- have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia
- be registered or authorised to practise in their country of origin or residence
- have gained a degree in nursing (or equivalent) from a recognised institution
- and normally have at least one year of appropriate post-registration clinical experience.

Applicants for the Intensive Care study area must have current temporary or full registration as a nurse with the Queensland Nursing Council (QNC).

Applicants for the Intensive Care study area must also have had at least three months of recent clinical experience in an intensive care unit.

International applicants may also apply for alternative entry, on the basis of relevant experience, at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay prescribed fees. Eligibility for temporary registration is assessed by the QNC. This process may take up to three months. Information is available at [www.qnc.qld.gov.au](http://www.qnc.qld.gov.au)

International students may enrol only in February in full-time studies and may study only onshore.

### Course Structure

The course structures offer a wide range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice.

The Graduate Diploma in Nursing consists of eight units each of 12 credit points making a total 96 credit points.

The Graduate Diploma may be undertaken by domestic students full-time or part-time in internal or external mode.

NB: Midwifery is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

### Professional Studies

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

Graduate Diploma in Nursing students who choose this major will complete three core units, and five elective units.

The elective options enable students to customise their program of study to meet individual learning needs.

### Course Pathways/Articulation

The Graduate Diploma in Nursing fully articulates with the Master of Nursing and is offered for domestic and international students who are eligible for registration as a nurse with the QNC.

### Further Information

For more information about this course, please call the School of Nursing and Midwifery on +61 7 3138 3824 or email [nursing.enquiries@qut.com](mailto:nursing.enquiries@qut.com)

## Graduate Diploma in Midwifery (NS68)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 040342B

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)

**Domestic fees (indicative):** 2009: CSP \$2,487 (indicative) per semester, Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Fiona Coyer

**Campus:** Kelvin Grove

### Overview

The Graduate Diploma in Midwifery is designed to prepare graduates for beginning level practice as midwives. Students undertake clinical and supporting studies units to enable them to develop competence in the area of midwifery, develop a critical awareness of major issues and trends in midwifery, and develop their understanding of research applied to midwifery. Graduates from the program are eligible to apply to the Queensland Nursing Council (QNC) for endorsement authorising practice as a midwife. Inherent in these course objectives is the expectation that, on completion of the course, students will have demonstrated their ability to meet the Australian College of Midwives Competencies (2005).

### Entry Requirements - Domestic Applicants

Domestic applicants must:

- be registered as a nurse with the QNC
- have gained a degree in nursing (or equivalent) from a recognised institution and
- normally have at least one year of appropriate post-registration clinical experience.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applicants must provide original or certified documentary evidence for each entry requirement. For example: Queensland Nursing Council or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position (where required for a study area).

All applicants should also complete the questionnaire to accompany their applications available at [http://www.studentservices.qut.edu.au/pdfs/forms/pg\\_forms/PostgradNursingQuestion.pdf](http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf)

### Entry Requirements - International Applicants

International applicants must have current temporary or full registration as a nurse with the QNC, have gained a degree in nursing (or equivalent) from a recognised institution and normally have at least one year of appropriate postregistration clinical experience.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee plus an annual licence fee. The QNC assesses eligibility for temporary registration. This process may take up to three months. International applicants may also apply for alternative entry on the basis of relevant experience at the discretion of the Head of School of Nursing. International students may enrol only in full-time studies.

### Course Structure

Students enrolled in the Graduate Diploma in Midwifery undertake eight 12 credit point units, comprising five clinical studies units and three supporting studies units. These clinical units are designed to facilitate the development of knowledge, attitudes and skills which are commensurate with beginning practice as a midwife. A minimum of 720 hours of off-campus clinical experience is scheduled throughout the course. Clinical experience occurs in hospital settings, and a variety of community health agencies eg the family planning clinic, sexual health clinic, community support groups and childbirth education classes. The supporting studies component of the program comprises three units designed to further enhance students' professional growth through exploration, at a postgraduate level, of the nexus between research and practice, and issues in the development of midwifery as a discipline.

### Course Articulation

This course fully articulates with the Master of Nursing.

### Further Information

For more information about this course, please call the School of Nursing and Midwifery on +617 3138 3824 or email [nursing.enquiries@qut.com](mailto:nursing.enquiries@qut.com)

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July (Midwifery: Feb only)

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Fiona Coyer

**Campus:** Kelvin Grove

### Overview

The Master of Nursing provide an opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and prepare for specialist roles in selected areas of health care. The courses demonstrate a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The courses aim to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care.

This course fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the Queensland Nursing Council (QNC).

### Study Areas

The following majors are offered in this course:

- Acute Care Nursing
- Ageing and Dementia Studies
- Cancer Nursing
- Emergency Nursing
- Intensive Care Nursing
- Paediatric, Child and Youth Health Nursing
- Professional Studies
- Women's Health
- Midwifery \*

\*Only offered in the February intake.

Students may follow one of the following pathways:

- Clinical
- Professional
- Research

### Entry Requirements - Domestic Applicants

An applicant must be:

â€¢ registered as a nurse with the QNC or the nurse regulatory authority in the student's state or territory of residence

â€¢ have gained a degree in nursing (or equivalent) from a recognised institution

â€¢ and normally have at least one year of appropriate post-registration clinical experience.

In addition candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applicants must provide original or certified documentary evidence for each entry requirement. For example: Queensland Nursing Council or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position (where required for a study area).

All applicants should also complete the questionnaire to accompany their applications available at [http://www.studentservices.qut.edu.au/pdfs/forms/pg\\_forms/PostgradNursingQuestion.pdf](http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf)

**Entry requirements for specific study areas are as follows:**

#### Acute Care Nursing

Students are required to undertake suitable workplace-based clinical experience during the program to meet the requirements of the course

by either maintaining employment in an acute practice setting or undertaking supernumerary clinical experience which will be organised by the School of Nursing.

#### Cancer Nursing

Applicants for the Cancer Nursing study area must normally be working at least 0.6 FTE in the practice setting relevant to cancer nursing. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

#### Emergency Nursing

Applicants for the Emergency Nursing study area must have at least three months of recent clinical experience in an emergency facility, and be working at least 0.6 FTE in a level four to six emergency facility.

#### Intensive Care Nursing

Applicants for the Intensive Care study area must also have had at least three months of recent clinical experience in an intensive care unit and be working at least 0.6 FTE in a level two or three intensive care facility.

**Midwifery**

Applicants for the Midwifery strand must be registered as a nurse with the QNC.

**Paediatric, Child and Youth Health Nursing**

Applicants for the Paediatric, Child and Youth Health Nursing study areas must normally be working at least 0.6 FTE in the practice setting relevant to this study area. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

**Entry Requirements - International students**

International applicants must:

• have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia

• be registered or authorised to practise in their country of origin or residence

• have gained a degree in nursing (or equivalent) from a recognised institution

• and normally have at least one year of appropriate post-registration clinical experience.

Candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

Applicants for the Intensive Care or Midwifery study areas must have current temporary or full registration as a nurse with the Queensland Nursing Council (QNC).

Applicants for the Intensive Care study area must also have had at least three months of recent clinical experience in an intensive care unit.

International applicants may also apply for alternative entry, on the basis of relevant experience, at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay prescribed fees. Eligibility for temporary registration is assessed by the QNC. This process may take up to three months. Information is available at [www.qnc.qld.gov.au](http://www.qnc.qld.gov.au)

International students may enrol only in February in full-time studies and may study only onshore.

**Course Structure**

The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of nine different majors. For a detailed overview of the majors available, please refer to the Graduate Certificate in Nursing relevant to these areas of study.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points.

Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units or a 24 credit point clinical project.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time in internal or external mode.

**Professional Studies**

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

**Course Articulation**

The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Students who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

**Further Information**

For more information about this course, please call the School of Nursing and Midwifery on +617 3138 3824.

**Full-Time Course structure****Year 1, Semesters 1 and 2**

Students are required to complete the two semesters of the Graduate Diploma in Nursing content in their major area of study or the Graduate Diploma in Midwifery before continuing onto the third semester of the Master of Nursing

# HEALTH

## Year 2, Semester 1

**Clinical Strand:**

Select TWO from the following three choices (each 24 credit points):

NSN504 Clinical Fellowship

NSN506 Clinical Project

Select TWO 12 credit point electives from List A electives

**Professional Strand:**

NSN506 Clinical Project

Select TWO 12 credit point electives from List A electives

**Research Strand:**

NSN850 Thesis

### Part-Time Course structure

## Year 1 and Year 2

Students are required to complete the two semesters full-time (or 4 semesters part-time) of the Graduate Diploma in Nursing content in their major area of study or the Graduate Diploma in Midwifery before continuing onto the third semester of the Master of Nursing.

## Year 3, Semester 1

**Clinical Strand:**

Choose ONE of the following three options (each 24 credit points):

NSN504 Clinical Fellowship

NSN506 Clinical Project

Select TWO 12 credit point electives from List A electives

**Professional Strand:**

Choose ONE of the following two options (each 24 credit points):

NSN506 Clinical Project

Select TWO 12 credit point electives from List A electives

**Research Strand:**

NSN825-1 Thesis (Part 1)

## Year 3, Semester 2

**Clinical Strand:**

Choose ONE of the following three options (each 24 credit points):

NSN504 Clinical Fellowship

NSN506 Clinical Project

Select TWO 12 credit point electives from List B electives

**Professional Strand:**

Choose ONE of the following two options (each 24 credit points):

NSN506 Clinical Project

Select TWO 12 credit point electives from List

**B electives**

**Research Strand:**

NSN825-2 Thesis (Part 2)

### NS85 Elective Lists

#### Master of Nursing List A electives

HLN405 Qualitative Research

HLN710 Fundamentals of Epidemiology and Research Design

HLN720 Clinical Education in Health

NSN002 Key Issues in Child and Youth Health Nursing

NSN507 Contemporary Practice Issues

NSN508 Advanced Readings in Nursing

NSN517 Women's Health Issues

NSN701 Advanced Health Assessment

NSN721 Key Issues in Emergency and Intensive Care Nursing

NSN724 Advanced Nursing Practice

NSN821 Promoting Healthy Ageing

PUN105 Health Statistics

or any other 12 credit point postgraduate unit

#### Master of Nursing List B electives

HLN711 Advanced Qualitative Methods

HLN720 Clinical Education in Health

NSN324 Critical Issues in Neonatal Care

NSN424 Evidence Based Practice

NSN427 Prevention of Violence Against Women

NSN508 Advanced Readings in Nursing

NSN515 Clinical Leadership and Management

NSN516 Sexual and Reproductive Health

NSN626 Studies in Dementia

NSN723 Specialisation in Critical Care Nursing

[Intensive Care Study Area only]

NSN725 Specialisation in Medical/Surgical and Cancer Nursing

NSN822 Palliation in Dementia

PUN552 Population Nutrition and Physical Activity Assessment

PUN553 Chronic Disease Prevention and Management

or any other 12 credit point postgraduate unit

## Master of Nursing Science (Nurse Practitioner) (NS86)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)

**Domestic fees (indicative):** 2009: CSP \$2,081 (indicative) per semester, Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Course coordinator:** Dr Fiona Coyer

**Campus:** Kelvin Grove

### Overview

The Master of Nursing Science (Nurse Practitioner) course is a one-year, full-time or two-year, part-time course. Upon successful completion of the program, graduates will be able to:

- assess and treat clients in a specialty field of nursing practice and health care
- order diagnostic investigations within a specialty field of nursing practice
- prescribe medications and other interventions from a specialty field of nursing practice
- directly refer patients to other healthcare professionals
- conduct advanced comprehensive health assessments relevant to a specialist field of nursing practice
- demonstrate an ability to conduct clinical services using high-level communication skills, innovation and leadership in both autonomous and multidisciplinary modes of practice
- demonstrate the capacity to think critically and creatively in complex and unfamiliar environments.

The Master of Nursing Science (Nurse Practitioner) is accredited by the Queensland Nursing Council (QNC). Graduates will be eligible to apply to QNC for authorisation to practise as nurse practitioners in Queensland.

### Entry Requirements

Applicants must:

- be a registered nurse with the Queensland Nursing Council (QNC)
- have gained a degree in nursing (or equivalent) from a recognised institution and have gained a graduate certificate in nursing (or equivalent) in the area of nominated specialty from a recognised institution;
- have a minimum of three years full-time equivalent clinical practice experience in the nominated specialty
- be employed in an advanced practice nursing role for the duration of the course.

Alternatively, applicants without the required qualifications may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

To be accepted into the course, applicants will need to have access to a clinical support team in their speciality field of practice. The clinical support team will normally consist of an advanced health practitioner currently practising the extended clinical skills required by the candidate in their speciality field of practice (for example, a medical practitioner or a nurse practitioner), together with an advanced practice nurse in the speciality area (for example, a clinical nurse consultant or an advanced practice nurse). This support team will work with the candidates to assist with the development and extension of practise skills in their speciality field.

Applicants must provide original or certified documentary evidence for each entry requirement. For example: Queensland Nursing Council or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position.

Certified or original support letters - a letter from each of the Clinical Support Team members (two letters) and a letter from Director of Nursing - must also be provided.

All applicants should also complete the questionnaire to accompany their applications available at [http://www.studentservices.qut.edu.au/pdfs/forms/pg\\_forms/PostgradNursingQuestion.pdf](http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf)

### Course Structure

The course consists of seven units - six theoretical units including an elective and an internship over two semesters. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning. This course may be undertaken by internal or external mode and is available for mid-year entry.

### International Student Entry

The course is not available to international students.

### Further Information

For further information about this course, please contact the School of Nursing and Midwifery on +617 3138 3824 or email [nursing.enquiries@qut.com](mailto:nursing.enquiries@qut.com)

### Full-time course structure (February entry)

#### Year 1 - Semester 1

## Bachelor of Applied Science (Optometry) (For continuing and advanced standing students only) (OP42)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 009031J

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$3,700 (indicative) per semester

**International Fees (per semester):** 2009: \$10,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** Course replaced by OP45

**International Entry:** Course replaced by OP45

**QTAC code:** Course replaced by 425312 (OP45)

**Past rank cut-off:** 98\* Second order selection ranks were used to select applicants from within the rank cut-off band

**Past OP cut-off:** 2\* Field positions were used to select applicants from within the OP cut-off band

**Assumed knowledge:** English (4, SA), Maths B (4, SA), Chemistry (4, SA), and Physics (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging. PHYSICS: QUT unit Introductory Physics 1H as a visiting student or QUT Continuing Professional Education course Physics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Prof Michael Collins

**Campus:** Kelvin Grove

### Overview

NOTE: This course is being replaced by the dual award program, Bachelor of Vision Science (OP45) / Master of Optometry (OP85). No new first year admissions will be accepted into OP42 from 2009; however student with advanced standing may be considered for admission into second or third years.

Optometrists examine people's eyes to protect and improve their vision and to detect and diagnose eye disease. As an optometrist, you will work with a range of complex instruments and techniques to test vision for defects such as short-sightedness, long-sightedness and astigmatism. Optometrists use their clinical judgement to treat patients in a variety of ways, including eye exercises, contact lenses, spectacles or advice on lighting and visual habits.

### Why choose this course?

QUT has the only optometry school in Queensland and one of only three in Australia. Class numbers are small so you will receive individual attention from experienced lecturers.

An on-campus optometry clinic enables you to work directly with real patients, under the supervision of working

optometrists.

You will gain hands-on experience throughout the course through participation in the practices of working optometrists, and in other clinical settings including a clinic for Indigenous patients and a clinic for children with impaired vision.

The QUT School of Optometry maintains strong professional and organisational links with industry. Clinical teachers come primarily from private practice settings, while many guest lectures are given by optometrists from private practice and allied disciplines such as ethics, financial, medical and pharmaceutical professions.

### Career Options

Graduates are highly employable, with all students employed on graduation (2005 QUT Graduate Destinations Survey).

Graduates can work or specialise in areas such as contact lens practice, children's vision, occupational/public health optometry or low vision.

Many optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in government service, including hospitals, or they may enter the teaching and research fields after further study.

### Professional Membership

Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates are eligible to apply to the Optometrists' Board of Queensland for registration to practise as optometrists in Queensland and all states and territories of Australia.

### Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

### OP Guarantee

The OP Guarantee does not apply to this course.

### International student

Strict quotas apply for entry to this course.

### Other course requirements

**blue card** As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

**additional costs** Ophthalmic instruments costing approximately \$5000 are required for the clinical program from the beginning of the second and third years of the

course. Academic staff provide advice regarding the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Domestic student tuition fee (Dfee) places

**Undergraduate domestic full fee places (Dfee) are not available in this course.**

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

## Further Information

For detailed information about this course, please call the School of Optometry on +617 3138 5739 or email [optometry.enquiries@qut.com](mailto:optometry.enquiries@qut.com)

## Course structure

Year 1 of the course will not be offered from 2009

## Graduate Certificate in Ocular Therapeutics (OP43)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 2 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$7,200 (indicative) per semester

**Domestic Entry:** July

**International Entry:** July (non student visa applicants only, not CRICOS registered)

**Course coordinator:** Dr Andrew Carkeet

**Campus:** Kelvin Grove

### Overview

The Graduate Certificate in Ocular Therapeutics is designed to provide training to allow optometrists in Queensland to use a range of topical ocular pharmaceuticals for the treatment of eye disease. The design and implementation of this program has been in response to legislative changes in Queensland to allow suitably qualified optometrists to use a range of S4 drugs to treat eye disease. This course is the only local means whereby Queensland optometrists can gain a qualification in ocular therapeutics, and it will be supplementary to their normal optometric registration.

### Entry Requirements

Applicants for the course must hold a four year degree in optometry from a recognised School of Optometry, or have equivalent standing and have current registration as optometrists in any State or Territory of Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

### International Student Entry

This course is not available to international students.

### Course structure

#### Year 1 Semester 1

OPP001 Ocular Therapeutics 1

#### Year 1 Semester 2

OPP002 Ocular Therapeutics 2

### Potential Careers:

Optometrist.

## Bachelor of Vision Science (OP45)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 065380A

**Course duration (full-time):** 3 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 425312

**Past rank cut-off:** 98

**Past OP cut-off:** 2

**Assumed knowledge:** English (4, SA), Maths B (4, SA), Chemistry (4, SA), and Physics (4, SA)

**Total credit points:** 288

**Course coordinator:** Prof Michael Collins

**Campus:** Kelvin Grove

### Overview

In 2009, the optometry program at QUT changed from a four year single degree to a five year dual degree program. The five year program will comprise of a three year Bachelor of Vision Science, followed by a two year Master of Optometry (OP85). Both degrees will need to be completed before a graduate can apply for registration as an optometrist.

This change has resulted from the profession of Optometry undergoing expansion in its scope of practice as a result of legislative amendments occurring (or pending) in all states and territories to allow appropriately trained optometrists to use therapeutic pharmaceutical agents in the practice of Optometry. The new program (Optometry) increases graduates' depth of knowledge in the areas of general and ocular pharmacology, with increasing training in the therapeutic management of eye disease.

Only the first year of the course will be offered in 2009. The second year will be offered for the first time in 2010 and the third year in 2011.

### Why choose this course

QUT offers the only optometry training in Queensland and is one of only three universities in Australia to offer optometry. Because of this, optometry graduates are always in demand with many entering private practice or going on to work in other areas such as industry, teaching or research positions both in Australia and overseas.

This course is the first component in a dual degree program which will allow graduates to practise as optometrists. It provides the theoretical basis in the vision and clinical sciences necessary for the later study of clinical practice in the Master of optometry program.

Class numbers are small so you will receive individual attention from experienced lecturers. You have access to an optometry clinic that enables you to learn in a clinical setting, under the supervision of registered optometrists.

The QUT School of Optometry maintains strong professional and organisational links with industry. Clinical teachers come primarily from private practice settings, while many guest lectures are given by optometrists from private practice and allied disciplines such as ethics, financial, medical and pharmaceutical professions.

### Career options

Graduates are highly employable, with all students employed on graduation. Visit QUT's Graduate Destinations Survey at [www.go.qut.edu.au/courses/destinations.jsp](http://www.go.qut.edu.au/courses/destinations.jsp)

Graduates of the dual program can work or specialise in areas such as contact lens practice, children's vision, occupational/public health optometry or low vision.

Many optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in the ophthalmic industry, or they may enter the teaching and research fields after further study.

Students may choose not to complete the Master of Optometry and exit with a three year Bachelor of Vision Science to pursue a research career (following completion of an honours year) or find employment in the ophthalmic industry rather than complete the clinical qualification.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration with Boards of Optometrical Registration.

### Professional recognition

Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates of the dual degree program are eligible to apply to the Optometrists' Board of Queensland for registration to practise as an optometrist in Queensland. Graduates will also be able to register in all states and territories of Australia and New Zealand.

### Other course requirements

**Blue card** As Required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>

**Additional costs** Ophthalmic instruments costing approximately \$5000 are required for the clinical program from the beginning of second and third years of the course. Academic staff provide advice regarding the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

### OP Guarantee

The OP Guarantee does not apply to this course

**International Student**

Strict quotas apply for entry to this course. Further information is available from QUT International Student Business Services.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Master of Optometry (commences in 2012) (OP85)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 065379E

**Course duration (full-time):** 2 years

**Domestic fees (indicative):** 2009: CSP \$3,694 (indicative) per semester

**Domestic Entry:** February

**Total credit points:** 192

**Course coordinator:** Dr Peter Hendicott

**Campus:** Kelvin Grove

### Overview

NOTE: The Master of Optometry is NOT offered 2009-2011. Commonwealth-supported places will be offered from 2012.

This course is the second component of a dual award program - Bachelor of Vision Science (OP45)/Master of Optometry (OP85).

In 2008 and previous years, the Faculty of Health has offered a four year Bachelor of Applied Science (Optometry) degree. A five year dual degree program will be offered from 2009 - a three year Bachelor of Vision Science (OP45), together with a two year Master of Optometry (OP85).

This change has resulted from the profession of Optometry undergoing expansion in its scope of practice as a result of legislative amendments occurring (or pending) in all states and territories to allow appropriately trained optometrists to use therapeutic pharmaceutical agents in the practice of Optometry. The new program increases graduates' depth of knowledge in the areas of general and ocular pharmacology, with increasing training in the therapeutic management of eye disease.

### Why choose this course

A graduate of OP45 Bachelor of Vision Science must also complete the Master of Optometry to be eligible for registration as an optometrist.

The course provides increased exposure to real world learning experiences both within the QUT Health Clinic, and in the workplace via the inclusion of extended clinical placements.

Case-based learning and case-based assessment will enhance the training in diseases of the eye and ocular therapeutics. Guest lecturers and practising optometrists are involved in the clinical training.

### Entry requirements

The requirement for admission to the course is completion of QUT's Bachelor of Vision Science or equivalent.

Graduates of QUT's BVisSc will have automatic entry to the Master of Optometry.

### Career options

Graduates are highly employable, with all students employed on graduation. Graduates can work or specialise in areas such as contact lens practice, children's vision, occupational/public health optometry or low vision, as well as general primary care clinical practice. The majority of optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in government service, including hospitals. A number of graduates are working in secondary clinical care environments, primarily in ophthalmology medical eye care practices. The course also provides a route to employment within the ophthalmic industry, or students may enter the teaching and research fields after further study.

### Professional recognition

Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates are eligible to apply to the Optometrists' Board of Queensland for registration to practise as an optometrist in Queensland and all states and territories of Australia.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration.

### Other requirements

Ophthalmic instruments costing approximately \$5000 are required for the clinical program. These should already have been purchased for the undergraduate program which precedes the Master program (Bachelor of Vision Science).

A uniform shirt (approx \$40 per shirt) must be purchased for wear by all students whilst they undertake patient consultations and perform clinical eye examinations in the Optometry Clinic.

Students will also be required to maintain First Aid Certification and have a Blue Card before undertaking the clinical units.

### Further information

For detailed information about this course, please call the School of Optometry on +617 3138 5739 or email [optometry.enquiries@qut.com](mailto:optometry.enquiries@qut.com)

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove

PUN640 Health Care Delivery and Reform

PUN106 Population Health

HLN710 Fundamentals of Epidemiology and Research Design

### Overview

Public health professionals make a difference to the health of populations. These courses provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

### Entry Requirements

Applicants must have an approved bachelor degree from a recognised institution or a basic professional qualification plus at least one year of relevant post-qualification experience and/or training.

### Course Structure

The course consists of 4 core units (48 credit points) from the Master of Public Health /Graduate Diploma in Public Health. The course is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland.

### Course Pathways/Articulation

This course fully articulates into the Graduate Diploma in Public Health and the Master of Public Health.

### Further Information

For more information about this course, please contact the School of Public Health on phone +617 3137 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### International Student Entry

International students may enrol only in full-time studies.

### Course structure

#### Semester 1

PUN105 Health Statistics

## **Graduate Certificate In Emergency and Disaster Management (PU31)**

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** Not available full time

**Course duration (part-time):** 2 semesters part time- Mid year entry only

**Domestic fees (indicative):** 2009: Full fee tuition \$7,000 (indicative) per semester

**Total credit points:** 48

**Course coordinator:** Dr Thomas Tenkate

**Discipline coordinator:** Prof. Gerry Fitzgerald

**Campus:** Kelvin Grove

### **Entry Requirements**

This course is available for mid-year entry only. Applicants must have an approved Bachelors degree from a recognised institution, or a basic professional qualification plus not less than two years of relevant post-qualification experience and/or training.

### **Overview**

The need for education in emergency and disaster health management is increasing as a result of major incidents such as the Indian Ocean tsunami, Avian influenza, SARS and the threat of terrorist attacks. The Graduate Certificate in Emergency and Disaster Management will prepare the health workforce to plan for and respond to major incidents affecting the health and wellbeing of the community. It will also prepare students for further postgraduate study.

### **Course Articulation**

The Graduate Certificate in Emergency and Disaster Management articulates into the Graduate Diploma and Master in Public Health and the Graduate Diploma and Master in Health Science.

### **International Student Entry**

This course is not available to international students. The Graduate Certificate in Emergency and Disaster Management is only offered part-time. International students may enrol only in full-time studies.

### **Further Information**

For more information about this course, please contact the School of Public Health on phone +617 3138 5878 or email [sph.studentcentre@qut.com](mailto:sph.studentcentre@qut.com)

## Graduate Certificate in Environmental Health (PU32)

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters

**Course duration (external):** 2 semesters part-time

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove

### Potential Careers:

Environmental Health Officer, Government Officer, Public Health Officer.

### No further intake

This course has been discontinued from 2009. A study area in Environmental Health is available in HL38 Graduate Certificate in Health Science.

### Overview

This course provides the knowledge and skills required to enhance professional development in the area of environmental health and prepares students for further postgraduate study.

### Entry requirements

Applicant must hold an undergraduate degree in a relevant area such as science, environmental science, nursing, health science or public health. Normally applicants must have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology, or life science.

### Course Articulation

The Graduate Certificate in Environmental Health articulates into the Graduate Diploma in Environmental Health.

### International Student Entry

This course is not available to international students. The Graduate Certificate in Environmental Health is only offered part-time. International students may enrol only in full-time studies.

### Further information

For more information about this course, please contact the School of Public Health on phone +617 3138 5878 or email [sph.studentcentre@qut.com](mailto:sph.studentcentre@qut.com)

## Graduate Certificate in Health Services Management (PU38)

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$7,750 (indicative) per semester

**Domestic Entry:** February

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove

### No further intake

This course has been discontinued from 2009. A new study area in Health Services Management) is available in HL38 Graduate Certificate in Health Science.

### Overview

This course provides the knowledge and skills required to enhance professional development in Health Services Management. It also prepares students for further postgraduate study in health.

### Entry requirements

An appropriate Bachelor degree, or other qualifications (or an acceptable professional qualification) or appropriate work experience acceptable to the Executive Dean.

### Course Structure

Students will be required to follow a prescribed enrolment program to complete this area of specialisation although there are options for specialist units. The course is internal mode only although some units are available externally.

Academic credit will not be granted for units in this course on the basis of completion of units in any undergraduate program.

### Course Articulation

The course articulates with the Graduate Diploma in Health Science and Master of Health Science.

### International Student Entry

This course is not available to international students.

### Further information

Discipline coordinator: Health Information Management; Health Services Management: Jenny Nicol; Public Health: Dr Thomas Tenkate

Campus: Kelvin Grove

### Course review

The Health Information Management and Health Services Management study areas are being discontinued and will not be available for commencing students from 2009.

### Overview

#### Health Information Management

Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

#### Health Services Management

Health services managers plan, evaluate, and manage the delivery of health services. Their skills are used to assess a population's health needs, develop strategies to meet these needs, and then secure the resources needed to ensure the population's health is enhanced.

#### Public Health

Public health professionals are an essential part of any health-related organisation. Their primary aim is to promote the general health and wellness of a community or population through their work in the health care sector.

### Majors

Three majors in the Bachelor of Health Science - Health Information Management, Health Services Management and Public Health - have a common first year. Students are able to choose one of these majors in their second year.

### Why choose this course?

#### Health Information Management

Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

If you are interested in working in a managerial role liaising constantly with medical nursing and administrative staff, other health professions and the public, then health information management may be the field for you. QUT's Bachelor of Health Science (Health Information Management) is the only course of its kind offered in Queensland and one of only four in Australia.

#### Health Services Management

The Bachelor of Health Science (Health Services Management) is designed for people who want to join the health care industry in an administrative or managerial capacity. It is also a valuable qualification for people already working in the health industry to upgrade their management knowledge and skills. This course is the only one of its kind offered in Queensland and is one of only a few in Australia. It prepares graduates with an understanding of business principles as well as policy and planning, project management, and computing. The course is flexible and allows options for elective study areas to meet individual interests. You will have the opportunity to do project work, facilitated by lecturers with strong industry links. The mentor program matches final-year students with senior staff in the health industry providing you with excellent networking and employment opportunities.

#### Public Health

If you have a desire to enhance people's lives through improved health care, then a career in public health may be for you. QUT has the longest running undergraduate public health course in Queensland. You will learn from experienced, expert staff with strong industry and international links. The three-year course will give you an understanding of public health, primary health care, community health and health promotion. You will also undertake a compulsory placement/practicum program to gain valuable professional experience and industry contacts.

### Career Options

#### Health Information Management

Health information management practitioners work as health records administrators, clinical coders, information retrieval

managers, human resource managers, health insurance workers, project officers and public health workers. Employment areas include public and private hospitals, community health centres, large group practices, government, health departments, research organisations, commercial companies, universities, and consulting firms. The rapid growth of the health information management field means graduates are in demand and enjoy high starting salaries, average \$49 750, and excellent promotion opportunities (2005 QUT Graduate Destinations Survey).

## Health Services Management

Employment prospects in this field are excellent; locally, nationally and internationally. The salaries for new graduates are among the highest for any professional group. Graduates work as health service or health administration managers or officers, project officers, health insurance workers, and human resource managers. Employment areas include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

## Public Health

Public health practitioners work as community health officers, policy officers, program evaluators, public health promoters and educators, project officers and consultants. They work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

## Professional Membership

### Health Information Management

Graduates of the Bachelor of Health Science (Health Information Management) are eligible for membership of the Health Information Management Association of Australia (HIMAA), the Clinical Coders Society of Australia (CCSA), and the Australian College of Health Service Executives (ACHSE).

### Health Services Management

Graduates of the Bachelor of Health Science (Health Services Management) are eligible for membership of the Australian College of Health Service Executives (ACHSE).

## Public Health

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

## Honours

Students who obtain high results throughout the course can study an additional one-year honours degree. Honours consists of a research component, which increases career opportunities and opens the way to further studies at PhD level.

## Course design

The **Health Information Management** program has set units to be completed, that is, there are no opportunities to

complete electives.

The **Health Services Management** program consists of a major in health services management, plus:

- a major in public health **or**
- two minors **or**
- one minor and four electives.

Minor/electives are available in the areas of:

- accounting and finance
- public health
- human resource management
- indigenous health
- international business
- management
- marketing
- gender issues
- science\*
- general electives

The **Public Health** program consists of a major in public health plus the opportunity to select from one of the following minors/electives in the areas of:

- community nutrition
- indigenous health
- gender issues
- science\*
- general studies in psychology
- counselling
- general electives

\* Completion of the science minor is a prerequisite for entry into postgraduate courses, e.g. Graduate Diploma in Environmental Health.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Further Information

For more information about this course, please call the School of Public Health Student Centre on +617 3138 3368 or email sph.studentcentre@qut.edu.au

## Health Services Management Elective List

### Minor Elective Information for the Health Services Management Major

The course structure for the Health Services Management major consists of:

a) a major in Health Services Management

PLUS the opportunity to select from one of the following:

b) a major in Public Health (Major 2) comprised of 96cp including the following core units: PUB201, PUB329, PUB436, PUB461, PUB561, PUB565, PUB406, and one 12cp unit selected from the minor elective lists below.

OR

c) two minors (Minor 1 and Minor 2) each of which are comprised of 48cp selected from the minor electives lists below.

OR

d) one minor and four electives (Minor 1 and Electives) selected from the minor elective lists below. You must ensure that you satisfy all prerequisites and that only one of the four electives is at an introductory level.

Please note:

\* To select a minor or elective from outside the recommended list below, you must seek approval from the Academic Affairs Officer.

\* You may only select up to four minor elective units (48 credit points) from outside of the School of Public Health.

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Course coordinator:** Ms Melinda Service

**Discipline coordinator:** Ms Danielle Gallegos

**Campus:** Kelvin Grove

### Overview

Nutritionists work with the wider population to influence dietary patterns and behaviours as well as the wider food supply. They can work in a range of settings as diverse as public health and community nutrition, indigenous nutrition and health, consumer and public health, and promotion of nutrition through the media as journalists and editors.

### Why choose this course?

The study of public health with a major in human nutrition involves understanding the promotion of health, as well as the prevention of diet related disease. The course is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

The course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, health service and project management. Students will be expected to undertake practical placement outside the university in real world settings. This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

### Professional Membership

Graduates of this three year full-time program are eligible to apply for membership of the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies, and Associate membership of the Dietitians Association of Australia (DAA).

### Career options

Nutrition graduates can work in a variety of areas, including community health centres and public health areas; as service consultants to industry, government and both public and private institutions; in government, educational institutions, research, occupational health and the food industry.

The Bachelor of Health Science (Nutrition) also allows entry to other health-related and graduate positions.

### Electives

Electives include clinical science, counselling, exercise science, health management and health promotion, public health and research.

### Course structure

#### Year 1

You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

#### Year 2

Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to nutrition in chronic disease, as well as epidemiology and evidence based practice.

#### Year 3

You will now apply and contextualise more the knowledge and skills gained in the first 2 years in relation to the health needs of varying population groups. You will learn the principles of project management and then actually undertake projects working with and assisting practitioners in real world settings such as community health centres, schools or business organisations. You are also able to choose electives in areas of interest to further develop your knowledge and skills in a range of areas.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Further Information

For more information about this course, please call the School of Public Health Student Centre on +617 3138 3368 or email sph.studentcentre@qut.edu.au

### Career Outcomes

Public health professionals are an essential part of any health-related organisation. Their primary aim is to promote the general health and wellness of a community or population through their work in the health care sector. Public health practitioners work as community health officers, policy officers, program evaluators, public health promoters and educators, project officers and consultants. This course gives graduates an understanding of public health, primary health care, community health and health promotion. Students can elect to take minor studies in the areas of Alcohol and Drug Studies, Community Nutrition, general studies in Psychology, Health Education, Indigenous Health, and Women's Health.

Public health practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

### Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Mrs Melinda Service

**Discipline coordinator:** Ms Danielle Gallegos

**Campus:** Kelvin Grove

### Overview

This course will enable you to become a credentialed dietitian. The study of nutrition and dietetics involves the promotion of health, as well as the prevention and treatment of diet-related disease. It is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

### Why choose this course?

This course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, food service and health service management, medical nutrition therapy and practice in individual case management, community nutrition and food service management. Students will be expected to undertake practical placements outside the university in hospitals, community health centres, private industry and food service institutions. These working environments are sometimes available outside the semester times and places are limited by availability of placement sites and supervisors, thus places for the course are competitive.

This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

### Career Options

Graduates have excellent rates of employment with a range of opportunities available. They can provide medical nutrition therapy to clients to assist in their medical management of disease and illness in hospitals, nursing homes, community health centres and private practice. They can be food service consultants to food industries, hospitals, nursing homes and institutional catering services. They can also become community or public health nutritionists in government and non-government organisations, or researchers in their chosen area of practice.

As a health qualification, the Bachelor of Health Science (Nutrition and Dietetics) also allows entry to other health-related and graduate positions.

### Professional Membership

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

### Electives

Elective studies are available in health promotion, counselling, clinical science, exercise science, research methods and projects.

### Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

### Other course requirements

**additional costs** Students who are required to undertake placements off campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination and Blue Card clearance are required before placement in Queensland Health and Education facilities.

**blue card** As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

### OP Guarantee

The OP Guarantee does not apply to this course.

### Course structure

#### Year 1

You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the

development of practical skills.

## Year 2

Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to epidemiology and evidence based practice.

## Year 3

You will now apply and contextualise knowledge and skills gained in the first 2 years, in units focussed on potential future areas of dietetic practice, such as medical nutrition therapy, food service management and public health nutrition. Combined with health promotion, nutrition education principles and quantitative analysis for health, these units further develop important skills in researching, critical analysis and practical application. This practice will be consolidated in advanced food studies and introduction to dietetic practice.

## Year 4

This year predominantly involves practice based placements which allow you to work with and assist qualified practitioners in real world settings. You will demonstrate competency by managing individual cases in hospitals and undertaking food service management and community nutrition projects in varied settings such as hospitals, community health centres, schools or business organisations throughout Queensland. Advanced dietetic management and research skills will also be applied in final year projects.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Domestic student tuition fee (Dfee) places

**Undergraduate domestic full fee places (Dfee) are not available in this course.**

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

**Course coordinator:** Ms Melinda Service

**Discipline coordinator:** Dr Lloyd Reed

**Campus:** Kelvin Grove

### Overview

Podiatrists diagnose and treat foot and lower limb problems. They use a range of clinical, surgical, and therapeutic techniques to treat patients and may work as a member of a medical team to deliver the best overall care for a patient with diabetes, rheumatoid arthritis, sports injuries, or walking difficulties.

### Why choose this course?

If you possess good communication skills and a people-oriented personality and would like to help people with foot and lower limb disorders including sport-related conditions and those in special needs groups, then you may enjoy a career in podiatry.

QUT offers the only course in podiatry in Queensland. It features an on-campus clinic where students treat patients under the supervision of experienced clinical lecturers.

Podiatry staff have excellent, established health and medical industry links and the course has a strong reputation recognised throughout Australia and overseas.

This course will prepare you with an understanding of human anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine and surgery. You will also learn how to integrate aspects of podiatric surgery, physical therapy, rehabilitation and counselling into the patient interaction.

### Career Options

Employment opportunities for podiatry graduates are excellent. In recent years the number of positions available exceeded the number of graduates.

Podiatry graduates work in a broad range of health care setting including private practice, hospitals or community health centres.

### Professional Membership

Graduates are eligible for state registration throughout Australia and for registration in the United Kingdom, New Zealand and some European countries. Graduates may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

### OP Guarantee

The OP Guarantee does not apply to this course.

### Electives

Students are required to select three elective units that constitute a coherent body of study. The course coordinator approves electives outside the recommended list.

Electives are available in exercise studies, public health and research.

### Other course requirements

**blue card** As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

**additional costs** There are additional costs associated with this course including a practicum shirt and podiatry equipment(\$1000). Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements.

### Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Domestic student tuition fee (Dfee) places

**Undergraduate domestic full fee places (Dfee) are not available in this course.**

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

**Course coordinator:** Mrs Melinda Service

**Campus:** Kelvin Grove

### Overview

Paramedics are employed within ambulance services to minimise pain, suffering and loss of life for patients needing pre-hospital care, emergency medical response and specialised transportation.

### Why choose this course?

This course was Queensland's first degree in paramedic practice. If you are interested in a dynamic career helping to save lives, then this course may be for you.

The first year of the course provides foundation studies in the anatomy and physiology of the human body and an introduction to pathology, pathophysiology, pharmacology and clinical practice. Second and third years continue to develop the theoretical studies with increasing emphasis on clinical skills and practice with the final year involving supervised clinical practice with the Queensland Ambulance Service (QAS).

### Career Options

The course is designed to provide graduates with the skills, knowledge and qualifications to pursue a career as an ambulance paramedic with agencies such as the Queensland Ambulance Service (QAS). The course includes supervised clinical practice with QAS and in other clinical settings.

### Other course requirements

The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the

clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Blue card - as required by the Commission for Children and Young People and Child Guardian Act (2000) students must be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit [www.bluecard.qut.com](http://www.bluecard.qut.com).

d) Manual Driver's Licence - Students will be required to hold a current manual driver's licence (provisional is acceptable) before commencing the emergency driver education course associated with the first clinical placement unit.

e) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

f) Immunisations - It is a requirement for any student to be immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

g) Psychometric assessment (prerequisite for PUB670)

You will be required to cover additional costs associated with this course including the requirements above (total cost approximately \$500).

### Professional recognition

Graduates from this course will be eligible for membership of the Australian College of Ambulance Professionals (ACA).

### OP Guarantee

The OP Guarantee does not apply to this course.

### International student entry

This course is not available for international student entry.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Further information

For more information about this course, please call the School of Public Health Student Centre on +617 3138 3368 or [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

## Course structure - 3 Year Full-time Program

### Year 1, Semester 1

LSB182	Bioscience 1
PUB104	Australian Health Care Systems
PUB180	Foundations of Paramedic Practice 1
PUB251	Contemporary Public Health

### Year 1, Semester 2

LSB282	Bioscience 2
PUB209	Health, Culture and Society
PUB280	Foundations of Paramedic Practice 2
PUB486	Ethics and the Law in Health Service Delivery

### Year 1, Semester 3 (Summer 1)

PUB270	Paramedic Clinical Practice 1
--------	-------------------------------

### Year 2, Semester 1

LSB382	Bioscience 3
LSB384	Pharmacology For Health Professionals
PUB390	Paramedic Management of Medical and Surgical Emergencies A
PUB391	Paramedic Management of Medical and Surgical Emergencies B

### Year 2, Semester 2

PUB436	Evidence Based Practice
PUB450	Paramedic Management of Trauma Emergencies
PUB470	Paramedic Clinical Practice 2
PYB111	Paramedic Communication Skills

### Year 3, Semester 1

PUB550	Paramedic Management of Obstetric, Paediatric and Behavioural Emergencies
PUB555	Paramedic Management of Infectious

Diseases, Toxicological and Environmental Emergencies

PUB570 Paramedic Clinical Practice 3

### Year 3, Semester 2

PUB670	Internship (Paramedic Clinical Practice)
PUB680	Professional Development in Paramedic Practice

## Potential Careers:

Paramedic.

## Bachelor of Health Science (Paramedic)- Graduate Entry (PU46)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 2 years

**Domestic fees (indicative):** 2009: CSP \$3,764 (indicative) per semester

**Domestic Entry:** February

**QTAC code:** 425582

**Past rank cut-off:** 93

**Assumed knowledge:** Current Senior First Aid Certificate

**Total credit points:** 192 of study + 96 credit of graduate credit

**Standard credit points per full-time semester:** 48

**Course coordinator:** Mrs Melinda Service

**Campus:** Kelvin Grove

### Overview

Paramedics are employed within ambulance services to minimise pain, suffering and loss of life for patients needing pre-hospital care, emergency medical response and specialised transportation.

### Why choose this course?

This course was Queensland's first degree in paramedics. If you are interested in a dynamic career helping to save lives, then this course may be for you.

There is increasing emphasis on clinical skills through the course including supervised clinical practice with the Queensland Ambulance Service (QAS).

### Career Options

The course is designed to provide graduates with the skills, knowledge and qualifications to pursue a career as an ambulance paramedic with agencies such as the Queensland Ambulance Service (QAS). The course includes supervised clinical practice with QAS and in other clinical settings.

### Entry requirements

Completion of a degree in a health field (eg nursing, physiotherapy, occupational therapy, medicine, optometry, pharmacy, medical science, human movement studies, nutrition) in the last 10 years.

Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

For more information QUT's admission policies regarding graduate entry please read *Real Options*.

Students who admitted to the graduate entry program will automatically received one year of academic credit which will entitle the student to complete the degree in two years (full-time).

### Orientation program

A one-week Orientation Program, Transition to Paramedic Studies, is conducted on campus in the week preceding the first week of semester (Orientation Week). No credit points are awarded for completing the program and there are no costs to students.

The aim of this program is to familiarise students with the significant clinical aspects of the units PUB180 and PUB280 (Foundations of Paramedic Practice 1 and 2) which students completing the full three year program complete but graduate entry students do not.

This transition program is important for students' understanding of PUB390 and PUB391 (Paramedic Management of Medical and Surgical Emergencies A and B) in the first semester of their programs and is integral to understanding of the clinical component of paramedic practice.

### Other course requirements

The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Blue card - as required by the Commission for Children and Young People and Child Guardian Act (2000) students must be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit [www.bluecard.qut.com](http://www.bluecard.qut.com).

d) Manual Driver's Licence - Students will be required to hold a current manual driver's licence (provisional is acceptable) before commencing the emergency driver education course associated with the first clinical placement unit.

e) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions

with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

f) Immunisations - It is a requirement for any student to be immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

g) Psychometric assessment (prerequisite for PUB670)

You will be required to cover additional costs associated with this course including the requirements above (total cost approximately \$500).

### Professional recognition

Graduates from this course will be eligible for membership of the Australian College of Ambulance Professionals (ACA).

### OP Guarantee

The OP Guarantee does not apply to this program.

### International student entry

This course is not available for international student entry.

### Deferment

QUT's deferment policy does not apply to this course.

### Further information

For more information about this course, please call the School of Public Health Student Centre on +617 3138 3368 or [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### Course structure- 2 Year Full-time Graduate Entry Program

#### Year 1, Semester 1

LSB111	Understanding Disease Concepts
LSB384	Pharmacology For Health Professionals
PUB390	Paramedic Management of Medical and Surgical Emergencies A
PUB391	Paramedic Management of Medical and Surgical Emergencies B

#### Year 1, Semester 2

PUB436	Evidence Based Practice
PUB450	Paramedic Management of Trauma Emergencies
PUB270	Paramedic Clinical Practice 1

## Graduate Diploma in Public Health (PU60)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 020306E

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)

**Domestic fees (indicative):** 2009: Full fee tuition \$7,250 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove

### Overview

Public health professionals make a difference to the health of populations. These course provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

This course is offered and taught conjointly by a consortium of three universities (QUT, Griffith University, and The University of Queensland). Students enrol through one of these universities and are required to complete four compulsory core units and four elective units selected from a specialised stream.

### Entry Requirements

Applicants should have an approved three-year or four-year bachelor degree in health, behavioural, social or biological science from a recognised institution and not less than one year of relevant full-time professional experience.

Applicants who hold a four-year degree may be eligible for advanced standing of up to 48 credit points.

Admission on the basis of professional experience and/or research work will be considered.

### Majors

Specialised stream units are available in the areas of:

- Emergency and Disaster Management
- Epidemiology and Research Methods
- Health Promotion
- Health Services Management
- Occupational and Environmental Health Science
- Public Health Nutrition

There is also the option of not completing a major and choosing units from more than one stream.

### Course Structure

Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units (Part A) and four advanced elective units (Part B). Elective units will normally be selected according to choice of a stream of study.

### Course Articulation

This course fully articulates into the Master of Public Health.

### International Student Entry

International students may only enrol in full-time studies. International students may not enrol in the Emergency and Disaster Management Study Area, as it is available part-time only. They may enrol in this major in HL88 Master of Health Science.

### Further information

For more information about this course, please contact the School of Public Health on +617 3138 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### Course structure

#### Part A - Core Units

PUN105	Health Statistics
PUN640	Health Care Delivery and Reform
PUN106	Population Health
HLN710	Fundamentals of Epidemiology and Research Design

#### Part B - Advanced elective units offered by QUT

##### Health Services Management and Policy Sciences

PUN608	Health Economics
PUN632	Health Services Management, Leadership and Change
PUN649	Health Care Financial Management
PUN688	International Health Policy and Management

##### Emergency and Disaster Management

PUN451	Introduction to Health Disaster Management
PUN452	Health Disaster Planning and Preparedness
PUN453	Health Disaster Response and Recovery
PUN454	Health Leadership in Disaster Management

##### Epidemiology and Research Methods

HLN405	Qualitative Research
HLN706	Advanced Quantitative Research Methods
NSN424	Evidence Based Practice
PUN103	Advanced Epidemiology

##### Health Promotion

Students must complete PUP032, PUP034, PUP037, plus either PUB644 or PUP038

PUB644	Health Promoting Schools
PUP032	Intervention Design and Theories of Change
PUP034	Advanced Studies and Practice in Health Promotion
PUP037	Health Program Evaluation
PUP038	New Developments in Health Promotion

### Occupational and Environmental Health Science

Students must complete any 4 of the following units

PUN418	Introduction To Financial Risk Management
PUN001	Contemporary Risk Management
PUN008	Risk Assessment
PUN010	Implementing Risk Management
PUN301	Occupational Health and Safety Law and Management
PUN465	Environmental Protection
PUN466	Communicable diseases
PUN467	Public Health Risk Assessment
PUN500	Safety Management
PUN620	Concepts of Environmental Health
PUP116	Ergonomics
PUP250	Occupational Hygiene
PUP415	Occupational Health

### Public Health Nutrition

PUN551	Advanced Public Health Nutrition
PUN552	Population Nutrition and Physical Activity Assessment
PUN553	Chronic Disease Prevention and Management
PUN554	Food Policy and Sustainability

### Potential Careers:

Community Health Officer, Health Promotion Officer, Policy Officer, Project Manager, Public Health Officer.

## Graduate Diploma in Health Management (PU63)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 065614K

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove and External

### Overview

The effective management of health services is of vital importance to the community and health sector alike. In response to the need for improved health management education, the Graduate Diploma in Health Management is designed to equip students with the knowledge, competencies and professional attitudes to undertake senior managerial roles and to provide health leadership within the health sector.

### Entry Requirements

Applicants must have an appropriate bachelor's degree from a recognised institution, or other qualifications/work experience acceptable to the Head of the School of Public Health.

It is assumed that students entering this program will have a broad knowledge of health and health care, information technology, or environmental health.

### Study Areas

Specialised streams of study are offered in the areas of:

- . Health Services Management
- . Risk Management
- . Emergency and Disaster Management
- Health Technology

There is also the option of not completing a study area and choosing units from more than one stream.

### Course Articulation

The Graduate Diploma in Health Management fully articulates into the Master of Health Management. Students who complete 3 of the 4 core units plus an elective will be able to exit with a Graduate Certificate in Health Management.

### Course Structure

The Graduate Diploma of Health Management will comprise:

- . 4 core Health Management units

plus either

. A choice of Study Area from the Study Areas listed above;  
OR

. 4 electives chosen from units offered across the Study Areas listed above

### Further Information

For more information about this course, please contact the School of Public Health on +617 3138 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### Course structure- Full time

#### Semester 1

PUN106	Population Health
PUN640	Health Care Delivery and Reform
	2 units of Study Area or electives

#### Semester 2

PUN210	Fundamentals of Health Management
PUN632	Health Services Management, Leadership and Change
	2 units of Study Area or electives

### Course structure- Part time

#### Semester 1

PUN106	Population Health
PUN640	Health Care Delivery and Reform

#### Semester 2

PUN210	Fundamentals of Health Management
PUN632	Health Services Management, Leadership and Change

#### Semester 3

2 units from Study Area or electives

#### Semester 4

2 units from Study Area or electives

### Study Areas

#### Emergency and Disaster Management

PUN451	Introduction To Health Disaster Management
PUN452	Health Disaster Planning and Preparedness
PUN453	Health Disaster Response and Recovery
PUN454	Health Leadership in Disaster Management

#### Health Services Management

PUN211	Health Care Finance and Economics
PUN212	Understanding Health Information (2010)
PUN213	Introduction to Quality Management in Health (2010)
PUN688	International Health Policy and Management

## HEALTH

### Risk Management

PUN001	Contemporary Risk Management
PUN008	Risk Assessment
PUN010	Implementing Risk Management
PUN418	Introduction To Financial Risk Management

### Health Technology

INN545	Introduction to Health Technology
INN546	Major Issues in Health Technology
	Choose 2 units from either the Management or the Technical Streams
	Management Stream
INN210	Databases
INN251	Networks
INN255	Security
INN271	The Web
	Technical Stream
INN330	Information Management
INN321	Business Process Management
INN220	Business Analysis
INN500	IT Project Management
INN322	Information Systems Consulting

### Elective List

Students may also undertake any unit listed in the PU63/PU83 Study Areas as an elective.

PU63 Graduate Diploma students may only undertake elective units from List A.

### LIST A ELECTIVES

	Environmental Health
PUN363	Environmental Health Law
PUN467	Public Health Risk Assessment
	Occupational Health and Safety
PUN301	Occupational Health and Safety Law and Management
PUP415	Occupational Health
	Research Methods
HLN405	Qualitative Research
PUN105	Health Statistics
HLN706	Advanced Quantitative Research Methods
HLN710	Fundamentals of Epidemiology and Research Design
HLN701	Independent Study
HLN703	Project A
HLN704	Project B
HLN708	Project
HLN700	Thesis
HLN750-1	Thesis (part-time)

HLN750-2 Thesis (part-time)

### LIST B ELECTIVES

	No more than 4 units may be undertaken from outside the Faculty of Health
	Accounting
AYN410	Business Law and Ethics
AYN416	Financial Accounting 1
	Business/Management
MGN409	Introduction to Management
MGN412	People in Organisations
MGN421	Strategic HRM
MGN505	Consulting and Change Management
	Legal and Justice Studies
JSP154	Human Rights and Global Justice
	Philanthropy and Non Profit Studies
GSN224	Corporate Philanthropy
GSN481	Philanthropic and Nonprofit Frameworks of Governance
GSN483	Ethics for Philanthropic and Nonprofit Organisations
GSN484	Management for Philanthropic and Nonprofit Organisations
GSN485	Legal Issues for Philanthropic and Nonprofit Organisations
GSN486	Accounting and Finance Issues for Philanthropic & Nonprofit Organisations
	Advertising, Marketing and Public Relations
AMN461	Corporate Media Strategy and Tactics
AMN465	Public Relations Management
AMN467	Public Relations Campaigns

## Graduate Diploma in Occupational Health and Safety (PU65)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 061160A

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 4 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Thomas Tenkate

**Discipline coordinator:** Dr Margaret Cook

**Campus:** Kelvin Grove

### Overview

The design of this course is multidisciplinary. It covers occupational health and safety topics that include ergonomics, occupational health, hygiene, law and safety technology.

### Entry requirements

Applicants should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Applicants may be considered for special entry if they have experience and responsibility in occupational health and safety. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

### Course Structure

Students complete eight specified units. The course is available full-time and part-time. Internal and external modes are available (within Australia only).

### Course Articulation

This course fully articulates into the Master of Health Science.

### International Student Entry

International students may only enrol in full-time studies and may only study on-shore.

### Further information

For more information about this course, please call the School of Public on phone +617 3138 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### Course structure

#### Full-time Course Structure

Year 1, Semester 1

### Potential Careers:

Government Officer, Manager, Occupational Health and Safety Officer, Policy Officer.

## Graduate Diploma in Environmental Health (PU67)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 061302C

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 4 semesters part-time (from 2007)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove

### Overview

This course provides the knowledge and skills required for graduates to be employed as environmental health practitioners and in particular they will be eligible to practice as environmental health officers. This award provides an entry pathway into environmental health professional practice for students with undergraduate degrees in public health, nutrition, nursing and science.

### Entry requirements

Applicant must hold an undergraduate degree in a relevant area such as science, environmental science, nursing, health science or public health. Normally applicants must have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology, or life science.

### Course Structure

Students follow a prescribed enrolment program and are required to complete seven units in environmental health and PUN106 Population Health.

Students enrolling in external mode will be required to attend intensive practical sessions at Kelvin Grove campus for selected units in the course.

### Course Articulation

This course articulates into the Master of Health Science.

### International Student Entry

International students may enrol only in full-time programs in internal mode.

### Further Information

For more information about this course, please contact the School of Public Health on phone +617 3138 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

### Course structure

#### Year 1 Semester 1

PUN106 Population Health

PUN363 Environmental Health Law  
PUN364 Food Safety  
PUN620 Concepts of Environmental Health

#### Year 1 Semester 2

PUN465 Environmental Protection  
PUN466 Communicable diseases  
PUN467 Public Health Risk Assessment  
PUN617 Environmental Health Management

### Course structure

#### Year 1, Semester 1

PUN106 Population Health  
PUN620 Concepts of Environmental Health

#### Year 1, Semester 2

PUN466 Communicable diseases  
PUN467 Public Health Risk Assessment

#### Year 2, Semester 1

PUN363 Environmental Health Law  
PUN364 Food Safety

#### Year 2, Semester 2

PUN465 Environmental Protection  
PUN617 Environmental Health Management

### Potential Careers:

Environmental Health Officer, Government Officer, Policy Officer, Public Health Officer.

## Master of Health Management (PU83)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 065613M

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Course duration (external):** 3 semesters (full-time) or 6 semesters (part-time)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove and External

### Overview

The effective management of health services is of vital importance to the community and health sector alike. In response to the need for improved health management education, the Master of Health Management degree is designed to equip students with the knowledge, competencies and professional attitudes to undertake senior managerial roles and to provide health leadership within the health sector.

### Entry Requirements

Applicants can come from many health related fields, but should hold a recognised degree in health, behavioural, social or biological science, or other qualifications and/or work experience acceptable to the Executive Dean. For applicants who hold a relevant four-year degree, advanced standing of 48 credit points may be available.

### Study Areas

Specialised streams of study are offered in the areas of:

- . Health Services Management
- . Risk Management
- . Emergency and Disaster Management
- Health Technology

There is also the option of not completing a major and choosing units from more than one stream.

### Course Structure

The Master of Health Management will comprise three aspects:

- . 4 core Health Management units
- . 4 units from a Study Area
- . 4 units that may comprise a further study area, electives or a dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Note that it is not compulsory to complete a Study Area and students may instead choose 4 units from across the Study Areas.

### Course Articulation

The Graduate Diploma in Health Management fully articulates into the Master of Health Management. Students who complete 3 of the 4 core units plus an elective will be able to exit with a Graduate Certificate in Health Management.

### Further Information

For more information about this course, please contact the School of Public Health on +617 3138 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

GSN483	Ethics for Philanthropic and Nonprofit Organisations
GSN484	Management for Philanthropic and Nonprofit Organisations
GSN485	Legal Issues for Philanthropic and Nonprofit Organisations
GSN486	Accounting and Finance Issues for Philanthropic & Nonprofit Organisations
	Advertising, Marketing and Public Relations
AMN461	Corporate Media Strategy and Tactics
AMN465	Public Relations Management
AMN467	Public Relations Campaigns

### Potential Careers:

Academic, Administrator, Health Information Manager, Health Policy Officer, Health Services Manager, Public Health Officer, Public Health Program Manager, Rehabilitation Professionals, Risk Manager.

## Master of Public Health (PU85)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 009029C

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Course duration (external):** 3 semesters (full-time) or 6 semesters (part-time)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**Total credit points:** 144

**Course coordinator:** Dr Thomas Tenkate

**Campus:** Kelvin Grove

### Overview

Public health professionals make a difference to the health of populations. These courses provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

The Master of Public Health is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland. Students have opportunities to undertake electives at these institutions only after consultation with the course coordinator.

### Entry requirements

Applicants should have an approved three-year or four-year bachelor degree in health, behavioural, social or biological science from a recognised institution and not less than one year of relevant full-time professional experience.

Applicants who hold a four-year degree may be eligible for advanced standing of up to 48 credit points.

Admission on the basis of professional experience and/or research work will be considered.

### Majors

Specialised streams of study are offered in the areas of:

- . Emergency and Disaster Management
- . Epidemiology and Research Methods
- . Health Promotion
- . Health Services Management
- . Occupational and Environmental Health Science
- . Public Health Nutrition

There is also the option of not completing a major and choosing units from more than one stream.

### Course Structure

Students elect between three options:

(1) The first option is for full coursework, with no project or thesis component:

- four core units (Part A),
- one research methods unit (HLN405, HLN705 or HLN706) and
- seven advanced elective units (Part B)

(2) Option two is to undertake coursework with a project component:

- four core units (Part A)
- one research methods unit (HLN405, HLN705 or HLN706) and
- five advanced elective units (Part B) and
- one project unit (HLN703).

(3) Option three is coursework with a thesis component:

- four core units (Part A)
- four advanced elective units (Part B)
- dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Elective units (from Part B) will normally be selected according to choice of a major, or more than one stream of study where the no major option is chosen.

### Course Articulation

The Graduate Certificate in Public Health fully articulates into the Graduate Diploma in Public Health and Master of Public Health and the Graduate Diploma in Public Health fully articulates into the Master of Public Health.

### International Student Entry

International students may only enrol in full-time studies.

### Further information

For more information about this course, please contact the School of Public Health on +617 3138 5878 or email [sph.studentcentre@qut.edu.au](mailto:sph.studentcentre@qut.edu.au)

PUN688 International Health Policy and Management  
PUN649 Health Care Financial Management

#### Health Promotion

PUP032 Intervention Design and Theories of Change  
PUP034 Advanced Studies and Practice in Health Promotion  
PUP037 Health Program Evaluation  
PUP038 New Developments in Health Promotion

#### Occupational and Environmental Health Science

Students should complete any 4 of the following units

PUN418 Introduction To Financial Risk Management  
PUN001 Contemporary Risk Management  
PUN008 Risk Assessment  
PUN010 Implementing Risk Management  
PUN301 Occupational Health and Safety Law and Management  
PUN500 Safety Management  
PUN465 Environmental Protection  
PUN466 Communicable diseases  
PUN467 Public Health Risk Assessment  
PUN620 Concepts of Environmental Health  
PUP116 Ergonomics  
PUP250 Occupational Hygiene  
PUP415 Occupational Health

#### Public Health Nutrition

PUN551 Advanced Public Health Nutrition  
PUN552 Population Nutrition and Physical Activity Assessment  
PUN553 Chronic Disease Prevention and Management  
PUN554 Food Policy and Sustainability

#### Potential Careers:

Community Health Officer, Government Officer, Health Promotion Officer, Public Health Officer.

**Graduate Diploma in Psychology (PY08)**

Year offered: 2009

Admissions: Yes

CRICOS code: 036434K

Course duration (full-time): 2 semesters

Course duration (part-time): 4 semesters (may not be available by evening study)

Domestic fees (indicative): 2009: Full fee tuition \$6,750 (indicative) per semester

International Fees (per semester): 2009: \$10,250 (indicative) per semester (*subject to annual review*)

Domestic Entry: February (full-time and part-time) and July (part-time only)

International Entry: February

Total credit points: 96

Course coordinator: Dr Julie Hansen

Campus: Kelvin Grove

**Overview**

The Graduate Diploma in Psychology provides an Australian Psychology Accreditation Council (APAC) accredited undergraduate level of training in psychology, which can be added to a previous degree in another discipline. That is, this qualification is graduate level in timing, but undergraduate level in content, and qualifies students to apply for entry into an accredited fourth year, either the Bachelor of Behavioural Science (Honours Psychology) program or the Post Graduate Diploma in Psychology. Entry into these fourth year programs is competitive and normally requires a Grade Point Average (GPA) of at least 5 in the Graduate Diploma.

**Entry requirements**

An undergraduate degree plus successful completion of an introductory psychology unit (QUT equivalent PYB101, PYB102 or PYB100) and an introductory research and statistics unit (for example PYB110) equivalent to those accredited in the first year of QUT's Bachelor of Behavioural Science (Psychology) degree.

**International Student Entry**

QUT advises that international students may only enrol in February in full-time studies.

**Further Information**

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4810 or email [psyc.enquiries@qut.com](mailto:psyc.enquiries@qut.com).

**Domestic Entry:** February only (no mid-year entry). Closing date for applications is 1 October of the previous year in which you are applying for entry (applications submitted by 17 October 2009 will be accepted as previously advertised).

**International Entry:** February only (no mid-year entry). Closing date for applications is 1 October of the previous year in which you are applying for entry (applications submitted by 17 October 2009 will be accepted as previously advertised).

**Total credit points:** 96

**Course coordinator:** Dr Renata Meuter

**Campus:** Kelvin Grove

### Overview

The Honours program builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Honours program meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland.

### Entry requirements

Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology))
- must have with an overall Grade Point Average (GPA) of at least 5
- must have a GPA of at least 5 across APAC accredited second and third year psychology units
- must have successfully completed an APAC accredited third year statistics unit (PYB350 or equivalent).

### QUT Applicants

For applicants with a QUT bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:

- a minimum GPA of 5 in the overall undergraduate degree program
  - at least a pass in PYB350 Advanced Statistical Analysis (or its equivalent)
  - a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent.
- Entry is competitive based on GPA in these prescribed units:

PYB201 Perception

PYB203 Developmental Psychology

PYB205 Social Psychology

PYB206 Personality

PYB208 Counselling Theory and Practice 1

PYB210 Research Design and Data Analysis

PYB302 Industrial and Organisational Psychology

PYB303 Cognitive Psychology

PYB304 Physiological Psychology

PYB306 Psychopathology

PYB311 Psychological Assessment.

A change in the PY45 core sequence may have resulted in some students completing a slightly different sequence. Specifically,

PYB202 Social and Organisational Psychology (to replace PYB205 and PYB302)

PYB204 Perception and Cognition (to replace PYB201 and PYB303)

PYB309 Individual Differences and Assessment (to replace PYB206 and PYB311)

For applicants with an APAC-accredited bachelor award other than from QUT, similar requirements are expected. Certified copies of complete academic transcripts and evidence of their eligibility to undertake an honours program at their home institution must be provided with applications.

### Non-QUT Applicants

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

They will also be required to provide certified copies of complete academic transcripts and evidence of their eligibility to undertake an Honours program at their home institution.

### Course Structure

The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. The research component of the program entails one research methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

### International Student Entry

International students may enrol only in full-time studies.

### Further Information

For more information about this course, please contact the School of Psychology and Counselling on phone +617 3138 4810 or email [psyc.enquiries@qut.com](mailto:psyc.enquiries@qut.com)

The Master of Counselling offers preparation for a specialised position in counselling for practitioners from a variety of backgrounds. It has an applied, experiential component including Clinical practice which meets the training requirements for (PACFA) registration. It also provides knowledge, understanding and skills that will contribute to the development and practice of counselling in the professional environment.

**Entry requirements**

An approved degree in a human service or related area, at least 2 years of work experience, access to ongoing counselling work and personal suitability. Candidates with other qualifications/appropriate work experience may be admitted subject to approval by the Head of School of Psychology and Counselling.

In addition to submission of an admission form (PG Form for domestic applicants, F Form for international applicants), applicants are required to submit a PY12 Questionnaire. All forms are available at the following website:

[http://www.studentservices.qut.edu.au/pdfs/forms/pg\\_forms/PY12question.pdf](http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PY12question.pdf)

**International Student Entry**

This course is not available to international students.

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Prof Ian Shochet

**Campus:** Kelvin Grove

### Overview

The Master of Clinical Psychology offers students the opportunity for advanced training in clinical theory, skills and research. These are three skills fundamental to the professional practice of clinical psychology and psychotherapy.

The program emphasises an integrative approach drawing upon evidence-based psychotherapies including relational psychodynamic, cognitive-behavioural, and systemic narrative therapies across the lifespan.

A psychology clinic provides practicum opportunities to work with adults, children and families in a real-world learning context. There are opportunities for supervised practica in a variety of counselling and clinical setting including the clinic and external community agencies and health settings.

### Career opportunities

The course prepares graduates to work in a wide range of hospital, community and private practice settings, in areas that require clinical and psychotherapy skills, case management, management of health services, needs assessment and program evaluation, health promotion and education, and supervision.

### Entry Requirements

Entry to this course is competitive. To be considered for admission, applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a grade point average (GPA) of 5 or above in fourth year, and two referee reports. Referees will be required to comment on the academic and personal suitability of the candidate and their overall level of support for the candidate's application.

Applicants are shortlisted in priority order on the basis of their GPAs. Shortlisted applicants are required to attend an interview to assess their interpersonal skills in a clinical context. In the case of international applicants, this is conducted via telephone. Admission is based on the candidate's GPA, interview and referee reports.

In addition to submission of an admission form (PG Form for domestic applicants, F Form for international applicants) applicants are required to submit a PY18/PY50 Questionnaire and two PY18/PY50 Referee Reports. All forms are available at the following website: <http://www.studentservices.qut.edu.au/info/forms/>

### Professional recognition

The course is designed to meet the accreditation requirements of the APAC, the Australian Psychological Society College of Clinical Psychologists, and the Psychologists Board of Queensland, and provides a graduate with eligibility to apply to register as a psychologist in Queensland or any other state or territory in Australia.

### Registration requirements

All students seeking registration with the Queensland Psychologists Board as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program.

### International Student Entry

International students or applicants from whom English is not the first or native language require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - <http://www.psychologyboard.qld.gov.au>.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

International students may enrol only in full-time studies.

### Futher Information

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February only (no mid-year entry). Closing date for applications is 1 October of the previous year in which you are applying for entry (applications submitted by 17 October 2009 will be accepted as previously advertised).

**International Entry:** February only (no mid-year entry). Closing date for applications is 1 October of the previous year in which you are applying for entry (applications submitted by 17 October 2009 will be accepted as previously advertised).

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Renata Meuter

**Campus:** Kelvin Grove

### Overview

The Postgraduate Diploma in Psychology builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Postgraduate Diploma in Psychology meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland. It provides an APAC accredited fourth year of training in psychology, similar to Honours.

### Entry Requirements

Entry to this course is competitive. To be considered for admission, applicants must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an Honours Psychology program, for example QUT's Bachelor of Behavioural Science (Psychology), with a minimum grade point average of 5 achieved in the second- and third-year APAC-accredited psychology units.

### Applicants with a QUT Degree

For applicants with a QUT bachelor award, the base level requirement for consideration for inclusion in the Postgraduate Diploma in Psychology program is a minimum overall grade point average of 5 in prescribed second- and third-year psychology units or their equivalent, specifically:

PYB201 Perception

PYB203 Developmental Psychology

PYB205 Social Psychology

PYB206 Personality

PYB208 Counselling Theory and Practice 1

PYB210 Research Design and Data Analysis  
 PYB302 Industrial and Organisational Psychology  
 PYB303 Cognitive Psychology  
 PYB304 Physiological Psychology  
 PYB306 Psychopathology  
 PYB311 Psychological Assessment

A change in the PY45 core sequence may have resulted in some students completing a slightly different sequence. Specifically,

PYB202 Social and Organisational Psychology (to replace PYB205 and PYB302)

PYB204 Perception and Cognition (to replace PYB201 and PYB303)

PYB309 Individual Differences and Assessment (to replace PYB206 and PYB311)

For applicants with an APAC-accredited bachelor award other than from QUT, similar requirements are expected. Certified copies of complete academic transcripts and evidence of their eligibility to undertake an honours program at their home institution must be provided with applications.

### Applicants with a Non-QUT Degree

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

Certified copies of complete academic transcripts must be provided with applications.

### Course structure

The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. In consultation with the Course Coordinator, students also choose one cognate elective at third-year level or above. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have three contact hours per week. The contact for research thesis units is as required by the supervisor.

### International Student Entry

International students may enrol only in full-time studies.

### Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4810 or email [psyc.enquiries@qut.com](mailto:psyc.enquiries@qut.com)

**New heading**

New text

One cognate elective, at 3rd year level or above, selected from a list approved by the course coordinator

**Full-Time Course structure**

**Year 1, Semester 1**

- PYB450-1 Research Thesis (Part 1)  
 Plus ONE research methods unit selected from the following options:
- PYB401 Advanced Research Methods  
 HHB232 Survey Methods
- Plus TWO advanced psychology units selected from the following options:
- PYB402 Counselling Psychology  
 PYB403 Cognitive Neuropsychology  
 PYB404 Issues in Social Developmental Psychology  
 PYB405 Advanced Organisational Psychology

**Year 1 Semester 2**

- PYB407 Research and Professional Development Seminar
- PYB450-2 Research Thesis (Part 2)  
 PYB450-3 Research Thesis (Part 3)

**Potential Careers:**

Administrator, Community Health Officer, Community Worker, Counsellor, Family Services Officer, Government Officer, Guidance Officer, Health Information Manager, Health Services Manager, Higher Education Worker, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Psychologist, Public Health Officer, Public Servant, School Counsellor, Youth Worker.

## Graduate Certificate in Road Safety (PY40)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 040334B

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Course duration (external):** 1 semester (full-time) 2 semesters (part-time)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February (full-time and part-time; external and internal) and July (internal part-time; external full-time and part-time)

**International Entry:** February (internal full-time; external full-time and part-time)

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Mark King

**Campus:** Gardens Point and Kelvin Grove

### Overview

The Graduate Certificate fosters specialist and multidisciplinary skills and knowledge in the fields of road safety, accident prevention, and traffic and transport improvements. The program is relevant not only to those already employed by government or industry, as either managers, practitioners or researchers, but also those seeking to enter these fields.

Students become conversant with real-world safety problems with input from psychology, humanities, public health, optometry, civil/mechanical/manufacturing and medical engineering staff, as well as guest lecturers from government and industry (eg state transport, police, and the insurance industry). Students undertake field study, and are able to complete workplace-based projects where appropriate. They gain experience in both individual and teamwork approaches to research, problem solving, information retrieval, and oral and written communication.

### Entry requirements

For entry into the Graduate Certificate in Road Safety, applicants must possess a relevant degree from a university, an equivalent qualification relevant to road safety or two years of professional practice relevant to road safety.

For entry into the Graduate Diploma in Road Safety, applicants must possess a relevant degree from a university or a Graduate Certificate in Road Safety. Degrees suitable for entry into the Graduate Certificate and Graduate Diploma include bachelor degrees in civil engineering, psychology, and public health.

### Entry with Advanced Standing

Advanced standing will be given, on a case-by-case basis, for road safety-specific units in postgraduate courses.

See the advanced standing precedent list at

[www.studentservices.qut.edu.au/apply/advancedstanding/spl.jsp](http://www.studentservices.qut.edu.au/apply/advancedstanding/spl.jsp)

Undergraduate units will not be recognised.

### Course Structure

The Graduate Certificate in Road Safety consists of one core unit plus three electives while the Graduate Diploma in Road Safety consists of two core units plus six electives. The program structures are designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two electives are delivered in intensive week-long blocks at Kelvin Grove campus. The programs have recently been enhanced with the introduction of external delivery for selected units.

Currently the following units are available in external mode:

PYP401 Introduction to Road Safety  
PYP402 Traffic Psychology and Behaviour  
PYP404 Applying Traffic Psychology  
PYP406 Road Safety Theory to

### International Student Entry

International students may undertake the course in internal or external mode. Entry to the internal mode is only available in February and must be undertaken as a full-time student. The external mode is only available to students studying from overseas. On completion of the Graduate Certificate students may choose to continue their studies with the Graduate Diploma in Road Safety.

### Further Information

For further information about this course, please contact the CARRS-Q Education Administrator on phone +617 3138 4592, email [psyc.enquiries@qut.com](mailto:psyc.enquiries@qut.com) or consult the CARRS-Q website.

### Course structure

#### Year 1, Semester 1

PYP401 Introduction to Road Safety  
PYP402 Traffic Psychology and Behaviour

#### Year 1, Semester 2

PYP406 Road Safety Theory to Practice  
PYP404 Applying Traffic Psychology

The above units can be replaced with one or two units offered in Summer Program

#### Year 1, Summer Program

PYP405 Road Safety Evaluation Models  
PYP408 Road Safety Audit - Principles and Practice

Consideration will be given to offering core or elective units in block mode, as demand warrants

Notes

null

PYP401, PYP402, PYP404 & PYP406 are

offered in external mode in additional  
semesters

## Graduate Diploma in Road Safety (PY41)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 040335A

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Course duration (external):** 2 semesters (full-time) or 4 semesters (part-time)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February (full-time and part-time) and July (external full-time or part-time; internal full-time\* or part-time) \*full-time option is only for candidates that have completed the GradCertRoadSafety

**International Entry:** February and July (external full-time; internal full-time if GradCertRoadSafety completed)

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Mark King

**Campus:** Gardens Point and Kelvin Grove

### Overview

Both the Graduate Certificate and Graduate Diploma in Road Safety foster specialist and multidisciplinary skills and knowledge in the fields of road safety, accident prevention and traffic and transport improvements. The programs are relevant not only to those already employed by government or industry, as either managers, practitioners or researchers, but also those seeking to enter these fields. You will become conversant with real-world safety problems with input from psychology, humanities, public health, optometry, civil/mechanical/manufacturing and medical engineering staff, as well as guest lecturers from government and industry eg state transport, police, and the insurance industry. You will undertake field study, and be able to complete workplace-based projects where appropriate. You will gain experience in both individual and teamwork approaches to research, problem solving, information retrieval, oral and written communication.

### Entry requirements

A degree from a university or a three-year diploma relevant to road safety or a Graduate Certificate in Road Safety. (Suitable entry degrees include Bachelor of Civil Engineering, Psychology, Public Health.) \*Candidates who have completed QUT's Graduate Certificate in Road Safety can apply for full-time study commencing in July.

### Entry with Advanced Standing

Advanced standing will be given, on a case by case basis, for road safety-specific units in postgraduate courses including QUT's Graduate Certificate in Civil Engineering; New England/Murdoch/Edith Cowan Universities' Graduate Certificate or Graduate Diploma in Road Safety. Undergraduate units will not be recognised.

### Course Structure

The Graduate Diploma in Road Safety course consists of two core units plus six electives. The program structure is designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two are available in intensive week-long blocks. The program has recently been enhanced with the introduction of distance education delivery for select units.

### Further Information

For further information about this course, please contact the CARRS-Q Education Administrator on +61 7 3138 4592 or consult the CARRS-Q website [www.carrsq.qut.edu.au](http://www.carrsq.qut.edu.au)

### Full-Time Course Structure

#### Year 1, Semester 1

PYP401	Introduction to Road Safety and three of the following units
PYP402	Traffic Psychology and Behaviour
PYP407	Independent Study Traffic Engineering elective Elective as approved by Course Coordinator

#### Year 1, Semester 2 and Summer Semester

PYP406	Road Safety Theory to Practice and three of the following units not previously taken
PYP402	Traffic Psychology and Behaviour
PYP404	Applying Traffic Psychology
PYP407	Independent Study
PYP405	Road Safety Evaluation Models
PYP408	Road Safety Audit - Investigation & treatment of crash locations Elective as approved by the Course Coordinator

#### Notes

PYP401, PYP402, PYP404 and PYP406 are offered in external mode in additional semesters.

### Part-Time Course structure

#### Year 1, Semester 1

PYP401	Introduction to Road Safety
PYP402	Traffic Psychology and Behaviour

#### Year 1, Semester 2

PYP404	Applying Traffic Psychology Any approved elective or a unit offered in Summer Program listed below:
--------	--

#### Year 1, Summer Program

PYP405	Road Safety Evaluation Models
PYP408	Road Safety Audit - Investigation & treatment

of crash locations

Consideration will be given to offering core or elective units in block mode, as demand warrants

### Year 2, Semester 1

Any two of the following units, not completed in Year 1:

PYP402 Traffic Psychology and Behaviour

PYP407 Independent Study

Traffic Engineering elective

### Year 2, Semester 2

PYP406 Road Safety Theory to Practice

And one of the following units or a unit offered in Summer Program:

PYP404 Applying Traffic Psychology

PYP407 Independent Study

### Year 2, Summer Program

PYP405 Road Safety Evaluation Models

PYP408 Road Safety Audit - Investigation & treatment of crash locations

Consideration will be given to offering core or elective units in block mode, as demand warrants

### Notes

PYP401, PYP402, PYP404 and PYP406 are offered in external mode in additional semesters.

## Bachelor of Behavioural Science (Psychology) (PY45)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 034136C

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years (evening classes are not available)

**Domestic fees (indicative):** 2009: CSP \$2,739 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 425081

**Past rank cut-off:** 82

**Past OP cut-off:** 10

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Julie Hansen

**Campus:** Kelvin Grove

### Overview

Whether your fascination is with people and personalities, problem solving or the workings of the brain, psychology offers a pathway to a rewarding career.

### Why choose this course?

The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas.

The course covers both theoretical and practical aspects of psychology. Core units introduce students to the scientific bases of psychology in areas including social and developmental psychology, research methods, physiology, perception and cognition, and as well as more applied areas such as counselling, individual differences and assessment, and psychopathology. In addition, students can choose electives from specialised units including organisational psychology, forensic psychology and the law, psychology and gender, family therapy, alcohol and drugs, health psychology, and road safety. Students can also include up to seven electives in areas of interest other than psychology (e.g. human services, science, humanities, criminology, education, public health, or business) to acquire a wide range of vocational skills.

You will also develop your ability to understand and apply psychological principles to personal, social, and organisational issues, as well as high-level communication and social research skills that are valuable in a wide range of professions.

### Recommended Study

Maths A, B or C.

### Career Options

Psychology graduates have skills that equip them for many professional areas. The analytical, research and interpersonal skills acquired have a high degree of application in areas such as education, human resources, market research, organisational development, policing, health and human services and counselling.

You are encouraged to structure your course to incorporate elective specialisations in other areas to provide a wide choice of career options.

On successful completion of the degree you may either pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist or seek postgraduate studies in psychology or other disciplines.

### Honours

Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with your state registration board. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

### Professional Membership

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC).

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4810 or email [psyc.enquiries@qut.com](mailto:psyc.enquiries@qut.com)

PYB305	null
PYB372	Traffic Psychology and Behaviour
PYB374	Applying Traffic Psychology

**List C: Social Science Foundation Units**

In your first year of study (or first two years of study for part-time students), you are required to study one compulsory Social Science Foundation Unit from the list below, and one other elective unit. The Social Science Foundation unit can be completed in either 1st or 2nd semester, depending on your choice of unit and its availability. You should enrol in an elective unit in the other semester.

null

HHB103	Contemporary Social And Community Issues
HHB104	Understanding Society: Intro. To Sociology
HHB110	Introduction To International And Global Studies
HHB114	Introduction To Human Rights And Ethics
HHB210	Indigenous Australia: Country, Kin And Culture

**Potential Careers:**

Administrator, Aged Services Worker, Child Protection Officer, Community Health Officer, Community Worker, Counsellor, Disability Services Worker, Exchange Student, Family Services Officer, Government Officer, Guidance Officer, Health Information Manager, Health Services Manager, Higher Education Worker, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Manager, Policy Officer, Psychologist, Public Servant, Social Scientist, Youth Worker.

## Doctor of Psychology (Clinical) (PY50)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 059989G

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$11,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February (closing date for applications is 1 October of the previous year in which you are applying for entry. Applications submitted by 17 October 2009 will be accepted as previously advertised).

**International Entry:** February (closing date for applications is 1 October of the previous year in which you are applying for entry. Applications submitted by 31 October 2009 will be accepted as previously advertised).

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Prof Ian Shochet

**Campus:** Kelvin Grove

### Overview

The Doctor of Psychology (Clinical) offers students the option of a postgraduate program to develop more advanced professional knowledge and skills in clinical psychology than offered in the Master of Clinical Psychology. It includes advanced professional coursework units, specialised practical experience and an extended program of research, enabling graduates to undertake positions of greater responsibility in a broad range of clinical settings including hospitals, mental health facilities and other specialised treatment units.

The doctorate emphasises the development of applied research and clinical specialisations within an evidence-based, integrative psychotherapy framework.

### Entry Requirements

Applicants must hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent with First Class Honours or Honours Class IIA from QUT or another recognised institution. Alternatively, a grade point average of 5.5 or above in the Postgraduate Diploma in Psychology or equivalent course is required. Applicants are required to provide two referee reports and attend an interview to assess their interpersonal and research skills in a clinical context.

Students who are not already registered with the Psychologists Board of Queensland will be required to register with the Board as a psychologist with probationary conditions for the duration of the program.

In addition to submission of an admission form (PG Form for domestic applicants, F Form for international applicants) applicants are required to submit a PY18/PY50 Questionnaire and two PY18/PY50 Referee Reports. All forms are available at the following website: <http://www.studentservices.qut.edu.au/info/forms/>

### Advanced Standing

Advanced standing of up to a maximum of 144 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent. Credit will not be granted for previously completed research work.

### Course Structure

The doctorate comprises 24 units made up of 10 professional coursework units, 8 research units and 6 practicum units.

### Course Articulation

The Master of Clinical Psychology articulates with the Doctor of Psychology (Clinical). Doctorate students who successfully complete the requirements of the masters course may exit with a Master of Clinical Psychology.

### International Student Entry

International students or applicants from whom English is not the first or native language require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - <http://www.psychologyboard.qld.gov.au>.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

International students may enrol only in full-time studies.

### Professional Recognition

The course is designed to meet the accreditation requirements of the APAC, the Australian Psychological Society College of Clinical Psychologists, and the Psychologists Board of Queensland, and provides a graduate with eligibility to apply to register as a psychologist in Queensland or any other state or territory in Australia.

### Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4822 or email [psyc.enquiries@qut.edu.au](mailto:psyc.enquiries@qut.edu.au)

**University wide unit sets**

Unit sets: Accounting, Economics and Finance

Unit sets: Advertising, Integrated Marketing Communication, Logistics, Marketing and Public Relations

Unit sets: Built Environment and Design

Unit sets: Creative Industries

Unit sets: Engineering

Unit sets: Entrepreneurship, Human Resource Management and Management

Unit sets: Natural Resource Sciences

Unit sets: Faculty of Health

Unit sets: Information Technology

Unit sets: International Business, Languages, and Tourism and Entertainment Marketing

Unit sets: International Exchange

Unit sets: International Studies

Unit sets: Justice and the Law

Unit sets: Mathematical Sciences

Unit sets: Multimedia and Technologies

Unit sets: Physical and Chemical Sciences

Unit sets: Science

Unit sets: Society and Culture

Unit sets: Urban Development and Construction

## OVERVIEW

In 2009 the Humanities Program at Kelvin Grove campus will administer a number of undergraduate programs for continuing students including:

- Bachelor of Arts
- Bachelor of Social Science; and
- the Arts component of double degrees in:
  - Arts/Behavioural Science (Psychology)
  - Arts/Education
  - Arts/Laws
  - Arts/Applied Science
  - Arts/Business
  - Arts/Creative Industries
  - Arts/Justice
  - Arts/Human Services; and
  - Arts/Information Technology.

The Humanities Program will also be responsible for:

- Honours programs in Arts and Social Science
- Master of Arts Research Degree
- Doctor of Philosophy; and
- Doctor of Social Science.

These postgraduate programs will be available to commencing and continuing students in 2009.

## SENIOR STAFF

*Head:* Professor C. Bean, BA MA(Hons) *Canterbury*, PhD ANU

*Professors:*

C.A. Trocki, BA *Cleveland*, MA PhD *C'nell*

G. Kendall, MA *Camb*, MSc *Manc*, PhD *Lond*

*Associate Professors:*

B.A. Adkins, BA(Hons) PhD *Qld*

G.J. Ianziti, BA *San Fran*, MA PhD *Nth Car*

## RESEARCH

### Humanities Research Program

The Humanities Research Program facilitates research with a strong social research orientation which allows the human, ethical and societal dimensions of technological, environmental, economic and political change to be assessed and responses to these changes to be identified. This is achieved through careful, critical, independent and ethical research, which contributes to better outcomes for individuals and communities and addresses issues of national and global significance.

Staff and students are offered:

- a distinctive, applied research culture, underpinned by a solid research base
- a focus on international and local issues related to the humanities and social sciences
- an ethical engagement with a wide range of public policy and practices related to government, business and the community
- strong collaborative partnerships with community, government, academic and private organizations
- cutting edge critical public debate on issues of national and international importance
- an open, people-centred and change-oriented approach
- a nurturing environment for the development of excellence in the next generation of researchers through expert mentoring and guidance by experienced researchers.

Strengths of the Humanities Research Program include:

- Expertise in topical and important areas within the social research arena including:
  - Applied Ethics
  - Asia-Pacific Studies
  - Australian Studies
  - European Studies
  - History
  - Gender Studies
  - Geography and Environmental Studies
  - International and Global Studies
  - Politics
  - Sociology
  - Social Capital
- Experience in the use of diverse research approaches, including political, sociological, applied ethics, historical and social science research approaches
- Solid links with the community, industry, business and government organizations that enable the development of collaborative research alliances
- Cross-disciplinary linkages at the local, national and international level
- A strong publication rate

## Bachelor of Arts (HH01)

**Year offered:** 2009

**Past OP cut-off:** 15 (both campuses); Dfee: 15 (both campuses)

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Keith Moore

**Campus:** Gardens Point and Kelvin Grove

### Course Outline

The Bachelor of Arts allows you to design your degree to suit your own interests and career aspirations. You will complete 24 units of study.

\* You are REQUIRED to complete:

- One multidisciplinary major (7 units) from
  - International and Global Studies
  - Society and Change
  - Ethics and Human Rights
  - Community Studies
  - Australian Studies

\* The remaining 17 units of study will consist of your choice from the following options:

- An additional multidisciplinary major (7 units)
- An Arts discipline major (6 units) from
  - Geography
  - History
  - Sociology
  - Political Studies
  - French
  - German
  - Indonesian
  - Japanese
  - Mandarin
- An Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- A co-major, an approved university minor, or individual electives in another QUT course (up to 8 units)
- A work-based Internship (2 units)

### International and Global Studies Multidisciplinary Major

The International and Global Studies multidisciplinary major is an ideal choice if you wish to work in areas that demand and value knowledge of trends and outcomes in internationalisation, understanding of cultural diversity, knowledge of world regions, cultures and societies, and skills associated with global literacy. You may choose to concentrate on 'global perspectives' or 'international studies' (Asian studies, European studies or Pacific studies). You may combine this major with language study in Indonesian, French, Japanese, German or Mandarin.

### Society and Change Multidisciplinary Major

The Society and Change major provides a multidisciplinary approach to understanding the dynamics of social change with particular emphasis on the environment, change and society, societies in transition, and the individual and society. You will acquire substantive knowledge on social and cultural aspects of change, and will be challenged to take a critical and analytical approach to your study. Many of the units provide case studies of social change, and as a graduate of this major you will be equipped with transferable analytical, research and interpersonal skills that are in demand in policy, research and community work.

### Ethics and Human Rights Multidisciplinary Major

The Ethics and Human Rights multidisciplinary major provides you with the opportunity to develop as a socially responsible and responsive practitioner. Dramatic changes in the human condition, such as those already emerging from globalisation and biotechnology, will be a significant feature of life in the twenty-first century. This major will equip you with understandings, skills and strategies that will enable you to address change in ways that promote the well-being of individuals and communities. The major is organised around five themes: ethical understandings and theory, human rights, identity studies, ethics and technology and ethical practice.

### Australian Studies Multidisciplinary Major

The Australian Studies multidisciplinary major examines past, present and future Australia from a variety of discipline and interdisciplinary approaches. Australian studies is a contested, endless conversation and the units reflect the many perspectives which researchers now adopt in trying to understand what 'Australia' is like as a society, a nation, a place and a home to indigenous and non-indigenous citizens. The major will equip you with knowledge about Australians and Australia and its role in the world. In addition, as a graduate you will have the confidence to engage in empirical and theoretical debates about what has happened, and should happen in Australia.

### Community Studies Multidisciplinary Major

In the Community Studies multidisciplinary major the 'knowledge explosion' is addressed by an open-ended teaching and learning approach to equip you to better understand the communities to which you belong from past, present and future perspectives. As you get to know how communities are structured, you will consider what holds communities together and what undermines them, and

consider how communities can be enhanced. The major encompasses the concept of community and a detailed investigation of community processes.

### Minors

All of the multidisciplinary and discipline majors in the Bachelor of Arts can also be taken as four-unit minors. Note also that all QUT faculties offer agreed sets of units as 'university minors'.

**Campus:** Kelvin Grove

### Course Outline

The Bachelor of Social Science allows you to develop a range of social science skills which will equip you to address social issues and problems.

You will complete 24 units of study in this course.

\* You are REQUIRED to complete:

- One social science major (7 units) from
  - Sociology
  - Politics and History
  - Geography and Environment
  - Indigenous Perspectives and Issues
  - Human Services and Social Policy

and

- Social science skills units (6 units). The choice includes
  - interpersonal communication
  - social research
  - conflict resolution
  - team practice
  - survey methods
  - social policy processes
  - intervention methods

\* The remaining 11 units of study will consist of your choices from the following options:

- An additional social science major (7 units)

- A social science minor (4 units) from
  - Gender and Sexuality
  - Peace and Conflict Resolution

- A foreign language (4-6 units) from
  - French, German, Indonesian, Japanese, Mandarin

- A co-major, an approved university minor, or individual electives in another QUT course (up to 11 units)

- A work-based internship (2 units)

- An independent social science project (2 units)

### Sociology Major

Sociology is an attempt to grapple with the issues and problems of a world experiencing change. You will study what makes us social beings and why both cooperation and conflict are recurring features of our social relationships. You will gain an understanding of the fundamental institutions of family, school, work and culture, and will be equipped to think intelligently and critically about them. You will acquire the skills of social analysis and policy development which are essential for a wide variety of professional employment.

### Politics and History Major

The combination of politics and history provides a focus on the application of power in the contemporary world and also an understanding of how and why we have arrived at the social and political structures and processes that exist today. As a graduate with a politics and history background you will be equipped to enter occupations that require development and analysis of policy and administrative programs in both the public and private sectors.

### Geography and Environment Major

Geography explains how and why natural environments, land use, settlement, economic activity, population and cultures vary from place to place, and how these elements interact to create distinctive and dynamic regional landscapes. The practical approach provides you with a sound basis, as a professional, for analysing human-environment linkages; population, social and cultural change; land use; settlement; and sustainable development.

### Indigenous Perspectives and Issues Major

Indigenous perspectives and issues are central to the contemporary social sciences and to the creation of graduates who are skilled in the complexities of cross-cultural understanding and the acquisition of cross-cultural sensitivity. You will gain insights into Australian Indigenous perspectives and issues from the disciplines of humanities and human services, creative industries, education and justice studies. You will also develop skills associated with research ethics and protocols as they relate to Indigenous cultures and communities.

### Human Services and Social Policy Major

Understanding our complex society and identifying emerging social issues and trends are key roles for human service and social policy practitioners. Community service agencies and for-profit industries seek out graduates with vocational skills that enable them to stay abreast of rapid social change and emerging trends. As a social science graduate you will be equipped to review, develop and administer social programs.

