Overview
This four year professional course links Journalism with business studies and is the choice of about one-third of commencing journalism students. In addition to the all-media journalism subjects, students cover a broad range of business subjects.

Career Outcomes
Journalism graduates are prepared for careers in both print and broadcast journalism. Opportunities also exist to become press secretaries and media officers. The combination of journalism with business majors can equip you for specialist journalism careers in finance, international affairs or political and social commentary. Your journalism degree will be of benefit even if you choose to pursue a career in business, as you will graduate with highly developed writing skills. Public relations students will find this particularly relevant in tasks such as editing trade and specialist publications, speech writing or in corporate communication roles.

Professional Recognition
The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership as follows:

*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance;
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program);
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association;
*Economics: Economic Society of Australia (Queensland Division);
*Finance: Financial Services Institute of Australasia (FINSIA);
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;
*Management - Australian Institute of Management;
*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association;
*Public Relations - Public Relations Institute of Australia.

* Some may depend on units completed.

The Journalism degree is recognised by the Australian Journalists Association section of the Media Entertainment and Arts Alliance.

Course Design
This course is made up of 384 credit points. Each component (i.e. Business and Journalism) comprises 192 credit points.

The Business component is made up of 96 credit points of Faculty core units and 96 credit points of units from a Business major.

The Business majors are accountancy, advertising, economics, finance, human resource management, international business, management, marketing, public relations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Overview
The course consists of 16 human services units and 16 creative industries units, and the program is integrated so that you will study both human services and creative industries units in each semester. In human services you may choose to focus on corrective, disability, youth, or child and family services. You will also study a range of professional skills and then gain practical experience through professional practice placements in government or community organisations.

The Creative Industries course allows you to combine professional practice in corrective, disability, youth or child and family services with studies from a range of creative industries second majors, including art and design history; creative and professional writing; dance; digital media; drama; fashion; film, television and screen; interactive and visual design; journalism, media and communication; or literary and cultural studies.

Career Outcomes
This double degree prepares you as a multiskilled professional for careers in child safety and a range of welfare and community services. In particular you will have a set of skills which will be suitable for areas which combine human services and creative skills, for example, community development and cultural services, and youth arts.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Creative Industries and Human Services) comprises 192 credit points.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

The Human Services component is made up of 144 credit points of Faculty core units and 48 credit points of units from selected Human Services units.

Professional Recognition (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers. (Accreditation application in process).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Study Areas
IX56 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduateâs parchment. Instead, IX56 will have specialisations. The specialisation areas that will be available for students will include:
- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Course Description
This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

Entry Requirements
Year 12 or equivalent
Prerequisites: Nil
Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)
Primary Fields: B
Secondary Fields: C
OP Guarantee: Yes

International Students
English language requirements
In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band)

Pathways to Further Studies
In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the aTranslation Unit Codesâ column you are not permitted to enrol in the listed new code.

Cooperative Education
The School of ITâs Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what youâre learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Overview
Media outlets operate in regulatory environment in which changes occur rapidly and constantly. In an era where there is increasing public scrutiny of our media, the need for legal practitioners with specific media awareness has never been greater.

This five-year double degree combines practical skills and contextual understanding of the media and communication industries with the skills to work as a legal practitioner.

Your media and communication degree comprises 14 units to build your expertise in this area, alongside two creative industries foundation units.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career Outcomes
Graduates may use their combined skills to work in-house as a lawyer for media outlets or regulatory bodies, or in law firms with specialist interests in the media. Alternatively, you may work in the legal environment as a solicitor, barrister or in-house lawyer, or pursue a career in media and communication.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
This course offers you a range of options in combining business knowledge with practical skills and a contextual understanding of media and communication. This combination of media and communication with a business major in advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/buying for advertising agencies. An international business major will equip you with an understanding of the cultural, financial and regulatory issues involved in doing business across borders. Alternatively you may choose to study another of the business professions to diversify your career options. You will undertake two creative industries foundation units and 14 specialist units in media and communication. Your business degree component comprises eight business core units, and eight business major units.

Career Outcomes
Through the combination of Media and Communication with business, you will equip yourself for an exciting career in the growth area of creative industries. If you wish to use your business knowledge more in your career, you could gain employment in arts administration, marketing, managing or balancing the books for creative projects and businesses.

The combination of media and communication with advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/buying for advertising agencies. You will also develop the entrepreneurial and business skills necessary to sell your abilities to a range of employers, or start your own creative enterprise. Please refer to the Faculty of Business prospectus to find out more about the business majors.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Business and Media and Communication) comprises 192 credit points.

The Business component is made up of 96 credit points of Faculty core units and 96 credit points of units from a Business major.

The Business majors are accountancy, advertising, economics, finance, human resource management, international business, management, marketing, public relations.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units and 168 credit points from the Media and Communication major.

Course Structure
The Bachelor of Fine Arts component is made up of 24 credit points of Faculty Foundation units and 168 credit points from the Creative and Professional Writing major.

The Law component is made up of 336 credit points of law subjects.

OP Guarantee
The OP Guarantee will apply to this course.

Overview
Both writers and lawyers require high-calibre sophisticated communication and language skills. You will graduate from this specialised double degree with not only advanced creative and professional writing skills, but also with a recognised law qualification.

You will be immersed in creative and professional writing practice with 14 studio units, and have a broad creative industries perspective from the two foundation units. In your first four years you will study a combination of fine arts and law units and during your fifth year you will concentrate on law studies.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Career Outcomes
Through the combination of creative and professional writing with law, you will enhance your employability in your chosen field, whether in the legal fraternity or as a writer.

Graduates may use their combined skills to work as an in-house lawyer in the publishing industry or in law firms with specialist interest in this area. Alternatively you may work in the legal environment as a solicitor, barrister or in-house lawyer.

If you choose to pursue a creative career, your legal knowledge will be of benefit in the process of commissioning projects, creative industries administration and contract negotiation.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Course Description
This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

Interactive and visual design is at the cutting edge of technological applications of creativity.

The interactive and visual design major will set you up for careers in the rapidly expanding fields of contemporary communication and the application of new media technologies.

You will be immersed in your Interactive and Visual Design major with 14 studio units, and have a broad creative industries perspective from the two foundation units. Your information technology degree component comprises eight core units and eight units in your information technology major.

International Students
English language requirements
In addition to the above academic entry requirements, international students must meet the Universityâs English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

Pathways to Further Studies
In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as...
questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Cooperative Education**

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Overview
Your creative industries core units will provide you with an up-to-date insight into the creative economy and an appreciation of interdisciplinarity and creative collaboration. You will also complete a creative industries major from one of animation; art and design history; creative and professional writing; dance; digital media; drama; entertainment industries~; fashion; film, television and screen; interactive and visual design; journalism, media and communication; literary studies; or music~.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

~ These new majors will be offered in 2010 subject to University approval.

Why choose this course?
This course allows you to combine your creative interest with your law qualification. Whether you choose to work in the legal fraternity or within the creative industries, you will graduate with a unique set of skills that will enhance your employment options.

Course Design
You will study creative industries and law subjects in your first four years and for the remainder of your course you will concentrate on law studies.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Career Outcomes
Graduates may use their combined skills to work in-house as a lawyer for cultural institutions, government or regulatory bodies, or in law firms with specialist interests in the creative industries. Alternatively, you may work in the legal environment as a solicitor, barrister or in-house lawyer.

If you choose to pursue a creative career, your legal knowledge will be of benefit in the process of commissioning projects, creative industries administration and contract negotiation.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au

Overview
This five-year double degree in journalism and law is in high demand. It combines the practical skills and understanding of the journalism industry with the skills to work as a legal practitioner.

Career Outcomes
The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

The combination of journalism with law majors can equip you for specialised journalism careers in international affairs, corporate dealings, and medico-legal issues. QUT journalism graduates can also work as journalists for newspapers, magazines, television, radio and online news services. Others seek employment successfully in public relations, media management and corporate communications.

Course Structure
You will study journalism and law units in your first four years and for the remainder of your course you will concentrate on law studies.

In the Journalism component, you will undertake two creative industries foundation units and 13 specialist units in journalism which will provide a broad range of journalism knowledge.

The Law component is made up of 336 credit points of law subjects.

Professional Recognition
The QUT Law course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT Law degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

QUT's journalism degree is recognised by the Australian Journalists' Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Creative Advertising

Creative Advertising is an interfaculty course related to a specific field of study that requires strong practical capabilities, and students need to gain technical skills in this field. To achieve this, students who do not hold a bachelor degree will be offered a choice of undergraduate and postgraduate options that are specifically designed to build the technical skills required in Creative Advertising.

Creative Advertising Study Area

The real world of advertising involves strategy, planning and creativity. If you are looking to freshen up your skills or to move into advertising, a unique suite of units offered by the Creative Industries and Business faculties provides you with an opportunity to do both.

You will develop your skills in copywriting, art direction, creative campaign production and production management within a theoretical perspective of advertising management. The program has a strong applied component, and you will develop your creative skills across print media, television, radio, direct mail and the digital domain.

You will graduate with a portfolio of creative material developed through project work for real-world clients and internships at masters level.

To graduate with a Master of Advertising (Creative Advertising), students are required to successfully complete 144 credit points, as specified in the course structure below. Advanced standing of up to 48 credit points towards the coursework component of Advertising (Creative Advertising) is available to students who have completed undergraduate studies in Advertising (Creative Advertising).

Course Structure

This course provides the opportunity for students to develop skills in copywriting, art direction, creative campaign production, and production management. These skills will be applied across print media, television, radio, direct mail and the Internet.

Entry Requirements

A bachelor degree with an overall grade point average of 5.0 or above (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for more information.

Overview

Media is a global industry, and increasingly we live in a media-driven world. It influences how we think, and in turn changes us as a society. The media industry is growing and evolving at a rapid pace and, because of its broad application and functionality, is transforming other industries with it.

This course will provide you with sophisticated, transferable media and communication skills. You will value the breadth of media, and that it includes television, radio, print, the Internet, mobile technologies, movies, advertising, public relations, music, media research and media policy.

You will understand how the media works, its impacts on society, and the issues which shape public debate and concerns about the media. You will understand the practicalities of the media industry, including the jobs which exist and the dynamics of its evolution.

Career outcomes

This course provides theoretical knowledge to underpin practical industry applications. Graduates operate in the creative economy as media buyers and planners for advertising agencies, as communications and public relations managers for arts organisations, media and cultural policy developers for government and community organisations, or print and online publishing professionals. In other industries, graduates work as communication officers, public relations specialists, Internet professionals, marketers, teachers and researchers.

Why choose this course?

QUT boasts a genuine mix of real-world applications and an established academic reputation. Practical skills are taught within an informed theoretical context by staff who are actively engaged in leading-edge research. In your third year you will undertake a professional project to update the industry-acclaimed Brisbane Media Map. You will investigate media organisations in Brisbane, including interviewing key people to map the local media sector. View Brisbane Media Map at www.bmm.qut.edu.au

Opportunities also exist for internships and work placements in media organisations. In 2007 students completed placements with Brisbane International Film Festival, Dew Process, Queensland Alumina Refinery, government departments and agencies as well as media, advertising and public relations organisations.

Course Structure

In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units and 96 credit points of Complementary Studies.

Deferment

Deferment QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Overview
These programs are offered to students from both cognate and non-cognate fields of study. The courses are targeted at mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices. The program has been developed to integrate knowledge in six main categories of learning, through an integrated studio-based teaching model. A studio-based approach to teaching and learning encourages a community of learners to interact cooperatively to solve problems. It is an immersive approach to learning where open problems are visited frequently. The studio units in this degree are designed to provide opportunities for the practical application of the knowledge and skills derived from the other core and elective units. These learning categories constitute the core knowledge of the field of communication design:
- situation of new media theories and practices in society
- new media technologies as skills-based knowledge
- information architecture
- new media design development processes
- interaction design
- web development.

This knowledge situates the graduate within the creative industries by providing opportunities to explore interdisciplinary practice through theory, practice and production.

Masters students can undertake units in computational arts which introduce students to the creative design of visual and sonic art works by implementing processes from which these works unfold on computers. Units include introductory computer programming and computational arts where these skills are combined and enhanced. Computational arts skills are applicable to work in the areas of interactive computer games, VJs, DJs, web art and interactive public sculptures.

Entry Requirements
A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for more information.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Advanced standing for prior study and/or professional experience is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for masters-level courses, and will constitute no more than 48 credit points. Students seeking articulation to the Masters must successfully complete the Graduate Certificate with a grade point average of 4.5 or above.

Course Structure
The Masters course is comprised of seven Communication Design subjects (including two design studio units) and three Postgraduate electives.

The Graduate Certificate course is comprised of three Communication Design subjects and one Postgraduate elective.

Overview
These programs are offered to students from both cognate and non-cognate fields of study. The courses are targeted at mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices. The program has been developed to integrate knowledge in six main categories of learning, through an integrated studio-based teaching model. A studio-based approach to teaching and learning encourages a community of learners to interact cooperatively to solve problems. It is an immersive approach to learning where open problems are visited frequently. The studio units in this degree are designed to provide opportunities for the practical application of the knowledge and skills derived from the other core and elective units. These learning categories constitute the core knowledge of the field of communication design:
- Situation of new media theories and practices in society
- New media technologies as skills-based knowledge
- Information architecture
- New media design development processes
- Interaction design
- Web development.

This knowledge situates the graduate within the creative industries by providing opportunities to explore interdisciplinary practice through theory, practice and production.

Overview
This course offers core units in the creative industries and journalism including news writing, feature writing, online journalism, journalism ethics and issues, international journalism, sub-editing and layout, radio and television journalism, media legal issues and public affairs reporting.

Why choose this course?
The QUT journalism course offers greater opportunities for broadcast experience. Practical work commences in the first semester with access to dedicated newsrooms, radio studios, a production office, a TV studio, editing suites and other technical facilities.

In the second and third years of the course, students have opportunities to contribute to TV, radio and online news services. The QUT News YouTube channel streams the students TV news service nightly, and stores TV news reports. 

Radio news is broadcast on Brisbane radio station 4EB and students produce an online news service at qutnews.qut.edu.au/

You can gain additional professional media practice through industry placements and internships. You may participate in international reporting trips and can opt to have a journalism career mentor in your final year.

In 2006 QUT TV News won the âBest News and Current Affairsâ category at the National Community Television Awards and QUT student Melissa Mallett won the Most Outstanding Journalism Student (Metropolitan) at the Queensland Media Awards. Graduate Jessica Daly was awarded a Walkley Award and graduate Conor Duffy received the ABCâs Andrew Olle Scholarship.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a 13 Journalism units and eight electives.

Career Outcomes
Many graduates work as journalists for newspapers, magazines, television, radio and online publications. Others seek employment successfully in public relations, media management and corporate communications.

Scholarships
Radio station 4EB and QUT offer a one-year Ethnic Radio Scholarship valued at $5000 to cover your student contribution to a Commonwealth Supported Place (CSP). The successful journalism applicant should have at least one parent born outside of Australia. For more information visit creativeindustries.qut.com

Professional Recognition
The QUT journalism degree is recognised by the Australian Journalistsâ Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

Other Course Options
The Bachelor of Journalism is also available as part of the following double degrees: IX36 Bachelor of Business/Bachelor of Journalism, and IF07 Bachelor of Journalism/Bachelor of Laws.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

**Creative Industries Minors**  

**INSTRUCTIONS FOR MINORS**  
Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

Overview
This program suits those who have worked or studied in fields outside journalism and who now seek journalism skills or wish to change career paths into journalism, or those who currently work in journalism will benefit from this course by gaining skills to enhance their craft in a new media environment. You will gain practical skills in writing and journalistic inquiry within a conceptual framework that includes ethics and legal issues.

Journalism is a specific field of study that requires strong practical capabilities, and students need to gain technical skills in this field. To achieve this, students who do not hold a bachelor degree will be offered a choice of undergraduate and postgraduate options that are specifically designed to build the technical skills required in Journalism.

Course Structure
To graduate with a Graduate Certificate in Journalism, students are required to successfully complete 48 credit points, as specified in the course structure below.

Entry requirements
A bachelor degree with an overall grade point average of 5.0 or above (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for more information.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Overview

Interdisciplinarity goes hand in hand with creative practice. Increasingly, technology is central to creative impulse, providing fresh ways of producing works, additional outlets for creative content, and more channels to promote your skills, projects and performances.

The creative industries are continually evolving and, more and more, artistic practitioners are successfully creating their own opportunities rather than waiting for the right employment prospect to come along.

QUT's unique Bachelor of Creative Industries degree provides diverse knowledge, creativity and practical skills across a range of industries and practice.

