

Agenda

- A perspective on the world today.
- Technology directions driving disruption.
- How businesses are or should be responding.
- How do we create more jobs? Example: Jobs for NSW.

With four clear strategies to get there

Two of our strategies will create more jobs, and two will prepare us for them – building on the strong budget and economy without which no other measures are possible.

Conclusion

- The new normal - volatility and unpredictability.
- Technology and new business models driving pervasive disruption.
- Businesses and Governments must respond – inaction is not acceptable.
- We must build plans for the creation of new jobs – Whole of Government initiative.
- We must re-imagine Australia for the future.
