction technology to be measured. This unit covers the following: unusual building works; civil engineering works including earthworks, roadworks and piling; heavy engineering works including refinery/processing plant, mining and offshore platforms.

**Courses:** CN53 **Prerequisites:** CNB310  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB425 INTERNATIONAL CONSTRUCTION**

In this unit, students examine history, culture, language, government and business structure and practices, construction methodology, construction management, and general business practices in a country or countries other than Australia, specifically those where issues and practices differ from common Australian practice. An optional student-funded international trip may be offered (likely to be 2-4 weeks) to allow students to experience first-hand the country studied during the semester allowing students to immerse themselves in the culture and further enhance their language skills. Students will be involved in site visits and workshop (studio) type activities during the tour.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **CNB433 DISSERTATION A**

This unit allows students to explore underlying theory, and maximise the opportunity to investigate and develop an area of personal interest. The focus is on the following: research methodology; data collection and analysis, information literacy; information retrieval skills; literature review and research proposal writing activities. Statistics is also included: introduction to statistics including role of statistics; data types and properties; data reduction and pictorial presentation; numerical description of data such as population and samples; descriptive statistics; measure of central tendency; measures of dispersion; grouped data and misuse of descriptive statistics.

**Courses:** CN51, CN53  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **CNB434 DISSERTATION B**

Research and development is an important success factor in today's competitive and global environment. As a student, research allows you to explore underlying theory behind your chosen area of interest. On the other hand, as a practitioner, the unit helps you to identify valuable and profitable research. This unit involves collection, analysis and interpretation of primary data in relation to work completed in CNB433, and provision of conclusions and recommendations for further research.

**Courses:** CN51, CN53 **Prerequisites:** CNB433  
**Contact hours:** 3 per week **Credit points:** 12  
**Sem:** 2

► **CNB480 BUILDING SURVEYING PRACTICE**

Building certifiers must have the ability to locate, interpret and assess building plans to legislative

requirements, a code of practice, and ethical obligations. This unit ensures building certifiers have the fundamental knowledge in order to practice in Queensland. The unit includes the following: the examination of ethical responsibilities; legislative framework, integrated development assessment system (IDAS); interpretation of local planning instruments (Qld specific), State approvals, energy efficiency; documenting performance based assessments to the Building Code of Australia.

**Courses:** CN51, CN53 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CNB481 CONSTRUCTION DISPUTE MANAGEMENT

A claim or dispute may arise between an owner and a contractor in contract negligence, nuisance or trespass, relating to the performance of commercial or domestic building work. Rights and obligations exist in the performance of building work and participants should use appropriate techniques to avoid and manage disputes. This unit helps students develop the skills required to avoid and manage disputes. It includes the following: analysis of reasons that disputes occur; sources of disputes; statutory obligations to rectify defects; formal dispute resolution through tribunal and courts system; pro-active dispute avoidance techniques; preparation and presentation of a claim/ response to a claim; role of an expert witness in disputes; costs of disputes and ways to manage those costs.

**Courses:** CN51, CN53 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNB482 MEASUREMENT 4

Measurement is a core skill amongst building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers the following: an examination of the latest software used in the generation of quantities, estimates and capital cost / life cycle cost plans including advanced CAD applications; measurement used to produce financial asset management statements including due diligence and sinking funds; measurement and assessment of the environmental impact of buildings.

**Courses:** CN53  
**Prerequisites:** CNB310 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNB483 SMART AND SUSTAINABLE CONSTRUCTION

This is an assignment based group project work where students from different disciplines undertake project work on a project case study considering key smart and sustainable construction issues: sustainability and its impact on commercial construction development; flexible design considerations; innovative construction techniques; smart engineering services; intelligent building development. Project cases may include any of the following: multi-storey office building project in CBD; marina resort development on tropical Queensland coast; Kelvin Grove Urban Village development; sustainable housing development utilizing specific site characteristics.

**Courses:** CN51, CN53  
**Courses:** AR48, BN31, BN32, EE41, CE44, CE46, CN51, CN53, CN54, ME41  
**Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNB490-1/2 RESEARCH DISSERTATION

To produce a written dissertation on a topic of their choice, students embark on a research project culminating in its presentation. Progression will be closely monitored and assistance provided by individual supervisors who will guide the student through the process.

**Courses:** CN54 **Prerequisites:** CNB395  
**Credit points:** 24 **Sem:** 2

#### ► CNB491 RURAL VALUATION

The unit utilises skills and knowledge learned from earlier units and applies these to the valuation of rural assets. In particular this unit examines the physical and economic factors of rural land and its development, land utilisation and degradation, farm management and productivity,

and extraneous factors influencing rural valuations. Rural sales and valuation procedures are analysed and physical inspections organised to assist the student with gaining practical experience.

**Courses:** CN54 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CNB492 BUSINESS AND SPECIALIST VALUATION

Knowledge and skills developed in earlier units are applied to the process of valuing special purpose properties and going concerns. Content includes the following: applications of the profits method of valuation, valuation of business assets; tangible, intangible and technical plant and machinery valuation; valuation of licensed premises, hotels and resorts; valuation of regional shopping areas; heritage valuations and valuation of transferable development rights; valuation of terminable interests; public sector and institutional investment valuation.

**Courses:** CN54  
**Prerequisites:** CNB292 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► CNB493 ADVANCED PROPERTY VALUATION AND ANALYSIS

The unit explores and analyses a variety of contemporary property valuation and analysis techniques as well as techniques used in connection with other asset classes to assess their relevance to investment property analysis. Special attention is paid to a study of the effects of taxation and finance and the analysis methods associated with net of tax and finance investment performance measurement. A case study approach is used.

**Courses:** CN54 **Prerequisites:** CNB392  
**Credit points:** 12 **Incompatible with:** CNB385  
**Campus:** GP **Sem:** 2

#### ► CNB494 ADVANCED MARKET RESEARCH ANALYSIS

This unit re-acquaints students with published property market data sources and methods of interpretation. It develops skills to source, analyse, interpret and report on primary property market data using appropriate analysis methods. Students are introduced to statistical software as a tool to assist the data analysis process.

**Courses:** CN54  
**Credit points:** 12 **Incompatible with:** CNP555  
**Campus:** GP **Sem:** 1

#### ► CNB495 STRATEGIC PROPERTY AND FACILITIES MANAGEMENT

This unit allows students to understand the broader strategic property management issues of property as a component of investment portfolios and as an integral element of business operations. It considers economic environment and property management issues. Base theory includes portfolio analysis and management, asset management and property/tenancy management, facilities management (concentrating on issues of organisation in relation to the identification, provision and management of property assets to support core business delivery), changes to the use of real property, and emerging issues.

**Courses:** CN54  
**Prerequisites:** CNB393 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNB496 PROJECT MANAGEMENT

This unit introduces project management as a growing discipline/profession. It focuses on theories related to project definition, project scope, project tools and implementation. Key aspects covered include professional development, organisation design and project structure, communication, managing change and performance measurement (time, cost and quality).

**Courses:** CN54 **Incompatible with:** CNP520  
**Campus:** GP **Sem:** 1

#### ► CNB497 PROJECT COST AND RISK MANAGEMENT

The unit identifies fundamental project management principles that relate to economics, cost and risk management and the key elements of proactive cost management and the implementation of risk evaluation. It revisits the macro-economic and micro-financial contexts of project, construction and property management and provides

students with and understanding of the practical applications of responsibility, accountability, motivation, reporting and implementation of project cost management. Furthermore, it covers the area of risk management analysis functions, techniques and theories, as well as cost management systems applicable to design cost, value management and project life cycle management.

**Courses:** CN54  
**Prerequisites:** CNB290, CNB394  
**Credit points:** 12 **Incompatible with:** CNP521  
**Campus:** GP **Sem:** 1

#### ► CNB498 PROJECT HUMAN RESOURCE MANAGEMENT

Effective project delivery requires effective utilisation of all project resources. The cornerstone of the project management process is management of the diverse professional team brought together to complete the project on time to specification and within budget. Topics covered will include the following: principles of human behaviour; aspects of personal development and motivation; communication skills, characteristics and styles of leadership; group dynamics and interactions; conflict management and arbitration. An integral part of the unit is a field trip, the aim of which is to increase students' understanding of and skills in human processes relevant to project management.

**Courses:** CN54 **Prerequisites:** CNB496  
**Credit points:** 12 **Incompatible with:** CNP551  
**Campus:** GP **Sem:** 2

#### ► CNB499 INTERNATIONAL PROJECT DEVELOPMENT MANAGEMENT

The unit develops concepts of project development management introduced to the student in CNB496, Project Management, and places them in an international, or more specifically, Asia-Pacific, regional context. To this end, the content will be similar to CNB496 with a focus on theories related to project definition and scope, project implementation and termination, and the latest developments affecting the practice of project management in organisations.

**Courses:** CN54 **Prerequisites:** CNB394  
**Credit points:** 12 **Incompatible with:** CNP534  
**Campus:** GP **Sem:** 2

#### ► CNB442 DISSERTATION - 1-2

Students develop the skills necessary for conducting independent research by completing a dissertation on a chosen topic under the guidance of an appointed supervisor. The approved research topic must be in an area related to project management or property development. The unit also incorporates lectures in Research Methodology, and information retrieval skills.

**Courses:** CN77, CN92 **Credit points:** 48  
**Campus:** GP

#### ► CNP520 PROJECT MANAGEMENT

This unit is an introduction to project management as a growing discipline/profession. This unit will focus on theories related to project definition, project scope, project tools and implementation. Key aspects covered include professional development, organisation design, project structure, communication, managing change and performance measurement.

**Courses:** CN64, CN77, CN81  
**Contact hours:** Block mode **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNP521 PROJECT COST AND RISK MANAGEMENT

Central to project and construction management are the identification of project risk and the control of project cost. The objective of this unit is to educate students in the theory and application of the economics and management of project cost and risk. The unit covers techniques and tools essential for proactive project and cost management, and the fundamentals of risk evaluation associated with project implementation.

**Courses:** CN64, CN77, CN81  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNP532 INNOVATION AND TECHNOLOGY MANAGEMENT

This unit introduces key concepts in better understanding the role of innovation and technology

and its efficient management, to build and maintain a competitive edge in business. This unit links engineering, science and management principles to identify, choose and implement the most effective means of attaining compatibility between an organisation and its competitive, economic and social environments.

**Courses:** CN64, CN77, CN81

**Contact hours:** Block format **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► CNP533 PROJECT MANAGEMENT LAW

This unit aims to create awareness of the legal environment in which the project manager operates. The project manager in the construction industry is exposed to a variety of legal situations on a day-to-day basis. It is important that the manager has the information on which to base decisions which reduce the risk of legal entanglement. The unit covers key principles of Tort, Contract and Construction law from an Australian and international perspective. Dispute resolution processes and mediation are also studied from an Australian and International perspective.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CNP433

**Campus:** GP **Sem:** 2

#### ► CNP534 INTERNATIONAL PROJECT MANAGEMENT

This unit introduces key concepts, and furthers the understanding of international issues in project management from the perspective of the Australian project manager. It compares technical, managerial, economic and cultural concepts and trends related to project management in the competitive global marketplace. Material is covered from a market viewpoint as well as from the viewpoint of a single project and firm. Emerging opportunities and misconceptions are discussed, with particular reference to the Asia-Pacific region.

**Courses:** CN64, CN77, CN81

**Contact hours:** Block format

**Credit points:** 12 **Incompatible with:** CNP406  
**Campus:** GP **Sem:** 2

#### ► CNP545 PROJECT DEVELOPMENT

This unit focuses on issues relating to the feasibility assessment of property development opportunities and the development process. Topics covered include the following: evaluation of project feasibility - financial, social and legal aspects; marketing; project team formation; contract and procurement options.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CNP426

**Campus:** GP **Sem:** 2

#### ► CNP547 PROPERTY INVESTMENT

Property (or real estate) is one of a number of competing investments available in the investment market. The unit covers principles and strategies of property investment and evaluation techniques. Basic concepts of value and detailed financial viability studies are studied, including equity and cash flow models.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CNP402, CNP438

**Campus:** GP **Sem:** 1

#### ► CNP551 PROJECT HUMAN RESOURCE MANAGEMENT

The most valuable and possibly expensive resource a project manager has is people. The manager needs to know how to maximise this resource by working with all those involved in the project. This unit introduces the student to theory and skills in project management as they are applied to managing the people aspects of projects. Theories will be examined as they apply to practical issues. In addition to lectures on the human aspects of project management, an important component of this unit is experiential learning through group dynamics and workshops.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CNP431, CNP437

**Campus:** GP

#### ► CNP552 CURRENT ISSUES

The unit introduces current areas of importance in project management and integrates these areas within the framework established in other units. This unit incorporates case studies, workshops and discussions. Areas may include the following: procurement practices, industry development, quality management, buildability, value analysis, case studies, arbitration and benchmarking. This unit provides the opportunity for students to become familiar with current research activities within the School and its partners.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CNP430

**Campus:** GP **Sem:** 2

#### ► CNP553 INFORMATION TECHNOLOGY FOR PROJECT MANAGERS

This unit addresses the revolution in information technology and the widespread use of personal computers. It provides project managers with skills in using a range of appropriate software, and an appreciation of information resources and the impact of information technology on construction management and property development processes. The unit will provide competency in the selection and use of appropriate information technology through the study of essential computer packages and advanced project management software.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CNP434, CNP668 **Sem:** 2

#### ► CNP554 ADVANCED LAND DEVELOPMENT

This unit focuses on the overall development process appropriate to the use of land in a variety of environments. It considers the drivers of development and the correct processes that should be followed to ensure both an economic and a functional result. It looks at land development within the CBD, suburban commercial, residential, and industrial areas.

**Courses:** CN64, CN77, CN81

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** CNP404 **Campus:** GP

#### ► CNP555 PROPERTY MARKET ANALYSIS

This unit covers the principles of property economics and market research methodology focusing on surveys and hypotheses testing, property market data available in Australia, and supply and demand studies of property.

**Courses:** CN90, CN91, CN92 **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► CNP556 PROPERTY MANAGEMENT AND CONTRACTS

This unit covers the following: property contracts, especially leases, partial rights and purchase and sale; rent statements and accounting procedures; computer based property management programs; property type differentials; property portfolio management.

**Courses:** CN90, CN91, CN92 **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► CNP557 PROPERTY FINANCE AND CAPITAL MARKETS

This unit deals with property in a capital markets environment. It examines property as an asset class and the financing of property assets. It considers property in relation to institutional asset allocation, risk diversification, and general decision making principles.

**Courses:** CN90, CN91, CN92

**Prerequisites:** CNP547 **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► CTB110 ACCOUNTING

Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with a basic level of knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, analysis and interpretation of financial statements, planning, control and business decision making.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB110

**Campus:** CB **Sem:** 2

#### ► CTB113 ECONOMICS

This unit introduces students to the key economic concepts and their practical applications. It comprises twelve topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB113

**Campus:** CB **Sem:** 2

#### ► CTB114 GOVERNMENT, BUSINESS AND SOCIETY

This unit provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB114

**Campus:** CB **Sem:** 2

#### ► CTB115 MANAGEMENT, PEOPLE AND ORGANISATIONS

The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that are needed in all areas of management and organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, and the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB115

**Campus:** CB **Sem:** 2

#### ► CTB119 INTERNATIONAL AND ELECTRONIC BUSINESS

This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business, and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB119

**Campus:** CB **Sem:** 1

#### ► CTB122 QUANTITATIVE ANALYSIS AND FINANCE

To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and provides students with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; the three main ideas underpinning financial decisions - time value of money, diversification and arbitrage.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB122

**Campus:** CB

**Sem:** 1

#### ► CTB126 MARKETING

This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is given to understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also be canvassed.

**Courses:** BS56, BS58

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB126

**Campus:** CB

**Sem:** 1

#### ► CTB201 MARKETING AND AUDIENCE RESEARCH

This unit provides an introduction to the conduct and evaluation of marketing and audience research across the disciplines of advertising, marketing and public relations. Class members explore how field studies, survey and experimental research are employed to support advertising, marketing and public relations information needs. The unit provides an overview of the research process, research design, methods of data collection and analysis, and the development of research proposals to support decision-making. Class members also explore issues related to research on media audiences, research ethics, and the management of client briefings.

**Courses:** IF11

**Prerequisites:** CTB126

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AMB201, MGB220

**Campus:** CB

**Sem:** 1

#### ► CTB212 ELECTRONIC BUSINESS APPLICATIONS

This unit looks at the ways in which organisations adopt and use various electronic business applications in areas of e-commerce, business-to-consumer, business-to-business and intra-business relations. Business models and their impact in various industries are analysed, enabling students to assess the underlying business case, and determine the model's viability in a competitive environment. The issues associated with front-end and back-end applications associated with e-business are considered.

**Courses:** IF11

**Prerequisites:** CTB112

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB212

**Campus:** CB

**Sem:** 1

#### ► CTB213 LEGAL ISSUES IN ELECTRONIC BUSINESS

This unit introduces students with no formal studies in law to legal issues associated with electronic business (e-business). The main principles of legal issues and how they might be identified and managed by the use of compliance programs are analysed, as are the ways in which e-business professionals identify the key legal, governance and ethical issues associated with their e-business operations. Legal, jurisdictional and enforcement issues that arise with international e-business transactions are also considered.

**Courses:** IF11

**Prerequisites:** CTB112 or 96 credit points of approved study

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** BSB213

**Campus:** CB

**Sem:** 2

#### ► CTB221 COMPUTERISED ACCOUNTING SYSTEMS

This unit provides an examination of the concepts, processes and issues relevant to computerised accounting systems including the following: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle, payroll cycle; computer fraud, security and crime; accessing accounting information; ac-

counting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, databases and software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

**Courses:** IF11

**Prerequisites:** CTB110

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYB221

**Campus:** CB

**Sem:** 1

#### ► CTB222 BUSINESS SYSTEMS ANALYSIS

This unit develops basic systems development skills by teaching a methodology and techniques of systems analysis and design. It introduces all the phases of the classical systems development life cycle. The aim is to give students a balanced overview of the process of analysing and designing information systems, while ensuring that students develop the necessary skills to apply the major techniques to simple problems. Emphasis is placed on the practical application of techniques to real-world problems.

**Courses:** IF11

**Prerequisites:** CTB721

**Campus:** CB

**Sem:** 1

#### ► CTB223 CREATING NEW ENTERPRISES

This unit deals with the development of a business plan for the potential launch of student business ideas. It is designed for those individuals interested in creating a new venture or working in industries as employees of venture owners or those that serve this sector. Students build a comprehensive plan of their business concept. Students can progress from this unit to carry out the business plan analysis in the unit MGB218 Venture Skills or advance from MGB218 to undertake this unit.

**Courses:** IF11

**Prerequisites:** 96 credit points of approved studies

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MGB223

**Campus:** CB

**Sem:** 2

#### ► CTB302 CABOOLTURE SPECIAL TOPICS

In this unit, students follow a specialised program agreed to by the academic staff member and the student. It may involve in-depth examination of an issue of importance, supervised work based experience, or the completion of a significant work related project such as a business plan or programming assignment.

**Courses:** IF11

**Prerequisites:** 96cp of approved study and

Course Coordinator's approval

**Credit points:** 12

**Campus:** CB

**Sem:** 2

#### ► CTB334 MANAGING IN A CHANGING ENVIRONMENT

This unit provides students with conceptual and analytic tools required for managing changing environments. The emphasis is on developing an understanding of the management competencies required for managing flexibility, innovation and change. The unit moves beyond a focus on 'dot.com companies' to examine how a range of organisations both small and large are engaging with issues associated with an increasing emphasis on technology.

**Courses:** IF11

**Prerequisites:** CTB212 or 96 credit points of approved study

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MGB334

**Campus:** CB

**Sem:** 1

#### ► CTB335 PROJECT MANAGEMENT

This unit develops knowledge in the areas relating to effective management of projects (as distinct processes). This knowledge is gained by focussing on the central issues of project selection, modelling, planning, control and evaluation. Case study projects are used throughout the unit and are mainly from the services industry sector. The unit seeks to develop 'technical' (tools and techniques) as well as 'people' (behavioural) skills needed for effective management of projects.

**Courses:** IF11

**Prerequisites:** CTB115 and 96 credit points of approved study

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MGB335

**Campus:** CB

**Sem:** 2

#### ► CTB722 WEB APPLICATIONS

This unit provides students with the theoretical and practical skills to construct a web-enabled, interactive media database (IMD). Students are introduced to design elements to create innovative web front ends with the associated security requirements for Internet transaction based systems. Students learn how to build an interactive web site that accesses a database back-end, such as SQL-Server. In addition, students refine their understanding of database modelling and explore and apply new interactive media elements that will enhance such web applications.

**Courses:** IF11 **Prerequisites:** CTB721, CTB225

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CB

**Sem:** 2

#### ► CTB723 INFORMATION ISSUES AND VALUES

Concepts of information and associated information technology create fundamental issues for society, individuals, and their governments. Accordingly, this unit explores the development of the information society concept and policy issues in both public and private organisations as well as in professional bodies such as the Australian Computer Society and Australian Library and Information Association. Representative issues addressed are information ownership, equity in information access, protection of information, Internet censorship and pornography, information overload, and other IT-related issues.

**Courses:** IF11

**Prerequisites:** CTB721

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CB

**Sem:** 2

#### ► CTB724 FUNDAMENTALS OF ENTERPRISE SYSTEMS

This unit presents the Information Systems issues relating to the selection, adoption, implementation and infusion of Enterprise Systems (otherwise known as Enterprise Resource Planning Systems). It introduces the technical architecture of such systems as 3-tiered client server environments. It shows how an integrated complex database environment meets business needs and presents and discusses the Enterprise Systems Lifecycle model, orienting students to the requirements of addressing total cost of ownership, change management requirements and process modelling requirements in order to achieve business benefits. A series of case studies are used to examine each of the problem domains.

**Courses:** IF11

**Prerequisites:** CTB721

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CB

**Sem:** 1

#### ► DBB646 SURVEYING COMPUTATIONS

This unit includes the use of advanced scientific calculators and their application for geometric computations, solution of road and area problems, missing data closes, and simple curve problems. It offers solutions for more difficult problems including the three point problem, interrupted bases and various types of curve problems. It introduces spherical trigonometry, the solution of spherical triangles, and the use of spherical trigonometry to determine position and direction on the Earth's surface from observation to astronomical objects. Practical exercises determine position and direction.

**Courses:** PS47, PS48

**Prerequisites:** PSB424 preferred

**Corequisites:** PSB424

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► DBB656 GLOBAL POSITIONING SYSTEMS

This unit includes the following: concepts and theory of Global Positioning Systems including the space segment, control segment and user segment; satellite signal structures and the importance of precise timing; introduction to global and local coordinate systems and heights; error sources and accuracy in GPS; temporal and spatial variation; mission planning and data collection management; navigation and data collection

techniques; point positioning and analysis; introduction to broadcast differential GPS positioning methods. Practical exercises are conducted in small groups

**Courses:** PS47, PS48 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **DBP401 URBAN DESIGN AND SITE ANALYSIS**

Planning students need to understand the various issues relating to city development as well as learning site planning processes for the development of urban land. This planning unit is designed to assist students develop basic skills of urban and site analysis.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **DBP402 PLANNING PROCESSES**

Graduate students from other disciplines learn how to develop and apply reflexive planning processes applicable to a variety of situations and scales. This involves understanding how land uses are generated and the processes by which they may be planned. The unit examines and explains the logic, role and methods of successive stages of the planning process, from objective formulation, information and resource analysis through policy and strategy development to evaluation, development of proposals and monitoring.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **DBP403 DESIGN COMMUNICATION**

Students entering the course from non-design disciplines require basic skills in graphic communication for use in planning practice and design units. This unit, which is normally taught intensive mode preceding the start of semester, has two elements. Perception and Basic Design includes how and what we see, design vocabulary and comparative models of design. Planning Graphics introduces students to different forms of representation, methods, presentation, visual imagery, and graphic tools for analysis and synthesis.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 3

► **DBP404 ECONOMIC AND SOCIAL FOUNDATIONS OF PLANNING**

This is an introductory unit which deals with the economic, social and technological processes that have shaped and still shape our communities and settlements. Urban and regional planners need to appreciate these processes in order to understand their impacts and to utilise them in planning human settlements.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **DBP406 COMPUTER APPLICATIONS IN PLANNING**

Planning professionals need both a conceptual understanding, and concrete skills, in the application of computers to analyse and interpret digital and spatial information that forms the basis of decision making. Across both government and private sectors, information is communicated within the digital environment, and as the associated technology, software and methods rapidly develop, planners need to possess the necessary computer skills to continue using digital tools effectively.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 3

► **DBP407 ENVIRONMENTAL PLANNING AND MANAGEMENT**

This unit seeks to introduce students to the theories, processes and tools of environmental planning and management. The unit provides the student with a basic understanding of a range of environmental issues and concerns relevant to planning issues and problems. It addresses the broad range of planning decisions that affect the environment.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **DBP408 PLANNING IMPLEMENTATION AND LAW**

Professional competence in planning requires a detailed understanding of the theory and imple-

mentation of planning procedure, planning law and other related legislation. This unit in planning implementation and law is designed to give students basic skills and knowledge of planning law and its associated procedures.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 2

► **DBP409 URBAN PLANNING PRACTICE**

Planners need the skills to understand and analyse local issues and develop plans and strategies to address them. This will involve the preparation of integrated local area plans in consultation with local communities and stakeholders. This unit, normally consisting of a real world project conducted in conjunction with local governments and communities, provides students with these skills of integrated local area planning.

**Courses:** PS70, PS72 **Credit points:** 12  
**Prerequisites:** DBP402 **Sem:** 1  
**Campus:** GP

► **DBP410 RESEARCH METHODS IN PLANNING**

This unit introduces students to the range of research methods available to them as planners and provides a critical format in which they can assess the efficacy and suitability of these methods. It also provides practical experience in using relevant methods and techniques to address current planning issues.

**Courses:** PS70, PS72 **Credit points:** 12  
**Prerequisites:** DBP402 **Sem:** 1  
**Campus:** GP

► **DBP411 COMMUNITY PLANNING**

Planners work with wide range of communities and therefore need to understand and address a diverse range of concerns. This unit applies knowledge and skills acquired elsewhere in the course to help students understand and interrelate a wide range of community concerns including land use and development assessment, employment, human services, environmental quality, urban design, access and culture. In exploring the practices and theories of community planning, particular emphasis is placed on community involvement, consultation and conflict resolution.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **DBP412 PLANNING THEORY AND ETHICS**

Students learn about the conceptual basis to their profession and are inculcated with a sound basis of professional ethics. This unit explores the theoretical underpinnings of urban and regional planning through an investigation of a variety of ideas about planning. It also links ideas about the nature and purpose of planning with ideas about professional ethics. Because it is based on utilising students' previous experience it comes in a later semester of the course.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **DBP413 REGIONAL PLANNING PRACTICE**

This unit provides the opportunity to develop and apply wide-ranging skills of analysis and synthesis in a real world problem-solving situation, linked to policy formulation issues explored in parallel in DBP414. As the second of two practice-focused units, Regional Planning Practice concentrates on the broader regional and metropolitan scales to develop skills in dealing with larger scale, strategic-level planning.

**Courses:** PS70, PS72 **Credit points:** 12  
**Corequisites:** DBP414 **Sem:** 2  
**Campus:** GP

► **DBP414 REGIONAL AND METROPOLITAN POLICY**

Relevant and effective regional and metropolitan policies must draw upon a wide range of knowledge and skills integrating regionalism, demography, economics, human activities, central place theory, regional resource evaluation, social organisation and public administration. These operate and need to be understood at both global and regional scales. The resulting synthesis must be applied within specific regions. In order to achieve this, the unit is designed to focus and

apply material from diverse disciplines and locations to current regional and metropolitan policy issues in South East Queensland.

**Courses:** PS70, PS72 **Credit points:** 12  
**Prerequisites:** DBP402 **Sem:** 2  
**Campus:** GP

► **DBP415 PROFESSIONAL PRACTICE OR RESEARCH PROJECT**

This unit offers students the choice of undertaking a supervised individual research project or a structured period of professional practice. The two are offered in the one unit in order to encourage synthesis between research and professional activities. Both activities allow students to build on and integrate their previous experience. This unit also provides a stepping stone for students continuing on to the Master of Urban and Regional Planning by providing either a first stage to an advanced research project or an introduction to an advanced professional practice project.

**Courses:** PS70, PS72 **Credit points:** 12  
**Prerequisites:** DBP410, DBP409 **Sem:** 1, 2

► **DBP416 ELECTIVE**

This unit enables students to choose an elective from the offerings of any course in QUT or another university, provided that it will enhance learning in the core discipline. Selection requires the approval of the Course Coordinator.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **DBP417 COMPARATIVE PLANNING**

This unit introduces students to the practice of urban and regional planning in specific locations and contexts either through attendance on a field course or at an approved conference.

**Courses:** PS70, PS72 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **DBP501 SPECIALISATION**

This unit enables students to extend their knowledge in areas supporting their main area of practice or research interest. This personalised unit may incorporate study in specific programs offered within the School or from advanced units within QUT or another university, or through specialist guidance by staff in their areas of expertise and approved by the Head of School on the recommendation of their research project supervisor.

**Courses:** PS70 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

► **DBP502 PROFESSIONAL PRACTICE OR RESEARCH DISSERTATION**

This unit is the central element of the Master of Urban and Regional Planning. Because the Masters is intended for students with advanced professional or advanced academic intentions, this unit allows either for professional development through a period of mentored professional practice or research development through supervised individual advanced research. The two are combined into a single unit in order to encourage synthesis between research and professional activities. The unit is an extension of the study completed in DBP415 Professional Practice or Research Project in the Graduate Diploma in Urban and Regional Planning. The unit will normally be linked to the student/staff seminars in DBP503 Masters Seminar.

**Courses:** PS70 **Credit points:** 24  
**Prerequisites:** DBP415 **Sem:** 1, 2  
**Campus:** GP

► **DBP503 MASTERS SEMINAR**

In order to derive full benefit from their advanced studies, Master students need to exchange views on theory and practice with each other and with experienced practitioners and academics. They also need to explore the significance of their studies for issues of major planning significance. This unit provides an integrated forum as a communicative core to the Masters Program, linking individual dissertations and professional practice experience to a wider contemporary context.

**Courses:** PS70 **Credit points:** 12  
**Prerequisites:** DBP502, DBP414 **Sem:** 1  
**Campus:** GP

**► EAB001 EARLY CHILDHOOD FOUNDATIONS 1: HISTORICAL AND COMPARATIVE PERSPECTIVES OF EARLY CHILDHOOD EDUCATION**

This unit examines the historical development of early childhood services in Australia, and explores a range of comparative perspectives on the care and education of young children in different socio-cultural contexts in Australia and in other cultures. To come to understand early childhood education, it is important to consider the evolution of key ideas that have influenced the development of the field over the past 150 years in western societies (Britain, Europe, the United States and Australia). The unit encourages students to reflect critically on the changing beliefs and practices in relation to young children and families in Australia over the twentieth century and to begin to formulate a personal philosophy of early childhood care and education.

**Courses:** ED92, ED82, IF81, IX11

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► EAB002 EARLY CHILDHOOD FOUNDATIONS 2: FAMILIES AND CHILDHOODS IN EARLY CHILDHOOD EDUCATION AND CARE**

Early childhood education and care interface with the lives of children and families in diverse contexts. This unit deals with the social constructions of families and childhoods, the social practices they adopt, and the services in which they participate. An understanding of these conditions is necessary for early childhood educators to teach and lead effectively.

**Courses:** ED92, ED82, IF81, IX11

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** EAB351, EAB364  
**Campus:** KG **Sem:** 2

**► EAB003 DEVELOPMENT AND LEARNING IN EARLY CHILDHOOD 1**

This unit examines the major theories, features and processes of early development. The pace and direction of development are shaped by biological predispositions and personal attributes, as well as by the interactions and experiences afforded to the child. Knowledge of contexts, their impact on individual development, and an awareness of the interrelationships between each area of development is necessary in order to develop an understanding of how children think and learn. Early childhood teachers also require a range of skills for observing and analysing behaviour in order to plan and organise educational opportunities in early childhood settings.

**Courses:** ED92, ED82, IX11, IF81, IF83, ED52, ED43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► EAB004 DEVELOPMENT AND LEARNING EARLY CHILDHOOD 2**

To facilitate learning during early childhood, teachers must have a sound knowledge of the major theories, features and processes of development. The units in the developmental strand are underpinned by sociocultural theory, which takes into account both the psychological and the social mechanisms of development and learning. Development and Learning in Early Childhood will foreground the social mechanisms of learning by discussing children's learning and development in a social context, integrating the social, emotional and cognitive elements of learning. Knowledge of contexts and their impact on development is necessary in order to develop an understanding of how children think and learn.

**Courses:** ED92, ED93, ED82, ED83, IX11

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

**► EAB005 INCLUSION IN EARLY CHILDHOOD SETTINGS**

This unit aims to promote an understanding and valuing of inclusive educational programs and practices for working with young children with special needs in diverse early childhood settings. Students are expected to develop knowledge of behavioural and developmental characteristics presented by young children with specific needs, as well as to understand principles and practices

related to assessment, planning and implementation of educational programs for these children.

**Courses:** ED90, ED91, ED92, ED93, ED82, ED83

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

**► EAB006 LEADERSHIP AND MANAGEMENT IN EARLY CHILDHOOD SERVICES**

Early childhood settings, including primary schools, operate by using site-based management practices that rely heavily on participation by teachers, staff from all levels of the organisation, and parents. Early childhood teachers need excellent leadership and management strategies to participate effectively in group decision-making for the development of high quality programs and services. They also need an understanding of how management structures impact on programs and service provision. This understanding, together with a high level of personal power, helps individual teachers influence and lead decisions about what happens in early childhood settings.

**Courses:** ED92, ED93, ED83

**Credit points:** 12 **Incompatible with:** EAB413  
**Campus:** EXT **Sem:** 2

**► EAB008 EARLY CHILDHOOD LANGUAGE AND LITERACIES AND COMMUNICATION 1**

This is an introductory unit in which students examine literacies from contemporary perspectives. The focus is on young children's learning literacies in family and community contexts in the years prior to formal schooling. Students will be encouraged to appreciate each child's journey as they encounter a range of multimodal practices that constitute literacies.

**Courses:** ED92, ED82, ED83, ED93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

**► EAB009 EARLY CHILDHOOD LANGUAGE AND LITERACIES AND COMMUNICATION 2**

In this unit, a literacy as social practice approach is examined critically. Students explore matters related to instructional experiences, literacy resources and materials, diversity, and partnerships with children's families. Although print will be the focus in reading and writing instruction, image/graphic text will be a significant consideration, so that literacy practices reflect new and changing ways of operating with texts. Teachers use pedagogies and assessment that provide opportunities for success for all students, particularly those individuals and groups who may perform at lower levels of proficiency.

**Courses:** ED92, ED93, ED82, IX11

**Prerequisites:** EAB008

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

**► EAB010 EARLY CHILDHOOD LANGUAGE AND LITERACIES AND COMMUNICATION 3**

This unit focuses on enabling students to build competencies in planning classroom discourses and learning programs that will enable young children to establish confident use of a repertoire of language, literacy and communications understandings and practices as a basis for ongoing learning and cultural participation.

**Courses:** ED92, ED93, IX11

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

**► EAB011 EARLY CHILDHOOD CURRICULUM: ARTS 1**

We are surrounded by visual images, in many cases much more powerful than any other form of communication. It is important that we are aware of how these images are working on us, and for that, we need to be visually literate. Childhood cultures are made up of interwoven narratives and commodities. The arts enable young children to give form to thought, to develop multiliteracies for exploring and expressing ideas and feelings through representation. This unit examines the characteristic features of the early childhood arts curriculum, its philosophical and theoretical underpinnings, beliefs about the

nature of the learner, the child/teacher relationship, and the educational process.

**Courses:** ED92, ED93, ED82, ED83, IX11

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

**► EAB012 EARLY CHILDHOOD CURRICULUM: ARTS 2**

Relevant theories, principles and philosophies are presented and analysed as a basis for developing appropriate teaching strategies for a quality arts program in the early years. Desired outcomes will be achieved through descriptive, interpretive, analytic and expressive processes and shared knowledge between students and staff.

**Courses:** ED92, ED82

**Credit points:** 12

**Campus:** KG

**Sem:** 1, 2

**► EAB013 EARLY CHILDHOOD SOCIETY, ENVIRONMENT AND HEALTH EDUCATION**

This unit promotes a broad view of science. However, that includes the social sciences, health and environmental perspectives. Appropriate curriculum approaches that support a broader, more integrated view of science is a key goal. Through this unit, students should achieve the following: develop a deepening of their own understandings of concepts pertinent to science, studies of society and environment, and health; learn to critique and broaden their views of science; understand a range of appropriate inquiry-based approaches relevant to these areas; learn to apply these approaches to facilitate young children's learning in the sciences.

**Courses:** ED92, ED93, ED82, ED83, IX11

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

**► EAB014 EARLY CHILDHOOD MATHEMATICS EDUCATION**

It is essential that children aged birth to 8 years are provided with opportunities to develop their abilities and interests by inquiring into the sciences and maths to learn more about themselves and their world. Maths concepts such as space, time, money and measurement provide an integrative framework for teaching and learning about science and social studies through everyday contexts. Appropriate teacher actions include encouraging children as explorers, problem solvers and meaning makers. The roles of early childhood teachers encompass the provision of flexible and stimulating learning environments as well as fostering children's understanding of science, maths and technology concepts. This unit support these ideals.

**Courses:** ED53, ED43, ED44, ED57, IF81, IX11

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** EAB347

**Campus:** EXT

**Sem:** 1, 3

**► EAB015 EARLY CHILDHOOD SCIENCE AND INFORMATION AND COMMUNICATION TECHNOLOGIES EDUCATION**

It is essential that children are provided with opportunities to develop their abilities and interests by using a variety of learning modes and that children have opportunities to develop concepts that are foundational to understanding in mathematics, and which form the basis of learning in all curriculum areas. Students require understanding of how children apply active inquiry processes to tasks designed to further concept development in mathematics. This unit will engage them in learning about foundational concepts in mathematics and exploring ways in which teachers can develop appropriate learning opportunities to encourage and foster their development.

**Courses:** ED92, ED93, IX11

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► EAB016 RESEARCH IN EARLY CHILDHOOD EDUCATION**

This unit aims to foster critical understanding of research with young children. The unit will provide opportunities for students to become a life-long learners and effective communicators

**Courses:** ED92

**Credit points:** 12

**Campus:** KG

**Sem:** 1

**► EAB017 INTEGRATED EARLY CHILDHOOD CURRICULUM**

This unit involves students drawing together and analysing information from a variety of disciplines and historical perspectives with a view to developing an understanding and knowledge that will provide them with a basis for creating and evaluating an integrated curriculum in early childhood settings.

**Courses:** ED92, ED93, ED82, ED83

**Credit points:** 12 **Incompatible with:** EAB412

**Campus:** KG

**Sem:** 2

**► EAB019 PROGRAMS FOR INFANTS & TODDLERS (BIRTH TO THREE YEARS)**

This unit focuses on our youngest children in formalised care settings. It is aimed at ensuring that students have both the reason for and the capability to benchmark high quality care and education of under 3s. The unit also supports student's capacity to design, implement and/or supervise high quality programs for very young children.

**Courses:** ED82

**Credit points:** 12

**Campus:** KG

**Sem:** 1

**► EAB021 EARLY CHILDHOOD HEALTH AND NUTRITION**

There is concern in the community about the general health of young children. Therefore it is important for students to understand current health policies and practices for various early childhood education settings. This includes the daily food needs of young children and how to provide appropriate everyday food education and social food experiences. The unit provides students with the knowledge to lead, plan, implement, and evaluate health practices in services and to balance the nutritional needs of individual children. Personal health and health practices including preventative strategies are addressed.

**Courses:** ED82, ED91

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► EAB022 EARLY CHILDHOOD SCIENCE EDUCATION**

This unit examines the importance of developing children's creativity, curiosity, problems solving skills and sense of wonder and appreciation of the environment, in the exploration of science. The unit focuses on the different approaches to teaching science and the development of positive attitudes for life long learning while taking into account children's cultural and diverse backgrounds.

**Courses:** ED90, ED91, ED92, ED82

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► EAB023 MATHEMATICAL EXPLORATIONS IN EARLY CHILDHOOD**

Mathematics is considered to be an essential learning area in the early childhood curriculum, as preparation for life, work and critical participation in society. Mathematics can also provide personal enjoyment.

**Courses:** ED91, ED92, ED82, ED90

**Credit points:** 12

**Campus:** KG

**► EAB024 SOCIOLOGY OF EARLY CHILDHOOD MATHEMATICS EDUCATION**

The aim of this unit is to develop a critical awareness of the ways in which teaching and learning in mathematics education can affect the achievement of some students over others and be implicated in issues of social and cultural reproduction and transformation. Therefore, this unit is concerned with equity and diversity in the teaching and learning of mathematics in communities of practice like early childhood contexts. Issues focused on in this unit include, language, assessment, communication, pedagogy and policy.

**Courses:** ED91, ED92, ED82, ED90

**Credit points:** 12

**Campus:** KG

**► EAB025 EARLY CHILDHOOD MATHEMATICS EDUCATION 2**

As a result of successful participation and completion of this unit students will have an understanding of the pedagogical practices which inform the teaching and learning of mathematics

in early childhood contexts. Similarly, they will have a sound understanding of the knowledge, skills and processes required to support learners in the early years of schooling.

**Courses:** ED92, ED93, ED83, ED82

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► EAB026 EARLY CHILDHOOD COMMUNITY ARTS PROJECT**

This unit has a focus on pedagogies, planning and assessment within the curriculum organisers of the New Basics, the Preschool Curriculum Guidelines and the key learning areas. It aims to increase knowledge and understanding of how curriculum organisers and outcomes can be used to plan intellectually challenging curricula for young children.

**Courses:** ED92

**Credit points:** 12

**Campus:** KG

**► EAB027 EARLY CHILDHOOD MATHEMATICS EDUCATION 1: BIRTH TO SIX YEARS**

This unit aims to develop concepts that are foundational to understandings in early childhood mathematics, and to generally enhance students' understandings, attitudes, values and skills in relation to early childhood mathematics, supported by concrete materials and computer environments. This unit will also investigate teaching methods and key sequences for developing concepts and skills for number, space, measurement, chance and data, and patterns and algebra.

**Courses:** ED92, ED82, ED93, ED83

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

**► EAB028 EARLY CHILDHOOD MATHEMATICS 2: FOUR TO 8 YEARS**

Children's successful participation in mathematical contexts is mediated by the effectiveness of a teacher's pedagogical practice, understandings of how learners learn, and knowledge and understanding of mathematics. This unit aims to develop an understanding of the pedagogical practices which inform the teaching and learning of mathematics in early childhood contexts, in particular, a sound understanding of the knowledge, skills and processes required to support learners in the early years of schooling.

**Courses:** ED92, ED93, ED83, ED82

**Credit points:** 12

**Campus:** KG, EXT

**► EAB130 NEGOTIATING CURRICULUM WITH YOUNG CHILDREN**

This unit provides a sound understanding of the key concepts which underpin early childhood education, in relation to childcare, preschool, prep and lower primary settings. Students begin to learn along with a community of learners, and make links between research, theory and practice, each informing the other.

**Courses:** ED97, IX11

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

**► EAB131 EARLY CHILDHOOD LITERACIES AND YOUNG CHILDREN 1**

This unit examines literacy from contemporary perspectives and introduces the view of literacy as a repertoire of contextualised social practices. The focus is on the years prior to formal schooling.

**Courses:** ED97, IX11

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

**► EAB132 EARLY CHILDHOOD LITERACIES AND YOUNG CHILDREN 2**

This unit helps students to understand early reading and writing processes in the print medium, as well as multi-media. They learn to use the framework of four literacy practices: code-breaker, text-participant, text-user and text-analyst to explore operational, cultural and critical dimensions of literacy.

**Courses:** ED97, IX11

**Credit points:** 12

**Prerequisites:** EAB131

**Campus:** KG, EXT

**Sem:** 2

**► EAB133 EARLY CHILDHOOD CURRICULUM: LEARNING AND THE ARTS**

This unit introduces the concepts, skills, processes and values of the arts in early childhood

education. An understanding of historical and contemporary views of appropriate practice in early childhood visual arts education provides a foundation for further investigations in the arts and early childhood curriculum.

**Courses:** ED97, IX11

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

**► EAB134 EARLY CHILDHOOD CURRICULUM: SOSE AND HEALTH**

This unit broadens and deepens students' understandings of key concepts that are foundational to social, environmental, health and physical education in the early childhood years, birth to 8 years. Allied with this conceptual understanding is the development of appropriate teaching and learning approaches that support young children as proactive learners.

**Courses:** ED97, IX11

**Credit points:** 12

**Campus:** KG, EXT

**► EAB135 EARLY CHILDHOOD CURRICULUM: MATHEMATICS AND YOUNG CHILDREN**

This unit develops concepts that are foundational to understandings in early childhood mathematics, and to generally enhance students' understandings, attitudes, values, and skills in relation to early childhood mathematics.

**Courses:** ED97, IX11

**Credit points:** 12

**Campus:** KG, EXT

**► EAB136 EARLY CHILDHOOD CURRICULUM: SCIENCE AND TECHNOLOGY**

The aim of this unit is to enhance students' understanding about and increase their commitment to the importance of science and technology education for young children. It also improves their understandings, attitudes, values and skills in relation to early childhood science and technology education.

**Courses:** ED97, IX11

**Credit points:** 12

**Campus:** KG, EXT

**► EAB345 EARLY CHILDHOOD CURRICULUM: LANGUAGE EDUCATION**

This unit addresses the following: pertinent theories and research in language and literacy education for children in early childhood settings; development of specific teaching and interactive practices for working with children's development of literacy, and for teaching reading and writing; planning appropriate learning environments using a wide range of literary and other resources; introduction to English syllabus.

**Courses:** ED43, ED44, ED52, ED53, ED57, IF81, IF83

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 3

**► EAB346 EARLY CHILDHOOD CURRICULUM: SCIENCE, SOCIETY AND THE ENVIRONMENT**

Students deepen their understanding of concepts pertinent to science, studies of society and environment, and health. They also learn to critique and broaden their views of science, and understand a range of appropriate inquiry-based approaches relevant to these areas, and to apply these approaches to learning in the sciences for young children.

**Courses:** ED26, ED43, ED44, ED52, ED53, ED57, IF81, IF83

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2, 3

**► EAB349 ADVANCED EARLY CHILDHOOD CURRICULUM: ARTS**

This unit includes the following: application of principles, practices, philosophies and theories in the areas of music, drama, movement and dance, with specific emphasis on how these arts provide unique opportunities for knowing and understanding; assisting children's development through music, dance and drama in preschool and primary school early childhood settings; integration of the arts in relation to unique and shared elements and concepts across various domains; advocacy in the arts.

**Courses:** ED43, ED52 **Prerequisites:** EAB348

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

**► EAB361 STORYTELLING IN EARLY CHILDHOOD**

A major consideration for the teacher of early childhood is to provide children with rich experiences of 'storying'. This unit introduces students to the following: the value of storytelling with young children; the selection of appropriate children's literature suitable for storytelling; various storytelling strategies in terms of their impact on a young audience; the use of appropriate props for storytelling; ways of integrating storytelling across the curriculum.

**Courses:** ED43, ED47, ED52, ED91, ED82, ED92

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► EAB362 ETHICAL RESPONSIBILITIES IN EARLY CHILDHOOD**

This unit includes the following: in-depth examination of ethical responsibilities of early childhood educators; historical overview of changing trends in legislation and practice relating to young children; current issues in children's rights; professional ethics and the responsibility of early childhood educators to children, parents, the community, society, colleagues and the profession; advocacy for young children; case studies relating to children's rights and ethical dilemmas.

**Courses:** ED43, ED52

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**► EAB363 CREATING CURRICULUM WITH YOUNG CHILDREN**

In this unit, more encompassing concepts of curriculum for young children will be considered in the light of theories and research that suggest that children construct their own knowledge. Ways in which teachers and children can work together in creating a curriculum that is meaningful while meeting the expectations of parents and society in relation to childcare, kindergarten/preschool and lower primary settings are considered. Practical strategies for creating supportive learning environments and methods for evaluating teaching and learning are included.

**Courses:** ED43, ED47, ED52, ED90, ED91, ED82

**Credit points:** 12

**Campus:** KG **Sem:** 2

**► EAB364 ACADEMIC AND PROFESSIONAL COMMUNICATION**

This unit includes the following: the development of an understanding of the general processes of communication in an academic and professional contexts; application of information literacy skills to a range of print and electronic sources; conventions for communicating using a range of academic text-types using print and electronic media; key concepts relating to the study topic: Families in Context.

**Courses:** ED44, ED52, ED53, ED82, ED83, ED93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2, 3

**► EAB410 EARLY EDUCATION: DECIDING THE CURRICULUM**

This unit includes the following: features of curriculum decision making in child care centres, kindergartens, first years of school; focus on processes used to create curriculum that is responsive to young children's abilities and family aspirations; issues associated with multi-age grouping, play, parent partnerships, child study and shared ownership in learning; investigation of current practices and reflection on personal professional knowledge.

**Courses:** ED20, ED26

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT **Sem:** 2

**► EAB412 ADVANCED INTEGRATED EARLY CHILDHOOD CURRICULUM**

This unit includes the following: examination of key ideas informing holistic curriculum approaches; theories and practices associated with play in the curriculum in all early childhood settings, and particularly the lower primary school; implications of implementing an inclusive curriculum; issues of equity and social jus-

tice reviewed in relation to the transacting the curriculum in early childhood settings; critical analysis of approaches to designing curriculum for the expanding range of services for young children and families in Australia.

**Courses:** ED43, ED52, ED53

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** EAB017

**Campus:** KG, EXT **Sem:** 1, 2

**► EAB413 MANAGEMENT OF EARLY CHILDHOOD SERVICES**

This unit includes the following: general management theory and practice; organisational and leadership styles; management of various early childhood services; setting policies and planning for services; implementing day-to-day tasks and operations; managing and working with people; collective and collaborative approaches to management; teamwork and decision-making; ethical issues and conduct; advocacy of early childhood services for young children from all cultural and social contexts.

**Courses:** ED20, ED43, ED44, ED52, ED53, ED57, IF81, IF83

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EAB006

**Campus:** KG, EXT **Sem:** 1, 2, 3

**► EAB416 EARLY CHILDHOOD ART EDUCATION**

This unit includes the following: historical and contemporary trends in art education; philosophy and practice in early childhood visual arts education; in-depth exploration of young children's artistic development and learning; assessment and evaluation of visual arts in early childhood; methods of reporting and record-keeping; studio art experiences; curating children's art exhibitions; public information about children's artistry; advocacy for improving options for young children in the visual arts.

**Courses:** ED43, ED52, ED47, ED91, ED82, ED90, ED92

**Prerequisites:** EAB348

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► EAB422 INFORMATION AND COMMUNICATION TECHNOLOGIES AND THE YOUNG CHILD**

This unit includes the following: selection, use and critical evaluation of computers and associated software, and related technologies in early childhood programs, linking technology and problem-solving; applications and use of computers and associated software for language, number and problem-solving; creating teaching materials.

**Courses:** ED43, ED52, ED90, ED91, ED82

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► EAB440 WORKING WITH PARENTS AND COMMUNITY**

This unit includes the following: parental roles in childhood; review of research on child rearing; the use of interpersonal skills in relating to parents; planning for parent involvement; parent involvement approaches; resources for parents; meeting the needs of parents and programs; future trends.

**Courses:** ED20, ED26

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT **Sem:** 2

**► EAB444 INCLUSIVE PRACTICES IN EARLY CHILDHOOD**

This unit focuses on young children with special needs and how their needs, and those of their families, can be met within early childhood programs. There is extensive community and professional concern for the inclusion of children with disabilities into regular early childhood settings, as well as interest in educational provisions for children with specific abilities. Teachers need to develop positive attitudes towards including children with special needs in their programs and the confidence to provide meaningful educational experiences.

**Courses:** ED20, ED44, ED52, ED53, ED57, IF81

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EAB005

**Campus:** KG, EXT

**Sem:** 1, 2, 3

**► EAB445 APPLIED STUDIES OF CHILDREN IN EARLY CHILDHOOD CONTEXTS**

This unit includes the following: synthesis of individual student's knowledge from the previous foundation units; development of skills in preparation and conduct of debates and case study reporting; children with special needs; social, personal, and professional issues in the provision of early childhood education and services.

**Courses:** ED53

**Prerequisites:** EAB442, EAB443, EAB444

**Corequisites:** EAB444

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** EXT **Sem:** 2

**► EAN601 INVESTIGATING CURRICULUM AND PEDAGOGY IN EARLY CHILDHOOD**

The aims for this unit are to assist students in developing a critically-informed and research-based understanding of the current issues that are under scrutiny in the field of Early Childhood Education. Recognition and appreciation of gender, culture and customs are essential to the consideration of the issues, and students will make active contributions to promoting codes of practice relevant to the specific professional area of education/learning.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

**► EAN603 CHILD DEVELOPMENT IN CONTEXT**

The aim of the unit is to foster critical understanding of current developmental theory, the conduct of developmental research and the application of research findings to practice in early childhood education and other fields in which professionals work with children and families.

**Courses:** ED09, ED13, ED11 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

**► EAN604 CHILDREN, FAMILIES AND COMMUNITIES**

Critical understandings drawn from a range of theoretical perspectives serve to critique research and policy around children, families and communities.

**Courses:** ED09, ED13, ED11 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

**► EAN608 CONSTRUCTIONS OF CHILDHOOD AND EARLY EDUCATION**

The unit aims to equip students to use sociological theoretical perspectives to constructively and critically examine childhood and early education ideas and practices.

**Courses:** ED09, ED13, ED11 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 3

**► EAN614 ARTS AND SCIENCES IN EARLY CHILDHOOD**

The unit challenges students, as leaders in early childhood teaching and learning, to interrogate a broad range of ideas, principles and guidelines to assist them in making decisions about curriculum in the arts and sciences. It challenges students to engage with trans-disciplinary and cross-disciplinary knowledge and innovation.

**Courses:** ED09, ED61, ED13 **Credit points:** 12

**Campus:** EXT **Sem:** 1

**► EAN615 MATHEMATICS IN EARLY CHILDHOOD**

This unit aims to develop a sound understanding of the theories which inform early childhood mathematics and the teaching and learning of mathematics. Students develop a broad knowledge of mathematical content specifically for early childhood contexts.

**Courses:** ED09, ED61, ED13 **Credit points:** 12

**Campus:** EXT **Sem:** 2

**► EAN616 LANGUAGE, LITERACIES AND COMMUNICATION IN EARLY CHILDHOOD**

The focus of this unit is to help students to understand recent research-based practices for literacy learning and teaching in the years before compulsory schooling and the early schools years. Emphasis is placed on a broad definition of literacy

that highlights the importance of all children becoming active participants in society and of knowing and engaging in a range of literacy practices, rather than just learning a set of reading and writing 'skills'.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **EAP533 CHANGE IN CHILDREN:  
BIRTH TO EIGHT YEARS**

This unit includes the following: techniques for observing and analysing child behaviour and development; major theories of child development; cognitive, language, social, physical and emotional development in children to age eight.

**Courses:** ED20, ED44, ED53 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

► **EAP534 CURRICULUM IN EARLY  
CHILDHOOD 1**

This unit includes the following: the development of problem solving, explanation, investigation, self-expression, originality, divergent thinking and risk-taking in young children in relation to communication, movement, the expressive arts, mathematics, science, social studies and health curriculum; approaches and suitable materials for these curriculum areas within early childhood settings; analysis of teaching strategies.

**Courses:** ED20 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

► **EAP535 CURRICULUM IN EARLY  
CHILDHOOD 2**

This unit includes the following: planning and evaluating early childhood programs for children birth to eight years; organisation and administration of programs for young children; examination of approaches to teaching; early intervention programs; interdisciplinary teamwork and support services; strategies for working with parents and community agencies; professional behaviour and ethics.

**Courses:** ED20  
**Corequisites:** EAP534 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **EAP536 CURRICULUM IN EARLY  
CHILDHOOD 3**

This unit includes the following: current approaches to the teaching of literacy and numeracy in the early years; diagnosis and assessment in early literacy and numeracy; the expressive arts and the sciences as modes of learning and teaching in the early years; applications of technology with young children; planning and teaching for individual and group needs.

**Courses:** ED20 ED52  
**Prerequisites:** EAP534, EAP535  
**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 3

► **EAP537 CONTEXTS OF EARLY  
CHILDHOOD EDUCATION**

This unit examines the bases and scope of education in early childhood, and the role of psychological theories, curriculum models, policies and programs. Case studies of early childhood programs are used.

**Courses:** ED20 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

► **EAP539 TRANSACTIONS IN EARLY  
CHILDHOOD EDUCATION**

This unit includes the following: examination of the implications of social, cultural and geographical factors for early childhood education; consideration of the effects of technology and media, and ethical and legal obligations; analysis of procedures and techniques for case studies; formulating a personal philosophical statement.

**Courses:** ED20 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **EDB001 TEACHING AND LEARNING  
STUDIES 1: TEACHING IN NEW TIMES**

Teaching today is being practised in a changing world. New forms of culture and society have emerged in recent decades alongside new and more globalised diagrams of economy, power and government. Schooling and education in all domains are being affected by these shifts and transformations. Educational sites, for instance, are becoming more differentiated and enterprising; learners themselves increasingly more di-

verse, active and autonomous. Teaching in New Times challenges students, in the early stages of their course, to develop an insightful and research-based conceptual framework, drawn from social theory and cultural studies, so that they may respond to these transformations in an informed, ethical and professional manner.

**Courses:** ED51, ED52, ED55, ED56, ED57, ED90, ED91, ED92, IF79, IX09, IX11

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** CLB305

**Campus:** CB, KG, EXT **Sem:** 1, 2

► **EDB002 TEACHING AND LEARNING  
STUDIES 2: DEVELOPMENT AND  
LEARNING**

This unit has the dual purposes of promoting students' own personal and professional development as life long, creative, autonomous learners, capable of reflection and high level thinking, and of enabling them, as educators, to promote similar development in their learners. Pursuit of these aims will involve an exploration of human development, from personal and interpersonal perspectives, with sensitivity to socio-cultural contexts, and with a particular focus on the theory, research and practice that informs educators about how learners construct knowledge and become creative, self-motivated thinkers and problem solvers.

**Courses:** ED90, ED91, IX01-IX09

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** SPB001

**Campus:** CB, KG **Sem:** 1

► **EDB003 TEACHING AND LEARNING  
STUDIES 3: PRACTISING EDUCATION**

Education is a social and cultural activity. This unit provides a sociological and cultural studies' framework that provides an insightful explanation of how education in its various sites is constructed and organised. The unit includes a socio-cultural analysis of an educational site which will be undertaken in conjunction with the Field Studies unit.

**Courses:** ED90, ED91, ED92, ED93, IX01-IX09, IX12, IX14

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** CLB306

**Campus:** KG **Sem:** 2

► **EDB004 TEACHING AND LEARNING  
STUDIES 4: INCLUSIVE EDUCATION**

This unit aims to develop students' understanding and appreciation of the contributions that diversity, belonging, and trust make towards a quality learning environment for all learners. Students learn to engage in teaching a broad range of students in diverse and inclusive ways utilising pedagogies and curriculum practices that enhance learning for all students and generate inclusive cultures within the school and classroom settings. Desired outcomes are achieved through descriptive, interpretative, analytic and expressive processes to share learning with fellow students and staff.

**Courses:** ED90, ED91, ED92, IX01-IX09

**Credit points:** 12 **Campus:** KG

► **EDB005 TEACHING AND LEARNING  
STUDIES 5: PROFESSIONAL WORK OF  
TEACHERS**

In this unit, students share the responsibility for shaping their beginning career learning through a process of professional induction with a number of key stakeholders. The process will be proactive, collaborative and self determined and the students need to become professionally responsible for developing professional development programs that best accommodate their needs at the close of the teacher education program.

**Courses:** ED90, ED91, IX01-IX09

**Credit points:** 12 **Campus:** KG

► **EDB006 LEARNING NETWORKS**

This unit explores the concept of learning networks: interacting social and technical systems that lead to collective sense-making and knowledge construction. Topics include the nature and use of Information and Communication Technologies (ICTs), learning theories and technologies, and socio-technical practices in learning networks.

**Courses:** ED47, ED90, ED91, ED92, ED82, IF70-79, IF81, IF82, ED51, ED55

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MDB385, CLB341

**Campus:** KG, CB **Sem:** 1

► **EDB007 CULTURE STUDIES:  
INDIGENOUS EDUCATION**

Numerous government reports and recent discussions about reconciliation have called for an increased commitment to indigenous education in Australia. Teachers are increasingly being asked to improve their skill, knowledge and understanding to teach indigenous students, and to teach curricula which incorporate indigenous viewpoints on social, cultural and historical matters. This unit begins with an analysis of the student's own cultural place in the Australian context, and afterwards moves towards an understanding of Aboriginal and Torres Strait Islander perspectives on history and contemporary issues, and an understanding of why Aboriginal and Torres Strait Islander students have been so disadvantaged by the Australian education system.

**Courses:** ED90, ED91, ED92, ED93, ED82, IX01-IX09, ED51

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, CB **Sem:** 2

► **EDB011 EARLY CHILDHOOD FIELD  
STUDIES 1: DEVELOPMENT AND  
LEARNING IN THE FIELD**

This unit focuses on students' professional development as educators, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BED. In these, students develop the ability to plan, implement and evaluate effective teaching/learning programs in a wide range of settings for children aged from birth to eight years. In this unit of the professional practices strand, students have opportunities to undertake activities designed to help them refine an increasing number of strategies for teaching and working collaboratively with children and their parents, and with other professional colleagues.

**Courses:** ED92, ED83, IF81, ED57, ED52, ED53, ED43, ED82, ED93

**Contact hours:** 20 days of supervised field experiences in before-school setting

**Credit points:** 12 **Incompatible with:** EDB422  
**Campus:** KG, EXT **Sem:** 1

► **EDB012 EARLY CHILDHOOD FIELD  
STUDIES 2: PRACTISING EDUCATION  
IN THE FIELD**

This unit focuses on student's professional development as educators, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the second set of teaching experiences, in a graduated sequence over the course of the BED. In this unit of the professional practices strand, students focus upon program planning and implementation in settings for children in lower primary, with an emphasis upon the development of knowledge of relevant policies and resources in curriculum provision. An emphasis will be maintained on understanding Early Childhood approaches to curriculum.

**Courses:** ED92, ED93, ED52, ED57, IF81, IF82  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EDB421  
**Campus:** KG, EXT **Sem:** 1, 2

► **EDB013 EARLY CHILDHOOD FIELD  
STUDIES 3: IMMERSION IN  
INCLUSIVE EDUCATIONAL  
PRACTICES**

This unit develops professional support relationships that early childhood practitioners must provide for all children and their families, and an awareness of the need for the teacher to work as a member of the community and as a partner with parents and other colleagues.

**Courses:** ED92, ED82, ED57 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **EDB014 EARLY CHILDHOOD FIELD STUDIES 4: PROFESSIONAL WORK OF TEACHERS - INDUCTION INTO THE FIELD**

This final early childhood practice unit is designed to provide a means of transition from the role of the tertiary student to that of a professional early childhood practitioner who is able to work across diverse settings. Students are encouraged to engage in reflection about their professional development and their future career paths and options.

**Courses:** ED92, ED93, ED82, IF81, ED57  
**Credit points:** 12 **Incompatible with:** EDB423  
**Campus:** KG, EXT

► **EDB015 INTERNSHIP (EARLY CHILDHOOD)**

This unit aims to induct the student into the professional work of teachers. The aim of this unit is for students to apply the knowledge, skills and understandings of teaching and learning that have been acquired throughout the course in an extended time in the workplace.

**Courses:** ED92, ED93 **Prerequisites:** EDB014  
**Credit points:** 12 **Campus:** KG, EXT

► **EDB016 EARLY CHILDHOOD PRACTICUM (CHILD CARE)**

This practicum unit is aimed at providing an initial experience in care and supervision in a child care setting. Students are encouraged to adopt a responsive approach in their work with children and adults. Students will undertake 20 days of Field Studies in a child care setting.

**Courses:** ED82  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **EDB021 PRIMARY FIELD STUDIES 1: DEVELOPMENT AND LEARNING IN THE FIELD**

This unit focuses on the students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, of a graduated sequence over the course of the BED. In these, students develop the ability to plan, implement and evaluate effective teaching/learning programs. This requires an understanding of learner needs, curriculum knowledge, procedures for creating supportive classroom environments, and sensitivity to socio-cultural contexts.

**Courses:** ED91, IX12, IX14  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CB, KG **Sem:** 1

► **EDB022 PRIMARY FIELD STUDIES 2: PRACTISING EDUCATION IN THE FIELD**

Through critical examination of the socio-cultural dimensions of these sites, this unit aims to utilise aspects of social enquiry to analyse the practice of teaching as a social and cultural activity. The unit also aims to develop students' pedagogical and curriculum skills as teachers.

**Courses:** ED91 **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **EDB023 PRIMARY FIELD STUDIES 3: IMMERSION IN INCLUSIVE EDUCATIONAL PRACTICES**

In the final year of teacher education, students will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. This field experience is designed for students to engage in teaching, learning and assessment practices in their field, interacting with individual students, small groups of students and whole class situations. Students will be required to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of the students in their classes.

**Courses:** ED91 **Credit points:** 12  
**Campus:** KG

► **EDB024 PRIMARY FIELD STUDIES 4: PROFESSIONAL WORK OF TEACHERS - INDUCTION INTO THE FIELD**

Learners remain central to the work of teams and must be recognised as culturally and socially diverse as well as intellectually diverse. Within these constructs, the graduating teachers are required to provide a range of educational opportunities that facilitate high quality and meaningful learning engagement for all students across differing educational contexts and sectors. This unit is designed to immerse fully pre-service teachers into the field with a view to scaffolding their repositioning as autonomous, critically reflective, inclusive professional teachers on completion.

**Courses:** ED91 **Credit points:** 12  
**Campus:** KG

► **EDB025 INTERNSHIP (PRIMARY)**

This unit aims to induct the student into the professional work of teachers. The aim of this unit is for the student to apply the knowledge, skills and understandings of teaching and learning that have been acquired throughout the course in an extended time in the workplace.

**Courses:** ED91 **Prerequisites:** EDB024  
**Credit points:** 12 **Campus:** KG

► **EDB031 SECONDARY FIELD STUDIES 1: DEVELOPMENT AND LEARNING IN THE FIELD**

This unit focuses on the students' professional development as educators, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, of a graduated sequence over the course of the BED. In these, students develop the ability to plan, implement and evaluate effective teaching/learning programs. This requires an understanding of learner needs, curriculum knowledge, procedures for creating supportive classroom environments, and sensitivity to socio-cultural contexts.

**Courses:** ED90, IX01-IX09  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **EDB032 SECONDARY FIELD STUDIES 2: PRACTISING EDUCATION IN THE FIELD**

Through critical examination of the socio-cultural dimensions of these sites, this unit aims to utilise aspects of social enquiry to analyse the practice of teaching as a social and cultural activity. At the same time, the unit aims to develop students' pedagogical and curriculum skills as teachers.

**Courses:** ED90, IX01-IX09 **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **EDB033 SECONDARY FIELD STUDIES 3: IMMERSION IN INCLUSIVE EDUCATIONAL PRACTICES**

Students are required to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of the students in their classes. Students are required to argue that their orientations to curriculum, teaching and assessment reflect practices that offer all students access to quality learning experiences.

**Courses:** ED90, IX01-IX09  
**Prerequisites:** EDB032 **Credit points:** 12  
**Campus:** KG

► **EDB034 SECONDARY FIELD STUDIES 4: PROFESSIONAL WORK OF TEACHERS - INDUCTION INTO THE FIELD**

This unit is designed to immerse fully pre-service teachers into the field with a view to scaffolding their repositioning as an autonomous, critically reflective, inclusive professional teachers on completion.

**Courses:** ED90, IX01-IX09  
**Prerequisites:** EDB033 **Credit points:** 12  
**Campus:** KG

► **EDB035 INTERNSHIP (SECONDARY)**

This unit aims to induct the students into the professional work of teachers. The aim of this unit is for them to apply the knowledge, skills and understandings of teaching and learning that they have acquired throughout the course in an extended time in the workplace.

**Courses:** ED90, IX01-IX09

**Prerequisites:** EDB034 **Credit points:** 12  
**Campus:** KG

► **EDB101 PROFESSIONAL FOUNDATIONS FOR LEARNING FACILITATION 1**

This unit will allow students to examine their learning preferences and reflect on how these preferences may influence positively and negatively their own personal and professional development and that of the clients with whom they work. Students are introduced to their legal obligations in designing and conducting learning experiences.

**Courses:** ED84 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **EDB102 PROFESSIONAL FOUNDATIONS FOR LEARNING FACILITATION 2**

This unit provides opportunities for students to develop understandings of the importance of the underlying processes (such as group dynamics) in learning situations and to have practical experiences in managing these processes.

**Courses:** ED84 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **EDB103 ADULT AND COMMUNITY LEARNING: PROFESSIONAL PROJECT 1**

In this unit, students are able to transfer the skills, knowledge and attitudes they have been developing through their study in the Bachelor of Adult and Community Learning to a professional work site or context. They will develop appropriate risk management strategies for their professional project.

**Courses:** ED84  
**Credit points:** 12  
**Campus:** KG

► **EDB104 ADULT AND COMMUNITY LEARNING: PROFESSIONAL PROJECT 2**

Students continue to transfer the skills, knowledge and attitudes they have been developing through their study in the Bachelor of Adult and Community Learning to a professional work site or context.

**Courses:** ED84 **Credit points:** 12  
**Campus:** KG

► **EDB200 INSIGHTS INTO EARLY CHILDHOOD DEVELOPMENT**

The unit aims to develop knowledge and understanding of early childhood development with a focus on children's thinking and communicating in a social context.

**Courses:** ED97, IX11 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **EDB201 ENGAGING IN LEARNING**

Increasingly rich and complex opportunities are offered to today's learners to engage in personal, social and technological approaches to knowledge construction. This unit considers them.

**Courses:** ED95, ED96, IX12, IX14  
**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **EDB202 TEACHING IN A KNOWLEDGE SOCIETY**

This unit builds professional capacity by developing a socio-cultural studies framework for understanding and analysing teaching, schooling and education in today's knowledge society.

**Courses:** ED95, ED96, ED97, IX11, IX12, IX14  
**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

► **EDB203 INCLUSIVITY IN EDUCATIONAL PRACTICE**

This unit engages the student in an investigation of the international nature of inclusion and trends that address socio-cultural issues through quality educational experiences.

**Courses:** ED95 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **EDB204 THE PROFESSIONAL WORK OF EDUCATORS**

This unit facilitates the process of induction within an educational professional learning community. It enhances students' awareness of,

and associates their knowledge with, the needs of indigenous Australians.

**Courses:** ED95, ED96, ED97, IX11, IX12, IX14  
**Credit points:** 12  
**Campus:** KG **Sem:** 3

#### ► EDB205 PRIMARY CURRICULUM PROJECT

This unit consolidates contextual skills and understandings in the use of Information and Communication Technologies to support teaching and learning in a school context.

**Courses:** ED96, IX12, IX14 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB206 SECONDARY CURRICULUM PROJECT

This unit consolidates contextual skills and understandings in the use of Information and Communication Technologies to support teaching and learning in a school context. It incorporates an investigation of current policy relating to the use of ICT in schools and the theoretical literature pertaining to ICT and Education

**Courses:** ED95 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB211 EARLY CHILDHOOD FIELD STUDIES A: INSIGHTS INTO EARLY CHILDHOOD DEVELOPMENT

This unit focuses on the student's professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner.

**Courses:** ED97, IX11 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► EDB212 EARLY CHILDHOOD FIELD STUDIES B: TEACHING IN THE KNOWLEDGE SOCIETY

This unit focuses upon program planning and implementation in settings for children in lower primary. Emphasis is upon the development of knowledge of relevant policies and resources in curriculum provision.

**Courses:** ED97, IX11 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► EDB213 EARLY CHILDHOOD FIELD STUDIES C: INCLUSIVITY IN EDUCATIONAL PRACTICE

This unit develops professional support relationships that early childhood practitioners must provide for all children and their families, and an awareness of the need for the teacher to work as a member of the community and as a partner with parents and other colleagues.

**Courses:** ED97, IX11 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB214 EARLY CHILDHOOD FIELD STUDIES D: THE PROFESSIONAL WORK OF EDUCATORS

The final early childhood practice unit is designed to provide a means of transition from the role of the tertiary student to that of a professional early childhood practitioner who is able to work across diverse settings.

**Courses:** ED97, IX11 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB215 EARLY CHILDHOOD PROFESSIONAL INTERNSHIP

This unit seeks to induct students into the professional work of early childhood teachers. It aims to have them apply the knowledge, skills and understandings of teaching and learning that they have acquired throughout their course to an authentic workplace setting.

**Courses:** ED97, IX11 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB221 PRIMARY FIELD STUDIES A: ENGAGING IN LEARNING

This unit focuses on the student's professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner.

**Courses:** ED96, IX12, IX14 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► EDB222 PRIMARY FIELD STUDIES B: TEACHING IN THE KNOWLEDGE SOCIETY

This unit facilitates pedagogical and curriculum development in terms of the socio-cultural con-

texts in which education takes place. The unit aims to utilise social enquiry as a social and cultural activity.

**Courses:** ED96, IX12, IX14  
**Prerequisites:** EDB221 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► EDB223 PRIMARY FIELD STUDIES C: INCLUSIVITY IN EDUCATIONAL PRACTICE

This unit focuses on the crucial link between inclusive theory and inclusive classroom practice. It is designed to demonstrate the students' ability to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways.

**Courses:** ED96, IX12, IX14  
**Prerequisites:** EDB222 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB224 PRIMARY FIELD STUDIES D: THE PROFESSIONAL WORK OF EDUCATORS

This unit enhances the students' ability to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of students in specific classes.

**Courses:** ED96, IX12, IX14  
**Prerequisites:** EDB223 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB225 PRIMARY PROFESSIONAL INTERNSHIP

This unit provides an induction into the professional work of primary teachers. It aims to have students apply the knowledge, skills and understandings of teaching and learning that they have acquired throughout their course to an authentic workplace setting.

**Courses:** ED96, IX12, IX14 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB231 SECONDARY FIELD STUDIES A: ENGAGING IN LEARNING

This unit focuses on the student's professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner.

**Courses:** ED95 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► EDB232 SECONDARY FIELD STUDIES B: TEACHING IN THE KNOWLEDGE SOCIETY

This unit develops pedagogical and curriculum development in terms of socio-cultural contexts in which education takes place.

**Courses:** ED95 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB233 SECONDARY FIELD STUDIES C: INCLUSIVITY IN EDUCATIONAL PRACTICE

This unit allows the students to engage in the implementation of authentic teaching, learning and assessment practices in a supportive environment. Students reflect on a range of experiences in order to extend and consolidate their developing teaching.

**Courses:** ED95 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► EDB234 SECONDARY FIELD STUDIES D: THE PROFESSIONAL WORK OF EDUCATORS

This unit immerses students, as preservice teachers, in the field, with a view to scaffolding their repositioning as autonomous, critically reflective, inclusive professional teachers on completion.

**Courses:** ED95  
**Prerequisites:** EDB233 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 3

#### ► EDB235 SECONDARY PROFESSIONAL INTERNSHIP

This unit provides induction as a preservice teacher into the professional work of secondary teachers. It aims to have students apply the knowledge, skills and understandings of teaching and learning that they have acquired throughout their course to an authentic workplace setting.

**Courses:** ED95 **Credit points:** 12  
**Campus:** KG, EXT

#### ► EDB350 ENGLISH FOR TEACHERS

This unit aims to continue the development of participants' own language proficiency and intercultural competence and to further develop their understandings of the importance of effective and appropriate use of language in successful EFL classrooms.

**Courses:** ED26, ED61, ED47, ED43  
**Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► EDB351 TEACHING METHODOLOGY FOR ENGLISH AS A FOREIGN LANGUAGE 1

This unit aims to continue the development of participants' English language proficiency and intercultural competence and to build on their understandings of language teaching methodology for use with young learners in a range of contexts.

**Courses:** ED26, ED61, ED47, ED43

**Prerequisites:** EDB350

**Credit points:** 12 **Incompatible with:** CLB351  
**Campus:** KG **Sem:** 2

#### ► EDB352 TEACHING METHODOLOGY FOR ENGLISH AS A FOREIGN LANGUAGE 2

The aim of this unit is to further support the development of students' English language proficiency and their ability to create effective learning environments for young EFL learners.

**Courses:** ED26, ED61, ED47, ED43

**Prerequisites:** EDB351

**Credit points:** 12

**Campus:** KG

#### ► EDB353 MATERIALS AND CURRICULUM DEVELOPMENT FOR ENGLISH AS A FOREIGN LANGUAGE

This unit aims to provide participants with opportunities to develop their English language proficiency and their ability to select, develop and analyse materials and resources. Participants are also encouraged to develop initiative, self-reliance and critical thinking when responding to the developmental needs of young learners in specific cultural and learning contexts.

**Courses:** ED26, ED61, ED47, ED43

**Credit points:** 12 **Campus:** KG

#### ► EDB400 FIELD EXPERIENCE 1

Part 1 (on-campus) provides a background for students about to engage in field experience. The focus is on learning styles, types of knowledge, accelerated and integrated learning, the mentoring process, preparing portfolios of work and self-directed learning. In Part 2 (in-field), students learn how to plan and promote a learning program. This involves identifying the needs of a target group, and the planning and promotion of appropriate training strategies.

**Courses:** ED54

**Contact hours:** 10/20 day placement; pre- and post-tutorials 1-3 hrs/wk for 7 weeks

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB401 FIELD EXPERIENCE 2

In Part 3 (In-Field), students learn how to deliver training sessions as part of a training program. They also learn the requirements for planning, delivering and reviewing training on a one-to-one or small group basis. Part 4 (In-Field) enables students to learn how to record data on training and to use this to assess the effectiveness of training.

**Courses:** ED54

**Prerequisites:** EDB400 **Corequisites:** EDB400

**Contact hours:** 20 day placement; pre- and post-tutorials

**Credit points:** 12

**Campus:** EXT **Sem:** 1, 2

#### ► EDB402 FIELD EXPERIENCE 3

In Part 5 (In-Field), students learn how to implement a training program for a target group. This involves planning a series of training sessions to meet the requirements of a target group. During Part 6 (In-Field), students learn the requirements for planning assessment in a specific context, how to determine evidence requirements, select appropriate assessment methods and develop assessment tools in specific contexts. Students

also learn how to employ the above components in practice.

**Courses:** ED54 **Prerequisites:** EDB400  
**Contact hours:** 20 day placement; pre- and post-tutorials  
**Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

#### ► EDB403 FIELD EXPERIENCE 4

In Part 7 (In-Field), students learn how to review assessment procedures in specific contexts, such as those stated in Part 6, check the consistency of the assessment decision, and report review findings. During Part 8 (Private Study), students reflect upon what they have learnt from Parts 2-7, how they overcame barriers/problems of learners in the training/education context, and how these experiences should assist them to become effective trainers/educators.

**Courses:** ED54  
**Prerequisites:** EDB400, EDB401, EDB402  
**Contact hours:** 20 day placement; pre- and post-tutorials  
**Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

#### ► EDB410 INTRODUCTION TO RESEARCH METHODS IN EDUCATION

This unit provides a foundation for understanding research design and methods in education. It focuses on reading, understanding and evaluating educational research both within and across different paradigms, and on enabling students to develop their own plan for a small-scale research project. It includes the development of skills in understanding, appreciating, and using the processes and techniques of research. Students are made aware of the variety of research cultures and theoretical perspectives, to become informed consumers of the research findings of others.

**Courses:** ED91, ED92, ED50, ED51, ED52  
**Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► EDB411 DISSERTATION

This unit builds on the understandings developed in the unit Introduction to Research Methods in Education (EDB410). The Dissertation represents an individual piece of research completed under the guidance of an academic supervisor. It should make a contribution to knowledge within a particular educational context through the critical analysis and evaluation of existing knowledge, and the investigation of a research focus or question within a particular educational context. The conclusions of the research should include the relevance for educational practice. This unit provides students with an excellent base on which to build their future academic study.

**Courses:** ED50, ED51, ED52  
**Prerequisites:** EDB410 **Credit points:** 36  
**Campus:** KG **Sem:** 1, 2

#### ► EDB420 EARLY CHILDHOOD PROFESSIONAL PRACTICE: CHILD CARE

This unit aims to develop an understanding of the socio-historical and contemporary contexts for children under three years of age in child care settings. Students explore a range of programming issues for this context, including observing children and planning for them, the use of play, exploration, communication and problem solving by children of this age. It includes twenty days of practicum.

**Courses:** ED43, ED52, ED57, IF81, IF83  
**Contact hours:** 2.5 per week **Credit points:** 12  
**Incompatible with:** PRB351  
**Campus:** KG, EXT **Sem:** 3

#### ► EDB423 EARLY CHILDHOOD PROFESSIONAL PRACTICE: CHOICE

This unit includes the following: refining strategies for teaching and working collaboratively with children, parents and colleagues in early childhood contexts; students' reflection on development of own practices; roles of early childhood educators with regard to ethics, advocacy for young children, policy development and administration; curriculum vitae and resume; Twenty days of supervised practice in an early childhood setting of the student's choice.

**Courses:** ED52, ED53, ED57, IF81, IF83

**Prerequisites:** EDB420, EDB421, EDB012, EDB422

**Contact hours:** 2.5 per week **Credit points:** 12  
**Incompatible with:** PRB354  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB430 PRIMARY PROFESSIONAL PRACTICE 1: CLASSROOM MANAGEMENT

This unit provides an introduction to professional practice in education and gives a foundation for further development in the areas of specialisation and/or specific subject curriculum areas. The role of the teacher is examined with reference to the teacher as communicator, planner, manager and facilitator of learning. The unit provides an opportunity for approaches, strategies and skills associated with the teacher's role to be introduced and applied with classroom management. This unit includes 10 single days in a primary school.

**Courses:** ED51, ED56, IF82, IF84  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 1

#### ► EDB431 PRIMARY PROFESSIONAL PRACTICE 2: CURRICULUM DECISION MAKING

This unit includes an examination of aspects of curriculum decision making to acquire the knowledge, skills and processes necessary for short-term and long-range planning. Curriculum development, curriculum implementation and curriculum evaluation are investigated to refine daily, weekly and term programs. Particular attention is given to co-operative teaching of an integrated unit of work. It includes 20 days of practice teaching in a primary school.

**Courses:** ED51, ED56, IF82, IF84  
**Prerequisites:** EDB430  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

#### ► EDB432 PRIMARY PROFESSIONAL PRACTICE 3: INCLUSIVE CURRICULUM

This unit addresses the social, political and material relations that exist in differing classroom curriculum practices, examining both the constraining and enabling factors that impact on and generate possibilities within the conceptualising of the inclusive curriculum. This is done with the support of practising teachers, and critical self-analysis of classroom practices and possibilities. It includes 20 days of practice teaching in a primary school.

**Courses:** ED51, ED56, IF82, IF84  
**Prerequisites:** EDB431  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB433 PRIMARY PROFESSIONAL PRACTICE 4: BEGINNING TEACHING

In this unit, students synthesise the range of skills, attitudes and knowledge sources that they have experienced to ensure an effective transition into professional practice as beginning teachers, taking responsibility for the shaping of educational practice from their own perspective and those of the learners. Emphasis is on planning and implementation of the total program. It includes 30 days of practice teaching in a primary school.

**Courses:** ED51, ED56, IF82, IF84  
**Prerequisites:** EDB432 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB440 INDEPENDENT STUDY

This unit involves self-initiated and self-directed academic study in an area of educational management interest that allows study either to a depth not possible in electives, or in an area not covered by the course. For requirements see the Independent Study Guide.

**Courses:** ED90, ED91, ED92, ED26, ED47, ED50, ED51, ED52, ED54, ED55, ED61, IF70-79

**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB442 INTEGRATED PROFESSIONAL STUDIES

This unit is designed to operate in conjunction with the training provided to educational advisors

by the Queensland Department of Education. Students compile a portfolio based on a survey of professional development literature and an inservice activity, which they design and implement with classroom teachers. A report is compiled in which students describe their work and reflect on its effectiveness.

**Courses:** ED26, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

#### ► EDB443 PROFESSIONAL INTERNSHIP OF ASSOCIATE TEACHING

The Professional Internship is a period of associate teaching in schools under the guidance of a teacher mentor. Authorisation to teach is provided by the Qld Board of Teacher Registration provided that all academic studies and professional practice units have been completed. Student Interns are prepared for the experience in weekly one hour seminars. This includes 30 days of Associate Teaching in a school.

**Courses:** ED50-52, ED55, IF70-79  
**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► EDB450 SECONDARY PROFESSIONAL PRACTICE 1: CLASSROOM MANAGEMENT

This unit examines the role of the teacher with reference to the concepts of the teacher as communicator, planner, manager and facilitator of learning. It provides an opportunity for associated approaches, strategies and skills to be introduced and applied within the ambit of classroom management in practical settings. It includes 10 single days in a school.

**Courses:** ED50, ED55, IF70-79  
**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB451 SECONDARY PROFESSIONAL PRACTICE 2: CURRICULUM DECISION MAKING

In this unit, State and Federal initiatives in curriculum are examined to interpret curricula for the needs and capabilities of learners. The practice component provides opportunities to design, test and refine personal decision-making models, approaches, strategies and programs. The unit includes 20 days practice teaching in a secondary school.

**Courses:** ED50, ED55, IF70-79  
**Prerequisites:** EDB450  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDB452 SECONDARY PROFESSIONAL PRACTICE 3: THE INCLUSIVE CURRICULUM

This unit addresses the social, political and material relations in differing classroom curriculum practices, with a view to examining both the constraining and enabling factors that impact on and generate possibilities within the conceptualising of the inclusive curriculum. Critical analysis of classroom practices and possibilities is effected in the professional practice component. This unit includes 20 days of practice teaching in a secondary school.

**Courses:** ED50, ED55, IF70-79  
**Prerequisites:** EDB451  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDB453 SECONDARY PROFESSIONAL PRACTICE 4: THE BEGINNING TEACHER

In this unit, students synthesise the range of skills, attitudes and knowledge sources that they have experienced to ensure an effective transition into professional practice as beginning teachers, taking responsibility for the shaping of educational practice from their own perspective and those of the learners. Emphasis will be on planning and implementation of the total program. It includes 30 days of practice teaching in a secondary school.

**Courses:** ED50, ED55, IF70-79  
**Prerequisites:** EDB452 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDN602 ADVANCED SEMINARS

This unit provides for the special needs and interests of students. Small groups of students interact

at an advanced level with specialists or visiting scholars in seminars, conferences and research projects.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN603 FACILITATED STUDY UNIT

The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance.

**Courses:** ED09, ED13, ED14, ED11, ED61, ED77

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN604-1 FACILITATED STUDY UNIT 1/2

The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit engages students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation.

**Courses:** ED09, ED61, ED13

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN604-2 FACILITATED STUDY UNIT 2/2

See EDN604-1 for details.

**Credit points:** 12

#### ► EDN605-1 FACILITATED STUDY UNIT 1/3

The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit engages students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation. The unit also aims to develop skills and understandings about how issues of professional interest can be explored and reported for professional and academic audiences.

**Courses:** ED09, ED61, ED13 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN605-2 FACILITATED STUDY UNIT 2/3

See EDN605-1 for details.

**Courses:** ED09 **Credit points:** 12

#### ► EDN605-3 FACILITATED STUDY UNIT 3/3

See EDN605-1 for details.

**Credit points:** 12

#### ► EDN608 PROJECT

The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit engages students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation.

**Courses:** ED09, ED13, ED14, ED61, ED77

**Prerequisites:** EDN611 **Credit points:** 24

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN610 THE LEARNING INNOVATOR

This unit aims to develop understanding of what it means to be an innovator and a leader in a contemporary professional context. The unit is underpinned by the notion that innovation means being more critical, being open, being able to engage with greater uncertainty and complexity, and being able to learn from the past in order to manage the future.

**Courses:** ED09 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDN611 PROFESSIONAL APPLICATIONS OF RESEARCH

The unit focuses on the needs of professionals to seek research knowledge that addresses specific problems or issues in their practice and to develop a positive attitude towards research in general. It assists students to search databases and other sources to locate published research reports in their field and evaluate them critically.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDN612 CONDUCTING INNOVATIVE RESEARCH IN EDUCATIONAL CONTEXTS

The unit aims to enhance capacities for undertaking research in educational and other learning contexts that is innovative in both its focus and its approach. The unit engages students in a comprehensive examination of relevant research theory and practical application.

**Courses:** ED09, ED13, ED11, ED12

**Prerequisites:** EDN611 or equivalent

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

#### ► EDN613-1 THESIS 1/3

This unit allows students to identify an area of research germane to their personal and professional interests and to develop and undertake an original piece of research.

**Courses:** ED09

**Prerequisites:** EDN611, EDN612

**Credit points:** 12

**Incompatible with:** EDN620

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN613-2 THESIS 2/3

See EDN613-1.

**Courses:** ED09 **Credit points:** 12

#### ► EDN613-3 THESIS 3/3

See EDN613-1.

**Courses:** ED09 **Credit points:** 12

#### ► EDN614-1 THESIS 1/4

This unit allows students to identify an area of research of personal and professional interest and to develop and undertake an original piece of research. The unit provides opportunity to extend and synthesise knowledge from the core and elective units into research study.

**Courses:** ED09

**Prerequisites:** EDN611, EDN612

**Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN614-2 THESIS 2/4

See EDN614-1 for details.

**Courses:** ED09

**Credit points:** 12

#### ► EDN614-3 THESIS 3/4

See EDN614-1 for details.

**Courses:** ED09

**Credit points:** 12

#### ► EDN614-4 THESIS 4/4

See EDN614-1 for details.

**Courses:** ED09

**Credit points:** 12

#### ► EDN620 FACILITATED STUDY UNIT

The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit engages students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation.

**Courses:** ED13

**Prerequisites:** EDN611, EDN612

**Credit points:** 36

**Campus:** KG, EXT **Sem:** 1, 2, 3

#### ► EDN626 LEARNING AND TEACHING IN HIGHER EDUCATION

This unit aims to develop the students' capacity to take a theoretically grounded approach to teaching and learning in higher education, specifically by increasing their knowledge of formal and informal theories of learning and teaching.

**Courses:** ED09, ED13, ED61 **Credit points:** 12

**Campus:** EXT **Sem:** 1

#### ► EDN627 CONTEXTS AND ISSUES IN HIGHER EDUCATION

This unit aims to provide students with opportunities to develop an understanding of a range of contemporary historical, policy and social issues that impact on higher education at institutional, school, department, course and individual levels.

**Courses:** ED13, ED61 **Credit points:** 12

**Campus:** EXT **Sem:** 2

#### ► EDN629 PRESENTATION AND DELIVERY MODES IN HIGHER EDUCATION

This unit aims to provide students with the opportunity to gain the knowledge, skills and confidence to use a variety of delivery methods appropriate to their post-secondary student cohort, and to be able to evaluate and critique each mode of delivery within a pedagogical framework which is student-centred and context-specific.

**Courses:** ED09, ED13, ED61 **Credit points:** 12

**Campus:** EXT **Sem:** 1

#### ► EDN630 HIGHER EDUCATION: CURRICULUM DESIGN, ASSESSMENT AND EVALUATION

The unit aims to introduce students to key concepts and practices underpinning contemporary curriculum design, assessment and evaluation in rapidly changing global and local contexts.

**Courses:** ED09, ED13, ED61 **Credit points:** 12

**Campus:** EXT **Sem:** 2

#### ► EDN631 SUPERVISED PRACTICUM 1

The aim is to provide students with a basic level of professional knowledge and skills in the practice of educational and development psychology and an awareness of ethical guidelines. Students also develop a high standard of professional conduct through supervised practice.

**Courses:** IX20

**Corequisites:** SPN640, SPN641, PYN601

**Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► EDN632 SUPERVISED PRACTICUM 2

The aim of the unit is to provide students with supervised experience in applying diagnostic, assessment and intervention skills in educational settings. This unit also develops students' written and oral communication skills and provides them with practice in using these skills to communicate results of assessments and recommendations for interventions to school staff, parents and other stakeholders.

**Courses:** IX20

**Prerequisites:** EDN631

**Corequisites:** SPN642 **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► EDN633 SUPERVISED PRACTICUM 3

The unit will provide students with supervised experience in applying their diagnostic, assessment and intervention skills within non-educational settings. It further develops students' written and oral communication skills, and provides them with practice in using these skills to communicate results of assessments and intervention strategies within teams from non-educational settings.

**Courses:** IX20

**Prerequisites:** EDN631

**Contact hours:** Approximately 2 days per week for practicum

**Credit points:** 12 **Campus:** KG

#### ► EDN634 SUPERVISED PRACTICUM 4

The aim of the unit is to provide students with support in ensuring that they have attained the level of knowledge and skill required to meet the competencies of the Psychologists Board of Queensland.

**Courses:** IX20

**Prerequisites:** EDN631, EDN632, EDN633

**Credit points:** 12 **Campus:** KG

#### ► EDN635 PRACTICUM IN EARLY CHILDHOOD

In this unit, students are required to draw on professional knowledge and experience in making child observations and in planning, implementing and evaluating learning experiences for children.

**Courses:** ED09, ED61 **Credit points:** 12

**Campus:** EXT **Sem:** 2

#### ► EDP508 PRACTICUM IN EARLY CHILDHOOD 1

This unit includes the following: observation; planning; implementation and evaluation of curriculum for children in early childhood; communication with children, parents and colleagues; the demonstration of organisational and administrative skills in an early childhood setting. It includes 10 days of practicum.

**Courses:** ED20

**Prerequisites:** EAP533

**Corequisites:** EAP534, EAP535 **Credit points:** 6

**Campus:** EXT **Sem:** 2, 3

**► EDP509 PRACTICUM IN EARLY CHILDHOOD 2**

This unit includes the following: observation; design, implementation and evaluation of programs for children in the early childhood age range; communication with children, parents and colleagues; increased responsibility for control and management in the early childhood setting; catering for children in the early childhood age range. It includes 10 days of practicum.

**Courses:** ED20

**Prerequisites:** EDP508

**Credit points:** 6

**Campus:** EXT

**Sem:** 1, 2, 3

**► EDR702 THESIS (1-9)**

This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the students' professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research that grows out of the professional coursework. All candidates will proceed through the three required thesis steps: Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; Step C, Thesis Implementation.

**Courses:** ED11

**Prerequisites:** EDR703

**Credit points:** 216 (24 each)

**Campus:** KG

**Sem:** 2

**► EDR703 INTERDISCIPLINARY EDUCATION STUDIES (ADVANCED SEMINARS)**

This is a reading and seminar program that aims to broaden and deepen the students' initial perspective to include elements derived from theoretical perspectives drawn from a number of disciplines. The unit seeks to provide a context of learning for educators who seek the personal and professional benefits that broadening and deepening of their professional knowledge affords.

**Courses:** ED11

**Credit points:** 24

**Campus:** KG

**Sem:** 1, 3

**► EEB112 ELECTRICAL AND COMPUTER ENGINEERING 1**

The unit comprises two modules: Electric Circuits and Introductory Computing. The first module covers fundamental quantities in circuits and network laws, response to sinusoidal sources, and circuit measurements. The second module covers fundamentals of problem solving using computers and programming and techniques for writing correct and efficient programs.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Contact hours:** 5 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

**► EEB130 INTRODUCTION TO AVIONICS**

The unit introduces students to Avionics in a non-technical way. It focuses primarily on aviation navigation and provides a basic understanding of avionics. A complete flight system is studied at an introductory level. The unit also gives an overview of the electronics inside an aircraft, the aircraft environment, and flight simulation.

**Courses:** EE48

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► EEB212 ELECTRICAL AND COMPUTER ENGINEERING 2**

The unit comprises three modules: Network Theory, Engineering Computing, and the Laplace Transform. The first module covers network laws, ac power calculations, three-phase systems, series and parallel resonance, magnetic coupling and linear transformer, and using PSPICE to solve and analyse complex circuits. The second module covers an introduction to Software Engineering and Design. The basics of Laplace transforms are taught in the third module.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Prerequisites:** EEB112

**Contact hours:** 5 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► EEB213 ELECTRICAL CIRCUITS AND MEASUREMENTS**

The unit covers fundamental electrical quantities, Kirchoff's laws, direct current and alternating current, response of RLC circuits to dc and sinusoidal sources, Thevenin and Norton equivalents, power transfer, three-phase systems, series and parallel resonance, mutual inductance and transformers, computer-aided analysis of circuits using PSPICE, electrical measurement and analysis in practical laboratory experiments.

**Courses:** IF59, EE46, EE47

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► EEB220 ELECTRICAL ENGINEERING 2M**

The unit covers basic network laws, response to sinusoidal sources, real and reactive power calculation, power factor improvement, electric and magnetic fields, three-phase system, transformer theory, dc and ac rotating machines and their applications, basic electronic circuits, filters, PLC and operational amplifier circuits.

**Courses:** ME36, ME41, ME42, ME48, IF57

**Prerequisites:** EEB112

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► EEB311 ELECTRICAL MEASUREMENT AND MACHINES**

This unit includes the following: electrical measurements and instrumentation; magnetic circuits; sensors, PLC's, DSC, and industrial networks; single phase and three phase transformers; electric machines including electromechanical energy conversion, reluctance motors, induction motors, synchronous machines, D.C. machines, stepper motors, P.C. motors; motor control; heating, cooling and rating.

**Courses:** EE41

**Prerequisites:** EEB212 or EEB213

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► EEB312 ANALOG AND DIGITAL ELECTRONICS**

Analogue and digital electronics devices, circuits and systems are the foundation for all electronic systems. This foundation serves all electronics engineering disciplines and also provides a good hardware basis for computer engineering students. The aim of this unit is to provide awareness of the characteristics and operation of discrete semiconductor components, to introduce analogue circuit design and to provide a good grounding in the basic principles of digital design.

**Courses:** EE41, EE46, EE47

**Prerequisites:** EEB212 or EEB213

**Contact hours:** 6 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► EEB340 INTRODUCTION TO TELECOMMUNICATIONS**

Telecommunications systems and the principles underlying their operations are introduced in this unit starting from mathematical preliminaries such as the Fourier series and the Fourier transform. Basic radio receivers and antennas, analogue modulation techniques (AM, SSB, VSB and FM), systems and circuits for generation and demodulation and basic properties of noise and its effects on modulation systems are studied using time and frequency domain analyses.

**Courses:** EE41, EE46, EE47

**Prerequisites:** MAB132

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► EEB411 CLASSICAL CONTROL AND POWER SYSTEMS**

The unit is a core unit with the modules Control Systems and Power Systems. It instils the foundation of feedback control theory for engineers and introduces the student to basic classical feedback control theory, analysis and synthesis. The second module covers power generation, and energy sources, electricity market operation, fault calculations, basic protection, and power system operation, in particular real and reactive power control.

**Courses:** EE41, EE42

**Prerequisites:** EEB311, MAB132

**Corequisites:** EEB440

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► EEB412 ADVANCED ELECTRONICS AND EMBEDDED SYSTEMS**

The two modules of this unit, Electronics B and Embedded Systems provide a basis for electronic circuit design in general but also in connection with microprocessor systems. Operational amplifiers and comparators for use in signal conditioning and instrumentation amplifiers are presented as well as integrated circuits as building blocks for system design. Students are given a grounding in the principles and practical use of embedded microprocessor/microcontroller systems.

**Courses:** EE41, EE46, EE47

**Prerequisites:** EEB312

**Contact hours:** 5 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► EEB431 AIRCRAFT SYSTEMS AND FLIGHT CONTROL**

The modern aircraft is an extremely complex machine comprised of many systems. These systems include propulsion, engine management, flight management, flight control, navigation, and life support and flight data recorders. The safe and reliable operation of all these systems is required to conduct a single flight. The modern avionics engineer requires an understanding of all these systems and how they operate on modern civil and military aircraft. This unit places emphasis on the flight control systems of modern aircraft. As part of this, methods for modelling the dynamic behaviour of aircraft, missiles and spacecraft are introduced, along with the criteria for stability.

**Courses:** EE48

**Prerequisites:** EEB130, EEB212, MMB251

**Contact hours:** 6 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► EEB440 CLASSICAL SIGNAL PROCESSING**

The unit covers the area of Signals in Linear Systems for which a detailed study of Fourier theory applied to analog signals and to the analysis of linear systems is given. System analysis is presented in time as well as in frequency and various characteristics and relationships in the two domains are discussed. Students are introduced to the classical design of filters such as the Butterworth and Chebyshev type along with a brief exposure to their realization as analog circuits. The sampling theorem and Nyquist criteria are discussed in detail and an introduction to discrete-time signal processing using the z-transform is provided.

**Courses:** EE41, EE46, EE47

**Prerequisites:** EEB340, MAB134

**Corequisites:** MAB135

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

**► EEB511 MODERN CONTROL AND POWER ELECTRONICS**

The unit comprises the modules Control Systems B and Power Electronics. Control Systems B introduces students to discrete-time control by extending the conventional control into the discrete-time domain. As a second part of Control Systems B, the state model oriented approach for designing control systems is introduced. The second module covers power rectification, controlled rectification, inverters, AC and DC drives, uninterrupted power supplies, power switching components.

**Courses:** EE41, EE42

**Prerequisites:** EEB411

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► EEB512 INDUSTRIAL ELECTRONICS AND DIGITAL DESIGN**

Modules Electronics C and Digital Systems Design provide a basic understanding of linear and switch applications in industrial electronics. Practical knowledge associated with interfacing and design is developed. Students will study the theory and design of advanced embedded digital systems and practical implementation. The practical application of these circuits including interfacing and environment factors is considered.

**Courses:** EE41, EE46

**Prerequisites:** EEB412

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► EEB521 DIGITAL SYSTEMS AND CONTROL

The unit comprises the modules 'Control Systems B' and 'Digital Systems Design'. Control Systems B introduces to discrete-time control by extending the conventional control into the discrete-time domain. As a second part of Control Systems B, the state model oriented approach for designing control systems is introduced. It provides the theory and design of advanced digital systems and practical implementation.

**Courses:** ME40

**Prerequisites:** EEB411, EEB412

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB535 MODERN FLIGHT CONTROL SYSTEMS

The modules of this unit are Control Systems B and Flight Control Systems. The unit provides students with an understanding of control system design and analysis for discrete time control systems as well as using the state space approach. Furthermore, it introduces students to different aspects of flight control including factors affecting the performance and simulation. Specific topics such as artificial stability and MILSTDs are also covered.

**Courses:** EE48

**Prerequisites:** EEB412, EEB435

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB560 DIGITAL COMMUNICATIONS

Revolutionary developments in the field of Digital Communication Technology have enabled improvement in the characteristics of communication systems in order to meet the performance requirements for transmission of information for private, business and industrial applications. This unit which covers Elements of a Digital Communication System aims at providing the students with an in-depth understanding of the theory and applications of digital communication systems and technology.

**Courses:** EE41, EE46, EE47

**Prerequisites:** EEB440

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB566 REAL-TIME COMPUTER-BASED SYSTEMS

This unit covers the area of embedded systems and real-time kernels. C programming is reviewed in the context of real-time applications where it is often mixed with assembly language. Data representations, input-output programming, concurrency, scheduling, memory management and system initialisation are discussed. Programming laboratory exercises introduce development tools and reinforce fundamental concepts such as polling, interrupt driven input-output, serial port communication, pre-emptive and non pre-emptive scheduling, resource sharing, priority inversion and deadlock. Students develop a simple real-time process control application using programmable logic and micro-controllers.

**Courses:** EE46

**Prerequisites:** EEB412, ITB421

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB584 INTRODUCTION TO DESIGN

This unit includes the following: an introduction to general principles of electronic circuit and electrical equipment design and realisation; design and implementation of basic electronic circuits; experience in undertaking engineering projects; report writing; working in teams. The unit gives students the opportunity to apply their theoretical knowledge to real-life engineering problems.

**Courses:** EE41, EE42, EE48, EE46, EE47

**Prerequisites:** EEB412

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB585 SYSTEMS ENGINEERING DESIGN

Students work in teams on specific pre-determined sub-projects. They will be exposed to principles in design specifications, feasibility studies, standards and technical writing. In particular, the following topic areas will be covered:

introduction to systems engineering; user requirements process; system requirements process; requirements traceability and analysis; project management tools; risk management; brainstorming and trade studies; cost/benefit criteria; feasibility studies; the project life cycle phases; detailed design; system qualification and acceptance testing; design review procedure.

**Courses:** EE48, IX25

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB640 DIGITAL SIGNAL PROCESSING

The unit comprises the area of Digital Signal Processing and provides students with the fundamentals of discrete-time signal processing, discrete Fourier transform, discrete convolution, digital filters and digital spectral estimation. Examples and applications arising from various disciplines are presented, to prepare the student to solve practical problems.

**Courses:** EE41, EE46, EE47

**Prerequisites:** EEB440, MAB135

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► EEB641 FIELDS TRANSMISSION AND PROPAGATION

This unit addresses the following: fundamental concepts of static and time varying electromagnetic fields; Maxwell's equations and the characteristics of their solution, such as wave equations, losses in various media and energy flow; numerical methods; transmission line theory, terminated line, Smith Circle Chart usage and lattice diagram; propagation modes in waveguides and optical fibre; free-space propagation, reflection, refraction, diffraction; basic antenna theories and antenna parameters, Frii's transmission equation, half-wave dipole, two-element array.

**Courses:** EE41, EE47 **Prerequisites:** MAB135

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► EEB650 POWER SYSTEMS ANALYSIS

This unit addresses the following: power system economics, costs of losses, tariffs, plant selection; power flow calculation algorithms; protection systems, transformer protection motor protection, feeder protection; setting of IDMT relays; quality of electricity supply; surge phenomena in lines and machines; switching and lightning surges solution by numerical methods; harmonic analysis of interconnected networks; electrical safety, earth electrodes, evaluation of step and touch potentials.

**Courses:** EE41, EE42 **Prerequisites:** EEB511

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► EEB666 COMMUNICATION ENVIRONMENTS FOR EMBEDDED SYSTEMS

This unit addresses the following: computer networks; network programming; open network foundations; embedded systems; client/server; bus architectures; network controllers; distributed systems in automation and process control; embedded Java; distributed objects; distributed databases; distributed operating systems

**Courses:** EE46

**Prerequisites:** EEB412, ITB421, EEB566

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► EEB684 ADVANCED DESIGN

This unit introduces detailed design and realisation of typical electrical subsystems used in all areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. As part of the advanced design, this unit also covers a number of engineering skills including high-level thinking, project planning, information retrieval techniques, writing report and oral presentation skills. The student is required to write a detailed technical report and also to give an oral presentation on her/his design

**Courses:** EE41, EE42, IF21, IF28, IF59, EE46, EE47

**Prerequisites:** EEB584

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► EEB685 ADVANCED SYSTEMS DESIGN

This unit presents detailed design and realisation of typical electronic subsystems used in all areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. Students are required to write a detailed technical report and also give an oral presentation on their design.

**Courses:** EE48

**Prerequisites:** EEB585

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► EEB686 INDUSTRY PRACTICE

Industry Practice provides high achieving students with the opportunity to participate in a co-operative education environment created by a partnership between the student, industry and the University. The unit aims at developing knowledge of, and experience in, the practices and procedures in the workplace environment. Students will apply for paid employment with an industry partner registered for this program. The process will be open and competitive, and an interview will be conducted as for a typical job application process. The duration of the employment is expected to be from 4 to 6 months, with 24 to 40 hours per week, and must overlap the TP of Semester 2.

**Courses:** EE41, EE42

**Contact hours:** 1 per week **Credit points:** 24  
**Campus:** GP **Sem:** 2

### ► EEB732 SPACE TECHNOLOGY

This unit offers a general introduction to space technology. It includes the following: coordination of systems and time references used within space flight dynamics; discussion of rocket ascent trajectories and satellite orbit dynamics; detailed description and discussion of satellite as a system and subsystems; description and discussion of rocket as a system; introduction to satellite launch systems and satellite applications.

**Courses:** EE48

**Prerequisites:** EEB435 or EEB431

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB760 AEROSPACE RADIO AND RADAR SYSTEMS

Radio and radar systems provide the backbone and arteries of all aerospace and avionics systems. A knowledge of the effects of electromagnetic compatibility and interference and the standards which apply as well as a detailed knowledge of the theory and techniques of ground, air and space based radio and radar systems is essential for all avionics engineers. Radio and radar systems are an integral part of the safe and efficient operation of aircraft movements and must be considered as part of the system as a whole.

**Courses:** EE48

**Prerequisites:** EEB560, EEB641

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► EEB766 COMMUNICATION TECHNOLOGIES

The unit covers various communication and signal processing technologies: point to point and point to multi-point; wired and wireless communications including microwave terrestrial and satellite communication; last miles solutions including ADSL, VDSL and wireless local loops; ad hoc radio transmission such as the Bluetooth and Home RF; Wireless LANs including wireless infrared transmission and IEEE8012.11 standard.

**Courses:** EE47

**Prerequisites:** EEB560

**Contact hours:** 4 per week **Credit points:** 12  
**Sem:** 1

### ► EEB781 PROFESSIONAL STUDIES 2

This is to provide adequate skills for young professional engineers to start a small business or to be an active partner in one. Personnel management skills are developed: assertion training; interpersonal relationships; organisational change; professional ethics and negotiation. As well, the unit covers the basics of accounting practice, types of companies, marketing principles.

ples, business plans, intellectual property and statutory obligations on company managers.

**Courses:** EE41, EE42, EE48, IF59, EE46, EE47

**Prerequisites:** BNB007

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEB782-1 SYSTEMS PROJECT

In this unit, an engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, and power and may include programming, circuit and system design.

**Courses:** EE48 IX25

**Contact hours:** 1 per week **Credit points:** 24  
**Campus:** GP **Sem:** 1

#### ► EEB782-2 SYSTEMS PROJECT

See EEB782-1.

**Courses:** EE48 IX25 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEB831 MILITARY COMBAT ELECTRONICS

This unit addresses the following: sound generation propagation and analysis in the military environment; principles and application of lasers to sighting and guidance systems; principles of detection of submarines using magnetometers; infra red propagation and its use in detection and weapons guidance; ECM/ECCM; sonar processing; laser processing and guidance; radar guidance/sighting; gun sights; weapons control systems; IFF/Transponder; command and control; magnetic anomaly detection; tactical navigation systems; infra red. Some ethical, social and moral aspects of military systems will be discussed.

**Courses:** EE48

**Prerequisites:** EEB435, EEB560, EEB640, EEB641

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEB833 SPACECRAFT GUIDANCE AND NAVIGATION

This unit includes the following: general introduction to spacecraft guidance and navigation systems and concepts; coordination of systems and time references applied within spacecraft guidance and navigation; discussion of spacecraft orbit and attitude dynamics; detailed description and discussion of GNSS system aspects; GPS observables and data processing; description and discussion of spacecraft guidance and navigation sensors and systems; methods for spacecraft orbit and attitude determination; discussion of spacecraft actuators.

**Courses:** EE48

**Prerequisites:** EEB732

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEB835 NAVIGATION SYSTEMS FOR AIRCRAFT

Modern aviation continues to flourish, with millions of passenger miles flown each year throughout the world and in all kinds of weather condition. Safe and reliable navigation is one of the primary functions that enable these flights. In past years, pilots navigated visually but this relied on fair weather conditions. Today, pilots use navigation aids to allow navigation in all types of weather conditions day or night. This unit presents the principles and practices of modern navigation sensors and systems. To be a competent Avionics Engineer, a detailed knowledge of the principles of navigation is mandatory. Navigation is a fundamental building block for all aspects of aerospace projects.

**Courses:** EE48

**Prerequisites:** EEB560, EEB641

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEB882 INDUSTRY PROJECT

The CEED Industry Project may be completed in the first or second semester of the final year full time course. CEED is intended to introduce students to industry practices under the guidance of a qualified engineer/supervisor and prepare them with design, technical, teamwork and communi-

cation skills such as they are likely to encounter upon graduation. Because the project is industry based, the student will spend the majority of their allocated project time performing practical engineering at the industry premises. Individually structured projects are offered to final year students on a competitive basis through a formal application and selection process.

**Courses:** EE41, EE42

**Credit points:** 36

**Campus:** GP

**Sem:** 1, 2

#### ► EEB889-1 PROJECT

This unit is divided into two parts: EEB889-1 and EEB889-2. Students normally complete part 1 in semester 1 and part 2 in semester 2 in their final year of study. An engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area involving electronics, computing, control, communication, signal processing, electrical power, or aerospace/avionics. The project may include programming, circuit and system design.

**Courses:** EE41, EE42, IF21, IF28, IF59, EE46, EE47

**Contact hours:** 1 per week **Credit points:** 24  
**Campus:** GP **Sem:** 1

#### ► EEB889-2 PROJECT

See EEB889-1 for details.

**Courses:** EE41, EE42, IF21, IF28, IF59, EE46, EE47

**Contact hours:** 1 per week **Credit points:** 24  
**Campus:** GP **Sem:** 1, 2

#### ► EEB904 ADVANCED TOPICS IN ELECTRICAL ENGINEERING A

This unit introduces students to the current technology based on research that is the expertise of visiting specialists or staff within the School. It runs as an elective in the final year of the course subject to availability of staff and relevance of the topic.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Credit points:** 12

#### ► EEB905 ADVANCED TOPICS IN ELECTRICAL ENGINEERING B

This unit introduces students to the current technology based on research that is the expertise of visiting specialists or staff within the School. It runs as an elective in the final year of the course subject to availability of staff and relevance of the topic.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Credit points:** 12

**Campus:** GP

#### ► EEB911 ELECTRICAL ENERGY SYSTEMS

This unit addresses the following: electricity transmission and distribution networks, structure and controls; quality and reliability of electricity supply; energy utilisation in buildings: lifts, fire systems, standby generation, lighting, communication, air conditioning; renewable energy options: characteristics and utilisation of alternate sources; the electricity market; distribution automation; data communications for distribution networks; earthing and soil resistivity; switchgear and protection; insulation coordination.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Prerequisites:** EEB511, EEB584

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEB941 MODERN SIGNAL PROCESSING

This unit gives a comprehensive introduction to the representation and processing of signals distorted or corrupted by noise, and the systems needed to process them. Techniques for estimating signal parameters for the detection of signals in the presence of noise will be discussed. The methods presented will be tested on real data drawn from different engineering applications, such as wireless communications, biomedical EEG signals and brain models, speech and music synthesis, and radars.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Prerequisites:** EEB640

**Contact hours:** 4 per week **Credit points:** 12  
**Sem:** 1

#### ► EEB960 WIRELESS COMMUNICATIONS

This unit addresses the following: cellular mobile radio system concepts; mobile radio propagation; spread spectrum techniques and CDMA; speech coding modulation and channel coding techniques for GSM and CDMA; fading mitigation through diversity; inter-symbol interference mitigation; the GSM and CDMA standards; the WAP and the GPRS; introductions to UMTS/IMT2000; introduction to personal communications; introduction to blue tooth technology; other wireless systems including Wireless LAN, Wireless Local loop, Microwave local multipoint distribution systems (LMDS) and LEO satellite communication.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59, EE47

**Prerequisites:** EEB560

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEB961 RF AND APPLIED ELECTROMAGNETICS

This unit addresses the following: lumped and distributed microwave and RF circuits, including [y], [t] and [s] parameters; impedance matching techniques; passive and active microwave devices; RF circuit design techniques; microwave and RF measurement techniques linear antennas and microwave antennas; analysis and synthesis of antenna arrays; specialised antennas and antenna measurements; EMC definition, standards and regulations; test plan; measurements; interference coupling; susceptibility; EMC design techniques, component selection, circuit layouts, grounding, shielding, filters, suppressors, isolation and safety; EMC management; propagation of electromagnetic fields in electrical materials; application of numerical methods.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Prerequisites:** EEB441

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEB976 ADVANCED INDUSTRIAL ELECTRONICS

Two of the following modules will be offered each year: 1. Switching converters: variable speed drive control, power system compensation converters, UPSs, transformer switched mode power supplies, resonant power supplies. 2. Basic microprocessor systems: M68332 CPU, architecture, assembly language, MC6832 modules, system integration, queued serial communications, time processor unit, peripheral devices and interfacing, parallel/serial communications, ADC's, DAC's, waveform synthesisers. 3. RF systems: transmitters and receivers, superheterodyne, antenna, filters, LNA, mixer, LO, IF amplifier, demodulator, duplexer, RF switches, impedance matching, high frequency effect on components, microstrip techniques, CAD RF design.

**Courses:** EE41, EE42, EE48, IF21, IF28, IF59

**Prerequisites:** EEB412

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEB992 VLSI CIRCUITS AND SYSTEMS

This unit addresses the following: introduction to microelectronic circuits and systems; MOS transistor fundamentals; fabrication processes; mask layout rules; VLSI logic gates; combinational logic circuits; sequential logic circuits; memory structures; system and subsystem design; semi-custom design; circuit modelling and performance; circuit verification, testability, case studies; CAD Tools for VLSI; VHDL system specification, modelling and verification. The unit includes a major design project.

**Courses:** EE41, EE45, EE48, IF21, IF28, IF59

**Prerequisites:** EEB412

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP101 ALGORITHMS FOR CONTROL AND ENGINEERING

This unit addresses the following: solution of equations using numerical analysis methods and computer algorithms; differential and difference equations, numerical approximations and computational flow diagrams; computer control of closed-loop systems; continuous and discrete

systems; system hardware; sampled data systems design techniques; system simulation; state-space theory and system performance optimisation; state equation; transformations; state equation solution; closed-loop system pole-placement design; performance criteria; dynamic optimisation methods; spectral analysis and digital filtering; discrete time adaptive filters; an introduction to neural networks and to fuzzy logic.

**Courses:** EE65, EE66, EE76

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEP102 UNIX AND C FOR ENGINEERS

This unit covers C programming and the Unix operating system. Unix commands, file structure, processes, shells and shell scripts are discussed. C programming is covered without assumed prior knowledge but at a level and pace suited for the postgraduate or advanced undergraduate student. Data types, operators and expressions, control flow, functions, pointers and arrays, strings, data structures, memory allocation, input and output and support for real-time applications are discussed. Self-study tutorials are used to reinforce fundamental concepts. An engineering application is chosen for the assignment that is conducted in a problem-based learning framework.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEP103 COMPUTER HARDWARE AND INTERFACING

This unit includes the following: state-of-the-art digital devices; design and implementation of digital systems; microprocessors and microcontroller systems and interfacing; computer architectures, subsystems and peripherals.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEP104 REAL-TIME OPERATING SYSTEMS

This unit covers operating systems principles with emphasis on real-time operating systems. Operating system fundamentals are introduced and concepts such as process management, input/output management, file management, resource allocation and scheduling, and protection are discussed in detail with a Unix-like operating system such as Minix or Linux as the example. Students enhance their C programming skills in assignments on multitasking, interrupt-driven input-output and device driver modification. Current commercial real-time operating systems such as QNX are reviewed.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP120 NETWORKS AND DISTRIBUTED COMPUTING

This unit includes the following: the open system interconnection model and the more common standards which support the model; layers 3-7 covered in depth, layers one and two covered by reference; computers, software packages; network topologies, software techniques, data transfer protocols; examples of local and wide area networks; hardware implementation of OSI layers and protocols; modern high performance networking protocols such as FDDI and ATM, treated as extensions of the OSI model.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP123 PROCESS CONTROL AND ROBOTICS

This unit includes the following: introduction to robotics; introduction to CNC machine tools; process control; controller tuning, plant characterisation and process optimisation; computer simulation and algorithms.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP124 DATA COMMUNICATIONS

This unit will provide an in-depth knowledge of the following: data transmission channels; the various types of modems, their use and specifications;

the different aspects of interfacing for data communications; coding; compression and encryption of data; network models and other specialised topics.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEP126 COMMUNICATIONS DIGITAL SIGNAL PROCESSING

This unit includes the following: source and channel coding; waveform coding; adaptive filtering in communication; applications of speech technology in communication; applications of DSP technology; real time DSP devices and their applications in communications.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► EEP128 DETECTION AND ESTIMATION

This unit includes the following: introduction to the theory of random variables and probability; signal detection; hypothesis tests, Neyman-Pearson detectors; uniformly most powerful tests for Gaussian case; examples of detection of an unknown deterministic signal in Gaussian noise of known probability distribution; Matched-Filter interpretation image restoration; introductory mathematical morphology, boundary detection techniques and algorithms; image segmentation; shape description techniques; neighbourhood operators; image representation by stochastic models.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP129 IMAGE PROCESSING AND COMPUTER VISION

The aim of this unit is to provide theoretical and practical understanding of the fundamentals of image processing and computer vision with exposure to important algorithms and applications. It covers image acquisition, image representation and modelling, image enhancement, image restoration, edge detection, image segmentation, morphological techniques, shape description, classification and fundamentals of projective geometry and stereo vision.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP135 DIGITAL SIGNAL PROCESSING AND APPLICATIONS

This unit includes the following: general properties of stationary processes; basic spectral properties of the processes; practical aspects of digital spectral estimation; identification of linear systems; digital higher-order spectral estimation; identification of non-linear systems; an update in the advances in digital signal processing.

**Courses:** EE61, EE67, EE74, EE77

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EEP201 FUNDAMENTALS OF POWER SYSTEM EARTHING

This unit includes the following: electrode resistance, potential gradient areas of common types of electrodes; multiple electrodes; stratified grounds electric shock; calculation of step and touch potentials; introduction to substation earthing; ground potential rise; connection of services; grid and mesh potentials; measurement of soil resistivity and electrode resistance; earthing of transmission lines; tower foot resistance; current division between ground and aerial earth wires; division of earth currents at substations; earth current distribution on faulted lines; distribution systems: MEN, SWER; safety during faults; flow of lightning currents to ground.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance  
**Credit points:** 4 **Campus:** GP

#### ► EEP202 THERMAL RATINGS AND HEAT TRANSFER

This unit includes the following: thermal conduction in simple geometries; forced and natural convection from plates and cylinders; common heat transfer correlations; radiation from hot

surfaces; view factors; calculation of steady-state and time-varying temperatures in conductors; temperature measurement methods for high voltage equipment; thermal ratings of overhead lines; steady-state, cyclic and short-time ratings; cable rating temperature rise due to step current, cyclic and emergency loads; temperature rise of power transformers; cooling methods; emergency overloads.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4 **Campus:** GP, EXT

#### ► EEP203 TESTING AND CONDITION MONITORING

This unit includes the following: HV testing; DC, 50 Hz, and impulse - equipment; measurement systems; standard test methods, certification and traceability; evaluation of test reports; HV test methods for insulators, bushings, circuit breakers, isolators and surge arrestors; temperature rise testing of electrical equipment, lines cables, and switchgear; current withstand testing; current interruption tests for fuses and circuit breakers; evaluation of test reports, accuracy and traceability; insulation testing; oil testing, DLA and PD tests; condition monitoring systems, plant temperature, circuit breaker dynamics, insulation condition; in situ methods.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4 **Campus:** GP

#### ► EEP204 POWER SYSTEM LOAD FLOW ANALYSIS

This unit includes the following: data collection methods; p.u. revision; load flow algorithms, convergence criteria; multiple solutions; starting values; ordering and sparsity of matrices; single and three-phase models; transformers, tap changers, overhead transmission lines, underground cables, capacitors and filters; controlled reactive devices; generators and motors; load representation; load flow applications; base case and contingency analysis in planning augmentation options; system operations contingency analysis; load flow analysis methodology; use of load forecasts; establishment of 'base case'. Practice in analysis of transmission and distribution systems using an interactive package is included.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4 **Campus:** GP, EXT

#### ► EEP205 POWER SYSTEM FAULT CALCULATIONS

This unit includes the following: representation of generators, lines, transformers in positive sequence equivalent circuits; balanced fault analysis; selection of source voltages from pre-fault conditions; unbalanced fault conditions; complete sequence representation of power system equipment: transformers, cables and lines per unit positive, negative and zero sequence network diagrams; calculation of generator and transformer sequence equivalent circuits from manufacturer's test data; calculation of line sequence impedances from line layout and soil resistivity, inclusion of tower foot resistances in zero sequence models; residual currents in untransposed lines; interference with telecommunications circuits; short circuit calculations to AS3581 using an interactive computer package.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP204

**Contact hours:** 15 Block mode/distance

**Credit points:** 4 **Campus:** GP

#### ► EEP206 PROJECT MANAGEMENT

This unit includes the principles of project management and the operation of project management packages. Emphasis is on the practical application of PC packages based on exercises related to the electricity supply industry and aimed at promoting the increased use of such packages by engineering and technical staff in the normal course of their work. Details include activity networks, Gantt charts, time schedules, analysis of critical path, types of resources, resource profiles, resource scheduling, and project monitoring and reporting.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

► **EEP207 OVERHEAD LINE ROUTE SELECTION - ENVIRONMENTAL FACTORS**

This unit includes an overview of legislation, standards and guides: radio interference, electromagnetic fields, low frequency induction, touch potentials, structure earthing, electrolytic corrosion, clearances, land legislation, and environmental impact statements. Current safety and environmental issues are addressed. Requirements of other public utilities, for example telcos, railways, roadworks, marine, water, gas, and oil, are also considered along with the cost of environmental enhancements and alternative technologies, right of way, and route selection principles: structure types, terrain shielding, identification of natural and man-made features.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

► **EEP208 ECONOMIC ANALYSIS FOR POWER SYSTEM ENGINEERS**

This unit considers the principles of economic analysis for a tax paying entity. Various evaluation techniques are addressed including both discounted and non discounted techniques. The net present value approach is settled on as being the most appropriate approach. Issues such as the effect of interest and inflation on nominal cash flows are addressed. Cost benefit analysis for engineering decision making: econometric models for ESI, maintenance, refurbishment and replacement, are included as well as budgeting and cost control, budget preparation with spreadsheets, cash flows, monitoring expenditure and budget review, profit and loss and balance sheets, and risk analysis including WACC calculations.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP209 POWER SYSTEM HARMONICS**  
This unit includes the following: generation of harmonics, converters, arc furnaces, SVC, inverters, electronic control; system response characteristics, resonance conditions, effect of load, typical system responses; effects of harmonics, motors, generators, power cables, capacitors, electronic equipment, metering, relaying, telephone interference; reactive power compensation and harmonic control, converter power factor, reactive power compensation, control of harmonic currents; measurement of harmonics; recommended practices including AS2279.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP205

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP210 ABNORMAL SYSTEM VOLTAGES**

This unit considers the following: supply quality standards, review of criteria, statutory requirements, emergency and short term limits; 50 Hz voltage, cause of voltage deviations, voltages during faults, motor starting; negative phase sequence voltages, AS1359 requirements, voltage unbalance studies, modelling, measurement; voltage transients and flicker, AS2279 requirements, disturbing loads, remedial measures, transient disturbances and power system plant; Power system transient analysis, ATP studies.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP205

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP211 BASIC POWER SYSTEM PROTECTION**

This unit includes the following: protection systems, reliability and security; methods of grading relays; 'unit' and 'non-unit' protection; causes of faults occurring on power systems and the relays for detection; examination of local back-up protection; effects of substation configurations on protection system design and performance; current and voltage transformers; protection of HV buses; transformer protection; inverse time relays; setting overcurrent and earth fault relays to achieve a coordinated scheme; reclosers, sectionalisers and fuses application and coordination;

commissioning and maintenance of protection systems; performance of protection under fault conditions; information available for the analysis of protection performance.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP205

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP212 ADVANCED POWER SYSTEM PROTECTION**

This unit includes the following: high impedance protection of power system plant including CT requirements and use of shunt and series resistors, non-linear resistors, check schemes, back-up schemes and CT supervision; protection of transformers, biased and high impedance differential schemes; feeder differential protection, pilot wire, current differential and phase comparison schemes; protection of HV capacitor banks; application of single and 3 pole autoreclosing schemes to transmission systems; protection of large motors; protection of large generators.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP211

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP213 STATISTICS**

This unit includes the following: the role of statistics in electricity supply engineering; strategies for collecting and recording valid data from which statistical inferences can be made; use of operational and inventory data; graphical and numerical techniques to summarise data using statistical or spreadsheet packages; review of probability concepts, random variables, probability distributions; specific distributions used in system and component reliability studies.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP214 RISK ASSESSMENT IN THE ELECTRICITY SUPPLY INDUSTRY**

This unit includes the following: identification of hazards, failure modes and effects analysis, failure modes effects and criticality analysis, outcomes from possible failure modes; hazard and operability studies; assessment of frequency, fault tree analysis, event tree analysis; assessment of consequences, consequence analysis, criticality assessment in terms of chance of failure and consequences, incident scenario, damage criteria, damage identification; legal and economic consequences; case studies including identification of hazards, assessment of risks, and consequences in ESI; loss of load models in generation.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP215

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP215 RELIABILITY**

This unit includes the following: basic reliability concepts, methods, and analysis methods; application of important distributions; failure rate/repair time/mean time failure; reliability of series/parallel/complex systems; discrete Markov Chains and processes; frequency and duration in reliability; the reliability evaluation of repairable systems; application of reliability evaluation in power distribution systems, including cost estimates; reliability assessment in subtransmission system planning, including non-constant transition rate; study of contingencies with switching to restore supply; maintenance in system modelling; probability and frequency of loss of load; unsupplied energy and average load at risk; maximum load at risk; average outage duration.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP213

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP, EXT

► **EEP216 OVERHEAD LINE DESIGN - ELECTRICAL**

This unit includes the following: electrical design of transmission lines with ratings of 33kV to 500kV; economic conductor size; characteristics of conductors; standard and new technology insulators, power frequency, impulse and switching flashover voltage, pollution and creepage,

wet and dry flashover, mechanical characteristics; feasible structure types; tower footing resistance and counterpoise; insulation coordination methodology; determination of overvoltage withstand, design for required outage; determination of RI using state of the art methods; design to ensure that electrostatic and electromagnetic fields do not exceed NH and MRC guidelines.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP201, EEP203, EEP205,

EEP207, EEP210

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

► **EEP217 OVERHEAD LINE DESIGN - MECHANICAL**

This unit includes the following: conductor selection; catenary theory; sag-tension-temperature calculations; requirements for survey data; statutory and enterprise requirements for line layout, clearances, mechanical loading, safety criteria; definition of loading conditions, structure capacities, layout clearances; applied mechanics of strung conductors; determination of everyday tensions from allowable stress or tension/mass ratio; determination of vibration protection; transmission line estimating techniques; selection of structure type based on optimum capitalised costs; line layout.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP208, EEP216

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

► **EEP218 INTRODUCTION TO AUTOMATED SYSTEM CONTROL AND SUPERVISORY SYSTEMS**

This unit includes the following: SCADA fundamentals and protocols; SCADA equipment; master station; remote terminal units; transmission SCADA systems; distribution automation systems; distribution control systems; PC software applications; alarm philosophy and control principles; definition of system displays; data logging; database point processing and attributes; master station configuration; specification of MMI; identification of system functional requirements; computer system platforms; computer technology; computer hardware; communication system principles; communications bearer; data networks and protocols; data communications and I/O capacities and types; I/O processing; application of SCADA systems to transmission and distribution systems; cost/benefits of alternative schemes.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

► **EEP219 HIGH VOLTAGE SUBSTATION EQUIPMENT: POWER TRANSFORMERS AND REACTIVE POWER PLANT**

This unit includes the following: principles of transformer design; distribution transformers to EHV transformers; ratings; windings; core structure; materials, insulation and cooling methods; insulation lifetime; leakage and magnetising reactance; losses, harmonics, inrush currents; short circuit forces; tests to measure ratio, losses, impedance, phasing, temperature rise; accuracy and traceability of tests; interpretation of test reports; surge phenomena in windings; RSG and impulse testing of power transformers; interpretation of test results; oil cooling systems; fire protection; tap changers and controls; analysis of transformer failure modes; in-phase and quad-boost regulators; series and shunt reactors; reactors for harmonic filters; SVCs, design considerations and equipment characteristics.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP203

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

► **EEP220 DISTRIBUTION PLANNING**

In this unit, students are required to complete the following: identify data and techniques used in load forecasting; examine typical distribution network problems and identify performance limitations based on standards; relate network problems to different configurations and the effects on customers; study network reinforce-

ment options on a simulation package including regulators, series and shunt capacitors and reconductoring; consider the above options to address a realistic network problem assessing line losses and voltage results; analyse network reliability and assess the impact of ties, switches and various network configurations; compare alternatives based on economic and technical considerations; prepare a logical case which recommends one option in the form of a report.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP208, EEP211, EEP219

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP221 LIMITS TO POWER SYSTEM STABILITY

This unit includes the following: time domain models and characteristics of synchronous machines; induction generator models; excitation system models, turbine governor models, boiler models, hydraulic system models; characteristics of load plant; evaluation of small signal adequacy by eigenvalue analysis; determination of modes of electromechanical and control systems; identification of modes with insufficient damping, eigenvalue participating states and eigenvectors; time domain dynamic simulations of power system operation; numerical models for prediction of large disturbance behaviour of interconnected power systems; stability of system under contingency and emergency conditions; stability improvement techniques.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP214, EEP215

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP222 MAINTENANCE OF ELECTRICITY SUPPLY SYSTEMS

This unit includes the following: establishment of maintenance policies; review of failure rates; emergency spares; identification of maintenance liabilities and critical success factors; dissemination of policy; maintenance planning; identification of constraints; review of existing maintenance programs, establishment of plans for periodic actions, documentation of procedures; recording of data and analysis; registration of defects; design of data collection and reporting; preparation of control charts, computer systems; database development; maintenance operations; resource evaluations; work procedures; Acts and Regulations; staff training; auditing; maintenance program evaluation; assessment against KPI; program modification.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP214, EEP215

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP223 LOAD FORECASTING

This unit includes the following: nature of load patterns; historical patterns; links between customers and loads and between energy and demand demographics; categories of DSM; costs of DSM options; benefits, and limitations to DSM; tariffs and their impact; impact of economic trends on demand growth; load manipulation; load forecast methods; data collection and availability; weather correction; interpreting data; synthesising missing data; developing load forecast data; developing alternative scenario load forecasts; establishment of base loads from historical load data, customer load predictions, and other contributing factors; prediction of growth rates; generation of load forecasts.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP213

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP224 POWER SYSTEM OPERATION

This unit includes the following: frequency control and AGC under normal load conditions; operation under emergency and contingency conditions; black starting; load shedding philosophy; generation operation; contract fuel prices, variations; automatic generation control systems; analysis of power station operating costs; establishment of optimum operating costs; management of forced outages; management of resources to restore system to normal in minimum time;

abnormality control to prevent plant damage and maintain safety; logging and reporting of forced outages; coordination of planned outages including assessment of risks and contingency planning; control of reactive power and voltage levels under normal and abnormal conditions; load reduction - instantaneous, delayed and planned; maintenance of consumer services and records.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP202, EEP212, EEP214,

EEP221, EEP223

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP230 THESIS A

In this unit, students work in industry for 100 days of supervised practice. As part of this practical training, one or more linked topics are identified that are related to the work of the section in which the training is carried out. A Masters thesis is prepared describing results of studies done by the student during the practical training. It is expected that the thesis will demonstrate that students have deep background knowledge of the topic, can apply advanced skills to formulation and solution of engineering problems, and have an understanding of the relationship of the work to the overall objectives of the workgroup. The thesis will be examined by internal and external examiners appointed by the University.

**Courses:** EE78

**Contact hours:** 15 Block mode/distance

**Credit points:** 12

**Campus:** GP

#### ► EEP231 THESIS B

Work done in this unit and the related unit EEP230 is examined by submission of a single Masters thesis.

**Courses:** EE78

**Contact hours:** 15 Block mode/distance

**Credit points:** 12

**Campus:** GP

#### ► EEP240 ORGANISATION AND FINANCIAL MANAGEMENT IN THE ELECTRICITY SUPPLY INDUSTRY

This unit includes the following: financial reporting, including profit and loss and balance sheet; interpretation of financial data and commercial practices with respect to various line items in financial reports; key performance indicators, the derivation, interpretation and pitfalls; financing arrangements; taxation issues that affect the industry including income tax, repairs, tax effect of depreciation and capital gains tax; various asset management issues including inventory and fixed assets; cost volume profit analysis including breakeven, contribution margin and EBIT.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP241 DISTANCE PROTECTION

This unit includes the following: current transformers; transient performance; saturation factors; effects on relay performance; voltage transformers; transient performance; distance protection; relay selection characteristics; relay comparator operation; non-switched distance protection schemes; switched distance protection; effects of mutual coupling; design of protection schemes and setting relays for complex feeder systems with arc resistance; prevention of inadvertent tripping; prevention of load degradation of distance relay performance; developing grading plans to ensure coordination; understanding relay functions; switch-onto-fault logic; VT supervision; memory; power swing blocking and healthy phase polarising; protection signalling.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP211

**Contact hours:** 15 Block mode/distance

**Campus:** GP, EXT

#### ► EEP242 EFFICIENT MARKETING AND UTILISATION OF ELECTRICITY: DEMAND AND SUPPLY SIDE SOLUTIONS

This unit includes the following: assessment of future DSM options; state, national and international programs; local opportunities; impact of new and evolving technology; comparison of options; determination of avoidable costs; assessment of marginal cost of supply, and identification and avoidable costs; survey of customers;

conducting market research; application of existing tariffs or new tariffs; planning market potential for DSM; comparison of options to meet customer needs and supply authority requirements; economic comparison of DSM and SSM options including combined options; design and implementation of DSM programs; targets, resources, in-house or contract; monitoring program performance; assessment of DSM.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP208, EEP223

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP243 CONTRACT ADMINISTRATION

This unit includes the following: categories of contracts, supply, maintenance, period; general conditions of contract; terms of payment and security deposit; QA procedures; retention conditions; special conditions; delivery and penalties for delay; technical provisions; penalty/bonus for such factors as efficiency/performance/ maintenance/reliability; pre-tender negotiation practice; evaluation of tenders; tender adjustments; determination of the lowest price; tender acceptance; contract correspondence; drawings, standards and amendment; contract law; dispute resolving procedures; contract monitoring; approval of drawings and documents; approval of delivery, erection, site testing, acceptance, takeover, maintenance period retention provisions.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP208

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP244 CIRCUIT BREAKERS - SWITCHGEAR

This unit includes the following: SF6, vacuum, GIS, minimum oil, airbreak, bulk oil circuit breakers; circuit-breaking principles; calculation of switching surges, TRV and ITRV; current inrush; interruption of load current, and small inductive current; capacitive switching; short-line-faults and out-of-phase switching; specification of circuit breakers; Australian and International standards; selection of circuit breakers; analysis of tenders; circuit breaker failure modes; catastrophic failures; condition monitoring techniques; maintenance and refurbishment; circuit breaker testing and test report evaluation; new circuit breaker technologies.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP210

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP245 INTRODUCTION TO SUBSTATION DESIGN

This unit includes the following: preparation of design/site options; standard layouts (outdoor, indoor, GIS, package, single bus, 1.5 CB, etc); cost, site, reliability lead time and communication factors; estimating procedures; comparison of design/site options; whole of life cost comparison including capital and operative costs; environmental and public issues; identification of design parameters (voltages, ratings, protection, metering, SCADA, communication, operational); preparation of one-line diagram and general arrangement; design scope; review with other parties.

