Strategically Aligned
We work with you to understand your strategic objectives, to develop learning solutions that are aligned with your organisational goals.

Measurable
Through creating a solution that is entirely tailored for your business, quantifiable outcomes may include:

Value-Loaded
From fixed-price, off-the-shelf learning, to custom solutions, we offer a competitive service that is easily justifiable.

Professional developing is just the beginning. We also offer everything from graduate placements, to work integrated learning, research projects and more.

Accessible and Sustainable
Learning is accessible, flexible, transferrable, and sustainable within your organisation. It’s work-based learning that is meaningful and applicable to your workplace.

Programs can be scaled for geographic or cross-organisation reach. Learning is limitless.

Technology-Infused
Our digital learning framework and learner-centred approach means we always put the learner first, no matter where or how they study.

We provide learning experiences across a digital continuum that spans from digital-rich classrooms to fully online.

Immersive
We embrace extended reality (XR) and virtual reality (VR) technologies in our learning and teaching.

Go full screen and take a spin around some of the immersive 360° video productions.

Experience VR and XR at QUT

...easily accessed through innovative technology...

...with demonstrable return on investment, to drive savings, efficiency and retention of talent.
A collaborative approach

As your partner, we offer you an innovative approach and methodology to **co-design, co-develop** and **co-deliver** a program that leverages our expertise and experience in the development of capability.

Our rich engagement with industry and the public service, combined with QUT’s broad areas of real-world expertise and experience, allows us to work with you and your organisation to more effectively design and deliver skills and capabilities that are fit-for-purpose today and into the future.

We leverage and integrate intellectual capital from across the university to co-create high impact, custom education solutions with local, national and international corporate and government organisations, that are relevant, and encompass global trends and best practice.

We co-design with you, for you

As the agent for the whole university, our partnership model ensures the requisite experience is matched to the task at hand.

To support you in your endeavour and to provide consistency through the engagement, QUTeX will establish a co-design team, including a Lead Academic, Learning Designer(s), a dedicated Partnership Manager, and Client Service Team.

Relax. You’re in good hands. Our engagement model connects you with the best in the business, allowing you more time to focus on your desired business outcomes.

The Learning Designer(s) is a qualified ‘learning innovator’, equipped with the skills to curate, collate and disseminate learning resources that cater to the preferred learning style(s) of your team.

The Lead Academic will design and deliver your program based on the most up to date discipline content in collaboration with experts across the University.

Your dedicated Partnership Manager and the Client Service Team will be your one point of contact and team of support throughout. Fielding enquiries and supporting the your team and program participants through the engagement.
Learn from the best

Our pracademics are academically qualified with industry expertise, making them experts in translating business theory into practical learning solutions.

From transformation to wellness, from local to global, our world-class educators, coaches, industry experts and practitioners advance the public interest and generate solutions to the world’s most urgent and challenging issues.

In the classroom (virtual or face-to-face) they lead a variety of stimulating, thought-provoking sessions.

Regardless of the course or its duration, each one achieves a level of academic excellence and rigor you would expect from one of Australia’s leading universities.

Accessible and actionable learning

We prepare organisations to respond and to anticipate what is to come.

Our learning solutions make knowledge across every business discipline accessible to meet your leaders wherever they are. Together, we will co-design a solution specific to your goals, and tailor the experience to enhance the learning journey.

We have the capability to deliver high-quality online learning at scale utilising existing and evolving technology. QUT’s program design is situated on a digital learning continuum, ranging from a digitally enhanced face-to-face experience to fully online experiences.

Learning delivery options include:

<table>
<thead>
<tr>
<th>Digitally Enhanced</th>
<th>Delivered primarily face to face but enriched and enhanced with technology and digital design.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blended</td>
<td>Purposeful integration of active face to face elements with rich digital learning experiences. Increased flexibility for learners.</td>
</tr>
<tr>
<td>Mostly Online</td>
<td>Predominantly online delivery with opportunities for intensive face to face connections with the learning community.</td>
</tr>
<tr>
<td>Fully Online</td>
<td>Quality learning at a time and place determined by the learner. Connections occur through digital, virtual experiences.</td>
</tr>
</tbody>
</table>
Putting theory into practice

Experiential learning for better leading.