**Gender and Sexuality Minor**

Issues of difference and identity as they relate to the constitution of gender and sexuality are significant elements within social science investigations. This minor draws on relevant units from discipline areas such as humanities and human services, psychology, public health, justice studies and creative industries to enable you to analyse and challenge inherent presumptions about gendered/sexed bodies, as well as address the possibilities for alternative identity politics.

**Peace and Conflict Resolution Minor**

You will engage with important issues of contemporary global change and the way these may impact on diverse communities and individuals, conflicts that arise out of these situations, and approaches to resolving such conflicts. The units provide you with opportunities to pursue in-depth studies of human rights issues, identity issues and conflicts, and crisis intervention and resolution.

**Minors**

All the social science majors can also be taken as four-unit minors.

Note also that all QUT faculties offer agreed sets of units as 'university minors'.

Social science project unit

**Social Science Skills Units****Social Science Skills Units**

Students choose a minimum of six units from the following options (with advice that they do a maximum of three at first year level)

**First Year Units**

HHB113	Interpersonal Communication
HHB116	Applied Skills And Scholarship
HHB117	Introduction To Social Research Methods
HHB121	Interpreting The Past
BSB113	Economics
PYB110	Psychological Research Methods
HHB213	Social Policy Processes
HHB214	Team Practice and Group Processes
HHB217	Conflict Management Skills for Professionals
HHB224	Qualitative Research Methods
HHB232	Survey Methods
HHB264	Public And Professional Ethics
HHB276	Indigenous Knowledge: Research Ethics and Protocols
HHB278	Practice Theories
HHB279	Social Work Processes and Methods
HHB282	Advanced Communication For Human Services and Social Work
	<b>Third Year Units</b>
HHB312	Geographical Research Design
HHB316	Social Science Project
HHB324	Regional Field Studies (Geography)

**Major Electives****Sociology Major****Introductory Unit:**

HHB104	Understanding Society: Intro. To Sociology
	Students must complete the Introductory Unit plus six Sociology units from the following:
HHB216	The Human Dimensions Of Space
HHB224	Qualitative Research Methods
HHB223	Islam and Islamic Societies
HHB225	Political Sociology
HHB226	Consuming Cultures
HHB231	Health, Society And Environment
HHB232	Survey Methods

## LAW

HHB233	Sex, Gender And Society	HHB107	World Regions
HHB234	Sociological Theory		Students must complete the Introductory Unit plus six Geography and Environment units from the following:
HHB236	Virgins, Saints And Sinners: Sociology Of Religion	HHB127	Environment And Society
HHB240	Sociology Of Crime And Deviance	HHB228	Environmental Hazards
HHB335	Bodies, Cyborgs and Cyberspace	HHB229	Windows On Japan
HHB310	Globalisation And Social Theory	HHB244	Southeast Asia In Focus
<b>Politics and History Major</b>		HHB250	Australian Geographical Studies
	Introductory Unit (Politics)	HHB251	Australian Resource Management
HHB112	Australian Politics	HHB269	Ethics, Technology And The Environment
	Introductory Unit (History)	HHB312	Geographical Research Design
HHB109	Australian Historical Studies	NRB100	Environmental Science
	Students must complete the Introductory Unit plus six Politics/History units from the following:	NRB501	Spatial Analysis of Environmental Systems
	Politics Units	PSB443	Population and Urban Studies
HHB213	Social Policy Processes	PSB631	Geographic Information Systems
HHB224	Qualitative Research Methods	PSB655	Remote Sensing
HHB225	Political Sociology	<b>Indigenous Perspectives and Issues Major</b>	
HHB230	Political Behaviour		Introductory Unit
HHB232	Survey Methods	HHB123	Indigenous Australian Culture Studies
HHB249	Social Movements In Australia		Students must complete the Introductory Unit plus six Indigenous Perspectives and Issues units from the following:
HHB255	Indigenous Politics And Political Culture	HHB210	Indigenous Australia: Country, Kin And Culture
HHB262	Political Ideologies	HHB255	Indigenous Politics And Political Culture
HHB263	Politics Of Globalisation	HHB276	Indigenous Knowledge: Research Ethics and Protocols
HHB265	The Just Society	EDB007	Culture Studies: Indigenous Education
	History Units	JSB135	Unlocking Criminal Justice
HHB121	Interpreting The Past	JSB137	Politics of Law
HHB122	Colonialism And Independence In Asia Pacific	JSB352	Indigenous Justice
HHB237	Brisbane in the Twentieth Century	<b>Human Services and Social Policy</b>	
HHB238	Asian Cultures And Societies		Introductory Unit
HHB239	Korean Culture And Societies	HHB103	Contemporary Social And Community Issues
HHB242	Pacific Culture Contact		Students must complete the Introductory Unit plus six Human Services and Social Policy units from the following list
HHB243	The Pacific Since 1945	HHB100	Introduction to Human Services and Social Work
HHB245	Australia And The South Pacific	HHB113	Interpersonal Communication
HHB246	Modern China	HHB200	Working In Human Service Organisations
HHB248	The USA and The Asia Pacific Region	HHB203	Aged Services: Introduction
HHB253	Conspiracy And Dissent In Australian History	HHB204	Child And Family Services: Introduction
HHB256	Europe Since 1945	HHB205	Corrective Services: Introduction
HHB257	The Classical World	HHB206	Disability Services: Introduction
HHB258	Foundations of Modern Europe	HHB207	Services To Young People: Introduction
HHB259	War And Revolution In Europe 1914-1945	HHB210	Indigenous Australia: Country, Kin And Culture
HHB261	Medieval Europe	HHB211	Casework And Case Management
HHB260	Nations And Nationalism In Modern Europe	HHB212	Community Work
HHB311	Colonial Fantasies And Postcolonial Identities		
HHB315	Sex And Drugs In South-East Asia		
<b>Geography and Environment Major</b>			
	Introductory Unit		

HHB213	Social Policy Processes	Sociologist.
HHB214	Team Practice and Group Processes	
HHB215	Crisis And Conflict Resolution	
HHB217	Conflict Management Skills for Professionals	
HHB220	Intervention Theories And Methods	
HHB319	Child Protection Intervention Skills	
PUB251	Contemporary Public Health	
PUB326	Epidemiology	
PUB406	Health Promotion Strategies	
PUB557	Health Needs of Indigenous Australians and Other Populations	

### **Minor Electives**

#### **Peace and Conflict Resolution Minor**

Students choose four electives from the following units:

HHB111	Issues In International And Global Studies
HHB113	Interpersonal Communication
HHB114	Introduction To Human Rights And Ethics
HHB215	Crisis And Conflict Resolution
HHB217	Conflict Management Skills for Professionals
HHB268	Vulnerable Identities
HHB274	Human Rights: International And Regional Activism
HHB275	Human Rights: Australian Activism
JSB932	Alternative Justice Processes

#### **Gender and Sexuality Minor**

Students choose four electives from the following units:

HHB233	Sex, Gender And Society
HHB241	Gender and Globalisation
HHB267	Feminism And Ethics
HHB270	Gene Technology And Ethics
HHB315	Sex And Drugs In South-East Asia
HHB335	Bodies, Cyborgs and Cyberspace
JSN015	Women and the Australian Legal System
KWB321	Modern Times: Literature and Culture in the 20th Century
KPB343	Australian Film
PUB336	Women's Health
PYB054	Psychology and Gender
PYB067	Human Sexuality

### **Language Units**

Refer to HH01 Bachelor of Arts for Language units

### **Potential Careers:**

Academic, Administrator, Community Worker, Government Officer, Higher Education Worker, Information Officer, Manager, Project Manager, Public Servant, Social Scientist,

## Bachelor of Arts/Bachelor of Human Services (HH10)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 058397F

**Course duration (full-time):** 4 years

**Course duration (part-time):** 8 years

**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** Course no longer available for admission

**QTAC code:** Course no longer available for admission

**Past rank cut-off:** 69

**Past OP cut-off:** 15

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Iraphne Childs (Arts), Dr Phil Crane (Human Services)

**Campus:** Kelvin Grove

### Course Structure

This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

### Professional Practice Placements

As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further

develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

### Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Professional Membership (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Welfare and community Workers. (Accreditation application is currently in process).

### Course is under review

QUT is currently reviewing the Arts programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2009 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website <http://www.humanities.qut.edu.au/>

HHB243	The Pacific Since 1945
HHB245	Australia And The South Pacific
HHB246	Modern China

### DISCIPLINE MAJOR IN THE BACHELOR OF ARTS - LANGUAGES

#### FRENCH

Six sequenced units from the following:

HHB061	French 1
HHB062	French 2
HHB063	French 3
HHB064	French 4
HHB065	French 5
HHB066	French 6
HHB067	French 7
HHB068	French 8
HHB069	French 9
HHB070	French 10

#### GERMAN

Six sequenced units from the following:

HHB091	German 1
HHB092	German 2
HHB093	German 3
HHB094	German 4
HHB095	German 5
HHB096	German 6
HHB097	German 7
HHB098	German 8

#### INDONESIAN

Six sequenced units from the following:

HHB071	Indonesian 1
HHB072	Indonesian 2
HHB073	Indonesian 3
HHB074	Indonesian 4
HHB075	Indonesian 5
HHB076	Indonesian 6
HHB077	Indonesian 7
HHB078	Indonesian 8

## LAW

### JAPANESE

Six sequenced units from the following:

HHB081	Japanese 1
HHB082	Japanese 2
HHB083	Japanese 3
HHB084	Japanese 4
HHB085	Japanese 5
HHB086	Japanese 6
HHB087	Japanese 7
HHB088	Japanese 8

### OVERSEAS UNITS - ALL LANGUAGES

#### MANDARIN

HHB031	Mandarin 1
HHB032	Mandarin 2
HHB033	Mandarin 3
HHB034	Mandarin 4
HHB058	In-Country Study - A
HHB056	International Intensive Program
HHB057	International Summer School Or Equivalent
HHB059	In-Country Study - B

### DISCIPLINE MAJOR IN THE BACHELOR OF ARTS - SOCIOLOGY

#### INTRODUCTORY UNIT

HHB104	Understanding Society: Intro To Sociology
--------	---

#### ELECTIVE UNITS

HHB216	The Human Dimensions Of Space
HHB219	Iranian Society: Culture, Religion and Politics

HHB206	Disability Services: Introduction
HHB207	Services To Young People: Introduction

#### LIST C

HHB117	Introduction To Social Research Methods
HHB212	Community Work
HHB211	Casework And Case Management
HHB213	Social Policy Processes
HHB214	Team Practice and Group Processes
HHB210	Indigenous Australia: Country, Kin And Culture
HHB216	The Human Dimensions Of Space
HHB319	Child Protection Intervention Skills

#### LIST D

HHB303	Aged Services: Advanced
HHB304	Child And Family Services: Advanced
HHB305	Community and Youth Corrections
HHB306	Disability Services: Advanced
HHB307	Services To Young People: Advanced

#### Potential Careers:

Administrator, Adult/Workplace Educator, Aged Services Worker, Child Protection Officer, Community Corrections Officer, Community Education Officer, Corrective Services Officer, Disability Services Worker, Family Services Officer, Government Officer, Information Officer, Manager, Policy Officer, Public Servant, Social Scientist, Sociologist, Youth Worker.

**Bachelor of Arts (Honours) (HH21)****Year offered:** 2009**Admissions:** Yes**CRICOS code:** 020294D**Course duration (full-time):** 2 Semesters**Course duration (part-time):** 4 Semesters**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)**Domestic Entry:** February and July**International Entry:** February and July**Total credit points:** 96**Standard credit points per full-time semester:** 48**Standard credit points per part-time semester:** 24**Course coordinator:** Professor Carl Trocki**Campus:** Kelvin Grove**Overview**

An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

**Entry Requirements**

Normally students will apply at the end of the final year of their pass degree. Except where otherwise specified, applicants **MUST** have:

\* completed a bachelor degree in the relevant discipline area from QUT, or a similar degree from QUT or another university; and

\* achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a course grade point average of 5 on a seven-point scale).

Alternatively, candidates may be accepted for admission by the Faculty Academic Board after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

**Course Structure**

The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two

assessors, one of whom will normally be external to QUT.

**Part-time Course Structure**

Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

**Language Students**

Language students will, where appropriate, do extensive work in the Literature Review and Honours Thesis units in the target language. Where feasible the Honours thesis will be written in the target language.

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

**Full-time Course Structure****Year 1, Semester 1**

HHB403	Literature Review
HHB404	Honours Thesis 1 Advanced Elective (One 12 credit point elective selected from advanced units offered in the undergraduate program, chosen in consultation with the thesis supervisor and approved by the Research Elective* Honours Coordinator) *Selected in consultation with supervisor null

**Year 1, Semester 2**

HHB406	Honours Thesis 3
HHB405	Honours Thesis 2
HHB407	Honours Seminar

**Potential Careers:**

Academic, Administrator, Community Education Officer, Community Worker, Corporate Secretary, Diplomat, Educator, Facilities Manager, Family Services Officer, Government Officer, Higher Education Worker, Manager, Policy Officer, Project Developer, Project Manager, Public Relations Officer/Consultant, Public Servant, Social Scientist, Sociologist, Translator.

## Bachelor of Social Science (Honours) (HH23)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 027279B

**Course duration (full-time):** 2 Semesters

**Course duration (part-time):** 4 Semesters

**Campus:** Kelvin Grove

### Overview

An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. The Honours course contains a mix of advanced theory, research training and a research project leading to a thesis. The thesis will be completed under the guidance of an individual supervisor.

### Entry Requirements

Minimum requirement for entry:

- a grade point average of 5 over all undergraduate units. Normally students will have a QUT Social Science degree with a majority of units at second- and third-year level.

Alternatively, candidates may be accepted for admission by the Faculty Academic Board, after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

### Course Structure

Coursework provides for both disciplinary specialisation, and an interdisciplinary elective option selected in consultation with your supervisor and the course coordinator. The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

### Note: Part-time Students

Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

### Full-time Course Structure

#### Year 1, Semester 1

HHN410	Logic of Social Inquiry
HHB403	Literature Review
HHB404	Honours Thesis 1

Advanced Elective: An advanced unit selected in consultation with supervisor and approved by the Honours coordinator.

#### Year 1m Semester 2

HHB405	Honours Thesis 2
HHB406	Honours Thesis 3
HHB407	Honours Seminar

### Potential Careers:

Academic, Administrator, Community Worker, Customs Officer, Educator, Government Officer, Higher Education Worker, Information Officer, Manager, Policy Officer, Project Manager, Public Health Officer, Public Servant, Publishing Professional, Social Scientist, Sociologist, Statistician.

## Master of Arts (Research) (HH40)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 046055E

**Course duration (full-time):** 3 semesters (3-year qualified entry); 2 semesters (4-year qualified entry)

**Course duration (part-time):** 6 semesters (3-year qualified entry); 4 semesters (4-year qualified entry)

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time for 3 semester program. Feb or July for 2 semester program

**International Entry:** At any time

**Total credit points:** 144 (3-year qualified entry); 96 (4-year qualified entry)

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Professor Gavin Kendall

**Campus:** Gardens Point and Kelvin Grove

### Overview

The Master of Arts by Research is offered through the Humanities Research Program. Research topics are drawn from the various disciplines represented in the Humanities Program. Study areas available include:

- \* Aged Services
- \* Applied Ethics
- \* Asia-Pacific Studies
- \* Child and Family Services
- \* Disability Services
- \* European Studies
- \* Geography and Environmental Studies
- \* History
- \* Human Services
- \* International and Global Studies
- \* Languages (French, German, Indonesian, Japanese, Mandarin)
- \* Political Studies
- \* Services to Young People
- \* Sociology.

### Entry requirements

Applicants must have a three-year bachelor degree or equivalent to enter the coursework plus research program.

To enter the research only program, applicants must have completed a three-year bachelor degree plus honours. Candidates with other four-year qualifications such as a three-year bachelor degree plus graduate diploma or a four-year double degree may also, after consultation with their supervisor and the course coordinator, enter the 96 credit point course. Such applicants whose previous study has included limited relevant research experience may be advised to enrol in a research methods unit as part of their course. They may also elect to take the 144 credit point program.

### Course Structure

For those with a three-year degree, the Master of Arts (Research) normally comprises 48 credit points of coursework and a 96 credit point research project. For those with a four-year degree it normally comprises a 96 credit point research project. However, with the approval of the postgraduate studies coordinator it is possible to enrol in a 12 credit point coursework plus 84 credit point research project; or a 24 credit point coursework plus 72 credit point research project.

### Research Component

The research component is usually presented as a thesis (30 000-50 000 words).

International Entry: February and July

Total credit points: 288

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Prof Gavin Kendall

Campus: Kelvin Grove

**Overview**

The Doctor of Social Science will play a vital role in ensuring that humanities, social science and human service professionals will be able to continue their professional and personal development. The objective of the programme is advanced, critical and systematic reflection at doctoral level on professional practice in any or across a number of the humanities, social science and human service disciplines

**Entry Requirements**

- . a four year degree or its equivalent with First Class Honours or Honours IIA; or
- . a masters degree in a field relevant to the professional doctorate; AND
- . two years of practice at an advanced level in a position of responsibility in a relevant professional setting.

Entry with Advanced Standing: Candidates with a masters degree will be eligible for credit of up to 96 credit points. Other previous study or uncredentialed learning may also gain credit.

**Course Structure**

The course is divided into coursework and three theses. All three theses have conference presentation/communication of research finding units attached to them. Students will first complete their coursework and their first project, as well as HHR510 before they will be permitted to work on their second project. Similarly students must complete the second project as well as HHR520 before they are permitted to begin work on their third project. The course therefore has a three-part format and students are required to pass three stages in turn to guarantee progression.

## Bachelor of Arts/Bachelor of Behavioural Science (Psychology) (IF12)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 053949G

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$2,739 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** Course no longer available for admission

**QTAC code:** Course no longer available for admission

**Past rank cut-off:** 74

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Iraphne Childs (Arts); Dr Julie Hansen (Psychology)

**Campus:** Kelvin Grove

### Overview

In this double degree, you will complete an Australian Psychology Accreditation Council (APAC) accredited program of study in psychology and a Bachelor of Arts with a multidisciplinary major in international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

### Why choose this course?

The Bachelor of Behavioural Science (Psychology) provides a thorough grounding in the scientific bases of psychology, and deals with research and statistical methods that have wide applicability in psychology and other disciplines. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In your second and third years you are able to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

From the Bachelor of Arts you will also develop an understanding of society and the impacts of global, social, environmental and technological change. The high-level communication and social research skills you will acquire are valuable in a wide range of professions. You will gain analytical, research, report writing, communication and interpersonal skills which can be used across many disciplines.

After successful completion of the degree, you may pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist, or seek postgraduate studies in psychology or other disciplines.

### Career Options

The analytical, research and interpersonal skills acquired through the psychology units have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Some graduates choose careers in related professional and semi-professional areas such as counselling or audiology, which may typically require further specialist study. Other possible career paths include international affairs, government, community development and public policy. You may wish to pursue careers in professional areas of psychology, which will require you to undertake further study and be registered with the State Registration Board.

### Recommended Study

Maths A, B or C is recommended.

### Psychology Electives

Electives include psychology and gender, human sexuality, psychopharmacology of addictive behaviour, substance abuse, forensic psychology and the law, health psychology, social psychology, occupational psychology, counselling, advanced statistical analysis, and road safety and traffic psychology.

### Professional Membership

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology, you must be registered with your State Registration Board. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Development).

### Other Course Requirements

**blue card** As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2009 or may not be offered. Please refer to the Humanities website for up to date details on the status of this course.

**Further Information**

For detailed information about this course, please call the School of Psychology and Counselling on +617 3138 4625 or email [psyc.enquiries@qut.com](mailto:psyc.enquiries@qut.com)

- PYB159 Alcohol & Other Drug Studies
- PYB207 Psychology in the Community
- PYB215 Forensic Psychology and the Law
- PYB257 Group Work
- PYB260 Psychopharmacology of Addictive Behaviour
- PYB371 Introduction to Road Safety

**Psychology electives List B**

- PYB302 Industrial and Organisational Psychology
- PYB307 Health Psychology
- PYB350 Advanced Statistical Analysis
- PYB356 Counselling Theory and Practice 2
- PYB359 Introduction to Family Therapy
- PYB360 Interventions for Addictive Behaviours
- PYB305 null
- PYB372 Traffic Psychology and Behaviour
- PYB374 Applying Traffic Psychology

**Potential Careers:**

Administrator, Aged Services Worker, Child Protection Officer, Community Education Officer, Community Worker, Counsellor, Disability Services Worker, Educator, Family Services Officer, Government Officer, Guidance Officer, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Information Officer, Manager, Policy Officer, Public Servant, Social Scientist, Youth Worker.

## Bachelor of Arts/Bachelor of Business (Accountancy, Banking and Finance, Economics or Marketing) (IF30)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 037539D

**Course duration (full-time):** 4.5 years (9 semesters)

**Domestic fees (indicative):** 2009: CSP \$4,339 (indicative) per semester

**Domestic Entry:** February

**International Entry:** February and July

**QTAC code:** This course is no longer offered - see IX38 B Arts/B Business

**Past rank cut-off:** 72

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education Course, Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 432 (192 cp in Arts and 240 cp in Business)

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Iraphne Childs (Arts); Dr Erica French (Business)

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoos Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)

**Campus:** Gardens Point

### Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX38 Bachelor of Arts/Bachelor of Business. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

### Other Majors

See also the separate entry for the following majors in this course: Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management, or Public Relations).

### Career Outcomes

- Humanities graduates find employment in areas such as government, diplomacy, higher education and public service.

- Graduates of the Bachelor of Business (Accountancy) can expect to find employment in public practice, industry and

commerce or government. In public practice the main areas of specialisation are auditing, financial analysis, corporate secretarial functions, costing, taxation, receivership, bankruptcy, trusteeship or management services. In industry and commerce, accountancy graduates are employed in management positions.

- Graduates of the Banking and Finance major find employment in the banking area of finance which can involve retail, wholesale or international projects, the funding of operations and investment of funds in loans or liquidity.

- Graduates with Economics training are highly sought after. They are employed as economists and in a wide variety of related professional areas.

- Graduates of the Marketing major find employment in industry and government in roles including marketing and research, sales management and product development and management. They are also employed as marketing managers and consultants in the national and international business environments.

### Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

\*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.

\*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).

\*Banking and Finance: Australasian Institute of Banking and Finance (AIBF).

\*Economics: Economic Society of Australia (Queensland Division).

\*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association.

### Course Design

Students are required to complete 432 credit points comprised of 192 credit points from the Bachelor of Arts program and 240 credit points from the Bachelor of Business program.

### BA Course Requirements - Commencing Students

BA Course Requirements (Years 1-4)

Students are required to complete:

\* One Multidisciplinary Professional Major (1 core unit + 6 units in the major)

It is suggested that they complete the Core Units Program consisting of the following:

\* Two core units in first semester (from a selection of core introductory and core skills units)

(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major.

\* Year 2: research methods unit. Students are advised to take at least two of these units.

**BA Course Requirements - Commencing Students (cont.)**

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may wish to:

- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- take a series of elective units.

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

**Multidisciplinary Professional Majors**

For details, refer to the Bachelor of Arts Degree (HH01).

**Discipline Majors**

For details, refer to the Bachelor of Arts Degree (HH01).

**Minor Sequences**

For details, refer to the Co-Majors entry in the Bachelor of Arts (HH01) entry as any of these are available to be taken as Minors.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at [www.deferment.qut.edu.au](http://www.deferment.qut.edu.au).

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

**Key Terms - BA**

\*Multidisciplinary Professional Major - one of five interdisciplinary study sequences in the BA degree (International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points).

Students must complete at least one of these to fulfil the requirements of the degree. NB - a unit may not be counted in more than one multidisciplinary professional major, discipline major or minor.

\* Discipline Major - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.

\*Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area. NB - a unit may not be counted in more than one minor.

\* Elective Units - units selected by students to fit into their study program.

## Bachelor of Arts/Bachelor of Laws (IF43)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 027276E

**Course duration (full-time):** 5 Years

**Domestic fees (indicative):** 2009: CSP \$3,470 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** Course no longer available for admission

**International Entry:** Course no longer available for admission

**QTAC code:** Course no longer available for admission

**Past rank cut-off:** 90

**Past OP cut-off:** 6

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528 (192 cr pts BA and 336 cr pts BLaws)

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Irphne Childs (Arts) Dr. William Dixon Director, Undergraduate Programs (Law)

**Campus:** Gardens Point and Kelvin Grove

### OP Guarantee

The OP Guarantee does not apply to this program.

### Career Outcomes

This course aims to provide graduates with the ability to enter legal practice with an education in both the content of and skills related to the humanities that will enable them to deal with the complexities of litigation in areas such as commercial law, constitutional law, international law and in public policy.

### Professional Recognition

The Bachelor of Laws degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

### Course Structure BA component - Continuing Students

#### BA REQUIREMENTS

Students should follow the course progression advice in the Course Summary Sheet

### Course Structure BA component - Commencing Students

BA Course Requirements - Commencing Students

Students are required to complete:

\* One Multidisciplinary Major (1 core unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:

\*Two core units in first semester (from a selection of core

introductory and core skills units)

(Note: one of the core introductory units will sit within the chosen Multidisciplinary Major)

\*Year Two: research methods unit. Students are advised to take at least two of these units.

Students may also wish to include:

- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)

- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points)

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

### Multidisciplinary Majors - Commencing Students

Students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

### Discipline Sequences

Discipline Majors in the Arts degree can be chosen from the following: History; Geography and Environmental Studies; Languages (French, Indonesian, Japanese, German, Mandarin); Sociology

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

### Course structure - Example of Full-time Course

# LAW

## Structure

### Year 1, Semester 1

The Law School is currently reviewing the law components of this course to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval.

Introductory Core unit (Major)

1st Year Core Skills unit (HHB116)

Introductory Core unit (2nd Major or Minor)

Elective Unit (General)

### Year 1, Semester 2

Elective Unit (Major)

Elective Unit (Major)

Law Elective  
Law Elective  
Law Elective

### Potential Careers:

Barrister, Government Officer, In-House Lawyer, Policy Officer, Public Servant, Solicitor.

## Doctor of Philosophy (IF49)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 3 yrs full time

**Course duration (part-time):** 6 yrs part time

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time

**International Entry:** At any time

**Course coordinator:** Associate Professor Gavin Kendall

**Campus:** Gardens Point and Kelvin Grove

### Entry requirements

Applicants must have:

. a relevant first- or second-class Division A (upper division) honours degree; or

. an appropriate research masters degree or a coursework masters with a significant research component.

### Overview

Doctoral studies are through the Humanities Research Program and focus on issues of real-world significance. These issues can have broad social ramifications or be important problems that are central to the professions with which the Humanities Research Program are aligned.

### Course Structure

Doctoral studies may be completed in any area of research interest supported by the Humanities Research Program. Humanities Research Program Director and other staff are happy to discuss these or any related areas with applicants. Candidates may study full- or part-time. If candidates are full-time and hold an appropriate masters degree, they can submit their thesis or other examinable work after 24 months (36 months for a part-time student). If candidates do not hold a masters degree the period is 30 months for a full-time candidate or 42 months for a part-time candidate.

The research may be completed either by thesis or by publication.

## Bachelor of Arts/Bachelor of Education (Primary) (IF82)

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester

**Domestic Entry:** February

**QTAC code:** 409342

**Past rank cut-off:** 83

**Past OP cut-off:** 9

**OP Guarantee:** Yes

**Assumed knowledge:** English (4 SA)

**Preparatory studies:** English: QUT Continuing Professional Education course English Bridging. For further information contact 07 3138 2000 or email [sbs.enquiries@qut.edu.au](mailto:sbs.enquiries@qut.edu.au)

**Total credit points:** 384

**Course coordinator:** Dr Iraphne Childs (Arts); Dr Mary Ryan (Education)

**Campus:** Gardens Point and Kelvin Grove

### Course Structure - Continuing Students

BA Course Requirements (Years 1 and 2) (Continuing Students)

Students should have completed the following components of the degree:

The first year requirements (8 units) which include:

HHB116 Applied Skills and Scholarship

Two Foundation Units (for students who did not complete two Faculty Foundation Units in Year 1)

Two to three Course Foundation Units

Two to three Elective Units

NB a minimum of four of these eight units must be chosen from units offered from the BA component of your course.

In second year, a further 8 units to complete:

One Major Study Sequence chosen from the BA component of your course

AND

One Minor Study Sequence from those offered in the BA component of your course or from other Minor Study Sequences offered elsewhere within QUT.

Students must ensure that a minimum of 12 of the 16 units be chosen from units in the BA.

### Course Structure - Commencing Students

BA Course Requirements (Years 1 and 2)(Commencing Students)

Students are REQUIRED to complete:

\* One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)

It is SUGGESTED that they complete the Core Units Program consisting of the following:

\*Four core units in first semester (from a selection of core introductory units and core skills units)

(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)

\* Two core units in second year (2 research methods units)

NB One of core introductory units will sit within the chosen Interdisciplinary Major.

### Course Structure - Commencing Students (cont.)

Students must maintain a 50% enrolment in units from the BA program until they have completed 8 of those units (96 credit points).

Students may wish to

- develop a Minor (48 credit points) in one of the interdisciplinary professional areas

- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course

- develop a Minor (48 credit points) in major Foundation units for Primary Teachings

- take a series of elective units

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full language sequence (6 units) will need to discuss their program with the relevant Course Coordinator to ensure that their language studies begin in semester one and continue into their third year.

NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

### Key Terms in the BA - Commencing Students

\* Professional Major - one of five interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.

NB - a unit may not be counted in more than one professional major, discipline sequence, or Minor.

\* Discipline Sequence - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.

\* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area.

### Interdisciplinary Professional Majors - Commencing Students

For details, refer to the Bachelor of Arts (HH01) single degree.

### Discipline Sequences - Commencing Students

For details, refer to the Bachelor of Arts (HH01) single degree.

### Minor Sequences - Commencing Students

For details, refer to the Co-Majors section of the Bachelor of Arts (HH01) single degree.

**NOTE**

Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office

on 3864 3947. CLB334 is offered internally in semester 2.

**Potential Careers:**

Administrator, Community Worker, Corporate Secretary, Diplomat, Educator, Government Officer, Information Officer, Manager, Network Administrator, Network Manager, Primary School Teacher, Project Developer, Project Manager, Public Relations Officer/Consultant, Public Servant.

## Bachelor of Arts/Bachelor of Applied Science (IF86)

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester

**Past rank cut-off:** 72; Dfee: 68

**Past OP cut-off:** 13; Dfee: 15

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or **Total credit points:** 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Iraphne Childs (Humanities); Dr Perry Hartfield (Science)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point and Kelvin Grove

### Career Opportunities

As a graduate of this course you will receive both a Bachelor of Arts degree and a Bachelor of Applied Science degree. This combination of degrees provides a valuable foundation for a wide range of careers in areas such as government, diplomacy, higher education and public service. Opportunities in tourism, translation, and the hospitality industry are open to those with a Language major. Complementary majors chosen from Arts and Science provide an excellent background for careers in environmental management.

### Course Design

A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

### Professional Recognition

Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

Two Science Major units (SC01 Level 3)

### Course structure - Major in Biochemistry

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB122 Cell and Molecular Biology  
SCB123 Physical Science Applications

#### Year 3, Semester 1

LQB381 Biochemistry: Structure and Function  
LQB383 Molecular and Cellular Regulation

#### Year 3, Semester 2

LQB481 Biochemical Pathways and Metabolism  
LQB483 Molecular Biology Techniques

#### Year 4, Semester 1

LQB581 Functional Biochemistry  
LQB582 Biomedical Research Technologies

#### Year 4, Semester 2

LQB681 Biochemical Research Skills  
LQB682 Protein Biochemistry and Bioengineering

### Course structure - Major in Biotechnology

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB122 Cell and Molecular Biology  
SCB123 Physical Science Applications

#### Year 3, Semester 1

LQB381 Biochemistry: Structure and Function  
LQB383 Molecular and Cellular Regulation

## Year 3, Semester 2

LQB483 Molecular Biology Techniques  
LQB484 Introduction to Genomics and Bioinformatics

## Year 4, Semester 1

TWO units selected from:

LQB583 Genetic Research Technology  
LQB584 Medical Cell Biology  
LQB585 Plant Genetic Manipulation

## Year 4, Semester 2

TWO units selected from:

LQB682 Protein Biochemistry and Bioengineering  
LQB684 Medical Biotechnology  
LQB685 Plant Microbe Interactions

**Course structure - Major in Chemistry**

## Year 1, Semester 1

SCB111 Chemistry 1  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

## Year 1, Semester 2

SCB112 Cellular Basis of Life  
SCB121 Chemistry 2

## Year 2, Semester 1

MAB100 Mathematical Sciences 1A  
SCB110 Science Concepts and Global Systems

## Year 2, Semester 2

SCB123 Physical Science Applications  
SCB131 Experimental Chemistry

## Year 3, Semester 1

PQB312 Analytical Chemistry For Scientists and Technologists  
PQB331 Structure and Bonding

## Year 3, Semester 2

PQB401 Reaction Kinetics, Thermodynamics and Mechanisms  
PQB442 Chemical Spectroscopy

## Year 4, Semester 1

PQB502 Materials Chemistry and Characterisation  
PQB531 Organic Mechanisms and Synthesis

## Year 4, Semester 2

PQB631 Advanced Inorganic Chemistry  
PQB642 Chemical Research

**Course structure - Major in Ecology**

## Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

## Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB122 Cell and Molecular Biology

## Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

## Year 2, Semester 2

NQB201 Planet Earth  
NQB202 History of Life on Earth

## Year 3, Semester 1

NQB302 Earth Surface Systems  
NQB321 Ecology

## Year 3, Semester 2

NQB421 Experimental Design  
NQB422 Genetics and Evolution

## Year 4, Semester 1

NQB521 Population Genetics and Molecular Ecology  
NQB523 Population Management

## Year 4, Semester 2

NQB622 Conservation Biology  
NQB623 Ecological Systems

**Course structure - Major in Environmental Science**

## Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

## Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

## Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

#### Year 2, Semester 2

NQB202 History of Life on Earth

SCB123 Physical Science Applications

#### Year 3, Semester 1

NQB302 Earth Surface Systems

NQB321 Ecology

#### Year 3, Semester 2

NQB403 Soils and the Environment

NQB421 Experimental Design

#### Year 4, Semester 1

NQB501 Environmental Modelling

NQB502 Field Mapping and Monitoring of Natural Resources

#### Year 4, Semester 2

NQB601 Sustainable Environmental Management

NQB602 Environmental Chemistry

### Course structure - Major in Forensic Science

#### Year 1, Semester 1

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB121 Chemistry 2

SCB122 Cell and Molecular Biology

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB123 Physical Science Applications

SCB131 Experimental Chemistry

#### Year 3, Semester 1

LQB383 Molecular and Cellular Regulation

SCB384 Forensic Sciences - From Crime Scene to Court

#### Year 3, Semester 2

JSB979 Forensic Scientific Evidence

PQB312 Analytical Chemistry For Scientists and

Technologists

#### Year 4, Semester 1

PQB513 Instrumental Analysis

PQB584 Forensic Physical Evidence

#### Year 4, Semester 2

LQB680 Forensic DNA Profiling

PQB684 Forensic Analysis

### Course structure - Major in Geoscience

#### Year 1, Semester 1

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

#### Year 1, Semester 2

NQB201 Planet Earth

SCB123 Physical Science Applications

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

#### Year 2, Semester 2

NQB202 History of Life on Earth

SCB222 Exploration of the Universe

#### Year 3, Semester 1

NQB311 Mineralogy

NQB314 Sedimentary Geology

#### Year 3, Semester 2

NQB411 Petrology of Igneous and Metamorphic Rocks

NQB412 Structural Geology and Field Methods

#### Year 4, Semester 1

NQB502 Field Mapping and Monitoring of Natural Resources

NQB513 Geophysics

#### Year 4, Semester 2

NQB602 Environmental Chemistry

NQB614 Groundwater Systems

### Course structure - Major in Mathematics (WITH Mathematics C from Senior)

#### Year 1, Semester 1

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

**Year 1, Semester 2**

MAB112 Mathematical Sciences 1C  
 MAB210 Statistical Modelling 1

**Year 2, Semester 1**

MAB220 Computational Mathematics 1  
 One Science unit - selected from:  
 SCB110 Science Concepts and Global Systems  
 SCB112 Cellular Basis of Life

**Year 2, Semester 2**

Science elective unit  
 One Science unit - selected from:  
 SCB110 Science Concepts and Global Systems  
 SCB112 Cellular Basis of Life

**Year 3, Semester 1**

Two Level 2 Mathematics units\* - available units are:  
 MAB311 Advanced Calculus  
 MAB312 Linear Algebra  
 MAB313 Mathematics of Finance  
 MAB314 Statistical Modelling 2  
 \* Students must complete at least one of MAB311, MAB312, MAB413

**Year 3, Semester 2**

Two Level 2 Mathematics units\* - available units are:  
 MAB315 Operations Research 2  
 MAB413 Differential Equations  
 MAB414 Applied Statistics 2  
 MAB420 Computational Mathematics 2  
 MAB422 Mathematical Modelling  
 MAB480 Introduction to Scientific Computation  
 \* Students must complete at least one of MAB311, MAB312, MAB413

**Year 4, Semester 1**

Two Level 3 Mathematics units - available units are:  
 MAB521 Applied Mathematics 3  
 MAB522 Computational Mathematics 3  
 MAB523 Introduction to Quality Management  
 MAB525 Operations Research 3A  
 MAB526 Statistical Science 3  
 MAB672 Advanced Mathematical Modelling

**Year 4, Semester 2**

Two Level 3 Mathematics units - available units are  
 MAB524 Statistical Inference

MAB613 Partial Differential Equations  
 MAB621 Discrete Mathematics  
 MAB623 Financial Mathematics  
 MAB624 Applied Statistics 3  
 MAB625 Operations Research 3B

**Course structure - Major in Mathematics (WITHOUT Mathematics C from Senior)**

**Year 1, Semester 1**

MAB100 Mathematical Sciences 1A  
 MAB101 Statistical Data Analysis 1

**Year 1, Semester 2**

MAB111 Mathematical Sciences 1B  
 MAB112 Mathematical Sciences 1C

**Year 2, Semester 1**

MAB220 Computational Mathematics 1  
 One Science unit - selected from:  
 SCB110 Science Concepts and Global Systems  
 SCB112 Cellular Basis of Life

**Year 2, Semester 2**

MAB210 Statistical Modelling 1  
 One Science unit - selected from:  
 SCB110 Science Concepts and Global Systems  
 SCB112 Cellular Basis of Life

**Year 3, Semester 1**

Two Level 2 Mathematics units\* - available units are:  
 MAB311 Advanced Calculus  
 MAB312 Linear Algebra  
 MAB313 Mathematics of Finance  
 MAB314 Statistical Modelling 2  
 \* Students must complete at least one of MAB311, MAB312, MAB413

**Year 3, Semester 2**

Two Level 2 Mathematics units\* - available units are:  
 MAB315 Operations Research 2  
 MAB413 Differential Equations  
 MAB414 Applied Statistics 2  
 MAB420 Computational Mathematics 2  
 MAB422 Mathematical Modelling  
 MAB480 Introduction to Scientific Computation  
 \* Students must complete at least one of MAB311, MAB312, MAB413

**Year 4, Semester 1**

Two Level 3 Mathematics units - available units

are:

MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

## Year 4, Semester 2

Two Level 3 Mathematics units - available units are:

MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

**Course structure - Major in Microbiology**

## Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

## Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2

## Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

## Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

## Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB386	Microbial Structure and Function

## Year 3, Semester 2

LQB483	Molecular Biology Techniques
LQB486	Clinical Microbiology 1

## Year 4, Semester 1

LQB586	Clinical Microbiology 2
LQB587	Applied Microbiology 1: Water, Air and Soil

## Year 4, Semester 2

LQB686	Microbial Technology and Immunology
--------	-------------------------------------

LQB687	Applied Microbiology 2: Food and Quality Assurance
--------	--

**Course structure - Major in Physics**

## Year 1, Semester 1

MAB111	Mathematical Sciences 1B
SCB111	Chemistry 1

## Year 1, Semester 2

MAB112	Mathematical Sciences 1C
PQB250	Mechanics and Electromagnetism

## Year 2, Semester 1

SCB110	Science Concepts and Global Systems
SCB112	Cellular Basis of Life

## Year 2, Semester 2

MAB220	Computational Mathematics 1
PQB251	Waves and Optics

## Year 3, Semester 1

MAB311	Advanced Calculus
PQB350	Thermodynamics of Solids and Gases

## Year 3, Semester 2

PQB450	Energy, Fields and Radiation
PQB451	Electronics and Instrumentation

## Year 4, Semester 1

PQB550	Quantum and Condensed Matter Physics
PQB551	Physical Analytical Techniques

## Year 4, Semester 2

PQB650	Advanced Theoretical Physics
PQB651	Experimental Physics

**Potential Careers:**

Academic, Actuary, Administrator, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Corporate Secretary, Database Manager, Ecologist, Environmental Health Officer, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Higher Education Worker, Hydrogeologist, Immunologist, Industrial Chemist, Information Officer, Laboratory Technician (Chemistry), Manager, Mapping Scientist/Photogrammetrist, Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Policy Officer, Population Ecologist, Programmer, Project Developer, Project Manager, Public Servant, Quantitative Analyst, Statistician, Virologist.

## Bachelor of Arts/Bachelor of Education (Secondary) (IX01)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 020316C

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$2,594 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 409102

**Past rank cut-off:** 74

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 432 (240 cr pts in the BA and 192 cr pts in the BEd)

**Course coordinator:** Humanities Coordinator: Dr Iraphne Childs; Education Coordinator: Dr Mal Shield

**Campus:** Gardens Point and Kelvin Grove

### NO FURTHER INTAKE INTO THIS COURSE

This course has been replaced by a newly coded IX21 Bachelor of Arts/Bachelor of Education (Secondary) with effect from 2008.

### Career Outcomes

During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

### Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

### Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to

participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

### Further Information

Faculty of Education Office

Phone: +61 7 3138 3947

Fax: +61 7 3138 3949

Email: [educationenq@qut.edu.au](mailto:educationenq@qut.edu.au)

Humanities Program

Email: [hhs\\_enq@qut.edu.au](mailto:hhs_enq@qut.edu.au)

Phone: +61 7 3138 4563

Fax: +61 7 3138 4719

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Computing Requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities Program website.

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384 (192 in the BA; 192 in the B Ed)

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Iraphne Childs (Arts); Education Student Affairs Section 3138 3947, or [educationenq@qut.edu.au](mailto:educationenq@qut.edu.au)

**Discipline coordinator:** Education Course Coordinator Dr Susan Walker

**Campus:** Kelvin Grove

### NOTE: NO FURTHER INTAKE

From 2009 there is no further intake into this course.

### Career Outcomes

The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

### Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also approved by the Department of Communities for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

### Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue

Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

Field studies units will be taken in Queensland schools.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Computing Requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

Elective Unit (2nd Major or Minor)  
Elective Unit (General)

### CORE PROGRAM - Commencing Students

The core program for the degree consists of the following selection of units:

#### First Year Core: Core Units for Professional Majors

##### INTERNATIONAL AND GLOBAL STUDIES

- HHB110 Introduction To International And Global Studies  
HHB111 Issues In International And Global Studies  
SOCIETY AND CHANGE  
HHB105 Exploring Change  
HHB104 Understanding Society: Intro To Sociology  
ETHICS AND HUMAN RIGHTS  
HHB114 Introduction To Human Rights And Ethics  
HHB115 Human Identity And Change  
COMMUNITY STUDIES  
HHB103 Contemporary Social And Community Issues  
HHB102 The Human Condition  
AUSTRALIAN STUDIES  
HHB106 Australian Society And Culture  
HHB112 Australian Politics

#### First Year Core: Skills Units

- HHB116 Applied Skills And Scholarship  
HHB117 Introduction To Social Research Methods

#### Second Year Core: Research Methods Units

- HHB224 Qualitative Research Methods

**Standard credit points per full-time semester:** 48

**Course coordinator:** Education Student Affairs Section 3138 3947, or [educationenq@qut.edu.au](mailto:educationenq@qut.edu.au); Humanities- Dr Iraphne Childs

**Discipline coordinator:** Education Course Coordinator Dr Mary Ryan

**Campus:** Kelvin Grove

### NOTE: NO FURTHER INTAKE

From 2009 there is no further intake into this course.

### Career Outcomes

The Arts component provides an excellent general education for future primary school specialists. The Bachelor of Education (Primary) prepares students to teach at all levels of primary school. They may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum. Students may pursue language studies in this course.

### Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers.

### Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon

enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

Field studies units will be taken in Queensland schools.

### Further Information

Faculty of Education Office

Phone: +61 7 3138 3947

Fax: +61 7 3138 3949

Email: [educationenq@qut.edu.au](mailto:educationenq@qut.edu.au)

Humanities Program

Email: [hhs\\_enq@qut.edu.au](mailto:hhs_enq@qut.edu.au)

Phone: +61 7 3138 4563

Fax: +61 7 3138 4719

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Computing Requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

Officer/Consultant, Public Servant, Research Assistant,  
Sociologist, Teacher, Youth Worker.

## Bachelor of Arts/Bachelor of Education (Secondary) (IX21)

Year offered: 2009

Admissions: No

CRICOS code: 020316C

Course duration (full-time): 4 years

Domestic fees (indicative): 2009: CSP \$2,594 (indicative) per semester

International Fees (per semester): 2009: \$10,500 (indicative) per semester (*subject to annual review*)

Domestic Entry: Course no longer available for admission

QTAC code: Course no longer available for admission

OP Guarantee: Yes

Assumed knowledge: English (4, SA)

Course coordinator: Arts: Dr Iraphne Childs; Education: Dr Mal Shield

Campus: Kelvin Grove

### Course Overview

The course consists of 16 arts units and 16 education units of which the arts component is completed first. Students are required to choose two teaching areas from English, Geography, History, Languages other than English, Social Science and General Science. A third teaching area of Film and Media Studies is permitted. The course prepares graduates to teach both areas across years 8 to 12.

### Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

### Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses

using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

**Campus:** Gardens Point and Kelvin Grove

### Career Outcomes

Graduates of the Bachelor of Arts may find employment in policy development and analysis, social policy, research and project positions, international aid and trade, environment and heritage. Graduates of the Bachelor of Business may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

### Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

\*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.

\*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).

\*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct

Marketing Association and the Queensland Commercial Radio Association;

\*Finance: Financial Services Institute of Australasia (FINSIA).

\*Economics: Economic Society of Australia (Queensland Division).

\*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;

\*International Business - Australian Institute of Export;

\*Management - Australian Institute of Management;

\*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association.

\*Public Relations - Public Relations Institute of Australia.

### BA Course Requirements - Commencing Students

Students are required to completed at least one of the five multidisciplinary majors (1 core introductory unit plus 6 units in the major). You will choose from International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies and Australian Studies.

As well as the multidisciplinary major, students may also wish to undertake a Discipline Major in one of the following: History, Geography and Environmental Studies, Languages (French, Indonesian, German, Japanese, or Mandarin), Sociology or Political Studies.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may also wish to include:

- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

### Discontinuation

This course has been discontinued.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC

offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

## Bachelor of Arts/Bachelor of Justice (IX41)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 058283E

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,470 (indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** Course no longer available for admission

**International Entry:** Course no longer available for admission

**QTAC code:** Course no longer available for admission

**Past rank cut-off:** 74

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Course coordinator:** Dr Iraphne Childs (Arts), Assoc Prof Geoff Dean (Justice)

**Campus:** Gardens Point and Kelvin Grove

### Course Description

The course consists of 16 arts units and 16 justice units. The program is integrated so that you will study both arts and justice units in each semester. You will choose at least one multidisciplinary arts major from international and global studies, society and change, ethics and human rights, community studies, or Australian studies. In the justice component you will have the opportunity to study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

### Potential Careers:

Administrator, Community Education Officer, Community Worker, Contract Administrator, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public

## Bachelor of Arts/Bachelor of Information Technology (IX49)

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester

**QTAC code:** This course is no longer offered

**Past rank cut-off:** 73; Dfee: 68

**Past OP cut-off:** 13; Dfee: 15

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Course coordinator:** Dr Iraphne Childs (Arts) Richard Thomas (IT)

**Campus:** Gardens Point and Kelvin Grove

### Course description

In this course students complete the requirements of two separate degrees in Arts and Information Technology in four years. The focus of the arts component is social change with an emphasis on understanding societies and the impact of global, social, environmental and technological change on communities and individuals. In the IT component, there is a strong practical component with computing laboratory based units and project work comprising a significant part of the course,

### Majors in the Arts component

In the Bachelor of Arts, students choose an multidisciplinary major from one of the following: international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

### Majors in the IT component

In the Bachelor of Information Technology, students can choose to major in business systems engineering, data bases, electronic business, games technology, information and knowledge management, information systems, IT management, intelligent systems, interactive media, network systems, security, software architecture, or web services and applications.

### Career outcomes

Information technology professionals with a strong knowledge in languages, as well as deep understanding in areas such as international issues—particularly cultures, ethics and human rights—are highly valued by the information technology industry. The Arts component also provides students with a broad-based education and a range of transferable analytical, research and communication skills which will enrich studies in information technology and expand career choices.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### Further Information

For further information regarding the IT component of this course please contact the course coordinator Mr Richard Thomas at [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or call 3138 2782

## OVERVIEW

The QUT Faculty of Law is one of Australia's leading providers of tertiary education in Law and Justice. The Faculty is unique in housing a School of Law, School of Justice and Legal Practice Unit, all co-located on the University's inner city Gardens Point campus. The Faculty is further distinguished by its focus on education 'for the real world'. Faculty programs provide a sound balance of practical and theoretical training, facilitating the smooth transition of graduates into their chosen careers. The Faculty's real world approach is enhanced by its close liaison and collaboration with the legal and justice professions.

The Faculty consists of the School of Law, the School of Justice, the Legal Practice Unit and the Law and Justice Research Centre, with each of these areas supported by state-of-the-art facilities, including an electronic moot court, a dedicated Law Library and 24-hour student computer labs. The Faculty is a leader in online teaching, with dedicated sites providing electronic access to a variety of course materials and a broad array of Internet resources. Other tools employed by our lecturers include podcasting, Second Life and Skype. The Faculty offers undergraduate study through the Bachelor of Laws (LLB) and the Bachelor of Justice (BJus) courses. These courses can be undertaken as a single degree or as a double degree in combination with another bachelor-level course. Available double degree programs include the Bachelor of Laws in conjunction with the Bachelor of Justice or with degrees offered by other QUT faculties, including in Applied Science, Business, Creative Industries, Journalism, Information Technology and Behavioural Science (Psychology).

An accelerated Bachelor of Laws (Graduate Entry) program is also available for students who already hold a bachelor degree in another discipline. The Faculty also offers a comprehensive suite of postgraduate study options in the Law and Justice disciplines, including graduate certificate and graduate diploma courses, master degrees by coursework or research, and doctoral programs.

The School of Law prepares students for careers in law firms, government, public administration, business and other industries. In terms of undergraduate enrolments, it is the largest in Australia, enabling the QUT LLB to offer one of the most extensive sets of elective units available. The LLB electives are grouped into streams reflecting the wide variety of careers open to law graduates (graduate destination streams), and allowing students to pursue in-depth study in areas of research strength (research streams). In 2009, the LLB elective streams are as follows:

### Graduate Destination elective streams

- general legal practice;
- specialist legal practice;
- advocacy and dispute resolution;
- public sector; and
- private enterprise.

### Research elective streams

- property, commercial and environment;
- information and technology law;
- criminal law and criminology; and
- health law.

The School of Justice was established in response to a recommendation of the Fitzgerald Inquiry into corruption in Queensland. Graduates of the QUT Bachelor of Justice

have excellent qualifications for employment in fields such as policing, justice, defence, security and social justice.

Through the Legal Practice Unit, the Faculty offers the Legal Practice Course (the Graduate Diploma in Legal Practice) to law graduates who wish to satisfy the practical training requirements to be admitted as legal practitioners. The course is offered twice a year in full-time mode, and three times a year in part-time (in-practice) and part-time (general) modes. The part-time in-practice mode is specially designed for persons who are already working in private or government law offices. The part-time courses are delivered online for the convenience of persons who are working full-time or who otherwise do not wish to study on campus. The full-time course is delivered on-campus in purpose-built premises that provide every full-time student with a work station and networked PC while they are working on campus. The QUT Graduate Diploma in Legal Practice is Queensland's longest established practical legal training course and has successfully prepared over 1000 law graduates for admission as legal practitioners. The course has built a reputation for quality and for providing graduates with the set of skills they need to commence legal practice. In addition to quality teaching programs, research is a key priority for the Faculty. The focal point of Faculty research activity is the Law and Justice Research Centre (LJRC). Since its establishment in 2005, the LJRC has seen legal research at QUT rise to national and international significance in dedicated areas of strength. These areas of strength are reflected in the research programs of the LJRC, most of which have a strong multi-disciplinary focus.

### Current programs are:

- Property and Environment
- E-Business and E-Government
- Intellectual Property, Knowledge, Culture and Economy
- Health Law
- Human Rights and Governance
- Consumer, Credit and Commercial Law
- Criminal Justice
- Scholarship of Higher Education Learning in Law and Justice.

One of the Centre's primary goals is to participate actively in knowledge transfer, particularly to the professions, the community, government and industry. Another key goal is to support the Faculty's capacity to conduct priority-driven research designed to answer questions of immediate and future concern to the professions. The fields of research expertise covered by our researchers embrace some of the more complex issues faced by Australian and global communities, and recognise Law's unique ability to contribute and 'value add' to a vast range of disciplines. The Faculty's postgraduate research students generally are attached to the LJRC through one of its programs and all research training is coordinated by the Centre. The Faculty has academic staff qualified to supervise research in a broad range of fields and there are currently around 70 research students enrolled.

The QUT Faculty of Law, with its real world approach and its focus on the right balance of skills and theory, consistently achieves high graduate employment rates, further supporting its position as one of Australia's leading law faculties.

## SENIOR STAFF

### Faculty Office

*Executive Dean:* Professor the Honourable M. Lavarch, LLB QIT

*Administration Manager:* W.A. Smith, BA(Hons) Syd, GradDipCourt & Parliamentary Reporting Canb

*Assistant Dean, Teaching and Learning:* M. Shirley, BA LLB(Hons) Qld, GradDipLegalPrac LLM Bond

*Assistant Dean, Research:* Professor W.D. Duncan, LLB Qld, LLM Lond, Solicitor

*Assistant Dean, International, Commercialisation and Community Engagement :* Vacant

### School of Law

*Head:* Professor R. Mason, BA LLB(Hons) Qld, LLM Syd, PhD Qld

#### Professors:

D.A. Butler, LLB (Hons) PhD QUT

S.A. Christensen, LLB (Hons) LLM QUT, Solicitor (Qld), Gadens Professor in Property Law

M. Cope, BA (Hons), LLM Qld, Barrister of Law

S.G. Corones, BCom LLB Qld, LLM Lond, PhD Qld

W.D. Duncan, LLB Qld, LLM Lond, Solicitor

D.E. Fisher, LLB MA PhD Edin

B. Fitzgerald, BA PhD Griff, LLB(Hons) QUT, BCL Oxon, LLM Harv

S.Kift, LLB (Hons) Qld, LLM QUT

W.B. Lane, LLB Syd, LLM Melb, Clayton Utz Professor of Public Law

L. Willmott, BCom LLB (Hons) UQ, LLM Camb

#### Associate Professors:

C. Anderson, BCom(Hons) DipEd LLB(Hons) PhD Qld, LLM QUT

S.Jackson, LLB(Hons) LLM Qld

M. Shirley, BA LLB(Hons) Qld, GradDipLegalPrac LLM Bond

### Legal Practice

*Director:* A.J. Chay, LLB LLM Qld, PhD Griff.

### School of Justice

*Acting Head of School:* B. Carpenter, BHMS(Hons) Qld, PhD Griff.

#### Associate Professors:

B. Carpenter, BHMS(Hons) Qld, PhD Griff

B. Hocking, BA LLB Monash, Dip Grad Leg Studs Sthlm, LLM Lond, PhD Qld

## RESEARCH CENTRE

### Law and Justice Research Centre

The Law and Justice Research Centre is the focal point and support structure for the research endeavours of the Faculty of Law, consistent with the Faculty's objectives and commitment to economic, cultural and social improvement through:

- Multidisciplinary collaborative approaches;
- Nationalisation and internationalisation; and
- High impact and professionally-valued research.

One of the Centre's primary goals is to participate actively in knowledge transfer, particularly to the professions, the community, government and industry. Another key goal is to support the Faculty's capacity to conduct priority-driven

research designed to answer questions of immediate and future concern to the professions.

The fields of research expertise covered by our researchers embrace some of the more complex issues faced by Australian and global communities, and the areas of research strength within the Faculty are nationally and internationally competitive.

We have a solid and rapidly growing research foundation and have identified specialist groups reflected in **research programs**, which are domains of established research activity and strength, with strong strategic direction and potential for future growth. The programs have developed due to the existing track record and activity of their members and because of the potential of the fields for national and international significance. The range of programs recognises Law's unique ability to contribute and 'value add' to a vast range of disciplines. The programs are:

- Property and Environment
- E-Business and E-Government
- Intellectual Property, Knowledge, Culture and Economy
- Health Law
- Human Rights and Governance
- Consumer, Credit and Commercial Law
- Criminal Justice
- Scholarship of Higher Education Learning in Law and Justice.

The Law and Justice Research Centre allows the Faculty to respond to current challenges in research and research training by providing structures that offer greater collaboration and support for high quality research and encourage linking of research interest groups within an expanded Faculty research profile, and supports enhancement and sustainability of research productivity.

*Centre Director:* Professor Bill Duncan, LLB Qld, LLM Lond, Solicitor.

**Campus:** Gardens Point and Kelvin Grove

## Overview

This five-year double degree in journalism and law is in high demand. It combines the practical skills and understanding of the journalism industry with the skills to work as a legal practitioner.

## Career Outcomes

outcomes Graduates may find work in private practice as a barrister or legal practitioner, practise in law-related government departments or within large companies as in-house lawyers. Journalism opportunities are the same as those for graduates of the Bachelor of Journalism. See page 30 for more information.

## Course Structure

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points of Journalism-related units and 24 credit points of elective units.

The Law component is made up of 336 credit points of law subjects.

## Professional Recognition

The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Legal Practitioners' and Barristers' Admission Rules. QUT's journalism degree is recognised by the Australian Journalists' Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

## OP Guarantee

The OP Guarantee does not apply to this program.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

## Course structure

### Year 1, Semester 1

The Law School is currently reviewing the law components of this course to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval.

KJB101	Digital Journalism
KJB120	Newsriting
KKB101	Creative Industries: People and Practices Introduction to Legal Research
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice

### Year 1, Semester 2

KJB121	Journalistic Inquiry
KKB102	Creative Industries: Making Connections
LWB143	Legal Research and Writing
LWB144	Laws and Global Perspectives Creative Industries Elective

### Year 2, Semester 1

	Creative Industries Elective
	Law Elective Units

## Creative Industries Faculty Undergraduate Open Electives

### Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

Rules for selecting electives:

\* you must obey any elective rules as set out in your course requirements

\* you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen sub-major area.

\* you must have successfully completed any pre/co-requisite units applicable

\* the offering of elective units is subject to sufficient student enrolment numbers and staff availability

\* some units are subject to quota restrictions

\* KK33, KK34, KJ32, KM32, IX07 and IX16 students ONLY are permitted to select electives from outside the Faculty of Creative Industries

### Semester 1 Units

#### Creative Writing & Cultural Studies

KPB207	Film and Television Scriptwriting
KWB101	Introduction to Creative Writing
KWB102	Media Writing
KWB103	Persuasive Writing
KWB104	Creative Writing: The Short Story
KWB107	Creative Non-Fiction
KWB207	Great Books: Creative Writing Classics
KWB208	Modern Times (Literature and Culture in the 20th Century)
KWB209	Shakespeare, Then and Now
KWB308	Wonderlands: Literature and Culture in the 19th Century

#### Dance

KDB105	Architecture of the Body
KDB108	World Dance
KDB110	Deconstructing Dance in History

#### Fashion

KFB103	Introduction to Fashion
KFB107	Drawing For Fashion
KFB206	Fashion and Modernity
KFB208	Fashion Portfolio
KFB209	Ragtrade: Wholesaling Fashion

#### Film & Television

KPB102	Film History
KPB106	Australian Television
KPB202	Film and Television Business Skills: Entrepreneurship and Investment
KPB203	Australian Film
KPB303	Critical Thinking About Television

#### Interactive and Visual Design

KIB101	Visual Communication
KIB105	Animation and Motion Graphics
KIB201	Concept Development for Game Design and Interactive Media

#### Journalism

KJB101 Digital Journalism  
 KJB120 Newswriting  
 KJB121 Journalistic Inquiry  
 KJB224 Feature Writing  
 KJB239 Journalism Ethics and Issues

#### Media & Communication

KCB101 Communication in the New Economy  
 KCB102 Media and Society: From Printing Press to Internet  
 KCB103 Strategic Speech Communication  
 KCB201 New Media 1: Information and Knowledge  
 KCB302 Political Communication

#### Music & Sound

KMB003 Sex Drugs Rock 'n' roll  
 KMB004 World Music  
 KMB104 Music and Sound Skills  
 KMB105 Music and Sound Technology  
 KMB108 Sound Recording and Acoustics

#### Performance Studies

KSB215 Visual Theatre Design  
 KTB101 20th Century Performance  
 KTB103 Performing Skills 1: Character and Scene  
 KTB204 Understanding Performance  
 KTB210 Creative Industries Management  
 KTB211 Creative Industries Events and Festivals

#### Transition to New Professional Environments\*

KKB341 Workplace Learning 1  
 KKB342 Workplace Learning 2  
 KKB343 Service Learning 1  
 KKB344 Service Learning 2  
 KKB345 Creative Industries Project 1  
 KKB346 Creative Industries Project 2  
 KKB347 Introductory Research 1

#### Visual Arts

KVB102 Modernism  
 KVB104 Photomedia and Artistic Practice  
 KVB105 Drawing for Design  
 KVB110 2D Media and Processes  
 KVB212 Australian Art, Architecture and Design  
 KVB213 Graphic Investigation  
 KVB304 Contemporary Art Issues

#### Semester 2 Units

#### Creative Writing & Cultural Studies

KPB207 Film and Television Scriptwriting

KWB102 Media Writing  
 KWB104 Creative Writing: The Short Story  
 KWB106 Corporate Writing and Editing  
 KWB108 Introduction To Literary Studies

## Overview

Media outlets operate in a regulatory environment in which changes occur rapidly and constantly. In an era where there is increasing public scrutiny of our media, the need for legal practitioners with specific media awareness has never been greater. This five-year double degree combines practical skills and contextual understanding of the media and communication industries with the skills to work as a legal practitioner.

## Career Outcomes

Graduates may choose to use their combined skills to work in-house for media outlets, regulatory bodies, or in law firms with specialist interests in the media. As a lawyer you may find work in private practice as a barrister or legal practitioner, practise in law-related government departments or within large companies as in-house lawyers. Media and communication opportunities are similar to those for graduates of the Bachelor of Creative Industries (Media and Communication) course.

## Course Structure

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from the Media and Communication major and 24 credit points of elective units.

The Law component is made up of 336 credit points of law subjects.

## Professional Recognition

The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Legal Practitioners' and Barristers' Admission Rules.

## OP Guarantee

The OP Guarantee does not apply to this program.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

## Course structure

### Year 1, Semester 1

	The Law School is currently reviewing the law components of this course to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval.
KCB101	Communication in the New Economy
KKB101	Creative Industries: People and Practices Introduction to Legal Research
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice

### Year 1, Semester 2

KCB104	Media and Communications Industries
KCB105	Media and Communication Research Methods
KKB102	Creative Industries: Making Connections
LWB143	Legal Research and Writing

**Total credit points:** 528

**Course coordinator:** IT: Mr Richard Thomas; Dr. Bill Dixon  
Director Undergraduate Law Programs

**Campus:** Gardens Point

## OP Guarantee

The OP Guarantee does not apply to this program.

## Overview

An objective of this double degree is to provide graduates with the ability to practise law in light of the complex environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, graduates can choose to practise as computing professionals specialising in legal applications or information systems.

## Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

## Career Outcomes

Graduates of the Bachelor of Information Technology component may find employment as a: Programmer Systems Programmer Systems Manager Systems Designer Systems Analyst Computer Sales and Marketing Consultant Data Processing Manager

## Professional Recognition

The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the 'Translation Unit Codes' column you are not permitted to enrol in the listed new code.

## IF38 - B InfoTech/B Laws

### Course Structure 2009

The Law School is currently reviewing the law components of this course. This program may change in 2009 and is subject to final approval.

### Year 1, Semester 1

INB104	Building IT Systems
INB103	Industry Insights
INB210	Databases
INB250	Systems Architecture

### Year 1, Semester 2

INB270	Programming
INB251	Networks

Choose one unit from: Intermediate Level Elective list. This choice will replace ITB008 from 2009 course summary.

IT Elective Unit selected from List

### Year 2, Semester 1

LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice

INB340 Database Design  
IT Elective  
IT Elective

#### Year 2, Semester 2

INB271 The Web  
INB311 Enterprise Systems  
LWB143 Legal Research and Writing  
LWB144 Laws and Global Perspectives

#### Year 3, Semester 1

INB301 The Business of IT  
IT Elective Unit selected from List  
LWB136 Contracts A  
LWB138 Fundamentals of Torts  
LWB238 Fundamentals of Criminal Law

#### Year 3, Semester 2

LWB137 Contracts B  
LWB139 Select Issues in Torts  
LWB239 Criminal Responsibility

#### Year 4, Semester 1

LWB231 Introduction to Public Law  
LWB236 Real Property A  
LWB240 Principles of Equity  
LWB333 Theories of Law

#### Year 4, Semester 2

LWB235 Australian Federal Constitutional Law  
LWB237 Real Property B  
LWB241 Trusts  
LWB334 Corporate Law

#### Year 5, Semester 1

LWB332 Commercial and Personal Property Law  
LWB431 Civil Procedure  
LWB432 Evidence  
LWB434 Advanced Research and Legal Reasoning  
Electives

#### Year 5, Semester 2

LWB331 Administrative Law  
LWB433 Professional Responsibility  
Electives

### IT Elective Unit List

#### Information Technology Elective Unit List

INB104 Building IT Systems  
INB103 Industry Insights  
INB270 Programming

INB210 Databases  
INB250 Systems Architecture  
INB251 Networks  
INB271 The Web  
INB301 The Business of IT  
INB302 Capstone Project  
INS011 Co-operative Education 1  
INS351 CCNA 3&4 Lan Switching  
INB280 Fundamentals of Game Design  
INB281 Advanced Game Design  
INB341 Software Development With Oracle  
INB311 Enterprise Systems  
INB340 Database Design  
INB306 Project 1  
INB312 Enterprise Systems Applications  
INB342 Enterprise Data Mining  
INB385 Multimedia Systems  
INB386 Advanced Multimedia Systems  
INB313 Electronic Commerce Site Development  
INB322 Information Systems Consulting  
INB330 Information Management  
INB320 Business Process Modelling  
INB335 Information Resources  
INB120 Corporate Systems  
INB122 Organisational Databases  
INB123 Project Management Practice  
INB124 Information Systems Development  
INB220 Business Analysis  
INB221 Technology Management  
INB325 Corporate Systems Management Project  
INB371 Data Structures and Algorithms  
INB272 Interaction Design  
INB305 Special Topic 4  
INB365 Systems Programming  
INB372 Software Engineering Principles  
INB370 Software Development  
INB373 Web Application Development  
INB374 Enterprise Software Architecture  
INB350 Internet Protocols and Services  
INB255 Security  
INB352 Network Planning and Deployment  
INB351 Computer Network Administration  
INB353 Wireless and Mobile Networks  
INB382 Real Time Rendering Techniques  
INB381 Modelling and Animation Techniques  
INB355 Cryptology and Protocols  
INB180 Computer Games Studies

INB181	Introduction to Games Production
INB204	Special Topic 1
INB304	Special Topic 3
INB205	Special Topic 2
INB860	Computational Intelligence for Control and Embedded Systems
MAB281	Mathematics for Computer Graphics

**Potential Careers:**

Barrister, Business Analyst, Crown Law Officer, Database Manager, Electronic Commerce Developer, In-House Lawyer, Programmer, Public Servant, Solicitor, Systems Analyst, Systems Manager, Systems Programmer, Web Designer.

## Bachelor of Applied Science/Bachelor of Laws (IF39)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 012661G

**Course duration (full-time):** 5 Years

**Domestic fees (indicative):** 2009: CSP \$4,089 (indicative) per semester

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419712

**Past rank cut-off:** 90

**Past OP cut-off:** 6

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Standard credit points per full-time semester:** 60 (years 1 and 4), 48 (years 2, 3 and 5)

**Course coordinator:** Dr Perry Hartfield (Science); Dr. William Dixon Director, Undergraduate Programs (Law)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point

### Career Opportunities

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

### OP Guarantee

The OP Guarantee does not apply to this course.

### Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

### Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

### Course structure - Major in Mathematics [WITH Mathematics C from Senior]

#### Year 2, Semester 1

	One Science unit - selected from:
SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 2, Semester 2

Three Level 2 Mathematics units\* - available units are:

MAB313	Mathematics of Finance
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB480	Introduction to Scientific Computation
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 1

	Two Level 3 Mathematics units - available units are:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

#### Year 3, Semester 2

	Two Level 3 Mathematics units - available units are:
MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

### Course structure - Major in Mathematics [WITHOUT Mathematics C from Senior]

#### Year 2, Semester 1

MAB220	Computational Mathematics 1
	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 2, Semester 2

	Three Level 2 Mathematics units* - available units are:
MAB313	Mathematics of Finance
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB480	Introduction to Scientific Computation
*	Students must complete at least one of MAB311, MAB312, MAB413

### Year 3, Semester 1

Two Level 3 Mathematics units - available units are:

MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

### Year 3, Semester 2

Two Level 3 Mathematics units - available units are:

MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

### Course structure - Major in Microbiology

#### Year 2, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
LQB386	Microbial Structure and Function

#### Year 2, Semester 2

LQB483	Molecular Biology Techniques
LQB486	Clinical Microbiology 1
	Either
LQB481	Biochemical Pathways and Metabolism
	Or
LQB484	Introduction to Genomics and Bioinformatics

#### Year 3, Semester 1

LQB586	Clinical Microbiology 2
LQB587	Applied Microbiology 1: Water, Air and Soil

#### Year 3, Semester 2

LQB686	Microbial Technology and Immunology
LQB687	Applied Microbiology 2: Food and Quality Assurance

### Course structure - Major in Physics

#### Year 2, Semester 1

MAB311	Advanced Calculus
PQB350	Thermodynamics of Solids and Gases
PQB360	Global Energy Balance and Climate Change

#### Year 2, Semester 2

PQB450	Energy, Fields and Radiation
--------	------------------------------

PQB451	Electronics and Instrumentation
	Either
MMB451	Energy Management
	Or
PQB460	Astrophysics 1

#### Year 3, Semester 1

PQB550	Quantum and Condensed Matter Physics
PQB551	Physical Analytical Techniques

#### Year 3, Semester 2

PQB650	Advanced Theoretical Physics
PQB651	Experimental Physics

### Footnotes for Law Units

# Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2009. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.

\* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.

### Potential Careers:

Actuary, Analytical Chemist, Astrophysicist, Barrister, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Crown Law Officer, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Social Scientist, Solicitor, Statistician, Virologist.

## Bachelor of Business/Bachelor of Laws (IF41)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 006386F

**Course duration (full-time):** 5 Years

**Domestic fees (indicative):** 2009: CSP \$4,171 (indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February and July\* (\*Subject to availability)

**QTAC code:** 419222

**Past rank cut-off:** 90

**Past OP cut-off:** 6

**Assumed knowledge:** English (4, SA) and Mathematics A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528

**Standard credit points per full-time semester:** 60

**Course coordinator:** Dr Erica French (Business); Director, Undergraduate Programs (Law)

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoo Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)

**Campus:** Gardens Point

### OP Guarantee

The OP Guarantee does not apply to this program.

### Career Outcomes

The Bachelor of Laws component of this double degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories. Advertising graduates enter the marketplace as copywriters, media planners, account executives, media representatives, product managers and researchers. Graduates of the Human Resource Management major can expect to find employment in the public and private sectors in all areas of human resource management including recruitment, training and development, international staffing, industrial relations, pay systems and strategic human resources planning. The International Business major equips graduates for careers in companies engaged in international trade, multinational companies and financial institutions dealing with international marketing and investments, and public sector careers in foreign economic relations. Management graduates may also find employment in commercial and industrial firms, banks, insurance companies, federal, state and local government agencies, small business and in management consultancies. Public Relations graduates

enter the marketplace as public relations managers and consultants, editors of trade and specialist publications, speechwriters, information officers, corporate communication officers and professionals, and special events managers.

### Other Majors

See also the separate entry for the following majors in this course: Bachelor of Business (Banking & Finance, Economics and Marketing)/Bachelor of Laws.

### Professional Recognition

The Bachelor of Laws degree satisfies the academic requirements for admission to practise as a Solicitor or Barrister in Queensland.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership of: CPA Australia; Institute of Chartered Accountants in Australia; Chartered Secretaries Australia; Advertising Federation of Australia; Australian Association of National Advertisers; Australian Direct Marketing Association; Queensland Commercial Radio Association; Australasian Institute of Banking and Finance; Economics Society of Australia; Australian Human Resources Institute; Australian Institute of Management; Australian Institute of Training and Development; Australian Institute of Export; Australian Institute of Management; Australian Marketing Institute; Marketing Research Society of Australia; Australian Institute of Management; American Marketing Association and Public Relations Institute of Australia.

### Course Design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

For the Business component, students undertake 7 Faculty core units and 6 units from one of the following Majors plus 3 specialisation units.

### Law Elective Units

For information on the availability of law elective units, please refer to the relevant section in the Bachelor of Laws course entry in the Faculty of Law section.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Course structure

This course has been discontinued. Currently enrolled students should check the Course Summary Sheet (via QUT Virtual) for enrolment and unit information.

**Potential Careers:**

Academic, Accountant, Advertising Professional, Banker, Banking and Finance Professional, Barrister, Business Analyst, Crown Law Officer, Economist, Exchange Student, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, Home Economist, In-House Lawyer, International Business Specialist, Investment Manager, Manager, Marketing Officer/Manager, Public Servant, Risk Manager, Solicitor, Stockbroker.

# Bachelor of Arts/Bachelor of Laws (IF43)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 027276E

**Course duration (full-time):** 5 Years

**Domestic fees (indicative):** 2009: CSP \$3,470 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** Course no longer available for admission

**International Entry:** Course no longer available for admission

**QTAC code:** Course no longer available for admission

**Past rank cut-off:** 90

**Past OP cut-off:** 6

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528 (192 cr pts BA and 336 cr pts BLaws)

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Iraphne Childs (Arts) Dr. William Dixon Director, Undergraduate Programs (Law)

**Campus:** Gardens Point and Kelvin Grove

## OP Guarantee

The OP Guarantee does not apply to this program.

## Career Outcomes

This course aims to provide graduates with the ability to enter legal practice with an education in both the content of and skills related to the humanities that will enable them to deal with the complexities of litigation in areas such as commercial law, constitutional law, international law and in public policy.

## Professional Recognition

The Bachelor of Laws degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

## Course Structure BA component - Continuing Students

### BA REQUIREMENTS

Students should follow the course progression advice in the Course Summary Sheet

## Course Structure BA component - Commencing Students

BA Course Requirements - Commencing Students

Students are required to complete:

\* One Multidisciplinary Major (1 core unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:

\*Two core units in first semester (from a selection of core

introductory and core skills units)

(Note: one of the core introductory units will sit within the chosen Multidisciplinary Major)

\*Year Two: research methods unit. Students are advised to take at least two of these units.

Students may also wish to include:

- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)

- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points)

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

## Multidisciplinary Majors - Commencing Students

Students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

## Discipline Sequences

Discipline Majors in the Arts degree can be chosen from the following: History; Geography and Environmental Studies; Languages (French, Indonesian, Japanese, German, Mandarin); Sociology

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities website.

## Course structure - Example of Full-time Course

## Structure

### Year 1, Semester 1

The Law School is currently reviewing the law components of this course to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval.

### Potential Careers:

Barrister, Government Officer, In-House Lawyer, Policy Officer, Public Servant, Solicitor.

## Doctor of Philosophy (Law) (IF49)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 006367J

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time

**International Entry:** At any time

**Discipline coordinator:** Assistant Dean, Research

**Campus:** Gardens Point

e-mail: law.research@qut.edu.au

### Potential Careers:

Academic, Barrister, Solicitor.

### Entry Requirements

An applicant's admission to the PhD program will depend on their academic aptitude, and the availability of supervision, infrastructure and resources needed for your course of study. Candidates would normally hold a Bachelor's degree with at least 2A Honours (or equivalent) or a Masters degree by research or a Masters degree by coursework that included substantial research.

### Location and Duration

The PhD normally requires a minimum of three years of full-time study or its part-time equivalent. Study is undertaken at the Gardens Point Campus but the University may approve study at an off-campus location (multi-modal study). Although QUT offers this flexibility, there will still be minimum attendance requirements and the University must be satisfied that adequate supervision and resources are available at the external location.

### Overview

The PhD offers candidates the opportunity to demonstrate their erudition in a broad field of learning and to make an original and substantial contribution to knowledge in that field.

### Course Structure

Candidates will be assessed on a program of supervised research and investigation that culminates in production of their thesis. Candidates should have regular, face-to-face contact with their supervisor and participate in University scholarly activities such as research seminars, teaching and publication. The length of the thesis will vary according to the topic, but should normally be no longer than 100,000 words (excluding bibliography).

**Total credit points:** 528

**Standard credit points per full-time semester:** 48 (Semesters 3, 4, 5, 6, 9, 10) 60 (Semesters 1, 2, 7, 8)

**Course coordinator:** Creative Industries - Head, Undergraduate Studies. Dr. William Dixon Law - Director, Undergraduate Programs

**Campus:** Gardens Point and Kelvin Grove

## OP Guarantee

The OP Guarantee will apply to this program.

## Overview

Your creative industries major will provide you with an up-to-date insight into the creative economy and an appreciation of interdisciplinarity and creative collaboration. You will also complete a creative industries second major from one of art and design history; creative and professional writing; dance; digital media; drama; fashion; film, television and screen; interactive and visual design; journalism, media and communication; or literary and cultural studies.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

## Why choose this course?

This course allows you to combine your creative interest with your law qualification. Whether you

choose to work in the legal fraternity or within the creative industries, you will graduate with a unique set of skills that will enhance your employment options.

## Professional Recognition

The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Legal Practitioners' and Barristers' Admission Rules.

## Career Outcomes

Graduates may use their combined skills to work in-house as a lawyer for cultural institutions, government or regulatory bodies, or in law firms with specialist interests in the creative industries. Alternatively, you may work in the legal environment as a solicitor, barrister or in-house lawyer.

If you choose to pursue a creative career, your legal knowledge will be of benefit in the process of commissioning projects, creative industries administration and contract negotiation.

## Course Structure

The Law School is currently reviewing the law components of this course to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval.

From 2009 the Bachelor of Creative Industries will offer the Interdisciplinary study area only. The Creative Writing study area will continue for students currently enrolled in this course.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at [www.deferment.qut.edu.au](http://www.deferment.qut.edu.au)

**Course coordinator:** Ms Jenny Felton (Human Services); Assoc.Prof. Geoff Dean (Justice)

**Campus:** Gardens Point and Kelvin Grove

## Course Description

In this course students complete the requirements of two separate degrees in four years. The Human Services component of the course provides knowledge, values, ethics and skills for professional practice in human services. The Justice component involves the study of criminology, ethics, crime prevention, policy making and investigations.

## Career opportunities

Career opportunities include human service worker, child and family, youth, disability and corrective services; community development; social care; child protection; youth justice; policy and service development; prevention and early intervention services; individual and systems advocacy; criminology; policing; ethics; crime prevention; justice policy and investigations.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the

course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

## Professional Membership (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers. (Accreditation application in process).

**Course coordinator:** Dr Julie Hansen (Psychology); Dr William Dixon Director Undergraduate Studies (Law)

**Campus:** Gardens Point and Kelvin Grove

## Overview

A double degree in law and psychology offers you greater flexibility in your career. Combining skills in these two complementary areas, you will be able to apply psychological principles to legal issues and concerns.

## Why choose this course

You have many opportunities to gain real workplace skills in each of your study disciplines. In psychology, students design and analyse original experiments, to enhance their research and analytical skills.

While studying, you are exposed to the range of job opportunities in external organisations and industry through careers seminars and opportunities for work experience. Students can also participate in a first-year peer mentor program and a career mentoring program.

In law, you can choose internship and legal clinic electives which provide a work experience placement to gain experience in legal firms, legal aid agencies or government departments.

## Career options

With degrees in psychology and law, you will enter the work force with a solid scientific and practical base, making you suitable for positions in the development of mental health and legal policies, in research in the legal-psychological domain, and to work as either a lawyer or psychologist within legal, corporate, government, social, and clinical arenas.

You will be well placed to enter the work force in any number of work environments, including forensic areas (such as the prison service). In addition, you will have the option of pursuing your psychology training further in order to become a registered psychologist. The double degree will

also allow you to work in legal environments as a solicitor, barrister, in-house counsel or government lawyer.

Outside the specialist psychology and legal environments, the skills and knowledge you have acquired will be transferable to a wide range of areas, such as business, marketing, communication and policy advisors or officers.

## Professional Recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with their State Registration Board. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

## Honours

The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

## OP Guarantee

The OP Guarantee will apply to this course.

## Recommended Study

Maths A, B or C

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaire, portfolio, audition, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Campus:** Gardens Point

## Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

## OP Guarantee

The OP Guarantee will apply to this course.

## Study Areas

IX53 will not have nominated majors and minors in the IT component and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX53 will have specialisations. The specialisation areas that will be available for students will include:

â€¢ Business Process Management

â€¢ Data Warehousing

â€¢ Digital Societies

â€¢ Enterprise Systems

â€¢ Information Management

â€¢ Network Systems

â€¢ Software Engineering

â€¢ Web Technologies

## Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: A or B

Secondary Fields: C

OP Guarantee: Yes

## International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

## Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

## Professional Recognition

The QUT Law degree is an approved degree for the purposes of the Legal Practitioners Admission Rules.

Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Further Information

For further information on the IT component of this course please contact the course coordinator Mr Richard Thomas at enquiry.scitech@qut.edu.au or call 3138 2782

## IT Breadth Option Unit List

### IT Breadth Option Units

You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.

INB120	Corporate Systems
INB210	Databases
INB220	Business Analysis
INB250	Systems Architecture
INB251	Networks
INB255	Security
INB270	Programming

- INB271 The Web
- INB272 Interaction Design

## IT Specialisation Option Unit List

### IT Specialist Option Units

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1. Enterprise Systems:
  - INB123 Project Management Practice
  - INB221 Technology Management
  - INB311 Enterprise Systems
  - INB312 Enterprise Systems Applications
2. Web Technologies:
  - INB313 Electronic Commerce Site Development
  - INB373 Web Application Development
  - INB374 Enterprise Software Architecture
  - INB385 Multimedia Systems
  - INB386 Advanced Multimedia Systems
3. Business Process Management:
  - INB320 Business Process Modelling
  - INB321 Business Process Management
  - INB322 Information Systems Consulting
  - INB323 Smart Services
4. Information Management:
  - INB330 Information Management
  - INB331 Management Issues for Info Professionals
  - INB332 Information Retrieval
  - INB333 Information Programs
  - INB334 Information Issues and Values
  - INB335 Information Resources
5. Data Warehousing:
  - INB340 Database Design
  - INB341 Software Development With Oracle
  - INB342 Enterprise Data Mining
  - INB343 Advanced Data Mining and Data Warehousing
6. Network Systems:
  - INB350 Internet Protocols and Services
  - INB351 Computer Network Administration
  - INB352 Network Planning and Deployment
  - INB353 Wireless and Mobile Networks
7. Software Engineering:
  - INB370 Software Development
  - INB371 Data Structures and Algorithms
  - INB372 Software Engineering Principles

- INB374 Enterprise Software Architecture
- 8. Ungrouped:
  - INB204 Special Topic 1
  - INB205 Special Topic 2
  - INB304 Special Topic 3
  - INB305 Special Topic 4
  - INB306 Project 1
  - INB307 Project 2
  - INB308 Project 3
  - INB355 Cryptology and Protocols
  - INB365 Systems Programming
  - INB860 Computational Intelligence for Control and Embedded Systems
- 9. Digital Environments:
  - INB345 Mobile Devices
  - INB346 Enterprise 2.0
  - INB347 Web 2.0 Applications
  - INB334 Information Issues and Values

## Law Elective Information

### Law Electives

Further information regarding Law Electives can be found at:  
<http://www.law.qut.edu.au/study/courses/ugrad/lselect.jsp>

### Potential Careers:

Barrister, Crown Law Officer, Database Manager, Electronic Commerce Developer, In-House Lawyer, Programmer, Public Servant, Software Engineer, Solicitor, Systems Analyst, Systems Manager, Systems Programmer, Web Designer.

# Bachelor of Corporate Systems Management/Bachelor of Justice (IX61)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 063030F

**Domestic fees (indicative):** 2009: CSP \$3,232,(indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**International Entry:** February

**QTAC code:** 419652

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Course coordinator:** Dr Taizan Chan

**Discipline coordinator:** Justice Coordinator - Assoc Prof Belinda Carpenter

**Campus:** Gardens Point

## Course overview

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and justice. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. The justice component comprises of foundation units, after which students then focus on a primary major discipline in either Criminology or Policing. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements). Alternatively, Professional Placement is available to high achieving students, with a GPA of 5 or more, in their last semester of the justice component of the course.

Justice Majors: Criminology; Policing

## Cooperative Education Program

Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

## Futher Information

Please contact the Course Co-ordinator Dr Taizan Chan (07)3138 2782 or enquiry.scitech@qut.edu.au

**Total credit points:** 528

**Standard credit points per full-time semester:** 48

**Course coordinator:** Creative Industries: Head, Undergraduate Studies (cifug@qut.edu.au); Dr Bill Dixon, Director Undergraduate Law Programs

**Discipline coordinator:** Dr Stephen Harrington (Media and Communication)

**Campus:** Gardens Point and Kelvin Grove

## OP Guarantee

The OP Guarantee will apply to this program.

## Overview

Media outlets operate in regulatory environment in which changes occur rapidly and constantly. In an era where there is increasing public scrutiny of our media, the need for legal practitioners with specific media awareness has never been greater.

This five-year double degree combines practical skills and contextual understanding of the media and communication industries with the skills to work as a legal practitioner.

Your media and communication degree comprises 14 units to build your expertise in this area, alongside two creative industries foundation units.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

## Career Outcomes

Graduates may use their combined skills to work in-house as a lawyer for media outlets or regulatory bodies, or in law firms with specialist interests in the media.

Alternatively, you may work in the legal environment as a solicitor, barrister or in-house lawyer, or pursue a career in

media and communication.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

# Bachelor of Fine Arts (Creative and Professional Writing)/Bachelor of Laws (IX68)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 066295A

**Course duration (full-time):** 5.5 years

**Domestic fees (indicative):** 2009: CSP \$3,795 (indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 409472

**Past rank cut-off:** 91

**Past OP cut-off:** 6

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA)

**Total credit points:** 528

**Standard credit points per full-time semester:** 48

**Course coordinator:** Head, Undergraduate Studies (Creative Industries) - cifug@qut.edu.au; Dr William Dixon Director Undergraduate Law Programs

**Discipline coordinator:** Creative Industries: Professor Philip Neilson

**Campus:** Gardens Point and Kelvin Grove

## Course Structure

The Bachelor of Fine Arts component is made up of 24 credit points of Faculty Foundation units and 168 credit points from the Creative and Professional Writing major.

The Law component is made up of 336 credit points of law subjects.

## OP Guarantee

The OP Guarantee will apply to this course.

## Overview

Both writers and lawyers require high-calibre sophisticated communication and language skills. You will graduate from this specialised double degree with not only advanced creative and professional writing skills, but also with a recognised law qualification.

You will be immersed in creative and professional writing practice with 14 studio units, and have a broad creative industries perspective from the two foundation units. In your first four years you will study a combination of fine arts and law units and during your fifth year you will concentrate on law studies.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an

opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

## Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

## Career Outcomes

Through the combination of creative and professional writing with law, you will enhance your employability in your chosen field, whether in the legal fraternity or as a writer.

Graduates may use their combined skills to work as an in-house lawyer in the publishing industry or in law firms with specialist interest in this area. Alternatively you may work in the legal environment as a solicitor, barrister or in-house lawyer.

If you choose to pursue a creative career, your legal knowledge will be of benefit in the process of commissioning projects, creative industries administration and contract negotiation.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## OP Guarantee

The OP Guarantee will apply to this course.

## Career Outcomes

The defining nature of the QUT Bachelor of Laws is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

Advertising graduates enter the marketplace as copywriters,

media planners, account executives, media representatives, product managers and researchers. Graduates of the Human Resource Management major can expect to find employment in the public and private sectors in all areas of human resource management including recruitment, training and development, international staffing, industrial relations, pay systems and strategic human resources planning. The International Business major equips graduates for careers in companies engaged in international trade, multinational companies and financial institutions dealing with international marketing and investments, and public sector careers in foreign economic relations. Management graduates may also find employment in commercial and industrial firms, banks, insurance companies, federal, state and local government agencies, small business and in management consultancies. Public Relations graduates enter the marketplace as public relations managers and consultants, editors of trade and specialist publications, speechwriters, information officers, corporate communication officers and professionals, and special events managers.

## Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

## Professional Recognition

The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership as follows:

\*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.

\*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).

\*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association;

\*Economics: Economic Society of Australia (Queensland Division).

\*Finance: Financial Services Institute of Australasia (FINSIA).

\*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;

\*International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;

\*Management - Australian Institute of Management;

\*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association.

\*Public Relations - Public Relations Institute of Australia.

## Course Design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

For the Business component, students undertake 7 Faculty core units and one major consisting of nine units.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

## Accountancy Major

### Year 1, Semester 1

BSB110	Accounting
BSB113	Economics

### Year 1, Semester 2

BSB123	Data Analysis
BSB124	Working in Business

### Year 2, Semester 1

BSB115	Management
AYB200	Financial Accounting

### Year 2, Semester 2

<http://www.law.qut.edu.au/study/courses/ugrad/lselect.jsp>

**Potential Careers:**

Academic, Accountant, Advertising Professional, Banker, Banking and Finance Professional, Barrister, Business Analyst, Crown Law Officer, Economist, Exchange Student, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, In-House Lawyer, International Business Specialist, Investment Manager, Manager, Market Research Manager, Marketing Officer/Manager, Public Servant, Risk Manager, Solicitor, Stockbroker.

## Bachelor of Applied Science / Bachelor of Laws (IX72)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 066294B

**Course duration (full-time):** 5.5 years

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419712

**Past rank cut-off:** 91

**Past OP cut-off:** 6

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science); Dr Bill Dixon (Law)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point

### OP Guarantee

The OP Guarantee will apply to this course.

### Career Outcomes

The defining nature of the QUT Bachelor of Laws is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and

technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

### Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

### Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

### **Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Standard credit points per full-time semester:** 48

**Course coordinator:** Law: Dr Bill Dixon; Creative Industries: Head, Undergraduate Studies (cifug@qut.edu.au)

**Campus:** Gardens Point and Kelvin Grove

## OP Guarantee

The OP Guarantee will apply to this program.

## Overview

Your creative industries core units will provide you with an up-to-date insight into the creative economy and an appreciation of interdisciplinarity and creative collaboration. You will also complete a creative industries major from one of animation; art and design history; creative and professional writing; dance; digital media; drama; entertainment industries~; fashion; film, television and screen; interactive and visual design; journalism, media and communication; literary studies; or music~.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

~ These new majors will be offered in 2010 subject to University approval.

## Why choose this course?

This course allows you to combine your creative interest with your law qualification. Whether you choose to work in the legal fraternity or within the creative industries, you will graduate with a unique set of skills that will enhance your employment options.

## Course Design

You will study creative industries and law subjects in your first four years and for the remainder of your course you will concentrate on law studies.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

## Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

## Career Outcomes

Graduates may use their combined skills to work in-house as a lawyer for cultural institutions, government or regulatory bodies, or in law firms with specialist interests in the creative industries. Alternatively, you may work in the legal environment as a solicitor, barrister or in-house lawyer.

If you choose to pursue a creative career, your legal knowledge will be of benefit in the process of commissioning projects, creative industries administration and contract negotiation.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at [www.deferment.qut.edu.au](http://www.deferment.qut.edu.au)

## Course structure

### Year 1, Semester 1

The Law School is currently reviewing the law components of this course to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval.

From 2009 the Bachelor of Creative Industries will offer the Interdisciplinary study area only. The Creative Writing study area will continue for students currently enrolled in this course.

KKB101	Creative Industries: People and Practices
KPB101	Foundations of Film and Television Production OR
KVB104	Photomedia and Artistic Practice Introduction to Legal Research
LWB141	Legal Institutions and Method
LWB142	Law, Society and Justice

## OP Guarantee

The OP Guarantee will apply to this course.

## Overview

This five-year double degree in journalism and law is in high demand. It combines the practical skills and understanding of the journalism industry with the skills to work as a legal practitioner.

## Career Outcomes

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

The combination of journalism with law majors can equip

you for specialised journalism careers in international affairs, corporate dealings, and medico-legal issues. QUT journalism graduates can also work as journalists for newspapers, magazines, television, radio and online news services. Others seek employment successfully in public relations, media management and corporate communications.

## Course Structure

You will study journalism and law units in your first four years and for the remainder of your course you will concentrate on law studies.

In the Journalism component, you will undertake two creative industries foundation units and 13 specialist units in journalism which will provide a broad range of journalism knowledge.

The Law component is made up of 336 credit points of law subjects.

## Professional Recognition

The QUT Law course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT Law degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

QUT's journalism degree is recognised by the Australian Journalists' Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are available in this course.

## Graduate Certificate in Policing (JS24)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** Not required

**Course duration (full-time):** This course is NOT available Full-time

**Course duration (external):** 1 year part time

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Professor Kerry Carrington

**Discipline coordinator:** Dr Colin Thorne

**Campus:** External

### Overview

The Graduate Certificate in Policing will provide a tertiary qualification for students already working in, or aspiring to work in the areas of justice which focuses on criminal behaviour. By exploring the strategies which can be used to address such behaviour within contemporary society, this course will have both a theoretical and a more practical framework. The course offers a degree of flexibility in not only choosing units relative to policing, but offers a choice of electives to suit your professional focus.

