Enrolling - it is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Course Structure

You are required to complete eight, 12 credit point units of study.

The course provides flexibility for students to complete their studies across a range of areas.

Two core units must be completed, EDP415 Engaging Diverse Learners and EDP416 The Professional Practice of Educators, along with an additional two units from any of the courses offered by the Faculty of Education. The remaining four units may be taken from a wide range of Faculty of Education units in other Faculty of Education courses including Bachelor of Education (Secondary), Bachelor of Education (Primary), Bachelor of Education (Early Childhood), Bachelor of Education (Preservice Early Childhood), and the Graduate Diploma in Education, OR from faculties other than the Faculty of Education.

Please note that Masters level units and teaching practicum or Field Studies units cannot be studied in this course.

Students must follow the individual course rules concerning prerequisite study when selecting units from other courses.

Students undertaking the course to meet specific Queensland College of Teachers Registration requirements may not be able to undertake non-education units.

Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas. Alternatively students may choose a suite of units related to a specific area of interest.

DETA Early Childhood Cohort

You are required to complete eight, 12 credit point units of study. Two core units must be completed, EDB200 Insights into Early Childhood Development and EDP416 The Professional Practice of Educators, together with an additional six units from the Early Childhood Studies listed on the DETA Early Childhood Cohort course structure. This course will be completed in part time and external mode only.

Course Progression

It is a student’s responsibility to ensure they have met any specified pre-requisite and/or co-requisite requirements when they select their enrolment program.

Underloads

It is not expected that a student should underload – i.e undertake fewer credit points than the standard semester load. If, however, your circumstances require you to undertake fewer units than the standard load, it may lead to difficulties in undertaking units in a timely manner later in the course.

Notes for selection of units

Internet (I-NET) The unit will be conducted through the QUT Blackboard site. Students will require access to suitable computer facilities.

Internal (INT) The unit is offered internally and students attend lectures during the semester.

Block (BLK) A block of lectures held in the January or June/July school holidays, normally 9.00-4.00pm. Assessment is finalised after completion of the block lectures.

External (EXT) The unit is offered externally.

Overloads

It is not expected that a student should overload – i.e undertake more credit points than the standard semester load. If, however, your circumstances require you to overload you should be aware of the possible academic consequences of an increased study load.

Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

All other course requirements must have been successfully completed before commencing EDB174 Stepping Out/Making Connections and EDB151 Secondary practicum and Internship in your final semester of study. This is a University and Queensland College of Teachers requirement.	
Overload - The Faculty of Education permits you to overload to 60 credit points (ie standard program plus one more unit) without faculty approval only if your grade point average is 4.0 or higher. If you intend to overload you should seek progression advice from the Course Administration Officer. Unit availability may influence your ability to overload.	
Underload - The Faculty of Education permits you to underload to 36 credit points (ie 3 units in a semester) without faculty approval. If you intend to underload you should seek progression advice from the Course Administration Officer.	
You must have a valid Bluecard to be eligible for Field Studies units.

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

Enrolling

You have 9 years to complete the Bachelor of Education (Secondary), including any approved leave of absence.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

<https://www.student.qut.edu.au/about/faculties-institutes-and-divisions/faculties/education/manage-your-studies#learning-support>

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-

placements/blue-cards.

Field Studies Units will be taken in Queensland schools and settings.

Teaching Area Combinations

Students will select one major and one minor teaching area, and these can be seen in more detail under the Course Structure tab above (subject to approval).

Majors:

English
Mathematics
History
Geography

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover

teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Designated Units

Field studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

Domestic Course structure

Enrolling

You have 9 years to complete the Bachelor of Education (Secondary), including any approved leave of absence.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover

teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Designated Units

Field studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching

areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Designated Units

Field studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching

areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Designated Units

Field studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-

Bachelor of Education (Secondary) - History

Teaching Area Combinations

Students will select one major and one minor teaching area, and these can be seen in more detail under the Course Structure tab above (subject to approval).

Majors:

English
Mathematics
History
Geography
Biology
Physics
Chemistry
Earth and Environmental Science
Health and Physical Education

Minors:

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching

areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Designated Units

Field studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

PLEASE NOTE: HOME ECONOMICS TO BE DISCONTINUED IN 2015

The Home Economics major will not be offered to commencing students from 2015 onwards.

