

# Disaster Management Professional Development Programs

Monday 26 February – Friday 2 March 2018

## Overview

The Disaster Management short course aims to educate clinicians, supervisors and managers in the knowledge, skills, strategies and tactics required to manage communities and organisations in the event of a major incident or disaster. This program is shared by students enrolled in postgraduate programs at QUT.

## Disaster Management

- Five-day intensive short course
- Course developed and delivered by experts in health management and disaster response
- Ideal for individuals currently/potentially involved in or responsible for planning, preparation and management of health services during major incidents and disasters.

## Course structure

- Monday 26 February - Friday 2 March 2018
- 9am to 5pm daily
- Delivered at QUT Kelvin Grove campus
- Recognition of participation
- Option to undertake assessment for advanced standing in PUN451 in some postgraduate award courses.

## The course will include the following elements:

- An overview of disaster management
- The epidemiology and impact of disasters
- Principles of disaster management
- Risk management and planning for disasters
- The response management framework
- Recovery and rehabilitation.

## Cost

\$2,100.09 for workshop module only, or \$2,625.15 for students who enrol in both the workshop and assessment modules. An early bird discount of 10 per cent will apply on full fee rate for registrations received prior to 5 February 2018.

ACHSM members receive a 15 per cent discount.
