

The QUT logo consists of the letters 'QUT' in a bold, white, sans-serif font, centered within a dark blue square. The background of the entire page is a photograph of a person in silhouette standing on a balcony, looking out at a city skyline with several tall skyscrapers under a bright sky.

QUT

Real progress

for your career 2018

Research

Postgraduate coursework

Executive education

Professional development

a university for the **real** world[®]

Why QUT?

Global recognition for your qualification

- Top 300 university in multiple world rankings.
- Top 20 global university under 50 years old.
- Fastest growing research university in Australia, leading the way with industry links.

Personalise your study

- Enjoy flexible degrees.
- Take electives that allow you to follow your interests.
- Segment your course for easy opt out, if needed.
- Or simply select single units of study.

Experience flexible learning that can be applied straight away

- Start midyear, or fast track your professional development through tailored courses or through summer program units.
- Study full time or part time, evenings or online.

Benefit from extensive support and mentoring

Enjoy rich, supportive relationships developed with your teachers, facilitators, supervisory team and our research staff.

Learn from the best

Our award-winning staff have in-depth knowledge of contemporary and emerging teaching practices.

Opportunities through industry collaboration

- Course content is created in collaboration with top industry professionals.
- You will be taught by experts in the field and guest lecturers who are connected to industry as researchers and consultants.
- Have opportunities for networking with staff, guest lecturers and a cohort of peers in class, in online forums and at faculty events.
- Gain professional experience through workplace projects or study tours in Australia and overseas.

Places and spaces for learning and research

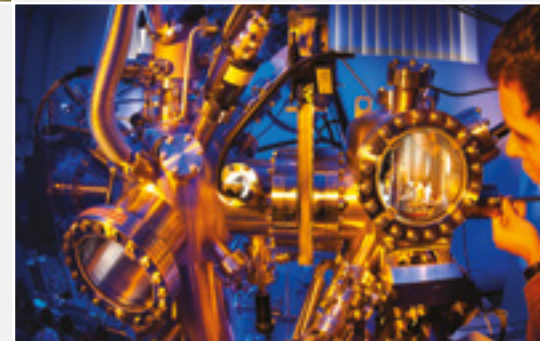

Translational Research Institute (TRI)

This Australian-first initiative of 'bench to bedside' medical research is a partnership between QUT, The University of Queensland, Mater Medical Research Institute, and Queensland Health.

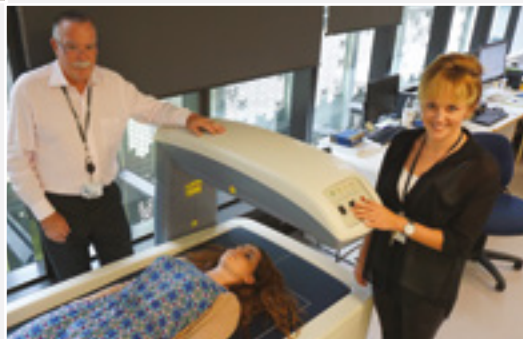

Institute of Health and Biomedical Innovation (IHBI)

A state-of-the-art research facility that fosters excellence in biomedical, health and engineering innovation.

Creative Industries Precinct

An incubator for groundbreaking ideas and creative enterprise, inspiring the next generation of creatives.

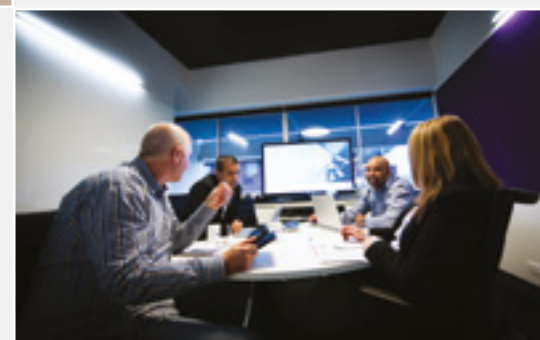

Science and Engineering Centre

Home to our Institute for Future Environments (IFE), our Central Analytical Research Facility and The Cube, one of the world's largest interactive digital display systems.

Centre for Children's Health Research (CCHR)

Adjacent to Lady Cilento Children's Hospital, IHBI researchers are collaborating closely with hospital clinicians to progress research.

Medical Engineering Research Facility (MERF)

This facility supports health research advances at the Prince Charles Hospital.

Executive Education Centre

The purpose-built centre consists of a series of flexible learning spaces, seminar rooms and networking and meeting spaces.

Be an agent of change

Our research students are agents of change, constantly seeking out new and innovative ways to progress ideas to reality.

Doctor of Philosophy (PhD)

- Be challenged to make a significant contribution to new knowledge in your field.
- Be inspired by collaborative thinking, innovative approaches and authentic learning.
- Our PhD offers a distinctive and individualised approach to research and skill building.
- Develop knowledge and capabilities to engage with broad pathways and diverse partners.

Master of Philosophy

- An internationally renowned graduate research degree.
- A masters degree that recognises your diverse professional and technical background.
- Gives you a broader, more individualised approach to research education.
- Prepares you for research or industry-based career pathways.
- Ideal stepping stone to a PhD or a smooth transition to industry sectors.

Professional doctorate

- Available in the areas of creative industries, education and information technology
- Integrate a research degree into your professional life

qut.edu.au/research

Benefit from world-class research

- An international reputation as an exceptional research institution.
- 100 per cent of our research was ranked at world standard or above in the Australian Government's Excellence in Research for Australia (ERA) assessment process in 2015.
- Strong links with international researchers and research institutions.

Our research priorities

- Biomedical engineering
- Biomolecular science
- Business of technology
- Chronic disease intervention
- Data science
- Digital media
- Education
- Health systems
- Injury prevention and management
- Materials science
- Plant biotechnology
- Robotics
- Technology and regulation.

Get ahead with postgraduate study

Completing a postgraduate degree can give you a competitive edge in your career, or help you change careers entirely.

Coursework study

- Boost your career, enhance your knowledge or acquire new skills.
- Study a shorter degree to specialise in your area of interest.
- Graduates eligible for registration with professional organisations.
- Study through a blend of on-campus lectures and tutorials, as well as online activities.

Postgraduate courses by study area

- Building and planning
- Business
- Education
- Engineering
- Health and community
- Information technology
- Law and Justice
- Science and mathematics.

Study costs and financial support

Most **postgraduate coursework students** pay tuition fees; however a small number of courses are offered on a Commonwealth supported basis. Tuition fees are published in the online course information on the QUT website by 1 October each year.

There are normally no fees for **professional doctorate** or **research masters** students who are Australian or New Zealand citizens, or permanent

residents of Australia. You may be eligible for a scholarship to help cover your costs while you're studying.

QUT and external organisations offer a range of scholarships, including equity scholarships for low-income students.
