Year	2023
QUT code	ID18
CRICOS	096573B
Duration (full-time)	5 years
Duration (part-time domestic)	10 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$33,200 per year full-time (96 credit points)
Total credit points	480
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; Dr Paul Donehue (Urban Development)
Discipline Coordinator	Sarah Briant (Architecture); Jason Gray (Quantity Surveying and Cost Engineering) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Urban Development (Honours)(Quantity Surveying and Cost Engineering). You will study design and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Architecture major, you must complete a total of 240 credit points of core units comprising:

- Architecture, Impact Lab and Design foundation units - 192 credit points
- four units completed as part of the Quantity Surveying and Cost Engineering component - 48 credit points**

Urban Development component

The Quantity Surveying and Cost Engineering major component requires completion of 288 credit points (24 units) consisting of:

- 72 credit points of core Urban Development units, including 12cps professional practice unit and 12cps research methods unit.
- 192 credit points of Quantity Surveying and Cost Engineering discipline units 24 credit points capstone project.

**Four units are completed as part of the Quantity Surveying and Cost Engineering component and will contribute to the completion requirements of both courses.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Urban Development (Honours)(Quantity Surveying and Cost Engineering). You will study design and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Year	2023
QUT code	ID18
CRICOS	096573B
Duration (full-time)	5 years
Duration (part-time domestic)	10 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$33,200 per year full-time (96 credit points)
Total credit points	480
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; Dr Paul Donehue (Urban Development)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

International Entry requirements

Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning). You will study design and urban development units in your first year, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Landscape Architecture major, you must complete a total of 192 credit points of core units comprising:

- Landscape Architecture, Impact Lab, Design foundation units and Design specialisation units - 192 credit points
- two units completed as part of the Urban and Regional Planning component - 24 credit points**

Urban development component

The Urban and Regional Planning major component requires completion of 288 credit points (24 units) consisting of:

- 72 credit points of core Urban

Development units, including 12 cps professional practice unit and 12 cps research methods unit.

- 192 credit points of Urban and Regional Planning discipline units
- 24 credit points capstone project.

**Two units are completed as part of the Urban and Regional Planning component and will contribute to the completion requirements of both courses.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning). You will study design and urban development units in your first year, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Landscape Architecture major, you must complete a total of 192 credit points of core units comprising:

- Landscape Architecture, Impact Lab, Design foundation units and Design specialisation units - 192 credit points

Domestic Course structure

In order to complete this course, you must complete a total of 528 credit points, made up of 240 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first year and for the remainder of this course you will concentrate on engineering studies.

Design component

You will complete:

- four school-wide impact lab units (48 credit points)
- four architecture specialisation units (48 credit points)
- and the architecture major (144 credit points), including: four shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and two core options (24 credit points)
- eight engineering major units (120 credit points)

credit points)

- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering
- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Year	2023
QUT code	ID20
CRICOS	096575M
Duration (full-time)	4 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,500 per year full-time (96 credit points)
International fee (indicative)	2023: \$35,400 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; Dr Luke Nothdurft (Science)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 192 credit points from the Bachelor of Science. You will undertake the two components of the double degree concurrently.

Design component

You will complete:

- four school-wide impact lab units (48 credit points)
- the landscape architecture major (144 credit points), including: four shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Science component

You will complete seven core units (60 credit points) which includes 6 credit point units, and a science major (132 credit points) in one of the following

study areas:

- biological sciences
- chemistry
- earth science
- environmental science
- physics

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 192 credit points from the Bachelor of Science. You will undertake the two components of the double degree concurrently.

Design component

You will complete:

- four school-wide impact lab units (48 credit points)
- the landscape architecture major (144 credit points), including: four shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Year	2023
QUT code	ID21
CRICOS	096576K
Duration (full-time)	4.5 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$11,800 per year full-time (96 credit points)
International fee (indicative)	2023: \$32,500 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; Director of Studies, QUT Business School
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

And for Accountancy, Finance, Financial Planning, Economics and Marketing majors: General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

International Entry requirements

Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 432 credit points, made up of 192 credit points from the Bachelor of Business and 240 credit points from the Bachelor of Design (Architecture). You will undertake the two components of the double degree concurrently.

Business component

You must complete:

- business core units (96 credit points)
- a business major (96 credit points), choosing from:
 - accounting
 - advertising
 - economics
 - finance
 - financial planning
 - human resource management
 - international business
 - management
 - marketing
 - public relations.

Accounting students will undertake 6 specified business core units and 10 accountancy major core units in order to meet professional recognition requirements.

Design component

You will complete:

- four school-wide impact lab units (48 credit points)
- four architecture specialisation units (48 credit points)
- the architecture major (144 credit points), which incorporates four shared foundation units (48 credit points) and eight units (96 credit points) from the discipline.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 432 credit points, made up of 192 credit points from the Bachelor of Business and 240 credit points from the Bachelor of Design (Architecture). You will undertake the two components of the double degree concurrently.

Business component

You must complete:

Unit from the other degree component	
Notes	
Select a Business Core Option Unit or a Marketing Stream Unit appears in this structure four times to provide flexibility for when students can undertake their elected two (2) Business Core Option Units and two (2) Marketing Stream units	
Marketing Streams	
Select two units (24 credit points) from the Marketing Streams. Units may be selected from one stream or from multiple streams.	
Consumer Insight Through Data Stream	
AMB305	Analysis for Consumer Insights
AMB306	Designing Consumer Research
Marketing Through Innovation Stream	
AMB211	Branding for the Real World
AMB251	Designing Innovative Goods and Services
Marketing Across Borders Stream	
AMB120	Bridging Cultures
AMB336	International Marketing
Leisure Industry Marketing Stream	
AMB207	Entertainment Marketing in a Digital World
AMB209	Designing a Competitive Tourism Strategy
Social Change Through Marketing Stream	
AMB255	Avoiding the Dark Side: Marketing, Ethics and Society
AMB355	Marketing Behavioural and Social Change
Business Core Option Units	
Select two units from the following Business Core Options list:	
BSB305	Undergraduate Business Internship
BSB151	Business Law and Governance
BSB152	Financial Management
BSB130	Social Enterprises
BSB131	Applied Business Analytics
BSB009	Experiential Learning: Innovation, Ideas and

Enterprise Skills

Year 4 Semester 2 (February)	
AMB399	Capstone Experience
Select a Business Core Option Unit	
Unit from other degree component	
Unit from other degree component	

Year	2023
QUT code	IX59
CRICOS	084925D
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$12,200 per year full-time (96 credit points)
International fee (indicative)	2023: \$34,600 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Director of Studies, QUT Business School; or Dr Jacob Coetzee (Engineering)
Discipline Coordinator	AskQUT +61 7 3138 2000 bus@qut.edu.au; sef.enquiry@qut.edu.au; askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in IX59, students are required to complete 288 credit points of course units, as outlined below:

- First year: Four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: One (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points)

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp

To complete the Bachelor of Business students will complete 192 credit points of

course units, as outlined below:

- eight Business School core units (96 credit points) *
- eight major core units (96 credit points)

*Accounting major students complete six business core units and 10 accounting major units to allow them to complete professional requirements.

International Course structure

To graduate with a Bachelor of Engineering (Honours) in IX59, students are required to complete 288 credit points of course units, as outlined below:

- First year: Four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: One (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points)

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp

To complete the Bachelor of Business students will complete 192 credit points of course units, as outlined below:

- eight Business School core units (96 credit points) *
- eight major core units (96 credit points)

*Accounting major students complete six business core units and 10 accounting major units to allow them to complete professional requirements.

Semester 1 (February) commencements	
Year 1 - Semester 1	
EGB113	Energy in Engineering Systems
MZB125	Introductory Engineering Mathematics
OR	
MXB161	Computational Explorations
Year 1 - Semester 2	
EGB100	Engineering Sustainability and Professional Practice
MZB126	Engineering Computation
Year 2 - Semester 1	
EGB111	Foundation of Engineering Design
EGB121	Engineering Mechanics
Year 2 - Semester 2	

EGB120	Foundations of Electrical Engineering
Foundation Unit Option	
Year 3 - Semester 1	
CAB202	Microprocessors and Digital Systems
EGB242	Signal Analysis
Year 3 - Semester 2	
EGB211	Dynamics
EGB345	Control and Dynamic Systems
Year 4 - Semester 1	
EGB220	Mechatronics Design 1
Intermediate Mechanical Option Unit	
Year 4 - Semester 2	
EGB320	Mechatronics Design 2
Intermediate Electrical Option Unit	
Year 5 - Semester 1	
EGH400 -1	Research Project 1
EGH404	Research in Engineering Practice
EGH419	Mechatronics Design 3
EGH445	Modern Control
Year 5 - Semester 2	
EGH400 -2	Research Project 2
Advanced Mechanical Option Unit	
EGH446	Autonomous Systems
Advanced Electrical Option Unit

BSB009	Experiential Learning: Innovation, Ideas and Enterprise Skills

Year	2023
QUT code	SE05
CRICOS	0102144
Duration (full-time)	5 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$36,700 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Dr Paul Donehue (Urban Development majors); Dr Graham Johnson (Science majors)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12

credit point work placement unit and a 12 credit point research methods unit.

- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units which includes 6 credit point units, and one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

International Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12 credit point work placement unit and a 12 credit point research methods unit
- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units which includes 6 credit point units, one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x Advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

Year	2023
QUT code	SE60
CRICOS	084923F
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,100 per year full-time (96 credit points)
International fee (indicative)	2023: \$39,800 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Associate Professor Wayne Kelly (Information Technology)
Discipline Coordinator	Dr Thomas Rainey (Chemical Process), Associate Professor Jonathan Bunker (Civil); Dr Matthew McKague (Computer & Software Systems); Dr Jacob Coetzee (Electrical); Dr Aaron Mcfadyen (Electrical & Aerospace); Dr Wim Dekkers/Professor Ted Steinberg (Mechanical); Associate Professor Luis Alvarez (Mechatronics); Associate Professor Devakar Epari (Medical); Dr Jinglan Zhang (Computer Science); and Dr Erwin Fieft (Information Systems) +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- six (6) core units (72 credit points)
- one (1) block of ten (10) major units (120 credit points)

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- six (6) core units (72 credit points)
- one (1) block of ten (10) major units (120 credit points)

Sample Structure

PLEASE NOTE:

For students taking the **IT: Computer Science major with Engineering: Computer & Software Systems major**, please refer to the Engineering & IT Units: Computer & Software Systems Major with Computer Science Major (Feb)/(July) structure.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

Code	Title
Semester 1 (February) commencements	
Year 2, Semester 1	
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
IT Core Unit Option	
IT Core Unit Option	
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
IT Core Unit Option	
CAB201	Programming Principles
Year 2, Semester 2	
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
CAB201	Programming Principles
CAB202	Microprocessors and Digital Systems
(Note: Select CAB202 from the Computer Science Major Option list - this is compulsory in the IT component if majoring in these engineering majors.)	
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
IT Core Unit Option	
Computer Science Major Unit Option 1	
(Note: CAB202 will be available as core in the engineering component if majoring in these engineering majors.)	
Year 3, Semester 1	
CAB203	Discrete Structures
CAB302	Software Development
Year 3, Semester 2	
CAB222	Networks
Note: from 2023, CAB303 is replaced by CAB222. CAB303 will still count towards this Major, if you have completed this unit previously.	
IFB295	IT Project Management
Year 4, Semester 1	
CAB301	Algorithms and Complexity
IFB398	Capstone Project (Phase 1)
Year 4, Semester 2	
IFB399	Capstone Project (Phase 2)
Semester 2 (July) commencements	
Year 2, Semester 2	
CAB201	Programming Principles
IT Core Option	
Year 3, Semester 1	
CAB203	Discrete Structures
CAB302	Software Development

CAB202	Microprocessors and Digital Systems
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
Computer Science Major Unit Option 1	
Year 3, Semester 2	
CAB222	Networks
Note: from 2023, CAB303 is replaced by CAB222. CAB303 will still count towards this Major, if you have completed this unit previously.	
IFB295	IT Project Management
Year 4, Semester 1	
CAB301	Algorithms and Complexity
CAB302	Software Development
Year 4, Semester 2	
IFB398	Capstone Project (Phase 1)
IT Core Unit Option	
OR	
Computer Science Major Unit Option 2	
Year 5, Semester 1	
IFB399	Capstone Project (Phase 2)
Computer Science Major Unit Option 2	
OR	
IT Core Unit Option	
(Select IT Core Unit Option here, if not selected previously.)	
Computer Science Major Unit Options	
CAB202	Microprocessors and Digital Systems
(CAB202 is CORE unless your Engineering major is in Computer & Software Systems, Electrical, Electrical & Aerospace or Mechatronics in which you will complete CAB202 in your Engineering component.)	
DSB100	Fundamentals of Data Science
CAB320	Artificial Intelligence
CAB340	Cryptography
CAB401	High Performance and Parallel Computing
CAB402	Programming Paradigms
CAB403	Systems Programming
CAB420	Machine Learning
CAB430	Data and Information Integration
CAB432	Cloud Computing
CAB440	Network and Systems Administration

Year	2023
QUT code	SE80
CRICOS	084924E
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$7,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$38,600 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Dr Luke Nothdurft (Science)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme>](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete

192 credit points of course units, as outlined below:

- 7 Core units (60 credit points) which includes 6 credit point units, and a core option unit (12 credit points) selected from an approved list.
- 11 Major units (132 credit points)

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete 192 credit points of course units, as outlined below:

- 7 Core units (60 credit points) which includes 6 credit point units, and a core option unit (12 credit points) selected from an approved list.
- 11 Major units (132 credit points)

Domestic Entry requirements

Advanced Standing Entry
Applicants must have a minimum of 264 credit points from core and/or architecture major units in this course.

All other applicants will need to apply for the [Bachelor of Design \(Architecture\)](#).

Selection ranks

You will be considered solely on the basis of the selection ranks from all of your prior diploma and higher studies you may have undertaken. Your other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

[Find out more about how to Apply with Higher Education Study](#)

International Entry requirements

Applicants must have a minimum of 264 credit points of advanced standing from core and/or Architecture major units in this course.

All other applicants will need to apply for the [Bachelor of Design \(Architecture\)](#).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Additional Costs

There are requirements that you will need to meet as a student in this course. Information is available from the [Additional course requirements and costs](#) website.

Pathways to Further Study

On successful completion of this course, you will be eligible to apply for entry into the Master of Design (Urban Design) or the Master of Design (Research), provided you have met entry requirements.

Professional Recognition

This course, along with the following Master of Architecture course, has received full accreditation from the Architects Accreditation Council of Australia, and full recognition from the Australian Institute of Architects.

Domestic Course structure Customise your degree

Your architectural studies design course consists of 18 units in your primary major and four units that are common to all six design majors (architectural studies, fashion, industrial design, interactive and visual design, interior design or landscape architecture).

An additional eight units are taken outside your primary major. After studying for a year you can:

- choose a second major# (eight units from any approved QUT degree), or
- choose two minors (a minor is a specific set of four units drawn from courses throughout QUT), or
- choose one minor and four electives.

Minors and majors allow you to tailor your studies to suit your interests and career aspirations. Minors give you breadth of knowledge from two other areas and a second major provides depth in one area. This means eight units of your course (one quarter of your degree) are taken from outside your primary major. You'll work alongside students from other disciplines because that is how it will be when you graduate and work in the real world of design. The possibilities are almost endless.

Here are some examples that might inspire ideas:

- an architecture student could take a minor in interior design and a work integrated learning minor to gain professional industry experience
- a landscape architecture student could take a language minor such as Italian to help them work overseas
- an interior design student could take a second major in industrial design to aid their ambition to design and manufacture their own range of office furniture
- an industrial design student could take a second major in mechanical or electrical engineering to give them a deeper understanding of manufacturing and production
- a fashion student could take a minor in business and another in interior design to help meet their dream of

launching their own concept fashion store

- an interactive and visual design student could take a second major in advertising or marketing and work as a designer for a leading digital agency.

And remember - your second major or minors could be in film, creative writing, music, visual arts, drama or other disciplines across QUT. #

Your course

Year 1

- three foundation units covering design, design history and sustainability
- two units in introductory core architecture design studios
- first unit dealing with place making

Year 2

- two design studio units covering the process of design, dwelling, tectonics and public spaces
- units in integrated technology (climate) and history/theory (culture and space)
- study history/theory (architecture in the twentieth century) and architectural technology (building construction)
- first two units of your second major or first minor

Year 3

- units focusing on digital tools and sustainability
- develop knowledge of technology integration (structure)
- study history/theory (architecture and the city), and architectural technology (building services)
- three units in your second major or minors

Year 4

- address the context of buildings in urban settings
- design project integrating your accumulated knowledge
- complete your second major or your second minor

Masters course

This course is designed to be followed by QUT's one-year Master of Architecture. In addition, to work as a registered architect in Australia you will need to:

- have completed two years of practical work experience (one year of which may be during your studies)
- successfully complete the Architectural Practice Examination
- apply for registration to the Architects' Board in each state or territory in which you wish to practise.

Study overseas

Study overseas while gaining credit towards your QUT creative industries degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course. Saving your electives for exchange will allow you the most flexibility. For more information, visit [QUT student exchange](#).

Pathways to Further Study

On successful completion of this course, you will be eligible to apply for entry into the Master of Design (Urban Design) or the Master of Design (Research), provided you have met entry requirements.

Professional Recognition

This course has accreditation from the Australian Institute of Landscape Architects (AILA). Graduates can apply for membership of this professional organisation.

Domestic Course structure Customise your degree

Your landscape architecture design course consists of 17 units in your primary major and four units that are common to all six design majors (architectural studies, fashion, industrial design, interactive and visual design, interior design or landscape architecture).

An additional eight units are taken outside your primary major. After studying for a year you can:

- choose a second major# (eight units from any approved QUT degree), or

- choose two minors (a minor is a specific set of four units drawn from
- courses throughout QUT), or
- choose one minor and four electives.

Minors and majors allow you to tailor your studies to suit your interests and career aspirations. Minors give you breadth of knowledge from two other areas and a second major provides depth in one area.

This means eight units of your course (one quarter of your degree) are taken from outside your primary major. You'll work alongside students from other disciplines because that is how it will be when you graduate and work in the real world of design. The possibilities are almost endless. Here are some examples that might inspire ideas:

- an architecture student could take a minor in interior design and a work integrated learning minor to gain professional industry experience
- a landscape architecture student could take a language minor such as Italian to help them work overseas
- an interior design student could take a second major in industrial design to aid their ambition to design and manufacture their own range of office furniture
- an industrial design student could take a second major in mechanical or electrical engineering to give them a deeper understanding of manufacturing and production
- a fashion student could take a minor in business and another in interior design to help meet their dream of launching their own concept fashion store
- an interactive and visual design student could take a second major in advertising or marketing and work as a designer for a leading digital agency.

And remember - your second major or minors could be in film, creative writing, music, visual arts, drama or other disciplines across QUT.#

Your course

Year 1

- set the groundwork for your landscape design studies
- three foundation units covering design, design history and sustainability
- two units of core landscape design studios

Bachelor of Design (Honours) (Landscape Architecture)

- units in plant studies, landscape construction and visual communication

Year 2

- two key landscape design studios
- study place theory, environmental psychology and site planning
- explore landscape ecology and physical geography
- units in landscape construction and landscape horticulture
- two units from your second major or minor

Year 3

- complete four units for your second major or minor
- two landscape design studios
- focus on planting design and detailed design resolution
- combine design with landscape construction
- critique the history of landscape design and contemporary landscape design trends

Year 4

- further expand your design expertise
- study two units in advanced landscape design
- study a wide range of urban and regional sites and scenarios
- complete units in your chosen second major/minor
- study professional practice and law, and research methods

Second degree

Undertaking a second major in one of the six design disciplines also gives you the option of obtaining a second degree*.

After graduation, you can return to complete the remaining 12 units (or equivalent) from your second major to obtain a second qualification. This is usually undertaken part time over two years while working.

Note: This is not a double degree because it is not undertaken simultaneously with the first degree.

Example

A student completes a Bachelor of Design (Honours) (Industrial Design) with a second major in interactive and visual design.

They can then return to complete units in interactive and visual design and graduate with a second design degree in interactive and visual design.

* To pursue a second design degree, this second major must be an approved set of eight units from within a Bachelor of Design (Honours) primary major.

The choice of second majors may be limited in some disciplines.

Study overseas

Study overseas while gaining credit towards your QUT creative industries degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course. Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for all primary majors in this course.

Complementary Studies

You have the opportunity to undertake a second major or two minors. A second major is a set of eight units (96 credit points) in the same discipline. A minor is a set of four units (48 credit points) in the same discipline. You will select your primary major, second major and/or minors after the completion of your first year.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Honours) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Course Design

Your QUT Bachelor of Engineering (Honours) degree consists of 384 credit points (32 units) arranged as follows:

(a) First Year: Four (4) core units 48cp + two (2) Discipline Foundation units 24cp + two (2) option units 24cp (96 credit points)

(b) Major: One (1) block of eight (8) major units 96cp plus eight (8) Honours level units 96cp (192 credit points)

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x Advanced major units 60cp

Available Majors are:

- Civil
- Computer and Software Systems
- Electrical
- Electrical and Aerospace
- Mechatronics
- Mechanical
- Medical, or
- Process

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points)

Pathways to Further Study

The (EN01) Bachelor of Engineering (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant Masters and/or Doctoral level programs.

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Diploma in Engineering

QUT College Diploma in Engineering graduates will automatically receive an offer to start the Bachelor of Engineering (Honours) within three weeks after completion of the diploma. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student.

[Find out more about the QUT College Diploma in Engineering](#)

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Advanced Diploma of Engineering](#)

Upon completion of the TAFE-Qld courses you will be able to enrol at QUT. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student if you complete the advanced diploma

More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Complementary Studies

You will have the opportunity to undertake either a 2nd major or two minors.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Honours)(Process) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

- (a) Core units (96cp) consisting of 60 cp of first year units:
- 3 core Engineering units (36cp)
 - MZB127 Engineering Mathematics and Statistics (12cp)
 - An introductory unit in Engineering Mathematics (12cp) chosen from a

Bachelor of Engineering (Honours) (Chemical Process)

list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

- Research methods 12cp
- Capstone Project 24 cp (Standard progression is EGH400-1 and EGH400-2. EGH408 requires Study Area Coordinator approval.)

(b) Major: One (1) block of eleven (11) major units (132cp) plus five (5) Advanced Major Honours level units 60cp (192 credit points)

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points). In the case where students complete 2 minors, at least one must be from the specified list for the Study Area A.

International Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)

Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$6,900 per year full-time (96 credit points)
International fee (indicative)	2023: \$39,500 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	askqut@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Diploma in Engineering

QUT College Diploma in Engineering graduates will automatically receive an offer to start the Bachelor of Engineering (Honours) within three weeks after completion of the diploma. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student.

[Find out more about the QUT College Diploma in Engineering](#)

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Advanced Diploma of Engineering](#)
- [Associate Degree in Civil Engineering](#)

Upon completion of the TAFE-Qld courses you will be able to enrol at QUT. You will also automatically receive

- 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student if you complete the advanced diploma
- Up to 1.5 years (144 credit points) credit transfer and be able to complete the degree in 2.5 to 3 years as a full-time student if you complete the associate degree

More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Complementary Studies

You will have the opportunity to undertake either a 2nd major or two minors.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Honours)(Civil) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of

Bachelor of Engineering (Honours) (Civil)

course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)
- An introductory unit in Engineering Mathematics (12cp) chosen from a list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

- Research methods 12cp
- Capstone Project 24 cp (Standard progression is EGH400-1 and EGH400-2. EGH408 requires Study Area Coordinator approval.)

(b) Major: One (1) block of eleven (11)

major units (132cp) plus five (5)

Advanced Major Honours level units 60cp (192 credit points)

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points). In the case where students complete 2 minors, at least one must be from the specified list for the Study Area A.

International Course structure

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Diploma in Engineering

QUT College Diploma in Engineering graduates will automatically receive an offer to start the Bachelor of Engineering (Honours) within three weeks after completion of the diploma. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student.

[Find out more about the QUT College Diploma in Engineering](#)

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Advanced Diploma of Engineering](#)

Upon completion of the TAFE-Qld courses you will be able to enrol at QUT. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student if you complete the advanced diploma

More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3

& 4, C)

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Complementary Studies

You will have the opportunity to undertake either a 2nd major or two minors.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Honours)(Computer and Software Systems) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

- (a) Core units (96cp) consisting of 60 cp of first year units:
- 3 core Engineering units (36cp)
 - MZB127 Engineering Mathematics and Statistics (12cp)
 - An introductory unit in Engineering Mathematics (12cp) chosen from a

Bachelor of Engineering (Honours) (Computer and Software Systems)

list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

- Research methods 12cp
- Capstone Project 24 cp (Standard progression is EGH400-1 and EGH400-2. EGH408 requires Study Area Coordinator approval.)

(b) Major: One (1) block of eleven (11) major units (132cp) plus five (5) Advanced Major Honours level units 60cp (192 credit points)

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points). In the case where students complete 2 minors, at least one must be from the specified list for the Study Area A.

International Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)
- An introductory unit in Engineering Mathematics (12cp) chosen from a list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Diploma in Engineering

QUT College Diploma in Engineering graduates will automatically receive an offer to start the Bachelor of Engineering (Honours) within three weeks after completion of the diploma. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student.

[Find out more about the QUT College Diploma in Engineering](#)

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Advanced Diploma of Engineering](#)

Upon completion of the TAFE-Qld courses you will be able to enrol at QUT. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student if you complete the advanced diploma

More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3

& 4, C)

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Complementary Studies

You will have the opportunity to undertake either a 2nd major or two minors.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Honours)(Electrical) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)
- An introductory unit in Engineering Mathematics (12cp) chosen from a

Bachelor of Engineering (Honours) (Electrical)

list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

- Research methods 12cp
- Capstone Project 24 cp (Standard progression is EGH400-1 and EGH400-2. EGH408 requires Study Area Coordinator approval.)