**Courses:** EE60, EE78, EE82

**Prerequisites:** EEP202, EEP219, EEP244

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP246 CUSTOMER METERING

This unit includes the following: tariff structures network and retail; metered parameters kW, kWh, var, varh, VA, VAh; power factor, demand and their interrelationships; electronic metering multifunction; measurement methods; advantages and limitations; HV metering; import/export metering; limitations; Blondel's theorem; safety aspects; current and voltage transformers; theory of operation and accuracy limitations; metering in the deregulated market; single and polyphase electromechanical metering; method of operation and techniques used to measure reactive power; electronic registers, summation registers and other techniques for customers with multiple points of supply; communication methods in

remote meter reading; standards and regulatory bodies, Australia and international.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP248 INTRODUCTION TO ELECTRICITY MARKETS

This unit addresses the following: problems associated with monopoly utilities and the central planning model; economic models of markets including perfect competition, monopoly and oligopoly; deregulation of the electricity supply industry; applied competition on electricity generation, the spot market; theory of derivative instruments; applied risk management, the electricity derivatives market; electricity market simulation; potential failures in the deregulation environment.

**Courses:** EE60, EE78, EE82

**Contact hours:** 15 Block mode/distance

**Credit points:** 4

**Campus:** GP

#### ► EEP301 PROJECT 1/2

Students carry out research or development work on a project in specified areas. This can be done over two semesters.

**Courses:** EE74, EE77

**Credit points:** 24

**Campus:** GP

#### ► EEP304 PROJECT COMPONENT

Basic engineering research, design and development skills are essential for engineers working on projects in the research field or in industry. A complete project will contain a number of development phases, to varying extents, in the areas of feasibility, literature review, specification, design, simulation, implementation and testing. In this unit students will concentrate on at least one of the above aspects of a project. They will get the opportunity to apply themselves to a research/design/development task, and produce a technical report on the progress achieved. This unit requires maturity and knowledge of earlier/concurrent course material and should be done at the end of the course. The project component can be industry or school based.

**Courses:** EE82, EE60, EE78

**Credit points:** 12

**Campus:** GP

#### ► EFB101 DATA ANALYSIS FOR BUSINESS

The unit introduces the common statistical methods and tools for inference and decision making in business. It builds upon the concepts developed in the unit BSB122 Business Information Analysis and Communication and covers important methods of data analysis with an emphasis on interpreting and understanding reported business and economic data. Topics include the concept of sampling error and sampling distributions, estimation and hypothesis testing, regression analysis, time series and an introduction to non-parametric statistical methods.

**Courses:** BS56, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** BSB122

**Contact hours:** 4 per week

**Credit points:** 12

**Incompatible with:** EPB109, EPB110,

MAB101, MAB347

**Campus:** GP

**Sem:** 1, 2

#### ► EFB102 ECONOMICS 2

Consumer behaviour, the role of the government in market intervention, allocative efficiency and market structure are some of the fundamental issues in microeconomics addressed in this unit. Business cycles and the related issue of macroeconomic stabilisation policy are analysed and explained within the Australian context. The significance of the international economy is described through a discussion of foreign exchange markets, the Australian dollar and the terms of trade.

**Courses:** BS56, ED50, IF28, IF30, IF37, IF41, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** BSB113

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► EFB200 APPLIED REGRESSION ANALYSIS

This unit expands on the basic multiple regression model introduced in EFB101, by examining the practical problems encountered in using the single equation econometric model. In particular, the major problems encountered using real data, such as multicollinearity, serial correlation in time series data and heteroskedasticity in the case of cross-sectional data, specification error, and alternative functional form issues will be illustrated in the context of published Australian data. The unit includes extensive use of a commonly used computer package to allow the practical application of the various techniques.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** EFB101 or MAB101

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** EPB102

**Campus:** GP

**Sem:** 1

#### ► EFB201 FINANCIAL MARKETS

This unit introduces students to the institutional structure of global financial markets, and thereby complements the understanding of theoretical finance gained in either EFB206 or EFB210. Topics covered include the functions of financial markets, the banking and payments system, financial system deregulation, non-bank financial institutions, stock exchange operations, corporate and government debt markets, the Euromarket and markets for financial derivatives.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** BSB122 completed from Sem 2, 2004; or EFB210

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** FNB100

**Campus:** GP

**Sem:** 1

#### ► EFB202 BUSINESS CYCLES AND ECONOMIC GROWTH

This unit develops an analytical framework in order to evaluate the macroeconomic performance of the Australian economy and the policy actions taken by government. Key issues addressed include business cycle stabilisation, unemployment, inflation, economic growth, the balance of payments, the commonwealth budget, and national saving.

**Courses:** BS56, ED50, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** EFB102

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** EPB141, EPB142

**Campus:** GP

**Sem:** 1

#### ► EFB210 FINANCE 1

This unit includes the following: an introduction to the Australian institutional framework, terminology, debt and equity instruments; financial mathematics applied to the pricing of debt and equity securities; a firm's investment decision; Net Present Value (NPV) and Internal Rate of Return (IRR); introduction to risk and uncertainty; Capital Asset Pricing Model (CAPM) and Weighted Average Cost of Capital (WACC).

**Courses:** BS56, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** BSB110, BSB113

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** FNB107, FNB111, EFB206

**Campus:** GP

**Sem:** 1, 2

#### ► EFB211 FIRMS, MARKETS AND RESOURCES

This unit is concerned with the economic analysis of the decisions and actions of consumers, firms, and governments in modern economies. It develops students' understanding of that body of economics that is expressly concerned with the operations of, and inter-relationships between, the individual units of the economy. The unit is designed, not only to foster both clear thinking about the interplay between government, private firms, and consumers, but also to develop the student's ability to apply microeconomic concepts to economic problems that the student has not previously encountered.

**Courses:** BS56, ED50, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** EFB102

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► EFB307 FINANCE 2

This unit includes the following: the financing decision - capital structure, debt versus equity, lease versus debt, term structure versus default structure of interest rates; the dividend decision - dividends versus capital gains, franked versus unfranked income; firm valuation - free cash flow model, evaluation of takeovers; risk and return - diversification, the CAPM model, its practical application and its relationship to efficient market hypothesis. The unit also introduces forwards, futures, options, warrants, convertibles and risk management using financial derivatives.

**Courses:** BS56, IF28, IF30, IF37, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** EFB210

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** FNB112

**Campus:** GP

**Sem:** 1, 2

#### ► EFB308 FINANCE 3

This unit includes the following: a study of contemporary finance research; CAPM; beta estimation; valuation theory; market efficiency; value at risk; use of finance research tools; anomalies and extension of finance theories. Students are required to complete a research project combining theory and practice.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** EFB307

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** FNB113

**Campus:** GP

**Sem:** 2

#### ► EFB309 FINANCIAL DERIVATIVES

This unit extends students' knowledge of financial derivatives as obtained in Finance 2. Topics include the following: advanced option pricing models; advanced option trading strategies; exotic options; forward and futures pricing models; hedging commodities and equities by using futures; forward rate agreement and interest rate swaps; financial risk management issues.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** EFB307

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► EFB310 FINANCIAL INSTITUTIONS - CONTROL

This unit introduces students to the fundamental principles of controlling the risk profile and capital position of a deposit-taking financial institution to maintain solvency. The basic framework of the unit is based on the regulatory capital adequacy regimes, supplemented by consideration of the more sophisticated internal models of risk developed by financial institutions themselves. Relevant case studies demonstrate the imperative for, and application of, the risk management framework.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** EFB206 or EFB210

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** FNB124, FNB115

**Campus:** GP

**Sem:** 2

#### ► EFB311 FINANCIAL INSTITUTIONS - LENDING

This unit examines the role of credit analysis from the perspective of the lending institution and also the borrower. Topics ranging from simple consumer credit models through to more complex corporate approaches are examined. An emphasis is also given to exploring leading-edge credit models developed and used by many major banks for lending decisions. The unit is designed for those students planning to work in the credit field or aiming for finance positions within business where an understanding of lending decisions will enhance their business dealings.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** EFB210

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** FNB114

**Campus:** GP

**Sem:** 1

#### ► EFB312 INTERNATIONAL FINANCE

This unit examines the theory and practice of international finance: the mechanics and uses of

the spot, forward, swap, futures and options markets in foreign exchange; the relationship between domestic and international capital markets; interest rate and exchange rate determination; risk management of foreign exchange; international trade finance; evaluation of offshore investment (including country risk).

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** EFB206 or EFB210

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** FNB120, EFB212, EPB132

**Campus:** GP **Sem:** 2

#### ► EFB314 INTERNATIONAL TRADE AND ECONOMIC COMPETITIVENESS

The unit analyses the increasing globalisation of world trade and investment, and develops an analytical framework to assess the impact of these flows on the Australian economy, its businesses, people and policy makers. It examines the patterns of trade and capital flow.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** EFB211 & EFB202

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EPB130, EPB132, EFB212

**Campus:** GP **Sem:** 2

#### ► EFB318 PORTFOLIO AND SECURITY ANALYSIS

This unit includes the following: management of investment portfolios; diversification; performance management; risk management; advanced theories on option pricing, efficient markets, futures trading (hedging) and asset pricing.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** EFB307

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** FNB126

**Campus:** GP **Sem:** 1

#### ► EFB323 FINANCIAL AND MONETARY ECONOMICS

This unit emphasises the economics of financial markets and their interaction with the real sector of the economy. Major attention is devoted to the flow of funds, the theory and behaviour of interest rates, the structure and regulation of financial markets, the role of the central bank and the operation of monetary policy. The unit builds on the microeconomic and macroeconomic foundations laid in EFB202 and EFB211.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62, IX03

**Prerequisites:** EFB202

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EFB215

**Campus:** GP **Sem:** 2

#### ► EFB324 MACROECONOMICS AND GLOBAL FINANCIAL MARKETS

The unit provides an in-depth understanding of the interplay between macroeconomic policies and global financial markets. Macroeconomic frameworks adopted in this unit are practically oriented and much of the material with which they deal is drawn from relevant events of recent decades. The unit discusses various analytical tools and policy approaches to the macroeconomy as they affect both developed and developing countries. Particular emphasis is given to how a good knowledge of macroeconomics helps in understanding international financial market developments and also, to some extent, how fluctuations in such markets can have serious implications for macroeconomic conditions and economic policy.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** EFB202

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► EFB325 FINANCIAL MICROECONOMICS

This unit addresses the theoretical microeconomic foundations of financial economics, focusing on how individuals and firms deal with uncertainty and situations involving strategic interactions. The theoretical concepts are illustrated with application from both the private and public sector. Contents include game theory and

its economic applications, expected utility theory, risk analysis, intertemporal preferences, cost of capital, demand for capital, and asymmetric information.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** EFB211

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► EFB326 APPLIED PORTFOLIO MANAGEMENT

This unit introduces the student to the treasury environment in which financial institutions operate. The key to the unit is the raising of funds and the management of interest rate risk. This unique hands-on unit allows students to develop these skills by trading in a simulated environment of international economic uncertainty. Students have trading parameters within which they should operate. Students must make decisions concerning source of funds, term and duration, interest rate re-set, and risk management with derivatives. Trading will be conducted over a simulated four quarter year.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** EFB210

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► EFB327 ECONOMETRICS OF FINANCIAL MARKETS

The Econometrics of Financial Markets provides a comprehensive introduction to models of economic behaviour in financial markets, using the tools of discrete time-series analysis. This subject aims to give grounding in the necessary econometric methods before demonstrating how competing theoretical models may be tested. It provides illustrative empirical results from the stock, bond and foreign exchange markets.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60

**Prerequisites:** EFB200

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► EFB328 PUBLIC ECONOMICS AND FINANCE

This unit applies microeconomic principles to a range of public finance issues. In particular, the role of government expenditure and finance in the areas of education, health and the environment is examined, with an emphasis on the critical analysis of economic arguments for and against government intervention. The topics in this unit are unified by a concern with the sources of market failure, their impacts on efficiency, the role, if any, of government in their presence, and the economic and financial instruments available to governments to improve the efficiency of resource allocation.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** EFB211

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► EFN401 ADVANCED FINANCIAL INSTITUTIONS MANAGEMENT

This unit covers a selection of major topics facing the management of international financial institutions. The theory and regulation of financial institution management are placed in the context of major events in the international financial markets. Case studies include the Asian financial crisis, Japanese banking system 1990-2003, Enron, LDC sovereign debt crisis, Savings & Loan crisis and the Basel Capital Accord.

**Courses:** BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► EFN405 MANAGERIAL ECONOMICS

This unit includes the following: managerial decision making in an economic environment; an introduction to economics, demand analysis, cost analysis, market strategy and the macroeconomic environment; problems of resource allocation at the firm, in industry and in the economy.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EPN102, GSN203, GSN411, GSN414

**Campus:** GP

**Sem:** 1

#### ► EFN406 MANAGERIAL FINANCE

This unit is an introduction to the world of finance and financial management. Topics include the following: the finance function, the role of the financial manager; the Australian financial environment; sources of funds; present and future value; time value of money; financial mathematics; introduction to valuation; cost of funds; the firm investment decision; investment evaluation techniques; capital budgeting; portfolio theory; risk and return; capital asset pricing model; dividend policy; financial structure policy; futures; options.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** FNN102, GSN413, GSN423

**Campus:** GP **Sem:** 1, 2

#### ► EFN408 SPECIAL TOPIC - ECONOMICS, BANKING AND FINANCE A

This unit provides the opportunity to study in detail, at a postgraduate level, specific current issues relating to economics, banking or finance. The nature of the unit varies from year to year depending upon contemporary issues and the interests of staff.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EPN116 **Sem:** 2

#### ► EFN410 ECONOMIC AND FINANCIAL MODELLING

This unit introduces students to the modelling techniques which are frequently used in a business and financial environment. Modelling is used as an aid to decision-making, as a means of forecasting important variables and as a planning and analysis tool. Various modelling exercises are used to illustrate the use of these modelling techniques in an economic and financial context.

**Courses:** GS40, GS48, GS75, GS76, GS85, GS97

**Prerequisites:** EFN412

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** AYN419, EFN503, FNN103

**Campus:** GP **Sem:** 2

#### ► EFN411 SPECIAL TOPIC - ECONOMICS, BANKING AND FINANCE B

This unit provides the opportunity to study in detail, at a postgraduate level, specific current issues relating to economics, banking or finance. The nature of the unit varies from year to year depending upon contemporary issues and the interests of staff.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Sem:** 2

#### ► EFN412 ADVANCED MANAGERIAL FINANCE

This unit expands on material introduced and developed in EFN406 Managerial Finance. Its objective is to examine the key decisions made by corporate financial managers (that is the investment, financing and dividend decisions). In addition, a number of topics of special interest to financial managers will also be covered, namely leasing, working capital management, risk management and takeovers.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Prerequisites:** EFN406

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► EFN413 SECURITIES LAW

This unit examines the legal framework of those working in the securities industry. The unit looks at the system of law operating in Australia, provides a study of the law of contract and provides an introduction to the law of torts, particularly negligent misstatement. Corporations law as it affects dealers, advisors and participants of the securities industry is included. The law of business associations, takeovers and market offences is examined.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► EFN414 INTERNATIONAL FINANCE

This unit introduces the theory and practice of international finance, the relationship between domestic and international financial markets, international parity conditions and arbitrage, foreign exchange risk management, interest rate, risk management, international trade finance, international portfolio investment, multinational cost of capital and capital structure, and international capital budgeting.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Prerequisites:** EFN406

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EFB312 EFN417

**Campus:** GP **Sem:** 2

#### ► EFN415 SECURITY ANALYSIS

This one-semester unit deals with security analysis and portfolio management. The unit is both practical and theoretical. Topics covered include the following: portfolio theory and the capital asset pricing model; bond and equity portfolio management; fundamental valuation techniques; portfolio hedging; active vs. passive investment strategies; and the evaluation of portfolio performance. The ultimate purpose of this unit is to provide the necessary tools for students to manage investment risk and return, select mispriced securities, design and administer investment portfolios, accomplish goals in portfolio management, and measure the performance of investment management.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Prerequisites:** EFN406

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EFB318, EFN408

**Campus:** GP **Sem:** 2

#### ► EFN416 TREASURY AND PORTFOLIO MANAGEMENT

This unit introduces the student to the treasury environment in which financial institutions operate. The key to the unit is the raising of funds and the management of interest rate risk. This unique hands-on unit allows students to develop these skills by trading in a simulated environment of international economics uncertainty. Students have trading parameters within which they should operate. Students must make decisions concerning source of funds, term and duration, interest rate re-set, and risk management with derivatives. Trading will be conducted over a simulated four quarter year.

**Courses:** GS40, GS48, GS75, GS76, GS85, GS97

**Prerequisites:** EFN406

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► EFN417 AN INTRODUCTION TO INTERNATIONAL FINANCE

This unit provides an introduction to international financial issues involved in managing the multinational corporation's (MNC) finance functions. Material covered includes the following: the theories and empirical evidence that are necessary for the sound understanding of MNC's international financial environment; the foreign exchange and other international financial markets; the key techniques for the management of international financial risks including exchange rate risk, country risk and interest rate risk, and the sourcing and investment of the MNC's funds both in the short-term and the long-term.

**Courses:** BS93, GS40, GS41, GS48, GS85, GS86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EFN414

**Campus:** GP **Sem:** 2

#### ► EFN418 INTRODUCTION TO FINANCIAL RISK MANAGEMENT

This is a risk management unit at the intermediate level, which provides students with the ability to identify, assess and subsequently reduce common financial risks of business within an open economy. The role of the financial risk manager is central to this understanding, particularly in relation to how the manager makes decisions in

relation to financial risks, which of those risks need to be controlled, the extent of mitigation, and the techniques used to neutralise them.

**Courses:** BS93

**Prerequisites:** PUN008 or BSB113 or equivalent

**Contact hours:** External mode

**Credit points:** 12

**Incompatible with:** EFN406 or GSN413

**Campus:** EXT **Sem:** 2

#### ► EFN500 CONTEMPORARY MACROECONOMIC THEORIES

This unit introduces students to the latest theoretical developments in the field of macroeconomics using both qualitative and quantitative approaches. It places these theories in their historical, philosophical and societal contexts. This unit looks at New Classical, New Keynesian and other theoretical approaches to a range of issues. These include the following: expectation theories, supply side economics, theories of labour markets, monetary theories, real business cycle theories and growth theories (including the role of international trade). Also differences in the theoretical foundations of macroeconomic policies employed internationally are highlighted.

**Courses:** GS40, GS41, GS48, GS85, GS86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EPN111

**Campus:** GP **Sem:** 1

#### ► EFN501 CORPORATE AND COMMERCIAL LENDING

This unit addresses the theory and practice of international corporate and structured senior bank lending, at the level of the individual loan transaction. Major topics covered include loan pricing and structuring, euro-market practice and documentation, credit risk analysis, relationship lending, syndicated and project finance.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► EFN502 DEVELOPMENTS IN MICROECONOMIC THEORIES

Discussion of refinements in microeconomic theory such as consumer demand theory, labour supply, intertemporal demand, producer theory, market structure, theory of regulation, externalities, and public goods are considered in this unit. It explores refinements in microeconomic theory which have been contemporaneously used in the development of government policies in areas such as the environment, energy, public enterprises and industrial development.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EPN108

**Campus:** GP **Sem:** 1

#### ► EFN504 FINANCE HONOURS

This unit provides an advanced coverage of the theory of financial management, building on work done in the undergraduate course with reference to empirical evidence where available; topics include the following: capital markets; investment decisions; market equilibrium; the capital asset pricing model; arbitrage pricing theory; capital structure; dividend policy; efficient capital markets. The unit provides a theoretical basis allowing for evaluating policy problems in the area of financial management, a prerequisite for further specialisation in this area.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** FNN101

**Campus:** GP **Sem:** 1

#### ► EFN505 FINANCIAL RISK MANAGEMENT

The unit covers the main areas of modern risk management. The focus will be on measuring and managing risks in financial institutions. Particular attention is paid to developing understanding of the analytical techniques employed in the construction of hedging strategies and the interrelations between the main areas of risk management. The unit also emphasises empirical applications and assessment of risk management techniques. Topics covered include the current state of prudential regulation of financial institutions,

measurement and management of market risks, hedging strategies with derivatives, and managing interest rate and exchange rate risks.

**Courses:** BS39, BS93

**Prerequisites:** EFN415 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** FNN104

**Campus:** GP **Sem:** 1

#### ► EFN506 ADVANCED INTERNATIONAL FINANCE

This unit includes a rigorous study of the major issues in international finance pertaining to the foreign exchange market, international parity conditions, hedging of foreign exchange risk, international asset pricing, international portfolio diversification, international cost of capital and capital structure, international capital budgeting and international financial markets integration. This unit is subject to availability and demand.

**Courses:** BS39, BS93, GS40, GS48, GS75, GS76, GS85, GS97

**Prerequisites:** EFN414 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:**

#### ► EFN507 ADVANCED CAPITAL BUDGETING

Topics in this unit include the following: capital investment analysis; the NPV rule; adjusted present value; replacement decisions; retirement decisions; unequal lives; optimal life; cost of capital; estimating beta; capital rationing; valuation of new issues; mergers and takeovers; analysis of financial and leverage leases; the impact of recent taxation changes on the financing, dividend and investment decisions of the firm; capital budgeting in an international context. The course includes a series of case studies, problems and exercises, which require the student to apply the theory they have learned, to practical situations not covered in normal undergraduate courses. A basic understanding of spreadsheets is assumed.

**Courses:** BS39, BS93

**Prerequisites:** EFN406, EFN412

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EFN400, FNN100

**Campus:** GP **Sem:** 2

#### ► EFZ102 ECONOMICS 2

Consumer behaviour, the role of the government in market intervention, allocative efficiency and market structure are some of the fundamental issues in microeconomics addressed in this unit. Business cycles and the related issue of macroeconomic stabilisation policy are analysed and explained within the Australian context. The significance of the international economy is described through a discussion of foreign exchange markets, the Australian dollar and the terms of trade.

**Courses:** BS57

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** EFB102

#### ► EFZ210 FINANCE I

This unit includes the following: an introduction to the Australian institutional framework, terminology, debt and equity instruments; financial mathematics applied to the pricing of debt and equity securities; a firm's investment decision; Net Present Value (NPV) and Internal Rate of Return (IRR); introduction to risk and uncertainty; Capital Asset Pricing Model (CAPM); Weighted Average Cost of Capital (WACC).

**Courses:** BS57

**Prerequisites:** BSB110, BSB113

**Contact hours:** 3 per week **Credit points:** 12

**► GSN224 CORPORATE PHILANTHROPY**  
 The nature of the relationship between the for-profit corporation and the nonprofit sector is invariably through corporate philanthropy. This unit examines five issues central to corporate philanthropy: the law and taxation, cause related alliances, corporate foundations, business giving models in Australia and corporate social responsibility. The unit is taught through case studies in Australian and international practice.

**Courses:** BS47, BS91, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

### ► GSN225 BUSINESS DEVELOPMENT IN CREATIVE INDUSTRIES

This unit introduces issues involved in selecting and refining a concept/idea/new product in the creative industries. Topics include the following: business opportunity recognition; screening for potential viability and sustainable competitive advantages; identifying and analysing strategic options; creating a marketing strategy, and outlining the production and operations; human resources; financial plans for a selected creative industries venture. Students build the components of a business model for their selected creative concept and write a formal business plan for that concept/product. Students examine and critique the business models of a variety of existing businesses in the creative industries.

**Courses:** BS39, BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF02, IF04

**Corequisites:** GSN401, GSN408

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

### ► GSN226 ARTS POLICY AND STRATEGY

This unit analyses the function and processes of arts policy and its relationship to society, the arts organisation, and the profession of arts management. This includes an investigation of the status of the artist, public policy, funding processes, cultural economics, international perspectives and contemporary policy issues and strategies in the non-profit sector.

**Courses:** BS39, BS47, BS91, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF02, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MKP108, MIN400  
**Campus:** GP **Sem:** 1

### ► GSN227 ARTS AND CULTURAL MANAGEMENT

This unit provides students of arts and cultural management with an investigation and analysis of the management function of the not-for-profit arts organisation. It examines the strategic management approaches and operational procedures of arts organisations, including their relationships with the legal system, the media, business, the public, and the industrial provisions and human resources of the organisation.

**Courses:** BS39, BS47, BS91, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF02, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MKP109, MIN430  
**Campus:** GP **Sem:** 2

### ► GSN228 MARKETING ARTS AND CULTURE

This unit examines and applies theories of arts marketing for arts cultural organisations. The focus is on audience development, but product and service development models in the mission driven arts environment provide the context for students to develop marketing strategies, marketing plans and campaigns for arts and cultural management.

**Courses:** BS39, BS47, BS91, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF02, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MKP107, MIN415  
**Campus:** GP **Sem:** 1

### ► GSN233 SPECIAL TOPIC IN PHILANTHROPY AND NONPROFIT STUDIES

This unit is developed around the visiting adjunct professors or visiting scholars to the Centre of Philanthropy and Nonprofit Studies. It provides students with access to contemporary issues and experts in the field and involves in-depth examination of an issue of importance.

**Courses:** BS47, BS91, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

### ► GSN401 MANAGING IN THE GLOBAL BUSINESS ENVIRONMENT

Competence in managing is the key to success for any organisation and for any person within that organisation. The knowledge and ability to

manage within the global business environment are crucial requirements for today's and tomorrow's managers. This unit introduces the planning, leading, organising and controlling functions of management to elucidate current trends in management in the global environment.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF01, IF02, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** GSN204, MGN409  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN403 UNDERSTANDING DATA

This unit is designed to provide students with a clear understanding of different types of data and techniques to present tackle real world problems relevant to business and managers. Students are introduced to various techniques of organising, presenting and analysing economic and business data. Topics include probability theory, descriptive and inferential statistics.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** EFN409  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN404 FINANCIAL STATEMENTS ANALYSIS 1

This unit introduces students to basic accounting concepts and financial statements, and then explores methods of analysing them to give an informed understanding of the financial well being of the entity. Throughout, it takes the perspective of the user of financial statements, and in this role, explores the information in financial statements and how the three basic accounting statements are linked, and interdependent. The course guides students through the processes of analysing financial statements, interpreting findings and understanding what the analysis and other contextual data tell them about the business.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** AYN416, GSN202  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN405 STRATEGIC MANAGEMENT

Strategy is the process of determining goals and moving towards the achievement of those goals in a business, government, or not-for-profit setting. This unit introduces the concept of strategy and explores the basic tenets of the strategy process, competitive advantage, and strategic management in a changing global environment. It lays in the foundations for students in terms of understanding contemporary thinking in the strategy field. The learning process is enhanced by practical real-time examples of strategy in action utilising the case study method of learning.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN401 **Corequisites:** GSN401

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN406 HUMAN RESOURCE MANAGEMENT ISSUES

This unit examines the challenges faced by managers in achieving effective human resource management in the contemporary business environment. An issues-based approach is adopted to focus attention on the need for the individual managers to complement their technical expertise with knowledge and skills in people management. Specific attention is given to the human resource management implications arising from the global business environment and the changing nature of organisations.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN401, GSN409

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN407 BUSINESS COMMUNICATION

Business Communication is an introductory unit that promotes effective written and spoken communication skills in a range of situations encountered by managers. Students better understand the principles of effective written and spoken com-

munication through theory and undertaking several practical exercises and tasks.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** CON404  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN408 FUNDAMENTALS OF MARKETING MANAGEMENT

This unit provides students with the opportunity to critically examine and evaluate the role of marketing and its contribution to the strategic processes of the modern firm operating in an increasingly competitive national and international environment. Key marketing decision areas are examined, including the marketing concept, the marketing mix, marketing information systems and marketing research, market segmentation, targeting and positioning, and the process of marketing planning, implementation and control. Students have the opportunity to consider the evolution of marketing philosophy, determinants of consumer and organisational behaviour and the influences of environmental forces on marketing decision-making within the firm.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF01, IF02, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** GSN206  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN409 ORGANISATIONAL BEHAVIOUR 1

Organisational Behaviour 1 is an introductory unit which analyses human behaviour at work with a focus on issues of personality, motivation, group interaction, occupational stress, and health and organisational change. The unit examines issues related to aspects of the working environment and to the relationship between managerial strategies, organisational structures and their effects on performance, health and autonomy.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Corequisites:** GSN401

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** MGN412  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN410 ENTREPRENEURSHIP

This unit introduces the student to the field of entrepreneurship and planning for new business initiatives in the global business environment. Topics include the following: entrepreneurial attitudes, abilities and behaviours; developing an entrepreneurial culture; opportunity recognition and viability screening; first-mover advantages and disadvantages; risk recognition and risk reduction strategies; intellectual property protection. Students examine and critique several business plans and/or case studies.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** GSN300  
**Campus:** GP **Sem:** 1, 2, 3

### ► GSN411 ECONOMICS OF STRATEGY 1

Competitive strategy requires an understanding of the market context in which the business firm is operating, and increasingly this means the global market context. This unit is concerned with the microeconomics of strategic business choices, such as acquiring a competitor, supplier, or major customer, or diversifying into similar and dissimilar markets, using economic concepts such as economies of scale, economies of scope, incremental costs and transaction costs. Topics include the economics of the firm, transactions costs, the economics of vertical integration, 'make or buy' decision, economies of scale, and scope and agency theory.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** EFN405, GSN203  
**Campus:** GP **Sem:** 1, 2, 3

**► GSN412 BUSINESS LAW 1**

This unit provides managers with an overview of basic legal principles, which form the foundation of the laws of commercial transactions from the perspective of, and with particular relevance to, managers. Students learn key elements of the rules governing business dealings by the interaction of the laws of contract, agency and franchising, property law, securities and bailment, company law and consumer law. The unit also introduces students to the Australian legal and statutory structure and provides an overview of the legal nature of business entities.

**Courses:** GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN401 **Corequisites:** GSN401

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** AYN410

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN413 FINANCIAL MANAGEMENT 1**

This unit introduces the student to the international financial environment in which business operates. The three major lessons in finance (time value, diversification and arbitrage) are introduced. Topics include time value of money, valuation, sources of funds, behaviour of firms and financial markets, introduction to investment evaluation, diversification, risk and return, and cost of capital.

**Courses:** GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN403

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** EFN406

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN414 BUSINESS CONDITIONS ANALYSIS 1**

This unit provides managers with an understanding of some of the key factors affecting business conditions. Students are introduced to the most important economic concepts through a series of international case studies. These concepts include, among others, opportunity cost, supply and demand, elasticity, efficiency, comparative advantage, saving and investment, and gross domestic product (GDP). In the process, students have the opportunity to evaluate, critically, the determinants of market outcomes, environmental policy, international trade policy, competing indicators of economic welfare, and policy aimed at lifting national savings.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** EFN405, GSN203

**Campus:** GP

**Sem:** 1, 2

**► GSN415 UNDERSTANDING LEADERSHIP**

Leadership is the process of persuasion or example by which an individual influences others to pursue identified goals. The skills of leadership can be identified and learned. This unit explores the attributes, roles and tasks of leaders in contemporary business situations and the issues that impact on leadership, such as leader-follower interaction, ethics, leadership characteristics, and leadership development. This unit culminates in the development of leadership profiles of contemporary leaders with an exploration of their characteristics and how their leadership roles are exercised.

**Courses:** BS47, BS91, GS40, GS42, GS44, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN416 BUSINESS PLANS 1**

This unit prepares students for writing a formal business plan for a new business venture. Business planning is an intensive viability screening exercise in which the business planners must consider all strategic alternatives, choose a preferred 'business model' and analyse whether or not the proposed new venture appears to be viable. The business plan is a document that communicates this viability to an investor or other potential stakeholders in the new business. The structure and content of the business plan is thus crafted strategically according to its role in a

multi-stage communication process with the target reader.

**Courses:** BS47, BS91, GS40, GS41, GS42, GS43, GS44, GS48, GS50, GS85, GS86, GS93, GS97, IF13, IF15, IF98, IF99

**Prerequisites:** GSN404, GSN408, GSN410, GSN413, GSN415

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN417 EFFECTIVE ADVOCACY FOR MANAGERS**

Effective Advocacy for Managers is an elective unit that builds upon work completed in GSN407. This unit is designed to enhance students' presentation skills. It covers the practical application of key theories of Speech Communication to create managers who are effective persuaders, opinion leaders, and facilitators of change in a business environment. The issues covered include the following: structuring and designing for an audience; developing a persuasive theme; using imagery and language effectively; developing presentations.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN407

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**Sem:** 2

**► GSN418 MARKETING STRATEGY DEVELOPMENT**

This unit builds upon the foundation provided by GSN408 and examines the managerial process involved in identifying and developing effective marketing strategies. It examines the role of marketing within the strategic processes of the modern firm and considers the process involved in strategic marketing in the global business context. It takes a case based approach to illustrating the effectiveness of key approaches to marketing strategy development and highlights the importance of new and emerging fields of marketing practice.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN408

**Contact hours:** 3 per week

**Credit points:** 6

**Incompatible with:** GSN206

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN419 ORGANISATIONAL BEHAVIOUR 2**

Organisational Behaviour 2 is an elective unit which builds upon work completed in Organisational Behaviour 1. The unit provides an extensive analysis of human behaviour with particular emphasis on behaviour in groups and in larger organisations. Topics include organisational structure and design, teamwork and group work, organisational culture, power and politics, communication, conflict and negotiation, and innovation and organisational development.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN409

**Contact hours:** 3 per week

**Credit points:** 6

**Incompatible with:** MGN412

**Campus:** GP

**Sem:** 1, 3

**► GSN420 NEW VENTURE STRATEGY**

This unit considers competitive strategy and the requirements for resource-based sustainable competitive advantage in the context of new business ventures. Topics include the following: generic competitive strategies; entry strategies; strategies to counter environmental threats and weaknesses; strategies to exploit firm strengths and opportunities; competitive strategies (cost leadership and differentiation); cooperative strategies (tacit collusion and strategic alliances); global strategies. Students complete a Strategic Plan for a new venture as part of this unit.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405, GSN410

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN421 ECONOMICS OF STRATEGY 2**

This unit continues the analysis introduced in GSN411 and develops in greater depth the economics of competitive strategy and competitive advantage in the global business context. Topics

include exit and entry of firms, strategic positioning for competitive advantage, analysing cost and differentiation positions, methods of sustaining competitive advantage, and the origins of competitive advantage.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN411

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**► GSN422 BUSINESS LAW 2**

Business Law 2 provides a continuing overview of key areas of commercial law in the Australian environment. The subject builds on the basic principles of contract, property law, securities and bailment, consumer law agency and franchising, company law principles, covered in Business Law 1. Students focus on the essential elements of legal compliance programs and specific elements of the rules that impact on business operations in the areas of insurance law, law of torts and professional negligence, personal and corporate insolvency, environmental law, employment law, occupational health and safety, and privacy law.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN412

**Contact hours:** 3 per week

**Credit points:** 6

**Incompatible with:** AYN410

**Campus:** GP

**Sem:** 2

**► GSN423 FINANCIAL MANAGEMENT 2**

This unit builds on the material covered in GSN413 Financial Management 1. It extends the analysis of firms' decisions in the areas of investment, dividends and financing. Topics include capital budgeting and taxation, dividends and imputation, capital structures, risk management using options and futures, and an introduction to international finance.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN413

**Contact hours:** 3 per week

**Credit points:** 6

**Incompatible with:** EFN406

**Campus:** GP

**Sem:** 1, 3

**► GSN424 BUSINESS CONDITIONS ANALYSIS 2**

This unit provides managers with an understanding of the key macroeconomic policy debates and how they are impacting upon business conditions. Students are introduced to these debates and their theoretical underpinning through a series of international case studies. A number of important concepts are introduced: the natural rate of unemployment; the underlying rate of inflation; aggregate demand and aggregate supply; monetary policy and fiscal policy; the open economy. In the process, students get the opportunity to evaluate, critically, the virtues of the free market as opposed to government interventionism.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN414

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**► GSN425 LEADERSHIP DEVELOPMENT**

This unit builds upon GSN415 to develop leadership ability, utilising a conceptual framework for self-understanding and the development of the requisite knowledge, skills and attitudes required to lead successfully in contemporary society. It is designed to allow individuals a better understanding of their own capacities as leaders. Individuals learn the principles of effective leadership and how their own style affects leadership, decision making, vision building, organisational culture, and the use of power. The focus is on the development of self-awareness and the improvement of the individual's capacity to understand, communicate with, and influence others.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN415

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**Sem:** 1, 2, 3

**► GSN426 BUSINESS PLANS 2**

This unit is a continuation of GSN416 and culminates in the writing and presentation of a formal business plan. The business plan is a major component of a multi-part communication strategy between new venture management and the potential investor or other potential stakeholder. Effective presentation and defence of the business plan is also considered in this unit. As part of the assessment, students complete a formal Business Plan for a new venture of their choosing, and present their plan to the class.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN416, GSN420, GSN429 or GSN416, GSN420, GSN427, GSN430

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN427 FINANCIAL STATEMENT ANALYSIS 2

This unit explores the meaning of financial statements and their application in managerial decision-making. Information from financial statements is used to demonstrate how managers can understand and take control of the internal cost structure of their business. The unit introduces management accounting, basic costing concepts, cost behaviour and the cost-volume-profit model, and budgeting.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN404

**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** AYN416, GSN202  
**Campus:** GP **Sem:** 2

#### ► GSN428 INTERNATIONAL STUDY TOUR

This unit involves a group excursion to one or more international countries for students interested in learning more about doing business with that (those) countries. Students study the business environment and the underlying socio-political, geographical and historical aspects of that (those) countries in considerable detail. The international study tour would normally be scheduled during the semester break period, and involves 10-14 days overseas, accompanied by an Academic Advisor. The group attends organised briefings, meetings, presentations and site visits in the host countries. Assessment will include attendance and participation at all events and submission of a detailed daily journal.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:**

#### ► GSN429 NEW VENTURE MARKETING

New Venture Marketing is concerned with the special marketing needs of entrepreneurial businesses. In new ventures, market ignorance is often greater than in existing firms. Needs of potential customers must be analysed, product design and prototypes must be developed in line with marketing research results, new marketing channels must be created and access to existing channels must be secured. Potential customers must be identified, informed, and persuaded to try the new product.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN408 and GSN410

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2

#### ► GSN430 NEW VENTURE RE sourcing

This unit is concerned with raising funds to establish, launch and grow a new business venture. Sources of funding considered include one's own resources, family and friends, 'social capital' transactions, business angels, venture capitalists, banks, and the public equity market. Methods of 'bootstrapping' and cash conservation, including agreements with suppliers, customers, and employees, are also considered. Pro-forma financial statements for the new venture, the financial valuation of the new venture, and the allocation of equity for intellectual property, seat equity, expenses incurred and funding provided are also examined.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN404, GSN410

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN431 NEW VENTURE GROWTH AND TRANSITIONS

New ventures often start successfully but then flounder as rapid growth leads to problems in production, distribution, product quality, employee morale, cash flow or financing. Management's ability to make the transition from the new, small firm to a rapidly growing company is critical to its success. If the firm is to survive, the entrepreneur must navigate the transition from 'hands on' involvement in every aspect of the business to a more detached management role.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN410, GSN420

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

#### ► GSN432 NEW VENTURE LEADERSHIP AND HRM

The entrepreneur's ability to exercise leadership is a critical factor in the success of most new ventures, and thus the main purpose of this unit is to enhance entrepreneurial leadership skills. Human resource management issues, including international human resource and cross-cultural management, are introduced and applied to the new venture situation. Incentive remuneration schemes, including bonus and stock option schemes, are considered as a means of reducing current employee costs and reducing employee turnover, while allowing employees to participate in the upside potential of the venture.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN410, GSN415

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

#### ► GSN434 VENTURE CAPITAL

This unit considers, in the Australian and global financial market contexts, the operation of the venture capital industry and its rationing of relatively scarce risk capital among relatively abundant demands for new venture funding. Students gain an understanding of how the venture capital industry works and the criteria by which funds are committed to the support of new ventures. Students increase their ability to distinguish the less risky and more profitable investment opportunities from the more risky and less remunerative opportunities that may also be presented to venture capitalists.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN404, GSN410, GSN413

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN435 ELECTRONIC COMMERCE

This unit provides an interdisciplinary introduction to business processes that are known collectively as electronic commerce. Current technologies for use in implementing electronic commerce are examined and focus is placed on strategies and methodologies for adopting the technology in a real world context. Students analyse why electronic commerce is more easily used in some businesses and not in others, using a cost-benefit evaluative framework. As a component of this unit, students increase their competence in using the Internet. This exposure is essential for assignment work and to allow students to access necessary course materials.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

#### ► GSN438 PRODUCTION AND OPERATIONS MANAGEMENT 1

The pivotal concept of management is that the organisation is a dynamic system affected by both external and internal forces. Operations management narrows the focus of general management philosophies to consider the production/operations sub-systems. These sub-systems physically produce goods and services, which are the value-added result of the transformation of inputs. Forecasting, process selection and design,

layout and capacity planning, location planning and aggregate planning are considered. Issues of quality and efficiency are introduced analytically with respect to strategies and constraints.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN401

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

#### ► GSN439 PRODUCTION AND OPERATIONS MANAGEMENT 2

The organisation is a dynamic system affected by both external and internal forces. Operations management narrows the focus to the production/operations sub-systems, which physically produce goods and services. Foundation unit GSN438 introduced forecasting, process selection and design, layout and capacity planning, location planning, aggregate planning and quality control issues. In GSN439 the means of procurement and application for production are considered. Inventory, materials requirements planning, manufacturing resource planning, supply chain management, scheduling, service operations, and current issues like enterprise resource planning are introduced. They are addressed analytically with respect to strategies and constraints.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN438

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1

#### ► GSN440 RISK MANAGEMENT 1

This unit examines the role of risk management in contemporary management theory and practice. Key decision areas of risk (eg financial, human resource, physical - asset management etc) are considered in the context of the general management of the organisation.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN401

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN442 PROJECT MANAGEMENT 1

Managers are increasingly placed in a position of project manager, to manage projects as diverse as the construction of new facilities, expansion to global markets, implementation of change, information technology systems installation, or planning the major conference. This unit provides the fundamental skills in both the operational and strategic aspects of project management. Academic requirements are met through a minimum of fortnightly contact with the lecturer by each student, through reading of the text and associated publications, and through the preparation and submission of a written project proposal.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN401

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN443 PROJECT MANAGEMENT 2

Managers are increasingly placed in the position of project manager, to manage projects as diverse as the construction of new facilities, expansion to global markets, implementation of change, information technology systems installation, or planning a major conference. This unit builds on the fundamental skills in both the operational and strategic aspects of project management, which are covered in GSN442. In distance mode, academic requirements are met through fortnightly contacts with the lecturer by each student, through reference to the text and associate publication, and through the preparation and presentation of a written project proposal.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN442

**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2

#### ► GSN444 SPECIAL TOPICS 1

This unit is offered to temporarily 'house' subject matter that is not routinely offered by the Graduate School of Business, but which is offered when specific subject matter is considered espe-

cially timely and/or in a semester when a visiting or adjunct professor is available with expertise that is not normally resident in the Faculty of Business.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN445 SPECIAL TOPIC 2

Like GSN444 this unit is offered to temporarily 'house' subject matter that is not routinely offered by the Graduate School of Business. This unit is offered to students who have already taken GSN444 and who wish to take a second 'Special Topics' six credit point unit in the same award program.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP

#### ► GSN446 APPLIED RESEARCH PROJECT A - INDIVIDUAL PROJECT

These projects enable students to undertake applied research where the emphasis is upon linking theory and practice. Students should seek advice from the Research Coordinator regarding their topic. Students undertaking the 6 credit point project should spend approximately six hours per week on the project. If group projects are undertaken, the allocated research tasks for each member will require the six hours per week. Students may be required to attend a number of management research seminars organised by the Brisbane Graduate School of Business or the Faculty of Business.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Credit points:** 6  
**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN447 STRATEGIC INTERNET MARKETING 1

Strategic Internet Marketing 1 introduces students to the key concepts and issues involved in using the Internet in marketing. The unit explains how, why and when to incorporate the Internet into marketing activities. Specific areas investigated include the role of new technologies in changing and complementing traditional marketing practices, Internet based market research, and consumer behaviour.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN408  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

#### ► GSN448 STRATEGIC INTERNET MARKETING 2

Strategic Internet Marketing 2 focuses on the practical implications of the issues and concepts discussed in Strategic Internet Marketing 1. It explains how the basic tools of marketing are applied in the online environment. Specifically the unit addresses issues relating to pricing including both monetary and non-monetary costs to the consumer, it assesses the Internet as part of the promotional mix and a promotional medium, and it evaluates product types most suited to Internet marketing, and the value of the Internet as a distribution channel.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN447  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1

#### ► GSN449 PUBLIC SECTOR AND SOCIAL MARKETING 1

Marketing has rapidly expanded its application over recent years from being primarily a commercial practice, to being used to increase the effectiveness and efficiency of a range of non-commercial activities. In particular, over the past decade marketing has been adopted by government agencies world wide to improve service standards and communicate with key audiences. This unit examines the problems and issues associated with the application of marketing concepts and techniques to the social, not for profit and public sectors focusing in particular on service

delivery and the use of social marketing to facilitate social and individual change.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97, IF03, IF04  
**Prerequisites:** GSN408  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 3

#### ► GSN452 INTERNATIONAL HUMAN RESOURCE MANAGEMENT

This unit provides students with an understanding of some of the key factors affecting the management of human resources in an international environment. The integrating theme to studying this area of HRM is the management of expatriate managers. The topic is considered from the perspective of the international management generally, through the recruitment and selection of expatriates, their preparation, in-post support, and eventual repatriation.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN406  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 3

#### ► GSN454 ECONOMICS OF INFORMATION AND E-COMMERCE

This unit explores ways in which the durable principles of information economics may be applied to analyse the 'information' economy. At a general level, the unit is concerned with the impact of high-speed communication and replication of information on the global business environment. More specifically, at the level of the firm, this unit is concerned with issues such as information pricing, product differentiation, the creation of network externalities, consumer lock-in and switching costs, strategic alliances and other issues relevant to business strategy. The impact of the network economy on firms that participate in e-commerce is also explored.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN411 or GSN414 or GSN491  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN455 SPECIAL TOPIC 3

Like GSN444, this unit is offered to temporarily 'house' subject matter that is not routinely offered by the Graduate School of Business. This unit is offered to students who have already taken GSN444 and GSN445 and who wish to take an additional 'Special Topic' unit in the same award program.

**Courses:** BS47, BS91, GS40, GS41, GS43, GS48, GS50, GS85, GS86, GS93, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1

#### ► GSN456 PERSONAL DEVELOPMENT AND ETHICS FOR MANAGERS

This unit provides students with opportunities to increase their understanding of themselves and how their interactions with others impact on their effectiveness as managers in a global environment. This unit also provides a framework of basic principles for ethical decision making. The roles of the individual and ethics in business decision making are explored through the use of international case studies. Students get the opportunity to evaluate, critically, the role of individual behaviour and ethical decision making, from a personal career perspective and as a determinant of management and business effectiveness in an international context.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** GSN208  
**Campus:** GP **Sem:** 3

#### ► GSN457 ORGANISATIONAL COMMUNICATION AND INFLUENCE

This unit focuses on how people relate with each other in modern organisational settings, from small businesses to multi-national organisations in the public and private sector. Drawing together theories of communication as they apply to workplace settings, the unit provides the opportunity to analyse and reflect on the role of communication in constructing the conditions for

achieving effective leadership and participation in organisations.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN407  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

#### ► GSN460 CREATIVE PROBLEM SOLVING

This unit introduces the student to the field of creative thinking for new business initiatives in the global business environment. The problem solving methods presented also have application for entrepreneurs in established firms. Topics include organisational issues for managing creativity, methods of thinking, formal analysis approaches, individual creative techniques, and group based problem solving. Candidates apply specific techniques to case studies. Video records of tutorials are used to facilitate feedback for improved learning outcomes.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN461 MAKING CHANGE WORK

Making Change Work is a unit that builds on the material covered in both GSN401 (Managing in the Global Business Environment) and GSN409 (Organisational Behaviour 1), with the intention of making organisational change work optimally for organisations and for the people in them. As such, it relies on a general knowledge of management and its objectives and functions, as well as of individual and group behaviour.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN401, GSN409  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN462 NEGOTIATION STRATEGIES

This unit explores the theory and practice of business negotiation strategies. By focusing on distributive and integrative negotiation strategies and exploring business negotiation practices in various contexts, the unit provides students with the opportunity to develop understanding and skills of negotiation in general, and business negotiation under selected contexts in particular.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Prerequisites:** GSN407  
**Contact hours:** 3 per week **Credit points:** 6  
**Incompatible with:** IBN409  
**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN466 TECHNOLOGY INFRASTRUCTURE MANAGEMENT

Technology Infrastructure Management develops an appreciation of the complex issues that face today's Information Technology Managers.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1, 3

**► GSN467 KNOWLEDGE MANAGEMENT**  
 This unit follows on from GSN402 Strategic Use of Information Technology, exploring the rationale for knowledge management in a digitised workplace. Discussion focuses on the application of knowledge strategies and technologies to real world business problems.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► GSN469 INTERNET APPLICATIONS

The purpose of the unit is to provide a managerial overview of the available and emerging technologies on the Internet and examine the business case for their use and application. It examines the various applications of the Internet including email, mobile and Internet telephony, streaming media, database and dynamic content, emerging protocols, instant communicators and newsgroups for their utility and value to business.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97  
**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN201

**Campus:** GP

**Sem:** 2

#### ► GSN470 E-BUSINESS

This unit introduces concepts, theories and issues in the development of an e-business organisation based on or depending strongly on Information and Communication Technologies (ICTs). The unit examines the nature of e-business, with particular emphasis on the variety of e-business strategies. It explores how traditional management practices face difficulties in an electronic context.

**Courses:** GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 1, 3

#### ► GSN472 LEGAL PRINCIPLES OF CORPORATE GOVERNANCE

Principles of Corporate Governance provides an introduction to the increasingly important area of corporate governance, as practiced by the Boards of Directors of companies. This subject provides an overview of the main concepts and history of corporate governance as a global trend: the core legal principles that underpin corporate governance; relationships between key stakeholders; corporate governance in different contexts including small proprietary companies and large listed and unlisted entities; current issues; arguments propounded for self regulation versus government intervention.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN412

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN229, GSN481

**Campus:** GP **Sem:** 2

#### ► GSN473 CORPORATE ACCOUNTABILITY AND GOVERNANCE

Boards of directors and managers of organisations are now legally as well as morally accountable for policies, processes, and outcomes to an increasingly vocal set of stakeholders. Many of these accountabilities are not new, although until recently they may have not been monitored rigorously or at all. Recent high-profile corporate collapses and the widespread impact of the costs of these failures have resulted in greater regulation supplanting the former self-regulation practices. GSN473 examines the roles of the board and management in implementing and monitoring a sound corporate culture, proactively identifying and dealing with risk, and safeguarding the company's assets and its place in our society and economy.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN404, GSN405, GSN412

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN474 STRATEGY PLANNING & DEVELOPMENT

The understanding of strategic planning, development and implementation and the implications for the modern organisation underpin this unit. Based on the case study method of teaching, the unit discusses the strategy development process in the modern business context, and takes into account the various stakeholders and influences that determine the eventual success or failure of strategy initiatives.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 1, 2, 3

#### ► GSN475 STRATEGIC ANALYSIS

Strategic analysis builds on the core understanding of the principles and foundations of strategic management. The capacity to critically analyse, to formulate options, and to recommend courses of action is an essential everyday tool for the strategist. The ability to analyse and present a point of view is the focus of the course that incorporates presentation skills with strategic analysis.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405, GSN474

**Contact hours:** 3 per week

**Credit points:** 6

**Campus:** GP

**Sem:** 2

#### ► GSN476 SALES MANAGEMENT

This unit introduces the student to the field of sales management in the business environment whether local, national or international. The unit provides the opportunity for developing an understanding of sales processes and the associated management concepts and processes that support business strategic and operational outcomes, and the people involved in the selling. Students examine various sales models and their applicability to different industries, and critique several commission, reward and recognition plans and their effectiveness.

**Courses:** GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405, GSN406, GSN408

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 1, 3

#### ► GSN477 CONTRACT MANAGEMENT

This unit provides managers with an understanding of some of the key factors involved in the management of contracts. Competence in this area is increasingly important as greater attention is paid to the negotiation and implementation of contracts and as the trend to outsourcing various functions to other organisations continues.

**Courses:** GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405 **Corequisites:** GSN442

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 3

#### ► GSN478 AUSTRALIAN WORKPLACE CONNECTIONS

This unit provides students with the opportunity to site visit three Australian organisations in different sectors, across large and SME organisations, meeting senior staff, observing operations and gaining first-hand access to contemporary organisational problems and dilemmas. The unit has a multi-disciplinary problem-based learning approach. The unit takes 'real world' problems or dilemmas as the curriculum, and the teacher activates disciplinary knowledge and skills to respond to the issues encountered. The unit provides a concrete basis for comparison with prior workplace experience and thereby enriches the international learning experience.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 1

#### ► GSN479 SPREADSHEET MODELLING FOR MANAGERS

This unit is designed to provide students with the analytical modelling skills to enhance their abilities to make difficult business decisions. Students are introduced to a range of techniques which involve structuring, analysing and solving managerial business problems using Excel spreadsheets and add-ins. Topics include optimisation modelling, simulations models, decision analysis and forecasting.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN403, GSN413

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 2

#### ► GSN480 SUSTAINABLE DEVELOPMENT AND COMPETITIVE ADVANTAGE

This unit provides managers with an understanding of the factors impacting upon the long-term sustainability of business, and how this impacts upon competitive advantage. The theoretical framework is predicated upon four key concepts: radical resource productivity; biomimicry; service and flow economy; investment in natural capital. This framework is applied in the analysis of a number of international case studies.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN411 or GSN414 or GSN491

**Contact hours:** 3 per week **Credit points:** 6

**Campus:** GP **Sem:** 1, 3

#### ► GSN481 PHILANTHROPIC AND NONPROFIT FRAMEWORKS OF GOVERNANCE

The unit explores contemporary understandings of philanthropic and nonprofit governance in the context of social, economic and political systems. It locates these understandings in various theoretical and descriptive frameworks providing students with both the knowledge and analytical skills that are necessary to reflect critically on philanthropy and nonprofit governance systems and their environments.

**Courses:** BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN472, GSN229

**Campus:** GP **Sem:** 1

#### ► GSN482 PHILANTHROPIC AND NONPROFIT ECONOMICS

The unit examines the role that economic theory can play in aiding decision-making in nonprofit organisations. It introduces students to the principles of microeconomics and explores their practical application to a range of decisions that confront nonprofits. Production theory, cost theory, elasticity and market failure are some of the topics explored in the nonprofit context.

**Courses:** BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN229

**Campus:** GP **Sem:** 1

#### ► GSN483 ETHICS FOR PHILANTHROPIC AND NONPROFIT ORGANISATIONS

This course introduces students to ethical theories and constructs with a focus on producing effective personal and professional resolutions to those ethical dilemmas specifically associated with Philanthropic and NonProfit (PANFP) organisations. The unit recognises the distinctive mission and character of PANFP organisations, while seeking to provide an understanding of integrity and response-ability.

**Courses:** BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** CON427, AMN480, GSN230

**Campus:** GP **Sem:** 1

#### ► GSN484 MANAGEMENT FOR PHILANTHROPIC AND NONPROFIT ORGANISATIONS

In the context of managing for excellence with integrity, this unit introduces students to the major management sub-disciplines of human resource management and industrial relations, governance, financial management, and marketing which may confront Philanthropic and Non-profit (PANFP) organisations, their managers and governing bodies.

**Courses:** BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** CON427, AMN480, GSN230

**Campus:** GP **Sem:** 1

#### ► GSN485 LEGAL ISSUES FOR PHILANTHROPIC AND NONPROFIT ORGANISATIONS

The unit introduces students to critical issues of philanthropic and nonprofit law and taxation. The unit examines the regulatory, taxation and governance framework of nonprofit organisations and philanthropic transactions in Australian Federal and State jurisdictions.

**Courses:** BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN231

**Campus:** GP **Sem:** 2

#### ► GSN486 ACCOUNTING ISSUES FOR PHILANTHROPIC & NONPROFIT ORGANISATIONS

This unit introduces students to an overview of financial reporting. The unit begins with an overview of the purpose of accounting and the types of financial statements that comprise a financial report. The unit also focuses on the Australian financial reporting framework and whether an

Australian accounting standard for nonprofit organisations is required. International comparisons are made.

**Courses:** BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN231

**Campus:** GP

**Sem:** 2

#### ► GSN487 MARKETING FOR THE NONPROFIT SECTOR

The theory and application of strategic marketing in the nonprofit sector is studied in this unit. The unit reviews key topics such as the following: competitive positioning; marketing mix formulation; issues and characteristics that differentiate nonprofit marketing and allegiances to multiple markets. Within the not-for-profit marketing mix, topics examined by students encompass the social cause as service/product, service delivery options (offline and online) and integrated marketing communication including database marketing and relationship management.

**Courses:** BS47, BS91, BS39, BS93, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN408

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** AMN482

**Campus:** GP

**Sem:** 2

#### ► GSN490 MANAGING TECHNOLOGICAL INNOVATION

The role of technological innovation is crucial for the effective performance of modern enterprises. This unit explores the concepts of innovation and provides a managerial understanding of the major types of contemporary information technologies. These are used to explore the way technological innovation integrates and supports a broad range of business functions and processes and can be used strategically to provide advantage to an enterprise.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Prerequisites:** GSN405

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN402

**Campus:** GP

**Sem:** 1, 2

#### ► GSN491 ECONOMICS IN BUSINESS 1

This unit is designed to show how economics provides a framework of analysis, and a powerful set of tools that can be used by managers to understand the market conditions affecting business performance. It examines the forces that influence production and pricing decisions in individual markets and how market forces interact to determine the level of macroeconomic activity. The course provides a self-contained treatment of the major themes in micro and macro economics. It also provides a solid foundation for further study of the subject.

**Courses:** BS47, BS91, GS40, GS42, GS48, GS50, GS75, GS76, GS85, GS87, GS97

**Contact hours:** 3 per week **Credit points:** 6

**Incompatible with:** GSN414

**Campus:** GP

**Sem:** 2, 3

#### ► HHB050 MANDARIN FOR CHINESE

In this unit, students receive instructions in listening and speaking Putonghua, reading and writing Pinyin Romanisation, and reading and writing simplified characters. They learn differences in structure and nuance between their native dialect and Putonghua.

**Courses:** All

**Credit points:** 12

**Incompatible with:** HUB450

**Campus:** GP

**Sem:** 3

#### ► HHB051 INTRODUCTORY MANDARIN 1

This unit introduces students who have little or no prior knowledge of Chinese Mandarin to the four macro skills of listening, speaking, reading and writing through an integrated communicative approach to teaching. Content will include the following: the Mandarin sound and tonal systems; the Pinyin Romanisation system; introduction to Chinese character writing; greetings and introductions; family; identification of nationalities, places and objects, locations and directions.

**Courses:** All

**Credit points:** 12 **Incompatible with:** HUB453

**Campus:** GP

**Sem:** 3

#### ► HHB052 INTRODUCTORY MANDARIN 2

This subject continues to develop the four macro skills of listening, speaking, reading and writing through an integrated communicative approach. While there is further consolidation of the knowledge of the Pinyin Romanisation system, greater attention is devoted to the reading and writing of characters. With acquisition of language, students receive further exposure to aspects and characteristics of Chinese culture.

**Courses:** All

**Prerequisites:** HUB453 or HHB051

**Credit points:** 12 **Incompatible with:** HUB454

**Campus:** GP

**Sem:** 3

#### ► HHB053 INTERMEDIATE MANDARIN

**Campus:** GP

**Sem:** 1

#### ► HHB054 ADVANCED MANDARIN

**Campus:** GP

**Sem:** 2

#### ► HHB056 INTERNATIONAL INTENSIVE PROGRAM

This involves a short period of intensive language study conducted at an approved institution in the country where the target language is used. It aims to enhance language skills and introduce students to the culture of the country in an immersion situation.

**Courses:** HH01, HU22, IF43, IF70, IF81, IF82, IF86, IF30, ED50, BS56, SS60

**Credit points:** 12

**Incompatible with:** HUB646

#### ► HHB057 INTERNATIONAL SUMMER SCHOOL OR EQUIVALENT

This unit involves four to six weeks of concentrated learning at an approved institution.

**Courses:** BS50, ED50, HH01, HU20, HU22, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Credit points:** 24 **Incompatible with:** HUB647

#### ► HHB058 IN-COUNTRY STUDY - A

This unit involves an approved course of study at a designated foreign institution for one semester.

**Courses:** ED50, HH01, HU20, HU22, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Credit points:** 48 **Incompatible with:** HUB648

#### ► HHB059 IN-COUNTRY STUDY - B

This unit involves an approved course of study at a designated foreign institution for one semester.

**Courses:** HH01, HU22, HU20, IF43, IF70, IF81, IF82, IF86, SS60, IF30

**Credit points:** 48 **Incompatible with:** HUB461

#### ► HHB060 FRENCH FOR THE TOURISM INDUSTRY

This unit should be of interest to anyone wanting to work in the tourism industry, overseas or in Australia. It concentrates on the development of communicative skills with a special focus on the tourism and hospitality industry.

**Prerequisites:** HUB673

**Corequisites:** HUB674 or HHB065 (for students wishing to take HUB675 French 6 in Semester 2)

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB452

**Campus:** GP

#### ► HHB061 FRENCH 1

This unit aims to give students who have not reached senior or the equivalent the grounding necessary for the post-senior course. Videodisc technology using the 'French in Action' method allows students to develop conversational skills, and introduces them to reading and writing.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF70, SC30, IF30, SS60

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB670

**Campus offered:** GP

**Sem:** 1, 2

#### ► HHB062 FRENCH 2

This unit aims to give students who have not reached senior or equivalent the grounding necessary for the post-senior course. Videodisc technology using the 'French in Action' method allows students to develop conversational skills, and introduces them to reading and writing.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB670

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB671

**Campus:** GP

**Sem:** 2, 3

#### ► HHB063 FRENCH 3

The course concentrates on developing spontaneity in social conversations, with some work on reading and writing skills. The course encourages students to make contacts in the French speaking community in Brisbane.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF70, SC30, IF30, SS60

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB672

**Campus:** GP

**Sem:** 1

#### ► HHB064 FRENCH 4

This course expands on work done in the first semester, to allow students to discuss a number of current issues in French society. Magazine articles, news reports, the Internet, videos and a novel develop reading, writing, speaking and listening skills, as well as cultural awareness.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB672

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB673

**Campus:** GP

**Sem:** 2

#### ► HHB065 FRENCH 5

This unit has two components a) An introduction to Business French. Students work on the skills necessary to the recruitment process, reading job offers, preparing a CV and so on. b) The study of the French verbal system. Using a feature film on videodisc, students revise and expand their understanding of the French verb system. Skills are put into practice in the writing of a short story.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB673

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB674

**Campus:** GP

**Sem:** 1

#### ► HHB066 FRENCH 6

How do you argue in French? This course equips students to explain and debate issues, using written and video materials. Students prepare their own video report.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB674

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB675

**Campus:** GP

**Sem:** 2

#### ► HHB067 FRENCH 7

This advanced course in business French equips students for working in Europe or in French-speaking companies in Australia. Students have the option of sitting for the Certificat Pratique de Français Commercial et Economique.

**Courses:** BS56, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB675

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB678

**Campus:** GP

**Sem:** 1

#### ► HHB068 FRENCH 8

This unit allows students to play with verbal and non-verbal aspects of French by studying puns, comic sketches and cartoons. Students write and present a short play at the end of the course.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF70, SC30, IF30, SS60

**Prerequisites:** HUB675

**Contact hours:** 2 per week **Credit points:** 12

**Incompatible with:** HUB677

**Campus:** GP

**Sem:** 2

#### ► HHB069 FRENCH 9

This advanced French unit is available through cross-enrolment at the University of Queensland. See staff for details.

**Courses:** BS56, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB675

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB679

#### ► HHB070 FRENCH 10

This unit is a practical introduction to French-English translation. It is available through cross-enrolment in FH306 at the University of Queensland.

**Courses:** BS56, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB675

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB731

#### ► HHB071 INDONESIAN 1

This entry level unit aims to equip beginning students with elementary communicative competence in a variety of everyday situations. At the end of the year, students will have been exposed to about 2000 words and should be able to use most of the productive sentence patterns of Indonesian in comprehending and expressing information about basic needs, in mostly familiar and predictable situations.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB650

**Campus:** GP

**Sem:** 1

#### ► HHB072 INDONESIAN 2

See HHB071.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HHB071, HUB650 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB651

**Campus:** GP

**Sem:** 2

#### ► HHB073 INDONESIAN 3

This unit advances learners' competence to intermediate level, with some analytical focus on sentence construction and word formation (the affix system). Authentic texts, especially reading materials, are increasingly used during this year, and by the end of the second semester, with the use of a dictionary, students can make good sense of straightforward Indonesian reading material from newspapers, books and magazines. An interview assignment each semester provides opportunities for interaction with native speakers.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB651, HHB072 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB652

**Campus:** GP

**Sem:** 1

#### ► HHB074 INDONESIAN 4

See HHB073.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB652, HHB073 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB653

**Campus:** GP

**Sem:** 2

#### ► HHB075 INDONESIAN 5

At this level, students view weekly audio-visual (tape-slide and video) programs produced in Indonesia for local consumption. Conversation, reading and writing classes reinforce and extend students' ability to communicate on a range of everyday topics relevant to modern Indonesian society. Students give weekly classroom presentations in the language.

**Courses:** BS56, ED50, ED51, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB653, HH074 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB654

**Campus:** GP

**Sem:** 1

#### ► HHB076 INDONESIAN 6

See HHB075.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB654, HHB075 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB655

**Campus:** GP

**Sem:** 2

#### ► HHB077 INDONESIAN 7

At this level, students are comfortable in using authentic Indonesian source materials dealing with a range of sophisticated and complex issues. Students have the opportunity to pursue, in some depth, topics of special interest and relevance to their individual vocational, career or research needs.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB655, HHB076 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB656

**Campus:** GP

**Sem:** 1

#### ► HHB078 INDONESIAN 8

See HHB078.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB656, HHB077 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB657

**Campus:** GP

**Sem:** 2

#### ► HHB081 JAPANESE 1

This unit is aimed at students with little or no experience in Japanese. Students learn to conduct conversations in a range of everyday situations using basic grammatical structures and colloquial expressions. The hiragana and katakana scripts are taught from the outset and a total of 74 kanji are introduced. Resources include textbook and workbook, audio CDs and interactive multimedia software. Cultural aspects are integrated into the course.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB660

**Campus:** GP

**Sem:** 1, 2

#### ► HHB082 JAPANESE 2

This unit develops the skills needed to speak, understand, read and write Japanese in a wider range of everyday situations using basic grammatical structures and colloquial expressions. Resources include textbook and workbook, audio CDs and interactive multimedia software. A further 96 kanji are introduced and cultural aspects are integrated into the course.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB660, HHB081 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB661

**Campus:** GP

**Sem:** 2, 3

#### ► HHB083 JAPANESE 3

This unit is for students who have successfully completed the introductory units at QUT, Year 12 Japanese or equivalent study elsewhere. Students further develop skills needed to speak, understand, read and write Japanese in a wider range of everyday situations and prepare a group presentation on a given topic. Resources include textbook and workbook, audio CDs and interactive multimedia software. 73 additional kanji are introduced and cultural aspects are integrated into the course.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB661, HHB082

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB662

**Campus:** GP

**Sem:** 1

#### ► HHB084 JAPANESE 4

This unit further develops the skills needed to speak, understand, read and write Japanese in a

wide range of everyday situations. Students are encouraged to engage in free discussion on topics included in the course. Resources include textbook and workbook, audio CDs and interactive multimedia software. 116 additional kanji are introduced and cultural aspects are integrated into the course.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86 SC30, IF30, SS60

**Prerequisites:** HUB662, HHB083

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB663

**Campus:** GP

**Sem:** 2

#### ► HHB085 JAPANESE 5

This unit is for students who wish to develop their communication skills to an intermediate level. Through Internet research and oral presentations, students will explore socio-cultural issues in Japan as well as other parts of the world. An interactive CD-ROM program provides extension exercises, particularly with new vocabulary and kanji.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB663 or HHB084

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB664

**Campus:** GP

**Sem:** 1

#### ► HHB086 JAPANESE 6

This unit continues the socio-cultural theme of HHB085. Students have the opportunity to further develop their language skills and knowledge of Japanese society through the study of socio-cultural issues related to Japan and the world. An interactive CD-ROM program provides students with extension exercises, particularly with new vocabulary and kanji.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB664 or HHB085

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB665

**Campus:** GP

**Sem:** 2

#### ► HHB087 JAPANESE 7

This unit is for students who wish to develop their communication skills to an advanced level. The focus of the unit is the language used in the Media. Television and radio news and documentary programs of social and cultural interest are made accessible through the use of an interactive CD-ROM. Reading/writing activities focus on newspaper articles. Students are encouraged to make use of the Internet to keep up-to-date with current affairs in Japan.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB665 or HHB086

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB666

**Campus:** GP

**Sem:** 1

#### ► HHB088 JAPANESE 8

The focus of this unit is business Japanese. The entire unit is based on a simulation of a Japanese company based in Australia. Since the operational language of the company is Japanese, students learn how to conduct themselves in formal situations, observing appropriate etiquette. The skills engendered in this unit include speaking formal Japanese, making telephone calls, expressing opinions appropriately, understanding job advertisements, writing a CV, writing formal letters, and going for a job interview. These are skills needed by anyone who wants to reach an advanced standard of Japanese - not only business students.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB666 or HHB087

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** HUB667

**Campus:** GP

**Sem:** 2

#### ► HHB091 GERMAN 1

This unit assumes no prior knowledge of German. It aims to equip students with the necessary

German language and socio-cultural skills to communicate in a variety of specific situations. Students will be able to talk and write simply about a number of topics: themselves; how to get to know someone; how to interact with other students, their family, friends, pets, home, the weather, likes/dislikes, and interests and feelings. Students will also become aware of the role and importance of extra-linguistic features in spoken and written communication.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB735  
**Campus:** GP **Sem:** 2, 3

#### ► HHB092 GERMAN 2

This introductory unit is designed for students who have completed HHB091 (German 1) or have an equivalent language proficiency level. There will be an increased emphasis on reading and writing. Students will learn to talk and write about talents and plans, obligations, and physical and mental states. Learners will be able to discuss purchases, food, school and university, holidays, professions, careers, and how and where they live. Students will also expand their language and socio-cultural skills by extracting information from a variety of simple spoken and written texts and will begin to write short narratives.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB735, HHB091 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB736  
**Campus:** GP **Sem:** 2, 3

#### ► HHB093 GERMAN 3

German 3 is the entry point for students with year 12 German or equivalent. Its aim is to consolidate knowledge gained from diverse sources and ensure that students are familiar with common structures and confident in their basic abilities. There is continuing emphasis on spoken expression. Students spend much of class time speaking in pairs and small groups, and these interactions are supported by written compositions, grammatical analyses and web quests. Students use more complex sentences to describe past events and improve their ability to distinguish oral styles from written narratives. Topics covered include holidays and transport, food, cooking, restaurant meals, childhood and youth, stories and fairytales.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB736 or HHB092  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB737  
**Campus:** GP **Sem:** 1

#### ► HHB094 GERMAN 4

German 4 builds on skills acquired in German 3 to get students to the point where they will manage well in everyday situations in a German-speaking country. Writing exercises and grammatical analyses prepare students for oral performance and, as in German 3, there is a great deal of pair work and small-group communication. Students study the forms of polite requests, instructions and directions. Topics include finding one's way around cities, travel, clothing and shopping, accommodation, health and accidents, families and multiculturalism. Students are encouraged to apply to do an exchange to one of the five QUT exchange universities located in Germany and Austria.

**Courses:** BS56, ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB737, HHB093 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB738  
**Campus:** GP **Sem:** 2

#### ► HHB095 GERMAN 5

The units German 5, 6, 7 and 8 form consecutive advanced units that repeat every four semesters. Students in German 5 & German 7 complete the

same content but with different assessment items and levels of difficulty. Two content streams are offered in parallel to prepare students for employment in different professional areas and to enhance intercultural competence. Strand A, which is designed for students with Arts and Education majors, deals with everyday German one year and Computers & High Technology the next. Strand B is for students planning to enter international business environments. Topics covered include planning and arranging meetings, establishing customer and client contacts, and composing business letters.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF70, IF30, SS60

**Prerequisites:** HUB738, HHB094 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB739  
**Campus:** GP **Sem:** 1

#### ► HHB096 GERMAN 6

See HHB095.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB739, HHB095 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB740  
**Campus:** GP **Sem:** 2

#### ► HHB097 GERMAN 7

See HHB095.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, SC30, IF30, SS60

**Prerequisites:** HUB740, HHB096 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB741  
**Campus:** GP **Sem:** 1

#### ► HHB098 GERMAN 8

See HHB095.

**Courses:** BS56, ED50, ED51, HH01, HU20, HU22, IF36, IF39, IF70, SC30, IF30, IF43, IF70, IF81, IF82, IF30, IF86, SS60

**Prerequisites:** HUB741, HHB097 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** HUB742  
**Campus:** GP **Sem:** 2

#### ► HHB100 INTRODUCTION TO HUMAN SERVICES

This unit provides an introduction to human services and locates this within the broader context of the welfare state. It examines both the history, and global and national forces, that shape the current direction of welfare policy and the human service industry. The purpose of human service work and the various roles a human service worker may undertake or utilise are explored. The unit challenges students to reflect on their own understandings of human services and human service work, and provides a foundation for detailed study in later years of the course.

**Courses:** HH02, SS60, HH04  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB110  
**Campus:** CA **Sem:** 1

#### ► HHB101 THE WELFARE OF AUSTRALIANS

This unit provides a comprehensive demographic, political, social, economic, locational, indigenous and cultural portrait of Australia. It introduces concepts of power, class, authority, status, gender, race, location and culture and applies these to the Australian identity. The unit explores a number of topical social, economic and cultural issues. Students are encouraged to develop a critical analytical framework for the exploration of Australian society.

**Courses:** HH02 **Contact hours:** 3 per week  
**Credit points:** 12 **Campus:** CA

#### ► HHB102 THE HUMAN CONDITION

This unit introduces students to a range of individual, familial and social conditions that impact on the lives and lifestyles of Australians. Attention is directed toward the impact of factors such as age, ability, gender, culture and class, and the identification and exploration of key processes in human growth and development. Students become informed about theories from a range of

disciplines and develop a critical and reflective approach to understanding human development. By examining how societies define and respond to human need and adversity, students develop a framework for examining the dynamic interaction of individual, interpersonal and social forces.

**Courses:** HH02 **Contact hours:** 3 per week  
**Credit points:** 12 **Incompatible with:** HSB121  
**Campus:** CA **Sem:** 2

#### ► HHB103 CONTEMPORARY SOCIAL AND COMMUNITY ISSUES

This unit explores a number of contemporary social issues relating to social marginalisation and human disadvantage. It locates these issues in a theoretical and descriptive framework thus providing students with both knowledge and analytical skills that are necessary for the ongoing exploration of social issues. It explores the connection between forces at a macro level and human disadvantage and examines the value assumptions that sustain structural inequity. It encourages students to reflect on the implications of structural disadvantage for human service practice and the role of the human service worker as a participant in civil society.

**Courses:** HH02, HH04  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB122  
**Campus:** CA **Sem:** 2

#### ► HHB104 UNDERSTANDING SOCIETY: INTRO TO SOCIOLOGY

This unit introduces students to the way sociology approaches the understanding of the social world in general and Australian society in particular. The following important issues will be covered throughout the semester. Firstly, students will learn about the role and significance of sociology and sociological knowledge. The development of sociology and sociological knowledge will be outlined and students will learn about the major sociological themes and authors. Secondly, the importance and placement of sociology in the context of social science will be discussed. Thirdly, students will learn how to understand and utilize some of the central sociological concepts such as class/status, sex/gender, and race/ethnicity.

**Courses:** PU49, SS60, HH01, HU20, HU22, ED50, IF30, IF36, IF43, IF70, IF81, IF82, IF86  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HHB120  
**Campus:** CA, CB, GP **Sem:** 1, 2

#### ► HHB105 EXPLORING CHANGE

As one of the core introductory units for the Society and Change major, Interpreting Change introduces students to ways of understanding the intersection of personal experience with social change. The unit is organised around exercises that encourage students to place their personal experiences in the context of a bigger picture of societal, interpersonal and environmental change. The unit also introduces the conceptual, analytical, information retrieval, problem-solving and communication skills that form the basis of the Society and Change major. The three themes in the society and change major are Societies in Transition, Environment, Society and Change, and The Individual and Society.

**Courses:** HH01, HH03, HH04  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HUB146  
**Campus:** CA **Sem:** 2

#### ► HHB106 AUSTRALIAN SOCIETY AND CULTURE

This unit includes the following: historical, political, economic and cultural information about Australia and Australians; egalitarianism; religion; frontiers and rural Australia; the historical and future role of technology in Australia.

**Courses:** ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF30, IF81, IF82, IF86, SS60  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HUB600  
**Campus:** CA **Sem:** 1

#### ► HHB107 WORLD REGIONS

This unit includes an overview of world regional geography. It highlights key themes in both physical and human geography within specific regions, such as human-environment interactions,

resource management, natural hazards, population and culture, and economic development.

**Courses:** ED50, HH01, HU20, HU22, IF70, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB202

**Campus:** CA

**Sem:** 2

#### ► HHB108 AUSTRALIAN SOCIETY AND CULTURE FOR INTERNATIONAL STUDENTS

This unit provides students from overseas with experiences and knowledge that will enhance their understanding of contemporary Australian society. A number of social, cultural and political ideas, policies, and actions that have shaped the people of Australia will be studied.

**Courses:** All

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► HHB109 AUSTRALIAN HISTORICAL STUDIES

Public access to history is increasing, but what is told about the past in books, plays, films, encyclopaedia, documentaries, museums, galleries and national celebrations is contested, uncertain, and controversial. Who should tell history, what should be told and what should be left out are hotly debated. History is no longer dominated by celebratory, chronological narratives. Multidisciplinary approaches, alternative viewpoints and a wide range of media are now used to project private, family, community and national myths and stories. Current Australian historical studies, research and teaching reflect these uncertainties.

**Courses:** HH01

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► HHB110 INTRODUCTION TO INTERNATIONAL AND GLOBAL STUDIES

This unit introduces students to a range of important perspectives in understanding international and global social change. Students identify trends in globalisation from historical and theoretical frameworks, analyse regional trends and issues, and investigate the workings of significant international organisations and operations. In this unit, students develop research and communication skills in print and electronic media.

**Courses:** HH01, HU20, HU22, SS60, IF30, IF36, IF43, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB221

**Campus:** CA, CB

**Sem:** 1

#### ► HHB111 ISSUES IN INTERNATIONAL AND GLOBAL STUDIES

The forces of internationalisation and globalisation represent a significant shift in the way people work, live, and relate to each other in societies and cultures. To be 'globally literate' means to engage critically with the concepts and issues of contemporary social change. This unit provides students with opportunities to investigate and analyse these issues, their opportunities and their impacts and to develop skills in analysis, research and reporting, and online discussions.

**Courses:** HH01, HU20, HU22, SS60, IF30, IF36, IF43, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB222

**Campus:** CA

#### ► HHB112 AUSTRALIAN POLITICS

This unit considers the following: the political life of the Australian citizen; the democratic political traditions and institutional bases of Australian political life; the process by which political decisions are made at all levels of Australian politics.

**Courses:** HH01, HU20, HU22, IF36, ED50, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB694

**Campus:** CA

**Sem:** 2

#### ► HHB113 INTERPERSONAL COMMUNICATION

This unit introduces the skills and processes of interpersonal communication as modified by culture, gender and power. Microskills are developed including building rapport, reflective listening, questioning to understand, and facilitating and advocating for clients of human services. Interviewing skills and skills in group communication are highlighted. Collaborative models are emphasised and special application includes third party involvement in communication

**Courses:** HH02, SS60, HH03, HH04

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PYB052, HSB052

**Campus:** CA

**Sem:** 2

#### ► HHB114 INTRODUCTION TO HUMAN RIGHTS AND ETHICS

This unit locates human rights in a broad political, legal, social, cultural and economic context. The unit draws on a number of academic disciplines. It consistently connects academic considerations to contemporary international, regional and national human right events. Thus, students may examine human rights in particular countries, explore topics such as child soldiers and trafficking and investigate thematic issues concerning the human rights of women, children and indigenous peoples. Extensive use is made of the Internet and media. Assessment options allow students to present work in a variety of forms.

**Courses:** HH01, HH02, HH03, HH04

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB002

**Campus:** Carseldine, Caboolture and GPSem: 1, 2

#### ► HHB115 HUMAN IDENTITY AND CHANGE

This unit includes the following: what it means to be human; ways human identities (for example cultural, sexual, professional) are created and transformed; issues of identity, morality and change confronting human units in their encounters with the demands of contemporary life.

**Courses:** HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB601

**Campus:** CA

**Sem:** 2

#### ► HHB116 APPLIED SKILLS AND SCHOLARSHIP

This unit aims to introduce students to key aspects of important generic attributes which QUT graduates are expected to acquire across the period of their studies. The unit covers a range of topics relating to information literacy, academic literacy, and technological literacy. These topics are addressed in a practical way so that students will easily be able to apply the skills learned across other units in their course. Students have the opportunity to develop their skills through a series of activities such as self-paced online exercises and quizzes, and through individual electronic access to a tutor. A variety of assessment items are spread across the semester.

**Courses:** HH01, HH02, HH03, HH04, HU22, IF43, IF30, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB000

**Campus:** CA, CB

**Sem:** 1, 2

#### ► HHB117 INTRODUCTION TO SOCIAL RESEARCH METHODS

Part of human service work involves the capacity to analyse, critique, and understand the logic and relationship to practice of research findings. The emphasis of the unit is on becoming a good consumer of research through the adoption of a critical approach to the reading and utilisation of research. This unit is designed to develop basic research skills and to prepare students for post-graduate research. Social scientific knowledge, its uses and ethical implications in the human service context, research designs and methodologies, and data collection are discussed.

**Courses:** HH02, HH01, HU22, SS60, IF43, IF70, IF81, IF82, IF86, IF30

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB222

**Campus:** CA

#### ► HHB120 ETHICS, LAW AND HEALTH CARE

Nursing practice involves making decisions with and for others. This involves making evaluations of what is in the best interest of others, what are nurses' obligations to others and what will best protect or enhance their well-being. Hence, decision-making in nursing practice is bounded by normative considerations and these normative considerations fall into two groups: those constituted by the law, and those constituted by ethics. This unit has been designed to provide, for nursing students and practitioners, an opportunity to develop a reflective understanding of the place of law and ethics in nursing and a professional awareness of current legal statutes and ethical discussions as they apply to nursing practice.

**Courses:** NS40, NS48, HH01, HH03

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB009

**Campus:** KG

**Sem:** 2

#### ► HHB121 INTERPRETING THE PAST

This unit examines how the history discipline deals with the past, including questions of evidence and interpretation. It investigates, from a critical perspective, the status and value of historical knowledge, its construction, dissemination and meaning.

**Courses:** ED50, HH01, HU20, HU22, HU21, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB649

**Campus:** CA

**Sem:** 1

#### ► HHB122 COLONIALISM AND INDEPENDENCE IN ASIA PACIFIC

This unit includes a general introduction to the history and geography of the Asia-Pacific region with a focus on the impacts of western imperialism, nationalism and economic modernisation. The unit also considers issues of population, the environment and urbanisation.

**Courses:** ED50, ED51, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB610

**Campus:** CA

**Sem:** 2

#### ► HHB123 INDIGENOUS AUSTRALIAN CULTURE STUDIES

This unit encourages an appreciation of the two distinct indigenous cultures of Australia and how external forces to Aboriginal and Torres Strait Islander cultures caused social, economic and political changes. It looks at traditional family life and organisation.

**Courses:** HH01, HH04

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB700, HHB227

**Campus:** CA

**Sem:** 1

#### ► HHB127 ENVIRONMENT AND SOCIETY

This unit includes a geographical systems approach to investigations of the natural and social environments, and human-environmental interactions. The emphasis is on explaining spatial patterns and variability in social and natural landscapes through the understanding of physical, social and cultural processes and systems at regional and local spatial scales. Through practical sessions, the acquisition of basic geographical field and mapping skill is fostered.

**Courses:** HH01, HH04, IF70, IF81, IF82

**Credit points:** 12

**Incompatible with:** HUB201, HHB227

**Campus:** CA

**Sem:** 1

#### ► HHB130 INTRODUCTION TO SUSTAINABILITY: IDENTIFYING THEORY AND PRACTICE

This unit provides an analysis of the theories and principles of sustainability and introduces students to problem-solving, transdisciplinary perspectives that engage with sustainability and its associated issues. Observational visits to workplaces occur in this unit.

**Courses:** IX15

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

**► HHB131 INTRO TO SUSTAINABILITY: IDENTIFYING INDICATORS AND TOOLS**

This unit introduces students to the issues associated with measuring sustainability and to various tools designed to assist such measurement. The unit also enables students to develop team work skills within problem-solving transdisciplinary contexts. Observational visits to workplaces occur in this unit.

**Courses:** IX15 **Credit points:** 12  
**Campus:** CA

**► HHB200 WORKING IN HUMAN SERVICE ORGANISATIONS**

This unit includes the following: service quality and the organisational dimension; industrialisation and development of human service work organisations; power based and empowering organisational paradigms; organisational cultures and gender; personal skills for human service workers including career, time and stress management; interpersonal skills for working collaboratively and resolving disagreement.

**Courses:** HH02, HH07  
**Prerequisites:** HSB110, HSB120  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB211  
**Campus:** CA **Sem:** 2

**► HHB201 INITIAL PROFESSIONAL PRACTICE**

Only enrolled Bachelor of Social Science (Human Services) students can undertake this unit. It provides students with an orientation to the human services industry and the organisational context of practice. A broad range of practice methods and approaches is introduced. Students undertake 200 hours of professional training consisting of an on-the-job, vocationally based experience supervised by an experienced practitioner. Attendance at seven university seminars is also required. The student and their agency supervisor devise an individual learning plan and work performance is assessed on six core competencies. Students assess their own suitability for the different types of human services practice.

**Courses:** HH02, HH07  
**Credit points:** 24 **Incompatible with:** HSB201  
**Campus:** CA **Sem:** 1

**► HHB203 AGED SERVICES: INTRODUCTION**

This unit focuses specifically on human service work with older adults. It introduces the developmental, social and cultural environment which impact on ageing, including aspects of intelligence, memory and learning and perspectives of work and retirement. In addition, the home environment and living with change, relations with family members and dealing with loss and grief are discussed.

**Courses:** HH02, HH07, SS60  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB213  
**Campus:** CA **Sem:** 1

**► HHB204 CHILD AND FAMILY SERVICES: INTRODUCTION**

This unit introduces students to child and family welfare studies and focuses on approaches to supporting families and promoting change. Students gain an overview of issues facing contemporary families that contribute to adversity and examine responses to the welfare needs of children and families, including indigenous families. Students examine characterisations of successful family relationships and causes and effects of domestic violence and child maltreatment. Principles and practices for working with families are discussed with an emphasis on rationales for and strategies associated with family-centred and empowering approaches. Dilemmas associated with working with children and families facing adversity are examined.

**Courses:** HH02, HS07, SS60  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB214  
**Campus:** CA **Sem:** 1

**► HHB205 CORRECTIVE SERVICES: INTRODUCTION**

This unit introduces students to the development and function of corrective services within the

Australian criminal justice system. Examining the history and changing role and functions of prisons, and the emergence of community corrections, the unit assists students in understanding social and philosophical underpinnings about the purpose and function of prisons and community corrections. The unit also examines theories of deviance, and types of offenders.

**Courses:** HH02, HS07, SS60  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB215  
**Campus:** CA **Sem:** 1

**► HHB206 DISABILITY SERVICES: INTRODUCTION**

This unit links social justice, human rights and empowerment philosophies underpinning courses in the School. It examines the implications of these broad principles in the lives of people with disabilities. The unit explores the theoretical, social and political frameworks for analysing and understanding disability, the principles underpinning current service provision, and their impact on the lives of people with disabilities. Also explored are the cultural values and assumptions about disability, and the processes by which these values are translated into human service activity. The unit examines individual program planning and skill development practices.

**Courses:** HH02, HS07, SS60  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB216  
**Campus:** CA **Sem:** 1

**► HHB207 SERVICES TO YOUNG PEOPLE: INTRODUCTION**

This unit provides an introduction to human services practice with young people. It gives students an overview from both theoretical and operational perspectives. The various theoretical and popular understandings about 'youth' or 'adolescence' which condition human services provision to young people will be critically explored. Diversity and marginalisation among young people in relation to socio-economic status, gender, race and ethnicity, disability, sexual identity, and geographic location are examined. The unit briefly overviews contemporary policies, services, and practice frameworks oriented to young people.

**Courses:** HH02, HS07, SS60  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB217 **Campus:** CA

**► HHB210 INDIGENOUS AUSTRALIA: COUNTRY, KIN AND CULTURE**

This unit aims to expand understanding of issues of importance to Indigenous people and to relate those issues to the practices in human service agencies. The Oodgeroo staff and leaders from the Indigenous community will work with staff from the School of Human Services in presenting this unit.

**Courses:** HH01, HH02, HH03, HH04  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB233  
**Campus:** CA **Sem:** 1, 2

**► HHB211 CASEWORK AND CASE MANAGEMENT**

Casework and case management are the predominant human services practice methods and involve a range of processes and skills to ensure that service outcomes are effective and efficient. This unit compares and contrasts casework and case management strategies and approaches across a variety of practice contexts and scenarios. Students explore and analyse primary skills, tasks, and roles including assessment, referral, brokering, review, advocacy, record keeping and workload management. Key learning strategies include problem based learning and the review, design and modification of a case management system for a particular practice context. Assessment is a scenario based exam and project paper.

**Courses:** HH02, HS07  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB230  
**Campus:** CA **Sem:** 2

**► HHB212 COMMUNITY WORK**

Community work as a distinct intervention skill is defined. The unit provides background to community work in Australia. Models of com-

munity work are introduced and analysed. Basic skills and techniques are developed: entering a community; building community involvement; developing community action; managing common problems.

**Courses:** HH02, HS07  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB320  
**Campus:** CA **Sem:** 1

**► HHB213 SOCIAL POLICY PROCESSES**

This unit includes the following: conceptualising economic, structural change in Australia; understanding emergent ideas about state and society; identifying and contrasting alternative social policies and strategies. The major debates in Social Policy are explored and analysed at a federal, state and local government level: Australia's response and the impact on redistribution of the Welfare State; health; housing; income security; immigration; family policies

**Courses:** HH02, HS07  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB321  
**Campus:** CA **Sem:** 2

**► HHB214 TEAM PRACTICE AND GROUP PROCESSES**

A significant methodology used in human service work involves facilitating, supporting or consulting with various groups of people. This unit focuses on the development of skills to utilise this type of intervention appropriately. The unit aims to provide a basic understanding of the various uses to which group processes may be applied. Group work is located as an intervention process within the human service arena as distinguished from other processes at individual, community and societal level.

**Courses:** HH02, HS07, HH04, HH01  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB232  
**Campus:** CA, CB **Sem:** 2

**► HHB215 CRISIS AND CONFLICT RESOLUTION**

This unit identifies the physiological, psychological and social impacts of human crises and interpersonal conflict. It further aims to provide students with an understanding of such crises on individuals, social units and communities, and to prepare students for professional roles involving responses to crises services. It assists students to develop specific intervention skills for professional practice in a variety of settings requiring crisis intervention, family mediation, dispute resolution, grievance hearings, and critical incident debriefing skills.

**Courses:** HH02, HS07, HH04  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB234  
**Campus:** CA **Sem:** 1

**► HHB216 THE HUMAN DIMENSIONS OF SPACE**

This unit is a component of the Community Studies major and covers the role of space in contemporary societies: key types of spaces and patterns in their usage; spaces as sites for cultural and symbolic expression; understanding the way inequality can and is reproduced through the configuration and management of space; understanding the way particular public spaces are used and experienced by particular sections of the community eg young people; key issues in public space configuration, management and policy eg enhancing social inclusion, safety and security; links between the economic and social, new urbanism; emerging theory and ideas about good practice in the development or reconfiguration of public and community accessed public spaces.

**Courses:** HH01  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSB235  
**Campus:** CA **Sem:** 2

**► HHB217 CONFLICT MANAGEMENT SKILLS FOR PROFESSIONALS**

This unit presents the psychological, relational and social impacts of interpersonal and organisational conflict. It examines relevant theoretical discourses and practice frameworks in order to enhance the student's capacity to manage and

resolve conflict. The unit explores the nature and sources of conflict. It also presents a range of conflict management and resolution techniques, including negotiation and mediation approaches. Experiential and action learning exercises are used in order to allow students to trial alternative interventions and practice new skills. The unit is built around an integrated and self-reflective framework.

**Courses:** HH01, HH03, HH04

**Contact hours:** 37.5

**Credit points:** 12

**Campus:** CA

#### ► HHB220 INTERVENTION THEORIES AND METHODS

Sound human services practice involves the assessment of complex social and client issues and the application of relevant theories and practice frameworks to implement effective change strategies and processes. In this unit, students apply and integrate theory with practice realities and dilemmas. Problem based learning is a major feature along with exploration and analysis of relevant theoretical perspectives and models. Students are assisted toward the development of their initial framework for human services practice. The influences of ideologies, values, ethics, cultural diversity and practice contexts upon service delivery options are explored.

**Courses:** HH02, HS07

**Contact hours:** 4 per week

**Credit points:** 12

**Incompatible with:** HSB218

**Campus:** CA

**Sem:** 1

#### ► HHB221 INTERVENTION PROCESSES AND ETHICS

This unit focuses on knowledge and skills for human services practice. Its particular focus is enabling students to apply core human services processes (such as engagement, assessment, intervention, case management, closure), and to develop skills in considering the ethical and cultural dimensions of human service practice. Critical examination of these will further assist students in the ongoing development of their own practice framework especially in respect to the dynamic interplay between personal and professional influences. The unit plays an important role in preparing students to undertake their Professional Practice Placement in third year.

**Courses:** HH02, HS07

**Prerequisites:** HSB218

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HSB228

**Campus:** CA

**Sem:** 2

#### ► HHB222 HUMAN SERVICE PRACTICE: LEGAL DIMENSION

This unit focuses on the connection between the law, judicial and legal systems, and human service practice. It provides a detailed description of the legal, criminal and judicial systems and processes in Australia and Queensland. It includes a critical analysis of the relationship between the law and justice exploring the notion of law as a social construct reflecting differentials in power. Throughout, an emphasis is placed on those aspects of law and legal processes that have particular application for human services and human service practice.

**Courses:** HH02, HS07

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HSB 229

**Campus:** CA

**Sem:** 2

#### ► HHB223 ISLAM AND ISLAMIC SOCIETIES

This unit provides a valuable learning opportunity for students to explore the origin and development of Islam. It examines the influence of Islam on areas of life including social, economic, political and human values. This unit employs a wide range of learning tools to construct a comprehensive and critical understanding of Islam.

**Courses:** HH01, HH03, HH04

**Contact hours:** 36

**Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► HHB224 QUALITATIVE RESEARCH METHODS

This unit introduces students to the logic/s, techniques and contributions of qualitative methods. First, it focuses on the processes and logics involved in qualitative research, paying particular

attention to theory construction, the inductive method and issues of reliability and validity. The unit looks at these processes with respect to the contribution and logic of the qualitative case study. Students then acquire both conceptual and hands on skills in the application of a number of qualitative research techniques. These include ethnography and observational methods, accessing documents through Internet search techniques and the analysis of spoken interaction through conversation analysis.

**Courses:** HH01, PY07, SS60, HU20, HU22,

IF30, IF36, IF43, IF70, IF81, IF82, IF86, ED50

**Prerequisites:** SSB969 or HUB133

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB140

**Campus:** CA

**Sem:** 2

#### ► HHB225 POLITICAL SOCIOLOGY

This unit examines a variety of sociological themes which might broadly be termed political. Central to the unit is an examination of sociological conceptions of power. Typically, sociologists have examined power in connection with the state; power has frequently been regarded as flowing from the state. The unit examines these debates, and considers recent theorisations which have begun to detach power from the state. Case studies to make these distinctions clearer, including the construction of an Australian administrative elite, the notion of police in seventeenth and eighteenth century Europe, and the compulsory education as the sphere of the reproduction of social relationships.

**Courses:** HH01, HH03, HH04, HU22, SS60,

HU20, IF30, IF36, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB134

**Campus:** CA

**Sem:** 2

#### ► HHB226 CONSUMING CULTURES

Consumption is usually understood in economic terms as the 'flip-side' to production. However, the act of consuming can also be considered as a practice which has particular cultural/social connotations. Additionally, although the social relations of consumption and the way in which consuming practices are read culturally are often understood in local or community terms, much contemporary debate centres on the implications of globalisation in the (re)formulation of cultures and cultural values. Questions arise. For example, do globalisation and its associated mass production of goods and services imply increasingly homogenised consumer cultures or are there other processes at work that act to challenge or unsettle such homogenising tendencies?

**Courses:** HH01, HU22, SS60, IF43, IF30, IF70,

IF81, IF82, IF86

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** CA

#### ► HHB228 ENVIRONMENTAL HAZARDS

This unit includes the following: the nature of hazard, risk and disaster; origins of hazards; nature of disaster; influences on the perception of risk; disaster prediction, preparation, response and recovery strategies.

**Courses:** ED50, HH01, HU20, HU22, IF70,

IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86,

IF30, SS60

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB207

**Campus:** CA

**Sem:** 2

#### ► HHB229 WINDOWS ON JAPAN

The focus of this unit is contemporary Japan and Japanese people. Topics include the following: a geographical overview of Japan, its natural resources and population; contemporary political, social and environmental change; Japan's role in the Asia Pacific region.

**Courses:** ED50, HH01, HU20, HU22, IF36,

IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30,

SS60

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB220

**Campus:** CA

#### ► HHB230 POLITICAL BEHAVIOUR

Topics covered in this unit include political socialisation and party identification, political culture and ideology, old and new political values, support for minor political parties, political campaigns and political issues, party leaders and

local candidates, connections between elite and mass political behaviour and participation.

**Courses:** SS60, HH01, HU22, HU20, IF30,

IF36, IF43, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB126

**Campus:** CA

#### ► HHB231 HEALTH, SOCIETY AND ENVIRONMENT

This unit provides sociological analysis of the health care models and institutions, healing relationships (between patients, nurses and doctors), theories of disease causation, and relationships in illness situations and illness behaviours. It also covers sociology of the body including exploration of the experience of illness and professional practice from the patient's perspectives, the influence of gender, age, ethnicity, social class and disability in their experience, and the importance of a social and cultural approach to environmental health issues.

**Courses:** SS07, HH01, HU20, HU22, SS60,

NS40, NS48, IF30, IF36, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB127

**Campus:** CA

**Sem:** 1

#### ► HHB232 SURVEY METHODS

This unit introduces students to the principles and procedures of survey research using a practical, applied approach and stressing the uses of survey research for investigating a range of different social problems and social science questions. It covers the fundamentals of designing and conducting surveys and then introduces students to the basics of how to analyse survey data once they have been collected. No prior knowledge of or experience with survey research or statistics is assumed.

**Courses:** SS07, SS60, HH01, HU20, HU22,

IF30, IF36, IF43, IF70, IF81, IF82, IF86

**Prerequisites:** HUB120, HHB104 or SSB000

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB130

**Campus:** CA

**Sem:** 1

#### ► HHB233 SEX, GENDER AND SOCIETY

this unit focuses on the history of feminist thought and contemporary perspectives with reference to issues of sociological inquiry. It examines the significance of perspectives from critical theory, structuralism, post-structuralism and action approaches in the development of feminist theory. The implications of feminist perspectives for research strategies are considered with reference to feminist philosophers of science and metatheorists such as Sandra Harding and Dorothy Smith.

**Courses:** SS07, SS60, HH01, HU22, HU20,

IF30, IF36, IF43, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB131

**Campus:** CA

#### ► HHB234 SOCIOLOGICAL THEORY

This unit examines the relationship between sociological theories and sociological analysis. It covers a range of theoretical approaches and looks at their application in specific case studies. Students are encouraged to see the social world as an explorable milieu which can be approached from a variety of research strategies. The topics are explored in relation to theories of classical sociological authors such as Karl Marx, Georg Simmel, Max Weber and Emile Durkham, as well as many contemporary authors.

**Courses:** SS07, HH01, HU20, HU22, SS60,

IF30, IF36, IF43, IF70, IF81, IF82, IF86

**Prerequisites:** HUB120 or HHB104

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** HUB133

**Campus:** CA

**Sem:** 1

#### ► HHB236 VIRGINS, SAINTS AND SINNERS: SOCIOLOGY OF RELIGION

This unit explores the role that religions and various forms of spirituality play in contemporary social processes. It discusses how religious movements are gaining instead of losing social significance (eg religious fundamentalisms) and explains why and how they are diversifying. Students are given insights into a variety of themes, including new religious movements, civil

religion, sex and Christianity, the ideas of sin, apocalypse, and many more. Religious phenomena are explored in a manner sensitive to believers but also in a critical, relativist and value-neutral fashion.

**Courses:** HH01, HU20, HU22, SS60, IF36, IF43, IF70, IF30, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB145

**Campus:** CA

**Sem:**

#### ► HHB237 BRISBANE IN THE TWENTIETH CENTURY

A study of local history often serves to highlight, in a more immediate way, trends which are apparent at the national and international level. This unit focuses on key turning points in the history of Brisbane. It examines sources for and approaches to the study of the history of Brisbane and district and then applies these ideas to selected case studies.

**Courses:** HH01, HH03

**Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► HHB238 ASIAN CULTURES AND SOCIETIES

This is an introductory survey of Asian societies and cultures. It presents the diverse array of cultures, languages and peoples that comprise the many identities of the Asia Pacific region. It aims to introduce students to the environment, the cultures, and the societies of the Asia Pacific at the current time. Focus is placed on the nature of economic and political development in the region and the costs and benefits of that experience.

**Courses:** HH01, IF43, IF70, IF30, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB331 **Campus:** CA

#### ► HHB239 KOREAN CULTURE AND SOCIETIES

Korea has important trading, historical and cultural links with Australia. In this introductory unit on Korea, students examine the histories, culture and societies of South and North Korea, with foundations in pre-modern history and the philosophies of shamanism, Taoism, Buddhism and Confucianism. The unit examines the experiences in Korea of colonialism, communism and modernisation. Students critically evaluate contemporary politics, society and social relations in Korea, the impacts of globalisation and Korea's place in regional and world affairs.

**Courses:** HH01, HU20, HU22, SS60, IF36, IF43, IF70, IF81, IF82, IF86, IF30

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB332 **Campus:** CA

#### ► HHB240 SOCIOLOGY OF CRIME AND DEVIANCE

Crime, justice and deviance are central features of our social and political lives. A sociological approach to the study of crime and deviance takes it for granted that social values, processes and institutions shape the form and the content of crime and deviance. In this unit, students learn about the causes and forms of crime and deviance, and the unit gives students some of the theoretical and methodological skills necessary to collect, interpret and evaluate information about crime and deviance. While this unit is offered as an elective in the sociology major, it deals with one of the core concerns in sociology. It is extremely useful for students for a variety of career options (policing, corrections, social policy, private security, etc).

**Courses:** HU20, HU22, HH01, SS60, HH03, IF43, IF36, IF30, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB150

**Campus:** CA

**Sem:** 2

#### ► HHB241 GENDER AND GLOBALISATION

This unit challenges existing notions of development. It evaluates current models of development and aid in terms of their implications for women. It suggests that real development for women and their dependents requires a woman-centred approach, one that acknowledges the needs and desires of the women involved utilising the existing skills and networks of women themselves.

**Courses:** HH01, HH03

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► HHB242 PACIFIC CULTURE CONTACT

This unit includes key concepts including mobility, religion, morality, leadership, civilisations, society, change and continuity. It develops an appreciation of culture and sensitivity towards cultural heritage and considers case studies and comparative analyses that focus on the people of the Pacific at the time of initial European contact.

**Courses:** HH01, HH03, ED50, IF36, IF43, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:**

#### ► HHB243 THE PACIFIC SINCE 1945

This unit examines national identity and nationhood in the context of contemporary events in the Pacific Islands, including indigenous and external attempts to create a regional identity. The major themes are cultural transformation, the invention of tradition, neo-colonialism, sovereignty and independence. Through an overview of the events that are important in the lives of Pacific Island people, the unit presents key concepts including mobility, adaptation, change, tradition, continuity, conflict and independence.

**Courses:** HH01, HH03

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► HHB244 SOUTHEAST ASIA IN FOCUS

Australia's interaction with South-East Asia, including our most populous nearest neighbour, Indonesia, has increased dramatically over the last fifty years. This unit examines aspects of South-East Asian geography, environment, society and culture in a contemporary framework.

**Courses:** HH01, HH03

**Contact hours:** 3 per week

**Campus:** CA

**Sem:** 1

#### ► HHB245 AUSTRALIA AND THE SOUTH PACIFIC

This unit includes a critical analysis of the history of Australian bilateral and multilateral links with the Pacific islands region, including Pacific frontier theory, sub-imperialism, colonial rule and contemporary dialogue over aid, trade, regionalism, defence, cultural exchange and migration.

**Courses:** HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF86, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB627 **Campus:** CA

#### ► HHB246 MODERN CHINA

This unit includes an historical survey of China during the nineteenth and twentieth centuries. The primary focus is on the decline of the traditional Chinese state and the impact of foreign imperialism. Stress is placed on the growth of nationalism and the Chinese revolution. The modernisation of Chinese culture, the position of women and the forces that have brought China to resume its place as the major Asian force are studied.

**Courses:** HH01, HH03

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► HHB248 THE USA AND THE ASIA PACIFIC REGION

Despite claims that it was not a colonial/imperial power, the USA had extensive territories - Hawaii, Philippines, Samoa, Micronesia - and historically was active in China, Vietnam, Korea, Taiwan and was the occupation force in post-war Japan. This unit addresses questions from a global, regional and historical perspective. How did the USA acquire this interest in the Asia-Pacific? How was it administered and why did the USA withdraw? How did Asia-Pacific peoples react to USA control? What role did Asia play in the USA's concept of their Manifest Destiny, the Open Door policy, the Nixon Doctrine and the Cold War? How is the USA situated now in Asia-Pacific?

**Courses:** HH01, HU22, SS60, IF30, IF43, IF70, IF81, IF82, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► HHB249 SOCIAL MOVEMENTS IN AUSTRALIA

This unit looks at the new social movements in Australia since the 1960s: the green movement; the women's movement; the peace movement; indigenous and Third World development movements; comparison with overseas and old social movements.

**Courses:** ED50, HH01, HU20, HU22, SS13, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF70, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB682

**Campus:** CA

#### ► HHB250 AUSTRALIAN

#### GEOGRAPHICAL STUDIES

The unit systematically describes and explains the geography of Australia by analysing the distinctive spatial patterns and processes that constitute the Australian landscape. Topics include the state of the environment, land-use patterns, the rural crisis, settlements and cities, population and societal change, and economic/regional development. Emphasis is on contemporary, issue-based themes.

**Courses:** ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB683

**Campus:** CA

**Sem:** 1

#### ► HHB251 AUSTRALIAN RESOURCE MANAGEMENT

This unit describes the principles of ecologically sustainable development and environmental resource management and outlines their practical applications to environmental planning, development and conservation issues in Australia. Institutional, political, social, economic and technological processes affecting environmental resource management are critically discussed with examples drawn from contemporary Australian experiences.

**Courses:** ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB685

**Campus:** CA

#### ► HHB253 CONSPIRACY AND DISSENT IN AUSTRALIAN HISTORY

Case studies reflect conspiracies as well as protest movements in nineteenth and twentieth century Australia. This unit considers some including nineteenth century land grab conspiracies, Aboriginal resistance, the Petrov affair, the 1975 dismissal, and the Hilton bombing.

**Courses:** ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB692

**Campus:** CA

**Sem:** 2

#### ► HHB255 INDIGENOUS POLITICS AND POLITICAL CULTURE

This unit examines issues and influences underlying the world of indigenous politics: political representation; land rights; health; education; community development; criminal justice; culture and heritage. The course has an Australian focus with New Zealand and North American comparisons.

**Courses:** ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB703

**Campus:** CA

**Sem:** 2

#### ► HHB256 EUROPE SINCE 1945

This unit uses historical and literary perspectives to highlight major themes in the development of European society and culture since 1945.

**Courses:** ED50, HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB720

**Campus:** CA

**► HHB257 THE CLASSICAL WORLD**

This unit considers the emergence and development of European society from earliest times to 500 AD; it examines the major political, social and economic trends in classical Greek and Roman society.

**Courses:** HH01, HH03, ED50, IF70, IF81, IF82, IF43, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA **Sem:** 2

**► HHB258 FOUNDATIONS OF MODERN EUROPE**

This unit studies the formation of modern Europe from the late Middle Ages to the end of the eighteenth century, the emergence of secularism and the rise of the nation states.

**Courses:** HH01, HH03

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA **Sem:** 2

**► HHB259 WAR AND REVOLUTION IN EUROPE 1914-1945**

This unit examines political, social, economic and intellectual developments in Europe from 1914-1945.

**Courses:** HH01, HU22, HU20, IF30, IF43, IF70, IF81, IF82, IF86, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB723 **Campus:** CA

**► HHB260 NATIONS AND NATIONALISM IN MODERN EUROPE**

This unit selectively examines political, social, economic and intellectual developments in modern Europe from the French Revolution to the era before the Great War of 1914-18.

**Courses:** HH01, HU22, HU20, IF43, IF30, IF70, IF81, IF82, IF86, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB743 **Campus:** CA

**► HHB261 MEDIEVAL EUROPE**

The Middle Ages constitute a crucial period in the formation of a European identity. The breakdown of the Roman world saw the gradual emergence of a Christian civilisation of striking originality. At the same time, the period gave rise to political fragmentation, as well as to the national characteristics and antagonisms which are still part of the European scene today. This unit considers this period and its influences

**Courses:** HH01, HH03, ED50, IF70

**Credit points:** 12

**Campus:** CA

**Sem:** 1

**► HHB262 POLITICAL IDEOLOGIES**

This unit introduces the political spectrum of the traditional Left-Right-Centre ideologies including Fascism, Conservatism, Liberalism, Socialism, Communism, Anarchism. Cross-spectrum ideologies such as Feminism, Imperialism, Racism, and Environmentalism are included as well. The course concludes with reference to post-modernist politics and its implications for the traditional ideological spectrum.

**Courses:** HH01, HU20, HU22, IF36, ED50, IF30, IF70, IF43, IF81, IF82, IF86, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB772 **Sem:** 2

**► HHB263 POLITICS OF GLOBALISATION**

This unit includes the following: political economy of production; form of economic calculation and theories of value, profit and interest; ownership and control of production in market and non-market situations.

**Courses:** HH01, HU20, HU22, IF36, ED50, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB802 **Sem:** 1

**► HHB264 PUBLIC AND PROFESSIONAL ETHICS**

This unit discusses the following: the ethical dimensions of public and professional life; the ethical rights and responsibilities of the individual citizen and the state within a liberal democracy; the ethical responsibilities of institutional and professional agencies and the roles and ethical responsibilities of individual citizens in such agencies.

**Courses:** HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB751

**Campus:** CA

**Sem:** 1

**► HHB265 THE JUST SOCIETY**

This unit explores how the notions of justice and concepts such as equity in various ethical and political traditions are applied to recent policy debates about affirmative action, the criminal justice system, political practice, health and the environment.

**Courses:** HH01, HU20, HU22, IF36, IF43, IF70, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB752

**Campus:** CA

**Sem:** 1

**► HHB266 ETHICAL DECISION MAKING**

This unit examines the ways in which various decision-making practices can be normally grounded, the practical value of such procedures for human transformation and emancipation, and the ways in which decision-making practices either sustain or subvert moral communities.

**Courses:** HH01, HU20, HU22, IF36, IF39, IF43, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB753

**Campus:** CA

**Sem:** 2

**► HHB267 FEMINISM AND ETHICS**

This unit discusses the impact of the feminist movement on ethical and political theory. What does it mean to say the differences between men and women are natural or socially cultivated? What are the normative implications of these differences? What counts as equality between the sexes? Do women think differently about ethical situations from men?

**Courses:** HH01, HU20, HU22, IF36, IF43, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB754

**Campus:** CA

**Sem:** 1

**► HHB268 VULNERABLE IDENTITIES**

This unit considers vulnerability and the experiences of persons who are vulnerable because of exploitation, abandonment, confusion or suffering and other unethical practices. It looks at ways of relating with the vulnerable and allows students to develop a richer appreciation of others as well as themselves.

**Courses:** HH01, HU20, HU22, IF36, IF43, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB755

**Campus:** CA

**► HHB269 ETHICS, TECHNOLOGY AND THE ENVIRONMENT**

This unit examines how decisions about new technologies and the environment are based not solely on factual evidence but also on ethical judgements. It considers the ethical aspects of various issues: genetic engineering; free-riding problems with 'caring for' the environment; human obligations toward non-human animals; whether wilderness areas have value independent of their value to humans; and whether a proper concern for the environment requires a new 'environment or ecological ethic'.

**Courses:** HH01, HU20, HU22, IF36, IF43, IF81, IF82, IF83, IF84, IF86, IF30, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB757

**Campus:** CA

**Sem:** 2

**► HHB270 GENE TECHNOLOGY AND ETHICS**

Gene technology is poised to revolutionise science, technology, the practice of medicine, and the global economy. Social and public policies must keep up with the science and with public sentiments. Ethical inquiry must identify acceptable rules of public conduct. Processes are called for to balance the vastly divergent perspectives and interests. The introductory unit mirrors the interdisciplinary nature of gene technology and is open to students from all faculties. The unit discusses the nature of ethics and gene technology. It presents select topics of relevance to medical

genetics, the environment and the biotechnology industry. Finally, it discusses Federal and State Government policy and strategy.

**Courses:** All

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB831

**Campus:** CA

**Sem:** 1

**► HHB271 ETHICAL THEORY**

In this unit students are exposed to some of the most common approaches to ethical theorising, including deontology, utilitarianism, egoism and virtue theory. These theories are introduced via both historical and contemporary proponents. Students are also made aware of how these broad categories are related to a range of standard theories about political theorising, such as contractarian liberalism or the utilitarianism, implicit in much welfare state theorising or economic theorising about justice. Furthermore, students will be familiarised with some of the standard positions regarding the question of objectivity in ethics, versus moral or cultural relativism about ethical questions.

**Courses:** HH01, HH03, IF70, IF81, IF82, IF30, IF43

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA **Sem:** 2

**► HHB272 COMPOSING IDENTITIES: THE ARTISTRY OF LIVING**

This unit provides an opportunity to examine the practices of accounting for and constituting who we are - our identities. It examines the inseparability between composing our lives and living our lives, between artistry and identity, and considers the significance of this fusion for our own well being and that of others. The artistry of living is a practical endeavour which is often practiced through writing, especially autobiographical or 'self-life-writing'. The unit, therefore, considers the relationship between autobiography and identity and the different forms of living that emerge from these practices.

**Courses:** HH01, HH03, IF70, IF81, IF82, IF30, IF43, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA **Sem:** 1

**► HHB273 RESHAPING LIFE AND DEATH**

The unit covers the following areas: new technologies of birthing including the medicalisation of birth, pre-natal screening, and artificial reproductive technologies; the human genome project, emerging possibilities, health and social implications; the technologies of life support, the definition of death, issues of organ cultivation; cultural and ideological features of the new 'life' technologies.

**Courses:** HH01, HH03, IF70, IF81, IF82, IF30, IF43, IF86

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA **Sem:** 1

**► HHB274 HUMAN RIGHTS: INTERNATIONAL AND REGIONAL ACTIVISM**

This unit encourages students to consider the transformative nature of human rights activism at the international and regional level. It examines the international human rights system giving particular attention to the social, political, gender and cultural dimensions of the development of international and regional human rights norms. It critically reviews the effectiveness of the international and regional human rights system in the protection, promotion and realization of civil, political, economic, social, cultural and developmental rights. Academic deliberations are located in a number of concrete human rights issues and situations.

**Courses:** HH01

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB003 **Campus:** CA

**► HHB275 HUMAN RIGHTS: AUSTRALIAN ACTIVISM**

This unit encourages students to consider the transformative nature of human rights activism within the Australian domestic context. It examines the relationship between the international human rights system and the domestic human rights regime. The unit gives particular attention to the social construction of rights and examines

Australian human rights from political, economic, gender, power, cultural and indigenous perspectives. It critically reviews the effectiveness of the domestic human rights system in the protection, promotion and realization of civil, political, economic, social, cultural and developmental rights.

**Courses:** HH01

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB005 **Sem:** 1

**► HHB280 GOVERNMENTAL, COMMUNITY AND CORPORATE SUSTAINABILITY**

This is the mandatory integrating unit in the first semester of the second year of the Bachelor of Sustainability course. The unit focuses on sustainability issues and practices in the governmental, corporate and community sectors. Students continue their engagement with team work activities, transdisciplinary perspectives and undertake a sustainability audit.

**Courses:** IX15 **Contact hours:** 3 per week

**Credit points:** 12 **Campus:** CA

**► HHB281 SUSTAINABILITY IN SOUTH EAST QUEENSLAND**

This is the mandatory integrating unit in the second semester of the second year of the Bachelor of Sustainability course. The unit focuses on sustainability issues and practices in the context of South East Queensland. Students engage in industry-based seminars and work-based project development and continue to develop transdisciplinary perspectives of sustainability.

**Courses:** IX15 **Contact hours:** 3 per week

**Credit points:** 12 **Campus:** CA

**► HHB300 CURRENT DEVELOPMENTS IN HUMAN SERVICES**

This unit identifies major forces influencing the direction and nature of the welfare state. It explores the impact of change in welfare state for the contemporary human service industry. The unit identifies emerging trends in human service organisation and delivery, and examines the implications for human service practitioners, service providers, and consumers.

**Courses:** HH02, HS07

**Contact hours:** 2 week block

**Credit points:** 12 **Incompatible with:** HSB300

**Campus:** CA **Sem:** 2

**► HHB301 ADVANCED PROFESSIONAL PRACTICE**

Only enrolled Bachelor of Social Science (Human Services) students can undertake this unit. Students prepare for employment by developing and refining their assessment and intervention skills while undertaking a 400 hour vocationally based practice experience supervised by an experienced practitioner. Demonstrated sound and ethical practice abilities are expected of students during an intensive exposure to a range of practice methods, issues and dilemmas. Students and their agency supervisor devise a learning plan, which assesses work performance in six core competencies and a flexible assessment item. Students attend university workshops and complete university requirements including a job application and reflective assignment.

**Courses:** HS07

**Prerequisites:** HSB201, HSB218, HSB228,

HSB211, HSB229

**Credit points:** 36 **Incompatible with:** HSB301

**Campus:** CA **Sem:** 2

**► HHB303 AGED SERVICES: ADVANCED**

This unit builds on the knowledge, skills and abilities developed in Aged Services: Introduction. Issues around the health and wellness status of older people are explored and there is an emphasis on investigation and addressing the needs of this group as they grow older in the Australian environment. Specific issues to be discussed include the following: health behaviours; physical changes associated with ageing; nutrition; physical exercise; sexuality; substance abuse; dementia; care-giving; advocacy.

**Courses:** HH02, HS07, SS60

**Prerequisites:** HSB213

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB323

**Campus:** CA **Sem:** 1

**► HHB304 CHILD AND FAMILY SERVICES: ADVANCED**

This unit includes: work with disadvantaged parents, foster carers and adoptive parents; human services responses by women; parents and women's participation in services; service characteristics consistent with user rights, empowerment and social justice; parents and families involuntarily receiving services; application of skills in ethical decision-making, policy development, interpersonal processes and group work.

**Courses:** HH02, HS07, HH03, SS60

**Prerequisites:** HSB214

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB324

**Campus:** CA **Sem:** 1

**► HHB305 CORRECTIVE SERVICES: ADVANCED**

This unit is designed to enhance students' knowledge and understanding of contemporary issues currently facing corrective services based on analysing the students' field education experiences. From this understanding, students are assisted in developing their critical thinking and problem solving skills, and undertake strategies to prepare for employment opportunities in corrective services.

**Courses:** HH02, HS07, HH03, SS60

**Prerequisites:** HSB215

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB325

**Campus:** CA **Sem:** 1

**► HHB306 DISABILITY SERVICES: ADVANCED**

This unit builds on concepts and issues introduced in the Disability Services: Introduction unit and is designed to promote understanding of the knowledge required to undertake policy and service development activities within the disability sector. It explores the range of service models relevant to people with a disability across their lifespan. Additionally, it examines the quasi-legal and policy aspects of working in disability service organisations, along with some of the ethical dilemmas inherent in human service provision with relevance to people with a disability.

**Courses:** HH02, HH03, HS07, SS60

**Prerequisites:** HSB216

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB326

**Campus:** CA **Sem:** 1

**► HHB307 SERVICES TO YOUNG PEOPLE: ADVANCED**

Many of the positions available in the human services industry and oriented to young people require specific knowledge, skills and understandings. This unit involves an in-depth exploration of contemporary and emerging areas of direct and indirect practice with young people. Included are early intervention and prevention, youth policy analysis and development, juvenile justice practice, youth and family work, youth health practice, public space practice, accommodation and housing practice, and the interface between human services practice and schools. The unit also examines the legal and ethical dimensions of direct practice as an integral part of the unit.

**Courses:** HH02, HH03, HS07, SS60

**Prerequisites:** HSB227, HSB310

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSB327

**Campus:** CA **Sem:** 1

**► HHB310 GLOBALISATION AND SOCIAL THEORY**

This unit examines a range of social theory that has had an increasing impact on sociological work in the last decade or so. The unit concentrates on the so-called 'post-Marxist' tradition (Althusser, Poulantzas, Bourdieu), on poststructuralism and postmodernism (Lyotard, Baudrillard, Derrida, Foucault), on German critical theory (Habermas), and on theories of the breakdown of modernity and the birth of the risk society (Giddens, Beck). This social theory is introduced with an emphasis on its practical uses for the empirical sociologist.

**Courses:** HH01, SS07, SS60, HU20, HU22,

IF30, IF36, IF43, IF70, IF81, IF82, IF86

**Prerequisites:** HUB133 or HHB234

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB139

**Campus:** CA **Sem:** 2

**► HHB312 GEOGRAPHICAL RESEARCH DESIGN**

The unit develops skills in geographical field techniques and data analysis, and provides a foundation in advanced research design for geographical studies. Information capture and analysis focuses on local-region investigations, and the use of geographical software and databases including resources from the Australian Bureau of Statistics, Bureau of Meteorology and local government.

**Courses:** ED50, HH01, HU20, HU22, IF70,

IF36, IF43, IF70, IG81, IF82, IF83, IF84, IF86,

IF30, SS13, SS60

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB688

**Campus:** CA **Sem:** 1

**► HHB315 SEX AND DRUGS IN SOUTH-EAST ASIA**

This unit focuses on the social, cultural, economic and political impacts of the drug trade and the sex trade in South-East Asia including both the historical dimensions of these phenomena as well as their contemporary aspects. The unit examines the progress of the trades, the nature of the traders and the political and economic dimensions of these activities, both legal and illegal.

**Courses:** HH01, HU22, IF30, IF43, IF70, IF81,

IF82, IF86, HH03

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HUB633 **Campus:** CA

**► HHB317 GLOBAL SUSTAINABLE FUTURES**

This is the mandatory integrating unit in the first semester of the third year of the Bachelor of Sustainability course. The unit focuses on the issue of sustainable global futures and the debates surrounding the means by which such futures may be secured. Students explore these issues through oral presentations, a research paper and the use of a scenario-based role play.

**Courses:** IX15 **Contact hours:** 3 per week

**Credit points:** 12 **Campus:** CA

**► HHB318 SUSTAINABLE FUTURES - WATER: RESOURCES, POLITICS AND SOCIETY**

This is the mandatory integrating unit in the second semester of the third year of the Bachelor of Sustainability. This unit focuses on water as central to the development of a sustainable future. It discusses the complex socio-environmental and political aspects of water by pointing to the multifaceted ways in which water is linked to human attitudes and activities. Students explore these issues through a simulated consultancy brief that focuses on sustainable water management.

**Courses:** IX15 **Contact hours:** 3 per week

**Credit points:** 12 **Campus:** CA

**► HHB320 INDEPENDENT PROJECT 1**

This unit is designed to develop research and writing skills, and is available within the BA degree, enabling students to engage in a small-scale research project.

**Courses:** HH01, HU20, HU22, SS60, HH03

**Credit points:** 12 **Incompatible with:** HUB954

**Campus:** CA **Sem:** 1, 2

**► HHB321 INDEPENDENT PROJECT 2**

This unit is designed to develop research and writing skills, and is available within the BA degree, enabling students to engage in a small-scale research project.

**Courses:** HH01, HU20, HU22, HH03, SS60

**Credit points:** 12 **Incompatible with:** HUB955

**Campus:** CA **Sem:** 1, 2

**► HHB328 RESEARCHING APPLIED ETHICS**

This unit examines the different methods that characterise contemporary research in Applied Ethics. The historical emergence of Applied Ethics, the key assumptions which underpin the various methodologies, and the current critical debates on method are key topics considered in this unit.

**Courses:** HH01, HU20, HU22, HU21, NS40, NS48  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HUB758  
**Campus:** CA **Sem:** 2

#### ► HHB330 INTERNSHIP PROGRAM

This provides an opportunity for students to be placed in an appropriate off-campus situation in work related to their studies. This unit may be taken over one semester or extended to cover two. It can be taken in Semesters 1, 2 or 3.

**Courses:** HH01 **Credit points:** 24  
**Incompatible with:** HUB952 **Sem:** 1

#### ► HHB335 BODIES, CYBORGS AND CYBERSPACE

This unit critically examines modern and post-modern concepts of the body, with a particular focus on the contemporary understanding of the body as 'cyborg', and the bodily-based transformative effects of technoscience. To achieve this, the unit takes a trans-disciplinary approach, mixing sociology with cultural studies, philosophy, science, medicine, information technology, and the performing/visual arts.

**Courses:** HH01, HHO3, HHO4, IF70, IF36, IF82, IF43

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HHB235

**Campus:** CA **Sem:** 1

#### ► HHB400 HUMAN SERVICES RESEARCH THESIS 1-5

This unit involves the design and initial development of the dissertation topic. This includes the literature review. HHB400 4-5 involve further research and completion of an honours dissertation under the direction of a supervisor. Seminars provide a formal forum and an opportunity for the discussion of research projects and problems associated with research and writing and enable staff and students to share the outcomes of their scholarly activities.

**Courses:** HH22, HS14  
**Contact hours:** 12 per component

**Incompatible with:** HSP413

#### ► HHB402 RESEARCH COLLOQUIUM

This provides a forum for the discussion of problems associated with research and writing. It allows students to share with each other the outcomes of their scholarly activities. Invited researchers will provide insights into the research process.

**Courses:** HH23, SS13  
**Contact hours:** 2 per week **Credit points:** 12  
**Incompatible with:** HUB124

#### ► HHB403 LITERATURE REVIEW

This is part of a supervised program in the Honours student's chosen area of specialisation. An assessed critical paper on literature relevant to the Honours dissertation topic is prepared.

**Courses:** HH21, HH23, HU21, SS13  
**Credit points:** 12 **Incompatible with:** HUB901  
**Sem:** 1, 2

#### ► HHB404 HONOURS THESIS 1

This includes the supervised design and initial development of an Honours dissertation leading to completion of a thesis outline, including synopses and projected chapters, and a statement of objectives, methods and sources

**Courses:** HH21, HH23 **Credit points:** 12  
**Incompatible with:** HUB902

#### ► HHB405 HONOURS THESIS 2

This includes supervised research and writing of the Honours dissertation, normally between 12,000 and 15,000 words.

**Courses:** HH21, HH23, HU21, SS13  
**Prerequisites:** HUB901, HUB902  
**Credit points:** 36 **Incompatible with:** HUB903  
**Sem:** 2

#### ► HHB406 HONOURS THESIS 3

**Courses:** HH21 **Credit points:** 12

#### ► HHB407 HONOURS SEMINAR

**Courses:** HH21, HH22, HH23  
**Credit points:** 12  
**Campus:** CB **Sem:** 2

#### ► HHN410 LOGIC OF SOCIAL INQUIRY

This unit assists students to address crucial questions of research design and methodology in the

formulation and conduct of both qualitative and quantitative research projects.

**Courses:** HH22, HH23, HH31, HH32, HH40, HH50

**Credit points:** 12 **Incompatible with:** PYB454  
**Campus:** CA **Sem:** 1

#### ► HHP003 AGED SERVICES - GRADUATE STUDIES

This unit engages students in analysing national and international developments in the broad field of aged services through comparative study of policies, practices and processes. Students examine issues affecting the well-being of older adults and their families, critically evaluate approaches to services provision for older people and to research in gerontology, and explore a range of impacts on service design and delivery.

**Courses:** HH30, HH31, HH32, HS13, HS15, HS16

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSP425 **Sem:** 2

#### ► HHP004 CHILD AND FAMILY SERVICES - GRADUATE STUDIES

In this unit, students conduct a comparative analysis of Australian and international policies, practices and processes in services for children and families and identify the impact of socio-cultural, political and economic processes on the design and delivery of child and family services. Students identify and critically evaluate the application of selected concepts underpinning service design and delivery (such as choice and participation), thoroughly investigate the evidence base for selected practices, and have the opportunity to explore concerns arising from practice contexts.

**Courses:** HH31, HSH15, HH32, HS16, HH30, HS13

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSP424 **Campus:** CA

#### ► HHP006 DISABILITY SERVICES - GRADUATE STUDIES

This unit offers the opportunity to extensively analyse, evaluate and respond to developments in the disability area. An ability to reflect on and make considered responses to current Australian developments is enhanced as students engage in in-depth analysis and collaborative critique of national and international provisions made to address issues concerning people with disabilities. Exploring areas of interests will promote skills of critical analysis and the ability to apply current research and debate within the disability arena.

**Courses:** HH32, HH32, HH30, HS15, HS13, HS16

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSP426 **Sem:** 2

#### ► HHP007 YOUTH SERVICES - GRADUATE STUDIES

This unit equips students with the ability to evaluate and respond to developments in services to young people through comparative analysis of changes and continuities in policies and practices. Students will discern key human service concepts and identify how these operate in selected service contexts in both national and international settings. Issues associated with evidence building for policy and service developments are addressed. Students identify their own knowledge needs and explore concerns arising in contexts they know about, in order to enhance skill development and transfer, in particular the informed application of research.

**Courses:** HH32, HH31, HH30, HS13, HS16, HS15

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HSP427

**Campus:** CA **Sem:** 2

#### ► HHP011 CRITICAL ISSUES IN THE HUMAN SERVICES

This unit identifies critical contemporary issues impacting upon the human services industry in particular. The contemporary environment in which human services exist is creating sets of tensions which have the potential to both seriously challenge and radically reorder and reconstruct service delivery and professional practice. The unit is designed to explore and develop com-

prehension of the issues, and their implications for the specific domains of service delivery of the proposed research projects and/or areas of interest of participants.

**Courses:** HH22, HH31, HS14, HS15  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSP411  
**Campus:** CA **Sem:** 1

#### ► HHP012 LEADERSHIP IN THE HUMAN SERVICES

This unit explores conceptions of and skills in leadership to enable participants to provide effective leadership in human service contexts. It reflects an increasing awareness that leadership is of central importance in the development and management of governments and community organisations and in energising and enabling community groups to identify and meet their needs. Underlying this unit is the notion that leadership, as currently conceptualised, is not simply the task of those in positions of responsibility but involves all in the development and delivery of services.

**Courses:** HH30, HH31, HH32, HS15, HS16  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSP412  
**Campus:** CA **Sem:** 1

#### ► HHP013 MANAGING HUMAN SERVICE ORGANISATIONS

This unit will create an awareness of the issues and challenges faced by the human service manager and improve knowledge of the functions and techniques of management. As well as developing an understanding of the application of these management techniques, the unit will recognise the influence between the quality of management and the quality of service provided to service users. It will build competency in training effective human service managers.

**Courses:** HH30, HH31, HH32, HS15, HS16  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSP421  
**Campus:** CA **Sem:** 2

#### ► HHP014 MANAGED CARE AND CASE MANAGEMENT

This unit develops high level analysis and skills in the emerging context of managed care. Case management is becoming the dominant mode of service delivery in the community service industry. While the conceptual genesis of case management resides within human service bodies or practice knowledge, it is being applied across a range of service delivery systems. While some of the processes involved in case management are taught in human service education programs, there is little opportunity for employees and managers to comprehensively explore case management as a discreet mode of intervention.

**Courses:** HH31, HH32  
**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CB

#### ► HHP015 CONTRACTING AND POLICY IN THE HUMAN SERVICES

Service delivery systems in the community services industry are in the process of being restructured. The primary dynamic carrying the process is the imperatives of understanding performance and accountability between purchasers (governments) and providers (non-state agencies). Contracts are an important part of these changes. To date, there is little experience in the industry of the management of a contract regime or its implications for service delivery outcomes. This unit is designed to convey key skills in managing contracts from both the purchaser and provider side of the equation.

**Courses:** HH30, HH31, HH32, HS15, HS16  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HSP423  
**Campus:** CA **Sem:** 2

#### ► HHP020 HUMAN SERVICES PRACTICE RELATED RESEARCH 1-2

Students explore an issue from their practice or the field using research and scholarship.

**Courses:** HH32, HS16  
**Credit points:** 48 (24 each)

**Incompatible with:** HSP020  
**Campus:** CA **Sem:** 1, 2

### ► HHR501 SOCIAL SCIENCE METHODS FOR THE KNOWLEDGE SOCIETY

This unit provides an in-depth treatment of a number of key methodologies in the social sciences, humanities and human services. The unit builds on core methodological knowledge and aims to supply the student with the tools to embark on professional practice projects. The unit builds on material presented in HHN410, The Logic of Social Inquiry, enabling students to explore chosen methodologies in greater detail.

**Courses:** HH50 **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► HHR510 CONFERENCE PRESENTATION 1: NETWORKING AND PRESENTATION

This unit develops students' skills in summarising, reporting and communicating doctoral-level research. The unit accompanies the development and completion of the first professional practice project, and is designed in order that students can learn how to disseminate the results of that project. The unit also focuses on other issues in the communication and dissemination of professional practice, including mentoring and networking, and leadership roles in the professions.

**Courses:** HH50 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

### ► HHR520 CONFERENCE PRESENTATION 2: PROFESSIONAL NETWORKS

This unit develops the skills learned in HHR510; however, while that unit focussed on academic forums for the presentation of research and the development of research networks, this unit concentrates on the translation of doctoral-level research for work-based settings. This unit develops students' skills in summarising, reporting and communicating doctoral level research.

**Courses:** HH50 **Credit points:** 12  
**Prerequisites:** HHR510 **Sem:** 1, 2  
**Campus:** CA

### ► HHR530 CONFERENCE PRESENTATION 3: ACADEMIC NETWORKS

This unit focuses on the presentation of high level, complex work, to an expert audience. The unit develops the emphases in HHR510 and HHR520 on networking and on the translation of findings to professional colleagues; however, in this, the emphasis is on the translation of research findings to an academic audience.

**Courses:** HH50 **Prerequisites:** HHR520  
**Credit points:** 12 **Sem:** 1, 2

### ► HHR551-1 PROFESSIONAL PRACTICE PROJECT 1 1/4

The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

**Courses:** HH50 **Credit points:** 12  
**Sem:** 1, 2

### ► HHR551-3 PROFESSIONAL PRACTICE PROJECT 1 3/4

The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points

**Courses:** HH50 **Credit points:** 12

### ► HHR551-2 PROFESSIONAL PRACTICE PROJECT 1 2/4

The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

**Courses:** HH50 **Credit points:** 12

### ► HHR551-4 PROFESSIONAL PRACTICE PROJECT 1 4/4

The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

**Courses:** HH50 **Credit points:** 12

### ► HHR561-1 PROFESSIONAL PRACTICE PROJECT 2 1/4

The professional practice project 2 provides for students to work with supervisors on the second professional project for the Doctor of Social Science. The project deals with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

**Courses:** HH50 **Prerequisites:** HHR501, HHR510, HHR551, 3 electives  
**Credit points:** 12 **Sem:** 1, 2

### ► HHR561-2 PROFESSIONAL PRACTICE PROJECT 2 2/4

See HHR561-1 for details.

**Courses:** HH50 **Prerequisites:** HHR501, HHR510, HHR551, 3 electives  
**Credit points:** 12

### ► HHR561-3 PROFESSIONAL PRACTICE PROJECT 2 3/4

See HHR561-1 for details.

**Courses:** HH50 **Prerequisites:** HHR501, HHR510, HHR551, 3 electives  
**Credit points:** 12

### ► HHR561-4 PROFESSIONAL PRACTICE PROJECT 2 4/4

See HHR561-1 for details.

**Courses:** HH50 **Prerequisites:** HHR501, HHR510, HHR551, 3 electives  
**Credit points:** 12

### ► HHR571-1 PROFESSIONAL PRACTICE PROJECT 3 1/8

This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Courses:** HH50 **Prerequisites:** HHR561-4, HHR520  
**Credit points:** 12 **Sem:** 1, 2

### ► HHR571-2 PROFESSIONAL PRACTICE PROJECT 3 2/8

See HHR571-1 for details.

**Courses:** HH50 **Prerequisites:** HHR561-4, HHR520  
**Credit points:** 12

### ► HHR571-3 PROFESSIONAL PRACTICE PROJECT 3 3/8

See HHR571-1 for details.

**Courses:** HH50 **Prerequisites:** HHR561-4, HHR520  
**Credit points:** 12

### ► HHR571-5 PROFESSIONAL PRACTICE PROJECT 3 5/8

See HHR571-1 for details.

**Courses:** HH50 **Prerequisites:** HHR561-4, HHR520  
**Credit points:** 12

### ► HHR571-7 PROFESSIONAL PRACTICE PROJECT 3 7/8

See HHR571-1 for details.

**Courses:** HH50 **Prerequisites:** HHR561-4, HHR520  
**Credit points:** 12

### ► HHR571-8 PROFESSIONAL PRACTICE PROJECT 3 8/8

See HHR571-1 for details.

**Courses:** HH50 **Prerequisites:** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12

### ► HLN405 QUALITATIVE RESEARCH

This unit addresses a range of qualitative methodologies and methods which represent alternative approaches to the application of the quantitative paradigm in Health Science research. The predominance of the natural sciences in nursing/health research has come into question in recent times and thus the unit introduces students to the origins of such challenges, to the knowledge bases of the alternative approaches to investigating the microsocial world of health/illness, and to the relevant research methods. The unit comprises a series of lectures, seminar presentations and relevant readings.

**Courses:** HL88, HL50, HL52, HL55, NS85, NS64, PU65, PU69  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

### ► HLN700 THESIS

The thesis provides an opportunity to formally extend and synthesise knowledge gained in earlier semesters of the program. Coursework conducted in the area of specialisation may be applied in a practical manner reflecting a student's specific interest in health science. The work represents an independent and original piece of research completed under the guidance of a supervisor. The thesis may be a report on research that makes a contribution to knowledge, or a study in which the student critically analyses and appraises existing knowledge and produces observations and conclusions of value to the field concerned.

**Courses:** HL88, PU85  
**Credit points:** 48  
**Campus:** KG, EXT **Sem:** 1, 2, 3

### ► HLN701 INDEPENDENT STUDY

Independent Study allows students to study topics which are not otherwise available as a formal unit. Students have the opportunity to pursue their studies relatively independently and to develop and practice skills in problem identification, evaluation and/or critical thinking. The study may be for example a critical literature review, an examination of guidelines, or an evaluation. The process and outcomes are negotiated in a contract with a supervisor.