Why choose this course

QUT is a global leader in the creative industries with an established reputation for research, industry links and creative practice innovation. This course offers flexibility, giving you the option to choose a combination of study areas to suit your individual skills, creative industries are career aspirations. While flexible, you will follow an established pathway through your creative industries units, which provide you with skills, knowledge and experience on which to build your creative career.

Caboolture campus

The Caboolture campus offers the first year of the major only. Students who complete their first year at Caboolture then transfer to Kelvin Grove campus for the remainder of the course.

For international students, this course is only offered on Kelvin Grove campus.

Credit/advanced standing will not be granted for Caboolture students; excluding START QUT studies. To receive credit applicants must apply for the Kelvin Grove offering.

See course structures for Caboolture Only.

Career outcomes

Graduates will be sought after for their interdisciplinary knowledge, creativity and practical skills across a range of industries including media and communications, creative and performing arts and popular culture. Opportunities exist in advertising, entertainment and leisure, indigenous cultural production, library and archival activities, film and video activities, multimedia, museums and historic sites, performance and production management, publishing, radio and television activities, software consultancy and supply, tourism and theme parks.

We encourage you to foster your creative passion and shape your future career path through complementary study areas. Some examples are:

- Interactive and Visual Design, Digital Media or Animation second major with minors in Games Design, Graphic Design, Music Studies, or Sound Studies to pursue an interest in the booming multimedia industry
- Second major in Dance, Drama or Art and Design History, alongside minors in Audience and User Research and Performance Events and Festivals, to point you in the direction of a career in events and creative industries management
- Journalistic, Media and Communication second majors with minors in Screen Studies, Music Studies, Sound Studies or Television to help pursue work in the entertainment or media industry
- Creative and Professional Writing second major, with one of the literature based second majors or minors to prepare you for a career in publishing, perhaps as an author or editor.
- Combinations that include Interactive and Visual Design, Advertising and Creative and Professional Writing to set you up to work in creative advertising
- Studies in one of the Business areas alongside your creative second major to prepare you for employment in marketing and promotions, such as film distribution, media promotions, fashion wholesaling or performing arts marketing.

Course Structure

The Interdisciplinary course is comprised of:

Interdisciplinary Major (8 units)
- Major (8 units)
- Major (8 units)
- 2 x Minors (4 units)
- 1 x Minor (4 units) + 4 x Electives (1 unit)

Key Features of the Interdisciplinary major include:
Foundation units introduce the creative industries, and the roles of professionals and practitioners who explore and exploit the expression of creativity for commercial and artistic gain. You'll gain wide-ranging communication skills, including digital, collaborative and written.

Skills-based units will identify the creative industries, gain an understanding and appreciation of the different creative disciplines, and gain an understanding and appreciation of the different creative disciplines, and build your ability to work in collaborative teams through project work.

Capstone units will prepare you for your creative career as an employee, consultant, project manager or entrepreneur, or give you the hunger for higher degree research.

Overview
This course provides a strong foundation for work within the creative industries.

You will be introduced to the techniques, principles and practices of communication design by developing skills in Web development, interaction design, new media, virtual reality, and information technology. You will learn in a studio-based environment the practical application of the knowledge and skills you will gain from your communication design core and elective units. Studio-based teaching has long been the norm in disciplines where the nature of practice is the development of abstract artefacts that are used by others.

Career Outcomes
Graduates can work in website design, interactive media, web applications, production and interaction design in fields such as games design, theatre, dance, journalism, education, and advertising.

Course Design
Students study foundation subjects and discipline specific units that are augmented by project-driven studies and industry placements.

In order to complete this program, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to your major and eight electives.

Why choose this course?
The course has strong industry connections, with industry professionals and leading academics in the field delivering many of the units.

The flexibility of a studio environment allows for external industry guests to engage with you in the process of developing your ideas and outcomes. Connections are maximised with the Australian Research Council (ARC), Centre of Excellence for Creative Industries and Innovation (CCI), Institute for Creative Industries and Innovation (ICI) and the Australasian CRC for Interaction Design (ACID) to ensure you'll benefit from research and real-world project opportunities.

Other Course Options
The Bachelor of Creative Industries (Communication Design) is also available as part of the following double degrees: IX34 Bachelor of Business/Bachelor of Creative Industries (Communication Design), and IX27 Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Creative Industries Second Majors

INSTRUCTIONS FOR SECOND MAJORS/CO-MAJORS
*From 2009 Co-Majors have been renamed Second Majors
Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a second major or co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these second major or co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these second majors or co-majors and/or minors. Any unit(s) that appear in multiple second major or co-majors and/or minors can only contribute towards the completion of one of these second major or co-majors or minors.

Overview
This course will prepare you to work in creative writing in a range of vocational applications. You will learn about fiction, digital storytelling, film and television scriptwriting, poetry, creative non-fiction and youth and children's writing, as well as corporate writing and publishing.

Career Outcomes
Graduates can work as creative or professional writers and editors in corporate, community and freelance capacities. Recent graduates have been contracted to write crisis management scenarios for major corporations, while others are working as writers and editors for magazines and other print media, in local government, within publishing houses and in print journalism.

Course Design
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinart units, 12 discipline or specified units relating to the major and eight electives.

Why choose this course?
This practice and theory-based professional course will give you the strong written communication competence that is an advanced skill sought by employers, as well as an excellent education as a creative writer in all genres. Through your electives you can include study from a wide range of fields, adding to the vocational strength of the course. Your work could be published in the annual creative writing anthology which is released for sale to the public.

Other Course Options
The Bachelor of Creative Industries (Creative Writing) is also available as part of double degree programs: IX34 Bachelor of Business/Bachelor of Creative Industries (Creative Writing), and IF93 Bachelor of Creative Industries (Creative Writing)/Bachelor of Laws.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Course Structure

In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

General

This three-year professional course offers various career paths catering for applied and/or creative pursuits such as choreography, dance research, community dance practice, criticism, administration and business management, marketing, teaching skills for private practice and the leisure/health market. The 12-unit dance suite is complemented by a range of electives to enable multi-skilling, combining theory with practice and business with dance. This course offers flexibility and various pathways for those students who wish to work in dance-related areas and maintain their passion for dance. A balance of theory and practice, this course can be tailor-made to suit the interests of the student.

Career Opportunities

Graduates can work as choreographers, dance teachers, community-based artists, movement specialists in the health/leisure industries, or in dance research, health programs and dance administration.

IMPORTANT NOTICE

The Bachelor of Creative Industries (Dance) single degree will not be having an intake after 2007. The Bachelor of Creative Industries (Dance) is still available as part of a double degree program (IX34 Bachelor of Business/Bachelor of Creative Industries or IX39 Bachelor of Arts/Bachelor of Creative Industries). Continuing students should refer to their Course Summary Sheet for enrolment information.

Overview  
You will develop skills in the production and analysis of innovative, cross-disciplinary performance and have the opportunity to incorporate a sub-major from a range of interdisciplinary practices and technologies such as film, video, dance, journalism, music, communication design and visual arts. You are encouraged to experiment, explore and take creative risks throughout the course.

The course includes practical project production experience with an emphasis on site-specific installation and festival performances. You will be encouraged to explore new performance forms and use emerging technologies, working with other students from across the creative industries.

Career Outcomes  
Graduates work as directors, performers, producers, playwrights, dramaturges, arts administrators, community artists and youth arts workers. This course is a springboard into honours and postgraduate studies in areas such as drama education, applied performance, and performance innovation.

Course Structure  
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to the major and eight electives.

Why choose this course?  
This course incorporates new media and cutting-edge approaches to devising, directing and designing live performance. It involves collaboration with fellow students, staff and community partners.

Other Course Options  
The Bachelor of Creative Industries (Drama) is available as part of the following double degrees: IX34 Bachelor of Business/Bachelor of Creative Industries (Drama), and IX43 Bachelor of Creative Industries (Drama)/Bachelor of Human Services.

This course is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Creative Industries (Drama) and the one year Graduate Diploma of Education (Senior Years).

OP Guarantee  
The OP Guarantee does not apply to this course.

Deferment  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

Domestic student tuition fee (Dfee) places  
Undergraduate domestic full fee places (Dfee) are available in this course.

Career Outcomes
Graduates can work as advertising professionals, communication officers, media and cultural policy developers for government and community organisations, information officers, Internet professionals, media buyers and planners, marketers, teachers and researchers, and print and online publishing professionals.

Overview
This course provides both practical skills and contextual understanding of the rapidly growing media and communication industries. You will be prepared for employment in fields that are being transformed by digital media development, globalisation and convergence. You will gain knowledge in local and international media industries, media audiences, consumer cultures, professional communication, new media technologies and online communications.

You will also acquire media production skills in print and online media formats and you can complement your media and communications studies with a sub-major or minor study sequence from other areas across the Faculty. These include communication design, television or writing for electronic media in various formats, including creative writing or journalism.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to the major, and eight electives.

Why choose this course?
This course covers mass, niche and new media. Authentic learning opportunities such as industry placements and projects complement theoretical course content and give you the opportunity to apply what you learn. Students have completed placements with organisations such as Online Opinion, Starcom Communications, Harper Collins, Hoodlum Entertainment, Australian Communications and Media Authority and The Seven Network.

Other Course Options
The Bachelor of Creative Industries (Media and Communication) is also available as part of double degrees: IX34 Bachelor of Business/Bachelor of Creative Industries (Media and Communication), IF10 Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws, and IX50 Bachelor of Creative Industries (Media and Communication)/Bachelor of Health Science.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Overview
Television is one of the most powerful media the world has known. This unique industry-oriented course will train you for the ideas jobs in television such as producing, researching and writing. You will learn how the television industry works, how programs get commissioned, and how they are actually made.

You will study with experienced senior industry professionals as well as internationally respected television scholars. Areas of study include scriptwriting, producing, distribution, television commercials and format, audience research and the social impact of television. You will also have the opportunity to work on production projects.

Career Outcomes
Graduates can work in television as researchers, writers or in production, in a career track that leads to working as producers, script editors, script producers, programmers and schedulers.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to the major and eight electives.

Why choose this course?
This professional course will give you a strong applied-industry focus and offers flexibility, allowing you to find your niche within the television industry.

Other Course Options
The Bachelor of Creative Industries (Television) is also available as part of a double degree with Business - IX34 Bachelor of Business/Bachelor of Creative Industries (Television).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Additional costs
You may be required to cover the costs of recording materials, video hire, production travel expenses and associated film and video production costs.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a
fee-paying student.

Overview
This project-based course is designed to meet the technical, creative and conceptual development needs of the animation and 3D computer graphics industry. You will work within a studio environment learning how an animation studio is run, the various roles undertaken in a studio, and the flow of a production from pitch to delivery. Through exercising production roles, you will develop core work and communication skills, demonstrating these through exploration of form and character, design and development, and iteration through critique while following industry standards of presentation of design ideas in pitch, play and preproduction.

You will learn creative and technical skills within a contextual framework, which allows you to build your career in digital product and new media strategy.

Career Outcomes
Graduates can work in visual effects, direction or animation for film, television, advertising, or real-time games; visualisation for architecture, medicine and training simulation.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

### Communication Design

*continuing students only*

**Description:** The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

**Assumed Knowledge:** There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

Overview
Over ten thousand new books are published in Australia every year. More local authors than ever are having success with their work. If you can channel your creativity into words, you are in a unique position in today’s media-rich world.

Writers are in demand across a number of fields. The publishing industry, the screen industry, advertising agencies, magazines and newspapers, websites, the public service and large corporations all require specialist writers with a flair for language.

This course will provide you with opportunities to work intensively on your writing in a number of forms and genres, including novels and short stories, creative non-fiction, youth writing and poetry. In addition, it will help you build specialist writing skills for profession applications such as corporate writing, persuasive writing, editing and script writing. You can also undertake project work to write a sustained work in a genre of your choice.

Career Outcomes
Graduates can work as creative or professional writers and editors in corporate, community and freelance capacities. Opportunities exist as fiction writers, corporate writers, script writers, reviewers, travel writers, feature writers, editors, journalists and publishers. Pathways exist to prepare you for further study including honours, research, or creative practice and analysis.

Course Design
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Advanced Writing Practice, Creative Writing and Literary Studies Research, a Second Major, Minors or elective units.

Industry Links
Guest lecturers have included Hilary Beaton (Queensland Writers Centre), Michael Wilding (author), Fiona Capp (author), Madonna Duffy (UQ Press), and Frank Moorhouse (2001 Miles Franklin award winner).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Communication Design**

*continuing students only*

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

Drama

Description: The co-major offers a balance of performance theory and practice. It is designed as a learning sequence, beginning with introductory concepts and practices, through intermediate and on to advanced learning. Underpinning the co-major is a twin focus on contemporary performance-making and events management. Both of these areas are balanced by studies in theatre history and theory. Core topics include acting; directing; twentieth-century performance theory and practice; and events management.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

Entrepreneurship

Description: To provide students with an introduction to basic business principles as well as the innovation, development, production and entrepreneurial activities required when starting a new business. Students who do the extended eight unit set will be able to supplement this with a range of broader business administration and promotional skills particularly in the marketing and management areas.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

**Journalism, Media and Communication**

Description: This co-major offers you a range of options to develop an understanding of the parameters of the journalism and professional communication fields. You can choose a mix of units to suit your career aspirations. If you choose to focus more on the Journalism (KJB) units, the co-major will introduce you to a range of journalism writing styles and offers an insight into some specialist areas of reporting. If you choose to focus more on the Media and Communication (KCB) units, it has been designed to enable you to develop the skills and knowledge to prepare media material for organizations that wish to build, and maintain, a media profile.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

Overview
The dance program at QUT boasts an enviable reputation and continues to lead in developing the creative passions of Australia's future dance artists and educators.

We provide a nurturing environment in state-of-the-art facilities where you will practice daily to extend your talents in creating and performing. This course offers intensive training in the core techniques of ballet and contemporary dance.

Career Outcomes
QUT performance graduates are highly competitive in the real world and currently practise throughout Australia and internationally in major professional dance companies, education dance companies, musicals and commercial environments, while others work as independent artists. Some follow their passion into the broader dance industry, and work as choreographers, administrators and festival managers and producers.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Advanced Dance Performance, Minor or elective units.

Other Course Options
The Bachelor of Fine Arts (Dance) is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Fine Arts (Dance) and the one year Graduate Diploma of Education (Senior Years).

Deferral
QUT's deferral policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
As a dance student you will be required to provide your own dancewear, dance shoes, stage makeup, knee pads and any other specialist dance needs as required.

Overview
As with the creative industries as a whole, contemporary drama and performance are evolving to incorporate technology, cross-disciplinary practice, experimentation and commercialisation. Performance making is not limited to the theatre: performers express their ideas by creating their own works for festivals, site-specific and public events. In this course you will explore your creativity by developing a broad range of skills, incorporating live and mediatised performance, physical theatre, applied performance, and processes which are innovative and experimental. These skills are contextualised by studies in theatre history and theory.

Career Outcomes
Graduates work as directors, performers, producers, playwrights, arts administrators, community artists and youth arts workers. Some use their applied theatre skills in corporate training settings. Many are self-employed and undertake project work in a variety of these areas.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Performance Events and Festivals, a Second Major, Minors or elective units.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
Fashion is international, irrational and inspirational. It is a global industry that each day affects what we choose to wear. Through fashion we express our individuality and declare our place in the world. This conceptually driven, designer level course is delivered in studio setting. Your creative practice will be supported by practical business skills along with computer-aided design skills in all years of study. Your design practice will be contextualised through units in fashion history, fashion theory and textiles, and you can complement your fashion studies with electives in areas such as advertising, journalism, entrepreneurship or a foreign language.

Career Outcomes
Graduates are successful as independent designers and as designers in larger fashion houses. Others work as fashion stylists, international trend forecasters, production managers and product developers. Pathways to further study including Honours and research degrees are available.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, and a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Fashion Complementary Studies, a Second Major, Minors or elective units.

Other Course Options
This course is also available as part of a double degree with Business - IX35 Bachelor of Business/Bachelor of Fine Arts (Fashion).

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
There is a levy charged for essential items such as calico, pattern equipment and pre-cut exercises. In addition, students are expected to purchase fabrics as required for projects throughout the three years.

Overview
We all have a favourite movie or television moment. But what makes this moment so special to us? Our senses are in overload with the combination of the visual, music, sound effects and dialogue. Weâre along for the ride, wherever the story takes us next.

QUTâs film and screen production course is for those who are driven to tell their stories through creative practice in the film, television, or new media industries. Opportunities are available to specialise in producing, directing, scriptwriting, cinematography, editing or sound.

