1.0 Mark Christensen

As an award-winning teacher at QUT, Mark Christensen lectured in a variety of courses including Accounting and Finance.

He had a gift for analysing and presenting complex financial issues in a way that others could understand. Whether standing before a crowded lecture theatre or engaging with a small group, Mark could entertain and enable and motivate people to learn. A colleague observed: "Mark believed passionately that learning and teaching, particularly in the field of applied finance, should be practical, inspiring and, most importantly, fun".

Mark was a positive and inspiring person even during difficult times. He dealt courageously with his final illness and retained his "no worries" and "good as gold" perspective on life throughout. A favourite saying was "There are positives in everything, sometimes you just have to look extra hard to find them".