Current students will be able to continue as per the standard course progression. Some discipline and curriculum units will be phasing out, so students must follow the standard course progression exactly.

Contact the Course Administration Officer if you are out of step, jo.wakefield@qut.edu.au

Enrolling

You have 9 years to complete the Bachelor of Education (Secondary), including any approved leave of absence.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

<https://www.student.qut.edu.au/about/faculties-institutes-and-divisions/faculties/education/manage-your-studies#learning-support>

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with

children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards. Field Studies Units will be taken in Queensland schools and settings.

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two

teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

You will be requested to submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

How to [apply for a blue card](#)

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Enrolling

You have 9 years to complete the Bachelor of Education (Secondary), including any approved leave of absence.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

<https://www.student.qut.edu.au/about/faculties-institutes-and-divisions/faculties/education/manage-your-studies#learning-support>

Professional Recognition

The Bachelor of Education (Secondary) is an Australian Institute for Teaching and School Leadership and Queensland College of Teachers approved course. Graduates are eligible to apply for teacher registration.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be

unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Field Studies Units will be taken in Queensland schools and settings.

Teaching Area Combinations

Students will select one major and one minor teaching area, and these can be seen in more detail under the Course Structure tab above (subject to approval).

Majors:

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to

as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Enrolling

You have 9 years to complete the Bachelor of Education (Secondary), including any approved leave of absence.

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Career Outcomes

You will be prepared to teach in two curriculum or teaching areas in secondary schools.

Literacy and Numeracy Statement

As part of your course, all Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy and numeracy standards in order to meet the course and QCT professional accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students may also seek support from a range of advisers across QUT. Students will also have the support of their Program Coordinator to identify the best approach for them.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-

Teaching Area Combinations

Students will select one major and one minor teaching area, and these can be seen in more detail under the Course Structure tab above (subject to approval).

Majors:

English
Mathematics
History
Geography
Biology
Physics
Chemistry
Earth and Environmental Science
Health and Physical Education

Minors:

Intermediate English (not to be taken with English major)
Intermediate Mathematics (not to be taken with Mathematics major)
Intermediate History (not to be taken with History major)
Intermediate Geography (not to be taken with Geography major)
Intermediate Science (not to be taken with Biology, Physics, Chemistry, Earth & Environmental Science majors)

Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover

teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151. This is a University and Queensland College of Teachers requirement.

Designated Units

Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

Domestic Entry requirements

Prerequisite: Prior Study

Completion of a Diploma of Children's Services (Early Childhood Education and Care) or Diploma or Advanced Diploma of Children's Services, or an equivalent accredited qualification.

Prerequisite: Prior Work Experience

Diploma holders must also have the following early childhood experience:

- one year full-time (or equivalent) group leader experience; or
- two years full-time (or equivalent) family day care experience as an accredited provider; or
- two years full-time (or equivalent) early childhood teacher aide experience in a state preschool, prep or crèche and kindergarten association centre; or
- two years full-time (or equivalent) before and after school care experience.

Advanced Diploma holders must complete the above early childhood experience before they graduate, however if you already have this experience you are strongly recommended to provide evidence with your QTAC application.

Note: The majority of supervised professional experience must occur in Australian school settings.

Automatic Advanced Standing (Credit)

If admitted to this course you will be automatically granted advanced standing of one and half years of study (ie 144 credit points) for their completed Diploma of Children's Services (or an equivalent accredited qualification) and early childhood work experience.

If admitted on the basis of an Advanced Diploma of Children's Services and you have not supplied QTAC with evidence of their early childhood experience you will only be automatically granted advanced standing of one year of study (ie 96 credit points) and you will be required to provide evidence of your early childhood experience to QUT prior to graduation.

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT)

literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards. Field Studies Units will be taken in Queensland schools and settings.

Literacy

Graduate Certificate in Education Overview

In the Graduate Certificate in Education you will acquire knowledge and understanding of specific issues in education, develop the skills necessary to identify and evaluate these issues, provide leadership within an educational setting and acquire abilities to manage the problems identified.

These programs will suit teachers, educators and graduates with relevant employment experience who are seeking to make a career change within education or enhance their existing education career.

Career Development - IMPORTANT INFORMATION

The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA). This endorsement has been granted for a five year period until 2014.

