Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admissions Rules, subject to final approval. It will enable you to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry

students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning', for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow

Bachelor of Media and Communication/Bachelor of Laws

you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Domestic Course structure

Course structure

You will study a combination of media and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units that are relevant to your career interests.

International Course structure

Course structure

You will study a combination of media and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units that are relevant to your career interests.

Sample Structure

A number of changes have been made to Creative Industries courses. Units have been recoded, renamed or discontinued. To see how these changes affect you, it is recommended that you consult the tables below in conjunction with your course outline.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must choose a major from:

- Accountancy
- Advertising
- Economics
- Finance
- Human Resource Management
- International Business

- Management
- Marketing
- Public Relations

For professional recognition, the Accountancy structure differs from the normal structure. Accountancy students will complete seven Business School Core Units and complete a nine unit major.

Professional recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Advanced standing

You may wish to apply for advanced standing (also known as credit or exemption) for former completed studies and other assessable learning outcomes. See more at Advanced Standing

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the

law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units. New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

Graduates will satisfy the requirements for membership in the relevant professional body for their science major. See [Studyfinder](#) for details on the Bachelor of Applied Science majors.

At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practising lawyer you will need to complete further practical legal

training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course: biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geoscience, microbiology and physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

course:

- biochemistry
- biotechnology
- chemistry
- ecology
- environmental science
- forensic science
- geoscience
- microbiology
- physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

International Course structure

Course structure

You will study a combination of science and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Course design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course:

- biochemistry
- biotechnology
- chemistry
- ecology
- environmental science
- forensic science
- geoscience
- microbiology
- physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Domestic Course structure

Course structure

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Design

You will study creative industries and law subjects in your first four years and for the remainder of your course you will concentrate on law studies.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students

Bachelor of Creative Industries/Bachelor of Laws

not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning', for example, working within law firms and government departments in placement electives.

Domestic Course structure

Course structure

You will study a combination of business and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

International Course structure

Course structure

You will study a combination of business and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Sample Structure

A number of changes have been made to Creative Industries courses. Units have been recoded, renamed or discontinued. To see how these changes affect you, it is recommended that you consult the tables below in conjunction with your course outline.

Bachelor of Journalism/Bachelor of Laws

engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Journalism (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Domestic Course structure

Course structure

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Maths A, B or C

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Location

Psychology units are offered at Kelvin Grove campus and Justice units are offered at Gardens Point campus.

Professional recognition

The Bachelor of Behavioural Science component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology, followed by at

least two years of further study, which may comprise the completion of an appropriate APAC-accredited Masters degree and/or supervised work experience.

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Course structure

In order to complete the Bachelor of Behavioural Science (Psychology) component, you must complete a total of 192 credit points consisting of: Psychology core units (12 units = 144 credit points) Psychology elective units (4 units = 48 credit points)

In order to complete the Bachelor of Justice component, you must complete a total of 192 credit points from the following:

Justice core units (8 units = 96 credit points)

Study Area A (8 units = 96 credit points)

Students must complete a total of 384 credit points.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Psychology) (Honours) or Postgraduate Diploma in Psychology, provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Advanced standing based on previous study

QUT's standard advanced standing arrangements apply.

For core psychology units advanced standing is restricted to equivalent units completed in an APAC-accredited psychology program.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Course Overview

Students study a combination of Justice and Law units in the first three years of the course, with the balance of units devoted to Law units only. In the Bachelor of Justice component of the course, 16 units in total, students are required to complete a suite of core units and select a Primary Major (8 units) from one of the following: Criminology and Policing, or Policy and Governance.

Domestic Course structure

Course structure
You will study a combination of justice and law units in the first four years, with law units only in the final years. In the first year of the Bachelor of Justice component, you will complete core units that introduce you to criminology and policing, giving you a foundation for choosing your primary major in third year. Your primary major in either criminology or policing comprises eight units that are fundamental to criminal justice and related discipline areas. In the law component you will have an opportunity to choose elective units from a range of career streams.

International Course structure

Domestic Entry requirements

A Bachelor of Justice 3 year degree or equivalent, with a grade point average of at least 5 (on a 7-point scale). Applicants would normally have completed the *JSB273 Crime Research Methods* unit (or equivalent). Students wanting to do Honours are encouraged to do *JSB976 Independent Study* unit (or equivalent), offered in the Bachelor of Justice undergraduate program. However other qualifications, including work experience or involvement in research, may be deemed appropriate by the course coordinator.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Entry Requirements

A Bachelor of Justice three-year degree or equivalent, with a grade point average of at least 5 (on a 7-point scale). Applicants would normally have completed the *JSB273 Crime Research Methods* unit (or equivalent). Students wanting to do Honours are encouraged to do *JSB976 Independent Study* unit (or equivalent), offered in the Bachelor of Justice undergraduate program. However other qualifications, including work experience or involvement in research, may be deemed appropriate by the course coordinator.

Course Structure

The Bachelor of Justice (Honours) is a 96 credit-point course. Students complete four (4) prescribed units (48 credit points) and a dissertation (48 credit points). The dissertation calls for students to design, develop and implement a substantial research project. Students can pursue original lines of thought, formulate and test hypotheses, develop problem-solving strategies and make structured decisions. Students are expected to demonstrate high ethical standards, awareness of sociocultural and equity issues, and professional accountability. Students should contact the Honours Coordinator to discuss thesis and supervisor.

Articulation

The Bachelor of Justice (Honours) is excellent preparation for entry to higher degree programs ie. Master of Justice (Intelligence or Policing), Master of Justice (Research) or PhD.

Overview

The Graduate Certificate in Criminology provides a tertiary qualification for students who currently work in, and those seeking employment in criminology. Through a range of teaching strategies, the program develops relevant competencies, skills and knowledge in the criminology discipline areas. The program is designed for students who have completed an undergraduate qualification, but students with extensive appropriate professional experience are invited to apply. Completion of this course facilitates entry into the Master of Justice (Criminology).

Entry Requirements

Domestic students:

A relevant and approved three year undergraduate degree from a recognised tertiary institution or a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

International students:

A relevant and approved three year undergraduate degree from a recognised tertiary institution or a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

International Students who are considering making application to this course should be aware this program is not available in a full-time study mode. Units are available for external/on-line mode and may be undertaken off-shore in the students home country.

English Language Requirements

IELTS 6.5 (with not lower than 6 for any one band).

Course Structure

The Graduate Certificate in Criminology consists of four (4) units which comprises of:

- One (1) generic core unit (12 credit points)
- Two (2) specialist units in criminology (24 credit points)
- One (1) elective unit chosen from the Elective list (12 credit points)

Unit Offerings

Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawandjustice@qut.edu.au.

Pathways to further study

A student who has successfully completed the Graduate Certificate in Criminology with a GPA of 4.0 or better, may articulate to the Master of Justice (Criminology) and receive academic credit of 48 credit points equivalent to four (4) units.

Currently enrolled QUT students in an articulating postgraduate coursework nested program (ie. completing Graduate Certificate in Criminology and moving to the next level of study) are not required to complete a Postgraduate Application (PG) form. Student Business Services send an email to your student mailbox inviting currently enrolled students to articulate to the next stage of the program - Master of Justice (Criminology).

Prospective students, not enrolled at QUT, should complete the Postgraduate Application form (PG form) available from

the QUT website - <http://www.qut.edu.au/>

Overview

This course is designed to provide opportunities for non-law graduates to undertake a program of legal study related to their professional and educational needs. It will provide graduates with specialised knowledge and of areas of the law and skills that they will be able to apply within their discipline or professional area.

Domestic Course structure

Course structure

The course comprises 48 credit points (four units) of coursework units. The required credit points can be accrued in two ways. Students may nominate a major from the areas available and choose units to the value of 48 credit points. Alternatively, students can complete a generic certificate by choosing any coursework units to the value of 48 credit points.

Majors include:

- commercial law
- creative industries law
- project management
- health law.

Not all units are available in any one year. Generally, postgraduate units are offered on a two-year rotational basis, and are offered subject to staff availability and minimum enrolments being met. Units may be offered in internal, external or block mode of teaching. However, the core units in the program are currently offered for internal mode only which requires weekly attendance at Gardens

Point campus. Units offered externally are not available for off-shore study - students must be living in Australia.

International Course structure

Domestic Course structure

Senior medical staff, health administrators and managers will gain specialised knowledge to excel their career and manage health law issues confidently. Choose from units including genetic technologies, conception and birth, biotechnology law, children's health, guardianship, health care economics, quality management and risk management. The two compulsory units will give you an over view of Australia's common law system and health care law and ethics. Depending on the elective units you choose, you may be taught by lecturers who literally wrote the book on health law in Australia. The Health major not available full-time if you begin in semester one (February). It's available both full-time and part-time in semester two (July).

International Entry requirements

An appropriate undergraduate degree from a recognised tertiary institution or Professional experience that the Course Coordinator deems to be appropriate.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

Students are required to undertake 4 units (48 credit points). These units are core units taken from the Bachelor of Laws (LW34) program.

External Students

Entry to the distance education (external) mode of the course is restricted to applicants who reside in Australia outside a 30 kilometre radius of the Gardens Point campus.

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the commencing students orientation school. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students' responsibility to ensure they have access to a suitable law library.

Course Coordinator	Dr Allan Chay, Director Legal Practice
Discipline Coordinator	Associate Professor Allan Chay +61 7 3138 2211 a.chay@qut.edu.au

Domestic Entry requirements

An approved degree in law; that is, a degree that satisfies Queensland admission requirements for legal practitioners.

Eligibility for entry

To be eligible for a place in the Graduate Diploma in Legal Practice (the course):

1. you must have completed an approved degree in law by the date the course commences; or
2. you must be currently studying an approved degree in law and, by the date the course commences, expect to have no more than two units of study remaining to fulfil the requirements of the degree.

The course is offered in 3 modes: full time; part time (general; part time (in practice) - available to persons who are working in approved laws firms or government legal offices.

For more information on Queensland admission requirements, please refer to the [Queensland Law Society](http://www.qsls.org.au) website.

International Entry requirements

To be eligible for a place in the Graduate Diploma in legal Practise (the course):

(a) you must have completed an approved degree in law by the date the course commences; or (b) you must be currently studying "an approved degree in law", and by the date the course commences expect to have no more than two units of study remaining to fulfil the requirements of the degree.

"An approved degree in law" is a degree that satisfies Queensland requirements for admission to the legal profession. It includes overseas degrees that have been assessed by an Australian Legal Practitioner's Admission Board where the degree holder has completed any additional undergraduate study required by that Board.

For more information on Queensland admission requirements and assessment of overseas qualifications, please refer to the [Queensland Law Society](http://www.qsls.org.au) website.

Minimum english requirements

Students must meet the English proficiency requirements.

reading	6.0
listening	6.0
overall	6.5

Course Structure

Students must undertake 8 units (96 credit points). Of these, four elective units that carry a postgraduate unit code, are taken from the Bachelor of Laws course.

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Certificate or Diploma following the completion of four or eight approved units.

Overview

The Master of Justice (Intelligence) by Coursework provides postgraduate education in the study area of Intelligence. This course extends the scope of areas presented in the Graduate Certificate program to provide a complete foundation for intelligence professionals.

Entry Requirements - Domestic and International

An appropriate undergraduate degree or equivalent with a minimum grade point average (GPA) of 4.0 (on a 7 point scale).

Applicants who meet the undergraduate requirement and who have relevant professional experience may be eligible for advanced standing.

OR

A graduate certificate in an appropriate field with a minimum grade point average (GPA) of 4.0 (on a 7 point scale).

Notes for International Students

International students may study this course in the External On-line mode in their home country. This course is not available to full-time international students wishing to study this course in Australia as it is not available as an Internal offering.

English Language Requirements

IELTS 6.5 (with no lower than 6 for any one band)

Course Requirements

The course consists of 144 credit points of study comprising of 24 credit points of core units, 72 credit points from a study area and 48 credit points of option units.

Course Requirements

This course consists of six core units, two Justice Elective Units and a choice of 4 Justice Postgraduate option units.

Advanced Standing Based on Previous Study

Students with a relevant undergraduate degree and professional experience may be eligible for advanced standing.

Early exit options

Students may be eligible to exit with a Graduate Certificate.

Unit Offerings

Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawandjustice@qut.edu.au.

Pathways to further

This course articulates with the Master of Justice (Advanced) and the Doctor of Juridical Science (SJD).

Career outcomes

Graduates of this program gain the skills and knowledge to be better prepared or gain enhanced knowledge in their current roles, for example Intelligence Analysts, Security and Investigators, Australian Defence Force, Correctional Services and Federal and State Police Services.

Articulation to Master of Justice (Advanced)

Students who have successfully completed the Master of Justice with a GPA of 4.0 may be eligible to articulate to the Master of Justice (Advanced).

Overview

The Master of Justice (Advanced) provides a higher level postgraduate qualification by building on from the Master of Justice (Intelligence or Criminology). This involves undertaking a work-based thesis or supervisor supported project which enhances research analysis skills. Topics are self selected in consultation with the academic supervisor and, if relevant, the student's employer. Completion of the Master of Justice (Advanced) degree will enable articulation to a PhD or Doctor of Juridical Science research degrees.

Entry Requirements

An appropriate undergraduate degree or equivalent with a minimum grade point average (GPA) of 4.0 (on a 7 point scale). Applicants who meet the undergraduate requirement and who have relevant professional experience may be eligible for advanced standing.

Articulation

Completion of the Master of Justice (Advanced) will enable articulation to PhD or Doctor of Juridical Science research degrees.

Course Structure

The course consists of 192 credit points of study comprising of 24 credit points of core units, 72 credit points from a study area, 48 credit points of option units plus four (4) Research Thesis components of self directed study in consultation with an Academic Supervisor.

Further Information

School of Justice
Phone: +61 7 3138 7132
Fax: +61 7 3138 7123

email: lawandjustice@qut.edu.au

Career outcomes:

Graduates may aspire to management positions in the criminal justice sector, an academic career in justice, or criminology, or industry-led research positions in criminology, crime prevention, policing or security.

Domestic Course structure

The course consists of 192 credit points of study comprising of 144 credit points of course work units (eligible applicants may receive advanced standing) plus four (4) Research Thesis components of self directed study in consultation with an Academic Supervisor of self directed study in consultation with an Academic Supervisor

International Course structure

The course consists of 192 credit points of study comprising of 144 credit points of course work units (eligible applicants may receive advanced standing) plus four (4) Research Thesis components of self directed study in consultation with an Academic Supervisor of self directed study in consultation with an Academic Supervisor

Sample Structure

Master of Justice students who complete a further year of part-time study may complete an advanced research-orientated Master of Justice in the Intelligence Discipline. This involves undertaking a work-based thesis or supervisor-supported project which enhances research analysis skills. Topics are self-selected in consultation with the academic supervisor and, if relevant, the student's employer. Completion of the Master of Justice (Advanced) degree will enable articulation to PHD or Doctor of Juridical Science research degrees.

Code	Title
Course Requirements	
Upon completion of their Master of Justice course, students may be eligible for articulation into the Master of Justice Advanced and may be eligible for advanced standing based on their successfully completed coursework units.	
Students must successfully complete a 48-credit-point dissertation on a topic negotiated by the student with the School and supported by a full-time academic supervisor within a justice-related field or discipline.	
Please refer to the Master of Justice course for course and unit information relating to the Master of Justice.	

Master of Justice (Advanced) Intelligence

Research Units

Students must complete four Research Units

JSN190	Research Thesis
JSN191	Research Thesis
JSN192	Research Thesis
JSN193	Research Thesis

reading	6.0
listening	6.0
overall	6.5

Overview

The Master of Laws by Coursework will deepen and broaden your legal learning, developing your critical evaluation of the law and consideration and analysis of the attitudes and values underlying it. During the course, you are expected to attain high level competence in legal research and writing on areas of conceptual difficulty. The course leads on to the Doctor of Juridical Science (subject to normal entry requirements).

Entry Requirements

Domestic students:

Prospective students must have:

(i) completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent;
OR

(ii) hold a professional qualification in law and have at least three years of

professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

International students:

Prospective international students must have completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent.

Course Structure

The course structure comprises 96 credit points (8 units) of coursework units. This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose units to the value of at least 72 credit points (6 units) from that particular major. The remaining 24 credit points (2 units) can be chosen from any unit offered in the Master of Laws; or
2. Students may complete the degree with a cross specialisation choosing all 96 credit points (8 units) from any unit offered in the Master of Laws.

Additional requirements apply to International students. Please see the international student course structure.

Majors available:

Commercial Law

Health Law (available part-time only)

Articulation

This course articulates with the Doctor of Juridical Science (SJD).

Advanced Standing

Graduates of QUT's Graduate Diploma in Legal Practice are eligible for some advanced standing towards the Master of Laws course. Please contact lawandjustice@qut.edu.au for further information.

Graduates of other Australian university-based practical legal training courses that lead to an award of a Graduate Diploma in Legal Practice are entitled to 12 credit points of advanced standing.

Persons who have successfully completed the Queensland Law Society accredited specialist assessment and are Queensland Law Society Accredited Specialists are entitled to 12 credit points of advanced standing when they enrol in the Master of Laws course.

Unit Information

Not all units are available in any one year. Generally, postgraduate law units are offered on a two year rotational basis, and are offered subject to staff availability and minimum enrolments being met.

Please refer to the following link for current unit information:
<http://www.student.qut.edu.au/about/faculties-institutes-and-divisions/faculties/law/postgraduate-students>

Units may be offered in block, internal or internal and external mode of study.

*International students on student visas are able to enrol in a combination of block, external and internal units each semester. (This is subject to approval)

The degree may contain up to 48 credit points in independent research projects, as approved by the Director, Graduate Programs.

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities (subject to meeting credit rules for the LLM).

Handbook

Year	2013
QUT code	LW51
CRICOS	006380A
Duration (full-time)	1 year
Duration (part-time domestic)	2 years
Campus	Gardens Point
Domestic fee (indicative)	2013: \$7,800 per Semester
International fee (indicative)	2013: \$11,700 per Semester
Total credit points	96
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July
Int. Start Months	February, July
Course Coordinator	Director, Graduate Programs Sheryl Jackson
Discipline Coordinator	

Domestic Entry requirements

Prospective students must have:

(i) completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent;
OR

(ii) hold a professional qualification in law and have at least three years of professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Domestic Course structure

Course structure

The course comprises 96 credit points (eight units) of coursework units. This can be achieved in one of two ways. Students may nominate a major and choose units to the value of at least 72 credit points from that particular major. The remaining 24 credit points can be chosen from any unit not included in the nominated major. Alternatively, students may complete the degree with a cross specialisation by choosing all 96 credit points from any of the majors.

Majors include:

- Commercial Law
- Health Law
- Intellectual Property and Technology Law

LWN162 Australian Common Law System is a compulsory unit for all international students in their first semester of study.

Not all units are available in any one year. Generally, postgraduate units are offered on a two-year rotational basis, and are offered subject to staff availability and minimum enrolments being met. Units may be offered in internal, external or block mode of teaching. Units offered externally are not available for off-shore study - students must be living in

Australia.

Handbook

Year	2013
QUT code	LW51
CRICOS	006380A
Duration (full-time)	1 year
Duration (part-time domestic)	2 years
Campus	Gardens Point
Domestic fee (indicative)	2013: \$7,800 per Semester
International fee (indicative)	2013: \$11,700 per Semester
Total credit points	96
Credit points full-time sem.	48
Credit points part-time sem.	24
Dom. Start Months	February, June, July
Course Coordinator	Director, Graduate Programs Sheryl Jackson
Discipline Coordinator	

Domestic Entry requirements

Prospective students must have:

(i) completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent;
OR

(ii) hold a professional qualification in law and have at least three years of professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Domestic Course structure

Course structure

The course comprises 96 credit points (eight units) of coursework units. This can be achieved in one of two ways. Students may nominate a major and choose units to the value of at least 72 credit points from that particular major. The remaining 24 credit points can be chosen from any unit not included in the nominated major. Alternatively, students may complete the degree with a cross specialisation by choosing all 96 credit points from any of the majors.

Majors include:

- Commercial Law
- Health Law
- Intellectual Property and Technology Law

LWN162 Australian Common Law System is a compulsory unit for all international students in their first semester of study.

Not all units are available in any one year. Generally, postgraduate units are offered on a two-year rotational basis, and are offered subject to staff availability and minimum enrolments being met. Units may be offered in internal, external or block mode of teaching. Units offered externally are not available for off-shore study - students must be living in

Australia.

(i) completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent;
OR

(ii) hold a professional qualification in law and have at least three years of professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Domestic Course structure

Course structure

The course comprises 96 credit points (eight units) of coursework units. This can be achieved in one of two ways. Students may nominate a major and choose units to the value of at least 72 credit points from that particular major. The remaining 24 credit points can be chosen from any unit not included in the nominated major. Alternatively, students may complete the degree with a cross specialisation by choosing all 96 credit points from any of the majors.

Majors include:

- Commercial Law
- Health Law
- Intellectual Property and Technology Law

LWN162 Australian Common Law System is a compulsory unit for all international students in their first semester of study.

Not all units are available in any one year. Generally, postgraduate units are offered on a two-year rotational basis, and are offered subject to staff availability and minimum enrolments being met. Units may be offered in internal, external or block mode of teaching. Units offered externally are not available for off-shore study - students must be living in Australia

Entry Requirements

Students require a four year Bachelor degree from QUT or from another equivalent institution. Students with a three year degree require professional experience in the field of intellectual property or a related area deemed to be equivalent to one year of tertiary education, as approved by the Program Director in consultation with the Director Graduate Programs.

Overview

This course is offered in collaboration with WIPO Worldwide Academy and is designed to build on the skills and knowledge of professionals working in fields related to and allied with intellectual property law by providing;

- a deep and thorough knowledge of IP law, policy and practice relevant to IP professionals as applicable in the global environment, particularly in the

Asia/Pacific region;

- competent research, written and oral skills underpinned by strong practical knowledge of IP law;
- the ability to apply relevant IP law, policy and principles in diverse national and international contexts.

A diversity of teaching methods will be used from intensive classroom delivery and interaction to online contact. However, course content principally will be delivered through face-to-face lectures, tutorials, seminars and workshops. Particularly for WIPO taught units, students will be supported through email and chat room contact with lecturers and tutors. Each unit will be supported by a web site enabling students to access study materials and other information relating to the unit at any time of day or night.

Application Closing Date

The final closing date for applications for this course for mid-January (no late applications will be accepted). Consult: <http://www.student.qut.edu.au/about/key-dates-and-academic-calendar> for more information.

Offer Acceptance

The Faculty of Law would like to advise that if an offer is made to you for this course, that it is necessary for you to accept your offer as a matter of priority. The first unit in this course, LWN401 General Introduction to Intellectual Property Law, commences on 28 February, 2011. Therefore to ensure that you are not disadvantaged in relation to fees, visa requirements or other administrative matters, we advise that you are required to accept your offer into this course as early as possible.

Advanced Standing

Advanced Standing may be awarded to a maximum of 48 credit points where appropriate and as approved by the Program Director.

Early Exit Option

Students who successfully complete four units of the course may apply to exit early with LW61 Graduate Certificate in Intellectual Property Law. Students cannot enter the Graduate Certificate directly.

Course Structure

Course completion requires satisfactory completion of eight core units or

equivalent as determined by the Program Director. This course is normally offered in the full-time mode. Part-time study is available after consultation with the Program Director.

Course Core – 96 credit points comprising:

Course Information

The next cohort for this course will commence in February and finish in October. All classes will be held in C408 (Law Library) at Gardens Point campus.

LWN401 General Introduction to Intellectual Property will be held from February to March with final assessment due in April.

LWN402 Patents and Biotechnological Inventions will be held during March with final assessment due in May.

LWN403 Copyright and Related Rights will be held in April with final assessment due in May.

LWN404 Trade Marks, Domain Names and Geographical Indications will be held during May with final assessment due in June.

LWN405 Industrial Designs and Plant Variety Protection will be held in July with final assessment due in August.

LWN406 Traditional Knowledge and other Emerging Issues; Interface between Antitrust and IP Rights will be held during August with final assessment due in October.

LWN407 Intellectual Property Management will be held during September with final assessment due in October.

LWN408 Research Project will be held during October with final assessment due in October.

Domestic Course structure

Course structure

The course requires satisfactory completion of eight core units or equivalent as determined by the Program Director. The course is normally offered in full-time mode. Part-time study is available after consultation with the Program Director.

Each unit is delivered in a week of intensive classes (26 hours per unit) spread over two semesters (mid-February to late-October).

International Course structure

Course structure

The course requires satisfactory completion of eight core units or equivalent as determined by the Program Director. The course is offered in full-time mode.

Each unit is delivered in a week of intensive classes (26 hours per unit) spread over two semesters (mid-February to late-October).

listening	6.0
overall	6.5

Award

1.1 The following rules apply to the degree of Master Justice to be obtained by research and thesis awarded by the Queensland University of Technology, and are made with the authority of the

Academic Board of this University.

1.2 For the purposes of these Rules the Course Coordinator acts as the delegate of the Dean, Faculty of Law, and the Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

Admissions and Enrolment

3.1 An application for admission shall be made on the prescribed form:

- (i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
- (ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Course Coordinator on the recommendation of the Law Faculty Research Committee.

3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

Progress Reports

4.1 The Principal Supervisor and candidate are required to report on a six monthly basis (by 30 April and 30 September) on the prescribed form on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidature under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 A report on the action taken to resolve the deficiencies in the program must be

made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

Thesis Requirements

5.1 Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis submitted for the degree shall be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminal justice (eg criminology, law enforcement, strategic intelligence). It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Course Coordinator within two months of admission to candidature. The research outline should include the following:

- * The proposed title of the thesis;
- * The objectives of the program of research and investigation;
- * An outline of the proposed research;
- * The Research methods and plan;
- * The relation of the study to previous work in the same field by the candidate and others;
- * A preliminary literature review;
- * A substantial bibliography;
- * A timeline for the completion of the research
- * A copy of the Research Ethics Review Checklist
- * The proposed supervisor(s) and their credentials
- * An intellectual property agreement if required

* Memo of Understanding for any external supervisor

5.3 The Law Faculty Research Committee may, upon the recommendation of the Course Coordinator vary the title of the thesis topic.

5.4 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Course Coordinator.

5.5 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Course Coordinator not later than the end of November or May, as the case may be, in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.6 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.7 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:

- (i) be accepted
- (ii) not be accepted, or
- (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Course Coordinator, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Course Coordinator will consult with the Principal Supervisor to discuss any corrections or revisions that the candidate may be required to make

and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the MJust (Research) degree.

Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of MJust (Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Course Coordinator or nominee shall liaise with the Principal Supervisor to determine the further course of action.

Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The University Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the University Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The University Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school

as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the University Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The University Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

Credit for Research Work Done Elsewhere

6.1 The Course Coordinator may grant credit toward the Master of Justice degree by Research for work done at another institution of similar standing. Such credit shall not be granted unless the candidate provides to the Course Coordinator:

- (i) evidence that the candidate has cancelled or terminated enrolment at the other institution, and
- (ii) a written undertaking that the candidate will not seek credit in any form or manner for work done at the other institution or any other institutions except to complete the degree at QUT.

Time for Completion Requirements

7.1 Except in special circumstances and with the approval of the Course Coordinator:

- (i) a full-time candidate shall complete all the requirements for the degree not earlier than the end of the second semester and not later than the end of the sixth semester of candidature;
- (ii) a part-time candidate shall complete all the requirements for the degree not earlier than the end of the fourth semester and not later than the end of the eighth semester of the candidature. International students studying on student visas must be enrolled on a full-time basis.

7.2 The Course Coordinator may, upon the application of the candidate, extend any time limited by the rules by such further period as may be consistent with general University rules. Extensions of time for international students will only be made in exceptional circumstances. International students should consult the Course Coordinator and the Office of International Students if an extension of time is required.

Award of Degree

8.1 A candidate who has fulfilled the requirements of these rules and who has otherwise complied with the provisions of all statutes and other rules applicable may be admitted to the degree of Master of Justice (Research) by the University Academic Board on the recommendation of the Law Academic Board and the University Research Degrees Committee.

Domestic Course structure

Course structure

Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application.

The thesis that students submit for their degree should be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in the student's area of research.

International Course structure

Course structure

Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application.

The thesis that students submit for their degree should be not less than 50 000 words and should constitute a substantial contribution to knowledge and understanding in the student's area of research.

Domestic Entry requirements

The following persons shall be eligible to apply for admission as a student for the degree:

1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

1.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

1.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

1.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:

1.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or

1.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or

1.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and

1.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

Admissions and Enrolment

2.1 An application for admission shall be made on the prescribed form:

(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or

(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

2.2 Admission of a person as a candidate for the degree shall be at the discretion of the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee.

2.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

2.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

International Entry requirements

The following persons shall be eligible to apply for admission as a student for the degree:

1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

1.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

1.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

1.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:

1.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or

1.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or

1.2.3 The submission of professional

publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and

1.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

Admissions and Enrolment

2.1 An application for admission shall be made on the prescribed form:

(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

2.2 Admission of a person as a candidate for the degree shall be at the discretion of the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee.

2.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

2.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Progress Reports

4.1 The Principal Supervisor and candidate are required to complete a QUT Annual Report, completed online via QUT Virtual and due on 30 September as well as an informal report to the Assistant Dean Research by 30 April.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty

Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

Thesis Requirements

5.1 The thesis submitted for the degree shall be not less than 50,000 words and not more than 60,000 words in length and shall constitute a substantial contribution to knowledge and understanding in the area of the law and subject of the research. It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Assistant Dean, Research within two months of admission to candidature. The research outline should address the following:

- The proposed title of the thesis;
- The objectives of the program of research and investigation;
- An outline of the proposed research;
- The Research methods and plan;
- The relation of the study to previous work in the same field by the candidate and others;
- A preliminary literature review;
- A substantial bibliography;
- A timeline for the completion of the research

- A copy of the Research Ethics Review Checklist
- The proposed supervisor(s) and their credentials
- An intellectual property agreement if required
- Memo of Understanding for any external supervisor

5.2 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Assistant Dean, Research.

5.3 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Assistant Dean, Research in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.4 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.5 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:

- (i) be accepted
- (ii) not be accepted, or
- (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Assistant Dean, Research will consult with the Principal Supervisor to discuss any corrections or revisions

Master of Laws (Research)

that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the LLM (Research) degree.

Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of LLM(Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decisions is that the thesis be accepted or that the thesis be rejected, this shall be the decisions of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The

appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis, one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

Domestic Entry requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- a relevant first or second class division A honours degree or equivalent, or
- an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

International Entry requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- a relevant first or second class division A honours degree or equivalent, or
- an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

Financial Guarantee

Acceptable forms of evidence include:

- A letter from an approved employer confirming the continuation of your salary; or
- A signed Scholarship Agreement between QUT and your sponsoring agency; or
- An accepted letter of offer from QUT

for a postgraduate research scholarship; or

- An approved external scholarship.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Location and Duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- a relevant first or second class division A honours degree or equivalent, or
- an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

English language proficiency requires International applicants to meet an IELTS overall band score of 6.5 with no sub-

score below 6.0.

FINANCIAL GUARANTEE

Acceptable forms of evidence include:

- A letter from an approved employer confirming the continuation of your salary;
- OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

Fees

Australian citizens and permanent residents will be awarded a Research Training Scheme (RTS) place. Domestic students are not required to apply for an RTS entitlement, as it will be automatically allocated. The RTS covers tuition fees but not other study related costs. PhD Students are entitled to four years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for extension, however the University may charge fees for the period of the program, which exceeds the student's entitlement. The University determines the fee level for domestic and international students.

Domestic Entry requirements

1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

(i) holds or has completed the requirements of the degree of (a) Master of Laws by Coursework or (b) Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(ii) have a minimum of two years professional experience appropriate to the proposed course of study;
(iii) demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean, Research, for example, by the publication of articles in refereed research journals; and
(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

International Entry requirements

1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

(i) holds or has completed the requirements of the degree of (a) Master of Laws by Coursework or (b) Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(ii) have a minimum of two years professional experience appropriate to

the proposed course of study;
(iii) demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean, Research, for example, by the publication of articles in refereed research journals; and
(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:
(i) holds or has completed the requirements of the degree of (a) Master of Laws by Coursework or (b) Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

2. Period of Time for Completion of Program

2.1 The normal period of candidature is:

* Full-time candidates: two years from date of commencement;

* Part-time candidates: four years from date of commencement;

In exceptional cases the Law Faculty Research Committee may approve submission of the thesis within a shorter period.

2.2 The maximum period of candidature is:

* Full-time candidates: four years from date of commencement;

* Part-time candidates: eight years from date of commencement;

2.3 The candidate may change from full-time to part-time candidature or vice versa by making application on a prescribed form to the Faculty Research Committee through the office of the Assistant Dean, Research. International students studying on student visas are unable to alter their mode of study from full-time to part-time unless they are in their final semester of study.

2.4 A candidate who does not expect to submit his/her thesis by the maximum candidature date must apply for an extension of time on the prescribed form through the Assistant Dean, Research for consideration by the Faculty Research Committee. The application must include the reasons for the delay, written endorsement of the request for extension by the Principal Supervisor and a revised timeline for completion. Applications for extensions will not normally be considered by the Faculty Research Committee unless the reasons for the delays have been documented in previous progress/supervisor reports. Extensions will only be given in exceptional circumstances. Minor breakdown of computer equipment or absence of a Principal Supervisor are not usually considered exceptional.

3. Supervision

3.1 Supervision shall be conducted according to the QUT Code of Good Practice for Postgraduate Research Studies and Supervision (MOPP Appendix 9).

3.2 A Principal Supervisor from QUT and one Associate Supervisor shall be appointed.

3.3 The Principal Supervisor has responsibility for supervising a candidate on a frequent basis and must be a current member of the QUT staff or an emeritus professor of QUT still active in research. The Principal Supervisor shall normally have undertaken successful supervision of research degree candidates, and shall

have an established research record in the area of the proposed project.

3.4 The Associate Supervisor may be a member of the QUT staff and must possess appropriate expertise in the research field and would normally be a person who has undertaken successful supervision of research degree candidates.

4. Course Structure

The value of the course is set at 192 credit points, a dissertation of 50,000-60,000 words. Students must complete or have completed LWN048 Advanced Legal Research (or equivalent) as a requirement of this course.

