

# Transformation Masterclass: Human-Centred Leadership for Transformation

Design a successful transformation journey by understanding how to take a human-centric leadership approach. Put people first, create value and focus on your service delivery.

Why do so many organisational change efforts fail? Evidence suggests that putting human needs first and creating value can significantly improve the likelihood of a successful transformation journey. Dig deep into the evidence supporting a human-centric approach to leadership and transformation. Understand what this theory looks like in practice and learn pragmatic steps to successfully implement an empathetic, human-centred transformation strategy in your organisation.

## Evolve with QUTeX

Successfully lead a human-centred organisational transformation, by understanding how to lead with empathy and the steps to re-orient your business towards service delivery and value creation with QUTeX. Gain the insights and knowledge required to understand customer and stakeholder needs and the skills to engage and empower employees through strengths-based approaches.

## Core concepts

- Understand the impacts and benefits of a human-centred approach to leadership and transformation;
- Examine how transformation can enhance the value of work and quality of jobs;
- Explore how to preserve human connections and relationships during the uptake of disruptive technologies and digital transformation; and
- Recognise how your organisation can protect human capital while improving the outcomes of transformation initiatives.

## Who should participate?

Take a people-orientated approach to leadership with this masterclass for mid-senior managers. Professionals in learning, development and change management roles will benefit from future-proofing their leadership approach and will boost their ability to run a successful digital transformation project.

## Your expert facilitator Dr Shari Read

Dr Shari Read is an award-winning educator with a special focus on human-centred, transformation, transformational leadership and future-oriented workplaces. Her research focuses on understanding how effective leaders of transformation think, what they pay attention to and their ability to see things from different perspectives.