For organisations, experiential learning is a popular way to engage executives with real-world scenarios and challenges. The learning activities help executives internalise the key elements of research on leadership and executive development.

The benefits of experiential learning include:
• The ability to immediately apply knowledge
• Provide access to real-time coaching and feedback
• Promotion of teamwork and communication skills
• Development of reflective practice habits
• Receiving immediate results; and
• Having fun!

Sample challenges:

The Art Hunt
The Art Hunt is fun and fast-paced, unpredictable, and dynamic, as points change over time and according to other teams' actions. It also encourages strategy, abstract thinking, clear communication, planning, and adaptation, as the fastest team is not necessarily the winner and no strategy is guaranteed to bring success.

Race to the Top
The game dynamics in ‘Race to the top’ give teams a great deal of freedom to explore different strategies. They might choose clever bidding strategies, may take on debt by trading on their towers' eventual expected value, or might even profit by selling their services to other teams. The activity is also an excellent tool for exploring teamwork, group dynamics, and communication.

Robotic simulations for serious play

Another area being explored in education is the use of robots to enhance the interactivity and richness of the learning experience.

Developed for use with one of our partners, the Mars Rover Robot was used to assist participants to explore communicating between teams with limited information, particularly virtual teams working remotely. The aim was for the team to modify a single Lego rover to make it suitable for a retrieval task with communication issues with the team creating obstacles for the completion of the task.

Subsequent modified variations for other corporate clients has involved multiple rovers with each team competing to collect resources.

This modified version also explored strategy, working under pressure, and roles and responsibilities, as well as when competition can damage the collective good.

Learning outcomes included:
• High performance teamwork
• Ambiguity in information to reflect the real world
• Identifying and overcoming challenges
• Dealing with changing situations
• Working as one team for a common goal
• Agile processes
Be in great company

We have long-standing partnerships with some of Australia’s leading brands and organisations.

Some of our clients include…

“QUTeX provided Powerlink Queensland with a tailored program aimed at building enterprise leadership capability, instilling trust and alignment across our senior leadership team to create a high performing team.

The program has enabled the team to strengthen their relationships, foster greater collaboration across organisational issues and build our leadership capability to drive cultural transformation.”

Cathy Heffernan, Executive General Manager People and Corporate Services, Powerlink Queensland
Improving Ethical Standards Through Education for Morgans

A return to study has become a reality for stockbrokers and financial advisors across Australia in response to the requirements set by the Financial Adviser Standards and Ethics Authority (FASEA).

In a bid to build ethical standards through education, the FASEA Code of Ethics was developed to introduce ethical standards that go above existing legal requirements and encourage higher standards of behaviour and professionalism in the financial services industry. In response, Morgans partnered with QUTeX to design and deliver a customised version of FASEA’s mandatory ethics bridging course.

QUT’s Ethics and Professional Relationships bridging course was designed to help advisors comply with the FASEA ethics education requirements. The 12-week, course is fully supported and includes online directed learning through online webinars and builds a pathway for future learning, depending on the participant’s needs.

Participants benefit from the delivery of an intensive and rich learning experience by QUT’s qualified and industry experienced facilitators. The course will help individuals and participating teams develop their knowledge, satisfy FASEA’s education requirements and build networks and connections with their colleagues.

“Morgans values the importance of ethical financial advice for consumers. We wanted to make the most out of the Government’s financial services reforms and frame it as an opportunity for our advisers to enhance their knowledge. QUT has helped us to do that in a way that is relevant to the business, our advisers and our clients.” – Morgans Executive Brian Sheahan.

Everyday Coaching Skills for Better Conversations: Micro Learning for Government

With key responsibilities for workforce policy, strategy, leadership and organisational performance across the Queensland public service, the Public Service Commission (PSC) is an independent central agency of the Queensland Government.

The PSC wanted to provide a program to support the Leadership competencies for Queensland, fostering healthy workplaces initiative, that was easily accessible by every Queensland public sector employee - from Chief Executives to individual contributors, anywhere in Queensland, Australia or the world.

Co-developed by the Leadership Coaching Hub at QUT and the Queensland Public Service Commission, and co-designed with Queensland public sector agencies, Everyday Coaching skills for Better Conversations strongly aligns to Leadership competencies for Queensland and provides micro-learning guidance for learning coaching skills and experimenting with coaching moments.