In the Career Development study area you are required to complete the following

four (4) units: LCN636 Introductory Educational Counselling OR LCN618 Advanced Educational Counselling; LCN621 Career Development and Professional Practice; LCN622 Career Counselling; and LCN637 Career Development: Policy and Process Context (48 credit points).

PRIOR KNOWLEDGE: If you have previously studied an introductory counselling unit or have counselling experience, you may satisfy the prior knowledge required to study LCN618 Advanced Educational Counselling without the prerequisite of LCN636 Introductory Educational Counselling. If you do not satisfy the prerequisite, you will need to undertake the unit LCN636 Introductory Educational Counselling in your first unit of study. If you believe that you have sufficient prior knowledge to waive the requirement to study LCN636, you will need to send an email to the study area coordinator, Ms Michele Moon (m.moon@qut.edu.au), with a copy to the course administrator, Sian Rodgie (sian.rodgie@qut.edu.au) and provide certified evidence of your previous study, and/or an original or certified letter, on letterhead from your employer. This waiver must be approved BEFORE you enrol in LCN618 or LCN622.

BLOCK DATES: As part of your course, you have a 'BLOCK' unit to complete as a core unit. This unit comprises of a 4 or 5 day intensive at Kelvin Grove Campus during Queensland school holidays and BEFORE semester begins. There will also be some further work throughout the remainder of the teaching period. If you are required to study LCN636, you should undertake it in your first semester of study. The Block dates for Career Development are: 13TP (Similar to semester 1) - LCN636 Introductory Educational Counselling: Monday 5 - Thursday 8 January, 2015 (It is advised that you complete this unit in the block BEFORE your first semester of study). LCN636 is also offered in internal mode in semester 1 only, attending classes on campus each week at Kelvin Grove. SEMESTER 2 - LCN636 Introductory Educational Counselling: Monday 29 June - Thursday 2 July, 2015 (Unless previously completed, it is advised that you complete this unit in the block BEFORE your first semester of study); LCN618 Advanced Educational Counselling: Monday 29 June - Friday 3 July, 2015.

13TP1: 13TP1 is a teaching period that runs in conjunction with semester 1 each

Graduate Certificate in Education (Career Development)

year. LCN636 is offered in this teaching period because the enrolment date is earlier than it is in semester 1. As the block is run so early in the year, the earlier enrolment date enables students to be better prepared for their January block unit. 13TP1 enrolment and census dates can be found on the 'Key Dates' page on the QUT website.

It is recommended that you apply early if you plan to commence the units offered via block mode in your first semester as the block units commence prior to the start of the normal semester (eg January, and June or July).

Early Years - IMPORTANT INFORMATION

This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of

young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

In the Early Years study area you are required to complete the following four (4) core units: EAN601 Investigating Curriculum and Pedagogy in Early Childhood; EAN603 Child Development in Context; EAN614 Arts and Sciences in Early Childhood; and EAN616 Language, Literacies and Communication in Early Childhood.

Inclusive Education - IMPORTANT INFORMATION

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to

address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

In the Inclusive Education study area you are required to complete the following four (4) core units: LCN629 Inclusive Education: Theory, policy and practice; LCN632 Understanding reading and writing difficulties; LCN634 Supporting students with social, emotional and behavioural needs; and LCN635 Supporting students with an Autistic Spectrum Disorder.

The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA). This endorsement has been granted for a five year period until 2014.

You are required to complete the two (2) MEd core units: EDN610 Professional Dialogues in Education and EDN611 Conducting and Evaluating Educational Research, plus the four (4) Career Development core units: LCN636 Introductory Educational Counselling OR LCN618 Advanced Educational Counselling; LCN621 Career Development and Professional Practice; LCN622 Career Counselling; and LCN637 Career Development: Policy and Process Context, as well as two (2) option units. Please refer to the Course Structure of ED79 Master of Education (No Major/Study Area) for a full list of option units and their semester of offering. There is a suggested plan for your progression through the course under Course Structures. As there are prerequisites and concurrent requisites involved, you will need to take great care when selecting your units. You are permitted to enrol in a minimum of one (1) unit per semester but please consult the Maximum Course Completion Times below.