You will complete six of the business core units as well as two units of communication.

University Diploma in Business units

- Accounting
- Economics
- Global Business
- Management
- Marketing
- Working in Business
- Professional Communication 1
- Professional Communication 2

Extension English Sessions

For first-semester students, these sessions take place during weeks two to eight. Other QUTIC students in University Entry Programs may join the sessions, if their timetable permits. The aims of Extension English are to improve the student's English language proficiency in speaking, listening and overall writing ability in a relaxed environment.

In addition to developing these language skills, students have the opportunity to discuss cultural issues and ask questions about studying at university.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also require 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have completed four semesters with sound achievement in high school or subsequent study to be considered for admission to this course (4, SA). Accountancy, Finance, Economics and Marketing majors also requires study in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

The Bachelor of Business degree allows you to be flexible in your chosen field of studies to suit your own needs and career aspirations. The three distinct components within the degree give you many combinations of majors and specialisations.

Students commencing the Bachelor of Business must complete 24 units of equal weighting totalling 288 credit points, comprised of:

- eight Business School Core units
- one block of eight Major Core units
- choice of one block of:
 - six Second Major units and two option (elective) units or
 - eight option (elective) units or
 - two Minors (four units each) (university or Business School or extension) or
 - one Minor (four units)(university or

Business School or extension) and four option (elective) units.

Enrolment and advanced standing

You may wish to apply for advanced standing (also known as credit or exemption) for prior completed studies and other assessable learning outcomes. See more on [Advanced Standing](#).

Gardens Point campus students: The first year program and all Business study areas are available at Gardens Point. Students commencing this course at Gardens Point campus must enrol on-line by nominating their primary major and then enrol in units according to that major. You are required to only nominate your first major to satisfy enrolment procedures. The second area of study, i.e. Second Major/Extension/Minor may be nominated at a later date. Students who have been granted advanced standing (academic credit) should nominate their second area of study (i.e. Second Major/Extension/Minor) in order to determine their enrolment program.

Caboolture campus students: The Business School Core units and the Accountancy, Management and Marketing majors are available at this campus. Students must choose first year Business School Core units at Caboolture campus but may choose units from majors from other Business disciplines at Gardens Point to complete the rest of their degree. When enrolling for the first time, students will be required to select either Accountancy, Management or Marketing as their major. After their first year, students will be able to change their major. Students may choose majors offered at Gardens Point or continue their studies at Caboolture. Business core unit availability will vary each semester. Students who wish to complete their degree in full-time mode should consult their Discipline School for specific course progression and enrolment advice. Queries regarding unit availabilities and progression can be directed to Business Student Services on bus@qut.edu.au or the Caboolture Student Centre on caboolture@qut.edu.au.

Special requirements

- For your course structure and enrolment advice see [Course Checklist](#) and follow the instructions.
- A full-time student may only enrol in units contained in the normal course program for semesters 1 and 2 in the first

year of study unless in exceptional circumstances and with the approval of the Course Coordinator.

- A part-time student may only select units from those listed for years 1 and 2 in the first two years of study.
- Students must take Business School Core units at first attempt, in the semester outlined in the structure of their chosen major.
- A student must enrol in more than one unit in any semester, unless they have the approval of the Course Coordinator.

International students

International students must maintain a full-time study load to meet student visa requirements. International students are only permitted to enrol in units at Gardens Point campus. International students should consult the International Student Office on Level 2, B Block for advice.

Professional recognition

Professional Recognition can be found in the individual majors of the Bachelor of Business (BS05).

Degree plus Masters option

You can also expand your career options with a Master of Business in a complementary study area.

Bachelor of Business (Honours) year option

Refer to [\(BS63\)](#) for details.

Important information

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website.

Domestic Course structure

Course design

The Bachelor of Business degree allows you to be flexible in your chosen field of studies to suit your own needs and career aspirations. The three distinct components within the degree give you many combinations of majors and specialisations.

Students commencing the Bachelor of Business must complete 24 units of equal weighting totalling 288 credit points, comprised of:

- (a) eight Business School Core units
- (b) one block of eight Major Core units
- (c) choice of one block of:
 - six Second Major units and two option (elective) units or
 - eight option (elective) units or
 - two Minors (four units each)

(university or Business School or extension) or

- one Minor (four units)(university or Business School or extension) and four option (elective) units.

Enrolment

Gardens Point campus students: The first year program and all Business study areas are available at Gardens Point. Students commencing this course at Gardens Point campus must enrol on-line by nominating their primary major and then enrol in units according to that major. You are required to only nominate your first major to satisfy enrolment procedures. The second area of study, i.e. Second Major/Extension/Minor may be nominated at a later date. Students who have been granted advanced standing (academic credit) should nominate their second area of study (i.e. Second Major/Extension/Minor) in order to determine their enrolment program.

Caboolture campus students: The Business School Core units and the Accountancy, Management and Marketing majors are available at this campus. Students must choose first year Business School Core units at Caboolture campus but may choose units from majors from other Business disciplines at Gardens Point to complete the rest of their degree. When enrolling for the first time, students will be required to select either Accountancy, Management or Marketing as their major. After their first year, students will be able to change their major. Students may choose majors offered at Gardens Point or continue their studies at Caboolture. Students who wish to complete their degree in full-time mode should consult Studyfinder for specific course progression and enrolment advice.

Bachelor of Business (Honours) Year Option

For high-achieving undergraduate students who wish to take further studies may enrol in BS63 Bachelor of Business (Honours).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). The Accountancy major assumes 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. The Accountancy major requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

Academically, you will build a base of broad business knowledge through the core units, covering all areas of business from finance and economics through to marketing and electronic business. Generic skills in all areas will enhance your understanding of how businesses operate within the commercial and legal environment.

Year 2

You will learn how to interpret financial information and reports and gain skills in using this information for business decision making. Practical experience in using software such as MYOB and Accounting Information Systems Cycles will complement your theoretical knowledge in corporate reporting and product costing. You can start to build your professional networks and find out more about the corporate world that awaits you at boardroom seminars. You'll also start to shape your career with the

selection of a second study area.

Year 3

You will draw on the knowledge gained through your major to solve real-world accounting problems such as preparing a tax return or analysing the financial statements of a client business. You'll also investigate how auditors report on the financial statements of companies, individuals and trusts. For the best chance of a top job to launch your career, attend graduate recruitment events on campus or take a work placement with one of our industry partners.

Professional recognition

Graduates who complete the Accountancy major and the Professional Accounting extension meet the academic component of requirements for membership of CPA Australia, the Institute of Chartered Accountants in Australia, the Institute of Public Accountants, and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants.

In addition we have also been accredited with RG146. Therefore students who complete the Superannuation and Wealth Management Minor in conjunction with an Accountancy Major will meet the Australian Securities and Investments Commission (ASIC) RG146 agreed competency and skill requirements for Tier 1 financial advisers.

The Professional Accounting Extension is offered at Gardens Point campus.

Real world focus

In third year some students will have the opportunity to undertake an organised work experience placement with an accounting firm or in an organisation in the media, community, banking or government sector. Demonstrating your ability to apply your knowledge in a real workplace is another way you can stand out from the crowd to future employers.

You can even get a taste of what life is like as a researcher during your studies, with paid research work opportunities within the School, working with academic supervisors on real-world research projects, or as part of a Summer Semester Research scholarship. You might discover your potential for research work or an academic career.

Accountancy at Caboolture Campus

Students who study Accountancy at Caboolture campus can complete their primary major in Accountancy with a second major in Marketing or Management, all at Caboolture campus. There are detailed course structures provided to ensure students can meet the requisite requirements. Students are encouraged to contact the Caboolture Business Academic Coordinator if they need to deviate from the course structure.

If you wish to undertake the Professional Accounting extension and the Superannuation and Wealth Management Minor you will need to travel to Gardens Point campus occasionally in your final semesters of study.

Other majors

See also separate entries for the following majors in this course: Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing, and Public Relations.

overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to international and electronic business. With generic skills in all areas, you'll have an understanding of how businesses operate within the commercial and legal environment. Your advertising major starts in second semester with the question of why consumers choose the products they buy. You'll also learn how advertising agencies relate to both the media, suppliers and the companies that hire them.

Year 2

You will build your skills in creating advertising, including practical writing and concept development workshops. You'll learn to solve advertising problems by analysing the consumer and the product, and how to create cost effective media schedules. You can start to build your professional portfolio and gain the attention of national and international agencies by entering competitions

specifically for advertising students. You'll also have the opportunity to personalise your degree with the selection of your second study area.

Year 3

You will round out your major by formulating an advertising campaign from a real-world client's brief. Working as a team, you'll research your client's advertising problem and identify strategies to solve it. You'll then develop creative ideas, match them to innovative media solutions and deliver a boardroom pitch to the client. Your client could be a Queensland icon such as Queensland Day, the Ekka or the Brisbane Lions, a charity such as Muscular Dystrophy, or a national consumer goods or pharmaceutical company.

Professional recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Advertising first and second major – Students will meet requirements for membership to the Advertising Federation of Australia, the Australian Association of National Advertisers, Media Federation of Australia and the Australian Direct Marketing Association.

Our reputation

QUT was the first university to offer a degree level program in advertising - a decade before anyone else in Australia. This course remains a unique advertising degree taught within a business school, giving QUT advertising graduates a strategic and commercial edge.

Industry links

The advertising industry is a network, and one which QUT is strongly connected to. Our School of Advertising, Marketing and Public Relations interacts with the industry, sponsoring events and drawing from the industry a talented pool of guest lecturers.

Our lecturers have worked in the industry, and bring real-world experience and in-depth theoretical underpinnings to the classroom.

AMPed, the student association for QUT advertising, marketing and public relations students, is another link to the real world. Through AMPed you can access industry professionals, and find out about events run by professional bodies. It's also a

great way to meet your peers, and create your own career networks.

Practical teaching

As an integral part of this course, you'll work in a team to formulate an advertising campaign from a real-world client's brief. You'll research your client's advertising problem and identify strategies to solve it. You'll then develop creative ideas, match them to innovative media solutions and deliver a boardroom pitch to the client. Your client could be a Queensland icon such as Queensland Day or the Ekka, a charity such as Muscular Dystrophy, or a national consumer goods or pharmaceutical company.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). The Economics major assumes 4 SA in Maths A, B or C.

International Subject prerequisites

- Maths A

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. The Economics major requires study in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, from finance and accounting through to marketing and international business. With generic skills in all areas, you will have an understanding of how businesses operate within the commercial and legal environment. Your economics major begins in second semester, when you'll cover consumer behaviour, business cycles and policy, and the significance of the international economy. You will build skills in interpreting financial and economic data and reports, and use this information for business decision making.

Year 2

Delving further into your major, you will learn more about production, the economics of market structures, the workings of the national economy, and the roles of fiscal and monetary policy. You will contemplate the interplay

between government, private firms and consumers, and analyse the increasing globalisation of world trade and investment. You will also shape your future career options through the consideration of a second study area.

Year 3

Projects and research assignments will build your practical skills. You will apply economic theories learned so far to topics of current interest, such as the federal budget, Australia's ageing population or global warming. You will learn how to locate the data for your analysis, decide on the relevant economic theories and models, and distil this into possible solutions. This analysis will help you advise the best way forward, and give you a practical introduction to the real-world applications of economic theory.

Professional Recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Study area

Economics major – You will meet the academic requirements for professional membership to the Economic Society of Australia.

Second study area

Finance second major – Students will meet the educational requirements for Associate Membership of the Financial Services Institute of Australasia (FINSIA).

All second majors – Students will meet the academic requirements for enrolment in the Graduate Diploma of Applied Corporate Governance at Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma of Applied Corporate Governance, students will meet the academic requirement for professional membership of Chartered Secretaries Australia and also membership of the international association, Institute of Chartered Secretaries and Administrators (ICSA) of which CSA is the Australian division. Membership of ICSA entitles members to use the post nominals of ACIS or Fellow of Chartered Institute of Secretaries (FCIS). Ordinary Membership of the Economics Society of Australia only requires students have an interest in the area of Economics. Academic requirements for Professional Membership of the Economics Society of Australia (Qld) requires that students have held an Ordinary Membership of the

Economics Society of Australia for one year and have completed a Bachelor of Business majoring in Economics.

Industry links

Our lecturers have a wide range of real-world experience in finance, government policy making and in industry, so their teaching reflects current thinking and is based on practical situations and outcomes. These links also provide access to guest lecturers, who add their own experiences and challenges to your learning and thinking.

Sample Structure

This is the recommended progression for students studying the Economics major.

The Economics major has four core units and four option units. When you see a reference to an Economics Option Unit in the structure, refer to the list of Applied Economics and Quantitative Economics option units located at the bottom.

Important: these option units are not offered every semester and some units have pre-requisites. It is strongly recommended you plan ahead when you are considering your option choices. This will ensure you are able to study the electives you want.

If you require further advice regarding your course progression please contact the School of Economics and Finance.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). The Finance major also assumes 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. The Finance major also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from accounting and economics through to marketing and international business. You will gain generic skills in all areas and an understanding of how businesses operate within the commercial and legal environment. You will begin your major with skills in interpreting economic data for business decision making. Business cycles, foreign exchange markets, terms of trade and the significance of the international economy will also be covered.

Year 2

You will build a deeper understanding of the fundamental concepts of finance – the time value of money and the effect of interest rates, diversification and its role in forming an investment portfolio, and the relationship between risk and return. The

types of financial markets and instruments traded, such as shares, bonds and futures, will also be introduced. You will also choose a second study area, such as accounting, economics, or further finance studies, which will help to shape your career.

Year 3

Project work and research assignments will hone your practical skills and prepare you for the workplace. You will develop valuation skills relevant to shares and derivatives. You can also act as a corporate treasurer for a semester, using data facilities in the Securities Dealing Room to gain experience in raising funds and managing the risk and cost of borrowing these funds in the face of unfolding economic scenarios.

Professional recognition

By choosing appropriate units in this course, you will meet the Australian financial professional training standard RG146 Tier 1 compliance, as administered by the Australian Securities and Investments Commission. Graduates of the finance major meet the academic requirements for Associate Membership of the Financial Services Institute of Australasia.

Second study area

Economics second major – Students will meet the educational requirements for Associate Membership of the Financial Services Institute of Australasia. Ordinary Membership of the Economics Society of Australia only requires that students have an interest in the area of Economics. Professional Membership of the Economics Society of Australia (Qld) requires students have held an Ordinary Membership of the Economics Society of Australia for one year and have completed a Bachelor of Business majoring in Economics.

All second majors – Students will meet the educational requirements for Associate Membership of the Financial Services Institute of Australasia.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia. On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirement for Professional Membership of the Chartered Secretaries Australia.

Bachelor of Business (Finance)

Financial Services extension –
Completion of some units in this extension will enable students to partially meet ASIC RG146 Tier 1 compliance. Refer to ASIC for more details.

Funds Management extension –
Completion of some units in this extension will enable students to partially meet ASIC RG146 Tier 1 compliance. Refer to ASIC for more details.

Securities Dealing Room

QUT pioneered the use of real financial data in Queensland universities. Our Securities Dealing Room gives you access to data from Bloomberg, providers of financial data to many of the world's financial institutions. This comprehensive set of data on companies, commodities and economics will be useful in your final year project work, and allow you to apply the theory you learn to conduct real-world financial analysis.

Industry links

Our finance lecturers have a wealth of real-world experience, including consulting with Queensland Treasury, Brisbane City Council, QR, Queensland Transport and Ergon Energy, and guest lecturing with industry bodies such as the Financial Services Institute of Australasia (FINSIA) and CPA Australia.

Practical teaching

Final year project work and research assignment will hone your practical skills and prepare you for the workplace. You will act as a corporate treasurer for a semester, using data facilities in the Securities Dealing Room to gain experience in raising funds and managing the risk and cost of borrowing these funds in the face of unfolding economic scenarios.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and electronic business. With generic skills in all areas, you will have an understanding of how businesses operate within the commercial and legal environment. Your focus on human resources begins with a broad introduction to many of the human resource management functions and how these functions complement the strategic direction of businesses and help organisations maintain competitive advantage.

Year 2

You will build your foundation knowledge of business and human resource management, through developing a deeper understanding of individuals and groups. You will also investigate how the structure and organisation of human resources impact on organisations and their activities. You will develop skills in the implementation of human resource

activities through practical work examples and case studies. You will also have the opportunity to personalise your degree with the selection of a second study area.

Year 3

In your final year you will extend and integrate your knowledge of business and human resource management using critical thinking and decision making skills to analyse, diagnose and provide recommendations for implementing organisational change, work force planning, and human resource development. You will explore and critique real-world cases and projects, applying your theoretical knowledge to develop practical strategic policy suggestions for organisations.

Professional recognition

This program enables you to join the Australian Institute of Management and the Australian Institute of Training and Development.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and management. You will develop generic skills in all areas, and gain an understanding of how businesses operate within the commercial and legal environment. You will begin your studies in international business with specific emphasis on international marketing and market entry strategies.

Year 2

You will tackle import and export management, and investigate the challenges involved in producing goods to distribute overseas. You will begin to personalise your degree with an understanding of the history, culture and business environments of countries in either Asia or Europe as your international region of expertise. Your choice of second business study area will further direct your future career options.

Year 3

You will be encouraged to immerse yourself in another culture through further regional studies, or through international exchanges. Take the opportunity to gain practical skills in cross-cultural communication and negotiation, logistics, and contemporary business strategies for Asia or Europe. Gain an overview of strategic issues facing global firms, including the different company structures that provide an advantage over competitors in the global marketplace.

Languages option

The course structure for both full-time and part-time International Business students varies depending on whether languages are selected as an option. Alternative course structures are included: one outlines the course structure if no languages are taken, the other outlines the structure for those who wish to undertake a language specialisation. If languages are taken as a specialisation, language units should commence in the first semester of the first year to maintain continuity from earlier pre-QUT language studies. All language units must normally be taken in the same language. International students must take a language that is not their native tongue.

Professional recognition

Students are eligible for membership of the Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing depending on units chosen.

Other majors

See also separate entries for other majors in this course: Accountancy, Advertising, Economics, Finance, Human Resource Management, Management, Marketing, and Public Relations.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and data analysis. You will develop generic skills in all areas, and gain an understanding of how businesses operate within the commercial and legal environment. Your focus on management begins in your second semester, when you'll start to develop skills in strategy, leadership and internationalisation.

Year 2

Building upon your broader business knowledge, you'll learn how critical analysis and strategic thinking assists management in challenging old viewpoints. You will learn about the importance of sustainability and change in organisations operating within complex environments. Opportunities will be provided to investigate the functional role of operations management designed to add value in productivity through allocating all the resources needed to

produce a product. You will also be introduced to innovative and entrepreneurial thinking to enhance your business planning capabilities. The choice of a second business study area or an extended major in management will begin to steer your future career direction.

Year 3

In the third year you both integrate and further expand your knowledge into strategic management and operations management through the project approach to management. You will investigate how companies seek advantages over their industry competitors. You will consolidate your learning and extend yourself, developing analytical-thinking and decision-making skills. Working as individuals and in groups, you will develop a project management plan, fusing your knowledge of technical and social-cultural aspects of the organisation developed throughout the major. Defining the project, addressing the challenges of time, costs and risk you will decide the ways and means to effectively and efficiently use human and non human resources to reach the project's goals and those of the organisation.

Professional recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Management major, second major and extension – Students will meet the requirements for membership of the Australian Institute of Management.

Choice of campus

You may choose to complete your business degree at Gardens Point or Caboolture campus, majoring in Management.

Studying Management at Caboolture

Students who study Management at Caboolture campus from 2013 can complete their primary major in Management with a second major in Accountancy or Marketing, all at Caboolture campus. There are detailed course structures provided to ensure students can meet the requisite requirements. Students are encouraged to contact the Caboolture Business Academic Coordinator if they need to deviate from the course structure.

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to international and electronic business. With generic skills in all areas, you will gain an understanding of how businesses operate within the commercial and legal environment. Your marketing major will commence in second semester, investigating why consumers buy products and how they make purchase decisions.

Year 2

Building your knowledge of consumer behaviour, you will gain skills in conducting consumer and audience research and learn how market research informs corporate and strategic decision making. You will investigate the part technology has to play in developing new products for consumers, and learn how e-marketing can help companies compete

in a global market. You will also have the opportunity to personalise your degree with the selection of a second study area.

Year 3

You will round out your major by finding out how marketing decisions contribute to the strategic success of any business. Opportunities to apply your knowledge to real-world scenarios include producing a marketing plan in a simulated environment which allows you to apply your marketing decision making skills and assess the results. You may also have the opportunity to complete an industry placement to gain valuable work experience.

Campus options

You may choose to complete your business degree at Gardens Point or Caboolture campus, majoring in Marketing.

Studying Marketing at Caboolture Campus

Students who study Marketing at Caboolture campus from 2013 can complete their primary major in Marketing with a second major in Accountancy or Management, all at Caboolture campus. There are detailed course structures provided to ensure students can meet the requisite requirements. Students are encouraged to contact the Caboolture Business Academic Coordinator if they need to deviate from the course structure.

Professional recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Marketing first and second major and extension – Students may meet the requirements for membership of the Australian Marketing Institute, the Marketing Research Society of Australia, the Australian Institute of Management, the American Marketing Association and the Australian Institute of Export.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and global business. With generic skills in all areas, you will gain an understanding of how businesses operate within the commercial and social environment. You will begin your studies in public relations in the second semester, with an introduction to founding principles, an overview of the profession, and an insight into the future of public relations practice in contemporary organisations.

Year 2

You will build knowledge and skills in public relations techniques, learning how to write and prepare public relations tactics and tools such as media releases, social media programs, and events for real-world clients. In doing so, you will develop a portfolio of public relations materials to show potential employers. You will also build skills in public relations planning, allowing you to identify the best practices of public relations by analysing

successful public relations campaigns from Australia and around the world. You will also have the opportunity to personalise your degree with the selection of a second study area.

Year 3

Acting as an internal adviser, you will explore corporate communication issues for organisations and track contemporary issues through case studies. You will also take the role of a public relations consultant, advising a real-world client on their problem or opportunity. Working in partnership with other students to form a consulting team, you will prepare a campaign plan to present to your client. Your writing skills will be further developed through your campaign portfolio. Work placements are also available to match your interests in consultancies, government, corporate settings and community groups.

Professional recognition

This course is accredited by the industry's peak professional body, the Public Relations Institute of Australia (PRIA), providing graduates access to professional education and career opportunities. QUT maintains strong links with this body, in which a number of our teaching staff hold executive positions.

Practical teaching

The practical nature of this major means that you will graduate with a portfolio of work to demonstrate your skills to potential employers.

Third year project work is imperative to demonstrating the depth and breadth of skills you have accumulated throughout the course. This hands-on experience will give your career a vital kick start by bringing together the design, strategic planning and tactical preparation that underpins a real world public relations campaign.

Other majors

See also separate entries for other majors in this course: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, and Marketing.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Domestic Entry requirements Prerequisite

Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also assume 4 SA in Maths A, B or C.

International Entry requirements

International students must complete Australian Year 12 studies (or equivalent including International Baccalaureate) onshore.

International Subject prerequisites

- English

Mathematics is required for Accountancy, Finance, Economics and Marketing majors.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0

Course design

To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

- Eight Business School Core units (96 credit points)
- One block of eight Major Core units (Study Area A) (96 credit points)
- One Minor of 4 units selected from a

University-Wide unit set or a Business School extension (48 credit points)
(d) Four prescribed Option units undertaken during the Summer semester (48 credit points)

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Students who commence in 2013 will not complete the accelerated program of study. For further information contact your discipline school.

Study areas

Study areas for this course are Accounting, Advertising, Economics, Finance, International Business, Human Resource Management, Management, Marketing, and Public Relations.

Special Course Requirements

Minimum GPA: It is expected that students maintain a minimum GPA of 5.5. If a student does not maintain a GPA of 5.5 it will be recommended that they return to the standard program, Bachelor of Business (BS05). (A GPA of 5.5 is required for entry to the Bachelor of Business (Honours) (BS63) program).

Breaks in Study: Students wishing to apply for a break in study should contact the Director of Undergraduate Studies to determine if there is an impact to their scholarship.

Course progression: Students are expected to follow the course structure. Students wishing to deviate from the recommended course structure should contact the Director of Undergraduate Studies to determine if there is an impact to their scholarship.

Advanced standing (credit)

Advanced standing or credit for previous study is not permitted (with the exception of START QUT).

Professional recognition

Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. See each course major for details.

Further study

Students in the Dean's Honours (BS06) are expected to maintain a GPA 5.5 in order to be eligible for entry into the Bachelor of Business (Honours) (BS63) program.

For information on the Honours program, see the entry for BS63 Bachelor of Business (Honours) (BS63).

Campus options

This degree is available at Gardens Point campus only, however some units are offered at Caboolture campus. Students may enrol in Business units at Caboolture campus.

Abbreviation

Languages Option

The course structure for both full-time and part-time International Business students varies depending on whether languages are selected as an option. Alternative course structures are included: one outlines the course structure if no languages are taken, the other outlines the structure for those who wish to undertake a language specialisation. If languages are taken as a specialisation, language units should commence in the first semester of the first year to maintain continuity from earlier pre-QUT language studies. All language units must normally be taken in the same language. International students must take a language that is not their native tongue.

Information for Continuing students

Gardens Point students should note that from Semester 2, 2008 this course has been recoded to BS05 Bachelor of Business, therefore, there will be no further intake at Gardens Point into this course. However, students who are currently enrolled are able to remain enrolled until the end of 2012. Students currently enrolled in this course may elect to transfer to the BS05 Bachelor of Business to complete their course. Students who elect to transfer to the new course will be required to undertake an 8 unit major (Study Area A) and one of the following options (Study Area B): a maximum of 8 elective units; or a 6 unit second major and 2 electives; or 2 minors (university and QUT Business School approved minors); or 1 minor and 4 elective units. For more information on the course, see the entry for [BS05](#). After

Semester 1 2013, students may be enrolled in the new program.

Course Design

Students commencing the Bachelor of Business campus must complete 24 units of equal weighting totalling 288 credit points, comprised of:

- eight QUT Business School Core units (refer to A below)
- one block of six Major Core units (refer to B below)
- one of the following:
 - Double Major (six units); or
 - Extended Major (six units); or
 - Specialisation (six units).
- plus four Elective units.

The course structures, listed by Primary Major, outline a sequence of unit study and ensures that prerequisite requirements of a unit are satisfied. Students who require advice on the requirements to complete should contact their discipline school for advice.

Special Requirements

A full-time student may only enrol in units selected from those contained in the normal course program for semesters 1 and 2 in the first year of study unless in exceptional circumstances, and with the approval of the Director of Studies. Similarly, a part-time student may only select units from those listed for years 1 and 2 in the first two years of study.

A student must enrol for more than one unit in any semester, unless they have the approval of the Director of Studies. Copies of the Undergraduate Guidelines outlining the QUT Business School rules and procedures are available from any QUT Business School Student Enquiries Centre.

Professional Recognition

Professional Recognition can be found in the individual majors of the BS05.

International Students

International Students must maintain a full-time study load to meet student visa requirements. International students are only permitted to enrol in units at Gardens Point campus. International students should consult the International Student Office on Level 2, B Block for advice.

Honour Year (Optional)

Refer to [BS63](#) for details.

Important Information

QUT Business School rules and procedures are outlined in the [QUT Business School Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website.

listening	6.0
overall	6.5

Professional Recognition

Depending on the choice of majors, graduates of the Bachelor of Mass Communication may satisfy the academic requirements for membership of the Advertising Institute of Australia (AIA) and the Society of Business Communicators (SBC).

Course Design

Students commencing the Bachelor of Mass Communication must complete 24 units of equal weighting totalling 288 credit points comprised of

- Business School Core (six Business School core units)
- Major Core (two majors of six units each) and
- Unit Options (six units).

Although studies can be tailored to meet a specific career goal or create a wide variety of career choices, there is a set of recommended combinations of majors. Students are not required to take these combinations, however they do represent the more common and logical choices within a mass communication qualification.

The recommended combinations are:

- Advertising and Public Relations
- Public Relations and Journalism
- Public Relations and Media and Communication
- Entertainment and Public Relations
- Entertainment and Media and Communication

- Journalism and Media and Communication.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website

Domestic Course structure

Your course

Year 1

You will explore key concepts driving media and communication industries in the global new economy and be introduced to skills in your chosen professional areas of study including public relations, advertising, media and communication, journalism, and entertainment industries. You will apply your knowledge to communication activities and exercises which provide insight into the nature and scope of the industry sectors you will work in.

Year 2

Focusing on your major areas of study, you will undertake activities that enable you to apply your rapidly developing communication skills and knowledge of media industries. You will complete projects using industry-standard equipment and software, gaining experience in a range of tasks you will undertake as part of your professional life. You also begin to broaden your skill and knowledge base by selecting from a range of elective units.

Year 3

This capstone year focuses on the refinement of skills. Working individually and in teams, you will produce a portfolio of work, often for real-world clients, which showcases your project management, communication and creative talents. Work placement opportunities complement these activities and allow you to network with a range of industry leaders.

Course Requirements	
In addition to the mandatory units in this course, you must complete 72 credit points from the Complementary Studies options below:	
* A Minor PLUS 24cp of Unit Options; or	
* 72cp of Unit Options	
Notes	

* A maximum of 48cps of the following units can be taken throughout your course: KKB341, KKB342, KKB343, KKB344, KKB345, KKB346, KKB347, KKB350.

IF27 CORE UNITS - 6 units required

AMB201	Marketing and Audience Research
BSB126	Marketing
KCB110	Introduction to Mass Communication
KCB103	Strategic Speech Communication
KCB205	Professional Communication

Either AMB220 or AMB263 (Students completing the Advertising Major must select AMB220):

AMB220	Advertising Theory and Practice
AMB263	Introduction To Public Relations

MAJOR CORE UNITS - 12 units required - Select two of the following 6 unit majors

Advertising

INSTRUCTIONS: Students completing the Advertising Major must complete AMB220 as one of their IF27 Core Units or as a Complementary Studies Unit Option.

AMB200	Consumer Behaviour
AMB318	Advertising Copywriting
AMB319	Media Planning
AMB320	Advertising Management
AMB330	Digital Portfolio
AMB339	Advertising Campaigns

Journalism

KJB101	Computational Journalism
KJB120	Newsriting
KJB121	Journalistic Inquiry
KJB224	Feature Writing
KJB280	International Journalism
KJB337	Investigative Reporting

Media and Communication

KCB101	Media and Communication Texts
KCB106	Media in a Globalised World
KCB206	Internet, Self and Beyond
KCB301	Media Audiences
KJB103	Media Design and Layout
KCB203	Consumption Matters: Consumer Cultures and Identity

Public Relations

AMB263	Introduction To Public Relations
AMB264	Public Relations Techniques
AMB372	Public Relations Planning
AMB374	Global Public Relations Cases
AMB379	Public Relations Campaigns

Students who have completed AMB263 Introduction to Public Relations as part of the IF27 Core Units will need to choose two of the following three units. Students who have NOT completed AMB263 as part of their IF27 Core Units will need to choose one of the following three units:

AMB202	Integrated Marketing Communication
AMB230	Digital Promotions
AMB310	Internship

Entertainment

AMB207	Entertainment Marketing
KXB101	Introduction to Entertainment
KXB102	Global Entertainment

KXB201	Entertainment Practice: Balancing Creativity and Business
LWS008	Entertainment Law
LWS009	Introduction to Law

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Discontinuation

From Semester 1, 2007, this course has been renamed and recoded to IX28 Bachelor of Business/Bachelor of Engineering. Currently enrolled students who wish to remain in, and graduate from the existing program will be permitted to do so up to the end of 2009. From Semester 1, 2010, all students will be enrolled in the new program.

Discontinuation

From Semester 1, 2009, this course has been recoded to IX71 Bachelor of Business/Bachelor of Laws. There have been significant changes to the course structure of this program. Students will be permitted to remain enrolled and graduate from the existing double degree program up to the end of 2010. Students enrolled in the existing program will be given the opportunity to transfer to the new course where appropriate.

Abbreviation

BBus(StudyAreaA)/LLB

Other Majors

See also the separate entry for the following majors in this course: Bachelor of Business (Banking & Finance, Economics and Marketing)/Bachelor of Laws.

Professional Recognition

The Bachelor of Laws degree satisfies the academic requirements for admission to practise as a Solicitor or Barrister in Queensland.

Business component: Students may be eligible for a membership to a number of professional bodies depending on choice of major and unit selection. Click on the link for more information

www.bus.qut.edu.au/study/currentstude/profrecognition.jsp

Course Design

Students supplement the law component of this program with seven Business Faculty Core units and one major consisting of nine units undertaken in the QUT Business School, selected from the following: Accounting, Advertising, Banking and Finance, Economics, Human Resource Management, International Business, Management, Marketing, or Public Relations.

Further information regarding Law Electives can be found at:

Domestic Entry requirements

Course requirements

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to [apply for a Blue Card](#)

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to

do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Also assumed knowledge: one of Chemistry, Physics or Biology
Recommended study: Health Education or Physical Education
We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).
Accountancy, Finance, Economics and Marketing majors requires 4 SA in Maths A, B or C.

Overview

Your business degree will give you a broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly in a science-based career.

Aim

Through the combination of science and business, you will equip yourself for an exciting career at the cutting edge of scientific innovation within a range of public, private and non-profit industries.

Career outcomes

By combining your science studies with business you will develop the entrepreneurial skills necessary to sell your abilities to a range of employers. As well as the range of science-based careers available such as a scientific modeller, engineering software developer,

scientific programmer, and computational scientist you could expect to gain employment as a consultant, marketer, or project manager within firms developing and taking scientific research to the marketplace.

Professional membership

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors.

Non-standard attendance

Field work is a requirement of some areas of science.

Career Outcomes

Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of governments and private companies. Graduates of the Bachelor of Business are skilled in many aspects of business including: accountancy, advertising, finance, economics, human resource management, international business, management, marketing and public relations.

Overview

Students combine engineering knowledge in electronics, computer systems, telecommunications and electric power with a business course majoring in one of accountancy, advertising, economics, finance, human resource management,

international business, management, marketing or public relations.

Professional Recognition

This degree meets the requirements for membership of Engineers Australia.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the [Bachelor of Business \(BS05\)](#).

Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial employment/practice in an engineering environment as part of the Work Integrated Learning unit, before graduating.

Course Design

Students are required to complete 480 credit points comprised of 288 credit points from the Bachelor of Engineering program and 192 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 96 credit point Business School Core units in the Bachelor of Business program together with a 96 credit point Major in one of the following: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing or Public Relations.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Important Information

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on [Student Services](#) website.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also require 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also require study in Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	10.0
writing	10.0
reading	10.0
listening	10.0

Discontinuation

This course code has been discontinued and replaced by IX58 Bachelor of Business/Bachelor of Information Technology.

Currently enrolled students who wish to remain in, and graduate from the existing program will be permitted to do so up to the end of 2011. From Semester 1, 2012, all students will be enrolled in the new program.

Cooperative Education Program

The Coop Ed Program is a joint venture between employers and the Science and Engineering Faculty giving you the opportunity of 10-12 months paid industry placement to better prepare you for employment after you graduate. The Coop Ed Program integrates formal study and professional experience, so you can apply what you're learning in an area relevant to your chosen path.

Some of the organisations our Coop Ed students have worked with are the Australian Tax Office, Boeing Australia, CITEC, Department of Natural Resources and Water, Dialog, EPA, Queensland Police, RACQ and UNiTAB Limited.

Find out more about the [Cooperative Education Program](#).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Information Technology program.

Business component: Students must complete the 96 credit point QUT Business School Core Units in the Business program together with a 96 credit point Major.

Professional recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Graduates of the Bachelor of Information Technology meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Unit

Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [QUT Business School Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website.

Overview

This program consists of 16 creative industries units and 16 business units which are integrated so that you will study units from both areas each semester. You will undertake the Bachelor of Creative Industries core units as well as one creative industries major from animation; art and design history; creative and professional writing; dance; digital media; drama; entertainment industries; fashion; film, television and screen; interactive and visual design; journalism, media and communication; literary studies; or music.

Your business degree provides you with a broad base of business knowledge, and you will choose a major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Course Design

This course is made up of 384 credit points. Each component (i.e. Business and Creative Industries) comprises 192 credit points.

The Business component is made up of 96 credit points of Business School core units and 96 credit points of units from a Business major. The Business majors are accountancy, advertising, economics, finance, human resource management, international business, management, marketing, public relations. Accountancy students will complete 10 major units and 6 Business School core units in order to meet professional recognition requirements.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Domestic Entry requirements 2013 registrations have closed

Registrations for the 2013 intake were due on the 12 October 2012 and are now closed. If you had not registered and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake.

Prerequisites

Successful portfolio and interview

Closing date

Submit your portfolio and additional supporting documentation with QUT by Friday, 12 October 2012.

Additional entry requirements

In addition to applying through [QTAC](#) and you must also before the closing date post or submit the following documentation to the Creative Industries Faculty:

- A Fashion Registration Form
- A copy of the [QUTpay](#) confirmation page from your online credit card payment for the \$33 service charge (Please note: Q-Step and ATSI applicants are exempt from the service fee)
- Portfolio
- A copy of your most recent school report and/or results of previous tertiary studies
- Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).

Please note: Submitting your registration, portfolio and supporting documentation with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both. The portfolio and interview process is managed by Creative Industries Faculty; however, all offers for the course will be made through QTAC in December.

Delivery Details

In person

Creative Industries Faculty Additional Entry
Z6, Level 1 The Hub-foyer delivery slots
Creative Industries Precinct
Musk Avenue

Kelvin Grove, QLD, 4059
(opening hours from 8am to 6pm)

Post

Creative Industries Precinct
Z6 Block-The Hub Level 5
Musk Avenue
Kelvin Grove, QLD, 4059

Service fee

A \$33 service fee applies to all applicants, excluding applicants who seeking admission assistance via QUT's [Q-Step](#) and/or [Oodgeroo](#) schemes. This payment is to be made via [QUTPay](#) and please ensure you print the confirmation page as you will need to attach it to your portfolio.

Frequently asked questions What should my portfolio include?

Your portfolio should include a maximum of 20 20 single-sided A4 pages of colour images that demonstrate your potential as a fashion designer. This could include but is not limited to:

- Good examples of your sketchbook work (to demonstrate your ability to research a topic and develop ideas based on that topic).
- Fashion design drawings (showing your ability to create fashion designs, based on research and a concept). We are looking for evidence of fabric awareness, colour, and 3D thinking.
- Selected photographs that show good examples of any garments you have made

There is no one particular type of folio we are looking for, as long as you keep to the requirements of 20 single-sided A4 pages of your work. We are looking for something individual; a folio that expresses you, your talents and potential within the fashion industry. We would like to know what you think about fashion and what you like about fashion - or even what you don't like about fashion. Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Will my portfolio be returned?

You will need to provide with your registration form, a stamped, self-addressed envelope (appropriate to the size of the portfolio submitted) for your portfolio to be returned. Portfolio materials will only be returned to applicants that provide the envelope.

Interview locations and dates

Following the submission applicants will be shortlisted. QUT will be conducting interviews in November 2012 at the QUT Kelvin Grove campus. Should you be shortlisted you will be notified via email. Only submissions that include all the above stated requirements will be processed.

Who do I contact for more information?

Please contact the Creative Industries Faculty by:

Phone: (07) 3138 8114 and press option 3

Email: ci.additionalentry@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

Prerequisites

- Successful portfolio and interview
- Minimum completion of schooling comparable to Australian year 12

Closing date

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

Additional Entry Requirements

Please send the following documents along with your F Form to QUT. You may post or e-mail your application.

- All documents requested in the F form
- Current passport sized photograph
- Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words)
- Portfolio

Please send copies only – documents will not be returned.

Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Interview locations and dates

If shortlisted, you will be contacted and interviewed during November 2012 at the QUT Kelvin Grove Campus. If you are unable to attend an interview in person, a telephone interview will be scheduled.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0

listening	6.0
overall	6.5

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

This course is made up of 384 credit points. Each component (i.e. Business and Fashion) comprises 192 credit points.

Your business degree component comprises eight business core units, and eight business major units. You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations. Accountancy students will complete 10 major units and 6 Business School core units in order to meet professional recognition requirements.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Entry requirements 2013 registrations have closed

Registrations for the 2013 intake were due on the extended closing date of 12 October 2012 and are now closed. If you had not registered and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake.

Prerequisites

Successful portfolio and interview

Closing date extension

Register online and submit your portfolio and additional supporting documentation with QUT by the extended closing date of Friday, 12 October 2012.

Additional entry requirements

In addition to applying through [QTAC](#) and you must also before the closing date:

1. Complete the Online Registration Form and print the confirmation page.
2. Post or deliver the following documentation to the Creative Industries Faculty:
 - Online registration confirmation page
 - A current passport sized photograph
 - A copy of your most recent school report and/or results of previous tertiary studies
 - A copy of the [QUTpay](#) confirmation page from your online credit card payment for the \$33 service charge (Note: Q-Step and ATSI applicants are exempt from the service fee)
 - Portfolio

Note: Registering plus submitting your portfolio and supporting documentation with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both. The portfolio and interview process is managed by Creative Industries Faculty; however, all offers for the course will be made through QTAC in December.

Delivery details

In person

Creative Industries Faculty Additional Entry
Z6, Level 1 The Hub-foyer delivery slots
Creative Industries Precinct
Musk Avenue

Kelvin Grove QLD, 4059
(opening hours from 8am to 6pm)

Post

QUT Creative Industries Faculty
H Block, Level 3
Victoria Park Road
Kelvin Grove, QLD, 4059

Service fee

A \$33 service fee applies to all applicants, excluding applicants who seeking admission assistance via QUT's [Q-Step](#) and/or [Oodgeroo](#) schemes. This payment is to be made via [QUTpay](#) and please ensure you print the confirmation page as you will need to attach it to your portfolio.

Frequently asked questions What should my portfolio include?

Your portfolio should include a maximum of 20 pages of images that best demonstrate your current art achievements, working processes, commitment and potential. Consider the "qualities" we look for (listed below) when compiling your portfolio. It may contain photographs, slides, photocopies of sketches and journal pages (showing your planning and preparation for a project), printed digital images and/or short video excerpts (no more than 2 minutes each). For a paper-based portfolio, keep pages to a maximum of A4 size and do not include large folders. If you are including CD/DVD/uploaded images, the preferred format is either as a 'PowerPoint' or .jpg files. We prefer video that can be opened in 'QuickTime' and only samples of work are required. To ensure we will be able to open and view any digital media files, keep the file size to a minimum (i.e. under 5MB).

Please note: We do not return portfolios, so do not include any original copies of your work or documentation.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).

- We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, hard work, sustained practice and familiarity with visual media.
- We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.
- We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

Interview locations and dates

If shortlisted you will be contacted and interviewed during November. If you are called, you are not required to bring anything with you to this interview, but you should be prepared to respond to questions about your artwork and your future goals. Interviews are designed to further assess your suitability for the style of Visual Arts course that we offer and will also present an opportunity for you to ask any questions you may have about the course. Interviews will occur at the QUT Kelvin Grove campus.

Who do I contact for more information?

Please contact the Creative Industries Faculty by:

Phone: (07) 3138 8114 and press option 4

Email: ci.additionalentry@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

Prerequisites

Successful portfolio and interview

Minimum completion of schooling comparable to Australian year 12

Closing date

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

Additional entry requirements

Please send the following documents along with your F Form to QUT. You may post or e-mail your application.

- All documents requested on the F form
- Current passport sized photograph
- Portfolio

Please send copies only – documents will not be returned.

What should I include in my portfolio?

Maximum of 20 images that best demonstrate current art achievements, working processes, commitment and potential.

It may contain photographs, slides, photocopies of sketches and journal pages, printed digital images and/or short video excerpts (no more than 2 minutes each).

Responses to a series of four questions about your interest in visual art. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible:

1. What attracts you to a course of study in Visual Arts?
2. Describe briefly what contact you have had with works of other artists (exhibitions, galleries you have visited, books/articles/reviews you have read, etc).
3. Summarise the types of visual arts activities in which you have participated (for example group exhibitions, solo exhibitions, commissions, awards, membership of art associations etc).
4. Describe aspects of art that you respond to, both positively and negatively.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility,

skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Journalism program. Students will undertake the two components of the double degree concurrently.

Business component:

Students must complete the 96 credit point Business School Core Units in the Business program together with a 96 credit point Major. Accountancy students will undertake 6 Business School Core units and 10 Major Core units in order to meet the professional recognition.

You will undertake 192 credit points of journalism units which will provide a broad range of journalism knowledge. Your business degree component comprises eight business core units, and eight

business major units. You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Journalism (Honours), or the Bachelor of Business (Honours) (Study Area A), provided you have achieved the required GPA.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Accountancy, Finance, Economics and Marketing majors also require 4 SA in Maths A, B or C.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)). Accountancy, Finance, Economics and Marketing majors also require 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors. Please refer to the relevant pages in this prospectus for details on the Bachelor of Mathematics and the QUT Business School prospectus for more information on business majors or visit www.qut.edu.au/study

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or a business scholarship to help you financially throughout your studies. For further information visit [Scholarships](#).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Mathematics program and 192 credit points from the Bachelor of Business program.

Business component:

Commencing students from 2009 onwards

- 8 Business School Core units (96 credit points) including MGB223 (see below)*
- 8 Major Core units (96 credit points)

2007-2008 commencing students

- 7 Business School Core units (84 credit points)*
- 9 Major Core units (108 credit points)

*Please note that BSB123 Data Analysis (one of the Business School Core Units) is not required as the content of MAB313 Mathematics of Finance covers similar topics. MGB223 Entrepreneurship and Innovation replaces BSB123.

*Accounting major students complete 6 Business Core Units and 10 Accountancy major units to allow them to complete professional requirements.

* Please note that EFB101 Data Analysis for Business which is normally undertaken in the Majors of Accountancy, Banking & Finance and Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines](#).

Other useful information can be found on the [Student Services](#) website.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Students may also wish to include:

- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

NB: Students are required to complete 16 units in the BA component of the double degree.

Discontinuation

This course has been discontinued, therefore, this course is available to continuing students only.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 192 credit points from the Bachelor of Business program. Students supplement the Arts component of this program with the 96 credit point QUT Business School Core units in the Bachelor of Business program together with a 96 credit point Major in one of the following: Accountancy, Advertising, Banking & Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing or Public Relations.

BA Course Requirements

Students are required to complete 192 credit points for the Arts Program including at least one of the five multidisciplinary majors (7 units from the Major list). You will choose from International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies and Australian Studies.

As well as the multidisciplinary major, students may also wish to undertake a Discipline Major in one of the following: History, Geography and Environmental Studies, Languages (French, Indonesian, German, Japanese, or Mandarin), and Social Science. (Note that apart from Mandarin, all languages are now offered via cross institutional study from the University of Queensland).

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional

bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology, in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*, and an additional eight discipline specific units from within the chosen major, offered at Gardens Point. Students choosing the Management or Marketing majors may undertake units at the Caboolture campus.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on [BS63](#) for more details.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on

Bachelor of Behavioural Science (Psychology)/Bachelor of Business

the [Student Services](#) website.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the QUT Business School +61 7 3138 2050 or email bus@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Study Areas

IX58 will not have nominated majors and minors for the IT component and consequently there will not be a Study Area A shown on a graduate's parchment for the Bachelor of Information Technology. Instead, the IT component will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

The following Majors are available from the Business component: Accounting, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing and Public Relations.

Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Business: For BS63 Bachelor of Business (Honours) please click [BS63](#) for details.

Cooperative Education

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the [Cooperative Education Program](#).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Overview

This course offers you a range of options in combining business knowledge with practical skills and a contextual understanding of media and communication.

This combination of media and communication with a business major in advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/buying for advertising agencies.

An international business major will equip you with an understanding of the cultural, financial and regulatory issues involved in doing business across borders. Alternatively you may choose to study another of the business professions to diversify your career options.

Career Outcomes

Graduates use their skills for a variety of professional functions across all industry sectors. Many work in marketing communications, public relations or corporate communications. Others apply their broad media knowledge in the media function of advertising, either as sales executives for media outlets or as media planners and buyers for advertising agencies.

Careers exist in audience and market research, collating and analysing audience data to help media outlets better understand who their audiences are and how they are interacting with their product. Graduates also find employment in media policy development in the public sector and private enterprise. Pathways exist to prepare you for further study including honours.

If you wish to use your business knowledge more in your career, you could gain employment in arts administration—marketing, managing or balancing the books for creative projects and businesses.

The combination of media and communication with advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/ buying for advertising agencies. You will also develop the entrepreneurial and business skills necessary to sell your abilities to a range of employers, or start your own creative enterprise. Please refer to the QUT Business School prospectus to find out more about the business majors.

Course Design

You are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Media and Communication program. You will undertake the two components of the double degree concurrently.

You will undertake 192 credit points of specialist units in media and communication. Your business degree component comprises eight business core units, and eight business major units.

You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations. You must

Bachelor of Business/Bachelor of Media and Communication

complete 96 credit point Business School Core Units in the Business program together with a 96 credit point Major.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), or the Bachelor of Business (Honours) (Study Area A), provided you have achieved the required GPA.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must choose a major from:

- Accountancy
- Advertising
- Economics
- Finance
- Human Resource Management
- International Business

- Management
- Marketing
- Public Relations

For professional recognition, the Accountancy structure differs from the normal structure. Accountancy students will complete seven Business School Core Units and complete a nine unit major.

Professional recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Advanced standing

You may wish to apply for advanced standing (also known as credit or exemption) for former completed studies and other assessable learning outcomes. See more at Advanced Standing

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the

law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning', for example, working within law firms and government departments in placement electives.

Domestic Course structure

Course structure

You will study a combination of business and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must choose a major from:

- Accountancy
- Advertising
- Economics

Domestic Entry requirements Prerequisite

Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also assume 4 SA in Maths A, B or C.

International Entry requirements

International students must complete Australian Year 12 studies (or equivalent including International Baccalaureate) onshore.

International Subject prerequisites

- English

Mathematics is required for Accountancy, Finance, Economics and Marketing majors.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

- Eight Business School Core units (96 credit points)
- One block of eight Major Core units (Study Area A) (96 credit points)
- One Minor of 4 units selected from a

University-Wide unit set or a Business School extension (48 credit points)
(d) Four prescribed Option units undertaken during the Summer semester (48 credit points)

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Students who commence in 2013 will not complete the accelerated program of study. For further information contact your discipline school.

Study areas

Study areas for this course are Accounting, Advertising, Economics, Finance, International Business, Human Resource Management, Management, Marketing, and Public Relations.

Special Course Requirements

Minimum GPA: It is expected that students maintain a minimum GPA of 5.5. If a student does not maintain a GPA of 5.5 it will be recommended that they return to the standard program, Bachelor of Business (BS05). (A GPA of 5.5 is required for entry to the Bachelor of Business (Honours) (BS63) program).

Breaks in Study: Students wishing to apply for a break in study should contact the Director of Undergraduate Studies to determine if there is an impact to their scholarship.

Course progression: Students are expected to follow the course structure. Students wishing to deviate from the recommended course structure should contact the Director of Undergraduate Studies to determine if there is an impact to their scholarship.

Advanced standing (credit)

Advanced standing or credit for previous study is not permitted (with the exception of START QUT).

Professional recognition

Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. See each course major for details.

Further study

Students in the Dean's Honours (BS06) are expected to maintain a GPA 5.5 in order to be eligible for entry into the Bachelor of Business (Honours) (BS63) program.

For information on the Honours program, see the entry for BS63 Bachelor of Business (Honours) (BS63).

Campus options

This degree is available at Gardens Point campus only, however some units are offered at Caboolture campus. Students may enrol in Business units at Caboolture campus.

Abbreviation

Domestic Course structure

Course design

To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

- (a) eight Business School Core units
- (b) one block of eight Major Core units
- (c) choice of one block of:
 - six Second Major units and two option (elective) units or
 - eight option (elective) units or
 - two Minors (four units each) (university or Business School or extension) or
 - one Minor (four units)(university or Business School or extension) and four option (elective) units.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Special course requirements

Breaks in Study: Students wishing to apply for a break in study should contact the Director of Undergraduate Studies to discuss, to ensure there are no difficulties with their scholarship.

Course progression: Students are expected to follow the course structure. Students wishing to deviate from the recommended course structure should contact the Director of Undergraduate Studies to determine if there is an impact to their scholarship.

Credit for prior learning (advanced standing)

Credit for previous study (advanced standing) is not permitted (with the exception of START QUT).

International Course structure

Course design

To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

- (a) eight Business School Core units
- (b) one block of eight Major Core units
- (c) choice of one block of:
 - six Second Major units and two option (elective) units or
 - eight option (elective) units or
 - two Minors (four units each) (university or Business School or extension) or
 - one Minor (four units)(university or Business School or extension) and four option (elective) units.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Abbreviation

BBus(Hons)

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points) as per the programs of study described under the individual majors.

Unit requisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check requisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Subject Area Coordinator prior to enrolment.

Grades are awarded for each of the

individual coursework units. The dissertation, which is currently given the weight of four units, is also graded. The degree is awarded at a certain level ranging from first class to third class Honours.

Important course specific enrolment advice

The Business School will provide students with up to \$600 for approved research related expenses associated with the preparation of a thesis under the Business School's Postgraduate Research Student Support Scheme. Schools may also provide additional funding assistance and/or opportunities for paid research assistant or tutoring work.

To obtain further information about the policies and procedures relating to this course, please refer to the [Business Postgraduate Guidelines](#).

Other useful information can be found on the [Student Services](#) website.

Domestic Course structure Course design

The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

International Course structure Course design

The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

Domestic Entry requirements

Domestic students: A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The Business School does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the Business School website;
2. Contact the HDR Admissions Officer within the QUT Business School. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The information will be passed onto the nominated school or supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0

Unit requisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check requisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the School Honours Coordinator.

Alternative pathways

The traditional approach is to complete a fourth year after you graduate from your undergraduate degree.

Mid-year entry students

Mid-year entry students should contact the Honours Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Important course specific enrolment advice

The Business School will provide students with up to \$600 for approved research related expenses associated with the preparation of a thesis under the Business School's Postgraduate Research Student Support Scheme. Schools may also provide additional funding assistance and/or opportunities for paid research assistant or tutoring work.

overall	6.5

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Subject Area Coordinator prior to enrolment.

Further information

For further information on this course contact the Honours Discipline Coordinator Professor Adam Clements on a.clements@qut.edu.au or Administration Officer Michelle Smith on michelle.smith@qut.edu.au

The Honours Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Honours Discipline Coordinator is your primary contact.

Available full-time only

Please note that the majors in Finance, Economics, and Philanthropy and Nonprofit Studies are not available part-time.

Important course specific enrolment advice

To obtain further information about the policies and procedures relating to this course, please refer to the [Business Postgraduate Guidelines](#).

Other useful information can be found on the [Student Services](#) website.

Pre-requisites

Although not compulsory, all QUT Bachelor of Business (Economics) and (Finance) students who are considering an Honours year are recommended to complete EFB333 Introductory Econometrics as part of their undergraduate degree.

Domestic Course structure

Course design

The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is

such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

International Course structure

Course design

The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

Domestic Entry requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The Business School does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the Business School website;
2. Contact the HDR Admissions Officer within the QUT Business School. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The information will be passed onto the nominated school or supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0

Credit points part-time sem.	24
Start months	February, July
Int. Start Months	February, July
Course Coordinator	Director of Higher Degree Research Studies
Discipline Coordinator	Associate Professor Rebekah Russell-Bennett Business Student Services phone 3138 2050 or email bus@qut.edu.au

Domestic Entry requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The Business School does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the Business School website;
2. Contact the HDR Admissions Officer within the QUT Business School. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The information will be passed onto the nominated school or supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check prerequisite requirements and obtain approval from the Subject Area Coordinator prior to enrolment.

Mid-year entry students

Mid-year entry students should contact the Honours Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Further information

For further information on this course contact the Honours Discipline Coordinator Associate Professor Rebekah Russell-Bennett on 3138 2894 or rebekah.bennett@qut.edu.au

The Honours Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Honours Discipline Coordinator should be your first point of contact.

Important course specific enrolment advice

To obtain further information about the policies and procedures relating to this course, please refer to the [Business Postgraduate Guidelines](#).

Other useful information can be found on the [Student Services](#) website.

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:

<http://www.qut.edu.au/study/applying/english-language-requirements.jsp>

Articulation

With approval from the relevant Discipline Coordinator in conjunction with approval from the Course Coordinator, students may articulate from the Graduate Certificate in Business to a related Master of Business course, depending on the major undertaken. Students must meet the entry requirements and/or prerequisites for further study.

For more specific information about articulation, refer to the individual majors.

Domestic Course structure

Course design

Your options in the Graduate Certificate include 48 specified credit points of units in your chosen discipline, or interdisciplinary business study.

Specialisations available in the Graduate Certificate are:

- Accounting
- Applied Finance
- Human Resource Management
- Integrated Marketing Communication*
- Interdisciplinary
- International Business
- Marketing*
- Philanthropy and Nonprofit Studies
- Public Relations*
- Research Studies.

The Interdisciplinary specialisation allows you to choose four postgraduate-level business units from any discipline area, so you can mix and match to suit your personal requirements. You may choose any available postgraduate business unit provided you meet prerequisite requirements.

Integrated Marketing Communication, Marketing and Public Relations majors are also available as external courses, and are only offered on a part-time basis. The Philanthropy and Nonprofit Studies major is a part-time only course.

Overview

The specialisations you can choose in the Graduate Certificate in Business offer a targeted group of units to broaden your knowledge in your selected business discipline.

The Graduate Certificate in Business is an excellent re-introduction to tertiary learning and an opportunity to update skills or, as one-third of the Master of Business program, a pathway to higher level study.

Course design

The Graduate Certificate in Business is effectively one-third of the Master of Business program. Graduate Certificate in Business (Accounting/insert major here) students will undertake 48 specified credit points (4 units) in their chosen discipline.

This course can be undertaken either full-time (1 Semester) or part-time (2 Semesters).

Entry requirements (domestic and international students)

For all specialisations the entry requirements are an undergraduate degree or equivalent in any field, with an overall minimum GPA of 4.0 (on a 7-point scale). However, students entering the Accounting specialisation with an undergraduate degree in Accountancy must be referred to the School of Accountancy (accadmin@qut.edu.au) for enrolment advice.

Special entry

Domestic Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

[GMAT details \(PDF file, 271.78 KB\)](#)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three

years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

[Referee Proforma \(DOCX file, 106.99 KB\)](#)

International Entry requirements

Course design

Students must complete two MBA foundation core units, and select a further 36 credit points from the MBA core units. Please note that there are pre-requisite requirements for one of the core units.

This course is designed to prepare students for transition to the MBA program. However the Graduate Certificate structure, as a stand alone qualification, is designed to update skills

and acquire in-depth knowledge in the core discipline areas of business.

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (eg AACSB, EQUIS, AMBA). Advanced standing may also be granted at the discretion of the Graduate Studies Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:

PhD Pathway for International Students

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the QUT Business School to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Course Availability

Mid-year Entry:
Students should contact the Research Discipline Coordinator for enrolment advice and course progression details. The majors in Finance, Economics, and Philanthropy and Nonprofit Studies are not available for mid-year entry due to unit availability. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time Study:
Students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability. The majors in Finance, Economics, and Philanthropy and Nonprofit Studies are not available for part-time study due to unit availability.

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points) as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where elective units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT

Handbook and obtain approval from the Subject Area Coordinator prior to enrolment.

Grades are awarded for each of the individual coursework units. The thesis, which is currently given the weight of four units, is also graded.

Important course specific enrolment advice

This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.

To obtain further information about the policies and procedures relating to this course, please refer to the [Business School Postgraduate Guidelines](#).

Domestic Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The faculty does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the QUT Business School website;
2. Complete the Expression of Interest to Apply for a Research Degree form, and email this to the QUT Business School HDR Admissions Officer. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

Domestic Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The faculty does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the QUT Business School website;
2. Complete the Expression of Interest to Apply for a Research Degree form, and email this to the QUT Business School HDR Admissions Officer. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or

possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the [QUT Business School](http://www.qut.edu.au/business-school) to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0

Graduate Diploma in Business (Research) (Human Resource Management)

reading	6.0
listening	6.0

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where elective units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Discipline Coordinator prior to enrolment.

Course Availability

Mid-year entry:

students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time study:

Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

PhD Pathway for International Students

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the QUT Business School (bus.research@qut.edu.au) to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Important course specific enrolment advice

This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.

To obtain further information about the policies and procedures relating to this course, please refer to the [Business](#)

Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

PhD Pathway for International Students

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the QUT Business School (bus.research@qut.edu.au) to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Important course specific enrolment advice

This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.

To obtain further information about the policies and procedures relating to this course, please refer to the [Business](#)

[School Postgraduate Guidelines](#).

Further information

For further information on this course contact the Research Discipline Coordinator Associate Professor Ian Lings on 3138 4329 or ian.lings@qut.edu.au

The Research Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Research Discipline Coordinator should be your first point of contact.

Domestic Course structure

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the program of study.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Research Discipline Coordinator.

Mid-year entry

Mid-year entry students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time study

Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

International Course structure

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the program of study.

Unit prerequisite requirements are deemed to have been satisfied upon

admission to this course. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Research Discipline Coordinator.

Mid-year entry

Mid-year entry students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time study

Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

Domestic Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The faculty does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the QUT Business School website;
2. Complete the Expression of Interest to Apply for a Research Degree form, and email this to the QUT Business School HDR Admissions Officer. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

Overview

The Graduate Diploma of Business (Professional Accounting) provides students with a solid core in accounting studies and ensures that graduates meet the academic requirements of the Australian professional accounting bodies. This program will be fully nested within the BS16 and BS17 programs and, consequently, requires that students achieve the learning outcomes designed for the Master of Business suite.

If you are looking to change your career direction or enhance your career options, accountancy is a dynamic profession that will provide you with a sustainable, challenging and diverse range of career paths. Professional accountants are in increasing demand nationally and internationally by organisations throughout the commercial, public and not-for-profit sectors. Accountants can work in commerce and industry, in public or chartered accounting firms, in government organisations or as individual practitioners.

Discipline units focus on financial and management accounting requirements, specialised applications in company accounting, audit and assurance, tax and company regulation. Core concepts and knowledge, problem-solving skills and critical and analytical thinking are

developed throughout the entire course.

Course Design

Due to professional recognition requirements students must follow the prescribed course structure. Any enquiries regarding course progression can be directed to the School of Accountancy.

Professional Recognition

Graduates meet the academic component of requirements for membership of CPA Australia and the Institute of Chartered Accountants in Australia, and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants.

External Study

The external version of this course is only available to domestic students.

Further Information

If you have any further questions regarding this course please contact the QUT Business School Student Services Office by phone on (07) 3138 2050, via email on bus@qut.com or in person at Level 1, B Block, Gardens Point campus

Domestic Entry requirements

For all specialisations except Applied Finance the entry requirements are an undergraduate degree or equivalent in any field, with an overall minimum GPA of 4.0 (on a 7-point scale).

The Applied Finance discipline is designed for people with no or limited academic background in finance. Holders of an undergraduate degree in Finance interested in the Applied Finance discipline are invited to contact the Discipline Coordinator in the School of Economics and Finance to determine if an individualised advanced finance program plan can be developed.

International Entry requirements

For all specialisations except Applied Finance the entry requirements are an undergraduate degree or equivalent in any field, with an overall minimum GPA of 4.0 (on a 7-point scale).

The Applied Finance discipline is designed for people with no or limited academic background in finance. Holders of an undergraduate degree in Finance interested in the Applied Finance discipline are invited to contact the Discipline Coordinator in the School of Economics and Finance to determine if an individualised advanced finance program plan can be developed.

Pathways programs

Pathways units are designed for academically qualified students who do not meet the language requirements.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 or TOEFL Internet Score of 80 with no sub-band lower than 20 to enter some majors of the Master of Business (BS16) and Master of Business Advanced (BS17) on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors: Strategic Advertising, Applied Finance, Events Marketing and Management, Integrated Marketing Communication, International Business, Marketing and Public Relations.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 144 credit points of units. Students should follow the standard course progressions as outlined in the below course structures otherwise difficulties with completing the requirements of the course may be encountered. Students should contact the School of Economics and Finance for course progression advice.

Students may exit from the Master of Business (BS16) at the following stages, once those particular course requirements have been met:

- Graduate Diploma of Business (BS79) (Study Area A)
- Graduate Certificate in Business (BS39) (Study Area A)

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business overview.

Some applicants may require unit substitution if they have studied equivalent or similar units in their undergraduate degree. Nominated substitution units are subject to approval by the Subject Area Coordinator

Abbreviation

MBus(AppFin)

Professional recognition

Graduates may meet the academic component of the requirements for the professional level membership of the Finance and Treasury Association Limited-Certified Finance and Treasury Professional, depending on prior study and options (electives) chosen.

Other majors

See also separate entries for the following majors in this course: Accounting, Applied Finance, Human Resource Management, Integrated Marketing Communication, Marketing, Philanthropy and Nonprofit Studies, Professional Accounting, Public Relations and Strategic Advertising.

Why choose this course?

Many graduates begin in consultancies as account executives or in government or private sector organisations performing a variety of roles from publicity through to events management and product launches. You then have the opportunity to progress to senior consultant or be part of the senior management team within organisations as part of the strategic planning process. IMC graduates have the opportunity to take a new qualification into the marketplace.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements.

Why choose this course?

Rules, regulations, government policy and the diversity of cultures and consumer needs and preferences all impact on how companies do business across borders.

International business skills are in high demand. These skills incorporate ethics, sensitivity and responsiveness to local cultures in new and diverse markets, while at the same time providing the planning, decision-making and strategic management these highly competitive operations need.

The international business environment is explored across a range of business disciplines, including accounting, finance, logistics, management and marketing. The International Business program will give you the expertise and skills to succeed in organisations both in Australia and around the world, including multinational enterprises, smaller firms operating across borders, government agencies and consulting firms that serve international companies.

Course design

Students are required to complete 12 units (144 credit points). Please refer to the course structures for information on specific unit requirements.

Overview

The management study area is designed for people from a broad range of occupations and professions who wish to enhance and further their career prospects by acquiring knowledge and skills in the area of management. Successful completion of the degree will provide the graduate with knowledge of the theoretical principles of management, and the skills to deal effectively and efficiently with real-world business problems in changing and dynamic environments. Participants will learn through practical application how to analyse business situations at strategic and operational levels, provide managerial solutions to business issues, and monitor the effectiveness of management decisions. They will learn how to effectively self-manage, to lead and manage teams and communicate competently in diverse contexts, thus gaining a competitive edge for managerial success.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements. Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business overview.

Some applicants may require unit substitution if they have studied equivalent or similar units in their undergraduate degree. Nominated substitution units are subject to approval by the Subject Area Coordinator.

Early Exit

Students may exit from the Master of Business (BS16) at the following stages, once those particular course requirements have been met:

- Graduate Diploma of Business (BS79) (Study Area A)
- Graduate Certificate in Business (BS39) (Study Area A)

Students seeking to exit early from the Master of Business course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies. Completion of 96 credit point units, where a minimum of 72 credit points are within the same discipline area, and as approved by the Subject Area Coordinator, is required for completion of the Graduate Diploma course. Due to professional recognition requirements, students exiting from the Master of Business (Professional Accounting) major must complete all of the units in the Graduate Diploma in Business (Professional Accounting) course.

Students may apply to early exit with the Graduate Certificate course upon completion of a minimum of 48 credit points, in accordance with the course requirements of the relevant business discipline area.

Early exit from the Master of Business course should only be used for students whose circumstances restrict them from completing the original award course. This process is not designed to allow students to obtain multiple qualifications. Students who are approved to early exit from the Master of Business course will not normally be permitted to continue their enrolment in the original award course for a period of 2 years.

Pathways Program

International students who do not meet language requirements can complete pathways units within majors.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0, or TOEFL: 80 with at least 18 in all bands (Internet Based) or other QUT accepted English test, to enter some majors of the Master of Business and Master of Business Advanced. Students will undertake two Communication units (QCD111 and QCD211) in the first semester of their

postgraduate business course. For more information please contact the QUT Business School Student Centre on 3138 1790.