(b) Major: One (1) block of eleven (11) major units (132cp) plus five (5) Advanced Major Honours level units 60cp (192 credit points)

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points). In the case where students complete 2 minors, at least one must be from the specified list for the Study Area A.

International Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)
- An introductory unit in Engineering Mathematics (12cp) chosen from a list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Diploma in Engineering

QUT College Diploma in Engineering graduates will automatically receive an offer to start the Bachelor of Engineering (Honours) within three weeks after completion of the diploma. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student.

[Find out more about the QUT College Diploma in Engineering](#)

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Advanced Diploma of Engineering](#)

Upon completion of the TAFE-Qld courses you will be able to enrol at QUT. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 3 years as a full-time student if you complete the advanced diploma

More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3

& 4, C)

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Complementary Studies

You will have the opportunity to undertake either a 2nd major or two minors.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Honours)(Mechatronics) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)
- An introductory unit in Engineering Mathematics (12cp) chosen from a

Bachelor of Engineering (Honours) (Mechatronics)

list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

- Research methods 12cp
- Capstone Project 24 cp (Standard progression is EGH400-1 and EGH400-2. EGH408 requires Study Area Coordinator approval.)

(b) Major: One (1) block of eleven (11) major units (132cp) plus five (5) Advanced Major Honours level units 60cp (192 credit points)

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points). In the case where students complete 2 minors, at least one must be from the specified list for the Study Area A.

International Course structure

To graduate with a Bachelor of Engineering (Honours), students are required to complete 384 credit points of course units, as outlined below:

(a) Core units (96cp) consisting of 60 cp of first year units:

- 3 core Engineering units (36cp)
- MZB127 Engineering Mathematics and Statistics (12cp)
- An introductory unit in Engineering Mathematics (12cp) chosen from a list of two units dependant on mathematical preparedness

and 36 cp of Honours units consisting of:

- Research methods 12cp
- Capstone Project 24 cp (Standard progression is EGH400-1 and EGH400-2. EGH408 requires Study Area Coordinator approval.)

(b) Major: One (1) block of eleven (11) major units (132cp) plus five (5) Advanced Major Honours level units 60cp (192 credit points)

(c) Complementary Studies: 1 x Second Major (8 unit set) or 2 x Minor (4 unit set each) from the options specified for your chosen major. (96 credit points). In the case where students complete 2 minors, at least one must be from the specified list for the Study Area A.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Sample Structure

Code	Title
First semester, Feb and July entry	
EGB101	Engineering Design and Professional Practice
EGB102	Fundamentals of Engineering Science
EGB103	Computing and Data for Engineers
MZB125	Introductory Engineering Mathematics
OR	
MXB161	Computational Explorations
All students must enrol in MZB125 in the first instance. Students who have completed QLD Specialist Mathematics or equivalent and who wish to switch their enrolment to MXB161, must pass the MXB161 Requisite self-evaluation test to request a prerequisite waiver to enrol in MXB161.

Year	2023
QUT code	ID14
CRICOS	096569J
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,200 per year full-time (96 credit points)
International fee (indicative)	2023: \$33,000 per year full-time (96 credit points)
Total credit points	480
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Program Director, School of Design; phone +61 7 3138 2000; email: askqut@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Industrial Design) and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first four years, and concentrate on engineering studies for the remainder of this course.

Design component

You will complete:

- four school-wide Impact Lab units (48 credit points)
- the industrial design major (144 credit points), including: four shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and two core options (24 credit points)
- eight engineering major units (96 credit points)
- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering
- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

Study overseas while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Industrial Design) and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first four years, and concentrate on engineering studies for the remainder of this course.

Design component

You will complete four school-wide Impact Lab units (48 credit points) and the industrial design major (144 credit points) which incorporates four shared foundation units (48 credit points) and eight units (96 credit points) from the discipline.

Bachelor of Design (Industrial Design)/Bachelor of Engineering (Honours)

Engineering component

You will complete four core units (48 credit points), two core option units (24 credit points), two discipline foundation units (24 credit points), eight engineering major units (96 credit points) and eight engineering honours units (96 credit points). You will choose a major from Chemical Process, Civil, Computer and Software Systems, Electrical, Electrical and Aerospace, Mechatronics, Mechanical or Medical.

Study overseas

Study overseas while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Year	2023
QUT code	ID14
CRICOS	096569J
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2023: CSP \$8,200 per year full-time (96 credit points)
International fee (indicative)	2023: \$33,000 per year full-time (96 credit points)
Total credit points	480
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Program Director, School of Design; phone +61 7 3138 2000; email: askqut@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first four years, and for the remainder of this course you will concentrate on engineering studies.

Creative Industries component

Your creative industries studies will

include:

- a design major (144 credit points), including four shared foundation units (48 credit points) and 96 credit points from the interaction design discipline
- four school-wide impact lab units (48 credit points).

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and two core options (24 credit points)
- eight engineering major units (96 credit points)
- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering
- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

Study overseas while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first four years and for the remainder of this course you will concentrate on engineering studies.

Creative Industries component

Your creative industries studies will include:

- a design major (144 credit points), including four shared foundation units (48 credit points) and 96 credit points from the interaction design discipline
- four school-wide impact lab units (48 credit points).

Bachelor of Design (Interaction Design)/Bachelor of Engineering (Honours)

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and two core options (24 credit points)
- one block of 10 major units (120 credit points)
- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering
- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

Study overseas while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Year	2023
QUT code	ID14
CRICOS	096569J
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,200 per year full-time (96 credit points)
International fee (indicative)	2023: \$33,000 per year full-time (96 credit points)
Total credit points	480
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; phone +61 7 3138 2000; email: askqut@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first four years, and concentrate on engineering studies for the remainder of this course.

Design component

You will complete:

- four school-wide Impact Lab units (48 credit points)
- the landscape architecture major (144 credit points), including: our shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and

- two core options (24 credit points)
- eight engineering major units (96 credit points)
- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering
- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

Study overseas while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first four years, and concentrate on engineering studies for the remainder of this course.

Design component

You will complete:

- four school-wide Impact Lab units (48 credit points)
- the landscape architecture major (144 credit points), including: our shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and two core options (24 credit points)
- one block of 10 major units (120 credit points)
- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering

Bachelor of Design (Landscape Architecture)/Bachelor of Engineering (Honours)

- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

Study overseas while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Discipline Coordinator	Sarah Briant (Architecture); Dr Melissa Teo (Construction Management) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Assumed knowledge

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Urban Development (Honours)(Construction Management). You will study design and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Architecture major, you must complete a total of 240 credit points of core units comprising:

- Architecture, Impact Lab and Design foundation units - 192 credit points
- four units completed as part of the Construction Management component - 48 credit points**

Urban Development component

The Construction Management major component requires completion of 288 credit points (24 units) consisting of:

- 72 credit points of core Urban Development units, including 12cps professional practice unit and 12cps research methods unit.
- 192 credit points of Construction Management discipline units
- 24 credit points capstone project.

**Four units are completed as part of the Construction Management component and will contribute to the completion requirements of both courses.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Urban Development (Honours)(Construction Management). Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Urban Development (Honours)(Quantity Surveying and Cost Engineering). You will study design and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Architecture major, you must complete a total of 240 credit points of core units comprising:

- Architecture, Impact Lab and Design foundation units - 192 credit points
- four units completed as part of the Quantity Surveying and Cost Engineering component - 48 credit points**

Urban Development component

The Quantity Surveying and Cost Engineering major component requires completion of 288 credit points (24 units) consisting of:

- 72 credit points of core Urban Development units, including 12cps professional practice unit and 12cps research methods unit.
- 192 credit points of Quantity Surveying and Cost Engineering discipline units 24 credit points capstone project.

**Four units are completed as part of the Quantity Surveying and Cost Engineering component and will contribute to the completion requirements of both courses.

Study overseas

Study overseas while gaining credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Year	2023
QUT code	ID18
CRICOS	096573B
Duration (full-time)	5 years
Duration (part-time domestic)	10 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$33,200 per year full-time (96 credit points)
Total credit points	480
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; Dr Paul Donehue (Urban Development)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning). You will study design and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Architecture major, you must complete a total of 240 credit points of core units comprising:

- Architecture, Impact Lab and Design foundation units - 192 credit points
- four units completed as part of the Urban and Regional Planning component - 48 credit points**

Urban Development component

The Urban and Regional Planning major component requires completion of 288 credit points (24 units) consisting of:

- 72 credit points of core Urban Development units, including 12cps professional practice unit and 12cps research methods unit.
- 192 credit points of Urban and Regional Planning discipline units
- 24 credit points capstone project.

**Four units are completed as part of the Urban and Regional Planning component and will contribute to the completion requirements of both courses.

Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Program Director, School of Design; Dr Paul Donehue (Urban Development)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

International Entry requirements

Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning). You will study design and urban development units in your first year, and concentrate on urban development studies for the remainder of this course.

Design component

In order to complete the Landscape Architecture major, you must complete a total of 192 credit points of core units comprising:

- Landscape Architecture, Impact Lab, Design foundation units and Design specialisation units - 192 credit points
- two units completed as part of the Urban and Regional Planning component - 24 credit points**

Urban development component

The Urban and Regional Planning major component requires completion of 288 credit points (24 units) consisting of:

- 72 credit points of core Urban

Development units, including 12 cps professional practice unit and 12 cps research methods unit.

- 192 credit points of Urban and Regional Planning discipline units
- 24 credit points capstone project.

**Two units are completed as part of the Urban and Regional Planning component and will contribute to the completion requirements of both courses.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 480 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning). You will study design and urban development units in your first year, and concentrate on urban development studies for the remainder of this course.

Domestic Course structure

In order to complete this course, you must complete a total of 528 credit points, made up of 240 credit points from the Bachelor of Design (Architecture) and 288 credit points from the Bachelor of Engineering (Honours). You will study design and engineering units in your first year and for the remainder of this course you will concentrate on engineering studies.

Design component

You will complete:

- four school-wide impact lab units (48 credit points)
- four architecture specialisation units (48 credit points)
- and the architecture major (144 credit points), including: four shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Engineering component

Your engineering studies will include:

- four core units (48 credit points) and two core options (24 credit points)
- eight engineering major units (120 credit points)

credit points)

- eight honours-level units (96 credits points).

You must choose a major from:

- chemical process engineering
- civil engineering
- computer and software systems engineering
- electrical engineering
- electrical and aerospace engineering
- mechatronics engineering
- mechanical engineering
- medical engineering

Study overseas

Code	Title
Semester 1 (February) commencements	
Year 1 - Semester 1	
EGB101	Engineering Design and Professional Practice
MZB125	Introductory Engineering Mathematics OR MXB161 Computational Explorations. If you have obtained Sound Achievement (or higher) in Mathematical Methods and Specialist Mathematics, you must choose MXB161 Computational Explorations.
MZB125	Introductory Engineering Mathematics
OR	
MXB161	Computational Explorations
Year 1 - Semester 2	
EGB102	Fundamentals of Engineering Science
EGB103	Computing and Data for Engineers
Year 2 - Semester 1	
EGB121	Engineering Mechanics
MZB127	Engineering Mathematics and Statistics
Year 2 - Semester 2	
EGB120	Foundations of Electrical Engineering
EGB242	Signal Analysis
Year 3 - Semester 1	
Materials Strand Option Unit	
EGB214	Materials and Manufacturing
CAB202	Microprocessors and Digital Systems
MZB221	Electrical Engineering Mathematics

Bachelor of Design (Architecture)/Bachelor of Engineering (Honours)

Year 3 - Semester 2	
Dynamics Strand Option Unit	
EGB211	Dynamics
CAB202	Microprocessors and Digital Systems
EGB345	Control and Dynamic Systems
Year 4 - Semester 1	
EGB220	Mechatronics Design 1
Dynamics OR Materials Strand Option Unit	
EGB321	Dynamics of Machines
EGB314	Solid Mechanics
Year 4 - Semester 2	
EGB320	Mechatronics Design 2
Intermediate Electrical Unit Option	
Year 5 - Semester 1	
EGH404	Research in Engineering Practice
Materials Strand Option Unit	
EGH414	Stress Analysis and Numerical Modelling
Advanced Electrical Unit Option	
Year 5 - Semester 2	
EGH446	Autonomous Systems
EGH408	Research Project
Dynamics Strand Option Unit	
EGH413	Advanced Dynamics
Advanced Electrical Unit Option	
Year 6 - Semester 1	
EGH419	Mechatronics Design 3
EGH445	Modern Control
Semester 2 (July) commencements	
Year 1 - Semester 2	
EGB101	Engineering Design and Professional Practice
MZB125 Introductory Engineering Mathematics OR MXB161 Computational Explorations. If you have obtained Sound Achievement (or higher) in Mathematical Methods and Specialist Mathematics, you must choose MXB161 Computational Explorations.

Year	2023
QUT code	IX59
CRICOS	084925D
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$12,200 per year full-time (96 credit points)
International fee (indicative)	2023: \$34,600 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Director of Studies, QUT Business School; or Dr Jacob Coetzee (Engineering)
Discipline Coordinator	AskQUT +61 7 3138 2000 bus@qut.edu.au; sef.enquiry@qut.edu.au; askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in IX59, students are required to complete 288 credit points of course units, as outlined below:

- First year: Four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: One (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points)

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp

To complete the Bachelor of Business students will complete 192 credit points of

course units, as outlined below:

- eight Business School core units (96 credit points) *
- eight major core units (96 credit points)

*Accounting major students complete six business core units and 10 accounting major units to allow them to complete professional requirements.

International Course structure

To graduate with a Bachelor of Engineering (Honours) in IX59, students are required to complete 288 credit points of course units, as outlined below:

- First year: Four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: One (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points)

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp

To complete the Bachelor of Business students will complete 192 credit points of course units, as outlined below:

- eight Business School core units (96 credit points) *
- eight major core units (96 credit points)

*Accounting major students complete six business core units and 10 accounting major units to allow them to complete professional requirements.

Year	2023
QUT code	SE05
CRICOS	0102144
Duration (full-time)	5 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$36,700 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Dr Paul Donehue (Urban Development majors); Dr Graham Johnson (Science majors)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12

credit point work placement unit and a 12 credit point research methods unit.

- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units which includes 6 credit point units, and one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

International Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12 credit point work placement unit and a 12 credit point research methods unit
- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units which includes 6 credit point units, one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x Advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

Year	2023
QUT code	SE60
CRICOS	084923F
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$8,100 per year full-time (96 credit points)
International fee (indicative)	2023: \$39,800 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Associate Professor Wayne Kelly (Information Technology)
Discipline Coordinator	Dr Thomas Rainey (Chemical Process), Associate Professor Jonathan Bunker (Civil); Dr Matthew McKague (Computer & Software Systems); Dr Jacob Coetzee (Electrical); Dr Aaron McFadyen (Electrical & Aerospace); Dr Wim Dekkers/Professor Ted Steinberg (Mechanical); Associate Professor Luis Alvarez (Mechatronics); Associate Professor Devakar Epari (Medical); Dr Jinglan Zhang (Computer Science); and Dr Erwin Fieft (Information Systems) +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- six (6) core units (72 credit points)
- one (1) block of ten (10) major units (120 credit points)

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- six (6) core units (72 credit points)
- one (1) block of ten (10) major units (120 credit points)

Sample Structure

PLEASE NOTE:

For students taking the IT: **Computer Science major with Engineering: Computer & Software Systems major**, please refer to the Engineering & IT Units: Computer & Software Systems Major with Computer Science Major (Feb)/(July) structure.

Semester 1 (February) commencements	
Year 1 - Semester 1	
EGB113	Energy in Engineering Systems
MZB125	Introductory Engineering Mathematics
OR	
MXB161	Computational Explorations
Year 1 - Semester 2	

EGB100	Engineering Sustainability and Professional Practice
MZB126	Engineering Computation
Year 2 - Semester 1	
EGB111	Foundation of Engineering Design
EGB121	Engineering Mechanics
Year 2 - Semester 2	
EGB120	Foundations of Electrical Engineering
Foundation Unit Option	
Year 3 - Semester 1	
CAB202	Microprocessors and Digital Systems
EGB242	Signal Analysis
Year 3 - Semester 2	
CAB201	Programming Principles
Intermediate Electrical Option Unit	
Year 4 - Semester 1	
EGB240	Electronic Design
Intermediate Software Option Unit	
For students with Computer Science Major: CAB301 and CAB302 are core to the Computer Science Major. Please contact Science and Engineering Faculty to be provided a list of additional units you can select from.	
Year 4 - Semester 2	
CAB403	Systems Programming
Intermediate Electrical or Software Option Unit	
Year 5 - Semester 1	
EGH404	Research in Engineering Practice
EGH400-1	Research Project 1
Advanced Electrical or Software Option Unit	
EGH456	Embedded Systems
Year 5 - Semester 2	
EGH400-2	Research Project 2
EGH455	Advanced Systems Design
Advanced Electrical Option Unit	
Advanced Software Option Unit

Complete 12 credit point from the Core Unit Options in Bachelor of Information Technology. Do NOT select a unit that will be core in your major.

Core Unit Options list

Bachelor of Engineering (Honours)/Bachelor of Information Technology

Code	Title
CAB201	Programming Principles
CAB202	Microprocessors and Digital Systems
CAB210	User Experience Fundamentals
CAB230	Web Computing
IAB201	Modelling Techniques for Information Systems
IAB206	Modern Data Management
IAB207	Rapid Web Application Development
IAB230	Design of Enterprise IoT
IAB250	Enterprise Systems Configuration
IAB260	Social Technologies
IGB180	Computer Games Studies
Other units subject to approval of Course Coordinator	

Complete two units (24cp) from the Core Unit Options. Do NOT select a unit that will be in your core major.

Unit List:

Other units subject to approval of Course Coordinator	

Year	2023
QUT code	SE80
CRICOS	084924E
Duration (full-time)	5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	79.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$7,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$38,600 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Dr Luke Nothdurft (Science)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme>](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete

192 credit points of course units, as outlined below:

- 7 Core units (60 credit points) which includes 6 credit point units, and a core option unit (12 credit points) selected from an approved list.
- 11 Major units (132 credit points)

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete 192 credit points of course units, as outlined below:

- 7 Core units (60 credit points) which includes 6 credit point units, and a core option unit (12 credit points) selected from an approved list.
- 11 Major units (132 credit points)

Code	Title
Semester 1 (February) commencements	
Year 1 Semester 1	
SEB113	Quantitative Methods in Science
SEB122	Physics in the Real World
SEB124	Understanding Chemistry
Year 1 Semester 2	
PVB102	Physics of the Very Small
SEB104	Grand Challenges in Science
Year 2 Semester 1	
PVB203	Experimental Physics
SEB121	Earth in Motion
SEB123	Life and the Environment: Survival of the Fittest
Year 2 Semester 2	
PVB200	Computational and Mathematical Physics
Science Core Unit Option	
Year 3 Semester 1	
PQB360	Introduction to Climate Change
PVB210	Stellar Astrophysics
Year 3 Semester 2	
PVB204	Electromagnetism
PVB220	Cosmology
Year 4 Semester 1	
PVB301	Materials and Thermal Physics
PVB302	Classical and Quantum Physics
Year 4 Semester 2	
PVB303	Nuclear and Particle Physics
PVB304	Physics Research
Semester 2 (July) commencements	
Year 1, Semester 2	
PVB102	Physics of the Very Small
SEB104	Grand Challenges in Science
Year 2, Semester 1	
SEB121	Earth in Motion
SEB122	Physics in the Real World
SEB123	Life and the Environment: Survival of the Fittest
SEB124	Understanding Chemistry
Year 2, Semester 2	
PVB200	Computational and Mathematical Physics
SEB113	Quantitative Methods in Science
Year 3, Semester 1	
PVB203	Experimental Physics
PVB210	Stellar Astrophysics
Year 3, Semester 2	
PVB204	Electromagnetism
PVB220	Cosmology

Year 4, Semester 1	
PVB301	Materials and Thermal Physics
PVB302	Classical and Quantum Physics
Year 4, Semester 2	
PVB303	Nuclear and Particle Physics
PVB304	Physics Research
Year 5, Semester 1	
PQB360	Introduction to Climate Change
Science Core Unit Option

Speaking	6.0

Course Overview

This program has been designed to provide you with a real life exposure to a range of urban development disciplines to understand how your chosen course helps to prepare you for a rewarding career in the built environment. You have the opportunity to collaborate with your peers and teaching staff at QUT and to learn in exciting new learning environments. Throughout the course you will experience a range of site visits and fieldwork that will link the theory in lectures to everyday situations in your chosen field of study. You will learn about a range of career opportunities and professional outcomes that will enable you to optimise your experience and potential career. Your major will provide you with in depth knowledge and expertise in an urban development discipline. You will also have the opportunity to undertake a second major or two minors in an area that will broaden your urban development experience and/or complement your first major.

Course Design

Your QUT Bachelor of Urban Development (Honours) degree consists of 384 credit points (32 units) arranged as follows:

- (a) 72 credit points (6 units) of Urban Development Core units, which includes a Work Integrated Learning unit that requires completion of workplace learning.
- (b) 216 credit points (18 units) comprising one (1) major from the following:
- Construction Management
 - Quantity Surveying and Cost Engineering
 - Urban and Regional Planning

(c)

Pathways to Further Study

The (UD01) Bachelor of Urban Development (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant Masters and/or Doctoral level programs

Domestic Course structure Course Design

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

The QUT Bachelor of Urban Development (Honours) degree with a primary major (Study Area A) in Construction Management is designed to provide you with 'real-life' exposure, and the knowledge and skills to prepare you for rewarding career the Construction, Development and associated industries. With the capacity, will and innovation to contribute to a better built environment, as a work-ready graduate, you will be able to apply sound judgement and expertise in practice managing complex built environments.

Course Design

Your QUT Bachelor of Urban Development (Honours) (Construction Management) degree consists of 384 credit points (32 units) arranged as follows:

- 72 credit points (6 units) of Urban Development Core units, which includes a Work Integrated Learning unit that requires completion of workplace learning.
- 216 credit points (18 units) of Construction Management discipline units
- 96 credit points of complementary studies comprising of either a Second Major (8 unit set) or two Minors (4 unit set each).

Urban Development Core Units

These units will engage you in understanding Urban Development from a range of disciplinary and multidisciplinary perspectives, expose you to the various outcomes available for pursuing studies in this field and introduce the fundamental basis for policy and practice. Later core units, together with the discipline specific units, will progress your learning development through experiential and enquiry based learning in collaborative environments.

Construction Management Major Discipline Units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on developing your knowledge, practice and higher order thinking to an advanced level.

Complementary Studies Options

Second Major:

A choice of one second major from:

Urban Development disciplines:

- Urban and Regional Planning Studies
- Property
- Accountancy
- Applied Economics and Finance

(additional second major choices are currently under development)

Minors:

A choice of two minors from the lists

below:

Urban Development disciplines:

- Urban and Regional Planning Studies
- Property Development
- Property Investment and Finance
- Property Valuation

Other disciplines:

- Language Minors – University Wide Options
- [University Wide Minors](#)

Special Course Requirements

You are required to obtain a minimum of 80 days of approved construction management industrial experience as part of your Work Integrated Learning core unit.

Professional Recognition

Graduates are eligible for membership of the Australian Institute of Building (AIB)

Pathways to Further Study

The (UD01) Bachelor of Urban Development (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant Masters and/or Doctoral level programs

Domestic Course structure

Your QUT Bachelor of Urban Development (Honours) (Construction Management) degree consists of 384 credit points (32 units) arranged as follows:

- 72 credit points (6 units) of urban development core units, which includes a Professional Practice unit that requires completion of workplace learning
- 216 credit points (18 units) of construction management discipline units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each).

Urban development core units

These units will engage you in understanding urban development from a range of disciplinary and multidisciplinary perspectives, expose you to the various outcomes available for pursuing studies in this field and introduce the fundamental basis for policy and practice. Later core units, together with the discipline specific units, will progress your learning development through experiential and enquiry based learning in collaborative environments.

Construction management major discipline units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on developing your knowledge, practice and higher-order thinking to an advanced level.

Complementary studies options

Complementary studies may be taken as a second major of 96 credit points or two minors of 48 credit points each. Experiential minors in work integrated learning as well as student exchange are also available.

Second majors

A second major provides the opportunity for you to undertake significant studies in a second urban development discipline such as Property Economics, Urban and Regional Planning, Architectural Studies, Accountancy or Applied Economics and Finance. Second majors are also designed to provide diverse professional skills and knowledge beyond the traditional reaches of the built environment curriculum and can offer a range of study options in other fields.

Minors

Minors will allow you undertake studies in a companion discipline. They are designed to provide you with introductory to intermediate level knowledge and skills in areas complementary to your studies. You can choose a minor from other built environment disciplines. There are also minors designed to distinguish students in the employment marketplace with complementary non-discipline skills and competencies that you can choose from a range of inter- and intra-faculty disciplines.

Pathways to further study

The (UD01) Bachelor of Urban Development (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant masters and/or doctoral level programs.

- [University Wide Minors](#)

Special Course Requirements

You are required to obtain a minimum of 80 days of approved quantity surveying and cost engineering industrial experience as part of your Work Integrated Learning core unit.

Professional Recognition

Graduates are eligible for membership of the Australian Institute of Quantity Surveyors (AIQS), the Royal Institution of Chartered Surveyors (RICS) and Board of Quantity Surveyors Malaysia (BQSM).

Pathways to Further Study

The (UD01) Bachelor of Urban Development (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant Masters and/or Doctoral level programs

Domestic Course structure

Your QUT Bachelor of Urban Development (Honours) (Quantity Surveying and Cost Engineering) degree consists of 384 credit points (32 units) arranged as follows:

- 72 credit points (6 units) of urban development core units, which includes a Professional Practice unit that requires completion of workplace learning
- 216 credit points (18 units) of quantity surveying and cost engineering discipline units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each).

Urban development core units

These units will engage you in understanding urban development from a range of disciplinary and multidisciplinary perspectives, expose you to the various outcomes available for pursuing studies in this field and introduce the fundamental basis for policy and practice. Later core units, together with the discipline specific

units, will progress your learning development through experiential and enquiry based learning in collaborative environments.