### Entry Requirements

An approved three-year undergraduate degree preferably in a similar discipline area from a recognised tertiary institution or, a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

### Course Structure

The Graduate Certificate in Policing consists of four (4) units which comprises of:

- One (1) generic core unit (12 credit points)
- Two (2) specialist units in policing (24 credit points)
- One (1) elective unit chosen from the Elective list (12 credit points)

In consultation with the Program Coordinator, students have the option of selecting a relevant Justice topic which can be undertaken as an Independent Study unit available in Semester 1 or 2.

### Articulation to Master of Justice

A student who has successfully completed the Graduate Certificate in Policing with a GPA of 5.0 or better may articulate to the Master of Justice with 48 credit points of academic credit.

### Part-time Program

#### Year 1 Semester 1

JSN101 Justice and Human Rights

JSN103 Criminal Behaviour and Investigative Practice

#### Year 1 Semester 2

JSN112 Crime Prevention

JSN### Elective unit

#### Justice Elective Units:

JSN106 Analytical Methods of Intelligence

JSN108 National Security and Intelligence

JSN115 Just War Theory

JSN117 Independent Study

### Potential Careers:

Child Protection Officer, Corrective Services Officer, Crown Law Officer, Customs Officer, Family Services Officer, Government Officer, Investigator, Police Officer (Australian Federal), Police Officer (State), Research Assistant.

# Graduate Certificate in Intelligence (JS29)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** Not required

**Course duration (full-time):** This course is NOT available Full-time

**Course duration (external):** 1 year Part time

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Belinda Carpenter

**Discipline coordinator:** Dr Nic Chantler

**Campus:** External

## Overview

The Graduate Certificate in Intelligence is aimed at providing tertiary pathways for students either working in the intelligence community and wishing to embark on professional studies or, students seeking employment in the intelligence community and wanting to gain relevant tertiary qualifications. Through a range of pedagogically informed teaching strategies the program develops relevant professional competencies, skills and knowledge. The program is aimed at students with existing undergraduate qualifications but can be undertaken by students with extensive professional experience where that experience is assessed as appropriate by the course coordinator.

## Entry Requirements

A relevant and approved three-year undergraduate degree from a recognised tertiary institution or a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

## Course Structure

The Graduate Certificate in Intelligence consists of four (4) units which comprises of:

- One (1) generic core unit (12 credit points)
- Two (2) specialist units in policing (24 credit points)
- One (1) elective unit chosen from the Elective list (12 credit points)

## Articulation in Postgraduate Coursework Nested Programs

A student who has successfully completed the Graduate Certificate in Intelligence with a GPA of 5.0 or better, may articulate to the Master of Justice (Intelligence) and receive academic credit of 48 credit points equivalent to four (4) units.

Currently enrolled QUT students in an articulating postgraduate coursework nested program (ie. completing Graduate Certificate in Intelligence and moving to the next

level of study) are not required to complete a Postgraduate Application (PG) form. Student Business Services send an email to your student mailbox inviting currently enrolled students to articulate to the next stage of the program - Master of Justice (Intelligence).

Prospective students, not enrolled at QUT, should complete the Postgraduate Application form (PG form) available from the QUT website - <http://www.qut.edu.au/>

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

Total credit points: 288

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Associate Professor Belinda Carpenter

Campus: Gardens Point and External

## General

The Bachelor of Justice equips graduates for a wide variety of employment in the criminal justice, government (state and federal), law enforcement and policing and intelligence fields. Past graduates have developed successful careers in the State or Federal police services, created social and justice policies for governments, contributed to the work of advocacy centres (eg. women, youth and children's advocacy), become criminologists, and advanced into Defence, Customs and the Australian Crime Commission. Other popular career choices include corrections and human rights and anti-discrimination areas. Students are prepared for the workplace, not only by exploring the most recent theory and practice of social justice, but by including relevant general skills like problem-solving, analytical ability and applied computer skills that are relevant to the workplace.

## Course Structures

This course consists of twenty-four (24) units - a total of 288 credit points. This comprises of:

- Nine (9) Justice Core units (108 credit points) and;
- Six (6) Primary Major units (72 credit points)
- Six (6) Secondary Major units (72 credit points)
- Three (3) Elective units (36 credit points).

Primary Major options: select one

- Criminology or
- Policing

Secondary Major options: select one

- Policing
- Criminology
- Law

- Information Technology \*
- Psychology\*

\* External students should be aware that when selecting the secondary majors, Information Technology and Psychology units are only offered in the internal mode of study. Most Justice and Law units are available in both Internal and External mode of study.

## Diploma Entry and Academic Credit

Students who have completed a full Diploma of Justice or Diploma of Justice Administration from TAFE are eligible for academic credit (96 credit points) towards their degree. This academic credit is counted as elective units in the Justice program. Students with this qualification should make further enquiries with Students Business Services or the School of Justice.

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

## Unit offerings and locations

Because of the choices in the secondary majors offered in the Bachelor of Justice ie. Criminology, Policing, Information Technology, Law, and Psychology, units within the secondary majors may be offered at either Gardens Point or Kelvin Grove (Psychology) campus.

Secondary major units in Criminology, Policing and Law are offered in both External (EXT) and Internal (INT) mode of delivery, whereas Information Technology and Psychology are only available as Internal face to face delivery.

## Overview

As an extension of the undergraduate Bachelor of Justice, the Bachelor of Justice (Honours) provides an opportunity to undertake a major piece of sustained research under the supervision of a staff member, read advanced texts in justice theory, engage in small seminar discussions at an advanced level and to write advanced level essays and reports in justice related fields.

The program also offers an outstanding qualification for entry to the employment market and for promotional opportunities for those already employed, as it is demonstrated evidence of an ability to undertake major projects, to work independently, write advanced level reports and to analyse statistical data.

## Entry Requirements

A Bachelor of Justice three-year degree or equivalent, with a grade point average of at least 5 (on a 7-point scale) in the final year of study. Applications would normally have completed the JSB273 Crime Research Methods unit (or equivalent) and JSB 976 Independent Study unit (or equivalent), which are offered in the Bachelor of Justice undergraduate program; However other qualifications, including work experience or involvement in research, may be deemed appropriate by the course coordinator.

## Course Structure

The Bachelor of Justice (Honours) is a 96 credit-point course. Students complete four (4) prescribed units (48 credit points) and a dissertation (48 credit points). The dissertation calls for students to design, develop and implement a substantial research project. Students can pursue original lines of thought, formulate and test hypotheses, develop problem-solving strategies and make structured decisions. Students are expected to demonstrate high ethical standards, awareness of sociocultural and equity issues, and professional accountability. Students should contact the Honours Coordinator to discuss thesis and supervisor.

## Articulation

The Bachelor of Justice (Honours) is excellent preparation for entry to higher degree programs ie. Master of Justice (Intelligence or Policing), Master of Justice (Advanced), Master of Justice (Research) or PhD.

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** Not required

**Course duration (full-time):** 1 year (subject to approval)

**Course duration (part-time):** 2 years

**Course duration (external):** 2 years

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**International Entry:** February and July

**QTAC code:** Not applicable

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Belinda Carpenter

**Discipline coordinator:** Dr Nic Chantler

**Campus:** External

## Overview

The Master of Justice (Intelligence) by Coursework provides postgraduate education in Intelligence. This course extends the scope of areas presented in the Graduate Certificate in Intelligence program to provide a complete foundation for intelligence professionals with careers in defence, policing, government and corporate organisations.

## Entry Requirements

Entry requirements for the Master of Justice (Intelligence):

- Bachelor of Justice or equivalent with Honours and a GPA of at least 5 on a 7 point scale or;
- an approved 4 year undergraduate degree in an appropriate field or;
- an appropriate Graduate Certificate with a GPA of 5 or above or;
- approved equivalent professional experience in combination with relevant training and skills.

## Notes for International Students

Subject to final approval, International students may be able to study this course in the External On-line mode in their home country. This course is not available to full-time international students wishing to study this course in Australia as it is not available as an Internal offering.

## Course Requirements

The Master of Justice (Intelligence) consists of either (8) units totalling 96 credit points. Students must complete:

- Two (2) generic core units (24 credit points);
- Four (4) specialist Intelligence units (48 credit points) plus;
- Two (2) Elective units (24 credit points).

## Articulation to Master of Justice (Advanced)

Students who have successfully completed the Master of Justice (Intelligence or Policing) totalling 96 credit points with a GPA of 5.5 or above, will be eligible for the Master of Justice (Advanced). Students cannot enrol directly into the JS53 Advanced course unless demonstrating equivalent Masters level standing from an approved institution if not completed at QUT.

**Discipline coordinator:** Dr Colin Thorne

**Campus:** External

### Overview

The Master of Justice (Policing) by coursework will enable you to explore specific aspects of global and local criminal behaviour and to address selected strategies or to develop strategies for addressing some of the issues canvassed. The areas of criminal behaviour covered in this course are highly relevant to contemporary society and globalisation. You will have the flexibility to undertake areas of study specifically pertinent to your professional focus through independent study.

### Entry Requirements

Entry criteria for the Master of Justice (Policing):

- Bachelor of Justice or equivalent with Honours and a GPA or at least 5 on a 7 point scale or;
- an approved 4 year undergraduate degree in an appropriate field or;
- an appropriate Graduate Certificate with a GPA of 5 or above or;
- approved equivalent professional experience.

Students may be eligible for academic credit for previous studies in relevant languages, information technology or geo-political sciences (up to 24 credit points).

### Course Requirements

The Master of Justice (Policing) consists of eight (8) units totalling 96 credit points. Students must complete:

- Two (2) generic core units (24 credit points);
- Four (4) specialist policing units (48 credit points) plus;
- Two (2) elective units (24 credit points).

### Articulation to Master of Justice (Advanced)

Students who have successfully completed the Master of Justice (Intelligence or Policing) totalling 96 credit points with a GPA 5.5 will be eligible for the Master of Justice (Advanced). Students cannot enrol directly into the JS53 Master of Justice (Advanced) unless demonstrating equivalent Masters level standing from an approved institution.

**Domestic Entry:** At any time

**International Entry:** At any time

**Total credit points:** 96

**Course coordinator:** Associate Prof. Belinda Carpenter

**Campus:** Gardens Point

### Overview

You can pursue advanced postgraduate research in law enforcement, justice administration, security and intelligence, and corrections and the community. You will develop your research and analytical skills, thus advancing your career possibilities.

### Entry requirements

The following persons shall be eligible to apply for admission as a student for the degree:

- 1 A person who has completed the requirements for the degree of Bachelor of Justice (Honours) of QUT, or
- 3 A person who has completed a qualification that is deemed equivalent and possesses appropriate research skills or substantial professional experience in the proposed field of research as deemed appropriate by the Course Coordinator, or
- 4 A person who has professional publications, etc that the Course Coordinator and the Faculty Research Committee accept as proof of a students advanced knowledge and research ability in the proposed field of research.

### Course Structure

The content value of the course is set at 96 credit points. Students will undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis that students submit for their degree should be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminology, law enforcement, intelligence and security, corrections and the community, or legal and justice policy.

**Campus:** External

## Potential Careers:

Customs Officer, Investigator, Police Officer (Australian Federal), Police Officer (State).

## Overview

The Master of Justice (Advanced) provides a higher level postgraduate qualification by building on from the Master of Justice (Intelligence or Policing). With a further year of part-time study students may complete an advanced research oriented Master of Justice (Advanced). This involves undertaking a work-based thesis or supervisor supported project which enhances research analysis skills. Topics are self selected in consultation with the academic supervisor and, if relevant, the student's employer. Completion of the Master of Justice (Advanced) degree will enable articulation to a PhD or Doctor of Juridical Science research degrees.

## Entry Requirements

Students will only be eligible for the Master of Justice (Advanced) if they have received a GPA of 5.5 or above for 96 credit points of postgraduate level study.

## Articulation

Completion of the Master of Justice (Advanced) will enable articulation to PhD or Doctor of Juridical Science research degrees.

## Bachelor of Laws (LW33)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 003486D

**Course duration (full-time):** 4 Years

**Course duration (part-time):** 6 Years

**Course duration (external):** 6 Years

**Domestic fees (indicative):** 2009: CSP \$4,339 (indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**QTAC code:** 417601 internal; 417605 external.

**Past rank cut-off:** 90

**Past OP cut-off:** 6

**Assumed knowledge:** English (4, SA)

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Director, Undergraduate Programs  
Phone: 3138 2707

**Campus:** Gardens Point and External

### OP Guarantee

The OP Guarantee does not apply to this program.

### Distance Education (External) Special Entry Requirements

Entry to the distance education (external) mode of the course is restricted to students who reside in Australia outside the Brisbane City Council boundaries.

Students who reside within the Brisbane City Council may be considered under exceptional circumstances. A covering letter outlining your exceptional circumstances claim with supporting documentation must accompany your admission application form.

### Other Course Requirements

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

### Graduate Entry

A graduate of any non-Law degree completed within the last 10 years is eligible for the **Graduate Entry accelerated program** which is normally completed in three years full-time or five years part-time/external.

Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

QTAC students are not required to submit an Application for Academic Credit as this will be automatically awarded by QUT Admissions after offer and prior to the start of classes.

### Mid-Year Entry

Mid-year full-time entry students should note that there are two compulsory units in the summer semester. Students can alter this structure but should consult with the Law School prior to doing so.

### Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as a questionnaire, portfolio, audition, prior study and/or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### OP Guarantee

The OP Guarantee will apply to this program.

### Distance Education (External) Special Entry Requirements

Entry to the distance education (external) mode of the course is restricted to students who reside in Australia outside the Brisbane City Council boundaries.

Students who reside within the Brisbane City Council may be considered under exceptional circumstances. A covering letter outlining your exceptional circumstances claim with supporting documentation must accompany your admission application form.

### Other Course Requirements

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

### Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

### Career Outcomes

The defining nature of the QUT Bachelor of Laws is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

### OP Guarantee

The OP Guarantee does not apply to this program.

### Entry Requirements

Applicants must have completed a three year Bachelor's Degree from an approved University.

Students who are admitted to the graduate entry program will automatically receive one year of advanced standing which will allow the student to complete the degree in three years full-time.

### Distance Education (External) Special Entry Requirements

Entry to the distance education (external) mode of the course is restricted to students who reside in Australia outside the Brisbane City Council boundaries.

Students who reside within the Brisbane City Council may be considered under exceptional circumstances. A covering letter outlining your exceptional circumstances claim with supporting documentation must accompany your admission application form.

### Other Course Requirements

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

### Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic

requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

### Career Outcomes

The defining nature of the QUT Bachelor of Laws (Graduate Entry) is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

**Total credit points:** 528

**Standard credit points per full-time semester:** 54

**Course coordinator:** Assoc Prof Geoff Dean (Justice), Dr. William Dixon Director - Undergraduate Programs (Law)

**Campus:** Gardens Point

## OP Guarantee

The OP Guarantee does not apply to this program.

## Unit offerings

Units in this course are offered in either Internal or External mode of delivery. All internal units are offered at Gardens Point campus.

## Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Solicitors' Admission Rules and Barristers' Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practice as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

## Course Overview

Students study a combination of Justice and Law units in the first three years of the course, whilst the final two years are devoted to the study of Law units only. In the Bachelor of Justice component of the course, 18 units in total, students are required to complete a suite of core units and to select a Primary major (6 units) from one of the following fields: Criminology & Policing

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC

offer on the basis of demonstrated special circumstances.

# Doctor of Juridical Science (LW50)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 012652J

**Course duration (full-time):** 2 Years (minimum)

**Course duration (part-time):** 4 Years (minimum)

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time

**International Entry:** At any time

**Total credit points:** 192

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Assistant Dean, Research

**Campus:** Gardens Point

## Award

The SJD will be awarded subject to the Faculty of Law Academic Board receiving:

(i) a certificate of satisfactory completion of the candidate's approved course of study signed by the Principal Supervisor and the Assistant Dean, Research;

(ii) a declaration signed by the candidate that he/she has not been a candidate for another tertiary award during the tenure of his/her SJD candidature;

(iii) a declaration signed by the candidate stating original authorship of a thesis;

(iv) a certificate signed by the Principal Supervisor, and Assistant Dean, Research stating that the candidate has satisfactorily completed the examination process, including completing any revisions or re-examination required by the external examiners; and

(v) one final bound copy of the thesis in the prescribed format.

For the purposes of these Rules the Assistant Dean, Research acts as the delegate of the Dean, Faculty of Law and Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

## 1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

(i) holds or has completed the requirements of the degree of (a) Master of Laws by Coursework or (b) Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Master of Laws or Master of Justice by Coursework at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(ii) have a minimum of two years professional experience appropriate to the proposed course of study;

(iii) demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean, Research, for example, by the publication of articles in refereed research journals; and

(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

## Overview

As an experienced legal professional, you will follow a program of applied research that relates directly to your professional and educational needs.

## Course Structure

The value of the course is set at 192 credit points, a dissertation of 60,000 to 70,000 words. Students must complete or have completed LWN048 Advanced Legal Research (or equivalent) as a requirement of this course.

## Further Information

Senior Administration Officer (Research)

Phone +61 7 3138 5203

Fax +61 7 3138 4253

e-mail: law.research@qut.edu.au

## 2. Application Procedure

2.1 An application for admission shall be made on the prescribed form (PR/FR Form) which shall involve a two-stage process.

2.2 Stage 1 of the application process must include:

- \* the completion of the PR Form for admission (if the applicant holds citizenship or permanent residency in Australia or New Zealand);
- \* the completion of the FR Form for admission (if the applicant is an international candidate);
- \* a certified copy of the results of the degree relied upon for admission;
- \* personal data;
- \* details of relevant research experience. (In the case of a candidate relying upon a Master of Laws by Coursework for admission, this criterion may be satisfied if the student demonstrates that they have completed the unit Advanced Legal Research at a grade of 5 or above at the Queensland University of Technology or some equivalent unit from a comparable institution during the course of their masters studies or can demonstrate other relevant research experience, eg by publication. In the case of a candidate relying upon a Master of Arts (Justice Studies) for admission, the candidate shall demonstrate that she or he has undertaken either a unit in that course or as part of the requirements for the completion of a Bachelor of Justice Studies (Honours) a unit in the area of research methodology at a grade of 5 or above or some equivalent unit from a comparable institution during the course of Masters studies or can demonstrate relevant research experience, eg by publication). Where an applicant cannot satisfy this criteria by way of completion of an advanced

research unit or publications as set out above, the applicant will be required to undertake the unit Advanced Legal Research or Advanced Information Retrieval Skills or an equivalent unit from a comparable institution during their candidature; and

\* a brief outline (200-300 words) of the project to be undertaken;

\* details of relevant professional experience and

\* any other information the candidate considers relevant in support of the application.

2.3 Where a candidate's qualification for admission is other than a Master of Laws from the Queensland University of Technology, or an equivalent degree, the candidate must undertake research in a field of criminology or other area of Justice Studies approved by the Assistant Dean (Research).

2.4 The application is to be approved by the Faculty Research Committee which will determine whether the applicant meets the criteria for admission or, if deficiencies exist, identify them and how they might be remedied.

2.5 Candidature shall be deemed to have commenced on the date of admission being the date stipulated in the Confirmation of Enrolment.

2.6 Within two months of commencement for full-time students (up to four months for part-time and international candidates) and after consultation with appointed supervisors, the candidate must complete and submit the Stage 2 application form (SJD2) setting out:

\* the proposed title of the thesis;

\* the objectives of the program of research and investigation;

\* an outline of the proposed research;

\* the research methods and plan;

\* the relationship of the study to previous work in the same field by the candidate and others;

\* a preliminary literature review;

\* a substantial bibliography;

\* a timeline for the completion of the research;

\* a research ethics review checklist;

\* the names of proposed supervisors, their qualifications and experience with relevant publications; and

\* an Intellectual Property Agreement (if required).

2.7 The second stage application must be submitted to the Assistant Dean, Research for approval by the Faculty Research Committee.

2.8 If the Stage 2 application is not submitted within the time specified, the Assistant Dean, Research may, on the advice of the Faculty Research Committee and the Principal Supervisor, terminate the candidature. In exceptional cases, upon a written request stating reasons for delay, an extension of up to a further one month for full-time candidates or two months for part-time candidates may be granted to meet the requirements of Stage 2.

2.9 The Faculty Research Committee shall, as part of the approval of the Stage 2 process, confirm:

\* the proposed topic of research is consistent with the aims of the School; and

\* the Head of School is willing and able to provide appropriate accommodation, facilities and financial resources necessary for the proposed study for the duration of candidature.

2.10 Upon approval by the Faculty Research Committee of the Stage 2 Application the applicant will be admitted to candidature and the appointment of the supervisors shall be confirmed.

### **3. Studies During Candidature**

A candidate for the degree of SJD is required to successfully complete a planned research program that should result in a notable contribution to professional knowledge and practice in the field of study. This contribution may be in the form of new knowledge in practice, or of significant and original adaptation, application and interpretation of existing knowledge and practice.

3.1 The candidate will pursue a thesis in accordance with Rule 10.

3.2 The planned research program will normally include

\* participation in university scholarly activity such as research seminars, teaching and publication;

\* regular interaction with supervisors; and

\* a program of supervised research and investigation.

3.3 The course of study must enable a candidate to acquire competence in relevant methods of research and scholarship relating to the subject of the proposed investigation and to demonstrate sustained independent research effort.

3.4 The Faculty of Law Research Committee may on the recommendation of the Assistant Dean, Research, approve a variation in the candidate's course of study and research; an application for variation must be supported in writing by the Principal Supervisor.

### **4. Articulation**

4.1 The Doctor of Juridical Science will fully articulate with the Master of Laws (Research) and Master of Justice (Research).

### **5. Period of Time for Completion of Program**

5.1 The expected period of candidature is:

\* Full-time candidates: two years from date of commencement;

\* Part-time candidates: four years from date of commencement;

5.2 The maximum period of candidature is:

\* Full-time candidates: four years from date of commencement;

\* Part-time candidates \_ eight years from date of commencement;

5.3 The candidate may change from full-time to part-time candidature or vice versa by making application on a prescribed form through the office of the Assistant Dean, Research. International students studying on student visas

are unable to alter their mode of study from full-time.

5.4 A candidate who does not expect to submit his/her thesis by the maximum candidature date must apply for an extension of time on the prescribed form through the Assistant Dean, Research, for consideration by the Faculty Research Committee. The application must include the reasons for the delay, written endorsement of the request for extension by the Principal Supervisor and a revised timeline for completion. Applications for extensions will not normally be considered by the Faculty Research Committee unless the reasons for the delays have been documented in previous progress/supervisor reports. Extensions will only be given in exceptional circumstances. Minor breakdown of computer equipment or absence of a Principal Supervisor are not usually considered exceptional.

## 6. Leave of Absence

6.1 Application must be made on the prescribed form through the Assistant Dean, Research. The application must include reasons for the leave of absence, the written endorsement of the Principal Supervisor and the start and finish dates for the period of leave. If the leave is approved, the duration of the specified time will be added to the submission dates of the candidature. International students studying on student visas are not normally permitted to take leave of absence unless there are exceptional circumstances, eg bereavement. International students should consult the Assistant Dean, Research, and the QUT International Office if a period of leave is required.

6.2 The maximum period of leave of absence for which a candidate may be given approval (for any reasons) is twelve months for a full-time candidate and twenty-four months for a part-time candidate.

## 7. Supervision

7.1 Supervision shall be conducted according to the QUT Code of Good Practice for Postgraduate Research Studies and Supervision (MOPP Appendix 9).

7.2 A Principal Supervisor from QUT and Associate Supervisor/s shall be appointed.

7.3 The Principal Supervisor has responsibility for supervising a candidate and must be a current member of the QUT staff or an emeritus professor of QUT still active in research. The Principal Supervisor shall normally have undertaken successful supervision of research degree candidates, and shall have an established research record in the area of the proposed project.

7.4 The Associate Supervisor/s may be a member of the QUT staff and must possess appropriate expertise in the research field and would normally be a person who has undertaken successful supervision of research degree candidates.

7.5 Where the Principal Supervisor is absent from QUT for a period of three consecutive months or longer during the period of candidature, the Associate Supervisor (if that person is a QUT staff member) will normally become the Acting Principal Supervisor for that period.

7.6 If the Principal Supervisor leaves the staff of QUT, the QUT Associate Supervisor will normally fill the role of Acting Principal Supervisor immediately until a new Principal Supervisor is appointed by the Faculty Research Committee in consultation with the candidate. The formal appointment of a new Principal Supervisor must be made within three months of the original Principal Supervisor's departure.

## 8. Confirmation of Candidature

8. Confirmation of Candidature

8.1 Within six months of commencement for full-time candidates and twelve months for part-time candidates, the candidate shall present (in consultation with his/her supervisors) a plan of the research program for the remainder of the candidature and report of the work done to that tie. The confirmation report form shall incorporate a substantial literature review and shall provide evidence of the research capacity of the candidate including the rate of progress to date. The plan shall include details of:

- the title of the thesis;
- evidence of the research capacity of the candidate including the rate of progress to this point;
- the nature of participation in scholarly activities of the university, centre, or faculty in which the study is being undertaken;
- the objectives of the program of research and investigation;
- an outline of thesis structure;
- a substantial literature review;
- the research methods to be followed; and
- a time-line for completion of the research program.

8.2 The candidate shall present the confirmation report and details of the research program at a Confirmation Seminar open to the public.

8.3 A candidate who is not able to complete a Confirmation of Candidature within the timeframe required must apply for an extension at least one month in advance of that deadline through the Assistant Dean, Research. A maximum of three months extension may be granted.

8.4 A Review Panel shall review the candidate's progress and planned research program and shall make recommendations to the Faculty Research Committee. These recommendations shall include:

- \* An appraisal of the candidate's progress and suitability for continuation of the program;
- \* Documents prepared by the candidate;
- \* A statement that the research program is of a standard required for an SJD;
- \* A statement of whether the studies continue to be within the aims and objectives and physical and human resources of the Centre; and
- \* A report on the candidate's seminar.

8.5 The Faculty Research Committee will, if satisfied:

- \* Confirm the candidature and notify the candidate; or
- \* May require changes to the planned research program; or
- \* If the recommendation is not to confirm the candidature, the candidate is placed under review for three months. At the end of the review period the Assistant Dean, Research, must advise the Faculty Research Committee whether the

conditions of review have been met.

8.6 Where a candidate is placed under review following the Confirmation Seminar, the Principal Supervisor must advise the candidate in writing within seven days, of the conditions to be met, in the form of clear written guidelines of the work required and due dates for submission and whether a further Confirmation Seminar is required. The conditions must be endorsed by the candidate, the supervisor/s, and Assistant Dean, Research.

8.7 Where a candidate's progress remains unsatisfactory after the review period, the Faculty Research Committee, on advice from the Assistant Dean, Research, shall either grant a further extension of the period of up to three months or may ask the candidate to show cause in writing why action should not be taken to terminate the candidature.

## 9. Reporting

9.1 The Principal Supervisor and candidate are required to report to QUT Research Degrees Committee annually, by 30 September, and an interim report is required by the Faculty by 30 April, reporting on the candidate's progress and future plans. Reports shall be completed using the prescribed form and submitted through the Law Faculty for consideration by the Research Degrees Committee.

9.2 Where a candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve the continuation of the candidature.

9.3 Where the progress is deemed unsatisfactory, in the Confirmation of Candidature, QUT Annual Report or other Faculty interim report, the Research Degrees Committee, on advice from the Faculty Research Committee will normally place a candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The candidate will be advised of the required remedial action to be followed taking into account the advice provided by the Principal Supervisor and the Faculty Research Committee.

9.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

9.5 If progress is still unsatisfactory after the review period, the Research Degrees Committee, on the advice of the Faculty Research Committee shall ask the candidate to show cause in writing why the enrolment shall not be terminated.

9.6 When a candidate's progress has been reported as unsatisfactory in any two consecutive reports during candidature, the Research Degrees Committee shall ask the candidate to show cause in writing why the enrolment of the candidate shall not be terminated.

9.7 If a candidate fails to submit an annual report through their Principal Supervisor to the Research Degrees Committee by the due date without applying, in writing, for

an extension two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

9.8 If the candidate does not show cause why the enrolment shall not be terminated, the Research Degrees Committee may terminate the candidate's enrolment.

## 10. Thesis Guidelines

10.1 The thesis must be presented in accordance with the requirements of the University, including any accompanying declarations and in accordance with Appendix 9 of the Manual of Policies and Procedures \_ Requirements for Presenting Theses (MOPP 9.13). The main body of the text should be between 60,000 and 70,000 words.

10.2 The thesis must be presented in the English language.

10.3 A candidate may submit with the thesis other kinds of relevant material (such as films, audio tape recordings, video tape recordings, CD-ROMS, software programs etc) which shall be accompanied by evidence of the extent to which the candidate has been responsible for their preparation.

10.4 An SJD degree may not be awarded on the basis of the submission of published papers.

10.5 A candidate's name will not be placed on the graduation list until the final copies of the thesis (one bound and one electronic) are received in the Research Student Centre, Office of Research. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

10.6 When these final copies of the thesis have been lodged with the Research Student Centre the names of examiners will be released to the candidate upon request, providing that the examiner has not indicated otherwise.

## Course Structure

## Master of Laws (LW51)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 006380A

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Domestic fees (indicative):** 2009: Full fee tuition \$8,000 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Director, Graduate Programs

**Campus:** Gardens Point

### Overview

The Master of Laws by Coursework will deepen and broaden your legal learning, developing your critical evaluation of the law and consideration and analysis of the attitudes and values underlying it. During the course, you are expected to attain high level competence in legal research and writing on areas of conceptual difficulty. The course leads on to the Doctor of Juridical Science (subject to normal entry requirements).

### Entry Requirements

Prospective students must have:

(i) completed the requirements for the degree of Bachelor of Laws of QUT;

OR

(ii) have completed the requirements for the award of a degree in law at another tertiary institution which, in the opinion of the Director, Graduate Programs, maintains standards comparable with those required for the award of the degree of Bachelor of Laws at QUT;

OR

(iii) hold a professional qualification in law and have at least three years of professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

In exceptional circumstances, an applicant who does not otherwise satisfy the normal entry requirements will be eligible for entry into the Master of Laws by Coursework degree in a specialist stream if he or she:

(i) has completed a Graduate Certificate in Law in a specialist stream

AND

(ii) has significant professional experience in the field of the Graduate Certificate in Law already completed;

AND

(iii) has achieved a grade point average of 5.5 in the units already completed for the Graduate Certificate in Law and whose course is approved by the Director, Graduate Programs.

### Course Structure

The course structure comprises 96 credit points (8 units) of coursework units. This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose units to the value of at least 72 credit points (6 units) from that particular major. The remaining 24 credit points (2 units) can be chosen from any unit not included in the nominated major, including units listed under "additional units";  
or
2. Students may complete a generic degree by choosing all 96 credit points (8 units) from any of the majors.

Majors available:

Commercial Law, Environmental Resources Law, Health Law, Public Law, Technology Law, Intellectual Property Law

NOTE: International students are normally only able to graduate with a generic degree.

### Articulation

This course articulates with the Doctor of Juridical Science (SJD).

### Advanced Standing

Graduates of QUT's Graduate Diploma in Legal Practice (LP41), who graduated from courses run in and from 2000 until the end of 2008, are entitled to 48 credit points of unspecified credit in the LW51 Master of Laws course, if they enrol in LW51 by second semester 2010.

Graduates of QUT's Graduate Diploma in Legal Practice before 2000 or after 2008 are eligible for up to 24 credit points of unspecified credit towards the Master of Laws course.

Graduates of other Australian university-based practical legal training courses that lead to an award of a Graduate Diploma in Legal Practice are entitled to 12 credit points of unspecified credit.

Persons who have successfully completed the Queensland Law Society accredited specialist assessment and are Queensland Law Society Accredited Specialists are entitled to 12 credit points of unspecified credit when they enrol in the Master of Laws course.

### Unit Information

Not all units are available in any one year. Generally, postgraduate law units are offered on a two year rotational basis, and are offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive, internal or internal and external mode of study.

Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

\*International students on student visas are able to enrol in

a combination of intensive, external and internal units each semester. (This is subject to approval)

The degree may contain up to 48 credit points in independent research projects, as approved by the Director, Graduate Programs.

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities (subject to meeting credit rules for the LLM).

### Further Information

QUT School of Law  
Phone +61 7 3138 2707  
Fax +61 7 3138 1152  
e-mail: lawpg\_enquiries@qut.edu.au

### Course structure

Students must undertake a total of 96 credit points (8 units). This can be achieved in 1 of 2 ways:

**OPTION 1** Students may nominate a major from the list below and choose units to the value of at least 72 credit points (6 units) from that particular major. The remaining 24 credit points (2 units) may be chosen from any unit not included in the nominated major, including units listed under "additional units"; OR

**OPTION 2** Students may complete a generic degree by choosing all 96 credit points (8 units) from any of the majors.

Note: International students may normally only be able to undertake a generic degree.

### List of Majors available:

#### Commercial Law

LWN022	Banking and Finance Law
LWN025	Research Project 1A
LWN036	Select Issues in Intellectual Property Law
LWN048	Advanced Legal Research

LWN168	Theories of Dispute Resolution

## \* NOTE:

LWN048 Advanced Legal Research is strongly recommended for international students and domestic students without an LLB.

LWN162 Australian Common Law System is a compulsory unit for all international students.

The units listed within all majors may be subject to change.

## Schedule of Units

Not all units are offered in any one year.

For a schedule of unit offerings for 2009: please refer to <http://www.law.qut.edu.au/study/courses/pgrad/periodmode.jsp>

## Potential Careers:

Academic, Actuary, Barrister, Crown Law Officer, Educator, Government Officer, Solicitor.

# Master of Laws (Research) (LW52)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 012654G

**Course duration (full-time):** 1 Year

**Course duration (part-time):** 2 Years

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time

**International Entry:** At any time

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Assistant Dean (Research)

**Campus:** Gardens Point

## 2. Entry Requirements

The following persons shall be eligible to apply for admission as a student for the degree:

2.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

2.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

2.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

2.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:

2.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or

2.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or

2.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and

2.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

## 3. Admissions and Enrolment

3.1 An application for admission shall be made on the prescribed form:

(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or

(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee.

3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

## 4. Progress Reports

4.1 The Principal Supervisor and candidate are required to complete a QUT Annual Report, completed online via QUT Virtual and due on 30 September as well as an informal report to the Assistant Dean Research by 30 April.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

## 5. Thesis Requirements

5.1 The thesis submitted for the degree shall be not less than 50,000 words and not more than 60,000 words in length and shall constitute a substantial contribution to knowledge and understanding in the area of the law and subject of the research. It shall include a title page, table of

contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Assistant Dean, Research within two months of admission to candidature. The research outline should address the following:

- The proposed title of the thesis;
- The objectives of the program of research and investigation;
- An outline of the proposed research;
- The Research methods and plan;
- The relation of the study to previous work in the same field by the candidate and others;
- A preliminary literature review;
- A substantial bibliography;
- A timeline for the completion of the research
- A copy of the Research Ethics Review Checklist
- The proposed supervisor(s) and their credentials
- An intellectual property agreement if required
- Memo of Understanding for any external supervisor

5.2 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Assistant Dean, Research.

5.3 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Assistant Dean, Research in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is the candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.4 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.5 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:

- (i) be accepted
- (ii) not be accepted, or
- (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

#### Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Assistant Dean, Research will consult with the Principal Supervisor to

discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the LLM (Research) degree.

#### Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of LLM(Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

#### Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis, one bound copy and one electronic copy of the thesis must be

submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

# Graduate Certificate in Law (LW60)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 027286C

**Course duration (full-time):** 1 semester (Generic course and select majors only)

**Course duration (part-time):** 2 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$8,000 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 48

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Director, Graduate Programs

**Campus:** Gardens Point

## Overview

This Certificate course allows students to enhance their knowledge in particular areas of interest in the law. Students may select units from one of the eleven majors offered or may elect to complete the course without a major.

## Entry Requirements

Prospective students must either:

(i) hold the degree of Bachelor of Laws from QUT or a comparable institution;

OR

(ii) have a professional qualification in law and at least three years of professional legal experience after first admission to practice;

OR

(iii) have a bachelor's degree in another discipline and professional experience which, in the opinion of the Director, Graduate Programs equips the student for postgraduate study in law in the field of the Graduate Certificate in Law in which he or she wishes to enrol.

## Course Structure

Students must undertake a total of 48 credit points (4 units). This may be achieved in one of two ways:

1. Students may nominate a major from the list below and choose 48 credit points (4 units) from that particular major; or
2. Students may complete a generic course by choosing the 48 credit points (4 units) from any major.

Majors:

Commercial Transactions, Corporate Law, Criminal Justice, Environmental Law, Health Law, International Law, Media and Communications Law, Planning and Resources, Property Law, Public Law, Intellectual Property Law.

NOTE: International students are normally only able to undertake a generic course.

## Unit Information

Not all units are available in any one year. Generally, postgraduate units are offered on a two year rotational basis, and offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive, internal and external mode of study.

Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

\*International students on student visas are able to enrol in a combination of intensive, external and internal units each semester. (This is subject to approval).

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities.

## Articulation to the Master of Laws by Coursework

The Graduate Certificate in Law articulates into the Master of Laws (LW51) course.

A student who has successfully completed the Graduate Certificate in Law and who does not hold a Bachelor of Laws degree or equivalent, may be permitted to enter the Master of Laws course if he or she achieves a minimum GPA of 5.5 in the Graduate Certificate in Law, and has the approval of the Director of Graduate Programs.

## Course structure

Students must undertake a total of 48 credit points (4 units). This can be achieved in 1 of 2 ways:

OPTION 1 Students may nominate a major from the lists below and choose all 4 units from within that particular major; OR

OPTION 2 Students may complete a generic course by choosing 4 units from any of the lists below to the value of 48cps

Note: International students are normally only able to undertake a generic course

#### Potential Careers:

Academic, Actuary, Barrister, Solicitor.

# Graduate Certificate in Legal Studies (LW65)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 040307E

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$8,000 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 48

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Director, Graduate Programs

**Campus:** Gardens Point and External

## Overview

For non-law graduates or professionals working in the legal sector, the Graduate Certificate in Legal Studies will help develop professional competencies, skills and knowledge. The course provides short, focused programs to upgrade qualifications, and may lead into the Graduate Diploma in Legal Studies. On completion of this course you should be able to contribute to your employer's practical services, organisation and policy making.

## Entry Requirements

An appropriate undergraduate degree from a recognised tertiary institution or Professional experience that the Course Coordinator deems to be appropriate

## Advanced Standing

Students who have previously undertaken undergraduate law units (equivalent to core units in LW65) at QUT may apply for a maximum of 24 credit points for these units towards the LW65 Graduate Certificate in Legal Studies

## Course Structure

Students are required to undertake 4 units (48 credit points). These units are core units taken from the Bachelor of Laws (LW33) program.

## External Students

Entry to the distance education (external) mode of the course is restricted to applicants who reside in Australia outside a 30 kilometre radius of the Gardens Point campus.

It is a requirement of that distance education students participate in two three-day attendance schools per year in addition to the commencing students orientation school. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students' responsibility to ensure they have access to a suitable law library.

## Full-time course structure

### Semester 1 Entry

LWB136	Contracts A
LWP142	Law Society and Justice
LWB145	Legal Foundations A
LWB147	Torts A

### Semester 2 Entry

LWB136	Contracts A
LWP144	Laws and Global Perspectives
LWB145	Legal Foundations A
LWB147	Torts A

## Part-time course structure

### Semester 1 Entry

#### Year 1, Semester 1

LWB145	Legal Foundations A
LWB147	Torts A

#### Year 1, Semester 2

LWB136	Contracts A
LWP144	Laws and Global Perspectives

### Semester 2 Entry

#### Year 1, Semester 2

LWB145	Legal Foundations A
LWB147	Torts A

#### Year 1, Semester 1

LWB136	Contracts A
LWB142	Law, Society and Justice

# Graduate Diploma in Legal Studies (LW70)

### Year 2, Semester 1

LWB136 Contracts A  
LWP142 Law Society and Justice

### Year 2, Semester 2

LWP137 Contracts B  
LWP144 Laws and Global Perspectives

## Course Structure

These course structures are based on Semester 1 entry to the course.

## Potential Careers:

Banking and Finance Professional, Community Education Officer, Contract Administrator, Educator, Facilities Manager, Family Services Officer, Information Officer, Marketing Officer/Manager.

# Faculty of Science and Technology

## Entry Programs (International)

QC01 Accelerated Foundation

QC02 Standard Foundation

QC04 Extended Foundation

QC10 English for Academic Purposes for degree programs

QC10 English for Academic Purposes for Foundation and University Diploma Programs

QC20 General English

QC21 General English Extension

QC22 English for Tertiary Preparation

QC24 English For Academic Purposes Plus

## Certificate

QC05 University Certificate In Tertiary Preparation

## Diploma

IT10 University Diploma in Information Technology

## Bachelor Degree

IT04 Bachelor of Games and Interactive Entertainment

IT04 Bachelor of Games and Interactive Entertainment - Dean's Scholars Program

IT06 Bachelor of Corporate Systems Management

IT06 Bachelor of Corporate Systems Management - Dean's Scholars Program

IT22 Bachelor of Information Technology

IT22 Bachelor of Information Technology - Dean's Scholars Program

IT23 Bachelor of Information Technology

IX25 Bachelor of Engineering (Software Engineering)

LS37 Bachelor of Applied Science (Medical Science)

LS50 Bachelor of Biotechnology Innovation

MA54 Bachelor of Mathematics

PH38 Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology)

PH38 Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology)

SC01 Bachelor of Applied Science

SC01 + SC60 Bachelor of Applied Science & Bachelor of Applied Science (Honours) - Dean's Scholars

Accelerated Honours Program

SC40 Bachelor of Biomedical Science

SC45 Bachelor of Pharmacy

## Bachelor Degree (Double)

IF21 Bachelor of Engineering (Electrical)/ Bachelor of Mathematics

IF29 Bachelor of Applied Science/Bachelor of Information Technology

IF38 Bachelor of Information Technology/Bachelor of Laws

IF39 Bachelor of Applied Science/Bachelor of Laws

IF58 Bachelor of Mathematics/Bachelor of Information Technology

IF59 Bachelor of Engineering (Electrical)/Bachelor of Information Technology

IF60 Bachelor of Mathematics/Bachelor of Business (Accountancy, Banking and Finance or Economics)

IF61 Bachelor of Applied Science/Bachelor of Business

IF84 Bachelor of Applied Science/Bachelor of Education (Primary)  
IF86 Bachelor of Arts/Bachelor of Applied Science  
IT07 Bachelor of Corporate Systems Management/Bachelor of Information Technology  
IT08 Bachelor of Corporate Systems Management/Bachelor of Information Technology  
IT09 Bachelor of Corporate Systems Management/Bachelor of Games and Interactive Entertainment  
IX02 Bachelor of Applied Science/Bachelor of Education (Secondary)  
IX14 Bachelor of Applied Science/Bachelor of Education (Primary)  
IX26 Bachelor of Applied Science/Bachelor of Information Technology  
IX27 Bachelor of Creative Industries / Bachelor of Information Technology  
IX29 Bachelor of Information Technology/Bachelor of Mathematics  
IX31 Bachelor of Applied Science / Bachelor of Business  
IX33 Bachelor of Business/Bachelor of Information Technology  
IX37 Bachelor of Business / Bachelor of Mathematics  
IX49 Bachelor of Arts/Bachelor of Information Technology  
IX53 Bachelor of Information Technology/Bachelor of Laws  
IX54 Bachelor of Engineering (Electrical)/Bachelor of Information Technology  
IX55 Bachelor of Applied Science(Study Area A)/Bachelor of Information Technology  
IX56 Bachelor of Creative Industries/Bachelor of Information Technology  
IX57 Bachelor of Information Technology/Bachelor of Mathematics  
IX58 Bachelor of Business (Study Area A)/ Bachelor of Information Technology  
IX61 Bachelor of Corporate Systems Management/Bachelor of Justice  
IX62 Bachelor of Business/Bachelor of Corporate Systems Management  
IX63 Bachelor of Business/Bachelor of Games and Interactive Entertainment  
IX64 Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics  
IX65 Bachelor of Applied Science/Bachelor of Games and Interactive Entertainment  
IX69 Bachelor of Fine Arts (Interactive and Visual Design) / Bachelor of Information Technology  
IX72 Bachelor of Applied Science / Bachelor of Laws  
SC20 Bachelor of Applied Science/Bachelor of Mathematics

### **Honours**

IT04 Bachelor of Games and Interactive Entertainment - Dean's Scholars Program  
IT06 Bachelor of Corporate Systems Management - Dean's Scholars Program  
IT22 Bachelor of Information Technology - Dean's Scholars Program  
IT28 Bachelor of Information Technology (Honours)  
IT29 Bachelor of Information Technology (Honours) - Accelerated Program  
LS50 Bachelor of Biotechnology Innovation  
SC01 + SC60 Bachelor of Applied Science & Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program  
SC60 Bachelor of Applied Science (Honours)

### **Graduate Certificate**

IT73 Graduate Certificate in Information Management (Library Studies)(refer to IT43)  
IT74 Graduate Certificate in Information Management (Information and Knowledge Management)  
IT75 Graduate Certificate in Information Management (Records Management)  
IT76 Graduate Certificate in Information Management (Web Management)  
IT85 Graduate Certificate in Information Technology  
IT89 Graduate Certificate in Information Technology (Wireless Games Technology)

IT90 Graduate Certificate in Information Technology (Computer Networks)  
IT92 Graduate Certificate in Information Technology (Information Security)  
IT93 Graduate Certificate in Information Technology (Enterprise Wide Software)  
IT94 Graduate Certificate in Information Technology (Electronic Commerce)  
IT95 Graduate Certificate in Information Technology (Project)  
IT97 Graduate Certificate in Information Technology (Generic)  
IT98 Graduate Certificate in Information Technology (Multimedia)  
IT99 Graduate Certificate in Information Technology (Component Software and Web Services)  
IX97 Graduate Certificate in Research Commercialisation  
LS66 Graduate Certificate in Biotechnology  
MA65 Graduate Certificate in Mathematical Science  
PH60 Graduate Certificate in Applied Science (Breast Ultrasound)  
PH62 Graduate Certificate in Lighting (on-shore)  
PH63 Graduate Certificate in Lighting (off-shore)

### **Graduate Diploma**

IT35 Graduate Diploma in Information Technology (IT Graduates)  
IT37 Graduate Diploma In Information Technology  
IT38 Graduate Diploma in Information Technology (Non-IT Graduates)  
LS76 Graduate Diploma in Biotechnology  
MA75 Graduate Diploma in Mathematical Science  
PH71 Graduate Diploma in Applied Science (Medical Physics)  
PH71 Graduate Diploma in Applied Science (Medical Ultrasound)  
PH72 Graduate Diploma in Lighting (on-shore)  
PH73 Graduate Diploma in Lighting (off-shore)  
PH75 Graduate Diploma in Cardiac Ultrasound  
SC71 Graduate Diploma in Applied Science

### **Masters Degree (Coursework)**

IF98 Master of Business Administration/Master of Information Technology 1  
IT40 Master of Information Technology (IT Graduates)  
IT43 Master of Information Technology  
IT44 Master of Information Technology (Advanced)  
IT45 Master of Information Technology (Non-IT Graduates)  
IT48 Master of Information Technology (Advanced)  
IT53 Master of Business Process Management  
IT70 Master of Information Management(refer to IT43)  
IT74 Graduate Certificate in Information Management (Information and Knowledge Management)  
IT75 Graduate Certificate in Information Management (Records Management)  
IT76 Graduate Certificate in Information Management (Web Management)  
IX99 Master of Research and Development Management  
LS86 Master of Biotechnology  
LS96 Master of Biotechnology (Advanced)  
MA85 Master of Mathematical Science  
PH80 Master of Applied Science (Medical Physics)  
PH80 Master of Applied Science (Medical Ultrasound)  
PH82 Master of Lighting (on-shore)

PH83 Master of Lighting (off-shore)

PH85 Master of Cardiac Ultrasound

### **Masters Degree (Research)**

IT60 Master of Information Technology (Research)

SC80 Master of Applied Science (Research)

### **Doctoral**

IF49 Doctor of Philosophy (Information Technology)

IF49 Doctor of Philosophy (Mathematics)

IF49 Doctor of Philosophy (Science)

IT80 Doctor of Information Technology

### **University wide unit sets**

Unit sets: Accounting, Economics and Finance

Unit sets: Advertising, Integrated Marketing Communication, Logistics, Marketing and Public Relations

Unit sets: Built Environment and Design

Unit sets: Creative Industries

Unit sets: Engineering

Unit sets: Entrepreneurship, Human Resource Management and Management

Unit sets: Natural Resource Sciences

Unit sets: Faculty of Health

Unit sets: Information Technology

Unit sets: International Business, Languages, and Tourism and Entertainment Marketing

Unit sets: International Exchange

Unit sets: International Studies

Unit sets: Justice and the Law

Unit sets: Mathematical Sciences

Unit sets: Multimedia and Technologies

Unit sets: Physical and Chemical Sciences

Unit sets: Science

Unit sets: Society and Culture

Unit sets: Urban Development and Construction

## OVERVIEW

Science and technology are the engines of growth and wellbeing in modern society, so if you want to have a rewarding and exciting career then get yourself a degree from the Faculty of Science and Technology at QUT.

Graduates with degrees from the Faculty can end up in diverse professions anywhere in the world and can work as pharmacists, radiation therapists, forensic scientists, biotechnologists, industrial chemists, games designers and developers, business analysts, software engineers, IT consultants, animators, film and television special effects developers, information managers, web developers, database managers or network administrators, to name just a few. We combine teaching excellence and groundbreaking research with strong industry links and a global perspective to give you the opportunity to help us change the world.

Academic learning is complemented by strong practical components, including: laboratory programs, industry internships and student projects undertaken jointly with industry. Students have the opportunity to engage in real-world activities appropriate to their discipline, for example clinical attachments in the medical science and technology fields, or best practice training in our CISCO networking academy.

Our courses combine sophisticated knowledge and professional competence with the development of skills in problem-solving, communication and team work. We frequently consult industry leaders to ensure our courses are world-class. First year students receive special attention and our graduates are among the most employable in the world.

The Faculty is active within all of QUT's research institutes, including:

- Institute of Health and Biomedical Innovation
- Information Security Institute
- Institute for Creative Innovation: and
- Institute of Sustainable Resources.

We help to provide global solutions in the areas of Energy, Environment, Food, Health and Information Technology.

Our researchers and lecturers are internationally renowned for their achievements in science and technology. With our first class facilities and diverse fields of study you'll find the ideal environment to advance your educational, professional, and research goals.

The Faculty of Science and Technology has world-leading collaborations with major corporations. These links underpin our excellence in research and teaching. Just a few examples include collaboration with Bill and Melinda Gates Foundation to improve the health of children in Africa; with Syngenta Corporation to make biofuels from sugar cane; and with SAP to transform research and teaching capabilities in Universities across the Asia-Pacific region.

To fast-track your studies, we offer a Dean's Scholars Accelerated Honours Program for high-achieving students and industry work placements which provide students with the opportunity to learn a salary while progressing through their degrees.

Double degree options are available as part of a flexible program of academic studies.

A range of courses are offered within the five multidisciplinary schools:

- School of Information Technology
- School of Life Sciences
- School of Mathematical Sciences
- School of Natural Resource Sciences; and
- School of Physical and Chemical Sciences.

The School of Information Technology offers undergraduate courses in three degrees, Bachelor of Information Technology, Bachelor of Corporate Systems Management and Bachelor Games and Interactive Entertainment as well as a wide variety of undergraduate double degrees across QUT Faculties plus studies at the Honours, Masters, PhD and Professional Doctorate levels. Students can choose a specialisation from a large range of topics including animation and computational arts, digital media, games design, software technologies, business needs analysis, electronic business, information management Information Technology project management, business process management, data warehousing and digital societies.

The School of Life Sciences offers studies in courses focussed on biomedical and medical sciences, biotechnology, microbiology, and biochemistry. The School enjoys close working relationships with industry, which in turn help to provide students with a 'hands-on' approach to all of its courses. The Bachelor of Pharmacy course, which is offered through School of Life Sciences, focusses on community and hospital pharmacy practice.

The School of Mathematical Sciences offers studies in applied mathematics, mathematical finance, applied statistics, scientific computation and visualisation, and operations research. There is an emphasis on the applications of mathematics, and many of the units are enriched by examples from business and industry.

The School of Natural Resource Sciences offers major studies in environmental science, ecology and geoscience, complemented by co-majors in biodiversity, and applied geology, with a clear focus on climate change.

The School of Physical and Chemical Sciences offers majors in both Physics and Chemistry with co-majors in astrophysics, forensic science and industrial chemistry. Forensic science can also be taken as a double major with chemistry, biochemistry, biotechnology or microbiology. The School also offers courses in medical radiation technology, with majors in medical imaging technology and radiotherapy technology, which lead to exciting careers as a diagnostic radiographer or radiation therapist respectively.

For information about the Faculty of Science and Technology visit: [www.scitech.qut.edu.au](http://www.scitech.qut.edu.au)

## SENIOR STAFF

### Faculty Office

*Executive Dean:* Professor S.M. Kaplan, BSc PhD Cape Town, FACS, HonFIEAust, MACM

*Assistant Dean (International and Development):* Professor A. Taji, BAgSc(Hons) Tehran, GradDipHortSci Syd., PhD Flinders, MDP Harvard

*Assistant Dean (Research):* Professor M.N. Sillence, BSc(Hons) CertEd PhD Leeds

*Assistant Dean (Teaching and Learning):* Dr S.L. Edwards, DipLib RMIT, GCEd(HE) MIT(Res) PhD QUT, AALIA, MACS

*Postgraduate Coordinator:* P.B. Mather, BSc(Hons) PhD Lot

*Faculty Coordinator (Courses):* D.G. Mallet, BAppSc(Hons)(Maths), GradCertTertEd, MEducation (MathsEd) S.Qld, PhD QUT

*Faculty Manager:* S. Bee, BSc GradDipAdmin Griff.

### School of Information Technology

*Head:* Professor M. Looi, BEng(Hons) BAppSc PhD QUT, MIEEE, MACS, CDec

#### Professors:

C. Boyd, BSc, PhD Warwick, CMath

C. Bruce, BA Qld, GradDipLibSc MEd(Res) QUT, PhD NE

P. Bruza, BSc Qld, MSc KUN, PhD KUN

C. Fidge, BAppSc RMIT, MAppSc RMIT, PhD ANU

G. Gable, DipCompSys NAIT, BCom Alta, MBA W Ontario, PhD Brad., ACS, AIR, IRMA

K. Raymond, BSc BSc(Hons) PhD Qld

P. Roe, MEng(Hons) York, PhD Glas., MACM

M. Rosemann, MBA PhD Univ of Münster Germany

A. Spink, BA ANU, DipLib NSW, MBA Fordham Univ NY, PhD Rutgers Univ New Jersey

G. Stewart, BA DipEd MLitSt (CompSci) Qld, PhD QUT, FACS, PCP, AIMM, MIEEE, MACM

A. ter Hofstede, MSc PhD KUN

#### Associate Professors:

R. Christie, MAppSc QUT, BA NE, DipCompSci UNE, DipTeach NCAE

M. Docherty, B.Arch (Hons1) Adel., M.Arch Qld, MACS, FQAS

S. Geva, BSc Hebrew Jerusalem, MAppSc, PhD QUT, MACM

J.M. Hogan, BSc (Hons), Qld, PhD, QUT

Y. Li, BSc, MSc Jilin, PhD Deakin

K. Nelson, NZCS Otago Poly, BInfoTech(Hons1), PhD QUT, MACS (Snr)

H. Partridge, BA, GradCertEd (Higher Ed.), PGDipPsych, Qld, MIT, PhD QUT

Y-C. Tian, BEng WIT, MEng ECUST, PhD ZJU

### School of Life Science

*Head:* Professor A.C. Herington, BSc(Hons) PhD Monash

#### Professors:

J.A. Clements, BAppSc MAppSc RMIT, PhD Monash

C. Nelson, BSc(Hons) PhD Canberra

P. Timms, MSc PhD Qld, FASM

Z. Upton, BSc(Hons) PhD Adel.

#### Associate Professors:

J. Aaskov, BSc(Hons) PhD Leeds

C.C. Collet, BSc(Hons) PhD LaTrobe

P. Giffard, BSc(Hons) PhD Aberd.

L.M. Hafner, BSc(Hons) PhD LaTrobe

R.M. Harding, BSc(Hons) PhD Qld

D.I. Leavesley, BSc(Hons) PhD Imperial College London

M.H. Hargreaves, BSc(Hons) GradCertEd (Higher Ed) PhD QUT, MASM

C.P. Morris, BSc(Hons) PhD Adel.

F.B. Ross, BSc(Hons) PhD Qld

T.P. Walsh, BSc(Hons) PhD Qld

### School of Mathematical Sciences

*Head:* Professor A.N. Pettitt, BSc(Hons) MSc PhD Nott, FSS, MSSAI

#### Professors:

V.V. Anh, BSc(Hons) PhD Tas., MEc NE, FAustMS, MSSAI, MIEEE

E. Kozan, BSc MSc Middle East, PhD Hacettepe, MASOR

H. MacGillivray, BSc(Hons) PhD Qld, MSSAI

D.L.S. McElwain, BSc(Hons) Qld, PhD York(Can.)

K. Mengersen, BA(Hons) PhD NE, FRSS, MSSAI, MIMS, MIBS

I.W. Turner, BAppSc (Maths), MAppSc (Maths) QIT, PhD Qld

R.C. Wolff, BSc(Hons) Qld, DPhil Oxon, CStat RSS

*Associate Professor:* G.J. Pettet, BSc BMath

BMath(Hons) DipEd PhD Newcastle

### School of Natural Resources Sciences

*Head:* Associate Professor D.A. Gust, BA Lawrence, MA Rice, PhD ANU

*Professor:* P.R. Grace, BSc ANU, PhD Qld

#### Associate Professors:

A.R. Clarke, BAgSc Qld, PhD Qld, FRES

M.E. Cox, BA(EthSc) Macq, MS Hawaii, PhD Auck

### School of Physical and Chemical Sciences

*Head (Acting):* Associate Professor G. Ayoko, BSc(Hons) MSc A.Bello, DPhil Sus., MRACI, CChem, MRSC

#### Professors:

R.L.W. Frost, BEd MSc PhD Qld, DSc QUT, CChem, FRACI

C.M. Langton, BSc(Hons), MSc, PhD, DSc, FInstP, FIPEM, FAIMBE, CEng

L. Morawska, MSc(Physics) PhD(Physics) Jagiellonian

#### Associate Professors:

D. Arnold, BSc(Hons) PhD Qld, DSc(QUT), CChem, FRACI

S. Bottle, BSc (Hons) Qld, PhD Griff., FRACI

B.H. Cornish, DipT BAppSc MAppSc(MedPhys) GradDipBusAdmin PhD QUT, MACPSEM, MAIP

I. Cowling, BSc(Hons) PhD Flinders, FIES

P.M. Fredericks, BSc(Hons) DPhil Sus., CChem, FRACI

P. Rowntree, DipAppSc (DiagRad) GradDipEd (Tert)

S.Qld, FIR, AISRRT

H.Y. Zhu, BSc Inner Mongolia Univ (China), MSc Nankai (China), PhD UIA, (Belgium)

## RESEARCH CENTRE

### Information Technology Research Clusters

Information Technology at QUT employs innovative research to solve real-world problems for industry and our community.

Information Technology research is involved in a number of research collaborations with government and industry, and hosts the Microsoft QUT eResearch Centre researching smart IT tools for eResearch.

Our research expertise is clustered around the following themes:

#### Critical systems:

- Security-Critical Systems
- Safety-Critical Systems
- Mission-Critical Systems

The Critical Systems cluster is concerned with implementing, analysing and managing the complexity of "critical" computer-based systems, including: Security-critical systems, that protect data confidentiality, privacy and integrity, Safety-critical systems, whose failure could result in life-threatening situations (e.g., traffic control, electronic healthcare, industrial automation and robotics, etc) and Mission-critical systems, which ensure enterprise viability (e.g., decision making tools, web services, maintenance principles, planning algorithms, etc).

Cluster leader: Professor Colin Fidge

Phone +61 7 3138 2870

Email [c.fidge@qut.edu.au](mailto:c.fidge@qut.edu.au)

#### Enterprise systems:

- Business Process Management
- Information Systems Impact
- Knowledge Management

Enterprise Systems research aims to support the effective provisioning of IT-mediated computer services within organisations and includes Business Process Management and workflow from an integrated organisational and technical perspective, the impact information systems have on organisational success and knowledge management within organisations.

Cluster leader: Professor Guy Gable

Phone: +61 7 3138 9472

Email [g.gable@qut.edu.au](mailto:g.gable@qut.edu.au)

#### Information sciences:

- Cognitive Informatics
- Information Retrieval
- Information Literacy

Research in the Information Sciences cluster explores the relationships between information, technology and users. This includes information behaviour research which looks at the cognitive and social factors that influence how users engage with online systems and information literacy and learning in academic, community and workplace settings.

Cluster leader: Professor Christine Bruce

Phone: +61 7 3138 2769

Email [c.bruce@qut.edu.au](mailto:c.bruce@qut.edu.au)

#### Smart tools and services:

- eResearch
- Programming Languages and Systems
- Visual and Media Computing

This research program investigates the tools, theories and practices needed to make computer based systems work intelligently and efficiently, and to align these systems more closely to human needs. Our eResearch work looks at accelerating discovery in scientific research, particularly in bioinformatics and earth sciences, through smart software tools which enable the simple and rapid analysis of vast amounts of data and which support collaboration between scientists. Research is also being pioneered in the field of computer games and other forms of interactive entertainment where the recent explosion in their use has made multimedia content-rich social environments an integral part of the way we interact with technology.

Cluster leader: Professor Paul Roe

Phone +61 7 3138 9323

Email [p.roe@qut.edu.au](mailto:p.roe@qut.edu.au)

### Science Research Clusters

Science at QUT employs innovative research to solve real-world problems for industry and our community.

In particular, we are dedicated to tackling four major themes which represent significant challenges locally and globally. These themes are: food, energy, health and the environment.

Most of our research is multidisciplinary, involving collaborative centres, institutes and industry partners. These partnerships bring together experts from our six core discipline clusters which are illustrated below.

#### Applied chemistry

- Novel materials and nanotechnology
- Medicinal and forensic chemistry
- Polymers

This cluster contains organic, inorganic and polymer chemists who develop novel materials ranging from solar cells and filtration systems, through to antioxidant compounds and materials to assist wound healing. Forensic and analytical chemistry is also a focus of this group.

Cluster leader: Professor Ray Frost

Phone +61 7 3138 2407

Email [r.frost@qut.edu.au](mailto:r.frost@qut.edu.au)

#### Applied physics

- Medical physics
- Environmental physics
- Applied optics and nanotechnology

This cluster conducts research into medical imaging technologies in association with the Queensland Cancer Physics Collaborative, as well as studies into particle physics, optics, lighting and nanotechnology.

Cluster leader: Professor Christian Langton

Phone: +61 7 3138 2002

Email [christian.langton@qut.edu.au](mailto:christian.langton@qut.edu.au)

### **Plant and industrial biotechnology**

- Tropical crops and biocommodities
- Biofuels and bioprocessing
- Applied microbiology

This cluster incorporates the Centre for Tropical Crops and Biocommodities, with a focus on improving the nutritional value and disease resistance of tropical crops, the producing biofuels from agricultural waste products, and industrial fermentation and processing technologies to yield food products, fuel, or industrial chemicals.

Cluster leader: Professor James Dale  
Phone: +61 7 3138 2819  
Email [j.dale@qut.edu.au](mailto:j.dale@qut.edu.au)

### **Biomedical sciences**

- Infectious diseases
- Hormone dependent cancer
- Tissue repair and regeneration

This represents a domain within QUT's Institute for Health and Biomedical Innovation, where scientists, engineers and health professionals work together on problems such as infectious diseases, cancer and wound healing.

Cluster leader: Professor Peter Timms  
Phone +61 7 3138 6199  
Email [p.timms@qut.edu.au](mailto:p.timms@qut.edu.au)

### **Earth and environmental sciences**

- Earth and energy systems
- Soil, air and water systems
- Biological systems

This cluster is associated with QUT's Institute for Sustainable Resources and the national Collaborative Research Centre for Plant Biosecurity. Its members conduct research into climate change, air and water quality, animal and plant ecology, and geological systems.

Cluster leader: Professor Peter Grace  
Phone +61 7 3138 9283  
Email [pr.grace@qut.edu.au](mailto:pr.grace@qut.edu.au)

### **Mathematical sciences**

- Statistical and computational methods
- Operations research
- Statistical and mathematical modelling

Members of this cluster collaborate on a wide variety of projects associated with the themes of energy, food, health and the environment. Mathematical modelling, the statistical and computational groups and operations research teams service a range of industries from the pharmaceutical sector through to forestry and energy companies.

Cluster leader: Professor Ian Turner  
Phone +61 7 3138 2259  
Email [i.turner@qut.edu.au](mailto:i.turner@qut.edu.au)

## Bachelor of Engineering (Electrical)/ Bachelor of Mathematics (IF21)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 020329J

**Course duration (full-time):** 5 years

**Domestic fees (indicative):** 2009: CSP \$3,547 (indicative) per semester

**International Fees (per semester):** 2009: \$11,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419572

**Past rank cut-off:** 80

**Past OP cut-off:** 11

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 480

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr R.Mahalinga-Iyer (Engineering); Professor Helen MacGillivray (Mathematics)

**Discipline coordinator:** Dr Jason Ford (Engineering)

**Campus:** Gardens Point

### Recommended study

Chemistry, Maths C and Physics are recommended.

### Career Opportunities

Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of government and private companies. A stronger training in mathematics and statistics enhances capabilities in modelling, analysis and design.

### Overview

The program integrates both the engineering and mathematics degree. Mathematics and engineering have always had close connections, but recent advancement in mathematics and statistics are increasingly being used to help solve complex engineering problems.

### Special Course Requirements

A candidate for this course must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia, and the coursework requirements for accredited graduate membership of the Australian Mathematical Society. Students may also become a member of the Statistical Society of Australia.

### Contact Details

### Electrical Coordinator

Dr Firuz Zare

Email: [bee.enquiries@qut.com](mailto:bee.enquiries@qut.com)

### Mathematics Coordinator

Professor Helen MacGillivray

Phone: +61 7 3138 2337

Email: [h.macgillivray@qut.edu.au](mailto:h.macgillivray@qut.edu.au)

### Bursaries and Scholarships

Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded on a competitive basis. Go to QUT Scholarships website. Look under Commencing Students - Faculty Scholarships.

### International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

### Further information

Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: [bee.enquiries@qut.com](mailto:bee.enquiries@qut.com)

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Course structure - For students with four semesters of Senior Mathematics B and Senior Mathematics C

For students with four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent) with an exit assessment of at least Sound Achievement in both subjects.

null

#### Year 1, Semester 1

BEB100	Introducing Professional Learning

### Year 2, Semester 1

ENB240	Introduction To Electronics
ENB246	Engineering Problem Solving
MAB220	Computational Mathematics 1
MAB311	Advanced Calculus

### Year 2, Semester 2

ENB243	Linear Circuits and Systems
ENB244	Microprocessors and Digital Systems
MAB210	Statistical Modelling 1
MAB413	Differential Equations

### Year 3, Semester 1

ENB242	Introduction To Telecommunications
ENB350	Real-time Computer-based Systems
MAB312	Linear Algebra
MAB314	Statistical Modelling 2

### Year 3, Semester 2

BEB200	Introducing Sustainability
ENB245	Introduction To Design and Professional Practice
ENB352	Communication Environments For Embedded Systems
MAB414	Applied Statistics 2

### Year 4, Semester 1

ENB301	Instrumentation and Control
ENB340	Power Systems and Machines
ENB342	Signals, Systems and Transforms Mathematics elective (Level 2)

### Year 4, Semester 2

ENB345	Advanced Design and Professional Practice
ENB346	Digital Communications

## SCIENCE AND TECHNOLOGY

ENB458 Modern Control Systems  
Mathematics elective (Level 3)

### Year 5, Semester 1

BEB701 Work Integrated Learning 1  
BEB801 Project 1  
Electrical Engineering elective  
Mathematics elective (Level 3)

### Year 5, Semester 2

BEB802 Project 2  
ENB344 Industrial Electronics  
Mathematics elective (Level 3)  
Mathematics elective (Level 3)

### Electrical Engineering Electives

ENB231 Materials and Manufacturing 1  
ENB334 Design For Manufacturing  
ENB350 Real-time Computer-based Systems  
ENB352 Communication Environments For Embedded Systems  
ENB436 Mechatronics System Design  
ENB440 RF and Applied Electromagnetics  
ENB441 Applied Image Processing  
ENB445 RF Communication Technologies  
ENB446 Wireless Communications  
ENB448 Signal Processing and Filtering  
ENB452 Advanced Power Systems Analysis  
ENB453 Power Equipment and Utilisation  
ENB454 Power System Management  
ENB455 Power Electronics  
ENB456 Energy  
ENB457 Controls, Systems and Applications  
ENB458 Modern Control Systems  
INB353 Wireless and Mobile Networks  
INB860 Computational Intelligence for Control and Embedded Systems

### Mathematics Electives (Level 2)

MAB313 Mathematics of Finance  
MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB461 Discrete Mathematics  
MAB480 Introduction to Scientific Computation

### Mathematics Electives (Level 3)

Four units required:

MAB521 Applied Mathematics 3

MAB522 Computational Mathematics 3  
MAB524 Statistical Inference  
MAB533 Statistical Techniques  
MAB536 Time Series Analysis  
MAB613 Partial Differential Equations  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB672 Advanced Mathematical Modelling

### NOTES:

- Some deviations from the above course structure may be possible with the permission of the course coordinator. This is more likely to apply in the later years than the earlier years of the course.

### Potential Careers:

Electrical and Computer Engineer, Electrical Engineer, Mathematician, Statistician.

## Bachelor of Applied Science/Bachelor of Information Technology (IF29)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 020327M

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419302; Dfee: 419306

**Past rank cut-off:** 72. Dfee places were not offered last year.

**Past OP cut-off:** 13. Dfee places were not offered last year.

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 408 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science); Ruth Christie(InfTech)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)  
**Campus:** Gardens Point

### Career Opportunities

The course prepares you for an increasing range of careers that involve the application of information technology to science. As a graduate of the double degree, you are also qualified for employment in the areas of software engineering and data communications.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field.

### Recommended study

At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

### Course Design

The science component of the course offers you a choice of one of the major areas of study available in the Bachelor of Applied Science (SC01) course. To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the information technology program therefore it is not possible to choose any of the co-majors

listed under the Bachelor of Applied Science course.

The information technology component gives you the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the Science and Information Technology degrees.

### Professional Recognition

Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

### Cooperative Education Program

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit <http://coop.fit.qut.edu.au/>

**Potential Careers:**

Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Data Communications Specialist, Economist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Population Ecologist, Software Engineer, Systems Analyst, Virologist.

## Bachelor of Information Technology/Bachelor of Laws (IF38)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 006385G

**Course duration (full-time):** 5 Years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$11,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419622

**Past rank cut-off:** 90

**Past OP cut-off:** 6

**Assumed knowledge:** English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528

**Course coordinator:** IT: Mr Richard Thomas; Dr. Bill Dixon  
Director Undergraduate Law Programs

**Campus:** Gardens Point

### OP Guarantee

The OP Guarantee does not apply to this program.

### Overview

An objective of this double degree is to provide graduates with the ability to practise law in light of the complex environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, graduates can choose to practise as computing professionals specialising in legal applications or information systems.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

### Career Outcomes

Graduates of the Bachelor of Information Technology component may find employment as a: Programmer Systems Programmer Systems Manager Systems Designer Systems Analyst Computer Sales and Marketing Consultant Data Processing Manager

### Professional Recognition

The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

### Further Information

Faculty of Science and Technology: phone +61 7 3138 2782, fax +61 7 3138 2703, email [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au)

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### IF38 - B InfoTech/B Laws

#### Course Structure 2009

The Law School is currently reviewing the law components of this course. This program may change in 2009 and is subject to final approval.

#### Year 1, Semester 1

INB104	Building IT Systems
INB103	Industry Insights
INB210	Databases
INB250	Systems Architecture

#### Year 1, Semester 2

INB270	Programming
INB251	Networks

**Total credit points:** 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Standard credit points per full-time semester:** 60 (years 1 and 4), 48 (years 2, 3 and 5)

**Course coordinator:** Dr Perry Hartfield (Science); Dr. William Dixon Director, Undergraduate Programs (Law)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point

### Career Opportunities

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

### OP Guarantee

The OP Guarantee does not apply to this course.

### Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

### Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

## SCIENCE AND TECHNOLOGY

### Year 2, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
LQB386	Microbial Structure and Function

### Year 2, Semester 2

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics
	Either:
LQB481	Biochemical Pathways and Metabolism
	Or
LQB486	Clinical Microbiology 1

### Year 3, Semester 1

Select TWO units from:

LQB583	Genetic Research Technology
LQB584	Medical Cell Biology
LQB585	Plant Genetic Manipulation

### Year 3, Semester 2

Select TWO units from:

LQB682	Protein Biochemistry and Bioengineering
LQB684	Medical Biotechnology
LQB685	Plant Microbe Interactions

### Course structure - Major in Chemistry

#### Year 2, Semester 1

PQB312	Analytical Chemistry For Scientists and Technologists
PQB313	Analytical Chemistry For Industry
PQB331	Structure and Bonding

#### Year 2, Semester 2

PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy
	Either
PQB404	Nanotechnology and Nanoscience
	Or
PQB423	Process Principles

#### Year 3, Semester 1

PQB502	Materials Chemistry and Characterisation
PQB531	Chemical Reactions 2

#### Year 3, Semester 2

PQB631	Applied Molecular Science
PQB642	Chemical Research

### Course structure - Major in Ecology

#### Year 2, Semester 1

NQB302	Earth Surface Systems
NQB321	Ecology
	Either
NQB322	Invertebrate Biology
	Or
NQB323	Plant Biology

#### Year 2, Semester 2

NQB421	Experimental Design
NQB422	Genetics and Evolution
NQB423	Vertebrate Biology

#### Year 3, Semester 1

NQB521	Population Genetics and Molecular Ecology
NQB523	Population Management

#### Year 3, Semester 2

NQB622	Conservation Biology
NQB623	Ecological Systems

### Course structure - Major in Environmental Science

#### Year 2, Semester 1

NQB302	Earth Surface Systems
NQB321	Ecology
	Either
NQB322	Invertebrate Biology
	Or
NQB323	Plant Biology

#### Year 2, Semester 2

NQB403	Soils and the Environment
NQB421	Experimental Design
NQB423	Vertebrate Biology

#### Year 3, Semester 1

NQB501	Environmental Modelling
NQB502	Field Mapping and Monitoring of Natural Resources

#### Year 3, Semester 2

NQB601	Sustainable Environmental Management
NQB602	Environmental Chemistry

### Course structure - Major in Forensic Science

#### Year 2, Semester 1

LQB383	Molecular and Cellular Regulation
PQB331	Structure and Bonding
SCB384	Forensic Sciences - From Crime Scene to Court

#### Year 2, Semester 2

## SCIENCE AND TECHNOLOGY

JSB979	Forensic Scientific Evidence
PQB312	Analytical Chemistry For Scientists and Technologists
PQB401	Reaction Kinetics, Thermodynamics and Mechanisms

### Year 3, Semester 1

PQB513	Instrumental Analysis
PQB584	Forensic Physical Evidence

### Year 3, Semester 2

LQB680	Forensic DNA Profiling
PQB684	Forensic Analysis

### Course structure - Major in Geoscience

#### Year 2, Semester 1

NQB311	Mineralogy
NQB314	Sedimentary Geology
NQB321	Ecology

#### Year 2, Semester 2

NQB411	Petrology of Igneous and Metamorphic Rocks
NQB412	Structural Geology and Field Methods
NQB413	Stratigraphy

#### Year 3, Semester 1

NQB502	Field Mapping and Monitoring of Natural Resources
NQB513	Geophysics

#### Year 3, Semester 2

NQB602	Environmental Chemistry
NQB614	Groundwater Systems

### Course structure - Major in Mathematics [WITH Mathematics C from Senior]

#### Year 2, Semester 1

	One Science unit - selected from:
SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 2, Semester 2

Three Level 2 Mathematics units\* - available units are:

MAB313	Mathematics of Finance
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB480	Introduction to Scientific Computation
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 1

	Two Level 3 Mathematics units - available units are:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

#### Year 3, Semester 2

	Two Level 3 Mathematics units - available units are:
MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

### Course structure - Major in Mathematics [WITHOUT Mathematics C from Senior]

#### Year 2, Semester 1

MAB220	Computational Mathematics 1
	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 2, Semester 2

	Three Level 2 Mathematics units* - available units are:
MAB313	Mathematics of Finance
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB480	Introduction to Scientific Computation
*	Students must complete at least one of MAB311, MAB312, MAB413

## SCIENCE AND TECHNOLOGY

### Year 3, Semester 1

Two Level 3 Mathematics units - available units are:

MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

### Year 3, Semester 2

Two Level 3 Mathematics units - available units are:

MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

### Course structure - Major in Microbiology

#### Year 2, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
LQB386	Microbial Structure and Function

#### Year 2, Semester 2

LQB483	Molecular Biology Techniques
LQB486	Clinical Microbiology 1
	Either
LQB481	Biochemical Pathways and Metabolism
	Or
LQB484	Introduction to Genomics and Bioinformatics

#### Year 3, Semester 1

LQB586	Clinical Microbiology 2
LQB587	Applied Microbiology 1: Water, Air and Soil

#### Year 3, Semester 2

LQB686	Microbial Technology and Immunology
LQB687	Applied Microbiology 2: Food and Quality Assurance

### Course structure - Major in Physics

#### Year 2, Semester 1

MAB311	Advanced Calculus
PQB350	Thermodynamics of Solids and Gases
PQB360	Global Energy Balance and Climate Change

#### Year 2, Semester 2

PQB450	Energy, Fields and Radiation
--------	------------------------------

PQB451	Electronics and Instrumentation
	Either
MMB451	Energy Management
	Or
PQB460	Astrophysics 1

#### Year 3, Semester 1

PQB550	Quantum and Condensed Matter Physics
PQB551	Physical Analytical Techniques

#### Year 3, Semester 2

PQB650	Advanced Theoretical Physics
PQB651	Experimental Physics

### Footnotes for Law Units

# Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2009. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.

\* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.

### Potential Careers:

Actuary, Analytical Chemist, Astrophysicist, Barrister, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Crown Law Officer, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Social Scientist, Solicitor, Statistician, Virologist.

## Doctor of Philosophy (Information Technology) (IF49)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 006367J

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**International Entry:** At any time

**Campus:** Gardens Point

### Course Overview

The Doctor of Philosophy (PhD) is awarded in recognition of a candidate's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge.

The candidate's research must reveal high critical ability and powers of imagination and synthesis and may be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

Topics can include multidisciplinary problems suggested by external bodies, for example, industry, government and commerce, with joint supervisors from both academic and outside environments. The candidate's doctoral work can be undertaken either on campus or at an off-campus location approved by QUT. The candidate's PhD will be linked with one of the Faculty's research areas.

### Entry Requirements

Applicants must have a relevant first- or second-class division A honours degree or equivalent from QUT or another recognised institution.

### Research Area

Areas of research interest and contact details can be obtained from the Faculty website.

### Course Structure

The length of the program is generally three years full-time (including one year of provisional registration) or six years part-time (including 24 months of provisional registration).

Assessment for the doctoral award is based on a program of supervised research and investigation, culminating in a thesis.

Programs may include some coursework in support of the conduct of research and preparation of the thesis. Candidates are required to have regular, face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

### Further Information

Visit [www.scitech.qut.edu.au](http://www.scitech.qut.edu.au), email [infotech.research@qut.edu.au](mailto:infotech.research@qut.edu.au), or phone +61 7 3138 1000

### Potential Careers:

Academic, Computer Games Developer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Librarian, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## Doctor of Philosophy (Mathematics) (IF49)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 006367J

**Course duration (full-time):** 30 to 48 months with an honours degree; 24 to 48 months with a masters degree

**Course duration (part-time):** 42 to 96 months with an honours degree; 36 to 96 months with a masters degree

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**International Entry:** At any time

**Course coordinator:** Associate Professor Peter Mather

**Discipline coordinator:** Professor Vo Anh

**Campus:** Gardens Point

null

Full details of the course structure are outlined in the following website:  
<http://www.research.qut.edu.au/restdncen>.

### Potential Careers:

Actuary, Data Communications Specialist, Mathematician, Statistician.

### Overview

The Doctor of Philosophy in science will suit graduates with an honours or masters degree who wish to seek highly-paid employment prospects in industry and research organisations and universities.

### Entry Requirements

Candidates must have a relevant first-class or second-class division A (upper division) honours degree or an appropriate masters degree.

### Course Description

When enrolling in the doctoral program, you can undertake an approved project in any field of interest supported by a Science research area within the Faculty of Science and Technology (outlined in the Faculty Prospectus).

Please note that these areas of research specialisation are given as a guide only. Staff are happy to discuss these and any related topics. Please contact the program leader of the relevant research area for further information.

You can undertake the course either full-time or part-time. If studying full-time with an appropriate honours degree, you can expect to complete your Doctor of Philosophy degree in three-and-a-half-years. Full details of the course structure are outlined in the following website:  
<http://www.research.qut.edu.au/restdncen>.

## Bachelor of Mathematics/Bachelor of Information Technology (IF58)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 020327M

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419552; Dfee: 419556

**Past rank cut-off:** 75. Dfee places were not offered last year.

**Past OP cut-off:** 12. Dfee places were not offered last year.

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 420 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)

**Course coordinator:** Dr Gary Carter (Mathematics) Richard Thomas (IT)

**Discipline coordinator:** Dr Gary Carter (Mathematics),

**Campus:** Gardens Point

### Career Opportunities

As a graduate you may find employment as a programmer, software engineer, systems programmer, technical support specialist, systems manager, systems designer, computer scientist, security analyst, systems analyst, data communications specialist, mathematician, or statistician.

### Course Structure

The double degree offers a foundation in mathematics and information technology in the first year. You will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in Data Communications and Software Engineering.

### Professional Recognition

On graduation, you will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

### Cooperative Education Program

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that

QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit <http://coop.fit.qut.edu.au/>

### Mathematics Scholarships

Students enrolled in this course can apply for industry-sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

### Contact Details

#### Course Coordinator

Dr Gary Carter (*Mathematics*)

Phone: +61 7 3138 5090

Email: [g.carter@qut.edu.au](mailto:g.carter@qut.edu.au)

#### IT Course Coordinator

Mr Richard Thomas (*Information Technology*)

Phone: +61 7 3138 2782

Email: [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au)

### Deferral

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferral.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### Mathematics Units

Students must complete at least 48 credit points from Level 3 mathematics units

#### Level 2 Units

MAB281	Mathematics for Computer Graphics
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2

## SCIENCE AND TECHNOLOGY

MAB420	Computational Mathematics 2	INB340	Database Design
MAB422	Mathematical Modelling	INB306	Project 1
MAB461	Discrete Mathematics	INB312	Enterprise Systems Applications
MAB480	Introduction to Scientific Computation	INB342	Enterprise Data Mining
MAB481	Visualisation and Data Analysis	INB385	Multimedia Systems
<b>Level 3 Units</b>		INB386	Advanced Multimedia Systems
MAB521	Applied Mathematics 3	INB313	Electronic Commerce Site Development
MAB522	Computational Mathematics 3	INB322	Information Systems Consulting
MAB524	Statistical Inference	INB330	Information Management
MAB525	Operations Research 3A	INB320	Business Process Modelling
MAB533	Statistical Techniques	INB335	Information Resources
MAB536	Time Series Analysis	INB120	Corporate Systems
MAB613	Partial Differential Equations	INB122	Organisational Databases
MAB623	Financial Mathematics	INB123	Project Management Practice
MAB624	Applied Statistics 3	INB124	Information Systems Development
MAB625	Operations Research 3B	INB220	Business Analysis
MAB640	Industry Project	INB221	Technology Management
MAB672	Advanced Mathematical Modelling	INB325	Corporate Systems Management Project
MAB681	Advanced Visualisation and Data Analysis	INB371	Data Structures and Algorithms
NOTES:	For students commencing in 2004 onwards, the units MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory. The suggested locations can be swapped.	INB272	Interaction Design
NOTE:	For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.	INB305	Special Topic 4
NOTE:	All Mathematics units have 4 contact hours per week.	INB365	Systems Programming
		INB372	Software Engineering Principles
		INB370	Software Development
		INB373	Web Application Development
		INB374	Enterprise Software Architecture
		INB350	Internet Protocols and Services
		INB255	Security
		INB352	Network Planning and Deployment
		INB351	Computer Network Administration
		INB353	Wireless and Mobile Networks
		INB382	Real Time Rendering Techniques
		INB381	Modelling and Animation Techniques
		INB355	Cryptology and Protocols
		INB180	Computer Games Studies
		INB181	Introduction to Games Production
		INB204	Special Topic 1
		INB304	Special Topic 3
		INB205	Special Topic 2
		INB860	Computational Intelligence for Control and Embedded Systems
		MAB281	Mathematics for Computer Graphics
			<b>Potential Careers:</b>
			Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.

### IT Elective Unit List

#### Information Technology Elective Unit List

INB104	Building IT Systems
INB103	Industry Insights
INB270	Programming
INB210	Databases
INB250	Systems Architecture
INB251	Networks
INB271	The Web
INB301	The Business of IT
INB302	Capstone Project
INS011	Co-operative Education 1
INS351	CCNA 3&4 Lan Switching
INB280	Fundamentals of Game Design
INB281	Advanced Game Design
INB341	Software Development With Oracle
INB311	Enterprise Systems

## Bachelor of Engineering (Electrical)/Bachelor of Information Technology (IF59)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 006384G

**Course duration (full-time):** 5 years

**Domestic fees (indicative):** 2009: CSP \$3,585 (indicative) per semester

**International Fees (per semester):** 2009: \$11,000 (indicative) per semester (*subject to annual review*)

**QTAC code:** 419512

**Past rank cut-off:** 76

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or **Total credit points:** 480

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr R.Mahalinga-Iyer (Engineering), Mr Richard Thomas (Information Technology)

**Discipline coordinator:** Dr Jasmine Banks (Engineering)

**Campus:** Gardens Point

### Recommended Study

Chemistry, Math C and Physics are recommended.

### Course Update

From semester one, 2009 this course will not be available for commencing students. IF59 will only be available for continuing students. New students - please refer to IX54. Please contact fit.enquiry@qut.edu.au for any enquiries.

### Career Outcomes

Many graduates find employment in government instrumentalities such as communications, railways, electricity supply, hospitals, transport and in private organisations that are using electronics, electronic systems, computers and microprocessors to monitor, control, communicate and optimise processes and production.

### Overview

The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This double degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

### Cooperative Education Program

An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with

include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit IT's Cooperative Education program home page at <http://coop.fit.qut.edu.au/>

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

### Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code

## Bachelor of Mathematics/Bachelor of Business (Accountancy, Banking and Finance or Economics) (IF60)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 027274G

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$4,002 (indicative) per semester

**Domestic Entry:** February

**International Entry:** February and July

**QTAC code:** 419212; Dfee: 419216

**Past rank cut-off:** 80. Dfee places were not offered last year.

**Past OP cut-off:** 10. Dfee places were not offered last year.

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 432

**Standard credit points per full-time semester:** 54 (Average)

**Course coordinator:** Prof Erhan Kozan (Mathematics); Dr Erica French (Business)

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavvoos Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)

**Campus:** Gardens Point

### Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX37 Bachelor of Business/Bachelor of Mathematics. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

### Career Opportunities

Test Graduates are equipped to undertake sophisticated economic and financial modelling which is important in business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Graduates of the Accountancy major can expect to find employment in auditing, financial analysis, corporate secretarial functions, costing, taxation, receivership,

bankruptcy, trusteeship or management services.

Graduates of the Banking and Finance major find employment in the banking area of finance which can involve retail, wholesale or international projects, the funding of operations and investment of funds in loans or liquidity.

Graduates with Economics training are highly sought after. They are employed as economists and in a wide variety of related professional areas to provide strategic analysis and policy advice.

### Professional Recognition

Graduates will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia and, depending on unit selection, the Australian Society of Operations Research. Depending on the choice of major, extended major or specialisation graduates may be eligible for membership of the Economic Society of Australia (Queensland Division), Australian Institute of Management, Financial Services Institute of Australasia (FINSIA), Chartered Secretaries Australia, CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

### Course Design

The course offers the opportunity to combine Mathematics with a business course majoring in Accountancy, Banking and Finance or Economics, which can be combined with an extended major in the same field, or with a double major from any of the Bachelor of Business majors, including Electronic Business.

### Mathematics Scholarships

Students enrolled in this course can apply for industry sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

### Course Combinations

Recommended combinations for the Business component are:

Accountancy: Extended major in Professional Accounting

Banking & Finance: Extended major in Banking, Financial Economics or Funds Management; or double major in Economics

Economics: Extended major in Financial Economics or double major in Banking & Finance.

\*Please note that EFB101 Data Analysis for Business which is normally undertaken in the majors of Accountancy, Banking and Finance & Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Students also note that enrolment in the unit EFB326 Applied Portfolio Management is restricted to students undertaking the Financial Economics specialisation (FES) and the following extended majors: Banking (BFX); Financial Economics (FEX); and Funds Management (FDX).

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. **Potential Careers:**

Academic, Account Executive, Accountant, Advertising Professional, Analytical Chemist, Astrophysicist, Banker, Banking and Finance Professional, Biochemist, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Business Analyst, Chemist, Chemist Industrial, Clinical Laboratory Scientist, Coastal Scientist, Conservation Biologist, Ecologist, Economist, Environmental Scientist, Estimator, Exchange Student, Financial Advisor/Analyst, Financial Project Manager, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Home Economist, Human Resource Developer, Human Resource Manager, Hydrogeologist, Immunologist, Industrial Chemist, International Business Specialist, Investment Manager, Laboratory Technician (Chemistry), Manager, Marine Scientist, Marketing Officer/Manager, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Policy Officer, Population Ecologist,

Programmer, Public Servant, Stockbroker, Virologist.

## **Bachelor of Applied Science/Bachelor of Education (Primary) (IF84)**

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$3,694 (indicative) per semester

**Domestic Entry:** February

**QTAC code:** 409142

**Past rank cut-off:** 80

**Past OP cut-off:** 10

**OP Guarantee:** Yes

**Assumed knowledge:** English (4 SA) , Maths B (4 SA)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science); Dr Mary Ryan (Education)

**Campus:** Gardens Point and Kelvin Grove

### **Career Outcomes**

The Bachelor of Applied Science allows multidisciplinary programs of study that not only help students position themselves within the broad range of science disciplines but also qualify them as a competent professional in their chosen field.

Students are equipped to undertake research after graduation if they desire. The Bachelor of Education (Primary) prepares students to teach at all levels of the primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

### **Professional Recognition**

The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

For graduates with approved study: Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, Australian Biotechnology Association, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society of Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society of Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and the Statistical Society of Australia.

### **Course Structure for Commencing Students in 2002**

Students complete 192 credit points from units in the Bachelor of Applied Science degree (meeting all of the requirements of the core program and a major study), and 192 credit points from the Bachelor of Education (Primary) program. The science units and the units EDB001, MDB383, CLB376 and EDB430 are undertaken during the first five semesters of the double degree program.

## SCIENCE AND TECHNOLOGY

PCB142 Chemistry 1

undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office on 3864 3847. CLB334 is offered internally in semester 2.

### Year 2, Semester 1

CLB376 Studies Of Society And Environment Curriculum

NRB331

NRB333

NRB334 Mineral Deposits And Mine Geology

### Year 2, Semester 2

EDB430 Primary Professional Practice 1: Classroom Management

NRB434

NRB436

NRB633 Hydrogeology

SCB222 Exploration of the Universe

### Year 3, Semester 1

NRB533 Advanced Geological Mapping

NRB534 Geophysics

NRB536 Petrology and Geochemistry  
One Science Elective

NOTE: The major component in assessment and teaching of NRB533 is conducted as a field program during July.

### Year 3, Semester 2

CLB454 Language And Literacy Curriculum

EDB431 Primary Professional Practice 2: Curriculum Decision Making

MDB384 Science Education

SPB001 Human Development and Education

### Year 4, Semester 1

CLB413 Programming And Assessment In Language And Mathematics

EDB432 Primary Professional Practice 3: Inclusive Curriculum

HMB307 Health and Physical Education Curriculum (Primary)

MDB450 Primary Mathematics Curriculum

### Year 4, Semester 2

CLB306 Understanding Educational Practices

EDB433 Primary Professional Practice 4: Beginning Teaching

KKB914 Visual and Performing Arts Curriculum 1

SPB002 Psychology of Learning and Teaching

In 2002 EDB432 will be available in semester 2 to students who do not successfully complete the requirements of the unit in semester 1. This offering will be in external mode only.

### NOTES

Students with an approved LOTE background in their undergraduate degree who wish to

### Course structure - Major in Mathematics (WITH Maths C)

#### Year 1, Semester 1

EDB001 Teaching and Learning Studies 1: Teaching in New Times

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

#### Year 1, Semester 2

MAB210 Statistical Modelling 1

MAB220 Computational Mathematics 1

MDB383 Using Technology In The Curriculum

PCB101 Physical Science

#### Year 2, Semester 1

CLB376 Studies Of Society And Environment Curriculum

One Science Elective

Two Level 2 Mathematics units # - available units are:

MAB311 Advanced Calculus

MAB312 Linear Algebra

MAB313 Mathematics of Finance

MAB314 Statistical Modelling 2

#### Year 2, Semester 2

EDB430 Primary Professional Practice 1: Classroom Management

Two Level 2 Mathematics units- available units are:

MAB315 Operations Research 2

MAB413 Differential Equations

MAB414 Applied Statistics 2

MAB420 Computational Mathematics 2

MAB422 Mathematical Modelling

One Level 3 Mathematics units - available units are:

MAB621 Discrete Mathematics

MAB623 Financial Mathematics

NOTE: Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 1

One Science Elective

Three Level 3 Mathematics units - available units are:

MAB521 Applied Mathematics 3

MAB522 Computational Mathematics 3

EDB433	Primary Professional Practice 4: Beginning Teaching
KKB914	Visual and Performing Arts Curriculum 1
SPB002	Psychology of Learning and Teaching
NOTE:	In 2002 EDB432 will be available in Semester 2 to students who do not successfully complete the requirements of the unit in Semester 1. This offering will be in external mode only.