**Courses:** HL38, HL68, HL88, HL90  
**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2, 3

### ► HLN703 PROJECT A

An important aspect of postgraduate development is the opportunity to engage in research or project work in a specialist field of study in industry or as a component of consultancy work. Working in industry or a health-related agency, locally or internationally, can provide students with valuable work experience and develop skills and expertise that advances their profession or the particular industry involved. The research option enables students to work independently under the guidance of a supervisor. The research may be a report that makes a contribution to knowledge or a study in which the student critically analyses existing knowledge and produces observations and conclusions of value to the field concerned.

**Courses:** HL68, HL88, PU85  
**Credit points:** 24  
**Campus:** KG, EXT **Sem:** 1, 2, 3

### ► HLN704 PROJECT B

An important aspect of postgraduate development is the opportunity to engage in research or project work in a specialist field of study in industry or as a component of consultancy work. Working in industry or a health-related agency, locally or internationally, can provide students with valuable work experience and develop skills and expertise that advances their profession or the particular industry involved. The research option enables students to work independently under the guidance of a supervisor. The research may be a report that makes a contribution to knowledge or a study in which the student critically analyses existing knowledge and produces observations and conclusions of value to the field concerned.

**Courses:** HL88  
**Prerequisites:** HLN703 **Credit points:** 24

**Campus:** KG, EXT**Sem:** 1, 2, 3**► HLN705 INTRODUCTION TO QUANTITATIVE RESEARCH METHODS**

The content of this unit emphasises the practical aspects of quantitative research methods design, with the aim of exposing students to important concepts in the design of research studies, and in the assessment of the research of others. There is a strong emphasis on applying concepts through critical reading of the literature and the development of a comprehensive research proposal as the main practical exercise.

**Courses:** HL38, HL68, HL88, HL90, PU60, PU67, PU85

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PUB316 or equivalent

**Campus:** KG, EXT **Sem:** 1

**► HLN706 ADVANCED QUANTITATIVE RESEARCH METHODS**

The content of this unit builds on the basic statistics background assumed of students. A unifying theme is the concept of sources of variation in collected data: how proper design of study and measurement instruments minimise some sources of variation (error), how analytical techniques account for other sources, and finally that introduced error that cannot be accounted for must be addressed in discussion of results. Analytical strategies for modelling health data are compared, and practical experience focuses on the analysis and interpretation of various data sets.

**Courses:** HL38, HL68, HL88, HL90, PU40, PU43, PU60, PU85

**Prerequisites:** HLN705 or PUN105

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

**► HLN708 PROJECT**

This 48 credit point project extends the range of applied investigative options for the Master of Health Science students to undertake. The project is designed to be a workplace-based unit that enables students to undertake a concentrated applied project in a specific area of interest in the workplace and to combine work and study requirements. It enables students to concentrate on a specific area of interest and to apply intellectual rigour to that area to complete a project of work at an advanced level.

**Courses:** HL88 **Credit points:** 48

**Campus:** KG, EXT **Sem:** 1, 2, 3

**► HLN750 THESIS**

Part-time students enrol in this unit which is conducted over two semesters. The thesis provides an opportunity to formally extend and synthesise knowledge gained in earlier semesters of the program. The work represents an independent and original piece of research completed under the guidance of a supervisor. The thesis may be a report on research that makes a contribution to knowledge, or a study in which you critically analyse and appraise existing knowledge and produce observations and conclusions of value to the field concerned.

**Courses:** HL88, PU85 **Credit points:** 24

**Campus:** KG **Sem:** 1, 2, 3

**► HLP101 ADVANCED DISCIPLINE READINGS**

This unit is a compulsory component of the Faculty of Health Honours programs. It provides the opportunity for students to identify and review the literature relevant to their selected research topic. A one day seminar in advanced information retrieval skills is included in the unit.

**Courses:** HL50, HL52, HL55

**Corequisites:** HLP103 **Credit points:** 12

**Campus:** KG **Sem:** 1

**► HLP102 RESEARCH SEMINARS**

This unit is a compulsory component of the Faculty of Health Honours programs. Content includes the preparation and completion of a seminar presentation in a professional and scientific manner and attendance at scheduled seminars.

**Courses:** HL50, HL52, HL55

**Prerequisites:** HLN706 or HLN405 (nursing students must complete both)

**Corequisites:** HLP101 **Credit points:** 12

**Campus:** KG **Sem:** 2

**► HLP103 DISSERTATION**

This is a compulsory unit in the Faculty of Health Honours programs. It is broken into a number of components that are completed over successive semesters (as appropriate for full-time or part-time course structure). The dissertation study represents an independent piece of research completed with the guidance of a supervisor. A written report in the form of a dissertation proposal must be submitted by the end of Week 6 in the semester in which enrolment in the dissertation commences.

**Courses:** HL50, HL52, HL55 **Credit points:** 48

**Campus:** KG **Sem:** 1, 2

**► HLR710 RESEARCH PROJECT**

The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary but should apply concepts and principles acquired and developed through the coursework component of the degree.

**Courses:** HL90 **Credit points:** 192

**Campus:** KG **Sem:** 1, 2, 3

**► HMB171 FITNESS HEALTH AND WELLNESS**

The dimensions and interrelationships of health, physical activity and wellness are studied. Basic principles of conditioning and exercise prescription necessary to demonstrate the impact of physical activity on lifestyle diseases, health behaviours and wellness are examined. Principles and theory of behaviour change are employed.

**Courses:** ED43, ED50, ED51, ED52, HL 40, HL42, HL44, HM42, IF62, IF73

**Contact hours:** 3-4 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2, 3

**► HMB172 NUTRITION AND PHYSICAL ACTIVITY**

This unit is an introduction to principles of nutrition in relation to the physical activity setting, and the role of nutrition and physical activity in weight management. This unit also covers the essential elements of child growth and development (auxology) in relation to nutrition and health. The unit is designed to underpin studies in exercise physiology and sports nutrition.

**Courses:** HM42, IX04, IF62, HL43, HM45, IF62, HL40

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► HMB231 PHYSICAL EDUCATION CURRICULUM STUDIES 1**

This unit provides students with a range of understandings and competencies for interpreting and managing the physical education environment for teaching and learning. It assists students to develop competencies needed for lesson planning and teaching at all school levels.

**Courses:** ED90, ED95, IX04

**Contact hours:** 3 **Credit points:** 12

**Campus:** KG **Sem:** 1

**► HMB271 FOUNDATIONS OF MOTOR CONTROL, LEARNING AND DEVELOPMENT**

This unit introduces students to the behavioural and neural bases of movement control through an examination of the central nervous and neuromuscular systems, hierarchical control, human information processing, and dynamical systems. It covers elements of sensory mechanisms related to movement. Foundations of motor learning and adaptation are introduced, linking underlying mechanisms of learning with principles that may be applied in teaching, coaching and rehabilitation.

**Courses:** ED90, ED51, HL40, HL42, HL43, HM45, HM42, IF62, IX04

**Prerequisites:** LSB131, LSB231

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

**► HMB272 BIOMECHANICS**

This unit includes the application of mechanics as they apply to Human Movement: kinematics and dynamics of human body models; quantitative analysis; impact; work and power; fluid dynamics; material properties.

**Courses:** HL40, HL42, HL43, HM45, HM42, IF62, IX04, PU40

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► HMB273 EXERCISE PHYSIOLOGY 1**

This unit describes the immediate physiological responses to exercise, and the adaptations that occur with long-term exercise training. Exercise places a demand on the human body to provide sufficient energy to perform. The metabolic, hormonal, cardiovascular and pulmonary systems must adapt to meet the challenge of homeostasis. The active skeletal muscle must increase extraction and utilisation of oxygen and other fuels, the cardiovascular system must respond to improved gas and fuel transport, and lung function must change to facilitate increased respiratory gas exchange.

**Courses:** ED90, HL40, HL42, HL43, HM45, HM42, IF62, IX04

**Prerequisites:** LSB231 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► HMB274 FUNCTIONAL ANATOMY**

This unit includes the following: surface anatomy of the trunk and upper and lower limb; morphological and mechanical properties of bone, muscle-tendon units with implications for physical activity; joint structure and function; analyses of movement tasks including walking and running; cinematography and electromyography in functional anatomy of movement tasks.

**Courses:** ED90, ED51, HL40, HL42, HL43, HM42, HM45, IF62, IX04

**Prerequisites:** LSB131

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

**► HMB275 EXERCISE AND SPORT PSYCHOLOGY**

This unit includes the following: introduction to the psychological factors which influence performance, participation and adherence to both sport and exercise programs; personality and the athlete; attention and arousal; relaxation theory and practice; aggression and psycho-social development; leadership and team cohesion.

**Courses:** ED90, HL40, HL42, HL43, HM42, HM45, IF62, IX04

**Prerequisites:** PYB012 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► HMB276 RESEARCH IN HUMAN MOVEMENT**

This unit includes principles of research: purposes, philosophy, applications. It addresses quantitative research including basic statistics, descriptives, ANOVA, correlation, regression and non-parametrics, and basic research design hypothesis testing. Qualitative research includes methodology, data collection, theory building. Research presentation includes writing a research report and developing conclusions. The unit also considers the application of research, examples in human movement, related literature, computer data analysis, and information retrieval.

**Courses:** ED90, HL40, HL42, HL43, HM42, HM45, IF62, IX04

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► HMB277 EXERCISE AND SPORT NUTRITION**

This unit considers the relationship between nutrition and exercise and physical activity. Areas covered include dietary and energy requirements in exercise and sport and substrate utilisation at the cellular level during exercise. The influence that nutrition has on performance via changes in body composition, fuel utilisation, blood biochemistry and ergogenic aids will also be covered. Nutritional supplements and water and electrolyte balance in exercise and sport are also part of this unit.

**Courses:** HL42, HM42, IF62, IX04, PU43

**Prerequisites:** HMB172**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB282 RESISTANCE TRAINING**

This unit aims to equip students with the basic knowledge, skills and competencies required for exercise prescription in resistance training for muscular fitness. Students build on prior knowledge of biomechanics, anatomy, physiology and motor control to develop understanding of the mechanical and physiological determinants of muscular fitness. The unit incorporates a blend of theoretical background, practical knowledge, and skills in the main areas of muscular hypertrophy, strength, power and endurance. This understanding is then used to critically analyse resistance training programs.

**Courses:** HM42, HL40, HL42, HL43, IX04, IF62**Prerequisites:** HMB27, HMB272, HMB274  
**Corequisites:** HMB273 **Credit points:** 12  
**Campus:** KG **Sem:** 2**► HMB292 HEALTH EDUCATION CURRICULUM STUDIES 1**

This is the initial unit in a series of three Health Education Curriculum units. Students are introduced to current health education curriculum documents with a specific focus on the Queensland Education System. The unit also provides students with a range of competencies for interpreting and managing the health education classroom as a complex social environment for teaching and learning.

**Courses:** ED90, ED95, IX04**Contact hours:** 3 **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB305 PERSONAL HEALTH**

Lifestyle is largely determined by an individual functioning in a socio-environmental context that places some limitations on choice and resultant health. This unit is designed to assist individuals to develop a positive self-concept, a sound knowledge of lifestyle issues and the implications and decision-making skills necessary to make wise choices. The focus of this unit is the development of such qualities for personal maintenance and improvement. Movements in this direction are achieved by analysing the processes involved in developing individuals capable of taking control of their lifestyles and resultant health. Much of this analysis will be self-focused.

**Courses:** ED90, ED51**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB307 HEALTH AND PHYSICAL EDUCATION CURRICULUM (PRIMARY)**

The unit provides teachers for the years 1-10 Health and Physical Key Learning Area, with appropriate learning experiences based on current philosophy and knowledge focused to assist children in meeting developmental needs. Health and Physical Education (HPE) can add significantly to this development by providing physical, emotional, social and intellectual support. It is necessary for Primary teachers to understand the syllabus and the implications it contains to enable them to develop modern units and lesson plans.

**Courses:** ED26, ED51, ED56, IF82, IF84**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB313 SOCIO-CULTURAL FOUNDATIONS OF PHYSICAL ACTIVITY**

This unit lays a foundation in the disciplines of the socio-cultural areas which underpin the study of human movement. It serves as an introduction to the historical, sociological, philosophical, anthropological and cultural foundations of sports, games and leisure activities.

**Courses:** ED90, ED51, HL42, HL43, HM42, HM45, IF46, IF62, IX04**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB314 PERFORMANCE SKILLS 1**

This unit involves the application of movement principles to the analysis and development of techniques in all major swimming strokes, water

rescue methods, and track and field events. Students explore teaching strategies, motivational, conditioning and training activities, the development of learning experiences for various ability levels and event rules application.

**Courses:** ED90, ED51, ED52, IX04**Contact hours:** 6 per week **Credit points:** 12  
**Incompatible with:** PRB344, PRB345, PRB346  
**Campus:** KG **Sem:** 1, 2**► HMB315 PERFORMANCE SKILLS 2**

In this unit, various game forms are analysed in order to identify fundamental game skills and problem areas in skill development. Emphasis is placed on the application of relevant movement knowledge and skills to suit game situations and on learning appropriate strategies for teaching and coaching selected games.

**Courses:** ED90, ED51, ED52, IX04**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2**► HMB331 PHYSICAL EDUCATION CURRICULUM STUDIES 2**

This unit extends the principles of professional practice established in the first curriculum studies unit and further encourages students to develop a critically reflective approach to their teaching. Students will learn how to extend their professional practice with a range of understandings and competencies for interpreting and managing the health and physical education classroom as a complex environment for teaching and learning, and to develop competencies needed for planning and teaching a range of health and physical education units of work. Current health and physical education curriculum documents are explored.

**Courses:** ED90, ED95, IX04**Prerequisites:** HMB231 **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB332 HEALTH RELATED FITNESS**

This unit provides a forum for a review of selected classic and recent literature representing the growing body of evidence and the arguments supporting the relationships between physical activity and chronic disease and the relationships between physical activity, fitness, optimal health and wellness. Special attention is given to the question of 'How much is enough?' to achieve health and wellness enhancement. This knowledge is applied to an individual or a small group within the school, community and personal lifestyle contexts.

**Courses:** ED90, ED51, HL40, HM42, IF62, IX04**Prerequisites:** HMB171 or PUB327  
**Contact hours:** 3-4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB333 CHILD AND ADOLESCENT HEALTH**

This unit focuses on the wide range of factors that impact on the health of individuals in the two crucial stages of life: childhood and adolescence. An analysis is made of knowledge, beliefs and skills required for promoting health-enhancing behaviours during these ages and experience is provided on some of the skills needed to assess and maintain the health status of children and adolescents.

**Courses:** ED90, ED51, ED52, IX04**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2**► HMB337 ORGANISATION AND MANAGEMENT IN PHYSICAL EDUCATION AND SPORT**

School physical education departments and sporting associations are medium-sized organisations requiring direction for servicing a large client base. In this unit, students examine the role of administrators and the administration of monies, facilities and human resources in a school physical education and sports setting.

**Courses:** ED90, IX04**Prerequisites:** HMB314, HMB315  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2**► HMB342 THE DEVELOPMENT OF TEACHING SKILLS IN PRIMARY PHYSICAL EDUCATION**

Designed around micro-teaching and involving student teachers, children and their working environment in schools, this unit promotes excellence in teaching, preparation and planning with an emphasis on active learning and research. Physical education teacher education students develop a greater understanding of their prospective working environment.

**Courses:** ED90, ED50, ED51, IX04**Prerequisites:** HMB310, HMB370  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2**► HMB361 FUNCTIONAL ANATOMY 2**

This is a project-based unit designed to enable students with a background in Functional Anatomy to develop greater expertise in one or a combination of the following areas: electromyography; orthopaedic biomechanics; kinesiology of sport and work; comparative functional anatomy; locomotion and posture; research techniques in functional anatomy.

**Courses:** HM42, IX04 **Prerequisites:** HMB274**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2**► HMB362 BIOMECHANICS 2**

This unit includes the following: measurement techniques within biomechanics; analysis of force systems; photographic, goniometric and electrographic analysis of movement; an introduction to viscoelasticity and biological materials; material properties; mass and inertial characteristics of the human body; applied aspects of biomechanics undertaken from a research project perspective.

**Courses:** HM42, ME46, IF62, IX04**Prerequisites:** HMB272, HMB274  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1**► HMB363 INDEPENDENT STUDY**

This unit is offered to meet the specific interest of students beyond the content offered within existing units. Students conceptualise, plan and execute a research study including survey of literature, develop an action plan, reflect on a practice or situation, and propose future action. The student works at an advanced level and autonomously under the supervision of a lecturer.

**Courses:** HL42, HM42**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2**► HMB364 SEMINARS IN HUMAN MOVEMENT**

This unit is offered to capitalise on the expertise of resident or visiting staff, the special needs and interests of students, and to create flexibility in unit offerings. These may include special expertise, high quality limited period research projects, seminars, conferences and new initiatives by staff and students. An interest group studies the area chosen cooperatively.

**Courses:** ED90, ED51, HM42, IF62, IX04**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2**► HMB371 MOTOR CONTROL AND LEARNING 2**

This is an advanced unit which provides an in-depth view of theories and concepts in motor learning and control: how we control actions in both everyday and skilled behaviours and how this capability is acquired. This course provides a multidisciplinary perspective, drawing on research from psychology, neuroscience, biomechanics, robotics, neural networks and medicine. The unit is organised around the theme of sensorimotor integration as related to posture and balance, locomotion, and arm movements such as reaching, grasping and pointing.

**Courses:** ED90, HM42, IF62**Prerequisites:** HMB271  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2**► HMB374 PSYCHOLOGY OF REHABILITATION**

This unit includes the following: factors that predispose to injury and behavioural change; the

psychological process of rehabilitation; teaching specific psychological rehabilitation and coping strategies; the grief process; the rehabilitation psychologist's role in the rehabilitation team; disabled athletes.

**Courses:** ED90, HM42, IF62, IX04

**Prerequisites:** HMB275, HMB372

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► HMB375 ADAPTED PHYSICAL ACTIVITY

In this unit, students carry out the following: adapt physical activity for a variety of physical, sensory and intellectually disabling conditions and chronic diseases; design and implement programs suitable for these people to improve levels of motor skills and general health and wellness; participate in, and design programs for disabled athletes.

**Courses:** ED90, ED51, ED52, HM42, IF62, IX04

**Prerequisites:** HMB271

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► HMB376 MOTOR DEVELOPMENT IN CHILDREN

This unit includes the theoretical perspective of normal and abnormal motor development, incorporating maturational, descriptive and behavioural aspects and the underlying sensory, perceptual, neurological and cognitive changes which influence motor development in children. It also includes a theoretical understanding of developmental differences and development delay in children with intellectual, sensory or physical disability. Experience is obtained in developmental and adapted physical activity programs.

**Courses:** ED90, ED51, ED52, HM42, IF62, IX04

**Prerequisites:** HMB271

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► HMB377 CHILDREN IN SPORT

This unit includes the following: physical development of the young athlete; physical maturation; benefits of participation in sport and physical activity; psycho-social issues; positive and negative effects of participation including competitive stress; injuries to the growing skeleton; overtraining, overuse injuries; strength training in childhood and adolescence; promotion of safety in sport; accreditation of teachers and coaches; policy guidelines for junior sport.

**Courses:** ED90, HM42, IF62, IX04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► HMB379 DISORDERS OF HUMAN MOVEMENT

This unit introduces a selection of disorders and disease states that limit or alter the capacity for movement and physical activity. Each is described in terms of relevant epidemiology and pathophysiology, emphasising the relationship between each disorder and movement or activity, together with factors affecting this relationship. The unit provides students with a basic knowledge of a selection of movement-related disorders, as a foundation for subsequent applications, whether in research, working with special populations, in rehabilitation, or in other clinical settings. The unit also enhances the ability of students to study independently disorders not covered in the unit.

**Courses:** ED90, ED51, HL40, HL42, HL43, HM42, HM45, IF62, IX04

**Prerequisites:** HMB271, HMB272, HMB273, HMB274

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► HMB381 EXERCISE PHYSIOLOGY 2

This unit examines the integrated regulation of the organ system examined in Exercise Physiology 1. Within this integrated perspective current research areas will be highlighted, including but not limited to (1) exercise performance and environmental stress, (2) special aids to exercise training and performance, and (3) limitations to

exercise in healthy normal individuals, elite athletes and selected patient populations.

**Courses:** ED90, HM42, IF62

**Prerequisites:** HMB273

**Contact hours:** 3-4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► HMB382 PRINCIPLES OF EXERCISE PRESCRIPTION

In this unit, students examine the physiological principles and methods used in training and conditioning programs at all levels of physical activity. The integration of fitness assessment and exercise prescription is a major component of the unit, introducing the student to these requirements in the context of aerobic conditioning, resistance training, weight loss and flexibility. There is a strong emphasis on putting theory into practice, including the development and utilisation of appropriate practical skills in both fitness assessment and exercise prescription.

**Courses:** HM42, IF62, IX04, HL40, HL42, HL43, HM45

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► HMB383 WORKPLACE HEALTH

This unit considers the historical and current position of workplace health as one emerging focus of occupational health and safety. Issues, laws, policies, programs and union, employer and employee perspective are analysed in conjunction with the role of workplace health professionals. The planning, development, promotion, implementation, administration and evaluation of programs from a wellness counsellor's perspective are analysed.

**Courses:** ED90, HM42, IF62, IX04

**Prerequisites:** HMB171 or HMB332

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► HMB384 INJURY PREVENTION AND REHABILITATION

This unit considers the following: epidemiology and the nature of common injuries that occur at home, school, work and during sporting activities; current philosophies of preventative measures and strategies for the treatment and rehabilitation of injuries; the role of health training, exercise and fitness in injury prevention, treatment and rehabilitation regimes; the pathology of injuries and repair processes highlighted by examining specific examples.

**Courses:** ED90, HM42, IF62, IX04

**Prerequisites:** HMB379

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► HMB396 HEALTH EDUCATION CURRICULUM STUDIES 2

This is the second in a suite of three Health Education Curriculum units. It is designed to extend students with a range of understandings and competencies for interpreting and managing the health education classroom as a complex social environment for teaching and learning. It assists students to develop those competencies needed for planning and teaching health education units of work. It has an important role in preparing students for the professional practice component of their course, leading to the development of confidence and competence in class management skills, and facilitating the use of post-lesson and post-practicum reflection and evaluation.

**Courses:** ED90, ED95, IX03

**Prerequisites:** HMB292

**Credit points:** 12 **Sem:** 2

#### ► HMB431 PHYSICAL EDUCATION CURRICULUM STUDIES 3

This unit will be available from 2006. It will develop students' competencies in the effective planning and implementation of school work programs and units of work consistent with the Senior Physical Education Syllabus. It will also develop students' skills and confidence in effective teaching practices specifically related to teaching physical education and will assist them to become independent and reflective learners.

**Courses:** ED90, ED95, IX04

**Prerequisites:** HMB331 **Contact hours:** 3  
**Credit points:** 12 **Campus:** KG

#### ► HMB441 SOCIOLOGY OF SPORT

This unit includes the sociology of sport: historical and contemporary perspectives; sport in Australia; Australia's sporting heritage; corruption of sport; control of sport; media and sport; inequality in sport; social issues in sport.

**Courses:** ED26, HM42, IF62

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► HMB470 PRACTICUM 1

In the first of the Human Movement dedicated Practicum units, students undertake in-depth experience at two different workplaces (40 hours each) while maintaining ongoing involvement in the School's clinics (20 hours). The student is provided with an extended opportunity to apply classroom learned knowledge and skills under the supervision of Human Movement Practitioners. Workplace involvement is preceded by a vocational skill seminar and workshop program while an interactive analysis program is instigated post practicum.

**Courses:** HL40, HL42, HL43, HM42

**Credit points:** 12

**Campus:** KG **Sem:** 1, 2

#### ► HMB471 PROJECT 1

Students in the Bachelor of Applied Science are required to undertake a project in Year 4. Students work in small groups on original topics. Work includes a literature review and the presentation of experimental hypotheses, research methodology, and analysis procedures. Groups present their research plans in seminars at the end of Semester 1.

**Courses:** HL42, HL43, HM42, HM45

**Credit points:** 12

**Campus:** KG **Sem:** 1, 2

#### ► HMB472 PROJECT 2

The project proposal developed in HMB471 is implemented followed by the analysis of results and publication of a report. Groups present their findings in seminars at the end of Semester 2.

**Courses:** HL42, HL43, HM42, HM45

**Prerequisites:** HMB471 **Credit points:** 12

**Campus:** KG **Sem:** 1, 2

#### ► HMB475 PRACTICUM 2

This includes a comprehensive vocational experience undertaken as a supervised full-time internship. Students are supervised in the performance of operational tasks including clinical, management and administration and further develop independent professional skills and knowledge. The internship is followed by a comprehensive reflective analysis of the experience.

**Courses:** HL42, HM42

**Credit points:** 36

**Campus:** KG **Sem:** 1, 2

#### ► HMB480 ADVANCED EXERCISE PRESCRIPTION

This is a companion unit to HMB382, and extends the understanding of how fitness assessment and exercise prescription can be applied to an individual. A number of different disease states, special populations and scenarios are used to examine the potential role of physical activity and appropriately prescribed exercise to maintain and improve functional capacity. A strong emphasis is placed on identifying the problems faced in fitness assessment and exercise prescription for special cases and conditions, and finding appropriate solutions.

**Courses:** HM42, HL38, HL68, HL88, IF62

**Prerequisites:** HMB382

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► HMB496 HEALTH EDUCATION CURRICULUM STUDIES 3

This unit will be available from 2006. It will extend the principles of professional practice established in HMB292 and HMB396 and further encourages the development of a critically reflective approach to the teaching in that area. It emphasises planning and teaching in the senior secondary school and extends a student's ability to make independent judgments about curriculum decisions within syllabus guidelines and broader systems policies, while considering national and international trends in education and society. The

unit also encourages exploration of current issues and emerging and future trends in subject areas

**Courses:** ED90, ED95 **Prerequisites:** HMB396  
**Credit points:** 12 **Campus:** KG

► **HMB615 EXERCISE PHYSIOLOGY**

This unit includes the following: bioenergetics; exercise metabolism; hormonal response to exercise; muscle structure and function; circulatory adaptations, respiration and acid-base balance during exercise; temperature regulation, training and conditioning; body composition and nutrition; fitness testing and assessment procedures.

**Courses:** ME46

**Contact hours:** 3 per week **Credit points:** 8  
**Campus:** KG **Sem:** 1

► **HMB617 WORKPLACE HEALTH**

This unit includes the following: history of workplace health; legal aspects; role of associated professionals; trends in mortality and morbidity; workplace health promotion agencies and programs; planning, development, promotion, implementation and evaluation processes.

**Courses:** ME46

**Contact hours:** 3 per week **Credit points:** 8  
**Campus:** KG **Sem:** 2

► **HMN202 DEVELOPING AND ASSESSING HIGHER ORDER THINKING SKILLS IN SCHOOL PHYSICAL EDUCATION**

This unit examines contemporary theories of teaching and learning and knowledge frameworks for school PE. It evaluates current models of teaching and learning and existing personal practices in PE in the context of learning theories and knowledge frameworks and creates new and alternative approaches to teaching and learning for the development and assessment of higher order thinking skills in school PE.

**Courses:** ED13, HL88 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

► **HMN203 APPLICATION OF THE SCIENCES TO TEACHING AND LEARNING IN PHYSICAL EDUCATION AND SPORT**

In this unit, students undertake the following: identify the key knowledge from the biophysical and socio-cultural sciences that pertain to the improvement of performance in physical activities and sports; analyse the relationship between the sciences and improvement of performance in selected physical activities and sports; design teaching and learning or coaching programs that promote understanding of the relationship between the sciences and performance in physical activity and sport; use selected software and technology to enhance the teaching and learning or coaching programs that promote understanding of the relationship between the sciences and performance in physical activity and sport.

**Courses:** ED13, HL88 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **HMP383 SPORT STUDIES PROJECT (RUGBY)**

The project provides students with an opportunity to conduct a study, or to trial a novel coaching technique, administrative procedure, assessment method or other innovative practice in a sports setting. The project topic builds on prior knowledge and skills acquired in other units. It will be chosen and approved after discussion with an academic supervisor, and with the agreement of any participating organisation. Students will prepare a report on the project and its outcomes.

**Courses:** HM34 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **HMP385 SPORT PRACTICUM (RUGBY)**

In this unit, students undertake a practicum placement in an approved sports setting. The tasks undertaken as well as the practicum site will be determined by agreement between the student, the academic supervisor, and the practicum site supervisor. Placements are chosen so as to extend and broaden the professional experience students may already have had in sport; thus placements may be in a sport or activity other than the student's principal area. Students will communicate regularly with supervisors, maintain a diary and prepare reports on and evaluation

of the activities undertaken during the placement.

**Courses:** HM34

**Campus:** EXT

**Credit points:** 12

**Sem:** 1

► **HMP389 ASSESSMENT IN SPORT (RUGBY)**

This unit acquaints students with contemporary methods used in sports assessment, focusing on physiological and biomechanical measures. Students acquire practical skills in assessment methods. In addition, lectures provide an overview of the theoretical basis of different tests, as well as knowledge concerning the rationale for each assessment, its application and interpretation. Consideration is given to issues such as the suitability of assessment methods for various sports and populations, and the use made of test data for decision-making.

**Courses:** HM34

**Campus:** EXT

**Credit points:** 12

**Sem:** 2

► **HMP390 RUGBY COACHING - PRINCIPLES AND SKILLS**

In this unit, students examine the role of the rugby coach and critically examine all the elements of effective coaching. The unit consists of four modules: the history and culture of rugby; training and match applications; technical and tactical aspects based on player performance, maturation and experience; analysis and application of various coaching styles and methodologies. Students focus on a number of pertinent questions and activities designed to help students to clarify and consolidate the main points raised in the readings, and to stimulate critical reflection on related questions.

**Courses:** HM34

**Campus:** EXT

**Credit points:** 12

**Sem:** 1

► **IBB101 BUSINESS IN AUSTRALIA**

This unit introduces international students and students new to Australia to the business environment of Australia. Students examine historical, socio-cultural, geographical, economic, political and other factors and contemporary issues that impinge upon doing business in Australia. Learning activities include case studies, field studies and industry analysis. Generic skills addressed include teamwork, report writing and presentation skills.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB101

**Campus:** GP

**Sem:** 1, 2

► **IBB202 INTERNATIONAL BUSINESS DEVELOPMENT AND FINANCE**

In this unit, students analyse the way international operations and performance of business can be put at risk by changing financial and regulatory conditions across borders and determine how best to manage the exposure to this risk. This unit examines the following: the evolution of the international financial system; the foreign exchange market; the types of foreign exchange rate exposures; managing exchange; translation and consolidation risks; assessing foreign direct investment targets; comparing the performance of foreign affiliates; operations exposure to regulatory risk of tax; investment and competition policy changes; country risk assessment; managing country risk exposure.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** BSB119; and BSB113 or BSB122  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MIB202

**Campus:** GP

**Sem:** 1, 2

► **IBB205 CROSS-CULTURAL COMMUNICATION AND NEGOTIATION**

The course develops students' abilities to identify and resolve problems in cross-cultural communication or negotiation situations where cultural differences have created misunderstandings or undesirable or unexpected outcomes. It first explores the concept of 'national culture' by considering the work of major theorists of cultural value dimensions - from Hall to Schwartz. Students are encouraged to analyse communication/negotiation process issues in terms of these

value dimensions and to practise managing the process of communication/negotiation to improve their outcomes.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61

**Prerequisites:** BSB119; BSB116 for students who commenced prior to 2002

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB205

**Campus:** GP

**Sem:** 1, 2

► **IBB208 EUROPEAN BUSINESS DEVELOPMENT**

This unit focuses on the major factors involved in the development of European business practices, organisational structures and government/business relations. Topics covered include the following: demographic change; agriculture; trade and colonisation; transport and communications; financial institutions and capital accumulation; intellectual and religious movements; economic theories; the role of government; war and revolution; industrialisation; big business; the Great Depression; social change. Various countries will be used as case studies.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** BSB119

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB208

**Campus:** GP

**Sem:** 1

► **IBB210 EXPORT MANAGEMENT**

This unit presents students with information critical for the successful planning, organisation, implementation and control of export operations. The unit is highly applied and covers practical aspects of the production, dispatch and distribution of products for international markets. Specifically the unit addresses legal, documentary, physical and financial challenges to the delivery of goods and services, and to the assured receipt of payment in return for that delivery. The processes of planning, market analysis, information gathering, cooperative arrangements with government and other firms are all considered. Contemporary developments in technological applications and business practices are illustrated.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF56, IF60, IF61, IF62

**Prerequisites:** BSB119

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB210

**Campus:** GP

**Sem:** 1, 2

► **IBB213 INTERNATIONAL MARKETING**

The aim of this unit is to provide students with a thorough understanding of the multiplicity of issues that impact on the development of international marketing strategies and plans and their operational implementation. The unit is highly applied and provides students with the following opportunities: to analyse global international firms, their marketing strategies and various international marketing issues in a variety of geographic and industry contexts; to evaluate methodologies and new practices for handling problems and issues typical of global and international markets and competition; to develop an operationally sound international marketing plan.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62

**Prerequisites:** BSB119, BSB126; or BSB116

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB213

**Campus:** GP

**Sem:** 1, 2

► **IBB217 ASIAN BUSINESS DEVELOPMENT**

This unit gives students an understanding of the historical foundations of the development of business in East and South East Asia. Material presented includes the traditional economic and social institutions in Asia and their changing impact on business since East Asia's integration into the international economy. Topics studied will include the following: the evolution of local firms and firm structures; the impact of western business and economic influences; local ideology and development policies; the rapid growth of Northeast Asia, the Asian NICs and ASEAN. The changing impact of the international economy upon business development within selected

East Asian economies is a unifying theme of this unit.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** BSB119 or BSB116  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB200  
**Campus:** GP **Sem:** 1

#### ► IBB223 EMERGING TECHNOLOGIES AND INTERNATIONAL BUSINESS

Globalisation and technology innovation are accelerating at a pace that will make them even more important in the new century. The international business environment and business activities themselves are reshaped by new emerging technologies. This unit is designed to give students an understanding of how emerging technologies drive globalisation and how emerging technology becomes an asset for enterprises' global operations. Topics covered include the process of innovation, changes to the production paradigm, technology transfer and the management of emerging technologies.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** BSB119 or BSB116  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB223  
**Campus:** GP **Sem:** 1

#### ► IBB231 BUSINESS STUDY TOUR TO CHINA

This unit is designed to build strong links between theoretical learning and the practical application of students' business studies; they undertake a practical investigation of the issues pertaining to doing business in The People's Republic of China. Students stay at Suzhou University, receive lectures from Suzhou University staff on issues of culture and business practices in China, experience the local culture, and undertake a range of industry visits as well as receiving presentations by Chinese and foreign executives. Students are required to participate in activities both before and after the trip and to develop and present research projects relevant to their own program of study.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** BSB119 or completion of 48 credit points of approved coursework  
**Contact hours:** 5 Designated Seminars (3 hours each) and 16 days full-time participation in lectures and industry site visits in China.  
**Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► IBB232 BUSINESS STUDY TOUR TO INDIA

The unit is designed to build strong links between theoretical learning and practical application of students' business studies; they undertake a practical investigation of the issues pertaining to doing business in India. Students stay at the Management Development Institute (MDI) Delhi, receive lectures from MDI staff on issues of culture and business practices in India, experience the local culture, and undertake a range of industry visits as well as receiving presentations by Indian and foreign executives. Students are required to participate in activities both before and after the trip and to develop and present research projects relevant to their own program of study.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** BSB119  
**Contact hours:** 5 Designated seminars (3 hours each) and 10 days full-time participation in lectures and industry site visits in India  
**Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► IBB300 INTERNATIONAL BUSINESS STRATEGY

This unit aims to develop student competencies in the analysis of issues and problems encountered by international firms in the formulation and implementation of business strategies. The unit emphasises the connection between core competencies, strategy and corporate performance and uses case studies to analyse the strategic

behaviour of global companies. Issues examined include the following: the forms of international involvement and entry mode strategies; organisational structures, control and cultural diversity; multinational versus global competitive strategies; the formulation and implementation of strategies of international cooperation and strategic alliances; small and medium enterprise (SME) strategies to compete in global markets.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** IBB213 or IBB210  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSB300, MGB330  
**Campus:** GP **Sem:** 1, 2

#### ► IBB301 INSTITUTIONAL DEVELOPMENT & BUSINESS DYNAMICS

This unit explores the relationship between organisational capabilities and business environments in the global economy. It uses information-related theories to analyse the performances of institutional frameworks, including hierarchies, inter-firm structures, and co-operatives. The unit examines organisational forms used in the past to identify variables that influence structural designs today.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** IBB213 or IBB210  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► IBB303 INTERNATIONAL LOGISTICS

This unit examines international logistics through the concepts of international distribution channels and international supply chain management. Strategy in managing international logistical constraints is emphasised with practical studies of contemporary international supply chain management in international industries. Traditional costs and financial aspects of supply chain management are considered. Contemporary issues are incorporated including the following: the impact of e-business on international logistics; the evolution of new technologies for 'smart' packaging, warehousing and international stock control; the combination of international services with goods products; recent technological developments in international transportation and product quality control.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** IBB210  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB303  
**Campus:** GP **Sem:** 2

#### ► IBB304 GLOBAL INDUSTRY ANALYSIS

The aim of this unit is to analyse the nature and structure of industry in national and international contexts to provide a suitable framework that can be used by students in the study of specific industries. Topics examined include the following: inter-industry dependencies; international location advantages; regional and interregional linkages; demand analysis; international transactions in information, goods, services and other products; analysing strategies to control markets through price and product positioning, applying these principles to specific Australian industries conducting international business.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61  
**Prerequisites:** BSB113; IBB213 or IBB210  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MGB309, MIB212  
**Campus:** GP **Sem:** 1

#### ► IBB306 RISK MANAGEMENT IN INTERNATIONAL BUSINESS

This unit aims to develop student competencies in analysing risk management issues in national and international contexts and building a strong appreciation of managing the organisational uncertainty in the current global environment. It introduces conceptual and practical applications of risk management techniques used in private and public organisations by combining lectures with practical 'hands-on' workshops. The unit examines the following: conceptual bases of risk management; international, national and sub-

national regulatory frameworks; corporate risk management in international firms; business continuity planning; security risk management; emergency response planning; managing crises in organisations; participatory 'desktop' simulations of crisis decision making.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** IBB202 or IBB210 or 96 credit points of approved study  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► IBB308 CONTEMPORARY BUSINESS IN EUROPE

Building upon the historical understandings established in the prerequisite unit, this unit analyses contemporary issues relevant to business in Europe. Areas of study include the following: the growth of regional cooperation in Europe; business and regional cooperation; European Union policies and impacts; challenges of doing business in the emerging markets of Central and Eastern Europe. Case studies of contemporary business activities in Europe, including entry to European markets, will be used in the analysis.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF60, IF61, IF62  
**Prerequisites:** IBB208 or MIB208 or 96 credit points of approved study  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB300  
**Campus:** GP **Sem:** 2

#### ► IBB311 GLOBALISATION AND THEORETICAL PERSPECTIVES ON INTERNATIONALISATION

This unit develops theoretical perspectives of the processes of globalisation and the internationalisation of business firms. It examines the globalisation debates, traces the evolution of international business theory, and provides a critique of the seminal theories. It provides an introduction to the process of research in international business. Aligned with the aims of the unit, students will develop and lead seminars and undertake a review of literature on theoretical and practical issues of globalisation and internationalisation.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF47, IF48, IF61  
**Prerequisites:** BSB113, BSB122; and IBB213 or IBB210  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► IBB312 SPECIAL TOPIC - INTERNATIONAL BUSINESS

This is an 'open-ended' unit where the opportunity is available for staff and visiting scholars to offer a specialised program of study.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61  
**Prerequisites:** IBB211  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB312  
**Campus:** GP **Sem:** 1, 2

#### ► IBB317 CONTEMPORARY BUSINESS IN ASIA

This unit gives students an understanding of the practical challenges of doing business in East Asia. It explains current cultural, social, institutional and regulatory factors that impact upon enterprises in Asia. The unit analyses business strategy, production and procurement, and distribution and marketing in select Asian markets. It addresses contemporary trends: market access; corporate governance; consumer demographics and tastes; the structure and competitiveness of local and foreign firms; integration of new business technologies; the rapid economic and legal reform taking place in East Asia.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF41, IF48, IF60, IF61, IF62  
**Prerequisites:** IBB217 or MIB200 or 96 credit points of approved study  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIB317  
**Campus:** GP **Sem:** 2

### ► IBB322 INDEPENDENT STUDY PROJECT - INTERNATIONAL BUSINESS

This unit enables students to pursue specific interests beyond the content offered in existing units. In this unit, students will undertake a guided course of study in an aspect of International Business approved by the Subject Area Co-ordinator and developed in consultation with an appointed supervisor. The unit may comprise, as established by a learning contract, guided readings, literature critiques, a research paper on a specific topic, or a project requiring application of theory to practice. The agreed format of assessment may include a literature review, a research paper, a plan of action, an oral or written examination, or a combination of a selection of these items of assessment.

**Courses:** BS56, IF05, IF09, IF28, IF30, IF47, IF48, IF61

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► IBN400 INDUSTRY ANALYSIS

This unit provides students with a detailed understanding of the particular industry or industries within which their organisation operates. A sound understanding of the nature of an industry requires the development of appropriate conceptual, analytical and operational skills. This unit provides the framework in which these dimensions are developed and applied to industries selected by the students for their assignment.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSN400  
**Campus:** GP **Sem:** 1

### ► IBN403 BUSINESS IN ASIA

The aim of this unit is to enable an intensive study of business and markets in Asia. The development of the major industries is examined, together with major intra-regional patterns of trade, commerce and finance. Significant economic, political and social factors determining developments are focused upon, as well as regulatory restraints governing market access. The student is required to undertake a project that requires the application of knowledge of the region to a business issue.

**Courses:** BS39, BS63, BS92, BS93, GS40, GS75, GS85

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN403  
**Campus:** GP **Sem:** 1, 2

### ► IBN404 BUSINESS IN EUROPE

This unit enables a more intensive study of business and markets in Europe. The development of the major industries is examined, together with intra-regional patterns of trade, commerce and finance. A particular focus is on the development of a single European market and its international implications. Economic, political and social factors determining developments are focused upon, as well as regulatory restraints governing market access. The student is required to undertake a project which requires the application of knowledge of the region to a business issue.

**Courses:** BS39, BS63, BS92, BS93, GS40, GS75, GS85

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN404  
**Campus:** GP **Sem:** 1

### ► IBN408 GLOBAL BUSINESS OPERATIONS

This core unit examines the forces of globalisation, the diversity of international environments and their impact on business functions at the operational level. It examines the processes and challenges of internationalising the business operation as firms strive to compete successfully in the global marketplace. Areas of study include the growth of international business and globalisation, international business motives and forms, the nature and challenges of the diversity of environments, and managing and controlling business operations. An international business simulation game is used to facilitate the understanding of business as a system of integrated operations and environments.

**Courses:** BS39, BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► IBN409 NEGOTIATING ACROSS BORDERS

This unit develops students' skills in negotiating intra- and inter-culturally. It provides students with a tool-box of negotiation skills and then explores the relationship between cultural value dimensions and negotiating behaviours. Students practise their negotiating skills with members of their own culture, in cross-cultural dyads and in multi-cultural teams to build confidence and capability in negotiating and influencing.

**Courses:** BS39, BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** GSN462  
**Campus:** GP **Sem:** 1, 2

### ► IBN410 INTERNATIONAL LOGISTICS MANAGEMENT

This unit presents an introduction to international logistics functions and develops a strategic approach to international business transactions and integration focusing on supply chain management. The unit introduces traditional and contemporary logistics concepts and describes international logistics operations including global transport systems, inventory management, materials handling, and information management. Global supply chain management cases and strategies are integrated throughout the unit.

**Courses:** BS39, BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

### ► IBN411 INTERNATIONAL BUSINESS FIELD STUDY

The unit involves a four-week visit to another country, preceded by five seminars and a guided readings component. During the visit, students receive lectures from local academics and briefings from managers working in the country. They participate in industry visits to local and international firms operating in that country. From these activities, students develop an understanding of the country in question and the issues, regulations and environmental factors affecting business operations or market entry.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 24  
**Campus:** GP **Sem:** 1, 2

### ► IBN412 INTERNATIONAL BUSINESS INTERNSHIP

Acceptance in IBN412 is dependent on the student securing a placement with an Australian or multinational organisation. The student undertakes the placement in a host organisation for a period of approximately sixteen weeks performing the role of an international business professional. The internship generally will take place in the later stages of the program after two semesters of class-based studies. The placement will be with an organisation in Australia or overseas. It is desirable that the placement is in a country other than the student's country of origin. The internship may be paid or unpaid.

**Courses:** BS93

**Campus:** GP **Credit points:** 48  
**Sem:** 1, 2

### ► IBN421 MARKETING INTERNATIONALLY

In this unit, students are exposed to the theoretical and planning aspects of marketing internationally. Through an applied approach, theoretical issues such as segmentation of international markets, life cycle, contingency and network approaches to international market entry choice, and market development and extension are addressed. Planning issues cover the strategic marketing processes involved, including international market research, and their application to regions and countries primarily in the Asia/Pacific region or Europe. Students are trained in the practical application of these theoretical and planning aspects through the development of an extensive international marketing plan.

**Courses:** BS63, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN421  
**Campus:** GP **Sem:** 1, 2

### ► IBN422 INDEPENDENT STUDY - INTERNATIONAL BUSINESS

This unit enables students to pursue specific interests beyond the content offered in existing units. In this unit, students undertake a guided course of study in an aspect of International Business approved prior to enrolment by the Subject Area Coordinator and developed in consultation with an appointed supervisor. The unit may comprise, as established by a learning contract, guided readings, literature critiques, a research paper on a specific topic, or a project requiring application of theory to practice. The agreed format of assessment may include a literature review, a research paper, a plan of action, an oral or written examination, or a combination of a selection of these items of assessment.

**Courses:** BS63, BS93

**Campus:** GP **Credit points:** 12  
**Sem:** 1, 2

### ► IBN426 SPECIAL TOPIC - INTERNATIONAL BUSINESS

This is an 'open-ended' unit where the opportunity will be available for staff and visiting scholars to offer a specialised program of study.

**Courses:** BS63, BS92, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN426  
**Campus:** GP **Sem:** 1, 2

### ► IBN431 INTERNATIONAL BUSINESS STUDY TOUR TO CHINA

The unit is designed round a two week study tour to China is intended to build strong links between theoretical learning and practical application of students' business studies. Students receive lectures from local academics on issues of culture and business practices in that country, experience the host culture, and undertake a range of industry visits. They also receive presentations by local and expatriate executives. Students are required to participate in activities both before and after the trip and to develop and present research projects relevant to their own program of study.

**Courses:** BS63, BS93

**Contact hours:** 5 designated seminars (3 hrs each). Full-time participation in lectures, briefings and industry site visits during study tour.

**Credit points:** 12

**Campus:** GP **Sem:** 1

### ► IBN432 INTERNATIONAL BUSINESS STUDY TOUR TO INDIA

The unit is designed to build strong links between theoretical learning and practical application of students' business studies; they undertake a practical investigation of the issues pertaining to doing business in a foreign country. Students receive lectures from local academics on issues of culture and business practices in that country, experience the host culture, and undertake a range of industry visits. They also receive presentations by local and expatriate executives. Students are required to participate in activities both before and after the trip and to develop and present research projects relevant to their own program of study.

**Courses:** BS63, BS93

**Contact hours:** 5 designated seminars (3 hrs each). Full-time participation in lectures, briefings and industry site visits during study tour.

**Credit points:** 12

**Campus:** GP **Sem:** 1

### ► IBN435 BUSINESS IN AUSTRALIA

This unit introduces students to the business environment in Australia. Students examine the geographical, historical, socio-cultural, political, regulatory, demographic, economic, legal, locational and other factors that have influenced, or still impinge upon, doing business in Australia in the current international environment. Learning activities include factory visits and industry analysis.

**Courses:** BS39, BS63, BS93, GS40, GS75, GS85

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MIN435  
**Campus:** GP **Sem:** 1, 2

**► IFN100 FULL-TIME MASTERS RESEARCH**

This unit provides full-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of the research.

**Courses:** JS52, LW52

**Credit points:** 48

**Campus:** GP, KG

**Sem:** 1, 2

**► IFN101 FULL-TIME MASTERS RESEARCH (EXTENSION)**

This unit provides full-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of the research.

**Courses:** JS52, LW52

**Credit points:** 48

**Campus:** GP, KG

**Sem:** 1, 2

**► IFN200 PART-TIME MASTERS RESEARCH**

This unit provides part-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of research.

**Courses:** JS52, LW52

**Credit points:** 24

**Campus:** GP, KG

**Sem:** 1, 2

**► IFN201 PART-TIME MASTERS RESEARCH (EXTENSION)**

This unit provides part-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of research.

**Courses:** LW52, JS52

**Credit points:** 24

**Campus:** GP, KG

**Sem:** 1, 2

**► ITB111 SOFTWARE DEVELOPMENT 1**

All Information Technology students need a fundamental knowledge of programming and an understanding of the processes and issues involved in the software development life cycle. Although not all Information Technology graduates will become programmers, all Information Technology professionals will be required to work with programmers at some time in their careers. Therefore students need to understand the constraints that arise in the process of software development. This unit provides students with a basis for the ongoing development of their programming knowledge and is a prerequisite for the unit Software Development 2.

**Courses:** IT21, IF29, IF38, IF48, IF58, IF59, IF90, IX09

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB410

**Campus:** CA, GP

**Sem:** 1, 2

**► ITB112 SOFTWARE DEVELOPMENT 2**

Software Development 2 builds on the unit Software Development 1 to the entry level needed by all majors. The unit prepares students for the further stage of Software Development 3 in the Software Engineering and Data Communications majors. Since successful software development relies on the re-use of one's own code and of 'third party' software libraries, Software Development 2 extends programming skills in more complex environments while actually doing less coding and relying more upon re-use. Thus this unit prepares students for future programming units in any major involving sophisticated data structures, industry standard 3GL languages, or large-scale software engineering.

**Courses:** IT21, IF29, IF38, IF58, IF59, IF90

**Prerequisites:** ITB111

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB411

**Campus:** GP

**Sem:** 1, 2

**► ITB113 SYSTEMS ARCHITECTURE**

Computer systems are fundamental to the activities of modern organisations. Hence all students

graduating from a course in Information Technology will be expected by employers to have a firm understanding of the terminology and concepts of computer systems, communications networks and systems software. This unit introduces students to these topics. This unit also serves as an entry point to further specialised studies in the fields of data communications and software engineering.

**Courses:** IT21, IF29, IF38, IF48, IF58, IF90, IX09

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB412

**Campus:** CA, GP

**Sem:** 1, 2

**► ITB114 NETWORKING SYSTEMS**

Computer systems and communications networks are essential to the activities of modern organisations. When students graduate from a course in Information Technology, employers expect them to have a sound understanding of the terminology and concepts of computer systems, communications networks and systems software. This unit provides students with an introductory study of communications network technologies, network operating systems, network administration and management, network applications and network security. The unit also serves as an entry point to further specialised studies in the fields of data communications and information systems security and software engineering. ITB114 is also offered at CA campus in Semester 2, 2004.

**Courses:** IT21, IF29, IF38, IF58, IF59, IF90, IX09

**Prerequisites:** ITB113

**Contact hours:** 4 per week

**Credit points:** 12

**Incompatible with:** ITB510

**Campus:** GP

**Sem:** 1, 2

**► ITB115 INTRODUCTION TO DATABASES**

In this unit, students will learn the following: basic database concepts and terminology; the creation and modification of a relational database schema using SQL; the retrieval and modification of the contents of a relational database using SQL; and the development of a database system in Access (a database management program). Students will also develop an understanding of the basics of designing user-interfaces, 3-level architecture, integrity constraints, security and privacy issues, and transaction processing.

**Courses:** IT21, IF29, IF38, IF48, IF58, IF79, IF90, IX09

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB225

**Campus:** CA, GP

**Sem:** 1, 2

**► ITB116 IT PROFESSIONAL STUDIES 1**

This unit introduces students to the professional skills required by industry of IT graduates. Using a contextualised IT project as a vehicle, students acquire skills in basic project management leading to the creative design and construction of a Web site. Skill development in this unit focuses on ethical and professional practices, team work, analytical and technical skills, information literacy, and oral, written and visual communication. In addition, the unit assists students to understand themselves as team members and as self-directed learners by providing effective strategies in each of these domains.

**Courses:** IT21, IF38, IF48, IF79, IF90, IX09

**Contact hours:** 4 per week

**Credit points:** 12

**Incompatible with:** ITB310

**Campus:** CA, GP

**Sem:** 1, 2

**► ITB117 IT PROFESSIONAL STUDIES 2**

This unit builds upon the content delivered in ITB116. Interwoven with building a web based software product, students continue to develop further skills in team work and a better understanding of group dynamics. Each product is formally presented and has appropriate documentation. Thus, this unit extends skills in report writing, oral and visual communication and teamwork. ITB117 is also offered at CA campus in Semester 1, 2005.

**Courses:** IT21, IF38, IF48

**Prerequisites:** ITB115, ITB116

**Contact hours:** 4 per week

**Credit points:** 12

**Incompatible with:** KWB010

**Campus:** GP

**Sem:** 1, 2

**► ITB118 ICT SYSTEMS LIFE CYCLE**

In this unit, students are introduced to the organisational and social contexts of Information Communication and Technology Systems. The life cycle of such systems (that is the series of stages that the system passes through from the beginning to the end of its useful life), and the roles of all the participants in that life cycle are explored. The impact that the development of systems has on an organisation and the importance of analysis of risks involved in the Systems Life Cycle are addressed. Systems architectures and alternative approaches to the development of systems are considered.

**Courses:** IT21, IF29, IF38, IF48, IF58, IF79, IF90, IX09

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB107

**Campus:** GP

**Sem:** 1, 2

**► ITB161 INFORMATION SECURITY FOR IT PROFESSIONALS**

Enterprises now acknowledge their continued survival depends on information technology services. For businesses of any size, the major risks are IT-based. Planning and executing any activity, legitimate or not, is difficult without IT services. Nationally and globally, governments recognise this central role of IT and are intensifying efforts to enforce good 'IT governance' ie ensuring the IT infrastructure complies with regulations while promoting enterprise goals. Consequently, even beginners in the IT profession are expected to understand the role of IT and security in IT service provision, and they should be able to discuss the elements of its practice. This unit enables students to recognise information security problems typically encountered in professional life.

**Courses:** IT21

**Prerequisites:** ITB113, ITB114, ITB115

**Contact hours:** 3 per week

**Incompatible with:** ITB623, ITB523, ITB543

**Campus:** GP

**Sem:** 1, 2

**► ITB218 APPLICATIONS PROGRAMMING**

Rapid Application Development (RAD) tools are increasingly dominating the development of commercial applications. This unit introduces students to development methods for commercial information systems, the principles of using structured design techniques and the implementation of such systems using Object Oriented Event Driven Programming (OOED) using Visual Basic.Net (VB.Net), a programming environment that is used extensively in industry. VB.Net is the latest development of the Visual Basic Programming language with complete Object Oriented Programming environment using Common Language Runtime. IT graduates are required to understand these new developments, in relation to implementing rapid, appropriate, and timely business applications in organisations.

**Courses:** IT21, IF38, IF48

**Prerequisites:** ITB111, ITB115

**Contact hours:** 4 per week

**Credit points:** 12

**Incompatible with:** ITB219, ITN218

**Campus:** GP

**Sem:** 1, 2

**► ITB222 BUSINESS SYSTEMS ANALYSIS**

This unit offers current conceptual approaches to dealing with complexity in the development of enterprise application systems. It focuses on functional and non-functional requirements elicitation, analysis object modelling, dynamic modelling, layered architecture design, object model design, GoF patterns, and the mapping of object models to code. Emphasis is placed on the practical application of techniques to real-world problems.

**Courses:** IT21, IF38, IF48

**Prerequisites:** ITB111 or ITN600

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

**► ITB223 4GL SYSTEMS**

This unit includes the following: characteristics of 4GL development environments; database creation and manipulation in a 4GL environment; principles of report and screen design; development of information systems.

**Courses:** IT21, IF38, IF48

**Prerequisites:** ITB229**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2**► ITB227 WEB APPLICATIONS**

This unit includes the following: design elements for interactive Web front ends; architecture of Web-enabled database applications; database design for Web-enabled database applications. Working as part of a team, students develop a fully functional dynamic Web application.

**Courses:** IT21, IF38, IF48**Prerequisites:** ITB115, ITB117**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITB823**Campus:** GP **Sem:** 1, 2**► ITB228 ENTERPRISE SYSTEMS**

This unit introduces a type of large-packaged software application named Enterprise Systems. After the successful completion of the unit, students have a comprehensive understanding of the following: ES Management; technical Architecture of SAP R/3 as an exemplar Enterprise System; a process walk through functional boundaries (spanning FI,MM,PP,CO) IV) the ES Lifecycle; implementation processes; implementation issues; integration with other systems (legacy and specialist); systems evolution; case study critique; future of enterprise systems.

**Courses:** IT21, IF38, IF48**Prerequisites:** ITB116**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► ITB229 INFORMATION SYSTEMS MODELLING**

In this unit, students consider the analysis of an information model: the static, transition, process and computational views of information; ORM notation and application; Z notation and application; developing the model; the relationship of these skills with other popular and/or proprietary methods such as ER. Practical application is to a range of small to large problems.

**Courses:** IT21, IF38, IF48**Prerequisites:** ITB115**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► ITB230 PROJECT**

This unit includes the following: systems analysis, design and implementation; testing; documentation; communication of results; management of time and resources.

**Courses:** IF38, IT21**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► ITB232 DATABASE SYSTEMS**

The unit introduces the theoretical foundations of databases and system implementation techniques, and gives an overview of emerging database technologies and applications. More specifically, it covers the following: file organisations and storage; query processing and optimisation; practical database design and tuning; transaction management; database security and authorization; enhanced data models for advanced applications.

**Courses:** IT21, IF48, IT40, IT35, IT45, IT38**Prerequisites:** Undergraduate: ITB115; Post-graduate: ITN200**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITN232**Campus:** GP **Sem:** 1, 2**► ITB233 ENTERPRISE SYSTEMS APPLICATIONS**

This unit presents an introduction to Enterprise Systems (SAP will be used as an example of an Enterprise System) with a focus on the core modules within these integrated systems. Core modules are: financial accounting (FI); cost management (CO); materials management (MM); sales and distribution (SD); production planning and control (PP); human resources (HR). The unit provides an overview of the business use of these components, their functionality, and the integration of them within Enterprise Systems.

**Courses:** IT21, IF38**Prerequisites:** IT students: ITB228; Business students: BSB112; Engineering students: BNB007**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► ITB236 OBJECT-ORIENTED ANALYSIS AND DESIGN**

This unit focuses on both the static and the dynamic aspects of the Object Model which are required in order to develop enterprise application systems. Object-oriented methodologies and methods are reviewed in order for the student to acquire some understanding of formal system's development. Design issues are then introduced. These cover object design, layered architecture design, patterns solutions, persistence, and the mapping of models to code. Students are required to complete projects using these techniques.

**Courses:** IT21, IF48, IT40, IT35, IT45, IT38**Prerequisites:** Undergraduate: ITB111; Post-graduate: ITN600**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITN236**Campus:** GP **Sem:** 1, 2**► ITB237 ADVANCED DATABASES**

In this unit students learn SQL-2003 advanced data definition features, including user-defined data types, inherited tables, and recursive views and triggers. In the area of data manipulation, students learn advanced functions and expressions, advanced predicates, SQL routines, embedded SQL and SQLJ, and advanced transaction management. With Microsoft Access, students learn about the theory and practice of OLE DB, ADO and VBA including the construction of Access Projects (ADPs) that allow Microsoft Access to be used at front-end to SQL Server. (This is subject to final approval)

**Courses:** IT21**Prerequisites:** ITB111, ITB115**Contact hours:** 3 per week **Credit points:** 12**Sem:** 2**► ITB239 ENTERPRISE DATA MINING**

This unit teaches the concepts of data and web mining to improve the effectiveness of better and faster decision making, and to discover and leverage the knowledge on the Web. This unit first covers a detailed overview of the data mining process and techniques, and then concentrates on applications of these techniques to web, e-commerce, document databases, and data from advanced applications. This unit is designed to allow students to develop skills related to intelligent data querying and management to support decision support systems through a widely used commercial tool.

**Prerequisites:** ITB115**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1**► ITB240 PROJECT (INFORMATION SYSTEMS)**

This unit includes the following: systems analysis, design and implementation; testing; documentation; communication of results; management of time and resources.

**Courses:** IT21, IF38, IF48**Contact hours:** 3 per week for Weeks 1 and 2, thereafter by arrangement with Supervisor**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► ITB241 INFORMATION TECHNOLOGY MANAGEMENT**

This unit includes the following: system selection processes; business process in IT; change management; implementation issues; project management; strategic IT; outsourcing; enterprise wide systems and e-business; disaster recovery planning.

**Courses:** IT21, IF38, IF48**Prerequisites:** ITB118**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** KWB010**Campus:** GP **Sem:** 1, 2**► ITB245 R/3 SYSTEMS ADMINISTRATION**

R/3 is a fully integrated, off the shelf, open, client/server software system designed to manage all the business information needs of large enterprises. The efficient functioning of an enterprise utilising R/3 can be directly related to the efficient functioning of the R/3 system. As it is the

system administrator's responsibility to ensure the efficient functioning of the R/3 system, this unit provides a practical introduction to the essential tasks of the R/3 systems administrator.

**Courses:** IT21**Prerequisites:** ITB245**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITN245**Campus:** GP **Sem:** 1**► ITB254 INTERACTIVITY DESIGN**

This unit includes the following: introduction to interactivity design and the usability engineering lifecycle; human cognition and perception and their effect on user interactivity; introduction to contextual analyses; the usability engineering life cycle; usability goal setting; planning and carrying out evaluation of interface designs; structured interactivity design methods; guidelines and standards for interface design; testing and evaluation interface designs; basics of support printed manuals, demonstration and discussion of prototypes; summary and review.

**Courses:** IT21, IT40, IT35, IT45, IT38**Prerequisites:** IT21: ITB227; IT40, IT35, IT45, IT38: ITN227 or permission of Unit Coordinator**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 2**► ITB257 MULTIMEDIA SYSTEMS**

This unit includes the following: multimedia authoring; cognitive aspects of multimedia; the media elements; still images, vector images and text; video and animation; sound (wave form, MIDI, voice); compression and transmission of multimedia; hypermedia; client/server considerations for multimedia delivery; programming development for multimedia; combining media; the future in multimedia.

**Courses:** IT21, IF48**Prerequisites:** ITB227**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITN257**Campus:** GP **Sem:** 1, 2**► ITB258 ABAP PROGRAMMING**

This unit includes the following: characteristics and features of the ABAP Workbench environment; ABAP data modelling tools; ABAP language basics; principles of report and screen design; development of reports and dialogue screens in ABAP; coding transactions in ABAP.

**Courses:** IT21, IT40, IT35, IT45, IT38**Prerequisites:** IT21: ITB218 or knowledge of SQL; IT40, IT35, IT45, IT38: ITN223**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITN258, ITN281**Campus:** GP **Sem:** 2**► ITB259 ADVANCED MULTIMEDIA TECHNOLOGIES**

This unit assumes students have an understanding of multimedia technologies, and focuses on integrating and enhancing their knowledge and skill. Students will design and develop a sophisticated product utilising at least a few of the following: cognitive aspects of multimedia; human-computer interaction; media elements; 3D and virtual reality; compression and transmission of multimedia; client/server considerations for multimedia delivery; development frameworks for multimedia; the future of multimedia.

**Courses:** IT21 **Prerequisites:** ITB227, ITB257**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** ITN259**Campus:** GP **Sem:** 1, 2**► ITB260 E-COMMERCE SITE DEVELOPMENT**

This unit presents the aims of an electronic commerce site: the business objectives; issues in a site: design, software, databases, payment, staffing, hosting and maintenance; applications development over the Internet; producing and evaluating site quality.

**Courses:** IT21, IF38**Prerequisites:** ITB227 or ITB524**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► ITB262 E-COMMERCE TECHNOLOGIES**

This unit provides an introduction to some of the information technologies being used to support electronic commerce. It will cover Java-based

technologies, including JDBC, servlets, and Java Server Pages, and XML-based technologies, including XSL. The unit will also cover a number of applications of electronic commerce, including electronic services and auctions.

**Courses:** IT21, IF38

**Prerequisites:** ITB115, ITB111

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITB263 WEB INTELLIGENCE FOR E-COMMERCE

This unit includes the following: the notions of agency; a taxonomy of intelligent agents; agent communication languages; the Belief-Desire-Intention agent model; web-based intelligent information agents; agent-mediated electronic-commerce; collaborative filtering in Recommender systems; data mining methods for web content analysis; statistical approaches for web users' profiling; automated negotiation in electronic market-places.

**Courses:** IT21, IF38

**Prerequisites:** ITB112

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITB264 INFORMATION SYSTEMS CONSULTING

This unit examines the strategic and operational environment of an IS consulting firm. It looks at the lifecycle of an IS consulting engagement and the issues and practices involved at each stage of that lifecycle. The IS consulting marketplace is appraised to give students a better understanding of the role and management of consultants within the sector. A team-based simulation exercise of the consultant engagement process is a central feature of this unit.

**Courses:** IT21, IF38, IF48, IT40, IT35, IT45, IT38

**Prerequisites:** Undergraduate: ITB117; IT40, IT35, IT45, IT38; ITN241

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITB266 PRINCIPLES OF INFORMATION MANAGEMENT

After characterisation of information management (IM) at three levels of interpretation: technical, analytical and strategic, this unit focuses on the IM activities and elements in the technical and analytical domains. The continuum of information utilisation at the operational level involving creation, distribution, organisation, retrieval, presentation and disposition is explored at the technical level. Meta-information standards for information management such as protocols for markup, transfer, organisation and query are also examined. The examination of analytical information management activities focuses on identification and evaluation of organisational information resources.

**Courses:** IT21

**Prerequisites:** ITB116

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► ITB267 DATA WAREHOUSING FOR DECISION SUPPORT

Rapid advancements in the field of commerce, particularly the emergence of flexible storage media and the Internet as an exchange and delivery channel, have led to an explosion in the quantity and quality of various types of data. The availability of massive amounts of data in electronic form, and the demand for better and faster decisions has made the role of data driven intelligence central in organisations. Information Technology graduates are required to understand these trends and novel developments in data-driven decision support systems, so they can facilitate efficient and accurate business decisions. This unit addresses this need.

**Courses:** IT21, IF38, IF48, IT40, IT35, IT45, IT38

**Prerequisites:** Undergraduate: ITB115, ITB232; IT40, IT35, IT45, IT38; ITN223

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB242

**Campus:** GP **Sem:** 1, 2

#### ► ITB272 INFORMATION TECHNOLOGY PROJECT MANAGEMENT

This unit includes: project coping; IT project success criteria; organisational cultures; group

dynamics and communication within teams; risk assessment; quality management; project scheduling/metrics and contingency planning.

**Courses:** IT21, IF38, IF48

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITB318 INFORMATION ORGANISATION 2

This project-based unit encompasses the planning and implementation of improved resources and information services to a user community. It requires the investigation of the information needs of a particular community, development of a proposal to address those needs, and the creation of an information product including instructional procedures for use of the product.

**Courses:** IT70

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITB322 INFORMATION RESOURCES

This unit introduces students to the role that information has in establishing competitive success within business. The unit introduces students to the many and varied information resources available. Students develop skills in identifying, accessing, evaluating and retrieving information resources to meet specific information needs. Students are also introduced to the emerging and evolving role of the information professional and the information service within the corporate setting. The unit helps students develop skills in teamwork and oral and written communication. Enrolments from outside the Faculty of Information Technology are encouraged.

**Courses:** IT21, IF38, IF48

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITB330 INFORMATION ISSUES

The unit examines trends in the information society where emerging relevant technologies allow considerable power to individuals, companies and governments in acquiring, processing, storing, disseminating, and using information. These changes also underscore the need for greater understanding of where and how IT (and other) information professionals are expected to formulate and exercise appropriate standards of professionalism and ethical conduct. Learning content relates to contemporary issues linked to the professional Codes of the Australian Computing Society, the Australian Library & Information Society, and similar professional bodies.

**Courses:** IT21, IF38, IF48

**Prerequisites:** ITB116

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN330

**Campus:** GP **Sem:** 1

#### ► ITB341 STRATEGIC INFORMATION AND KNOWLEDGE MANAGEMENT

The course attempts to describe the major approaches and the practical techniques that students are likely to encounter in formulating and implementing information and knowledge based strategic plans in a typical business organisation within a competitive environment. Students are guided systematically in acquiring the analytical and managerial skills required to develop information and knowledge based strategic plans aligned with organisational strategies, with a view to achieving organisational goals. The unit also deals with functions and practices of management that relate to the provision of information and knowledge services, and the utilisation of technology to support them.

**Courses:** IT21

**Prerequisites:** ITB116 or equivalent

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► ITB610 SOFTWARE DEVELOPMENT 3

Students continue to develop abstraction and disciplined programming, and use typical tools for the production and maintenance of large systems. Study of (key-indexed) table implementations is extended from the pre-requisite unit by examining advanced implementations. Students are introduced to the graph abstraction and its implementation and common algorithms are considered. Students become fully equipped (except for sufficient experience) to produce medium-scale systems in any modern program-

ming language. Software engineering and object-oriented techniques are introduced but in-depth study is left to their specific units.

**Courses:** IT21

**Prerequisites:** ITB112

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB421

**Campus:** GP **Sem:** 1, 2

#### ► ITB611 OBJECT TECHNOLOGY

This is a core unit in the Software Engineering major. Object technology is the predominant approach used to develop most new software systems. As graduates from a course in Information Technology, students will be expected by employers to be able to apply object technology effectively. This unit introduces students to the breadth of object-oriented concepts. Emphasis is placed on using object technology to solve complex problems.

**Courses:** IT21

**Prerequisites:** ITB610 or equivalent

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB448, ITN415, ITN661

**Campus:** GP **Sem:** 1, 2

#### ► ITB612 SOFTWARE ENGINEERING PRINCIPLES

This is a core unit in the Software Engineering major. Software development in the Information Technology industry is centred on the professional team. Furthermore, there is an established awareness of the importance of a disciplined approach to software engineering. This unit places emphasis on the benefits provided by a controlled software engineering process and effective teamwork both through lectures and through small group project work.

**Courses:** IT21, IF29, IF58, IF59, IF79, IF90

**Prerequisites:** ITB112

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB424

**Campus:** GP **Sem:** 1, 2

#### ► ITB613 ADVANCED PROGRAMMING LABORATORY

The development of large software systems has been changed markedly by the impact of software engineering processes. Students graduating from a course in Information Technology require knowledge of software engineering processes, software development and programming skills to be able to effectively develop software systems. This unit allows students to apply their knowledge in these areas to a large real world project.

**Courses:** IT21, IF29, IF58, IF59

**Prerequisites:** ITB612, ITB611

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB432

**Campus:** GP **Sem:** 1, 2

#### ► ITB614 PROGRAMMING LANGUAGES

In this unit, students learn about functional programming languages. Functional languages tend to contain more advanced/high level programming language constructs (such as higher order type systems and polymorphism) than imperative languages and so introduces students to a whole range of new programming language capabilities. Many of these advanced features are finding their way into more mainstream (imperative) programming languages, so understanding them now will position students well as software engineers of the future. The two facets of the unit are brought together by showing how functional languages can be used effectively to code language processing tasks.

**Courses:** IT21, IF59

**Prerequisites:** ITB112

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB433

**Campus:** GP **Sem:** 1, 2

#### ► ITB616 COMPUTER ARCHITECTURE

This unit forms part of the core of the Software Engineering major of the BIT degree. The unit continues the investigation of the architecture of computer systems and the system software from the prerequisite unit ITB113. Programming at the assembly language level is used to provide a practical approach to understanding the interaction between components of a computer system. Material covered in the unit includes a comparison of different CPU designs and an introduction to digital circuit design and different computing architectures.

**Courses:** IT21, IF29, IF59

**Prerequisites:** ITB113

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB420

**Campus:** CA, GP

**Sem:** 1, 2

### ► ITB617 CONCURRENT AND DISTRIBUTED SYSTEMS

This unit covers the concepts, structure and mechanisms of modern day operating systems. Central to an operating system are processes that work concurrently to perform system and user tasks. This idea of concurrency is studied in detail in this unit. It also looks at distributed systems and software (middleware) that are required to support distributed applications. Completion of this unit enables students to undertake the final year operating system elective (UNIX Systems Programming and Administration).

**Courses:** IT21, IF59

**Prerequisites:** ITB113, ITB610

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB427

**Campus:** GP

**Sem:** 1, 2

### ► ITB624 INTERNETWORKING

Networks based on the TCP/IP Protocols are the framework for most user networking activities today. Students wishing to specialise in data communications need a solid grounding in these protocols and their related elements. This unit helps students understand the fundamental concepts, processes and operations involved in networking, and also provides a platform for them to undertake other studies in data communication.

**Courses:** IT21, IF29, IF58, IF59, IF90

**Prerequisites:** ITB114

**Contact hours:** 3.5 per week **Credit points:** 12

**Incompatible with:** ITB524, ITN524

**Campus:** GP

**Sem:** 1, 2

### ► ITB625 NETWORK ADMINISTRATION

Data Communications graduates are expected to possess practical skills in various aspects of the installation and management of communications systems, particularly local area networks. This advanced-level unit builds on students' prior knowledge of TCP/IP protocols, networking technologies, operating systems and PC hardware.

**Courses:** IT21

**Prerequisites:** ITB624

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB525, ITB535

**Campus:** GP

**Sem:** 1, 2

### ► ITB626 MANAGEMENT OF NETWORK SYSTEMS

Network Management is vital to the overall control and operation of computer networks and their interconnection on a local, national and global basis. This unit helps students acquire the skills to build integrated management systems, adapt policies to a diverse networking environment, and evaluate current industry standards.

**Courses:** IT21

**Prerequisites:** ITB625

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB565

**Campus:** GP

**Sem:** 1, 2

### ► ITB627 NETWORK TECHNOLOGIES

The Data Communications graduate must have a deep knowledge of the operation of the various network components and protocols. The Data Communications graduate must also understand that the choice of different network technologies may have a substantial effect on the overlying applications. This unit gives students a detailed view of how different network technologies work and perform in today's networks.

**Courses:** IT21

**Prerequisites:** ITB114, MAB209, or MAB177

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB527, ITN527, ITB538

**Campus:** GP

**Sem:** 1, 2

### ► ITB628 NETWORK PLANNING

Data Communications graduates will often be required to plan either new networks or the upgrading of existing networks. This advanced level unit exposes students to methodologies and procedures which are useful in addressing the issues involved in network planning. The unit builds on previously acquired skills and knowledge relating to data communications.

**Courses:** IT21

**Prerequisites:** ITB627

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB551

**Campus:** GP

**Sem:** 1, 2

### ► ITB629 NETWORK SERVICES

Graduates in software engineering and data communications require an understanding of the theoretical and practical concepts of network services and communication. This unit introduces students to the design, implementation and operation of network based applications. Students gain experience with distributed data and intranet client server applications. This unit assumes students have a basic understanding of networking issues and a good understanding of programming concepts. Theory and practical skills taught in this unit will be useful if students intend studying advanced Data Communications units.

**Courses:** IT21 **Prerequisites:** ITB112, ITB624

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB529

**Campus:** CA, GP

**Sem:** 1, 2

### ► ITB640 ARTIFICIAL INTELLIGENCE

An unprecedented wealth of scientific, medical, demographic and financial data is being generated. Human attention has become a precious resource. So, we must find ways to automatically analyse, classify and summarize data. There is also a need to develop adaptive and autonomous systems capable of performing dangerous or tedious tasks. This unit introduces the methods and tools needed to achieve computational intelligence. This body of knowledge is becoming a prominent part of the culture of the information technology professional.

**Courses:** IT21 **Prerequisites:** ITB112, MAB209

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB442, ITB463, ITN445, ITB461, ITN461

**Campus:** GP

**Sem:** 2

### ► ITB641 COMPONENT AND NETWORK APPLICATIONS

Creating software systems using off-the-shelf software components will form a significant part of software engineering in the future. Component technology serves as the enabling technology for this approach, and any significant system will require network communication to support distributed interaction between software components. This unit covers both component technology and networking in component software applications. It builds on more general knowledge of software development and engineering. This unit is an elective in the Software Engineering major, and the Electronic Commerce & Emerging Technologies major.

**Courses:** IT21

**Prerequisites:** ITB611

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB466, ITB564

**Campus:** GP

**Sem:** 1

### ► ITB642 WEB APPLICATION DEVELOPMENT

The World Wide Web has become the most important computer system. However designing software for the web is rather different from that for stand alone PC applications. This unit provides students with a high level understanding of the structure of web based systems and the technologies used to develop them. By looking at how these technologies have evolved, students are in a better position to comprehend and critically evaluate future web technology offerings.

**Courses:** IT21

**Prerequisites:** ITB611

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB471

**Campus:** GP

**Sem:** 2

### ► ITB643 UNIX SYSTEMS PROGRAMMING

The UNIX operating system is regarded as one of the most powerful, versatile, and flexible operating systems in the computer world. Its popularity is due to many factors, including its ability to run in a wide variety of machines, from micros to supercomputers. This unit introduces you to the programming and system administration of the UNIX operating system.

**Courses:** IT21

**Prerequisites:** ITB617

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB469

**Campus:** GP

**Sem:** 1

### ► ITB644 WINDOWS ADMINISTRATION

Computer Systems in organisations, large and small, consist of workstations connected by a local area network. Organisations have become dependent on the effective and efficient operation of such complex computer systems. The administration of networked computer systems consisting of system configuration, operation, maintenance and optimisation is often entrusted to information technology professionals. The Microsoft Windows server operating system is being widely adopted as a network operating system. This unit provides the necessary technical background for effective administration of networked computer systems using Windows Server software. Hands-on laboratory practice is an essential part of this elective unit.

**Courses:** IT21

**Prerequisites:** ITB617

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB533, ITB457 & ITB470

**Campus:** GP

**Sem:** 2

### ► ITB645 NETWORK SECURITY

IT graduates working in the security industry need to have an understanding of networks and network security, particularly in regard to the commercial applications on the Internet. This unit builds on foundations laid in Data Security and gives a comprehensive coverage of the management issues, risks, and security technologies associated with electronic payment systems and electronic commerce.

**Courses:** IT21

**Prerequisites:** ITB623, ITB624, MAB209

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB569

**Campus:** GP

**Sem:** 2

### ► ITB646 CRYPTOGRAPHIC FUNDAMENTALS

As an IT professional, students may be required to either evaluate or implement network security procedures. As cryptographic techniques are widely used to implement network security, students need to understand the mathematical concepts underlying IT security. These concepts, presented in this unit, include cryptology, classical ciphers, modern ciphers and the applications of cryptology.

**Courses:** IT21

**Prerequisites:** MAB209 or MAB177

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB548, ITB566, ITN566, ITN512, ITN581

**Campus:** GP

**Sem:** 1

### ► ITB647 ADVANCED PROGRAMMING TECHNOLOGY

This elective unit is designed to complement earlier basic programming units to enhance students' abilities to cope with more advanced programming techniques and technologies. This will increase their effectiveness and value as programmers and endow them with a more well-rounded skill set that will differentiate students as professionals or experts rather than beginners.

**Courses:** IT21

**Prerequisites:** ITB111, ITB112 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► ITB648 GRAPHICS

As processing power increases so does the expectation for more sophisticated visual representation in such areas as advertising, CAD systems, simulators, digital entertainment and virtual reality. This unit introduces the basics of 3D computer graphics in a way that allows the understanding of how a synthesised 3D environment can be represented, manipulated and subsequently generated onto screen.

**Courses:** IT21

**Prerequisites:** ITB610

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB441

**Campus:** GP

**Sem:** 2

### ► ITB649 OBJECT MODELLING FOR GAMES DESIGN

This is a core unit in the double degree, IF90, and an elective unit in the BIT degree. Object modelling techniques are fundamental to any real time 3D animation system, whether it be used for

gaming, simulation, film or virtual reality. Traditionally animation includes such techniques as keyframe and kinematics. With the increased CPU power and the incorporation of a GPU (graphics processing unit) the ability to animate objects in real time is allowing more sophisticated interaction and the exhibition of the merger of games/simulation and film.

**Courses:** IT21, IF90

**Prerequisites:** ITB648, ITB611

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB460, ITN460

**Campus:** GP

**Sem:** 1

#### ► ITB650 COMPUTATIONAL INTELLIGENCE

Modern computer controlled machinery is expected to relieve human operators from routine control actions, operating decisions, failure diagnostics, and maintenance operations. Computational Intelligence methods are an important element in the achievement of this goal. This unit introduces the four main methods from the field of computational intelligence and relates them to applications on real time control and embedded systems. The unit assists students in writing software that uses sensor information for controlling purposeful actions of machines.

**Courses:** IT21 **Contact hours:** 3 per week

**Credit points:** 12 **Incompatible with:** ITB849

**Campus:** GP

**Sem:** 1

#### ► ITB651 PROJECT 1

Students graduating from a course in Information Technology are expected by employers to be able to complete, on time, a medium size programming project. This project unit allows you to further develop your software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT21 **Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** ITB447, ITB576

**Campus:** GP

**Sem:** 1, 2

#### ► ITB652 PROJECT 2

Students graduating from a course in Information Technology are expected by employers to be able to complete, on time, a medium size programming project. This project unit allows you to further develop your software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT21

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB446, ITB567

**Campus:** GP

**Sem:** 1, 2

#### ► ITB653 SPECIAL TOPIC

This unit is designed to allow for significant development of, or emphasis on, aspects of Software Engineering or Data Communications not dealt with in other course units. Selected topics and study areas are offered as required when the expertise is available. Students should see School of Software Engineering and Data Communications announcements for details of topics.

**Courses:** IT21

**Campus:** GP **Credit points:** 12

**Sem:** 2

#### ► ITB823 WEB SITES FOR ELECTRONIC COMMERCE

This unit includes the following: systems analysis and design for e-commerce systems; the use of databases to store, alter and retrieve information; creation of Internet based dynamic webpages using commonly available authoring tools.

**Prerequisites:** BSB112

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITB825 ELECTRONIC BUSINESS INFORMATION SYSTEMS

This unit introduces students to the following: information technology in organisations; the way in which information systems technologies support key organisational functions; what information resources are available to them; how various organisations' staff are involved in the systems development process. How organisations use these technologies and how they plan for, develop and implement technology applications are considered.

**Courses:** BS56, IF26, IF28, IF30, IF37, IF41,

IF47, IF48, IF57, IF60, IF62, IF72

**Prerequisites:** BSB112 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► ITB844 PROJECT (IF59)

Students in IF59, either individually or in small groups, undertake a substantial project relevant to the needs of industry and designed to provide insight into industrial requirements. Each project is carried out under the supervision of a staff member whose interests lie in the field of the project. Before work commences on the project, the student(s) and supervisor must agree on the topic and the scope of the work to be attempted. This unit is offered over two semesters.

**Courses:** IF59

**Campus:** GP

**Credit points:** 24

**Sem:** 1, 2

#### ► ITB847 COMPUTATIONAL INTELLIGENCE

Modern computer controlled machinery is expected to relieve human operators from routine control actions, operating decisions, failure diagnostics and maintenance operations. Computational intelligence methods are an important element in the achievement of this goal. This unit introduces the four main methods from the field of computational intelligence and relates them to applications on real time control and embedded systems. The unit assists students in writing software that uses sensor information for controlling purposeful actions of machines.

**Courses:** ME40

**Contact hours:** 3

**Campus:** GP

**Prerequisites:** EEB411

**Credit points:** 12

**Sem:** 1

#### ► ITB849 INTRODUCTION TO TECHNICAL COMPUTING

This unit assists students to develop problem-solving and programming skills essential in professional technical programming and used in many Engineering and Information Technology majors. The skills are transferable to other programming languages and applications. The unit introduces students to the MATLAB programming environment which is particularly useful for engineering students who will use it later in their studies for various programming and data analysis tasks.

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITB851 ADVANCED TECHNICAL COMPUTING

This unit introduces the C programming language, and object oriented programming C++. The Unix and C programming environments are major tools used in the development of embedded system applications. Object oriented programming is a major software engineering paradigm. In recent years, object technology has become an important approach to software development. Most new software systems are developed using object-oriented techniques. Students graduating from a course having significant Information Technology content will be expected by employers to be familiar with object technology. This unit introduces students to object oriented concepts. Emphasis is placed on using object technology to solve complex technical engineering oriented problems.

**Prerequisites:** ITB849

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITD111 SOFTWARE DEVELOPMENT 1

All Information Technology students need a fundamental knowledge of programming and an understanding of the processes and issues involved in the software development life cycle. Although not all Information Technology graduates will become programmers, all Information Technology professionals will be required to work with programmers at some time in their careers. Therefore students need to understand the constraints that arise in the process of software development. This unit provides students with a basis for the ongoing development of their programming knowledge and is a prerequisite for the unit Software Development 2.

**Courses:** IT10, IF06, QC03

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** ITD410

**Campus:** KG

**Sem:** 1, 2, 3

#### ► ITD112 SOFTWARE DEVELOPMENT 2

Software Development 2 builds on the unit Software Development 1 to the entry level needed by all majors. The unit prepares students for the further stage of Software Development 3 in the Software Engineering and Data Communications majors. Since successful software development relies on the re-use of one's own code and of 'third party' software libraries, Software Development 2 extends programming skills in more complex environments while actually doing less coding and relying more upon re-use. Thus this unit prepares students for future programming units in any major involving sophisticated data structures, industry standard 3GL languages, or large-scale software engineering.

**Courses:** IT10

**Contact hours:** 4 per week

**Incompatible with:** ITD411

**Campus:** KG

**Prerequisites:** ITD111

**Credit points:** 12

**Sem:** 1, 2, 3

#### ► ITD113 SYSTEMS ARCHITECTURE

Computer systems and communications networks are fundamental to the activities of modern organisations. Hence all students graduating from a course in Information Technology will be expected by employers to have a firm understanding of the terminology and concepts of computer systems, communications networks and systems software. This unit introduces students to computer systems, communications network technologies, and systems software. This unit also serves as an entry point to further specialised studies in the fields of data communications and software engineering.

**Courses:** IT10, IF06, QC03

**Contact hours:** 4 per week

**Incompatible with:** ITD412

**Campus:** KG

**Credit points:** 12

**Sem:** 1, 2, 3

#### ► ITD114 NETWORKING SYSTEMS

Computer systems and communications networks are essential to the activities of modern organisations. When students graduate from a course in Information Technology, employers expect them to have a sound understanding of the terminology and concepts of computer systems, communications networks and systems software. This unit provides students with an in-depth study of communications network technologies, network operating systems, network administration and management, network applications and network security. The unit also serves as an entry point to further specialised studies in the fields of data communications and information systems security and software engineering.

**Courses:** IT10, IF06, QC03

**Contact hours:** 4 per week

**Incompatible with:** ITD510

**Campus:** KG

**Credit points:** 12

**Sem:** 1, 2, 3

#### ► ITD115 INTRODUCTION TO DATABASES

In this unit, students learn the following: basic database concepts and terminology; the creation and modification of a relational database schema using SQL; the retrieval and modification of the contents of a relational database using SQL; and the development of a database system in Access (a database management program). Students also develop an understanding of the basics of designing user-interfaces, 3-level architecture, integrity constraints, security and privacy issues, and transaction processing.

**Courses:** IT10, IF06, QC03

**Contact hours:** 4 per week

**Incompatible with:** ITD225

**Campus:** KG

**Credit points:** 12

**Sem:** 1, 2, 3

#### ► ITD116 IT PROFESSIONAL STUDIES 1

This unit introduces students to the professional skills required by industry of IT graduates. Using a contextualised IT project as a vehicle, students acquire skills in basic project management leading to the creative design and construction of a Web site. Skill development in this unit focuses on ethical and professional practices, team work, analytical and technical skills, information literacy, and oral, written and visual communication. In addition, the unit assists students to understand themselves as team members and as self-directed

learners by providing effective strategies in each of these domains.

**Courses:** IT10, IF06, QC03

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

#### ► ITN100 RESEARCH METHODOLOGY

In this unit, students are introduced to the research process, research quality control, research project management, and research methodology. Students examine how to source relevant literature, critique results, manage a research project, and write a research proposal.

**Courses:** IT28, IT29, IT30, IT35, IT40, IT60, IF49

**Corequisites:** ITN110 (corequisite for Honours only) or equivalent

**Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITN142 MAJOR PROJECT (IS) FULL-TIME

An appropriately sized problem is formulated in consultation with one or more project supervisors in either the School of Information Systems or the School of Software Engineering and Data Communications, and is usually associated with one of the research interests within the School. Student and supervisor must agree on a topic, scope and semester plan for the work to be attempted. At the end of the semester, the outcome of the investigation is presented to the School both orally and in written form.

**Courses:** IT40, IT35

**Prerequisites:** ITN100

**Contact hours:** By arrangement with the supervisor of the project. Minimum contact should consist of one meeting per week.

**Credit points:** 48  
**Campus:** GP **Sem:** 1, 2

#### ► ITN161 INFORMATION SECURITY FOR IT PROFESSIONALS

Enterprises now acknowledge their continued survival depends on information technology services. For businesses of any size, the major risks are IT-based. Planning and executing any activity, legitimate or not, is difficult without IT services. Nationally and globally, governments recognise this central role of IT and are intensifying efforts to enforce good 'IT governance' ie ensuring the IT infrastructure complies with regulations while promoting enterprise goals. Consequently, even beginners in the IT profession are expected to understand the role of IT security in IT service provision, and to be able to discuss the elements of its practice. This unit enables you to recognise information security problems typically encountered in professional life.

**Courses:** IT45/38, IT40/35

**Prerequisites:** IT45/38: ITN200, ITN601; IT40/35: Nil

**Contact hours:** 3 per week  
**Incompatible with:** ITB623, ITB523, ITN523, ITZ523, ITB543, ITN511, ITN663  
**Campus:** GP **Sem:** 1, 2

#### ► ITN162 PROJECT (IS)

An appropriately sized problem is formulated in consultation with one or more project supervisors, in either the School of Information Systems or the School of Software Engineering and Data Communications, and is usually associated with one of the research interests within the School. Student and supervisor must agree on a topic, scope and semester plan for the work to be attempted. At the end of the semester, the outcome of the investigation is presented to the School both orally and in written form.

**Courses:** IT35/IT40 **Credit points:** 24  
**Campus:** GP **Sem:** 1, 2

#### ► ITN200 DATABASE SYSTEMS

The unit introduces students to the following: fundamental information concepts; rules, facts, and database systems; relational database theory; implementing and manipulating databases; building database systems; capturing enterprise objectives; rule and policy in a database system.

**Courses:** IT38, IT45 **Contact hours:** 3 per week  
**Credit points:** 12 **Incompatible with:** ITN212  
**Campus:** GP **Sem:** 1, 2

#### ► ITN201 ENTERPRISE ARCHITECTURE

The unit presents a holistic and integrated view of complex enterprises through the use of enterprise architecture frameworks. These frameworks integrate the multiple dimensions and views of complex organisations and give you a coherent appreciation of alternative modelling techniques used by different sets of professionals designing, implementing and maintaining infrastructure and information systems.

**Courses:** IT38, IT45

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITN218 APPLICATIONS PROGRAMMING

Rapid Application Development (RAD) tools are increasingly dominating the development of commercial applications. This unit introduces students to development methods for commercial information systems, the principles of using structured design techniques and the implementation of such systems using Object Oriented Event Driven Programming (OOED) using Visual Basic.Net (VB.Net), a programming environment that is used extensively in industry. VB.Net is the latest development of the Visual Basic Programming language with complete object oriented programming environment using common language runtime. Information Technology graduates are required to understand these new developments, features and trends.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** IT45, IT38: ITN200, ITN600

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB218, ITN219  
**Campus:** GP **Sem:** 1, 2

#### ► ITN220 ISSUES IN IT MANAGEMENT

This unit explores aspects of Information Systems Technology judged to be of current or potential importance. These include matters relating to standards and emerging technologies as well as to social and ethical considerations.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** ITN241

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITN223 4GL SYSTEMS

This unit includes the following: characteristics of 4GL development environments; database creation and manipulation in a 4GL environment; principles of report and screen design; development of information.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** IT45, IT38: ITN200

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITB223  
**Campus:** GP **Sem:** 2

#### ► ITN225 JAVA FOR E-COMMERCE

This unit introduces and explores the J2EE suite of e-commerce related application programming tools: JDBC/ODBC database connectivity; servlets; Java Server Pages; java beans; enterprise java beans. To do this, it makes use of the Java programming language and considers several design issues related to the development and deployment of J2EE based applications. The subject also introduces concepts associated with distributed information systems and issues related to their deployment and access and distributed system issues in general.

**Courses:** IT38, IT45, IT35, IT40

**Prerequisites:** IT38, IT45: ITN200

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► ITN227 WEB APPLICATIONS

This unit includes the following: design elements for interactive Web front ends; architecture of Web-enabled database applications; database design for Web-enabled database applications. Working as part of a team, students develop a fully functional dynamic Web Application.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** IT45, IT38: ITN200, ITN600

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITN228 ENTERPRISE SYSTEMS

This unit introduces a type of large-packaged software application named Enterprise Systems.

After the successful completion of the unit, students have a comprehensive understanding of the following: ES Management; technical Architecture of SAP R/3 as an exemplar Enterprise System; a process walk through functional boundaries (spanning FI,MM,PP,CO) IV) the ES Life-cycle; implementation processes; implementation issues; integration with other systems (legacy and specialist); systems evolution; case study critique; future of enterprise systems.

**Courses:** IT35, IT40, IT38, IT45

**Prerequisites:** IT38, IT45: ITN201

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITN233 ENTERPRISE SYSTEMS APPLICATIONS

This unit presents an introduction to Enterprise Systems with a focus on those modules and platforms that are currently considered critical to competitive advantage by companies. These modules include the following: financial accounting (FI); cost management (CO); customer relationship management (CRM); supply chain management (SCM); business analytics, portals and related technology platforms. The unit provides an overview of the business use of these components, their functionality and the integration of them within Enterprise Systems and business.

**Courses:** IT38, IT45, IT35, IT40

**Prerequisites:** ITN228

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITN235 DISTRIBUTED OBJECT INFORMATION SYSTEMS

Major topics will include the following: aspects of object orientation; distributed and parallel systems (eg concurrency and performance); the space based programming paradigm; the Java-Board implementation; models of distributed object interactions. Students are expected to contribute to the group through informal discussions of their research projects, from formulation to final presentation of research outcomes.

**Courses:** IT40, IT35

**Prerequisites:** ITN262  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITN241 INFORMATION TECHNOLOGY MANAGEMENT

This unit prepares the student to recognise the breadth of resources available for managing a modern IT unit and how these resources may be applied efficiently and effectively through 'good' decision making. The unit approaches this aim by presenting operational, tactical and strategic issues involved in managing an information technology unit, including the following: project management; system procurement; e-business; outsourcing; business process management; managing knowledge workers; disaster recovery planning; business/IT alignment.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** IT45, IT38: ITN201

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN251  
**Campus:** GP **Sem:** 1

#### ► ITN245 R/3 SYSTEMS ADMINISTRATION

R/3 is a fully integrated, off the shelf, open, client/server software system designed to manage all the business information needs of large enterprises. The efficient functioning of an enterprise utilising R/3 can be directly related to the efficient functioning of the R/3 system. As it is the system administrator's responsibility to ensure the efficient functioning of the R/3 system, this unit provides a practical introduction to the essential tasks of the R/3 systems administrator.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** ITN228

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITN246 MINOR PROJECT 1 (IS)

In this unit, students may pursue a specialised area or broaden their knowledge in an area of relevance to their employment. Topic is decided by agreement between the student and a staff member acting a supervisor. A short 20 minute demonstration and/or presentation is required

before the due date for submitting the report in last week of the semester.

**Courses:** IT40, IT35, IT45, IT38

**Contact hours:** By arrangement with the supervisor of the project. Minimum contact should consist of one meeting per week.

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► ITN248 MINOR PROJECT 2 (IS)

Students may pursue a specialised area or broaden their knowledge in an area of relevance to their employment. Topic is decided by agreement between the student and a staff member acting as a supervisor. A short 20 minute demonstration and/or presentation is required before the due date for submitting the report in the last week of the semester.

**Courses:** IT40, IT35, IT45, IT38

**Contact hours:** By arrangement with the supervisor of the project. Minimum contact should consist of one meeting per week.

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► ITN252 PROCESS ENGINEERING

This unit includes the following: (1) Business Process Engineering: objectives and interrelationships; business process reengineering; business process management; business process maturity management; (2) Business Process Modelling: objectives and interrelationships; methodologies and tools; the ARIS approach; purposes of business process modelling; (3) Process-based Enterprise Systems Management: enterprise systems selection; enterprise systems implementation; enterprise systems benefit realisation; (4) Case Studies in Process Engineering

**Courses:** IT35, IT40, IT38, IT45

**Prerequisites:** ITN228

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► ITN253 CASE STUDIES IN ENTERPRISE SYSTEMS

This unit presents industry projects which relate to business process management, process outsourcing, organisational change, implementation issues (such as SAP, workflow management, document management), performance measurement.

**Courses:** IT35, IT40, IT38, IT45

**Prerequisites:** ITN252

**Corequisites:** ITN228, ITN233

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITN282

**Campus:** GP

**Sem:** 1, 2

#### ► ITN255 KNOWLEDGE MANAGEMENT

The unit focuses primarily on three main areas of understanding: knowledge management fundamentals; knowledge management for IS consulting practices; knowledge strategies used to support IS operations. The content is drawn from existing scientific literature and more recent research carried out in the Information Systems Management Research Group (ISMGR) at QUT. Teaching approaches include simulations, written case studies, and 'living case studies' that involve visiting KM staff from firms. There is no exam in this subject.

**Courses:** IT38, IT45, IT35, IT40

**Prerequisites:** ITN241 or ITN266

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITN257 MULTIMEDIA SYSTEMS

This unit addresses the following: multimedia authoring; cognitive aspects of multimedia; the media elements; still images; vector images and text; video and animation; sound (wave form, MIDI, voice); compression and transmission of multimedia; hypermedia; client/server considerations for multimedia delivery; programming development for multimedia; combining media; the future in multimedia.

**Courses:** IT38, IT45, IT30, IT45

**Prerequisites:** ITN227

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB257

**Campus:** GP

**Sem:** 1, 2

#### ► ITN259 ADVANCED MULTIMEDIA SYSTEMS

This unit extends students' knowledge of interactive multimedia system technologies including image, sound, video and current advances in 3D, virtual reality, wireless devices and delivery systems. The unit provides them with the knowledge required to contend with existing and future technical problems, and integrate this knowledge in a team environment by creating an interactive multimedia system for a single client. It has a significant hands-on practical focus, due to the nature of the subject.

**Courses:** IT40, IT35 **Prerequisites:** ITN257

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB259

**Campus:** GP

**Sem:** 1

#### ► ITN260 E-COMMERCE SITE DEVELOPMENT

This unit addresses the following: the aims of an electronic commerce site; the business objectives; issues in a site: design, software, databases, payment, staffing, hosting and maintenance; applications development over the Internet; producing and evaluating site quality.

**Courses:** IT38, IT45, IT35, IT40

**Prerequisites:** ITN227

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB260

**Campus:** GP

**Sem:** 2

#### ► ITN261 METHODS AND TECHNIQUES IN BUSINESS PROCESS MANAGEMENT

Business Process Management (BPM) is an important part of the research carried out by the Faculty of Information Technology. It is appropriate, therefore, for those students undertaking research within the Faculty to be provided with the opportunity to find out about current topics of investigation in the area of BPM, and topics foundational to BPM. This field is large, but the main focus will be on workflow systems. These systems are at the technology end of BPM. The unit is intended for students in the honours, masters and PhD programmes

**Courses:** IT40, IT35

**Credit points:** 12

**Sem:** 1

#### ► ITN262 E-COMMERCE TECHNOLOGIES

This unit provides an introduction to some of the information technologies being used to support electronic commerce. In particular, it will cover Java-based technologies, including JDBC, servlets, and Java Server Pages, and XML-based technologies, including XSL. The unit will also cover a number of applications of electronic commerce, including electronic services and auctions.

**Courses:** IT38, IT45, IT35, IT40

**Prerequisites:** ITN227

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► ITN266 PRINCIPLES OF INFORMATION MANAGEMENT

Information management practices are fundamental to the intelligent use of information and the creation of knowledge, yet the concepts of information management (IM) have emerged from a number of disparate disciplines. In this unit students focus on the management of information as an enterprise resource. Students examine its formative influences and consider elements of an IM infrastructure and the processes used to manage information as a resource. They gain an awareness of the activities in which IM professionals are engaged within various organisational contexts. They focus on the strategic and analytic elements comprising information management activities such as the alignment of enterprise information and business planning.

**Courses:** IT25, IT40, IT35, IT45, IT38, IT70

**Prerequisites:** IT45, IT38; ITN201

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB266

**Campus:** GP

**Sem:** 2

#### ► ITN269 SPECIAL TOPIC 2B

This unit is designed to allow for the significant development of, or emphasis in, information systems not dealt with in other course units.

Selected topics and study areas are offered as required and when the expertise is available. See School of Information Systems announcements for details of topics being offered.

**Courses:** IT40, IT35

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► ITN272 INFORMATION TECHNOLOGY PROJECT MANAGEMENT

This unit addresses the following: project scoping; benefits realisation; organisational cultures; group dynamics and communication within teams; risk assessment and quality management; projects scheduling and contingency management

**Courses:** IT35, IT40, IT38, IT45

**Prerequisites:** ITN241

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► ITN273 INFORMATION RETRIEVAL

The ability to quickly learn and expertly use information resources and concepts is a vital skill for the modern day library and information professional. This unit introduces students to the ever changing information environment. Students develop skills in identifying, accessing, evaluating and retrieving information resources to meet specific information needs. This unit also helps to develop skills in teamwork, reflective practice, and oral and written communication.

**Courses:** IT70 **Contact hours:** 36 per semester

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITN274 MANAGEMENT ISSUES FOR INFO PROFESSIONALS

The overall aim in this unit is to identify key issues and management strategies within libraries, call centres, help desk centres, IT consultancy firms and other information agencies.

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITN275 INFORMATION ORGANISATION

This unit introduces students to principles and strategies for organising information. This is carried out by examining the following: the nature of information; bibliographic description; theory and practice of indexing and classification; standards for information description and metadata; the structure of databases and records that are used in a range of databases used for document and knowledge description. Students are familiarised with the tools that are used to support information description and improve information quality such as metadata standards, thesauri, cataloguing rules, classification schemes and authority files.

**Courses:** IT70

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► ITN276 INFORMATION SERVICES

This unit seeks to develop students' understanding of the key issues involved in developing and managing a contemporary and innovative information service. In particular they will be given the opportunity to become familiar with the methods and tools used in the selection and acquisition of information resources and the creation of information programs to meet the specific needs of a community or client group. Students also develop a working knowledge of the skills and techniques essential for critically evaluating the resources and programmes created. The unit further seeks to develop oral and written communication skills, critical thinking, teamwork skills, and project management ability.

**Courses:** IT70, IT73, IT74, IT75, IT76

**Prerequisites:** ITN273

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► ITN278 WEB CONTENT MANAGEMENT

The ability for staff or clients to interact with corporate information is now an essential component of most organisations. Internet technology allows universal access for identified user communities through the provision of specifically designed Web sites. Key components of these sites include interface design, information architecture, content integration, content distribution and presentation, content publishing processes,

and content integrity. Leading organisations manage these sites through the development and implementation of content management strategies. This unit considers these issues, related practices and likely future directions in Web content management.

**Courses:** IT70, IT73, IT74, IT75, IT76

**Credit points:** 12 **Campus:** GP

#### ► ITN279 INFORMATION LITERACY INSTRUCTION

Information professionals have an important role in ensuring that their clients are empowered to engage effectively within their information environment. This unit introduces students to the principles and techniques for designing, implementing and evaluating instruction which will enhance client's ability to work within contemporary information environments. Students are introduced to information literacy models, contemporary learning theory, user needs assessment, information use theory and instructional design. This unit also helps to develop skills in reflective practice and oral and written communication.

**Courses:** IT70, IT73, IT74, IT75, IT76

**Credit points:** 12 **Campus:** GP

#### ► ITN280 PROFESSIONAL PRACTICE

Professional Practice refers to the ongoing engagement with day-to-day issues, challenges, and tasks of the library and information world. This unit provides students with the opportunity to spend time in the professional working environment, as well as to explore many of the issues that have an impact upon professionals working in information agencies. The unit provides a contemporary perspective of the role of libraries and information agencies and the role that students, as information professionals, can play in these areas. Students are encouraged to reflect on their own knowledge, skills, and abilities gained throughout the course of study, through the completion of a professional portfolio. They will also complete two fieldwork placements of 10 working days.

**Courses:** IT70 **Prerequisites:** ITN275, ITN276

**Campus:** GP **Sem:** 1, 2

#### ► ITN315 INFORMATION MANAGEMENT PROJECT

This unit enables students to carry out an independent project addressing a research question or practical problem in library studies or information management. It provides an opportunity to individualise their studies by concentrating on a specific problem. The unit will help them acquire necessary skills in a problem domain, and to enable them to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches students how to prepare a well-written project report.

**Courses:** IT70 **Credit points:** 12

**Campus:** GP **Sem:** 1, 2

#### ► ITN316 DIGITAL LIBRARY SYSTEMS

This unit addresses the following: the development of automated library systems based upon analysis of subsystems such as acquisitions, circulation, cataloguing, reference and information retrieval and special materials control; standards for description, distribution and retrieval of information in such systems; integration of subsystems; linking of systems into networks and organisation of document delivery, access to digital collections, knowledge representation and information retrieval from databases and resource discovery within a coordinated framework with emphasis on user needs; digitisation programs and their management; virtual reference service.

**Courses:** IT70, IT73, IT74, IT75, IT76

**Prerequisites:** ITN275 **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► ITN317 ADVANCED INFORMATION SERVICES

Today's information professionals require a high level of skills in online searching to be able to retrieve relevant and authoritative information in the electronic environment. They need to anticipate and respond to clients' information needs by ensuring efficient management of appropriate information products and services. The significance of assessing and communicating the value

of the information services to particular client groups is highlighted. This is particularly important in the specialised context of corporate and government libraries and information agencies, where it is essential that the information services are strategically aligned with the parent organisation.

**Courses:** IT70, IT73, IT74, IT75, IT76

**Prerequisites:** ITN273, ITN276

**Credit points:** 12 **Campus:** GP

#### ► ITN318 INFORMATION ORGANISATION 2

The unit, which is project-based, encompasses the planning and implementation of improved resources and information services to a user community. It requires the investigation of the information needs of a particular community, development of a proposal to address those needs, and the creation of an information product, including instructional procedures for use of the product.

**Courses:** IT70

**Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► ITN319 RECORDS SYSTEMS

This unit addresses the following: the conceptual foundations of recordkeeping practice within the context of corporate information management; control systems for managing records including registration, tracking, classification, indexing and schemes for supporting these; functional analysis including appraisal and procedures for archiving; functionality of electronic records management systems and their relationship to workflow, content management and document management systems; strategies for digitisation and preservation; regulatory and access considerations.

**Courses:** IT70

**Prerequisites:** ITN266

**Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► ITN330 INFORMATION ISSUES AND POLICY

The subject's focus is the central role of policy as a guideline for action contributing to the resolution of a range of both workplace and broader societal issues within the Internet Age. Under-scored are elements of policy formulation-execution-evaluation of particular relevance to IT and other information professionals.

**Courses:** IT38, IT45

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB330 **Campus:** GP

#### ► ITN600 PROGRAMMING PRINCIPLES

Information Technology students need a fundamental knowledge of programming and an understanding of the processes and issues involved in the development of software. Graduates will most likely be required to work with programmers at some time in their career. Therefore they need to understand the challenges and constraints that arise in the software development process. This unit provides students with a basis for the further acquisition of programming knowledge and skills and is a prerequisite for subsequent units in Software Engineering, Data Communications and Information Systems.

**Courses:** IT38, IT45

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITN410

**Campus:** GP **Sem:** 1, 2

#### ► ITN601 SYSTEMS AND NETWORKS

Computer Systems and communications networks are fundamental to the activities of modern organisations. Hence all students completing a course in Information Technology will be expected by employers to have a firm understanding of the terminology and concepts of computer systems, communications networks and systems software. This unit introduces students to computer systems, communications network technologies, and systems software. The unit also serves as an entry point to further specialised studies in the fields of data communications and software engineering.

**Courses:** IT38, IT45

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITN412

**Campus:** GP **Sem:** 1, 2

#### ► ITN660 DATA STRUCTURES AND ALGORITHMS

Professional programmers are expected to have a sound understanding of the abstract concepts used in the development of medium to large scale software systems. This unit provides students with a repertoire of algorithms and concepts, enabling them to develop or maintain computationally efficient software systems.

**Courses:** IT40, IT35, IT45, IT38

**Prerequisites:** IT45, 38: ITN600

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITN414

**Campus:** GP **Sem:** 1

#### ► ITN661 OBJECT ORIENTED PROGRAMMING

Object-orientation is one of the most successful paradigms for analysis, design and implementation of software systems. Graduates from a course in Information Technology will require a solid grounding in object technology. This unit introduces students to the fundamental ideas and basic concepts associated with object orientation. The C++ programming language is used as a tool for deep understanding of these ideas and concepts. This unit builds on the unit Programming Principles and prepares students, both theoretically and practically, for using object technology in further stages of study.

**Courses:** IT45, IT38, IT40, IT35

**Prerequisites:** IT45, IT38: ITN600

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITB448, ITN415, ITN481

**Campus:** GP **Sem:** 2

#### ► ITN662 SOFTWARE ENGINEERING

Software engineering is the application of a systematic, disciplined, quantifiable approach to the development, operation and maintenance of software. It is a fundamental component of the knowledge base Information Technology professionals should possess. This unit introduces students to the non-programming related activities that are essential for the production of commercial software and is a prerequisite for subsequent specialist software engineering units. (Subject to final approval)

**Courses:** IT45, IT38, IT40, IT35

**Prerequisites:** IT45, IT38: ITN600

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITN424

**Campus:** GP **Sem:** 2

#### ► ITN664 OPERATING SYSTEMS

This unit covers the concepts, structure and mechanisms of modern day operating systems. Central to an operating system are processes that work to perform system and user tasks. All students graduating from a course in Information Technology will be expected by employers to have a firm understanding of the terminology and concepts of computer systems, operating systems and other systems software, including distributed systems and storage management technologies. This unit introduces you to operating system software and its usage. As such, this unit also serves as an entry point to further specialised studies in the fields of data communications and software engineering.

**Courses:** IT40, IT35, IT45, 38

**Prerequisites:** IT45, IT38: ITN601

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** ITN427, ITN484

**Campus:** GP **Sem:** 1, 2

#### ► ITN665 COMPUTER NETWORK MANAGEMENT

Computer networks are essential for the running of organisations of today. To ensure the effective and efficient operation of these computer networks, they need to be administered and managed by competent technical people. This unit teaches up-to-date technical skills for the administration and management of computer networks utilizing an environment that is currently used in industry. It also teaches the theory and practices of network administration and management. Ensuring that the network is secure is a theme that is maintained throughout the unit. This unit relies on students already having a solid understanding of the fundamentals of computer systems and networks.

**Courses:** IT45, IT38, IT40, IT35

**Prerequisites:** An introductory networking unit  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN525  
**Campus:** GP **Sem:** 1, 2

#### ► ITN667 INTERNET PROTOCOLS AND SERVICES

Graduates in software engineering and data communications require an understanding of the theoretical and practical concepts of network services and communication. Networks based on the TCP/IP Protocols are the framework for most user networking activities today. This unit assumes students have a basic understanding of networking issues and a good understanding of programming concepts. Theory and practical skills taught in this unit will be useful for students intending to study advanced Data Communications units.

**Courses:** IT45, IT38, IT40, IT35  
**Prerequisites:** IT45, IT38: ITN600, ITN601  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** ITN524  
**Campus:** GP **Sem:** 1, 2

#### ► ITN670 SECURITY TECHNOLOGIES

Secure networking is paramount to the operation of almost all forms of industry. Information systems and networks must be adequately defended against attacks to ensure the availability, confidentiality and integrity of information. This advanced unit provides students with the knowledge necessary to analyse and investigate various types of security technologies that can be used, either individually or in combination, to protect against attacks. As an understanding of the broader issues is necessary, this unit will also examine the wider implications of the use of particular security technologies.

**Courses:** IT40, IT35, IT45, IT38  
**Prerequisites:** ITN663  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN567, ITN584  
**Campus:** GP **Sem:** 1

#### ► ITN671 WIRELESS NETWORKS

This unit builds on the foundations established by generic data communications units and applies the theory to a more specialised field. Wireless communications is rapidly becoming a more and more significant data communications technology and an important part of everyday life for both organisations and individuals. The ability to access information from wherever you are is highly valued and will be one of the defining characteristics of the present and foreseeable future. This unit will give students the knowledge and skills to understand protocols for wireless and mobile communications and also to design wireless and mobile communication systems.

**Courses:** IT38, IT45, IT35, IT40  
**Prerequisites:** ITN667  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITN673 COMPUTER FORENSICS

This unit focuses on the principles that should direct the collection, analysis and presentation of the digital evidence available to an investigator, and the techniques that are used in order to ensure that those principles are met. IT professionals, especially those with a responsibility for computer security, are increasingly required to gather, analyse and present evidence of computer crime. To undertake this unit, students should have already achieved a sound foundation in computer software, computer communications, and computer security thus enabling them to relate to the principles and practice of computer forensics, which build on that foundation.

**Courses:** IT35, IT40, IT38, IT45  
**Prerequisites:** ITN663, ITN600, ITN667  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► ITN674 MINOR PROJECT 1 (SEDC)

Students graduating from a course in Information Technology are expected by employers to be able to complete on time a medium size programming project. This project unit allows students to further develop their software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT38, IT45, IT35, IT40

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN446, ITN576  
**Campus:** GP **Sem:** 1, 2

#### ► ITN675 MINOR PROJECT 2 (SEDC)

Students graduating from a course in Information Technology are expected by employers to be able to complete on time a medium size programming project. This project unit allows students to further develop their software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT38, IT45, IT35, IT40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► ITN676 SOFTWARE QUALITY MANAGEMENT

The modern software development industry recognises a need for deliberate and carefully planned management of the quality of software. It is increasingly important for companies to become accredited to a recognized standard of quality management. This unit covers software quality management and gives particular emphasis to the ISO 9001 standard for quality management systems, which is widely used in Australia and around the world.

**Courses:** IT35, IT40, IT38, IT45  
**Prerequisites:** ITN662  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN454  
**Campus:** GP **Sem:** 2

#### ► ITN677 INTERNATIONALISATION OF SOFTWARE

Software is now a global market, and developers need to be able to produce applications that can be used in many different cultures and nations. There is a significant body of enabling technology that allows efficient and cost effective development of applications that can be used in diverse contexts. Understanding the principles and the technologies involved in internationalisation and localisation is essential for companies seeking to go global or that are already global.

**Courses:** IT40, IT35, IT45, IT38  
**Prerequisites:** ITN662  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► ITN678 PROJECT (SEDC) - FULL-TIME

Students graduating from a course in Information Technology are expected by employers to be able to complete on time a medium size programming project. This project unit allows students to further develop their software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT35, IT40 **Credit points:** 24  
**Incompatible with:** ITN164, ITN165  
**Campus:** GP **Sem:** 1, 2

#### ► ITN679 PROJECT (SEDC) - PART-TIME

Students graduating from a course in Information Technology are expected by employers to be able to complete on time a medium size programming project. This project unit allows students to further develop their software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT35, IT40 **Credit points:** 24  
**Incompatible with:** ITN174, ITN175  
**Campus:** GP **Sem:** 1, 2

#### ► ITN680 WEB SERVICES

Web services are touted as the next generation Internet. They have the potential to revolutionise the way businesses operate and to create whole new markets. The majority of IT companies have a web service story, and it could be argued that almost any kind of business could potentially benefit from a careful implementation of Web Services. Thus it is important for students to be aware of web services, to understand the technical and business implications web services present, and to be able to evaluate them. Students need to understand web services to prepare for the IT industry future.

**Courses:** IT35, IT40 **Prerequisites:** ITN262  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► ITN681 TRUSTED SYSTEMS AND NETWORKS

Information systems must be protected against misuse in order to protect essential information assets. Users should be able to rely upon the trustworthiness of the hardware, software and communication networks comprising these information systems. Such trustworthiness in turn should be derived from sound security design, and evaluation mechanisms assessing the effectiveness of security design and implementation. This unit enables students to identify the essential features of such trusted security design and evaluation. Students are provided with an overview of trusted system design and the background to international efforts seeking to implement effective security system evaluation and certification infrastructure.

**Courses:** IT35, IT40 **Prerequisites:** ITN663  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN531  
**Campus:** GP **Sem:** 2

#### ► ITN682 ADVANCED CRYPTOLOGY

Cryptology forms a core discipline in the study of information security. This unit concentrates on the latest developments in cryptology. This is a highly specialised unit with the intent of preparing Honours and Postgraduate students for research in cryptology.

**Courses:** IT35, IT40 **Prerequisites:** ITB646  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN556  
**Campus:** GP **Sem:** 2

#### ► ITN683 COMPILER CONSTRUCTION

An understanding of compiler technology is useful, not only for people wanting to develop new compilers, but to all computer professionals. This unit introduces language-processing techniques that students can apply to a wide range of applications, not just compilers. More importantly, this unit fills in a missing link in the progression from high-level application programs down to how they are ultimately implemented at the electrical circuit level. Students must have an understanding of each step in this process in order to have a thorough understanding of how computer systems work. An understanding of compiler technology also leads to a better appreciation of programming language semantics.

**Courses:** IT40, IT35  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN464, ITB464  
**Campus:** GP **Sem:** 1

#### ► ITN684 PATTERN RECOGNITION AND DATA MINING

The growing interest in data mining is motivated by a common problem across disciplines: how does one store, access, model, and ultimately describe and understand very large data sets? Data mining is becoming a strategic necessity for a company to maintain profitability. It is addressed in this unit.

**Courses:** IT35, IT40  
**Prerequisites:** ITB640 or MAB209 or ITB650  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** ITN447  
**Campus:** GP **Sem:** 1

#### ► ITN685 MAJOR PROJECT (SEDC) FULL-TIME

Students graduating from a course in Information Technology are expected by employers to be able to complete on time a medium size programming project. This project unit allows students to further develop their software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT35, IT40  
**Prerequisites:** ITN100 **Credit points:** 48  
**Incompatible with:** ITN144, ITN145  
**Campus:** GP **Sem:** 1, 2

#### ► ITN686 MAJOR PROJECT (SEDC) PART-TIME

Students graduating from a course in Information Technology are expected by employers to be able to complete on time a medium size programming project. This project unit allows students to further develop software development skills and put into practice the knowledge acquired in more theoretical units.

**Courses:** IT35, IT40

**Prerequisites:** ITN100

**Credit points:** 48

**Incompatible with:** ITN154, ITN155

**Campus:** GP

**Sem:** 1, 2

### ► JSB131 FRAMING SOCIAL JUSTICE

The Justice Studies degree is about producing competent justice professionals. In order to achieve this purpose, this degree combines knowledge of the criminal justice system with an understanding and appreciation of the complexities of social justice. The purpose of this unit is to introduce students to the structural parameters of social justice.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB101, JSB011

**Campus:** KG, EXT

**Sem:** 1

### ► JSB132 PROFESSIONAL SKILLS

The effectiveness of justice professionals is measured by their ability to communicate and investigate, and it is these two skills which form the basis for much of the day to day work performed by justice studies students and justice professionals. This unit introduces basic skills in research and written and oral communication in order to lay a successful foundation for academic and professional achievement.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB012, JSB014

**Campus:** KG, EXT

**Sem:** 1

### ► JSB133 LAW AND GOVERNMENT

The justice professions have as their common factor an involvement in the process of law, and particularly the administration of law and law enforcement. The increasing role of governments in law-making is a significant feature of modern times. This unit introduces students to the concepts of law and government. It examines the role of government in making and administering the law and encourages students to start thinking critically and analytically about legal, political and justice issues. Law and government provide those students who intend to work in the justice system with a foundation framework of key legal and political information and knowledge. They will use this knowledge throughout their studies and in their future professional careers.

**Courses:** JS31

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB103, JSB013

**Campus:** KG, EXT

### ► JSB134 SOCIAL ETHICS AND THE JUSTICE SYSTEM

It is essential for those working in the justice system to be able to competently and confidently work at the borders between ethics and the law. Ethical ability will enable practitioners to critically assess the moral status of current laws, to interpret acceptable standards of behaviour in situations not covered by the laws, and to develop shared understandings of moral responsibility in justice organisations and the wider community.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB102

**Campus:** KG, EXT

**Sem:** 1

### ► JSB135 UNLOCKING CRIMINAL JUSTICE

The Justice Studies Degree is about producing competent Justice Professionals. In order to achieve this purpose, this degree combines knowledge of the criminal justice system with an understanding and appreciation of the complexities of social justice. This unit, in particular, focuses on the theoretical and practical relationship between social justice and criminal justice by examining not only the concepts of human rights, equality, social justice and citizenship, but asking students to apply this knowledge to a series of practical situations. This application happens throughout the lectures and tutorials as well as within the assessment.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB202, JSB015

**Campus:** KG, EXT

**Sem:** 2

### ► JSB136 FORENSIC PSYCHOLOGY AND THE LAW

Forensic Psychology is readily acknowledged as one of the fastest growing areas of psychology in the world. Psychologists are now involved significantly in policing, judicial procedures and correctional processes. The term 'forensic' literally means 'of or used in law courts' (Australian Oxford Paperback Dictionary). The term 'Forensic Psychology', however, is now used more generally to include the contribution of psychology and psychologists across the three criminal justice domains of the police, the courts, and corrections. By its very nature forensic psychology draws from a wide multi-disciplinary base for the application of its specialised knowledge.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

### ► JSB137 POLITICS OF LAW

In the Politics of Law, students develop a knowledge and understanding of legal and criminal justice processes. This knowledge is important because it will inform their study in other units in the course and equip them with the necessary understandings to enter employment in the Justice System. The unit will also provide students with knowledge necessary to act responsibly as informed citizens in Australian society. In addition to an understanding of criminal justice issues, this unit helps students to build on their understanding of the relationship between law and society, as well as develop problem-solving skills appropriate to a legal and justice context.

**Courses:** JS31

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB216, JSB017

**Campus:** KG, EXT

**Sem:** 2

### ► JSB138 CRIMES OF VIOLENCE

To work as justice professionals in areas related to the criminal justice system or human rights, Justice students need an understanding of fundamental principles of criminal law and of social justice issues related to criminal law. Of particular importance for these students is an understanding of issues pertaining to violent crimes as such crimes will play a focal role in their work.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB201, JSB022

**Campus:** KG, EXT

**Sem:** 2

### ► JSB231 UNDERSTANDING CRIMINOLOGY

This unit deals with formal criminological theories of crime and crime control. Particular attention is drawn to various concepts, assumptions and propositions contained in criminological theories and the contribution which criminological knowledge has made to advancing our understanding of crime and crime control. Criminological theories are viewed as integral to a range of governmental practices aimed at ensuring the regulation and control of particular 'problem populations'. The unit develops an analytical framework in order to critically assess the epistemological claims and justifications found in all formal articulations of criminological theory.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB107, JSB018

**Campus:** KG, EXT

**Sem:** 1

### ► JSB232 YOUTH JUSTICE

This unit is concerned with the way in which a 'youth crime problem' is constructed and the implications of this for particular cohorts of young people in contemporary Australia. It is also concerned with the administration and management of youth crime through formal systems designed to prevent and reduce unlawful acts. Particular attention is drawn to the historical development of youth justice in Australia and to the changing nature of youth crime control across jurisdictions. Contemporary articulations of youth crime control are examined in relation to Queensland's system of youth justice, particularly as this relates to young indigenous people, young women and those from various social classes and ethnic groups.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB041

**Campus:** KG, EXT

**Sem:** 1

### ► JSB233 CRIME AND COMMUNITY CORRECTIONS

Prisons are the visible tip of the iceberg of punishment and correction in our society; Community Corrections is the beneath-the-surface bulk. The ratio of persons in prison to persons on Community Corrections Orders, across Australian jurisdictions, is approximately 1 to 3. Even though a significant proportion of those under Community Correction supervision are fine defaulters (and have committed only minor offences), it remains the case that a significant majority of those labelled 'deviant' by our police and judicial systems never go to prison. How did we arrive at this situation? This unit studies the philosophical and ideological evolution of probation, parole and other alternative sanctions to enable students to understand current community corrections systems.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB317, JSB073

**Campus:** KG, EXT

**Sem:** 2

### ► JSB241 INTRODUCTION TO INVESTIGATIONS AND POLICING

As a consequence of the changing nature of society and the criminal justice system, various investigatory agencies have been established to deal with the designated investigations as well as possible breaches of any accompanying legislation. As the police make up a major part of the Criminal Justice System, it is the police who predominantly instigate criminal justice procedures which follow on to involve other components of the Criminal Justice System. Due to the diversity of both public and private agencies becoming involved in the investigative process, it is important that students grasp an understanding of the machinery of this process.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

### ► JSB242 CRIMINAL LAW IN CONTEXT

To work as justice professionals in areas related to the criminal justice system or human rights, Justice students need an understanding of fundamental principles of criminal law and of social justice issues related to criminal law. Those students undertaking the Investigations, Intelligence and Policing major need to understand issues of criminal procedure and due process as well as specific contexts of criminal law.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB204, JSB024

**Campus:** KG, EXT

**Sem:** 1

### ► JSB243 INTELLIGENCE LED INVESTIGATIONS

Intelligence is increasingly taking a leading role in investigations with analysts setting a direction for criminal investigation teams. The unit exposes students to the essentials of the intelligence system, the intelligence process and creative problem solving skills. Intelligence professionals are also concerned with support to government, the private sector and the community. Intelligence offers an advantage through the provision of accurate and timely advice. Intelligence requires proficiency in thinking strategies and skills, interpersonal effectiveness skills, teamwork and application of intelligence process methodologies.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** JSB211, JSB061

**Campus:** KG, EXT

**Sem:** 2

### ► JSB251 POLICY, GOVERNANCE AND JUSTICE

Many important public policies concern issues of law and justice. As justice professionals, students may very likely be involved in your future careers in the development, analysis or implementation of criminal and social justice policies. Students' involvement may be directly through government or through the community sector and interest groups. A theoretical and practical under-

standing of policy making and the role of law and policy in governance will be a distinct advantage for both their career and citizenship roles.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB081

**Campus:** KG, EXT **Sem:** 1

#### ► JSB252 CITIZENSHIP AND JUSTICE

Society demands certain responsibilities from people once they become adults. Legal rights and responsibilities apply to adult citizens in our society whenever they engage in social relations. Some of the most important of these rights and responsibilities involve the law and occur in the areas of property, family, employment and social welfare. This subject is concerned with an analysis of the legal rights and responsibilities of adult citizens in Australia in terms of owning property, being involved in relationships, being employed or unemployed, and receiving welfare from the government.

**Courses:** JS31, LW41, LW42, ED50

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSS005, JSB082

**Campus:** KG, EXT **Sem:** 2

#### ► JSB253 WATCHDOGS: WARRIORS, WIMPS AND WITCH-HUNTS

Recent growth of government activity and regulation means that strong powers have been granted to non-elected officials and the agencies they are employed by, often to perform an oversight role on public administration. Justice professionals need to know the range of agencies with such watchdog roles, and their powers and responsibilities. A good understanding of the theoretical and political framework within which the investigative and other powers of oversight agencies are exercised and utilised is important for those who may carry out, evaluate or critique the powers of such watchdogs.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

#### ► JSB331 PRISONS AS INDUSTRY

The modern Western prison has a two hundred year history. That history follows no Darwinian pattern of evolutionary logic. Instead, it fits and starts, it lurches forward and leaps backwards, seemingly often at the individual whim of powerful bureaucrats rather than in response to any dominant public discourse of the time. What does the near future hold: more prisons, fewer prisons, or none? The technological push, increasing privatisation and expanding captive labour forces all have implications for the future of the prison. To what extent will political and economic imperatives, rather than social discourse, dictate the future of our prisons? This unit sets out to examine the future of punitive incarceration.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB318, JSB074

**Campus:** KG, EXT **Sem:** 1

#### ► JSB332 CRIME CONTROL AND GOVERNANCE

This unit deals with the way in which crime control is administered in western neo-liberal states, with specific reference to Australia. Based on a critical criminological perspective, the unit considers contemporary 'cultures of crime control' as part and parcel of a governmental approach to the attempted management of 'problem populations' in the neo-liberal state.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB304, JSB021

**Campus:** KG, EXT **Sem:** 2

#### ► JSB333 RESPONDING TO CRIME

Current directions in research on the 'crime problem', based in developmental and cognitive psychology, outline a complex web of intervention in the lives of 'at risk' populations. This shift from a reactive crime control model to a proactive crime prevention model has been embraced by governments at both state and federal level in Australia and elsewhere. Students intent upon working in the criminological field need to fully understand both the strengths and weaknesses of this new way of understanding crime.

Most important however, will be the implications of such a major shift in the control of 'criminal populations', which is well beyond the scope of the traditional criminal justice system.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB044

**Campus:** KG, EXT **Sem:** 2

#### ► JSB341 INVESTIGATIONS, EVIDENCE AND POLICE POWERS

Students endeavouring to undertake employment within the Justice System need to be introduced to a core component of that system, namely, the criminal law particularly Police Powers and evidence. This unit of study provides a comprehensive knowledge base of some of the principles, rules and concepts of police powers and selected evidentiary components. This together with an understanding and application of these principles, concepts and rules to selected situations will ensure a better analysis and appreciation of the workings of the Criminal Justice System as a whole.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB031, JSB051

**Campus:** KG, EXT **Sem:** 1

#### ► JSB342 ORGANISED CRIME

The apparent growth of organised crime, both nationally and internationally, in recent years has resulted in a deepening commitment on the part of law enforcement agencies to its suppression. Although not confined to the association with illicit drugs, the so-called drug trade is a major enterprise behind the proliferation of organised crime. Another consequence of organised crime is the development of corruption through the diverse levels of society. Students therefore will gain an understanding of the historical development, social perceptions and consequences and the perceived extent of organised crime.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB310, JSB053

**Campus:** KG, EXT **Sem:** 2

#### ► JSB343 FUTURE POLICING STRATEGIES

The role of policing has changed considerably since its inception. The last decade or so has been particularly transient. The enforcement emphasis that was previously promulgated has been refocused towards service to the community and problem solving in collaboration with the community, not wholly resting with the police agencies. In addition, the advancements in technology and overall societal changes have also impacted on the role of policing within contemporary society. On this basis, students undertaking this unit will be exposed to some of the issues that require further debate and analysis as we move into the 21st century.

**Courses:** JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB054

**Campus:** KG, EXT **Sem:** 2

#### ► JSB351 ADMINISTRATIVE JUSTICE

It is essential that justice professionals know and understand the rules of administrative law as well as the underlying philosophy of administrative justice so that those working in the public sector understand the rules that guide their decision making as well as the avenues of appeal from any decision they make. Those working in the community sector need to know how to question administrative decisions and actions and be able to challenge the power of government when it contravenes principles of administrative justice. The unit is organised around theoretical perspectives of democracy, specifically participation and accountability; it examines mechanisms of State accountability, their philosophy and practice.

**Courses:** JS31, LW41, LW42, ED50

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB083

**Campus:** KG, EXT **Sem:** 1

#### ► JSB352 INDIGENOUS JUSTICE

It is essential that justice professionals know and understand the rules of administrative law as well as the underlying philosophy of administrative

justice so that those working in the public sector understand what guides their decision making as well as the avenues of appeal from any decision they make. The unit is organised around theoretical perspectives of democracy, specifically participation and accountability, and examines mechanisms of State accountability, their philosophy and practice providing a strong working knowledge of the administrative justice system and its legal, social and political environment.

**Courses:** JS31, LW42, LW41

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

#### ► JSB353 GLOBAL JUSTICE

Debates over the protection and enforcement of human rights norms within the Australian social, legal and political landscape are increasingly prevalent. Knowledge and understanding of Australia's international, regional and domestic human rights obligations and activities are vital for all justice professionals. This unit promotes an understanding of the theoretical and practical frameworks of human rights norms and influence in global justice.

**Courses:** ED50, JS31, LW41, LW42

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB314, JSB084

**Campus:** KG, EXT **Sem:** 2

#### ► JSB411 THEORIES OF JUSTICE 1

Arguments concerning perceived problems of justice and injustice usually reveal conflicting ideas about what justice actually means both theoretically, and in practice. Students who are to graduate with honours in a Bachelor of Justice require a sophisticated level of understanding of theories of justice in a social and criminal context if they are to effectively apply in practice the content knowledge they have acquired in the course of their study.

**Courses:** JS40

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSN001, LWN040

**Campus:** EXT **Sem:** 1

#### ► JSB412 LITERATURE REVIEW

Employment as a researcher in government departments and justice agencies and the successful undertaking of higher degree study require an ability to independently design and execute complex research projects. An integral part of good research is the establishment of parameters within which research should proceed. Knowledge of the literature in and around the chosen topic is vital to establishing the basis of a good research project.

**Courses:** JS40

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► JSB413 COLLOQUIUM

To engender support for on-going projects and to enlist the co-operation and/or collaboration of peers and superiors it is necessary for researchers to be able to make effective oral and multi-media presentations about their work. Students embarking upon an honours year of specialised research require support, a collegial atmosphere for their work, regular contact with peers and supervisors, and the opportunity to discuss their research, defend its parameters and to acquire skills of critique and analysis. This unit will offer honours students the opportunity to acquire these skills in a supportive and collegiate atmosphere.

**Courses:** JS40

**Contact hours:** 3 per fortnight **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► JSB414/1 THESIS 1

A research thesis is the major component of the Honours course. It provides students with an opportunity to conceive, design and execute a major research project with specialist supervision. This unit in conjunction with thesis 2, 3 and 4 is a major part of the Honours program and begins the process of thesis conceptualisation and formulation. Together with the unit, Literature Review, this unit provides the preparation for the honours dissertation.

**Courses:** JS40

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** JSB404

**Campus:** KG **Sem:** 2

**► JSB414/2 THESIS 2**

This unit comprises the further research and writing of the honours dissertation, under the direction of the supervisor. The production of the honours dissertation is the main objective of the honours program. Justice Studies students successfully completing the honours year will have acquired high level research and writing skills relevant to both higher degree study and a career in the justice professions.

**Courses:** JS40 **Prerequisites:** JSB414/1  
**Credit points:** 12 **Incompatible with:** JSB406  
**Campus:** KG **Sem:** 2

**► JSB414/3 THESIS 3**

This unit comprises the further research and writing of the honours dissertation, under the direction of the supervisor. The production of the honours dissertation is the main objective of the honours program. Justice Studies students successfully completing the honours year will have acquired high level research and writing skills relevant to both higher degree study and a career in the justice professions.

**Courses:** JS40 **Prerequisites:** JSB414/2  
**Credit points:** 12 **Incompatible with:** JSB407  
**Campus:** KG **Sem:** 2

**► JSB414/4 THESIS 4**

This unit comprises the further research and writing of the honours dissertation, under the direction of the supervisor. The production of the honours dissertation is the main objective of the honours program. Justice Studies students successfully completing the honours year will have acquired high level research and writing skills relevant to both higher degree study and a career in the justice professions.

**Courses:** JS40 **Prerequisites:** JSB414/3  
**Credit points:** 12 **Incompatible with:** JSB408  
**Campus:** KG **Sem:** 2

**► JSB931 INDEPENDENT STUDY**

Justice Studies students may discover an area that is of particular interest to them, or which has specific relevance to their intended professional orientation. This unit gives students the opportunity to extend aspects of their coursework or professional interests in more depth as well as to continue the process of refining and developing research skills.

**Courses:** JS31, LW41, LW42 **Credit points:** 12  
**Incompatible with:** JSB312, JSB092  
**Campus:** KG, EXT **Sem:** 1, 2

**► JSB932 ALTERNATIVE JUSTICE PROCESSES**

Conflict is inevitable in society. A major aim of any justice system must be to manage and resolve conflict through efficient, effective and equitable processes. This unit will equip students with the knowledge, understanding and skill needed to work effectively as professionals in the Justice system. Students develop an understanding of concepts of conflict and critically examine a number of models of conflict resolution from the formal adjudication of the legal system, to the less structured forum of mediation, to the process of negotiation. The unit also helps students to develop the professional and interpersonal skills necessary to manage conflict effectively in a variety of contexts relevant to the Justice system.

**Courses:** JS31, LW41, LW42  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** JSB032  
**Campus:** KG, EXT **Sem:** 1

**► JSB933 CRIME RESEARCH METHODS**

It is essential that students undertaking research projects both professionally and academically, have a solid knowledge and understanding of research design and analysis. This subject builds upon research skills acquired in first and second year study and is thus intended to provide advanced knowledge and skills in research design and methodology for use in the fields of criminal justice, justice administration and criminology.

**Courses:** JS31, LW41, LW42  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** JSB043  
**Campus:** KG, EXT **Sem:** 1

**► JSB934 PROFESSIONAL PLACEMENT**

In order to operate effectively in the workplace students will need to be able to connect and apply the knowledge and theory they have gained from the other units in the course to the practice of the profession in which they gain employment.

**Courses:** JS31, LW42, LW41 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

**► JSB935 CONTRACTUAL JUSTICE**

We are surrounded, in our day to day adult lives, with legally binding promises. These can range from relatively simple promises like purchasing a train ticket to far more complex million dollar deals. It is through the law of contract that we can understand these promises and the ways in which they become legally binding. It is important that legal and justice studies students understand the nature of contractual promises as they will be particularly involved with them in their working lives, and will need to be aware of what characterises contractual promises, how they are interpreted, how they affect us once validated, how they can be invalidated or discharged, and what sorts of remedies arise from them.

**Courses:** JS31, ED50, LW42  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** JSS002, JSB086  
**Campus:** KG, EXT **Sem:** 1

**► JSB936 COMPENSATION AND REPARATION**

The appropriateness of compensation as a remedy is a very important topic and it is important that we understand the boundaries to compensation, as well as the reasons that we may have to pay compensation and the many types of conduct that provoke compensation claims. This unit provides the foundation for an understanding of this crucial area of law and legal obligations.

**Courses:** JS31, LW42, ED50  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** JSS003, JSB087  
**Campus:** KG, EXT **Sem:** 1

**► JSB937 FORENSIC SCIENTIFIC EVIDENCE**

This unit is designed for students of science and law, who seek a knowledge of uses of science in law. The unit emphasises the fundamental links between, science, social justice and the legal system while outlining the various rules of evidence in Australian courts. Professionals involved in science, law enforcement and justice administration need a clear understanding of the fundamental rules and legal principles relating to the investigation of, and admissibility of evidence. The rationale is to provide knowledge that equips students to work in this area.