Career Outcomes
Graduates work in film and screen in numerous entry level positions that lead to careers as cinematographers, vision and sound editors, directors, scriptwriters and producers. You may also work in the production of multimedia audio and video materials for advertising, public relations, marketing, staff training or the Internet.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Advanced Screen Production, a Second Major, Minors or elective units.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview

Interactive and visual design plays a pivotal role in the rapidly expanding fields of contemporary communication and new technologies. Careers in this area provide the opportunity to design for electronic and print media, Web and mobile technologies, games and physical computing, as well as new technologies as they continue to emerge.

This course will provide you with the conceptual understanding, practical skills and working methods you will need to become a creative and innovative designer. As well as developing core understandings in visual design for a range of media including mobile and virtual environment, you will choose study pathways to develop a specialist focus in graphic design, animation or design for tangible and physical computing.

Career Outcomes

This course will prepare you for a range of careers in the creative industries such as advertising and marketing, print design, Web design and electronic publishing, multimedia and interactive entertainment design, games design, and interactive exhibition design.

Graduates from this study area work in traditional design companies in fields such as graphic design, marketing, branding and print and television campaigns, Web Design, interaction design, usability, knowledge management and information architecture. They also gain employment in new, rapidly expanding industries. For example, games companies employ graduates to work on content production, interaction design, visual design and real-time and virtual environments modelling; film and television companies employ graduates in post-production and branding; museums and other cultural institutions employ graduates in multimedia design and interactive installation.

In addition, visualisation companies increasingly provide opportunities for graduates across industries as diverse as mining, architectural and medical visualisation.

Course Structure

In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either a Second Major, Minors or elective units.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
Sound design incorporates working in audio, music, moving images, online and immersive environments. It is applied to recording, sequencing, generative and composition techniques, sound for animation, contemporary digital sound environments and immersive soundscape design. It is much broader than the traditional understanding of sound design (sound to film) to cater for the new creative industries that now exist, and those that will emerge. This course prepares you for practice in the creative industries and includes pathways to honours and postgraduate degrees.

Career Outcomes
Graduates can work in sound design for film and television, Web applications, games and exhibitions or as DJs.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Other Course Options
You can also choose from double degree programs including IX34 Bachelor of Business/Bachelor of Creative Industries (Sound Design) and IX27 Bachelor of Creative Industries (Sound Design)/Bachelor of Information Technology.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
Your favourite band takes to the stage in darkness. You can just see the guitaristâs silhouette against the set as he strums the first few bars. The stage explodes into a synchronised lightshow as the singer breaks into song. Thereâs only a handful of them on stage but up to 20 technical personnel scurry around the rigging, race around behind the set and position themselves at the sound and lighting desks to put on a show that you will take about for the rest of your life.
Expertise in technical production is sought after in a range of industries. This course will provide you with skills in lighting, stage management, festival management, sound and multimedia, as well as the opportunity to specialise in a particular field of live production.

Career Outcomes
Graduates work as stage managers, production managers, lighting and sound designers, operators and technicians for theatre, ballet, contemporary dance, opera, concerts and film, conferences, international and corporate events and festivals.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Advanced Technical Production Practice, a Second Major, Minors or elective units.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course.

- KVB306  Video Art and Culture

**Communication Design**

*Continuing students only*

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- KIB101  Visual Communication

Overview
Television is one of the most powerful media the world has ever known. Even in our changing media environment, television continues to reach audiences of millions and more than any other medium. While working in television can be demanding and difficult, if you’re passionate and committed, you will enjoy the challenge of building your career in this rewarding and exhilarating industry. QUT offers Queensland’s only degree completely focussed on the television industry, preparing graduates for the ideas jobs in television, such as producing, researching and writing. You learn how the television industry works, how programs get commissioned and how they are actually made. Areas of study include scriptwriting, script editing, producing, pitching, distribution, understanding the industry and doing television research.

Career Outcomes
Graduates work in television as researchers, writers or in production, on a career track that lead to working as producers, script editors, script producers, programmers and schedulers.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either a Second Major, Minors or elective units.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Creative Industries Second Majors

INSTRUCTIONS FOR SECOND MAJORS/CO-MAJORS
*From 2009 Co-Majors have been renamed Second Majors

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a second major or co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these second major or co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these second majors or co-majors and/or minors. Any unit(s) that appear in multiple second major or co-majors and/or minors can only contribute towards the completion of one of these second major or co-majors or minors.

### Art and Design History

Description: This co-major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this co-major will assist in preparing you for work as a professional in these disciplines.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- DAB325 Architecture in the 20th Century
- DAB420 Architecture, Culture and Space
- DEB102 Introducing Design History

### Communication Design

*continuing students only

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production/project setting, in the application areas of web development and interactive multimedia respectively.

Overview
This course will allow you to follow pathways into a career as a contemporary artist, art professional or art teacher. You will develop an individual art practice by working on projects in unique, open-media studios while also attending classes in modern and contemporary art history and theory. You will discover how to critically evaluate your work and the work of others through group and individual consultations.

Career Outcomes
This course will allow you to choose your career from a range of visual arts related courses. Many of our graduates become highly successful practising artists, who are represented by commercial galleries and have strong careers in the commissioned and public funding sectors. Five of our graduates have been recipients of the Samstag International Visual Arts Scholarship; a prestigious national award that supports Australian graduates to develop their studies overseas. With specialist training in a related field, our graduates also take up positions as creative directors, visual designers and a range of other occupations in the creative industries sector. If combined with a Graduate Diploma in Education (Senior Years), this course will enable you to become a qualified teacher.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either Advanced Studio Practice, a Second Major, Minors or elective units.

Other Course Options
The Bachelor of Fine Arts (Visual Arts) is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Fine Arts (Visual Arts) and the one year Graduate Diploma of Education (Senior Years).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields.
Each dual award is structured to enable you to spend your first three years immersed in your creative discipline. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.
You will sample life as an educator prior to commencing your graduate diploma with foundation units in education studies which include practical school-based field experience during your creative industries degree. You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of undertaking study in a second teaching area, thereby increasing your teaching options.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional entry requirements
Applicants will be selected on the basis of their audition and previous academic achievement. In addition to the admission application, applicants must also apply online to Creative Industries Faculty, QUT.

The final date to lodge the portfolio and additional materials with QUT was extended to 29 August 2008. A $33 service fee applies (which can be paid online); applicants applying for more than one Dance course are required to pay only one service fee of $33.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October.

Confirmation dates and venues will be posted to registrants after registrations close.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options.

There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and
Performing arts.

**Professional Recognition**
This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

**Deferment**
QUT's deferment policy does not apply to this course.

**Domestic student tuition fee (Dfee) places**
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Overview
QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields.
Each dual award is structured to enable you to spend your first three years immersed in your creative discipline. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.
You will sample life as an educator prior to commencing your graduate diploma with foundation units in education studies which include practical school-based field experience during your creative industries degree.
You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of undertaking study in a second teaching area, thereby increasing your teaching options.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options.
There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

Professional Recognition
This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Deferment
Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.
Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
As an established dance professional, you will gain advanced understanding and skills to contribute significantly to dance development and practice through a project-based program supported by coursework. This program will extend, diversify and intensify your practice in a professional context. The Master of Fine Arts in Dance is available in creative practice and/or performance. You are able to negotiate individual, flexible study modes, which include a summer semester program, allowing you to complete in one year. Interdisciplinary projects and those involving the use of technology are encouraged.

Entry Requirements
A bachelor degree in dance and/or relevant professional dance experience.

Applicants are required to submit a video/DVD of their choreography/performance work and a one-page proposal outlining the focus of their study. If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

International Student Entry
International students may enrol only in full-time programs.

**Overview**

The Doctor of Creative Industries (DCI) is designed to engender advanced, critical and systematic reflection on professional and creative practice in any of the Creative Industries disciplines.

A pioneering doctoral program for leading artists and professionals, the DCI is suitable for those who seek to explore opportunities presented by the creative industries in the following practice:  
* artistic practice  
* professional practice  
* creative enterprise practice  
* teaching practice.

The DCI offers a professional doctoral qualification, and will suit candidates who are seeking to locate their research and around the workplace, have a focus on improving their practice and who wish to ground their investigations around professional projects.

**Entry Requirements**

Doctoral applicants should possess either a four-year degree or its equivalent with first-class honours or second-class honours division A; or a masters degree in a relevant field. Applicants must also have two years of practice at an advanced level in a position of responsibility in the creative industries.

Applications from outstanding leaders in the creative industries who have not had the opportunity to pursue postgraduate study may seek entry to the DCI. This alternative entry requires a minimum of five years of relevant professional or creative practice and an accompanying portfolio of achievement that demonstrates the applicant's capacity to work at a doctoral level.

Depending on academic qualifications and experience, and with Faculty approval, applicants may receive advanced standing into the course.

**Course Structure**

The course comprises two components - coursework and professional practice projects. Coursework is undertaken at the beginning of candidature and provides the essential conceptual tools required for doctoral-level analysis and reflection on your professional practice. You will learn about project management and design, reflective practice and research techniques in preparation for developing your project work. You will complete elective units to extend your existing knowledge and skills.

In consultation with Faculty academics and mentors from industry, you will design, implement and evaluate three professional practice projects. The projects can be creative practice, professional practice or be based in creative enterprise or teaching practice.

The normal enrolment for the Doctor of Creative Industries is six semesters of full-time study. However, the period of candidature can vary depending on entry requirements.

Overview

The Master of Arts (Research) provides an opportunity to conduct research in relation to creative and professional practice. The program is an important building block in the higher degree research domain.

Some recent Master of Arts (Research) degrees have been undertaken through cohort-based supervision under the leadership of prominent industry professionals. The Faculty can advise on the availability of cohort-based entry and areas of current supervision.

Master of Arts (Research) candidates have completed projects drawn from commissioned research, industry placements and workplace-related research projects. The program is also suited to practice-led research initiatives.

Entry Requirements

Masters applicants seeking entry into the coursework plus research program should possess a three-year bachelor degree or equivalent. For entry into the research-only program, applicants should possess a three-year bachelor degree plus honours, or a three-year bachelor degree plus a recent graduate diploma or equivalent.

Course Structure

* ENTRY WITH 3 YEAR QUALIFICATION: (Bachelors degree or equivalent)
  Students normally will undertake 48 credit points of coursework and a 96 credit point research project.

* ENTRY WITH APPROVED 4 YEAR QUALIFICATION: (Bachelors degree plus Honours/Graduate Diploma or equivalent)
  Students will not normally undertake coursework units, unless otherwise recommended by the Discipline Coordinator. They will be required to undertake a 96 credit point research project or thesis.

With approval from the relevant Discipline Coordinator, instead of undertaking 96 credit points of research, students may enrol in 12 or 24 credit points of course work, and reduce the weighting of their research project to 84 or 72 credit points.

Research Component

Depending on the discipline, the research component may be undertaken either as a research thesis of 30,000 words, or as a creative practice-based project with an exegesis or written component (7000 - 10 000 words).

Students can undertake:
* a significant creative work such as a live performance or musical composition
* a work of fiction or non-fiction
* a script or production for film, television or live performance
* a multimedia script or production
* projects commissioned by industry, government and community organisations
* workplace-related projects.

Any project likely to involve University resources must be approved by the Creative Industries Faculty Research Office. Details of how to apply are available on request on acceptance of offer of a place in the course.

Overview
Honours programs are an extension of undergraduate studies allowing students to specialise in their chosen field of study and explore a more focused program of activity. In many cases honours leads to research higher degree studies; however you will develop advanced competencies, skills and analytical abilities which are applicable to many types of employment in the creative industries.

Entry Requirements
Normally students will apply within the final year of their pass degree. Applicants will have completed a bachelor degree in a relevant field of study from QUT, or a comparable degree from another institution. Normally a minimum grade point average of 5.5 or higher (on a 7-point scale) is required for entry into the Honours program.

All applicants for Honours must provide the Faculty with a proposed project topic and short summary of the project and have identified a prospective supervisor from within their field of study. These applications are then subject to approval by the relevant Portfolio Director or other senior Faculty staff member.

Graduates of the Bachelor of Mass Communication may apply for the Bachelor of Creative Industries (Honours) (Media and Communication) or the Bachelor of Journalism (Honours), subject to Creative Industries Faculty approval.

Course Structure
You will undertake a unit in research design and an approved elective related to your research. Your research project will culminate in a written thesis, creative work, or combination of these.

Overview
Professional communication is an integral aspect of all work environments, and highly developed skills in this area are much sought after by employers. This course will hone your workplace communication skills, giving you the professional edge needed to communicate successfully at all levels of an organisation.

You will gain full advantage of QUTâs expertise in communication, writing and journalism as you will combine study in professional and persuasive writing, speaking and presentation skills, and leadership and team skills. The course will be of most benefit to those whose undergraduate degree is in an area other than communication.

You will develop your skills in professional writing and speaking, leadership and teamwork, and work communication practices, and apply these skills to teamwork environments and work-based projects.

This course will be of interest if you seek communication skills to further your existing careerâwhether you work in management, policy, research and analysis, administration, customer service, sales, or consulting. Alternatively, you may use this course to begin a career in professional communicationâincluding as a professional writer, organisational trainer, or communication officer.

Course Structure
Students will complete four of five available units in Professional Communication.

Overview
The Graduate Certificate in Creative Industries is an innovative postgraduate course that enables students to fuse creative talents with business and entrepreneurial skills, and unites artistic practitioners, managers and the consumer through cultural leadership. With the shift to micro-business development, it provides the business acumen and entrepreneurial skills to turn ideas into successful enterprises.

Animation
This program is offered to students from both cognate and non-cognate fields of study and targets mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices in the creative industries. In this Study Area specialist academics deliver a rich suite of animation units. These foundational units will introduce students to the technical attributes required to become an animator.

Animation Study Area
This Study Area explores the creative potential involved in the study of animation, as an artistic practitioner of Creative Industries. Students will be introduced to practical content that will assist continuing personal practice.
This Graduate Certificate aims to provide an understanding of the fundamental principles of the Creative Industries. Skills-based units will give the practical expertise required through a combination of Animation Study Area units. This course aims to provide an understanding of the fundamental principles of animation and its application. Such a framework will provide some of the technical tools required to animate

Course Structure
To graduate with a Graduate Certificate in Creative Industries (Animation), students are required to successfully complete 48 credit points, as specified in the course structure.

Entry requirements
An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Applications without the requisite entry requirements will be considered for special entry. Please contact the Creative Industries Faculty for more information.

Overview
The Graduate Certificate in Creative Industries is an innovative postgraduate course that enables students to fuse creative talents with business and entrepreneurial skills, and unites artistic practitioners, managers and the consumer through cultural leadership. With the shift to micro-business development, it provides the business acumen and entrepreneurial skills to turn ideas into successful enterprises.

Creative Production and Arts Management
This program is offered to students from both cognate and non-cognate fields of study and targets mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices in the creative industries. In this Study Area specialist academics deliver a rich suite of Creative Production and Arts Management units. These foundational units will introduce students to the attributes required to work in Arts Management, or in organising Creative Industries Events and Festivals.

Creative Production and Arts Management Study Area
This knowledge will situate the graduate within the creative industries by providing opportunities to explore Arts Management practice through theory, practice and production. This Study Area develops creative potential in Arts Management or as an artistic practitioner in creative production and events settings. Students will engage with and respond to festival organisation structures and theories of creative production, and will be introduced to practical content that will assist in vocational pathways.

Overview
The Graduate Certificate in Creative Industries is an innovative postgraduate course that enables students to fuse creative talents with business and entrepreneurial skills, and unites artistic practitioners, managers and the consumer through cultural leadership. With the shift to micro-business development, it provides the business acumen and entrepreneurial skills to turn ideas into successful enterprises.

Music and Sound
The courses are targeted at mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices in the creative industries. This Study Area is aimed at professional performers and composers, music producers, music studio personnel and music educators. It is also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as creative, critical and reflective capabilities, which impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Music and Sound Study Area
This Study Area explores the creative potential involved in the study of Music & Sound, as an artistic practitioner working within the creative industries. Students will be introduced to practical content that will assist with continuing personal practice.
This Graduate Certificate provides an understanding of the fundamental principles of the Creative Industries. Skills-based units will give the practical expertise required through a combination of Music & Sound Study Area units.
This Study Area aims to provide an understanding of the fundamental principles of Music & Sound and its application, or extend the expertise of current Music & Sound professionals practising within the context of the Creative Industries. Such a framework will aid in orientating futures as Music & Sound artistic practitioners or in associated practice, and will provide the critical tools for embarking on an informed vocational path.

Course Structure
To graduate with a Graduate Certificate in Creative Industries (Music & Sound), students are required to successfully complete 48 credit points, as specified in the Study Area structure.

Entry Requirements
An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Applications without the requisite entry requirements will be considered for special entry. Please contact the Creative Industries Faculty for more information.