**NOTES**

Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office on 3864 3847. CLB334 is offered internally in semester 2.

**Potential Careers:**

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Educator, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Primary School Teacher, Programmer, Quantitative Analyst, Statistician, Teacher,

## Bachelor of Arts/Bachelor of Applied Science (IF86)

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 4 Years

**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester

**Past rank cut-off:** 72; Dfee: 68

**Past OP cut-off:** 13; Dfee: 15

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or **Total credit points:** 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr IrAPHNE Childs (Humanities); Dr Perry Hartfield (Science)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point and Kelvin Grove

### Career Opportunities

As a graduate of this course you will receive both a Bachelor of Arts degree and a Bachelor of Applied Science degree. This combination of degrees provides a valuable foundation for a wide range of careers in areas such as government, diplomacy, higher education and public service. Opportunities in tourism, translation, and the hospitality industry are open to those with a Language major. Complementary majors chosen from Arts and Science provide an excellent background for careers in environmental management.

### Course Design

A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

### Professional Recognition

Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

### Contact Details

#### Humanities Coordinator

Dr IrAPHNE Childs

#### Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for

## SCIENCE AND TECHNOLOGY

updates on the status of these courses by visiting the Humanities Program website.

### (Example of Full-Time Course Structure for Commencing Students)

#### Year 1, Semester 1

Core Arts unit (major)  
Core Arts unit (major)  
Two Science units (SC01 Level 1): Foundation units

#### Year 1, Semester 2

Arts Major unit  
Arts Major unit  
Two Science units (SC01 Level 1): at least one Foundation unit

#### Year 2, Semester 1

Core Arts unit (major or skills)  
Core Arts unit (major or skills)  
Two Science units (SC01 Levels 1 and 2: Level 2 from Major)

#### Year 2, Semester 2

Arts Major unit  
Arts Minor unit  
Two Science Units (SC01 Levels 1 and 2: Level 2 from Major)

#### Year 3, Semester 1

Arts Major unit  
Core Arts unit (research methods)  
Two Science Major units (SC01 Level 2)

#### Year 3, Semester 2

Arts Minor unit  
Core Arts unit (research methods)  
Two Science Major units (SC01 Level 3)

#### Year 4, Semester 1

Arts Major unit  
Arts Minor unit  
Two Science Major units (SC01 Level 3)

#### Year 4, Semester 2

Arts Major unit  
Arts Minor unit  
Two Science Major units (SC01 Level 3)

### Course structure - Major in Biochemistry

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB122 Cell and Molecular Biology  
SCB123 Physical Science Applications

#### Year 3, Semester 1

LQB381 Biochemistry: Structure and Function  
LQB383 Molecular and Cellular Regulation

#### Year 3, Semester 2

LQB481 Biochemical Pathways and Metabolism  
LQB483 Molecular Biology Techniques

#### Year 4, Semester 1

LQB581 Functional Biochemistry  
LQB582 Biomedical Research Technologies

#### Year 4, Semester 2

LQB681 Biochemical Research Skills  
LQB682 Protein Biochemistry and Bioengineering

### Course structure - Major in Biotechnology

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB122 Cell and Molecular Biology  
SCB123 Physical Science Applications

#### Year 3, Semester 1

## SCIENCE AND TECHNOLOGY

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation

### Year 3, Semester 2

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics

### Year 4, Semester 1

TWO units selected from:

LQB583	Genetic Research Technology
LQB584	Medical Cell Biology
LQB585	Plant Genetic Manipulation

### Year 4, Semester 2

TWO units selected from:

LQB682	Protein Biochemistry and Bioengineering
LQB684	Medical Biotechnology
LQB685	Plant Microbe Interactions

### Course structure - Major in Chemistry

#### Year 1, Semester 1

SCB111	Chemistry 1
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 1, Semester 2

SCB112	Cellular Basis of Life
SCB121	Chemistry 2

#### Year 2, Semester 1

MAB100	Mathematical Sciences 1A
SCB110	Science Concepts and Global Systems

#### Year 2, Semester 2

SCB123	Physical Science Applications
SCB131	Experimental Chemistry

#### Year 3, Semester 1

PQB312	Analytical Chemistry For Scientists and Technologists
PQB331	Structure and Bonding

#### Year 3, Semester 2

PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy

#### Year 4, Semester 1

PQB502	Materials Chemistry and Characterisation
PQB531	Organic Mechanisms and Synthesis

#### Year 4, Semester 2

PQB631	Advanced Inorganic Chemistry
PQB642	Chemical Research

### Course structure - Major in Ecology

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB122	Cell and Molecular Biology

#### Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 2, Semester 2

NQB201	Planet Earth
NQB202	History of Life on Earth

#### Year 3, Semester 1

NQB302	Earth Surface Systems
NQB321	Ecology

#### Year 3, Semester 2

NQB421	Experimental Design
NQB422	Genetics and Evolution

#### Year 4, Semester 1

NQB521	Population Genetics and Molecular Ecology
NQB523	Population Management

#### Year 4, Semester 2

NQB622	Conservation Biology
NQB623	Ecological Systems

### Course structure - Major in Environmental Science

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2

#### Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Plus either:

## SCIENCE AND TECHNOLOGY

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

### Year 2, Semester 2

NQB202 History of Life on Earth

SCB123 Physical Science Applications

### Year 3, Semester 1

NQB302 Earth Surface Systems

NQB321 Ecology

### Year 3, Semester 2

NQB403 Soils and the Environment

NQB421 Experimental Design

### Year 4, Semester 1

NQB501 Environmental Modelling

NQB502 Field Mapping and Monitoring of Natural Resources

### Year 4, Semester 2

NQB601 Sustainable Environmental Management

NQB602 Environmental Chemistry

### Course structure - Major in Forensic Science

#### Year 1, Semester 1

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB121 Chemistry 2

SCB122 Cell and Molecular Biology

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB123 Physical Science Applications

SCB131 Experimental Chemistry

#### Year 3, Semester 1

LQB383 Molecular and Cellular Regulation

SCB384 Forensic Sciences - From Crime Scene to Court

#### Year 3, Semester 2

JSB979 Forensic Scientific Evidence

PQB312 Analytical Chemistry For Scientists and

Technologists

### Year 4, Semester 1

PQB513 Instrumental Analysis

PQB584 Forensic Physical Evidence

### Year 4, Semester 2

LQB680 Forensic DNA Profiling

PQB684 Forensic Analysis

### Course structure - Major in Geoscience

#### Year 1, Semester 1

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

#### Year 1, Semester 2

NQB201 Planet Earth

SCB123 Physical Science Applications

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

#### Year 2, Semester 2

NQB202 History of Life on Earth

SCB222 Exploration of the Universe

#### Year 3, Semester 1

NQB311 Mineralogy

NQB314 Sedimentary Geology

#### Year 3, Semester 2

NQB411 Petrology of Igneous and Metamorphic Rocks

NQB412 Structural Geology and Field Methods

#### Year 4, Semester 1

NQB502 Field Mapping and Monitoring of Natural Resources

NQB513 Geophysics

#### Year 4, Semester 2

NQB602 Environmental Chemistry

NQB614 Groundwater Systems

### Course structure - Major in Mathematics (WITH Mathematics C from Senior)

#### Year 1, Semester 1

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

## SCIENCE AND TECHNOLOGY

### Year 1, Semester 2

MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1

### Year 2, Semester 1

MAB220	Computational Mathematics 1
	One Science unit - selected from:
SCB110	Science Concepts and Global Systems
SCB112	Cellular Basis of Life

### Year 2, Semester 2

	Science elective unit
	One Science unit - selected from:
SCB110	Science Concepts and Global Systems
SCB112	Cellular Basis of Life

### Year 3, Semester 1

	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
*	Students must complete at least one of MAB311, MAB312, MAB413

### Year 3, Semester 2

	Two Level 2 Mathematics units* - available units are:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation
*	Students must complete at least one of MAB311, MAB312, MAB413

### Year 4, Semester 1

	Two Level 3 Mathematics units - available units are:
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

### Year 4, Semester 2

	Two Level 3 Mathematics units - available units are
MAB524	Statistical Inference

MAB613	Partial Differential Equations
MAB621	Discrete Mathematics
MAB623	Financial Mathematics
MAB624	Applied Statistics 3
MAB625	Operations Research 3B

### Course structure - Major in Mathematics (WITHOUT Mathematics C from Senior)

#### Year 1, Semester 1

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1

#### Year 1, Semester 2

MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C

#### Year 2, Semester 1

MAB220	Computational Mathematics 1
	One Science unit - selected from:
SCB110	Science Concepts and Global Systems
SCB112	Cellular Basis of Life

#### Year 2, Semester 2

MAB210	Statistical Modelling 1
	One Science unit - selected from:
SCB110	Science Concepts and Global Systems
SCB112	Cellular Basis of Life

#### Year 3, Semester 1

	Two Level 2 Mathematics units* - available units are:
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 2

	Two Level 2 Mathematics units* - available units are:
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB480	Introduction to Scientific Computation
*	Students must complete at least one of MAB311, MAB312, MAB413

#### Year 4, Semester 1

Two Level 3 Mathematics units - available units

are:

MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB523	Introduction to Quality Management
MAB525	Operations Research 3A
MAB526	Statistical Science 3
MAB672	Advanced Mathematical Modelling

**Year 4, Semester 2**

Two Level 3 Mathematics units - available units are:

MAB524	Statistical Inference
MAB613	Partial Differential Equations
MAB621	Discrete Mathematics

**Total credit points:** 288

**Course coordinator:** Associate Professor Ruth Christie

**Campus:** Gardens Point

### Course Overview

The Bachelor of Games and Interactive Entertainment gives you the opportunity to join the growing industry of digital entertainment and electronic games by acquiring expertise in the development of computer games and other forms of interactive media. The course has a strong foundation in both entertainment technology and creative skills. You can choose your primary area of study, also known as your major, from:

**Animation:** animation and motion graphics, 3D computer graphics and computer generated art

**Digital Media:** mixing graphics, video, animation and sound to meet the increasingly complex world of digital entertainment

**Game Design:** game design tools and design processes, narrative and immersion, architecture and interior design

**Software Technologies:** technical aspects of computer games, games engine and tools development

You will gain experience in the whole process of game and interaction development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, right through to the development and delivery of a final product.

### Career Outcomes

Depending on your specialisation, graduates may find employment as a games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, quality assurance tester, games/digital media reviewer, video game tester,

sound designer, mobile entertainment and communications developer, web developer or digital product strategist.

### Scholarships

If you wish to enrol in the Bachelor of Information Technology, you may like to consider our Dean's Scholars Program for OP1-2 students. If you are a female high school student, you may also apply for our *âgo for IT gURLâ* merit scholarships.

Find out more about the range of scholarships available.

### Cooperative Education Program

The School of ITâs Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what youâre learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Professional Recognition

No professional accreditation is currently available for courses in the games and entertainment area.

Students completing the Software Technologies Major would be eligible for membership of the Australian Computer Society (ACS).

### Credit for Previous Study

Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the *âTranslation Unit Codesâ* column you are not permitted to enrol in the listed new code.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

**Bachelor of Games & Interactive Entertainment Course structure**

The course consists of four blocks of studies

Block A: Core Studies (6 units plus a 24 credit point Project completed in Semester 6)

Block B: Major (8 units) selected from Animation; Digital Media; Games Design; Software Technologies

Block C: Minor (4 units)

Block D: Electives (4 units)

The Cooperative Education Programs are replacements for general IT electives

**Year 1, Semester 1**

- INB180 Computer Games Studies
- INB104 Building IT Systems
- INB103 Industry Insights
- INB204 Special Topic 1

**Year 1, Semester 2**

- INB181 Introduction to Games Production
- Block B or Block C Unit
- Block B or Block C Unit
- Block B or Block C Unit

**Year 2, Semester 1**

- Block B or Block C Unit
- Block B or Block C Unit
- Block B or Block C Unit
- Block B or Block C Unit

**Year 2, Semester 2**

- Block B or Block C or Block D Unit
- Block B or Block C or Block D Unit
- Block B or Block C or Block D Unit
- Block B or Block C or Block D Unit

**Year 3, Semester 1**

- INB379 Game Project Design
- Block B or Block C or Block D Unit
- Block B or Block C or Block D Unit
- Block B or Block C or Block D Unit

**Year 3, Semester 2**

- INB380 Games Project
- Block B or Block C or Block D Unit
- Block B or Block C or Block D Unit
- Note: Coop Ed students replace INB380 with

INS011 and INS012

**Bachelor of Games & Interactive Entertainment Majors Course structure**

- INB382 Real Time Rendering Techniques
- INB370 Software Development
- MAB281 Mathematics for Computer Graphics

## SCIENCE AND TECHNOLOGY

OR null  
INB304 Special Topic 3

### Bachelor of Games & Interactive Entertainment Minors Course structure

Students select a Minor from the following

#### Animation

KIB105 Animation and Motion Graphics  
KVB105 Drawing for Design  
KVB106 Drawing for Animation  
KIB108 Animation History and Practices

#### Advanced Animation#

KIB212 Animation Studio 1: Preproduction  
KIB213 Animation Studio 2: CG Toolkit  
#Entry into this minor is limited to IT04 students enrolled in the Animation Major, who have completed at least 96 credit points of study, and have gained an average grade of 5.0 or above across the following units from the Animation Major: KIB105, KIB108, KVB105, KVB106.

#### Advanced Software Technologies #

INB365 Systems Programming  
INB372 Software Engineering Principles  
INB374 Enterprise Software Architecture  
INB382 Real Time Rendering Techniques  
OR null  
INB304 Special Topic 3  
# Only available to students doing the Software Technologies major

#### Digital Media

KIB101 Visual Communication  
KIB102 Visual Interactions  
INB385 Multimedia Systems  
INB386 Advanced Multimedia Systems

#### Entrepreneurship

BSB115 Management  
MGB223 Entrepreneurship and Innovation  
MGB324 Managing Business Growth  
Plus one from the following:  
BSB126 Marketing  
MGB200 Leading Organisations

#### Game Design

KIB201 Concept Development for Game Design and Interactive Media  
KIB202 Enabling Immersion  
INB280 Fundamentals of Game Design

INB281 Advanced Game Design  
OR null  
INB272 Interaction Design

#### Legal Issues

LWB141 Legal Institutions and Method  
LWB136 Contracts A  
Two units selected from the following  
LWB137 Contracts B  
LWB142 Law, Society and Justice  
LWB480 Media Law  
LWB482 Internet Law  
LWB486 Intellectual Property Law

#### Marketing

BSB126 Marketing  
Three units selected from the following  
AMB251 Innovation and Brand Management  
AMB240 Marketing Planning and Management  
AMB201 Marketing and Audience Research  
AMB359 Strategic Marketing

#### Mathematics for Games#

MAB100 Mathematical Sciences 1A  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
MAB312 Linear Algebra  
# Students who have completed Maths C can substitute MAB100 with one of the following units: MAB311, MAB481 or MAB422

#### Mobile and Network Technologies

INB102 Emerging Technology  
INB251 Networks  
INB350 Internet Protocols and Services  
INB353 Wireless and Mobile Networks

#### Sound Design

KMB105 Music and Sound Technology  
KMB106 Music and Sound for Multimedia  
KMB107 Sound, Image, Text  
KMB108 Sound Recording and Acoustics

#### Software Technologies

INB270 Programming  
INB210 Databases  
INB250 Systems Architecture  
INB371 Data Structures and Algorithms  
This minor is not available to students who are undertaking the Software Technologies Major

#### Physics for Games

#### Potential Careers:

Animator, Computer Game Programmer, Computer Games Developer, Computer Systems Engineer, Multimedia Designer, Programmer, Project Developer, Project Manager, Software Engineer, Technical Officer, Web Designer.

## Bachelor of Games and Interactive Entertainment - Dean's Scholars Program (IT04)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 3 years

**Domestic fees (indicative):** 2009: CSP \$3,671 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**Assumed knowledge:** English (4, SA) and Maths A, B or C (4, SA)

**Course coordinator:** Associate Professor Ruth Christie

**Campus:** Gardens Point

### Course Overview

The Dean's Scholars Program is an accelerated honours program allowing completion of the Bachelor of Games and Interactive Entertainment and an honours degree in three years instead of four years. This accelerated program is designed for students with an OP 1 or 2 (or equivalent), who can also demonstrate active involvement in their school and local community activities.

The Bachelor of Games and Interactive Entertainment gives you the opportunity to join the growing industry of digital entertainment and electronic games by acquiring expertise in the development of computer games and other forms of interactive media. The course has a strong foundation in both entertainment technology and creative skills. You can choose your primary area of study from Animation and Computational Arts, Digital Media, Game Design or Software Technologies.

You will gain experience in the whole process of game and interaction development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, right through to the development and delivery of a final product.

### Who should apply?

The program is open to applicants currently undertaking Year 12 studies at a secondary school, and who achieve an OP 1 or 2 (or interstate equivalent). Applicants must be outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia.

### Financial Support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

### OP Guarantee

The OP Guarantee does not apply to this program.

### Deferment

QUT's deferment policy does not apply to this course.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

### Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code

### Further Information

**Total credit points:** 288

**Course coordinator:** Dr Taizan Chan

**Campus:** Gardens Point

### Course Overview

The Bachelor of Corporate Systems Management will give students the skills and knowledge to identify and communicate business system needs, select the right information systems and integrate these systems into organisations to improve business performance.

The course is industry relevant and flexible, with the option to focus studies on areas such as IT management, enterprise systems, IT consulting, business process engineering, and knowledge management. Students will learn about, and come to understand, the interrelationship of information technology, business and client relations.

### Career Outcomes

The professional skills gained from the Bachelor of Corporate Systems Management are applicable across all business domains. Students will gain knowledge and an understanding of how to work with people and clients, operations, systems and production, while learning how to apply a strategic focus in a management role.

As a graduate, students can expect to work as a business analyst or consultant, enterprise architect, information or knowledge strategist, ICT project manager or IT infrastructure manager.

### Scholarships

If you wish to enrol in the Bachelor of Information Technology, you may like to consider our Dean's Scholars Program for OP1-2 students. If you are a female high school student, you may also apply for our *ago* for IT *gURL* merit scholarships.

Find out more about the range of scholarships available.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Professional Recognition

Recognition of the course by the Australian Computer Society (ACS) will be sought during 2007.

### Credit for Previous Study

Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the *Translation Unit Codes* column you are not permitted to enrol in the listed new code.

### Further Information

For further information about this course, please contact the Course Co-ordinator Dr Taizan Chan (07)3138 2782 or [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au)

### Bachelor of Corporate Systems Management

#### Course Structure

## SCIENCE AND TECHNOLOGY

### Year 1, Semester 1

INB103	Industry Insights
INB120	Corporate Systems
INB101	Impact of IT
INB122	Organisational Databases

### Year 1, Semester 2

BSB115	Management
INB123	Project Management Practice
INB124	Information Systems Development Block B Unit

### Year 2, Semester 1

INB220	Business Analysis
INB221	Technology Management
MGB223	Entrepreneurship and Innovation Block B Unit

### Year 2, Semester 2

BSB126	Marketing
INB830	Web Sites For Electronic Commerce Block B Unit Block B Unit

### Year 3, Semester 1

INB312	Enterprise Systems Applications
INB322	Information Systems Consulting Block B Unit Block B Unit

### Year 3, Semester 2

INB320	Business Process Modelling
INB325	Corporate Systems Management Project Block B Unit Block B Unit

### Block B: Complementary Studies

Students select unit set(s) from within the School of IT or from those offered by other Faculties at QUT. Alternatively, students may undertake eight elective units with the approval of the Course Coordinator.

### Information Management/Information Technology Management

INB312	Enterprise Systems Applications
INB335	Information Resources

### Adult and Community Learning

SPB100	Introduction to Adult Learning and Development
SPB102	Professional Communication in Adult Learning Contexts

### Finance

BSB113	Economics
BSB123	Data Analysis
EFB101	Data Analysis for Business
EFB102	Economics 2
EFB201	Financial Markets
EFB210	Finance 1
EFB307	Finance 2
EFB312	International Finance

### Business Systems Engineering

INB210	Databases
INB270	Programming
INB311	Enterprise Systems Intermediate Level IT Elective

### Creative Industries Management

KTB061	Creative Industries Management
KTB062	Creative Industries Events and Festivals
KTB104	Performance Innovation
KTB207	Staging Australia

### Construction Management - Administration

UDB101	Stewardship of Land
UDB104	Urban Development Economics
UDB110	Residential Construction and Engineering
UDB111	Engineering Construction Materials

### Databases

INB210	Databases
INB270	Programming
INB340	Database Design
INB342	Enterprise Data Mining Intermediate Level IT Elective

### Forensics

BSB212	Electronic Business Applications
BSB213	Governance Issues in E-Business
BSB314	E-Business Intelligence
INB210	Databases
INB271	The Web
INB311	Enterprise Systems
INB342	Enterprise Data Mining

### Entrepreneurship

AMB240	Marketing Planning and Management
AMB251	Innovation and Brand Management

### Human Resource Management

MGB207	Human Resource Issues and Strategy
MGB211	Organisational Behaviour

MGB314 Organisational Consulting and Change

**International Studies**

- HHB107 World Regions
- HHB223 Islam and Islamic Societies
- HHB263 Politics Of Globalisation

**Law**

- LWB136 Contracts A
- LWB137 Contracts B
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- LWB144 Laws and Global Perspectives
- LWB482 Internet Law
- LWB484 Electronic Commerce and Technology Contracts

**Management**

- MGB210 Managing Operations
- MGB211 Organisational Behaviour
- MGB220 Business Research Methods
- MGB222 Managing Organisations
- MGB309 Strategic Management
- MGB334 Managing in a Changing Environment

**Marketing**

- AMB200 Consumer Behaviour
- AMB201 Marketing and Audience Research
- AMB240 Marketing Planning and Management
- AMB241 E-Marketing Strategies
- AMB341 Strategic Marketing

**Organisational Psychology**

- PYB007 Interpersonal Processes and Skills
- PYB012 Psychology
- PYB205 Social Psychology
- PYB302 Industrial and Organisational Psychology

**Public Health**

- PUB251 Contemporary Public Health
- PUB326 Epidemiology
- PUB329 Foundations of Health Studies and Health Behaviour
- PUB406 Health Promotion Strategies

**Intermediate Level Electives**

- INB120 Corporate Systems
- INB220 Business Analysis
- INB255 Security
- INB272 Interaction Design  
Or, an INB300 level unit as approved by the course coordinator

**IT Elective List**

**IT Elective Units**

- INB123 Project Management Practice
- INB221 Technology Management
- INB311 Enterprise Systems
- INB312 Enterprise Systems Applications
- INB313 Electronic Commerce Site Development
- INB373 Web Application Development
- INB374 Enterprise Software Architecture
- INB385 Multimedia Systems
- INB386 Advanced Multimedia Systems
- INB320 Business Process Modelling
- INB321 Business Process Management
- INB322 Information Systems Consulting
- INB323 Smart Services
- INB330 Information Management
- INB331 Management Issues for Info Professionals
- INB333 Information Programs
- INB334 Information Issues and Values
- INB335 Information Resources
- INB340 Database Design
- INB341 Software Development With Oracle
- INB342 Enterprise Data Mining
- INB350 Internet Protocols and Services
- INB351 Computer Network Administration
- INB352 Network Planning and Deployment
- INB353 Wireless and Mobile Networks
- INB370 Software Development
- INB371 Data Structures and Algorithms
- INB372 Software Engineering Principles
- INB374 Enterprise Software Architecture
- INB204 Special Topic 1
- INB205 Special Topic 2
- INB300 Professional Practice in IT
- INB304 Special Topic 3
- INB305 Special Topic 4
- INS350 CCNA 1&2 Network Fundamentals and Routing
- INS352 CCNP1: Building Scalable Internetworks
- INS351 CCNA 3&4 Lan Switching
- INS353 CCNP 2: Building Multi Layered Switched Networks
- INS354 CCNP3: Building Multi Layered Switched Networks
- INS355 CCNP 4: Optimising Converged Networks
- INB306 Project 1
- INB307 Project 2

INB308	Project 3
INB365	Systems Programming
INB355	Cryptology and Protocols
INB860	Computational Intelligence for Control and Embedded Systems
INB346	Enterprise 2.0
INB345	Mobile Devices
INB347	Web 2.0 Applications
INB334	Information Issues and Values

**Potential Careers:**

Business Analyst, Database Manager, Electronic Commerce Developer, Health Information Manager, Information Officer, Internet Professional, Manager, Programmer, Project Developer, Project Manager, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, Technical Officer, Technology Transfer Officer.

## **Bachelor of Corporate Systems Management - Dean's Scholars Program (IT06)**

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 3 years

**Domestic fees (indicative):** 2009: CSP \$3,801 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Assumed knowledge:** English (4, SA) and Maths A, B or C (4, SA)

**Course coordinator:** Dr Taizan Chan

**Campus:** Gardens Point

### **Course Overview**

The Dean's Scholars Program is an accelerated honours program allowing completion of the Bachelor of Corporate Systems Management and an honours degree in three years instead of four years. This accelerated program is designed for students with an OP 1 or 2 (or equivalent), who can also demonstrate active involvement in their school and local community activities.

The Bachelor of Corporate Systems Management is an industry-relevant course designed to help you understand the interrelationships between information, technology, business and people. The information professional of the future understands the benefits that cutting-edge technology can deliver. You can add value by helping organisations understand and meet their information challenges.

The course is designed to develop the knowledge and skills you need to understand and communicate business needs, select the right systems and harness these systems to improve business performance for organisations.

### **Who should apply?**

The program is open to applicants currently undertaking Year 12 studies at a secondary school, and who achieve an OP 1 or 2 (or interstate equivalent). Applicants must be outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia.

### **Financial Support**

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

### **OP Guarantee**

The OP Guarantee does not apply to this program.

### **Deferment**

QUT's deferment policy does not apply to this course.

### **Cooperative Education Program**

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree.

Find out more about the Cooperative Education Program.

### **Professional Recognition**

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

### **Unit Incompatibility/Translation Information**

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

## Bachelor of Corporate Systems Management/Bachelor of Information Technology (IT07)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 063028M

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$4,022 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 416932

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4,SA), Maths A, B or C (4,SA)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Richard Thomas (BIT), Dr Taizan Chan (CSM)

**Campus:** Gardens Point

### Study Areas

IT07 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IT07 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management

• Data Warehousing

• Digital Societies

• Enterprise Systems

• Information Management

• Network Systems

• Software Engineering

• Web Technologies

### Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you

receive first-hand industry experience.

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: B or C

Secondary Fields: B or C

OP Guarantee: Yes

### International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

### Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

### Cooperative Education

Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

INB302	Capstone Project
	Special Option

**IT Breadth Option Unit List**

**IT Breadth Option Units**

You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.

INB120	Corporate Systems
INB210	Databases
INB220	Business Analysis
INB250	Systems Architecture
INB251	Networks
INB255	Security
INB270	Programming
INB271	The Web
INB272	Interaction Design

**IT Specialisation Option Unit List**

**IT Specialist Option Units**

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1.	Enterprise Systems:
INB123	Project Management Practice
INB221	Technology Management
INB311	Enterprise Systems
INB312	Enterprise Systems Applications
2.	Web Technologies:
INB313	Electronic Commerce Site Development
INB373	Web Application Development
INB374	Enterprise Software Architecture
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
3.	Business Process Management:
INB320	Business Process Modelling
INB321	Business Process Management
INB322	Information Systems Consulting
INB323	Smart Services
4.	Information Management:
INB330	Information Management
INB331	Management Issues for Info Professionals
INB332	Information Retrieval
INB333	Information Programs
INB334	Information Issues and Values
INB335	Information Resources
5.	Data Warehousing:
INB340	Database Design
INB341	Software Development With Oracle
INB342	Enterprise Data Mining
INB343	Advanced Data Mining and Data Warehousing

- 6. Network Systems:
  - INB350 Internet Protocols and Services
  - INB351 Computer Network Administration
  - INB352 Network Planning and Deployment
  - INB353 Wireless and Mobile Networks
- 7. Software Engineering:
  - INB370 Software Development
  - INB371 Data Structures and Algorithms
  - INB372 Software Engineering Principles
  - INB374 Enterprise Software Architecture
- 8. Ungrouped:
  - INB204 Special Topic 1
  - INB205 Special Topic 2
  - INB304 Special Topic 3

**Past OP cut-off:** 13

**Course coordinator:** Richard Thomas, Dr Taizan Chan

**Campus:** Gardens Point

### **Course discontinued**

The Faculty of Science and Technology has discontinued this course and only IT08 continuing students can enrol. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### **Course overview**

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and information technology. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. In the information technology component students complete a set of core units integral to all information and technology professionals and then select units in a specialised area of information technology. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

### **Cooperative Education Program**

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

**Campus:** Gardens Point and Kelvin Grove

### Course overview

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and games and interactive entertainment. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. In the games and interactive entertainment component students complete core units in the basics of design, games studies, professional skills and programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Animation and computational arts; digital media; game design; and software technologies.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

## University Diploma in Information Technology (IT10)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 025283M

**Course duration (full-time):** 2 semesters

**International Fees (per semester):** 2009: \$7,725 (indicative) per semester (*subject to annual review*)

**International Entry:** February, June and October

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Course coordinator:** Elizabeth McDade

**Campus:** Kelvin Grove

### Abbreviation

UnivDiplInfTech

### Entry requirements - Academic

Successful completion of senior high school with the required grades. Students can find more country specific entry requirements at the following web site. <http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp>

### Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Description

The University Diploma in Information Technology, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Information Technology. In this program, students study six first year faculty core units as well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Technology. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

### Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

### Progression

Requirements for progression to the second year of QUT Bachelor of Information Technology:

- i) fulfil the Diploma course requirements,
- ii) a minimum Grade Point Average (GPA) of 4, and
- iii) an IELTS score of 6.5 or its equivalent.

### IT10 - University Diploma in InfoTech (Full-time course structure)

#### Semester One

ITD001 Problem Solving and Programming

ITD004 Database Systems

ITD005 Systems Architecture

QCD120 Professional Communication 1

NOTE: ITD004 & ITD005 are offered in ALTERNATE semesters

#### Semester Two

IND102 Emerging Technology

IND210 Databases

IND270 Programming

QCD220 Professional Communication 2

NOTE: IND102 & IND210 are offered in ALTERNATE semesters

### Potential Careers:

Academic, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Digital Composer, Educator, Electronic Commerce Developer, Information Security Specialist, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Public Servant, Secondary School Teacher, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, TAFE Teacher, Teacher, Technical Officer, Trainer, Web Designer.

## Bachelor of Information Technology (IT22)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 012656E

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**QTAC code:** 416801

**Past rank cut-off:** 74

**Past OP cut-off:** 13

**Assumed knowledge:** English (4, SA) and Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Course coordinator:** Richard Thomas

**Campus:** Gardens Point

### Course Information

From semester one, 2009 this course will not be available for commencing students. IT22 will only be available for continuing students. New students - please refer to IT23.

### Course Overview

A Bachelor of Information Technology will start you on a challenging and rewarding career path facing the changes brought about by evolving global innovations. You will have the flexibility in your course to complement your skills and knowledge with a cross-section of study areas from other disciplines and faculties.

This course offers you a wide range of options to build your information technology skill set and develop complementary skills from other professional disciplines. You will gain a strong theoretical and practical foundation to advance your career aspirations, choosing from compact and focused specialisations allowing you to hone your skills in an advanced area of information technology and other professions.

### Scholarships

If you wish to enrol in the Bachelor of Information Technology, you may like to consider our Dean's Scholars Program for OP1-2 students. If you are a female high school student, you may also apply for our *go for IT gURL* merit scholarships.

Find out more about the range of scholarships available.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry

placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Professional Recognition

Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

### Credit for Previous Study

Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the *Translation Unit Codes* column you are not permitted to enrol in the listed new code.

### Further Information

Please contact the Course Co-ordinator Mr Richard Thomas(07)3138 2782 or [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au)

## Bachelor of Information Technology

### Course Structure

From semester one, 2009 this course will not be available for commencing students. IT22 will only be available for continuing students. New students - please refer to IT23. Please contact [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) for any enquiries.

The course structure consists of 10 IT Core Studies Units (Block A), 6 Major Units (Block

B) if applicable, and 8 Complementary Studies Area Units (Block C). For those students who choose the Generic No Major option, students replace the major units with any 6 ITBxxx units provided they meet the prerequisites.

Eight (8) Block A units are completed in the first year, while the remaining two (2) Block A units are completed later in the course.

Block C Complementary Studies Area (8 units): Students choose the composition which may include: a second IT Major (6 units) or an approved minor (4 units) and 4 electives or 8 specified electives as approved by the Course Coordinator.

Students can choose any 6 INB--- units (subject to prerequisite eligibility) from the Information Technology Undergraduate Elective/Options List as found at the below URL.

[http://www.studentservices.qut.edu.au/pdfs/IT\\_elective\\_list.pdf](http://www.studentservices.qut.edu.au/pdfs/IT_elective_list.pdf)

## Bachelor of Information Technology - Dean's Scholars Program (IT22)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 012656E / 017323G

**Course duration (full-time):** 3 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**QTAC code:** 416002

**Past rank cut-off:** 96. Also see entry requirements

**Past OP cut-off:** 3. Also see entry requirements

**Assumed knowledge:** English (4, SA) and Maths A, B or C (4, SA)

**Course coordinator:** Richard Thomas

**Campus:** Gardens Point

### Course Overview

The Dean's Scholars Program is an accelerated honours program allowing completion of the Bachelor of Information Technology and an honours degree in three years instead of four years. This accelerated program is designed for students with an OP 1 or 2 (or equivalent), who can also demonstrate active involvement in their school and local community activities.

The Bachelor of Information Technology gives you a strong theoretical and practical foundation to advance your career aspirations, choosing from compact and focused specialisations allowing you to hone your skills in an advanced area of information technology and other professions.

You will have the flexibility to complement your skills and knowledge in IT with a cross-section of studies from other disciplines.

### Who should apply?

The program is open to applicants currently undertaking Year 12 studies at a secondary school, and who achieve an OP 1 or 2 (or interstate equivalent). Applicants must be outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia.

### Additional Entry Requirements

Information Technology Dean's Scholars applicants are required to complete an online questionnaire which will be available at [addentry.qut.com](http://addentry.qut.com) in late August. Shortlisted applicants may be required to attend an interview (in December) and will be notified of date and venue after the questionnaire closes.

The due date to submit the questionnaire is 28 September. Late submissions will be accepted up until 30 November. Submissions after 30 November will not be accepted.

### Financial Support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the

Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

### OP Guarantee

The OP Guarantee does not apply to this program.

### Fixed Closing Date

Applications for this program will close on **30 November**.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

### Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

### Deferment

QUT's deferment policy does not apply to this course.

### International Student Entry

To be eligible to enrol in the Honours program, students must demonstrate appropriate levels of achievement in the Bachelor of Information Technology course.

Offers in the Honours program will be made conditionally on the student maintaining a GPA of 5.5 in the Bachelor of Information Technology component to be eligible to continue to the Bachelor of Information Technology (Honours). It is expected that many Dean's Scholars will proceed to PhD studies. However, students have the option of exiting after the Bachelor of Information Technology (2.5yrs).

### New Unit Translations/Incompatibility Table

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table and Postgraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### Domestic student tuition fee (Dfee) places

**Undergraduate domestic full fee places (Dfee) are not available in this course.** Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Total credit points:** 288

**Course coordinator:** Richard Thomas

**Campus:** Gardens Point

### Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within IT, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

### Study Areas

IT23 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IT23 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management

• Data Warehousing

• Digital Societies

• Enterprise Systems

• Information Management

• Network Systems

• Software Engineering

• Web Technologies

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: B

Secondary Fields: C

OP Guarantee: Yes

### International Students

English language requirements:

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

#October entry only for students completing entire degree at QUT (i.e. not eligible for Advanced Standing)

### Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of the Bachelor of Information Technology which would be counted both for completion of the degree and towards Honours. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

The Dean's Scholars program was introduced in Semester 1, 2006. This program provides a scholarship for OP 1 and 2 students throughout their Bachelor and Honours degrees. Students in the program are required to maintain a high GPA to continue to qualify for the scholarship each semester. Students in the Dean's Scholars program will be able to take advantage of the Accelerated Honours program. Students in the Dean's Scholars program will have an option to follow an accelerated pathway through the Bachelor of Information Technology, allowing them to complete the Bachelor of Information Technology course plus the Bachelor of Information (Honours) course in a total of three years.

To encourage students to enter the Dean's Scholars program, domestic students have their undergraduate HECS paid by the Faculty and those proceeding to Honours level will also receive full HECS support. International students who have completed a Year 12 education in Australia and meet the entry requirements for the program will have a third of their tuition fees paid by the Faculty for the undergraduate and Honours program.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete IT23 with a grade point average equal to, or greater than 5

(7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

**Cooperative Education Program**

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

**IT Breadth Option Unit List**

**IT Breadth Option Units**

You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.

INB120	Corporate Systems
INB210	Databases
INB220	Business Analysis
INB250	Systems Architecture
INB251	Networks
INB255	Security
INB270	Programming
INB271	The Web
INB272	Interaction Design

**IT Specialisation Option Unit List**

**IT Specialist Option Units**

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1. Enterprise Systems:
  - INB123 Project Management Practice
  - INB221 Technology Management
  - INB311 Enterprise Systems
  - INB312 Enterprise Systems Applications
2. Web Technologies:
  - INB313 Electronic Commerce Site Development
  - INB373 Web Application Development
  - INB374 Enterprise Software Architecture
  - INB385 Multimedia Systems
  - INB386 Advanced Multimedia Systems
3. Business Process Management:
  - INB320 Business Process Modelling

## SCIENCE AND TECHNOLOGY

INB321	Business Process Management		INS010, INS011 or INS012. (IT23 Cooperative education students will enrol in INB300 and INB302).
INB322	Information Systems Consulting		
INB323	Smart Services	3.	Students can also choose from the range of CISCO units including INS350, INS351, INS352, INS353, INS354 and INS355. Please see the Course Summary Sheet for more information
4.	Information Management:		
INB330	Information Management		
INB331	Management Issues for Info Professionals	4.	Undergraduate units available with other QUT faculties.
INB332	Information Retrieval		
INB333	Information Programs		
INB334	Information Issues and Values		
INB335	Information Resources		
5.	Data Warehousing:		
INB340	Database Design		
INB341	Software Development With Oracle		
INB342	Enterprise Data Mining		
INB343	Advanced Data Mining and Data Warehousing		
6.	Network Systems:		
INB350	Internet Protocols and Services		
INB351	Computer Network Administration		
INB352	Network Planning and Deployment		
INB353	Wireless and Mobile Networks		
7.	Software Engineering:		
INB370	Software Development		
INB371	Data Structures and Algorithms		
INB372	Software Engineering Principles		
INB374	Enterprise Software Architecture		
8.	Ungrouped:		
INB204	Special Topic 1		
INB205	Special Topic 2		
INB304	Special Topic 3		
INB305	Special Topic 4		
INB306	Project 1		
INB307	Project 2		
INB308	Project 3		
INB355	Cryptology and Protocols		
INB365	Systems Programming		
INB860	Computational Intelligence for Control and Embedded Systems		
9.	Digital Environments:		
INB345	Mobile Devices		
INB346	Enterprise 2.0		
INB347	Web 2.0 Applications		
INB334	Information Issues and Values		

### IT Elective Units List

#### IT Elective Units

INB123	Project Management Practice
INB124	Information Systems Development
INB181	Introduction to Games Production
INB204	Special Topic 1
INB205	Special Topic 2
INB220	Business Analysis
INB221	Technology Management
INB255	Security
INB272	Interaction Design
INB280	Fundamentals of Game Design
INB281	Advanced Game Design
INB300	Professional Practice in IT
INB304	Special Topic 3
INB305	Special Topic 4
INB306	Project 1
INB307	Project 2
INB308	Project 3
INB309-1	Major Project
INB311	Enterprise Systems
INB312	Enterprise Systems Applications
INB313	Electronic Commerce Site Development
INB320	Business Process Modelling
INB321	Business Process Management
INB322	Information Systems Consulting
INB323	Smart Services
INB330	Information Management
INB331	Management Issues for Info Professionals
INB332	Information Retrieval
INB334	Information Issues and Values
INB335	Information Resources
INB340	Database Design
INB341	Software Development With Oracle
INB342	Enterprise Data Mining
INB343	Advanced Data Mining and Data Warehousing
INB345	Mobile Devices
INB346	Enterprise 2.0
INB347	Web 2.0 Applications

### IT - Complementary Study Unit List

Complementary Study Units: A maximum of 96 credit points can be chosen from:

1. The list of Breadth and Specialisation units.
2. Other Information Technology units. Except

INB350	Internet Protocols and Services
INB351	Computer Network Administration
INB352	Network Planning and Deployment
INB353	Wireless and Mobile Networks
INB355	Cryptology and Protocols
INB365	Systems Programming
INB370	Software Development
INB371	Data Structures and Algorithms
INB372	Software Engineering Principles
INB373	Web Application Development
INB374	Enterprise Software Architecture
INB381	Modelling and Animation Techniques
INB382	Real Time Rendering Techniques
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
INB860	Computational Intelligence for Control and Embedded Systems
MAB281	Mathematics for Computer Graphics
INS350	CCNA 1&2 Network Fundamentals and Routing
INS351	CCNA 3&4 Lan Switching
INS352	CCNP1: Building Scalable Internetworks
INS353	CCNP 2: Implementing Secure Converged Networks
INS354	CCNP 3: Building Multi Layered Switched Networks
INS355	CCNP 4: Optimising Converged Networks

## Bachelor of Information Technology (Honours) (IT28)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 017323G

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 96

**Course coordinator:** Associate Professor Shlomo Geva

**Campus:** Gardens Point

### Course Overview

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

### Entry Requirements

A Bachelor of Information Technology from QUT or its equivalent, completed within 18 months prior to enrolment with a minimum grade point average of 5 on a 7-point scale or its equivalent OR demonstrated outstanding performance in the final year of the degree OR work experience or research considered appropriate by the Course Coordinator.

### The 'Accelerated' Honours Program

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology students to continue into the Faculty's Honours Program. See course entry IT29 for further information.

### Notes

#### Duration

Except in special circumstances as approved by the Dean, the requirements for an Honours degree must be completed within two successive years following first enrolment.

#### Unsatisfactory Progress

Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:

- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

### Assessment

The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable). A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding.

Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

#### Determination of Level of Honours Awards

The Faculty Academic Board will determine the level of Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:

Honours 1 - First Class Honours

Honours 2A - Second Class Honours, Division A

Honours 2B - Second Class Honours, Division B

Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:

Honours 1 - GPA 6.50-7.00, or equivalent

Honours 2A - GPA 5.50-6.49, or equivalent

Honours 2B - GPA 4.50-5.49, or equivalent

Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

### Further Information

For further information contact the course coordinator Shlomo Geva on enquiry.scitech@qut.edu.au or visit <http://www.scitech.qut.edu.au/research>

## **Bachelor of Information Technology (Honours) - Accelerated Program (IT29)**

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 017323G

**Course duration (full-time):** 2 semesters

**Domestic fees (indicative):** 2009: CSP \$3,700 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 96

**Course coordinator:** Associate Professor Shlomo Geva

**Campus:** Gardens Point

### **Course Overview**

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving IT undergraduate students to continue into the Honours Program. Benefits of this accelerated program are:

- \* you are approved to undertake a concurrent enrolment in the final semester of your IT undergraduate course, that is to say, the student may enrol in undergraduate units and Honours.

- \* 12 credit points will be credited towards Block 3 electives in your IT undergraduate course on the basis of coursework studies completed in IT29 Honours.

- \* you are able to complete a four year program within 3 1/2 years.

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

Please note: tuition fees normally apply for Summer enrolment.

### **Notes**

#### **Assessment**

The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable). A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding.

Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

#### **Determination of Level of Honours Awards**

The Faculty Academic Board will determine the level of

Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:

Honours 1 - First Class Honours

Honours 2A - Second Class Honours, Division A

Honours 2B - Second Class Honours, Division B

Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:

Honours 1 - GPA 6.50-7.00, or equivalent

Honours 2A - GPA 5.50-6.49, or equivalent

Honours 2B - GPA 4.50-5.49, or equivalent

Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

#### **Unsatisfactory Progress**

Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:

- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.

- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

## **Graduate Diploma in Information Technology (IT Graduates) (IT35)**

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 018771J

**Course duration (full-time):** 1 years

**Course duration (part-time):** 2 years

**Domestic fees (indicative):** 2009: \$7,000 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Total credit points:** 96

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Course Overview**

This program is designed for information technology graduates who wish to update and upgrade their knowledge and skills for purposes of further career development. The course assists IT graduates to acquire specialised knowledge in an area of information technology and/or widen their knowledge into new areas of information technology.

### **Course is under review**

From semester one, 2009 this course will not be available for commencing students. IT35 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries

### **Entry Requirements**

Applicants for either IT35 or IT40 must have:

a) a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale)

OR

b) provide other evidence of such qualifications and significant full-time IT work experience, as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study

Applicants who wish to gain entry into this course, based on IT work experience, are encouraged to complete a Graduate Equivalency Proforma .

### **Course Structure**

Students who commenced Semester 2, 2006 or later

To graduate from the Master of Information Technology, students are required to complete 12 units, consisting of:

- 1 x Compulsory Unit • INN500 IT Project Management
- A minimum of 6 x Advanced Level 1 Units (including INN500)
- A minimum of 1 x Advanced Level 2 Units
- A maximum of 3 x Postgraduate level Elective Units selected from outside the Faculty, in consultation with the Course Coordinator

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to complete

8 units, consisting of:

- 1 x Compulsory Unit • INN500 IT Project Management
- A minimum of 5 x Advanced Level 1 Units (including INN500)
- A minimum of 1 x Advanced Level 2 Units

Students who commenced Semester 1, 2004 and prior to Semester 2, 2006

To graduate from the Master of Information Technology, students are required to complete 12 units, consisting of:

- A minimum of 6 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to have completed 8 units, consisting of:

- A minimum of 5 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units

### **Articulation**

#### **Moving Between Courses**

Domestic Students currently enrolled in the Graduate Diploma in Information Technology (IT35) or the Graduate Certificate (IT89, IT90, IT92, IT93, IT94, IT95, IT96, IT98, IT99), are in nested program courses. Upon successful completion of your course, domestic students will be invited to continue with the next stage of the program in the following teaching period. An email will be sent you student email account inviting you continue. If you accept the option to articulate immediately, you will not be required to complete an application for academic credit as units and grades achieved in the lower award will be transferred to the new course.

Students in the Masters course (IT40) wishing to exit with the Graduate Diploma (IT35) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form. These forms must be submitted by Week 13 in the semester you expect to meet the requirements for either the Graduate Diploma or Graduate Certificate.

International students wishing to change courses should consult International Student Business Services.

### **Further Information**

#### **Further Information**

For further information contact the course coordinator Dr Ernest Foo on enquiry.scitech@qut.edu.au or call 07 3138 2782

### **Unit Incompatibility/Translation Information**

Details on the translation and incompatibility of old and new units is located here:

### Postgraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### **Potential Careers:**

Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## Graduate Diploma In Information Technology (IT37)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 1 year

**Course duration (part-time):** 2 years

**International Fees (per semester):** 2009: \$11,750 (indicative) per semester (*subject to annual review*)

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### Course Overview

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Graduate Diploma course has interfaculty contributions from the Faculties of IT, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in the structure of this course through ten different majors:

â€ No Major

â€ Software Architecture

â€ Network Management

â€ Enterprise Systems

â€ Games Production

â€ Games Design

â€ Security

â€ Library and Information Science

â€ Information Management

â€ Digital Environments

â€ Executive Information Practice

The Graduate Diploma in Information Technology IT37 is an exit only option. However it is nested within the Master of Information Technology IT43 and Master of Information Technology Advanced IT44 courses. Students who complete the Graduate Diploma may return to complete the Masters at a later date and claim credit for all units completed in the Graduate Diploma.

The Graduate Diploma does not provide a pathway to follow on with a research degree (Research Masters, Professional Doctorate or PhD).

### Entry Requirements

The Graduate Diploma in Information Technology IT37 is an exit only option. Students must have been enrolled in the Master of Information Technology IT43 or Master of Information Technology IT44 and opted to exit with 96 credit points.

### Course Structure

Students are required to complete 96 credit points of units. All students are required to complete the specified core unit in IT Project Management. This course may be taken over two semesters full-time or four semesters part-time.

### Further Information

For further information contact the course coordinator Ernest Foo on enquiry.scitech@qut.edu.au or call 07 3138 2782

### IT37 - Graduate Diploma In Information Technology

#### Core

INN500 IT Project Management

#### Major Study Areas

Students choose one of the following majors (see Major option list):

No Major

Software Architecture

Network Management

Enterprise Systems

Games Production

Games Design

Security

Executive Information Practice

Library and Information Science

Information Management

Digital Environments

### IT37 - Major Options

A Major block has 84 credit points plus a 48 credit point Elective block

#### Information Technology

DO \*Any IT postgraduate units not in the "Basic Unit List", such that at least one unit is of the form: INN5xx, INN6xx or INN7xx and the total unit set equals 84 credit points

#### Software Architecture

DO \*All of these units:

INN371 Data Structures and Algorithms

INN372 Agile Software Development

INN374 Enterprise Software Architecture

INN570 Internationalisation of Software

PLUS \*Units to 36 credit points from:

INN700 Introduction To Research

INN271 The Web

INN313 Electronic Commerce Site Development

INN373 Web Application Development

INN365 Systems Programming

INN600 Advanced Readings 1

INN601 Advanced Readings 2

INN602 Advanced Readings 3

INN605 Advanced Research 1

## SCIENCE AND TECHNOLOGY

INN606 Advanced Research 2  
 INN607 Advanced Research 3

### Network Management

DO \*All of these units:  
 INN350 Internet Protocols and Services  
 INN351 Unix Network Administration  
 INN352 Network Planning  
 INN650 Advanced Network Management  
 PLUS \*Units to 36 credit points from:  
 INN700 Introduction To Research  
 INN353 Wireless and Mobile Networks  
 INN255 Security  
 INN651 Security Technologies  
 INN355 Cryptology and Protocols  
 INN652 Advanced Cryptology  
 INN550 Computer Forensics  
 INN600 Advanced Readings 1  
 INN601 Advanced Readings 2  
 INN602 Advanced Readings 3  
 INN605 Advanced Research 1  
 INN606 Advanced Research 2  
 INN607 Advanced Research 3  
 INS450 CCNA 1 and 2 Network Fundamentals and Routing  
 INS451 CCNA 3 and 4 Lan Switching  
 INS452 CCNP1: Building Scalable Internetworks  
 INS453 CCNP 2: Building Multi Layered Switched Networks  
 INS454 CCNP3: Building Multi Layered Switched Networks  
 INS455 CCNP4: Optimising Converged Networks

### Enterprise Systems

DO \*All of these units:  
 INN311 Enterprise Systems  
 INN312 Enterprise Systems Applications  
 INN374 Enterprise Software Architecture  
 INN610 Case Studies in Enterprise Systems  
 PLUS \*Units to 36 credit points from:  
 INN700 Introduction To Research  
 INN340 Database Design  
 INN342 Enterprise Data Mining and Data Analysis  
 INN341 Software Development With Oracle  
 INN321 Business Process Management  
 INN220 Business Analysis  
 INN600 Advanced Readings 1  
 INN601 Advanced Readings 2  
 INN602 Advanced Readings 3

INN605 Advanced Research 1  
 INN606 Advanced Research 2  
 INN607 Advanced Research 3

### Games Production

DO \*All of these units:  
 INN180 Computer Games Studies  
 INN181 Introduction to Games Production  
 INN600 Advanced Readings 1  
 INN601 Advanced Readings 2  
 PLUS \*Units to 36 credit points from:  
 INN220 Business Analysis  
 INN321 Business Process Management  
 INN330 Information Management  
 INN311 Enterprise Systems  
 INN700 Introduction To Research

### Games Design

DO \*All of these units:  
 INN180 Computer Games Studies  
 INN280 Fundamentals of Game Design  
 INN281 Advanced Game Design  
 INN272 Interaction Design  
 PLUS \*Units to 36 credit points from:  
 INN181 Introduction to Games Production  
 INN385 Multimedia Systems  
 INN386 Advanced Multimedia Systems  
 INN600 Advanced Readings 1  
 INN601 Advanced Readings 2  
 INN700 Introduction To Research  
 KIB201 Concept Development for Game Design and Interactive Media  
 KIB202 Enabling Immersion

### Security

DO \*All of these units:  
 INN255 Security  
 INN651 Security Technologies  
 PLUS \*Units to 60 credit points from:

## Graduate Diploma in Information Technology (Non-IT Graduates) (IT38)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 018771J

**Course duration (full-time):** 2 semesters

**Course duration (part-time):** 4 semesters

**Domestic fees (indicative):** 2009: \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February, July and November

**International Entry:** February, July and November

**Total credit points:** 96

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### Course update

From 2009 this course will no longer be offered for commencing students and will only be available to continuing students.

Commencing students please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries or call 3138 2782.

### Course Overview

This program is designed for non-IT graduates who wish to broaden career opportunities by gaining a postgraduate IT qualification. The programs allow students to specialise in a wide range of areas including software engineering, data communications and information systems.

These programs aim to build on non-IT skills acquired in previous study, such as critical and analytical skills; as well as provide an IT curriculum with depth and breadth, from introductory to advanced level.

Students are encouraged to focus on those parts of the employment spectrum where cross-disciplinary qualifications are most appreciated.

### Entry Requirements

Please note that this information is for continuing students only. Commencing students please refer to IT43 Master of Information Technology

Students can elect to be admitted to either the Graduate Diploma in Information Technology (IT38) or the Master of Information Technology (IT45).

Applicants for either IT38 or IT45 must have: a Bachelors degree in a discipline other than Information Technology with a grade point average of at least 4.5 (7 point scale); and have demonstrated competence with the basic skills and concepts of personal or office usage such as desktop applications, email, Internet.

Applicants are assumed to have possessed the following prerequisite skills:

• Can use and manage email facilities;

• Can create and manage a personal file system (eg.

home or office computer);

- Understand how to locate and use resources on the internet;

- Familiar with the typical desktop environment: word processors, spreadsheets, etc.;

- Aware of personal computing security issues with regard to backups, viruses, password protection.

These basic skills will not be taught in class. QUT-wide resources are made available for individuals to improve their computer literacy levels.

Applicants may refer to an online Computer Literacy Self-Assessment Questionnaire for more information.

### Course Structure

To graduate with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:

1 x Compulsory Unit - INN500 IT Project Management

A Minimum of 3 x Basic Level Units

4 x Chosen from Intermediate or Advanced Level 1 Units

### Articulation

Students who complete IT38 can subsequently seek admission to IT45 and are only required to undertake an additional four units to meet the requirements for the Masters degree.

### Further Information

For further information contact the course coordinator Dr Ernest Foo on enquiry.scitech@qut.edu.au or call 07 3138 2782

### Potential Careers:

Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## **Master of Information Technology (IT Graduates) (IT40)**

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 003776E

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Domestic fees (indicative):** 2009: \$7,000 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Total credit points:** 144

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Course Overview**

The Master of Information Technology with associated nested graduate diploma and graduate certificates can be tailored for information technology graduates who wish to revise, update or extend their IT skills and knowledge.

Students may take the Master of Information Technology as a broad-based qualification or choose to specialise in a particular area such as networks, security, enterprise systems, software development, IT management or games development.

With multiple specialisations now emerging in IT, applicants with existing IT qualifications may wish to study advanced units in their own specialisation, and/or move into an entirely different study of IT.

IT graduates who are unsure about enrolling in a full Masters program may like to enrol in a Graduate Certificate or Graduate Diploma which can then be used to articulate into the Master of Information Technology (IT40).

### **Course Update**

From semester one, 2009 this course will not be available for commencing students. IT40 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### **Entry Requirements**

A bachelor degree majoring in information technology with a grade point average of at least 4.5 (on a 7-point scale) **OR** evidence of work experience and/or training equivalent to an IT major.

### **Course Structure**

Students who commenced Semester 2, 2006 or later

To graduate from the Master of Information Technology, students are required to complete 12 units, consisting of:

- 1 x Compulsory Unit • INN500 IT Project Management
- A minimum of 6 x Advanced Level 1 Units (including INN500)
- A minimum of 1 x Advanced Level 2 Units
- A maximum of 3 x Postgraduate level Elective Units

selected from outside the Faculty, in consultation with the Course Coordinator

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to complete 8 units, consisting of:

- 1 x Compulsory Unit • INN500 IT Project Management
- A minimum of 5 x Advanced Level 1 Units (including INN500)
- A minimum of 1 x Advanced Level 2 Units

Students who commenced Semester 1, 2004 and prior to Semester 2, 2006

To graduate from the Master of Information Technology, students are required to complete 12 units, consisting of:

- A minimum of 6 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to have completed 8 units, consisting of:

- A minimum of 5 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units

### **Unit Incompatibility/Translation Information**

Details on the translation and incompatibility of old and new units is located here:

Postgraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### **Contact Details**

For further information, please contact Dr Ernest Foo on 3138 2782 or enquiry.scitech@qut.edu.au

### **Potential Careers:**

Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## **Master of Information Technology (IT43)**

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 003776E

**Course duration (full-time):** 1.5 years

**Course duration (part-time):** 3 years

**Domestic fees (indicative):** 2009: \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July (LIS part-time only in July)

**International Entry:** February and July (LIS part-time only in July)

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Course Overview**

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Master of Information Technology course has interfaculty contributions from the Faculties of Science and Technology, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in the structure of this course through ten different majors other than the "No Major" option:

• Software Architecture

• Network Management

• Enterprise Systems

• Games Production

• Games Design

• Security

• Library and Information Science (Multi-modal)

• Information Management

• Digital Environments

• Executive Information Practice

The structure of this course is designed so that a student does not have to decide on a major until after the first semester. Elective and core units may be selected first. Students must generally complete the core unit and seven units from within their major. The only exception to this structure is in the Library and Information Science major.

Students who complete the Master of Information Technology (IT43) may return to complete the Master of Information Technology (Advanced) (IT44) at a later date and claim credit for all units completed in IT43.

#### **Electives:**

Students can generally select up to 4 electives; again, the exception is in the Library and Information Science major, where students can select no more than two electives.

Non-cognate students are recommended to select three Basic Elective Units as their electives.

Students wishing to use the Masters program as a pathway to a PhD program within QUT are recommended to select 4 advanced research or project units as their electives. These students are also advised to enrol in INN700 Introduction to Research as part of their major.

It is possible, for students who wish, to complete dual Master degrees. Students can receive up to four units of credit for a previous Masters degree as part of their elective unit block. Thus, they are only required to complete the major and core. Students may then receive their Masters degree from the Faculty of Science and Technology in two semesters.

Students undertaking units from the MBA program (GSN units) in the Brisbane Graduate School of Business (BGSB) must meet the MBA entry requirements. Please see the B G S B w e b s i t e <http://www.bgsb.qut.edu.au/study/mba/mbacourses/> for further information.

The Library and Information Science major is offered in multimodal delivery allowing students to complete their studies either face to face or online.

### **Entry requirements**

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• Evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

#### **Domestic students:**

Domestic students who have completed an undergraduate degree (in any field) with a minimum grade point average (GPA) of at least 4.5 (on a 7-point scale) are eligible for the programs described in this proposal.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

#### **International Students:**

International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

**Special Entry Requirements**

Library and Information Science:

- a bachelor degree in any discipline other than library and information science with a grade point average of at least 4.5 (On a 7 points scale).

Executive information practice:

- has core units from the MBA and as such must also meet the MBA entry requirements:

- o Demonstrate competency in the English language
- o Have a GMAT score of at least 500
- o Have at least three years work experience
- o At least 10 points from at least two of the three categories - prior work experience, academic achievement and management aptitude
- o For further information, including details regarding the allocation of points, please see the table at: <http://www.bgsb.qut.edu.au/study/future/entryreq.jsp>

**Online Delivery**

The Library and Information Science major is offered in multimodal delivery allowing students to complete their studies either face to face or online.

**Course completion rules**

Students should meet the following requirements before they are able to complete the Masters program:

- Students are required to complete 144 credit points of units.
- Students are required to complete the specified core unit.
- Students wishing to specialise must complete the specific unit requirements for a major.
- Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
- Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Faculty of Science and Technology.

**Early exit options**

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points

**Further Information**

For further information on this course please contact the course coordinator Dr Ernest Foo on 3138 2782 or email [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au)

**IT43 - Master of Information Technology**

**Core**

INN500 IT Project Management

**Major Study Areas**

Students choose one of the following majors (see Major option list):

- No Major
- Software Architecture
- Network Management
- Enterprise Systems
- Games Production
- Games Design
- Security
- Executive Information Practice
- Library and Information Science
- Information Management
- Digital Environments

**Special Entry Requirements**

Library and Information Science:

A bachelor degree in any discipline other than library and information science with a grade point average of at least 4.5 (On a 7 points scale).

Executive information practice:

Has core units from the MBA and as such must also meet the MBA entry requirements:

- Demonstrate competency in the English language
- Have a GMAT score of at least 500
- Have at least three years work experience
- At least 10 points from at least two of the three categories - prior work experience, academic achievement and management aptitude
- For further information, including details regarding the allocation of points, please see the table at: <http://www.bgsb.qut.edu.au/study/future/entryreq.jsp>

**Basic Unit List**

- INN101 Impact of IT
- INN120 Corporate Systems
- INN122 Organisational Databases
- INN124 Information Systems Development
- INN210 Databases
- INN220 Business Analysis
- INN221 Technology Management
- INN251 Networks
- INN255 Security
- INN270 Programming
- INN271 The Web

**Major Options**

A Major block has 84 credit points plus a 48 credit point Elective block

**No Major**

DO \*Any IT postgraduate units not in the "Basic Unit List", such that at least one unit is of the form: INN5xx, INN6xx or INN7xx and the total unit set equals 84 credit points

ELECTIVE S \*Any postgraduate units to 48 credit points

**Software Architecture**

DO \*All of these units:

- INN371 Data Structures and Algorithms
- INN372 Agile Software Development
- INN374 Enterprise Software Architecture
- INN570 Internationalisation of Software
- PLUS \*Units to 36 credit points from:
- INN700 Introduction To Research
- INN271 The Web
- INN313 Electronic Commerce Site Development
- INN373 Web Application Development
- INN365 Systems Programming
- INN600 Advanced Readings 1
- INN601 Advanced Readings 2
- INN602 Advanced Readings 3
- INN605 Advanced Research 1
- INN606 Advanced Research 2
- INN607 Advanced Research 3

ELECTIVE S \*Any postgraduate units to 48 credit points

**Network Management**

DO \*All of these units:

- INN350 Internet Protocols and Services
- INN351 Unix Network Administration
- INN352 Network Planning
- INN650 Advanced Network Management
- PLUS \*Units to 36 credit points from:
- INN700 Introduction To Research
- INN353 Wireless and Mobile Networks
- INN255 Security
- INN651 Security Technologies
- INN355 Cryptology and Protocols
- INN652 Advanced Cryptology
- INN550 Computer Forensics
- INN600 Advanced Readings 1
- INN601 Advanced Readings 2
- INN602 Advanced Readings 3

- INN605 Advanced Research 1
- INN606 Advanced Research 2
- INN607 Advanced Research 3
- INS450 CCNA 1 and 2 Network Fundamentals and Routing
- INS451 CCNA 3 and 4 Lan Switching
- INS452 CCNP1: Building Scalable Internetworks
- INS453 CCNP 2: Building Multi Layered Switched Networks
- INS454 CCNP3: Building Multi Layered Switched Networks
- INS455 CCNP4: Optimising Converged Networks
- ELECTIVE S \*Any postgraduate units to 48 credit points

**Enterprise Systems**

DO \*All of these units:

- INN311 Enterprise Systems
- INN312 Enterprise Systems Applications
- INN374 Enterprise Software Architecture
- INN610 Case Studies in Enterprise Systems
- PLUS \*Units to 36 credit points from:
- INN700 Introduction To Research
- INN340 Database Design
- INN342 Enterprise Data Mining and Data Analysis
- INN341 Software Development With Oracle
- INN321 Business Process Management
- INN220 Business Analysis
- INN600 Advanced Readings 1
- INN601 Advanced Readings 2
- INN602 Advanced Readings 3
- INN605 Advanced Research 1
- INN606 Advanced Research 2
- INN607 Advanced Research 3

ELECTIVE S \*Any postgraduate units to 48 credit points

**Games Production**

DO \*All of these units:

- INN180 Computer Games Studies
- INN181 Introduction to Games Production
- INN600 Advanced Readings 1
- INN601 Advanced Readings 2
- PLUS \*Units to 36 credit points from:
- INN220 Business Analysis
- INN321 Business Process Management
- INN330 Information Management
- INN311 Enterprise Systems
- INN700 Introduction To Research
- ELECTIVE Projects to 48 credit points

## Master of Information Technology (Advanced) (IT44)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 053123F

**Course duration (full-time):** 2 years

**Course duration (part-time):** 4 years

**Domestic fees (indicative):** 2009: \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 192

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### Description

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Master of Information Technology course has interfaculty contributions from the Faculties of IT, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in course structures that provide for ten different majors other than the "No Major" option:

- Software Architecture
- Network Management
- Enterprise Systems
- Games Production
- Games Design
- Security
- Library and Information Science
- Information Management
- Digital Environments
- Executive Information Practice

The structure of this course is designed so that a student does not have to decide on a major until after the first semester. Elective and core units may be selected first. Students must generally complete the core unit and seven units from within their major. The only exception to this structure is in the Library and Information Science major.

#### Electives:

Students can generally select up to 4 electives; again, the exception is in the Library and Information Science major, where students can select no more than two electives.

Non-cognate students are recommended to select three Basic Elective Units as their electives.

#### Advanced Research Units (Complementary Studies):

Students who enrol in the Masters Advanced program must complete four advanced research or project units. It is recommended that students complete advanced research and project units in the latter half of their course.

Students wishing to use the Masters Advanced program as

a pathway to a PhD program within QUT are advised to enrol in INN700 Introduction to Research as part of their major and take INN701 Advanced Research Methodologies as an elective.

It is possible for students to complete dual Master degrees. Students can receive up to four units of credit for a previous Masters degree as part of their elective unit block. Thus, they are only required to complete the major and core. Students may then receive their Masters degree from the Faculty of Information Technology in two semesters.

Students undertaking units from the MBA program (GSN units) in the Brisbane Graduate School of Business (BGSB) must meet the MBA entry requirements. Please see the B G S B w e b s i t e <http://www.bgsb.qut.edu.au/study/mba/mbacourses/> for further information.

### Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• the Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

### Special Entry Requirements

Library and Information Science Major:

A bachelor degree in any discipline other than library and information science with a grade point average of at least 4.5 (On a 7 points scale).

Executive information practice major - has core units from the MBA and as such must also meet the MBA entry requirements:

- Demonstrate competency in the English language
- Have a GMAT score of at least 500
- Have at least three years work experience
- At least 10 points from at least two of the three categories - prior work experience, academic achievement and management aptitude
- For further information, including details regarding the allocation of points, please see the table at:

<http://www.bgsb.qut.edu.au/study/future/entryreq.jsp>

**Course completion rules**

Students should meet the following requirements before they are able to complete the Masters Advanced program:

• Students are required to complete 192 credit points of units.

• Students are required to complete the specified core unit.

• Students seeking a single area of specialisation must complete the specific unit requirements for a major.

• Students not seeking a single area of specialisation may graduate with no major.

• Students must complete 48 credit points of project or advanced research units.

• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Faculty of Science and Technology.

**Early exit options**

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

**Further Information**

For further information on this course please contact the course coordinator Dr Ernest Foo on 3138 2782 or email [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au)

**IT44 - Master of Information Technology (Advanced)**

**Core**

INN500 IT Project Management

**Major Study Areas**

Students choose one of the following majors (see Major option list):

No Major (Information Technology)

Software Architecture

Network Management

Enterprise Systems

Games Production

Games Design

Security

Executive Information Practice

Library and Information Science

Information Management

Digital Environments

**Major Options**

A Major block has 84 credit points plus a 48 credit point Elective block

**No Major**

DO \*Any IT postgraduate units not in the "Basic Unit List", such that at least one unit is of the form: INN5xx, INN6xx or INN7xx and the total unit set equals 84 credit points

ELECTIVE S \*Any postgraduate units to 48 credit points

**Software Architecture**

DO \*All of these units:

INN371 Data Structures and Algorithms

INN372 Agile Software Development

INN374 Enterprise Software Architecture

INN570 Internationalisation of Software

PLUS \*Units to 36 credit points from:

INN700 Introduction To Research

INN271 The Web

INN313 Electronic Commerce Site Development

INN373 Web Application Development

INN365 Systems Programming

INN600 Advanced Readings 1

INN601 Advanced Readings 2

INN602 Advanced Readings 3

INN605 Advanced Research 1

INN606 Advanced Research 2

INN607 Advanced Research 3

ELECTIVE S \*Any postgraduate units to 48 credit points

**Network Management**

DO \*All of these units:

INN350 Internet Protocols and Services

INN351 Unix Network Administration

INN352 Network Planning

INN650 Advanced Network Management

PLUS \*Units to 36 credit points from:

INN700 Introduction To Research

INN353 Wireless and Mobile Networks

INN255 Security

INN651 Security Technologies

INN355 Cryptology and Protocols

INN652 Advanced Cryptology

INN550 Computer Forensics

INN600 Advanced Readings 1

INN601 Advanced Readings 2

INN602 Advanced Readings 3

INN605 Advanced Research 1

INN606 Advanced Research 2

INN607 Advanced Research 3

INS450 CCNA 1 and 2 Network Fundamentals and

## Master of Information Technology (Non-IT Graduates) (IT45)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 003776E

**Course duration (full-time):** 3 semesters

**Course duration (part-time):** 6 semesters

**Domestic fees (indicative):** 2009: \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Total credit points:** 144

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### Course Update

From semester one, 2009 this course will not be available for commencing students. IT45 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### Course Overview

The Master of Information Technology â with associated nested graduate diploma and graduate certificates â can be tailored for non-IT graduates looking to broaden their career opportunities by gaining a postgraduate IT qualification.

Students may take the Master of Information Technology as a broad-based qualification or may choose to specialise in a particular area such as networks, security, enterprise systems, software development, IT management or games development.

With multiple specialisations now emerging in IT, applicants with existing IT qualifications may wish to study advanced units in their own specialisation, and/or move into an entirely different study of IT. It is highly recommended that students from a non-IT background commence study with a set of introductory units.

Non-IT graduates who are unsure about enrolling in a full Masters program may like to enrol in a Graduate Diploma which can then be used to articulate into the Master of Information Technology (IT45).

### Entry Requirements

A bachelor degree in a discipline other than information technology with a grade point average of at least 4.5 (on a 7-point scale) **AND** demonstrated competence in the basic skills and concepts of personal or office computer usage.

### Course Structure

With the availability of a nested graduate diploma and graduate certificates, students in the Master of Information Technology may achieve a number of awards on their pathway to a Masters.

Students may be eligible to receive a Graduate Diploma in Information Technology (IT38), after completing 96 credit points (8 units), including the compulsory unit in IT Project

Management.

Students may also be eligible to receive one or more Graduate Certificates in Information Technology, after completing 48 credit points (4 units) consisting of the four specified units in a concentrated area of study.

### Further Information

For further information contact the course coordinator Dr Ernest Foo on enquiry.scitech@qut.edu.au or call 07 3138 2782

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Postgraduate Translation Table

If you have completed the unit(s) listed under the âTranslation Unit Codesâ column you are not permitted to enrol in the listed new code.

### Potential Careers:

Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## **Master of Information Technology (Advanced) (IT48)**

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 053123F

**Course duration (full-time):** 2 years (4 semesters)

**Course duration (part-time):** 4 years (8 semesters)

**Domestic fees (indicative):** 2009: \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Total credit points:** 192

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

âTranslation Unit Codesâ column you are not permitted to enrol in the listed new code

### **Further Information**

For further information contact the course coordinator Dr Ernest Foo on enquiry.scitech@qut.edu.au or call 3138 2782

### **Course Update**

From semester one, 2009 this course will not be available for commencing students. IT48 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### **Course Overview**

The Master of Information Technology (Advanced) builds on the existing Master of Information Technology for IT graduates, with the addition of further units to enhance studentsâ knowledge in another discipline or add depth to an IT specialisation. As students progress through their studies, there is the opportunity to accumulate graduate certificates and a graduate diploma, depending on how students choose to focus their studies.

### **Entry Requirements**

A bachelor degree majoring in information technology with a grade point average of at least 4.5 (on a 7-point scale) **OR** evidence of work experience and/or training equivalent to an IT major.

### **Course Structure**

With the availability of a nested graduate diploma and graduate certificates, students in the Master of Information Technology (Advanced) may achieve a number of awards on their pathway to a Masters.

Students may be eligible to receive a Graduate Diploma in Information Technology (IT35), after completing 96 credit points (8 units), including the compulsory unit in IT Project Management.

Students may also be eligible to receive one or more Graduate Certificates in Information Technology, after completing 48 credit points (4 units) consisting of the four specified units in a concentrated area of study.

### **Unit Incompatibility/Translation Information**

Details on the translation and incompatibility of old and new units is located here:

Postgraduate Translation Table

If you have completed the unit(s) listed under the

## Master of Business Process Management (IT53)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 062622A

**Course duration (full-time):** 1.5 years

**Course duration (part-time):** 3 years

**Domestic fees (indicative):** 2009: Full fee tuition \$7,250 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February, July

**International Entry:** February, July

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Taizan Chan

**Campus:** Gardens Point

### Course Overview

The Master of Business Process Management will provide graduates with the skills and knowledge to create and align information systems to effectively support business and enable business strategy.

The program examines business-IT alignment issues through appropriate theory and skill development, and provides career enhancement opportunities into senior management and governance roles.

Students may undertake study in the areas of corporate systems and business process management, IT professional services (including project management and IT consulting), enterprise architecture and systems, and information and knowledge management within business processes.

### Entry Requirements

A bachelor degree with a grade point average of at least 4.5 (on a 7-point scale) **AND** demonstrated competence in the basic skills and concepts of personal or office computer usage.

### Course Structure

Students may be eligible to receive a Graduate Certificate in Business Process Management after completing 48 credit points (4 units) consisting of the four specified units.

Students may also be eligible to receive a Graduate Certificate in Corporate Systems Management after completing 48 credit points (4 units) consisting of the four specified units.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Postgraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code

### Further Information

For further information contact the course coordinator Dr Taizan Chan on enquiry.scitech@qut.edu.au or call 3138 2782

### Master of Business Process Management

#### IT graduates Gateway Units 4 only

## Master of Information Technology (Research) (IT60)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 020309B

**Course duration (full-time):** 1.5 years or 3 semesters

**Course duration (part-time):** 3 years or 6 semesters

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time

**International Entry:** At any time

**Total credit points:** 144

**Course coordinator:** Associate Professor Shlomo Geva

**Campus:** Gardens Point

### Course Overview

The Master of Information Technology (Research) provides specialist education in information technology through a program that involves either an original contribution to knowledge or an original application of existing knowledge.

Students choose a research topic from recognised areas of research concentration within the Faculty. Research can be carried out in a research centre of the Faculty, in the student's place of employment or in a sponsoring institution.

### Entry Requirements

Applicants must have:

• an approved degree in information technology from a recognised tertiary institution or an equivalent qualification, with a grade point average of 5 (on a 7-point scale) **OR**

• an approved degree from a recognised tertiary institution plus evidence of professional experience and skills to satisfy the academic board that the applicant possesses the capacity to pursue the course of study. The evidence should include details of any project or research activities undertaken.

### Research Areas

Areas of research interest and contact details can be obtained from the Faculty website

### Course Structure

Students entering the degree with second-class honours division A (or better) in an IT-related course will often complete the degree in one year full-time. The length of the program is generally expected to be 18 months full-time (including six months of provisional registration) or three years part-time (including one year of provisional registration).

Assessment for this research masters is based on a program of supervised research and investigation, culminating in a thesis.

Programs may include some coursework in support of the

conduct of research and preparation of a thesis. Candidates are required to have regular, face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

### Further Information

Visit [www.scitech.qut.edu.au](http://www.scitech.qut.edu.au) email [infotech.research@qut.edu.au](mailto:infotech.research@qut.edu.au), or phone +61 7 3138 1000

### Course structure

#### Full-time Course Structure

A program of research and investigation developed in conjunction with the Principal

Supervisor and approved by the Faculty Research Committee (Workload equivalent to 48 credit points per semester)

#### Part-time Course Structure

A program of research and investigation developed in conjunction with the Principal

Supervisor and approved by the Faculty Research Committee (Workload equivalent to 24 credit points per semester)

### Potential Careers:

Business Analyst, Computer Games Developer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## Master of Information Management(refer to IT43) (IT70)

Year offered: 2009

Admissions: No

CRICOS code: 053705F

Course duration (full-time): 3 semesters

Course duration (part-time): 6 semesters

Domestic fees (indicative): 2009: \$6,750 (indicative) per semester

International Fees (per semester): 2009: \$10,250 (indicative) per semester (subject to annual review)

Assumed knowledge: See Entry Requirements

Total credit points: 144

Course coordinator: Dr Helen Partridge

Campus: Gardens Point

### Course is under review

From semester one, 2009 this course will not be available for commencing students. IT70 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### Course Overview

This program provides graduates with the skills to find employment in a broad spectrum of information work in public, academic and special libraries and within corporate and government information management contexts. Students will come to understand and manage the complexities of information which impact on society.

### Course Structure

With the availability of a nested graduate diploma, students in the Master of Information Management may be eligible to receive a Graduate Diploma in Information Management (IT72), after completing 96 credit points (8 units), consisting of eight specified units in a concentrated area of study.

### Entry Requirements

To be eligible for this course, students must have demonstrated competence in the basic skills and concepts of personal or office computer usage and must meet one of the following criteria:

• a bachelor degree in a discipline other than library or information studies with a grade point average of at least 4.5 (on a 7-point scale) **OR**

• evidence of recognised prior learning (e.g. at least five years of relevant full-time work experience).

### Professional Recognition

The Master of Information Management is professionally recognised by the Australian Library and Information Association (ALIA).

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Postgraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to

enrol in the listed new code

### Further Information

Please contact the course coordinator Dr Helen Partridge on enquiry.scitech@qut.edu.au or call 3138 2782

### IT70 - Master of Information Management - Full-time

#### Course Structure 2009

From semester one, 2009 this course will not be available for commencing students. IT70 will only be available for continuing students. New students - please refer to IT43. Please contact fit.enquiry@qut.edu.au for any enquiries.

## Graduate Certificate in Information Management (Library Studies)(refer to IT43) (IT73)

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters

**Domestic fees (indicative):** 2009: \$6,750 (indicative) per semester

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Helen Partridge

**Campus:** Gardens Point

**Potential Careers:**

Librarian.

### Course Overview

The Graduate Certificate in Information Management (Library Studies) is a career development course for practising library and information professionals and consists of four designated units (48 credit points).

Graduates may find employment as a librarian, community information officer, cataloguer, research analyst, information services manager, business information specialist, information broker, corporate librarian, digital library coordinator, law librarian, learning resources officer or library media specialist.

### Course Update

From semester one, 2009 this course will not be available for commencing students. IT73 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### Entry Requirements

To be eligible for this course, students must have demonstrated competence in the basic skills and concepts of personal or office computer usage and must meet one of the following criteria:

• an undergraduate or postgraduate qualification in library and information studies with a grade point average of at least 4.5 (on a 7-point scale) **OR**

• evidence of recognised prior learning (for example, at least five years of relevant full-time work experience).

### International Student Entry

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Postgraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code

### Further Information

For further information contact the course coordinator Helen Partridge on enquiry.scitech@qut.edu.au or call 3138 2782

## Graduate Certificate in Information Management (Information and Knowledge Management) (IT74)

Year offered: 2009

Admissions: No

Course duration (part-time): 2 semesters

Domestic fees (indicative): 2009: \$6,750 (indicative) per semester

Assumed knowledge: See Entry Requirements

Total credit points: 48

Course coordinator: Helen Partridge

Campus: Gardens Point

Librarian.

### Course Overview

The Graduate Certificate in Information Management (Information and Knowledge Management) consists of four designated units (48 credit points).

Graduates may find employment as a knowledge manager, information

manager, metadata analyst, metadata development specialist, information architect, policy officer, document manager, document analyst, database manager, information analyst or strategic information manager.

### Course Update

From semester one, 2009 this course will not be available for commencing students. IT74 will only be available for continuing students. New students - please refer to IT43. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### Entry Requirements

To be eligible for this course, students must have demonstrated competence in the basic skills and concepts of personal or office computer usage and must meet one of the following criteria:

• a bachelor degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale) **OR**

• evidence of recognised prior learning (for example, at least five years of relevant full-time work experience).

## Doctor of Information Technology (IT80)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 063035A

**Course duration (full-time):** 3 years

**Course duration (part-time):** 6 years

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**International Entry:** February and July

**Course coordinator:** Associate Professor Shlomo Geva

**Campus:** Gardens Point

Students should discuss their program with the Course Coordinator.

### Course Overview

The Doctor of Information Technology is a professional doctorate designed for candidates to contribute towards professional practice and is appropriate for those wishing to pursue a problem within their workplace expertise. The focal problem in the professional doctorate is an application of theory to an existing significant industry problem.

### Entry Requirements

Industry experience in a field relevant to the professional doctorate and possess one of the following:

- a four-year degree or its equivalent with first-class or second-class honours division A, or

- a masters degree, or

- a three-year bachelor degree and industry experience, or

- an equivalent combination of experience and/or education and training.

Students with exemplary professional practice who do not meet one of the above criteria may still be eligible to apply and should consult the course coordinator. Before submitting an application for enrolment, potential candidates should consult the course coordinator for assistance with preparation of the appropriate application form concerning eligibility and special interests.

### Course Structure

The degree consists of 288 credit points of which up to 96 credit points are coursework, and the balance is research. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice. The Doctor of Information Technology will provide focused research and coursework studies in the IT's research areas.

### Research Area

Areas of research interest and contact details can be obtained from the Faculty website.

### Further Information

Visit [www.scitech.qut.edu.au](http://www.scitech.qut.edu.au), email [infotech.research@qut.edu.au](mailto:infotech.research@qut.edu.au), or phone +61 7 3138 1000

## Graduate Certificate in Information Technology (IT85)

Year offered: 2009

Admissions: Yes

Course duration (part-time): 1 year

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Ernest Foo

### Course Overview

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Graduate Certificate course has interfaculty contributions from the Faculties of IT, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in the structure of this course through ten different majors:

- No Major
- Software Architecture
- Network Management
- Enterprise Systems
- Games Production
- Games Design
- Security
- Library and Information Science
- Information Management
- Digital Environments
- Executive Information Practice

The Graduate Certificate in Information Technology IT85 is an entry point that is nested within the IT43 Masters and IT44 Masters Advanced programs. Students who successfully complete the IT85 course may articulate to IT43 Masters or IT44 Masters Advanced Programs.

The IT85 Graduate Certificate in Information Technology does not provide a pathway to follow on with a research degree. However, students who graduate from the IT85 Graduate Certificate in Information Technology may articulate to the IT43 Master of Information Technology or IT44 Master of Information Technology Advanced coursework programs.

### Special entry requirements

Executive Information Practice:

This major contains core units from MBA and as such must also meet the MBA entry requirements:

- Demonstrate competency in the English language
- Have a GMAT score of at least 500
- Have at least three years work experience
- At least 10 points from at least two of the three categories
- prior work experience, academic achievement and management aptitude
- For further information, including details regarding the allocation of points, please see refer to the table at: <http://www.bgsb.qut.edu.au/study/entryreq/index.jsp>

### Entry Requirements

To be eligible for this program, students must meet one of the following criteria:

• the Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

### Course Structure

Students are required to complete 48 credit points of units. Please refer to the course structures for information on specific unit requirements for each major. This course may be taken over two semesters part-time. However if the timetable permits a student may complete this course full time in one semester.

### Course completion rules

Students should meet the following requirements before they are able to complete the Graduate Certificate program:

• Students are required to complete 48 credit points of units.

• Students must complete the specific unit requirements for a graduate certificate in a major.

Students undertaking units from the MBA program (GSN units) in the Brisbane Graduate School of Business (BGSB) must meet the MBA entry requirements. Please see the BGSB website <http://www.bgsb.qut.edu.au/study/mba/mbacourses/> for further information.

### Further Information

For further information contact the course coordinator Ernest Foo on [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or call 3138 2782

### IT85 - Graduate Certificate In Information Technology

#### Major Study Areas

Students choose one of the following majors (see Major option list):

No Major

Software Architecture

Network Management

Enterprise Systems

Games Production

Games Design

Security

Executive Information Practice

Library and Information Science

## SCIENCE AND TECHNOLOGY

Information Management  
Digital Environments

INN500 IT Project Management  
INN281 Advanced Game Design  
INN600 Advanced Readings 1  
INN601 Advanced Readings 2  
KIB201 Concept Development for Game Design and Interactive Media  
KIB202 Enabling Immersion

### IT85 - Major Options

A Major block has 84 credit points plus a 48 credit point Elective block

#### No Major

INNXXX \*Any IT postgraduate units to the total of 48 credit points

#### Software Architecture

Any four units from:

INN371 Data Structures and Algorithms  
INN372 Agile Software Development  
INN374 Enterprise Software Architecture  
INN570 Internationalisation of Software  
INN500 IT Project Management  
INN370 Software Development

#### Network Management

Any four units from:

INN350 Internet Protocols and Services  
INN351 Unix Network Administration  
INN352 Network Planning  
INN650 Advanced Network Management  
INN500 IT Project Management

#### Enterprise Systems

Any 4 units from:

INN311 Enterprise Systems  
INN312 Enterprise Systems Applications  
INN374 Enterprise Software Architecture  
INN610 Case Studies in Enterprise Systems  
INN500 IT Project Management

#### Games Production

INN180 Computer Games Studies  
INN181 Introduction to Games Production  
PLUS Any 2 units from:  
INN600 Advanced Readings 1  
INN601 Advanced Readings 2  
INN500 IT Project Management  
INN220 Business Analysis  
INN321 Business Process Management

#### Games Design

INN180 Computer Games Studies  
INN280 Fundamentals of Game Design  
INN272 Interaction Design  
PLUS Any 1 unit from:

#### Security

INN255 Security  
INN651 Security Technologies  
PLUS Any 2 units from:  
INN700 Introduction To Research  
INN355 Cryptology and Protocols  
INN652 Advanced Cryptology  
INN550 Computer Forensics  
MGN524 Special Topic in Management 1  
AYN410 Business Law and Ethics  
MGN433 Managing High-Performance Organisations  
MGN423 Contemporary Strategic Analysis  
GSN440 Risk Management 1  
JSN106 Analytical Methods of Intelligence  
JSN114 Cybercrime  
MAN778 Applications of Discrete Mathematics  
LWN139 Privacy Law  
LWN125 Electronic Commerce Law  
INN690 Minor Project 1  
INN691 Minor Project 2  
INN692 Minor Project 3  
INN694-1 Project 1  
INN694-2 Project  
INN696-1 Major Project 1  
INN696-2 Major Project 2  
INN600 Advanced Readings 1  
INN601 Advanced Readings 2  
INN602 Advanced Readings 3  
INN605 Advanced Research 1  
INN606 Advanced Research 2  
INN607 Advanced Research 3

#### Library and Information Science

INN690 Minor Project 1  
PLUS Any 3 units from:  
INN332 Information Retrieval  
INN531 Information Services  
INN533 Information Organisation  
INN333 Information Programs  
INN530 Web Content Reliability  
INN532 Information Literacy Education

## **Graduate Certificate in Information Technology (Wireless Games Technology) (IT89)**

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Further Information**

For further information contact the course coordinator Dr Ernest Foo on [fit.enquiry@qut.edu.au](mailto:fit.enquiry@qut.edu.au) or visit [www.fit.qut.edu.au/courses/postgradcourse](http://www.fit.qut.edu.au/courses/postgradcourse).

### **Course Overview**

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. Students can complete the program over 26 weeks part-time (based on two subjects per semester).

The GCert IT (Wireless Games Technology) is aimed at developing knowledge and skills in wireless game applications. Assumed skills include familiarity with object oriented programming in Java and/or C++.

### **Entry Requirements**

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **International Student Entry**

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **Course Structure**

Students can enrol directly in the Master of IT (IT Graduates) and gain credit for one or more graduate certificate awards while completing the program. They may exit the course with a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

International students cannot gain direct entry to Graduate Certificates in IT as they are currently only available as part of the IT40 Masters program or as an exit point.

Graduate Certificates are offered part-time only.

## **Graduate Certificate in Information Technology (Computer Networks) (IT90)**

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Course Overview**

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology (Computer Networks) (IT90) is designed for a career in network planning and administration.

Students can complete the program over 26 weeks part-time (based on two subjects per semester).

### **Entry Requirements**

Applicants must have a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale) OR provide other evidence of such qualifications and significant full-time Information Technology work experience as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Foundation level study of the principles of modern networking.

### **International Student Entry**

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **Course Structure**

Students can enrol directly in the Master of IT (IT Graduates) and gain credit for one or more graduate certificate awards while completing the program. They may exit the course with a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

International students cannot gain direct entry to Graduate Certificates in IT as they are currently only available as part of the IT40 Masters program or as an exit point.

The programs are offered part-time only.

### **Further information**

For further information contact the course coordinator Dr Ernest Foo on [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or visit [www.scitech.qut.edu.au/study/postgrad/](http://www.scitech.qut.edu.au/study/postgrad/)

## **Graduate Certificate in Information Technology (Information Security) (IT92)**

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Assumed knowledge:** See entry requirements

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Further Information**

For further information contact the course coordinator Dr Ernest Foo on enquiry.scitech@qut.edu.au or visit [www.scitech.qut.edu.au/study/postgrad/](http://www.scitech.qut.edu.au/study/postgrad/)

### **Potential Careers:**

Data Communications Specialist, Internet Professional, Network Administrator, Network Manager.

### **Course Overview**

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. Students can complete the program over 26 weeks part time (based on undertaking two subjects per semester).

GCert IT (Information Security) are designed to provide you with training and a strong understanding of security-related issues in information technology systems. You learn about security problems encountered in computing systems, and explore measures that can be used to secure these systems. An information security background is not necessary for entry to this module.

### **Entry Requirements**

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with principles of modern networking and for ITB646, assumed Maths as specified in ITB646 (see Course Structure).

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### **International Student Entry**

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **Course Structure**

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

## **Graduate Certificate in Information Technology (Enterprise Wide Software) (IT93)**

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

For further information contact the course coordinator Dr Ernest Foo on enquiry.scitech@qut.edu.au or visit [www.scitech.qut.edu.au/study/postgrad/](http://www.scitech.qut.edu.au/study/postgrad/)

### **Course Overview**

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. GCert IT (EWS) is for students who wish to take advantage of the programming, administration and planning opportunities offered by enterprise wide system environments.

### **Entry Requirements**

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with concepts of enterprise architecture or enterprise modelling.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### **International Student Entry**

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **Course Structure**

Students can use a graduate certificate in IT to articulate or gain credit towards a Graduate Diploma and/or Masters in IT award.

Alternatively, applicants may directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

### **Further Information**

## Graduate Certificate in Information Technology (Electronic Commerce) (IT94)

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### Course Overview

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations.

The Graduate Certificate in Information Technology (Electronic Commerce) (IT94) provides the knowledge and skills necessary for employment in mainstream e-commerce application development.

### Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with object oriented concepts, some programming in modern languages and relational databases.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### International Student Entry

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### Course Structure

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

### Further Information

For further information contact the course coordinator Dr Ernest Foo on [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or visit

## Graduate Certificate in Information Technology (Project) (IT95)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Dr Hamish Bentley

**Campus:** Gardens Point

### Entry Requirements

Please note: From 2009, this course is discontinued - please refer to IT85.

An approved Bachelor degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Previous study at postgraduate level. Previous research methodology study recommended.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### International Student Entry

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### Articulation

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

### Further Information

For further information contact the course coordinator Dr Ernest Foo on [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or visit [www.scitech.qut.edu.au/study/postgrad/](http://www.scitech.qut.edu.au/study/postgrad/)

### Potential Careers:

Data Communications Specialist, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.

## Graduate Certificate in Information Technology (Generic) (IT97)

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 1 semester

**Course duration (part-time):** 2 semesters

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point and External

### IT97 is an exit option only

#### IT97 Graduate Certificate in IT

ITN272 Information Technology Project Management

AND Three of the following Basic units:

ITN200 Database Systems

ITN201 Enterprise Architectures

ITN701 Networks and Systems

OPTIONAL One of the following Basic units:

L

ITN700 Programming Principles

ITB001 Problem Solving and Programming

### Potential Careers:

Data Communications Specialist, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager.

## **Graduate Certificate in Information Technology (Multimedia) (IT98)**

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Dr Ernest Foo

**Campus:** Gardens Point

### **Course Overview**

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations.

GCert IT (Multimedia) offers the opportunity to specialise in interface design, with skills in multimedia solutions.

### **Entry Requirements**

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with programming and database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### **International Student Entry**

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **Course Structure**

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

### **Further Information**

For further information contact the course coordinator Dr Ernest Foo on [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or [www.scitech.qut.edu.au/study/postgrad/](http://www.scitech.qut.edu.au/study/postgrad/)

## **Graduate Certificate in Information Technology (Component Software and Web Services) (IT99)**

**Year offered:** 2009

**Admissions:** No

**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February and July

**Assumed knowledge:** See Entry Requirements

**Total credit points:** 48

**Course coordinator:** Ernest Foo

**Campus:** Gardens Point

### **Course Overview**

Please note: From 2009, this course is discontinued - please refer to IT85.

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. The GCert IT (Component Software and Web Services) provides a firm basis for a career in web applications technology across a variety of platforms.