PRIOR KNOWLEDGE: If you have previously studied an introductory counselling unit or have counselling experience, you may satisfy the prior knowledge required to study LCN618 Advanced Educational Counselling without the prerequisite of LCN636 Introductory Educational Counselling. If you do not satisfy the prerequisite, you will need to undertake the unit LCN636 Introductory Educational Counselling early in your study as it is a prerequisite to many of the other units. If you believe that you have sufficient prior knowledge to waive the requirement to study LCN636, you will need to send an email to the study area coordinator, Ms Michele Moon (m.moon@qut.edu.au), with a copy to the course administrator, Sian Rodgie

(sian.rodgie@qut.edu.au) and provide certified evidence of your previous study, and/or an original or certified letter, on letterhead from your employer. This waiver must be approved BEFORE you enrol in LCN618 or LCN622.

BLOCK DATES: As part of your course, you have a BLOCK unit to complete as a core unit. This unit comprises of a 4 or 5 day intensive at Kelvin Grove Campus during Queensland school holidays and BEFORE semester begins. There will also be some further work throughout the remainder of the teaching period. If you are required to study LCN636, you should undertake it in your first semester of study. The Block dates for Career Development are: 13TP1 (Similar to semester 1) - LCN636 Introductory Education Counselling: Monday 5 - Thursday 8 January, 2015 (It is advised that you complete this unit in the block BEFORE your first semester of study). LCN636 is also offered in internal mode in semester 1 only, attending classes on campus each week at Kelvin Grove. SEMESTER 2 - LCN636 Introductory Education Counselling: Monday 29 June - Thursday 2 July, 2015 (Unless previously completed, it is advised that you complete this unit in the block BEFORE your first semester of study); LCN618 Advanced Educational Counselling: Monday 29 June - Friday 3 July, 2015.

13TP1: 13TP1 is a teaching period that runs in conjunction with semester 1 each year. LCN636 is offered in this teaching period because the enrolment date is earlier than it is in semester 1. As the block is run so early in the year, the earlier enrolment date enables students to be better prepared for their January block unit. 13TP1 enrolment and census dates can be found on the 'Key Dates' page on the QUT website.

It is recommended that you apply early if you plan to commence the units offered via block mode in your first semester, as the block units commence prior to the start of the normal semester (eg January, and June or July).

Early Years - IMPORTANT INFORMATION

This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

You are required to complete the two (2) MEd core units: EDN610 Professional Dialogues in Education and EDN611 Conducting and Evaluating Educational Research, plus the four (4) Early Years core units: EAN601 Investigating Curriculum and Pedagogy in Early Childhood; EAN603 Child Development in Context; EAN614 Arts and Sciences in Early Childhood; and EAN616 Language, Literacies and Communication in Early Childhood, as well as two (2) option units. You will not need to 'register into classes' if you study externally. **INTERNAL:** The unit requires regular attendance at classes on Kelvin Grove campus during semester. **BLOCK:** The unit is offered in a block of lectures during the January or June/July Queensland School Holidays, with attendance being over a number of days, usually Monday to Friday of a particular week. Assessment is completed during the remainder of the semester via online learning platforms such as QUT Blackboard.

OPTION UNITS:

As part of your Masters study area, you are able to complete a number of option units which can be selected from any units listed under any of the study areas in ED79, with the exception of field studies/practicum units. Please refer to the Units or Course Structure tab (depending on whether you are looking at prospective or current student information) / ED79 OPTION UNITS.

MINIMUM AND MAXIMUM UNIT ENROLMENT:

Domestic students may enrol in a minimum of one (1) unit per semester, but please be advised that the maximum course time limits must still be adhered to (see below). If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence (see below). Failure to do so may result in the system automatically withdrawing you from your course. If you wish to enrol in more than four (4) units per semester, you will need permission, in writing, from the Course Coordinator.

MAXIMUM COURSE COMPLETION TIMES:

ED79 Master of Education students who began studying prior to 2014 have a maximum of four (4) years to complete their course, including any leave taken. Due to M.O.P.P changes, ED79 Master of Education students who began studying in 2014 have a maximum of three (3)

years to complete their course, including any leave taken.

LEAVE OF ABSENCE:

ED79 Master of Education is a phasing out course. Individual applications for a leave of absence will be considered on a case-by-case basis. For information on applying for a leave of absence, refer to the following site:
<http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/interrupting-your-studies>

WORKING WITH CHILDREN (BLUE CARD):

You may need either a Blue Card, if you are not a registered teacher, or an exemption card. Teachers registered with the Queensland College of Teachers do not require a Blue Card or an exemption card when teaching at school or boarding school. However, they may require an exemption card if providing other child-related regulated services. Teachers registered in other states or countries, and students without Teachers Registration will need to apply, via the link below, for the appropriate card.