**Courses:** JS31, LW42, LW41, SC01  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** JSB444  
**Campus:** KG, EXT **Sem:** 2

**► JSN001 THEORIES OF JUSTICE**

This unit is concerned with clarifying the assumptions that underpin arguments about what is just or unjust within various spheres of contemporary Australian society. The unit provides a framework for evaluating the relative usefulness of various theories of justice in terms of their theoretical implications and practical applications. The unit focuses on the interface between justice, postmodernism and the law.

**Courses:** JS51 **Credit points:** 12  
**Incompatible with:** JSB411, LWN040  
**Campus:** EXT **Sem:** 1

**► JSN006 INDEPENDENT STUDY 1**

This unit is designed to enable students to pursue particular aspects of their coursework or of professional interest in more depth. It is an opportunity for students to refine and develop research skills. Students are required to complete a piece of research under the guidance of an academic supervisor.

**Courses:** JS51 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

**► JSN007 INDEPENDENT STUDY 2**

Independent Study offers students the opportunity to extend further aspects of their coursework or professional interest in more depth, as well as

to continue the process of refining and developing research skills.

**Courses:** JS51 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

**► JSN014 LAW, JUSTICE AND NEW GENETIC TECHNOLOGIES**

Our ability to test, screen and manipulate the human genome is made possible by recent technological breakthroughs in science. The science of genetics is not new, but its public profile has never been higher. Current initiatives in genetic knowledge have been described as an international voyage of scientific discovery. The legal community faces a perpetual challenge in keeping pace of the revolution in genetics. This unit looks at some legal implications of this revolution and charts the major responses of our legal system to modern genetics and biotechnology.

**Courses:** JS51 **Contact hours:** Block mode  
**Credit points:** 12 **Incompatible with:** LWN135  
**Campus:** GP **Sem:** 2

**► JSN016 INTELLIGENCE, JUSTICE AND ACCOUNTABILITY**

The unit focuses on intelligence and security activities relative to the rights of individuals, their 'need to know' and their 'right to know'. It examines relationships and responsibilities of intelligence and security professionals and organisations in Australian society: the nature, roles of intelligence, counterintelligence and security; laws and other instruments that protect individuals and their activities against unlawful intelligence and security actions and operations; human rights issues; perspectives of public and private morality; the media's right to disclose intelligence and security matters.

**Courses:** JS51 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

**► JSN017 INTELLIGENCE AND DECISION MAKING**

Intelligence professionals offer support to government, the private sector and the community, where they offer an advantage through the provision of accurate and timely advice. Intelligence is, however, largely wasted if it is not communicated effectively to the appropriate decision maker. This unit is concerned with the delivery of intelligence to decision makers. It recognises the need for intelligence managers to be attuned to the context and environment in which they are operating. The unit examines client needs against proven principles. It acknowledges the importance of focusing reporting and examines the specific needs of client groups. Finally, it looks at the processes to develop appropriate intelligence products.

**Courses:** JS51 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► JSN018 ADVANCED CRIME RESEARCH METHODS**

It is essential that students undertaking research projects have a comprehensive knowledge and understanding of research design and analysis. This subject is intended to extend students' understanding of the research process fundamental to effective criminal justice research with a particular focus on the structure and organisation of theses. Emphasis will be placed upon the whole research process, through an understanding of the logic of social science research design and methodology. This unit offers students a comprehensive account of the variety of research design models, data collection techniques and data analysis strategies. It will extend students' understanding of both quantitative and qualitative research.

**Courses:** JS51  
**Prerequisites:** JSB933 or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

**► JSN023 JUSTICE, LAW AND DEMOCRACY**

In this unit, students explore analyses of the major issues of social philosophy including justifications of liberty, harm to others, private property rights, distributive justice, environmental harms, help to others and criminal and offensive behaviour. Students also discuss links between law, justice and social institutions and how we

might adjudicate between competing interests in society. Lawyers and other justice professionals, public administrators, and para-professionals working in the fields of law, justice or politics will find this unit useful in developing a theoretical foundation for understanding social institutions and how they interact with law and morality. By drawing on competing perspectives, students will develop their critical research and writing skills

**Courses:** JS51

**Credit points:** 12 **Incompatible with:** JSN005

**Campus:** EXT

**Sem:** 2

#### ► JSN131 JUVENILE JUSTICE

This unit critically examines the nature, extent and social construction of a 'youth crime problem' in western countries (especially Australia) and to establish how and why the youth justice system takes the governmental form it does. It is concerned with the way in which a 'youth crime problem' is constructed and the implications of this for particular cohorts of young people in contemporary Australia. It is also concerned with the administration and management of youth crime through formal systems designed to prevent and reduce unlawful acts. Particular attention is drawn to the historical development of youth justice in Australia and to the changing nature of youth crime control across jurisdictions.

**Courses:** JS51

**Incompatible with:** JSP131, JSB232

**Campus:** KG, EXT

**Sem:** 1

#### ► JSN132 FOUNDATIONS IN CRIMINOLOGY

Criminological theories of crime and crime control are socially and historically dynamic and integral to legal and social policy. They are also central to the ways in which prisons, policing and crime prevention more generally is organised in society. This unit deals with formal criminological theories of crime and crime control. However, rather than simply outlining the theories, particular attention is drawn to the central concepts, assumptions and propositions contained in criminological theories and the contribution which criminological knowledge has made to advancing our understanding of crime and crime control. Knowledge derived from this unit is applicable to a critical understanding of all professional and popular theories of crime.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP132, JSB231

**Campus:** KG, EXT

**Sem:** 1

#### ► JSN133 CRIME PREVENTION

This unit discusses in detail the complex relationship which exists between the crime problem, the creation of criminality, and traditional responses to crime. Second, it discusses crime prevention strategies that are broader than the traditional criminal justice response and explores the appropriateness or otherwise of blanket responses to crime. Finally, the unit considers the issue of how the interests of victims of crime may be adequately addressed both within and outside the criminal justice system. Building on the theoretical knowledge gained in Foundations in Criminology and Crime Control and Governance, this unit critically discusses current directions in research on the 'crime problem'.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP133, JSB333

**Campus:** KG, EXT

**Sem:** 2

#### ► JSN134 CRIME CONTROL AND GOVERNANCE

This unit deals with the way in which crime control is being administered in late modernity with specific reference to Australia. Attention is drawn to the changing roles played by various state sponsored agencies and organisations in the management, prevention and reduction of crime, as well as the various governmental rationalities that underpin the workings of the criminal justice system. Building on Foundations in Criminology, the unit considers contemporary cultures of crime control as part and parcel of a governmental approach to the attempted management of problem populations in the neo-liberal state. Power, discipline, regulation and classification are integral to this project.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP134, JSB332

**Campus:** KG, EXT

**Sem:** 2

#### ► JSN141 ORGANISED CRIME AND CORRUPTION

Organised crime activities have burgeoned exponentially throughout the world in the last ten to twenty years. Drug importation and trafficking, fraud (including fraud against the revenue, identity fraud, credit card fraud and maritime fraud), money laundering and people smuggling are all examples of criminal activities that are diverting billions of dollars from legitimate businesses and into the hands of criminal syndicates. The aim of this unit is to provide students with knowledge and understanding of organised crime activities. Students gain an understanding of the theoretical nature of organised crime and its functional structure and operations and are able to critically analyse the nature and impact of organised crime on society.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP141, JSP053, JSB342

**Campus:** KG, EXT

**Sem:** 1

#### ► JSN142 FORENSIC INVESTIGATION METHODS AND STRATEGIES

Organised crime and corruption are not new phenomena but their magnitude and sophistication have increased dramatically in the last decade. The aspects of these activities that distinguish them from more traditional crimes mean reliance on traditional law enforcement techniques and powers will usually be inadequate. Lawyers, investigators and intelligence and financial analysts working in this expanding field need an understanding of these new powers and an appreciation of the different strategies and conceptualisations needed to combat organized crime and corruption. This unit develops this understanding by analysing the statutory powers and examining creative and innovative strategic methods of applying these tools.

**Courses:** JS51

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► JSN143 PROCEEDS OF CRIME AND MONEY LAUNDERING

Unlike some other crimes, the primary motive for organised crime and official corruption is profit. Organised crime syndicates generate huge profits that they launder through various means and re-invest in further crime and/or legitimate businesses. By taking away the proceeds of crime both the motivation and the means to commit further crime may be decreased. The aim of this unit is to provide students with an understanding and critical appreciation of the policy and legislation, both internationally and in Australia, that regulates the confiscation of the proceeds of crime, the prosecution of money laundering offences, and the reporting of suspect and significant financial transactions and international funds transaction reports.

**Courses:** JS51

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► JSN144 EVIDENCE IN ORGANISED CRIME INVESTIGATIONS

In recognition of the limitations of traditional law enforcement methods in dealing with organised crime and corruption, the Commonwealth and some State governments have granted more extensive powers to their police services and created inquisitorial commissions equipped with special coercive powers. The aim of this unit is firstly, to assist investigators and other professionals to appreciate the impact of rules of evidence in this specific context, secondly, to understand how these new powers can be more effectively exercised, and thirdly, to inform those representing persons who are the subject of such exercise on how best they can protect the rights of their clients.

**Courses:** JS51, LW60, LW51 **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► JSN151 POLICY, GOVERNANCE AND JUSTICE

This unit enables students to become familiar with policy-making practices and wider issues of governance. The unit aims to introduce the theory and practice of public policy with an emphasis on

policy issues relevant to criminal and social justice. It analyses processes in policy development such as policy formation, writing, implementation and evaluation. Students gain tools for participating in policy development processes in both the public and community sectors.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP151, JSB251

**Campus:** KG, EXT

**Sem:** 1

#### ► JSN152 ADMINISTRATIVE JUSTICE

Justice professionals must know and understand the rules of administrative law as well as the underlying philosophy of administrative justice so those working in the public sector understand the rules that guide their decision making as well as the avenues of appeal from any decision they make. The unit is organised around theoretical perspectives of democracy, specifically participation and accountability, and examines mechanisms of State accountability, its philosophy and practice to provide a strong working knowledge of the administrative justice system and its legal, social and political environment.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSB351, JSP152

**Campus:** KG, EXT

**Sem:** 1

#### ► JSN153 WATCHDOGS: WARRIORS, WIMPS AND WITCH-HUNTS

Recent growth of government activity and regulation means that strong powers have been granted to non-elected officials and the agencies they are employed by, often to perform an oversight role on public administration. This unit provides students with a critical, analytical and practical understanding of the range and role of watchdog agencies, and their protective and investigative powers and responsibilities.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSB253, JSP153,

**Campus:** KG, EXT

**Sem:** 2

#### ► JSN154 HUMAN RIGHTS AND GLOBAL JUSTICE

This unit provides students with the necessary theoretical and practical knowledge and understanding of human rights standards and their impact on the Australian social, legal, justice and political landscape so as to enable students to enhance their contribution as a justice professional. Students also gain a critical perspective on these matters that will allow them to understand and apply the constraints and guidance provided by international human rights norms.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSB084, JSP084, JSP154, JSB353

**Campus:** KG, EXT

**Sem:** 2

#### ► JSN161 FUNDAMENTALS OF INTELLIGENCE

Intelligence analysts are increasingly taking a leading role in investigations setting the direction for criminal investigation teams. Intelligence professionals also offer support to government, the private sector and the community where they offer an advantage through the provision of accurate and timely advice.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP161, JSP061

**Campus:** EXT

**Sem:** 1

#### ► JSN162 MANAGING INTELLIGENCE

The unit is concerned with the management of intelligence organisations, personnel and operations. It recognises the need for managers to be attuned to the context and environment in which they are operating. The unit examines organisational structures against proven principles. It acknowledges the importance of people, and examines the specific needs of personnel systems in an intelligence environment. Finally, it looks at the processes to plan and conduct efficient operations. The subject concentrates on applying established principles and procedures to the unique needs of intelligence organisations.

**Courses:** JS51

**Credit points:** 12

**Incompatible with:** JSP162 JSP067

**Campus:** EXT

**Sem:** 1

**► JSN163 INTELLIGENCE RESEARCH ISSUES & METHODOLOGY**

As the importance of intelligence to government and organisation decision making continues to grow, the management of knowledge increasingly becomes the key factor in deciding who wins and who loses in international relations, business and war. This unit has three aims: first, to develop a higher level understanding of the theoretical basis of intelligence research; second, to assist students to develop an understanding of the role of research in intelligence in government and organisation decision making; and third, to develop a practical knowledge of the application of research methodologies.

**Courses:** JS51 **Credit points:** 12  
**Incompatible with:** JSP163  
**Campus:** EXT **Sem:** 2

**► JSN164 INTELLIGENCE AND NATIONAL SECURITY**

The unit critically examines the notions and concepts of national security. It explores functions, roles and responsibilities for national security in the Australian context. The basic tenet informing teaching in the unit is that intelligence is a support function that ensures the safety, security and quality of life within a nation. The concepts of national security and intelligence, the essentials of an intelligence system, and multidisciplinary factors are applied to issues related to environment, economy and society. The principal focus is on issues that constitute actual and potential threats to national security in Australia in this century. The unit also focuses on the examination of the means available and obstacles to support threat management.

**Courses:** JS51 **Credit points:** 12  
**Incompatible with:** JSP164  
**Campus:** EXT **Sem:** 2

**► JSP131 JUVENILE JUSTICE**

This unit critically examines the nature, extent and social construction of a 'youth crime problem' in western countries (especially Australia) and to establish how and why the youth justice system takes the governmental form it does. It is concerned with the way in which a 'youth crime problem' is constructed and the implications of this for particular cohorts of young people in contemporary Australia. It is also concerned with the administration and management of youth crime through formal systems designed to prevent and reduce unlawful acts. Particular attention is drawn to the historical development of youth justice in Australia and to the changing nature of youth crime control across jurisdictions.

**Courses:** JS25, JS26 **Credit points:** 12  
**Incompatible with:** JSN131, JSP041, JSB041, JSB232  
**Campus:** KG, EXT **Sem:** 1

**► JSP132 FOUNDATIONS IN CRIMINOLOGY**

Criminological theories of crime and crime control are socially and historically dynamic and integral to legal and social policy. They are also central to the ways in which prisons, policing and crime prevention more generally is organised in society. This unit deals with formal criminological theories of crime and crime control. However, rather than simply outlining the theories, particular attention is drawn to the central concepts, assumptions and propositions contained in criminological theories and the contribution which criminological knowledge has made to advancing our understanding of crime and crime control. Knowledge derived from this unit is applicable to a critical understanding of all professional and popular theories of crime.

**Courses:** JS25, JS26 **Credit points:** 12  
**Incompatible with:** JSN132, JSB231  
**Campus:** KG, EXT **Sem:** 1

**► JSP132 FOUNDATIONS IN CRIMINOLOGY**

Criminological theories of crime and crime control are socially and historically dynamic and integral to legal and social policy. They are also central to the ways in which prisons, policing and crime prevention more generally is organised in society. This unit deals with formal criminological theories of crime and crime control. However,

rather than simply outlining the theories, particular attention is drawn to the central concepts, assumptions and propositions contained in criminological theories and the contribution which criminological knowledge has made to advancing our understanding of crime and crime control. **Campus:** KG, EXT **Sem:** 1

**► JSP152 ADMINISTRATIVE JUSTICE**

Justice professionals must know and understand the rules of administrative law as well as the underlying philosophy of administrative justice so those working in the public sector understand the rules that guide their decision making as well as the avenues of appeal from any decision they make. The unit is organised around theoretical perspectives of democracy, specifically participation and accountability, and examines mechanisms of State accountability, their philosophy and practice so as to provide a strong working knowledge of the administrative justice system and its legal, social and political environment.

**Courses:** JS25, JS28 **Credit points:** 12  
**Incompatible with:** JSN152, JSB351  
**Campus:** KG, EXT **Sem:** 1

**► JSP153 WATCHDOGS: WARRIORS, WIMPS AND WITCH-HUNTS**

Recent growth of government activity and regulation means that strong powers have been granted to non-elected officials and the agencies they are employed by, often to perform an oversight role on public administration. Justice professionals need to know the range of agencies with such watchdog roles, and their powers and responsibilities. A good understanding of the theoretical and political framework within which the investigative and other powers of oversight agencies are exercised and utilised is important for those who may carry out, evaluate or critique the powers of such watchdogs.

**Courses:** JS25, JS28 **Credit points:** 12  
**Incompatible with:** JSN153, JSB253  
**Campus:** KG, EXT **Sem:** 2

### ► JSP154 HUMAN RIGHTS AND GLOBAL JUSTICE

The aim of this unit is to provide students with the necessary theoretical and practical knowledge and understanding of human rights standards and their impact on the Australian social, legal, justice and political landscape so as to enable them to enhance your contribution as a justice professional. Students also gain a critical perspective on these matters that will allow them to understand and apply the constraints and guidance provided by international human rights norms.

**Courses:** JS25, JS28 **Credit points:** 12  
**Incompatible with:** JSN154, JSP084, JSB353  
**Campus:** KG, EXT **Sem:** 2

### ► JSP161 FUNDAMENTALS OF INTELLIGENCE

Intelligence analysts are taking a leading role in investigations with analysts setting the direction for criminal investigation teams. Intelligence professionals also offer support to government, the private sector and the community where they offer an advantage through the provision of accurate and timely advice. Intelligence requires proficiency in thinking strategies and skills, effective interpersonal skills, teamwork and application of intelligence process methodologies in a variety of contexts. This unit examines the essentials of the intelligence system, the intelligence process and creative problem solving skills in an intelligence environment.

**Courses:** JS25, JS26 **Credit points:** 12  
**Incompatible with:** JSN161, JSP061  
**Campus:** EXT **Sem:** 1

### ► JSP162 MANAGING INTELLIGENCE

The unit is concerned with the management of intelligence organisations, personnel and operations. It recognises the need for managers to be attuned to the context and environment in which they are operating. The unit examines organisational structures against proven principles. It acknowledges the importance of people, and examines the specific needs of personnel systems in an intelligence environment. Finally, it looks at the processes to plan and conduct efficient operations. The subject concentrates on applying established principles and procedures to the unique needs of intelligence organisations.

**Courses:** JS25, JS29 **Credit points:** 12  
**Incompatible with:** JSN162, JSP067  
**Campus:** EXT **Sem:** 1

### ► JSP163 INTELLIGENCE RESEARCH ISSUES & METHODOLOGY

As the importance of intelligence to government and organisation decision making continues to grow, the management of knowledge increasingly becomes the key factor in deciding who wins and who loses in international relations, business and war. This unit has three aims: first, to develop a higher level understanding of the theoretical basis of intelligence research; second, to assist students to develop an understanding of the role of research in intelligence in government and organisation decision making; and third, to develop a practical knowledge of the application of research methodologies to intelligence research.

**Courses:** JS25, JS26 **Credit points:** 12  
**Incompatible with:** JSN163, JSP063  
**Campus:** EXT **Sem:** 2

### ► JSP164 INTELLIGENCE AND NATIONAL SECURITY

The unit critically examines the notions and concepts of national security. It explores functions, roles and responsibilities for national security in the Australian context. The basic tenet informing teaching in the unit is that intelligence is a support function that ensures the safety, security and quality of life within a nation. The concepts of national security and intelligence, the essentials of an intelligence system, and multidisciplinary factors are applied to issues related to environment, economy and society. The focus is on issues that constitute actual and potential threats to national security in Australia in this century, and on examination of the means available and obstacles to support threat management.

**Courses:** JS25, JS29 **Credit points:** 12  
**Incompatible with:** JSN164, JSP065

**Campus:** EXT

**Sem:** 2

### ► KCB101 COMMUNICATION IN THE NEW ECONOMY

This unit introduces the student to foundational ideas in the study of communication, drawing on examples of communication practice from contemporary society, and the historical development of both the media of mass communication and ways of theorising its development. The idea of the 'new' economy is the organising motif of the unit. The unit introduces and problematises the discipline of communication as it confronts, engages and interpenetrates the new economy.

**Courses:** KC32, IF09, IF10, IF27, KK32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KCB140 MEDIA AND SOCIETY: FROM PRINTING PRESS TO INTERNET

Innovations in media and communication technologies have been deeply implicated in the evolution of human society from ancient times to the present. This unit explores the enabling capacities of media and communications, as well as other aspects of media power from a variety of perspectives, in the development of the modern nation state, consumer culture and the global information economy.

**Courses:** KC32, IF09, IF10, KK32  
**Contact hours:** 3 per week **Credit points:** 12  
**Sem:** 1

### ► KCB150 MEDIA AND COMMUNICATIONS INDUSTRIES

This unit provides an introduction to media and communications industries, with particular reference to the Australian media and communications industries and associated issues. The unit examines aspects of broadcasting, magazines and publishing, popular music, film, the Internet and games industries, from social, industrial and cultural perspectives. Students are involved in discussion of current issues and media features.

**Courses:** KC32, IF09, IF10, IF27, KK32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KCB204 GLOBALISATION AND NEW MEDIA

The globalisation of economic, political and cultural organisations and relations is one of the central dynamics of 21st century societies. While the causes, significance and impacts of globalisation are widely debated, it has been strongly connected to the development of new media, most notably media content delivered through cable and satellite technologies, and through the Internet. This unit provides students with a clear understanding of globalisation, its relationship to new media technologies, and strategies for dealing with such changes that have been adopted by corporations, governments, communities, knowledge institutions, and the institutions and networks of civil society.

**Courses:** KC32, IF09, IF10, KK32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KCB213 STRATEGIC SPEECH COMMUNICATION

This unit is based in rhetorical and group communication theories, as a base for developing professionals who are articulate presenters, probing but empathic interviewers and interviewees, and good team players. Theory and practice are interrelated to develop understanding and self-reflexivity within students concerning their own communication skills, and to guide them to become effective leaders in the Communication Industries professions. Practice in simulated work situations will allow growth and learning in the laboratory of the classroom.

**Courses:** KC32, KK32, KJ32, IF09, IF10, IF27  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KCB295 VIRTUAL CULTURES

This unit provides both a critical and conceptual introduction to the issues arising from the emergence of online communications, or 'virtual communities', and a practical introduction to the skills and competencies required for the development and maintenance of successful virtual

communities. It considers issues arising from the development of online communications from the perspectives of corporate cultures, public or civic action, and questions of community, identity and social inequality in Internet culture, conflict management, and ethical and privacy issues on the Web.

**Courses:** KC32, IF09, IF10, KK32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KCB311 POLITICAL COMMUNICATION

This unit provides an overview of the theory and practice of political communication and the role of discursive strategies in the social construction of meaning, with particular reference to media and communications industries. The unit examines political campaigns in Australia and internationally as students critically examine theories of media influence, as well as notions of crisis management, rhetorical models, persuasion theory and the use of images as a power resource to succeed in a political campaign. The unit also looks at how survey research helps the planning and development of political campaigns, and students are involved in developing a political campaign strategy.

**Courses:** KC32, KK32, IF09, IF10, IF27  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KCB334 MEDIA AND COMMUNICATION RESEARCH METHODS

The research process (define problem, collect relevant information, analyse information, formulate conclusions/outcomes) underlies many decisions that confront media and communication professionals. This subject introduces foundational research skills and contextualises them with a number of media and communication problems. The unit involves qualitative and quantitative research methods including observation, focus groups, case studies, survey research and experiments studied in the context of media and communication problems and issues. Students carry out research using some of these methods, analyse the results and present their conclusions and recommendations.

**Courses:** KC32, IF10, KK32  
**Prerequisites:** KCB150  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KCB335 MANAGING COMMUNICATION RESOURCES

An understanding of controlled media (ie media in which the communicator, rather than a gatekeeper, controls the final content), in both print and electronic forms, is critical for professional communicators. Controlled media resources remain the most common tools developed during communication campaigns. This unit develops students' ability to devise effective resources for clients. Students develop practical skills in managing projects, researching the audience, writing and designing resources, testing their work, and seeing the product through to final production. This unit involves desktop publishing training and offers students an opportunity to develop a print or electronic resource for a client.

**Courses:** KC32, IF09, IF10, IF27  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KCB336 NEW MEDIA TECHNOLOGIES

This unit examines the relationship between new technologies and media production in their social and cultural context. It evaluates the impact of digitisation and convergence on work, leisure, film, TV, print media and other areas of cultural production and considers the contribution of media theory to insights about the social, cultural, economic and political impacts of new media technologies.

**Courses:** KC32, IF09, IF10, IF27, KK32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KCB348 APPLIED MEDIA COMMUNICATION

In this unit, students explore ways in which their knowledge of media industries, audiences and

texts finds application in employment contexts. Students also develop and consolidate an applied understanding of databases in the process of maintaining and developing an online directory of media and related organisations serving the greater Brisbane area. Questions of professional practice in online and workplace environments are also discussed, with particular reference to matters of freedom of expression, accuracy and fairness, access and equity, cultural difference, privacy, security and intellectual property.

**Courses:** KC32

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KCB349 MEDIA AUDIENCES

A knowledge of and ability to research audiences is essential to a detailed and comprehensive understanding of the media. The ability to undertake quantitative and qualitative research into various audience groupings, the use of associated analytical tools and the ability to critically analyse academic and industry based audience research are important skills for students undertaking research in Media Communication and those seeking employment in media industries.

**Courses:** KC32, IF09, IF10, IF27

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP018 CREATIVE INDUSTRIES

The development of the creative industries has been identified as a central element of the contemporary knowledge-based economy, that is informational, global and networked. In this unit, students undertake an overview of the creative industries as a major element of the global knowledge economy. Students critically analyse issues such as the rise of a knowledge-based economy, technological convergence, networks and clusters, services industries, creative cities, globalisation, creativity and consumption, intellectual property issues, social entrepreneurship and social capital.

**Courses:** IF01, IF02, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP110 GLOBAL MEDIA AND COMMUNICATIONS POLICY

This unit involves intensive analysis of current issues in media and communications policy, both in Australia and internationally, in the context of the rise of global media and communications networks, globalised content, and the emergence of global rules and institutions to govern these networks and flows. The unit combines critical reflection and applied analysis of contemporary media and communications policy issues with an understanding of the politics of media and communications policy. The unit equips students with conceptual and applied research skills that can be used in further academic research, and professional practice in industry and government.

**Courses:** KK51, IF03, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP295 VIRTUAL CULTURES

New media communications technologies such as the Internet have opened opportunities for extended participation and development of online cultures, with new forms of interaction, collaboration, community-building and the development of shared interests at a global scale being made possible. This unit affords students an opportunity to critically appraise arguments for and against virtual communities, in the context of practical tutorials, lecture/discussions, students' participation and online communication.

**Courses:** KI35, KI36, KI43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP336 NEW MEDIA TECHNOLOGIES

This unit considers the social, cultural, economic and political implications of development of new media technologies, such as the Internet and World Wide Web, broadband cable and satellite technologies. This unit considers the following: the historical development of technologies; different understandings of digital culture; the impact of new media forms upon cultural practices and modes of social interaction; the impact of

new media in traditional media industries (print, broadcast) and areas such as entertainment and education; the legal, regulatory and policy issues arising from the development of new media technologies.

**Courses:** IF01, IF02, IF03, IF04, KI35, KI36, KI43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KCP348 APPLIED MEDIA COMMUNICATION

Networks of industry and professional association are extremely important in media and communication industries. In this unit, students extend and apply their critical knowledge of media and communication to the task of deepening their understanding of these networks. Through updating and developing the Brisbane Media Map, an online resource that profiles media and communication industries in Brisbane, students also refine project planning and management skills, information analysis and design skills, website promotion, database management, and team leadership skills.

**Courses:** IF03, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KCP349 MEDIA AUDIENCES

This unit provides students with a conceptual understanding of media audiences within industry and academic contexts. In addition, the unit introduces students to a range of practical skills that may be applied when undertaking audience research. A knowledge of and an ability to research audiences is essential to a detailed and comprehensive understanding of the media. The ability to undertake quantitative and qualitative research into various audience groupings, and the ability to critically analyse academic and industry based audience research are important skills for students undertaking both postgraduate research in Media & Communication and those seeking employment in media industries.

**Courses:** IF03, IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP353 CREATIVE INDUSTRIES RESEARCH SEMINAR

This unit provides analytical and practical research skills for professional practice in the creative industries. It combines an overview of research methodologies and traditions relevant to the creative industries with the development of generic skills in research strategies, use of information technology for research, skills in data collection and analysis, and application of research outcomes in community, professional, industry and governmental contexts. It enhances the development of graduates with strong vocational and research skills in their chosen areas of professional practice.

**Courses:** IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP354 CREATIVE INDUSTRIES IN ASIA

The Asian region has been one of the most dynamic regions in the world over the last three decades. Economic growth and industrialisation, greater openness to the global economy, and the rise of mass media and consumer society, have led to dramatic changes in the media and cultural industries throughout the region. Forces associated with the rise of creative industries, such as globalisation, the knowledge-based economy, and media and communications networks are significantly shifting public policy, and raising new challenges, tensions and contradictions in politics, economics and culture.

**Courses:** IF04

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KCP355 CREATIVE INDUSTRIES PROJECT

The development of the creative industries has been identified as a central element of the contemporary creative economy that is informational, global and networked. This unit provides an opportunity for students to extend their analy-

sis and reflection upon the development of creative industries, in the form of a scholarly and well-researched essay. Sustained reflection upon creative industries developments is central to those involved in the creative industries as professional practitioners, as well as those considering Doctoral study in the creative industries area.

**Courses:** IF04

**Contact hours:** 3 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1, 2

#### ► KCP360 ADVERTISING CREATIVE: INTRODUCTION

This unit provides an introduction to the creative side of advertising, involving the development of creative strategies, creative concepts, and the crafting of persuasive ideas. The unit is the foundation for further work in creative advertising, and provides students with a thorough grounding in creative advertising history, industry practices, strategies and concept development.

**Courses:** IF94, IF95, IF96, IX95, IX96

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

#### ► KCP361 ADVERTISING CREATIVE: ELECTRONIC AND PRINT MEDIA

This unit develops core skills in the creative production of advertising for key electronic and print media: TV, radio, cinema, interactive, paper, print, magazine, and outdoors. It examines the following: how creative advertisers use these media principles for creating effective advertisements; the media influence in the creative process; how to present concepts for each medium; the roles, steps and components of creative advertising production. Through this process, students expand their understanding of and skills in developing advertisements for the key electronic and print mediums.

**Courses:** IF94, IX95, IX96

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KCP362 ADVERTISING CREATIVE: COPYWRITING AND ART DIRECTION

Copywriting and art direction are fundamental to creative advertising practice. Both tasks exist at the front end of advertising: copywriters and art directors help to bring advertising campaigns to life through creative concept development, writing, and liaising with both clients and artists. This unit builds on the introductory creative advertising units. It examines contemporary advertising theory and practice and develops practical skills in writing and art directing. Case studies examine a wide range of advertising campaigns, including campaigns to sell products, corporate reputations, and not-for-profit organisations.

**Courses:** IF94, IF95, IF96, IX95, IX96

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KDB106 DANCE ANALYSIS

This unit includes a study of the analysis of dance through a concentration on the dance as text and a study of various international historical contemporary works.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KDB114 AUSTRALIAN DANCE

This unit includes Australian dance: a study of the ritual, artistic and social functions of dance in contemporary Australian society.

**Courses:** Open Elective, KD25, KD32, IX05, IX06, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KDB117 DANCE IN EDUCATION

This unit includes a practical introduction to philosophies and practices in dance education. The areas of choreography, performance and appreciation are explored as students develop basic teaching and reflective practice skills. This unit is appropriate for students planning to teach dance in the primary, secondary, community or studio context.

**Courses:** KD32, KT32, IX05, IX06, ED51, ED53, ED91, ED96

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB125 DECONSTRUCTING DANCE IN HISTORY**

This unit includes a study of various international, historical and contemporary contexts of dance as art. It focuses on romanticism, classicism, modernism and post-modernism.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB158 DANCE AND TECHNOLOGY 1**

This unit includes modes of choreographic communication: discussion of aesthetic questions that have emerged out of the last major choreographic movements and collaborative practices encouraged with specific focus on digital technologies.

**Courses:** KD25, KD32

**Prerequisites:** Minimum grade of 5 in KDX145  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB159 DANCE AND TECHNOLOGY 2**

This unit includes a major choreographic project for public performance. It involves the exploration of aesthetic and artistic values in collaborative processes and making new work with technology.

**Courses:** KD25, KD32 **Prerequisites:** KDB158  
**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB171 THEATRE DANCE STYLES**

This unit includes character, jazz and tap styles - essential steps and various combinations.

**Courses:** IX05, KD25, KD32

**Contact hours:** 4.5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB172 WORLD DANCE**

This unit includes exposure to a range of culturally specific dance styles through practical workshops and a theory component providing contextual background to the styles taught.

**Courses:** CI Open Elective

**Contact hours:** 2.5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB176 POPULAR DANCE STYLES**

This unit includes the history and sociology of popular dance and dance in musical theatre and other commercial contexts. Basic technique and steps in a range of popular dance styles from Ragtime to Funk are part of the course

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB180 DANCE TECHNIQUE STUDIES 1**

This unit involves practical dance classes as ongoing Action Research.

**Courses:** IX05, KD25, KD32

**Contact hours:** IX05, KD32: 9 per week; KD25, KD32: 13.5 per week  
**Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB181 DANCE TECHNIQUE STUDIES 2**

This unit involves practical dance classes as ongoing Action Research.

**Courses:** IX05, KD25, KD32

**Contact hours:** IX05, KD32: 8 per week; KD25: 13.5 per week  
**Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB182 DANCE TECHNIQUE STUDIES 3**

This unit involves practical dance classes as ongoing Action Research.

**Courses:** IX05, KD25, KD32

**Contact hours:** IX05, KD32: 8 per week; KD25: 13.5 per week  
**Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB183 DANCE TECHNIQUE STUDIES 4**

This unit involves practical dance classes as ongoing Action Research.

**Courses:** IX05, KD25, KD32

**Contact hours:** IX05, KD32: 6 per week; KD25: 13.5 per week  
**Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB189 DANCE ASSESSMENT AND REPORTING**

This unit relates current theoretical issues in assessment to the unique challenges of dance assessment. Students explore a range of assessment procedures, methods and strategies to support quality and equity in dance assessment at all levels.

**Courses:** KD05, KD06, KD16, KD17

**Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► KDB190 PROFESSIONAL PRACTICE AND BUSINESS ADMINISTRATION FOR DANCE TEACHERS**

This unit considers the implications of Dance Industry Code of Ethics (1987) for teaching and learning in dance. This unit also includes practical and useful materials for the effective and efficient operations of a business in dance teaching by relating current small business management practices to the specific organisational needs and requirements for dance teaching businesses.

**Courses:** KD05, KD06, KD16, KD17

**Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► KDB191 DANCE TEACHING METHODOLOGIES**

This unit provides students with the opportunity to investigate and explore dance teaching issues relevant to their own teaching context. The unit materials include strategies and models for planning and implementing dance lessons and curriculum, catering for the diverse learning needs of students and managing the classroom as a complex social environment.

**Courses:** KD05, KD06, KD16, KD17

**Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► KDB192 STAGECRAFT AND COSTUME DESIGN FOR DANCE**

This unit provides opportunities to investigate the principles of design as they relate to the visual environment of a dance performance / production. It considers principles and theoretical issues relevant to design for stage and video, stimulating and innovative examples of visual designs for dance performance and practical information for production/planning and budgeting.

**Courses:** KD06, KD16, KD17

**Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► KDB193 DANCE PROJECT 1A**

This unit is designed for students to investigate their practice as a dance performer and/or creator via an interdisciplinary and collaborative project. Projects may be self-devised or alternatively students may contribute to creative projects involving new work. In addition to the project proposal and their realisation, the unit comprises a reflective practice written assignment and the maintenance and development of technical dance skills.

**Courses:** KD25 **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDB195 DANCE TEACHING STUDIES 1**

This unit examines basic theoretical understandings and practical skills to support and enhance students' ability to plan for, manage and promote effective and safe learning in dance classes.

**Courses:** KD05, KD06, KD16, KD17

**Contact hours:** 1 week full-time residency in Summer Semester  
**Credit points:** 12  
**Campus:** KG **Sem:** 3

**► KDB196 DANCE TEACHING STUDIES 2**

The theory of choreography and the basic skills of crafting choreography form the basis of study in this unit. This unit also provides students with the opportunity to investigate current research relating to teaching for performance. Issues such as psychology of performance and pacing of dance training are addressed.

**Courses:** KD06, KD17

**Contact hours:** 1 week full-time residency in Summer Semester  
**Credit points:** 12  
**Campus:** KG **Sem:** 3

**► KDB197 DANCE ANALYSIS AND DANCE HISTORIES**

This unit examines aesthetic theory and analysis models that assist students to respond to and reflect upon dance. Students apply this understanding to the research and analysis of dances in context.

**Courses:** KD05, KD06, KD16, KD17

**Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► KDB198 SAFE DANCE PRACTICE**

This unit provides students with the knowledge and understanding of the information regarding safe dance practices. Practical activities focus on the implications of current research in safe dance practice to dance teaching and learning. The content of this unit reflects a holistic approach to training in dance by considering a diverse range of issues such as basic anatomy and physiology, the use of imagery in dance training, injury prevention and management strategies, nutrition and lifestyle management.

**Courses:** KD05, KD06, KD16, KD17

**Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► KDB199 DANCE PROJECT 1B**

This unit is designed for students to investigate their practice via a performative and creative project. Interdisciplinary and collaborative projects are encouraged. Projects may be self-devised or alternatively students may contribute to a creative/choreographic project involving new work. In addition to the project and its realisation, the unit comprises written reflective practice and the maintenance and development of technical dance skills.

**Courses:** KD25 **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB221 INTEGRATED PROFESSIONAL SKILLS**

This is an integrated program building specific practical and psychological skills and strategies for career development and enhancement.

**Courses:** KD32, KD25, IX05

**Contact hours:** 2.5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KDB429 DANCE CURRICULUM STUDIES 2**

This presents advanced practical applications in assessment, curriculum planning and teaching/learning strategies relevant to dance education.

**Courses:** IF75, IF76, IF77, IF78, KD32, KT32, ED55

**Prerequisites:** KDB421  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KDN002 PROFESSIONAL PRACTICE PROJECT**

This unit aims to provide a context for students to apply and extend their developed teaching practices. As they devise, implement and evaluate a project relevant to their teaching context, students actively engage their skills and understandings as teacher artists. Students are also supported to enhance their skills as reflective practitioners as they critically analyse and evaluate their professional practice.

**Courses:** KD42 **Credit points:** 24  
**Campus:** EXT **Sem:** 1, 2

**► KDP104 SAFE DANCE PRACTICE**

This unit provides students with the knowledge and understanding of the information regarding safe dance practices. Practical activities focus on the implications of current research in safe dance practice to dance teaching and learning. The content of this unit reflects a holistic approach to training in dance by considering a diverse range of issues such as basic anatomy and physiology, the use of imagery in dance training, injury prevention and management strategies, nutrition and lifestyle management.

**Courses:** KD35, KD36, KD42 **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

**► KDP105 DANCE ANALYSIS AND DANCE HISTORIES**

This unit examines aesthetic theory and analysis models that assist students to respond to and

reflect upon dance. Students apply this understanding to the research and analysis of dance in context.

**Courses:** KD35, KD36, KD42 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

#### ► KDP180 DANCE TEACHING STUDIES 1

This unit examines theoretical understandings and practical skills to support and enhance students' ability to plan for, manage and promote effective and safe learning in dance classes.

**Courses:** KD35, KD36, KD42

**Contact hours:** 1 week full-time residency in Summer semester

**Credit points:** 12

**Campus:** KG

**Sem:** 3

#### ► KDP181 DANCE TEACHING STUDIES 2

The theories of choreography and the skills of crafting choreography form the basis of study in this unit. This unit also provides students with the opportunity to investigate current research relating to the teaching for performance. Issues such as psychology of performance and pacing of dance training are addressed.

**Courses:** KD36, KD42

**Contact hours:** 1 week full-time residency in Summer semester

**Credit points:** 12

**Campus:** KG

**Sem:** 3

#### ► KDP189 DANCE ASSESSMENT AND REPORTING PROCEDURES

This unit relates current theoretical issues in assessment to the unique challenges of dance assessment. Students explore a range of assessment procedures, methods and strategies to support quality and equity in dance assessment at all levels.

**Courses:** KD35, KD36, KD42

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

#### ► KDP190 PROFESSIONAL PRACTICE AND BUSINESS ADMINISTRATION FOR DANCE TEACHERS

This unit considers the implications of Dance Industry Code of Ethics (1987) for teaching and learning in dance. The unit includes practical and useful materials for the effective and efficient operations of a business in the dance teaching by relating current small business management practices to the organisational needs and requirements for dance teaching businesses.

**Courses:** KD35, KD36, KD42

**Credit points:** 12

**Campus:** EXT

**Sem:** 1, 2

#### ► KDP191 DANCE TEACHING METHODOLOGIES

This unit provides students with the opportunity to investigate and explore dance teaching issues relevant to their own teaching context. The unit materials includes strategies and models for planning and implementing dance lessons and curriculum, catering for the diverse learning needs of students, and managing the classroom as a complex social environment.

**Courses:** KD35, KD36, KD42

**Credit points:** 12

**Campus:** EXT

**Sem:** 1, 2

#### ► KDP192 STAGECRAFT AND COSTUME DESIGN FOR DANCE

This unit provides opportunities to investigate the principles of design as they relate to the visual environment of a dance performance/production. It considers principles and theoretical issues relevant to design for stage and video, stimulating and innovative examples of visual designs for dance performance and practical information for production/planning and budgeting.

**Courses:** KD36, KD42

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

#### ► KDX104 ARCHITECTURE OF THE BODY

This unit focuses on experiential awareness of the body, including an introduction to a working knowledge of anatomy, kinesiology and the movement potential of the body, both in theory and practice. For students in KI25 and KF25, a component of the course explores the creative potential of movement through compositional tasks.

**Courses:** KD25, KD32, KF25, KI25, IX05, IX06, IX07, IX08

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► KDX111 PERFORMANCE 1

This studio based unit consists of a creative process through rehearsals and classes with choreographers, rehearsal directors and teaching staff leading to a studio and public performance.

**Courses:** KD25

**Contact hours:** 8 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► KDX112 PERFORMANCE 2

This studio-based unit consists of a creative process through rehearsal directors and teaching staff leading to a studio and public performance.

**Courses:** KD25

**Prerequisites:** KDX111

**Contact hours:** 8 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► KDX141 PERFORMANCE 3

This studio based unit consists of a creative process through rehearsals and classes with choreographers, rehearsal directors and teaching staff leading to a studio and public performance.

**Courses:** KD25

**Prerequisites:** KDX112

**Contact hours:** 8 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► KDX142 PERFORMANCE 4

This studio based unit consists of a creative process through rehearsals and classes with choreographers, rehearsal directors and teaching staff leading to a studio and public performance.

**Courses:** KD25

**Prerequisites:** KDX141

**Contact hours:** 8 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► KDX143 CHOREOGRAPHIC STUDIES 1

This unit introduces crafting skills and choreographic devices used in process of making dance work. It includes the presentation of short solo or group work.

**Courses:** KD25, KD32, IX05, IX06, IX07, IX08

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► KDX144-1 CHOREOGRAPHIC STUDIES 2

This unit includes practice and performance of choreographic work employing choreographic skills in creation of movement material, form and style. Clarity of intention is major focus. This is a year long unit. Students must enrol in KDX144-2 in the second semester to complete the unit.

**Courses:** KD25, KD32, IX05

**Prerequisites:** KDX143

**Contact hours:** 2 per week

**Credit points:** 6

**Campus:** KG

**Sem:** 1

#### ► KDX144-2 CHOREOGRAPHIC STUDIES 2

This unit includes practice and performance of choreographic work employing choreographic skills in creation of movement material, form and style. Clarity of intention is major focus.

**Courses:** KD25, KD32, IX05

**Prerequisites:** KDX144-1

**Contact hours:** 2 per week

**Credit points:** 6

**Campus:** KG

**Sem:** 2

#### ► KFB056 PROFESSIONAL STUDIES (FASHION)

This unit prepares students for the transition into the real world, by equipping them with an understanding of law as a regulator of business. In order to flourish as an entrepreneurial creative practitioner, it is essential that students understand the legal implications of their decisions and actions and those of others with whom they work or trade. This unit forms part of the final year of study so students can apply the knowledge acquired within their workplace and incorporate the learning from this unit into their planning and preparation for graduation.

**Courses:** KF25

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► KFB401 DESIGN STUDIO 1

The sequence of six Design Studio units is fundamental to the course and focus on the integration of design principles with the practical skills and understandings of pattern technology, garment

design and construction. Alongside the acquisition of design skills, it is essential for successful fashion designers of the future to understand the context of their practice, situated within a history and an industry that is international in scope.

**Courses:** KF25

**Contact hours:** 12 per week

**Credit points:** 24

**Campus:** KG

**Sem:** 1

#### ► KFB402 DESIGN STUDIO 2

This unit aims to build on skills acquired in KFB401 with a more advanced study of design and colour theory, techniques of pattern construction, and grading and methods of garment manufacture.

**Courses:** KF25

**Contact hours:** 12 per week

**Credit points:** 24

**Campus:** KG

**Sem:** 2

#### ► KFB403 DESIGN STUDIO 3

The sequence of six Design Studio units is fundamental to the course and focuses on the integration of design principles with the practical skills and understandings of pattern engineering and garment design and construction. These skills need to be scaffolded by the acquisition of business and entrepreneurial acumen if potential is to be realised in real work industry environments. This unit seeks to develop the theoretical and applied knowledge, skills and attitudes that will support and enhance creative practice through an introduction to market research, risk analysis and business planning.

**Courses:** KF25

**Contact hours:** 12 per week

**Credit points:** 24

**Campus:** KG

**Sem:** 1

#### ► KFB404 DESIGN STUDIO 4

This unit aims to further develop a combination of initiative, creativity and self-reliance, alongside the key skills of collaboration and working in teams within the context of an industry linked design project.

**Courses:** KF25

**Contact hours:** 12 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► KFB405 DESIGN STUDIO 5

This sequence of six Design Studio units is fundamental to the course and focuses on the integration of design principles with the practical skills and understandings of pattern engineering and garment design and construction. Design Studio in the final year allows students the opportunity to further immerse themselves in the development of their own product or range. Design Studio 5 acts as a stage one of the final project and forms the research and development phase of the project. During this unit, students formulate their final project for prototyping and completion in Design Studio 6.

**Courses:** KF25

**Contact hours:** 12 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► KFB406 DESIGN STUDIO 6

This unit is the capstone Design Studio unit and aims to provide students with the opportunity to synthesize their prior learning, within university and the workplace, through the production of a final year project. In this unit, students develop the confidence and ability to work with minimal supervision in preparation for graduation.

**Courses:** KF25

**Contact hours:** 20 per week

**Credit points:** 24

**Campus:** KG

**Sem:** 2

#### ► KFB407-1 TEXTILES (1/2)

Detailed knowledge of the materials, skills and processes available to the garment and textile industries is essential in the first year of study for the fashion designer. This is a year long unit. Students are to enrol in KFB407 2/2 in the second semester.

**Courses:** KF25

**Contact hours:** 2 per week

**Credit points:** 6

**Campus:** KG

**Sem:** 1

#### ► KFB407-2 TEXTILES (2/2)

This unit continues from KFB407 1/2. Detailed knowledge of the materials, skills and processes available to the garment and textile industries is essential in the first year of study for the fashion

designer. This is a year long unit. Students must have completed KFB407 1/2.

**Courses:** KF25

**Prerequisites:** KFB407-1

**Contact hours:** 2 per week **Credit points:** 6  
**Campus:** KG **Sem:** 2

#### ► KFB408 FASHION IN CONTEXT

In this unit, students analyse fashion trends and learn the influence of various factors that affect changes in fashion, including major designers.

**Courses:** KF25

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KFB410-1 RESEARCH SEMINAR (1/2)

In this unit, students expand their knowledge and experience through exposure to the work of specialists in the field while extending their knowledge of the national and international fashion world. This is a year long unit - students must complete KFB410 2/2 in the second semester.

**Courses:** KF25

**Contact hours:** 2 per week **Credit points:** 6  
**Campus:** KG **Sem:** 1

#### ► KFB410-2 RESEARCH SEMINAR (2/2)

In this unit, students expand their knowledge and experience through exposure to the work of specialists in the field while extending their knowledge of the national and international fashion world. This is a year long unit - students must complete KFB410/1 in the first semester.

**Courses:** KF25

**Contact hours:** 2 per week **Credit points:** 6  
**Campus:** KG **Sem:** 2

#### ► KFB411 ADVANCED TEXTILES

This unit builds on the knowledge of the materials and skills acquired in KFB407 and is planned for the design student who wishes further studies in the field of textile development and/or embellishment.

**Courses:** KF25

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KFB412 APPLIED PLANNING

This unit aims to provide students with an opportunity to identify relevant issues relating to their planned careers and to position themselves effectively for entry to industry, community-based projects or postgraduate study.

**Courses:** KF25

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KFB414 CROSS MEDIA DESIGN APPLICATIONS

The aim of this unit is to support students in cross disciplinary projects, either as part of a collaborative project or through individual cross disciplinary projects. The unit aims to provide students with an opportunity to extend their cross media design application skills.

**Courses:** KF25

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KFB415 DESIGN PROJECT

This unit is designed for the student who wishes to further advance non-traditional approaches to fashion or textile design or who wishes to continue collaboration with students in other Creative Industries disciplines on a design project.

**Courses:** KF25

**Prerequisites:** KFB411 or KFB414

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB056 PROFESSIONAL PRACTICE

This unit prepares the student for industry via immersion within a project-based environment and construction of a professional graduate portfolio. This authentic learning is supported by discussion of employment opportunities within the communication design sector, informed by industry professionals.

**Courses:** KI32, KI25, IF90

**Prerequisites:** KIB805

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB056-1 PROFESSIONAL PRACTICE (1/2)

This unit prepares the student for industry via immersion within a project-based environment, and construction of a professional graduate portfolio. This authentic learning is supported by discussion of employment opportunities within the communication design sector, informed by industry professionals. This is a year long unit.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB812

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KIB056-2 PROFESSIONAL PRACTICE (2/2)

This unit prepares the student for industry via immersion within a project-based environment and construction of a professional graduate portfolio. This authentic learning is supported by discussion of employment opportunities within the communication design sector, informed by industry professionals. This is the second part of a year long unit.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB056-1

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB301 INTRODUCTION TO PROGRAMMING FOR 3D

This is a unit which focuses on production technique. It is based in animation production as a foundation for developing professionals who can program by creating new tools and processes for the 3D graphics environment.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KIB303 MODELLING AND TEXTURING FOR GAME DESIGN

This is a unit which emphasises production within practice. It uses the 3D computer game environment as a space for exploring a complex set of tasks and techniques specific to the needs and the requirements of real-time graphical displays. Practice is simulated to demonstrate the workflows, processes and core problems specific to this environment.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB304 PARTICLES FOR VISUAL EFFECTS 1

This is a unit which emphasises production within practice. It uses the cinematic environment to create effects for motion picture or game simulations. It combines technique with context to guide the creation of programmatically driven particles and fields, in the generation of animated computer graphics.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB305 ANIMATION AND CHARACTER SET-UP

This is a unit which emphasises production in a practice environment. By demonstrating industry standard practices of nomenclature, process, implementation and delivery, students gain an understanding of the interrelated areas of creation and production and their relationship to practice.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG

#### ► KIB306 SURFACE, SHADERS, LIGHTING FOR 3D

This unit emphasises production in a practice environment. It uses the practice environment to demonstrate how students can connect knowledge of the digital realm with industry standards. In this environment, students develop their communication skills and are guided to become effective leaders in the creation of content.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG

#### ► KIB308 COMPOSITING FOR VISUAL EFFECTS

This unit emphasises production in a practice environment. It uses film technique as a basis for developing professionals who can translate their

animated content into a final production landscape. Practice is simulated to demonstrate the complex relationships between creation and production.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG

#### ► KIB801 FOUNDATIONS OF COMMUNICATION DESIGN 1

Communication Design deals with the synthesis of image and text in the creation and presentation of meaning. This unit introduces students to the principles, conventions and practices of visual communication.

**Courses:** KI25, KI32, IF90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KIB802 FOUNDATIONS OF COMMUNICATION DESIGN 2

This unit further develops interface design skills for communications technologies including design priorities, visual systems, refinement of concepts, project analysis and problem solving through presentation models.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB801

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB803 TEMPORAL MEDIA

This unit is directed at exploring the creative potential of temporal media forms and their placement and use within new media works. Students are introduced to notions of temporality, spatiality and navigation and work in a variety of media to explore speculative creative works.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB802

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KIB804 3-D ANIMATION 1

This unit addresses technical and theoretical issues arising from the development of 3-D animated characters. The unit introduces students to the principles of character animation within virtual spaces, addressing issues such as character rigging, modelling, texturing and lighting, cinematography, acting, staging and performance.

**Courses:** KI25, KI32, KI43, IF90

**Prerequisites:** KIB808

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KIB805 DESIGN PROJECT A

This unit investigates the theoretical foundations and creative processes underpinning interdisciplinary new media projects by analysing the recursive relationships between design, narrative, science and technology.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB802 or KIB804, KIB808

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KIB806 DESIGN PROJECT B

This unit provides a critique forum for individual final projects. Each student is required to produce a final project indicative of their field of studies. NOTE: This unit is 24 credit points.

**Courses:** KI25, KI32

**Prerequisites:** KIB805  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KIB807 MEDIA TECHNOLOGY 1

This unit provides an introduction to theories and skills underpinning the application of multimedia technology within the Creative Industries, providing a foundation of conceptual and practical skills related to contemporary modes of electronic hypermedia production, communication and publishing.

**Courses:** KI25, KI32, IF90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KIB808 MEDIA TECHNOLOGY 2

This unit explores multimedia development and design concepts and practices and investigates cinematic language and interactive media design principles. Digital video and interaction design are introduced in the context of narrative, interactivity and applications of digital media.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB807 or KKB818

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB809 INTERACTION DESIGN

Interaction Design introduces students to new media and technology tools for communication and everyday use. Interaction design defines a cultural approach to aesthetics, culture and technology by investigating, systems objects, environments and their inter-relationships. Interaction designers use design methodologies for planning applications that meet audience needs, serve specific purposes, and can be applied to suitable contexts.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB808, KIB802 or KIB811

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB810 INFORMATION ARCHITECTURE

This unit provides an introduction to Web application design and computer network communication. It emphasises computer programming and object orientated analysis and design.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB808, KIB802 or KIB811, KIB809

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KIB811 VISUAL INTERACTIONS

To be a successful practitioner in the creative industries, students will be required to have knowledge and skills that enable visual communication of concepts and the production of various visual formats for a range of settings. By investigating past and current shifts in the representation of both the still and moving image, this unit provides a foundation for further studies in the field of Communication Design and the broader Creative Industries.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB812 INTERDISCIPLINARITY FOR THE CREATIVE INDUSTRIES

This unit presents methodologies for achieving interdisciplinary practice within project-based environments. These environments encourage the use of tools, techniques, and modes of expression to achieve effective collaborative project work.

**Courses:** KI25, KI32, IF90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB812-1 INTERDISCIPLINARITY FOR THE CREATIVE INDUSTRIES

This unit presents methodologies for achieving interdisciplinary practice within project-based environments. These environments will encourage the use of tools, techniques, and modes of expression to achieve effective collaborative project work. This is a year long unit.

**Courses:** KI25 - Sound Design pathway

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB812-2 INTERDISCIPLINARITY FOR THE CREATIVE INDUSTRIES

This unit presents methodologies for achieving interdisciplinary practice within project-based environments. These environments encourage usage of tools, techniques, and modes of expression to achieve effective collaborative project work. This is a year long unit.

**Courses:** KI25 - Sound Design pathway

**Prerequisites:** KIB812-1

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB813 CONTEMPORARY ISSUES IN DESIGN AND TECHNOLOGY

As inhabitants of cultures increasingly driven by technology, it is in all interest to be aware of potential and implications of technological change. This unit is designed to encourage students to reflect upon and to analyse current inter-connections between technology, design and society, and to provide tools to perform these activities effectively.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

### ► KIB814 ENABLING IMMERSION

As creative practitioners within a highly networked technological society, it is important to develop a critical understanding of how the application of technology influences modes of communication, production processes and creative practices, particularly within the Creative Industries. This unit provides an introductory overview of the philosophies underlying applications of technology, and critically examines current applications in order to explore creative visions of future technology.

**Courses:** KI32, KK32 **Prerequisites:** KKB818

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB815 INTER-FACING MEDIA

This unit follows on from KIB809 Interaction Design focusing on study in the field of Interaction Design including human computer interaction concepts, principles and methodologies involved in the design and development of interactive media.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB809

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB817 PROJECT MANAGEMENT

This unit serves as an introduction to project management and how it relates to software development and new media production. It makes use of various concepts and techniques to achieve a successful project outcome: defining project brief/scope and boundaries.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB809 or KIB804 or KIB802

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB819 ELECTRONIC PUBLISHING

This unit is concerned with the theories, concepts and methodologies that underpin electronic publishing, emphasising the conceptual and analytical skills required to develop successful online publications within the context of Creative Industries.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB810

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KIB820 3-D ANIMATION 2

This unit addresses the integration of virtual characters in live action backgrounds and/or live action characters against virtual backgrounds. Issues of compositing, shot development, effects work and virtual economies are introduced. Study areas include colour theory, cinematography, efficient modelling and rendering, compositing, staging, character and scene creation, and methods of output. Successful completion of KIB804 (3d animation 1) is a pre-requisite.

**Courses:** KI25, KI32

**Prerequisites:** KIB304  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB821 MIXED REALITIES

This unit investigates the field of Virtual Reality looking at the history and related theory of this emerging interactive media. This material supports practical activities that directly address current practice in the field.

**Courses:** KI25, KI32, IF90

**Prerequisites:** KIB809, KIB804

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB822 INFORMATIONAL ARTS

This unit finds a focus on the production of interactive projects, informed by the filmic processes developed in KIB803 and interaction design as covered in KIB809/KIB815. KIB822 looks at devising interactive, nonlinear approaches that draw upon these skills, with a focus upon concept development: creative and design processes; interactive techniques and styles; advanced digital video/media production; post production.

**Courses:** KI25, KI32

**Prerequisites:** KIB815, KIB803

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB823 DESIGN PRACTICE

With the approval of the Unit Coordinator, the student undertakes an activity within the context of a group project in the field of Communication Design. Access to this unit is reserved for students who have demonstrated an outstanding level of self-directed learning and high level of requisite skills.

**Courses:** KI25, KI32, IF90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB825 ANIMATION PRACTICES

The unit is an introductory examination of the development of animation. It addresses social, cultural, economic and technological themes that have shaped notable practitioners and established animation as a significant medium for the expression of popular culture, artistic experiment and philosophical, social and political comment.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIB826 3-D ANIMATION 3

The unit provides the student with the opportunity to pursue advanced studies in three-dimensional modelling and animation, in the context of the creation of synthetic characters, after successful completion of KIB820.

**Courses:** KI25

**Prerequisites:** KIB820  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB860-1 PROJECT

This unit serves as final project seminar which brings together the creative issues, media and organisational skills taught throughout the Communication Design and Information Technology courses. In this unit, students develop new media projects in response to briefs from faculty, university or industry. The unit is structured so that students present their ideas, document the project, and then continue to present project progress throughout the semester. The unit provides the basis for a major portfolio work to be presented to peers and industry professionals for assessment. This is a year long unit. Students are required to complete KIB860/2 in second semester.

**Courses:** IF90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIB860-2 PROJECT

This unit serves as final project seminar which brings together the creative issues, media and organisational skills taught throughout the Communication Design and Information Technology courses. In this unit, students develop new media projects in response to briefs from faculty, university or industry. The unit is structured so that students present their ideas, document the project, and then continue to present project progress throughout the semester. The unit provides the basis for a major portfolio work to be presented to peers and industry professionals for assessment. This is a year long unit. Students are required to complete KIB860/1 in first semester.

**Courses:** IF90

**Prerequisites:** KIB860-1  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIN809 INTERACTION DESIGN

This unit provides an introduction to the field of interaction design including human computer interface design concepts, and principles and methodologies involved in the design and development of interactive media.

**Courses:** KI36, KI43

**Prerequisites:** KIN818, KIN808

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIN810 INFORMATION ARCHITECTURE

This unit provides an introduction to Web application design and computer network communication. It emphasises computer programming and object orientated analysis and design.

**Courses:** KI36, KI43

**Prerequisites:** KIN808, KIN818

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIN811 VISUAL INTERACTIONS

To be a successful practitioner in the creative industries, students will be required to have knowledge and skills that enable visual communication of concepts and the production of various visual formats for a range of settings. By investigating past and current shifts in the representation of both the still and moving image, this unit provides a foundation for further studies in the field of Communication Design and the broader Creative Industries.

**Courses:** KI35, KI36, KI43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIN812 INTERDISCIPLINARITY FOR THE CREATIVE INDUSTRIES

This unit presents methodologies for achieving interdisciplinary practice within project-based environments. These environments encourage the use of tools, techniques, and modes of expression to achieve effective collaborative project work

**Courses:** KI35, KI36, KI43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KIN817 PROJECT MANAGEMENT

This unit serves as an introduction to project management and how it relates to software development and new media production, making use of various concepts and techniques to achieve a successful project outcome defining project brief, scope and boundaries.

**Courses:** KI36, KI43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KIN818 DIGITAL MEDIA

This unit provides an introduction to theories and skills underpinning the application of multimedia technology with the Creative Industries, providing a foundation of conceptual and practical skills related to contemporary modes of electronic hypermedia production, communication and publishing.

**Courses:** KI35, KI36, KI43

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG

### ► KIN851-1 DESIGN PROJECT (1/2)

Students enrolled in the Master of Creative Industries (Communication Design) are required to undertake a new media design project. The creative new media project should demonstrate an ability to apply academic and creative knowledge innovatively. The project relies on students synthesizing the communication design core knowledge with their existing experiences to produce innovative solutions to new media related problems.

**Courses:** KI43

**Prerequisites:** KIB812

**Contact hours:** 4 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1

### ► KIN851-2 DESIGN PROJECT (2/2)

Students enrolled in the Master of Creative Industries (Communication Design) are required to undertake a new media design project. The creative new media project should demonstrate an ability to apply academic and creative knowledge innovatively. The project relies on students synthesizing the communication design core knowledge with their existing experiences to produce innovative solutions to new media related problems.

**Courses:** KI43

**Prerequisites:** KIB812

**Contact hours:** 4 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1, 2

### ► KJB101 JOURNALISM INFORMATION SYSTEMS

This unit acquaints students with the uses journalists make of computers in their work: word-processing; personal information management; time management; gathering information for stories and journalism assignments by searching online and CD-ROM databases; analysing public records with spreadsheets; using email to interview sources found on Internet Bulletin Boards and in newsgroups, usergroups, and listservers.

**Courses:** KJ32, IF05, IF07, KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KJB120 NEWSWRITING

In this unit students learn to think like journalists: to evaluate events for their potential news value; to record interviews and perform other reporting tasks; to write news stories. It includes the evolution and theories of reporting.

**Courses:** KJ32, IF05, IF07, IF27, KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KJB121 JOURNALISTIC INQUIRY

This unit develops the basic skills learnt in Newswriting: generating story ideas; researching; conducting interviews; finding news values and news angles and applying them in a practical context. Students also learn about how practical newswriting skills fit into an online environment. Students are introduced to the rigours of deadlines and have opportunities to write stories related to different news rounds throughout the semester.

**Courses:** IF05, IF07, KJ32, KK32 (sub-major offering)

**Prerequisites:** KJB120, KJB101

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KJB130 FACTUAL TELEVISION

Factual programming constitutes an important growing area of variegated television making and output based on interdisciplinary teamwork often across domains. This unit mobilises these opportunities to explore and work on fact-based interdisciplinary projects, and to explore the genre and its contextual underpinnings.

**Courses:** KP32

**Prerequisites:** KPB275, KJB338

**Credit points:** 12 **Campus:** KG

### ► KJB224 FEATURE WRITING

Students conduct interviews and other research that they use to write Internet, newspaper and/or magazine articles that profile personalities or stories or that treat processes, events, and places to exploit their human-interest value. Undergraduate students may enrol in KJB224, while postgraduate students must take KJP224.

**Courses:** IF05, IF07, KJ32, KK32 (sub-major offering), KW32

**Prerequisites:** KJB120

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KJB232 RADIO AND TELEVISION JOURNALISM 1

This unit should be combined with KJP232. The practical and theoretical aspects of radio and television media are studied and applied through production of broadcast news programs. Students learn broadcast style and usage and the evaluation of television and radio products. Strong emphasis is placed on current affairs knowledge.

**Courses:** IF05, IF07, KJ32, KJ36, KJ35, KJ36.

**Prerequisites:** KJB121, KJB155

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KJB239 JOURNALISM ETHICS AND ISSUES

QUT Journalism supports the development of socially responsible, ethical journalists. KJB239 is a core journalism unit. It begins with an overview of western and eastern moral philosophical traditions and moves on to examine current journalistic practice in the context of Australian and international news media operations, regulatory bodies and the stance of professional journalism organisations. Students generate ethical dilemmas and work through them individually, making difficult decisions about issues such as invasion of privacy, protection of sources and conflict of interest. The impact of developing information and communication technologies is also addressed.

**Courses:** IF05, IF07, KJ32, KJ36, KK32 (sub-major offering)

**Prerequisites:** KJB121 **Corequisites:** KJB121

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KJB280 INTERNATIONAL JOURNALISM

This unit identifies, compares and analyses the diversity of journalistic practice in different countries and regions. Students look at historical conditions that have led to variations in journalism across the world, how different politico-economic systems affect journalistic activity, and how and why different news media take distinct approaches to covering world issues. Students develop the cross-cultural awareness and background knowledge required to identify story ideas, relate to sources and produce news reports in different countries and cultural environments.

**Courses:** IF05, IF07, KJ32, KJ35, KJ36, KK32 (sub-major offering), IF27

**Prerequisites:** KJB120

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KJB303 NEWS PRODUCTION

This advanced unit examines the activities of media industries and media firms. It addresses practical issues such as managing deadlines, planning and decision-making in the newsroom, leadership and motivation. Work is done in online journalism, newspaper production, radio and television.

**Courses:** IF05, IF07, KJ32

**Prerequisites:** KJB322, KJB338

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KJB322 DESKTOP PUBLISHING AND EDITING

This unit introduces basic copy editing and design principles for newspapers. These skills are incorporated with the latest electronic publishing technology with specific reference to newspapers. Students use agency copy from worldwide sources, and local reports in news and feature page design exercises. Exercises are provided in desktop publishing.

**Courses:** IF05, IF07, KJ32, KJ35, KJ36.

**Prerequisites:** KJB224

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KJB337 PUBLIC AFFAIRS REPORTING

This is an advanced reporting unit stressing the watchdog role of the news media and utilising investigative techniques, including computer-assisted reporting, Internet and other online searching. Students write news feature stories for possible publication, and engage in case study/role play exercises for understanding public events/processes and their relationships to news media. The unit is taught in three hour blocks over the first nine weeks of semester.

**Courses:** IF07, IF05, KJ32, KK32 (sub-major offering)

**Prerequisites:** KJB224

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KJB338 RADIO AND TELEVISION JOURNALISM 2

This unit includes the philosophy and formulation of radio and television news and current affairs, anchor techniques, and radio and television news production using computers.

**Courses:** IF05, IF07, KJ32.

**Prerequisites:** KJB232

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KJB339 FASHION AND STYLE JOURNALISM

This unit aims to develop a critical understanding of fashion and style journalism in a changing media environment, exploring both historical and global trends. It also offers an opportunity to produce and to critique appropriate editorial content. Where possible, the unit involves contact with leading fashion journalists and magazines such as Vogue Australia. On completing the unit students will know who does fashion journalism, what it is, where to find it, why it takes the forms it does, and how to do it.

**Courses:** KF25, KJ32, KJ35, KJ36, KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KJP105 THEORIES OF JOURNALISM**

This unit includes the following: a summary of the body of literature pertaining to the theories of journalism; identification of individual research interests; attention to the empirical traditions; summary of issues at an advanced level from journalists' perspectives through close reading of core texts.

**Courses:** KJ35, KJ36, KK51, KK53

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KJP120 NEWSWRITING**

In this unit, students learn to think like journalists: to evaluate events for their potential news value, to record interviews and perform other reporting tasks and to write news stories. It includes the evolution and theories of reporting.

**Courses:** KJ35, KJ36, KJ42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KJP121 JOURNALISTIC INQUIRY**

This unit develops the basic skills learnt in Newswriting: generating story ideas; researching; conducting interviews; finding news values and news angles, and applying them in a practical context. Students also learn about how practical newswriting skills fit into an online environment. Students are introduced to the rigours of deadlines and have opportunities to write stories related to different news rounds throughout the semester.

**Courses:** KJ35, KJ36, KJ42

**Prerequisites:** KJP120

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KJP224 FEATURE WRITING**

Students conduct interviews and other research that they use to write Internet, newspaper and magazine articles that profile personalities or that treat processes, events, and places to exploit their human-interest value. Undergraduate students may not enrol in KJP224; instead they can take KJB224.

**Courses:** KJ35, KJ36, KJ42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KJP232 RADIO AND TELEVISION JOURNALISM 1**

The practical and theoretical aspects of radio and television media are studied and applied through production of broadcast news programs. Students learn styles and use, and the evaluation of television and radio products. Strong emphasis is placed on current affairs knowledge.

**Courses:** KJ35, KJ36, KJ42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KJP301 GRADUATE PROJECT 1**

This 12-credit point unit is offered to Master's students to provide an opportunity for them to immerse themselves in specific professional issues in a major project related to journalism. Through a series of introductory seminars in theories and methodology, group or individual project opportunities, and one-to-one supervision of staff, students develop the knowledge, skills, experience and contacts to devise and research a major journalism project.

**Courses:** KJ42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KJP302 GRADUATE PROJECT 2**

This 12-credit point unit is offered to Master's students to provide an opportunity for them to immerse themselves in specific professional issues in a major project related to journalism. Under the supervision of a staff member, students develop the knowledge, skills, experience and contacts to devise and research a major journalism project.

**Courses:** KJ42

**Prerequisites:** KJP301 **Corequisites:** KJP301  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

KKB008 Narrative in the Creative Industries  
Successful communications in the creative industries rely upon narratives in various forms and genres, including visual, aural, written, spoken

and kinetic. This unit aims to develop students' understanding of narrative, and to facilitate their ability to use narrative techniques in their own areas of practice. Students are introduced to interdisciplinary examples of narrative forms and conventions and have the opportunity to develop practical outcomes from their academic study of story-telling.

**Courses:** CI Core Unit

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KKB018 CREATIVE INDUSTRIES**

This unit provides an overview of the creative industries as a major element of the global knowledge economy. It critically analyses issues such as the rise of a knowledge-based economy, technological convergence, globalisation, the rise of the creative class, intellectual property, and the relationship between creative and artistic practice and the commercial marketplace. The unit provides students with a basic understanding of the creative environment and the foundational skills to identify, explore, and address creative opportunities. It enables them to propose new and innovative ideas that use and extend the creative industries environment. The unit provides students with the foundational language and skills to critique and present creative industries ideas.

**Courses:** CI Core Unit

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KKB057 INDEPENDENT STUDY**

This unit is designed for those students who wish to investigate an area of study not centrally covered in their course and who wish to have the opportunity to construct and execute their own project. The project may either be theoretical in the field of scholarship or comprise practical discipline work. Collaborative projects involving other students are encouraged.

**Credit points:** 12

**Campus:** KG **Sem:** 1, 2

**► KKB201 PRIMARY CURRICULUM AND PEDAGOGIES: MUSIC, VISUAL ARTS & MEDIA**

Through both practical and theoretical contexts, students are introduced to curriculum planning and teaching in primary Visual Arts, Music and Media using The Arts Years 1 to 10 Syllabus (Queensland Studies Authority, 2002).

**Courses:** ED91, ED56, ED52, ED51, IF82, IF84

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KKB202 PRIMARY CURRICULUM & PEDAGOGIES: DANCE AND DRAMA**

Through both practical and theoretical contexts, students are introduced to curriculum planning and teaching in primary Dance and Drama using The Arts years 1 to 10 Syllabus (Queensland Studies Authority, 2002).

**Courses:** ED91, ED56, ED52, ED51, IF82, IF84

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KKB275 CREATIVE INDUSTRIES LEGAL ISSUES**

This unit introduces Creative Industries students to the law that applies to their professional practice and theoretical study. The unit aims to provide a foundational approach to general aspects of law as well as particular topics for students in these fields. The unit is based on a core set of lectures and tutorials offered in two strands: Strand 1 for Journalism and Media Communication; Strand 2 for other Creative practices.

**Courses:** KJ32, KC32, CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KKB320 WORKPLACE LEARNING**

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate,

transferable skills to a workplace or professional context.

**Courses:** CI (undergraduate)

**Credit points:** 12

**Campus:** KG

**Sem:** 1, 2, 3

**► KKB330 WORKPLACE LEARNING**

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context.

**Courses:** CI (undergraduate)

**Credit points:** 24

**Campus:** KG

**Sem:** 1, 2, 3

**► KKB340-1 WORKPLACE LEARNING**

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context. This is a year long unit.

**Courses:** CI (undergraduate) **Credit points:** 12

**Campus:** KG

**Sem:** 1

**► KKB340-2 WORKPLACE LEARNING**

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context. This is a year long unit.

**Courses:** CI (undergraduate) **Credit points:** 12

**Campus:** KG

**Sem:** 2

**► KKB390 SUPERVISED PROJECT**

For this unit, students undertake a project with the approval of the Head of Discipline in Film and Television, Journalism, Media Communication or in special cases only, in Creative Writing and Cultural Studies. In Media and Communication, this unit is available only if appropriate staff and resources are available.

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1, 2

**► KKB418 CULTURES AND CREATIVITY**

This unit has been designed to provide students with the cultural and creative literacy skills necessary to explore and participate in the creative industries. It enables students to use writing, design, production and performance skills to explore the relationships between creativity and cultures, including indigenous, multicultural and international perspectives. The following topics are included in the unit: consumer culture and identity; cultures, creativity and the body; representations of space and time in different cultures; processes of creative production and reception.

**Courses:** CI Core Unit

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1, 2

**► KKB618 WRITING FOR CREATIVE INDUSTRIES**

This unit provides an overview of the main forms and genres of academic writing, such as description, narration and exposition. It assists students to write clearly and correctly and enables them to become comfortable with and confident in using various Creative Industries and academic writing genres.

**Courses:** CI Core Unit

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2

► **KKB704 INDIGENOUS CREATIVE INDUSTRIES**

This unit is under review.

**Courses:** KK32

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKB818 INTRODUCTION TO MULTIMEDIA TECHNOLOGY**

Contemporary modes of electronic media production, publishing and communication within the Creative Industries require graduates to combine practical skills related to the use of technologies and processes with a conceptual understanding of these technologies and processes as relevant to various Creative Industries. These understandings and capabilities are developed in this unit. The unit requires students to have prior experience of the following: Windows and/or Macintosh operating systems; Word processing applications eg Microsoft Word or Word Perfect; electronic mail (email); the World Wide Web.

**Courses:** CI Core Unit

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

► **KKB914 VISUAL AND PERFORMING ARTS CURRICULUM 1**

The practical, intellectual, conceptual and aesthetic functions of the arts make them unique and essential modes of learning that contribute to a broad, balanced and relevant curriculum that addresses individual aptitudes and abilities. This subject introduces students to the arts as a circle of disciplines which share similar processes and fulfil related roles in the curriculum.

**Courses:** ED56, ED51, IF82 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **KKB916 ADV VISUAL AND PERFORMING ARTS CURRICULUM**

This unit addresses the following: the curriculum of dance, drama, music or visual arts to an advanced level; designing and implementing programs in one of the disciplines for the primary school; action research in the classroom to monitor and evaluate an arts curriculum project.

**Courses:** ED51

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **KKD018 CREATIVE INDUSTRIES**

This unit provides an overview of the creative industries as a major element of the global knowledge economy. It critically analyses issues such as the rise of a knowledge-based economy, technological convergence, globalisation, the rise of the creative class, intellectual property, and the relationship between creative and artistic practice and the commercial marketplace.

**Courses:** IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** KKB018  
**Campus:** KG **Sem:** 1, 3

► **KKD418 CULTURES AND CREATIVITY**

This unit has been designed to provide students with the cultural and creative literacy skills necessary to explore and participate in the creative industries. It enables students to use writing, design, production and performance skills to explore the relationships between creativity and cultures, including indigenous, multicultural and international perspectives. The following topics are included in the unit: consumer culture and identity; cultures, creativity and the body; representations of space and time in different cultures; processes of creative production and reception.

**Courses:** IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** KKB418  
**Campus:** KG **Sem:** 2

► **KKD618 WRITING FOR CREATIVE INDUSTRIES**

This unit provides an overview of the main forms and genres of academic writing, such as description, narration and exposition. It assists students to write clearly and correctly and enables them to become comfortable with and confident in using various Creative Industries and academic writing genres.

**Courses:** IF06

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** KKB618

**Campus:** KG

**Sem:** 2

► **KKD818 INTRODUCTION TO MULTIMEDIA TECHNOLOGY**

Contemporary modes of electronic media production, publishing and communication within the Creative Industries require graduates to combine practical skills related to the use of technologies and processes with a conceptual understanding of these technologies and processes as relevant to various Creative Industries. These understandings and capabilities are developed in this unit. The unit requires students to have prior experience of the following: Windows and/or Macintosh operating systems; Word processing applications eg Microsoft Word or Word Perfect; electronic mail (email); the World Wide Web.

**Courses:** IF06

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** KKB818

**Campus:** KG

**Sem:** 1, 3

► **KKN002 HONOURS GRADUATE SEMINAR**

This unit includes a seminar program of formal presentations of arts research projects by Honours students. Students also attend weekly presentations in the CIRAC seminar series.

**Courses:** KK52, KK53

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **KKN004-1 HONOURS PROJECT (1/5)**

The Honours project is the major component of the Honours year in Creative Industries. As the Honours year builds upon a completed undergraduate degree, the project gives students the opportunity to pursue in-depth project or dissertation-based work unavailable and inappropriate at undergraduate level. This work thus demonstrates advanced competence, skills or analytical ability in a chosen discipline and/or interdisciplinary skills or analytical ability. This unit has 5 components and all must be completed to obtain final 60 credit points.

**Courses:** KK52, KK53, KK54, KK55

**Credit points:** 12

**Campus:** KG

**Sem:** 1

► **KKN004-2 HONOURS PROJECT (2/5)**

See KKN004-1 for details.

**Courses:** KK52, KK53, KK54, KK55

**Prerequisites:** KKN004/1 **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKN004-3 HONOURS PROJECT (3/5)**

See KKN004-1 for details.

**Courses:** KK52, KK53, KK54, KK55

**Prerequisites:** KKN004/2 **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **KKN004-4 HONOURS PROJECT (4/5)**

See KKN004-1 for details.

**Courses:** KK52, KK53, KK54, KK55

**Prerequisites:** KKN004/3 **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **KKN004-5 HONOURS PROJECT (5/5)**

See KKN004-1 for details.

**Courses:** KK52, KK53, KK54, KK55

**Prerequisites:** KKN004/4 **Credit points:** 12  
**Campus:** KG **Sem:** 2

► **KKN007-1 RESEARCH PROJECT**

Students enrolled part-time or full-time in KK51 Master of Arts (Research) undertake a research project as the major component of their studies. This project may take the form of EITHER a research thesis OR a creative project accompanied by a written component. The creative project could include any of the following: an exhibition of visual art; a performance (dance, drama, music); choreography, script or score (dance, drama, music); a book-length work of fiction or non-fiction; a film or multi-media script or production. Units may be taken either one per semester or several per semester, depending on the enrolment pattern recommended by the School in the Course Summary Sheet. This is an eight part unit.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-2 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-3 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-4 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-5 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-6 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-7 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN007-8 RESEARCH PROJECT**

See KKN007-1 for details.

**Courses:** KK51

**Contact hours:** 1 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

► **KKN010-1 MFA PROJECT**

As a culminating exercise students are required to undertake a single artistic project of substance which demonstrates their ability to apply skills in the control of their art form. This project will be located in the studio and rehearsal room, and result in a major presentation of artistic practice, either as a performance or exhibition, and aligned with discipline expectations of a semester of full-time candidature. This is a four part unit.

**Courses:** KK42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKN010-2 MFA PROJECT**

See KKN010-1 for details.

**Courses:** KK42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKN010-3 MFA PROJECT**

See KKN010-1 for details.

**Courses:** KK42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKN010-4 MFA PROJECT**

See KKN010-1 for details.

**Courses:** KK42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKN011 ADVANCED PROFESSIONAL PRACTICE 1**

Students engage in autonomous professional development through systematic reflective practice by testing ideas and forms through creative practice. Work is planned, implemented and evaluated under the supervision of an appropriate academic staff member. Students are required to demonstrate control over the techniques, materials, resources and methods necessary to practice their discipline at Master level.

**Courses:** KK42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **KKN012 ADVANCED PROFESSIONAL PRACTICE 2**

Students engage in autonomous professional development through systematic reflective practice by testing ideas and forms through creative practice. Work is planned, implemented and evaluated under the supervision of an appropriate academic staff member. Students are required to demonstrate control over the techniques, materi-

als, resources and methods necessary to practice their discipline at Master level.

**Courses:** KK42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN013 ADVANCED PROFESSIONAL PRACTICE 3

Students engage in autonomous professional development through systematic reflective practice by testing ideas and forms through creative practice. Work is planned, implemented and evaluated under the supervision of an appropriate academic staff member. Students are required to demonstrate control over the techniques, materials, resources and methods necessary to practice their discipline at Master level.

**Courses:** KK42

**Contact hours:** 12 per week **Credit points:** 24  
**Campus:** KG **Sem:** 2

### ► KKN020 APPROACHES TO ENQUIRY IN THE CREATIVE INDUSTRIES

This unit covers those research strategies and methods of data collection most suited to the investigation and documentation of reflective practice. The research strategies covered include autobiography, action research, ethnography, participant observer, case study and creative practice as research. Students also participate in an academic protocols module which includes intellectual property, advanced information retrieval skills and academic honesty.

**Courses:** KK42, KK51, KK52, KK53, KK54, KK55

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN061 THE REFLECTIVE PRACTITIONER 1

This unit strengthens the capacities of candidates to work as reflective practitioners within the collaborative, action oriented and theoretically embedded settings which constitute the creative industries. As candidates do this, they are theorising on action, raising serious questions about their own practice, identifying the sources and patterns evident in their ideas and actions, and transforming the contexts of practice so that professional autonomy may be enhanced. KD42 Master of Creative Industries external students will be required to attend a 2 to 3 day residency in Brisbane.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1

### ► KKN062 THE REFLECTIVE PRACTITIONER 2

This unit provides for a thorough analysis of the reflective practitioner process as it applied to students and their colleagues during DCI Professional Project 1. Patterns of engagement and response in the workplace are analysed during a process of re-theorising and conceptual review. Conceptual reference points for analysing practice are extended by investigating theoretical frameworks from other fields which may assist in building a more complete understanding of an individuals creative work practices.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN065 PROJECT DEVELOPMENT IN THE CREATIVE INDUSTRIES

After examining a range of procurement options available across the creative industries the unit focuses on strategic alliances, cross cultural projects, performance measures and the management of IP. These topics are addressed within a framework for project development that is shaped by ethical theory.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN071 CREATIVE INDUSTRIES CONFERENCE 1

Two units (also KKN072) are dedicated to the reporting of research outcomes to a collegial group of peers, industry partners and fellow research students and peers. In writing and presenting reports to a publishable standard, candi-

dates report on aspects of their professional projects by drawing on the theoretical frameworks developed in the coursework together with their lived experience of project planning and implementation.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN072 CREATIVE INDUSTRIES CONFERENCE 2

Two units (also KKN071) are dedicated to the reporting of research outcomes to a collegial group of peers, industry partners and fellow research students and peers. In writing and presenting reports to a publishable standard, candidates report on aspects of their professional projects by drawing on the theoretical frameworks developed in the coursework together with their lived experience of project planning and implementation.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN200 GRADUATE SEMINAR

This unit is taken in the Masters of Arts (Research) program.

**Courses:** KK51

**Prerequisites:** KKN020

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KKN300-1 DCI PROFESSIONAL PROJECT 1 (1/4)

This unit involves independent supervised study at the doctoral level. The study is part of the candidate's professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit. This is a four part unit.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN300-2 DCI PROFESSIONAL PROJECT 1 (2/4)

See KKN300-1 for details.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN300-3 DCI PROFESSIONAL PROJECT 1 (3/4)

See KKN300-1 for details.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN300-4 DCI PROFESSIONAL PROJECT 1 (4/4)

See KKN300-1 for details.

**Courses:** KK48, KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN320 WORKPLACE LEARNING (12CP)

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context.

**Courses:** CI (Postgraduate)

**Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KKN330 WORKPLACE LEARNING (24CP)

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course

at which time students are able to apply appropriate, transferable skills to a workplace or professional context.

**Courses:** CI (postgraduate)

**Credit points:** 24  
**Campus:** KG **Sem:** 1, 2

### ► KKN340-1 WORKPLACE LEARNING

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context. This is a year long unit.

**Courses:** CI (postgraduate) **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN340-2 WORKPLACE LEARNING

See KKN340-1

**Courses:** CI (postgraduate) **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN400-1 DCI PROFESSIONAL PROJECT 2 (1/4)

This unit involves independent supervised study at the doctoral level. The study is part of the candidate's professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit. This is a four part unit.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN400-2 DCI PROFESSIONAL PROJECT 2 (2/4)

See KKN400-1 for details.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN400-3 DCI PROFESSIONAL PROJECT 2 (3/4)

See KKN400-1 for details.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN400-4 DCI PROFESSIONAL PROJECT 2 (4/4)

See KKN400-1 for details.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN500-1 DCI PROFESSIONAL PROJECT 3 (1/4)

This unit involves independent supervised study at the doctoral level. The study is part of the candidate's professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit. This is a four part unit.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KKN500-2 DCI PROFESSIONAL PROJECT 3 (2/4)

See KKN500-1 for details.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN500-3 DCI PROFESSIONAL PROJECT 3 (3/4)

See KKN500-1 for details.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KKN500-4 DCI PROFESSIONAL PROJECT 3 (4/4)

See KKN500-1 for details.

**Courses:** KK49

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KKN600 ADVERTISING CREATIVE: MAJOR PROJECT**

This unit gives students the opportunity to take a creative director role in the production of a pitch for a transnational brand. The major project includes the development of three fundamental outcomes: a creative strategy for a major advertising campaign, an advertising campaign, and a rationale. Students are required to publish, exhibit or perform a formal presentation to relevant industry parties.

**Courses:** IX96 **Credit points:** 24  
**Campus:** KG **Sem:** 1

**► KKP107-1 DISSERTATION**

The culmination of the degree in Creative Writing Production, Film and Television Production, Journalism, or Media and Communication is that students apply the theory and research material covered in earlier units to explore in some depth an applied or theoretical topic in their chosen discipline area. The dissertation is normally based on information from secondary sources and consists of a written report of approximately 12,000 to 15,000 words.

**Courses:** KK51 **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KKP107-2 DISSERTATION**

See KKP107-1 for details.

**Courses:** KK51 **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KKP107-3 DISSERTATION**

See KKP107-1 for details.

**Courses:** KK51 **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KKP107-4 DISSERTATION**

See KKP107-1 for details.

**Courses:** KK51 **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KMB056 THE MUSIC INDUSTRY**

This unit aims to facilitate a smooth and confident transition from undergraduate experiences to life in the arts workforce. It includes exploration of current issues in the arts, and development of professional skills including public speaking, meeting procedures and career management.

**Courses:** KM32 **Credit points:** 12  
**Prerequisites:** KMB635 or KMB637  
**Contact hours:** 3 per week  
**Campus:** KG **Sem:** 2

**► KMB101 MUSIC (PRIMARY/INSTRUMENTAL) CURRICULUM STUDIES 1**

This is a foundation study in Primary or instrumental music specialisation focusing upon the fundamentals of teaching, lesson planning, and developing a philosophy appropriate to music education practice.

**Courses:** IX07 **Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** KG **Sem:** 1

**► KMB102 MUSIC (PRIMARY/INSTRUMENTAL) CURRICULUM STUDIES 2**

**Courses:** IX07 **Prerequisites:** KMB101  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB201 MUSIC (SECONDARY) CURRICULUM STUDIES 1**

This is a foundation study in secondary music and sound curriculum focusing upon the fundamentals of teaching, lesson planning and developing a philosophy appropriate to music and sound education practice.

**Courses:** IX07 **Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** KG **Sem:** 1

**► KMB202 MUSIC (SECONDARY) CURRICULUM STUDIES 2**

**Courses:** IX07 **Prerequisites:** KMB201  
**Contact hours:** 3 per hour **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB616-1 GROUP MUSIC**

In this unit, students experience the cooperative interaction of music-making as a participant or a leader. This is a year long unit. A total of 12 credit points are awarded at the completion of KIM616-2.

**Courses:** KM32, IX07 **Credit points:** 6  
**Campus:** KG **Sem:** 1

**► KMB616-2 GROUP MUSIC**

See KMB616-1.

**Courses:** KM32, IX07 **Credit points:** 6  
**Campus:** KG **Sem:** 1, 2

**► KMB617 ARRANGING**

This unit explores arranging techniques for vocal combinations and genres.

**Courses:** KM32, IX07, KM35, KM36, KM42  
**Prerequisites:** KMB630  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB618 SOUNDTRACKS FOR FILM AND TELEVISION**

This unit considers the development of programmatic compositional skills with particular reference to the impact of music on moving pictures, an understanding of SMPTE, and a study of film analysis with visual and/or thematic coding.

**Courses:** KM32, IX07  
**Prerequisites:** KMB619 or KMB633 or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KMB619 MUSIC AND SOUND TECHNOLOGY**

This unit provides an introduction to the broad range of options available to the musician in the age of technology. Through the universal electronic language of MIDI, students explore sequencers as tools for composition as well as basics of sound. NOTE: Semester 1 offered to KM32, IX07, KM35, KM36, KM42 ONLY. Semester 2 offered to all others except those mentioned above.

**Courses:** KM32, IX07, KV25, KI25, KM35, KM36, KM42, KT32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KMB621 SOUND RECORDING AND ACOUSTICS**

This unit provides an introduction to the fundamentals of the physical world of sound, basic signal flow, sound recording and acoustics.

**Courses:** KM32, KI25, KI32, KS25, KS26, KT32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

**► KMB622 MULTI-INSTRUMENTAL MUSIC A**

Students engage in the study of two secondary instruments, necessary for the instrumental music teacher and professional doublers. Additionally a lecture/class discussion is utilised to reflect on a range of topics relevant to the study.

**Courses:** KM32, IX07 **Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** KG **Sem:** 2

**► KMB623 CONDUCTING**

This unit introduces students to a wide range of music and styles and assists them to achieve artistic objectives in music performance through conducting workshop activities including practical conducting, stylistic practices, repertoire and rehearsal and performance techniques.

**Courses:** KM32, IX07 **Prerequisites:** KMB633  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KMB626 MUSIC AND SOUND FOR MULTIMEDIA**

This unit deals with studio recording techniques, computer-assisted composition, the role of music in non-linear structures, the effect of sound in digital media productions, sound effects and Foley techniques, musical acoustics, and digital sound theory.

**Courses:** KM32  
**Prerequisites:** KMB621 or KMB619  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB628 MULTI-INSTRUMENTAL MUSIC B**

In this unit, students engage in the study of an instrument supplementary to their principal instrument, necessary for the instrumental music

teacher and professional doublers. Additionally, students undertake peer tutoring to small groups. A lecture/class discussion is utilised to reflect on a range of topics relevant to the study.

**Courses:** IX07 **Prerequisites:** KMB622  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB629-1 GROUP MUSIC B**

In this unit, students experience the cooperative interaction of music-making as a participant or a leader. As this is a year long unit, students must enrol in KMB629/2 in the second semester.

**Courses:** IF77, KM32, IX07  
**Prerequisites:** KMB616  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KMB629-2 GROUP MUSIC B**

In this unit, students experience the cooperative interaction of music-making as a participant or a leader. As this is a year long unit, students must complete KMB629/1 in the first semester.

**Courses:** IF77, KM32, IX07  
**Prerequisites:** KMB616  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB630 MUSIC TEXTURES**

This unit provides an introduction to the concepts of texture in music. The study of textural design has been enriched by recent developments in music technology, enabling music to be heard as pure timbre in the sound media. This unit includes the techniques of orchestration for small orchestral forms, and arranging techniques for jazz ensembles.

**Courses:** KM32, IX07 **Prerequisites:** KMB632  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KMB631 WORLD MUSIC**

In this unit, through a series of lectures, demonstrations and tutorials the student gains an awareness and better understanding of world music, its particular significance within Australia and its impact upon contemporary music.

**Courses:** CI Open Elective  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KMB632 CORE MUSICIANSHIP 1**

In this unit, students develop a range of generic musical skills that are relevant to a broad range of musical contexts and environments. The unit focuses on the building blocks of a broad and inclusive musicianship and includes development of aural, analytical and compositional skills through lectures, tutorials and focused musical tasks and improvisation.

**Courses:** KM32, IX07  
**Contact hours:** 4.5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KMB633 CORE MUSICIANSHIP 2**

Continuing on from KMB632, students further develop a range of generic musical skills that are relevant to a broad range of musical contexts and environments. The unit focuses on musical language and context and includes the further development of aural, analytical and compositional skills through lectures, tutorials and focused musical tasks and improvisation.

**Courses:** KM32, IX07  
**Prerequisites:** KMB632  
**Contact hours:** 4.5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB634 CONTEMPORARY ART MUSIC MUSICIANSHIP**

This unit focuses on art music of the last 100 years and up to the present day. It integrates aural training, analysis, composition and context (music history) into a coherent package.

**Courses:** KM32, IX07  
**Prerequisites:** KMB633  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KMB635 SOUND MEDIA MUSICIANSHIP**

This unit offers an in-depth study of music as a sound phenomenon. It explores music through understanding the physics of sound, psycho-acoustics, spectro-morphology, and tools and techniques for sound manipulation. As a musi-

chianship unit, this exploration involves analysis, research and composition.

**Courses:** KM32, IX07

**Prerequisites:** KMB633

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB636 CROSS CULTURAL MUSICIANSHIP

Music operates in a complex cultural environment fuelled by increased communication and technology. In this unit, the student's ability to recognise, analyse and create music drawing from a diverse range of cultures is developed.

**Courses:** KM32, IF77, IX07

**Prerequisites:** KMB633

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB637 JAZZ AND POPULAR MUSICIANSHIP

This unit offers a study of the development of jazz and contemporary popular music through analysis, composition and complementary aural musicianship sessions.

**Courses:** KM32, IX07 **Prerequisites:** KMB633

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB638 SOUND AND IMAGE

This unit focuses on the rich and varied relationship between sound and image in a number of media and artforms, including film, music video, theatre, installation, mixed media performance and many more.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB640 SEX DRUGS ROCK N ROLL

Students gain an insight into the interaction between music and society by analysing the artistic, economic and political landscape of the diverse innovative music of the 21st century including rock and pop music, world music, dance music, indigenous music and new age music.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB648 THE MUSIC SCENE

This unit focuses on the relationship between particular social and cultural groups and the music that they choose to listen to or be involved with. Students have the opportunity to explore musical cultures of particular relevance to them within a broad analytical framework.

**Courses:** KM32, IX07

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB649 INTRODUCTORY MUSICIANSHIP

Students study improvisation and music production, undertake an extensive listening program and develop sound creative and conceptual skills. The unit is intended to stimulate both beginners and experienced musicians, adopting a fresh approach to the field.

**Courses:** KK32

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB650 INTRODUCTORY ENSEMBLE

This unit allows students to work in a QUT choral ensemble. The cooperative interaction of performance and other music-making activities is an essential ingredient in the training of the mature musician and one which will enhance both the individual and the group. The benefits reach into daily life and assist the student to better work in groups.

**Courses:** KK32, CI Open Elective

**Credit points:** 12 **Sem:** 2  
**Campus:** KG

### ► KMB651 MUSIC PERFORMANCE 1

This series of sequential units begins with the development of a secure and reliable technique on a principal instrument or voice. Content includes individual lessons and masterclasses, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to the ensemble of choice.

**Courses:** KM32, IX07

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB652 MUSIC PERFORMANCE 2

This unit continues the development of a secure and reliable technique on a principal instrument or voice. It includes individual lessons and masterclasses, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to the ensemble of choice.

**Courses:** KM32, IX07 **Prerequisites:** KMB651

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB653 MUSIC PERFORMANCE 3

This unit continues the development of a secure and reliable technique on a principal instrument or voice. It includes individual lessons and masterclasses, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to the ensemble of choice.

**Courses:** KM32, IX07 **Prerequisites:** KMB652

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB654 MUSIC PERFORMANCE 4

This unit includes individual lessons and masterclasses, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to the ensemble of choice.

**Courses:** KM32, IX07 **Prerequisites:** KMB653

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB655-1 MUSIC PERFORMANCE 5

This unit acknowledges that there is a broad range of activities and outcomes for music performers in the contemporary world of music and it is essential for musicians to position themselves wisely and appropriately within the field. This final year unit is intended to provide an array of music performance options to assist students in their future career in the music industry. This is a year long unit. Students must enrol in KMB655-2 in Semester 2.

**Courses:** KM32

**Prerequisites:** KMB654 or 96 credit points in KM32

**Credit points:** 24

**Campus:** KG

**Sem:** 1

### ► KMB655-2 MUSIC PERFORMANCE 5

This unit acknowledges that there is a broad range of activities and outcomes for music performers in the contemporary world of music and it is essential for musicians to position themselves wisely and appropriately within the field. This final year unit is intended to provide an array of music performance options to assist students in their future career in the music industry. This is a year long unit. Students must complete KMB655-1 in Semester 1.

**Courses:** KM32

**Prerequisites:** KMB654 and 96 credit points in KM32, KMB655/1

**Credit points:** 24

**Campus:** KG

**Sem:** 2

### ► KMB657 MUSIC PRODUCTION 1

These sequential units begin with the development of a secure and reliable technique in production skills. The unit includes small group learning work, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to an ensemble.

**Courses:** KI25, KM32, KV25, IX07

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB658 MUSIC PRODUCTION 2

This unit develops a secure and reliable technique in production skills. It includes small group learning work, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to an ensemble.

**Courses:** KI25, KM32, KV25, IX07

**Prerequisites:** KMB657

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB659 MUSIC PRODUCTION 3

This unit contributes to the continued development of a secure and reliable technique in production skills. It includes small group learning work, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to an ensemble.

**Courses:** KI25, KM32, KV25, IX07

**Prerequisites:** KMB658

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KMB660 MUSIC PRODUCTION 4

This unit contributes to the continued development of a secure and reliable technique in production skills. It includes small group learning work, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to an ensemble.

**Courses:** KI25, KM32 **Prerequisites:** KMB659

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMB661-1 MUSIC PRODUCTION 5

This unit acknowledges that there is a broad range of activities and outcomes for musicians in the contemporary world within music and other associated creative industries. This unit is intended to give students an array of options to assist in future career portfolios in the music industry. This is a year long unit. Students must complete KMB66122 in Semester 2.

**Courses:** KM32, KV25, KI25

**Prerequisites:** KMB660 and 96 credit points in KM32

**Credit points:** 24

**Campus:** KG

**Sem:** 1

### ► KMB661-2 MUSIC PRODUCTION 5

This unit acknowledges that there is a broad range of activities and outcomes for musicians in the contemporary world within music and other associated creative industries. This unit is intended to give students an array of options to assist in future career portfolios in the music industry. This is a year long unit. Students must have completed KMB661-1 in Semester 1.

**Courses:** KM32, KV25, KI25

**Prerequisites:** KMB660 and 96 credit points in KM32, KMB661/1

**Credit points:** 24

**Campus:** KG

**Sem:** 2

### ► KMB667 MUSIC AND SPIRITUALITY

Living in the materialistic world in the 21st Century has reignited the desire for spirituality to reach beyond the commercial and ephemeral. This unit examines the interaction of music with ritual, meditation, celebration, joy, protest and healing. It explores this relationship drawing from a range of cultures and times including indigenous Australian, Western European and Eastern cultures.

**Courses:** CI Open Elective, KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KMN601 MUSIC PROJECT 1

This is the first in a sequence of self-directed project units. Students undertake a music project of relevance to the creative industries. This will incorporate discovery, practice and reflection. This unit may be taken in the most appropriate location to ensure a successful outcome and the detail would be approved by the student's supervisor. Students are required to attend a weekly evening seminar and present as required.

**Courses:** KM35, KM36, KM42

**Contact hours:** 2 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1, 2, 3

### ► KMN602 MUSIC PROJECT 2

This unit follows from KMN601 and enables students to further develop their project. Students are required to attend a weekly evening seminar and present as required.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMN601

**Contact hours:** 2 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1, 2, 3

### ► KMN603 MUSIC PROJECT 3

This unit follows from KMN602 and enables students to further develop their project. Students

are required to attend a weekly evening seminar and present as required.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMN602

**Contact hours:** 2 per week **Credit points:** 24

**Campus:** KG **Sem:** 1, 2, 3

#### ► KMN604 MUSIC PROJECT 4

This unit follows from KMN603 and enables students to further develop their project. Students are required to attend a weekly evening seminar and present as required.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMN603

**Contact hours:** 2 per week **Credit points:** 24

**Campus:** KG **Sem:** 1, 2, 3

#### ► KMN605 MUSIC PROJECT 5

This unit follows from KMN604. In this unit the students complete their projects. Students are required to attend a weekly evening seminar and present as required.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMN604

**Contact hours:** 2 per week **Credit points:** 24

**Campus:** KG **Sem:** 1, 2, 3

#### ► KMN606 DIGITAL RECORDING

Students follow an integrated course of theory and practice in sound recording. They create a portfolio of recordings using either their own equipment or the music and sound laboratories at QUT which are equipped with industry standard digital recording software and hardware.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMB619 or KMB621

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► KMN609 INDEPENDENT PROJECT

It is important for those students who wish to investigate an area of study or discovery not centrally covered in the compulsory units, to have the opportunity to construct and execute a project in an area of their own choice. This unit allows such a study. The project may be in the field of scholarship and research or in creative work within music or in interdisciplinary work.

**Courses:** KM35, KM36, KM42

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2, 3

#### ► KMN615 ADVANCED CONDUCTING

This unit is designed to further acquaint Music students with a wide range of works and styles and to assist them to achieve artistic objectives in music performance through an intensive program conducting workshop activities.

**Courses:** 1X07, KM32, KM35, KM36, KM42

**Prerequisites:** KMB623

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► KMN618 COMPOSING FOR MOVING PICTURES

This unit provides a study of the development of programmatic compositional skills with particular reference to the impact of music on moving pictures, an understanding of SMPTE, and a study of film analysis with visual and/or thematic coding.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMB619 or KMB633 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► KMN622 MULTI-INSTRUMENTAL STUDIES 1

This unit is designed to widen the base of students' practical skills and to enhance career opportunities through the study of second instruments. Students work through an intensive program in groups on a variety of instruments to obtain fundamental skills on those instruments; this will develop and enhance their multi-instrumental skills for teaching.

**Courses:** KM35, KM36, KM42

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► KMN626 MUSIC & SOUND FOR DIGITAL MEDIA

This unit deals with studio recording techniques, computer-assisted composition, the role of music in non-linear structures, the effect of sound in

digital media productions, sound effects and Foley techniques, musical acoustics, and digital sound theory.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMB621 or KMB619

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2

#### ► KMN628 MULTI-INSTRUMENTAL STUDIES 2

This unit is designed to deepen students' practical skills through the study of second instruments and to have them engage with multi-instrumental pedagogical methods. Students work through an intensive program in groups on a variety of instruments to obtain fundamental skills on those instruments; this will develop and enhance their multi-instrumental skills for group instruction.

**Courses:** KM35, KM36, KM42

**Prerequisites:** KMN622 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► KMN630 MATERIALS OF MUSIC

This unit provides an introduction to the concepts of texture in music. The study of textural design has been enriched by recent developments in music technology, enabling music to be heard as pure timbre in the sound media. This unit includes the techniques of orchestration, and other arranging techniques.

**Courses:** KM36, KM42

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► KMN648 AUSTRALIAN MUSIC CULTURE

This unit focuses on the relationship between particular social and cultural groups and the music that they choose to listen to or be involved with. Students have the opportunity to explore musical cultures of particular relevance to them within a broad analytical framework.

**Courses:** KM35, KM36, KM42

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► KMP431 MUSIC CURRICULUM STUDIES 2

This unit includes advanced practical applications in assessment, curriculum planning, and teaching and learning strategies relevant to secondary music education.

**Courses:** ED19, ED55 **Prerequisites:** KMP423

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► KMP433 MUSIC CURRICULUM STUDIES 2A

This unit includes extension studies in methods of teaching and curricula relevant to specialist teachers of instrumental, secondary or primary music.

**Courses:** ED19, ED55 **Prerequisites:** KMP434

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► KMP434 MUSIC CURRICULUM STUDIES 1A

This unit includes a specialist study in instrumental or primary curriculum for students planning careers in teaching. It considers materials, curricula and appropriate methods of teaching related to the relevant strand.

**Courses:** ED55

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► KPB118 PHOTOMEDIA: TRADITIONS AND TECHNIQUES

This unit examines the roles of photography and the photographer in society. It introduces students to digital technologies that which serve as an underpinning of dynamic practice. The unit offers an understanding of photographic principles, as well as a proficiency in techniques and materials, which will give students the technological skills appropriate to their discipline. Because this unit is introductory, it is best undertaken as part of the foundational studies of the course. Please note that students will need to access commercial processing facilities. It is not a requirement of the unit, but students who can do so are encouraged to supply their own 35mm SLR camera. THIS UNIT IS SUBJECT TO A

STRICT QUOTA SYSTEM. ENROLMENT NUMBERS ARE MONITORED.

**Courses:** KP25, KP32, 1X05, 1X06, 1X08

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2

#### ► KPB130 MEDIA TEXT ANALYSIS

This unit acquaints students with a range of approaches, both traditional and contemporary, to the analysis of media texts. It equips students with practical methods of understanding the creation and structuring of social meaning through media. The strategies applied in the analysis of texts are drawn from the following areas: Utilitarianism, New Criticism and the traditional legacy; Semiotics and Structuralism/Post-Structuralism; Marxism and Contextual/Historical Approaches, Feminism, Psychoanalysis, and Multiculturalism. The media texts chosen include newspaper articles, cartoons, photographs, films and television programs.

**Courses:** KK32, 1X06, 1X08, ED50, ED90,

1X05, KP32, KP25, KC32

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

#### ► KPB141 FILM AND TELEVISION LANGUAGES

This unit surveys how meaning is constructed in films and television programs. This is studied in relation to the question of form, with attention to how both narrative and non-narrative films, and television programs, may be structured. The production of meaning in cinematic and television texts is explored through an examination of mise-en-scene (movement and placement of actors, setting, lighting and costume), cinematography and videography (including camera-angle, camera-distance, camera-movement, and special effects), editing and sound.

**Courses:** KK32, KP25, KP32, IF09, IF10, 1X05,

1X06, 1X08, ED50, ED90, IF27

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► KPB155 MEDIA PRODUCTION

This unit introduces the principles and technologies of video production for both cinema and television. This includes the roles and responsibilities of production teams, production management, design and practice. Lecture delivery by experts in the major production areas of producing, directing, cinematography, editing and sound informs this practice. Students work in groups to produce videos that form a major part of their assessment.

**Courses:** KP25, KP32, KC32, KK32, IF27, IF05,

IF07, 1X05, 1X06, 1X08, ED50, ED90,

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2

#### ► KPB185 INFORMATIONAL PRODUCTION

This unit builds on and advances basic understandings, skills and principles delivered in KPB155 Media Production. An introduction to the skills of sound and lighting complements the earlier core skills of camera, editing, directing and production management. Assessment consists of production of non-fiction short videos.

**Courses:** KP25, KP32

**Prerequisites:** KWB111, KPB155

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1, 2, 3

#### ► KPB190 CREATIVE PRODUCTION

Through exploration of the historical and theoretical underpinnings of experimental motion picture art, students in this unit have the opportunity to develop their creative potential through experimentation. Building on prior knowledge acquired in the production units KPB155 and KPB185, students are encouraged to become wilfully nonconformist in approach, drawing on a wide range of traditions from within the genre of Experimental or Avant-Garde film-making.

**Courses:** KP25

**Prerequisites:** KPB185, KPB155

**Contact hours:** 6 per week **Credit points:** 24

**Campus:** KG **Sem:** 1

#### ► KPB209 AUSTRALIAN TELEVISION

This unit explores the historical and global contexts that have determined the nature of Australia's television industry.

lian television. It also examines the television industry in terms of the differing imperatives shaping public and private television. The unit in addition canvasses the interaction between television and its audiences. This is followed by a critique of a number of important television texts and then a study of the probable and possible futures for television in Australia.

**Courses:** KP32, KP25, KK32, IF27, ED50, ED90, IX05, IX06, IX08

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB260 COMMUNITY AND EDUCATIONAL VIDEO

This unit includes new approaches to educational and community-focused video production using digital video cameras and post production equipment. It maximises outcomes using low-cost new wave technologies to produce magazine programs, oral histories, corporate promotional, educational and training videos. This unit is quota based with preferences given to Education and FTV majors.

**Courses:** KP32, KK32, KC32, IF27, ED50 ED90, IX05, IX06, IX08

**Prerequisites:** KPB155

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB265 MULTI-CAMERA TELEVISION STUDIO PRODUCTION

This unit introduces students to the principles and technology of television production, utilizing both single and multi-camera techniques. In this unit, students develop their practical and production skills and understandings to create content for the broad area of Television Studio Production, using digital widescreen facilities. This unit introduces Multi-camera Television Production techniques, building on skills already developed in prerequisite units.

**Courses:** KP25

**Prerequisites:** KWB111, KPB155, KPB185

**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 2

#### ► KPB268 FILM AND TELEVISION DRAMA PRACTICE

This unit introduces students to directing methodologies in film and television drama. Students are exposed to different approaches to directing actors. The unit examines a number of case studies of seminal directors who encompass a variety of performance strategies and aesthetic techniques. In addition, the unit familiarises students with a wide range of stylistic approaches to directing for film and television. Students are expected to assimilate the principles outlined in the unit into their own creative work and will be formatively assessed on dramatic screenplays they write in the unit.

**Courses:** KP25

**Prerequisites:** KWB111, KPB155, KPB185, KPB190, KPB265

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB270 FILM DRAMA PRODUCTION

This unit includes film or video production that uses actors as mediators in the communication of fictional events. It explores the historical and theoretical underpinnings of fictional motion picture art. It provides training in management, direction, camera, sound and editing at a professional level. Practice is in a specialist role on short drama production/s.

**Courses:** KP25

**Prerequisites:** KPB111, KPB155, KPB185, KPB190, KPB265, KPB268

**Contact hours:** 6 per week **Credit points:** 36  
**Campus:** KG **Sem:** 2

#### ► KPB275 TELEVISION ONLINE

This unit provides students with a grounding in design, content creation and delivery of Television Online. This unit provides the following: analysis of the management principle underpinning Television Online; opportunity to develop creative potential through Television Online; experience in the practical techniques of Television Online; experience regarding technical considerations when creating media for on-line de-

livery; understanding of international implications in deploying online televisual content.

**Courses:** KP25

**Prerequisites:** KPB372, KPB371

**Credit points:** 24

**Campus:** KG

#### ► KPB305 AMERICAN FILM: GENRES AND DIRECTORS

This unit includes a contextual study of American film genres and directors from the turn of the 20th Century until the present day. The subject examines Hollywood genre films and directors, as well as independent American films. Some of the American film genres examined include the following: 1930's musicals and their relationship to the Great Depression and Roosevelt's New Deal; post-war reconstruction and the reaffirmation of the American family in 1940's films; the anti-communist hysteria and American conservatism in 1950's science fiction movies; the relation of 1960's film genres to various radical movements of the period; the treatment of a range of social and cultural issues in American film from the 1970s to the first decade of the 21st century.

**Courses:** KK32, KP25, IX06, IX08, ED50, ED90

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KPB314 MEDIA BUSINESS

This unit considers the role of the producer and executive producer in the packaging and financing of film and television production including corporate, training and documentary films, grant films, features, telemovies and mini-series, and in matching television network programming needs and achieving balance in above-the-line, below-the-line and marketing costs. It considers the following: sources of finance including PFTC, networks, corporate sponsors, IP and ownership, corporate clients, investors, pre-sales, government grants, Film Finance Corporation; methods of obtaining finance, union support, completion guarantees, legal and accounting requirements; social and ethical issues.

**Courses:** KP25, KP32, KK32, KC32, KP36, IX05, IX06, ED50, ED90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB343 AUSTRALIAN FILM

This unit includes the following: a study of New Wave Australian films within their cultural and institutional contexts; issues facing the film industry today; the filmic construction and circulation of cultural discourses such as national identity, nationalism, gender, ethnicity and class; the Australian landscape in film; experimental and Avant-Garde films; indigenous films; new technological and global challenges.

**Courses:** KP25, KK32, KC32, ED90, ED50, IX05, IX06, IX08

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB344 INTERNATIONAL CINEMA

This unit examines a range of national cinemas from a global perspective. Key theoretical approaches to national/international cinemas are covered, along with significant historical, textual, representational and ideological issues. The critical challenges posed by productions from these different cultures to Hollywood mainstream productions are also explored.

**Courses:** KP25, KP32, KK32, ED50, ED90, IX05, IX06, IX08

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KPB358 DOCUMENTARY THEORY AND PRACTICE

This unit introduces this significant tradition of documentary production. For KP25 students, the unit serves to prepare for the documentary practical production unit, through learning to assimilate the principles outlined in the unit into their own documentary screenplays. For non-KP25 students, the unit provides an opportunity to address the theoretical underpinnings of the documentary form, and the processes of documentary production.

**Courses:** KP25, KP32, KK32, KP36, ED50, IX05, IX06, IX08, ED90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KPB359 FILM HISTORY

The unit explores how narrative film has developed from the turn of the 20th century to the first decade of the 21st century. Historical and technological changes in motion-picture production are examined in relation to the development of film as an art form, and to the refinement of expressive elements in films. Attention is paid to the creative use of motion picture production technology, and to the continued popularity of motion pictures. This unit provides an important background for anyone interested in a general history of the moving image, as well as to those students involved in film production and criticism.

**Courses:** KP25, KP32, KK32, KC32, ED50, IX05, IX06, ED90

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB360 DOCUMENTARY PRODUCTION

This unit introduces video production concerned with the communication of non-fiction events. It explores the historical and theoretical underpinnings of non fictional documentary production. Training in management, direction, camera, sound and editing are considered as they apply to documentary production at a professional level. The unit provides practice in a specialist role on video documentary productions.

**Courses:** KP25

**Prerequisites:** KWB111, KPB155, KPB185, KPB265, KPB358

**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1

#### ► KPB370 PRINCIPLES OF TELEVISION

Television, first available in 1936, is arguably the most significant medium and media industry worldwide. Working in television requires therefore a nuanced understanding of the principles underlying even the most daily decisions and processes. This unit surveys those principles from a pragmatic but also conceptual perspective. The unit lays down principles of content creation and analysis in an ethical, pluralistic and international context.

**Courses:** KP32, KK32, KC32, IF27

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB371 ADVANCED PRINCIPLES OF TELEVISION

The television professional degree is committed to internationalisation in principle and practice. It recognizes that internationalisation must be contextualised within other institutional and commercial debates. This unit describes, analyses and informs students on the competing principles that underpin television content creation worldwide.

**Courses:** KP32, KC32, KK32, IF27

**Prerequisites:** KPB370

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KPB372-1 TELEVISUAL FORMATS

Televisual Formats allows students to explore creative practices across a span of televisual modes of delivery. Students consolidate skills in broadcast quality production while considering the format options available to them as creators, and appropriate to their clients' needs and audiences' preferences. They also consider how technical formats and quality issues are affected by the television formats of contemporary TV (Reality TV, Games, Children's magazine shows). Televisual Formats allows students to conceptualise, script and produce a televisual segment to a client's specifications. This unit facilitates their progress as creative workers and innovators in a mobile technological marketplace for televisual ideas and product. This unit is year long.

**Courses:** KP32, IX96

**Prerequisites:** KPB370, KPB185

**Corequisites:** KPB371

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPB372-2 TELEVISUAL FORMATS

See KPB372-1.

**Courses:** KP32; IX96 (this unit is only available to students enrolled in KP32 or IX96)

**Prerequisites:** KPB185; KPB370

**Corequisites:** KPB371

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KPP104 FILM AND TELEVISION PRODUCTION THEORY

This postgraduate unit equips students with the skills to strategically develop, market and plan their own film and television productions in the international marketplace. It addresses, at an advanced level, production strategies which are only marginally addressed at the undergraduate level. It also informs students about film laboratory procedures which have been modified by the introduction of digital technology. In addition, students are acquainted with methodologies and theoretical underpinning for formulating their own aesthetic and developing a personal style.

**Courses:** KK53, KK52, KK51, KP35, KP36  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KPP155 MEDIA PRODUCTION

This unit introduces the principles and technologies of video production for both cinema and television. This includes the roles and responsibilities of production teams, production management, design and practice. Lecture delivery by experts in the major production areas of producing, directing, cinematography, editing and sound informs this practice. Students work in groups to produce videos that is a major part of assessment.

**Courses:** KP35, KP36  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KPP185 INFORMATIONAL PRODUCTION

This unit builds on and advances basic understandings, skills and principles delivered in KPB155 Media Production. An introduction to the skills of sound and lighting complements the earlier core skills of camera, editing, directing and production management. Assessment consists of production of non-fiction short videos.

**Courses:** KP35, KP36  
**Prerequisites:** KPB155, KPP185  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

#### ► KSB011 MUSIC THEATRE SKILLS

This unit provides students with an introduction to practical skills development in acting, dance and singing for music theatre.

**Courses:** KS25  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB012 MUSIC THEATRE PROJECT

This unit follows on from Music Theatre Skills KSB011. Students experience the rehearsal process and performance of a music theatre work in order to apply the multidisciplinary skills developed in the first unit in this series.

**Courses:** KS25 **Prerequisites:** KSB011  
**Contact hours:** full-time - two weeks rehearsal and two performances.  
**Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB018 EVENT TECHNOLOGY PRACTICE

This unit provides technical production students with the opportunity to apply lecture content to authentic learning sites through participation in creative industries events and productions.

**Courses:** KS26  
**Contact hours:** 15 **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB056 PROFESSIONAL STUDIES

This unit aims to facilitate a smooth and confident transition from undergraduate experiences to life in the arts workforce. It explores current issues in the arts and develops professional skills including career management.

**Courses:** KS25, KS26 **Corequisites:** KSB256  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB200 ACTING FOR ANIMATORS

This unit provides an overview of the fundamentals of the acting process focusing on the animator as a creative artist and storyteller.

**Courses:** KI26

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KSB202 ACTING 1

This unit focuses on the actor's instrument, using a series of exercises that deal specifically with whatever impedes the actor and actress's personal truths, and unblock instrumental blocks to emotional expression. Work incorporates stage and camera requirements.

**Courses:** KS25  
**Contact hours:** 14 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB203 ACTING 2

This unit continues instrument work and introduces craft techniques, dealing with contemporary naturalistic texts for stage, film and television.

**Courses:** KS25 **Prerequisites:** KSB202  
**Contact hours:** 9 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB204 VOICE AND MOVEMENT 1

This unit offers an introduction to an organic approach to body and voice and their integration as the basis for all forms of dramatic expression. All voice and body work complements and supports the emotional freeing demanded in acting classes. Combat, connected speech, and singing are introduced.

**Courses:** KS25  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB205 VOICE AND MOVEMENT 2

This unit continues the instrument work and introduces craft techniques, dealing with contemporary naturalistic texts for stage and film and television.

**Courses:** KS25 **Prerequisites:** KSB204  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB233 VOICE AND MOVEMENT 3

This unit explores the area of heightened language. The focus is on the technical devices of Shakespearean text. Work developed is performed both on the stage and for camera.

**Courses:** KS25 **Prerequisites:** KSB205  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB234 VOICE AND MOVEMENT 4

This unit develops vocal and physical techniques that support and serve the professional performer. Advanced classes in physical theatre develop physical expressiveness, clarity and strength. Advanced studio work continues development in film and television techniques.

**Courses:** KS25 **Prerequisites:** KSB233  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB247 ACTING 3

This unit continues the development of a personal working process through rehearsal and performance of increasingly complex texts.

**Courses:** KS25 **Prerequisites:** KSB203  
**Contact hours:** 20 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB248 ACTING 4

This is an advanced acting unit that deals primarily with role, character creation, and advanced craft application. It is also designed to move the student actor into areas of professional text preparation, rehearsal management and audition techniques. This advanced work includes development of the skills required in acting for film and television.

**Courses:** KS26 **Prerequisites:** KSB247  
**Contact hours:** 20 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB255 THEATRE PROJECT 1

In this unit, students participate in a season of semi-profiled performance projects, working as an ensemble performing roles for film and stage.

**Courses:** KS25, KS26  
**Prerequisites:** KSB248 or (KSB291 and KSB293 for TP students)

**Corequisites:** KSB294 (TP students only)

**Contact hours:** 20 per week **Credit points:** 36  
**Campus:** KG **Sem:** 1

#### ► KSB256 THEATRE PROJECT 2

This unit includes a season of profiled performance projects, providing students with the opportunity to demonstrate their skills to employers in the industry, through film and stage work.

**Courses:** KS25, KS26 **Prerequisites:** KSB255  
**Contact hours:** 20 per week **Credit points:** 36  
**Campus:** KG **Sem:** 2

#### ► KSB259 THE PERFORMANCE

##### INSTRUMENT: BODY AND VOICE

This unit includes understanding vocal and physical patterns and application of integrated approach to body and voice in personal expression. This unit has number restrictions.

**Courses:** CI Open Elective  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB274 THEATRE CRAFT

This unit involves development of practical skills in workshop construction, and pre-production areas of stage scenery, props and costumes.

**Courses:** KS25, KS26 **Corequisites:** KSB289  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB276 VISUAL THEATRE - DESIGN

This unit considers the following: the role of visual expression in theatrical events; elements of space; approaches to researching design elements; bearing of text and resources on events; Western and Eastern influences.

**Courses:** KS26 **Corequisites:** KSB290  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB278 TECHNICAL THEATRE

This unit introduces the student to the basics in lighting, sound and stage management practice for theatre, and develops knowledge of the skills and processes required to stage a small production with minimal support staff.

**Courses:** CI Open Elective  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KSB289 TECHNICAL PRODUCTION 1

This unit develops basic skills in theatrical lighting and sound operation and their integration into the overall production process.

**Courses:** KS26 **Corequisites:** KSB292  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB290 TECHNICAL PRODUCTION 2

This unit continues the creative use of lighting and sound in performances. It provides an introduction to lighting and sound design.

**Courses:** KS26  
**Prerequisites:** KSB289, KSB292  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB291 TECHNICAL PRODUCTION 3

This unit broadens the skills base in areas of lighting and sound into drama, contemporary dance, ballet, opera, musicals, concerts and television productions.

**Courses:** KS26  
**Prerequisites:** KSB289, KSB290, KSB292, KSB293  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KSB292 STAGE MANAGEMENT 1

This unit introduces the coordination of a live theatre production including theatre layout and terminology, role of the stage manager, duties and responsibilities from pre-rehearsal to close of season, communication procedures, rehearsal room procedures.

**Courses:** KS26 **Corequisites:** KSB289  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB293 STAGE MANAGEMENT 2

This unit introduces the management issues in areas of stage mechanics, flying, props and wardrobe and preparation of students to undertake performance crew roles in these departments. It

provides an introduction to stage management for Dance, Opera and Musicals.

**Courses:** KS26

**Prerequisites:** KSB289, KSB292

**Corequisites:** KSB290

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KSB294 STAGE MANAGEMENT 3

This unit broadens the skills base for stage managers into production and event management.

**Courses:** KS26

**Prerequisites:** KSB289, KSB290, KSB291, KSB292

**Corequisites:** KSB255

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB056 PROFESSIONAL STUDIES: PERFORMING SELF

This unit provides the student with the requisite skills for success within the creative industries in a knowledge economy by consolidating three years of undergraduate study as a performing arts graduate. The unit focuses on what it means to be an initiator and leader within the sector.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB061 CREATIVE INDUSTRIES MANAGEMENT

This unit introduces management techniques within the Australian creative industries environment: company structures, cultural policy, strategic management and leadership in the arts, legal, ethical, economical and social requirements of arts, boards, entrepreneurial activity.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KTB062 CREATIVE INDUSTRIES EVENTS & FESTIVALS

This unit combines practical and theoretical investigation into how strategy and mission work in arts agencies in arts, events and festivals in Australia.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB201 DRAMA CURRICULUM STUDIES 1

This unit provides an introduction to key syllabus documents and to key skills and strategies of drama teaching.

**Courses:** IX06, IX05, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB202 DRAMA CURRICULUM STUDIES 2

In this unit, students develop planning and teaching skills for aesthetic learning and assessment and develop as a critically reflective practitioners and teacher artists.

**Courses:** IX06, IX05, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB208 ELEMENTS OF DRAMA

This unit provides an introduction to key features of drama across art forms that combine theory with the dramatic action of the rehearsal room.

**Courses:** CI Open Elective, ED26, ED53, ED55, ED56, ED57, ED90, ED91, ED92

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 3

#### ► KTB214 PROCESS DRAMA

This unit introduces the processual nature of drama and theatre through workshops involving the following: role play, participant enrolment, leader-in-role and intervention; identification with role; negotiation, devising and consequent decision-making; dramatic tension and resolution; structuring for the theme and for the dramatic moment; distancing devices; reflection, re-enactment and remaking.

**Courses:** KT32, IX05, IX06, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 3

#### ► KTB251 20TH CENTURY PERFORMANCE

This unit introduces students to the major theatre movements of the 20th Century. Students investigate key theatre practitioners and their innovations.

**Courses:** KK32, KS25, KS26, KT32, IF76,

IX06, IX05, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB252 THE SOUND OF THEATRE

This unit provides an introduction to the key features and major stages of western music theatre traditions, through reference to a variety of performance styles, practitioners and periods. The possibility of symbiotic relationships between sound and performance is explored in theory and practice.

**Courses:** KT32, IX06

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG

#### ► KTB253 STAGING AUSTRALIA

This unit introduces key concepts and practices pertaining to Australian theatre and drama of the twentieth century, including indigenous performance, post-colonialism, Bush Drama, tradition, and contemporary forms. Theatre practices are explored in relation to broader social and political concerns.

**Courses:** KT32, IX06, IX05, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB257 STUDIES IN ACTING 1

This unit introduces the work of Stanislavski and a number of his key interpreters including Cohen, Benedetti, Hagen, Adler and Moore. Acting styles including an examination of alternative theories of performance are explored.

**Courses:** KK32 (sub major offering), KT32, IX06, IX05, IX07, IX08

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB258 STUDIES IN ACTING 2

This unit is designed to be of benefit to anyone seeking to extend their understanding of Shakespeare and the interpretative and acting skills required to perform Shakespearean text. It will be of particular use to those interested in acting, directing, teaching or playwriting.

**Courses:** KT32, IX06, KK32 (sub-major offering)

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB271 STUDIES IN DIRECTING

This unit considers the history of the development of the role of the director and the theoretical study of key innovative directors in the European tradition. Practical work includes selecting, adapting, rehearsing and performing an extract from a play and giving it an innovative 'treatment'.

**Courses:** KT32, IX06, KK32 (sub-major offering), CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB272 DRAMA AND COMMUNITY CULTURAL DEVELOPMENT

This unit introduces core concepts informing community cultural development practices, both local and international. Students develop skills through practical and theoretical enquiries into cultural action.

**Courses:** KT32, IX06

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB273 PERFORMANCE 1

This unit introduces the student to a clearly defined rehearsal ethic through extended performance project. It includes text analysis, formal group discussion, role creation and intensive rehearsal, and live performance of a scripted drama before an audience.

**Courses:** KT32, IX06

**Corequisites:** KTB257

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB275 UNDERSTANDING PERFORMANCE

In this unit, students investigate paradigms of performance, performance as trans-disciplinary

practice, live and mediated performance, the body in performance, festival and events, performance identity, critical reviewing and audiences.

**Courses:** KT32, IF76, IX06

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB277 PHYSICAL THEATRE

In this unit, students experience a range of physical skills within the context of non-text based performance taught by professional theatre practitioners.

**Courses:** KT32, IX06

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB280 DRAMA AS SOCIAL ACTION

This unit presents a combination of practical and theoretical investigation into the process of improvisation and the way drama can be used as a tool for critical enquiry and social change. It provides a basis for further work in writing for performance and advanced improvisational skills.

**Courses:** KT32, IX06, IX05, IX07, IX08

**Prerequisites:** KTB214

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB304 FORMING KNOWLEDGE

In this unit, students explore a range of paradigms of knowledge and knowing and their relationship to arts practice and theatre. The unit acknowledges the aesthetic field of experience in all human endeavours, relating it to concepts of human intelligence and knowing.

**Courses:** KT32, IX05, IX05, IX07, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB306 DIRECTING FOR THEATRE

This unit provides an analysis of the director's role in production management including play selection, resource auditing, pre-production analyses, time, budget and resource planning, design, technical effects, promotion and publicity and an introduction to blocking techniques.

**Courses:** KT32, IX06

**Prerequisites:** KTB271

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB307 WRITING FOR PERFORMANCE

Writing for Performance focuses on conceptualising, building and reading narrative for live performance. It blends theory and practice in the creation and critique of a short new work.

**Courses:** KT32, IF06, IX06, CI Open Elective

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KTB308 PERFORMANCE 2

This unit provides for the development of a performance piece through group devising with professional guidance.

**Courses:** KT32, IX06

**Prerequisites:** KTB273

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KTB309 PERFORMANCE 3

This final year elective unit provides Performance Studies students with an opportunity to collectively manage and perform a public season of an original production or series of smaller performances. Students themselves take on the various roles of dramaturgy, rehearsal, research, scripting, stage management, design, publicity, documentation, acting and so on, usually under a professional director.

**Courses:** KT32, IX06

**Prerequisites:** KTB308

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KTB310 STUDIES IN ACTING 3

This unit addresses the relationship between ideas and the way they are formed into action. It is designed to move the student into areas of advanced preparation for creating a performance by introducing major theoretical issues in contemporary cultural and performance analysis and developing advanced acting skills.

**Courses:** KT32

**Prerequisites:** KTB257

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KTB415 DRAMA CURRICULUM STUDIES 2

This unit extends on the work undertaken in KTB414 and focuses on the following: assessment in the drama curriculum; building units based on syllabus documents; deepening management and artistic leadership skills in the drama classroom; building awareness of contemporary educational imperatives and their relevance to Drama teaching; new technologies. It provides opportunities to develop skills as a reflective practitioner and to value and practice aesthetic teaching and learning in Drama.

**Courses:** ED55, IF76, IF75, IF77, IF78

**Prerequisites:** KTB414

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KTN001 PERFORMING NARRATIVES

In this unit, students examine reviewing practices of storytelling and constructing narratives: the oral, the novelistic, the dramatic, the filmic; post-linearity and multiform narrative; narrative in digital environments; narrative in a replay culture.

**Courses:** KT35, KT36, KT42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KTN002 CONTEMPORARY PERFORMANCE

In this unit, students investigate the following: the nature of the performance event; performance in everyday life; theatricality and performance; trans-disciplinary performance theory and practice; the body in performance; site and performance; live and mediated performance; spectator and audience.

**Courses:** KT35, KT36, KT42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KTN003 APPLYING INFORMATION TECHNOLOGY IN THE DRAMA CLASSROOM

This unit considers the following: strategies for incorporating information and communication technology into the Drama classroom; performing arts specific software including graphics/imaging programs; video editing and script-writing programs; appropriate uses of the internet; on-line communities, online improvisation and role-play; message and bulletin boards.

**Courses:** KT35, KT36, KT42, IX06

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KTN004 TEACHING DRAMA FROM 1-10

In this unit, students explore the conceptual and practical knowledge and understanding of the contribution Drama can make in a holistic primary education. It explores the following: aesthetic learning and Drama as a way of knowing; experiential workshops to develop artistic and facilitation skills for Drama teaching; an introduction to The Arts Years 1-10 Syllabus.

**Courses:** KT35, KT36, KT42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KTN005 IMPLEMENTING DRAMA FROM 1-10

This unit introduces students to the following: strategies for planning, managing and assessing of school and classroom work programs in Drama; cross curricula and Key Learning Area applications, trans-disciplinary planning; the Core Content relevant to Levels 1-6

**Courses:** KT35, KT36, KT42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KTN006 DRAMA PROJECT

This unit provides an opportunity for students to design and implement a classroom based project that applies the learnings in the course and requires fieldwork in their workplace.

**Courses:** KT35, KT36, KT42

**Contact hours:** 3 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1, 2

### ► KTN200 DRAMATURGY

This unit includes an investigation of the role of the dramaturge in Western cultures: the emerging role of the dramaturge in Australian theatre; the methodologies of the dramaturge; the criteria used for script assessment; a comparative study of the role of the script editor/story editor in the screen writing industry.

**Courses:** KK42, KK52, KK53, KT35, KT36, KT42

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### KVB004 Contemporary Aesthetic Debates

This unit introduces modern aesthetic debates that inform contemporary art practice. The unit addresses philosophical discourse on art from Kant to postmodern theories.

**Courses:** KK52, KK53, KK51

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KVB413 ART CURRICULUM STUDIES 2

This unit extends KVB412 and includes the following: Art curriculum development within the context of contemporary policies, frameworks and agencies; principles of measurement, assessment and evaluation; teaching and learning strategies; directions in curriculum development.

**Courses:** ED50, ED54, IF78

**Prerequisites:** KVB412

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KVB444 CONTEMPORARY ASIAN VISUAL CULTURE

This unit considers the development of an understanding and awareness of non-Western art forms. It considers the influences of historical visual arts, backgrounds, philosophical beliefs and trade on the symbolism, forms, techniques and uses of various artefacts.

**Courses:** KV25, KV32, IX08, Open Elective, ED22, ED26, ED50, ED51, ED91

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KVB447 DRAWING

This unit examines conventional and contemporary drawing processes. It includes an investigation of materials for drawing, shape and volume, line as a means of expression and communication, perspective, rendering, perceptual organisation and expressive effects.

**Courses:** CI Open Elective, ED26, ED51, ED52, ED91

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KVB457 SCULPTURE

This unit provides an introduction to the history and theory of sculpture and provides students with the opportunity to develop their ideas in relation to the exploration and manipulation of a range of materials and techniques used in the sculpture studio.

**Courses:** IX08, CI Open Elective, ED22, ED26, ED50, ED51, ED52, ED91

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KVB503 CLAY MATERIALS

This unit develops ceramic knowledge, artistic concepts and practical/technical skills: an investigation of selected historical ceramic eras; understanding of the relationship between ceramics and the maker's culture; development of personal imagery and design.

**Courses:** CI Open Elective, IX08, ED26, ED50, ED51

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KVB507 PAINTING

This unit is used for introducing and developing an active awareness of both historical and contemporary issues in painting and drawing through studio practice and tutorials. It includes the skills appropriate to the range of available media pursued in studio classes and professional practice.

**Courses:** IX08, CI Open Elective, ED26, ED50, ED51, ED91

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KVB509 PHOTOMEDIA AND ARTISTIC PRACTICE

This unit aims to provide students with an understanding of the aesthetic aspects of various photomedia concepts and processes and the artistic use of genres. It also aims to give students proficiency in alternative and experimental uses of photographic processes, establishing an understanding of investigative and creative research. By including a range of photographic processes as part of the photographic artist's repertoire, this unit aims to give students a broad range of choices and approaches to creating images. The unit encourages students to engage with photography as a medium for visual and artistic expression in order to extend their own photographic practice.

**Courses:** CI Open Elective, ED22, ED26, ED50, ED51

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KVB511 PRINTMAKING

This unit covers a diverse range of print methods, which are viewed, analysed and/or undertaken in the studio. Relief processes, which utilize raised and incised surfaces, (ie lino, wood, collagraph), intaglio processes, such as etching and drypoint and paleographic processes, such as monoprinting, are addressed. In addition, innovative and contemporary print processes are introduced to help the students to develop their own approach in a folio of works.

**Courses:** CI Open Elective, IX08, ED26, ED50, ED51, ED91

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KVB701 MODERNISM

This unit provides an overview of the key concepts and movements that comprise twentieth-century modernism. Beginning with cubism, the unit provides an understanding of terms, such as avant-garde, modernism and modernity. It explains how modernism focuses upon the issue of representation and how this approach led to interdisciplinary work, which engaged with film, photography, design, architecture and installation as well as the traditional visual arts.

**Courses:** KV25, KV32, KK32 (sub-major offering), CI Open Elective, ED50, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KVB702 AUSTRALIAN AND INDIGENOUS ART

This unit focuses upon Australian Art over the course of the twentieth century, including the contemporary period. It gives students an understanding of the national, cultural and social frameworks within which this art has been produced and introduces a number of artists, artistic movements and issues within Australian Art. It also considers the nature of indigenous art and its contribution to the complexity of Australian cultural identity. All of these issues are presented in order to assist students in understanding the important role of Australian art as an expression of our cultural values throughout the twentieth century.

**Courses:** KV25, KV32, KK32 (sub-major offering), CI Open Elective, IX08

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KVB703 VIDEO ART AND CULTURE

Existing Visual Arts units examine a broad range of subjects addressing artistic media such as painting, sculpture and installation. The 'Video Art and Culture' unit supplements these by instituting a specialised study of artistic and cultural practice that focuses on new mass media technology. The unit therefore enhances, extends and updates knowledge of recent art strategies in contemporary society.

**Courses:** KV25, KV32, CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KVB704 THEORIES OF SPATIAL CULTURE

This unit provides the necessary critical evaluation of issues and practices that relate to considerations of space in modern and contemporary art, new media and culture in general. It provides an historical overview of key art practices that

have focused their critical attention to the issue of space and the built environment. In order to function as an informed practitioner in the environment of public space, a student must acquire such knowledge because it forms the critical-analytical background to current debates and theories in spatial culture and public art.

**Courses:** KV25, KV32, KK32 (sub-major offering), CI Open Elective  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KVB712 CONTEMPORARY ART ISSUES

Current practices in the visual arts are addressed by analysing and interpreting original works on exhibition, in stockrooms and in studios. By means of lectures, discussions and analysis of artworks and readings, the students' awareness of the conceptual, historical and philosophical contexts concerning artists and the artworks is heightened. (Prerequisite for entry to Honours.)

**Courses:** KV25, KV32, ED26, ED50  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KVB740 STUDIO ART PRACTICE 1

This unit includes the following: the development of an enquiry-based, self-sustaining art practice; fostering of appropriate research skills; encouragement of open flexible independent approach to formulating resolutions to conceptual and visual concerns; development of safe workshop practices, safe studio work habits and appropriate professional skills. It includes introductions to technological art forms. This is a designated unit.

**Courses:** KV25, KV32, IX08  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1

#### ► KVB741 STUDIO ART PRACTICE 2

This unit addresses a number of contemporary contexts and methods for studio art practice that provide starting points for individual research. In consultation with studio staff, students formulate and apply an individual framework to develop a studio based practice. Lectures support studio work by introducing professional practitioners and current art issues and practices, and by providing examples of contemporary art in its multiple contexts. Studio workshops assist students in the development of technical skills

**Courses:** KV25, KV32, IX08  
**Prerequisites:** KVB740  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 2

#### ► KVB742 STUDIO ART PRACTICE 3

In consultation with studio staff, students formulate a program of work for the semester which allows students to investigate their own personal artistic direction, formulate and develop self-generated enquiry and acquire working methods, resources, skills and knowledge necessary to realise concepts.