### **Entry Requirements**

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Programming skills at non-elementary level, including OO concepts, basic computer security, analysis skills (eg software engineering, systems analysis or enterprise modelling), relational database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

### **International Student Entry**

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### **Course Structure**

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

### **Further Information**

For further information contact the course coordinator Dr Ernest Foo on [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or visit [www.scitech.qut.edu.au/study/postgrad/](http://www.scitech.qut.edu.au/study/postgrad/)

## Bachelor of Applied Science/Bachelor of Education (Secondary) (IX02)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 020322E

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,641 (indicative) per semester

**International Fees (per semester):** 2009: \$10,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 409112

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 432

**Standard credit points per full-time semester:** 48 (semesters 1, 6-8), 60 (semesters 2-5)

**Course coordinator:** Dr Perry Hartfield (Science); Dr Mal Shield (Secondary)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geoscience); Dr Dann Mallet (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point and Kelvin Grove

### Career Opportunities

The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You are equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant to students intending to follow a career in secondary school teaching are Chemistry, Ecology, Geoscience, Mathematics or Physics.

### Recommended Study

At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

### Course Design

See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

### Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

### Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Computing Requirement**

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

**Course structure - Major in Biochemistry**

**Year 1, Semester 1**

SCB110 Science Concepts and Global Systems

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

**Year 1, Semester 2**

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2  
SCB122 Cell and Molecular Biology  
SCB123 Physical Science Applications  
SCB222 Exploration of the Universe

**Year 2, Semester 1**

LQB381 Biochemistry: Structure and Function  
LQB383 Molecular and Cellular Regulation

**Year 2, Semester 2**

LQB481 Biochemical Pathways and Metabolism  
LQB483 Molecular Biology Techniques  
LSB608 Protein Science  
Science Elective (See list)

**Year 3, Semester 1**

LQB581 Functional Biochemistry  
LQB582 Biomedical Research Technologies  
LQB583 Genetic Research Technology  
Science Elective (See list)

**Course structure - Major in Biotechnology**

**Year 1, Semester 1**

SCB110 Science Concepts and Global Systems  
SCB111 Chemistry 1  
SCB112 Cellular Basis of Life  
Plus either:  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

**Year 1, Semester 2**

SCB120 Plant and Animal Physiology

SCB222 Exploration of the Universe

**Year 2, Semester 1**

LQB381 Biochemistry: Structure and Function  
LQB383 Molecular and Cellular Regulation

## SCIENCE AND TECHNOLOGY

### Year 2, Semester 2

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics
	Science Elective (See list)
	Science Elective (See list)

### Year 3, Semester 1

LQB582	Biomedical Research Technologies
LQB583	Genetic Research Technology
LQB584	Medical Cell Biology
LQB585	Plant Genetic Manipulation

### Course structure - Major in Chemistry

#### Year 1, Semester 1

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 1, Semester 2

MAB100	Mathematical Sciences 1A
SCB121	Chemistry 2
SCB123	Physical Science Applications
SCB131	Experimental Chemistry
SCB222	Exploration of the Universe

#### Year 2, Semester 1

PQB312	Analytical Chemistry For Scientists and Technologists
PQB331	Structure and Bonding

#### Year 2, Semester 2

PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy
PCB634	Organometallic and Coordination Chemistry
	Science Elective (See list)

#### Year 3, Semester 1

PQB502	Materials Chemistry and Characterisation
PQB513	Instrumental Analysis
PQB531	Organic Mechanisms and Synthesis
	Science Elective (See list)

### Course structure - Major in Ecology

#### Year 1, Semester 1

- SCB120 Plant and Animal Physiology
- Or
- SCB222 Exploration of the Universe
- \* SCB120 and SCB222 are alternative units for Geoscience Major
- MDB454 Science, Technology and Society

**Science Electives**

Select TWO units that you have not already done from the following:

**Semester 1 Units:**

- NQB321 Ecology
- NQB322 Invertebrate Biology
- NQB323 Plant Biology
- SCB121 Chemistry 2

**Semester 2 Units:**

- NQB201 Planet Earth
- NQB202 History of Life on Earth
- NQB403 Soils and the Environment
- NQB423 Vertebrate Biology
- PQB250 Mechanics and Electromagnetism
- SCB120 Plant and Animal Physiology
- SCB121 Chemistry 2
- SCB122 Cell and Molecular Biology
- SCB123 Physical Science Applications

**List 1: Curriculum Studies 1X & 1Y**

Prerequisite: Normally minimum of 24 credit points of relevant discipline. Students undertaking a double Science major will undertake an education elective in addition to

MDB031.

- MDB021 Mathematics Curriculum Studies 1
- MDB031 Science Education Curriculum Studies 1

**List 2: Curriculum Studies 2X & 2Y**

Prerequisites: Curriculum Studies 1X & 1Y

- MDB010 Biology Curriculum Studies 2
- MDB013 Chemistry Curriculum Studies 2
- MDB019 Earth Science Curriculum Studies 2
- MDB022 Mathematics Curriculum Studies 2
- MDB025 Physics Curriculum Studies 2
- MDB028 Science Curriculum Studies 2

**List 3: Curriculum Studies 3X & 3Y**

Prerequisites: Curriculum Studies 2X & 2Y. Students undertaking a double Science major will undertake an education elective in addition to MDB033.

- MDB023 Mathematics Curriculum Studies 3
- MDB033 Science Education Curriculum Studies 3

**Potential Careers:**

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Statistician, Virologist.

## Bachelor of Applied Science/Bachelor of Education (Primary) (IX14)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 037540M

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$2,888 (indicative) per semester

**International Fees (per semester):** 2009: \$10,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 409142

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science): Contact Education Student Affairs Section 3138 3947, or [educationenq@qut.edu.au](mailto:educationenq@qut.edu.au)

**Discipline coordinator:** Education Course Coordinator Dr Mary Ryan. Science Discipline Coordinators: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point and Kelvin Grove

### Career Opportunities

The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You will be equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Primary) prepares you to teach at all levels of primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

### Course Design

Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component. Field Studies units will be taken in Queensland schools.

### Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

### Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at [bluecard.qut.com](http://bluecard.qut.com).

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Computing Requirement**

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

**Course structure - Major in Biochemistry**

MAB414	Applied Statistics 2 Or
MAB422	Mathematical Modelling Plus select ONE unit from the following:
MAB313	Mathematics of Finance
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB422	Mathematical Modelling
MAB461	Discrete Mathematics
MAB480	Introduction to Scientific Computation

#### Year 3, Semester 1

SCB112	Cellular Basis of Life Plus select THREE units from the following:
MAB521	Applied Mathematics 3
MAB525	Operations Research 3A
MAB533	Statistical Techniques
MAB672	Advanced Mathematical Modelling

### Course structure - Major in Mathematics (WITHOUT Maths C)

#### Year 1, Semester 1

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
SCB110	Science Concepts and Global Systems

#### Year 1, Semester 2

MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1

#### Year 2, Semester 1

MAB220	Computational Mathematics 1
MAB311	Advanced Calculus
MAB315	Operations Research 2

#### Year 2, Semester 2

MAB625	Operations Research 3B Plus either
MAB414	Applied Statistics 2 Or
MAB422	Mathematical Modelling Plus select ONE unit from the following:
MAB313	Mathematics of Finance
MAB413	Differential Equations

## SCIENCE AND TECHNOLOGY

MAB414	Applied Statistics 2
MAB422	Mathematical Modelling
MAB461	Discrete Mathematics
MAB480	Introduction to Scientific Computation

### Year 3, Semester 1

Select ONE unit from the following:

SCB110	Science Concepts and Global Systems
SCB112	Cellular Basis of Life

Plus select THREE units from the following:

MAB521	Applied Mathematics 3
MAB525	Operations Research 3A
MAB533	Statistical Techniques
MAB672	Advanced Mathematical Modelling

### Course structure - Major in Microbiology

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Plus either
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2
SCB122	Cell and Molecular Biology

#### Year 2, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
LQB386	Microbial Structure and Function

#### Year 2, Semester 2

LQB483	Molecular Biology Techniques
LQB486	Clinical Microbiology 1
LSB628	Food Microbiology

#### Year 3, Semester 1

LQB586	Clinical Microbiology 2
LQB587	Applied Microbiology 1: Water, Air and Soil
	Plus either
LQB582	Biomedical Research Technologies
	Or
LQB583	Genetic Research Technology
	Science Elective

### Course structure - Major in Physics

#### Year 1, Semester 1

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
	Plus either
MAB100	Mathematical Sciences 1A
	Or

MAB111	Mathematical Sciences 1B
--------	--------------------------

NOTE: Students without Senior Mathematics C must take MAB120 in Semester 1 and MAB121 in Semester 2

#### Year 1, Semester 2

MAB112	Mathematical Sciences 1C
PQB250	Mechanics and Electromagnetism
	Plus either
MAB111	Mathematical Sciences 1B
	Or
PQB251	Waves and Optics

#### Year 2, Semester 1

MAB311	Advanced Calculus
PQB350	Thermodynamics of Solids and Gases
SCB112	Cellular Basis of Life

#### Year 2, Semester 2

PQB450	Energy, Fields and Radiation
PQB451	Electronics and Instrumentation
PCB665	Physics 3

#### Year 3, Semester 1

PQB550	Quantum and Condensed Matter Physics
PQB551	Physical Analytical Techniques
PQB651	Experimental Physics
	Science elective for Physics major (See list)

### Course structure - Science Elective for Physics Major

Students must select units that they have not already taken, and for which they have the appropriate prerequisites:

MAB101	Statistical Data Analysis 1
MAB220	Computational Mathematics 1
MAB312	Linear Algebra
NQB302	Earth Surface Systems
NQB311	Mineralogy
NQB322	Invertebrate Biology
NQB323	Plant Biology
PCB593	Digital Image Processing
PQB360	Global Energy Balance and Climate Change
SCB121	Chemistry 2

### Potential Careers:

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Statistician, Virologist.

## Bachelor of Engineering (Software Engineering) (IX25)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 053707D

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,568 (indicative) per semester

**International Fees (per semester):** 2009: \$11,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419502

**Past rank cut-off:** 76

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr R.Mahalinga-lyer

**Discipline coordinator:** Dr Jasmine Banks

**Campus:** Gardens Point

### Course Overview

The course is a collaborative program between the Faculties of Built Environment & Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

### Course is under review

The Faculty of Science and Technology is currently reviewing this course structure to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval. Further information will be available from August 2008. Please contact [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) for any enquiries.

### Recommended Study

Chemistry, Maths C and Physics

### Career Outcomes

Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse

current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

### Professional Recognition

Professional accreditation from Engineers Australia and the Australian Computer Society is being sought.

### Special course requirements

Students are required to complete 60 days approved industrial experience.

### International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the âTranslation Unit Codesâ column you are not permitted to enrol in the listed new code.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the âTranslation Unit Codesâ column you are not permitted to enrol in the listed new code.

	OR
BEB802	Project 2
	Elective
	Elective

**IX25 - Bachelor of Engineering (Software Engineering) - Electives**

Students are required to undertake 3 electives

**Electrical Engineering Electives (2 to be selected)**

Any 3rd or 4th year electrical ENB unit approved by the course coordinator.

**Information Technology Electives (1 to be selected)**

INB365	Systems Programming
INB373	Web Application Development
INB381	Modelling and Animation Techniques
INB382	Real Time Rendering Techniques

Or any 3rd or 4th year IT unit approved by the course coordinator.

**Potential Careers:**

Computer Systems Engineer, Data Communications Specialist, Electrical and Computer Engineer, Electrical Engineer, Software Engineer, Systems Programmer.

## Bachelor of Applied Science/Bachelor of Information Technology (IX26)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 020327M

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$10,750 (indicative) per semester (*subject to annual review*)

**QTAC code:** 419302

**Past rank cut-off:** 74

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Course coordinator:** Dr Perry Hartfield (Science), Mr Richard Thomas (IT)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point

#### Potential Careers:

Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Data Communications Specialist, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Population Ecologist, Software Engineer, Systems Analyst, Virologist.

## Bachelor of Creative Industries / Bachelor of Information Technology (IX27)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 059227E

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,332 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**QTAC code:** 409872

**Past rank cut-off:** 74

**Past OP cut-off:** 13

**Assumed knowledge:** English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or **Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** IT: Mr Richard Thomas; Creative Industries: Head, Undergraduate Studies (ugenq.ci@qut.edu.au)

**Campus:** Gardens Point and Kelvin Grove

### Overview

This four-year program gives you the opportunity to allow your creative side to shine through as it complements your technical information technology skills. The integrated program consists of 16 creative industries units and 16 information technology units so that you will study both creative industries and information technology units in each semester. You will choose one information technology major from business systems engineering, databases, electronic business, games technology, information and knowledge management, information systems, information technology management, intelligent systems, security, network systems, software architecture, or web services and applications.

The Bachelor of Creative Industries emphasises the use of technology through digital media and film production in the interdisciplinary major. You can choose a creative industries Second major that will build complementary skill sets, such as digital media or film, television and screen. Alternatively, you may choose a creative industries area of interest to diversify your IT studies.

Creative Industries Second majors include art and design history; creative and professional writing; dance; digital media, fashion; film, television and screen; interactive and visual design; journalism; media and communication; literary and cultural studies.

### Course Update

From semester one, 2009 this course will not be available for commencing students. IX27 will only be available for continuing students. New students - please refer to IX56. Please contact enquiry.scitech@qut.edu.au for any enquiries.

### Career Outcomes

The creative industries Second majors in this double degree have been specifically chosen for their relevance to careers in information technology. You will undertake the Bachelor of Creative Industries interdisciplinary major as well as one creative industries second major. Your information technology degree component comprises eight core units and eight units in your information technology major.

You will learn creative and technical skills within a contextual framework, so you will be well placed to build your career in digital product and new media strategy.

### Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Information Technology) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 168 credit points from Creative Industries interdisciplinary units.

The Information Technology component is made up of 120 credit points of Faculty core units and 72 credit points of units from an IT major.

### Professional Recognition

Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

### OP Guarantee

The OP Guarantee does not apply to this course.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Domestic student tuition fee (Dfee) places

**Undergraduate domestic full fee places (Dfee) are not available in this course.** Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

### Further Information

For information regarding the IT component of this degree, please contact the Course Coordinator, Mr Richard Thomas

**Creative Industries Second Majors**

**INSTRUCTIONS FOR SECOND MAJORS/CO-MAJORS**

\*From 2009 Co-Majors have been renamed Second Majors

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a second major or co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these second major or co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these second majors or co-majors and/or minors. Any unit(s) that appear in multiple second major or co-majors and/or minors can only contribute towards the completion of one of these second major or co-majors or minors.

**Advertising**

	Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.
AMB200	Consumer Behaviour
AMB220	Advertising Theory and Practice
AMB221	Advertising Copywriting
AMB319	Media Planning
AMB320	Advertising Management
AMB339	Advertising Campaigns
AMB330	Advertising Planning Portfolio
BSB126	Marketing

**Animation**

KIB105	Animation and Motion Graphics
KIB108	Animation History and Practices
KIB203	Introduction to 3D Computer Graphics
KIB225	Character Development, Conceptual Design and Animation Layout
KIB316	Virtual Environments
KIB325	Real-Time 3D Computer Graphics
KVB105	Drawing for Design
KVB106	Drawing for Animation

**Art and Design History**

Description: This co-major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this co-major will

assist in preparing you for work as a professional in these disciplines.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

DAB325	Architecture in the 20th Century
DAB420	Architecture, Culture and Space
DEB102	Introducing Design History
KVB102	Modernism
KVB103	Australian Art
KVB108	Contemporary Asian Visual Culture
KVB211	Post 1945 Art
KVB212	Australian Art, Architecture and Design
KVB304	Contemporary Art Issues
KVB306	Video Art and Culture

**Communication Design**

\*continuing students only

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KIB101	Visual Communication
KIB102	Visual Interactions
KIB103	Introduction to Web Design and Development
KIB104	Digital Media
KIB205	Programming for Visual Designers and Artists
KIB214	Design for Interactive Media
KIB216	Advanced Web Design
KIB230	Interface and Information Design

**Creative and Professional Writing**

Description: The aim of this co-major is to prepare students to graduate with adequate skills and knowledge in the area of creative and professional writing; to provide a thorough grounding in a variety of genres that include fiction, creative non-fiction, media writing and corporate writing and editing, thereby equipping graduates with the versatility required of professional writers; to enhance the critical, analytical and peer-reviewing skills of students; to provide and understanding of creative writing in its social and generic contexts.

Assumed Knowledge: There is no specific prior

knowledge required as a prerequisite to undertaking this co-major.

KWB101	Introduction to Creative Writing
KWB102	Media Writing
KWB103	Persuasive Writing
KWB104	Creative Writing: The Short Story
KWB106	Corporate Writing and Editing
KWB107	Creative Non-Fiction
KWB206	Youth and Children's Writing
KWB207	Great Books: Creative Writing Classics
KWB211	Stylistics and Poetics
KWB303	Writing and Publishing Industry
KWB313	Novel and Memoir

**Dance**

Description: This co-major aims to provide a broad grounding in practical and theoretical aspects of dance. You will gain skills in contemporary dance, ballet, commercially driven genres, choreography and critical thinking and writing together with an understanding of the social and historical context of ballet, contemporary dance, and popular and world dance.

Assumed Knowledge: Previously acquired knowledge or skill IS required for you to undertake this co-major. It is essential that you be physically able, fit and have basic knowledge in a dance technique, either ballet, jazz or contemporary to undertake the practical units.

KDB103	Dance Technique Studies 1
KDB104	Dance Technique Studies 2
KDB105	Architecture of the Body
KDB106	Dance Analysis
KDB107	Choreographic Studies 1
KDB108	World Dance
KDB109	Funk, Tap and all that Jazz
KDB110	Deconstructing Dance in History
KDB204	Australian Dance
KDB205	Dance in Education
KDB225	Music Theatre Skills

**Digital Media**

Description: Online and interactive technologies now dominate creative and professional life. This co-major provides you with the opportunity to develop websites, multimedia projects, wikis and blogs, as well as allowing you to understand the guiding principals behind these new modes of communication and creative practice.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB101	Communication in the New Economy
KCB102	Media and Society: From Printing Press to Internet

## SCIENCE AND TECHNOLOGY

	OR
KJB101	Digital Journalism
KCB104	Media and Communications Industries
	OR
KPB106	Australian Television
KCB201	New Media 1: Information and Knowledge
KCB202	New Media 2: Applications and Implications
KCB203	Consumer Cultures
KIB101	Visual Communication
KIB103	Introduction to Web Design and Development
KVB306	Video Art and Culture

### Drama

Description: The co-major offers a balance of performance theory and practice. It is designed as a learning sequence, beginning with introductory concepts and practices, through intermediate and on to advanced learning. Underpinning the co-major is a twin focus on contemporary performance-making and events management. Both of these areas are balanced by studies in theatre history and theory. Core topics include acting; directing; twentieth-century performance theory and practice; and events management.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KTB101	20th Century Performance
KTB103	Performing Skills 1: Character and Scene
KTB104	Performance Innovation
KTB106	Performing Skills 2: Style and Form
KTB204	Understanding Performance
KTB207	Staging Australia
KTB210	Creative Industries Management
KTB211	Creative Industries Events and Festivals
KTB305	The Entrepreneurial Artist
KTB306	Directing for Performance Events and Festivals

### Entrepreneurship

Description: To provide students with an introduction to basic business principles as well as the innovation, development, production and entrepreneurial activities required when starting a new business. Students who do the extended eight unit set will be able to supplement this with a range of broader business administration and promotional skills particularly in the marketing and management areas.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB230	Digital Promotions
AMB240	Marketing Planning and Management
AMB251	Innovation and Brand Management
BSB115	Management, People and Organisations

BSB126	Marketing
EFB210	Finance 1
IBB213	International Marketing
MGB207	Human Resource Issues and Strategy
MGB216	Managing Technology, Innovation and Knowledge
MGB324	Managing Business Growth
MGB222	Managing Organisations
MGB223	Entrepreneurship and Innovation
MGB335	Project Management

### Fashion

Description: This co-major has been designed to offer a mix of theoretical and practical units. The theory units will develop your knowledge and understanding of the history, industry and consumption of fashion and will introduce you to the critical legal issues surrounding the production and distribution of fashion. The practical units provide you with a variety of options to develop fashion related skills focusing on textile design, portfolio development and fashion journalism.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB203	Consumer Cultures
KFB103	Introduction to Fashion
KFB106	Unspeakable Beauty: A History of Fashion and Style
KFB107	Drawing For Fashion
KFB205	Fashion and Style Journalism
KFB206	Fashion and Modernity
KFB207	Contemporary Fashion
KFB208	Fashion Portfolio
KFB209	Ragtrade: Wholesaling Fashion
KFB304	Fashion, Law and the Real World
KVB213	Graphic Investigation

### Film, Television and Screen

Description: The aim of this co-major is to provide students with a range of understandings in the theory and practice of film, television and screen. This study area aims to enhance creative, technical and organizational abilities as well as building story telling and communication skills.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KPB101	Foundations of Film and Television Production
KPB102	Film History
KPB104	Film and Television Production Resource Management
KPB105	Narrative Production
KPB106	Australian Television
KPB107	Television's Greatest Hits

## SCIENCE AND TECHNOLOGY

KPB108	Media Text Analysis		Communication (KCB) units, it has been designed to enable you to develop the skills and knowledge to prepare media material for organizations that wish to build, and maintain, a media profile.

KVB213	Graphic Investigation

### Transitions to New Professional Environments Units

A maximum of 48 credit points may be taken from the following units:

KKB341	Workplace Learning 1
KKB342	Workplace Learning 2
KKB343	Service Learning 1
KKB344	Service Learning 2
KKB345	Creative Industries Project 1
KKB346	Creative Industries Project 2
KKB347	Becoming A Researcher: Understandings, Skills and Practices
KKB348	Becoming A Researcher: Contexts, Protocols and Impact
KKB350	Creative Industries International Study Tour

### Creative Industries Faculty Undergraduate Open Electives

#### Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

Rules for selecting electives:

\* you must obey any elective rules as set out in

## SCIENCE AND TECHNOLOGY

your course requirements

\* you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen sub-major area.

\* you must have successfully completed any pre/co-requisite units applicable

\* the offering of elective units is subject to sufficient student enrolment numbers and staff availability

\* some units are subject to quota restrictions

\* KK33, KK34, KJ32, KM32, IX07 and IX16 students ONLY are permitted to select electives from outside the Faculty of Creative Industries

KKB344 Service Learning 2

KKB345 Creative Industries Project 1

KKB346 Creative Industries Project 2

KKB347 Becoming A Researcher: Understandings, Skills and Practices

### Music & Sound

KMB003 Sex Drugs Rock 'n' roll

KMB004 World Music

KMB104 Music and Sound Skills

KMB105 Music and Sound Technology

KTB207	Staging Australia
KTB062	Creative Industries Events and Festivals

### Visual Arts

KVB103	Australian Art
KVB104	Photomedia and Artistic Practice
KVB108	Contemporary Asian Visual Culture
KVB111	3D Media and Processes
KVB211	Post 1945 Art
KVB306	Video Art and Culture
KVB307	Theories of Spatial Culture

### Creative Writing & Cultural Studies

KWB102	Media Writing
KWB104	Creative Writing: The Short Story
KWB105	Film and Television Scriptwriting
KWB106	Corporate Writing and Editing
KWB109	Ozlit
KWB204	Creative Non-Fiction: Life Writing
KWB206	Youth and Children's Writing
KWB209	Shakespeare, Then and Now
KWB307	Indigenous Writing
KWB309	Popular Fictions, Popular Culture

### NOTES:

\* Only one Workplace Learning unit may be completed

\* KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

### Potential Careers:

Advertising Professional, Animator, Artist, Arts Administrator, Composer, Computer Game Programmer, Computer Games Developer, Creative Writer, D.J, Digital Composer, Film Composer, Film/Television Producer, Information Officer, Information Security Specialist, Internet Professional, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Organisational Communication Specialist, Public Relations Officer/Consultant, Recording Engineer, Song Writer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Technical Officer, Web Designer.

## Bachelor of Information Technology/Bachelor of Mathematics (IX29)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 059226F

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**QTAC code:** 419552

**Past rank cut-off:** 76

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4,SA) and Maths B (4,SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Course coordinator:** Dr Gary Carter (Mathematics), Mr Richard Thomas (IT)

**Campus:** Gardens Point

### Course Update

From semester one, 2009 this course will not be available for commencing students. IX29 will only be available for continuing students. New students - please refer to IX57. Please contact [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) for any enquiries.

### Professional Recognition

On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

### Course Design

This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points from Mathematics. All majors in the Bachelor of Information Technology are available.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

### Mathematics Bursaries

Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see [www.maths.qut.edu.au](http://www.maths.qut.edu.au)

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

INB381	Modelling and Animation Techniques
INB382	Real Time Rendering Techniques
MAB281	Mathematics for Computer Graphics
	MAB281 is only to be used as a prereq for INB381
	null

### Potential Careers:

Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.

## Bachelor of Applied Science / Bachelor of Business (IX31)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 042263G

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,559 (indicative) per semester

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419832

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science); Dr Erica French (Business)

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoos Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations). Science Discipline Coordinator details are listed under Contact Details below.

**Campus:** Gardens Point

### Career Opportunities

By combining your science studies with the Bachelor of Business you will develop the entrepreneurial skills necessary to sell your abilities to a range of employers. As a graduate of the Bachelor of Applied Science/Bachelor of Business, you will be able to work at the cutting edge of scientific innovation within a range of public, private and non-profit industries. As well as the range of science-based careers available, you could expect to gain employment as a consultant, marketer, or project manager within firms developing and taking scientific research to the marketplace.

### Course Design

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field. You can specialise in one of the major areas of study available in the Bachelor of Applied Science course (Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology or Physics). See the Bachelor of Applied Science (SC01) course for more details.

To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the business program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

You can specialise in one or more of the following business majors: Accountancy, Advertising, Finance, Economics, Human Resource Management, International Business, Management, Marketing or Public Relations.

### Professional Recognition

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership as follows:

\*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.

\*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).

\*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association;

\*Economics: Economic Society of Australia (Queensland Division).

\*Finance: Financial Services Institute of Australasia (FINSIA).

\*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;

\*International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;

\*Management - Australian Institute of Management;

\*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association.

\*Public Relations - Public Relations Institute of Australia.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

### Course structure - Major in Biochemistry

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Plus either:

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

## SCIENCE AND TECHNOLOGY

### Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

### Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation

### Year 3, Semester 2

LQB481	Biochemical Pathways and Metabolism
LQB483	Molecular Biology Techniques

### Year 4, Semester 1

LQB581	Functional Biochemistry
LQB582	Biomedical Research Technologies

### Year 4, Semester 2

LQB681	Biochemical Research Skills
LQB682	Protein Biochemistry and Bioengineering

### Course structure - Major in Biotechnology

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2

#### Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

#### Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation

#### Year 3, Semester 2

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics

#### Year 4, Semester 1

	TWO units selected from:
LQB583	Genetic Research Technology
LQB584	Medical Cell Biology

LQB585	Plant Genetic Manipulation
--------	----------------------------

### Year 4, Semester 2

TWO units selected from:

LQB682	Protein Biochemistry and Bioengineering
LQB684	Medical Biotechnology
LQB685	Plant Microbe Interactions

### Course structure - Major in Chemistry

#### Year 1, Semester 1

PQB550	Quantum and Condensed Matter Physics
PQB551	Physical Analytical Techniques

## Year 4, Semester 2

PQB650	Advanced Theoretical Physics
PQB651	Experimental Physics

### **Potential Careers:**

Academic, Account Executive, Accountant, Advertising Professional, Analytical Chemist, Astrophysicist, Banker, Banking and Finance Professional, Biochemist, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Business Analyst, Chemist, Chemist Industrial, Clinical Laboratory Scientist, Coastal Scientist, Conservation Biologist, Ecologist, Economist, Environmental Scientist, Estimator, Exchange Student, Financial Advisor/Analyst, Financial Project Manager, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Home Economist, Human Resource Developer, Human Resource Manager, Hydrogeologist, Immunologist, Industrial Chemist, International Business Specialist, Investment Manager, Laboratory Technician (Chemistry), Manager, Marine Scientist, Marketing Officer/Manager, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Policy Officer, Population Ecologist, Programmer, Public Relations Officer/Consultant, Public Servant, Stockbroker, Virologist.

## Bachelor of Business/Bachelor of Information Technology (IX33)

**Year offered:** 2009

**Admissions:** No

**CRICOS code:** 059595C

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$4,022 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**QTAC code:** 419202

**Past rank cut-off:** 76

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA), Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Course coordinator:** Ruth Christie (InfoTech); Dr Erica French (Business)

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoo Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)

**Campus:** Gardens Point

### Course Update

From semester one, 2009 this course will not be available for commencing students. IX33 will only be available for continuing students. New students - please refer to IX58. Please contact [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) for any enquiries.

### Overview

This double degree will give you a broad base of commercial knowledge in business and information technology, making you more attractive to employers, even if you wish to work predominantly in an information technology position. You will have the opportunity to complement your information technology studies with a business major in accountancy, advertising, finance, economics, human resource management, international business, management, marketing or public relations.

You will combine your business studies with an information technology major of your choice. Possible combinations include finance with security, management with business systems engineering, or marketing with information and knowledge management.

### Cooperative Education Program

The Coop Ed Program is a joint venture between employers and the Faculty of IT giving you the opportunity of 10-12 months paid industry placement to better prepare you for employment after you graduate. The Coop Ed Program

integrates formal study and professional experience, so you can apply what you're learning in an area relevant to your chosen path.

Some of the organisations our Coop Ed students have worked with are the Australian Tax Office, Boeing Australia, CITEC, Department of Natural Resources and Water, Dialog, EPA, Queensland Police, RACQ and UNITAB Limited.

For more information about the IT's Cooperative Education Program, please visit <http://coop.fit.qut.edu.au/>

### Career Outcomes

Business graduates work in diverse roles in the private and public sectors in areas such as accountancy, advertising, banking and finance, economics, human resource management, international business, management, marketing and public relations. A graduate of the Bachelor of Information Technology may find employment as a programmer, systems manager, systems designer, systems analyst, computer sales and marketing consultant or data processing manager.

### Professional recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

- \*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance;
- \*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program);
- \*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
- \*Economics: Economic Society of Australia (Queensland Division);
- \*Finance: Financial Services Institute of Australasia (FINSIA);
- \*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
- \*International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;
- \*Management - Australian Institute of Management;
- \*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association;
- \*Public Relations - Public Relations Institute of Australia.

Graduates of the Bachelor of Information Technology meet the knowledge requirements for admission to the Australian Computer Society (ACS).

**Course Design**

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Information Technology program.

**Further Information**

For information regarding the IT component of this degree, please contact the Course Co-ordinator Richard Thomas - (07)3138 2782 or enquiry.scitech@qut.edu.au

**Unit Incompatibility/Translation Information**

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code

**Accountancy Major**

**Year 1 Semester 1**

- BSB110 Accounting
- BSB115 Management

## Bachelor of Business / Bachelor of Mathematics (IX37)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 059601K

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,559 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419212

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Erica French (Business); Prof Erhan Kozan (Mathematics); Dr Helen Johnson (Assistant Course Coordinator - Mathematics)

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoo Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)

**Campus:** Gardens Point

### Career Opportunities

Graduates are equipped to undertake sophisticated economic and financial modelling which is important in business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Graduates may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

### Professional Recognition

The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership as follows:

\*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.

\*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered

Accountants in Australia (ICAA)(enrolment in the CA Program).

\*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association;

\*Economics: Economic Society of Australia (Queensland Division).

\*Finance: Financial Services Institute of Australasia (FINSIA).

\*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;

\*International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;

\*Management - Australian Institute of Management;

\*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association.

\*Public Relations - Public Relations Institute of Australia.

Graduates of the Bachelor of Mathematics degree will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia, and depending on unit selection, the Australian Society of Operations Research.

### Course Design

The course offers the opportunity to combine Mathematics with a business course.

This course is made up of 384 credit points. Each component (i.e. Business and Mathematics) comprises 192 credit points.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Mathematics Bursaries

Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see [www.maths.qut.edu.au](http://www.maths.qut.edu.au)

  - MAB672 Advanced Mathematical Modelling
  - MAB681 Advanced Visualisation and Data Analysis
- Note: MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.

## Bachelor of Arts/Bachelor of Information Technology (IX49)

**Year offered:** 2009

**Admissions:** No

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$2,601 (indicative) per semester

**QTAC code:** This course is no longer offered

**Past rank cut-off:** 73; Dfee: 68

**Past OP cut-off:** 13; Dfee: 15

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Course coordinator:** Dr Iraphne Childs (Arts) Richard Thomas (IT)

**Campus:** Gardens Point and Kelvin Grove

### Course description

In this course students complete the requirements of two separate degrees in Arts and Information Technology in four years. The focus of the arts component is social change with an emphasis on understanding societies and the impact of global, social, environmental and technological change on communities and individuals. In the IT component, there is a strong practical component with computing laboratory based units and project work comprising a significant part of the course,

### Majors in the Arts component

In the Bachelor of Arts, students choose an multidisciplinary major from one of the following: international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

### Majors in the IT component

In the Bachelor of Information Technology, students can choose to major in business systems engineering, data bases, electronic business, games technology, information and knowledge management, information systems, IT management, intelligent systems, interactive media, network systems, security, software architecture, or web services and applications.

### Career outcomes

Information technology professionals with a strong knowledge in languages, as well as deep understanding in areas such as international issues—particularly cultures, ethics and human rights—are highly valued by the information technology industry. The Arts component also provides students with a broad-based education and a range of transferable analytical, research and communication skills which will enrich studies in information technology and expand career choices.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### Further Information

For further information regarding the IT component of this course please contact the course coordinator Mr Richard Thomas at [enquiry.scitech@qut.edu.au](mailto:enquiry.scitech@qut.edu.au) or call 3138 2782

FOR A LIST OF ARTS UNITS IN THIS DOUBLE DEGREE REFER TO QUT BACHELOR OF ARTS SINGLE DEGREE

**Information Systems Major**

**Compulsory Units**

INB311	Enterprise Systems
INB340	Database Design
INB220	Business Analysis

**IS Elective Units**

INB312	Enterprise Systems Applications
INB342	Enterprise Data Mining
INB313	Electronic Commerce Site Development
INB322	Information Systems Consulting
INB320	Business Process Modelling
INB124	Information Systems Development
INB221	Technology Management

**Network Systems Major**

**Compulsory Units**

INB350	Internet Protocols and Services
INB351	Computer Network Administration
INB352	Network Planning and Deployment
INB255	Security

**Electives**

INB312	Enterprise Systems Applications
INB365	Systems Programming
INB353	Wireless and Mobile Networks
INB355	Cryptology and Protocols

**Software Architecture Major**

**Compulsory Units**

INB340	Database Design
INB371	Data Structures and Algorithms
INB372	Software Engineering Principles

**Electives**

	Choose 3 Electives
INB341	Software Development With Oracle
INB311	Enterprise Systems
INB312	Enterprise Systems Applications
INB272	Interaction Design
INB313	Electronic Commerce Site Development
INB322	Information Systems Consulting
INB320	Business Process Modelling
INB365	Systems Programming
INB370	Software Development
INB373	Web Application Development
INB374	Enterprise Software Architecture
INB381	Modelling and Animation Techniques
INB382	Real Time Rendering Techniques
MAB281	Mathematics for Computer Graphics
	MAB281 is only to be used as a prereq for INB381
	null

**Potential Careers:**

Community Worker, Diplomat, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.

## Bachelor of Information Technology/Bachelor of Laws (IX53)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 066292D

**Course duration (full-time):** 5.5 Years

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419622

**Past rank cut-off:** 91

**Past OP cut-off:** 6

**OP Guarantee:** Yes

**Assumed knowledge:** English (4,SA), Maths A, B or C (4,SA)

**Total credit points:** 528

**Standard credit points per full-time semester:** 48

**Course coordinator:** IT: Mr Richard Thomas; Law: Dr Bill Dixon

**Campus:** Gardens Point

### Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the Law degree the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

### OP Guarantee

The OP Guarantee will apply to this course.

### Study Areas

IX53 will not have nominated majors and minors in the IT component and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX53 will have specialisations. The specialisation areas that will be available for students will include:

â€¢ Business Process Management

â€¢ Data Warehousing

â€¢ Digital Societies

â€¢ Enterprise Systems

â€¢ Information Management

â€¢ Network Systems

â€¢ Software Engineering

â€¢ Web Technologies

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: A or B

Secondary Fields: C

OP Guarantee: Yes

### International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

### Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

### Professional Recognition

The QUT Law degree is an approved degree for the purposes of the Legal Practitioners Admission Rules.

Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Further Information**

For further information on the IT component of this course please contact the course coordinator Mr Richard Thomas at enquiry.scitech@qut.edu.au or call 3138 2782

**IT Breadth Option Unit List**

**IT Breadth Option Units**

You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.

- INB120 Corporate Systems
- INB210 Databases
- INB220 Business Analysis
- INB250 Systems Architecture
- INB251 Networks
- INB255 Security
- INB270 Programming

INB271 The Web  
 INB272 Interaction Design

**IT Specialisation Option Unit List**

**IT Specialist Option Units**

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1. Enterprise Systems:
  - INB123 Project Management Practice
  - INB221 Technology Management
  - INB311 Enterprise Systems
  - INB312 Enterprise Systems Applications
2. Web Technologies:
  - INB313 Electronic Commerce Site Development
  - INB373 Web Application Development
  - INB374 Enterprise Software Architecture
  - INB385 Multimedia Systems
  - INB386 Advanced Multimedia Systems
3. Business Process Management:
  - INB320 Business Process Modelling
  - INB321 Business Process Management
  - INB322 Information Systems Consulting
  - INB323 Smart Services
4. Information Management:
  - INB330 Information Management
  - INB331 Management Issues for Info Professionals
  - INB332 Information Retrieval
  - INB333 Information Programs
  - INB334 Information Issues and Values
  - INB335 Information Resources
5. Data Warehousing:
  - INB340 Database Design
  - INB341 Software Development With Oracle
  - INB342 Enterprise Data Mining
  - INB343 Advanced Data Mining and Data Warehousing
6. Network Systems:
  - INB350 Internet Protocols and Services
  - INB351 Computer Network Administration
  - INB352 Network Planning and Deployment
  - INB353 Wireless and Mobile Networks
7. Software Engineering:
  - INB370 Software Development
  - INB371 Data Structures and Algorithms
  - INB372 Software Engineering Principles

- INB374 Enterprise Software Architecture
- 8. Ungrouped:
  - INB204 Special Topic 1
  - INB205 Special Topic 2
  - INB304 Special Topic 3
  - INB305 Special Topic 4
  - INB306 Project 1
  - INB307 Project 2
  - INB308 Project 3
  - INB355 Cryptology and Protocols
  - INB365 Systems Programming
  - INB860 Computational Intelligence for Control and Embedded Systems
- 9. Digital Environments:
  - INB345 Mobile Devices
  - INB346 Enterprise 2.0
  - INB347 Web 2.0 Applications
  - INB334 Information Issues and Values

**Law Elective Information**

**Law Electives**

Further information regarding Law Electives can be found at:  
<http://www.law.qut.edu.au/study/courses/ugrad/lselect.jsp>

**Potential Careers:**

Barrister, Crown Law Officer, Database Manager, Electronic Commerce Developer, In-House Lawyer, Programmer, Public Servant, Software Engineer, Solicitor, Systems Analyst, Systems Manager, Systems Programmer, Web Designer.

## Bachelor of Engineering (Electrical)/Bachelor of Information Technology (IX54)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 006384G

**Course duration (full-time):** 5 years

**Domestic fees (per credit point):** Commonwealth Supported Place; Full fee tuition 2008: \$218 per credit point (*subject to annual review*)

**Domestic fees (indicative):** 2008: Full fee tuition \$20,928; CSP \$6,960

**International Fees (per semester):** 2009: \$11,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419512

**Past rank cut-off:** 80

**Past OP cut-off:** 11

**OP Guarantee:** Yes

**Assumed knowledge:** English (4,SA), Maths B or C (4,SA)

**Preparatory studies:** Chemistry, Maths C, Physics (recommended)

**Total credit points:** 480

**Course coordinator:** Dr R.Mahalinga-Iyer (Engineering), Mr Richard Thomas (Information Technology)

**Discipline coordinator:** Dr Jasmine Banks (Engineering)

**Campus:** Gardens Point

### Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This double degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: B or C

Secondary Fields: B or C

OP Guarantee: Yes

### Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

### International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

### Career Outcomes

Many graduates find employment in government instrumentalities such as communications, railways, electricity supply, hospitals, transport and in private organisations that are using electronics, electronic systems, computers and microprocessors to monitor, control, communicate and optimise processes and production.

### Cooperative Education Program

IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

### Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

## Bachelor of Applied Science(Study Area A)/Bachelor of Information Technology (IX55)

Year offered: 2009

Admissions: Yes

CRICOS code: 020327M

Course duration (full-time): 4 years

Domestic fees (indicative): 2009: CSP \$3,706 (indicative) per semester

International Fees (per semester): 2009: \$11,000 (indicative) per semester (*subject to annual review*)

Domestic Entry: February

International Entry: February

QTAC code: 419302

Past rank cut-off: 75

Past OP cut-off: 13

OP Guarantee: Yes

Assumed knowledge: English (4,SA), Maths B (4,SA)

Total credit points: 384

Course coordinator: Dr Perry Hartfield (Science), Mr Richard Thomas (IT)

Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

Campus: Gardens Point

### Course Description

The science component of the course offers students a choice of one of nine majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the information technology program.

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

### Recommended Study

At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

### Career Outcomes

Recent rapid technological advances in scientific equipment have led to a high demand for graduates qualified in both a science discipline and information technology. This double degree qualifies you for this niche area of employment. Alternatively you may pursue a career as a science professional with the added dimension of advanced technological skills. Or you may choose to work in an information technology specialist area and find that your broad range of skills makes you particularly attractive to employers in industries at the forefront of scientific discoveries. IT is now an integral part of all commercial, industrial and government activities.

### Professional Recognition

Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

### Study Areas

IX55 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX55 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

### Entry Requirements

Year 12 or equivalent  
Prerequisites: Nil  
Primary Fields: B or C  
Secondary Fields: B or C

### International Students

English language requirements  
In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

### Cooperative Education

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree.

Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

## Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

## IT Specialisation Option Unit List

### IT Specialist Option Units

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1.	Enterprise Systems:
INB123	Project Management Practice
INB221	Technology Management

## SCIENCE AND TECHNOLOGY

INB311	Enterprise Systems
INB312	Enterprise Systems Applications
2.	Web Technologies:
INB313	Electronic Commerce Site Development
INB373	Web Application Development
INB374	Enterprise Software Architecture
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
3.	Business Process Management:
INB320	Business Process Modelling
INB321	Business Process Management
INB322	Information Systems Consulting
INB323	Smart Services
4.	Information Management:
INB330	Information Management
INB331	Management Issues for Info Professionals
INB332	Information Retrieval
INB333	Information Programs
INB334	Information Issues and Values
INB335	Information Resources
5.	Data Warehousing:
INB340	Database Design
INB341	Software Development With Oracle
INB342	Enterprise Data Mining
INB343	Advanced Data Mining and Data Warehousing
6.	Network Systems:
INB350	Internet Protocols and Services
INB351	Computer Network Administration
INB352	Network Planning and Deployment
INB353	Wireless and Mobile Networks
7.	Software Engineering:
INB370	Software Development
INB371	Data Structures and Algorithms
INB372	Software Engineering Principles
INB374	Enterprise Software Architecture
8.	Ungrouped:
INB204	Special Topic 1
INB205	Special Topic 2
INB304	Special Topic 3
INB305	Special Topic 4
INB306	Project 1
INB307	Project 2
INB308	Project 3
INB355	Cryptology and Protocols
INB365	Systems Programming
INB860	Computational Intelligence for Control and Embedded Systems
9.	Digital Environments:

INB345	Mobile Devices
INB346	Enterprise 2.0
INB347	Web 2.0 Applications
INB334	Information Issues and Values

### Course structure - Major in Biochemistry

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2

#### Year 2, Semester 1

SCB110	Science Concepts and Global Systems Either
MAB101	Statistical Data Analysis 1 Or
MAB105	Preparatory Mathematics

#### Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

#### Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation

#### Year 3, Semester 2

LQB481	Biochemical Pathways and Metabolism
LQB483	Molecular Biology Techniques

#### Year 4, Semester 1

LQB581	Functional Biochemistry
LQB582	Biomedical Research Technologies

#### Year 4, Semester 2

LQB681	Biochemical Research Skills
LQB682	Protein Biochemistry and Bioengineering

### Course structure - Major in Biotechnology

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2

#### Year 2, Semester 1

SCB110	Science Concepts and Global Systems
--------	-------------------------------------

## SCIENCE AND TECHNOLOGY

	Either
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

### Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

### Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation

### Year 3, Semester 2

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics

### Year 4, Semester 1

Select TWO units from:

LQB583	Genetic Research Technology
LQB584	Medical Cell Biology
LQB585	Plant Genetic Manipulation

### Year 4, Semester 2

Select TWO units from:

LQB682	Protein Biochemistry and Bioengineering
LQB684	Medical Biotechnology
LQB685	Plant Microbe Interactions

### Course structure - Major in Chemistry

#### Year 1, Semester 1

SCB111	Chemistry 1
	Either
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 1, Semester 2

SCB112	Cellular Basis of Life
SCB121	Chemistry 2

#### Year 2, Semester 1

MAB100	Mathematical Sciences 1A
SCB110	Science Concepts and Global Systems

#### Year 2, Semester 2

SCB123	Physical Science Applications
SCB131	Experimental Chemistry

#### Year 3, Semester 1

PQB312	Analytical Chemistry For Scientists and Technologists
--------	---

PQB331	Structure and Bonding
--------	-----------------------

#### Year 3, Semester 2

PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy

#### Year 4, Semester 1

PQB502	Materials Chemistry and Characterisation
PQB531	Organic Mechanisms and Synthesis

#### Year 4, Semester 2

PQB631	Advanced Inorganic Chemistry
PQB642	Chemical Research

### Course structure - Major in Ecology

#### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB122	Cell and Molecular Biology

#### Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Either
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

#### Year 2, Semester 2

NQB201	Planet Earth
NQB202	History of Life on Earth

#### Year 3, Semester 1

NQB302	Earth Surface Systems
NQB321	Ecology

#### Year 3, Semester 2

NQB421	Experimental Design
NQB422	Genetics and Evolution

#### Year 4, Semester 1

NQB521	Population Genetics and Molecular Ecology
NQB523	Population Management

#### Year 4, Semester 2

NQB622	Conservation Biology
NQB623	Ecological Systems

### Course structure - Major in Environmental Science

#### Year 1, Semester 1

## SCIENCE AND TECHNOLOGY

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

### Year 1, Semester 2

SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2

### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Either  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

### Year 2, Semester 2

NQB202 History of Life on Earth  
SCB123 Physical Science Applications

### Year 3, Semester 1

NQB302 Earth Surface Systems  
NQB321 Ecology

### Year 3, Semester 2

NQB403 Soils and the Environment  
NQB421 Experimental Design

### Year 4, Semester 1

NQB501 Environmental Modelling  
NQB502 Field Mapping and Monitoring of Natural Resources

### Year 4, Semester 2

NQB601 Sustainable Environmental Management  
NQB602 Environmental Chemistry

### Course structure - Major in Forensic Science

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB121 Chemistry 2  
SCB122 Cell and Molecular Biology

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Either  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB123 Physical Science Applications

SCB131 Experimental Chemistry

### Year 3, Semester 1

LQB383 Molecular and Cellular Regulation  
SCB384 Forensic Sciences - From Crime Scene to Court

### Year 3, Semester 2

JSB979 Forensic Scientific Evidence  
PQB312 Analytical Chemistry For Scientists and Technologists

### Year 4, Semester 1

PQB513 Instrumental Analysis  
PQB584 Forensic Physical Evidence

### Year 4, Semester 2

LQB680 Forensic DNA Profiling  
PQB684 Forensic Analysis

### Course structure - Major in Geoscience

#### Year 1, Semester 1

SCB111 Chemistry 1  
SCB112 Cellular Basis of Life

#### Year 1, Semester 2

NQB201 Planet Earth  
SCB123 Physical Science Applications

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Either  
MAB101 Statistical Data Analysis 1  
Or  
MAB105 Preparatory Mathematics

#### Year 2, Semester 2

NQB202 History of Life on Earth  
SCB222 Exploration of the Universe

#### Year 3, Semester 1

NQB311 Mineralogy  
NQB314 Sedimentary Geology

#### Year 3, Semester 2

NQB411 Petrology of Igneous and Metamorphic Rocks  
NQB412 Structural Geology and Field Methods

#### Year 4, Semester 1

NQB502 Field Mapping and Monitoring of Natural Resources  
NQB513 Geophysics

#### Year 4, Semester 2

## SCIENCE AND TECHNOLOGY

NQB602 Environmental Chemistry

NQB614 Groundwater Systems

### Course structure - Major in Microbiology

#### Year 1, Semester 1

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology

SCB121 Chemistry 2

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems  
Either

MAB101 Statistical Data Analysis 1  
Or

MAB105 Preparatory Mathematics

#### Year 2, Semester 2

SCB122 Cell and Molecular Biology

SCB123 Physical Science Applications

#### Year 3, Semester 1

LQB381 Biochemistry: Structure and Function

LQB386 Microbial Structure and Function

#### Year 3, Semester 2

LQB483 Molecular Biology Techniques

LQB486 Clinical Microbiology 1

#### Year 4, Semester 1

LQB586 Clinical Microbiology 2

LQB587 Applied Microbiology 1: Water Air and Soil

#### Year 4, Semester 2

LQB686 Microbial Technology and Immunology

LQB687 Applied Microbiology 2: Food and Quality Assurance

### Course structure - Major in Physics

#### Year 1, Semester 1

MAB111 Mathematical Sciences 1B

SCB111 Chemistry 1

#### Year 1, Semester 1

MAB112 Mathematical Sciences 1C

PQB250 Mechanics and Electromagnetism

#### Year 2, Semester 1

SCB110 Science Concepts and Global Systems

SCB112 Cellular Basis of Life

#### Year 2, Semester 2

MAB220 Computational Mathematics 1

PQB251 Waves and Optics

#### Year 3, Semester 1

MAB311 Advanced Calculus

PQB350 Thermodynamics of Solids and Gases

#### Year 3, Semester 2

PQB450 Energy, Fields and Radiation

PQB451 Electronics and Instrumentation

#### Year 4, Semester 1

PQB550 Quantum and Condensed Matter Physics

PQB551 Physical Analytical Techniques

#### Year 4, Semester 2

PQB650 Advanced Theoretical Physics

PQB651 Experimental Physics

### Potential Careers:

Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Data Communications Specialist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Population Ecologist, Virologist.

## Bachelor of Creative Industries/Bachelor of Information Technology (IX56)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 059227E

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,332 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 409872

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4,SA), Maths A, B or C (4,SA)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** IT: Mr Richard Thomas; Creative Industries: Head, Undergraduate Studies (cifug@qut.edu.au)

**Campus:** Gardens Point and Kelvin Grove

### Study Areas

IX56 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX56 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management

• Data Warehousing

• Digital Societies

• Enterprise Systems

• Information Management

• Network Systems

• Software Engineering

• Web Technologies

### Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many

other work-integrated learning opportunities where you receive first-hand industry experience.

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: B

Secondary Fields: C

OP Guarantee: Yes

### International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

### Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### Cooperative Education

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

**IX56 - Bachelor of Creative Industries/Bachelor of Information Technology Course structure**

**Year 1, Semester 1**

INB101	Impact of IT
INB102	Emerging Technology
KKB101	Creative Industries: People and Practices
KPB150	Foundations of Multi-platform Production
OR	null
KVB104	Photomedia and Artistic Practice

**Year 1, Semester 2**

INB103	Industry Insights
INB104	Building IT Systems

SELECT:	CI Second major: Second Unit

**Year 3, Semester 1**

INB201	Scalable Systems Development
	IT Specialisation Option Unit
SELECT:	CI Second major: Third Unit
SELECT:	CI Second major: Fourth Unit

**Year 3, Semester 2**

INB300	Professional Practice in IT
	IT Specialisation Option Unit
SELECT:	CI Second major: Fifth Unit
SELECT:	Transitions to New Professional Environments Unit

**Year 4, Semester 1**

INB301	The Business of IT
	IT Specialisation Option Unit
SELECT:	CI Second major: Sixth Unit
SELECT:	Transitions to New Professional Environments Unit

**Year 4, Semester 2**

INB302	Capstone Project
	IT Specialisation Option Unit
SELECT:	CI Second major: Seventh Unit
SELECT:	CI Second major: Eighth Unit

**IT Breadth Option Unit List**

**IT Breadth Option Units**

You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.

INB120	Corporate Systems
INB210	Databases
INB220	Business Analysis
INB250	Systems Architecture
INB251	Networks
INB255	Security
INB270	Programming
INB271	The Web
INB272	Interaction Design

**IT Specialisation Option Unit List**

**IT Specialist Option Units**

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1.	Enterprise Systems:
INB123	Project Management Practice
INB221	Technology Management
INB311	Enterprise Systems
INB312	Enterprise Systems Applications
2.	Web Technologies:
INB313	Electronic Commerce Site Development
INB373	Web Application Development
INB374	Enterprise Software Architecture
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
3.	Business Process Management:
INB320	Business Process Modelling
INB321	Business Process Management
INB322	Information Systems Consulting
INB323	Smart Services
4.	Information Management:
INB330	Information Management
INB331	Management Issues for Info Professionals
INB332	Information Retrieval
INB333	Information Programs

## SCIENCE AND TECHNOLOGY

INB334	Information Issues and Values		contribute towards the completion of one of these second major or co-majors or minors.
INB335	Information Resources		
5.	Data Warehousing:	<b>Advertising</b>	
INB340	Database Design		Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.
INB341	Software Development With Oracle		
INB342	Enterprise Data Mining	AMB200	Consumer Behaviour
INB343	Advanced Data Mining and Data Warehousing	AMB220	Advertising Theory and Practice
6.	Network Systems:	AMB221	Advertising Copywriting
INB350	Internet Protocols and Services	AMB319	Media Planning
INB351	Computer Network Administration	AMB320	Advertising Management
INB352	Network Planning and Deployment	AMB339	Advertising Campaigns
INB353	Wireless and Mobile Networks	AMB330	Advertising Planning Portfolio
7.	Software Engineering:	BSB126	Marketing
INB370	Software Development		
INB371	Data Structures and Algorithms	<b>Animation</b>	
INB372	Software Engineering Principles	KIB105	Animation and Motion Graphics
INB374	Enterprise Software Architecture	KIB108	Animation History and Practices
8.	Ungrouped:	KIB203	Introduction to 3D Computer Graphics
INB204	Special Topic 1	KIB225	Character Development, Conceptual Design and Animation Layout
INB205	Special Topic 2	KIB316	Virtual Environments
INB304	Special Topic 3	KIB325	Real-Time 3D Computer Graphics
INB305	Special Topic 4	KVB105	Drawing for Design
INB306	Project 1	KVB106	Drawing for Animation
INB307	Project 2		
INB308	Project 3	<b>Art and Design History</b>	
INB355	Cryptology and Protocols		Description: This co-major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this co-major will assist in preparing you for work as a professional in these disciplines.
INB365	Systems Programming		Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.
INB860	Computational Intelligence for Control and Embedded Systems		
9.	Digital Environments:	DAB325	Architecture in the 20th Century
INB345	Mobile Devices	DAB420	Architecture, Culture and Space
INB346	Enterprise 2.0	DEB102	Introducing Design History
INB347	Web 2.0 Applications	KVB102	Modernism
INB334	Information Issues and Values	KVB103	Australian Art
		KVB108	Contemporary Asian Visual Culture
		KVB211	Post 1945 Art
		KVB212	Australian Art, Architecture and Design
		KVB304	Contemporary Art Issues
		KVB306	Video Art and Culture

### Creative Industries Second Majors

#### INSTRUCTIONS FOR SECOND MAJORS/CO-MAJORS

\*From 2009 Co-Majors have been renamed Second Majors

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a second major or co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these second major or co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these second majors or co-majors and/or minors. Any unit(s) that appear in multiple second major or co-majors and/or minors can only

#### Communication Design

\*continuing students only

Description: The aim of this co-major is to

provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

**Assumed Knowledge:** There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KIB101	Visual Communication
KIB102	Visual Interactions
KIB103	Introduction to Web Design and Development
KIB104	Digital Media
KIB205	Programming for Visual Designers and Artists
KIB214	Design for Interactive Media
KIB216	Advanced Web Design
KIB230	Interface and Information Design

**Creative and Professional Writing**

**Description:** The aim of this co-major is to prepare students to graduate with adequate skills and knowledge in the area of creative and professional writing; to provide a thorough grounding in a variety of genres that include fiction, creative non-fiction, media writing and corporate writing and editing, thereby equipping graduates with the versatility required of professional writers; to enhance the critical, analytical and peer-reviewing skills of students; to provide and understanding of creative writing in its social and generic contexts.

**Assumed Knowledge:** There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KWB101	Introduction to Creative Writing
KWB102	Media Writing
KWB103	Persuasive Writing
KWB104	Creative Writing: The Short Story
KWB106	Corporate Writing and Editing
KWB107	Creative Non-Fiction
KWB206	Youth and Children's Writing
KWB207	Great Books: Creative Writing Classics
KWB211	Stylistics and Poetics
KWB303	Writing and Publishing Industry
KWB313	Novel and Memoir

**Dance**

**Description:** This co-major aims to provide a broad grounding in practical and theoretical aspects of dance. You will gain skills in contemporary dance, ballet, commercially driven genres, choreography and critical

thinking and writing together with an understanding of the social and historical context of ballet, contemporary dance, and popular and world dance.

**Assumed Knowledge:** Previously acquired knowledge or skill IS required for you to undertake this co-major. It is essential that you be physically able, fit and have basic knowledge in a dance technique, either ballet, jazz or contemporary to undertake the practical units.

KDB103	Dance Technique Studies 1
KDB104	Dance Technique Studies 2
KDB105	Architecture of the Body
KDB106	Dance Analysis
KDB107	Choreographic Studies 1
KDB108	World Dance
KDB109	Funk, Tap and all that Jazz
KDB110	Deconstructing Dance in History
KDB204	Australian Dance
KDB205	Dance in Education
KDB225	Music Theatre Skills

**Digital Media**

**Description:** Online and interactive technologies now dominate creative and professional life. This co-major provides you with the opportunity to develop websites, multimedia projects, wikis and blogs, as well as allowing you to understand the guiding principals behind these new modes of communication and creative practice.

**Assumed Knowledge:** There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB101	Communication in the New Economy
KCB102	Media and Society: From Printing Press to Internet
	OR
KJB101	Digital Journalism
KCB104	Media and Communications Industries
	OR
KPB106	Australian Television
KCB201	New Media 1: Information and Knowledge
KCB202	New Media 2: Applications and Implications
KCB203	Consumer Cultures
KIB101	Visual Communication
KIB103	Introduction to Web Design and Development
KVB306	Video Art and Culture

**Drama**

**Description:** The co-major offers a balance of performance theory and practice. It is designed as a learning sequence, beginning with introductory concepts and practices, through intermediate and on to advanced learning. Underpinning the co-major is a twin focus on contemporary performance-making and events

management. Both of these areas are balanced by studies in theatre history and theory. Core topics include acting; directing; twentieth-century performance theory and practice; and events management.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KTB101	20th Century Performance
KTB103	Performing Skills 1: Character and Scene
KTB104	Performance Innovation
KTB106	Performing Skills 2: Style and Form
KTB204	Understanding Performance
KTB207	Staging Australia
KTB210	Creative Industries Management
KTB211	Creative Industries Events and Festivals
KTB305	The Entrepreneurial Artist
KTB306	Directing for Performance Events and Festivals

focusing on textile design, portfolio development and fashion journalism.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB203	Consumer Cultures
KFB103	Introduction to Fashion
KFB106	Unspeakable Beauty: A History of Fashion and Style
KFB107	Drawing For Fashion
KFB205	Fashion and Style Journalism
KFB206	Fashion and Modernity
KFB207	Contemporary Fashion
KFB208	Fashion Portfolio
KFB209	Ragtrade: Wholesaling Fashion
KFB304	Fashion, Law and the Real World
KVB213	Graphic Investigation

**Entrepreneurship**

Description: To provide students with an introduction to basic business principles as well as the innovation, development, production and entrepreneurial activities required when starting a new business. Students who do the extended eight unit set will be able to supplement this with a range of broader business administration and promotional skills particularly in the marketing and management areas.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB230	Digital Promotions
AMB240	Marketing Planning and Management
AMB251	Innovation and Brand Management
BSB115	Management, People and Organisations
BSB126	Marketing
EFB210	Finance 1
IBB213	International Marketing
MGB207	Human Resource Issues and Strategy
MGB216	Managing Technology, Innovation and Knowledge
MGB324	Managing Business Growth
MGB222	Managing Organisations
MGB223	Entrepreneurship and Innovation
MGB335	Project Management

**Fashion**

Description: This co-major has been designed to offer a mix of theoretical and practical units. The theory units will develop your knowledge and understanding of the history, industry and consumption of fashion and will introduce you to the critical legal issues surrounding the production and distribution of fashion. The practical units provide you with a variety of options to develop fashion related skills

**Film, Television and Screen**

Description: The aim of this co-major is to provide students with a range of understandings in the theory and practice of film, television and screen. This study area aims to enhance creative, technical and organizational abilities as well as building story telling and communication skills.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KPB101	Foundations of Film and Television Production
KPB102	Film History
KPB104	Film and Television Production Resource Management
KPB105	Narrative Production
KPB106	Australian Television
KPB107	Television's Greatest Hits
KPB108	Media Text Analysis
KPB202	Film and Television Business Skills: Entrepreneurship and Investment
KPB203	Australian Film
KPB205	Documentary Theory and Practice
KPB206	International Cinema
KPB303	Critical Thinking About Television

**Game Design**

INB180	Computer Games Studies
INB181	Games Production
INB280	Games Design
INB272	Interaction Design
INB104	Building IT Systems
INB281	Advanced Games Design
KIB101	Visual Communication
KIB102	Visual Interactions

## SCIENCE AND TECHNOLOGY

### Integrated Marketing Communication

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB202	Integrated Marketing Communication
AMB208	Events Marketing
AMB220	Advertising Theory and Practice
AMB230	Digital Promotions
AMB240	Marketing Planning and Management
AMB260	Public Relations Theory and Practice
AMB261	Media Relations and Publicity
AMB331	Direct Marketing
AMB350	Sales and Customer Relationship Management
BSB126	Marketing

### Interactive and Visual Design

KIB101	Visual Communication
KIB102	Visual Interactions
KIB103	Introduction to Web Design and Development
KIB104	Digital Media
KIB214	Design for Interactive Media
KIB216	Advanced Web Design
KIB230	Interface and Information Design
KIB315	Contemporary Issues in Digital Media

### Journalism, Media and Communication

Description: This co-major offers you a range of options to develop an understanding of the parameters of the journalism and professional communication fields. You can choose a mix of units to suit your career aspirations. If you choose to focus more on the Journalism (KJB) units, the co-major will introduce you to a range of journalism writing styles and offers an insight into some specialist areas of reporting. If you choose to focus more on the Media and Communication (KCB) units, it has been designed to enable you to develop the skills and knowledge to prepare media material for organizations that wish to build, and maintain, a media profile.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB102	Media and Society: From Printing Press to Internet
	OR
KJB101	Digital Journalism
KJB120	Newswriting
KCB104	Media and Communications Industries
KJB121	Journalistic Inquiry
KCB103	Strategic Speech Communication
KJB224	Feature Writing
KJB239	Journalism Ethics and Issues
KFB205	Fashion and Style Journalism

OR

KJB280	International Journalism
KCB301	Media Audiences
KCB302	Political Communication
KCB304	Managing Communication Resources
	OR
KJB337	Public Affairs Reporting

### Literary Studies

Description: The aims of this co-major are to prepare students to graduate with adequate skills and knowledge in the area of literary and cultural studies; to provide a thorough grounding in a range of texts, both literary and popular, ranging from Shakespeare to nineteenth and twentieth century literature and culture; to provide graduates with enhanced skills in critical thinking, writing and analysis; to provide graduates with an understanding of the social and historical context of literary and popular written texts; to provide some understanding of the major approaches in literary theory.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KWB108	Introduction To Literary Studies
KWB109	Writing Australia
KWB206	Youth and Children's Writing
KWB207	Great Books: Creative Writing Classics
KWB208	Modern Times (Literature and Culture in the 20th Century)
KWB209	Shakespeare, Then and Now
KWB308	Wonderlands: Literature and Culture in the 19th Century
KWB309	Popular Fictions, Popular Culture

### Marketing

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB200	Consumer Behaviour
AMB201	Marketing and Audience Research
AMB202	Integrated Marketing Communication
AMB240	Marketing Planning and Management
AMB335	E-Marketing Strategies
AMB340	Services Marketing
AMB341	Strategic Marketing
BSB126	Marketing

### Mathematics

Description: This co-major aims to provide you with powerful tools for the analysis of today's complex world and give an insight into many real-world problems of significant importance.

Assumed Knowledge: Maths B (if you do not have this you should include MAB105 as one of your first units)

## SCIENCE AND TECHNOLOGY

MAB100	Mathematical Sciences 1A	KKB347	Becoming A Researcher: Understandings, Skills and Practices
MAB101	Statistical Data Analysis 1		
MAB111	Mathematical Sciences 1B	KKB348	Becoming A Researcher: Contexts, Protocols and Impact
MAB112	Mathematical Sciences 1C	KKB350	Creative Industries International Study Tour
MAB210	Statistical Modelling 1		
MAB311	Advanced Calculus		
MAB312	Linear Algebra		
MAB314	Statistical Modelling 2		

### Online Environments

INB104	Building IT Systems
	Choose 3 of the following units (INB122 and INB210 cannot both be taken)
INB122	Organisational Databases
INB210	Databases
INB270	Programming
INB271	The Web
INB272	Interaction Design
	Choose 4 of the following INB 300-level units
INB313	Electronic Commerce Site Development
INB322	Information Systems Consulting
INB340	Database Design
INB345	Devices in the Wild
INB346	Web 2.0
INB370	Software Development
INB373	Web Application Development

### Public Relations

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB201	Marketing and Audience Research
AMB202	Integrated Marketing Communication
AMB261	Media Relations and Publicity
AMB262	Public Relations Writing
AMB263	Public Relations Theory and Practice
AMB373	Corporate Communication
AMB374	Global Public Relations Cases
AMB379	Public Relations Campaigns
BSB126	Marketing

### Transitions to New Professional Environments Units

A maximum of 48 credit points may be taken from the following units:

KKB341	Workplace Learning 1
KKB342	Workplace Learning 2
KKB343	Service Learning 1
KKB344	Service Learning 2
KKB345	Creative Industries Project 1
KKB346	Creative Industries Project 2

### Potential Careers:

Advertising Professional, Animator, Art Writer, Artist, Arts Administrator, Computer Game Programmer, Computer Games Developer, Creative Writer, Digital Composer, Fashion Professional, Film Composer, Film/Television Producer, Information Officer, Information Security Specialist, Internet Professional, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Technologist, Organisational Communication Specialist, Public Relations Officer/Consultant, Recording Engineer, Sound and Music Producer, Sound Designer, Technical Officer, Visual Artist, Web Designer.

## Bachelor of Information Technology/Bachelor of Mathematics (IX57)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 059226F

**Course duration (full-time):** 4 Years

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419552

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4,SA), Maths B (4,SA)

**Total credit points:** 384

**Course coordinator:** Mr Richard Thomas (IT23), Dr Gary Carter (MA54)

**Campus:** Gardens Point

### Course Description

The double degree offers a foundation in mathematics and information technology in the first year. You will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in Data Communications and Software Engineering.

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

### Career Outcomes

IT is now an integral part of all commercial, industrial and government activities. A graduate may find employment as a programmer, software engineer, systems programmer, computer scientist, systems analyst, security analyst, data communications specialist, information manager, electronic commerce developer, games developer, multimedia specialist, network administrator, database manager, web developer, mathematician, or statistician.

### Professional Recognition

On graduation, you will be eligible for membership of the Mathematical Society of Australia (MSA), the Statistical Society of Australia (SSA) and, depending on unit selection, the Australian Society for Operations Research (ASOR). Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS).

### Study Areas

IX57 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX57 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management

• Data Warehousing

• Digital Societies

• Enterprise Systems

• Information Management

• Network Systems

• Software Engineering

• Web Technologies

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Primary Fields: C

Secondary Fields: B

### International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

### Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

**Contact Details**

**Information Technology Coordinator**

Mr Richard Thomas  
 Phone: +61 7 3138 2782  
 Email: enquiry.scitech@qut.edu.au

**Mathematics Coordinator**

Dr Gary Carter  
 Phone: +61 7 3138 5090  
 Email: g.carter@qut.edu.au

**Cooperative Education**

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

**Level 2 Units**

MAB311 Advanced Calculus  
MAB312 Linear Algebra  
MAB313 Mathematics of Finance  
MAB314 Statistical Modelling 2  
MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB461 Discrete Mathematics  
MAB480 Introduction to Scientific Computation  
MAB481 Visualisation and Data Analysis  
Note: MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory units.

**IT Specialist Option Units**

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1. Enterprise Systems:
  - INB123 Project Management Practice
  - INB221 Technology Management
  - INB311 Enterprise Systems
  - INB312 Enterprise Systems Applications
2. Web Technologies:
  - INB313 Electronic Commerce Site Development
  - INB373 Web Application Development
  - INB374 Enterprise Software Architecture
  - INB385 Multimedia Systems
  - INB386 Advanced Multimedia Systems
3. Business Process Management:
  - INB320 Business Process Modelling
  - INB321 Business Process Management
  - INB322 Information Systems Consulting
  - INB323 Smart Services
4. Information Management:
  - INB330 Information Management
  - INB331 Management Issues for Info Professionals
  - INB332 Information Retrieval
  - INB333 Information Programs

**Level 3 Units - at least 4 units must be selected**

MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB524 Statistical Inference  
MAB525 Operations Research 3A  
MAB533 Statistical Techniques  
MAB536 Time Series Analysis  
MAB613 Partial Differential Equations  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3

MAB640 Industry Project  
MAB672 Advanced Mathematical Modelling  
MAB681 Advanced Visualisation and Data Analysis

- INB334 Information Issues and Values
- INB335 Information Resources
- 5. Data Warehousing:
  - INB340 Database Design
  - INB341 Software Development With Oracle
  - INB342 Enterprise Data Mining
  - INB343 Advanced Data Mining and Data Warehousing
- 6. Network Systems:
  - INB350 Internet Protocols and Services
  - INB351 Computer Network Administration
  - INB352 Network Planning and Deployment
  - INB353 Wireless and Mobile Networks
- 7. Software Engineering:
  - INB370 Software Development
  - INB371 Data Structures and Algorithms
  - INB372 Software Engineering Principles
  - INB374 Enterprise Software Architecture
- 8. Ungrouped:
  - INB204 Special Topic 1
  - INB205 Special Topic 2
  - INB304 Special Topic 3
  - INB305 Special Topic 4
  - INB306 Project 1
  - INB307 Project 2
  - INB308 Project 3
  - INB355 Cryptology and Protocols
  - INB365 Systems Programming
  - INB860 Computational Intelligence for Control and Embedded Systems
- 9. Digital Environments:
  - INB345 Mobile Devices
  - INB346 Enterprise 2.0
  - INB347 Web 2.0 Applications
  - INB334 Information Issues and Values

**Potential Careers:**

Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.

## Bachelor of Business (Study Area A)/ Bachelor of Information Technology (IX58)

**Year offered:** 2009

**Admissions:** Yes

## Bachelor of Corporate Systems Management/Bachelor of Justice (IX61)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 063030F

**Domestic fees (indicative):** 2009: CSP \$3,232,(indicative) per semester

**International Fees (per semester):** 2009: \$9,750 (indicative) per semester (*subject to annual review*)

**International Entry:** February

**QTAC code:** 419652

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Course coordinator:** Dr Taizan Chan

**Discipline coordinator:** Justice Coordinator - Assoc Prof Belinda Carpenter

**Campus:** Gardens Point

### Course overview

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and justice. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. The justice component comprises of foundation units, after which students then focus on a primary major discipline in either Criminology or Policing. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements). Alternatively, Professional Placement is available to high achieving students, with a GPA of 5 or more, in their last semester of the justice component of the course.

Justice Majors: Criminology; Policing

### Cooperative Education Program

Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

**Discipline coordinator:** Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoo Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)

**Campus:** Gardens Point

### Course overview

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both business and games and interactive entertainment. In the Business component students complete a set of core units to provide a broad-based introduction to business principles and a major from the list below. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Business: Business: accountancy; advertising; economics; finance; human resource management; international business management; marketing; and public relations. Games and Interactive Entertainment: Animation and computational arts; digital media; game design; and software technologies.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ

and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Career Outcomes

Business graduates work in diverse roles in the private and public sectors in areas such as accountancy, advertising, banking and finance, economics, human resource management, international business, management, marketing and public relations.

### Professional Recognition

The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership as follows:

\*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance;

\*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program);

\*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association;

\*Economics: Economic Society of Australia (Queensland Division);

\*Finance: Financial Services Institute of Australasia (FINSIA);

\*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;

\*International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;

\*Management - Australian Institute of Management;

\*Marketing: Australian Marketing Institute, Market Research Society of Australia, Australian Institute of Management, Australian Institute of Export (Qld) Ltd, American Marketing Association;

\*Public Relations - Public Relations Institute of Australia.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

### Further Information

Please contact the Course Co-ordinator ASPRO Ruth Christie (07)3138 2782 or enquiry.scitech@qut.edu.au

Officer, Human Resource Manager, Information Officer,  
International Business Specialist, Manager, Marketing  
Officer/Manager, Public Relations Officer/Consultant.

## Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics (IX64)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 063031E

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419672

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**Assumed knowledge:** English (4,SA), Maths B (4,SA)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Associate Professor Ruth Christie (Games and Interactive Entertainment); Dr Gary Carter (Mathematics)

**Campus:** Gardens Point

### Course overview

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both games and interactive entertainment and mathematics. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements). In mathematics, students complete core units that provide a foundation for both study and future work in mathematics and games and interactive entertainment, and then select units from the strands in applicable mathematics, mathematical modelling, computational mathematics, operations research, statistics and financial mathematics. Students are assisted throughout their course with choices to match their career aspirations and abilities. All these strands involve project work and real-world applications.

Majors: Animation and computational arts; digital media; game design; and software technologies.

### Cooperative Education Program

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and

permanent residents only.

Find out more about the Cooperative Education Program.

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**Assumed knowledge:** English (4,SA), Maths B (4,SA)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science), Associate Professor Ruth Christie (Information Technology)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point

### Course overview

In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both applied science and games and interactive entertainment. In the science component students complete a set of core units in science to support advanced level studies in specialist areas. Students select a science major as outlined below and undertake laboratory work and may participate in fieldwork. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

### Majors:

**Science:** biochemistry; biotechnology; chemistry; ecology; environmental science; forensic science; geoscience; microbiology; and physics.

**Games and Interactive Entertainment:** animation and computational arts; digital media; game design; and software technologies.

### Recommended Study

At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics -

Maths C is recommended.

### Cooperative Education Program

The School of IT&S Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

Undergraduate Translation Table

If you have completed the unit(s) listed under the Translation Unit Codes column you are not permitted to enrol in the listed new code.

**Year 4, Semester 2**

LQB681 Biochemical Research Skills

LQB682 Protein Biochemistry and Bioengineering

**Course structure - Major in Biotechnology**

# SCIENCE AND TECHNOLOGY

## Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

## Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2

## Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

## Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

## Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation

## Year 3, Semester 2

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics

## Year 4, Semester 1

	TWO units selected from:
LQB583	Genetic Research Technology
LQB584	Medical Cell Biology
LQB585	Plant Genetic Manipulation

## Year 4, Semester 2

	TWO units selected from:
LQB682	Protein Biochemistry and Bioengineering
LQB684	Medical Biotechnology
LQB685	Plant Microbe Interactions

### Course structure - Major in Chemistry

## Year 1, Semester 1

SCB111	Chemistry 1
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

## Year 1, Semester 2

SCB112	Cellular Basis of Life
SCB121	Chemistry 2

## Year 2, Semester 1

MAB100	Mathematical Sciences 1A
SCB110	Science Concepts and Global Systems

## Year 2, Semester 2

SCB123	Physical Science Applications
SCB131	Experimental Chemistry

## Year 3, Semester 1

PQB312	Analytical Chemistry For Scientists and Technologists
PQB331	Structure and Bonding

## Year 3, Semester 2

PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy

## Year 4, Semester 1

PQB502	Materials Chemistry and Characterisation
PQB531	Organic Mechanisms and Synthesis

## Year 4, Semester 2

PQB631	Advanced Inorganic Chemistry
PQB642	Chemical Research

### Course structure - Major in Ecology

## Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life

## Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB122	Cell and Molecular Biology

## Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Plus either:
MAB101	Statistical Data Analysis 1
	Or
MAB105	Preparatory Mathematics

## Year 2, Semester 2

NQB201	Planet Earth
NQB202	History of Life on Earth

## Year 3, Semester 1

NQB302	Earth Surface Systems
NQB321	Ecology

## Year 3, Semester 2

NQB421	Experimental Design
NQB422	Genetics and Evolution

**Year 4, Semester 1**

NQB521 Population Genetics and Molecular Ecology  
 NQB523 Population Management

**Year 4, Semester 2**

NQB622 Conservation Biology  
 NQB623 Ecological Systems

**Course structure - Major in Environmental Science**

**Year 1, Semester 1**

SCB111 Chemistry 1  
 SCB112 Cellular Basis of Life

**Year 1, Semester 2**

SCB120 Plant and Animal Physiology  
 SCB121 Chemistry 2

**Year 2, Semester 1**

SCB110 Science Concepts and Global Systems  
 Plus either:  
 MAB101 Statistical Data Analysis 1  
 Or  
 MAB105 Preparatory Mathematics

**Year 2, Semester 2**

NQB202 History of Life on Earth  
 SCB123 Physical Science Applications

**Year 3, Semester 1**

NQB302 Earth Surface Systems  
 NQB321 Ecology

**Year 3, Semester 2**

NQB403 Soils and the Environment  
 NQB421 Experimental Design

**Year 4, Semester 1**

NQB501 Environmental Modelling  
 NQB502 Field Mapping and Monitoring of Natural Resources

**Year 4, Semester 2**

NQB601 Sustainable Environmental Management  
 NQB602 Environmental Chemistry

**Course structure - Major in Forensic Science**

**Year 1, Semester 1**

SCB111 Chemistry 1  
 SCB112 Cellular Basis of Life

**Year 1, Semester 2**

SCB121 Chemistry 2

SCB122 Cell and Molecular Biology

**Year 2, Semester 1**

SCB110 Science Concepts and Global Systems  
 Plus either:  
 MAB101 Statistical Data Analysis 1  
 Or  
 MAB105 Preparatory Mathematics

**Year 2, Semester 2**

SCB123 Physical Science Applications  
 SCB131 Experimental Chemistry

**Year 3, Semester 1**

LQB383 Molecular and Cellular Regulation  
 SCB384 Forensic Sciences - From Crime Scene to Court

**Year 3, Semester 2**

JSB979 Forensic Scientific Evidence  
 PQB312 Analytical Chemistry For Scientists and Technologists

**Year 4, Semester 1**

PQB513 Instrumental Analysis  
 PQB584 Forensic Physical Evidence

**Year 4, Semester 2**

LQB680 Forensic DNA Profiling  
 PQB684 Forensic Analysis

**Course structure - Major in Geoscience**

**Year 1, Semester 1**

SCB111 Chemistry 1  
 SCB112 Cellular Basis of Life

**Year 1, Semester 2**

NQB201 Planet Earth  
 SCB123 Physical Science Applications

**Year 2, Semester 1**

SCB110 Science Concepts and Global Systems  
 Plus either:  
 MAB101 Statistical Data Analysis 1  
 Or  
 MAB105 Preparatory Mathematics

**Year 2, Semester 2**

NQB202 History of Life on Earth  
 SCB222 Exploration of the Universe

**Year 3, Semester 1**

NQB311 Mineralogy

NQB314 Sedimentary Geology

**Year 3, Semester 2**

NQB411 Petrology of Igneous and Metamorphic Rocks

NQB412 Structural Geology and Field Methods

**Year 4, Semester 1**

NQB502 Field Mapping and Monitoring of Natural Resources

NQB513 Geophysics

**Year 4, Semester 2**

NQB602 Environmental Chemistry

NQB614 Groundwater Systems

**Course structure - Major in Microbiology**

**Year 1, Semester 1**

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

**Year 1, Semester 2**

SCB120 Plant and Animal Physiology

SCB121 Chemistry 2

**Year 2, Semester 1**

SCB110 Science Concepts and Global Systems

Plus either:

MAB101 Statistical Data Analysis 1

Or

MAB105 Preparatory Mathematics

**Year 2, Semester 2**

SCB122 Cell and Molecular Biology

SCB123 Physical Science Applications

**Year 3, Semester 1**

LQB381 Biochemistry: Structure and Function

LQB386 Microbial Structure and Function

**Year 3, Semester 2**

LQB483 Molecular Biology Techniques

LQB486 Clinical Microbiology 1

**Year 4, Semester 1**

LQB586 Clinical Microbiology 2

LQB587 Applied Microbiology 1: Water, Air and Soil

**Year 4, Semester 2**

LQB686 Microbial Technology and Immunology

LQB687 Applied Microbiology 2: Food and Quality Assurance

**Course structure - Major in Physics**

**Year 1, Semester 1**

MAB111 Mathematical Sciences 1B

SCB111 Chemistry 1

**Year 1, Semester 2**

MAB112 Mathematical Sciences 1C

PQB250 Mechanics and Electromagnetism

**Year 2, Semester 1**

SCB110 Science Concepts and Global Systems

SCB112 Cellular Basis of Life

**Year 2, Semester 2**

MAB220 Computational Mathematics 1

PQB251 Waves and Optics

**Year 3, Semester 1**

MAB311 Advanced Calculus

PQB350 Thermodynamics of Solids and Gases

**Year 3, Semester 2**

PQB450 Energy, Fields and Radiation

PQB451 Electronics and Instrumentation

**Year 4, Semester 1**

PQB550 Quantum and Condensed Matter Physics

PQB551 Physical Analytical Techniques

**Year 4, Semester 2**

PQB650 Advanced Theoretical Physics

PQB651 Experimental Physics

**Bachelor of Games & Interactive Entertainment Majors Course structure**

**Animation**

KIB105 Animation and Motion Graphics

KIB108 Animation History and Practices

KIB225 Character Development, Conceptual Design and Animation Layout

KIB203 Introduction to 3D Computer Graphics

KIB325 Real-Time 3D Computer Graphics

KIB316 Virtual Environments

KVB105 Drawing for Design

KVB106 Drawing for Animation

**Digital Media**

KIB101 Visual Communication

KIB102 Visual Interactions

INB385 Multimedia Systems

INB386 Advanced Multimedia Systems

INB345 Mobile Devices

KIB230 Interface and Information Design

- KIB309 Embodied Interactions  
KIB314 Tangible Media

**Game Design**

- INB281 Advanced Game Design  
INB280 Fundamentals of Game Design  
INB272 Interaction Design  
KIB201 Concept Development for Game Design and Interactive Media  
KIB202 Enabling Immersion  
KIB214 Design for Interactive Media  
AND Two units selected from the following:  
DEB201 Digital Communication  
DAB110 Architectural Design 1  
DTB101 Interior Design 1  
DNB101 Industrial Design 1

**Software Technologies\***

\* Requirements for this Major is a SA or better in Queensland Maths B (or equivalent)

- INB270 Programming  
INB210 Databases  
INB250 Systems Architecture  
INB371 Data Structures and Algorithms  
INB381 Modelling and Animation Techniques  
INB382 Real Time Rendering Techniques  
INB370 Software Development  
MAB281 Mathematics for Computer Graphics  
OR null  
INB304 Special Topic 3

**Potential Careers:**

Air Traffic Controller, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Ecologist, Environmental Scientist, Exploration Geologist, Forensic Biologist, Forensic Chemist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Laboratory Technician (Chemistry), Marine Scientist, Medical Biotechnologist, Medical Physicist, Microbiologist, Mine Geologist, Molecular Biologist, Natural Resource Scientist, Pharmaceutical Research Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Research and Development Chemist, Virologist.

## Bachelor of Fine Arts (Interactive and Visual Design) / Bachelor of Information Technology (IX69)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009 CSP \$3,153 (indicative) per semester

**International Fees (per semester):** 2009: \$10,000 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 409612

**Past rank cut-off:** 82

**Past OP cut-off:** 10

**OP Guarantee:** Yes

**Assumed knowledge:** English (4 SA), Maths A, B or C (4 SA)

**Total credit points:** 384

**Course coordinator:** Head, Undergraduate Studies (Creative Industries) - cifug@qut.edu.au, Mr Richard Thomas (enquiry.scitech@qut.edu.au) (IT)

**Discipline coordinator:** Mr Gavin Sade (Interactive and Visual Design)

**Campus:** Gardens Point and Kelvin Grove

### Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management

• Data Warehousing

• Digital Environments

• Enterprise Systems

• Information Management

• Network Systems

• Software Engineering

• Web Technologies

### Entry Requirements

Year 12 or equivalent

Prerequisites: Nil

Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)

Primary Fields: B or C

Secondary Fields: B or C

OP Guarantee: Yes

### Course Description

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop

IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

Interactive and visual design is at the cutting edge of technological applications of creativity.

The interactive and visual design major will set you up for careers in the rapidly expanding fields of contemporary communication and the application of new media technologies.

You will be immersed in your Interactive and Visual Design major with 14 studio units, and have a broad creative industries perspective from the two foundation units. Your information technology degree component comprises eight core units and eight units in your information technology major.

### International Students

English language requirements

In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

### Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

### Deferral

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as

questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Cooperative Education**

The School of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

**Full time course structure**

**Year 1, Semester 1**

- INB101 Impact of IT
- INB102 Emerging Technology
- KIB101 Visual Communication
- KKB101 Creative Industries: People and Practices

**Year 1, Semester 2**

- INB103 Industry Insights
- INB104 Building IT Systems
- KIB103 Introduction to Web Design and Development
- KKB102 Creative Industries: Making Connections

**Year 2, Semester 1**

- IT Breadth Option Unit
- IT Breadth Option Unit
- KIB105 Animation and Motion Graphics
- KVB105 Drawing for Design

**Year 2, Semester 2**

- INB201 Scalable Systems Development  
IT Specialist Option
- KIB102 Visual Interactions
- KIB104 Digital Media

**Year 3, Semester 1**

- INB201 Scalable Systems Development  
IT Specialist Option Unit
- KIB214 Design for Interactive Media
- SELECT: Either KIB230 or KKB216
- KIB230 Interface and Information Design
- KKB216 Graphical Development Environments for

Media Interaction

**Year 3, Semester 2**

- INB300 Professional Practice in IT  
IT Specialist Option Unit
- KIB216 Advanced Web Design
- SELECT: Either KIB205 or KVB204
- KIB205 Programming for Visual Designers and Artists
- KVB204 Graphic Design

**Year 4, Semester 1**

- INB301 The Business of IT  
IT Specialist Option Unit
- KIB315 Contemporary Issues in Digital Media
- SELECT: Either KIB309 or KIB335
- KIB309 Embodied Interactions
- KIB335 Typography and Illustration

**Year 4, Semester 2**

- INB302 Capstone Project  
IT Specialist Option Unit
- KIB322 Design Project
- SELECT: Either KIB314 or KIB338
- KIB314 Tangible Media
- KIB338 Print Media

**IT Breadth Option Unit List**

**IT Breadth Option Units**

You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.

- INB120 Corporate Systems
- INB210 Databases
- INB220 Business Analysis
- INB250 Systems Architecture
- INB251 Networks
- INB255 Security
- INB270 Programming
- INB271 The Web
- INB272 Interaction Design

**IT Specialisation Option Unit List**

**IT Specialist Option Units**

You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1. Enterprise Systems:

## SCIENCE AND TECHNOLOGY

INB123	Project Management Practice	INB860	Computational Intelligence for Control and Embedded Systems
INB221	Technology Management		
INB311	Enterprise Systems	9.	Digital Environments:
INB312	Enterprise Systems Applications	INB345	Mobile Devices
2.	Web Technologies:	INB346	Enterprise 2.0
INB313	Electronic Commerce Site Development	INB347	Web 2.0 Applications
INB373	Web Application Development	INB334	Information Issues and Values
INB374	Enterprise Software Architecture		
INB385	Multimedia Systems		
INB386	Advanced Multimedia Systems		
3.	Business Process Management:		
INB320	Business Process Modelling		
INB321	Business Process Management		
INB322	Information Systems Consulting		
INB323	Smart Services		
4.	Information Management:		
INB330	Information Management		
INB331	Management Issues for Info Professionals		
INB332	Information Retrieval		
INB333	Information Programs		
INB334	Information Issues and Values		
INB335	Information Resources		
5.	Data Warehousing:		
INB340	Database Design		
INB341	Software Development With Oracle		
INB342	Enterprise Data Mining		
INB343	Advanced Data Mining and Data Warehousing		
6.	Network Systems:		
INB350	Internet Protocols and Services		
INB351	Computer Network Administration		
INB352	Network Planning and Deployment		
INB353	Wireless and Mobile Networks		
7.	Software Engineering:		
INB370	Software Development		
INB371	Data Structures and Algorithms		
INB372	Software Engineering Principles		
INB374	Enterprise Software Architecture		
8.	Ungrouped:		
INB204	Special Topic 1		
INB205	Special Topic 2		
INB304	Special Topic 3		
INB305	Special Topic 4		
INB306	Project 1		
INB307	Project 2		
INB308	Project 3		
INB355	Cryptology and Protocols		
INB365	Systems Programming		

### Potential Careers:

Academic, Advertising Professional, Animator, Computer Game Programmer, Computer Games Developer, Digital Composer, Government Officer, Information Officer, Information Security Specialist, Internet Professional, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Organisational Communication Specialist, Post-production specialist, Publishing Professional, Technical Officer, Web Designer.

## Bachelor of Applied Science / Bachelor of Laws (IX72)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 066294B

**Course duration (full-time):** 5.5 years

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 419712

**Past rank cut-off:** 91

**Past OP cut-off:** 6

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 528

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science); Dr Bill Dixon (Law)

**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

**Campus:** Gardens Point

### OP Guarantee

The OP Guarantee will apply to this course.

### Career Outcomes

The defining nature of the QUT Bachelor of Laws is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and

technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

### Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

### Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

IFP101	Leadership and Workplace Communication
IFP102	Project Management and Research
IFP103	Public Policy and Research
IFP104	Entrepreneurial Foundations
IFP105	Principles and Practice of Research Management
IFP106	Managing Research Careers
IFP107	Global Sustainability
IFP108	Strategic Issues in Research Management

### Potential Careers:

Academic, Administrator, Arts Administrator, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Biotechnologist, Biotechnology Business/Investment Analyst, Business Analyst, Business Development Officer, Cell Biologist, Civil Engineer, Contract Administrator, Financial Advisor/Analyst, Government Officer, International Business Specialist, Marine Scientist, Market Research Manager, Marketing Officer/Manager, Mathematician, Microbiologist, Policy Officer, Public Servant, Scientist, Social Scientist, Urban Designer, Visual Artist, Web Designer.

## Master of Research and Development Management (IX99)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 3 semesters.

**Course duration (part-time):** 6 semesters.

**International Fees (per semester):** 2009: \$9,200 per semester (*subject to annual review*)

**International Fees (indicative):** 2009: \$10,400 per semester

**Course coordinator:** Professor Rod Wissler

**Campus:** Internet

### Entry Requirements

The minimum entry requirement for this course is a four year undergraduate degree or three years plus either an honours year or postgraduate coursework year in any discipline. Applicants who do not meet these academic requirements may be eligible to enter the course on the basis of professional activities completed in research management, research commercialisation or related fields that satisfies the course coordinator.

### Course structure

Academic, Administrator, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Biotechnology Business/Investment Analyst, Business Analyst, Business Development Officer, Cell Biologist, Civil Engineer, Contract Administrator, Financial Advisor/Analyst, Government Officer, International Business Specialist, Marine Scientist, Market Research Manager, Marketing Officer/Manager, Mathematician, Microbiologist, Policy Officer, Public Servant, Scientist, Social Scientist, Urban Designer, Visual Artist, Web Designer.

## Bachelor of Applied Science (Medical Science) (LS37)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 020331D

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Domestic fees (indicative):** 2009: CSP \$3,698 (indicative) per semester

**International Fees (per semester):** 2009: \$11,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February and July (Conditions apply for July entry)

**QTAC code:** 418201

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA), Maths B (4, SA) and Chemistry (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 300

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Mr Robert Dow

**Campus:** Gardens Point

### Career Opportunities

This course can provide a range of exciting opportunities in the field of medical science.

The degree is the preferred qualification for employment in the pathology industry as a scientist. Scientists in the pathology industry perform tests on human blood or tissue and other forms of testing in the areas of immunology, haematology, microbiology, histopathology, cytology and biochemistry. You may decide to specialise in areas such as leukaemia diagnosis, cytogenetics, stem cell manipulation, tumour diagnosis, cytological diagnosis, DNA testing or forensic testing, or proceed to a managerial position within a pathology laboratory or hospital.

The course also provides a first degree for students wishing to undertake postgraduate studies in medicine. Graduates also have the opportunity to proceed to postgraduate studies leading to a career in medical research. Graduates are currently working as researchers in areas such as malaria, virology, stem cells, immunology and molecular biology.

### Special Course Requirements

1. **Work Experience Program:** Students are required to undertake a minimum six-week work experience program in a practising pathology laboratory. This takes place at the

end of the second year in the full-time program and in a suitable vacation period during the part-time program. Proof of successful vaccination against Hepatitis B must be provided by students at the end of first semester of year two of the program.

2. **Blue Card:** A current Blue Card authorised with QUT is required prior to commencing the clinical placement components in this course. Please read the Blue Card information (<http://bluecard.qut.com>) and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

### Professional Recognition

Graduates are immediately eligible for graduate membership of the Australian Institute of Medical Scientists and will have completed the academic requirements for admission as Members.

### Why Choose this Course?

This is the only medical science degree in southern Queensland which is accredited with the Australian Institute of Medical Scientists (AIMS). In recent years more than 90 per cent of graduates seeking employment were successful within four months of graduation.

The course is designed in consultation with senior staff in pathology laboratories, so you'll gain advanced knowledge of new diagnostic techniques used in the workplace. QUT has state-of-the-art laboratories, allowing you to graduate with extensive experience using equipment found in industry. Medical Science students also undertake clinical placements in pathology laboratories during the course giving you a chance to use your skills in a real workplace.