Quantity surveying and cost engineering major discipline units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on developing your knowledge, practice and higher-order thinking to an advanced level.

Complementary studies options

Complementary studies may be taken as a second major of 96 credit points or two minors of 48 credit points each. Experiential minors in work integrated learning as well as student exchange are also available.

Second majors

A second major provides the opportunity for you to undertake significant studies in a second Urban Development discipline such as Property Economics, Urban and Regional Planning, Architectural Studies, Accountancy or Applied Economics and Finance. Second majors are also designed to provide diverse professional skills and knowledge beyond the traditional reaches of the built environment curriculum and can offer a range of study options in other fields.

Minors

Minors will allow you undertake studies in a companion discipline. They are designed to provide you with introductory to intermediate level knowledge and skills in areas complementary to your studies. You can choose a minor from other built environment disciplines. There are also minors designed to distinguish students in the employment marketplace with complementary non-discipline skills and competencies that you can choose from a range of inter- and intra-faculty disciplines.

Pathways to further study

The (UD01) Bachelor of Urban Development (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant masters and/or doctoral level programs.

International Course structure

Course Overview

The QUT Bachelor of Urban Development (Honours) degree with a primary major (Study Area A) in Urban and Regional Planning is designed to provide you with 'real-life' exposure and knowledge and expertise in the field to design and administer plans and policy at neighbourhood, local, regional and state levels. With the capacity and will to contribute to a better built environment, as a work-ready graduate, you will be able to apply your perceptive sensibilities and skills in practice to create sustainable natural and human environments.

Course Design

Your QUT Bachelor of Urban Development (Honours) (Urban and Regional Planning) degree consists of 384 credit points (32 units) arranged as follows:

a) 72 credit points (6 units) of Urban Development Core units, which includes a Work Integrated Learning unit that requires completion of workplace

learning.

b) 216 credit points (18 units) of Urban and Regional Planning discipline units

c) 96 credit points of complementary studies comprising of either a Second Major (8 unit set) or two Minors (4 unit set each).

Urban Development Core Units

These units will engage you in understanding Urban Development from a range of disciplinary and multidisciplinary perspectives, expose you to the various outcomes available for pursuing studies in this field and introduce the fundamental basis for policy and practice. Later core units, together with the discipline specific units, will progress your learning development through experiential and enquiry based learning in collaborative environments.

Urban and Regional Planning Major Discipline Units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on developing your knowledge, practice and higher order thinking to an advanced level.

Complementary Studies Options

Second Major:

A choice of one second major from:

Urban Development disciplines:

- Urban Development Construction
- Property
- Accountancy
- Applied Economics and Finance

(additional second major choices are currently under development)

Minors:

A choice of two minors from the lists below:

Urban Development disciplines:

- Residential Construction
- Administration in Construction
- Building Economics
- Property Development
- Property Investment and Finance
- Property Valuation

Other disciplines:

- Urban Design

Domestic Entry requirements

A completed recognised bachelor degree (or higher qualification) in landscape architecture or relevant discipline; *or*

A completed diploma (or higher qualification) in landscape architecture or relevant discipline *plus* three years full-time (or equivalent) experience working in landscape architecture or relevant field; *or*

Five years (full-time) professional experience working in landscape architecture or relevant field

Relevant discipline/field

- Architecture
- Civil engineering
- Environmental engineering
- Environmental science
- Interior architecture
- Landscape architecture
- Planning (regional, town urban)

International Entry requirements

A completed recognised bachelor degree or higher qualification in landscape architecture or relevant discipline, such as:

- environmental engineering
- civil engineering
- planning
- environmental science
- environmental design
- architecture
- urban design
- interior architecture

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Academic entry requirements

Requirements for this pathway course are dependent your selected Master program and major.

Master of Professional Engineering (Electrical OR Electrical and Management Majors)

EN60 Graduate Certificate in Communication for Engineering (1 semester) and EN55 Master of Professional Engineering (Electrical OR Electrical and Management) (3 semesters)

A completed recognised four year full time Bachelor degree in an Electrical engineering discipline with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Master of Professional Engineering (Mechanical OR Mechanical and Management Majors)

EN60 Graduate Certificate in Communication for Engineering (1 semester) and EN55 Master of Professional Engineering (Mechanical OR Mechanical and Management) (3 semesters)

A completed recognised four year full time Bachelor degree in a Mechanical engineering discipline with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Master of Professional Engineering (Civil OR Civil and Construction OR Civil and Management Majors)

EN60 Graduate Certificate in Communication for Engineering (1 semester) and EN55 Master of Professional Engineering (Civil OR Civil and Construction OR Civil and Management) (3 semesters)

A completed recognised four year full time Bachelor degree in a Civil engineering discipline with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Master of Engineering Management

EN60 Graduate Certificate in Communication for Engineering (1 semester) and BN87 Master of Engineering Management (2 semesters)

A completed recognised four year full time Bachelor degree in Electrical, Mechanical or Civil engineering with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Master of Engineering (Electrical)

EN60 Graduate Certificate in Communication for Engineering (1 semester) and EN50 Master of Engineering (Electrical) (2 semesters)

A completed recognised four year full time Bachelor degree in an Electrical engineering discipline with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Master of Engineering (Mechanical)

EN60 Graduate Certificate in Communication for Engineering (1 semester) and EN50 Master of Engineering (Mechanical) (2 semesters)

A completed recognised four year full time Bachelor degree in a Mechanical engineering discipline with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Master of Project Management

EN60 Graduate Certificate in Communication for Engineering (1 semester) and PM20 Master of Project Management (2 or 3 semesters)

A completed recognised four year full time Bachelor degree in an Electrical, Mechanical or Civil engineering discipline with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.0
Listening	5.0
Reading	5.5
Writing	5.5
Speaking	5.0

International Course structure

The Graduate Certificate in Communication for Engineering is designed around set of core and

Graduate Certificate in Communication for Engineering

discipline units to provide engineering graduates with technical, theoretical and language skills for further learning.

To graduate with a EN60 Graduate Certificate in Communication for Engineering you are required to complete 48 credit points of course units consisting of:

- 24 credit points of core communication units
- 12 credit points of core engineering units
- 12 credit points of engineering discipline units for advanced specialised knowledge and technical skills.

Your engineering discipline unit is selected from either the mechanical or electrical unit options, depending on your engineering specialisation.

No credit for prior learning will be available for units in this course. Discipline units provide added depth and breadth in your chosen area of specialisation in an English speaking context.

Course Overview

The Graduate Certificate in Project Management delivers fundamental Project Management skills to those wishing to advance their knowledge in the discipline. It is designed for, both, individuals seeking to work in project management areas and for those already working in positions requiring project management.

With this course you will gain a depth of specialised knowledge and skills to manage projects across multiple industry sectors.

Designed to offer flexible study choices, the course is available fully on-line or face to face on campus. See the Study Choices information below for more detail on how you can study this course.

Course Design

The QUT Graduate Certificate in Project Management degree is designed around a set of core project management topics that underpin the knowledge required for practice and/or further learning.

The course will provide you with

advanced and specialised discipline knowledge and skills to apply appropriate solutions to project management problems. You will learn how to communicate effectively within various social, cultural and professional contexts across and within stakeholder and discipline groups.

The course structure consists of 48 credit points (4 units) of core units that can be completed in one semester of study.

Two of the units should be completed in this order:

PMN501 Project Management Essentials 1, in the first half of the semester, followed by PMN502 Project Management Essentials 2 in the second half of the semester.

Study Choices

You can study the Graduate Certificate in Project Management internally on campus at Gardens Point or externally Online. Depending on your location, you may choose to study some, or all, units Online or you may choose to attend in class at Gardens Point. When you self-enrol in a unit you must select from the list of attendance modes available that matches how you wish to study that unit. If you select the online study mode for a unit, your studies will all take place electronically, off campus. If you select to study a unit internally, you will be required to attend scheduled classes on campus.

Studying On Campus (Internally)

There are different ways you can study some project management units internally. You will be able to identify which type of internal study is offered when you self-enrol in a unit. If the unit is described as 'Internal' this typically indicates a standard delivery mode where classes will be scheduled each week for the duration of the specified teaching period. If a unit is described as Internal Block Mode, this indicates that it will be delivered in an intensive learning mode, such as whole day or weekend sessions or seminars. Please ensure you check your session dates.

Special Course Requirements

Students wishing to undertake online studies will require access to the necessary technology to facilitate this mode of study.

Pathways to Further Study

The QUT Graduate Certificate in Project Management is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates will be eligible for entry into the Master of Project Management with a reduced course duration of 1 year.

Professional Membership

Endorsed by the Australian Institute of Project Management (AIPM).

Domestic Course structure

The QUT Graduate Certificate in Project Management degree is designed around a set of core project management topics that underpin the knowledge required for practice and/or further learning.

The units will provide you with advanced and specialised discipline knowledge and skills to apply appropriate solutions to project management problems. You will learn how to communicate effectively within various social, cultural and professional contexts across and within stakeholder and discipline groups.

The course structure consists of 48 credit points (4 units) of core units that can be completed in one semester of study.

Two of the units should be completed in this order:

PMN501 Project Management Essentials 1, in the first half of the semester, followed by PMN502 Project Management Essentials 2 in the second half of the semester.

Pathways to further study

The QUT Graduate Certificate in Project Management is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates will be eligible for entry into the Master of Project Management with a reduced course duration of one year.

Domestic Entry requirements

Entry requirement

You must have a recognised four-year full time (or equivalent) bachelor or bachelor honours degree in engineering with a grade point average (GPA) of 4.00 or more (on a 7 point scale).

International Entry requirements

Academic entry requirements

- A completed recognised four-year full-time bachelor degree in a relevant engineering discipline with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale; *or*
- A completed recognised three-year full-time bachelor degree in a relevant engineering discipline with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale and two years full-time professional engineering work experience.*

*Students applying on the basis of work experience must submit a current curriculum vitae and employer statements detailing roles and responsibilities.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Structure

To graduate with a Master of Engineering Management you are required to complete 96 credit points (8 units) consisting of:

48 credit points of core engineering management postgraduate units, including a 12 credit point advanced research skills unit and 24 credit points of research based project units

and;

48 credit points of engineering management discipline units.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Early Exit Options

Please note: There is no early exit option available for students that enter the BN87 program from 2015 onwards.

Pathways to Further Study

The Master of Engineering Management is located at level 9 of the Australian Qualifications Framework. Graduates that meet the GPA requirements, may be eligible to apply for discipline relevant Doctoral level studies.

International Combined Masters Packages

Students admitted to a combined masters pathway (BN87 + EN50 or BN87 + PM20) may progress to their second degree on completion of the first, and are referred to the combined package study plan for their chosen combination, available on the course websites. Separate awards are granted for each degree completed.

Domestic Course structure

Course Structure

To graduate with a Master of Engineering Management you are required to complete 96 credit points (8 units) consisting of:

60 credit points of core engineering management postgraduate units, including advanced research skills and research based project units, a professional practice unit and an advanced discipline unit. Plus 36 credit points of advanced discipline and management units to be selected from a list of options.

International Course structure

To graduate with a Master of Engineering Management you are required to complete 96 credit points (8 units) consisting of:

60 credit points of core engineering management postgraduate units, including advanced research skills and research based project units, a professional practice unit and an advanced discipline unit. Plus 36 credit points of advanced discipline and

Master of Engineering Management

management units to be selected from a list of options.

Combined masters packages for international students

If you are admitted to either of:

- Master of Engineering Management and Master of Engineering package
- Master of Engineering Management and Master of Project Management package

You can progress to the second degree on completion of the first.

You will receive an award for each degree completed.

Refer to the combined package course structure of the relevant second year degree for unit details.

International Student Entry

You must maintain an enrolment program that will allow you to complete your course within the specified timeframe of your electronic Confirmation of Enrolment (eCoE)

Sample Structure

Combined Masters Packages: Master of Engineering (EN50) plus Master of Engineering Management (BN87)

If you are admitted to this pathway, once you have completed your Master of Engineering (EN50) including BEN610/PMN610 Project Management Principles, you may progress to the Master of Engineering Management (BN87) with 24 credit points of advanced standing.

Please follow the study plan below for your combined package.

Engineering Management (BN87) plus Master of Engineering (EN50) OR Master of Engineering Management (BN87) plus Master of Project Management (PM20)

If you are admitted to one of these pathways, once you successfully complete your Master of Engineering Management (BN87), you may progress to your second program.

Please refer to the relevant course site ([EN50](#) or [PM20](#)) for further information regarding your second degree and follow the study plan for your combined package.

Domestic Entry requirements

Entry requirements
Successful completion of QUT's DE42 Bachelor of Design (Honours) (Architectural Studies).

Additional information

All current DE42 Bachelor of Design (Honours) (Architectural Studies) graduands will automatically receive an offer to start DE80 Master of Architecture within three weeks of the current semester results being released.

All other applicants must apply for [DE83 Master of Architecture](#).

International Entry requirements

Academic entry requirements

QUT's Bachelor of Design (Architectural Studies) or Bachelor of Design (Honours) (Architectural Studies); or

A completed recognised 4 year full-time bachelor degree in architecture comparable to QUT's Bachelor of Design (Honours) program. Applicants applying on this basis must submit prior course information and a digital portfolio. Please refer to the application *documentation requirements* for details; or

A completed recognised 3 year full-time bachelor degree in architecture plus at least 1 year of recognised postgraduate architecture studies comparable to QUT's Bachelor of Design (Honours) program. Applicants applying on this basis must submit prior course information and a digital portfolio. Please refer to the application *documentation requirements* for details.

Application documentation requirements

Your portfolio, prior course content and your academic transcripts will be assessed to determine if you have met the course learning outcomes comparable to QUT's Bachelor of Design (Honours) (Architectural Studies). Please submit the following with your application:

1. Prior architecture course information including course overview and subject syllabus in English; *and*
2. A digital portfolio which must include the following:
 - a minimum of 4 projects. Ensure that your architectural design abilities are well represented in the portfolio;
 - fully documented design projects

with a proper set of plans, sections, elevations and perspectives (photos of models optional), for each project included;

- samples of your university design assignments (architectural design projects) from the highest year levels of design studio that you have completed. The intent of the portfolio is to illustrate your highest level of skill development during your previous studies;
- samples of design projects completed for professional work (university studies only).

Portfolios must be in English and submitted in digital form (preferably 'pdf') with your application.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Description

The Master of Architecture enables the development of advanced yet balanced understanding in architectural design and research, contextual studies, technology and science and studies for professional practice. It is the professional degree required, along with the requisite post-graduate work experience, for registration as an architect.

Professional Recognition

Graduates of the DE80 Master of Architecture meet the academic requirements for membership of the Australian Institute of Architects (AIA). Graduates who have also completed two years of practical architectural experience (at least one year postgraduate) will be eligible to undertake the Architectural Practice Examination which, if successful, will enable the graduate to be eligible for registration with any Board of Architects in Australia.

Domestic Course structure

To meet the course requirements for this course, you must complete a total of 96 credit points, made up of:

- Two research-based 'design

Master of Architecture (until 2022)

studios' (24 credit points each)

- Four core units (12 credit points each).

The two 'design studio' units form the cornerstone of this course and emphasise authentic learning by doing, collaborative approaches to knowledge building, and project-based approaches to learning.

International Course structure

To meet the course requirements for this course, you must complete a total of 96 credit points, made up of:

- Two research-based 'design studios' (24 credit points each)
- Four core units (12 credit points each).

The two 'design studio' units form the cornerstone of this course and emphasise authentic learning by doing, collaborative approaches to knowledge building, and project-based approaches to learning.

Domestic Entry requirements

You must have one of the following:

2 year program

- A recognised Australian 3-year architecture bachelor degree with a GPA of 4.5 (or equivalent); *or*
- A recognised Australian 3-year architecture bachelor degree *plus* six months full-time (or equivalent) relevant Australian professional experience under the supervision of a registered architect; *or*
- A recognised overseas three-year architecture bachelor degree *plus* an approved design portfolio; *or*
- Any completed degree *plus* passed the entire first year of a recognised Australian 3-year Master of Architecture (or equivalent) with a GPA of 4.5 (or equivalent).

Current QUT Architecture degree graduands

Current QUT Architecture graduands from a design single or double degree with a GPA of 4.5 or better will automatically receive an offer within three weeks of course completion.

1 year program

- Completed Bachelor of Design (Honours) (Architectural Studies) or the 4-year Bachelor of Design (Architectural Studies) at QUT; *or*
- A recognised Australian 3-year architecture bachelor degree *plus* passed (at least) the entire first year of a recognised Australian 2-year Master of Architecture (or equivalent); *or*
- A recognised overseas 3-year architecture bachelor degree *plus* passed at least one year full-time (or equivalent) of recognised postgraduate architecture studies *plus* an approved design portfolio; *or*
- Any completed degree *plus* passed at least the entire first two years of a recognised Australian 3-year Master of Architecture (or equivalent).

Current QUT Architectural Studies graduands

Current QUT Architectural Studies graduands from a design honours degree will automatically receive an offer within three weeks of course completion.

International Entry requirements

Academic entry requirements

Australian qualifications

2-year program

You can apply if you have a completed recognised 3-year architectural design bachelor program that leads to an Australian AACA accredited masters course, with a GPA of 4.5 (or equivalent).

Successful completion of one of the following QUT courses:

- Bachelor of Design (Architecture) (DE43) with a GPA of 4.5 or better
- Bachelor of Design (Architecture) (DE43) and six months relevant professional experience
- Bachelor of Design - International (Architecture) (DE45) with a GPA of 4.5 or greater
- Bachelor of Design - International (Architecture) (DE45) and six months relevant professional experience
- Bachelor of Design (Architectural Studies) (DE40).

1-year program

Successful completion of QUT's DE42 Bachelor of Design (Honours) (Architectural Studies).

Prior to 2023, graduates of QUT's DE42 Bachelor of Design (Honours) (Architectural Studies) can progress into the Master of Architecture (DE80) one year program.

From 2023, graduates of QUT's DE42 Bachelor of Design (Honours) (Architectural Studies) can progress into the Master of Architecture (DE83) one year program.

International qualifications

A completed recognised 3-year architectural design bachelor program, with a GPA of 4.5 (or equivalent), and with approved portfolio of design work.

If you are applying on this basis, you must submit prior course information and a digital portfolio. Refer to the application and documentation requirements for details.

Application and documentation requirements

Your portfolio, prior course content and your academic transcripts will be

Master of Architecture

assessed to determine if you have met the course learning outcomes comparable to QUT's Bachelor of Design (Honours) (Architectural Studies). Submit the following with your application:

- prior architecture course information, including course overview and subject syllabus in English.
- A digital portfolio, which must include: A minimum of 4 projects. Ensure that your architectural design abilities are well represented in the portfolio. Fully documented design projects with a proper set of plans, sections, elevations and perspectives (photos of models optional), for each project included. Samples of your university design assignments (architectural design projects) from the highest year levels of design studio that you have completed. The intent of the portfolio is to illustrate your highest level of skill development during your previous studies.

Your portfolio should not include samples of design projects completed for professional work (university studies only).

Portfolios must be in English and submitted in digital form (preferably PDF) with your application.

Domestic Entry requirements

Entry requirements
You must have a recognised four year full-time bachelor degree in an electrical or mechanical engineering or a related engineering area with a minimum grade point average (GPA) of 4.00 (on QUT's 7-point scale).

The following areas meet the 'related engineering area' requirement:

- Aerospace
- Aircraft Maintenance
- Automotive
- Aviation
- Biomedical
- Chemical and Materials
- Chemical and Metallurgical
- Communication
- Computer
- Electrical
- Electronic
- Electronic and Biomedical
- Energy
- Industrial
- Information and Communications Technology
- Instrumentation and Control
- Manufacturing
- Marine
- Maritime
- Materials
- Mechanical
- Mechatronic
- Medical
- Microelectronic
- Mining
- Naval Architecture
- Ocean
- Photonics
- Photovoltaic and Solar Energy
- Power
- Process
- Product Design
- Renewable Energy
- Robotic Software
- Telecommunications
- Tool making
- Wireless

International Entry requirements

Academic entry requirements

Electrical Engineering

A completed recognised four year full-time Bachelor in an electrical engineering or related area with an overall grade point average of 4.0 (on QUT's 7-point scale); OR

A completed recognised three year full-time Bachelor in an electrical engineering or related area with an overall grade point average of 4.0 (on QUT's 7-point scale) and two years full time professional work

experience in Electrical Engineering. Students applying on the basis of work experience must submit a current curriculum vitae and employer statements detailing roles and responsibilities.

The following areas would meet the related area requirements for Electrical Engineering:

Aerospace, Communication, Computer, Electrical, Electronic, Electronic and Biomedical, Energy, Information and Communications Technology, Instrumentation and Control, Microelectronic, Photonics, Photovoltaic and Solar Energy, Power, Renewable Energy, Robotic Software, Telecommunications and wireless.

Mechanical Engineering

A completed recognised four year full-time Bachelor in an Mechanical Engineering area* with an overall grade point average of 4.0 (on QUT's 7-point scale); OR

A completed recognised three year full-time Bachelor in an Mechanical Engineering area* with an overall grade point average of 4.0 (on QUT's 7-point scale) and two years full time professional work experience in Mechanical Engineering. Students applying on the basis of work experience must submit a current curriculum vitae and employer statements detailing roles and responsibilities.

The following areas would meet the 'related engineering area' requirement for mechanical Engineering: Aerospace, Aircraft Maintenance, Aviation, Automotive, Biomedical, Chemical and Materials, Chemical and Metallurgical, Industrial, Manufacturing, Marine, Maritime, Materials, Mechanical, Mechatronic, Medical, Mining, Naval Architecture, Ocean, Process, Product Design, Tool making.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0

Speaking	6.0
----------	-----

Course Structure

To graduate with a Master of Engineering students are required to complete 96 credit points (8 units) of course units.

a) 2 Core units + 2 Project units (of a specialisation area) + at least 3 electives with the same specialisation tag to claim Master of Engineering (Specialisation*); or

b) 2 Core units + 2 Project units + any 4 electives to claim Master of Engineering, i.e. no specialisation (Students fulfilling the specialisation requirement may choose not to have a specialisation in the award title)

*Specialisation options include:
- Mechanical Engineering
- Networking & Communications

Assumed Knowledge

It is assumed upon entry to the Masters program that students are proficient in prerequisite knowledge relevant to the intended Study Area A:

- **Mechanical Engineering:** students are assumed to be proficient in the general areas of mechanical engineering, metallurgy, materials or relevant disciplines.
- **Networking & Communications:** students are assumed to be proficient in the general area of electrical, electronics, communications or relevant disciplines.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Pathways to Further Study

The Masters of Engineering is located at level 9 of the Australian Qualifications Framework. Graduates that meet the GPA requirements, may be eligible to apply for discipline relevant Doctoral level studies.

International Combined Masters Packages

Students admitted to a combined masters pathway (EN50 + PM20) may progress to their second degree on completion of the first, and are referred to the combined package study plan for their chosen combination, available on the course websites. Separate awards are granted for each degree completed.

Professional Recognition

The Master of Engineering is a post-professional qualification and, as such, is beyond the usual qualifications required for membership of professional organisations.

Early Exit Options

Please note: There is no early exit option available for students that enter the EN50 program from 2015 onwards.

Domestic Course structure

To graduate with a Master of Engineering you are required to complete 96 credit points of course units consisting of:

48 credit points of core engineering postgraduate units, including advanced research skills and research based project units, a professional practice unit and an advanced discipline unit. Plus 48 credit points of advanced discipline and units from your specialisation (mechanical or electrical) to be selected from a list of options.

Option units provide added depth and breadth in your chosen discipline area, as such you should select an alternate unit if you have completed a similar or equivalent unit in your previous studies.

International Course structure

To graduate with a Master of Engineering you are required to complete 96 credit points of course units consisting of:

48 credit points of core engineering postgraduate units, including advanced research skills and research based project units, a professional practice unit and an advanced discipline unit. Plus 48 credit points of advanced discipline and units from your specialisation (mechanical or electrical) to be selected from a list of options.

Option units provide added depth and breadth in your chosen discipline area, as such you should select an alternate unit if you have completed a similar or equivalent unit in your previous studies.

Combined masters packages for international students

If you are admitted to either of:

- Master of Engineering and Master of Project Management package
- Master of Engineering Management and Master of Engineering package

You can progress to the second degree on completion of the first.

You will receive an award for each degree completed.

Refer to the combined package course structure of the relevant second year degree for unit details.

International Student Entry

You must maintain an enrolment program that will allow you to complete your course within the specified timeframe of your electronic Confirmation of Enrolment (eCoE)

ENN553 Energy Optimised Buildings and Communities (last offered 2019, disc 30/06/2022)

Combined Masters Packages: Master of Engineering Management (BN87) plus Master of Engineering (EN50)

If you are admitted to this pathway, once you have completed your Master of Engineering Management (BN87) including BEN610/PMN610 Project Management Principles, you may progress to the Master of Engineering (EN50) with up to 24 credit points of advanced standing.

Please follow the study plan below for your combined package.

International students on the BN87 + EN50 pathway may request an additional unit from the *Additional Unit Selections list*.

Master of Engineering (EN50) plus Master of Engineering Management (BN87) OR Master of Engineering (EN50) plus Master of Project Management (PM20)

If you are admitted to one of these pathways, once you successfully complete your Master of Engineering (EN50), you may progress to your second program.

Please refer to the relevant course site ([BN87](#) or [PM20](#)) for further information regarding your second degree and follow the study plan for your combined package.