The aim of this micro learning package is to support agencies to become places where everyone takes advantage of daily opportunities to support each other with their thinking and problem solving, using everyday coaching as a powerful way to connect in complex environments.

Creating a Future Ready Workforce with the Australian Army

In 2020 QUTeX became the preferred provider of a professional military education product for the Australian Army.

The Ryan Review (2016) proposed a number of recommendations to ensure that the Army was future-ready. Recognising that size and technology would not be an advantage in future conflict, a strategy was formulated around increasing intellectual and decision-making ability leading to the development of a new professional development initiative, COVE+.

In April 2020 the Graduate School of Business/QUTeX was successful in winning the contract for the first year of development of COVE+.

COVE+ is available at no cost to learners and is targeted at soldiers in the first 15 years of their Army service after which they typically attend military college for their specific military education. All serving Army personnel can choose units of general learning to benefit their professional career as well as their personal life. It is expected that participation in the program will enable participants to tackle a broader range of complex problems through improving critical thinking skills.

The goal is for Australia to be better prepared to outpace, out-maneuuvre, and out-think conventional and unconventional threats, and to create a truly future-ready workforce able to operate in an era of accelerated warfare.

Inspiring Leaders to be Visionaries for Western Downs Regional Council

In 2019, Western Downs Regional Council (WDRC) recognised they needed some help to tackle future-orientated problems. They were looking to upskill their staff in a rapid way, to think more innovatively, and to commence developing a coaching culture for leadership. More than that, they wanted to do something cutting edge and needed to ensure a quality educational experience, and so they chose to partner with QUTeX.

These discussions informed the program co-design process.

Our QUTeX team then immersed themselves in the Western Downs environment to enable us to really understand the issues they were facing. The education response was then tailored to meet their needs, and delivered in their language.

The program provided the participants, and the organisation, the ability to see new opportunities that were open to them. The program aimed to bring in an external agent to foster those ideas, the transition in idea generation confirmed our ability to stimulate new ways of working and thinking.

Western Downs now has a highly engaged workforce focused on the issues of tomorrow not just what is coming through the door today.
A value-loaded investment

An investment in the development of your team and organisation through QUTeX, is more than just an investment in quality content delivered by respected university educators.

You will also benefit from a value-loaded portfolio of services, including:

**Leadership Profiling**
All QUTeX faculty and facilitators are accredited in The Leadership Circle (TLC) 360 assessment instrument, which we believe to be the most robust, well-researched leadership development profile currently in the market.

**World-class Venue**
QUT offers state-of-the-art facilities at the Gardens Point campus in the heart of Brisbane, and the QUT Executive Education Centre in Deakin, Canberra; with areas specifically designed for corporate client engagement and education.

**Interactive Presentations and Keynotes**
Our experts in leadership, complexity, systems thinking, and evidence-based decision making will challenge the program participants to think differently.

**Q&A Leaders’ Panel**
The Q&A Leaders’ Panel, hosted by a QUT facilitator, allows program participants to hear from and present questions to industry leaders and discipline experts from QUT.

Professional Advantage Package

Professional Advantage is a corporate subscription to QUTeX Professional Programs, providing you with a generous discount off the standard program registration rate, and the flexibility to choose how and when your learning ‘seats’ are allocated throughout the year.

The package provides a ~30% discount on short courses and is traditionally used by our partners to provide greater access across the business to short course leadership development.

50 and 100 learning seat options available.

Mentoring
Informed by our acclaimed Leadership through Coaching and Mentoring (LCAM) practice, mentors can develop the skills to guide their team in this significant personal and professional growth opportunity.

Graduate Certificate in Business
Enterprise Leadership is a flexible, work-based, blended learning program that develops leadership skills and supports career development within complex public and private sector environments. There are 16 modules for you to choose from, allowing the program to be highly customised to suit your needs.

Pathways to Masters
Upon completion of the Graduate Certificate in Business (Enterprise Leadership), participants can apply to receive academic credit into the suite of QUT MBA courses.

Micro Learning Online Courses
QUTeX has a catalogue of ‘asynchronous’ courses, which means you can access them anytime, anywhere, at a pace that suits you. They range from 1 hour of learning to 40 hours of learning.