### Contact Details

#### Course Coordinator

Mr Robert Dow

Phone: +61 7 3138 2559

Email: [r.dow@qut.edu.au](mailto:r.dow@qut.edu.au)

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Chris Collet

**Campus:** Gardens Point

### Career Opportunities

The Bachelor of Biotechnology Innovation is training the next generation of bioentrepreneurs to translate research outcomes into business opportunities. Graduates can be business-savvy scientists, or operate in the world of commercialisation and technology transfer or start up their own biotechnology-based enterprise bringing their own products to market. The emphasis on innovation and entrepreneurship means that graduates are comfortable working in a start up company environment or on new projects in established enterprises. Traditional roles in research-focussed organisations are also available.

Graduates are taking up key positions in the biotechnology industry sector as scientists, business development officers building new businesses from emerging technologies and as commercialisation officers evaluating and financing the commercialisation of new biotechnology products.

Biotechnology is a global industry with many countries promoting the sector as a major pillar of future economic development. Career opportunities exist internationally and graduates are encouraged to think beyond Australia.

### Recommended Study

Biological Science is recommended.

### Course Design

The Bachelor of Biotechnology Innovation, a degree with Honours, was the first degree of its type in Australia and aims to provide highly trained and motivated graduates skilled in the science and business and biotechnology. Graduates undertake the same basic and advanced biotechnology science as students in other science-based courses, gaining requisite theoretical and practical skills. In this course, however, basic and advanced business units are undertaken highlighting entrepreneurial skills and biotechnology commercialisation. Integration and synthesis of the disparate disciplines is an essential component of the course.

Unique to the course is the Student BioEnterprise Scheme, a proactive project-based learning exercise promoting the integration of theory and practice in business and science. Students form companies and operate in the company environment over the entire duration of their course. Companies invent biotechnology-oriented products or processes and formulate strategies to bring them from laboratory to the marketplace under the guidance of industry and academic mentors. Students have many opportunities to network with industry through the Student BioEnterprise Scheme and numerous Ausbiotech functions, events and conferences. Companies can also undertake industry-based or consultancy projects with an industry partner in the final year of the course.

### Professional Recognition

On graduation, students are immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society for Biochemistry and Molecular Biology.

### Why Choose this Course?

If you'd like to work in the dynamic world of translating science discoveries into money-making enterprises, meeting people, evaluating projects, picking winners and running with them, then this course is for you!

While research innovation is critical to the future of Australian industry, and that of many other nations, it is the commercialisation of innovations that will realise any potential and serve to build and strengthen local biotechnology industry. Australia already produces many competent and highly regarded scientists but has a poor history and capitalising on research outcomes. The Federal and various State Governments are investing hundreds of millions of dollars in research innovation and commercialisation and the emphasis has moved to bringing emerging technologies into the marketplace. There is an increasing demand for skilled professionals who can drive research commercialisation in the science and technology sector in Australia and in the global marketplace. The Bachelor of Biotechnology Innovation has created a new rapid pathway into the high-flying world of commercialisation and technology transfer.

Graduates of the Bachelor of Biotechnology Innovation have realised outstanding job outcomes and continue to be quickly employed by industry, often successfully competing against graduates with PhDs.

**Course duration (part-time):** 2 semesters (1 year)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** July (Note: Students commencing in July, enrol in Semester 2 units first) (Students are NOT able to commence LS66 in February)

**International Entry:** July (Students are NOT able to commence LS66 in February)

**Total credit points:** 48

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Mark O'Brien

**Campus:** Gardens Point

### Entry Requirements

A bachelor degree or equivalent, preferably but not necessarily in science, is advised. Please contact the course coordinator for further information on the entry requirements for this course.

### Career Outcomes

Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

### Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

### Course Design

LS66 Graduate Certificate in Biotechnology is a foundation program for those people without a science degree or for those who do not have a recent background in the biomolecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program which comprises 48 credit points of assessed coursework. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also allows students to gain essential generic skills and attributes for successful postgraduate research and learning. Students must commence in July and enrol in Semester 2 units first. Advanced standing may be given for this foundation program if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in any of the more

advanced biotechnology programs (LS76, LS86 or LS96) in their first semester.

### Overview

LS66 Graduate Certificate in Biotechnology is the first of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. This particular course will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training in general biotechnology. LS66 Graduate Certificate in Biotechnology, a 6-month full-time foundation program, provides those students without a sound background in the biomolecular sciences the opportunity for direct entry into more advanced biotechnology streams. Science-based biomolecular science units emphasise both theoretical and laboratory skills and cover contemporary fundamental techniques underpinning the science of biotechnology.

### Course structure - Part-time

#### Year 1, Semester 2 (MODULE 1)

LSN101	Molecular Biosciences
LSN102	Cellular Biosciences

#### Year 2, Semester 2 (MODULE 1)

LSN103	Postgraduate Learning and Research Skills
LQB483	Molecular Biology Techniques

### Potential Careers:

Biochemist, Biotechnologist, Medical Biotechnologist, Microbiologist, Molecular Biologist, Plant Biotechnologist, Research Assistant, Scientist, Virologist.

## Graduate Diploma in Biotechnology (LS76)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 016975B

**Course duration (full-time):** 2 semesters (1 year)

**Course duration (part-time):** 4 semesters (2 years)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** July (Note: Students commencing in July, enrol in Semester 2 units first) \*Also see "ENTRY REQUIREMENTS" below

**International Entry:** July (Note: Students commencing in July, enrol in Semester 2 units first) \*Also see "ENTRY REQUIREMENTS" below

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Mark O'Brien

**Campus:** Gardens Point

### Entry Requirements

A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

*\*LS76 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.*

*For students with advanced standing for Module 1 and who wish to enter LS76 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program.*

### Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

### Career Outcomes

Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will

take into account the student's background in the biomolecular sciences and area of interest in biotechnology. The LS76 Graduate Diploma in Biotechnology builds upon concepts covered in the foundation program, LS66 Graduate Certificate in Biotechnology. The Graduate Diploma in Biotechnology not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. The Graduate Diploma in Biotechnology is comprised of 96 credit points of assessed coursework. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS76 in their first semester.

### Overview

LS76 Graduate Diploma in Biotechnology is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. The Graduate Diploma in Biotechnology will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. LS76 Graduate Diploma in Biotechnology, a one year full-time program, builds upon the knowledge and skills base developed in the Graduate Certificate in Biotechnology and allows the student to stream into either medical or plant biotechnology or both.

### Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the

biomolecular sciences and area of interest in biotechnology. The LS86 Master of Biotechnology program follows on from successful completion of core and elective units offered in both LS66 Graduate Certificate in Biotechnology and LS76 Graduate Diploma in Biotechnology. The program not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. LS86 Master of Biotechnology is comprised of 144 credit points of assessed coursework and is designed to give students further training and specialisation in general, medical and/or plant biotechnology. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS86 in their first semester.

### Overview

LS86 Master of Biotechnology is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. LS86 Master of Biotechnology extends the LS76 Graduate Diploma in Biotechnology program by providing additional training and specialisation in either medical or plant biotechnology or both. The program can be completed in 1.5 years full-time. The Master of Biotechnology program will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

**International Entry:** July (Note: Students commencing in July, enrol in Semester 2 units first) \*Also see "ENTRY REQUIREMENTS" below

**Total credit points:** 192

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Mark O'Brien

**Campus:** Gardens Point

### Entry Requirements

A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

*\*LS96 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.*

*For students with advanced standing for Module 1 and who wish to enter LS96 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program. Also, students may not be able to undertake the project component of LS96.*

### Career Outcomes

Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

### Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the biomolecular sciences and area of interest in biotechnology. LS96 Master of Biotechnology (Advanced) completes the comprehensive training of students and follows successful completion of core and elective units offered in LS66, LS76 and LS86. It is comprised of 192 credit points of assessed coursework in general, medical and/or plant biotechnology. In their final semester of the program, students may undertake a supervised research project either at QUT or in the workplace. Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available. For students not undertaking a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. The LS96 Master of Biotechnology (Advanced) program not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS96 in their first semester.

### Overview

LS96 Master of Biotechnology (Advanced) is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. The LS96 Master of Biotechnology (Advanced) program offers students a complete and comprehensive training in biotechnology by extending the suite of units offered within the LS86 Master of Biotechnology program or by giving students the opportunity in their final semester of study to pursue a research project. The Master of Biotechnology (Advanced) is a two year full-time program of study commencing with the foundation suite of core units, where appropriate. The LS96 Master of Biotechnology (Advanced) program will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory

## SCIENCE AND TECHNOLOGY

experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

## Bachelor of Mathematics (MA54)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 049433D

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Domestic fees (indicative):** 2009: CSP \$3,694 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February and July

**QTAC code:** 418701

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Glenn Fulford

**Discipline coordinator:** Dr Dann Mallet - Assistant Course Coordinator

**Campus:** Gardens Point

### Career Opportunities

Mathematics graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, information technology, environmental management, health, marketing, logistics, defence, media, education and research. In addition to their knowledge and skills in mathematics, graduates are also highly valued for their analytical and problem-solving skills. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

Favourable career outcomes for Bachelor of Mathematics graduates are likely due to the current demand for qualified statisticians and mathematicians.

### Recommended Study

Maths C is recommended.

### Course Design

The course structure is flexible in nature so that you can choose to study only mathematics units or include some units from another area of interest, such as science, business or information technology.

In the first year you will study core units in mathematics and statistics. These core units include studies in calculus, algebra, vectors and matrices, computational mathematics, data analysis and statistical modelling.

You will be able to design your program to suit your interests and career aspirations by combining advanced

units from a number of the following areas of specialisation:

#### *Applied Mathematics*

Mathematical techniques that can be used to solve real-world problems.

#### *Computational Mathematics*

Computers and numerical techniques used to find solutions to complex problems which cannot be solved analytically.

#### *Discrete Mathematics*

The mathematics of numbers, including study of sets, fields, ring and groups.

#### *Financial Mathematics*

A wide variety of mathematical techniques used in applications within the financial area.

#### *Mathematical Modelling*

The utilisation of mathematical techniques to develop a model or explanation of a real-world problem which can then be tested.

#### *Operations Research*

Optimising complex systems including queuing, scheduling or allocation of resources.

#### *Scientific Computation and Visualisation*

Supercomputing, large-scale scientific modelling and creating graphical representations using visualisation techniques.

#### *Statistics*

Collecting data in an appropriate format, experimental design, analysis of data and using data to make predictions.

#### *Statistical Modelling*

Building and analysing models of systems involving probability and variables.

### Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available.

### Mathematics Bursaries

Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see [www.maths.qut.edu.au](http://www.maths.qut.edu.au)

### Contact Details

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course structure - Bachelor of Mathematics**

Students complete at least 192 credit points (16 twelve credit point units) of Mathematics units according to the following requirements:

**Level 1 Mathematics Units**

Students must complete the following Level 1 Mathematics units:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

Note: MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

**Level 2 and 3 Mathematics Units**

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 mathematics units

Students must complete:

- MAB311 Advanced Calculus
- MAB312 Linear Algebra

**Other Units**

Up to a maximum of 96 credit points may be taken as electives with not more than 48 credit points from first level units.

Note: A first level unit is classified as a unit that is normally taken in the first year of a single degree. Examples of first level units are BSB1xx, INB101-INB104, SCB1xx units, PQB2xx units. Please check with your Course Coordinator if you would like to take language units or units from faculties other than Business, Information Technology or Science so that you can be advised on the correct unit(s) in which to enrol.

**Suggested Program for February Entry**

STUDENTS WITH AN EXIT ASSESSMENT OF AT LEAST SOUND ACHIEVEMENT IN BOTH SENIOR MATHEMATICS B AND SENIOR MATHEMATICS C (OR EQUIVALENT)

**Year 1, Semester 1**

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- ONE additional unit from:
  - BSB110 Accounting
  - MAB220 Computational Mathematics 1
  - SCB110 Science Concepts and Global Systems
- Other first level unit (see below and later in document for other suggestions)

**Year 1, Semester 2**

- MAB210 Statistical Modelling 1
- THREE additional units from:
  - MAB220 Computational Mathematics 1
  - MAB281 Mathematics for Computer Graphics
  - MAB313 Mathematics of Finance
  - MAB422 Mathematical Modelling
  - MAB480 Introduction to Scientific Computation
  - BSB113 Economics
  - PQB250 Mechanics and Electromagnetism
  - PQB251 Waves and Optics
  - SCB111 Chemistry 1
  - SCB112 Cellular Basis of Life
- Other first level elective units (see later in document for other suggestions)

**Year 2, Semester 1**

- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- TWO additional units from mathematics units or elective units

**Year 2, Semester 2**

FOUR units from mathematics units or elective units (see course structure)

**Year 3, Semester 1**

FOUR units from mathematics units or elective units (see course structure)

**Year 3, Semester 2**

FOUR units from mathematics units or elective units (see course structure)

STUDENTS WITH AN EXIT ASSESSMENT OF AT LEAST SOUND ACHIEVEMENT IN SENIOR MATHEMATICS B ONLY (OR

EQUIVALENT)

**Year 1, Semester 1**

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- TWO additional units from:
  - BSB110 Accounting
  - BSB113 Economics
  - SCB110 Science Concepts and Global Systems
  - SCB111 Chemistry 1
  - SCB112 Cellular Basis of Life
- Other first level elective unit (see later in document for other suggestions)

**Year 1, Semester 2**

- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

**Year 2, Semester 1**

- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- TWO additional units from mathematics units or elective units

**Year 2, Semester 2**

FOUR units from mathematics units or elective units (see course structure)

**Year 3, Semester 1**

FOUR units from mathematics units or elective units (see course structure)

**Year 3, Semester 2**

FOUR units from mathematics units or elective units (see course structure)

**Mathematics Units**

**Mathematics Units**

Students should not enrol in Mathematics units other than those listed below:

**Level 1 Mathematics Units**

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

**Level 2 Mathematics Units**

- MAB311 Advanced Calculus
- MAB312 Linear Algebra

- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2
- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB420 Computational Mathematics 2
- MAB422 Mathematical Modelling
- MAB461 Discrete Mathematics
- MAB480 Introduction to Scientific Computation
- MAB481 Visualisation and Data Analysis

**Level 3 Mathematics Units**

- MAB521 Applied Mathematics 3
- MAB522 Computational Mathematics 3
- MAB524 Statistical Inference
- MAB525 Operations Research 3A
- MAB533 Statistical Techniques
- MAB536 Time Series Analysis
- MAB613 Partial Differential Equations
- MAB623 Financial Mathematics
- MAB624 Applied Statistics 3
- MAB625 Operations Research 3B
- MAB640 Industry Project
- MAB672 Advanced Mathematical Modelling
- MAB681 Advanced Visualisation and Data Analysis

**Other Units**

Up to a maximum of 96 credit points (8 twelve credit point units) can be taken from other units, with not more than 48 credit points (4 twelve credit point units) from first level units. A first level unit is classified as a unit that is normally taken in the first year of a single degree.

**OTHER UNIT - FIRST LEVEL:** This unit can only be taken in MA54 after recommendation from the Course Coordinator. This unit cannot be included in the minimum of 16 mathematics units required for the course.

**OTHER UNIT - ADVANCED LEVEL:** This unit cannot be included in the minimum of 16 mathematics units required for the course, but can be counted as an elective.

- MAB105 Preparatory Mathematics
- MAB281 Mathematics for Computer Graphics

**Potential Careers:**

Actuary, Computer Game Programmer, Market Research Manager, Mathematician, Quantitative Analyst, Statistician.

## Graduate Certificate in Mathematical Science (MA65)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 046044G

**Course duration (full-time):** 1 semester (0.5 year)

**Course duration (part-time):** 2 semesters (1 year)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February, July or Summer Program

**International Entry:** February and July

**Total credit points:** 48

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Troy Farrell

**Campus:** Gardens Point

### Entry Requirements

To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Applicants who do not meet the normal entry requirement may be permitted to enrol subject to the approval of the Head of the School of Mathematical Sciences. Applicants should provide details of their relevant industry experience and prior learning.

### Career Outcomes

Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management. Mathematics teachers are in high demand.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Certificate, at least 36 credit points must be taken from mathematics units and up to 12 credit points can be taken from units other than mathematics units.

### Overview

This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It is also suitable for graduates who wish to obtain the mathematics units required for mathematics as a teaching area for secondary schools. It recognises that students may not have studied mathematics for some time.

### Contact Details

#### Course Coordinator

Dr Troy Farrell

Phone: +61 7 3138 2364

Email: sms.coursework@qut.edu.au

### Course structure

- At least 36 credit points must be taken from mathematics units.
- Up to 12 credit points can be taken from units other than mathematics units.
- The units recommended will depend upon your mathematics background from secondary school or tertiary studies, length of time since you have studied mathematics, and your areas of interest.

#### Units available:

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1
MAB281	Mathematics for Computer Graphics
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB315	Operations Research 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB420	Computational Mathematics 2
MAB422	Mathematical Modelling
MAB461	Discrete Mathematics
MAB480	Introduction to Scientific Computation
MAB481	Visualisation and Data Analysis
MAB521	Applied Mathematics 3
MAB522	Computational Mathematics 3
MAB524	Statistical Inference
MAB525	Operations Research 3A
MAB533	Statistical Techniques
MAB613	Partial Differential Equations
MAB623	Financial Mathematics
MAB625	Operations Research 3B
MAB672	Advanced Mathematical Modelling
MAN200	Mathematical Foundations
MAN201	Mathematics
MAN536	Time Series Analysis

MAN624	Applied Statistics
MAN681	Advanced Visualisation and Data Analysis
MAN700	Project
MAN717	Minor Project
MAN761	Analysis
MAN764	Applied Mathematical Modelling
MAN765	Bayesian Data Analysis
MAN766	Applied Time Series Analysis
MAN768	Advanced Techniques in Operations Research
MAN769	Mathematics of Finance
MAN771	Computational Mathematics 4
MAN774	Perturbation Methods
MAN775	Statistical Modelling of Financial Processes
MAN777	Mathematics of Fluid Flow
MAN778	Applications of Discrete Mathematics
MAN787-1	Project
MAN787-2	Project
MAN787-3	Project

**Potential Careers:**

Actuary, Mathematician, Quantitative Analyst, Statistician.

## Graduate Diploma in Mathematical Science (MA75)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 046041M

**Course duration (full-time):** 2 semesters (1 year)

**Course duration (part-time):** 4 semesters (2 years)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February, July or Summer Program

**International Entry:** February and July

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Troy Farrell

**Campus:** Gardens Point

### Entry Requirements

To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Students who do not have sufficient background in introductory calculus may be advised to enrol in MA65 Graduate Certificate in Mathematical Sciences first.

### Prior to Enrolment

Potential applicants for this course are advised to contact the Course Coordinator prior to submitting their application to discuss their plans. International students in particular, should be aware that full-time enrolment of at least 36 credit points per semester may not be possible. This is due to the need to meet unit prerequisites. Units are not offered externally although units do have varying amounts of on-line material available. Lectures, tutorials and computer-based practicals may be timetabled during the day or early evening.

### Career Outcomes

Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Diploma, at least 24 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 36 credit points from project units.

### Overview

This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

### Contact Details

#### Course Coordinator

Dr Troy Farrell

Phone: +61 7 3138 2364

Email: sms.coursework@qut.edu.au

### Course structure

- At least 24 credit points must be taken from postgraduate mathematics units other than MAN200 Mathematical Foundations and/or MAN201 Mathematics.
  - Up to 24 credit points can be taken from units other than mathematics units.
  - Limit of 36 credit points from project units.
- Your planned program of study should be decided in consultation with the Course Coordinator. It will take into account your background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to you and the units listed under each strand can guide you in developing your planned program. Students will usually select units from one or two strands only. The unit MAN700 Project can be used to satisfy the rule requiring at least 24 credit points from postgraduate mathematics units other than MAN200 and/or MAN201.
- The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):
- |          |                          |
|----------|--------------------------|
| MAN200   | Mathematical Foundations |
| MAN201   | Mathematics              |
| MAN700   | Project                  |
| MAN717   | Minor Project            |
| MAN787-1 | Project                  |
| MAN787-2 | Project                  |
| MAN787-3 | Project                  |
- If you wish to take any of the above units you will need to discuss your plans and the proposed content with the Course Coordinator.

### Strand Information

The following strand information is to assist you with unit selection. You do not have to enrol in all units listed for a strand. The prerequisite units are given to guide you. Depending on your background, you may have already covered some of the units listed (or equivalent units) in your undergraduate

studies. If you have not studied any mathematics for some time, you may need to undertake one or two units prior to commencing those listed in the strand information.

**Mathematical Modelling/Applied Mathematics**

Postgraduate Mathematics Units:

- MAN761 Analysis
- MAN764 Applied Mathematical Modelling
- MAN774 Perturbation Methods
- MAN777 Mathematics of Fluid Flow
- Prerequisite Units:
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB413 Differential Equations
- MAB422 Mathematical Modelling
- MAB521 Applied Mathematics 3
- MAB613 Partial Differential Equations
- MAB672 Advanced Mathematical Modelling

**Computational Mathematics**

Postgraduate Mathematics Unit:

- MAN771 Computational Mathematics 4
- Prerequisite Units:
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB420 Computational Mathematics 2
- MAB480 Introduction to Scientific Computation
- MAB522 Computational Mathematics 3

**Operations Research**

Postgraduate Mathematics Units:

- MAN768 Advanced Techniques in Operations Research
- Prerequisite Units:
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB315 Operations Research 2
- MAB525 Operations Research 3A
- MAB625 Operations Research 3B

**Statistics/Statistical Modelling**

Postgraduate Mathematics Units:

- MAN536 Time Series Analysis

- MAN624 Applied Statistics
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN775 Statistical Modelling of Financial Processes

Prerequisite Units:

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB314 Statistical Modelling 2
- MAB414 Applied Statistics 2
- MAB524 Statistical Inference
- MAB533 Statistical Techniques

**Quantitative Analysis/Financial Mathematics**

Postgraduate Mathematics Units:

- MAN536 Time Series Analysis
- MAN624 Applied Statistics
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN769 Mathematics of Finance
- MAN775 Statistical Modelling of Financial Processes

Prerequisite Units:

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB524 Statistical Inference
- MAB533 Statistical Techniques
- MAB623 Financial Mathematics

**Scientific Computation and Visualisation**

- MAN681 Advanced Visualisation and Data Analysis

Prerequisite Mathematics Units:

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB281 Mathematics for Computer Graphics
- MAB480 Introduction to Scientific Computation
- MAB481 Visualisation and Data Analysis

**Discrete Mathematics**

Postgraduate Mathematics Unit:

- MAN778 Applications of Discrete Mathematics

Prerequisite Units:

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB461 Discrete Mathematics

### **Mathematics for Secondary Teaching**

Postgraduate mathematics units:

MAN700 Project

Or other postgraduate mathematics units totalling 24 credit points.

null

Other mathematics units:

Students would usually select across a range of areas of mathematics and statistics.

null

Non-mathematics units:

Students could select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics.

### **Potential Careers:**

Actuary, Mathematician, Quantitative Analyst, Statistician.

## Master of Mathematical Science (MA85)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 046042K

**Course duration (full-time):** 3 semesters (1.5 years)

**Course duration (part-time):** 6 semesters (3 years)

**Domestic fees (indicative):** 2009: Full fee tuitin \$7,000 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February, July or Summer Program

**International Entry:** February and July

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Troy Farrell

**Campus:** Gardens Point

### Entry Requirements

To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Students who do not have sufficient background in introductory calculus may be advised to enrol in MA65 Graduate Certificate in Mathematical Sciences first.

### Prior to Enrolment

Potential applicants for this course are advised to contact the Course Coordinator prior to submitting their application to discuss their plans. International students in particular, should be aware that full-time enrolment of at least 36 credit points per semester may not be possible. This is due to the need to meet unit prerequisites. Units are not offered externally although units do have varying amounts of on-line material available. Lectures, tutorials and computer-based practicals may be timetabled during the day or early evening.

### Career Outcomes

Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

### Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

For the Masters program, at least 36 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 48 credit points from project units.

### Overview

This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of

the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

## SCIENCE AND TECHNOLOGY

### Mathematical Modelling/Applied Mathematics

Postgraduate Mathematics Units:

MAN761	Analysis
MAN764	Applied Mathematical Modelling
MAN774	Perturbation Methods
MAN777	Mathematics of Fluid Flow
	Prerequisite Units:
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB220	Computational Mathematics 1
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB413	Differential Equations
MAB422	Mathematical Modelling
MAB521	Applied Mathematics 3
MAB613	Partial Differential Equations
MAB672	Advanced Mathematical Modelling

### Computational Mathematics

Postgraduate Mathematics Unit:

MAN771	Computational Mathematics 4
	Prerequisite Units:
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB220	Computational Mathematics 1
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB420	Computational Mathematics 2
MAB480	Introduction to Scientific Computation
MAB522	Computational Mathematics 3

### Operations Research

Postgraduate Mathematics Units:

MAN768	Advanced Techniques in Operations Research
	Prerequisite Units:
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB315	Operations Research 2
MAB525	Operations Research 3A
MAB625	Operations Research 3B

### Statistics/Statistical Modelling

Postgraduate Mathematics Units:

MAN536	Time Series Analysis
MAN624	Applied Statistics
MAN765	Bayesian Data Analysis
MAN766	Applied Time Series Analysis
MAN775	Statistical Modelling of Financial Processes

Prerequisite Units:

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB314	Statistical Modelling 2
MAB414	Applied Statistics 2
MAB524	Statistical Inference
MAB533	Statistical Techniques

### Quantitative Analysis/Financial Mathematics

Postgraduate Mathematics Units:

MAN536	Time Series Analysis
MAN624	Applied Statistics
MAN765	Bayesian Data Analysis
MAN766	Applied Time Series Analysis
MAN769	Mathematics of Finance
MAN775	Statistical Modelling of Financial Processes

Prerequisite Units:

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB313	Mathematics of Finance
MAB314	Statistical Modelling 2
MAB413	Differential Equations
MAB414	Applied Statistics 2
MAB524	Statistical Inference
MAB533	Statistical Techniques
MAB623	Financial Mathematics

### Scientific Computation and Visualisation

MAN681 Advanced Visualisation and Data Analysis

Prerequisite Mathematics Units:

MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB281	Mathematics for Computer Graphics
MAB480	Introduction to Scientific Computation
MAB481	Visualisation and Data Analysis

### Discrete Mathematics

Postgraduate Mathematics Unit:

MAN778 Applications of Discrete Mathematics

Prerequisite Units:

MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB461	Discrete Mathematics

### Mathematics for Secondary Teaching

Postgraduate mathematics unit:

MAN700 Project

Plus at least one other postgraduate mathematics unit (or other combination to give at least 36 credit points from appropriate postgraduate mathematics units)

null

Other mathematics units:

Students would usually select across a range of areas of mathematics and statistics

null

Non-mathematics units:

Students can select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics

**Potential Careers:**

Actuary, Mathematician, Quantitative Analyst, Statistician.

## Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) (PH38)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 037588F

**Course duration (full-time):** 3 Years

**Domestic fees (indicative):** 2009: CSP \$3,497 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 418182

**Past rank cut-off:** 95

**Past OP cut-off:** 4

**Assumed knowledge:** English (4, SA), Maths B (4, SA) and Physics (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. PHYSICS: QUT unit Introductory Physics 1H as a visiting student or QUT Continuing Professional Education course Physics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Course coordinator:** Associate Professor Pam Rowntree

**Discipline coordinator:** Debbie Starkey

**Campus:** Gardens Point

### Career Opportunities

After graduating from the Medical Imaging Technology major, you may be employed as a medical imaging technologist or diagnostic radiographer. As a radiographer you will play a key role within the health care industry by providing referring medical practitioners with additional diagnostic information to assist in patient management and treatment. You may become a team member in a radiology department in a hospital, private radiology practice or health department, or you may be employed in medical equipment sales.

### OP Guarantee

The OP Guarantee does not apply to this program.

### Other Majors

See also the separate entry for the following major in this course: Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology).

### Special Requirements

**1. Clinical Experience:** Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their clinical placement, and may be exposed to blood and body fluids of patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification

showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

**2. Blue Card:** A current Blue Card authorised with QUT is required prior to commencing the clinical placement components in this course. Please read the Blue Card information (<http://bluecard.qut.com>) and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

### Other Course Requirements

Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

### Professional Recognition

On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

The Medical Radiation Technologists Board of Queensland (MRTBQ) has introduced English language proficiency requirements for applicants for whom English is not the primary language who wish to be registered in Queensland. Refer MRTBQ website for current policy details - <http://www.mrtboard.qld.gov.au/>.

The Australian Institute of Radiography (AIR) has specific language requirements for international students seeking accreditation in Australia - see [www.air.asn.au](http://www.air.asn.au) for further details.

### Why Choose this Course?

QUT is the only university to offer a Medical Imaging Technology degree in Queensland. Excellent employment prospects can be expected as QUT works closely with the health industry to ensure that the number of graduates is in line with industry demand. In recent years, over 95 per cent of graduates have been employed within four months of graduation.

This course is designed in consultation with clinical staff from radiology departments, so you'll gain advanced knowledge of new diagnostic techniques and equipment used in the workplace. QUT's well equipped X-ray laboratories allow you to graduate with experience using equipment and techniques similar to those used in industry. Clinical placements in hospitals and private practices provide an opportunity to use your skills in a real workplace.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work

experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Domestic student tuition fee (Dfee) places**

**Undergraduate domestic full fee places (Dfee) are not available in this course.** Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed all of their Student Learning Entitlement, etc) and who have been invited and accepted to continue as a fee-paying student.

**Course structure - Medical Imaging Technology**

**Year 1, Semester 1**

- LSB145 Anatomy 1
- PCB007 Patient Care in Professional Practice
- PCB178 Principles of Medical Radiations
- PCB272 Radiation Physics

**Year 1, Semester 2**

- LSB245 Anatomy 2 and Introductory Pathology
- PCB276 General Radiography 1
- PCB277 Radiographic Practice
- PCB675 Radiation Safety and Biology

**Year 2, Semester 1**

- LSB321 Systematic Pathology
- LSB345 Regional & Imaging Anatomy 1
- PCB375-1 Radiographic Equipment
- PCB377 General Radiography 2
- PCB379 Clinical Radiography 1

**Year 2, Semester 2**

- LSB445 Regional and Imaging Anatomy 2
- PCB375-2 Radiographic Equipment
- PCB476 Special Procedures
- PCB477 Complementary Imaging Techniques
- PCB479 Clinical Radiography 2

**Year 3, Semester 1**

- PCB567 Advanced Radiographic Technique 1
- PCB580-1 Clinical Radiography 3
- PCB593 Digital Image Processing
- PCB672-1 Project
- PCB681 Computed Tomography Imaging

**Year 3, Semester 2**

- PCB580-2 Clinical Radiography 3
- PCB667 Advanced Radiographic Technique 2
- PCB672-2 Project
- PCB682 Magnetic Resonance Imaging

**Potential Careers:**

Medical Imaging Technologist, Radiographer.

## Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology) (PH38)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 037588F

**Course duration (full-time):** 3 Years

**Domestic fees (indicative):** 2009: CSP \$3,497 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February: Fixed Closing Date - 28 November 2008.

**QTAC code:** 418192

**Past rank cut-off:** 91 and a successful questionnaire (see Additional Entry Requirements)

**Past OP cut-off:** 6 and a successful questionnaire (see Additional Entry Requirements)

**Assumed knowledge:** English (4, SA), Maths B (4, SA) and Physics (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. PHYSICS: QUT unit Introductory Physics 1H as a visiting student or QUT Continuing Professional Education course Physics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Course coordinator:** Associate Professor Pam Rowntree

**Campus:** Gardens Point

### Career Opportunities

As a graduate, you may be employed as a radiation therapist in a radiotherapy department of a major hospital or private institution. You may become a member of a team which treats cancer and is responsible for planning and delivering prescribed radiation doses.

### Other Majors

See also the separate entry for the following major in this course: Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology).

### Additional Entry Requirements

Radiotherapy Technology applicants are required to complete an online questionnaire which will be available at [adentry.qut.com](http://adentry.qut.com) in late August.

**The due date to submit the questionnaire is 26 September 2008.** Late submissions will be accepted up until 28 November. Submissions after 28 November will not be accepted.

### Fixed Closing Date

Applications for this program closed on **30 November**.

### OP Guarantee

The OP Guarantee does not apply to this course.

### Other Course Requirements

Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

### Special Course Requirements

**1. Clinical Experience:** Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their placement, and may be exposed to blood and body fluids of patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

**2. Blue Card:** A current Blue Card authorised with QUT is required prior to commencing the clinical placement components in this course. Please read the Blue Card information (<http://bluecard.qut.com>) and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

### Professional Recognition

On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

The Medical Radiation Technologists Board of Queensland (MRTBQ) has introduced English language proficiency requirements for applicants for whom English is not the primary language who wish to be registered in Queensland. Refer MRTBQ website for current policy details - <http://www.mrtboard.qld.gov.au/>.

The Australian Institute of Radiography (AIR) has specific language requirements for international students seeking accreditation in Australia - see [www.air.asn.au](http://www.air.asn.au) for further details.

### Why Choose this Course?

QUT is the only university to offer a Radiotherapy Technology degree in Queensland. Excellent employment prospects can be expected as QUT works closely with the health industry to ensure that the number of graduates is in line with industry demand. In recent years, over 95 per cent of graduates have been employed within four months of graduation.

This course is designed in consultation with clinical staff from radiation oncology departments, so you'll gain advanced knowledge of new treatment techniques and equipment used in the workplace. QUT's well equipped laboratories allow you to graduate with experience using

equipment and techniques similar to those used in industry. Close links with local oncology departments allow students to complete practical work and clinical placements using specialised, state-of-the-art radiotherapy equipment.

- PCB397-2 Megavoltage Therapy 2
- PCB489 Clinical Radiotherapy 2
- PCB495 Computer Assisted Treatment Planning 1
- PCB496 Radiotherapy Equipment

**Year 3, Semester 1**

- PCB587 Specialised Radiotherapy Technique 1
- PCB590-1 Clinical Radiotherapy 3

- PCB593 Digital Image Processing
- PCB595 Computer Assisted Treatment Planning 2
- PCB672-1 Project

**Year 3, Semester 2**

- PCB590-2 Clinical Radiotherapy 3
- PCB672-2 Project
- PCB687 Specialised Radiotherapy Technique 2
- PCB695 Advanced Treatment Planning Topics

**Potential Careers:**

Radiation Therapist.

## Graduate Certificate in Applied Science (Breast Ultrasound) (PH60)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 2 semesters (1 year)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Pam Rowntree

**Discipline coordinator:** Natasha Kazich

**Campus:** Gardens Point

### Entry requirements

To be eligible to enrol, an applicant will normally be qualified as a medical imaging technologist (diagnostic radiographer) at degree or diploma level and have a minimum of two years experience in a clinical medical imaging practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

Applicants with other qualifications and appropriate experience may be permitted to enrol subject to the approval of the Head of School of Physical and Chemical Sciences.

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

Students must be employed in a suitable clinical practice with adequate access to clinical experience for the duration of the course. Formal lectures are conducted in an intensive one-week block of classes at the beginning of each semester. Further academic requirements can be met without requiring on-campus attendance. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

### Overview

The Graduate Certificate in Applied Science (Breast Ultrasound) course offers studies specifically in breast ultrasound techniques. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and sonographers who are interested in an in-depth study of this rapidly developing speciality area of ultrasound.

### Contact Details

Email: n.kazich@qut.edu.au

### Course structure

To complete the Graduate Certificate in Applied Science (Breast Ultrasound) students must complete the units listed below (total 48 credit points)

#### Semester 1

PCN162 Principles of Medical Ultrasound

PCN187 Specialist Studies - Breast Ultrasound Strand

PCN397-1 Clinical Attachment

#### Semester 2

PCN184 Breast Imaging

PCN397-2 Clinical Attachment

NOTE: The PCN397 clinical attachment unit is a 2 semester unit

### Potential Careers:

Sonographer.

## Graduate Certificate in Lighting (on-shore) (PH62)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 2 semesters (1 year) (Internal and External)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** July

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Ian Cowling

**Campus:** Gardens Point

### Overview

The Graduate Certificate in Lighting (PH62) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

The Graduate Certificate in Lighting (PH62) provides an overview of all aspects of lighting, including light measurement, lamp properties and luminaire design, design of lighting installations, daylighting and the human factors associated with lighting.

The Graduate Diploma (PH72) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH82) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

### Entry Requirements

(a) Bachelor level degree in an appropriate field

**OR**

(b) Demonstrated minimum of 3 years of relevant experience in the lighting industry and successful completion of one or more recognised Introductory Courses in Lighting as determined by the Course Coordinator. (Note: Students entering without a Bachelor degree can only enrol initially in PH62, and must successfully complete this program before they can enrol in PH72 or PH82.)

*Note:* Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit in PH62/PH63 to a maximum of 24 credit points.

### Course Design

Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, sustainability issues and human factors.

### Contact Details

### Course Coordinator

Associate Professor Ian Cowling

Phone: +61 7 3138 2592

Email: i.cowling@qut.edu.au

### Course structure - Part-time

#### Year 1, Semester 2 (July to October)

PCN121 Vision Colour and Photometry

PCN124 Lamps and Luminaires

#### Year 2, Semester 1 (February to June)

PCN122 Lighting Design

PCN123 Sustainability and Human Factors

**NOTES:** PH62 is offered part-time comprising a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends.

Domestic students in the Graduate Certificate in Lighting (PH62) will be invited, on successful completion of 48 credit points, to continue with studies in the Graduate Diploma in Lighting (PH72), or can enrol directly in Master of Lighting (PH82).

International students wishing to change courses should consult International Student Business Services.

### Potential Careers:

Architect, Electrical Contractor, Electrical Engineer, Energy Consultant, Industrial Designer, Landscape Architect, Lighting Designer, Lighting Technician, Luminaire Designer, Physicist, Sales Person, Scientist, Theatre Lighting.

## Graduate Certificate in Lighting (off-shore) (PH63)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (external):** 2 semesters part-time (Hong Kong)

**Domestic fees (per credit point):** Off-shore Course (subject to annual review)

**International Entry:** September

**Total credit points:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Ian Cowling

**Campus:** City University of Hong Kong

### Overview

The Graduate Certificate in Lighting (PH63) is designed primarily for people working in any area of lighting, whether it be design or application, sales or installation, purpose directed or just entertainment.

The Graduate Certificate in Lighting (PH63) is designed to provide an overview of all aspects of lighting, including light measurement, luminaire design, design of lighting installations, sustainability, daylighting and the human aspects associated with providing good lighting.

The Graduate Diploma (PH73) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH83) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

### Entry Requirements

(a) Bachelor level degree in an appropriate field

### OR

(b) Demonstrated minimum of 3 years of relevant experience in the lighting industry and successful completion of one or more recognised Introductory Courses in Lighting as determined by the Course Coordinator. (Note: Students entering without a Bachelor degree can only enrol initially in PH63, and must successfully complete this program before they can enrol in PH73 or PH83.)

*Note:* Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit in PH62/PH63 to a maximum of 24 credit points.

### Course Design

Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, daylighting and the human factors of lighting.

### Course Details

#### Course Coordinator

Associate Professor Ian Cowling

Phone: +61 7 3138 2592

Email: i.cowling@qut.edu.au

### Course structure - Part-time

#### Year 1, Semester 2 (September to December)

PCZ121	Vision Colour and Photometry
PCZ124	Lamps and Luminaires

#### Year 2, Semester 1 (January to April)

PCZ122	Lighting Design
PCZ123	Sustainability and Human Factors

**NOTES:** PH63 is offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. The two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later.

Students in the Graduate Certificate in Lighting (PH63) wishing to continue their studies in the Graduate Diploma of Lighting (PH73), on successful completion of 48 credit points, are required to seek admission using an International Student Degree Program Application (F) Form.

### Potential Careers:

Architect, Electrical Contractor, Electrical Engineer, Energy Consultant, Industrial Designer, Landscape Architect, Lighting Designer, Lighting Technician, Luminaire Designer, Physicist, Sales Person, Scientist, Theatre Lighting.

## Graduate Diploma in Applied Science (Medical Physics) (PH71)

Year offered: 2009

Admissions: Yes

CRICOS code: 020315D

Course duration (full-time): 2 semesters (1 year)

Course duration (part-time): 4 semesters (2 years)

Domestic fees (indicative): 2009: CSP \$3,701 (indicative) per semester

International Fees (per semester): 2009: \$10,250 (indicative) per semester (subject to annual review)

Domestic Entry: February and July

International Entry: February and July

Total credit points: 96

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Andrew Fielding

Campus: Gardens Point

### Entry Requirements

Applicants must possess an acceptable tertiary course with a major in physics. Applicants with other qualifications (eg engineering) may enrol with the approval of the Head of the School of Physical and Chemical Sciences. In some instances, a modified program may be necessary.

### Course Design

This degree comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

Students who have completed the Graduate Diploma may enter Stage 2 of the Master of Applied Science - PH80 where they undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution.

### Professional Recognition

The course has been accredited by the Australasian College of Physical Sciences and Engineers in Medicine (ACPSEM) and graduates of the course will receive exemptions for the academic requirements of the ACPSEM Training, Education and Accreditation Program (TEAP) for Medical Physicists. Full exemption will be granted for the Master of Applied Science and coursework component exemption will be granted for the Graduate Diploma. The TEAP is a 5 year registrar training program leading to accreditation as a Medical Physicist and further details may be found at [www.acpsem.org.au](http://www.acpsem.org.au).

### Overview

The Graduate Diploma/Master of Applied Science (Medical Physics) deals with well-established and emerging areas of medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, radiological imaging sciences.

The coursework also contains an introduction to the clinical

sciences. From this, prospective medical physicists learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Graduates can seek employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer. Duties as a professional medical physicist include:

- applying electronics, ultrasonics, radiation and computers to clinical and environmental problems
- monitoring the environment to maintain acceptable standards in the workplace and the community
- applying fundamental physical research in development programs
- responsibility for calibration, care and maintenance of instruments and apparatus.

## Graduate Diploma in Applied Science (Medical Ultrasound) (PH71)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 4 semesters (2 years)

**Domestic fees (indicative):** 2009: CSP \$3,701 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February. Applications are to be made by 1 December in the preceding year.

**Total credit points:** 96

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Andrew Fielding

**Discipline coordinator:** Peter Carlile

**Campus:** Gardens Point

### Entry Requirements

Students will normally be qualified diagnostic radiographers or medical imaging technologists at degree or diploma level, or degree qualified nurses, and have at least two years of experience in a clinical practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

### Overview

The Graduate Diploma and Master of Applied Science courses offer studies in medical ultrasound. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and nuclear medicine technologists who are interested in an in-depth study of this rapidly developing area.

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive 4-5 week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

### Course structure - Part-time

Students must complete the units listed below (total 96 credit points)

#### Year 1, Semester 1

PCN159	Ultrasonic Examination 1
PCN162	Principles of Medical Ultrasound
PCN197-1	Clinical Attachment 1

#### Year 1, Semester 2

PCN197-2	Clinical Attachment 1
PCN356	Ultrasonic Examination 2

#### Year 2, Semester 1

PCN297-1	Clinical Attachment 2
PCN355	Vascular Ultrasound
PCN357	Advanced Ultrasound Topics

#### Year 2, Semester 2

PCN218	Research Methodology and Professional Studies
PCN297-2	Clinical Attachment 2
NOTES	The PCN197 and PCN297 clinical attachment units are 2 semester units Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

### Potential Careers:

Sonographer.

## Graduate Diploma in Lighting (on-shore) (PH72)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 4 semesters (2 years) (Internal and External)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** July

**Total credit points:** 96

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Ian Cowling

**Campus:** Gardens Point

### Overview

The Graduate Diploma in Lighting (PH72) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

The Graduate Certificate in Lighting (PH62) provides an overview of all aspects of lighting, including light measurement, lamp properties and luminaire design, design of lighting installations, daylighting and the human factors associated with lighting.

The Graduate Diploma (PH72) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH82) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

### Entry Requirements

(a) Bachelor level degree in an appropriate field

OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting or equivalent.

*Note:* Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

### Course Design

Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality Management.

CNP520 Project Management

PCN224 Applied Lighting

**NOTES:** PH72 is offered part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.

Domestic students in the Graduate Diploma in Lighting (PH72) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Lighting (PH82).

Students in the Graduate Diploma in Lighting (PH72) wishing to exit with the Graduate Certificate in Lighting (PH62) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

International students wishing to change courses should consult International Student Business Services.

### Potential Careers:

Architect, Electrical Contractor, Electrical Engineer, Energy Consultant, Industrial Designer, Landscape Architect, Lighting Designer, Lighting Technician, Luminaire Designer, Physicist, Sales Person, Scientist, Theatre Lighting.

## Graduate Diploma in Lighting (off-shore) (PH73)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (external):** 4 semesters part-time (Hong Kong)

**Domestic fees (per credit point):** Off-shore Course (subject to annual review)

**International Entry:** September

**Total credit points:** 96

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Ian Cowling

**Campus:** City University of Hong Kong

### Overview

The Graduate Diploma in Lighting (PH73) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

All students in the Graduate Diploma (PH73) will have undertaken the 4 units of the Graduate Certificate in Lighting (PH63), providing an overview of all aspects of lighting, including light measurement, luminaire design, design of lighting installations, sustainability, daylighting and the human aspects associated with providing good lighting.

The Graduate Diploma (PH73) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH83) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

### Entry Requirements

(a) Bachelor level degree in an appropriate field

### OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting or equivalent.

*Note:* Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

### Course Design

Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality.

### Contact Details

#### Course Coordinator

Associate Professor Ian Cowling

Phone: +61 7 3138 2592

Email: i.cowling@qut.edu.au

### Course structure - Part-time

#### First Semester (September to December)

PCZ121 Vision Colour and Photometry

PCZ124 Lamps and Luminaires

#### Second Semester (January to April)

PCZ122 Lighting Design

PCZ123 Sustainability and Human Factors

#### Third Semester (May to August)

PCZ222 Advanced Lighting Design

PCZ223 Lighting Applications

#### Fourth Semester (September to December)

PCZ221 Best Practices in Lighting

PCZ224 Applied Lighting

**NOTES:** PH73 is offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Except for the fourth semester, the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. In the fourth semester both units will commence at the start of the semester.

Students in the Graduate Diploma in Lighting (PH73) wishing to continue their studies in the Master of Lighting (PH83), on successful completion of 96 credit points, are required to seek admission using an International Student Degree Program Application (F) Form.

Students in the Graduate Diploma in Lighting (PH73) wishing to exit with the Graduate Certificate in Lighting (PH63) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

### Potential Careers:

Architect, Electrical Contractor, Electrical Engineer, Energy Consultant, Industrial Designer, Landscape Architect, Lighting Designer, Lighting Technician, Luminaire Designer, Physicist, Sales Person, Scientist, Theatre Lighting.

## Graduate Diploma in Cardiac Ultrasound (PH75)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 4 semesters (2 years) (External only)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**Domestic Entry:** February: Early Closing Date - 1 December 2008. Early closing date for PH75 and PH85 Semester 1 2009 entry, pending quota being filled. Beyond this date, late applicants should contact the course coordinator for admission advice.

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Bonita Anderson

**Campus:** Gardens Point

### Entry Requirements

To be eligible to enrol an applicant will normally have a degree or diploma level qualification in a relevant science or allied health field. In addition the applicant must have a minimum of 3 months full-time equivalent prior supervised, hands-on clinical experience in cardiac ultrasound as well as access to suitable clinical experience for the duration of the course.

Students must give written proof of prior supervised, clinical experience and access to suitable clinical experience for the duration of the course.

**Fees:** Please note that the Domestic Fees are based on full-time studies. This course is a part-time course. Please refer to **Indicative Domestic Fees** (<http://www.studentservices.qut.edu.au/costs/calculate/indicative.jsp>) for information.

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

### Overview

The Graduate Diploma in Cardiac Ultrasound program offers studies for practicing Cardiac Sonographers. The course is conducted using a combination of block classes of approximately one week's duration in each semester, web-based modules and clinical practice modules.

### Contact Details

#### Course Coordinator

Bonita Anderson

### Course structure

#### Year 1, Semester 1

PCN155 Cardiac Ultrasound 1

PCN162 Principles of Medical Ultrasound

PCN497-1 Clinical Attachment 4

#### Year 1, Semester 2

PCN259 Cardiac Ultrasound 2

PCN497-2 Clinical Attachment 4

#### Year 2, Semester 1

PCN218 Research Methodology and Professional Studies

PCN359 Cardiac Ultrasound 3

PCN597-1 Clinical Attachment 5

#### Year 2, Semester 2

PCN459 Advanced Cardiac Ultrasound

PCN597-2 Clinical Attachment 5

**NOTES:** The PCN497 and PCN597 clinical attachment units are 2 semester units.

Domestic students in the Graduate Diploma in Cardiac Ultrasound (PH75) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Cardiac Ultrasound (PH85).

### Potential Careers:

Sonographer.

## Master of Applied Science (Medical Physics) (PH80)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 043548G

**Course duration (full-time):** 3 semesters (1.5 years)

**Course duration (part-time):** 6 semesters (3 years)

**Domestic fees (indicative):** 2009: CSP \$3,701 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Andrew Fielding

**Campus:** Gardens Point

### Other Majors

See also the separate entry for the following major in this course: Master of Applied Science (Medical Ultrasound).

### Entry Requirements

Applicants must possess an acceptable tertiary course with a major in physics. Applicants with other qualifications (eg engineering) may enrol with the approval of the Head of the School of Physical and Chemical Sciences. In some instances, a modified program may be necessary.

### Course Design

This degree consists of two stages. Stage 1 (which is equivalent to the Graduate Diploma - PH71) comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

In Stage 2 (Master of Applied Science - PH80) students undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution. Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

### Professional Recognition

The course has been accredited by the Australasian College of Physical Sciences and Engineers in Medicine (ACPSEM) and graduates of the course will receive exemptions for the academic requirements of the ACPSEM Training, Education and Accreditation Program (TEAP) for Medical Physicists. Full exemption will be granted for the Master of Applied Science and coursework component exemption will be granted for the Graduate Diploma. The TEAP is a 5 year registrar training program leading to accreditation as a Medical Physicist and further details may be found at [www.acpsem.org.au](http://www.acpsem.org.au).

### Overview

The Graduate Diploma/Master of Applied Science (Medical Physics) deals with well-established and emerging areas of

medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, radiological imaging sciences.

The coursework also contains an introduction to the clinical sciences. From this, prospective medical physicists learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Graduates can seek employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer. Duties as a professional medical physicist include:

- applying electronics, ultrasonics, radiation and computers to clinical and environmental problems
- monitoring the environment to maintain acceptable standards in the workplace and the community
- applying fundamental physical research in development programs
- responsibility for calibration, care and maintenance of instruments and apparatus.

### Course structure - First Semester Entry - Full-time Course

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

#### Year 1, Semester 1 (February to June)

LSB142	Human Anatomy and Physiology
PCN113	Radiation Physics
PCN114	Microprocessors and Instrumentation
PCN211	Physics of Medical Imaging

#### Year 1, Semester 2 (July to October)

PCN112	Medical Imaging Science
PCN212	Radiotherapy
PCN214	Health and Occupational Physics
PCN218	Research Methodology and Professional Studies

### STAGE 2: Project over One Semester or Summer Program

PCN520	Project (Full-time)
--------	---------------------

### Course structure - First Semester Entry - Part-time Course

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

## Year 1, Semester 1 (February to June)

LSB142 Human Anatomy and Physiology  
PCN113 Radiation Physics

## Year 1, Semester 2 (July to October)

PCN112 Medical Imaging Science  
PCN212 Radiotherapy

## Year 2, Semester 1 (February to June)

PCN114 Microprocessors and Instrumentation  
PCN211 Physics of Medical Imaging

## Year 2, Semester 2 (July to October)

PCN214 Health and Occupational Physics  
PCN218 Research Methodology and Professional Studies

## STAGE 2: Project over Two Semesters:

PCN540-1 Project (Part-time)  
PCN540-2 Project (Part-time)

### Course structure - Mid-Year Entry - Full-time Course

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

## Year 1, Semester 2 (July to October)

LSB258 Principles of Human Physiology  
PCN112 Medical Imaging Science  
PCN212 Radiotherapy  
PCN214 Health and Occupational Physics

## Year 2, Semester 1 (February to June)

PCN113 Radiation Physics  
PCN114 Microprocessors and Instrumentation  
PCN211 Physics of Medical Imaging  
PCN218 Research Methodology and Professional Studies

## STAGE 2: Project over One Semester or Summer Program

PCN520 Project (Full-time)

### Course structure - Mid-Year Entry - Part-time Course

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

## Year 1, Semester 2 (July to October)

LSB258 Principles of Human Physiology  
PCN112 Medical Imaging Science

## Year 2, Semester 1 (February to June)

PCN113 Radiation Physics  
PCN114 Microprocessors and Instrumentation

## Year 2, Semester 2 (July to October)

PCN212 Radiotherapy  
PCN214 Health and Occupational Physics

## Year 3, Semester 1 (February to June)

PCN211 Physics of Medical Imaging  
PCN218 Research Methodology and Professional Studies

## STAGE 2: Project over Two Semesters:

PCN540-1 Project (Part-time)  
PCN540-2 Project (Part-time)

### Potential Careers:

Health Physicist, Medical Equipment Sales, Medical Physicist, Medical Scientist.

## Master of Applied Science (Medical Ultrasound) (PH80)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 6 semesters (3 years)

**Domestic fees (indicative):** 2009: CSP \$3,701 (indicative) per semester

**International Fees (per semester):** 2009: \$10,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February. Applications are to be made by 1 December in the preceding year.

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Andrew Fielding

**Discipline coordinator:** Peter Carlile

**Campus:** Gardens Point

### Other Majors

See also the separate entry for the following major in this course: Master of Applied Science (Medical Physics).

### Entry Requirements

Students will normally be qualified diagnostic radiographers or medical imaging technologists at degree or diploma level, or degree qualified nurses, and have at least two years of experience in a clinical practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive four to five week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

### Overview

The Master of Applied Science (PH80) course offers studies in medical ultrasound. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and nuclear medicine technologists who are interested in an in-depth study of this rapidly developing area.

### Course structure - First Semester Entry - Part-time Course

STAGE 1: Students must complete the units listed below, totalling 96 credit points:

#### Year 1, Semester 1

PCN159 Ultrasonic Examination 1

PCN162 Principles of Medical Ultrasound

PCN197-1 Clinical Attachment 1

#### Year 1, Semester 2

PCN197-2 Clinical Attachment 1

PCN356 Ultrasonic Examination 2

#### Year 2, Semester 1

PCN297-1 Clinical Attachment 2

PCN355 Vascular Ultrasound

PCN357 Advanced Ultrasound Topics

#### Year 2, Semester 2

PCN218 Research Methodology and Professional Studies

PCN297-2 Clinical Attachment 2

NOTES - The Clinical Ultrasound units PCN197 and PCN297 are 2 semester units.

- Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

STAGE 2: null

#### Project over One Semester or Summer Program:

PCN520 Project (Full-time)

#### Project over Two Semesters:

PCN540-1 Project (Part-time)

PCN540-2 Project (Part-time)

NOTE A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, shall be made in writing to the Academic Board. The Academic Board may grant the

extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

**Potential Careers:**

Sonographer.

## Master of Lighting (on-shore) (PH82)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 058287A

**Course duration (full-time):** 3 semesters (1.5 years) (Internal only)

**Course duration (part-time):** 6 semesters (3 years) (Internal and External)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750 (indicative) per semester

**International Fees (per semester):** 2009: \$10,500 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** July

**International Entry:** July

**Total credit points:** 144

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Ian Cowling

**Campus:** Gardens Point

### Overview

The Master of Lighting (PH82) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting. It provides the opportunity for graduates of the Graduate Certificate in Lighting (PH62) and the Graduate Diploma in Lighting (PH72) to undertake a Masters in the form of a project with some coursework.

### Entry Requirements

(a) Bachelor level degree in an appropriate field

### OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting, or PH72/PH73 Graduate Diploma in Lighting, or equivalent.

*Note:* Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

### Course Design

Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

### Contact Details

**NOTE:** PH83 will be offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. For the first three semesters the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. For the fourth and fifth semesters both units will commence together at the start of the semester.

Students in the Master of Lighting (PH83) wishing to exit with the Graduate Certificate in Lighting (PH63) or Graduate Diploma in Lighting (PH73) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

### Potential Careers:

Architect, Electrical Contractor, Electrical Engineer, Energy Consultant, Industrial Designer, Landscape Architect, Lighting Designer, Lighting Technician, Luminaire Designer, Physicist, Sales Person, Scientist, Theatre Lighting.

## Master of Cardiac Ultrasound (PH85)

**Year offered:** 2009

**Admissions:** Yes

**Course duration (part-time):** 6 semesters (3 years)  
(External only)

**Domestic fees (indicative):** 2009: Full fee tuition \$6,750  
(indicative) per semester

**Domestic Entry:** February: Early Closing Date - 1 December 2008. Early closing date for PH75 and PH85 Semester 1 2009 entry, pending quota being filled. Beyond this date, late applicants should contact the course coordinator for admission advice. Stage 1 of this course commences in February and July (students with advanced standing). Stage 2 commences in February and July.

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Bonita Anderson

**Campus:** Gardens Point

### Entry Requirements

To be eligible to enrol an applicant will normally have a degree or diploma level qualification in a relevant science or allied health field, and access to suitable clinical experience for the duration of the course.

Students who do not meet the normal entry requirements may be permitted to enrol subject to the approval of the Head of the School of Physical and Chemical Sciences. Applicants should submit as much detail as possible about previous studies and prior learning experiences that may be relevant. In some cases a bridging program may be required.

Second semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.
2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester\*.

\* Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

**Fees:** Please note that the Domestic Fees are based on full-time studies. This course is a part-time course. Please refer to **Indicative Domestic Fees** (<http://www.studentservices.qut.edu.au/costs/calculate/indicative.jsp>) for information.

### Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

### Course Design

This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students undertake this project externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

### Overview

The Master of Cardiac Ultrasound program offers studies for practicing Cardiac Sonographers. The course is conducted using a combination of block classes of approximately one week's duration in each semester, web-based modules and clinical practice modules.

### Course structure

**STAGE 1:** Students must complete the units listed below, totalling 96 credit points:

#### Year 1, Semester 1

PCN155	Cardiac Ultrasound 1
PCN162	Principles of Medical Ultrasound
PCN497-1	Clinical Attachment 4

#### Year 1, Semester 2

PCN259	Cardiac Ultrasound 2
PCN497-2	Clinical Attachment 4

#### Year 2, Semester 1

PCN218	Research Methodology and Professional Studies
PCN359	Cardiac Ultrasound 3
PCN597-1	Clinical Attachment 5

#### Semester 2, Semester 2

PCN459	Advanced Cardiac Ultrasound
PCN597-2	Clinical Attachment 5

**NOTE:** The PCN497 and PCN597 clinical attachment units are 2 semester units.

**STAGE 2:\*** Students must complete the units listed below, totalling 48 credit points:

null

**First Semester \*\* (Project Over Two Semesters)**

PCN640-1 Project

PCN640-2 Project

Notes: A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months should be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit.

A student who has received a 'Fail' result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

\* Masters project units are offered in both semesters.

\*\* Second Semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.

2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester.#

# Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

Students in the Master of Cardiac Ultrasound (PH85) wishing to exit with the Graduate Diploma in Cardiac Ultrasound (PH75) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

**Potential Careers:**

Sonographer.

**Bachelor of Applied Science (SC01)****Year offered:** 2009**Admissions:** Yes**CRICOS code:** 003502J**Course duration (full-time):** 3 Years**Course duration (part-time):** 6 Years**Domestic fees (indicative):** 2009: CSP \$3,694 (indicative) per semester**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)**Domestic Entry:** February and July**International Entry:** February and July\* (Conditions apply for July entry)**QTAC code:** 418011**Past rank cut-off:** 75**Past OP cut-off:** 13**OP Guarantee:** Yes**Assumed knowledge:** English (4, SA) and Maths B (4, SA)**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)**Total credit points:** 288**Standard credit points per full-time semester:** 48**Standard credit points per part-time semester:** 24**Course coordinator:** Dr Marion Bateson**Discipline coordinator:** Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)**Campus:** Gardens Point**Recommended Study**

At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

**Course Design**

The flexibility of QUT's Bachelor of Applied Science allows you to tailor the qualification to your needs and career aspirations. Can you see yourself as a forensic scientist, geologist, chemist, physicist, microbiologist or environmental scientist? Perhaps you would like to be at the forefront of the latest discoveries in genetic engineering, or improve the lives of others by researching new diagnostic techniques and treatments for diseases, or monitor a community's water supply ensuring it is safe to drink. You could even help save an endangered species, investigate renewable energy sources, advise world leaders on the causes and effects of global warming, or discover a new star in a far away galaxy.

You will graduate with specialised knowledge of cutting-edge technologies and extensive practical experience using the latest techniques. You choose your career direction and QUT's Bachelor of Applied Science will set you on the right path by ensuring you are employment-ready when you

graduate.

You have a broad range of options to choose from and the flexibility to create your own personal science degree program. If you are not sure of your career direction, don't worry because this decision can be delayed until after you have sampled a range of science disciplines during your first semester of study. QUT staff are available to advise on how best to structure your degree to suit your personal and career aspirations. When you have decided on a preferred career direction, you can be sure that you will graduate with the necessary specialist theoretical knowledge and well-developed practical skills. As QUT courses are designed in close consultation with industry you will receive the relevant professional accreditation when you graduate.

You will choose an area of specialisation (major) from the list below and this will form the basis for your qualification, for example Bachelor of Applied Science (Forensic Science). You will also choose a secondary specialisation (co-major) to complement your major studies. This secondary specialisation may be one of the other majors, a science co-major, or an area outside the science disciplines. Several elective units allow you to broaden your knowledge and skills.

**Science Majors, Science Co-majors and Non-Science Co-majors:***Science Majors:*

Biochemistry  
Biotechnology  
Chemistry  
Ecology  
Environmental Science  
Forensic Science\*  
Geoscience  
Microbiology  
Physics

\* The Forensic Science major must be taken as a double major with another science area eg Chemistry or Biotechnology.

*Science Co-majors:*

One of the majors listed above or:  
Applied Geology  
Astrophysics  
Biodiversity  
Chemistry for Industry  
Life Science Technologies  
Mathematics  
Or a non-science co-major

*Examples of Non-Science Co-majors:*

Aviation  
Corporate IT Systems  
Environmental Engineering Studies  
Ethics and Human Rights  
Foreign Languages  
Games Technology  
Geography  
Journalism

Management  
Marketing  
Music  
Psychology  
Spatial Science

### **Major Areas of Study**

#### **Biochemistry:**

Biochemistry is the study of the chemical processes that occur in living organisms including the chemical structure, function and properties and energy flows. Biochemistry is an essential and very successful area of study for many practitioners in the life sciences industry. Biochemistry students at QUT gain both the theoretical knowledge to understand biochemical problems and formulate solutions, and the practical skills to carry out the necessary laboratory investigations that test these solutions for real-world application. Students gain hands-on practical laboratory experience from their first year of study.

#### *Career Opportunities*

Strong employment opportunities exist around the world in both the private and government sectors of industry for biochemists. QUT graduates skilled in biochemistry can find career opportunities in research, diagnostic and analytical laboratories, universities, hospitals and health departments, pharmaceutical companies, primary and agricultural industries and departments, food industry laboratories, environmental agencies, veterinary pathology laboratories and in the area of marketing, sales, commercialisation and management of biological products and processes.

#### *Professional Recognition*

Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology, and possibly the Australasian Association of Clinical Biochemists.

#### **Biotechnology:**

Biotechnology is the application of molecular biology and biochemical principles to create a new generation of products and processes for the benefit of society. Biotechnology is one of the fastest growing areas of science and business in the world today. Modern biotechnology uses the techniques of genetic engineering to enable faster, cheaper and more reliable production of an ever-increasing range of engineered products. The integration of biotechnology research into QUT Biotechnology courses ensures that you will receive access to the latest information and hands-on laboratory experience in contemporary molecular technologies. All students receive hands-on practical laboratory experience from your first year of study in Queensland's newest biotechnology teaching laboratories.

#### *Career Opportunities*

Globally and locally the developing biotechnology industry demands highly skilled graduates. As a biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities include nanotechnology, proteomics, materials science,

molecular farming and bioinformatics; while existing career opportunities in hospitals and diagnostic laboratories continue to expand.

#### *Professional Recognition*

Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, and possibly the Australian Society for Medical Research, and the Australian Society for Microbiology.

#### **Chemistry:**

Chemistry is the study of the structure, properties, synthesis and reactions of materials. Chemistry is one of the central sciences since its results are used in almost all areas of science - including life sciences, the environment, geosciences, biology, and food science. The Chemistry major at QUT allows you to gain an appreciation of the fundamental discipline - covering physical, organic and inorganic chemistry - but with an additional focus on modern applications such as drug discovery, analytical and environmental chemistry, polymer science and surface science. All theory is complemented with a comprehensive laboratory program, particularly with hands-on experience with modern computer-based analytical instruments.

QUT is among the few universities in Australia with a first year subject (Experimental Chemistry) devoted entirely to experimental techniques. Where most universities offer only two units of chemistry in the first year, we offer three units. Students have a total of 10 laboratory sessions in this subject and are exposed to a wide variety of experimental techniques. Our training in analytical chemistry throughout the chemistry degree is nationally renowned.

All third year chemistry students will undertake a one semester research project under the guidance of experienced staff. Students will be trained in state-of-the-art techniques and will have the opportunity to pursue a field of interest to them.

#### *Career Opportunities*

Chemists are key professionals in industries that manufacture goods such as paints, paper, textiles, glass, plastics and rubber, metals and alloys, gases and fuels, foodstuffs and chemicals. Government agencies depend on chemists to develop and monitor standards for meat research, animal health pest control, preservation of timber, environmental chemistry, forensic analysis and coal chemistry. You can expect to find employment as an industrial chemist, material scientist, environmental chemist, quality control analyst, production supervisor, food chemist, organic chemist and inorganic chemist.

QUT graduates are sought after by police and other forensics labs because of their extensive practical training using modern analytical instrumentation.

#### *Professional Recognition*

Students completing the Chemistry major with the Industrial Chemistry or Forensic Science co-major are eligible for membership of the Royal Australian Chemical Institute.

**Ecology**

Ecology is the study of relationships between organisms and their environment. Ecology helps us to understand the distribution and abundance of organisms. As an applied science it is used to design strategies for the management of populations of organisms (both natural and commercial). The Ecology major at QUT will allow you to gain a broad range of scientific skills including the specialist techniques required for conserving and managing endangered animals, controlling pests, managing exploited populations and evaluating issues associated with the management of our natural resources.

*Career Opportunities*

Ecologists find rewarding careers in research science for government departments responsible for pest management, national park and wildlife, primary industries, fisheries, forestry and museums. They also find work in private firms engaged in research and consultancy work. Positions include fisheries biologist, wildlife manager, scientific or technical officer, teacher or lecturer and research scientist. Employment in more specialised areas is available, usually requiring study beyond the first degree.

*Professional Recognition*

Professional recognition is achieved through a scientific society (ie Ecological Society of Australia) and participation in its meetings.

**Environmental Science:**

Environmental Science at QUT is the application of fundamental, core science disciplines to problems encountered in the management and understanding of our environment. Studies will allow you to gain both the strong scientific base and the generic skills to apply your scientific knowledge to a wide range of environmental problems. Rather than learning simply to describe the different environmental systems, you will gain an understanding of the mechanisms that control these systems, and the interaction between the various components. All environmental science units include laboratory and fieldwork with an emphasis on problem-solving through project work. You will be introduced to standardised methods and principles for environmental modelling and monitoring that can be applied across all disciplines.

*Career Opportunities*

Environmental scientists are needed in a wide variety of government departments and agencies, in consultancy and in manufacturing and mining companies. Graduates are equipped to assess resources, design and implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas including strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and development, rehabilitation and reforestation of contaminated land sites, groundwater assessment and modelling, waterway and floodplain drainage planning, erosion control in waterways, and marine science.

*Professional Recognition*

Graduates are eligible for membership of the Environment Institute of Australia and New Zealand.

**Forensic Science**

Forensic Science involves the application of chemical and biological principles and laboratory processes to identify and quantify matter within a legal context. Areas that are relevant to forensic science are wide ranging, and include: the detection and identification of illicit drugs, explosive and gunshot residues, accelerants used in arson cases, and trace evidence (eg paint, glass, fibres, soil); DNA profiling, where it is possible to distinguish between individuals on the basis of samples involving blood, saliva, hair or semen; toxicology studies to identify illicit and pharmaceutical drugs and poisons and interpret toxicity levels and their effect on the human body; and fingerprinting.

*Career Opportunities*

Employment opportunities exist for trained forensic scientists who work in laboratories handling criminal casework in areas including forensic biology, forensic chemistry, and forensic toxicology. QUT graduates in Forensic Science not only receive a strong grounding in core areas of both forensic biology and forensic chemistry but complement their major in Forensic Science with a full major in Biotechnology or Chemistry. This course structure gives QUT Forensic Science graduates an enhanced qualification for careers in either Forensic Biology or Forensic Chemistry. In addition, the second major adds flexibility to future career paths by enabling Forensic Science graduates to gain employment either as a chemist or a biotechnologist if they prefer.

*Professional Recognition*

Graduates who complete the Forensic Science major in conjunction with the Biotechnology major are eligible for membership of the Australian and New Zealand Forensic Science Society, AusBiotech Ltd, and the Australian Society for Biochemistry and Molecular Biology.

Graduates who complete the Forensic Science major in conjunction with the Chemistry major are eligible for membership of the Australian and New Zealand Forensic Science Society and the Royal Australian Chemical Institute.

**Geoscience:**

Geoscience is the systematic study of the earth and the dynamic interactions of its systems. Geoscience incorporates a study of the materials of the earth, the natural processes acting in and upon the earth, and its history. The Geoscience major at QUT allows you to gain the skills needed to become a professional geologist and emphasises hands-on experience through laboratory work and field studies. It provides a broad range of geological skills as well as training in the specialist techniques required for field mapping and geological interpretation.

*Career Opportunities*

Geoscientists work in a range of areas including environmental geology, hydrogeology, hazard and pollution

control, and coastal zone management. Employment opportunities exist within mining and exploration companies which may involve underground geological mapping, evaluation of ore reserves, production control, or exploration for new mineral deposits; petroleum companies working on offshore drilling rigs; and a variety of government organisations working as field geologists or research scientists. Other graduates work in computing, data modelling, and remote sensing. An honours degree is required by many employers, including the larger mining and exploration companies.

### *Professional Recognition*

Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, and the Geological Society of Australia.

### **Microbiology:**

Microbiology is the study of living organisms of microscopic size. The principal components are bacteriology, virology and mycology, and areas of fundamental importance in the applied sciences of pathology and immunology. You will develop skills and knowledge in the handling and study of micro-organisms and investigation of their properties. Advanced studies allow you to expand your knowledge and expertise in your specialised area such as human pathology, animal and plant diseases, food technologies, environmental testing (soil, air and water) and bioremediation, and molecular applications of microbiological principles.

### *Career Opportunities*

Microbiologists are employed in a variety of careers including human pathology testing in bacteriology, immunology, mycology, parasitology and virology, animal and plant disease, treatment of inorganic waste, food fermentations and microbiological testing of goods for pathogens or spoilage organisms, water and soil microbiology and research. Employment opportunities exist in private and government research and analytical laboratories, such as the CSIRO, universities, hospitals, health departments, primary industry departments, food industry laboratories, environmental agencies, and in the marketing of biological products.

### *Professional Recognition*

Graduates are eligible for membership of the Australian Society for Microbiology.

### **Physics:**

Physics is the science discipline dealing with the natural laws and processes, with the states and properties of matter and energy. Physics also underlies many of the recent advances in information technology, medicine and biotechnology. Areas of specialisation include mechanics, electromagnetism, lasers and modern optics, computational physics, nuclear and radiation physics, quantum mechanics and relativity.

### *Career Opportunities*

Physicists are an asset to almost every industry. They are

broadly-educated professionals who are trained in applied and experimental physics, instrumentation and a range of other specific methods required for traditional and newly-developed avenues of scientific employment. QUT Physics graduates work in large manufacturing companies, often as members of research and development teams, supervising the testing and production of raw materials and finished articles. Increasing opportunities for graduates with appropriate studies exist in noise measurement and control, environmental monitoring, meteorology, lasers, computing, technical equipment sales, teaching and research. Graduates work in large hospitals and medical institutions such as the Queensland Radium Institute. Broad training in data analysis and problem-solving skills also makes physicists well suited to management roles in a range of technology-based industries.

### *Professional Recognition*

Graduates are eligible for membership of the Australian Institute of Physics.

### **Science Co-Major Areas of Study**

#### **Applied Geology:**

The Applied Geology co-major is designed to complement the Geoscience major. The skills learned through core units in the major are applied to activities related to the petroleum, mineral, hydrogeological and environmental professions. You will learn the specialist techniques required to understand the genesis of ore deposits, set up mineral exploration programs, produce groundwater models, understand the fluid flow in petroleum reservoirs or manage the effects of human activity on the environment.

#### **Astrophysics:**

The Astrophysics co-major is an exciting blend of astrophysics, geophysics, cosmology, digital image processing and remote sensing units, designed to be taken with a major in Physics, Mathematics or Geoscience. The co-major is relevant to many real-world problems, for example, satellite technology, telecommunications, minerals exploration and global warming. By taking this co-major you will develop interdisciplinary skills in computing, instrumentation, image processing, geodesy and materials science that will be useful for a wide variety of careers in industry and the public sector.

#### **Biodiversity:**

Biodiversity has evolved over the last few years as a discipline concerned with the conservation and sustainable use of the earth's biological diversity. It deals with the components of biological diversity, genes to biomes, and seeks to describe and quantify this diversity, and determine how it is produced and maintained. The Biodiversity co-major is designed to complement both the Ecology and Environmental Science majors. The theme of the co-major is Australian biodiversity. Common threads are the basic biology of the species in Australian ecosystems, the systems they are a part of, and the evolution of these species and ecosystems.

#### **Chemistry for Industry:**

The Industrial Chemistry co-major is designed to partner the Chemistry major. The emphasis is on analytical chemistry

and chemical technology. It aims to familiarise students with state-of-the-art equipment and modern laboratory information systems as well as online monitoring and control of industrial processes. The co-major is well recognised by employers in industrial, hospital and sports laboratories, by food and pharmaceutical producers and by instrument manufacturers as well as research organisations. Graduates from this program can look forward to a rewarding career commencing employment as a chemist and then moving through an organisation in supervisory and managerial capacities. A number of industry-sponsored bursaries are available each year for students enrolled in the Chemistry major/Chemistry for Industry co-major.

**Life Science Technologies:**

The many and varied disciplines which are characteristic of research and development activities in the life sciences are reflected in employer demand for a broad range of graduates with different specialisations. To accommodate this demand a Biomolecular Sciences co-major is available in the Bachelor of Applied Science. In this co-major, students may compose a combination of six approved units from the Biotechnology, Biochemistry and Microbiology majors. You will benefit from a broad range of biomolecular theory and skills, closely aligned to personal interests, for application in an ever-increasing variety of niche employment opportunities.

**Mathematics:**

The Mathematics co-major concentrates on applied mathematics or financial mathematics and operations research or on statistics. Mathematicians enjoy a wide range of career options, working for major corporations including banks and insurance companies, industry, information technology companies, consultancy groups, research organisations, universities, schools and various government departments. Students who wish to cover a range of areas of mathematics should consider enrolling in MA54 Bachelor of Mathematics. This course focuses on applications and includes an emphasis on developing communication skills.

Or a non-science co-major: Aviation, Corporate IT Systems, Environmental Engineering Studies, Ethics and Human Rights, Foreign Languages, Games Technology, Geography, Journalism, Management, Marketing, Music, Psychology, Spatial Science.

**Professional Recognition**

For graduates with approved study: AusBiotech Ltd, Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Geological Society of Australia, Royal Australian Chemical Institute, Statistical Society of Australia.

**Course Rules**

1. To fulfil the requirements for the award of the Bachelor of Applied Science degree, a student must complete a total of at least 288 credit points, comprising at least 192 credit points in units offered by the Faculty of Science. The units completed for the award of the degree must include:

- (a) the first year program as outlined in the course summary sheet.
- (b) a major study
- (c) a co-major study.

Major and co-major studies are defined in terms of the discipline area and the academic level at which the units are offered.

A *major* must be completed in one of the following discipline areas: biochemistry; biotechnology; chemistry; ecology; environmental science; forensic science; geoscience; microbiology; physics. A major comprises 96 credit points of units at advanced level, including at least 48 credit points at the third level.

A *co-major* may be completed by selecting appropriate units from another major, or from the following discipline areas:

*Science* applied geology, astrophysics, biodiversity, chemistry for industry, environmental science, life science technologies, mathematics.

*Non-Science*: aviation, corporate IT systems, digital media, environmental engineering studies, ethics and human rights, foreign languages, games technology, geography, human movement studies, journalism, management, marketing, music, psychology, spatial science.

A co-major comprises 72 credit points with at least 60 credit points at advanced level for the Science co-majors and at least 48 credit points for the non-Science co-majors. Major and co-major studies may be taken in closely related discipline areas.

2. Elective units may be chosen from (a) SCO1 majors/co-majors other than those undertaken by a student, (b) other appropriate units offered by the Faculty of Science, and (c) units offered by other faculties.

3. Students are normally expected to complete the course in minimum time. A full-time student normally enrolls in an average of 48 credit points per semester for six semesters and a part-time student normally enrolls in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)

**Notes on the Rules**

1. For offerings in the Faculty of Science, the term advanced level refers to units in Schedules 2 and 3. For units offered outside the Faculty of Science, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or co-major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/co-major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BAppSc and will appear in the award title in parentheses. The general form of the award will therefore be: BAppSc(Major).

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course structure - Major in Biochemistry**

**Year 1, Semester 1**

- SCB110 Science Concepts and Global Systems
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life

Plus ONE of:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB105 Preparatory Mathematics
- MAB111 Mathematical Sciences 1B

NOTE: 1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB105.

2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101

3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.

4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

**Year 1, Semester 2**

- SCB120 Plant and Animal Physiology
- SCB121 Chemistry 2
- SCB122 Cell and Molecular Biology
- SCB123 Physical Science Applications

**Year 2, Semester 1**

- LQB381 Biochemistry: Structure and Function
  - LQB383 Molecular and Cellular Regulation
- Plus TWO other units selected according to the co-major requirements

**Year 2 Semester 2 \***

- LQB481 Biochemical Pathways and Metabolism
  - LQB483 Molecular Biology Techniques
- Plus TWO other units selected according to the co-major requirements

## SCIENCE AND TECHNOLOGY

### Year 3, Semester 1 \*

LQB581	Functional Biochemistry
LQB582	Biomedical Research Technologies
	Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 2 \*

LQB681	Biochemical Research Skills
LQB682	Protein Biochemistry and Bioengineering
	Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Biotechnology, Chemistry, Forensic Science, Life Science Technologies, Microbiology

### \* Elective Unit for all Majors:

SCB500	Industry Project
--------	------------------

**NOTE:** SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Biotechnology

#### Year 1, Semester 1

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Plus ONE of:
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB111	Mathematical Sciences 1B

**NOTE:**

1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB105
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.
3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

#### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2
SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications

#### Year 2, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
	Plus TWO other units selected according to the co-major requirements

### Year 2, Semester 2 \*

LQB483	Molecular Biology Techniques
LQB484	Introduction to Genomics and Bioinformatics
	Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 1 \*

Select TWO units from:

LQB583	Genetic Research Technology
LQB584	Medical Cell Biology
LQB585	Plant Genetic Manipulation

Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 2 \*

Select TWO units from:

LQB682	Protein Biochemistry and Bioengineering
LQB684	Medical Biotechnology
LQB685	Plant Microbe Interactions

Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Biochemistry, Forensic Science, Life Science Technologies, Microbiology

### \* Elective Unit for all Majors:

SCB500	Industry Project
--------	------------------

**NOTE:** SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

MAB100	Mathematical Sciences 1A
	Or
SCB122	Cell and Molecular Biology

### Year 2, Semester 1

PQB312	Analytical Chemistry For Scientists and Technologists
PQB331	Structure and Bonding
	Plus TWO other units selected according to the co-major requirements

### Year 2, Semester 2 \*

PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy
	Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 1 \*

PQB502	Materials Chemistry and Characterisation
PQB531	Organic Mechanisms and Synthesis
	Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 2 \*

PQB631	Advanced Inorganic Chemistry
PQB642	Chemical Research
	Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Biochemistry, Biotechnology, Chemistry for Industry, Forensic Science

### \* Elective Unit in all Majors:

SCB500	Industry Project
--------	------------------

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Ecology

### Year 1, Semester 1

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Plus ONE of:
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB111	Mathematical Sciences 1B
NOTE:	1. Students with a Sound Achievement (4 semesters) in Maths A should enrol in MAB105.
	2. Students with a Sound Achievement in Maths B and NOT wishing to major in Physics should enrol in MAB101.
	3. Students with a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB111.
	4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB100.
	5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.

### Year 1, Semester 2

NQB202	History of Life on Earth
SCB120	Plant and Animal Physiology
NQB201	Planet Earth
	Plus either
SCB121	Chemistry 2
	Or
SCB123	Physical Science Applications
	Or
SCB122	Cell and Molecular Biology

### Year 2, Semester 1

NQB321	Ecology
	Plus ONE of:
NQB302	Earth Surface Systems
NQB322	Invertebrate Biology
NQB323	Plant Biology
	Plus TWO other units selected according to the co-major requirements

### Year 2, Semester 2 \*

NQB421	Experimental Design
NQB422	Genetics and Evolution
	Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 1 \*

NQB521	Population Genetics and Molecular Ecology
--------	---

## SCIENCE AND TECHNOLOGY

NQB523 Population Management  
Plus TWO other units selected according to the co-major requirements

Or

SCB122 Cell and Molecular Biology

### Year 3, Semester 2 \*

NQB622 Population Genetics  
NQB623 Ecological Systems  
Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Biodiversity, Environmental Science

### \* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Environmental Science

#### Year 1, Semester 1

SCB110 Science Concepts and Global Systems

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

Plus ONE of:

MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

MAB105 Preparatory Mathematics

MAB111 Mathematical Sciences 1B

NOTE:

1. Students with a Sound Achievement (4 semesters) in Maths A should enrol in MAB105.
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Physics should enrol in MAB101.
3. Students with a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB111.
4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB100.
5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.

#### Year 1, Semester 2

NQB202 History of Life on Earth

SCB120 Plant and Animal Physiology

NQB201 Planet Earth

Plus either

SCB121 Chemistry 2

Or

SCB123 Physical Science Applications

### Year 2, Semester 1

NQB302 Earth Surface Systems

NQB321 Ecology

Plus TWO other units selected according to the co-major requirements

### Year 2, Semester 2 \*

NQB403 Soils and the Environment

NQB421 Experimental Design

Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 1 \*

NQB501 Environmental Modelling

Plus either

NQB502 Field Mapping and Monitoring of Natural Resources

Or

NQB503 Spatial Analysis of Environmental Systems

Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 2 \*

NQB601 Sustainable Environmental Management

Plus ONE of

NQB602 Environmental Chemistry

NQB614 Groundwater Systems

NQB623 Ecological Systems

Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Biodiversity, Ecology, Geoscience

### \* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Forensic Science

Note: Must be taken as a double major with Biochemistry, Biotechnology, Chemistry or Microbiology

#### Year 1, Semester 1

SCB110 Science Concepts and Global Systems

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

Plus ONE of:

## SCIENCE AND TECHNOLOGY

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB111	Mathematical Sciences 1B
NOTE:	<p>1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB105.</p> <p>2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.</p> <p>3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.</p> <p>4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.</p>

### Year 1, Semester 2

SCB121	Chemistry 2
SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications
SCB131	Experimental Chemistry

### Year 2, Semester 1

LQB383	Molecular and Cellular Regulation
SCB384	Forensic Sciences - From Crime Scene to Court
	Plus TWO other units selected according to the second-major requirements

### Year 2, Semester 2 \*

JSB979	Forensic Scientific Evidence
PQB312	Analytical Chemistry For Scientists and Technologists
	Plus TWO other units selected according to the second-major requirements

### Year 3, Semester 1 \*

PQB513	Instrumental Analysis
PQB584	Forensic Physical Evidence
	Plus TWO other units selected according to the second-major requirements

### Year 3, Semester 2 \*

LQB680	Forensic DNA Profiling
PQB684	Forensic Analysis
	Plus TWO other units selected according to the second-major requirements

### \* Elective Unit for all Majors:

SCB500	Industry Project
NOTE:	SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Geoscience

#### Year 1, Semester 1

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	Plus ONE of:
MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB111	Mathematical Sciences 1B
NOTE:	<p>1. Students with a Sound Achievement (4 semesters) in Maths A should enrol in MAB105</p> <p>2. Students with a Sound Achievement in Maths B and NOT wishing to major in Physics should enrol in MAB101.</p> <p>3. Students with a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB111.</p> <p>4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB100.</p> <p>5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.</p>

#### Year 1, Semester 2

NQB201	Planet Earth
NQB202	History of Life on Earth
SCB123	Physical Science Applications
SCB222	Exploration of the Universe

#### Year 2, Semester 1

NQB311	Mineralogy
NQB314	Sedimentary Geology
	Plus TWO other units selected according to the co-major requirements

#### Year 2, Semester 2 \*

NQB411	Petrology of Igneous and Metamorphic Rocks
NQB412	Structural Geology and Field Methods
	Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 1 \*

NQB502	Field Mapping and Monitoring of Natural Resources
NQB513	Geophysics
	Plus TWO other unit selected according to the co-major requirements

#### Year 3, Semester 2 \*

NQB615	Geochemistry
	Plus ONE of
NQB612	Basin Analysis and Petroleum Geology

## SCIENCE AND TECHNOLOGY

NQB613	Plate Tectonics
NQB614	Groundwater Systems
	Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Applied Geology, Environmental Science, Physics

### \* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Microbiology

#### Year 1, Semester 1

SCB110 Science Concepts and Global Systems

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

Plus ONE of:

MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

MAB105 Preparatory Mathematics

MAB111 Mathematical Sciences 1B

NOTE: 1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB105.

2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.

3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.

4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

#### Year 1, Semester 2

SCB120 Plant and Animal Physiology

SCB121 Chemistry 2

SCB122 Cell and Molecular Biology

SCB123 Physical Science Applications

#### Year 2, Semester 1

LQB381 Biochemistry: Structure and Function

LQB386 Microbial Structure and Function

Plus TWO other units selected according to the co-major requirements

#### Year 2, Semester 2 \*

LQB483 Molecular Biology Techniques

LQB486 Clinical Microbiology 1

Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 1 \*

LQB586 Clinical Microbiology 2

LQB587 Applied Microbiology 1: Water, Air and Soil

Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 2 \*

LQB686 Microbial Technology and Immunology

LQB687 Applied Microbiology 2: Food and Quality Assurance

Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Biochemistry, Biotechnology, Forensic Science, Life Science Technologies

### \* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Physics

#### Year 1, Semester 1

SCB110 Science Concepts and Global Systems

SCB111 Chemistry 1

SCB112 Cellular Basis of Life

Plus ONE of:

MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

MAB105 Preparatory Mathematics

MAB111 Mathematical Sciences 1B

NOTE: 1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB105.

2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.

3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.

4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

#### Year 1, Semester 2

MAB112 Mathematical Sciences 1C

PQB250 Mechanics and Electromagnetism

## SCIENCE AND TECHNOLOGY

PQB251 Waves and Optics

Plus either:

MAB111 Mathematical Sciences 1B

Or

MAB220 Computational Mathematics 1

### Year 2, Semester 1

MAB311 Advanced Calculus

PQB350 Thermodynamics of Solids and Gases

Plus TWO other unit selected according to the co-major requirements

### Year 2, Semester 2 \*

PQB450 Energy, Fields and Radiation

PQB451 Electronics and Instrumentation

Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 1 \*

PQB550 Quantum and Condensed Matter Physics

PQB551 Physical Analytical Techniques

Plus TWO other units selected according to the co-major requirements

### Year 3, Semester 2 \*

PQB650 Advanced Theoretical Physics

PQB651 Experimental Physics

Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:

Astrophysics, Mathematics

### \* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Co-major in Applied Geology (Compatible with Geoscience Major only)

NOTES: - In the full-time course structure each of the two electives available in the course need to be selected in the relevant semesters to total 4 units per semester.

- Select SIX appropriate units from the following program:

### Year 2, Semester 1

NQB302 Earth Surface Systems

UDB281 Geographic Information Systems

### Year 2, Semester 2

NQB403 Soils and the Environment

NQB413 Stratigraphy

### Year 3, Semester 1

NQB503 Spatial Analysis of Environmental Systems

NQB611 Economic Geology

### Year 3, Semester 2

Choose one from:

NQB612 Basin Analysis and Petroleum Geology

NQB613 Plate Tectonics and Advanced Structural Geology

NQB614 Groundwater Systems

### Recommended Majors:

This co-major is compatible with Geoscience Major only

### Course structure - Co-major in Astrophysics (Compatible with Physics major only)

### Year 1, Semester 1

Units as per Physics major

### Year 1, Semester 2

Units as per Physics major

### Year 2, Semester 1

PCB593 Digital Image Processing

PQB360 Global Energy Balance and Climate Change

### Year 2, Semester 2

PQB460 Astrophysics 1

Plus Elective

### Year 3, Semester 1

MAB312 Linear Algebra

Plus Elective

### Year 3, Semester 2

PQB661 Lasers and Photonics

Plus either:

MMB451 Energy Management

Or

PQB660 Astrophysics 2

### Recommended Majors:

This co-major is compatible with Physics major only

### Course structure - Co-major in Biodiversity (compatible with any Science major)

NOTES: - In the full-time course structure each of the two electives available in the course need to be selected in the relevant semesters to total 4

units per semester.

- Select SIX appropriate units from the following program:

**Year 2, Semester 1**

- LQB386 Microbial Structure and Function
- NQB322 Invertebrate Biology
- NQB323 Plant Biology

**Year 2, Semester 2**

- LQB489 Plant Physiology and Cell Biology
- NQB403 Soils and the Environment
- NQB423 Vertebrate Biology

**Year 3, Semester 1**

- NQB502 Field Mapping and Monitoring of Natural Resources
- NQB503 Spatial Analysis of Environmental Systems

**Year 3, Semester 2**

- NQB601 Sustainable Environmental Management

**Recommended Majors:**

This co-major is compatible with any Science major

**Course structure - Co-major in Chemistry for Industry (compatible with Chemistry major only)**

**Year 1, Semester 1**

Units as per Chemistry major

**Year 1, Semester 2**

Units as per Chemistry major

**Year 2, Semester 1**

- PQB313 Analytical Chemistry For Industry
- Plus Elective

**Year 2, Semester 2**

- PQB404 Nanotechnology and Nanoscience
- PQB423 Process Principles

**Year 3, Semester 1**

- PQB513 Instrumental Analysis
- PQB525 Unit Operations

**Year 3, Semester 2**

- PQB623 Chemistry in Industry and Technology
- Plus Elective

**Recommended Majors:**

This co-major is compatible with Chemistry major only

**Course structure - Co-major in Life Science Technologies (compatible with any Life Science major)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Year 2, Semester 1**

- LQB388 Medical Physiology 1
- Plus either:
- LQB383 Molecular and Cellular Regulation
- Or
- LQB386 Microbial Structure and Function

**Year 2, Semester 2**

- LQB488 Medical Physiology 2
- Or
- LQB489 Plant Physiology and Cell Biology

**Year 3, Semesters 1 and 2**

Select THREE units only from:

- LQB582 Biomedical Research Technologies
- LQB584 Medical Cell Biology
- LQB585 Plant Genetic Manipulation
- LQB588 Applied Physiology
- LQB681 Biochemical Research Skills
- LQB684 Medical Biotechnology
- LQB685 Plant Microbe Interactions
- LQB686 Microbial Technology and Immunology

**Recommended Majors:**

This co-major is compatible with any Life Science major (ie Biochemistry, Biotechnology, Microbiology)

**Course structure - Co-major in Mathematics (compatible with any Science major)**

Please consult the Mathematics coordinator, Dr Scott McCue (Email: [scott.mccue@qut.edu.au](mailto:scott.mccue@qut.edu.au)) and the MA54 Bachelor of Mathematics course structure

**Course structure - Co-major in Aviation (Subject to Timetable availability)**

Suitable aviation studies (an approved Associate Diploma in aviation or equivalent) can be accepted as a co-major within the Bachelor of Applied Science course SC01. A total of 96 credit points can be credited for the aviation studies; this is based on 72 credit points for the co-major plus an additional 24 credit points generally required to underpin a co-major.

In the BAppSc with aviation, students can either (a) study for the BAppSc degree and the

aviation Associate Diploma concurrently, or (b) obtain credit for the SC01 course for an approved Associate Diploma in aviation that had been completed prior to gaining entry to the SC01 course.

(a) Students who wish to study for the BAppSc and the aviation Associate Diploma concurrently are required to apply to an accredited flying school or TAFE college for entry to the Associate Diploma. The aviation studies are undertaken at the same time as the SC01 course. This joint program generally requires at least four years.

(b) Students who have already completed an approved Associate Diploma prior to admission to the SC01 course will be granted 96 credit points towards the BAppSc degree.