**Courses:** KV25, KV32, IX08  
**Prerequisites:** KVB741  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1, 2

#### ► KVB743 STUDIO ART PRACTICE 4

The conditions of current cultural practice, their production, reception and contribution to society are extremely diverse, increasingly complex and multi-layered. In this unit, sustained critical involvement and an increasing commitment to artistic conceptual pursuits are underpinned by contemporary theoretical reference which includes investigation into a broad range of artists' practices. Students are required to articulate a personal position in these issues.

**Courses:** KV25 **Prerequisites:** KVB742  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 2

#### ► KVB744 STUDIO PROJECT 1

In consultation with studio staff, students at this level are expected to undertake individual projects that lead to the development of a professionally organised and articulated body of work. Substantial research is expected in support of these projects.

**Courses:** KV25 **Prerequisites:** KVB743  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1

#### ► KVB745 STUDIO PROJECT 2

In consultation with studio staff, students at this level are expected to undertake individual projects that lead to the development of a professionally organised and articulated body of work. Substantial research is expected in support of these projects.

**Courses:** KV25 **Prerequisites:** KVB744  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 2

#### ► KVB751 EXTENDED STUDIO PRACTICE 1

This unit is an extension of practical studio units of core media studies or elective studio units.

**Courses:** KV25, KV32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KVB752 EXTENDED STUDIO PRACTICE 2

This unit is an extension of practice studio units or core media studies or elective studio units.

**Courses:** KV25, KV32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KVB753 EXTENDED STUDIO PRACTICE 3

This unit is an extension of practice studio units or core media studies or elective studio units.

**Courses:** KV25, KV32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KVB754 EXTENDED STUDIO PRACTICE 4

This unit is an extension of practice studio units or core media studies or elective studio units.

**Courses:** KV25, KV32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► KVB755 FOUNDATIONS OF DRAWING FOR ANIMATION

This is a studio based unit that introduces students to media, processes, strategies and traditions of drawing and associated imagery for use in animated media. The development of critical/reflective frameworks of traditional and contemporary practice underpins studio development.

**Courses:** KV25, KV32, KI25, KI32  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► KVB756 FOUNDATIONS OF DRAWING FOR ANIMATION 2

This unit develops individual knowledge, concepts and skills to enable students to articulate and present capabilities of motion through drawing for contemporary animation practices.

**Courses:** KV25, KV32, KI25, KI32  
**Prerequisites:** KVB755  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KVB757-1 DRAWING FOR FASHION 1 (1/2)

This unit concentrates on developing core skills and knowledge of drawing to provide an important foundation for existing and evolving modes for constructing and presenting fashion proposals. This is a year long unit. Students must enrol in KVB757-2 in Semester 2 to successfully complete the unit and be awarded 12 credit points.

**Courses:** KF25  
**Credit points:** 6 (12cp awarded at completion of both components)  
**Campus:** KG **Sem:** 1

#### ► KVB757-2 DRAWING FOR FASHION 1 (2/2)

This unit concentrates on developing core skills and knowledge of drawing to provide an important foundation for existing and evolving modes for constructing and presenting fashion proposals. This is a year long unit. Students must have completed KVB757-1 in Semester 1 to successfully complete the unit and be awarded 12 credit points.

**Courses:** KF25  
**Prerequisites:** KVB757-1  
**Credit points:** 6 (12cp awarded at completion of both components)  
**Campus:** KG **Sem:** 2

#### ► KVB758-1 DRAWING FOR FASHION 2 (1/2)

Developing understanding of explicit outcomes of the drawing systems used in fashion design and promotion enables the user to encode experience within the constraints of the industry as well as traditional and contemporary media. The ability to utilise the language of figurative drawing in fashion facilitates description, recording synthesis, analysis, decoration, interpretation, reconstruction and response in visual form. The development of skills and knowledge of fashion drawing provides access to evolving modes for constructing and presenting images for diverse production. This is a year long unit. Students must enrol in KVB758-2 in the following semester.

**Courses:** KF25  
**Prerequisites:** KVB757 (1&2)  
**Contact hours:** 3 per week  
**Credit points:** 6 (12cp awarded at completion of both components)  
**Campus:** KG **Sem:** 1

#### ► KVB758-2 DRAWING FOR FASHION 2 (2/2)

Developing understandings of explicit outcomes of drawing systems used in fashion design and promotion enables the user to encode experience within the constraints of the industry as well as traditional and contemporary media. The ability to utilise the language of figurative drawing in fashion facilitates description, recording synthesis, analysis, decoration, interpretation, reconstruction and response in visual form. The development of skills and knowledge of fashion drawing provides access to evolving modes for constructing and presenting images for diverse production. This is a year long unit. Students must have completed KVB758-1.

**Courses:** KF25  
**Prerequisites:** KVB757 (1&2), KVB758-1  
**Contact hours:** 3 per week  
**Credit points:** 6 (12cp awarded at completion of both components)  
**Campus:** KG **Sem:** 2

#### ► KVB759 VISUAL PROMOTION

The task of drawing in fashion design is to visually communicate apparel design and pattern construction. Embedded in this communication process are the conventions and influences of historical, cultural, social and environmental sources that shape the traditions of drawing for fashion.

**Courses:** KF25, KV25, KV32  
**Prerequisites:** KVB758  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KVP100 GRAPHIC DESIGN

New modes of reproduction, display platforms and transmission devices are reshaping the way text, image and message can be communicated. As creative advertisers, it is important for students to develop new ways of approaching graphic design processes in order to confidently utilise traditional and contemporary media, and to produce innovative cross-media outcomes. It is also important that students are flexible and responsive to the needs of clients, and that they acquire the ability to articulate and graphically present multiple options for production. This unit addresses these needs.

**Courses:** IX95, IX96  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► KWB111 MEDIA WRITING

This unit introduces students to the formats, terminology and protocols used in the preparation of proposal documents and short scripts. It explores fundamental concepts including narrative structures, metaphors, point of view, plotting, character and voice. Students examine a range of professional scripts and development documents and are asked to apply their knowledge of typical script problems and solutions to their own work.

**Courses:** KW25, KW32, KW35, IF93  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KWB229 FILM AND TELEVISION SCRIPTWRITING

This unit focuses on the production of a sustained script for film or television.

**Courses:** KW25, KW32, IF93, KW35, KW36

**Prerequisites:** KWB111 or completion of 96 credit points

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► KWB250 INTRODUCTION TO CREATIVE WRITING

This course develops creative, critical and analytical skills in reading and writing a variety of creative textual forms. Students acquire an understanding of various forms of creative language forms, especially narrative and poetry. Students therefore are introduced to key language theory and creative writing practice.

**Courses:** KW25, KW32, KW35, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB314 CORPORATE WRITING AND EDITING

This unit deals with both the fundamentals of language (grammar, punctuation, style) and the dominant corporate writing genres (manuals, reports, speeches, brochures).

**Courses:** KW32, KW25, KW35, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB315 PERSUASIVE WRITING

This unit teaches the use of persuasive writing in the workplace. The unit analyses a variety of writing genres to reveal how they persuade their audiences. The analysis is founded on critical discourse and semiotic theory. Students apply these learned techniques and theories to produce a portfolio of persuasive writing. The unit covers a range of genres such as Public Health Campaigns, Proposals, Speechwriting and Political Persuasion.

**Courses:** KW25, KW32, KW35, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB321 MODERN TIMES: LITERATURE AND CULTURE IN THE 20TH CENTURY

The twentieth century is a time of significant developments and major transformations in writing and culture. This unit focuses on a number of twentieth century writers from Europe, England, Africa, Asia, Australia and the Americas, from modern to postmodern times, and explores the connections between texts, language, culture and society.

**Courses:** KW25, KW32, KK32, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB350 CREATIVE WRITING: THE SHORT STORY

The unit covers the writing of the short story.

**Courses:** KW25, KW32, KW35, KW36, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► KWB370 ELECTRONIC WRITING

This is an advanced unit for students working towards a vocation involving creative and professional writing and especially for majors in creative writing production. This unit builds on the practical skills and conceptual background acquired in first and second year Creative Writing units, and offers advanced techniques in professional writing and editing, especially web or electronic narrative writing, and advanced experimental narrative techniques.

**Courses:** KW25, KW32, KW35, IF93

**Prerequisites:** KWB350

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB380 CREATIVE NONFICTION: LIFE WRITING

This unit covers the diversity of creative nonfiction life writing, but with an emphasis on contemporary biography and autobiography. While providing theoretical and critical context, the main focus of classes is to teach students to do practical biographical and autobiographical research and writing of their own, as well as review writing and family and local history writing.

**Courses:** KW25, KW32, IF93, KW35, KW36

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB381 CREATIVE NONFICTION: ARTS, HUMOUR, TRAVEL

This unit covers the acquisition of practical and analytical skills in creative nonfiction writing, in particular review writing on books, film, music, visual arts, fashion and food, and travel, scientific, essay, humorous and sports writing. The unit provides examples, techniques and practical exercises in nonfiction creative writing and editing, and the opportunity to develop individual work in the supportive context of in-class and small workshop groups. Potential publishing areas are explored.

**Courses:** KW25, KW32, IF93, KW35

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB382 EDITING AND CREATIVE WRITING

This is a key advanced unit in the BFA in Creative Writing degree, as the practice of creative writing requires a level of self-reflexivity about the creative work created. The facilitated small group/seminar mode of teaching provides concentrated feedback and developmental opportunities for students to develop advanced editing skills.

**Courses:** KW25, KW32, IF93

**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** KG **Sem:** 1

### ► KWB395 CREATIVE WRITING PROJECT 1

This unit provides the opportunity for students to write a sustained piece of creative work, within the genre of their choice, including short fiction, poetry, creative non-fiction and hypertext, under supervision. Such work is written to a standard suitable for publication in print or electronic journals. The student's final submission is written after familiarisation with industry demands, niches and marketing possibilities.

**Courses:** KW25, KW32, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB396 CREATIVE WRITING PROJECT 2

As the capstone unit in the BFA Creative Writing, this unit gives the student the vital opportunity to concentrate on developing, writing and editing a sustained major piece of creative work, within the genre of their choice, including short fiction, poetry and non-fiction, under supervision.

**Courses:** KW25

**Contact hours:** 6 per week **Credit points:** 36  
**Campus:** KG **Sem:** 2

### ► KWB399 THE WRITING AND PUBLISHING INDUSTRY

This unit introduces the function and structure of the writing and publishing industry

**Courses:** KW25, KW32, IF93, KW35, KW36, KW37

**Prerequisites:** 96 credit points of undergraduate study.

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB625 AMERICAN STORIES

In view of the close cultural, political and artistic ties between America and Australia, it is useful for students to study significant developments in American cultural texts. This unit provides a strong grounding in analysing a major branch of international writing and develops skills in textual and cultural analysis.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB701 INDIGENOUS WRITING

This unit provides students with the opportunity to explore the rich and diverse range of Indigenous narrative or story-telling throughout the world, including Australian Aboriginal and Torres Strait Islander story-telling. In doing so, it explores both traditional and contemporary narratives as an exciting site of constantly developing,

innovative and culturally rich forms of cultural expression, exploration and development. The unit provides students with the opportunity to explore and reflect upon their own relationships with Indigenous Writing and culture as readers, writers and/or critics.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB710 OZLIT

This unit provides students with opportunities to read, explore, discuss and evaluate a number of Australian texts written and published over the last twenty-five years. Upon completing this unit, students will be able to understand and critically interrogate texts pertinent to contemporary Australian society and culture.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB712 YOUTH AND CHILDREN'S WRITING

This unit includes children's and adolescent novels within the cultural context of nineteenth and twentieth century Australia, England and America. It focuses on textual analysis of major generic types, and considers issues such as race, gender, class and regionalism in fiction for young Australians.

**Courses:** KW25, KW32, KW35, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB716 INTRODUCTION TO LITERARY THEORY AND CULTURAL STUDIES

'The "textualisation" of the world has been an important development in twentieth century theory in the West,' (Fuery:57). What are texts? What do they mean? This unit addresses these issues by providing students with an introduction to conceptual frameworks derived from some of the major critical discourses that have impacted on our world.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB724 WONDERLANDS: LITERATURE AND CULTURE IN THE 19TH CENTURY

When Alice meets Neo... This unit considers important contemporary cultural and social questions by way of readings in science fiction, fantasy fiction and fiction, class ideologies and revolutionary politics from a selection of novels and poetry of the nineteenth century. The novels and poems examine political and social change in Europe between 1790 and 1900, with a view to making critical links between current ideologies and literary forms and their formulation in a nineteenth century text. As such, works ranging from Frankenstein to Alice in Wonderland are deployed to consider the textual representations of important cultural, social, and sexual issues.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► KWB725 POPULAR FICTIONS, POPULAR CULTURE

The unit is designed to provide students with skills in understanding popular culture/s. It addresses the production of popular culture via a range of texts and mediums, and provides students with a framework by which they can critique the operations of popular cultures.

**Courses:** CI Open Elective

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► KWB729 SHAKESPEARE, THEN AND NOW

This unit is designed to introduce students to Shakespearean studies and the ongoing cultural importance of Shakespearean material.

**Courses:** KK32 (sub-major offering)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► KWP103 CREATIVE WRITING: NOVEL & GENRE**

This unit examines the major theories underlying and informing the practice of writing sustained creative texts, including narrative prose, creative nonfiction and genre writing. Such theory and knowledge enhances critical awareness and writing strategies relevant to the production and future publication of a novel-length text.

**Courses:** KK51, KK54, KW35, KW36  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► KWP104 EDITING AND DEVELOPING THE MANUSCRIPT**

This unit examines processes of editing and manuscript development from the viewpoint of both editor and writer. Students participate in the managed development of a manuscript or a range of manuscripts. Classes are taken in intimate seminar mode.

**Courses:** KK51, KW36, KW37  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► LPP101 TRANSACTION SKILLS**

A competent legal practitioner is a skilful practitioner who has a commitment to professionalism and ethical practice in the provision of legal services. This unit seeks to develop a range of transactional lawyering skills and an awareness of professionalism and ethical practice in the transactional context.

**Courses:** LP41 **Contact hours:** 28 (2 weekends)  
**Credit points:** 12  
**Campus:** GP **Sem:** 3 (2004) and 2 (2005)

**► LPP102 DISPUTE RESOLUTION SKILLS**

A competent legal practitioner is a skilful practitioner who has a commitment to professionalism and ethical practice in the provision of legal services. This unit seeks to develop dispute resolution and advocacy skills and to develop an awareness of professionalism and ethical practice in the dispute resolution context. The unit also introduces students to civil litigation and criminal law practice.

**Courses:** LP41 **Contact hours:** 28 (2 weekends)  
**Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LPP103 BANKING AND FINANCE**

The legal profession plays a major role in facilitating borrowing, taking securities, enforcing securities, and protecting the rights of borrowers and lenders. Persons seeking to become legal practitioners should have an understanding of the lawyer's role in financial arrangements. The unit covers aspects of practice in the area of securities law, consumer credit and bankruptcy.

**Courses:** LP41  
**Prerequisites:** LPP101, LPP102  
**Contact hours:** 6 per week (on-campus mode), 1 per week (off-campus mode)  
**Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1 and 2 (2005)

**► LPP104 COMMERCIAL LAW PRACTICE**

Lawyers are often called upon to advise clients on how to plan and structure commercial transactions and to advise on the legal effects of those transactions. In an economy such as Australia's, where the economic well being of many people depends on private commercial activities, lawyers must be prepared for their role in the facilitation and conduct of commercial transactions. The unit deals with corporations' law practice and common commercial transactions.

**Courses:** LP41  
**Prerequisites:** LPP101, LPP102  
**Contact hours:** 6 per week (on-campus mode), 1 per week (off-campus mode)  
**Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1, 2

**► LPP105 FAMILY AND ESTATES**

Learning how to administer a deceased person's estate is a good platform for developing legal drafting skills and the skill of giving legal advice in clear and concise terms. Family law practice is one of the eight recommended areas of practice for pre-admission practical training specified by

the Australasian Professional Legal Education Council.

**Courses:** LP41  
**Prerequisites:** LPP101, LPP102  
**Contact hours:** 6 per week (on-campus mode), 1 per week (off-campus mode)  
**Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1, 2

**► LPP106 LITIGATION**

Civil litigation forms a major part of most legal practices. Knowledge of court procedures, litigation tactics, and an ability to assist clients through the litigation process are essential for most lawyers. The unit focuses on practice in the courts. Other dispute resolution alternatives such as negotiation, mediation and counselling are dealt with in the Dispute Resolution Skills unit. This unit also provides an opportunity to learn some Criminal Law Practice.

**Courses:** LP41  
**Prerequisites:** LPP101, LPP102  
**Contact hours:** 6 per week (on-campus), 1 per week (off-campus)  
**Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1, 2

**► LPP107 PROPERTY LAW PRACTICE**

Many lawyers are regularly involved in the purchase and sale of real property and the conveyance of real property. This unit addresses the fact that most lawyers need an ability to advise clients in respect to contracts of sale of property and the effects on property transactions of legislation such as environmental and legislation planning.

**Courses:** LP41  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1, 2

**► LPP108 PLACEMENT**

A placement has always been regarded as a necessary part of the GradDipLegalPrac. Most pre-admission vocational training regimes for the legal profession in Australia require some workplace experience. This unit involves a placement of four weeks that will help students to experience the dynamics of a 'real' legal workplace.

**Courses:** LP41  
**Contact hours:** 160 total **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 3

**► LPP111-1 LAWYERS' SKILLS**

The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to demonstrate oral communication skills, advocacy skills, negotiation and dispute resolution skills, and letter writing and legal drafting skills'. These skills are introduced in this unit. The intention is that students then seek to develop these skills during the rest of the course and in the workplace.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 4 days per semester  
**Credit points:** 12  
**Campus:** GP **Sem:** 1, 2, 3

**► LPP112 WORK SKILLS**

The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to manage workload, work habits and work practices in a way that ensures clients' matters are dealt with in a timely and cost-effective manner'. This unit provides students with the basis of those skills and the basics of practical legal problem-solving skills. The intention is that students then seek to develop those skills during the rest of the course and in the workplace.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 4 days per semester  
**Credit points:** 12  
**Campus:** GP **Sem:** 1, 2, 3

**► LPP113-1 CIVIL LITIGATION**

The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to conduct civil litigation in first instance matters in courts of general jurisdiction, in a timely and cost-effective manner'. This unit provides students with the basis of that ability in the context of civil litigation in a state Court.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► LPP114-1 COMMERCIAL**

The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to conduct commercial transactions such as the sale and purchase of a small business...set up standard business structures...provide basic advice on finance and securities...and appreciate the type of advice needed to assess the revenue implications of standard commercial transactions'. This unit provides students with experience in specific commercial transactions of the types described above.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► LPP115-1 PROPERTY**

The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to convey, lease and mortgage real property...and provide general advice on land use.' This unit equips students to do that in selected contexts.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► LPP116-1 ELECTIVES**

The Law Admissions Consultative Committee considers that entry level lawyers should have experience in two areas of practice: administrative law practice, criminal law, or family practice AND one of either wills and estates, planning and environment, employment and Industrial Relations, or consumer law practice. This unit provides students with experience in their choice of one area from each list.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► LPP117-1 INTERACTION**

This unit is designed for law graduates who are completing the Graduate Diploma in Legal Practice for the purpose of becoming admitted as a legal practitioner and who are not working in law offices while they are doing the course. The unit seeks to further develop students' communication, advocacy, interviewing and work management skills where they do not have the opportunity to develop those skills in a real life law office.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 6 hours per week plus 2 days  
**Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1, 2

**► LPP118-1 PLACEMENT**

The Law Admissions Consultative Committee considers that every entry level lawyer should have experience in a law office before being admitted. This unit provides four weeks experience in a law office to satisfy legal practitioner admission requirements.

**Courses:** LP41 **Prerequisites:** LLB  
**Contact hours:** 40 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2, 3

**► LSB111 UNDERSTANDING DISEASE CONCEPTS**

This unit includes the following: introduction to structure and function of the body; review of body systems; mechanisms of disease. It covers systems and topics: integumentary, skeletal, muscular, nervous, endocrine, blood, heart and circulation, lymphatic, immune, respiratory, digestive (including nutrition and metabolism), urinary, reproductive, concepts of growth and development, genetics. It presents examples of diseases: heart disease, cancers (lung, breast, skin, prostate, cervical), diabetes, hypertension, depression and schizophrenia, asthma and chronic obstructive lung diseases.

**Courses:** IF47, NS40, PU40  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB118 LIFE SCIENCE**

This unit includes a study of life processes in all five groups of living organisms (bacteria, protists, fungi, plants and animals). Traditional topics in biology are integrated with recent research advances in molecular and cellular biology to provide a comprehensive foundation for later

units in the medical, biotechnological and ecological sciences. The unit begins by constructing cells from the four quantitatively important groups of biological molecules (proteins, lipids, carbohydrates and nucleic acids). Molecular and evolutionary aspects of genetics are then introduced, with the great diversity of reproductive strategies found among organisms being emphasised. Finally, bioenergetics (photosynthesis and respiration) and its relevance to environmental issues are outlined.

**Courses:** ED50, IF86, LS37, LS50, PU43, SC01  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** CA, GP **Sem:** 1, 2

#### ► LSB119 LIFE SCIENCE FOR OPTOMETRISTS

This unit provides an introduction to the study of life processes in all five groups of living organisms (bacteria, protists, fungi, plants and animals). The unit begins by constructing cells from the four quantitatively important groups of biological molecules (proteins, lipids, carbohydrates and nucleic acids). Cell function is then described, using neurons (including eye rod and cone cells) and muscles as examples. Molecular and evolutionary aspects of genetics are then introduced, with the great diversity of reproductive strategies found among organisms being emphasised. Finally, bioenergetics (photosynthesis and respiration), and its contemporary relevance to environmental and sociopolitical issues are outlined.

**Courses:** OP42  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** LSB118  
**Campus:** GP **Sem:** 1

#### ► LSB131 ANATOMY

This unit includes basic concepts of anatomy: an overview of the structure of cells, body tissues, and body systems; aspects of surface anatomy which are relevant to human movement; musculoskeletal systems.

**Courses:** HL40, HL42, HL43, HM42, HM45, IF62, IX04, PU43  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB142 HUMAN ANATOMY AND PHYSIOLOGY

The aim of this unit is to provide grounding in the principles of human anatomy and physiology. Following an introduction to the structure of the cell and the organisation of tissues, each of the major systems that constitute the human body are examined by the integrated study of their anatomy and physiology.

**Courses:** ED50, ME48, PU40, SC01  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB145 ANATOMY 1

This unit of human anatomy includes an introductory study of cell structure, primary tissues, integumentary system, muscular system and a detailed study of osteology and arthrology.

**Courses:** PH38  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB152 ANATOMY

This unit of human anatomy includes an introductory study of cell structure, primary tissues, skeletal system, integumentary system, muscular system, cardiovascular system, lymphatic system, respiratory system, digestive system, renal system, nervous system, eye, ear, endocrine system and the reproductive systems.

**Courses:** OP42  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB182 BIOSCIENCE 1

This unit develops an understanding of normal human structures in relation to their functions at the cellular, tissue and organ levels. This is a foundation course in anatomy and physiology for nursing students. Topics covered include the following: the cell, tissues; systems of the body and their functions; surface anatomy and body topography; musculoskeletal adaptations; posture control and balance.

**Courses:** NS40, NS48

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► LSB231 PHYSIOLOGY

This unit covers the general physiological principles such as homeostasis and how all systems in the body contribute to it. Topics include cells, transport processes, cardiovascular system, cardiac electrical activity, cardiac output, regulation of blood pressure, respiratory system, endocrine system, pulmonary ventilation and its function.

**Courses:** HL40, HM42, HM45, IF62, IX04  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB235 ADVANCED ANATOMY

An in-depth study of the systematic and regional anatomy of the lower limb is undertaken with particular emphasis on osteology, arthrology, musculature, angiology and neurology.

**Courses:** HL43, HM42, PU43  
**Prerequisites:** LSB131  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB238 CELL AND MOLECULAR BIOLOGY I

This unit provides an introduction at the cellular level to essential physiological and metabolic requirements fundamental to life processes. It concentrates on basic cell biology concepts building from the simple levels of cell components and organelles to more complex concepts of organisation and expression of the genome, the cytoskeleton and extracellular matrix structures, information transduction, cell-cell interactions and cell specialisation.

**Courses:** ED50, LS37, LS50, SC01  
**Corequisites:** LSB118  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB245 ANATOMY 2 AND INTRODUCTORY PATHOLOGY

This unit of human anatomy is partly an extension of LSB145 and includes a study of the cardiovascular system, lymphatic system, respiratory system, digestive system, renal system, nervous system, eye, ear, endocrine system and the reproductive systems. It also includes a study of the application of scientific methods to the study of the general principles of disease processes and the major diseases of organ system.

**Courses:** PH38 **Prerequisites:** LSB145  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB250 HUMAN PHYSIOLOGY

Topics examined in this unit include the following: basic mechanisms cells, fluids, electrolytes; energy metabolism; nutrients; transport mechanisms; blood; communication and control; excitable tissues; control systems nervous and endocrine; maintenance systems gastrointestinal, cardiovascular, respiratory, renal; integrated mechanisms; sexual development; pregnancy; parturition; lactation; control of growth; food intake; organic metabolism; body temperature; ECF osmolality and volume; blood pressure and flow; respiration; response to tissue damage; adaptation to stress. This unit includes a practical program of two hours per week.

**Courses:** LS37, OP42  
**Prerequisites:** LSB150 or LSB152  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB255 HUMAN ANATOMY

The medically oriented biological scientist requires a detailed understanding and knowledge of human anatomy. This unit exposes the student to the theoretical and practical facets of both microscopic and macroscopic anatomy of the human body with the emphasis on the microscopic anatomy.

**Courses:** LS37, PU40, PU43  
**Prerequisites:** LSB118 (LS37 students only)  
**Corequisites:** LSB250 (LS37 students only)  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB258 PRINCIPLES OF HUMAN PHYSIOLOGY

The aim of this unit is to provide a grounding in the principles of human physiology. Following

an introduction to the organisation of tissues, each of the major systems that constitute the human body is introduced by the integrated study of their structure and function.

**Courses:** LS50, SC01  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB275 BIOMOLECULAR SCIENCE

This unit addresses the structures and functions of proteins, carbohydrates, lipids and nucleic acids, basic enzymology, mechanisms of cellular energy production and the role of ATP. Study includes the metabolism of carbohydrates, lipids and amino acids and the fundamentals of protein biosynthesis and molecular biology.

**Courses:** OP42, PU40  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB282 BIOSCIENCE 2

This unit includes the introduction to diseases, infections and treatments and the body defence systems and control of infection. It considers in depth the respiratory and cardiovascular systems and diseases which affect these systems.

**Courses:** NS40, NS48  
**Prerequisites:** LSB182 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB308 BIOCHEMISTRY

This unit includes the following: the basic biochemistry of amino acids, peptides and proteins, carbohydrates and nucleic acids; lipid biochemistry and membrane function; basic enzymology; energy production in cells, high energy molecules, thermodynamics and bioenergetics.

**Courses:** ED50, IF29, IF34, IF39, IF71, IF87, IX02, IX14, SC01, SC30  
**Prerequisites:** PCB242, LSB238  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB309 INTRODUCTION TO INTELLECTUAL PROPERTY LAW

Intellectual property protection is undoubtedly of paramount importance in the research, development and commercialisation of emerging technologies. Managers and researchers need to be aware of the different types of property that can be protected and how the property needs to be protected. There have also been significant developments in the field of intellectual property law in recent years. The concepts taught in Introduction to Intellectual Property Law are of significant relevance to persons intending to practice in the emerging fields of science.

**Courses:** LS50  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB321 SYSTEMATIC PATHOLOGY

This unit includes the applications of general pathology to the study of diseases of the organ systems: cardiovascular, respiratory, alimentary, urogenital, nervous, musculoskeletal, endocrine, haematologic and skin.

**Courses:** PH38 **Prerequisites:** LSB221  
**Contact hours:** 3 per week **Credit points:** 8  
**Campus:** GP **Sem:** 1

#### ► LSB325 BIOCHEMISTRY

The study of cell biology and biochemistry, along with anatomy and physiology, provides the students with the knowledge required for the proper understanding of the functioning of the human body and its organ systems in health and disease, as a preparation for their clinical studies.

**Courses:** LS37, LS50  
**Prerequisites:** PCB242 **Corequisites:** LSB338  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB328 MICROBIOLOGY 1

This is an introductory core unit in microbiology dealing with aspects of microbial diversity, ecology, classification and taxonomy, structure and function, nutrition and metabolism, growth and reproduction, genetics, control and host-microbe interactions.

**Courses:** LS37, LS50, SC01  
**Prerequisites:** LSB118, PCB242  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB338 CELL AND MOLECULAR BIOLOGY 2**

This continues and expands on the topics introduced in LSB238 Cell and Molecular Biology 1. This unit integrates gene structure and the architecture and organisation of eukaryote chromosomes with the basic cellular processes associated with gene expression, mutation, DNA repair, replication and recombination from a molecular genetic perspective. The molecular mechanisms that underlie cell communication, cell cycle control, cell proliferation and cell death, and the integration of these processes in functional tissues are also explored.

**Courses:** LS37, LS50, SC01

**Prerequisites:** LSB238

**Corequisites:** SC01: LSB308; LS37, LS50: LSB325

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB345 REGIONAL & IMAGING ANATOMY 1**

This unit focuses on the regional anatomy of the head, neck, upper limb, lower limb and the anatomy of the structures of the above regions which are visualised by medical imaging modalities.

**Courses:** PH38, PH90

**Prerequisites:** LSB145, LSB245

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB358 PHYSIOLOGY 1**

The aim of this unit is to provide a thorough examination of the functional organisation of the human body. The subject provides a useful frame of reference for students enrolled in courses such as biology, biochemistry, microbiology, molecular biology, nutrition and human movements. The subject is offered in conjunction with LSB458 which runs in second semester and as a prelude to the third level subjects, Advanced Physiology [LSB558] and Clinical Physiology [LSB658].

**Courses:** SC01, PU40, PU43, HM42, ED50  
**Prerequisites:** LSB131 or LSB142 or LSB258 or NRB270

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB365 PATHOLOGY**

Pathology introduces students to the study of the disease processes underlying the major diseases of human organ systems. General disease processes of the major specific diseases of the organ systems are introduced, and then become the focus in systematic pathology. An understanding of general and systematic pathology is fundamental to the application of basic biomedical knowledge to clinically relevant states and the major diseases. This unit provides students with the foundation knowledge needed for subsequent clinical semesters. On completion of this unit, students should know, understand and be able to apply facts, concepts and terms related to disease processes and the major diseases occurring in the organ systems.

**Courses:** LS37

**Prerequisites:** LSB250, LSB255

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB367 PATHOLOGY**

This unit is an external unit designed to run online to meet the requirements of the students in the course who are located throughout Queensland. Pathology has a central role in most health related courses. A sound understanding of pathology is essential for the informed assessment and management of emergency patients. The unit has two main sections. The first section deals with general pathology principles (eg homeostasis, adaptation and defence, principles of diagnosis, environment and pathology, and neoplasia, circulatory disorders). The second section involves application of the general principles of pathology to major diseases and dysfunctions of each of the organ systems of the body.

**Courses:** PU40

**Prerequisites:** Anatomy & Physiology units  
**Credit points:** 12

**Incompatible with:** LSB321, LSB361, LSB475  
**Sem:** 1

**► LSB382 BIOSCIENCE 3**

Topics covered in this third Bioscience unit include the following: the physiology, pathophysiology and diseases (including infectious diseases) of the nervous, reproductive, gastrointestinal and renal system; diabetes; diseases of joints; obesity and its effects on the body; physiological demands of exercise.

**Courses:** NS40, NS48 **Prerequisites:** LSB282

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB397 PLANT PHYSIOLOGY**

This unit provides a comprehensive overview of how plants grow and respond to the environment, based on mechanisms involving cellular and molecular events. Topics more or less follow the life history of the plant, and include the following: seed germination and the mobilisation of seed reserves; water and mineral-nutrient uptake; photosynthesis; responses to stresses (including water deficit, excess light, attacks by pests and pathogens); synthesis of unique chemicals; development of flowers and fruits. This is a foundation unit for continuation into plant biotechnology and ecology areas.

**Courses:** ED50, LS50, SC01

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB408 METABOLISM**

This unit addresses the following: the basic pathways of metabolism of the major nutrient groups in mammals, including carbohydrates, lipids and amino acids; electron transport and oxidative phosphorylation; metabolic control mechanisms in relation to nutrient status, energy demand and the integration of specialised tissue functions.

**Courses:** ED50, SC01 **Prerequisites:** LSB308

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB409 READINGS IN BIOTECHNOLOGY**

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world commercial biotechnology. In this unit, students adopt a team approach to developing and designing a research project to be undertaken in LSB709 Biotechnology Research Project. Students explore the roles of teams in assigning, performing and reporting on tasks related to the preliminary literature search and project inception, design, management and feasibility. Academic and industry mentors guide student teams through the preliminary stages of project conceptualisation and monitor progress of team activities.

**Courses:** LS50

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► LSB415 MICROBIOLOGY**

This unit includes a course of lectures and practicals for the health professions which covers selected topics in clinical and environmental microbiology. This unit covers microbiological terminology, classification of micro-organisms, diseases caused by micro-organisms, collection and manipulation of microbiological samples, public health concerns relating to micro-organisms and report writing skills applying microbiological knowledge.

**Courses:** PU40, PU43

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB425 QUANTITATIVE MEDICAL SCIENCE**

This unit integrates physics, chemistry, biochemistry, maths and statistics for applications to chemical analysis, as preparation to clinical biochemistry.

**Courses:** LS37

**Prerequisites:** LSB325, LSB338, MAB141

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB428 MICROBIOLOGY 2**

This unit provides an extension of the core unit in microbiology dealing with further aspects of microbial diversity, ecology, classification and taxonomy with emphasis on human pathogens,

action of and resistance to antimicrobial chemicals, microbial mechanisms of pathogenicity, microbial molecular biology and gene expression, microbial genomics, industrial microbiology/biocatalysts, food borne pathogens and spoilers, examples of the industrial importance of microbes, and safe manipulation of pathogenic microbes.

**Courses:** SC01

**Prerequisites:** LSB328  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB435 DIAGNOSTIC MICROBIOLOGY 1**

This unit builds upon foundation topics in Microbiology 1 and starts preparing the student for a career in a routine diagnostic microbiology laboratory. The overall theme is the diagnosis of human infectious diseases with bacteriology and parasitology the two key focus areas. This unit emphasises a strong commitment to professional practice by developing high level generic and specific skills. Specific lecture and laboratory class discussion points include the following (where relevant): life cycles; pathogen acquisition; infectious disease diagnosis pathways; classification systems; clinical presentations; diagnostic protocols and patient management. Students are encouraged to think critically and to discuss issues in an interactive and supportive learning environment.

**Courses:** LS37

**Prerequisites:** LSB328  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB438 IMMUNOLOGY 1**

The mechanisms of the immune process including the nature of antigens, antibodies, antigen-antibody reactions, antibody formation, control of the humoral and cell-mediated immune responses, and immunisation of humans against infections are addressed in this unit.

**Courses:** LS37, SC01

**Prerequisites:** LSB328, LSB358

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB445 REGIONAL & IMAGING ANATOMY 2**

This unit focuses on the regional anatomy of the back, thorax, abdomen and pelvic regions and the anatomy of the structures of the above regions that are visualised by medical imaging modalities.

**Courses:** PH38, PH90

**Prerequisites:** LSB145, LSB245, LSB345

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB449 HUMAN CELL BIOLOGY**

Human Cell Biology is a continuation and expansion of the topics introduced in LSB338 Cell and Molecular Biology 2. Human Cell Biology integrates the fundamental molecular events and interactions presented in earlier units, developing and extending the context of cells in their environment and how they interact and integrate within the organism to provide all of the biological functions required by the organism to survive. Students develop an appreciation of the relationship between structure and function at the cellular level and gain an understanding of the defects that underlie common disease states including osteoporosis, diabetes, arthritis and cardiovascular disease.

**Courses:** LS50, SC01 **Prerequisites:** LSB338

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► LSB451 HUMAN PHYSIOLOGY**

This unit involves a course of lectures and practicals, similar to LSB250.

**Courses:** PU43

**Prerequisites:** LSB131  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► LSB458 PHYSIOLOGY 2**

The aim of this unit is to provide a thorough examination of the functional organisation of the human body. The subject provides a useful frame of reference for students enrolled in courses such as biology, biochemistry, microbiology, molecular biology, nutrition and human movements. The subject is offered in conjunction with LSB358

which runs in first semester and as a prelude to the third level subjects, LSB558 and LSB658.

**Courses:** ED50, HM42, PU40, PU43, SC01

**Prerequisites:** LSB131 or LSB142 or LSB258 or NRB270

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB465 HISTOPATHOLOGY 1

Histopathology and cytology are essential components of pathological diagnosis and major clinical disciplines in Medical Laboratory Science. The unit aims to impart a working knowledge of basic techniques used in clinical histopathology and research histology laboratories and the techniques involved in the current practice of diagnostic cytology.

**Courses:** LS37

**Prerequisites:** LSB255, LSB365, PCB243

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB467 PATHOPHYSIOLOGY

This unit is an external unit designed to run online to meet the requirements of students located throughout Queensland. Students are guided into the study of pathophysiology of the major body systems, leading to an understanding of the rationale for diagnostic investigations and treatments of these disorders. The unit is based on case histories and utilises a 'problem based model' approach. Topics covered include the physiological basis of pathogenesis, clinical features and treatment of major disorders of body systems, focusing on the cardiovascular, respiratory, blood, renal, nervous, gastro-intestinal, and endocrine systems. A variety of assessments are used during the semester to reinforce the understanding of the topics.

**Courses:** PU40

**Prerequisites:** Anatomy and Physiology units

**Credit points:** 12 **Incompatible with:** LSB658  
**Campus:** GP **Sem:** 2

#### ► LSB468 MOLECULAR BIOLOGY

This unit introduces techniques for the isolation, purification and genetic engineering of nucleic acids. It includes procedures for gene detection and analysis, gene isolation, cloning, amplification, library construction and screening.

**Courses:** LS50, SC01

**Prerequisites:** LSB238, LSB308

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► LSB475 DISEASE PROCESSES 4

This unit includes the principles of the study of disease dealing with the causes and nature of circulation disorders, degenerative processes, metabolic and nutritional disorders, disturbances of development and growth, inflammation, infections and infestations, regeneration and repair, and neoplasia. The unit includes the applications of general pathology to the study of diseases of the heart and circulatory system, digestive system, respiratory system, urogenital system, endocrine system, nervous system, haematological system and skin.

**Courses:** PU43

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB480 PROFESSIONAL PRACTICE

This unit introduces students to the pathology laboratory workplace. The student undertakes a four week work experience program in a city or country pathology laboratory during the summer vacation between semesters 4 and 5 of the full-time course and between semesters 8 and 12 of the part-time course.

**Courses:** LS37

**Corequisites:** LSB400, LSB410, LSB430, LSB450, LSB460

**Campus:** GP **Sem:** 2

#### ► LSB492 MICROBIOLOGY

This is an introductory core unit of microbiology for students of optometry and podiatry with an introduction to micro-organisms, control of microbial populations and clinical conditions relevant to optometry and podiatry.

**Courses:** OP42

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB497 PLANT MOLECULAR BIOLOGY

This is an intermediate level unit that complements and extends the knowledge and skills obtained in the core biotechnology units to provide a basis for those intending to undertake more advanced plant biotechnology units. This unit integrates the fundamentals of plant molecular biology, plant biochemistry and plant cell culture to teach the molecular basis of plant development. Topics covered include the following: basic plant molecular biology; the genetic basis of control of plant development; cell signalling in plants; model systems for studying gene function; plant genome maps; manipulation of plants in vitro; plant responses to biotic and abiotic stress.

**Courses:** LS50, SC01

**Prerequisites:** LSB338 **Corequisites:** LSB468

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB508 ADVANCED METABOLISM

Detailed information is provided in this unit on the catabolic and anabolic pathways for the major molecules in mammalian systems. Important aspects of non-mammalian metabolism are described. Advanced concepts in bioenergetics and thermodynamics are described in the context of cellular metabolism. Integration of metabolism including production of mixed conjugates of biological significance such as amino-sugars and lipopolysaccharides, and hormonal regulation of metabolism are included.

**Courses:** SC01

**Prerequisites:** LSB408

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB509 MEDICAL BIOTECHNOLOGY

Students undertaking Medical Biotechnology should have a thorough understanding of diagnostics and therapeutics in the commercial environment of biotechnology. LSB509 aims to increase the students' understanding of molecular and cellular-based diagnostics and their use in genetic or biochemical mapping and identification of target genes, disease risks and traits, infectious diseases, identity testing and other forms of investigative analyses.

**Courses:** LS50, SC01 **Prerequisites:** LSB468

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB525 CLINICAL BIOCHEMISTRY 1

This course of study (along with LSB625 Clinical Biochemistry 2) provides the graduating scientists with sufficient biochemical knowledge and laboratory experience to work effectively in both the smaller general-purpose laboratory performing a limited number of biochemical tests and the larger specialised laboratory performing in-depth studies of all aspects of clinical biochemistry.

**Courses:** LS37

**Prerequisites:** LSB425

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB527 BIOMEDICAL RESEARCH TECHNOLOGIES

This unit complements the study of nucleic acid based research and diagnostic technologies studied in LSB598, by providing an understanding of the methodology and application of those protein based technologies that are important in biomedical research and diagnostic investigations.

**Courses:** SC01

**Prerequisites:** LSB308

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB528 ENVIRONMENTAL MICROBIOLOGY

This unit is designed to provide students with an understanding of how the microbial world interacts with the environment. Topics covered include the following: microbial ecosystems; symbiotic relationships (plants and microbes, animals and microbes); an introduction to biogeochemical cycles including microbial transformations (carbon cycles, methanogenesis, nitrogen cycle, sulphur cycles); plant and soil microbiology; water microbiology; bioaerosols; bioremediation of polluted environments.

**Courses:** SC01

**Prerequisites:** LSB428

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LSB535 MICROBIAL IMMUNOLOGY

This unit builds on the concepts developed in Immunology 1 to introduce students to the life cycles of a variety of pathogens, particularly viruses, and the mechanisms employed by a host to avoid infection.

**Courses:** LS37, SC01 **Prerequisites:** LSB438

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB537 GENETIC ENGINEERING

Genetic Engineering aims to impart an understanding of the manipulative skills involved in experiments aimed at recombining DNA molecules and an understanding of the analytical skills required in characterising target DNA molecules using the global online genetic databases. Genetic Engineering and its prerequisite LSB468 together encompass all of the theoretical background and manual skills required by graduates to perform basic nucleic acid manipulations and to undertake investigative analysis using online and local facilities in clinical and research laboratories.

**Courses:** LS50, LS70, LS80, SC01

**Prerequisites:** LSB468

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB547 BACTERIAL PATHOGENESIS AND DISEASE DIAGNOSIS

This advanced level unit provides a comprehensive examination of those bacterial pathogens that are associated with human disease from both a cellular and a molecular perspective, an essential starting point for a better understanding of infectious disease pathogenesis. The key role of the clinical bacteriologist and clinical laboratory protocols is also presented and critically discussed with respect to bacterial pathogen laboratory diagnosis (ie specimen management, pathogen isolation and identification) and antimicrobial therapies. Students are encouraged to think critically and to discuss issues in an interactive and supportive teaching and learning environment.

**Courses:** SC01

**Prerequisites:** LSB428

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB555 HAEMATOLOGY 1

This unit introduces the discipline of haematology and the routine procedures performed in the haematology section of a pathology department, and introduces the concepts of anaemia and its investigation. This unit provides a detailed understanding of the common erythrocyte disorders. Diagnostic procedures, aetiology, pathophysiology, clinical manifestations and treatment of each disorder are included.

**Courses:** LS37

**Prerequisites:** LSB325, LSB365, LSB465

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB558 ADVANCED PHYSIOLOGY

This unit is divided into 2 areas: a lecture course on recent advances in physiological knowledge and a practical component that introduces experimental design. Using an emphasis on current research developments, selected physiological areas including the cardiovascular and neurological systems, are considered in depth to extend prior knowledge of physiology. The practical course introduces aspects essential for the correct design of scientific experiments.

**Courses:** SC01

**Prerequisites:** LSB358, LSB458

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LSB565 HISTOPATHOLOGY 2

Histopathology is an essential component of pathology and one of the major clinical disciplines in Medical Laboratory Science. Students are introduced to advanced techniques and methods of handling histopathological specimens. Students acquire sufficient scientific and technical expertise to enable them to carry out and to understand a range of techniques used routinely in clinical histopathology and histology research laboratories.

**Courses:** LS37

**Prerequisites:** LSB255, LSB365, LSB465

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► LSB568 ELECTRON MICROSCOPY

This unit provides the following: a theoretical and practical background to the operation and use of scanning and transmission electron microscopes in biological science; basic principles of specimen preparation with emphasis on methods complementary to biology, microbiology and molecular biology; analytical capabilities of electron beam instruments; other advanced imaging instrumentation.

**Courses:** SC01

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► LSB577 PLANT BIOTECHNOLOGY 1

The potential of plant biotechnology can be recognised only as a result of the significant advances being made in technologies enabling the genetic manipulation of plants. Familiarity with the strategies, techniques and breadth of applications is essential as a basis for anyone planning a career in plant biotechnology. In this unit, students are presented with an integrated picture of the current technology and applications used for the genetic manipulation of plants (including advanced cell and tissue culture and transformation technologies). The unit is designed with a significant emphasis on achieving technical expertise and to provide a basis for the more advanced applications presented in Plant Biotechnology II.

**Courses:** LS50, LS70, SC01

**Prerequisites:** LSB468 **Corequisites:** LSB537

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► LSB578 VIROLOGY

Lectures and practical classes are designed to introduce students to the basic concepts of virology. A range of viruses and virus diseases are examined and topics include viral morphology and composition, taxonomy and classification, replication, purification, diagnosis and assay, transmission and control.

**Courses:** SC01

**Prerequisites:** LSB328, LSB468

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► LSB605 PROTEIN ENGINEERING AND BIOPROCESSING

The ultimate goal of most biotechnology processes is the production of a viable organism or functional protein. This unit deals with the factors that determine success in achieving these goals. It builds on information delivered in Molecular Biology, Genetic Engineering and Genomics, defining the special considerations that apply to different expression systems and the unique difficulties of scale-up procedures for commercial development.

**Courses:** LS50, SC01

**Prerequisites:** LSB308 **Corequisites:** LSB468

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB607 PROTEIN PURIFICATION

This is an advanced biochemistry unit to prepare students for research careers. A series of critical thinking workshops and closely supervised group practical projects create a problem-based learning environment which is used to refine and evaluate generic capabilities of critical thinking, project management, information literacy and communication.

**Courses:** LS70, SC01 **Prerequisites:** LSB308

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB608 PROTEIN SCIENCE

This unit includes lectures, tutorials and practicals dealing with properties and analyses of proteins. Students gain knowledge and experience of the forces that determine protein structure, and an understanding of the techniques for analysing and altering protein properties. Discussions include methods of sequence analysis, algorithms for structure prediction, design and construction of

synthetic proteins, and evolution and significance of structural motifs.

**Courses:** SC01

**Prerequisites:** LSB308

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB609 MEDICAL BIOTECHNOLOGY 2

In this unit, students gain a thorough understanding of diagnostics and therapeutics in the commercial environment of biotechnology. LSB609 aims to increase the students' understanding of cell-based strategies, approaches and applications used as therapeutic interventions in medicine. The unit focuses on current, state-of-the-art and emerging technologies and applications within biotechnology as directed to novel therapeutic discovery, design, development and delivery of clinical therapeutic strategies including tissue transplantation and regeneration, cellular therapies, genetic therapies, immunotherapies, clinical, ethical and regulatory affairs.

**Courses:** LS50, SC01 **Prerequisites:** LSB509

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB619 GENOMICS & BIOINFORMATICS

The completion of the Human Genome project, along with similar projects on other eukaryote organisms, marks the beginning of a major revolution in fundamental biology that will, ultimately, reach into all corners of human life. Students undertaking any careers associated with the biotechnology, whether it be scientific investigation or related to the business or legal aspects of biotechnology require an understanding of eukaryote genome structure and function, and approaches to analysis of genome structure that are addressed here.

**Courses:** LS50, LS70, LS80, SC01

**Prerequisites:** LSB537

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB625 CLINICAL BIOCHEMISTRY 2

This course of study (along with LSB525) provides the graduating scientists with sufficient biochemical knowledge and laboratory experience to work effectively in both the smaller general-purpose laboratory performing a limited number of biochemical tests and the larger specialised laboratory performing in-depth studies of all aspects of clinical biochemistry.

**Courses:** LS37

**Prerequisites:** LSB525

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB628 FOOD MICROBIOLOGY

This unit covers the most significant areas of food microbiology at an advanced level. Topics include the following: aspects of microbial ecology of foods; microbial spoilage and preservation; micro-organisms of public health significance; food fermentations; predictive microbiology; the isolation and identification of microbes often present in foods. A professional attitude towards work in a microbiology laboratory and an awareness of the dangers of working with pathogenic cultures are established.

**Courses:** SC01

**Prerequisites:** LSB428

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB635 DIAGNOSTIC MICROBIOLOGY 2

This advanced level unit completes the preparation of the student for a career in a routine diagnostic microbiology laboratory by building upon foundation topics covered in LSB435. The overall theme is human infectious disease diagnosis with bacteriology, mycology and parasitology the three key focus areas. This unit continues a strong commitment to professional practice by developing high level generic and specific skills. Specific discussion points include the following (where relevant): life cycles, pathogen acquisition, infectious disease diagnosis pathways, classification systems, clinical presentations, diagnostic protocols and patient management. Students are encouraged to think critically and to discuss issues in an interactive and supportive learning environment.

**Courses:** LS37

**Prerequisites:** LSB435, LSB535

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB647 CLINICAL MYCOLOGY AND PARASITOLOGY

This is a third year unit in microbiology considering aspects of fungal taxonomy, classification of clinical mycoses, collection of material for fungal isolation, and identification of superficial, subcutaneous, systemic and opportunistic mycoses. Parasitology includes a systematic study of identification, life history, incidence, modes of infection, epidemiology and control of parasite infections in humans.

**Courses:** SC01

**Prerequisites:** LSB428

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB648 MOLECULAR MICROBIOLOGY

This advanced level unit engages closely with the most recent advances in microbial genomics, bioinformatics, molecular biology, evolutionary history, genetic analysis and pathogenic processes. It is designed for students who are interested in research in these areas or who wish to be involved in the introduction of new technologies into the practice of analytical microbiology.

**Courses:** SC01

**Prerequisites:** LSB428

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB655 HAEMATOLOGY 2

The aim of the unit is to provide students with a detailed understanding of the common leucocyte and haemostatic disorders. This unit provides a detailed insight into the common leucocyte and coagulation disorders investigated by the haematology laboratory, and reinforces knowledge acquired in the previous haematology units. The focus shifts from red cells in LSB555 to white cells here. Diagnostic procedures, aetiology, pathophysiology, clinical manifestations and treatment of each disorder are included in the discussion of the disorders. This unit, along with a previous unit LSB555, prepares students for work in a haematology laboratory as a diagnostic scientist.

**Courses:** LS37

**Prerequisites:** LSB555

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB657 PERSPECTIVES IN LIFE SCIENCE

Positive and negative aspects of humanity's utilisation of resources are critically analysed in this unit. Topics include the following: humanity's food supply; humanity's profligate consumption of energy; global climate change; losses of soils, ecosystems and species; contemporary aspects of biotechnology such as the GM food debate and ethical aspects of medical and corporate biotechnology.

**Courses:** ED50, SC01

**Prerequisites:** LSB118

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB658 CLINICAL PHYSIOLOGY

In this unit, students explore the physiological basis, pathogenesis, clinical features and treatment rationale of the major disorders of the cardiovascular, respiratory, haematological, renal, gastrointestinal, nervous and endocrine systems. One of the objectives of the unit is to develop critical thinking and apply this to the discussion of pathophysiological cases.

**Courses:** SC01

**Prerequisites:** LSB358, LSB458

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB665 IMMUNOHAEMATOLOGY

This course is designed to provide students with an understanding of the antigens, immune mechanisms and clinical factors involved in blood transfusion and tissue transplantation.

**Courses:** LS37

**Prerequisites:** LSB438, LSB535, LSB555

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► LSB677 PLANT BIOTECHNOLOGY 2

This unit expands on topics introduced in earlier units and addresses the more advanced and more specialised areas of plant molecular biology and

biotechnology. The unit is designed to give students an insight into the scope and future potential of plant biotechnology and includes the following topics: advanced applications of transgenic plants; functional genomics and gene discovery; specific genes and gene families; molecular markers and mapping; gene silencing.

**Courses:** LS50, LS70, SC01

**Prerequisites:** LSB577

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB684 FORENSIC DNA PROFILING

The unit covers the evolution of DNA typing from restriction fragment length polymorphism (RFLP) DNA 'fingerprinting' to short tandem repeat (STR) analysis. It includes using multiplex PCR-based systems for human identification, the principles of single nucleotide polymorphism (SNP) technology, mitochondrial DNA analysis, and future trends for forensic DNA analysis.

**Courses:** SC01

**Prerequisites:** LSB338

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LSB709-1 BIOTECHNOLOGY RESEARCH PROJECT

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world biotechnology. This unit involves a small team research project based on the R and D proposal developed in LSB409 Readings in Biotechnology. The unit guides student teams through the research process from the experimentation to the writing of an assessment of the project under the guidance of academic and industry mentors. (36 credit points achieved at completion of LSB709-1, LSB709-2 and LSB709-3.)

**Courses:** LS50

**Credit points:** 12

**Campus:** GP **Sem:** 1, 2, 3

#### ► LSB709-2 BIOTECHNOLOGY RESEARCH PROJECT

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world biotechnology. This unit involves a small team research project based on the R and D proposal developed in LSB409 Readings in Biotechnology. The unit guides student teams through the research process from the experimentation to the writing of an assessment of the project under the guidance of academic and industry mentors. (36 credit points achieved at completion of LSB709-1, LSB709-2 and LSB709-3.)

**Courses:** LS50

**Credit points:** 12

**Campus:** GP **Sem:** 1, 2, 3

#### ► LSB709-3 BIOTECHNOLOGY RESEARCH PROJECT

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world biotechnology. This unit involves a small team research project based on the R and D proposal developed in LSB409 Readings in Biotechnology. The unit guides student teams through the research process from the experimentation to the writing of an assessment of the project under the guidance of academic and industry mentors. (36 credit points achieved at completion of LSB709-1, LSB709-2 and LSB709-3.)

**Courses:** LS50

**Credit points:** 12

**Campus:** GP **Sem:** 1, 2, 3

#### ► LSB850-1 RESEARCH STRATEGIES

Preparation for a career in research must include additional training and experience in cross-disciplinary and extra-disciplinary skills and strategies that build upon and enhance the student's undergraduate foundation. Key aims of this unit are to foster the intellectual skills necessary to appreciate the scientific, commercial, social and ethical implications of research, to assist in evaluating useful and pragmatic options in a research career, and to help the student communicate research ideas and outcomes effectively and articulately. Seminars and workshops conducted by staff internal and external to the School of Life Sciences specifically address these aims. (12 credit points achieved at completion of LSB850-1 and LSB850-2.)

**Courses:** SC60

**Credit points:** 6

**Campus:** GP

**Sem:** 1, 2

#### ► LSB850-2 RESEARCH STRATEGIES

Preparation for a career in research must include additional training and experience in cross-disciplinary and extra-disciplinary skills and strategies that build upon and enhance the student's undergraduate foundation. Key aims of this unit are to foster the intellectual skills necessary to appreciate the scientific, commercial, social and ethical implications of research, to assist in evaluating useful and pragmatic options in a research career, and to help the student communicate research ideas and outcomes effectively and articulately. Seminars and workshops conducted by staff internal and external to the School of Life Sciences specifically address these aims. (12 credit points achieved at completion of LSB850-1 and LSB850-2.)

**Courses:** SC60

**Credit points:** 6

**Campus:** GP

**Sem:** 1, 2

#### ► LSB851-1 READINGS IN LIFE SCIENCE 1

This unit includes the preparation of a literature review of direct and associated relevance to the Honours research project under the guidance of the supervisor(s). This unit includes the presentation of a grant proposal demonstrating a considerable knowledge, understanding and appreciation of the literature as well as a critical appraisal of future research requirements. (24 credit points achieved at completion of LSB851-1 and LSB851-2.)

**Courses:** SC60

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► LSB851-2 READINGS IN LIFE SCIENCE 1

This unit involves the preparation of a literature review of direct and associated relevance to the Honours research project under the guidance of the supervisor(s). It includes the presentation of a paper critique demonstrating a considerable knowledge, understanding and appreciation of the literature as well as a critical appraisal of future research requirements. (24 credit points achieved at completion of LSB851-1 and LSB851-2.)

**Courses:** SC60

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► LSB852-1 PROJECT

This unit includes the preparation of a paper reporting the methods and results of investigations in the Honours research projects. The paper also includes an introduction, analysis and discussion of the project in a style and length deemed to be appropriate by the Unit Coordinator. Students should relate this project work to published work already undertaken in the field. (60 credit points achieved at completion of LSB852-1 and LSB852-2.)

**Courses:** SC60

**Credit points:** 30

**Campus:** GP

**Sem:** 1, 2

#### ► LSB852-2 PROJECT

See LSB852-1 for details.

**Courses:** SC60

**Credit points:** 30

**Campus:** GP

**Sem:** 1, 2

#### ► LSN009 READINGS IN LIFE SCIENCE 4

This unit includes a review of literature related to a potential research topic determined in consultation with the supervisor. The area can be associated with the research project topic and can be broadly or narrowly focused but should not include any significant material covered in LSN013. The review should cover the background to the area as well as recent advances and identify deficiencies and possible future research directions. The review should be a critical analysis of the area. Reviews should normally be approximately 5,000 - 10,000 words.

**Courses:** SC80

**Contact hours:** 1 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LSN011 RESEARCH SEMINARS IN LIFE SCIENCE 1

This unit includes a formal seminar to include an oral presentation (25 minutes) and question period (5-10 minutes). The presentation provides a comprehensive and informative critique of a specific topic and outlines the planned research

program, where applicable. Prescriptive guidelines and submission deadlines must be followed in this regard. The chosen topic will be in an area selected by the student in consultation with their supervisor(s) and the postgraduate coursework coordinator. This unit complements LSN013.

**Courses:** IF49, SC80

**Credit points:** 6

**Campus:** GP

**Sem:** 1, 2

#### ► LSN013 READINGS IN LIFE SCIENCE 3

This unit includes a comprehensive and critical review of the background and current literature directly related to a potential research topic. The review should identify major and minor deficiencies in the research literature and identify possible directions for future research. The review should be between 5,000 - 10,000 words and at least one draft should be presented to the supervisor prior to final submission.

**Courses:** IF49, SC80

**Credit points:** 24

**Campus:** GP

**Sem:** 1, 2

#### ► LSN023 RESEARCH SEMINARS IN LIFE SCIENCE 3

This unit includes a formal seminar to include an oral presentation (45-50 minutes) and question period (5-10 minutes) presenting a critical and in-depth analysis of the results of the postgraduate research program as well as possible future research directions in the area. Prescriptive guidelines and submission deadlines must be followed in this regard.

**Courses:** IF49, SC80

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► LSN102 CELLULAR BASIS OF DISEASE

This unit includes the following: cell injury and stress mechanisms; cellular communication; the responses of organelles, cells and tissues to injury and stress including immune, inflammation, thrombosis, ageing and neoplastic responses; transplantation and regeneration.

**Courses:** LS70, LS80

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LSN160 EPIDEMIOLOGY FOR LIFE SCIENTISTS

This unit aims to enable students to acquire knowledge and develop critical thinking in epidemiological research. Topics covered include the following: general principles of epidemiology; rates and ratios, standardisation; types of studies; ethical issues in study design and conduct; statistics as related to epidemiology; criteria for causal relationship; principles of screening tests; epidemiology of infectious diseases. Information is presented in informal interlinked lectures and tutorials. Epidemiological exercises are discussed. Students develop skills in using statistical capabilities in Excel.

**Courses:** LS70, LS80

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LSN220 SURGICAL ANATOMY

This unit promotes advanced understanding of the anatomical terminology used by pathologists. The basic techniques for examining the cellular structure of the human body already acquired at work and in undergraduate study are extended to provide a more detailed knowledge of the structure and organisation of the normal human body at the levels of cells, tissues, organs and organ systems.

**Courses:** LS90

**Prerequisites:** UG Anatomy, Histology

**Corequisites:** Surgical Grossing, Pathology

**Contact hours:** 5 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 3

#### ► LSN221-1 PATHOLOGY

Pathology encompasses the study of disease processes underlying the major diseases of human organ systems. General disease processes of the major specific diseases of the organ systems are introduced, and then become the focus in systematic pathology. An understanding of general and systematic pathology is fundamental to the application of basic biomedical knowledge to clinically relevant states and the major diseases. On completion of this unit, students should know, understand and be able to apply facts, concepts and terms related to disease processes

and the major diseases occurring in the organ systems. (24 credit points achieved at completion of LSN221-1 and LSN221-2.)

**Courses:** LS90

**Prerequisites:** UG Human Anatomy, Pathology & Histopathology

**Corequisites:** LSN220

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LSN221-2 PATHOLOGY

Pathology encompasses the study of disease processes underlying the major diseases of human organ systems. General disease processes of the major specific diseases of the organ systems are introduced, and then become the focus in systematic pathology. An understanding of general and systematic pathology is fundamental to the application of basic biomedical knowledge to clinically relevant states and the major diseases. On completion of this unit, students should know, understand and be able to apply facts, concepts and terms related to disease processes and the major diseases occurring in the organ systems. (24 credit points achieved at completion of LSN221-1 and LSN221-2.)

**Courses:** LS90

**Prerequisites:** UG Human Anatomy, Pathology & Histopathology

**Corequisites:** LSN220

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LSN223-1 SURGICAL GROSSING

This unit advances knowledge and skills in surgical grossing to levels encompassing simple and non-complex specimens. It provides an introduction to the handling of complex specimens, an introduction to molecular biology techniques, and practice in biomedical photography. The assessment in this unit promotes critical thinking, oral and written communications, teamwork, leadership and self reliance, and an awareness of the medico-legal and ethical issues associated with surgical grossing. (48 credit points achieved at completion of LSN223-1, LSN223-2, LSN223-3 and LSN223-4.)

**Courses:** LS90

**Prerequisites:** Undergraduate Human Anatomy, Histology & Pathology; work experience in a histology laboratory; currently working in an appropriate capacity in an accredited pathology laboratory.

**Corequisites:** LSN220, LSN221-1, LSN221-2

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 3

#### ► LSN223-2 SURGICAL GROSSING

This unit advances knowledge and skills in surgical grossing to levels encompassing simple and non-complex specimens. It provides an introduction to the handling of complex specimens, an introduction to molecular biology techniques, and practice in biomedical photography. The assessment in this unit promotes critical thinking, oral and written communications, teamwork, leadership and self reliance, and an awareness of the medico-legal and ethical issues associated with surgical grossing. (48 credit points achieved at completion of LSN223-1, LSN223-2, LSN223-3 and LSN223-4.)

**Courses:** LS90

**Prerequisites:** Undergraduate Human Anatomy, Histology & Pathology; work experience in a histology laboratory; currently working in an appropriate capacity in an accredited pathology laboratory.

**Corequisites:** LSN220, LSN221-1, LSN221-2

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LSN223-3 SURGICAL GROSSING

This unit advances knowledge and skills in surgical grossing to levels encompassing simple and non-complex specimens. It provides an introduction to the handling of complex specimens, an introduction to molecular biology techniques, and practice in biomedical photography. The assessment in this unit promotes critical thinking, oral and written communications, teamwork, leadership and self reliance, and an awareness of the medico-legal and ethical issues associated with surgical grossing. (48 credit points achieved at

completion of LSN223-1, LSN223-2, LSN223-3 and LSN223-4.)

**Courses:** LS90

**Prerequisites:** Undergraduate Human Anatomy, Histology & Pathology; work experience in a histology laboratory; currently working in an appropriate capacity in an accredited pathology laboratory.

**Corequisites:** LSN220, LSN221-1, LSN221-2

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LSN223-4 SURGICAL GROSSING

This unit advances knowledge and skills in surgical grossing to levels encompassing simple and non-complex specimens. It provides an introduction to the handling of complex specimens, an introduction to molecular biology techniques, and practice in biomedical photography. The assessment in this unit promotes critical thinking, oral and written communications, teamwork, leadership and self reliance, and an awareness of the medico-legal and ethical issues associated with surgical grossing. (48 credit points achieved at completion of LSN223-1, LSN223-2, LSN223-3 and LSN223-4.)

**Courses:** LS90

**Prerequisites:** Undergraduate Human Anatomy, Histology & Pathology; work experience in a histology laboratory; currently working in an appropriate capacity in an accredited pathology laboratory.

**Corequisites:** LSN220, LSN221-1, LSN221-2

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 3

#### ► LSN259 CARDIAC ANATOMY, EMBRYOLOGY AND PATHOLOGY

This unit is designed to provide students with a thorough understanding of the embryology, anatomy and pathology of the human heart. Topics include the following: embryological development of the human heart, fetal and neonatal circulation and physiology; maldevelopment of the human heart; detailed anatomy of the adult human heart; physiology of the adult human heart; basic cardiac pharmacology.

**Courses:** PH75, PH85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LSN710 PROJECT

This unit includes a Research Project conducted in an area selected by students in consultation with their supervisor(s) and the postgraduate coursework coordinator. The first part of the project involves compilation and writing of a critical Literature Review on the research topic, focusing on clarification of knowledge gaps and including an outline of the planned research to follow. The second and major part of the project is the supervised research itself. A Research Project Report will be written in a style to evaluate and critically discuss the data. Prescriptive guidelines and submission deadlines must be followed for both the Literature Review document and the Research Project Report.

**Courses:** LS80

**Contact hours:** 5 per week **Credit points:** 48

**Campus:** GP

**Sem:** 1, 2

#### ► LSN711 PROJECT 1

In this unit, a critical Literature Review is written on a topic selected by students in consultation with their supervisor(s) and the postgraduate coursework coordinator. This review focuses on clarification of knowledge gaps and, where applicable, provides an outline of the planned research to follow in LSN712 Project 2. Prescriptive guidelines and submission deadlines must be followed for the compilation and writing of the Literature Review document.

**Courses:** LS80

**Contact hours:** 5 per week **Credit points:** 24

**Campus:** GP

**Sem:** 1, 2

#### ► LSN712 PROJECT 2

In this unit, a Research Project conducted in an area selected by students in consultation with their supervisor(s) and the postgraduate coursework coordinator. This unit normally follows on from LSN711 Project 1. A Research Project Report will be written in a style to evaluate and critically discuss the data. Prescriptive guidelines and submission deadlines must be followed for

the compilation and writing of the Research Project Report.

**Courses:** LS80

**Campus:** GP

**Credit points:** 24

**Sem:** 1, 2

#### ► LSP127 BUSINESS ASPECTS OF BIOTECHNOLOGY

Supporting a successful biotechnology industry in Australia requires an entrepreneurial framework to be developed which assists the efforts of both researchers and innovators. This unit integrates the essential entrepreneurial techniques of launching a biotechnology business. The unit focus is upon the research and development of industrial products and commercialising innovations developed in this industry. On completion of this unit the student, will be able to identify and analyse entrepreneurial opportunities and evaluate these opportunities within biotechnology. The student will also have the ability to identify and comprehend the steps involved in setting up a new biotechnology enterprise.

**Courses:** LS70, LS80

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LWB136 CONTRACTS A

This unit includes the following: formation of contracts; equitable estoppel; privity of contract; formalities; express and implied terms; an examination of promises which are legally binding; how contractual promises may be characterised and the significance of that characterisation.

**Courses:** LW33, LW42, LW65, LW70, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB102, LWB132

**Campus:** GP, EXT

**Sem:** 1, 2

#### ► LWB137 CONTRACTS B

This unit includes the following: discharge of contracts (performance, breach, agreement, frustration); remedies; vitiating factors (misrepresentation, mistake, undue influence, duress, unconscionable contracts, illegality); an examination of and how contractual promises may be discharged or invalidated.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB136

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB102, LWB132

**Campus:** GP, EXT

**Sem:** 1, 2

#### ► LWB138 FUNDAMENTALS OF TORTS

The law of torts is of primary importance in understanding how the Australian legal system operates to compensate the physical and/or financial harm one person suffers as a result of another's wrongdoing. Today the most significant area of the law of torts is that of negligence which is also the most commonly litigated tort action. However, a knowledge and understanding of the tort of negligence can only occur in the context of the development of the earlier torts such as trespass to the person, land and personal property. In this unit, the principles and rules of the law of torts relating to negligence and trespass actions are also examined.

**Courses:** LW33, LW42, LW65, LW70, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB103, LWB133

**Campus:** GP, EXT

**Sem:** 1, 2

#### ► LWB139 SELECT ISSUES IN TORTS

The law of torts is of primary importance in understanding how the Australian legal system operates to compensate the physical and/or financial harm one person suffers as a result of another's wrongdoing. In the unit, Fundamentals of Torts, the principles and rules relating to the torts of negligence and trespass were examined in the context of whether these torts achieve outcomes which are consistent with contemporary legal and social values. In this unit a wider range of torts and related issues are examined so that students may develop the knowledge, understanding and skills necessary to maintain in the future their abilities in this important area of legal practice.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB138

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB103, LWB133

**Campus:** GP, EXT

**Sem:** 2

### ► LWB141 LEGAL INSTITUTIONS AND METHOD

This unit introduces students to the building blocks of law: fundamental principles, legal terminology, legal institutions, legal methodology, sources of the law, ways to interpret the law including an introduction to policy and international considerations. The material is presented as an integrated whole so that the students obtain a broad perspective and an ability to 'navigate the law' without artificially dividing any particular aspect. The unit also emphasises the joint responsibility of the teacher and the student for learning and to foster the development of skills in communication, comprehension and analysis.

**Courses:** LW33, LW42, LW65, LW70, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB101, LWB135

**Campus:** GP, EXT

**Sem:** 1, 2

### ► LWB142 LAW, SOCIETY AND JUSTICE

This unit examines the basic tenets of our democratic liberal legal system, particularly the central concept, the rule of law. The unit begins with an historical development of rights and the rule of law. It looks at how law and values intertwine and how society at a particular time shapes notions of legal personality, the recognition of 'family' and human rights in law. It finally addresses the limitations of democratic liberalism and the rule of law by examining the reality of equality before the law in relation to such topics as gender and cultural neutrality, equal access to justice, and lawyers and the adversarial system.

**Courses:** LW33, LW42, LW65, LW70, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB101, LWB131

**Campus:** GP, EXT

**Sem:** 1

### ► LWB143 LEGAL RESEARCH AND WRITING

This is a 'learn by doing' unit in which students are introduced to the use of all common legal research tools, in both print and electronic form, as they research a legal problem from a totally unfamiliar area of law. It also introduces students to legal writing and citation style, with an emphasis on the use of plain English.

**Courses:** LW33, LW42, LW65, LW70, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB141 **Corequisites:** LWB141

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB104, LWB134

**Campus:** GP, EXT

**Sem:** 2

### ► LWB144 LAWS AND GLOBAL PERSPECTIVES

This unit is designed to give students an understanding of the global context in which Australia operates and the important impact of this context on Australian law and legal practice. The unit introduces and explains the fundamental structures and principles of Comparative Law, Public International Law and Private International Law and examines their relevance to contemporary legal practice in Australia.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB101, LWB131

**Campus:** GP, EXT

**Sem:** 2

### ► LWB231 INTRODUCTION TO PUBLIC LAW

This unit introduces the basic institutions of government: the executive; the Parliament; the judiciary; the general principles legislative power is subject to; the principles by which executive decision-making is kept open and accountable.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB203, LWB311

**Campus:** GP, EXT

**Sem:** 1

### ► LWB235 AUSTRALIAN FEDERAL CONSTITUTIONAL LAW

This unit includes the following: the constitutional arrangements effected by the Common-

wealth Constitution; the structure and institutions of the constitution; the division of power between Commonwealth and states; the relations between the different levels of government; emphasis to Commonwealth legislative, executive and judicial powers.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB231 **Corequisites:** LWB231

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB203

**Campus:** GP, EXT

**Sem:** 2

### ► LWB236 REAL PROPERTY A

Property, rights of ownership and title are institutions at the basis of contemporary Australian society. A sound knowledge of the general principles of property and real property law is essential for any lawyer. This unit, together with Real Property B, examines general principles concerning the nature of property and real property law. Topics covered include the following: the concept of property; land ownership in Australia; native title; ownership, possession and title; ownership rights; law and equity; land transactions; the Torrens system.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB143, LWB240 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB201, LWB233

**Campus:** GP, EXT

**Sem:** 1

### ► LWB237 REAL PROPERTY B

This unit continues the examination of the general principles of real property law commenced in Real Property A. Topics include the following: co-ownership of land, leases, mortgages, easements, freehold covenants, and community titles schemes.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB236

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB201, LWB233

**Campus:** GP, EXT

**Sem:** 2

### ► LWB238 FUNDAMENTALS OF CRIMINAL LAW

An understanding of the principles of Criminal Law is of fundamental importance as it impinges upon almost every aspect of domestic, commercial, corporate and public activity in Queensland. The aim of this unit is to provide an overview of the aims and sources of Criminal Law in Queensland and to develop an understanding of the onus of proof in criminal matters. Additionally the unit explores the concept of fault elements, the criminal justice system and a selection of major offences. It also develops advocacy skills.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB202, LWB232

**Campus:** GP, EXT

**Sem:** 1

### ► LWB239 CRIMINAL RESPONSIBILITY

The aim of this unit is to build upon the principles and skills explored in LWB238 by developing an understanding of the way criminal responsibility is imposed through the complicity provisions of the Criminal Code and the common law and how the major defences and excuses operate. The unit also examines the major sentencing principles applied in Queensland.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB238

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB202, LWB232

**Campus:** GP, EXT

**Sem:** 2

### ► LWB240 PRINCIPLES OF EQUITY

The principles of Equity were originally developed to ameliorate the harshness of the common law and have since become a fundamental component of our legal system. A knowledge and understanding of the major principles of equity are necessary to an understanding of how the Australian legal system operates; it is therefore located early in the LLB degree. The aim of this unit is to provide a coherent knowledge and understanding of equitable principles within the

context of the Australian legal system as well as developing skills relevant to ongoing learning and professional practice.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB301, LWB234

**Campus:** GP, EXT

**Sem:** 1

### ► LWB241 TRUSTS

Trusts are a fundamental institution of ownership of property in equity; they are used for various purposes including estate planning, commercial and charitable purposes. A knowledge and understanding of the trust in its various forms and the equitable principles of property transfer are fundamental in understanding the impact of the principles of equity in the area of property ownership and rights. This unit seeks to provide a coherent knowledge and understanding of the law relating to trusts within the context of the Australian legal system and to develop skills relevant to ongoing learning and professional practice.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB301, LWB234

**Campus:** GP, EXT

**Sem:** 2

### ► LWB302 FAMILY LAW

This unit considers the manner in which the law treats the special social relationships that exist among members of a family and transforms them into legal rights and duties. The following aspects are addressed: the family as a legal phenomenon; methods of dispute resolution in family law; annulment of marriages; dissolution of marriages; consequences of separation and divorce, such as maintenance, child support, adjustment of interests in property and parental responsibilities.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

### ► LWB306 PLANNING LAW

The course deals primarily with the law relating to town planning and development assessment in Queensland and the policy considerations that have shaped the law. The statutory focus of the course is on the Integrated Planning Act 1997 and planning documents made under this legislation. A range of topics is covered including the integrated development assessment system, infrastructure, dispute resolution, compensation and existing use rights.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

### ► LWB307 INSOLVENCY LAW

This unit examines the following: the insolvency of individuals and the Bankruptcy Act 1966 (Cwlth); winding up of companies; reconstructions and arrangements and voluntary administration as procedures other than winding up which may be open to an insolvent company; the law relating to receivership; relevant provisions of the Corporations Law.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

### ► LWB308 INDUSTRIAL LAW

The employment relationship is one which effects us all, and in the light of recent legislative changes to industrial and employment law, will continue to have a profound effect on both our own lives and the lives of those with whom we come into professional contact. The study of Australian industrial law will draw on the students' knowledge of contract, tort and constitutional law and introduce the legislative and common law bases by which industrial relations are conducted in this country.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT

**Sem:** 2

**► LWB309 SUCCESSION**

This unit includes the following: examination of the law with respect to wills and probate; a study of the formalities required to execute a valid will; the intestacy provisions where someone dies without having made a will; the rights of a testator's family when they have not been named as a beneficiary in the deceased's will; a detailed examination of the provisions of the Succession Act 1981 (Qld).

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 2

**► LWB312 REAL ESTATE TRANSACTIONS**

This unit includes an analysis of a land transaction through the principles involved in the construction of contracts for the sale of land, with special emphasis on the standard REIQ Contract Terms of Sale in use in Queensland. There is also reference to conveyancing of lots under the Body Corporate and Community Title Management Act 1997 and Land Sales Act 1984.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB132 or equivalent, LWB233 or equivalent, LWB234 or LWB240 only

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

**► LWB313 DISCRIMINATION & EQUAL OPPORTUNITY LAW**

This unit includes the following: an examination of the law and policy with respect to discrimination and equal opportunity in Australia; relevant international treaties and Australian legislation such as the Queensland Anti-Discrimination Act; the Anti-Discrimination Commission and procedures.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

**► LWB331 ADMINISTRATIVE LAW**

This unit examines the law relating to judicial review of administrative action public authorities, systems of merits appeal, and the law of standing in public interest litigation.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB231 **Corequisites:** LWB231

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** LWB311  
**Campus:** GP, EXT **Sem:** 2

**► LWB332 COMMERCIAL AND PERSONAL PROPERTY LAW**

This unit includes the following: fundamental concepts of personal property law (including possession and ownership); transfers of and dealings in personal property; protection of personal property interests; agency; bailment; sale of goods; introduction to trade practices law.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB233 or LWB236

**Corequisites:** LWB233 or LWB236

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** LWB303

**Campus:** GP, EXT **Sem:** 1

**► LWB333 THEORIES OF LAW**

Legal practice requires an understanding and appreciation of its philosophical and theoretical foundations, as these guide the policies and inform changes to law through legislative and judicial action. Understanding the major theoretical and philosophical approaches assists with the resolution of novel and difficult legal problems. This unit imparts both knowledge based content and process based competencies that will result in independent learning outcomes. Topics covered include Natural Law, Positivism, Dworkin, Social, Economic and Historical theories of law, Legal Realism, Sociological theories of law, Critical Legal Studies, Postmodern Legal Thought, Feminist Theories of Law, Critical Race Theory, Postcolonial Legal Theory.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB305

**Campus:** GP, EXT

**Sem:** 1

**► LWB334 CORPORATE LAW**

This unit includes the following: the basic legal principles relating to registered companies; the principle of the veil of incorporation, internal functioning of a registered company including the operation of the constitution and replaceable rules; dealings with third parties; legal rules relating to share capital, dividends and loan capital; introduction to obligations of company officers and shareholder rights. Further specialised units such as Law of Corporate Governance will be offered for students who have completed Corporate Law and wish to concentrate some of their studies in the corporations and commercial area.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB401

**Campus:** GP, EXT

**Sem:** 2

**► LWB353 SELECT ISSUES IN LAW AND GOVERNMENT**

This unit examines contemporary issues in public law and government in areas such as commercial government activity, privacy and whistleblower protection.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB231, LWB331

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

**► LWB354 ADVANCED CIVIL PROCEDURE**

This elective unit builds on Civil Procedure (LWB431) providing advanced litigation skills in select areas. Content includes case flow management and court supervision, affidavits, limitation of actions, interrogatories, non-party disclosure, and conducting personal injuries litigation: Motor Accident Insurance Act, WorkCover Queensland Act.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB431

**Contact hours:** 2 per week **Credit points:** 8  
**Campus:** GP, EXT

**► LWB356 ADVOCACY**

Advocacy is the art of persuasion in Court and before Tribunals. This unit concentrates on developing the fundamental skills of a good advocate, namely analysis, preparation and performance. Students are required to participate in oral advocacy exercises and mock trials. Regular attendance is necessary for successful completion of this unit.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB432

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP

**► LWB359 ADVANCED TAXATION LAW**

This unit examines the taxation of business entities. The taxation processes for partnerships, trusts and companies are analysed together with the implications for the taxation of individuals involved with business entities. These individuals include partners, beneficiaries, trustees and company shareholders. This unit builds on the principles developed in Introduction to Taxation law in relation to taxation of individuals in that the concepts of income, deductions, residence and so on are discussed in the context of business entities. Tax planning issues involving entities are critically analysed and reflected on together with the effect of the general anti-avoidance provisions in the taxation legislation.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB364

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 2

**► LWB361 DRAFTING**

This skills unit uses an interactive practical approach in teaching students the rules in drafting private legal documents in plain English. The general rules are considered first and then applied

in drafting documents and parts of documents from the areas of conveyancing contracts (residential and commercial land, and businesses), options, leases, mortgages, guarantees and trusts. Stamp duty is also dealt with because of the close relationship stamp duty has with documents of various kinds.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB233 or equivalent

**Contact hours:** 2 per week **Credit points:** 8  
**Campus:** GP, EXT

**► LWB363 INSURANCE LAW**

Insurance is the payment of a premium by one to another to cover the risk that an unidentified event should occur, upon which a payment in the insured sum shall be made. This course prepares students to advise insureds and insurers alike on issues such as whether a policy covers the event which has occurred and whether there are grounds upon which all or part of a claim may be refused. In addition to principles of general insurance, the course also covers selected aspects of professional indemnity insurance, directors and officers insurance and a detailed study of the statutory framework in Queensland for compulsory third party motor vehicle insurance and workers compensation. Any one interested in litigation should study insurance law.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB136, LWB137 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT **Sem:** 2

**► LWB364 INTRODUCTION TO TAXATION LAW**

This unit examines the principles relating to the powers of the Australian government to impose income tax. This includes concepts of residence of individual tax payers for taxation purposes and source of income. Students consider the distinction between income and capital as this relates to the imposition of income tax and the concept of deductions as a means of reducing taxable income. Taxation of capital gains particularly as this relates to a taxpayer's main residence, deceased estates and general transfers of assets is discussed in detail. The other major topic is a critical analysis of the need for the general anti-tax avoidance provisions and how they apply.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

**► LWB366 LAW OF COMMERCIAL ENTITIES**

This unit examines the legal principles pertaining to a number of different structures found in commercial life. It includes a brief consideration of corporations, more detailed examination of partnerships, unit trusts and joint ventures incorporated associations. Consideration is given to the definition of these structures, relationship with third parties, and relationship of members inter se. This unit can be completed before or in conjunction with Corporate Law (LWB334).

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

**► LWB367 LAW OF CORPORATE GOVERNANCE**

Successful completion of LWB334 Corporate Law is an essential prerequisite to undertaking this unit. This is a specialised unit providing an examination of the two organs which govern a company: the board of directors and the company in general meeting. The unit examines in some detail particular aspects of the law applicable to these bodies: some of the duties affecting directors; topical issues such as directors interests in contracts; the role of waiver of breaches and improprieties; members rights and protection; relevant aspects of meeting law; an examination of the roles of the Australian Securities Commission and the Australian Stock Exchange; the roles of the Institutional Shareholder and/or Shareholder Associations.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB334

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP, EXT

#### ► LWB406 FUNDAMENTALS OF PUBLIC INTERNATIONAL LAW

This unit considers the legal rules that govern the activities of nations and the regulation of the activities of nations by international organisations, such as the UN. It also includes the creation of international law and its sources: treaties, customary law, general principles of law; the concept of international legal personality: statehood, self-determination, recognition; the effects of international law: sovereignty, international responsibility. The law of armed conflict is also included.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 2

#### ► LWB407 PRIVATE INTERNATIONAL LAW

This unit includes the body of law governing the resolution of private legal problems with a significant foreign (or inter-state) element. Topics studied include the following: jurisdiction of domestic courts to determine matters having a foreign element; enforcement of foreign judgments in the domestic jurisdiction; choice of law for the resolution of the dispute, generally and in relation to family law, contract, tort, property and succession. This unit assumes a basic knowledge of these areas of substantive law and therefore is best taken as a final year unit.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB132 or equivalent, LWB133 or equivalent, LWB141, LWB144, LWB233 or equivalent

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 2

#### ► LWB410 COMPETITION LAW

This unit includes an overview of the anti-competitive practices that are proscribed by Part IV and Part XIB of the Trade Practices Act 1974 (Cth). It also deals with the remedies available for contraventions of Part IV and the possibility of obtaining authorisation from the Australian Competition and Consumer Commission. The access provisions of Part III A and Part XIC are also considered.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT

#### ► LWB412 RESEARCH AND WRITING PROJECT

This unit allows a supervised piece of research on a legal topic, and the writing of a paper of approximately 6500 words on that topic. This project offers an ideal opportunity for students to prepare topics of academic or career-related interest and to produce an item of writing which might assist in scholarship, postgraduate and career-related applications. A student wishing to undertake this unit should discuss the matter as early as possible in the semester immediately before that in which he or she proposes to undertake it, preferably with the proposed supervisor of the student's own choosing. Further instructions are available from the unit coordinator.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** Completion of 192 credit points of law units

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 3

#### ► LWB413 QUEENSLAND PARLIAMENTARY INTERNSHIP PROGRAM

This unit provides an opportunity for students to learn about the workings of the Queensland Parliament and to undertake a piece of research of interest and use to a member or senior officer of Parliament. Places are limited and preference will be given to students with a good academic record. This unit may be undertaken in semester 2,

and intending students should contact the Unit Coordinator in May of each year. Places are generally available only to students in their final year of study who have achieved a grade point average of at least 5.2 or have demonstrated other evidence of capacity for research and report writing.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** Completion of 192 credit points of law units

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LWB417 MOOTS

The aim of this unit is to give students a broad understanding and development of oral and written arguments and persuasive speaking, and an ability to apply these skills in a courtroom context. Additionally, students will become competent in electronic courtroom software.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** Completion of all 1st and 2nd year core units

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► LWB418 COMPETITION MOOTS 1

If students have completed the core units in first and second year, enjoy working under pressure and have participated in at least one moot as counsel, they may apply when applications are called for. Places are very limited, but if students are successful, they will be able to take their skills to the national and international arena, and experience mooting at the highest level. International and national moots require significant preparation and attention to detail, with a very high level of commitment, research, writing and discipline knowledge. Because of the timetabling of international moots throughout the year, students may be required to work on a competition moot from November to February. The number of moots offered will vary from year to year.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** Completion of all 1st and 2nd year core law units plus participation in at least one Law School moot

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► LWB419 COMPETITION MOOTS 2

This unit will allow a student to build on the skills they have learnt in LWB418 Competition Mooting 1, to give them a higher level of understanding of oral and written argument and persuasive speaking, and an ability to apply these skills in an international competitive context.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB418

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► LWB420 INTERNSHIP

The aim of this unit, ideally to be undertaken in the later years of the LLB course, is to provide an opportunity for students to work in a functioning workplace environment with a broad public law focus and to enable students to engage in practical tasks, that require demonstration of legal analysis critical reflection and appropriate communication skills.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** Completion of 192 credit points of law units

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LWB431 CIVIL PROCEDURE

This core unit focuses on developing basic litigation skills. The following issues are examined: the adversarial system and alternative methods of dispute resolution, obligations to the client, the structures and processes of litigation conducted in the Supreme, District and Magistrates Courts, jurisdiction, originating process, notice of intention to defend, parties, service, ending proceedings early, pleading, disclosure, subpoenas, trial, appeals, costs and enforcement.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB404

**Campus:** GP, EXT

**Sem:** 1

#### ► LWB432 EVIDENCE

The law of Evidence concerns those rules and principles which govern the presentation and proof of facts and information in court proceedings, both civil and criminal. The unit covers both State and Federal jurisdictions.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB402

**Campus:** GP, EXT

**Sem:** 1, 2

#### ► LWB433 PROFESSIONAL RESPONSIBILITY

This unit includes the following: the ethical principles upon which the practice of all professions is based; the principles which underpin the discipline of law and the workings of the legal profession; the history, nature, organisation and operation of the legal profession; codes of conduct, trust accounts and professional legal ethics.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

#### ► LWB434 ADVANCED RESEARCH AND LEGAL REASONING

This unit develops advanced skills of legal research, analysis, problem-solving, critical thinking, writing for diverse purposes, and topical developments in substantive areas of law.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB143 or equivalent; LWB333

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** LWB415

**Campus:** GP, EXT

**Sem:** 1

#### ► LWB451 ALTERNATIVE DISPUTE RESOLUTION

Heralded as the new Equity, alternative dispute resolution processes, particularly mediation, are being utilised by all courts and most administrative tribunals to reduce the complexity, time and cost of adversarial dispute resolution. Knowledge of these processes and skills is therefore desirable, if not essential, for all legal practitioners. This unit builds on negotiation skills modules developed in first and second year core units and introduces the theory and skills of mediation.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1, 2

#### ► LWB454 BANKING AND FINANCE LAW

This unit deals with the principal areas of activity of banks and other financial institutions in commercial and consumer transactions. It covers the banker-customer relationship including the Banking Code of Practice, the principles governing the operation of and liability in relation to negotiable instruments, the liability of financial institutions with respect to misappropriated cheques, documentary credits, Mareva and garnishee orders, credit and debit cards, and the Electronic Funds Transfer Code.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB132 or equivalent and LWB332

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► LWB456 LEGAL CLINIC (ORGANISED PROGRAM)

In this unit, students are provided with the opportunity to see law in action through being involved in the delivery of legal services to members of the community under the umbrella of Legal Aid Queensland, the Prisoners Legal Service Inc or the Aboriginal and Torres Strait Islander Corporation (QEA) for Legal Services. Students' work in their placement is supplemented with a weekly seminar program that deals with such topics as legal interviewing, family and criminal law practice, professionalism and legal writing. This unit has a quota limit.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LWB458 REGULATION OF COMMERCIAL TRANSACTIONS

This unit provides an overview of the way the Trade Practices Act 1974, and equivalent State Fair Trading legislation regulate misleading conduct, unconscionable conduct, and other unfair practices in the context of common commercial transactions. The unit also considers the provisions of the Australian Securities and Investment Act and the Financial Services Reform Act 2001 which regulate financial services. Finally, the unit considers the way the Trade Practices Act regulates unsuitable and defective products released into the market place.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12

**Campus:** GP, EXT

#### ► LWB480 MEDIA LAW

This unit examines the regulation and non-regulation of freedom of speech exercised by the media. In this regard various limitations imposed by the common law, statute and self-regulation will be examined, such as defamation, restrictions on reporting courts and politics, contempt, privacy and confidentiality.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB138, LWB139 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

#### ► LWB482 INTERNET LAW

This unit addresses the idea that it is vital for any participant in the digital age to gain a thorough knowledge of the structure, governance and regulation of the Internet, digital intellectual property, and risk management strategies for stakeholders.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12

**Campus:** GP, EXT

#### ► LWB483 MEDICO-LEGAL ISSUES

This unit considers the regulation of health care as well as the relationship between the individual and the health care provider in terms of consent to treatment; negligence; the impact of the criminal law, abortion, removal from life support systems; mental illness; medical records and evidence; ownership and confidentiality of records; the duty to treat; complaints against hospitals and health care workers.

**Courses:** IF35, IF36, IF37, IF38, IF39, IF40, IF41, LW33, LW41, LW42, JS25

**Prerequisites:** LWB133 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

#### ► LWB484 ELECTRONIC COMMERCE AND TECHNOLOGY CONTRACTS

This unit allows a student to achieve the following: examine and critique the law relating to electronic commerce and technology contracts; gain an awareness of the essential clauses in computer system acquisition agreements; understand essential clauses in software development, licensing and distribution agreements; appreciate civil and criminal liability and risk management strategies; develop a focus of critique about the underlying design, content, and practice of electronic commerce.

**Courses:** LW33, LW42, IF07, IF10, IF35, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► LWB485 ENVIRONMENTAL LAW

This unit provides an introduction to environmental law in Queensland: the sources, nature and development of environmental law in Queensland; the concepts of environmental law (for example property, administrative control, law and policy, planning, management); access to the environment; planning to prevent environment degradation and pollution; protecting the environment; managing the environment; conserva-

tion; ecologically sustainable development; enforcement of environmental law; the role of the Commonwealth.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12

**Campus:** GP, EXT

#### ► LWB486 INTELLECTUAL PROPERTY LAW

This elective unit provides an introduction to the most significant of the legislative enactments creating or protecting intellectual property in Australia, including those governing copyright, designs, patents and trade marks. It also considers the application of relevant common law, particularly confidential information and passing off.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Contact hours:** 2 per week **Credit points:** 12

**Campus:** GP, EXT

#### ► LWB489 NATIVE TITLE LAW AND PRACTICE

**Courses:** LW33,

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

#### ► LWB492 SECURITIES

This unit examines security interests commonly taken by providers of credit when advancing money. One of the common securities obtained by lenders in practice is a mortgage over real property. Given the practical importance of this as a form of security, the nature of a Torrens title mortgage, the rights of the mortgagee and enforcement options of the mortgagee are examined. Other securities examined are guarantees, bills of sale over personal property and possessory liens. Because the Consumer Credit Code regulates most transactions involving the provision of consumer credit, the impact of this legislation on securities is also examined. Provisions of the Trade Practices Act 1974 as they affect the validity and operation of securities are also considered.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB233 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

#### ► LWB494 PRINCIPLES OF SENTENCING

This unit seeks to examine in detail the principles underlying the sentencing of offenders, by examining the theories of punishment and how they are employed in practice under the Penalties and Sentences Act 1992 (Qld). It considers the principles of sentencing offenders, sentencing dispositions, and sentencing different classes of offenders, eg juveniles, dangerous offenders.

**Courses:** LW33, LW42, IF07, IF10, IF37, IF38, IF39, IF41, IF43, IF93

**Prerequisites:** LWB232 or equivalent, or JSB022 or equivalent, JSB024 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► LWN022 BANKING AND FINANCE LAW

This unit includes the following: the new regulatory scheme imposed by the Financial Services Reform Act 2001 (Cwlth) and the Australian Securities and Investments Commission Act 2001 (Cwlth); the commercial use of bills of exchange; statutory protection of financial institutions in relation to the payment and collection of cheques; the operation of bank accounts and payment mechanisms such as electronic funds transfers; select issues arising out of the banker-customer relationship: the banker's right of set-off, liens, combination of accounts, 'charge backs', appropriation of payments, the effect of orders for the redirection of debts and Mareva orders on financial institutions; alternative dispute resolution under the revised Code of Banking Practice.

**Courses:** LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12

**Campus:** GP

#### ► LWN025 RESEARCH PROJECT 1A

This unit requires a supervised research project of about 10,000 words over one semester ap-

proved by the Teaching, Learning and Curriculum Committee. Students should refer to the relevant course rules for the maximum credit point limit of Research Project units allowed to be undertaken as part of their course.

**Courses:** LW51, LW60

**Credit points:** 12

**Campus:** GP, EXT

#### ► LWN026 RESEARCH PROJECT 2A

This unit requires a supervised research project of about 20,000 words over one semester approved by a working party of the Law Faculty Teaching, Learning and Curriculum Committee. Students should refer to the relevant course rules for the maximum credit point limit of Research Project units allowed to be undertaken as part of their course.

**Courses:** LW51, LW60

**Credit points:** 24

**Campus:** GP, EXT

#### ► LWN030 DISPUTE RESOLUTION/MEDIATION

This unit includes a study of dispute resolution processes and in particular, mediation, looking at both the theory and practice. Students are expected to be involved in a number of class workshops to learn mediation skills. Issues include the following: mediation in Australia; theories of mediation; different forms of mediation, ie neighbourhood, family, commercial; the advantages and disadvantages of mediation; when mediation is not appropriate; ethical and professional issues relating to mediation.

**Courses:** LW50, LW51, LW60

**Contact hours:** 26 in total **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LWN032 CREDIT FOR UQ SUBJECT 1

Under the course rules, a coursework student may, with the prior approval in writing of the Deans of the Faculties of Law of QUT and of the University of Queensland, undertake any combination of whole year and one semester units offered in the LLM degree by Coursework at the University of Queensland which are equivalent to no more than 24 credit points. This unit code represents a one-semester unit taken pursuant to that course rule at the University of Queensland.

**Courses:** LW51, LW60

**Credit points:** 12

#### ► LWN033 CREDIT FOR UQ SUBJECT 2

See LWN032 for details.

**Courses:** LW51, LW60

**Credit points:** 12

#### ► LWN034 CREDIT FOR UQ SUBJECT 3

See LWN032 for details.

**Courses:** LW51, LW60

**Credit points:** 24

#### ► LWN035 MEDICO-LEGAL ISSUES

This unit includes the following: the relationship between the individual and the health-care provider in terms of consent to treatment and negligence; organ and tissue donation; powers of attorney; the impact of the criminal law, abortion, removal from life support systems; medical records and expert evidence; ownership and confidentiality of records; the role of the coroner; complaints against health-care workers.

**Courses:** LW50, LW51, LW60

**Contact hours:** 26 **Credit points:** 12

#### ► LWN036 SELECT ISSUES IN INTELLECTUAL PROPERTY LAW

This unit examines a range of contemporary issues in the broad field of intellectual property law: copyright protection for digital works; the Copyright Law Review Committee (CLRC) Reports; defences in relation to computer program (reverse engineering); the protection of facts and the Database proposals; collective administration of copyright; fair dealing; copyright protection of Indigenous art and culture; moral rights and performers' rights; contracting out and the future of copyright in the digital age; patent protection for computer programs; current issues in Trade Marks (including domain names and geographical indications).

**Courses:** LW51, LW60

**Contact hours:** 26

**Credit points:** 12

#### ► LWN040 THEORIES OF JUSTICE

This unit is concerned with the assumptions that underpin arguments about what is just or unjust within various spheres of contemporary Australian society. The unit provides a framework for

evaluating the relative usefulness of various theories of justice in terms of their theoretical implications and practical applications. The unit focuses on the interface between justice post-modernism and the law.

**Courses:** LW51, LW50, LW60

**Credit points:** 12

**Campus:** EXT

**Sem:** 1

#### ► LWN043 LAW OF COMPANY TAKEOVERS

Corporations engage in takeover activity for both economic and non-economic reasons. In the last two decades there has been an overall increase in the number of takeover bids made in Australia. This course considers that part of the Corporations Law which has the purpose of regulating acquisition of shares which effect a change in a company's control. A number of firms have set up departments in their practices which specialise in Corporate Takeovers and associated areas. The Law of Company Takeovers has produced significant research and publication not just with respect to the technical rules of law but also with respect to important economic and social issues

**Courses:** LW51, LW60

**Contact hours:** 26

**Credit points:** 12

#### ► LWN046 ADVANCED PLANNING LAW

This unit includes a detailed study of town planning law with special emphasis on relevant Queensland legislation in particular the Integrated Planning Act 1997 and Regulations, and Legislation relevant to major/significant development projects. Particular emphasis is placed on the integrated development assessment system, both transitionally and under full IDAS. Topics include the following: Ecological Sustainability; Development; Application Stage; Information and Referral Stage; Notification Stage; Decision Stage; Ministerial IDAS Powers; Appeal Process; Integration with the Environmental Protection Act 1994, the Building Act 1975, the Transport Infrastructure Act 1994, the Vegetation Management Act 1999, the Water Act 2000.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► LWN047 LEGAL EDUCATION

This unit involves an introduction to the main schools of thought on legal education. A review of legal education from an historical and socio-political perspective together with consideration of the implications on legal education of schools of contemporary thought such as feminist legal theory will be made. The unit analyses the learning process and considers student approaches to learning, adult learning theory and learning styles, a variety of teaching styles/techniques, and the appropriateness and effectiveness of each. Consideration is given to the matching of learning styles with teaching methods and the validity and effectiveness of such an approach, together with the role and implementation of training needs analyses and goal setting.

**Courses:** LW51, LW60 **Contact hours:** 26 total

**Credit points:** 12

**Campus:** GP

#### ► LWN048 ADVANCED LEGAL RESEARCH

The unit deals with the concepts, techniques and methods of legal research and other research relevant to an interdisciplinary perspective. It includes training in finding source material and the use of advanced technology in locating and organising source materials. The unit also deals with the presentation and defence of research including the respective roles of researcher and supervisor, structuring research material in support of a thesis, and the diagnosis and remedy of structural problems. It deals with the conventions of presentation, assessment of research in terms of the differing criteria for refereeing and judging worth, quality and ethics of research.

**Courses:** LW51, LW60

**Contact hours:** 26 block mode

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LWN049 INTERNATIONAL ENVIRONMENTAL LAW

International environmental law is a dynamic area of international law with implications for the

management of natural resources both in Australia and at the global level. This unit introduces the fundamental principles structuring international environmental law, discusses the principal institutions, cases and treaties in this field, and explores the impact of international environmental obligations on natural resource management in Australia. The unit highlights the particular challenges facing international environmental lawyers seeking the protection and enhancement of the global environment, as well as international environmental issues of contemporary concern.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

**Sem:**

#### ► LWN050 RESTRICTIVE TRADE PRACTICES LAW

All countries that rely on markets and competition to allocate resources and satisfy the needs of consumers have a set of rules designed to deal with problems of market failure caused by one or more firms possessing market power. Such firms are able to undermine the competitive process by engaging in anti-competitive behaviour. This unit considers this Law.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► LWN051 CONSUMER PROTECTION AND PRODUCT LIABILITY

This unit is divided into two main parts. The first part considers the statutory and common law actions that are available to protect consumers from misleading or deceptive conduct and unfair marketing practices. Emphasis is given to the role played by the Trade Practices Act in relation to conveyancing and land transactions, financial services and advertising. Unconscionable conduct is also considered. The second part of the unit is concerned with statutory and common law actions available when loss or damage is suffered as a result of defective products. Remedies and defences are considered throughout the course.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

#### ► LWN053 RESEARCH PROJECT 1B

See LWN025 for details.

**Courses:** LW51, LW60

**Prerequisites:** LWN025

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1, 2, 3

#### ► LWN056 RESEARCH PROJECT 1C

See LWN025 for details.

**Courses:** LW51, LW60

**Prerequisites:** LWN025, LWN053

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1, 2, 3

#### ► LWN057 RESEARCH PROJECT 1D

See LWN025 for details.

**Courses:** LW51, LW60

**Prerequisites:** LWN025, LWN053, LWN056

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1, 2, 3

#### ► LWN060 ENVIRONMENTAL LEGAL SYSTEM

This unit includes the following: analysis of the principles and concepts of environmental law in Queensland; understanding of the law in Queensland for the protection and conservation of the environment; examination of the way in which the law accommodates private interests and the public interest. Included are pollution control, environmental impact assessment, environmental management, and conservation of the natural and cultural environments.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

**Sem:**

#### ► LWN061 NATURAL RESOURCES LAW

This unit includes the following: the principles and concepts of natural resources law in Queensland dealing with the ownership and control of natural resources, providing access to these resources, controlling the operational side of the development of these resources, and recognising commercial structures for achieving these operational objectives; an assessment of a number of

developed and evolving mechanisms for achieving these objectives such as policy objectives, management plans, incentives and inducements, market instruments and property rights. Examples include land, water and fisheries.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12

**Incompatible with:** LWN014, LWN027

#### ► LWN062 FEDERAL ENVIRONMENTAL LAW

This unit includes the following: the history of Commonwealth involvement in environmental management; the Inter-Governmental Agreement of 1992; relevant paragraphs of s. 51 of the Constitution; judicial interpretation of the paragraphs impact of ss 90, 92 and 109 of the Constitution; federal legislation dealing with offshore development, marine environment protection, environmental impact assessment, national estate, wildlife conservation, Great Barrier Reef, hazardous waste and industrial chemicals, world heritage, ozone protection, ecologically sustainable development, climate changes, and biological diversity.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

#### ► LWN063 COMPARATIVE ENVIRONMENTAL LAW

This unit addresses the principles of environmental regulation in other jurisdictions and the range of policy and legal instruments being utilised to achieve environmental objectives. Jurisdictions include European countries such as the United Kingdom and Greece, South Africa, India, New Zealand and the USA.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LWN065 CONSTRUCTION AND ENGINEERING LAW

Preparation of construction and engineering contracts has now become a distinct area of legal practice with many firms having established sections which specialise in this area. A sound knowledge of the standard forms used in the industries and the special principles of law applicable to this area is essential for those wishing to practise in the area. This unit provides the knowledge sought by current and future practitioners and those considering embarking upon research in this area.

**Courses:** LW50, LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LWN070 CREDIT FOR UQ SUBJECT 4

See LWN032.

**Courses:** LW51, LW60

**Credit points:** 24

**Campus:** GP

#### ► LWN075 INTERNATIONAL COMMERCIAL TRANSACTIONS

This unit on international trade law addresses the legal problems that arise in the formation and operation of commercial transactions of an international nature. Its scope is largely confined to the sphere of private law. Topics covered include the following: the international trade law and environment; harmonisation and unification of law; international contracts (characteristics, comparative law, negotiating and drafting, choice of law); international sale of goods (trade terms, standard conditions, uniform law); carriage of goods by sea; payment in a documentary sale, and other financing mechanisms; marketing arrangements (agency, distributorship, subsidiary, joint venture).

**Courses:** LW50, LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Incompatible with:** LWN023

**Sem:** 2 (2004)

#### ► LWN076 INTERNATIONAL COMMERCIAL DISPUTES

This unit addresses legal issues regarding the resolution of commercial disputes in international trade. It is mainly concerned with disputes in respect of international commercial relationships of a private law nature. Dispute resolution

mechanisms (such as litigation, arbitration and alternative dispute resolution) are examined, and their effectiveness evaluated, in the light of the legal and practical realities in the international trade environment. Students are introduced to a range of commercial practices, national regulation, and international uniform rules, model laws and conventions.

**Courses:** LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12  
**Incompatible with:** LWN023 **Sem:** 2

#### ► LWN083 ESTATE PLANNING

In recent years there has been a renewed interest in all aspects of estate planning. During the period when death duties were imposed at both the State and Federal levels, professional interest in this area was high as the public perceived its need for expert professional advice, particularly as it related to the structuring of a person's affairs to minimise the impost of these duties. The emergence of capital gains tax and the realisation of its growing significance, together with a recent emphasis generally on financial planning have again brought this area to prominence. At a time when the legal profession is looking for new areas at work, there is also evidence that lawyers see this area as one which has been largely neglected.

**Courses:** LW50, LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

#### ► LWN087 CONTEMPORARY ISSUES IN TORTS

Contemporary issues in the law of torts extend beyond the tort of negligence to include areas such as the economic torts, the tortious liability of public officials, the torts of trespass and nuisance, and the emerging tort of privacy. In addition there have been significant developments in related areas such as vicarious liability and the apportioning of liability amongst multiple tortfeasors. It is, therefore, appropriate that these contemporary issues in the law of torts be the subject of an LLM unit that allows for a more sophisticated level of conceptual analysis and synthesis than was appropriate at an undergraduate level.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LWN088 GOVERNMENT LAW, POLICY AND PRACTICE

This unit examines key aspects of the law and policy-making process surrounding the development of legislation and the operation of government, especially in Queensland and Australia. Topics covered include the following: the internationalisation of Australian law and policy making; civil and criminal liability of the crown and crown employees; scrutiny of legislation (including Queensland's 'fundamental legislative principles'); grounds for challenging legislation; crown immunity; government contract-making; native title law and practice for the public and private sectors; legal issues in government accountability; the role and function of key bodies in the executive and legislative arms of government; the governmental policy making process.

**Courses:** LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP

#### ► LWN093 BORROWERS AND SECURED LENDERS - SELECT ISSUES

This unit considers topical issues in the area of secured lending both from the perspective of the borrower and the lender. Seminars will focus on issues arising from the execution of typical securities such as real property mortgages and guarantees, both personal and corporate, together with remedies of secured lenders and possible defences of borrowers. The focus of this unit is on current issues reflecting developments in statutory and case law in Australia impacting on borrower's rights and the practices and procedures of secured lenders.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days  
**Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► LWN094 ENERGY LAW

Natural resources law and its related subject, environmental law, have become significant areas of professional legal practice over the last decade or so. One of the particular areas of natural resources law for these purposes is energy law. Energy law is the law relating to the ownership, use, development and control of those natural resources which are used to produce energy for the benefit of the community. Areas covered in this unit include the following: the sources and history of energy law; the principles and concepts underlying energy law; the common law rules of ownership of sources of energy; statutory ownership of sources of energy; how the law regulates access to sources of energy; how the law controls the development of sources of energy.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12 **Campus:** GP

#### ► LWN095 NATIVE TITLE LAW AND POLICY

This unit examines the legal dimensions of native title from a range of perspectives. Native title is one of the most significant and topical areas of the law affecting the public and private sectors. This course covers theoretical and practical dimensions of the topic of native title, including the following: international dimensions, comparative perspectives, elements of native title and its federal and state regulation; implications for stakeholders in the public and private sectors; policy issues; and practical steps for advisers.

**Courses:** LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT

#### ► LWN097 CORPORATE INSOLVENCY

This unit considers topics of commercial interest relevant to corporate insolvency. It concentrates on advanced areas pertinent to liquidation, receivers and other controllers, and voluntary administration in Australia. In particular, seminars focus on issues likely to arise in practice, including problems associated with statutory demands, termination of deeds of arrangement, and insurer funding of litigation.

**Courses:** LW51, LW60

**Contact hours:** 26 hours over 4 days

**Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LWN099 INTELLECTUAL PROPERTY LAW

This unit includes a study of the concept of Intellectual Property and the principles and policies of intellectual property law. Topics covered include copyright, designs, patents, innovation patents, trade marks, passing off, breach of confidence.

**Courses:** LW51, LW60

**Contact hours:** 26 hours over four days

**Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LWN100 HONOURS DISSERTATION

This unit requires a dissertation by students enrolled in the Master of Laws by Coursework who have completed 96 credit points. It is limited to students with a GPA of 6 or higher. The dissertation is between 20,000 and 30,000 words in length.

**Courses:** LW51

**Credit points:** 48 **Campus:** GP, EXT

#### ► LWN111 PUBLIC LAW AND GOVERNMENT COMMERCIAL ACTIVITY

This unit examines the reach of public law remedies in the field of commercial activities in which government agencies are involved. Areas covered include corporatisation, out sourcing and privatisation.

**Courses:** LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 2

#### ► LWN113 LAW OF GUARANTEES

Guarantees are an important area of practice for commercial lawyers as a substantial proportion of large commercial transactions involve the giving of guarantees. Guarantees are also significant for consumer finance. This unit considers formation

and validity, including comparison with other contracts; factors affecting validity, including disclosure, misrepresentation, mistake, unconscionable conduct, undue influence, s.51AB Trade Practices Act (Cwlth), s.70 Consumer Code; obligations of solicitor; liability, including principle of co-extensiveness and rules of construction; discharge of guarantee, including discharge by the determination of the principal transaction and discharge by reason of the creditor's conduct.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12 **Campus:** GP

#### ► LWN117 LEGAL REGULATION OF THE INTERNET

This unit studies the law as it relates to the Internet: existing legal principles applied in the online environment, and new law created due to the nature of the online environment, so called cyberlaw. A knowledge of cyberlaw is important in most areas of legal practice and particularly so in banking, intellectual property, litigation and media. This unit focuses on various Internet related topics and discusses and examines recent developments, in terms of case law, legislation and policy, in Australia and internationally. This unit includes such topics as an introduction to legal issues relating to the Internet and methods of regulation, creation and operation of websites, and jurisdictional issues on the World Wide Web.

**Courses:** LW51, LW60

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LWN119 EMPLOYMENT LAW

Employment law is a foundation unit that allows students to survey at an advanced level the sources, components and relationships of employment law in Australia. Successful completion of this unit provides students with the necessary background to continue on to undertake further advanced courses in more specialised areas of labour law, including public sector employment law and the law of trade unions.

**Courses:** LW50, LW51, LW60

**Contact hours:** 26 over 4 days

**Credit points:** 12 **Campus:** GP

#### ► LWN120 SELECT ISSUES IN MEDIA LAW AND POLICY

This unit examines the concept of freedom of speech as exercised by the media and selected limitations on that freedom imposed by the common law and statute. It also includes limitations imposed upon media institutions represented by broadcasting law, and policy and legal issues affecting the functioning of the online media environment.

**Courses:** LW50, LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12 **Campus:** GP

#### ► LWN122 COMMERCIAL LEASES

This unit considers the principles governing standard clauses of a modern Australian commercial lease in the light of recent case law and Queensland statutory provisions affecting such interests. Topics include the following: negotiation of leases, covenants for repair, user, assignment, quiet possession, options to renew and purchase, the phenomenon of default, remedies of lessor and lessee including those under the Trade Practices Act 1974, and retail shop leases in Queensland generally.

**Courses:** LW51, LW60

**Contact hours:** 26 over 1 week

**Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LWN124 CONTEMPORARY FAMILY ISSUES

This unit examines a number of complex issues which can and do confront families from time to time. The first part of the unit examines those legal principles concerned with the break down of de facto relationships and the distribution of property between partners. The laws on issues such as surrogacy arrangements, access to reproductive technology, abortion, adoption and enduring powers of attorney are considered as well as the law relating to Australia's international obligations and the various ethical and social

perspectives which impact on these issues. The criminal and quasi-criminal law also impact on aspects of family dynamics and, in this context, issues of domestic violence and stalking are examined.

**Courses:** LW51, LW60

**Contact hours:** 26 over 1 week

**Credit points:** 12 **Incompatible with:** LWN003

**Campus:** GP

#### ► LWN125 ELECTRONIC COMMERCE LAW

This unit considers the following topics: introduction to electronic commerce; contractual issues; electronic signatures; electronic monies; certification authorities; cyberbanking; payment mechanisms; taxation; other legal issues in relation to legal requirements for information, including electronic information, time and place of dispatch and receipt of electronic communications and other issues.

**Courses:** LW50, LW51, LW60

**Contact hours:** 26 over 1 week

**Credit points:** 12

**Campus:** GP

#### ► LWN126 THE LAW OF COSTS

This unit provides a complete analysis of the law of costs in Queensland. The first part of the course deals with the general principles of the law of costs relevant to Queensland practitioners and the extent to which the common law rules have been modified by statute. The second part of the course is concerned with an analysis of the provisions of the Uniform Civil Procedure Rules and the Civil Justice Reform Act 1998 together with other relevant Commonwealth and State legislation governing costs.

**Courses:** LW50, LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

#### ► LWN127 ADVANCED INSURANCE LAW 1

The unit covers the nature and definition of insurance, utmost good faith, formation of contract, proposals, etc; scope of Insurance Contracts Act 1984 (Cwlth), non-disclosure and misrepresentation, brokers and agents; Insurance (Agents and Brokers) Act 1984 (Cwlth), or Financial Services Reform Act 2001 (Cwlth) if appropriate, third parties' rights and obligations; Section 54 Insurance Contracts Act.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

#### ► LWN128 ADVANCED INSURANCE LAW 2

This unit focuses on selected topics on insurance law which pre-suppose a knowledge of insurance law contained in LWN127 Advanced Insurance Law 1. Included are contractual terms and their interpretation, double insurance and contribution, subrogation, claims, indemnity and reinstatement, waiver and estoppel, motor vehicle compulsory third party insurance.

**Courses:** LW50, LW51, LW60

**Prerequisites:** LWN127

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

**Sem:**

#### ► LWN129 CONTEMPORARY ISSUES IN SENTENCING LAW

Sentencing law has become a specialised area of research and practice over the past two decades in the United Kingdom and the United States, and increasingly so in Australia. In practice, this is particularly so for barristers and specialist criminal law practitioners. Increasingly, law schools have undergraduate and postgraduate units in this area. Almost all Australian jurisdictions have now introduced specialised sentencing legislation, introducing discrete principles and thereby ensuring that a separate discipline area of sentencing law has emerged, complete with its own discourse. It is therefore appropriate that sentencing law should feature as a postgraduate unit in its own right.

**Courses:** LW51, LW60, JS51

**Contact hours:** 26 over 4 days

**Credit points:** 12

**Campus:** GP

#### ► LWN131 QUEENSLAND STATE LANDS: LAW AND PRACTICE

As the unit examines a unique system of land tenures and dealings which is not studied in any great depth at undergraduate level, the focus of the unit will be on these topics: the current legislative scheme and current policies relating to non-freehold land in Queensland; contemporary issues within the context of the prevailing legislative and policy frameworks; and the development of generic skills including research skills and critical evaluation skills that may be applied in other areas of study.

**Courses:** LW50, LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 1

#### ► LWN132 PUBLIC SECTOR EMPLOYMENT LAW AND POLICY

The main topics to be addressed include the following: the contract of employment; the common law of public sector employment; appointment, discipline and appeal rights of public sector employees; termination of employment; anti-discrimination law; administrative law; case studies of local government, statutory authorities, State and Federal public sector employment law

**Courses:** LW51, LW60

**Contact hours:** 26 over 1 week

**Credit points:** 12

**Campus:** GP

#### ► LWN134 REPRESENTATIVE ACTIONS

This course is designed to provide students with a complete examination on the law relating to Representative Actions in Australia. A significant focus of the unit is the legal requirements of commonality and similarity which are preconditions to the maintenance of such an action. However practical issues encountered in representative action litigation such as pleading, opt-out, costs and notification procedures and the conduct of a representative action are also examined. The unit also deals with the interface between the traditional rules as to compromise and security for costs and the special rules that apply to representative actions. Finally recent developments and law reform proposals concerning group litigation in Australia are considered.

**Courses:** LW50, LW51, LW60

**Contact hours:** 26 in total

**Credit points:** 12

**Campus:** GP

#### ► LWN135 LAW, JUSTICE AND NEW GENETIC TECHNOLOGIES

Our ability to test, screen and manipulate the human genome is made possible by recent technological breakthroughs in science. The science of genetics is not new, but its public profile has never been higher. Current initiatives in genetic knowledge have been described as an international voyage of scientific discovery. The scientific findings are prompting major rethinking of concepts of law and justice. The legal community faces a perpetual challenge in keeping pace with the revolution in genetics. This unit looks at some legal implications of this revolution and charts the major responses of our legal system to modern genetics and biotechnology.

**Courses:** LW50, LW51, LW60

**Contact hours:** Intensive mode

**Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► LWN138 COMPARATIVE CULTURAL HERITAGE LAW

This unit includes the following: an examination of the concepts of culture and cultural heritage; the international law framework within which cultural heritage is managed and protected; an analysis of the ways in which a number of national jurisdictions approach the conservation of their cultural heritage. These include the USA, UK, the European Union, South Africa, China, New Japan, Malaysia, Zealand and Australia. The focus is on cultural heritage values associated with land and land-related resources.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP

**Sem:**

#### ► LWN139 PRIVACY LAW

This unit covers an introduction to the concept of privacy: the historical development of privacy rights and the operation and implication of state

and federal legislation and international obligations; detailed consideration of the Commonwealth private sector regime; consideration of the impact of privacy law on specific fields of practice such as health, employment, not-for-profit and banking/finance/insurance; issues relating to the Internet; compliance and code development; international regimes.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Campus:** GP

**Sem:** 2

#### ► LWN142 EAST ASIAN LEGAL SYSTEMS

Because a country's legal system cannot be adequately understood by just discussing law in books, the aim of this unit is to introduce students to factors that shape a country's legal system such as its history, political systems, culture and language. It also examines key features of constitutions and particular aspects of legal systems that are unique or different from other countries.

**Courses:** LW51, LW60

**Contact hours:** 26 over 6 days

**Credit points:** 12

**Campus:** GP

#### ► LWN143 INTERNATIONAL CRIMINAL JUSTICE

This subject covers one of the most significant and topical developments in international law and human rights today: the question of the international community's response to perpetrators who are responsible for gross violations of human rights. Accountability mechanisms, such as international and national criminal courts, Truth Commissions and extradition arrangements between nations have become more prominent in the last decade, and it is clearly the role of a Law Faculty to discuss and evaluate such important developments. The unit will discuss and apply principles of international criminal law within a human rights and international legal framework.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12

**Campus:** GP

#### ► LWN144 CONTEMPORARY ISSUES IN CHILD LAW

This unit introduces students to selected contemporary legal issues affecting children in Australia. These issues present both legal and moral questions that have implications for legal practice and policy development. This unit gives students the opportunity to identify current legal positions about controversial issues in Australian law relating to children, and to apply advanced skills in legal research, analysis and writing to critically evaluate those positions.

**Courses:** LW51, LW60

**Contact hours:** 2 per week

**Credit points:** 12

**Campus:** GP, EXT

**Sem:** 2

#### ► LWN145 CORPORATE AND INVESTMENT REGULATION

This unit develops a forward thinking approach to corporate and investment regulation and promotes a practical and analytical appraisal of the issues arising in relation to the regulation of companies and investment.

**Courses:** LW51, LW60

**Campus:** GP

**Sem:** 1

#### ► LWN146 INTERNATIONAL AND COMPARATIVE INTELLECTUAL PROPERTY LAW (ASIA PACIFIC)

The unit provides students with an introduction to international intellectual property and policy issues and their connection with the European Union's efforts to create an internal market with a level playing field for the protection of intellectual property. The unit also considers diverging perspectives on topics ranging from the protection of traditional knowledge and folklore to high technology.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days

**Credit points:** 12

**Campus:** GP

#### ► LWN147 PATENT LAW AND COMMERCIALISATION

This unit considers patent law in the context of information technology and biotechnology products. It overviews the fundamental elements of patent law and introduces students to legal issues

involved in the commercialisation of information technology and biotechnology.

**Courses:** LW51, LW60

**Contact hours:** 26 over 4 days **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LWN148 EVIDENCE IN ORGANISED CRIME INVESTIGATIONS

In recognition of the limitations of traditional law enforcement methods in dealing with organised crime and corruption, the Commonwealth and some State governments have granted more extensive powers to their police services and created inquisitorial commissions equipped with special coercive powers. The aim of this unit is threefold: to assist investigators and other professionals to appreciate the impact of rules of evidence in this specific context; to understand how these new powers can be more effectively exercised; to inform those representing persons who are the subject of such exercise on how they can best protect the rights of their clients.

**Courses:** LW60, LW51 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► LWN150 DEATH, DECISIONS AND THE LAW

As people near the end of their lives, their medical treatment and other care raises complex medical, legal and ethical decisions. Choices about whether particular treatment should be provided or refused may have to be made, and this is complicated by the fact that many people may not have the competence at this stage in their life to be able to make these decisions. Although a competent adult may refuse treatment, another choice demanded by some is the right to end their own life and to be assisted by others to achieve this. This unit examines the legal aspects of these choices.

**Courses:** LW51, LW60  
**Contact hours:** 26 over 5 days **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LWN151 SELECT ISSUES IN PROPERTY LAW

The principles and practice relating to transactions of real property are rapidly becoming more complex. This complexity is being driven by continuing statutory intervention in what had been for many years traditionally settled relationships ie those of principal and real estate agent, buyer and seller, commercial lessor and lessee and mortgagor and mortgagee. In recent times the courts are also redefining these relationships through the extension of the law. This unit examines legislation affecting these relationships.

**Courses:** LW51, LW60  
**Contact hours:** 26 over 5 days **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LWN152 LAW OF THE EUROPEAN UNION

The European Union (EU) is now the world's largest and wealthiest trading bloc; it is also developing an increasingly significant role as a player in international diplomatic and military circles, and offers a whole new approach to the issue of the federalisation of governmental activity across national boundaries. For those reasons alone, the legal system of the EU merits study by lawyers in any nation. In a more abstract, academic vein, study of the EU provides a fascinating insight from a comparativist perspective into the difficulties of reconciling national and international interests within a single legal order.

**Courses:** LW51, LW60  
**Contact hours:** 26 over 3 weekends  
**Credit points:** 12 **Campus:** GP

#### ► LWN153 SELECT ISSUES IN ART, CULTURE AND THE LAW

This unit introduces a distinct art and culture law to Australian legal practitioners, arts practitioners and policy makers, which has been developing in the international arena since the 1980s. Creating and selling art and cultural objects is the subject of well-defined categories of law, including contracts, sale of goods and copyright, though other specific forms of regulation, such as the law governing the international movement of cultural objects, is less well-known. This unit examines the relationship between the areas of law and art and culture.

**Courses:** LW51, LW60

**Contact hours:** 26 over 5 days **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► LWN154 TRADE MARK LAW

A general knowledge of trade mark law is integral to an understanding of, and to practice in, the area of intellectual property law. The unit provides an understanding of the legal protection provided to trade marks under legislation and the common law. It introduces students to the principles of law relating to trade marks registered under the Trade Marks Act 1995 (Cth) and the protection of unregistered trade marks under the action of passing-off and the statutory provisions in the Trade Practices Act 1974 (Cth) and equivalent State and Territory legislation proscribing misleading and deceptive conduct.

**Courses:** LW51, LW60  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► LWN155 BIOTECHNOLOGY LAW

Multifaceted problems are raised by biotechnology, most of which revolve around the genetic modification of life. Wide ranging issues include the acceptability of patenting life forms, the monopolisation of basic food production with genetically modified foods, the risk and allocation of risk with the introduction of modified materials into the ecosystem, cloning and stem cell use. Professionals working in the biotechnology area need to be familiar with the legal, scientific and business issues that arise out of this developing area. The aim of this unit is to examine the law related to the globally-significant and growing area of science, business and law known as biotechnology. The focus is on issues such as genetically modified products.

**Courses:** LW51, LW60  
**Contact hours:** 26 over 5 days  
**Credit points:** 12 **Campus:** GP

#### ► LWN156 LAW, JUSTICE AND DEMOCRACY

In this unit, students explore analyses of the major issues of social philosophy including justifications of liberty, harm to others, private property rights, distributive justice, environmental harms, help to others and criminal and offensive behaviour. Students will also discuss links between law, justice and social institutions and how we might adjudicate between competing interests in society. Lawyers and other justice professionals, public administrators, and para-professionals working in the fields of law, justice or politics will find this unit useful in developing a theoretical foundation for understanding social institutions and how they interact with law and morality. Students develop your critical research and writing skills.

**Courses:** LW51  
**Credit points:** 12 **Incompatible with:** JSN005  
**Campus:** EXT **Sem:** 2

#### ► LWN157 COMPARATIVE NATIVE TITLE LAW AND POLICY

Comparative study in the complicated area of 'Native Title' is essential to the principled development of Australian law and policy. This unit has the following aims: to engender an understanding of the development of the Australian native title doctrine in comparative context; to encourage consideration of the various dimensions of the contemporary Australian law and policy with reference to global legal patterns and attention to Indigenous perspectives; to facilitate a critical and reform-oriented examination of current problems in the field in Australia.

**Courses:** LW60, LW51  
**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** GP, EXT **Sem:** 1

#### ► LWR003-1 THESIS

A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-2 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-3 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-4 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-5 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-6 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-7 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► LWR003-8 THESIS

See LWR003-1 for details.  
**Courses:** LW50 **Credit points:** 24  
**Campus:** GP, KG **Sem:** 1, 2

#### ► MAB100 MATHEMATICAL SCIENCES 1A

This unit includes the following: functions (polynomial, trigonometric and exponential functions; properties and graphs); differentiation and integration (derivatives and integrals for common functions and rules for differentiation and integration of composite functions; integration techniques such as substitution, parts and partial fractions; modelling and solution of problems); vectors and matrices (vectors interpreted as geometric relationships in space; matrices as representations of linear systems; aspects of vector algebra and unique, non-unique and non-existent solutions to systems of simultaneous equations); complex numbers (Argand diagrams, complex arithmetic, solution of equations).

**Courses:** BS56, ED50, ED90, IF21, IF29, IF39, IF58, IF60, IF61, IF71, IF73, IF79, IF84, IF86, IT21, IX02, IX04, IX09, IX14, MA54, MA65, MA75, MA85, PS47, PS48, SC01, SC20, SC51  
**Prerequisites:** MAB105 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** MAB180, MAB131  
**Campus:** GP **Sem:** 1, 2, 3

#### ► MAB101 STATISTICAL DATA ANALYSIS 1

This unit includes the following: collection and representation of data; explaining data with models; the normal (Gaussian) distribution; sampling distributions, properties of sample mean and sample variance; hypothesis testing re population mean, mean difference and variances and tests of independence; analysis of variance (ANOVA); aspects of design of experiments; modelling relationships between measurements using regression; extensions of regression; analysis of covariance; confidence intervals; estimating and tests of hypotheses about proportions and probabilities.

**Courses:** ED50, ED90, IF21, IF29, IF39, IF58, IF60, IF61, IF71, IF73, IF79, IF84, IF86, IF87, IT21, IX02, IX04, IX09, IX14, IX15, LS50, MA54, MA65, MA75, MA85, SC01, SC20, SC51  
**Prerequisites:** MAB105 or equivalent  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** EFB101, MAB135, MAB136, MAB137, MAB138, MAB893  
**Campus:** CA, GP **Sem:** 1, 2, 3

#### ► MAB105 PREPARATORY MATHEMATICS

This unit is a substitute for Senior Mathematics B for those students who need the equivalent background for the successful study of units which assume it. It includes the following: basic number facts, natural numbers, integers, rational numbers, real numbers and their operations; basic algebra; functions and equations, graphs, linear

functions, equations and applications; systems of linear equations; quadratic, exponential, logarithmic and trigonometric functions, properties and applications; introduction to calculus; rates of change; derivatives, rules of differentiation, second derivatives and maxima and minima and applications; integration and applications.

**Courses:** SC01

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB107, Prior pass in MAB100, MAB111, MAB131, MAB180, HA in Senior Maths B

**Campus:** CA, GP

**Sem:** 1, 2

#### ► MAB107 INTRODUCTORY MATHEMATICS AND STATISTICS

This unit includes the following: mathematics (introduction to the number system; algebraic operations); properties of functions (representation by graphs; linear functions including simultaneous solution and applications; quadratic functions with applications; exponential and logarithmic functions with applications); elementary trigonometric ratios with applications; introduction to mathematics of finance; statistics (exploration of data sets by graphical methods and descriptive statistics); introduction to the concepts of statistical variation, samples, probability distributions and random variables; discrete and continuous variables; types of distributions, particularly the Normal (Gaussian) distribution; introduction to interval estimation (confidence intervals) and the basic concepts.

**Courses:** CN54

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB105

**Campus:** GP

**Sem:** 2

#### ► MAB111 MATHEMATICAL SCIENCES 1B

This unit includes the following: limits and continuity; introduction to sequences and infinite series; divergence test; comparison test and ratio test; product, quotient and chain rules for derivatives; special techniques (parametric, implicit and logarithmic differentiation; inverses and their derivatives); applications of differentiation to curve sketching; Rolle's theorem, mean value theorem; hyperbolic and trigonometric functions including inverses; L'Hopital's rule; functions of more than one variable, partial derivatives, differentials and applications; Taylor series; Riemann sums; fundamental theorems of integral calculus; solids of revolution and applications.

**Courses:** BS56, ED50, ED90, IF21, IF39, IF58, IF60, IF61, IF71, IF73, IF79, IF84, IF86, IX02, IX04, IX09, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB100 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB131, MAB180

**Campus:** GP

**Sem:** 1, 2, 3

#### ► MAB112 MATHEMATICAL SCIENCES 1C

This unit includes the following: linear systems and matrices; vector algebra; coordinate systems; introduction to abstract algebraic systems; complex numbers; first and second order differential equations.

**Courses:** BS56, ED50, ED90, IF21, IF39, IF58, IF60, IF71, IF84, IF86, IX02, IX04, IX09, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB100 or equivalent

**Corequisites:** MAB111

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2, 3

#### ► MAB131 ENGINEERING MATHEMATICS 1A

This unit includes the following: sine and cosine functions; logarithmic functions; exponential functions; revision of complex numbers; determinants; vector algebra in 2 and 3 dimensions; derivatives and their applications, differentiation, chain rule, higher derivatives, integrals and their applications.

**Courses:** CE44, CE45, CE46, EE41, EE42, EE46, EE47, EE48, IF28, IF29, IF59, IF61, IX25, ME40, ME41, ME42, ME43, ME48, SC01

**Prerequisites:** MAB100

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB111, MAB180, MAB187

**Campus:** GP

**Sem:** 1, 2

#### ► MAB132 ENGINEERING MATHEMATICS 1B

This unit includes the following: vector calculus; differentiation of vectors, velocity and acceleration; relative velocity; vector algebra; equivalent systems of forces; functions of several variables; partial derivatives; hyperbolic functions; inverse functions; inverse trigonometric and hyperbolic functions; partial derivatives; numerical methods; differential equations; multiple integrals; areas and volumes; Laplace transforms; Fourier series.

**Courses:** CE44, CE45, CE46, EE41, EE42, EE46, EE47, EE48, IF28, IF29, IF59, IF61, IX25, ME36, ME40, ME41, ME42, ME43, ME48, SC01

**Prerequisites:** MAB131 or MAB180

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB188

**Campus:** GP

**Sem:** 1, 2, 3

#### ► MAB133 ENGINEERING MATHEMATICS 2

This unit includes the following: polynomial approximations, divided differences and Newton's formula for polynomial approximation; interpolation by cubic splines; convergence of infinite power series; the use of Fourier series and harmonic analysis; quadrature methods; Laplace transform methods for differential equations; numerical solution of differential equations; direct and indirect methods of solution of large scale systems of linear equations; determination of eigenvalues and eigenvectors of large scale linear systems (power method, inverse iteration and acceleration of convergence techniques).

**Courses:** ME41, ME42, ME43, ME48

**Prerequisites:** MAB132

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB487, MAB488

**Campus:** GP

**Sem:** 1

#### ► MAB134 ELECTRICAL ENGINEERING MATHEMATICS 3

This unit includes the following: mathematics (Laplace transform; Fourier series and transforms; vector operators grad, div and curl expressed in spherical polar and Cartesian coordinates; line, surface and volume integrals of electric fields; divergence theorem and Stoke's theorem; field equations); introduction to probability and distributional modelling; conditional probability; discrete and continuous random variables; Bernoulli, binomial and Poisson processes; introduction to queues and teletraffic; estimating probabilities; electromagnetic theory (flux density; electromagnetic induction; magnetic circuits; force and field strength; magnetic hysteresis; magnetic fields around conductors; electric fields; Coulomb's Law; voltage, energy stored in an electric field).

**Courses:** EE41, EE42, EE47, EE48, IF28, IF29, IF59, IF61, ME40, SC01

**Prerequisites:** MAB132 or MAB111, MAB112

**Corequisites:** PCB136 or first level Physics unit

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB139, MAB311, MAB210

**Campus:** GP

**Sem:** 1

#### ► MAB135 ELECTRICAL ENGINEERING MATHEMATICS 4

This unit includes the following: statistics and data analysis (presenting data, use of a statistical package); normal variation and relationships between variables; confidence intervals; hypothesis testing; regression; design of experiments; introduction to reliability; mathematics (the simultaneous partial differential equations of Maxwell; solution in terms of Hertz vectors; the three dimensional wave equation; separation of variables leading to plane and spherical wave solution); Poynting's theorem and vector; simple loci and regions in the complex plane; functions of a complex variable; analytic functions; Cauchy-Riemann equations; Laplace equation; conjugate harmonic functions; complex mapping; impedance and admittance loci, basis for Smith Chart; electrostatic problems.

**Courses:** EE41, EE42, EE47, EE48, IF28, IF59, ME40

**Prerequisites:** MAB134 or MAB311

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB413, MAB101

**Campus:** GP

**Sem:** 2

#### ► MAB136 ENGINEERING STATISTICS

This unit includes the following: presentation of data; use of a statistical package; modelling data; relationships between variables; estimation; confidence intervals; tolerance limits; introduction to quality and SPC; hypothesis testing; fitting and investigating relationships; regression; design and analysis of experiments; reliability; further methods and applications of design and analysis of experiments.

**Courses:** ME41, ME42, ME45, ME48

**Prerequisites:** MAB132

**Credit points:** 12

**Incompatible with:** MAB101, MAB893, MAB135

**Campus:** GP

**Sem:** 2

#### ► MAB137 SURVEYING MATHEMATICS 1

This unit includes the following: statistics (presentation of data; use of a statistical package; modelling data; relationships between variables; estimation; confidence intervals; hypothesis testing; fitting and investigating relationships; regression); multivariate calculus (functions of several variables; definitions and uses, differentiation, multi-variable chain rule, application to error bounds) plane transformations (rotation, translation and scaling of the plane with application to cadastral surveying and mapping).

**Courses:** PS47, PS48 **Prerequisites:** MAB100

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB893, MAB101

**Campus:** GP

**Sem:** 1

#### ► MAB138 ENGINEERING STATISTICS AND NUMERICAL METHODS

This unit includes the following: presentation of data; use of a statistical package; modelling data; relationships between variables; estimation; confidence intervals; hypothesis testing; fitting and investigating relationships; regression; design of experiments; introduction to reliability; introduction to quality and SPC. It also includes numerical methods: function approximation; polynomial interpolation; cubic splines; power series; numerical solution of ordinary differential equations; linear systems.

**Courses:** CE44, CE45, CE46

**Prerequisites:** MAB132

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB487, MAB893, MAB220 and MAB101, MAB135

**Campus:** GP

**Sem:** 1

#### ► MAB139 COMPUTER ENGINEERING MATHEMATICS 3

This unit includes the following: Simpson's rule; Newton-Raphson method; eigenvalues and eigenvectors; quadratic forms; complex matrices; complex numbers and functions of complex variables; Cauchy-Reimann equations; conformal mappings; complex Fourier series; Fourier transforms; Laplace transforms; Heaviside step function; Dirac delta function; convolution theorem; probability axioms; system reliability; conditional probability; Markov chains; discrete and continuous distributions; Poisson processes; queuing and teletraffic models; Bivariate models; introduction to transformations of random variables and links with signals.

**Courses:** EE41, EE46

**Prerequisites:** MAB132 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB134, MAB485

**Campus:** GP

**Sem:** 1, 2

#### ► MAB140 QUANTITATIVE METHODS FOR OPTOMETRY AND HEALTH SCIENCE

This unit includes the following: linear, quadratic, power law and exponential processes; techniques of differentiation, integration and applications to health science modelling; matrices; data situations and types of variables; summary statistics and data features; introduction to a statistical package; modelling data; random variables and distributions; some special distributions; sam-

pling and sample statistics; estimation; confidence intervals; hypothesis testing; tests for means and proportions; p-values; tests for variances; test of independence in contingency table; goodness-of-fit tests; fitting and investigating relationships; regression; residual analysis and diagnostics; multiple regression and curve-fitting; design of experiments; introduction to non-parametric procedures.

**Courses:** OP42

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB141, MAB251,

MAB252, MAB258

**Campus:** GP

**Sem:** 1

#### ► MAB141 MATHEMATICS AND STATISTICS FOR MEDICAL SCIENCE

This unit includes the following mathematics: types of functions; differentiation and integration; determination of an interpolant for discrete experimental data; Lagrange polynomial interpolation formula and cubic spline interpolation; applications; least squares applied to linear and non-linear functions; use of quadratic formula and iterative methods; numerical interpolation. It also includes statistics: data collection and presentation; probability; binomial and Poisson distributions; hypothesis testing; confidence intervals; regression; control charts.

**Courses:** LS37, SC40

**Prerequisites:** MAB105 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB140

**Campus:** GP

**Sem:** 1

#### ► MAB180 ENGINEERING MATHEMATICS 1

This unit includes the following: sine and cosine functions, logarithmic functions, exponential functions; complex numbers; determinants; vector algebra in 2 and 3 dimensions; derivatives and their applications (chain rule, higher derivatives; integrals and their applications).