Overview

This course is designed for marketing practitioners to freshen or further their skills, or those seeking a career change to this field you will develop marketing management skills as they apply to a business or corporation with practical focus on the identification of forecast opportunities and threats in domestic and international industries; the development of marketing strategies, tactics and plans for such opportunities and threats; the ability to implement and monitor marketing strategies, tactics and plans and their effect on the organisation; and

the consideration of new theories, concepts and techniques in marketing management. 1

Why choose this course?

Marketing professionals are involved in the promotion and/or sales of a company's goods or services. This includes the marketing of existing product lines, or the development of new markets for new or existing products. Marketing is a vital component of business in all industries, as well as in government and third-sector organisations.

This course can lead to more strategic roles such as business development managers, brand or product managers, marketing consultants or marketing managers.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements.

Students enrolled in the external course should refer specifically to the external course structure.

Early Exit

Information on early exit options may be found on the Master of Business title page.

Abbreviation

MBus (Marketing)

Other majors

See also separate entries for the following majors in this course: Accounting, Applied Finance, Human Resource Management, Integrated Marketing Communication, Management, Marketing, Philanthropy and Nonprofit Studies, Professional Accounting, Public Relations and Strategic Advertising.

Professional recognition

Graduates meet the academic component of the requirements for enrolment in the professional program offered by CPA Australia, the Institute of Chartered Accountants in Australia and the Institute of Public Accountants. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants.

Career outcomes

Accountancy is a great platform for a dynamic and exciting business career. Accountants work in a diversity of areas—in commerce, local, national and international firms, government organisations, law firms, banks, merchant banks, stockbrokers, charitable organisations, hospitals and churches, film, television and media or they run their own business. A career in accounting can lead to more strategic and leadership roles such as general manager, chief financial officer and chief executive officer.

Articulation

Students who have articulated from the Graduate Certificate in Business (Accounting) may receive exemptions for up to 48 credit points. Students who have articulated from the Graduate Diploma in Business (Professional Accounting) may receive exemptions for up to 96 credit points.

Students may articulate to the Master of Business (Professional Accounting) Advanced program and receive up to 144 credit point of exemptions.

An undergraduate degree or equivalent in any field with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale).

International Entry requirements

An undergraduate degree or equivalent in any field with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale).

Pathways programs (international students)

Pathways units are designed for academically qualified students who do not meet the language requirements.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 to enter some majors of the Master of Business (BS16) and Master of Business Advanced (BS17) on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors: Strategic Advertising, Applied Finance, Integrated Marketing Communication, International Business, Marketing and Public Relations.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why choose this course?

Postgraduate study in public relations is designed for practitioners to sharpen or further their skills, or those seeking a career change to this field. The major is designed as a systematic and comprehensive survey of the discipline of public relations. It provides an overview of the foundations of public relations theory and practice, problems and opportunities in communicating with the corporate audience, theories underpinning public

opinion and mass media effects, mass media strategy and tactics, and a systematic exploration of the planning, management and evaluation of public relations campaigns.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements.

Early Exit Options

Students may exit from the Master of Business Advanced (BS17) at the following stages, once those particular course requirements have been met:

- Master of Business (BS16) (Study Area A)
- Graduate Diploma of Business (BS79) (Study Area A)
- Graduate Certificate in Business (BS39) (Study Area A)

Students seeking to exit early from the Master of Business Advanced course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies.

Other majors

See also separate entries for the following majors in this course: Accounting, Applied Finance, Human Resource Management, Integrated Marketing Communication, Marketing, Philanthropy and Nonprofit Studies, Professional Accounting, Public Relations and Strategic Advertising.

Articulation

Students who have articulated from the Graduate Certificate in Business (Accounting) may receive exemptions for up to 48 credit points. Students who have articulated from the Master of Business (Accounting) may receive up to 144 credit point of exemptions.

Domestic Course structure

Example course units

- Financial Forensics and Business Intelligence
- Financial Analysis and Business Valuation
- Forensic Accounting and Investigation
- Governance Issues in Accounting
- Integrated Issues in Professional Practice
- International Accounting
- Superannuation and Wealth Management
- Taxation Law and Practice

Course design

Students must undertake 192 credit points consisting of 36 credit points of compulsory units and 156 credit points of approved accounting coursework or research option units.

Students who have completed an undergraduate degree in Accounting or Commerce within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. Students who have completed the CPA Program with CPA Australia in last the five years or the Graduate Diploma of Chartered Accounting with the Institute of Chartered Accountants in Australia in the last five years may be eligible for exemptions up to a maximum of 96 credit points. For further information on exemptions, please refer to the Master of Business overview.

Facilities

Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Supervision

You will receive individual supervision by a highly qualified and experienced academic staff member who will guide you through your advanced study.

Overview

In today's rapidly changing business environment, Human Resource Management (HRM) professionals are confronted with the challenges of developing organisational and workforce capability. HRM expertise is also increasingly required by line managers, who now take a more active role in the development and management of their team members.

The Human Resource Management program is designed to increase the skills of both specialists and line managers and meet the individual learning goals and career aspirations of each student. The program provides flexibility for the busy professional to complete the degree part-time, focusing on real-world work issues of personal relevance. HRM professionals will develop a broader view of the nature of business, and the relationship between how people are managed and the organisation's performance in the global context of business.

Those who are undertaking HRM activities but have a background in other professional fields will gain the enhanced people management skills they require. The major also suits the needs of graduates who wish to move into the HRM profession.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units or a

48 credit point research dissertation (conditions apply).

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units.

To ensure that the program builds on prior academic and work experience, each participant in the HRM major receives an individualised study plan. Participants are therefore required to consult with the HRM coordinator regarding development of their study plan. Any subsequent changes to the approved program will require coordinator approval. Failure to obtain approval may affect a student's course progression and impact on their eligibility to graduate.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Early Exit

Information on early exit options may be found on the Master of Business-Advanced title page.

Abbreviation

MBusAdv(HRM)

Career outcomes

The program prepares graduates for careers in generalist or specialist human resource professional roles. Generalist positions include human resources assistant, officer, manager or director and these may be located in corporate and private firms as well as public institutions. Specialist positions may include those involved with employment relations, recruitment and placement consulting, training and development specialists, management and executive coaching, as well as consulting careers.

Other Majors

See also separate entries for the following majors in this course: Accounting, Applied Finance, Human Resource Management, Integrated Marketing Communication, International Business, Marketing, Philanthropy and Nonprofit Studies, Professional Accounting, Public Relations and Strategic Advertising.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:

<http://www.qut.edu.au/study/applying/english-language-requirements.jsp>

Further Information

To ensure students are provided with a selection of units that best suits their prior knowledge and experience, HRM students should contact the School of Management on 3138 2744, or email manenq@qut.edu.au.

Domestic Course structure

Unit selection

You should consult with the subject area coordinator for advice on units depending on your prior study.

Example course units

- Consulting and Change Management
- Contemporary Issues in Human Resource Management
- Leadership and Executive Coaching
- Managing High-Performance Organisations
- Self Leadership
- Strategic Human Resource Development
- Strategic Human Resource Management
- Talent Management

Overview

If you are interested in advertising, promotions or communications, you should consider an Integrated Marketing Communication (IMC) major. Studies in IMC will provide you with a systematic and comprehensive understanding of the theory and research integration of marketing communication.

The course focuses on refinement of analytical skills and knowledge required for decision making in the areas of advertising, marketing and public relations. IMC focuses on the strategic integration of the functions of public relations, advertising, promotion, direct marketing, and personal selling to achieve brand equity and increase the effectiveness of promotional communications with target audiences.

You will be equipped to confront the fragmentation of mass markets, the explosion of new technologies that give consumers more control over the communication process, the emergence of global markets, and rapid changes in economic conditions within which organisations operate.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of

prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the for course progression advice.

Overview

Rules, regulations, government policy and the diversity of cultures and consumer needs and preferences all impact on how companies do business across borders.

International business skills are in high demand. These skills incorporate ethics, sensitivity and responsiveness to local cultures in new and diverse markets, while at the same time providing the planning, decision-making and strategic management these highly competitive operations need.

The international business environment is explored across a range of business disciplines, including accounting, finance, logistics, management and marketing.

The International Business program will give you the expertise and skills to succeed in organisations both in Australia and around the world, including multinational enterprises, smaller firms operating across borders, government agencies and consulting firms that serve international companies.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-

standardised course progression may result in unit selection difficulties. Students should contact the School of Advertising, Marketing and Public Relations for course progression advice.

Students should follow the standard course progressions as outlined in the below course structures otherwise difficulties with completing the requirements of the course may be encountered. Students should contact the School of Management for course progression advice if required. Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced overview.

Overview

The management study area is designed for people from a broad range of occupations and professions who wish to enhance and further their career prospects by acquiring knowledge and skills in the area of management. Successful completion of the degree will provide the graduate with knowledge of the theoretical principles of management, and the skills to deal effectively and efficiently with real-world business problems in changing and dynamic environments. Participants will learn through practical application how to analyse business situations at strategic and operational levels, provide managerial solutions to business issues,

and monitor the effectiveness of management decisions. They will learn how to effectively self-manage, to lead and manage teams and communicate competently in diverse contexts, thus gaining a competitive edge for managerial success.

Entry requirement (domestic and international students)

For all specialisations the entry requirements are an undergraduate degree in any field or equivalent with an overall minimum GPA of 4 (on a 7-point scale).

Early Exit

Students may exit from the Master of Business Advanced (BS17) at the following stages, once those particular course requirements have been met:

- Master of Business (BS16) (Study Area A)
- Graduate Diploma of Business (BS79) (Study Area A)
- Graduate Certificate in Business (BS39) (Study Area A)

Students seeking to exit early from the Master of Business Advanced course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies.

Early exit from the Master of Business course should only be used for students whose circumstances restrict them from completing the original award course. This process is not designed to allow students to obtain multiple qualifications. Students who are approved to early exit from the Master of Business course will not normally be permitted to continue their enrolment in the original award course for a period of 2 years.

Other majors

See also separate entries for the following majors in this course: Accounting, Applied Finance, Human Resource Management, Integrated Marketing Communication, International Business, Marketing, Philanthropy & Nonprofit Studies, Management, Professional Accounting, Public Relations and Strategic Advertising.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all

degrees' at:
<http://www.qut.edu.au/study/applying/english-language-requirements.jsp>

Abbreviation

Pathways Program

International students who do not meet language requirements can complete pathways units within majors.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0, or TOEFL: 80 with at least 18 in all bands (Internet Based) or other QUT accepted English test, to enter some majors of the Master of Business and Master of Business Advanced. Students will undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. For more information please contact the QUT Business School Student Centre on 3138 1790.

Domestic Course structure

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the School of Management for course progression advice.

International Course structure

Example course units

- HRM Theory & Practice
- Consulting & Change Management
- Self-Leadership
- Managerial Economics
- Managing High Performance Organisations
- Business in Australia
- Business Process Improvement
- Business Process Management

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the School of Management for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly

related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Overview

Postgraduate study in public relations is designed for practitioners to sharpen or further their skills, or those seeking a career change to this field. The major is designed as a systematic and comprehensive survey of the discipline of public relations. It provides an overview of the foundations of public relations theory and practice, problems and opportunities in communicating with the corporate audience, theories underpinning public opinion and mass media effects, mass media strategy and tactics, and a systematic exploration of the planning, management and evaluation of public relations campaigns.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the School of Advertising, Marketing and Public Relations for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the

previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

- Corporate Media Strategy and Tactics
- Issues and Crisis Management
- Marketing and Survey Research

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the School of Advertising, Marketing and Public Relations for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Master of Business (Public Relations) - Advanced

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Overview

The strategic advertising major focuses on the management of the advertising function, including consumer behaviour, advertising management, creative strategy, media strategy, campaign planning and research. As a QUT advertising graduate, you could work as an advertising manager, planning and controlling the advertising for your employer and liaising with advertising agencies. You may work as an advertising planner or researcher, or within the media as a sales representative or copywriter.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the School of Advertising, Marketing and Public Relations for course progression advice.

International Entry requirements

An undergraduate degree or equivalent in any field with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale).

Pathways programs

International students who do not meet language requirements can complete pathways units within selected majors.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 or TOEFL: 550 (paper-based), 213 (computerised) or 80 with at least 18 in all bands (Internet Based) to enter some majors of the Master of Business and Master of Business Advanced on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors:

- Strategic Advertising
- Applied Finance
- Integrated Marketing Communication
- International Business
- Marketing
- Public Relations

For more information please contact the QUT Business School International Student Office on 3138 1790.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0

listening	6.0
overall	6.5

Overview

The Master of Business Advanced gives you the opportunity to extend the Master of Business with an additional 48 credit points usually comprised of either, a

research dissertation, further coursework studies in your chosen major, or coursework studies in another business discipline, giving you the opportunity to tailor your studies to suit your interests and professional requirements. Under certain circumstances the Advanced program can also provide a pathway to doctoral-level studies in the PhD or DBA programs.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved coursework or research option units to complete the Master of Business Advanced (BS17).

Students should follow the standard course progressions outlined in the discipline specific course structures otherwise difficulties with completing the requirements of the course may be encountered. Students should contact their discipline School for course progression advice if required.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points.

Approved exemptions will apply to introductory studies or elective components in the discipline area you are studying and are not available for specified advanced units. No exemptions will be granted for non-Business related degrees, even if some business subjects may have been completed as part of the course.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Early Exit Option

Students may exit from the Master of Business Advanced (BS17) at the following stages, once those particular course requirements have been met:

- Master of Business (BS16) (Study Area A)
- Graduate Diploma of Business (BS79) (Study Area A)
- Graduate Certificate in Business (BS39) (Study Area A)

Students seeking to exit early from the Master of Business Advanced course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies.

Early exit from the Master of Business course should only be used for students whose circumstances restrict them from completing the original award course. This process is not designed to allow students to obtain multiple qualifications. Students who are approved to early exit from the Master of Business course will not normally be permitted to continue their enrolment in the original award course for a period of 2 years.

Pathways programs

International students who do not meet language requirements can complete pathways units within selected majors.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 0 or TOEFL: 550 (paper-based), 213 (computerised) or 80 with at least 18 in all bands (Internet Based) to enter some majors of the Master of Business and Master of Business Advanced on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors:

- Strategic Advertising
- Applied Finance
- Integrated Marketing Communication
- International Business
- Marketing
- Public Relations

For more information please contact the QUT Business School International Student Office on 3138 1790.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:

<http://www.qut.edu.au/study/applying/english-language-requirements.jsp>

Domestic Course structure Overview

This course is designed to equip you with knowledge and skills for a career in the management of philanthropic and nonprofit organisations. Whether you work in a nonprofit organisation, are a

public sector manager whose service delivery is through or partnered with nonprofit organisations, or are a private sector manager who engages in business with the nonprofit sector, this major can help build professional knowledge and skills relevant to the sector. Skills critical to nonprofit management, such as problem solving, creative thinking, negotiation, ethical practices, teamwork, leadership, networking and information management are incorporated into the teaching, learning and assessment.

The Master of Business - Advanced allows you to further your knowledge in another business discipline area with the selection of four approved postgraduate option (elective) units. Alternatively a 48 credit point dissertation may be undertaken.

Course design

Students must undertake 192 credit points consisting of 72 credit points of prescribed units. Complementary Studies units (12 credit points) and 48 credit points of QUT Business School Option (elective) units. Students should follow the standard course progressions as outlined in the below course structures otherwise difficulties with completing the requirements of the course may be encountered. Students should contact the Graduate School of Business for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced overview.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Visiting Students and Cross-Institutional Enrolment

Individual units within this course are available to both visiting students and cross-institutional students. Visiting students are students who undertake units at QUT for personal or professional development. Cross-institutional students are enrolled at another institution and opt to undertake individual units at QUT as part of their program. Entry for both visiting students and cross-institutional enrolment is based on merit and

applications may be rejected if the applicant does not have an educational background appropriate to the units of study applied for or if there are insufficient places remaining in the class.

Articulation

Students who have articulated from the Graduate Certificate in Business Philanthropy and Nonprofit Studies may receive exemptions for up to 48 credit points. Students who have articulated from the Master of Business Philanthropy and Nonprofit Studies program may receive up to 144 credit point of exemptions.

Domestic Entry requirements

Prospective students must meet the MBA entry requirements. For the MBA entry requirements, refer to www.qut.edu.au/study/courses/master-of-business-administration-mba

For all study areas except Accounting, entry requirements are an undergraduate degree in a cognate discipline with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale). Applicants for the Accounting study area must have an appropriate undergraduate degree in Accountancy.

For the Philanthropy and Nonprofit Studies major, it is compulsory for enrolled students to attend the ACPNS Orientation and Intensive Weekend at the Gardens Point Campus of QUT. During this weekend students will participate in a specialised orientation program and also attend the first lectures of available units. Further information on the ACPNS Orientation and Intensive is available at www.bus.qut.edu.au/research/cpns/whatweteach/orientation.jsp

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

[GMAT details \(PDF file, 271.78 KB\)](#)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

[Referee Proforma \(DOCX file, 106.99 KB\)](#)

International Entry requirements

Prospective students must meet the MBA entry requirements. For the MBA entry requirements, refer to www.qut.edu.au/study/courses/master-of-business-administration-mba

For all study areas except Accounting, entry requirements are an undergraduate degree in a cognate discipline with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale). Applicants for the Accounting study area must have an appropriate undergraduate degree in Accountancy.

Master of Business/Master of Business Administration (MBA)

For the Philanthropy and Nonprofit Studies major, it is compulsory for enrolled students to attend the ACPNS Orientation and Intensive Weekend at the Gardens Point Campus of QUT. As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results

sent directly to QUT (our identification number is 1677).

[GMAT details \(PDF file, 271.78 KB\)](#)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 192 credit points of units (96 credit points from the Master of Business (Study Area A) (BS16) and 96 credit point from Master of Business Administration (GS75). Please refer to the course structures for information on specific unit requirements.

Professional recognition

Certain units offered in the Master of Business (Accounting)/Master of Business Administration may assist with preparation for the professional programs offered by CPA Australia; the Institute of Chartered Accountants in Australia; the National Institute of Accountants as part of their respective membership requirements; and for the Chartered Financial Analysts program.

Graduates completing the Master of Business (Professional Accounting)/Master of Business

Administration meet the academic component of requirements for associate membership of CPA Australia, the Institute of Chartered Accountants in Australia, and enrolment in their respective professional programs.

Graduates completing the Master of Business (Applied Finance)/Master of Business Administration may meet the academic component of requirements for Senior Associate membership of the Financial Services Institute of Australia, and maybe entitled to full ASIC RG146 Tier 1 accreditation to provide financial product advice. Graduates may also meet the academic component of the requirements for the professional level membership of the Finance and Treasury Association Limited-Certified Finance and Treasury Professional, depending on prior study and elective chosen.

Early Exit

Students seeking to exit early from BS24 may be eligible for one or more of the following awards, subject to the relevant course requirements being satisfied.

- BS39 Graduate Certificate in Business (Study Area A);
- GS87 Graduate Certificate in Business Administration;
- BS79 Graduate Diploma in Business (Study Area A);
- GS41 Graduate Diploma in Business Administration;
- BS16 Master of Business (Study Area A)
- GS75 Master of Business Administration

Students may exit with no more than one award from the MBA program and no more than one award from the Master of Business program.

Pathways to further study

The Master of Business/MBA (BS24) may be a pathway of study into the Doctor of Business Administration (DBA) (BS25). Additional pathways may be available through consultation with the Director of Graduate Studies.

Course design

The Executive MBA is a prescribed program. Students are required to undertake 24 units of 6 credit points each.

The intake for the EMBA is in January and the program runs for 22 months. Classes are scheduled once every four weeks over a Friday to Sunday weekend session, with 18-21 hours of classes per weekend session each month of the program; plus one intensive session (International Study Tour). The intensive

block sessions allow students to schedule some dedicated time to study with minimal interference to their business commitments.

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (eg AACSB, EQUIS, AMBA).

Advanced standing may also be granted at the discretion of the Graduate Studies Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

Further information

If you have any further questions regarding this course please contact the Graduate School of Business on 3138 6874, via email on emba@qut.edu.au or on Level 5, B Block, Gardens Point campus.

EMBA

Domestic Course structure
Course design

The EMBA is structured into three components:

1. The Building Foundations component that provides foundation business knowledge and skills and the opportunity to engage in personal leadership development.
2. The Multi-Disciplinary Decision Making component that provides you with a broad spectrum of knowledge and skills on business disciplines to equip you to make holistic and multi-disciplinary decisions in complex environments.
3. The EMBA Integration and Specialisation component provides you with the skills and knowledge that allow you to take a broader systems perspective on issues that enable you to lead and make decisions in a complex, globalised business economy.

The Executive MBA program commences in January of each year. Classes are

Executive Master of Business Administration

scheduled once every four weeks over a long weekend from Friday to Sunday with the inclusion of a two-week international study tour. These intensive weekend sessions allow participants to schedule dedicated time to study with minimal interference to their business commitments.

Domestic Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

[GMAT details \(PDF file, 271.78 KB\)](#)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three

years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

Course design

Units and concentrations in the MBA have been revised and will be offered from 2013. The MBA program is now made up four components that build on each other to provide you with an integrated and multi disciplinary curriculum to equip you to take on the challenges and opportunities of a complex business environment. For this reason it is important students follow the guidelines in planning their study progression.

Students can also refer to the Course

Checklists for enrolment information.

Guidelines for Enrolment

Please refer to the Course Structure for the list of unit codes, titles and components of the course.

Building Foundation Units:

Students commence their MBA with the Building Foundation units and specifically with GSN405 Strategic Management. Students can then choose the order of the remaining Building Foundations units, dependent on the teaching period they are offered in. Students should finish this component with GSN403 Data Analysis and Decision Making.

Multi-Disciplinary Decision Making Units:

The next component is the Multi-Disciplinary Decision Making units which provide you with a broad spectrum of business knowledge and skills to equip you to take on the challenges and opportunities of a complex business environment.

Students should complete GSN473 Corporate Governance and Accountability as the last unit in this component. GSN490 Managing Technological Innovation and GSN415 Leadership and Complexity are also best completed towards the end of this component.

Concentrations:

GSN464 Systems Thinking for Managers should be taken as soon after completing the Building Foundations component program so that you can develop an understanding of dealing with multi dimensional problems in complex environments.

Entrepreneur ship and Innovation Concentration: students should complete GSN430 New Venture Funding and GSN431 New Venture Growth and Transitions before enrolling in the Integrated Workplace Project capstone units.

Leadership and Strategy Concentration: students should complete GSN460 Advanced Strategy for Global Business before enrolling in the Integrated Workplace Project capstone units.

Discipline Specific Pathway: students can seek advice from the Graduate School of Business regarding their elective choices and recommended progression.

Integrated Workplace Project: GSN570 and GSN571 are the capstone units for the MBA and will be completed at the end of the course. They provide students the opportunity to apply all they

have learned to a real world venture or organisational opportunity in a complex business environment.

If you have any questions regarding your enrolment please contact QUT Business School Student Services on 3138 2050, via email on bus@qut.edu.au or at Level 1, B Block, Gardens Point campus

Special entry

Exceptional career accomplishments may be considered in place of a Bachelor degree. Successful exceptional applicants may be admitted to the Graduate Certificate in Business Administration and may later articulate into the MBA program under existing articulation rules (i.e. achievement of a Grade Point Average (GPA) of 4.5 or greater).

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (e.g. AACSB, EQUIS, AMBA). Advanced standing may also be granted at the discretion of the MBA Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:

<http://www.qut.edu.au/study/applying/english-language-requirements.jsp>

Further information

If you have any further questions regarding this course please contact the QUT Business School Student Services Office on 3138 2050, via email on bus@qut.edu.au or at Level 1, B Block, Gardens Point campus.

Abbreviations

MBA

Domestic Course structure

Course structure

The MBA program is made up four components that build on each other to

provide you with an integrated and multi disciplinary curriculum to equip you to take on the challenges and opportunities of a complex business environment.

Each MBA unit of six credit points is delivered in a seven-week module (six weeks teaching with final assessment in week seven).

1. Building Foundations

- Strategic Management
- Communicating to Influence
- Economics in Business
- Problem Framing for Creative Action
- Accounting for Decision Making
- Fundamentals of Marketing Management
- Personal Leadership and Change
- Data Analysis and Decision Making

2. Multi-Disciplinary Decision Making

- Understanding and Leading Others
- Business Law
- Entrepreneurship
- Financial Management
- Human Resources Management Issues
- Managing Technological Innovation
- Leadership and Complexity
- Corporate Governance and Accountability

3. Concentrations

Students can then add greater depth in an area of interest by choosing a concentration in Leadership and Strategy or Entrepreneurship and Innovation or a specific discipline pathway from within the QUT Business School's postgraduate offerings or from other schools and faculties at QUT.

Entrepreneurship and Innovation

- Systems Thinking for Managers
- Investment Strategies for Technology
- Negotiation Skills and Strategies
- New Venture Funding
- New Venture Growth and Transitions
- Services Innovation

Leadership and Strategy

- Systems Thinking for Managers
- Investment Strategies for Technology
- Negotiation Skills and Strategies
- Stakeholder Engagement and Media Principles
- Improving Business Operations
- Advanced Strategy for Global Business

Discipline Specific Concentration

Students have two options within this

concentration. They may complete 36 credit points from a specific area of interest in a discipline or 24 credit points plus Systems Thinking for Managers and one unit from the elective component of the MBA program. Discipline areas could include Accounting, Human Resource Management, Marketing, Finance or Healthcare

If you complete the Leadership and Strategy or the Entrepreneurship and Innovation concentration the title will appear on your academic transcript.

4. Integrated Workplace Project

The final component of the MBA program is made up of two capstone units which provide you with the opportunity to apply what you have learned in the program to real opportunities in a new venture or within an organisation.

- Integrated Workplace Project 1 - Business Research Methods
- Integrated Workplace Project 2 - Organisational Opportunities and Ventures

Those students who have completed the Entrepreneurial and Innovation concentration will undertake an Entrepreneurial project and those who have completed the Leadership and Strategy concentration or the Discipline specific pathway will engage in a Consultancy project.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test

Master of Business Administration (Major)

score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

[GMAT details \(PDF file, 271.78 KB\)](#)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

[Referee Proforma \(DOCX file, 106.99 KB\)](#)

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students must complete the 14 MBA core units and two integrative core units, plus 48 credit points of optional units taken from one of the Major study areas, plus a further 48cp credit points of optional units which may be selected from any of the MBA concentrations or minors. Other postgraduate units may undertaken with the Course Coordinator's approval. Students may be able to complete multiple concentrations and minors

through careful selection of optional units.

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (eg AACSB, EQUIS, AMBA). Advanced standing may also be granted at the discretion of the Graduate Studies Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

Abbreviation

MBA(Major)

Domestic Course structure Course design

In addition to the core and elective components of the MBA program, the MBA (major) enables you to study an additional 48 credit points of elective units from one of three major study areas: Entrepreneurship, Information Technology Management or Research.

Each MBA unit of six credit points is delivered in a seven-week module (six weeks teaching with final assessment in week seven).

Busy professionals who undertake part-time studies are catered for with a flexible structure that helps you incorporate study into your hectic lifestyle. With six teaching periods, you can change your course workload six times a year, and may even take a teaching period off when your work or personal life requires.

Course structure Core units

- Business Communication
- Business Law
- Economics in Business
- Entrepreneurship
- Financial Management
- Financial Statements Analysis
- Fundamentals of Marketing Management
- Human Resource Management Issues
- Managing in the Global Business Environment
- Managing Technological Innovation
- Organisational Behaviour
- Strategic Management
- Understanding Data
- Understanding Leadership

Integrative core units

- Business Plans
- Corporate Governance and Accountability

Electives

Students can choose from a wide variety of elective units both from within the QUT Graduate School of Business and from other schools and faculties within QUT.

Concentrations and minors

The structure of our program enables you to add greater depth in an area of interest by choosing electives to achieve one or more concentrations (up to six units) or minors (up to four units).

It may be possible for you to complete multiple concentrations or minors through careful choice of elective units. If you have a prior degree in a business area you may be able to substitute some introductory core units with additional electives. This allows you to study areas that you find personally satisfying, as well as units that are essential for your professional development.

The titles of completed concentrations and minors are recorded on academic transcripts at the completion of study.

Concentrations and minor areas:

- Accounting
- Corporate Governance
- Entrepreneurship
- Finance
- Health Services Management
- Human Resource Management
- Information Technology Management
- International Business
- Leadership
- Marketing
- Philanthropy and Nonprofit Studies
- Project Management
- Strategy.

MBA candidates may also choose from other postgraduate elective units which do not specifically contribute toward a concentration or minor.

Domestic Entry requirements

Entry criteria

This is a sponsored program, so your enrolment must be sponsored by your employer. You must be able to provide written confirmation of this support when you apply.

You should be an experienced senior project manager, with a minimum of five years' project experience.

You must satisfy at least one of these requirements:

- have an undergraduate degree or
- Graduate Management Admissions Test (GMAT) score of 500 or higher; or
- under special circumstances, demonstrate comparable capability to the satisfaction of the course coordinator at an interview.

International Entry requirements

This course is open to Australian non-student visa holders with study rights who meet all other entry requirements. This course is not available to students who hold or are intending to apply for an Australian Student Visa.

This is a sponsored program, so your enrolment must be sponsored by your employer. You must be able to provide written confirmation of this support when you apply.

You should be an experienced senior project manager, with a minimum of five years' project experience.

You must satisfy at least one of these requirements:

- have an undergraduate degree or
- Graduate Management Admissions Test (GMAT) score of 500 or higher; or
- under special circumstances, demonstrate comparable capability to the satisfaction of the course coordinator at an interview.

Course Design

The Executive Master of Business (Complex Project Management) is a prescribed program. Students are required to undertake 24 units of 6 credit points each.

Early Exit Options

All participants have the option to exit the program with a Graduate Certificate in Business after successfully completing eight units, or a Graduate Diploma in Business after successfully completing sixteen units.

Domestic Course structure

The Executive Master of Business (Complex Project Management) (EMCPM) comprises 24 units of study, plus executive coaching and expanding horizons.

You have the option of:

- exiting after successfully completing 8 units, and graduating with a Graduate Certificate in Business
- exiting after successfully completing 16 units, and graduating with a Graduate Diploma in Business (Complex Project Management).

Units are delivered in teaching blocks, which are seven weeks long on average.

Units of study

The academic units of study are grouped into three phases:

A. Understanding Yourself, Others and Complexity

1. Strategic Management of Complex Projects
2. Systems Thinking
3. Self Realisation and Personal Development
4. Problem Solving in Complex Environments
5. Communicating Effectively
6. Developing and Leading High Performance Teams
7. Understanding Organisational Behaviour and Culture
8. Workplace Project #1

B. Performing for Results

1. Acquisition Strategies
2. Complex Projects and the Law
3. Financial Analysis and Decision Making
4. Planning for Risk and Change
5. Managing Innovation in Technology-Based Organisations
6. Building Organisational Capability
7. Business Planning

Executive Master of Business (Complex Project Management)

8. Negotiation and Mediation Strategies

GSZ522	Accountability and Governance
GSZ523	Stakeholder Engagement and the Media

C. Leading for Results (Capstone)

1. International Study Tour
2. Implementation of Complex Projects
3. Leadership for Results
4. Planning and Implementing Change
5. Managing Contract Relationships
6. Accountability and Governance
7. Stakeholder Engagement and the Media
8. Capstone Workplace Project

Executive coaching

- Build upon self-realisation and personal development.
- Challenge workplace behaviours.
- Reflect on opportunities and transfer the learning to the workplace.
- Option of post course extension coaching.

Expanding horizons

- Challenging behaviours and perceptions.
- A safe learning environment to explore decision making and leadership through interactive case studies, debrief and reflection.

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Certificate or Diploma following the completion of four or eight approved units.

Course design

The Master of Business (Research) is a three semester or 18 month program (full-time equivalent), usually involving one semester of coursework in research skills development, followed by a two semester research program culminating in the submission of a thesis of approximately 40-50,000 words.

For entry without an Honours degree, students would usually complete a semester of coursework (48 credit points) followed by a dissertation (96 credit points).

For entry with an Honours degree, and where no further coursework is prescribed at point of admission, students must complete a dissertation (96 credit points).

A grade point average of 5.0 within the prescribed coursework must be maintained in order for BS92 enrolment to continue. It is normal for coursework to be undertaken at or near commencement of study, unless the applicant has already completed more or less identical subjects previously. The subjects, completed at the Gardens Point campus, include training in qualitative and quantitative methods and in research methodology.

Candidates are expected to have regular face-to-face contact with supervisors and participate in scholarly activities such as research seminars and colloquia. Teaching and publishing are also encouraged.

Duration

The minimum period of enrolment for a student without an Honours degree is 1.5 years full-time (one semester of coursework units and two semesters for a dissertation).

Students will require an extension to exceed the equivalent of 1.5 years full-time to complete the program. The maximum period of enrolment would be two years (full-time equivalent). If a student's candidature exceeds this time period, they may be required to pay fees. Extensions beyond two years full-time equivalent are not permitted.

Domestic Entry requirements

If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Business School must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.

International Entry requirements

If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Business School must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0

overall	6.5

Course design

For entry without an Honours degree, students must complete four approved coursework units (48 credit points) and a dissertation (96 credit points) as per the programs of study described under the individual majors.

For entry with an Honours degree students must complete a dissertation (96 credit points).

The QUT Research Student Centre enrolls all research students. However any questions regarding enrolment can be directed to the Research Studies Office in the QUT Business School on 3138 1407 or bus.research@qut.edu.au

Facilities

Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Supervision

You will receive individual supervision by a highly qualified and experienced academic staff member who will guide you through your advanced study.

Mid-year entry students

Mid-year entry students should contact the Research Studies Office in the QUT Business School on 3138 1320 or bus.research@qut.edu.au for enrolment advice and course progression details.

Prerequisites

Prerequisite requirements for the following units are deemed to have been satisfied upon admission to this course, expect for those specifically identified in brackets and italics. Where option (elective) units may be undertaken, students should check prerequisite requirements and obtain approval from the School Research Coordinator prior to enrolment.