Overview
The Graduate Certificate in Creative Industries is an innovative postgraduate course that enables students to fuse creative talents with business and entrepreneurial skills, and unites artistic practitioners, managers and the consumer through cultural leadership. With the shift to micro-business development, it provides the business acumen and entrepreneurial skills to turn ideas into successful enterprises.

Professional Communication
The courses are targeted at mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices in the creative industries. Professional communication is an integral aspect of all work environments, and highly developed skills in this area are much sought after by employers. This Study Area will hone workplace communication skills, giving the professional edge needed to communicate successfully at all levels of an organisation. Students will gain access to expertise in communication, writing, speaking, presentation skills, and leadership.

Professional Communication Study Area
This knowledge will situate the graduate within the creative industries by providing opportunities to explore interdisciplinary practice through theory, practice and production. This Study Area explores the creative potential involved in the study of professional communication as a practitioner working within the creative Industries. Students will be introduced to practical content that will assist continuing personal practice. This Graduate Certificate aims to provide an understanding of the fundamental principles of the Creative Industries. Skills-based units will give the practical expertise required through a combination of Professional Communication Study Area units to provide an understanding of the fundamental principles of professional communication and its application within the context of the Creative Industries.

Course Structure
To graduate with a Graduate Certificate in Creative Industries (Professional Communication), students are required to successfully complete 48 credit points, as specified in the Study Area structure.

Course Overview
The Master of Creative Industries caters for the professional development of Creative Industries practitioners and related professionals. The course develops fundamental and advanced skills, knowledge and practice in the Creative Industries, while at the same time advancing abilities in communication, project management, leadership and project application. Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Animation
The Master of Creative Industries provides an opportunity for postgraduate students to engage in future visionary entrepreneurship and project design, and the Animation Study Area Option give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors.

The Animation Study Area has been designed in collaboration with industry specialists and offers a studio-based learning environment where professionals and specialist academics in the field deliver a substantial suite of animation units. Connections with the Australian Research Council (ARC) Centre of Excellence for Creative Industries and Innovation (CCI), Institute for Creative Industries and Innovation (iCi) and the Australasian CRC for Interaction Design (ACID), ensure that students will benefit from research and real-world project opportunities.

Animation Study Area
This course brings together management and production skills with technical skills in Animation. This course explores the creative and research potential involved in the study of animation, as an artistic practitioner and professional. Students will engage with, and respond to, works, cultures and theories of past animation pioneers, and will be introduced to viable and practical content that will assist their continuing personal practice.

This course aims to provide students with an understanding of the fundamental principles of animation and its application in design contexts, as well as a theoretical framework for studio practice (including an understanding of the historical and contemporary context of their work). Such a framework will position students for a future within the animation industry or associated practices, and will provide the critical tools necessary for navigating a career within a volatile industry characterised by change.

Course Structure
To graduate with a Master of Creative Industries (Animation) students are required to successfully complete 144 credit points, as specified in the Study Area structure. Advanced standing of up to 48 credit points towards this Study Area may be available to students who have completed an undergraduate degree in Animation and meet the GPA requirements.

Career Outcomes
A management (development or production) career in the creative industries; a career in visual effects, direction or animation for film, television, advertising, or real-time games; a career in visualisation for architecture, medicine and learning design.

Previously Studied Pathway
If your undergraduate degree is in a related study area, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing for the study area units, so it is possible to complete your Masters of Creative Industries in just one year full-time. You will develop skills in entrepreneurship and management, and half of your study will be dedicated to the major project of your choice.

Entry Requirements
An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Applications without the requisite entry requirements will be considered for special entry. Please contact the Creative Industries Faculty for more information.

Course Overview

The Master of Creative Industries caters for the professional development of Creative Industries practitioners and related professionals. The course develops fundamental and advanced skills, knowledge and practice in the Creative Industries, while at the same time advancing abilities in communication, project management, leadership and project application. Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Creative Production and Arts Management

The Master of Creative Industries provide an opportunity for postgraduate students to engage in future visionary entrepreneurship and project design, and the specified Study Area Options give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors. The Creative Production & Arts Management Study Area has been designed in collaboration with industry specialists and offers an industry based learning environment where professionals and specialist academics in the field deliver an informed, yet practical suite of units. Connections with Brisbane Festivals and Australian industry leaders in festival and event production and Arts management will ensure students benefit from research and real-world project opportunities to learn.

Creative Production and Arts Management Study Area

This course brings together management and technical skills in each Creative Production and Arts Management. It develops students’ creative potential as artistic practitioners and professionals in Creative Production & Arts Management settings. Students engage with and respond to festival organisational structures and theories of creative production, and are introduced to viable and practical content that will assist their continuing personal practice. This course aims to provide an understanding of the fundamental principles of Creative Production & Arts Management and its application in festival contexts, as well as a theoretical framework for studio practice, including the historical and contemporary marketplace for professional work. Such a framework will position students for a future within the Creative Production & Arts Management industry or associated practices, and will provide the critical tools necessary for navigating a career within a volatile industry characterised by change.

Course Structure

To graduate with a Master of Creative Industries (Creative Production & Arts Management) students are required to successfully complete 144 credit points, as specified in the Study Area structure.

Creative Production & Arts Management is a specific field of study that requires strong practical capabilities, and students need to gain technical skills in this field. To achieve this, students who do not hold a bachelor degree will be offered a choice of undergraduate and postgraduate options that are specifically designed to build the technical skills required in Creative Production & Arts Management. Advanced standing of up to 48 credit points may be available to students who have completed an undergraduate degree in arts or creative industries management and meet the GPA requirements.

Previously Studied Pathway

If your undergraduate degree is in a related study area, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing for the study area units, so it is possible to complete your Masters of Creative Industries in just one year full-time. You will develop skills in entrepreneurship and management, and half of your study will be dedicated to the major project of your choice.

Career Outcomes

A career in Arts Management, or in creative production for events and festivals.

Entry Requirements

An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Applications without the requisite entry requirements will be considered for special entry. Please contact the Creative Industries Faculty for more information.

Course Overview
The Master of Creative Industries caters for the professional development of Creative Industries practitioners and related professionals. The course develops fundamental and advanced skills, knowledge and practice in the Creative Industries, while at the same time advancing abilities in communication, project management, leadership and project application. Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Creative Writing
The Master of Creative Industries provide an opportunity for postgraduate students to engage in future visionary entrepreneurship and project design, and the specified Study Area Options give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors. The Creative Writing Study Area provides students with the expertise and knowledge to develop skills as either freelance or vocational writers. The Study Area delivers a range of skills in major writing forms and genres, including fiction and non-fiction writing so that students can develop a major creative writing project. This project will generally comprise an extended form of prose narrative (i.e. a novella, novel or work of creative non-fiction) and will run for the full period of enrolment. In essence, the MCI is an opportunity to work in a closely mentored way on a long project, as well as to pick up relevant and specific skills in the Study Area of Creative Writing.

Creative Writing Study Area
This course brings together management skills with technical skills in Creative Writing and explores the creative potential involved in the study of creative writing, as an artistic practitioner working within the Creative Industries. Students will be encouraged to engage with and respond to works as well as cultural and literary theories of creative writing, and will be introduced to practical content to assist continuing personal practice. This course aims to provide an understanding of the fundamental principles of creative writing and its application, as well as a theoretical backdrop to creative practice within the context of the Creative Industries. Such a framework will assist in orientating a career in creative writing or associated practice, and will provide the critical tools for negotiating an informed vocational path.

Course Structure
To graduate with a Master of Creative Industries (Creative Writing) students are required to successfully complete 144 credit points, as specified in the Study Area structure. Course Overview
The Master of Creative Industries caters for the professional development of Creative Industries practitioners and related professionals. The course develops fundamental and advanced skills, knowledge and practice in the Creative Industries, while at the same time advancing abilities in communication, project management, leadership and project application. Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Interactive and Visual Design
The Master of Creative Industries provides an opportunity for postgraduate students to engage in future visionary entrepreneurship and project design, and the Interactive and Visual Design Study Area Options give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors.

This Interactive & Visual Design Study Area is offered to students who have previously studied or are new to this field of study. The Study Areas are targeted at mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and design practices. The program has been developed to integrate knowledge in visual design and interactive media, through an integrated studio-based teaching model. A studio-based approach to teaching and learning encourages a community of learners to interact cooperatively to solve problems. It is an immersive approach to learning where open problems are visited frequently. The studio units in this degree are designed to provide opportunities for the practical application of the knowledge and skills derived from the other core and option units.

Interactive and Visual Design Study Area
This course brings together management skills with practice, design, research and technical skills in Interactive and Visual Design. This Study Area acknowledges the specialist skills in design strategy and design project development, and explores the creative potential of a visual design and interactive media production practitioner working within the creative Industries. Students will be encouraged to engage with and respond to works, and theories of Interactive & Visual Design, and will be introduced to viable and practical content that will assist continuing personal practice.

This course aims to provide an understanding of the fundamental principles of Interactive & Visual Design and its application, or extend the expertise of Interactive & Visual Design professionals practising within the context of the Creative Industries. It will assist in orientating students towards futures as Interactive & Visual Design (or associated practice) practitioners, and will provide the critical tools for embarking on an informed vocational path.

Course Structure
To graduate with a Master of Creative Industries (Interactive & Visual Design) students are required to successfully complete 144 credit points, as specified in the Study Area structure.

Advanced standing of up to 48 credit points however may be available to students who have completed an undergraduate degree in Interactive & Visual Design and meet the GPA requirements.

Interactive & Visual Design is a specific field of study that requires strong practical capabilities, and as such, students need to gain technical skills in this field. To achieve this effectively, students will be offered a choice of undergraduate and postgraduate options that are specifically designed to build the technical skills required in Interactive & Visual Design.

Career Outcomes
A management role in the creative industries; or specific career pathways may include: Graphic and Web Designer, Multimedia Designer, Art Director, Game Concept Designer, Interface & Interaction Designer, Media Producer or Design Manager.

This course can offer valuable skills and foundations to students contemplating a doctorate degree such as Doctor of Creative Industries (Interactive & Visual Design).

Previously Studied Pathway
If your undergraduate degree is in a related study area, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing for the study area units, so it is possible to complete your Masters of Creative Industries in just one year full-time. You will develop skills in entrepreneurship and management, and half of your study will be dedicated to the major project of your choice.

Entry Requirements
An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Applications without the requisite entry requirements will be considered for special entry. Please contact the Creative Industries Faculty for more information.

Course Overview
The Master of Creative Industries caters for the professional development of Creative Industries practitioners and related professionals. The course develops fundamental and advanced skills, knowledge and practice in the Creative Industries, while at the same time advancing abilities in communication, project management, leadership and project application. Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Interdisciplinary
This innovative postgraduate course enables you to fuse creative talents with business and entrepreneurial skills. Your role as a manager in the creative industries is to bring together the artist and the consumer through cultural leadership. The Interdisciplinary Study Area Options give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors. The Interdisciplinary Study Area Option give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors.

Interdisciplinary Study Area
The Core units introduce the creative industries, and the roles of professionals and practitioners who explore and exploit the expression of creativity for commercial and artistic gain. Interdisciplinary study explores wide-ranging communication skills, including digital, collaborative and written. This course aims to provide an understanding of the fundamental and advanced principles of the creative industries. Skills-based units will provide practical skills through a combination of Creative Industries units.

Course Structure
To graduate with a Master of Creative Industries (Interdisciplinary) students are required to successfully complete 144 credit points, as specified in the Study Area structure. Advanced standing of up to 48 credit points however may be available to students who have completed an undergraduate degree in Interdisciplinary studies in the Creative Industries and meet the GPA requirements.

Career Outcomes
The Interdisciplinary Study Area will be of interest to those who seek a creative career as an employee, consultant or in creative industries management.

Previously Studied Pathway
If your undergraduate degree is in a related study area, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing for the study area units, so it is possible to complete your Masters of Creative Industries in just one year full-time. You will develop skills in entrepreneurship and management, and half of your study will be dedicated to the major project of your choice.

Entry Requirements
An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Applications without the requisite entry requirements will be considered for special entry. Please contact the Creative Industries Faculty for more information.

Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Music and Sound
The Master of Creative Industries provides an opportunity for postgraduate students to engage in future visionary entrepreneurial project design, and the Music and Sound Study Area Options give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors. The Music & Sound Study Area is aimed at professional performers and composers, music producers, music studio personnel and music educators. It is also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as foster creative, critical and reflective capabilities that impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Music and Sound Study Area
This study area brings together management skills with technical skills and explores the creative potential of a Music & Sound practitioner working within the Creative Industries. Students will be encouraged to engage with and respond to works, and theories of Music & Sound, and will be introduced to relevant and practical content that will assist continuing personal practice. This Course aims to provide an understanding of the fundamental principles of Music & Sound, and to extend the expertise of current Music & Sound professionals practising within the context of the Creative Industries. Such a framework will orient studentsâ€™ future careers as Music & Sound (or associated) practitioners, and will provide the critical tools for embarking on an informed vocational path.

Course Structure
To graduate with a Master of Creative Industries (Music & Sound) students are required to successfully complete 144 credit points, as specified in the Study Area structure. Course Overview
The Master of Creative Industries caters for the professional development of Creative Industries practitioners and related professionals. The course develops fundamental and advanced skills, knowledge and practice in the Creative Industries, while at the same time advancing abilities in communication, project management, leadership and project application. Thus, this innovative postgraduate course enables students to fuse creative talents with business and entrepreneurial skills, as the role of manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

Professional Communication
This innovative postgraduate course enables you to fuse creative talents with business and entrepreneurial skills. Your role as a manager in the creative industries is to bring together the artist and the consumer through cultural leadership.

The Master of Creative Industries provides an opportunity for postgraduate students to engage in future visionary entrepreneurship and project design. The specified Professional Communication Study Area Options give students the opportunity to intensely engage in real projects with practitioners from industry and research centres as supervisors.

Professional communication is an integral aspect of all work environments, and highly developed skills in this area are much sought after by employers. The Professional Communication Study Area will hone workplace communication skills, giving the professional edge needed to communicate successfully at all levels of an organisation. Students will gain access to expertise in communication, writing and journalism as they combine study in professional and persuasive writing, speaking and presentation skills, and leadership and team skills. They will develop skills in professional writing and speaking, leadership and teamwork, and work communication practices, and apply these skills to teamwork environments and work-based projects.

Professional Communication Study Area
To graduate with a Master of Creative Industries (Professional Communication) students are required to successfully complete 144 credit points, as specified in the Study Area structure.

Advanced standing of up to 48 credit points may be available to students who have completed an undergraduate degree in Professional Communication and meet the GPA requirements.

If your undergraduate degree is in a related study area, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing for the study area units, so it is possible to complete your Masters of Creative Industries in just one year full-time. You will develop skills in entrepreneurship and management, and half of your study will be dedicated to the major project of your choice.

Career Outcomes
The Professional Communication Study Area will be of interest to those who seek communication skills to further existing careers whether in management, policy, research and analysis, administration, customer service, sales, or consulting. Alternatively, this Study Area may begin a career in professional communication including as a professional writer, organisational trainer, or communication officer.

Entry Requirements
An undergraduate degree with an overall minimum grade point average of 5.0 or above (on a 7-point scale). Students whose undergraduate degree is in a related creative industries discipline may apply for the Previously Studied Pathway. Overview
This creative and practical course is designed for those seeking to become leaders in the music industry. There will be many types of musicians in the future, and QUT’s Bachelor of Music responds to this need for future focussed graduates. You will study a common core of music and sound subjects plus some intensive practice-based and work experience units.

You will navigate your own pathway, having the choice of a performance or production strand, and the flexibility to choose electives in other creative areas.

You will be expected to present your work in a number of ways, based on your particular aims and passions. There is an emphasis on real-world experiences during the course, including public performances and showcases, internships, media opportunities and collaborative productions with other students.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The due date to register for an audition and lodge additional materials to QUT is the 29th August 2009. Late registrations and submissions will not be accepted. In addition to the admission application, applicants must also apply online to Creative Industries Faculty, QUT.

Closing dates for prospective international students are different to those listed above. Please refer to the additional entry requirement information in the International Students section in the Creative Industries web site.

Career Outcomes
Graduates work in the live, recording and multimedia industries, as performers, composers, creative music producers, developers of music software and games, DJs, mixers or studio teachers. This degree is also a pathway to honours and professional or research postgraduate studies.

Why choose this course?
The creative and modern emphasis of this degree sets it apart from other music courses on offer in Australia. There is a focus on generic music skills relevant to the twenty-first century, reflecting the demands required of a musician of the future. You may study a variety of styles and genres, indeed a ‘crossover music’ approach is encouraged.

The emphasis on repertoire creation over reproduction means it is ideally suited to those who are keen to innovate and make their mark in the changing sector of creative industries. You’ll be equipped to sustain your career over the long term.