**Courses:** CE44, CE45, CE46, EE41, EE42, EE46, EE47, EE48, IF28, IF29, IF59, IF61, IX25, ME40, ME41, ME42, ME43, ME48, SC01

**Prerequisites:** MAB105 or equivalent

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB111, MAB131,

MAB187

**Campus:** GP

**Sem:** 1, 2

#### ► MAB209 MATHEMATICS FOR SOFTWARE COMMUNICATION

This unit includes the following: introductory probability and its applications; sets and functions; discrete/continuous random variables and probability distributions; measures of central tendency and spread; introduction to matrices and matrix arithmetic; applications of matrices; stochastic processes; introduction to queueing theory; Euclidean algorithm, congruencies and hashing; Euler's function and the RSA algorithm; Boolean algebra and its applications; applications of Boolean functions.

**Courses:** IT21

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB177, MAB210

**Campus:** GP

**Sem:** 1, 2

#### ► MAB210 STATISTICAL MODELLING 1

This unit includes the following: probability; independence, system reliability; using conditional probability in modelling; introductory Markov chains; random variables; special distributional models; Bernoulli process; Poisson process; exponential; introductory queueing processes; simulating processes; distribution function; Q-Q plots; goodness-of-fit tests; measures of dependence; introductory bivariate and correlation properties; conditioning arguments; non-parametric tests; assumptions and results in linear regression model.

**Courses:** BS56, ED50, ED90, IF21, IF39, IF58, IF60, IF71, IF84, IF86, IT21, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB100 or equivalent **Corequi-**

**sites:** MAB111, MAB112

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► MAB220 COMPUTATIONAL MATHEMATICS 1

This unit includes the following: sources of error; computer arithmetic; MAPLE programming; solution of nonlinear equations in one variable; solution of systems of linear equations; interpolation; finite differences; numerical differentiation and integration; solution of first order linear differential equations.

**Courses:** ED50, ED90, IF21, IF39, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB105 or equivalent **Corequi-**

**sites:** MAB100 or MAB131 or MAB180

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► MAB311 ADVANCED CALCULUS

This unit includes the following: polar coordinates; parametric equations; conic sections; quadric surfaces; vector-valued functions; Fourier series; functions of several variables; graphs; partial derivatives; total derivatives; Lagrange multipliers; Taylor series for multivariable functions; double and triple integrals; Green's theorems; line and surface integrals; divergence theorem; Stoke's theorem and applications.

**Courses:** ED50, ED90, IF21, IF39, IF50, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB111, MAB112 or MAB131 or MAB180, MAB132

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► MAB312 LINEAR ALGEBRA

This unit includes the following: matrix algebra; linear systems and an introduction to Maple; vector spaces; inner product spaces; eigenvalues and eigenvectors.

**Courses:** ED50, ED90, IF21, IF39, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA85, MA85, SC01, SC20, SC51

**Prerequisites:** MAB111, MAB112 or MAB131 or MAB180, MAB132

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► MAB313 MATHEMATICS OF FINANCE

This unit includes the following: interest rates; solution of problems in compound interest; applications of annuities; valuation of securities; quantitative techniques in business and finance.

**Courses:** ED50, ED90, IF39, IF50, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB100 **Corequisites:** MAB111

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB173

**Campus:** GP

**Sem:** 1

#### ► MAB314 STATISTICAL MODELLING 2

This unit includes the following: methods and models of stochastic and statistical processes with applications in engineering, information technology, finance, physical and life sciences; Markov chains; random walks; branching processes; queueing and other birth and death processes; teletraffic; long-term process behaviour; stochastic vs deterministic; process simulation; use of generating functions; bivariate and conditional distributions; transformations; beta, gamma distributions; probability transform and applications in simulations; order statistics, minimum, maximum and range.

**Courses:** ED50, ED90, EE44, EE45, EE48, IF21, IF28, IF39, IF50, IF58, IF59, IF60, IF71, IF84, IF86, IT21, IX02, IX14, MA54, MA65, MA75, MA85, ME40, SC01, SC20, SC51

**Prerequisites:** MAB101, MAB210, MAB111, MAB112 or MAB134, MAB135

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1

#### ► MAB315 OPERATIONS RESEARCH 2

This unit includes the following: the general nature of operations research; formulating, solving and analysing linear programming models; transportation, trans-shipment and assignment models; shortest-route problems; project scheduling techniques (CPM and PERT); replacement and maintenance.

**Courses:** ED50, IF39, IF50, IF58, IF60, IF71, IF84, IF86, IT21, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB112, MAB210

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► MAB413 DIFFERENTIAL EQUATIONS

This unit introduces mathematical modelling: linear differential equations; Euler-Cauchy equation; series methods; Laplace transform; transforms of derivatives and integrals; systems of differential equations; basic theory on linear systems; solution of linear systems with constant coefficients; matrix methods; special methods.

**Courses:** IF21, IF39, IF50, IF58, IF60, IF71,

IF84, IF86, IX02, IX14, MA54, MA65, MA75,

MA85, SC01, SC20, SC51

**Prerequisites:** MAB312 or MAB134

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB133

**Campus:** GP

**Sem:** 2

#### ► MAB414 APPLIED STATISTICS 2

This unit includes the following: parametric estimation, such as maximum likelihood; estimating relationships via linear regression and linear models; analysis of the method of least squares; basic inference and model choice; introduction to time-dependent data and models; forecasting models and application; introduction to sampling methods in a practical context; models for categorical data; introduction to the design experiments; ANOVA.

**Courses:** ED50, EE44, EE45, EE48, IF21, IF28, IF39, IF50, IF58, IF59, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, ME40, SC01, SC20, SC51

**Prerequisites:** (MAB101, MAB111, MAB210 and recommended MAB112) or MAB135 or

MAB136 or MAB137 or MAB138

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► MAB420 COMPUTATIONAL MATHEMATICS 2

This unit includes the following: direct methods for solving systems of linear equations; solution methods for special matrix systems; vector and matrix norms; iterative solution methods for large sparse matrix systems; approximating the eigenvalues and eigenvectors of a matrix.

**Courses:** IF21, IF39, IF50, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB220, MAB312, MAB480 or ITB111

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► MAB422 MATHEMATICAL MODELLING

This unit includes models developed with the 'real world' description. These models are taken from the areas of cancer research, population growth and engineering. Emphasis is on mathematical modelling and not on the development of new mathematical content.

**Courses:** ED50, IF21, IF39, IF50, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC51

**Prerequisites:** MAB111, MAB112 or MAB131 or MAB180, MAB132

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

#### ► MAB480 INTRODUCTION TO SCIENTIFIC COMPUTATION

This unit teaches students how to implement a mathematical algorithm in a modern scientific computing environment (eg Matlab). A case-study approach is used with an emphasis on writing efficient code. An overview of other software packages used in mathematics is included along with an introduction to parallel computing.

**Courses:** IF21, IF39, IF58, IF60, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB112 or MAB131 or MAB481

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB380, ITB849

**Campus:** GP

**Sem:** 2

**► MAB481 VISUALISATION AND DATA ANALYSIS**

This unit covers the following: the history and evolution of data visualisation; definition of data visualisation; impact of data visualisation; fundamentals of computer graphics and modern day visualisation environments; visualisation of 2-D and 3-D data; general visualisation techniques including filtering, colour map transformations, contouring, height fields, coloured height fields, interpolation, Delauney triangulation, iso-surfaces, volume visualisation, probing, slicing, streamlines, streaklines and texture mapping; visualisation of multi-dimensional data, and other data types such as finite element, vector, molecular and scatter data.

**Courses:** IF58, IF60, IT21, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB101, MAB111, MAB480 or ITB111 or ITB410 or ITN600, MAB112 recommended

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB521 APPLIED MATHEMATICS 3**

This unit includes the following: special functions (gamma, delta, Bessel and error functions, Fourier series, Legendre polynomials); vector analysis and applications (vector algebra, vector calculus, fields, grad, div, curl, line and surface integrals, divergence theorem, Stoke's theorem, applications); functions of a complex variable (analytic functions, contour integrals, Laurent series, residues).

**Courses:** IF21, IF39, IF44, IF50, IF58, IF60, IF71, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB311

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB522 COMPUTATIONAL MATHEMATICS 3**

This unit includes the following topics: approximation of data and functions; advanced integration and interpolation methods (Gaussian quadrature, multiple integrals); numerical determination of eigenvalues and eigenvectors (power method, similarity transformations, QR algorithm); solution of systems of non-linear equations (Newton's method, Broyden method, steepest descent); optimisation (line searches, introduction to multivariable optimisation); advanced solution methods for systems of ordinary differential equations and boundary value problems (Runge-Kutta, predictor-corrector, shooting and finite difference methods).

**Courses:** IF21, IF39, IF44, IF50, IF58, IF60, IF71, IF86, IX02, IX14, MA54, MA65, MA85, SC01, SC20, SC51, SC60

**Prerequisites:** MAB420, MAB311

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB523 INTRODUCTION TO QUALITY MANAGEMENT**

This unit includes an introduction to quality management principles and the quality improvement journey concept. Topics include quality assurance and the AS9000 series, TQM, quality costs, statistical process control, flow charts, cause and effect diagram, team decision techniques.

**Courses:** ED50, ED90, IF21, IF39, IF44, IF50, IF58, IF60, IF71, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB101, MAB210

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB524 STATISTICAL INFERENCE**

This unit includes the following: statistical estimation; linear models (ordinary least squares, generalised least squares, heteroscedasticity, autocorrelation); asymptotic theory (convergence in probability and distribution, weak law of large numbers, central limit theorems); maximum likelihood estimation; generalised linear models; quasi-likelihood estimation. Other topics which may be included are multicollinearity, model selection, Bayesian estimation and Markov Chain Monte Carlo methods, and nonlinear models. The computer package S-Plus is used.

**Courses:** IF21, IF39, IF44, IF50, IF58, IF60, IF86, MA54, MA65, MA75, MA85, SC01, SC20, SC51, SC60

**Prerequisites:** MAB314, MAB414

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► MAB525 OPERATIONS RESEARCH 3A**

This unit addresses the inventory theory: algorithms for linear programming; integer and mixed integer programming; travelling salesperson; vehicle routing problems; deterministic and stochastic dynamic programming.

**Courses:** IF39, IF50, IF58, IF60, IF71, IF84, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB315

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB526 STATISTICAL SCIENCE 3**

This unit includes the following: fundamentals of time series analysis; time series models; nonstationary processes; seasonal ARIMA models; vector auto regression; long-range dependence and fractional ARIMA models; co-integration of nonstationary processes.

**Courses:** IF21, IF39, IF44, IF49, IF50, IF58, IF60, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51, SC60

**Prerequisites:** MAB314, MAB414

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** MAN526

**Campus:** GP **Sem:** 1

**► MAB580 SCIENTIFIC COMPUTATION**

This unit includes the following: supercomputing development tools such as compiler options for parallel processing, available resources; profiling scientific algorithms to determine areas where speed-up can be obtained; optimisation of scientific models and algorithms for parallel computer architectures; a major case study from science that has elements in design, application and solution strategy in a supercomputing environment.

**Courses:** IF58, IF60, IT21, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB380 or MAB480, MAB481, MAB420

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB613 PARTIAL DIFFERENTIAL EQUATIONS**

This unit includes the following: derivation of certain partial differential equations; solution of partial differential equations by separation of variables, Laplace and Fourier transforms; Sturm-Liouville systems; special functions; Green's functions.

**Courses:** IF21, IF39, IF44, IF50, IF58, IF60, MA54, MA65, MA75, MA85, SC01, SC20, SC51, SC60

**Prerequisites:** MAB311, MAB413

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► MAB621 DISCRETE MATHEMATICS**

This unit includes the following: groups, rings and fields (additive groups, multiplicative groups; polynomial rings and finite fields); modular arithmetic (property and rules, congruencies, countability and uncountability); proof by mathematical induction, proof by contradiction; isomorphisms and homomorphisms between groups and rings; sets and relations (one-to-one and onto functions, logic, set operations, Boolean algebras); number theory issues (gcd, lcm and theorems involving these); fundamental theorem of arithmetic; arithmetic functions; primitive roots; Fermat's theorems; Euler's theorem; Pythagorean triples and extensions.

**Courses:** ED50, IF21, IF39, IF44, IF50, IF58, IF60, IF71, IF86, IT21, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB112

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► MAB623 FINANCIAL MATHEMATICS**

This unit includes the following: quantitative techniques in business, economics and finance; theory and structure of interest rates (general accumulation and discounting functions, force of

interest, discounting, varying interest, general annuities, varying annuities, continuous varying annuities); mathematical analysis of financial transactions in money and capital markets (yield rates, horizon analysis, duration, convexity, effects of taxation); life annuities and life assurances (the life table, basic life table functions, life annuities and assurances, policy values, paid up policy values, changes to policies); use of life table to study stationary and stable populations; population projections; multiple decrement tables; superannuation.

**Courses:** IF39, IF50, IF58, IF60, IF71, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB313, MAB311

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► MAB624 APPLIED STATISTICS 3**

This unit includes the following: design of experiments for factorial investigations, two and three-level factors; Taguchi's approach, fractions and blocking, response surfaces; general linear model; regression graphics; multi-stratum designs and analysis; repeated measures designs and analysis; linear-logistic and log-linear models; use of statistical software.

**Courses:** IF21, IF39, IF44, IF50, IF58, IF60, IF86, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB414

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** MAN624

**Campus:** GP **Sem:** 2

**► MAB625 OPERATIONS RESEARCH 3B**

This unit includes the phases of an operations research study: decision analysis; queuing theory; implementation in operations research; non-linear programming; heuristic techniques.

**Courses:** IF39, IF50, IF58, IF60, IF86, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB315

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► MAB640 INDUSTRY PROJECT**

The student usually works in industry for a short period full-time, followed by part-time. The student is assisted to develop a suitable plan to manage the project using a Gantt chart or other flow or layout techniques. Students are expected to record progress and subsequently develop an accurate report and seminar presentation.

**Courses:** IF58, IF60, MA54, SC01, SC20, SC51

**Prerequisites:** MAB523

**Corequisites:** At least 36 credit points from 3rd level mathematical sciences units

**Credit points:** 24 **Incompatible with:** MAB960

**Campus:** GP **Sem:** 2

**► MAB672 ADVANCED MATHEMATICAL MODELLING**

Models are developed beginning with the description of 'real world' problems. Emphasis is on the mathematical modelling and not on the development of new mathematical techniques.

The unit includes the following: mathematical modelling, model formulation, dimensional analysis and re-scaling; curves of pursuit, bungee jumping; modelling with systems of ordinary differential equations, phase plane methods for analysing systems of ODEs; bacterial growth in a chemostat; Predator-Prey models with harvesting; limit cycles, oscillations and excitable media; modelling with partial differential equations; motion of a continuum; continuity; traffic flow; aggregation of slime mould amoebae; momentum; ideal gas dynamics; quasi-linear PDEs.

**Courses:** IF21, IF39, IF44, IF50, IF58, IF60, IF71, IF86, IX02, IX14, MA54, MA65, MA75, MA85, SC01, SC20, SC51, SC60

**Prerequisites:** MAB422, MAB312, Recommended: MAB413

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► MAB681 ADVANCED VISUALISATION AND DATA ANALYSIS**

This unit includes the following: advanced visualisation; virtual reality and data analysis; contemporary issues in data visualisation; introduction to advanced tools; completion of a project in

advanced visualisation which demonstrates analysis, background research, investigation, development of project proposal; presentation of the project outcomes.

**Courses:** IF58, IT21, MA54, MA65, MA75, MA85, SC01, SC20, SC51

**Prerequisites:** MAB380 or MAB480, MAB481

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAN681

**Campus:** GP

**Sem:** 2

#### ► MAB730 SURVEYING MATHEMATICS 2

This unit includes the following: systems of linear equations; Gaussian elimination; matrix inversion; properties of inverses; partial pivoting; error propagation; determinants; properties of determinants; rank; compact (direct) and iterative (indirect) methods for solving linear systems; eigenvalues of 2x2 and 3x3 matrices; diagonalisation; quadratic forms; conic sections; Lagrange interpolation; divided differences; least squares methods; two-dimensional interpolation methods; Fixed-point iteration; Newton's method and Quasi-Newton methods.

**Courses:** PS47, PS48 **Prerequisites:** MAB100

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB496, MAB795

**Campus:** GP

**Sem:** 2

#### ► MAN200 MATHEMATICAL FOUNDATIONS

This unit is intended to cater for students who may not have studied mathematics for some years and who are enrolled in postgraduate coursework in mathematical science. The unit is tailored to suit individual needs. Content is organised into modules and can include material delivered in a workshop for industry participants.

**Courses:** MA65, MA75, MA85

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► MAN201 MATHEMATICS

This unit caters for students who need more than one mathematics unit to provide the necessary background for studying more advanced units in postgraduate coursework in mathematical science. Students may use material from one first level undergraduate material with extension material or combine content from more than one first level unit.

**Courses:** MA65, MA75, MA85

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

#### ► MAN526 TIME SERIES ANALYSIS

The following core content will be covered: fundamentals of time series Analysis; time series models; nonstationary processes; seasonal ARIMA models; vector autoregression; long-range dependence and fractional ARIMA models; co-integration of nonstationary processes. The computer package S-Plus will be used to implement and simulate the models and techniques developed throughout the unit.

**Courses:** IF49, MA65, MA75, MA85, SC80

**Prerequisites:** MAB314, MAB414

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB526

**Campus:** GP

**Sem:** 1

#### ► MAN624 APPLIED STATISTICS

This unit includes the following: fractional factorial designs; blocking, aliasing; development of basic statistical software (eg SAS) programming skills; modelling continuous responses using regression techniques, diagnostics, transformations, model choice and plots; modelling binary data and proportions using linear logistic models; modelling count data using loglinear models; additional reading topics from modelling survival data and hazard modelling using loglinear models; data analysis and inference techniques based on simulation techniques, such as the bootstrap; non-linear regression techniques such as regression trees.

**Courses:** IF49, MA65, MA75, MA85, SC80

**Prerequisites:** MAB414

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB624

**Campus:** GP

**Sem:** 2

#### ► MAN681 ADVANCED VISUALISATION AND DATA ANALYSIS

This unit includes advanced visualisation and data analysis tools and techniques. It includes project work involving selection, planning and research and a presentation and report on the project which indicates the use of search strategies and bibliographic systems.

**Courses:** IF49, MA65, MA75, MA85, SC80

**Prerequisites:** MAB380 or MAB480, MAB481

**Contact hours:** 4 per week **Credit points:** 12

**Incompatible with:** MAB681

**Campus:** GP

**Sem:** 2

#### ► MAN700 PROJECT

This project is based on a problem from the student's workplace or interests.

**Courses:** MA65, MA75, MA85

**Credit points:** 24

**Campus:** GP

**Sem:** 1, 2, 3

#### ► MAN717 MINOR PROJECT

This project may be related to that undertaken in MAN700 or in MAN787 or in a separate area. It must be self-contained and is assessed separately.

**Courses:** MA65, MA75, MA85, SC60

**Credit points:** 12 **Incompatible with:** MAB717

**Campus:** GP

**Sem:** 1, 2, 3

#### ► MAN761 ANALYSIS

This unit includes the following: convergence in  $\mathbb{R}$ ; uniform convergence; Lebesgue integral; convergence theorems;  $L_p$ -spaces; metric spaces; completeness and compactness; contraction mappings; normed and Banach spaces; dual spaces; linear operators; Hilbert spaces; Hilbert-adjoint operator; linear operator equations; spectrum of a linear operator.

**Courses:** MA65, MA75, MA85, SC60, SC71, SC80, IF49

**Prerequisites:** MAB311

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB761

**Campus:** GP

**Sem:** 2

#### ► MAN762 FIELD THEORY

This unit includes the following: electrostatics; steady current theory; magnetism; Maxwell's equations; Hertz vectors; energy of the electromagnetic field; plane waves; spherical waves; treatment of special problems.

**Courses:** IF49, MA65, MA75, MA85, SC60, SC71, SC80

**Prerequisites:** MAB413, MAB521, MAB613

recommended

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB762

**Campus:** GP

**Sem:** 1

#### ► MAN764 APPLIED MATHEMATICAL MODELLING

This unit enables students to develop and practice mathematical modelling skills by considering topical problems from current research activities and beyond the discipline of mathematics. Some of the problems considered include the dispersion of a pollutant in a river, waves of pursuit and evasion, Turing mechanisms and the generation of spatial patterns in biological or biochemical systems. A notable emphasis of this unit is the collaborative development of mathematical models for novel problems.

**Courses:** IF49, MA65, MA75, MA85, SC60, SC71, SC80

**Prerequisites:** MAB613, MAB672

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB764

**Campus:** GP

**Sem:** 2

#### ► MAN765 BAYESIAN DATA ANALYSIS

Basics of Bayesian statistical inference; frequentist and Bayesian inference for basic statistical models; multiparameter models and hierarchical Bayesian models; resampling and simulation; Markov chain Monte Carlo and related simulation methods; directed acyclic graphical models as probability models; use of BUGS software; model and simulation diagnostics; generalised linear models and mixed models; missing data models; spatial data models.

**Courses:** IF49, MA65, MA75, MA85, SC60, SC71, SC80

**Prerequisites:** MAB524, MAN624 or MAB624

recommended

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB765

**Campus:** GP

**Sem:** 1

#### ► MAN766 APPLIED TIME SERIES ANALYSIS

This unit includes the following: spectral analysis of ARMA models; frequency estimation; fast algorithm for spectral analysis and frequency estimation; applications to speech and audio samples; non-linear spectral methods; non-linear time series models; chaos; tests for non-linearity; forecasting methods for non-linear models; non-parametric models; applications to business and financial time series.

**Courses:** MA65, MA75, MA85, SC60, SC71, SC80, IF49

**Prerequisites:** MAN526 or MAB526, MAB524

recommended

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB766

**Campus:** GP

**Sem:** 2

#### ► MAN768 ADVANCED TECHNIQUES IN OPERATIONS RESEARCH

This unit includes the following: nature of operations research; inventory systems modelling, including lot-size problems, recent developments in inventory theory, material requirement planning, just-in-time production; production planning and scheduling, including static and dynamic methods, aggregate planning, LP/LDR/SDR techniques, heuristics; operations scheduling, including sequencing and balancing techniques, job shop scheduling, assembly line balancing; networks, including project management, network scheduling, resources allocation, NP-completeness.

**Courses:** MA65, MA75, MA85, SC60, SC71, SC80, IF49

**Prerequisites:** MAB625

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB768

**Campus:** GP

**Sem:** 1

#### ► MAN769 MATHEMATICS OF FINANCE

This unit includes the following: the stock market; basic option theory; the Black-Scholes analysis. Brownian motion, Ito's lemma and stochastic calculus; the Black-Scholes market model and option valuation formula; bond valuation and interest rate models; mathematical aspects of the capital asset pricing model.

**Courses:** MA65, MA75, MA85, SC60, SC71, SC80, IF49

**Prerequisites:** MAB413, MAB623 recommended

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB769

**Campus:** GP

**Sem:** 2

#### ► MAN771 COMPUTATIONAL MATHEMATICS 4

This unit includes the following: a discussion of the conservation equations that describe fluid motion; explicit and implicit finite difference solution methods for the one-dimensional generalised diffusion equation; introduction to the finite volume method with application to the one-dimensional diffusion equation; treating advection/convection, monotonicity arguments, stability, TVD schemes, upstream averaging, and a brief discussion of flux limiting; extensions of the finite volume method to higher dimensions on both structured and unstructured grids.

**Courses:** MA65, MA75, MA85, SC60, SC71, SC80, IF49

**Prerequisites:** MAB522, MAB613

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB771

**Campus:** GP

**Sem:** 2

#### ► MAN774 PERTURBATION METHODS

This unit includes the following: regular and singular perturbation expansions; asymptotic expansions; boundary layer analysis and matched asymptotic expansions; selected examples from industrial applications and mathematics applied in medicine and biology.

**Courses:** IF49, MA65, MA75, MA85, SC60, SC71, SC80

**Prerequisites:** MAB413, MAB521

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB762

**Campus:** GP**Sem:** 1**► MAN775 STATISTICAL MODELLING OF FINANCIAL PROCESSES**

This unit includes the following: Wiener process; martingales; Markov processes; stochastic integrals and stochastic calculus; equivalent martingale measure; stochastic differential equations (SDE); the martingale-SDE approach to option pricing; replicating portfolio; statistical estimation of stochastic volatility via ARCH/GARCH-type models; quasi-likelihood estimation of long-range dependence and non-Gaussianity in financial processes.

**Courses:** IF49, MA65, MA75, MA85, SC60, SC71, SC80

**Prerequisites:** MAB524, MAN526 or MAB526

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB765

**Campus:** GP**Sem:** 1**► MAN778 APPLICATIONS OF DISCRETE MATHEMATICS**

This unit includes graph theory: introduction; graph isomorphisms, Euler trails and circuits; planar graphs; Hamiltonian paths and cycles; graph colouring with applications to electrical networks, coding theory, operations research, computer programming and chemistry. It also includes abstract Algebra where advanced concepts of groups, rings and fields are introduced. Applications include the solvability by radicals of polynomial equations and ruler and compass constructions eg squaring the circle, elliptic curve cryptosystems.

**Courses:** IF49, MA65, MA75, MA85, SC60, SC71, SC80

**Prerequisites:** MAB621

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP**Sem:** 1**► MAN787-1 PROJECT**

This project is research-based and involves writing a thesis and giving an oral presentation. Approval required from the Head of School (36 credit points achieved at completion of MAN787-1, MAN787-2 and MAN787-3.)

**Courses:** MA75, MA85, SC60

**Credit points:** 12

**Incompatible with:** MAB787

**Campus:** GP**Sem:** 1, 2, 3**► MAN787-2 PROJECT**

See MAN187-1 for details.

**Courses:** MA75, MA85, SC60

**Credit points:** 12

**Incompatible with:** MAB787

**Campus:** GP**Sem:** 1, 2, 3**► MAN787-3 PROJECT**

See MAN187-1 for details.

**Courses:** MA75, MA85, SC60

**Credit points:** 12

**Incompatible with:** MAB787

**Campus:** GP**Sem:** 1, 2, 3**► MDB001 INTEGRATED FOUNDATIONS STUDIES 2: SCIENTIFIC AND QUANTITATIVE LITERACY**

It is recognised that Mathematics and Science play crucial roles in the functioning of modern society through their contribution to our understanding of our physical, social and personal worlds, and their usefulness in solving problems a wide range of problems. As students engage with the content of the unit (for example, number, time, astronomy, navigation, measurement, geometry, probability) they will recognise that each is a discipline with a language and methods of thinking that have evolved in historical and social contexts. Knowledge of both areas is important for people to be critically reflective thinkers and active participants in society, and for their life long learning.

**Courses:** ED91, ED43, ED47, ED51, ED52, IF82, IX12

**Credit points:** 12

**Incompatible with:** MDB386, MDB387

**Campus:** KG, CB**Sem:** 1**► MDB002 PRIMARY CURRICULUM AND PEDAGOGIES: MATHEMATICS 1**

Mathematics is an essential key learning area of the primary school curriculum. Mathematics is closely linked to numeracy, but it extends beyond

the day-to-day demands of society. Mathematics underpins and assists in the growth of technology, economics and finance, communication, and the new science of biotechnology. All students complete two units of Mathematics Education. Mathematics Education I focuses on the teaching of numbers, operations, and measurement. The content will consider the role of technology in these three strands.

**Courses:** ED91, ED47, ED51, IX12, IX14

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** MDB373

**Campus:** KG, CB**Sem:** 1, 2**► MDB003 PRIMARY CURRICULUM & PEDAGOGIES: MATHEMATICS 2**

This unit investigates new ideas in the teaching and learning of the above topic areas. Students study the development of conceptual understanding in the areas of space and shape, chance and data, and pre-algebra with a particular emphasis on understanding the 'big' mathematical ideas, and principles behind these topics.

**Courses:** ED91, ED47

**Credit points:** 12 **Incompatible with:** MDB374

**Campus:** KG**Sem:** 2**► MDB004 PRIMARY CURRICULUM & PEDAGOGIES: INFORMATION AND COMMUNICATION TECHNOLOGIES**

Information and Communication Technologies (ICT) play a significant role in contemporary society and therefore technological literacy is increasingly being seen as an essential part of education. This form of literacy involves the ability to create, use, manage, and understand ICT in a range of contexts. In addition, new networked technologies have brought about the potential for expanding learning opportunities. These necessitate the re-examination of effective learning and teaching principles, the role of the learner, the role of the teacher, creating worthwhile partnerships, and the use of ICT within the learning situation.

**Courses:** ED91, ED56, ED82, ED47, IF84

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** MDB383

**Campus:** External, KG, CB**Sem:** 1, 2**► MDB005 PRIMARY CURRICULUM & PEDAGOGIES: DESIGN AND TECHNOLOGY EDUCATION**

This unit is designed for students to explore content, pedagogical content knowledge and pedagogies important in design and technology education.

**Courses:** ED91

**Credit points:** 12

**Campus:** KG**Sem:** 2**► MDB006 PRIMARY CURRICULUM & PEDAGOGIES: SCIENCE**

Becoming scientific and technologically literate contributes to learners' capabilities as life-long learners by providing them with the knowledge and dispositions to question systematically their natural environment. In the prerequisite unit about Mathematics and Science Foundations, grounding in some basic concept areas that help to explain children's everyday experiences of the natural world and an understanding of the nature of science was explored. In this unit, the opportunity is presented for students to develop exciting and innovative science programs at all levels of the primary school with a focus on developing scientific skills and abilities to retrieve and explore new scientific knowledge.

**Courses:** ED91, ED47

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** MDB384

**Campus:** KG, CB**Sem:** 1**► MDB009 BIOLOGY CURRICULUM STUDIES 1**

As a preservice teacher, students need to be introduced to the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom. Effective practitioners require a knowledge and understanding of factors that impact on the learning environment and how these can be managed. These understandings and skills are gained over time and through experience and practice. In this first curriculum unit, students engage with some of the theory that

influences approaches to teaching in the sciences and with the syllabi and other documents that impact significantly on planning for learning and teaching. Students are provided with opportunities to explore ways of applying the theory.

**Courses:** ED90, ED95, ED55, IX02, IX04

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT**Sem:** 1**► MDB010 BIOLOGY CURRICULUM STUDIES 2**

This unit provides an opportunity to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment.

**Courses:** ED90, ED95, IX02, IX04, ED55

**Prerequisites:** MDB009

**Credit points:** 12

**Campus:** KG, EXT**Sem:** 1, 2**► MDB011 BIOLOGY CURRICULUM STUDIES 3**

This unit provides opportunity for the student to understand the theoretical underpinnings of an extensive range of strategies and resources and to competently plan to use these strategies to enhance learning opportunities for future pupils.

**Courses:** ED90, ED95, IX02, IX04, ED55

**Prerequisites:** MDB010

**Credit points:** 12

**Campus:** KG**Sem:** 2**► MDB012 CHEMISTRY CURRICULUM STUDIES 1**

Effective practitioners require a knowledge and understanding of factors that impact on the learning environment and how these can be managed. They need both theoretical and practical experience of teaching strategies and how they can be used to enhance learning for the diversity of learners found in any classroom. In this first curriculum unit, students engage with some of the theory that influences approaches to teaching in the sciences and with the syllabi and other documents that impact significantly on planning for learning and teaching. Students are provided with opportunities to explore ways of putting the theory into practice.

**Courses:** ED90, ED95, ED55, IX02

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT**Sem:** 1**► MDB013 CHEMISTRY CURRICULUM STUDIES 2**

This unit is to encourage the student to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. The student should also develop a critically reflective orientation to teaching experiences.

**Courses:** ED90, ED95, IX02, ED55

**Prerequisites:** MDB012

**Credit points:** 12

**Campus:** KG, EXT**Sem:** 1, 2**► MDB014 CHEMISTRY CURRICULUM STUDIES 3**

This unit allows the student to understand the theoretical underpinnings of an extensive range of strategies and resources and to competently plan to use these strategies to enhance learning opportunities for future pupils.

**Courses:** ED90, ED95, IX02, ED55

**Prerequisites:** MDB013

**Credit points:** 12

**Campus:** KG, EXT**Sem:** 2**► MDB015 COMPUTING CURRICULUM STUDIES 1**

Computing is now an integral part of secondary education and information and communications technologies (ICTs) are used in all subject disciplines. This unit (the first of three computing curriculum studies units) is designed to introduce students to how ICT can be used to create meaningful learning experiences for students in teaching with, about and through computers.

**Courses:** ED90, ED55, IX09

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT**Sem:** 1

**► MDB016 COMPUTING CURRICULUM STUDIES 2**

Computing is now an integral part of secondary education and information and communications technologies are used in all subject disciplines. This unit builds on the understandings and skills development of the prerequisite and introduces the student to the discrete syllabi which constitute the senior secondary computing curriculum in Queensland secondary schools.

**Courses:** ED90, IX09, ED55

**Prerequisites:** MDB015 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

**► MDB017 COMPUTING CURRICULUM STUDIES 3**

This unit builds on the previous 2 units and prepares the student to teach the subjects within the senior secondary computing curriculum in Queensland secondary schools.

**Courses:** ED90, IX09, ED55

**Prerequisites:** MDB016

**Credit points:** 12 **Campus:** KG, EXT

**► MDB018 EARTH SCIENCE CURRICULUM STUDIES 1**

As preservice teachers, students need to be introduced to the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom. They need both theoretical and practical experience of teaching strategies and how they can be used to enhance learning for the diversity of learners found in any classroom. In this first curriculum unit, students engage with some of the theory that influences approaches to teaching in the sciences and with the syllabi and other documents that impact significantly on planning for learning and teaching. Students are provided with opportunities to explore ways of putting the theory into practice.

**Courses:** ED90, ED95, ED55, IX02

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

**► MDB019 EARTH SCIENCE CURRICULUM STUDIES 2**

This unit encourages the student to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop a critically reflective orientation to their teaching experiences.

**Courses:** ED90, ED95, IX02, ED55

**Prerequisites:** MDB018 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

**► MDB020 EARTH SCIENCE CURRICULUM STUDIES 3**

This unit allows the student to understand the theoretical underpinnings of an extensive range of strategies and resources and to competently plan to use these strategies to enhance learning opportunities for future pupils.

**Courses:** ED90, ED95, IX02, ED55

**Prerequisites:** MDB019 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

**► MDB021 MATHEMATICS CURRICULUM STUDIES 1**

Teachers of middle and secondary school mathematics need a range of understandings and skills to be effective practitioners in the complex social and technological environment of the classroom. This unit introduces students to the teaching and learning of mathematics at the secondary school level. It begins development of students' knowledge and understanding of the secondary mathematics curriculum and their curriculum development skills. The unit is an important component of preparation for Field Studies 1.

**Courses:** ED90, ED95, ED55, ED92, ED82, IX02, IX04, IX09

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

**► MDB022 MATHEMATICS CURRICULUM STUDIES 2**

This unit develops the students' understanding of the school mathematics curriculum and extends their knowledge and understanding of inclusive learner-focused approaches to mathematics curriculum development.

**Courses:** ED90, ED95, IX02, IX04, IX09, ED55

**Prerequisites:** MDB021 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

**► MDB023 MATHEMATICS CURRICULUM STUDIES 3**

This unit extends the students' knowledge and understanding of the mathematics curriculum with an emphasis on catering for the range of students engaged in secondary education, inclusive practices, and diagnosis of mathematical learning difficulties.

**Courses:** ED90, ED95, IX02, IX04, IX09, ED55

**Prerequisites:** MDB022 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

**► MDB024 PHYSICS CURRICULUM STUDIES 1**

Effective practitioners require a knowledge and understanding of factors that impact on the learning environment and how these can be managed. They need theoretical understanding of factors that impact on learning in science. They need both theoretical and practical experience of teaching strategies and how they can be used to enhance learning for the diversity of learners found in any classroom. In this first curriculum unit, students engage with some of the theory that influences approaches to teaching in the sciences and with the syllabi and other documents that impact significantly on planning for learning and teaching. Students are provided with opportunities to explore ways of applying the theory.

**Courses:** ED90, ED95, ED55, IX02

**Prerequisites:** 24 credit points in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

**► MDB025 PHYSICS CURRICULUM STUDIES 2**

This unit provides an opportunity for students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop critically reflective orientation to their teaching experiences.

**Courses:** ED90, ED95, IX02, ED55

**Prerequisites:** MDB024 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

**► MDB026 PHYSICS CURRICULUM STUDIES 3**

This unit encourages students to understand the theoretical underpinnings of an extensive range of strategies and resources and to competently plan to use these strategies to enhance learning opportunities for future pupils.

**Courses:** ED90, ED95, IX02, ED55

**Prerequisites:** MDB025 **Credit points:** 12

**Campus:** KG **Sem:** 2

**► MDB027 SCIENCE CURRICULUM STUDIES 1**

Students are introduced to the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom in this unit. A theoretical understanding of factors that impact on learning in science and practical experience of how these influence planning for learning are addressed together with teaching strategies and how they can be used to enhance learning for the diversity of learners found in any classroom. In this first curriculum unit, students engage with some of the theory that influences approaches to teaching in the sciences and with the syllabi and other documents that impact significantly on planning for learning and teaching.

**Courses:** ED90, ED95, IX02, IX09, ED55

**Prerequisites:** 24cp in appropriate discipline studies

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

**► MDB028 SCIENCE CURRICULUM STUDIES 2**

This unit encourages the student to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students should develop a critically reflective orientation to their teaching experiences.

**Courses:** ED90, ED95, IX02, IX09, ED55

**Prerequisites:** MDB027 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1, 2

**► MDB029 SCIENCE CURRICULUM STUDIES 3**

This unit allows the student to understand the theoretical underpinnings of an extensive range of strategies and resources and to competently plan to use these strategies to enhance learning opportunities for future pupils.

**Courses:** ED90, ED95, IX02, IX09, ED55

**Prerequisites:** MDB028 **Credit points:** 12

**Campus:** KG **Sem:** 2

**► MDB030 UNDERSTANDING AND EDUCATION GIFTED LEARNERS**

This elective addresses the education of gifted students by exploring the appropriate curriculum interventions necessary to meet their specific needs. Some 10-15% of students are identified as gifted and these require specialist educational interventions to ensure that the curriculum offers the appropriate challenge to develop their potential and to avoid boredom, frustration or underachievement. In order to establish appropriate curriculum and pedagogical approaches, an understanding of the nature of giftedness is also necessary.

**Courses:** ED90, ED91, ED92, ED82, IX01-09

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

**► MDB120 MATHEMATICS CURRICULUM AND PEDAGOGIES**

This unit provides content knowledge and pedagogical strategies to promote the mathematical development (both cognitive and social) of their students.

**Courses:** ED96, IX12, IX14 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 1

**► MDB121 SCIENCE AND TECHNOLOGY CURRICULUM PEDAGOGIES**

This unit continues to develop knowledge of relevant curricula, theoretical bases of teaching and learning in science and technology, pedagogical skills and resources, and pedagogical content knowledge, necessary to confidently and effectively plan, teach, assess and evaluate primary science and technology programs.

**Courses:** ED96, IX12, IX14 **Credit points:** 12

**Campus:** KG, EXT **Sem:** 2

**► MDB300 TEACHING IN THE INFORMATION AGE**

This unit addresses the following: the impact of information technology on education; the concept of an information society; the way in which what is defined as knowledge is contested and changed by information technology; strategies for learning and teaching using information technology. Practical skills using computer hardware and software communication technology and multimedia are developed with a view to appropriate implementation within the curriculum.

**Courses:** ED43, ED50, ED52, ED54, ED55, IF70-79

**Prerequisites:** 48 credit points of Education Studies including CLB341

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MDB383, MDB385

**Campus:** KG **Sem:** 2, 3

**► MDB320 DATABASE THEORY AND TECHNIQUES**

This unit addresses the following: the logical and physical models of information systems; characteristics and use of structured query language to query existing curriculum databases and construct new ones; the sociological implications of the utilisation of public and private databases.

**Courses:** ED90, ED50

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG **Sem:** 1

### ► MDB321 INFORMATION SYSTEM MODELLING IN EDUCATIONAL CONTEXTS

This unit examines the modelling of information systems, relational systems, fact oriented approaches, conceptual schema design.

**Courses:** ED90, ED50 **Prerequisites:** MDB320  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► MDB322 COMPUTER SYSTEMS FOR TEACHERS

This unit includes the following: examination of single and multi-user operating systems; interaction with computer systems and management of stored information; definition and implementation of algorithms in suitable language; selection of computable representation for real world concepts and application in computer programs; hierarchy of levels of abstraction; adoption of abstracted views of real world information processing or problem-solving situations; capabilities and limitations of conventional, sequential processing, machine architectures.

**Courses:** ED90, ED50  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► MDB323 PROGRAMMING LANGUAGES FOR TEACHERS

This unit examines further software developments, techniques of program development, top-down design and modularity, and computer programming using appropriate languages.

**Courses:** ED90, ED50 **Prerequisites:** MDB345  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► MDB326 BIOLOGY CURRICULUM STUDIES 2

This unit considers the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF71, IF73  
**Prerequisites:** MDB325  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB328 CHEMISTRY CURRICULUM STUDIES 2

This unit considers the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF71  
**Prerequisites:** MDB327  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB330 COMPUTING CURRICULUM STUDIES 2

This unit considers the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF79  
**Prerequisites:** MDB329  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB332 EARTH SCIENCE CURRICULUM STUDIES 2

This unit considers the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF71  
**Prerequisites:** MDB331  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB334 MATHEMATICS CURRICULUM STUDIES 2: SENIOR MATHEMATICS

This unit considers the following: curriculum development within the context of contemporary

policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED26, ED50, ED54, ED55, IF71, IF73, IF79

**Prerequisites:** MDB333  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB336 PHYSICS CURRICULUM STUDIES 2

This unit considers the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF71  
**Prerequisites:** MDB335  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB338 SCIENCE CURRICULUM STUDIES 2

This unit considers the following: curriculum development within the context of contemporary policies, frameworks and agencies; general principles of measurement, assessment and evaluation; teaching and learning strategies; issues and directions in curriculum development.

**Courses:** ED50, ED54, ED55, IF71, IF79  
**Prerequisites:** MDB337  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► MDB345 SOFTWARE DEVELOPMENT FOR EDUCATIONAL CONTEXTS

Algorithmic thinking and its implementation form a major component within the Information Processing and Technology syllabus now implemented in secondary schools. Prospective teachers of courses such as these require a sound foundation in the design and development of software along with the use of modern abstract procedural, data and object handling representations. Software design and development are closely bound to particular problems contexts.

This unit is based on the design of educational software because this area is relevant to the students concerned and because there is a clear demand for such software. Students in this unit employ a range of powerful programming techniques and structures in the development of educational computer software.

**Courses:** ED50 **Prerequisites:** MDB322  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► MDB349 NUMERACY AND MATHEMATICAL REASONING FOR THE 21ST CENTURY

This unit includes the following: the concept of thinking and intelligence; the nature of mathematical thinking during the first half of this century; modern ideas on the nature of mathematical thinking; the thinking skills movement and programs designed to foster thinking; analysis of children's thinking in solving mathematical problems; analysis of students' 'everyday cognition' together with their thinking in mathematical situations.

**Courses:** ED90, ED91, ED92, ED82, ED51, ED52, ED54  
**Prerequisites:** MDB386  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► MDB374 MATHEMATICS CURRICULUM 2

This unit addresses the following topics: spatial reasoning (concepts, models, constructions, reasoning processes); chance and data (concepts, procedures, reasoning processes); pre-algebra (arithmetical structure, expressions and equations); mathematical thinking (critical, reflective, creative, flexible, and logical reasoning, together with problem representation, construction, modelling, solving); working effectively with technological tools (concepts, communication processes, project development).

**Courses:** ED51  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MDB003

**Campus:** KG

**Sem:** 2

### ► MDB377 PROJECT PLANNING AND IMPLEMENTATION FOR EDUCATIONAL PURPOSES

The study of computing and its application in educational and other environments is very much associated with planned and sequenced implementation of tasks. A study and understanding of how tasks might be represented, sequenced and implemented is essential if technology is to be used effectively in education. The use of project work as a pedagogical technique is a popular strategy to promote independent learning and student autonomy. This unit provides students with a framework to evaluate this methodology.

**Courses:** ED50, ED51, ED90, ED91, ED82  
**Prerequisites:** MDB375 or MDB392  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► MDB381 SCIENCE AND TECHNOLOGY IN THE COMMUNITY AND WORKPLACE

This unit addresses the following: development of an awareness of how science and technology pervade most aspects of our daily lives in communities and workplaces; the implications of a rapidly changing scientific and technological base of industry; increasing involvement of the public in national and international decision-making; the need for a scientifically literate society. Practical exercises and projects are also undertaken.

**Courses:** ED50, ED54, ED55, IF70-79  
**Credit points:** 12  
**Campus:** EXT **Sem:** 2

### ► MDB384 SCIENCE EDUCATION

Science curriculum development and implementation examines the growth of children's understandings of key concepts in science. The development of their scientific thinking and manipulative skills is also investigated in conjunction with this. Extended sequences of learning experiences, or programs, are planned and implemented.

**Courses:** ED26, ED51, ED56, IF82, IF84, ED47  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MDB006  
**Campus:** KG, EXT **Sem:** 1, 2, 3

### ► MDB388 NUMERACY IN GAMES OF SKILL AND CHANCE

This unit considers the development of probabilistic ideas and concepts through the playing and analysis of games of chance and skill.

**Courses:** ED43, ED47, ED90, ED91, ED92, ED82, ED52, ED51, ED47, ED91, ED82  
**Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► MDB389 LIFE AND LIVING PROCESSES

This unit provides preservice teachers with opportunities to demonstrate understandings of contemporary theories and concepts of life and living processes, and through practical experience formulate their own values and attitudes commensurate with modern ecocentric environmental ideology.

**Courses:** ED52, ED51, ED47, ED90, ED91, ED92, ED82  
**Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► MDB390 NATURAL AND PROCESSED MATERIALS

This unit continues the development of students' content knowledge in science by examining a range of scientific concepts that contribute to an understanding of science in a technological context. The focus is on the exploitation of natural and processed materials and a consideration of the environment and social costs and benefits associated with the use of those materials.

**Courses:** ED47, ED90, ED91, ED92, ED82, ED52, ED51  
**Prerequisites:** MDB387  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► MDB391 EARTH AND SPACE

This unit examines scientific concepts in important areas of space, time and motion, the origin and history of earth and its environments, and

light and optics. Scientific principles and techniques for observing space and earth phenomena are investigated.

**Courses:** ED47, ED90, ED91, ED92, ED82, ED52, ED51

**Prerequisites:** MDB390

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► MDB392 EDUCATIONAL COMPUTING ENVIRONMENTS

The aim of this unit is to engender an awareness of the fundamental principles in the use of computer systems used in educational environments. It presents concepts that serve as a basis for further study.

**Courses:** ED43, ED52, ED51, ED47, ED91, ED82, ED90, ED91, ED92

**Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► MDB393 NETWORKED COMMUNITIES

This unit aims to engender an awareness of networked communities used in educational environments. It also presents concepts that serve as a basis for further study.

**Courses:** ED52, ED51, ED47, ED90, ED91, ED92, ED82

**Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► MDB395 MARINE STUDIES CURRICULUM

An understanding of interactions between humans and the marine environment are crucial if we are to maintain a viable ecosystem. We use the marine environment for both pleasure and for survival. As individuals we obtain food, leisure and relaxation from the sea, as a society we exploit its resources, use it for transport and deposit effluent in it. This unit explores in a theoretical and practical way the development of curriculum that helps learners come to understand the issues concerned with marine studies.

**Courses:** ED50, ED55, ED61, IF70-79

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► MDB396 EXCURSIONS IN GEOMETRY

The world is filled with geometry. Without geometry, or at least a sense of space, we could not get around. We would have boring buildings and dull designs. This subject begins with the Greeks and moves to studying geometry that we use today. A historical perspective is used to show that geometry, like all mathematics, is alive and lives today in the world of fractals and graphic design. Participants will find many useful investigations and activities for the classroom.

**Courses:** ED90, ED91, ED92, ED82, ED43, ED51, ED52

**Prerequisites:** MDB386  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► MDB397 DIGITAL MEDIA IN EDUCATION

This unit addresses the following: understanding multimedia and multimedia systems; application of multimedia in education and training; multimedia authoring software; designing and creating multimedia applications for educational environments.

**Courses:** ED51, ED52, ED47, ED91, ED82

**Prerequisites:** MDB383 or MDB004

**Corequisites:** MDB383 or MDB004

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► MDB411 EARLY CHILDHOOD MATHEMATICS TEACHING, LEARNING AND ASSESSMENT

This unit addresses the following: theoretical background and research; logical sequence of mathematics and children's cognitive development; content and learning experiences for early childhood; integration and application.

**Courses:** ED26, ED61

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

#### ► MDB414 LEARNING ENVIRONMENTS USING INFORMATION TECHNOLOGY

Students explore the contribution that advanced information technologies can make to teaching

and learning. Students gain exposure to applications of technology such as multimedia materials and authoring software, the Internet, the World Wide Web, and CD-ROM based materials. They will be required to apply these to a variety of curriculum settings.

**Courses:** ED90, ED91, ED92, ED82, ED26, ED50, ED55, IF70-79

**Prerequisites:** CLB341

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► MDB429 INITIATIVES IN SCIENCE EDUCATION

Students have the opportunity to explore alternative practices in science education, particularly through the development of research-based project work for children, the extended excursion or field trip, and involvement in community-sponsored and/or related science activities and events. Emphasis is placed on providing experiences that fully extend each child, including the exceptional child.

**Courses:** ED26, ED51, ED61, ED47, ED91, ED82

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► MDB440 COMPUTERS AND EDUCATION

This unit provides an overview of microcomputer hardware and software with an emphasis on the usefulness of various components in schools. It considers the use of educationally valuable application software, the variety of uses of computers in education, and the impact of computers on society and education in particular.

**Courses:** ED26, ED53, ED93, ED83

**Credit points:** 12  
**Campus:** EXT **Sem:** 1, 2

#### ► MDB452 MATHEMATICS CURRICULUM STUDIES 2: JUNIOR AND VOCATIONAL MATHEMATICS

It is necessary for teachers to make independent judgements with respect to curriculum decisions taking account of syllabus guidelines and broader system policies, as well as national and international trends in education and society. This unit extends the understandings and strategies developed in Curriculum Studies 1 and makes links to the unit EDB452 Secondary Professional Practice 3: The Inclusive Curriculum. It also encourages students to explore current issues and emerging trends in mathematics curriculum, particularly aspects related to vocational education, and to clarify their commitment and openness to innovation and change in their approach to teaching.

**Courses:** ED50, ED55, IF71

**Prerequisites:** MDB333  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► MDB453 MIDDLE SCHOOL MATHEMATICS EDUCATION

This unit assists students to develop a deeper understanding of mathematical content applicable to the middle school and the ways that the content may be integrated into other key learning areas.

**Courses:** ED26, ED50, ED54, ED55, ED61, ED91, ED82, IF70 - 79

**Prerequisites:** 2 units of tertiary mathematics or equivalent

**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► MDB454 SCIENCE, TECHNOLOGY AND SOCIETY

This unit investigates the interactions and effects that exist between modern science, technology and society both from a social and historical viewpoint. Advances such as the advent of the Internet, genetic modification and nanotechnology are discussed within a context of globalisation, global communications and social change. The unit also includes a study of the nature of science and technology and the nature of scientific knowledge. A major feature of the unit involves groups of students developing and delivering 'a hypothetical' on a contemporary science and technology issue affecting society.

**Courses:** ED50, ED51, ED47, ED90, ED91, ED92, ED82, IF72

**Credit points:** 12

**Campus:** KG **Sem:** 2

#### ► MDN638 TRENDS IN LEARNING OF THE SCIENCES

This unit enables professionals involved in mathematics, science, design technology, and information communication technology to critically reflect on curricular practices in the light of major trends in the context of education.

**Courses:** ED09, ED61, ED13

**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► MDN639 PEDAGOGIES IN LEARNING OF THE SCIENCES

This unit enables professionals involved in mathematics, science and design technology to reflect on their pedagogical practices in the light of major changes in the curriculum affecting their practice.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► MDN640 MANAGING INNOVATIONS IN TEACHING OF THE SCIENCES

This unit provides educators with knowledge and skills in managing innovations for the teaching of mathematics, science and technology education.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► MDN641 UNDERSTANDING MATHEMATICS AND SCIENCE IN EDUCATIONAL CONTEXTS

This unit provides opportunities to educators to analyse critically the mathematical and/or scientific content that their prospective clients or students have to engage with in a variety of contexts and learning environments.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► MDN642 DIGITAL PEDAGOGIES

This unit includes a critical investigation of digital pedagogies and the changes they are making to the role of the teacher, and the interactions between students, teachers and subject content. The unit assists students in designing and moderating worthwhile learning experiences in online environments or physical environments that make use of digital technologies.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► MDN643 ADVANCED LEARNING NETWORKS

This unit includes a comprehensive examination of relevant theory, research, policy, and/or practice in the mediation of learning and communication through technology. Students are encouraged to critique the rhetoric and reality of ICT integration in learning networks.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► MDP529 ASSESSMENT AND INTERVENTION IN MATHEMATICS

This unit enables students to learn where, when and how mathematical concepts occur within the mathematics curriculum at a level of the student's interest and across the broader curriculum. The student develops ideas, skills and strategies to assess mathematics concepts and to develop suitable classroom learning activities.

**Courses:** ED26, ED28, ED50, ED55, ED61, ED90, ED91, ED92, ED82, IF70 - 79

**Credit points:** 12  
**Campus:** EXT **Sem:** 2, 3

#### ► MEN101 RESEARCH METHODOLOGY

Basic research methodology is an essential component for any student expecting to undertake research. This unit provides the basic knowledge of research, qualitative and quantitative research methodologies, and a range of techniques to enable students to become critical users of existing knowledge and research findings.

**Courses:** CE75, EE77, ME80

**Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► MEN102 ADVANCED MECHANICAL ENGINEERING STUDIES

Students undertaking Masters' level study of engineering require advanced research skills

relating to the evaluation, organisation and presentation of information, data analysis, experimental design and instrumentation. This unit provides some of the advanced skills fundamental to mechanical engineering research that are required to undertake the Research Project and Specialised Studies units in the ME80 course.

**Courses:** ME80 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► MEN103 MECHANICAL ENGINEERING SPECIALISED UNIT 1

Professional engineers in the workplace are often required to undertake independent enquiry in very specific areas of mechanical engineering science. To do this, they require the skills to retrieve information, and experience in self-directed learning, independent analysis and investigation. This unit allows students to pursue in greater depth a particular area of mechanical, medical or infomechatronics engineering through self-directed learning. This develops students' independent learning capabilities and expands their knowledge of a chosen area of study.

**Courses:** ME80 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► MEN104 MECHANICAL ENGINEERING SPECIALISED UNIT 2

Professional engineers in the workplace are often required to undertake independent enquiry in very specific areas of mechanical engineering science. To do this, they require the skills to retrieve information and experience in self-directed learning, independent analysis and investigation. This unit allows students to pursue in greater depth a particular area of mechanical, medical or infomechatronics engineering through self-directed learning. This develops their independent learning capabilities and expands their knowledge of a chosen area of study.

**Courses:** ME80 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► MEN105 MECHANICAL ENGINEERING SPECIALISED UNIT 3

Professional engineers in the workplace are often required to undertake independent enquiry in very specific areas of mechanical engineering science. To do this they require the skills to retrieve information and experience in self-directed learning, independent analysis and investigation. This unit allows students to pursue in greater depth a particular area of mechanical, medical or infomechatronics engineering through self-directed learning. This develops their independent learning capabilities and expands their knowledge of a chosen area of study.

**Courses:** ME80 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► MEN170 SYSTEMS MODELLING AND SIMULATION

This unit introduces the following: the concept of a model and model building; techniques for the solution of the models; examples of analytical models such as inventory models, Markov chains, queuing models; simulation as a decision making tool; modelling for simulation and practical exercises in simulation using computer simulation software in the areas of manufacturing systems and maintenance.

**Courses:** ME75, ME76, CE75, EE77, ME80  
**Contact hours:** 32 over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN171 ADVANCED MANUFACTURING TECHNOLOGIES

This unit provides the following: an overview of manufacturing systems; engineering and applications of advanced computer aided drafting and design; implementation of CAD/CAM systems using three-dimensional modelling techniques; classification systems for part family formation for production and tooling; benefits of computer aided process planning; introduction and installation of flexible manufacturing cells and systems including robotics, automated guiding vehicles, online computer aided inspection, automation integration, support technologies and planning for CIM.

**Courses:** ME75, ME76, ME80  
**Contact hours:** 32 hours over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN172 COST ANALYSIS AND ASSET MANAGEMENT

This unit provides students with the following skills: analyse cost and understand different costing methods and their implications; evaluate engineering decisions under different cost allocation methods; appreciate the role of variance analysis as a management tool; estimate cash flows; make lease versus buy decisions; budget life-cycle costing and economic asset management and life cycle costing.

**Courses:** ME75, ME76, CE75, EE77, ME80  
**Contact hours:** 32 over a 2 week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN175 ENERGY AND ENVIRONMENTAL MANAGEMENT

This unit considers energy resources and usage in the context of global energy issues. Greenhouse, climate change and ozone layer depletion are covered because they are affecting Engineering Practice. Specific topics include the following: properties and testing methods of solid, liquid and gaseous fuels; combustion calculations; flue gas analysis; energy tariffs and audits; major applications of energy management, for example buildings, process plant, compressed air systems, vehicle fleets; economic evaluation of energy projects; introduction and management of energy saving programs. Environmental aspects are considered for each topic. Assessment includes and energy audit of a commercial/industrial site.

**Courses:** ME75, ME76, ME80  
**Contact hours:** 32 over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN177 TOTAL QUALITY MANAGEMENT

The aim of this unit is to provide students with an understanding of the underlying philosophy and practice of TQM including learning some basic tools for quality control. Topics covered include the following: quality as a competitive strategy; the evolution of quality management; elements of quality management; continual improvements; customer measurements; managing change; total employee participation; bench marking, statistical process control, theory of constraints, Taguchi methods.

**Courses:** ME75, ME76, ME80  
**Contact hours:** 32 over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN190 PROJECT 1/2

In this unit a substantial piece of work relevant to the course and carried out by each student on an individual basis is presented. The report is examined and marked by an academic supervisor in consultation with an industrial supervisor.

**Courses:** ME75, ME76, ME80  
**Credit points:** 24 **Campus:** GP **Sem:** 1, 2

#### ► MEN241 RELIABILITY AND MAINTENANCE MANAGEMENT

This unit addresses the following: overview of maintenance responsibilities and tasks; organisation for maintenance; creating a maintenance plan with reliability; availability; maintainability; repair pools; spare parts inventory management; cost downtime; downtime reduction; planning shutdowns/turnarounds; performance measures; documentation and document control; configuration management; computer based maintenance management systems; total productive maintenance (TPM); condition monitoring; strategic asset management.

**Courses:** ME75, ME76  
**Contact hours:** 32 over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN272 ENTERPRISE RESOURCE PLANNING

The aim of this unit is to provide students with an understanding of the underlying philosophy and practice of resources planning. Topics covered include the following: functions and inter-relationships between the major components; demand analysis; production and operations planning and control; resource planning and control; manufacturing requirements planning (MRPII); supply chain management; total enterprise approach to business management. These principles are extended to processing and service

industries such as mining, oil, chemical and food processing and to enterprises such as hospitals and airports.

**Courses:** ME76, ME75, ME80  
**Contact hours:** 32 over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN273 ENGINEERING KNOWLEDGE MANAGEMENT

This unit provides students with the skills in knowledge identification, knowledge development, knowledge preservation, knowledge representation and knowledge distribution in the corporate sector and the techniques associated with the design and development of knowledge management systems for engineering organisations. The unit also provides students with an understanding of the design, development and organisation of knowledge with an emphasis on the building blocks of knowledge management.

**Courses:** ME75, ME76, ME80  
**Contact hours:** 32 hours over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MEN280 ENGINEERING PROJECT MANAGEMENT

The aim of this unit is to provide students with an understanding of the underlying philosophy and practice of project management. Topics covered include the following: definition of project management; organisational structures; project planning; feasibility analysis; project organisation; contracts; project control; risk analysis; project termination.

**Courses:** BS93, ME75, ME76, CE75, EE77, ME80  
**Contact hours:** 32 over a two week block  
**Credit points:** 12 **Campus:** GP

#### ► MGB007 ENGINEERING MANAGEMENT

This unit introduces engineering students to the fundamentals of management so they can perform a basic managerial role, with the capacity to identify key issues and to develop themselves further. It covers the managerial functions of planning, organising and controlling and, in addition, gives emphasis to the involvement of people and their skills in a modern flexible organisation. It also considers briefly marketing and planning for new ventures as well as the management of change and conflict. It takes an integrated approach to quality in management and introduces issues of service management, projects, technology and innovation.

**Courses:** ME41, ME42  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGB201 THE LEGAL CONTEXT OF EMPLOYMENT RELATIONS

The unit provides an overview of the complex legal, social and political arrangements underpinning organisational life in Australia. The employment relationship and its legal context are central to organisational operations. The unit addresses the identification and analysis of the rights and responsibilities of people at the workplace, and the institutions governing the conduct of the different parties involved in the employment relationship. Current issues are examined from the perspective of the interactions between individual workers, unions, employers, employer groups, tribunals, government and international bodies enabling students to understand the broader context of the parties' legal obligations.

**Courses:** BS56 **Prerequisites:** MGB222  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB103 **Campus:** CA, GP **Sem:** 1

#### ► MGB202 EQUITY AND DIVERSITY MANAGEMENT

The historical, legal and social perspectives on current issues surrounding equity and equality in diversity management particularly equal employment opportunity (including affirmative action and anti-discrimination initiatives) are investigated. In identifying strategic management approaches to diversity including implementing the EEO and AA processes identified by legislation, the unit questions and evaluates current management practices and research methods

through investigating, analysing, and critiquing current EEO and AA approaches and plans.

**Courses:** BS56 **Prerequisites:** BSB114  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB133  
**Campus:** GP **Sem:** 2

#### ► MGB203 GOVERNMENT-MANAGEMENT INTERFACE

This unit provides students with an essential understanding of the complex and dynamic relationship between government and management. The unit focuses upon the political context of management, government policies towards business, their processes of development and operational impacts, and the politics of governance and management of the public/private sector interface. The unit also examines the capacity of various business sectors to influence the political system of Australia in an international context.

**Courses:** BS56 **Prerequisites:** BSB114  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** EPB125, EPN101, MGN402  
**Campus:** GP **Sem:** 2

#### ► MGB207 HUMAN RESOURCE ISSUES AND STRATEGY

This unit identifies a range of contemporary human resource management issues facing Australian organisations. These are explored and analysed through examining a range of alternative human resource programs, policies, and strategies. This unit introduces a range of human resource functions and provides a foundation for the development of professional practice in HRM in later units. This unit provides students with the knowledge and skills to address contemporary human resource issues in order to contribute to organisational efficiency and effectiveness.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF60, IF62, PU40  
**Prerequisites:** BSB115  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB131  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB209 OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT

This unit provides an overview of issues related to occupational health and safety. The unit acquaints students with the scope of the occupational health and safety problem in Australia as well as the legislative environment. It also introduces them to analytical skills needed to manage these problems. The unit takes a strategic and multi-disciplinary approach to the management of occupational health and safety.

**Courses:** BS56 **Prerequisites:** BSB114  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB128  
**Campus:** GP **Sem:** 1

#### ► MGB210 PRODUCTION AND SERVICE MANAGEMENT

This unit extends general management approaches to the production operations subsystems of service and manufacturing organisations. The unit focuses on the deployment of productive resources in order to maximise the added value of services and products. Issues of quality and efficiency are considered analytically in terms of broader strategies and constraints. It considers the opportunities that new technology brings to operational strategies in both manufacturing and service. Project management principles are considered in relation to resource deployment and continuous improvement.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB220  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB129  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB211 ORGANISATIONAL BEHAVIOUR

The unit examines theory and research related to individual and collective human behaviour in organisations. A multi-level approach that focuses on individuals, groups, the organisation as an entity, and the relationship among these elements is adopted. In addition, the unit addresses major themes in the field and provide students with an opportunity to use the body of knowledge

to diagnose, interpret and understand issues within these themes. This unit helps students to understand the role that people as individuals and in groups play in organisations and to apply this knowledge in creating more effective and efficient work places.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB220  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB130, MGN412  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB216 MANAGING TECHNOLOGY, INNOVATION AND KNOWLEDGE

This unit explores the links between research, technical processes, product innovation and management structure, policy, and practice. It examines the impact of changing technology, such as information technology, on organisations. This unit examines the internal operation of organisations with particular respect to the management of human, material and financial resources, technological innovations, and social change. Other issues addressed in this unit include the nature of product and process innovation, technology transfer, intellectual property and licensing, government policy, and the role of research and development.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB222  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB140  
**Campus:** GP **Sem:** 1

#### ► MGB218 VENTURE SKILLS

Entrepreneurial management is becoming a critical skill for rapidly growing small and medium sized enterprises (SMEs) and for small business units (SBUs) in large corporations. This unit examines and compares the venture growth processes for entrepreneurial managers. This unit focuses on the post start-up issues for the entrepreneurial venture. It considers the rapid growth issues in the identification, analysis, and learning processes for SMEs.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62, LS50  
**Prerequisites:** 96 credit points of approved study  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGB220 MANAGEMENT RESEARCH METHODS

This unit is designed to provide students with a conceptual map for conducting research, and introduce them to basic qualitative and quantitative analysis techniques. The lecture and tutorial program proceeds through the general research process: establishing a research question; determining a theoretical framework; collecting the data; conducting data analysis; drawing conclusions; reporting research outcomes. An emphasis is placed on both quantitative and qualitative research methodologies.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** BSB122  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** AMB201, MGB100, COB334, COB203, EFB105, EPB109, EPB110, EPB163  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB221 PERFORMANCE AND REWARD

This unit examines the key Human Resource Management functions of job analysis, performance management, and compensation management from a strategic perspective with a view to optimising individual and organisational performance. A substantial level of analytical and professional competence is expected in this unit, which is a key to the integration of HR processes and organisational requirements.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB207  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MGB328, HRB105  
**Campus:** CA, GP **Sem:** 1

#### ► MGB222 MANAGING ORGANISATIONS

This unit develops an understanding of the organisation in both its internal and external environment and the demands of managing the organisation's resources and performance. It raises contemporary issues in management and their implications for competitive advantage, focusing on various organisational sub-systems including HR, technology, structure and design. This unit provides a foundation of knowledge for the management and HRM majors. There is a focus on strategy, leadership and internationalisation.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** BSB115  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB223 CREATING NEW ENTERPRISES

This unit deals with the development of a business plan for the potential launch of student business ideas. This unit is designed for those individuals interested in creating a new venture or working in industries as employees of venture owners or those that serve this sector. Students build a comprehensive plan of their business concept. Students can progress from this unit to carry out the business plan analysis in the unit MGB218 or advance from MGB218 to undertake this unit.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62, IT21  
**Prerequisites:** 96 credit points of approved study  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► MGB224 AUSTRALIAN INDUSTRIAL RELATIONS

This unit traces the evolution of current institutions and practices in Australian industrial relations, situating them within the broader context of social and industrial relationships. Issues are viewed from many perspectives, seeing them as a product of a range of political, social, economic legal and industrial experiences. The unit aims to provide an insight into the complexities of Australian industrial relations.

**Courses:** BS56 **Prerequisites:** BSB115  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MGB204, MGB329, MGB332  
**Campus:** GP **Sem:** 2

#### ► MGB304 HUMAN RESOURCE INFORMATION MANAGEMENT

This unit focuses on Human Resource Information Management. Students are coached to understand the storage, retrieval, and utilisation of data in HR operations. A substantial level of analytical and professional competence is expected in this subject, which is a key to the utilisation of HR information to aid decision-making. In addition, students are introduced to the basic operation of a computerised Human Resource information system (HRIS) to appreciate the role of technology in HR information management.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB221  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGB306 INDEPENDENT STUDY

This unit enables students to demonstrate an ability to direct their own learning, a key competence for professionals who must keep themselves up-to-date in their area of expertise. Either individually or in small groups, students undertake one or several learning activities with the approval of a supervisor. Appropriate activities include literature review, research (mini-thesis), project, practicum (work placement), or an alternative deemed acceptable by the supervisor.

**Courses:** BS56  
**Prerequisites:** 96 credit points of approved study  
**Contact hours:** Flexible Mode **Credit points:** 12  
**Incompatible with:** HRB151  
**Campus:** GP **Sem:** 1, 2, 3

#### ► MGB307 INTERNATIONAL HUMAN RESOURCE MANAGEMENT

This unit overviews international business management, and develops a strategic appreciation of

the role of human resources management in an international context. Specific human resource processes are detailed, including the following: expatriate selection; cross-cultural training; management and remuneration; global management and the competencies required to manage a culturally diverse workforce; the relationship between international human resource management and international industrial relations; contemporary research in international human resource management. The Asia-Pacific region is a focus for discussions throughout this unit.

**Courses:** BS56 **Prerequisites:** MGB207  
**Contact hours:** Flexible Mode  
**Credit points:** 12 **Incompatible with:** HRB117  
**Campus:** GP **Sem:** 2

#### ► MGB309 STRATEGIC MANAGEMENT

In this unit fundamental elements of strategy, which can be used in the decision making process, are placed in a framework that is developed within the particular context of Australia's economic development position. The emphasis is upon process and content issues that affect the strategic performance and positioning of the organisation. This involves creating an understanding of the universal building blocks of competitive advantage at the business, corporate and international levels. By understanding the nature and determinants of competitive and strategic advantages, students should enhance their professional competences to be able to take a more strategic and critical perspective.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB222  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB125, MIB314  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB312 NEGOTIATION SKILLS

This subject concentrates on the theory and practice of negotiation as applied to the basic concepts of integrative and distributive bargaining domestically and internationally. The process and phases of negotiation are practiced by students, culminating in their ability to negotiate an extensive and complicated collective bargaining agreement.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB211  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB102  
**Campus:** GP **Sem:** 1

#### ► MGB314 ORGANISATIONAL CONSULTING AND CHANGE

Managing change is a fundamental skill required by prospective managers and professionals. This unit provides opportunities for students to develop a theory in practice orientation to consulting to individuals, groups, and organisations. Hence content theory and process theory is addressed. The focus of this unit is on human process issues and change. The unit examines a range of human process interventions designed to improve organisational effectiveness. Attention is also be given to change strategies that are socially and culturally inclusive. Graduates of this unit should be able to be productive members of organisational change teams.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB211  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB119, COB102  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB315 PERSONAL AND PROFESSIONAL DEVELOPMENT

This unit develops personal, interpersonal and professional competencies (in both cognitive and affective domains) necessary for a human resource or management professional. It develops personal awareness and understanding, interpersonal competencies, and professional skills. It also examines influence processes, negotiation and conflict resolution and stress management. Throughout, the course emphasises the design of processes to achieve outcomes and skills of reflective practice. The focus is on developing

skills to enhance individual competence and leadership skills to enhance effectiveness.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** 144 credit points of study  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB104  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB320 RECRUITMENT AND SELECTION

This unit draws on conceptual foundations established in MGB221. The unit examines the environment of recruitment and selection, with a particular emphasis on legal issues. Recruitment strategies are evaluated and considered from the perspective of the organisation and the individual. Personnel selection techniques are examined in relation to technical issues of reliability, validity, fairness, and applicability. Practical skills in designing personnel selection techniques are developed, including the opportunity to develop skills in the interview process.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB221  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB134  
**Campus:** CA, GP **Sem:** 2

#### ► MGB321 ADVANCED PRACTICE IN RECRUITMENT AND SELECTION

This unit draws on conceptual foundations established in MGB320 Recruitment and Selection. The unit examines the theory and practice of advanced selection techniques. In addition, the application of selection techniques to a range of contexts and occupational groups is explored including operatives, management, customer service, and other groups. A range of contemporary issues are addressed. This unit focuses on strategy and professional practice skills.

**Courses:** BS56 **Prerequisites:** MGB320  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB134  
**Campus:** GP **Sem:**

#### ► MGB325 ADVANCED PRACTICE IN TRAINING AND DEVELOPMENT

This unit focuses on designing, implementing and evaluating systems for individual and organisational learning as part of a strategic approach to human resource development. The unit relies heavily on empirical and theoretical works to inform practice. Throughout the semester students examine in depth the key cognitive and motivational theories relating to training, examine advanced training methodologies, career development, focus on transfer of training, and investigate how to evaluate the effectiveness of training programs using research designs. The unit also highlights the important characteristics of a competent trainer.

**Courses:** BS56 **Prerequisites:** MGB331  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRB101  
**Campus:** GP **Sem:** 1

#### ► MGB331 TRAINING AND DEVELOPMENT

This unit introduces students to theory and competencies required of a beginning or an occasional trainer: adult learning theory applicable to training in a vocational setting, research and competency development. Topics include the following: national training framework; instructional models and theories of adult learning; training needs analysis; training objectives; training evaluation; training models; training aids/audiovisuals; training administration. This unit has a strong focus on mastery of theoretical foundations as well as on learning by doing.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62  
**Prerequisites:** MGB207 or 96 credit points of approved study  
**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** MGB217, HRB120  
**Campus:** CA, GP **Sem:** 2

#### ► MGB334 MANAGING IN A CHANGING ENVIRONMENT

This unit provides students with conceptual and analytic tools required for managing changing

environments. The emphasis is on developing an understanding of the management competencies required for managing flexibility, innovation and change. The unit moves beyond a focus on 'dot.com companies' to examine how a range of organisations both small and large are engaging with issues associated with an increasing emphasis on technology.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF60, IF62

**Prerequisites:** BSB212 or MGB222 or 96 credit points of approved study

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSB312  
**Campus:** CA, GP **Sem:** 1, 2

#### ► MGB335 PROJECT MANAGEMENT

This unit develops knowledge in the areas relating to effective management of projects (as distinct processes). This knowledge is gained by focusing on the central issues of project selection, modelling, planning, control and evaluation. Case study projects are used throughout the unit and are mainly from the services industry sector. The unit seeks to develop 'technical' (tools and techniques) as well as 'people' (behavioural) skills needed for effective management of projects.

**Courses:** BS56, IF28, IF30, IF41, IF47, IF48, IF61, IF62

**Prerequisites:** MGB222 or 96 credit points of approved study

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► MGB336 ADVANCED MANAGEMENT RESEARCH METHODS

This unit provides students with an advanced understanding of data applications necessary for higher level or postgraduate research projects. Preceding methods units introduce research methodology and examine the selection of research methods. This unit focuses specifically on the application of quantitative statistics to managerial decision-making and organisational research. At the conclusion of this unit, students will have a sound working knowledge of SPSS.

**Courses:** BS56 **Prerequisites:** MGB220  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:**

#### ► MGB337 SPECIAL TOPIC

This unit allows students to undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending upon issues examined, and the academic member(s) involved (including visiting academics).

**Courses:** BS56  
**Prerequisites:** 96 credit points of approved study  
**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► MGB338 HUMAN RESOURCE MANAGEMENT WORKPLACE LEARNING

This unit entails a structured program of workplace learning in which students are exposed to a variety of organisational issues. For the duration of their experience, students work on a specific HRM project of relevance to their host organisation. Building upon knowledge acquired in the HRX major, students' exposure to HRM in an actual organisational setting enhances understanding of links between theory and practice and develops skills and abilities through a professional learning experience.

**Courses:** BS56  
**Prerequisites:** Enrolment in HRX major and Minimum GPA of 5  
**Contact hours:** 120 hours in workplace and 12 at university  
**Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN402 GOVERNMENT-BUSINESS RELATIONS

In this unit, students develop an understanding of the relationships between business and government in an historical, contemporary and comparative context. The course will focus on the following: the interaction between politics and the economy, particularly in Australia; the historical development of the relationships between the private and public sectors; the impact that

policies and actions each have on the operations of the other.

**Courses:** BS93

**Contact hours:** Flexible Mode **Credit points:** 12  
**Incompatible with:** MGB203, EPN101, EPB125  
**Campus:** GP **Sem:** 1

#### ► MGN404 MANAGING AND ORGANISING GLOBAL FIRMS

This unit aims to provide a detailed examination of the typical impacts of the international environment upon the organisation, its management, structure, operations and human resource capacities. In addition, the unit discusses management issues to be faced by organisations entering into export markets.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSN401  
**Campus:** GP

#### ► MGN409 INTRODUCTION TO MANAGEMENT

This unit examines the following: the functions and roles of managers; concepts and principles and their practical applications; the key management functions; areas of planning, organising, staffing, directing and controlling; production/operations management and the management of quality; entrepreneurship and business planning; and important problems, opportunities and trends facing managers in Australia analysed from the viewpoint of academic disciplines.

**Courses:** BS39, BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRN104  
**Campus:** GP **Sem:** 1, 2

#### ► MGN410 LABOUR-MANAGEMENT RELATIONS

This unit looks at the following: employee relations; employee and union action; the role of governments and industrial tribunals; alternative methods and pressures to change traditional Australian systems; the Australian system of labour-management relations; systems of regulation in the employment area; negotiating skills; the resources required for mobilising change in this area.

**Courses:** BS39 **Contact hours:** Flexible Mode  
**Credit points:** 12 **Incompatible with:** HRN105  
**Campus:** GP **Sem:** 2

#### ► MGN412 PEOPLE IN ORGANISATIONS

This subject aims to provide a broad understanding of organisational behaviour as a base for future study and practice of management. It moves from a micro-perspective on individual behaviour through the interface between the individual and the organisation to overall characteristics of organisations which shape the behaviour of their members. The aim is to provide an understanding of why employees feel and act the way they do in organisations and considers methods for enhancing positive employee attitudes and behaviours, and organisational effectiveness. The emphasis is on understanding basic assumptions and models, major theoretical issues, methods of measurement and practical implications.

**Courses:** BS32

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** HRN108  
**Campus:** GP **Sem:** 1

#### ► MGN421 STRATEGIC HRM

HRM is concerned with the relationship between people management strategies and organisational goals and objectives. This capstone unit provides HRM students with the opportunity to apply their learning to this relationship in a systematic way. It requires them to produce high quality HRM advice that provides direction for practicing line managers consistent with organisational goals and objectives. The learning strategies in the unit challenge students to identify contemporary issues of organisation and management and to interpret these using the paradigms of HRM.

**Courses:** BS39, BS93

**Prerequisites:** MGN427 or undergraduate specialisation in HRM advisable  
**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN422 CONTEMPORARY ISSUES AND PRACTICES IN EMPLOYEE RELATIONS

This unit provides human resource practitioners with skills and knowledge to cope with changing employee relations, conditions, and work practices in Australia. The focus of the unit is on issues relating to changes in industrial relations and how these impact on HR practice. The pressures to move to an EB system, negotiation of EB agreements and related work practice issues (such as the impact of these changes on health and safety, work and family responsibilities, workforce diversity and the increasing use of technology) are addressed.

**Courses:** BS39, BS93

**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN423 CONTEMPORARY STRATEGIC ANALYSIS

This unit focuses upon developing managers' understanding of the strategy concept and placing the fundamental elements of strategy in a framework for use in the decision-making process. Taking the perspective that many managers make decisions that can have strategic implications, the emphasis is upon studying those issues that can affect the strategic positioning of the organisation. This involves creating an understanding of the universal building blocks of competitive advantage at the business, corporate and international levels. By understanding the nature and determinants of competitive and comparative advantages, students will be well-positioned to take a more strategic perspective in their organisational activities.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** BSN407, MGN504  
**Campus:** GP **Sem:** 1, 2

#### ► MGN424 INTERNATIONAL DIMENSIONS OF HRM

This unit provides students with an overview of the complex array of issues that face organisations when managing their human resources in an international context. Taking an organisational level focus to understanding how best to manage people internationally, the unit strategically overviews the need to integrate organisational policy and national cultural and legislative constraints in maximising performance of international managers and organisations. The unit presents the view that HRM should be strategically integrated into the development of international operations from start-up. It addresses the HRM's role in engendering global consciousness and global transformation.

**Courses:** BS39, BS93

**Prerequisites:** MGN427, or undergraduate specialisation in HRM

**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► MGN425 THE CONTEXT OF PUBLIC MANAGEMENT

The aim of this unit is to acquaint students with the context within which public bureaucracies function, particularly the special characteristics of public accountability which distinguish these bureaucracies from private sector organisations. The primary focus is on the Australian scene, although students draw comparisons from their own experience within or outside Queensland. Topics include the following: the role of interest groups, parties and external government actors in the formulation of public policy; accountability requirements through parliamentary and other agencies; alternative mechanisms for service delivery; inter-governmental relations, including the role of local governments in the federal system.

**Courses:** BS39, BS93

**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► MGN426 INTERNATIONAL TRENDS IN PUBLIC MANAGEMENT

This unit examines major international trends and issues in public management, especially the impact of the New Public Management, focused upon corporatisation and privatisation, regionali-

sation, and devolution of decision-making. It discusses the evolution of institutional structures of administration and policy making under the pressure of global economic and political forces. The effect of international trends is examined with reference to the changing nature of public management within particular national contexts.

**Courses:** BS39, BS93

**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN427 HUMAN RESOURCE MANAGEMENT

This unit is designed to introduce students to the importance of human resource management for the effectiveness of organisations operating in complex and/or global environments and the quality of work life. The subject examines human resource management from multiple consistency, functional and strategic perspectives. It utilises an open systems model to introduce some of the key processes of personnel management, which are treated at a theoretical and skill level. The subject fosters knowledge, analytical and operational competencies.

**Courses:** BS32, BS39, BS93, GS41, GS85, GS86

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► MGN428 MANAGING NEW BUSINESSES

This unit is designed for the in-depth analysis of starting small businesses and for the development of a comprehensive business plan. This unit emphasises hands-on leadership for business owners in innovative firms, such as high-tech industries. In this new environment, extensive human resource skills are required to start up and operate small businesses.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN429 STAFFING POLICIES AND STRATEGIES

This unit examines and critiques staffing policies and processes from both strategic and technical perspectives with a focus on improving organisational staffing to enhance organisational effectiveness and capability. Measurement issues associated with recruitment and personnel selection techniques are examined and the application of selection techniques to a range of contexts and occupational groups is explored.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN430 STRATEGIC PERFORMANCE MANAGEMENT

This unit provides the competencies expected of advanced HR practitioners and managers. It provides a theoretical basis for the performance management function of HRM as well as addressing the issue of employee rewards and compensations. It identifies from a strategic management perspective the uses of and the relations between various HRM functions for optimising individual and organisational performance.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► MGN431 STRATEGIC HUMAN RESOURCE DEVELOPMENT

Strategic HRD provides a theoretical and practical framework for planning and implementing HRD within today's organisations. It examines the critical theoretical approaches underpinning learning and skills development and relates these in a practical way to the HRD challenges faced by organisations. This unit also provides exposure to contemporary international HRD ideas and practices to develop an understanding of the contribution of HRD to the broader economic context.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **MGN500 ADVANCED READINGS IN HUMAN RESOURCE MANAGEMENT 1**

This unit explores in-depth advanced theory, research, and issues of practice in human resource management.

**Courses:** BS93

**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:**

► **MGN501 READINGS IN MANAGEMENT**

This unit examines in detail advanced theory and issues from a chosen discipline area. The object is to have students explore the breadth of their discipline in contrast to the more narrow focus of their thesis work. Students select advanced readings in their field and submit a comprehensive criticism and review. This work is carried out in consultation with the supervisor.

**Courses:** BS63, BS92

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HRN118

**Campus:** GP

**Sem:** 1

► **MGN505 CONSULTING AND CHANGE MANAGEMENT**

This unit considers the origins, nature and effect of social change on individuals, organisations and communities. Theories and models of change are used to explore planned and unplanned changes currently occurring, particularly as these relate to possible futures. Emphasis is on the strategies and skills required to initiate and participate in effective change management.

**Courses:** BS39, BS93

**Contact hours:** Flexible Mode **Credit points:** 12  
**Campus:** GP **Sem:** 1

► **MGN506 CONTEMPORARY ISSUES IN HRM**

The main objectives of this unit are to identify, analyse and report on contemporary issues in HRM and to research information relevant to identified topics. The content may vary according to which issues are current or predictably important in the future. Special expertise of staff, visiting scholars or distinguished HRM professionals may be utilised.

**Courses:** BS39, BS63, BS92, BS93

**Contact hours:** Flexible Mode

**Credit points:** 12 **Incompatible with:** HRN115

**Campus:** GP

**Sem:** 1

► **MGN507 CONTEMPORARY ISSUES IN MANAGEMENT**

In this unit, students examine in detail advanced theory and issues from their chosen field of study. Such study may include any of the following: an analysis of the historical developments in the field; interconnections with other fields; current significant issues and practices (including ethics); advanced methodology and/or statistics relevant to the field. The content may vary according to which issues are significant at the time, the special expertise of the staff (including visiting scholars and distinguished business leaders) and the specific needs from thesis proposals.

**Courses:** BS63, BS92

**Contact hours:** Flexible Mode **Credit points:** 12  
**Incompatible with:** HRN119

**Campus:** GP

**Sem:** 2

► **MGN508 HRM CASES**

This unit further develops students' capacity to analyse, evaluate and solve business problems and encourages them to develop the facility for independent thought and critical analysis. Students are required to examine a human resources function in an organisation, and report observations, relate these observations to relevant theory and recent research, and develop an integrated view of human resources, including its functions, processes, stakeholders, and environment. Finally, the unit focuses on any conceptual, theoretical, research or practical material relevant to the cases.

**Courses:** BS63, BS92

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** HRN116

**Campus:** GP

**Sem:** 2

► **MGN509 HUMAN RESOURCE MANAGEMENT PROJECT 1**

This unit provides the opportunity for students to undertake an approved project to develop and

enhance learning associated with the coursework elements of human resource management.

**Courses:** BS93

**Contact hours:** Flexible Mode **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

► **MGN510 HUMAN RESOURCE MANAGEMENT PROJECT 2**

This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of human resource management.

**Courses:** BS93

**Contact hours:** Flexible Mode **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

► **MGN514 MANAGEMENT PROJECT 1**

This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of management.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:**

► **MGN515 MANAGEMENT PROJECT 2**

This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of management.

**Courses:** BS93

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP

**Sem:**

► **MGN516 POLICY ANALYSIS**

In this unit, students develop skills in the analysis of policy content and policy process. This unit provides a basic methodological framework for the systematic development of those skills with two related objectives: to examine a range of models of public policy processes with a view to determining their validity and utility; to develop a capacity for policy analysis, utilising a variety of conceptual frameworks. Topics include policy design, formation and implementation, and theories of policy.

**Courses:** BS39, BS93

**Contact hours:** Flexible Mode

**Credit points:** 12 **Incompatible with:** EPN104

**Campus:** GP

**Sem:** 2

► **MGN517 PROGRAM MANAGEMENT AND EVALUATION**

This unit provides an understanding of program management and evaluation in the public sector with an emphasis on skills development, theory and methodology of evaluation research, qualitative and quantitative tools and the application of these to a public sector program.

**Courses:** BS39, BS93

**Contact hours:** Flexible Mode

**Credit points:** 12 **Incompatible with:** EPN106

**Campus:** GP

**Sem:** 1

► **MGN524 SPECIAL TOPIC IN MANAGEMENT 1**

In this unit, students undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending on the issue examined, and the academic member(s) involved (including visiting academics).

**Courses:** BS93 **Contact hours:** Flexible Mode

**Credit points:** 12 **Campus:** GP

► **MGN525 SPECIAL TOPIC IN MANAGEMENT 2**

In this unit students undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending on the issue examined, and the academic member(s) involved (including visiting academics).

**Courses:** BS93 **Contact hours:** Flexible Mode

**Credit points:** 12 **Campus:** GP

► **MGN526 ADVANCED READINGS IN MANAGEMENT 2**

In this unit, students explore in-depth advanced theory, research and issues of practice in management.

**Courses:** BS93

**Contact hours:** Flexible Mode **Credit points:** 12

**Incompatible with:** HRN118

**Campus:** GP

► **MGN527 ADVANCED READINGS IN HUMAN RESOURCE MANAGEMENT 2**

In this unit, students explore in-depth advanced theory, research and issues of practice in human resource management.

**Courses:** BS93 **Contact hours:** Flexible Mode

**Credit points:** 12

**Campus:** GP

► **MGN528 SPECIAL TOPIC IN HUMAN RESOURCE MANAGEMENT 1**

In this unit, students undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending on the issue examined, and the academic member(s) involved (including visiting academics).

**Courses:** BS93 **Contact hours:** Flexible Mode

**Credit points:** 12

**Campus:** GP

► **MGN529 SPECIAL TOPIC IN HUMAN RESOURCE MANAGEMENT 2**

In this unit, students undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending on the issue examined, and the academic member(s) involved (including visiting academics).

**Courses:** BS93 **Contact hours:** Flexible Mode

**Credit points:** 12

**Campus:** GP

► **MMB004 INFOMECHATRONICS PROJECT**

The aim of this unit is to develop the student's capability to apply mechanical engineering and management principles in solving a real world industry problem. Students are required to practice theoretical, analytical, and experimental techniques taught in previous years of the course and also demonstrate practical skills in synthesis, design and manufacture as well as project management. Topics include problem definition and solution, literature review, and industry research.

**Courses:** ME40

**Credit points:** 36

**Sem:** 2

► **MMB112 DYNAMICS**

This unit concerns the motion of machines and structures that have to operate with high speeds and accelerations and the application of principles of mechanics, in particular dynamics. The principles are basic to the analysis and design of moving structures, ranging from ground and air vehicles to robotic devices and automatic control systems. The content includes the following: fundamental equations of kinematics; Newton's law of motion; coordinate systems in plane motion; fundamental equations of particle kinetics; energy, power, impulse and momentum; kinematics of rigid bodies in plane motion, relative motion and motion relative to rotating axes; kinetics of rigid bodies.

**Courses:** ME41, ME42, ME48

**Prerequisites:** MAB180 or MAB131, CEB109

**Contact hours:** 6 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2, 3

► **MMB131 ENGINEERING MATERIALS**

This unit provides an introduction to Engineering Materials and Materials Science. Topics covered include the following: atomic bonding; crystal structure; elastic and plastic deformations; defects; alloying; strengthening in metals; diffusion; fracture and creep; phases and phase diagrams; transformation of phases; steels; introductory corrosion; ceramics, polymers and composite materials; electronic materials.

**Courses:** CE44, CE45, EE48, EE41, EE42, IF42,

ME41, ME48, ME42, SC01

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

► **MMB191 INTRODUCTION TO ENGINEERING IN THE MEDICAL ENVIRONMENT**

The medical environment has its own culture, methodology and terminology to which the medical engineer must become accustomed. Similarly, engineering has its own terminology and means of communication. This unit includes the following: the engineering profession and its disciplines in Australia and worldwide; Australian healthcare system; medical terminology; health technology and equipment; engineering

and medical ethics case studies; engineering communication; engineering drawing.

**Courses:** ME48

**Contact hours:** 5 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1

### ► MMB211 MECHANICS 1

All engineering designs must possess an appropriate/adequate degree of stability before they can be considered safe and reliable in service. Mechanics 1 provides a synthesis of knowledge from the general principles of mechanics and demonstrates how these can be used to ensure design integrity and design assessment. The unit introduces students to the theory of elasticity and elastic parameters such as stress and strain; analysis and design of pressurised thin walled cylinders and spheres; deflection of beams; direct and shear stresses during beam bending; buckling of columns; combined loading of structures and machine members; yield criteria for safe elastic loading.

**Courses:** ME36, ME41, ME42, ME48,

**Prerequisites:** MAB132, CEB109

**Contact hours:** 5 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1

### ► MMB212 MECHANICS 2

Topics covered in this unit include the following: kinematic and dynamic analysis of planar linkages and mechanisms; link synthesis and its application to the design of mechanisms; determination of static and dynamic forces and torques due to inertia and other effects in mechanisms; kinematic analysis of gears and gear systems; further analysis of stress and strain; torsion of prismatic sections and thin-walled sections; axisymmetric problems; energy methods; thin plates.

**Courses:** ME41, ME42

**Prerequisites:** MMB211 or MMB313, MMB112

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB232 MATERIALS TECHNOLOGY

Topics covered in this unit include the following: industrial shaping of metals; solidification theory and phase transformations; revision of iron-carbon phase diagrams; steels and heat treatments; casting - alloys, defects; and microscopic examination of materials; fundamentals of ferrous metallurgy; non-ferrous metallurgy; welding and joining technologies; non destructive testing; engineering with ceramics; processing and properties of polymers; composite materials; optical materials; fracture mechanics, aigue and creep.

**Courses:** ME36, ME41 **Prerequisites:** MMB131

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB251 AERODYNAMIC PRINCIPLES

This unit includes the following: introductory concepts of fluid mechanics and thermodynamics; conservation of mass, energy and momentum; state properties of fluids; the standard atmosphere; dimensional analysis; experimental aerodynamics and aerodynamic coefficients; Reynolds number and Mach number effects; estimating aerodynamic forces and moments; fundamentals of aircraft performance; estimating range and endurance, take off and landing calculations, and flight envelopes.

**Courses:** EE48

**Contact hours:** 4 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1

### ► MMB252 THERMOFLUIDS

Topics covered in this unit include the following: operation and testing of engines; first and second laws of Thermodynamics; properties of working fluids including equations and tables; heat engine cycles, compressors and expanders; multi stage compression; laboratory and interests; fluid properties, forces on stationary and moving fluids; flow behaviour, pressure drops, Reynolds number; theory and applications of energy equations; power transmissions in fluids; laboratory.

**Courses:** ME36, ME40, ME41, ME48, ME42

**Prerequisites:** MAB132, CEB109

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB281 FUNDAMENTALS OF MECHANICAL DESIGN

This introductory design unit covers introduction to mechanical design, design procedure, system and functional approach to design, universal design and design for sustainability, concept development, engineering creativity, load analysis, development of computational scheme, general strength considerations, introduction to fatigue, shaft design, rolling bearing selection and analysis of forces in gear trains. Students also learn Computer-aided Design and Drafting software starting from simple shapes and advancing to 3-D modelling.

**Courses:** ME41, ME42, ME48

**Prerequisites:** BNB007 or MMB191

**Corequisites:** MMB211

**Contact hours:** 5 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1

### ► MMB292 BIOMATERIALS

Topics covered in this unit include the following: an understanding of the relationships between the properties; failure mechanisms; processing and microstructures of various materials used for medical applications and their interaction with human tissues; an understanding of the fundamentals of the use of materials in a medical environment and an understanding of the fundamentals of materials properties and processing; consideration of the following: metallic, ceramic, polymeric implant materials; composites as biomaterials; structure-property relationships of biomaterials; tissue response to implants; soft tissue replacements; hard tissue replacements.

**Courses:** ME48

**Prerequisites:** MMB131

**Contact hours:** 4 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB300 PROJECT 2T

The aim of this unit is to provide students with the capability to understand mechanical engineering principles and apply them to the formulation and solution of specific engineering problems in design and development tasks. The unit involves the application of mechanical engineering principles and the communication of ideas orally and in the presentation of a formal report.

**Courses:** ME36

**Credit points:** 12

**Campus:** GP      **Sem:** 1, 2

### ► MMB302 PROJECT 2T

The aim of this unit is to provide students with the capability to understand mechanical engineering principles and apply them to formulate and solve specific engineering problems in design and development tasks. The task may involve investigation in applied research projects or industrial based projects. Students acquire the ability to communicate solutions orally and in a formal report form.

**Courses:** ME36

**Credit points:** 12

**Campus:** GP      **Sem:** 1, 2

### ► MMB311 MECHANICS 3

This unit covers two separate Mechanical Engineering disciplines: (i) Study of vibration in machines and structures; (ii) Study of automatic plant control. Students gain an understanding of transient behaviour of mechanical systems. In many instances it is the transient loads in machines or departures from the design operating condition in process plants that causes mechanical failure or unacceptable departure from product specifications. In the vibration module, the unit covers single degree of freedom systems; damped vibration; multi-degree of freedom systems with steady and transient vibrations.

**Courses:** ME41

**Prerequisites:** MAB133, MMB112

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1

### ► MMB312 MECHANICAL MEASUREMENT

This units deals with measurement techniques and instrumentation systems required in mechanical engineering applications. The unit covers (a) the basic knowledge of static and dynamic mechanical measurements with an emphasis on the measurement of position, velocity and acceleration, stress and strain, force, torque, power, vibration, noise and pressure, flow, temperature;

and (b) hands-on experience in measurement techniques and instrumentation.

**Courses:** ME36

**Prerequisites:** MAB105, EEB112, EEB220

**Contact hours:** 4 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB313 MECHANICAL ENGINEERING STUDIES

The objectives of this unit are to provide students with revision in basic knowledge in mathematics and mechanics of solids to enable smooth articulation into the advanced standing programs and provide sufficient background in the application of knowledge for the use in the latter part of the course and project work. The subject matter covered includes second order ordinary differential equations; eigenvalue extraction; moments of inertia; Fourier series; basic statics; analysis of beams; torsion; two-dimensional stress analysis; thin-walled pressure vessels; yield criteria.

**Courses:** ME41

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1, 2

### ► MMB351 THERMODYNAMICS

Topics covered in this unit include a review of basics: steam cycles and plant; nozzles, impulse and reaction turbines; gas turbines - basic and refined cycles; mixtures and Dalton's Law; refrigeration cycles and plant; chemistry of combustion and water treatment; conduction, convection and radiation; condensation and boiling; forced and free convection; analysis of heat exchangers. Laboratory work is included

**Courses:** ME41, ME42

**Prerequisites:** MMB252, MMB352

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB352 FLUID MECHANICS

This unit provides students with an understanding of unsteady flow in closed conduits, performance of rotodynamic machinery used in fluid systems (including pumps, water turbines and hydraulic transmissions), incompressible flow around solid bodies (including potential flow and boundary layer flow), design and interpretation of hydraulic and pneumatic circuits (including graphical symbols, fluid logic, components of fluid systems) and basic compressible flow (including normal shock waves).

**Courses:** ME41, ME42

**Prerequisites:** MAB132, MMB211, MMB252

**Contact hours:** 6 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 1

### ► MMB353 TRIBOLOGY

This unit builds upon the design units in the courses. Topics covered include the following: introduction to tribology and fundamentals of dry contact mechanics; specification and measurement of surface topography; review of the fundamentals of friction and the modes of wear; regimes of lubrication (hydrodynamic, hydrostatic, boundary and elastohydrodynamic); properties of lubricants, including additives; bearing design (fluid film journal and thrust pad bearings); lubrication of gears, rolling element bearings, human and prosthetic joints; lubricant degradation and reclamation; rapidly biodegradable products; advanced condition monitoring.

**Courses:** ME40, ME41, ME42, ME43, ME48

**Prerequisites:** MMB381, MMB382

**Contact hours:** 4 per week      **Credit points:** 12  
**Campus:** GP      **Sem:** 2

### ► MMB362 BIOFLUIDS

This unit includes consideration of the following: the particular properties of the fluids that might be encountered in biomedical engineering and an introduction to techniques to analyse their behaviour; the properties of the fluids and their relation to biological function; the relevance of fluid properties to the design of associated equipment; continuity of flow; viscosity and its measurement; Newton's law of viscosity; non-Newtonian fluids; boundary layer theory; dimensional similarity; rheology of biofluids; haemodynamics; pumps and valves for biofluid systems; associated equipment; biotribology and the function of biological joints.

**Courses:** ME48

**Prerequisites:** MMB252

**Contact hours:** 4 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB371 MANUFACTURING PROCESSES

This unit provides an understanding of the basic principles, theories, phenomena and application aspects of the various conventional and non-traditional manufacturing processes commonly used in modern manufacturing. The unit is split into two modules: Module 1: Machining and Metrology and Module 2: Casting, Forming and Joining Processes. These modules cover basic metrology and the related basic theories, application, and economics essential to mechanical and manufacturing engineers.

**Courses:** ME36, ME41, ME48, ME40

**Prerequisites:** MAB132, MMB211

**Contact hours:** 5 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 1

### ► MMB374 DESIGN FOR MANUFACTURING 1

Topics covered in this unit include the following: introduction to design for manufacturing in the context of concurrent engineering; principles of solid modelling, its importance in a concurrent engineering environment; the idea of rapid prototyping and tooling; introduction to the basic skills in the use of CAD/CAM software for rapid product development; basic understanding of creating manufacturing specification.

**Courses:** ME40

**Contact hours:** 5 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB375 INDUSTRIAL ENGINEERING

This unit develop skills and understanding in the concepts and techniques of engineering facilities planning and location, productivity and its measurement and improvement, job design with due consideration to ergonomics. Topics include introduction to industrial engineering; engineering process; facilities planning and design; material handling; productivity and performance methods.

**Courses:** ME41

**Campus:** GP    **Credit points:** 12  
**Sem:** 1

### ► MMB376 PROFESSIONAL PRACTICE (ENGINEERING MANAGEMENT)

The unit introduces students to the basic concepts and theory in engineering management. Students develop an understanding of real life problems and applications of engineering management, and develop people skills, management skills, and oral and written communication skills

**Courses:** ME41

**Campus:** GP    **Credit points:** 12  
**Sem:** 2

### ► MMB381 DESIGN OF MECHANICAL COMPONENTS AND MACHINES

This design unit covers the design of mechanical components and machines: materials selection in design; fasteners and power screws; riveted, welded and bonded joints, shafts and associated parts; gearing (spur, helical, bevel, worm, cyclo, and harmonic); clutches, couplings and brakes; cams, springs, frames and housings; design for manufacturability; selection of lubricants and methods of lubrication; machine components' interrelationship (case studies). Students also learn solid modelling software and use it in design project to develop a solid model of a transmission.

**Courses:** ME41, ME42  
**Contact hours:** 6 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 1

### ► MMB382 DESIGN AND MAINTENANCE OF MACHINERY

This design unit covers the following: design of special equipment (conveyors, cranes, feeding and orienting devices), mechanical structures, heavy machinery, food processing equipment, agricultural equipment, machinery exposed to corrosive environmental and extensive heat; fundamentals of friction and wear; design for reliability; machine failure analysis; analysis of case studies of industrial failures; use of the Anticipatory Failure Determination method for prediction and analysis of failures; practical application of fracture mechanics to failure analysis; machine condition monitoring; maintenance systems; styling and ergonomics in design; Occupational Health and Safety; intellectual property; quality assurance.

**Courses:** ME41, ME42

**Prerequisites:** MMB281

**Contact hours:** 6 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB391 BIOMECHANICAL ENGINEERING SYSTEMS

Topics covered in this unit include an appreciation of the mechanics of the tissues of the joints (micro mechanics or tissue mechanics) and the function of the body during normal activities (macro-mechanics or biomechanics). This unit is designed to develop an understanding of the complex properties of the individual tissues and practical competencies in the evaluation of human function and performance from a biomechanical perspective. Biomedical engineers require the ability to analyse the mechanics of the human body for applications such as prosthetic design (both artificial limbs and replacement joints), design of assistive devices for people with disabilities, sporting performance, ergonomic tasks, and other health related areas.

**Courses:** ME48

**Prerequisites:** CEB109, MMB292, MMB211

**Contact hours:** 6 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 1

### ► MMB392 BIOENGINEERING DESIGN 2

This unit is structured to further develop the engineering design skills of students, with particular emphasis on the role of computer-aided design (CAD), materials selection, manufacturing processes, assembly and maintenance in the design and management of bio-engineering devices. A knowledge of manufacturing processes, fundamentals of engineering design, engineering drawing and engineering materials is assumed. Content includes design for manufacture; materials selection; computer-aided design and solid modelling; rapid prototyping techniques; user interface. Case studies of selected medical devices are included.

**Courses:** ME48

**Prerequisites:** MMB281, MMB371

**Contact hours:** 5 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB400 INDUSTRY PROJECT

Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision and within industry. The BE(Mech) course (like any engineering course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in mechanical engineering and apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a final thesis.

**Courses:** ME41, ME42

**Credit points:** 48    **Contact hours:** 40  
**Sem:** 1, 2

### ► MMB401 PROJECT 1/2

Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision. The BE(Mech) course (like any engineering course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in manufacturing engineering and marketing and to apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a final thesis.

**Courses:** ME41, ME42

**Campus:** GP    **Credit points:** 48  
**Sem:** 1, 2

### ► MMB402 ENGINEERING MANAGEMENT PROJECT 1/2

Students undertake a project applying mechanical engineering and management principles to solve a real world industry problem.

**Courses:** ME41

**Campus:** GP    **Credit points:** 48  
**Sem:** 1, 2

### ► MMB409 PROJECT 1/2

Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision. The BE(Medical) course (like any BE course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in medical engineering and apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a final thesis.

**Courses:** ME48

**Campus:** GP    **Credit points:** 48  
**Sem:** 1, 2

### ► MMB411 ADVANCED AUTOMATIC CONTROL

Continuous automatic control of mechanical systems is fundamental to the automation of manufacturing and process plant. This subject exposes the student to the practical issues of design of automatic control systems using the 'classical control' theory taught in Mechanics 3.

**Courses:** ME41, ME42

**Prerequisites:** MAB133, MMB311

**Contact hours:** 4 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB412 FINITE ELEMENT ANALYSIS

Design engineers must be exposed to modern techniques of analysis for design evaluation and optimization. The finite element method provides a means of achieving this goal. Topics covered in this unit include the following: introduction to the finite element method; introduction to simple models of material and structural behaviours; the Galerkin finite element approximation technique for model differential equations; finite elements and their characteristics; interpolation and shape functions and their relevance in FEA. All students are introduced to a commercial software package and carry out analysis of engineering problems using the software.

**Courses:** ME41, ME42

**Prerequisites:** MMB311

**Contact hours:** 4 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB413 INDUSTRIAL NOISE AND VIBRATIONS

The unit is concerned with the study of methods of noise and vibration measurement and control in industry. Students are required to be capable of modelling and predicting noise and vibration in an industrial environment. Topics covered include the following: instrumentation and measurement of noise and vibration; behaviour and analysis of sound waves; measurement of noise and noise criteria; attenuation from barriers and screens; behaviour of sound in room; sound transmission through partition and noise reduction through partition; vibration generation and transmission; measuring vibration and analysis; instrumentation, vibration condition monitoring and balancing of rotating machines.

**Courses:** ME41, ME42

**Prerequisites:** MMB311

**Contact hours:** 4 per week    **Credit points:** 12  
**Campus:** GP    **Sem:** 2

### ► MMB430 ADVANCED MATERIALS

Topics covered include the following: materials selection for weight critical applications; aluminium and its alloys - principles of age hardening, aluminium-lithium alloys, issues in processing aluminium; light alloys - magnesium, titanium alloy groups and uses; fibre composite materials - Young's modulus, strength and fracture, fibre composites, design with composites; introduction to thin film deposition - physical and chemical vapour deposition, sol-gel deposition, thin film analysis and microstructure; ceramic structures

and processing - classification of structures, structure-property relationships, defects in ceramics, ceramic processing; special topics.

**Courses:** ME41, ME42

**Prerequisites:** MMB232

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► MMB450 AIR CONDITIONING

Topics covered in this unit include the following: detailed analysis of psychrometric and refrigeration cycles; calculation of building cooling loads; air conditioning and refrigeration plant machinery and heat exchangers; ductwork design; application in systems operation.

**Courses:** ME41, ME42

**Prerequisites:** MMB252

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► MMB451 ENERGY MANAGEMENT

Topics covered in this unit include the following: the systematic process by which energy use is monitored and analysed; individual treatment of electricity, fuels and their properties; compressed air, buildings, cycle requirements; pinch technology; energy recovery equipment; financial analysis of proposals. Environmental aspects are considered for each topic.

**Courses:** ME41, ME42

**Prerequisites:** MMB252

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► MMB461 PROCESS SYSTEMS DESIGN

This unit involves the design of various process plant equipment such as piping systems (including control of fluid flow via pumps and valving, support systems and pipe stressing), pressure vessels such as heat exchangers and cooling towers. It introduces students to the pumping of slurries, according to relevant codes.

**Courses:** ME41, ME42

**Prerequisites:** MMB351, MMB352

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► MMB470 ENGINEERING ASSET MANAGEMENT AND MAINTENANCE

Engineers are often involved in the management of substantial amounts of plant, machinery and similar assets. In today's capital intensive industries, maintenance is a major cost element, and the efficiency of operations is heavily influenced by equipment reliability and maintenance effectiveness. The engineer needs to know how to organise maintenance and how to create and implement effective asset management and maintenance plans. This unit includes the following: engineering asset management policy statement; overhaul and replacement of engineering assets; organisation for maintenance; maintenance planning and control; failure mode and effect analysis; reliability, maintainability and availability analysis; risk assessment; spare parts inventory management.

**Courses:** ME41, ME42, ME48

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► MMB471 COMPUTER INTEGRATED MANUFACTURING

Topics covered in this unit include the following: introduction of the concepts of strategic planning for computer integrated manufacturing; concepts of advanced manufacturing technologies and the various components of computer integrated manufacturing system; the importance of concurrent engineering in the context of CIM; introduction to the principles of modelling and simulation techniques as a design and evaluation tool for manufacturing systems.

**Courses:** ME41, ME42

**Prerequisites:** MMB371

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► MMB472 DESIGN FOR MANUFACTURING 2

Topics covered in this unit include the following: basic concepts in the analysis of a mechanical engineering design, relating the design requirements to a range of manufacturing processes; an understanding of the complete manufacturing

specifications for mechanical designs based on functional requirements, manufacturing processes, interchangeability and standardisation; introduction to the basic principles in the design of jigs and fixtures in manufacturing.

**Courses:** ME41, ME42, ME48

**Prerequisites:** MMB371

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► MMB476 OPERATIONS MANAGEMENT

This unit develops students' ability in applying quantitative techniques in solving different types of industrial operations problems. Topics include the following: product mix, assignment and transportation models; location and layout decisions, job design analysis; project planning; quality control and the use of simulation in operations management.

**Courses:** ME41, ME42

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► MMB478 MECHATRONICS SYSTEMS DESIGN

This unit provides students with an understanding of design and interpretation of hydraulic and pneumatic circuits (including graphical symbols, fluid logic and components of fluid systems) and with a basic understanding of PLC programming for control of manufacturing systems with the emphasis on hands on practice of developing a control system for a given process. Topics include the following: Mechatronics systems design; power supply; introduction to fluid power and graphical symbols; hydraulic and pneumatic systems; simple circuits; fluid logic; logic symbols and circuits; hydraulic components, fluids, system design, circuits; pressure compensated flow control.

**Courses:** ME40

**Prerequisites:** MMB371, MMB252

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► MMB492 HEALTH LEGISLATION AND THE MEDICAL ENVIRONMENT

This unit provides an introduction to the types of legislative control in the health and medical industries. It highlights the minimum requirements in relation to the role of medical engineers and their contribution to successful and ethical relationships with medical, health legislative, and regulatory affairs professionals. Content includes the following: national and international legislative controlling bodies and codes (EC, TGA, FDA); structure and sources of legal system (State and Federal); Good Manufacturing Practice (GMP); ISO9000 Quality Systems; Total Quality Management; ethics committees and clearance; industry case studies.

**Courses:** ME48

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► MMB494 REHABILITATION EQUIPMENT DESIGN AND EVALUATION

Bioengineers require an understanding of the criteria associated with the needs and design of specific items of equipment for rehabilitation and the functionally impaired. This unit introduces students to many different areas of rehabilitation and the design of equipment to assist people with disabilities. There are formal lectures and tutorials, some of which will be presented by practitioners from the different areas of rehabilitation.

**Courses:** ME48

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► MMB496 MODELLING AND SIMULATION FOR MEDICAL ENGINEERS

Computational modelling and simulation are widely used in engineering in general, and in specific areas of medical engineering. Modelling can be described as the process of determining analytical representations of physical elements for the purpose of investigating kinematic, kinetic and structural properties and performance. Content includes the following: introduction to MATLAB programming techniques; process of model creation; methods of analysis of determi-

nate and indeterminate systems; simulation techniques and examples of advanced applications.

**Courses:** ME48

**Prerequisites:** MMB391

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB100 ENVIRONMENTAL SCIENCE

General features of the aquatic, atmospheric, and terrestrial systems are described. This incorporates the main chemical, physical, and biological processes that influence their development. The evolution of these systems, and their interaction, is considered. The human involvement, its type, extent, and impact, is then examined. To give some relevance to the global concepts presented, a range of examples are given for the Australian environment and its resources, and human interaction with them.

**Courses:** ED50, SC01

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** CA, GP **Sem:** 1

#### ► NRB230 PLANET EARTH

This unit focuses on geological principles, formation and classification of minerals, rocks and soil, the origin of the Earth and the solar system, stratigraphy, geological time, dating and geological history, fossils, structural geology and plate tectonics, and economic and applied geology.

**Courses:** ED50, SC01

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** CA, GP **Sem:** 1, 2

#### ► NRB240 HISTORY OF LIFE ON EARTH

This unit provides an introduction to the history and development of life on Earth with an emphasis on fundamental biological and ecological principles as they have operated through geological time.

**Courses:** SC01

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB270 ANIMAL AND PLANT STRUCTURE AND FUNCTION

This unit emphasises the integration of major biochemical and physiological process within functioning organisms. Aspects of energy flow (photosynthesis and respiration) are considered. The structure of major organs and organ systems is described and related to their function. The regulation and coordination of organism function via biological feedback mechanisms, nervous and/or hormonal systems are outlined.

**Courses:** ED50, SC01

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** CA, GP **Sem:** 2

#### ► NRB301 EARTH SURFACE SYSTEMS

This unit includes the investigation of earth surface processes, landforms and land-forming agents, soil formation and soil dynamics. It also includes the history of earth surface features and the formation of Australian landscapes. The nature and scale of landforms and soil landscapes is emphasised along with the soil- and land-forming processes that operate through time within earth surface systems. Analytical field and laboratory techniques concerning land- and soil-forming processes and the scientific investigation and management of natural resources are a central component. Field trips and assignments focus on applying geomorphological and pedological principles to problem-solving in the environment.

**Courses:** SC01

**Prerequisites:** NRB100

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB311 POPULATION ECOLOGY

This unit includes a broad theoretical background in the major concepts of plant and animal ecology. Topics include ecology of individuals, dynamics of single populations, demography, interactions within and between populations, determinants of population size, behavioural ecology, and basic approaches to estimating population parameters.

**Courses:** SC01

**Prerequisites:** NRB100 or LSB118

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB331 SEDIMENTARY GEOLOGY

This unit includes types of sediments and their classifications and occurrence, textures, grain

size and analysis, and sedimentary depositional environments. The analysis of maps and sedimentary successions is approached using sediment type, stratigraphy. Applications considered cover environmental studies, coastal and land management, and mineral, petroleum and other resource assessment.

**Courses:** SC01

**Prerequisites:** NRB230 **Corequisites:** NRB333

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB333 MINERALOGY

This unit includes crystallography, symmetry, Miller indices, axial ratios, crystal forms, classes, systems, lattices, unit cell, crystal chemistry, crystal growth and defects, atomic structure, periodic table, ions and packing, Pauling's rules, bonding and mineral properties, substitution, solid solution, polymorphism, pseudomorphism. It also includes the classification of minerals; systematic treatment of the physical, chemical and structural properties of minerals; techniques of mineral analysis; theory and identification of minerals in transmitted light; optical properties and identification of minerals in thin section, and grain mounts.

**Courses:** SC01

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB370 INVERTEBRATE BIOLOGY

The major focus of this unit is the examination of the diversity of invertebrate functional systems, behaviour, and life histories. These are viewed in an evolutionary context. A brief overview of the diversity, phylogeny, and classification of invertebrates is provided. Emphasis is placed on understanding the features of the Arthropods, the dominant phylum within the invertebrates.

**Courses:** SC01, ED50 **Prerequisites:** LSB118

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB371 PLANT BIOLOGY

Ever wondered what the first plant to crawl out of the sea looked like? This unit takes students on a journey to see how they looked and lived. We'll use students' imaginations, some great images and learning experiences to show students how plants evolved into some of the most enormous organisms on the planet. Ever wanted to visit a forest essentially unchanged for 80 million years? We'll go on a virtual tour - we'll take students there. We'll talk about the distribution and abundance of the most successful of the invaders of terrestrial environments - the plants. We'll also discuss some of the unique adaptations of Australian plants to their environment. The time machine awaits - first stop - the first plants to colonise the land.

**Courses:** ED50, SC01 **Prerequisites:** LSB118

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB410 GENETICS AND EVOLUTION

This unit provides a basic understanding of the mechanisms of inheritance using Mendelian Genetics as a foundation. These principles are extended to develop a clear understanding of the mechanisms and processes that drive evolution in natural populations. Topics include the physical basis of heredity, Mendelian and non-Mendelian inheritance patterns, genotype/environment interactions, quantitative traits, evolutionary theory, adaptation and natural selection, sexual selection and the evolution of life histories.

**Courses:** ED50, SC01 **Prerequisites:** LSB118

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB412 EXPERIMENTAL DESIGN

This unit emphasises practical considerations of field and laboratory-based experimentation in ecology and environmental science, and provides experience in problem assessment, definition, formulation of testable hypotheses and experimental design. The unit includes undertaking typical field exercises in ecology, and analysing, interpreting and reporting experimental work.

**Courses:** SC01

**Prerequisites:** NRB311, MAB101

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB434 STRUCTURAL GEOLOGY AND FIELD METHODS

This unit considers the deformation of geological materials. The course includes description and analysis of joints, faults, folds, boudinage, cleavage, foliations, and lineations. Also examined are principles of deformation: normal and shear stress, brittle fracture, strain and rigid motion, brittle and plastic deformation, measurement of strain, and Mohr diagrams. Practical work includes a series of assignments of increasing complexity, culminating with a course project which includes geological map interpretation and cross section construction. Field work consists of 4 trips designed for the construction of geological maps and analysis of deformed rocks. This includes a week long trip and preparation of geologic reports.

**Courses:** SC01

**Prerequisites:** MAB100, NRB230, NRB331

**Corequisites:** NRB432

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB436 INTRODUCTION TO IGNEOUS AND METAMORPHIC PETROLOGY

This unit includes an introduction to the description, classification and origin of igneous and metamorphic rocks and practical development of lithologic and petrographic abilities to identify mineral assemblages, classify rocks, and interpret textures. Field and theoretical constraints on the petrogenesis of rocks are discussed in lecture. Field study is an essential component of the unit.

**Courses:** SC01

**Prerequisites:** NRB333

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB437 STRATIGRAPHY AND DEPOSITIONAL ENVIRONMENTS

This unit focuses on advanced facies analysis of additional depositional environments and stratigraphic analysis including lithostratigraphy, biostratigraphy and chronostratigraphy. An introduction to sequence stratigraphy and subsurface geology utilising a variety of different data sets is also covered. Applications include both exploration in coal and hydrocarbon industries and hydrogeology and environmental geology areas.

**Courses:** SC01

**Prerequisites:** NRB331

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB440 ENVIRONMENTAL CHEMISTRY

This unit includes the following: design and quality control of physicochemical monitoring programs; fundamentals of data analysis; methodologies of monitoring (variables, instruments, sampling strategies including location and frequency of observation, analytical protocols); introduction to biogeochemical cycles; the relationships between molecular structures and environmental properties; hazardous substances in the environment; chemistry of natural water bodies, including solutes and equilibria; chemistry of water pollutants; indicators of water quality; the atmosphere: structure and energy balance, air pollutants.

**Courses:** SC01

**Prerequisites:** 72 credit points of science units

including PCB140 or PCB142

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB470 VERTEBRATE BIOLOGY

The core modules for this unit cover evolution and physiological capabilities (with particular emphasis on the brain). Other modules provide opportunities to enhance students' knowledge of particular aspects of vertebrate biology or to learn how to identify Australian vertebrates.

**Courses:** ED50, SC01 **Prerequisites:** NRB270

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

#### ► NRB500 ENVIRONMENTAL MODELLING

This unit builds the capacity to develop understanding of the interdependent relationships that characterise environmental systems via model building. Models are developed to study the function of simple environmental processes by adopting a systems approach. This approach is

presented as a foundation for informed environmental management.

**Courses:** SC01

**Prerequisites:** 48 credit points of second level science units

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB501 SPATIAL ANALYSIS OF ENVIRONMENTAL SYSTEMS

This unit provides an introduction to the concepts, theory and practice of GIS and Remote Sensing (RS) essential to the understanding of spatial data capture, interpretation, management and analysis methods in environmental and natural resource applications. Key elements of GIS examined include mapping theory, map projections and coordinate systems, map and spatial data, data acquisition, data presentation, and environmental applications. Key elements of RS covered include RS principles, RS platforms and systems, air-photo interpretation, spectral properties of environmental phenomena, and mapping from RS. Practical work uses GIS and image analysis software to solve spatial analysis problems and interpret RS imagery for environmental and natural resources management.

**Courses:** ED50, SC01

**Prerequisites:** 72 credit points of science units

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB510 POPULATION GENETICS

This provides an extension of NRB410 Genetics and Evolution. Topics include the genetic structure of populations and processes of evolutionary change; natural selection, inbreeding and adaptation, species and speciation theory; ecological genetics and the genetics of behaviour.

**Courses:** SC01

**Prerequisites:** NRB410

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB511 POPULATION MANAGEMENT

This unit develops the theoretical treatment of populations as a unit of study and integrates the content of previous ecology units into approaches for the management of biological populations. The unit focuses on those population/resource interactions that are relevant to conservation, harvesting and pest control.

**Courses:** SC01

**Prerequisites:** NRB311, NRB411

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB533 ADVANCED GEOLOGICAL MAPPING

A field excursion of approximately 3 weeks duration is conducted during the semester break. The excursion emphasises geological mapping skills in lithologically and structurally varied regions. Lectures and tutorials prior to the excursion review and develop mapping and geological interpretation techniques. Students are expected to cover their transport expenses to the field site, as well as accommodation and food costs during the excursion.

**Courses:** SC01

**Prerequisites:** NRB431

**Corequisites:** NRB530, NRB531

**Contact hours:** 1 per week plus 3 week field trip

**Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB534 GEOPHYSICS

This unit includes considers the remote measurements of rock properties and relates them to geological problems and tectonic regimes. The physics of various measurements of these rock properties, the acquisition of data, and the interpretation of these various data are all addressed. A significant part of the semester covers seismic reflection data. Also covered are seismic refraction, gravity, magnetics, seismology, electromagnetics, radiometrics, ground penetrating radar, and heat flow.

**Courses:** SC01

**Prerequisites:** NRB230, NRB434

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

#### ► NRB535 GEOLOGY OF FOSSIL FUELS

This unit focuses on the following: coal properties, classification, genesis, and analysis; coal

hand specimen studies and microscopy; hydrocarbon generation from coal and oil shale; coal-field geology and subsurface mapping techniques; basin analysis; coal production and economics; origin and characteristics of petroleum fluids, including generation, accumulation and migration through time and space; study of structural and stratigraphic traps, and reservoir rock characteristics; application of drilling, logging, and geophysical and correlation techniques, including seismic stratigraphy; economics of petroleum production.

**Courses:** SC01 **Prerequisites:** NRB331  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► NRB536 PETROLOGY AND GEOCHEMISTRY

Through lecture, discussion and problem solving exercises, this unit introduces the application of geochemistry, phase equilibria, and thermodynamics to demonstrate the origin and evolution of igneous and metamorphic rocks. Problem-solving exercises synthesise field, petrographic and geochemical data to develop quantitative petrogenetic models and enhance critical thinking and written communication skills. Field study is an important component of this unit.

**Courses:** SC01 **Prerequisites:** NRB436  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► NRB571 MARINE BIOLOGY

This unit gives a general overview of marine ecosystems and their importance to humankind. The unit aims to stimulate thought, and to generate ideas, by reviewing the range of approaches taken to manage, and conserve, marine resources. Emphasis is given to Australian coastal marine systems: their importance, care, and abuse. The unit involves a compulsory 3 day field trip to a local coastal ecosystem.

**Courses:** ED50  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► NRB572 TERRESTRIAL ECOSYSTEMS

This unit examines the key physical and biological processes that influence the range of terrestrial ecosystems. It examines the geological, climatic and historical processes that have shaped the evolution and ecology of Australia's terrestrial ecosystems and the ecological properties of natural and human modified systems. Content includes the significant phases in the evolution of the Australian flora and fauna, principal components and adaptations of the modern Australian flora and fauna, theories pertinent to explanations of biogeographical distributions, soil formation, structure and biology, physical processes in terrestrial systems, structure and characteristics of terrestrial ecosystems, and terrestrial ecosystem case studies.

**Courses:** ED50, SC01  
**Prerequisites:** NRB371 or NRB311  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► NRB600 SUSTAINABLE ENVIRONMENTAL MANAGEMENT

Sustainable environmental management requires a multidisciplinary approach to decision-making. This approach must be founded on scientific knowledge about the environment, but to be effective, the science must also be integrated with social, economic, political and technological policies. This unit explores contemporary environmental management issues: the science behind them, linkages between them, their cultural settings and sustainable solutions.

**Courses:** ED50, SC01  
**Prerequisites:** 48 credit points of second level units  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB610 ECOLOGICAL APPLICATIONS

This unit integrates the content of other ecology units into applied approaches to the management of populations and systems. The unit employs concepts from population ecology, population management and conservation biology and builds methodologies and concepts necessary for an applied approach to conservation and pest man-

agement. A field trip provides the vehicle for developing these themes. Content includes collection, collation and preparation of biological resource material relevant to a case study, diagnostic features and identification of species of relevance, factors involved in the design of a large-scale field study, field techniques necessary for understanding species/habitat interactions, and the analysis and interpretation of large field data sets.

**Courses:** SC01  
**Prerequisites:** NRB511 or NRB510  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB611 CONSERVATION BIOLOGY

Conservation Biology is the application of ecological theory and principles to the problem of the maintenance of viable populations of rare, threatened or endangered species, or ecological systems. The unit integrates ecological and genetic material covered in earlier units to provide an understanding of factors that enable the maintenance or enhancement of populations. The unit examines biodiversity and its determinants; the process of extinction; population viability analysis and the diagnosis and treatment of population declines; habitat fragmentation; metapopulation processes and the design of natural reserves; and conservation genetics.

**Courses:** SC01  
**Prerequisites:** NRB311, NRB410  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB633 HYDROGEOLOGY

This unit focuses on the origin, occurrence and movement of groundwater; aquifer properties; chemistry and quality of groundwater; exploration methods for groundwater; drilling methods and equipment and well testing equipment; well hydraulics and testing, and flow calculations; assessment of groundwater problems, both supply and quality; modelling approach to groundwater assessment. Students obtain practical experience with pump tests and chemical analysis of waters, and are introduced to computer modelling. There is interaction with government and private sector hydrogeologists, and site visits.

**Courses:** SC01 **Prerequisites:** NRB232  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB635 PLATE TECTONICS AND ADVANCED STRUCTURAL GEOLOGY

This unit considers geological observations in the context of a unifying theory. It examines lithospheric plates, plate geometries, Earth morphology, relative and absolute plate movements, stresses of plate interactions, types of plate boundaries, and orogenesis. The unit examines the development of the most important geologic theory of the 20th century.

**Courses:** SC01  
**Prerequisites:** NRB331, NRB432, NRB434, NRB534  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB636 STRATIGRAPHY AND BASIN ANALYSIS

This unit focuses on advanced stratigraphic and basin analysis primarily utilising subsurface data. Sequence stratigraphic models for the dominant depositional systems are explored with emphasis on how they change because of temporal shifts in tectonic, eustatic and climatic parameters. Integrated lithostratigraphic, biostratigraphic, geophysical, and geochemical data sets are introduced as fundamental aspects of basin analysis.

**Courses:** SC01  
**Prerequisites:** NRB333, NRB437  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB660 STUDIES IN NATURAL RESOURCE SCIENCES

Studies in Natural Resource Sciences requires a student in consultation with a project supervisor to formulate a research problem, to develop the methodology and to analyse and interpret the data in a way that results in the solution of a problem. Research problems may be field based and require the production of a detailed map,

collection of samples, observation and analysis of specified features, followed by some type of analysis of data. The type of analysis may be in the chemical laboratory, the ecology laboratory or could be computer based. The project is presented as a formal report including interpretation of data. Appropriate use of the current literature is expected. Approval of the Head of School is required.

**Courses:** SC01 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB672 MARINE AND FRESHWATER ECOSYSTEMS

This unit examines the structure and function of marine and freshwater ecosystems. Aquatic ecosystems cover the majority of the planet and their management is important in terms of maintaining water quality for human utilisation, harvesting resources, and for species conservation. The unit emphasises the physical and ecological properties that are common to all aquatic systems, but also identifies those properties that are unique to particular systems. The unit addresses aquatic ecosystems, their different forms and extent; the chemical and physical properties of aquatic environments; circulation and transport processes; the structure and characteristics of the different aquatic environments; human impact and management in marine and freshwater systems.

**Courses:** ED50, SC01 **Prerequisites:** NRB311  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► NRB720-1 PROJECT

This unit includes a substantial project in the appropriate area of science undertaken in conjunction with a supervisor and through interaction with lecturing and technical staff of the School of Natural Resource Sciences. The unit provides the opportunity for students to identify and solve scientific problems logically and creatively. Students are required to relate the project research to published work in the field of study. Each project is assessed on the basis of an extensive written report and a formal seminar or scientific poster. (60 credit points achieved at completion of NRB720-1, NRB720-2, NRB720-3, NRB720-4 and NRB720-5.)

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► NRB720-2 PROJECT

See NRB720-1 for details.  
**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► NRB720-3 PROJECT

See NRB720-1 for details.  
**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► NRB720-4 PROJECT

See NRB720-1 for details.  
**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► NRB720-5 PROJECT

See NRB720-1 for details.  
**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► NRB730-1 RESEARCH METHODS AND STRATEGIES

This is a two semester unit with its main focus to develop the research planning, abilities and skills of the student. The major assessable components are a literature review, seminars, informal presentations and discussions on subjects relevant to the research topic, and advanced skills workshops and exercises. (24 credit points achieved at completion of NRB730-1 and NRB730-2.)

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► NRB730-2 RESEARCH METHODS AND STRATEGIES

This is a two semester unit with its main focus to develop the research planning, abilities and skills of the student. The major assessable components are a literature review, seminars, informal presentations and discussions on subjects relevant to the research topic, and advanced skills workshops and exercises. (24 credit points achieved at completion of NRB730-1 and NRB730-2.)

**Courses:** SC60 **Credit points:** 12

**Campus:** GP**Sem:** 1, 2**► NRB735 ADVANCED STUDIES IN RESOURCE SCIENCES**

This unit provides an in-depth examination of a topic or synthesis of a subject through lectures, tutorials, discussions, independent study, practicals and/or field excursion. This unit has general structure, which can be developed to the specific requirements of each section of the school. An important aim is to develop inquiring and analytical thought at an advanced level. The unit may be conducted in the first part of Semester 1, or could be conducted over two semesters.

**Courses:** SC60**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NRN100 READINGS IN NATURAL RESOURCE SCIENCES 1**

This unit includes a review of the literature in an area of direct relevance to the research project. The review should be designed in conjunction with the supervisor and should demonstrate a broad appreciation of the literature, a critical appraisal of research to date, and the relevance of the research project within the framework of current understanding. Reviews should normally be approximately 5000 words.

**Courses:** IF49, SC71, SC80**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NRN101 READINGS IN NATURAL RESOURCE SCIENCES 2**

This is a companion unit to NRN100 that allows students to (a) prepare a review of a second area relevant to the research project or (b) consider a wider subject area in greater depth. If option (b) is chosen, a single review can qualify as total assessment for both NRN100 and NRN101. In this case, the review should be approximately 10,000 words and be a critical analysis of a substantial research area.

**Courses:** IF49, SC71, SC80**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NRN102 SEMINARS IN NATURAL RESOURCE SCIENCES 1**

This unit includes a public seminar plus an extensive discussion period designed to provide positive feedback from staff and students on the proposed research project. The presentation should be designed in conjunction with the supervisor and include background to the project area, specific objectives of the proposed project, methodology to be followed, and possible outcomes. The seminar should be presented after the project outline has been developed and before any significant amount of research has been undertaken.

**Courses:** IF49, SC71, SC80**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NRN103 SEMINARS IN NATURAL RESOURCE SCIENCES 2**

This unit includes a public seminar plus an extensive discussion period designed to provide positive feedback from staff and students on the progress of the research project. The presentation should be designed in conjunction with the supervisor and include project objectives, progress to date, preliminary data, and problems for discussion. The seminar should be presented within 12 months (full-time) or 24 months (part-time) of commencement of the postgraduate program.

**Courses:** IF49, SC80**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NRN104 ADVANCED TOPICS IN NATURAL RESOURCE SCIENCES 1**

Students develop an advanced understanding of a topic in the natural resource sciences that is highly relevant to the general area of their proposed research project. The structure and content is variable and can be tailored to the specific requirement of each project and the background of the student. A formal outline of the unit including objectives, content and assessment relevant to the individual course of study will be developed by the supervisor and approved by the Head of School. Content may include active participation in tutorials, workshops, laboratory/field techniques and components of ad-

vanced level undergraduate units. Components of advanced level undergraduate units should not exceed 70% of the total assessment.

**Courses:** IF49, SC71, SC80**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NRN105 ADVANCED TOPICS IN NATURAL RESOURCE SCIENCES 2**

Material presented in this unit must be distinct from that covered in NRN104. Students develop an advanced understanding of a topic in the natural resource sciences relevant to the area of their proposed research project. A formal outline of the unit outlining objectives, content and assessment relevant to the individual course of study will be developed by the supervisor and approved by the Head of School. Content may include active participation in tutorials, workshops and laboratory/field techniques and components of advanced level undergraduate units. If components of advanced level undergraduate units are included, they should not exceed 70% of the total assessment.

**Courses:** IF49, SC71, SC80**Credit points:** 12**Campus:** GP**Sem:** 1, 2**► NSB113 VALUES, CULTURE AND DIVERSITY**

This unit introduces students to the interrelationships between philosophical principles, cultural values, health behaviours and nursing. It will encourage students to consider their own values and the way in which these may impact on their interactions with patients/clients and will present a model for developing cultural safety within their nursing practice. Examples from contemporary Australian society are drawn upon to enable students to understand health events and practices such as birth, health, illness, nutrition and communication from a range of perspectives.

**Courses:** NS40, NS45**Contact hours:** 3 per week**Credit points:** 12**Campus:** KG**Sem:** 2**► NSB117 NURSING AND THE HEALTH CARE SYSTEM**

The evolution of nursing as a discipline, contemporary roles of the nurse, the professional context of nursing practice, and caring and nursing practice are addressed in this unit. Content also includes health and wellness, the health-illness continuum, models of health and illness, and the structure and function of the Australian health care system including characteristics of Australia's health care system.

**Courses:** NS40, NS45**Contact hours:** 3 per week**Credit points:** 12**Campus:** KG**Sem:** 1**► NSB118 HEALTH ASSESSMENT AND NURSING PRACTICE**

This unit provides an introduction to critical thinking, problem solving and decision making in nursing practice; and the nursing process and nursing practice. It considers the role, purpose and scope of nursing assessment for individuals and groups; principles and methods of data collection including symptom/problem exploration; frameworks for data collection; introduction to principles and methods of data analysis; and documentation and presentation of client data.

**Courses:** NS40, NS45, HL40, HL46**Credit points:** 12**Campus:** KG**Sem:** 1, 2**► NSB122 CLINICAL PRACTICE 1**

This is the first in five clinical practice units that provide the opportunity to experience the practice of nursing in real world settings and to develop the knowledge, attitudes and skills required for safe, competent practice as a beginning level registered nurse. This unit focuses on providing basic care to patients in hospital considering promoting a safe environment for patient care; managing basic care needs of patients and assisting with activities of daily living.

**Courses:** NS40, NS45, HL40, HL46**Credit points:** 12**Campus:** KG**Sem:** 1, 2**► NSB212 CLINICAL PRACTICE 2**

This is the second in the five clinical practice units that provide the opportunity to experience the practice of nursing in real world settings and

to develop the knowledge, attitudes and skills required for safe, competent practice as a beginning level registered nurse. The main areas of content in this unit are: promoting a safe environment for client care, managing more complex patient care needs, and developing a professional approach to practice. Concepts addressed include: sterile techniques, barrier/reverse barrier nursing, principles of wound management, administration of parenteral medications; problem solving and decision making principles applied to the care of individuals with medical-surgical and mental health dysfunctions.

**Courses:** NS40, NS45, HL40, HL46**Prerequisites:** NSB122**Credit points:** 12**Campus:** KG**Sem:** 1, 2**► NSB222 CLINICAL PRACTICE 3**

This is the third in the five clinical practice units that provide the opportunity to experience the practice of nursing in real world settings. There are three main areas of content in this unit: promoting a safe environment for client care, managing complex patient care needs, and developing a professional approach to practice. Particular concepts addressed include: complex wound management, clinical nursing therapeutics related to the administration of blood and blood products, management of colorectal and urinary diversionary procedures, urinary catheterisation, ostomy management; prioritisation of patient care and time management.

**Courses:** NS40, NS45, HL40, HL46**Prerequisites:** NSB212**Credit points:** 12**Campus:** KG**Sem:** 2**► NSB223 MENTAL HEALTH NURSING**

Nurses need to be able to identify and care for people suffering from mental health problems. Topics addressed in this unit include the mental health continuum and major theoretical approaches to mental illness; understanding and nursing people across the lifespan who suffer from anxiety disorders, personality disorders, bipolar disorder, depression, schizophrenia, substance use and abuse, cognitive impairment disorders, eating disorders; the nurse's role with respect to treatment modalities and assessing mental status; and the experiences of persons living with a mental illness and families caring for someone with a mental illness.

**Courses:** NS40, NS45, HL40, HL46**Contact hours:** 3 per week for 9 weeks**Credit points:** 12**Campus:** KG**Sem:** 1, 2**► NSB224 RESEARCH APPROACHES IN NURSING**

This unit provides an introduction and overview of research in nursing. It covers the purpose of research, the relationship between research and nursing practice, the notion of nursing knowledge, the process of research, ethical issues related to research and strategies for critiquing research reports. Particular emphasis will be placed on selected methodologies that are used to research nursing practice, and quantitative and qualitative data collection and data analysis.

**Courses:** NS40, NS45**Contact hours:** 3 per week**Credit points:** 12**Campus:** KG**Sem:** 1**► NSB225 PROMOTING HEALTH ACROSS THE LIFESPAN**

This unit explores the concepts of health and wellbeing for individuals throughout the lifespan, families and communities; nursing models of health promotion; factors that influence health beliefs and behaviours, and the capacity to maintain health; principles of health teaching; working with individuals and groups to promote health; the role of the nurse in promoting health with people of all ages (children, adolescents, adults and the elderly), families across the life cycle and groups; promoting health and wellbeing for dying clients and their families.

**Courses:** NS40, NS45, HL40, HL46**Contact hours:** 3 per week**Credit points:** 12**Campus:** KG**Sem:** 2**► NSB312 FAMILY AND COMMUNITY NURSING**

Community and family nursing practice interfaces with care provided to individuals in hospi-

tal care. Families are an integral component of care in all contexts and so nurses need to focus care with individuals, the family and the community. The unit focuses on family assessment and intervention. Community assessment and intervention is also studied in the context of a Primary Health Care philosophy and health promotion framework that addresses the five action areas of the Ottawa Charter to provide an opportunity for students to develop knowledge and skills in the broadest context of health.