This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services website:
<http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards>

If you are applying for credit for specific units, you will need to provide detailed unit/subject outlines from your previous study. You can also apply for Advanced Standing based on work or industry experience. Advanced standing is not able to be awarded for normal teaching experience. If you are responsible for an original academic work, such as creating a course and/or curriculum, or have published any original

research etc. then you may be eligible for credit for work or industry experience. For further information, or an application form, please refer to the following website:

Inclusive Education - IMPORTANT INFORMATION

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

In the Inclusive Education study area you are required to complete the two (2) MED core units: EDN610 Professional Dialogues in Education and EDN611 Conducting and Evaluating Educational Research, plus the four (4) Inclusive Education core units: LCN629 Inclusive Education: Theory, policy and practice; LCN632 Understanding reading and writing difficulties; LCN634 Supporting students with social, emotional and behavioural needs; and LCN635 Supporting students with an Autistic Spectrum Disorder, as well as two (2) option units. However, they may require an exemption card if providing other child-related regulated services. Teachers registered in other states or countries, and students without Teachers Registration will need to apply, via the link below, for the appropriate card.

This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services website:
<http://www.student.qut.edu.au/studying/job-and-work-experience/work-experience-and-placements/blue-cards>

Teacher-Librarianship - IMPORTANT INFORMATION

This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. The study area is recognised by the Australian Library and Information Association (ALIA) for the five year period, March 2012 to March 2017. Graduates are eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

In the Teacher-Librarianship study area you are required to complete one (1) MEd core unit: EDN611 Conducting and Evaluating Educational Research, plus the seven (7) Teacher-Librarianship core units: CRN600 Youth, Popular Culture, and Texts; IFN617 Managing and Organising Collections; LCN600 Connected Learning; LCN601 Designing Spaces for Learning; LCN615 Learning Hubs; LCN616 Inquiry Learning and LCN617 Children's Literature: Criticism and Practice.

There is a suggested plan for your progression through the course under 'Course Structures'. You are permitted to enrol in a minimum of one (1) unit per semester, but please consult the Maximum Course Completion Times below.

Integrated into the study area is a Situated Professional Practice (SPP) program across seven (7) of the core units. The SPP program requires 60 hours of on-site activity in library locations, and the compilation of a Professional Portfolio. The purpose of SPP and the Professional Portfolio is to provide students with opportunities to engage in authentic, real-world learning that will enable them to reflect on current professional practices, apply critical thinking and problem-solving, and make connections between theory and practice.

Students in Teacher-Librarianship must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

Study Areas for Domestic Students

Career Development:

The field of Career Development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA).

Early Childhood Teaching:

This study area will enable you to develop in-depth theoretical and practical

knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services. This is a dedicated study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings.

Early Years:

This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

General Studies:

Students can choose a general studies Masters which does not provide a study area and consists of four (4) core units and eight (8) option units. This program can be tailored to suit your individual study needs and interests.

Inclusive Education:

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and

health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Leadership and Management:

This study area focuses on building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

School Guidance and Counselling (General or Career):

This study area is suitable for guidance officers seeking to advance their knowledge or qualified teachers seeking a career change. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Queensland schools. School Guidance and Counselling 'General' will enable you to be eligible for employment from P-12. 'Career' is mainly for guidance and counselling in a secondary school as it also meets the Career Industry Council of Australia (CICA) professional standards.

Teacher-Librarianship:

This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. The study area is recognised by the Australian Library and Information Association (ALIA) for the five year period, March 2012-March 2017. Graduates are eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Teaching English to Speakers of Other Languages (TESOL):

TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Study Areas for International Students

When choosing a study area, international students on a student visa are restricted by the ESOS Act and their agreement with QUT. Study Areas must be offered in full-time and internal mode, as international students are required to study four (4) units per semester. The study areas below are available to international students:

Career Development

The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA).