Other Course Options
The Bachelor of Music is available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprising the three year Bachelor of Music and the one year Graduate Diploma of Education (Senior Years).

You can also choose from double degree programs including IX34 Bachelor of Business/Bachelor of Creative Industries (Music) and IX27 Bachelor of Creative Industries (Music)/ Bachelor of Information Technology.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
While extensive computing technology is available, additional digital storage will be required (CDs, DVDs, and often hard drives) at your own cost. Headphones, ear plugs, batteries and appropriate leads must be provided.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The due date to register for an audition and lodge additional materials to QUT is the 28th August 2009 Late registrations and submissions will not be accepted.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, drama, English, languages, mathematics, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Graduate Certificate in Music (KM35)

Year offered: 2009
Admissions: No
CRICOS code: 034715F
Course duration (full-time): 1 semester
Course duration (part-time): 2 semesters
Domestic fees (indicative): 2009: Full fee tuition $6,750 (indicative) per semester
International Fees (per semester): 2009: $10,000 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Professor Andy Arthurs
Campus: Kelvin Grove

Overview
This course is aimed at professional performers and composers, music producers, music studio personnel and music educators. It is also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as creative, critical and reflective capabilities which impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Entry requirements
Entry to the Graduate Certificate or Graduate Diploma requires a bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale) and experience relevant to the music pathway selected by the applicant.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate with the possibility of articulation into the Graduate Diploma if they achieve a grade point average of 4.5 or above in the Graduate Certificate. Applicants will only be permitted to enrol in a Graduate Diploma with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

Masters applicants should possess either a three-year music degree with an overall grade point average of 5 or above (on a 7-point scale) or approved diploma in music from a university or documentary evidence of a successful career as a music industry professional considered equivalent to a three-year degree. Prior to admission, applicants must submit and have approved a project proposal.

Advanced standing for prior study and/or professional experience for the Masters is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

Course Structure
Students select 48 credit points (normally four subjects) from a list of units focusing on Music Composition for the Creative Industries, Music and Media Technologies, or Music Coaching.

Overview
This course is aimed at professional performers and composers, music producers, music studio personnel and music educators. They are also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as creative, critical and reflective capabilities which impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Entry requirements
Entry to the Graduate Certificate or Graduate Diploma requires a bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale) and experience relevant to the music pathway selected by the applicant.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate with the possibility of articulation into the Graduate Diploma if they achieve a grade point average of 4.5 or above in the Graduate Certificate. Applicants will only be permitted to enrol in a Graduate Diploma with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

Masters applicants should possess either a three-year music degree with an overall grade point average of 5 or above (on a 7-point scale) or approved diploma in music from a university or documentary evidence of a successful career as a music industry professional considered equivalent to a three-year degree. Prior to admission, applicants must submit and have approved a project proposal.

Advanced Standing
Advanced standing for prior study and/or professional experience for the Masters is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

Course Structure
Masters students may choose from either:
* Coursework and project: eight units prior to two Music Project units. Alternatively, students can undertake four or six coursework units and four or three Project units respectively.
* Project: two coursework units undertaken prior to five Music Project units.

Students must contact the subject area coordinator before making unit selection.

OVERVIEW

Based at the Kelvin Grove campus, QUT's Faculty of Education offers an engaging learning environment and specialised knowledge to support students in their lifelong learning journey. The Faculty is one of Australia's leading education faculties, recognised for its international reputation, diverse range of expertise in education, lecturers that maintain close links to educational practice, and outstanding success in research.

The Faculty maintains close links with the profession and sees its professional community incorporating state, national and international educational organisations. Education staff are actively involved in projects and activities that improve the quality of education for diverse learners both in Australia and overseas.

Education staff and students are enthusiastic researchers who receive competitive research grants and undertake a wide range of collaborative and contract research. In 2008, the Faculty was the top-performing education faculty in Queensland for Australian Research Council (ARC) grants, receiving $1.95 million for six major education research projects. The Faculty is one of only three universities to receive over $1 million in education funding, and is in the top two nationwide.

The Faculty welcomes students from many nations across the globe including students from Malaysia and Papua New Guinea. Due to our international reputation and diverse expertise, we have attracted many groups of highly experienced educators from Vietnam, Hong Kong, China and Malaysia who complete professional development courses delivered by our academic staff.

Education graduates from QUT are highly employable throughout Australia and the world, with many pursuing rewarding careers and making a difference in Asia, the United Kingdom, Canada and remote Australian Indigenous communities.

For more information on the Faculty of Education visit [www.education.qut.edu.au](http://www.education.qut.edu.au)

RESEARCH CENTRE

**Centre for Learning Innovation**

QUT's Faculty of Education is one of Australia’s leading education faculties with outstanding success in research. The Faculty’s research culture is driven by a commitment to innovation, enhancing educational professional practice and engaging with real-world issues. The Faculty offers a range of postgraduate research programs: the Doctor of Philosophy, the Doctor of Education, and Master of Education (Research), with quality supervisors affiliated with our four schools:

- Cultural and Language Studies in Education
- Early Childhood
- Learning and Professional Studies
- Mathematics, Science and Technology Education.

The Faculty’s research agenda is the focus of the Centre for Learning Innovation. The Centre manages research in the Faculty and is home to a critical mass of active re-
searchers, 180 doctoral students and 25 research masters students. It provides support to staff and higher degree students who are engaged in research training, publications, competitive research grants, and commercial research tenders. The Centre is committed to innovative and high-quality research directed towards:

- meeting educational needs in local, national and global contexts
- fostering positive social and economic change
- providing leadership across the full range of education professions
- developing innovative solutions to educational problems
- conducting transdisciplinary and multidisciplinary research.

The Centre is a leader in collaborative research with the education professions and an innovator in educational research both nationally and internationally. A variety of research is conducted with clusters of researchers focusing on:

- early years
- learning for professional futures
- literacies, curriculum and pedagogies
- mathematics curriculum.

Other research interests in the Faculty include knowledge in science, engineering and technology; cognition and creativity; creative workforce; cultural transformations; development and disability; Indigenous capacity building; sustainability; and, the scholarship of teaching in higher education.

Visit the Centre for Learning Innovation webpage for more information.

Master of Learning Innovation (Early Childhood Teaching)

No further intake into ED09, please refer to the Master of Education ED79.
This option is suitable only for qualified teachers seeking to become early childhood specialists. Students are required to complete eight units.

Entry Requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean or an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year’s appropriate professional or industrial experience. Students undertaking the MLI (Early Childhood Teaching) study areas must be qualified teachers.

Special Entry Requirements
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre.

Students undertaking the practicum unit in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher. This applies to all students who intend undertaking this practicum in a Child Care Centre, Day Care, Long Day Care, Kindergarten or independent preschool setting. It is essential that you apply for this Blue Card at least 16 weeks prior to the commencement of your field studies. Forms can be downloaded at: www.childcomm.qld.gov.au/employment/index.html

Students who do not have a valid Blue Card and are required to do so for their placement will not be permitted to commence their practicum. You may incur penalties if you failed to submit your application within the recommended time-frame.

Professional Recognition
The Early Childhood Teaching study area is recognised as a specialist early childhood qualification in Queensland.

Overview
The Doctor of Education (EdD) is a professional doctorate which requires the completion of coursework units and a thesis. A professional doctorate addresses the need for a higher degree oriented towards the enhancement of professional practice and is designed to focus on applied investigation and problem solving rather than on a contribution to pure research or to theoretical knowledge. Its focus is the professional development of practitioners involved in some aspect of education.

Entry Requirements
Applicants must possess a four-year education degree or its equivalent with first-class or second-class Honours division A or a Masters degree in education or in a field relevant to the professional doctorate in education, AND two years practice in a position of professional responsibility in education or a closely related field. Students with lesser qualifications but exemplary professional practice may be given provisional entry and should consult the Course Coordinator before applying.

Course Structure
The degree consists of 288 credit points of which 72 credit points are coursework, followed by a thesis of 216 credit points. All coursework must be completed before work can commence on the thesis. For the unit Interdisciplinary Education Studies (a 24 credit point unit), students undertake a four-day, on-campus study school in January of their commencing year. Subsequently, in the second and third semesters of their enrolment, students attend two four-day study schools on campus (July and the following January) in which they work on the methodology and design of their thesis (each unit worth 24 credit points). The thesis is undertaken in the Faculty's research centre. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice.

How to Apply
Before submitting an application for enrolment, a potential candidate should consult the Course Coordinator who will assist in the preparation of the appropriate application form concerning eligibility and special interests. Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under 'Help at hand', at QUT Research Students Centre counters or by phoning 07 3138 4475.

Overview
This program gives you an opportunity to research a topic of your choice, culminating in submission of a thesis. Under the guidance of your supervisor(s), you will conduct your research within the Faculty's Centre for Learning Innovation. As well as equipping you with the research and analytical skills to make a valuable contribution to knowledge, the Master of Education (Research) puts you in a position to market yourself as an expert in your field. The course is a fitting preparation for the doctoral programs offered by the Faculty: the Doctor of Philosophy and the Doctor of Education.

Entry Requirements
- a four-year education-related degree with a grade point average of at least 5 (on a 7-point scale) or equivalent, with demonstrated potential for further study and evidence of professional standing;
- OR a graduate diploma in an education-related field with a grade point average of at least 5 (on a 7-point scale) or equivalent, with a demonstrated potential for further study and evidence of professional standing;
- OR an honours degree in an education-related field with a minimum second class Honours division A or B.

Applicants who do not have professional experience in an education-related field would normally be expected to demonstrate their potential for further study with a grade point average of 6 (on a 7-point scale) or better.

Admission into the course is dependent on the availability of supervisors with expertise appropriate to the individual topic.

Course Structure
The course comprises four stages: preparation, confirmation of candidature, implementation and submission of a thesis of up to 40,000 words.

(i) Preparation stage: you undertake two research methodology units - Professional Applications of Research and Conducting Innovative Educational Research. Exemption may be granted for the methodology units if you can demonstrate that you have already completed equivalent studies or have relevant research experience. During this stage, you will determine the research methods to be used in your thesis and begin work on your literature review.

(ii) Confirmation of candidature stage: you present and justify your research proposal at a seminar attended by academic staff and your peers. Your confirmation document includes your research design and your draft literature review.

(iii) Implementation stage: you execute your research proper, collecting your data and analysing the results.

(iv) Submission stage: in the final stage of your Master of Education (Research) journey, you finish writing your thesis and present it to a review panel for approval at a final oral seminar open to the public. Once approved, your thesis is ready to be submitted for examination.

Application Procedures
As part of your application for the course, you are required to submit a short research proposal. It is recommended that you consult the course coordinator or prospective supervisors for their assistance.

Course Requirements
University and Faculty rules governing credit, supervision, confirmation of candidature and examination of thesis apply to the Master of Education (Research).

How to Apply
Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under 'Help at hand', at QUT Research Students Centre counters or by phoning 07 3138 5306.

Overview
The Master of Education and Graduate Certificate in Education (TESOL) are coursework awards that provide students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Entry requirements
Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean and at least one year's practical experience in some branch of education acceptable to the Executive Dean.

You must have the appropriate English language proficiency level to study your proposed course before you are admitted into QUT. There are two formal tests of English proficiency which QUT will accept: IELTS and TOEFL.

- IELTS: overall band score of 6.5 with no sub-band below 6.0; or
- TOEFL (iBT): overall score of 90 with no sub-score below 20 (if TOEFL permitted by visa requirements).

You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language or one or more communication subjects.

Please refer to the How to apply link.

Course structure
Students in the Masters program are required to complete 96 credit points of study including the two compulsory units, Second Language Acquisition and Principles of Second Language Methodology, of 12 credit points each. Students then have the choice of pursuing one of two options:

- Option 1: requires the completion of six elective units of 12 credit points each.
- Option 2: requires the completion of elective units and a 12, 24 or 36 credit point Facilitated Study Unit to total 96 credit points. Students must consult with the Course Coordinator to discuss their research topic before enrolling in a Facilitated Study Unit.

Graduate Certificate in Education (TESOL) - Exit Point
Following the successful completion of four Master of Education (TESOL) units comprising two core units and two electives, students may elect either to discontinue enrolment and graduate with a Graduate Certificate in Education (TESOL), or to pursue a further four units in order to complete the Master of Education (TESOL).

How to apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under 'Postgraduate admissions'; at QUT Student Centre counters; or by telephoning 07 3138 2000.

Application forms must be accompanied by supporting documents such as transcripts and parchments from previous studies; a signed letter from your employer on official letterhead or other official documents to support at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Originals must be supplied or copies certified by a Justice of the Peace; Commissioner of Declarations (registration numbers must be provided); or by QUT Student Centre staff. If documents are in a language other than English the original document must also have an official English translation. Documents will not be returned unless you provide a stamped, self-addressed envelope with your application. Transcripts and parchments from QUT and other Queensland universities need not be supplied.

Overview
The Bachelor of Education (Inservice) program is an undergraduate course in education in which you undertake a mature examination of yourself as a teacher and of important educational issues in light of your preservice preparation and subsequent teaching experience. The course aims to further develop your commitment to teaching and increase your abilities to critically evaluate current educational practice, to introduce new innovations and to upgrade your discipline knowledge. Graduates are eligible for entry into the Faculty's Master of Learning Innovation and Master of Education (Research) courses.

Entry requirements
You must have completed a Diploma of Teaching (or equivalent).

OP Guarantee
The OP Guarantee does not apply to this course.

Course Structure
You are required to complete eight, 12 credit point units of study. The course provides flexibility for students to complete their studies across a range of areas. Two core units, Engaging Diverse Learners and The Professional Practice of Educators, must be completed together with an additional two units from any of the four schools located in the Faculty of Education. The remaining four units may be taken from a wide range of Faculty of Education units or from faculties other than the Faculty of Education. Students undertaking the course to meet specific Queensland College of Teachers Registration requirements may not be able to undertake non-education units.

Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas. Alternatively students may choose a suite of units related to a specific area of interest such as adult and workplace education, culture and language studies, human relationship education studies or mathematics, science and technology education studies.

Mid-year Entry
This course is available externally only for mid-year entry.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Further Information
Faculty of Education Office: Phone +61 7 3138 3947; Fax: +61 7 3138 3949; email: educationenq@qut.edu.au (Please include a postal address with email enquiries).

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

International Entry: February

Overview
For graduates with an undergraduate degree to obtain their first teaching qualification. Three areas of study: Early Years (emphasising birth to eight years, and preparing graduates to teach prep-year 3); Middle Years (emphasising years 4-9); Senior Years (emphasising years 10-12 as well as lower Secondary).

Midyear intake
The mid year intake for Early Years, Middle Years, and Senior Years is for full time, internal mode only.

Further, Senior Years will have limited teaching areas (ie. Dance, Drama, Music, Visual Arts, Film and Media Education and Language Education will not be offered midyear). Refer to the teaching area entry requirements for further information.

Entry Requirements
Completion of a Bachelor's degree that does not lead to teacher registration.

Senior Years also requires successful completion of the equivalent of 96 credit points (one year of full time study) in undergraduate discipline studies that relate to the nominated Teaching Area. Refer to the teaching area entry requirements for additional information.

The Middle Years Study Area requires applicants to nominate two discipline strengths based on previous study.

For Early Years it is assumed that the undergraduate degree has sufficient breadth to enable you to confidently address the range of teaching areas that is expected by a potential employer. You may wish to refer to the Queensland Studies Authority website, e.g Years 1-10 Key Learning Areas.

IELTS: International applicants and applicants with English as a second language must provide evidence of English language competence achieving an overall band score of 7.0 and no less than 7.0 in each sub band. The cost of the testing will be met by the applicant. English test results must be no more than two years old.

NOTE: The majority of Supervised Field Experience must occur in Australian Primary and/or Secondary school settings.

Additional Entry Requirements - Senior and Middle Years
Senior Years applicants are required to nominate a proposed teaching area based on prior studies. Middle years applicants are required nominate two discipline strengths based on previous study. Teaching area nominations and discipline strength nominations are made via the online Teaching Area Nomination Form.

Professional Recognition
The Graduate Diploma in Education is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT's deferment policy does not apply to this course.
Graduate School Program
The Graduate School Program enables students to gain early experience in schools before their formal field experience commences. The program is strongly recommended for commencing full-time internal students and it is essential that you have a valid blue card in order to participate. The program is subject to viable numbers. For more details, refer to your program coordinator.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Domestic student tuition fee places
Tuition fee places are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
The Graduate Certificate in Education provides a two-semester part-time or one-semester full-time postgraduate course in a range of study areas. You will acquire knowledge and understanding of specific issues in education, develop the skills necessary to identify and evaluate these issues, provide leadership within an educational setting and acquire abilities to manage the problems identified.