Combined Masters Program - Year 2	
To undertake EN50 Master of Engineering in Year 2 of your combined masters program, you will have completed BN87 Master of Engineering Management program in Year 1. Please follow the study plan below, including advanced standing, for your Year 2	

EN50 program.	
EN50 Study Plan for BN87 Master of Engineering Management Graduates	
February Entry	
Year 2, Semester 1	
ENN590-1	Project 1
Option unit - select from your major unit options list	
Option unit - select from your major unit options list	
Year 2, Semester 2	
ENN590-2	Project 2
ENN543	Data Analytics and Optimisation
Option unit - select from your major unit options list	
Mid Year Entry	
Year 2, Semester 2	
ENN590-1	Project 1
ENN543	Data Analytics and Optimisation
Option unit - select from your major unit options list	
Year 3, Semester 1	
ENN590-2	Project 2
Option unit - select from your major unit options list	
Option unit - select from your major unit options list	
Electrical Engineering Major Unit Options List	
Select 36CP (3 units) from the Electrical Engineering Unit Options List:	
(The units are grouped in areas to assist you in focusing your studies.)	
POWER UNITS:	
EGH441	Power System Modelling
EGH448	Power Electronics
EGH454	Power Systems Management with Renewable & Storage Resources
[EGH440 Power Systems Analysis (disc 31/12/2018) will still count as a Power Unit Option if already completed.]	
NETWORKS AND COMMUNICATIONS UNITS:	
EGH442	RF Techniques and Applications
EGH443	Advanced Telecommunications
EGH444	Digital Signals and Image Processing
ENN523	Advanced Network Engineering

Master of Engineering

ENN524	Mobile Network Engineering
CONTROL SYSTEMS UNITS	
EGH445	Modern Control
EGH446	Autonomous Systems
ELECTRONICS UNITS	
CAB420	Machine Learning
EGB439	Advanced Robotics
EGH449	Advanced Electronics
EGH456	Embedded Systems
Mechanical Engineering Major Unit Options List	
Select 36CP (3 units) from the Mechanical Engineering Unit Options List	
EGB415	Motor Racing Vehicle Design
EGB422	Energy Management and Sustainability
EGB423	Heating, Ventilation and Air Conditioning
EGB435	Advanced Manufacturing and Industrial Automation
EGB485	Finite Element Analysis
EGH420	Mechanical Systems Design
EGH422	Heat Transfer
ENN531	Advanced Materials and Engineering Applications
ENN533	Advanced Engineering Design and Maintenance
ENN532	Safety and Environmental Management
The following unit options have been discontinued but will still count as Mechanical Engineering Major Unit Option if already completed:	
EGB436 Industrial Automation (disc 31/12/2021)	
EGB424 Advanced Computational Fluid Dynamics (disc 31/12/2020)	
ENN552 Solar Thermal Systems - Heat and Power (last offered 2018, disc 30/06/2022)	
ENN553 Energy Optimised Buildings and Communities (last offered 2019, disc 30/06/2022)	
Additional Unit Selections List	
International students on the BN87 + EN50 pathway may request an additional unit from the list below. Please contact the faculty sef.enquiry@qut.edu.au to arrange for your selection to be added to your study plan.	
PMN503	Systems in Project Management
PMN608	Managing the Project
MGN442	Self Leadership
IFN515	Fundamentals of Business Process Management

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

You must have:

1.5-year program

A recognised four-year full-time (or equivalent) bachelor degree of engineering in aerospace, computer and software systems, electrical, electronics, mechatronics and equivalents with a minimum GPA of 4.0 (on QUT's 7 point scale).

1-year program

Completed [EV01 Bachelor of Engineering](#) at QUT.

Graduates will automatically receive an offer to start within three weeks of the current semester results being released.

International Entry requirements

Academic entry requirements

A completed recognised four-year full time Bachelor degree in Engineering in one of the following fields or equivalent:

- Computer and Software Systems, Electrical, Aerospace, Electronics or Mechatronics with a grade point average of 4.0 or higher (on QUT's 7-point scale).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

International Entry requirements

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Course structure

To graduate with a Master of Professional Engineering you must complete 192 credit points of course units consisting of:

- 84 credit points of core units, including: advanced research skills and research-based project unitstwo professional practice unitsan advanced discipline unitan engineering design unit
- 108 credit points of discipline units from your specialisation, to be selected from a list of options.

Option units provide added depth and breadth in your chosen discipline area. You should select different unit if you have completed a similar or equivalent unit in your previous studies.

You are also required to undertake 60 days of approved work experience in the engineering environment as part of your Work Integrated Learning.

International Course structure

Domestic Entry requirements

Civil major entry requirements

1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the civil engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

2-year program

You must have:

- A recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the civil engineering discipline with a minimum 4.00 (on QUT's 7-point scale); *or*
- A recognised four-year full-time (or equivalent) bachelor degree in any other engineering discipline with a minimum 4.00 (on QUT's 7-point scale).

Civil and construction major entry requirements

1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the civil engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

2-year program

You must have:

- A recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the civil engineering discipline with a minimum 4.00 (on QUT's 7-point scale); *or*
- A recognised four-year full-time (or equivalent) bachelor degree in any other engineering discipline with a minimum 4.00 (on QUT's 7-point scale).

Civil and management major entry requirements

1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the civil engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

2-year program

You must have a recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the civil engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

International Entry requirements

Civil, civil and construction, and civil and management streams - 1.5-year program

You'll need:

- a completed, recognised four-year full-time equivalent bachelor degree in civil engineering discipline with a minimum GPA of 4.0 (on QUT's 7 point scale).

Civil - 2-year program

You'll need a completed, recognised full-time equivalent of either:

- a three-year bachelor degree in civil engineering or engineering technology (in civil engineering) with a minimum GPA of 4.0 (on QUT's 7 point scale)
- a four-year bachelor degree in any engineering discipline with a minimum GPA of 4.0 (on QUT's 7 point scale).

Civil and construction stream - 2-year program

You'll need a completed, recognised full-time equivalent of either:

- a three-year bachelor degree in civil engineering or engineering technology (in civil engineering) with a minimum GPA of 4.0 (on QUT's 7 point scale)
- a four-year bachelor degree in any engineering discipline with a minimum GPA of 4.0 (on QUT's 7 point scale).

Civil and management stream - 2-year program

You'll need:

- a completed, recognised three- or four-year full-time equivalent bachelor degree in civil engineering or engineering technology (in civil engineering) with a minimum GPA of 4.0 (on QUT's 7 point scale).

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements Electrical major entry requirements

1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the electrical engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

2-year program

You must have:

- A recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the electrical engineering discipline with a minimum 4.00 (on QUT's 7-point scale); *or*
- A recognised four-year full-time (or equivalent) bachelor degree in any other engineering discipline with a minimum 4.00 (on QUT's 7-point scale).

Electrical and management major entry requirements

1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the electrical engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

2-year program

You must have a recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the electrical engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

International Entry requirements

Electrical, and electrical and management stream - 1.5-year program

You'll need:

- a completed, recognised four-year full-time equivalent bachelor degree in the electrical engineering discipline with a minimum GPA of 4.0 (on QUT's 7 point scale).

Electrical stream - 2-year program

You'll need a completed, recognised full-time equivalent of either:

- a three-year bachelor degree in electrical engineering or engineering technology (in electrical

engineering) with a minimum GPA of 4.0 (on QUT's 7 point scale)

- a four-year bachelor degree in any engineering discipline with a minimum GPA of 4.0 (on QUT's 7 point scale).

Electrical and management stream - 2-year program

You'll need:

- a completed, recognised three- or four-year full-time equivalent bachelor degree in electrical engineering or engineering technology (in electrical engineering) with a minimum GPA of 4.0 (on QUT's 7 point scale).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

- 84 credit points of core units, including: advanced research skills and research-based project unitstwo professional practice unitsan advanced discipline unitan engineering design unit
- 108 credit points of discipline units from your specialisation, to be selected from a list of options.

Option units provide added depth and breadth in your chosen discipline area. You should select different unit if you have completed a similar or equivalent unit in your previous studies.

You are also required to undertake 60 days of approved work experience in the engineering environment as part of your Work Integrated Learning.

International Course structure

To graduate with a Master of Professional Engineering you must complete 192 credit points of course units consisting of:

- 84 credit points of core units, including: advanced research skills

Master of Professional Engineering (Electrical)

and research-based project units two professional practice units and an advanced discipline unit and an engineering design unit

- 108 credit points of discipline units from your specialisation, to be selected from a list of options.

Option units provide added depth and breadth in your chosen discipline area. You should select different unit if you have completed a similar or equivalent unit in your previous studies.

You are also required to undertake 60 days of approved work experience in the engineering environment as part of your Work Integrated Learning.

Domestic Entry requirements Mechanical major entry requirements 1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the mechanical engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

2-year program

You must have:

- A recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the mechanical engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale); or
- A recognised four-year full-time (or equivalent) bachelor degree in any other engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

Mechanical and management major entry requirements 1.5-year program

You must have a recognised four-year full-time (or equivalent) bachelor degree in the mechanical engineering discipline with a minimum 4.00 (on QUT's 7-point scale)).

2-year program

You must have a recognised three-year full-time (or equivalent) bachelor degree of engineering or engineering technology in the mechanical engineering discipline with a minimum GPA of 4.00 (on QUT's 7-point scale).

International Entry requirements Mechanical, and mechanical and management streams - 1.5-year program

You'll need:

- a completed recognised four-year full-time equivalent bachelor degree in the mechanical engineering discipline with a minimum GPA of 4.0 (on QUT's 7 point scale).

Mechanical stream - 2-year program

You'll need a completed recognised full-time equivalent of either:

- a three-year bachelor degree in mechanical engineering or engineering technology (in mechanical engineering) with a minimum GPA of 4.0 (on QUT's 7

point scale)

- a four-year bachelor degree in any engineering discipline with a minimum GPA of 4.0 or higher (on QUT's 7 point scale).

Mechanical and management stream - 2-year program

You'll need:

- a completed recognised three- or four-year full-time bachelor degree in mechanical engineering or engineering technology (in mechanical engineering) with a minimum GPA of 4.0 (on QUT's 7 point scale).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Master of Professional Engineering you must complete 192 credit points of course units consisting of:

Domestic Entry requirements

Entry requirements

1.5 year program (July start)

You must have:

- A recognised bachelor degree (or higher) in built environment, business, engineering, or project management; *or*
- A recognised bachelor degree (or higher) in any discipline followed by at least 6 months full-time (or equivalent) professional project management work experience; *or*
- A recognised diploma (or higher) in project or program management followed by at least two years full-time (or equivalent) professional project management work experience; *or*
- Five years full-time (or equivalent) professional project or program management work experience.

1 year program (February or July start)

You must have:

- A recognised graduate diploma (or higher) in built environment, business, engineering, or project management; *or*
- A recognised bachelor honours degree in built environment, business, engineering, or project management; *or*
- A recognised bachelor honours degree (or higher) in any other discipline followed by at least six months full time (or equivalent) professional project management work experience; *or*
- A recognised bachelor degree (or higher) in any discipline *plus* a recognised graduate certificate in built environment, business, engineering, or project management.

International Entry requirements

Academic entry requirements

1.5 year program

February: Not available for commencement

July: A completed recognised:

- bachelor degree (or higher) in engineering, built environment or business disciplines with a minimum grade point average (GPA) of 4.00 (or equivalent on QUT's 7 point scale); *or*
- bachelor degree in any discipline

with a minimum grade point average (GPA) of 4.00 (or equivalent on QUT's 7 point scale); *and* at least 6 months (full-time or equivalent) working in project management. Students applying on the basis of work experience must submit a detailed CV, position details and employment statements; *or*

1 year program

February and July : A completed recognised:

- 4 year bachelor in engineering or built environment disciplines with a minimum grade point average of 4.0 (on QUT's 7 point scale); *or*
- graduate certificate, graduate diploma or masters in engineering, built environment or business disciplines with a minimum grade point average of 4.0 (on QUT's 7 point scale); *or*
- graduate certificate, graduate diploma or masters in any discipline with a minimum grade point average of 4.0 (on QUT's 7 point scale) and at least 6 months (full-time or equivalent) working in project management. Students applying on the basis of work experience must submit a detailed CV, position details and employment statements; *or*
- Australian bachelor honours degree (or higher) in engineering, built environment or business disciplines with a minimum grade point average of 4.0 (on QUT's 7 point scale); *or*

Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

The QUT Master of Project Management is designed for Project Managers and project management cognate professionals from a wide range of industries; including engineering and the resources sector.

With this course you will gain the advanced discipline knowledge and skills to lead and project manage large and complex projects across multiple industry sectors.

Designed to offer flexible study choices, the course content is available in a variety of blended learning delivery modes including online, face to face on campus and block learning. See the Study Choices information below for more detail on how you can study this course.

Course Design

The MPM is designed around a set of core project management topics that underpin the knowledge required for the more advanced discipline units. The course will provide you with the critical skills to apply advanced knowledge of contemporary project management research and practice, and creatively solve complex project management problems. You will learn to communicate effectively within various social, cultural and professional contexts across and within stakeholder and discipline groups. You will demonstrate leadership, effective management and co-ordination of project teams and be able to work independently, ethically and collaboratively.

The course structure consists of 144 credit points (12 units) arranged as follows:

1) 48 credit points (4 units) of core project management units:

Two of these units should be completed in this order: PMN501 Project Management Essentials 1, in the first half of the semester, followed by PMN502 Project Management Essentials 2 in the second half of the semester.

2) 96 credit points (8 units) of core advanced discipline units:

Your skills and knowledge are developed through the advanced discipline and 'Project Investigation' units and further honed in PMN608 Managing the Project, the capstone unit. PMN608 should be taken in the last semester of study.

Study Choices

You can study PMN501, PMN502, PMN503 and PMN504 in the Master of Project Management internally on campus at Gardens Point or externally Online. When you self-enrol in a unit you must select from the list of attendance modes available that matches how you wish to study that unit. If you select the online study mode for a unit, your studies will all take place electronically, off campus. If you select to study a unit internally, you will be required to attend scheduled classes on campus.

Studying On Campus (Internally)

There are different ways you can study some project management units internally. You will be able to identify which type of internal study is offered when you self-enrol in a unit. If a unit is described as 'Internal' this typically indicates a standard delivery mode where classes will be scheduled each week for the duration of the specified teaching period. If a unit is described as Internal Block Mode, this indicates that it will be delivered in an intensive learning mode, such as whole day or weekend sessions or seminars. Please ensure you check your session dates.

Special Course Requirements

Students wishing to undertake units through online study will require the necessary technology to facilitate this mode of study.

Pathways to Further Study

The QUT Master of Project Management is located at Level 9 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant Doctoral level studies.

International Combined Masters Packages

Students admitted to a combined masters pathway (BN87 + PM20 or EN50 + PM20) may progress to their second degree on completion of the first, and are referred to the combined package study plan for their chosen combination, available on the course websites. Separate awards are granted for each degree completed.

Professional Membership

Endorsed by the Australian Institute of Project Management (AIPM).

Domestic Course structure

The Master of Project Management is designed around a set of core project management topics that underpin the knowledge required for the more advanced discipline units. The course will provide you with the critical skills to apply advanced knowledge of contemporary project management research and practice and creatively solve complex project management problems. You will learn to communicate effectively within various social, cultural and professional contexts across and within stakeholder and discipline groups. You will demonstrate leadership, effective management and coordination of project teams and be able to work independently, ethically and collaboratively.

The course structure consists of 144 credit points (12 units) arranged as follows:

1) 48 credit points (4 units) of core foundation units.

Two of these units should be completed in this order: PMN501 Project Management Essentials 1, in the first half of the semester, followed by PMN502 Project Management Essentials 2 in the second half of the semester.

2) 48 credit points (4 units) of core project management units including research - comprising investigation and project units (24cps) and a capstone unit (12cps).

3) 48 credit points (4 units) of advanced discipline units

Your skills and knowledge are developed through the advanced discipline and Project Investigation units and further honed in PMN608 Managing the Project, the capstone unit. PMN608 should be taken in the last semester of study.

Pathways to further study

The QUT Master of Project Management is located at Level 9 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant doctoral level studies.

Combined masters packages for international students

If you are admitted to either of:

- Master of Engineering and Master of Project Management package
- Master of Engineering Management and Master of Project Management package

you can progress to the second degree on completion of the first.

You will receive an award for each degree completed.

Refer to the combined package course structure of the relevant second year degree for unit details.

Domestic Entry requirements

To be eligible for this course, you need either:

- a completed recognised bachelor honours degree in a discipline relevant to your intended area of study or
- a completed recognised bachelor degree or equivalent in a discipline relevant to your intended area of study with: a minimum grade point average (GPA) score of 5.00 (on QUT's 7 point scale) relevant professional and/or research experience (as determined by the faculty).

Applications and proposed research projects are subject to supervisor availability and resources available within the faculty.

International Entry requirements

To be eligible for this course, you need either:

- a completed recognised bachelor honours degree in a discipline relevant to your intended area of study or
- a completed recognised bachelor degree or equivalent in a discipline relevant to your intended area of study with: a minimum grade point average (GPA) score of 5.00 (on QUT's 7 point scale) relevant professional and/or research experience (as determined by the faculty).

Applications and proposed research projects are subject to supervisor availability and resources available within the faculty.

Domestic Course structure

Mandatory units

You'll need to complete:

- a time-based thesis
- IFN001 Advanced Information

Research Skills.

You may need to complete other units that are recommended by your faculty, negotiated with you and based on the skills gaps identified in your research degree skills audit.

Study areas

Your faculty may have several specialisations (study areas) that your research will align with. This will appear on your testamur at graduation:

Business and Law

- Master of Philosophy (Accountancy)
- Master of Philosophy (Advertising)
- Master of Philosophy (Economics)
- Master of Philosophy (Entrepreneurship and Innovation)
- Master of Philosophy (Finance)
- Master of Philosophy (Human Resource Management)
- Master of Philosophy (International Business)
- Master of Philosophy (Law)
- Master of Philosophy (Management)
- Master of Philosophy (Marketing)
- Master of Philosophy (Philanthropy and Nonprofit Studies)
- Master of Philosophy (Public Relations)

Creative Industries, Education and Social Justice

- Master of Philosophy (Design)
- Master of Philosophy (Communication)
- Master of Philosophy (Creative Practice)
- Master of Philosophy (Education)
- Master of Philosophy (Justice)

Engineering

- Master of Philosophy (Engineering)
- Master of Philosophy (Urban Development)
- Master of Philosophy (Biomedical Technology and Health)

Health

- Master of Philosophy (Biomedical Sciences)
- Master of Philosophy (Biomedical Technology and Health)
- Master of Philosophy (Exercise Sciences)

Domestic Entry requirements

You must have either:

- a completed recognised relevant honours degree (first class or second class Division A) or equivalent
- a completed recognised masters degree or professional doctorate (by research or coursework)

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

For more information on eligibility, read the [admission criteria for the Doctor of Philosophy %asset_summary_640320%](#).

Once you've started your PhD, you'll need to complete your Stage 2 milestone to be fully admitted to your course. You'll usually complete this milestone within the first three months of study.

Masters and professional doctorate degrees by coursework must have a significant research component, normally not less than 25%. Holders of masters and professional doctorate by coursework must:

- have a minimum grade point average (GPA) score of 5.0 on QUT's 7 point scale; *and*
- present evidence of research experience and potential for approval

Edit in the CMS.

International Entry requirements

Edit in the CMS.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Course structure (Edit in the CMS)

You can enrol in one unit per semester, in addition to your Year 11 semester two and/or Year 12 semester one studies.

You can choose a unit from a different study area in each semester; for example, a science unit in Semester 2, and a business unit in the following Semester 1. This might be a good option if you are looking to study a double degree.

If you're hoping to receive advanced standing (credit) toward a degree for the units you complete, it's best to select those related to your chosen future study area. Your START QUT studies, including the grades you achieve, will be included as part of your official QUT record.

Please note enrolment in START QUT is not permitted after semester 1, year 12.

International Course structure (Edit in the CMS)

You can enrol in one unit per semester, in addition to your Year 11 semester two and/or Year 12 semester one studies.

You can choose a unit from a different study area in each semester; for example, a science unit in Semester 2, and a business unit in the following Semester 1. This might be a good option if you are looking to study a double degree.

If you're hoping to receive advanced standing (credit) toward a degree for the units you complete, it's best to select those related to your chosen future study area. Your START QUT studies, including the grades you achieve, will be included as part of your official QUT record.

Please note enrolment in START QUT is not permitted after semester 1, year 12.

Sample Structure

Two-week intensive program where you complete about 80 hours of study, including lectures, discussion, exercises, and assessment.

Numbers in each unit are limited and will be allocated based on a first come, first served basis. Some units are limited to female students only. Some classes are limited to Aboriginal and Torres Strait Islander students only.

KPB101	Introduction to Screen Production
Education	
Education units offered through the START QUT program will not satisfy the prerequisites for entry to the Bachelor of Education courses. We recommend you check the prerequisites for the Bachelor of Education and are enrolled in these subjects at school before considering undertaking Education units in the START QUT program.	
EUB112	Child and Adolescent

START QUT

	Learning and Development
Law	
LLB101	Introduction to Law
Science	
Information Technology	
IFB104	Building IT Systems
IFB102	Introduction to Computer Systems
Science and Mathematics	
MXB105	Calculus and Differential Equations

Year	2023
QUT code	DV43
CRICOS	103171B
Duration (full-time)	4.5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	80.00
Offer Guarantee	Yes
International fee (indicative)	2022: \$33,500 per year full-time (96 credit points)
Total credit points	432
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	For more information email: askqut@qut.edu.au; ph: 07 3138 2000

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This vertical double degree is made up of DV43 Bachelor of Design (Landscape Architecture) plus DE72 Master of Landscape Architecture. You will be able to progress on to the Master of Landscape Architecture upon successful completion of the bachelor degree. The full vertical double degree normally takes 4.5 years to complete full-time (3 years for the bachelor component plus 1.5 years for Master component).

To meet the course requirements for the Bachelor of Design (Landscape Architecture), you must complete a total of 288 credit points, made up of:

- a design major (144 credit points), including four shared foundation units (48 credit points) and 96 credit points from the landscape architecture discipline
- four school-wide impact lab units (48 credit points)
- four postgraduate landscape units (48 credit points)
- complementary studies, made up of a minor, or a combination of design specialisation units and electives (unit options) (48 credit points).

To meet the course requirements for the Master of Landscape Architecture, you must complete a total of 192 credit points, made up of:

- thirteen core units (192 credit points). Three of these units (72 credit points) are 24-credit-point Studio units.

Note: The four postgraduate landscape units completed in DV43 Bachelor of Design will contribute to the Master of Landscape Architecture leaving nine core units (144 credit points) remaining.

Some units may be offered fully online or online with a face-to-face component.

Study overseas

[Study overseas](#) while earning credit towards your QUT creative industries degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course.

International Course structure

This vertical double degree is made up of DV43 Bachelor of Design (Landscape Architecture) plus DE72 Master of Landscape Architecture. You will be able to progress on to the Master of Landscape Architecture upon successful completion of the bachelor degree. The full vertical double degree normally takes 4.5 years to complete full-time (3 years for the bachelor component plus 1.5 years for Master component).

To meet the course requirements for the Bachelor of Design (Landscape Architecture), you must complete a total of 288 credit points, made up of:

- a design major (144 credit points), including four shared foundation units (48 credit points) and 96 credit points from the landscape architecture discipline
- four school-wide impact lab units (48 credit points)

Domestic Entry requirements

Offer guarantee

From 2022 this course will no longer be covered by the offer guarantee. The course threshold can be used as a guide for the ATAR/selection rank you may need to get into a course in the future. Thresholds can change from year to year.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

Professional recognition

The course is accredited by the Council of Ambulance Authorities and graduates are eligible for membership of Paramedics Australasia.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 4831 or email paramedic@qut.edu.au

Sample Structure

There are a number of changes to units which may affect your enrolment in 2023 or beyond. Study plans for affected continuing students have been updated.

International Entry

requirements

Minimum Academic entry requirements

This program is only available for applicants from Southern Alberta Institute of Technology (SAIT), Canada who hold the following qualifications:

- Emergency Medical Responder Certificate, Primary Care Paramedic Certificate and Advanced Care Paramedic Diploma with an overall grade average of 2 or higher (on a 4 point scale)

And

- Passed all required units as per the [advanced standing agreement](#)

Minimum English language requirements

Completion of the Advanced Care Paramedic Diploma with an overall grade average of 2 or higher (on a 4 point scale) and all prior schooling/studies in an approved English speaking country (Australia, Canada, England, Ireland, New Zealand, Scotland, South Africa, United States of America and Wales).

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Entry requirement

You must have a completed recognised degree (or equivalent) in a medical science or health science field in 2013 or more recently.

If you completed your degree earlier than 2013 you must provide evidence with your QTAC application of your graduate work experience and/or completed further studies in a medical science or health science gained in 2013 or more recently.

Completed graduate diplomas, masters and/or doctorates are the accepted equivalents.

Selection ranks

You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

[Find out more about how to Apply with Higher Education Study.](#)

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one year of advanced standing which will entitle you to complete the degree in two years (full time).

Minimum English requirements

Students must meet the English proficiency requirements.

Professional recognition

The course is accredited by the Council of Ambulance Authorities and graduates are eligible for membership of Paramedics Australasia.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Mandatory Pre-course Workshops

Graduate entry students are expected to attend pre-course workshops during Orientation Week. In 2015, Orientation Week begins on 1 February.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 4831 or email paramedic@qut.edu.au

Domestic Entry requirements

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5

Speaking	6.5
----------	-----

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the

[AHPRA website](#)

Please refer to the [Podiatry Board of Australia website](#) for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the [Australian Health Practitioner Regulation Agency](#)

Honours pathway

At the end of the second year of study in this course, you will have the option to apply for the Bachelor of Podiatry (Honours). Entry to the program is competitive, based on grade point average. On entry to the course you will retain all of the credit you have successfully completed in the Bachelor of Podiatry and will complete a further two years of full-time study which will include

Bachelor of Podiatry

an honours research project.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 3368 or email podiatry@qut.edu.au

Domestic Entry requirements

Entry requirements
You must have a completed recognised Australian biomedical, health, or medical science bachelor degree completed in 2013 or more recently with a minimum volume of learning of 1.50 year full-time (or equivalent).

Assumed knowledge

Before you start this course, we assume you have sound knowledge of the degree subject areas listed below. If you don't have the degree subject knowledge, you can still apply for the course but we strongly encourage you to undertake bridging studies to gain the knowledge:

- Anatomy
- Chemistry
- Pathophysiology/disease processes
- Physiology
- Statistics.