**Course structure - Co-major in Corporate IT Systems (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- INB120 Corporate Systems
- INB220 Business Analysis

**Years 2 and 3, Semester 2**

- INB103 Industry Insights
- INB123 Project Management Practice
- INB330 Information Management

**Recommended Majors:**

This co-major is compatible with any Science major

**Course structure - Co-major in Environmental Engineering Studies (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- ENB380 Environmental Law and Assessment
- UDB266 Planning Processes and Consultations

**Years 2 and 3, Semester 2**

- BEB200 Introducing Sustainability
- ENB274 Design of Environmentally Sustainable Systems
- ENB383 Environmental Resource Management
- UDB164 Population and Urban Studies

**Recommended Majors:**

This co-major is compatible with any Science major

**Course structure - Co-major in Ethics and Human Rights (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- HHB114 Introduction To Human Rights And Ethics plus 2 units in consultation with the Course Coordinator

**Years 2 and 3, Semester 2**

- HHB266 Ethical Decision Making
- HHB269 Ethics, Technology And The Environment
- HHB271 Ethical Theory

**Recommended Major:**

This co-major is compatible with any Science major

**Course structure - Co-major in Foreign Languages (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1 and 2**

SIX units in French, German, Indonesian or Japanese (with at least 4 units at advanced level). Note: these units may be undertaken at UQ or Griffith Uni

**Recommended Majors:**

This co-major is compatible with any Science major

**Course structure - Co-major in Games Technology (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

Select a total of 6 units from Years 2 and 3, Semesters 1 and 2:

**Years 2 and 3, Semester 1**

## SCIENCE AND TECHNOLOGY

INB270	Programming
INB304	Special Topic 3
INB370	Software Development
INB371	Data Structures and Algorithms
INB382	Real Time Rendering Techniques

### Years 2 and 3, Semester 2

INB270	Programming
INB304	Special Topic 3
INB381	Modelling and Animation Techniques
MAB281	Mathematics for Computer Graphics

### Recommended Majors:

This co-major is compatible with any Mathematics or Physics major

### Course structure - Co-major in Geography (Subject to Timetable availability)

#### Year 1, Semester 1

Units as per selected major

#### Year 1, Semester 2

Units as per selected major

#### Years 2 and 3, Semester 1

HHB127	Environment And Society
HHB232	Survey Methods
HHB250	Australian Geographical Studies

#### Years 2 and 3, Semester 2

HHB228	Environmental Hazards
HHB251	Australian Resource Management
HHB269	Ethics, Technology And The Environment

### Recommended Majors:

This co-major is compatible with any Natural Resource Science major

### Course structure - Co-major in Journalism (Subject to Timetable availability)

#### Year 1, Semester 1

Units as per selected major

#### Year 1, Semester 2

Units as per selected major

#### Years 2 and 3, Semester 1

KJB101	Digital Journalism
KJB120	Newsriting
KJB239	Journalism Ethics and Issues

#### Years 2 and 3, Semester 2

KFB205	Fashion and Style Journalism
--------	------------------------------

KJB224	Feature Writing
KJB280	International Journalism

### Recommended Majors:

This co-major is compatible with any Science major

### Course structure - Co-major in Management (Subject to Timetable availability)

#### Year 1, Semester 1

Units as per selected major

#### Year 1, Semester 2

Units as per selected major

#### Years 2 and 3, Semesters 1 and 2

SIX units from:

BSB115	Management
MGB200	Leading Organisations
MGB210	Managing Operations
MGB223	Entrepreneurship and Innovation
MGB309	Strategic Management
	Plus either:
MGB310	Sustainability in A Changing Environment
	or
MGB225	Intercultural Communication and Negotiation Skills

### Recommended Majors:

This co-major is compatible with any Science major

### Course structure - Co-major in Marketing (Subject to Timetable availability)

#### Year 1, Semester 1

Units as per selected major

#### Year 1, Semester 2

Units as per selected major

#### Years 2 and 3, Semesters 1 and 2

AMB200	Consumer Behaviour
AMB201	Marketing and Audience Research
AMB240	Marketing Planning and Management
AMB202	Integrated Marketing Communication
AMB335	E-marketing Strategies
AMB336	International Marketing
AMB340	Services Marketing
BSB126	Marketing

### Recommended Majors:

This co-major is compatible with any Science major

**Course structure - Co-major Music (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- KMB003 Sex Drugs Rock 'n' roll
- KMB004 World Music
- KMB105 Music and Sound Technology

**Years 2 and 3, Semester 2**

- KMB106 Music and Sound for Multimedia
- KMB107 Sound, Image, Text
- KMB108 Sound Recording and Acoustics

**Recommended Majors:**

This co-major is compatible with any Science major

**Course structure - Co-major in Nutrition (compatible with any Life Science major)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- LQB388 Medical Physiology 1
- PUB405 Nutrition Science
- PUB474 Food Science

**Years 2 and 3, Semester 2**

- LQB481 Biochemical Pathways and Metabolism
- LQB488 Medical Physiology 2
- PUB201 Food and Nutrition

**Recommended Majors:**

This co-major is compatible with Life Science majors

**Course structure - Co-major in Psychology (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- PYB101 Introduction to Psychology 1A
- PYB205 Social Psychology
- PYB304 Physiological Psychology

**Years 2 and 3, Semester 2**

- PYB007 Interpersonal Processes and Skills
- PYB203 Developmental Psychology
- PYB204 Perception and Cognition

**Recommended Majors:**

This co-major is compatible with any Science major

**Course structure - Co-major in Spatial Science (Subject to Timetable availability)**

**Year 1, Semester 1**

Units as per selected major

**Year 1, Semester 2**

Units as per selected major

**Years 2 and 3, Semester 1**

- UDB181 Geospatial Positioning and GPS
- UDB281 Geographic Information Systems
- UDB381 Geospatial Mapping
- UDB387 Spatial and Land Information Management

**Years 2 and 3, Semester 2**

- UDB182 Surveying
- UDB282 Remote Sensing

**Recommended Majors:**

This co-major is compatible with any Science majors

**Course structure - Additional Co-majors - you may choose your co-major from one of the Majors**

**Biochemistry**

SIX of the units in the Biochemistry major

**Biotechnology**

SIX of the units in the Biotechnology major

**Chemistry**

SIX of the units in the Chemistry major

**Ecology**

SIX of the units in the Ecology major

**Environmental Science**

SIX of the units in the Environmental Science major

**Forensic Science**

SIX of the units in the Forensic Science major

### Geoscience

SIX of the units in the Geoscience major

### Mathematics

SIX of the units in the Mathematics majors

### Microbiology

SIX of the units in the Microbiology major

### Physics

SIX of the units in the Physics major

#### **Potential Careers:**

Actuary, Air Traffic Controller, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Exploration Geologist, Forensic Biologist, Forensic Chemist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Mine Geologist, Molecular Biologist, Natural Resource Scientist, Pharmaceutical Research Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Research and Development Chemist, Statistician, Virologist.

## Bachelor of Applied Science & Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program (SC01 + SC60)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 003502J/009041G

**Course duration (full-time):** 3 Years (plus initial summer term)

**Domestic fees (indicative):** 2009: CSP \$3,694 (indicative) per semester

**Domestic Entry:** February: Fixed Closing Date- 28 November 2008.

**International Entry:** February: Fixed Closing Date- 28 November 2008. This course is only available to international students completing Year 12 in Australia.

**QTAC code:** 418042

**Past rank cut-off:** 99 plus successful interview. Please refer to Additional Entry Requirements.

**Past OP cut-off:** 1 plus successful interview. Please refer to Additional Entry Requirements.

**Assumed knowledge:** English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)

**Total credit points:** 384 [BAppSc 288 cp and BAppSc(Hons) 96 cp]

**Course coordinator:** Dr Dann Mallet

**Discipline coordinator:** Associate Professor John Aaskov (Life Sciences); Dr Dann Mallet (Mathematics); Associate Professor David Gust (Natural Resource Sciences); Dr John McMurtrie (Physical and Chemical Sciences - Chemistry); Dr Dmitri Gramotnev (Physical and Chemical Sciences - Physics)

**Campus:** Gardens Point

### null

The Dean's Scholars Accelerated Honours Program is an accelerated program designed specifically for outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia. It also offers an accelerated pathway that enables students to complete both the Bachelor of Applied Science and the Bachelor of Applied Science (Honours) courses in just three years. A scholarship is offered to students in the Dean's Scholars Accelerated Honours Program. Students are accepted into the program on the basis of outstanding academic ability and an interest in scientific research.

### Additional Entry Requirements

Successful interview.

Applicants will be sent interview information by QUT Faculty of Science progressively from late October.

### Fixed Closing Date

Applications for this program will close on **28 November**.

### Professional Recognition

As a graduate of the Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and

employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

### Scholarships

Students who are accepted into the Dean's Scholars Honours Program are eligible for a \$9,000 scholarship paid over three years.

### Career Outcomes

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the following ten majors. You will also choose a co-major to accompany your major area of study. The co-major may be one of the other majors, or it could be one of the co-majors listed below:

**Majors:** Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Mathematics, Microbiology, Physics.

**Co-majors:** Applied Geology, Astrophysics, Biodiversity, Chemistry for Industry, Life Science Technologies.

### Course Structure

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the majors available through the Bachelor of Applied Science (SC01) course. You will also choose a co-major to accompany your major area of study.

To allow the Dean's Scholars Program to be completed in an accelerated format some changes are made to the first year of the standard Bachelor of Applied Science (SC01) degree. The core units normally studied in first year are replaced by an enriched course of study which includes the following units:

#### SCB301 Science for Dean's Scholars

An intensive preparatory program immediately preceding the commencement of the first semester. This preparatory program commences mid-January and requires attendance for approximately 18 hours per week for six weeks.

#### SCB303 Tutorial Program for Dean's Scholars

An individually-tailored tutorial program during the first semester, under the guidance of an academic mentor. This unit is designed in a consultative process involving the student, the academic mentor, and the Dean.

#### SCB401 Research Methods for Dean's Scholars

The unit allows research skills to be developed through a literature review, experimental design considerations, research proposal formulation and writing, and the presentation of a research proposal.

#### SCB501 Research Project for Dean's Scholars

An individually tailored research project is carried out under the supervision of a research mentor.

### Honours Program

Following the successful completion of the coursework and your initial research project in the first two years of the

program, you will then commence the Bachelor of Applied Science (Honours) course. The Honours program continues the study of your chosen scientific major and also provides the opportunity to undertake a large research project. The Honours degree provides an excellent preparation to continue onto postgraduate research.

**Deferment**

QUT's deferment policy does not apply to this course.

**OP Guarantee**

The OP Guarantee does not apply to this course.

**Domestic student tuition fee (Dfee) places**

**Undergraduate domestic full fee places (Dfee) are not available in this course.** Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Course structure - Majors in Biochemistry, Biotechnology and Microbiology**

**Year 1, Summer Term (24 cp)**

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

**Year 1, Semester 1 (60 cp)**

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 1, Semester 2 (60 cp)**

Dean's Scholars Program enrichment unit:

SCB401 Research Methods for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 2, Semester 1 (72 cp)**

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 2, Semester 2 (60 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

Normal BAppSc and BAppSc(Hons) unit:

LSB657 Perspectives in Life Science

**Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc + BAppSc(Hons) Coursework (12cp + 36 cp respectively)

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc(Hons) Research (60 cp)

**Course structure - Major in Chemistry**

**Year 1, Summer Term (24 cp)**

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

**Year 1, Semester 1 (60 cp)**

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 1, Semester 2 (60 cp)**

Dean's Scholars Program enrichment unit:  
 Elective (12 cp)

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 2, Semester 1 (60 cp)**

Dean's Scholars Program enrichment unit:

SCB401 Research Methods for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 2, Semester 2 (72 cp)**

Dean's Scholars Program enrichment unit:  
 SCB501-1 Research Project for Dean's Scholars  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc + BAppSc(Hons) Coursework (12 cp +  
 36 cp respectively)  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc(Hons) Research (60 cp)

**Course structure - Major in Mathematics**

**Year 1, Summer Term (24 cp)**

Dean's Scholars Program enrichment unit (MS  
 module + MA module + one of the PH, CH, and  
 LS modules):  
 SCB301 Science for Dean's Scholars

**Year 1, Semester 1 (60 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (60 cp)

**Year 1, Semester 2 (60 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (60 cp)

**Year 2, Semester 1 (60 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (60 cp)

**Year 2, Semester 2 (60 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (36 cp)  
 Dean's Scholars Program enrichment unit:  
 SCB501-1 Research Project for Dean's Scholars

**Year 3, Semester 1 (60 cp) and Semester 2 (60 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc + BAppSc(Hons) Coursework (24 cp +  
 60 cp respectively)  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc(Hons) Research (36 cp)

**Course structure - Major in Physics**

**Year 1, Summer Term (24 cp)**

Dean's Scholars Program enrichment unit:  
 SCB301 Science for Dean's Scholars

**Year 1, Semester 1 (60 cp)**

Dean's Scholars Program enrichment unit:  
 SCB303 Tutorial Program for Dean's Scholars  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 1, Semester 2 (60 cp)**

Dean's Scholars Program enrichment unit:  
 Elective (12 cp)  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 2, Semester 1 (60 cp)**

Dean's Scholars Program enrichment unit  
 (approved Physics elective)  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (48 cp)

**Year 2, Semester 2 (72 cp)**

Dean's Scholars Program enrichment unit:  
 SCB501-1 Research Project for Dean's Scholars  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc Coursework (24 cp)

**Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)**

Normal BAppSc and BAppSc(Hons) units:  
 BAppSc + BAppSc(Hons) Coursework (12 cp +  
 36 cp respectively)  
 Normal BAppSc and BAppSc(Hons) units:  
 BAppSc(Hons) Research (60 cp)

**Potential Careers:**

Actuary, Air Traffic Controller, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Cell Biologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Exploration Geologist, Forensic Chemist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Mine Geologist, Molecular Biologist, Natural Resource Scientist, Pharmaceutical Research Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Research and Development Chemist, Statistician, Virologist.

## Bachelor of Applied Science/Bachelor of Mathematics (SC20)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 049434C

**Course duration (full-time):** 4 years

**Domestic fees (indicative):** 2009: CSP \$3,706 (indicative) per semester

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February and July

**QTAC code:** 418712

**Past rank cut-off:** 77

**Past OP cut-off:** 12

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA) and Maths B (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 384

**Standard credit points per full-time semester:** 48

**Course coordinator:** Dr Perry Hartfield (Science); Associate Professor Graeme Pettet (Mathematics)

**Campus:** Gardens Point

### Recommended Study

Maths C and knowledge of at least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended.

### Career Opportunities

This four-year double degree provides students with the opportunity to integrate studies in a science area with mathematics. This combination will lead to enhanced job opportunities for graduates and also provide a very sound background for students proceeding to postgraduate research studies in either a science discipline or mathematics.

Mathematics is vital for much scientific research and it is also becoming increasingly important for employees in many science-based careers to have a good background in mathematics and statistics. There are many jobs advertised where employers are ideally looking for applicants with skills and knowledge in science and mathematics. Some examples are:

*Natural resource management* - obtaining an accurate estimate of fish populations and predicting sustainable fishing limits requires complex mathematical and statistical modelling

*Agriculture management* - from climate modelling down to the individual paddock level, the interaction between forecast crop yields and prices, crop and harvest scheduling and environmental impacts

*Genetics* - including gene sequencing and quantitative genetics

*Chemistry and Biochemistry* - operations research (scheduling) and quality management techniques benefit management of a chemical testing laboratory or chemicals business; computational and applied mathematics and scientific computation and visualisation relate to research areas such as drug design using combinatorial chemistry

*Infection and disease control* - uses statistics and mathematical modelling

*Bioinformatics* - involves analysing and modelling data arising in molecular biology, genome sequencing and gene networks

*Developing new physical measurement and imaging techniques* - needs applied and computational mathematics

### Course Structure

Mathematics provides a very precise way of describing our world and activities within it. It is used to understand and formulate current knowledge, to develop new products and processes and to assist with predicting changes which may occur under various scenarios. Mathematical techniques are used extensively in conjunction with all areas of science.

Graduates will have well-developed analytical and problem-solving skills and also practical hands-on experience in the science area of their choice. They will have the ability to use mathematical and statistical techniques across a wide range of applications and to communicate effectively with others.

This four year double degree course integrates studies in one of the science majors with studies in mathematics. The science majors available are Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

The Mathematics component offers studies in core mathematics, applied mathematics, computational mathematics, discrete mathematics, financial mathematics, mathematical modelling, operations research, statistics, statistical modelling, scientific computation and data visualisation.

### Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available. For professional recognition relating to the science majors refer to Bachelor of Applied Science (SC01).

## Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

## Course structure

Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:

### Level 1 Units:

Students must complete the following Level 1 Mathematics units:

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1

NOTE: MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent).

Students must complete the following Level 1 Science Foundation units:

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life

In addition, students are required to complete any mandatory units - and should complete all recommended units, specified for the science major selected.

### Level 2 and 3 Mathematics Units:

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:

Students must complete:

MAB311	Advanced Calculus
MAB312	Linear Algebra

### Level 2 and 3 Science Units:

At least 96 credit points (8 twelve-credit point units) must be taken from Level 2 and Level 3 Science units with at least 48 credit points (4 twelve credit point units) from Level 3 Science units. The science units must meet the advanced level requirements of one of the following majors of the SC01 Bachelor of Applied Science course: Biochemistry; Biotechnology; Chemistry; Ecology; Environmental Science; Forensic Science; Geoscience: Microbiology or Physics.

### Science Elective Units:

The Mathematics unit (or units) normally undertaken in the first year of SC01 Bachelor of Applied Science is replaced by a Science elective unit (or units). This Science elective unit can be from any level. The level 2 Mathematics unit in the Physics major is replaced by a level 2 Science elective unit.

## Science Units: Biochemistry Major (Mandatory units)

### Year 1, Semester 1

SCB111	Chemistry 1
SCB112	Cellular Basis of Life
	TWO Mathematics Units

### Year 1, Semester 2

SCB120	Plant and Animal Physiology
SCB121	Chemistry 2
	TWO Mathematics units

### Year 2, Semester 1

SCB110	Science Concepts and Global Systems
	Science Elective unit
	TWO Mathematics units

### Year 2, Semester 2

SCB122	Cell and Molecular Biology
SCB123	Physical Science Applications
	TWO Mathematics units

### Year 3, Semester 1

LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
	TWO Mathematics units

### Year 3, Semester 2

LQB481	Biochemical Pathways and Metabolism
LQB483	Molecular Biology Techniques
	TWO Mathematics units

### Year 4, Semester 1

LQB581	Functional Biochemistry
LQB582	Biomedical Research Technologies
	TWO Mathematics units

**Year 4, Semester 2**

LQB681 Biochemical Research Skills  
 LQB682 Protein Biochemistry and Bioengineering  
 TWO Mathematics units

**Science Units: Biotechnology Major (Mandatory units)**

**Year 1, Semester 1**

SCB111 Chemistry 1  
 SCB112 Cellular Basis of Life  
 TWO Mathematics units

**Year 1, Semester 2**

SCB120 Plant and Animal Physiology  
 SCB121 Chemistry 2  
 TWO Mathematics units

**Year 2, Semester 1**

 LQB383 Molecular and Cellular Regulation  
 TWO Mathematics units

**Year 3, Semester 2**

LQB483 Molecular Biology Techniques  
 LQB484 Introduction to Genomics and Bioinformatics  
 TWO Mathematics units

**Year 4, Semester 1**

TWO units from:  
 LQB583 Genetic Research Technology  
 LQB584 Medical Cell Biology  
 LQB585 Plant Genetic Manipulation  
 TWO Mathematics units

**Year 4, Semester 2**

TWO units from:  
 LQB682 Protein Biochemistry and Bioengineering  
 LQB684 Medical Biotechnology  
 LQB685 Plant Microbe Interactions  
 TWO Mathematics units

**Science Units: Chemistry Major (Mandatory units)**

**Year 1, Semester 1**

SCB111 Chemistry 1  
 SCB112 Cellular Basis of Life  
 TWO Mathematics units

**Year 1, Semester 2**

SCB121 Chemistry 2  
 SCB123 Physical Science Applications  
 TWO Mathematics units

**Year 2, Semester 1**

SCB110 Science Concepts and Global Systems  
 Science Elective unit  
 TWO Mathematics units

**Year 2, Semester 2**

SCB131 Experimental Chemistry  
 Science Elective unit  
 TWO Mathematics units

**Year 3, Semester 1**

PQB312 Analytical Chemistry For Scientists and Technologists  
 PQB331 Structure and Bonding  
 TWO Mathematics units

**Year 3, Semester 2**

PQB401 Reaction Kinetics, Thermodynamics and Mechanisms  
 PQB442 Chemical Spectroscopy  
 TWO Mathematics units

**Year 4, Semester 1**

PQB502 Materials Chemistry and Characterisation  
 PQB531 Organic Mechanisms and Synthesis  
 TWO Mathematics units

**Year 4, Semester 2**

PQB631 Advanced Inorganic Chemistry  
 PQB642 Chemical Research  
 TWO Mathematics units

**Science Units: Ecology Major (Mandatory units)**

**Year 1, Semester 1**

SCB111 Chemistry 1  
 SCB112 Cellular Basis of Life  
 TWO Mathematics units

**Year 1, Semester 2**

SCB120 Plant and Animal Physiology  
 SCB122 Cell and Molecular Biology

MAB311 Advanced Calculus  
Plus TWO units selected according to the Science major

### Year 2, Semester 2

MAB210 Statistical Modelling 1

## SCIENCE AND TECHNOLOGY

ONE Mathematics unit  
Plus TWO unit selected according to the Science major

### Year 3, Semester 1

MAB312 Linear Algebra  
ONE Mathematics unit  
Plus TWO units selected according to the Science major

### Year 3, Semester 2

TWO Mathematics units  
Plus TWO units selected according to the Science major

### Year 4, Semester 1

TWO Level 3 Mathematics units  
Plus TWO units selected according to the Science major

### Year 4, Semester 2

TWO Level 3 Mathematics units  
Plus TWO units selected according to the Science major

## Mathematics Units

### Level 1

MAB100 Mathematical Sciences 1A  
MAB101 Statistical Data Analysis 1  
MAB111 Mathematical Sciences 1B  
MAB112 Mathematical Sciences 1C  
MAB210 Statistical Modelling 1  
MAB220 Computational Mathematics 1

### Level 2

MAB311 Advanced Calculus  
MAB312 Linear Algebra  
MAB313 Mathematics of Finance  
MAB314 Statistical Modelling 2  
MAB315 Operations Research 2  
MAB413 Differential Equations  
MAB414 Applied Statistics 2  
MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB461 Discrete Mathematics  
MAB480 Introduction to Scientific Computation  
MAB481 Visualisation and Data Analysis

### Level 3

You must complete at least four units from:

MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3

MAB524 Statistical Inference  
MAB525 Operations Research 3A  
MAB533 Statistical Techniques  
MAB536 Time Series Analysis  
MAB613 Partial Differential Equations  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB625 Operations Research 3B  
MAB640 Industry Project  
MAB672 Advanced Mathematical Modelling  
MAB681 Advanced Visualisation and Data Analysis

## Science Elective Units

The number of elective units will depend upon the major selected. These elective units can be selected from Faculty of Science and Technology units - make sure you meet any prerequisites and don't take an incompatible unit. Some majors include alternative units and you could select an additional unit(s) from these.

### Information on some possible Science elective units.

NQB201 Planet Earth  
NQB202 History of Life on Earth  
SCB120 Plant and Animal Physiology  
SCB121 Chemistry 2  
SCB122 Cell and Molecular Biology  
SCB123 Physical Science Applications  
SCB131 Experimental Chemistry  
SCB222 Exploration of the Universe

NOTE: Other elective units may be found in the co-majors listed in the SC01 Course Summary Sheet.

### Level 2 or 3 Elective Unit Suggestions for Physics Major

PQB360 Global Energy Balance and Climate Change  
PQB460 Astrophysics 1  
PQB660 Astrophysics 2

## Potential Careers:

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Bioinformatician, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Statistician, Virologist.

## Bachelor of Biomedical Science (SC40)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 052768K

**Course duration (full-time):** 3 Years

**Course duration (part-time):** 6 Years

**Domestic fees (indicative):** 2009: CSP \$3,559 (indicative) per semester

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February

**International Entry:** February

**QTAC code:** 418401

**Past rank cut-off:** 75

**Past OP cut-off:** 13

**OP Guarantee:** Yes

**Assumed knowledge:** English (4, SA), Maths B (4, SA) and Chemistry (4, SA)

**Preparatory studies:** MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3864 2000 or email [study@qut.com](mailto:study@qut.com)

**Total credit points:** 288

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Dr Catherine Dallemagne

**Campus:** Gardens Point

### Career Opportunities

The Bachelor of Biomedical Science is a highly relevant and appropriate qualification for entry into postgraduate medicine. This course provides a solid foundation for the areas tested in GAMSAT, the entrance examination for postgraduate medicine. Many opportunities are also available for postgraduate study in science at QUT, including Honours and postgraduate courses in Life Sciences.

The Bachelor of Biomedical Science is also designed for students seeking a science-based qualification that will lead to career opportunities in medical biotechnology, medical microbiology, and clinical biochemistry fields.

### Recommended Study

Biological Science is recommended.

### Course Design

The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, physiology and cell biology, providing a solid knowledge base for GAMSAT. Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

Students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in

problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

### Professional Recognition

Depending on the subjects selected in the final year of the course, graduates will be eligible for membership of one or more of the following organisations: Australian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Microbiology.

### Contact Details

#### Course Coordinator

Dr Catherine Dallemagne

Phone: +61 7 3138 2561

Email: [c.dallemagne@qut.edu.au](mailto:c.dallemagne@qut.edu.au)

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Course structure - Full-time

#### Year 1, Semester 1

MAB141	Mathematics and Statistics for Medical Science
PYB007	Interpersonal Processes and Skills
SCB111	Chemistry 1
SCB112	Cellular Basis of Life

For further information contact 07 3864 2000 or email [study@qut.com](mailto:study@qut.com)**Total credit points:** 384**Standard credit points per full-time semester:** 48**Course coordinator:** Associate Professor Fraser Ross**Campus:** Gardens Point**Recommended Study**

Biological Science is recommended.

**Career Opportunities**

Pharmacists are employed in a range of settings including community pharmacies, hospitals, industry, regulatory and research roles. Australia is currently experiencing a shortage of trained pharmacists, particularly in hospital and community pharmacies. You can expect your skills to be in demand as the QUT Bachelor of Pharmacy focuses on these aspects of the pharmacy profession. You will also be well prepared to undertake postgraduate studies in pharmacy related areas.

As the first professional contacted for advice about health, community pharmacists frequently play a major role as health educators. Hospital pharmacists may work closely with doctors in a patient-care role, evaluate newly released medicines, coordinate clinical trials, or prepare medicines for patients requiring specialised treatments.

**OP Guarantee**

The OP Guarantee does not apply to this course.

**Course Design**

The Bachelor of Pharmacy comprises four years of study in areas ranging from pharmacy practice, pharmaceuticals, pharmacology, drug metabolism, physiology and chemistry. You will also undertake professional practice units in QUT's

on-campus dispensary and counselling facilities before embarking on a series of professional placements in hospitals and community pharmacy environments.

**Special Course Requirements**

**1. Hepatitis B Vaccination:** Prior to undertaking hospital placements students must be vaccinated for hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity.

**2. Blue Card:** A current Blue Card authorised with QUT is required prior to commencing the clinical placement components in this course. Please read the Blue Card information (<http://bluecard.qut.com>) and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

**Professional Recognition**

Following graduation, approximately 12 months of pre-registration training performed under the supervision of a registered pharmacist is required to meet the registration requirements of the Pharmacists Board of Queensland. Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia (PSA), the Pharmacy Guild and the Society of Hospital Pharmacists of Australia (SHPA).

**Why Choose this Course?**

This course has been developed with significant input from pharmacists to incorporate latest practices and emerging trends. The inclusion of essential small business management skills will help you to operate effectively in your chosen setting.

**Contact Details****Course Coordinator**

Associate Professor Fraser Ross

Phone: +61 7 3138 2502

Email: [fb.ross@qut.edu.au](mailto:fb.ross@qut.edu.au)**Domestic student tuition fee (Dfee) places**

**Undergraduate domestic full fee places (Dfee) are not available in this course.** Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Deferral**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC

offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course coordinator:** Associate Professor Peter Mather

**Discipline coordinator:** Dr John Bartley (Chemistry); Dr David Hurwood (Ecology); Associate Professor Peter Mather (Environmental Science); Dr Gregg Webb (Geology); Associate Professor Terry Walsh (Life Science); Dr Troy Farrell (Mathematics); Dr Esa Jaatinen (Physics)

**Campus:** Gardens Point

### Career Outcomes

The Bachelor of Applied Science (Honours) program is designed for graduates who have excelled in their degree from a recognised tertiary institution, with major studies in a relevant discipline. The course not only enhances your professional employability in your chosen discipline but also prepares you for a research career. The Honours qualification opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy and Master of Applied Science courses.

### Entry Requirements

To be eligible for admission, you should have completed QUT's Bachelor of Applied Science or equivalent and should have attained a grade point average (GPA) of at least 5 (on a 7-point scale), including grades of at least 5 in all units directly relevant to the proposed Honours program. Application for admission should normally be made at the end of the pass degree, or within 18 months of completing that degree.

If you do not satisfy the above conditions but who have demonstrated outstanding performance in only the final year of a degree, or your application is based on other factors including work experience or involvement in research, you may be admitted at the discretion of the Executive Dean of Faculty.

Please note that for the Mathematics major, other degrees with major studies in Mathematics (including Statistics) may provide suitable entry to the program.

### Course Structure

The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry. Majors are offered in Chemistry, Ecology, Environmental Science, Geology, Life Science, Mathematics and Physics.

### Professional Recognition

Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

### Course structure - Major in Mathematics

### Year 1, Semester 1

MAN787-1 Project  
 36 credit points of elective units selected from the list below\*

### Year 1, Semester 2

MAN787-2 Project  
 MAN787-3 Project  
 24 credit points of elective units selected from the list below\*

### Elective List (Mathematics) - 60 credit points to be selected

MAN717 Minor Project  
 MAN761 Analysis  
 MAN764 Applied Mathematical Modelling  
 MAN765 Bayesian Data Analysis  
 MAN766 Applied Time Series Analysis  
 MAN768 Advanced Techniques in Operations Research  
 MAN769 Mathematics of Finance  
 MAN771 Computational Mathematics 4  
 MAN774 Perturbation Methods  
 MAN775 Statistical Modelling of Financial Processes  
 MAN777 Mathematics of Fluid Flow  
 MAN778 Applications of Discrete Mathematics  
 null  
 Up to 12 credit points from the following lists can be included in the 60 credit points of electives:  
 MAB522 Computational Mathematics 3  
 MAB524 Statistical Inference  
 MAB613 Partial Differential Equations  
 MAB672 Advanced Mathematical Modelling  
 MAN536 Time Series Analysis  
 null

Up to two units of a quantitative nature from another Faculty or School may be included with the permission of the Mathematics Coordinator. The unit(s) must be of honours level and relevant to the proposed program. Examples of suitable units are:

EFN505 Financial Risk Management  
 PCB706 Quantum Mechanics

\* The Course Coordinator may approve a student taking 24 credit points of elective units (together with MAN787-1 and MAN787-2) in Semester 1 and 36 credit points of elective units (together with MAN787-3) in Semester 2.

NOTE: Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Course structure - Major in Physics

**Year 1, Semester 1**

PCB700-1 Research Project

PCB700-2 Research Project

PCB706 Quantum Mechanics

Elective

NOTE: An alternative to PCB706 Quantum Mechanics may be permitted

**Year 1, Semester 2**

PCB700-4 Research Project

PCB700-5 Research Project

Elective

NOTE: Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

**Elective List (Physics)**

PCB664 Lasers and Photonics

PCB669 Astrophysics 2

PCB708 Advanced Topics in Physics

PCN716 Advanced Topics in Physics 2

NOTE: PCB708 and PCN716 typically comprise two components chosen from atmospheric aerosol physics, classical mechanics, non-linear optics, quantum electrodynamics, advanced general relativity or aspects of units from the Masters in Medical Physics course.

**Potential Careers:**

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Statistician, Virologist.

## Graduate Diploma in Applied Science (SC71)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 020314E

**Course duration (full-time):** 2 semesters (1 year)

**Course duration (part-time):** 4 semesters (2 years)

**Domestic fees (indicative):** 2009: CSP \$3,696 (indicative) per semester

**International Fees (per semester):** 2009: \$10,750 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** February and July

**International Entry:** February

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Peter Mather

**Discipline coordinator:** Dr Geoffrey Will (Chemistry); Dr Mark O'Brien (Life Science); Dr Troy Farrell (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Dr Andrew Fielding (Physics)

**Campus:** Gardens Point

### Entry requirements

Applicants must possess a bachelor degree in applied science or equivalent qualification, or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

### Course Design

This coursework program allows students to complete a minor project in some disciplines. The assessed coursework may include advanced lecture courses, seminars, reading courses or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of Applied Science course, and may contain units from other postgraduate courses, the Bachelor of Applied Science (Honours) program or advanced undergraduate programs.

Candidates of the Graduate Diploma in Applied Science undertake a program of coursework, or coursework and a minor research project, as approved by the Academic Board on the advice of the Head of School.

Students must complete a total of 96 credit points which may consist of between 60 and 96 credit points of coursework, and up to 36 credit points as a minor research project.

Coursework units will be selected from the specific units available within the Master of Applied Science (SC80) course and may contain units selected from other postgraduate courses or advanced undergraduate courses where the background of the student requires this.

### Overview

This course offers students a one-year postgraduate qualification by coursework, or coursework and a minor research project. The course will particularly suit if students

are employed in the industry and wish to undertake postgraduate study to upgrade their professional qualification in one of the science disciplines.

NRN100	Readings in Natural Resource Sciences 1
NRN101	Readings in Natural Resource Sciences 2
NRN104	Advanced Topics in Natural Resource Sciences 1
NRN105	Advanced Topics in Natural Resource Sciences 2

And units approved by the Strand Coordinator

**Course structure - Life Science Strand**

- LSN011 Research Seminars in Life Science 1
- LSN013 Readings in Life Science 3
- LSN023 Research Seminars in Life Science 3

**Course structure - Mathematics Strand**

Units selected from other programs, such as MA75 Graduate Diploma in Mathematical Science and MA85 Master of Mathematical Science, offered by the School of Mathematical Sciences and approved by the Mathematics coordinator.

**Course structure - Physics Strand**

- PCN715 Advanced Topics in Physics 1
  - PCN716 Advanced Topics in Physics 2
- And/or alternative unit(s) approved by the Physics Coordinator

**Potential Careers:**

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Statistician, Virologist.

## Master of Applied Science (Research) (SC80)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 007897G

**Course duration (full-time):** 3 semesters (1.5 years)

**Course duration (part-time):** 6 semesters (3 years)

**Domestic fees (indicative):** Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: \$6,720 per semester (indicative)

**International Fees (per semester):** 2009: \$11,250 (indicative) per semester (*subject to annual review*)

**Domestic Entry:** At any time

**International Entry:** At any time

**Total credit points:** 144

**Standard credit points per full-time semester:** 48

**Standard credit points per part-time semester:** 24

**Course coordinator:** Associate Professor Peter Mather

**Discipline coordinator:** Dr Geoffrey Will (Chemistry); Associate Professor Terry Walsh (Life Sciences); Professor Vo Anh (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Dr Andrew Fielding (Physics)

**Campus:** Gardens Point

### Entry Requirement

Applicants must possess a bachelor of applied science or equivalent qualification or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

### Course Design

This degree consists of coursework that can comprise up to one-third of the course and research, which must be at least two-thirds of the course. The assessed coursework may be in the form of advanced lectures, seminars, reading courses, or independent study designed to focus on information retrieval skills. The research component is a program of supervised research and investigation at a level of scientific competence significantly higher than that expected from an undergraduate degree and, typically, a masters thesis does not need to be as substantial as a Doctor of Philosophy thesis.

Students undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

Students entering the course with an honours degree or its equivalent to candidates with substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

Students entering the course with a graduate diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

A full-time candidate who does not hold an honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

A holder of an honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

### Overview

The objectives of this course are to:

- provide postgraduate educational opportunities in specialised fields of applied science by means of a program that involves either an original contribution to knowledge or an original application of existing knowledge
- provide education in research methods
- enable graduates employed in industry to undertake further education by a combination of coursework, research and thesis
- expand the involvement of students employed in industrial organisations and external agencies in undertaking relatively short-duration applied research or investigation.

Students can undertake an approved project in any area of interest supported by a research area or school within the Faculty of Science. Please note that these areas of research specialisation are only a guide. Staff are happy to discuss study choices directly with students.

**Course structure - Chemistry Strand**

- PCN701 Topics in Advanced Chemistry 1
- PCN705-1 Research Methodology
- PCN705-2 Research Methodology
- Select one of the following Elective Units:
- PCN710 Chemical Instrumentation
- PCN720 Chemometrics
- PCN730 Advanced Physical Methods in Chemistry
- PCN740 Laboratory Techniques for Preparative Chemistry
- PCN801 Topics in Advanced Chemistry 2

**Course structure - Ecology, Environmental Science & Geoscience Strands**

Essential units:

- NRN100 Readings in Natural Resource Sciences 1
- NRN102 Confirmation of Candidature Seminar
- NRN103 Final Seminar
- Select up to one of the following units if required:
- NRN101 Readings in Natural Resource Sciences 2
- NRN104 Advanced Topics in Natural Resource Sciences 1
- NRN105 Advanced Topics in Natural Resource Sciences 2

**Course structure - Life Science Strand**

- LSN011 Research Seminars in Life Science 1
- LSN013 Readings in Life Science 3
- LSN023 Research Seminars in Life Science 3

**Course structure - Mathematics Strand**

Selections from other School programs, such as MA75 Graduate Diploma in Mathematical Science and MA85 Master of Mathematical Science, to a maximum of 60 credit points

**Course structure - Physics Strand**

- PCN715 Advanced Topics in Physics 1
  - PCN716 Advanced Topics in Physics 2
- and/or alternative unit(s) approved by the Physics coordinator

**Research Work**

The Research Work component of the degree must constitute at least 128 credit points. The units below have been devised to represent the EFTSU (Effective Full-time Student Unit) and attendance type of graduate research students.

**Full-Time Students**

The minimum number of credit points per semester for full-time status is 36. The standard number is 48. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to the degree rules.

**Full-Time Course Structure**

Full-time students undertaking research but no coursework units enrol in

- IFN100 Full-Time Masters Research
- null

Full-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 48 credit points per semester.

- IFN300 Masters Research
- IFN301 Masters Research
- IFN302 Masters Research
- IFN303 Masters Research
- IFN304 Masters Research

**Part-Time Students**

The maximum number of credit points per semester for part-time status is 36. The standard number is 24. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to degree rules.

**Part-time Course Structure**

Part-time students undertaking research but no coursework units enrol in:

- IFN200 Part-Time Masters Research
- null

Part-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment

should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 24 credit points:

IFN302	Masters Research
IFN303	Masters Research
IFN304	Masters Research

**Potential Careers:**

Actuary, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Database Manager, Ecologist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Physicist, Plant Biotechnologist, Population Ecologist, Programmer, Quantitative Analyst, Statistician, Virologist.

## OVERVIEW

QUT International College (QUTIC), an integral part of QUT, offers a range of programs to assist international students to meet university entry requirements at QUT and other Australian universities. In addition, the College offers English Language Programs for students who wish to upgrade their English Language skills for work or other purposes.

The programs, designed to meet the different needs of international students, include English for Academic Purposes, General English, Foundation, University Diplomas, University Certificate in Tertiary Preparation and Post-graduate Pathway Programs.

Students receive high quality tuition and support in small classes and excellent College facilities while at the same time enjoying the full use of all University facilities including libraries, student services, recreational and computer facilities.

## SENIOR STAFF

*Director, QUT International College:* E. McDade, TDipCom Strathclyde, TCert Jordanhill, BEdSt Qld, MAcc C.Sturt

*Director of Studies, University Entry Programs:* S. Leisemann, DEd BA Qld, PGDip La Trobe, MBA Bond

*Director of Studies, English Language Programs:* I. McGregor, BA Griff, GradDipEd PGDipSocSc Qld, MEd (TESOL) NE

*Senior Administration Coordinator, QUTIC Administration:* N.Marsh, BA (Hons) Soton

## University Diploma in Business (BS40)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 025282A

**Course duration (full-time):** 2 semesters

**Domestic fees (indicative):** International Course

**International Fees (per semester):** 2009: \$7,725 (indicative) per semester (*subject to annual review*)

**International Entry:** February, June and October

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Course coordinator:** Elizabeth McDade

**Campus:** Kelvin Grove

### Abbreviation

UnivDipBus

### Entry Requirements - Academic

Successful completion of senior high school with the required grades. Students can find more detailed country specific entry requirements at the following web site:

<http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp>

### Entry Requirements - English Language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Description

The University Diploma in Business, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Business. In this program, students study six first year faculty core units as well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Business. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

### Course Completion

Students must obtain at least a grade of 4 (Pass) or better in all units.

### Progression

Requirements for progression to the second year of QUT Bachelor of Business:

- i) fulfil the Diploma course requirements,
- ii) a minimum Grade Point Average (GPA) of 4, and
- iii) an IELTS score of 6.5 or its equivalent.

### Full-time course structure

#### Semester One

BSD110	Accounting
BSD124	Working in Business
BSD126	Marketing
QCD110	Professional Communication 1

#### Semester Two

BSD113	Economics
BSD115	Management
BSD119	Global Business
QCD210	Professional Communication 2

### Potential Careers:

Academic, Account Executive, Accountant, Actuary, Administrator, Adult/Workplace Educator, Advertising Professional, Banker, Banking and Finance Professional, Business Analyst, Certified Practising Accountant, Corporate Secretary, Customs Officer, Diplomat, Economist, Educator, Electrical and Computer Engineer, Electronic Commerce Developer, Facilities Manager, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, Health Services Manager, Higher Education Worker, Human Resource Developer, Human Resource Manager, Information Officer, International Business Specialist, Investment Manager, Manager, Manufacturer, Marketing Officer/Manager, Network Manager, Organisational Communication Specialist, Policy Officer, Project Manager, Property Economist, Public Relations Officer/Consultant, Public Servant, Risk Manager, Secondary School Teacher, Statistician, TAFE Teacher, Teacher, Trainer.

## University Diploma in Creative Industries (IF06)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 064626C

**Course duration (full-time):** 2 semesters

**International Fees (per semester):** 2009: \$7,725 (indicative) per semester (*subject to annual review*)

**International Entry:** February, June and October

**Total credit points:** 96

**Standard credit points per full-time semester:** 48

**Course coordinator:** Elizabeth McDade

**Campus:** Kelvin Grove

### Abbreviation

UnivDipCI

### Entry Requirements - Academic

Successful completion of senior high school with the required grades. Students can find more country specific entry requirements at the following web site:

<http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp>

### Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Description

The University Diploma in Creative Industries, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Mass Communication and a range of Creative Industries degrees (see list below). In this program, students study six faculty units as well as two units of Communication which have been designed to support their other units. Student who successfully complete the University Diploma in Creative Industries earn full academic credit for eight units, and articulate to the second year of their chosen degree, except for Bachelor of Fine Art (Film and Television) for which one semester credit only is awarded. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

### Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

### Progression

Requirements for a guaranteed place in the following QUT Bachelors degrees:

- i) have an IELTS score of 6.5 or its equivalent
- ii) fulfil the Diploma course requirements, and
- iii) Gain a Grade Point Average (GPA) for particular

courses, as indicated below:

Students who successfully complete the University Diploma of Creative Industries and meet the respective faculty requirements will receive up to one year's advanced standing and be guaranteed a place in one of the available bachelor programs from the Creative Industries Faculty.

96 credit points of advanced standing with 4 semesters to complete\* (GPA of at least 4.0)

IF27 - Bachelor of Mass Communication  
KK33 - Bachelor of Creative Industries

72 credit points of advanced standing with 5 semesters to complete\* (GPA of at least 4.0)

KC30 - Bachelor of Media and Communication

72 credit points of advanced standing with 5 semesters to complete\*(GPA of at least 4.5)

KJ32 - Bachelor of Journalism  
KK34 - Bachelor of Fine Arts (Creative and Professional Writing)  
KK34 - Bachelor of Fine Arts (Drama)  
KK34 - Bachelor of Fine Arts (Interactive and Visual Design)  
- replaces Bachelor of Creative Industries (Communication Design)

72 credit points of advanced standing with 6 semesters to complete\* (GPA of at least 4.5)

KK34 - Bachelor of Fine Arts (Animation)  
KK34 - Bachelor of Fine Arts (Film, TV, and New Media Production)

\* Students may receive an additional 24 credit points of advanced standing depending on the elective units undertaken in the Diploma program and the Bachelor's degree they select.

Note: In order to maximise advanced standing, University Diploma in Creative Industries students should select Business units as electives, which, in conjunction with Professional Communication 1 and Professional Communication 2, will comprise a Business minor.

### Full-time course structure

#### Semester One

KKD101 Creative Industries: People and Practices  
KCD103 Strategic Speech Communication  
QCD110 Professional Communication 1  
BSD126 Marketing (recommended) or Elective  
Note: KKD101 & KCD103 are offered in ALTERNATE semesters

#### Semester Two

KKD102 Creative Industries: Making Connections

KVD104 Photomedia and Artistic Practice

QCD210 Professional Communication 2

Elective

Note: KKD102 & KVD104 are offered in  
ALTERNATE semesters

#### Electives

QCD220 Professional Communication 2

NOTE: IND102 & IND210 are offered in ALTERNATE semesters

### Potential Careers:

Academic, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Digital Composer, Educator, Electronic Commerce Developer, Information Security Specialist, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Public Servant, Secondary School Teacher, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, TAFE Teacher, Teacher, Technical Officer, Trainer, Web Designer.

## Accelerated Foundation (QC01)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 065046D

**Course duration (full-time):** 1 semester

**International Fees (per semester):** 2009: \$7,210 per semester (*subject to annual review*)

**International Entry:** February, June and October

**Total credit points:** 60

**Course coordinator:** Scott Leisemann

**Campus:** Kelvin Grove

### Entry Requirements- Academic

Successful completion of senior high school with the required grades.

Students who have attempted further schooling studies, eg GCE A-levels or equivalent may be considered for entry. Applications will be reviewed individually and applicants will need to meet subject prerequisites. Students can find more country specific entry requirements at the following web site. <http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp>

### Entry Requirements - English Language

IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Description

The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

### Course completion

Students are required to gain **at least** a grade of 4 (Pass) in foall units.

### Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree :

- i) fulfil the Foundation course requirements,
- ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science â Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and
- iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

### Required Foundation Grade Point Average by Faculty

- Built Environment - Required GPA 4.6
- Business - Required GPA 4.8
- Creative Industries - Required GPA 4.4
- Education - Required GPA 4.6
- Engineering - Required GPA 4.6
- Health - Human Services - Required GPA 4.2
- Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6
- Health - Nutrition & Dietetics - Required GPA 5.8
- Health - Optometry - Required GPA 5.8
- Health - Podiatry - Required GPA 5.8
- Health - Psychology - Required GPA 5.0
- Law (except Justice Studies) - Required GPA 4.8
- Law - Justice Studies - Required GPA 4.2
- Science & Technology (except IT, Pharmacy & Medical Imaging Technology) - Required GPA 4.6
- Science & Technology - Information Technology - Required GPA 4.8
- Science & Technology - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

### QC01 - Foundation Program (Full Time course structure)

Semester One	
QCF211	Tertiary Preparation Studies 2
QCF212	Academic English 2
QCF256	Mathematics A2
	OR
QCF257	Mathematics B2
	OR
QCF260	Professional Studies
	+ TWO ELECTIVES from the following list
QCF122	Organisations And Management
QCF160	Introduction to Creativity
QCF220	Accounting 2
QCF221	Economics 2
QCF254	Physics
QCF255	Chemistry
QCF230	Information Processing
QCF252	Life Science
QCF270	International Perspectives
	null

Note: In some semesters some elective units may not be offered if there is insufficient demand.

**Potential Careers:**

Academic, Account Executive, Accountant, Actor, Actuary, Administrator, Adult/Workplace Educator, Advertising Professional, Aerospace Avionics Engineer, Aged Services Worker, Analytical Chemist, Animator, Architect, Art Project Manager, Art Writer, Artist, Arts Administrator, Astrophysicist, Band Leader, Banker, Banking and Finance Professional, Barrister, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Business Analyst, Certified Practising Accountant, Chemical Technologist, Chemist, Chemist Industrial, Child Care Professional, Child Protection Officer, Choreographer, Civil Engineer, Clinical Laboratory Scientist, Coastal Scientist, Community Corrections Officer, Community Education Officer, Community Health Officer, Community Worker, Composer, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Conductor, Conservation Biologist, Construction Manager, Contract Administrator, Corporate Secretary, Corrective Services Officer, Counsellor, Creative Writer, Crown Law Officer, Curator, Customs Officer, D.J, Dance Teacher, Dancer, Data Communications Specialist, Database Manager, Digital Composer, Diplomat, Disability Services Worker, Drama Teacher, Early Childhood Teacher, Ecologist, Economist, Educator, Electrical and Computer Engineer, Electrical Engineer, Electronic Commerce Developer, Engineering Technologist, English Teacher, Environmental Engineer, Environmental Health Officer, Environmental Scientist, Estimator, Exchange Student, Exercise Physiologist, Facilities Manager, Family Services Officer, Fashion Designer, Fashion Professional, Film Composer, Film/Television Producer, Financial Advisor/Analyst, Financial Project Manager, Fitness Assessor/Personal Trainer, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Guidance Officer, Health Information Manager, Health Physicist, Health Services Manager, Higher Education Worker, Home Economist, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Industrial Designer, Information Officer, Information Security Specialist, Instrument Maker, Interior Designer, International Business Specialist, Internet Professional, Investigator, Investment Manager, Journalist, Kindergarten Teacher, Laboratory Technician (Chemistry), Landscape Architect, Librarian, Manager, Manufacturer, Mapping Scientist/Photogrammetrist, Marine Scientist, Marketing Officer/Manager, Mastering Engineer, Mathematician, Mechanical Engineer, Media Industry Specialist, Medical Biotechnologist, Medical Engineer, Medical Equipment Sales, Medical Imaging Technologist, Medical Physicist, Medical Scientist, Microbiologist, Molecular Biologist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Natural Resource Scientist, Network Administrator, Network Manager, Nurse, Nutritionist/Dietitian, Occupational Health and Safety Officer, Optometrist, Organisational Communication Specialist, Pathology Scientist, Physicist, Plant Biotechnologist, Podiatrist, Police Officer (Australian

Federal), Police Officer (State), Policy Officer, Population Ecologist, Preschool Teacher, Primary School Teacher, Programmer, Project Developer, Project Manager, Property Economist, Psychologist, Public Health Officer, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Quantitative Analyst, Quantity Surveyor, Radiation Therapist, Radiographer, Recording Engineer, Rehabilitation Engineer, Rehabilitation Professionals, Risk Manager, School Counsellor, Secondary School Teacher, Social Scientist, Sociologist, Software Engineer, Solicitor, Song Writer, Sonographer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Sports Scientist, Stage Manager, Statistician, Stockbroker, Surveyor, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, TAFE Teacher, Teacher, Technical Officer, TESOL Teacher, Theatre Professionals, Trainer, Translator, Urban and Regional Planner, Urban Designer, Virologist, Visual Artist, Visual Arts Teacher, Web Designer, Youth Worker.

## Standard Foundation (QC02)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 065045E

**Course duration (full-time):** 2 semesters

**International Fees (per semester):** 2009: \$7,210 per semester (*subject to annual review*)

**International Entry:** February, June and October

**Total credit points:** 120

**Standard credit points per full-time semester:** 60

**Course coordinator:** Scott Leisemann

**Campus:** Kelvin Grove

### Entry Requirements-Academic

Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. <http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp>

### Entry Requirements - English Language

IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Description

The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their final semester for possible credit towards their degree course.

### Course Completion

In order to complete course requirements, students must gain **at least** a grade of 4 (Pass) in all units.

### Required Foundation Grade Point Average by Faculty

Built Environment - Required GPA 4.6

Business - Required GPA 4.8

Creative Industries - Required GPA 4.4

Education - Required GPA 4.6

Engineering - Required GPA 4.6

Health - Human Services - Required GPA 4.2

Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6

Health - Nutrition & Dietetics - Required GPA 5.8

Health - Optometry - Required GPA 5.8

Health - Podiatry - Required GPA 5.8

Health - Psychology - Required GPA 5.0

Law (except Justice Studies) - Required GPA 4.8

Law - Justice Studies - Required GPA 4.2

Science & Technology (except IT, Pharmacy & Medical Imaging Technology) - Required GPA 4.6

Science & Technology - Information Technology - Required GPA 4.8

Science & Technology - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

### Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree :

- i) fulfil the Foundation course requirements,
- ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science â Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and
- iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

### QC02 - Foundation Program

Semester One	
QCF111	Tertiary Preparation Studies 1
QCF112	Academic English 1
QCF156	Mathematics A1
	OR
QCF157	Mathematics B1
	+ TWO ELECTIVES from the following list
QCF115	Foundation English
QCF120	Accounting 1
QCF121	Economics 1
QCF122	Organisations And Management
QCF153	Physical Sciences 1
QCF160	Introduction to Creativity
QCF252	Life Science
	null

Note: There is no computing component in QCF115 for 13TP2 & 13TP3.

Note: In some semesters some elective units may not be offered if there is insufficient demand.

**Semester Two**

- QCF211 Tertiary Preparation Studies 2
- QCF212 Academic English 2
- QCF256 Mathematics A2  
OR
- QCF257 Mathematics B2  
OR
- QCF260 Professional Studies  
+TWO ELECTIVES from the following list
- QCF122 Organisations And Management
- QCF160 Introduction to Creativity
- QCF220 Accounting 2
- QCF221 Economics 2
- QCF254 Physics
- QCF255 Chemistry
- QCF230 Information Processing
- QCF252 Life Science
- QCF270 International Perspectives  
null

Approved diploma units (Business, IT or Creative Industries students only). Diploma units can only be taken under special circumstances and with the approval of the Course Coordinator.

Note: In some semesters some elective units may not be offered if there is insufficient demand.

**Potential Careers:**

Academic, Account Executive, Accountant, Actor, Actuary, Administrator, Adult/Workplace Educator, Advertising Professional, Aerospace Avionics Engineer, Aged Services Worker, Analytical Chemist, Animator, Architect, Art Project Manager, Art Writer, Artist, Arts Administrator, Astrophysicist, Band Leader, Banker, Banking and Finance Professional, Barrister, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Biotechnologist, Business Analyst, Cell Biologist, Certified Practising Accountant, Chemical Technologist, Chemist, Chemist Industrial, Child Care Professional, Child Protection Officer, Choreographer, Civil Engineer, Clinical Laboratory Scientist, Coastal Scientist, Community Corrections Officer, Community Education Officer, Community Health Officer, Community Worker, Composer, Computer Game Programmer, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Conductor, Conservation Biologist, Construction Manager, Contract Administrator, Corporate Secretary, Corrective Services Officer, Counsellor, Creative Writer, Crown Law Officer, Curator, Customs Officer, D.J, Dance Teacher, Dancer, Data Communications Specialist, Database Manager, Digital Composer, Diplomat, Disability Services Worker, Drama Teacher, Early Childhood Teacher, Ecologist, Economist, Educator, Electrical and Computer Engineer, Electrical Contractor, Electrical Engineer, Electronic Commerce Developer, Engineering Technologist,

English Teacher, Environmental Engineer, Environmental Health Officer, Environmental Scientist, Estimator, Exchange Student, Exercise Physiologist, Exploration Geologist, Facilities Manager, Family Services Officer, Fashion Designer, Fashion Professional, Film Composer, Film/Television Producer, Financial Advisor/Analyst, Financial Project Manager, Fitness Assessor/Personal Trainer, Forensic Biologist, Forensic Chemist, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Guidance Officer, Health Information Manager, Health Physicist, Health Services Manager, Higher Education Worker, Home Economist, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Industrial Designer, Information Officer, Information Security Specialist, Instrument Maker, Interior Designer, International Business Specialist, Internet Professional, Investigator, Investment Manager, Journalist, Kindergarten Teacher, Laboratory Technician (Chemistry), Landscape Architect, Librarian, Lighting Designer, Lighting Technician, Luminaire Designer, Manager, Manufacturer, Mapping Scientist/Photogrammetrist, Marine Scientist, Market Research Manager, Marketing Officer/Manager, Mastering Engineer, Mathematician, Mechanical Engineer, Media Industry Specialist, Medical Biotechnologist, Medical Engineer, Medical Equipment Sales, Medical Imaging Technologist, Medical Physicist, Medical Scientist, Microbiologist, Mine Geologist, Molecular Biologist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Natural Resource Scientist, Network Administrator, Network Manager, Nurse, Nutritionist/Dietitian, Occupational Health and Safety Officer, Operations Manager, Optometrist, Organisational Communication Specialist, Pathology Scientist, Pharmaceutical Research Scientist, Physicist, Plant Biotechnologist, Podiatrist, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Population Ecologist, Post-production specialist, Preschool Teacher, Primary School Teacher, Programmer, Project Developer, Project Manager, Property Development, Property Economist, Property Management, Psychologist, Public Health Officer, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Quantitative Analyst, Quantity Surveyor, Radiation Therapist, Radiographer, Recording Engineer, Rehabilitation Engineer, Rehabilitation Professionals, Research and Development Chemist, Risk Manager, Sales Person, School Counsellor, Secondary School Teacher, Social Scientist, Sociologist, Software Engineer, Solicitor, Song Writer, Sonographer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Sports Scientist, Stage Manager, Statistician, Stockbroker, Surveyor, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, TAFE Teacher, Teacher, Technical Officer, TESOL Teacher, Theatre Lighting, Theatre Professionals, Trainer, Translator, Urban and Regional Planner, Urban Designer, Virologist, Visual Artist, Visual Arts Teacher, Web Designer, Youth Worker.

## Extended Foundation (QC04)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 050167G

**Course duration (full-time):** 3 Semesters

**International Fees (per semester):** 2009: \$15,862 (full course fee) (*subject to annual review*)

**International Entry:** February

**Total credit points:** 132

**Standard credit points per full-time semester:** 13TP1 - 48CP, 13TP2 - 60CP, 13TP3 - 24CP

**Course coordinator:** Scott Leisemann

**Campus:** Kelvin Grove

### Entry Requirements - Academic

Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. <http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp>

### Entry Requirements - English Language

IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

### Description

The Extended Foundation Program (QC04), which has an intake in February, provides pathways to QUT award programs (Diploma or Degree). This pathway is designed for students who require additional support with language and adjustment to the Australian educational environment. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their second semester for credit towards their degree course.

### Course Completion

In order to complete the course requirements, students must gain **at least** a grade of 4 (Pass) in all units.

### Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree :

- i) fulfil the Foundation course requirements,
- ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science & Medical Radiation Technology (Medical Imaging Technology)

students require a grade of 6 (Distinction)], and  
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

### Required Foundation Grade Point Average by Faculty

Built Environment - Required GPA 4.6  
 Business - Required GPA 4.8  
 Creative Industries - Required GPA 4.4  
 Education - Required GPA 4.6  
 Engineering - Required GPA 4.6  
 Health - Human Services - Required GPA 4.2  
 Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6  
 Health - Nutrition & Dietetics - Required GPA 5.8  
 Health - Optometry - Required GPA 5.8  
 Health - Podiatry - Required GPA 5.8  
 Health - Psychology - Required GPA 5.0  
 Law (except Justice Studies) - Required GPA 4.8  
 Law - Justice Studies - Required GPA 4.2  
 Science & Technology (except IT, Pharmacy & Medical Imaging Technology) - Required GPA 4.6  
 Science & Technology - Information Technology - Required GPA 4.8  
 Science & Technology - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

### QC04 - Extended Foundation Program

Semester One	
QCF115	Foundation English
QCF156	Mathematics A1
	OR
QCF157	Mathematics B1
	+ TWO ELECTIVES from the following list
QCF120	Accounting 1
QCF121	Economics 1
QCF153	Physical Sciences 1
QCF122	Organisations And Management
QCF252	Life Science
	null
	null
	Note: There is no computing component in QCF115 for 13TP2 & 13TP3.
	Note: In some semesters some elective units may not be offered if there is insufficient demand.

Semester Two	
QCF111	Tertiary Preparation Studies 1
QCF112	Academic English 1

QCF256	Mathematics A2 OR
QCF257	Mathematics B2 OR
QCF260	Professional Studies + TWO ELECTIVES from the following list
QCF122	Organisations And Management
QCF160	Introduction to Creativity
QCF220	Accounting 2
QCF221	Economics 2
QCF230	Information Processing
QCF254	Physics
QCF255	Chemistry
QCF270	International Perspectives  Approved diploma units (Business, IT or Professional Communication students only). Diploma units can only be taken under special circumstances and with the approval of the Course Coordinator.  Note: In some semesters some elective units may not be offered if there is insufficient demand.  null

**Semester Three (8 Week Teaching Period)**

QCF211	Tertiary Preparation Studies 2
QCF212	Academic English 2  Note: In this semester students focus on the higher level tertiary preparation and communication skills and attend 18 hours of study per week in their classes over a 8 week teaching period.

**Potential Careers:**

Academic, Account Executive, Accountant, Actor, Actuary, Administrator, Adult/Workplace Educator, Advertising Professional, Aerospace Avionics Engineer, Aged Services Worker, Analytical Chemist, Animator, Architect, Art Project Manager, Art Writer, Artist, Arts Administrator, Astrophysicist, Band Leader, Banker, Banking and Finance Professional, Barrister, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Biotechnologist, Business Analyst, Cell Biologist, Certified Practicing Accountant, Chemical Technologist, Chemist, Chemist Industrial, Child Care Professional, Child Protection Officer, Choreographer, Civil Engineer, Clinical Laboratory Scientist, Coastal Scientist, Community Corrections Officer, Community Education Officer, Community Health Officer, Community Worker, Composer, Computer Game Programmer, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Conductor, Conservation Biologist, Construction Manager, Contract Administrator, Corporate Secretary, Corrective Services Officer, Counsellor, Creative Writer, Crown Law Officer, Curator, Customs Officer, D.J, Dance Teacher, Dancer, Data Communications Specialist, Database Manager, Digital Composer, Diplomat, Disability Services

Worker, Drama Teacher, Early Childhood Teacher, Ecologist, Economist, Educator, Electrical and Computer Engineer, Electrical Contractor, Electrical Engineer, Electronic Commerce Developer, Engineering Technologist, English Teacher, Environmental Engineer, Environmental Health Officer, Environmental Scientist, Estimator, Exchange Student, Exercise Physiologist, Exploration Geologist, Facilities Manager, Family Services Officer, Fashion Designer, Fashion Professional, Film Composer, Film/Television Producer, Financial Advisor/Analyst, Financial Project Manager, Fitness Assessor/Personal Trainer, Forensic Biologist, Forensic Chemist, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Guidance Officer, Health Information Manager, Health Physicist, Health Services Manager, Higher Education Worker, Home Economist, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Industrial Designer, Information Officer, Information Security Specialist, Instrument Maker, Interior Designer, International Business Specialist, Internet Professional, Investigator, Investment Manager, Journalist, Kindergarten Teacher, Laboratory Technician (Chemistry), Landscape Architect, Librarian, Manager, Manufacturer, Mapping Scientist/Photogrammetrist, Marine Scientist, Market Research Manager, Marketing Officer/Manager, Mastering Engineer, Mathematician, Mechanical Engineer, Media Industry Specialist, Medical Biotechnologist, Medical Engineer, Medical Equipment Sales, Medical Imaging Technologist, Medical Physicist, Medical Scientist, Microbiologist, Molecular Biologist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Natural Resource Scientist, Network Administrator, Network Manager, Nurse, Nutritionist/Dietitian, Occupational Health and Safety Officer, Optometrist, Organisational Communication Specialist, Pathology Scientist, Pharmaceutical Research Scientist, Physicist, Plant Biotechnologist, Podiatrist, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Population Ecologist, Post-production specialist, Preschool Teacher, Primary School Teacher, Programmer, Project Manager, Property Development, Property Economist, Psychologist, Public Health Officer, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Quantitative Analyst, Quantity Surveyor, Radiation Therapist, Radiographer, Recording Engineer, Rehabilitation Engineer, Rehabilitation Professionals, Research and Development Chemist, Risk Manager, Sales Person, School Counsellor, Scientist, Secondary School Teacher, Social Scientist, Sociologist, Software Engineer, Solicitor, Song Writer, Sonographer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Sports Scientist, Stage Manager, Statistician, Stockbroker, Surveyor, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, TAFE Teacher, Teacher, Technical Officer, TESOL Teacher, Theatre Lighting, Theatre Professionals, Trainer, Translator, Urban and Regional Planner, Urban Designer, Virologist, Visual Artist, Visual Arts Teacher, Web Designer, Youth Worker.

## University Certificate In Tertiary Preparation (QC05)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 065044F

**Course duration (full-time):** 1 semester

**International Fees (per semester):** 2009: \$7,210 per semester (*subject to annual review*)

**International Entry:** February, July and October

**Total credit points:** 48

**Standard credit points per full-time semester:** 48

**Course coordinator:** Scott Leisemann

**Campus:** Kelvin Grove

### Entry Requirements - Academic

Students must have met the academic entry requirements for their proposed postgraduate or undergraduate course.

### Entry Requirements- English Language

IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

### Description

The University Certificate in Tertiary Preparation is a one-semester program that enables students to receive a University certificate on successful completion. It is designed for students who may have already met the academic entry requirements for a QUT undergraduate or postgraduate degree, but who may not have met the English language and/or prerequisite requirements.\*

This program provides two alternative streams:

Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in the University Certificate in Tertiary Preparation program. Those with advance standing may be able to undertake two Faculty unit.

Stream B is for students who have met English requirements but not prerequisite requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the University Certificate in Tertiary Preparation Program.

Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Alternatively, there may be some students who have already met both the academic and English requirements for a QUT degree entry, but who would prefer to undertake

the University Certificate in Tertiary Preparation in order to prepare for academic study in a different tertiary environment.

\*Students who require a Student Visa should check the English language requirements for a student visa from their country of origin.

### Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

### Progression

In order to progress to an award course, students must:

- i) fulfil the University Certificate in Tertiary Preparation course requirements
- ii) gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
- iii) meet any other conditions detailed in the 'letter of offer' from Student Business Services.

### QC05 - University Certificate in Tertiary Preparation

#### Stream A (for those with IELTS 6.0)

QCD111 Communication 1

QCD211 Communication 2

QCS230 Computing

#### DEGREE UNIT

Undergraduate students will need to enrol in the units QCD110 and QCD210

#### Stream B (for those with IELTS 6.5)

QCD111 Communication 1

QCD211 Communication 2

#### DEGREE UNIT one

#### DEGREE UNIT two

Undergraduate students will need to enrol in the units QCD110 and QCD210

## English for Academic Purposes for degree programs (QC10)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 011424G

**Course duration (full-time):** 12 weeks

**International Fees (per semester):** 2009: \$3,960 per semester (*subject to annual review*)

**International Entry:** March, July and October (dates are designed to allow entry to selected semester of next course)

**Total credit points:** 48

**Course coordinator:** John Healy

**Campus:** Kelvin Grove

The EAP course consists of the following integrated modules:

Seminars and Presentations

Academic Reading and Note-taking

Academic Writing

Listening and Note-taking from Lectures

Speaking in Academic Settings

Academic Study Skills

Computer Word-processing and Internet research skills

Library research skills

### Entry Requirements - Academic

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or

2. Degree Entry (IELTS 6.5) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with reading and writing no less than 5.5 and no other sub-band less than 5 (or approved equivalent); OR

3. Degree Entry (IELTS 6.0) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with no sub-band less than 5 (or approved equivalent).

\* You should check the English language requirements for a Student Visa from your country of origin.

### Description

The aim of the EAP course is to assist international students to upgrade their English proficiency level to meet university entry requirements. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

### Course Completion

To be eligible to receive EAP certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

### Progression

Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

### Course structure

#### Modules

QCE003 English for Academic Purposes for Direct Entry to QUT

## English for Academic Purposes for Foundation and University Diploma Programs (QC10)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 011424G

**Course duration (full-time):** 12 weeks

**International Fees (per semester):** 2009: \$3,960 per semester + \$100 non-refundable enrolment fee (*subject to annual review*)

**International Entry:** March, July and October (dates are designed to allow entry to selected semester of next course)

**Total credit points:** 48

**Course coordinator:** John Healy

**Campus:** Kelvin Grove

Seminars and Presentations

Academic Reading and Note-taking

Academic Writing

Listening and Note-taking from Lectures

Speaking in Academic Settings

Academic Study Skills

Computer Word-processing and Internet research skills

Library research skills

### Entry requirements\*

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT Foundation or Diploma program and successfully complete the relevant EAP entry test; or
2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-score of at least 5.0 (or approved equivalent).

\* You should check the English language requirements for a Student Visa from your country of origin.

### Description

This course is designed for students intending to gain entry to University Entry programs (Foundation and University Diplomas). Its purpose is to improve students' English language and study skills in order to prepare them for independent study and to familiarise them with the Australian academic environment.

### Course Completion

To be eligible to receive EAP certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

### Progression

Successful completion of this EAP course is a pathway into QUT International College Foundation and Diploma programs and the Associate Degree in Dance.

### QC10 - English for Academic Purposes for Foundation and University Diploma Programs

#### Modules

QCE004 English for Academic Purposes for QUTIC Courses

The EAP course consists of the following integrated modules:

**General English (QC20)**

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 062077K

**Course duration (full-time):** 5 weeks

**International Fees (per semester):** 2009: \$1,650 per 5 week session + \$100 non-refundable enrolment fee (*subject to annual review*)

**International Entry:** 9 entry dates per year.

**Total credit points:** 20

**Course coordinator:** Ian Davies (ip.davies@qut.edu.au)

**Campus:** Kelvin Grove

Cultural Studies, including field trips and excursions (which may incur some additional, minimal cost)

Electives Activities Program

Computer-based language learning

Independent learning skills

**Entry Requirements - English Language**

Students should check visa requirements in relation to English entry levels.

**Description**

This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see <http://www.qutic.qut.edu.au/about/entrydates/calendars.jsp>

**Course Completion**

On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

**Progression**

Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

**QC20 - General English**

**General English**

- QCE001 General English (Full-time)
  - While specific content varies according to level, broadly the course consists of:
  - English Language Structures & Systems
  - Grammar
  - Vocabulary
  - Integrated Skills Development (reading, writing, speaking, listening)

## **General English Extension (QC21)**

**Year offered:** 2009

**Admissions:** Yes

**Course duration (full-time):** 5 weeks

**International Fees (per semester):** 2009: \$1,650 per 5 week session + \$100 non-refundable enrolment fee (*subject to annual review*)

**International Entry:** Every 5 weeks

**Total credit points:** 20

**Course coordinator:** Ian Davies (ip.davies@qut.edu.au)

**Campus:** Kelvin Grove

Integrated Skills Development (reading, writing, speaking, listening)

Cultural Studies, including field trips and excursions (which may incur some additional, minimal cost)

Electives Activities Program

Computer-based language learning

Independent learning skills

### **Entry Requirements - English Language**

Students should check visa requirements in relation to English entry levels.

This course is for students enrolled in QC20 General English and wishes to continue their enrolment in General English.

### **Description**

This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see <http://www.qutic.qut.edu.au/about/entrydates/calendars.jsp>

### **Course Completion**

On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

### **Progression**

Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

### **QC21 - General English Extension**

#### **General English Extension**

QCE001 General English (Full-time)

While specific content varies according to level, broadly the course consists of:

English Language Structures & Systems

Grammar

Vocabulary

## English for Tertiary Preparation (QC22)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 045062C

**Course duration (full-time):** 2 weeks

**International Fees (per semester):** 2009: \$660 + \$100 non-refundable enrolment fee (*subject to annual review*)

**International Entry:** February, June and October

**Total credit points:** 8

**Course coordinator:** Michael Miller (mj.miller@qut.edu.au)

**Campus:** Kelvin Grove

### Entry Requirements

Academic requirements:

An offer of acceptance for a QUT Foundation or University Diploma course.

English requirements:

An IELTS score of at least 5.5 (with sub-scores of at least 5.0) or approved equivalent.

### Description

The course aims to enhance the English language proficiency of students who already meet the IELTS requirements for their Foundation or University Diploma Program. ETP teaches and practices academic writing, reading, listening and speaking.

The course assists students with the adjustment to studying at an Australian university.

### Course Completion

On completion of the course, students will receive a Completion and Attendance Certificate.

### QC22 - English for Tertiary Preparation

English for Tertiary Preparation

QCE005 English for Tertiary Preparation Studies

## English For Academic Purposes Plus (QC24)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 064814K

**Course duration (full-time):** 24 weeks

**International Fees (per semester):** 2009: \$7920 per block + A\$100 non-refundable enrolment fee (*subject to annual review*)

**International Entry:** April, July and November (dates are designed to allow entry to selected semester of next course)

**Total credit points:** 96

**Course coordinator:** John Healy

**Campus:** Kelvin Grove

### Entry Requirements - Academic

To be eligible for entry, applicants must have:

1. A conditional offer for a QUT degree program. Students without a conditional offer who wish to improve their academic English may also apply if they meet the English language entry requirements.

OR

2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-scores of at least 5.0 (or approved equivalent). Students will also sit a placement test at the beginning of their course.

\* You should check the English language requirements for a Student Visa from your country of origin.

### Description

EAP Plus has been specifically developed for students who wish to commence their entry into an English for Academic Purposes course earlier. Successful applicants can enter the course at pre-intermediate level and immediately begin developing their English language and study skills in an academic context.

EAP Plus enables students to begin developing their English language and study skills in an academic context from a pre-intermediate level. The course aims to prepare students to attain the level of proficiency required for gaining entrance to, and succeeding in QUT undergraduate and postgraduate award programs. EAP Plus courses include:

- Academic reading and note-making
- Academic writing
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations
- Academic study skills
- Computing and Internet skills
- Library research

During the first 12 weeks of the EAP Plus course, students will develop their paragraph writing, reading, listening and note-taking skills through theme-based topics at an introductory academic level, along with speaking and oral presentation skills in a highly-supported environment.

Weekly grammar, paraphrasing and vocabulary development supports the reading, writing and note-taking components. Reading skills are also enhanced via extended reading practice and specific reading skills lessons.

The second half of the course will further develop independent study skills enabling students to operate effectively in an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

EAP Plus has its own internal assessment consisting of exams and assignments, and successful students will meet QUT's English language requirements.

### Course Completion

To be eligible to receive EAP Plus Certificate at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

### Progression

Successful completion of the EAP Plus course provides a pathway into QUT undergraduate and postgraduate award programs for students who meet the academic requirements for these programs.

### Course structure

QCE009	EAP Plus
QCE003	English for Academic Purposes for Direct Entry to QUT
	The EAP Plus course consists of the following integrated modules:
	Seminars and Presentations
	Academic Reading and Note-Taking
	Academic Writing
	Listening and Note-taking from Lectures
	Speaking in Academic Settings
	Academic Study Skills
	Computing and Internet Research Skills
	Library Research Skills

## Cambridge First Certificate in English Preparation course - International (QC25)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 053950D

**Course duration (full-time):** 12 weeks

**International Fees (per semester):** 2009: \$3,960 (tuition only) (*subject to annual review*)

**International Entry:** March and September (dates are designed to allow students to undertake the Cambridge First Certificate in English examination)

**Course coordinator:** Michael Miller (mj.miller@qut.edu.au)

**Campus:** Kelvin Grove

### Entry Requirements - English Language

External students are required to either have an IELTS score of 5.0; TOEFL 500 (paper) or 173 (computer); TWE (3); or approved equivalent. All external students are also required to take a Placement Test administered on their first day at the QUT International College.

Internal students are required to have successfully completed the Intermediate level of General English and to successfully complete the Placement Test.

### Description

This course is designed to prepare candidates for the Cambridge FCE examination. Course duration is 12 weeks and comprises 25 hours tuition per week. This intensive course focuses on speaking, listening, reading and writing skills, and use of English. It also pays particular attention to FCE examination strategies and skills.

Cost of the program includes tuition, examination fee, textbook, workbook and practice test book.

### Course Completion

On completion of the course, students will receive a certificate of completion.

### QC25 - Cambridge First Certificate in English Preparation course - International

Cambridge First Certificate in English Preparation course -  
International

QCE006 Cambridge First Certificate in English

## General English Program (5 Weeks)

### (QE05)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 062077K

**Course duration (full-time):** 5 weeks

**International Entry:** 9 entry dates per year.

**Total credit points:** 20

**Course coordinator:** Ian Davies (ip.davies@qut.edu.au)

**Campus:** Kelvin Grove

### Entry Requirements - English Language

Students should check visa requirements in relation to English entry levels.

### Description

This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see <http://www.qutic.qut.edu.au/about/entrydates/calendars.jsp>

### Course Completion

On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

### Progression

Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

## General English Program (10 Weeks)

### (QE10)

**Year offered:** 2009

**Admissions:** Yes

**CRICOS code:** 062077K

**Course duration (full-time):** 10 weeks

**International Entry:** 9 entry dates per year.

**Total credit points:** 40

**Course coordinator:** Ian Davies (ip.davies@qut.edu.au)

**Campus:** Kelvin Grove

### Entry Requirements - English Language

**Unit Synopses .....1916**

## UNIT SYNOPSES

---

This section provides synopses of the units offered in the academic programs section.

The synopses are presented in alpha-numeric order according to their codes.

### UNIT CODING AND NUMBERING

The unit code is of the format XXX999. The first two characters indicate the faculty or school administering the unit. The third character indicates the level of the course in which the unit is normally taught.

### UNIT CODING

- AD Design and Built Environment
- AM Advertising, Marketing and Public Relations
- AR Design and Built Environment
- AY Accountancy
- BE Built Environment and Engineering
- BN Built Environment and Engineering
- BS Business
- CE Civil Engineering
- CL Cultural and Language Studies in Education
- CN Construction Management
- CT Caboolture
- DA Design
- DB Design and Built Environment
- DE Design
- DL Design and Built Environment

- GP = Gardens Point
- KG = Kelvin Grove

### SEMESTER CODING

- 1 = Semester 1
- 2 = Semester 2
- 3 = Summer Program

### PREREQUISITE AND COREQUISITE UNITS

For definitions of the terms prerequisite and corequisite unit(s), refer to Rule 12 of the Student Rules section.

### Disclaimer

Some schools have indicated the availability of their units for semester 1 (1), semester 2 (2), or Summer Program (3). These indications are preliminary only and are subject to change.

**ADB007 Architectural Design 7**

The content of the unit is project-dependent.

**Prerequisite(s):** ADB006   **Contact hours:** 5 per week

**Campus:** Gardens Point

**ADB008 Architectural Design 8**

The content of the unit is project-dependent.

**Prerequisite(s):** ADB007   **Corequisite(s):** ADB026

**Contact hours:** 5 per week   **Campus:** Gardens Point

**ADB009 Architectural Design 9**

Design projects and associated lectures and presentations relevant to developing the unit objectives. A high degree of resolution is expected in design projects in intellectual conceptualisation and strategy, spatial organisation, form, detail and technical understanding. Building economics, services, construction technology, theory and critical analysis will be integrated into the unit.

**Prerequisite(s):** ADB008   **Credit points:** 12   **Contact hours:** 5 per week   **Campus:** Gardens Point

**ADB013 Contextual Studies 3**

This unit looks at the architectural traditions of the diverse cultures of Asia and urban history. The course examines how traditional architecture is shaped by culture and society. It focuses on the geographic regions of the orient including China, Japan and Korea and that of South Asia including India, Nepal and Sri Lanka. Design of cities across geographic regions, including Europe, America, Australia and Asia are studied from an historical and contemporary perspective to understand city form, culture, politics, economics and function, ecology and sustainability.

**Prerequisite(s):** ADB012   **Contact hours:** 3 per week

**Campus:** Gardens Point

**ADB014 Contextual Studies 4**

Contemporary Thinking and Architectural Culture. This unit aims to consolidate for students a theoretical contemporary framework in which to locate key moments in contemporary architectural and cultural production from diverse contexts. It introduces students to contemporary debates and endeavour to de-mystify the language of contemporary architectural ideas and aesthetics in order to promote self-directed interest in contemporary theory and criticism.

**Prerequisite(s):** ADB013   **Contact hours:** 3 per week

**Campus:** Gardens Point

**ADB025 Technology and Science 5**

This unit addresses building construction. It includes an overview of construction systems used in medium to high-rise commercial buildings, including analysis of principles, advantages, disadvantages and details of such systems. It also includes an integrated overview of medium to high-rise building services including hydraulics, lighting, electrical services, mechanical equipment and vertical transportation.

**Prerequisite(s):** ADB024   **Contact hours:** 3 per week

**Campus:** Gardens Point

**ADB026 Technology and Science 6**

The topics in this unit include a case study of the building type being studied in ADB007, working with engineering consultants, and the programming of work.

**Prerequisite(s):** ADB025   **Contact hours:** 3 per week

**Campus:** Gardens Point

**ADB031 Professional Studies 1**

This unit includes theory and some estimating and specifications techniques. The theory includes an analysis of various concepts of professionalism, characteristics of professions, and a discussion of various contemporary critiques of architectural practice. Estimating involves choice of technique, accuracy, square and cube rates, cost control, feasibility, and quantity surveying. The role of specification is included.

**Contact hours:** 3 per week   **Campus:** Gardens Point

**ADB033 Professional Studies 3**

This is a self-paced national course (BPA 2) prepared by the Royal Australian Institute of Architects as a Continuing Education program which will attract certification from the RAlA. The course covers ethical, administrative and management issues in relation to architectural practice.

**Prerequisite(s):** ADB932   **Contact hours:** 4 per week

**Campus:** Gardens Point

**ADB051 Architectural Research 1**

This unit provides students with an overview of research methodology. Students examine the differences between various research methods and product. A number of issues are addressed in the elected area of research including definition of study area, research aims and objectives, initial proposition, structuring research approach, analysis, and preliminary conclusions based on the literature review.

**Credit points:** 12   **Contact hours:** 4 per week   **Campus:**

Gardens Point

**ADB052 Architectural Research 2**

Students continue their studies on an approved topic commenced in Architectural Research 1. By means of a thesis presentation, students demonstrate their ability to define and logically argue propositions, and to conduct research to prove its validity by means of a well-constructed research project that includes critical analysis.

**Prerequisite(s):** ADB051   **Credit points:** 12   **Contact**

**hours:** 4 per week   **Campus:** Gardens Point

**ADB053 Architectural Project**

The major project, selected by students and approved by the unit coordinator, will have a focus work study that demonstrates the particular skills and interests of the individual. This work should be completed to a highly developed and resolved standard.

**Prerequisite(s):** ADB009, ADB067   **Contact hours:** 4 per week   **Campus:** Gardens Point

**ADB067 Elective Architectural Applications**

This unit provides an opportunity for students to develop and strengthen areas of interest in a program of their choice, to be approved by the Course Coordinator. For example, it may be used to develop the Architectural Research 2 program to the presentation of a dissertation or enhance knowledge and skills in other subject areas.

**Credit points:** 12   **Contact hours:** 3   **Campus:** Gardens Point

**ADB795-1 Practice Experience A**

This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 36 credit points.

**Campus:** Gardens Point

**ADB795-2 Practice Experience A**

This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 36 credit points.

**Campus:** Gardens Point

**ADB796-1 Practice Experience B**

This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 60 credit points.

**Credit points:** 30 **Campus:** Gardens Point

**ADB796-2 Practice Experience B**

This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 60 credit points.

**Credit points:** 30 **Campus:** Gardens Point

**ADB932 Professional Studies 2**

This unit offers a self-paced national course (BPA 1) prepared by the RAI A as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAI A certification.

**Prerequisite(s):** ADB031 **Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

**ADN007 Architectural Design 7**

The content of the unit is project-dependent.

**Contact hours:** 5 per week **Campus:** Gardens Point

**ADN008 Architectural Design 8**

The content of the unit is project-dependent.

**Contact hours:** 5 per week **Campus:** Gardens Point

**ADN009 Architectural Design 9**

Design projects and associated lectures and presentations relevant to developing the unit objectives. A high degree of resolution is expected in design projects in intellectual conceptualisation and strategy, spatial organisation, form, detail and technical understanding. Building economics, services, construction technology, theory and critical analysis will be integrated into the unit.

**Contact hours:** 5 per week **Campus:** Gardens Point

**ADN013 Contextual Studies 3**

This unit looks at the architectural traditions of the diverse cultures of Asia and urban history. The course examines

how traditional architecture is shaped by culture and society. It focuses on the geographic regions of the orient including China, Japan and Korea and that of South Asia including India, Nepal and Sri Lanka. Design of cities across geographic regions, including Europe, America, Australia and Asia are studied from an historical and contemporary perspective to understand city form, culture, politics, economics and function, ecology and sustainability.

**Contact hours:** 3 per week **Campus:** Gardens Point

**ADN014 Contextual Studies 4**

Contemporary Thinking and Architectural Culture. This unit aims to consolidate for students a theoretical contemporary framework in which to locate key moments in contemporary architectural and cultural production from diverse contexts. It introduces students to contemporary debates and endeavour to de-mystify the language of contemporary architectural ideas and aesthetics in order to promote self-directed interest in contemporary theory and criticism.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

**ADN025 Technology and Science 5**

This unit addresses building construction. It includes an overview of construction systems used in medium to high-rise commercial buildings, including analysis of principles, advantages, disadvantages and details of such systems. It also includes an integrated overview of medium to high-rise building services including hydraulics, lighting, electrical services, mechanical equipment and vertical transportation.

**Contact hours:** 3 per week **Campus:** Gardens Point

**ADN026 Technology and Science 6**

The topics in this unit include a case study of the building type being studied in ADB007, working with engineering consultants, and the programming of work.

Estimating involves choice of technique, accuracy, square and cube rates, cost control, feasibility, and quantity surveying. The role of specification is included.

**Contact hours:** 3 per week **Campus:** Gardens Point

**ADN033 Professional Studies 3**

This is a self-paced national course (BPA 2) prepared by the Royal Australian Institute of Architects as a Continuing Education program which will attract certification from the RAI A. The course covers ethical, administrative and management issues in relation to architectural practice.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

**ADN051 Architectural Research 1**

This unit provides students with an overview of research methodology. Students examine the differences between various research methods and product. A number of issues are addressed in the elected area of research including

---

## UNIT SYNOPSES

---

definition of study area, research aims and objectives, initial proposition, structuring research approach, analysis, and preliminary conclusions based on the literature review.

**Contact hours:** 4 per week **Campus:** Gardens Point

### **ADN052 Architectural Research 2**

Students continue their studies on an approved topic commenced in Architectural Research 1. By means of a thesis presentation, students demonstrate their ability to define and logically argue propositions, and to conduct research to prove its validity by means of a well-constructed research project that includes critical analysis.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADN053 Architectural Project**

The major project, selected by students and approved by the unit coordinator, will have a focus work study that demonstrates the particular skills and interests of the individual. This work should be completed to a highly developed and resolved standard.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADN067 Elective Architectural Applications**

This unit provides an opportunity for students to develop and strengthen areas of interest in a program of their choice, to be approved by the Course Coordinator. For example, it may be used to develop the Architectural Research 2 program to the presentation of a dissertation or enhance knowledge and skills in other subject areas.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

### **ADN796 Practice Experience B**

This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects.

**Credit points:** 24 **Campus:** Gardens Point

### **ADN932 Professional Studies 2**

This unit offers a self-paced national course (BPA 1) prepared by the RAIAs as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIAs certification.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP107 Interior Design 7**

This unit provides students with the opportunity to pursue a topic of personal and professional relevance in consultation with staff. The topic will form the focus of a major design/research project incorporating this unit and ADB108. The unit covers topic identification, qualification and substantiation, context exploration, and consolidation.

**Corequisite(s):** ADP161 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

### **ADP108 Interior Design 8**

This unit provides students with the opportunity to develop an in-depth understanding of an area of interior design of personal and professional relevance in consultation with staff. The unit covers project development and the exploration of associated issues.

**Prerequisite(s):** ADB107 **Corequisite(s):** ADP162  
**Contact hours:** 3 per week **Campus:** Gardens Point

### **ADP114 Professional Studies 1**

This unit addresses the following topics: the interior design profession, its organisation and theoretical and practical relationship with other professions and disciplines; professionalism incorporating ethics, industry product safety standards and continuing education; specific responsibilities involving brief development; post-occupancy evaluation.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP155 Interior as a Construct 1**

Designers require a deep conceptual understanding of the relationship between artefact and culture and they need a vehicle for supporting this development. The focus in this unit is on the conservation of historic interiors and includes: historic interior exemplars; social and cultural identity; conservation; preservation and restoration; relevant charters and policies.

**Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP156 Interior as a Construct 2**

In this unit, stage design will be used as a frame-of-reference for exploring various aspects of person-environment interaction such as play and imagining. In addition, the unit provides a basis for exploring notions of temporary, transitory space and virtual reality.

**Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP161 Interior Research 1**

This unit provides methodological support for the major project in ADP107. It includes the following: empirical research with an emphasis on qualitative research relevant to person-environment interaction; research rigour incorporating attention to validity, reliability and generalisation; advanced information retrieval; literature search and review.

**Corequisite(s):** ADP107 **Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP162 Interior Research 2**

This unit provides methodological support for the major project in ADP108. The ability to undertake empirical research is considered an integral aspect of responsible designing. The unit content covers data collection, analysis and reporting.

**Corequisite(s):** ADP108 **Contact hours:** 4 per week  
**Campus:** Gardens Point

### **ADP207 Industrial Design 5**

The studio exercises to which most of the time is devoted in this unit aim to the design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters, including the following: design process and creative thinking; applied research, creativity and product innovation; work with a client;

---

## UNIT SYNOPSES

---

multidisciplinary teamwork; product integration and development; design ethics and culture; the designer's responsibilities toward the environment.

**Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP217 Professional Practice and Management**

This unit addresses the following topics: the role of professional practice management; management of design projects; types of contracts; design documentation; the role of design administration; liability; design law; intellectual property; designer-client relationships.

**Contact hours:** 3 per week **Campus:** Gardens Point

### **ADP218 Advanced Ergonomics**

This unit addresses the basics of cognitive ergonomics, product useability evaluation methods and their applications, and case studies.

**Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP247 Advanced Computer Aided Industrial Design**

This unit introduces parametric based modelling, hybrid based modelling, application of rapid prototyping and rapid tooling to the design process, and the application of concurrent engineering to the design process.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

### **ADP267 Industrial Design Research 1**

The unit allows applied research to be selected by a student, approved and supervised by the industrial design staff. External specialists may be involved as required.

**Contact hours:** 5 per week **Campus:** Gardens Point

### **ADP268 Industrial Design Research 2A**

This unit depends on the topic selected by a student in the previous semester. Students are responsible for the program as a part of their project work, which will be approved and supervised by the industrial design staff.

**Prerequisite(s):** ADP207, ADP267 **Corequisite(s):** ADP269 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP269 Industrial Design Research 2B**

This unit depends on the topic selected by a student in the previous semester. Students are responsible for the program as a part of their project work, which will be approved and supervised by the industrial design staff.

**Prerequisite(s):** ADP207, ADP267 **Corequisite(s):** ADP268 **Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP932 Professional Studies 2**

This unit offers a self-paced national course (BPA 1) prepared by the RAIA as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIA certification.

**Contact hours:** 4 per week **Campus:** Gardens Point

### **ADP943 Elective 3**

The student chooses elective units to extend and expand an area of knowledge or experience to develop in depth a

particular professional expertise. These units may be drawn from an existing range of units available within the Faculty and University. The electives are to be approved by the Course Coordinator.

**Contact hours:** 3 per week **Campus:** Gardens Point

### **AMB200 Consumer Behaviour**

This unit provides students with the fundamental theories and models to develop a sound understanding of consumers, their needs, and behaviours. It provides a detailed examination of the consumer decision process and the internal and external influences on this core decision process. The unit also assists students in applying this knowledge to the development, implementation and evaluation of marketing activities within an organisation.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 or BSB117

**Credit points:** 12 **Contact hours:** 3 per week

**Campus:** Gardens Point **Incompatible with:** MIB204 or CTB200

### **AMB201 Marketing and Audience Research**

This unit provides an introduction to the conduct and evaluation of marketing and audience research across the disciplines of advertising, marketing and public relations. Class members explore how field studies, survey and experimental research are employed to support advertising, marketing and public relations information needs. The unit provides an overview of research process, research design, methods of data collection and analysis, and the development of research proposals to support decision-making. Class members also explore issues related to research on media audiences, research ethics, and the management of client briefings.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 or BSB117

**Credit points:** 12 **Contact hours:** 3 per week

**Campus:** Gardens Point **Incompatible with:** MIB305, MGB220 or COB334 or CTB201

### **AMB202 Integrated Marketing Communication**

In past decades many organisations separated the different forms of marketing communication that convey their corporate and marketing messages. They developed separate plans for their advertising, public relations, direct marketing, personal selling and sales promotion with separate goals, objectives, strategies and budgets. Today many companies recognise the concept of integrated marketing communication which integrates these different functions along with other aspects of the marketing mix that communicate with stakeholders and customers. Integrated marketing communication requires a 'total' approach to planning marketing communication programs and coordinating communication strategies in support of overall brand and product/service marketing objectives.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 or BSB117

**Credit points:** 12 **Contact hours:** 3 per week

**Campus:** Gardens Point **Incompatible with:** COB207, MIB309

### **AMB203 Independent Study**

An opportunity for advanced level undergraduate students to undertake individual research in an area which is complementary to their course work.

**Prerequisite(s):** Prior approval from the Head of School

## UNIT SYNOPSES

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB206

### **AMB204 Purchasing and Procurement**

This unit examines the nature and importance of Procurement in the role of business today. Procurement has become increasingly important and valued by organisations that are part of global supply chains. The management and strategic control of procurement functions in modern businesses adds profit through cost control in businesses and that has gained significance in the drive to maintain profit in internationally competitive markets. Modern procurement professionals require the use of many skills to achieve these outcomes and this unit introduces students to the functions of purchasing and procurement in an organisation.

**Prerequisite(s):** BSB119 or CTB119 **Credit points:** 12  
**Incompatible with:** IBB312

### **AMB206 Social Marketing**

Social marketing is the application of commercial marketing principles to solve social problems. It is increasingly being adopted by governments around the world as they seek effective solutions relating to public health and climate change, environmental issues. This unit introduces students to the theory and application of social marketing, explaining how techniques such as branding, segmentation and the marketing mix can be used to respond to social and health issues. Students will learn to analyse real world problems and develop innovative and creative solutions using social marketing frameworks. This is an elective unit for business and public health students

**Prerequisite(s):** BSB126 or CTB126 **Credit points:** 12

### **AMB207 Entertainment Marketing**

The entertainment industry is the second largest in the world, worth nearly US\$2 Trillion and offers great opportunities. However the marketing of entertainment provides some unique challenges to the application of marketing tools. Students will complete a marketing case study that will clearly demonstrate to potential employers that students have the necessary skills and abilities to work in an entry-level position/analytical role within a marketing department in the entertainment or arts field.

**Prerequisite(s):** BSB126 or CTB126 **Credit points:** 12

### **AMB208 Events Marketing**

**Prerequisite(s):** BSB126 or CTB126 **Credit points:** 12

### **AMB209 Tourism Marketing**

**Prerequisite(s):** BSB126 or CTB126 **Credit points:** 12

### **AMB210 Importing and Exporting**

Trade has become fundamental to the survival and growth of many businesses in Australia as well as other economies. International business students need an understanding of the many challenges entailed in the management of trade. Import and export practice is an applied, technical and evolving area of international business operations that reflects the dynamic nature of trans-national trade in the global economy. This unit examines the importance of importing and exporting for Australia's economic development.

provides key information related to importing and exporting, uses industry perspectives on issues of current importance in international trade and provides a structured tutorial programme to achieve this.