Entry requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean, OR an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year’s appropriate professional or industrial experience. Students undertaking the Early Childhood study area must be qualified teachers.

Please refer to the How to apply link.

Course Structure
The Graduate Certificate in Education course consists of 48 credit points of study from the Master of Learning Innovation deemed by the Executive Dean to form a coherent program of study. Units can be presented in internal, flexible or block mode (where students are required to attend campus for up to five days normally during the January or July school holiday period). In some instances units can be completed in a modularised form which allows students to complete the assessment on a credit point basis.

Study Areas
The study areas have been reviewed and now include:
- Career Development  
- Early Years  
- Education Research: Theory and Practice  
- Higher Education  
- ICT  
- Information-Learning Connections  
- Leadership and Management  
- Learning Innovation and Futures  
- Studies in Literacy  
- Teaching for Diversity: Disability and Learning Difficulties  
- Vocational Education and Training

How to Apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under ‘Postgraduate admissions’; at QUT Student Centre counters; or by telephoning 07 3138 2000.

Application forms must be accompanied by supporting documents such as transcripts and parchments from previous studies; and if applicable, a signed letter from your employer on official letterhead or other official documents to support at least one year’s practical experience in some branch of education acceptable to the Executive Dean.

Students undertaking study area Early Childhood must also supply evidence of their teacher registration.

Originals must be supplied or copies certified by a Justice of the Peace; Commissioner of Declarations (registration numbers must be provided); or by QUT Student Centre staff. If documents are in a language other than English the original document must also have an official English translation. Documents will not be returned unless you provide a stamped, self-addressed envelope with you application. Transcripts and parchments from QUT and other Queensland universities need not be supplied.

Overview
The Master of Education and Graduate Certificate in Education (TESOL) are coursework awards that provide students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Entry Requirements
Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean of the Faculty and at least one year’s practical experience in some branch of education acceptable to the Executive Dean.

You must have the appropriate English language proficiency level to study your proposed course before you are admitted into QUT. There are two formal tests of English proficiency which QUT will accept: IELTS and TOEFL.

- IELTS: overall band score of 6.5 with no sub-band below 6.0; or
- TOEFL (iBT): overall score of 90 with no sub-score below 20 (if TOEFL permitted by visa requirements).

You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language or one or more communication subjects.

Please refer to the How to apply link.

Course structure
The Graduate Certificate in Education (TESOL) consists of four units taken from the Master of Education (TESOL) course. Students are required to complete the two core units Second Language Acquisition and Principles of Second Language Methodology and two electives.

How to apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under 'Postgraduate admissions'; at QUT Student Centre counters; or by telephoning 07 3138 2000.

Overview

The Master of Education (TEFL) is a coursework award designed to meet the needs of international students seeking a course which is specifically focused on teaching English as a Foreign Language in their home context.

Entry Requirements

Entry to the course requires successful completion of a degree award deemed to be at least equivalent to an Australian bachelors degree.

International Students studying in Australia on a Student Visa may only enrol in full-time internal programs offered on-campus.

International Students must have the appropriate English language proficiency level to study your proposed course before you are admitted into QUT. There are two formal tests of English proficiency which QUT will accept: IELTS and TOEFL.

- IELTS: overall band score of 6.5 with no sub-band below 6.0; or
- TOEFL (iBT): overall score of 90 with no sub-score below 20 (if TOEFL permitted by visa requirements).

You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language or one or more communication subjects.

Please refer to the ‘How to apply’ link.

Course Structure

Students are required to complete 8 units (96 credit points) of study. This includes the four compulsory units and four electives which may be selected from those on offer in the ED14 Master of Education (TESOL) course.

How to apply

International students complete an F form. These can be accessed from studentservices.qut.com under ‘Postgraduate admissions’; at QUT Student Centre counters; or by telephoning (international and domestic): 61 3 9627 4853; Fax: 61 3 9627 4863

Free-call numbers:

China: 10800 61 00 246

**Course Overview**

The Faculty of Education has completely revised its Masters program and will now offer the Master of Education ED79 in 2009, replacing the Master of Learning Innovation ED09.

The Master's program is focusing on specialised study areas that are currently in demand and featuring innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

These programs will suit teachers, educators and graduates with relevant employment experience who are seeking to make a career change within education or enhance their existing education career.

**International Programs of Study**

Recommended programs of study are available for international students. Please refer to the structures section for more information.

**Entry Requirements**

Applicants for the Master of Education must hold:

Career Development
The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA). This endorsement has been granted for a five year period until 2014.

Successful completion of the three (3) online Australian Career Development Studies modules available through DEST will enable you to receive 12 credit points of advanced standing which will go towards satisfying the study area requirements.

Early Childhood Teaching
The study area will enable you to develop in-depth theoretical and practical knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

This is a specialist study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings. Furthermore, the Early Childhood Teaching study area is recognised as a specialist early childhood qualification with Queensland Department of Communities and the Creche and Kindergarten Association (C&K).

Early Years
Early years programs have significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years has consequences for children’s health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children.

It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

Education Research: Theory and Practice
This study area will encourage and enhance critical thinking in a specific area of education of interest to you and provide the research grounding in a focussed area to give you the option to progress into higher degree study. While you may wish to pursue this area as an end in itself, you may wish to move to specific research projects either for awards within the higher education sector or as part or your work within specific organisations.

Higher Education
Teaching and learning are core functions of all higher education institutions. The need to ensure quality in teaching and learning within the higher education sector is increasingly a focus of a number of initiatives. This study area develops and extends your skills in teaching, explores teaching and learning theories and the strategies, models and concepts that are relevant to teaching and learning in a higher education setting, and develops the capacity to critically reflect on professional practice.

Professional development activities undertaken by staff may be recognised for advanced standing into the study area. You will need to complete an Advanced Standing application form and document appropriately for consideration by the Faculty.

Information and Communication Technology (ICT)
This study area will enhance your knowledge of ICT in teaching and learning. The content will provide the bridge between theory and practice in the use of ICT in teaching and learning. Major theoretical frameworks will be introduced in order to analyse and plan effective learning experiences with ICT. Curriculum needs related to integration of ICT will be critically evaluated. The final leadership unit will allow teachers aspiring to be leaders to address critical ICT agendas and encourage informed policy development.

Information-Learning Connections
This study area enables you to extend your conceptual understandings and professional practices for learning and teaching in rapidly changing information-rich learning environments. It will provide an opportunity for your career development across Education, Librarianship, and Information Services. Potential students include: experienced teachers and teacher-librarians; academics; instructional designers; academic developers; learning support specialists; academic, public and corporate librarians; information professionals; workplace educators.

Leadership and Management
The Leadership and Management study area focus lies with building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

Learning Innovation and Futures
The study area will encourage you to consider the nature and direction of innovation and learning futures in the context of your professional learning environments and contexts. It will provide opportunities for you to consider the
current and future directions of learning in learning environments in general and your own professional context in particular, both by achieving mastery of current futures orientated literature and by applying this knowledge to your own personal and professional situation.

It will enhance the theoretical understandings and professional expertise of educators and learning facilitators who are knowledgeable about emerging trends in the educational implications of technology and society and who wish to develop their own potential as innovative leaders.

Public Education

This is a study area offered collaboratively by three Universities, QUT, University of Queensland and James Cook University. You will become a specialist in the issues that face the public education system, in particular how the rapidly changing world affects teaching, learning environments and leadership. You will be required to undertake cross-institutional study to satisfy the study area requirements.

Cross-institutional study - you must ensure that you comply with the administrative dates for cross-institutional study at University of Queensland or James Cook University. Students in a Commonwealth supported place at QUT may apply to the host institution to undertake the units on a Commonwealth supported basis. You must complete a new Request for Commonwealth support and HECS-HELP Form for the Commonwealth supported units you are going to study and forward the form to the host institution. The form must be completed prior to the census date of the first teaching period.

School Guidance and Counselling

This study area is suitable for guidance officers seeking to advance their knowledge or qualified teachers seeking a career change. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Qld schools. School Guidance and Counselling - Option B, will enable you to meet the School Guidance and Counselling requirements and the Career Industry Council of Australia (CICA) professional standards. This endorsement has been granted for a five year period until 2014.

Studies in Literacy

Studies in Literacy afford opportunities for participants to engage with current issues, histories and a breadth of interest domains within the scope of literacy and literate practices. The suite of units is written for a variety of participants including teachers and professional development officers across professions who engage with staff who may have, for example, those who do not have the required level of literacy skills for the contexts in which they work or who do not have English as a first language.

Graduates of the study area would have opportunities to engage with the climate, contexts and debates around literacy and gain substantive learning in areas significant to political, professional, private and community contexts.

Teacher-Librarianship

This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. The study area is recognised by the Australian Library and Information Association (ALIA) for the six year period, January 2006-December 2011. Graduates are eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Teaching for Diversity: Disability and Learning Difficulties

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required.

It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Vocational Education and Training

In recent years, there has been considerable convergence of vocational education and training and academic education within the Australian community. This study area will equip individuals with the understandings and skills necessary to implement and manage Vocational Education and Training initiatives within a range of settings.

It aims to develop the skills and knowledge of participants as critically reflective practitioners with a commitment and confidence to lead vocational education in secondary and post-secondary settings.

International Student Programs:

Generic Program for International Students

When choosing a study area, international students are restricted by the ESOS Act and their agreement with QUT. They are required to study 75% of their units 'internally' at the university, therefore most of the above study areas are not suitable.

The Generic Program for International Students meets these requirements and provides international students with
a variety of units to further develop their education skills and knowledge.

**Early Years Program for international Students (no mid-year entry available)**

When choosing a study area, international students are restricted by the ESOS Act and their agreement with QUT. They are required to study 75% of their units ‘internally’ at the university, therefore most of the above study areas are not suitable.

Career Outcomes
This degree provides graduates with the opportunity to be employed in childcare centres and services. Graduates are not eligible for teacher registration in Queensland.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, audits, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
The Bachelor of Early Childhood Studies is an approved child care qualification with the Queensland Government Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children's services.

Graduates of the Bachelor of Early Childhood Studies are not eligible for teacher registration with the Queensland College of Teachers.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Diploma entry
Students with a completed Diploma Diploma of Community Services (Children's Services), Diploma of Children's Services, Diploma of Children's Services (Centre Based Care) or equivalent qualifications will receive one year of academic credit that will be automatically awarded by QUT Admissions after the QTAC offer and prior to the start of classes.

If you have one the above diplomas and receive an offer, you will be able to undertake the diploma entry enrolment program that allows you to complete the Bachelor of Early Childhood Studies in two years.

Special Entry
Preference may be given to those applicants in rural or isolated locations, and/or who have departmental/work requirements.

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
This course prepares you to work as a director of childcare centres and with other areas of children's services. You will undertake units in areas such as early childhood development, early childhood language and mathematics curriculum, and inclusive practices in early childhood.

Professional Recognition
The Bachelor of Early Childhood is an approved child care qualification with the Queensland Government Department of Communities. Graduates of the Bachelor of Early Childhood are not eligible for registration with the Queensland College of Teachers.

Advanced Standing
Students admitted to this course will be automatically granted credit of one and half years of study (ie 144 credit points) for their completed Diploma of Children's Services (or an equivalent accredited qualification) and early childhood work experience.

Students admitted on the basis of an Advanced Diploma of Children's Services and who have not supplied QTAC with evidence of their early childhood experience will only be automatically granted credit of one year of study (ie 96 credit points) and will be required to provide evidence of their early childhood experience to QUT prior to graduation.

Computing Requirement
The increased and more creative use of QUT Blackboard online teaching technology in this degree requires students to have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and Internet access.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT's deferment policy does not apply to this course.

Career Outcomes

You will be prepared to teach in a minimum of two curriculum or teaching areas in secondary schools.

Deferral

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers’ literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from their degree.

Professional Recognition

The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

Students complete a total of 384 credit points of study and will specialise in two teaching areas appropriate for teaching grades 8-12 in Queensland. The teaching area studies are...
also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 100 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, Indigenous and sociocultural studies. Applied curriculum tasks give students the opportunity to relate their practical school experiences to their theoretical studies.

Successful applicants receive an offer in one of three streams: General, Home Economics or Physical Education. Restrictions apply to some teaching area combinations.

Teaching Area Combinations
Students will select their two teaching areas from the lists (one from Group X and one from Group Y) shown in Course Structure under the COURSE STRUCTURES heading below.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Career Outcomes
You will be prepared to teach at all levels of primary school. You may also complete four discipline/content studies options units in one of the key learning areas of the Queensland school curriculum. Majors in Languages Other Than English (LOTE) and Health and Physical Education are available within the primary teaching program and will enable graduates to become specialist teachers in those areas.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Literacy Standards
All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers’ literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Field Studies Units will be taken in Queensland schools.

Languages Other Than English (LOTE) Major
Students undertaking a LOTE Major will be required to attend other campuses. Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). From 2009 Mandarin will also be available. Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units. Graduates with this major will be eligible to seek employment as a LOTE specialist teacher within Education Queensland, Catholic and Independent School sectors.

Health and Physical Education Major
In 2010, students who commenced in 2009 will have the option of undertaking a Health and Physical Education Major within the course. Graduates completing this study area will be eligible to seek employment as a Primary Physical Education specialist teacher within Education Queensland, Catholic Education and Independent school sectors. This Major is available at Kelvin Grove campus only. Entry criteria and quotas apply.
Research Minor Option
At the end of Year 2, certain students will be invited to undertake the Research Minor Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Course Structure
The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist units that allow students to undertake a specific area of study of at least 48 credit points.

NOTE: Students granted credit for previous studies may not be able to progress each semester with a full-time load.

Caboolture Campus Note
Students at Caboolture may wish to take the Middle Years Minor Option at that campus. However, if students do not wish to have Middle Years as their option area, they would need to take alternative options from List 1 and take the units at the campus where offered. Note: not all units in the LOTE option are offered at Caboolture Campus. Students will need to undertake some subjects at other campuses.

Career Outcomes
Graduates can teach in childcare centres, kindergartens, preschools and the lower three grades of primary school. They may also complete a discipline/content studies elective in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Early Childhood) is an approved child care qualification with the Queensland Government Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children’s services.

Literacy Standards
All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers’ literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Field Studies Units will be taken in Queensland schools and settings.

Research Pathway
At the end of Year 2, you may be invited to undertake the Research Pathway Option which is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career.

Course Structure
The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education. Field studies units will be undertaken in Queensland schools.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

NOTE: Students granted credit for previous studies may not be able to progress each semester with a full-time load.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.
Advanced Standing
Students admitted with a completed Diploma of Children’s Services (or an equivalent accredited qualification) will be automatically granted one year of advanced standing (ie 96 credit points) and be eligible to complete the degree in three years full-time.

Diploma entry
Students with a completed Diploma Diploma of Community Services (Children’s Services), Diploma of Children’s Services, Diploma of Children’s Services (Centre Based Care) or equivalent qualification will receive one year of academic credit that will be automatically awarded by QUT Admissions after the QTAC offer and prior to the start of classes.

If you have one the above diplomas and receive an offer, you will be able to undertake the diploma entry enrolment program that allows you to complete the Bachelor of Education (Early Childhood) in three years.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Campus: Internet

Special Course Requirements

The majority of supervised professional experience must occur in Australian Primary and/or Secondary school settings

Special Entry Requirements

Preference may be given to those applicants in rural or isolated locations, and/or who have departmental/work requirements.

Entry Requirements

Completion of a Diploma or Advanced Diploma of Community Services (Children's Services) or an equivalent accredited qualification
and
Diploma holders must have the following early childhood experience:
- one year full-time (or equivalent) group leader experience; or
- two years full-time (or equivalent) family day care experience as an accredited provider; or
- two years full-time (or equivalent) early childhood teacher aide experience in a state preschool, prep or crèche and kindergarten association centre; or
- two years full-time (or equivalent) before and after school care experience.

NOTE: The majority of supervised professional experience must occur in Australian Primary and/or Secondary school settings.

Advanced Standing

Students admitted to this course will be automatically granted credit of one and half years of study (ie 144 credit points) for their completed Diploma of Children's Services (or an equivalent accredited qualification) and early childhood work experience.

Students admitted on the basis of an Advanced Diploma of Children's Services and who have not supplied QTAC with evidence of their early childhood experience will only be automatically granted credit of one year of study (ie 96 credit points) and will be required to provide evidence of their early childhood experience to QUT prior to graduation.

Computing Requirement

The increased and more creative use of QUT Blackboard online teaching technology in this degree requires students to have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the
QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

**Deferment**

QUT's deferment policy does not apply to this course.

Overview
The Doctor of Philosophy (PhD) is a research degree which is undertaken within the research centre of the Faculty of Education. The PhD degree is awarded in recognition of the candidate's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge.