English language proficiency

You must be able to speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

QTAC will notify you if you are required to demonstrate your English proficiency via an approved test. The test must have been completed within 2 years prior to the proposed course start month.

Selection ranks

You will be considered solely on the basis of the selection ranks from all of your prior degree studies plus any postgraduate studies you may have undertaken. Your other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

[Find out more about how to Apply with Higher Education Study.](#)

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one and a half years of advanced standing which will

entitle you to complete the degree in two and a half years (full-time).

Application closing date: 21 April

Applications and new preferences received after this date will not be accepted.

International Entry requirements

Academic entry requirement

A completed Australian bachelor's degree in medical science or health science, completed within 10 years of commencement at QUT, with a grade point average of 4.0 or higher (on QUT's 7 point scale).

Assumed Knowledge

It is assumed you have completed study in the following subject areas: anatomy, chemistry, physiology, pathophysiology/disease processes and statistics.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one and a half years of advanced standing which will entitle you to complete the degree in two and a half years (full-time).

Working with Children Check: blue card

You'll need to submit your blue card application form immediately upon arrival onshore in Australia.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

Bachelor of Podiatry - Graduate Entry

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Podiatry Board of Australia website <http://www.podiatryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Graduate entry students are required to attend pre-course workshops during Orientation Week.

The required full Hepatitis B vaccination course and serology test can take from 6 - 9 months to complete and should be commenced as soon as you accept your course offer.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Biology

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

This course is accredited by the [Australian Pharmacy Council](#). To meet registration requirements of the [Pharmacy Board of Australia](#), graduates are required to perform approximately 12 months of pre-registration training under the supervision of a registered pharmacist.

Graduates will be eligible for membership of a number of professional associations, including the [Pharmaceutical Society of Australia](#), the [Pharmacy Guild of Australia](#) and the [Society of Hospital Pharmacists of Australia](#).

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7.5 or equivalent. Test results from examinations will

generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Student registration

QUT automatically registers students in this course with the Pharmacy Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the [Australian Health Practitioner Regulation Agency](#)

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or email pharmacy@qut.edu.au

Minimum English requirements

Students must meet the English proficiency requirements.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Professional recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the [AHPRA website](#)

Please refer to the [Podiatry Board of Australia website](#) for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the [Australian Health Practitioner Regulation Agency](#)

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Sample Structure

There is no direct entry into CS46 Bachelor of Podiatry (Honours). Students complete Year 1 and Year 2 of CS44 Bachelor of Podiatry and apply for entry into CS46.

Domestic Entry requirements

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements Adjustments to your ATAR/selection rank

Adjustments from the Year 12 Subject Scheme do not apply to this course. Any other adjustments you receive to your ATAR or selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your ATAR or selection rank](#)

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Minimum English requirements

Students must meet the English proficiency requirements.

At the end of the second year of study in CS49, students with a GPA of 6 or over will have the option to apply for CS50 Bachelor of Radiation Therapy (Honours). Entry to CS50 will be competitive, based on GPA. On entry to CS50, students will retain all of the credit successfully completed in CS49 and will complete a further two years of fulltime study which will include an honours research project.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have

associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science on 07 3138 1938 or email biomedical@qut.edu.au

International Course structure

Your Course

Year 1

You will undertake units covering chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course. With QUT's practical approach to teaching, you will not only learn the theory, but gain a wealth of practical experience in state-of-the-art laboratories. You will also gain an introduction to the essential communication skills required for a career in the health and medical professions.

Year 2

You will have the option of choosing a major and two minors from five key biomedical scientific disciplines to align with your own career goals: anatomical sciences, cell and molecular biology, human biochemistry, human physiology and infectious diseases. You will have the opportunity to complement your studies by choosing a university wide set from a discipline outside of biomedical science, such as behavioural science, public health, human rights, entrepreneurship, mathematical sciences, international business or study a language. A minor is also available in Clinical Physiology which includes a 400 hour Clinical Physiology internship in which you will be placed in a hospital with professional clinical physiologists who will provide training in physiological instrumentation and measurement, recording, interpretation and reporting of clinical data. You will also have opportunities to gain real world experience as part of your course in Work Integrated Learning placements in biomedical research institutes and laboratories in the science industry.

Year 3

In the real world, the design and completion of successful research and/or business projects demand that individuals gather information, solve problems, work effectively as a part of a team and analyse and communicate results in a critical manner. Therefore each major in

Bachelor of Biomedical Science

this course will culminate in a capstone unit which will require you to apply the knowledge and skills developed through your course. Capstone projects include human anatomical dissection, contemporary laboratory based research projects in biochemistry, physiology and cell and molecular biology, and diagnosis, characterisation and development of appropriate responses to an infectious disease outbreak scenario.

Course Design

The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course.

Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

The Bachelor of Biomedical Science provides the necessary knowledge and skills to enter a career in biomedical research, with integration of research design and implementation, scientific writing and communication and practical laboratory skills embedded through each year of the course.

Furthermore students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

Sample Structure

To fulfil the requirements of this course you must complete:

- * eight Biomedical Introductory core units (Year 1)
- * two units from the Biomedical Science Developmental units (LQB3xx or LQB4xx) (Year 2)
- * a Major (six units) from the Biomedical Science Major Options (Years 2 & 3)
- * a Minor (four units) from the Biomedical Science Minor Options (Years 2 & 3)
- * four Biomedical Science option units (Years 2 & 3) made up of either:
 - a second Biomedical Science Minor; or
 - a university-wide minor; or
 - 48 credit points of Biomedical

Science electives.

Note: The minor/s must be different to your major.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

This course is accredited by the Australian Institute of Medical Scientists, and, as a graduate, you are eligible for graduate membership and will have completed the academic and work placement requirements for admission as a full member.

Depending on your employment, you will be eligible to apply for membership of various professional organisations including the Australasian Association of Clinical Biochemists, Australian Society of Microbiology, Australian Society of Cytology, Human Genetics Society of Australasia, Haematology Society of Australia and New Zealand, Australian

and New Zealand Society of Blood Transfusion, and Australian Society of Thrombosis and Haemostasis.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways

As a graduate, you can pursue further studies leading to a career in medical research. Graduates are currently working as researchers in areas such as cancer diagnosis, malaria, virology, stem cells, infectious diseases, immunology, transfusion science, eye disease, reproductive medicine and molecular biology.

Further information

For more information about this course, contact the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

International Course structure

Your course

Year 1

The course commences by developing a sound knowledge and understanding of fundamental concepts that underpin medical laboratory science: cellular and molecular biosciences, anatomy, physiology mathematics, statistics, biophysics and chemistry. You will also be introduced to the local, national and global profession of medical laboratory science, and the Australian Healthcare System in the first of your professionally orientated units in the course.

Year 2

In your second year, you will explore more specialised concepts in pathology, biochemistry, microbiology, immunology, cytogenetic and molecular pathology, histopathological techniques, quantitative medical science, and quality assurance systems. In your practical classes, you will learn some of the latest techniques used in the clinical diagnostic pathology industry, giving you the opportunity to develop your skills to professional standards.

Year 3

The third year of the program allows you to further develop and refine your knowledge, understanding and practical skills to a more advanced level, and learn how they are applied in the clinical disciplines of molecular diagnostics, microbiology, chemical pathology, diagnostic endocrinology, histopathology, cytopathology, haematology and, transfusion and transplantation science.

Year 4

In your first semester, you will undertake a semester-long work integrated learning internship in a recognised laboratory. During that time you will also complete studies in health informatics and learn how this relates to day-to-day laboratory operations. In your final semester, you will complete an elective of your choice designed to complement your learning, e.g. pharmacology, marketing, management or research techniques. You will also prepare professional plans and identify graduate opportunities, as well as further your clinical discipline specific learning in the context of intercultural health and contemporary issues in medical science.

Course progressions are subject to University approval.

Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	AskQUT askqut@qut.edu.au; +61 7 3138 2000;
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This vertical double degree is made up of LV41 Bachelor of Biomedical Science plus IN27 Master of Data Analytics (Biomedical Science). You will be able to progress on to the Master of Data Analytics upon successful completion of the bachelor degree. The full vertical double degree normally takes 4 years to complete full-time (3 years for the bachelor component plus 1 year for Master component).

To meet the requirements of the Bachelor of Biomedical Science component of the vertical double degree, you must complete a total of 288 credit points. You may choose to undertake:

- Choice of ONE Biomedical Science Major (Study Area A) OR
- Choice of TWO Biomedical Science Minors (Study Areas B)

To undertake a Study Area A, you must complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical

sciences electives (Year 2)

- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

To undertake two Study Areas B, you must complete:

- 8 Biomedical Science core units (Year 1)
- 4 units from Study Areas B and 4 biomedical sciences electives (Year 2)
- 4 units from a Study Areas B and 5 postgraduate Data Science units (Year 3).

International Course structure

This vertical double degree is made up of LV41 Bachelor of Biomedical Science plus IN27 Master of Data Analytics (Biomedical Science). You will be able to progress on to the Master of Data Analytics upon successful completion of the bachelor degree. The full vertical double degree normally takes 4 years to complete full-time (3 years for the bachelor component plus 1 year for Master component).

To meet the requirements of the Bachelor of Biomedical Science component of the vertical double degree, you must complete a total of 288 credit points. You may choose to undertake:

- Choice of ONE Biomedical Science Major (Study Area A) OR
- Choice of TWO Biomedical Science Minors (Study Areas B)

To undertake a Study Area A, you must complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical sciences electives (Year 2)
- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

To undertake two Study Areas B, you must complete:

- 8 Biomedical Science core units (Year 1)
- 4 units from Study Areas B and 4 biomedical sciences electives (Year 2)
- 4 units from a Study Areas B and 5 postgraduate Data Science units (Year 3).

Sample Structure

To meet the requirements for the Bachelor of Biomedical Science, you must complete a total of 288 credit points,

Bachelor of Biomedical Science/Master of Data Analytics

made up of:

- eight Biomedical Introductory core units (Year 1)
- a Major (six units) from the Biomedical Science Major Options (Years 2 & 3)
- six Biomedical Sciences elective units (Year 2)
- the Biomedical Data Science Minor comprising five core preparatory postgraduate units (Year 3).

To meet the requirements for the Master of Data Analytics, you must complete an additional 96 credit points of specified units from the Master of Data Analytics (Year 4).

Total credit points	288
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	July, February
Int. Start Months	July, February
Course Coordinator	nursing@qut.edu.au; +61 7 3138 2000;
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Additional entry requirements

You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America

If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test (refer below).

English language proficiency

QUT requires students to demonstrate that they can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 7.0
- PTE: 65 or better overall with no sub-score below 65
- TOEFL (IBT): 98 or better overall with a writing sub-score of 27 or better, listening and reading sub-scores of 24 or better, and speaking sub-score of 23 or better
- Occupational English Test (Nursing Profession) with a minimum score of 350 in each component.

The test must have been completed within 2 years prior to the proposed course start month.

Diploma of Nursing holders

If you have current [AHPRA registration](#) as an Enrolled Nurse (Division 2) (General) without restriction etc and you completed within 10 years prior to admission to the Bachelor of Nursing one of the following qualifications:

- [HLT54115 Diploma of Nursing](#)
- [HLT51612 Diploma of Nursing \(Enrolled - Division 2 nursing\)](#)

You can receive one year of advanced standing. This allows you to complete the course in two years instead of three. You will need to lodge an Advanced Standing application and provide a copy of your award certificate and current registration after you receive your offer.

If you do not have current registration, current registration with restrictions etc, or your diploma was completed more than 10 years ago, no advanced standing will be granted.

Degree holders

If you already hold a degree in any area other than nursing completed within the last ten years, you can apply for the [Master of Nursing - Entry to Practice](#) via QTAC and complete your nursing studies in two years.

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Undergraduate Certificate (Nursing)

QUT College Undergraduate Certificate (Nursing) graduates will automatically receive an offer to start the Bachelor of Nursing within three weeks after completion of the undergraduate certificate. You will also automatically receive 0.5 year (48 credit points) credit transfer and be able to complete the degree in 2.5 years as a full-time student (or equivalent part-time).

[More about the QUT College Undergraduate Certificate \(Nursing\)](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

International Entry requirements

Applications in 2022

You must be onshore in Australia to study this course and cannot commence online. This course will be offered for a final admission in July 2022. From 2023, non nursing graduates seeking a pathway to a nursing career are encouraged to apply for [NS89 Master of Nursing - Entry to Practice](#).

Academic entry requirements

A completed recognised bachelor degree (or equivalent) not in nursing completed within the past ten years with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale).

Applicants in possession of a bachelor degree awarded more than ten years ago will be eligible for entry if they have completed additional postgraduate studies at graduate certificate level (or higher) within ten years of the planned date of course commencement; or

Completed a recognised overseas nursing qualification at bachelor degree level with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale), that enables the applicant to work as a registered nurse in their home country. Applicants whose qualification/s were awarded more than ten years ago will need to *provide evidence of recent work experience as a registered nurse*, (that is, practice as a registered nurse no more than three years prior to the planned commencement date of the QUT Bachelor of Nursing).

Working with Children Check: blue card

You'll need to submit your blue card application form immediately upon arrival onshore in Australia.

Minimum English requirements

Students must meet the English proficiency requirements.

Adjustments to your ATAR/selection rank

The Year 12 Subject Scheme adjustments do not apply to this course.

Any other adjustment you receive to your ATAR or selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your ATAR or selection rank](#)

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

- Physics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Optometry Board of Australia website <http://www.optometryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course](#)

[requirements and costs](#) website.

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4697 or email optometry@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

Dual TAFE-Qld Greater Brisbane/QUT award

If you enrol in a QTAC offer in a [Diploma of Community Services dual TAFE-Qld Brisbane/QUT award](#) you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Greater Brisbane is confirmed.

Upon completion of the TAFE-Qld diploma you will be able to enrol at QUT. You will also automatically receive 1 year (96 credit points) credit transfer and be able to complete the degree in 2 years as a full-time student (or equivalent part-time). More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0

Speaking	6.0
----------	-----

Professional Recognition

Graduates are entitled to apply for membership of the [Australian Community Workers Association](#)

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information call the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please phone on +61 7 3138 4831 or email nutrition@qut.edu.au

Code	Title
Year 1, Semester 1	
Students may select either LQB180 or CZB190; LQB180 is recommended if no prior (or recent) high school chemistry/maths	
LQB180	Foundations of Biochemistry
CZB190	Chemistry for Health Sciences
LQB182	Cell and Molecular Biology

Bachelor of Nutrition and Dietetics (Honours)

XNB148	Foundations in Nutrition Practice
XNB151	Food and Nutrition
Year 1, Semester 2	
CSB520	Disease Processes
LQB185	Anatomy and Physiology for Health Professionals
XNB149	Nutrition Communication
XNB150	Food Citizenship
Year 2, Semester 1	
LQB381	Biochemistry
LQB388	Medical Physiology 1
XNB255	Nutritional Epidemiology
XNB250	Food Chemistry and Technology
Year 2, Semester 2	
LQB481	Biochemical Pathways and Metabolism
LQB488	Medical Physiology 2
XNB251	Nutrition Science
XNB252	Food and Nutrition Across the Lifecycle
Year 3, Semester 1	
XNB277	Exercise and Sports Nutrition
XNB345	Advanced Nutrition Metabolism
XNB346	Nutrition Therapy Counselling and Practice 1
XNH350	Community and Public Health Nutrition
Year 3, Semester 2	
XNB347	Medical Nutrition Therapy Counselling and Practice 2
XNH348	Medical Nutrition Therapy Counselling and Practice 3
XNH356	Contemporary Management and Practice of Food and Nutrition Services
HLH401	Advanced Research Methods
Year 4, Semester 1	
Students must complete XNH448-1 and choose 3 units from the following: XNB444 and XNB445 and XNB446 and XNB447	
XNB444	Clinical Practice in Nutrition and Dietetics - Medical Nutrition Therapy (Ambulatory)
XNB445	Clinical Practice in Nutrition and Dietetics - Medical Nutrition Therapy (Acute)
XNB446	Clinical Practice in Nutrition and Dietetics - Community and Public Health Nutrition
XNB447	Clinical Practice in Nutrition and Dietetics - Foodservice Management
XNH448	Leadership in Nutrition and

-1	Dietetics Practice
Year 4, Semester 2	
Students must complete XNH4478-2 and HLH402 and complete the remaining unit from the following: XNB444, XNB445, XNB446 and XNB447	
XNB445	Clinical Practice in Nutrition and Dietetics - Medical Nutrition Therapy (Acute)
XNB447	Clinical Practice in Nutrition and Dietetics - Foodservice Management
XNB446	Clinical Practice in Nutrition and Dietetics - Community and Public Health Nutrition
XNB447	Clinical Practice in Nutrition and Dietetics - Foodservice Management
HLH402	Research Project for Honours
XNH448	Leadership in Nutrition and Dietetics Practice

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 7.0
- PTE: 65 or better overall with no subscore below 65
- TOEFL (IBT): 98 or better overall with listening and reading subscores of 24 or better, a writing subscore of 27 or better, and a speaking subscore of 23 or better
- Cambridge English Score: 185 or better overall with no subscore below 185

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Plus one of Chemistry (Units 3 & 4, C), Physics (Units 3 & 4, C) or Biology (Units 3 & 4, C).

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Plus one of Chemistry (Units 3 & 4, C), Physics (Units 3 & 4, C) or Biology (Units 3 & 4, C).

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements Additional entry requirements

You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America

If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test (refer below).

English language proficiency

QUT requires students to demonstrate that they can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 7.0
- PTE: 65 or better overall with no sub-score below 65
- TOEFL (IBT): 98 or better overall with a writing sub-score of 27 or better, listening and reading sub-scores of 24 or better, and speaking sub-score of 23 or better
- Occupational English Test (Nursing Profession) with a minimum score of 350 in each component.

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Additional entry requirements

You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America

If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test (refer below).

English language proficiency

QUT requires you to demonstrate you can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 7.0
- PTE: 65 or better overall with no sub-score below 65
- TOEFL (IBT): 98 or better overall with a writing sub-score of 27 or better, listening and writing sub-scores of 24 or better, and speaking sub-score of 23 or better

The test must have been completed within two years prior to the proposed course start month.

QTAC Deferment

Deferment is not available for this course. Please re-apply for the semester/year in which you want to study the course.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Domestic Course structure

This course has undergone some changes. From 2022, students will complete CSB373 Paramedic Management - Trauma, Neurological and Endocrine in place of CSB337 Paramedic Management of Trauma and Environmental Emergencies.

International Course structure

This course has undergone some changes. From 2022, students will complete CSB373 Paramedic Management - Trauma, Neurological and Endocrine in place of CSB337 Paramedic Management of Trauma and Environmental Emergencies.

Domestic Entry requirements Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 7.0
- PTE: 65 or better overall with no subscore below 65
- TOEFL (IBT): 98 or better overall with listening and reading subscores of 24 or better, a writing subscore of 27 or better, and a speaking subscore of 23 or better
- Cambridge English Score: 185 or better overall with no subscore below 185

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Professional recognition

Graduates are eligible for membership of the Australian Association of Social Workers (AASW) as a Social Worker. Students seeking eligibility to apply for

registration with the Psychology Board of Australia must also complete an approved additional year of study, either Bachelor of Behavioural Science (Honours Psychology), or a Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or psychology@qut.edu.au

Domestic Course structure

Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Human Services. You will undertake the two components of the double degree concurrently.

Creative Industries component

The core of the program centres on Creative Enterprise studios that offer authentic, problem-based activities, coupled with work integrated learning, skills in entrepreneurship and commercial links that engage in creative start-ups. Early in your degree, you choose 24 credit points of introductory units to experience your preferred majors, with the option to undertake defined breadth units in other relevant areas. Using this experience, you then decide upon a creative industries major.

You will complete:

- core units - 72 credit points
- creative industries introductory units - 24 credit points
- a creative industries major - 96 credit points from one of the specified majors including: Creative and Professional Writing; Media and Communication; Drama and Performance; Entertainment; Fashion Communication; Interactive and Visual Design; Music and Sound; and Screen Content Production.

Human Services component

You will complete 144 credit points of core human services units and 48 credit points of professional practice studies.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Year	2023
QUT code	ID28
CRICOS	0100982
Duration (full-time)	4 years
Duration (part-time domestic)	8 years
ATAR/Selection rank	84.00
Offer Guarantee	Yes
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2023: CSP \$6,400 per year full-time (96 credit points)
International fee (indicative)	2023: \$40,400 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Kerry Manton, Course Coordinator, Bachelor of Biomedical Science Dr Timothy Moroney, Course Coordinator, Bachelor of Mathematics
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Biomedical Science component consists of 96 credit points of core biomedical science studies and either one 72 credit point Biomedical Science Major and 24 credit points of elective units, or two Biomedical Science Minors (each worth 48 credit points).

The Mathematics component consists of 96 credit points of core units and 96 credit points of a selected major.

International Course structure

Biomedical Science component consists of 96 credit points of core biomedical science studies and either one 72 credit point Biomedical Science Major and 24 credit points of elective units, or two Biomedical Science Minors (each worth 48 credit points).

The Mathematics component consists of 96 credit points of core units and 96 credit points of a selected major.

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

And for Accounting, Finance, Economics and Marketing majors: General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them. Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information call the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

And for Accounting, Finance, Economics and Marketing majors: General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit

points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on [BS63](#) for more details.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the QUT Business School +61 7 3138 2050 or email bus@qut.edu.au

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as four psychology electives. The psychology core allows the student to complete a three-year APAC-accredited psychology sequence across four years of study.

On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

The business major can be selected from all majors offered within the [BS05 Bachelor of Business](#). The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point campus.

*Accounting major students complete six business core units and 10 accountancy major units to allow them to complete professional requirements.

International Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as four psychology electives. The psychology core allows the student to complete a three-year APAC-accredited psychology sequence across four years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

The business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the

chosen major, offered at Gardens Point.

*Accounting major students complete six business core units and 10 accountancy major units to allow them to complete professional requirements.

Bachelor of Business (Honours) Year Option

For high-achieving double degree students who wish to take further studies may enrol in BS63 Bachelor of Business (Honours).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Location

Psychology units are offered at Kelvin Grove campus and Justice Units are offered at Gardens Point campus.

Course Structure

In order to complete the Bachelor of Behavioural Science (Psychology)/Bachelor of Justice (Study Area A) you must complete a total of 384 credit points made up of:

Bachelor of Behavioural Science (Psychology) 192 credit points
 Psychology core units (12 units = 144 credit points)
 Psychology elective units (4 units = 48 credit points)

Bachelor of Justice (Study Area A) 192 credit points
 Justice core units (8 units = 96 credit points)
 Justice Study Area A Units (8 units = 96 credit points)

Professional Recognition

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional

registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PVB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the School of Justice on +61 7 3138 2707 or email lawandjustice@qut.edu.au

Domestic Course structure

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology and policing, interpersonal processes and skills, justice and society, and professional academic skills.

In second year you will expand your knowledge in social and organisational psychology, research analysis, social

Bachelor of Behavioural Science (Psychology)/Bachelor of Justice

ethics, developmental psychology and counselling. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

During the third year you will complete compulsory and elective psychology units, select your chosen justice major and complete the relevant justice major core units.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology and Advanced Statistical Analysis. You will complete two core units from your Justice majors and select two major elective units.

International Course structure

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology and policing, interpersonal processes and skills, justice and society, and professional academic skills.

In second year you will expand your knowledge in social and organisational psychology, research analysis, social ethics, developmental psychology and counselling. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

During the third year you will complete compulsory and elective psychology units, select your chosen justice major and complete the relevant justice major core units.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology and Advanced Statistical Analysis. You will complete two core units from your Justice majors and select two major elective units.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation

Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal

Bachelor of Behavioural Science (Psychology)/Bachelor of Laws (Honours)

practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Further Information

Contact the [School of Psychology and Counselling](#), or the Faculty of Law on +61 7 3138 2707 or lawandjustice@qut.edu.au, for more information about this course.

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)

- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit

- points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

Duration (full-time)	5.5 years
ATAR/Selection rank	87.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$11,900 per year full-time (96 credit points)
International fee (indicative)	2023: \$39,100 per year full-time (96 credit points)
Total credit points	528
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Discipline Coordinator	For more information email: askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- One Biomedical Science Study Area A units and two Biomedical Science elective units OR
- Two Biomedical Science Study Area B

Under the Law component, students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised

on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB (Hons) is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal

Bachelor of Biomedical Science/Bachelor of Laws (Honours) (until 2023)

practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the Faculty of Law lawandjustice@qut.edu.au or 07 3138 2707.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- Choice of ONE Biomedical Science Study Area A units plus two units from a Study Area B OR
- Choice of TWO Biomedical Science Study Areas B

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- Choice of ONE Biomedical Science Study Area A units plus two units from a Study Area B OR
- Choice of TWO Biomedical Science Study Areas B

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)

LLB341	Artificial Intelligence, Robots and the Law
LLB345	Regulating the Internet

Year	2023
QUT code	IX92
CRICOS	085233B
Duration (full-time)	4 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2023: CSP \$12,200 per year full-time (96 credit points)
International fee (indicative)	2023: \$39,000 per year full-time (96 credit points)
Total credit points	384
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Enquiries to biomedical@qut.edu.au ; Director of Studies, QUT Business School; email: askqut@qut.edu.au ; ph: +61 7 3138 2000
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Important information for business students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the QUT Business School bus@qut.edu.au or 07 3138 2050.

Sample Structure

Students complete a total of 384 credit points consisting of two components:

In the Biomedical Science component of this degree, you may choose to undertake:

- Choice of ONE Biomedical Science Major plus TWO Biomedical Science elective units OR
- Choice of TWO Biomedical Science Minors.

In the Bachelor of Business component, you complete 192 credit points:

- Business core units (8 units = 96 credit points)
- Business Major (8 units = 96 credit points).