ASSUMED KNOWLEDGE:

If you have previously studied an introductory counselling unit or have counselling experience, you may satisfy the prior knowledge required to study LCN618 Advanced Educational Counselling without the prerequisite of LCN636 Introductory Educational Counselling. If you do not satisfy the prerequisite, you will need to undertake the unit LCN636 Introductory Educational Counselling early in your study as it is a prerequisite to many of the other units. If you believe that you have sufficient prior knowledge to waive the requirement to study LCN636, you will need to send an email to the study area coordinator, Ms Michele Moon (m.moon@qut.edu.au), with a copy to the course administrator, Sian Rodgie (sian.rodgie@qut.edu.au) and provide certified evidence of your previous study, and/or an original or certified letter, on letterhead from your employer. This waiver must be approved before you enrol in LCN618 or LCN622.

BLOCK DATES:

As part of your course, you have a BLOCK unit to complete as a core unit. This unit comprises of a 4 or 5 day intensive at Kelvin Grove Campus during Queensland school holidays and BEFORE semester begins. There will also be some further work throughout the remainder of the teaching period. If you are required to study LCN636, you should undertake it in your first semester of study if you have applied before the January or June cut-off date. The Block dates for Career Development are as follows: 13TP1 (Similar to semester 1) - LCN636 Introductory Education Counselling: Monday 4 - Thursday 7 January, 2016 (It is advised that you complete this unit in the block BEFORE your first semester of study). LCN636 is also offered in internal mode in semester 1 only, attending classes on campus each week at Kelvin Grove. SEMESTER 2 - LCN636 Introductory Education Counselling:

Monday 27 June - Thursday 30 June, 2016 (Unless previously completed, it is advised that you complete this unit in the block BEFORE your first semester of study); LCN618 Advanced Educational Counselling: Monday 27 June - Friday 1 July, 2016.

13TP1:

13TP1 is a teaching period that runs in conjunction with semester 1 each year. LCN636 is offered in this teaching period because the enrolment date is earlier than it is in semester 1. As the block is run so early in the year, the earlier enrolment date enables students to be better prepared for their January block unit. 13TP1 enrolment and census dates can be found on the 'Key Dates' page on the QUT website.

It is recommended that you apply early if you plan to commence the units offered via block mode in your first semester, as the block units commence prior to the start of the normal semester (eg January, and June or July).

Early Childhood Teaching

This study area will enable you to develop in-depth theoretical and practical knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services. This is a dedicated study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings. The study area is recognised by Australian Children's Education and Care Quality Authority as a specialist early childhood qualification.

When undertaking the unit EDN635 Field Studies in Early Childhood OR EDN641 Field Studies in Early Childhood: Birth to 5 Years, you must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

Early Years

This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have

consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

Inclusive Education

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models,

socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Course Overview

EU70 Master of Education focuses on specialised study areas that are currently in demand and feature innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

This course will suit teachers, educators and graduates, with relevant employment

experience, who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration. Please refer to the Master of Teaching (Early Childhood or Primary - subject to approval) or the Graduate Diploma in Education (Senior Years) if you are seeking teacher registration.

EU70 Master of Education consists of twelve (12) units (144 credit points) selected from the postgraduate units. Course duration is one and a half (1.5) years internal or external full-time, or three (3) years internal or external part-time. Students have a maximum of four (4) years to complete the course.

Course Coordinator: Associate Professor Beryl Exley, b.exley@qut.edu.au, (07) 3138 3267, B434.

School Guidance and Counselling - Career:

This study area is suitable for guidance officers seeking to advance their knowledge or qualified teachers seeking a career change. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Queensland schools. School Guidance and Counselling 'General' will enable you to be eligible for employment from P-12. 'Career' is mainly for guidance and counselling in a secondary school as it also meets the Career Industry Council of Australia (CICA) professional standards. PLEASE NOTE: This qualification is only recognised by education employing authorities in Queensland.

There is a suggested plan for your progression through the course under 'Course Structures' ('Units' tab for prospective students). As there are prerequisites and concurrent requisites involved, you will need to take great care when selecting your units. You are permitted to enrol in a minimum of one (1) unit in a semester, but please consult the Maximum Course Completion Times, as in most cases you will need to enrol in more than one unit to complete in time. At the beginning of each year, it is imperative that you enrol in BOTH semester 1 and semester 2.

BLOCKS: As part of the School Guidance and Counselling study area, there are a

number of units that are held in a one week BLOCK of intensive study at QUT Kelvin Grove Campus. These are usually held BEFORE semester begins.