Entry requirements
Applicants must possess a relevant first-class or second-class division A Honours degree, OR an appropriate masters degree. A good command of the English language is required.

Course structure
You undertake a supervised program of research which results in the submission of a thesis. A suite of research methodology units is available to those candidates who require them. You are initially required to complete a stage one application form at the time of enrolment. This is followed by submission of a detailed research proposal three months later. Within 12 months of admission for full-time candidates and 24 months part-time candidates, (and 15 months for international candidates), you are expected to develop a full course of study in consultation with your supervisor. This proposal is submitted to the Confirmation of Candidature Review Panel for approval. At the completion of the thesis, you are required to undertake an oral examination to present findings of the research. Once successfully completed, the thesis is submitted to the appointed examiners to be assessed.

How to Apply
Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under 'Help at hand', at QUT Research Students Centre counters or by phoning 07 3138 4475.

Course Structure - Continuing Students

BA Course Requirements (Years 1 and 2) (Continuing Students)

Students should have completed the following components of the degree:
The first year requirements (8 units) which include:
HHB116 Applied Skills and Scholarship
Two Foundation Units (for students who did not complete
two Faculty Foundation Units in Year 1
Two to three Course Foundation Units
Two to three Elective Units
NB a minimum of four of these eight units must be chosen
from units offered from the BA component of your course.
In second year, a further 8 units to complete:
One Major Study Sequence chosen from the BA component
of your course
AND
One Minor Study Sequence from those offered in the BA
component of your course or from other Minor Study
Sequences offered elsewhere within QUT.
Students must ensure that a minimum of 12 of the 16 units
be chosen from units in the BA.

Course Structure - Commencing Students

BA Course Requirements (Years 1 and 2)(Commencing Students)

Students are REQUIRED to complete:
* One Interdisciplinary Professional Major (1 core
introductory unit + 6 units in the major)
It is SUGGESTED that they complete the Core Units
Program consisting of the following:
*Four core units in first semester (from a selection of core
introductory units and core skills units)
(Note: one of the core introductory units will sit within
the chosen Interdisciplinary Professional Major)
* Two core units in second year (2 research methods units)

NB One of core introductory units will sit within the chosen
Interdisciplinary Major.

Course Structure - Commencing Students (cont.)

Students must maintain a 50% enrolment in units from the
BA program until they have completed 8 of those units (96
credit points).
Students may wish to
- develop a Minor (48 credit points) in one of the
interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study
sequence or in another QUT course
- develop a Minor (48 credit points) in major Foundation
units for Primary Teachings
- take a series of elective units

Students wishing to complete a full discipline studies
sequence (6 units) will need to amend their core units
program.
Students planning to complete a full language sequence (6
units) will need to discuss their program with the relevant
Course Coordinator to ensure that their language studies
begin in semester one and continue into their third year.

NB Students are required to complete 16 units in the BA
component of the double degree. Of these 12 must be BA
units i.e. HHB coded units.

Key Terms in the BA - Commencing Students

* Professional Major - one of five interdisciplinary study
sequences in the BA degree (International & Global Studies,
Society and Change, Ethics and Human Rights, Community
Studies, Australian Studies), consisting of one core unit plus
six further units from the appropriate list (making a total of
84 credit points). Students must complete at least one of
these to fulfil the requirements of the degree.
NB - a unit may not be counted in more than one
professional major, discipline sequence, or Minor.
* Discipline Sequence - a set of six units (72 credit points) in
a given discipline (Geography, History, Languages, Social
Science). In Languages, this consists of six sequenced units
in one Language. In other disciplines the six units must
include one introductory unit to the discipline.
* Minor Study Sequence - a study sequence of any four
units (48 credit points) in a given subject area.

**Potential Careers:**
Administrator, Community Worker, Corporate Secretary, Diplomat, Educator, Government Officer, Information Officer, Manager, Network Administrator, Network Manager, Primary School Teacher, Project Developer, Project Manager, Public Relations Officer/Consultant, Public Servant.
Bachelor of Applied Science/Bachelor of Education (Primary) (IF84)

Year offered: 2009
Admissions: No
Course duration (full-time): 4 Years
Domestic fees (indicative): 2009: CSP $3,694 (indicative) per semester
Domestic Entry: February
QTAC code: 409142
Past rank cut-off: 80
Past OP cut-off: 10
OP Guarantee: Yes
Assumed knowledge: English (4 SA) , Maths B (4 SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Perry Hartfield (Science): Dr Mary Ryan (Education)
Campus: Gardens Point and Kelvin Grove

Career Outcomes
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help students position themselves within the broad range of science disciplines but also qualify them as a competent professional in their chosen field.

Students are equipped to undertake research after graduation if they desire. The Bachelor of Education (Primary) prepares students to teach at all levels of the primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Course Structure for Commencing Students in 2002
Students complete 192 credit points from units in the Bachelor of Applied Science degree (meeting all of the requirements of the core program and a major study), and 192 credit points from the Bachelor of Education (Primary) program. The science units and the units EDB001, MDB383, CLB376 and EDB430 are undertaken during the first five semesters of the double degree program.

NO FURTHER INTAKE INTO THIS COURSE
This course has been replaced by a newly coded IX21 Bachelor of Arts/Bachelor of Education (Secondary) with effect from 2008.

Career Outcomes
During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities Program website.

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You are equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant to students intending to follow a career in secondary school teaching are Chemistry, Ecology, Geoscience, Mathematics or Physics.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas. The course is being reviewed during 2007 and the course structure for 2008 will be available on studyfinder.qut.com mid-2007.

Why choose this course?
This double degree will prepare you for a career teaching physical education with an emphasis on exercise, health, nutrition and sports science. You will also develop a theoretical background in human movement, complemented by practical skills obtained from a variety of practicum placements.

Career Options
The Bachelor of Applied Science (in Human Movement Studies) course provides the skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. You will also be prepared to teach in two curriculum areas: physical education with a second teaching area in mathematics, English, health education or biology.

Professional Recognition
Graduates are eligible for registration as a teacher in Queensland. Graduates will also satisfy the requirements for membership of the Australian Association for Exercise and Sports Science (AAESS).

Other Course Requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

computing requirement The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Recommended Study
any of Maths B, Maths C, Chemistry, Physics, Biological Science, Health Education or Physical Education.

Deferred
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Career Outcomes
Graduates teach instrumental or classroom Music in secondary and primary schools.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the

From 2009 there is no further intake into this course.

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also approved by the Department of Communities for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Field studies units will be taken in Queensland schools.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

Career Opportunities

The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You will be equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Primary) prepares you to teach at all levels of primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Course Design

Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component. Field Studies units will be taken in Queensland schools.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

### Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Overview
This double degree qualifies you to teach dance in Australian secondary schools. In the first two years you will study the technique and philosophy of a number of dance styles plus dance analysis, history and sociology, dance composition and basic kinesiology and alignment. Students generally participate in a daily class of various styles. In addition to Dance, you will study a second teaching area, choosing from Drama, Music, English, Film and Media, Geography, History and Languages. In the final two years you concentrate on teacher preparation.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The final date to register for an audition and submit additional materials to QUT was 07 September 2007. Late registrations and submission of materials will not be accepted.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates of this course are qualified to teach in secondary education with a specialisation in Dance. Graduates may wish to explore the avenues of performance, freelance choreography, dance research and administration.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Deferment
QUT’s deferment policy does not apply to this course.

General
This four-year double degree qualifies you to teach Drama in schools in Australia and overseas. In the first two years you will undertake units in Drama, blending practice with theoretical concepts strongly focused on developing artistic, organisational and communication skills. In addition to Drama, you study a second teaching area selected from Dance, Music, Visual Art, English, Film and Media Studies, Geography, History and Languages. In the second two years you will concentrate on teacher preparation, equipping yourself through drama curriculum units with the skills necessary to be an effective drama educator.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates are employed as Drama teachers in secondary schools, work with the State Government in education, or as education officers with performing arts companies and in youth arts.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

General
This four-year double degree qualifies you to teach as an art teacher in Australian secondary schools. In the first two years you will undertake practical and theoretical introductory studies about artistic ideas, concepts and aesthetic judgements as well as working in two- and/or three-dimensional media. Studio areas include Painting, Printmaking, and Sculpture with supporting areas of Drawing and Photography. Students study a second teaching area selected from Dance, Drama, Music, English, Film and Media Studies, Geography, History and Languages. In the final two years you will concentrate on teacher preparation, equipping yourself through art curriculum units with the skills to be an effective art educator.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. Applicants will be able to obtain the Visual Arts Application Guide online via addentry.qut.com or by phoning QUT Creative Industries Faculty on 07 3138 8114 in mid July. The final date to lodge the portfolio and other required materials to QUT is 19 October 2007. A $33 service fee applies; applicants applying for more than one Visual Arts course are required to pay only one service fee of $33.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates work as art teachers in secondary schools, are employed by State Government in education, as education officers with community art projects and in youth arts.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
The Master of Psychology (Educational and Developmental) prepares students to work as educational or developmental psychologists in a range of settings including schools, disability services, hospitals, employment agencies and private practice.

Offered jointly by the faculties of Health and Education, the course has been designed to meet the requirements for full registration as a psychologist in Queensland, and for membership of the Australian Psychological Society (APS) and the associated College of Educational and Developmental Psychologists. As the only course in Queensland offering advanced training in this area of specialisation, the Master of Psychology (Educational and Developmental) offers an innovative and stimulating program of coursework, practicums and research in human development and learning.

Entry Requirements
Applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a grade point average of 5 or above, two referee reports and an interview.

International students or applicants from whom English is not the first or native language require an IELTS score of 7.5 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board of Queensland may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - http://www.psychologyboard.qld.gov.au.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

Undertaking the supervised psychological practice component of the course requires provisional registration as a probationary psychologist with the Psychologists Board of Queensland.

In addition to submission of an admission form (PG Form for domestic applicants, F Form for international applicants), applicants are required to submit an IX20 Questionnaire and two IX20 Referee Reports. All forms are available at the following link:

Other Requirements
blue card As required by the Commission for Children and Young People, all students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://bluecard.qut.com.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Course Overview
The course consists of 16 arts units and 16 education units of which the arts component is completed first. Students are required to choose two teaching areas from English, Geography, History, Languages other than English, Social Science and General Science. A third teaching area of Film and Media Studies is permitted. The course prepares graduates to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a
fee-paying student.

Overview
QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields. Each dual award is structured to enable you to spend your first three years immersed in your creative discipline. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.
You will sample life as an educator prior to commencing your graduate diploma with foundation units in education studies which include practical school-based field experience during your creative industries degree. You will also have the option to choose minor studies in one other discipline during your first three years which will give you the advantage of undertaking study in a second teaching area, thereby increasing your teaching options.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional entry requirements
Applicants will be selected on the basis of their audition and previous academic achievement. In addition to the admission application, applicants must also apply online to Creative Industries Faculty, QUT.

The final date to lodge the portfolio and additional materials with QUT was extended to 29 August 2008. A $33 service fee applies (which can be paid online); applicants applying for more than one Dance course are required to pay only one service fee of $33.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October.

Confirmation dates and venues will be posted to registrants after registrations close.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.
As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.
If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.
You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.
You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and
performing arts.

**Professional Recognition**

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

**Deferment**

QUT’s deferment policy does not apply to this course.

**Domestic student tuition fee (Dfee) places**

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Overview
QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields.

Each dual award is structured to enable you to spend your first three years immersed in your creative discipline. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience. You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of undertaking study in a second teaching area, thereby increasing your teaching options.

Why choose this course?
The Creative Industries Faculty and the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

Professional Recognition
This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields.
Each dual award is structured to enable you to spend your first three years immersed in your creative discipline. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.
You will sample life as an educator prior to commencing your graduate diploma with foundation units in education studies which include practical school-based field experience during your creative industries degree. You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of undertaking study in a second teaching area, thereby increasing your teaching options.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants will be selected on the basis of their portfolio and previous academic achievement. In addition to the admission application, applicants must apply online to Creative Industries Faculty, QUT.

The final date to lodge the portfolio and other required materials with QUT was 17 October 2008. A $33 service fee applies (which can be paid online); applicants applying for more than one Visual Arts course are required to pay only one service fee of $33.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The due date to register for an audition and lodge additional materials to QUT is the 28th August 2009. Late registrations and submissions will not be accepted.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalties. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, drama, English, languages, mathematics, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

OVERVIEW

The Faculty of Health is the second largest faculty at QUT and offers world class teaching and learning facilities. Based at QUT’s Kelvin Grove campus, the faculty offers a suite of courses in the allied health profession.

The new multi-million dollar Centre for Physical Activity, Health and Clinical Education accommodates the QUT Health Clinics (Optometry, Podiatry and the soon to be opened Human Movement Studies and Nutrition and Dietetics). Students gain hands-on experience working with the latest technology and real world patients. The centre, spanning three levels has a gymnasium, 25-metre indoor, heated pool and indoor sporting facilities, which are available to students, staff and the community.

The Institute of Health and Biomedical Innovation (IHBI) is QUT’s major research hub also located in Kelvin Grove’s Urban Village. IHBI operates under six research domains: Cells and Tissues; Human Health and Wellbeing; Injury Prevention and Rehabilitation; Medical Device; Tropical Crops and Biocommodities and Vision Improvement.

Health has six major academic areas, Human Movement Studies, Nursing, Optometry, Psychology and Counselling, Public Health and Social Work and Human Services.

Human Movement Studies provides graduates with experience and skills to work in a range of challenging occupations. Graduates work as exercise physiologists, corporate wellness consultants, exercise scientists, sport scientists and strength and conditioning specialists. The course provides a holistic approach to gaining a theoretical background and practical skills while utilising world class equipment and facilities. Students are taught by leading researchers in the areas of exercise science, human health and wellbeing and injury prevention and rehabilitation. Students will also experience practicum placements in a variety of settings including the QUT Health Clinics.

Nursing and Midwifery is Queensland’s oldest provider of nursing education. Always at the cutting-edge of its field, the school offers the latest in clinical facilities and equipment, and a wide range of local, rural, and overseas opportunities for practical placements. The school has a major nursing facility at QUT’s Caboolture campus. Nursing graduates go on to work in a range of areas beyond the traditional hospital ward. The school offers undergraduate courses in nursing, including the double degree program, Bachelor of Nursing/Bachelor of Midwifery, together with specialised postgraduate coursework and research programs.

Optometry is Queensland’s only learning facility offering optometry training and one of only three in Australia. The school offers a new five-year dual degree program, a Bachelor of Vision Science/Master of Optometry, which will include training in the use of therapeutic drugs. Students apply their knowledge through supervised clinical practice in the QUT Health Clinics and the real world. Postgraduate study is available at the Graduate Certificate, Masters and PhD levels.

Psychology and Counselling offers excellent teaching, technology and research facilities for its undergraduate and postgraduate courses. Courses provide students with the opportunity to gain practical qualifications that are highly regarded in the real world. Double degree courses are also available with Social Work, Business and Law, providing students with a dual focus and alternative careers. Graduates aiming for registration may seek admission to a fourth year of study in either the Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology. Professional registration requires either two years of supervised work experience or the completion of an appropriate higher degree.

The Doctor of Psychology (Clinical), Master of Clinical Psychology and the Master of Psychology (Educational and Developmental) meet this requirement. Postgraduate coursework programs in counselling and road safety are offered, together with research programs.

Public Health is a highly diverse school offering undergraduate courses in podiatry, nutrition and dietetics, paramedic and public health. A range of articulated postgraduate programs is also offered in a number of specialised fields such as environmental health, health promotion, occupational health and safety, risk management, health services management, public health and health science.

Social Work and Human Services offers a number of highly regarded, practice-focused undergraduate and postgraduate courses which equip students for work in a range of diverse and challenging occupations. Graduates enjoy excellent employment prospects with a variety of government, community and non-government organisations. We have a long established reputation for excellence in the Bachelor of Human Services and offer innovative combined courses with Psychology, Creative Industries and Justice Studies. The new Bachelor of Social Work is modern in design, flexible in delivery and grounded in the real world of practice. Staff combine first class academic qualifications with extensive experience as social workers, human service practitioners, counsellors, social researchers, social activists and welfare lobbyists.

RESEARCH CENTRES

Research in the Faculty of Health addresses important health issues using a wide range of approaches. This involves multidisciplinary collaboration and ground-breaking research across a number of health-related areas. Most of the Faculty’s substantial program of research is conducted through the Institute of Health and Biomedical Innovation (IHBII) in which it is a key partner.

Key areas of research strength include:

**Ageing**

The effects of an ageing population pose numerous health and social issues for Australia and globally. Research at QUT is investigating successful ageing strategies, innovative systems of care and the impact of age-related disease.