Minimum English requirements

Students must meet the English proficiency requirements.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Professional recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the [AHPRA website](#)

Please refer to the [Podiatry Board of Australia website](#) for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the [Australian Health Practitioner Regulation Agency](#)

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Sample Structure

There is no direct entry into CS46 Bachelor of Podiatry (Honours). Students complete Year 1 and Year 2 of CS44 Bachelor of Podiatry and apply for entry into CS46.

Domestic Entry requirements

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5

Speaking	6.5

Domestic Entry requirements Adjustments to your ATAR/selection rank

Adjustments from the Year 12 Subject Scheme do not apply to this course. Any other adjustments you receive to your ATAR or selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your ATAR or selection rank](#)

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

Accreditation for the course is currently being sought with the Medical Radiation Practice Board of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Minimum English requirements

Students must meet the English proficiency requirements.

At the end of the second year of study in CS49, students with a GPA of 6 or over will have the option to apply for CS50 Bachelor of Radiation Therapy (Honours). Entry to CS50 will be competitive, based on GPA. On entry to CS50, students will retain all of the credit successfully completed in CS49 and will complete a further two years of fulltime study which will include an honours research project.

Domestic Entry requirements

A recognised bachelor degree in agriculture science, engineering, health, information technology, mathematics, science, or veterinary science with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 2 years, *plus*:

- Suitable honours topic
- Proposed honours supervisor

If you do not meet the grade point average requirement but you have:

- Excelled in the final semesters of your degree; *or*
- Completed a double degree and excelled in the relevant degree part of your double degree

you are encouraged to apply.

Places are subject to supervisor availability, infrastructure, and other required resources.

International Entry requirements

A recognised bachelor degree in agriculture science, engineering, health, information technology, mathematics, science, or veterinary science with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 2 years, *plus*:

- Suitable honours topic
- Proposed honours supervisor

If you do not meet the grade point average requirement but you have:

- Excelled in the final semesters of your degree; *or*
- Completed a double degree and excelled in the relevant degree part of your double degree

you are encouraged to apply.

Places are subject to supervisor availability, infrastructure, and other required resources.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0

Writing	6.0
Speaking	6.0

Pathways to further study

An honours qualification enhances your professional employability in your chosen discipline, and opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy, Doctor of Health Science and Master of Applied Science (Research) courses.

Professional recognition

Relevant scientific professional bodies include Australasian Graduates may seek membership of various organisations as follows:

Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, and Australian Society for Microbiology. Eligibility for membership is based on the combination of units undertaken in the Honours degree and the Bachelor course that underpins it.

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Domestic Course structure

The core of the honours program is a 48 credit point project that will provide you with the opportunity to learn about research by completing a project with an experienced researcher who acts as both supervisor and mentor. You will learn about the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

The course consists of two 12 credit point units covering advanced discipline readings and readings in biomedical science; two 12 credit point units covering research strategies; and a 48 credit point research project.

Study areas

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. [See our current student topics.](#)

Key areas of research strength include:

- cancer

Bachelor of Biomedical Science (Honours)

- chronic disease, supportive and palliative care
- environmental health
- exercise, nutrition and metabolism
- health services
- infectious diseases
- injury prevention
- mental health and wellbeing
- social determinants of health
- vision improvement
- wound and tissue restoration.

International Course structure

The core of the honours program is a 48 credit-point project that will provide you with the opportunity to learn about research by completing a project with an experienced researcher who acts as both supervisor and mentor. You will learn about the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

The course consists of two 12 credit point units covering advanced discipline readings and readings in biomedical science; two 12 credit point units covering research strategies; and a 48 credit point research project.

Study areas

Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation

Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal

Bachelor of Behavioural Science (Psychology)/Bachelor of Laws (Honours)

practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Further Information

Contact the [School of Psychology and Counselling](#), or the Faculty of Law on +61 7 3138 2707 or lawandjustice@qut.edu.au, for more information about this course.

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)

- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit

- points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- One Biomedical Science Study Area A units and two Biomedical Science elective units OR
- Two Biomedical Science Study Area B

Under the Law component, students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised

on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB (Hons) is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal

Bachelor of Biomedical Science/Bachelor of Laws (Honours) (until 2023)

practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the Faculty of Law lawandjustice@qut.edu.au or 07 3138 2707.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Course Coordinator	Enquiries to psychology@qut.edu.au ; +61 7 3138 2000;
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

You must have:

- A completed bachelor degree in psychology completed within the past ten years (2013 or later) with a minimum grade point average (GPA) of 5.00 (on QUT's 7-point scale).

Your degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as an entry point into an honours program; e.g. Bachelor of Behavioural Science (Psychology) at QUT.

If you have an overseas qualifications you must provide certification with your application from the [Australian Psychological Society \(APS\)](#) stating your degree is equivalent to equivalent to an APAC-approved, 3-year training in psychology. The Australian Psychological Society advises the average processing time is eight weeks, therefore you will need to seek certification by no later than July.

Additional entry requirements

You must have:

- A grade of at least 4.00 (on QUT's 7-point scale) for each of the APAC-accredited second and third year psychology units listed below.
- A grade point average of at least 5.30 (on QUT's 7-point scale) across all attempts of the listed APAC accredited second- and third-year psychology units listed below.
- Successful completed an APAC-accredited advanced statistical analysis unit at third-year level.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis.

Similar APAC-accredited subjects are required for studies completed at another institution.

Selection process

Entry to this course is competitive as places are limited. All applications will be considered in two groups of:

- QUT's Bachelor of Behavioural Science (Psychology) single and double degree graduates; and
- All other applicants.

Eligible applicants are selected in order of merit based on their APAC accredited second and third year psychology units GPA.

Application dates

- 1 July: applications open
- 30 September: final date to apply and provide all required supporting documentation. Applications or supporting documentation received after this date will not be considered.
- Mid-December: Application outcomes released.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale).

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as an entry point into an honours program; e.g. Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with overseas qualifications must provide certification from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to the APAC-approved, three-year training in psychology. The APS advises that the average processing time is 8 weeks, therefore applicants with overseas qualifications are strongly encouraged to seek certification by no later than July.

Additional entry information

- A grade of at least 4.0 (on QUT's 7-point scale) for each of the APAC-accredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and third-year psychology units listed below.
- Successful completion of an APAC-accredited *advanced statistical analysis* unit at third-year level.

Bachelor of Behavioural Science (Honours Psychology)

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis

Similar APAC-accredited subjects are required for studies completed at another institution.

Selection process

Entry to this course is competitive as places are limited. All applications will be considered in two groups of QUT's Bachelor of Behavioural Science (Psychology) single and double degree graduates; and all other applicants.

Eligible applicants are selected in order of merit based on their APAC accredited second and third year psychology units GPA

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year. Applicants will be notified of their application outcomes in mid-December.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Successful completion of the Bachelor of Behavioral Science (Honours Psychology) meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional

registration. For further information visit the AHPRA website:
<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website:
<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

International Student Entry

International students may enrol only in full-time studies.

Please refer to the Psychology Board of Australia website
<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for information on the Board's English Language Skills Registration Standard.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The honours program comprises eight units, which can be completed in full-time or part-time study mode.

Core units include PYH401 Advanced Research Methods, PYH402 Counselling Psychology and PYH407 Research and Professional Development Seminar. There is one elective unit. Students can be chose from Cognitive and Neuropsychology or Social and Developmental Psychology as their elective. Core units require 3 contact hours per week, and electives are offered in intensive formats.

This course also includes a research component, which entails an individual thesis. PYH400-1to4 Thesis is undertaken in modules throughout the program. Initially students complete a research plan, which sets out the rational and methodology of the project. This is followed by data collection, analysis and writing-up the research thesis. Contact hours for the research component are as required by the project and supervisor.

International Course structure

Domestic Entry requirements Adjustments to your ATAR/selection rank

The Year 12 Subject Scheme adjustments do not apply to this course.

Any other adjustment you receive to your ATAR or selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your ATAR or selection rank](#)

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and other subscore below 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please phone on +61 7 3138 4831 or email nutrition@qut.edu.au

International Entry requirements

Academic entry requirements Environmental Health major

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline; *and* a minimum of 48 credit points (equivalent of one semester full time study) of basic science units that were completed at the bachelor degree level *and* must include:

- 12 credit points (one subject) of foundation chemistry; *and*
- 36 credit points in other science areas (e.g. microbiology, physics, anatomy and physiology, life science).

Pathway leading to [Master of Health, Safety and Environment \(Environmental Health\)](#)

Graduate Certificate in Communication for Health (Environmental Health) (1 semester) February or July entry leading to PU80 Master of Health, Safety and Environment (Environmental Health) (4 semesters) February or July entry.

Nursing major

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in nursing; or a completed recognised associate degree in nursing and one of year work experience as a registered nurse (or equivalent).

The Master of Advanced Practice Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the [Australian Health Practitioner Regulation Agency](#) for further advice or consider our [Master of Nursing - Entry to Practice](#) program.

Pathway leading to [Master of Advanced Practice Nursing](#)

Graduate Certificate in Communication for Health (Nursing) (1 semester) into:

- February or July entry leading to NS80 Master of Advanced Practice Nursing (Chronic Health Care Nursing) (3 semesters) February or July entry.
- February or July entry leading to NS80 Master of Advanced practice Nursing (Health Professional Education) (3 semesters) February or July entry.
- February or July entry leading to NS80 Master of Advanced practice

Nursing (Cross- Specialisation) (3 semesters) February or July entry.

Public Health major

Occupational Health and Safety

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Pathway leading to [Master of Health, Safety and Environment \(Occupational Health and Safety\)](#)

Graduate Certificate in Communication for Health (Public Health) (1 semester) February or July entry leading to PU80 Master of Health, Safety and Environment (Occupational Health and Safety) (4 semesters) February or July entry.

Public Health

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Pathway leading to [Master of Public Health](#)

Graduate Certificate in Communication for Health (Public Health) (1 semester) February or July entry leading to PU86 Master of Public Health (3 semesters) February or July entry (48 credit points advanced standing).

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

You must have one of the following:

- A recognised bachelor degree (or higher qualification) in any discipline
- A recognised diploma qualification (or higher qualification) with at least 2 years full-time (or equivalent) professional work experience plus at least 1 year full-time (or equivalent) in a supervisory or leadership role (e.g. with responsibility for decision making, team work, quality assurance, and/or policy development); or
- Current registration within your field of practice with a nationally recognised professional body with at least 3 years full-time (or equivalent) professional work experience
- At least 7 years full-time (or equivalent) professional experience in a supervisory or leadership role (e.g. with responsibility for decision making, team work, quality assurance, and/or policy development).

International Entry requirements

Academic entry requirement

A completed recognised bachelor degree in any discipline; or

A completed recognised diploma qualification (or higher award) with at least three years full-time equivalent (FTE) professional work experience which includes at least one year in a supervisory or leadership role (e.g. with responsibility for decision making, team work, quality assurance, and/or policy development); or

Current registration within the applicant's field of practice with a nationally recognised professional body with at least three years full-time equivalent (FTE) professional work experience

For applicants working in a field of practice that does not have a nationally recognised professional body, at least seven years full-time equivalent (FTE) professional experience in a supervisory or leadership role (eg: with responsibility for decision making, team work, quality assurance, and/or policy development).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Structure

Students are required to complete four units (totaling 48 credit points) from one study area.

Study areas

- Emergency and disaster management (part-time only available)
- Environmental health
- Health promotion (part-time only available)
- Health services management (part-time only available in 2015)
- Occupational health and safety
- Quality and patient safety (part-time only available)
- Risk management

International students starting in February may specialise in:

- Environmental Health
- Health Services Management
- Occupational Health and Safety
- Risk Management

International students starting in July may specialise in:

- Environmental Health
- Occupational Health and Safety

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Further Information

For information about this course, please contact the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students in the Graduate Certificate in Health Science complete four units from one study area. To complete a major, students must complete at least four units from the same study area within the Faculty of Health. Students can graduate with one specified major only.

Study areas

Study areas are offered in the following:

- Emergency and Disaster Management
- Environmental Health*
- Health Policy and Planning
- Health Promotion
- Health Services Management
- Occupational Health and Safety*
- Quality and Patient Safety

* Students wishing to complete a graduate diploma qualification in Environmental Health or Occupational Health and Safety should apply for entry into the [Graduate Diploma in Environmental Health](#) or [Graduate Diploma in Occupational Health and Safety](#).

Domestic Entry requirements

Entry requirements
You must have a recognised bachelor degree (or higher award) completed within the last 10 years (2013 or later) in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your studies was completed more than 10 years ago (2012 or earlier) you must also have professional work experience relevant to your studies and/or genomics and:

- It is at least 5 years full-time (or equivalent) gained within the last 10 years; *or*
- You are currently employed with at least 1 year full-time (or equivalent) gained within the last 3 years.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum Grade Point Average (GPA) score of 4.00 on QUT's 7 point scale completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience; and; or further studies since course completion with your application for it to be considered.

Additional course requirements

Acute Care Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Cross-specialisation - Gastroenterology

The specialist gastroenterology units are currently only available to nurses currently working for Queensland Health.

Pathways to future study

The Graduate Certificate in Nursing fully articulates with the Master of Nursing.

International students

The Graduate Certificate in Nursing is offered part-time only in internal or external mode and is not available to international students.

Further information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice. The following study areas are offered:

- acute care nursing
- cancer nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- chronic health care nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialities or electives.

Acute Care Nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced

Graduate Certificate in Nursing

concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months

FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Chronic health care nursing

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Health Professional Education

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice.

This option has no additional professional experience requirements.

Gastroenterology nursing

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

NO major option

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Domestic Entry requirements

Entry requirements

You must have:

- a recognised bachelor degree (or higher qualification) in a relevant allied health field (e.g. medical radiation, nursing, podiatry or physiotherapy)
- access to suitable clinical experience in medical ultrasound for the duration of the course

Additional entry requirements

You must provide with your online application a completed [Clinical Supervisor form \(PDF file, 108 KB\)](#).

Overseas qualifications

We will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and no other subscore lower than 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Course Structure

The course takes four semesters of part-time study to complete. Lectures are conducted in an intensive one week block at the start of semesters 1, 2 and 3 in the standard part-time program. Students undertake clinical experience throughout each semester.

Professional Recognition

This course is accredited with the [Australasian Sonographer Accreditation Registry \(ASAR\)](#)

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Course structure

The graduate diploma takes four semesters of part-time study to complete. All students are invited to attend an intensive one-week block of classes at the beginning of the first three semesters. Students undertake clinical experience throughout the semester and need to maintain access to suitable clinical experience for the duration of the course.

Domestic Entry requirements

You must have:

- a recognised bachelor degree (or equivalent) in a relevant science or allied health field (e.g. medical imaging science, biomedical science or nursing)
- a minimum of 3 months full-time equivalent supervised hands-on clinical experience in cardiac ultrasound

Additional entry requirements

You must provide with your online application a completed [Clinical supervisor form \(PDF, 331 KB\)](#).

Closing date

The final date to apply is 14 December. Applications for the following intake will open 1 July.

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and no other subscore lower than 20
- Cambridge English Score: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Minimum English requirements

Students must meet the English proficiency requirements.

Professional Recognition

This course is accredited with the [Australasian Sonographer Accreditation Registry \(ASAR\)](#)

Further Information

For more information about this course, please contact the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Course structure

The Graduate Diploma in Cardiac Ultrasound takes two years of part-time study to complete. Students attend an on-campus block in semesters 1 and 3 of the course and a final, clinical exam in semester 4.

The structure of this course includes:

- formal classroom components and clinical skills development sessions conducted during the intensive on-campus blocks
- comprehensive online lectures and self-assessment tutorials.

Applicants will need to maintain access to suitable clinical experience for the duration of the course.

Domestic Entry requirements

You must have a recognised bachelor degree (or higher award) completed within the last 10 years (2013 or later) in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your studies was completed more than 10 years ago (2012 or earlier) you must also have professional work experience relevant to your studies and/or genomics and:

- It is at least 5 years full-time (or equivalent) gained within the last 10 years; or
- You are currently employed with at least 1 year full-time (or equivalent) gained within the last 3 years.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum Grade Point Average (GPA) score of 4.00 on QUT's 7 point scale completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience; and; or further studies since course completion with your application for it to be considered.

Minimum English requirements

Students must meet the English proficiency requirements.

Study areas

Specialised study areas are available in the areas of:

- Emergency and Disaster Management
- Epidemiology and Research Methods*
- Health Promotion
- Health Services Management
- Health, Safety and Environment

There is also the option of not completing a major and choosing units from more than one study area.

* Some units are available only in internal mode.

Course Articulation

This course fully articulates into the Master of Public Health.

Students admitted to the Graduate Diploma in Public Health may be eligible to exit early with a Graduate Certificate in Health Science.

International Student Entry

International students may only enrol in full-time studies. PU60 international students may not enrol in the Emergency and Disaster Management Major, as it is available part-time only.

Further information

For information about this course, please call the School of Public Health and

Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

The Graduate Diploma consists of eight units. Students complete four core units plus four advanced elective units which may be taken from a specialist study area.

Study areas

Specialised study areas are available in the areas of:

- Disaster and Emergency Response
- Epidemiology and Research Methods*
- Health Promotion

There is also the option of completing a cross specialisation instead of a major enabling you to choose units from more than one study area (major).

* Some units are available only in internal mode.

Domestic Entry requirements

- A recognised bachelor degree (or higher qualification) in any discipline; or
- A recognised diploma (or higher qualification) in occupational health and safety followed by at least 3 years full-time (or equivalent) work experience in an occupational health and safety role.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Other course requirements

The course is offered internally and externally and all the study material and lecture recordings are made available to both internal and external students. In some units on-campus workshops are held for both internal and external students. Attendance at these workshops is not compulsory, although it is encouraged. Students, particularly external students, will need a reliable internet connection and up-to-date hardware (including a multimedia headset with microphone) and up-to-date software. Some units include pod-casts and on-line discussion forums.

Course articulation

This course fully articulates into the Master of Health, Safety and Environment.

Professional recognition

This course is accredited with the Australian OHS Education Accreditation Board.

International student entry

International students may only enrol in full-time studies on-shore, but may enrol full-time or part-time off-shore.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

As a student you will:

- Discuss and analyse risk assessment methods including risk analysis techniques such as HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis and probability.
- Explore the impact of legislation and industrial relations on the management of OHS, including the regulation of physical, biological, and chemical hazards.
- Learn about the nature of materials in regards to failure, fire, and explosions and how to configure appropriate safety systems including storage, handling and transport of hazardous materials.
- Analyse the theory and practice of OHS management and how the structure of an organisation, its environment, and potential loss exposures contribute to risk management.
- Understand the role of ergonomics in optimising OHS and productivity, and develop skills in analysing the relationships between the worker, the work space, and the environment.
- Explore health hazards in the workplace which can result in disease and disorders, including occupational skin conditions, respiratory diseases, mental disorders, cancer, musculoskeletal disorders and the needs of special groups.
- Learn about toxicology and the recognition, evaluation and control of chemical and physical hazards and how to provide professional judgement in investigating,

Graduate Diploma in Occupational Health and Safety

analysing, and evaluating workplace hazards.

International Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

As a student you will:

- Discuss and analyse risk assessment methods including risk analysis techniques such as HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis and probability.
- Explore the impact of legislation and industrial relations on the management of OHS, including the regulation of physical, biological, and chemical hazards.
- Learn about the nature of materials in regards to failure, fire, and explosions and how to configure appropriate safety systems including storage, handling and transport of hazardous materials.
- Analyse the theory and practice of OHS management and how the structure of an organisation, its environment, and potential loss exposures contribute to risk management.
- Understand the role of ergonomics in optimising OHS and productivity, and develop skills in analysing the relationships between the worker, the work space, and the environment.
- Explore health hazards in the workplace which can result in disease and disorders, including occupational skin conditions, respiratory diseases, psycho-social stress, musculoskeletal injuries and the needs of special groups.
- Learn about toxicology and the recognition, evaluation and control of chemical and physical hazards and how to provide professional judgement in investigating, analysing, and evaluating workplace hazards.

Domestic Entry requirements

You must have a recognised bachelor degree (or higher award) in any discipline.

Additional entry requirements

You must have the following:

- A minimum of 48 credit points (equivalent of one semester full time study) of recognised basic science units completed in a recognised bachelor degree *and* must include: 12 credit points (one subject) of foundation chemistry; *and* 36 credit points (three subjects) in other science areas (e.g. microbiology, physics, anatomy and physiology, life science, environmental science).

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline; *and*

A minimum 48 credit points (equivalent of one semester full-time study) of recognised basic science units that were included at Bachelor level and must include:

- a minimum of 12 credit points (one subject) of foundation chemistry; *and*
- a further 36 credit points (equivalent to three subjects) in other science areas (e.g. microbiology, physics, anatomy and physiology, life science, environmental science).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

This course is accredited with Environmental Health Australia and graduates are eligible to practise as Environmental Health Officers.

Course Articulation

This course articulates into the Master of Health, Safety and Environment.

International Student Entry

International students may enrol only in full-time programs in internal mode.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available.

Note: All students are encouraged to attend on campus workshops in six units. The workshops focus on developing practical skills which employers consider desirable.

International Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available.

Note: All students are encouraged to attend on campus workshops in six units. The workshops focus on developing practical skills which employers consider desirable.

Domestic Entry requirements

You must have a recognised bachelor degree (or higher award) completed within the last 10 years (2013 or later) in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your studies was completed more than 10 years ago (2012 or earlier) you must also have professional work experience relevant to your studies and/or genomics and:

- It is at least 5 years full-time (or equivalent) gained within the last 10 years; or
- You are currently employed with at least 1 year full-time (or equivalent) gained within the last 3 years.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum Grade Point Average (GPA) score of 4.00 on QUT's 7 point scale completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience; and; or further studies since course completion with your application for it to be considered.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

You must have:

- A recognised bachelor degree (or higher) in nursing.
- Current registration as a Nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

International Entry requirements

Academic entry requirements

You need either:

- a completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in nursing; *or*
- a completed recognised associate degree in nursing and one of year work experience as a registered nurse (or equivalent).

The Master of Advanced Practice Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the [Australian Health Practitioner Regulation Agency](#) for further advice or consider our [Master of Nursing - Entry to Practice](#) program.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or no specialisation. You will have the option to study either the Project Stream or the Dissertation Stream. The Project Stream is recommended for nurses wishing to pursue a career as Nurse Unit Managers, Clinical Nurse Consultants, Directors of Nursing or Clinical Nurse Educators. The Dissertation Stream is recommended for

nurses wishing to pursue a career as Nurse Researchers, Nurse Academics or progress onto a PhD.

Additional electives are available to students undertaking the Project Stream.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health care nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialisations or electives.

Acute care nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health care nursing

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice

opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an

acute paediatric setting.

Health professional education

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice. Students implement and evaluate learning and teaching activities in diverse settings and critically reflect on the effectiveness of a learning program including assessment review.

This option has no additional professional experience requirements.

Gastroenterology nursing

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

No major option

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

International Course structure

International students can only undertake no major or a major in:

- chronic health care nursing
- health professional education.

No major provides the option of choosing units from more than one study area.

Sample Structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or no major. All students undertake research studies by choosing a project or thesis pathway. Additional electives are

available to students undertaking the project pathway.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health care nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialities or electives.

Acute care nursing - Domestic Students Only

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing - Domestic Students Only

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health care nursing - Domestic or International Students

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing - Domestic Students Only

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting; and
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing - Domestic Students Only

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine; and
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing - Domestic Students Only

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Health Professional Education - Domestic or International Students

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice.

This option has no additional professional experience requirements.

Gastroenterology nursing - Domestic Students Only

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

No major option - Domestic or International Students

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

Domestic Entry requirements

Prior study entry requirement

A completed postgraduate qualification from a recognised higher education institution in a relevant clinical field.

Registration entry requirement

Current registration as a nurse (Division 1) without conditions with the Australian Health Practitioner Regulation Agency.

Clinical practice entry requirements

You must:

- Be currently working in an advanced nursing practice role; *plus*
- Have a minimum of four years full-time (or equivalent) clinical practice experience as a registered nurse in the nominated speciality; *plus*
- Have a minimum of two years full-time (or equivalent) experience (within the last six years) in an advanced nursing practice role* in the nominated speciality; *plus*
- Have the support of your Executive Director of Nursing (or equivalent).

Additional entry requirements

You must provide with your online application:

- a statement of service on an official letterhead confirming your clinical practice experience as a registered nurse in the nominated speciality; *and*
- a [letter supporting advanced practice \(PDF, 292 KB\)](#) confirming your recent clinical practice experience in an advanced nursing practice role in the nominated speciality area; *and*
- a [letter of support from the Executive Director of Nursing \(or equivalent\) \(PDF, 174 KB\)](#) confirming their support for you to undertake the course; *and*
- a completed [applicant details form \(PDF, 190 KB\)](#).

Application dates

Applications open in October.

Places are limited. Apply as early as possible to ensure your application is considered.

31 January is the final date to apply but the course will close earlier if places have filled. Late applications will not be considered and cannot be submitted. Applications for the next intake will open 1 July.

Additional information

Postgraduate qualifications: Hospital and professional training, certificates etc are not acceptable in lieu of a higher education postgraduate qualification. Incomplete postgraduate studies are also not acceptable.

Advanced practice nursing: For a definition please refer to the [Fact Sheet](#) for Advanced practice nursing issued by the Nursing and Midwifery Board of Australia (NMBA).

Minimum English requirements

Students must meet the English proficiency requirements.

Sample Structure

Information for students commencing from 2018

Some units are being replaced. See each semester for changes to your course.

Information for students commencing from 1 January, 2022

Students commencing from 1 January, 2022 will be admitted into NS90 Master of Practitioner course.

Domestic Entry requirements

Entry requirements
You must have a completed recognised bachelor degree (or higher qualification) not in nursing in 2013 or more recently.

If you completed your degree (or higher qualification) earlier than 2013 you must provide evidence with your QTAC application of five years full-time (or equivalent) professional work experience gained in 2013 or more recently.

Selection ranks

You will be considered solely on the basis of the selection ranks from all of your prior degree and higher studies you may have undertaken. Your other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

[Find out more about how to Apply with Higher Education Study](#)

Additional entry requirements

You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America

If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test (refer below).

