

Welcome to Gardens Point campus

QUT acknowledges the Turrbal and Yugara, as the First Nations owners of the lands where QUT now stands. We pay respect to their Elders, lores, customs and creation spirits. We recognise that these lands have always been places of teaching, research and learning.

QUT acknowledges the important role Aboriginal and Torres Strait Islander people play within the QUT community.

Download the Walking on Country app to learn more about the history and culture of the Turrbal and Yugara people throughout Gardens Point. This self-guided walking tour uses augmented reality and interactive displays for an immersive learning experience. For more information visit qut.edu.au/about/campus-to-country

Gardens Point campus is conveniently located in Brisbane's CBD, nestled between the Brisbane River and City Botanic Gardens. This location reinforces QUT's strong links with business, industry and government. The campus is close to public transport and is a short walk from Queen Street Mall and South Bank.

Here at Gardens Point you'll find approximately 30,000 students studying architecture and built environment, business, engineering, health sciences, information technology and games, law, mathematics and data science, and science.

Please respect our current students and workplace health and safety, and do not enter classrooms, labs, etc. when touring the campus.

Stop 1—U Block/QUT Art Museum

The QUT Art Museum presents a diverse program of contemporary exhibitions, as well as free public events and programs. The museum collection has a history of strong and adventurous commitment to contemporary art, and the majority of works date from the 1960s onwards. Admission to the QUT Art Museum is free.

Stop 2—Old Government House

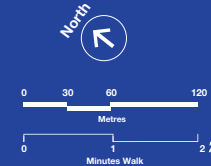

Old Government House is recognised as one of Queensland's most important heritage sites. Built in 1862, it was the official residence for Queensland Governors until 1910.

The Kidney Lawn, facing the Botanic Gardens, is also part of the site and features a heritage-listed tree.

The building underwent a \$15 million restoration in 2009 and is open to the public. The upstairs bedrooms have become a gallery dedicated to the permanent exhibition of the works of renowned Australian artist and QUT alum, William Robinson.

Stop 3—X Block and Y Block

X Block is home to the QUT Gardens Theatre, a 397-seat venue for both QUT's Creative Arts student performances as well as local and visiting productions

Also, located in this building is:

- QUT medical centre—providing professional health and medical services to the university community with medical practitioners, psychologists and registered nurses
- Counselling—providing a professional, confidential and free counselling services to QUT students
- Equity and disability services—promoting equal opportunities and support for all students and staff, through a range of services. Free confidential support for students with a disability, injury or health condition is available through Disability Services.
- QUT Esports Arena—our purpose-built arena was Australia's first university gaming arena. QUT is the industry leader in Australian esports.

Y Block houses Room Three Sixty, a large function room with 360-degree views over the city, South Bank and Kangaroo Point. Also in this building are state-of-the-art research spaces focusing on the areas of science and engineering, as well as a number of retail and food outlets.

Direction details: To get to the next stop walk to P Block then take the stairs down to Level 3.

Stop 4—P Block, Level 3/community hub

The community hub is all about making time on campus enjoyable and accessible. Here you'll find a gym with a group fitness studio and a 50-metre indoor pool.

There is also a 300-seat food court where you'll find an array of food and retail outlets. QUT Supply is also housed within the community hub and sells a large range study essentials, stationery, QUT merchandise and gift products.

Direction details: To get to the next stop take stairs/lift up to Level 4 of P Block.

Stop 5—P Block, Level 4/Science and Engineering Centre

The Science and Engineering Centre is a learning space for the whole community—students, researchers, industry, schools and the public—with a focus on education and research in sustainable technology. This certified '5-star' green building is one of the highest-rated green buildings in Brisbane and features both static solar panels and solar 'trees' on the roof that are programmed to follow the sun's path, allowing maximum exposure.

Inside P Block you will find The Cube—one of the world's largest digital interactive learning and display spaces—which is designed to showcase QUT's research in science and engineering, as well as IT, creative arts and design.

Stop 6—O Block/O Podium

O Block has mechanical, medical and civil engineering labs, and also accommodates a fully equipped mechanical workshop, home to our engineering makerspace lab and QUT Motorsport.

Stop 7—C Block

C Block is home to the Faculty of Law. The building contains the law library which has specialised legal information and resources for law students plus access to highly qualified, industry-experienced law librarians. The QUT Law Moot Court, where students can sharpen their advocacy skills and gain confidence in the courtroom, is also in this building.

Stop 8—Z Block

Z Block is the location of QUT Business School and has a number of large lecture theatres. The building houses the fully equipped Bloomberg Lab, which allows students in the fields of economics and finance to experience the financial markets in real time, without the risks involved in real transactions.

QUT Business School also has facilities in **B Block** including the Executive Education Centre where Executive MBA and corporate education courses are delivered.

Stop 9—S Block

This is the information technology, electrical engineering and built environment building.

The building features 24-hour computer labs and student spaces; state-of-the-art labs for electrical, electronic, instrumentation, robotics and mechatronics engineering; technology-enhanced student zones with Wii consoles and games; and the QUT Centre for Robotics, which is Australia's top research centre for robotics.

When looking down to the left when facing out from the S Block entrance you will see:

- **W Block**—housing specialised labs for chemistry, biology and environmental science, as well as QUT's pharmacy counselling room, designed to look and operate like a real pharmacy
- **R Block**—home to the Schools of Earth and Atmospheric Sciences and Biology and Environmental Science containing geology and geophysics labs, as well as research hubs focusing on conservation, habitat management, endangered species, water catchments, marine geology and earthquakes.

Stop 10—Q Block

Q Block has undergone a \$28 million refurbishment and features world-standard facilities for medical imaging, radiation therapy, physics and medical sciences.

The 600m² SuperLab is the largest on campus and has been modelled on similar labs in Europe to house students from multiple disciplines, often at the same time.

Stop 11—V Block (HiQ and library)

HiQ is the first point of call for students needing enrolment, study or IT assistance. Students can access many services they need through the QUT app or by visiting the HiQ kiosks in V Block. Student concierges assist current and prospective students, with specialist staff on hand for any complex enquiries.

The library is open 24 hours a day during semester and provides access to:

- books, eBooks, online journals and databases
- study spaces, casual reading areas, meeting rooms, sensory spaces, assistive technology rooms and silent study areas
- free study skills workshops and one-on-one academic consultations
- for students
- drop-in sessions for help with career and employability development
- printing services including scanning, binding and laminating
- a 24-hour computer lab.

Directly across from the library entrance on Macgregor Lane you can see **E Block**, which houses labs for chemistry and science, as well as wet labs where students can use biological materials.

As you walk to your next stop you'll pass by **B Block**, here you'll find the Oodgeroo Unit—QUT's Aboriginal and Torres Strait Islander student success centre. The Oodgeroo Unit is accessible 24 hours a day and includes tutoring rooms, computer labs and a kitchen.

Stop 12—D Block and J Block

Home to architecture and built environment students, D Block was built in 1999 and designed by an architect who was a graduate of QUT. The facilities include teaching spaces, computer labs as well as YourSpace—a dedicated space for club and student events.

Looking down towards Norman Way you will also see **J Block**—this building is home to architecture and built environment students' design studios and fabrication workshops. These facilities support a range of hands-on design and model-making equipment for architecture, interior design and landscape architecture disciplines. The equipment includes laser cutters, CNC routers, 3D printers, vinyl and foam cutters, paint booth, timber shop, metal shop and plastic-shaping facilities.

Thank you for visiting QUT today.