Domestic Entry requirements

Admission to the DBA course will be based on candidates having completed a minimum of five years senior level business or professional practice experience, and either:

- a Masters degree in Business Administration (MBA) with a GPA of 5.5 (on a scale of 7) or greater from QUT or another recognised institution; or
- a Masters degree in a business discipline area (e.g. Master of Business) with a GPA of 5.5 or greater from QUT or another recognised institution; or
- a Bachelor's degree in a business discipline with first or second class Honours Division A, or equivalent, from QUT or another recognised institution.

Admission is subject to these requirements, plus an interview with the Director Graduate Studies or the Assistant Dean (Research) and mutual acceptance of a study plan on a case-by-case basis, and subject to availability of a suitable supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students will complete 288 credit points consisting of:

- Discipline based coursework (48 credit points)
- Research skills training (48 credit points)
- Research project (192 credit points)

Career impact

Graduates will be positioned to be leaders within their industry with particular emphasis on research and development. Specifically, they will be able to:

- practise at a high level in a variety of organisational contexts
- apply innovative solutions to business problems and opportunities, through an understanding of new and relevant scholarship and the role and limitations of

research in solving business problems

- present scholarly research to both academic and non-academic audiences.

Weekend doctoral seminars

Students will be expected to attend two intensive weekend doctoral seminars per year.

Assumed knowledge

Applicants are assumed to have postgraduate-level knowledge of their proposed research area, or to develop such knowledge through appropriate discipline based study in the coursework component of the degree.

Abbreviation

DBA

Domestic Course structure

Course design

The program is structured in three phases:

Postgraduate business coursework

This phase consists of 48 credit points of postgraduate discipline units. You will study up to eight coursework units and gain a firm grounding in your chosen field of management.

Research skills training

Phase 2 consists of a further 48 credit points of coursework to prepare you for your research projects. You will be taught how to approach your research using contemporary qualitative and quantitative research methods. There are three compulsory research units (36 credit points) plus an additional 12 credit points of complementary research units.

These 12 credit points may consist of:

- two eGrad School six-credit-point units, or
- one 12-credit-point QUT Business School or University research unit.

The eGrad School brings together a wide range of online activities and resources that are specifically designed for early career researchers, whatever their home university or location. Visit www.egradschool.edu.au

Research component

This phase is the core of the DBA—the research projects. This is where you will show your superior expertise in business administration and your profession. This phase consists of 192 credit points, with two options for completion:

- one DBA dissertation of approximately 50 000 words documenting the research project or projects, or
- three research papers of publishable quality. Papers are defined as journal articles, book chapters, and other forms of written scholarly works which are subject to a process of peer review similar to that of refereed journals. Each paper would be approximately 15 000 words.

Domestic Entry requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- a relevant first or second class division A honours degree or equivalent, or
- an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

International Entry requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- a relevant first or second class division A honours degree or equivalent, or
- an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

Financial Guarantee

Acceptable forms of evidence include:

- A letter from an approved employer confirming the continuation of your salary; or
- A signed Scholarship Agreement between QUT and your sponsoring agency; or
- An accepted letter of offer from QUT

for a postgraduate research scholarship; or

- An approved external scholarship.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Location and duration

The PhD normally requires a minimum of three years of full-time study or its part-time equivalent. Study is normally undertaken at the Gardens Point campus but the University may approve study at an off-campus location (multi-modal study). Although QUT offers this flexibility, there will still be minimum attendance requirements and the University must be satisfied that adequate supervision and resources are available at the external location.

In general, the Business School does not support external PhD enrolment.

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- a relevant first or second class division A honours degree or equivalent, or
- an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

English language proficiency requires International applicants to meet an IELTS overall band score of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE

faculty.

Acceptable forms of evidence include:

- A letter from an approved employer confirming the continuation of your salary;

OR

- A signed Scholarship Agreement between QUT and your sponsoring agency; OR

- An accepted letter of offer from QUT for a postgraduate research scholarship; OR

- An approved external scholarship.

Coursework requirement

All PhD students are required to enrol in IFN001 Advanced Information Retrieval Skills. For further information, please refer to [Library](#).

In addition, it is normal for some prescribed coursework to be undertaken to assist in the preparation for the thesis. Generally, the subjects include qualitative methods, quantitative methods, and research methodology. Discipline-specific subjects may also be prescribed. Usually, the coursework is completed at the Gardens Point campus in Brisbane City.

Entry Requirements - Academic

Students must have met the academic entry requirements for their proposed postgraduate or undergraduate course.

Entry Requirements- English Language

IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description

The University Certificate in Tertiary Preparation is a one-semester program that enables students to receive a University certificate on successful completion. It is designed for students who may have already met the academic entry requirements for a QUT undergraduate or postgraduate degree, but who may not have met the English language and/or prerequisite requirements.*

This program provides two alternative streams:

Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in the University Certificate in Tertiary Preparation program.

Stream B is for students who have met

English requirements but not prerequisite requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the University Certificate in Tertiary Preparation Program.

Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Alternatively, there may be some students who have already met both the academic and English requirements for a QUT degree entry, but who would prefer to undertake the University Certificate in Tertiary Preparation in order to prepare for academic study in a different tertiary environment.

*Students who require a Student Visa should check the English language requirements for a student visa from their country of origin.

Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

Progression

In order to progress to an award course, students must:

- fulfil the University Certificate in Tertiary Preparation course requirements
- gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
- meet any other conditions detailed in the 'letter of offer' from Student Business Services.

overall	5.5

Entry Requirements - Academic

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or
2. Degree Entry (IELTS 6.5) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with reading and writing no less than 5.5 and no other sub-band less than 5 (or approved equivalent); OR
3. Degree Entry (IELTS 6.0) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with no sub-band less than 5 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Progression

Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

Description

The aim of the EAP Advanced course is to assist international students to upgrade their English proficiency level for admission to university programs with higher English language level requirements. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

Course Completion

To be eligible to receive EAP Advanced certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression

Successful completion of the EAP Advanced course, with the required overall grade of 65%, is a pathway into the following QUT award programs:

- CS45 Bachelor of Pharmacy
- CS40 Bachelor of Medical Imaging Science
- CS41 Bachelor of Radiation Therapy
- CS44 Bachelor of Podiatry
- NS40 Bachelor of Nursing (and associated double degrees)
- OP45 Bachelor of Vision Science
- OP85 Master of Optometry
- PY18 Master of Clinical Psychology
- PY50 Doctor of Psychology (Clinical)
- XN44 Bachelor of Nutrition and Dietetics (and associated double degrees)

QC15 - IELTS Advanced

IELTS Advanced is designed to prepare candidates who have already achieved IELTS 6.5 (with no sub-score less than 6.0) or acceptable equivalent, for the IELTS Test, Academic Module. It is offered to those seeking to achieve a score of IELTS 7.0 or higher. This is a test preparation course and students must take an official IELTS test and achieve the required score.

The course will also familiarise students with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

On completion of the IELTS Advanced program, students will take an IELTS test. For entry into programs that require a score of IELTS 7.0 or above, students must achieve this score in an official IELTS test to meet the requirements.

Entry Requirements - Academic

To be eligible for entry, applicants must have:

1. A conditional offer for a QUT degree program. Students without a conditional offer who wish to improve their academic English may also apply if they meet the English language entry requirements.

OR

2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-scores of at least 5.0 (or approved equivalent). Students will also sit a placement test at the beginning of their course.

* You should check the English language requirements for a Student Visa from your country of origin.

Description

EAP Plus has been specifically developed for students who wish to commence their entry into an English for Academic Purposes course earlier. Successful applicants can enter the course at pre-intermediate level and immediately begin developing their English language and study skills in an academic context.

EAP Plus enables students to begin developing their English language and study skills in an academic context from a pre-intermediate level. The course aims to prepare students to attain the level of proficiency required for gaining entrance to, and succeeding in QUT undergraduate and postgraduate award programs. EAP Plus courses include:

- Academic reading and note-making
- Academic writing
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations
- Academic study skills
- Computing and Internet skills
- Library research

During the first 12 weeks of the EAP Plus

course, students will develop their paragraph writing, reading, listening and note-taking skills through theme-based topics at an introductory academic level, along with speaking and oral presentation skills in a highly-supported environment. Weekly grammar, paraphrasing and vocabulary development supports the reading, writing and note-taking components. Reading skills are also enhanced via extended reading practice and specific reading skills lessons.

The second half of the course will further develop independent study skills enabling students to operate effectively in an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

EAP Plus has its own internal assessment consisting of exams and assignments, and successful students will meet QUT's English language requirements.

Course Completion

To be eligible to receive EAP Plus Certificate at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression

Successful completion of the EAP Plus course provides a pathway into QUT undergraduate and postgraduate award programs for students who meet the academic requirements for these programs.

International Entry requirements

To be accepted into the program you must have successfully completed senior high school with the required grades. You must also have relevant vocational experience.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	5.0
writing	5.0
reading	5.0
listening	5.0
overall	5.5

QUT International College

International students may upgrade to the QUT Bachelor of Information Technology through QUT International College at our Kelvin Grove campus.

The University Diploma in Information Technology is equivalent to two semesters of the Bachelor of Information Technology degree with a total of 96 credit points (48 standard credit points for a full-time semester).

In the University Diploma program, students study six degree core units as well as two English language units that have been designed to support the other core units.

Progression to the Bachelor of Information Technology

Students who successfully complete these eight units with a grade point average of 4 (on a 7-point scale) and obtain a grade of at least 4 in Professional Communication 2 are given two semesters full-time advanced standing towards their degree and are guaranteed a place in the Bachelor of Information Technology.

Students who complete the University Diploma in Information Technology are

also eligible for 96 credit points towards the Bachelor of Corporate Systems Management and Bachelor of Games and Interactive Entertainment.

International Course structure

University Diploma in Information Technology units

- Databases
- Building IT Systems
- Emerging Technology
- Industry Insights
- Programming
- Networks
- Professional Communication 1
- Professional Communication 2

Extension English Sessions

For first-semester students, these sessions take place during weeks two to eight. Other QUTIC students in University Entry Programs may join the sessions, if their timetable permits. The aims of Extension English are to improve the student's English language proficiency in speaking, listening and overall writing ability in a relaxed environment.

In addition to developing these language skills, students have the opportunity to discuss cultural issues and ask questions about studying at university.

reading	6.0
listening	6.0
overall	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for all primary majors in this course. In addition, Software Engineering also has full professional accreditation with the Australian Computer Society.

Second Majors

Depending on your choice of primary major, you may have the opportunity to undertake a second major or two minors. A second major is an established set of eight units (96 credit points) in the same discipline. A minor is an established set of four units (48 credit points) in the same discipline or from anywhere in the University. You will select your primary major, second major and/or minors after the completion of your first year.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure Work Integrated Learning unit

Students must complete 60 days approved industrial experience in an engineering environment, including 10 days specialist experience in the avionics industry as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundation of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

A solid grounding in the basic terminology and work practices commonly employed in the aerospace industry provide an understanding of air, spacecraft flight control principles and safety aspects of aviation. Exciting wind tunnel tests and understanding of Mach number effects, fundamentals of aircraft performance, estimating range and endurance, take off and landing calculations and light envelopes also feature.

Year 3

Emphasis on the flight control systems of modern aircraft, which is one of the primary subsystems. You are introduced to methods for modelling the dynamic behaviour of aircraft, missiles and spacecraft, and criteria for stability. Systems engineering methodologies and techniques are applied to aerospace engineering projects such as design and operation of a fully autonomous micro air vehicle or rocket.

Year 4

Advanced concepts such as spacecraft guidance and navigation, orbit and altitude determination, dynamics for low earth satellites and also the dynamics of rocket ascent trajectories. Relevant RF and applied electromagnetic aerospace radio radar systems and navigation systems for aircraft are explored. You undertake a one-year project and work integrated learning.

Domestic Course structure Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

Apply knowledge of fundamental engineering science in design areas of timber and concrete construction. Explore theoretical aspects of geotechnical and materials engineering. Your theoretical understanding is reinforced by practical experience in our laboratories. Develop skills in construction administration and

Bachelor of Engineering (Civil and Construction)

project management. Engineering statistics mathematical skills also help your understanding of all aspects of engineering design.

Year 3

Increase your knowledge and skills in geotechnical engineering, construction management, law and other related construction practices. Explore steel construction. Continue to develop communication and organisational skills by writing reports, presenting seminars and working in small groups. Choose a second study area.

Year 4

Build on your third year to complete your second study area. Undertake a major project which will bring together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You also complete your work integrated learning.

Second majors and minors

You will have the opportunity to undertake either a 2nd major or two minors (see options below).

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Environmental) must obtain at least 60 days of industrial experience/practice in an engineering environment as part of the Work Integrated Learning unit.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified

timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

Apply your knowledge of fundamental engineering science in design areas of concrete construction. Explore the theoretical aspects of geotechnical, fluids and sustainable engineering. Your theoretical understanding is reinforced by practical experience in our laboratories. Engineering statistics mathematical skills also help your understanding of all aspects of engineering design.

Year 3

Increase your knowledge and skills in geotechnical and water engineering, and explore steel construction, highway and transport engineering. You are also introduced to environmental studies relating to population, resource management and environmental law. Continue to develop communication and organisational skills by writing reports, presenting seminars and working in small groups.

Year 4

Building on your third year by completing a major project which may be industry based will bring together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You also complete work integrated learning. There are also additional electives to choose from.

Discontinuation

From Semester 1 2010, this primary major has been discontinued. A second major in this discipline is currently under development.

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Minors

For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised engineering units.

Special Course Requirements

Students must complete at least 60 days industrial experience as part of the Work Integrated Learning unit in order to graduate.

Course Overview

The course is a collaborative program between the areas of Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems and computer systems in all areas of industry.

Career Outcomes

Software Engineers create, maintain and modify computer and software programs

such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Professional Recognition

Full professional accreditation from Engineers Australia and the Australian Computer Society has been given for this course.

Special course requirements

Students are required to complete 60 days approved industrial experience as part of the Work Integrated Learning unit.

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You expand your knowledge of software development, and cover the fundamentals of analogue and digital electronics, and the approach to writing software to solve engineering problems. A mathematics unit is completed. Semester two expands on electronics circuit design, introduces fundamentals of telecommunications and networking protocols, and broadens computer programming skills.

Year 3

You build on your knowledge of software engineering principles, covering topics

Bachelor of Engineering (Computer and Software Systems)

such as formal software engineering processes with an emphasis on agile methodologies, data structures and algorithms and modern software engineering practices. Microprocessors and embedded digital systems are explored. Principles of systems engineering and project management are introduced and applied through a real-world project.

Year 4

You undertake a major project which may be industry based, in which principles of software engineering learnt to date are brought together. Study also covers embedded systems and security. You also have the opportunity to take one or two electives.

Electrical engineering second major and minor options

Second major:

- Control Systems (previously Control and Manufacturing Engineering)
- Power and Energy Systems (previously Power Engineering)
- Signal Processing
- Telecommunications

Minors:

- Electrical Engineering minor

plus

- A minor from anywhere in QUT that is outside of the course.

Please note: The Work Integrated Learning unit (BEB701) and the project unit (BEB801) that are required for professional recognition and were once part of an applications minor have now been moved to the core of the Engineering course.

International Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics,

basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You expand your knowledge of electrical engineering, and cover the fundamentals of analogue and digital electronics, and the approach to writing software to solve engineering problems. You are introduced to fundamental concepts in electronics, telecommunications and software design. You apply these concepts and are introduced to fundamentals of electrical engineering design.

Year 3

You increase your knowledge and skills in more advanced units in control, power systems, electronics, signal processing and telecommunications. You continue to develop your communication skills by writing assignment reports and presenting seminars. You choose a second study area.

Year 4

In your final year you complete your second study area. You undertake a major project which may be industry based and brings together all your previously mastered skills and advances your communication skills in report writing and seminar presentation. You will also complete your work integrated learning.

Second majors and minors

You will have the opportunity to undertake either a 2nd major or two minors (see options below).

Please refer [to the rules](#) before making your selection.

Electrical engineering second major and minor options

Second major:

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Second Major and Minors

You will have the opportunity to undertake either a second major or two minors (see options below).

MECHANICAL ENGINEERING Second Major and Minor Options

Second Major:

Motor Racing Engineering (previously Automotive Engineering)
Engineering Management
Heavy Mechanical Engineering

Minors:

Mechanical Engineering minor

plus

A minor from anywhere in QUT that is outside of the course. (see [University Wide Minors](#))

Please note: The Work Integrated Learning unit (BEB701) and project units (BEB801, BEB802) that are required for professional recognition and were once part of an applications minor have now been moved to the core of the Engineering course.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Mechanical) must complete at least 60 days of industrial experience/practice in an engineering environment as part of the Work Integrated Learning unit.

Domestic Course structure Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You build your knowledge of engineering science in areas such as fundamentals of design, dynamics, computer technology, fluid mechanics and mathematics. You are introduced to human anatomy which is a specialist requirement for medical engineering. You gain practical experience in our laboratories and are introduced to computational fluid dynamics (CFD). Your communication skills are advanced with an introduction to engineering drawing and assignment report writing.

Year 3

You increase your knowledge and skills in professional areas including thermodynamics and stress analysis. You are exposed to specialist areas such as biomedical engineering design, biofluids, biomaterials and human physiology. Throughout this level you will continue to develop your communication skills by writing assignment reports and presenting seminars. You also gain further professional learning in ethics and legislation.

Year 4

In your final year you further your knowledge in specialised areas such as modelling and simulation, biomedical instrumentation, instrumentation and control, and engineering asset management. You undertake a major project which brings together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You will also

Bachelor of Engineering (Medical)

complete your work integrated learning.

Minors

For professional recognition you will undertake an applications minor which consists of a workplace integrated learning unit, a project unit and two specialised engineering units.

Course Coordinator	Dr R.Mahalinga-Iyer
Discipline Coordinator	Associate Professor Geoffrey Will

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Career Outcomes

The degree will develop responsible professionals with a sense of social awareness, leadership skills and problem solving. QUT has very strong industry links in Process Engineering and has current practicing Process and Chemical Engineers teaching into this course which will provide opportunities for site visits, work integrated learning and research projects.

A degree in Process Engineering will equip students for a wide variety of employment. Process Engineers are predominantly employed in the following sectors/sub-sectors:

- Oil and Gas Production
- Mining
- Refining
- Mineral Processing
- Chemical and Petrochemicals
- Metal Production
- Food Processing

- Electricity Supply
- Pharmaceuticals
- Bio-process industries such as Biofuels and Waste Product Processing

Course Overview

A Process Engineer develops and optimises industrial processes to make the huge range of products on which modern society depends. Process engineering involves refining, renewing or modifying raw materials. In today's world, processing efficiently, sustainably and with a low energy footprint is key to business operations and profitability.

Professional membership

Graduates of this course will be eligible to apply for full professional membership of Engineers Australia

Minors

You will have the opportunity to undertake a minor from anywhere in QUT that is outside of the course. (see [University Wide Minors](#))

Course Overview

The course is a collaborative program between the areas of Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems and computer systems in all areas of industry.

Career Outcomes

Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Professional Recognition

Full professional accreditation from

Engineers Australia and the Australian Computer Society has been given for this course.

Minors

For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised engineering units.

Special course requirements

Students are required to complete 60 days approved industrial experience as part of the Work Integrated Learning unit.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the [online questionnaire](#) with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Entry requirements

Prerequisite

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Closing date

Submit the questionnaire with QUT by Friday, 16 November 2012.

Additional questionnaire

In addition to applying through QTAC and you must also submit the online Science and Engineering Dean's Scholars questionnaire (available October) by the closing date.

Please note: Submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course you are required to do both.

QTAC

Applicants will be notified via email when the questionnaire is available.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Conditions as of 2013.

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Engineering within 4 years of starting, except where you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances
- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)

Bachelor of Engineering - Dean's Scholars Program

- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances. Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.
- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry sponsored student scholarships policy](#).

Financial Support as of 2013.

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year programs.

Financial Support prior to 2013.

Students who enrol will receive a full scholarship that includes payment of all undergraduate Higher Education Contribution Scheme (HECS) monies for the bachelor program.

Special Course Requirements

Dean's Scholars are expected to maintain a GPA of 6.0 or above and complete 60 days of Industry experience. For a copy of the program rules and regulations please contact the [International and Engagement Portfolio](#) of the Science and Engineering Faculty.

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Why Choose This Course

This course is a collaboration between the faculties of Science and Engineering, and Creative Industries, allowing you to be taught design and technology skills from the experts in their field.

Massive cultural changes are occurring due to the advent of consumer 3D technology. This has changed the expectations and abilities of people, creating more jobs for the industry.

Queensland is leading the video game industry with figures showing the State earns more than any other from interactive entertainment. The State's game developers generate approximately \$55 million per year; a 40 per cent slice of Australia's video games earnings, according to an Australian Bureau of Statistics report. Queensland game companies also employ almost half of the video game industry's workforce, with Brisbane becoming a hub of games talent, producing games for a worldwide

audience.

Popular games titles produced in Queensland include Hellboy, Fruit Ninja, the children's game Viva Pinata Party Animals and Star Wars: The Force Unleashed.

Course Structure

The 24-unit degree comprises:

- seven (7) core units including a 24-credit-point final-year project
- eight units in your chosen major
- four units in a secondary area of study, also known as your minor
- four optional units where you can choose units from across QUT to complement your studies.

MAJORS

Choose your primary area of study, also known as your major, from:

Animation This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), and game-level design to provide the skills necessary to create interesting and unique game worlds.

Software Technologies This major will prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills, however they are now turning to tertiary institutions to provide appropriately qualified graduates.

MINORS

- Animation
- Advanced Animation*
- Digital Media
- Entrepreneurship
- Game Design
- Legal Issues

Bachelor of Games and Interactive Entertainment

- Marketing
- Mathematics for Games
- Mobile and Network Technologies
- Physics for Games
- Software Technologies
- Advanced Software Technologies^
- Sound Design

*Only available to those undertaking the animation major.

^Only available to those undertaking the software technologies major.

Professional Recognition

The Software Technologies major within this course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Your Course

Year 1

In your first year you will undertake five core units, consisting of:

- Computer Games Studies
- Building IT Systems
- Industry Insights
- Introducing Design
- Games Production

You will also undertake three units within your chosen major or minor.

Year 2

Second year consists of units within your chosen major and minor together with electives chosen from anywhere in the University.

Year 3

In your final year, you will extend your professional and technical skills by participating in a major group project to produce a significant piece of digital work using PC, mobile devices, consoles or virtual reality. You will also undertake a Bachelor of Games and Interactive Entertainment design project. You will complete your units for your chosen major, minor and optional units.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program

enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Education 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the [Cooperative Education Program](#).

Credit for Previous Study

Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on [QUT's international site](#).

Domestic applicants should view the credit information on the [Student Services site](#).

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Further Information

For Further Information about this course please contact:

Michael Docherty

Email: sef.enquiry@qut.edu.au

Domestic Course structure

Course structure

The 24-unit degree comprises:

- five core units plus a 36-credit-point final-year project (three units

equivalent)

- eight units in your chosen major
- four units in a secondary area of study, also known as your minor
- four optional units where you can choose units from across QUT to complement your studies.

Majors

Choose your primary area of study, also known as your major, from:

Animation

This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming, which includes object orientation, 3D computer graphics and computer-generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design

This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), and game-level design to provide the skills necessary to create interesting and unique game worlds.

Software Technologies

This major will prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills; however they are now turning to tertiary institutions to provide appropriately qualified graduates.

Minors

- Animation
- Advanced Animation*
- Digital Media
- Entrepreneurship
- Game Design
- Legal Issues
- Marketing
- Mathematics for Games
- Mobile and Network Technologies
- Physics for Games
- Software Technologies
- Advanced Software Technologies^
- Sound Design

Your course

Year 1

In your first year you will undertake five core units, consisting of:

- Computer Games Studies

Bachelor of Games and Interactive Entertainment

- Building IT Systems
- Industry Insights
- Introducing Design
- Games Production.

You will also undertake three units within your chosen major or minor.

Year 2

Second year consists of units within your chosen major and minor together with optional units chosen from anywhere in the University.

Year 3

In your final year, you will extend your professional and technical skills by participating in a major group project to produce a significant piece of digital work using PC, mobile devices, consoles or virtual reality. You will also undertake a Bachelor of Games and Interactive Entertainment design project. You will complete your units for your chosen major, minor and optional units.

*Only available to those undertaking the animation major.

^Only available to those undertaking the software technologies major.

International Course structure

Course structure

The 24-unit degree comprises:

- five core units plus a 36-credit-point final-year project (three units equivalent)
- eight units in your chosen major
- four units in a secondary area of study, also known as your minor
- four optional units where you can choose units from across QUT to complement your studies.

Majors

Choose your primary area of study, also known as your major, from:

Animation

This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer-generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design

This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), and

game-level design to provide the skills necessary to create interesting and unique game worlds.

Software Technologies

This major will prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills; however they are now turning to tertiary institutions to provide appropriately qualified graduates.

Discipline Coordinator	

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the [online questionnaire](#) with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements Prerequisite

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Closing date

Submit the questionnaire with QUT by Friday, 16 November 2012.

Additional Entry Requirements

In addition to applying through [QTAC](#) and you must also submit the online Science and Engineering Dean's Scholars questionnaire (available August) by the closing date.

Please Note: Submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Please Note

As of 2013, all new Dean's Scholar applicants will be admitted into the standard Bachelor programs, with no accelerated studies and no pre-approved articulation to Honours degrees.

Eligibility Criteria

Applicants must:

- have completed Year 12 in the year they apply for the program, or the previous year
- have received an OP 1 (or equivalent)
- be starting university for the first time
- demonstrate leadership experience and potential
- demonstrate community participation and engagement
- apply for and gain a place in the relevant Dean's Scholars Program

If studying at QUT International College (QUTIC), applicant must have a grade point average (GPA) of at least 6.5 for the two semesters immediately before they apply for the Dean's Scholars Program.

If expecting to get an OP of 1-3, applicant should apply for consideration.

Financial Support as of 2013.

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year programs.

Conditions as of 2013.

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Games and Interactive Entertainment within 3 years of starting, except where you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances
- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)
- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances. Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.

- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry sponsored student scholarships policy](#).

Financial Support prior to 2013

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Why Choose This Course

This course is a collaboration between the Faculties of Science and Engineering, and Creative Industries, allowing you to be taught design and technology skills from the experts in their field. Queensland is leading the video game industry with figures showing the State earns more than any other from interactive entertainment. The State's game developers generate approximately \$55 million per year; a 40 per cent slice of Australia's video games earnings, according to an Australian Bureau of Statistics report. Queensland game companies also employ almost half of the video game industry's workforce, with Brisbane becoming a hub of games talent, producing games for a worldwide audience.

Popular games titles produced in Queensland include Hellboy, the children's game Viva Pinata Party Animals and Star Wars: The Force Unleashed.

Course Structure

The 24-unit degree comprises:

- seven (7) core units including a 24 credit-point final-year project
- eight units in your chosen major
- four units in a secondary area of study, also known as your minor
- four optional units where you can choose units from across QUT to complement your studies.

MAJORS

Choose your primary area of study, also known as your major, from:

Animation This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer generated art. You will develop skills enabling you to work in areas such as

computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), architecture and interior design to encourage the creation of interesting and unique models within the virtual environment.

Software Technologies# This major will prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills, however they are now turning to tertiary institutions to provide appropriately qualified graduates.

MINORS

- Animation
- Advanced Animation*
- Digital Media
- Entrepreneurship
- Game Design
- Legal Issues
- Marketing
- Mathematics for Games
- Mobile and Network Technologies
- Physics for Games
- Software Technologies
- Advanced Software Technologies^
- Sound Design

#Requirement for this major is an SA or better in Queensland Maths B (or equivalent).

*Only available to those undertaking the animation major.

^Only available to those undertaking the software technologies major.

Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Career Outcomes

Depending on your specialisation, graduates may find employment as a games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, games/digital media reviewer, video game tester, sound designer, mobile entertainment and communications developer, web

developer, digital product strategist, computer systems engineer, multimedia designer, software engineer, or technical officer.

Your Course

Year 1

In your first year you will undertake five core units, consisting of:

- Computer Games Studies
- Building IT Systems
- Industry Insights
- Introducing Design
- Games Production

You will also undertake three units within your chosen major or minor.

Year 2

Second year consists of units within your chosen major and minor together with electives chosen from anywhere in the University.

Year 3

In your final year, you will extend your professional and technical skills by participating in a major group project to produce a significant piece of digital work using PC, mobile devices, consoles or virtual reality. You will also undertake a special topic. You will complete your units for your chosen major, minor and electives.

Note:

The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility

criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Education 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the [Cooperative Education Program](#).

Why Choose This Course

You may have a great idea for new mobile software, a new way to conduct business over the net, or even how a business could out-manoeuvre its competitors using information technology. You know the importance of IT and you are excited about what IT can do and either want to develop the next big thing yourself or be able to evaluate, identify, choose and integrate from myriad technologies to arrive at a creative solution. This degree will equip you with the knowledge and skills to realise these aspirations. Whether as a professional within an organisation, as a consultant, or as an entrepreneur, you will be well equipped to take advantage of the demand for business-savvy IT professionals who are able to creatively develop or identify IT solutions to help organisations adapt and grow.

Course Structure

The 24-unit degree comprises:

- 16 core units that build your

understanding of the relationships between information, technology, business and people

- eight units in a specialisation of your choice – you could choose to further specialise in information technology, a set of units from a different discipline, or optional units from across QUT to complement your studies.

Specialisation options include:

- adult and community learning
- business systems engineering
- construction management – administration
- creative industries management
- databases
- entrepreneurship
- finance
- forensics
- human resource management
- organisational psychology
- information systems
- information management/information technology management
- international studies
- law
- management
- marketing
- public health

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Your Course

Year 1

In your first semester, you will complete the first four core units:

- Impact of IT
- Industry Insights
- Corporate Systems
- Organisational Databases.

In your second semester, you will complete three more core units:

- Management, People and Organisations
- Project Management Practice
- Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2

In first semester, you will complete three core units:

- Business Analysis
- Technology Management
- Creating New Enterprises.

You will also complete your second

specialisation unit or electives.

In second semester, you will complete two core units:

- Marketing
- Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3

In your first semester, you will complete two core units:

- Enterprise Systems Applications
- Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:

- Business Process Modelling
- Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

Course Requirements

Block A: Core Units

16 Units (includes an industry-based project)

Block B: Complementary Studies

Students can select unit set(s) from within the Science and Engineering Faculty or from those offered by other Faculties at QUT. Some options for complementary studies are listed in this document.

Alternatively, students may select to take up to 8 elective units with the approval of the Course Coordinator.

If you require assistance in selecting your IT Complementary Studies please contact your Course Coordinator.

UNIT SELECTION PROCESS

- Determine which units you are yet to complete
- Check that you meet the prerequisite requirements for these units
- Check the availability of the unit in the given semester
- Enrol in the appropriate units and ensure you have nominated your major via your online enrolment page

NOTE: It is the student's responsibility to ensure that the correct enrolment program is nominated and prerequisite requirements are met for selected units. Assistance with planning your enrolment is available from Student Services, Level 3, O Block Podium, Gardens Point campus.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. Students participating in this program enrol in INB300 Professional Practice in IT in the first semester of the program and in INB325 Corporate Systems Management Project in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment components of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional IT position may be able to use their current employment to meet the criteria for completing INB300 Professional Practice in IT, after completion of 168 credit points in the Bachelor of Corporate Systems Management component, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point campus or see the unit outline for INB300.

Find out more about the [Cooperative Education Program](#).

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Intermediate Level Electives

If you have not completed ITB008 you will need to replace it with one of the following intermediate level elective units.

- INB120 Corporate Systems
- INB220 Business Analysis
- INB255 Security
- INB272 Interaction Design

Or, an INB300 level unit as approved by the course coordinator

Your course

Year 1

In your first semester, you will complete the first four core units:

- Impact of IT
- Industry Insights
- Corporate Systems
- Organisational Databases.

In your second semester, you will complete three more core units:

- Management, People and Organisations
- Project Management Practice
- Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2

In first semester, you will complete three core units:

- Business Analysis
- Technology Management
- Creating New Enterprises.

You will also complete your second specialisation unit or electives.

In second semester, you will complete two core units:

- Marketing
- Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3

In your first semester, you will complete two core units:

- Enterprise Systems Applications
- Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:

- Business Process Modelling
- Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

International fee (indicative)	2013: \$11,800 per Semester
Total credit points	
Start months	February Fixed closing date - 16 November 2012.
Int. Start Months	February Fixed closing date - 30 November
Course Coordinator	Richard Thomas
Discipline Coordinator	

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the [online questionnaire](#) with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements

Prerequisite

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Closing date

Submit the questionnaire with QUT by Friday, 16 November 2012.

Additional entry requirements

In addition to applying through [QTAC](#) and you must also submit the online Science and Engineering Dean's Scholars questionnaire (available October) by the closing date.

Please note: Submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Applicants will be notified via email when the questionnaire is available.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Please Note

As of 2013, all new Dean's Scholar applicants will be admitted into the standard Bachelor programs, with no accelerated studies and no pre-approved articulation to Honours degrees.

Eligibility Criteria

Applicants must:

- have completed Year 12 in the year they apply for the program, or the previous year
- have received an OP 1 (or equivalent)
- be starting university for the first time
- demonstrate leadership experience and potential
- demonstrate community participation

and engagement

- apply for and gain a place in the relevant Dean's Scholars Program

If studying at QUT International College (QUTIC), applicant must have a grade point average (GPA) of at least 6.5 for the two semesters immediately before they apply for the Dean's Scholars Program.

If expecting to get an OP of 1-3, applicant should apply for consideration.

Financial Support as of 2013.

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year programs.

Conditions as of 2013.

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Corporate Systems Management within 3 years of starting, except where you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances
- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)
- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances. Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.
- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry](#)

[sponsored student scholarships policy](#).

Financial Support prior to 2013

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Why Choose This Course

You may have a great idea for new mobile software, a new way to conduct business over the net, or even how a business could out-manoeuvre its competitors using information technology. You know the importance of IT and you are excited about what IT can do and either want to develop the next big thing yourself or be able to evaluate, identify, choose and integrate from myriad technologies to arrive at a creative solution. This degree will equip you with the knowledge and skills to realise these aspirations. Whether as a professional within an organisation, as a consultant, or as an entrepreneur, you will be well equipped to take advantage of the demand for business-savvy IT professionals who are able to creatively develop or identify IT solutions to help organisations adapt and grow.