English language proficiency

QUT requires you to demonstrate you can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 7.0
- PTE: 65 or better overall with no sub-score below 65
- TOEFL (IBT): 98 or better overall with a writing sub-score of 27 or better, listening and reading sub-scores of 24 or better, and speaking sub-score of 23 or better
- Occupational English Test (Nursing

Profession) with a minimum score of 350 in each component.

The test must have been completed within two years prior to the proposed course start month.

Adjustments to your selection rank

Any adjustments you receive to your selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your election rank](#)

International Entry requirements

Entry requirements

Prior bachelor degree in any discipline (not nursing)

You must have a completed recognised bachelor degree not in nursing completed within the past 10 years with a minimum grade point average (GPA) or 4.00 or higher (on QUT's 7 point scale).

If your bachelor degree was awarded more than 10 years ago you will be eligible for entry if you have one of:

- completed additional postgraduate studies equivalent to Australian Graduate Certificate or higher within 10 years of the planned date of course commencement; or
- have 5 years of professional work experience (within ten years of the planned date of course commencement). If you are applying on the basis of work experience must submit a detailed CV, position details and employment statements.

Prior bachelor degree in nursing

You must have a completed recognised overseas nursing bachelor degree completed within the past 10 years with a minimum grade point average (GPA) of 4.00 (on QUT's 7 point scale).

If your overseas nursing bachelor degree was awarded more than 10 years ago will be eligible for entry if you have one of:

- evidence of current registration as a nurse; or
- evidence of work experience as a registered nurse no more than five years prior to the planned date of course commencement. If you are applying on the basis of work experience must submit a detailed CV, position details and employment statements.

2023 Applications Closed

This course has filled for 2023 and applications for 2023 can no longer be submitted. Applications for 2024 are open.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Entry requirement

Completion of QUT's Bachelor of Vision Science within the last two years with a minimum grade point average (GPA) of 4.00.

Additional information

Current QUT Bachelor of Vision Science students will automatically receive an offer within three weeks of course completion.

Deferment

This course is open to deferment. Requests are made by responding to the offer email.

International Entry requirements

Academic entry requirements

Successful completion of QUT's Bachelor of Vision Science with a minimum grade point average (GPA) score of 4.0 on QUT's 7 point scale completed within two years of commencing the Master of Optometry.

Students who have not completed QUT's Bachelor of Vision Science

The Master of Optometry course provides the second component of the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree entry-level program which leads to registration as an optometrist for practice in the optometry profession in Australia. It is not designed to provide qualified optometrists with a masters level qualification.

If you already have an optometry qualification and are seeking to practice as an optometrist in Australia, you should contact the Optometry Council of Australia and New Zealand (www.ocanz.org) regarding the assessment process for overseas trained optometrists wishing to practice optometry in Australia. If you wish to obtain an Australian optometry qualification then you will need to apply for the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree award. Your previous overseas studies in optometry may be considered for advanced standing towards the five-year program.

Your application for OP45/OP85 should include:

- Details of your Optometry/Vision Science undergraduate degree

including course overview and unit outlines.

- Details of any assessment regarding your qualifications you may have received from the Optometry Council of Australia and New Zealand

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Optometry Board of Australia website <http://www.optometryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4697 or email optometry@qut.edu.au

Domestic Entry requirements

2.0 year program

You must have a recognised bachelor degree (or higher qualification) in any discipline.

1.5 year program

You must have one of the following:

- A recognised bachelor degree (or higher qualification) in health, business or law; *or*
- A recognised bachelor degree (or higher qualification) in any other discipline *plus* at least 3 years full-time (or equivalent) professional experience working in health middle management (or higher).

1 year program

You must have completed

QUT's [Graduate Diploma in Health Management](#) within the last 7 years.

0.5 year program

You must have completed

QUT's [Graduate Diploma in Health Management](#) within the last 7 years *plus* one of the following:

- A recognised bachelor degree (or higher qualification) in health, business or law; *or*
- A recognised bachelor degree (or higher qualification) in any other discipline *plus* at least 3 years full-time (or equivalent) professional experience working in health middle management (or higher).

International Entry requirements

2 year program

A completed recognised bachelor degree (or higher) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

1.5 year program

A completed recognised bachelor degree (or higher award):

- in health, business or law with a minimum grade point average of 4.0 (on QUT's 7 point scale); *or*
- in any other discipline with a minimum grade point average of 4.0 (on QUT's 7 point scale) *and* with at least 3 years (full-time or equivalent) experience working in health management at a middle to senior level. Middle to senior level experience is defined as experience in a supervisory or leadership role (e.g. with responsibility for decision making, team work, quality

assurance and/or policy development.

Students applying on the basis of work experience must submit a detailed CV, position details and employment statements

You do not need to apply for the 1.5 year program as you will be automatically assessed for eligibility as part of QUT's application for admission process.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Domestic Course structure

Students who have been awarded advanced standing and are undertaking the 1.5 year program are required to complete a total of 144 credit points for the award of the degree.

• You must complete six core units and one research methods unit.

• You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.

• If you wish to undertake a specialisation, then you will need to complete two core units from the specialisation and undertake your project or internship in that field.

• You may choose electives from across the program to complete your 144 credit points.

Students undertaking the 2 year program are required to complete 192 credit points of study.

• You must complete six core units and one research methods unit.

• You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.

Master of Health Management

If you wish to undertake a specialisation, then you will need to complete at least two core units from the specialisation and either complete two other units from the choices available or undertake your project or internship in that field.

Students who wish to proceed to a research higher degree (e.g. PhD) should undertake a dissertation.

Professional recognition

The program is designed to meet the accreditation requirements of The Australasian College of Health Service

Managers (ACHSM) subject to their experiential and other requirements.

The MHM also meets the academic component for medical practitioners who are seeking Fellowship of the Royal Australasian College of Medical Administrators (RACMA). Obtaining Fellowship is subject to the other experiential and examination requirements of RACMA.

International Course structure

Domestic Entry requirements 2-year program

You must have a recognised bachelor degree (or higher qualification) in any discipline.

1.5-year program: all majors

You must have a recognised bachelor degree in one of the following disciplines:

- Behavioural science, psychology
- Health information management
- Medicine (Australian degrees only)
- Nursing
- Nutrition, dietetics
- Paramedic science
- Public health

1.5-year program: cross specialisation

You must have a recognised bachelor degree in one of the following disciplines:

- Any other health discipline not listed above
- Biomedical science
- Human services
- Journalism
- Media and communication
- Medical laboratory science
- Social work

International Entry requirements

Academic entry requirements

Master of Public Health - 2 year program

A completed recognised bachelor degree (or higher) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Master of Public Health - 1.5 year program

Applicants who have a completed recognised bachelor degree with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in health will be eligible for 48 credit points of advanced standing which will reduce your course to three semesters full-time (1.5 years).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0

Writing	6.0
Speaking	6.0

Majors

Flexible plan
 Emergency and disaster management
 Epidemiology and research methods
 Health promotion
 Health, Safety and Environment
 Health services management

Course articulation

The Graduate Diploma in Public Health fully articulates into the Master of Public Health.

Students admitted to the Master of Public Health may be eligible to exit early with a Graduate Diploma in Public Health or a Graduate Certificate in Health Science, depending on choice of units.

International student entry

International students may only enrol in full-time studies.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

The Master of Public Health consists of 192 credit points. You must complete 96 credit points of core units (eight units); a 48 credit point major (four units) and up to 48 credit points of research studies.

You will need to choose your major when commencing this degree as course structure is related to your major.

You may choose to undertake a 48 credit point dissertation or a 24 credit point research project. If you undertake the 24 credit point research project, you will have 24 credit points of electives available.

Majors available are:

- disaster and emergency response
- epidemiology and research methods
- health promotion

Students are also able to complete a cross-specialisation and complete units from more than one major.

International Course structure

The Master of Public Health consists of 192 credit points. You must complete 96 credit points of core units (eight units); a

Master of Public Health

48 credit point major (four units) and up to 48 credit points of research studies.

You will need to choose your major when commencing this degree as course structure is related to your major.

You may choose to undertake a 48 credit point dissertation or a 24 credit point research project. If you undertake the 24 credit point research project, you will have 24 credit points of electives available.

Majors available are:

Duration (part-time domestic)	3 years
Campus	Kelvin Grove
Domestic fee (indicative)	2023: \$16,900 per year full-time (72 credit points)
International fee (indicative)	2023: \$24,000 per year full-time (72 credit points)
Total credit points	144
Start months	January Entry into this course is competitive and applications will be accepted until 30 September for the January intake.
Int. Start Months	January Entry into this course is competitive and applications will be accepted until 30 September for the January intake.
Course Coordinator	Enquiries to psychology@qut.edu.au ; +61 7 3138 2000;
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

You must have one of:

- A recognised bachelor degree in a relevant discipline with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale); *or*
- A recognised bachelor honours, graduate certificate, graduate diploma, master, or doctorate degree in any discipline area with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale).; *or*
- A recognised bachelor degree in any discipline with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale) followed by at least three years full-time (or equivalent) work in a relevant field.

Relevant discipline/field

- Behavioural science, psychology
- Biomedicine, biomedical, medical science
- Counselling
- Education
- Human services
- Human resources management
- Health (eg nursing, medicine, public health etc)
- Leisure management
- Social science, sociology
- Social, youth etc work

Relevant work experience

Relevant work experience could include:

- The facilitation and management of ongoing helping relationships that employs intentional use of therapeutic conversation and a therapeutic relationship; *and/or*
- Volunteer or community work that is supervised/mentored within an ethical framework; *and/or*
- Work that provides opportunities and support for professional development and reflective helping practice, including the provision of feedback and training.

You will need to provide with your application, your CV plus statements of service for most recent relevant employment. If you have been employed for less than one year full-time in most relevant employment you will need to provide a statement of service from your previous relevant employer.

Additional entry requirements

You must:

- Provide a [personal statement \(PDF file, 186 KB\)](#)
- If shortlisted, attend in-person group interview to assess your suitability for the program and interpersonal

skills in a counselling context.

Overseas qualifications

We will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 7.0
- PTE: 65 or better overall with no subscore below 65
- TOEFL (IBT): 98 or better overall with a writing subscore of 27 or better, listening and reading subscore of 24 or better, and speaking subscore of 23 or better
- Cambridge English Score: 185 or better overall with no subscore below 185

The test must have been completed within 2 years prior to the proposed course start month.

Application dates

- 1 July: applications open
- 30 September: final date to apply and provide all required supporting documentation. Applications or supporting documentation received after this date will not be considered.

Selection process

Suitable applicants are shortlisted or placed on a wait list for an interview based on the responses in their personal statement.

Shortlisted applicants will be contacted in mid-October to attend the in-person group interview at the Kelvin Grove campus in late October/early November. Wait listed applicant may be interviewed in late November/early December should places remain available.

Interviewed applicants will receive notification on the outcome of their application two weeks after their interview.

International Entry requirements

Academic entry requirements

A completed recognised:

- bachelor degree in health, education, or human resource management with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale; *or*
- Australian honours bachelor degree in any discipline with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale; *or*
- graduate certificate, graduate diploma, masters or doctorate degree in any discipline area with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale; *or*
- bachelor degree in any discipline with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale and with a minimum three years full-time equivalent relevant* experience.

*Relevant work experience could include:

- The facilitation and management of ongoing helping relationships and that employs intentional use of therapeutic conversation and a therapeutic relationship;
- Volunteer or community work that is supervised/mentored within an ethical framework;
- Work that provides opportunities and support for professional development and reflective helping practice, including the provision of feedback and training.

Students applying on the basis of work experience must submit a detailed CV including position details and employment statements.

Additional entry requirement

- Provide a [personal statement \(PDF file, 830 KB\)](#). The personal statement must be included with your application.
- If shortlisted, participate in a group interview to assess your suitability for the program and interpersonal skills in a counselling context. International students who are not currently in Australia will be invited to participate via Zoom.

Selection process

Suitable applicants are shortlisted or placed on a wait list for an interview based on the responses in their personal statement.

Shortlisted applicants will be contacted in mid-October to attend the in-person group interview at the Kelvin Grove campus in late October/early November.

Interviewed applicants will receive notification on the outcome of their application two weeks after their interview.

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year.

This is the final date to apply and provide all required supporting documentation. Applications or supporting documentation received after this date will not be considered.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

International Student Entry

This course is not available to international students.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The Master of Counselling is offered on a full-time basis over two years or a part-time basis over three or four years. Units are delivered in intensive, evening and weekend format.

This course has an applied, experiential focus which features brief solution-focused and narrative therapies, family therapy, process-experiential therapy, group work and supervision. Student learning is supported by facilitated small group work which offers a strong practical component and students will use the purpose-built Psychology and Counselling Clinic for clinical practice.

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

You must have:

- A recognised psychology honours or 4-year bachelor degree (or higher) in psychology completed within the last 10 years (2013 or later)*; *and*
- A minimum fourth year psychology units grade point average (GPA) of 6.00 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

Your degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a 4-year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

If you have an overseas qualifications you must provide certification with your application from the [Australian Psychological Society \(APS\)](#) stating your degree is equivalent to an APAC-approved, 4-year training in psychology. The Australian Psychological Society advises the average processing time is eight weeks, therefore you will need to seek certification by no later than July.

Additional entry requirements

You must:

1. Ask two referees to provide us with confidential reports via the [Psychology Reference System](#). You will also need to ensure that you have shared these reports with QUT in the Psychology Reference System. *Please note: This system is the same across many Australian universities. To be able to use the system, you will need to have an active annual subscription. The cost is \$25.00 and can be paid for through the "My Account" section in the payment tab.*
2. Provide a completed [questionnaire \(PDF file, 186 KB\)](#).
3. Provide your current CV.
4. Attend an interview, if shortlisted.

Overseas qualifications

We will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 7.0
- PTE (Academic): 65 or better overall with no subscore below 65
- TOEFL (iBT): 98 or better overall with a writing subscore of 27 or better, listening and reading subscore of 24 or better, and speaking subscore of 23 or better
- Cambridge English Score: 185 or better overall with no subscore below 185

The test must have been completed within 2 years prior to the proposed course start month.

Application dates

- 1 July: applications open
- 30 September: final date to apply and provide all required supporting documentation. Applications or supporting documentation received after this date will not be considered.

Selection process

Applicants are shortlisted for interviews in priority order based on their GPA, referee reports and questionnaire. Shortlisted applicants for the first round will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context. If required, a second round of in-person interviews will be conducted in late November/early December.

Admission is based on GPA, interview, questionnaire, and referee reports. Mid-November is when first round of offers will be issued to selected interviewed applicants along with notifications to unsuccessful applicants. If you were interviewed or did not receive an outcome in mid-November, your application is being held for consideration in late November/early December should places become available.

*Qualifications completed more than 10 years ago

If you completed your degree with the required GPA more than 10 years ago, you must either:

- Successfully complete refresher

- training (see below); or
- Provide evidence of current registration as a psychologist with the Psychology Board of Australia.

Refresher training

You are recommended undertake the following units at QUT:

1. Assessment and diagnosis: PYB309 Individual differences and assessment *plus* PYB306 Psychopathology
2. Psychological Interventions: PYH402 Counselling Psychology
3. Psychopathology: PYB306 Psychopathology
4. Ethics: PYH407 Research and professional development seminar

This training can be completed as [single units of study](#). To fulfill Psychology Board requirements, refresher training needs to have been completed within the last ten 10 years (2013 or later).

International Entry requirements

Academic entry requirements

A completed recognised psychology honours or four-year bachelor degree (or higher) in psychology completed within the last 10 years; *and*

A minimum fourth year psychology units grade point average (GPA) of 6.0 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a four-year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

Applicants with overseas qualifications must provide certification with their application from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to APAC-approved, four-year training in psychology. The Australian Psychological Society advises the average processing time is eight weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirements

1. Ask two referees to provide us with confidential reports via the [Psychology Reference System](#). system, you will need to have an active annual subscription. The cost is \$25.00 and can be paid for through the "My Account" section in the payment tab.

2. Completed [questionnaire \(PDF file, 158 KB\)](#); the questionnaire must be provided with your application.
3. Provide your current CV with your application.
4. Successful interview, if shortlisted.

Selection process for interview

Applicants are shortlisted in priority order based on their GPA, referee reports and questionnaire. Shortlisted applicants for the first round will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context.

Admission process

Admission is based on GPA, interview, questionnaire, and referee reports. Mid-November is when first round of offers will be issued to selected interviewed applicants along with notifications to unsuccessful applicants. If you were interviewed or did not receive an outcome in mid-November, your application is being held for consideration in late November/early December should places become available.

Early closing date

Closing date is 30 September. Applications, questionnaires, CV and/or (if applicable) APS certifications received after this date will not be considered.

Places are limited. Apply now to ensure your application is considered.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Professional recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website: <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Registration requirements

All students seeking registration with the Psychology Board of Australia as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program. Students should apply to the Board as soon as possible to ensure that registration is completed prior to commencement of the program.

Please refer to the Psychology Board of Australia website <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for information on the Board's Registration Standards.

Futher Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The coursework component of this program provides training on how to assess and diagnose clinical presentations. It provides unique training on how to conceptualise and treat a broad range of child and adult clinical presentations from relational psychodynamic, cognitive-behavioural, and systemic narrative therapeutic approaches.

Clinical placements begin in the first semester with an internship spanning the first year. Students complete the internship under intense supervision at the specialised [Psychology and Counselling Clinic](#) at QUT's Kelvin Grove campus. During the internship, students gain experience in assessing and treating a range of clinical cases across the lifespan.

Once students are deemed competent through the internship, they continue their clinical training with external placements

Master of Clinical Psychology

in hospitals, community agencies and a variety of child and adult mental health settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Course Coordinator	Joe Coyne; +61 7 3138 4939; joseph.coyne@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

You must have:

- A recognised psychology honours or 4-year bachelor degree (or higher) in psychology completed within the last 10 years (2013 or later)*; *and*
- A minimum fourth year psychology units grade point average (GPA) of 5.50 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

Your degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a 4-year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

If you have an overseas qualifications you must provide certification with your application from the [Australian Psychological Society \(APS\)](#) stating your degree is equivalent to an APAC-approved, 4-year training in psychology. The Australian Psychological Society advises the average processing time is eight weeks, therefore you will need to seek certification by no later than July.

Additional entry requirements

You must:

1. Ask two referees to provide us with confidential reports via the [Psychology Reference System](#). You will also need to ensure that you have shared these reports with QUT in the Psychology Reference System. *Please note: This system is the same across many Australian universities. To be able to use the system, you will need to have an active annual subscription. The cost is \$25.00 and can be paid for through the "My Account" section in the payment tab.*
2. Provide a completed [questionnaire \(PDF file, 184 KB\)](#).
3. Provide your current CV.
4. Attend an in-person interview, if shortlisted.

Overseas qualifications

We will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 7.0
- PTE (Academic): 65 or better overall with no subscore below 65
- TOEFL (iBT): 98 or better overall with a writing subscore of 27 or better, listening and reading subscore of 24 or better, and speaking subscore of 23 or better
- Cambridge English Score: 185 or better overall with no subscore below 185

The test must have been completed within 2 years prior to the proposed course start month.

Application dates

- 1 July: applications open
- 30 September: final date to apply and provide all required supporting documentation. Applications or supporting documentation received after this date will not be considered.

Selection process

Applicants are shortlisted in priority order based on their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in late October to attend an in-person interview at the Kelvin Grove campus in early November to assess their interpersonal skills in a clinical context. If required, a second round of in-person interviews will be conducted in late November.

Admission is based on GPA, interview, questionnaire, and referee reports. Mid-November is when first round of offers will be issued to selected interviewed applicants along with notifications to unsuccessful applicants. If you were interviewed or did not receive an outcome in mid-November, your application is being held for consideration in late November/early December should places become available.

*Qualifications completed more than 10 years ago

If you completed your degree with the required GPA more than 10 years ago, you must either:

- Successfully complete refresher training (see below); *or*
- Provide evidence of current registration as a psychologist with

Master of Psychology (Educational and Developmental)

the Psychology Board of Australia.

Refresher training

You are recommended undertake the following units at QUT:

1. Assessment and diagnosis:
PYB309 Individual differences and assessment *plus* PYB306 Psychopathology
2. Psychological Interventions:
PYH402 Counselling Psychology
3. Psychopathology: PYB306 Psychopathology
4. Ethics: PYH407 Research and professional development seminar

This training can be completed as [single units of study](#). To fulfill Psychology Board requirements, refresher training needs to have been completed within the last ten 10 years (2013 or later).

International Entry requirements

Academic entry requirements

You must have:

- A recognised psychology honours or 4-year bachelor degree (or higher) in psychology completed within the last 10 years (2013 or later); *and*
- A minimum fourth year psychology units grade point average (GPA) of 5.5 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

Your degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a 4-year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

You will also need to ensure that you have shared these reports with QUT in the Psychology Reference System. *Please note: This system is the same across many Australian universities. To be able to use the system, you will need to have an active annual subscription. The*

cost is \$25.00 and can be paid for through the "My Account" section in the payment tab.

2. Provide a completed [questionnaire \(PDF file, 336 KB\)](#).
3. Provide your current CV.
4. Attend an in-person interview, if shortlisted.

Application dates

- 30 September: final date to apply and provide all required supporting documentation. Applications or supporting documentation received after this date will not be considered.

Selection process

Applicants are shortlisted in priority order based on their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in late October to attend an in-person interview at the Kelvin Grove campus or videoconference interview in early November to assess their interpersonal skills in a clinical context.

Admission is based on GPA, interview, questionnaire, and referee reports.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.5
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Domestic Course structure

This course is offered by the Faculty of Health.

The coursework component provides training in assessment, diagnosis and intervention in the area of educational and developmental issues across the lifespan, with an emphasis on the school years. Students undertake two internships that are linked with a client base from the Catholic education system and from the [Psychology and Counselling Clinic](#) at QUT's Kelvin Grove campus. Following these internships, students undertake a further two external placements in other environments including schools, mental health and community settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia

and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

You must have a completed recognised bachelor degree and have passed one year (8 units) of full-time studies in social sciences such as:

- studies in society
- human development
- education
- human services
- law
- media and communication
- nursing
- psychology
- sociology
- urban and regional planning.

This course is not designed for students who already have a bachelor degree in social work.

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

We also recognise not all overseas social work qualifications will meet the professional requirements to gain membership with the [Australian Association of Social Workers \(AASW\)](#). We will consider applications from overseas qualified applicants for this course.

If you are a qualified social worker in your country of residence, you should also contact the [Australian Association of Social Workers \(AASW\)](#) to determine any study you may need to undertake to be eligible for membership in Australia. This assessment may indicate that you won't need to complete the full two years of study and you may be eligible for some credit for prior learning (advanced standing) towards your study.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 7.0
- PTE: 65 or better overall with no subscore below 65
- TOEFL (IBT): 98 or better overall with listening and reading subscores of 24 or better, a writing subscore of

27 or better, and a speaking subscore of 23 or better

- Cambridge English Score: 185 or better overall with no subscore below 185

The test must have been completed within 2 years prior to the proposed course start month.

Selection ranks

You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses but will not be considered for this course.

[Find out more about how to Apply with Higher Education Study.](#)

Adjustments to your selection rank

Any adjustments you receive to your selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your election rank](#)

International Entry requirements

You must have a completed recognised bachelor degree with a minimum grade point average (GPA) of 4.00 (on QUT's 7 point scale) that includes the equivalent of at least one year of full-time studies in social sciences, for example:

- studies in society
- human development
- education
- human services
- law
- media and communication
- nursing
- psychology
- sociology
- urban and regional planning.

Note

This course is not designed for students who already have the equivalent of a Bachelor in Social Work. However, QUT recognises not all overseas social work qualifications will meet the professional requirements to gain membership with the [Australian Association of Social Workers \(AASW\)](#) and will consider applications from overseas qualified applicants for this course.

Applicants who are qualified Social

Workers in their country of residence should also contact the [AASW](#) to determine the study they may need to undertake to be eligible for membership in Australia. This assessment may indicate that it will not be necessary for you to complete the full two years of study and you may be eligible for some advanced standing towards your study.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

You must have either:

- a completed recognised relevant honours degree (first class or second class Division A) or equivalent
- a completed recognised masters degree or professional doctorate (by research or coursework)

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

For more information on eligibility, read the [admission criteria for the Doctor of Philosophy %asset_summary_640320%](#).

Once you've started your PhD, you'll need to complete your Stage 2 milestone to be fully admitted to your course. You'll usually complete this milestone within the first three months of study.

Masters and professional doctorate degrees by coursework must have a significant research component, normally not less than 25%. Holders of masters and professional doctorate by coursework must:

- have a minimum grade point average (GPA) score of 5.0 on QUT's 7 point scale; *and*
- present evidence of research experience and potential for approval

International Entry requirements

Edit in the CMS.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Course structure (Edit in the CMS)

You can enrol in one unit per semester, in addition to your Year 11 semester two and/or Year 12 semester one studies.

You can choose a unit from a different study area in each semester; for example, a science unit in Semester 2, and a business unit in the following Semester 1. This might be a good option if you are looking to study a double degree.

If you're hoping to receive advanced standing (credit) toward a degree for the units you complete, it's best to select those related to your chosen future study area. Your START QUT studies, including the grades you achieve, will be included as part of your official QUT record.

Please note enrolment in START QUT is not permitted after semester 1, year 12.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C) or Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This vertical double degree is made up of LV41 Bachelor of Biomedical Science plus IN27 Master of Data Analytics (Biomedical Science). You will be able to progress on to the Master of Data Analytics upon successful completion of the bachelor degree. The full vertical double degree normally takes 4 years to complete full-time (3 years for the bachelor component plus 1 year for Master component).

To meet the requirements of the Bachelor of Biomedical Science component of the vertical double degree, you must complete a total of 288 credit points. You may choose to undertake:

- Choice of ONE Biomedical Science Major (Study Area A) OR
- Choice of TWO Biomedical Science Minors (Study Areas B)

To undertake a Study Area A, you must complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical

sciences electives (Year 2)

- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

To undertake two Study Areas B, you must complete:

- 8 Biomedical Science core units (Year 1)
- 4 units from Study Areas B and 4 biomedical sciences electives (Year 2)
- 4 units from a Study Areas B and 5 postgraduate Data Science units (Year 3).