**Courses:** NS40

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► NSB321 PROFESSIONAL NURSING DEVELOPMENT

Highlights the explicit link between clinical practice and theoretical knowledge. Post-registration and final semester pre-registration students will be assisted to further develop skills in reflective practice and peer consultation as strategies to support a more critical approach to clinical practice. A variety of topics will be addressed through a combination of self-directed learning activities and small group discussion sessions.

**Courses:** NS40, NS45, HL40, HL46

**Prerequisites:** NSB501

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► NSB322 CLINICAL PRACTICE 4

This is the fourth in the five clinical practice units that provide the opportunity to experience the practice of nursing in real world settings and to develop the knowledge, attitudes and skills required for safe, competent practice as a beginning level registered nurse. This unit facilitates the development and application of knowledge and skills necessary for the provision of nursing care in medical/surgical health settings at an advanced level. Emphasis is placed on students' communication skills, critical thinking and decision-making skills, technical skills and professional development skills, and the assumption of increased responsibility for patient care.

**Courses:** NS40, NS45, HL40, HL46

**Prerequisites:** NSB222

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► NSB324 MEDICAL-SURGICAL NURSING 1

The unit explores nursing assessment, care planning and care evaluation necessary for the provision of sound, safe nursing care for people in hospital and home-based settings with health problems related to neurological, sensory, musculoskeletal dysfunctions, and infectious and immune related disorders. Issues addressed will include peri-operative nursing; acute and chronic pain management; the unconscious patient, post-stroke rehabilitation, and degenerative neurological conditions such as multiple sclerosis, sensory impairment and orthopaedic problems. Principles of nursing people with infectious and immune related disorders will also be covered.

**Courses:** NS40, NS45, HL40, HL46

**Prerequisites:** NSB118

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

#### ► NSB333 CLINICAL PRACTICE 5

This final clinical unit is designed to enable consolidation of knowledge and skills necessary for the provision of safe, effective patient care in preparation for a successful transition to beginning level practice as a registered nurse. The unit includes eight weeks off-campus placement. Emphasis is placed on student's proficiency in clinical practice, particularly their communication skills, critical thinking and decision making/problem solving skills, technical skills, reflective skills, care management skills and awareness of professional attributes and values.

**Courses:** NS40, NS45, HL40, HL46

**Prerequisites:** NSB322

**Contact hours:** 3 per week **Credit points:** 24  
**Campus:** KG **Sem:** 2

#### ► NSB421 INDEPENDENT STUDY

This unit provides students the opportunity to independently explore a body of literature and/or research relevant to an area of interest in nursing. The unit enables students to extend their knowl-

edge and understanding of a topic that is not specifically addressed elsewhere in the course. The emphasis, in this unit, is on the development of independent research, study and analytical skills. These skills are demonstrated first, in an assimilation of a range of materials into a clearly formulated written argument and second, in an oral presentation and discussion of the study material.

**Courses:** NS40

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► NSB423 MEDICAL-SURGICAL NURSING 2

The content of this unit will cover nursing assessment, care planning and care evaluation necessary to provide sound, safe nursing care for people in a variety of settings with acute and/or long term health concerns and issues related to the gastro-intestinal, endocrine, genito-urinary and integumentary dysfunctions. Issues addressed will include diabetes mellitus, renal failure, inflammatory bowel disorders, burns and wound management.

**Courses:** NS40, NS45, HL40, HL46

**Prerequisites:** NSB324, NSB118

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► NSB424 NURSING THERAPEUTICS

Nurses have a central role in assisting individuals, families and/or groups of people to make informed decisions about their care, supporting them through stressful and traumatic experiences and facilitating them to effectively manage health problems in order to optimise recovery, rehabilitation and/or habilitation. This unit focuses on the development of knowledge, skills and personal attributes that are fundamental to establishing and maintaining therapeutic relationships, educating clients about health care matters and counselling patients and families to promote health and well being.

**Courses:** NS40, NS45, HL46

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► NSB500 MEDICAL-SURGICAL NURSING 3

The content of this unit will address nursing assessment, care planning and care evaluation necessary to provide sound, safe nursing care for people in a variety of settings with complex acute and/or long term health concerns and issues related to cardiovascular, respiratory and oncological dysfunctions. Particular emphasis will be placed on life threatening illnesses and the provision of high dependency and palliative nursing care. Contemporary research and 'best practice' guidelines will underpin the content of this unit.

**Courses:** NS40, NS45, HL40, HL46

**Prerequisites:** NSB324, NSB423

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► NSB501 POLITICS, TECHNOLOGY AND NURSING

This unit provides an opportunity for students to develop and extend their knowledge about issues that directly inform the role of the health care practitioner. The framework of the unit is the political nature of nursing and the unit content addresses key processes and factors that are impacting on and reshaping nursing practice and health care provision. The subject areas include the changing nature of health care and nursing organisational and educational structures and rapid changes in technology. These political and technological changes require nurse practitioners to continually re-evaluate the contexts of their practice.

**Courses:** NS40, NS45, HL40, HL46

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► NSB600 INTRODUCTION TO NURSING CHILDREN AND CHILDBEARING FAMILIES

This unit provides an overview of the theoretical concepts and clinical application principles for practice in the areas in providing nursing and midwifery care for children and childbearing

families. The emphasis is upon the childbearing process and the developmental stages of childhood and family dynamics. This is viewed as a normal process of growth and development, which will be affected by social, economic, legal and cultural factors. The focus will be on the promotion and maintenance of health.

**Courses:** NS40, HL40

**Prerequisites:** All 1st and 2nd year NS40 units

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 2

#### ► NSB602 PAIN MANAGEMENT AND CONTEMPORARY NURSING PRACTICE

Making decisions about patient's pain and its management is a key component of nursing practice across a wide variety of patient groups and clinical settings. This unit examines the concept of pain and explores aspects of the nurse's role in relation to pain relief. It builds on introductory concepts that have been addressed earlier in the program through more detailed exploration of, and reflection upon selected concepts.

**Courses:** NS40, HL40 **Prerequisites:** NSB500

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 2

#### ► NSB603 INTRODUCTION TO CARDIOTHORACIC NURSING

Cardiovascular disorders are commonly encountered by nurses practicing a variety of clinical settings. This unit provides an overview of cardiathoracic nursing and encompasses theoretical concepts specific to this specialty as well as related clinical skills. It builds on introductory concepts that have been addressed earlier in the program through more detailed exploration of and reflection upon selected concepts.

**Courses:** NS40, HL40 **Prerequisites:** NSB500

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► NSB604 INTRODUCTION TO DEMENTIA AND FAMILY CARE

The growing challenges of caring for increasing numbers of older people experiencing dementia is well documented. Through a focus on Alzheimer's Disease this unit will assist you to respond to the challenges of caring for older people with dementia, and their families, in a community health context.

**Courses:** NS40, HL40

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► NSB605 NURSING IN A TECHNOLOGICAL WORLD

Technology is of extraordinary importance to nursing and is significant to understanding and practicing within contemporary health care contexts. Nurses are responsible for an increasingly technological orientated health care system dominated by administrative and bureaucratic structures. This unit is designed to establish insight into the link between technology, clinical practice and nursing knowledge, highlight the learning opportunities available in the changing workplace, and model a process of ongoing professional development. The unit seeks to relate nursing practice to knowledge development associated with technology, the experience of patients and nurses, and the development of a professional and informed understanding of technology.

**Courses:** NS40, HL40

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 2

#### ► NSN002 KEY ISSUES IN CHILD AND YOUTH HEALTH NURSING

This unit addresses contemporary issues in child and youth health, to provide the basis for further study in this field. A Primary Health Care framework will be used to consider issues that impact on the health of children and young people. In addition key policy frameworks will provide direction for study in the unit. The unit will consider the impact of social determinants on child, youth and family health and examine current strategies to address such impacts. Students will have the opportunity to examine local programs and strategies aimed at improving health outcomes.

**Courses:** NS35, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **NSN003 PRINCIPLES OF PAEDIATRIC, CHILD AND YOUTH HEALTH NURSING**

Students in this unit are introduced to issues facing nursing when providing care for children and families in the acute and community service environment. The unit presents an overview of the contemporary health problems faced by the Australian child and family and explores nursing interventions that enhance adaptation and health.

**Courses:** NS35, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **NSN004 ACUTE PAEDIATRIC NURSING**

This unit provides registered nurses with advanced knowledge and skills enabling them to provide safe and competent care to children experiencing acute paediatric illness. The unit focuses on employing clinical assessment, problem solving and critical thinking skills. Registered nurses will be able to demonstrate knowledge and skills in the nursing management of acute and chronic health problems within paediatric clinical practice.

**Courses:** NS35, NS64, NS85

**Prerequisites:** NSN003

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN005 COMMUNITY CHILD AND YOUTH HEALTH NURSING**

This unit is designed to provide a sound basis for nursing practice in the area of community child and youth health. Students will examine contemporary issues relating to their professional role in caring for children, youth and families within the community context. The unit adopts a primary health care approach to examine the nurses' role in primary and secondary prevention, in supporting families in the community and in health education and community development.

**Courses:** NS35, NS64, NS85

**Prerequisites:** NSN003

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN006 SPECIALISATION IN PAEDIATRIC, CHILD AND YOUTH HEALTH NURSING**

This unit will provide students with clinical knowledge and understanding in a selected area of paediatric or child and youth health subspecialty. The unit is based on a learning contract that will include both theoretical and clinical learning activities and assessment.

**Courses:** NS35, NS64, NS85

**Prerequisites:** NSN003, NSN002

**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN311 CLINICAL STUDIES IN MIDWIFERY A**

This unit provides the opportunity for students to develop clinical knowledge and skills in the areas of antenatal, postnatal assessment and care as well as an introduction to the assessment and care for the birthing woman. The focus in this unit is midwifery practice in the area of uncomplicated pregnancy and birth. Clinical activities and focused assessment enable the student to incorporate theoretical, conceptual and practical knowledge, attitudes and skills required to care for the childbearing woman, her infant and family.

**Courses:** NS68, NS85 **Corequisites:** NSN321

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **NSN321 FOUNDATIONS OF MIDWIFERY PRACTICE**

This unit provides a foundation in the theoretical concepts and clinically applied principles for practice as a midwife. Emphasis is placed on the childbearing process as a normal and non-pathological process, during which, in collaboration with the woman, family, and other health professionals, midwifery care is provided.

**Courses:** NS68, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **NSN322 COMPLEX ISSUES FOR CHILDBEARING FAMILIES**

This unit provides students with an opportunity to develop further and expand on the theoretical knowledge and skills gained in Foundation of Midwifery Practice and Clinical Studies in Midwifery A. The unit requires application of the principles and practices acquired in the prerequisite unit. While childbearing is assumed to be a normal non-pathological process, and inherently safe, it is acknowledged that specialised practitioners must be able to recognise and act on changing events. These changes reflect complications/deviations from the normal.

**Courses:** NS68, NS85

**Prerequisites:** NSN321, NSN311

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN323 CLINICAL STUDIES IN MIDWIFERY B**

This unit provides the opportunity for students to consolidate the professional knowledge and skills which they have acquired in other units. Students will be facilitated to incorporate theoretical, conceptual and practical knowledge, attitudes and skills required to care for the childbearing woman, her infant and family.

**Courses:** NS68, NS85

**Prerequisites:** NSN321, NSN311

**Corequisites:** NSN322

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN506 CLINICAL PROJECT**

This unit offers students the opportunity to implement a project of clinical relevance and value to lead to the resolution of practical issues facing nursing. It advances and extends the student's learning from their clinical speciality and the supporting units.

**Courses:** NS85

**Campus:** KG, EXT **Credit points:** 24  
**Sem:** 1, 2

► **NSN507 CONTEMPORARY PRACTICE ISSUES**

This unit allow students to explore current issues and develop their understanding through application of relevant theoretical frameworks to nursing practice in selected specialty areas. Students undertaking this unit will examine social, political and economic factors that shape and have shaped nursing practice, analyse factors influencing the organisation of nursing practice, and critically apply a theoretical framework to current issues relevant to nursing practice.

**Courses:** NS64, NS85

**Campus:** KG, EXT **Credit points:** 12  
**Sem:** 1

► **NSN508 ADVANCED READINGS IN NURSING**

This unit provides the opportunity for students to access and review a body of literature relevant to an area of individual interest in nursing. This will enable students to extend their knowledge and understanding of a topic which is not specifically addressed elsewhere in the course. In addition, students will have the opportunity to develop advanced skills information retrieval, critical analysis and writing for publication.

**Courses:** NS64, NS85

**Campus:** KG, EXT **Credit points:** 12  
**Sem:** 2

► **NSN509 SPECIAL TOPIC**

NSN509 Special Topic is a unit that provides students the opportunity to explore in-depth an area of special interest in health and the professions which may be available from local or visiting scholars. Further, the unit offers students learning experiences through a range of educational strategies, for example, individual learning contracts, group learning contracts, group learning encounters and distance mode. The unit enables students to capitalise upon important learning opportunities which otherwise might not be possible.

**Courses:** NS64, NS85, HL88, PU88

**Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN515 CLINICAL LEADERSHIP AND MANAGEMENT**

This unit aims to extend students' understanding of contemporary issues and trends in the devel-

opment of leadership in professional practice, strengthen their abilities to provide effective leadership and further develop skills in peer consultation and reflective practice as strategies to support a critical approach to the provision of leadership in the workplace. The unit addresses strategic thinking and planning; organisational and interpersonal communication; decision making; team building; multidisciplinary teams; managing conflict; facilitating change; and creating growth-producing work environments.

**Courses:** NS64, NS85, HL90

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN516 SEXUAL REPRODUCTIVE HEALTH**

This unit will bring together current research and evidence-based practice and information as well as, a health-oriented approach to the subject of sexuality and reproduction. The purpose of this unit is to highlight the fundamental issue that even though screening programs have emerged and improved women's health, women continue to have health problems that are unique to them as women. The aim of this unit is for the student to come to the understanding that a woman's sexual health encompasses not only the medical and physical components of sexual activity but a holistic understanding of physical and mental health. These are seen as being influenced by self-esteem, values, culture and socio-economic factors as well as societal influences.

**Courses:** NS34, NS39, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

► **NSN517 WOMEN'S HEALTH ISSUES**

This unit provides students with opportunities to develop and expand their theoretical knowledge and skills in the area of women's health, and utilises the primary health care framework in considering the major objectives for helping women achieve optimal health as documented in women's health policy. This unit aims to make primary health care professionals aware of the broader social context in which service, delivery and care take place.

**Courses:** NS36, NS64, NS85, HL88, PU88

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

► **NSN523 CLINICAL STUDIES**

This unit aims to further develop and consolidate knowledge and skills in a selected clinical specialty. This unit will enable students to develop their skills in clinical judgement, and decision making in a specialty area of practice, as well as expanding their skills in establishing and maintaining effective relationships with clients and other health professionals. Students will be encouraged to demonstrate a reflective, self-evaluative approach to practice, and develop strategies that would enable the practitioner to facilitate change with respect to their specialty area of practice.

**Courses:** NS64, NS85

**Campus:** KG, EXT **Credit points:** 12  
**Sem:** 2

► **NSN526 MENTAL HEALTH CLINICAL STUDIES**

This unit aims to develop an understanding of the core elements of mental health nursing practice in acute inpatient, rehabilitation or community settings with particular emphasis on primary prevention and early intervention approaches. The theoretical, conceptual and practical knowledge required to provide effective consumer focused nursing care for people receiving mental health care within a variety of practice contexts is explored.

**Courses:** NS64, NS85

**Credit points:** 12  
**Campus:** KG **Sem:** 1

► **NSN626 DEMENTIA AND FAMILY CARE**

This unit aims to support aged care practitioners to respond to the challenges of caring for older people with Alzheimer's disease and their families in a community health context. The central focus of this package is a CD-ROM which employs an interactive case study approach to introduce learners to a family situation where an older

relative with Alzheimer's disease is being cared for at home.

**Courses:** NS34, NS39, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► NSN701 ADVANCED HEALTH ASSESSMENT

This unit aims to develop an advanced understanding of health assessment in nursing practice. This will be achieved by exploring the theoretical, conceptual and practical knowledge required to effectively assess the individual, family and their environment to provide nursing care within the context of specialist practice.

**Courses:** NS30, NS31, NS33, NS36, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► NSN721 KEY ISSUES IN EMERGENCY AND INTENSIVE CARE NURSING

This clinical unit aims to develop knowledge and skills that enable nurses to understand a client's health needs, determine appropriate interventions, predict and manage complications, and develop specific plans of care for critically ill individuals and their families that are appropriate to their unique needs and personal context. This will include practice concepts; physiological, pathophysiological and psychosocial underpinnings of intensive care and emergency practice; planning of appropriate strategies/interventions for client care; and development of selected technical skills.

**Courses:** NS30, NS41, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► NSN722 PRINCIPLES OF INTENSIVE CARE NURSING

Registered nurses working in Intensive Care require the ability to care for patients who are increasingly critically ill in an environment that evidences increasingly complex technology. Nurses working in this field require an advanced level of knowledge of evidence based principles and practices appropriate to prevent and manage these health problems, as well as skills in the implementation and evaluation of intervention strategies, in the context of a multidisciplinary team. Fundamental to competence in this area is advanced knowledge and skills in the areas of respiratory pathologies, renal replacement therapies, endocrine, liver and neurological disorders, sepsis and multi-organ failure.

**Courses:** NS30, NS64, NS85

**Prerequisites:** NSN701, NSN721

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► NSN723 SPECIALISATION IN CRITICAL CARE NURSING

This unit will provide the opportunity for students to further develop and consolidate prior learning in a critical clinical setting of their choice. Students will expand on their theoretical, professional and practical knowledge to assess patients, plan and implement nursing care in a particular critical care nursing environment. Specific areas of study may include intensive care, cardiac care and emergency care.

**Courses:** NS30, NS31, NS33, NS41, NS64, NS85

**Prerequisites:** NSN701

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► NSN724 ADVANCED NURSING PRACTICE

This unit is designed to present a foundation of theoretical and practice concepts required for registered nurses to provide effective, consumer focused nursing care within a variety of clinical contexts in a range of practice settings. The unit provides a framework from which students can develop an understanding of the impact of selected health problems on individuals, families, and communities. This will include practice concepts (philosophies, evidence based practice, competencies and continuity of care); physiological, pathophysiological and psychosocial underpinnings of advanced speciality or generalist practice; planning of appropriate strate-

gies/interventions for client care; and development of selected technical skills.

**Courses:** NS31, NS33, NS64, NS85

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► NSN725 SPECIALISATION IN MEDICAL/SURGICAL AND CANCER NURSING

This clinically based unit will provide the opportunity for students to further develop and consolidate prior learning in a clinical setting of their choice. This unit will enable students to discuss issues and trends occurring in nursing practice in a selected medical/surgical or cancer care environment, and critically analyse the advanced concepts that underpin specialist nursing practice. Students will demonstrate clinical judgement and reflective skills through the application of theoretical concepts to common health problems experienced by clients in a selected medical/surgical or cancer care environment.

**Courses:** NS30, NS31, NS33, NS64, NS85

**Prerequisites:** NSN701

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► NSN726 ADVANCED CLINICAL PRACTICE

This unit aims to develop students' understanding of the theory, process and practice of advanced nursing in a designated practice context, to enable them to effectively prevent and manage common health problems experienced by individuals and families in a range of locations within their field. Content which relates to a broad range of clinical nursing practice will be addressed. This includes: physiological, pathophysiological and psychosocial underpinnings of advanced nursing practice across a broad range of body systems and health problems; planning of appropriate strategies/interventions for client care; and development of related technical skills.

**Courses:** NS31, NS33, NS34, NS64, NS85

**Credit points:** 12 **Incompatible with:** NSN722

**Campus:** KG, EXT

**Sem:** 2

#### ► NSN801 HEALTH ASSESSMENT IN AGED CARE

This unit provides aged care practitioners with learning opportunities to develop and expand their understanding of the health care assessment of older adults. Participants will be offered learning opportunities aimed at developing a strong theoretical foundation on which to assess the health care needs of older people. Theoretical knowledge of biophysical and psychosocial aspects of ageing will be applied to the assessment of client situations in order to develop a competent approach to aged care health assessment. The course has been specifically designed to complement health assessment tools which meet workplace needs in a variety of practice contexts - community and residential aged care.

**Courses:** NS39, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► NSN821 KEY ISSUES IN AGED CARE

This unit uses a primary health care approach to examine issues related to the pursuit of healthy ageing. The goal of this unit is to emphasise how individuals, communities, and policy makers can work together to provide appropriate and reliable sources of support for older people in society. Identifying specific incidents and exemplars this unit also highlights the significance of flexible health/aged care policy and community based programs and services.

**Courses:** NS39, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► NSN822 PRINCIPLES OF AGED CARE PRACTICE

This unit critically examines aspects of pathological ageing with consideration of the wider social and policy implications of these morbidities. This unit examines a range of pathologies and associated practice interventions in caring for older people experiencing ill-health. Particular emphasis will be placed upon examining the following common pathologies; rheumatoid/osteoarthritis; fracture; chronic obstruction airways disease; congestive cardiac failure; confu-

sion; delirium; depression; dementia and Alzheimer's Disease. The number of practice interventions associated with pathological ageing will be examined. Death and dying is examined with particular focus upon palliative care, advanced directives, resuscitation and euthanasia.

**Courses:** NS39, NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► NSN825 THESIS (PART-TIME)

This unit provides the student with the opportunity to formally extend and synthesise knowledge gained in earlier semesters of the course. The thesis represents an independent piece of research in the student's specific areas of interest, and is completed under guidance of a supervisor.

**Courses:** NS85

**Credit points:** 48

**Campus:** KG, EXT

**Sem:** 1, 2

#### ► NSN850 THESIS (FULL-TIME)

This unit provides the student with the opportunity to formally extend and synthesise knowledge gained in earlier semesters of the course. The thesis represents an independent piece of research in the student's specific area of interest, and is completed under the guidance of a supervisor.

**Courses:** NS85

**Credit points:** 48

**Campus:** KG, EXT

**Sem:** 1, 2

#### ► NSN901 MENTAL HEALTH ASSESSMENT

This unit covers the principles of mental status examination, psychological testing and social assessment. It also considers the implications of various observational methods and diagnostic interviewing techniques on clinical judgement. On completion of the unit, students should be able to competently administer a set of systematic assessment procedures designed to detect a client's particular problem area(s) of psychosocial functioning; record and interpret assessment data in the standard form of a written appraisal; and comprehend the role of theory in test selection and resultant analysis and recommendations.

**Courses:** NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► NSN921 MENTAL DISORDERS: THEORIES AND ISSUES

This unit complements Mental Health Assessment by providing students with the opportunity to apply assessment skills in an acute mental health nursing practice environment. The unit consist of two components - one theoretical and one clinical. The theoretical component concentrates on two major clinical treatment modalities in the management of mental illness, namely psychopharmacology and therapeutic intervention strategies based on process theory. The traditional medical model will be utilised as a means of explaining abnormal or major maladaptive behaviour patterns. The clinical component will take place at an acute in-patient facility which has a primary focus on mental health.

**Courses:** NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► NSN922 MODELS FOR MENTAL HEALTH CLINICAL PRACTICE

The mainstream of mental health services and provision of community based programs by multidisciplinary mental health teams continues to increase in Australia. An important aim of this unit therefore is to encourage students to understand the political, social and economic changes that are occurring in the delivery of mental health nursing care. Additionally, such expansion of community mental health services demands that nurses develop new and different skills for working with the mentally ill, their carers or family. Critical among these skills is the ability to assist in the development of consumer and carer centred services and outcomes.

**Courses:** NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► NSN928 COUNSELLING IN MENTAL HEALTH NURSING

This unit is designed for nurses seeking to develop further knowledge and skills in counsel-

ling. It will build upon the existing knowledge and skills which each participant brings. The unit is intended to be practical. The focus will be on integrating new knowledge into existing abilities and providing participants with an opportunity to increase their knowledge of the theoretical bases of a variety of counselling approaches.

**Courses:** NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► NSN929 PSYCHOSOCIAL REHABILITATION

This unit is designed to provide an in depth analysis of current practices in the rehabilitation of people with serious mental health problems. It enables students to examine and utilise functional assessments and develop individual service plans. A major emphasis will be placed on the role of nurses as case managers and the importance of this for the adaptation of clients in the community.

**Courses:** NS64, NS85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB250 OPTOMETRY 2

This subject covers the fundamental areas of ophthalmic optics, and optometry within the context of health care in Australia. It provides a basic understanding of the concepts of ophthalmic optics together with professional development, ethical responsibilities and the role of optometry.

**Courses:** OP42

**Prerequisites:** MAB140 **Corequisites:** PCB240

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB350 OPTOMETRY 3

Ophthalmic optics is continued with the study of neutralisation, spectacle lens design and prescribing parameters of lenses and frames. The theory and practice of keratometry, optometers, ophthalmoscopy and retinoscopy are also studied.

**Courses:** OP42

**Prerequisites:** PCB240, OPB250

**Corequisites:** PCB340, OPB351

**Contact hours:** 6 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB351 VISUAL SCIENCE 3

This unit includes a study of the basic visual sciences that underpins the practice of optometry. It covers the optics of the eye, including its basic design, dimensions and retinal quality as well as the psychophysical principles of vision.

**Courses:** OP42

**Prerequisites:** LSB250, PCB240,

**Corequisites:** PCB340, OPB350, OPB352,

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB352 OCULAR ANATOMY AND PHYSIOLOGY 3

The unit provides information on the ocular anatomy and physiology that underlies the functional measurements made in optometry and their interpretation. It includes the structure and function of the anterior eye and orbit.

**Courses:** OP42

**Prerequisites:** LSB250, LSB275

**Corequisites:** OPB351

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB450 OPTOMETRY 4

This is a continuation of studies in OPB350, and introduces the theory and practice of clinical techniques used in the examination of the patient and assessing visual functions. The subject is also the initial introduction to the care of patients in the Optometry Clinic.

**Courses:** OP42

**Prerequisites:** OPB350, OPB351, OPB352

**Corequisites:** OPB451, OPB452

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB451 VISUAL SCIENCE 4

This subject continues studies from OPB351, and provides students with an understanding of spatial, temporal, colour and binocular vision, and their influence on visual performance.

**Courses:** OP42

**Prerequisites:** OPB351, OPB352, OPB350,

**Corequisites:** OPB450, OPB452

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB452 OCULAR ANATOMY AND PHYSIOLOGY 4

This is a continuation of OPB352. The unit covers the posterior eye, orbit, neural pathways, eye movements, neurophysiology of vision and an introduction to electrophysiological techniques.

**Courses:** OP42

**Prerequisites:** OPB352, OPB351, OPB350

**Corequisites:** OPB451, OPB450

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB550 DISEASES OF THE EYE 5

This unit provides students with a knowledge and understanding of relevant general diseases and those that affect the eye. It includes general disease principles and processes, referral procedures, genetics, congenital, dystrophic and degenerative eye disease, and the ocular manifestation of general disease.

**Courses:** OP42

**Prerequisites:** OPB450, OPB451, OPB452,

LSB492

**Corequisites:** OPB551, OPB552, OPB553

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB551 OPTOMETRY 5

The student gains an understanding of the theory and practice of essential clinical techniques required to examine patients' eyes and assess visual function. The subject contains vision measurement, objective and subjective refraction, accommodation anomalies and the development and management of refractive errors and binocular vision disorders.

**Courses:** OP42

**Prerequisites:** OPB450, OPB451, OPB452

**Corequisites:** OPB550, OPB552, OPB553

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB552 ADVANCED OPTOMETRY 5

This unit introduces the student to the theory and practice of advanced clinical techniques of vision assessment. It integrates these with the basic methods learned in OPB350, OPB450 and OPB551 and gives the student a thorough knowledge of all aspects of routine patient management. The unit covers areas such as visual fields, colour vision, gonioscopy, indirect ophthalmoscopy and geriatric optometry.

**Courses:** OP42

**Prerequisites:** OPB450, OPB451, OPB452

**Corequisites:** OPB550, OPB551, OPB553

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB553 CLINICAL PRACTICE 5

Clinical Practice 5 provides the vehicle for the application of examination techniques learned in previous and concurrent units. Emphasis is placed on communicating with patients, the fabrication of spectacles, basic contact lens practice and the development of appropriate clinical routines in eye examination.

**Courses:** OP42

**Prerequisites:** OPB450, OPB451, OPB452

**Corequisites:** OPB550, OPB551, OPB552

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB650 DISEASES OF THE EYE 6

This is a continuation of OPB550 and covers the ocular manifestations of general disease, neuro-ophthalmology, glaucoma, inflammations and infections, tumours and trauma.

**Courses:** OP42

**Prerequisites:** OPB550, OPB551, OPB552,

OPB553

**Corequisites:** OPB651, OPB652, OPB653

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB651 CONTACT LENS STUDIES

Contact lens design and fitting form the basis of this subject. Both soft and rigid contact lenses are covered together with lens materials, designs, manufacture, fitting assessments and appropriate clinical techniques. The subject also focuses on

corneal physiology, patient management and advanced contact lens fitting.

**Courses:** OP42

**Prerequisites:** OPB550, OPB551, OPB552, OPB553

**Corequisites:** OPB650, OPB652, OPB653

**Contact hours:** 6 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB652 PHARMACOLOGY

This subject covers both general and ocular pharmacology. It includes pharmacokinetic and pharmacodynamic principles, the mechanisms of action and therapeutic applications of drugs used in the treatment of general and ocular disease, and drugs used to assist in the diagnosis of ocular conditions.

**Courses:** OP42

**Prerequisites:** OPB550, OPB551, OPB552, OPB553

**Corequisites:** OPB650, OPB651, OPB653

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB653 CLINICAL PRACTICE 6

The subject is a continuation of OPB553, and enables students to apply eye examination techniques in a clinical setting. There is an emphasis on advanced communication skills, patient management, and clinical decision-making.

**Courses:** OP42

**Prerequisites:** OPB550, OPB551, OPB552, OPB553

**Corequisites:** OPB650, OPB651, OPB652

**Contact hours:** 6 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► OPB750 TOPICS IN OPTOMETRY 7

Students are required to choose a research topic, conduct a literature search on this topic, develop experimental hypothesis, and plan and undertake a research project. Students give oral presentations of their own research project. Presentations on advanced clinical care and decision making skills include lecture and tutorial presentations and case summaries.

**Courses:** OP42

**Prerequisites:** OPB650, OPB651, OPB652, OPB653

**Corequisites:** OPB751, OPB752, OPB753

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB751 ADVANCED OPTOMETRY 7

This unit provides students with a thorough knowledge of more specialised areas of patient management such as in low vision and paediatric patients.

**Courses:** OP42

**Prerequisites:** OPB650, OPB651, OPB652, OPB653

**Corequisites:** OPB750, OPB752, OPB753

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB752 CLINICAL PRACTICE 7

This unit enables students to apply knowledge and skills gained in third year to patients presenting for eye examinations, and to make decisions in effective patient management

**Courses:** OP42

**Prerequisites:** OPB650, OPB651, OPB652, OPB653

**Corequisites:** OPB750, OPB751, OPB753

**Contact hours:** 8 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB753 SPECIALIST CLINICAL PRACTICE 7

This unit enables students to apply specialist clinical knowledge in the management of patients requiring contact lenses, vision training and low vision care.

**Courses:** OP42

**Prerequisites:** OPB650, OPB651, OPB652, OPB653

**Corequisites:** OPB750, OPB751, OPB752

**Contact hours:** 8 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► OPB850 TOPICS IN OPTOMETRY 8

Students are required to analyse the results of their chosen research project and write a full report in manuscript form. Oral presentations of the project are given to their peers. Presentations

on advanced clinical care and decision making skills include lecture and tutorial presentations and case summaries.

**Courses:** OP42

**Prerequisites:** OPB650, OPB651, OPB652, OPB653

**Corequisites:** OPB751, OPB752, OPB753

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

### ► OPB851 ADVANCED OPTOMETRY 8

This unit includes optometry's role in health care; professional and ethical behaviour; relevant state and federal Acts; professional associations; types of practice; optometric practice and the law. The unit introduces the basic concepts of eye safety and visual ergonomics

**Courses:** OP42

**Prerequisites:** OPB750, OPB751, OPB752, OPB753

**Corequisites:** OPB850, OPB852, OPB853

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

### ► OPB852 CLINICAL PRACTICE 8

This unit enables students to consolidate skills developed in OPB752, to increase their knowledge base and achieve surety with decision making involving the management of patients' eye and vision problems.

**Courses:** OP42

**Prerequisites:** OPB750, OPB751, OPB752, OPB753

**Corequisites:** OPB850, OPB851, OPB853

**Contact hours:** 8 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

### ► OPB853 SPECIALIST CLINICAL PRACTICE 8

This unit consolidates skills developed in OPB753 in specialised clinical areas of contact lenses, low vision and paediatric optometry.

**Courses:** OP42

**Prerequisites:** OPB750, OPB751, OPB752, OPB753

**Corequisites:** OPB850, OPB851, OPB852

**Contact hours:** 8 per week **Credit points:** 12

**Campus:** KG **Sem:** 2

### ► OPP001 OCULAR THERAPEUTICS 1

The aim of this unit is to provide optometrists with a sound knowledge of bio-medical sciences as they relate to ocular disorders and to enable them to therapeutically manage certain eye diseases. This unit covers the following: general pathology and immunology with reference to ocular tissues; microbiology with reference to organisms involved in ophthalmic diseases; pharmacology and pharmacodynamics including interaction of drugs with the body; disorders of the anterior eye, glaucoma, iritis and uveitis; management of cataract; post-surgical management; legal requirements for therapeutic drug use; workshops on skills related to the management of disease.

**Courses:** OP43

**Credit points:** 12 **Sem:** 2

### ► OPP002 OCULAR THERAPEUTICS 2

This unit enables optometrists to develop an understanding of the properties of ocular therapeutic drugs and their applications in clinical practice, and to develop experience with the clinical management of certain eye diseases. The following topics are covered: examination and diagnosis of anterior eye conditions (including acute red eye), glaucoma, iritis and uveitis, and cataract; development of management strategies including establishing appropriate treatment plans and evaluating the need for referral for specialist treatment; management of post-surgical conditions.

**Courses:** OP43

**Credit points:** 12

**Campus:** KG **Sem:** 1

### ► PCB007 PATIENT CARE IN PROFESSIONAL PRACTICE

This is an introductory subject emphasising the appropriate response to the health care needs of patients and the ethical, legal and clinical accountability of the medical radiation technologist for patient care. It includes resuscitation techniques, client-professional communication, and interpersonal behaviour and skills.

**Courses:** PH38

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

### ► PCB101 PHYSICAL SCIENCE

This unit introduces students to some of the basic concepts in the Physical Sciences by integrating core topics into a number of occupational scenarios. Topics include the following: matter; atomic and molecular structure; chemical reactions and equations; acids, bases, pH; oxidation and reduction; carbon chemistry; organic compounds; chemistry of biological processes; polymers, biomaterials; gases and gas laws; mechanics and motion; forces; momentum and collisions; mechanical energy; conservation laws; thermometry; thermal energy, energy transfer.

**Courses:** ED90, IF29, IF39, IF61, IX02, IX14, SC01, SC20

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** CA, GP **Sem:** 1, 2

### ► PCB107 PHYSICS AND QUANTITATIVE TECHNIQUES

This unit includes the following: data and error analysis; geometrical optics (reflection, refraction, dispersion, image formation, optical instruments, photometry); circuit theory and electronics (DC circuits, AC circuits, semiconductors, rectifiers and transistors, digital electronics); waves and acoustics (properties of waves, interference and diffraction of waves, sound waves, measurements of sound).

**Courses:** IF29, IF39, IF61, PH38, SC01

**Contact hours:** 4.5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

### ► PCB136 ENGINEERING PHYSICS 1C

This introductory unit covers the following: dynamics (Motion in 1D, vectors, Newton's Laws, motion in 2D, including circular motion, uniform circular motion, work, energy and power potential energy and conservation of energy, linear momentum and collisions); waves (oscillatory motion, wave motion, sound waves, superposition and standing waves); geometrical optics (reflection, refraction, dispersion, Huygens' principle, image formation by mirrors and lenses, optical instruments); physical optics (interference of light, diffraction); thermal physics (temperature, thermometry, thermal expansion, heat and thermal energy, heat capacity and specific heat, latent heat, heat transfer).

**Courses:** CE44, EE41, EE42, EE46, EE48, IF21, IF28, ME40, ME41, ME42, ME48

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 1, 2

### ► PCB140 INTRODUCTORY CHEMISTRY

This unit includes the following: matter and its classification; atomic and molecular composition of matter; structure of atoms and molecules and use of the Periodic Table to predict the behaviour of matter; chemical bonds and the nature of molecules; chemical composition; chemical reactions; chemical equations and chemical calculations; representative chemistry of the main group elements, and specifically of carbon; solution chemistry, acids bases, pH and chemical calculations using solutions; equilibrium chemical reactions; oxidation reduction and electrochemistry; gaseous state of matter and gas laws.

**Courses:** HH04, IF29, IF39, IF61, IX02, SC01

**Contact hours:** 5 per week **Credit points:** 12

**Incompatible with:** PCB142

**Campus:** CA, GP **Sem:** 1, 2

### ► PCB141 CHEMISTRY FOR CLINICAL HEALTH PROFESSIONALS

This unit includes three sections. General chemistry includes the periodic table, chemical bonding, chemical reactions and stoichiometry. Physical chemistry includes chemical equilibrium, acids and bases, rates of reactions, energy and reactions, redox reactions, electrochemistry. Organic chemistry includes introductory organic chemistry, organic functional group chemistry, stereochemistry of organic compounds, heterocyclic chemistry, biologically important organic compounds.

**Courses:** HL43, OP42

**Contact hours:** 6 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

### ► PCB142 CHEMISTRY 1

This unit includes inorganic and general chemistry: nature of matter, chemical reactions and chemical equations, reactions in solution, acids bases and redox reactions, atomic and molecular structure, periodic table and periodicity, atomic electron configurations, chemical bonds and theories of chemical bonding. It also includes physical chemistry: states of matter, gases, chemical equilibrium, equilibria in electrolyte solutions, acids and bases, buffer solutions, colligative properties, colloids, introductory electrochemistry.

**Courses:** ED90, HL42, HM45, IF29, IF39, IF61, IF86, IX02, LS37, LS50, PU40, SC01, SC20, SC40

**Contact hours:** 5 per week **Credit points:** 12

**Incompatible with:** PCB140

**Campus:** GP **Sem:** 1, 2

### ► PCB150 PHYSICS 1H

This unit introduces basic physical measurements, mechanics, heat, waves, acoustics and optics, and the instrumentation used to measure physical parameters.

**Courses:** ED90, IX02, LS37, SC01, SC40

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1, 2

### ► PCB172 PHYSICS FOR SURVEYORS

This unit includes the following: measurement and uncertainty kinematics (vector and scalar quantities, equations of motion); dynamics (friction, centripetal force, the hoist, impulse and momentum, periodic motion, work and energy); gravity (circular motion, centripetal force, gravity, Kepler's Laws, orbits); fluid statics (pressure, barometry); fluid dynamics (fluid flow in pipes and channels, equation of continuity, Bernoulli's principle, viscous flow and Poiseuille's equation); optical instruments (reflection, refraction, total internal reflection, spherical mirrors, thin lenses, transits, theodolites, corner cubes, cameras); electric and magnetic fields; electrical circuits; electronic components.

**Courses:** PS47, PS48

**Contact hours:** 4 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

### ► PCB178 PRINCIPLES OF MEDICAL RADIATIONS

This unit provides an overview of the physical principles of the various medical imaging modalities and techniques and includes an overview of techniques used in the diagnosis and treatment of cancer.

**Courses:** PH38

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 1

### ► PCB200 CHEMICAL TECHNOLOGY 1

This unit includes the following: the role of chemical technologist in industry; fundamentals of chemical technology; mass balances; energy balances; environmental chemistry; corrosion; industrial pollution obligations and monitoring; generic issues eg quality assurance, industrial health and safety.

**Courses:** SC01, SC51

**Prerequisites:** PCB142 **Corequisites:** PCB142

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

### ► PCB240 OPTICS 1

This unit includes a study of selected topics in optics particularly related to aspects of optometry. Topics include geometrical optics in mirrors and lenses, including thick lenses, cylindrical, spherical and toric lenses, colour and colour measurement, photometry, lens aberrations and optical instruments.

**Courses:** OP42

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP **Sem:** 2

### ► PCB242 CHEMISTRY 2

This unit includes the following: introductory organic chemistry; organic functional group chemistry; stereochemistry of organic compounds; biologically important organic compounds; heterocyclic chemistry; biologically important inorganic compounds; calorimetry, the underlying principle; speed control of chemical and biochemical processes.

**Courses:** ED90, HL42, HM45, IF29, IF39, IF61, IF86, IX02, LS37, LS50, PU40, PU43, SC01, SC20, SC51

**Prerequisites:** PCB140, PCB142

**Corequisites:** PCB142

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** CA, GP **Sem:** 1, 2

#### ► PCB250 PHYSICS 1

This unit introduces concepts of fields and potentials. General techniques such as the description of physical systems by differential equations and their solutions are also covered. Specific topic areas to be covered include calculus based kinematics and dynamics in one and two dimensions; accelerated frames of reference; second order systems and the forced-damped-harmonic oscillator; gravitational and electromagnetic fields; Newton's law of gravity; Coulomb's law; potentials, static fields, point and distributed sources; Gauss's law; capacitors; Biot-Savart law and Ampere's law; electromagnetic induction and Faraday's law; Lenz's law.

**Courses:** ED90, IF29, IF39, IF86, IX02, IX14, SC01, SC20

**Prerequisites:** PCB101 or PCB107

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB260 PHYSICS 1A

This unit includes physical optics including interference, interferometry, Fraunhofer diffraction, Fourier methods, lasers and holograms. It also includes Atomic Physics including introductory quantum physics, spectra and the Bohr theory and introduces Special Relativity including time dilation and length contraction, Lorentz transformations, Minkowski diagrams and relativistic mass, momentum and energy.

**Courses:** IF29, IF39, IF61, IX14, SC01, SC20

**Prerequisites:** PCB101 or PCB107, MAB100

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB272 RADIATION PHYSICS 1

This unit includes the following: atomic structure, radioactivity, interaction of x-rays with matter; radiation dosimetry; thermal physics, temperature, heat, thermal expansion; electric and magnetic fields, motion of charged particles; X-rays - properties and nature; X-ray tube construction and design; diagnostic and therapy tubes; high voltage generation, transformers, rectifiers, linear accelerators; ratings of X-ray tube, tube failure.

**Courses:** PH38

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB276 GENERAL RADIOGRAPHY 1

This unit includes a program of lectures relating to radiography of the skeletal system, from preparation of the room and patient through to assessment of the final image.

**Courses:** PH38

**Prerequisites:** LSB145, PCB178

**Corequisites:** LSB245, PCB277

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB277 RADIOGRAPHIC PRACTICE 1

This unit includes a program of practical sessions relating to radiography of the skeletal system allowing the development of skills in patient positioning and image production. It includes a study of the processes involved in the production of a visible image in radiography.

**Courses:** PH38

**Corequisites:** PCB276

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB286 TREATMENT PLANNING 1

This unit introduces the techniques of radiotherapy treatment planning including patient data acquisition and radiation dosimetry.

**Courses:** PH38

**Prerequisites:** LSB145, PCB178

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB287 MEGAVOLTAGE THERAPY 1

This unit introduces the basic techniques of radiotherapy treatment delivery including beam direction and beam defining devices. Practical work is completed in hospital departments.

**Courses:** PH38

**Prerequisites:** LSB145, PCB178

**Corequisites:** PCB286

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB305 PRINCIPLES OF PHYSICAL CHEMISTRY

This unit offers a program in physical chemistry based upon interactive learning and problem solving. Topics in modern physical chemistry including principles of energetics, kinetics, phase and colloid chemistry and macromolecules form the basis of this unit. The theoretical framework is strongly supported by an experimental program with an emphasis on accuracy, precision and error estimation.

**Courses:** ED90, IF29, IF39, IF61, IX02, SC01, SC20, SC51

**Prerequisites:** PCB142

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB314 CONCEPTS IN ANALYTICAL CHEMISTRY

This unit includes the following: classical analytical chemistry including titrimetric analysis (neutralimetry, precipitometry, compleximetry and redoximetry); gravimetric analysis; sample preparation; specialist reagents for analytical chemistry usage; EDTA, redox indicators etc; instrumental analytical chemistry; UV-visible spectrophotometry; electroanalytical methods (including voltammetry, potentiometry and electrogravimetry); complementary practical program and data handling.

**Courses:** IF39, IF71, IF86, SC01

**Prerequisites:** PCB142

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB340 OPTICS 3

This unit includes the application of geometrical optics to selected aspects of optometry including lens form and thickness, contact lenses, spectacle lens design and spherical surfaces; the wave nature of light with emphasis on interference, interferometry, diffraction and polarisation; the specialised topics of optical processing, lasers and the evaluation of optical systems.

**Courses:** OP42

**Prerequisites:** PCB240

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB354 STRUCTURE AND MECHANISM IN ORGANIC CHEMISTRY

This unit includes the following: organic stereochemistry (conformation of cyclic compounds, chirality, absolute configuration, racemic and meso compounds); the importance of structure and stereochemistry in natural products such as terpenes, steroids and sugars; carbohydrate chemistry (monosaccharides, disaccharides and polysaccharides); applications in selected research areas of drugs, polymers and enzymes; reaction mechanisms (acid/base theory, polarity, induction effects); addition reactions; nucleophilic substitution and addition, electrophilic additions; application to organic synthesis.

**Courses:** ED90, IF29, IF39, IF61, IX02, SC01, SC51

**Prerequisites:** PCB242

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB361 AC THEORY AND ELECTRONICS

Emphasis in this unit is on the application of theory to practical tasks. Laboratory work consists of introductory exercises followed by a series of topics to be investigated within the available laboratory times. Specific topics are to be covered: steady state and transient AC passive-circuit analysis; power in AC circuits; applications of semiconductor devices; amplifiers and feedback theory; operational amplifiers (ideal and non-ideal properties); oscillators; introductory digital electronics (gates, flip-flops and counters, active-circuit analysis, active and passive filters).

**Courses:** ED90, IF29, IF39, IF61, SC01, SC20

**Prerequisites:** MAB111 or MAB131, PCB250

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB362 PHYSICS 2

This unit integrates and enhances the knowledge gained in earlier units with applications to more interesting and complex systems. Part A includes classical mechanics, rotating systems, Lagrange's equations and Hamiltonian operators, precession. Part B includes radiation physics, nuclear disintegration, equilibrium, interaction of radiation with matter, nuclear detectors. Part C includes electromagnetism, electric fields, Gauss' law, dielectrics.

**Courses:** IF29, IF39, IF61, SC01, SC20

**Prerequisites:** PCB250, MAB132 or MAB112

**Corequisites:** MAB134

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB375-1 RADIOGRAPHIC EQUIPMENT

This unit includes a discussion of design considerations of specialist radiographic imaging equipment for fluoroscopy, mammography, tomography and mobile radiography. (12 credit points achieved at completion of PCB375-1 and PCB375-2.)

**Courses:** PH38

**Prerequisites:** PCB272

**Contact hours:** 2 per week **Credit points:** 6  
**Campus:** GP **Sem:** 1

#### ► PCB375-2 RADIOGRAPHIC EQUIPMENT

This unit includes an introduction to computer hardware, binary numbers and the digital image, a study of the equipment used in digital fluoroscopy and computed radiography, and image quality and evaluation. (12 credit points achieved at completion of PCB375-1 and PCB375-2.)

**Courses:** PH38

**Prerequisites:** PCB375-1

**Contact hours:** 2 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► PCB377 GENERAL RADIOGRAPHY 2

This unit offers an extension of topics introduced in PCB276 to include more techniques of skeletal radiography, ward and operating theatre radiography, and examinations using contrast media. A program of practical sessions in skeletal imaging is included.

**Courses:** PH38

**Prerequisites:** LSB245, PCB276, PCB277

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB379 CLINICAL RADIOGRAPHY 1

This unit offers clinical experiences in radiographic examinations introduced in PCB276 and PCB377. Experience is obtained in approved clinical departments.

**Courses:** PH38

**Prerequisites:** LSB245, PCB276, PCB277

**Corequisites:** PCB377

**Contact hours:** 160 over 4 weeks

**Credit points:** 6

**Campus:** GP **Sem:** 1

#### ► PCB389 CLINICAL RADIOTHERAPY 1

This unit offers clinical experience in radiotherapy related to topics introduced in PCB287 and PCB286. The programs are carried out in approved clinical departments.

**Courses:** PH38

**Prerequisites:** LSB245, PCB286, PCB287

**Contact hours:** 200 over 5 weeks

**Credit points:** 6

**Campus:** GP **Sem:** 1

#### ► PCB396-1 RADIOTHERAPY PLANNING AND PHYSICS

This unit offers an extension of the study of treatment planning introduced in PCB286 to the planning of complex techniques of photon therapy and electron therapy. (12 credit points achieved at completion of PCB396-1 and PCB396-2.)

**Courses:** PH38

**Prerequisites:** LSB245, PCB286, PCB287

**Contact hours:** 5 per week **Credit points:** 6

**Campus:** GP **Sem:** 1

#### ► PCB396-2 RADIOTHERAPY PLANNING AND PHYSICS

This unit includes a study of the measurement and dosimetry of external beam radiotherapy

including practical sessions. It includes an introduction to the capabilities of computer hardware and software. (12 credit points achieved at completion of PCB396-1 and PCB396-2.)

**Courses:** PH38 **Prerequisites:** PCB396-1  
**Contact hours:** 4 per week **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► PCB397 MEGAVOLTAGE THERAPY 2

This unit includes the principles and applications of megavoltage therapy including techniques for specific sites. Practical exercises are performed in clinical departments.

**Courses:** PH38  
**Prerequisites:** LSB245, PCB178, PCB287  
**Corequisites:** LSB345

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB414 INDUSTRIAL AND ENVIRONMENTAL ANALYTICAL CHEMISTRY

This unit includes the following: introduction to quality assurance in an analytical chemistry laboratory; international QA standards; analytical methods and method accreditation; sample traceability; calibration, validation and standards; sampling; instrumental techniques (including UV-visible spectrophotometry, fluorimetry, infrared spectroscopy (FT-IR), atomic spectroscopy); chromatography (GC and HPLC). Special Notes: Available both semesters, but for PU40 Semester 1 is preferred.

**Courses:** ED90, IF29, IF39, IX02, IX14, SC01, SC51

**Prerequisites:** PCB142  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB434 INORGANIC CHEMISTRY

This unit includes the following: coordination chemistry; structure and bonding of metal complexes including crystal field and valence bond theories; spectroscopic terms and electronic transitions; solution chemistry and complex equilibria; redox reactions, Pourbaix diagrams; HSAB theory; reaction mechanisms of coordination compounds; chemistry of selected non-metals, lanthanides, actinides and precious metals, their extraction from ores and refining.

**Courses:** IF29, IF39, IF61, SC01, SC51  
**Prerequisites:** PCB142  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB444 SPECTROSCOPY

This unit includes the following: theory of spectroscopy; width and intensity of spectral lines; instrumentation; rotational spectroscopy; vibrational spectroscopy; vibrational-rotational spectroscopy; electronic spectroscopy; electronic excited states; symmetry and spectroscopy; application of infrared spectroscopy to organic compounds (fundamental absorption bands, structural influences); functional group analysis; nuclear magnetic resonance, theoretical concepts; classification of nuclei; modern instrumentation; the shielding constant; <sup>13</sup>C spectra - symmetry; <sup>1</sup>H spectra; integrals, chemical shifts, tabulated data; Shoolery's rules; analysis of 1st order spectra; deducing connectivity relationships.

**Courses:** IF29, IF39, IF61, IX14, SC01, SC51  
**Prerequisites:** PCB142, PCB354  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB445 NANOTECHNOLOGY AND NANOSCIENCE

Following an introductory discussion of the limits of conventional lithography for miniature device construction, this unit investigates alternative approaches towards the construction of nanometer-scale devices, their tremendous power and their potential applications. Techniques used to guide molecular level engineering and self-assemble molecular components into nanotechnology are emphasised.

**Courses:** SC01  
**Prerequisites:** PCB142 or PCB260 or PCB136  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB460 INSTRUMENTATION AND COMPUTATIONAL METHODS

This unit includes a lecture/tutorial program plus an integrated practical component. The topics include transducers, signal conditioning, sources of noise, guarding and shielding, analogue to digital and digital to analogue conversion, computer interfacing, data acquisition, sampling theorem, signal averaging, application of Fourier transforms, signal processing - digital filters, statistics of physical measurements, significance testing, least squares methods, interfacing micro-controllers to analogue circuits.

**Courses:** IF29, IF39, IX14, SC01, SC20  
**Prerequisites:** PCB361  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB462 THERMODYNAMICS AND SOLID STATE PHYSICS

This unit includes two of the main themes in physics. Part A includes thermodynamic equilibrium and zeroth, first and second laws of thermodynamics, equipartition principle and heat capacities, entropy, concept of irreversibility, and Carnot cycle. Part B includes solid state physics, crystal and lattice structures, reciprocal lattice, x-ray diffraction, Brillouin zones, amorphous materials, lattice dynamics, acoustical and optical phonons, thermal properties of solids, acoustic waves in solids and crystals. Part C includes Debye theory, statistical physics, microscopic and quantum approach to entropy, Maxwell relations, Maxwell-Boltzmann and Fermi-Dirac distributions, Fermi energy and Fermi surface, Bose-Einstein distribution function, Black body radiation.

**Courses:** IF29, IF39, IX14, SC01, SC20  
**Prerequisites:** PCB250, MAB134 or MAB311  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB469 ASTROPHYSICS 1

This unit includes an introduction to stellar astrophysics. It covers the following: astronomy in ancient Egypt, Babylon, Arabia, and Renaissance Europe; gravity as described by Kepler and Newton; measuring distances in the universe; apparent and absolute magnitude; telescope resolution; spectroscopy; stellar classification and the HR-diagram; star formation; nucleosynthesis in stars of varying mass; the sun; planetary nebulae and white dwarfs; supernovae, neutron stars and black holes. It includes practical exercises and field trips.

**Courses:** EE48, SC01  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB476 SPECIAL PROCEDURES

This unit introduces specialised techniques of radiography: the skull, macroradiography, obstetrics, gynaecology, CNS, paediatrics and geriatrics.

**Courses:** PH38  
**Prerequisites:** PCB377, PCB379  
**Corequisites:** PCB479  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB477 COMPLEMENTARY IMAGING TECHNIQUES

This unit introduces the physical principles, equipment and applications of medical ultrasound and nuclear medicine imaging. It includes basic ultrasound scanning techniques and resultant imaging appearances for abdomen and pelvis, smart parts, musculoskeletal, and vascular applications.

**Courses:** PH38  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB479 CLINICAL RADIOGRAPHY 2

This unit includes clinical experience in approved departments in radiographic examinations discussed in PCB377 and PCB476.

**Courses:** PH38  
**Prerequisites:** PCB379 **Corequisites:** PCB476  
**Contact hours:** 200 over 5 weeks  
**Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► PCB489 CLINICAL RADIOTHERAPY 2

This unit includes clinical experiences in approved departments in techniques of radiation therapy.

**Courses:** PH38  
**Prerequisites:** PCB397, PCB389  
**Corequisites:** PCB497  
**Contact hours:** 200 over 5 weeks  
**Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► PCB495 COMPUTER ASSISTED TREATMENT PLANNING 1

This unit includes a study of planning hardware and software to include two-dimensional planning and the development of concepts to an advanced level of understanding of computer-assisted optimisation of isodose distributions.

**Courses:** PH38  
**Prerequisites:** PCB386, LSB345  
**Corequisites:** PCB497  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB497 MEGAVOLTAGE THERAPY 3

This unit includes an extension of the topics introduced in PCB397 covering the principles and applications of megavoltage therapy including techniques for specific sites.

**Courses:** PH38  
**Prerequisites:** PCB397, PCB389  
**Corequisites:** PCB495  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB505 ADVANCED PHYSICAL CHEMISTRY

This unit offers a program in advanced physical chemistry based upon interactive learning and problem solving. Topics in modern advanced physical chemistry including electrochemistry, catalysis, surfaces, quantum mechanics and statistical mechanics are offered. The theoretical framework is strongly supported by an experimental program with an emphasis on accuracy, precision and error estimation.

**Courses:** IF39, IF61, IX02, IX14, SC01  
**Prerequisites:** PCB305  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB514 INSTRUMENTAL ANALYSIS

This unit provides theoretical and practical framework for analysis with advanced instrumental techniques: atomic spectroscopy; mass spectrometry; HPLC; auto-analysers and flow analysis; advanced methods of data analysis: multivariate analysis, pattern recognition, classification and prediction. A practical program complements the unit.

**Courses:** IF39, IX02, IX14, SC01, SC51  
**Prerequisites:** PCB242, PCB414  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB524 UNIT OPERATIONS

This unit includes the following: energy balances; principles of particle mechanics and the unit operations used to process solids; principles of fluid mechanics and the unit operations used to process fluids; principles of heat transfer and the unit operations involving heat transfer; rationale for the design and operation of the many individual processes (or 'unit operations') which together make up a large part of any large scale process.

**Courses:** SC01, SC51  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB554 SYNTHESIS AND REACTIVITY IN ORGANIC CHEMISTRY

This unit includes the following: the principles and practice of synthesis planning; synthetically-useful reactions for interconversions of the common functional groups; carbon-carbon bond formation using organometallic reagents and enolates; selectivity and protection; aromaticity and heterocyclic chemistry.

**Courses:** IF39, IF61, IX02, IX14, SC01  
**Prerequisites:** PCB354, PCB444  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB561 QUANTUM AND CONDENSED MATTER PHYSICS**

Quantum Mechanics section includes the main postulates of quantum mechanics; uncertainty principle, quantum measurements, superposition principle, operators, mathematical approaches in quantum mechanics, Schrodinger equation, infinite potential well, potential barrier, tunneling effect, quantum oscillator, hydrogen atom, angular momentum, spin, spin-orbit interaction, Hartree theory of multi-electron atoms, electronic transitions in atoms, selection rules, indistinguishable particles. Condensed Matter Physics section includes Fermi energy, Fermi-Dirac distribution, density of states, electrical and thermal conduction, structure of Fermi surface, band structure of solids, Bloch functions, semiconductors, band gap, Hall effect, semiconductor devices, basic principles of superconductivity.

**Courses:** IF29, IF39, IF61, IX14, SC01, SC20  
**Prerequisites:** PCB462, MAB134 or MAB311  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB562 PHYSICAL METHODS OF ANALYSIS**

The theory and practice of important analysis techniques relevant to the materials sciences are covered in this unit with some examples drawn from industrial processes. Specific topics to be covered include the following: structure of crystals; types of lattice; unit cells; Miller indices; crystal diffraction; reciprocal space; X-ray diffraction, texture and stress analysis; X-ray fluorescence; electron microscopy.

**Courses:** IF29, IF39, IF61, IX14, SC01, SC20  
**Prerequisites:** MAB112 or MAB132, PCB462  
**Contact hours:** 4.5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB563 GLOBAL ENERGY AND CLIMATE CHANGE**

This unit offers science and engineering students an opportunity to gain awareness about the expanding field of alternative energy technologies and to understand relationships between use of energy and its impact on local and global environment.

**Courses:** SC01  
**Prerequisites:** MAB112 or MAB132  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB567 ADVANCED RADIOGRAPHIC TECHNIQUE 1**

This unit includes a study of the principles and techniques used in advanced radiographic techniques including angiography, arthrography, sonography and sialography. It also includes a study of the appearances of pathology on medical images with particular emphasis on the radiographic image.

**Courses:** PH38  
**Prerequisites:** PCB476, PCB479  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB580-1 CLINICAL RADIOGRAPHY 3**

This unit offers clinical experience in special radiographic procedures as introduced in PCB476, PCB567 and general radiography. (12 credit points achieved at completion of PCB580-1 and PCB580-2.)

**Courses:** PH38  
**Prerequisites:** PCB476, PCB479  
**Contact hours:** 240 over 6 weeks  
**Credit points:** 6  
**Campus:** GP **Sem:** 1

**► PCB580-2 CLINICAL RADIOGRAPHY 3**

See PCB580-1 for details.

**Courses:** PH38  
**Prerequisites:** PCB567, PCB580-1  
**Contact hours:** 200 over 5 weeks  
**Credit points:** 6  
**Campus:** GP **Sem:** 2

**► PCB584 FORENSIC EXAMINATION OF PHYSICAL EVIDENCE**

This unit presents an overview of the crime scene: its investigation and management; detection and collection of physical evidence; blood splash evidence; fire investigation; bomb scene; forensic osteology; expert evidence. It also in-

cludes forensic photography, fingerprinting, forensic applications of optical and electron microscopy. Substantial laboratory and workshop sessions complement the theory.

**Courses:** IF29, IF39, IX02, IX14, SC01  
**Prerequisites:** PCB414  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB587 SPECIALISED RADIOTHERAPY TECHNIQUE 1**

This unit includes a course of lectures and practical exercises on the specialised techniques of orthovoltage and superficial therapy including a study of radioactivity: methods of radiation detection; radioactive equilibrium and production of radioisotopes; the principles and application of brachytherapy.

**Courses:** PH38  
**Prerequisites:** PCB489, PCB497  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB590-1 CLINICAL RADIOTHERAPY 3**

This unit offers clinical experience in radiotherapy treatment and planning including specialised radiotherapy techniques as discussed in PCB587 and PCB595. (12 credit points achieved at completion of PCB590-1 and PCB590-2.)

**Courses:** PH38  
**Prerequisites:** PCB489  
**Contact hours:** 200 over 5 weeks  
**Credit points:** 6  
**Campus:** GP **Sem:** 1

**► PCB590-2 CLINICAL RADIOTHERAPY 3**

See PCB590-1 for details.

**Courses:** PH38  
**Prerequisites:** PCB590-1  
**Contact hours:** 200 over 5 weeks  
**Credit points:** 6  
**Campus:** GP **Sem:** 2

**► PCB593 DIGITAL IMAGE PROCESSING**

This unit provides students with a basic understanding of the computer techniques used in image processing and reconstruction. Specific areas of study will include the following: the structure of a digital image; image display techniques; grey scale palettes and look-up tables; Fourier transform theory; convolution theory; image processing hardware; image processing techniques, eg analysis, enhancement and restoration; spatial filtering; Fourier space filtering; methods of image reconstruction; 3-D volume and surface rendering; applications of image processing in medicine, astronomy and remote sensing, etc.

**Courses:** PH38, SC01  
**Prerequisites:** MAB100 or PCB107  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB595 COMPUTER ASSISTED TREATMENT PLANNING 2**

This unit includes the use of computers in the planning of non-standard and complex radiotherapy treatment including arc and rotation techniques, irregular field techniques and 3 dimensional plans. Use of 3-D computer planning system is included.

**Courses:** PH38  
**Prerequisites:** PCB495  
**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PCB604 PROJECT**

This unit addresses a variety of chemical problems reflecting teaching, research and consultancy interests of the staff.

**Courses:** IF39, IF71, IF86, IX02, IX14, SC01, SC51  
**Prerequisites:** Two relevant prerequisites from PCB434, PCB505, PCB554, PCB514, PCB524  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► PCB605 BIOMEDICAL INSTRUMENTATION**

See PCB460.

**Courses:** ME48  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PCB614 ADVANCED ANALYSIS**

This unit includes the theoretical and practical framework of advanced analytical techniques, emphasising the analysis of materials and more difficult samples than those covered in previous

units. Techniques include hyphenated mass spectrometry, analytical electron microscopy, thermal analysis, and vibrational spectroscopy.

**Courses:** IF86, SC01  
**Prerequisites:** PCB514  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PCB624 CHEMISTRY IN INDUSTRY AND TECHNOLOGY**

This unit includes industrial processes and technologies involved in the manufacture of materials of industrial and societal importance. Topics include mass transfer operations, metals and alloys, ceramics, inorganic polymers, biopolymers, natural fibres, high technology polymers and industrial membranes. The unit includes field trips to various industrial sites and a group problem-solving exercise.

**Courses:** IF39, IF86, SC01, SC51  
**Prerequisites:** PCB524  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PCB634 ORGANOMETALLIC AND COORDINATION CHEMISTRY**

Major topics covered are as follows: organometallic chemistry, including metal-carbon bonding, main group and transition metal organometallics and applications of organometallic compounds in synthetic chemistry; bioinorganic chemistry; physical methods of structure determination, such as single crystal X-ray diffraction; chemical applications of group theory.

**Courses:** IF29, IF39, IX14, SC01  
**Prerequisites:** PCB434  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PCB644 FRONTIERS IN CHEMISTRY**

This unit addresses a selection of topics in advanced chemistry from a range of evolving areas of relevance in modern chemistry and chemical technology such as nanotechnology, drug design, free-radical chemistry and trace metal speciation in environmental and biological systems. It includes the issue of the societal and ethical implications of the profession of chemistry.

**Courses:** IF29, IF39, SC01, SC51  
**Prerequisites:** PCB434, PCB505, PCB554  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PCB661 EXPERIMENTAL PHYSICS**

The content of experiments and projects will vary and be adapted to the interests of each student. Students work independently on sophisticated laboratory experiments or project work with a minimum of staff direction. Skills developed during this unit include communication, problem solving, time management, written and oral presentation skills, reflective practice, technological literacy and working independently.

**Courses:** IF29, IF39, IX14, SC01  
**Prerequisites:** PCB361, PCB460  
**Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► PCB664 LASERS AND PHOTONICS**

Laser and photonic technologies are rapidly maturing areas responsible for creating new industries and employment opportunities for scientists and engineers in the areas of information technology, manufacturing, sensing and health. In particular, the vast global optical communications industry has dramatically increased information transport rates through the development of new laser sources and photonic devices. At the heart of all advances in photonics is a greater understanding of light-matter interactions and the processes used to fabricate devices. This unit is offered to science and engineering students who seek to understand the physical principles underpinning lasers and photonic devices and their use in a range of optical technologies.

**Courses:** SC01, SC60  
**Prerequisites:** PCB260 or EEB340 and MAB134 or MAB311  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PCB665 PHYSICS 3**

This unit consists of three parts. Part A extends the content of previous units in electromagnetism and the application of Maxwell's equations,

electromagnetic waves, polarisation, dielectric permittivity, transmission line theory, waveguides, optic fibre theory, antennae. Part B includes a detailed study of magnetic resonance and its applications. Part C presents the extension of studies in statistical mechanics, including microscopic approach to entropy, partition function, paramagnetism, perfect and real classical and quantum gases, phase equilibria, Bose-Einstein condensate, Brownian motion.

**Courses:** IF29, IF39, SC01

**Prerequisites:** MAB134 or MAB311, PCB362, PCB462

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB667 ADVANCED RADIOGRAPHIC TECHNIQUE 2

This course is an extension of topics in advanced radiographic techniques and professional practice. It consists of a course of lectures and practical exercises on image interpretation including technical and diagnostic quality.

**Courses:** PH38 **Prerequisites:** PCB567

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB669 ASTROPHYSICS 2

This unit presents a theoretical background for the general theory of relativity and relativistic cosmology. This includes special theory of relativity, four-vectors and tensors, tensor calculus, covariant differentiation, least action principle and main postulates in special and general relativity, concepts of the interval and space-time metric, gravitation redshift, geodesic equation, energy tensor, Einstein equations for gravitational field, gravitational collapse, Schwarzschild metric, event-horizon for black holes, gravitational waves, cosmological principle, standard cosmological models, Robertson-Walker metric, dark energy, evolution of the universe, Big bang, cosmological horizons, cosmic background radiation, and cosmological redshift.

**Courses:** SC01, SC60

**Prerequisites:** PCB362, MAB134 or MAB521

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB672-1 PROJECT

This is a supervised project involving either application of existing theoretical practical knowledge or a literature survey of a selected relevant topic. (12 credit points achieved at completion of PCB672-1 and PCB672-2.)

**Courses:** PH38 **Credit points:** 6

**Campus:** GP **Sem:** 1

#### ► PCB672-2 PROJECT

This is a supervised project involving either application of existing theoretical practical knowledge or a literature survey of a selected relevant topic. (12 credit points achieved at completion of PCB672-1 and PCB672-2.)

**Courses:** PH38 **Credit points:** 6

**Prerequisites:** PCB672-1 **Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► PCB675 RADIATION SAFETY AND QUALITY ASSURANCE

This unit includes a study of the biological effects of ionising radiation and the philosophy and protocol in radiation protection. It includes a study of the principles and techniques used in the quality assurance of medical imaging/radiotherapy apparatus and ancillary equipment and image formation evaluation.

**Courses:** PH38

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB681 COMPUTED TOMOGRAPHY IMAGING

This unit covers both the technological and clinical aspects of X-ray computed tomography (CT). Clinical applications described include those for specific anatomical areas as well as advanced and interventional applications. The strengths and weaknesses of CT in relation to other imaging modalities are discussed.

**Courses:** PH38

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB682 MAGNETIC RESONANCE IMAGING

This unit includes lectures and tutorial exercises in the physical principles and clinical techniques used in magnetic resonance.

**Courses:** PH38

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB684 FORENSIC ANALYSIS AND TOXICOLOGY

This unit provides a theoretical and practical framework for forensic analysis and toxicology. It includes topics such as nature and abuse of drugs; introduction to pharmacology and toxicology; illicit drugs and poisons; the application of GC, HPLC, MS and hyphenated techniques as well as IR; examination of trace evidence. Substantial laboratory and workshop sessions complement the theory.

**Courses:** SC01

**Prerequisites:** PCB242, PCB514

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB687 SPECIALISED RADIOTHERAPY TECHNIQUE 2

This unit includes a study of specialised radiotherapy techniques including techniques applicable to the child patient and patients with communicable disease, total body photon and electron therapy. It includes a course of lectures on the principles, strengths and stage of development of techniques which are integral or complementary to the modern radiotherapy treatment of cancer.

**Courses:** PH38

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB695 ADVANCED TREATMENT PLANNING TOPICS

This unit includes a study of the principles and techniques of medical imaging used in the detection of cancer including MRI, PET and SPECT. This study also covers future directions of three dimensional treatment planning, and IMRT.

**Courses:** PH38

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCB700-1 RESEARCH PROJECT

Each student undertaking Honours is required to select and undertake, in consultation with a supervisor, a substantial project in an appropriate area. Each project is assessed on the basis of an extensive written report and an oral presentation. (60 credit points achieved at completion of PCB700-1, PCB700-2, PCB700-3, PCB700-4 and PCB700-5.)

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB700-2 RESEARCH PROJECT

See PCB700-1 for details.

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB700-3 RESEARCH PROJECT

See PCB700-1 for details.

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB700-4 RESEARCH PROJECT

See PCB700-1 for details.

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB700-5 RESEARCH PROJECT

See PCB700-1 for details.

**Courses:** SC60 **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB706 QUANTUM MECHANICS

This unit includes the following: review of operators and their role in quantum mechanics, different representations, Dirac notations and linear vector space, matrix approach to quantum mechanics, eigenvalues and eigenvectors, unitary transformations, R- and P-representations, tensor product of states, six postulates of quantum mechanics, concept of measurements, quantum entanglement, density matrix, general theory of angular momentum, quantum oscillator, two-level systems, non-relativistic theory of spin, spinors, hybrid orbitals and chemical bonding,

theory of scattering, Born approximation, partial wave analysis, perturbation theory.

**Courses:** SC60

**Prerequisites:** PCB561  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB708 ADVANCED TOPICS IN PHYSICS

No more than three topics are included. The content is determined by current research advances, availability of appropriate staff, visiting academics, etc and may vary from year to year.

**Courses:** SC60

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB742 ELECTIVE UNIT

The subjects are chosen to suit individual students but the topics studied would normally be in specific areas of physical chemistry, analytical chemistry, inorganic chemistry or organic chemistry and would be chosen from subjects presently offered in the masters program or other post graduate programs. Relevant material from other accredited courses may be included as part or all of the requirement for this subject as directed by the Course Coordinator and Head of School.

**Courses:** SC60

**Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCB780-1 ADVANCED TOPICS IN CHEMISTRY 1

This is the first semester component of a two-semester unit covering a selection of advanced topics in the areas of physical, organic and inorganic chemistry. The topics offered reflect the expertise of the academic staff as well as the needs of the students. (24 credit points achieved at completion of PCB780-1 and PCB780-2.)

**Courses:** SC60

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCB780-2 ADVANCED TOPICS IN CHEMISTRY 1

See PCB780-1 for details.

**Courses:** SC60

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN112 MEDICAL IMAGING SCIENCE

This unit offers an introduction to the MATLAB programming language, programming techniques, and algorithms and digital image processing. It includes the principles of display, perception and interpretation of medical images, image quality, and imaging in nuclear medicine.

**Courses:** PH71, PH80

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN113 RADIATION PHYSICS

This unit includes the following: radioactivity and the interaction of ionising radiation with matter; applied radiation counting techniques; radiation detectors; radiation dosimetry.

**Courses:** PH71, PH80

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN114 MICROPROCESSORS AND INSTRUMENTATION

This unit includes the following: the capabilities and limitations of a given instrument; design of interfaces between microcomputers and transducers; signal conditioning and signal conversion circuits for data acquisition.

**Courses:** PH71, PH80

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN121 VISION COLOUR AND PHOTOMETRY

This unit includes the following: measurement of luminous flux; luminous intensity; illuminance; luminance; reflectance; transmittance; diffuse surfaces; inverse square law; cosine law; Munsell and CIE Colour System; chromaticity coordinates  $Y_{xy}$ ,  $L^*A^*B^*$ ,  $Luv$ , correlated colour temperature, colour rendering indices; the integrating sphere; colourimetry; distribution photometry; graphical representation of photometric data; measuring instruments; accuracy; repeatability; the physiology of the eye and light detection; contrast sensitivity; colour vision; adaptation; brightness and lightness; image detection and

recognition including edge detection, lightness determination; the association of the characteristics of patterns; the importance of the visual attributes of tasks.

**Courses:** PH62, PH72, PH82 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN122 LIGHTING DESIGN

This unit includes the following: definition of the visual field; the extension of threshold studies to practical task situations; the evaluation of visual tasks; the development of measures of discomfort and disability glare; illuminance and glare scales; methods for the assessment of tasks and environments; experimental techniques of evaluation. It also includes the perception of colour, form, pattern and space, and issues relating to the perception and comprehension of the environment; aesthetics, perception and emotion; the practical methods available for predicting illuminances from daylight and uniform arrays of luminaires; the prediction of discomfort; appraisals; codes of practice; economics; maintenance; integration of daylight and electric light.

**Courses:** PH62, PH72, PH82  
**Prerequisites:** PCN121 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN123 SUSTAINABILITY AND HUMAN FACTORS

This unit will not cover all areas of specialised lighting, but rather will concentrate on the more important and general public lighting situations. Topics covered include the following: emergency lighting requirements; road lighting; pedestrian lighting and sports lighting with particular reference to standards for specialised lighting situations, equipment, required light distributions and calculation and design techniques. There is a need to fully understand the issues involved in designing for these applications and to be able to build a design that satisfies the requirements with quality and efficient lighting solutions.

**Courses:** PH62, PH72, PH82 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN124 LAMPS AND LUMINAIRES

This unit includes the development of light sources, the practical requirements of light sources including tubular fluorescent lamps, and various high and low pressure discharge lamps. Practical lamps are discussed in terms of luminous efficacy, spectral output, colour rendering, life, supply requirements, control gear, cost, etc. The unit also addresses the design, manufacture, testing and the provision of data on luminaires methods of light control; the properties of optical systems; refractors, reflectors and diffusers; luminance control techniques; manufacture of luminaires and auxiliaries; codes and provision of photometric data for indoor and outdoor luminaires; the calculation of utilisation factors; luminaire luminances; computerised testing, and machine readable photometric data.

**Courses:** PH62, PH72, PH82  
**Corequisites:** PCN121 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN159 ULTRASONIC EXAMINATION 1

This unit addresses the normal and abnormal anatomy and functions related to gynaecology and obstetrics, the ultrasonic techniques used, and the appearance of related images. It includes a study of the technique used in the ultrasonic examination of the abdomen including the appearance on the ultrasound image of normal abdominal anatomy and its alteration by pathological processes.

**Courses:** PH71, PH80  
**Corequisites:** PCN162, PCN197  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN162 PRINCIPLES OF MEDICAL ULTRASOUND

This unit is designed to provide students with a thorough understanding of the physical processes involved in producing an ultrasound image, the features of ultrasound equipment and the role and responsibilities of the sonographer in producing a diagnostic examination. Topics include general scanning principles and considerations, care of equipment, physics of ultrasound, ultrasound

equipment features, image production and processing, artefacts, image recording methods, quality control, biological hazards and safety issues, principles of Doppler ultrasound, care of the patient and communication issues.

**Courses:** PH60, PH71, PH75, PH80, PH85  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN184 BREAST IMAGING

This unit includes the following: medical imaging of the breast; principles of mammographic and sonographic imaging; breast anatomy and physiology; pathological conditions affecting the breast and its appearance; advanced mammographic techniques; mammographic and sonographic quality assurance.

**Courses:** PH60  
**Prerequisites:** PCN162, PCN187  
**Corequisites:** PCN397  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN187 SPECIALIST STUDIES

This is a student-centred learning unit that allows exploration of specialist techniques and applications through self directed study and research.

**Courses:** PH60, PH71 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN197-1 CLINICAL ATTACHMENT 1

This is a supervised practical program carried out in an approved medical imaging department. Students are required to undertake specified clinical practice as applicable to their area of specialisation and meet minimum requirements of clinical hours and case scope and numbers. (12 credit points achieved at completion of PCN197-1 and PCN197-2.)

**Courses:** PH71, PH80  
**Corequisites:** PCN159, PCN162  
**Credit points:** 6  
**Campus:** GP **Sem:** 1

#### ► PCN197-2 CLINICAL ATTACHMENT 1

See PCN197-1 for details.

**Courses:** PH71, PH80  
**Corequisites:** PCN159, PCN162  
**Credit points:** 6  
**Campus:** GP **Sem:** 2

#### ► PCN211 PHYSICS OF MEDICAL IMAGING

This unit addresses the physical principles involved in the production of radiographic, ultrasonic and magnetic resonance images and quality control protocols.

**Courses:** PH71, PH80  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PCN212 RADIOTHERAPY PHYSICS

This unit provides an overview of the application of physics to radiotherapy and the theoretical and practical aspects of the major topics in radiotherapy physics.

**Courses:** PH71, PH80  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN214 HEALTH AND OCCUPATIONAL PHYSICS

This unit introduces the philosophy, protocols and practices of safety in the medical and industrial fields and the minimisation of hazards associated with radiation, acoustic, electrical and mechanical techniques.

**Courses:** PH71, PH80  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN218 RESEARCH METHODOLOGY AND PROFESSIONAL STUDIES

In the rapidly changing technological environment of medical physics and medical ultrasound, it is essential that students develop basic research skills, data interpretation skills and written communication skills. Topics include the research process, data collection and analysis techniques, and writing and evaluating research reports. Students also require knowledge of the professional, basic management, legal and ethical issues involved in their particular speciality area. Topics include the role and purpose of professional bodies, professional communication, legal

and ethical issues, basic professional management techniques and issues.

**Courses:** PH71, PH75, PH80, PH85  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

#### ► PCN222 ADVANCED LIGHTING DESIGN

This unit includes the latest developments in lamp technologies and sources (including LEDs and lasers); lighting in the mesopic range; a review of factors influencing lighting design; discomfort and disability glare; illuminance and glare scale; methods for the assessment of tasks and environments; in-depth studies of colour, form, pattern and space; issues relating to the perception and comprehension of the environment; the practical effects of daylight; introduction to the integration of daylight and electric lighting. This is a very hands-on unit with a large component of computer design work, group discussions and site visits and evaluations.

**Courses:** PH62, PH72, PH82  
**Prerequisites:** PCN122, PCN123  
**Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN223 LIGHTING APPLICATIONS

This unit builds on the material covered in PCN122 and looks in more depth at some of the applications covered in that unit, namely street lighting and public access lighting. It includes areas not covered in that unit; general floodlighting requirements and equipment; light distributions; calculation methods; area floodlighting; building floodlighting; pedestrian lighting; tunnel lighting; vehicle lighting; traffic signals, airport lighting; navigation lighting; display lighting; advertising.

**Courses:** PH62, PH72, PH82  
**Prerequisites:** PCN123 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN224 LIGHTING PROJECT 1

There is no set material for this unit. Students undertake an approved project over a semester on any topic relevant to their interest in lighting. The project may be predominantly a reading course, reviewing, comparing or analysing material on a specific topic, or it may be a practically oriented project involving manufacture, measurement or analysis of a particular lighting product or installation. The project may be taken at QUT or within the person's place of employment.

**Courses:** PH72, PH82 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN259 CARDIAC ULTRASOUND 1

The field of medical ultrasound is scientifically based, in an environment that is rapidly changing and undergoing considerable technological advancement. A thorough understanding of the techniques used in the evaluation of the fetal, paediatric, and adult heart is essential for professionals working in this field. Topics include patient preparation and communication requirements; basic electrocardiograph (ECG) patterns; the routine adult echocardiographic examination (including the 2-dimensional, M-mode, spectral Doppler and colour flow Doppler examinations and standard calculations); basic hemodynamics; an introduction to Doppler physics and principles.

**Courses:** PH75, PH85  
**Prerequisites:** LSN259 **Corequisites:** PCN497  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PCN297-1 CLINICAL ATTACHMENT 2

This unit includes a period of additional supervised clinical practice designed to expand and refine skills acquired in PCN197. (12 credit points achieved at completion of PCN297-1 and PCN297-2.)

**Courses:** PH71, PH80  
**Prerequisites:** PCN159, PCN197, PCN356  
**Corequisites:** PCN355, PCN357  
**Credit points:** 6  
**Campus:** GP **Sem:** 1

#### ► PCN297-2 CLINICAL ATTACHMENT 2

See PCN297-1 for details.

**Courses:** PH71, PH80  
**Prerequisites:** PCN297-1 **Credit points:** 6

**Campus:** GP**Sem:** 2**► PCN355 VASCULAR ULTRASOUND**

This unit includes the principles and equipment requirements of ultrasound applications in the cardiovascular system and the clinical techniques and diagnostic criteria of such applications in particular those of the peripheral arterial and venous systems and the heart.

**Courses:** PH71, PH80**Prerequisites:** PCN159, PCN162**Contact hours:** 4 per week **Credit points:** 12**Campus:** GP **Sem:** 1**► PCN356 ULTRASONIC EXAMINATIONS 2**

This unit includes the ultrasound techniques used to examine the head, neck and peripheral organs and the ultrasonic appearance of normal and abnormal anatomy and pathology. It includes ultrasound techniques in advanced obstetrics and gynaecology and in the abdomen.

**Courses:** PH71, PH80**Prerequisites:** PCN159, PCN162, PCN197**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 2**► PCN357 ADVANCED ULTRASOUND TOPICS**

This unit builds on content of PCN159 and PCN356 providing more advanced applications of ultrasound in obstetrics. This unit also provides a study of the applications of ultrasound techniques in paediatrics and an overview of echocardiography.

**Courses:** PH71, PH80**Prerequisites:** PCN159, PCN162, PCN356**Corequisites:** PCN297**Contact hours:** 4 per week **Credit points:** 12**Campus:** GP **Sem:** 1**► PCN359 CARDIAC ULTRASOUND 2**

Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit extends and builds on the content of PCN259 by introducing concepts and techniques of the complex hemodynamic examinations and discussing the applications of the techniques described to common pathological clinical situations. Topics include Doppler calculations, assessment of systolic function, echocardiographic assessment of pathological conditions of the heart and great vessels, and systemic causes of heart disease.

**Courses:** PH75, PH85**Prerequisites:** PCN259, PCN497**Corequisites:** PCN597**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1**► PCN397-1 CLINICAL ATTACHMENT 1**

This is a supervised practical program carried out in an approved medical imaging department. Students are required to undertake specified clinical practice as applicable to their area of specialisation and meet minimum requirements of clinical hours and case scope and numbers. (12 credit points achieved at completion of PCN397-1 and PCN397-2.)

**Courses:** PH60 **Credit points:** 6**Campus:** GP **Sem:** 1**► PCN397-2 CLINICAL ATTACHMENT 2**

See PCN397-1 for details.

**Courses:** PH60 **Credit points:** 6**Campus:** GP **Sem:** 2**► PCN459 ADVANCED CARDIAC ULTRASOUND**

Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit extends and builds on the content of units PCN259 and PCN359 by introducing more advanced applications of echocardiography. The advanced areas of diastolic function, unusual pathologies, the assessment of congenital heart lesions in the foetus, and paediatric and adult patient, and new and evolving technologies are covered. Additionally, an overview of other diagnostic methods of the heart is presented in order to demonstrate the complementary nature of diagnostic testing.

**Courses:** PH75, PH85**Prerequisites:** PCN259, PCN359, PCN497**Corequisites:** PCN597**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 2**► PCN497-1 CLINICAL ATTACHMENT 4**

The field of medical ultrasound is scientifically based, in an environment that is rapidly changing and undergoing considerable technological advancement. Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit is an essential component of the course as it allows the student to be involved in extensive clinical experience that is complementary to all other units in the course. In this unit, basic echocardiographic skills are developed through employment and training in a QUT approved clinical department. Clinical skills are developed and evaluated by QUT approved clinical supervisors, in consultation with QUT academic staff. (12 credit points achieved at completion of PCN497-1 and PCN497-2.)

**Courses:** PH75, PH85 **Corequisites:** PCN259**Contact hours:** 3 per week **Credit points:** 6**Campus:** GP **Sem:** 1**► PCN497-2 CLINICAL ATTACHMENT 4**

See PCN497-1 for details.

**Courses:** PH75, PH85**Prerequisites:** PCN497-2**Contact hours:** 3 per week **Credit points:** 6**Campus:** GP **Sem:** 2**► PCN520 PROJECT (FULL-TIME)**

The project may take the form of research development, a design, a feasibility study, or the collation of scattered information on a given topic. The project can be undertaken externally under QUT supervision. Time spent on projects is one semester for full-time and two semesters for part-time students.

**Courses:** PH80**Contact hours:** 18 per week **Credit points:** 48**Campus:** GP **Sem:** 1, 2, 3**► PCN540-1 PROJECT (PART-TIME)**

The project may take the form of research development, a design, a feasibility study, or the collation of scattered information on a given topic. The project can be undertaken externally under QUT supervision. Time spent on projects is one semester for full-time and two semesters for part-time students. (48 credit points achieved at completion of PCN540-1 and PCN540-2.)

**Courses:** PH80**Contact hours:** 9 per week **Credit points:** 24**Campus:** GP **Sem:** 1, 2, 3**► PCN540-2 PROJECT (PART-TIME)**

See PCN540-1 for details.

**Courses:** PH80**Contact hours:** 9 per week **Credit points:** 24**Campus:** GP **Sem:** 1, 2, 3**► PCN597-1 CLINICAL ATTACHMENT 5**

Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit is an essential component of the course as it allows the student to be involved in extensive clinical experience that is complementary to all other units in the course. This unit builds on skills, knowledge and abilities gained in the unit PCN497. In this unit, basic skills are refined and expanded, and advanced echocardiographic skills are developed through employment and training in a QUT approved clinical department. Clinical skills are developed and evaluated by QUT approved clinical supervisors, in consultation with QUT academic staff. (12 credit points achieved at completion of PCN597-1 and PCN597-2.)

**Courses:** PH75, PH85**Prerequisites:** PCN497**Corequisites:** PCN359, PCN459**Contact hours:** 3 per week **Credit points:** 6**Campus:** GP **Sem:** 1**► PCN597-2 CLINICAL ATTACHMENT 5**

See PCN597-1 for details.

**Courses:** PH75, PH85**Prerequisites:** PCN597-1**Contact hours:** 3 per week **Credit points:** 6**Campus:** GP **Sem:** 2**► PCN640-1 PROJECT**

The project may take the form of research development, a feasibility study, or the collation of

disparate, scattered information. The project can be undertaken externally, under QUT supervision. The project would normally be undertaken part-time over two semesters. (48 credit points achieved at completion of PCN640-1 and PCN640-2.)

**Courses:** PH85**Contact hours:** 9 per week **Credit points:** 24**Campus:** GP **Sem:** 1**► PCN640-2 PROJECT**

See PCN640-1 for details.

**Courses:** PH85**Contact hours:** 9 per week **Credit points:** 24**Campus:** GP **Sem:** 2**► PCN701 TOPICS IN ADVANCED CHEMISTRY 1**

This unit includes a series of lectures and/or a reading program and/or selected laboratory exercises designed to provide the student with the appropriate theoretical and practical background, at an advanced level, necessary for the completion of a research program.

**Courses:** SC80**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PCN705-1 RESEARCH METHODOLOGY**

This unit includes a guided program of literature surveys to provide the background information for the research project. This unit enables students to develop verbal and oral communication skills required for the successful conduct of a chemical research project. During the course students will be required to attend and participate in seminars. Students must present two seminars on their own research. (12 credit points achieved at completion of PCN705-1 and PCN705-2.)

**Courses:** SC80**Credit points:** 6**Campus:** GP **Sem:** 1, 2**► PCN705-2 RESEARCH METHODOLOGY**

See PCN705-1 for details.

**Courses:** SC80**Credit points:** 6**Campus:** GP **Sem:** 1, 2**► PCN710 CHEMICAL INSTRUMENTATION**

This unit presents chemical instrumentation and electronics required for advanced level operation of scientific instrumentation.

**Courses:** SC80**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PCN715 ADVANCED TOPICS IN PHYSICS 1**

This unit provides a focused theoretical foundation for each students research program or other advanced topics in physics and develops a high level of theoretical understanding of the physical principles involved.

**Courses:** SC80**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PCN716 ADVANCED TOPICS IN PHYSICS 2**

See PCN715.

**Courses:** SC60, SC80 **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PCN720 CHEMOMETRICS**

This unit includes the following: the concepts of chemical data acquisition and interpretation; computational methods and existing software packages for statistical analysis in chemistry; statistical methods in quality and process control; sampling procedures; multivariate analysis and optimisation techniques.

**Courses:** SC80**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PCN730 ADVANCED PHYSICAL METHODS IN CHEMISTRY**

This unit includes theoretical and practical principles of selected physical methods in chemistry.

**Courses:** SC80**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PCN740 LABORATORY TECHNIQUES FOR PREPARATIVE CHEMISTRY**

This unit includes the experimental techniques for the preparation and isolation of pure substances.

**Courses:** SC80**Credit points:** 12**Campus:** GP **Sem:** 1, 2

See PCN640-1 for details.

### ► PCN801 TOPICS IN ADVANCED CHEMISTRY 2

See PCN701.

**Courses:** SC80

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► PSB411 PLANNING/LANDSCAPE DESIGN 1

This unit has two parts. The theory section includes basic design vocabulary, design principles, design tools, different approaches to design and problem solving. The studio section includes projects to encourage an understanding of design: seeing design through the use of line, form, colour, texture, etc using design principles; developing critical and creative thinking towards design.

**Courses:** BN31

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB412 COMPUTER SKILLS

This unit includes the following: development of understanding, awareness, and appreciation of computers as an aid in data analysis and presentation; basic skills of input, manipulation and examination of output for statistical analysis of data in decision making; the range of information systems and appropriate data analysis software; utilisation of the computer as a professional tool.

**Courses:** BN31, PS47, PS48

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► PSB413 GRAPHICS

This unit includes the following: graphics as a tool within the planning and design process, as a communicator of results; diagramming; lettering; layout; visual themes; different media and reproduction; scale; legibility; graphic organisation; realism and abstraction; axonometric; perspective; freehand and technical drawing.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB414 PROFESSIONAL SKILLS 1

This unit includes the following: basic information retrieval skills and presentation; introduction to academic life; learning skills, time management; QUT library as a resource; writing process: types, formats, styles, bibliographic connections; indexing and abstract services; electronic information retrieval; personal file management; evaluating information

**Courses:** BN31, PS47, PS48

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB415 CONTEMPORARY LANDSCAPE DESIGN

This unit engages students studying to become landscape architects with an appreciation of the significance of the profession and the inspiring achievements by the leaders within the discipline during the 20th and early 21st century. Using award-winning examples of design works carried out in a range of socio-cultural and environmental contexts, students are introduced to the potential of contemporary landscape design to provide places of intellectual, cultural, social and environmental delight. The unit is complementary to the introduction to design in the Creative Space studio, and analyses the work of leading designers according to the principles of design, with a particular focus on land modelling and the use of plant materials.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB416 RESEARCH AND CRITICISM

This unit fosters an understanding of worldviews influencing the culture of landscape architecture. Module 1 includes the what, why, and how of landscape research. Module 2 includes contemporary belief systems in landscape research. Module 3 includes methods for answering researchable questions.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB417 MANUAL/DIGITAL GRAPHICS

This unit includes an introduction to the application of graphic communication methods as it

relates to environmental design and manual graphic techniques and digital (computer-aided) graphic techniques. Manual graphic techniques emphasising the development of a variety of presentation graphics with reference to three-dimensional presentation in drawn form are closely linked to the design studio undertaken in PSB421 Planning and Design 2 and/or PSP264 Spatial Design Theory where application of the skills developed are an expected outcome. Digital (computer-aided) graphic techniques develop students' knowledge and skills in computer imaging using CorelDraw and Corel Photopaint, computer-aided drafting techniques using AutoCAD, and visual presentation using PowerPoint.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

### ► PSB421 PLANNING/LANDSCAPE DESIGN 2

This unit includes the following: introduction to design processes and types of design at various scales; consolidating and extending the habits of visual and creative thinking; understanding and using the basic techniques of site surveying; introduction to the concept of cultural values and personal values; introduction to understanding each profession in theory and by studio application; development of group interaction.

**Courses:** BN31

**Prerequisites:** PSB411

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

### ► PSB422 ENVIRONMENTAL SCIENCE

This unit includes the following: the concept of landscape as interacting dynamic systems and processes; role of humans in these systems; awareness of the relevance of environmental issues in the professions; basic scientific processes and concepts relating to the physical environment; ecosystems and landscape ecology; people in the landscape and sustainability; the built environment professions and environmental impact.

**Courses:** BN31, PS47, PS48

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

### ► PSB423 GROUP DYNAMICS

This unit includes the following: basic theories and concepts of psychology and human behaviour; role of self concept; locus of control in transactions; perception; learning processes; problem-solving; hierarchy and dynamics of working with others. It also includes group process skills: small group communication; verbal/non-verbal languages; listening, assertive and negotiating skills; values, personalities and cultural differences, in-group functioning.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 2

### ► PSB424 LAND SCIENCE

This unit consists of 4 elementary modules, which are taken according to the needs of the discipline of study. Module A: spatial referencing, site measurement; use of maps and air photos. Module B: surveying. Module C: science. Module D: statistics. Disciplines: Surveying - Modules A and B. Landscape Architecture - Modules A and C. Urban and Regional Planning - Modules A and D.

**Courses:** BN31, PS47, PS48

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► PSB431 PLANNING/LANDSCAPE DESIGN 3

This unit includes the following theory: reinforcement of the design process, character, components, types and delineation; place/use relationships. The practical projects require the application of knowledge and skills reacting to places and their uses, supported by relevant graphic and oral communication techniques. The projects are linked at an urban scale. These proposals are communicated through drawings and illustrated reports. The studio requires an increased emphasis on group work at the investigative stage.

**Courses:** BN31

**Prerequisites:** PSB421, PSB413

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB432 HISTORY OF BUILT ENVIRONMENT

Lectures cover the history of human occupation and use of the land, particularly the design and development of human settlements and the evolution of the professions involved in these activities in a global overview. The unit covers the historical development of significant designed landscapes throughout the world, from earliest times to the present day, in their social and political contexts, emphasising current ideas and philosophies. This unit provides an introduction to the large body of knowledge, understanding and different interpretations about landscape and planning history.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

### ► PSB433 PLANNING PROCESSES (URP ONLY)

This unit addresses planning as a creative and value-based activity. It considers the problem-solving process which links places, activities and underlying values: planning method as a progressive and cyclic process; incorporating the logic of conscious planning; identification of problems and issues; the roles and derivation of objectives; analysis and projection of activity systems; resource and issue analysis; synthesis in planning, decision-making, implementation, and evaluation. It also includes the emerging fields within community and land use planning. The examples cover outputs dealing with spatial scale (regional, metropolitan, urban and local) and conceptual scale (strategic visions, program plans, projects, policies).

**Courses:** BN31

**Prerequisites:** PSB414, PSB423

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB434 LANDSCAPE CONSTRUCTION A (LANDSCAPE ONLY)

The unit comprises three primary components: grading (manipulation of land surfaces); materials and construction elements (development of understanding of the properties and use of common construction materials relevant to landscape construction); introduction to structures (principles of structural mechanics). In all of these components, attention is paid to the development of appropriate technical drawing and documentation techniques for the preparation of construction documentation.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB435 SOCIAL AND CULTURAL RELATIONS

This unit includes the following: introduction to some of the underlying social relationships and their structures in contemporary Western urbanisation; application of sociological theories by way of analysis of an urban environment with respect to its socio-cultural functions; theory of human functioning in urban environment, privacy, personal space, environmental meaning and cognition; analysis of major concepts in urban life including concepts and ideas of capitalism, the relation between production and current restructuring of production, social relationship.

**Courses:** BN31

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

### ► PSB441 PLANNING/LANDSCAPE DESIGN 4

This unit includes the following: reinforcement of site planning and techniques; development and communication of vision statements, aims and objectives; designing for sustainable futures; using design science principles to ensure comfort and fit. The principles of designing for climate, and the effects of topography, vegetation, structures, and surface materials are considered as part of the design solution/s. The project is based on one location and involves a specific community group. Project has three stages: analysis of the

community structure and its needs; the settings and its physical potential and constraints; discipline orientated proposals for the community/location improvement.

**Courses:** BN31 **Prerequisites:** PSB431  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB442 PLANT STUDIES (LANDSCAPE ONLY)

This unit has two sections. Plant Ecology includes resources for studying plants (established and personal herbariums, keys, other locally); classification and nomenclature; evolution of the plant kingdom; plant systematics; plant structure; plant anatomy; plant physiology, form and function; requirements for plant growth, plants and habitats; populations; ecosystems; disturbance; weeds; pattern and diversity. Horticulture includes design characteristics and criteria; use of plants as structural and design elements within the landscape; principles of planting design; scale; design for change, growth, replacement, and maintenance; planting design in typical locations such as streets, parks, urban forecourts, interiors, gardens, and foreshores; broad scale regeneration and stabilisation.

**Courses:** BN31 **Prerequisites:** PSB422  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB443 POPULATION AND URBAN STUDIES

This unit includes two sections. Population Studies include demographic concepts and analytical methods; demographic trends in Australian cities and its planning implications; internal migration patterns in Australia; international migration and planning for multi-cultural cities. Urban Studies include urban concepts and theoretical approaches to urban studies; internal structure of cities and urban hierarchy; economic restructuring and employment in cities; small towns in Australia; gentrification; housing supply and demand; residential patterns in Australian cities; urban landscapes and city images; sustainable urban development; urbanisation and housing issues in developing countries.

**Courses:** BN31 **Prerequisites:** PSB434  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB444 LANDSCAPE CONSTRUCTION B (LANDSCAPE ONLY)

The unit comprises three primary components: grading (manipulation of land surfaces); materials and construction elements (development of understanding of the properties and use of common construction materials relevant to landscape construction); introduction to structures (principles of structural mechanics). In all of these components attention is paid to the development of appropriate technical drawing and documentation techniques for the preparation of construction documentation.

**Courses:** BN31 **Prerequisites:** PSB434  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB445 INFRASTRUCTURE PLANNING (URP ONLY)

This unit includes the following: transport studies and the links between land uses and transport, main modes of transport and their requirements and impacts; methods of predicting future transport patterns; traditional and innovative techniques of transportation planning and management; relevant land use planning approaches; the effects of transport decision, policies and implementation on the physical, social and cultural environment; introduction to the basic requirements of human settlements in terms of other 'hard' infrastructure, including planning for community services, water supply, sewerage, electricity, electronic communications and infrastructure financing; introduction to basic human services planning.

**Courses:** BN31 **Prerequisites:** PSB434  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB451 PLANNING/LANDSCAPE DESIGN 5

This unit requires individual work supported by informal workshops. The content is organised within a community and based upon an area, which has a complex array of uses, constraints and opportunities. Following an overview of the given area and a statement of broad directions for improving the quality of the physical and social environments, each student proposes an individual study topic. The topic is then researched and a study area analysis undertaken to develop a brief for development of subsequent proposals. Each student carries through the brief by developing conceptual and detailed proposals for the study topic.

**Courses:** BN31 **Prerequisites:** PSB441  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB452 PROFESSIONAL SKILLS 2

This unit includes the following: the sources and importance of systems of values; appreciation of the diversity of values in modern Australian society; exploration of relevant codes of professional conduct; explorations of value based and ethical implications relevant to topical issues of the day, such as land development, conservation, government policies, changing technology, or cultural diversity; identification of potential sources of conflict in communities and groups; principles of conflict management; conflict management processes and techniques related to relevant aspects of professional activity, including community consultation, working with groups, professional teams and the like; approaches to effective and principled negotiation.

**Courses:** BN31 **Prerequisites:** PSB414  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB453 ELECTIVE 1

Elective units may be offered by the School or through other Faculties within the University. All electives are to be approved by the course coordinators.

**Courses:** BN31 **Prerequisites:** PSB434  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB461 PLANNING/LANDSCAPE DESIGN 6

This unit requires individual work supported by informal workshops. The content is organised within a community and based upon an area, which has a complex array of uses, constraints and opportunities. Following an overview of the given area and a statement of broad directions for improving the quality of the physical and social environments, each student proposes an individual study topic. The topic is then researched and a study area analysis undertaken to develop a brief for development of subsequent proposals. Each student carries through the brief by developing conceptual and detailed proposals for the study topic.

**Courses:** BN31 **Prerequisites:** PSB451  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB462 CONSERVATION AND MANAGEMENT

This composite unit contains two segments: heritage studies (conservation) and land use policies and evaluation (management). The conservation segment deals with the theory and practice behind the conservation of the built and natural environment. It includes an introduction to the Australia ICOMOS Burra Charter, conservation principles and accepted procedures, methods of researching and recording, assessment of cultural and natural significance, and locally applicable protective heritage legislation. The management segment deals with the roles of different levels of government in Australia related to land use policy.

**Courses:** BN31 **Prerequisites:** PSB432  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB463 ELECTIVE 2

Elective units may be offered by the School or through other Faculties within the University. All

electives are to be approved by the course coordinators.

**Courses:** BN31

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB610 GOVERNMENT AND LAW

This includes the study of Australian political institutions and their effect on land development.

**Courses:** PS47, PS48, BN31  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB611 INTRODUCTION TO URBAN AND REGIONAL ECONOMICS

This unit includes the following: microeconomics (global and national macroeconomic forces as they affect firms); a free market and its imperfections; market failure and the concepts of private and public interest, equity and the role of government; land as an economic concept; economic models of urban land use; valuation theory and concepts of land value, tenure, ownership, resumption, compensation, land use controls and zoning; economics of important town planning issues such as housing, infrastructure, and urban finance; economic growth and stability; optimal size and the problem of externalities; methodologies such as regional accounting and cost benefit analysis.

**Courses:** PS47, PS48, BN31  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB612 SPATIAL AND LAND INFORMATION MANAGEMENT

The spatial information science application areas of this unit include application areas, resource management, urban and rural planning, cadastral administration, facilities management. System planning includes system planning overview, functional requirements analysis, system evaluation, and benchmarking. System Implementation includes database creation, implementation issues, and implementation strategies. Other aspects addressed in this unit include standards, legal issues, and knowledge-based techniques.

**Courses:** PS47, PS48 **Prerequisites:** PSB631  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB613 LAND DEVELOPMENT PRINCIPLES AND POLICIES

This unit addresses the principles and policies concerned with sustainability of land development from an economic, ecological and social perspective.

**Courses:** PS47, PS48, BN31  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB614 URBAN AND RURAL DESIGN PRINCIPLES

This unit includes the following: the history of land development, especially urban land development, in Australia and in Queensland; the effects of technology and social attitudes on urban land development; the physical, economic and social determinants of land use; land development as an economic activity; economic and social benefits of land development controls; geometric layout of rural and urban roads for urban subdivisions; site analysis and assessment including traffic planning, storm water and sewerage systems; provision and location of services; controls affecting subdivisions including negotiations, applications, appeals and preparations for Court.

**Courses:** PS47, PS48 **Prerequisites:** PSB613  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB615 URBAN AND RURAL DESIGN PRACTICE

This unit includes further work on conventional and innovative subdivision design, integration of road and lot design with engineering works, especially drainage; subdivision designs and procedures for canal estates, industrial estates, group title, building units and other strata titles; costing and cash flow analysis for subdivision projects; feasibility studies; designing to a budget; preparation of a complete application for a local authority approval.

**Courses:** PS47, PS48 **Prerequisites:** PSB614  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB620 CADASTRAL SURVEYING AND MAPPING

This unit includes Land Title Systems, reinstatement: an explanation of the options of land title systems, with particular reference to customary land tenure, private deeds registration, public deeds registration, and registration of title. It also includes the following: an analysis of reinstatement of property boundaries as applicable to Queensland; undertaking of a field survey to reinstate the boundaries of a section in the Brisbane Metropolitan area; preparation of cadastral and detail survey plans for survey actions; the legal aspects of re-instatement of boundaries; case law associated with re-instatement; statutory requirements which relate to the zoning and development of land.

**Courses:** PS47, PS48  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB621 ADVANCED CADASTRAL SURVEYING

This unit includes the following: property rights as a method of resource control; creating and maintaining knowledge of property rights, including issues concerned with parcel identifiers, land tenure, land boundaries, land subdivision, land registration, changing rights through statutory changes, attitudes and responses of the public; evidence of property rights; evolution from customary land tenures to land registration systems, and factors leading to breakdown of systems; effects of technological change on land use, evolving property rights and obligations, and on information technology on land use controls procedures of the various departments including but not confined to, the Department of Lands, Resources Industries.

**Courses:** PS47, PS48 **Prerequisites:** PSB620  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB630 CARTOGRAPHY AND DIGITAL MAPPING

This unit includes digital data acquisition: types of digitisers and scanners; raster/vector conversions; digitising techniques; scanning problems; output devices; printers, plotters, scanner plotters, image setters. It also includes 3-D representation and precision plotting; conditions for orthogonality, conformality, equivalence and equidistance selection of suitable projection; construction of map projections

**Courses:** PS47, PS48  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB631 GEOGRAPHIC INFORMATION SYSTEMS 1

This unit investigates the basic concepts of geographic information systems. Topics to be covered include components of GIS, spatial databases, data acquisition, reference frameworks, use of photographs and images, spatial analysis and graphic output design issues.

**Courses:** PS47, PS48, PS78, PS79  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB632 PHOTOGRAMMETRY

This unit includes the following: basic elements of the photogrammetric mapping process; planning and execution of the project control for photogrammetry; mathematics for photogrammetry, geometry and use of a stereo model; space resection of a single photograph; aerotriangulation with independent method; block triangulation by bundle method GPS controlled photography; principles of plotting with a stereoplotter; rectification of photographs; acquisition of plan and height points, accuracy assessment; digital mapping and its relationship to Geographic Information Systems and remote sensing.

**Courses:** PS47, PS48  
**Prerequisites:** PSB631, PSB642  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB633 MAP PRODUCTION: PRINCIPLES AND PRACTICE

This unit includes the following: map design and production principles, production practice and publishing; reprographics and printing methods; desktop publishing, colour system for cartographic drawing; colour separation; grid and graticules, design layout; interactive mapping and layers; generalisation and symbolisation.

**Courses:** PS47, PS48 **Prerequisites:** PSB632  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB640 SURVEYING

This unit extends the theory and practice of PSB424 to provide a foundation in field instrumentation and survey computations; framework for acquisition of a high level of knowledge and practical competence in plane survey computations; use of optical and electronic theodolites, EDM and total electronic station systems; focus on collection/presentation of pre-design contour and detail spatial information.

**Courses:** PS47, PS48  
**Prerequisites:** PSB424 (PS47 only)  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB641 ENGINEERING SURVEYING

This unit includes the following: horizontal and vertical alignment for route surveys; areas, volumes and earthworks; surveying measurements and their assessment; propagation of variances; pre-analysis of survey tasks; least squares adjustment methods for various functional and stochastic models.

**Courses:** PS47, PS48 **Prerequisites:** PSB640  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB642 CONTROL SURVEYING AND ANALYSIS

This unit includes the following: reconnaissance for geodetic surveys (formulate mathematical models for the solution of linear and non-linear positioning in one, two and three dimensions); geodetic observations techniques and reduction of observations; the three classical methods of geodetic surveying, triangulation, trilateration and traversing; precise levelling including instrument testing; properties of the meridian ellipse; radii of curvature, meridian arc; spheroid as a geodetic reference surface, latitude, longitude, geoid separation and ellipsoidal height; mutual conversion of geodetic and Cartesian coordinates.

**Courses:** PS47, PS48  
**Prerequisites:** PSB641, MAB730  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB643 GEODESY

This unit includes the following theory: concept and classification of geodesy, the basic concepts of the earth's gravity field; level surfaces and plumb lines heights, geoid, mean sea level, spherical harmonics etc; fundamentals of satellite geodesy; reference coordinate systems. It considers GPS positioning models and algorithms; software; GPS field observing; various GPS applications in geomatics; mapping terms and definitions; the mapping problem; principles for deriving projections; the use of skew graticules; the UTM system

**Courses:** PS47, PS48 **Prerequisites:** PSB642  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB644 ADVANCED GEODESY

This unit includes the following theory: GPS operation and navigation messages; GPS observable and error budget; differencing techniques; GPS positioning models and algorithms; software; GPS field observing; static, kinematic, RTK and various GPS applications in geomatics. It includes practicals on GPS Network

**Courses:** PS47, PS48 **Prerequisites:** PSB643  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB645 SURVEYING AND MAPPING PRACTICE

This unit includes the following: field surveys for DTMs as-constructed surveys, associated speci-

cations and standards; mining surveying for surface and below surface mining activities; hydrographic surveying for exploration and port management.

**Courses:** PS47, PS48 **Prerequisites:** PSB642  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB650 PROJECT 1

(1) Students study an existing approved unit from within the School, Faculty or University. Students study the chosen unit under the above elective code. Or (2) Students study a special topic of interest such as a series of lectures delivered by a specialist in that field, in which case a unit outline will be prepared and issued before the commencement of that unit. Students study under the above elective code. Or (3) In the case of an approved stream of study, students may be allowed to enrol in the code of the unit being taken.

**Courses:** PS47, PS48 **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB651 PROJECT 2

(1) Students study an existing approved unit from within the School, Faculty or University. Students study the chosen unit under the above elective code. Or (2) Students study a special topic of interest such as a series of lectures delivered by a specialist in that field, in which case a unit outline will be prepared and issued before the commencement of that unit. Students study under the above elective code. Or (3) In the case of an approved stream of study, students may be allowed to enrol in the code of the unit being taken.

**Courses:** PS47, PS48 **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB652 TOPICS IN LAND ADMINISTRATION

Students study topics in land administration delivered by a specialist in that field. A unit outline will be prepared and issued before the commencement of that unit.

**Courses:** PS47, PS48  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB653 TOPICS IN SURVEYING ENGINEERING

Students study a special topic in Surveying Engineering delivered by a specialist in that field.

**Courses:** PS47, PS48  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

#### ► PSB654 TOPICS IN SPATIAL INFORMATION SCIENCE

Students study Spatial Information Science through a series of lectures delivered by a specialist in that field.

**Courses:** PS47, PS48, PS78, PS79  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSB655 REMOTE SENSING

This unit includes the following: history and principals of remote sensing; types of imagery, image interpretation, satellite systems; supervised and unsupervised image classification; interpretation, analysis and presentation of data; applications in the earth sciences.

**Courses:** PS47, PS48, PS78  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

#### ► PSN211 RESEARCH PROJECT 1

In this unit students understand and demonstrate relevant research skills and their effective application in a project of genuine substance and significance. Each student undertakes a research project in one of the elected specialisations: Landscape design, planning, theory, practice, management. Each student is assigned to a supervisor approved by the Course Coordinator. Supervisors provide guidance on the selection of topic, investigation and research, and preparation of the proposals and submission. Research Project 1 incorporates advanced Information Retrieval Skills. The output is a proposal for the specific Research Project which outlines the relevant base theory, and clearly communicates the potential extent of the Research Project.

**Courses:** BN73, DB69, DB73, PS71  
**Contact hours:** 3 per week **Credit points:** 12

**Campus:** GP**Sem:** 1, 2**► PSN212 RESEARCH PROJECT 2**

This unit ensures the understanding and demonstration of relevant research skills and their effective application in a project of genuine substance and significance. Each student undertakes a Research Project in one of the elected specialisations: Landscape Design, Landscape Planning, Landscape Theory, Landscape Practice, Landscape Management. Each student is assigned to a supervisor approved by the Course Coordinator. In general, the supervisor provides guidance on the selection of topic, investigation and research, and preparation of the proposals and submission. Research Project 2 requires the completion, communication and presentation of the research project to professional standard.

**Courses:** BN73, PS71, DB73**Prerequisites:** PSN211**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PSN213 SPECIALISATION**

This unit ensures personalised study which will support the student's elected specialisation and contribute directly to the better understanding of the Research Project topic. Students undertake study to develop specialised knowledge and skills related to the specific specialisation and supporting the direction of the proposed research project topic. Study may be taken from specific programs offered by the school, or from advanced units within the university or, where appropriate, through another university or through specialist studies offered by staff in their areas of expertise and approved by the Head of School on the recommendation of the student's supervisor.

**Courses:** PS71,**Prerequisites:** Completion of any prescribed qualifying units.**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PSN214 ELECTIVE**

This unit allows the development of depth in understanding of issues related to the elected specialisation. The school may offer specific programs in areas of specialisation or students elect unit/s from within the university or, where appropriate, from other universities and approved by the Head of School on the recommendation of the student's supervisor that will give breadth and/or depth within the student's specialisation.

**Courses:** PS69, PS70, PS71**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PSN221 ADVANCED SPECIALISATION**

The student develops further the approved specialised topic. Students may apply for approval for a specific Advanced Specialisation utilising unit offered elsewhere in QUT or at another tertiary institution which must, for approval, be an extension of the specialisation studied in PSP510 Specialisation in an earlier semester. The Advanced Specialisation is normally linked to the PSN212 Research Project II. Areas of specialisation are regional and local development, urban housing and community development, urban design, environmental and resource planning or a special topic.

**Courses:** PS70**Contact hours:** 3 per week **Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PSP261 LANDSCAPE CONSTRUCTION 1**

This unit includes the following: introduction to basic equipment for site measurement recording of field data and the preparation of measured site drawings from recorded data; definition of terms; structural units and types of structures; loadings and types (including wind loading); manual techniques of land surface manipulation; development of understanding of the properties of common construction materials; built elements and their application in landscape construction; appropriate techniques for preparation of construction documents; costing of development types.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1**► PSP262 COMMUNICATION AND PRACTICE 1**

This unit addresses the concept of professionalism and contemporary social expectation of the profession: time and percentage measurement and costing related to the professional services of promotion, obtaining commissions, allocating time and resources to project, the use of consultants, and units of management; a review of the Australian and Queensland Acts, Local Authority By-laws, and regulations of statutory authorities as they affect the profession; legal aspects of land and land transfer; planning, land use, and construction regulations; an overview of environmental law; formal writing and oral communication techniques and visual communication.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1**► PSP263 LANDSCAPE ECOLOGY**

This unit includes the following: structural relationships of spatial elements within land mosaics from continental to landscape scales as interpreted using maps, air photography and remotely sensed images; dynamic process, both natural and human; fundamental principles of plant anatomy and physiology, plant identification, plant growth and development, sexual and vegetative propagation; dynamics of individual organisms, populations, communities, functional groups, ecosystems and biomes.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1**► PSP264 SPATIAL DESIGN THEORY**

This unit includes the following: theories, values, rationales, and philosophies of place; design processes and dimensions; imageability and liveability factors; the role of context (natural, social, aesthetic) in site and urban development; exploration of open space and place theory at regional to local scales; theories of user/place relationships and the study of human functioning in environments; concepts of culturally and physically inclusive livespace and behaviour settings; techniques for the assessment or evaluation of the environment including observational techniques and the application of these ideas through the use of case studies, exercises, and personal experience in daily life.

**Courses:** PS66, PS71, PS75 **Credit points:** 12**Campus:** GP **Sem:** 1**► PSP265 LANDSCAPE CONSTRUCTION 2**

This unit includes the following: introduction to basic equipment for site measurement; recording of field data and the preparation of measured site drawings from recorded data; definition of terms; structural units and types of structures; loadings and types (including wind loading); manual techniques of land surface manipulation; development of understanding of the properties of common construction materials and built elements and their application in landscape construction; appropriate techniques for preparation of construction documents; costing of broad development types.

**Courses:** PS66, PS71 **Credit points:** 12**Campus:** GP **Sem:** 1**► PSP266 COMMUNICATION AND PRACTICE 2**

This unit includes the following: introduction to basic equipment for site measurement; recording of field data and the preparation of measured site drawings from recorded data; definition of terms; structural units and types of structures; loadings and types (including wind loading); manual techniques of land surface manipulation; development of understanding of the properties of common construction materials and built elements and their application in landscape construction; appropriate techniques for preparation of construction documents; costing of broad development types.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PSP268 SITE PLANNING**

This unit includes the following theory: introduction to the processes of site planning and detailed site design; role and objectives of survey and analysis phases; types of information required and the methods of processing the resultant data;

data analysis, its scope and documentation. It also includes the use of data analysis to generate and evaluate possible problem solutions in conceptual form as a basis for strategic and master planning and the value of these processes as a long term mechanism for adaptation of master planning to meet changing needs. It involves the application of site planning principles and theory for different scales and types of projects.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1, 2**► PSP269 ADVANCED CONSTRUCTION AND PRACTICE 1**

This unit includes the following: the theory and techniques involved in a large range of landscape construction; the types of documentation used for the implementation of landscape works; computer aided drafting systems; principles of contract law, forms and requirements of contracts; principles of marketing, client analysis and promotion.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1**► PSP270 ELECTIVE**

The profession of landscape architecture is increasingly characterised by the breadth of activities in which its practitioners engage. Therefore, there is a need to provide mechanisms within the course for some specialisation in particular directions in addition to ensuring the acquisition of core competencies required for professional accreditation. This unit is intended to provide that flexibility. A number of cross disciplinary specialisations are offered such as social and environment planning, contemporary art issues and virtual environments.

**Courses:** PS66, PS71, PS77**Campus:** GP **Sem:** 1**► PSP271 ADVANCED LANDSCAPE DESIGN 1**

This unit addresses contemporary theories of urban design as they affect the range of urban landscapes from residential to inner city and emerging theories and concepts of regional and local economic development as they relate to sustainable landscapes in terms of living and working environments. It involves the application of theoretical frameworks to the studio project that explores design or re-design of selected aspects of the urban environment, residential environments and broader urban issues of the contemporary urban context. Expectations of an advanced level of professional presentation will attach to the project output.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 1**► PSP272 ADVANCED CONSTRUCTION AND PRACTICE 2**

This unit includes the following: the theory and techniques involved in the wide range of landscape construction; the types of documentation used for the implementation of landscape works; computer aided drafting systems; the principles of contract law, forms and requirements of contracts; the principles of marketing, client analysis and promotion.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 2**► PSP273 LANDSCAPE PLANNING**

This unit includes the theoretical framework of landscape planning: relevant theories, methods, and techniques for application in the landscape planning process. It also includes computer modelling: types of GIS; potentials and problems, and current issues and advanced landscape ecology; structure of landscapes; impacts of human settlement. Studies include medium to large scale projects involving a range of biophysical, cultural, and visual issues with a relatively high degree of complexity. The focus is on assessment and evaluation of related landscape attributes and issues with emphasis on deriving landscape management options in the form of environmental plans, policies, guidelines, and implementation strategies.

**Courses:** PS66, PS71**Credit points:** 12**Campus:** GP **Sem:** 2

**► PSP274 ADVANCED LANDSCAPE DESIGN 2**

This unit considers cultural values and provides the theoretical background to an understanding of how cultural values influence place making through interpretations of place and the cultural landscape. Advanced Landscape Design 2 is the last design unit in the course. The studio project focus of this unit provides the opportunity to develop a graduating landscape design project of the highest standard. The project explores broad scale landscape design and strategic planning and planning guidelines as well as detailed design at a fine scale.

**Courses:** PS66, PS71 **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP275 INTRODUCTORY DESIGN AND GRAPHICS**

The modules in this unit introduce a basic understanding of design and perception theory, free-hand and technical graphics necessary for meaningful participation in professional core studies. By the end of this unit students are expected to understand basic concepts of perception and basic design techniques and theories, and to develop a design appreciation, design awareness, and a design vocabulary. They should also develop an initial proficiency in freehand and technical drawing an understanding of basic drawing conventions and processes, and adequate basic skills to generate confidence for individual progress with style and technique in later study.

**Courses:** BN73, DB69, DB73, PS69, PS69, PS71, PS75, PS76, PS77  
**Credit points:** 12  
**Campus:** GP **Sem:** 3

**► PSP311 PROFESSIONAL PRACTICE MANAGEMENT**

This unit includes business communication including letters, report writing, correspondence and administration for surveying projects; oral communication involving interviews, meetings, workshops and seminar presentations; office management, business operations and finance; small business and the law including trade practice, contract, taxation, employment and workplace and safety legislation; professional ethics; professional bodies; the Surveyors Act and Regulations; disciplinary procedures; relationships, clients and marketing; survey integration and aspects of change in the practice of surveying.

**Courses:** PS68, PS73, PS74  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PSP314 BOUNDARY DEFINITION SURVEYS 1**

This unit includes the following: land registration requirements; Cadastral history, field procedures and records; reinstatement theory and practice related to urban and rural boundaries; field survey work involving the redefinition of urban and rural boundaries; office reinstatement exercises of increasing complexity to develop the necessary skills in assessing various types of survey problems. The unit requires office completion of project work including plan preparation using appropriate computer technology.

**Courses:** PS68  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PSP316 SURVEY COMPUTING AND PROCESSING**

Students completing this unit should understand and be able to use the following: the DOS operating system and computer programming; word processing; project management, spreadsheets; programmable calculators for field use; surveying and drafting packages; management and technical applications.

**Courses:** PS68, PS73, PS74  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PSP317 PROPERTY DEVELOPMENT SURVEYS**

This unit offers an examination of the legislation involved with property development surveys. It involves detailed consideration of urban and rural subdivision design and requirements, procedures involved with rezoning and subdivision applica-

tions, detailed consideration of building units and group titles developments, and considerations of multiple use development.

**Courses:** PS68 **Credit points:** 12  
**Contact hours:** 42 **Sem:** 1  
**Campus:** GP

**► PSP323 PROJECT SITE SURVEYS**

This unit includes the following: detail surveying (methods, equipment, data requirements and data transfer); preparation of specifications and estimates of costs; detail survey field project work; processing of field data, report and plan presentation; types of construction and building control surveys and preparation of plans and specifications; inspection of building construction sites; receipt of instructions, documentation and communication with contractors; field procedures including high precision survey and error adjustment techniques involved with construction and building control surveys and construction site set out calculations.

**Courses:** PS68, PS73, PS74  
**Contact hours:** 42 total **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP326 GIS AND GPS**

This unit includes project work involving the total assessment, planning, costing and preparation of specifications for a comprehensive mapping task. It includes consideration to GPS theory and practical application of the methods to conventional surveying, and consideration of LIS/GIS Technology and its practical application in conventional surveying practice.

**Courses:** PS68, PS73, PS74  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP327 ENGINEERING SURVEYING**

This unit includes the assessment of available technology, configuration of measuring systems and recording of data; project definition and preparation of specifications including field methodology, documentation requirements of field records and determination and assessment of results; management of engineering survey projects including determination of costing, preparation of submissions, working with other professionals and dealing with on-site variations; consideration of specific requirements related to long-line survey control, road surveys, flood surveys, curves and batter staking and other marking for construction and road design.

**Courses:** PS68  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP328 BOUNDARY DEFINITION SURVEYS 2**

Reinstatement exercises in this unit become increasingly more complex and difficult. Field survey project work associated with difficult boundary definition and field survey project work associated with boundary definition for easement surveys and mining lease surveys is included.

**Courses:** PS68  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP329 URBAN DRAINAGE FOR SURVEYORS**

This unit allows the student to define problems and identify, evaluate, select and apply drainage problem solving skills and techniques in the design and management of an urban subdivision. The unit includes a revision of hydrostatics and flow concepts, rainfall and run-off concepts, urban and street drainage design, and the preparation of a drainage design and specifications for a small (eg 20 Lot) urban subdivision.

**Courses:** PS68  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PSP330 PROFESSIONAL PRACTICE MANAGEMENT 2**

This unit allows the student to apply principles involved in the running of a surveying practice such as project management, self-management and quality assurance. It includes planning and organisation, business practices, human resource management, subordinate training, project man-

agement and self-management principles, quality assurance principles, project implementation.

**Courses:** PS68 **Prerequisites:** PSP311  
**Contact hours:** 42 **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP451 PRODUCTION AND USE OF THE BUILT ENVIRONMENT**

This unit investigates the roles and combined effects of the initiators of the built environment, in the public, private and community sectors. The aim of the unit is to provide a synthesised understanding of how the city is created by the priorities and approaches of a variety of professionals, political decision-makers and informal participants. The property, finance and construction industries, the legal and administrative system, the roles and cultures of key professions (including property management, valuing, business, engineering, surveying, planning, architecture, landscape architecture). Urban design techniques such as charrettes and action planning workshops are included.

**Courses:** BN73, PS69, DB73, DB69  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 2

**► PSP452 URBAN DESIGN STUDIO A**

This unit includes the analysis of urban issues in a particular area, and the formulation of appropriate urban design proposals. Issues may include obsolescence, sense of place, conservation, infill, and the dynamism of local, regional, national and global contexts. Methods of urban design guidance, development briefing, and control through regulations and incentives are investigated and skills in urban analysis related to the urban design process and effective communication of the results are developed. Where applicable, the unit incorporates field work, work in other units of the course, and joint or complementary projects with other courses in the Faculty.

**Courses:** BN73, PS69, DB73, DB69  
**Contact hours:** 6 per week **Credit points:** 24  
**Campus:** GP **Sem:** 2

**► PSP453 URBAN SYSTEMS AND THE PHYSICAL ENVIRONMENT**

This unit includes the following: the relationship between the urban system and the physical environment; urban services including water, sewerage, drainage, power, telecommunications, transport; controlling authorities, service delivery bodies, planning requirements and controls relevant to urban design; community services relevant to health, safety and welfare; urban design issues relating to pollution, congestion and mobility. This unit draws, in part, on PSP504 Urban Systems and Infrastructure (GDURP program).

**Courses:** BN73, PS69, DB73, DB69  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1

**► PSP510 SPECIALISATION**

The student undertakes a supervised program of study in an approved selected field. The student may choose from a limited list of approved fields, depending on staff expertise and availability. Students may apply for approval for a specific specialisation utilising units offered elsewhere in QUT or at another tertiary institution which must, for approval, also lead on to an Advanced Specialisation if they are enrolled in PS70. Students normally choose a specialisation which relates to their intended research project. Areas of specialisation are regional and local development, urban housing and community development, urban design, environmental and resource planning, or a special topic.

**Courses:** BN73, PS70, PS72  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** GP **Sem:** 1, 2

**► PUB104 INTRODUCTION TO HEALTH SERVICES MANAGEMENT**

This is an important unit for students entering or planning to enter the health industry as it is designed to give a broad overview of systems of health care in Australia and their methods of operation. This unit introduces the role of health service managers as members of the health care team, the basic principles of health service management in health care facilities and beyond, and the functions of health service managers.

**Courses:** HL46, IF47, PU40, PU43, NS45  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

#### ► PUB105 INTRODUCTION TO FAMILY STUDIES

This introduction to the social sciences (Sociology, Psychology and Anthropology) underpins the study of the family, and their relationship to the wellbeing of individuals and families.

**Courses:** ED50, ED90  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB107 SUSTAINABLE ENVIRONMENTS FOR HEALTH

The practice of environmental health has always been concerned with the study of the human environment interface and in particular the quest for developing sustainable environments for health. This unit outlines what environmental health is and describes the major issues impacting on a sustainable future. Topics include the National Environmental Health Strategy, ecology and ecosystems, sustainable development, air pollution, food safety, water and sanitation, waste and contaminated land, Indigenous health, built environment, risk assessment and global environmental health issues.

**Courses:** ED50, ED90, HL46, IF47, IF87, PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB108 INFORMATION MANAGEMENT FOR HEALTH

This unit gives an introductory overall view of the field of health information and its management. As well as being of general interest to health professionals, the unit provides a context for the study of contemporary health information and data management practice. The use of information as a strategic, organisational and management resource is highlighted, and a broad appreciation of information and data management procedures and philosophy are provided. Demands on health information managers occasioned by advances in information technology are highlighted.

**Courses:** PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB113 DESIGN AND TECHNOLOGY

Technology and design are an integral part of the practice of Home Economics, facilitating effective responses to challenges in the contexts of food, locales and living environments. Personal understanding of and experience with design, creativity, research and innovation are needed to participate productively and sensitively within local and global communities.

**Courses:** ED50, ED90  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB118 COMPUTER SYSTEMS FOR HEALTH MANAGEMENT

The technology infrastructure is impacting on the business of delivering health care services. An understanding of information concepts and frameworks for assessing computers and information systems assists the student to realise the potential for using technology to more effectively manage information as a resource. This unit aims to provide an introduction to systems analysis and development. It explores the various technology platforms available (including telecommunications, and the Internet) and develops data organisation and management skills relevant to systems within the health industry context.

**Courses:** PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB180 FOUNDATIONS OF PARAMEDIC PRACTICE 1

This unit is an introduction to ambulance practice and the role of paramedics within the health care spectrum. It prepares students for the first clinical practice unit. Topics include the following: the history, evolution, culture and development of ambulance services on a national and international level; the structure, function, policies and procedures of the Queensland Ambulance Ser-

vice; the role of the ambulance service in a multidisciplinary and integrated approach to health care; the relationship between field care and in-hospital definitive care; and basic ambulance care including initial assessment, planning and implementing basic procedures, and equipment. The unit includes a structured observer program.

**Courses:** PU46 **Credit points:** 12  
**Campus offered:** KG **Sem:** 1

#### ► PUB201 FOOD AND NUTRITION

This unit includes the following: introduction to the history of food and nutrition in Australia; the food system, the food supply; proteins, carbohydrates, fats, vitamins and minerals; food grouping systems; dietary guidelines; the recommended dietary intakes; nutrition through the life cycle; food and nutrition problems; nutrition as a public health issue; international nutrition issues.

**Courses:** ED50, ED90, HL42, HL46, PU40, PU43  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► PUB203 PRIMARY HEALTH CARE

This unit introduces students to the principles, strategies and practice of primary health care with special reference to community, family and workplace settings. The importance of health promotion, prevention, empowerment and intersectoral collaboration in primary health care is examined.

**Courses:** NA80, PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 2

#### ► PUB209 HEALTH, CULTURE AND SOCIETY

This unit is concerned with the social and cultural dimensions of health and illness and how they relate to health status and patterns of behaviour. The unit introduces students to thinking about health from sociological and anthropological perspectives, drawing on relevant concepts and theory to examine selected public health issues. Identifying and addressing social and cultural factors that shape people's health experiences of health, illness and health systems are integral parts of public health practice in terms of reducing health inequalities, delivering appropriate services, and ultimately improving population health outcomes.

**Courses:** ED50, ED90, HL46, IF47, PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB220 MEDICAL TERMINOLOGY

This unit explores the language of medicine and analyses medical terms into Latin and Greek word roots, prefixes, suffixes and combining forms. Medical terms which relate to specific body systems are defined, spelled and pronounced accurately. Common abbreviations and symbols used in medicine are identified. Abstracts from patient records are explained and interpreted in non-technical language.

**Courses:** IF85, PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB251 CONTEMPORARY PUBLIC HEALTH

This unit provides an introduction to the philosophy and approach of public health; the traditional public health process; the multidisciplinary nature of public health; health policy and its impact on public health; some recent reformulations of traditional public health approaches including health promotion and intersectional action for health and healthy public policy. The role of public health in Australia and overseas, its main discipline components and some of the constraints faced by public health is addressed. The unit also deals with groups with special needs and contemporary issues.

**Courses:** ED50, ED90, HL42, HL43, HL46, IF47, IF85, NA80, NS45, PU40, PU43, BO-ralHlth  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1, 2

#### ► PUB270 PARAMEDIC CLINICAL PRACTICE 1

This unit is the first in a series of supervised clinical practice units. Topics include the following: assessing, diagnosing, planning, implementing and evaluating patient care in the out of hospital phase; effective scene management including logistics, safe access and egress, and patient extrication techniques; written and oral communication including patient interviews, radio procedures, writing ambulance report forms and patient handover at hospital. The placement is six weeks and provides a transition from observer to operational ambulance crew member under the supervision of a qualified paramedic mentor.

**Courses:** PU46  
**Prerequisites:** LSB282, PUB280, PYB111, QAS emergency driver education, health related fitness assessment

**Credit points:** 12 **Sem:** 3

#### ► PUB280 FOUNDATIONS OF PARAMEDIC PRACTICE 2

This unit follows on from PUB180 and further develops core clinical skills and expertise in the use of ambulance equipment. Topics covered include the following: monitoring basic patient care and modifying as required; handing over a patient requiring basic ambulance care; the use of ambulance equipment including ambulance vehicles and patient care equipment; health and safety legislation, policies and procedures; and the attributes of a paramedic eg compassion, accountability, respect, ethical practice, responsibility and sensitivity. The unit includes a structured observer program for students.

**Courses:** PU46 **Prerequisites:** PUB180  
**Campus offered:** KG **Sem:** 2

#### ► PUB308 ENVIRONMENTAL HEALTH FUNDAMENTALS

This unit builds upon introductory studies in environmental health and the physical sciences by applying their principles to the prevention of disease and the protection and maintenance of public health and safety. This 'theory to practice' is applied in the specific environmental health practice areas of water treatment, sewage management, dangerous goods management, and construction.

**Courses:** IF87, PU40  
**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** CNB171 and PUB403  
**Campus:** KG **Sem:** 1

#### ► PUB312 HOME ECONOMICS CURRICULUM STUDIES 1

This unit provides students with a range of understandings and processes for analysing, interpreting and managing home economics classrooms in order to maximise learning. Long and short term planning is explored with an emphasis on planning, implementing and evaluating lessons using a variety of strategies, resources and techniques. The nature of home economics and how this is manifested in curriculum documents are examined.

**Courses:** ED50  
**Prerequisites:** 48 credit points in relevant discipline area  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB321 TEXTILE STUDIES

In this unit, scientific understandings, social issues, production techniques and the aesthetic aspects of textiles are explored. These are applied to individual textile projects.

**Courses:** ED50, ED90  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB322 HOME ECONOMICS CURRICULUM STUDIES 2

This unit encourages students to make independent judgements about home economics curriculum decision-making, within syllabus guidelines and broader systems policies concomitant with national and international trends in education and society. Students are given the opportunity to explore current issues and emerging and future trends in home economics and to develop a confident approach to school-based curriculum de-

velopment. Advanced teaching strategies and current assessment procedures are developed.

**Courses:** ED50 **Prerequisites:** PUB312  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB326 EPIDEMIOLOGY

Epidemiology is the core scientific method of public health. It is the study of the distribution of health and disease in the population and includes research into causes of disease and the effectiveness of public health programs. Epidemiological methods are used to generate the evidence-base for clinicians, health promotion specialists, health educators, occupational and environmental health officers and health service managers.

**Courses:** PU40, PU43, HL42, HL43, HL46, IF47, IF85, IF87, NS45  
**Prerequisites:** PUB251  
**Contact hours:** 3 per week  
**Credit points:** 12 **Incompatible with:** PUB314  
**Campus:** KG, EXT **Sem:** 1

#### ► PUB329 FOUNDATIONS OF HEALTH STUDIES AND HEALTH BEHAVIOUR

The foundations of the discipline of health education, its theoretical framework and concepts of models of health, health education and health promotion are examined. Theories of change are analysed in their application to health education and health promotion practice for a range of professionals, including teachers.

**Courses:** ED50, ED90, HL46, PU40, BOralHlth  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB336 WOMEN'S HEALTH

This unit explores the data and current health issues related to women's health and critically evaluates health-related policies, systems and practices in terms of their impact on women's health, internationally and in Australia. The social, economic, cultural and political influences on women's health, and the specific needs of sub-populations of women are examined.

**Courses:** ED50, PU40  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB339 PODIATRIC MEDICINE 1

This unit provides an introduction to clinical, theoretical and professional aspects of podiatry practice. Students entering the unit begin the transition to the unique and challenging role of clinician, as well as continuing academic learning. Students are required to apply previous background knowledge, ie advanced anatomy, biochemistry, etc, in the clinical setting. Student are also involved in the care of patients attending the University Clinic. The unit is particularly designed to encourage the development of essential graduate skills such as a self-directed approach to learning, the ability to work as part of a team and the ability to engage in peer review.

**Courses:** PU43, HL43  
**Prerequisites:** LSB235, LSB475  
**Contact hours:** 16 (including clinic work)  
**Credit points:** 12 **Incompatible with:** PUB324  
**Campus:** KG **Sem:** 1

#### ► PUB341 NUTRITION EDUCATION

This unit explores the history and philosophy of nutrition education as well as its theoretical basis. Students develop skills in the development, implementation and evaluation of nutrition education programs for particular target groups. They are introduced to a range of nutrition education programs currently underway as well as policy underpinning these. There is an opportunity to develop a real world example.

**Courses:** ED50, PU40, PU43  
**Prerequisites:** PUB201  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB343 HOME ECONOMICS CURRICULUM STUDIES 1

This unit explores the nature of Home Economics, its contribution to the broader goals of schooling and the unique features that characterise Home Economics teaching and learning. It links discipline studies, curriculum studies, and field experiences.

**Courses:** ED90

**Prerequisites:** 36 credit points Home Economics Discipline Studies

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB355 HOSPITALITY STUDIES

The use of relevant management principles, safe and hygienic work practices, effective communication skills, the mastery of techniques in food production and presentation associated with vocational education and industry are explored in this unit.

**Courses:** ED50, ED90  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB356 CLINICAL CLASSIFICATION

This unit introduces the development of skills in one of the major specialties of health information management: clinical classification of diseases and procedures using the International Classification of Diseases, 10th Revision, Australian Modification (ICD-10-AM). Clinical classification responds to internal and external demands for medical information, for example, in-house research and education, ABS, hospital morbidity data collections, and casemix information systems.

**Courses:** IF85, PU40  
**Prerequisites:** PUB220, LSB142, LSB361 or LSB475

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB361 TEXTILES 2

An understanding of textile consumer issues is developed by studying theoretical and scientific explorations, production practices and creative processes in relation to critiquing and designing textile articles.

**Courses:** ED50, ED90 **Prerequisites:** PUB321  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB380 CASEMIX MANAGEMENT

Casemix is used to describe and analyse the activity and outputs of health care services and provides an important source of information for decision-making by a range of health care professionals. This unit provides an overview of the history and development of casemix classification systems; the structure of DRGs; casemix applications in quality improvement, utilisation review, costing, planning and management; casemix and funding health care services; casemix classification systems for acute inpatients; data quality issues; casemix grouping software, current initiatives and applications.

**Courses:** IF47, IF85, NS45, PU40  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB390 PARAMEDIC MANAGEMENT OF MEDICAL AND SURGICAL EMERGENCIES A

This unit covers some of the most common medical and surgical emergencies seen in ambulance practice. Topics include the epidemiology, prevention, integrated and definitive care, pathophysiology, assessment, clinical management and rehabilitation of patients suffering cardiovascular, respiratory and neurological disease. Theory is presented on campus and experience is gained in a hospital environment under the supervision of clinical educators.