The Dementia Collaborative Research Centre for Consumers and Social Research leads research to improve the quality life of people with dementia and their carers. Other ageing research focuses on models of community and residential care, pain and symptom management, palliative care, ocular disease and the effects of vision impairment, foot health, gait, mobility and posture analysis, disorders of movement, injury in older people, social identity, families, mental health, nutrition, cognition and cognitive/memory deficits, the older driver, the older worker and active ageing.

**Physical Activity**

The role of physical activity in the maintenance and restoration of health is a significant emerging area of research with implications for the prevention, treatment and management of a range of chronic disorders and occupational and sporting injuries. This program of research is aimed at the promotion of physical activity during childhood and adolescence, the prescription of exercise in the context of chronic disease; and community-based health behaviour interventions. Injury research involves assessment of biomechanical, physiological, metabolic, neurological, sensory and psychological factors, concentrating on high-risk groups. Research is also being conducted into a range of disorders including neurological injury, vision loss, emotional or behavioural disorders in children, peripheral arterial disease and sleep apnoea.

**Human Health and Wellbeing**

Research activities in this area relate to health services, policy and management, and population health. Areas of strength include the management of chronic diseases such as cancer, diabetes, obesity and coronary heart disease and other emerging health issues using a wide range of approaches.Improving the care of hospitalised patients and managing early discharge; health outcomes for disadvantaged populations; women’s and children’s health; and prevention and management of mental health problems. Other research areas include environmental health, child maltreatment awareness and prevention.
nutrition assessment and screening tools, and evaluation of nutritional status.

**Human Behaviour**
Research in human behaviour embraces fundamental, social, cognitive and developmental processes in psychology. This includes research in attitude theory, group behaviour and decision making, child and adolescent development, memory, psycholinguistics and the development of reading. Opportunities include research in addictive behaviour, eating, exercise, organic mental disorder and health promotion. A range of research methods has also informed the development of psychological therapies and counselling, including rehabilitation, treatment of psychological trauma, anxiety disorders and depression, narrative therapy, family therapy and counselling supervision.

**Vision**
QUT has an international reputation for research in optometry and vision science. Facilities which are unique in Queensland provide an important resource for the community, industry, government and the eye care professions. Vision research includes collaborative research with other programs deriving from the main vision research activities which are visual optics including aberrations of the eye and their correction, lens design and performance, myopia and optics of the eye; visual performance studies including vision rehabilitation, vision and driving and vision and falls; and clinical research into the ocular surface, effects of refractive surgery, colour vision and electrophysiology.

**Social Work Research**
Social Work research is committed to understanding the needs of the diverse communities with which social work and human services practitioners work. The goal of social work research is to improve the health and wellbeing of vulnerable groups through contributing to new knowledge, which informs social policy and professional practice. Current areas of research activity include child safety and welfare, social exclusion (including the needs of specific communities such as Aboriginal and Torres Strait Islander; migrant and refugee; lesbian, gay, bisexual and transgender; rural and remote; as well as exclusionary practices related to public space), disability studies and workforce issues in human services.

**Accident and Injury Prevention Research**
Road safety and workplace injury prevention are key areas of research that have already led to the successful implementation of behaviour intervention and education programs. The Centre for Accident Research and Road Safety–Queensland (CARRS–Q) is a major collaborative research centre established as a joint venture initiative of the Motor Accident Insurance Commission (MAIC) and QUT. The Centre was created to address the enormous human, economic and social costs resulting from road crashes. It has expanded its research scope to include the broader area of injury prevention with a particular interest in youth and risk-taking behaviours.

The Centre’s charter is to identify, assess and initiate innovative priority-driven research and teaching programs leading to the development and implementation of strategies to improve safety on roads, in workplaces and in communities. The Centre aims to strengthen and broaden research and intervention development in the areas of vulnerable road users, illegal and high-risk behaviours, the human behaviour and technology interface, school and community-based road safety education, and workplace safety.

Course Outline
The Bachelor of Human Services has a strong focus on contemporary social issues and produces competent human services workers who will care for and protect the rights of people, families and communities. You will complete 24 units of study.

You will specialise in at least one service area:
- child and family services
- corrective services
- disability services
- services to young people

You will develop a range of professional skills such as:
- casework and case management
- social policy processes
- team practice and group processes
- community work
- advanced communication
- social research methods
- Indigenous Australia
- child protection intervention
- human dimensions of space

Professional Practice Placements
You will gain hands-on experience in this course through two professional practice placements.

In first semester of your second year you will explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in second semester of your third year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Service Contexts

CHILD AND FAMILY SERVICES
Child and family services units provide you with a firm grounding in theories, practices and processes essential for understanding and intervening in family life. You will be introduced to child and family welfare studies and will focus on approaches to supporting families and promoting change. You will also examine core processes and practice skills associated with interacting with children and parents, assessing family life and encouraging participation in decision making.

CORRECTIVE SERVICES
In corrective services units you will examine contemporary issues and practices in corrective services through empirical data and current corrective services practices. You will explore the function of prisons, prisoner rehabilitation, criminal behaviour trends, capital punishment, juvenile justice, the future of prisons, victims of crime, and restorative justice. You will develop critical-thinking and problem-solving skills as well as strategies to prepare you for employment within corrective services.

DISABILITY SERVICES
Disability services units provide you with a solid foundation for understanding and evaluating the theories, principles, practices and policies underpinning services used by people with disabilities. The aim is to link the social justice, empowerment and human rights issues explored in the more generic units within the degree program to the lives of people with disabilities. You will have the opportunity to explore and evaluate the range of service models relevant to the lifestyles of people with disabilities. The units focus on the quasi-legal and policy aspects of working in disability service organisations, and address some of the ethical dilemmas inherent in human service provision to people with a disability.

SERVICES TO YOUNG PEOPLE
These units help you understand and identify the various ways youth and adolescence are understood, constructed and portrayed in mainstream media, academic literature and human services. You will critically review the situation of a diverse range of young people and will investigate the knowledge, theory and skills base of a range of contemporary practice arenas, such as juvenile justice and adolescent child protection practice, youth homelessness, youth policy analysis and development.
Professional Membership
Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Overview
The Social Work course is modern in design, flexible in delivery and grounded in the real world of practice. It aims to develop effective and ethical social work professionals who are skilled and practical. The teaching staff have extensive experience as social workers, counsellors, political activists and welfare lobbyists. They are passionate about changing systems and structures that result in human suffering and injustice. The course draws on the strong relationships that have been established with government and community agencies at the State, National and International levels. There is a significant emphasis on promoting an inclusive society based on principles of social justice and human rights and respect for the wellbeing and dignity of all people.

Why Study Here?
This course will prepare you to meet the challenges of life as a social worker. Distinctive study pathways are available. The child protection pathway enables students to choose core and elective units which will best prepare them for practice in statutory child protection settings such as the Queensland Department of Child Safety. The international practice pathway provides students with the knowledge and opportunity to undertake social work practice in other national contexts, and give them priority in undertaking a major placement in an overseas agency. The research pathway provides students with the knowledge and skills to undertake research designed to improve services, creating a solid foundation for postgraduate research programs.

Career Outcomes
Social Workers are involved with individuals, groups, communities, organisations and broad social systems. The profession has excellent consistent employment prospects with a variety of government, community and non-government organisations. Employment opportunities exist at State, National and International levels. Social Workers have careers in:
- child protection
- youth services
- mental health services
- health hospital services
- disability agencies
- corrective services
- case management
- income support
- family support/counselling
- school education
- indigenous services
- justice and legal services
- community development
- rural remote services
- international aid
- social policy
- administration

Blue Card
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as students accept their offer into the course, they should submit their Blue Card application to the QUT Student Centre immediately. Students must hold a Blue Card to undertake placement units (HHB338 and HHB408) which may involve contact with children.

If students do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, they will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Professional Recognition
Graduates are eligible to apply for membership of the Australian Association of Social Workers (AASW).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course Structure
The Bachelor of Social Work can be undertaken as either a four year undergraduate program or as an advanced standing two year (5 semester) program following two years of approved undergraduate study. This pathway includes a summer teaching placement. Students may undertake the

---

QUT HANDBOOK 2009 · Page 1170
course in part-time mode. Students wishing to study part-
time should contact the Course Coordinator for a
progression plan.

Students will complete specialist units in child and family
services, corrective services, disability services, or services
to young people. Distinctive study pathways are also
available. The child protection pathway will enable students
to choose core and elective units which will best prepare
them for practice in statutory child protection settings such
as the Queensland Department of Child Safety. The
international practice pathway will provide students with the
knowledge and opportunity to undertake social work
practice in other national contexts, and give them priority in
undertaking a major placement in an overseas agency. The
research pathway provides students with the knowledge
and skills to undertake research designed to improve
services and creates a solid foundation for postgraduate
research programs.

The social work program involves two placements, each of
490 hours, where the student's skills are further developed
in real world settings. Students are able to graduate with
honours on the basis of achieving a GPA of a certain
standard.

**Advanced Standing Program**

Advanced Standing allows approved applicants who have
completed at least two years of a university degree or
equivalent in a relevant area to complete the Social Work
course with a further two calendar years (5 semesters) of
full time study. Relevant areas of previous study are:

- Justice Studies
- Law
- Education
- Arts (Humanities)
- Social Sciences
- Psychology or Behavioural Sciences
- Community Welfare and Human Services programs from
  other universities
- Health including Nursing

As part of this prior study, it is expected students will have
completed some units with a focus on social studies,
behavioural studies, and interpersonal skills. The number of
units in addition to the requirements of the standard 2 Year
Advanced Standing Program that students can be required
to undertake is limited to two (24 credit points).

If the previous study includes no social studies students can
be required to undertake one unit with a focus on

- social disadvantage,
- human rights or
- social/legal processes.

If the previous study includes no behavioural studies
students can be required to undertake HHB102 The Human
Condition or similar. Further, students may be required to
undertake HHB113 Interpersonal Communication if previous
studies have not included a unit with a focus on
interpersonal communication.

Students seeking Advanced Standing should apply for entry
to the four year Bachelor of Social Work program and apply
for advanced standing (credit) - up to 168 credit points - for
previous study. Students who have completed or partly
completed a human services degree from QUT should apply
for entry to the four year program, and may receive up to
192 credit points. Advice on likely credit can be provided by
the Bachelor of Social Work Course Coordinator. Note, that
while these guidelines govern advanced standing
arrangements, final outcomes will be decided once formal
application has been made.

It should be noted that in undertaking the 2 Year Advanced
Standing course structure students will undertake their first
field placement in the **summer semester** of the first year
following two semesters of preparatory units. Those who
enter the program in mid-year will undertake their first field
placement in the summer following their first semester.
Students will need to be available through the summer
(November to February) in order to complete the fieldwork
component.

Course Structure
This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements
As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Membership (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Welfare and community Workers. (Accreditation application is currently in process).

Course is under review
QUT is currently reviewing the Arts programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2009 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website http://www.humanities.qut.edu.au/

Overview
An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

Entry Requirements
Applicants should have completed QUT’s Bachelor of Human Services or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements, but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Course Structure
The course consists of two coursework units, a research elective, an elective and the equivalent of four units of supervised independent study, resulting in a thesis. The thesis will be marked by two assessors, one of whom will normally be external to QUT.

Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Mid-year entry
The Bachelor of Human Services (Honours) has two intakes per year: February and July. The mid-year entry structure requires students to undertake three semesters of enrolment: one part-time 24 credit point semester and two full-time 36 credit point semesters.

Electives
Students undertake two 12 credit point electives. At least one elective must be a research elective selected from the nominated list of research electives. The second elective may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the student’s mentor/supervisor and the Course Coordinator. Normally the elective unit is chosen from within the student’s discipline area or from an area that complements or is relevant to the student’s study program. For further information on available units contact the Honours Coordinator.

Further information
For more information about this course, please contact Social Work and Human Services by phone on 07 3138 4697 or email swhs.enquiries@qut.com

Dissertation
The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

Overview
If you are an employee in the community services industry, this course will help you respond to industry restructuring. It will give you a comprehensive understanding of new styles of service delivery, and upgrade your professional and management skills, preparing you for leadership of human services agencies. If you hold an undergraduate degree in psychology, education, nursing or related professions and are seeking employment in human services, this course will provide you with core knowledge and skills in a range of practice fields.

Entry requirements
Applicants must have:

- a three year undergraduate degree in human services or social work; or

- a three-year non-human services undergraduate degree with at least one year of demonstrated employment experience in the community service industry or related occupations such as teaching, nursing or allied health, community development, psychology or law.

Alternatively, students with at least five years of experience in the human services industry who can establish to the satisfaction of the course coordinator that they have accumulated the requisite academic capacity to function at a postgraduate level will be accepted into the Graduate Certificate. Capacity may be established by presenting reports or a submission prepared.

Overview
This double degree program provides a substantial foundation in both social work and psychology. Graduates may work in professional practice in a wide variety of settings. In particular, the course will equip you to work in areas such as mental health, drug and alcohol prevention and intervention and in the development and delivery of community services, counselling and family-centred intervention.

Why choose this course
Graduates from the double degree will have skills in the two complementary areas of social work and psychology. This integrated double degree will give graduates a substantial foundation for challenging and complex practice in a wide variety of settings.

The course consists of 480 credit points or the equivalent of 5 years full-time study. By utilising the summer semester for one or more field education placements, the double degree can be undertaken over 4.5 years (or 4 calendar years in accelerated mode).

Career options
Graduates of the double degree may work in areas such as social work, health and human services including mental health, counselling, child protection, child and family welfare, international practice, research, program development and practice with particular groups such as children, young people, people with disabilities, families. Professional practice as a psychologist requires further study.

This integrated double degree gives graduates a substantial foundation for challenging and complex professional practice in a wide variety of settings. In particular, the course equips students to work in areas such as mental health, drug and alcohol prevention and intervention, the development and delivery of community services, counselling, and family-centered intervention.

Professional recognition
Graduates of the single degree, Bachelor of Social Work, are eligible for membership of the Australian Association of Social Workers (AASW) as a Social Worker. Application is being made for a similar approval for the double degree.

Students seeking eligibility to apply for registration with the Psychologist’s Board of Queensland must also complete an approved additional year of study, either honours or a Postgraduate Diploma in Psychology, and a further two years of either approved postgraduate study, or supervised clinical practice.

Blue card
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Thomas Tenkate
Campus: Kelvin Grove

Overview
The course provides a broad range of options for study at the Graduate Certificate level. Students can select four (4) units from across a range of Faculty of Health units. It is designed for students who do not want to specialise but prefer to select a combination of units to meet their needs. Selection of units is subject to approval by the course coordinator.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and online learning.

Entry Requirements
Students must hold an appropriate bachelor degree or other qualifications/work experience acceptable to the Executive Dean.

Course Structure
Students are required to complete any four units (totaling 48 credit points) from List A. No more than two (24 credit points) senior undergraduate units can be included in the total. Students can choose four units that make up a Study Area, or can choose units from across disciplines.

Study Areas
- Aged Care
- Clinical Classification
- Environmental Health
- Health Professional Education
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Risk Management
- Women's Health

The Emergency and Disaster Management Study Area is not available in the Graduate Certificate in Health Science. However, students may select individual units from the stream of study.

Health Professional Education study option
From second semester 2008 a new part-time study option, Health Professional Education, was available to students enrolled in the Graduate Certificate in Health Science.

Students who entered the program in 2008 should have undertaken EDN630 Higher Education: Curriculum Design, Assessment and Evaluation and an elective in second semester 2008. Students will then undertake EDN626 Learning and Teaching in Higher Education and HLN720 Clinical Education in Health in first semester 2009.

Course Articulation
This course articulates fully into the Graduate Diploma in Health Science and the Master of Health Science

Special Note
Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduands to practice in these areas.

International Student Entry
International students may enrol only in full-time studies and may study only onshore.

Overview
This course has been replaced by HL23 Bachelor of Nursing/ Bachelor of Exercise and Movement Science from first semester 2010.

Continuing students will complete their course requirements in HL40 Bachelor of Nursing/ Bachelor of Applied Science (in Human Movement Studies).

This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in nursing and is able to apply your knowledge and skills to clinical health, fitness and rehabilitation.

Career Outcomes
This double degree prepares multi-skilled professionals who meet current requirements for employment in the area of nursing and, in addition, can apply their knowledge and skills in exercise and sports science settings.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership
The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au

Graduates are also eligible for membership of the Australian Association for Exercise and Sports Science.

Recommended Study
Any of Maths B or C, Biological Science, Chemistry, Health Education, Physical Education or Physics.

Other Course Requirements
The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. You will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units and you are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1. Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately $500.

The human movement studies component requires the purchase of the practicum shirt (approximately $50). Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

blue card Students must undergo a criminal history check and be issued with a Blue Card prior to undertaking clinical practice in an organisation which may involve contact with children and young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.
