OVERVIEW

The QUT Faculty of Law is one of Australia's largest tertiary educators in Law and Justice. The Faculty is a leader in its field, with world class lecturers and researchers on its academic staff.

The Faculty consists of the School of Law, School of Justice and the Legal Practice Unit. It is equipped with a state-of-the-art electronic moot court, a dedicated Law Library and two 24-hour student computer labs. The Faculty is also home to the Law and Justice Research Centre.

A feature that sets QUT Faculty of Law apart is its focus on education 'for the real world'. Faculty programs provide a sound balance of practical and theoretical training, facilitating the smooth transition of graduates into their chosen careers. The Faculty's real world approach is enhanced by its close liaison and collaboration with the legal and justice professions.

The Faculty is continually striving for excellence in learning and teaching in response to the demands of its graduates, their employers, the professions and the community. The Faculty's teaching and learning programs develop research and analysis skills within contextual and conceptual frameworks. A global approach to education is adopted which includes international visiting scholars, exchange programs for staff and students, and offshore programs. International and Indigenous content and perspectives are progressively being embedded in Faculty units.

Other initiatives to enhance the quality of the educational experience offered by the Faculty include online delivery of teaching and curricula designed to develop graduate capabilities, a field in which the Faculty is an acknowledged leader. The Faculty's online teaching sites provide electronic access to course materials and a broad array of Internet resources, together with increased opportunities for staff-student communication.

The Faculty offers undergraduate study through the Bachelor of Laws (LLB) and the Bachelor of Justice (BJust) courses. A range of double degree programs is also available, including the Bachelor of Laws in conjunction with the Bachelor of Justice or with a bachelor degree in Applied Science, Arts, Business, Creative Industries, Journalism or Information Technology. A double degree in Laws and Psychology is planned to be on offer from 2008.

A three-year accelerated Bachelor of Laws program is available for students who already hold a bachelor degree in another discipline. These students may also have the opportunity to select their elective units from the Law School's postgraduate program and graduate concurrently with a Graduate Certificate in Law.

The Faculty offers a range of postgraduate study options, including graduate certificate and graduate diploma courses, masters degrees by coursework or research, and doctoral programs. Many of these courses provide students with the opportunity to build on relevant undergraduate study or professional experience, and develop their expertise in a specialist area. Postgraduate research students are provided with dedicated office space and ICT facilities. The Faculty has staff qualified to supervise research in many fields including, but not limited to:

- Commercial Leases
- Commercial/Business Law
- Competition
- Consumer Protection

- Contract Law
- Crime and Criminology
- Cyber Law / E-Commerce
- Environmental Law
- Health Law
- Human Rights
- Indigenous Issues

- Legal / Justice Education
- Media Law
- Natural Resources Law
- Negligence
- Policing
- Property Law
- Public Law
- Tax Law
- Technology Law
- Trade Practices
- Intellectual Property and Copyright Law.

Through the Legal Practice Unit, the Faculty also offers a Legal Practice Course (the Graduate Diploma in Legal Practice) to law graduates who wish to satisfy the practical training requirements to be admitted as legal practitioners. The course is offered twice a year in full-time, part-time (in-practice) and part-time (general) modes. The part-time in-practice mode is specially designed for persons who are already working in private or government law offices. The part-time courses are delivered online for the convenience of persons who are working full-time or who otherwise do not wish to study on campus. The full-time course is delivered on-campus in newly refurbished premises that provide every full-time student with a purpose-built work station and networked PC while they are working on campus. Our Graduate Diploma in Legal Practice is Queensland's longest established practical legal training course and we have successfully prepared over 1000 law graduates for admission as legal practitioners.

The Law School prepares students for careers in law firms, government and other industries. The School of Justice Studies produces graduates with qualifications for employment in policing, justice, defence, security and the social justice field. The Faculty of Law consistently achieves high graduate employment rates, further supporting its position as one of Australia's leading law faculties.

Career Opportunities

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

OP Guarantee

The OP Guarantee does not apply to this course.

Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

Entry requirements

An applicant's admission to the PhD program will depend on their academic aptitude, and the availability of supervision, infrastructure and resources needed for your course of study. Candidates would normally hold a Bachelor's degree with at least 2A Honours (or equivalent) or a Masters degree by research or a Masters degree by coursework that included substantial research.

Location and Duration

The PhD normally requires a minimum of three years of full-time study or its part-time equivalent. Study is undertaken at the Gardens Point or Kelvin Grove Campus but the University may approve study at an off-campus location (multi-modal study). Although QUT offers this flexibility, there will still be minimum attendance requirements and the University must be satisfied that adequate supervision and resources are available at the external location.

Overview

The PhD offers candidates the opportunity to demonstrate their erudition in a broad field of learning and to make an original and substantial contribution to knowledge in that field.

Course Structure

Candidates will be assessed on a program of supervised research and investigation that culminates in production of their thesis. The program normally includes assessed coursework that supports conduct of their research and preparation of their thesis. Candidates should have regular, face-to-face contact with their supervisor and participate in University scholarly activities such as research seminars, teaching and publication. The length of the thesis will vary according to the topic, but should normally be no longer than 100,000 words (excluding bibliography).

General

Both creative writing and law require high calibre, sophisticated communication. This five-year double degree prepares students to work as professional creative writers, or to work as lawyers in private practice as barristers or solicitors, or to practise with large companies, in government agencies, or as 'in-house' lawyers.

Areas of study include all the major areas of law and creative writing. In the first three years, students study a combination of creative writing and law units, and during the fourth and fifth years students concentrate solely on law studies. Students have the opportunity to complement their studies with elective choices from specialist areas of law, including commercial law, corporate law, taxation law, medico-legal issues, alternative dispute resolution, public international law, Asian legal systems, feminist theories of law and environmental law.

Professional Recognition

The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Solicitors' and Barristers' Admission Rules.

Career Opportunities

Graduates will work as lawyers in all fields, or with a specialisation in the publishing industry, or as creative writers, editors or publishers in all media.