Course Structure

The 24-unit degree comprises:

- 16 core units that build your understanding of the relationships between information, technology, business and people
- eight units in a specialisation of your choice – you could choose to further specialise in information technology, a set of units from a different discipline, or optional units from across QUT to complement your studies.

Specialisation options include:

- adult and community learning
- business systems engineering
- construction management – administration
- creative industries management
- databases
- entrepreneurship
- finance
- forensics
- human resource management

- organisational psychology
- information systems
- information management/information technology management
- international studies
- law
- management
- marketing
- public health

Career Outcomes

Career destinations from this degree are management, analyst or consultant roles such as business analyst, project manager, process analyst, program manager, or data manager in fields ranging from health to finance to media and entertainment services. If you are interested in creating your own business, you may start your own consultancy service to assist businesses in using information technology and improve their business performance. The career possibilities are numerous and relevant experience is in great demand by industry.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Your Course

Year 1

In your first semester, you will complete the first four core units:

- Impact of IT
- Industry Insights
- Corporate Systems
- Organisational Databases.

In your second semester, you will complete three more core units:

- Management, People and Organisations
- Project Management Practice
- Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2

In first semester, you will complete three core units:

- Business Analysis
- Technology Management
- Creating New Enterprises.

You will also complete your second specialisation unit or electives.

Bachelor of Corporate Systems Management - Dean's Scholars Program

In second semester, you will complete two core units:

- Marketing
- Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3

In your first semester, you will complete two core units:

- Enterprise Systems Applications
- Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:

- Business Process Modelling
- Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

Note:

The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Education 1, after completion of 168 credit points in the Bachelor of Games and Interactive

Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the [Cooperative Education Program](#).

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Intermediate Level Electives

If you have not completed ITB008 you will need to replace it with one of the following intermediate level elective units.

- INB120 Corporate Systems
- INB220 Business Analysis
- INB255 Security
- INB272 Interaction Design

Or, an INB300 level unit as approved by the course coordinator

Code	Title
Course Notes	

Handbook

Year	2013
QUT code	IT21
Duration (full-time)	3 years
Duration (part-time)	6 years
OP Guarantee	Yes
Campus	Gardens Point and Carseldine
Domestic fee (indicative)	2013: CSP \$4200 per Semester (48 credit points)
Total credit points	288
Course Coordinator	Mr Richard Thomas
Discipline Coordinator	

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Update

This course is no longer offered to commencing students. Please refer to IT23 for students commencing in 2009.

Course Design

The course structure is divided into three blocks:

Block 1: Common First Year

All students undertake a Common First Year: the first year full-time or first two years part-time of the course. This block is worth 96 credit points.

Block 2: Major

At the end of the Common First Year, students choose a major area of study. Four single majors and three integrated majors are available. The Major extends over the second and third years of the course for full-time students, and the third to sixth years for part-time students. Students select one of the following Majors:

- Data Communications (DAT)
- Electronic Commerce (ELC)
- Emerging Technologies (EMT)
- Information Systems (ISS)
- Software Engineering (SOF)
- Data Communications/Information Systems (DCI)
- Data Communications/Software Engineering (CDC)

Block 3: General Electives

Students choose the composition of the third block of the course, which extends over the later years of the course and is worth:

- 48 credit points for majors: DAT, SOF, ELC, and ISS; OR
- 24 credit points for majors: EMT, DCI and CDC

Students are encouraged to consider selecting units from outside the Faculty in order to broaden their range of skills.

This course is offered for continuing students only. Please refer to IT23 for

students commencing from 2009.

Professional Recognition

Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Co-operative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

CRICOS	012656E
Duration (full-time)	3 years
Duration (part-time domestic)	6 years
OP	12
Rank	75
OP Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2013: CSP \$4200 per Semester (48 credit points)
International fee (indicative)	2013: \$11,900 per Semester
Total credit points	288
Start months	February, July
Int. Start Months	February, July
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Mr Mike Roggenkamp
Discipline Coordinator	

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Pathways

You have the opportunity to choose a study pathway:

• **professional pathway** – you will learn how to think strategically, identify opportunities and solve problems that we don't even know are problems yet. This pathway will enable you to acquire the business and IT skills to have a career as an IT professional within any industry.

• **research pathway** – if you are interested in shaping the future of the IT industry you can pursue a research career. You will have opportunities to work with researchers on projects and progress on to an honours degree. You will have access to world-leading researchers within the Faculty.

• **entrepreneurship pathway** – you now have the opportunity to gain the entrepreneurial skills to develop an idea into a commercial opportunity. You will be able to take advantage of the Faculty's close relationship with local technology

entrepreneurs to learn from their experiences.

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of the Bachelor of Information Technology which would be counted both for completion of the degree and towards Honours. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

The Dean's Scholars program was introduced in Semester 1, 2006. This program provides a scholarship for OP 1 and 2 students throughout their Bachelor and Honours degrees. Students in the program are required to maintain a high GPA to continue to qualify for the scholarship each semester. Students in the Dean's Scholars program will be able to take advantage of the Accelerated Honours program. Students in the Dean's Scholars program will have an option to follow an accelerated pathway through the Bachelor of Information Technology, allowing them to complete the Bachelor of Information Technology course plus the Bachelor of Information (Honours) course in a total of three years.

To encourage students to enter the Dean's Scholars program, domestic students have their undergraduate HECS paid by the Faculty and those proceeding to Honour's level will also receive full HECS support. International students who have completed a Year 12 education in Australia and meet the entry requirements for the program will have a third of their tuition fees paid by the Faculty for the undergraduate and Honours program.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete IT23 with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Design Your Own Degree

The Bachelor of Information Technology provides you with the practical skills and theoretical knowledge to become an effective professional.

The 24-unit degree comprises:

- **eight core units** – four introductory units in first semester to introduce you to the breadth of information technology and its relationship to modern society. Then there are four advanced units spread over the rest of your degree program to develop your professional skills in preparation for your career
- **four breadth units** (intermediate level units) – these units give you broad technical experience across a range of fields in information technology. They also give you an introduction to choose the specialisation you wish to focus on
- **four specialisation units** (advanced level units) – these units allow you to focus on your chosen area of study, or you may choose to continue to broaden your information technology skills. This option allows you to study across a selection of study areas rather than focusing on one specialisation
- **eight optional units** – these units allow you to customise your degree by studying in another professional discipline (for example, business, health, or science). Or you may choose to gain further depth in other areas of information technology.

SPECIALISATION AREAS

Business Process Management

Learn how to increase business efficiency. All businesses require IT to effectively and efficiently support their operations. This specialisation provides you with the skills required to improve business performance.

Data Warehousing

Database technology, the software that enables us to buy concert tickets online, download music or book a flight, is sophisticated and complex. You will gain knowledge and skills in the accurate recording, rapid retrieval and management of data that is essential to modern society. You will learn how to mine existing sets of data to extract hidden knowledge.

Digital Environments

Study how developments in IT shape society through applications like FaceBook, MySpace, Second Life, smart phones, iPods and gaming devices.

Enterprise Systems

Enterprise systems from vendors like SAP, Mincom and Oracle form the fundamental structure of organisational processes in most large organisations. You will gain hands-on experience with successful enterprise systems to enable you to put into practice the theory that supports business activities.

Network Systems

Learn to tackle emerging network issues such as security, network monitoring and high availability design, and gain up-to-date technical skills for the administration and management of computer networks.

Software Engineering

Software is the invisible infrastructure of modern society. Almost all aspects of business and social endeavour are facilitated by software applications or devices controlled by software. You will learn how leading-edge techniques and technologies enable you to design and implement complex software systems for use in a wide range of domains.

Web Technologies

Web technologies are the principal mechanism for integrating the various applications that exist within an organisation. They also provide the main user interface for most applications used by internal and external clients, including modern web-based interfaces. You will develop practical skills to help organisations use web technologies effectively in deploying a range of applications and services.

Career Outcomes

Information technology is an integral part of all commercial, industrial, government, social and personal activities. In the long term, your career opportunities are unbounded. Some information technology graduates retain a technical focus in roles such as web developer, database manager, network administrator, electronic commerce developer, data communications specialist, software engineer, systems programmer, computer scientist, systems analyst or programmer. Others evolve into domain experts as chief technology officers, chief information officers, managers, executives, business analysts, entrepreneurs or researchers. Graduates have the opportunity to achieve the highest levels of their profession.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Your Course

Year 1

In your first semester you will explore how information technology has changed the world and what the possibilities are for the future. You will look at the details of information, computing and communication technologies to understand how they work. You will take part in hands-on projects developing small information technology systems.

Core units for Year 1:

- Impact of IT
- Emerging Technology
- Industry Insights
- Building IT Systems

In Semester 2 you will undertake three breadth units and one elective.

Year 2

In your second year you will take part in a collaborative team setting, working on small projects that integrate the skills you learnt during Year 1. You will also start studying more advanced units in your chosen field of specialisation.

Core unit for Year 2:

- Scalable Systems Development

Throughout Year 2 you will undertake one breadth unit, two specialisation units and four elective units.

Year 3

In third year you will be able to undertake workplace experience opportunities offered by the Faculty, while earning credit towards your degree. You will continue studying in your area of specialisation. In your final semester you will develop a major project, showcasing what you have learnt during your degree—providing you with a key part of your portfolio when seeking a job.

Core units for Year 3:

- Professional Practice in IT
- The Business of IT
- IT Capstone Project

Throughout Year 3 you will undertake two specialisation units and three elective units.

Cooperative Education Program

An optional half or full year period of paid work experience is available to eligible full-time students. Students participating in this program enrol in INS011 Co-Operative Education 1 in the first semester of the program and in INS012 Co-Operative Education 2 in the second semester of the program. The cooperative

education program and its mentoring and assessment requirements make up the required contact and assessment components of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions. International students wishing to undertake a similar program should consider applying to take part in a [CEED project](#) or for an [ACS Foundation scholarship](#).

Part-time students who are working in a professional IT position may be able to use their current employment to meet the criteria for completing INB300 Professional Practice in IT, after completion of 168 credit points in the Bachelor of Information Technology. Further information about this option is available from the unit outline for INB300.

Find out more about the [Cooperative Education Program](#).

Discipline Coordinator	

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the [online questionnaire](#) with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements Prerequisite

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Closing date

Submit the questionnaire with QUT by Friday, 16 November 2012.

Additional Entry Requirements

In addition to applying through [QTAC](#) and you must also submit the online Science and Engineering Dean's Scholars questionnaire (available August) by the closing date.

Please Note: Submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Please Note

As of 2013, all new Dean's Scholar applicants will be admitted into the standard Bachelor programs, with no accelerated studies and no pre-approved articulation to Honours degrees.

Eligibility Criteria

Applicants must:

- have completed Year 12 in the year they apply for the program, or the previous year
- have received an OP 1 (or equivalent)
- be starting university for the first time
- demonstrate leadership experience and potential
- demonstrate community participation and engagement
- apply for and gain a place in the relevant Dean's Scholars Program

If studying at QUT International College (QUTIC), applicant must have a grade point average (GPA) of at least 6.5 for the two semesters immediately before they apply for the Dean's Scholars Program.

If expecting to get an OP of 1-3, applicant should apply for consideration.

Financial Support as of 2013.

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year programs.

Conditions as of 2013.

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Information Technology within 3 years of starting, except where you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances
- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)
- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances. Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.
- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry sponsored student scholarships policy](#).

Financial support prior to 2013

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 6 or 12 months paid industry placement during your course where you can integrate real experience with what you are learning in your degree.

Find out more about the [Cooperative Education Program](#).

Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code

Course Design

The Bachelor of Biotechnology Innovation, a degree with Honours, was the first degree of its type in Australia and aims to provide highly trained and motivated graduates skilled in the science and business and biotechnology. Graduates undertake the same basic and advanced biotechnology science as students in other science-based courses, gaining requisite theoretical and practical skills. In this course, however, basic and advanced business units are undertaken highlighting entrepreneurial skills and biotechnology commercialisation. Integration and synthesis of the disparate disciplines is an essential component of the course.

Unique to the course is the Student BioEnterprise Scheme, a proactive project-based learning exercise promoting the integration of theory and practice in business and science. Students form companies and operate in the company environment over the entire duration of their course. Companies invent biotechnology-oriented products or processes and formulate strategies to bring them from laboratory to the marketplace under the guidance of industry and academic mentors. Students have many opportunities to network with industry through the Student BioEnterprise Scheme and numerous Ausbiotech functions, events and conferences. Companies can also undertake industry-based or consultancy projects with an industry partner in the final year of the course.

Professional Recognition

On graduation, you will be immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society

for Biochemistry and Molecular Biology (ASBMB).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement English (4, SA) and Maths B (4, SA). Recommended Study: Maths C.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

The course's flexible structure allows you to choose to study only mathematics units, or include some units from another area of interest, such as science, business or information technology. You will be able to design a program to suit your interests and career aspirations by combining advanced units from a number of mathematical specialisations.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary to help you financially throughout your studies. For further information visit [scholarships](#).

Your Course

Year 1

You will study core units in mathematics and statistics. These core units include studies in calculus, algebra, vectors and matrices, computational mathematics, data analysis and statistical modelling.

Year 2

You will build on your core studies by advancing to more specialised topics such as advanced calculus, linear algebra, differential equations, operations research, data visualisation, statistics or modelling. Your practical assignments will tackle problems faced in the real world. You can choose to study only mathematics units or include units from another area of interest, such as science, business, information technology or a language.

Year 3

Refine your studies by combining advanced units from the following specialisations:

- applied mathematics: using mathematical techniques to solve real-world problems
- computational mathematics: using computers and numerical techniques to find solutions to complex problems which cannot be solved analytically
- discrete mathematics: the mathematics of numbers, including sets, fields, rings and groups which is used extensively in information security
- financial mathematics: applying a wide variety of mathematical techniques for use in a range of financial areas
- mathematical modelling: using mathematical techniques to develop a model or explanation of a real-world problem which can then be tested
- operations research: optimising complex systems including queuing, scheduling or allocation of resources
- scientific computation and visualisation: large-scale scientific modelling and creating graphical representations using visualisation techniques
- statistics: collecting data in an appropriate format, experimental design, analysis of data and using data to make predictions
- statistical modelling: building and analysing models of systems involving probability and variables.

- [Level 1 Mathematics Units](#)
- [Level 2 and 3 Mathematics Units](#)
- [Other Units - Complementary Studies](#)

Code	Title
Course Notes	
Students complete at least 192 credit points (16 twelve credit point units) of Mathematics units according to the following requirements:	
Level 1 Mathematics Units	
Students must complete the following Level 1 Mathematics units:	
MAB101	Statistical Data Analysis 1
OR select Level 2 or 3 Mathematical unit option (MAB101 alternate as of 2013)	
MAB120	Foundations of Calculus and Algebra
MAB121	Single Variable Calculus and Differential Equations
MAB122	Linear Algebra and Multivariable Calculus
MAB210	Probability and Stochastic Modelling 1
MAB220	Computational Mathematics 1
Note: MAB120 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C. Students with at least Sound Achievement in both Mathematics B and C (or equivalent) may select a level 2 Mathematics unit instead of MAB120.	
Level 2 and 3 Mathematics Units	
At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 mathematics units	
Students must complete:	
MAB311	Advanced Calculus
MAB312	Linear Algebra
Other Units - Complementary Studies	
Up to a maximum of 96 credit points may be taken as electives with not more than 48 credit points from first level units.

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the online questionnaire with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) in English and very high achievement (4,VHA) in Maths B and two of Biology, Chemistry, Earth Science, Maths C or Physics.

International Subject prerequisites

- Maths B
- English

You have achieved the equivalent of four semesters at high school level (Years 11 and 12) with sound achievement (4, SA)

in English and very high achievement (4,VHA) in Maths B and two of Biology, Chemistry, Earth Science, Maths C or Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

Please Note

As of 2013, all new Dean's Scholar applicants will be admitted into the standard Bachelor programs, with no accelerated studies and no pre-approved articulation to Honours degrees.

Eligibility Criteria

Applicants must:

- have completed Year 12 in the year they apply for the program, or the previous year
- have received an OP 1 (or equivalent)
- be starting university for the first time
- demonstrate leadership experience and potential
- demonstrate community participation and engagement
- apply for and gain a place in the relevant Dean's Scholars Program

If studying at QUT International College (QUTIC), applicant must have a grade point average (GPA) of at least 6.5 for the two semesters immediately before they apply for the Dean's Scholars Program.

If expecting to get an OP of 1-3, applicant should apply for consideration.

Financial Support

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year programs.

Conditions

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Mathematics within 3 years of starting,

Bachelor of Mathematics - Dean's Scholars Program

except where you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances

- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)
- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances.

Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.

- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry sponsored student scholarships policy](#).

Career Outcomes

As a graduate of the Bachelor of Mathematics Dean's Scholars Program you will find employment opportunities across a wide range of areas, such as finance, investment, information technology, environmental management, health, marketing, logistics, defence, medic, education and research. In addition to your knowledge and abilities in mathematics, you will also be highly valued for your analytical and problem-solving skills. Development of skills in communication, problem solving, critical thinking and teamwork form an integral part of the course.

Overview

The Dean's Scholars Program in Mathematics offers an enriched course of study, with an early introduction to mathematical research, for students who obtain outstanding levels of academic achievement at Secondary School. At the same time it provides the option of an accelerated pathway by which these students are able to complete the Bachelor of Mathematics course plus the Bachelor of Applied Science (Honours) course in a total of just three years.

Mathematics Dean's scholars are able to undertake research enrichment units and individually-tailored tutorial programs:

Sample Structure Semesters

- [Year 1, Semester 1 \(48 cp\)](#)

Bachelor of Mathematics & Bachelor of Applied Science (Honours) - Dean's Scholars Honours Program

- [Year 1, Semester 2 \(48 cp\)](#)
- [Year 2, Semester 1 \(48 cp\)](#)
- [Year 2, Semester 2 \(48 cp\)](#)
- [Year 3, Semester 1 \(48 cp\)](#)
- [Year 3, Semester 2 \(48 cp\)](#)
- [Year 4, Semester 1 \(48 cp\) and Semester 2 \(48 cp\)](#)
- [Notes:](#)

Code	Title
Year 1, Semester 1 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (48 cp)	
Year 1, Semester 2 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB303	Tutorial Program for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 2, Semester 1 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB401	Research Methods for Dean's Scholars
Or other approved unit	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 2, Semester 2 (48 cp)

IMPORTANT NOTICE

This course is only available for continuing students in Bachelor of Applied Science and for 2013 commencing students meeting 96cp Science Advanced Standing 1st year units. New students should refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Forensic Science: Is currently under review. Students wishing to select and enrol into the Forensic Science major will need to discuss this first with the Course Coordinator [Dr Marion Bateson](#).

Design your own degree

You have a broad range of options to choose from and the flexibility to create your own personal science degree program. If you are not sure of your career direction, don't worry because this decision can be delayed until after you

have sampled a range of science disciplines during your first year of study. The 24 unit degree comprises:

First-year program (eight units)

The first year is designed to give you experience in a wide range of basic science disciplines, consisting of three general foundation units, one maths unit, and four major foundation units. Some of these foundation sciences, such as mathematics and chemistry, will underpin all of your later studies. All of the first-year studies are designed to challenge and engage you in the wonders of science, regardless of your prior exposure to science studies. You should seek advice from our expert staff of your choice of major to suit your interests and capabilities, and your personal and career aspirations.

Major (eight units)

Choose your main specialisation study area (your major) from the list below. This will form the basis for your qualification, for example Bachelor of Applied Science (Biotechnology). As QUT courses are designed in close consultation with industry you will be eligible for the relevant professional accreditation when you graduate. The major areas available are:

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Strong employment opportunities for biochemists exist around the world in both the private and government sectors of industry. QUT graduates skilled in biochemistry can find career opportunities

in diagnostic and analytical laboratories, universities, hospitals and health departments, pharmaceutical companies, primary and agricultural industries and departments, food industry laboratories, environmental agencies, and veterinary pathology laboratories. Alternative career paths in the marketing and sales of biotechnology equipment or commercialisation and management of biological products and processes are available.

For those wishing to enter research in honours and PhD programs, biochemistry offers a huge scope of intriguing and intellectually rewarding projects.

Professional Recognition

Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology (ASBMB), and in some cases the Australasian Association of Clinical Biochemists (AACB).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. Following these introductory studies you should be in a position to confirm your choice of a major area of study.

Year 2

You will build on the concepts introduced in first year and you will consider molecular interactions in cell metabolism and function and the flow of energy and information within the cell.

Year 3

You will encounter current experimental theory and practice in biochemistry, including the exciting new developments in molecular modelling, metabolism and proteomics. You will be provided with knowledge and analytical skills that will serve you well in the workforce or lead to further study.

- [Recommended Second Majors:](#)
- [* Elective Unit for all Majors except Forensic Science:](#)

Code	Title
Year 1, Semester 1	
SCB110	Science Concepts and Global Systems
OR (after 2012)	
SC01 Selective*	
[*See "Science Selective Units" options on e-Student or refer to list at the bottom of the page.]	
SCB111	Chemistry 1
OR (after Semester 1 2013)	
CVB101	General Chemistry
[Please note CVB101 is only offered in semester 2.]	
Cellular Basis of Life	
OR (after 2012)	
LQB182	Human Cell & Molecular Biology
Select ONE unit from:	
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB120	Foundations of Calculus and Algebra
MAB121	Single Variable Calculus and Differential Equations
1. Students without a Sound Achievement (4 semesters) in Maths A should enrol in MAB105.	
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Physics should enrol in MAB101.	
3. Students with a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB121.	

4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB120.	
5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.	
Year 1, Semester 2 (Life Sciences Pre-Major Strand)	
SCB120	Plant and Animal Physiology
[Note: students taking forensic science or chemistry second majors should replace SCB120 Plant and Animal Physiology with SCB131 Experimental Chemistry].	
OR (after 2012)	
LSB258	Principles of Human Physiology
OR	
LSB142	Human Anatomy and Physiology
[Please note LSB142 is only offered in semester 1.]	
SCB121	Chemistry 2
OR (after Semester 1 2013)	
CVB102	Chemical Structure and Reactivity
Cell and Molecular Biology	
OR (after 2012)	
LQB281	Human Health & Disease Concepts
[Students who have already completed SCB112, must do LQB182 instead of LQB281.]	
SCB123	Physical Science Applications
OR (after 2012)	
PCB150	Biomedical Physics
Year 2, Semester 1	
LQB381	Biochemistry: Structure and Function
LQB383	Molecular and Cellular Regulation
Plus TWO other units selected according to the second major requirements	
Year 2 Semester 2 *	
LQB481	Biochemical Pathways and Metabolism
LQB483	Molecular Biology Techniques
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 1 *	
LQB581	Functional Biochemistry
LQB582	Biomedical Research Technologies
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 2 *	
LQB681	Biochemical Research Skills
LQB682	Protein Biochemistry and Bioengineering
Plus TWO other units selected according to the second major requirements	
Recommended Second Majors:	
Biotechnology, Chemistry, Forensic Science, Life Science Technologies, Microbiology	
* Elective Unit for all Majors except Forensic Science:	
SCB500	Industry Project
SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.	

Handbook

Year	2013
QUT code	SC01
CRICOS	003502J
Duration (full-time)	3 years
Duration (part-time domestic)	6 years
Rank	72
OP Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2013: CSP \$4200 per Semester (48 credit points)
International fee (indicative)	2013: \$12,900 per Semester
Total credit points	288
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July This course has been replaced by ST01 Bachelor of Science. However if you are offered a second or third year place you will be admitted to this course instead as only the first year of ST01 Bachelor of Science will be offered in 2013.
Int. Start Months	February, July Conditions apply for July entry
Deferment	You can defer your offer and postpone the start of your course for one year

Discipline Coordinator	Dr Marion Bateson +61 7 3138 1269 (Alternate phone: +61 7 3138 8822) m.bateson@qut.edu.au (Alternate email: sef.enquiry@qut.edu.au)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended Study: At least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Entry requirements

Recommended Study

Biological Science and Chemistry.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTICE

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

As a QUT biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities

include nanotechnology, proteomics, materials science, molecular farming and bioinformatics. Our biotechnology graduates find career opportunities in medical and agricultural research, product development or marketing, hospitals and diagnostic laboratories, in teaching and in many areas of government and private industry.

Professional Recognition

Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology (ASBMB) and, depending on unit selection, Australian Society for Medical Research (ASMR) and the Australian Society for Microbiology (ASM).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will also be introduced to the structure and function of DNA, RNA and proteins, and their role in cell function. Following these introductory studies you should be in a position to confirm your choice of a major area of study.

Year 2

You will develop a more detailed understanding of biochemical principles, cell biology and the structure and function of biomolecules. A strong focus is placed on developing practical skills in molecular biology and cell culture that will underpin your future studies. You will have access to real-world molecular biology laboratories with modern equipment and highly skilled tutors. You will also be introduced to bioinformatics through hands-on computer-based exercises.

Year 3

You will further develop both theoretical and practical skills in DNA manipulation and genetic engineering as well as advanced bioinformatics. You will also focus on specific applications in biotechnology including current advances in diagnostics and detection, cell culture and tissue engineering in both animal and plant systems, functional genomics, proteomics and microarray technology. Teaching approaches at this level will encourage critical thinking, and problem-based learning, and you will undertake a mix of independent activities and group work.

International Course structure

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Among a diverse range of employment opportunities, you may become an industrial chemist, materials scientist, environmental chemist, quality control analyst, laboratory supervisor, food chemistry, or an organic/inorganic chemist. Your interactions with QUT experts in current fields of interest including drug development, clay and minerals chemistry, renewable energy sources, nanotechnology, environmental monitoring, and applications of modern analytical instrumentation may lead to careers in these areas.

QUT graduates are sought after by police and other forensics laboratories because of their extensive practical training using modern analytical instrumentation.

With the addition of a postgraduate diploma in education, you may wish to pursue opportunities in the teaching profession.

Professional Recognition

Graduates completing the chemistry major with the chemistry for industry second major or forensic science major are eligible for membership of the Royal Australian Chemical Institute (RACI).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. If you are taking the chemistry for industry second major you will be provided with opportunities to develop further laboratory skills. If you are taking chemistry with forensic science, you will also cover introductory life science topics that prepare you for important tasks like DNA profiling.

Year 2

You will begin more specialised study of the core chemistry sub-disciplines of analytical inorganic, organic and physical

Bachelor of Applied Science (Chemistry)

chemistry. In the chemistry for industry second major you will begin extensive studies in analytical chemistry, chemical and nanotechnologies. Problem solving and the development of critical thinking will be emphasised. You should expect plenty of practical work and hands-on experience. The communication skills, generic scientific skills, and report preparation tools you will learn at QUT will be vital to your future employment.

Year 3

You will tackle more challenging advanced concepts in the core sub-disciplines of chemical science. In this second major, you will have the advantage of field trips to major industrial sites. All third year chemistry studies will undertake a one-semester research project under the guidance of experienced staff. Students will be trained in start-of-the-art techniques and will have the opportunity to pursue a field of interest to them. Whether you are seeking your first job or contemplating higher research degree studies, you will have access to advice from qualified professionals.

listening	6.0
overall	6.5

IMPORTANT NOTICE

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Ecologists find rewarding careers in research and monitoring with government departments responsible for sustainability, wildlife conservation and national parks, primary industries, pest management,

fisheries, forestry and museums. They also find work in private firms engaged in research and consultancy. Positions include conservation officer, sustainable resources officer, wildlife manager, fisheries biologist, scientific or technical officer, teacher or research scientist. Employment in more specialised areas is available, usually requiring study beyond the first degree.

Professional Recognition

Professional recognition is achieved through membership of a scientific society, for example, the Ecological Society of Australia (ESA) or the Australian Wildlife Management Society (AWMS) and participation in its meetings and professional activities.

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will also gain key basic knowledge about the natural systems that exist on plant earth and the way these systems interact.

Year 2

You will focus on background concepts important for understanding ecology and the environment. You will examine in detail the fundamental concepts in ecology and evolution, and the basic processes important in the formation of the physical environment that are fundamental to understanding natural resource systems. You will learn about the dynamics of plant and animal populations and the interactions that influence them, and the basic methods used to describe and monitor populations. A background in fundamental genetics and evolution will provide the framework for understanding and interpreting variation in biological systems. You will expand on basic concepts of data handling and analysis so that you have a sound knowledge of experimental design and its application to experimental studies in ecology and environmental science. You will also learn how to design and conduct ecological field studies and analyse and communicate information.

Year 3

The fundamental knowledge of ecology, evolution and experimental design is extended to develop the theoretical and applied knowledge used by practising

Bachelor of Applied Science (Ecology)

ecologists. You will cover in detail the three main areas where ecology is applied – approaches to the conservation of rare and endangered species and ecosystems, the management of invasives and other pest species, and the sustainable exploitation of wild populations. These aspects are also covered in guest lectures by industry professionals, and by involving you in detailed case studies and field projects that examine particular management questions in ecology.

4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB120.	
5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.	
Year 1, Semester 2 (Ecology and Environmental Science Pre-Major Strand)	

NQB201	Planet Earth
OR (after 2012)	
ERB101	Earth Systems
NQB202	History of Life on Earth
OR (after 2012)	
BVB102	Evolution
[Students who have already completed NQB422, must do EVB102 instead of BVB102.]	
SCB120	Plant and Animal Physiology
OR (after 2012)	
NQB423	Vertebrate Biology
OR	
NQB323	Plant Biology
[Please note NQB323 is only offered in semester 1.]	
Plus ONE of:	
ERB102	Evolving Earth
EVB102	Ecosystems and the Environment
PVB101	Physics of the Very Large
Cell and Molecular Biology	
SCB123	Physical Science Applications
SCB121	Chemistry 2
OR (after 2012)	
CVB102	Chemical Structure and Reactivity
Year 2, Semester 1	
NQB321	Ecology
Plus ONE of:	
NQB302	Earth Surface Systems
NQB322	Invertebrate Biology
NQB323	Plant Biology
Plus TWO other units selected according to the second major requirements	
Year 2, Semester 2 *	
NQB421	Experimental Design
NQB422	Genetics and Evolution
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 1 *	
NQB521	Population Genetics and Molecular Ecology
NQB523	Population Management
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 2 *	
NQB622	Conservation Biology
NQB623	Ecological Systems
Plus TWO other units selected according to the second major requirements	
Recommended Second Majors:	
Biodiversity, Environmental Science	
* Elective Unit for all Majors except Forensic Science:	
SCB500	Industry Project
SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.	

Handbook

Year	2013
QUT code	SC01
CRICOS	003502J
Duration (full-time)	3 years
Duration (part-time domestic)	6 years
Rank	72
OP Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2013: CSP \$4200 per Semester (48 credit points)
International fee (indicative)	2013: \$12,900 per Semester
Total credit points	288
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July This course has been replaced by ST01 Bachelor of Science. However if you are offered a second or third year place you will be admitted to this course instead as only the first year of ST01 Bachelor of Science will be offered in 2013.
Int. Start Months	February, July Conditions apply for July entry
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr Marion Bateson
Discipline Coordinator	Dr Ian Williamson +61 7 3138 2779 (Alternate phone: +61 7 3138 8822) i.williamson@qut.edu.au (Alternate email: sef.enquiry@qut.edu.au)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended Study: At least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Entry requirements

Recommended Study

At least one of the sciences

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTICE

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Environmental scientists are continually needed in a wide variety of planning, management, monitoring and research careers. These roles are usually found in government departments and agencies,

in local councils, in consultancy, and in industrial and mining companies. As an environmental science graduate you could be working in urban, rural or remote settings depending on your interests.

Graduates are equipped to assess resources, implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas. These include strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and urban development, rehabilitation and reforestation of degraded sites, ground water assessment and modelling, flood plain planning, erosion control, and marine science.

Professional Recognition

Graduates are eligible for membership of the Environment Institute of Australia and New Zealand (EIANZ) and a variety of other scientific societies, including the Soil Science Society of Australia (SSSA) and the Ecological Society of Australia (ESA).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will be provided with a good introduction to environmental science issues and scientific problem solving as well as a basic knowledge about the natural systems that exist on plant earth and the way these systems interact. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2

You will learn fundamental concepts and gain practical experience in understanding and investigating earth surface systems and processes both in the laboratory and in the field. At the same time, you will be introduced to the design of field and laboratory experiments and you will have the option to pursue a more ecologically or geologically oriented direction. You will then be introduced to elements of environmental chemistry in air, water and soil, including a number of field trips.

Year 3

You will receive more advanced training

Bachelor of Applied Science (Environmental Science)

in the essential areas of environmental systems and how we can model them, and you will survey and map natural resources during field trips. You will be introduced to the use of spatial science to assess and map environmental systems using geographic information systems and remote sensing. Case studies and problem-solving methods are used to introduce you to a wide variety of issues in sustainable management.

Career Outcomes

Forensic science work is popular, rewarding and highly competitive. Generally it involves employment in laboratories handling criminal casework in areas including forensic biology,

chemistry, and toxicology. Crime scene investigation is another interesting profession which may be attained by joining the police force.

Professional Recognition

Graduates who complete the forensic science major in conjunction with a life science major in biochemistry, biotechnology or microbiology are eligible for membership of the Australian and New Zealand Forensic Society (ANZFSS), AusBiotech Ltd, and the Australian Society for Biochemistry and Molecular Biology (ASBMB).

Graduates who complete the forensic science major in conjunction with the chemistry major are eligible for membership of the Australian and New Zealand Forensic Science Society (ANZFSS) and the Royal Australian Chemical Institute (RACI).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2

Your forensic studies program begins with an introduction to crime scenes and your lectures will be accompanied by laboratory work including mock crime scenes. You will learn about the legal aspects of forensic science, and take a big picture approach to the nature and analysis of physical and biological evidence. You can expand your knowledge through dedicated units in forensic evidence, analytical chemistry and biological methods of analysis.

Year 3

You will build upon your previous studies to further develop your knowledge and skills in areas of crime scene investigation such as forensic photography and fingerprinting as well as interpretation of physical evidence. You will learn about the sophisticated instrumentation and interpretation of results used in the analysis of drugs, poisons and DNA. Hand-on laboratory sessions will provide knowledge of expanded applications in advanced forensic analysis and toxicology. All theory is complemented

Bachelor of Applied Science (Forensic Science)

and supplemented by focused workshops and laboratory classes.