Students in School Guidance and Counselling must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

School Guidance and Counselling study area coordinator: Professor Marilyn Campbell, ma.campbell@qut.edu.au, (07) 3138 3806, Room A315B.

Administration Officer: Ms Sian Rodgie, educationenq@qut.edu.au, (07) 3138 3947, Room A215.

Course Overview

EU70 Master of Education focuses on specialised study areas that are currently in demand and feature innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

This course will suit teachers, educators and graduates, with relevant employment experience, who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration. Please refer to the Master of Teaching (Early Childhood or Primary) or the Graduate Diploma in

Education (Senior Years) if you are seeking teacher registration.

EU70 Master of Education consists of twelve (12) units (144 credit points) selected from the postgraduate units. Course duration is one and a half (1.5) years internal or external full-time, or three (3) years internal or external part-time. Students have a maximum of four (4) years to complete the course.

Course Coordinator: Associate Professor Beryl Exley, b.exley@qut.edu.au, (07) 3138 3267, B434.

Teacher-Librarianship

This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. Recognition of the study area is being sought by Australian Library and Information Association (ALIA). Graduates may be eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Integrated into the study area is a Situated Professional Practice (SPP) program across seven (7) of the twelve (12) units. The SPP program requires 60 hours of on-site activity in library locations, and the compilation of a Professional Portfolio. The purpose of SPP and the Professional Portfolio is to provide students with opportunities to engage in authentic, real-world learning that will enable them to reflect on current professional practices, apply critical thinking and problem-solving, and make connections between theory and practice.

Students in Teacher-Librarianship must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and

Master of Education (Teacher-Librarianship)

financial penalties. Application forms can be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

Teacher-Librarianship study area coordinator: Dr Mandy Lupton, mandy.lupton@qut.edu.au, 0434 861 063, Room L128.

Administration Officer: Ms Sian Rodgie, educationenq@qut.edu.au, (07) 3138 3947, Room A215.

EXTERNAL: The unit will be conducted through the QUT Blackboard site and other online learning platforms. Regular access to an up-to-date computer and reliable internet access is imperative. You will not need to 'register into classes' if you study externally. **INTERNAL:** The unit requires regular attendance at classes on Kelvin Grove campus during semester.

BLOCK: The unit is offered in a block of lectures during the January or June/July Queensland School Holidays, with attendance being over a number of days, usually Monday to Friday of a particular week (5 days attendance). MINIMUM AND MAXIMUM UNIT ENROLMENT:

Domestic students may enrol in a minimum of one (1) unit per semester, but please be advised that the maximum course completion time must still be adhered to. In most cases you will not be able to complete your course in the maximum time with just one unit per semester (see below). If you do not enrol in at least one (1) unit, you will need to

apply for a leave of absence (see below). Failure to do so may result in the system automatically withdrawing you from your course. If you wish to enrol in more than four (4) units per semester, you will need permission, in writing, from the Course Coordinator.

MAXIMUM COURSE COMPLETION TIMES:

Students are required to adhere to the time limits for competing an award course (MOPP E4/4). EU70 Master of Education students have four (4) years to complete the course, inclusive of periods of leave of absence.

LEAVE OF ABSENCE:

If you've completed your first semester or teaching period, and you need to take a break from your studies, you can apply for a formal leave of absence:

<http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/interrupting-your-studies> If you are a commencing student and wish to start in a later teaching period, you can ask for your application to be considered and reassessed for the next available semester or teaching period by emailing: qut.pgapplications@qut.edu.au. Please consult the Maximum Course Completion Times before applying.

WORKING WITH CHILDREN (BLUE CARD):

You may need either a Blue Card, if you are not a registered teacher, or an exemption card. Teachers registered with the Queensland College of Teachers do not require a Blue Card or an exemption card when teaching at school or boarding school. However, they may require an exemption card if providing other child-related regulated services. Teachers registered in other states or countries, and students without Teachers Registration will need to apply, via the link below, for the appropriate card.

This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that

adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

Fees

Australian citizens and permanent residents will be awarded a Research Training Scheme (RTS) place. Domestic students are not required to apply for an RTS entitlement, as it will be automatically allocated. The RTS covers tuition fees but not other study related costs. PhD Students are entitled to four years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for extension, however the University may charge fees for the period of the program, which exceeds the student's entitlement. The University determines the fee level for domestic and international students.
