Liveability

Prime Minister Malcolm Turnbull on the 20th September 2015 said:

Liveable, vibrant cities are absolutely critical to our prosperity … (it) is where most Australians live, it is where the bulk of our economic growth can be found. We often overlook the fact that liveable cities … are economic assets… (M)aking sure that Australia is a wonderful place to live in, that our cities and indeed our regional centres are wonderful places to live, is an absolutely key priority of every level of Government. Because the most valuable capital in the world today is not financial capital… (it's) human capital.

What is Liveability

Liveability is the sum of the factors that add up to a **community's quality of life**— including the built and natural environments, economic prosperity, social stability and equity, educational opportunity, and cultural, entertainment and recreation possibilities.