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Employment opportunities exist within a variety of government organisations and consulting companies with work ranging from field geologists to research scientists. Exploration geologists are

employed by mining and hydrocarbon exploration companies where they may be involved in underground geological mapping, evaluation of ore reserves, production control, or exploration for new mineral or oil and gas deposits. They may be based in remote settings or major cities. Graduates may work in computing, data modelling and remote sensing in any of these areas.

An honours degree has traditionally been required by many employers including the larger mining and exploration companies.

Professional Recognition

Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy (AusIMM), Australian Institute of Geoscientists (AIG), and the Geological Society of Australia (GSA).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will also select specific units that will help you decide whether to pursue career paths in exploration or environmental geoscience. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2

You will learn fundamental concepts and gain practical experience in identifying and analysing earth materials, both in the laboratory and in the field. At the same time, you will be introduced to the geological processes that govern the evolution of the earth's surface (sedimentary environments). You will then be introduced to rocks and processes that occur deeper within the earth (igneous and metamorphic realms) and longer term geological processes including structural deformation and stratigraphic evolution. The year culminates with you being able to solve real-world geological problems based on data you collect in the field.

Year 3

You will receive more advanced training in the fundamental areas of petrology and geochemistry with the addition of exploration geophysics and specialised units relevant to the mining, coal, petroleum and/or hydrogeology-environmental industries. You will be introduced to techniques and case

Bachelor of Applied Science (Geoscience)

studies that will prepare you for a wide variety of career paths. At the same time, you will learn new skills in subsurface analysis and mapping, remote sensing, and spatial analysis, including computer-based geographical information systems.

Credit points part-time sem.	24
Start months	February, July This course has been replaced by ST01 Bachelor of Science. However if you are offered a second or third year place you will be admitted to this course instead as only the first year of ST01 Bachelor of Science will be offered in 2013.
Int. Start Months	February, July Conditions apply for July entry
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr Marion Bateson
Discipline Coordinator	Dr Christine Knox +61 7 3138 8822 c.knox@qut.edu.au (Alternate email: sef.enquiry@qut.edu.au)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended Study: At least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Entry requirements

Recommended Study

Biological Science and Chemistry.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTICE

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.

New students - please refer to [ST01 Bachelor of Science](#). Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Microbiology graduates find employment in a variety of interesting careers. Many microbiologists are employed by human pathology laboratories with the departments of bacteriology, immunology,

mycology, parasitology and virology. You may also find employment in laboratories testing for animal and plant diseases, or testing for pathogens or spoilage organisms in food, air, water and soils. Microbiologists can also be employed as metabolic engineers developing microbial production systems.

If working in a laboratory is not for you then there are positions available as technical product and sales representatives, intellectual property specialists/patent attorneys, or even with scientific publishers. Many microbiologists find employment within government departments such as Health, Employment, Economic Development and Innovation, and Environment and Resource Management.

If you wish to study for a higher research degree, you may pursue a research career in university, government or private research laboratories.

Professional Recognition

Graduates are eligible for membership of the Australian Society for Microbiology (ASM).

Domestic Course structure

Year 1

You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2

You will be introduced to diverse micro-organisms and study how they have evolved, their structure, how they obtain nutrients and how they grow and reproduce. Importantly you will also learn how to control microbial growth by sterilisation, disinfection and using antimicrobials. In practical classes you will learn how to stain and visualise micro-organisms using light microscopy and electron microscopy. You will isolate and culture micro-organisms and learn how to control microbial growth. You will practise identifying micro-organisms by their appearance, biochemical testing or by using molecular assays.

Year 3

Advanced studies will allow you to expand your knowledge and expertise in

Bachelor of Applied Science (Microbiology)

specialised areas including pathogenesis and disease where you can study bacterial, fungal and parasitic diseases. Other advanced topics include animal and plant viral diseases, food microbiology, molecular microbiology, bioremediation and electron microscopy. You will also cover environmental microbiology which includes the testing of soil, air and water.

Career Outcomes

Physicists are an asset to almost any industry. Employment areas of QUT physics graduates are very wide-ranging. These include research and development departments of large manufacturing

companies, mining and exploration companies, research institutions such as the Commonwealth Scientific and Industrial Research Organisation (CSIRO) and the Defence Science and Technology Organisation (DSTO), government bodies such as the Bureau of Meteorology, Environmental Protection Agencies and health departments, schools, universities and hospitals. Broad training in data analysis and problem-solving skills also make physicists well suited to management and consulting roles in a range of technology-based industries.

Professional Recognition

Graduates are eligible for membership of the Australian Institute of Physics (AIP).

Domestic Course structure

Year 1

You will be introduced to a broad range of physics topics including mechanics, electricity, optics, waves, electromagnetism and atomic physics. Mathematics units will provide you with the skills and background knowledge required to support more advanced study in second and third years. You may choose to undertake a foundation unit in one of the other scientific disciplines to broaden your knowledge. You also have the flexibility to select two elective units to add another dimension to your science knowledge.

Year 2

You will begin to study specialist areas of physics at advanced level. Topics include electronics, instrumentation, radiation physics, thermodynamics and solid-state physics. Study of a secondary area of specialisation (second major) also begins. Second majors offered to physics students include astrophysics, mathematics, geoscience, games technology and music.

Year 3

You will proceed to further specialist areas including quantum physics, condensed matter physics, statistical mechanics and advanced electromagnetism. Your studies in experimental physics will help you develop data collection and data processing skills, and allow you to experience the methods used and to acquire the skills required to undertake research.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course update

From Semester One 2013 this course will not be available for commencing students. SC01 will only be available for continuing students. New students - please refer to ST01. Please contact sef.enquiry@qut.edu.au for any enquiries.

Overview

The Bachelor of Applied Science Dean's Scholars Accelerated Honours Program is an accelerated program designed specifically for outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia. It also offers an accelerated pathway that enables students to complete both the Bachelor of Applied Science and the Bachelor of

Applied Science (Honours) courses in just three years. A scholarship is offered to students in the Bachelor of Applied Science Dean's Scholars Accelerated Honours Program. Students are accepted into the program on the basis of outstanding academic ability and an interest in scientific research.

Professional Recognition

As a graduate of the Bachelor of Applied Science Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

Financial support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Course Structure

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the following nine majors. You will also choose a co-major to accompany your major area of study. The co-major may be one of the other majors, or it could be one of the co-majors listed below:

Majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology, Physics.

Co-majors: Applied Geology, Astrophysics, Biodiversity, Chemistry for Industry, Life Science Technologies.

To allow the Dean's Scholars Program to be completed in an accelerated format some changes are made to the first year of the standard Bachelor of Applied Science (SC01) degree. The core units normally studied in first year are replaced by an enriched course of study which includes the following units:

SCB301 Science for Dean's Scholars

An intensive preparatory program immediately preceding the commencement of the first semester. This preparatory program commences mid-January and requires attendance for approximately 18 hours per week for six weeks.

SCB303 Tutorial Program for Dean's Scholars

An individually-tailored tutorial program during the first semester, under the guidance of an academic mentor. This unit is designed in a consultative process involving the student, the academic mentor, and the Dean.

SCB401 Research Methods for Dean's Scholars

The unit allows research skills to be developed through a literature review, experimental design considerations, research proposal formulation and writing, and the presentation of a research proposal.

SCB501 Research Project for Dean's Scholars

An individually tailored research project is carried out under the supervision of a research mentor.

Honours Program

Following the successful completion of the coursework and your initial research project in the first two years of the program, you will then commence the Bachelor of Applied Science (Honours) course. The Honours program continues the study of your chosen scientific major and also provides the opportunity to undertake a large research project. The Honours degree provides an excellent preparation to continue onto postgraduate research.

Note:

The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: At least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Rules

1. To fulfil the requirements for the award of the Bachelor of Science degree, you must complete a total of at least 288 credit points, comprising at least 192 credit points of science units. The units completed for the award of the degree must include:

- the first year program as outlined in the course summary
- a major study
- a second major study or two minor areas of study

Major and second major studies are defined in terms of the discipline area and the academic level at which the units are offered.

Major

A major must be completed in one of the following discipline areas: biological sciences; chemistry; earth science; environmental science; physics. A major comprises 120 credit points of units at

advanced level, including at least 48 credit points at the third level.

Second Major

A second major may be completed by selecting appropriate units from another major, or from the following additional discipline areas:

Innovation and Entrepreneurship, Policy & Governance, Sustainable Environments for Health, Computational Science, Science Communication.

Minors and Extension Minors

Minors and Extension Minors are offered in the following disciplines:

Analytical Chemistry, Astrophysics, Cell and Molecular Biology, Human Health and Disease, Industrial Chemistry, Sustainable Environments for Health, Wildlife Biology, Marine Science, Plant Biotechnology, Genetics and Genomics, Forensic Science, Applied Ecology.

Non-Science: aviation, corporate IT systems, environmental engineering studies, ethics and human rights, foreign languages, games technology, geography, journalism, management, marketing, music, nutrition, psychology, forensic science.

Note: A second major comprises 96 credit points with at least 60 credit points at advanced level for the Science second majors and at least 48 credit points for the non-Science second majors. Major and second major studies may be taken in closely related discipline areas.

2. Optional (elective) units may be chosen from (a) ST01 majors/second majors other than those undertaken by a student, (b) other appropriate units offered by the Science and Engineering Faculty, and (c) units offered by other faculties.

3. Students are normally expected to complete the course in minimum time. A full-time student normally enrolls in an average of 48 credit points per semester for six semesters and a part-time student normally enrolls in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)

Notes on the Rules

1. For offerings in the Science and Engineering Faculty, the term advanced level refers to units in Schedules 2 and 3.

Bachelor of Science

For units offered outside the Science and Engineering Faculty, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or second major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/second major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BSc and will appear in the award title in parentheses. The general form of the award will therefore be: BSc(Major).

Domestic Course structure Your science degree

At QUT you'll create your own personal science degree program of 24 units. During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core and Imagine Science units

These six units give you an introduction to the principles of science the opportunity to learn by enquiry, and to broaden your understanding of the core sciences. You'll study two Faculty core units, two Imagine Science units and two Optional units of your choice.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. In your Imagine Science units you will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or

learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study.

It comprises 10 units and there are five majors to choose from:

- Biological Sciences
- Chemistry
- Earth Sciences
- Environmental Sciences
- Physics

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a Second major (eight units); or an Extended minor (four units) or Breadth minor (four units), plus either a Faculty minor (four units) or Breadth minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second Science discipline, or explore different perspectives which might include:

- computational science

- computer science
- innovation
- education (STEM disciplines)
- science communication, or
- science policy.

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major with two minors. Minors include:

Extension minor (four units)

Gain further insights and depth in your primary area of study. Intensify your chosen major to develop additional knowledge, skills and experience for your career in science.

Breadth minor (four units)

Broaden your studies to include minors from the list of science majors, second majors or from the list of University-wide minors.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Biology and Chemistry.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

Biology is the study of life and living things: animals, insects, plants, and microorganisms; everything that breathes, grows and feeds us; creatures that fly through the air majestically and those that lurk in the depths of the ocean, under rocks, or even under the toilet seat.

Biologists are curious about all these things and want to know how they work, how to grow and protect them—how to get involved with life on this planet.

Biologists also love a challenge. How will we feed a population of eight billion people in 2025? Can we use biological waste to solve our energy crisis? How can we protect our plants and animals from new and fiendish exotic diseases? And how many rare species can we save from extinction?

Why choose this course?

This course will provide a strong foundation in the core biological sciences

such as physiology, genetics, zoology, plant sciences and microbiology. It has been designed to be hands on, to develop problem solving skills through active learning, and to give an early appreciation of the way that many disciplines can be brought to bear on a single problem.

As well as receiving core training in the basics through the biology major, students can either add breadth to their degree by choosing a minor from a complementary discipline (e.g. chemistry), or depth to their biological skills through a specialised minor such as biotechnology.

During the course you will experience some of the most advanced laboratories in Australia and be taught by staff who are at the top of their research fields internationally. You can also expect to stay in touch with the real world, as guest lectures, site visits and opportunities for work-integrated learning bring a strong industry flavour to the degree.

Career outcomes

Biology graduates work in a wide range of jobs throughout the public and private sectors, and in a range of environments including offices, laboratories, farms, fields, factories cities and forests.

Laboratory-based careers may include laboratory management, basic research, forensic microbiology, or molecular genetics. Farm and field-based work could entail animal management, plant breeding, entomology, marine biology, or pest and disease management. Industrial work might involve biotechnology to produce food, fuel or pharmaceuticals. Other careers could involve science writing, teaching, policy development, or the commercialisation and the management of biological products and processes.

Professional recognition

Professional recognition can be achieved through membership of an appropriate scientific society, such as the Australian Society for Biochemistry and Molecular Biology, the Ecological Society of Australia, the Australian Society of Horticultural Science and many more.

Overview

Chemists are involved in most areas of science, technology, environment and industry; for example, medicinal drugs, nanotechnology, water and air quality and energy production. Manufacturing industries rely on chemists to ensure that quality and safety standards are maintained. The development of better and safer drugs depends heavily on the input of chemists.

Chemistry is the study of structures, properties, synthesis and reactions of molecules and materials and these principles are fundamental to many other disciplines, including biotechnology, environmental science, geosciences, materials science and food science.

At QUT you will study analytical, physical, organic and inorganic chemistry with an additional focus on modern applications such as nanotechnology, analytical chemistry, and spectroscopy.

Why choose this course?

The QUT chemistry degree is a qualification that is known and respected by employers. Many employers prefer QUT chemistry graduates, especially those with an extension minor in chemistry, because of their advanced technical skills, their experience with modern instrumentation and their training in scientific communication.

After two years' study, you will be eligible to apply for the Queensland Health Analytical Chemistry Scholarship (available only to QUT chemistry students), which pays \$21 000 for your third year, with guaranteed employment for two years after graduation#.

Our training in analytical chemistry throughout the chemistry degree is renowned nationally. You will undertake a comprehensive laboratory program including experiments using modern computer-based analytical instruments and gain vital knowledge and experience in the health and safety aspects of handling chemicals. You will learn under the guidance of highly respected lecturers, most of whom are actively involved in cutting-edge research.

Career outcomes

Among a diverse range of employment opportunities, you may become an industrial chemist, materials scientist, environmental chemist, quality control analyst, laboratory supervisor, food chemist, or an organic/inorganic chemist. Your interaction with QUT experts in current fields of interest, including drug development, clay and minerals chemistry, renewable energy sources, nanotechnology, environmental monitoring, and applications of modern analytical instrumentation, may lead to careers in these areas.

QUT graduates are sought after by police and other forensics laboratories because of their extensive practical training using modern analytical instrumentation. With the addition of a postgraduate diploma in education, you may wish to pursue opportunities in the teaching profession.

Professional recognition

Graduates completing the chemistry major with the chemistry for industry second major are eligible for membership of the Royal Australian Chemical Institute.

ST01 Second Majors and Minors

overall	6.5

Overview

The Earth is an amazing place and for an earth scientist, it offers a unique natural laboratory that covers both space and time. Earth science is a multidisciplinary science that applies the tools of chemistry, physics, biology and mathematics to understand earth processes, decipher its past and predict its future. Earth scientists work to monitor changes in the Earth's environment and suggest solutions to environmental problems. They study natural hazards to find ways to lessen the loss of life and reduce property damage.

Earth scientists play key roles in the search for fuels and minerals. Climate change, earthquakes, and geothermal energy are just a few of the issues that require knowledge of earth science. Earth science (also known as geoscience) blends the traditional fields of geology, physical geography and oceanography/hydrology. Geology describes the rocky

parts of the Earth's crust (or lithosphere) and its historic development. Physical geography, which studies the Earth's surface, includes geomorphology, soil science, and biogeoscience. The marine and freshwater parts of Earth define the fields of oceanography and hydrology.

Why choose this course?

Earth science is an exciting and fun science with many interesting and practical applications and a great number of travelling opportunities. If you enjoy working outdoors and are interested in understanding how the world works, then you will find earth science a rewarding area of study. Blending current research issues and problem solving with theory and industry-related, hands-on practicals, the earth science major provides you with a fundamental background to pursue a career in either the resource or the environmental sector.

Career outcomes

There is currently a shortage of earth scientists in Australia and employment rates are high and salaries great. Earth scientists are in high demand in the energy sector (oil, gas, coal, geothermal) and exploration and mining industries. Many earth scientists find employment in environmental consulting companies tackling geotechnical, groundwater contamination, natural hazards or climate change issues. Earth scientists may work for government agencies such as CSIRO and Geoscience Australia doing applied research, or for state or local governments.

Credit points part-time sem.	24
Start months	February, July Only the first year of the degree will be available in 2013. Subsequent years will be progressively introduced, subject to approval. If you are offered a second or third year place you will be admitted to SC01 Bachelor of Applied Science.
Int. Start Months	February, July Students with advanced standing may be offered a place in the SC01 Bachelor of Applied Science.
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr Ian Williamson
Discipline Coordinator	Dr Andrew Baker

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: At least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Subject prerequisites

- Maths B
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why choose this course?

The environmental science course at QUT is designed to provide hands-on skills and field experiences using real-world industry examples and methods to allow you to pursue a variety of careers as an environmental scientist. The program has particular strengths in the areas of land resources, hydrogeology, environmental geology, biogeochemistry, geographic information systems and field mapping, systems modelling and sustainable management.

The program also emphasises practical skills and experience, including day-long and extended field trips. You will learn from guest lecturers from relevant government agencies, industry and QUT staff who regularly provide advice for industry, government and community groups.

Overview

We rely on our natural environment to sustain our lives and our lifestyles. Do you want to help the earth's natural environment to maintain its integrity while continuing our urban and rural development? Have you wanted to be part of the solution to our increasing environmental issues such as climate change, air, water and soil quality, soil erosion, dry land salinity or water resources? We continually need to improve our understanding and management of the natural environment to balance our development with wise management while minimising impacts and degradation.

An understanding of the mechanisms controlling environmental systems provides the skills required to undertake a great range of scientific environmental planning and management, and tackle problems such as local water quality and ecosystem impacts, soil erosion, catchment and groundwater use, or adaptation to global climate change.

Career outcomes

Environmental scientists are continually needed in a wide variety of planning, management, monitoring and research careers. These roles are usually found in government departments and agencies, local councils, consultancy, and industrial and mining companies. As an environmental science graduate, you could be working in urban, rural or remote settings depending on your interests.

Graduates are equipped to assess resources, implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas. These include strategic land use planning; waste disposal; pollution measurement and control; coastal protection; environmental impact of mining, tourism and urban development; rehabilitation and reforestation of degraded sites; ground water assessment and modelling; flood plain planning; erosion control; and marine science.

Professional recognition

Graduates are eligible for membership of the Environment Institute of Australia and New Zealand and a variety of other scientific societies, including the Soil Science Society of Australia and the Ecological Society of Australia.

ST01 Second Majors and Minors

For a unit list of ST01 Second Major and Minors please click [here](#) to view your 2nd major and minor options or go to ST01 Bachelor of Science course page and click on Course Checklists link.

Domestic Course structure Your science degree

At QUT you'll create your own personal science degree program of 24 units. During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core and Imagine Science units

These six units give you an introduction to the principles of science the opportunity to learn by enquiry, and to broaden your understanding of the core sciences. You'll study two Faculty core units, two Imagine Science units and two Optional units of your choice.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. In your Imagine Science units you will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study.

It comprises 10 units and there are five majors to choose from:

- Biological Sciences
- Chemistry
- Earth Science
- Environmental Science

- Physics

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a Second major (eight units); or an Extended minor (four units) or Breadth minor (four units), plus either a Faculty minor (four units) or Breadth minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second Science discipline, or explore different perspectives which might include:

- computational science
- computer science
- innovation
- education (STEM disciplines)
- science communication, or
- science policy.

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major with two minors. Minors include:

Extension minor (four units)

Gain further insights and depth in your primary area of study. Intensify your chosen major to develop additional knowledge, skills and experience for your career in science.

Breadth minor (four units)

Broaden your studies to include minors from the list of science majors, second majors or from the list of University-wide minors.

Overview

Physicists are involved in finding solutions to many current and future challenges facing our world. These include developing instruments for environmental monitoring, computer models for climate change prediction, and developing solar and renewable energy systems.

Physicists are also attempting to address the world's ever-increasing appetite for information and information processing by undertaking research into quantum computers, nanotechnology, lasers and photonics.

Physics deals with the natural laws and processes, and the states and properties, of matter, energy, space and time. Physics also underlies many of the recent advances in information technology, medicine and biotechnology. Areas of specialisation include mechanics, electromagnetism, lasers and optics, medical physics, computational physics, nuclear and radiation physics, astronomy

and astrophysics, thermodynamics, quantum mechanics and relativity.

Why choose this course?

QUT's physics course has a strong applied emphasis so you will spend a significant amount of time in the undergraduate teaching laboratories. In each unit that you study the theory will be supported by experimental work. In your final year, you will undertake research and gain exposure to the research laboratories through the experimental physics unit.

You can also apply for a Vacation Research Experience Scholarship to gain experience working on a research project. Many of the lecturers at QUT have worked in industry and QUT works closely with industry through consultancy and research projects, so you can be sure that the course will be up to date and relevant to the real world.

Career outcomes

Physicists are an asset to almost any industry. Employment areas of QUT physics graduates are very wide ranging. These include research and development departments of large manufacturing companies, mining and exploration companies, research institutions such as the Commonwealth Scientific and Industrial Research Organisation and the Defence Science and Technology Organisation, government bodies such as the Bureau of Meteorology, environmental protection agencies and health departments, schools, universities and hospitals.

Broad training in data analysis and problem-solving skills also makes physicists well suited to management and consulting roles in a range of technology based industries.

Professional recognition

Graduates are eligible for membership of the Australian Institute of Physics, dependent on choice of study options.

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the online questionnaire with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) in English and very high achievement (4,VHA) in Maths B and two of Biology, Chemistry, Earth Science, Maths C or Physics.

International Subject prerequisites

- Maths B
- English

You have achieved the equivalent of four semesters at high school level (Years 11 and 12) with sound achievement (4, SA)

in English and very high achievement (4,VHA) in Maths B and two of Biology, Chemistry, Earth Science, Maths C or Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

Please Note

As of 2013, all new Dean's Scholar applicants will be admitted into the standard Bachelor programs, with no accelerated studies and no pre-approved articulation to Honours degrees.

Eligibility Criteria

Applicants must:

- have completed Year 12 in the year they apply for the program, or the previous year
- have received an OP 1 (or equivalent)
- be starting university for the first time
- demonstrate leadership experience and potential
- demonstrate community participation and engagement
- apply for and gain a place in the relevant Dean's Scholars Program

If studying at QUT International College (QUTIC), applicant must have a grade point average (GPA) of at least 6.5 for the two semesters immediately before they apply for the Dean's Scholars Program.

If expecting to get an OP of 1-3, applicant should apply for consideration.

Financial Support

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year programs.

Conditions

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Science within 3 years of starting, except where

Bachelor of Science - Dean's Scholars Program

you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances

- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)
- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances. Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.
- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry sponsored student scholarships policy](#).

Discontinuation

As of 2013, ST50 will only be available for continuing students. No further intakes will be accepted.

Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

On graduation, you will be eligible to join professional organisations relevant to your disciplinary specialisation, the Association of Professional Engineers, Scientists and Managers, Australia and the Australian Institute of Management.

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology (ASBMB), and in some cases the Australasian Association of Clinical Biochemists (AACB).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

On graduation, you will be eligible to join professional organisations relevant to your disciplinary specialisation, the Association of Professional Engineers, Scientists and Managers, Australia and the Australian Institute of Management.

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

International Course structure

Your course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual

property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Code	Title
The course consists of four blocks of studies	
Core Studies - 13 units (156 credit points)	
Major - 13 units (156 credit points)	
Minor - 4 units (48 credit points)	
Electives - 2 units (24 credit points)	
Year 1 Semester 1	
INB101	Impact of IT
INB104	Building IT Systems
INB180	Computer Games Studies
INB182	Introducing Design
Year 1 Semester 2	
INB103	Industry Insights
INB181	Introduction to Games Production
Block C or Block D Unit	
Block C or Block D Unit	
Year 2 Semester 1	
INB385	Multimedia Systems
KIB101	Visual Communication
KIB204	Web Interface Design

Block C or Block D Unit	
Year 2 Semester 2	
INB386	Advanced Multimedia Systems
KIB102	Visual Interactions
Block C or Block D Unit	
Block C or Block D Unit	
Year 3 Semester 1	
BSB115	Management
INB345	Mobile and Ubiquitous Computing
KIB309	Embodied Interactions
STB551	Engaging with the Innovation Industry
Year 3 Semester 2	
BSB126	Marketing
KIB314	Tangible Media
MGB223	Entrepreneurship and Innovation
Block C or Block D Unit	
Year 4 Semester 1	
AMB240	Marketing Planning and Management
LWS007	Introduction To Intellectual Property Law
MGB324	Managing Business Growth
STB709-1	Innovation and Commercialisation Project
Year 4 Semester 2	
BSB311	Innovation Commercialisation Strategies
MGB225	Intercultural Communication and Negotiation Skills
STB709-2	Innovation and Commercialisation Project
STB709-3	Innovation and Commercialisation Project
Block C Minor List	
ANIMATION:	
KIB105	Animation and Motion Graphics
Animation History and Practices	
Introduction to 3D Computer Graphics	
Character Development, Conceptual Design and Animation Layout	
KVB105	Drawing for Design
KVB106	Drawing for Animation
GAME DESIGN:	
KIB201	Concept Development for Game Design and Interactive Media
KIB202	Enabling Immersion
INB280	Fundamentals of Game Design
Plus ONE of the following two units:	
INB281	Advanced Game Design
INB272	Interaction Design
MATHEMATICS FOR GAMES:	
MAB120	Foundations of Calculus and Algebra
MAB122	Linear Algebra and Multivariable Calculus
MAB121	Single Variable Calculus and Differential Equations
MAB312	Linear Algebra
[Students who have completed Maths C can substitute MAB120 with one of the following units: MAB311, MAB481 or MAB422]	
MOBILE AND NETWORK TECHNOLOGIES:	

Bachelor of Technology Innovation (Digital Media)

INB102	Emerging Technology
INB251	Networks
INB350	Internet Protocols and Services
INB353	Wireless and Mobile Networks
SOUND DESIGN:	
KMB107	Sound, Image, Text
KMB119	Music and Sound Production 1
KMB129	Music and Sound Production 2
KMB252	Multi-Platform Sound Design
SOFTWARE TECHNOLOGIES:	
INB210	Databases
INB250	Foundations of Computer Science
INB270	Programming
INB371	Data Structures and Algorithms
PHYSICS FOR GAMES:	
MAB121	Single Variable Calculus and Differential Equations
PQB250	Mechanics and Electromagnetism
PQB251	Waves and Optics
Plus ONE of the following three units:	
PQB450	Energy, Fields and Radiation
PQB460	Astrophysics 1
PCB593	Digital Image Processing

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

Professional recognition is achieved through membership of a scientific society, for example, the Ecological Society of Australia (ESA) or the Australian Wildlife Management Society (AWMS) and participation in its meetings and professional activities.

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

No professional accreditation is currently available for courses in the games and entertainment area.

Your Course

Year 1

You will be able to choose subjects from

across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Code	Title
The course consists of four blocks of studies	
Core Studies - 13 units (156 credit points)	
Major - 13 units (156 credit points)	
Minor - 4 units (48 credit points)	
Electives - 2 units (24 credit points)	
Year 1 Semester 1	
INB101	Impact of IT
INB104	Building IT Systems
INB180	Computer Games Studies
INB182	Introducing Design
Year 1 Semester 2	
INB103	Industry Insights
INB181	Introduction to Games Production
INB270	Programming
MAB281	Mathematics for Computer Graphics
Year 2 Semester 1	
INB370	Software Development

INB371	Data Structures and Algorithms
Block C or Block D Unit	
Block C or Block D Unit	
Year 2 Semester 2	
INB210	Databases
INB250	Foundations of Computer Science
INB381	Modelling and Animation Techniques
Block C or Block D Unit	
Year 3 Semester 1	
BSB115	Management
STB551	Engaging with the Innovation Industry
Block C or Block D Unit	
Plus ONE of the following two units:	
INB382	Real Time Rendering Techniques
INB383	AI for Games
Year 3 Semester 2	
BSB126	Marketing
MGB223	Entrepreneurship and Innovation
Block C or Block D Unit	
Block C or Block D Unit	
Year 4 Semester 1	
AMB240	Marketing Planning and Management
LWS007	Introduction To Intellectual Property Law
MGB324	Managing Business Growth
STB709-1	Innovation and Commercialisation Project
Year 4 Semester 2	
BSB311	Innovation Commercialisation Strategies
MGB225	Intercultural Communication and Negotiation Skills
STB709-2	Innovation and Commercialisation Project
STB709-3	Innovation and Commercialisation Project
BLOCK C Minor Units List	
ANIMATION:	
KIB105	Animation and Motion Graphics
Animation History and Practices	
Animation History and Practices	
Character Development, Conceptual Design and Animation Layout	
KVB105	Drawing for Design
KVB106	Drawing for Animation
ADVANCED SOFTWARE TECHNOLOGIES:	
INB365	Systems Programming
INB372	Agile Software Development
INB374	Enterprise Software Architecture
Plus ONE from the following two units:	
INB382	Real Time Rendering Techniques
INB383	AI for Games
DIGITAL MEDIA:	
KIB101	Visual Communication
KIB102	Visual Interactions
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
GAME DESIGN:	

Bachelor of Technology Innovation (Games Technology)

KIB201	Concept Development for Game Design and Interactive Media
KIB202	Enabling Immersion
INB280	Fundamentals of Game Design
Plus ONE from the following two units:	
INB272	Interaction Design
INB281	Advanced Game Design
MATHEMATICS FOR GAMES:	
MAB120	Foundations of Calculus and Algebra
MAB121	Single Variable Calculus and Differential Equations
MAB122	Linear Algebra and Multivariable Calculus
MAB312	Linear Algebra
[Students who have completed Maths C can substitute MAB120 with one of the following units: MAB311, MAB481 or MAB422]	
MOBILE AND NETWORK TECHNOLOGIES:	
INB102	Emerging Technology
INB251	Networks
INB350	Internet Protocols and Services
INB353	Wireless and Mobile Networks
SOUND DESIGN:	
KMB107	Sound, Image, Text
KMB119	Music and Sound Production 1
KMB129	Music and Sound Production 2
KMB252	Multi-Platform Sound Design
KKB216	Audio/Visual Interaction
PHYSICS FOR GAMES:	
MAB121	Single Variable Calculus and Differential Equations
PQB250	Mechanics and Electromagnetism
PQB251	Waves and Optics
Plus ONE from the following three units:	
PQB450	Energy, Fields and Radiation
PQB460	Astrophysics 1
PCB593	Digital Image Processing

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Domestic Course structure

Your course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development

Bachelor of Technology Innovation (Microbiology)

will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

Graduates are eligible for membership of the Australian Institute of Physics (AIP).

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology

areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

The course is concerned with the management of the overall process of construction projects and provides detailed understanding of project development from conception, through planning and construction to commissioning and maintenance. It develops skills in how to manage people, materials, equipment and plant while focusing on issues such as cost, time, quality, safety and environment. It educates students to become effective construction managers with comprehensive technological knowledge, management principles and communication skills.

Minors

For accreditation purposes you are required to undertake specified minors which will include employment practice. Please refer to [your course rules](#) before making your selection.

CONSTRUCTION MANAGEMENT Minor Options

- All students must take the Construction Management Applications Minor, which is an AIB accreditation requirement.
- Your second minor may be taken from anywhere in QUT but must be from outside UD40.

Special Course Requirements

All students are required to obtain a minimum of 80 days of approved construction management industrial experience.

Professional Recognition

This course has been accredited by the Australian Institute of Building.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Work Integrated Learning unit

In your final year students are required to undertake 100 days approved industrial experience in the construction or allied field.

Your course

Year 1

You start your studies with foundation units including residential construction and engineering, basic professional learning (including an introduction to research writing), sustainability, land stewardship, urban development economics and building measurement.

Year 2

You build on your knowledge of construction management by studying low-rise commercial construction and engineering, structural engineering, building measurement and estimating, construction-related law, building services engineering, basic business skills and minor study units.

Year 3

You increase your knowledge by studying high-rise construction and advanced structural and formwork design. You extend your management learning in business skills, contract administration and statutory construction law and further engage in your chosen minor study units as well as building your research capabilities.

Year 4

Your final year draws together previous learning and integrates it with more advanced concepts of strategic management, program and planning management, and human resources planning, preparing you for entry to the construction industry at managerial level. You have the opportunity to gain

Bachelor of Urban Development (Construction Management)

interdisciplinary skills via your minor units and specialist skills in advanced construction management and research methods and report writing.

Minors

For accreditation purposes you are required to undertake specified minors which will include employment practice. Please refer to [your course rules](#) before making your selection.

Construction management minor options

- All students must take the Construction Management Applications Minor, which is an AIB accreditation requirement.
- Your second minor may be taken from anywhere in QUT but must be from outside UD40. The Project Collaboration Minor is highly recommended for students in Construction Management.

Overview

This course is concerned with all aspects of property - investment, asset management, development, valuation and research - with a focus on finance and on the commercial property market sector.

Special Course Requirements

You are required to obtain a minimum of 30 days approved professional work experience.

Professional Recognition

The 4 year degree has professional recognition from the Australian Property Institute, the Valuers' Registration Board of Queensland, and from the Royal Institution of Chartered Surveyors.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Second Majors and Minors

In your final two years you will have the opportunity to undertake a major (8 units) or 2 minors (4 units each) from other areas of interest. Please refer to [your course rules](#) before making your selection.

PROPERTY ECONOMICS Second Major and Minor Options

Second Major:

A second major from anywhere in QUT

Minors:

Two minors from anywhere in QUT. Remember if you take two Minors one Minor must be from outside of your course.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure Work Integrated Learning unit

Students are required to obtain a minimum of 30 days approved professional work experience.

Your course

Year 1

You are introduced to land management, sustainability, construction, economics, law and fundamental property valuation practice. You will have a preliminary understanding of the knowledge required of a property professional including factors that influence the value of property. You develop verbal and written communication skills and work collaboratively on projects with other students.