**Courses:** PU46  
**Prerequisites:** LSB282, PUB280  
**Corequisites:** LSB382  
**Credit points:** 12 **Campus offered:** KG

#### ► PUB391 PARAMEDIC MANAGEMENT OF MEDICAL AND SURGICAL EMERGENCIES B

This unit covers some of the most common medical and surgical emergencies seen in ambulance practice. Topics include the epidemiology, prevention, integrated and definitive care, pathophysiology, assessment and clinical management of patients suffering genitourinary, metabolic, endocrine and gastrointestinal disease. Theory is supplemented by simulation and scenario based activities under the supervision of clinical educators.

**Courses:** PU46

**Prerequisites:** LSB282, PUB280

**Corequisites:** LSB382

**Credit points:** 12 **Campus offered:** KG

#### ► PUB398 HEALTH INFORMATION SERVICES

This unit aims to provide students with an understanding of the potential brokerage of health information services their expertise may provide. In addition to coverage of hospital-based information services, other processes and systems such as health terminologies and classifications, statistical reporting to health authorities, form design and management and information management in other settings (eg primary care, subacute and non-acute) provide exposure to a broad range of applications supported by health information services.

**Courses:** PU40, IF85  
**Prerequisites:** Completed 96 credit points and background knowledge of the health care system  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

#### ► PUB405 NUTRITION SCIENCE

Nutrition Science examines a range of nutrient components in our food supply, including the biochemical pathways and physiological effects in the body, possible health implications of deficiency or toxicity and important dietary sources. It integrates nutritional knowledge with the science of biochemistry and clinical physiology and provides the foundation on which further studies in nutrition can be built.

**Courses:** HL42, PU40, PU43  
**Prerequisites:** LSB308, PUB201  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB406 HEALTH PROMOTION STRATEGIES

This unit ties together the fundamental health promotion knowledge and constructs covered in earlier units in the Public Health subject area. It builds upon this basis to introduce students to the range of strategies available to a health promotion practitioner. The unit promotes an appreciation of the strengths and weaknesses of different approaches, as well as related administrative factors. Students undertake a small health promotion project in groups of 3-4 students. This is an essential field of study for students who wish to work in a health promotion or related field.

**Courses:** HL46, PU40 **Prerequisites:** PUB251  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

#### ► PUB416 RESEARCH METHODS

An understanding of research methods is essential in the training of all Public Health professionals. This unit explores quantitative methods in a variety of health research projects, examining conceptualisation of research questions and hypotheses, core elements of experimental and quasi-experimental designs, and various approaches to the collection, management and analysis of quantitative data. The unit has a practical focus for students who are considering conducting research as well as those interested in deeper appreciation of implementation behind published research results.

**Courses:** HL46, IF87, PU40, PU43  
**Prerequisites:** PUB314 or PUB326  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

#### ► PUB437 PHARMACOLOGY

This unit is designed to ensure students understand the basic drug therapies their patients may be using, the groups of drugs used for specific diseases, and their application and relevance to podiatry. Emphasis is placed on drug groups and their use for specific disease, rather than proprietary brands. Students learn to recognise the drug groups and know the system they are acting on in the body. In addition, differentiation between the different categories within one group of systemic drugs and why they are used for a condition is emphasised, along with discussion of contraindications and drug interactions.

**Courses:** PU43, HL43  
**Prerequisites:** LSB275, LSB451, LSB475  
**Corequisites:** PUB438  
**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PUB525**Campus:** KG**Sem:** 2**► PUB438 MEDICINE**

Following completion of this unit, students should be able to recognise and understand the clinical features, pathogenesis and significance of common conditions affecting the lower limbs. For example oedema, obesity, motor, sensory and trophic disturbances and their resultant effects in paralysis, ataxia, deformity and ulceration, intermittent claudication, vascular spasm and cramp are taught so as to emphasise their significance. Medical conditions with manifestations in the feet are given particular attention.

**Courses:** PU43, HL43**Prerequisites:** LSB451, LSB475**Corequisites:** PUB437**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** PUB523**Campus:** KG**Sem:** 2**► PUB439 PODIATRIC MEDICINE 2**

Following completion of this unit, students should be able to recognise and understand the clinical features, pathogenesis and significance of common conditions affecting the lower limbs. For example oedema, obesity, motor, sensory and trophic disturbances and their resultant effects in paralysis, ataxia, deformity and ulceration, intermittent claudication, vascular spasm and cramp are taught so as to emphasise their significance. Medical conditions with manifestations in the feet are given particular attention.

**Courses:** PU43, HL43 **Prerequisites:** PUB339**Corequisites:** PUB437, PUB438**Contact hours:** 15 (includes clinic work)**Credit points:** 12 **Incompatible with:** PUB424**Campus:** KG**Sem:** 2**► PUB450 PARAMEDIC MANAGEMENT OF TRAUMA EMERGENCIES**

This unit covers some of the most common traumatic emergencies that a paramedic attends in ambulance practice. Topics include the epidemiology of trauma, the controversies of trauma management, neurotrauma, spinal cord injury, chest and abdominal trauma, pelvic and limb trauma, trauma in the elderly, wound ballistics, and shock and fluid resuscitation. Theory is supplemented by simulation and scenario-based activities while supervised by clinical educators.

**Courses:** PU46**Prerequisites:** LSB382, PUB280**Credit points:** 12 **Campus offered:** KG**► PUB461 QUALITATIVE INQUIRY IN PUBLIC HEALTH**

Qualitative methods are essential to generate knowledge of people's lived experiences, the meanings they ascribe to them, and to the social dimension of health. The nature and complexities of many public health problems require a mix of research methods and the contributions of qualitative inquiry are increasingly recognised. The practical skills acquired in this unit can be applied to a range of public health works, including community-based program evaluation, international health, and health social science research.

**Courses:** PU40**Prerequisites:** PUB326**Contact hours:** 3 per week **Credit points:** 12**Campus:** KG**Sem:** 2**► PUB474 FOOD STUDIES**

To fulfil their needs as future professionals working in food and nutrition related areas, students explore the nature of foods and their constituents, studying the underlying scientific principles related to the manufacture, preservation, distribution and the final production of food items for consumption.

**Courses:** ED50, ED90, HL42, IF87, PU40,

PU43

**Contact hours:** 5 per week **Credit points:** 12**Campus:** KG**Sem:** 1**► PUB480 HEALTH ADMINISTRATION FINANCE**

This unit addresses the following: financial administration and resource/financial distribution within the Commonwealth and state governments; financial management in the health industry; financial analysis; planning and budgeting, working capital management in the health industry;

health care financial performance and evaluation; methodologies for costing health services.

**Courses:** IF47, IF85, NS45, PU40**Contact hours:** 3 per week **Credit points:** 12**Campus:** KG, EXT**Sem:** 2**► PUB486 ETHICS AND THE LAW IN HEALTH SERVICE DELIVERY**

This unit enables students to develop an awareness of the ethical and legal issues associated with the public sector and health care in the pre-hospital care setting. This unit covers topics relating to the code of ethics, the code of conduct and the legislation unique to the emergency health services. The students are required to apply content knowledge using the problem based learning strategy. Topics include introduction to ethics; morality and ethical theory; bioethics; public sector ethics; overview of the Australian legal system; consent to and refusal of health care; duty of care; confidentiality and record keeping.

**Courses:** PU40 Emergency Health Services

Major Only.

**Prerequisites:** PUB112**Credit points:** 12**Campus:** EXT**Sem:** 2**► PUB470 PARAMEDIC CLINICAL PRACTICE 2**

This unit continues on from PUB270 and includes a six week placement providing work integrated learning experience in a supervised out of hospital environment. Students learn to apply standard ambulance management at non-complex scenes with straightforward clinical presentations and gain confidence in managing patients.

**Courses:** PU46**Prerequisites:** PUB270, PUB390, PUB391**Credit points:** 12**Campus offered:** KG**► PUB490 QUALITY MANAGEMENT IN HEALTH**

Quality is integral to all aspects of healthcare delivery. Knowledge and understanding of the concepts of quality management, and the ability to perform quality processes are essential for all health care professionals. This unit provides students with the necessary knowledge and skills to develop a quality management program, perform quality improvement activities, and expand outcomes into process improvements and organisational change. The principles underpinning evidence based medicine and clinical pathways (including variance analysis) are presented, methods of health care performance measurement are explored, and a clinical quality framework model is introduced.

**Courses:** NS45, PU40**Prerequisites:** 96 credit points and background knowledge of the health care system**Contact hours:** 3 per week **Credit points:** 12**Incompatible with:** PUB599**Campus:** KG**Sem:** 2**► PUB501 APPLIED COUNSELLING FOR HEALTH PROFESSIONALS**

In addition to having a sound knowledge of their specific area of speciality, health professionals also require specialised skills and techniques that will assist them in communicating with others. Furthermore they need to have an awareness and understanding of the process of helping. Throughout this unit, students explore a variety of approaches which could be used and will develop an awareness of their own strengths and weaknesses as a helper. It is not intended that students enrolled in this unit will become professional counsellors, rather they will develop counselling skills that can be applied by health workers in dealing with clients and client concerns.

**Courses:** HL42, PU43**Corequisites:** PUB875 or another (discipline specific) professional practice unit**Contact hours:** 4 per week **Credit points:** 12**Campus:** KG**Sem:** 2**► PUB506 FOODSERVICE MANAGEMENT**

This unit includes the following: organisation and planning in foodservice; the hospital environment; the menu and menu planning; purchasing and storage of food; kitchen planning and design; food production systems; food distribution systems; human resource management in foodservice;

finance and costing; hygiene, maintenance and safety; information systems; total quality management.

**Courses:** HL42, PU43 **Prerequisites:** PUB474**Contact hours:** 3 per week **Credit points:** 12**Campus:** KG**Sem:** 1**► PUB509 NUTRITION**

This unit includes the following: the measurement of the nutritional status of a community; nutrition monitoring and surveillance; food and nutrition policy at international, national and state levels; international nutrition issues; nutritional epidemiology; examination of the evidence of nutrition problems within Australia; at risk groups; tools and their validity for measuring nutritional status and nutrition outcome at the population and group level; dietary intake methodology.

**Courses:** HL38, HL42, HL68, HL88, PU40,

PU43

**Prerequisites:** PUB201, PUB314 or PUB326**Contact hours:** 4 per week **Credit points:** 12**Campus:** KG**Sem:** 1**► PUB510 LEGAL FRAMEWORKS FOR ENVIRONMENTAL HEALTH PRACTICE**

The purpose of this unit is to integrate the student's understanding of environmental health and basic sciences to enable the students to apply their knowledge in professional practice. In particular, this unit will detail legislative and management tools for the control of a range of environmental and public health issues. Prosecution processes and evidence gathering is discussed. Specific environmental health roles under the Health Act and other public health legislation are discussed at length.

**Courses:** IF87, PU40**Prerequisites:** PUB308, PUB409**Contact hours:** 4 per week **Credit points:** 12**Campus:** KG**Sem:** 1**► PUB511 HEALTH POLICY, PLANNING AND EVALUATION**

This unit provides advanced undergraduate students with an opportunity to develop an understanding of the concepts of health policy, planning and evaluation; a capacity for analysis using both theoretical and practical examination of current health-related policies, plans and evaluations; and an opportunity to apply concepts learned in this unit to develop a proposal for a program plan and associated implementation and evaluation strategy.

**Courses:** HL46, IF47, IF85, NA80, NS45, PU38,

PU40, BOralHlth

**Prerequisites:** 144 credit points completed**Contact hours:** 3.5 per week **Credit points:** 12**Campus:** KG, EXT**Sem:** 1**► PUB514 CONTRACT/PROJECT MANAGEMENT**

This unit aims to prepare students for participation in contract and project management in the health sector. The unit provides advanced undergraduate students with an opportunity to develop an understanding of health project contract management using both theoretical and practical examination of current State and national contracts and projects.

**Courses:** HL38, HL46, HL68, HL88, IF47, IF87,

NS45, PU40, PU38

**Contact hours:** 4 per week **Credit points:** 12**Incompatible with:** NSN625 (for postgraduate students)**Campus:** KG, EXT**Sem:** 1**► PUB517 FOOD HYGIENE STUDIES**

Food is a fundamental human need and a prerequisite to good health. Ensuring that the food we eat is safe is a major function of both government and industry. This unit includes food safety principles, food safety standards and legislation, an overview of food borne illnesses and their investigation, risk management (eg HACCP and food safety programs), auditing, and food handler training/health promotion.

**Courses:** IF87, PU40 **Prerequisites:** LSB415**Contact hours:** 4 per week **Credit points:** 12**Campus:** KG**Sem:** 1

**► PUB521 HEALTH SAFETY AND ENVIRONMENT PRACTICE 1**

The ability to apply the principles of occupational health and safety in the workplace is an essential skill of the occupational health and safety professional. This unit enables students to integrate the knowledge and skills that they have gained over the initial two years of the course and apply this within the workplace. Accreditation will be obtained as a Workplace Health and Safety Officer (WHSO) accredited by the Division of Workplace Health and Safety. The unit provides students with an understanding of the legislative framework as is relevant to occupational health and safety and social economic and political factors that have influenced the development of legislation as well as the content of existing legislation.

**Courses:** PU40

**Prerequisites:** PCB404, PUB354

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUB522 PODIATRIC ANAESTHESIOLOGY**

This unit provides an understanding of the science of anaesthetics as applicable to the practice of podiatry. Students are required to understand the pharmacology of local anaesthetics and their clinical usage, and be competent in injection techniques, including local infiltration and local nerve block in the lower limbs.

**Courses:** HL43, PU43

**Prerequisites:** PUB437, PUB438, PUB439

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUB537 RADIOGRAPHIC IMAGE INTERPRETATION**

This unit is designed to give the student of podiatric medicine an understanding and ability to recognise normal and abnormal foot radiographs. It also enables the student to utilise radiology as an important diagnostic tool in foot pathology.

**Courses:** HL43, PU43

**Prerequisites:** PUB438, PUB439

**Corequisites:** PUB539

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** PCB313 or PUB637  
**Campus:** KG **Sem:** 1

**► PUB538 PHYSICAL MEDICINE**

This unit introduces a wide range of diagnostic and physical treatment modalities used in modern podiatric practice. Students gain understanding in uses, applications, contraindications and limitations of each modality studied in direct connection with ongoing clinical studies and theoretical components of podiatric medicine.

**Courses:** HL43, PU43

**Prerequisites:** PUB439, PUB539

**Corequisites:** PUB539

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** PUB727  
**Campus:** KG **Sem:** 1

**► PUB539 PODIATRIC MEDICINE 3**

This unit develops professional understanding of the general and specific effects of medical and surgical conditions on the human foot. It also expands the concept of total case management in terms of the interdisciplinary approach, including physical, mechanical and surgical techniques. Completion of this unit should enable students to consolidate the podiatrist's role in the health care team across the spectrum of practice.

**Courses:** HL43, PU43

**Prerequisites:** PUB437, PUB438, PUB439

**Corequisites:** PUB537

**Contact hours:** 12 **Credit points:** 12  
**Incompatible with:** PUB524  
**Campus:** KG **Sem:** 1

**► PUB541 MEDICAL NUTRITION THERAPY 1**

This unit incorporates the best of a multidisciplinary, 'whole client' view of health care. The goals of MNT in preventative care are to keep people healthy in their communities, to reduce the incidence and severity of preventable diseases, to improve health and quality of life and to reduce medical costs particularly in drug therapy, surgery, hospitalisation and extended care. A sound understanding of the process of nutrition

assessment enables students to undertake the assessment, planning, implementation and evaluation of dietary intervention in the more complex disease states.

**Courses:** HL42, PU43

**Prerequisites:** LSB408, LSB458, PUB405

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**PUB550 PARAMEDIC MANAGEMENT OF OBSTETRIC, PAEDIATRIC AND BEHAVIOURAL EMERGENCIES**

This unit covers the management of obstetric, paediatric and behavioural emergencies. Theory is presented on campus and experience is gained in a three week hospital placement under the supervision of clinical educators.

**Courses:** PU46

**Prerequisites:** LSB382, PUB390

**Credit points:** 12 **Campus offered:** KG

**PUB555 PARAMEDIC MANAGEMENT OF INFECTIOUS DISEASES, TOXICOLOGICAL AND ENVIRONMENTAL EMERGENCIES**

This unit covers the management of patients with a range of aetiologies including extremes in environmental conditions, toxicological emergencies including overdose, poisoning and acute infectious disease. Topics include the epidemiology, integrated and definitive care, pathophysiology, assessment and clinical management of patients with toxicological, infectious and environmental illness. Theory is supplemented by simulation and scenario based activities.

**Courses:** PU46

**Prerequisites:** LSB382, PUB390

**Credit points:** 12 **Campus offered:** KG

**► PUB557 HEALTH NEEDS OF INDIGENOUS AUSTRALIANS AND OTHER POPULATIONS**

The unit examines the health needs of a range of populations groups, particularly the health needs of Indigenous Australians. Health is viewed in its social and economic context. The unit allows a recognition and focus on particular health concerns that might not be considered significant in an examination of broad patterns of health. It forces a consideration of how strategies to improve health, including important questions of access and equity. The unit provides an overall picture of health patterns of Indigenous Australians and other specific populations.

**Courses:** ED90, PU40, BOralHlth

**Prerequisites:** PUB251

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUB558 MEDICAL DOCUMENTATION AND ABSTRACTION FOR CLASSIFICATION**

It is essential for health information managers to thoroughly understand the clinician's response to various disease processes, how this information is documented in patient records and how this relates to the process of clinical classification. This unit integrates knowledge of anatomy, physiology, disease processes and medical procedures with an understanding of the process clinician's task to diagnose and treat common and specialised conditions. Students enhance their knowledge of clinical classification by the practical use of ICD-10-AM. (Not offered until 2005).

**Courses:** PU40

**Prerequisites:** PUB356

**Contact hours:** 4 per week **Credit points:** 12  
**Incompatible with:** PUB456

**Campus:** KG

**Sem:** 1

**► PUB561 QUANTITATIVE ANALYSIS FOR HEALTH**

The ability to analyse and interpret quantitative data is an important skill for all graduates in public health. This unit builds upon PUB326 Epidemiology and complements analytical methods learned in PUB461 Qualitative Enquiry in Public Health. Through critical review of the literature, and worked examples from a range of topic areas, students become familiar with the process of summarising and describing data, defining and testing hypotheses, univariate methods and tests of bivariate associations, the con-

cept of adjustment and the interpretation and presentation of analytical results.

**Courses:** PU40, PU43

**Prerequisites:** PUB416 (except NUD students)

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUB565 INTERNATIONAL HEALTH**

International Health will broaden student's understanding of global health systems and programs, providing an advanced level analysis that explores systems and methods that have been devised to address population health problems in developing and developed countries. Students examine the historic context of the international health movement from the early 1900s to recent changes in global health systems, explore the diversity of services between and within countries, and consider issues of globalisation, economic reform, health equity and ethics. This unit is particularly relevant to students who are interested in international health development work

**Courses:** PU40

**Prerequisites:** 192 credit points, PUB251, PUB326

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUB570 PARAMEDIC CLINICAL PRACTICE 3**

This unit is a six week placement which develops patient care to a level where students can confidently manage more complex clinical presentations under the supervision of a qualified paramedic mentor.

**Courses:** PU46

**Prerequisites:** PUB470

**Credit points:** 12 **Campus offered:** KG

**► PUB604 POLICY AND MANAGEMENT PRINCIPLES FOR ENVIRONMENTAL HEALTH**

The aim of this unit is to provide an overview of current policy and management issues faced in environmental health practice. Issues to be discussed include the National Environmental Health Strategy, sustainable development and Local Agenda 21, economic evaluation, environmental health indicators, Indigenous environmental health, environmental toxicology, new technologies (eg GIS and EH Toolbox), disaster management, and current management issues at the local and state government levels.

**Courses:** IF87, PU40

**Prerequisites:** PUB510 **Corequisites:** PUB630

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► PUB606 DIETETIC MANAGEMENT**

This unit includes the following: history of dietetics and the role of management in dietetics; planning and organisation; leadership; peer review systems; total quality management; clinical costing; program evaluation and measuring effectiveness; information systems applied to dietetic management; managing change; casemix funding, management tools, marketing, planning community based programs; team building; managing role conflict.

**Courses:** HL42, PU43

**Prerequisites:** PUB506, PUB722

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► PUB607 PROMOTING ORAL HEALTH**

This unit aims to present oral health promotion as an emerging public oral health field of professional practice. The unit provides knowledge of both the theoretical and practical application of health promotion strategies in a range of contexts. It emphasises the links of oral health status with a number of socioeconomic variables, and provides an understanding of health promotion strategies that are appropriate to special groups. It also provides a sensitivity to, and an understanding of, cultural and gender-related issues in relation to oral health promotion.

**Courses:** NA80, BOralHlth

**Prerequisites:** PUB203 **Corequisites:** PUB203

**Contact hours:** 2 per week **Credit points:** 12  
**Campus:** EXT **Sem:** 2

### ► PUB609 HEALTH RESOURCE ALLOCATION

This unit aims to prepare students for participation in health sector decision making as underpinned by a range of health specific evaluation activities. The unit provides students with a grounding in the methodologies of health evaluation and resource allocation.

**Courses:** HL38, HL46, HL68, HL88, IF47, NS45, PU38, PU40

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

### ► PUB611 RISK MANAGEMENT

This unit provides students with the knowledge and skills for the assessment and quantification of risk in the workplace. It investigates the various models available to investigate and analyse accidents and propose strategies to prevent similar incidents in the future. Various hazard identification techniques such as HAZOP, Fault Tree Analysis and FMEA are discussed. The subject provides students with the ability to position occupational health and safety within an organisation's strategic decision making process. Assessment involves a half day presentation on the weekend. Some lectures may be presented in a one-day seminar.

**Courses:** IF87, PU40

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

### ► PUB616 HEALTH, SAFETY AND ENVIRONMENTAL PRACTICE 2

This unit builds on the experience gained by students in Occupational Health and Safety Practice 1 by looking in more detail at the skills required to practice as a professional in the arena of occupational health and safety. A major focus is the utilisation of auditing as an occupational health and safety management tool. Students are required to attend lectures, practical sessions in the workplace and field trips. Students investigate a wide variety of production processes and identify the hazards and control strategies associated with these. It is intended that the unit should act as a culminating experience for students who have undertaken the BHLthSc in Health Safety and Environment or Occupational Health and Safety.

**Courses:** PU40

**Prerequisites:** PUB521 or PUB516

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► PUB628 ADVANCED FOOD STUDIES

This unit provides students with an opportunity to acquire practical skills in the planning, preparation and delivery of nutrient-altered foods suitable for a wide range of therapeutic diets. Students evaluate the outcome of incorporating nutrient modified food products into dietary regimens. Food standards, relevant developments and issues are also considered.

**Courses:** HL42, PU43

**Prerequisites:** PUB474, PUB541

**Corequisites:** PUB641

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► PUB630 ENVIRONMENTAL HEALTH PRACTICE

Visits to various establishments studied in units relating to environmental health management, pollution sciences and food studies for the purpose of practical demonstration, evaluation and professional experience are part of this course. It includes discussion of professional ethics, multicultural issues, and industrial relations and job application processes.

**Courses:** IF87, PU40

**Prerequisites:** PUB510, PUB517

**Corequisites:** PUB604

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► PUB632 INDEPENDENT STUDY

Independent Study allows students to study a topic which is not otherwise available as a formal unit. Students have the opportunity to pursue their studies relatively independently and to develop and practise skills in problem identification, evaluation and critical thinking. The study may be for example a literature review or a

placement in a particular setting. The process and outcomes are negotiated in a contract with a supervisor.

**Courses:** PU40, PU43

**Prerequisites:** Completion of 192 credit points

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

### ► PUB633 HEALTH INFORMATICS

An understanding of computer applications in health is important to making an effective contribution to the planning and evaluation of health care information systems. This unit integrates health care trends with the capacity for information management and information systems to support these directions in health care. This unit aims to bridge the communication gap which often appears between the health care professional and computer specialists. It is also designed to prepare students for involvement in the many aspects of information systems they may encounter in the health care field. These aspects include the planning, specification, development, implementation, control and management of such systems.

**Courses:** PU40 **Prerequisites:** 192 credit points

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PUB418

**Campus:** KG

**Sem:** 2

### ► PUB635 PODIATRIC SURGERY

This unit addresses the implementation of podiatric surgical techniques based on strong theoretical knowledge. On completion, students should understand the principles and techniques of lower limb surgery. Students are taught minor surgical techniques and they review some of the more common major surgical procedures including the foot and ankle.

**Courses:** HL43, PU43

**Prerequisites:** PUB438, PUB522, PUB539, PUB639

**Corequisites:** PUB523, PUB624

**Contact hours:** 3 (including surgical work)

**Credit points:** 12

**Campus:** KG

**Sem:** 2

### ► PUB638 ORTHOPAEDICS AND SPORTS MEDICINE

This unit provides students with a detailed knowledge of orthopaedic and musculoskeletal conditions affecting the lower limb. The unit also discusses the assessment and management of the sporting patient. (Not offered until 2005).

**Courses:** HL43, PU43

**Prerequisites:** PUB537 (PU43 and HL43 only), PUB538 (PU43 only)

**Corequisites:** PUB635 (PU43 only), PUB639 (PU43 and HL43)

**Credit points:** 12

**Incompatible with:** PUB726, PUB827

**Campus:** KG

**Sem:** 2

### ► PUB639 PODIATRIC MEDICINE 4

This unit extends the student by way of a greater role in independent case investigation and clinical case presentations. Complex case histories and treatment interventions are pursued. The theory and treatment of paediatric disorders is studied and the students are introduced to specialist clinics in the podiatry facility and the treatment of higher order cases. Students implement a wide range of treatments and should be able to consolidate skills acquired. Diagnostic skills are also developed with the wider range of patients being treated and the specialised study of disciplines such as dermatology and radiology further integrating academic and clinical studies.

**Courses:** HL43, PU43

**Prerequisites:** PUB539

**Contact hours:** 12

**Credit points:** 12 **Incompatible with:** PUB624

**Campus:** KG

**Sem:** 2

### ► PUB641 MEDICAL NUTRITION THERAPY 2

Medical nutrition therapy 2 builds on the extensive knowledge base of the theory and application of dietary treatment to disease and the principles of nutritional assessment development in Medical Nutrition Therapy 1.

**Courses:** HL42, PU43

**Prerequisites:** PUB541 **Corequisites:** PUB628

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 2

### ► PUB643 HOME ECONOMICS CURRICULUM 2

This unit is the second in a suite of three curriculum units studied concurrently with Teaching and Learning Studies 111 and Field Studies 11. The unit provides students with opportunities to develop knowledge and skills pertinent to the professional educator, including the ability to critique current paradigms. Learning experiences are organised to build deeper understanding of outcomes-based syllabuses. This knowledge is applied to the design and management of learning environments and practices that engage learners. The importance of self-regulatory practice is emphasised.

**Courses:** ED90

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PUB322

**Campus:** KG

**Sem:** 2

### ► PUB644 HEALTH PROMOTING SCHOOLS

This subject is designed to extend students' understanding of health promotion in a school setting. The learning objectives for this course are designed to reinforce the links between education and health, in relation to the planning, implementation and evaluation of a school-based health promotion intervention. It also addresses some of the management issues that underlie such an approach to the promotion of health and well-being in the school community. Case studies or activities offer a range of opportunity for reflection and investigation.

**Courses:** HL38, HL68, HL88, PU39, PU60, PU85

**Prerequisites:** 196 credit points

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

### ► PUB669 MANAGEMENT OF HEALTH INFORMATION SERVICES

This unit is the final one in the suite of health information management related units. As a result, it has a strong focus on professional issues and current trends in HIM practice. It examines the roles and functions of the health information manager in the management of health care services in the current health environment. Class activities concentrate on the principles and processes of management as applied to health information services. A problem based learning approach is adopted to give students experience in 'real world' activities.

**Courses:** PU40

**Prerequisites:** PUB108, PUB398, PUB490, PUB558

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PUB619

**Campus:** KG

**Sem:** 2

### PUB670 PARAMEDIC CLINICAL PRACTICE 4

This unit follows on from previous clinical practice units and develops students towards the role of beginner practitioner and qualified ambulance paramedic under the supervision of a qualified paramedic mentor. Students are expected to function as an operational crew member under minimal direction taking the lead in more complex scenarios.

**Courses:** PU46

**Credit points:** 24

**Prerequisites:** PUB570

**Campus offered:** KG

### PUB680 PROFESSIONAL DEVELOPMENT IN PARAMEDIC PRACTICE

This unit prepares students for practice as qualified ambulance paramedics and further develops professional skills. Clinical practice is conducted in a prehospital environment under the supervision of an ambulance crew with a qualified clinical mentor. In addition, reading and learning activities give opportunities for the development of reflective practice skills and strategies.

**Courses:** PU46

**Prerequisites:** PUB391, PUB450, PUB470, PUB550, PUB555, PUB570

**Corequisites:** PUB670

**Credit points:** 12

**Campus offered:** KG

### ► PUB722 PRACTICE IN CLINICAL DIETETICS

Students are required to develop skills in the management of nutritional care of clients in the

clinical setting, to a standard that allows entry to the Dietetics profession. This unit incorporates the basic strategies of the dietetic care process, ie assessment, planning, implementation and evaluation of nutritional care, for clients who have a variety of disease states. Students also need to demonstrate basic skills in research in relation to clinical outcome.

**Courses:** HL42, PU43

**Prerequisites:** PUB875 **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► PUB723 CLINICAL DIETETIC PRACTICE

Students are required to develop skills in the management of nutritional care of clients in the clinical setting, to a standard that allows entry to the Dietetics profession. This unit incorporates the basic strategies of the dietetic care process, ie assessment, planning, implementation and evaluation of nutritional care, for clients who have a variety of disease states. Students also need to demonstrate basic skills in research in relation to clinical outcome.

**Courses:** HL42, PU43 **Prerequisites:** PUB875  
**Credit points:** 24 **Incompatible with:** PUB722  
**Campus:** KG **Sem:** 1

### ► PUB738 ADVANCED CLINICAL MEDICINE 1

The aim of this unit is to develop high-level clinical skills and professionalism in a range of clinical settings. Increased understanding of the various clinical and non-clinical roles that podiatrists play in the community are emphasised through external placements.

**Courses:** HL43, PU43  
**Prerequisites:** PUB538, PUB635, PUB638, PUB639  
**Contact hours:** 9 per week **Credit points:** 12  
**Incompatible with:** PUB728  
**Campus:** KG **Sem:** 1

### ► PUB739 PODIATRIC MEDICINE 5

The aim of this unit is to provide students with the diagnostic and treatment skills necessary to manage patients with more complex conditions, to introduce contemporary issues in podiatry including national and international issues, and to encourage students to evaluate critically the medical literature to inform their clinical decisions.

**Courses:** HL43, PU43  
**Prerequisites:** PUB537, PUB538, PUB635, PUB638, PUB639  
**Corequisites:** PUB738 **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► PUB821-1 PRACTICE IN COMMUNITY NUTRITION

This unit involves a four week practical placement off-campus where students work on various projects and gain experience in the nutrition and health care of groups in a variety of community, workplace and school settings. Assessment includes the provision of a nutrition education session to a community group and a practical examination at the end of the semester.

**Courses:** HL42, PU43  
**Prerequisites:** Completion of all prior Nutrition & Dietetics core units  
**Credit points:** 6  
**Campus:** KG **Sem:** 1

### ► PUB821-2 PRACTICE IN COMMUNITY NUTRITION

See PUB821-1 for details.

**Courses:** HL42, PU43  
**Prerequisites:** PUB821-1 **Credit points:** 6  
**Campus:** KG **Sem:** 2

### ► PUB822-1 PRACTICE IN FOOD SERVICE MANAGEMENT

This unit includes a four week practical component consisting of up to four separate placements in hospitals, nursing homes, correctional centres or other locations to gain experience in food service management.

**Courses:** HL42, PU43  
**Prerequisites:** Completion of all prior Nutrition & Dietetics core units  
**Credit points:** 6  
**Campus:** KG **Sem:** 1

### ► PUB822-2 PRACTICE IN FOOD SERVICE MANAGEMENT

See PUB822-1 for details.

**Courses:** PU43, HL42  
**Prerequisites:** PUB822-1 **Credit points:** 6  
**Campus:** KG **Sem:** 2

### ► PUB826 PROJECT AND PROFESSIONAL MANAGEMENT

This unit includes two parts. Firstly, it explains how a professional practice may be set up and how a small practice can operate as a business enterprise. Methods of budgeting, finance and control are included. Secondly, the unit develops an interest in podiatry research using scientific methods of investigation and presentation. Students are encouraged to publish projects as original material in related professional journals.

**Courses:** HL43, PU43  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2

### ► PUB838 ADVANCED CLINICAL STUDIES 2

The aim of this unit is to develop high-level clinical skills and professionalism in a range of clinical settings. Increased understanding of the various clinical and non-clinical roles that podiatrists play in the community are emphasised through external placements. Students complete clinical rotations not attempted in PUB738.

**Courses:** HL43, PU43  
**Prerequisites:** PUB738, PUB739  
**Contact hours:** 9 per week **Credit points:** 12  
**Incompatible with:** PUB828  
**Campus:** KG **Sem:** 2

### ► PUB839 PODIATRIC MEDICINE 6

The aim of this unit is to ensure that students are able to demonstrate adequate knowledge and skills expected for entry into the podiatry profession.

**Courses:** HL43, PU43  
**Prerequisites:** PUB739 **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► PUB875 PROFESSIONAL PRACTICE

This unit is undertaken by students in the public health, and nutrition and dietetics strands of the BHLthSc. It provides students with the opportunity of working in one or a number of placements in a professional capacity in an area of interest to the student. It provides an opportunity for students to apply the knowledge and skills acquired through their course to a practical problem or workplace situation.

**Courses:** HL42, HL46, IF47, IF85, PU40, PU43  
**Prerequisites:** NUD / NUT successful completion of all prior core units; All other majors, completion of 216 credit points including PUB514

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► PUN001 CONTEMPORARY RISK MANAGEMENT

This unit provides an introduction to the risk management process as outlined in AS/NZS 4360 Risk management. The unit concentrates on the context of risk management and introduces the student to the concepts that will be explored further in the units PUN008, PUN009 and EFN418. The structure of the organisation, its environment and the potential loss exposures are examined in some detail.

**Courses:** HL38, HL68, HL88, IF88, PU32, PU60, PU65, PU85  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► PUN008 RISK ASSESSMENT

This unit provides the skills necessary to identify and assess risks. Qualitative, semi-quantitative and quantitative methods of risk analysis are investigated in the context of the major perils likely to be considered by an organisation. Various risk analysis techniques including HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis, and probability are discussed.

**Courses:** HL38, HL68, HL88, HL90, IF88, PU60, PU65, PU85  
**Prerequisites:** PUN001 **Corequisites:** PUN001  
**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

### ► PUN010 IMPLEMENTING RISK MANAGEMENT

A robust system is necessary to ensure the ongoing commitment to the risk management process and to ensure positive outcomes. The risk management process needs to be integrated and strategic in its approach. It requires commitment from senior management and an organisational strategy designed to maximise business value. This unit investigates the role of risk management in an organisation, organisational experiences in implementing risk management programs, and ways of ensuring the success of a risk management program.

**Courses:** HL38, HL68, HL88, HL90, IF88, PU60, PU85

**Prerequisites:** PUN008

**Credit points:** 12 **Incompatible with:** PUN009  
**Campus:** EXT **Sem:** 2

### ► PUN103 ADVANCED EPIDEMIOLOGY

This unit's aim is the mastery of key principles and concepts of research design. There has been an increasing demand for evidence-based health research, and an increasing trend towards research that considers complex biological, environmental and societal inter-relationships. Recent developments in epidemiology have contributed novel research designs and statistical methods to complement these needs. Throughout this unit, students are exposed to these more sophisticated designs and analytical methods. Such knowledge is mandatory for critical evaluation of the current research literature, for design of efficient research studies, and to inform appropriate interpretation of research results at a 'best practice' level.

**Courses:** HL38, HL68, HL88, HL90, PU60, PU85

**Prerequisites:** HLN705 or PUB316 or equivalent

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► PUN105 HEALTH STATISTICS

Beyond a common core of statistical concepts, each discipline area emphasises its own set of descriptive and inferential statistical methods and even terminology. The content of this unit emphasises both core and health-specific statistical methods in the health sciences. Students are provided with substantial practical experience in the application and interpretation of the most common statistical methods to health data, and are also made aware of data management principles in preparation for analysis. There is a strong emphasis on applying concepts through critical reading and discussion of the literature and worked examples from a range of topic areas.

**Courses:** HL38, HL68, HL88, HL90, PU30, PU60, PU85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 1

### ► PUN106 POPULATION HEALTH

This unit addresses some of the significant issues of population health including the complex relationship between health and social, economic, political and lifestyle factors and social disadvantage and health. It examines contemporary concepts of health and illness also draws on international examples. Potential health issues facing Australia and the world, such as the aging of the population, the impact of genetic technology on health and the health of specific sub-populations are also examined.

**Courses:** HL38, HL68, HL88

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** Completion of PU40/43 or PUB251 or PUB314 or PUP010 or NSN622

**Campus:** EXT **Sem:** 1

### ► PUN301 HEALTH, SAFETY AND ENVIRONMENTAL LAW AND MANAGEMENT

This unit introduces students to the history of occupational health and safety and the impact on occupational health and safety practice of the law, and industrial relations. The theory and practice of occupational health and safety management is discussed.

**Courses:** HL38, HL68, HL88, PU60, PU65, PU85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT

**► PUN302 DETERMINANTS OF WORKPLACE INJURY AND DISEASE**

This unit aims to provide students with an understanding of the various models used to describe and determine the causes and distribution of injury and disease in the workplace. Students investigate the use of various analytical, statistical and epidemiological tools to assess major determinants of workplace injury and disease.

**Courses:** HL38, HL68, HL88, HL90, PU60, PU65, PU85

**Prerequisites:** PUN301 **Corequisites:** PUN301  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUN363 ENVIRONMENTAL HEALTH LAW**

The purpose of this unit is to integrate the student's understanding of environmental health and previous science units to enable them to apply their knowledge in professional practice. In particular, this unit details legislative and management tools for the control of public health issues in different settings. The prosecution process and gathering of evidence is discussed along with a detailed discussion on the environmental health practitioner's role under the Health Act 1937 and other legislation. Topics covered in this unit include legal processes, government and the law, prosecution processes, environmental law, health law, local government law, intra/inter-government law (eg IPA).

**Courses:** PU32, PU67, HL88

**Corequisites:** PUN620 **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUN364 FOOD SAFETY**

The aim of this unit is to develop the food safety knowledge of future health professionals (such as environmental health practitioners, public health practitioners, nutritionists and dieticians) to enable them to identify and implement processes to ensure a safe food supply and prevent food borne illness in the community. A variety of food safety topics are covered including food science principles, food safety principles, food-borne illness, outbreak investigation and management, food safety law, auditing, premises design, HACCP, food safety programs, food handler training/health promotion.

**Courses:** PU67 **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUN465 ENVIRONMENTAL PROTECTION**

This unit aims to give students a detailed understanding of the causes, controls measures and management strategies for environmental pollution and an understanding of environmental impacts on human health. A variety of topics on environmental management are covered including environmental management principles, environmental policy and legislation, integrated planning, waste management, contaminated land, air pollution, water pollution, noise pollution.

**Courses:** PU32, PU67, HL88

**Prerequisites:** PUN620 **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► PUN466 COMMUNICABLE DISEASES**

This unit aims to provide a comprehensive overview of communicable diseases and to discuss current surveillance, control and prevention methods/strategies implemented by public health agencies. Topics in this unit include the following: communicable disease principles, physiology and epidemiology; outbreak investigation and management; immunisation; vector control; disease surveillance; infection control.

**Courses:** PU67, HL88 **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► PUN467 PUBLIC HEALTH RISK ASSESSMENT**

The aim of this unit is to provide future public health professionals with the skills and knowledge necessary to effectively assess and manage risks associated with a variety of public health hazards. Topics covered in this unit include the following: the Australian Standard risk management framework; environmental health risk as-

essment framework (issues identification, hazard identification, dose-response assessment, exposure assessment, risk characterisation); risk management strategies and approaches; fundamentals of environmental toxicology and its application in health risk assessment; health impact assessment; effective risk communication and community consultation approaches for public health risks; case studies.

**Courses:** PU32, PU67, HL88 **Credit points:** 12  
**Campus:** KG **Sem:** 2

**► PUN500 SYSTEMS SAFETY FOR HEALTH, SAFETY AND ENVIRONMENT**

In this unit, students learn about the nature of materials with regards to material failure, and fire and explosions. Students are introduced to the concept of the hierarchy of controls and learn about the various safety systems used to control physical, chemical and biological hazards. Students are also introduced to specific legislative requirements that regulate the use of such substances, the configuration of appropriate safety systems, and the storage, handling and transport of hazardous materials. Students develop skills in accident investigation.

**Courses:** PU65, PU60, PU85, HL38, HL68, HL88

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

**► PUN608 HEALTH ECONOMICS**

This unit is designed to introduce students with little or no previous economics background to some microeconomic theory and its application to economic issues in the health sector. The unit starts with more theoretical topics such as demand and supply analysis, the production of health and market structures, and then moves onto more applied topics such as health insurance and economic evaluations. The aim of the unit is to encourage students to understand variables that influence resource allocation within the health sector and to consider subsequent implications. Assessment for this unit typically consists of assignment work.

**Courses:** HL38, HL68, HL88, HL90, PU38, PU60, PU85

**Prerequisites:** PU85, PU60: PUN692; HL38, HL68, HL88, HL90: Nil; PU38: PUN610

**Contact hours:** 3 per week **Credit points:** 12  
**Incompatible with:** PUB433

**Campus:** KG, EXT **Sem:** 2

**► PUN609 HEALTH CARE FINANCE**

This unit introduces students to essential conceptual frameworks that are fundamental to an understanding of the organisation of health care resources, within the health sector and of subsequent outcomes. The unit adopts the objectives of effectiveness, efficiency and equity with which to analyse health care delivery systems. The intention is to provide an understanding of some important intellectual apparatus that can be used to describe and understand health care delivery in a variety of settings and systems.

**Courses:** HL38, HL68, HL88, PU60, PU85

**Prerequisites:** PUN692 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

**► PUN610 HEALTH SERVICES MANAGEMENT**

This unit offers theoretical and practical understanding of strategic management issues associated with managing resources and managing people. The course is structured so that readings, activities and assessment items allow students to take a critical and analytical approach to an organisational issue within the context of current organisational, political, technological, and socio-economic developments. The unit is designed to facilitate analytic skills and understanding of a range of management decision-making principles and processes applicable to health management roles.

**Courses:** HL38, HL68, HL88, HL90, PU38, PU60, PU85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG, EXT **Sem:** 2

**► PUN615 ADVANCED HEALTH SERVICE MANAGEMENT**

The aim of the unit is to assist students to consolidate prior learning through the development and application of a framework for business planning, particularly related to the introduction of new practices in health care, consolidated by the use of researching, writing and presentation skills. This unit is designed to assist health service managers to understand their roles in leading the organisation, and to develop their skills in strategic and tactical management.

**Courses:** HL38, HL68, HL88, HL90, PU60, PU85

**Prerequisites:** PUN610 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► PUN617 ENVIRONMENTAL HEALTH MANAGEMENT**

This unit aims to integrate the aspects of environmental health theory and practice covered in other units within the environmental health graduate program by focusing on current management and policy issues, strategies, tools and approaches. Topics covered include the following: environmental health policy development; environmental health management in local government; environmental health management in state government; new technologies, GIS, electronic toolbox; management tools, economic evaluation, environmental health indicators; emergency management; Indigenous environmental health policy; dangerous goods management; project management; environmental health practice issues.

**Courses:** HL38, HL68, HL88, HL90, PU32, PU60, PU85

**Credit points:** 12  
**Campus:** EXT **Sem:** 2

**► PUN620 CONCEPTS OF ENVIRONMENTAL HEALTH**

The aim of this unit is to produce students who have an in-depth understanding of the large range of contemporary environmental health hazards (including historical, current and predicted hazards) and the strategies to assess and manage these hazards in a sustainable manner. Topics covered include overview of environmental health, ecosystems and ecology, sustainable development, food safety, water and sanitation, air pollution, waste and contaminated land, Indigenous environmental health, built environment, communicable diseases, environmental health management, health promotion, and global environmental health issues.

**Courses:** HL38, HL68, HL88, PU32, PU60, PU85

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

**► PUN634 INTERNATIONAL HEALTH MANAGEMENT AND PLANNING**

This unit explores health care reform trends across a wide array of countries as a transnational phenomenon that cannot be understood solely in the context of the nation-state. It uses the comparative method to provide students with an understanding of the impact of globalisation on health management and planning. The impact of this context on the future of the health sector and health service management is examined.

**Courses:** HL38, HL68, HL88, PU60, PU67, PU85

**Corequisites:** PUN692

**Contact hours:** 3 per week

**Credit points:** 12 **Incompatible with:** PUB511  
**Campus:** KG **Sem:** 1

**► PUN635 EVIDENCE BASED HEALTH POLICY**

The globalisation of the health sector, the changing global burden of disease, demographic profiles and trans-migration have implications for understanding and developing health policy that improves population health nationally and internationally. Health professionals and those involved health management and policy need a broad understanding of the interplay of these factors, in relation to the policy development and evaluation cycle. Students learn to critically appraise the role of evidence in policy formulation, the role of political and other influences in policy making, and the interplay between healthy

public policy and health services policy. Specific examples of national and international

**Courses:** HL38, HL68, HL88, PU60, PU67, PU85

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► PUN692 HEALTH CARE DELIVERY SYSTEMS

This unit adopts the broad objectives of effectiveness, efficiency and equity with which to analyse health care delivery systems. The unit consists of three separate modules which examine health care delivery systems from different perspectives. Module 1 is an introductory module which overviews the structural and functional components of health care delivery and defines the concepts of effectiveness, efficiency and equity. The Australian health care system is compared with those operating in both developed and developing countries. Module 2 introduces economic concepts and tools of analysis which primarily consider efficiency aspects of health care delivery. Module 3 analyses the management aspects of health care delivery within the context of change.

**Courses:** HL38, HL68, HL88, PU30, PU38, PU60, PU85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► PUN702 SOCIAL AND BEHAVIOURAL DETERMINANTS OF HEALTH

This unit provides students with a conceptual basis to understand the interrelationship between various social and cultural determinants of population health and health behaviour and provides an overview on global trends in public health and health promotion.

**Courses:** PU30, PU60, PU85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT

**Sem:** 1

#### ► PUN743 INTRODUCTION TO EPIDEMIOLOGY

This unit introduces the basic principles and methods of epidemiology as it is concerned with the identification, control and prevention of ill health in the community. It addresses specific aspects relating to the collection and interpretation of epidemiological data and issues of major public health importance both within Australia and overseas, and it provides students with the essential skills for logical, scientific assessment of the health and medical literature.

**Courses:** PU30, PU60, PU85

**Prerequisites:** PUN743

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT

**Sem:** 1

#### ► PUN814 PRINCIPLES OF EPIDEMIOLOGY

This subject systematically explores the fundamental concepts and principles of epidemiology at a deeper level than the introductory subject Introduction to Epidemiology and the elective subject Applied Study Design. It aims to develop further insights into epidemiological reasoning and a logical approach to public health problems using the tools of epidemiology. The material covered includes causal inference, principles of study design, strategies for data analysis, meta-analysis and a discussion of epidemiological philosophy.

**Courses:** PU30, PU60, PU85

**Prerequisites:** PUN743

**Contact hours:** 3 per week

**Credit points:** 12

**Sem:** 2

#### ► PUP032 INTERVENTION DESIGN AND THEORIES OF CHANGE

This unit examines theories of change as they impact on health promotion and health education practice and the development and implementation of public health interventions. The unit addresses the strengths and weaknesses of change theory into practice, and explores the nature of individual, group and organisational change strategies in public health and health promotion.

**Courses:** HL38, HL68, HL88, PU39, PU60, PU85

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1

#### ► PUP034 ADVANCED STUDIES AND PRACTICE IN HEALTH PROMOTION

This advanced unit identifies the repertoire of practice skills that health promotion students need to address health problems. It integrates needs identification, systematic planning and evaluation models into practice. Internal students put this knowledge into practice through participation in a group based health promotion project. The process of developing and implementing a health promotion program develops an understanding of issues such as ethics, writing goals and objectives, resources and time management. External students conduct a needs assessment and use the data to write a health promotion program proposal.

**Courses:** HL38, HL68, HL88, HL90, PU39, PU60, PU85

**Prerequisites:** PUP035 or PUP036

**Corequisites:** PUP035 or PUP036

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PUP023, PUN613

**Campus:** KG, EXT

**Sem:** 2

#### ► PUP037 HEALTH PROGRAM EVALUATION

The aim of the unit is to provide students with skills and knowledge of health program evaluation, its place in public health and health sector contexts, the influences of evidence and contexts, both organisational and political in program evaluation, and the application of program evaluation techniques. This unit complements health studies and deepens students' understanding of program evaluation in practice.

**Credit points:** 12

**Sem:** 2

#### ► PUP038 NEW DEVELOPMENTS IN HEALTH PROMOTION

The unit provides students with a critical understanding of the foundations of health promotion nationally and internationally and its influence and evidence in improving population health outcomes through new conceptual and practice perspectives. This unit complements public health and other studies and provides a foundation for health professionals of the fundamental underpinnings of the discipline nationally and internationally.

**Courses:** PU39, HL38, HL68, HL88, PU60, PU67, PU85, NS34

**Credit points:** 12

**Campus:** KG

**Sem:** 1

#### ► PUP116 ERGONOMICS

This unit explores the relationship between the worker, the work environment, and the work space. Occupational ill-health and injury arise from a lack of fit between the capabilities of workers and the design of the working environment, the work processes and the physical and mental demands of the task. Insight into ergonomics can assist practitioners to enhance the workers' safety and comfort, improve work efficiency and performance, and optimise work performance. Topics include basic anatomy and physiology of body systems, occupational biomechanics, and psychology.

**Courses:** HL38, HL68, HL88, PU60, PU65, PU85

**Prerequisites:** PUN301

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

#### ► PUP250 OCCUPATIONAL AND ENVIRONMENTAL MONITORING

Occupational and environmental monitoring is described as the recognition, evaluation, and control of hazards in the workplace. Workplaces contain numerous substances that are potentially hazardous to the health of the workforce other occupants and the public. Occupational and environmental monitoring spans a number of disciplines including toxicology, engineering, and statistics. The student needs to develop strong investigative and analytical abilities and professional judgment. Students also develop skills in evaluating the extent of workplace hazards. A preventative approach to dealing with occupational health problems is emphasised based on an understanding of the control hierarchy and the use of exposure standards.

**Courses:** HL38, HL68, HL88, HL90, PU60, PU65, PU85

**Prerequisites:** PUP415 **Corequisites:** PUP415

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► PUP415 OCCUPATIONAL AND ENVIRONMENTAL HEALTH

This unit explores chemical hazards in the working environment, epidemiological principles and practice, and identification of special risk groups in the workforce. Topics include the following: the pathological bases of disease in humans; chronic occupational diseases; occupational skin conditions; respiratory diseases; biological hazards in the work environment (bacteria, parasites, viruses, rickettsia and fungi); chemical and physical stresses and their physiological responses; physiological monitoring principles and practice; special risk groups; epidemiological principles and practice.

**Courses:** HL38, HL68, HL88, HL90, PU32, PU60, PU65, PU85

**Prerequisites:** PUN301 (For PU32 or students completing EVH major the prerequisite is either PUN301 or PUN620)

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

#### ► PUR202 ADVANCED DOCTORAL STUDIES

This unit aims to develop a repertoire of skills for Doctor of Health Science students to achieve their applied research goals and to enhance their learning through collaborative learning and support. Students develop skills in critically appraising literature; demonstrate and apply principles of ethics in health research and the processes required to meet ethical requirements; and develop a high level of presentation skills for professional and academic presentations.

**Courses:** HL90

**Credit points:** 12

**Campus:** KG

**Sem:** 2

#### ► PYB000 SCHOLARSHIP AND SKILLS (PSYCHOLOGY)

This is a compulsory first year unit. It focuses on the development of a number of generic competencies which are important outcomes of all QUT undergraduate courses. The unit provides a skill basis, developed within various discipline contexts, upon which subsequent units in the course will build. The unit is an essential first stage in the development of key skills and understandings at the tertiary level.

**Courses:** PY45

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► PYB007 INTERPERSONAL PROCESSES AND SKILLS

Psychology is generally a people-based profession with many positions involving not only understanding and testing people but communicating with them. More broadly however in most areas of modern work and indeed within personal relationships, people need developed interpersonal skills and the ability to conceptualise interactive processes. The microskills for communication are also the foundation for helping relationships and counselling.

**Courses:** PY45

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** PYB086

**Campus:** GP, CA, KG

**Sem:** 1, 2

#### ► PYB012 PSYCHOLOGY

The body of knowledge which defines Psychology as a discipline is basic to an understanding of human behaviour and interaction. Psychological theories, concepts and methods of investigation provide ways of evaluating personal and professional practice. Informed practice can then seek to meet the needs of individuals, groups and communities. All professional people need to have frameworks for understanding their own behaviour and that of others. This unit provides students with essential knowledge as a basis for their personal and professional effectiveness. It is the foundation for understanding further study in psychology and its many applications.

**Courses:** All courses

**Contact hours:** 3 per week

**Credit points:** 12

**Incompatible with:** PYB073

**Campus:** CA, GP, KG

**Sem:** 1, 2

► **PYB054 PSYCHOLOGY AND GENDER**

This unit asks 'What is gender?' It includes the following: theories of gender; male and female; masculine and feminine; roles versus power; counselling issues; old and new paradigms; history of psychology of gender; sexuality; mothers and fathers; psychology constructs and the female; psychology in patriarchal discourse; family therapy theory and feminist critiques; psychological constructs and the media; film and media; psychology of gender and power.

**Courses:** PY45

**Prerequisites:** PYB012 or PYB101 or PYB102

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

► **PYB057 APPLIED COGNITIVE PSYCHOLOGY**

This unit includes an overview of human information processing from the initial stage of sensory encoding, through the various mechanisms of information storage and retrieval, to the ultimate use of this information in higher level tasks such as reading. In addition, the unit highlights the application of this basic knowledge to real world problems in the domain of human-computer interaction.

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PYB303

**Campus:** KG

**Sem:** 2

► **PYB067 HUMAN SEXUALITY**

This unit explores historical approaches to studying, explaining and regulating human sexuality with an awareness of the social nature of definitions of 'normal' or 'acceptable' sexual behaviours. Students critically examine definitions of 'healthy' or 'morally acceptable' or 'normal' sexuality. Different models of sexuality are considered with an emphasis on contemporary critiques of the traditional paradigms of sexuality in the West.

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB073 INTRODUCTION TO BEHAVIOURAL SCIENCE AND HEALTH CARE**

This unit provides an understanding of the behavioural sciences which underlie much of the interaction of health professionals. Psychological and social factors that moderate human responses to health, disease, trauma and treatment, and the principles that underlie empathetic and effective intervention are the focus of study in this unit. A sound understanding of psychological and social concepts and principles is essential for the provision of contemporary, holistic nursing care for individuals and groups, and an important element in the development of effective relationships with clients, colleagues and other members of a multidisciplinary health care team.

**Contact hours:** 2 per week **Credit points:** 12

**Incompatible with:** PYB012

**Campus:** KG

**Sem:** 1

► **PYB101 INTRODUCTION TO PSYCHOLOGY 1A**

Psychology is a broad-ranging and multifaceted discipline which encompasses the scientific study of human behaviour, and the systematic application of knowledge gained from psychological research to a broad range of applied issues. This unit focuses on the areas of developmental psychology, social psychology, individual differences, and psychopathology.

**Courses:** PY45

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PYB012, PYB073

**Campus:** CA

**Sem:** 1

► **PYB102 INTRODUCTION TO PSYCHOLOGY 1B**

Introduction to Psychology 1b extends the introduction provided in Introduction to Psychology 1a to psychology as the scientific study of human behaviour. This unit introduces students to the basic biological and psychological processes underlying perception, memory, learning, problem solving, consciousness, and language. In addition, research participation experience is provided to the students.

**Courses:** PY45

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB110 PSYCHOLOGICAL RESEARCH METHODS**

This unit includes the following: an overview of the purposes and strategies of research; elementary research design; operationalising variables; descriptive statistics; distributions; measures of central tendency and spread; standard scores and percentiles; understanding relationships between variables through correlation and regression; an introduction to hypothesis-testing procedures using t-tests.

**Courses:** PY45

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** MAB237, MAB247

**Campus:** CA

**Sem:** 2

► **PYB158 INTRODUCTION TO SUBSTANCE ABUSE IN AUSTRALIA**

This unit introduces students to alcohol and drug use in the Australian context. The unit examines the terminology and definitions commonly associated with the alcohol and other drug field as well as providing an overview of models of drug use. This unit compares and contrasts current trends and patterns of substance use in Australia and critically examines the legitimacy of this focus. Australian substance use/abuse patterns are positioned within a global context.

**Courses:** All

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB159 ALCOHOL AND OTHER DRUG STUDIES**

This unit aims to give students an understanding of the extent of substance abuse in our community: who uses what, where and when; the models that have been advanced for understanding substance abuse; the intervention and therapeutic models utilised within the field; the effects of substance abuse, physiologically, socially and psychologically.

**Courses:** All

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

► **PYB201 PERCEPTION**

This unit presents an overview of perceptual and sensory processes in humans and other animals. While most emphasis is placed on visual and auditory perception, the unit also explores the skin senses, the chemical senses, and the orienting senses. In each case, the topics covered include the following: the nature of the relevant physical stimuli, the physiology of the sensory modality, the phenomenology of the sensory modality, sensory dysfunction, and examples of applied research in the domain. The unit begins with a primer of psychophysics.

**Courses:** PY45, PY07

**Prerequisites:** PYB012 or PYB101 or PYB102

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB203 DEVELOPMENTAL PSYCHOLOGY**

This unit provides an introduction to life span developmental psychology. It covers the major theories of life span development and includes biological, social and cognitive aspects of development from birth through to old age. It emphasises the interdependency of all aspects of development and the importance of the physical, family, socio-cultural and historical contexts within which development occurs. The unit develops the student's understanding of general patterns of human development and of the ways in which the development of particular individuals and groups may vary from these general patterns.

**Courses:** PY45, PY07

**Prerequisites:** PYB012 or PYB101 or PYB102

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB205 SOCIAL PSYCHOLOGY**

People are social beings. Their thoughts, feelings and actions are influenced by the real, imagined or implied presence of others. To obtain greater insight into people's behaviour, it is essential to investigate scientifically the relationship between

the individual and the group. The effects of the individual within the group and the group upon the individual are studied in this unit.

**Courses:** PY45, PY07

**Prerequisites:** PYB012 or PYB101 or PYB102

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

► **PYB206 PERSONALITY**

This unit consists of an overview of some of the major theories of personality to provide the student with an understanding of contemporary approaches to normal personality function. Emphasis is placed on the methods of studying and conducting research in personality. This unit provides a foundation for advanced studies in psychopathology.

**Courses:** PY45, PY07

**Prerequisites:** PYB012 or PYB101 or PYB102

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

► **PYB208 COUNSELLING THEORY AND PRACTICE 1**

This unit develops the student's knowledge of the counselling process and skills and provides practice in changing the ways in which people express, conceptualise and respond to their concerns. It builds upon the communication skills and concepts introduced in PYB007 and introduces a range of counselling approaches. It emphasises skills in solution oriented approaches but also covers a range of models and skills for workers in crisis situations. It provides a basis for further studies in counselling in clinical settings requiring psychotherapeutic intervention, and other modes of delivery such as couple, family or group work.

**Courses:** PY45, PY07

**Prerequisites:** PYB007 or equivalent

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB210 RESEARCH DESIGN AND DATA ANALYSIS**

This unit takes an hypothesis testing approach to data analysis. This means that statistical analysis is treated as one step in a larger process which also includes formulating theoretically sound predictions, designing a suitable experiment to test the predictions, selecting the appropriate statistics to test the predictions, calculating and interpreting the required statistics, and reporting the outcomes in the correct way. The aim of the unit is to provide the student with the knowledge and skills required to do these tasks with respect to two types of prediction: differences between means, and relationships between sets of scores.

**Courses:** PY45, PY07 **Prerequisites:** PYB110

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

► **PYB215 FORENSIC PSYCHOLOGY AND THE LAW**

Forensic Psychology is readily acknowledged as one of the fastest growing areas of psychology in the world. Forensic psychology concerns itself with the behaviour of people involved in the justice system, in particular, the criminal and civil components of the legal justice system. By its very nature, forensic psychology draws from a wide multi-disciplinary base for the application of its specialised knowledge. Hence, the student will need a broad introductory appreciation and critical perspective on what forensic psychology involves and has to offer in relation to the law and the practice of it by a range of practitioners within the legal justice system.

**Courses:** PY45, PY07

**Prerequisites:** 96 credit points

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

► **PYB257 GROUP WORK**

This unit provides an opportunity for experiential group learning, either intensively or in regular program times. It examines types of groups and varieties of group experiences: the importance and uniqueness of group medium; understanding behaviour in the group context; theories and models of group development; leader and member behaviours; planning, implementing and evaluating group methods; establishing groups and planning group approaches; the group as a

therapeutic community; evaluating group work; ethical issues.

**Courses:** PY45, PY07

**Prerequisites:** PYB007 or equivalent

**Contact hours:** 1 week intensive between Semesters 1 and 2

**Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► PYB258 INTRODUCTION TO THEORY AND RESEARCH IN HYPNOSIS

Not offered in 2005. This unit serves as an introduction to experimental hypnosis for those students who may wish to pursue postgraduate study in clinical and experimental Hypnosis. It covers socio-cognitive theories of hypnosis and interactive-phenomenological models and perspectives. The unit investigates research into dissociation, hypnotisability, regression, responsiveness, consciousness, altered states, hypnotic dreams and hallucinations, ideomotor signals, post-hypnotic amnesia and assessment of hypnotisability.

**Courses:** PY45, PY07

**Prerequisites:** 96 credit points

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

#### ► PYB260 PSYCHOPHARMACOLOGY OF ADDICTIVE BEHAVIOUR

This unit develops the student's understanding of behavioural pharmacology, with particular emphasis on the psychopharmacology of addictive behaviours. To establish a framework for learning, classes will initially include a review of neurobiology, introduction to pharmacokinetics, and discussion of research methods used to investigate psychopharmacological effects of drugs on behaviour. Subsequent classes address the history and origin of the more commonly used addictive substances, routes of administration, patterns of distribution and excretion, neuropharmacology, and the effects of acute and chronic administration. Substances covered include those that are most widely associated with problems of dependence and addiction.

**Courses:** PY45, PY07

**Prerequisites:** PYB158 or PYB159

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► PYB302 INDUSTRIAL AND ORGANISATIONAL PSYCHOLOGY

Participation in the workplace is an integral component in the lives of most people. It is important therefore to understand the behaviour of people, individually and collectively, within the workplace. Industrial and organisational psychologists are concerned with advancing the knowledge of the relationship between people and work, and using this knowledge to promote the effective organisation of human resources.

**Courses:** PY45, PY07

**Prerequisites:** PYB205 or PYB210

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► PYB303 COGNITIVE PSYCHOLOGY

This unit explores both the cognitive mechanisms involved in processing information and behavioural models of learning. The information processing component covers topics including sensory storage, attention, pattern recognition, working memory, long-term memory, and applied psychology. The learning component deals with the phenomenology of behavioural learning paradigms including classical and operant conditioning. In both cases, the unit emphasises the need for critical analysis of theories and the experimental evidence supporting them.

**Courses:** PY45, PY07

**Prerequisites:** 36 credit points of second and/or third year psychology units

**Contact hours:** 3 per week **Credit points:** 12

**Incompatible with:** PYB057

**Campus:** CA

**Sem:** 1

#### ► PYB304 PHYSIOLOGICAL PSYCHOLOGY

This unit aims to provide a broad introduction to the area of neuropsychology and discusses both the clinical and cognitive approaches in the field. Three broad areas are covered: neuroanatomy, neuropathology, the cognitive analysis of resulting deficits. Students learn about major neuro-

anatomical structures and their interconnections, with an emphasis on how this information is applied in the clinical setting. They also study a number of neuropsychological disorders in terms of their diagnosis, assessment and treatment, as well as the psychosocial effects such deficits have on the patients.

**Courses:** PY45, PY07

**Prerequisites:** PYB101, PYB102

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► PYB305 APPLIED SOCIAL PSYCHOLOGY

Social Psychology is the scientific study of how people's thoughts, feelings and actions are influenced by the real, imagined or implied presence of others. To assess whether social psychology theories and models can offer insight into people's behaviour in an applied context, it is essential to investigate the utility of these theories when translated to applied social settings. The student studies the application of social psychology methods, theories, principles and research findings to understanding and solving social problems.

**Courses:** PY45, PY07

**Prerequisites:** PYB205, PYB210

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► PYB306 PSYCHOPATHOLOGY

The unit provides an introduction to problems in psychological functioning and reviews research and theory relating to the major classes of mental disorder identified in DSM-IV, the diagnostic and classification manual most frequently employed in Australia and the United States. An integrated approach to the understanding of psychopathology is emphasised, highlighting the reciprocal influence of biological, psychological and social factors on behaviour.

**Courses:** PY45, PY07

**Prerequisites:** PYB205

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► PYB307 HEALTH PSYCHOLOGY

This unit examines the psychological dimension of physical illness, health, and health care. There is a strong focus on health psychology in an Australian context with particular emphasis on cross-cultural and indigenous health-related issues. The unit examines definitions of health and health psychology; the role of health psychology; the determinants of health behaviours (eg, cognitive, attitudinal, motivational, personality, social, developmental); medical settings and patient behaviour; patient and practitioner communication; stress, illness, and coping; pain and pain management; chronic and terminal illness in childhood and adulthood.

**Courses:** PY45, PY07

**Prerequisites:** PYB012 or PYB101 or PYB102

and 48 credit points of second year (psychology or non-psychology) units

**Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► PYB311 PSYCHOLOGICAL ASSESSMENT

Psychological assessment is a way of evaluating and understanding individuals. This unit is designed to introduce the student to the principles of psychological assessment. The different types of psychological assessments and issues involved in the assessment of normal and clinical populations are examined. Topics include ethical, psychometric, procedural and interpretative issues in the assessment of children, adolescents and adults. Although the major emphasis is on assessment theory, the mainstream tests that are available to qualified psychologists are also discussed.

**Courses:** PY45, PY07

**Prerequisites:** 36 credit points of second and/or third year psychology units

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► PYB342 INDEPENDENT STUDY

This unit can be undertaken only with prior approval from the Head of School. Approval will be given only when all other options have been exhausted. It involves a guided set of readings

and study in an approved area. Assessment is negotiated with the relevant supervisor.

**Courses:** PY45, PY07

**Prerequisites:** 36 credit points of second and third year psychology units.

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1, 2

#### ► PYB350 ADVANCED STATISTICAL ANALYSIS

The unit provides students considering further study in psychology with a thorough grounding in analysis of variance techniques, an introduction to multiple regression, and the data analysis tools used in a broad range of research designs in the social sciences. The unit extends the introduction to analysis of variance and regression provided in PYB210, considering more complex designs involving two or more independent variables. The unit is both theoretical (including the use of conceptual formulae to analyse simple data sets by hand) and practical (analysing data sets using the SPSS statistical package), with the aim of giving students a firm understanding of the principles underlying each analysis.

**Courses:** PY45, PY07

**Prerequisites:** PYB210

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► PYB353 OCCUPATIONAL AND VOCATIONAL PSYCHOLOGY

Not offered in 2005. Psychological research is the focus of this unit. The first 8 weeks expand the student's understanding of selection systems. Topics covered include principles of selection, job analysis, final decisions and utility analysis. Beyond this, there is a focus on 'tools' used such as work samples, psychological tests, interviews and biodata. In later weeks, issues relating to career planning and choice are examined. Relevant theories surrounding human development, needs, interests, values, personality factors, social cognition and person-organisation fit are outlined. The focus then moves to tools available for career guidance.

**Courses:** PY45

**Prerequisites:** 36 credit points of second or third year psychology units

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

#### ► PYB356 COUNSELLING THEORY AND PRACTICE 2

This unit focuses on the common facilitative factors within a counselling process paying attention to the person of the therapist and the counselling relationship. In order to respond appropriately and therapeutically to the needs of their clients, counsellors must have a clear understanding of the social and interactive processes which occur. Consideration of verbal, non-verbal, social, emotional, gender, psychological and social dimensions enables counsellors to develop effective, functional and client-focused relationships and to control biases, needs and possible exploitative practices.

**Courses:** PY45, PY07

**Prerequisites:** PYB208

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 1

#### ► PYB358 ADVANCED DEVELOPMENTAL PSYCHOLOGY

In this unit, the focus is on child development, with an emphasis on the infant and the child up to adolescence. Students review images of children and the unfolding of their cognitive abilities within the cadre of theories of cognitive development. Among the areas that are studied are the nature and development of memory, the development of numerical thinking, and children's ability to understand another's view of the world. In addition to these topics, a substantial part of the unit is concerned with the acquisition (both normal and atypical) of language, including the acquisition of language in the bilingual child.

**Courses:** PY45, PY07

**Prerequisites:** PYB203

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** CA

**Sem:** 2

#### ► PYB359 INTRODUCTION TO FAMILY THERAPY

Family therapy, based on a systemic or relationship understanding of human problems, has been one of the most significant influences in the

fields of counselling and psychology in recent times. With the increasing emphasis on the family as a focus for social policy, support services, research, and intervention, it is important for counsellors and psychologists to have some familiarity with the basic concepts and skills of this broad approach. This unit focuses on providing basic skills and concepts from one particular approach which will be called 'Constructive Therapy', combining aspects of solution-focused therapy, possibility therapy, narrative therapy and reflecting team practice.

**Courses:** PY45, PY07 **Prerequisites:** PYB208  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

#### ► PYB360 INTERVENTIONS FOR ADDICTIVE BEHAVIOURS

Addictive behaviours, in the form of alcohol-dependence, substance abuse and gambling, are recognised as major problems nationally and internationally. This unit focuses predominantly on psychological aspects of addictive behaviours. To establish a framework for learning, classes initially review issues relating to psychological models of addiction and methods of studying addictive behaviours. Issues pertaining to the symptomatology, etiology and assessment of addictive behaviours, as well as the theoretical underpinnings of a range of therapeutic interventions are also discussed. This unit encourages critical thinking and analysis with the aim of enhancing students' understanding of the complex issues relating to management of addictive behaviours.

**Courses:** PY45, PY07  
**Prerequisites:** PYB158 or PYB159 or PYB260  
**Contact hours:** 1 week intensive between Semesters 1 and 2  
**Credit points:** 12  
**Incompatible with:** PYN460  
**Campus:** CA **Sem:** 2

#### ► PYB371 INTRODUCTION TO ROAD SAFETY

This unit introduces the key principles and practices in road safety. Special emphasis is given to the broad context of road use/transport in society and the economic and social implications of road crashes. It introduces the basics of information retrieval, road crash analysis and interpretation, and the strategic development of road safety countermeasures.

**Courses:** PY45, PY07  
**Prerequisites:** 96 credit points  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB372 TRAFFIC PSYCHOLOGY AND BEHAVIOUR

This unit reviews the wide range of factors that influence the behaviour of road users, particularly those that contribute to the incidence of road crashes or exacerbate their severity. It considers all types of road users, including motor vehicle drivers and passengers, motorcycle riders, cyclists and pedestrians. The student examines a range of theoretical models which have been used to explain the behaviour of road users.

**Courses:** PY45, PY07  
**Prerequisites:** 96 credit points  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB374 APPLYING TRAFFIC PSYCHOLOGY

This unit reviews the various strategies and programs designed to modify road user behaviour. Effective and ineffective approaches are compared, in order to identify the key characteristics of successful programs. While this is a stand-alone unit, it extends many of the theoretical and practical issues covered in PYB372.

**Courses:** PY45, PY07  
**Prerequisites:** 96 credit points  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

#### ► PYB400-1 THESIS (PART 1)

This unit covers four parts (each of 12 credit points) which must be completed satisfactorily, leading to the submission of a research thesis. Students select a research topic and design and conduct a related research program using appropriate quantitative/qualitative methods of analysis.

This research is reported in a written thesis in APA fifth edition format. Assessment of the thesis will be in accordance with University assessment procedures. The total of 48 credit points are credited upon successful completion of all four thesis components.

**Courses:** PY09  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYB400-2 THESIS (PART 2)

See PYB400-1 for details.

**Courses:** PY09 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYB400-3 THESIS (PART 3)

See PYB400-1 for details.

**Courses:** PY09 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYB400-4 THESIS (PART 4)

See PYB400-1 for details.

**Courses:** PY09 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYB401 ADVANCED RESEARCH METHODS

This unit provides the student with a firm understanding of a range of multivariate procedures as well as the skills to apply each analysis appropriately. In addition this unit aims to prepare students as critical consumers of psychological research.

**Courses:** PY09, PY20  
**Prerequisites:** PYB350 or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB402 COUNSELLING PSYCHOLOGY

This unit introduces the field of counselling psychology, one of the specialised professional colleges within the Australian Psychological Society. The thematic focus is on the critical analysis, comparison, and evaluation of selected counselling orientations (for example, solution-focused therapy, narrative therapy, cognitive-behavioural therapy, psychodynamic therapy, etc). Comparison of these approaches involves a consideration of major contemporary issues relating to the integration of theory, research and ethical practice.

**Courses:** PY09, PY20  
**Prerequisites:** PYB208 or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB403 COGNITIVE NEUROPSYCHOLOGY

This unit aims to provide a broad introduction to the area of neuropsychology and discusses both the clinical and cognitive approaches in the field. Three broad areas are covered: neuroanatomy, neuropathology, and the cognitive analysis of resulting deficits. The students extend their knowledge of major neuroanatomical structures and their interconnections, with an emphasis on how this information is applied in the clinical setting. A number of neuropsychological disorders are also examined in terms of their diagnosis, assessment and treatment, as well as the psychosocial effects such deficits have on the patients.

**Courses:** PY09, PY20  
**Prerequisites:** PYB303, PYB304, PYB311  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB404 ISSUES IN SOCIAL DEVELOPMENTAL PSYCHOLOGY

This unit evaluates the contributions of social and developmental psychology to the understanding of human behaviour. The unit examines topics in social development, as they relate to families and individuals across the lifespan.

**Courses:** PY09, PY20  
**Prerequisites:** 3 years of psychology and PYB203 or equivalent  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB405 ADVANCED ORGANISATIONAL PSYCHOLOGY

Students explore the role of organisational psychologists as both internal and external consultants who are skilled psychological researchers.

Special attention is given to the interaction between organisation systems, community needs, and human beings in differing cultural, political and economic environments.

**Courses:** PY09, PY20 **Prerequisites:** PYB302  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB407 RESEARCH AND PROFESSIONAL DEVELOPMENT SEMINAR

This unit is intended to develop and extend students' understanding of research and practice issues in psychology. It covers current debates and controversies within psychology and students are encouraged to formulate critical responses to these topics. Attention is also given to the issue of ethics in psychological research and practice. A case-based approach to the study of ethics is used, with reference to the APS Code of Ethics as well as codes from similar international organisations. Where possible guest speakers, including researchers and practising psychologists, will be invited to participate in seminars to develop and expand students' understanding of broader issues in psychological research and practice.

**Courses:** PY09, PY20 **Prerequisites:** PYB401  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

#### ► PYB408 ADVANCED SOCIAL COGNITION

This unit provides an advanced coverage of social psychological theories that seek to explain how people think about themselves, others, and the social world in general. Students learn about the different ways in which people think about social information and how the social context is perceived, the ways in which information processing and decision-making can be biased by motivational and perceptual orientations, how individual and group decisions are reached, and the role of self-justification in decisions. In doing so, students build on the knowledge acquired in their undergraduate studies in social psychology.

**Courses:** PY09, PY20 **Prerequisites:** PYB205  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYB450-1 RESEARCH THESIS (PART 1)

The research project is listed as three separate 12 credit point units to be completed as a group empirical research project. Credit points are credited upon successful completion of all three research thesis components.

**Courses:** PY20 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYB450-2 RESEARCH THESIS (PART 2)

See PYB450-1 for details.

**Courses:** PY20 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYB450-3 RESEARCH THESIS (PART 3)

See PYB450-1 for details.

**Courses:** PY20 **Credit points:** 12  
**Campus:** CA **Sem:** 1, 2

#### ► PYN000 COUNSELLING STUDIES 1

This unit is intended to provide the student with an initial overview of the field of counselling, before focusing on the theory and practice of one contemporary perspective called 'Constructive' or 'Time-Effective' Therapy. It is an approach based largely in social constructionist principles and promotes a view of counselling as a unique conversational process which attempts to validate the client's experience, while pursuing possibilities for desired change. It also suggests a time-effective perspective, emphasising the possibility of working briefly and effectively with clients. Selected ideas and practices from several related approaches including solution focused therapy, possibility therapy and narrative therapy will be integrated.

**Courses:** PY12  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

#### ► PYN001 PROFESSIONAL STUDIES 1

This is an introduction to the professional study of counselling and the 'Common Factors' present in most counselling approaches. These factors, which include the working relationship, the focus on client resources, and the instillation of hope,

contribute greatly to the counselling outcome. In order to respond appropriately and therapeutically to the needs of their clients, counsellors must have a clear understanding of the social and interactive processes that occur in counselling. Verbal, nonverbal, social, emotional, gender, psychological and cultural dimensions are all present in the counselling process. Consideration of these dimensions enables counsellors to develop effective, functional and client-focussed relationships.

**Courses:** PY12

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN002 COUNSELLING STUDIES 2

The historical development of psychoanalysis and analytic therapy is examined as well as the utilisation of concepts derived from these approaches and from Process/Experiential work. Understanding the differences between neurotic and psychotic behaviour, and the need for appropriate referral, is highlighted.

**Courses:** PY12

**Prerequisites:** PYN000  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN003 GROUP STUDIES

This unit provides the development of skills and approaches in organising and facilitating group work, in the context of personal support and therapeutic groups. It addresses the following: establishing group norms; facilitating stages of group development; responding to member behaviour and developing facilitator interventions; planning, implementing and evaluating ethical group work practices; dealing with defensiveness and hidden agendas; applying brief solutions-focused and reflecting team processes to groups; examining the motion of the therapeutic milieu.

**Courses:** PY12

**Prerequisites:** PYN001  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN004 COUNSELLING STUDIES 3

This unit is designed to provide both an experiential and skills-based approach to specific approaches. The unit is taught in two complementary strands. One strand is largely experiential which focuses on students' explorations of their own families of origin and family dynamics. The second strand extends the process into specific theoretical perspectives and skill development. The approaches build on some of the major orientations and skill areas covered in the previous units: constructive therapies (ie solution-focused therapy and narrative therapy), psychodynamic approaches, and reflecting team work.

**Courses:** PY12

**Prerequisites:** PYN002  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN005 RESEARCH METHODS AND ISSUES; EVIDENCE BASED PRACTICE

This unit is designed to provide a practical understanding of evidence-based practice, in addition to the theory and skills to completely design a study in the area of counselling and counselling psychology. The unit covers the philosophical underpinnings of research, relevant computer literacy skills, and the application of relevant methodologies over a range of applied research questions. Completion of the unit should increase the students' effectiveness in their work with clients, groups, or organisations.

**Courses:** PY18

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN006 PROFESSIONAL STUDIES 2

This unit provides an experiential introduction to the process of professional supervision. Supervision processes, roles, responsibilities, content, approaches and theories are reviewed. Each student will have the experience of being supervised using one of five major counselling supervision approaches: solution-oriented, narrative, process-experiential, analytic and group-developmental. Professional issues commonly addressed in supervision such as power, gender, culture, consent, duty of care etc are reviewed.

**Courses:** PY12

**Prerequisites:** PYN001 **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN007 PROFESSIONAL STUDIES 3

Clinical supervision involves the development of a working alliance between a counsellor and another skilled professional in order to examine and reflect on the counsellor's work. The role of the supervisor ranges from an educative, advisory one through to a supportive, collaborative and consultative approach depending on the counsellor's level of professional development and competence. Supervision can occur individually or in groups and can take place 'in vivo' (during actual counselling) or delayed (using self reporting or taped material).

**Courses:** PY12

**Prerequisites:** PYN006 **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN008-1 PROJECT (PART 1)

Students undertake an individual project of theoretical and/or empirical research in a selected area of counselling. The project is supervised by a member of the teaching staff and progressive work is presented to other students. The completed project is to be presented in the form of a dissertation of not more than 15,000 words. Opportunity may be provided to work in the Family Therapy and Counselling Clinic as a way of achieving project requirements. PYN008/1 is completed in Semester 1, and PYN008/2 and PYN008/3 are completed in Semester 2. Credit points are credited upon successful completion of all three project components.

**Courses:** PY12

**Prerequisites:** PYN014  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN008-2 PROJECT (PART 2)

See PYN008-1 for details.

**Courses:** PY12

**Prerequisites:** PYN014  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN008-3 PROJECT (PART 3)

See PYN008-1 for details.

**Courses:** PY12

**Prerequisites:** PYN014  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN013 ADVANCED COUNSELLING STUDIES

This elective unit is designed to allow students to build on these skills by pursuing counselling studies in two or more specialised areas. Students select studies in two modules. Areas from which selections can be made might include the following: experiential therapy, family therapy, narrative therapy, relationship counselling, depression, loss and grief, and group work. Students may also complete one or both modules through approved forms of independent study (eg completion of approved workshops, courses or special areas of alternative study).

**Courses:** PY12

**Prerequisites:** PYN004  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN014 RESEARCH FOR COUNSELLING PRACTICE

This unit aims to prepare students for the reflecting team counselling practice in the Family Therapy and Counselling Clinic in the third year project units. The unit also prepares students for applied counselling project work in professional practice settings.

**Courses:** PY12

**Prerequisites:** PYN002  
**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN026 CLINICAL PSYCHOLOGICAL INTERVENTIONS 1

This unit provides the fundamental theoretical and applied approaches of counselling psychologists. It includes three major approaches to counselling: psychodynamic solution focused, narrative, and cognitive behavioural therapies. A wide range of therapeutic procedures suitable for clients who present typically for counselling is discussed, and students are encouraged to constructively criticise and utilise the ever-increasing literature in counselling psychology. The unit focuses on clients who have experienced major traumatic or developmental concerns.

**Courses:** PY18

**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN027 CLINICAL PSYCHOLOGICAL ASSESSMENT

This unit is designed to build on undergraduate training in psychometric assessment by reinforcing the understanding of theoretical perspectives in testing, increasing the range of tests with which the student is familiar, and developing competency in test administration, interpretation, and report writing in the counselling context.

**Courses:** PY18

**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN028 CLINICAL PSYCHOPATHOLOGY

This unit provides the student with a foundation and critical awareness of the development and phenomenology of psychological disorders. The unit undertakes a systematic study of the mechanisms and etiology of psychological disorders in individuals across the lifespan.

**Courses:** PY18

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN029 CLINICAL PSYCHOLOGICAL INTERVENTIONS 2

This unit focuses upon systemic and narrative approaches to relationship counselling and family therapy. Contemporary approaches to counselling have increasingly emphasised the importance of a relational understanding of human problems and change processes. The general area of family therapy has been most notable in contributing important concepts and skills that can be applied to most forms of relationship counselling. It is important to have some understanding of these concepts and skills in order to be able to respond to the diverse needs of contemporary practice.

**Courses:** PY18

**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN030 PROFESSIONAL PRACTICE IN CLINICAL PSYCHOLOGY

Clinical psychology practice involves a unique process which requires an understanding of special roles, power relationships, boundaries and ethical principles in order to safeguard client rights. This unit presents an overview of ethical, legal and professional issues encountered in practice, and also emphasises the role of supervision in addressing these.

**Courses:** PY18

**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator

**Contact hours:** 3 per week **Credit points:** 12  
**Campus:** CA **Sem:** 2

### ► PYN031-1 RESEARCH THESIS (PART 1)

In completing the thesis, students are expected to demonstrate competency in critical and analytic thought, and research-related skills in a context that may make a contribution to the professional literature of Clinical Psychology. PYN031 is divided into four 12 credit point sections: PYN031/1, PYN031/2, PYN031/3, PYN031/4. PYN031 (Part 1) requires students to hand in an extensive literature review on a chosen topic and an outline of the research question and the hypotheses or aims of the study. A total of 48 credit points are credited upon successful completion of all four research thesis components.

**Courses:** PY18, PY17

**Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN031-2 RESEARCH THESIS (PART 2)

See PYN031-1 for details.

**Courses:** PY18, PY17

**Credit points:** 12  
**Campus:** CA **Sem:** 1

### ► PYN031-3 RESEARCH THESIS (PART 3)

See PYN031-1 for details.

**Courses:** PY18, PY17

**Credit points:** 12  
**Campus:** CA **Sem:** 2

**► PYN031-4 RESEARCH THESIS (PART 4)**

See PYN031-1 for details.

**Courses:** PY18, PY17**Credit points:** 12**Campus:** CA**Sem:** 2**► PYN034 CHILDHOOD PSYCHOPATHOLOGY AND TREATMENT**

Not offered in 2005. This unit aims to provide students with a sound understanding of the aetiology, diagnosis and management of emotional and behavioural disorders in children. Emphasis is placed on understanding the child within the context of the family and the wider community, and the critical evaluation of the evidence for different strategies for assessing and managing the mental health needs of children and their families.

**Courses:** PY18**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator**Credit points:** 12**Campus:** CA**► PYN035 SUPERVISED PRACTICUM 1**

This unit provides students with the opportunity to develop psychodiagnostic assessment and clinical skills. Students undertake 250 hours of psychological practice including at least 80 hours of direct client contact.

**Courses:** PY18, PY17**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator, plus general registration with probationary conditions with Psychologists Board of Qld**Credit points:** 12**Campus:** CA**Sem:** 1, 2**► PYN036 SUPERVISED PRACTICUM 2**

This unit provides students with the opportunity to build on PYN035 and to develop psychodiagnostic assessment and clinical skills. It consists of supervised psychological practice in a placement agency.

**Courses:** PY18, PY17**Prerequisites:** PYN035, probationary registration with the Psychologists Board of Queensland**Credit points:** 12**Campus:** CA**Sem:** 1, 2**► PYN037 SUPERVISED PRACTICUM 3**

This core unit of the Master of Clinical Psychology course is intended to provide students with the opportunity to build on previous placements and to develop higher level psychodiagnostic assessment and clinical skills.

**Courses:** PY18, PY17**Prerequisites:** PYN036 plus probationary registration Psychologists Board of Qld. For Qld Health placements Hepatitis B Vaccination and Qld Health web-based orientation**Credit points:** 12**Campus:** CA**Sem:** 1, 2**► PYN038 SUPERVISED PRACTICUM 4**

This core unit of the Master of Clinical Psychology course builds on PYN037 and provides the opportunity to develop advanced psychodiagnostic assessment and clinical skills.

**Courses:** PY18, PY17**Prerequisites:** PYN037 plus probationary registration Psychologists Board of Qld. For Qld Health placements Hepatitis B Vaccination and Qld Health web-based orientation**Credit points:** 12**Campus:** CA**Sem:** 1, 2**► PYN039 HEALTH PSYCHOLOGY AND REHABILITATION**

Not offered in 2005. This unit develops core skills and understanding in health psychology and rehabilitation within a clinical psychology context. It includes modules in health psychology, behavioural medicine, rehabilitation and psychopharmacology. An integrated and scientific approach with the recognition of the importance of an evidence based perspective is used to explore the application of the principles in clinical situations.

**Courses:** PY18**Prerequisites:** Enrolment in PY18 or permission of Unit Coordinator**Campus:** CA**► PYN601 COUNSELLING AND CONSULTATION IN EDUCATIONAL****AND DEVELOPMENTAL PSYCHOLOGY**

Advanced skills in counselling and consultation are required as a core competency of educational and developmental psychologists who work both directly with children, adolescents and families, and also more indirectly with groups, organisations and communities. Their roles vary from counselling individual children and supporting families, to advising teachers and becoming agents of change within organisations and communities. The aim is to provide students with the knowledge and skills necessary for developing effective counselling relationships with children, adolescents, adults and families and for working as consultants to various groups and systems within educational and developmental settings.

**Courses:** IX20**Prerequisites:** Enrolment in IX20 or permission of Unit Coordinator**Contact hours:** 3 per week**Credit points:** 12**Campus:** CA**Sem:** 1**► PYN602 DEVELOPMENTAL PSYCHOPATHOLOGY**

Not offered in 2005. Educational and developmental psychologists work with children, adolescents and adults with a range of psychological disorders. They need a sound knowledge of major diagnostic systems and an understanding of assessment, treatment and prevention of psychopathology across the lifespan.

**Courses:** IX20**Prerequisites:** Enrolment in IX20 or permission of Unit Coordinator**Contact hours:** 3 per week**Credit points:** 12**Campus:** CA**► PYN603 PROFESSIONAL PRACTICE IN EDUCATIONAL AND DEVELOPMENTAL PSYCHOLOGY**

Not offered in 2005. The practice of psychology requires an understanding of special roles, power relationships, boundaries and ethical principles in order to safeguard client rights. It requires skills in working with individuals and groups from diverse backgrounds, including those from other cultural groups. An understanding of legal issues and relevant legislation and standards is also essential in professional practice.

**Courses:** IX20**Prerequisites:** Enrolment in IX20 or permission of Unit Coordinator**Credit points:** 12**Campus:** CA**► PYN606 APPLIED DEVELOPMENTAL PSYCHOLOGY**

In order to provide effective approaches to the developmental challenges facing individuals and families at all points along the life course, educational and developmental psychologists need skills for describing, explaining, assessing, intervening and collaborating in the promotion of optimum developmental outcomes. These skills are developed in this unit.

**Courses:** IX20**Prerequisites:** Enrolment in IX20 or permission of Unit Coordinator**Contact hours:** 3 per week**Credit points:** 12**Campus:** CA**Sem:** 2**► PYN610-1 RESEARCH THESIS**

To ensure high quality practice, psychologists working in the area of educational and developmental psychology are continually required to monitor and modify their own practice to incorporate knowledge of the most recent research, assessment tools and interventions. This requires educational and developmental psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas. The total of 48 credit points are credited upon successful completion of all four research thesis components.

**Courses:** IX20**Prerequisites:** Enrolment in IX20 or permission of Unit Coordinator**Credit points:** 12**Campus:** CA**Sem:** 2**► PYN610-2 RESEARCH THESIS**

Not offered in 2005. See PYN610-1 for details.

**Courses:** IX20**Prerequisites:** PYN610-1**Credit points:** 12**Campus:** CA**► PYN610-3 RESEARCH THESIS**

Not offered in 2005. See PYN610-1 for details.

**Courses:** IX20**Prerequisites:** PYN610-1**Credit points:** 12**Campus:** CA**► PYN610-4 RESEARCH THESIS**

Not offered in 2005. See PYN610-1 for details.

**Courses:** IX20**Prerequisites:** PYN610-1**Credit points:** 12**Campus:** CA**► PYP401 INTRODUCTION TO ROAD SAFETY**

This unit introduces the key principles and practices in road safety. Special emphasis is given to the broad context of road use/transport in society and the economic and social implications of road crashes. The unit introduces the basics of information retrieval, road crash analysis and interpretation, and the strategic development of road safety countermeasures.

**Courses:** PY40, PY41**Contact hours:** 3 per week**Campus:** CA**Sem:** 1**► PYP402 TRAFFIC PSYCHOLOGY AND BEHAVIOUR**

This unit reviews the wide range of factors that influence the behaviour of road users, particularly those that contribute to the incidence of road crashes or exacerbate their severity. It considers all types of road users, including motor vehicle drivers and passengers, motorcycle riders, cyclists and pedestrians. A range of theoretical models, which have been used to explain the behaviour of road users, are examined.

**Courses:** PY40, PY41**Contact hours:** 3 per week**Campus:** CA**Credit points:** 12**Sem:** 1**► PYP404 APPLYING TRAFFIC PSYCHOLOGY**

This unit reviews the various strategies and programs designed to modify road user behaviour. Effective and ineffective approaches are compared, in order to identify the key characteristics of successful programs. While this is a stand-alone unit, it extends many of the theoretical and practical issues covered in PYP402.

**Courses:** PY40, PY41**Contact hours:** 3 per week**Campus:** CA**Credit points:** 12**Sem:** 2**► PYP405 ROAD SAFETY EVALUATION MODELS**

This unit introduces the models and methods used to evaluate behaviour change interventions. In particular, it addresses the systematic application of social and behavioural research methodologies to improve the planning, implementation and monitoring of behavioural road safety programs and counter measures.

**Courses:** PY40, PY41**Contact hours:** 3 per week**Campus:** CA**Credit points:** 12**Sem:** 3**► PYP406 ROAD SAFETY THEORY TO PRACTICE**

This unit is undertaken in the latter half of both the Graduate Certificate and Graduate Diploma courses and draws together the various themes developed during the program. It is designed to provide students with an opportunity to study and respond to an existing or emerging road safety problem. The students are required to draw on the knowledge and skills they have developed to investigate and recommend solutions to the problem. As far as possible, the unit is designed to reflect the way road safety problems are approached and managed by road safety agencies.

**Courses:** PY40, PY41**Prerequisites:** PYP401**Contact hours:** 12 per semester, plus weekly contact with the Unit Coordinator**Credit points:** 12**Campus:** CA**Sem:** 2**► PYP407 INDEPENDENT STUDY**

This unit enables students to undertake an independent study based in their places of work. Individual supervision and objective feedback on the experience is an important component of the learning experience.

**Courses:** PY41**Prerequisites:** PYP401**Contact hours:** Weekly contact with Supervisor

**Credit points: 12****Campus: CA****Sem: 2****► PYP501 INTRODUCTION TO ROAD SAFETY**

This unit provides an introduction to the key principles and practices in road safety. It lays a foundation for the road safety program, both in terms of subject matter and the skills it promotes. As an introductory unit, special emphasis is given to the broad context of road use/transport in society and the economic and social implications of road crashes. It introduces the basics of information retrieval, road crash analysis and interpretation, and the strategic development of road safety countermeasures.

**Courses: PY40, PY41****Credit points: 12****Campus: EXT****Sem: 1, 2****► PYP502 TRAFFIC PSYCHOLOGY AND BEHAVIOUR**

This unit provides a detailed review of the wide range of factors that influence the behaviour of road users, particularly those that contribute to the incidence of road crashes or exacerbate their severity. The review considers all types of road users, including motor vehicle drivers and passengers, motorcycle riders, cyclists and pedestrians. Special emphasis is given to high-risk groups (ie young and older road users, alcohol-impaired road users, unprotected road users). A number of theoretical models, which have been either developed or used to explain the behaviour of road users, are examined. An overview is also provided of the different techniques that can be used to study the behaviour of road users.

**Courses: PY40, PY41****Credit points: 12****Campus: EXT****Sem: 1, 2****► PYP504 APPLYING TRAFFIC PSYCHOLOGY**

This unit provides a detailed review of the various strategies and programs that have been used in an attempt to modify road user behaviour. An overview of the different criteria and methods commonly used to assess the effectiveness of road user behaviour programs is provided. This facilitates a comparison of effective and ineffective approaches, designed to identify the key characteristics of successful programs. This comparison includes an analysis of relevant theoretical models that have been used to guide the development or implementation of road user safety programs. While all types of road users are considered, special attention is given to high-risk groups, particularly young drivers.

**Courses: PY40, PY41****Credit points: 12****Campus: EXT****Sem: 2****► PYP506 ROAD SAFETY: THEORY TO PRACTICE**

This unit is undertaken in the latter half of both the Graduate Certificate and Graduate Diploma courses and draws together the various themes developed during the program. It is designed to provide the student with an opportunity to study and respond to an existing or emerging road safety problem. Students are required to draw on the knowledge and skills they have developed to investigate and recommend solutions to the problem. As far as possible, the unit is designed to reflect the way road safety problems are approached and managed by road safety agencies.

**Courses: PY40, PY41****Prerequisites: PYP401 or PYP501****Credit points: 12****Campus: EXT****Sem: 2****► QCD110 COMMUNICATION FOR BUSINESS 1**

This unit focuses on the macro-skills of listening, reading, writing and speaking; establishes techniques for extending vocabulary; uses spoken and written texts of an academic nature to summarise, analyse, make inferences and recognise key concepts; incorporates strategies for effective group participation in a cross-cultural context; students learn techniques for writing successfully in genres appropriate to their field of study.

**Courses: BS40, IF06****Contact hours: 4 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCD111 COMMUNICATION 1**

This unit focuses on the macro-skills of listening, reading, writing and speaking; establishes techniques for extending vocabulary; uses spoken and written texts of an academic nature to help students to summarise, analyse, make inferences and recognise key concepts; provides opportunities for students to do initial academic research from secondary sources; helps students learn techniques for writing and speaking successfully in genres appropriate to their field of study.

**Courses: QC03, BS65, BS93, PB98, GS43, GS45, GS48, IF96****Contact hours: 4 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCD120 COMMUNICATION FOR INFORMATION TECHNOLOGY 1**

This unit focuses on the macro-skills of listening, reading, writing and speaking; establishes techniques for extending vocabulary; uses spoken and written texts of an academic nature to summarise, analyse, make inferences and recognise key concepts; incorporates strategies for effective group participation in a cross-cultural context; students learn techniques for writing successfully in genres appropriate to their field of study.

**Courses: IT10****Contact hours: 4 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCD210 COMMUNICATION FOR BUSINESS 2**

This unit further explores vocabulary and grammar and generic structure to develop skills of speaking and writing in context of field, tenor and mode. Effective speaking skills are developed according to academic presentation requirements. Skills for coherent and well-structured writing are also extended to enable efficient essay writing and the refinement of exam techniques. Language and structure appropriate to commercial, technical and academic communication are developed in support of business subjects. Communication for Business 2 language learning tasks are parallel with content material from these units.

**Courses: BS40, IF06****Prerequisites: QCD110 or IELTS 6.5 or approved equivalent****Contact hours: 4 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCD211 COMMUNICATION 2**

This unit further explores vocabulary and grammar and generic structure to develop skills of speaking and writing in context of field, tenor and mode. Effective speaking skills are developed according to academic presentation requirements. Skills for coherent and well-structured writing are also extended to enable efficient academic writing and the refinement of exam techniques. Language and structure appropriate to commercial, technical and academic communication are developed.

**Courses: QC03, BS65, BS93, BS98, GS43, GS45, GS48, IF96****Contact hours: 4 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCD220 COMMUNICATION FOR INFORMATION TECHNOLOGY 2**

This unit further explores vocabulary and grammar and generic structure to develop skills of speaking and writing in the context of field, tenor and mode. Effective speaking skills are developed according to academic presentation requirements. Skills for coherent and well-structured writing are extended to enable efficient essay writing and the refinement of exam techniques. Language and structure appropriate to commercial, technical and academic communication are developed in support of technology subjects. Communication for Information Technology 2 language learning tasks are parallel with content material from these units.

**Courses: IT10****Prerequisites: QCD120 or IELTS 6.5 or approved equivalent****Contact hours: 4 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCE001 GENERAL ENGLISH (FULL-TIME)**

General English offers English language and study skills for students preparing for entry into English for Academic Purposes, Foundation and Diploma courses and QUT undergraduate and postgraduate award programs. Courses are offered at all levels from elementary to advanced.

**Courses: QC20, QC21****Contact hours: 25 per week****Credit points: 20****per five week module****Campus: KG****Sem: 1, 2, 3****► QCE003 ENGLISH FOR ACADEMIC PURPOSES FOR DIRECT ENTRY TO QUT**

The major aim of the English for Academic Purposes course is to assist international students to upgrade their English proficiency level and to meet university entry requirements. This course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

**Courses: QC10****Prerequisites: Successful completion of the EAP entry test or an IELTS score of at least 5.5 (with no sub-score less than 5.0) or approved equivalent.****Contact hours: 25 per week****Credit points: 48****Campus: KG****Sem: 1, 2, 3****► QCE004 ENGLISH FOR ACADEMIC PURPOSES FOR QUT COURSES:**

The major aim of the English for Academic Purposes course is to assist international students to upgrade their English proficiency level and to meet university entry requirements. This course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

**Courses: QC10****Prerequisites: Successful completion of the EAP entry test or an IELTS score of at least 5.0 (with reading and writing sub-score of at least 5.0) or approved equivalent.****Contact hours: 25 per week****Credit points: 48****Campus: KG****Sem: 1, 2, 3****► QCE005 ENGLISH FOR TERTIARY PREPARATION STUDIES**

The aim of the ETP course is to assist international students to enhance their academic language skills in order to be successful in their chosen program. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

**Courses: QC22****Prerequisites: IELTS score of 5.5****Contact hours: 25 hours****Credit points: 8****Campus: KG****Sem: 1, 2, 3****► QCF111 TERTIARY PREPARATION STUDIES 1**

This unit introduces students to the study and learning skills required in an Australian university while gaining an understanding of the Australian culture and society. It includes the following topics: Australia's indigenous people, a brief review of Australian history, the family and multiculturalism, using the computer to gather information and communicate in an academic environment, assignment presentation, study skills and examination techniques.

**Courses: QC02, QC04****Contact hours: 5 per week****Credit points: 12****Campus: KG****Sem: 1, 2, 3****► QCF112 COMMUNICATION 1**

This unit is designed to help students communicate successfully in a variety of situations. It includes the fundamentals of both oral and written communications set within the context of a number of academic situations; oral communication; effective listening skills; knowledge of how to conduct a seminar; the gathering of information from a variety of sources and its organisation for specific purposes; the various writing genres and the correct use of conventions in the English language.

**Courses: QC02, QC04**

**Contact hours:** 6 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF115 FOUNDATION ENGLISH

This unit is designed to continue the development of reading, writing, speaking and listening skills in English to prepare students for further studies in Foundation Communications. A variety of everyday English literature and real-life situations is incorporated, with the emphasis being on active participation by students, as individuals and as group members. Such activities provide students with the skills to explore and use the English language in different contexts. Basic computing skills for word processing and the use of QUT computing services are developed.

**Courses:** QC04

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1

### ► QCF120 ACCOUNTING 1

This unit introduces the essential concepts of debit and credit; processing of financial transactions via journals and ledger through to trial balance for a sole-trading enterprise; end of accounting period adjustments and final reports, specifically preparation of Profit and Loss statements and Balance Sheets and accounting controls over cash.

**Courses:** QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF121 ECONOMICS 1

This unit introduces students to major economic issues; the basics of economic literacy necessary for future tertiary studies; a working knowledge of the global economy; an understanding of economic problems with particular reference to Australia; the main economic systems; the purpose of a five-sector model and the functions and characteristics of each sector.

**Courses:** QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG

### ► QCF122 ORGANISATIONS AND MANAGEMENT

This unit provides students with an appreciation of what it is like to be part of an organisation, recognising that they play a major role in all aspects of our lives. Increasingly we are in an international environment where the emphasis is on the use of information, the ability to learn and innovate, and to handle change. The unit focuses on the skills and the understanding of concepts that are needed in all areas of organisational life and which contribute to job and life satisfaction.

**Courses:** QC01, QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF153 PHYSICAL SCIENCES 1

This unit introduces students to scientific study and research processes and the basic principles underlying physics and chemistry; heat and temperature; geometric properties of light; reflection and refraction; diffraction and interference; introduction to electricity and magnetism; the atom; chemical periodicity; chemical names and formulas; chemical bonding; chemical quantities; chemical reactions, stoichiometry; thermochemistry; the behaviour of gases; water and aqueous systems, properties of solutions.

**Courses:** QC02, QC04

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF156 MATHEMATICS A1

This unit focuses on basic rules of arithmetic; ratio, percentages and proportion; introduction to statistics; averages and interpretation of graphs; dispersion and graphical display; probability; arrangements and combinations; basic measurement, area and volume; spending money; borrowing money and investment.

**Courses:** QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF157 MATHEMATICS B1

This unit focuses on basic algebra; equations (including simultaneous equations); functions (including polynomials, exponential, logarithmic) and their graphs; growth and decay; introduction

to trigonometry; factorisation; analytical geometry; averages; interpretation of graphs and probability.

**Courses:** QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF160 INTRODUCTION TO CREATIVITY

In this unit students investigate the nature of the creative culture and practice in relation to a variety of practices, including design, performance and production. It takes into account theories of creative process as well as industry applications and contexts. This unit assists students to understand and use the language of the performing and visual arts.

**Courses:** QC01, QC02, QC04

**Contact hours:** 4 hours per week **Credit points:** 12

**Campus:** KG

**Sem:** 1, 2, 3

### ► QCF210 APPLIED PSYCHOLOGY

This unit introduces students experientially to the scientific study of human behaviour and mental activity. Topics include people, the world around us and building relationships; memory, cognition and intelligence; learning approaches; personality; vocational behaviour; stress; abnormal behaviour; motivation and emotion; working in groups and social influences.

**Courses:** QC01, QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF211 TERTIARY PREPARATION STUDIES 2

This unit develops the skills initiated in Tertiary Preparation Studies 1; Australian government and law; foreign policy; oral presentations and preparation and presentation of a report

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF111 or equivalent studies  
**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF212 COMMUNICATION 2

This unit promotes clear and concise writing in particular genres (essays, assignments and reports) pertinent to undergraduate study; mastery of basic primary and secondary research skills related to assignment tasks; effective oral communication in seminar presentations and tutorial discussion; effective listening in lecture situations and answering exam questions with an awareness of relevance and time management.

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF112 or equivalent studies  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF220 ACCOUNTING 2

This unit examines various accounting sub-systems such as 10-column worksheets, control accounts and subsidiary ledgers; inventory and fixed asset systems; accounting for credit transactions; budgeting; cash flow and financial analysis techniques useful for management.

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF120 or equivalent studies  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF221 ECONOMICS 2

This unit introduces students to the study of macroeconomics. Topics include the five-sector model, the trade cycle, inflation and unemployment, government policy and the external sector.

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF121 or equivalent studies  
**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF230 INFORMATION PROCESSING

This unit introduces students to a range of problem-solving techniques and shows how these can be used to solve various problems using an object-oriented programming language; the foundation of relational databases in terms of storing, altering and retrieving information, using SQL for its implementation; a basis for the specification and implementation of information systems using relational algebra.

**Courses:** QC01, QC02, QC04

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** KG

**Sem:** 1, 2, 3

### ► QCF240 LEGAL STUDIES

This unit introduces students to the Australian legal system through an examination of the meaning of law, the role of the courts and parliament, the importance of judicial precedent and alternative methods of dispute settlement; the fundamental elements of the law of torts including negligence, defamation, nuisance, assault and battery and trespass to land; the law of contract including the formation of a contract, the factors that may affect the validity of a contract and the circumstances leading to the discharge of a contract; an exploration of the theoretical basis of criminal law and an investigation of its operation in practice

**Courses:** QC01, QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 3

### ► QCF252 LIFE SCIENCE

This unit examines the themes of life, macromolecules, metabolism, cell structure, cell processes, biological diversity, plant and animal physiology. The unit emphasises practical skills both in the laboratory and in the field.

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF153 or equivalent studies

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 2

### ► QCF254 PHYSICS

This unit introduces students to mechanics, sound, light, electricity; magnetism; electronics and nuclear physics. Relevance to the real world activities is stressed by discussing the various applications of concepts learned.

**Courses:** QC01, QC02, QC04

**Prerequisites:** Physical Sciences 1

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF255 CHEMISTRY

This unit prepares students for tertiary study in the applied sciences and provides a solid foundation in basic chemistry and experimental techniques; elements, atoms and ions, modern atomic theory; chemical bonding; inorganic compounds; chemical reactions and energy; water and solutions; gases; acids and bases; oxidation-reduction reactions and electrochemistry; reaction rates and chemical equilibrium and introductory organic chemistry.

**Courses:** QC01, QC02, QC04

**Prerequisites:** Physical Sciences 1

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF256 MATHEMATICS A2

This unit focuses on basic algebra; introduction to trigonometry; normal distribution; hypothesis testing; contingency tables; regression analysis; binomial distribution; inferential statistics; earning money; interest; annuities and t-Distribution.

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF156 or equivalent studies

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF257 MATHEMATICS B2

This unit focuses on rate of change; the derivative; stationary points; curve sketching; optimisation; integration; probability distribution; the binomial distribution; normal distribution; hypothesis testing; dispersion, graphical display.

**Courses:** QC01, QC02, QC04

**Prerequisites:** QCF157 or equivalent studies

**Contact hours:** 5 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

### ► QCF260 PROFESSIONAL STUDIES

In this unit, students investigate the nature of problem solving within creative structures and frameworks. Students work in a team environment using critical thinking and problem-solving frameworks to inform the development of a product or outcome. The unit provides students with individual and group problem-solving models, lateral thinking strategies and group work skills.

**Courses:** QC01, QC02, QC04

**Contact hours:** 4 per week **Credit points:** 12  
**Campus:** KG **Sem:** 1, 2, 3

**► QCS230 COMPUTING**

Designed to give international students the computing ability to function in tertiary studies in Australia, this unit covers access to the QUT network, Microsoft Windows, email, Internet, word processing and presentation, and the use of technology for research.

**Courses:** QC03

**Contact hours:** 3 per week

**Campus:** KG

**Sem:** 1, 2, 3

**► SCB222 EXPLORATION OF THE UNIVERSE**

This unit provides an introduction to optical observational astronomy; instrumentation; celestial sphere and astronomical coordinates; observations of constellations, stars, planets, clusters and other interesting celestial objects. The theory includes optics of telescopes; properties of light; determination of physical properties of stars; nebulae; stellar spectra and classification; historical models of the solar system; Kepler's law; gravitation; physical geology of the planets and formation of the solar system; phenomena of astronomical origin; brief introduction to stars and galaxies. The course includes practical exercises and field trips.

**Courses:** ED50, IF71, SC01

**Contact hours:** 5 per week **Credit points:** 12

**Campus:** GP

**Sem:** 2

**► SCB301 SCIENCE FOR DEAN'S SCHOLARS**

The content of this unit is offered through a series of approximately six modules, of which students are required to complete three. The range of modules, together with the selection required, ensures that students have a broad foundation for advanced studies. The modules offered include Life Sciences, Chemistry, Physics, Mathematics, Statistics, and Environmental Science.

**Courses:** SC01 + SC60 (Dean's Scholars Accelerated Honours Program)

**Contact hours:** 20 per week (for five weeks)

**Credit points:** 24

**Campus:** GP

**Sem:** 3

**► SCB303 TUTORIAL PROGRAM FOR DEAN'S SCHOLARS**

The content of this unit is designed in a consultative process involving the student, the academic mentor, and the Dean. The unit aims to allow the study of topics and concepts in science that will support the student's progress in initial studies in advanced level units.

**Courses:** SC01 + SC60 (Dean's Scholars Accelerated Honours Program)

**Prerequisites:** SCB301

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► SCB384 CRIME SCENE AND FORENSIC SCIENCE**

In this unit, students are introduced to the general philosophy of forensic science as it relates to the crime scene, the role of the justice system, the forensic scientist, and some of the topics at the forefront of crime investigation. These include the role of DNA profiling; computer crime; fraud; CBR (Chemical, Biological and Radiological) agents and explosives in counter terrorism. The lectures are supported by laboratory practicals, workshops, and demonstrations.

**Courses:** SC01

**Contact hours:** 4 per week

**Credit points:** 12

**Campus:** GP

**Sem:** 1

**► SCB401 RESEARCH METHODS FOR DEAN'S SCHOLARS**

This unit includes a literature review, experimental design, research proposal formulation, and writing and presentation of a research proposal.

**Courses:** SC01 + SC60 (Dean's Scholars Accelerated Honours Program)

**Prerequisites:** Either (a) SCB301 and SCB303, or (b) completion of at least 8 units in the SC01 program, including at least 3 Faculty core units from List A and at least 3 from List B, with a GPA of at least 6.5

**Contact hours:** Arranged by academic mentor

**Credit points:** 12

**Campus:** GP

**Sem:** 1, 2

**► SCB501-1 RESEARCH PROJECT FOR DEAN'S SCHOLARS**

This unit includes an individually tailored research project carried out under the supervision of a research mentor.

**Courses:** SC01 + SC60 (Dean's Scholars Accelerated Honours Program)

**Prerequisites:** SCB401

**Credit points:** 24

**Campus:** GP

**Sem:** 1, 2

**► SCB501-2 RESEARCH PROJECT FOR DEAN'S SCHOLARS**

This unit includes an individually tailored research project carried out under the supervision of a research mentor.

**Courses:** SC01 + SC60 (Dean's Scholars Accelerated Honours Program)

**Prerequisites:** SCB401

**Credit points:** 24

**Campus:** GP

**Sem:** 1, 2

**► SPB001 HUMAN DEVELOPMENT AND EDUCATION**

This unit includes the following: life span development for students interested in early childhood, primary or secondary schooling; theoretical perspectives on human development; cognitive, language, moral and social-emotional development; understanding differences in learners, the impact of ethnicity and culture on human development, exceptional development, and the concept of inclusive education.

**Courses:** ED43, ED50, ED51, ED52, ED55, ED56, ED57, IF70-79, IF81, IF82, IF83, IF84

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** EXT

**Sem:** 1, 2

**► SPB002 PSYCHOLOGY OF LEARNING AND TEACHING**

This unit includes the following: theories of learning; metacognition; motivation; problem-solving, thinking and creativity; intelligence and thinking styles; psychological dimensions of assessment; creating optimum environments for learning; teaching and learning implications of ethnicity and culture; teaching to difference in a context of inclusive education.

**Courses:** ED26, ED50, ED51, ED52, ED53, ED55, ED56, ED57, IF70-79, IF81, IF82, IF83, IF84

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

**► SPB003 TEACHING CHILDREN WITH LOW INCIDENCE DISABILITIES AND HEALTH PROBLEMS**

This unit provides an introduction to a wide range of low incidence exceptionalities (for example sensory impairments, developmental delay and health impairments such as epilepsy, asthma and hepatitis, and so on). It also addresses methods of managing associated disabling conditions, the implementation and evaluation of programming, and support and referral services.

**Courses:** ED90, ED91, ED92, ED82, ED50, ED51, ED52, ED54, ED55, IF70-79

**Prerequisites:** SPB001, SPB002

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► SPB004 TEACHING STUDENTS WITH LEARNING DIFFICULTIES**

This unit integrates a basic understanding and application of learning theory as it applies to exceptional populations. It focuses on approaches to teaching particular exceptional groups and provides an opportunity for development of specialist skills and resources in one of the following areas: (a) students with learning difficulties; (b) gifted students; (c) students with low incidence disabilities, for example hearing impaired, visually impaired or physically handicapped; (d) behaviourally or emotionally disturbed students.

**Courses:** ED43, ED50, ED51, ED52, ED54, ED55, ED90, ED91, ED92, ED82, IF70-79, IX01-09

**Prerequisites:** 48 credit points of Education Studies including SPB001, SPB002

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 1, 2

**► SPB006 EDUCATIONAL COUNSELLING**

This unit includes the following: the nature of counselling/helping in educational contexts; the educator as counsellor; characteristics of effective

helpers; practical development of communications skills; building an empathic relationship; structuring the counselling process; application of some counselling theories to the educational contexts; practical sessions using educationally based role plays to demonstrate effective use of the skills learned. This is a compulsory study school for external students. It is incompatible with studies in Counselling or equivalent at Diploma of Teaching level.

**Courses:** ED13, ED26, ED43, ED50, ED51, ED52, ED54, ED55, ED61, ED47, ED91, ED82, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2, 3

**► SPB007 HUMAN SEXUALITY AND LEARNING**

This unit addresses key topics in sexual behaviour and learning such as heterosexual and homosexual sexuality across the life span, contraception, abortion, STDs, child sexual abuse, sexual assault, pornography. It considers the implications for school, community, and healthcare workers and educators, with emphasis on the former.

**Courses:** ED90, ED91, ED92, ED82, IX01-IX09, ED26, ED43, ED50, ED51, ED52, ED54, ED55, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 2

**► SPB008 THE MIDDLE YEARS OF SCHOOLING**

This unit provides an understanding of the developmental needs and interests of young adolescents and reform initiatives being implemented by schools to address these issues. The unit analyses the work of agencies and major reports in the middle years of schooling and examines aspects of research focusing on reform in curriculum, pedagogy and the way schools are organised. The unit is one of four units forming a pathway into the middle years of schooling for primary and secondary teaching.

**Courses:** ED90, ED91, ED92, ED82, ED26, ED50, ED51, ED55, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, CB

**Sem:** 2

**► SPB009 RESEARCH METHODS IN EDUCATION**

This unit includes the following: development of an awareness and understanding of the research process for a historical, sociocultural, ethical and theoretical perspective; the validity, applicability and suitability of various research strategies for specific educational endeavours; comprehension and evaluation of research findings drawn from a variety of perspectives, paradigms and methodologies; development of skills to conduct research appropriate to answer questions.

**Courses:** ED23, ED26, ED28, ED43, ED50, ED51, ED52, ED54, ED55, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** EXT

**Sem:** 1

**► SPB010 EDUCATION, LAW AND THE BEGINNING TEACHER**

This unit includes the following: legal literacy; sources of education law; students and rights; students, law and schools; parents, law and education; teachers, rights and obligations; teachers and school-based accidents; educational malpractice.

**Courses:** ED26, ED43, ED50, ED51, ED52, ED54, ED55, ED90, ED91, ED92, ED82, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► SPB011 LEARNING/TEACHING ENVIRONMENTS**

This unit addresses the following: the environmental context for learning/teaching; the range of learning environments in education; how people interact in different learning environments; the design of learning experiences for people in non-formal learning contexts.

**Courses:** ED43, ED47, ED50, ED51, ED52, ED54, ED55, IF70-79

**Prerequisites:** 48 credit points of Education Studies

**Contact hours:** 3 per week

**Credit points:** 12

Campus: KG

Sem: 2

**► SPB012 CLASSROOM AND BEHAVIOUR MANAGEMENT**

The aim of this unit is to integrate concepts of behaviour development, management and discipline within a defensible pattern of classroom management and appropriate curricula processes.

**Courses:** ED43, ED47, ED50, ED51, ED52, ED54, ED55, ED91, ED90, ED91, ED92, ED82, IF70-79

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1, 2

**► SPB015 GETTING IT ALL TOGETHER: TEACHERS- PROFESSIONAL WORK IN THE DIFFERING CONTEXTS OF THE PRIMARY CLASSROOM**

This unit is designed to address the multidimensional, diverse and complex nature of teachers' professional work in the primary classroom with a view to developing, in graduating teachers, an holistic, comprehensive and critical approach to the curriculum dilemmas that permeate their work.

**Courses:** ED51

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

Sem: 2

**► SPB016 TEACHERS AND THE CURRICULUM**

This unit includes the following; development of concepts and strategies essential to the processes of school-based curriculum development and the design, implementation and evaluation of relevant school programs; the significance of curriculum in the broader sense to a spectrum of individual professional teaching perspectives.

**Courses:** ED26, ED50, ED51, ED53, ED55, ED61, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1, 2, 3

**► SPB018 TEACHING STRATEGIES**

This unit includes the following; evaluation of the students' teaching strategies; the literature on teaching strategies; critical evaluation of strategies/models of teaching available.

**Courses:** ED26, ED50-52, ED54, ED55, ED61, ED47, ED90, ED91, ED92, ED82, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG

Sem: 1, 2

**► SPB019 INTRODUCTION TO EDUCATIONAL ADMINISTRATION**

This unit provides an introduction to educational administration with particular reference to the theory and practice of work roles, motivation, leadership, decision making, change, conflict, needs assessment and presentation of written reports for various educational settings.

**Courses:** ED26, ED43, ED50, ED51, ED52, ED54, ED55, IF70-79

**Credit points:** 12

**Campus:** EXT

Sem: 2

**► SPB020 CLASSROOM ASSESSMENT PRACTICES**

This unit includes the following; examination of nature and purpose of assessment; traditional and contemporary developments in the assessment of students in a range of settings; test construction and validation; record keeping and reporting, with emphasis on practical applications by practising teachers.

**Courses:** ED90, ED91, ED92, ED82, ED26, ED43, ED50-55, ED61

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

Sem: 2

**► SPB022 THE MIDDLE YEARS CURRICULUM**

This unit enables students to gain an appreciation of the middle school movement and how this has the potential to impact on the needs and interests of young adolescents. The focus is on a more integrated approach to curriculum, teaching strategies appropriate to middle schools, and authentic assessment.

**Courses:** ED26, ED50, ED51, ED55, ED91, ED82, IF70-79

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, CB

Sem: 2

**► SPB023 ADULT LEARNING AND DEVELOPMENT**

This unit addresses the psychological foundations of human learning with special emphasis on adults. Contemporary theories and research issues such as cognition and learning, the effect of motivation on learning, understanding group dynamics, self/identity development, and creating effective learning environments are explored.

**Courses:** ED54, ED26

**Credit points:** 12

**Campus:** EXT

Sem: 2

**► SPB025 THE INDIVIDUAL IN ADULT AND WORKPLACE EDUCATION**

This unit involves tailoring instruction to the needs and strengths of individuals and acquiring confidence in planning, organising and implementing learning experiences. The focus ranges from setting up initial meetings to creating responsive learning environments and evaluating outcomes in terms of individual learners.

**Courses:** ED54, ED26

**Credit points:** 12

**Campus:** EXT

Sem: 2

**► SPB027 ORIENTATION TO ADULT AND WORKPLACE PROGRAMS**

This unit introduces basic concepts in curriculum and curriculum processes for contemporary adult, workplace and community education. It considers the nature of programs; investigating needs, competencies and outcomes; planning learning opportunities; participant assessment and program evaluation.

**Courses:** ED54, ED26, ED61

**Credit points:** 12

**Campus:** EXT

Sem: 1

**► SPB028 THE GROUP IN ADULT AND WORKPLACE EDUCATION**

This unit provides an introduction to the theory relating to groups and explores processes which occur in adult groups. Participants deal with practical applications for educational settings, with emphasis on developing facilitating skills.

**Courses:** ED54, ED26, ED61

**Corequisites:** SPB029

**Credit points:** 12

**Campus:** EXT

Sem: 1, 2

**► SPB029 INSTRUCTIONAL STRATEGIES FOR ADULT AND WORKPLACE EDUCATION**

This unit involves the exploration of theories and practices related to effective instructional strategies in diverse settings and provides an introduction to skills and concepts required by competent practitioners in formal and non-formal teaching and learning settings within workplaces and communities.

**Courses:** ED54, ED26, ED61

**Corequisites:** SPB027

**Credit points:** 12

**Campus:** KG, EXT

Sem: 2

**► SPB030 PROGRAMMING IN ADULT AND WORKPLACE EDUCATION**

This unit addresses important aspects of responsive programming for adult and workplace education. It covers the planning implementation, evaluation and reflection components of program development, design and delivery.

**Courses:** ED54, ED26

**Prerequisites:** SPB029

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1

**► SPB034 ORGANISATION AND ADMINISTRATION OF ADULT AND WORKPLACE EDUCATION**

Adult and workplace educators are responsible for the effective planning, organisation and management of a broad spectrum of training modules, courses and programs. This unit assists the adult and workplace educator to explore, analyse and apply strategic planning and HRM processes within diverse organisational contexts. Emphasis is placed on an understanding of the concepts and theories associated with enhancing learning at work, and human resource management, in order to guide effective practice.

**Courses:** ED54, ED26

**Prerequisites:** SPB026, CLB304

**Contact hours:** 3 per week

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1

**► SPB035 PRIMARY CURRICULUM AND PEDAGOGIES: INTEGRATED PRIMARY AND MIDDLE YEARS CURRICULUM PROJECT**

This unit focuses on pedagogies, planning and assessment within the curriculum organisers of the New Basics, and the Curriculum Guidelines in the key learning areas. It aims to increase student knowledge and understanding of how curriculum organisers and outcomes can be used to plan intellectually challenging curricula for young children.

**Courses:** ED91

**Credit points:** 12

**Campus:** KG

**► SPB036 PRIMARY CURRICULUM AND PEDAGOGIES: ASSESSMENT AND REPORTING**

Monitoring individual development and designing appropriate intervention programs/units to meet individual needs is the work of all teachers. Thus, the unit provides opportunities for the student to devise ways to monitor student development and to engage with current international, national and state developments that require systemic evaluation of all key learning areas.

**Courses:** ED91

**Credit points:** 12

**Campus:** KG

**► SPB100 INTRODUCTION TO ADULT LEARNING AND DEVELOPMENT**

This unit explores seminal learning theories and the emerging differentiation of these to explain adult learning experiences in diverse and challenging organisational and community contexts.

**Courses:** ED84

**Prerequisites:** SPB102

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1

**► SPB101 GETTING TO KNOW GREAT THINKERS IN ADULT EDUCATION**

The unit introduces students to the broad field that constitutes adult education and the diversity of provision that is available to adults. In order to be effective in adult education roles, it is necessary to have a clear understanding of the nature and foundations of education, specifically as it relates to adults.

**Courses:** ED84

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1

**► SPB102 PROFESSIONAL COMMUNICATION IN ADULT LEARNING CONTEXTS**

This unit introduces students to principles and concepts of professional communication, discourse and information literacy. It builds on students' existing skills and understandings of these areas and encourages them through a range of practical individual and/or small group tasks.

**Courses:** ED84

**Credit points:** 12

**Campus:** KG, EXT

Sem: 1

**► SPB103 PROGRAM DESIGN, ASSESSMENT, REPORTING AND EVALUATION**

After completing this unit, students should be able to design appropriate learning experiences and assessment to maximise the learning of adults, taking into consideration the multitude of demands on the learners and other stakeholders. Students should also be able to design appropriate evaluation processes.

**Courses:** ED84

**Credit points:** 12

**Campus:** KG, EXT

Sem: 2

**► SPB104 PRACTITIONER RESEARCH AND INQUIRY**

After completing this unit, students will be able to conduct basic quantitative and qualitative research methods, justify the selection of appropriate methodologies and relate these methodologies to needs analysis.

**Courses:** ED84

**Credit points:** 12

**Campus:** KG, EXT

Sem: 2

**► SPB105 POLITICS OF DIVERSITY AND IDENTITY**

In this unit, students have an opportunity to learn about social and educational policy drivers nationally and internationally and their impact on diverse learners. Gender implications are also considered.

**Courses:** ED84

**Credit points:** 12

**Campus:** KG, EXT

**► SPB106 MANAGING LEARNING ORGANISATIONS**

In this unit, students examine an educational entity, define its strategic orientation and describe how this orientation affects its planning, structure and leadership as well as its control mechanisms.

**Courses:** ED84

**Prerequisites:** SPB103, SPB104

**Credit points:** 12 **Campus:** KG, EXT

**► SPB107 KNOWLEDGE MANAGEMENT AND LEARNING PARTNERSHIPS**

Using systems theory as a base model, students examine how the legitimate and shadow systems of an organisation or community manage knowledge and identify the creative processes needed to assist the organisation or community in far-from-certainty external environments.

**Courses:** ED84 **Prerequisites:** SPB105, SPB106

**Credit points:** 12 **Campus:** KG, EXT

**► SPB108 CAREER DEVELOPMENT AND PROFESSIONAL FUTURES**

Career planning for all workers, including adult learning professionals, is now a lifelong task rather than a matter of a good initial choice. This capstone unit will prepare graduates to track where the next opportunities may arise, for themselves and for the clients with whom they work, and to prepare for these opportunities through continual learning.

**Courses:** ED84

**Credit points:** 12

**Campus:** KG, EXT

**► SPB109 MUSEUMS: PLACES OF LEARNING**

Although visits to museum settings are common place as a part of most schools' formal curricula, there is much evidence that teachers need to further their understanding of the learning potential and multiple ways in which these experiences can be used. This unit is designed to explore the nature and character of 'museum learning', and examine ways which teachers might optimise students' and children's experiences in and beyond museum settings.

**Courses:** ED90, ED91, ED92, ED82, ED50,

ED51, ED52, ED54, ED55, ED43, IF70-79

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► SPN610 ADVANCED EDUCATIONAL COUNSELLING**

This unit provides students with an overview of major theories of counselling and assists them in the development of a framework using one of these approaches that they may use as a basis for their counselling.

**Courses:** ED09, ED13, ED11, ED61

**Prerequisites:** LEB441, SPB006

**Credit points:** 12 **Incompatible with:** LEB442

**Campus:** KG

**Sem:** 2

**► SPN611 EDUCATIONAL COUNSELLING PROFESSIONAL PRACTICE**

This unit includes discussions of the following: professional practices of educational counsellors working in the P-12 context; intervention, prevention, affective, and developmental programs; adolescent issues and career counselling; consultation, models, theories and practices; self-management skills; time management; program evaluation; accountability; decision-making.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** KG

**Sem:** 2

**► SPN612 PSYCHOEDUCATIONAL ASSESSMENT**

Students gain a broad understanding of the various types of assessment techniques and strategies used in the educational context to develop understandings and capacities that advance learners from basic competence in professional practice to confident and ethical leadership in learning innovation in school guidance and counselling.

**Courses:** ED13, ED11, ED28 **Credit points:** 12

**Campus:** KG

**Sem:** 1

**► SPN613 LEARNERS WITH SPECIAL NEEDS: PROGRAMMING FOR INCLUSIVE EDUCATION**

Teachers learn to understand the development and learning performance of students with special

needs from a functional perspective. Particular attention is paid to understanding the nature of learning, to diagnosing cognitive and affective coping and problem solving strategies, and to harnessing students' desire to learn.

**Courses:** ED09, ED13, ED11 **Credit points:** 12

**Campus:** EXT

**Sem:** 1

**► SPN614 TEACHING STUDENTS WITH LEARNING DIFFICULTIES OR DISABILITIES**

Teachers should view students as individuals who require different kinds of support and not as educational failures. Competing models for explaining the aetiology and characteristics of learning/literacy difficulties are evaluated and their educational implications explored.

**Courses:** ED09, ED13, ED11

**Campus:** KG, EXT

**Sem:** 2

**► SPN615 MANAGING LEARNERS WITH DISABILITIES AND CHALLENGING BEHAVIOURS IN THE CLASSROOM**

This unit aims to provide theoretical and practical knowledge for regular and special educators working in the area of behaviour management in schools. Preventative behaviour management practices are addressed for the school and classroom and more specialised skills and strategies that may be utilised with challenging behaviour will be examined.

**Courses:** ED09, ED13, ED61 **Credit points:** 12

**Campus:** KG, EXT

**Sem:** 2

**► SPN616 INNOVATIONS IN PROGRAMS AND PLANNING FOR BEHAVIOUR MANAGEMENT**

This unit develops the ability to take the initiative to embrace innovation and to manage change productively as leaders in education and learning by implementing programs for learners and fellow professionals.

**Courses:** ED09, ED13, ED61, ED11

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

**► SPN617 FOUNDATIONS OF BEHAVIOUR AND CLASSROOM MANAGEMENT**

This unit promotes the development of critical knowledge and skills so teachers can show leadership in constructing innovative and comprehensive ways to develop appropriate conduct and manage problematic behaviour in their professional environment.

**Courses:** ED09, ED11, ED13, ED61

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT

**Sem:** 1

**► SPN618 INNOVATIVE CAREER DEVELOPMENT PROGRAM**

The unit aims to encourage learners to engage in lifelong learning and, within the context of career development practice, lead innovations in the delivery of career development programs to a wide range of audiences in the community.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** KG

**Sem:** 1, 3

**► SPN619 CONSTRUCTING CAREER THEORY**

The unit aims to provide students with an overall view of extant theories of career development. Major theories which have a significant impact on empirical and practical work are covered. Less well developed emerging theories are also covered. Students are encouraged to understand the relevance of theory to their own practice.

**Courses:** ED09, ED11, ED13, ED61

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

**► SPN620 CAREER COUNSELLING**

The unit encourages learners to critically evaluate these perspectives to formulate a personal position with respect to their career counselling practice. Students have the opportunity to gain experience in the application of traditional and emerging career counselling processes, and to contribute to innovation in supporting the role of career counselling in a new career guidance context of career self-management.

**Courses:** ED09, ED13, ED61

**Prerequisites:** SPB006 or SPN610

**Credit points:** 12

**Campus:** KG

**Sem:** 1, 3

**► SPN622 PREVENTIVE LEGAL RISK MANAGEMENT IN LEARNING CONTEXTS**

The core aim of the unit is to provide students with a level of legal literacy sufficient to implement and practice sound preventive legal risk management strategies.

**Courses:** ED09, ED61, ED13, ED11

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

**► SPN624 ADULT AND PROFESSIONAL LEARNING**

The focus of this unit is on how theories can be used to interpret and explain concepts such as knowledge construction skills, acquisition, transferability/ adaptability of knowledge and skills, effects of prior knowledge, higher order problem finding and solving skills, the development of the self, and individual beliefs and values.

**Courses:** ED09, ED13, ED11, ED61

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT

**Sem:** 1

**► SPN625 CHANGING AGENDAS IN LEADERSHIP**

The aim of this unit is to enhance the leadership understanding and capabilities for both current leaders and those aspiring to such positions in organisations today and the future. This aim is set in a broader understanding of notions of shared and multiple leadership concepts.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** KG, EXT

**Sem:** 1, 3

**► SPN626 LEADING AND MANAGING PEOPLE**

The aim of this unit is to enhance the understandings and capabilities of leaders to manage their organisation's human resources in rapidly changing and challenging contexts.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Incompatible with:** PRN630, PRN631, PRN632

**Campus:** KG, EXT

**Sem:** 2

**► SPN627 POLICY DEVELOPMENT AND ANALYSIS**

The aim of this unit is to develop in students critical understandings about the policy process: policy development, implementation, effectiveness and evaluation.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** EXT

**Sem:** 2

**► SPN628 LEADERSHIP FOR CHANGE**

The overall aims of this unit are for students to better understand change in organisations and to be able to apply these understandings in their own organisational contexts.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** EXT

**Sem:** 1

**► SPN629 CURRENT ISSUES IN LEADERSHIP**

The aim of this unit is to enhance the understandings of leaders and aspiring leaders regarding some of the current and emerging leadership and organisational agendas.

**Courses:** ED09, ED13, ED11, ED61

**Credit points:** 12

**Campus:** EXT

**Sem:** 1

**► SPN633 CRITICAL FRAMEWORKS FOR ANALYSING THE MIDDLE YEARS OF SCHOOLING**

This unit provides teachers with an opportunity to develop innovative approaches to their work by enabling them to analyse their context through a range of critical frameworks, design appropriate and effective learning programs that address that context and develop approaches to leadership that enable their ideas to extend beyond their own context.

**Courses:** ED09, ED61, ED13

**Contact hours:** 3 per week **Credit points:** 12

**Campus:** EXT

**Sem:** 1, 3

► **SPN634 RETHINKING PROGRAMS AND PEDAGOGIES: THE MIDDLE YEARS OF SCHOOLING**

The aim of this unit is to provide teachers with an opportunity to develop innovative curriculum and pedagogy that are relevant to middle school contexts. It enables them to build understanding of a research approach and blend this with their own personal experiences.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

► **SPN635 ASSESSMENT AND REPORTING IN THE MIDDLE YEARS OF SCHOOLING**

This unit aims to develop educators and create new understandings about assessment and reporting in a manner that enables them to design innovative approaches for their own contexts. It aims to develop confidence in educators so that they can engage in this work, and also develop leadership capacities with regard to assessment and reporting to that they can lead whole school initiatives in the area.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** EXT **Sem:** 2

► **SPN637 MANAGING KNOWLEDGE IN LEARNING ORGANISATIONS**

The aim of this unit is to give students a basic model so that they can analyse the knowledge assets of an organisation and understand the processes used by organisations to manage knowledge assets.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

► **SPN638 EDUCATION LAW**

Educational institutions are being increasingly confronted by areas of law to such an extent that their policies and practices are now being driven by legal imperatives. Consequently, educators require a level of legal literacy sufficient to manage the many legal problems that arise in educational settings.

**Courses:** ED09, ED61, ED13 **Credit points:** 12  
**Campus:** EXT

► **SPN640 DEVELOPMENTAL AND EDUCATIONAL ASSESSMENT**

This unit provides students with an opportunity for foundation study of principles and methods for assessing individual development and personal characteristics. Underlying this unit is the assumption that the purpose of assessment is to collect information which will be used to design interventions.

**Courses:** IX20 **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **SPN641 INTERVENTIONS IN EDUCATIONAL AND DEVELOPMENTAL PSYCHOLOGY**

This unit aims to equip students with a range of applied strategies for evidence-based prevention and intervention within educational and developmental contexts. Practical skills need to be founded on a deep conceptual understanding of the links between assessment and intervention.

**Courses:** IX20 **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **SPN642 LEARNING DIFFICULTIES: ASSESSMENT AND INTERVENTION**

The aim of the unit is to provide students with a sound knowledge of learning processes, and methods for assessing individuals with learning difficulties. It also aims to introduce students to a variety of appropriate interventions for individuals with learning difficulties and associated impairments.

**Courses:** IX20 **Credit points:** 12  
**Prerequisites:** SPN640 **Campus:** KG **Sem:** 2

► **SPN643 DEVELOPMENTAL PROCESSES AND DISABILITY**

The aim of the unit is to equip students with a sound framework on which to base their professional practice. Working effectively with individuals with a range of disabilities, their families, schools and communities requires knowledge about the ways in which development may be compromised by disability, and the ways in

which contextual influences contribute to developmental outcomes.

**Courses:** IX20 **Credit points:** 12  
**Campus:** KG **Sem:** 1

► **SPP500 LEARNERS WITH SPECIAL NEEDS**

This unit provides an overview of special educational needs of school (p-12) and TAFE College learners arising from cognitive, behavioural, sociocultural and physical disabilities and differences. The development of effective teaching/learning strategies suited to special educational needs will be a focus of this unit.

**Courses:** ED28, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

► **SPP501 CONSULTATION AND COMMUNICATION**

This unit aims to provide the theoretical knowledge and practical skills relevant to a consultation and collaboration model of services provided by teachers working in supportive roles within an educational setting. Intra and interpersonal skills are addressed along with a review of the role and responsibilities of learning support teachers in inclusive settings.

**Courses:** ED28, ED61 **Credit points:** 12

► **SPP502 PROGRAMMING FOR STUDENTS WITH LEARNING DIFFICULTIES/DISABILITIES**

This unit provides a review of the research of the impact of learning difficulties/disabilities on learning and in particular on learning literacy. The learning and literacy demands of the curriculum are reviewed and appropriate methods for programming for students with special learning needs are addressed. Key issues considered are consultation and collaboration between regular and support teachers.

**Courses:** ED28, ED61 **Credit points:** 12  
**Campus:** EXT **Sem:** 1

► **SPP503 LITERACY AND LEARNING**

This unit includes the following: review of significant learning difficulties/disabilities among learners in schools and post-secondary education; foundation studies in language and learning; assessment and monitoring of literacy related curriculum tasks; test interpretation and development; related approaches to teaching; informed by principles derived from psycholinguistics, metacognition, process approaches to literacy and constructivist approaches to learning within an inclusive education framework.

**Courses:** ED28 **Credit points:** 12

► **SPP504 CURRICULUM: LEARNERS WITH SPECIAL NEEDS**

This unit includes the following: introduction to curriculum development and situational/self-analysis; innovative program approaches for learners with special needs; changing ourselves and our educational environments; evaluation of curriculum development; resource teacher support for school-based curriculum development; human relationships education and participation and equity.

**Courses:** ED28 **Credit points:** 12