International Course structure

This vertical double degree is made up of LV41 Bachelor of Biomedical Science plus IN27 Master of Data Analytics (Biomedical Science). You will be able to progress on to the Master of Data Analytics upon successful completion of the bachelor degree. The full vertical double degree normally takes 4 years to complete full-time (3 years for the bachelor component plus 1 year for Master component).

To meet the requirements of the Bachelor of Biomedical Science component of the vertical double degree, you must complete a total of 288 credit points. You may choose to undertake:

- Choice of ONE Biomedical Science Major (Study Area A) OR
- Choice of TWO Biomedical Science Minors (Study Areas B)

To undertake a Study Area A, you must complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical sciences electives (Year 2)
- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

To undertake two Study Areas B, you must complete:

- 8 Biomedical Science core units (Year 1)
- 4 units from Study Areas B and 4 biomedical sciences electives (Year 2)
- 4 units from a Study Areas B and 5 postgraduate Data Science units (Year 3).

Sample Structure

To meet the requirements for the Bachelor of Biomedical Science, you must complete a total of 288 credit points,

Bachelor of Biomedical Science/Master of Data Analytics

made up of:

- eight Biomedical Introductory core units (Year 1)
- a Major (six units) from the Biomedical Science Major Options (Years 2 & 3)
- six Biomedical Sciences elective units (Year 2)
- the Biomedical Data Science Minor comprising five core preparatory postgraduate units (Year 3).

To meet the requirements for the Master of Data Analytics, you must complete an additional 96 credit points of specified units from the Master of Data Analytics (Year 4).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	5.5
Listening	5.0
Reading	5.0
Writing	5.0
Speaking	5.0

QUT International College

International students may upgrade to the QUT Bachelor of Information Technology through QUT International College at our Kelvin Grove campus.

The University Diploma in Information Technology is equivalent to two semesters of the Bachelor of Information Technology degree with a total of 96 credit points (48 standard credit points for a full-time semester).

In the University Diploma program, students study six degree core units as well as two English language units that have been designed to support the other core units.

Progression to the Bachelor of Information Technology

Students who successfully complete these eight units with a grade point average of 4 (on a 7-point scale) and obtain a grade of at least 4 in Professional Communication 2 are given two semesters full-time advanced standing towards their degree and are guaranteed a place in the Bachelor of Information Technology.

Students who complete the University Diploma in Information Technology are also eligible for 96 credit points towards the Bachelor of Corporate Systems Management and Bachelor of Games and

Interactive Entertainment.

Domestic Course structure

IT10 students can enrol in a maximum of 48 credit points (4 units) per teaching period.

International Course structure

IT10 students can enrol in a maximum of 48 credit points (4 units) per teaching period.

Sample Structure

There are a number of changes to units and study areas which may affect your enrolment in 2023 or beyond. Study plans for affected continuing students have been updated.

- ITD122- Modelling Techniques for Information Systems has been replaced with ITD240 - Cyber Security from college 2 2023.

IT10 students can enrol in a maximum of 48 credit points (4 units) per teaching period.

Domestic Course structure

Your QUT Bachelor of Data Science degree consists of 288 credit points (24 units) arranged as follows:

- (a) 192 credit points (16 units) of Core discipline units; and
 (b) 96 credit points of complementary studies comprising of two Minors (4 unit set each) chosen from:
- Computational and Simulation Science
 - Data Mining and Artificial Intelligence
 - Information Systems
 - Optimisation and Stochastic Modelling
 - Advanced Computing for Data Science

International Course structure

Your QUT Bachelor of Data Science degree consists of 288 credit points (24 units) arranged as follows:

- (a) 192 credit points (16 units) of Core discipline units; and

Speaking	6.0

Course Overview

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within IT, and gain deep understanding within your chosen area speciality, such as networking, software development, data warehousing, business processes, information management, web technologies, or digital societies. You experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how relative to the IT marketplace. It positions you for a challenging and rewarding career within the global economy.

Course Design

Requirements for the completion of IN01 Bachelor of Information

Technology (Study Area A) are as follows:

- 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
- 120 credit points (10 units) of Major Core units
- 96 credit points of complementary studies comprising of either a Second Major (8 unit set); or two Minors (4 unit set each); or one Minor (4 unit set) plus 4 elective units.

Majors

Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Options List

The Bachelor of Information Technology Core Unit Options List comprises a range of units from which you choose to undertake two (2). You are able to undertake these options in any semester. The options include introductory units from a wide variety of disciplines offered at QUT.

Complementary Studies

Students may elect to undertake a Second Major (8 unit set), or two Minors (4 unit set each), or one Minor (4 unit set) plus 4 elective units.

Second Major:

A choice of one second major from:

- Technology Innovation and Design
- Computational and Simulation Science

Minors:

A choice of two minors from either Faculty or University Wide Options.

Professional Recognition

Professional recognition can be found in the individual majors of the Bachelor of Information Technology (IN01).

Pathways for Further Study

The QUT Bachelor of Information Technology is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in these disciplines with an additional honours year in [\(IN10\) Bachelor of Information Technology \(Honours\)](#).

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Computer science is the scientific and practical approach to computer-based system design, development and operation. Its subfields range from the fundamental principles of computation through to tools and techniques for IT system development and evaluation. It includes identifying and solving systems design issues associated with achieving critical properties such as correctness, efficiency, robustness, usability and security. Its application extends into specialised areas including mobile computing, artificial intelligence, robotics, and large-scale information management involving information retrieval and web search engines.

Career Outcomes

Computer Science graduates will:

- be experienced in the principles and practice of software development;
- be familiar with the principles and operation of networked systems; and
- have a sound understanding of the shared foundations underlying all modern computer-based technologies.

In addition, depending on their choice of

Bachelor of Information Technology (Computer Science)

optional study areas, they will have the opportunity to gain specific expertise in Information Security, Networks and Communications, Intelligent Systems, Data-Centric Computing, or Human-Computer Interaction.

Course Design

Your QUT Bachelor of Information Technology (Computer Science) degree consists of 288 credit points (24 units) arranged as follows:

- 72 credit points (6 units) of Computer Science Core units, which includes 2 units from a selected options list.
- 120 credit points (10 units) of Computer Science discipline units
- 96 credit points of complementary studies comprising of either a Second Major (8 unit set); or two Minors (4 unit set each); or one Minor (4 unit set) plus 4 elective units.

Computer Science Core Units

These units will engage you in understanding Computer Science from a practical approach with an understanding of a range of disciplinary and multidisciplinary perspectives. Later core units, together with the discipline specific units, will progress your learning development through experiential and enquiry based learning to apply this knowledge in practical systems development projects.

Computer Science Major Discipline Units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on developing your knowledge, practice and higher order thinking to an advanced level.

Complementary Studies Options

Second Major:

A choice of one second major from:

- Technology Innovation and Design Second Major
- Computational and Simulation Science Second Major

Minors:

A choice of two minors from the lists below:

- Business Process Management Minor
- Data-Centric Computing Extension Minor
- Information Systems Minor
- Enterprise Systems Minor
- Human-Computer Interaction Minor
- Intelligent Systems Minor
- Mobile Applications Minor
- Networks and Security Minor
- Social Technology Minor
- Software Development for IS and Games Minor
- Technology Innovation Minor
- University Wide Minors

Professional membership

Graduates are eligible for membership of the ACS (Australian Computer Society)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Information systems focuses on identifying organisational requirements for applications and acquiring effective systems solutions, whether custom designed and built or selected and implemented, to meet the requirements. Skills involve the design and development of large database applications for business, as well as the purchase and implementation of packaged software addressing business problems. It does not require in-depth knowledge of computer programming but rather in-depth specialised knowledge of databases and software used in business or of the means to analyse business needs and, in partnership with the systems users, design solutions to the inefficiencies or ineffectiveness of business processes.

Career Outcomes

Information Systems graduates will have skills in design, systems thinking, stakeholder engagement and modelling and abstraction which position them to work as Business Analysts, IS Consultants, solving a range of

Bachelor of Information Technology (Information Systems)

organisational problems.

In addition, depending on their choice of optional study areas, they will have the opportunity to gain specific expertise in Business Process Management, Social Media, Mobile Application Development or Services & Solutions undertaken through complementary minors. Specific skills in Service and Outcomes Management can be gained in the complementary minor called Service and Outcomes Management, which positions graduates for IT management roles within organisations.

Finally, further knowledge of and skills in design and innovation can be gained in the secondary major of Systems Innovation, which will lead to careers as IT innovators within enterprises, consulting companies or in their own start-ups.

Course Design

Your QUT Bachelor of Information Technology (Information Systems) degree consists of 288 credit points (24 units) arranged as follows:

- 72 credit points (6 units) of Information Systems Core units, which includes 2 units from a selected options list.
- 120 credit points (10 units) of Information Systems discipline units.
- 96 credit points of complementary studies comprising of either a Second Major (8 unit set); or two Minors (4 unit set each); or one Minor (4 unit set) plus 4 elective units.

Information Systems Core Units

These units will engage you in understanding Information Systems from a range of disciplinary and multidisciplinary perspectives, expose you to the various outcomes available for pursuing studies in this field and introduce the fundamental basis for policy and practice. Later core units, together with the discipline specific units, will progress your learning development through experiential and enquiry based learning in collaborative environments.

Information Systems Major Discipline Units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on developing your knowledge, practice and higher order thinking to an advanced level.

Domestic Entry requirements Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

QUT College Diploma

As a QUT College Diploma in Esports (information technology pathway) graduate you will automatically receive an offer to start the Bachelor of Information Technology within one week after completion of the diploma. You will also automatically receive up to 1.0 year (96 credit points) credit transfer and be able to complete the degree in 2 years as a full-time student (or equivalent part-time).

[Find out more about the QUT College Diploma in Esports](#)

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in a [Diploma of Information Technology dual TAFE-Qld Brisbane/QUT award](#) you will automatically receive a QUT conditional offer in June (semester 1 QTAC offer) or October (semester 2 QTAC offer) after your enrolment at TAFE-Qld Greater Brisbane is confirmed.

Upon completion of the TAFE-Qld diploma you will be able to enrol at QUT. You will also automatically receive 0.5 year (48 credit points) credit transfer and be able to complete the degree in 2.5 to 3 years as a full-time student (or equivalent part-time). More details will be provided in your QUT conditional offer letter.

Domestic Course structure

Requirements for the completion of IN05 Bachelor of Games and Interactive Environments (Study Area A) are as follows:

- 72 credit points (6 units) of games and interactive environments core units, which includes 24 credit points (2 units) of option units* selected from an approved list.
- 120 credit points (10 units) of Major core units
- 96 credit points of complementary studies comprising of either two minors (4 unit set each); or one minor (4 unit set) plus 48 credit points of elective units.

* *Unit options list - comprises a range of units from which you choose to undertake two (2). The core option choices provide you with space in your course to explore other fields such as within Games and Interactive Environment, Information Technology. These units can be used to complement your Major studies or, explore which areas you may choose for your complementary studies.*

Course Overview

The Bachelor of Mathematics course provides a modern and rigorous training in mathematics to prepare students both for graduate careers in industry and government as well as for honours and postgraduate research work. This course provides students with a mathematics degree that clearly defines paths of study associated with different graduate outcomes in order to meet the wide range of employment possibilities open to mathematics graduates. As well as this, it maintains for students the option to complete a degree that is heavily mathematical through the inclusion of second major and minor options in mathematics and statistics.

The course combines underlying theory with modelling, computational skills and the latest computer technology to enable students to solve real-world problems and prepare them for their future career. Skill development in communication, problem solving, critical thinking and teamwork form an integral part of this course.

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24

units) arranged as follows:

(a) 72 credit points (6 units) of Core units, which are further divided into 48 credit points (4 units) of Mathematics Core units, and 24 credit points (2 units) of Core Option units selected from an approved list.

(b) 120 credit points (10 units) of Major Core units, comprising from a choice of one (1) Major in either:

- Applied and Computational Mathematics;

- Decision Science; or

- Statistical Science.

(c)

Professional Recognition

Professional recognition can be found in the individual majors of the Bachelor of Mathematics (MS01).

Pathways to Further Study

The QUT Bachelor of Mathematics is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in this discipline with an additional honours year in [\(MS10\) Bachelor of Mathematics \(Honours\)](#).

Overview

The Applied and Computational Mathematics major provides high quality learning for students who want to combine their studies in mathematics with considerable involvement in real-world applications and computational simulations. The major introduces you to a wide range of concepts in mathematical foundations, modelling and computational methods, and provides strong links between theory and application. You will investigate underlying mathematical theory to see how it can be applied to real-world scenarios from many fields of study including the physical and chemical sciences, biology, engineering and the social sciences. You will also develop computational solution and simulation methods to couple with modelling skills in order to investigate large-scale applied problems.

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

(a) 72 credit points (6 units) of Core units, which are further divided into 48 credit points (4 units) of Mathematics Core

units, and 24 credit points (2 units) of Core Option units selected from an approved list.

(b) 120 credit points (10 units) of Major Core units

(c) 96 credit points of complementary studies comprising of either a Second Major (8 unit set) or two Minors (4 unit set each).

Mathematics Core Units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; decision science; and statistical science.

Core Option Units List

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

Major Units

Your major is your area of specialisation, in which you will acquire in-depth knowledge and expertise, preparing you for your entry into the workforce or for further study. All majors share the same introductory and advanced units in algebra and calculus, meaning you do not need to decide on your major upfront.

Complementary Studies

Applied and Computational Mathematics Major students may elect to undertake a Second Major (8 unit set) or two Minors (4 unit set each)

Second Major:

A choice of one second major from:

- Decision Science
- Statistical Science
- Computational and Simulation Science
- Accountancy

-
- Applied Economics and Finance
-
- Logistics Management
-
- Biological Sciences
-
- Chemistry
-
- Earth Science
-
- Environmental Science
-
- Physics

Minors:

- Decision Science
-
- Statistical Science
-
- Discrete Mathematics
-
- Computational and Simulation Science
-
- Biological Sciences
-
- Chemistry
-
- Earth Science
-
- Environmental Science
-
- Physics
-
- International exchange
-
- [University Wide Minors](#)

Career Outcomes

As a graduate of the Bachelor of Mathematics (Applied and Computational Mathematics) you will find employment opportunities across a wide range of areas, such as finance, investment, information technology, environmental management, health, marketing, logistics, defence, medicine, education and research. In addition to your knowledge and abilities in mathematics, you will also be highly valued for your analytical and problem-solving skills.

Professional Recognition

Graduates are eligible for membership in the Australian Mathematical Society (AMS), and ANZIAM.

Domestic Course structure

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

- 96 credit points (8 units) of core units, including 12 credit points (1 unit) of core option selected from an approved list
- 96 credit points (8 units) of major units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each)

Mathematics core units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; operations research; and statistics.

Core option units

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

***Note: Students who haven't completed Specialist Mathematics (Maths C) in high school must select MXB100 as at Core Option in semester 1.

Major units

Your major is your area of specialisation, in which you will acquire in-depth knowledge and expertise, preparing you for your entry into the workforce or for further study. All majors share the same introductory and advanced units in algebra and calculus, meaning you do not need to decide on your major until your second year of study.

Second major or minors

You may choose to undertake a second major: an eight-unit set in which you will acquire a significant depth of knowledge

and expertise in an area to complement your major. You may choose a second major in operations research, statistics, computational and simulation science, data science, accountancy, applied economics and finance, biological sciences, chemistry, earth science, environmental science or physics.

Alternatively you may choose to undertake two minors: four-unit sets with intermediate to advanced level content which extend or supplement studies in your major. Minors are available from a range of inter- and intra-faculty disciplines, as well as experiential minors such as international exchange.

International Course structure

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

- 96 credit points (8 units) of core units, including 12 credit points (1 unit) of core option selected from an approved list
- 96 credit points (8 units) of major units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each)

Mathematics core units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; operations research; and statistics.

Core option units

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. Overview

Decision science is a mathematical discipline that considers how to make appropriate and better decisions in complex decision-making problems. It deals with how best to design, operate and/or predict behaviour of complex systems like people, machinery, materials and money in industry, business, finance, education, government and defence. The Decision Science major encompasses the study of quantitative techniques relevant to decision-making in its broadest sense. You will employ a problem-solving approach, using advanced analytical methods such as operations research, financial mathematics, stochastic and mathematical modelling, and mathematical optimisation. Along the way you will also use a variety of software and improve your information technology skills. Because of its emphasis on human-technology interaction and its focus on practical applications, Decision Science overlaps with other disciplines, notably industrial engineering and operations management, economics and finance. This is a multi-disciplinary field.

The coursework also introduces you to different industries and processes that greatly contribute to the economy and

environment of nations around the world. These include manufacturing and production, management, health care, finance and economics, goods and services, infrastructure, transportation and logistics, mining, defence, etc. This study area provides a foundation for a variety of careers, and further study.

There is a strong emphasis on:

Overview

The Statistical Science major will provide you with the methodology for analysing data using empirical, theoretical and computational tools. You will discover complex statistical techniques and concepts through applications and datasets from the real world, providing strong links between theory and application. Many of our academics are world leaders in research and have strong industry ties that ensure the relevance of teaching material and high-quality learning experiences. The major will provide you with a fundamental and thorough understanding of statistics and statistical methodology, and the ability to apply such quantitative skills in real-world scenarios. Thus we aim to prepare you for a career in industry, government and/or research.

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

(a) 72 credit points (6 units) of Core units, which are further divided into 48 credit points (4 units) of Mathematics Core units, and 24 credit points (2 units) of

Career Outcomes

Career outcomes for graduates of the Bachelor of Mathematics (Statistical Science) include data analyst, quantitative analyst, researcher, risk analyst, and statistician. Positions of this nature are often found with employers such as the Australian Bureau of Statistics, Queensland Treasury, state and Commonwealth governments, financial institutions, CSIRO, insurance companies, medical companies.

Professional Recognition

Graduates are eligible for membership in the Statistical Society of Australia

Domestic Course structure

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24

units) arranged as follows:

- 96 credit points (8 units) of core units, which include a core option units selected from an approved list

Domestic Entry requirements

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QTAC initial teacher education webpage](#).

If you've achieved a *satisfactory* result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the *satisfactory* result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at *unsatisfactory* after two test attempts for that component.

Overseas qualifications

We will consider equivalent overseas qualifications for admissions purposes. If your previous studies were completed in a country other than Australia, Canada, New Zealand, Republic of Ireland, United Kingdom, or the United States of America or undertaken in a language other than English you must provide evidence of your English language proficiency.

English language proficiency

We require students to demonstrate they can speak, write, read and comprehend academic English to a specified standard.

Our English proficiency requirements for this course are:

- IELTS (Academic): 7.5 or better overall with speaking and listening subscores of 8.0 or better and no other subscore below 7.0

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a *satisfactory* result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the *satisfactory* result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at *unsatisfactory* after two test attempts for that component.

International Assumed knowledge

International fee (indicative)	2023: \$39,700 per year full-time (96 credit points)
Total credit points	288
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	July, February
Int. Start Months	July, February Commencing studies in 2022: this program is available for on-campus studies only.
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Luke Nothdurft

Domestic Entry requirements International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Rules

1. To fulfil the requirements for the award of the Bachelor of Science degree, you must complete a total of at least 288 credit points, comprising at least 192 credit points of science units. The units completed for the award of the degree must include:

- (a) the first year program as outlined in the course summary
- (b) a major study
- (c) a second major study or two minor areas of study

Major and second major studies are defined in terms of the discipline area and the academic level at which the units are offered.

Major

A major must be completed in one of the following discipline areas: biological sciences; chemistry; earth science; environmental science; physics. A major comprises 120 credit points of units at advanced level, including at least 48 credit points at the third level.

Second Major

A second major may be completed by selecting appropriate units from another major, or from the following additional discipline areas:

Human Biomolecular Science, Innovation and Entrepreneurship, Policy & Governance, Sustainable Environments for Health, Computational Science, Science Communication.

Minors and Extension Minors

Minors and Extension Minors are offered in the following disciplines:

Analytical Chemistry, Astrophysics, Cell and Molecular Biology, Human Health and Disease, Industrial Chemistry, Sustainable Environments for Health, Wildlife Biology, Marine Science, Plant Biotechnology, Genetics and Genomics, Forensic Science, Applied Ecology.

Non-Science: corporate IT systems, environmental engineering studies, ethics and human rights, foreign languages, games technology, management, marketing, music, nutrition, psychology etc.

Note: A second major comprises 96 credit points with at least 60 credit points at advanced level for the Science second majors and at least 48 credit points for the non-Science second majors. Major and second major studies may be taken in closely related discipline areas.

2. Optional (elective) units may be chosen from (a) ST01 majors/second majors other than those undertaken by a student, (b) other appropriate units offered by the Science and Engineering Faculty, and (c) units offered by other faculties.

3. Students are normally expected to complete the course in minimum time. A full-time student normally enrolls in an average of 48 credit points per semester for six semesters and a part-time student normally enrolls in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)

Notes on the Rules

1. For offerings in the Science and Engineering Faculty, the term advanced level refers to units in Schedules 2 and 3. For units offered outside the Science and Engineering Faculty, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or second major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/second major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BSc and will appear in the award title in

parentheses. The general form of the award will therefore be: BSc(Major).

Domestic Course structure Your science degree

At QUT you'll create your own personal science degree program of 24 units (288 credit points). During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These units give you an introduction to the principles of science the opportunity to learn by enquiry, and to broaden your understanding of the core sciences. You'll study seven Faculty core units (60 credit points) which includes 6 credit point units, and an optional unit (12 credit points) of your choice selected from an approved list.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study.

It comprises 11 units (132 credit points) and there are five majors to choose from:

- biological sciences
- chemistry
- earth sciences
- environmental sciences
- physics.

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a

wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a Second major (eight units); or an Extended minor (four units) or Breadth minor (four units), plus either a Faculty minor (four units) or Breadth minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second Science discipline, or explore different perspectives which might include:

- computational and simulation science
- human biomolecular sciences
- innovation and entrepreneurship, or
- sustainable environments for health

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major two minors.

Domestic Entry requirements

Year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on the last day of Queensland Year 12, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Diploma of Laboratory Technology](#)

Upon completion of the TAFE-Qld diploma you will be able to enrol at QUT. You will also automatically receive half a year (48 credit points) credit transfer and be able to complete the degree in 2.5 years as a full-time student (or equivalent part-time). More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Assumed knowledge

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Biology is the study of life and living things: animals, insects, plants, and microorganisms; everything that breathes, grows and feeds us; creatures that fly through the air majestically and those that lurk in the depths of the ocean, under rocks, or even under the toilet seat.

Biologists are curious about all these things and want to know how they work, how to grow and protect them—how to get involved with life on this planet.

Biologists also love a challenge. How will we feed a population of eight billion people in 2025? Can we use biological waste to solve our energy crisis? How can we protect our plants and animals from new and fiendish exotic diseases? And how many rare species can we save from extinction?

Why choose this course?

This course will provide a strong foundation in the core biological sciences such as physiology, genetics, zoology, plant sciences and microbiology. It has been designed to be hands on, to develop problem solving skills through active learning, and to give an early appreciation of the way that many disciplines can be brought to bear on a single problem.

As well as receiving core training in the basics through the biology major, students can either add breadth to their degree by choosing a minor from a complementary discipline (e.g. chemistry), or depth to their biological skills through a specialised minor such as biotechnology.

During the course you will experience some of the most advanced laboratories in Australia and be taught by staff who are at the top of their research fields internationally. You can also expect to stay in touch with the real world, as guest lectures, site visits and opportunities for work-integrated learning bring a strong industry flavour to the degree.

Career outcomes

Biology graduates work in a wide range of jobs throughout the public and private sectors, and in a range of environments including offices, laboratories, farms, fields, factories cities and forests.

Laboratory-based careers may include laboratory management, basic research, forensic microbiology, or molecular genetics. Farm and field-based work could entail animal management, plant breeding, entomology, marine biology, or pest and disease management. Industrial work might involve biotechnology to produce food, fuel or pharmaceuticals. Other careers could involve science writing, teaching, policy development, or the commercialisation and the management of biological products and processes.

Professional recognition

Professional recognition can be achieved through membership of an appropriate scientific society, such as the Australian Society for Biochemistry and Molecular Biology, the Ecological Society of Australia, the Australian Society of Horticultural Science and many more.

Domestic Course structure

Faculty core units

These seven units give you an introduction to the principles of science. The inquiry based experimental science units will give you the opportunity to learn by enquiry and become familiar with the methods of scientific inquiry.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study. Your primary major comprises 11 units.

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a second major (eight units); or two minors (four units each).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second science discipline (chemistry, earth science, environmental science or physics), or explore different perspectives which might include:

- computational and simulation science
- human biomolecular sciences,
- innovation and entrepreneurship, or
- sustainable environments for health

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major two minors.

Overview

Chemists are involved in most areas of science, technology, environment and industry; for example, medicinal drugs, nanotechnology, water and air quality and energy production. Manufacturing industries rely on chemists to ensure that quality and safety standards are maintained. The development of better and safer drugs depends heavily on the input of chemists.

Chemistry is the study of structures, properties, synthesis and reactions of molecules and materials and these principles are fundamental to many other disciplines, including biotechnology, environmental science, geosciences, materials science and food science.

At QUT you will study analytical, physical, organic and inorganic chemistry with an additional focus on modern applications such as nanotechnology, analytical chemistry, and spectroscopy.

Why choose this course?

The QUT chemistry degree is a qualification that is known and respected by employers. Many employers prefer QUT chemistry graduates, especially those with an extension minor in chemistry, because of their advanced technical skills, their experience with modern instrumentation and their training in scientific communication.

After two years' study, you will be eligible to apply for the Queensland Health Analytical Chemistry Scholarship (available only to QUT chemistry students), which pays \$21 000 for your third year, with guaranteed employment for two years after graduation#.