Year 2

You further develop skills in applying analytical problem solving in property valuation, investment analysis and property development. You continue to build your knowledge and skills in planning and urban development, urban economics, and law associated with interests in land and property transactions. Focus is maintained on developing written and verbal communication to a professional standard. You develop an understanding of your future role as a property professional.

Year 3

You collaborate with other students in related disciplines to determine the feasibility of a hypothetical development project. You explore property finance and property and asset management and hone research expertise. Guest lectures from leading industry practitioners and industry-focused workshops are a feature. You also embark on a specialist focus through elective major/minor units in your

Bachelor of Urban Development (Property Economics)

chosen specialisation.

Year 4

You continue to specialise in your chosen area of study through elective major/minor units. You develop skills in property taxation, property marketing and real estate practice. These property skills are supplemented by business study which provides you with a useful understanding of commercial enterprise. The year culminates with industry-focused learning experiences including a work integrated learning unit to ensure you are workforce ready.

Second major and minors

In your final two years you will have the opportunity to undertake a major (8 units) or 2 minors (4 units each) from other areas of interest. Please refer to [your course rules](#) before making your selection.

Property economics second major and minor options

Second Major:

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

The course prepares students to work as quantity surveyors or building economists. The course covers building management, cost planning and control, building development techniques, building research, computer software application, measurement of construction, and legal issues. **Applicants will be initially enrolled in the Bachelor of Urban Development (Construction Management) but will be directed to take suitable units to graduate with a Quantity Surveying primary major.**

Special Course Requirements

You are required to gain a minimum of 80 days of approved employment in the final year of the course.

Professional Recognition

This course is fully accredited by the Australian Institute of Quantity Surveyors, The Royal Institution of Chartered Surveyors (Honours version only), and the Board of Quantity Surveyors Malaysia (with Property Economics second major).

Second Majors and Minors

You will have the opportunity to undertake a second major (8 units) or 2 minors (4 units each) to enhance and broaden your knowledge in a related field or area of interest.

Please refer to [your course rules](#) before making your selection.

QUANTITY SURVEYING Second Major and Minor Options

Second Major:

Choose one second major from the following options:

Property Economics Development
Property Economics Investment
Property Economics Valuation
Urban and Regional Planning
Architectural Studies

OR

Minors:

Two minors from [anywhere in QUT](#). Remember if you take two Minors, one Minor must be from outside the UD40 course.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sf.enquiry@qut.edu.au

Domestic Course structure Work Integrated Learning unit

Students are required to gain a minimum of 80 days of approved employment in the final year of the course.

Your course

Year 1

Complete a common first year with construction management students. You start your studies with foundation units including residential construction and engineering, basic professional learning (including an introduction to research writing), sustainability, land stewardship, urban development economics and building measurement.

Year 2

Apply your construction body of knowledge introduced in first year, and begin to develop the range of graduate capabilities through an introduction to more complex construction techniques, methodologies and management issues relating to your degree in quantity surveying. Your analytical and technical skills continue to be honed through commercial construction and the environment. The law and business skills you gain in the second year will also help further develop lifelong learning skills.

Year 3

Increase your knowledge and skills in construction and quantity surveying. You are introduced to in-depth knowledge of the economic, managerial, legal and technical aspects of construction activity, such as high-rise construction, cost planning and control. Undertake second majors/minors to extend construction and quantity surveying knowledge. These allow you to broaden your education by undertaking units from other faculties within the University, subject to accreditation requirements.

Year 4

In your final year you complete your selected second major/minors, involving a major project which brings together all your previously mastered skills, and advances your communication skills in dissertation writing and seminar presentation. You also complete work integrated learning in the quantity surveying discipline, ensuring you are workforce ready.

Second major and minors

You will have the opportunity to undertake a second major (8 units) or 2 minors (4 units each) to enhance and broaden your knowledge in a related field or area of interest.

Please refer to [your course rules](#) before making your selection.

Quantity surveying second major and minor options

Second Major:

Choose one second major from the following options:

- Property Economics Development
- Property Economics Investment
- Property Economics Valuation
- Urban and Regional Planning
- Architectural Studies

OR

Minors:

Choose two minors from the following options. Remember, if you take two Minors, one Minor must be from outside your course:

- Property Economics Development
- Property Economics Investment
- Property Economics Valuation
- Urban and Regional Planning
- Architectural Studies
- Work Integrated Learning Minor
- Sustainability Minor
- International Minor
- Indigenous Studies Minor
- Research Minor

- Project Collaboration Minor
- Collaborative Digital Design Minor

A minor from [anywhere in QUT](#).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

This degree is a broad-based course. The first year is a foundation year designed to prepare students to deliver practical solutions to problems involving spatial information and decision-making. Students study foundation units such as mathematics, professional studies, sustainability as well as geospatial positioning in their first year. In the following years, the areas covered are boundary and control surveying, topographic mapping, photogrammetry, mine and hydrographic surveying, land development design and geographic information systems.

Professional Recognition

The course is recognised by Queensland Surveyors Board and the Surveying and Spatial Science Institute of Australia (SSSI).

Special Course Requirements

You will be required to attend compulsory field practicals off-campus in the Moreton Region and have access to an advanced scientific calculator for use during the course. To graduate you are required to have at least 90 days of approved industrial experience/practice in a spatial science/ surveying environment.

Minors

For professional recognition you will undertake two minors (a minor is four units or 48 credit points in the same discipline) the first is a Science minor which includes Maths and the second an Applications minor which consists of a Work Integrated Learning unit, a project unit and two specialised spatial science units.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure Work Integrated Learning unit

To graduate, students are required to undertake at least 90 days of approved industrial experience/practice in a spatial science/surveying environment.

Your course

Year 1

You undertake foundation units where you study broad aspects of the built environment, stewardship of land and foundation mathematics to assist with an understanding of geospatial information and measurement science/surveying. A number of experiential field practicals support the study of introductory surveying techniques.

Year 2

You undertake further measurement-related study applied to cadastral surveying and computations. Digital mapping, GIS and remote sensing studies, that broaden measurement and analysis aspects, are introduced. Land development, measurement science and mapping/GIS themes are structured as a sequential learning process.

Year 3

Multidisciplinary land development units are undertaken to reflect real-world development projects. Land information management study supports the 'big-picture' view of sustainable developments while the geodesy theory unit covers high-precision state-of-the-art technology measurement applications. Project-based learning through spatial analysis practice is encouraged in this third year of study.

Year 4

Your final year prepares you for entry into the spatial information industry. Study units provide opportunities to gain interdisciplinary skills and specialist

Bachelor of Urban Development (Spatial Science)

spatial measurement and presentation skills. Project and work-integrated learning units allow for industry work experiences and exposure to the diversity of workplace cultures.

Minors

For professional recognition you will undertake two minors (a minor is four units or 48 credit points in the same discipline) the first is a Science minor which includes Maths and the second an Applications minor which consists of a Work Integrated Learning unit, a project unit and two specialised spatial science units.

listening	6.0
overall	6.0

Overview

This course aims to educate students to become innovative leaders in professional planning, with the capacity and will to create a better world. Graduates will apply perceptive sensibilities and skills to create sustainable natural and human environments. The QUT course emphasises creative design and inclusive community planning. You will have the opportunity to work on live projects with local councils and community groups.

Professional Recognition

This course has received accreditation from the Planning Institute of Australia.

Second Major and Minors

You will have the opportunity to undertake two minors (four units each) to broaden your appreciation of fields related to urban and regional planning. One of these is the Applications Minor, that fulfils important Planning Institute of Australia accreditation requirements. The other minor you are able to choose for yourself; for example: landscape architecture, urban design, surveying, property economics, law or business management. Students wishing to undertake a second major rather than the accredited course model are advised to contact the Study Area Coordinator.

Please refer to [your course rules](#) before making your selection.

URBAN AND REGIONAL PLANNING Minor Options

Choose two minors from the following options. Remember, one Minor must be from outside the UD40 course:

Urban and Regional Planning Applications Minor (accreditation requirement)

Landscape Architecture
Spatial Science
Architectural Studies
Property Economics Development
Property Economics Investment
Property Economics Valuation
Sustainability Minor
International Minor
Indigenous Studies Minor
Research Minor
Project Collaboration Minor
Collaborative Digital Design Minor
A minor from [anywhere in QUT](#)

Domestic Course structure Your course

Year 1

Your first year as a planning student will give you a strong foundation in design skills, experience in working in teams on planning projects, and an understanding of the importance of the social, economic and environmental contexts of planning activity.

Year 2

In your second year as a planning student, you will develop your practical skills through working on site-related projects and development assessment. The second year of the degree also explores the philosophical and theoretical basis of planning.

Year 3

In the third year of your degree, you will focus on the application of design skills on a broader scale through urban design principles. You will also be prepared for the public role of planners through negotiation and conflict resolution, and investigate the importance of environmental planning.

Year 4

In the final year of your degree, you will integrate the skills and capacities developed throughout the course through a major research project, a challenging exploration of planning theory and ethics,

Bachelor of Urban Development (Urban and Regional Planning)

and real-world planning projects that move from the community through to the regional level.

Second major and minors

You will have the opportunity to undertake a second major (8 units) or 2 minors (4 units each) to enhance and broaden your knowledge in a related field or area of interest.

Please refer to [your course rules](#) before making your selection.

Domestic Entry requirements 2013 questionnaires have closed

Questionnaires for the 2013 intake were due to completed on the 16 November 2012 and are now closed. If you had not submitted the questionnaire and you are considering applying to study in 2014 we recommend you read the following information as a guide only as it details requirements for entry in 2013 and these may change prior to the 2014 intake. You may also wish to consider applying for the standard entry program for 2013 entry.

Prerequisites

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Additional entry requirements

In addition to applying through QTAC and you must also submit the [online Science and Engineering Dean's Scholars questionnaire](#) by the closing date.

Please note submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Closing date

Submit the [online questionnaire](#) with QUT by Friday, 16 November 2012.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Prerequisite

1. Must be a current Year 12 student or a student returning from a gap year who completed their Year 12 education in Australia.
2. Successful questionnaire

Closing date

Submit the questionnaire with QUT by Friday, 16 November 2012.

Additional entry requirements

In addition to applying through [QTAC](#) and you must also submit the online Science and Engineering Dean's Scholars questionnaire (available October) by the closing date.

Please note: Submitting the questionnaire with QUT is separate and in addition to listing the course as a preference with [QTAC](#). To successfully apply for entry into this course you are required to do both.

Applicants will be notified via email when the questionnaire is available.

Minimum english requirements

Students must meet the English proficiency requirements.

Eligibility Criteria

Applicants must:

- have completed Year 12 in the year they apply for the program, or the previous year
- have received an OP 1 (or equivalent)
- be starting university for the first time
- demonstrate leadership experience and potential
- demonstrate community participation and engagement
- apply for and gain a place in the relevant Dean's Scholars Program

If studying at QUT International College (QUTIC), applicant must have a grade point average (GPA) of at least 6.5 for the two semesters immediately before they apply for the Dean's Scholars Program.

If expecting to get an OP of 1-3, applicant should apply for consideration.

Financial Support

Successful applicants will receive:

- A scholarship of up to \$6,000 per annum, usually payable in 2 instalments of \$3,000 by the 2nd week of semester 1 and semester 2 of each year. The scholarship would apply for the full-time duration of the undergraduate degree, contingent upon students meeting the conditions of the program (refer to Conditions below). The total value of the scholarship is limited to \$18,000 for the 3 year programs and \$24,000 for the 4 year

Bachelor of Urban Development - Dean's Scholars Program

programs.

Conditions

To keep a place in the Dean's Scholars program, students must:

- maintain enrolment full-time in the eligible undergraduate course
- graduate from the Bachelor of Engineering within 4 years of starting, except where you've taken a leave of absence approved by the Assistant Dean, or there are other extenuating circumstances
- maintain a grade point average (GPA) of at least 6.0 each semester
- meet the requirements of program completion (for example work experience and work integrated learning)
- pay any costs associated with their program that aren't covered by the scholarship, including additional and repeated units
- demonstrate adequate participation in extracurricular elements of the program.

Students can:

- apply to change their course structure under exceptional circumstances. Students must apply through their academic mentor or course coordinator, and receive prior written approval from the Assistance Dean International and Engagement.
- apply [for other scholarships and bursaries](#), including ones associated with travel, as long as they are allowed to under the conditions of the other scholarship and under our [Industry sponsored student scholarships policy](#).

Domestic Entry requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended study: Chemistry, Maths C and Physics.

International Entry requirements

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)). Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

This course meets the requirements for membership of Engineers Australia (EA). EA is a signatory to the Washington Accord, which permits graduates from accredited member courses to work in various countries across the world. The course also meets the coursework requirements for accredited graduate membership of the Australian Mathematical Society. You may also become a member of the Statistical Society of Australia.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or an engineering scholarship to help you financially throughout your studies. For further information visit [scholarships](#).

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Discontinuation

From Semester 1, 2007, this course has been renamed and recoded to IX28 Bachelor of Business/Bachelor of Engineering. Currently enrolled students who wish to remain in, and graduate from the existing program will be permitted to do so up to the end of 2009. From Semester 1, 2010, all students will be enrolled in the new program.

Course discontinued

This course has been discontinued and is open to continuing students only.

Course Design

A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

Professional Recognition

Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

Multidisciplinary Majors

In the Arts component students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

Career Outcomes

The professional skills gained from this double degree are applicable across all business domains. As a graduate, you can expect to work in roles such as a business analyst or consultant, information and communication technologies project manager or information technology infrastructure manager, information analyst, business process manager, information manager, database manager, data communications specialist, systems analyst or programmer.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Study Areas

IT07 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's

parchment. Instead, IT07 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

[How to apply for a blue card](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths

B (4, SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology and microbiology majors - Biology and Chemistry; for physics major - Maths C.

- English

Bachelor of Applied Science/Bachelor of Education (Secondary)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology and microbiology majors - Biology and Chemistry; for physics major - Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Enrolling

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Course Overview

This double degree enables you to work as a science professional or pursue a career in scientific research. Alternatively, the Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant if you are intending to follow a career in secondary school teaching are chemistry, ecology, geoscience, mathematics or physics.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Graduates will also satisfy the requirements for membership of the relevant professional body for their chosen science major. See [Studyfinder](#) for details on the Bachelor of Applied Science majors.

Other Course Requirements Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the

required field studies blocks, which commence in late January Year 2. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Literacy

Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Course Design

See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Domestic Course structure

See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the

Bachelor of Applied Science/Bachelor of Education (Secondary)

education technology program.

The Bachelor of Applied Science majors that are relevant to secondary teaching include:

- chemistry
- ecology
- geoscience
- mathematics
- physics.

International Course structure

See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

The Bachelor of Applied Science majors that are relevant to secondary teaching include:

- chemistry
- ecology
- geoscience
- mathematics
- physics.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

[How to apply for a blue card](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths

B (4, SA)).

International Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

[How to apply for a blue card](#)

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Discontinued Course

There is no further intake into this course.

Course Overview

This double degree enables you to work as a science professional or pursue a career in scientific research. Alternatively, the Bachelor of Education (Primary) will prepare you to teach at all levels of primary school. You may also complete a discipline and content studies major in one of the key learning areas of the Queensland school curriculum.

Enrolling

You have 11 years to complete the Bachelor of Applied Science/Bachelor of Education (Primary), including any approved leave of absence. It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Graduates will also satisfy the requirements for membership of the relevant professional body for their chosen science major. See [Studyfinder](#) for details on the Bachelor of Applied Science majors.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities

in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at <http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards>.

Field studies units will be taken in Queensland schools.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Course Design

Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component. Field Studies units will be taken in Queensland schools.

Designated Units

Field Studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

Course Notes	
PLEASE NOTE THAT SOME COURSEWORK UNITS CANNOT BE STUDIED IN THE SAME SEMESTER AS A FIELD STUDIES UNIT. If students do not follow the standard course progression (eg due to a fail grade, or non enrolment in units), time will be added onto the course duration, and you should contact Student Affairs for progression advice, nm.kyle@qut.edu.au.	
All other course requirements must have been successfully completed before commencing EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field and EDB025 Internship (Primary) in your final semester of study. This is a University and Queensland College of Teachers requirement.	
Overload - The Faculty of Education permits you to overload to 60 credit points (ie standard program plus one more unit) without faculty approval only if your grade point average is 4.0 or higher. If you intend to overload you should seek progression advice from the Course Administration Officer.	
Underload - The Faculty of Education permits you to underload to 36 credit points (ie 3 units in a semester) without faculty approval. If you intend to underload you should seek progression advice from the Course Administration Officer.	
Students must have a valid Bluecard to be eligible for Field Studies units.

Course Overview

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Science (ST01) course: biology, chemistry, earth science, environmental science and physics.

Aim

You will graduate with specialised knowledge of cutting-edge technologies and extensive practical experience using the latest techniques. You have a broad range of options to choose from and the flexibility to create your own personal science degree program.

The defining nature of the QUT Law degree is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry.

Career outcomes

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

Professional membership

Graduates will satisfy the requirements for membership in the relevant professional body for their science major. At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia.

Non-standard attendance

Field work is a requirement in some areas of science.

Overview

Your business degree will give you a broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly in a science-based career.

Aim

Through the combination of science and business, you will equip yourself for an exciting career at the cutting edge of scientific innovation within a range of public, private and non-profit industries.

Career outcomes

By combining your science studies with business you will develop the entrepreneurial skills necessary to sell your abilities to a range of employers. As well as the range of science-based careers available such as a scientific modeller, engineering software developer,

scientific programmer, and computational scientist you could expect to gain employment as a consultant, marketer, or project manager within firms developing and taking scientific research to the marketplace.

Professional membership

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors.

Non-standard attendance

Field work is a requirement of some areas of science.

Course Update

From Semester 1, 2009, a revised version of this double degree program has been introduced. This course has been recoded IX56 Bachelor of Creative Industries/Bachelor of Information Technology. The current IX27 Bachelor of Creative Industries/Bachelor of Information Technology will be offered for continuing students only.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Information Technology) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 168 credit points from Creative Industries interdisciplinary units.

The Information Technology component is made up of 120 credit points of Faculty core units and 72 credit points of units from an IT major.

Professional Recognition

Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Unit

Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code

overall	6.5

Career Outcomes

Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of governments and private companies. Graduates of the Bachelor of Business are skilled in many aspects of business including: accountancy, advertising, finance, economics, human resource management, international business, management, marketing and public relations.

Overview

Students combine engineering knowledge in electronics, computer systems, telecommunications and electric power with a business course majoring in one of accountancy, advertising, economics, finance, human resource management,

international business, management, marketing or public relations.

Professional Recognition

This degree meets the requirements for membership of Engineers Australia.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the [Bachelor of Business \(BS05\)](#).

Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial employment/practice in an engineering environment as part of the Work Integrated Learning unit, before graduating.

Course Design

Students are required to complete 480 credit points comprised of 288 credit points from the Bachelor of Engineering program and 192 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 96 credit point Business School Core units in the Bachelor of Business program together with a 96 credit point Major in one of the following: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing or Public Relations.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Important Information

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on [Student Services](#) website.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Course Update

From semester one, 2009 this course will not be available for commencing students. IX29 will only be available for continuing students. New students - please refer to IX57. Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Course Design

This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points from Mathematics. All majors in the Bachelor of Information Technology are available.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the [Cooperative Education Program](#).

Mathematics Bursaries

Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be

submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units. New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Overview

Through the combination of science and business, you will equip yourself for an exciting career at the cutting edge of scientific innovation within a range of public, private and non-profit industries. Your business degree will give you a

broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly in a science-based career.

Professional Recognition

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors. Please refer to the relevant pages in this prospectus for details on your intended science major, and the QUT Business School prospectus for more information on business majors, or visit www.qut.edu.au/courses

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or a business scholarship to help you financially throughout your studies. For further information visit [Scholarships](#).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Mathematics program and 192 credit points from the Bachelor of Business program.

Business component:

Commencing students from 2009 onwards

- 8 Business School Core units (96 credit points) including MGB223 (see below)*
- 8 Major Core units (96 credit points)

2007-2008 commencing students

- 7 Business School Core units (84 credit points)*
- 9 Major Core units (108 credit points)

*Please note that BSB123 Data Analysis (one of the Business School Core Units) is not required as the content of MAB313 Mathematics of Finance covers similar topics. MGB223 Entrepreneurship and Innovation replaces BSB123.

*Accounting major students complete 6 Business Core Units and 10 Accountancy major units to allow them to complete professional requirements.

* Please note that EFB101 Data Analysis for Business which is normally undertaken in the Majors of Accountancy, Banking & Finance and Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines](#).

Other useful information can be found on the [Student Services](#) website.

overall	6.5

Career Outcomes

Graduates may develop careers in cyberlaw, intellectual property and privacy, dealing with the legal regulation of the Internet including downloading music, mobile phone camera use or copyright issues. You may become a legal practitioner, barrister, in-house counsel, government lawyer or policy adviser. There is also increased demand for roles in e-democracy both in e-government service delivery and political campaigning.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord. At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practicing lawyer you will need to complete further practical legal training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Study Areas

IX53 will not have nominated majors and minors in the IT component and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX53 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute

Bachelor of Information Technology/Bachelor of Laws

Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning', for example, working within law firms and government departments in placement electives.

Domestic Course structure

Course structure
You will study a combination of information technology and law units in the first four years, with law units only in the final year. You will also have the opportunity to choose elective units relevant to your career interests.

Study Areas

You can choose to specialise in:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

International Course structure

Course structure
You will study a combination of information technology and law units in the first four years, with law units only in the final year. You will also have the opportunity to choose elective units relevant to your career interests.

Study Areas

You can choose to specialise in:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies.

Domestic Entry requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths B (4,SA)). Recommended study: Chemistry, Maths C and Physics.

International Entry requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths B (4,SA)). Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

This course meets the requirements for membership of Engineers Australia (EA). EA is a signatory to the Washington Accord, which permits graduates from accredited member courses to work in various countries across the world. This

course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Other Course Requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Cooperative Education Program

IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the [Cooperative Education Program](#).

Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Course Overview

This double degree prepares you for an increasing range of careers that involve the application of information technology to science. It gives you the ability to use creative as well as analytical methods to solve scientific problems. Studying this double degree allows you to develop the technical skills required for your relevant field of study in applied science.

The science component of the course offers you the choice of majoring in biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geosciences, microbiology or physics. Theoretical aspects are balanced by strong practical components in this

science and information technology double degree.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord. Please refer to the Science pages at [Studyfinder](#) for more information on the relevant professional body for your chosen science major.

Study Areas

IX55 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX55 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Overview

This double degree allows you to complement your technical skills with creative skills through digital media and film production. You will learn to merge the creative and imaginative with the technical to develop sophisticated and innovative digital products. You can choose to complement your skill set through a range of information technology and creative industries areas of interest to diversify your studies, including:

- animation
- art and design history
- creative and professional writing
- dance studies
- digital media
- entertainment industries
- entrepreneurship
- fashion
- film, television and screen game design
- interactive and visual design
- journalism, media and communication
- literary studies
- music
- online environments

Career Outcomes

As a graduate you can enjoy the more creative side of information technology careers including digital media programmer, simulation designer or developer, games producer or designer, sound designer, mobile entertainment and communications developer, user interface developer, knowledge worker in music and sound, web developer and digital product strategist.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Design

You will undertake the Bachelor of Creative Industries core units as well as one creative industries major. Your information technology degree component comprises eight core units, four breadth units, and four units in your information technology specialisation.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is

Bachelor of Creative Industries/Bachelor of Information Technology

the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the [Cooperative Education Program](#).

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column, you are not permitted to enrol in the listed new code.

Course Coordinator	Mr Mike Roggenkamp (Information Technology), Dr Tim Moroney (Mathematics)
Discipline Coordinator	

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement English (4,SA) and Maths B (4,SA).

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths B (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

Graduates will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia and, depending on unit selection, the Australian Society for Operations Research. This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or an information technology scholarship to help you financially throughout your studies. For further information visit [Scholarships](#).

Study Areas

IX57 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX57 will have specialisations. The specialisation areas

that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the [Cooperative Education Program](#).

Course Overview

There is an ever-increasing number of criminal acts resulting from the development and use of technology (such as the Internet and mobile devices), therefore, students with a corporate systems management background have the appropriate skills and knowledge required to work on criminology and policing for these areas. Corporate systems management students also gain information systems knowledge which allows them to more effectively manage, secure and control systems and processing in justice departments.

Corporate systems management teaches students how to analyse business needs and devise IT-enabled business systems that deliver the necessary information to the key people via the most appropriate technologies. The justice component comprises a primary major study area in either criminology or policing, which covers skills in criminology, policing, ethics, crime prevention, justice policy and investigations.

Career Outcomes

Graduates find work in justice areas including corrective services, police, Crime and Misconduct Commission, Department of Justice and Attorney-General, Federal and Family Courts and the Australian Taxation Office.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Professional Recognition

Corporate Systems Management component: The course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points (32 units) comprised of 192 credit points (16 units) from the Bachelor of Business program and 192 credit points (16 units) from the Bachelor of Corporate Systems Management program which includes an industry based project and an IT options (elective) unit.

Business students complete 8 Business

School Core Units together with 8 Major Core Units from their chosen discipline. (Accountancy students undertake 6 Business School Core Units and 10 Major Core Units to meet professional recognition requirements).

Note the following:

Cooperative Education Program

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Campus	Gardens Point
Domestic fee (indicative)	2013: CSP \$4600 per Semester (48 credit points)
International fee (indicative)	2013: \$11,700 per Semester
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Michael Docherty (Games and Interactive Entertainment); Director of Undergraduate Studies, QUT Business School; email: bus@qut.edu.au
Discipline Coordinator	Ms Sherrena Buckby (Accountancy); ASPRO Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Mark Doolan (Finance); Dr Glen Murphy (Human Resource Management); Mr Michael Cox (International Business); Dr Henri Burgers (Management); Mr Bill Proud (Marketing); and Dr Kim Johnston (Public Relations) Business: Student Services: (07) 3138 2050 Business: Student Services: bus@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Math A, B or C (4, SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Math A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Design

Students will be required to complete 192 credit points from the Bachelor of Games and Interactive Entertainment; and 192 credit points from the Bachelor of Business course.

Business Component: Students must complete the Business School Core Units (96 credit points) together with a 96 credit point major.

Students will undertake the two components of the double degree concurrently.

Cooperative Education Program

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex,

Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the [Cooperative Education Program](#).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Course Overview

This double degree gives you the opportunity to use your problem-solving skills to develop realistic games in a competitive gaming environment. A decade ago, people probably wouldn't have noticed if the cape the game hero was wearing didn't flap in the wind as he ran, or that the boxes in the corner of the room of the dungeon didn't fall over when they are run into in a fight. Nowadays, serious gamers notice and demand this type of realism in their virtual worlds. This is where your maths and problem-solving capabilities come into play. Complex formulae are used in games design to create realistic scenes, and knowledge of mathematics will certainly aid your understanding.

Students undertake core units from both their Bachelor of Mathematics and Bachelor of Games and Interactive Entertainment. They can subsequently select from the strands of applied,

computational, discrete and financial mathematics; mathematical modelling; operations research; scientific computation and visualisation; statistics and statistical modelling in their Bachelor of Mathematics and from the majors of animation, digital media, game design or software technologies in their Bachelor of Games and Interactive Entertainment degree.

Career Outcomes

A graduate may find work in film and television special effects or in the games and interactive entertainment environments making games look more realistic (such as concept artist).

Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia and the Australian Society for Operations Research is available. This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement English (4,SA) and Maths B (4,SA). Recommended study: At least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths B (4,SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology, forensic science, and microbiology majors - Biological Science and Chemistry; for physic major - Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

Knowledge of science underpins more than you might think. As a graduate of the Applied Science/Games and Interactive Entertainment double degree you may find work as a graphic/games designer. You may work on such things as making car games realistic, making people move more realistically using your knowledge of the laws of motion, or creating three-dimensional games.

Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See [Studyfinder](#) for details on the Bachelor of

Applied Science majors. The software technologies major of the Bachelor of Games and Interactive Entertainment is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Discipline Coordinator	Dr Gavin Sade (Interactive and Visual Design) Ct: +61 7 3138 8114 ci@qut.edu.au (Interactive and Visual Design)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

International Subject prerequisites

- English

You must have achieved study of English and one of the following: Maths A, Maths B or Maths C, at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

This double degree will set you up for a career in the rapidly expanding fields of contemporary communication and the application of new media technologies.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Information Technology, and Interactive and Visual Design) comprises 192 credit points.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas

that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Environments
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Alternatively, on successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Cooperative Education

The Faculty of Science and Engineering's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units. New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

Graduates will satisfy the requirements for membership in the relevant professional body for their science major. See [Studyfinder](#) for details on the Bachelor of Applied Science majors.

At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practising lawyer you will need to complete further practical legal

training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course: biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geoscience, microbiology and physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Further Information

For further information about this course, please contact the following:

course:

- biochemistry
- biotechnology
- chemistry
- ecology
- environmental science
- forensic science
- geoscience
- microbiology
- physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

International Course structure

Course structure

You will study a combination of science and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Course design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course:

- biochemistry
- biotechnology
- chemistry
- ecology
- environmental science
- forensic science
- geoscience
- microbiology
- physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Domestic Course structure

Course structure

You will study a combination of science and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Course design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01)

Handbook

Year	2013
QUT code	SC20
CRICOS	049434C
Duration (full-time)	4 years
Rank	87
OP Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2013: CSP \$4200 per Semester (48 credit points)
International fee (indicative)	2013: \$12,500 per Semester
Total credit points	384
Credit points full-time sem.	48
Dom. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr Marion Bateson (Science Major); Dr Tim Moroney (Mathematics)
Discipline Coordinator	

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended Study: Maths C and at least one of Chemistry, Physics, Biology, Earth Science or Maths C.

International Subject prerequisites

- Maths B
- English

Four semesters with sound achievement in high school or subsequent study (English (4, SA) and Maths B (4, SA)). Maths C and knowledge of at least one of the sciences. For the majors in biochem, biotech, forensic science, and microbiology - Biology and Chemistry are recommended. You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Mathematics students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units. New students - please refer to Bachelor of Science/Bachelor of Mathematics. Please contact sef.enquiry@qut.edu.au for any enquiries.

Course Overview

Studying a double degree in applied science and mathematics will provide you with advanced knowledge and skills that

are highly sought after by employers. A stronger training in mathematics and statistics enhances your capabilities in modelling analysis and design.

This four year double degree course integrates studies in one of the science majors with studies in mathematics. The science majors available are biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geoscience, microbiology and physics.

The mathematics component offers studies in core mathematics, applied mathematics, computational mathematics, discrete mathematics, financial mathematics, mathematical modelling, operations research, statistics, statistical modelling, scientific computation and data visualisation.

Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia and the Australian Society for Operations Research is available. Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary to help you financially throughout your studies. For further information visit [scholarships](#).

- [Level 2 and 3 Science Units:](#)
- [Science Elective Units:](#)

Course Notes	
Code	Title

Bachelor of Applied Science/Bachelor of Mathematics

As of 2013, the below Level 1 Science Foundation units will no longer be available. Only SCB111 will be available for Semester 1 2013, and then discontinued. Students who have not completed these units prior to 2013, should undertake the replacement unit stated in the revised SC01 course structure related to their major.

Also, as of 2013, MAB101 will not be available to students undertaking this course. Students who have not completed MAB101 prior to 2013, must undertake another unit from the Level 2 and Level 3 Mathematics unit options.

Course Notes

Code	Title
Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:	

Level 1 Units:

Code	Title
Students must complete the following Level 1 Mathematics units:	

MAB101	Statistical Data Analysis 1
--------	-----------------------------

If MAB101 is not completed prior to 2013, please select another unit from the Level 2 and 3 Mathematics unit options.

MAB120	Foundations of Calculus and Algebra
MAB121	Single Variable Calculus and Differential Equations
MAB122	Linear Algebra and Multivariable Calculus
MAB210	Probability and Stochastic Modelling 1
MAB220	Computational Mathematics 1

MAB120 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent).

Students with Sound Achievement in both Senior Mathematics B and C take a level 2 Mathematics unit option instead of MAB120.

Students must complete the following Level 1 Science Foundation units:

SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1

Cellular Basis of Life

In addition, students are required to complete any mandatory units - and should complete all recommended units, specified for the science major selected.

Level 2 and 3 Mathematics Units:

Code	Title
At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:	
Students who have not completed MAB101 prior to 2013, must select an additional unit from the Level 2 and 3 Mathematics unit options.	
Students must complete:	
MAB311	Advanced Calculus
MAB312	Linear Algebra

Level 2 and 3 Science Units:

Code	Title
At least 96 credit points (8 twelve-credit point units) must be taken from Level 2 and Level 3 Science units with at least 48 credit points (4 twelve credit point units) from Level 3 Science units. The science units must meet the advanced level requirements of one of the following majors of the SC01 Bachelor of Applied Science course: Biochemistry; Biotechnology; Chemistry; Ecology; Environmental Science; Forensic Science; Geoscience: Microbiology or Physics.	

Science Elective Units:

Code	Title
The Mathematics unit (or units) normally undertaken in the first year of SC01 Bachelor of Applied Science is replaced by a Science elective unit (or units). This Science elective unit can be from any level. The level 2 Mathematics unit in the Physics major is replaced by a level 2 Science elective unit.

Aim

Gain highly sought after knowledge and skills in mathematics and statistics to enhance your capabilities in modelling analysis and design.

Course Overview

Studying a double degree in applied science and mathematics will provide you with advanced knowledge and skills that are highly sought after by employers. A stronger training in mathematics and statistics enhances your capabilities in modelling analysis and design.

The science component of the course offers you the choice of majoring in chemistry, biology, environmental science, earth science or physics. Theoretical aspects are balanced by strong practical components in this science and information technology double degree.

The mathematics component offers

studies in core mathematics, applied mathematics, computational mathematics, discrete mathematics, financial mathematics, mathematical modelling, operations research, statistics, statistical modelling, scientific computation and data visualisation.

Non-standard attendance

Field work is a requirement of some areas of science.

Career Outcomes

Studying a double degree in applied science and mathematics will provide you with advanced knowledge and skills that are highly sought after by employers.

- natural resources: measuring fish populations and predicting sustainable fishing limits