**Prerequisite(s):** BSB119 or CTB119 **Credit points:** 12  
**Incompatible with:** IBB210

### **AMB220 Advertising Theory and Practice**

This unit serves as an introduction to later units in the advertising major and gives learners an overview of the advertising industry and the management of the advertising function. The unit traverses the interrelationship of the institutions of advertising, the advertisers, the advertising agencies and the media. It introduces research and details methods of determining advertising objectives, budgets, establishing target audiences, interpreting audience ratings and circulation figures, and enables learners to gain a preliminary understanding of the creative functions of the advertising industry. It also shows the ethical and legal side of advertising and its important role in society and the economy.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 or BSB117 or 48 credit points of approved prior study for non-Bachelor of Business students only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** COB308

### **AMB221 Advertising Copywriting**

There are two parts to any copywriting process the thinking and the writing. In the first part, students learn to solve advertising problems through an understanding of the prospect and the product and the formulation of incisive creative strategy. In the second part, creative thinking techniques are applied and advertising concepts emerge from the creative strategy. Students' thinking and writing skills are refined in weekly workshops and culminate in a group project.

**Prerequisite(s):** AMB220 or COB308 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB304

### **AMB222 Media Planning**

This unit introduces the qualitative and quantitative factors affecting media selection and use by advertisers. It covers the costing and scheduling of media, market targeting, measuring media exposure, media comparisons and trends. In-depth analysis of advertising media will allow learners to develop an understanding of the characteristics of each. The application of the concepts of media decision making, media strategy and research to the development of a media plan are emphasised.

**Prerequisite(s):** AMB220 **Contact hours:** 3 per week  
**Campus:** Gardens Point **Incompatible with:** COB317

### **AMB230 Digital Promotions**

This subject addresses an important area of business activity and explores the way in which the Internet is changing marketing practice. The foundations of promotion are examined and applied online. The nature, history, and social implications of the Internet are explored. The promotional mix is analysed with a strong focus on developing successfully integrated web sites for organisations. Learners will develop skills in strategic

planning, creative strategy, design, web development as it relates to advertising and promotion, research, and campaign evaluation. Learners will gain important skills in the planning, developing and marketing of websites.

**Prerequisite(s):** BSB126 or CTB126; or BSB112 and BSB117; or 48 credit points of approved prior study for non-Business students only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB218

#### **AMB231 Marketing Communications Regulations and Ethics**

This unit uses a case study approach and starts from the fundamentals of legal compliance through trade practices and fair trading legislation, then moves to the adoption and adherence of the variety of industry based and professional codes. It examines regulatory models in sunrise industries such as broadcasting and telecommunications as well as the problems of cross-jurisdictional regulation posed by Internet based commerce. It offers students the opportunity to develop generic attributes in critical thinking, problem solving, and ethical sensitivity.

**Prerequisite(s):** AMB202 or AMB220 or AMB240 or CTB240 or AMB260 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB307

#### **AMB240 Marketing Planning and Management**

This unit extends the student's knowledge of the fundamental marketing concepts and theories introduced in the Faculty Core unit in Marketing, by adding further breadth and depth of knowledge of marketing and developing skills in the application of this knowledge to marketing planning and management within the business environment. Emphasis is on the role of the marketing manager at the product management level in undertaking analysis, planning, implementation and control of marketing activities.

**Prerequisite(s):** BSB126 or CTB126 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB217 or CTB240

#### **AMB241 E-Marketing Strategies**

E-Business and mobile commerce technologies have emerged as defining technologies for companies in the 21st century. This unit focuses on e-marketing applications and strategies and the marketer's role in developing solutions that integrate new and old economies. Drawing on their knowledge of marketing principles, students will examine the diverse applications of technology in product and service design; product distribution/service delivery and logistics; promotional strategies and other marketing components. The unit also explores the role of emerging electronic models and the use of e-marketing strategies to achieve global competitive advantage.

**Prerequisite(s):** BSB116 or BSB126 or CTB126; and AMB240 or CTB240 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB224

#### **AMB249 Professional Selling**

Many students land their first job in a graduate sales position. Professional selling equips students with a contemporary understanding and knowledge of customer relationship management, the sales force environment,

personal selling techniques and communications skills. Further, students will be exposed to international benchmarks from a selling processes perspective such as identifying prospects, planning sales calls, demonstrations, negotiations, and closing the sale. There are many exciting and challenging roles in sales, some of which are: sales representative, sales team leader, client account manager, and eventually: regional, state, national and international sales management positions.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 **Credit points:** 12 **Contact hours:** 3 **Campus:** Gardens Point **Incompatible with:** MIB230

#### **AMB250 Business to Business Marketing**

This unit addresses the special characteristics of Business markets and Business-to-Business (B2B) marketing programs. It involves the study of organisational buyer behaviour and the special customer/client relationships that form an important part of the Business-to-Business marketing process. Business markets constitute a powerful and essential part of the world economy, being a preliminary source for retailing and manufacturing operations and the force behind major services sectors in supplying government and non-government services including health and education both domestically and internationally.

**Prerequisite(s):** AMB202 or AMB240 or CTB240 or COB207 or MIB217 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB220 or MIB319

#### **AMB251 Innovation and Brand Management**

This unit covers the dynamics of product and service innovation within the marketing function of an organisation. Products are defined in the broadest sense as both tangible and intangible and include the various categories of consumer and industrial products and services. The course covers product market analysis, the product/service development process, design, innovation, research and testing, new product financial analysis, branding and packaging, and new product commercialisation.

**Prerequisite(s):** BSB126 or BSB116 or CTB126 **Corequisite(s):** Nil **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB227

#### **AMB252 Business Decision Making**

**Prerequisite(s):** BSB126 or CTB126 **Credit points:** 12

#### **AMB260 Public Relations Theory and Practice**

This unit introduces the student to the theory and research that serves as the foundation of the practice of public relations. The unit surveys the history of the discipline, the theories on which the discipline is based, and current models of practice. The unit focuses on understanding how to research and analyse the opinions of organisational publics in order to develop mutually beneficial relationships with those publics.

**Prerequisite(s):** BSB126 or BSB116 or BSB117 or CTB126 or 48 credit points of previous study for non-Business students only **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB325

**AMB261 Media Relations and Publicity**

This unit will reflect the strong emphasis within public relations practice of media relations. It will introduce students to the theory of media effects and the role of mass media in public opinion formation and how these concepts contribute to campaign planning. It will also provide students with practical instruction in the development of media tools including media releases, media kits and media plans, and the use of publicity events in campaigns. New/interactive media will also be addressed.

**Prerequisite(s):** AMB260   **Contact hours:** 3 per week  
**Campus:** Gardens Point   **Incompatible with:** COB329

**AMB262 Public Relations Writing**

This unit will introduce students to a range of public relations writing needs. With heavy practical emphasis, the students will create a substantial portfolio of writing across controlled and uncontrolled media. Writing for print and electronic forms is covered as well as new/interactive media. The writing process will be examined from the perspective of audience needs and emphasis will be placed on the research components of the writing exercise as well as the writing/rewriting cycle.

**Prerequisite(s):** AMB260   **Credit points:** 12   **Contact hours:** 3 per week   **Campus:** Gardens Point  
**Incompatible with:** COB326

**AMB263 Introduction To Public Relations**

This unit introduces students to the theory and practice of public relations, the discipline that deals with the creation, maintenance, and enhancement of relationships between organisations and their publics. Topics covered include publicity, events, and public opinion. This unit may be taken concurrently with AMB264 Public Relations Techniques especially by students undertaking a public relations major. However, it may also be taken by those students doing a public relations minor, or as a stand alone unit by those students in a wide variety of study disciplines who wish to understand more about this important area of business.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 or BSB117  
**Credit points:** 12   **Incompatible with:** AMB260

**AMB264 Public Relations Techniques**

This unit offers an introduction to the main tactics and techniques used in public relations. Topics covered include the development of message strategies as well as a specialised focus on the production of examples of a variety of written public relations genres such as brochures, speeches, and media releases. This unit may be taken concurrently with AMB263 Introduction to Public Relations especially by students undertaking a public relations major. However, it may also be taken by those students doing a public relations minor, or as a stand alone unit by those students in a wide variety of study disciplines who wish to improve and enhance their communication skills.

**Prerequisite(s):** BSB126 or CTB126 or BSB116 or BSB117  
**Credit points:** 12

**AMB300 Independent Project 1**

**Prerequisite(s):** Subject to Unit Coordinator approval.  
**Credit points:** 12

**AMB301 Independent Project 2**

**Prerequisite(s):** Subject to Unit Coordinator approval

**AMB302 Project**

**Prerequisite(s):** Subject to Unit Coordinator approval

**AMB303 International Logistics**

This unit examines international logistics through the concepts of international distribution channels and international supply chain management. Strategy in managing international logistical constraints is emphasised with practical studies of contemporary international supply chain management in international industries. Traditional costs and financial aspects of supply chain management are considered. Contemporary issues are incorporated including: the impact of e-business on international logistics; the evolution of new technologies for 'smart' packaging, warehousing and international stock control; the combination of international services with goods products; recent technological developments in international transportation and product quality control.

**Prerequisite(s):** AMB210 or IBB210 or AMB240 or CTB240  
**Credit points:** 12   **Incompatible with:** IBB303

**AMB310 Internship**

Provides the student with experience of professional practice in a suitable company where they actively work on a part-time basis. Students undertake a preferred study program within the Advertising, Marketing or Public Relations framework. Students are required to submit a number of reports reflecting the theoretical concepts acquired during the degree program, and how they might be applied in practice. Students must obtain the approval of the Major Coordinator prior to enrolling in this unit.

**Prerequisite(s):** Subject to Unit Coordinator approval  
**Credit points:** 12   **Contact hours:** 3 per week   **Campus:** Gardens Point   **Incompatible with:** COB320; COB321; MIB308

**AMB313 International Marketing****AMB318 Advertising Copywriting**

**Prerequisite(s):** AMB220 or COB308   **Credit points:** 12  
**Incompatible with:** AMB221

**AMB319 Media Planning**

**Prerequisite(s):** AMB220   **Credit points:** 12  
**Incompatible with:** AMB222

**AMB320 Advertising Management**

This unit takes the perspective of the Advertising Manager and addresses the use of research in developing, implementing, managing, and assessing a successful advertising campaign. In Advertising Management, learners use the case method of learning to examine the advertising process from its place in the marketing mix to the formulation of objectives, strategy and budget to the development of creative and media tactics and their ongoing evaluation. In addition, issues that impinge upon the advertising campaign management process such as legal and ethical issues, globalisation and the client-agency relationship are discussed.

**Prerequisite(s):** AMB318 and AMB319 or AMB221 and AMB222 **Credit points:** 12 **Contact hours:** 3 per week  
**Campus:** Gardens Point **Incompatible with:** COB306

### **AMB321 Advertising Campaigns**

This capstone advertising unit draws from all the theoretical, analytical, and applied material developed throughout the advertising major, and applies it to a client brief. Learners develop advertising solutions that incorporate all aspects of an advertising campaign, including objectives, budgeting, message development, message delivery, and measurement. The key emphasis is on the use of research to develop sound advertising strategy, which is then executed as creative and media ideas and evaluated through ongoing benchmarks.

**Prerequisite(s):** AMB221 and AMB222 **Corequisite(s):** AMB320 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB303

### **AMB330 Advertising Planning Portfolio**

This advanced unit builds on the theoretical perspectives and applied skills introduced to students in copywriting, media and advertising management. It explores important issues such as the contribution of research to the creation of advertising; the hierarchical development of strategy from marketing and IMC strategy through to advertising, media and creative strategy; the role of the strategic planner in advertising; the use of planning to deliver more effective advertising solutions. Using problem-based learning, students establish benchmarks to evaluate advertising, develop advertising briefs and devise strategies for on-time and on-budget process management.

**Prerequisite(s):** AMB318 and AMB319 or AMB221 and AMB222 **Credit points:** 12 **Contact hours:** 3 per week  
**Campus:** Gardens Point **Incompatible with:** COB300

### **AMB331 Direct Marketing**

The discipline of Direct Marketing has grown in importance because of its precise targeting, easy accountability, its foundations role in Integrated Marketing Communication (IMC), and its increasing share of the marketing communication budget. This unit focuses on the principles of direct marketing and the role of the database in locating prospects, tracking customers, and building relationships. It examines the components of direct marketing telemarketing, personal selling, and direct response advertising. As the main communication discipline of direct marketing, the emphasis is on direct response advertising. Students analyse the offer planning, strategy, creative, media, testing, and evaluation of direct marketing campaigns.

**Prerequisite(s):** AMB202 or AMB220 or AMB240 or CTB240 or AMB249 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB315

### **AMB335 E-marketing Strategies**

**Prerequisite(s):** AMB240 or CTB240 and AMB201 or CTB201 **Credit points:** 12 **Incompatible with:** AMB241

### **AMB336 International Marketing**

**Prerequisite(s):** AMB240 or CTB240 or AMB210 or IBB210 **Credit points:** 12 **Incompatible with:** IBB213

### **AMB339 Advertising Campaigns**

**Prerequisite(s):** AMB320 and AMB330 **Credit points:** 12  
**Incompatible with:** AMB321

### **AMB340 Services Marketing**

This unit explores the special characteristics of services that distinguish the marketing of services from goods. Topics include: the distinctive aspects of consumer decision-making relative to services and the implications for marketing strategy formation; the management of demand and supply; customer services and its influence on service satisfaction; service quality management and measurement; internationalisation of the service sector and distribution modes for services that reflect the significant impacts of new technologies on service delivery.

**Prerequisite(s):** AMB240 or CTB240 and AMB201 or CTB201 **Credit points:** 12 **Contact hours:** 3 per week  
**Campus:** Gardens Point **Incompatible with:** MIB311, CTB340

### **AMB341 Strategic Marketing**

Emphasis of the capstone Marketing unit is on the role of marketing manager at the corporate and strategic business unit/division levels. Students are exposed to a variety of strategic marketing techniques and issues, and learn how to apply these in corporate planning and management. Topics include: developing and critiquing strategic marketing planning models; recognising the importance of market focus; determining what marketing strategy can realistically be accomplished for a business; identifying underlying factors that must be considered in developing marketing strategy for a market-oriented organisation; discussing problems in successful implementation of marketing strategy; and organising for successful strategy implementation.

**Prerequisite(s):** AMB240 or CTB240 or MIB217 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** MIB315, CTB341

### **AMB350 Sales and Customer Relationship Management**

Theories related to marketing exchange and the concepts of consumer transactions and relationships and their relative importance in different marketing contexts are examined. The growth of customer relationship management including the transition of consumers along the transaction-relationship continuum and the development of accompanying marketing strategies is highlighted. A discussion of the relative emphasis on transactions and/or relationships in interfacing with the market provides a platform for examining sales management including, personal selling principles and ethics, the setting of sales objectives, selling logistics, account and territory management, sales force planning, recruitment and motivation and evaluation of sales performance.

**Prerequisite(s):** AMB240 or CTB240 or AMB202 or COB207 or MIB217 or AMB249 **Credit points:** 12  
**Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** MIB230

### **AMB351 Tourism Marketing**

This unit examines the tourism system and the unique characteristics of tourists, segmentation bases for tourist

markets, the nature of the tourist destination mix and how marketing is applied within elements of that mix. Services marketing concepts and theories of tourist behaviour are utilised in the analysis of the tourism experience; processes of destination and product development to meet market needs; and, strategy development to accommodate domestic and international tourism marketing environments. Macro-environmental issues impacting on tourism, such as sustainability of the industry and environment, the socio-political context in which marketing occurs and global trends in travel are also explored for their marketing implications.

**Prerequisite(s):** AMB240 or CTB240 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB321

#### **AMB352 Marketing Decision Making**

The nature of decisions and decision models in specific strategic and tactical areas of marketing management are examined in this unit. Decisions related to sales forecasting, market analysis, product planning, pricing, promotion and distribution are viewed from quantitative and qualitative perspectives. Students are exposed to computer software and analysis skills that aid the marketing decision process and build their analytical skills of direct relevance in marketing practice. The unit also embraces the analysis and application of marketing information systems including database marketing and the Internet as a marketing information resource.

**Prerequisite(s):** AMB240 or CTB240 or MIB217 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB320, MIB216

#### **AMB353 Retail Marketing**

This unit focuses on the dynamics of the retailing industry. It provides students with detailed knowledge of the various approaches to how retail marketing is conducted nationally and internationally from both an operational and a strategic perspective. The unit provides a balance of theory and application in topics such as retail institutions and the retail life cycle, store location analysis, store layout, planning and design, merchandising, promotion and stock planning, franchising and industry trends.

**Prerequisite(s):** AMB240 or CTB240 or MIB217 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB229, MIB310

#### **AMB354 Events Marketing**

Events have become significant strategic marketing tools for positioning products/services, industries, destinations and community interests at the local, national and global levels. The unit initially explores various types, roles and objectives of events and the profile and motives of event markets and stakeholders. Key topics include: processes of attracting or developing the event experience including bidding processes; partnership creation with sponsors, media and community; venue selection and design relative to market/stakeholder needs; ticketing/pricing or access management and imaging the event from an integrated marketing communication perspective. Local and international cases are used.

**Prerequisite(s):** AMB202 or AMB240 or COB207 or CTB240 or MIB217 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIB319

#### **AMB359 Strategic Marketing**

**Prerequisite(s):** AMB340 and (AMB335 or AMB241)  
**Credit points:** 12 **Incompatible with:** AMB341

#### **AMB360 Corporate Communication Management**

The unit explores the corporate communication management function within an organisation and identifies how decisions about the use of various corporate communication solutions are made. Emphasis is placed on the role of corporate communication in management systems, the nature and processes of information management in corporate communication and environmental analysis. The unit also draws on contemporary issues in corporate communication management including issues management, ethical and legal considerations in practice and the role of corporate communication in organisational change.

**Prerequisite(s):** AMB261 and AMB262 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AMB361 Public Relations Campaigns**

This unit focuses on the public relations campaign planning process from problem identification and research through to strategy development, campaign development and evaluation. It is designed to meet the students' interests in understanding how various campaign elements come together and to test their ability to integrate their prior learning in the introductory theory and practice units. To service the practice elements of public relations implementation, the unit incorporates a number of client service aspects. Students are expected to research, develop and present their plans. This unit incorporates real world clients to enhance the students' portfolios.

**Prerequisite(s):** AMB201 or MGB220 or CTB201, AMB261 and AMB262 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** COB323, AMB381

#### **AMB369 International Business Strategy**

This unit focuses on the definition and implementation of corporate strategy for worldwide operations. As the capstone unit in the International Business major, it is designed to build upon the knowledge base of previous units, introducing you to the strategic management of firms, and engage you in the strategic choices which international managers face in the international environment.

**Prerequisite(s):** AMB303 or IBB303 or AMB336 or IBB213  
**Credit points:** 12 **Incompatible with:** IBB300

#### **AMB370 Public Relations Cases**

This unit will provide students with an understanding of a wide range of public relations challenges in order to build a better range of experience with management level organisational issues. Australian and international cases will be used to explore different components of public relations practice.

**Prerequisite(s):** AMB261 or AMB262 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AMB371 Corporate Communication Strategies**

This unit provides students with an understanding of the development and analysis of communication strategy in

## UNIT SYNOPSES

public relations and corporate communication. Students learn theory and practice for systematic analysis of the "fit" between environmental factors and organisational resources, the resulting communication problems and development of communication strategies. Students integrate theory and research in such areas as media effects, organisational change, diffusion, and persuasion for analysis and development of communication strategy.

**Prerequisite(s):** AMB360 or AMB361 **Contact hours:** 3 per week **Campus:** Gardens Point

### **AMB372 Public Relations Planning**

This unit introduces students to the public relations planning process. Students build skills in planning by analysing the components, execution and evaluation of contemporary public relations campaigns. The public relations planning process, partnered with theoretical concepts and ethical considerations, is examined across practice contexts and areas.

**Prerequisite(s):** AMB263 and AMB264 and AMB201 or CTB201 OR AMB261 and AMB262 and AMB201 or CTB201 **Credit points:** 12

### **AMB373 Corporate Communication**

Corporate Communication provides students with the opportunity to build on and apply their understanding of public relations to an in-house corporate role. Students gain an overview of an organisation relevant to the practice of public relations at a senior level in organisations by investigating internal communication processes, corporate reputation, corporate social responsibility, organisational culture and change and issues and crisis management.

**Prerequisite(s):** AMB263 and AMB264 OR AMB261 and AMB262 **Credit points:** 12 **Incompatible with:** AMB360

### **AMB374 Global Public Relations Cases**

Global Public Relations Cases will apply the theoretical underpinnings of generic practice to specialist areas. Exposure to real-world global situations and public relations responses will improve students' familiarity with the public relations discipline's practice and strengthen students' decision-making and critical thinking skills.

**Prerequisite(s):** AMB372 or AMB261 or AMB262 **Credit points:** 12 **Incompatible with:** AMB370

### **AMB375 Public Relations Management**

This unit develops student skills in the analysis of public relations public relations programs in line with corporate strategy, integrating long term planning with issue assessment and response. Students extend analytical, interpretive and management skills in the public relations role.

**Prerequisite(s):** (AMB372 & AMB373) or AMB360 **Credit points:** 12

### **AMB379 Public Relations Campaigns**

As the capstone unit, Public Relations Campaigns sees the student bring together the design, strategic planning and tactical preparation that underpins an effective public relations campaign. Students research, develop and present their plans for a real world client, enhancing their portfolio prior to graduation.

**Prerequisite(s):** AMB374 or AMB370 and AMB201 or CTB201 **Credit points:** 12 **Incompatible with:** AMB361

### **AMN400 Consumer Behaviour**

This unit provides an introduction to the area of consumer behaviour and a forum for discussion of theory and research in the field. The current state of consumer behaviour research will be reviewed and some of the emerging trends in the area are explored through several avenues of assessment. The unit provides the environment for students to conduct their own research in areas that are relevant, of interest to them and reflect the interdisciplinary nature of consumer behaviour.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIN419

### **AMN401 Integrated Marketing Communication**

Integrated marketing communication (IMC) is a new discipline that seeks synergistic effect from integrating traditional marketing communication disciplines. This unit explores the development of IMC, looking at reasons for growth, barriers to implementation and organisation issues. Students are introduced to the strategic foundations of IMC, from consumer behaviour, to marketing strategy, to IMC campaign evaluation. The disciplines of advertising, public relations, direct response and sales promotion are then explored to highlight how each contributes to IMC planning.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** CON421

### **AMN402 Events Marketing and Management**

**Prerequisite(s):** PG only **Credit points:** 12 **Contact hours:** 3 per week **Incompatible with:** AMN488, AMN489

### **AMN403 Marketing and Survey Research**

This unit provides a detailed overview of marketing research to support decision making in the areas of advertising, integrated marketing communication, marketing and public relations. The unit builds an advanced understanding of the use of survey research to support the descriptive and predictive information needs of management in such areas as consumer opinions and behaviour, and stakeholder analyses. Students will explore issues related to survey research design, questionnaire development and administration, sampling, measurement, data analysis including descriptive and multivariate statistics and presentation of research results.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIN413

### **AMN404 Readings in Integrated Marketing Communication**

The unit provides participants with the opportunity to make a detailed exploration of the literature on a particular topic or problem in the area of Integrated Marketing Communication under the direction of a supervisor. The readings integrate and consolidate theory and research related to IMC and from other studies undertaken in the course. Students

undertake a formal and systematic review of literature in a particular problem area of IMC related to their interests, project or thesis. Students may also explore work covered in other specialisations.

**Prerequisite(s):** AMN401 **Credit points:** 12 **Contact hours:** Supervision only, Lecture in Week 1 **Campus:** Gardens Point **Incompatible with:** CON416

#### **AMN405 Cases in Integrated Marketing Communication**

This unit provides students with the opportunity to explore a range of topics related to the integration of the elements of the promotional mix-advertising, personal selling, reseller support, publicity, direct marketing, and sales promotion. Through the use of intensive case study analysis and discussion, students will refine conceptual understanding and analytical skills to explore such IMC topics as brand equity and IMC, IMC approaches to promotions management, organisational issues related to structuring corporate IMC functions, environmental analysis and database marketing to inform IMC planning, and IMC strategies and the development of corporate advantage.

**Prerequisite(s):** AMN401 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AMN406 Project**

In this unit, students examine in detail a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based in the published journal literature of the discipline and can involve primary research and analysis. Students can develop a communication audit of an organisation or a case study related to an organisation product or issue. Project supervision will be arranged by the Unit Coordinator through consultation with the student and available staff members.

**Prerequisite(s):** Postgraduate enrolment with 96 credit points of approved prior studies **Credit points:** 24 **Contact hours:** 2-6 per week **Campus:** Gardens Point **Incompatible with:** CON405

#### **AMN411 Independent Study**

An opportunity for advanced level postgraduate students to undertake short-term, individual studies focusing on a problem area of advertising, marketing, public relations or integrated marketing communication.

**Prerequisite(s):** p/g enrolment only **Credit points:** 12 **Campus:** Gardens Point

#### **AMN420 Advertising Management**

This unit empowers students to make effective management decisions within the advertising process. It examines the setting of advertising objectives, and the need for coordination of these with marketing, communication and organisational objectives. It develops a sound understanding of advertising regulations and ethics, budgeting, research and campaign coordination. It further examines management's participation in the creative, media and production processes, and the contribution of advertising management to the cohesion and creativity of the agency.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** CON417

#### **AMN421 Contemporary Issues in Advertising**

This unit surveys the intellectual foundations of a number of contemporary issues emerging within the advertising discipline and provides sophisticated, systematic explanations of their societal implications and consequences. It also explores how these issues are addressed by business, government and organisation.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** CON412

#### **AMN422 Media Strategy**

One of the ultimate determinants of the effectiveness of any advertising campaign is the media strategy. This unit examines ways to improve efficiency in media planning, buying, coordination and research. It examines concepts of media decision making, market targeting through the creative use of media, and strategic planning. It explores current media campaigns and encourages the development of a more creative and integrated approach to media.

**Prerequisite(s):** p/g enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** CON418

#### **AMN423 Strategies for Creative Advertising**

This unit explores the substantive body of academic research on creative advertising. It follows the creative process, beginning with the development of creative strategy and concluding with campaign evaluation. Through cases and presentations, students examine how copywriters think, the illumination of the 'big idea' and its execution across the very diverse advertising media.

**Prerequisite(s):** p/g enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** CON419

#### **AMN435 Communication, Negotiation and Leadership**

**Prerequisite(s):** Nil **Corequisite(s):** Nil **Credit points:** 12 **Contact hours:** 3 **Campus:** Gardens Point **Incompatible with:** Nil

#### **AMN442 Marketing Management**

The study of marketing, marketing systems and marketing management and marketing planning within contemporary structure of social, cultural, political, economic, business and organisational environment. Concepts are applied through the study and construction of a marketing plan, which involves market and sales analysis, target market strategies, tactical decision planning, and implementation and control. Marketing management concepts are applied to virtual and physical markets and attention is given to a range of skills in finance, human resources, information and other skills needed by marketing managers in these markets.

**Prerequisite(s):** p/g enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** MIN422

#### **AMN443 Product and Service Innovation**

This unit examines the dynamics of innovation and development within the mix of core marketing activities of

organisations. Once establishing the integral role innovation plays in organisations, the unit also reviews the key stages in the process of creating, developing and implementing new product and service concepts including product, service and market analysis, design, innovation, evaluation and testing of ideas, branding and packaging, market testing and investment analysis.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** MIN423

#### **AMN444 Services Marketing**

This unit introduces a framework for studying services and explores both strategic and operational issues including the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused marketing programs in service industries; the establishment and maintenance of relationships with customers.

**Prerequisite(s):** AMN442 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** MIN424

#### **AMN445 Strategic Marketing Management**

This is a capstone unit which aims to ensure students can manage the complete marketing function at a senior level within a corporation, and includes assessing the marketing function's performance with appropriate tools to diagnose, assess, track and evaluate performance and to modify processes to improve the function. Links between the marketing function and other functions of a business such as accounting, operations and human resources are drawn, so that the student would be in a position to move into top management if the opportunity arose.

**Prerequisite(s):** AMN442 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** MIN425

#### **AMN447 Contemporary Issues in Marketing**

This unit offers advanced study of topical issues and emerging trends in marketing practice as a result of new technologies, current events and their impact on local, national and international enterprises. In depth interaction with business and public policy leaders expands students research, reflection and strategic thinking abilities.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** MIN407

#### **AMN460 Corporate and Investor Relations**

This unit reviews all aspects of the public relations function in communicating with corporate audiences. Specific focus is placed on how corporate entities meet both regulatory and promotional requirements in communicating with special interest groups including shareholders and employees. Suitable communication tools are examined for use in ongoing communication programs.

**Prerequisite(s):** p/g enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** CON409

#### **AMN461 Corporate Media Strategy and Tactics**

This unit examines theories underpinning mass media and links these with the practice of public relations media tactics. Students analyse techniques and skills used in liaison with electronic media, print media, trade media and news media. Producing and evaluating communication materials such as news releases, features and media kits forms an important part of this unit. Students develop strategic thinking through analysis of contemporary media case studies.

**Prerequisite(s):** p/g enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** CON424

#### **AMN462 Community Consultation and Engagement**

This unit introduces students to key engagement strategies of community information, consultation and participation. The unit develops student understanding of the theoretical foundations of engagement strategies and provides the skills and knowledge for students to analyse community engagement needs and establish engagement programs. Ethical practice is a key organising framework for this unit.

**Prerequisite(s):** Postgraduate enrolment **Corequisite(s):** Nil **Credit points:** 12 **Contact hours:** 3 **Campus:** Gardens Point  
**Incompatible with:** Nil

#### **AMN465 Public Relations Management**

This unit provides learners with an overview of the theory and research that constitute the foundations of public relation practice. The unit provides a detailed inspection of communication processes necessary for the management of organisational relationships with publics. The unit focuses on such topics as issues management, organisational change, public opinion, and mass media effects in order to explore the foundations of contemporary public relations management.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point  
**Incompatible with:** CON415

#### **AMN467 Public Relations Campaigns**

This unit provides a systematic exploration of the planning, management and evaluation of public relations campaigns and programs. The primary goal of the unit is to build a detailed understanding of existing theory and research that informs the development and evaluation of public relations campaigns. The unit focuses on key problem areas of campaign management including strategy, design and evaluation.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AMN468 Issues and Crisis Management**

This unit examines the strategic management of crisis communication including for organisations. A strategic planning approach will be covered including organisation analysis, issues identification, audience prioritisation, strategy formulation, tactical planning and implementation and evaluation. Pre-crisis issues in management will be addressed as well as proactive and defensive communication strategies during crisis. The unit will demonstrate the application of general communication tools to a specialised area.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

**Incompatible with:** CON408

### **AMN488 Events Marketing**

This unit introduces a framework for studying services and explores both strategic and operational issues including the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused, marketing programs in service industries; and the establishment and maintenance of relationships with customers.

**Contact hours:** 3 per week **Campus:** Gardens Point

### **AMN489 Events Management**

This unit builds an understanding of the fundamental principles of events management. The unit focuses on the application of concepts and theories that serve as the foundation for events management as they relate to a business environment. Emphasis is on building an understanding of the role of the events manager in terms of the analysis, planning, implementations and control of event activities.

**Contact hours:** 3 per week **Campus:** Gardens Point

### **ARB083 Urban Design Masters Studio**

This unit is an advanced level urban design project, supported by seminars presented by staff, students and visiting lecturers and distinguished practitioners. This studio focuses on changes in the production and consumption of the city, including the effects of globalisation, space-time compression, economic rationalism, and the privatisation of space, services and professional activities.

**Campus:** Gardens Point

### **AYB114 Business Technologies**

This unit looks at the ways in which organisations adopt and use various electronic business applications in areas of e-commerce, business-to-consumer, business-to-business and intra-business relations. Business models and their impact in various industries are analysed, enabling students to assess the underlying business case, and determine the model's viability in a competitive environment. The issues associated with front-end and back-end e-business applications are considered.

**Prerequisite(s):** NIL **Credit points:** 12 **Incompatible with:** BSB212

### **AYB115 Governance Issues and Fraud**

This unit introduces students to a wide range of information technology governance issues which confront business professionals during the implementation and operation of e-business strategies. It aims to provide e-business and IT professionals with an understanding of current IT governance frameworks and to ensure they are familiar with risk management, fraud detection and prevention, audit and legal issues that are relevant to an organisation's e-business operations.

**Prerequisite(s):** Nil **Credit points:** 12 **Incompatible with:** BSB213

### **AYB121 Financial Accounting**

Financial Accounting examines of the accounting concepts and procedures relevant to both partnership and corporate structures within the context of the accounting profession's

conceptual framework and the relevant accounting standards and Corporations Law requirements. Topics include: the formation, operation, financial reporting and disclosure for both partnerships and companies; accounting for leases; and the professional role of accountants. The emphasis is on the effect of the different forms of ownership on the financial statements.

**Prerequisite(s):** BSB110 or CTB110 **Contact hours:** 3 per week **Campus:** Gardens Point

### **AYB200 Financial Accounting**

Financial Accounting examines of the accounting concepts and procedures relevant to both partnership and corporate structures within the context of the accounting profession's conceptual framework and the relevant accounting standards and Corporations Law requirements. Topics include: the formation, operation, financial reporting and disclosure for both partnerships and companies; accounting for leases; and the professional role of accountants. The emphasis is on the effect of the different forms of ownership on the financial statements.

**Prerequisite(s):** BSB110 or CTB110 **Credit points:** 12 **Incompatible with:** AYB121

### **AYB205 Law of Business Entities**

This unit presents advanced topics in company law including protection of minority interests; prospectuses and fundraising; company charges; insider trading; takeovers and buy-backs; and tax law relating to financially troubled companies.

**Prerequisite(s):** BSB111 or CTB111 **Credit points:** 12 **Incompatible with:** AYB223, AYB305

### **AYB219 Taxation Law**

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levy of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Prerequisite(s):** BSB111 or CTB111 **Credit points:** 12 **Incompatible with:** AYB325

### **AYB220 Company Accounting**

This unit includes: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including entities); accounting for investments in associates; accounting for foreign currency transactions arising from international trading and financing; and the translation of the results of foreign operations.

**Prerequisite(s):** AYB121 **Contact hours:** 3.5 per week **Campus:** Gardens Point

**AYB221 Computerised Accounting Systems**

This unit provides an examination of the concepts, processes and issues relevant to computerised accounting systems including: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; and accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

**Prerequisite(s):** BSB110 or CTB110 **Credit points:** 12  
**Contact hours:** 3 per week **Campus:** Gardens Point

**AYB223 Law of Business Associations**

The unit is intended to equip students with a basic understanding and knowledge relevant to the environment of legal entities, particularly corporations. It also seeks to provide students with sufficient basic understanding of the legal structure of business associations to enable them to recognise the appropriate structure for particular commercial situations.

**Prerequisite(s):** BSB111 or CTB111 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** AYB205

**AYB225 Management Accounting**

This unit introduces students to accounting systems and techniques that provide management at all levels with information for use in planning, controlling and decision making. This can be contrasted with financial accounting, which provides summary financial information principally for external users (ie shareholders, creditors, banks, etc). Emphasis is placed on developing a range of accounting systems (in particular product costing) which may be used in manufacturing firms, although the principles and concepts used to develop such systems can be adapted to service organisations.

**Prerequisite(s):** BSB110 or CTB110 **Credit points:** 12  
**Contact hours:** 3 per week **Campus:** Gardens Point

**AYB227 International Accounting**

International Accounting is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. Issues examined include: comparative international accounting systems and practices; cultural influences on accounting; international financial reporting issues such as international business combinations, intangibles, foreign currency transactions and translation, comparative international analysis of financial statements; and global accounting issues in the twenty-first century. The unit also examines the impact of international harmonization of accounting standards on multinational corporations and the investment communities worldwide.

**Prerequisite(s):** BSB110 or CTB110 and BSB119 or CTB119 **Credit points:** 12 **Contact hours:** 3 per week  
**Campus:** Gardens Point

**AYB230 Corporations Law**

The unit is intended to equip students with a basic understanding and knowledge relevant to the environment of legal entities, particularly corporations. It also seeks to provide students with sufficient basic understanding of the legal structure of business associations to enable them to recognise the appropriate structure for particular commercial situations.

**Prerequisite(s):** BSB111 or CTB111 **Credit points:** 12

**AYB232 Financial Institutions Law**

This unit deals with the regulation of banks and non-bank financial institutions, the financial institutions' scheme, the banker-customer relationship, laws relating to cheques and other negotiable instruments, negligent advice by financial institutions and other possible grounds of liability in the dealings of financial institutions with customers.

**Prerequisite(s):** BSB111 or CTB111 **Credit points:** 12  
**Incompatible with:** AYB312

**AYB240 Superannuation Regulation and Practice**

This unit introduces students to the Australian superannuation system and the regulatory framework under which it operates. The unit aims to develop students' knowledge and understanding of the superannuation system to equip graduates seeking career opportunities in the superannuation industry, or other areas of business dealing with superannuation-related matters affecting organisations and/or individuals.

**Prerequisite(s):** BSB110 or CTB110 or BSB111 or CTB111  
**Credit points:** 12 **Incompatible with:** AYB334

**AYB250 Personal Financial Planning**

This unit introduces students to the fundamental aspects of the financial planning process, the legal framework governing the financial planning industry and the responsibilities of financial planners. The unit will also expose students to alternative strategies of wealth creation while taking into consideration taxation, superannuation and social security issues.

**Prerequisite(s):** BSB111 or CTB111 **Credit points:** 12  
**Incompatible with:** AYB335

**AYB300 Accountancy Work Integrated Learning**

**Prerequisite(s):** Restricted to students enrolled in BS06 and BS07 **Credit points:** 24 **Campus:** Gardens Point

**AYB301 Audit and Assurance**

This unit enables students to comprehend the key concepts of auditing as a discipline, to demonstrate the relationship between auditing and the systems of accountability and to demonstrate the differences between manual and EDP audit processes. The unit builds on the knowledge of accounting and accounting standards acquired in prior units by enabling students to understand in detail the audit process (including professional auditing standards and techniques) which leads to the auditor providing an opinion on the financial reports of various types of entities. Ethics and auditor's liability are also covered.

**Prerequisite(s):** AYB221 & AYB340 or AYB220 **Credit points:** 12 **Contact hours:** 3 per week **Campus:**

Gardens Point

**AYB305 Company Law and Practice**

This unit presents advanced topics in company law including protection of minority interests; prospectuses and fundraising; company charges; insider trading; takeovers and buy-backs; and tax law relating to financially troubled companies.

**Prerequisite(s):** AYB223   **Contact hours:** 3 per week  
**Campus:** Gardens Point

**AYB311 Financial Accounting Issues**

This unit introduces students to the nature of accounting theory and integrates theory with practice to assist in the understanding of major Australian and International accounting issues. The following topics are addressed: positive and normative theories of accounting; the external reporting framework including international harmonisation and the conceptual framework; definition, recognition and measurement of assets, liabilities, equity, revenues and expenses; asset revaluations; intangibles; leases and employee entitlements. Accounting in specific industries such as construction, extractive industries and superannuation funds is also examined. This unit complies with the new international accounting standards. Contracting theory is used

**Prerequisite(s):** AYB340 or AYB220   **Credit points:** 12  
**Contact hours:** 3.5 per week   **Campus:** Gardens Point

**AYB312 Financial Institutions Law**

This unit deals with the regulation of banks and non-bank financial institutions, the financial institutions' scheme, the banker-customer relationship, laws relating to cheques and other negotiable instruments, negligent advice by financial institutions and other possible grounds of liability in the dealings of financial institutions with customers.

**Prerequisite(s):** BSB111 or CTB111   **Contact hours:** 3 per week   **Campus:** Gardens Point

**AYB320 Advanced Taxation Law**

This unit examines the principles governing the taxation treatment of various business entities including partnerships, trusts, companies and superannuation funds from a domestic and international perspective. The unit provides students with an understanding of other considerations which affect the choice of an appropriate business structure from a taxation perspective, including rollover relief and the CGT small business concessions, the importance of legitimate tax planning and the distinction between tax avoidance and tax evasion and some of the more simple aspects of international taxation between Australia and its major trading partners. The unit also covers an analysis of the GST, a review of types of supplies under the Act and the concept of creditable acquisitions. Specific issues such as the GST implications of real property, the margin scheme, GST planning strategies and the GST avoidance provisions are also covered.

**Prerequisite(s):** AYB219 or AYB325   **Credit points:** 12  
**Contact hours:** 3   **Campus:** Gardens Point  
**Incompatible with:** Any two of AYB328 Taxation of Business Entities, AYB323 Taxation Planning and AYB337 Goods and Services Tax

**AYB321 Strategic Management Accounting**

Strategic management accounting develops a theory of organisations that provides an understanding of the information requirements of management to facilitate the strategic planning, decision-making and control necessary for the achievement of their objectives. Topics include: developing effective performance-evaluation systems and compensation plans; examining how managers can design organisations to motivate individuals to make choices that increase firm value; managing transfer-pricing disputes among divisions; developing an understanding of new management accounting practices, including activity-based costing (ABC), the balanced scorecard (BSC), and economic value added (EVA); and appreciating the research on the benefits and problems with ABC, BSC and EVA.

**Prerequisite(s):** AYB225   **Credit points:** 12   **Contact hours:** 3 per week   **Campus:** Gardens Point

**AYB325 Taxation Law**

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levy of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Prerequisite(s):** AYB223   **Contact hours:** 3 per week  
**Campus:** Gardens Point

**AYB338 Accountancy Work Placement**

This unit fosters learning through work related experience. Students will be given the opportunity to experience the work that is performed by accountants and will enable them to more effectively learn and practice accounting discipline knowledge and graduate capabilities. Admission to this unit is by application and subsequent approval by the unit coordinator.

**Prerequisite(s):** Interview & AYB200 or AYB121, AYB221 & AYB219 or AYB325 Or Interview & AYB114 or BSB212 & AYB341 or BSB314   **Credit points:** 12   **Campus:** Gardens Point

**AYB339 Accountancy Capstone**

Accountancy Capstone co-ordinates several parts of the accountancy degree that have already been studied by students. At the same time some new concepts are introduced for each topic. The unit attempts to simulate the real world where the professional advisor/consultant is confronted with unstructured multi-disciplined problems on a day-to-day basis.

Based on the Problem-Based Learning (PBL) methodology, students will learn the process of how to deal with the problems typically faced by the professional advisor/consultant. These problems require students to work together in teams, research issues, gather information

and form conclusions.

**Prerequisite(s):** AYB220/AYB340 and one of either AYB311 or AYB321 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYB340 Company Accounting**

This unit includes: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including entities); accounting for investments in associates; accounting for foreign currency transactions arising from international trading and financing; and the translation of the results of foreign operations.

**Prerequisite(s):** AYB200 or AYB121 **Credit points:** 12  
**Incompatible with:** AYB220

#### **AYB341 Forensic and Business Intelligence**

**Prerequisite(s):** AYB114 or BSB124 or BSB114 **Credit points:** 12 **Incompatible with:** BSB314

#### **AYN410 Business Law and Ethics**

This unit provides an introduction to business law and to morality in the business context. It includes the following: the legal framework for business interpretation of statutes; law of torts; contract law and agency; morality and how it works as an aspect of the business community; the origins of moral belief; and the motives that lead people to abide by what they believe to be morally right and to persuade others to do likewise with special emphasis on business aspects of morality.

**Prerequisite(s):** postgraduate enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** GSN412, GSN422

#### **AYN411 Audit and Assurance**

Topics in this unit include: the audit environment; legal liability of auditors; professional ethics; the study and evaluation of audit planning and programming, evidence, internal control theory and review techniques; audit program applications; audit in CIS environment and evaluation of CIS controls; computer-assisted audit techniques; computer fraud; audit sampling techniques; audit reporting.

**Prerequisite(s):** AYN417 and AYN443 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN412 Company Law**

The unit introduces the law relating to the establishment, operation and dissolution of business association; the forms of business associations, partnerships, trusts, companies and voluntary associations. It also focuses on companies: incorporation requirements, classification, corporate governance, share capital and management issues.

**Prerequisite(s):** AYN410 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN414 Cost and Management Accounting**

This unit introduces students to techniques that provide management at all levels with information for use in inventory valuation, planning, controlling and decision-

making. The unit's major focus is on product costing systems for manufacturing firms.

**Prerequisite(s):** AYN416 or equivalent **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN416 Financial Accounting 1**

This unit provides an introduction to financial accounting within the context of the accounting profession's conceptual framework, relevant accounting standards and the requirements of the Corporations Law. Topics include: the accounting cycle for both service and merchandising entities; the preparation of general purpose financial reports: cash management and control; non-current assets; the formation, operation, and financial reporting requirements for companies; and statement of cash flows.

**Prerequisite(s):** postgraduate enrolment only **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN417 Financial Accounting 2**

This unit covers the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including business entities); accounting for investments in associates; the termination of a company's life and the accounting procedures necessitated by winding up/liquidation.

**Prerequisite(s):** AYN416 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN418 Financial Accounting 3**

This unit introduces students to the concepts and theories that underlie financial reporting and disclosure practices. The regulatory environment and factors influencing accounting policy choices provide a framework for examining the financial effects and behavioural implications of applying different accounting methods to specific accounting issues. Particular emphasis is placed on both the application of specific accounting techniques/rules and the conceptual/theoretical issues associated with alternative accounting methods.

**Prerequisite(s):** AYN417 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN424 International Accounting**

This unit is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. The unit examines issues including: accounting systems in the global environment; international patterns of accounting development including cultural influences on accounting; comparative international accounting systems and practices; the pressures for international accounting harmonisation and disclosure; international disclosure trends and financial analysis; global accounting issues into the twenty-first century.

**Prerequisite(s):** Postgraduate enrolment **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

**AYN433 Research Topics in Accounting**

This unit introduces Honours, Higher Degree Research and other Postgraduate students to a broad range of accounting literature. It is designed to explore various theories and research methodologies that are applied in accounting research through assigned weekly readings and assigned research tasks. The assigned readings include contemporary research in financial accounting, management accounting, auditing and corporate governance.

**Prerequisite(s):** Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. **Credit points:** 12

**Contact hours:** 3 per week **Campus:** Gardens Point

**AYN438 Taxation Law and Practice**

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levying of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Prerequisite(s):** AYN412 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

**AYN442 Superannuation and Wealth Management**

**Credit points:** 12 **Campus:** Gardens Point

**AYN443 Electronic Commerce Cycles**

This unit examines the concepts, processes and issues relevant to computerised accounting systems including: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; and accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

**Prerequisite(s):** AYN416 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

**Incompatible with:** AYB221, AYN402

**AYN454 Forensic Accounting and Investigation**

This unit provides students with a knowledge of critical factors that contribute to fraud and corporate failure, and forensic examination. Students develop an understanding of the risks of fraud and corporate failure occurring and an appreciation for the subsequent forensic review and litigation processes that may follow.

**Prerequisite(s):** U/G degree in Accountancy **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** AYN441, AYN404,

AYN426

**AYN460 Accountancy Work Placement**

This unit fosters learning through work related experience. Students will be given the opportunity to experience the work that is performed by accountants which will enable them to more effectively learn and practice accounting discipline knowledge and graduate capabilities. Admission to this unit is by application and subsequent approval by the unit coordinator.

**Prerequisite(s):** Enrolment in BS16 Master of Business (Accounting), BS17 Master of Business (Accounting or Professional Accounting) or equivalent; plus AYN416, AYN443 & AYN438; or units approved by Major Coordinator **Credit points:** 12 **Incompatible with:** AYN461

**AYN461 Accountancy Work Integrated Learning**

This unit fosters learning through work related experience. Students will be given the opportunity to experience the work that is performed by accountants which will enable them to more effectively learn and practice accounting discipline knowledge and graduate capabilities. Admission to this unit is by application and subsequent approval by the unit coordinator.

**Prerequisite(s):** Enrolment in BS16 Master of Business (Accounting), BS17 Master of Business (Accounting or Professional Accounting) or equivalent; plus AYN416, AYN443 & AYN438; or units approved by Major Coordinator **Credit points:** 24 **Incompatible with:** AYN460

**AYN505 Financial Analysis and Business Valuation**

This unit is about the analysis of financial information arising primarily from the financial reports of entities. Fundamental analysis techniques are examined in detail with particular emphasis on the application of these techniques in equity (share) valuation decisions. The unit comprises three related parts. Part one outlines the four basic steps in the fundamental analysis framework; business analysis, accounting analysis, financial analysis and prospective analysis. The next part combines these skills in addressing the question of valuation, while the final section of the unit applies the skills in several different contexts, such as credit analysis, security analysis, mergers and acquisitions and financial policy decisions.

**Prerequisite(s):** Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. **Credit points:** 12

**Contact hours:** 3 per week **Campus:** Gardens Point

**AYN506 Strategic Management Accounting**

Strategic Management Accounting develops a theory of organisations that provides an understanding of the information requirements of management to facilitate strategic planning, decision-making and control. This unit prepares students for a world of unstructured problem-solving and develops skills in managerial decision-making by the use of current research articles to ascertain how managers can design organisations to motivate individuals to make choices that increase firm value. Topics include: the management of control systems; performance evaluation and compensation incentives; transfer pricing. New management accounting practices, activity-based costing, the balanced scorecard, and economic value

added, are evaluated using the latest research.

**Prerequisite(s):** U/G degree in Accountancy. **Credit points:** 12 **Contact hours:** 3 **Campus:** Gardens Point

#### **AYN507 Governance Issues in Accounting**

This unit adopts an accounting perspective to examine issues relating to sound corporate governance, accountability and transparency. Topics covered include the following: the role of the board of directors and board committees; internal control and risk management; audit committees, internal and external audit; duties of directors and management; codes of conduct and ethics; compensation issues; conflict of interest and insider trading.

**Prerequisite(s):** Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **AYN520 Integrated Issues in Professional Practice**

**Credit points:** 12 **Campus:** Gardens Point

#### **BEB100 Introducing Professional Learning**

This unit will introduce students to a range of skills and knowledge sets required to support professional practice in design, engineering and urban development disciplines. It will include information literacy and communication skills and knowledge development. In addition, the unit will provide orientation to design, engineering and urban development professions through an introduction to their history, their place in society, the importance of ethical conduct to their practice and to the particular qualities of professional knowledge especially with regard to practice knowledge. The importance of integrated scholarship and collaborative links with other professions will be highlighted.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **BEB110 Organising and Managing Project Team**

Project managers face the challenges of operating in a project environment characterized by high levels of uncertainty, cross-cultural teams, and global competition for competent human resources. These challenges can be met by developing a clear understanding of human factors in project management and by effective use of the human resource management skills that are required to inspire project stakeholders to work together in order to meet project objectives. This unit introduces the management of human resources in project, from planning, acquiring, developing and managing project team.

**Credit points:** 12 **Campus:** Gardens Point

#### **BEB111 Managing Project Quality**

In projects, mindless acceptance leads, not to what was intended, but to the opposite: a cumbersome, self-generating administrative process that adds little to effective outcomes, but does add to project costs. However, the proper management of 'quality' in projects is a self-evident and essential requirement. The purpose of project quality management is the same as project management: 'to ensure that the project will satisfy the needs for which it was undertaken'. This unit introduces the processes managing project quality by implementing the quality management

system through the policy, procedures, and processes of quality planning, quality assurance, and quality control, with continuous process improvement activities conducted throughout.

**Credit points:** 12 **Campus:** Gardens Point

#### **BEB112 Principle of Project Management**

Project Management is the overall planning, control and coordination of a project, from inception to completion, aimed at meeting a client's requirements in order that the project will be completed on time within authorized cost and to the required quality standards. The aim of this unit is to provide the key concepts and foundation knowledge in project management, and to describe, clarify, and formalise project management process.

**Credit points:** 12 **Campus:** Gardens Point

#### **BEB113 Managing Project Cost**

Cost is a major metric of a successful project management. This unit introduces the process of managing project cost which includes planning, estimating, budgeting, and controlling costs so that the project can be completed within the approved budget.

**Campus:** Gardens Point

#### **BEB114 Project Financing**

Project is growing in complexity and size. Many projects never get off the ground due to insufficient financing. It is therefore necessary for project managers to know the sources and cost of project funds in order to package a financially viable project for approval. This unit introduces capital budgeting, project finance, and risk analysis. It covers the capital allocation framework, project cash flows, cost of capital, financial risk analysis, and how various types of projects are financed.

**Credit points:** 12 **Campus:** Gardens Point

#### **BEB200 Introducing Sustainability**

This unit will address issues of sustainability from a number of perspectives thus providing students with a variety of lenses on the ways in which the human-made environment impacts on the future of human settlement. The unit will include an introduction to sustainability from a variety of perspectives, including indigenous and other cultural perspectives, and from ecological, economic and technological perspectives. It will demonstrate to students the ways in which contrasting, and sometimes conflicting, ideas about sustainability are prioritised and how these priorities contribute to the impact that design, engineering and urban development professions have on a sustainable future.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

#### **BEB210 Introduction To Collaboration**

**Credit points:** 12 **Campus:** Gardens Point

#### **BEB211 Parametric Design Systems**

**Credit points:** 12 **Campus:** Gardens Point

**BEB212 Advanced Collaboration**

**Prerequisite(s):** BEB210   **Credit points:** 12   **Campus:** Gardens Point

**BEB213 Sustainable Design Systems**

A range of sustainability tools will be covered that support environmental impact analysis, economic analysis and social impact assessment, within a holistic approach to design. The capabilities of the tools will be discussed and then used to build up appropriate workflows that support integrated assessment for sustainability. These will be applied to a comprehensive design problem to reinforce the students understanding.

**Credit points:** 12   **Campus:** Gardens Point

**BEB701 Work Integrated Learning 1**

This unit aims to provide students with the opportunity to learn in a workplace environment. It will involve attendance, participation, observation, and reflection on activities negotiated with the workplace supervisor. The emphasis of the reflection will be on identifying and describing aspects of professional relevance incorporating among others: collaboration and teamwork; workplace, health and safety; professional conduct and ethical responsibility. For some students, this unit forms a part of their (compulsory) course core (as required by professional accrediting bodies), while for others it may be one of several work integrated learning (WIL) units (selected as part of a Minor).

**Credit points:** 12   **Campus:** Gardens Point

**BEB702 Work Integrated Learning 2**

This unit aims to provide students with the opportunity to continue to learn in a workplace environment. It will involve attendance, participation, observation, and reflection on activities negotiated with the workplace supervisor. The emphasis of the reflection for this unit is on explaining and discussing aspects of professional relevance incorporating among others: collaboration and teamwork; workplace, health and safety; professional conduct and ethical responsibility of specific relevance to the student's chosen discipline.

**Credit points:** 12   **Campus:** Gardens Point

**BEB703 Work Integrated Learning 3**

This unit provides students with the opportunity to consolidate and extend their learning through a work placement and associated projects. It will involve some on-campus attendance at lectures and tutorials as well as participation in, observation of, and reflection on activities undertaken during the work placement. The emphasis in the unit is on the critical reflection of academic learning and its application in practice. This is supported through an associated emphasis on the development of high order observation and critical reflection skills and the recording of learning outcomes in an e-portfolio. Most students undertaking this unit will do so as part of a WIL minor.

**Credit points:** 12   **Campus:** Gardens Point

**BEB704 Work Integrated Learning 4**

As with the previous WIL units, this unit involves participation in a work placement, associated projects and on-campus lectures and seminars to further extend and

consolidate studentsâ learning and preparation for professional practice. The emphasis in this unit is on developing a broader appreciation of the issues impacting on industry, the nature of academic and practice knowledge and how they can be productively integrated to respond to the needs of and the challenges facing professional practice. The unit also gives explicit attention to the continuing development of graduate capabilities including oral communications skills. This unit is normally undertaken as the last unit in the first WIL minor.

**Credit points:** 12   **Campus:** Gardens Point

**BEB705 Work Integrated Learning 5**

This unit is normally undertaken as the first unit of a second WIL minor. While the first WIL minor emphasises the context of practice and its relationship to academia, the second WIL minor focuses on the participation of students in work in a more proactive and leading way thereby providing the opportunity for sophisticated, collaborative and reciprocal learning and outcomes for all concerned. In this context, this unit introduces students to the notion of practice-led research and research-led practice and provides them with the opportunity to use practice-based projects as vehicles for further developing discipline knowledge as well as advanced critical enquiry skills. In undertaking the unit, students will collaborate with a project supervisor and prepare an interim and final report and seminar on the project.

**Credit points:** 12   **Campus:** Gardens Point

**BEB706 Work Integrated Learning 6**

**Credit points:** 12   **Campus:** Gardens Point

**BEB707 Work Integrated Learning 7**

**Credit points:** 12   **Campus:** Gardens Point

**BEB708 Work Integrated Learning 8**

**Credit points:** 12   **Campus:** Gardens Point

**BEB801 Project 1**

This unit will expose students to a set of integrated activities, each building upon the preceding, and culminating in a completed project. Students will apply skills and knowledge from earlier in their course, and use a rigorous process of scheduling, design, development, construction, testing, and analysis. These skills and processes will be applied to a real-world problem to simulate the design, development, and management of a project solution.

**Credit points:** 12   **Campus:** Gardens Point

**BEB802 Project 2**

This unit will require students to critically discuss the relationship between theoretical skills and knowledge about their discipline, and the practical application of same in a professional project context. Students will apply skills and knowledge from earlier in their course, and use a rigorous process of scheduling, design, development, construction, testing, and analysis. These skills and processes will be applied to a real-world problem to simulate the design, development, and management of a project solution.

**Credit points:** 12   **Campus:** Gardens Point

**BEB901 Retrofitting for Sustainability**

This unit will provide students with an opportunity to examine in depth current data on the condition of built and natural environments and the wellbeing of people living within these environments, worldwide and in Australia. Special attention will be given to problems observed in the built environment, such as greenhouse gas emissions, population increase, over consumption and resource depletion including water shortages, coastal degradation and urban sprawl.

**Credit points:** 12 **Campus:** Gardens Point

**BEB903 Greenhouse Solutions**

The unit aims to briefly introduce students to barriers facing the adoption of greenhouse abatement strategies and the methods by which these barriers can be overcome. Finally, the unit will describe how energy, transport and urban systems, like the climate system itself, have great inertia: they take decades to change. This means that in order to achieve significant reductions in greenhouse emissions, and to avoid the worst effects of climate change, early planning and action is critical for these systems.

**Credit points:** 12 **Campus:** Gardens Point

**BEN610 Project Management Principles**

This unit serves as an introduction to project management as a fundamental skill for all postgraduate coursework students in built environment and engineering. It offers an overview of the framework, processes and key knowledge areas of project management.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

**BEN710 Sustainable Practice in Built Environment and Engineering**

Sustainability and its impact on the built environment and engineering encompass a wide range of issues and cover many disciplines. Sustainable practice needs to be embedded in professional work such as design, planning, engineering systems, manufacturing, energy generation, water supply, construction, management, and operation of the built assets and environments etc, with the evaluation of environmental, institutional and social implications. Postgraduate students in built environment and engineering courses must develop a keen sense of awareness, a high level of understanding, and a sufficient amount of knowledge of in the application of their professions for sustainable outcomes.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point

**BEN810 Research Methods For Built Environment and Engineering**

**Credit points:** 12 **Campus:** Gardens Point

**BEN910 Integrated Project**

Problems that confront professionals are ill-defined and complex. The ability to define a problem, and collect and analyse relevant information using appropriate research methods is essential to professional practice. From a learning perspective, one of the most effective ways of

achieving this is to consolidate and extend previously gained skills through an activity that is relevant to industry and, where possible, is associated with a specific workplace.

**Credit points:** 12 **Campus:** Gardens Point

**BEN920 Integrated Project**

Problems that confront professionals are ill-defined and complex. The ability to define a problem, and collect and analyse relevant information using appropriate research methods is essential to professional practice. From a learning perspective, one of the most effective ways of achieving this is to consolidate and extend previously gained skills through an activity that is relevant to industry and, where possible, is associated with a specific workplace.

**Credit points:** 12 **Campus:** Gardens Point

**BNB011 Fundamentals of Synthetic Environment**

This unit provides an overview of synthetic environments focusing on their application to design and engineering disciplines as a tool for enhanced communication within a design process. The theory (lecture) component provides an overview of historical and contemporary issues related to synthetic environments, whereas the tutorials provide the necessary computer laboratory skills for the creation of a virtual world. Prior knowledge of 3D CAD is assumed.

**Campus:** Gardens Point

**BSB110 Accounting**

Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with a basic level of knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, analysis and interpretation of financial statements and planning, control and business decision making.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point and Caboolture **Incompatible with:** BSD110, CTB110, CNB293, UDB342

**BSB111 Business Law and Ethics**

This unit integrates the concepts and principles of business law with the theories and applications of business ethics. The unit makes extensive use of cases in law and ethics to develop knowledge and skills that enable students to analyse, apply and evaluate the legal principles and ethical decision-making processes relevant to modern business practice.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point and Caboolture **Incompatible with:** AYB120, CTB111

**BSB113 Economics**

This unit introduces students to the key economic concepts and their practical applications. It comprises twelve topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

## UNIT SYNOPSES

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point and Caboolture **Incompatible with:** CTB113, BSD113

### **BSB114 Government, Business and Society**

This unit provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

**Contact hours:** 3 per week **Campus:** Gardens Point and Carseldine **Incompatible with:** HUB694, HUB682, SSB028, BSD114, CTB114

### **BSB115 Management**

The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that are needed in all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point and Caboolture **Incompatible with:** BSD115, CTB115

### **BSB119 Global Business**

This unit examines the drivers of globalisation and the diversity of country markets at an introductory level. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments. An authentic country feasibility study is undertaken to help identify where a firm can find opportunities both in terms of actual and potential markets and the location for value-adding activities. The unit aims for students to have developed a comprehension of the nature and role of globalisation and the drivers of international business, a knowledge of the competitive forces and challenges confronting all business as a consequence of globalisation processes and an awareness of the additional knowledge and skills required of management to operate business internationally across a diversity of environments.

**Prerequisite(s):** NIL **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point and Caboolture **Incompatible with:** BSB116, BSB112, CTB119

### **BSB122 Quantitative Analysis and Finance**

To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide students with a framework for

understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; the application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; and the three main ideas underpinning financial decisions (time value of money, diversification and arbitrage).

**Contact hours:** 3 per week **Campus:** Gardens Point and Carseldine **Incompatible with:** BSB117, CTB122

### **BSB123 Data Analysis**

The ability to collect, analyse, manipulate, understand and report data is an important skill in any work environment. This is particularly true in business where learning to deal with randomness, variation and uncertainty is a vital skill for anyone intending to apply their knowledge. This unit is designed to ensure that students gain the basic tools necessary to allow them to develop this skill. Students will also gain an introduction to many of the quantitative techniques which will be used throughout their further studies in their chosen discipline.

**Credit points:** 12 **Campus:** Gardens Point and Caboolture **Incompatible with:** BSB122, EFB101, MAB101

### **BSB124 Working in Business**

This unit will help you to kickstart your study and your career in business regardless of your specific discipline. Not only does "Working in Business" give you an understanding of where business has come from and where it is headed, but you will also gain insights into yourself and how you can develop as both a student and professional in the business world. It covers an overview of business, the important issues for working as a professional in an organisation, and also gives you the opportunity to reflect on your own skills, preferences and career options so you can plan a future that suits you.

**Credit points:** 12 **Campus:** Gardens Point and Caboolture **Incompatible with:** BSB114

### **BSB126 Marketing**

This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is placed on understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion, including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point and Caboolture **Incompatible with:** BSB116, CTB126

### **BSB200 Project**

**Prerequisite(s):** Restricted to students enrolled in BS06 and BS07 **Credit points:** 24 **Campus:** Gardens Point

### **BSB212 Electronic Business Applications**

## UNIT SYNOPSES

This unit looks at the ways in which organisations adopt and use various electronic business applications in areas of e-commerce, business-to-consumer, business-to-business and intra-business relations. Business models and their impact in various industries are analysed, enabling students to assess the underlying business case, and determine the model's viability in a competitive environment. The issues associated with front-end and back-end e-business applications are considered.

**Prerequisite(s):** BSB112 or CTB112 or BSB119 or CTB119 or equivalent **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** AYB333, CTB212

### **BSB213 Governance Issues in E-Business**

This unit introduces students to a wide range of information technology governance issues which confront business professionals during the implementation and operation of e-business strategies. It aims to provide e-business and IT professionals with an understanding of current IT governance frameworks and to ensure they are familiar with risk management, fraud detection and prevention, audit and legal issues that are relevant to an organisation's e-business operations.

**Prerequisite(s):** Business students: BSB111 or CTB111 and BSB119 or CTB119. Other students: 96 credit points of approved study **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** AYB332, CTB213

### **BSB310 Business and Biotechnology**

This unit develops business skills that will enhance the ability of those operating within biotechnology firms to capitalise on their research and development efforts. In essence this unit provides the skills-based mechanisms to develop graduates who are effective catalysts in recognising, developing and commercialising opportunities in biotechnology.

**Prerequisite(s):** MGB218 **Contact hours:** 3 per week **Campus:** Gardens Point

### **BSB311 Innovation Commercialisation Strategies**

Students study strategies and approaches used in industry and government organisations for the research, development and commercialisation of biotechnology innovations. The unit offers the opportunity to read widely as well as in depth about the commercialisation of molecular biology and biotechnology research. Theoretical concepts are integrated with prepared case studies prior to guest speaker seminars.

**Prerequisite(s):** BSB310 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point

### **BSB314 E-Business Intelligence**

This unit looks at corporate strategic decisions and the information technology decision support systems and e-business intelligence needed to support management in this process. Group and enterprise IT decisions systems, data warehousing and corporate portals will be examined together with e-business intelligence applications. SAS software skills for decision support and data mining and visualisation will be covered. An introduction to advanced intelligent systems, artificial intelligence and knowledge based support systems will also form part of the unit.

**Prerequisite(s):** 96 credit points of prescribed study in a

degree program **Contact hours:** 3 per week **Campus:** Gardens Point

### **BSD110 Accounting**

Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with some basic knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, and the analysis and interpretation of financial statements for planning, control and business decision making purposes.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Kelvin Grove **Incompatible with:** BSB110

### **BSD113 Economics**

This unit introduces students to the key economic concepts and their practical applications. It comprises 12 topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Kelvin Grove **Incompatible with:** BSB113

### **BSD115 Management**

The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that will be needed at all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Kelvin Grove **Incompatible with:** BSB115

### **BSD119 Global Business**

This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Kelvin Grove **Incompatible with:** BSB119

### **BSD124 Working in Business**

**Credit points:** 12

### **BSD126 Marketing**

This introductory unit examines the role and importance of marketing to the contemporary organisation. Emphasis is given to understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, marketing information systems and

consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, promotion. Promotion includes advertising and public relations. By way of introduction only, key issues relating to services marketing, strategic marketing and marketing planning are also canvassed.

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Kelvin Grove **Incompatible with:** BSB126

#### **BSN005 Introduction to Academic Research**

This unit presents a pathway for coursework students into higher degree research. It will provide students with the opportunity to produce a high quality journal article (as primary author) under the supervision of an experienced researcher. The student will report on research outcomes through their participation in an existing research project. Upon completion of this unit, students should be able to draft a literature review drawing largely on provided sources of literature; analyse provided data within a suitable theoretical framework; identify and justify the choice of an appropriate journal to target for publication; complete the journal article as primary author such that it meets all technical requirements for submission to the identified journal.

**Prerequisite(s):** 240cp of UG study with a GPA of 5.5>; pre-approval of Course Coordinator; subject to supervisor availability & completion of an agreed learning contract. Not offered to ECO or FIN major in BS63 or BS92 **Credit points:** 12 **Contact hours:** 3

#### **BSN404 Project 1**

This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

**Credit points:** 12 **Campus:** Gardens Point **Incompatible with:** MKN101, MKN102, MKN103

#### **BSN405 Project 2**

This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

**Credit points:** 12 **Campus:** Gardens Point **Incompatible with:** MKN101, MKN102, MKN104

#### **BSN406 Project 3**

This unit is designed to permit the student to undertake a 24 credit point research project, subject to approval of the course coordinator.

**Prerequisite(s):** 96 credit points of approved prior study **Credit points:** 24 **Campus:** Gardens Point

#### **BSN409 Research Project**

This is to produce a major piece of applied research. The research project provides the opportunity to apply and reinforce the education and knowledge gained from the course by research report, case study or application of technology. The final project must demonstrate an ability to identify and research a complex business problem in accountancy or banking and finance or a related discipline.

**Prerequisite(s):** BSN506 or BSN507 **Credit points:** 24 **Campus:** Gardens Point

#### **BSN412 Qualitative Research and Analytical Techniques**

This unit provides a detailed overview of qualitative research to support decision-making in business disciplines. The primary purpose of this unit is to develop a detailed understanding of the theoretical contexts in which field studies and qualitative research methods have developed and the techniques that define the approach. Students develop the ability to analyse, conduct, and evaluate qualitative research in discipline areas related to business. The unit provides a basic preparation for the development of a project, thesis or dissertation proposal based on the use of qualitative research.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Gardens Point **Incompatible with:** CON500

#### **BSN414 Quantitative Research Methods**

Quantitative Research Methods is a postgraduate unit designed to introduce students to a range of quantitative research methods and their application to different research questions and types of quantitative data. Throughout the unit, students will be exposed to a wide range of quantitative research issues including survey and index development, factor analysis, multiple regression, experimental data collection and analysis, ANOVA and MANOVA, structural models, secondary data collection and analysis, and longitudinal data analysis. Each lecture will be conducted in computer laboratories to allow students the opportunity to develop their quantitative research skills using SPSS and AMOS with data provided by lecturers.

**Prerequisite(s):** Nil **Corequisite(s):** Nil **Credit points:** 12 **Incompatible with:** BSN502, BSN412, BSN503

#### **BSN501-1 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12 **Campus:** Gardens Point

#### **BSN501-2 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12 **Campus:** Gardens Point

#### **BSN501-3 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12 **Campus:** Gardens Point

#### **BSN501-4 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12 **Campus:** Gardens Point

#### **BSN502 Research Methodology**

The purpose of this study is to provide students with a range of ideas and methods that enable them to analyse, evaluate and conduct research in discipline areas related to business. It provides an essential and basic preparation for the development of a thesis or dissertation proposal. Areas of study include research paradigms, analysis and criticism, research design, data collection and data manipulation, interpretation and presentation.

**Credit points:** 12    **Contact hours:** Flexible Mode  
**Campus:** Gardens Point    **Incompatible with:** BSB400

#### **BSN503 Research Seminar**

In this unit students prepare detailed literature reviews relevant to the thesis or dissertation proposal. Students are required to prepare and present a detailed seminar paper describing and explaining the results of their review and its relevance to the thesis or dissertation proposal. The unit is in two parts: the first provides a series of lectures from staff advising as to the requirements of a thorough, well-directed literature search and review; the second consists of a series of seminars from students presenting their findings.

**Credit points:** 12    **Contact hours:** Flexible Mode  
**Campus:** Gardens Point

#### **BSN506 Econometric Methods**

This unit provides a comprehensive grounding in the econometric methods necessary for conducting research using such methods. Recent contributions to the econometric literature are studied.

**Contact hours:** 3 per week    **Campus:** Gardens Point  
**Incompatible with:** BSN500

#### **BSN600-1 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-2 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-3 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical

foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-4 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-5 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-6 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-7 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

#### **BSN600-8 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12    **Campus:** Gardens Point

### **CEB328 Investigation Project**

This unit gives the student the opportunity to gather a body of information relating to a selected topic from the available literature, and to reach conclusions by critical analysis of this material. The investigation may include analysis and experimental work. The results will be presented as a written report supported by a seminar presentation.

**Campus:** Gardens Point

### **CEB330 Environmental Management for Engineers**

This unit is designed to help students identify and develop the skills required in the role of the environmental engineer and specifically, the engineer as a project manager. This may involve making decisions to direct and manage the environmental aspects of a major project. This unit aims to help develop and encourage life long learning throughout a career as an environmental engineer.

**Prerequisite(s):** CEB233    **Contact hours:** 4 per week

**Campus:** Gardens Point

### **CEB411 Thesis Project A**

Thesis A is a written report of the literature on an area of civil engineering practice where research and development has been undertaken and reported. Students demonstrate skills in problem definition, work planning, critical analysis of the study material information retrieval, and appropriate citation procedures. Report writing and seminar presentation is a major feature. Guided instruction and exercises are given on information retrieval and bibliographic listing and citation.

**Campus:** Gardens Point

### **CEB412 Project Engineering 2**

The unit builds on the understanding of the physical aspect of construction gained in Project Engineering 1 to develop the skills needed to manage a project. Further studies in estimating, contracts administration and cost control provide support for a major computer simulation exercise based on the construction management of a complex industrial project. This experiential component provides a framework for the exploration of issues in the legal, managerial and technical areas which form the basis for the professional presentations that conclude the unit.

**Prerequisite(s):** CEB216, CEB317    **Contact hours:** 4 per week    **Campus:** Gardens Point

### **CEB413 Structural Engineering 3**

This unit includes the following: advanced structural engineering topics: 'Space Gas', 'Microstan', the stiffness method. This method is developed and illustrated by application to some structures. Plastic analysis and the concept of plastic hinge is introduced and applied. Basic structural dynamics is introduced and some simple illustrative examples are provided. Principles of earthquake engineering, aesthetics in bridge design, load paths in structures, and approximate methods in the analysis of complex structures are treated.

**Prerequisite(s):** CEB215, CEB318    **Contact hours:** 4 per week    **Campus:** Gardens Point

### **CEB415 Thesis Project B**

Thesis B is an optional elective and extension of Thesis A CEB411. Various avenues of investigation will have been identified from Thesis A and students undertake a program of investigation which may have experimental, design and analysis aspects. A written report with critical analysis of results and conclusions is prepared, and a seminar presented.

**Campus:** Gardens Point

### **CEB416 Environmental Law and Assessment**

The adverse consequences of human activity have resulted in the adoption of various international treaties, enactment of stringent legislative requirements, and a growing demand for improved management practices. Engineers need to be aware of the way in which the law works, to be able to communicate with lawyers, and to recognise the legal and political implications of their projects. An understanding of the local, state, and federal governments' power to regulate development and the legal and planning requirements and assessment procedures is essential for professional engineering practice.

**Campus:** Gardens Point

### **CEB419 Environmental Transport and Infrastructure Management**

The environmental engineer must be familiar with the role of each transport mode in the overall transport task, along with current issues associated with each mode. This must be overarched by an understanding of the system for planning and management of transport projects and systems, particularly in context with economic, environmental and social attributes. This final year core unit provides students who wish to pursue a career in environmental engineering with an understanding of these areas. The unit also includes case studies covering the environmental impacts for some of the urban and rural transport and infrastructure projects especially in the area of community consultation.

**Prerequisite(s):** CEB214, CEB323    **Contact hours:** 4 per week    **Campus:** Gardens Point

### **CEB420 Environmental Thesis Project A**

Professional engineers must be able to define and solve problems in areas which are not covered in textbooks and manuals of good practice. Research and development work is required to assess critically the available information and to plan and carry out a program of investigation. This subject helps students develop the skills required for this type of work.

**Contact hours:** 4 per week    **Campus:** Gardens Point

### **CEB424 Professional Studies 6 (Concrete Structures and Geotechnical Engineering)**

This unit includes studies of concrete: design and construction; roles of building professionals; design; current structures; structural systems; load paths; rules of thumb; building layout, function and form, design effects; seismic and element loads; structural element loading; formwork and placement constraints; reinforced and prestressed concrete slabs, beams and columns; architectural changes, connections and detailing; footings and foundations; bar scheduling.

**Campus:** Gardens Point

**CEB425 Professional Studies 7 (Civil Design Project)**

In their design project, students should consider a selection of the following: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment, network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.

**Campus:** Gardens Point

**CEB426 Environmental Professional Studies (Civil Project)**

Students should consider the following in their civil project: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment; network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.

**Campus:** Gardens Point

**CEB507 Finite Element Methods**

The Finite Element Method is the 20th century's solution for treating complex problems, which had hitherto remained impossible to solve, in several areas of engineering such as structural, geotechnical, hydraulic, electrical, heat conduction, etc. For example the displacements and stresses in dams, deep beams with openings, shell structures, soil-anchors, etc, can be obtained by finite element analysis. Basic theory and some of the important features of the method, engineering actions, modelling, choice of elements, boundary conditions, input data and interpretation of results are included in this unit.

**Prerequisite(s):** CEB413 **Campus:** Gardens Point

**CEB508 Transport Engineering 2**

This is a final year elective unit to prepare students for a career in transportation engineering, as well as to provide them with an understanding of the analytical processes involved in urban transport planning. It covers all transport modes and places emphasis on the planning and evaluation of transport systems. The unit is designed to highlight the economic, environmental and social impacts of transportation projects. The unit complements CEB323 Transport Engineering 1, by dealing in-depth with urban transportation planning and evaluation.

**Prerequisite(s):** CEB323 **Campus:** Gardens Point

**CEB509 Project Management and Administration**

This unit introduces some of the issues relating to the management of construction projects from both practical and theoretical points of view. Topics covered include the following: leadership and management of organisations and people; planning of a project; engaging of consultants, subcontractors and suppliers; co-ordination of project activities; cost control and claims; legal and insurance issues; information technology issues; written and verbal communication skills; problem solving, and managing and

preventing disputes. Assessment is practical and progressive during the semester and includes a final examination.

**Prerequisite(s):** CEB216, CEB412 **Campus:** Gardens Point

**CEB513 Advanced Construction Practice**

Professional engineers generally work in a highly stressed commercial environment with competing pressures. A student in final year should be exposed to realistic experiences. This subject integrates what has already been taught in the specific civil engineering disciplines and requires the student to prepare and submit a commercial tender for a construction project. Teams of students competitively bid for the project. In addition, relevant legal and commercial issues associated with the tender and subsequent administration of the particular construction contract are covered so that the student appreciates the realities associated with a construction project.

**Prerequisite(s):** CEB216 **Contact hours:** 4 per week

**Campus:** Gardens Point

**CEB514 Project Control**

Contemporary engineering demands that the practising engineer needs to master not only basic design and construction concepts but also current management practices. Engineers, whether they are in construction, design or maintenance need to understand the effect that economic decisions made at federal and state level have on their organisations. They must also realise that everyone has a different leadership style that must be fitted into the organisation's management structure. The subject is designed to provide an insight into the requirements, precepts and problems of project management of interdisciplinary projects.

**Campus:** Gardens Point

**CEB516 Masonry Design**

A structural engineer must have the ability to analyse and design engineering components and systems which use masonry as load bearing and in-fill non-structural panels. This course develops a basic understanding of Masonry Technology and Design using the Australian Standard 3700. It provides an understanding of the differences in the material properties of clay, concrete, calcium silicate bricks and blocks. This unit also provides an understanding of workmanship, site practices and construction details of masonry. Students develop the design skills needed for the design of masonry walls, reinforced or un-reinforced and discuss the difference in design procedures for the different masonry materials.

**Campus:** Gardens Point

**CEB517 Advanced Engineering Studies**

This unit provides an opportunity for students to learn how practicing engineers design cold-formed steel and composite structures. The unit has the following aims: to develop an understanding of the design process and how it interacts with the fundamental knowledge of materials and structural analysis; to use advanced computer tools for analysis and design; to work as part of a design team; to present written reports. Students in groups of two will participate in projects to analyse and design cold-formed

steel and composite structures.

**Campus:** Gardens Point

### **CEB518 River and Coastal Engineering**

Many civil engineers are involved in the analysis and design of engineering works in the river and coastal environment. An understanding of the physical processes taking place is a fundamental requirement if engineers are to take an active role in the management of this dynamic environment. This unit builds on the fundamental principles of fluid behaviour covered in Hydraulic Engineering CEB217 and Water Engineering CEB319 and extend these principles to the river and coastal environment. It relies on a prior understanding of physics, mathematics and solid mechanics, and basic hydraulic engineering principles.

**Prerequisite(s):** CEB319 **Campus:** Gardens Point

### **CEB522 Geotechnical Engineering Practice**

This unit considers the use of soil and/or rock as an engineering material. The unit includes a wide range of activities such as: site investigation and design for building, bridge and other foundations; materials selection, design and construction control for dams, road pavements and embankments; landslide stabilisation and tunnel excavation and support. Following on from the work done in Geotechnical Engineering 1 and Geotechnical Engineering 2, this elective strengthens the understanding of geomechanics, and develops geotechnical investigation, design and construction skills. Three case studies are undertaken, selected from the following: soil reinforcements; lateral loading on piles; embankments on soft soil rock slope stabilisation; house foundations o

**Prerequisite(s):** CEB322 **Contact hours:** 4 per week

**Campus:** Gardens Point

### **CLB001 Records Management**

This unit introduces the paper-based and electronic records and information systems operating within and between organisations and the impact that changes in communication technology have had on these systems.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Incompatible with:** COB121

### **CLB002 Computer Applications in BCT**

This unit includes the study of the use of technology for document preparation, analysis of underlying principles of skills acquisition and traditional and technological perspectives on the following: document design, document formatting, business correspondence, tabulation, financial statements, business forms, and document formatting for specialised businesses.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Incompatible with:** COB119

### **CLB003 Administrative Procedures**

This unit includes an analysis of business environments in a variety of industries: communication practices, communication flows, functions and operational procedures, and the influence and impact of communication technology.

**Prerequisite(s):** Nil **Corequisite(s):** Nil **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove

### **CLB004 Foundation: Text Design and Communication**

This unit examines literacy from contemporary perspectives. Literacy education has tended to make an artificial divide between the printed word and visual information. Increasingly, contemporary literate practices combine multiple text forms employing a range of media and technologies to communicate. Texts are spoken, written, visual imagery and other symbolic forms, and are presented in multimedia combinations and digital interactive contexts. This unit examines the complex simultaneity of texts, delivery modes and media that have specific and more general, social and cultural meaning.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove and Caboolture

### **CLB005 Foundation: Wellness and Active Citizenship**

This unit explores the links between a holistic notion of health and wellness and the practice of active citizenship. It investigates the connections between human wellness, behaviour and particular social, cultural, civic, economic and environmental relationships that characterise communities at particular times and places. Students are encouraged to critically analyse such connections and utilise their knowledge and understanding to develop a sense of purpose about wellness and active citizenship in an increasingly globalised world.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove and Caboolture **Incompatible with:** CLB369

### **CLB006 Teaching Reading and Writing**

New basics emerge in literacy education. The privileged status of print as the almost exclusive basis to literacy has diminished. Postmodern media culture is powerful and pervasive, and knowledge communication today is as much through multimedia as it is through the single medium of print. This unit acknowledges that children now form their early concepts about literacy from textual environments that are considerably more complex than for those of their predecessors. Contemporary language and literacy education must base its practices on texts from a range of technologies, involving different media, and in recognition of diverse contexts and social purposes for communicating.

**Credit points:** 12 **Campus:** Kelvin Grove and Caboolture **Incompatible with:** CLB348

### **CLB007 Learning Literacy by Design**

You are required to engage with socio-critical and inclusive principles and practices relating to language and literacy education. You will plan for literacy development in a range of contexts, and examine how strategic practice is linked to particular theories of language and literacy development.

**Credit points:** 12 **Campus:** Kelvin Grove **Incompatible with:** CLB349

### **CLB008 Teaching Primary SOSE**

This unit focuses on recent developments within the social education curriculum area with particular reference to Studies of Society and Environment (SOSE), a national key learning area and explores teaching and learning approaches in SOSE. Understanding the processes of curriculum development and being able to interpret curriculum documents and their implications for classroom practice are essential professional skills. Students will

investigate SOSE as a curriculum area and to consider ways of translating syllabus requirements into worthwhile teaching and learning activities. Students will critically reflect upon both the theory and the practical suggestions throughout the unit and to consider how effective teaching can be achieved.

**Prerequisite(s):** CLB005    **Corequisite(s):** CLB005  
**Credit points:** 12    **Contact hours:** 3 per week    **Campus:** Kelvin Grove and Caboolture    **Incompatible with:** CLB376, CLB122, CLB374

### **CLB010 Accounting and Business Management Curriculum Studies 2**

This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior Accounting and Business Organisation and Management Syllabi to understand mandatory aspects of each syllabus. This unit will prepare students for their professional role as a teacher of secondary business education subjects, in particular, Accounting and Business Organisation and Management.

**Prerequisite(s):** CLB009 or CLB051    **Credit points:** 12  
**Campus:** Kelvin Grove and External

### **CLB013 Business and Communication Technologies Curriculum Studies 2**

This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior BCT Syllabus to understand mandatory aspects of the syllabus and will prepare students for their professional role as a teacher of secondary business education subjects, in particular, BCT.

**Prerequisite(s):** CLB012 or CLB051    **Credit points:** 12  
**Campus:** Kelvin Grove

### **CLB016 Economics Curriculum Studies 2**

This unit provides pre-service teachers with the opportunities to develop an understanding of teaching and learning in Economics and Studies of Society and Environment (SOSE). The significance of critical approaches and outcomes based approaches are explored in the context of the principles of SOSE/Social Education, pedagogical approaches, syllabus and assessment requirements.

**Prerequisite(s):** CLB015 or CLB054 or CLB051  
**Campus:** Kelvin Grove

### **CLB018 English Curriculum Studies 1**

This introduction to English teaching in secondary schools, provides an indispensable foundation on which English Curriculum Studies II and III are built. Students will develop an understanding of the theories of language and texts that underpin secondary English curriculum and pedagogy and which condition students learning within English classrooms. Students will have opportunities to apply their learning to their field observations and to plan to put theory of language, texts and learners into practice for English teaching.

**Prerequisite(s):** 24 credit points in appropriate discipline

studies    **Credit points:** 12    **Campus:** Kelvin Grove

### **CLB019 English Curriculum Studies 2**

This unit provides an opportunity to develop a theorized understanding of the Queensland English Syllabus for Years 1-10 and to implement this understanding by developing lessons and curriculum units that are appropriate for the needs and interests of diverse learners in a range of sociocultural contexts.

**Prerequisite(s):** CLB018    **Credit points:** 12    **Campus:** Kelvin Grove

### **CLB020 English Curriculum Studies 3**

This unit provides opportunities to develop a theorized understanding of the Queensland English Syllabus for Years 11 and 12, Senior English Communication (SAS) and the Senior English Extension (Literature) Syllabus, and to implement this understanding by analysing and developing senior English programs, teaching and assessment strategies that are appropriate for the needs and interests of diverse learners in particular sociocultural contexts.

**Prerequisite(s):** CLB019    **Credit points:** 12    **Campus:** Internet and Kelvin Grove

### **CLB021 English as a Second Language Curriculum Studies 1**

Effective ESL practitioners require a knowledge and understanding of the many factors that impact on the effective learning of a second (or an additional) language and on learning curriculum content through an additional language. They also need to know how these factors influence planning for learning and how they can be managed to maximise learning outcomes. In this first curriculum unit, students will engage with some of the theory that influences approaches to teaching English as an additional language across the curriculum. Students will engage with the documents that impact on planning for ESL teaching and learning eg ESL Framework of Stages and NLLIA ESL Bandscales.

**Prerequisite(s):** 24 credit points in appropriate discipline studies    **Credit points:** 12    **Contact hours:** 3 per week  
**Campus:** Kelvin Grove

### **CLB022 ESL Curriculum Studies 2**

This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

**Prerequisite(s):** CLB021    **Credit points:** 12    **Campus:** Kelvin Grove

### **CLB023 ESL Curriculum Studies 3**

This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

**Prerequisite(s):** CLB022    **Credit points:** 12    **Campus:** Kelvin Grove

### **CLB024 Film and Media Curriculum Studies 1**

This unit is designed to develop competencies needed for planning and teaching in junior secondary Media (Years 8-10). Students will be introduced to the current curricular directions and frameworks for junior media (1-10) and its applications across the curriculum. The unit will build on the

understandings and skills students developed in the unit Teaching and Learning Studies I and II and relate also to Field Studies I. This should assist in preparing students for the further Field Studies components of the course.

**Prerequisite(s):** 24 credit points in appropriate discipline studies **Credit points:** 12 **Contact hours:** 3 per week  
**Campus:** Kelvin Grove

### **CLB025 Film and Media Curriculum Studies 2**

This unit allows students to apply theoretical knowledge of the curriculum and their Film and Media discipline units to senior secondary contexts. The unit offers the opportunity to develop research and presentation skills by formally researching and discussing the teaching implications of a number of current topics in film and media education.

**Prerequisite(s):** CLB024 **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB026 Film and Media Curriculum Studies 3**

This unit allows students to apply technological concepts and skills in senior and junior media studies and across other curriculum areas. The unit helps students understand and design pre-production texts investigating the role of technologies in the senior curriculum.

**Prerequisite(s):** CLB025 **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB028 Geography Curriculum Studies 2**

This unit provides opportunities to develop an understanding of teaching and learning in Geography and Studies of Society and Environment.

**Prerequisite(s):** CLB027 **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB031 History Curriculum Studies 2**

This unit provides opportunities to develop an understanding of teaching and learning in History and Studies of Society and Environment (SOSE).

**Prerequisite(s):** CLB030 **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB034 Legal Studies Curriculum Studies 2**

The second of three complementary units in Legal Studies Curriculum. Units are designed to help prepare students for a professional role as a teacher of secondary school Senior Legal Studies, and also to prepare them to teach in lower secondary subjects which are law-related, particularly the Civics syllabus of SOSE.

**Prerequisite(s):** CLB051 or CLB033 **Credit points:** 12  
**Campus:** Kelvin Grove

### **CLB036 LOTE Curriculum Studies 1**

This unit allows students to develop an understanding of the language learning process and their awareness of the place of languages in the school curriculum. Students will be encouraged to become reflective learners/teachers who can analyse the contexts in which they work, are familiar with policy and curriculum issues and are able to make soundly-based professional judgments designed to maximize learning for all students.

**Prerequisite(s):** 24cp in appropriate discipline studies  
**Credit points:** 12 **Campus:** Kelvin Grove

### **CLB037 LOTE Curriculum Studies 2**

Practising teachers need to be aware that syllabuses, policy documents and the classroom practices and teaching strategies to which they give rise reflect underlying views of language and learning.

**Prerequisite(s):** CLB036 **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB038 LOTE Curriculum Studies 3**

This unit builds on the two previous units and explores in greater depth a range of practical and theoretical issues in the area of LOTE curriculum development and implementation.

**Prerequisite(s):** CLB037 **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB040 Social Science Curriculum Studies 2**

This unit involves translating the syllabuses into modules or units of work, as well as placing an emphasis on assessment principles in Social Science. Students will also be involved in the development of advanced teaching strategies.

**Prerequisite(s):** CLB054 or CLB039 **Credit points:** 12  
**Campus:** Kelvin Grove

### **CLB042 Primary LOTE Curriculum Studies**

Develops an understanding of the second language learning process and awareness of the place of languages in the primary school curriculum. Students will analyze the contexts in which you work, deal confidently with policy and curriculum issues and make soundly-based professional judgments designed to maximize learning for all students.

**Prerequisite(s):** U/grads 4 LOTE units, P/grads 6 LOTE units **Corequisite(s):** Nil **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB045 Becoming a Second Language User**

This unit aims to develop understanding of the processes of second language acquisition from both a practical and theoretical perspective. Students will gain an insight into the attributes of second language users and the issues facing them in contemporary education.

**Prerequisite(s):** Nil **Corequisite(s):** Nil **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB049 The Global Teacher**

This unit enhances the skills of educators to design curriculum and pedagogy in ways that address global citizenship and educational and human rights.

**Prerequisite(s):** Nil **Corequisite(s):** Nil **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB050 Movies and Popular Culture**

**Credit points:** 12 **Campus:** Kelvin Grove

### **CLB051 Business Education Curriculum Studies 1**

This is the first of three complementary units in the teaching of Business Education. The three units have been designed to help prepare you for a professional role as a teacher of lower and senior secondary school Business Education subjects (Accounting Business Management, Business Communication Technologies, Economics, Legal Studies,

and ICT. In this first unit, the focus will be on curriculum development and teaching approaches in Lower Secondary Business and ICT Education.

**Prerequisite(s):** 48 cps of appropriate discipline studies  
**Corequisite(s):** Nil **Credit points:** 12 **Campus:** Kelvin Grove

### **CLB053 Business Education Curriculum Studies 3**

This unit, the final of three complementary units in the teaching of Business and ICT Education, will develop further your professional knowledge and skills as a learner-focused educator and skilled curriculum developer. The unit explores relevant issues, pedagogy and professional requirements essential for teachers of Business and ICT Education in the twenty-first century classroom.

**Corequisite(s):** Relevant Curriculum Studies 2 unit  
**Credit points:** 12 **Campus:** Internet and Kelvin Grove

### **CLB054 Social Education Curriculum Studies 1**

This is the first of three complementary units in Social Education curriculum aimed at preparing you to teach Social Science subjects in the lower secondary school. This unit focuses on recent developments within the curriculum area of social education, with particular reference to the field of Studies of Society and Environment (SOSE) – a national Key Learning Area. It explores the theoretical context for these curriculum areas, and places emphasis on the links between theory and practice.

**Prerequisite(s):** 48 cps of appropriate discipline studies  
**Credit points:** 12 **Campus:** Kelvin Grove

### **CLB056 Social Education Curriculum Studies 3**

This is the third of three complementary units in Social Education curriculum. The aim of this unit is to provide you with opportunities to develop an understanding of the ways in which new policies and initiatives have impacted on teaching and learning in social sciences and specific discipline studies in the senior school.

**Prerequisite(s):** Nil **Corequisite(s):** Relevant Curriculum Studies 2 unit **Credit points:** 12 **Campus:** Internet and Kelvin Grove

### **CLB320 Studies In Language**

This unit addresses the following topics: the language basis in current approaches to the teaching of English; nature and function of language; the dynamics involved in interactive situations; the appropriateness of language forms used in various social contexts; the educational implications of linguistic diversity within the community; the recognition of the developmental features of adolescent language.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove

### **CLB321 Writing Workshop**

The student, as writer, uses all the language modes in social contexts (either genuine or simulated) to lead to writing in a range of situations. Engagement in these writing situations is designed to bring about personal understanding of the following: the nature of the writing process; the influence of audience and purpose on the final written product; the range of genres (or forms) falling within the writing activity.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:**

Kelvin Grove

### **CLB322 Literature In Secondary Teaching**

This unit covers the following topics: literature teaching in historical perspective; recent developments in theory; poetry in the senior school; teaching drama in the senior school; teaching the novel in the senior school; shorter works (novellas, short stories) and their use in the English curriculum.

**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove

### **CLB323 Teaching Adolescent Literature**
